

TWELFTH MAN IS GIVEN A SEAT

Jury That Will Try Miners' Leader Haywood for the Murder of ex-Governor Steunenberg Is Finally Completed.

Indictment Is Read to the Prisoner, and Today the State Will Make Its Opening Address, Charging an Organized Campaign of Terrorism in Western Camps, of Which the Killing of Idaho's Former Executive Was but an Incident.

Boise, Idaho, June 3.—The twelve men who will try Wm. D. Haywood on the charge that he murdered Governor Frank Steunenberg have been chosen and sworn in. Haywood has heard the indictment charging him with the crime, and tomorrow, after the state has recited its case and made promise of proof, the first chapter of the tale of the Caldwell crime will be retold.

After the noon session Haywood came to the courtroom. He was whitened somewhat in color by his illness of Saturday, but at the work began reading the indictment a little tide of blood came up along his neck and spread over his cheek. He looked away from the scene directly in front of him for a few moments, and then, more self-possessed, he returned his gaze to the jury box.

Campaign of Terrorism Charged. Tomorrow morning James H. Hawley, for in state, will address the court with the state's opening statement. Broadly speaking, the state will charge that Haywood conspired with Moyer, Pettibone, Simpkins and others of the alleged "inner circle" of the Western Federation of Miners, plotted a campaign of terrorism that had for its double purpose the removal by assassination of those opposed to the organization and the retention and increase of control and power within the organization. It will allege that the explosion at the Vindicator mine, the blowing up of the Independence depot, the murder of Light Gregory, a detective of the Denver, the murder of Arthur Collins of Telluride, the alleged blowing up of Fred Bradley of San Francisco, and the alleged attempts on the lives of former Governor Peabody and Judges Galbreath and Goldard of Colorado were all acts in a single grand conspiracy.

St. Louis Bank Teller Admits Embezzlement—Gets Five Years.

St. Louis, June 3.—On a plea of guilty, Charles F. Croft, defaulting teller of the Washington National bank of St. Louis, was today sentenced to five years' imprisonment by Judge Triche in the United States district court. After embezzling \$28,287 Croft fled to Sweden, where he was apprehended and returned to St. Louis by D. P. Dyer, Jr., son of Federal Judge Dyer of St. Louis.

Buffalo, June 3.—Harry Hamlin, one of the best known and wealthiest citizens of Buffalo, was killed in an automobile accident on the Williamsville road, one mile north of this city, this afternoon. His car collided with a light wagon driven by Jacob Schaller, a retired butcher of Buffalo. Hamlin was hurled to the roadside and was instantly killed. Schaller was badly hurt, but will recover. John Heckel, twelve years of age, who was in Schaller's rig, was fatally injured. Both of his legs were broken and his skull was fractured.

Cleveland, June 3.—Michael Czolgosz, brother of Leon Czolgosz, assassin of President McKinley, returned today from Sharon, Pa., where he has been for a week past. He is very indignant over the reports that he expected to go to Canton last week on the occasion of the funeral of Mrs. McKinley. He said that the reports were absolutely without foundation, as he had never thought of going to Canton. He went to Sharon, he says, seeking employment, and as a result of his trip expected to remove to make it his home in the near future.

San Jose, Cal., June 3.—An attempt to wreck the early morning Southern Pacific train between this city and San Francisco was thwarted today by the discovery of a large pile of ties on the track near Santa Clara. Two tramps have been arrested on suspicion.

Washington, June 3.—The trial of Edwin S. Holmes, Jr., formerly assistant statistician of the department of agriculture, on the charge of supplying advance information on cotton crop reports to New York brokers, was begun in the supreme court for the District of Columbia today. The entire day was devoted to the work of securing a jury.

Chicago, June 3.—Twelve Chicago theater managers and ticket scalpers are arrested on the charge of violating the law by selling theater tickets at an advance over the published rate were discharged today in the municipal court on the ground of the unconstitutionality of the state law.

Green and Gaynor to Serve Four Years and Pay Fines of \$575,000.

New Orleans, June 3.—The sentence of the Savannah court in the famous Green and Gaynor case, involving frauds of over half a million dollars in government contract work in Savannah harbor, was affirmed today in an opinion handed down by the United States circuit court of appeals. The sentence is four years' imprisonment each and fines aggregating \$575,000.

WOMEN AIM TO RULE NATION

Feminine Socialists of Finland Have Their Own Political Party, and It Has Grown With Lightning-Like Rapidity.

Prohibition of Liquor Traffic and Radical Changes in Marriage and Divorce Laws Are Among Their Issues, and With Nineteen Seats They Have a Powerful Weapon With Which to Force Support from Male Colleagues in the Diet.

