WILL CARRY FIGHT TO THE COMMONS.

IRISH NATIONALISTS NOT SATISFIED WITH THE GOVERNMENT'S "HOME RULE" BILL.

London, April 25.—Discussions are still going on between the government and John Redmond, chairman of the Irish parliamentary party in common.

"BLOOD MONEY" IS NOT NEEDED.

BOXER CLAIMS SATISFIED, U. S. MAY NOT EXACT MORE MILLIONS FROM CHINA.

Washington, April 25.—President Roosevelt may soon surprise the Chinese government by announcing that the United States does not care to receive any more money on account of the indemnity awarded to this country growing out of the Boxer uprising.

At half past ten the president is to leave the Mayflower and be met at the end of the government pier by the officers of the exposition and the Chinese States artillery stationed on the exposition grounds.

CROWD ATTACKS A MOTORMAN

Passengers of a Coney Island Car, Transformed Into a Maddened Mob, Inflict Injuries That May Prove Fatal.

New York, April 25.—The sight of the horribly mutilated body of Edward Kelly, aged sixteen, who had been ground to death under the wheels, tonight transformed the passengers of a Coney Island car into a maddened mob which beat into unconsciousness and might have killed the motorman but for the arrival of police who clubbed the men back.

City Brevities

Today's weather: Fair, with rising temperature.

Yesterday's temperatures: Seven a. m., 26 degrees; noon, 26; 7 p. m., 24. Maximum, 28 degrees; minimum, 24.

Peter Prowley, of Hancock, was a Marquette visitor yesterday.

Louis Corbett, of Negaunee, was a Marquette visitor yesterday.

F. C. Bennett, of Ishpeming, transacted business in the city yesterday.

A. H. Grittenden, of Menominee, is transacting business in Marquette.

The Ladies' Aid society will meet at the Baptist church this afternoon at 2:30 o'clock.

Mrs. John Rough and daughter, Miss Ethel, have gone to Negaunee, for a visit with friends.

The Woman's Guild of St. Paul's church will meet in the chapel this afternoon at 2 o'clock.

St. Mary's guild will meet this afternoon at 2 o'clock with Miss Nellie Atfield, Baraga avenue.

The Young Woman's guild will meet at 2 o'clock this afternoon with Miss Merritt, on East Ridge street.

Miss Eleanor Russell, of Jackson, has arrived in Marquette to spend the summer with her aunt, Mrs. A. H. Palmer.

Mrs. John Siegel has been called to Lake City on account of the serious illness of her mother, Mrs. Agnes Moran.

The Ladies' Aid society of the M. E. church will meet with Mrs. Shanafelt, 412 High street, at 2:30 o'clock this afternoon.

Miss Genevieve Dana, who has been visiting relatives here for the past three months, left yesterday for her home at Fond du Lac, Wis.

Paddy Taylor, who has been employed in the city as a printer for the past few months, left for his home in the Soo yesterday morning.

The Degree of Honor will give a social hop Monday evening, April 29, at Keough's Hall. The music will be by Sweet's orchestra of three pieces.

Peter White, appointed by Mayor Robertson as a member of the commission on parks, cemeteries and streets, qualified for the office yesterday afternoon.

The Misses Edith and Nina Stone have returned from an extensive tour of the south, during which they visited numerous points in Florida, Georgia and the Carolinas.

The Federation of Woman's clubs will assemble in annual session at the Methodist church at 4 o'clock this afternoon. Reports will be received, and officers will be elected.

Mr. and Mrs. F. M. Gooding and F. M. Moore have left for the West, their particular objective point being Los Angeles, where they will attend the national meeting of the Ancient and Honorable Order of the Mystic Shrine, which opens May 7 and continues for one week. Mr. Moore expects to be absent for about three weeks, and Mrs. Gooding will extend their trip for two or three months, visiting many points of interest on the Pacific coast.

Concert by Miss Farm—Miss Tekla Farm will give a concert at the Swedish Lutheran church the evening of May 2. She will be assisted by Mrs. Rushmore, of the Normal.

Furnace to Resume—The Carp furnace, which has been out of blast the past few days, on account of a shortage in the supply of wood, will resume operations Monday. Some wood is now being delivered to the kilns. The shortage was occasioned by the bad conditions prevailing in the forests at the Alger county camps.

A Farewell to Mr. Elliott—Friends of County Clerk Clark Elliott, who leaves shortly for Virginia, Minn., will tender him a farewell banquet at the Hotel Marquette this evening. There will be between fifty and sixty guests, and, in the light of the popularity of the gentleman in whose honor the event is arranged, it should certainly prove a memorable one.

