

MINERS' TRIAL BEGINS TODAY

Wm. D. Haywood Will Be Arraigned at Boise This Morning on Charge of Murdering ex-Governor Steunenberg.

City Is Crowded With People Interested in the Case in Various Capacities, and Every Incoming Train Augments the Number—Prosecutor Denies Responsibility for the Long Delay, and Declares No Action Possible With Appeals Pending in Courts.

Boise, May 5.—Practically every available room in Boise, the capital city of Idaho, has been reserved for lawyers, witnesses or newspapermen here for the trial of the murderer of former Governor Steunenberg.

Cause of the Long Delay. James H. Hawley the leading counsel for the prosecution, was asked today to explain the reasons for the delay in the trial.

Self-Amputation of His Tongue Fatal to the Once Great Tenor, Arcangelo Rossi.

Rome, May 5.—Arcangelo Rossi, the famous tenor, who attempted suicide at Milan on Thursday in a fit of melancholia, caused by the loss of his voice, is dead.

Square Deal for Prisoners. President Will Intervene in Case Misconduct of Justice Is Shown.

New York, May 5.—In a letter read today before the Central Federated union, President Roosevelt states that if evidence is submitted to him showing that there has been a miscarriage of justice for or against Moyer and Haywood, awaiting trial at Boise, Idaho, he will bring it to the attention of the attorney general for such action as may be in the power of the federal authorities to take.

William Oakley, a member of the committee, said: "The letter shows that the president, more than twelve months ago, determined to see that Moyer and Haywood received a square deal. Some of the delegates to this body thought it the committee's sole duty to attack the president. Others were not sincere in their sympathy for Moyer and Haywood, but were using the case to advertise their own propaganda. It is high time that organized labor began to find out where it belongs. It has been pulled along by the nose by the socialists long enough."

Mission One of Peace. King Edward Home After His Pilgrimage on the Continent.

London, May 5.—King Edward arrived in London late yesterday, accompanied by his suite, after a two months' pilgrimage of friendship and diplomacy in France, Spain and Italy.

Will of "Silent" Smith Discloses of an Estate Valued at \$25,000,000.

New York, May 5.—What is declared to be authoritative information in regard to the will of James Henry "Silent" Smith, who died in Japan March 28, places the value of his estate at \$25,000,000.

Nephew Gets the Bulk of It. Late Seeding Causes No Anxiety in Northwestern States.

St. Paul, May 5.—Throughout northern Minnesota, North Dakota and Manitoba, and in some portions of South Dakota, seeding has been greatly delayed by inclement weather during April.

Death Trap Unearthed. Guatemala City, May 5.—It is reported that another mine of explosives has been found in the vicinity of the national assembly.

FORMER CHIEF FACES PRISON

John M. Collins, Late Head of Chicago's Police, Indicted Along With Others Recently High in Municipal Office.

Character of the Charges Is Essentially Political, Yet Penitentiary Sentences Threaten the Accused Men in the Event of Conviction—Raising Campaign Funds for the Use of the Dunne Machine the Basis of the Prosecution Now in Hand.

Chicago, May 5.—Indictments against John M. Collins, former chief of police; Frank D. Comerford, former police attorney; F. H. Roche, former city purchasing agent; William J. O'Connell, former commissioner of public works; and John McGrath and Patrick McNulty, policemen of the Sixteenth precinct, have been presented by the grand jury on charges that carry with them, in the event of conviction, imprisonment in the penitentiary.

Famous Singer Bleeds to Death. Self-Amputation of His Tongue Fatal to the Once Great Tenor, Arcangelo Rossi.

Rome, May 5.—Arcangelo Rossi, the famous tenor, who attempted suicide at Milan on Thursday in a fit of melancholia, caused by the loss of his voice, is dead.

Square Deal for Prisoners. President Will Intervene in Case Misconduct of Justice Is Shown.

New York, May 5.—In a letter read today before the Central Federated union, President Roosevelt states that if evidence is submitted to him showing that there has been a miscarriage of justice for or against Moyer and Haywood, awaiting trial at Boise, Idaho, he will bring it to the attention of the attorney general for such action as may be in the power of the federal authorities to take.

Nephew Gets the Bulk of It. Late Seeding Causes No Anxiety in Northwestern States.

St. Paul, May 5.—Throughout northern Minnesota, North Dakota and Manitoba, and in some portions of South Dakota, seeding has been greatly delayed by inclement weather during April.

Death Trap Unearthed. Guatemala City, May 5.—It is reported that another mine of explosives has been found in the vicinity of the national assembly.

CRISIS IN FRANCE.

Government Facing a Storm It May Find Impossible to Weather.

Paris, May 5.—Ugly clouds have gathered around the Easter holidays, and when parliament reassembles Tuesday Premier Clemenceau and his cabinet will have to face a multitude of interlocking labor disorders and an anti-military propaganda being fostered by the general Federation of Labor, which is openly preaching expropriation and the attainment of ends by means of a general strike.

Celebration at Orleans. Paris, May 5.—The historical processions and festivities in celebration of the deliverance of the city from the English by Joan of Arc May 8, 1429, will take place at Orleans, on Wednesday.