Helsingfors, Finland, June 3.—The nineteen women members who took their seats at the opening of the Finnish diet include eleven Socialists, and while they will vote and act in accord with their male colleagues of that party, they promise to force some distinctively feminine and sex issues to the fore.

Prohibition of the manufacture and importation of liquor into the country; radical changes in the marriage and divorce laws; equal recognition of illegitimate children and education for all are among the issues on the women's program, and if their male party associates hesitate to support them, they have a powerful weapon in their hands to bring the men to their senses.

The women of Finland have their own Socialist party, which has grown with lightning speed, until now the ambition of every peasant girl in the village is to become an elected member. It is asserted that more than 70 per cent of all the working women and servants in this land of the midnight sun already are members of the Socialist Women's union.

Among the Socialist women members are three of marked political ability, Mrs. Miina Silhanna, Mrs. Maria Rautio and Miss Mimmi Kannervo.

Mrs. Silhanna is the only one who has a husband. When her political duties occupy her time Mr. Silhanna attends to the cooking and the care of the household. She is forty years of age and a defensible organizer. She has walked hundreds of miles through the country, making speeches and organizing branches of the Socialist Women's union.

She is the editor of a woman's Socialist newspaper in Helsingfors now and presides at the sessions of the central committee. She has written scores of popular articles for workingwomen and published hundreds of pamphlets.

On being asked what her aim was in organizing the workingwomen and domestic servants in the Socialist union Mrs. Silhanna answered:

"My aim is to unite all the women in a strong political body and then have them urge their employers and men whom they can influence to work for everything the union is in favor of. More than 70 per cent are already organized. Thirty per cent more and our goal is reached. Our every demand must be satisfied when all the workingwomen of the country are united. We will be the rulers of the entire country, and then we will decide what shall be the proper program to carry out."

A gifted thinker is Mrs. Maria Rautio, the widow of a house painter who died two years ago in America. Mrs. Rautio lived some years in New York and speaks English fluently. She has five little children to support, and she keeps the household going by dressmaking, at which she is an expert. She sews at night, giving up the daylight hours to writing and delivering speeches at Socialist meetings.

Speaking of the work of the diet and what she hopes to see accomplished, Mrs. Rautio said:

"I am much interested in a free marriage without the sanction of the church. I know, of my own experience, how unfortunate is the experience of the man or woman who has made a mistake in choosing a partner for life. I will demand, also, equal rights for legitimate and illegitimate children. I am in favor of abolishing the sale of all alcoholic liquors. Finland should be the first country in the world without alcoholic liquors. The money spent for alcoholic drink can, with great profit, be used for the education of our youth."

Miss Mimmi Kannervo, who comes from Abo, is a beautiful peasant girl, who has educated herself and has the gift of oratory to a marked degree. She is adored by her women comrades, who hang upon her words and are willing to listen for hours while she talks. No more radical Socialist lives in this country. At a meeting of many thousands of workingwomen in Abo recently she closed a stirring address with this impassioned sentiment:

"More than the workmen are we, the women who toil, enslaved by the present capitalist society. Our first step must be to free ourselves from slavery by taking an active part in law-making and the political struggle for..."

APPREHENSION IN TOKIO

Future Relations With America an Occasion of Much Anxiety.

Tokio, June 3.—Leading persons in and out of politics seem to have a feeling of apprehension regarding Japan's future relations with the United States. Actual hostility, however, is not thought of, but it is evident that the peculiar position in which the American government is placed in regard to state autonomy and the defiant attitude of the labor interests against Japan's treaty rights, as manifested in the second San Francisco incident, make politicians here uneasy.

Washington, June 3.—The statement coming from Tokio to the effect that dissatisfaction on the part of the Japanese officials at the attitude of America in relation to the San Francisco troubles caused some concern in official circles here today, and there were expressions of surprise from those who believed they had seen in the whole-souled exchange of felicitations incident to General Kuroki's visit to Washington and Spitzbergen the attitude of the best of feeling between America and Japan. What has caused the reported change of feeling at Tokio is a puzzle to the officials of Washington, because it cannot be learned that there has been any recent exchanges between the two governments relative to treatment of Japanese in San Francisco. The attacks upon the Japanese restaurants and bath houses are still under investigation by the national and state authorities, and when that inquiry is concluded doubtless the Japanese government will be informed of the result, and if necessary proper expression of regret will be made.

Tromsø, Norway, June 3.—The Arctic steamer Fritthjof left here today for Spitzbergen with the airship and all the other apparatus, excepting the Siberian sled dogs, of the Walter Wellman expedition.

