

President Is Firm For Federal Regulation

SPEAKING AT INDIANAPOLIS, HE ASSERTS THERE CAN BE NO HALT IN THE POLICY OF CONTROLLING THE BUSINESS USE OF WEALTH.

DISCLAIMING ANY PUNITIVE OR VINDICTIVE PURPOSE, AND WARNING AGAINST ANY FORM OF CONFISCATION, YET INSISTING UPON THE PREVENTION OF OVER-CAPITALIZATION AND OTHER EVILS EQUALLY AS NOTORIOUS, HE DECLARES THAT FULL AND EFFECTIVE SUPERVISION OVER COMMON CARRIERS, JUST AS IN THE CASE OF NATIONAL BANKS, MUST BE VESTED IN THE GENERAL GOVERNMENT.

Indianapolis, May 30.—President Roosevelt today delivered the principal address at the unveiling of the monument to General Henry W. Lawton. His speech was devoted to a discussion of railway problems.

The president arrived at 10:48 a. m. from Canton, Ohio, accompanied by Vice President Fairbanks, and was driven to the Fairbanks home, where luncheon was served, after which he was escorted to the court house square by three battalions and a battery of United States troops and companies of the Grand Army and other organizations. The parade route of two miles was lined with a cheering mass of people.

Fairbanks Voices People's Thanks. Following the ceremonies, Vice President Fairbanks addressed the crowd briefly. He said: "Fellow citizens, I can say but a word. I wish to express to the president of the United States, to whom I know in the hearts of all you, and that is thanks for the admirable address he has just delivered here. He came into the state this morning greeted by thousands at the state line. From Union City until he reached Indianapolis he was met with the loud acclaim of our citizens. As he leaves us tonight after this crowning event of an eventful day, he will carry with him the assurance that the great citizenship of Indiana is loyal to the memory of those who made illustrious the years from 1812 to 1865 and that the people of Indiana are for cleanliness in politics and honesty in public life."

At the conclusion of the exercises the president and vice president were driven to Crown Hill cemetery, where the president passed the night on his car. Stops were made at Anderson and Muncie. Tomorrow the president will make an address at Lansing, Mich. In his speech here today, the president said:

Eulogizes Civil War Heroes. For more than one reason I am peculiarly glad that this year I speak on Memorial Day in the state of Indiana. There is no other class of our citizens to whom we owe so much as to the veterans of the great war. To them it was given to perform the one feat with which no other feat can be compared, for to them it was given to preserve the Union.

Moreover, you men who were the blue, blue and the victors in any other war of recent times, have left to your countrymen more than the material results of the triumph, more even than the achieving the triumph itself. You have left a country so genuinely reunited that all of us now, in whatever part of this Union we live, have a right to feel the keenest pride, not only in the valor and self-devotion of you, the gallant men who wore the blue, but also in the valor and self-devotion of your gallant opponents who wore the gray.

Present Day Problems. "The men of the generation which fought the Civil War had their great task to perform. Our duties are those of peace and not of war. Nevertheless, they are of the utmost importance. Great social and industrial problems confront us, and their solution demands on our part unflinching courage, and yet a wise, good-natured self-restraint; so that on the one hand we shall neither be daunted by difficulties nor fooled by those who would seek to persuade us that the difficulties are insuperable; while on the other hand we are not misled into showing either rashness or vindictiveness.

"One great problem that we have before us is to preserve the rights of property; and these can only be preserved if we remember that they are in less jeopardy from the socialist and the anarchist than from the predatory man of wealth. The power of the nation must be exerted to stop crimes of cunning no less than crimes of violence. There can be no halt in the course we have deliberately elected to pursue, the policy of asserting the right of the nation, so far as it has the power, to supervise and control the

business use of wealth, especially in its corporate form.

Control of Common Carriers. "Today I wish to say a word to you about the first and most important feature of this task, the control of the common carriers doing an interstate business, a control absolutely vested in the nation while in so far as the common carriers also transport the mails it is in my opinion probable that whether their business is or is not interstate it is to the same extent subject to federal control, under that clause of the Constitution granting to the national government power to establish post roads and therefore by necessary implication power to take all action necessary in order to keep them at the highest point of efficiency.

"There can be no swerving from the course that has thus been mapped out in the legislation actually enacted and in the messages in which I have asked for further legislation. We best serve the interests of the honest railway men when we announce that we will follow out precisely this course. It is the course of real, of ultimate conservatism. There will be no halt in the forward movement toward a full development of this policy; and those who wish us to take a step backward or to stand still, if their wishes were realized, would find that they had invited an outbreak of the very radicalism they fear. They must be progressive legislative and administrative action for the correction of the evils which every sincere man must admit to have existed in railroad management in the past.

Full Supervision Imperative. "Such additional legislation as that for which I have asked in the past, and especially that for which I asked in my message at the opening of the last session of congress, is not merely in the interest of the public, but more emphatically in the interest of every honest railway manager and of all investors or would-be investors in railway securities. There must be vested in the federal government a full power of supervision and control over the railways doing interstate business; a power in many respects analogous to that which we have in the government exercises over the national banks.

"It must possess the power to exercise supervision over the future issuance of stocks and bonds, either through direct incorporation (which I should prefer) or in some similar fashion, such supervision to include the frank publicity of everything which would be investors and the public at large have a right to know. The federal government must be empowered to acquire, control and operate the railways, to prevent any man hereafter from plundering others by loading railway properties with obligations and pocketing the money instead of spending it in improvements and in legitimate corporate purposes; and any man setting up such a fashion should be held to a criminal accountability.

World Patent Traffic Agreements. "Railroads should not be prohibited from acquiring connecting lines, by acquiring stocks, bonds, or other securities of such lines; but it is already well settled as contrary to public policy to allow railroads to acquire control over parallel and competing lines of transportation. Subject to first giving to the government the power of supervision and control which I have advocated above, the law should be amended so that railroads may be permitted to acquire and operate traffic agreements when these are in the interest of the general public as well as of the railroad corporations making them. These agreements should of course be made public in the minutest detail, and should be subject to securing the previous assent of the interstate commerce commission.

"The movement to regulate railways by law has come to stay. The people of this country have made up their minds—and wisely made up their minds—to exercise a closer control over all kinds of public-service corporations, including railroads. Every honestly managed railway will gain and not lose by the policy. The men more anxious to manipulate stocks than to make the management of their roads efficient and honest are the only ones who have cause to oppose it.

Not Punitive or Vindictive. "We seek nothing revolutionary. The purpose of those of us who so resolutely believe in the new policy, in its thorough carrying out and in its progressive development, is in no sense punitive or vindictive. We would be the first to protest against any form of confiscation of property, and whether we protested or not, I may add that the supreme court could be trusted in any event to see that there should be nothing done under the guise of regulating roads to destroy property without just compensation or without due process of law.

"As a matter of course, we shall punish any criminal whom we can convict under the law; but we have no intention of confounding the innocent many and the guilty few. "As a matter of course, we shall punish any criminal whom we can convict under the law; but we have no intention of confounding the innocent many and the guilty few. "As a matter of course, we shall punish any criminal whom we can convict under the law; but we have no intention of confounding the innocent many and the guilty few.

CHRONICLE QUITS.

Chicago Morning Newspaper Owned by John R. Walsh Suspends Publication—Unprofitable for a Long Time Past.

Chicago, Friday, May 31.—The Chronicle this morning announces that it will cease publication with this issue, owing to the fact that the paper has been unprofitable for some time. The official notice, signed by Editor H. W. Seymour, is as follows: "As it has not been profitable of late, the publication of the Chronicle will be suspended with this issue. All liabilities of the Chicago Chronicle company will be met as usual in the regular course."

The Chronicle began publication on May 28, 1895, as the only Democratic morning paper then in Chicago. John R. Walsh, one of the chief owners and formerly president of the Chicago National bank, refused the support of his paper to Wm. J. Bryan during Bryan's candidacy for president, and during the last national campaign the Chronicle came out as a Republican paper. The last issue of the Chronicle was No. 4, of volume 13.

HALE'S CONDITION EXCELLENT.

Baltimore, May 30.—His physician states that Senator Hale's general health is excellent, and that within twenty-four hours after the operation was performed at the hospital the patient was being given the air in a wheel chair and had returned to his usual diet.

STATE CAPITAL IN GALA ATTIRE

THOUSANDS OF VISITORS FLOCKING TO THE CITY TO GREET THE NATION'S CHIEF.

Lansing, Mich., May 30.—[Special.]—Teddy bears, Teddy sticks, Teddy pins, and Teddy trash of several other sorts, together with miles of bunting, line Lansing's streets today. "Teddy" will be along tomorrow. So will some ten or twelve thousand other citizens, and it will be a big day in Lansing; in fact, it has been a succession of big days all week, for the fiftieth anniversary of the Agricultural college has been celebrated and there have been big doings.

Today Ray Stannard Baker, the "muckraker," spoke on "The Insulation of Wealth," before the alumni. Mr. Baker made the point that it was too difficult nowadays to separate wealth from his insulation, and he urged that the education of the future should be along the lines of teaching how to spend money for the benefit of the people rather than in devising new ways to make it. He showed that the era when it was hard to make money had passed, and that the time when money was hard to come by had passed. He said that money was distributed was fast approaching. Congressman Gardner gave the Memorial Day address.

President Roosevelt will give a reception in the executive offices to the members of the Legislature, who will arrive here at 10:25 p. m. A stopover was made on the journey at this point, and the journey to Lansing will be resumed at 5:30 o'clock tomorrow morning.

Advices from Lansing are that everything is in readiness here for the visit tomorrow of President Roosevelt, which will be the climax to the semi-centennial celebration of the founding of the Michigan Agricultural college. The president will arrive there on a special train over the Michigan Naval reserve, he will proceed first to the state capitol, where he will make an address from the front balcony. After luncheon at the home of President Snyder, of the Agricultural college, Mr. Roosevelt will make an address on the college campus.

KILLED BY BLOW FROM AN AXE

GIANT ITALIAN, LONG FEARED BY COUNTRYMEN IN NEW YORK, IS SLAIN BY COMPATRIOT.

New York, May 30.—"Jumbo" Giordano, long known and feared among Italians as a man of supernatural strength, was killed by a blow from an axe in the hands of a compatriot tonight. Giordano forced himself into a game, and it failed to go the giant's way. Giordano seized the leader by the throat. In another moment the axe descended upon his head, and he lay dead upon the floor.

Bloody Duel at Philadelphia. Philadelphia, May 30.—Augustine Celesti, aged twenty-two, shot and killed Giacomo Maronia, aged thirty, and Vincenzo Costa, aged thirty-seven, was fatally wounded in a pistol duel in which the injured men were engaged here tonight. The shooting was the outcome of a quarrel over a girl, with whom each was enamored.

"LORD" BARRINGTON TO HANG. Jefferson City, Mo., May 30.—The supreme court this afternoon decreed that "Lord" Barrington, now in jail at Clayton, Mo., be hanged July 25 for the murder of J. P. McCann, a St. Louis horseman.

SLAUGHTER IN ST. LOUIS.

St. Louis, May 30.—A slaughter of trolley cars and passengers occurred here tonight. A trolley car, carrying about 100 passengers, was struck by a street car, causing a collision that resulted in the death of one person and the injury of several others.

RIGHTFUL WRECK.

Trolley Cars Collide at Elyria, Ohio—Four Persons Are Killed and Eight Others Lose Either One or Both Legs.

Elyria, O., May 30.—Crowded with holiday passengers, a Cleveland and Southwestern trolley car, running from Wellington to Cleveland, was crashed into tonight by another car. Two persons were killed outright, two others died shortly afterward, and eleven passengers were seriously injured. The dead were: E. O'Donnell, H. M. Billings, W. C. Allen and William Sala. Of the injured, each of the following had either one or both legs cut off: Miss Emma Wurst, Miss Mabel Dean, Louis Perry, Margaret Muller, Homer Allen, Miss Fulton, Miss Suppes and Charles Porter.

MONSTER EUCHRE PARTY.

7,500 Persons Play Cards for Benefit of Brooklyn Church. New York, May 30.—What probably was the greatest euchre party ever held in this country was engineered here tonight on the pier "Dreamland," at Coney Island. The astonishing number of 7,500 men and women clustered about the cards. Rev. John L. Belford, of the Church of Nativity, Brooklyn, was in charge. The party was given in aid of the church.

CANTON PLANS SECOND MT. VERNON

PROPOSITION IS DISCUSSED PRESERVING INTACT THE HOME OF THE MCKINLEYS.

Canton, O., May 30.—Canton citizens today discussed methods of preserving the McKinley home intact. The idea is to make a second Mt. Vernon, with the furniture and gifts and paintings and statuary of the McKinleys may be preserved, as have those of the Washingtons at the famous American Museum. Only tentative methods have been discussed, but there is indication that a definite movement to keep the McKinley home and its contents at the home life of the departed president and wife, and a place where pilgrims will gather, may take shape soon. The city may purchase the property or it may be a gift from relatives and friends.

For the first time since the burial of the McKinley children, their graves were decorated by other hands than those of their mother. The little mounds had each placed on them a dozen carnations. On the graves of the father and mother of President McKinley, near by, were also laid simple floral tributes. More than thirty thousand persons viewed the floral pieces arranged in front of the vault in West Lawn cemetery which now holds the caskets of both President McKinley and his wife.

PETER PAN TAKES RICH PURSE.

New York, May 30.—Peter Pan, the sturdy son of the great Comodoro, defeated his half-brother Superman by three lengths for the rich Belmont stakes at Belmont Park today. Both horses ran in the colors of James R. Keene, and their success brought to his stable \$23,000 and the handsome plate that each year is given to the winner. Frank Gill, the big chestnut colt from the string of "Lucky Jack" McGinnis, was third. It is estimated that 40,000 persons saw the race. The Keene stable was the favorite in the betting. Summary: Fifth race, the Belmont stakes, \$25,000, one mile and three furlongs—Peter Pan, 7 to 1; won; Superman, 7 to 10, second; Frank Gill, 2 to 1, third. Time, 2:15 1/2. The first two horses were coupled in the betting.

IRVINGTON-MILBURN BICYCLE ROAD RACE.

Hilton, N. J., May 30.—W. A. Heer, of the National Turnverein, of Newark, won the nineteenth annual twenty-five-mile Irvington-Milburn bicycle road race today in one hour, fourteen minutes and seventeen seconds. The winner had a handicap of six minutes.

WRIST BROKEN, MARVIN HART LOSES

SECONDS THROW UP THE SPONGE IN 21ST, AND SCHRECK IS DECLARED THE WINNER.

