

GRAND JURY VOTES MANY TRUE BILLS

Further Evidence of Wholesale Bribery Found in the Investigation of the Municipal Corruption at San Francisco.

Big Batch of Indictments Is Returned Against Mayor Schmitz, Abe Ruef and Railroad and Telephone Corporation Officials, and on Each of the Numerous Charges Bail Is Fixed by the Court in the Sum of Ten Thousand Dollars.

San Francisco, May 24.—The grand jury this evening returned bribery indictments as follows: Against President Calhoun of the United Railroads, 24; assistant to the president, Thornehill Mullaney, 14; Attorney Tracy L. Ford and W. H. Abbott, of the legal department of the United Railroads, 14 each; Mayor Schmitz, 16; Abraham Ruef, 14; President Louis Glass of the Pacific States Telephone & Telegraph company, and Theodore V. Halsey, formerly agent of that corporation, one each. Judge Coffey fixed bail in the sum of \$10,000 on each of the charges and gave the accused until 11 o'clock a. m. tomorrow to furnish bonds.

MAY FAVOR NEW TARIFF. STRONG PRESSURE BROUGHT UPON THE PRESIDENT.

Personally He Believes Rates Should Be Readjusted—Question of Expediency the Problem—Most of the Leaders of the Senate Favor Revision.

Washington, May 24.—It is by no means improbable that the president may urge on congress in his next annual message the advisability of immediate revision of the Dingley tariff. The extent to which such a course is being urged on him would, were it generally known, occasion no surprise, for one of the most conservative statesmen and, too, some of the staunchest protectionists have expressed the view that it might be wise to deal with this troublesome subject next winter. Senator Allison, talking recently for publication, said: "In the next campaign, and possibly in the next session of congress, the tariff is certain to be an important issue." Senator Spooner, as will be recalled, in debate with Senator Aldrich near the close of the recent session, expressed his conviction that the time had come when the tariff should be readjusted, and Senator Aldrich himself, although he has been termed "the high priest of protection," believes that a number of the schedules should be lowered and many of them altered to suit changed conditions.

Two years ago last February, at a conference called on this subject at the White House, Mr. Aldrich voted for tariff revision, as did Senator Allison, and only the determined "standpatter" of Speaker Cannon and his allies in the house prevented the president urging revision on the last congress in its first session. Senator Lodge is another leader in the senate who regards tariff revision as all important, and Senator Spooner's successor has already announced his belief that the duties should be lowered. Senator Hale is probably the only "rock-ribbed standpatter" in the senate. From all parts of the West comes the information that a change in the schedules is regarded as imperative, and even certain representatives of the steel industry have declared that they will no longer oppose the inevitable, while the demand for lower duties in certain parts of New England is well known.

In the estimation of the leaders in the senate, and to some extent in the house, the one proper and practical solution of the tariff difficulties with Germany and France rests in the enactment of a maximum and minimum tariff law whereby congress would fix both duties and the president would be empowered to grant the lower duties in return for adequate concessions. The plan of accomplishing reciprocity agreements by treaty has, in the estimation of all who are competent to judge of the situation, been demonstrated to be absolutely impracticable, and it is regarded as an entirely safe prediction that whenever the Dingley law is replaced with a new tariff enactment one of the most important features of the new law will be the minimum and maximum schedules.

The tariff programme which has been most extensively discussed in executive and legislative conferences in Washington, and which has many advocates, consists of a definite pledge to be incorporated in the next Republican national platform, to call congress in special session soon after March 4, 1909, for the express purpose of revising the existing tariff schedules. From a political point of view this programme has much to recommend it. Practically, it has the advantage that the members of the next house of representatives would then, presumably, be elected under a pledge to carry such revision into effect, and the influential "standpatters" in the lower chamber would be powerless to disregard the recommendation of the executive, the will of the upper house and probably the will of the people. Personally, the president has long been convinced that the tariff should be readjusted, and now the only problem

which confronts him is the question of expediency. The most powerful argument against pledging the party to tariff revision in the next national platform, a revision which could not be accomplished until practically a year later, is that the prospect of a change of the tariff schedules entertained so long in advance would have a strong tendency to interfere with business, and might prove gravely inimical to the general prosperity. Business men would naturally curtail their imports to the bare necessities, with the hope that under the new tariff law they could import more cheaply, and now that so large a percentage of the imports are what is termed "manufacturers' materials" such curtailment would prove most injurious. So, too, manufacturers would be disposed to curtail their output under the belief that under the new law they could procure their materials more cheaply, or with the fear that changed conditions might operate seriously to diminish their profits on goods already manufactured. This argument has been urged upon the president with great earnestness when in the past he has proposed tariff revision to the party leaders, and he appreciates that there is force in it.

Another argument now being pressed is that were the Republican party to take the matter up at the coming session and readjust the schedules to changed conditions the Democracy would be left stranded, high and dry, without a single issue. In the New England states, in Iowa, Wisconsin, the Dakotas, and in fact generally throughout the West party leaders urge that members of the house who must appeal to their constituents for re-election in the fall of 1908 could do so with far better grace if they had attended to this difficult and important duty, while their opponents would have no ground on which to go before the voters.

HARRIMAN NOT EXONERATED. Interstate Commerce Chairman Knapp Denies a Published Statement.

Washington, May 24.—Chairman Knapp, of the interstate commerce commission, today said that the statement that he yesterday had informed the president that the investigation by the commission into the method of the Harriman lines had practically acquitted Harriman, was absolutely without foundation or excuse.

FINDS AGREEMENT TO CONTROL PRICES. MISSOURI INVESTIGATOR RECOMMENDS OIL COMPANIES BE OUSTED FROM THE STATE.

Jefferson City, Mo., May 24.—Judge Anthony, upon appeal by the supreme court of Missouri to take testimony in the suit instituted against the Standard, Waters-Pierce and Republic Oil companies, charging conspiracy, today reported to the court that the companies had entered into an agreement to control the prices of oil, and recommended that their charters be revoked, and that they be ousted from the state.

Government's Suit Attacked. St. Paul, May 24.—The Standard Oil company today filed in the federal court a bill of exceptions against the government's complaint which seeks to have the Standard and its seventy allied companies declared an unlawful combination in restraining trade and to have the combination dissolved. There was a brilliant array of counsel present to participate in the arguments.

Attorney Johnson, for the Standard Oil, began the attack on the government's bill as soon as court opened. He said that the government charged the Standard Oil company with having committed acts which were long in the past, and of which the court could have no cognizance. He said that it was not the Standard Oil company of years gone by that the government sought to have declared an illegal combination, but it was the Standard Oil company of New Jersey that it wanted broken up. Mr. Johnson called attention to the fact that although the Standard was charged with many acts of restraining, restraint of trade and other acts, yet those engaged in these acts were not made parties to the suit. The arguments were concluded this afternoon, and the court took the matter under advisement.

TO FORCE MEDICAL TREATMENT. Law Proposed by Coroner Makes Failure to So Provide Manslaughter.

New York, May 24.—Following the coroner's request to inquire into the death of Mrs. Corinne McBride, who died of pneumonia without medical attendance, Coroner Acitelli has called official attention to the decision of the jury that a number of doctors in New York furnish death certificates for persons who die under the care of certain practitioners, not licensed to practice medicine. Mr. Acitelli further said that he had sent to the state legislature a bill to amend the section of the penal code which defines the crime of manslaughter in the second degree by adding to article 2 of the said section the following words: "Who wilfully omits without lawful excuse to provide medical attendance to a minor under his charge is guilty of manslaughter. In the second degree, and that no religious tenets or beliefs shall constitute a defense under this section."

JOE HORNER THE STAR. Ann Arbor, Mich., May 24.—Joe Horner of Grand Rapids was the star performer today at the opening of the annual Michigan interscholastic track and field meet. He scored twelve points for the Grand Rapids High school and broke the interscholastic records in the shotput and pole vault. Horner made 50 feet 4 inches in the shotput and 11 feet 11 1/2 inches in the pole vault, qualified in both high and low hurdles, and took third in the discus throw.