Will Open a Saloon—Gene Buretti, a resident of Chocoma township, is planning to open a saloon at the Chocoma location, to cater to the thirst of the men who will be employed at the furnace, and also to the farmers passing to and from the Chocoma valley. An old store building, not far from the bridge, is being prepared for occupancy, and will be occupied May 1 or shortly after.

Evert Berg Seriously Ill—John Berg, watchman at the county jail, has been called to the Canadian Soo by a telegram announcing the dangerous illness of his son, Evert, with typhoid fever. The young man was a resident of this city until two years ago, when he went to the Soo to take charge of a large machine shop. He visited his father in Marquette a month ago, at which time he appeared to be in the best of health.

Seniors' Annual Dance Tonight—The annual party of the senior class of the high school will be given at Fraternity Hall this evening. Over two hundred invitations have been issued, and a large attendance is expected. The first number of a program of twenty-four dances will be played promptly at 8:30 o'clock. The music will be furnished by Sweet's full orchestra. The hall has been tastefully decorated with the class colors, blue and gold. Supper will be served at 11 o'clock.

Sheriff Serving Subpoenas—Sheriff Rough is busy serving subpoenas on the jurors that have been drawn for the term of court opening May 20. The list will be given out for publication as soon as his work is completed.

"I think that there is a deep seated distaste in the breasts of many men against serving on the jury. If the press published the jury list as soon as it was prepared it would be almost impossible to locate a good portion of the men drawn."

Jail Has Held Few Vagrants—According to Sheriff Rough there has been less than half a dozen vagrants committed to the jail from the entire county since last fall. "The tramp question isn't a serious one in this vicinity," said the sheriff yesterday. "I think that the severity of the winter is pretty good evidence that the tramp is only partially an evolution of social conditions. The man who wants work can generally get it. The men who have no distaste for labor and find themselves stranded in this section will always be given some thing to do by making a statement of

their situation to the authorities. This is too cold a country, however, for the type that likes to drift from town to town, living on the philanthropy of the residents."

Will Open Foundry May 15—August M. Sweder and Charles Christensen are preparing to open a foundry on the southwest corner of Marble and Hempton streets, Myr 15. The building is being remodeled and enlarged, and the machinery will be installed in a few days. The plant will be equipped to turn out castings weighing three tons. Mr. Sweder is proprietor of the Lakeside Iron works and has been a resident of the city twenty years. Mr. Christensen, who is a miller by trade, has lived here twenty-five years.

The Kilgore Meeting—The attendance at the Baptist church last evening was the largest of any week-night service since the beginning of the series. The address was one that held the closest attention of the hearers to the last word. No one could hear the sermon without a firmer adherence to high ideals for our homes, and a greater loathing of all that ruins the home. These meetings will continue throughout the week, including Saturday night and Sunday night. In connection with the Sunday services preparation is being made for an inspiring young people's service to precede the sermon of the evening.

Fishing Very Poor—According to Captain John Parker the catch so far this season has been lighter than ever before in the history of fishing in this vicinity. His tug lifted a number of nets Tuesday and did not haul a fish. Yesterday the wind was too high to lift. There are very few trout and whitefish on the Milwaukee market, where a good share of the catch from this vicinity is shipped, but there is plenty of perch, bass and other small fish taken in the lesser lakes in the Balguy state. On account of the light catches in the great lakes quantities of smelt are being shipped in refrigerator cars from the west.

Iron Notes

The Cambria Steel company's electrical power plant, under construction for more than a year past at Sturgeon Falls, on the Menominee, will go into commission within a month. The power developed will be used to operate practically all the machinery at the Penn group of mines.

Corrigan, McKinney & Co. have awarded a contract for the construction of ten dwellings at their Kimball mine, a property they are opening in the heart of the city of Crystal Falls, Menominee range. This batch will be but the first installment of houses to be erected at that location.

Oglebay, Norton & Co. are practically through with the construction of the Wisconsin portion of the Menominee, where the deposits have apparently petered out after nearly two and a half millions of ore have been shipped, but they are still conducting work at the Buckeye property, in the same vicinity. The shaft here was carried down another level during the winter and now has a total depth of 215 feet. Drifting is in progress. While no material deposit of ore has been located as a result of the exploratory work the prospect is not without a bright side, and the drifting now in hand may result in important discoveries. The firm has expended much money in exploratory work on its lands in the Commonwealth neighborhood, but thus far the results have not been encouraging.