Tomahawk, Nev., May 30.—After a hard fight, the seconds of Marvin Hart this afternoon threw up the sponge in the twenty-first round, and Mike Schreck was declared the winner. Hart broke his right wrist in his fight with Gardner, and three days ago, it is claimed, he broke it again while training. The member went back on him after the sixth round today, but he fought like a demon until in sheer mercy his seconds threw up the sponge. Hart was the aggressor nearly all through, and in the eighteenth round came near putting Schreck away. The eighteenth, nineteenth and twentieth rounds were fierce. There was not so much science as there was slugging, and the men fought each other all over the ring. In the twentieth only the gong saved Hart from the terrific onslaught of Schreck. In the middle of the twenty-first the sponge was thrown up, much to the surprise of everybody.

Gotch Out-Wrestles Rooney. Kansas City, Mo., May 30.—Frank Gotch tonight defeated John Rooney of Chicago in a catch-as-catch-can wrestling match, winning the first fall in eight minutes, and the second in sixteen.

Nation Pays Tribute to Fallen Defenders

BUSINESS IS SUSPENDED THROUGHOUT THE LAND WHILE PEOPLE OF ALL CLASSES PERPETUATE THE MEMORY OF THE HOSTS OF HEROIC DEAD.

NOTABLE EXERCISES ARE HELD, AND IN GENERAL THE DAY IS OBSERVED ON A MORE ELABORATE SCALE THAN USUAL—VETERANS WHO PARADE IN HONOR OF COMRADES TO WHOM HAS COME THE FINAL CALL MAKE A PATHETIC APPEARANCE IN THEIR NOTICEABLY LESSENED NUMBERS FROM A YEAR AGO, AND IN MANY INSTANCES RANKS ARE SADLY DEPLETED BEFORE THE ROUTE IS COVERED.

Washington, May 30.—Memorial Day was observed in the national capital on a more elaborate scale than usual. Indeed, this was the case throughout the country. Business generally was suspended. In Washington, people of all classes united in perpetuating the memory of the thousands of heroic dead in the eight national cemeteries in the vicinity of the city. Thousands of persons made the annual pilgrimage to Arlington.

"Corporal" James Tanner was the orator of the day there. James M. Dalsell of Ohio delivered the oration at St. Elizabeth's cemetery. Appropriate exercises were held at all the cemeteries. Everywhere in the land veterans of the Grand Army marched in parade in honor of their dead comrades, and in many cases the lines of blue that passed before the reviewing officers were noticeably less in numbers since the parades last year. Some of the posts for the first time since Memorial Day parades began had no marchers on foot today. Many of the veterans dropped before half the route was ended.

In New York city three posts passed before General Howard in the reviewing stand at the soldiers and sailors' monument with a single member on foot. Here, General George B. Loud delivered an address at the monument after the parade had passed, and there was chorus singing of hymns and national airs before the higher sounded "taps."

At Chicago, memorial exercises in honor of the nation's dead were held at all the cemeteries. Flowers and flags were placed on the graves of four thousand soldiers of the Union and those who fought for the cause of the Confederacy. General Baron Kuroki placed an address at the monument after the parade had passed, and there was chorus singing of hymns and national airs before the higher sounded "taps."

A novel ceremony was carried out at St. Louis. Cheered by thousands of spectators, flower-covered models of the Monitor were launched on the Mississippi in memory of the naval heroes whose remains sink beneath the waves of the river battles during the Civil war.

FOUGHT IN SACRED CAUSE.

No Reward to Great for Old Soldiers, Is Sentiment of Taft.

St. Louis, May 30.—Secretary of War Taft this afternoon addressed the Millers' National Federation convention, saying in part: "It is a beautiful custom to decorate the graves of those who died in war for their country. They died for us, and we brought to a contemplation of those heroes in our history in which countrymen of ours numbered by the hundreds of thousands, solely from a sense of duty, and with all that the nation might live. Greater love hath no man than this: that a man lay down his life for his friends."

"As one walks through the beautiful alleys and avenues of the city of the dead, which lies opposite to Washington, in Arlington, and contemplates the resting place of the unknown dead, one's heart rises in his throat, the tears come to his eyes, and his bosom thrills with ecstatic elevation at the thought of the heroism and sacrifice of those who, without a murmur and without hope of personal credit or glory, gave up all to maintain a sacred cause.

"We have now come to the period of fraternal feeling when we all can also respect the constancy and bravery of those who wore the gray through the awful struggle. They defended the right as they saw it. It was a distinguishing characteristic of our Civil war that both sides, from the generals to the humblest privates, were actuated by real love of the cause they were prepared to die for, and now, as we look back on it, we can admire Grant's magnanimity and consideration for his great foe and Lee's patriotic self-restraint in declining after defeat to gratify a false pride and carry on a desultory and guerrilla warfare which might have prolonged the hopeless struggle to no good purpose.

"There are those who think that war was unnecessary. I cannot bring myself to think that. The situation was one for which only such a convulsion as war, horrible as its effect was, could afford a satisfactory solution. This day which brings back to us the dreadful losses that the war entailed, and piles up the fond memories of those known and unknown heroes whose devotion to duty and utter self-sacrifice are monuments to our patriotism as a people, should take us out of our atmosphere of self-seeking, of money making, of pleasure hunting and of peaceful sloth, at least for a day, that we may value again highly the many instances it revives, of mental and physical courage, self-denial, self-restraint, and self-sacrifice, and may feel that the hearts of our people today, eager as they seem now in the search for wealth and comfort, would should occasion arise, furnish a response to the nation's call as full, as willingly and as mightily as was the response from both sides from the time the struggle began in '61 until it closed in '65.

FORAKER SPEAKS AT STENBENVILLE.

Stenbenville, O., May 30.—United States Senator Foraker was the principal speaker here today at the Memorial Day exercises. About five thousand people assembled to hear him speak. His address was frequently applauded.

MONUMENT TO LAWTON.

Indianapolis, May 30.—The monument to Major General Henry W. Lawton, which was unveiled here today, immediately preceding the address of President Roosevelt, is the result of the work of the Lawton Monument commission, formed in 1900, soon after the death of Lawton in the Philippines. The monument stands on the grounds of the Marion county court house. It is a bronze figure, nine feet high, standing on a stone pedestal six feet in height. The figure is typical of a general in command,

our history; and though full forty-two years have passed since peace was declared, the grateful nation is still conferring rewards on the brave participants of the struggle, and honoring the memory of its dead, as, indeed, it should."

PERIL IS SEEN BY TAWNEY. Nation Drifting Toward Bureaucratic Rule Such as Is Bane of Europe.

Gettysburg, Pa., May 30.—Notable Memorial Day exercises were held this afternoon at the National cemetery here, where four thousand soldiers are buried. A large crowd was in attendance from many parts of the state. Congressman James A. Tawney of Minnesota was the orator of the day. There was a parade which included the Sons of Veterans and other patriotic and civilian societies. School children straggled in from the graves of the dead. The exercises were held on the spot where President Lincoln delivered his immortal speech. Congressman Tawney said in part:

"There is but one great problem in politics today and that is the adjustment of the central power of the state or nation to the local self-government of the people. Has the individual state the right and should it manage and control its affairs without regard to other states in the Union; or are we essentially one people, bound in all we do as individual states to respect the institutions and conserve the welfare of all?"

"The states today not only seem inclined to allow but in many instances are anxious voluntarily to surrender to the federal government the executive, legislative and the exercise of powers and privileges reserved by the Constitution to them, especially when the exercise of these powers and privileges involves the expenditure of money. They are also today either soliciting or acquiescing in a federal supervision over their domestic affairs to an extent that less than half a century ago would have led to revolution had the federal government attempted to force upon them such supervision.

"It has been suggested that our reason for this practical change in our system of government is to be sought in the imperialistic aggressiveness of the party at present in control of the national government; but let us more objectively ourselves with shall reflections. The real reason lies deeper than this. The tendency on the part of the states to surrender the exercise of powers and privileges belonging to them and the willingness to allow a federal supervision over their domestic affairs to an extent that less than half a century ago would have led to revolution had the federal government attempted to force upon them such supervision.

"I do not plead for state's rights. I plead for the right of the federal government to protect itself and its treasury against the encroachments of the states and private interests upon her powers, her duties and her revenues. Where will this tendency end; to what result think you does it naturally and inevitably lead; whether are we going in this centralization of power and mitigation of local self-government? I lay no claim to prophetic powers, but I bring to you the thought of many of the ablest men in the public service today when I say that we are unconsciously drifting toward a highly organized bureaucratic form of federal government such as has become the bane of most of the old world governments of Europe."

Foraker Speaks at Stenbenville. Stenbenville, O., May 30.—United States Senator Foraker was the principal speaker here today at the Memorial Day exercises. About five thousand people assembled to hear him speak. His address was frequently applauded.

MONUMENT TO LAWTON.

Indianapolis, May 30.—The monument to Major General Henry W. Lawton, which was unveiled here today, immediately preceding the address of President Roosevelt, is the result of the work of the Lawton Monument commission, formed in 1900, soon after the death of Lawton in the Philippines. The monument stands on the grounds of the Marion county court house. It is a bronze figure, nine feet high, standing on a stone pedestal six feet in height. DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00; by mail, \$1.10. For year, by mail, \$11.00.

MARQUETTE, MICH., MAY 31.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Let's see; we believe State Road Commissioner Earle was going to "show" somebody.

We observe, however, that the secret service men were powerless to stop the Roosevelt resolutions.

Sort o' looks as if there was, after all, some trap rock in the neighborhood of the Marquette prison.

The copper country had its baseball after all, but we suppose it entered into the sport in a reverential spirit.

Escanaba also has a municipal ownership nut to crack. Negaunee and Escanaba might profit by getting their heads together.

Marquette's proposed Fourth of July celebration appears to be languishing. Let's get the breath of life into it, or give it up in favor of Ishpeming.

Let us hope that the fine weather sent along to gladden the old soldiers will be continued for their pleasure, and also for the benefit of the rest of us.

Even as he vetoes the recent bill Mayor McClellan will doubtless quake in his official shoes as he reflects on the practical certainty that the New York legislature will pass it over again.

Lansing is just now so busy with its entertainment of the president that it has no time either for things legislative or political. Of such we will hear no more until next week.

It may be remarked, however, that the state legislature exhibited a deal more harmony on the question of President Roosevelt's successor than it has on any other question that has come before it this session.

Governor Warner is not wholly decided about a special session. The boxers have still considerable time in which to fall in line. However, the governor has made it plain that if, as he views the situation, there is need of calling a special session he would just as soon do it as take a jaunt to Farmington. He is confident that the folks back home would not only approve his course, but that they would have made their position so clear to their representatives in the senate that there would be practical assurance that the session would not be held in vain. As for the item of expense, what's \$20,000 or \$25,000 in the light of a \$8,000,000 legislature.

Norway has an uplift movement planned on new and original lines. Many of her best people, the most enterprising, industrious and thrifty, have come to this country and here they have prospered. The plan is to raise \$1,000,000 among the American Norwegians for the benefit of the mother country, \$250,000 to be used for forestry, \$250,000 for drainage and \$500,000 for the uplifting and encouragement of industry. No doubt love for the old soil will bring forth many contributions to the proposed fund, but the suggestion might well be made that if any such a sum can be raised the best and wisest use to make of the money would be to bring over those Norwegians who still remain in the old country. As a class there are none better for good citizenship, and with the opportunities to be found here that they would prosper cannot be doubted.

A copper country paper takes a moving picture theater to task for advertising Thaw-White pictures as an attraction, and suggests that these theaters in the upper peninsula will find it to their greatest ultimate profit to keep their programs above reproach. Quite so. The moving picture theaters in the larger cities have come in for harmful attention from newspapers and police for offering offensive pictures, and the police of the upper peninsula cities will not be found wanting if there is call for them to act. The managements of the picture theaters should have no difficulty getting attractive and interesting films, free of suggestiveness and of any offense against public morality. They will find it profitable to do so, for as surely as

the state grange is preparing to invade the upper peninsula with a campaign of organization, we are told. Already it is represented by a few branches, but it is now the reported intention to organize in every county possessing an agricultural population. The state grange pays some attention to agriculture, but probably more to politics. It has a big influence on the farmer vote. This vote is, below the straits, a considerable one, and is not to be sneezed at even in this region. Presumably the grange will partake of the salient characteristics of the parent organization. They will "resolve" for primary elections and what not, and move in the van of the reform army, along with their lower peninsula brethren. The time is ripe for granges in the upper peninsula. We're getting to be a restless division of the state. We are throwing away our leading strings and beginning to strike out for ourselves. Didn't we turn out some votes for William Alden Smith, even from Marquette county? Haven't we had several representatives—again including one from Marquette county—who have stood for Governor Warner's "advance" program? And there's Senator Fuller. In all differences in the upper house he has given his vote and support to the governor's measures. He is on record as favoring real direct nominations—the striking out of the present law of the 40 per cent clause. By every token we are ready for the granges, and as the state grange is ready for the invasion our farmer vote—such as it is—may presently be organized.

Saloon is held legal. A few weeks ago temperance organizations and temperance leaders in many parts of the country were making considerable capital out of the opinions of Indiana judges that saloons, even though duly licensed, had no legal standing. These opinions were by many ardent reformers, in whom the wish was father to the thought, asserted "to sound the death knell of the saloon." But they have done nothing of the sort, for the Indiana supreme court has found that the opinions of the inferior courts are not good law, and are to be disregarded. Judge Artman, of the Boone county

Poor Paint is Expensive

If one is rich enough to repaint his buildings every year for the pleasure of having a change of color scheme, the quality of the paint used may cut little figure. But if it is desirable to cut the painting bills down to the least amount possible per year, it is of the utmost importance that the paint be made of

Southern Pure White Lead

and the best of Linseed Oil. There are imitations in the form of alleged White Lead, and there are substitutes in the form of ready-prepared paints.

We guarantee this White Lead to be absolutely pure, and the Dutch Boy on the side of every keg is your safeguard. Look for him.

For Sale by All Dealers.

they resort to sensational offerings to attract the nickels and dimes they will stir up trouble for themselves.

According to Lansing reports State Road Commissioner Earle has come a right about in the legislation which he proposes to ask for to see whether it is not practicable to crush rock for road-building purposes by prison labor in the upper peninsula and have it shipped to lower Michigan. In a new bill he is reported to have introduced Marquette is mentioned explicitly as a source of supply for the roadbuilding material, which, presumably, will be turned out by convict labor at the Marquette prison. This, The Mining Journal considers, is a sensible method of procedure. For a comparatively modest expenditure it should be possible to put in an experimental plant at or near the prison by which it could be learned whether in practice Mr. Earle's scheme comes up to the theory. If there were any extra costs that might be avoided at another point due allowance could be made for them, so that correct conclusions could be reached. It could be observed what the lower Michigan demand for the crushed rock amounted to, and it is obvious that much other valuable data could be gathered. Then, if Mr. Earle's views are borne out, it would be possible to plan advisedly for a great expansion of the crushed rock industry either at Marquette, at a new prison in Keweenaw county, or at some other point. The Mining Journal regards Mr. Earle's proposed substitute bill as a great improvement on his original bill, particularly from the viewpoint of the taxpayer.

