

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE DAILY MINING JOURNAL CO. (LIMITED).

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Apparently the state administration is willing to meet the boxes half way and then some.

The new move in the primary law amendments fight makes the boxes' next move a rather difficult one.

Charles G. Edwards, the new Georgia congressman, who wants no negroes in office on any terms, is still willing to allow them to reside on top of the earth, but there is no telling how long his forbearance in that respect will last.

Now it's the Schmitz jury that is proving a peser for the court having the case. This getting of a jury is one of the most serious problems in American jurisprudence.

It is common knowledge that Governor Hughes' public utilities bill was passed not because the assemblymen and senators liked it, but because a majority of their number want to return to Albany for the next session of the state legislature.

In view of the fact that Governor Hughes' public utilities bill has passed both senate and assembly in substantially the form the governor wanted it passed, it appears that the failure of his attempt to "get" Insurance Superintendent Kelsey has not, as it was predicted at the time it would, wrecked his whole legislative program.

It is true the water out some 3,000 feet from the shore near the present pumping plant was tested by means of a small pipe for creosote. It is also true that the "test" was a most unscientific one—that of taste. That sort of "testing" is farcical, and the water board should pay no attention to it.

The Lansing correspondent of the Detroit News believes that the governor's binder twine bill has a pretty good chance of being passed by the senate. The "opposition," which mustered sixteen votes and prevented the passage of the house primary election law amendments, is not united against all the administration measures.

The returns from the recent Austrian election indicate that 50,000 voters failed to go to the polls. What gives this statement particular interest is that Austria has a compulsory voting law. Failure to exercise the franchise lays the negligent open to prosecution and penalties.

Deputy State Highway Commissioner Rogers is in Marquette county. Yesterday he looked over the situation as regards rock supply in the neighborhood of the Marquette prison, and will be prepared to inform his chief just what it is and also to give testimony before the committee hearing on the Keweenaw prison bill.

SUPERIOR TRUST COMPANY HANCOCK, MICHIGAN Capital: \$150,000

by using bituminous macadam on the side hill streets, where the ordinary macadam washes out rapidly.

The Mining Journal is informed, and has good reason to believe that the information is correct, that Marquette markets are selling undersized whitefish. The law, if we recall it correctly, requires a weight of two pounds in whitefish sold on the open market.

In the death of Joseph H. Berry Michigan loses one of its most successful business men. He was the moving spirit in the Berry Bros. Co. Ltd., manufacturers of paints and oils, and was a large measure, it is said, responsible for that company's entry into the iron industry.

RELIEF FROM RHEUMATIC PAINS. "I suffered with rheumatism for over two years," says Mr. Roland Curry, a patrolman, of Kew West, Fla.

JAMESTOWN EXPOSITION. Low rates daily via The North-Western line until Oct. 15th, liberal return limits, variable routes and stop-over privileges.

A GOOD ROADS MEASURE. In signing the Ely bill Governor Warner signed what is said to be one of the most promising good roads measures that has ever been passed by a Michigan legislature.

The system that it is proposed to replace is one that has been tried and found absolutely wanting. Under it the rate payer in the township was permitted to discharge his road tax in work by himself and teams.

The Ely bill provides for a reduction of 50 per cent in the amount of road tax. In lieu of the \$1,200,000 "work" there will be \$600,000 of cash available for the roads.

as such, while the townships will expend the cash road tax on such other projects as are found within their own limits, so that both classes of improvement work will progress at the same time.

STILL THEY COME. So many prominent evil doers have received at least a part of their deserts during the last few years that calling attention to the old lesson anent the wages of sin has become monotonous.

For there are decent men even in high places; it is not the rascals alone who prosper. And the decent men, whether in high places or low, have a peace and a joy in living that the rascals can never hope for.

But there the similarity ends. The rascal has sold his heritage of decency for a mass of pottage; when the pottage is gone, all is gone. And even while he enjoys his pottage he regrets the price paid for it.

"I suffered with rheumatism for over two years," says Mr. Roland Curry, a patrolman, of Kew West, Fla. "Sometimes it settled in my knees and lamed me so I could hardly walk.

Low rates daily via The North-Western line until Oct. 15th, liberal return limits, variable routes and stop-over privileges, affording an opportunity to visit New York, Washington, Niagara Falls and various Sea Coast and Mountain resorts.

Moderate Price Calumet Baking Powder \$1.00 per 100 lbs. will give you 50 times as much as ordinary baking powder.

### City Brevities

Today's weather: Partly cloudy; continued cool.

Yesterday's temperatures: Seven a. m., 40 degrees; noon, 39; 7 p. m., 34. Maximum, 40 degrees; minimum, 34.

The recital by Mrs. Olivier's senior pupils will begin at 8:15 tonight.

Miss Dulcie McGreevy, of Ishpeming, is the guest of Marquette friends.

Daniel F. Pintona, of Crystal Falls, is looking after business in the city.

The Young Woman's guild will meet this afternoon with Mrs. Jopling, East Ridge street.

The Baptist Ladies' Aid society will meet at the church at 3 o'clock this afternoon.

St. Mary's guild will meet with Mrs. Chas. F. Willesen, No. 118 North Front street, this afternoon at 2 o'clock.

The Woman's Aid society of the Presbyterian church will meet with Mrs. C. Van Lierstine, Spruce street, this afternoon at 2:30 o'clock.

Tickets are being sold for the May recital of the Cathedral school the evening of Wednesday, the 29th, at the Baraga auditorium. The choral classes will present an operetta.

Through some misunderstanding it was announced recently that the downtown branch of the Stafford Greenhouses would be at Del's store. This statement was erroneous. It is the Werner Bros. who will handle cut flowers and plants from the Stafford establishment, and at all times during business hours they will be prepared to give orders for floral goods prompt and careful attention.