Baseball. Standing of the Clubs. National League.

Chicago Banking House, Asking the Appointment of a Receiver, Alleges a Conspiracy to Deprive It of Its Holdings in the Concern—Value of the Stock Depreciated Many Millions, It Avers, Through False and Fraudulent Transactions.

Chicago, May 5.—The Chicago Real Estate Loan & Trust company has filed a bill in the circuit court asking a receiver of the Corn Products company under the direction of the court, and that a receiver be appointed for the plants of the company in this state.

Not with McGinty, Says Mark Twain. Humorist Declares Report He Is Lost at Sea Is Grossly Exaggerated.

New York, May 5.—"So far as I can make out from the facts of the case as presented to me," said Samuel L. Clemens, erstwhile pilot otherwise known as Mark Twain, "he was awakened at an unseasonable hour at his home, 27 Fifth avenue, 'the report that I have been lost at sea on H. H. Rogers's yacht, Kanawha, has been grossly exaggerated."

Change of Venue Granted. Trial of the Breathitt County (Ky.) Feudists Opens Tomorrow.

Louisville, May 5.—The feud which for years made Breathitt county, Ky., an armed camp and resulted in the loss of more than a score of lives is to have another day in court this week.

Search for Supposed Abducted Boy Ends in Discovery of His Remains.

Dover, Del., May 5.—The body of Horace Marvin, the boy whose whereabouts have been sought for several months, and who was believed to have been kidnapped, has been found in the marsh near his home, at Kite's Hammock. This ends the search which has gone on incessantly for months, and which attracted as wide publicity as the famous Charles Ross case.

Exposition Ship \$350,000. Norfolk, May 5.—It is admitted by Barton Myers, auditor of the Jamestown Exposition company, and one of the board of governors, that the promoters of the exposition have found it necessary to raise \$350,000 more to complete grounds and buildings.

STARTLING BILL FILED IN COURT

"Standard Oil People," in Control of the Corporation, Accused of Deliberately Wrecking the Corn Products Company.

Chicago Banking House, Asking the Appointment of a Receiver, Alleges a Conspiracy to Deprive It of Its Holdings in the Concern—Value of the Stock Depreciated Many Millions, It Avers, Through False and Fraudulent Transactions.

Chicago, May 5.—The Chicago Real Estate Loan & Trust company has filed a bill in the circuit court asking a receiver of the Corn Products company under the direction of the court, and that a receiver be appointed for the plants of the company in this state.

Fairchild Case Up Today. New York, May 5.—Charles S. Fairchild, former secretary of the United States, who with George W. Perkins was indicted several months ago for forgery in the third degree in connection with the so-called "Prussian bond transaction" of the New York Life Insurance company, will appear in court in New York tomorrow to answer to the charge.

White Plague's Foes Assemble. Washington, May 5.—Representatives of state and city boards of health and of various organizations formed to combat the deadly disease will meet in Washington tomorrow to take part in a three days' session of the National Association for the Study and Prevention of Tuberculosis.

Daughter of Mayor of Oshkosh Wins Suit Against Wisconsin Wines. Oshkosh, Wis., May 5.—A verdict for \$4,750 for damages was given by a jury in circuit court to Miss Metha Banderob against the Wisconsin Central Railway company. Miss Banderob sued for \$5,000 damages, compensation for personal injuries which she sustained by falling over a low wire fence which formerly surrounded the depot property. Miss Banderob declared that her arm was broken in such a manner that she could not use it properly.

CHICAGO WANTS NEW CHARTER

Provisions Now in Force Intended for a Municipality of Much Less Magnitude Than the Metropolis Has Now Become.

City for Years Hampered in Its Business Affairs, an Aggressive Fight Will Now Be Waged to Secure Appropriate Legislation—Action at Springfield Is Decidedly Dubious, However, Unless in Return There Is Conceded Diminished Representation.

Chicago, May 5.—Meetings of prominent business men are scheduled during the coming week to increase the interest in and to make a more aggressive fight for the new charter of the city of Chicago which is now awaiting action by the legislature at Springfield.

Millions Involved. President, Appealed To, Reopens the Blended Whisky Case.

Washington, May 5.—President Roosevelt has decided to reopen the decision of Attorney General Bonaparte that "blended whisky" is not whisky. Widespread indignation of whisky blenders was shown at the decision.

Depreciate Stock Values. It is further declared that the payment of quarterly dividends has ceased and that the stock has been fraudulently taken from all exchanges by depositing the stock values by sales of large quantities of stock on different exchanges in immense amounts, and buying it in again at a lower figure.

Change of Venue Granted. Trial of the Breathitt County (Ky.) Feudists Opens Tomorrow.

Louisville, May 5.—The feud which for years made Breathitt county, Ky., an armed camp and resulted in the loss of more than a score of lives is to have another day in court this week.

Washington, May 5.—Representatives of state and city boards of health and of various organizations formed to combat the deadly disease will meet in Washington tomorrow to take part in a three days' session of the National Association for the Study and Prevention of Tuberculosis.