FIGHT THE SUIT FOR ACCOUNTING

Attorneys for Christian Science Leaders Declare Mrs. Eddy's Property in Good Hands and Needs No Protection.

They Argue at Length in Support of Their Motion That the Trustees of the Estate Be Substituted as Plaintiffs, and in Turn Counsel for the Petitioners Characterize the Plea as Absurd—Court Takes the Proposition Under Advisement.

Concord, N. H., May 24.—The arguments were completed in the Merrimack county superior court today on the motion of the trustees of the estate of Mary Baker G. Eddy, head of the Christian Science church, to intervene and be substituted as plaintiffs in the suit brought by her son, Geo. W. Glover, and others to compel an accounting of her property. Judge Chamberlain, the presiding justice, issued an order that all affidavits and all citations in the case be filed by next Tuesday, and said that his decision on the motion would be given later.

Most of the day was occupied by the counsel for the petitioners, but late this afternoon General Streeter, counsel for the trustees, who presented his main argument in favor of the motion yesterday, made a brief closing plea.

Motion Declined Absurd. Both Dewitt C. Howe and former Senator William E. Chandler, of counsel for the petitioners, characterized the motion of the trustees to leave to intervene as absurd, and declared that the trustees were rather that of defendants than plaintiffs. The point was made also that the deed of trust transferring the property of Mrs. Eddy to the trustees was executed after notice of the present suit had been received, and had prejudged the case or that, as counsel for the petitioners had intimated, that the trustees would dismiss the suit if admitted as plaintiffs.

Strange Proposition, Says Court. During the closing argument of General Streeter, Judge Chamberlain interjected several questions. He asked how question of Mrs. Eddy's competency could be determined without trial, and remarked later that it seemed a strange proposition to him that the court should determine the question involved without trial.

General Streeter, replying, said the judge could determine the question of Mrs. Eddy's competency by a visit to her, and he thereupon extended an invitation to Judge Chamberlain and Senator Chandler to visit Mrs. Eddy with him and discuss the case with her. General Streeter added, however, that before the question of competency was settled, two other questions should be decided. He said: "If your honor has become satisfied that Mrs. Eddy's property is in good hands, and needs no protection, then there will be no occasion to go further."

General Streeter said the second question to be determined was whether the suit carried on for Mrs. Eddy's benefit, remarking: "If this court should determine that this case is not for Mrs. Eddy's benefit, then he must dismiss the action."

Denies Basis for Trial. General Streeter further said that it was not right to subject a woman of Mrs. Eddy's advanced years to a trial until there is something to base a trial upon. He denied that counsel for the plaintiffs had thus far shown any evidence in support of the allegations shown in the bill. Senator Chandler interposed, saying: "We have much evidence which will prove very troublesome to brother Streeter when he meets it, and we will present it whenever the court directs. After a further brief argument by General Streeter, court was adjourned."

BAR ILLEGAL ADVERTISEMENTS. All Paper Containing Them Are Excluded from the Mail.

Washington, May 24.—Postmaster General Meyer has issued an order declaring unmailable over twenty unlawful medical advertisements of parties in Chicago. Investigations by special agents of the department disclosed that the advertisements related to illegal medical practices, the parties being engaged in performing criminal operations and selling illegal medicines. Many of the names under which the advertisements were placed were found to be fictitious, to hide the identity of the real parties. The postmaster is directed to refuse to permit these advertisements to enter the mails and all the newspapers of Chicago will be so advised. Mail received for the fictitious names and addresses will be returned to the writers undelivered. As a result of the investigations made by the department at Chicago criminal proceedings have been instituted against three of the parties engaged in these illegal practices. Two of these parties have already pleaded guilty and been heavily fined. The action of the department is in line with like action against this class of illegal medical advertisers in the several cities mentioned, and is believed to have been reached by the department.

DROWNS IN PAIL OF WATER. Shocking Fate of an Infant Child at Crystal Falls.

Iron Mountain, Mich., May 24.—(Special.)—Doris, the ten-month-old daughter of James Langdon, of Crystal Falls, met a shocking fate at the home of its parents yesterday afternoon. There was a candy pail filled with water standing on the floor. The child was playing about, while its father was lying down in an adjoining room. The mother, who was washing at the time, thinking that her daughter was far removed from harm, stepped into the yard for a few moments to hang up some clothes. Upon her return, the sight of the little girl, head foremost in the pail of water, feet extended in the air, met her gaze. The first intimation of the father, met a shocking fate at the home of its parents yesterday afternoon. There was a candy pail filled with water standing on the floor. The child was playing about, while its father was lying down in an adjoining room. The mother, who was washing at the time, thinking that her daughter was far removed from harm, stepped into the yard for a few moments to hang up some clothes. The first intimation of the father, met a shocking fate at the home of its parents yesterday afternoon. There was a candy pail filled with water standing on the floor. The child was playing about, while its father was lying down in an adjoining room. The mother, who was washing at the time, thinking that her daughter was far removed from harm, stepped into the yard for a few moments to hang up some clothes. Upon her return, the sight of the little girl, head foremost in the pail of water, feet extended in the air, met her gaze. DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

General Kuroki is to visit Milwaukee.

And if the senatorial sixteen, the boxers, refuse to submit the question of the 40 per cent provision to the voters perhaps Governor Warner will try a special session along about nominating time.

When men employed to work in the woods quit their jobs on dates after the 20th of May, because they are tired of shoveling snow, the last lingering doubt that the spring is a backward one is dispelled.

It is not the magnificent distances between the towns that is bothering the Northern-Copper Country league. It's the umpires. They are proving to be fully as bad as the funny papers allege they are.

Senator Smith remarks that Governor Warner wanted the 40 per cent provision two years ago, and that it ought to be good enough for him now.

Truly these are sad days for sealawag mayors, sealawag labor leaders, sealawag politicians, sealawag young bloods, sealawag husbands, sealawag bank presidents and sealawags of other descriptions.

Former Governor W. D. Hoard has an editorial leader in the Milwaukee Free Press in which frank acknowledgment is made that the chief title to election of Senator Stephenson was the fact that he footed La Follette's bills.

He footed La Follette's bills. The former governor doesn't say that if Stephenson hadn't footed the bills he would never have been suggested as senatorial timber, but we suppose this is a natural corollary of the other statement.

It is a refreshing thought," writes Mr. Hoard, "that Mr. Stephenson has used his great wealth to the building up of the cause of the people in Wisconsin. He bravely stood behind the La Follette movement and paid the bills while the people were getting hold of the state government, and the people have never forgotten it.

Mr. Stephenson is an old man, seventy-eight years of age, but he is good for the short term to which he is elected, for he is a man of remarkable vigor of body and mind."

A sufficient number of Osceola stockholders want to "lose" the present management to have given Calumet & Hecla, with the stock it owns, full control, if the annual meeting had not been interfered with by Mr. Bigelow's appeal to the courts.

The hearing on Senator Moriarty's bill to remove the 50,000 acre restriction on the amount of timber lands mining companies are permitted to hold has not been held, and indeed may not be held.

This week saw a gathering of influential mining men, both from the iron and copper districts of the upper peninsula, at Lansing, to urge the passage of the Moriarty bill, but it was impracticable to hold the hearing on the date set.

Now it appears that an effort is to be made to head off the mining interests that have opposed the bill, presumably the Osceola and allied interests, so that the mining companies can present a united front in its favor.

Obviously such a front would do a great deal to insure the passage of the bill, although it is one worthy of favorable consideration on its merits.

The best interests of the mining companies require its passage, and the best interests of this region and the state are served by serving all reasonable interests of the mining companies.

President Roosevelt contemplates a four days' trip down the Mississippi from some point in middle Illinois or Iowa to Memphis with the new inland waterways commission, of which Congressman Burton of Ohio is chairman, as the guest of the Lakes-to-the-Gulf Deep Waterway association.

President Roosevelt has traveled farther and in more directions than any of his predecessors and his traveling has been good both for him and for the country.

This river trip, however, will be a novelty, and it will be educational not only to the president and his party, but to the country. We all know that there is such a river as the Mississippi, but how many think of its magnificent possibilities as a channel of commerce?