An important deal closed recently in involving Mesaba range ore holdings was that by which Longyear & Bennett, well-known prospectors, secure a lease to the so-called New Adams property in Section 5, 58-15, near Biwabik. The tract fronts on Lake Embarras and is not far from the Bangor and Syracuse mines of Pickands, Mather & Co. Longyear & Bennett have been exploring the property with diamond drills, and have determined that it contains an ore deposit of presumably large proportions. The lease provides for a minimum production of 50,000 tons a year and for the payment of a royalty of twenty-five cents a ton for all ore produced. It is the expectation that Longyear & Bennett will in turn transfer the property to some mining or consuming interest, as they have done with other tracts exploited by them. Sinking is still in progress at the Bangor and Syracuse mines, the Foundation company of New York doing the work by the pneumatic air process after ordinary methods had proved fruitless and costly in this district of heavy quicksand and boulder overburden, and it is expected that some ore will be shipped from both properties this season. Mining operations at the Syracuse are now in charge of Captain A. S. Johns, for many years past in the same capacity at the company's Pike mine, on the Gogebic.

IS ROOSEVELT'S PLAN. Study of Natural Resources to Be Made by the Government.

Washington, April 25.—The administration has lumped the natural waterways with the movement for the preservation of the public domain and its products because they are natural resources.

During all this criticism the friends of the administration were compelled to keep silent, so far as the item of cost was concerned, simply because they had no information with which to refute the charges. The war department was with out accurate advice on the subject, and admitted its inability to furnish the information desired.

HAPPY WOMEN PRAISE PE-RU-NA

It Is Works, Not Words, That Has Made Pe-ru-na Famous Throughout the Land.

The miss and the matron alike praise Peruna. Girls and women have all discovered the value of Peruna. The Miss and Mrs. have been ill, each in her own peculiar way, and have found relief by taking Peruna.

Mrs. Sophia Caldwell, 1122 McGavock street, Nashville, Tenn., writes:

"After doctoring for a year and finding no relief from leucorrhoea resulting from profluent uteri, and which was sapping my life forces away, I finally tried Peruna and when I found that it was helping me every day it seemed almost too good to be true.

"But, it not only helped me, it cured me and in a very short time. I am now enjoying the best of health. I am strong and free from pain, and I certainly feel that all praise and honor are due to Peruna."

Miss Annie Hendren, Rocklyn, Wash., writes:

"I feel better than I have for over four years. I have taken several bottles of Peruna and one bottle of Manalin. I can now do all of my work in the house, milk the cows, take care of the milk, and so forth.

"I think Peruna is the most wonderful medicine. I believe I would be in bed to-day if I had not written to you for advice. I had taken all kinds of medicine, but none did me any good. Peruna has made me a well and happy girl. I can never say too much for Peruna."

INSULAR BUREAU WILL MAKE FULL INVESTIGATION. Gen. Edwards Believes \$100,000,000 Will Cover All Charges, and the Total May Be Half That.

Washington, April 25.—It is by direction of Brigadier General Edwards, chief of the bureau of insular affairs, that the war department officials have undertaken to find out just how much the Philippines have cost the United States government. This information is desired so that answers can be made to the charges that the islands annually cost the taxpayers of the country hundreds of millions, and that the burden of carrying them is growing heavier and heavier.

During all this criticism the friends of the administration were compelled to keep silent, so far as the item of cost was concerned, simply because they had no information with which to refute the charges. The war department was with out accurate advice on the subject, and admitted its inability to furnish the information desired.

PAYS BRAKEMAN \$45,000. New York, April 25.—The attorneys for the New York, New Haven and Hartford Railroad company have agreed to pay Harry Munro, a former brakeman, \$45,000 for injuries received by him Jan. 11, this year, while he was working for the company.

Iron Notes. Nearly 700,000 tons of ore, it is expected, will be shipped from the Marquette and Marquette range mines of Gilespie, Norton & Co. this season. Of this amount, 225,000 will come from the Antoine mines at Iron Mountain, 350,000 tons from the Bristol in the Crystal Falls district, 20,000 tons from the new mines in the Stambaugh district of the Marquette and 75,000 or 100,000 tons from the Epprie mine on the Marquette range.

omment so highly. It will soon be two years since I found relief from the pain and not a sign of it has returned. I am glad that there is a way in which I can speak of this, as many a sufferer may read my testimonial, and not only read, but believe."—Mrs. Wm. Henderson, Craik, N. W. T., Can.

"I feel it my duty to write and tell you of the good Peruna has done me. I was subject to female weakness. For six years I suffered more or less. We consulted various doctors, who gave me relief, but no cure. I have suffered a great deal, and my husband had very large bills to pay.