RATE HELD TOO HIGH.

Commerce Commission Orders Express Company to Cut Its Toll.

Washington, May 5.—The interstate commerce commission has rendered its first opinion in a case involving the reasonableness of an express rate. The case was brought by the Society of American Florists, claiming that the rate charged by the United States Express company on cut flowers from New Jersey points to New York city was unreasonable.

Shriners at Los Angeles. Los Angeles, May 5.—Twenty thousand strangers are in the city for the annual reunion of the Nobles of the Mystic Shrine. The day was spent in welcoming the delegates to the imperial council, which opens Thursday.

Today's Weather. Washington, May 5.—The following is the weather bureau's forecast for Upper Michigan: Rain or snow Monday; Tuesday, partly cloudy; variable winds.

Not with McGinty, Says Mark Twain. Humorist Declares Report He Is Lost at Sea Is Grossly Exaggerated.

New York, May 5.—"So far as I can make out from the facts of the case as presented to me," said Samuel L. **E. RICHARDS PASSES AWAY.**

Well-known Marquette Citizen, Stricken With Paralysis, Dies at Los Angeles.

Telegrams received here Saturday from Los Angeles conveyed the sad intelligence of the death in that city of Mr. E. Richards, long a resident of Marquette. The news came as a distinct shock to the many friends of the family. It was known that Mr. Richards was ill, but there was no general knowledge that his condition was critical.

Mr. Richards left for the Pacific coast a few weeks ago, intending to remain in that region for some months, and at the time of his departure he appeared as well in health as he had been for a number of years past. A week ago he went for a drive, and on returning complained of a numbness in his arm. That afternoon he was stricken with paralysis, and his condition for a time was such that it was deemed wise to summon those of the children who had not accompanied the others to the family at the West. Mrs. Axel Olson and Miss Essie Richards, daughters, started at once for Los Angeles, and en route received reassuring messages stating that there had been a change for the better in the condition of the patient. It was supposed here that this improvement had continued, and for that reason Saturday's announcement that the sufferer had quietly passed away came entirely unexpected.

Mr. Richards spent many years of his life in business here, and was successfully conducting the grocery store at the corner of Hewitt avenue and Fourth street now owned by Edward Bracher. He retired some twenty months ago, since which time up to the day of his fatal seizure, he had enjoyed a well-earned rest from active business cares. Surviving him are the wife, four daughters and one son. The children are: Fred Richards, who with his family recently removed to Los Angeles, expecting to take up permanent residence there; Mrs. Axel Olson, and the Misses Amy, May and Bertha, of this city. All were at the bedside when the end came. Other relatives of the family are residents here, among them Mrs. Wm. McCallan, of Fourth street, and Mrs. James Conliffe, of West Ridge street, sisters of Mrs. Richards.

What arrangements have been made for the obsequies were not known here last night. There is little doubt, however, that the funeral will take place in Marquette.

**City Brevities**

Today's weather: Fair; variable winds. Yesterday's temperature: Seven a. m., 39 degrees; noon, 53; 7 p. m., 36; Maximum, 56 degrees; minimum, 30.

M. C. Blake, of Newberry, is transacting business here.

Miss Annette Peterson is visiting friends at Newberry.

Dr. F. C. Martin, of West Superior, is a Marquette visitor.

B. C. Neely, of Negaunee, was a Marquette visitor yesterday.

Miss Etta Booth, of Crystal Falls, is the guest of Marquette friends.

The council will hold its regular May meeting this evening. There is considerable business to be transacted.

The M. M. club will give a dance at Legion Hall, Thursday evening. Kluge's orchestra will furnish the music.

An excellent program will be given at the M. E. church tomorrow evening at the "Little Folks" concert. Admission fifteen cents.

Miss Florence Burke, who has been the guest of Mrs. John Burke, Michigan street, for several months past, left for her home at Chicago, Saturday.

A special meeting of the Knights of Columbus has been called for 8 o'clock tomorrow evening for the transaction of important business. It will be held in the club rooms in the Nester block.

To Give Dance Friday—Marquette Council No. 689, K. of C., will give a dancing party at Legion Hall, Friday evening. Music will be furnished by Sweet's orchestra. Lunch will be served at midnight. The hours of dancing will be from 9 to 2. The K. of C. dances are becoming very popular.

North Ends Victorious—The North Ends defeated the West Ends by the score of 11 to 5 at the fair grounds yesterday afternoon. Hoglund and Schoutens were in the points for the North Ends and Nault and LeVe for the West Ends. The game was fast and witnessed by large attendance. The North Ends challenge any team in the city.

Young Girl Goes Insane—Miss Florence Brophy, of Michigan, will be examined as to sanity before Judge Potter this morning at 10 o'clock. The young woman is but eighteen years of age and was graduated from the high school last summer. She is said to naturally possess an unusually bright mentality and her derangement is alleged to have resulted from overstudy.