Will Take Outing—The Ladies' Aid society of the M. E. church will go to Houghton's camp for dinner today. The ladies will take the 10 o'clock car. If the weather is unfavorable, a picnic dinner will be held in the church parlors.

First East Bound Boats—The Japan and Juniata, the first east bound passenger boats of the season, will make the port tomorrow from Duluth. The Japan will arrive at 11 in the morning and the Juniata at 7 p. m. The Juniata will reach here June 1 at 7 p. m.

Memorial Service Sunday—The members of Albert Jackson post, No. 390, G. A. R., will attend the annual memorial service at the M. E. church Sunday morning. All veterans of the Civil war and the war with Spain are invited to join with them. The members of the post will meet at their quarters in the city hall prior to the service and proceed to the church in body. The sermon will be delivered by the Rev. Maywood.

Case Goes to Jury—The case of George Reichel, Adam Reichel and Henry Reichel vs. Peter C. Peterson, which was taken up in circuit court Wednesday morning, went to the jury at 5 o'clock yesterday afternoon. No verdict had been returned up to the time that court adjourned. The information alleges the non-performance of contract in the cutting and hauling of timber from a tract of land near Silver lake in 1902 and 1903.

Cannot Transport Hay—F. R. Spear of F. B. Spear & Sons, says that the present hay famine is not so much due to a scarcity of hay throughout the country as the inability to move it. He said yesterday that the eight horses used by his firm had not had a particle of hay in twenty-four hours and yet he had ordered a good supply several weeks ago that had not arrived. It is easy to buy all the hay needed, but when the demand for speedy delivery is imperative the purchaser is held up on the price. He looks, however, for a drop in the price of hay before very long.

Clean the Back Yards—There is one thing that the people of this city should do and that is pay more attention to their back yards," said a resident yesterday. "A great many people keep the grass nicely mowed and the flower beds neatly trimmed at the front of the house, and then allow tin cans and decayed matter to accumulate in the rear. Then they complain when a million flies invade the kitchen every time the doors are opened. These dump piles in back yards are invariably breeding grounds for insect pests. This is the season of the year for house cleaning and the back yards should not be overlooked."

Carkeek in the West—Jack Carkeek, well known in this city and throughout the upper peninsula as a Cornish wrestler and all-round athlete, is now in British Columbia, and a few nights ago defeated a wrestler at Victoria by the name of McLennan in a handicap match,

winning the event with only twenty seven seconds to spare. Jack is being advertised in the west as "the only American wrestler that never faked a match." That isn't what is said of him in the upper peninsula. Here he is accused of being prominent in a coterie of wrestlers who put the game to the bad through trickery and dishonest matches. Jack may have reformed, but the people here are Missourians enough to need more proof than newspaper notices from the west.

Brother of Famous Jockey—George Maher, representative of the Dixon Shoe company, of Dixon, Ill., was in the city yesterday. Mr. Maher is a brother of Danny Maher, the famous jockey, now riding in England, and who has won the English derby three times in the past four years. Mr. Maher, who was himself at one time a jockey, says that Americans are not only the premier jockeys of England, but of France and Russia as well. England he says never produced a really great jockey, though Fred Archer was credited with being one. Up to the time of the American invasion English jockeys used the regulation hunting seat with fairly long stirrups. When Tod Sloan first showed in a race on the other side with his knees humped well above the top of his saddle and his weight thrown forward on his mount's neck he was laughed at, but the Englishmen ceased to laugh when he finished ahead of the premier stars time and again.

### SOO CANAL PASSAGES.

Names of Boats Locked Through, Bound for Lake Superior Ports.

Sault Ste. Marie, Mich., May 23.—[Special.]—The upbound boats passing the canals the last twenty-four hours were the following: Wills, Langell Bros., Jackson, 9:30; Sawyer, Tuxberry, Redfern, 10; Midland, Prince, 10:30; Farling, Barta, 11; Warren, Buckhout, Cahoon, Friant, 1:30 a. m.; Fairbairn and Whiteback, 2; Fitzgerald, Morgan, 4; Frontenac, 4:30; Lyman Smith, McIntosh, 5; Jones, 6; Craig, 7; French, Samoa, Clint, 8; Centurion, Cornell, Mataafa, Manila, 8:30; Packer, 9; Hebbard, Marigold, 9:30; Matsa, 11:30; Parent, noon; Joseph Gilchrist, Tyrone, 1:30; Coralia, 3:30; Rockefeller, Marsala, Jupiter, 4:40; Ottawa, 5; W. L. S. & I. dock: Arrived—Ishpeming, Frontenac, Centurion, Angeline, Wills, Cleared—Mitchell, Buffalo, Chickamauga, Andaste, Cleveland. Due to arrive last evening: Samoa, Clint, Mills.

### DEATH OF ARMY SURGEONS.

Not One-Third Enough Candidates to Fill the Vacancies.

Washington, May 23.—The surgeon general of the army has been informed that only ten candidates completed the examinations held in the last week or two at various army posts in different parts of the country for appointment as assistant surgeons. There are thirty vacancies, and thirty-three medical college graduates asked permission to appear before the boards for examination. Many of them failed to present themselves, others were declared physically disqualified and still others retired from the examination after beginning it. There is little hope that all of the ten candidates who completed the examination will be found qualified, and the prospect is that there will still be many vacancies in the army medical department, which branch of the army is in great need of junior officers. This situation will be used as an argument by the surgeon general, early in the next session of congress, to obtain the legislation which has been urgently recommended for several years.