At the head of Lake Superior, excellent progress has been made lately with the work of rebuilding the Great Northern's No. 1 ore dock at Alouez bay. It is now expected by the contractors that the structure will be completed by early in June despite a delay of nearly two months occasioned by the non-arrival of timber shipments from the Pacific coast.

It has been decided that Cuba will have to reimburse this government for its expenditures in connection with the present occupation. It is likely, however, that the account will not be squared for many months to come. The United States treasury is in no hurry for the money, and the removal of \$2,500,000 from the coffers of the Havana government would seriously embarrass the Cuban government.

Organized to exploit the mineral possibilities of that portion of the range, the Reserve Mining company has instituted extensive exploratory operations in the territory between Iron Belt and Upon, on the Wisconsin side of the Gogebic. Interested in the undertaking are the Ogilvie-Norton people and the Ashland Iron & Steel company along with other independent furnace men of Cleveland and other places.

Just once in a while, under our breath— Now, isn't it really so? There comes a full day, when we're tired to death. Of all the nice people we know.

"What shall we have for breakfast?" "Why, Codday's Peacock, Ham and Eggs of course; they are always acceptable, especially at this season of the year." (11-27-eod)

S.S.S. CURES BLOOD POISON

The first symptom of Contagious Blood Poison is usually a little sore or ulcer which does not always excite suspicion because of its insignificance; but as the poison becomes more firmly rooted in the blood, the mouth and throat ulcerate, copper-colored spots appear, a rash breaks out on the body, the hair begins to come out, glands in the neck and groins swell, and often ulcerating sores form on the limbs, hands or face. But this is not all: If the poison is allowed to remain it works down and attacks the bones, causing necrosis or decay, and makes a complete physical wreck of the sufferer. It will not do to tamper with a disease so powerful as Contagious Blood Poison, for every day the virus remains in the blood the trouble is progressing toward a more dangerous stage, and may in the end get beyond the reach of any treatment. There is but one certain, reliable cure for Contagious Blood Poison, and that is S. S. S., the greatest of all blood purifiers. This remedy attacks the disease in the right way by going down into the blood and forcing out every particle of the poison. It makes the blood pure and rich, strengthens the different parts of the body, tones up the system and cures this humiliating and destructive disorder permanently. The improvement commences as soon as the patient gets under the influence of S. S. S. and continues until every vestige of the poison is driven from the blood, and the sufferer completely restored to health. S. S. S. is not an experiment, it is a success and has cured thousands of cases of Contagious Blood Poison in every stage, and being entirely free from minerals, is a safe as well as certain treatment. If you are suffering with this debasing disease get the poison out of your blood with S. S. S. before it does further damage. Special home treatment book on the disease and medical advice sent free to all who write.

Ishpeming Department

FINNISH SOCIETIES UNITE.
Three Organizations of This Country Have Consolidated.

Dr. John Jackola of Hancock will be in Ishpeming Sunday to formulate plans for organizing a branch of the Knights of Kaleva, a society which has a membership of about 10,000 in the United States and is especially strong in the copper country. Mr. Jackola writes a fellow-countryman in Ishpeming that he had been advised by telegram from Attorney John Kikkila of Hancock, who is attending a session of the Knights of Kaleva in Oregon, that the organization has decided to consolidate with two other Finnish societies, the Kaleva Brotherhood of California, which has lodges, and the United Finnish Brotherhood of Oregon, Washington, Idaho and other Western states, with fifteen lodges. This fact was published in the copper country department of the Mining Journal a few days ago. The name of the united societies will be either Kalevan Ritariit or Knights of Kaleva.

The Finnish people of this city are quite familiar with the work of all three organizations, particularly that of the Knights of Kaleva, which has the largest membership and is the best known. The latter has also a ladies' auxiliary, known as Kaleva Mieset, with almost as many chapters as the parent order. Combined these organizations will form the largest Finnish society in America, exceeding in membership the Finnish Brothers Temperance association, which has its headquarters in Ishpeming.

Several prominent members of the copper country branches of the Knights of Kaleva attended the convention at Astoria, Ore., and according to Dr. Jackola they went there determined to bring the three societies together if possible. The announcement of the consolidation has been received with much satisfaction by the members of the organization in the copper country as well as in other portions of the upper peninsula. It is thought that better results can be obtained by uniting the societies, all of which were operated along similar lines, and were started with practically the same object in view. The Knights of Kaleva has branches at Crystal Falls, Mass City, Duluth, Hibbing, Ely and Sparta, Hurley and Ironwood.

