

GOPHER LINES MUCH WATERED

Committee of the State Senate Which Delves Into the Affairs of Minnesota Railroads Reports Interesting Revelations.

Valued at \$27,000 per Mile, the Capitalization Is Nearly Double That, While the Net Earnings Last Year Were Over \$5,000 per 5,280 Feet of Trackage—Harriman Apparently Outdone in Stickney's Alleged Manipulation of the Great Western.

St. Paul, April 22.—The railroad property in Minnesota is valued at \$275,000,000 by the Sunberg investigating committee, which submitted its report to the state senate today. This is approximately \$27,000 a mile. The property is capitalized to the extent of \$490,000,000, or \$24,000 a mile on an average.

Mr. Stickney's Achievement.

A large section of the report is devoted to a drastic review of the Great Western. This road, it says, "was built by A. B. Stickney, who raised the funds by acquiring, organizing, reorganizing and 'harrimanizing' divers and sundry corporations of Minnesota, Iowa and Illinois."

In its last report the company certifies that the line and equipment cost \$98,011 per mile, while in the detail of its statement there is the following item: "Purchase of constructed road \$58,994 per mile." This would mean \$50,000,000 for the whole line. In 1891 there was reported: "For the purchase of constructed road, \$6,313,191."

Memphis, Tenn., April 22.—W. W. Finley, president of the Southern Railway company, in an address tonight at a banquet declared that the interests of the railway and of the people depending upon it for transportation are identical.

GOVERNMENT LOSES SUIT.

Court of Claims Awards Loyal Sioux Indians Nearly \$800,000.

Washington, April 22.—The United States court of claims today rendered judgment in favor of the loyal western Indians of the Sisseton and Wahpeton bands of Sioux Indians and against the government for \$788,971.

The claims were based on the treaty of July 23, 1851, by the terms of which the government agreed to pay these Indians \$305,000 and an annuity of \$73,600 for fifty years.

WANT PAY IN FEES.

Salary Law Attacked by County School Superintendents in Illinois.

Springfield, Ill., April 22.—Mandamus proceedings against the state treasurer to compel that official to pay county superintendents of schools one dollar per day for visiting the schools of their district were filed today with the supreme court.

JEROME WILL FIGHT.

No Change of Venue for Thaw if the Prosecutor Can Prevent It.

Washington, April 22.—In an opinion by Chief Justice Fuller, the supreme court today dismissed the criminal case of Frederick Seymour, alias "Lord" Barrington, under sentence of death in St. Louis on the charge of murdering James P. McAnn in June, 1903, thus sustaining the verdict of guilty returned by the trial court.

EX-JUDGE KILLS HIMSELF.

Lead, S. D., April 22.—Joseph B. Moore, aged forty-seven, former circuit judge of Lawrence county, committed suicide tonight by shooting himself.

TODAY'S WEATHER.

Washington, April 22.—The following is the weather bureau's forecast for Upper Michigan: Fair, Tuesday and Wednesday; fresh west winds.

UNWRITTEN LAW UPHELD BY ALL

FIFTY-THREE PROSPECTIVE JURYMEN EXCUSED FROM SERVICE IN MURDER TRIAL.

St. Louis, April 22.—Fifty-three men out of the venire of 100 summoned for the trial of Policeman Michael J. McNamara, charged with murder for killing his wife and John J. Brophy, Aug. 23, 1906, were excused today after they had sworn that they believed in the "unwritten law."

GOES BACK TO ITALY.

Enrico Alfano, Bandit King, to Be Deported from America.

New York, April 22.—Enrico Alfano, the alleged leader of the secret and criminal Camorra society of Naples, who was arrested in this city yesterday during a police raid on the East side, was turned over today to the immigration authorities, by whom he will be deported to Italy.

ANOTHER PLANT ABSORBED.

Berry Bros. Takes Over the Furnaces at Elk Rapids, Mich.

Detroit, April 22.—Word has been received here that the iron furnaces and chemical plant of the Elk Rapids (Mich.) iron company, valued at \$1,500,000, have been sold to Berry Bros. of Detroit.

BEER-SELLING TABOOED IN SUNFLOWER STATE

BREWERS MUST WITHDRAW FROM KANSAS, HIGH COURT RULES, OR YIELD TO RECEIVERSHIPS.

Topeka, Kas., April 22.—The supreme court this afternoon allowed the suit of Attorney General Jackson for the receivership of either Taft or Foraker's political factors in the country. It can be said with certainty and by the same authority that only a short time ago a compromise agreement was entered into which contemplated conceding the Ohio national delegation to Taft and letting Foraker have an untrammelled way in his fight for the retention of his seat in the senate.

FOUR JURORS SWORN IN.

Reef Extortion Trial at San Francisco Makes Slow Progress.

San Francisco, April 22.—The first four of the twelve jurors who will try Abraham Reef on the charge of extorting large sums of money from French restaurants of San Francisco under alleged threats to deprive them of their licenses were secured today and sworn in.

LOTTERY MEN INDICTED.

Mobile, Ala., April 22.—Eight more indictments have been found by the United States grand jury investigating the operations of the Honduras National Lottery company. The names of those indicted will be divulged on Wednesday.

BENEDICT GIMBEL DEAD.

New York, April 22.—Benedict Gimbel, the wealthy Philadelphia merchant who cut his throat and wrists with broken glass in Hoboken last Friday, soon after being arrested on a serious charge, died early today.

PLANS TO FORCE FORAKER'S HAND

Secretary Taft Maps Out an Aggressive Campaign That May Eliminate the Senior Senator as a Factor in the Ohio Fight.

Washington, April 22.—The secretary of war, Mr. Taft, will take his proposed trip to the Philippines next fall. This has been definitely decided. He will also make at least three speeches in the state of Ohio, in the course of which he will ask the people of that state to instruct the delegates to the next national convention in his behalf.

Balloon from Philadelphia Reaches an Altitude of 12,000 Feet.

Madison, Wis., April 22.—A balloon which left Philadelphia at 12:45 o'clock this afternoon landed here at 2:15 o'clock, having covered sixty miles in an hour and a half. In the balloon were A. R. Hawley, a New York broker, and Arthur T. Atherton, of Philadelphia. The balloon reached an altitude of 12,000 feet.

AMERICANS WHO CONTEST IN ENGLAND LOSE ONE BOAT, WITH THE OTHER.

London, April 22.—The fight tonight between Owen Moran, of Birmingham, and Albert Delmont, of Boston, twenty rounds for the bantam championship of the world and \$2,000, was won by Moran on points after the contest had gone the limit. The bout between Sam Langford, American, and Tiger Smith, the Welsh fighter, twenty rounds for the middleweight championship of the world and \$2,000, was won by Langford in the fourth round.

BAN IS LIFTED IN WINDY CITY

Chicago, April 22.—Boxing is to be resumed in Chicago again, under certain restrictions, after being under the ban for over two years.

CONFERS WITH PARTY LEADERS AND TALKS OF MUNICIPAL PROBLEMS.

Boston, Mass., April 22.—In his second visit to Boston this week, Wm. J. Bryan held a conference today with several Democratic leaders, including former Governor Douglas, and later delivered an address on "Problems of City Government."

OKLAHOMA REPUBLICANS TO FIGHT.

Washington, April 22.—Secretary of War Taft and party arrived at the Washington navy yard on board the Mayflower tonight after an absence of one month on a trip that included Panama, Cuba and Porto Rico.

SECRETARY OF WAR IS HOME.

Washington, April 22.—Secretary of War Taft and party arrived at the Washington navy yard on board the Mayflower tonight after an absence of one month on a trip that included Panama, Cuba and Porto Rico.

State Committee Endorses Colt.

PROVIDENCE, R. I., APRIL 22.—The Republican state central committee, at a meeting held today, passed resolutions endorsing Colonel Samuel Pomeroy Colt as the majority candidate of the Republican party for the United States senatorship.

CONFERS WITH PARTY LEADERS AND TALKS OF MUNICIPAL PROBLEMS.

BOSTON, MASS., APRIL 22.—In his second visit to Boston this week, Wm. J. Bryan held a conference today with several Democratic leaders, including former Governor Douglas, and later delivered an address on "Problems of City Government."

WASHINGTON, APRIL 22.—Secretary of War Taft and party arrived at the Washington navy yard on board the Mayflower tonight after an absence of one month on a trip that included Panama, Cuba and Porto Rico.

MUCH BLOODSHED IN POLAND.

Nationalists and Socialists at Lodz Engage in Sanguinary Conflicts.

Lodz, April 22.—Lynch law has been instituted by the Nationalists to put an end to the socialistic outrages here. Having captured one of three socialists who murdered a fifteen-year-old girl, a band of Nationalists took the prisoner to the outskirts of the city, tried him, sentenced him to death by hanging, and carried out the sentence.

New Building for Parliament.

ST. PETERSBURG, APRIL 22.—The first steps toward the erection of a new parliamentary building to take the place of the Tauride palace, where the sessions are now held, were taken today.

PARIS WOMAN ACQUITTED.

PARIS, APRIL 22.—The woman named Almagne, who made an attempt upon the life of Pierre Merlon, who was at one time minister for finance and is now minister of France to Peru, in this city last November, was acquitted by the jury today of the charge of attempted murder.

JAP OFFICIAL ASSASSINATED.

SEOUL, APRIL 22.—M. Pak Whia, chief of the board of auditors of the Korean imperial household, was assassinated at Seoul last night.

ELEVATOR MAN RESCUES MANY

CHICAGO, APRIL 22.—The six-story building at 290-300 Wabasha street was badly damaged by fire today, and a loss of \$75,000 was sustained by the tenants.

STICKS TO POST IN BURNING BUILDING AT CHICAGO UNTIL SMOKE OVERCOMES HIM.

CHICAGO, APRIL 22.—The six-story building at 290-300 Wabasha street was badly damaged by fire today, and a loss of \$75,000 was sustained by the tenants.

TWO DISASTROUS FIRES EARLY TODAY.

NEW YORK, TUESDAY, APRIL 23.—It is reported that 300 horses were suffocated or burned to death early this morning in the destruction by fire of the Despatch stables, 130 to 142 Broadway street, near Washington street.

TARIFF PACI STANDS.

GERMAN COMMITTEE APPROVES THE PROVISIONAL AGREEMENT WITH AMERICA.

BERLIN, APRIL 22.—The economic committee composed of thirty agriculturists and manufacturers and business men from all parts of the empire, met at the ministry for the interior today and spent the entire time in considering the prolongation of the tariff arrangement with the United States.

ELECTIONS IN SPAIN.

MADRID, APRIL 22.—The returns from the elections for members of the chamber of deputies, held yesterday, are all in, and show a sweeping victory for the Conservatives. Out of 404 seats in the chamber, Conservatives have been elected to 260. The Liberals have 63, the Republicans and Catalanists 50 and all other groups 31.

SULTAN PROCRASTINATES.

REPLY OF THE MOROCCAN KING TO THE DEMANDS OF FRANCE IS UNSATISFACTORY.