We complain of the high rates on the railroads and grumble when traffic is congested and service slow, but we forget that one of the world's greatest rivers bisects the continent, with great tributaries branching away on either side.

The president's trip ought to awaken interest in the river and give impetus to the movement for its improvement for navigation purposes. If the Mississippi river and its tributaries were developed to even a fraction of their possibilities the commerce of the country would be placed on a much easier basis.

NEGAUNEE'S MUNICIPAL PLANT.

On account of the offer of the Marquette County Gas & Electric company to purchase the city plant the question of municipal ownership is again being agitated pro and con at Negaunee. The terms of the offer, also the general situation in regard to the plant, were out-

lined in full in yesterday's issue of The Mining Journal. The city faces the necessity, if it retains the plant, of a minimum expenditure of \$18,000 for its enlargement. Since the board of public works was organized at Negaunee a more vigorous management of the lighting business has resulted in its rapid expansion, until the capacity of the present plant has been reached.

If the service is to be kept up and if all consumers are to be supplied with service—and it's the business of a municipal plant to serve all the people—a new generating unit must be installed, together with a new turbine engine, and the complement of boilers that goes with it.

Municipal ownership in Negaunee appears to have been a good deal of a failure. In eight years up to the time the board of public works took over the plant a profit of \$1,200 was shown, but in the meantime an entirely new plant was put in by an appropriation made from city funds for that purpose.

The depreciation charge was just a name; there was no sinking fund put aside for replacements. The plant simply ran down at the heel, with the idea that a new one would be provided by the taxpayers when the old one wore out.

And now again the taxpayers have to be asked to rehabilitate the plant. There is no sinking fund to draw on to defray the cost, or any part of it, of the new equipment made necessary by the growth of the business. Indeed, what is worse, the plant has not even earned interest on the investment, leaving entirely out of consideration depreciation or a sinking fund—a charge which good business principles demand be made against every plant of the kind.

The total charges against the plant are said to have been \$37,000, which includes the cost of two sets of machinery. This figure is greatly in excess of the value of the plant as it stands today.

The showing since the board of public works took over the business is somewhat better than was made under the management of the council. Last year the plant made a little money. At the same time it has been the activity of the board that brought about the condition making necessary the improvements.

and it is a general rule that the harder a business of that kind is pushed the earlier the necessity for improvements arises.

There is a big discrepancy between the physical value of the present plant and the total expenditure of the city on its municipal venture. Where has the money gone? Into machinery and equipment thrown away which failed to earn enough to duplicate itself.

In some degree this discrepancy has been compensated for by the cheaper light the customers of the plant have been given compared with the light they might have gotten had they been compelled to buy electricity from a private corporation, and also by the reasonable rate the city has charged itself for street lighting.

The offer of the Marquette County Gas & Electric company is a liberal one. It will pay \$35,000, much more than the present plant is worth and close to the amount that the city has put into it

WALL PAPER

A Slaughter Sale at Geill's

For the next four weeks all Wall Papers in our store will be sold at a

Reduction of 25 Per Cent

The stock is the finest in the city. It includes the most up-to-date designs and patterns, and variety suitable to all pocketbooks. An inspection of the display is cordially solicited. On all sales the next 30 days a cut of 25 cents on the dollar will be made.

Charles T. Geill 120 North Third Street. Marquette; Michigan.

at all times. It will do the street lighting, and, it is said, furnish lamps of greater power, for the same rates now in vogue, and will enter into a contract to cover fifteen years. The rates it proposes for incandescent lighting are said to be the same as now prevail.

This is about as liberal an offer as any city ever received under the circumstances, and it is not surprising that it was regarded with so much favor by the council that they decided to submit the question of selling or improving the plant to a referendum vote.

Negaunee now has a chance to get back practically all the money it has put into the plant, to secure excellent terms for future service, to save an additional expenditure of over \$18,000 and to avoid any further navigation of the troublesome sea of municipal ownership. The opportunity looks like an unrivalled one.

PILES CURED IN 6 TO 14 DAYS.

Pazo Ointment is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded.

REOPENED Werner's Gallery

S. W. Shaull is in Chicago, on a business mission.
Miss Mayme Collins, of Crystal Falls, is visiting in this city.
E. G. Delano has returned from a visit with friends at Yonkers, N. Y.
Mrs. Caroline Burt has returned from a visit with friends at Detroit.
The ideal orchestra of eight pieces will play at the hop at Fraternity Hall tonight.
Charles Dettman has been made assistant yardmaster in the South Shore yards here.
James Russell arrived home yesterday morning from a business trip to the lower part of the state.
Mrs. C. A. Wheeler, Pine street, arrived home yesterday after several months' absence at Detroit, undergoing surgical treatment. She is much improved.
The Wolverines defeated the Independents by a score of 7 to 6 yesterday. The battery for the Wolverines is Zryd and Fraser; for the Independents, Brunell and Rublein.
Major Merriweather will conduct special services at the Salvation Army hall this evening and tomorrow, and also will lead the open-air meetings. He is the general secretary of the Northwestern province of the Army, and is a pulpit orator of note.
Following the Memorial Day exercises at the opera house next Thursday, the W. R. C. will serve dinner at Keough's Hall to all veterans of the Civil war and sons of veterans, also all Spanish and Philippine war veterans, as well as all former soldiers who may be visiting in the city.
High School Concert—A concert will be given for the benefit of the High School Athletic association at the high school auditorium the evening of Wednesday next. The Schubert quartet and other Marquette musicians will assist with the program.
Left for Lansing—Deputy State Road Commissioner Rogers left for Lansing yesterday afternoon, after some further looking into the trap rock question. He is expected to be in Lansing tomorrow, and will report on his observations at Lansing.
Turret Lathe Installed—A turret lathe manufactured by Jones & Lamson, of Springfield, Vermont, for August M. Sweder was placed in the Lakeside Iron works, No. 206 Lake street, yesterday afternoon. The lathe, which weighs several tons, is protected by twenty-six patents. It will be used exclusively in the manufacture of diamond drill supplies, of which Mr. Sweder intends in the future to make a specialty.
Opinion Not Received—The opinion in the case of Maclain vs. City of Marquette, in which the decision of Judge Stone for the defendant was recently sustained by the supreme court, has not as yet been received. The plaintiff claims that the action was carried to the supreme court on the strength of two Wisconsin cases, one of which was approved by both the Michigan and United States supreme court.
Good Game Tomorrow—The Marquettes and the Rivals are scheduled to clash again at the new fair grounds tomorrow at 3 o'clock. Two weeks ago the Marquettes won in a close and exciting game. The Rivals have since been greatly strengthened, and, having devoted a great deal of practice to team work, are confident that they can reverse the result. Scholtus and Webb will be in the points for the Marquettes, and Riley and Richardson for the Rivals.
K. of C.'s Going to Calumet—The South Shore has made a rate of \$3.50 for the round trip from Marquette, Ishpeming and Negaunee to Calumet and return to members of the Knights of Columbus who desire to attend the instituting of a new council at the latter place tomorrow. A special sleeper will also be attached for the return Sunday night, which will be cut off from train No. 8 at Marquette Monday morning. A large number of Marquette Knights plan to make the trip.
Road Blocked With Snow—In spite of the lateness of the season there is still plenty of snow in this locality. Tuesday two gentlemen from Marquette attempted to reach the Verde Antique quarry from Ishpeming and were com-