Every woman of refinement appreciates a radiant, beautiful complexion, which is so much admired by men. Such complexions come to all who use Hollister's Rocky Mountain Tea. Tea or Tablets, 35 cents. The Stafford Drug Co.

The property is surrounded by strong mining companies which are now shipping ore. It is on the same leads and just East of the Pittsburg and Montana. Investigate. 5-18-1w

# Announcement Extraordinary

Our closing out sale has been such a phenomenal success and the chances for extraordinary values in all our lines have been so unquestionable that we have been requested by quite a number of our patrons who have so far been unable to attend to continue the sale a while longer.

We referred the matter to C. N. Harper & Co. of Chicago, in whose hands the stock has been placed and were fortunate enough to secure the services of their **MANAGER, MR. A. F. HOFFMAN, WHO WILL CONTINUE THE**

## Seidenfeld Bankrupt Sale FOR A FEW DAYS LONGER

He promises to make the balance of this sale as interesting to the public and even a bigger success than the past ten days which has never been equalled in the business history of Marquette, a success for the customer as well as for us; but in order to do this there will have to be some painful work done in all sections from Clothing and Trunks to Spool Cotton so that not one of the hundreds who come will be disappointed. Come while most of our lines are as yet unbroken and have first choice of the newest and best at 40 to 50c on the dollar.

### DOWN! DOWN! DOWN!

Go the prices once more. It seems like sacrilege to make such cuts on all the new and desirable goods, but we are told this is the **HARPER SYSTEM.**

Our prices on new, up-to-date Clothing, Women's Skirts and Coats, Men's and Boys' Shoes, and all manner of Dry Goods and Furnishings have now been cut to half, and in some instances less than half their actual, not inflated value. They must be closed out and if these unheard of prices will fail to move them we shall cut them again and again to the bitter and until not a Suit or Shoe is left on our shelves. Now whether you need any of these articles just now or not, whether you have the price or not, go borrow it from your brother or friend, but do not miss your chance in this, the greatest money saving chance you will ever have. **DELAY IS FATAL.**

### VICTIM OF HEART DISEASE.

Wellknown Young Man Died Yesterday After Few Months' Illness.

Arthur N. Swanson, oldest son of Police Officer Nicholas Swanson, died yesterday morning from heart disease. He had been ill and confined to his home at 128 East Empire street for several weeks. The young man was born and reared in this city, and he was very well known and popular. He was a member of the graduating class of the Ishpeming High school two years ago, having completed his work before he had reached his seventeenth birthday. He was an unusually hard worker in school and it is thought that his health became impaired as a result of his close study. He secured a position as clerk in the Cleveland Cliffs Iron company's general office shortly after graduating, and he remained there until he was forced to quit work on account of his health. Besides his parents, seven brothers and sisters survive him. The funeral will be held Sunday afternoon at 2 o'clock from the Mission church.

### CHANGE AT FOSTER'S.

Management of Ishpeming Store Now in Hands of A. H. Meyer.

James K. Grace, who has managed J. H. Foster's Ishpeming store, has resigned, and will leave the city early next week to engage in business in the south. The employees of the store gave Mr. Grace, a surprise Wednesday evening, presenting him with an elegant silver shaving set.

A. H. Meyer of Centralia, Ill., succeeds Mr. Grace, and he has already assumed management of the store. The new manager has a thorough understanding of the general mercantile business, having had many years' experience. At his home town Mr. Meyer was a prominent worker of the Presbyterian church. He possesses a fine voice and will be an acceptable acquisition to the church choir. He is a member of the Elks and Knights of Pythias and he also belongs to other fraternal organizations.

### LIKES COLERAINE.

Irving Barkla, who spent the past week or so visiting his parents, Mr. and Mrs. Samuel Barkla, of the National, has returned to Coleraine, on the western Mesaba range. Since taking a place under Superintendent Greenway of the Oliver Iron Mining company, Mr. Barkla has been advanced to the position of foreman in the machine shop at the Holman mine. He says Coleraine will be a good-sized town within a few years. The place is being built up very rapidly and the population is increasing steadily. There are a number of former residents of the Winthrop on the new range, and many of them have decided to remain there permanently.

### KNIGHTS TO CALUMET.

Several members of the Knights of Columbus plan to attend the big class initiation at Calumet Sunday. Special rates of \$3.25 for the round trip will be granted by the South Shore and a special sleeper will be at the Knights' disposal on the return trip, provided fifteen berths are engaged. A delegation of about twenty-five will go up from Marquette, and six or eight Negaunee members also plan to attend.

### HOW'S THIS.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.  
F. J. CHENEY & CO., Toledo, O.  
We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.  
WALDING, KINNAN & MARVIN,  
Wholesale Druggists, Toledo, O.  
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75 cents per bottle. Sold by The Stafford Drug Co.

### WISCONSIN PROPERTY BEING VISITED BY MANY MINING MEN.

"Since my return home I have been asked by many people regarding developments at the Vandeventer property," said J. H. Quinn yesterday. "I see no reason to change my views as reported in The Mining Journal some days ago, and containing in a telegram which I sent to the officers of the company. I spent several days in the district. What I saw convinced me that there are many good mines in Wisconsin. Among the leading ones I might mention the Baxter, Empire, Enterprise and Pittsburg & Benton, all of which are giving satisfactory returns to their shareholders. The ore body lately encountered in the shaft on the Vandeventer will, on account of its wonderful richness, if its extent is found by the work in the cross-cuts and drifts to correspond to the showing in the numerous drill holes, entitle it to take rank among the best producers in Wisconsin. Vandeventer stock will, if present promise is made good, look cheap at \$10 per share. I reach this conclusion by a comparison with the Pittsburg & Benton mine, which is not far distant. The Pittsburg & Benton company is capitalized with 80,000 shares and the mine is located on an eighty-acre tract of leased land, the company paying a royalty of 10 per cent on its gross product, and the stock is today in good demand at \$3 per share. This places the value of the property at \$240,000. I was informed while in Wisconsin that the Pittsburg & Benton people are working on an eighteen-inch sheet of ore and are paying a monthly dividend of five cents per share. The thickness of the sheet of ore disclosed in the Vandeventer shaft is just twice that in the Pittsburg & Benton, and it is equally rich in lead and zinc. Besides it is located at a very shallow depth from surface on the company's own 100-acre tract. There are only 48,000 shares of stock issued and the remaining 12,000 are in the treasury. Therefore it appears to me that my estimate of its value is conservative.