TANGIER, APRIL 22.—The reply of the sultan of Morocco to France's demands for redress in connection with the murder of Dr. Manchamp arrived here today. It is in the form of a lengthy, confused document. It is said that it does not accord all the French claims, but shows a desire to negotiate.

ENROUTE TO JAMESTOWN.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$3.00; Per year, by mail, \$30.00.

MARQUETTE, MICH., APRIL 23.

Entered as mail matter of the second class at the postoffice at Marquette, Mich.

Now let us have political peace.

Evidently Mr. Bigelow of the Osceola is ready to go the limit.

Secretary Taft's brother appears to be a mighty important lay figure.

From all accounts Boston is a little less pessimistic in regard to the price of copper.

Any way two years must pass before there will be any danger of another recount.

By the way, who is going to manage Vice President Fairbanks' Michigan campaign?

President Roosevelt's problem is a serious one, and not the least serious phase of it is how shall he fight the nomination away from himself.

Again let us recollect that we would have had none of this sparring over the election returns if we had only used the voting machines for the city ticket.

A ticket headed by Taft and Hughes would have elements of popular strength only to be exceeded by those of a ticket headed by Roosevelt and Hughes, or Roosevelt and someone else.

The nature of the responses of the members of the state central committee to the Detroit Free Press' queries would indicate there is nothing in Michigan on which to hang a movement for a reactionary candidate.

Ex-Representative Wadsworth acts as if he wanted some more of the Big Stick. But the president reserves the Big Stick for big game, and ex-Representative Wadsworth is a member of the Down and Out club.

The first boat is as far away as ever, as far as positive predictions go, but as a matter of fact its arrival cannot be long delayed. There has been a change in the weather that is rotting the ice and that will soon open the channels which are still blocked. We ought to see our first boat the latter part of the week, or early next week.

The current issue of the Soo Times shows an enlargement to seven columns and a lengthening of the pages, giving the paper much additional space both for news and for its advertisers. The enlargement is made possible by a new press and new material. The Times is one of the best weeklies in the U. P.—in the state, in fact—and well merits the excellent support it receives.

"Fakir" and "humbog" are among the mild explosives that James W. Wadsworth, formerly a congressman from New York state, who won national fame, and defeat in his district, by opposing the packing house regulation law, ap-

How Athletes Keep Strong and Healthy

Their Diet Should Be a Revelation To All Men and Women. Physical perfection, great endurance and untiring health are positively essential in modern athletic work and great attention is given to the diet. In schools where a "training table" is provided for the athletes, only the most nutritious food is served, and in cases where there is no training table the athlete is advised to eat the most healthful food only. Whether or not he follows such advice is shown by his physical condition. If the average man—the business man—the lawyer, the teacher, the clerk, the mechanic, the laborer—took such care as to the food he eats as the athlete does, there would be far less of sickness and suffering in this world. Among athletes the food value of whole wheat is recognized. They have demonstrated what scientists have long declared to be true: that the various food elements found in wheat are the food elements with which the blood and muscle, the tissues and cells, the bones and brain of the human body must be replenished if life and perfect strength are to be sustained. Every nutritive element of the best white wheat grown is found in Malta-Vita, and it is fast becoming as popular among other people as it long has been among athletes. And Malta-Vita is so good to eat! Always crisp! All grocers, 10 cents.

SUPERIOR TRUST COMPANY

HANCOCK MICHIGAN Capital : \$150,000

This company is under the supervision of the state banking department and is authorized by the law to act as executor, administrator, guardian, assignee, receiver or trustee.

C. A. WRIGHT, Pres. JACOB BAER, Vice Pres. M. C. GETCHELL, Sec'y.

plies to the president of the United States. Mr. Wadsworth is anti-Hughes, anti-Roosevelt and anti-everything connected with the administration. Furthermore his ire has overcome his discretion or he wouldn't hurl billingsgate at the nation's chief executive. Mr. Wadsworth's bad manners, however, are important as showing how dead he is.

Commissioner Bingham is the first New York commissioner of police who has had full control of "de force." And Commissioner Bingham has lost no time about making the fur fly. The independently rich inspectors have been shoved back into obscure captaincies, while their former underlings have been promoted to their vacant chairs. The shakeup began with the passage of the new law conferring on the commissioner adequate powers, and we are informed that it is only fairly under way. At the present writing prospects are bright for an effective cleansing of the Gotham police force.

The success of Mayor Busse's attempt to step from the Chicago postoffice to the mayor's chair has caused the suggestion to be made that Homer Warren, the Detroit postmaster, be nominated by the Republicans for mayor of Detroit, when the next convention is held. As in Chicago the mayors of Detroit have, in most cases of late years, been Democrats, and it takes a strong and popular Republican to break in. Homer Warren is such a Republican, and his friends believe he would be elected easily over any man the Democrats might name. As the next mayoral election in Detroit will not occur until the fall of 1908, it appears, however, that there is plenty of time in which to talk the matter over.

This is what R. H. Shields, one of the members of the state central committee from this congressional district, wrote to the Detroit Free Press, when he was asked for an opinion as to how the sentiment in his district ran in regard to Roosevelt: "The sentiment in this section at this time is clearly in favor of the renomination of President Roosevelt. In my opinion the issues of the next campaign will be the trusts and the tariff. However, everything depends upon the next congress. Its action may eliminate the necessity of nominating Mr. Roosevelt again and produce another available candidate. It may also make the issue of the next campaign. Personally I should like to see the convention go to Detroit; if not, to Chicago."

Chief Shippy, the new head of the Chicago police department, has, with the approval of Mayor Busse, issued an order for the suppression of all money slot machines, and will hold his subordinates responsible if any are to be found in Chicago saloons after today. Under the Dunne administration the slot machines had the right-of-way. They were used wherever saloons men cared to install them, in any number it was deemed wise to use them. The word has gone out that they are henceforth to be absolutely tabooed. Chief Shippy has a number of plain clothes men inspecting the dance halls, with the idea of ending the privileges of the vicious ones among them. These and other reforms in hand warrant a hope that police administration in Chicago is to be wonderfully braided up and that the city will be a much better city for the turning out of the Democratic office holders in favor of Republicans.

The Detroit Journal asks if we are to have an unceritified legislature, and remarks that the legislature of 1907, unless there is some great change in its fortunes, will finish its session with less open criticism and more of the avowed approval of the people than any legislature for perhaps twenty-five years. For a long time there was apparently just complaint about delays, but when the great question of railroad rates began to come forward it was seen that the houses were well prepared for it. A sanely progressive spirit, commendably responsive to the wish of the people, has characterized its actions on important matters. It is fortunate that a responsive legislature has come at a time when the popular mind is so well settled on certain specific demands. Lower railroad fares, traffic regulation and a judicious constitutional convention bill that have been brought forward, the binder twine plant problem, the improvement of the primary bill, the work of harmonizing our insurance laws with those of other states, require no less consideration of the public good because the people are not giving such close attention to them just now. The people will not fail to give attention to any law when it is applied, and the "uncertified legislature" should not forget this. The most regrettable thing in the whole session thus far is the effort of some Wayne members to steer through a Sunday ball bill without taking the legislature or the public into their confidence.

IMPROVED ROAD TAX SYSTEM.

What seems to be a rational solution of the public highway problem is proposed by Senator Ely's bill, which has been favorably reported by the senate taxation committee. In brief, the bill provides that highway taxes, instead of being "worked out," be paid in cash and the money expended under intelligent supervision for the improvement of the roads.

The cash tax to be levied under the

proposed law is divided into two funds, one raised on all property outside the incorporated villages for road repairs, the other a highway improvement fund, raised on all property in the township, including the villages, to be used in improving bridges and highways. Reduction of the tax 33 1-3 per cent is provided for, as it is estimated that more economical employment of labor will be possible and that more effective results can be achieved under the new law for two-thirds the road tax as now assessed.

The deficiencies of the present system of maintaining country roads are pretty well understood. In days when the country was new any sort of road work was acceptable and owing to the scarcity of money permitting the working out of the tax was in the nature of a boon. But it's different now. Better roads are needed and the farmers are so prosperous that they can afford to spend money to get them. The plan outlined by the Ely bill not only is a step in that direction, but an economical step, as well.

ALL FOR ROOSEVELT.

The result of the inquiries by the Detroit Free Press among the state committee of the Republican and Democratic parties is interesting as throwing the first definite light on the way the voters in these parties feel in regard to the next presidential nominees. The Republican committee members quoted by the Free Press are nearly a unit for the renomination of President Roosevelt and the Democrats are about as unanimous in favoring Bryan.

Without exception the Republican committee members report the pro-Roosevelt sentiment in their different districts as strong as ever, and many of them personally go on record as favoring his renomination, if it can be brought about and he can be induced to accept. Not a single committee member suggested the nomination of a reactionary, and but one of them proposed any other candidate than Roosevelt.

It is also noticeable that the committee members refuse to accept the president's announced intention of not being a candidate as final, despite the fact that it has been reiterated and reiterated, until the president has ceased to repeat it for fear that it would lose force through further repetition. These seems to be an undecurrent belief that the president will run.

While in the face of his positive position to the contrary this does not seem at all likely, yet the stand of the Michigan committee members would indicate that if this commonwealth cannot have Roosevelt it will want a man who stands for his policies. There is little or no discoverable sentiment for the selection of a reactionary as the party's standard bearer, and perhaps if the committee members had been thoroughly persuaded that the president was finally and definitely out of the field there would have been more voices raised for Secretary Taft than there was the case.

THE HIGHEST TOWER IN U. S.

The Metropolitan tower now being built in New York City will be the highest structure in this country and only exceeded by one other in the entire world, the Eiffel Tower in Paris. In building this new tower 3,000 tons of steel will be used, this amount being necessary for proper wind bracing. When the system is rounded and in a weakened condition you require a medicine that is capable of building up and renewing the entire system. In Hostetter's Stomach Bitters you will positively find such a medicine, and when you remember that it is backed by a 53 years' record of cures you ought not hesitate another minute in trying a bottle. It cures poor appetite, belching, costiveness, heartburn, biliousness, indigestion, dyspepsia, kidney troubles, female list or malaria, fever and ague. It is strictly pure.

The News—No pure drug Cough Cure laws would be needed, if all Cough Cures were like Dr. Shoop's Cough Cure and has been for twenty years. The National Law now requires that if any poison enters into a cough mixture, it must be printed on the label, or package. For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison-marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks here! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by The Stafford Drug Co.

Mr. S. L. Bowen, of Wayne, W. Va., writes: "I was a sufferer from kidney disease, so that at times I could not get out of bed, and when I did, I could not stand straight. I took Foley's Kidney Cure. One dollar bottle and cure of the second cured me entirely." Foley's Kidney Cure work wonders where others are total failures. The Stafford Drug Co.

A CARD.

This is to certify that all druggists are authorized to refund your money if your Cough or Croup is not cured by Foley's Honey and Tar falls to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures a gripple cough, and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. The Stafford Drug Co.

DARANTELLA MARQUETTE MICHIGAN

BANK REPLACES LANDMARK.

Building Where Dolliver Started Public Career Is Gone.