A prominent Ishpeming Finn, who will aid Dr. Jackola in perfecting the preliminary organization in this city, said that he did not believe the copper country man would have any difficulty in starting the organization with a large charter membership, as a number of the Finns have been anxious for an opportunity to join for some time past. The Knights of Kaleva is a fraternal society, whose principal object is to advance the interest of the Finnish people. It is a society that will not accept as members any but the best of the Finnish people.

ROOSEVELT AT LANSING.
Representative Byrns is Chairman of Legislative Reception Committee.

Representative Charles J. Byrns has been appointed chairman of the committee on arrangements for the reception to be tendered President Roosevelt and his party at Lansing May 31, when they will visit the Michigan Agricultural college. The president's party will consist of Mr. Roosevelt, his secretary, assistant secretary, his nephew and several secret service men. They will arrive over the Wabash system from Indianapolis via Detroit, reaching Lansing at 9:30 a. m. The visitors will get direct from the station to the capital, where the president will address the members of the senate and legislature in the legislative hall. A reception will follow, after which the party will go to the Agricultural college.

The committee appointed by the house and senate to receive and entertain the president and his party are:
Senate—Arthur J. Tuttle, Lansing, chairman; Thomas J. Allen, Flint, and Charles Smith, Hubbard.
House—Charles J. Byrns, Ishpeming, chairman; George Lord, Detroit; Abram N. Shook, Carol; James B. Knight, Norway, and Harry Vanderveen, Grand Rapids.

The committees were appointed by the lieutenant governor.

PYTHIANS ENTERTAINED.
The annual banquet, card party and hop given Wednesday evening at the Woodmen's hall by Zenith lodge, Knights of Pythias, was a most successful function. About 500 persons were in attendance, including members of the society, their ladies and invited friends. The early part of the evening was spent in progressive pedro, nearly fifty tables being in service. Much interest was manifested in the card games on account of the excellent prizes offered. Mrs. A. G. Johnson won the lady's first prize, a gold headed umbrella, and Mrs. A. C. Lindington the second prize, a gold hat pin. Charles Thomas captured the gentlemen's first prize, a gold watch fob, and William McGee took second prize, a pair of gold cuff buttons. Best Ramsdell got the booby prize. Following the card games an elaborate lunch was served, after which there was dancing until 1 o'clock. Trombly's orchestra furnished the music.

Mr. Mortley intends to move his tailoring establishment to his smaller building, immediately east of his brick block.

ISHPEMING IN BRIEF.
J. T. McKenney, traveling passenger agent of the Northern Pacific Railway company, was in the city yesterday.

John Welsh is here from Ely, Minn., on a few weeks' visit to his party, Mr. and Mrs. Thomas Welsh of Excelsior street.

A special meeting of the city council will be held this evening at 7:30 o'clock for the purpose of considering the bonds of the liquor dealers and druggists of the city.

D. E. Johnson, residing for some time past at 508 North First street, has purchased Harry Tallon's dwelling at 409 North Oak street, and is occupying it with his family.

John and Marcus Lindberg, who are in the employ of the Cleveland-Chicago iron company at Princeton, were in the city yesterday. Mr. Lindberg has charge of the repair crew at the mines.

Ole Walseth, who a short time ago disposed of his blacksmith and wagon business, yesterday received a carload of buggies, spring wagons and working wagons ordered last fall. As he is winding up his business he will dispose of them at a sacrifice.

Two or three loaded ore cars were wrecked Wednesday at the Oliver Iron Mining company's No. 6 shaft. The Northwestern company's wrecking outfit had to be brought up from Escanaba to put the cars back on the rails.

Rev. Stephen Polkinghorn, who left for the south, has returned and will preach Wednesday evening at the First Methodist Episcopal church on his trip through Cornwall, had an audience of nearly 700 persons. He talked for over an hour, giving an interesting and entertaining address.

L. W. ATKINS & CO.

Robert Lyons Takes Important Position Under John C. Greenway.

Robert Lyons, who has held a position in the auditor general's office at Lansing in the past two years or more, recently resigned to accept a more lucrative position under John C. Greenway, general superintendent of the Oliver Iron Mining company's properties on the western Mesaba range. Mr. Lyons is now in Ishpeming visiting relatives before departing for Colorado.