Many Sunday Fishermen—Despite high water and the fact that the streams are in many places bordered with snow and ice there were many fishermen who sought neighboring waters yesterday. Fishing wasn't good, by any means, though some trout were taken. The Carp was largely frequented, and it is doubtful if the average for that stream run as good as a trout for each fisherman.

Work Is Plentiful—According to George R. Matthews, of Iron Mountain, who was a Marquette visitor yesterday, there is a great demand for labor in Iron Mountain than for several seasons past, and the city is experiencing an exceptional era of prosperity. The Chicago & Northwestern and St. Paul Railway companies have two steam shovels, numerous cars and nearly 300 men engaged in filling in the Chapin cave. The expense is about \$1,500 a day.

Average of Ice Was 7.2 Inches—The average thickness of ice in the bay of this city for the past winter was, according to measurements of the weather bureau, 7.2 inches. Last year the average was 3.7 inches, the smallest in the history of the locality, and the failure of ice to form to any thickness compelled Werner Bros. to secure a supply from Munising. The greatest average thickness of which there is any record was in

1904, when the average was 15.4 inches. Ice began to form in November 1903 and it did not go out until well into the following May.

Lakes Still Frozen Over—A party of Marquette fishermen who visited Negaunee township Friday after trout did not secure a fish. They say that they found the streams unusually high and still banked with ice, while the little lakes or ponds, where the big fellows are taken, are still covered with ice. Better luck has been experienced by fishermen in waters nearer this city, but the catches so far have all been small. The bait proposition is also a hard one, as worms are very difficult to find until the frost is well out of the ground.

Wrestling Match Tomorrow—The wrestling match between Duncan C. Ross and Tom Connors, scheduled for this evening at Legion Hall, has been postponed until tomorrow. Mr. Connors, who is now at Newberry, has sent word that he will arrive tomorrow morning. He has been in training and should be in condition to put up a great struggle against the Scot. Connors, in point of cleverness, is probably the equal of any man in the mat game. He has met nearly all the wrestlers of note in the world including Youngs, the great Turk, who toured this country and subsequently went down on the ill-fated Birge.

Hybrid Do Not Reproduce—Speaking of the fish caught by Henry LaRoche last week, and which appears to be a cross between a brook trout and a German carp, a Marquette man, who is exceptionally well informed on the characteristics and habits of the finny tribe, said yesterday that the fish was unquestionably a hybrid. The crossing of species through the artificial fertilizing of hatcheries. Hybrids had resulted, but were rare, and would not propagate. The same natural law prevails in the animal world. Mules are hybrids, produced through a cross of a horse and jackass, and though a many mules has been known to give birth to a colt the exceptions are so rare as to prove the rule. In the case of the great animal trainer, several crosses between tigers and lions but the hybrids in no instance reproduced themselves. Many attempts were made in early days to graft the buffalo on domestic cattle, but all resulted in failure after the first generation.

**KIMBERLY-WILFLEY MINES.**

Items of Interest to Stockholders in the K-W. Company.

Dr. Frank Gregory, secretary of the company, is at the mines now with a party of gentlemen from different points on the peninsula. This is the last of the personally conducted excursions to the mines, which have been a feature of the past year in Kimberly promotion. The parties on this excursion will be likely to take all the treasury stock which the company cares to sell.

E. C. Anthony, of Negaunee, was in the city Saturday. He has just returned from the Kimberly-Willey mines, where he spent two days in company with Frank Scadden, brother of Thomas Scadden, in a close examination of the mines. Mr. Anthony expresses himself in enthusiastic language over what he saw at the mines. He declares that the possibilities of the Kimberly-Willey mines are infinite and depend solely on proper management to make them immensely profitable.

The Kimberly mill, which is the most modern ore mill in Colorado, will be ready for operation in five or six weeks. It will treat 250 tons of ore daily by proved processes now in successful operation in the Willey mill, which are the invention of Mr. Willey and the result of twenty-five years experience in handling these ores. When the size of the mill is considered, the builders have made exceptionally rapid progress.

The minimum metal value of Kimberly-Willey ore is \$150 per ton. The maximum mining and milling expense is \$30.00 per ton. It is an easy example to work out what the possible profit will be.

Mr. Willey had several parties after his mine at the time the Kimberly company made the contract for purchase, among them being the Colorado Fuel & Iron Co. The friendship of Mr. Willey towards the officers of the Kimberly company, made it possible for the Kimberly to get the mine and mill. After the signing of the contract, the Colorado Fuel & Iron Co. got an option from Mr. Willey on the property at an advance of \$100,000.00 over the contract price to the Kimberly, contingent on the Kimberly falling down on its payments. This option expires June 1st. As the Kimberly-Willey company has money enough in its treasury for the June and July payments, and as Mr. Willey has made such concession as will enable the company to take over the property by July 1st, it is very plain that the Colorado trust is not in it, thank you.

Mining in these mines requires no hoisting or pumping. Tumblers run into the mountain side and tap the ore bodies. The cars carry the ore to the mill by gravity. When water is encountered, which is seldom the case, it is pumped of its own accord in ditches alongside the car tracks. The mill receives the ore by gravity, and the concentrated product is run out of the opposite side of the mill also by gravity, and is loaded into the cars which are standing ready alongside the mill in the same way. All this seems dead easy, but it is the way the Kimberly-Willey will do things.