"The thickness of the sheet of ore disclosed in the Vandeventer shaft is just twice that in the Pittsburg & Benton, and it is equally rich in lead and zinc. Besides it is located at a very shallow depth from surface on the company's own 100-acre tract. There are only 48,000 shares of stock issued and the remaining 12,000 are in the treasury. Therefore it appears to me that my estimate of its value is conservative.

"When the first ore was taken from the shaft at the Vandeventer a mine exploring in that vicinity took a sample of it to a Milwaukee chemist. The analysis showed 70 per cent lead and 30 per cent zinc. The chemist advised the mining man that the physical structure of the ore was the best and strongest of any that he had ever seen and that it gave evidences of coming from a strong formation. The company the miner represented had been exploring for some time and was about to pull up stakes when the Vandeventer ore was struck, but it has since resumed its efforts to find a mine.

"The Vandeventer property is being visited daily by mining men from various parts of the district. All who are familiar with lead and zinc marvel at the excellent quality of the ore now stacked at the shaft. Much credit is due to Robert A. Fox, the company's superintendent, for the manner in which he has carried on the work of exploration. Mr. Fox has never lost faith in the property and to him all credit for locating the present ore body should be given.

Visited the Old Grant Home.  
"While in the vicinity I took the opportunity to visit Galeana, Ill. Although born within fifty miles of there, I had never seen the place and had always had a desire to visit the town, which is older than Chicago, and which furnished Chicago with many of its most successful citizens. I visited the old Grant home, occupied by the general after the war, as well as succeeding his two terms as president. The house is in charge of an old soldier, who served with Grant and who was an intimate friend of the general for years before the war."

"Let us have some Cudahy's Peacock Bacon and calves liver for supper Mama," say young and old. (11-27-eod)

FOR SALE—Choice lot of panicles and daisies. Plants ready to bloom. H. Prouse, 308 W. Harrison street.

wheat market was easy on the surface. In part to the purpose of lenders to keep their funds in a form of loans which may be recalled readily.

The condition of ease in call loans is regarded as a sign of the uncertain feeling over money prospects. A \$5,000,000 Erie note issue is the latest addition to the capital necessities of the railroads.

The New York Central was pointed at as the most likely candidate for the next issue of securities to be announced. The New York banks continued to gain on the sub-treasury operations, and the interior exchanges indicate a continuance of the flow of currency toward New York.

The passage of the two-cent fare bill at Albany was a factor in the weak closing of the market.

Paine, Webber & Co., report closing prices as follows:

Table with columns for various stocks and their prices, including Smelter, Erie, Penna., St. Paul, etc.

Logan & Bryan telegraphed yesterday from New York as follows: "Stocks ruled irregular throughout the day. The strength and activity displayed in yesterday's session were nowhere in evidence today."

Boston Stock Quotations. Paine, Webber & Co., wired regarding yesterday's Boston market:

The market relaxed into dullness again today and gradually sagged, with a small amount of liquidation. There were two or three small rallies during the day, but on each occasion long stock came out freely.

Closing prices were: Adv., 2 1/2; Arc., 2 1/2; All., 2 1/2; Arnold., 2 1/2; B. C., 2 1/2; C. & A., 2 1/2; C. & N., 2 1/2; C. & O., 2 1/2; C. & P., 2 1/2; C. & R., 2 1/2; C. & S., 2 1/2; C. & T., 2 1/2; C. & U., 2 1/2; C. & V., 2 1/2; C. & W., 2 1/2; C. & X., 2 1/2; C. & Y., 2 1/2; C. & Z., 2 1/2.

NEW YORK STOCKS. New York, May 23.—The stock market today relaxed into a condition of lethargy, except for a spell of liquidation which briefly awakened it—a condition of semi-stagnation with barely a perceptible drift in prices.

Pure White Lead is the Natural Paint Pigment. Numerous compounds are being offered to take the place of white lead as a paint, but no real substitute for it has yet been found.

Southern Pure White Lead. This White Lead with its full natural tenacity and elasticity unimpaired by adulterants. Every keg of it bears the Dutch Boy trade mark, which is a positive guarantee of absolutely Pure White Lead.

Mining News. ANSWER TO BIGELOW SUIT. Calumet & Hecla's Attack Directed at United Metals Company.

As mentioned in The Mining Journal some days ago, the Calumet & Hecla company has filed in the United States circuit court for the western district of Michigan its answer to the suit brought by A. S. Bigelow to restrain the company from alleged attempts to monopolize the production of Lake Copper.

The defendant charges that the plaintiff has perpetrated a fraud upon the court by acquiring the "ostensible legal title" to twenty-three shares of Calumet & Hecla stock for the sole purpose of instituting proceedings against the defendant, his object being, not to protect the interests of stockholders, but to maintain control of the Osceola corporation for the furthering of his own ends and those of the United Metals Selling company.