The London correspondent of the New York Tribune writes that the educational institutions which formerly received large contributions from wealthy people do not now receive them, and it is contended that as the government is now depleting the accumulations from which the contributions were obtained it must take upon itself the task of supporting these institutions. This, however, is a less evil, he writes, than the withdrawal through the death and succession taxes of large sums from industrial and commercial enterprise. He says:

Financiers and economists agree in deploring so exhausting and destructive a process. Income taxation at the current high rate diverts millions of surplus earnings and savings from investment and cuts off a large supply of fresh capital and the most fertile settlements of estates effected at Somerset house have, by depleting the reserves available for industrial and commercial undertakings, Capital is systematically taxed and liquidated for budget requirements. Whether fortunes are made or lost in South Africa, unquestionably under the operation of these continuing levies of direct taxation there must be less money for investment in the kingdom and consequently a shrinkage of productive returns. Yet, who can deny that in the greatest of modern capitals—the world's battle for a market—capital is one of the main resources?

Nobody likes to pay taxes and heirs naturally dislike to see a large share of the estate turned into the public treasury instead of into their pockets. It is to be expected that they will discover inequities and evils in such a system. However, we may on the whole be fortunate in having these things worked out for us by other countries. It may be that heavy succession taxes work disadvantageously, but it must also be admitted that the transmission of over swollen fortunes unimpaired to one or two heirs is just as detrimental. It is a difficult problem and it ought to be studied from all sides.

For stomach troubles, biliousness and constipation try Chamberlain's Stomach and Liver Tablets. Many remarkable cures have been effected by them. Price, 25 cents. Samples free. For sale by The Stafford Drug Co.

circuit court, was one of the jurists who delivered the opinions in question. His opinion, and the others also, was based on the assumption that the sale of intoxicants is inherently wrong and that the state has no power to authorize the commission of a wrongful act. This theory is flatly contradicted by the supreme court, which affirms the legality of the sale of liquor, provided it is sold within the limits prescribed by the state, which is the sovereign authority. The decision says in part:

It is well settled that the several states in the exercise of their sovereign power have full authority, except as restricted by constitutional provision, to enact any measure deemed expedient to suppress intemperance and minimize the evils resulting from the traffic in intoxicating liquors, whether by prohibiting or by restricting and licensing the sale of such liquors. In the absence of legislation, the business of selling intoxicating liquors has universally been recognized as lawful, but there is no inherent right in the people to engage in such traffic in any such sense as to remove it from the sphere of legislative control.

Statutes have been held valid prohibiting the sale, exchange or giving away of intoxicating liquors in houses of ill-fame, dance halls, or other places where women or minors are employed, or within a specified distance of an orphan's or soldier's home, a church, school, college or other institution of learning, a polling place or fair ground.

In the absence of constitutional inhibition it is competent for the legislature of a state to delegate to municipal corporations power to control and regulate the liquor traffic within prescribed territory. If prohibited districts are created at all their boundaries must be established somewhere, and it may well be that the situation of premises on one side of the line may differ essentially from that of those on the other.

This decision was not unexpected by people who took a calm, dispassionate view of the questions involved. The mistake was made by the temperance people who too quickly assumed that the minor courts had correctly pronounced on the law. It hardly needed the Indiana decision to convince judicially minded people that the extreme temperance advocates will have to get along without the aid of the courts in their efforts to wholly eradicate the duty licensed saloon.

TAKING SWOLLEN FORTUNES. We have heard considerable of late in favor of an income tax and not a little has been indulged in as to whether the federal courts could be gotten to reverse their position as to the constitutionality of such a tax. In the meantime the more autocratic governments have been resorting more and more to this form of taxation and in particular heavy inheritance taxes have been levied. Mr. Roosevelt at one time intimated that a progressive inheritance tax might become necessary in this country to prevent swollen fortunes from accumulating from generation to generation and from becoming serious menaces to the welfare of the nation. England has instituted such a policy. It has been in operation only a comparatively short time and at the time it was adopted was not very strenuously opposed by those who came under its provisions. It seems, however, that there is now dissatisfaction with its workings.

The London correspondent of the New York Tribune writes that the educational institutions which formerly received large contributions from wealthy people do not now receive them, and it is contended that as the government is now depleting the accumulations from which the contributions were obtained it must take upon itself the task of supporting these institutions. This, however, is a less evil, he writes, than the withdrawal through the death and succession taxes of large sums from industrial and commercial enterprise. He says:

Financiers and economists agree in deploring so exhausting and destructive a process. Income taxation at the current high rate diverts millions of surplus earnings and savings from investment and cuts off a large supply of fresh capital and the most fertile settlements of estates effected at Somerset house have, by depleting the reserves available for industrial and commercial undertakings, Capital is systematically taxed and liquidated for budget requirements. Whether fortunes are made or lost in South Africa, unquestionably under the operation of these continuing levies of direct taxation there must be less money for investment in the kingdom and consequently a shrinkage of productive returns. Yet, who can deny that in the greatest of modern capitals—the world's battle for a market—capital is one of the main resources?

Danderine

GREW MISS CARROLL'S HAIR AND WE CAN PROVE IT

Beautiful Hair At Small Cost.

WITHIN the last decade great and rapid strides have been made in Materia Medica. Many diseases that were considered incurable fifteen years ago are now cured in a few days, and in many cases prevented altogether. The scientists of late years have been delving for the cause, the foundation, the reason and the starting point of disease, fully realizing that the actual and true cause must be ascertained before the remedy can be located. Hair troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp, and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment, and when baldness occurs the scalp has simply lost all of its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions).

The natural and logical thing to do in either case is, feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Dr. Knowlton's DANDERINE

is the only remedy for the hair ever discovered that is identical with the natural hair foods or liquids of the scalp. It feeds and nourishes the hair and does all the work originally carried on by the natural nutrients or life-giving juices generated by the scalp itself. It penetrates the pores of the scalp quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One twenty-five-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself. Now on sale at every drug and toilet store in the land. Three sizes, 25c, 50c and \$1.00.

FREE To show how quickly Danderine acts we will send a large sample free by return mail to any one who sends this advertisement to the Knowlton Danderine Co., Chicago, with their name and address and 10 cents in silver or stamps to pay postage.

Upper Peninsula

Big Contract for Paving—

Contracts for paving work on the seventeen streets have been awarded by the Escanaba common council to the North City Engineer & Construction company of that city. The cost of the improvements will be approximately \$100,000.

Stone macadam, with a top dressing of tar, will be the material used. This kind of paving also will probably be adopted at Ironwood, metropolis of the Gogebic iron range; at least it is the choice of the alderman investigating committee recently sent to Duluth to look into the merits of the various materials. The committee is unanimous in its decision that tar macadam is ideal for Ironwood streets.

City Shaken by Explosion—

It is considered marvellous that no lives were lost in the recent explosion of four boxes of dynamite at the Bristol mine at Crystal Falls. As it was every building in the city was shaken, many windows were broken and great excitement was occasioned. It was while in process of being thawed in a steam-heated receptacle that the dynamite blew up. Sawdust in the compartment ignited, and the fire attacked the boxes containing the explosive. The stripping men all fled in haste, but were not injured. The foreman, John Wilson, thinking he could save a portion of the dynamite, grabbed one of the boxes and was running away with it when he heeded a shout and dropped his dangerous load. He, into gone only fifty feet further when all four boxes exploded, but he escaped without a scratch. There were other close shaves from flying rocks and debris. At the mining location the glass in all the buildings was shattered, and in the office the books were knocked from the shelves.

Birds Slaughtered at Ironwood—

In an effort to put a stop to the killing of song birds for food, a practice persisted in by a certain element of the city population, a reward of \$10 has been offered at Ironwood for the arrest and conviction of any person guilty of such illegal hunting. Shooting of this kind has been of daily occurrence in the eastern portion of the city, and robins especially have fallen victims to the ruthless marksmen, doubtless because they are larger than most song birds and are said to possess an appetizing flavor. Similar depredations have caused much indignation at Iron Mountain this spring, and for the purpose of putting an end to the slaughter a reward such as now in force at Ironwood was offered recently, with effective results. Only one arrest has so far been made there, but it has apparently been sufficient to

THROUGH SLEEPING CAR SERVICE Between Copper Country Points and Mackinaw City, Without Change.

Beginning June 1st, the D. S. S. & A. Ry. will inaugurate a through sleeping car service between Copper Country points and Mackinaw City on the night trains. (5-16-31)

DARANTELLA

5th Avenue, Grand, N.Y.

S.S.S. REMOVES

S.S.S. BLOOD HUMORS

When the blood is pure and healthy the skin will be soft, smooth and free from eruptions, but when the blood becomes infected with some unhealthy humor the effect is shown by rashes, eruptions, boils and pimples, or other disfiguring and annoying skin disease. The skin is provided with countless pores and glands which act as a drainage system to rid the body of impurities through the perspiration that is constantly passing through these little tubes. There are other glands that pour out on the skin an oily substance to keep it soft and pliable. When the blood becomes filled with humors and acids these are thrown off through the pores and glands, burning and irritating the skin and drying up the natural oils so that we have not only Acne, Eczema, Salt Rheum, etc., but such dry, scaly skin affections as Tetter, Psoriasis, and kindred troubles. The treatment of skin troubles with salves, washes, lotions, etc., is not along the right line. True, such treatment relieves some of the itching and discomfort and aids in keeping the skin clear, but it does not reach the real cause of the trouble, which are humors in the blood, and it can therefore have no real curative effect on these skin affections. S. S. S., a gentle acting and perfect blood purifier, is the best and quickest treatment. It goes down into the blood and removes the humors, fiery acids and poisons from the circulation, cools the overheated blood, and by sending a fresh stream of nourishing blood to the skin permanently cures skin diseases of every character. S. S. S. is made entirely of health producing roots, herbs and barks, and is an absolutely safe remedy for young or old. S. S. S. cures Eczema, Acne, Salt Rheum, Tetter, Psoriasis, and all other disagreeable and unsightly eruptions of the skin. Special book on Skin Diseases and any medical advice desired, furnished free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

MISS J. CARROLL 2807 Irving Ave., Chicago

Learn a salutary lesson; at least the shooting has been much curtailed. The state law is strict in the connection, providing a maximum penalty of a fine of \$125 and 100 days' imprisonment, and it will be given impressive application at Ironwood in the event of conviction. Only black birds, blue jays, English sparrows and butcher birds are denied the law's protection.

BACK GIVES OUT. Plenty of Marquette Readers Have This Experience. You tax the kidneys—overwork them—They can't keep up the continual strain. The back gives out—it aches and pains; Urinary trouble sets in. Don't wait longer—take Doan's Kidney Pills. Marquette people tell you how they act. Thomas Stengelin, living on Grove St., near Seventh St., Marquette, Mich., says: "My back used to be my weakest part, and every time I took cold it settled there and there came a dull grinding pain in the loins, varied with sharp shooting twinges around the kidneys. Though I was never confined to my bed with this trouble I had to lose time from work and the suffering and annoyance was great. Seeing Doan's Kidney Pills recommended I got a box at the Stafford Drug Co. and began using them. They helped me at once and in time completely cured me. I have had no backache nor any of that feeling of weakness in the loins since I used them, and am certainly glad to recommend Doan's Kidney Pills to other sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

CHANGE AT THE ARLINGTON. Said that William Deegan of Houghton Will Manage It.

There is a possibility that the Arlington Hotel, in Calumet, will have a change of management in the immediate future, with Thomas and John Shea, the Calumet Rivermen, sons of Hat Shea, owner of the property, as proprietors and William Deegan of Houghton as active manager.

Mr. Deegan was formerly chief clerk in the hotel for Mr. Merz, and has since been chief clerk of the Douglas House in Houghton and Hotel Scott, Hancock. He is a capable hotel man, and popular with the traveling public.

Mr. Deegan is a native of the country as a boy, and he never permits his hostility to be the abode of gloom. Mr. Merz is the heaviest man in the copper country and the jolliest. If he leaves the Arlington the odd house and its guests will miss his sunny smile and his geniality, which have been great factors in making the hotel popular.

MORE AMPHIDROME VAUDEVILLE. In pursuance of his plan to provide extra attractions for his patrons Manager McNamara of the Amphidrome has secured Claude Ranf, a slack wire artist, to perform all next week in the building as a variation from the roller skating.

Ranf is said to be a wonder.

HOUGHTON COUNTY ELECTRIC LIGHT CO.

YESTERDAY'S BASEBALL.

Houghton and Calumet Played Morning and Afternoon.

The baseball season of 1907 on Portage Lake was opened yesterday afternoon in Ripley Park by the Calumet and Houghton teams of the Northern-Copper Country League. The clubs played in the morning at Calumet, where they had opened the copper country season the previous day and where the Aristocrats gave the Giants a drubbing to the tune of 10 to 0.

In the morning, at Calumet, Houghton defeated Calumet by the score of 5 to 1. Calumet had the lead until the seventh, when it went up in the air, bunched its errors and allowed Houghton to score three runs. Summary: Houghton, R. H. E. 5 2 0; Calumet, R. H. E. 0 1 10.

Batteries: Miller and Gibson; Koopman and Mullane. Houghton lost in the afternoon by the score of 1 to 5. The summary: Houghton, R. H. E. 1 2 5; Calumet, R. H. E. 5 2 0.

Batteries: Kaiser and Gibson; Schroeder and Mullane. MR. RUTLEDGE DEFEATED. Anti-Saloon Preacher's Charge Against Dunn Not Sustained.

The most interesting case which has yet come out in the present term of the Houghton county circuit court was tried Wednesday afternoon. It was that of Edward Dunn of Calumet, charged with keeping his saloon open after hours. The charge was brought by Rev. C. H. Rutledge, the Isingham preacher who is the head of the Upper Peninsula Anti-Saloon League. Mr. Rutledge alleged that he could see into the saloon on the night in question, and that the place was illuminated and doing business. Mr. Dunn set up that the windows were so frosted that no one could possibly have seen through them. The defense was convincing to the jury, and Mr. Dunn was acquitted.

The case is interesting because of the fact that M. Bandetini, proprietor of the Michigan house in Calumet, is to answer to the same charge and will set up the same defense. His case will come up today.