RUSSIA'S STAND AT THE HAGUE

Course of the Czar's Government on Various Important Questions to Be Presented Has Been Definitely Shaped.

St. Petersburg, Tuesday, June 4.—Russia's attitude and line of action before the Hague conference are now beginning to take form, and the government has definitely shaped its course on various important questions to be presented.

In regard to the limitation of armaments, Russia maintains the position laid down in its note of March 16, 1905, and with Austria and Germany is frankly opposed to any discussion of this subject, which it still feels can lead to no useful result. The Russian authorities, however, have not abandoned the hope of an eleventh hour agreement which would bring the question to be disposed of before the conference amicably and without bitterness.

Russia regards it as highly desirable that the questions of maritime war and the rights and obligations of neutrals, now so important after the Russo-Japanese war, should be systematized. The Russian program provides for the discussion of the principal problems which arose during the recent war. Russia is anxious that the marine powers par excellence should participate heartily and with good will in this labor, and that England and Japan should not persist in their attitude of reserve toward the discussion.

Of first importance in this department Russia considers the question of contraband, at present a situation of utter chaos. The difficulty of adjusting the English and continental views on conditional contraband, such as coal, machinery, horses, etc., is realized, but it is hoped by Russia that the conference can elaborate a convention enumerating what articles shall be considered contraband and under what conditions, also providing international regulations for prize court procedure, perhaps even an international prize court of the highest instance.

A corollary question which Russia hopes will also result in international regulation concerns the obligations of neutrals in supplying belligerents with coal and similar quasi-munitions of war. This question was of acute interest during the Russo-Japanese war. Definite rules concerning the rights of asylum in neutral ports are also desired.

Russia has as yet made no official announcement regarding her attitude in regard to the discussion of the Drago doctrine, proposed by the United States, but the appointment of M. Prozor, a Russian authority on this question, indicates Russia's willingness to participate in the discussion of this subject if other powers are really interested and willing to admit its inclusion in the program.

LEGISLATION BY THE DOUMA. Three Laws Obnoxious to the People Are Repealed.

St. Petersburg, June 3.—The lower house of parliament today held another working session and repealed three obnoxious laws, two of which were temporary measures instituted by Premier Stolypin to combat the revolution. The repeal was effected by a vote of 280 to 130. The laws repealed were: 1. The law on the right of the ministry to suspend from military service persons accused of political crimes or who were under police supervision. The repeal of the third law penalizing private instruction in Poland was at the request of the ministry. This measure was passed at the height of the Russian campaign in Poland.

Madrid, June 3.—The trial of Senor Ferrer, director of the Modern school of Barcelona; Don Jose Nakens, editor of El Matin, and others, charged with complicity in the attempt to assassinate King Alfonso and Queen Victoria May 31, 1906, began today. Ferrer declared that he did not know that Morales, the man who actually threw the bomb, was an anarchist, and said that he, himself, was not an anarchist, his idea being to perfect society by means of education. The documentary evidence against Ferrer is said to be strong.

IRISH COUNCIL BILL DROPPED

LONDON, June 3.—In the house of commons, today, Premier Campbell-Bannerman formally announced that the government in view of the action of the Irish Nationalist convention in Dublin in rejecting the Irish bill, had decided to drop the measure.

STATUE TO DAVIS IS UNVEILED

Richmond, Va., June 3.—The metallic memorial to Jefferson Davis, leader of the "lost cause" and first and only president of the Confederate States of America, was unveiled here today as the crowning feature of the annual reunion of the Confederate veterans. The ceremony was made the occasion for a grand military pageant in which every veteran in gray who was physically able participated with energy and enthusiasm.

Mrs. J. A. Hayes, of Colorado Springs, Colo., daughter of Jefferson Davis, pulled the cord that held the canvas shroud which covered the bronze statue. Her two young sons, grandsons of the Confederate president, drew the two cords used to complete the unveiling. General Clement A. Evans was the orator of the day.

Wm. J. Bryan and Mrs. Bryan attended the exercises as guests of the United Confederate Veterans. They rode in the parade in the carriage of Governor and Mrs. Swanson and were given a continuous ovation enroute.

Tonight Mr. Bryan delivered a two hours' address on the "Old World and Its Ways" to 2,000 persons. He paid a glowing tribute to the strides made by the United States, which was leading the world in civilization, education and religion.

Cleveland, June 3.—About two thousand machinists employed in shops where the employers refused to grant the union's demand for a nine-hour day went on a strike here today.

Stevens Point, Wis., June 3.—Four hundred men employed at lumber and planing mills here struck today for an increase of twenty-five cents in their daily wages. The owners offered ten cents, but the men refused.