All the above conditions will be productive of substantial dividends in due time. This is not written to boost K-W. stock, but a plain statement of facts, which all the knackers in creation can't change.

Constipation steals the iron which should be absorbed away from the bowels, spoils your blood and complexion, causes anemia and disease. Regulate your bowels with Hollister's Rocky Mountain Tea and keep well. 35 cents. Tea or Tablets. The Stafford Drug Co.

Plans New Parochial School—The members of St. Anne's congregation of Menominee are making a strong effort to pay off the debt of \$3,000 which still remains upon the church property, so that they may be able to go ahead with the project of building a parochial school on a site already owned half a block west of the parsonage on Gorden avenue. The proposed school will probably be constructed entirely of brick and stone and will be three stories in height, with a belfry. A feature will be the ventilating, heating and lighting systems to be installed. A dormitory for students, who come from outside towns, will be provided. A large lecture hall and spacious basement are contemplated.

## Escanaba's Heavy Fire—

The fire at Escanaba late last week that destroyed the entire north section of the Escanaba Manufacturing company's wood-pane plant caused a loss estimated at \$75,000, partially covered by insurance. For a time the flames, which had started in an overheated dry kiln near the center of the factory site, threatened to sweep the entire plant. Repeatedly the company's office building, immediately north of the plant, was set on fire by flaming brands carried by the wind but that building was saved by being constantly drenched with water. Burning shingles and debris were picked up by the wind and carried in some instances for several blocks to start new fires on the roofs of homes. Recognizing the danger offered in that direction Chief Tolon detailed a squad of firemen and volunteers to extinguish the scattered blazes and with the efforts of the property owners themselves the development of serious blazes was prevented. The departments of the plant that are completely wiped out are: The butter dish manufacturing department, the sawing and packing department, all of the dry kilns and a portion of the stock in the warehouse. In the

## Many Out for Office—

Tonight is the time when both the common council and the board of public works of the Soo will make their appointments for the ensuing year. As has been the case ever since the beginning of the spring campaign, the council appointments that are attracting the most attention are those of city attorney and city engineer. The men talked of as prospective candidates for the office of city attorney are Sherman T. Handy, M. M. Larnmonth and William M. Douglass, and these seem to be little doubt that the appointment will be made from those three. For city engineer, Alf. Colwell and the incumbent, "Cass" McIlhargie are talked of. E. M. Nelson and Wellington Roberts of Detroit, formerly of the Soo, are also mentioned. G. E. VanWyck as chief of the fire department and "Ed" Campbell and Thomas Langley as drivers, seem still to be alone as candidates for appointment to the positions they have already held for some time. As to the board appointments, Jerry Fleming is likely to be reappointed street com-

HAS LARGE CONTRACT.  
Superior Lumber Co. Will Furnish Sewer Pipe for New Swanzy Town.

The Cleveland-Cliffs Iron company has awarded the Superior Lumber company the contract for supplying the sewer pipe for the new town site now being laid out in the Swanzy district. The size of the pipe will be from five to eighteen inches, the latter being used for the mains and the smaller sizes for the laterals. The order amounts to about thirty carloads.

It may be several weeks before any of the pipe is delivered. The Cleveland-Cliffs company placed the order early so that there will be no little delay as possible after the work is started on the system. Engineers are still at work at the town site laying out the streets, lots, etc. It is the intention of the mining officials to have the greater part of the sewer work finished before building the streets. All of the company's houses will be equipped with sewers, also supplied with water and other conveniences. No arrangements have yet been made for the building of the water system.

The dwellings which J. Wahlman & Son recently started at the Smith mine will be located in the new town site, and will be the first buildings erected there. The town proper will be only about a half mile from the Smith mine, and a mile and a half from the Princeton.

Negaunee people who have visited the place since the work of laying out the town site was started report that a more desirable location could not have been selected, and it is expected that it will be one of the most attractive little towns in the region.

WILL EXPLORE TRACT.  
Six Negaunee Men Have Purchased Farm on Cascade Range.

Oscar Field, Ed. Brand, John Teiker, Ed. Kauppinen, Jacob Salo and Jacob Lipilemki, all of Negaunee, have purchased the Holkainen farm on the Cascade range. The tract consists of 100 acres and is located within eighty acres of the Warner farm, owned by thirty-six members of the German Aid society and on which it is thought one bodies will be developed. It is the intention of the new owners of the Holkainen farm to rent it for farming purposes, and a few men will also likely be put to work there very soon exploring it. Ore has been discovered at a number of points near the farm and the Negaunee men believe that they stand an excellent chance of locating some bodies of merchantable mineral. Indications of ore have been found in the outcroppings on surface. Only a small part of the tract has yet been used for farming, but additional acres are to be put under cultivation this season.