The court was not in session yesterday, it being Memorial Day. The case of Joseph Naumen of Calumet, charged with a revolting crime, was withdrawn Wednesday afternoon.

Sam Altman, who is charged, in two cases with bringing stolen goods, and with larceny, is in the county jail. Since his arrest some months ago he had been out on bail, two Calumet businessmen having risked \$1,500 each to show their confidence in him. But he tried to jump bail, and as a result is now awaiting trial behind the bars.

Joseph Orestein of Calumet was one of the bondsmen. He started out Wednesday afternoon on a fishing trip to some point in the iron country, and he found Altman a fellow passenger on the train. He learned that Altman was headed for Duluth, which should not have been, as his trial was set for an early date in this term of court. Mr. Orestein took advantage of the long wait at Neshota to get Sheriff Beck on the wire. He stated his case, and the sheriff told him to get a grip on Altman and not to let it go until he brought him back to Houghton. Mr. Orestein followed instructions to the letter, and he found Altman safely in jail. The offense with which he is charged is stealing copper from the Lake Linden smelter and receiving copper stolen by other persons.

OBSERVED MEMORIAL DAY. Copper Country Gave It Adequate Recognition Yesterday.

The copper country generally observed Memorial Day, yesterday, as a holiday, and the military orders of the Houghton county kept the solemn purpose of the day in mind. Two fine programs were carried out, these at Calumet and Hancock, and as a whole for the first time in years adequate recognition was given the day throughout the county.

The military orders of Portage Lake joined for the Hancock celebration, and the parade was an imposing spectacle. In the morning the cemeteries were visited by committees and detachments from the Hancock Naval Reserve and the Houghton Light Infantry for the purpose of decorating the graves and paying the military honors to the dead. The parade was held at Montezuma Park, in the latter city. Judge Haire and Judge Gary were the principal speakers here, and there were musical numbers both vocal and instrumental.

The program at Calumet was similar. The Calumet Engineers, Civil and Spanish war veterans, the G. & H. band and various other organizations marched in the parade from the armory to Lake View cemetery, where Judge A. T. Streeter of the Houghton county circuit court delivered an oration. There was music by a quartet and the Calumet & Hecla band, the graves were decorated and military honors were paid the dead.

SALVATION ARMY DIGNITARY. Major Merriweather, general secretary of the Salvation Army's Northwestern province, with headquarters in Minneapolis, will visit Calumet tomorrow and Sunday. Staff Captain Watt of Duluth will accompany him, and they will hold special meetings both days. Adjutant Mellerg, commander of the Calumet corps, and Captain Thomas Willis, commanding the Houghton corps, attended in Marquette this week the conference of the Lake division of the army.

TWO SISTERS HAVE ECZEMA OF HEAD

Two Illinois Girls Suffer from Scalp Trouble—Another Sister Needs a Tonic—Friend Suggests Cuticura—They Use It and Now Give.

MUCH PRAISE TO ALL CUTICURA REMEDIES

"I must give much praise to all the Cuticura Remedies. I used but one cake of Cuticura Soap and one box of Cuticura Ointment, as that was all that was required to cure my disease. I was very much troubled with eczema of the head, and a friend of mine told me to use the Cuticura Remedies, which I did, and am glad to say that they cured my eczema entirely. Since then we have always kept the soap on hand at all times. My sister was also cured of eczema of the head by using the Cuticura Remedies. Another sister has used Cuticura Resolvent and Pills and thinks they are a splendid tonic. I cannot say exactly how I suffered, but I think about six months. Miss Edith Hamner, R. F. D. No. 6, Morrison, Ill., Oct. 3, 1906."

EVERY CHILD Afflicted with Torturing Disfiguring Humors

Becomes an object of the most tender solicitude, not only because of its suffering, but because of the dreadful fear that the disfigurement is to be its life-long curse, and marries its future happiness and prosperity. Hence it becomes the duty of mothers to guard their children from such afflicted children to acquaint themselves with the purest and most effective treatment available, viz: warm baths with Cuticura Soap, and gentle anointings with Cuticura Ointment. The best Skin Cure, Cuticura made in infancy and childhood are usually speedy and permanent.

Complete External and Internal Treatment for Eczema of the Head, Neck, and Face, and for all other Skin Diseases. Cuticura Soap (25c) to Cleanse the Skin, Cuticura Ointment (25c) to Heal the Skin, and Cuticura Pills (25c) to Purify the Blood. Sold throughout the world. Price, 25c per box of 60 to Purify the Blood. Sold by Druggists, Grocers, and Dealers. Sole Proprietors, Boston, Mass., U.S.A.

CELEBRATE FOURTH OF JULY. Copper Country Towns Talking of Independence Day.

The passing of Memorial Day leaves the way clear for arrangements for the observance of Fourth of July. In Red Jacket President Schumaker has asked the citizens to meet June 5 for the purpose of planning for a celebration. Laurium will have a separate jubilee. Houghton and Hancock will entertain last year, and it is Houghton's turn now. The citizens of that busy burg have not as yet taken up the question, but there is little doubt that when they get at it they will pull out Houghton which will be worth while. Celebration of the two years ago eclipsed anything previously held in the copper country. It should keep up the record this year.

SHIP FOR NAVAL RESERVE. Cruiser Yantic May Be Assigned to Portage Lake.

The Mining Journal's Lansing dispatches yesterday announced that Senator Smith and Representative Galbraith have introduced in the legislature a resolution providing for the transfer of the U. S. S. Yantic from Detroit to Portage Lake for the use of the Hancock division of the Michigan Naval Brigade. This is welcome news to Hancock and the members of the division, the more welcome of course if it is realized. Lieutenant Gammon of the division recently gave an inkling of the plan to bring the Yantic here, but it was not thought that such rapid action would be had.

The transfer of the Yantic is being contingent upon the transfer to the state by the navy department of the old Spanish cruiser Don Juan de Austria, captured in the Philippines and now at the Portsmouth (N. H.) navy yard. Professor Scooley of Ann Arbor, chief engineer of the brigade, recently reported to the legislature on the condition of the cruiser, and recommended it to the use of the state. If the Don Juan comes to Detroit there is little doubt that Hancock will secure the Yantic.

The Hancock division is the youngest in the state, Benton Harbor and Saginaw being the other towns with a reserve, but it is so far removed from headquarters that a ship of its own is considered a necessity. It would be kept in Hancock the year round. The acquisition of the Yantic by Hancock would undoubtedly mean the organization ere long of a reserve in Houghton, as the ship could easily accommodate many more divisions.

First Annual Ball. The Hancock Naval reserve is attracting a deal of attention these days.

It is having a natural success of curiosity because of the romance which usually attaches to the sailor, and Hancock's citizens are doing a lot for the new organization. The best indication of the great public interest is best shown by the attention which the first annual ball of the division is receiving. This function will be given tonight in the armory, Germania Hall, and it promises to be the best attended event of the kind held in the county this year.

The division has sent out 1,000 invitations and has prepared to entertain in the best possible manner the host which will attend. The ball is being given under the patronage of a number of the prominent society women of the county. The full county band will furnish the music, Saul Segal has decorated the hall, dainty refreshments will be served and in every way the details will show careful and tasteful preparation. Lieutenant Gammon, Lieutenant Hecker, Ensign Cook, Yeoman Ruppe, Quartermaster Banks and Seaman Swift constitute the general arrangement committee.

SOME JUNE WEATHER DATA.

Observer Wiesner Reviews June Conditions of the Past.

The following data, covering a period of six years, have been compiled from the weather bureau records at Houghton. They are issued to show the conditions that have prevailed during June for the above period of years, but must not be construed as a forecast of conditions for the present month.

Temperature—Mean or normal, 59 degrees. The warmest month was that of 1901, with an average of 61 degrees; the coldest, that of 1902, average 56. The highest temperature was 101 degrees, on the 20th, 1901; the lowest, 33, on the 12th, 1905. The average date on which the last "killing" frost has occurred in spring is May 7; the latest date on which the last "killing" frost has occurred in spring is May 21, this year.

Precipitation (rain or melted snow)—Average for the month, 3.08 inches. Average number of days with .01 of an inch or more, fourteen. The greatest monthly precipitation was 5.40 inches, in 1905; the least, six-tenths of an inch, in 1903. The greatest amount of precipitation recorded in any twenty-four consecutive hours was 2.14 inches, on the 25th, 1905.

Clouds and Weather—Average number of clear days, 12; partly cloudy, 10; cloudy, 8. Wind—The prevailing winds are from the east. The average hourly velocity is seven miles. The highest velocity is thirty-five miles, from the west, on the 29th, 1901.

COPPERDOM BRIEVITIES.

C. C. Douglass of Houghton will leave tomorrow on a business trip to Detroit.

Principal Walsh of the Hancock High school has gone to Chicago on a brief business trip.

Mr. and Mrs. Z. W. Wright of Hancock have returned from an extended European trip. J. J. Connelly, superintendent of motive power, has been in Houghton yesterday, business visitor in Houghton yesterday. The directors of the First National bank of Hancock have declared a semi-annual dividend of 5 per cent.

M. J. Egan of Marquette, a popular South Shore conductor, arrived in Houghton yesterday to visit his daughter, Mrs. William Normile. Robert H. Shields of Houghton left Wednesday afternoon for Lansing on a business trip in connection with the state tax commission.

Reports from Ypsilanti tell of the success of Edward Stearns of Hancock as pitcher for the Normal college baseball team. He is ranked as the best college pitcher in the state. Simon J. Beahan, manager of the copper department for Hayden, Stone & Co., New York, left for the East Wednesday after a brief visit with friends in Houghton.

Lesling Karger of Houghton and Miss Virginia and Charles Cooper of Hancock were passengers on the Kaiser Wilhelm der Grosse which arrived in New York Tuesday. They are returning home from an all-winter European trip. The Houghton County Street Railway company expects shortly to begin operations of a new line to connect the street with Electric Park. Plans for the new pavilion are now being made, and the contract may be awarded next week.

The Michigan College of Mines has been advised of the death in Texas of George Pembroke Ticker, a graduate of the institution. He was one of the best men but he had lived in the copper country for several years. J. W. Scott and G. T. Miller, president and vice president of the Panton & White company, which is to open the remodeled Ryan store in Calumet, are now at that place, supervising the rearrangement. The store will be opened June 15, according to present plans. It will be known as the Glass Front.

WEDNESDAY'S MINE FATALITY.

Anton Sornin, who was killed in the Osceola mine Wednesday afternoon, seems to have died as a result of his own carelessness. He and two companions had just dumped a car of rock into the skip and neglected to remove the guards after so doing. On the next down trip of the skip it struck the guard and wrecked it, and when Sornin and his companions were removing the wreckage they failed to signal the engineer to stop the skip. It came down and struck Sornin on the head, killing him instantly. The jury summoned by Coroner Fisher rendered a verdict in accordance with these facts. Sornin was twenty-two years of age, was single and apparently had no living relatives in the copper country. His funeral will be held today.

COMING SOCIETY WEDDING.

Announcement was made Wednesday afternoon at a dinner given by Miss Alice Dudley of Calumet in honor of Miss Philomene Ruppe of the forthcoming marriage of Miss Ruppe and Dr. E. T. Chandler of Los Angeles. The wedding will take place June 3. Miss Ruppe is a daughter of Peter Ruppe of Calumet. Dr. Chandler formerly resided in Calumet, but left for Los Angeles two years ago.

PRESIDENT FIRM FOR REGULATION

(Continued From Page One.)

The guilty few by any ill-judged and unwise scheme of legislation. Our aim is primarily to prevent these abuses in the future. Wherever evil doers can be reached they will be brought to justice; and no criminal, high or low, whom we can reach will receive immunity. But the rights of innocent investors should not be jeopardized by legislation which would fall heavily on them, instead of on the original wrongdoers or beneficiaries of the wrong.

Inflation of Stocks Must End.

"There has been the first to expose any unreasonable restrictions being placed upon the issuance of stocks and bonds, for such would simply hamper the growth of the country. For a railroad must ultimately stand on its credit. But this does not prevent our demanding that there be lodged in the government power to exercise a jealous care against the inflation of securities, and against the cycle that comes in its train. The man who builds a great railway and those who invest in it render a great public service; for adequate transportation facilities are a vital necessity to the country. We favor full and ample return to such men; but we do not favor a policy of exploiting the many for the benefit of the few. Our primary purpose is to insure the future against the mistakes and delinquencies of the past.

"There has been much wild talk as to the extent of the over-capitalization of the country. The census reports on the commercial value of the property of the country, together with the reports made to the interstate commerce commission by the railroads on their cost of construction, tend to show that as a whole the railroad property of the country is worth as much as the securities representing it, and that in the consensus of opinion of investors the total value of stock and bond is greater than the value of the property which they represent. The water that has been injected in particular places. The huge value of the securities, however, is not the result of the immense expenditures in recent years in double tracking, improving grades, roadbeds, and structures. It has brought the total investments to a point where the opinion that the real value is greater than the face value is probably true.

"Ample provision should be made by congress to enable the interstate commerce commission, by the employment of a sufficient force of experts, to under-estimate the physical valuation of each any road in the country, whenever and so soon as in the opinion of the commission such a valuation of any road would be of value to the commission in its work. There are undoubtedly some roads as to which it would be an advantage, in the standpoint of the public interest, to have such a physical valuation as soon as possible. It must be understood that physical valuation is not a panacea; it is no sufficient measurement of a rate; but it will be ultimately needed as an essential instrument in administrative supervision.

Protection for Investors.

"The effect of such valuation and supervision of securities should be retroactive. Existing securities should be tested by the laws in existence at the time of their issue. This nation would no more injure securities which have become an important part of the national wealth than it would consider a proposition to regulate the public utility. But the public interest requires guaranty against improper multiplication of securities in the future. Reasonable regulations for their issuance should be provided, so as to secure as far as may be the interests of the public, and devoted to legitimate business purposes.

"There is an essential difference between private and quasi-public property which justifies setting somewhere a limit beyond which the accumulating debt of the quasi-public utilities, due to the necessity of a growing community, shall not be capitalized. We hope as one of the chief means for betterment of conditions to secure a complete publicity in the affairs of railroads as now obtains with regard to national banks.

"There need be no fear on the part of investors that this movement for national supervision and control over railroads will be for their detriment. If they doubt this, let them study the history of the railway-control movement in the United States. In those instances where securities are bought and sold largely on the certificate of character which the government, as a result of its examinations and supervision, give to them. Give the same guaranties as to railroad securities. We would presently see those people investing in railroads and thus open a new reservoir from which to draw the capital now so much needed for the extension and betterment of the railroads.