The United Metals Selling company is sales agent for all the mines of the Bigelow management, and for the mines of the Amalgamated Copper company, controlling in all the disposition of the 1,000,000.000 pounds of copper produced annually in the United States, and is now seeking the control of the marketing of a great proportion of such copper production.

It is charged that the copper produced by the plaintiff and his associates, and marketed as Osceola copper, is, in fact, not Osceola copper, but is made up of the product of two lodes of different qualities, mixed with 40 or 50 per cent of copper from the mines of Montana.

At any time to control or monopolize the production or the sales of Lake copper or any other quality of copper whatsoever. It further avers that "the relations now and heretofore existing between the companies controlled by the Bigelow Syndicate, including the Osceola and the United Metals Selling company, and also the relations between the Osceola and the other 'Bigelow mines' have resulted in great loss and damage to the stockholders of the Osceola."

Calumet & Hecla. Has Produced to Date Over 2,000,000,000 Pounds of Copper. The Calumet & Hecla company, on the 30th of last month, completed the greatest year in its long and prosperous career, comments the Boston News Bureau.

Calumet & Hecla has been a shareholder of copper ever since the beginning of the present era of high prices. While it has not sought to exercise the extreme limit of high prices from the consumer and has at various times sought to steady a crazy market by liberal offerings of the metal, it has accurately forecast the great strength of the world-wide demand and the consequent rise in price.

Utah Consolidated. While Utah Consolidated had a surplus of upwards of \$2,000,000 at the time of its last annual report, and the company is earning more money at the present time than it was a year ago, it is engaged on several expensive and extensive operations which will cost a large sum of money.

Copper Range. Success in Reaching the Edge at the Globe Important. The announcement that Copper Range had struck the ledge at the Globe exploration was good news for the company. The exploration at the Globe was started over two years ago, but while at first it was thought that the ledge had been reached, the company has still been a world of work before a mine can be opened.

Butte Strikes Important. A strike that is expected to develop into great importance to the East Butte Mining company has been made at a depth of 820 feet in No. 1 shaft, writes a Butte correspondent. At about the 800 feet point the shaft out into a narrow ledge of high grade ore, which yielded rapidly until within a distance of twenty feet in depth it was four feet wide, the entire ore body giving an average assay of 8 per cent copper and eight and one-half ounces of silver to the ton.

Orino Laxative Fruit Syrup is best for women and children. Its mild action and pleasant taste makes it preferable to violent purgatives, such as pills, tablets, etc. Get the booklet and a sample of Orino at The Stafford Drug Co.

A Cigar Wrapper Often Covers a Multitude of Sins. You know quite well that there are many cigars sold for five cents that are very poor quality. They are sold on appearance. A fine appearing wrapper, a handsome gold band or a pretty box-lid may cover a multitude of sins, but it is the filler, the inside of a cigar, that determines its smoking quality.

Modern manufacture exemplified in the American Cigar Company's products has grown way above this unfortunate method of doing business and assures a cigar that is honest all through. The "Triangle A" merit mark on a box of cigars means that every sprig of leaf in every cigar in the box was graded especially by experts for that one brand, two years before it was made; that during this time the leaf has mellowed in great, clean warehouses in a perfect temperature till all its finest qualities are brought to a point of perfection.

These are some of the reasons why "Triangle A" cigars smoke with the fine mellow flavor that you thought was only to be found in expensive brands; why every "Triangle A" cigar has an even flavor and aroma from end to end; why every cigar of each "Triangle A" brand smokes just the same. "Triangle A" cigars cost you no more than the "mixed" cigars—though they are worth twice as much. Look for the "A" (Triangle A) when you buy cigars.

"Triangle A" brands offer the widest obtainable range of choice, and absolutely dependable quality in whatever brand suits your taste. You'll never find a better brand to make the test with than

The New CREMO. Every box is now extra-wrapped in glassine paper, sealed at each end with the "Triangle A" in red. The cigars are kept clean, fresh and in perfect smoking condition until the box is opened.

AMERICAN CIGAR COMPANY. Manufacturer. The American Cigar Company has been a shareholder of copper ever since the beginning of the present era of high prices. While it has not sought to exercise the extreme limit of high prices from the consumer and has at various times sought to steady a crazy market by liberal offerings of the metal, it has accurately forecast the great strength of the world-wide demand and the consequent rise in price.

Utah Consolidated. While Utah Consolidated had a surplus of upwards of \$2,000,000 at the time of its last annual report, and the company is earning more money at the present time than it was a year ago, it is engaged on several expensive and extensive operations which will cost a large sum of money. This program includes the driving of a long tunnel which will connect the mines of the company with the new smelting plant in Tooele canyon, to which the company is already making active preparations to remove.

Copper Range. Success in Reaching the Edge at the Globe Important. The announcement that Copper Range had struck the ledge at the Globe exploration was good news for the company. The exploration at the Globe was started over two years ago, but while at first it was thought that the ledge had been reached, the company has still been a world of work before a mine can be opened.

Butte Strikes Important. A strike that is expected to develop into great importance to the East Butte Mining company has been made at a depth of 820 feet in No. 1 shaft, writes a Butte correspondent. At about the 800 feet point the shaft out into a narrow ledge of high grade ore, which yielded rapidly until within a distance of twenty feet in depth it was four feet wide, the entire ore body giving an average assay of 8 per cent copper and eight and one-half ounces of silver to the ton.

Weak Women. To weak and ailing women, there is at least one way to help. But with that way, two treatments, must be combined. One is local, one is constitutional, but both are important, both essential.