MAY LOCATE HERE.  
James H. Billings, who has conducted a saloon business in Ishpeming for a number of years, and who last week purchased the Nolan block on First street in which he planned to conduct a saloon in Negaunee Saturday, said that he was endeavoring to purchase or lease the Union Depot hotel property from Mrs. Hooper, who has conducted it since the death of her husband. If Mr. Billings gets the place he will give up his business in Ishpeming and move his family to Negaunee.

COAL THIS WEEK.  
The Consolidated Fuel & Lumber company expects a cargo of nut coal this week. The company's supply was exhausted five or six weeks ago, since which time coke and soft coal have been largely used. John Williamson, manager of the company's Negaunee yards, said Saturday that most of the concern's patrons have advised him that they like the coke and, so far as they are concerned, do not care whether they use any more coal until next fall.

LOCAL LACONICS.  
Mrs. S. C. Chanton of Baraga is here visiting her folks.

Hill & Raitanen, the pop manufacturers, have a fine new team of horses.

Several thousand trout fry were received here Friday and were taken to the streams out from the city.

J. E. Murray, a special agent for the Bankers' Life Insurance company, of Des Moines, Iowa, was in the city Saturday.

Ten or a dozen Finnish immigrants arrived in Negaunee Saturday. All of them expect to locate here permanently.

A. C. Seass and Joseph Richardson went down to their homesteads at Little Lake Saturday to prepare for the opening of the season.

Harry Mayer, who manufactured cigars in this city a few years ago, was here Saturday. He is now located on his homestead at Big Bay.

Gust Erika opened his saloon in the Lobb building Saturday night. He was delayed in getting started on account of the non-arrival of his furniture and fixtures.

Mrs. Margaret Lonstori and daughter, Miss Camille, arrived here from Milwaukee Saturday, they having been summoned on account of the death of Mrs. Angeline Maas.

The funeral of Mrs. Angelina Maas will be held from St. Paul's church tomorrow morning at 9 o'clock, the Rev. Langner officiating. A son, Frank Maas, has arrived from St. Paul, and Walter Maas is expected today.

The seven-year-old daughter of John Ghirdi, who conducts a saloon business in the block formerly owned by the Sporey estate, died Friday. She had been ailing about two years, heart trouble being the cause of her death. The funeral was held yesterday afternoon from St. Paul's church.

PILES CURED IN 6 TO 14 DAYS.  
Pazo Ointment is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded.

We are now prepared to execute promptly all orders in our ladies' tailoring department, which is now in charge of Miss Mac Gremier, late of Milwaukee. H. J. Peterson. (5-1-1w)

AWNINGS.  
The Kelly Hardware Co. can furnish you with awnings for stores, public buildings or residences. Any size. KELLY HARDWARE CO., Marquette. (3-27-1f)

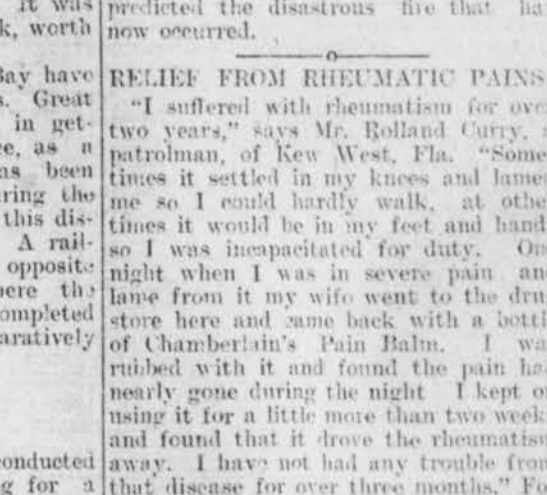

missioner and the same is practically true in the case of Jacob Rainbridge, as superintendent of the water works system, although other names are heard in connection with both appointments. For chief engineer at the pumping station several names are mentioned besides that of John Graham, who holds the position at present. Norman Rains, who formerly held the position, and Fred Lapsch. For city physician, Dr. Harvey Miller, Dr. J. Rosenthal and Dr. Griffin are mentioned.

departments destroyed approximately 100 hands were employed, all of whom will be thrown out of work until that part of the plant is rebuilt and new machinery purchased. Thirty-four wood butter dish making machines, valued at \$1,000 each, are a complete loss, as they were located in the center of the flames and are so badly warped by the heat that it is not believed any of them can be saved. Three engines located in that part of the plant are also destroyed as is all of the packing equipment, stock in the different stages of manufacture and a quantity of crated stock which was stored in the warehouses before the flames were under control. The departments destroyed occupied the long one story brick structure extending north from the main portion of the plant occupying a space of approximately 75 by 200 feet. The plant had just been shut down for the noon hour when flames from the dry kiln which had become overheated leaped from the center of the building and enveloped the iron clad hopper which was filled with dry clothes pins. Within a few minutes the center of the plant was a roaring furnace. All efforts of the company's private fire department to combat the progress of the flames were futile and immediately an alarm was sent to the city fire department. The overheating of the dry kilns has been a frequent cause of the breaking out of small blazes at the plant recently and many people have predicted the disastrous fire that has now occurred.