elled to turn back, owing to the snow banks which still blocked the road near the quarry. The snow at this point is pretty well protected from the sun and wind by woods and will not be entirely melted for several days yet.
Secures A Launch—The Lake Shore Engine works have just completed an eighteen-foot gasoline launch for J. M. Lindstrom. The craft is unusually graceful in her lines and gives evidence of possessing exceptional speed. Mr. Lindstrom will use the boat in making trips to and from his cottage at Lakeside. The Lake Shore works have turned out several boats and all have given good satisfaction. Owing to the continued cold weather, Mr. Lindstrom has not as yet put his launch in commission.
Late Spring In West—Warren C. Beall of Victoria, B. C., who was in the city yesterday on his way to Milwaukee, says that the middle-west is not the only section of the country that is experiencing a late spring. The spring in British Columbia, west of the mountains was later this season, than at any previous time in many years. Though much further north than the upper peninsula western British Columbia enjoys a mild climate, owing to the proximity of the Japanese current. The trees generally blossom early in March and cherries ripen by July. When Mr. Beall left the west two weeks ago the fruit bearing trees gave little evidence of blossoming and residents feared the failure of the crop.
A Gigantic Lynx—The museum at the Max M. Stierle photograph gallery, No. 506 North Front street, contains probably the largest lynx ever exhibited in this city. The animal was killed in Marinette county, Wisconsin, and was sent to Mr. Stierle to mount. In life it weighed over fifty pounds and must have been a formidable animal. For over twelve years it defied capture and killed hundreds of sheep in the vicinity of its lair. Mr. Stierle says that the cat had reached an advanced old age. Many of its teeth were gone and those that it still retained were hollow and rotten. Had it not been trapped it must in the course of nature have died before long. Mr. Stierle has mounted many cats but none that could compare it in size, strength or age.
Find Remains of Tarrsh—The remains of Henry Tarrsh, of Crystal Falls, who mysteriously disappeared nine years ago, have been found buried in a swamp near Eagle River, Wis. Tarrsh was well known in Marquette and at the time of his disappearance the authorities here were notified, as it was believed that he might have come to this city. The man disappeared without leaving a clue, but though there appeared to be little hope of their efforts being rewarded his relatives clung to the belief that he was murdered and kept up the search for his body year after year. At one time an Indian by the name of Peter Oom was arrested charged with killing Tarrsh, but the evidence against him was too slight and he was released. The remains have been positively identified.
Charges Are Expurged—In circuit court yesterday morning certain portions of the answer of defendant were stricken out in the case of Anna Hoffenberg vs. Nathan Hoffenberg. The action is one for separate maintenance; the plaintiff alleging cruel and inhuman treatment. She has not been a resident of the state long enough to secure a divorce. The answer of the defendant to plaintiff's petition contained charges that Attorney Button contended were scandalous and moved that they be expurged from the records. Judge Stone heard arguments on the motion and ruled with the plaintiff. The jury in the case of George Reichel, Adam Reichel and Henry Reichel vs. Peter C. Peterson, an action to recover damages for the alleged non-performance of contract in the cutting and hauling of timber, found for the defendant, Thursday night.

Ishpeming Department

WOODMEN FORESTERS.
Four Degree Teams of County Will Soon Organize a Battalion.

There will soon be four well organized degree teams of the Modern Woodmen of America in Marquette county. Ishpeming and Negaunee have had teams of uniformed foresters for several years past and the camp at Marquette and the one organized a few months ago at Princeton have also organized teams. The officers recently applied to Major General Mitchell of Iowa, commanding officer of the Woodmen Foresters of the jurisdiction, for the privilege of organizing a battalion, and the major general has complied with their request and will have to observe. A. W. Moore will be in command of the Marquette; Harry Wills of the Princeton team; M. W. Lowdermilk of the Negaunee team, and C. E. Swanson of the Ishpeming team. Major General Mitchell has promoted Captain Lowdermilk to the rank and grade of major, and he has been assigned to the command of the battalion. Captain Swanson of this city has been assigned to the duties as battalion adjutant. Major Lowdermilk will, at his convenience, appoint a sergeant major for the battalion, reporting such appointment to the major general.

The principal object of organizing the battalion is to get in condition for attending the next head camp session of the society at Peoria, Ills., in June, 1908. At that meeting teams will be assigned to positions in battalions in accordance with military rules upon seniority of company commanders, or seniority of team numbers, as the major commanding the battalion may deem most desirable under the circumstances. The Ishpeming team has attended the last two head camp meetings and at both of these their members have observed the importance of holding rank in a battalion. The individual teams attending these meetings do not usually have as good a time as the battalion teams. The latter make a much better showing in the parade and as a rule their team work is better than where the individual teams shift for themselves.

It is the purpose of the teams of this county to meet a few times a year for battalion practice and instructions. Each team will be composed of from twelve to twenty members, exclusive of their captain.

DON'T PAY ALIMONY

To be divorced from your appendix. There will be no occasion for it if you keep your bowels regular with Dr. King's New Life Pills. Their action is so gentle that the appendix never has cause to make the least complaint. Guaranteed by The Stafford Drug Co. 25c. Try them.

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-capped glass jars 50 cents. Sold by The Stafford Drug Co.

DISTURBED THE CONGREGATION.

The person who disturbed the congregation last Sunday by continually coughing is requested to buy a bottle of Foley's Honey and Tar. The Stafford Drug Co.

Richard, second lieutenant; Thor Oren, guard; Charles Thomas, sentinel; James E. Quayle, recorder and Len Johnson, treasurer.

The organization has accepted an invitation from the Marquette Pythian lodge to attend Memorial services at the Methodist church a week from tomorrow morning, June 2. The officers have not yet completed arrangements for the trip, but it is possible that they will go down by special train via the Lake Superior & Ishpeming railway, leaving here about 9 o'clock. Tomorrow afternoon the members of the rank will have a practice drill at Union Park.

SUMMER EXCURSIONS.

Dates for Detroit excursions, to be run via the South Shore and D. & C. line, have been announced by the railway management. The first will be on June 12, via Mackinac and the steamer "City of Alpena," the second on June 15, third June 20 and the fourth, June 22. Tickets will be valid for returning leaving Detroit July 3 on the first two excursions, and July 10 for the third and July 12 for the last. The round trip rate has not yet been announced.

BIG COMIC OPERA.

Raymond Hitchcock, One of America's Cleverest Comedians, Coming.

One of the prettiest and most interesting comic operas ever written will be seen here on next Friday evening, when Raymond Hitchcock, that long popular comedian, will be at the Ishpeming theater in Henry W. Savage's newest musical success, "A Yankee Tourist." If this clever comedian was given a piece of mediocre standard he could provide an evening's keen enjoyment, but "A Yankee Tourist" was written especially for his peculiarly droll style by Richard Hartley Davis, well known as an author and war correspondent of much fame, and it is said that Mr. Hitchcock was never cast more strikingly during his stage career. Wallace Irving, prominent principally because of his verses published in Collier's and other magazines, has provided the lyrics for his tuneful production and lyrics of compelling character they are, too. The music comes from the talented Alfred G. Robyn, best remembered, perhaps, for his score of "The Yankee Consul" in which Mr. Hitchcock gained success of a decided and lasting nature. Critics have said that Mr. Robyn's latest effort is even more praiseworthy than his triumphs of former seasons and the characteristic style of his music in "A Yankee Tourist" seems to have found popular approval at a bound. There are some score or more of musical numbers, all of which are characterized by a marked strain of originality, not always present in musical offerings of today. Mr. Savage has selected a cast for the support of Mr. Hitchcock that is unusual in its strength, including as it does such players as Flora Zabelle, Helen Male, Susie Forrester Cawthorn, Eva Fallon, Walter Lawrence, Herbert Cawthorne, Wallace Berry, Harry Stone, Phillips Smalley, Percy Parsons, E. R. Phillips, Herman Kuepke, M. Rabe, and others, well known in the realm of comic opera. The piece has been mounted with the elaborateness characteristic of Savage productions, the chorus is pretty and the whole opera will prove one of the most satisfactory seen here for a long time.

DRAW GOOD CROWDS.

Ishpeming's Second Moving Picture Theater Is Now Open.

The formal opening of the Majestic theater in the Veecker block on Main street Thursday evening was quite as successful as was the opening of the Grand on Wednesday of last week. A large crowd assembled at the entrance before the doors were opened and all who sought admission at the first performance could not be accommodated. Five performances were given during the evening, at the first four of which standing room was at a premium. The program presented was pleasing, the illustrated songs by Mr. A. C. Schott and his sisters being strong features. They were assisted by Frank Trombly, violinist, and Mrs. M. Schuncker, pianist. If the business thus far accorded both theaters in this city continues the proprietors will have no reason to regret locating here. While the houses are small the performances as a rule do not last over forty minutes, giving the proprietors an opportunity to fill their places several times during an evening. Both houses will change their programs this afternoon.

YOUNG MAN LOST.