Shortly before leaving Lansing Mr. Lyons was given a surprise by his associates in the accounting department, who presented him with a beautiful solid silver ring; a few days later Lansing came to the Knights of Columbus, of which he is a member, gave him a gold K. of C. fob and charm. The Mining Journal is advised from Lansing that Mr. Lyons was a great favorite with the officials and employees at the capitol, and that he had many friends among the town people. Representative C. J. Byrns writes:

"Auditor General Bradley told me personally that Mr. Lyons was the most competent and efficient man in his department, adding that in his opinion he was the best bookkeeper that ever worked under the capitol dome. I cannot describe the joy and satisfaction that this information gave me because of the friendly feeling I have for Mr. Lyons. I take a praiseworthy pride in reporting the reputation Mr. Lyons has achieved in fulfilling his work at the capitol."

CANNOT SIGN CERTIFICATES.
Midwives Have No Right to Certify to Deaths Occurring in Michigan.

A death certificate signed by a midwife was recently returned to the office of the city recorder, the local registrar. Mr. West was in doubt whether a midwife had a right to sign a certificate, and wrote to the secretary of state for advice. Yesterday he received the following reply:

"Mr. John D. West, Ishpeming, Mich.: "Dear Sir:—I am in receipt of your letter of April 18, and in reply wish to say that according to the regulations of the Michigan state board of registration in medicine midwives are not recognized under the medical act and have no professional or legal status in Michigan. They have, therefore, no right to sign a certificate of death, but all fatal cases occurring in their practice should be treated as if they occurred without the attendance of a physician, and be referred to the health officer or coroner as provided for such cases. The health officer when a death occurs without the attendance of a physician, under the act of sub-registrar should present the certificate of the registrar with a statement to that effect, whereupon the registrar should refer the certificate to the health officer for immediate investigation and report, previous to issuing a permit. If the health officer is not a physician, and only in such cases, the registrar may insert the facts relative to the cause of death from the statements of relatives or other competent testimony."

Very respectfully,
G. A. PRESCOTT,
Secretary of State.

FROM HOPKINS' CURB LETTER.
"There was very little of interest in the copper share market, outside of a net advance in copper warrants in London of 15 shillings per ton. The trade seems to realize that stocks have been unduly hampered and are willing to accept the market as a reality. Globe announces that the Arizona Commercial Copper company is now shipping from 175 to 200 tons of ore daily from its Cop Hill mine, and is earning approximately \$50,000 per month net from this source. The company has prepared for proper equipment and has over \$250,000 in cash in its treasury. Utah-Exp will start their 200-ton mill in this week. Present shipments are netting about \$20 per ton. Earnings, present are \$20,000 to \$40,000 per month. Indications are for a rather quiet market until the May dividends are all financed, after that a broader market should obtain."

NAVIGATION SEASON IS OPEN AT LAST

FLEET OF FROM FIFTY TO SIXTY BOATS CONSIGNED TO LAKE PORTS PASS THE CANALS.

MAY HAVE BOAT HERE TODAY

Pendennis White, Out of Milwaukee, Expected to Reach South Shore Docks Tonight or Tomorrow Evening.

According to information received at the dock office of the South Shore railway, the Pendennis White will reach Marquette either this evening or tomorrow morning for a few hours after her arrival.

The season this year is nearly a week later than last, as the first boat loaded with ore left this port last spring on the 19th.

The Pendennis White cleared from Milwaukee and has been held at the Soo for some days. A telegram to the South Shore gives the Bangor State as the first boat to be locked through the canal Wednesday night.

A fleet of between fifty and sixty vessels is reported to have followed her. A channel was broken through Hay and Mud lakes by the ferry Algoma.

The first boat consigned to this port of which official information has been received is the schooner Thompson, due at the South Shore docks Sunday.

The Thompson loaded at Ashtabula and is in tow of the steamer Warner, bound for Lake Linden. Tuesday evening two boats with iron ore, clearing from Duluth, reached the Soo, which shows that Whitefish bay must be clear.

James Pickands & Co. expect a coal boat some time today.

The opening of navigation will relieve a number of ports which have for some time past been suffering from a coal famine. At Duluth and Superior, especially, the situation has been serious.

In Marquette the Consolidated Fuel & Lumber company has been able to fill the demands of the trade, but its stock is very low, and the assurance that plenty of coal will be brought in within a few days is welcome news.

F. B. Spear & Sons were well stocked at the close of navigation and have not been pressed.

There is plenty of ore on the South Shore docks for the loading of the steamer Pendennis White on her arrival here Friday night or Saturday morning.

The ore in the bins, however, is frozen, and will have to be thawed out with steam before it can be loaded. A spell of cold weather at the opening of navigation is always one of the handicaps to be feared.

The new dock of the South Shore has been wired and equipped with electric lights for night work, and every preparation has been made for a big season.