All this, my friends, is substantially what I have said over and over again. Strictly, it might not be necessary to say that it in no shape or way represents any hostility to corporations as such. On the contrary, it means a frank recognition of the fact that combinations of capital, like combinations of labor, are a natural result of modern conditions and of our national development. The aim of the national government is quite as much to favor and protect honest corporations, honest business men of wealth, as to bring to justice those individuals and corporations representing dishonest methods. Most certainly there will be no relaxation by the government authorities in the effort to get at any great railroad wrecker—any man who by clever swindling devices robs investors, oppresses wage workers, and does injustice to the general public.

Check Upon Over-Capitalization.

"To confer upon the national government the power for which I ask would be a check upon over-capitalization and upon the clever gamblers, who benefit by over-capitalization. But it alone would mean an increase in the value, an increase in the safety of the stocks and bonds of law-abiding, honestly managed railroads, and would render it far easier for the market their securities.

"I believe in proper publicity. There has been complaint of some of the investigations recently carried on, but those who complain should put the blame where it belongs—upon the misdeeds which they denounce in darkness, and not upon the investigations which brought them to light. The administration is responsible for turning on the light shown.

State Supervision Inadequate. We ask for full power to be given the federal government, because no single state can by legislation effectually cope

THE CITIZENS' NATIONAL BANK HOUGHTON, MICHIGAN. OFFICERS: Graham Pope, President; C. V. Seeber, Vice-President; C. H. MOSS, Cashier. DIRECTORS: Graham Pope, C. V. Seeber, B. P. Chynoweth, J. H. Hanson, E. R. Hill, A. F. Hoffmann, A. M. Schulte, John G. Stone, C. H. Meese.

FOR SALE—What remains of my livery outfit. Four 2-seat top carriages, four 2-seat top carriages, four 2-seat top carriages, four 2-seat top carriages. For further information call or write Thomas Coughlin, Hancock, Mich. Tel. 253.

rate that the most sanguine and optimistic have been unable to keep pace with its growth. But it is also true that in ordinary methods of operation which hold good in a placid time of steady and regular movement, should at a time of crisis yield to the imperative necessities of public need.

"I believe that there is sufficient ingenuity and executive genius in the operating officials of the roads greatly to diminish the troubles complained of. The most effective way to lessen demands for unbecoming legislation is for the railroads acting individually and collectively to remedy as many as possible of the abuses and shortcomings for which there really are remedies, and for which remedial laws are demanded.

Honesty in Public Life.

"Let us never forget that this is not merely a matter of business but also a matter of morals. Let the local authorities of the big roads keep out of politics; and when they have to appear before the national or any state legislature let their names be put on a special register, and let their business be above board and open. Let the plain people insist on the one hand on governing themselves and on the other hand on doing exact justice to the railways. Let the big railroad man scrupulously refrain from any effort to influence politics or government save as it is the duty of every good citizen in legitimate ways to try to influence politics and government.

"What we have to demand in ourselves and in our public servants is honesty—honesty to all men; and if we condemn dishonesty because we think it is exercised in the interests of the people, we may rest assured that the man thus showing it lacks only the opportunity to exercise it against the interests of the people. The man who on occasion will corruptly do what is wrong in the interests of a big corporation is the very man eager to blackmail that corporation as the opportunity arises. Hunt such a man out of public life. Demand honesty—absolute, unflinching honesty—together with courage and common sense, in public servant and in business man alike.

Federal Government's Work.

"Rates should not be unduly high; there should be a thorough safeguarding against accidents; there should be no improper shirking of taxes; the shippers of the country must be supplied generously with cars and all other equipment necessary to properly care for our commerce, and all this means that the national government must be given full and effective power of supervision and control.

"But the interests of those who build, who manage, and who invest in the railroads must be no less scrupulously guarded than the interests of the public. It is a prime necessity to allow investments in railway properties to earn a liberal return, a return sufficiently large to cover all risks. We can not get an improved service unless the carriers of the country can sell their securities, and therefore nothing should be done unilaterally to impair their credit nor to decrease the value of their outstanding obligations.

Bryan's Plan Inadvisable.

"It is plainly inadvisable for the government to undertake to direct the physical operation of the railways, save in wholly exceptional cases; and the supervision and control it exercises should be both entirely adequate to secure itself and yet no more harassing plans as necessary to secure these ends.

"For several months past some, if not all, of our roads have been in a condition of extreme emergency. In such a time this is mainly due to the fact that the country has outgrown its railroads, that our prosperity has increased at such a

What 'Blue Flame' Means. It means the hottest and cleanest flame produced by any stove. This is the flame the New Perfection Oil Stove gives the instant a lighted match is applied—no delay, no trouble, no soot, no dirt. For cooking, the NEW PERFECTION Wick Blue Flame Oil Cook-Stove is unequaled. It gives quick results because its heat is highly concentrated. Cuts fuel-expense in two. Made in three sizes. Every stove warranted. If not at your dealer's write to our nearest agency. The Rayo Lamp is the best all-round household use. Made of brass throughout and beautifully nickled. Perfectly constructed; absolutely safe; unexcelled in light-giving power; an ornament to any room. Every lamp warranted. If not at your dealer's, write to our nearest agency. STANDARD OIL COMPANY (INCORPORATED)

This beautiful soft bag, also twenty other styles of bag, for **\$1.00 Each.** They are Bargains. See our Window.

**City Brevities**  
Today's weather: Partly cloudy; stationary temperature.  
Yesterday's temperatures: Seven a. m., 45 degrees; noon, 50; 7 p. m., 50. Maximum, 57 degrees; minimum, 45.  
Henry Hooper will leave for the copper country today.  
Elbert Savage, of Newberry, was in the city yesterday.  
Mr. and Mrs. E. C. Raymond, of Crystal Falls, are visiting in Marquette.  
John Charbonneau, of Ishpeming, spent yesterday in Marquette.  
The Young Ladies' guild will meet with the Misses Stone, No. 524 Spruce street, this afternoon.  
Philip Cheek, who delivered the Decoration Day address, left last evening for his home at Baraboo, Wis.  
David R. Star and son, Wilbur, have returned to their home at Medford, Wis., after a visit with friends in this city.  
St. Mary's guild will meet with Mrs. Katherine Barnes, No. 135 West Bluff street, this afternoon at 2 o'clock.  
H. C. Reynolds is here from Cleveland, the guest of his parents, Mr. and Mrs. J. G. Reynolds, for a few days.  
Miss Estelle DuRoche, of Escanaba, spent yesterday with her parents, Mr. and Mrs. H. DuRoche, No. 1021 North Third street.  
The Presbyterian Ladies' Missionary society will meet this afternoon at 3 o'clock with Mrs. F. R. Field, No. 320 North Front street.  
Mesdames S. E. Norton and G. D. Barnard, of Jackson, are guests at the home of C. M. Gooding, No. 436 East Michigan street.  
The final subscription party of the series will take place at Legion Hall tonight. Dancing will begin promptly at nine.  
The Ladies' Aid society of the M. E. church will meet with Mrs. M. W. Anderson, No. 325 East Arch street, this afternoon at 2 o'clock.  
The Rival Juniors defeated the North Ends at the old fair grounds yesterday afternoon by the score of 17 to 12. The Rival Juniors will clash with the West Ends Sunday afternoon.  
A pleasant surprise party was tendered, Miss Lucy Archambeau last night at Siegel's Hall. Dancing was enjoyed from 9 until 12, and lunch was served. Twenty-five couples were present.  
The young people of the Swedish Lutheran congregation will serve supper and give a musical and literary entertainment at the church this evening. They extend to their friends a cordial invitation to be present.  
The West Ends baseball team of this city defeated the Beavers of Ishpeming in a game played at Union Park yesterday afternoon, winning by the score of 14 to 8. The batteries were: for the West Ends, Balme and Reynolds; for the Beavers, Saunders and Trombly.  
The Savings Bank team forfeited to the All Stars yesterday afternoon after ten innings play, with the score a tie, by leaving the field. Each team had eight runs at the time, but the game will be credited to the All Stars by the score of 9 to 0. Godwin and Elliot were in the points for the All Stars, and Gaffney and Gaffney for the Savings Banks. The game was played at Negawage.

**ESCANABA MEN INSPECT PLANT**  
LOOKED INTO MUNICIPAL LIGHTING MATTERS HERE—GAINED MUCH INFORMATION.  
HAVE AN UNUSUAL OFFER  
Comparative Figures Showing Cheapness of Service in This City—Superintendent Gives Some Interesting Views.

The Marquette lighting plant was inspected this week by a delegation of Escanaba officials, including Messrs. Groenboom, Fogarty and Erickson, members of the board of public works, Clerk Manley and Superintendent Roemer, who has charge of the municipal lighting plant in that city. Their purposes in visiting Marquette was to acquaint themselves with the methods of handling the plant and the business system in vogue here and also to counsel with the Marquette board members and Superintendent Retaille in regard to an offer for power recently received by them at Escanaba. They thoroughly inspected the Marquette plant and office methods, with which they were greatly pleased, and had an extensive consultation with Superintendent Retaille and J. E. Sherman, the chairman of the Marquette commission.

A paper company proposes to develop a considerable horsepower on the Escanaba river. Having in prospect more power than it needs for its own purposes, it would like to sell the surplus power, or part of it, to Escanaba, to be retained by the city for the customers of the present municipal plant. The members of the board of public works do not like the form of the present offer. It proposes a rate of two and a quarter cents per kilowatt hour to be paid for three hours a day taking the consumption of current at its highest point in the month as a basis for computation. All other current used is to be paid for at the rate of one and a half cents a kilowatt hour. In other words in a thirty day month the city would have to pay two and a quarter cents per kilowatt for 1,500 hours, each hour reckoned at the highest consumption of current shown at any time during the month, and for other current at one and one-half cents per kilowatt hour. The Escanaba officials don't like the uncertainty about this offer, and would prefer a flat rate. The judgment of the Marquette men consulted was also favorable to a flat rate, and two cents per kilowatt hour has been suggested.

The Escanaba municipal plant is a steam driven affair and has been a good deal of a burden on the city, as it has not made any money. Still sentiment at Escanaba favors its retention, and a proposal to sell it was recently voted down.

**Marquette's Lighting Rates.**  
In view of the discussion of lighting matters in the county at the present time it is interesting to review the rates in force here, and to compare them with present and prospective rates at Negawage and Ishpeming. Marquette's rates are said to be the lowest paid for lighting service anywhere in the entire county. They are seven cents per kilowatt hour for residences and five cents for business places; \$75 annually for each lamp and one to five cents per kilowatt hour for motors, according to the amount of power used. The lamps in use here are of 7 1/2 amperes, rated 2,000 candle power, and consume one-sixth more current than any other lamp used in this region. Superintendent Retaille says there are a few lower Michigan towns, where the basis of the service is a water power, that no lighting at eight cents per kilowatt hour. As far as he knows this is the nearest approach to the low Marquette rates.

The municipal rate at Negawage at the present time is twelve cents. This is nearly twice the Marquette rate for residences and slightly more than twice the Marquette rate for business places. The Marquette County Gas & Electric company, which has made an offer to buy the Negawage plant, proposes a rate of 11 cents for the first fifty kilowatt hours; ten for the next fifty; nine for the third fifty, and eight cents for all over 150 K. W. hours. There wouldn't be in Negawage a handful of consumers who would pay for over fifty K. W. hours, so the rate would, for all intents and purposes, be eleven cents, alike for residences and business places. This compares with an average rate in Marquette of six cents for residences and business places.

**Present Ishpeming Rate High.**  
The present rate in Ishpeming, which the Marquette Co. Gas & Electric Co. proposes to supersede by the same schedule it has offered to make effective in Negawage, is fifteen cents per kilowatt hour, with a reduction of 15 per cent to consumers paying for over fifty kilowatt hours. But there are in Ishpeming comparatively few consumers who pay for over fifty kilowatt hours, so that the present rate, for all practical purposes, is fifteen cents per kilowatt hour, compared with six cents in Marquette. It will be seen that in proposing the new rate of eleven cents the Marquette County Gas & Electric company proposes a big reduction.

**MINSTREL SHOW TONIGHT.**  
Richards & Pringle's, Old Favorites, to Appear at Local Opera House.  
Richards & Pringle's famous Georgia Minstrels, with their clever comedians, beautiful singers, nimble dancers and big vaudeville bill, will be seen at the Marquette Opera House tonight. The management brings here an entirely new show this season. New faces, new features, new acts, new wardrobe, new scenery and paraphernalia. Only one member remains from last season, Clarence Powell. The new members of note are Jim Crosby, Fred Simpson, Lester McDaniels, Frank Kirk, Happy Buregard; the wonder, Marsh Craig; the musicians and comedians, Kirk and Cooper; the three Toney's, marvelous acrobats; the Jolly Old Men, song and dance; Clarence Powell, the monologist; Lester McDaniels, the grotesque comic bicycle rider, are a few of the leading lights. A big street parade will be given.

**ESCANABA MEN INSPECT PLANT**  
LOOKED INTO MUNICIPAL LIGHTING MATTERS HERE—GAINED MUCH INFORMATION.  
HAVE AN UNUSUAL OFFER  
Comparative Figures Showing Cheapness of Service in This City—Superintendent Gives Some Interesting Views.

As far as he knows this is the nearest approach to the low Marquette rates.

The municipal rate at Negawage at the present time is twelve cents. This is nearly twice the Marquette rate for residences and slightly more than twice the Marquette rate for business places. The Marquette County Gas & Electric company, which has made an offer to buy the Negawage plant, proposes a rate of 11 cents for the first fifty kilowatt hours; ten for the next fifty; nine for the third fifty, and eight cents for all over 150 K. W. hours. There wouldn't be in Negawage a handful of consumers who would pay for over fifty K. W. hours, so the rate would, for all intents and purposes, be eleven cents, alike for residences and business places. This compares with an average rate in Marquette of six cents for residences and business places.