Fort Dodge, Ia., April 22.—The First National bank of this city is making preparations for the erection of a six-story modern business block in the place of the Fort Dodge landmark recently destroyed by fire, which in pioneer days harbored several men who in after years attained national distinction and won ways of honor office.

Chief of those who formerly inhabited the humble quarters is Iowa's junior senator, J. P. Dolliver, whose first law office was in a room in the rear of the building. The senator recently told this story of his experience there:

"The first night was one of quiet and peaceful repose. My brother shared the room with me and we congratulated ourselves on being so nicely quartered. On retiring the second night we were doomed to be disturbed. The tin roof which covered the rafters of the room had during the day accumulated a large amount of heat, which it shed in generous quantities into the room we occupied. During the night we were further disturbed by something which endeavored in no uncertain manner to devour us alive. I lit a match and turned back the sheet and there they were, massed in football formation, all ready for another grand rush.

"There must have been hundreds of the pesky little bedfellows. The warfare was so vicious that we in time were literally forced to abandon the room and seek other quarters."

Jeff Davis' Captor There.

The building was constructed in 1868 by a man named Smithy. The front part was occupied by a grocery store. Just back of it was the postoffice presided over by Postmaster Page, now cashier of the United States assay office in New York city. Beyond the stairs was the law office of A. N. Botsford and the late Captain J. A. O. Yoeman, who while alive enjoyed the distinction of being detailed as captain of the thirty picked men to effect the capture of Jeff Davis. Captain Yoeman inhabited the greater part of the second story, the room in the rear being occupied by the late Dr. McNulty, a man of generous proportions, who during the time he lived there kept a stout rope in the bottom of his trunk to land him safely on terra firma, less than twenty feet below, in case he fell.

It is related that when Captain Yoeman brought his bride to Fort Dodge in the early 70's among other things that he indulged was an elaborate bedstead, which is today referred to as the high-back variety. The low ceiling of his quarters would not permit of its maintaining a strictly upright position, but the captain's ingenuity came to his rescue in the matter and four holes made in the floor permitted the legs to drop sufficiently to permit of the bed assuming its proper attitude.

Gets His First Suit.

It was while occupying the rear upper room that Senator Dolliver secured his first lawsuit, which gave him no small amount of notoriety. It was not altogether an accident, but nearly so. His client in reality had come to consult Captain Yoeman, but finding him out unrolled his tale of woe as to how he had been swindled in a horse trade, and in the course of the conversation the young attorney was paid a retainer's fee of \$10 to pilot his interests before Justice Sherman.

When Captain Yoeman returned to his office he found that he had lost a client and a fee as well as he was greatly displeased and lost no time in making plain the state of his feeling to the one directly responsible, but Dolliver said he "needed the money" and there is none of the early acquaintances of the now illustrious senator who in any way doubt the truthfulness of this statement.

"PNEUMONIA'S DEADLY WORK"

had so seriously affected my right lung," writes Mrs. Fannies Connor, of Rural Route 1, Georgetown, Tenn., "that I coughed continuously night and day and the neighbor's prediction—consumption—seemed inevitable, until my husband brought home a bottle of Dr. King's New Discovery, which in my case proved to be the only real cough cure and restorer of weak, sore lungs." When all other remedies utterly fail, you may still win in the battle against lung and throat troubles with New Discovery, the real remedy. Guaranteed by The Stafford Drug Co. 50c and \$1. Trial bottle free.

REGULATING THE BAD BOY.

Meeting in Hancock Congregational Church Discusses Him.

The regular Sunday evening service in the Portage Lake Congregational church of Hancock was made the occasion of a discussion of ways and means of checking the apparently downward tendencies of the small boy of Hancock. Rev. J. S. Gould, the pastor, taking cognizance of the recent deprecations of juvenile marauders, asked that his congregation take an interest in the matter. The church was crowded Sunday evening with interested people.

Mr. Gould spoke on the subject, as did Eugene LaRowe, superintendent of the Hancock public schools, and Hon. George C. Bentley, probate judge of Houghton county. Mr. LaRowe spoke of the truancy which has been prevalent among the Hancock children, and suggested remedies. Judge Bentley spoke briefly. The conclusions to be drawn from the remarks of the three speakers was that parents should keep their children at home nights. This is the simple remedy which is suggested, and the three speakers, representing the law, education and the clergy, united in the belief that it is the best one.

The welfare of children in Hancock has attracted considerable attention recently. President Baer of the school board started a crusade to prevent truancy which was becoming unnecessarily prevalent. He insisted on drastic measures and several parents were arrested. They all had excuses to offer, and many of them found it hard to believe that their children could be as bad as they were proven to be. It is this attitude of the parents which the speakers at Sunday night's meeting deplored. They believed that all parents should recognize the principle that their children are just like other children and if permitted to come in contact with vice will become vicious unless cast in extraordinary molds. Judge Bentley said yesterday that parents should come to the conclusion that their children should be regulated by the law which regulates their children.

The record in Hancock last week was five boys arrested, two of them sent to the Industrial school for a term of years, two released on suspended sentence, under the espionage of the officers, and one ordered out of the county. These boys had been implicated in the robbery of churches and schools, as well as business houses, and armed with revolvers, had planned to rob the safe of the largest mercantile store in the city.

Sunday night's meeting resulted in the natural conclusion for those present that it is largely the fault of the parents if the child goes wrong. It will undoubtedly result in fewer children on the street in Hancock at night. The city council at its next meeting will undoubtedly consider a curfew law which will provide that an alarm bell be sounded at a stated hour at night, which bell will be an order to parents to see that their children are at home.

County Agent Mason left yesterday morning for Lansing with two of the boys recently sentenced to the Industrial school. One of them, believed to be the ringleader of the Hancock gang of juvenile bandits, has been confined in the woman's ward of the county jail ever since he was arrested. He is a bright looking little chap, though with sharpness and cunning in his face. If his rightness is diverted into proper channels he should make a good citizen, which is the hoped-for result of his Lansing sojourn. Otherwise, he was on a fair way to becoming a successful confidence man or burglar.

Pure White Lead is the Natural Paint Pigment

Numerous compounds are being offered to take the place of white lead as a paint, but no real substitute has yet been found. Pure White Lead has a peculiar property of amalgamating with the wood upon which it is used—added to this it has an elasticity which permits the paint to follow the natural expansion and contraction of the wood. Pure White Lead alone fulfills all the requirements of the ideal paint.

Southern Pure White Lead

is White Lead with its full natural tenacity and elasticity unimpaired by adulterants. Every keg of it bears the Dutch Boy trade mark, which is a positive guarantee of absolutely Pure White Lead made by the Old Dutch Process.

HOUGHTON SHOOTERS LOSE.

Calumet Engineers Defeat Infantry for Stanton Trophy.

The fourth shoot of the series for the Stanton trophy between the Houghton Light Infantry and the Calumet Engineers of the Michigan National Guard, was held Sunday in the armory at Calumet. The Calumet team won and won by the conditions imposed by the honor of the cup is on an equal footing with the Houghton team, which up to this shoot appeared to have the trophy won. The Houghton team, composed of two of the Atlantic mine, gave the trophy in order to promote rifle practice between these companies. The conditions were that the team winning the cup three times in succession would own it. This trophy is a valuable gold medal, and the Houghton company took the next two, and had it won on Sunday it would have owned the cup. But it did not win. Captain Heckel of Houghton merely said yesterday that his team had fallen down. The next shoot will take place early in the summer and will be over an outdoor range. Four shoots occur annually, two over an outdoor range and two in gallery, in the latter case special ammunition furnished by the state being used.

The Hancock Naval Reserve is practicing shooting every Sunday and some time this summer a regular shoot for the possession of the Baer trophy, donated to the reserve by Henry L. Baer of Hancock, president of the civil organization of the division, will be held. This trophy is a valuable gold medal, and the Stanton trophy is a massive silver cup, gold lined, and suitably engraved.

MANY DESIRE CITIZENSHIP.

County Clerk Richardson Now Has Ninety-One Petitions.

County Clerk Richardson posted yesterday a number of new notices of applications for citizenship, and his bulletin board in the court house, though large, is practically filled. The list for the June session of the circuit court, was closed some time ago, ninety days preceding the convening of the term. That list contains seventy-seven names, all of which have been previously published. The list for September term already contains fifteen names, as follows: Herman Hakala, born in Finland, a resident of Tapiola, landed in New York in 1889. Jakkilaki Hiltunen, Finland, lives at Tapiola, entered at New York in 1887. Jostina English, of Hull, entered at Sault Ste. Marie in 1901. Stanislaus Kszyszowski, German, of Houghton, entered at Baltimore in 1893. Henry Koronen, Finnish, of Tapiola, landed at Boston in 1893. Oscar Klunmorn, lives at South Gange, entered at the Soo in 1899. Henry Alttala, Finnish, of Franklin, entered at New York in 1899. Matt Rantola, Finnish, also of Franklin, landed at New York in 1899. Ludwig Reunanen, Canadian, lives at Franklin, entered at the Soo in 1898. August Larson, Swedish, of Hancock, entered at New York in 1901. Charles Bandizina, Italian, hailed from Calumet, landed at New York in 1886. Gian Fusero, Italian, lives at Calumet, entered at New York in 1900. Frank Gilbert, English, lives at Winona, entered at New York in 1900.

MFARLANE NOT WORRYING.

Lays Effort to Prosecute Him to Political Conspiracy.

Henry C. McFarlane of Ontonagon, former under-sheriff of the county, is receiving considerable notoriety over an effort which is being made to have him arrested on either the charge of murder or manslaughter as being responsible for the death of Oscar Duthie. McFarlane is in the county jail at Hancock, Mich., where he is being held in connection with the riot at the Michigan mine last summer.

Murmurings of such contemplated action have been current for some little time since the Ontonagon Herald, and it is known that the matter has been brought to the attention of Attorney General John E. Bird. So far he has not complied with the request for a warrant for Mr. McFarlane's arrest and those in close touch with the situation are not anticipating any such action.

Mr. Bird came here last fall and spent a couple of days investigating the trouble and to an extent is familiar with the occurrence. It was his purpose to be in attendance at the trial of the strikers, but through some oversight was not notified when the cases were brought up for consideration.

In his report of his investigation the attorney general made no intimation that Mr. McFarlane or any of the other officers had exceeded his authority during the affray. However, he did express the opinion that they were open to censure for the methods resorted to in placing the strikers under arrest, but he has since acknowledged that this was due to not having a thorough understanding of the circumstance leading up to it.

Mr. McFarlane is apparently losing no sleep over the contemplated action. He alleges that it is political persecution and not prosecution which is being sought.

Mr. McFarlane is apparently losing no sleep over the contemplated action. He alleges that it is political persecution and not prosecution which is being sought.

great are the improvements which are being made.

The removal of the E. Ryan sign from a store in Calumet is regretted by the older residents. E. Ryan and Calumet have been names associated for half a century, and the store has progressed with the growth of the town, maintaining, however, the general store traditions. The passing of the E. Ryan estate from commercial life in Calumet is a dividing line between the new Calumet and the Calumet of the copper country in the making.