Mates Get Increase. President Livingstone has announced that the Lake Carriers' association has voluntarily raised the wages of first and second mates. Under the new wage scale issued by the association, first mates on first class steel steamers will receive \$125 a month, and second mates \$80 a month, an increase of \$10 and \$9 respectively.

On second class steel vessels first mates will receive \$108 a month, and second mates \$75 a month, an increase of \$8 and \$5 a month respectively. The wages of mates on third class steel vessels remain the same as last year, \$90 for first mates and \$60 for second mates.

The rates on first class wooden steamers will receive an increase of \$8 and \$5 respectively, making the wages of first mates \$108 a month, and the wages of second mates \$75 a month. The wages of first and second mates on second class wooden steamers remain the same as last year, \$90 and \$60 a month respectively.

This increase is made voluntarily by the Lake Carriers' association and is in keeping with the general advance in wages this season.

COMMITTEES ARE APPOINTED. List Filed By Chairman Trebilcock With Clerk Yesterday Afternoon.

John Trebilcock, chairman of the county board, filed his list of committee appointments with the county clerk yesterday afternoon. The list will be printed together with the rules, and will be mailed to members about May 1.

The committees are as follows: Finance and Taxation—Jackson, Thompson, Antio, Curme, Barabe, Morgan, Nord, Shaw, Smith, Sweder, Tomas, Vivian, Wallner, Charbonnet, Gustafson, Wiseman, Williams, Platto, Nault, Farrell, S. Johnson, Rublin, Marketty, Lavigne, Yonkosky, Corey.

MANY PETITIONS FILED.

Thirty-Two Applications at County Clerk's Office for Citizenship Papers.

There will be thirty-two petitions for citizenship passed upon at the term of court opening Monday, May 20. The men are almost all Finns, though there are two or three names on the list that might be English and a few that are unquestionably Irish.

The list is the largest posted in the county clerk's office since the new law covering naturalization went into effect. The new law is much more stringent than the old.

Prior to November, 1892, applicants for citizenship in many states, notably the Dakotas, which were just then the Meccas for immigration, were allowed to vote on their first papers. Now a man must qualify and secure his certificate of citizenship before he can secure the right of franchise.

The present law also specifies that subsequent to the declaration of intent not less than two nor more than seven years shall elapse before a petition for citizenship shall be filed. Five years' residence in the country is also necessary to the issuing of the certificate. Petitions are compelled to appear in open court and pass a rigid examination as to their qualifications.

They are carefully examined as to their sentiments toward anarchy and the doctrines of polygamy.

SAME OLD UNCLE TOM. Stetson's Production Plays to Crowded Houses at Marquette.

"Uncle Tom" shows are in a class by themselves. To criticize them from the ordinary dramatic standpoint would be equally unfair to the "Uncle Tom" producers and the drama.

The only dramatic production of "Uncle Tom" in the history of the American stage was headed by Wilton Lackaye supported by a cast of exceptional excellence. There were no donkeys and no dogs; no freak negroes, and only one Topsy. It proved a failure.

The public had been patronizing "Uncle Tom" shows for forty years and its conception of their character had become clearly defined. Measured by the "Uncle Tom" standard the Stetson production, which held the boards at the Marquette Opera House twice yesterday, is probably the best on the road.

It has all the accessories including the blood hounds. No objection can be found to the quantity as it runs nearly three hours. It is the same old "Tom" show that has delighted the youth of this land for nearly half a century and will continue to do so, presumably, for half a century more.

At both presentations every seat was occupied and standing room at a premium. In justice to Gus Collins, who appeared in the title role, it should be said that he acted the part. The music was good.

CONTRACT IS SIGNED. Crumbs Company Agrees to Complete Telephone Work in 100 Days.

The contract with W. H. Crumbs & Co., of Chicago, for the proposed extension and improvement of the Marquette County Telephone company's system has been signed, and work is expected to be now under way.

A member of the company's directorate, in speaking of the matter yesterday, said that the frost had now so far left the ground as to admit of the work being pushed to a speedy conclusion. Crumbs & Co., he said, were one of the largest firms in the line of telephone construction in the country and though the contemplated improvements involved an expenditure of \$35,000 he had no doubt of the contractor's ability to complete them within the specified one hundred days.

The Crumbs company, he said, had plenty of expert labor at its command and would bring a large crew to this city. Work will be started as soon as the material can be secured.

NEW BOOKS RECEIVED. Some new books have just been received at the Peter White public library, for both adult and juvenile readers. A partial list is given below.

A list of the late additions in children's literature, which will be ready for circulation Saturday afternoon, will be published tomorrow:

—Art— Jackson, F. H.—Intarsia and Marquetry. Jackson, F. H.—Mural Painting. Stearns, F. P.—Four Great Venetians. Stearns, F. P.—The Midsummer of Italian Art.