**Present Ishpeming Rate High.**  
The present rate in Ishpeming, which the Marquette Co. Gas & Electric Co. proposes to supersede by the same schedule it has offered to make effective in Negawage, is fifteen cents per kilowatt hour, with a reduction of 15 per cent to consumers paying for over fifty kilowatt hours. But there are in Ishpeming comparatively few consumers who pay for over fifty kilowatt hours, so that the present rate, for all practical purposes, is fifteen cents per kilowatt hour, compared with six cents in Marquette. It will be seen that in proposing the new rate of eleven cents the Marquette County Gas & Electric company proposes a big reduction.

duction. A Marquette man thoroughly familiar with the company's plant and well informed on electrical matters informs The Mining Journal that, considering the equipment at the Ishpeming-Negawage power house, the eleven cent rate is a good one. The equipment, he asserts, is not entirely modern, consequently costs are higher than they might well be. The plant, it may be remarked, has been in the hands of its present owners less than a year.  
This same authority tells The Mining Journal that the equipment that has been suggested for the Negawage municipal plant, to supersede the present outfit—a 300 kilowatt generator and a turbine engine—is an equipment that would be recommended by nearly every competent expert, as it is now the best electrical practice to install a turbine engine with generating units from 300 K. W. up. The turbine engine is more efficient than the reciprocating engine from three quarters to the peak of the load, and less efficient under half the load.  
**Must Popularize Service.**  
"The secret of success in electric lighting lies, in all but exceptional cases, in the popularizing of the service by low rates," Superintendent Retaille said to The Mining Journal yesterday. "It has been the general experience that plants charging more than ten cents a kilowatt hour have been failures or indifferent successes, and prices must range somewhat under ten cents to get the maximum business. Our rates here have so popularized the service that we are getting the maximum business, a thing in no small measure responsible for our success. Our service is within the reach of the most humble householder. The charges against individual consumers are mostly either moderate or small. There are a surprising number of customers now paying less than a dollar for their electric lighting, but in the aggregate their rates give us a handsome income and permit of a big profit."  
"Could the Marquette plant make money if it had to depend on steam for power?" was asked the superintendent. "Yes, I believe it could," he replied "if managed in the same way it is now. Of course the margin of profit would be much smaller. It would be cut down by the amount of the coal bills and these I should say, at a rough estimate, would be \$8,000 annually."  
It is an interesting fact that though Superintendent Retaille is in charge of a municipal plant whose success is in fact assured by no means an enthusiastic on the subject of public ownership for most-cities-to-experiment with. In this connection he endorsed the opinion expressed by The Mining Journal yesterday that the success of the Marquette plant was due in large measure to the exceptionally advantageous conditions that have surrounded its operation.

**HOW'S THIS.**  
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.  
F. J. CHENEY & CO., Toledo, O.  
We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

## Marquette National Bank.

Marquette, Michigan.

### BOAT OVERTURNS.

**Two Dayton (O.) Men Drown in the Miami River.**  
Dayton, O., May 30.—Two men were drowned and a third had a narrow escape when their boat overturned in the Miami river, near here, this afternoon. The dead were Otto Henn and James Custy.

### ENDS LIFE ON WIFE'S GRAVE.

**Dr. J. K. Jamison of Chicago Commits Suicide by Shooting.**  
Waukesha, Wis., May 30.—Dr. J. K. Jamison of Chicago, committed suicide by shooting at the grave of his wife at the cemetery in Genesee yesterday. Constant brooding over his wife's death is believed to have been the cause.

### MURDER AND SUICIDE.

**Coroner's Jury's Verdict in Case of Two Illinois Girls Found Dead.**  
Springfield, Ill., May 30.—A verdict that Carrie Leadbrand, aged seven, came to her death by a gunshot wound inflicted by her sister Cora, aged seventeen, yesterday, and that Cora committed suicide by shooting herself, was found by the coroner's jury today in the double tragedy in Cotton Hill township. It appears that Cora was dissatisfied with farm life, and this with the invalid condition of her little sister made her discouraged. Evidence tended to show that the girl shot her sister, and then dragged the body into the creek, and that she next shot herself.

### EASTERN RAILROADS YIELD.

**Liability for Loss and Damage to Shipments Is Admitted.**  
Chicago, May 30.—An agreement has been reached between the Eastern railroads and shippers whereby the latter will ask the interstate commerce commission to dismiss the bill of lading case which has been before that body since December, 1905. On the other hand, the railroads have agreed to present to the commission a new uniform bill of lading providing for only one rate, therefore accepting the common law liability for loss and damage which attaches to carriers. The entire question was one of liability on the part of the carriers for loss and damage to shipments.

### FORTY-YEAR-OLD QUESTION.

**United Presbyterians Decide Not to Create Office of General Treasurer.**  
Denver, May 30.—The general assembly of the United Presbyterian church closed today. After a warm discussion it was decided not to create the office of general treasurer of the church. The question has come up at each assembly for the past forty years. A resolution looking to the consolidation of the theological seminaries at Allegheny and Xenia also was defeated. The committee on Sabbath observance offered a resolution, which was agreed to, for the more strict enforcement of the Sunday laws.

### JAILED FOR EMBEZZLEMENT.

**Springfield, Ill., May 30.—James McMillan, secretary and treasurer of the Building & Loan association of South Carleton, who disappeared two years ago, was arrested this afternoon in Cedarville and was brought to jail to answer to an indictment returned by the grand jury in 1906, charging him with embezzling \$25,000. Since leaving here McMillan has been in Mexico and Central America. He returned to visit his family.**

### JOE CANNON IN WASHINGTON.

**Washington, May 30.—Speaker Cannon returned today from Guilford, N. C., and will leave tomorrow for his home in Danville, Ill., where he says, he will take a rest.**

### NORSE SOVEREIGNS IN LONDON.

**Paris, May 30.—King Haakon and Queen Maud of Norway, and their suites, left Paris this morning for London.**

### TEMPORARY FLOORING BREAKS.

**Many Persons Hurt at a Cornerstone Ceremony at Wilkesbarre, Pa.**  
Wilkesbarre, Pa., May 30.—At the laying of the cornerstone of St. Mary's Greek Catholic church this afternoon, a temporary flooring collapsed, precipitating about sixty persons into the cellar, twelve feet below.

For an hour the utmost excitement prevailed. The majority of those in the wreckage and the screams from the injured could be heard a block away. Ladders were secured from neighboring factories, and with the aid of the police the injured were removed from their perilous position. Some were able to walk to their homes while others were removed to the hospitals in ambulances.

Bishop Hogan of Scranton, who went down with the crash, was at first reported seriously hurt, but this proved untrue. He was badly shaken up, however. Among the injured were six priests.

### STORM HAVOC AT HOUSTON.

**Houses Wrecked and the Country for Miles Covered With Water.**  
Houston, Tex., May 30.—A series of violent storms, electric and cyclonic in character, accompanied by successive cloudbursts, swept over Houston and vicinity last night, causing incalculable damage. Many houses were wrecked and the country for miles was covered with water.

### Cool Wave Still Widespread.

**Washington, May 30.—"Still cold for the season, but not too cold," was the way Forecaster Frankfield of the weather bureau tonight summed up the reports telegraphed to the weather bureau from the country east of the Rocky mountains. It is coolest in Colorado, Kansas and Oklahoma. While much warmer than usual at this time of the year in Idaho, Oregon and Washington, practically all the rest of the country is embraced in a wave of abnormally cool weather, some regions reporting fifteen to twenty degrees below the seasonal average. There are no marked changes in temperature predicted by the weather bureau, except in the Pacific slope region and in Missouri and Upper Mississippi valley states, where it will be warmer Saturday.**

### SCATHING ARRANGEMENT.

**President's Letter Requesting the Resignation of Governor Hagerman.**  
Albuquerque, N. M., May 30.—The Citizen today hints the text of a letter from President Roosevelt to former Governor Hagerman, who recently resigned as governor at the request of the president. In the letter Hagerman is scathingly arraigned for the part he took in the Pennington Development company land transaction, upon which the request for Hagerman's resignation was based. The president says that but for the former governor's previous good record, he would have been removed, instead of being allowed to resign.

The publication of the president's letter has inspired Hagerman to make public his reply to the president, in which he reviews his part in the Pennington Development company transaction and vigorously denies any participation in the charges contained in the president's letter. He declares that only his high regard for the presidential office prevents his reply being made in harsher language.

### W. J. BRYAN AT JAMESTOWN.

**"Taxation Without Representation Is Tyranny," Subject of His Speech.**  
Norfolk, May 30.—W. J. Bryan was the orator of the day at the celebration of "Patrick Henry Day" at the Jamestown exposition. His subject was "Taxation Without Representation Is Tyranny."

Mr. Bryan, referring to a reference to Senator Daniel for the presidency, expressed his admiration for Mr. Daniel, and added: "I have said time and again that sections should control the selection of our candidates. In fact, two years and a half ago at St. Louis I seconded the nomination of a man from Missouri, an ex-Confederate soldier, when Virginia voted for a New York man. And I have insisted that the time has come when the Democracy should take in the whole nation, and that its selection should be made without regard to the state in which a man lives."

### STEEL TRUST GAINS MILLIONS.

**Increased Earnings of Corporation Prove General Trade Sound.**  
New York, May 30.—Notwithstanding the widespread talk of a business recession having set in it is said the second quarter of the United States Steel Corporation's fiscal year will show the greatest earnings in the history of that corporation. The estimate places the earnings at \$12,000,000, an increase of about \$2,000,000 over the corresponding quarter of 1906.

### UNSEXING BILL IS DEFEATED.

**Wisconsin Senate Kills Elver Measure for Sterilizing Imbeciles.**  
Madison, Wis., May 30.—The Elver bill, providing for sterilization of imbeciles and insane persons, was killed in the state senate yesterday. The measure passed the assembly, but without an act appropriating funds for its enforcement and operation.

### SOO CANAL PASSAGES.

**Boats Locked Through, Bound for Ports on Lake Superior.**  
Sault Ste. Marie, Mich., May 30.—[Special.]—The upbound boats passing the canals the last twenty-four hours were the following: Shenale, Troy, 6:30 p. m.; Colgate, 10:30; E. L. Wallace, 11; Weeks, 11:30; Ireland, midnight; M. C. Douglas, Snyder, Superior City, 1:30 a. m.; Lackawanna, 4:30; Kerr, Scottish Hero, 5; Geo. Stephenson, 6; Clarke, Otis, 8:30; Leonard, Hanna, Victory, Constitution, 9:30; Kendall, Empire City, 10; Saturn, 10:30; Andaste, 11; Matoa, Frontenac, Mariposa, Marina, George Gould, 11:30; Mariska and whaleback, 2 p. m.; Queen City, James Davidson, 3:30; Hoover, 4; Harvard, Carnegie, 4:30; Williams, 5:30.

### Marquette Port List.

The Mather, for Buffalo, was the only carrier to clear yesterday. She was loaded at the L. S. & L. dock. Other boats at that dock are the Glasgow, Abyssinia, Peter White, Chattanooga, Louisiana, Andaste and Frontenac.

"Hello!"  
"Is this my druggist? I've got a bad cough, hoarseness and cold on the chest; send around right away a bottle of"

**DR. D. JAYNE'S EXPECTORANT**  
This old and reliable remedy has been relieving and curing coughs and colds for 77 years. Very effective in all cases of Croup, Whooping Cough, Congested Colds, Bronchitis, Inflammation of the Lungs and other pulmonary ailments.  
Sold by all druggists in three size bottles, \$1.00, 50c., 25c.  
Jayne's Tonic Vermifuge is a gentle and effective tonic for every member of the family.  
Jayne's Sensitive Pills—the oldest and safest liver regulator known.

### NEW RESERVE CREATED.

**Is 60 Feet Wide and Extends Along the Entire Mexican Border.**  
Washington, May 30.—The president has issued a proclamation creating a reservation sixty feet in width along the entire northern border of Mexico, including the state of California and the territories of Arizona and New Mexico. The purpose of the reservation is declared to be the suppression of smuggling across the international line.

### APPREHENSION IN PANAMA.

**Grave Pears Water Supply for the Canal Will Be Insufficient.**  
Panama, May 30.—According to a report made by a minority of the isthmian canal commission, it was estimated that the area of the canal and lake survey would not exceed 100 square miles. It now appears from excellent authority that that portion of the canal and lake surveyed up to date, which is less than half of the ultimate total, exceeds 200 square miles, and that the water supply is insufficient to supply water for this increased area.

### LONGBOAT AN EASY WINNER.

**Toronto Indian Defeats Buffalo Runner in a Three-Mile Race.**  
Buffalo, May 30.—Tom Longboat, the Ojibwa Indian of Toronto, Ont., easily defeated a Canadian runner in a three-mile foot race today. His time was 16:04.25.

### IOWA REPUBLICAN LEADER.

**Sioux City, Ia., May 30.—Phil A. Bond, one of the most prominent lawyers in northwestern Iowa, died in a hospital here today, aged 39, following a surgical operation. He was a well known republican leader in this part of the state.**

### Mining News

#### NOISS FROM BINGHAM.

The strike epidemic has struck the mining camp of Mercur, where the miners employed in the Consolidated Mercury mine have demanded a raise of fifty cents per day in wages, the men basing their claim for recognition on the ground that lower wages are paid miners in Mercur than in any other camp in Utah, writes a Salt Lake correspondent. While the company is willing to admit this much, it insists that the margin of profit in the operation of the mine has been so small heretofore that higher wages have not been consistently justified. It is likely, however, that some concession will be made to the men by the mine management. Miners have received \$2.50 a day heretofore.

Shareholders of the Ohio Copper company have received notice of a meeting to be held at Lincoln, Neb. The object is to legalize the resolution passed at a previous meeting of shareholders authorizing the issue of \$500,000 worth of improvement bonds, the proceeds from which are to be applied towards mill construction.

The Nevada Utah Mines & Smelters corporation has taken up its option on the Pioche Consolidated and other properties in the Pioche and Jack Rabbit districts, Nevada. Money aggregating \$500,000 has been paid, of which H. B. Claffin of New York was the principal participant. The property was bonded to the Nevada Utah mines and smelters for the initial payment on the purchase price was not due until next month and was to have run for three years longer. The construction of the railroad from Caliente to Pioche is being pushed, but it is not expected that this year's work will be completed before August or September.

By the time the railroad is completed, several Pioche mines will be in condition to begin regular ore shipments. Among the number will be the Nevada Utah and Ohio Kentucky mining companies, both of which are conducting a very vigorous campaign of development at the present time. Samuel Newhouse is now a factor in the latter proposition and plans are being discussed looking towards the erection of a smelter at Bullwinkle, twelve miles from Caliente. If the plant is built, it will be open for the treatment of custom ore.

The Markham Guleh mill of the Markham Guleh Milling company in Bingham will be ready in a day or two. The initial run will be on ore from the Utah Apex mine. The management of the

latter property expects to report record-breaking production in June. The shipping ore being moved to market from the Utah Apex mine in Bingham is netting the Utah Apex company about \$15 a ton. The mine has never looked as good as it does now.

The launching of the Silver King Coalition Mines company, at Park City, is one of the big mining deals of the year in Utah. With the Silver King mine, which has paid more than \$10,000,000 in dividends, as nucleus, the promoters of this concern are gathering together more than 2,000 acres of valuable mining ground covering a large part of the best mineralized portion of the camp of Park City. Aside from the Silver King, the coalition includes the Keith-Kearns, Pinion Ridge, Magnolia, St. Louis, Odin, Belmont and other mines. The company is capitalized for 1,250,000 shares, of the par value of \$5 each, and is organized under the laws of the state of Nevada.