Former Resident of Ishpeming Missing from Home on Mesaba.

Michael Cashen, engineer of the Ishpeming fire department, has been advised that his brother Daniel is missing from his home at Taconite, Mesaba range. The latest information received came in a telegram to Mr. Cashen to the effect that Dan was still missing and that it is believed that he is lost. He has been missing about three weeks. He left his home to go into the woods hunting, advising his relatives before departing that he would be back in an hour or two, but nothing has been heard from him since. Cashen was born in Ishpeming about twenty-four years ago, remaining here until three years ago, when he moved to Hibbing, leaving there last year to locate at Taconite. If the young man is not found or heard from by tomorrow night Michael Cashen will probably go up to the range.

LEGION AT CHAMPION.

A branch of the National Protective Legion was recently organized at Champion, with the following officers: Worthy Past President—Mrs. Ellen Owen. Worthy President—Mrs. Amelia Levine. Worthy Vice President—Mrs. Kristina Anderson. Worthy Chaplain—Atlas Hilbert. Secretary—Mrs. Ingeborg Marchand. Treasurer—Miss Atinda Johnson. Conductor—Mrs. Mary Martinson. Guard—Andrew Carlson. Sentinel—Jacob Levine. Trustees—Mrs. Rose Derris, Mrs. Harriet Cole and Mrs. Celina Carter. The branch has a membership of twenty-nine, but there are a number of members of the society at Champion who belong to the Ishpeming and Negaunee branches.

WILL ATTEND SERVICES.

The members of Albeck lodge of the Improved Order of Odd Fellows will attend divine services tomorrow morning at 10:30 o'clock at the First Methodist Episcopal church. An invitation has been extended to all of the Odd Fellows societies of the county and it is expected that the attendance will be large. Visiting Odd Fellows are also invited to attend. The procession to and from the church will be headed by the Ishpeming city band. Rev. James Pascoe, presiding elder of the Houghton district, will preach the sermon.

DIED IN CHICAGO.

Marmaduke Harper, who was a resident of Michigan for a number of years prior to twenty years ago, died recently in Chicago. The remains were given interment this week at Michigan. They were accompanied to Michigan by his son, M. D. Harper, and wife of Chicago, who are now visiting his sister, Mrs. C. Hancock of this city. The deceased was seventy-eight years of age.

ISHPEMING IN BRIEF.

J. H. Foster of Marquette spent yesterday at his Ishpeming store. The quarterly conference of the First Methodist Episcopal church will be held this evening at 8 o'clock at the church. Friday, June 14, is the date set aside as flag day. Every flag in the city is expected to be floating from the top of its staff.

Walter M. Sterling, cashier at the Salisbury mine, has been ill and confined to his home in Negaunee the past few days.

Otto Egger and wife went to Republic last evening, to attend a dancing party given by a number of their friends there.

J. R. Wood, a former resident, who has been in the city this week, is the principal owner of a large copper mine in Mexico.

The Eagles baseball team will play the Negaunee tomorrow afternoon at 2 o'clock at Union park. The admission will be ten cents.

The Fraser Stock company will conclude its engagement tonight at the Ishpeming theater. Matinee and evening performances will be given.

The third of the series of Presbyterian church socials will be held at the home of Mrs. George G. Johnston on Bluff street this afternoon at 2 o'clock.

Mrs. E. Dunstone and her two children are here from Butte, Mont., on a visit to John T. Quine and family and Mrs. Quine's mother, Mrs. Dunstone.

Enoch Rogers left Thursday night for the Jamestown exposition. He will also visit several of the larger cities in the east and will be absent about three weeks.

Peter Gringass and wife, who were called to the city last week on account of the death of his father, returned to their home in Milwaukee Thursday night.

The funeral of the late Arthur Swanson will take place tomorrow afternoon at 3 o'clock from the Mission church instead of at 2 o'clock, as at first intended.

Large congregations are expected at the meetings at the Salvation Army barracks this evening and tomorrow. Brigadier Cousins of Minneapolis and Staff Captain Watt of Duluth will conduct the services.

A Canadian Pacific tourist car was brought to the city yesterday, to be used by the party of twenty-five or more Finns who will leave tonight from this city and Negaunee for their native place in Finland.

Charles Johnson of North Third street received a telegram Thursday advising him of the arrival of a son at the home of his son-in-law, Leonard Heiberg, in Chicago. Mrs. Heiberg was formerly Miss Alma Johnson.

D. G. O'Connell and wife are down from Bull, Minn. Mrs. O'Connell has been ill for some time past, having recently submitted to a surgical operation. She will remain here some time but Mr. O'Connell will return to the range within a few days.

The electric light and claims and accounts committees of the council met Thursday evening and adjourned until last evening, when matters pertaining to a new contract with the Marquette County Gas & Electric company for the street lighting was considered. Manager McCorkindale was present at last night's meeting.

The managers of the Grand theater announce in their advertisement in today's issue that commencing Monday they will change their program three times a week, on Monday, Wednesday and Friday. One of the pictures to be shown Monday will be the most sensational yet produced at the Grand.

At the Mission church tomorrow morning at 10 o'clock there will be confirmation services; in the afternoon at 3 o'clock there will be funeral services for the late Arthur Swanson, and in the evening, commencing at 7 o'clock, there will be a special service for the confirmation class.

The managers of the Grand theater announce in their advertisement in today's issue that commencing Monday they will change their program three times a week, on Monday, Wednesday and Friday. One of the pictures to be shown Monday will be the most sensational yet produced at the Grand.

At the Mission church tomorrow morning at 10 o'clock there will be confirmation services; in the afternoon at 3 o'clock there will be funeral services for the late Arthur Swanson, and in the evening, commencing at 7 o'clock, there will be a special service for the confirmation class.

CONDITIONS AT GOLDFIELD.

Miners Now Plentiful—Another Boom Expected Before Fall—"High Grading."

"Goldfield is now experiencing a period of comparative quiet and this is due almost entirely to the nature of the work being done in the mines, from which no new bonanza strikes can be looked for within another two months, at least," said a Negaunee man just back from there. "Outside of the properties included in the Consolidated Mines merger about all the mining work being done in the camp is confined to shaft sinking. Few of these new shafts have attained a depth of over 200 feet and they will all be sunk to a depth of between 300 and 400 feet before crosscutting for the ledge veins is commenced. Because of this, work in the camp is not so plentiful as it was during the operation of the leases on the Mohawk and the Jumbo, and there is a surplus of miners and other labor in Goldfield, who rushed in on the news of the settlement of the strike in April from Bisbee and the other western mining camps where strikes were in progress.

"By the terms of settlement of the late strike Goldfield is guaranteed immunity from further labor troubles for a period of two years. The old schedule of wages, \$5 for an eight hour day's work, remains in force during that time and within a few months, when the work of opening up underground is commenced, there will be room made for three or four times the force now employed, and another big boom will follow before fall no matter whether stocks rise or fall.

"The late strike taught the miners a much needed lesson and it is doubtful if the labor dispute would have been settled yet had it not been for the desolation of the men, whose credit was shut off at all the stores as soon as the strike was declared. Most of these miners had in the baby days of the Mohawk and Jumbo leases averaged between \$20 and \$50 a day over their regular wages from the high grade ore which they smuggled away from the mines and sold to the assay offices for a fraction of its real value. Many amusing tales are told of the predicaments in which the men became involved in their greed to get away with a particularly heavy stone of the high grade ore, and there is scarcely a miner who was in camp at that time but has some personal reminiscence to relate of a "high grading episode," as this form of stealing is termed. One night a miner was awakened by a knock at the door of his shack and on investigating he found a fellow miner sitting on the door step utterly covered with ore. He had to be carried inside and a little investigation showed that his predicament had resulted from the guy strings to his ore bag secreted next to his underclothing breaking, which allowed the jewelry contents to spill into his pants. The listing of his load made it necessary for him to slide along the road in ski fashion until he had reached the friendly shack.