COMMENCEMENT APPROACHES.

Hancock and Houghton High School Classes Making Preparations.

Copper country high school faculties and seniors are already engaged with the preparations for the annual round of entertainments which mark the approach of commencement. A number of dances and receptions have been held or are in prospect, and class organizations are being perfected.

The annual reception of the Hancock juniors to the seniors will be given in Germania Hall one week from tonight. Proceeding the reception there will be a brief concert program, including numbers by the Michigan College of Mines glee club and J. A. Buchholz violinist.

The graduating class at Houghton this year will be the largest in the history of the school, numbering twenty-five eligible girls and fourteen boys. The class following a custom of years' standing, will present the school with a class memorial. This will consist of several tablets of a frieze representing an event in Greek history, which will be unveiled in a room recently reserved for the benefit of the fund the class will give a concert in the assembly room Thursday night, with the following program:

RECORD FOR LONG SERVICE.

Joseph Forster and John Nelson Leave the E. Ryan Employ.
Messrs. Jackman and Douglas

RECORD FOR LONG SERVICE.

One of the most striking changes to show a contrast between the old and the modern Calumet is the transformation in the E. Ryan store of Red Jacket into the store of the Pantan & White company, which succeeds the Ryan estate in the ownership of the business. The old business saw its practical end last Saturday, when the final inventory of the remaining goods was concluded. This inventory was taken by Joseph Forster and John Nelson, two of the old grocery clerks of the Ryan store.

With the conclusion of their inventory work these two veterans left the employ of the E. Ryan estate, closing records of longevity in service which can be equaled by few commercial employes anywhere. Mr. Forster entered the service of the late Edward Ryan, April 20, 1869, thirty-eight years to a day, having intervened before his retirement. He saw the business grow from very small proportions to one of the largest in the upper peninsula. Mr. Forster retired now from active life in this store, and until he is equipped to spend the rest of his days enjoying life.

Mr. Nelson was an employe of the store continuously for thirty-two years, in comparison with Mr. Forster a veteran of second rank. He told The Mining Journal that he had worked continuously for fifty years, and in that time had enjoyed a reputation of "just one week. While working Mr. Nelson was having something by for a rainy day. Half of the largest building in the copper country—the Nelson-Schroeder block in Red Jacket—is his property. He says that he has about a month's work to keep him from going home to his spring, and then he is going away for a long vacation, and is going to roll the vacations of half a century into one long recreation.

GROWTH OF SALVATION ARMY.

Copper Country Corps Having Great Success in the Work.

Captain Thomas Wilks, in charge of the Salvation Army corps in Houghton, says that the work is progressing most satisfactorily in that village. He has adopted one system which is unique. The street corner meetings are never concluded by the passing of the tambourine for a collection. Nor is there a collection often taken up in the hall where the meetings are held nightly. Captain Wilks says that a remarkable number of uncollected contributions have come to him from various individuals and organizations who desire to help the cause. He also speaks highly of the conduct of the crowds during street corner meetings. He says that no one has ever yet said a word anything distasteful to the army.

Adjutant McFarlane of the Calumet corps, also has done great work in the few months he has been in charge there. He has organized charities and has helped many poor women materially. The corps has grown largely under his management too. Both Adjutant McFarlane and Captain Wilks are making an effort to bring Commander Eva Booth to the copper country this summer. Booth will be in charge of the meetings. They would like to have Commander Booth, founder and head of the army, but conclude that this is impossible. The Salvation Army dignitaries have so many engagements in large cities that the copper country has little hope of securing a visit from any of them.

Calumet has sent a number of officers into the Salvation Army. Captain Wilks is a Calumet man, known before he entered army work as a lecturer. He is a brother of former Sheriff Joseph Wilks, Major Berryman in charge of the Atlanta division of the Army, is a Calumet man. He is a fine musician and singer, and these accomplishments have helped him materially. Major Berryman took the Atlanta division four years ago and in that time has tripled the number of its corps. He has had a great success.

The copper country officers of the army expect to see a general transfer of prominent officers this year, a custom in every four years. The army authorities do not believe in keeping an officer long in one field. Like all good soldiers they must keep moving in order to keep interested in their work. The changes this year may make changes in the personnel of the copper country officers, though they hope they will be permitted to remain here.

A Lazy Liver

May be only a liver, liver, or a starved liver. It would be a stupid as well as a savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is with an indication of an ill-nourished, enfeebled body whose organs are weary with overwork. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active.

Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, full breath, constipated or irregular bowels, feel weak, easily tired, dependent, frequent headaches, painful distressing small of back, griping or distressed feeling in stomach, perhaps nausea, or "windy" risings in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly and surely than Dr. Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet both a torpid liver and a weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

The "Discovery" is non-secret, non-alcoholic, is a glyceric extract of native medicinal roots with a full list of its ingredients billiousness and both wrapper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the disease for which it is advised.

Don't accept a substitute of unknown composition for this non-secret medicine of known composition.

RESORT SEASON BACKWARD.

Ordinarily there would be considerable talk and action in connection with prospective resort business in the copper country at this time of year, but the backward spring has delayed matters. It is certain that Electric Park will not be rebuilt, unless the contractors who bid for the reconstruction of the burned pavilion come down on their bids. Eroda Park, the Copper Range railroad's people's playground, will of course be in operation and there will be much excursion business into Keweenaw county.

Tailor Shop Burglarized.

Vivian's tailor shop, Fifth street, Red Jacket, was entered by a burglar some time between Saturday night and Monday morning. Mr. Vivian reported to the police yesterday morning that the shop had been entered from the rear and a coat and vest, which had been left on a work bench, had been taken. No clue.

COPPERDOM BREVITIES.

Mr. and Mrs. William Normile of Houghton have returned home from a brief visit to Chicago.

Mr. John H. Hickok of Houghton has returned home from a visit with his sister, Mrs. Barton, at Danville, Ill.

Miss Sadie DeForge of Lake Linden has taken a position in the Houghton National bank as stenographer.

"The Gingerbread Man" will be seen at the Lake Linden Opera House tonight and at the Kereidge theater tomorrow night.

The hearings of Mose Bandettini and Ed. Dunn, Red Jacket saloon keepers who had been on their windows last winter, will be concluded tomorrow in Justice Jackola's court.

Michael Finn, Jr., who was called to his home in Hancock on account of the death of his father, the late Justice Michael Finn, has returned to his studies at the Ferris Institute, Big Rapids.

The annual banquet of Roy Boys' social club of Hubbard was held Sunday night at Rismarsk Hall. The spread was a gorgeous one and the program full of interesting speeches and tuneful music.

John J. Summers, principal of the commercial department of the Houghton High school, and Burrell Upham, sciences teacher, have expressed their intention of remaining in Houghton during the coming summer vacation.

The police of the various copper country towns report little disturbance as a result of the pay day Saturday. There were of course some few minor celebrations, but nothing of the kind which was wont to characterize the occasion in past years.

Captain DeVechechio of Quincy, charged with selling liquor without a license, having dispensed at his boarding house coffee with a rum stick in it, has been bound over to the circuit court by Justice Olivier.

Eugene Vigessut of the Soo has arrived in Houghton for the purpose of locating there in a branch curio store for his firm, Vigessut Bros., S. Karkeek is remodeling a building on Sheldon street for the use of the firm.

Colalt Gossip

The Ontario legislature has passed the government bill to give the purchasers of the mining rights under Colalt and Kerr lakes a clear title, despite the fact that there have been claims made to the rights on the ground of prior discovery.

Approximately 200,000 acres have been taken up around Larder Lake, and the claims are divided into parcels of forty acres, and each prospector can take up three claims, the amount due the government is estimated to be \$37,495 from registration of licenses.

The Colalt field is just emerging from winter and it will not be long before prospecting and development work will be in full swing and large shipments are expected as a result. Before the close of this summer, smelting plants will probably be erected near Colalt which will materially assist in reducing and marketing the Colalt product. Both the La Rose and Nipissing companies will probably erect their own smelting plants.

At the South end of Colalt Lake the Colalt Lake Mining company is sinking a shaft. At the 12-foot level a carbonate and small vein was struck, bearing values to the extent of 2,000 ounces to the ton. The discovery was made near the McKinley & Daragh mine. The shaft was purely a prospect, but now will be sunk deeper and one taken out. The shaft on the big silver vein admitted water from the lake recently, but the inflow has now ceased.

Colalt ores are at the present time being largely retained at the mines in anticipation of the beginning of operations at the Montreal Reduction & Smelting company of Canada, which is situated near North Bay, on the line of the T. & N. O. railway. The capacity of these works when in full operation will be 500 tons per days. The erection of buildings and installation of machinery has been going on ever since last summer. Within another month Colalt ores should be undergoing treatment in the company's furnaces.

The Argente Company, incorporated under the state of Maine, holds five mines in the district and one town site company. These are the Isa, Anna, Bella, Margaret, Annie, Louise and the Argente Powers company. In all 23 acres. At Argente 140 acres have been laid out in lots out of the 240 acres the company possesses there. The Isa corporation is on the Green-Meehan to the south. Some trenching has been done and a little drifting on a shallow shaft A shaft is down 200 feet and has calcite vein and, crosscutting is commenced. The parent company is capitalized at \$2,000,000.

Recent shipments from the Kerr Lake or Jacobs mine at Colalt have been most satisfactory. They have averaged about 3,000 ounces to the ton. The lowest assay on any shipment, the directors say, was 1,750, and the highest about 4,200 ounces. A carload shipped last week brought \$80,000 net. Two carloads of this rich ore were shipped on April 12. It is expected that when the large plant is

BABY COVERED WITH SORES

Would Scratch and Tear the Flesh Unless Hands Were Tied—Wasted to a Skeleton—A Week's Suffering Over a Year—Grew Worse Under Doctors—Skin Now Clear.

"My little son, when about a year and a half old, began to have sores come out on his face. I had a physician treat him, but his sores grew worse. Then they began to come on his arms, then on other parts of his body, and then on his chest, and finally on his neck. It was worse than the others. Then I called another physician. Still he grew worse. At the end of about a year and a half of suffering he grew so bad I had to tie his hands in clothes at night to keep him from scratching the sores and tearing the flesh. "He got to be a mere skeleton, and was hardly able to walk. My Aunt advised me to try Cuticura Soap and Ointment. So great was her faith in it that she gave me a small piece of Soap to try and a little of the Ointment. I took it home without any faith, but to please her I tried her and it seemed to dry up the sores a little. "I sent to the drug store and got a cake of the Soap and a box of the Ointment and followed the directions, and at the end of about two months the sores were all well. He has never had any more of any kind since. "He is now strong and healthy, and I can sincerely say that only your most wonderful remedies my precious child would have died from these terrible sores. I used only one cake of Soap and about three boxes of Ointment. (signed) Mrs. Egbert Sheldon, R. F. D. No. 1, Woodville, Conn., April 22, 1905."

IS YOUR BLOOD ALL RIGHT?