The officers are: David Keith, president; Thomas Kearns, vice president and general manager; W. S. McCormick, treasurer. The Silver King mill is to be enlarged one-third, it being the intention to dismantle the plant operated heretofore by the Keith-Kearns company and move it to the site of the present Silver King plant.

At the annual meeting of shareholders of the Daly Judge Mining company, H. Otto Hanko of Cincinnati, O., was elected president in the place of John J. Daly, retired; Moylan C. Fox of Salt Lake, vice president; George W. Lamourne of Salt Lake, manager, secretary and treasurer. F. C. Burrell of Michigan has been appointed mine manager.

### COPPER COMPANY SURPLUSES.

Never before in their career, comments the Boston News Bureau, have the big producing copper companies been able to present a showing of net liquid assets—cash and copper—which approach their condition today. The high copper market has made extraordinary earnings possible, but all these earnings have not been paid out in dividends. Large sums have been expended for construction and the balance carried to surplus.

The Anaconda Copper company recently reported for the year ended Dec. 31 a surplus of \$9,183,241. This, however, is purely a book-keeping surplus. In the case of Anaconda its net quick assets are really the tangible surplus, and at the date of the last annual report this item amounted to no less than \$14,213,918. Calumet & Hecla has at the present time a surplus which approximates \$18,000,000, of which \$9,000,000 represents "investments" made during the past year or two. The remaining \$9,000,000 is cash and copper.

It may be of interest to set down in tabular form the surpluses of the more important copper producing companies as of date in the majority of cases Dec. 31, 1906. These figures show a strong treasury position, notwithstanding the large dividends paid during the year. The figures follow:

Calumet & Hecla	\$18,000,000
Anaconda	14,213,918
U. S. Smelting	10,358,241
Calumet & Arizona	4,666,133
Copper Range	2,515,466
Utah Consolidated	2,451,228
North Butte	2,131,850
Osceola	1,237,164
Quincy	1,220,532
Mohave	1,050,416
Isle Royale	962,219
Isle Royale	772,592

\*Net quick assets.

Earnings today are surpassing all records and yet the copper shares in the stock market are languishing under the absence of buying orders, the result, in large measure, of the continued liquidation in the New York market. Uncertainty prevails regarding the future of the copper metal market for the balance of the year, and this tends to restrain any buying at this level. For the first six months the average was 23¢ at 24¢.

Buyers are exceedingly wary just at this time and will not contract far ahead at 25 cents per pound with all the uncertainty which seems to pervade the general business atmosphere.

### GRANBY CONSOLIDATED.

The assertion is made that Granby should be in a position within a few days to put into full operation the eight furnaces of its smelting plant after an eight-month shut-down by reason of the Canadian coal strike. At no time since their completion have the eight furnaces, comprising the largest smelting battery in the Boundary district, been able to run simultaneously. In fact, the eight furnaces have been most difficult ones for maintaining operation, that section of the plant's furnaces was forced either through cold weather, lack of fuel or transportation facilities, the mine management has been unable to keep the section in operation its force of men and blocked out, it is asserted, vast quantities of ore in addition to the 6,000,000 to 10,000,000 tons reported in sight at the time the stock was listed on the New York exchange.

Naturally the low costs which Granby has enjoyed in the past will be higher this year, but with a strong cash reserve and with a good average price received for its copper for the fiscal year to end June 30, it is declared, the company should close its current fiscal year with a record showing. In the year ended June 30, 1906, the company brought forward over \$3,000,000, of which amount \$1,500,000 was surplus carried over from the previous year and \$1,500,000 represented net profits from the 1905-06 operations.

It has been confidently expected that a production of at least 30,000,000 pounds would be forthcoming during the year to end next month, and while this figure will not be attained, a slight increase over the 29,000,000 pounds indicated in the last annual report will probably be shown. The Granby rock continues to run very low grade—about 1 per cent—but it would not be surprising if this year's rock were above some improvement over the 24.31 pounds of copper to the ton of rock shown in the last fiscal year.

### GOOD WORDS FOR CHAMBERLAIN'S COUGH REMEDY.

People everywhere take pleasure in testifying to the good qualities of Chamberlain's Cough Remedy. Mrs. Edward Phillips of Barclay, Md., writes: "I wish to tell you that I am recommed Chamberlain's Cough Remedy. My little girl, Catherine, who is two years old, has been taking this remedy whenever she has had a cold, since she was two months old. About a month ago I contracted a dreadful cold myself, but I took Chamberlain's Cough Remedy and was soon as well as ever." This remedy is for sale by The Stafford Drug Co.

# In the Face of Competition

We have secured fifteen per cent. of the cigar business of this country.

How? By making better cigars of every grade than any other manufacturer has produced, and telling the truth about them.

By making the strongest definite claims that any cigar manufacturer ever dared to make—and by living up to them.

By marking the boxes of our standard brands with the Triangle A so that every smoker of this country could shut down on the hit-or-miss way of buying cigars on anybody's say-so, and make his selections from brands that he knows are the best his money can pay for—better in every way—quality and grading of leaf, evenness of blend, and perfection of condition.

Now put that to the test. Smoke a cigar of some brand bearing the "A" (Triangle A) and find out. You can't do better than begin with

**The New CREMO**  
Every box is extra-wrapped in glassine paper sealed to maintain perfect smoking condition and cleanliness until the box is opened.

**AMERICAN CIGAR COMPANY** Merit Mark  
Manufacturer

## Upper Peninsula

Big Loan Secured—

The Sault Ste. Marie Gas & Electric company has secured a loan of \$200,000 from the Metropolitan Trust & Savings bank, giving as security first mortgage gold bonds drawing 5 1/2 per cent interest. The money is to be used in enlarging the plant and business in the Soo.

### Fancy Poultry Soo's Fad—

Raising fancy poultry appears to be something of a fad at Sault Ste. Marie, at least there are dozens of chicken fanciers in town, and they go into the diversion strong. There is a flourishing poultry raisers' association with numerous enthusiastic members, and each year the annual exhibition of barn-yard fowls would do credit to a city many times the population. It is the assertion of the experts brought in to officiate as judges at these yearly exhibitions that in no place in the country can better breeds of chickens be found than in the Soo; in fact, if there are any breeds not represented they are unknown to the United States. Recently one fancier at the Soo sold his stock of forty-eight hens for \$200 cash, an average of over \$4 each. The birds were taken out of the city.

### Private Car for Miller—

A private car is being built by the Barney & Smith company of Dayton, O., for John Miller, president of the Manistique railway, Michigan, and the Duluth & Northern Minnesota railroad, Minnesota, and general manager of the extensive lumber and logging interests of the Alger-Smith syndicate of Detroit. The coach will be finely finished and furnished, will be supplied with all conveniences, and will cost \$15,000. The Alger-Smith interests are extensive, extending from Lake Superior to the Gulf and west to the Pacific, and much of Mr. Miller's time is necessary spent in railroad travel. In his private car he will have all the comforts of home. The coach will be christened the "Grand Marais" in honor of the Alger county lumbering town of that name to which, in 1894, Mr. Miller gave birthright by connecting it with the outside world by means of the Manistique railroad and to which he assured long-continued prosperity by the establishment of the extensive operations of the Manistique and Marais lumber companies.

### Saloonists in Trouble—

Arrested on complaint of Rev. Mr. Rutledge of Ishpening, upper peninsula representative of the anti-saloon league, four saloon keepers at Amasa, Iron county, will have to stand trial for violation of the liquor law. The men are George Frenno, Charles Peterson, Joseph Gosman and Albion Moser. The circumstances are somewhat peculiar. The defendants are accused of having transacted business on election day, early last April. They do not deny the charge, but contend that it was with the permission of the authorities that they opened their bars after the polls had closed. Complaint was made to the Anti-Saloon league at the time, it is said, but the cases have been permitted to lie dormant until now. The sympathy of the community, it appears, is in this instance with the liquor men. It is remarked in the connection that if the proprietors of all the upper peninsula saloons open on election day, early last April, they do not deny the charge, but contend that it was with the permission of the authorities that they opened their bars after the polls had closed. Complaint was made to the Anti-Saloon league at the time, it is said, but the cases have been permitted to lie dormant until now. The sympathy of the community, it appears, is in this instance with the liquor men. It is remarked in the connection that if the proprietors of all the upper peninsula saloons open on election day, early last April, they do not deny the charge, but contend that it was with the permission of the authorities that they opened their bars after the polls had closed. Complaint was made to the Anti-Saloon league at the time, it is said, but the cases have been permitted to lie dormant until now. The sympathy of the community, it appears, is in this instance with the liquor men. It is remarked in the connection that if the proprietors of all the upper peninsula saloons open on election day, early last April, they do not deny the charge, but contend that it was with the permission of the authorities that they opened their bars after the polls had closed. Complaint was made to the Anti-Saloon league at the time, it is said, but the cases have been permitted to lie dormant until now. The sympathy of the community, it appears, is in this instance with the liquor men. It is remarked in the connection that if the proprietors of all the upper peninsula saloons open on election day, early last April, they do not deny the charge, but contend that it was with the permission of the authorities that they opened their bars after the polls had closed. Complaint was made to the Anti-Saloon league at the time, it is said, but the cases have been permitted to lie dormant until now. **Pianos That Are Sold on  
Their Merits**

The best proof that the Pianos sold by the Cable Piano Co., are in every way good value is the large business that is being done both in the Upper Peninsula and the entire United States. We do not resort to "quack" advertising, such as 'sales' where instruments are advertised to be almost given away; nor to guessing contests where people are made to believe they are getting a piano for \$50 to \$100 less than they ought to pay. Your common sense tells you that this is ridiculous.

We appeal to a man's good judgement, and as we have done in the past we will continue to give real value for the money invested, whether you buy one of our most artistic instruments or a medium priced one.

**ZENITH CLUB'S PARTY.**

Last Night's Function One of the Finest Ever Given by the Organization.

Over 400 couples attended the dancing party given last evening at Braastad's hall under auspices of the Zenith club. This organization has conducted in the neighborhood of twenty parties during the past two seasons, but none have been more successful, socially, than the one last night. The decorations were appropriate to the day, consisting entirely of American flags, which were artistically draped on the walls. Hanging from the center was the regimental flag of Zenith lodge, Knights of Pythias.

At 10 o'clock there was an intermission and some forty members of the military band of the society marched into the hall, attired in their new uniforms and headed by a fife, standard bearer and drummer, representing the "Spirit of '76." After making a complete circuit of the hall the military organization formed a cross in the center. The lights were turned low and a young lady, representing the Goddess of Liberty, appeared from behind a screen on the platform. With the dim lights and the national colors, the bright uniforms of the members of the military organization, the scene was an exceptionally pretty one.

Dancing started early and was continued until after midnight. Tromby's orchestra furnishing excellent music. Large delegations were present from Marquette and Negaunee.

**"A YANKEE TOURIST."**

Raymond Hitchcock to Present Henry W. Savage's Masterpiece.

One of the prettiest of comic operas will be seen here this evening when Raymond Hitchcock, that long popular comedian, will be seen at the Ishpeming theater in Henry W. Savage's newest musical success, "Yankee Tourist." If this clever comedian was given a piece of mediocre standard he could provide an evening's keen enjoyment, but "Yankee Tourist" was written especially for his peculiarly droll style by Richard Harding Davis, well known as an author and war correspondent of much fame, and it is said that Mr. Hitchcock has never cast more strikingly during his stage career. Wallace Irwin, prominent principally because of his verse published in Collier's and other magazines, has provided the lyrics for this tuneful production and lyrics of compelling character they are, too. The music comes from the talented Alvin K. Robyn, best remembered, perhaps, for his score of "The Yankee Consul" in which Mr. Hitchcock gained success of a decided and lasting nature. Critics have said that Mr. Robyn's latest effort is even more praiseworthy than his triumphs of former seasons and the characteristic style of his music in "Yankee Tourist" seems to have found popular approval at a bound. There are some score or more of musical numbers, all of which are characterized by a marked strain of originality, not always present in musical offerings of today.

**IMPROVING CLEVELAND PARK.**

Summer Resort Near Golf Club House Will Be Kept in Good Condition.

The Marquette County, Gas & Electric company has men at work at Cleveland park repairing the dancing pavilion. Other improvements are to be made within a few days. Manager Kedge has date expects to purchase a canvas for top for the dancing pavilion, the canvas to be removed at the end of the season. The floor will be put in excellent condition for dancing.

Mr. McCormick has ordered three new boats for the pond on the north side of the park. He will put a man in charge of the place, whose duty will be to keep the grounds in the best possible condition and to collect a revenue for the rental of the boats. The charge, however, will be nominal. The spring between the grounds and the pond will be cleaned and otherwise improved and approaches will be built to it; an approach will also be built to the boat dock. Tables and seats are to be placed around a number of the large trees and a half dozen or more will be erected; substantial poles will be put up, chain and rods will be used and seats will be built for each swing, so that the children can enjoy them without danger of falling. The tables and seats in the ravine, where meals are served, will be improved, and the kitchen will be repaired. The pavilion and grounds, along the road leading to the park, will be thoroughly lighted with electricity, both arcs and incandescents being used.

The first big picnic of the season takes place at the park on Midsummer Day, when the Scandinavian societies of the county will celebrate.

**WILL MEET THIS AFTERNOON.**

Chairman F. E. Keese, of the general arrangement committee for the Fourth of July celebration, has called a meeting for this afternoon at 2 o'clock at the council chamber in the city hall. Sub-committees will be named and a general outline of the entertainment features will be prepared. A number of business men and others who plan to have displays in the parade have already arranged for their horses and wagons.

**BRIDGE IS DOWN.**

The new bridge over the Escanaba river, erected about three years ago at the expense of the county, has been dislodged and it is reported that the structure will probably be destroyed. It is now hanging on one stringer and it looks as though it might go down the stream at any time. The old bridge has been repaired, and is being used. A petition is now being prepared and will be presented to the board of supervisors, asking that the bridge be rebuilt. It is thought that it should be placed from one to three feet higher, so that in the spring the water will not reach it.

**CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.**

There is probably no medicine made that is relied upon with more implicit confidence than Chamberlain's Colic, Cholera and Diarrhoea Remedy. During the third of a century in which it has been in use, people have learned that it is the one remedy that never fails. When reduced with water and sweetened it is pleasant to take. For sale by The Stafford Drug Co.