Way, T. R.—Ancient Halls of the City Guilds. —Literature— Morris, Wm.—Poetical Works. Rabb, Kate M.—National Epics. —Mythology— Bulfinch, Thomas—Age of Fable and Beauties of Mythology. —Travel— Smith, F. H.—Venice of Today.

MISS M'KENZIE NOT A MAIDEN

ACTOR WITH "METZ IN THE ALPS" COMPANY WELL ACQUAINTED WITH INTIMATE FRIEND OF HARRY THAW'S WIFE.

Richard Molloy, who appeared as "Toby Vaugander," a cockney Englishman, in "Metz in the Alps" at the Marquette opera house, Wednesday night, has played parts in several attractions in which May McKenzie, intimate friend and companion of Evelyn Thaw, had roles.

"The general impression is that Miss McKenzie is a young and exceedingly good looking woman," said Mr. Molloy. "In fact it would be easy to believe from some of her photographs that she is quite a beauty. I happen to know, however, that the charming May, instead of being a young and blooming girl, is a woman considerably on the shady side of forty. She was divorced from her first husband, twenty-two years ago and has a son considerably older than Evelyn Thaw. May isn't much of an actress, but she is good on the "make-up." She likes to be in the limelight and the notoriety that accrued to her during the Thaw trial probably rendered the occasion the pleasantest experience of her life.

As companion and confidante to the young Mrs. Thaw, she is probably getting a better salary than ever before in her career. On the road May has been for the "twenty dollars a week and furnish your own costumes" class. Dressing a part is one of the heaviest items of expense to an actress, and if she is compelled to make several changes the lesser lights generally do not have much more than enough left over at the end of the season than to buy chewing gum, and are compelled to jump into stock when the regular season closes. May was a dressmaker and one of her properties was a sewing machine. Many a time have I heard that machine buzzing at the different hotels we stopped at while we were on the road. May made most of her own dresses in those days, because she needed the money. Now she wears creations which look as though they had been handed by Worth and imported direct from "Gay Paree."

Gave Evelyn Courage. "Though May McKenzie possesses little histrionic talent she has a strong mentality and this, with her greater age and experience, is the secret of her influence over Evelyn Thaw. I am not prepared to say that the influence is an unhealthy one. No other type of woman would probably be congenial to Evelyn. May has an iron nerve and probably had a great deal to do with rallying the courage of Thaw's wife in the crucial periods of the trying ordeal through which she passed. District Attorney Jerome is a good judge of character and he must have realized that Miss McKenzie was playing no unimportant part in the trial, for he made desperate efforts to have her excluded from the courtroom.

"The general impression among members of the theatrical profession was that Thaw would be acquitted, but they are not now so sanguine. At the next trial Evelyn will be examined as to her testimony in the former one, and, as she was on the stand for two days, there are liable to be some serious discrepancies.

Sickles-Keves Case. "Just the other day the members of the cast went into the matter at length and the Sickles-Keves case was brought up. Something like fifty years ago Daniel Sickles was a poor and struggling Washington lawyer. His beautiful young wife was seduced by Barton Keves, son of the author of the "Star Spangled Banner," and generally credited with being the handsomest man in Washington. He moved among women like a living flame. Sickles shot Keves dead on the steps of the Capitol hotel. Keves was unarrested at the time and was given not the slightest chance for his life. Sickles made no defense other than that every man has the right to defend the honor of his name and the sanctity of his home. In his address to the jury Sickles' counsel argued that the highest law of nature was the law of self-defense. Every man, he alleged, the right to shoot in defense of his life. When a man married a woman he swore to "love, cherish and protect" her. It devolved upon him at all times to kill in defense of her life. As a moral death was infinitely worse than a purely physical one, it was likewise his duty to kill in defense of her honor and his own. The plea carried the day. Sickles was acquitted.

Sickles Rose to Fame. "In the face of a storm of disapproval he took his wife back. The war broke out shortly. Sickles entered the army. He led his troops on the battle field with reckless bravery. At the close of the struggle he was minus a leg but was wearing the shoulder straps of a general. Subsequently he was elected sheriff of New York and served several terms in congress. When he died few Americans left a memory held in higher esteem.

"Had Thaw been tried in the South, the jury would have acquitted him on the first ballot. It would also have been as much as District Attorney Jerome's life was worth to have submitted Evelyn Thaw to the grueling cross-examination that he did. The chances are strong that some "chivalrous" southerner would have taken a shot at him."