"Another miner loaded down with high grade ore stumbled and fell on the road home from work, and had to lie in the snow until someone happened along who assisted him to his feet. The eagle in the Hayes and Monette shaft easily handled five men, but one night shortly before the termination of the lease, four men loaded with high grade ore got abroad at the bottom of the shaft and the eagle refused to budge. With the institution of change houses, where the men have to change their working clothes after coming off shift, all this high grading was supposed to have been stopped, but about three weeks ago suspicion was directed against a gang of Italians and their tent shack was searched. A pile of jewelry ore weighing about 950 pounds and valued at over \$25,000 was discovered. This ore was found in a ployment in the Mohawk workings since the end of the strike so they must have made the cleanup within two weeks. How the trick was done is unknown, but it is supposed that the ore was sent on the dumps with the dirt taken out in cleaning out the drifts and carted away by confederates.

"That all of the miners are not yet resigned to the new order of things and are still willing to take a chance was evidenced the day following the close of the strike, when notice was issued by the mine owners that operations would be resumed. All that day there was scarcely standing room around the collar.

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicine greatly enhances its medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry-bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherry-bark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, hemorrhagic, and chronic coughs and bronchitis, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering hang-over coughs, or those of long duration, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine: "It dispels a serious excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best manufactured preservatives. Its action upon fermented, disordered stomachs, especially if there is any gastric or intestinal gastritis, is especially beneficial. It is a most efficient preparation. Glycerine will relieve many cases of proctitis (hemorrhoids) and excessive gastric (stomach) acidity.

of the shaft of the Little Florence lease, which is the only mine from which high grade ore is now being taken, while few calls were made by men looking for work at the places where shaft sinking was in progress and the mining of high grade ore in the future.

BUILDING STONE SCARCE.

Lack of Desirable Material Increases Cost of Foundations.

The stone masons and builders of Negaunee realize that the time is not far distant when all building and other foundations will have to be of concrete, as desirable stone has become very scarce. There is at present a large demand for stone but there is none available for building the Teal Lake bluff or at the bluff near the Teal Lake mine, where the greater part of the supply has been obtained for years past. Practically all of the loose stone has been picked up at both places and in the future it will be necessary to quarry most of the stone used here. This will be a more expensive task than most of the builders would care to undertake, as the stone in both bluffs is hard and difficult to drill.

The cost of masonry work will necessarily increase as a result of the scarcity of material, so that eventually concrete will be used exclusively for foundations of all kinds. Those who have used concrete prefer it to stone, and they believe that it will last longer and will always present a much better appearance. During the past week or ten days a number of foundations for dwellings and other buildings have been started. The contractors have visited places where stone has been procured in years past, and they report that the quality of the rock now available is poor. Much stone has been procured from mine dumps, but these, too, have also been thoroughly picked over, so that there is very little desirable stuff remaining. The increased cost of sorting and hauling the stone has added considerably to the cost of the foundations. The masons, as a rule, favor concrete, as it is easier handled and besides it can be put into foundations more rapidly than stone. The cost of concrete block foundations is now very little greater than those built of stone.

THREE TEAMS TIED.

The Pikers defeated the White Sox in the bowling contest Thursday evening at Orr & Hopkins' alleys, making them a tie for first place with the Wolves and Ravens. The two latter teams were scheduled to bowl last night, but one member of each team was unable to be present and the contest was postponed until some evening of next week. The winner of this match will meet the Pikers. The result of Thursday night's match between the Pikers and White Sox was as follows:

Pikers	153	159	202	514
Johnson	119	173	456	
Hopper	116	95	121	343
Totals	433	374	496	1313
White Sox				
Bergland	146	137	136	419
Holquist	159	143	105	400
Wentala	124	167	98	329
Totals	429	389	339	1148

BURNING PAPER.

Street Commissioner Willman says that unless the business men and others who burn their waste paper in the streets are more careful the privilege will be denied. Many times, he says, fully 50 per cent of the paper is allowed to blow about the streets. Some of the merchants use stoves, but Mr. Willman has observed that frequently much of the paper goes to the street instead of to the stack. House occupants in the districts already cleaned are also asked to use care in the disposition of waste paper. Parties dumping garbage in the alleys will have to have it carted away.

KILLED IN COAL MINE.

The officers of the Negaunee Italian society have been advised of the death of one of its members, Mark Chari, who was employed at a mine in Frontenac, Kan. Chari was working as a shot-firer on a coal mine and was severely injured by a blast. He was twenty-seven years of age and his survivors by his widow and one child. The deceased formerly lived here.

MY BEST FRIEND.

Alexander Benton, who lives on Rural Route 1, Fort Edward, N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma six years ago. It has also performed a wonderful cure of incipient consumption on my son's wife. The first bottle ended the terrible cough, and this accomplished, the other symptoms left one by one, until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous." No other remedy has ever equalled it. Fully guaranteed by The Stafford Drug Co., 50c and \$1.00. Trial bottle free.

HEALTHY HAIR FOR ALL

BY USING

NEWBRO'S HERPICIDE

It is now possible for everyone to have healthy and rich looking hair, by using Newbro's Herpicide, the ORIGINAL remedy that "kills the dandruff germ."

The presence of the dandruff germ in the scalp causes first, dull, brittle and lusterless hair, with later, dandruff, itching scalp and falling hair.

All of these disagreeable symptoms will disappear, and the hair grow as nature intended, if the dandruff germ is destroyed and kept out of the scalp. Don't wait for chronic baldness for it is insurable. Herpicide stops itching of the scalp, almost instantly.

"I cannot speak too highly of Newbro's Herpicide, it keeps my hair and scalp in excellent condition."

MUNISING

WON FROM NEGAUNEE.

Munising High School Team Victors in an Eleven Inning Ball Game.

Last Saturday afternoon the fans who traveled out to Sandy Hook field saw a very lively exhibition of the great national game. It was the first outside game for the Munising High school players, but they soon warmed up to the occasion and made a good showing, winning the game in eleven innings by a score of 4 to 3.

Captain Vandien, who pitched for the locals, was in fine form. He had the visitors at his mercy at all times. In fact not one of the three tallies which the Negaunee players were credited with were earned runs, but were secured through a combination of errors on the part of Olsson at second and Brissette at short.

Negaunee used two pitchers, who were touched up rather freely, but the hits were kept pretty well scattered. Sporley, who started the game, was relieved by Roberts after the score had been tied by Munising in the fifth. Roberts was rather generous with passes, issuing several, the one given out in the eleventh inning costing him the game. Chambers played a good game at the initial sack, accepting every chance without an error, some were difficult ones too. Drolot in left field, for the locals, made a pretty catch.

Hosmer playing right field for Negaunee did some very clever work. Beside pulling off several catches which counted, he fielded one to catch a runner at first. He also scored two of the three scores made by his team. A return game will be played at Negaunee June 1.

"SHE STOOPS TO CONQUER."

"She Stoops to Conquer" by local talent drew a large and enthusiastic audience.

MUNISING

At a recent meeting of the council it was decided to revive the old curfew law and enforce it. Every night at 8 o'clock the fire bell tolls, a signal for all boys and girls to get off the streets.

MISS TEKLA FARM COMING.

The music lovers of Munising will have an opportunity of hearing Miss Tekla Farm sing, under the auspices of the ladies of the First M. E. church, at a concert at the opera house Thursday evening, May 29. Miss Farm has a voice of rich, superior quality. Her tones are clear and her personality pleasing. The program has not been definitely arranged but local talent will assist.

MUNISING ECHOES.

Rev. H. E. Shier was a Marquette visitor Wednesday.

Ground was broken this week for the residence of Mrs. Elizabeth Lobb on the corner of Lynn and Onota streets.

O. M. Day, teacher of schools at Seney, was the guest of Superintendent O. La Bounty Saturday and Sunday.

Thursday afternoon the ladies of the church will hold a sale in the opera house. It will be a spring sale, at which aprons and sunbonnets, also, of baked goods.

At a recent meeting of the council it was decided to revive the old curfew law and enforce it. Every night at 8 o'clock the fire bell tolls, a signal for all boys and girls to get off the streets.

Two long stretches of cement walks are being built on the north side of Main street, in the business portion of the city. The old board walks were becoming defective. As the walks were built up about six feet it is necessary to fill with field stone.