In a little while people will begin to have "Spring Fever." You may have it. Why not take something now and purify your blood and tone up your system. When the spring fever strikes you will feel drowsy, lose your appetite, have no ambition and just drag yourself around. That is a bad way to start in the Spring work. We make a Compound Blood Purifier and Tonic which we have been selling for a number of years and recommend highly as a spring remedy for people who are not in good condition, it cleanses the whole canal, tones up the digestive organs so that the blood nourishes it right. It stirs up the liver and kidneys so that they take the impurities out of the blood. If you are moping around now, you may be surprised at the different feeling which will come over you before you finish one bottle of this remedy. We don't want you to buy it unless you need it, but we do want you to buy it in place of patent medicines of the "Blood Elixir" type.

Miss Georgia Boulay, of Escanaba, is the guest of Marquette friends.

J. B. Collins, of Keweenaw bay, is transacting business in Marquette.

The Knights of Columbus will hold initiation in the first degree this evening.

Captain Bourasa, Engineer Ripperoy and Fireman Patton left for Duluth last evening to bring down the tug Buffalo, which has wintered in that port.

Rev. Father Faust, in charge of the orphanage at Assiniboia near Baraga, has returned from a three-months' visit in Europe.

E. C. Anthony of Negaunee and W. D. Calverley of Houghton attended a meeting of the board of control of the Marquette prison last evening.

The ladies of St. Peter's parish will give a card party in Baraga Hall tomorrow evening. Preparations have been made to entertain a large assemblage.

The funeral of the baby son of John Kind will take place this afternoon at 2 o'clock, with services at St. Peter's cathedral. Interment will be made in Holy Cross cemetery.

One of the large incandescent light globes in front of the city hall was shattered Saturday night. As the roof of the building had been clear of snow and ice for several days, the janitor is of the opinion that the breaking of the globe was an act of vandalism.

The regular meeting of Queen City tent, No. 448, K. O. T. M. M., will be held at Keough's Hall Wednesday evening at 8 o'clock. Directly at the conclusion of the regular order of business a reception to the ladies of Busy Queen live, No. 338, L. O. T. M. M., will be tendered by the members of the tent and this will be followed by a dance and refreshments. The music will be furnished by Kluge's orchestra. A large attendance is looked for.

Administrators Appointed—William J. Rivers, Marquette, in the estate of Carle Laprine, Marquette; Donato Corso, Ishpeming, in the estate of Pinto Christie, Ishpeming; William J. Harris, Ishpeming, in the estate of William Pearce, Ishpeming.

Millinery Opening Today—J. H. LaRoche announces his spring millinery opening for today and tomorrow. Preparations for this event have been in progress for some weeks, and there is assurance the ladies will find a bewildering display of hats and bonnets, superbly trimmed in keeping with the latest styles for this time of the year. A large number of seasonable novelties are included in this spring's showing.

To Wed a Canadian Girl—John Baker, a former well known resident of this city, will be married at Goderich, Ontario, tomorrow morning, to Miss Nettie Stodders. Mr. Baker went to Goderich last summer to establish himself in the fish business. In letters to friends in this city he says that he has been successful and tells of his approaching marriage. The young couple will immediately go to housekeeping at Goderich.

Has Gone to Jamestown—Captain Cleary, of the Marquette life saving service, has left for Jamestown, where he will be in charge of the U. S. crew that will be a feature of the exposition. Captain Cleary is an old hand at this service. He commanded the crews at the Chicago, Buffalo and St. Louis exhibitions. Whenever an exposition management establishes a crew as one of the features it follows naturally that Captain Cleary will be in charge. He will spend the next five or six months at Jamestown.

Evangelist Killgore—The union meetings at the Baptist church will continue throughout the week, each evening, including Saturday, at 7:30 o'clock. The one night will never be forgotten by the large company that attended. The speaker makes church members feel that they are not more than one-quarter Christians, but from the way people continue to come to the meetings they want to be made full members. But last night it was a message of great tenderness that kept the people in rapt attention. No meetings quite like these have ever been held in Marquette.

May Reorganize Improvement Association—There is some talk of a reorganization of the Marquette Improvement association, a society whose work a few years ago had a great deal to do with beautifying the city. Mrs. E. B. Palmer said yesterday that the association had never formally dissolved, but a lack of interest had resulted in its gradual disintegration. She believed that an organization of that character still had a mission to perform in Marquette. The fountain fund of the association was turned over to the city a year ago and was used in the construction of the fountain on Baraga avenue. Through the efforts of the association a number of unsightly fences were removed and the lawns were kept in excellent order.

Bicycle Rider Gets Bad Fall—John Maki, aged twenty-three, had a providential escape from death or serious injury while attempting to coast down the hill on Third street from Ridge to Washington on his bicycle during the noon hour yesterday. Maki had taken his feet off the pedals and was traveling at a high rate of speed when the front tire of his machine exploded opposite Bluff street. Maki gripped the handle bars and continued his course down the hill. The exploding of the tire, however, threw too great a strain on the chain and it broke just as the Washington street crossing was reached. The wheel veered to the right, crashing into a telephone post on the southwest corner. Maki shot over the handle bars and slid a distance of six feet on the sidewalk. He was badly bruised and shaken up, but experienced no serious injury.

Spokane a Clean City—"We have got the cleanest city in the United States," said J. A. Parker, of Spokane, Wash., at the Marquette hotel yesterday. "The palm for cleanliness used to belong to Los Angeles, but Spokane has fairly surpassed the California city. Spokane was the first city in the country to appoint an annual municipal housecleaning day, when all the citizens turned out and 'policed' the town. You can walk down most of our principal streets today, and you won't see so much as a match on the sidewalks. The city is making capital out of its cleanliness, too. We have got

DO IT NOW.

Now is the time to take something to clean and build up the blood, ridding the system of the poisonous waste matter and acids which cause Rheumatism, Blood Disorders, Nervous Debility, Backache and other miserable weaknesses.

Here is one of the simplest though safest and most certain mixture, which can readily be prepared at home at nominal cost:

Fluid Extract Daniellion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces. Get these ingredients from any reliable pharmacy and mix by shaking them well in a bottle. The dose is one teaspoonful after meals and at bedtime. Also drink plenty of water.

This home-made mixture, writes a noted authority will overcome most forms of Kidney and Bladder troubles and at the same time force the Kidneys to filter and strain all impurities and acids from the blood, restoring the full blood count of 95 per cent red blood corpuscles, which means good, sound health and vigorous vitality, to say nothing of the clear, rosy skin and complexion which must result.

a bureau of publicity that is sending out a great deal that is news and some that isn't news but looks like it, and our population is growing with wonderful rapidity. I don't think that it is any exaggeration to say that the city has gained 5,000 people in the last six months. Something had to be done for Spokane. The great panic of '93 probably affected it worse than any city west of the Rockies and it was a long time recovering. The last three years, however, have put it thoroughly on its feet, and property values are increasing rapidly. One of the best features of the city is that its bonded indebtedness is small and taxes are therefore much lower than in many western towns of smaller population."

ORE PLACED IN DOCK.

According to Reports from the Soo First Boat May Arrive Within a Few Days.

According to information received at the dock office of the South Shore railway, vessels may have gotten through the Soo canals last night and the first arrival at the local docks may be expected in a day or so. The warm sun of the past three days has caused the ice in Mud and Hay lakes to crumble, and the ferry Algona was engaged all yesterday in an attempt to break a way through. The ice in these two lakes is the last obstacle to the full opening of navigation. This season the ice was exceptionally thick, measuring in some places over thirty inches.

In expectation of the opening of navigation, the first load of ore went out on the new dock yesterday, and there will be plenty of ore when the first boat arrives. Just what boat will first make this port the local office cannot state, though it will probably be the Pendennis White, out of Milwaukee, which arrived at the Soo several days ago. The number of vessels now held up at DeTour and they will make quite a procession when a pathway is cleared.

THEATRICAL.

Perhaps there has never been so lavish and adequate a production of "Uncle Tom's Cabin" as that which Wm. Kilburne will offer at the opera house Thursday afternoon and evening. The scenes, which are large enough to fill the most spacious stage, could not easily be improved. Those representing the Ohio river in winter, the rocky pass in which George Harris protects his family, the St. Clair plantation, the levee at New Orleans, the cotton fields in full bloom and the "Celestial City" are all notable efforts. The stage perspective is so deep that the effect is exceptionally pleasing. The company is worthy of its environment. Frank Lee, the eminent minstrel star, offers an excellent study of "Uncle Tom," preserving the atmosphere and accent of the old slave to a remarkable degree.

Manager Koepeke will offer at the opera house tomorrow evening the popular German dialect comedian, golden-voiced Al. H. Wilson, in his new romantic play of picturesque Switzerland, "Metz in the Alps." The title part is that of a young German, Metz Muller, a soldier of fortune, whose poverty is no check on his effervescent spirit, nor his misdeeds to his ambition. This enjoyable type of German is peculiarly adaptable to Mr. Wilson's talents, even more happily than his former success, Prince Von Ruppert, in "A Prince of Fatters." The stage pictures are elaborate and massive. The acting company is unusually large in numbers, and creditable in talent. During the action of the play Mr. Wilson will sing several new songs, among which are "My Heaven is in Your Eyes," "Wilson's Lullaby," "The Spitzelbank," and "Songs of Old Fatherland."

Gingerbread Man a Hit.

"The Gingerbread Man" musical comedy gave a very satisfactory performance last evening. The stage dressing and the costuming of the players were excellent, the music far above the average and the parts well cast to the capabilities of the players. Freddie Nee, in the title role, made a hit that will insure him a most cordial reception should he ever again visit this city. The audience also testified its appreciation in no uncertain manner of "Marvellous Fudge" as portrayed by Willard Louis, an actor whose humor is spontaneous and effective.

Mandy-Hives and other blotches are supposed to be caused by an acid stomach. A simple remedy and one that is very effective is Hollister's Rocky Mountain Tea. 33 cents, Tea or Tablets. The Stafford Drug Co.

MARKETS

NEW YORK STOCKS STRONGER.

New York, April 22.—While the day's transactions on the stock exchange were generally inclined to be largely in professional hands, the advances in prices were recognized as a reflection of a real improvement in the sentiment towards the market.

statement has not yet been forgotten and the stock seemed heavy, but we consider it cheap under present prices. We advise picking up Atlantic at anything under 15 1/2.

48%; lowest, 47 1/2% at 48; closing, 48 1/2%. Oats.—After a firm opening the market weakened on selling based upon reports of rain in the west and southwest.

Logan & Bryan's Wheat Summary. Logan & Bryan wired Paine, Webber & Co. concerning yesterday's wheat market: "Today's market was irregular, with the price range wide to follow the wheat.

Upper Peninsula Steamer Saves Fisherman.—After battling with wind and waves in an open row boat for six hours Edward Connelly, a fisherman, was at the point of going to the bottom of Lake Michigan when he was rescued by the crew of the steamer Maywood.

SERIOUS RIOT IN NEW YORK. Senior Member of Cloak Establishment Assaulted by Strikers. New York, April 22.—Striking cloak-makers at the establishment of Oscar Margolin & Son assaulted the senior member of the firm today and created a riot in which several hundred persons participated.