Dr. Snoop's Night Cure. Dr. Snoop's Night Cure is the Local. Dr. Snoop's Restorative, the Constitutional. The former—Dr. Snoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Snoop's Restorative is wholly an internal treatment.

DARANTELLA. Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with the best results, or sale by The Stafford Drug Co.

Orino Laxative Fruit Syrup is best for women and children. Its mild action and pleasant taste makes it preferable to violent purgatives, such as pills, tablets, etc. Get the booklet and a sample of Orino at The Stafford Drug Co.

Richard East of City. A remarkably rich strike of copper ore has been made by Richard East of the Butte district, being 1416 feet in the clear and progress in sinking is not so rapid as in the smaller shafts of some of the other new companies. The East Butte shafts are being built with a view to permanency and heavy operations when the mines are opened for production. The present intention of the company is to stop sinking temporarily when the shaft is 1000 feet deep and prepare the mine then for extensive production, which will be in a very short time after the shaft work is done, as development work in every portion of the mines is being pushed.

DAVIS DALY ESTATES. According to a Montana correspondent, some erroneous statements relative to the Davis-Daly company published in the East have been misleading to people not familiar with actual conditions in Butte. The company unquestionably has some of the best mineral ground in the Butte district, but none of its properties are yet producing ore, and reasonably can be expected to be producing as the company began development work only a comparatively few months ago. Only one of its properties, the Silver King, has produced anything in recent years, and no attempt is being made to do any mining there, as the shaft is being sunk deeper. Sinking is also going on at the Mt. Moriah, Colorado and Smokehouse, but no ore bodies or veins are being opened in either. The long crosscut from the Original mine has encountered a vein, but work had to be suspended temporarily on account of the heavy flow of water, and the value of the vein has not yet been determined. Drifting, also, is going on at the 500 foot level of the Smokehouse, but both east and west drifts have encountered badly broken conditions of the vein, and some exploration work has been found necessary. Therefore the published statements that the Davis-Daly company is producing ore or has opened rich ore deposits are erroneous, and probably based on misinformation. The company has several hundred acres of ground extending through the center of the district and adjoining a dozen of the big Amalgamated mines. For stomach troubles, biliousness and constipation try Chamberlain's Stomach and Liver Tablets. Many remarkable cures have been effected by them. Price, 25 cents. Samples free. For sale by The Stafford Drug Co.

### RECOMMENDS TAR MACADAM STREETS

DEPUTY ROAD COMMISSIONER  
ROGERS THINKS THEY WOULD  
BE LIKED IN MARQUETTE.

### PAST EXPERIMENTAL STAGE

Have Been Successfully Laid in Many  
Cities—Visitor Thinks Marquette  
Streets Are Excellent of  
Their Kind.

Deputy State Road Commissioner Rogers is a Marquette visitor. His primary purpose in coming here is to look over the situation in regard to rock supply near the Marquette prison, in connection with legislation pending at Lansing, but he also has inspected Marquette's streets, met and talked with the members of the park, cemetery and street commission and plans to look over the work being done under the direction of the county road commission. Mr. Rogers is a man thoroughly acquainted with road building and the broad question of good roads. He is an engineer, has been a contractor and has been connected with the state department since its organization.

Yesterday Mr. Rogers highly complimented Marquette's macadam streets. He said that they compared favorably with the best macadam streets found anywhere in the country. He looked over the quarry where the rock supply is obtained and approved of the material. He said that it is a trap rock of good structure, possessed of excellent binding qualities, and that the streets constructed of it should have as long a life as any macadam streets.

### RECOMMENDS TAR MACADAM.

Mr. Rogers' attention was called to the fact that the unusual grade of Marquette's sidewalk streets made ordinary macadam an expensive material to use on them, and was asked what he thought of tar macadam. "Tar macadam," he said, "has been used with excellent results in many cities. It is no longer an experiment, but an assured success. I have laid it myself under contract, and have had excellent success with it. It is being used now in many cities, including Duluth, where the conditions as regards sidewalk streets are very similar to those you have here. I have not personally inspected the work at Duluth, but have heard gratifying reports from it. The objection that tar macadam on the side hills would give a surface too slippery for team traffic is not a valid one. In Duluth they have overcome this difficulty by their methods of construction. Their specifications would give you considerable light on this subject."

Yesterday afternoon Mr. Rogers and Nelson Cadarette, a member of the park, cemetery and street commission, had a long conversation on this subject. Mr. Rogers outlining different methods that can be followed in the treatment of the streets with tar macadam. An outfit may be simple or elaborate, as the case may be, but it is possible to do effective work with an outfit not excessive in cost. Although there is a company having patents on such streets and the devices for making them, Mr. Rogers said that cities that have gone ahead and built their streets, ignoring this company, have not experienced trouble. It was Mr. Rogers' opinion that the extra cost of tar macadam would be much more than made up by its greater life and its greater durability on streets that are now washed out by the rains, it being his opinion that if it were tried here the people would like it and demand more of it.

### LOOKING INTO QUESTION.

Members of the park, cemetery and street commission are looking into the matter. Mr. Cadarette has written for information to cities where the tar macadam is being used, and it is probable that it will be experimented with here, perhaps this season.

Members of the commission think that the expense of maintenance of streets is unnecessarily high. Particularly where macadam is laid on the sidewalk streets the cost is great, if the streets are kept in any sort of condition. The rains wash out the top dressing and it has to be dug out of the manholes and sewers at the foot of the streets. The criticism has often been made against the conduct of the street work that it has been done too much along the beaten track, and that there has been too great a reluctance to experiment with innovations that promised to lessen the cost of maintenance. There has been talk of trying tar macadam pavements here in previous years, but so far it has come to naught. Perhaps in view of the disposition of some members of the new commission to take a more advanced view of street building methods it will soon be given a practical test, under fair conditions.