Moses Rossiter was arrested Wednesday by Constable Thompson on a charge of cruelty to animals. It appears that he does not properly feed. The animal is reported to be nearly starving. Several warrants of a similar nature are to follow.

Dr. G. A. Trueman's dog met with an unfortunate accident the other day. The canine was running with the team on one of the morning drives, and while rounding a corner on Main street was barking at the heads of the horses. The next instant it was caught by a wheel of the carriage and as a result will spend the rest of its days tailless.

Mrs. J. C. Dougherty, who died at St. Mary's hospital, Marquette, late Wednesday afternoon, was operated upon for a cancer Tuesday evening. Since an operation was undergone about a month ago she had been failing and her death expected. Mrs. Dougherty was well.

known here, having lived here many years. She was an earnest steadfast worker in the Presbyterian society. The remains were taken to Negaunee for burial. She leaves a husband, a daughter and one son, who resides in Negaunee, where he is editor of the Negaunee Iron Herald.

A disturbance was created last Sunday afternoon by an intoxicated man. He first appeared on Main street, evidently having been put out of a saloon. He appeared to be demented, as he paraded up and down the street insulting every one with whom he came in contact with his vile oaths. He kept this up until Constable Dewey arrested him, Blake Thompson assisted Dewey, and they started with the man toward the county jail. Before they had gone far he began to put up a vigorous fight. A crowd soon gathered and he was finally carried bodily to the jail. He was arraigned Monday morning and fined \$25 and costs. The justice taxed him the costs, leaving the suspended fine over his head, with the understanding that it would be required the first time he was caught taking a drink, of any kind of liquor. The man has a family.

WONDERFUL ECZEMA CURE.

"Our little boy had eczema for five years," writes N. A. Adams, Henrietta, Pa. "Two of our home doctors said the case was hopeless, his lungs being affected. We then employed other doctors, but no benefit resulted. By chance we read about Electric Bitters; bought a bottle and soon noticed improvement. We continued this medicine until several bottles were used, when our boy was completely cured." Best of all blood medicines and truly building health tonic. Guaranteed at The Stafford Drug Co. 50c.

Let me tell you free, to prove merit, samples of my Dr. Shoop's Restorative, and my book on either Dyspepsia, The Heart, or the Kidneys. Address me, Dr. Shoop, Racine, Wis. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for floating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free book now. Dr. Shoop's Restorative sold by The Stafford Drug Co.

Orino Laxative Fruit Syrup is best for women and children. Its mild action and pleasant taste makes it preferable to violent purgatives, such as pills, tablets, etc. Get the booklet and a sample of Orino at The Stafford Drug Co.

SHRINER DELEGATE HOME FROM WEST

F. M. MOORE RETURNS AFTER EXTENSIVE TRIP TO THE WESTERN COAST.

LOS ANGELES A FINE CITY

Shriners Wined and Dined With Prodigious Hospitality—Lucky Baldwin's Ranch and Other Points of Interest Visited.

Francis M. Moore, who left here April 25 as one of the delegates to the Shriners' convention at Los Angeles, arrived home yesterday morning. The delegates from Ahmed Temple were F. M. Moore and F. H. Gooding of this city; James T. Fisher, of Laurium, and Clarence H. Adams, of the Canadian Soo.

Mr. Moore, who is the first of the party to return, is enthusiastic not only over the treatment accorded the visitors by the people of Los Angeles, but concerning the future of the west. He said yesterday that though he had traveled considerably he never before realized so clearly the greatness of the country in which he lived. Leaving here on the evening of Thursday, April 23, and going west over the Atchison, Topeka & Santa Fe, he arrived at the Grand Canyon of the Colorado in Arizona, Monday morning, April 29, where he spent thirty-six hours. Concerning the canyon Mr. Moore said that he had a fellow feeling for the Irishman who said that there was only one word in which to express his sentiments, and he had forgotten that word. He considered it, he said, one of the greatest, if not the greatest, natural wonders in the world. Americans had no right, he thought, to tour Europe until they had seen the grand canyon and other of Nature's wonders of their own country. The canyon is thirteen miles across and 3,000 feet in depth.

Los Angeles a Great City. Los Angeles he describes as one of the finest cities he has ever visited. Though the town was in gala attire for the Shriners it was easy to see that it was pre-eminently a business city, and while its growth within the past few years had been remarkable, yet more rapid development is looked for in the future. Its citizens, Mr. Moore said, were of the type that bring cities to the front. He found them public spirited, hospitable and imbued with indomitable energy. At many conventions the complaint has been made that visitors were held up in the matter of expense. At Los Angeles the accommodations were ample and the rates very reasonable. The town had realized that the entertainment of thousands of visitors was a big undertaking and had made ample preparation. The weather was delightful, the days being warm, while in the night a cool wind from the sea made sleep a pleasure. Mr. Moore believes that San Pedro, twenty-seven miles from Los Angeles, has a

great future and is bound to become one of the great metropolises of the coast. This city has an excellent harbor and is the port of entry for practically all of Southern California, a country that is developing with marvelous rapidity.

Feted and Dined.

Mr. Moore arrived in Los Angeles on May 1, though the convention did not open until May 7. Monday, May 6, the Los Angeles Shriners gave the visiting representatives and their ladies a trip to Santa Catalina Island, twenty-seven miles off the coast. Thursday, May 8, the visitors were entertained at a dinner at Long Beach. Friday there was a ball at Ocean View. Saturday a trip was made to Lucky Baldwin's ranch, where the guests met the famous horseman whose colors have flashed first on all the big tracks and in every classic event on the American turf. Baldwin is now completing a track at his ranch that will cost many thousands of dollars. At the Baldwin ranch the visitors were given a barbecue.

Before returning home Mr. Moore paid a visit to San Francisco. He is of the opinion that it will take the city a long time to recover from the effects of the earthquake. Rome, he said, wasn't built in a day, and neither would be San Francisco.

MAY INCREASE SALARIES.

Bill Paves Way for Better Pay in Prisons. It is likely that the salaries of guards and keepers at the Marquette prison will be shortly increased better than 10 per cent. A bill providing for better salaries for prison employes recently passed both houses. It has been signed by the governor and has been made a law. It permits the boards of control of the different institutions to grant advances, within certain limits, and it will be generally taken advantage of by the state to give the prison employes more money. The board of control for the Marquette prison has not taken cognizance of the matter officially, but will likely do so at its next session, and will not improbably grant the guards and keepers a hundred dollars a year increase. The present rates of pay at the prison are \$700 for guards and \$800 for keepers. These rates are the same as paid in the lower peninsula, although living costs are higher here.

Gordon Bill Up to Governor.

Yesterday morning The Mining Journal's Lansing dispatches mentioned the fact that the Gordon bill for the restriction of the number of saloons in Marquette had passed the senate. It had previously passed the house, so is now in the hands of the governor. Representative Gordon put it through the house under suspension of the rules, and is said to be confident that it will be signed by Governor Warner. Some protests against allowing the bill to be made a law have been sent the governor, and it is said that some endorsements of it have already gone in.

MEMORIAL DAY SERVICE.

The following will be the order of worship at the Methodist church tomorrow morning, at which time the G. A. R. and Spanish War Veterans will attend service in a body:

SUNDAY AT THE CHURCHES.

Baptist, Rev. C. H. Maxson, pastor—Sunday school 12 m.; Young People's meeting, 6:30.
First Church of Christ, Scientist—Service Sunday 10:30 a. m. Subject, "Ancient and Modern Necromancy or Mesmerism and Hypnotism." Felix Hall, Opera House block.
Presbyterian—Morning subject, "The Best Friend;" evening topic, "The Living Redeemer." This latter sermon is the third of the series on the general theme, "The New Life."

WE ARE

The only people in Marquette county who manufacture practically everything needed for a building. Buy of the makers and keep your money at home. Consolidated Fuel & Lumber company.

THE FURS ARE HERE.

They Are Fine Goods from the Nicolai Company, Milwaukee.