Walkout of Steel Workers. Irwin, Pa., April 22.—About 800 men employed at the Larimore plant of the United States Steel corporation struck today for a 10 per cent increase in wages.

BOOK STIRS GENERAL BELL. Chief of Staff Resents Strictures Upon the Army. General J. Franklin Bell, chief of staff of the U. S. A. does not like the strictures which Grand Whitlock, the reform mayor of Toledo, O., has passed upon the army in his new novel, "The Turn of the Balance."

Western Stock Markets. Western stocks Saturday closed as follows, Paine, Webber & Co. furnishing the quotations.

Table with columns for stock names and prices, including Amal Cop., Adv., All., and various regional stocks.

CHICAGO GRAIN MARKETS.

Chicago, April 22.—The feeling in the wheat pit was nervous all day, and the prices fluctuated within a one cent range.

Copper Metal Prices.

New York, April 22.—Copper was 5s higher in London today, with spot and futures both closing at £99.15s.

Boston Stock Quotations.

Paine, Webber & Co. wired regarding yesterday's Boston market: "For the past three or four days we have told you about the better feeling and this was decidedly evident today in all the coppers."

the present day, officers and all; and not acquainted with it. "A soldier who has learned nothing in the army more than to shoot has been a very noisy soldier. There is much to be learned from service in the army of value to any young American citizen.

Death Threatens Rich Men.—Three of Menominee's leading citizens are seriously ill, and their ages make their friends greatly worried. William Holmes, of the Holmes Power & Light company, and who is now developing a water power at Chappes Rapids, had a stroke of paralysis, making his condition critical.

Bass Drum in Litigation.—The first definite outbreak between Escanaba's two musical organizations came in Judge O. V. Linden's court in connection with a replevin action brought by the members of the City band against Joseph Wicket to secure possession of a bass drum.

Arrested for Whipping Pupil.—Prosecuting Attorney M. J. Doyle of Menominee county has been called upon to investigate the action brought against B. W. Weenik, principal of the Spalding school, who is charged with seriously punishing a small girl pupil.

"I have read that part of the book," said the general, referring to the passages in which the author describes "Archie Koerner's" incapacity for useful pursuits because of his military service. "The author of 'The Turn of the Balance' states in speaking of the centry figure of his story, 'He would not return to the army because he had too keen a memory of the indignities heaped on a common soldier by officers who had been trained from youth to an utter disregard of all human relations save those that were unreal and artificial. He had learned but one thing in the army, and that was to shoot, and he could shoot well.' The author furthermore states that 'his experience in the army had unfitted him for every normal calling; he had acquired a taste for excitement and adventure, and no peaceful pursuit could content him.'"

THE PRICE OF HEALTH. The price of health in malaria district is just 25 cents; the cost of a box of Dr. King's New Life Pills, writes Ella Slayton, of Noland, Ark. New Life Pills cleanse gently and impart new life and vigor to the system.

THE VALUE OF PERSONAL KNOWLEDGE. Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of The Well Informed of the World.

Mining News

MOHAWK.

By the installation of new drills at shafts 4 and 5, a greater quantity of rock is being surfaced at the Mohawk, the men are kept busy handling it. In an interview with Superintendent Smith he said: "Yes, we are very busy and can hardly handle our output with our present force." When asked if he was hiring more men he said that they were taking on men as fast as they can be secured.

BISBEE STRIKE SITUATION.

The strike situation is daily improving, says the Bisbee Review. This is apparent to the casual observer, as well as the seeker after news about the various shafts. Yesterday the Calumet & Arizona and Superior & Pittsburg companies made a gain of forty-eight men over the day previous, and at the Shattuck and Arizona and Denn-Arizona, twenty more men reported for work on yesterday. At the Queen properties small gains were reported at each shaft.

NORTH BUTTE.

The North Butte has made final payments on the Lynchburg and John Enshaff's. The company is making good progress in sinking the Berlin shaft, which is now 300 feet deep. The crosscut from the 1,000 of the Jessie will be connected with the shaft. A station is also being cut at the 1,800 foot of the Speculator, and when completed sinking will be resumed, the bottom of the shaft now being near the 1,900-foot point.

GRATIOT.

The Gratiot is a subsidiary corporation of the Calumet & Hecla and is comprised in a tract covering 800 acres of land just north of the Mohawk and carrying the northern extension of the Kearns and amygdaloid bed. The outlook for Gratiot is exceedingly promising. The present developments show excellent copper-bearing rock. No. 1 shaft has now been sinking six weeks and is at a depth of sixty-five feet with a good showing of rich copper. Shaft No. 2 has been sunk to a depth of 250 feet and also has a splendid showing of rich copper. At this shaft the crosscut has

COPPER SITUATION.

An official of the United Metals Selling company says: "I see nothing in the situation at the present time, nor do I apprehend any developments in the near future, calculated to reduce the price of copper. At the moment we are making but few sales, but this is natural, as consumers are fairly well supplied for the time being, although they are carrying nothing like normal stocks of the metal. This is true of manufacturers on both sides of the water. They think they can foresee a prospective cut in the price and are in consequence ordering as little as possible."

DOLLARS BURNED.

It amounts to that or \$2.50 saved by using Pea Coal at \$5.00 per ton. It will hold fire in your furnace longer than any other fuel. Jas. Pickands & Co. Ltd. Both Phones No. 90. (3-22-4)

Ishpeming Department

TO ABATE NUISANCE. South Shore Officials Will End Blockade at Station.

Ishpeming people who have been in the habit of congregating at the South Shore passenger station Sunday evenings will hereafter be obliged to stand back at least a sufficient distance to give passengers to and from the trains an opportunity to pass. One of the worst blockades ever experienced at the station occurred Sunday evening, and as a result several people who had purchased tickets for Marquette nearly missed the train, despite the fact that it remained at the station over two minutes. There were ninety tickets sold. A large number who had been at Marquette had difficulty getting off the train, and when they landed on the platform the jam was so great that they could not get out of the way of those desiring to board the cars.

A fistie encounter between two of the bystanders added to the confusion. It is said that the row continued for some minutes and that a police officer standing near by made no attempt to quell the rumpus. Finally two men parted the fighters. They are said to have used some frightful language, which could be heard by people within a block of the place. No arrests were made.

The matter was reported to the officials of the South Shore company yesterday and Agent Randall was advised that there will be a stop put to the practice, provided the railway people can obtain the co-operation of the police force. Mayor Roberts was appealed to yesterday and he said he would instruct the chief of police to see that the platform is kept clear.

The practice of congregating on the South Shore platform has been indulged in here for years past, and many complaints have been registered with the agent of the company. Several times during the summer seasons passengers desiring to take the trains out of the city have missed them, an account of the passage being blocked. A man who missed a train one evening last summer threatened to sue the railway company for damages.

AL H. WILSON TONIGHT.

Al H. Wilson, the golden voiced singer, who has been seen here the past two seasons, will pay his third visit tonight, when he will appear at the Ishpeming theater in his new play, "Metz in the Alps," written for him by Sidney R. Ellis. Mr. Wilson is said to have an exceptionally good company. The company will arrive from the copper country this afternoon at 1:30.

The Owl club will give a hop at Branstad's hall Friday evening, April 26. Tickets fifty cents per couple. Dancing 9 to 12. Trombly's orchestra. (4-23-07)

BIRTHDAY SURPRISE.

About thirty couples gave Oliver Ayotte, former supervisor in the Tenth ward, a surprise at his home at the Junction location Saturday evening, the occasion being the anniversary of his fifty-fifth birthday. Among those present were Napoleon Touzant and Albert Roux of Marquette, old friends of Mr. Ayotte. Shortly after the guests had assembled Mr. Ayotte was presented with a fine gold ring, containing the Macabee emblem, also a merchandise pipe. Mr. Ayotte responded, thanking his friends for their beautiful gifts.

DOING BUSINESS AGAIN.

"When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and generally debility," writes A. A. Chisholm, Treadwell, N. Y., "and when it looked as if there were no hope left, I was persuaded to try Electric Bitters, and I rejoice to say that they are curing me. I am now doing business again as of old, and am still gaining daily." Best of all tonic medicines. Guaranteed by The Stafford Drug Co. 50c.

"Preventives" will promptly check a cold or the Grippe when taken early or at the "sneeze stage." Preventives cure seated colds as well. Preventives are little candy cold cure tablets, and Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on Colds free, if you will write him. The samples prove their merit. Check early Colds with Preventives and stop Pneumonia. Sold in 5c and 25c boxes by The Stafford Drug Co.

PUBLIC WARNING!

We shall not be responsible if any person takes any but the genuine Foley's Honey and Tar for coughs and colds. Imitations are worthless and may contain opiates. The genuine Foley's Honey and Tar in the yellow package contains no opiates and is safe and sure. The Stafford Drug Co.

For Catarrh, let me send you free, just to prove merit, a trial size box of Dr. Shoop's Catarrh Remedy. It is a snow white, creamy, healing antiseptic balm that gives instant relief to Catarrh of the nose and throat. Make the free test and see. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by The Stafford Drug Co.

FROM HOPKINS' CURB LETTER.

"Public sentiment seems a little more friendly toward the copper share list again, and the buying is good, while prices really have been termed buoyant. London sent higher prices for metal again today, with spot quoted at \$100, an advance of 10 shillings, and futures \$100 with a similar advance. Amalgamated was the market leader, with Calumet & Arizona and Superior & Pittsburg claiming considerable attention. The price of stocks were well taken and scored fair advances. North Butte Extension is already down to a depth of forty-five feet. The machinery is all on the Northern Pacific tracks and the work of constructing the spur to the mine is being rushed. J. A. Ryan, who is in charge of the work, states that he will be able to have the shaft down 800 feet within seven months after the plant is installed. They are sinking on the Black Rock vein, which is showing up such sensational values on the Butte & Superior mine. Old Dominion has ruled strong today with advances from Globe that the mine is producing enough to tax their smelter facilities, and that they are unable to accept further shipments of copper ores. Greene-Canaan continues in big request at 103%."

The day's prevailing prices were:

ISHPEMING IN BRIEF.

G. R. Watts, the piano tuner, will be at Girz's store this week.

Charles Johnson and son Walter, former residents, are here from Minnesota visiting relatives.

Israel Dyson will be very thankful to the finder for the return of four keys on a steel ring, which he lost a short time ago on Main street.

The hose cart and hook and ladder truck of the Ishpeming fire department were yesterday transferred from runners to wheels.

W. H. Anderson, head chemist at the Oliver Iron Mining company's laboratory here, and family, have gone to Montana, to spend a few weeks visiting relatives.

Will Newett, who spent the past ten days in the city visiting his parents, left Sunday evening for Ann Arbor, to resume his studies at the university.

Dr. J. L. McD. Gibson, the famous hockey player, who recently closed out his dental business in Houghton, was in the city yesterday. He intends to locate at Republic.