### WANTS \$280,000.

Deputy Commissioner Rogers says that the state road department is asking for \$280,000 from the present legislature. Of this sum \$250,000 is desired for the awards to counties building good roads in the two year period, and \$30,000 is desired for the administrative work of the department. Mr. Rogers says that the department has been considerably hampered during the past year by lack of funds, he and Road Commissioner Earle being compelled to do most of the work.

Concerning the Keeweenaw prison scheme Mr. Rogers said he had little personal knowledge. However, he expressed the opinion that the day is coming when the upper peninsula will have to be looked to by the lower Michigan counties engaged in good roads work for a supply of rock, and he believes that ultimately a prison will have to be established on the Keeweenaw peninsula or at some other point for the crushing of that rock. He believes that such a prison would help solve the convict labor problem.

Yesterday morning Mr. Rogers looked over the ledges of rock near the Marquette prison, and inspected the road built by Chocoley township. He reports the rock east of the prison to be quartzite, and not an ideal material for road-building. The road constructed by Chocoley township, he said, was put in with a clay binder, whereas the ideal "good road" must be built entirely of stone.

The quartzite, he asserts, has a tendency to go to sand and has not the binding qualities of some other rocks. Mr. Rogers has not yet inspected the ledges of rock west of the prison.

### SALVATION ARMY RALLY.

A Four Days' Campaign to Open Here Tomorrow.

A four days' campaign and officers' council of the Salvation Army will be held in this city commencing tomorrow evening at 8 p. m. Among those who will be present are Brigadier Cousins, of Duluth, Minn., who has charge of the work in the upper peninsula, Wisconsin, Minnesota and South Dakota, Major Merrilweather, general secretary for the North-west; Staff Captain Watt, of Duluth, and the field officers of Ishpeming, Calumet, Houghton and Escanaba. The session will open tomorrow evening with a "welcome" meeting for Major Merrilweather at the Salvation Army hall. Services will be held Sunday at 11 a. m. and 2:30, 3, 7 and 8 p. m. There will be plenty of music and singing and an especial invitation is extended to church members to attend, subsequent to the regular services at their own places of worship. Several addresses will be made by Brigadier Cousins and Major Merrilweather, both of whom are eloquent speakers. Brigadier Cousins will have charge of all the meetings Monday. There will be a grand "welcome" meeting for the visiting officers at 3 o'clock in the afternoon and an open air rally at 7 p. m. A union demonstration will be held at the Presbyterian church at 8. Brigadier Cousins will deliver the principal address. The officers and soldiers will hold a council Tuesday afternoon, and the session will close with a public demonstration at the army hall in the evening.

### SUSPECT VAGRANT OF BURGLARY

BERGER CHARPENTIER, SERVING  
SENTENCE FOR VAGRANCY, BELIEVED TO HAVE BEEN IMPLICATED IN BREAKING  
Engaged in an Altercation on

Berger Charpentier, now serving a ten days' sentence in the county jail for vagrancy, is believed to have been implicated in breaking into and looting camps owned by John Stewart, Ed. Sink and J. E. Trethewey about twelve miles north of the city. The camps are only occupied during the summer, when they are used for cutting purposes. In former years camps were rarely molested, but within the past year or so a number have been entered and robbed. The Stewart, Sink and Trethewey cottages were forced open during the early part of April, and their contents so thoroughly overhauled that the owners have as yet been unable to ascertain exactly the extent of their losses. Charpentier was arrested by T. J. Maney and brought before Justice Cray Wednesday night, on the charge of vagrancy. Mr. Maney is working on the case and by the time of Charpentier's release hopes to have enough evidence to hold him on the charge of burglary. Charpentier is a resident of this locality, but has hung about here for some time past. His last employment was as a section hand at Birch. Of late he has had no visible means of support.

### TIRED OF SHOVELING SNOW.

Men Working in the Woods Quit for Unusual Reason.

A rather unusual occurrence was reported by a Marquette county lumber operator yesterday, which illustrates in a graphic manner the backwardness of the present spring. A gang of men employed by the Sparrow-Kroll company of Kenton, extending a railroad spur in from Anthony, a point near Kenton, to some timber the company intends to get out, threw up their jobs this week because, as they put it, they "didn't want to shovel snow all summer." That was exactly the trouble. They have been compelled to shovel snow ever since they went on the job, and they are tired of handling it. The Consolidated Fuel & Lumber company had a similar experience this week at a wood camp near Summit. The gang employed there, eight or ten men, quit, because they, too, were tired of laboring with the snow, with no prospect that the woods would be clear at an early date. The oldest settler remembers nothing quite as bad as the present spring. It is a good deal of a calamity from whatever point it is viewed.

Of all the fruits that are in the land that grows on bush or tree, I would give up the choicest ones For Rocky Mountain Tea.

The Stafford Drug Co.

### BOY WANTED.

A good, energetic boy to work nights in The Mining Journal office. Apply at once.

### STOP THE LEAKS.

Now is the time. That is our business. The best shingles for the least money. Consolidated Fuel & Lumber company. Both Phones. (4-27-11)

### FINLANDER IS STABBED TWICE

TWO SUSPECTS ARRESTED AND  
HELD AT POLICE STATION TO  
AWAIT EXAMINATION.

### INJURIES NOT SERIOUS

Men Had Been Drinking and Became Engaged in an Altercation on the Way Home—To Be Arraigned Today.