It is reasonably safe to predicate judgment as to prospective business upon what has previously been done in the same region, with the same goods, by the same business houses, or its representative. This is why enthusiastic practical receptions are expected, as matters of course, for Mrs. Laura Oldenburg, the representative of the Nicolai company, the old and reliable fur house, who has been doing a great business in the Lake Superior region this spring. Mrs. Oldenburg is now in Marquette, and will remain here until Monday. During her stay she will offer to our ladies some of the finest furs that have ever been displayed in this section, including Russian sable, fine natural mink, black lynx, lap mink, mink muffs and scarfs, etc., also beautiful seal, Persian lamb, Labrador otter, beaver, squirrel, black Russian pony and river mink coats and blouses. Those who admire fine fur goods should not miss this opportunity to see and to purchase. They will never find more elegant goods from which to make a choice. (5-25-1d)

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time. The Stafford Drug Co.

LOGGER MEETS TRAGIC DEATH

OLIVIER SAVOIE, OF BIRCH, KILLED BY ENGINE AT FRONT AND BARAGA CROSSING.

MAN HIMSELF AT FAULT

Coroner's Jury Places Responsibility on Victim After Hearing Testimony—Had Lived in Michigan Forty Years.

Olivier Savoie, logger, aged fifty-six years, met a tragic death yesterday afternoon at 3:45 o'clock when he was struck and literally ground to pieces by switch engine No. 38 at the front street and Baraga avenue crossing of the South Shore tracks. A dock engine had just taken a string of empties east to dock No. 1 on the north track and was returning. Savoie was watching this engine while attempting to cross the street when he was struck by No. 38 going east on the south track. The man's body was jerked beneath the wheels in the fraction of a second and death was instantaneous. The remains were taken to the Tomella & Johnson undertaking establishment.

Savoie came to the upper peninsula from Hull, Ontario, twenty years ago. He was a widower and has a son of twenty-four and a daughter of twenty-two living at Au Sable. For the past two years he has been employed at Camp No. 2 of the Northern Lumber company at Birch. He came to this city Thursday to secure medical treatment for a crushed hand. Just prior to the accident he stood on the northwest corner of the crossing in company with Henry Gardner, also an employe of the Northern Lumber company, and asked the latter to take a drink. Gardner refused and Savoie then started across. He ran at first evidently hastening to clear the engine that was approaching from the east, and then slowed down. It was at this moment that he was struck by the engine coming from the opposite direction. The accident was witnessed by a score of people.

Was Second Fatality. Louis Bureau, flagman at the crossing, stated subsequent to the accident, that he had been on duty there for thirty-three years and that Savoie was the second man to be killed there. He said that he shouted at the man as he started across but that the latter paid no heed. He was too far away for him to restrain him by force. He could not state positively whether the man was under the influence of intoxicants or not. Coroner Cray upon being notified at once impelled a jury consisting of Messrs. H. L. Siegel, J. I. Johnson, W. McLean, Eugene LaRebelle, Silas J. Patenaude and James H. Bennett. After viewing the body an adjournment was taken to 7:30 o'clock. Upon the convening of the inquest Henry Gardner, Jacob H. Brown and

Louis Bureau, eye witnesses, gave the details of the accident. Their stories differed only in minor details. Con Harrington, engineer of the engine which struck Savoie, said that he did not see the man at all until subsequent to the tragedy. His engine suddenly lifted up and he then knew that something was wrong and applied the air brake. When he had brought the engine to a stop and got off he saw the body of a man under the wheels. He was running about six miles an hour at the time. Garret Austin, fireman, said that he saw the man starting to cross the track. He was running at first and had continued at the same gait would have easily got across in safety. However, just as he got in front of the engine he stopped suddenly and was struck. The fireman was watching the engine to the south. Austin said that he rang the bell long before the crossing was reached. The engine was running about five or six miles an hour. He had called to the engineer that there was a man on the track and the latter had applied the air brakes. The engine had moved only a short distance after Savoie had been struck.

FINE MUSICAL RECITAL.

The senior pupils of Mlle. Olivier gave a most delightful recital at the studio last evening. Not every fine musician is a good teacher, but Mlle. Olivier possesses the faculty of being able to impart her knowledge in a marked degree. Her pupils not only show exceptional technique but remarkable powers of interpretation. The program was as follows: Le Matin (morning), 2 pianos. Chamade Miss E. Kraft, Miss A. Van Evers. Wedding March—2 pianos, 8 hands. Mendelssohn Miss V. Fraser, Miss G. Mason, Miss A. Field, Mr. B. Pendill. Gavotte. Miss H. Withey. Liebling Lieblules. Miss Ruth Case. Chamade Le Soir (evening), 2 pianos. Chamade Miss R. Williams, Miss V. Mathews. The Erlking. Miss C. Hicks. Schubert-Liszt. Overture of William Tell. Rossini Miss R. Case, Miss R. Brotherton, Miss E. Young, Miss H. Withey. Grieg Sonata, Op. 7. Miss V. Mathews. Rachmanninoff Prelude du Chaudron. Rachmanninoff Cascade du Chaudron. Bendel Miss M. Barnes. Chopin Impromptu. Miss M. Conklin. Creole Days. Harry Rowe Shelley Miss Conklin, Miss Barnes.

DIDN'T MEAN TO STAB HIS FRIEND

SALA LAHTI MAKES EXPLANATIONS—IS DISCHARGED UPON THE PAYMENT OF A FINE OF \$25 AND COSTS.

Sala Lahti, arrested on the suspicion of having stabbed Andrew Hapala in the back Wednesday night, pleaded guilty to the charge of assault and battery before Justice Byrne yesterday morning and paid a fine of \$25 and costs. That Lahti got off so easily was due to Hapala. When he found that his injuries were far from serious he remembered that Lahti had once been his very good friend. When he appeared in court a tear as large as a Lima bean quivered on the end of his nose while he explained, through an interpreter, to a sympathizing audience that Lahti had once lent him a dollar and he hated to see him go to jail. Justice Byrne did not see his way clear to allow the defendant to go free altogether, but consented to accept a plea of assault and battery.

Lahti's explanation of how he had come to assault Hapala was unique, to say the least. He said that they had had no quarrel so he didn't attempt to kill him. He shoved his fingers well down the blade of his knife so that it wouldn't go in very far and then slit Hapala across the back. He made only one stroke, he said, and the reason that there were two cuts in Hapala's back was that the knife jumped in his hand when it struck a bump in Hapala's suspenders.

When Lahti had paid his fine and was told that he could go, he and Hapala embraced, and left the court room arm in arm.

MET BY MARSHAL.

John Paquette Re-Arrested at Prison Gates Yesterday.

John Paquette, who hailed from Houghton county, was discharged from the Marquette prison yesterday and a few hours later was put on the road for another term in that institution. His case is not without unusual features. He was sent from Houghton county, Jan. 24, 1902, for larceny. He earned good time and about five weeks before his sentence was completed was made a trusty, and put at work at the front of the prison. Notwithstanding that he had little more than a month to serve to get entirely quit of the law, he took French leave, Jan. 4, 1904, and got safely away, first clothing himself in a new suit of clothes belonging to Robert Crackle, one of the guards, and also helping himself to an overcoat. Paquette was returned to the prison Dec. 2, 1906, having been identified while being held in jail for a minor offense.

The man was given warning that he had to make overtime to pay for the clothes he had stolen, or he would be re-arrested on the expiration of his sentence. But despite the fact that he was capable of earning extra money, he steadfastly refused to do so. One month he made eight dollars, but divided it among his convict friends. The complaint on which he was taken yesterday was sworn to by Robert Crackle, the guard from whom he stole the clothes. Paquette was taken up town before Judge Byrne and pleaded guilty, being bound over to circuit court. He is held in the county jail awaiting sentence. He will get another trip across the bay.

If there's one hobby we ride well it is the fit of our clothes. No clothes fit like ours, is our boast, and we make good in every suit we sell. Put our Spring Suits to the test of a try-on, and you'll come out on top in style and service as well as fit. There's no obligation to buy because you try.

Intrinsic worth in style and working—two distinctive points of superiority in our footwear lines have never been so successfully combined in making every pair out of the dozens of beautiful and attractive styles in our present display an unequalled value. \$3.50 and \$4.00 grades, made over same lasts as our \$5.00 and \$5.50 lines.