RELIEF FROM RHEUMATIC PAINS.  
"I suffered with rheumatism for over two years," says Mr. Roland Curry, a patrolman, of Key West, Fla. "Sometimes it settled in my knees and lamed me so I could hardly walk, at other times it would be in my feet and hands so I was incapacitated for duty. One night when I was in severe pain and knew from my wife's words that the drug store here and came back with a bottle of Chamberlain's Pain Balm. I was rubbed with it and found the pain had nearly gone during the night. I kept on using it for a little more than two weeks and found that it drove the rheumatism away. I have not had any trouble from that disease for over three months." For sale by The Stafford Drug Co.

STOP WOMAN AND CONSIDER  
First, that almost every operation in our hospitals, performed upon women, becomes necessary because of neglect of such symptoms as Backache, Irregularities, Displacements, Pain in the Side, Dragging Sensations, Dizziness and Sleeplessness.  
Second, that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has cured more cases of female ills than any other one medicine known. It regulates, strengthens and restores women's health and is invaluable in preparing women for child-birth and during the period of Change of Life.  
Third, the great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time being published by special permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.  
Lydia E. Pinkham's Vegetable Compound  
For more than 30 years has been curing Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and Organic Diseases, and it dissolves and expels Tumors at an early stage.  
Mrs. Pinkham's Standing Invitation to Women  
Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass., for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law, Lydia E. Pinkham in advising. Thus she is especially well qualified to guide sick women back to health. Write today, don't wait until too late.

### DEVELOP BOTH BICEPS AND BRAIN

DUNCAN C. ROSS SAYS CHILD SHOULD BE GIVEN DUMBELL WITH SCHOOL BOOK.

### VITALITY WON FOR THE NORTH

More Southerners Died at Well Conducted Prison at Elmira Than Northerners in 'Hell-Hole' at Andersonville.

In the opinion of Duncan C. Ross, the great Scotch athlete who is making his home temporarily in this city, biceps have had as much to do with the building of nations as brains. In support of this contention he cites the fact that Greece, at the apex of her power, was a nation of athletes. Rome fell, through her own effeminacy, when the century was no longer able to bear the weight of his armor. Luxury and little attention to physical development weakened the Moorish nation until it was unable to withstand the assaults of the Spaniards. "I believe in having the dumbbell and the primer go hand in hand," said Mr. Ross Saturday. "Every young American should become an athlete. The north is popularly credited with having defeated the south through weight of numbers. That undoubtedly had something to do with it, but only to a minor extent. In its rivers and mountain ranges the south had as fine a line of natural defenses as ever protected a nation against invasion. They should have enabled her to maintain the balance of power against a ratio of three to one in opposing forces, and the north had no such advantage. The south was defeated because the armies of the north were composed of better athletes. Grant hammered away and finally subdued Lee through the superior vitality of his men.

"Your southerners will say that the northern armies were better clothed, better fed and better looked after by their medical corps. Well, I would like to have some southerner explain why it was that more southern soldiers died at the northern prison at Elmira than northern soldiers died at Andersonville. Elmira was probably the best conducted and most sanitary prison in the history of warfare. Even the south admits that. The men confined there were given good food, excellent clothing and the best of medical attendance, yet they died like rats. Deprived of their liberty they could not become acclimated and the mortality among them was frightful. In Andersonville, a hell-hole, where the men wore rags and decomposed pork and drank sewerage, the death rate was lower than at Elmira. The work of the southerner for a century had been performed by his slaves. The diet of the south had in the main been hog and hominy. The conditions had not been of the type to produce men with powerful bodies and strong vitalities. The

southerner could lend a charge with reckless bravery, but he was unequal to long sustained effort. When the conflict resolved itself into a test of endurance the north won.

### Japs an Athletic Nation.

"Athletics have made Japan a world power. At the outset of the Russian-Japanese war the prevalent opinion in this country was that Russia would win. Americans conflicted the Japs with the Chinese because their eyes also slant. That is all the resemblance there is between the two races. I did not fall into that error. I had been in both China and Japan. The upper class Chinaman cultivates his finger nails instead of his biceps. Take a stroll in any Japanese city and you will find the little children turning hand-springs in the streets. It was that sort of exercise in their youth that developed the men who defeated the forces of the czar in every battle on land and sea. Outnumbering the Scots ten to one, England was never able to subdue her northern neighbor. This was due to the fact that the Scottish land was so poor that the natives became athletes, in spite of themselves, through hustling to make a living.

"Prospective of population Scotland has furnished more 'soldiers of fortune' than any other nation. Her sons have fought in every clime and under every flag. The Scotch regiments were the backbone of the army of Gustavus Adolphus, the 'Lion of the North.' It was upon his Scottish guards that Louis of France rested the safety of his crown. Scotsmen fought under the banner of Napoleon. The armies of Turkey are commanded by Scots today. You never saw a Scot who wasn't to a certain extent an athlete. Within the past fifty years the British war department has been compelled to lower the standard of physical development for recruits to a level three times that of the average Englishman, as a nation, is degenerating. What happened when she came in conflict with the Boers? Had the latter had 50,000 more men they would have whipped the British empire. With a mere handful of soldiers they compelled the supposedly most powerful nation on earth to call on all its resources to subdue them. The Boers were athletes.