Herbert Carlson and Miss Louise Farley, daughter of Louis Farley, were married Saturday evening at St. Joseph's parsonage, Rev. Father Bordas, the pastor, performing the ceremony.

Mrs. Robert Haynes left last night for Minneapolis to join her husband, who was recently promoted to the position of district manager of the Nelson Morris company's houses in Minnesota, Michigan, Wisconsin and the Dakotas.

The South Shore will grant special rates of fare from points west of here on account of "The Gingerbread Man" at the Ishpeming theater Thursday evening. The midnight train will stop at all of the stations.

"The College Widow" played to a capacity house at Ishpeming theater last evening. The success scored at other cities in the upper peninsula was repeated. In every way the play and troupe gave eminent satisfaction. The company

will be Menominee this evening and leave for that place on this morning's Northwestern train.

PRICES WERE BETTER.

Settlement of Goldfield Strike Caused Movement in Stocks.

The announcement of the adjustment of the Goldfield labor trouble caused an immediate advance in the prices of the shares of the more important mining properties of the district. Some of the stocks had very fair advances yesterday, and it is predicted that there will be further upward movements today. The Ishpeming brokers reported that the trading in the Goldfield issues was stronger yesterday than at any previous time since the trouble began.

DEATH OF JAMES CHAMPION.

James Champion, a resident of Ishpeming and the Winthrop for the past thirty years, died Sunday at his boarding place, 703 North Pine street. He had been ill only twenty days, having been taken sick the day following the municipal election. He was thirty-six years of age. His mother, Mrs. J. H. Hill, resides at the Winthrop, and he has two sisters, Mrs. William Delage, living in this city, and Mrs. M. E. Harris of the Winthrop, and one brother, Richard Champion, also of the Winthrop. The funeral will be held Thursday afternoon at 2 o'clock from the First Methodist Episcopal church.

SHORT TALKS BY L. T. COOPER.

INTERNAL PARASITES.

Cooper's New Discovery has taught me many things. Not least of which is that parasites or tape worms as they are called are responsible for an immense amount of suffering. Thousands of these creatures have been brought to me by people who have taken the New Discovery and know that an immense amount of supposed stomach trouble is caused in reality by one of these parasites. A man or woman may be afflicted in this manner for years and not realize the true cause of their suffering. When I first sold Cooper's New Discovery I did not know that the medicine would remove this trouble. I have since found that it invariably does so. The following letter is a fair sample of the symptoms as experienced by an individual thus affected:

"I was always tired. My stomach bloated and the slightest exertion made me sick, weak and dizzy. My appetite was variable and a good night's sleep was unknown to me. When I awoke in the mornings I had a bad taste in my mouth and a coated tongue. I heard of the wonderful benefits that were being derived from Cooper's New Discovery, and decided to try it."

"The horrible tape worm, sixty feet long that had been sapping my life away, passed from my system alive and squirming after I had taken three doses. Now I have a splendid appetite, every trace of stomach trouble has disappeared and my digestion is good. I sleep well and am gaining in strength every day." Nick Emmerick, 1344 Louis Ave., Milwaukee, Wis.

We are authorized agents for the Cooper medicines. Call and let us tell you more about them.

Negaunee Department

WANT NEW CITY HALL.

Aldermen Not Unanimous in Favor of Improving Old Building.

"I favor building a new city hall, as well as the improvement of the old one," said an alderman yesterday. "We must improve the present building, whether we provide a new one or not, otherwise it will soon tumble down. The piles beneath the stone foundation have rotted away and I have wondered since examining them how the walls have stood up as well as they have. The city building must be repaired without delay, but even after it is improved it will not meet the city's needs, as it is far too small to accommodate the several departments.

"While I have not heard all the members of the council say positively that they favor the erection of a new building, I believe that if a vote was taken it would be unanimous in favor of such a step, as it is realized that the present structure is not only too small, but is poorly laid out for the conduct of the city's business. Unless the library or marshal's residence is removed, I cannot see how we can provide a council chamber or a private office for the board of public works. Some of the aldermen have talked of moving the marshal's family to some building near by, but it would be difficult to procure a suitable place, and besides there are some objectional features to such an arrangement. It will not be many years before the library will need additional space. In fact more room could be used to advantage even now. The business is now more than double what it was a few years ago, with indications of a continual increase. I think that the council should erect a fine new building and repair the old one using the latter exclusively for the library, jail and marshal's residence.

"The council has been offered a fine site for a building, the owner stating that he would dispose of the property at a price a committee chosen by the council would place on it. The owner, of course, assumes that a committee of citizens would set a price that would be equitable. The city hall matter will doubtless be given serious consideration by the council before the building season is very far advanced. "It will not be long before new fire hall matters are adjusted, and I believe it will be possible to begin building operations before June, as the officials of the Cleveland-Cliffs company are prepared to transfer the site to the city at any time the council asks for it. While I am not a member of the committee having this matter in charge, I understand that the committee plans to get the work under way as soon as possible."

WITH REPUBLIC IRON & STEEL CO.

Captain William White, known to a number of the mining men on this range who recently resigned his position of superintendent of moving the marshal's company's mines at Aurora, Mesaba range, has accepted the position of superintendent of the Franklin group of properties operated by the Republic Iron & Steel company. The new position will pay Captain White a much better salary than he received with the Inter-State Iron company, though his responsibility will be considerably greater. Captain White and his family will reside at Virginia.

SLEIGHING KNOCKED OUT.

Several sleighs were brought out yesterday morning, but before noon such a great quantity of the snow had melted that the owners changed them for wagons. The sleighs were taxed to capacity all day yesterday and at times there were good sized streams running in the streets. Iron street was in particularly bad condition. The roads leading to the locations were badly cut up, it being almost impossible to drive to Palmer with either a wagon or sleigh. With two or three such days as yesterday the road will soon be in good condition for wagons.

Mr. Welland, solicitor for the Marquette Steam Laundry & Dye works, is in the city calling on trade. Anyone wishing any information on articles cleaned or dyed may phone to 44, Marquette, or Garfield House, and the gentlemen will call. (4-19-44)

AN INSIDIOUS DANGER.

The merchants of Negaunee have had some fairly busy days since the change in the weather, and the dealers in dry goods and clothing, who were downcast during the early part of the month, are now feeling more hopeful. All of the leading merchants have larger stocks of spring and summer goods than they have ever before displayed at this season of the year and it will take several days of good business to reduce their lines to a point where they will feel that their trade has been satisfactory, or where they will be able to figure out a reasonable profit on the season. "I believe our spring business, though coming much later than usual, will be satisfactory," said a Negaunee merchant yesterday. "Saturday was one of the best days we have had since before the holidays. A great many who delayed buying their spring clothing and furnishings are now coming around. The trade in dry goods is also improving and I believe that the season will show very satisfactory results in that line, as well as in clothing and furnishing goods."

BUSINESS BRISK AGAIN.

Change in Weather Has Encouraged Dealers in General Merchandise.

The merchants of Negaunee have had some fairly busy days since the change in the weather, and the dealers in dry goods and clothing, who were downcast during the early part of the month, are now feeling more hopeful. All of the leading merchants have larger stocks of spring and summer goods than they have ever before displayed at this season of the year and it will take several days of good business to reduce their lines to a point where they will feel that their trade has been satisfactory, or where they will be able to figure out a reasonable profit on the season. "I believe our spring business, though coming much later than usual, will be satisfactory," said a Negaunee merchant yesterday. "Saturday was one of the best days we have had since before the holidays. A great many who delayed buying their spring clothing and furnishings are now coming around. clothing and dry goods stores Monday. There was a genuine rush all day at the Braastad bankrupt sale, at times the crowd being so large that neither the clerks nor customers could move around to advantage. The rush started as soon as the doors opened. Three or four extra clerks were called from the firm's shipping store before noon, the regular force having been unable to wait on the trade.

BACK FROM ENGLAND.

Samuel Collins and wife arrived home yesterday morning from England, where they visited since last December. It is forty-five years since Mr. Collins came to this country, his wife arriving two years later. This was their first trip abroad since their arrival and they enjoyed it immensely. They traveled extensively in England and also visited some of the other foreign countries. Mr. and Mrs. Collins met a great many people whom they knew in their childhood. They saw Thomas Harris, who left this city several years ago with the intention of spending the remainder of his days at his old home. A short time before leaving England they met Charles Devonshire, of Marquette, who has since arrived in America and is now visiting a brother in Indiana.

LOCAL LACONICS.

W. J. Fisher of Houghton visited friends in Negaunee Sunday.

Mrs. J. E. O'Donoghue and son left yesterday for Fond du Lac, Wis., where they will visit relatives.

William Nadeau and wife have returned from their bridal trip to Duluth, Minneapolis and other points in Minnesota.

P. B. Kirkwood, who recently returned from a three months' visit in California, is ill and confined to his home. He has been ailing all winter.

Brick layers began work Saturday on the addition to the front of the City block, corner of Iron and C. streets. The interior of the building has been entirely remodelled and fitted up as a tenement house.

Medard Gauthier, who some time ago talked of erecting a new block on his East Iron street lot, stated yesterday that a local man desires to buy it and that he may sell. He said that he had reconsidered the matter of building as he feels that he is too old to undertake the job.

Dan Teehan, who has been employed as baggage man on the Northwestern passenger train between Ishpeming and Marquette and points in the western end of the county for some years past, has been promoted to conductor of a freight train running out of Escanaba. Mr. Teehan has been in the employ of the Northwestern company since boyhood. Dennis Malloney of this city succeeds him on the passenger train.

THE REAL CAUSE.

The Ancient Scalp-Fever Theory Exploded.

At one time dandruff was attributed to the result of a feverish condition of the scalp, which threw off the dried cuticle in scales.

Professor Anna, Hamburg, Germany, noted authority on skin diseases, explains this theory and says that dandruff is a germ disease. This germ is really responsible for the dandruff and for so many bald heads. It can be cured if it is gone about in the right way. The right way, of course, and the only way, is to kill the germ. Xewlin's Herpicide does this, and permits the hair to grow luxuriantly, just as nature intended it should.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. The Stafford Drug Co., special agent.

HOW TO AVOID APPENDICITIS.

Most victims of appendicitis are those who are habitually constipated. DONOVAN RETAINS RECORDER'S OFFICE

RECOUNT IN SECOND WARD INCREASES HIS MAJORITY FROM THREE TO TWENTY-FOUR.

MCARTHY GAINS IN FOURTH

Six Illegal Ballots, of Which Five Were Cast for Donovan, at First Placed Petitioner in the Lead—Session a Long One.

Daniel S. Donovan will retain the office of city recorder. The recount of the Second and Fourth wards by the council as a canvassing board upon the petition of Edward McCarthy, enforced by an order of the court, resulted in increasing Mr. Donovan's majority from three to twenty-four votes. The official result will not be announced to the council by the canvassing committee, Herman Schauer, chairman, George Reichel and Peter J. Donovan, until this afternoon at 2 o'clock.