**FRANKLIN**

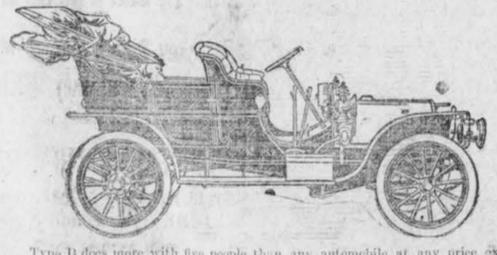

FOUR AUTOMOBILES BUILT ON ONE IDEA THAT MAKES THEM SUPREMELY ABLE-PRICE POWER.

Free from over-heating and compression-leak that sap engine-power at its very source.

Free from freezing and other foolish troubles. Free from heavy water apparatus and other useless weight that retards speed; increases awkwardness and danger; and almost doubles the cost of maintenance.

Free from the jarring of a rigid construction that dissipates the power produced; damages the automobile; and destroys comfort.

Plentiful power that you can freely use and enjoy—that is the Franklin idea.

Type D does more with five people than any automobile at any price except a Franklin—carries them farther in a day; with more safety, ease, more independence of bother and of roads; more real enjoyment. And all for less cost.

### "THE UNSTAINED FLAG."

Rev. W. R. Yonkers Delivered Inspiring Memorial Address Yesterday.

The Presbyterian church was not large enough to accommodate all who sought admission yesterday afternoon, when the Memorial Day exercises were conducted under auspices of Charles E. Towne post of the Grand Army. The weather was ideal; in fact it was the nearest to being a typical spring day that Negaunee has enjoyed this year. The parade to the church composed of members of the Grand Army and city officials, speakers of the day and others in carriages, Company I, Michigan National Guard, and the Ishpeming Light Guard band, was witnessed by a large number of the streets along the line of march being well filled.

The program as given in yesterday's issue of The Mining Journal was carried out without change. Superintendent Orr Schurtz, of the public schools, was master of ceremonies. Rev. W. R. Yonkers, pastor of the Mitchell Methodist church, offered prayer; the pupils of the fifth, sixth and seventh grades of the public schools sang, the Ishpeming Light Guard band rendered appropriate selections, E. E. Scribner of Ishpeming, read Lincoln's Gettysburg address, and Rev. W. R. Yonkers, pastor of the Presbyterian church, delivered the address. His theme was "The Unstained Flag."

Mr. Yonkers said in part: "Memorial Day brings to mind the deeds of the Fathers." That day history and imagination combine to remind us of the deeds of heroes; that while they caused much blood to flow and many lives to be sacrificed, by their sacrifice, made the present possible. On Decoration Day we pay the tribute of respect to those who so gave their lives. Songs of children and flowers of the field and garden testify to the honor a grateful people is glad to bestow. "It has been said that 'imagination is the sincerest flattery.' We have no desire to flatter; we wish only to pay our tribute of respect; can we do anything better than to imitate the patriotism of these soldiers, whose memory we honor this day. To us and I ask you to think with me on the theme 'The Unstained Flag.'"

"Perhaps no national emblem is entirely unstained. Nations like individual men, fall short of the ideal. But in the mind of the true patriot, the Stars and Stripes represent all that is high, noble, inspiring and worthy of imitation in the lives of American citizens."

"First—By conserving freedom. All forms of slavery must be banished and kept out of our country.  
"Second—By recognizing the essential equality of all citizens; giving to all equal opportunity and equal reward for like work.  
"Third—By recognizing that great fact that our individual actions go to make up national characters; as the man is, so men must be measured; as the men and women—yes, the very children of the nation will be judged.  
"Fourth—Sectionalism must be eliminated. The action of San Francisco in the case of the Japanese school children is a case in point. The attitude of one city affects the whole nation.  
"Last—We must be law abiding. No individual or class must be allowed to defy the law with impunity."

### WOLVES AT HEAD OF LEAGUE.

Three-Men Team Series Terminated Wednesday With Warm Contest.

The Wolves were the winners of first prize, a beautiful stein and set of six mugs, in the league bowling series at Orr & Tompkins' alleys, defeating the Pikers Wednesday evening by a lead of 123 pins. The winning team is composed of J. Sanders, George Reichel and Al. Dyer. The team won all but two of the league contests, including two of the three necessary to determine the winners of first place. As the Pikers lost two of the "save" contests the Ravens take second prize.

Reichel challenges any member of the Ravens' team for a wager, three games to constitute the match.

A two-men team league is now being organized and it is expected that the first match will take place next Monday evening. There will be either sixteen or twenty teams in the league.

### WILL OPEN NEXT SUNDAY.

J. F. Allison announces that he will open his moving picture-illustrated song theater in the Sunberg block next Wednesday evening. During the next two or three days he will move his billiard and pool tables from the room to be occupied by the theater to rooms on the second floor, where the business will be conducted. Mr. Allison has engaged A. L. Cooley, formerly operator at the Grand theater, Ishpeming, to manage the house. The theater will be conducted on similar lines to those recently opened in Ishpeming and the admission prices will be ten cents for adults and five cents for children, with performances afternoon and evening. The theater will seat about 200 people.

### RELIEF FROM RHEUMATIC PAINS.

"I suffered with rheumatism for over two years," says Mr. Roland Curry, a patrolman, of Kew West, Fla. "Sometimes it settled in my knees and lamed me so I could hardly walk, at other times it would be in my feet and hands so I was incapacitated for duty. One night when I was in severe pain and lame from it my wife went to the drug store here and came back with a bottle of Chamberlain's Pain Balm. She rubbed with it and found the pain had nearly gone during the night. I kept on using it for a little more than two weeks and found that it drove the rheumatism away. I have not had any trouble from that disease for over three months." For sale by The Stafford Drug Co.

### SOME CLOSED—OTHER OPEN.

Misunderstanding as to Decoration Day Closing Hours for Stores.

There was a misunderstanding among the merchants as to the closing hours for Decoration Day. Two or three years ago the Merchants' association fixed a schedule, but as Decoration Day comes but once a year some of the business men forgot whether they were supposed to close all day or during the afternoon and evening only. The dry goods and clothing merchants had agreed to remain open until noon, though none of them gave the agreement any particular thought. Some of the grocers took the full day off. According to the resolution adopted by the association April 7, 1905, the stores are to be closed but two full days in each year, Christmas and New Year's. On Decoration Day, Midsummer Day, the Fourth, Labor Day and Thanksgiving Day, the stores are to close at noon, remaining closed the rest of the day. On Monday, Wednesday and Thursday evening all stores are supposed to be closed at 8 o'clock. So far as The Mining Journal could learn none of the business men attempted to violate the agreement yesterday, nor is it expected that there will be any change in the present schedule. Those who did not open at all had no complaint to offer because others remained open until noon.

### HERE FOR FEW DAYS.

About thirty students from the Michigan College of Mines, who have been working on the Menominee range for the past month, will arrive in Negaunee this evening, and it is expected that they will make their headquarters here while on this range. Albert Houle, one of the instructors, who has been here for four weeks past with a class of thirty, working in the mines of this city and Ishpeming, said yesterday that the students who are to arrive today from Iron Mountain will probably remain longer than one week. Three days will be spent in the Negaunee mines, and three days in the Ishpeming mines.

### Often The Kidneys Are

Weakened by Over-Work. Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs. The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. I stand the highest for its wonderful cure of the most distressing cases, and its sale remains longer than any other remedy in the drug stores in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

### SOUVENIRS FROM GOLD MINE.

Some of the Negaunee stockholders of the Bellmore Bay Mining company have received coins, made from the first gold brick taken from the company's property. The money was minted by the government without charge to the company. The company received from the brick sixty-two \$2.50 gold pieces and \$2.30 in silver coins, also three copper pennies. The coins are being sold to the stock holders at their face value.

### LOCAL LACONICS.

Captain Samuel Mitchell and family, who have been west the past several weeks, are expected home today.

The city will begin collecting poll tax tomorrow or Monday. A majority of the collections will be made through the mining offices.

The funeral of the late George Mode will be held Sunday afternoon from the Mitchell Methodist church. A brother of Mrs. Mode, residing at Butte, Mont., is expected to arrive here today.

The apportionment from the primary school money for the school districts throughout the state is \$1 per capita. It is expected that the distribution in November will probably be \$3 or \$4 per capita.

The street cars did a big business yesterday afternoon. At times the cars were crowded to their capacity. A large number of Ishpeming people came over to attend the Memorial services at the Presbyterian church.

The mines, except the Mary Charlotte, were idle yesterday. Surface work was done at all of the properties and a considerable tonnage of ore was moved. The South Shore crews handled the cars for two shovel crews, one at the Hartford and the other at the Mary Charlotte.

Special street cars will leave this evening with the regulars at 7 and 7:30 o'clock, for the accommodation of Negaunee people attending the production of the "Yankee Tourist" at Ishpeming theater, by Raymond Hitchcock and his company. There will be a large attendance from this city.

A week from next Friday, the 14th, will be flag day, and it is expected that every flag in the city will be displayed. If it were not for the fact that the public schools are to close the previous day appropriate exercises would doubtless be held here.

The Stanislaus county (Cal.) exhibit cars are expected in Negaunee within a few days. One car contains a display of tropical fruits and vegetables, all raised in Stanislaus county, and the other is a museum car. An admission of fifteen cents is charged as a means of paying transportation expenses and all visitors are given sea shells as souvenirs.

From fifty to one hundred Negaunee men spent yesterday at the steams, trout fishing. Most of the sportsmen fished in the streams near Palmer. It is reported that the streams are now considerably lower than they were at the opening of the season and it is thought that there will be fairly good fishing from now on. Only a few large catches have yet been made by Negaunee men.

The Fraser stock company played to one of the largest houses of the week at McDonald's opera house last night. The rural comedy drama, "Folks Down East," was produced. The company will complete its engagement tomorrow, and matinee and evening performances will be given. It goes from here to Lake Linden for a week's engagement.

### SORE NIPPLES.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by The Stafford Drug Co.

### FARM TO RENT.

The Cliffs farm of 110 acres in Sections 25-26, Township 47 N., Range 27 W., and Bellevue farm of 95 acres, 2 1/2 miles from Negaunee, can be rented for a year or more, by applying to The Cleveland-Cliffs Iron Co., Land Department, Negaunee, Mich. Both 'Phones.

## MOTHERHOOD

The first requisite of a good mother is good health, and the experience of maternity should not be approached without careful physical preparation, as a woman who is in good physical condition transmits to her children the blessings of a good constitution.

Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound, which is made from native roots and herbs, more successfully than by any other medicine because it gives tone and strength to the entire feminine organism, curing displacements, ulceration and inflammation, and the result is less suffering and more children healthy at birth. For more than thirty years

MRS. JAMES CHESTER

### Lydia E. Pinkham's Vegetable Compound

has been the standby of American mothers in preparing for childbirth. Note what Mrs. James Chester, of 427 W. 35th St., New York says in this letter:—Dear Mrs. Pinkham:—I wish every expectant mother knew about Lydia E. Pinkham's Vegetable Compound. A neighbor who had learned of its great value at this trying period of a woman's life urged me to try it and I did so, and I cannot say enough in regard to the good it did me. I recovered quickly and am in the best of health now."

Lydia E. Pinkham's Vegetable Compound is certainly a successful remedy for the peculiar weaknesses and ailments of women.

It has cured almost every form of Female Complaints, Dragging Sensations, Weak Back, Falling and Displacements, Inflammation, Ulcerations and Organic Diseases of Women and is invaluable in preparing for Childbirth and during the Change of Life.

### Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Her advice is free.

## LOOK AT A KERNEL OF COFFEE

Break it open and note the amount of chaff inside. This chaff together with dust and other foreign matter, when steeped alone, makes an undrinkable and harmful decoction. By a special process this chaff, etc. is entirely removed from making the improved flavor and beneficial results noticeable in the first cup. Packed in sealed tins by machinery and will keep perfectly until used.

PER POUND 35c

Sold in Marquette by JOHN CALSON, Cor. Third and Ohio Sts. For sale in Negaunee by GEO. HAUT.

### RENDER TRIBUTE TO SOLDIER DEAD

BEAUTIFUL WEATHER CONDUCE GREATLY TO SUCCESS OF MEMORIAL DAY EXERCISES.

### INTERESTING ADDRESS GIVEN

Philip Check of Baraboo, Wisconsin, Holds Close Attention of Audience for Over an Hour at Opera House.

Nature aided in making the Memorial Day exercises yesterday morning a success by furnishing the finest weather of the spring. The sun rose in a cloudless sky and a gentle breeze from the south...

### Services at Opera House.

The stage at the opera house, which was well filled on the disbanding of the parade, was handsomely decorated with a profusion of flags, bunting and a handsome display of cut flowers.

### Gave Pleasing Address.

Mr. Check spoke for over an hour, and the highest tribute that can be paid his address is the fact that he held the close attention of his audience throughout.

### Relative to the Causes that Led up to the War.

Relative to the causes that led up to the war, Mr. Check said that the prevailing impression that it was due to slavery was erroneous, and was not borne out by history.

### Knew Little of War.

At the outbreak of the war, Mr. Check said, very few of the men who enlisted knew what war meant.

their sweethearts had got tired waiting and married somebody else. The speaker said that he was particularly fortunate in this respect as he married his first girl, and he had her yet.

### Normal Exercises.

Excellent Decoration Day Program Given Wednesday Afternoon. The exercises held by the training school of the Normal Wednesday afternoon, preparatory for Decoration, were very pleasing.

### Memorial Program.

Participated in by D. A. R. in Eighth Grade Room, Ely School. The pupils of the eighth grade, Ely school, commemorated Memorial Day Wednesday morning by appropriate exercises which included the singing of selections from American history.

### Chapter Officers.

The annual election of officers of the chapter was held recently at which the following were chosen: Regent—Mrs. E. O. Stafford.

### FOR SALE.

Old brick and short plank, from 4 feet up, of 2-6x2-8, suitable for walks. Also old plank in different lengths.

### WE ARE

The only people in Marquette county who manufacture practically everything needed for a building.

### REOPENED

Werner's Gallery. I have reopened my photograph gallery at cor. Main and Third Sts., and will hereafter give the business my personal attention.

### NOTICE.

If you want dry hard and soft wood 10-inch slabs, call at or telephone to H. I. Koop & Co. 615 Champion street.

### WANTS AX TESTED.

Recent Find by Robert Hume Attracts Considerable Attention.

The article appearing in The Mining Journal of May 17, relative to the finding of an ax which appeared to be of tempered copper by Robert Hume, has attracted the attention of Edward C. Hangerford, of Chester, Conn., a former resident of this city.

### PUT your hands in our Gloves, Mr. Man.

They are not cheap Gloves in the shoddy sense, and yet they do not cost exorbitant prices.