"American athletes today hold almost all the records in amateur sports. Professionally there isn't a wrestler in the British empire that would stand a chance with any of our high class men. Little Freddie Beall could throw any four of them in a night without working up a sweat. Our fighters have cleaned up everything on the other side. So long as our physical development does not retrograde just so long will we maintain a premier position among the nations."

"Love is a painful thrill. Not to love more painful still. But ah! it is the worst of pain. To love and not be loved again. (When you feel that way, better take Hollister's Rocky Mountain Tea.) The Stafford Drug Co.

NOTICE. To horse owners and drivers. If you want your horses shod by the most up-to-date and scientific method, by one who thoroughly understands the anatomy of the foot, send them to 109 E. Spring street, or call up No. 379 red. Bell phone, and we will do the rest. Satisfaction guaranteed or your money cheerfully refunded. BELL TELEPHONE. MCGUIRE & SON, Sign of the Big Horse Shoe. (5-1-1w)

### NEW SAN FRANCISCO IS A BETTER CITY

H. O. GRAVELLE TELLS OF REDEMPTION OF WESTERN METROPOLIS - JAPS HATED FOR COMPETITION WITH AMERICAN LABOR.

H. O. Gravelle, who arrived here last week, after spending the last eight months on the western coast, says that a larger and better San Francisco is rising from the ashes of the old. According to Mr. Gravelle, there is now little evidence of the great seismic disturbance which laid the city in ruins a year ago. When he reached San Francisco, Sept. 28 of last year, the work of redemption, while well under way, had not progressed to a point that eliminated all traces of the earthquake. Refuse was still stacked about the postoffice, and on Valencia street he saw the remains of a hotel that had sunk so far into the ground that the surviving occupants had stepped from the fourth story windows onto the sidewalk subsequent to the shock.

According to Mr. Gravelle there is plenty of work in San Francisco at good wages. The business districts are scenes of busy activity and there is apparently no shortage of money. Real estate has depreciated little in value and the population is growing with greater rapidity than before the earthquake. That the great catastrophe had little effect upon the spirit of the people is shown by the large patronage accorded the theaters which are crowded nightly.

"One thing that strikes an eastern man as peculiar is the marked antipathy evidenced on the coast against the Japs," said Mr. Gravelle yesterday. "The sentiment of the country as a whole was with the Japs in the war with Russia and in the east and middle west they are still held in high esteem. It isn't safe, however, for an easterner to speak well of the Japs on the coast. If he does he is liable to have a fight on his hands. I had an idea that coast residents didn't like the Chinese, but I found to my surprise that the Chinese are much better thought of than the Japs. The Jap is much more enterprising and energetic than the Chinaman and is coming more in competition with American labor. He hasn't any union and he works for what he can get, which naturally gets him hated by organized labor. I haven't had any personal dealings with Japs, but I have been informed that they are much more tricky than Chinamen. I was somewhat surprised to learn that Chinamen in the average are considered truthful and honest, while Japs are popularly believed to be just the opposite. The Jap is known as the 'Frenchie' of the Orient' and his ideas of morality are somewhat shocking to the dwellers in western lands."

FURNACE LOCATION BUSY. Many Marquette People Inspected Work at the Chocolate Location.

Many Marquette people have driven out to the Chocolate furnace, to inspect the work progressing there. Over thirty men are now employed, by Berry Bros.

Growing favorites! Our Derbies respond promptly to the admiring attention of men who know what's what in style, and no wonder; for we've raised every correct shape in this season's crop, and can vouch for the quality of every hat we sell.

Dunlap, Stetson, Roeloffs \$2.50 to \$5

These business Suits at \$20 keep us busy putting them on to busy people.

Jacob Rose The Store of Quality

and by C. C. Van Iderstine, the latter having the contract for much important work. Mr. Van Iderstine will soon begin the erection of the battery of kilns that will supply the charcoal for the stack. Good progress has been made to date, despite the very unfavorable April weather, and from now on it is not expected that the weather will be any handicap. Two boarding houses are accommodating men at the location, but most of the working force travel to and from town each day. The company boarding house will not be erected for some months yet. A saloon is open at the location.

HORSES. Louis Jacobs, with Kurz Bros., has a car-load of No. 1 horses at Losseljong's stable, Islemping. (5-6-2d)

STOP THE LEAKS. Now is the time. That is our business. The best shingles for the least money. Consolidated Fuel & Lumber company. Both 'Phones. (4-27-1f)

Store your heater with Kelly Hardware Company. (4-18-1f)

WE ARE The only people in Marquette county who manufacture practically everything needed for a building. Buy of the makers and keep your money at home. Consolidated Fuel & Lumber company. (4-27-1f)

### INSURE YOUR PAPERS.

Almost every man has something of value that is in danger of loss or destruction every day that it is outside a safe deposit vault. That is why every man ought to have a safe deposit box. The cost is \$3 a year up and you keep the key.