The council met at 2 o'clock yesterday afternoon, appointed the canvassing committee, and subsequently adjourned to 5 p. m., from 5 to 8:30 and from 8:30 to this afternoon at 2, the committee not being prepared to report. The sessions of the committee were not harmonious, jangles between counsel for the petitioner and respondent being frequent, and the count moved slowly. The outcome was quite a surprise as Donovan gained twenty-three votes in the Second ward, where it was popularly believed he would suffer a loss. Prior to the count in the Second ward, McCarthy's chances looked rosy as he cut down Donovan's total on the election of three votes on total recount in the Fourth ward and led with a majority of one.

The total vote at the election on the office of recorder in the Fourth ward was 473. Of these Donovan had 261 and McCarthy 212, giving Donovan a majority of 49 votes. On the recount six ballots found defective were thrown out. Of the total of 467 passed by the board Donovan was given 296 and McCarthy 21, reducing Donovan's majority in the ward to 45 and changing his total of a majority of three on the election to a deficit of one. Of the six votes thrown out, two were found to lack the inspector's initial, Donovan and McCarthy each experienced a loss of one from this oversight. The other votes had not been cast for either man, but had been credited to Donovan. The committee rejected a ticket cast for McCarthy which had been erroneously dropped in the box reserved for the vote on constitutional amendments. On a number of ballots the voters had failed to observe the specification of the statute that they signify their intention by marking a cross in the circle at the top of the ticket or opposite the name of the candidate and had made other distinguishing marks. Attorney Button contended that these were illegal and was supported by Alderman Reichel. The majority of the board, however, ruled against him, and the votes were counted.

Second Ward Count.
The second ward ballot box contained a number of ballots on which there were distinguishing marks, some even having the voter's name. Attorney Button claimed that these were plainly illegal as the law clearly stated that no ballot defaced with a distinguishing mark of any character should be counted. Attorney McKnight, for the respondent, said that Mr. Button's position was untenable. "If I had an unmarked ballot to an inspector he cannot deprive me of my vote no matter what marks he puts on it; that's the law," he said.

"When the counsel makes such an assertion as that," replied Mr. Button, "I am compelled to doubt his good faith. He knows, or should know that that is not the law. What the law does say is that no ballots bearing distinguishing marks shall be counted, and it does not qualify who puts them there." The dispute between the attorneys was carried up to Chairman Schauer, who said that not being a lawyer he could not rule with either of them on points of law, but personally he was of the opinion that the ballots should be counted.

"The ballot which I hold in my hand is a vote for Mr. McCarthy," responded Mr. Button. "All I want is a square deal in this matter. I don't care who the votes are cast for, I want only those votes counted that are legal under the statute. Will the committee allow me to read the law on the subject?"

Mr. Schauer settled the matter by replying that statutes were sometimes conflicting. Attorney Button's last shot, that anyone ought to read English, elicited no response.

The total vote at the election on the office of recorder in the Second ward was 344. Of these Donovan received 182 and McCarthy 162, giving Donovan a majority of 20. There must have been some grave errors in the first canvass, for the recount, with the elimination of only twelve votes, showed a total of only 307 votes for recorder, of which Donovan received 175 and McCarthy 132, increasing Donovan's majority in the ward from 20 to 43, and his majority on the election from 3 to 22, counting his loss of four votes in the Fourth.

The Council Session.
The council met in the recorder's office at 2 o'clock. The call of the roll showed Downey and Ekstrom the only absentees. The order of the court reconvening the council as a canvassing board to recount the votes in the Second and Fourth wards on the office of recorder was read by the clerk. Recorder Donovan then read his own petition asking for a recount in the First and Fifth wards. Alderman Siegel called upon City Attorney Hill for his opinion as to the legal right of the council to entertain the petition. Mr. Hill gave it as his opinion that the council had just as much legal right to count the ballots in the First and Fifth wards as it had to recount those in the Second and Fourth.

Alderman Reichel protested that the granting of Mr. Donovan's petition would invite a lawsuit. In respect to the petition of Mr. McCarthy, he said, the court had issued an order that was wholly at variance with the construction placed upon the law by Mr. Hill. He

MANY LAKE TROUT HAVE BEEN PLANTED

SEVEN HUNDRED THOUSAND FROM DULUTH HATCHERY DUMPED NEAR PARTRIDGE ISLAND.

SPAWN WAS SECURED HERE

Experts Claim That System of Scientific Propagation Will Prevent Extinction of More Common Species.

J. Smith, of the government fish hatchery at Duluth, went out with Captain John Parker in the latter's tug, the Theora, Sunday, and planted 700,000 lake trout fry in the neighborhood of Partridge island. All of the fry were from seven gathered out from this port in October and November of last year. The fish, which were about an inch in length, had been out of the egg three weeks. They filled 140 cans and were in excellent condition.

The government employees who visited this locality last fall to gather spawn secured about 7,000,000 eggs, though it was their intent, if possible, to secure 12,000,000. Some seasons the amount has run as high as 14,000,000. Most of the trout eggs for the Duluth hatchery come from this locality and the white fish spawn is mainly secured in the St. Clair river.

The propagation of fish through artificial means was first adopted in Germany and was taken up by the United States about thirty years ago. The employees of the Duluth hatchery are men who have made a close study of their calling, from a scientific standpoint. They go out with the local fish tugs in the fall of the year and when the fish are lifted they have no difficulty in catching out those in which the spawn has attained a sufficient development to render it valuable for breeding purposes. After the spawn has been taken from the females it is fertilized, and then shipped to the hatchery, where the eggs are looked after until the little fish emerge.

Under a powerful magnifying glass the fish look, just prior to emerging from the egg, surprisingly like hair snakes. Like the geni that came out of the bottle they expand wonderfully on emerging and grow with great rapidity during the first few weeks, though during this period they eat nothing. Nature has, however, provided them with a small sack just under the throat filled with a glutinous substance that is nearly pure albumen, and on this they live and develop until they are large enough to feed themselves. In rare cases, where the fish have been held a long time at the hatchery, they are given cornmeal, which has been found to be the food from which the best results are obtained, but most of the little fish are planted before they are large enough to feed themselves.

Will Preserve Common Species.
Employees of the Duluth hatchery claim that the system of fish propagation adopted by the government will insure the more common species from ever becoming extinct. Under the conditions that prevail at the hatcheries a greater proportion of the spawn hatches than when laid in its native state. The little fish also have a better chance for their lives, as they are only planted in the most favorable locations. Where it is necessary, the government now has facilities at its command to raise fish to maturity. It is impossible to give an estimate of the percentage of fry that reaches maturity, but it must be small, otherwise the waters would in a few short years simply teem with fish. Many of the little fish presumably fall victims to the elements, but many more are eaten by their own kind. In some waters, particularly those infested by the pickerel and the pike, it has been found absolutely useless to plant the spawn of certain varieties of fish. The best hope for life of the little fish is to get in as shallow water as possible and stay there. For this reason the best breeding localities are those where there are shallow creeks not greatly affected by the tide, where the little fish can secure plenty of food and yet be safe from the cannibal instincts of their kind.

Our Cuban friends couldn't refrain, from raising the Devil again. It seems that a "Little Tally" and Rocky Mountain Tea has set the island free. —The Stafford Drug Co.

MANY LAKE TROUT HAVE BEEN PLANTED

SEVEN HUNDRED THOUSAND FROM DULUTH HATCHERY DUMPED NEAR PARTRIDGE ISLAND.

SPAWN WAS SECURED HERE

Experts Claim That System of Scientific Propagation Will Prevent Extinction of More Common Species.

J. Smith, of the government fish hatchery at Duluth, went out with Captain John Parker in the latter's tug, the Theora, Sunday, and planted 700,000 lake trout fry in the neighborhood of Partridge island. All of the fry were from seven gathered out from this port in October and November of last year. The fish, which were about an inch in length, had been out of the egg three weeks. They filled 140 cans and were in excellent condition.

The government employees who visited this locality last fall to gather spawn secured about 7,000,000 eggs, though it was their intent, if possible, to secure 12,000,000. Some seasons the amount has run as high as 14,000,000. Most of the trout eggs for the Duluth hatchery come from this locality and the white fish spawn is mainly secured in the St. Clair river.

The propagation of fish through artificial means was first adopted in Germany and was taken up by the United States about thirty years ago. The employees of the Duluth hatchery are men who have made a close study of their calling, from a scientific standpoint. They go out with the local fish tugs in the fall of the year and when the fish are lifted they have no difficulty in catching out those in which the spawn has attained a sufficient development to render it valuable for breeding purposes. After the spawn has been taken from the females it is fertilized, and then shipped to the hatchery, where the eggs are looked after until the little fish emerge.

Under a powerful magnifying glass the fish look, just prior to emerging from the egg, surprisingly like hair snakes. Like the geni that came out of the bottle they expand wonderfully on emerging and grow with great rapidity during the first few weeks, though during this period they eat nothing. Nature has, however, provided them with a small sack just under the throat filled with a glutinous substance that is nearly pure albumen, and on this they live and develop until they are large enough to feed themselves. In rare cases, where the fish have been held a long time at the hatchery, they are given cornmeal, which has been found to be the food from which the best results are obtained, but most of the little fish are planted before they are large enough to feed themselves.

Will Preserve Common Species.
Employees of the Duluth hatchery claim that the system of fish propagation adopted by the government will insure the more common species from ever becoming extinct. Under the conditions that prevail at the hatcheries a greater proportion of the spawn hatches than when laid in its native state. The little fish also have a better chance for their lives, as they are only planted in the most favorable locations. Where it is necessary, the government now has facilities at its command to raise fish to maturity. It is impossible to give an estimate of the percentage of fry that reaches maturity, but it must be small, otherwise the waters would in a few short years simply teem with fish. Many of the little fish presumably fall victims to the elements, but many more are eaten by their own kind. In some waters, particularly those infested by the pickerel and the pike, it has been found absolutely useless to plant the spawn of certain varieties of fish. The best hope for life of the little fish is to get in as shallow water as possible and stay there. For this reason the best breeding localities are those where there are shallow creeks not greatly affected by the tide, where the little fish can secure plenty of food and yet be safe from the cannibal instincts of their kind.

Our Cuban friends couldn't refrain, from raising the Devil again. It seems that a "Little Tally" and Rocky Mountain Tea has set the island free. —The Stafford Drug Co.

Cures Colds

Don't attempt to "wear out a cold." It means wearing out yourself. Any cold saps vitality and makes you susceptible to dangers that are more real than most people are aware of. Bronchitis, Lung Fever, Pneumonia and Consumption lurks behind every cold. If you are wise you will start a cure as soon as the cold comes.

LAXATIVE COLD CURE.

Cures Colds, LaGrippe, and all kinds of incipient fevers. It will cure a cold or case of LaGrippe over night if taken in the early stages—will cure it within twenty-four hours no matter how severe it may be.

Desjardins Pharmacy,
417 North 3rd Street.

Have a Look

At our newest fabrics for this season

We have always on hand a full assortment of up-to-date Woolens. If you have not placed your order let us show you our line.

The particular finish of our SUITS is in great demand, and we believe will appeal to all wearers of good clothes.

We absolutely guarantee perfect fit and satisfaction