The police station contains two men and a mystery. The men are Sala Lahti and another Finlander whose first name is Erick and whose surname is unknown to the authorities, and the mystery is which one of them stabbed Andrew Hapala. The three men were in the saloon kept by John V. Lastilla, No. 111 South Third street, until 11 o'clock, Wednesday night, when the proprietor closed up. They left the saloon together and proceeded toward the boarding house of Mrs. Tarka on Baraga avenue, where they were stopping. When they reached Spring street one of them drew a knife and drove it twice into Hapala's back. Though Hapala was not badly injured, the victim's matter to the police was in the clean way in which the weapon sheared through coat, vest, shirt and undershirt. Fortunately for Hapala he was heavily clothed and the weapon only penetrated the flesh a short distance. Two cuts were inflicted between the shoulders, a few inches apart. Hapala took to his heels, and, as he expressed it yesterday through an interpreter, "ran for his life." When he reached his boarding house he sent for a physician and had the wounds dressed. Then he reported the matter to Officer Schramm, who took the men in charge a short time afterwards.

### CANNOT SPEAK ENGLISH.

Neither Hapala nor the two men, one of whom is suspected of stabbing him, can speak a word of English. Through the aid of an interpreter meager details of the alleged assault were secured in Justice Byrne's office yesterday morning. Hapala said that they had all been drinking, but were not in an intoxicated condition. When they left the Lastilla saloon they proceeded directly toward their boarding house. On the way an argument started. He was unable to say what it was about, but suddenly he felt a cut in his back and then another. He sprang forward and started to run. He was unable to say which of the men inflicted the injuries.

Chief Manning said that he had been unable to secure any information from the men who had been taken into custody, as neither could speak English, and he had not acquaintance with Finnish tongue. He had searched them he said, and found a knife on Lahti. The weapon was closed, however, and as there was no blood on it, he did not believe that it had been used in the assault. The other man did not have a weapon of any kind, and he was the more inclined to suspect him from that fact, as the natural impulse of a man who had attacked another with a dangerous weapon was to throw it away. As Prosecuting Attorney Bell was busy in court and could not be present Justice Byrne decided not to draw up the complaint until he could be consulted, and neither of the suspects will be arraigned until some time today. The injured man will be assaulted with a dangerous weapon with intent to commit murder, or assault with a dangerous weapon with intent to do great bodily harm. Both are felonies punishable by penitentiary sentence.

### RUN ON OXALIC

Druggists Unable to Meet Increased Demand Caused by Fuel Experiments.

The widely published assertion that a compound of oxalic acid, common salt and water would make a better first class antiratic than has been hitherto known, has led to a wonderful boom in the oxalic acid market. Whereas the acid formerly retailed by the ounce people began buying it by the pound, and as result most of the local drug stores soon ran out. Neither Stafford's nor the People's drug stores had a particle left yesterday morning, though both have sent in orders for supplies of the drug that should meet the market demand. "We have sold more of that stuff in the past week than before in ten years," said a druggist yesterday. "There was formerly no great call for oxalic acid and what sales there were were in small quantities of an ounce or so. Recently we have been lading it out by the pound and have had a number of calls for it that we have been unable to supply. The public wants to be very careful how it handles it. Oxalic acid is a poison, though not a virulent one. The danger lies in the fact that it greatly resembles Epsom salts, a very common household remedy. If Epsom salts and oxalic acid are kept together on the same shelf and a portion of the latter is taken for a laxative the results are liable to be very unpleasant. In fact, within the past month there have been a number of persons poisoned throughout the country through just this mistake, though no cases have as yet been reported in this city. When the stamped for oxalic acid started I made it a point to inform every purchaser that oxalic acid was a poison, and that they should be careful not to mistake it for Epsom salts."

We have plotted, planned and figured, working from morning till night, seeking for a medicine that will take the place of Hollister's Rocky Mountain Tea, but we can't find it. Tea or Tablets, 35 cents. The Stafford Drug Co.

### NOTICE.

If you want dry hard and soft wood 16-inch slabs, call at or telephone to H. J. Kropp & Co., 615 Champion street. Bell Phone No. 78. (5-8-11)

Buy reliable mixed paints, that have stood the test of time, from Kelly Hardware Co. (5-18-11)

Vandenboom's fresh aerated Guernsey milk and Creamery butter have no equal in the market. Try it. (5-21-11)

Perhaps your feet were fitted to the last pair of shoes you bought. Let us fit a pair of Hanan Shoes to your feet. There's a difference you'll appreciate. Comfort and a lasting shape—that is what it means to have a shoe that fits at every point. The new styles for Spring are all that careful dressers could desire.

\$5, \$5.50 to \$6

### THINK TWICE.

EPIDEMICS DIVERT BUSINESS.  
The recent epidemic of diphtheria and scarlet fever in the city have, it is reported, diverted thousands of dollars' worth of business from Chicago. In order to allay the fears of towns and cities near Chicago, which were said to be considering quarantine measures until the epidemic had passed, Health Commissioner Whalen called a consultation of big commercial interests which resulted in active co-operative measures being taken to prevent the spread of disease and stamping out the epidemic."—From American Carpet & Trade Record, Philadelphia, March 10, 1907.

There is no greater source of infection than that related to the handling of carpets that are often sold from such homes in infected districts and cities. They as a rule are bought up by the City Rug Factories and lend the presence to infect other innocent patrons. In having your rugs made up from old carpets you will avoid all this risk by shipping to a well known sanitary factory that insures you against any chance of this kind we refer to

Petoskey Rug & Carpet Mfg. Co. Ltd., Petoskey, Mich.

### REOPENED

Werner's Gallery

I have reopened my photograph gallery at cor. Main and Third Sts., and will hereafter give no business my personal attention. We can photograph as neatly as well as during the day and will be glad to see my old customers as well as any one wishing first class work.