Harriman Line Fails in Effort to Secure a \$50,000,000 Loan Abroad.

New York, June 3.—That negotiations for placing a \$50,000,000 loan in Europe by the Union Pacific railway failed of success because of attacks on railroad corporations in this country early in the year was the statement made by E. H. Harriman today.

BERTHS ALIVE WITH TUBERCLE BACILLUS

SLEEPING CARS PLACES NEXT TO COFFINS, DUBLIN'S MEDICAL ASSOCIATION SPEAKER.

Atlantic City, N. J., June 3.—The world's great fight against the ravages of consumption will be the main subject discussed during the convention of the American Medical association, which opened today with the meeting of the house of delegates, made up of representatives from various state societies and sections in the association.

At today's session of the American academy several speakers read papers on tuberculosis. Wood Hutchison, one of the speakers, said: "Pullman sleeping cars are places next to our coffins. We pay \$3 for the privilege of using a compartment in which germs are left by former occupants."

Puerto Cortez, Honduras, May 29, via New Orleans, June 3.—(Correspondence of the Associated Press)—The American marines at Choloma are still guarding four Spanish subjects arrested recently without order of the Honduras courts under circumstances which Commander Fullam of the Marietta believed indicated an attempt at extortion. It was charged that one of these Spaniards, M. B. Badia, had bought timber which he knew the seller had stolen. It was proposed to Badia that if he would return the timber and also pay \$5,000 to its rightful owner he would not be prosecuted. This he refused to do. One of Badia's assistants, M. Courtenas, was put in prison along with his employer.

The arrests were made by military authority, and Americans are now watching over the Spaniards until the courts shall be reestablished, when the men will be turned over to the regular officers. The marines of the Marietta have been withdrawn from shore duty preparatory to departing from the waters as soon as the Dulague arrives to relieve the Marietta.

Censorship on the Mails. New Orleans, June 3.—Passengers arriving tonight on the steamer Anselm, from Central American ports, claim that what amounts to censorship on the mails has been put into effect in Guatemala. Under the new rule they claim that all mail must pass through Guatemala City before being distributed.

TRAINS ARE STALLED

Pickman, Ky., June 3.—Army worms are so numerous between Campbell, Mo., and Memphis, Ark., that traffic on the St. Louis, Kentucky & Southeastern railway has been interrupted. When the car wheels smash them the track is put in worse condition than if it had been soaped.

WISCONSIN'S LUMBER OUTPUT.

Washington, June 3.—The census bureau today issued a preliminary report showing that Wisconsin during the calendar year 1906 produced 2,311,395,000 feet of lumber, 457,880,000 laths and 302,570,000 shingles. The report shows a decrease of 212,000,000 feet of lumber in that state since the previous year.

EDWIN HOLMES ON TRIAL.

Former Government Employee Accused of the Crop Report Leak.

Washington, June 3.—The trial of Edwin S. Holmes, Jr., formerly assistant statistician of the department of agriculture, on the charge of supplying advance information on cotton crop reports to New York brokers, was begun in the supreme court for the District of Columbia today. The entire day was devoted to the work of securing a jury.

STATE LAWS UNDER FIRE.

Rock Island Stockholder Joins in the Test Suits in Minnesota.

St. Paul, Minn., June 3.—Another suit seeking to annul Minnesota's two-cent passenger rate law and commodity freight law was filed in the federal court today against the Rock Island road. John J. Carle, of Rock Island, a stockholder, is the plaintiff in the action, which is identical with those begun last week by stockholders in eight other railroads doing interstate business in Minnesota. The suit asks that the railroad be restrained from publishing and putting into effect the new tariffs, and that the state attorney general and the members of the railway and warehouse commission be enjoined from forcing the road to accept the new rates by mandamus proceedings. The hearing on the temporary injunction granted in the Rock Island suit will be held June 12.

HOWEVER SUMMER WEATHER IS DUE IN MANY STATES LATE THIS WEEK.

Washington, June 3.—The weather bureau reports that while the mercury has soared considerably in the last twenty-four hours east of the Mississippi, except in New England, the temperature is still much below the seasonal average everywhere except in the West Gulf states. A fall of ten to twenty degrees has occurred in the middle Mississippi valley and the plains states.

The official forecasters tonight prophesied warmer weather tomorrow in the lower lake region, but cooler in Missouri and thence southwestward. The temperature Wednesday in the North-west will rise. The bureau looks for genuine summer weather in many states by the end of the week.

WEDDED SIXTY YEARS.

Spokane, Wash., June 3.—Mr. and Mrs. J. F. Cass, whose combined age total 166 years, celebrated the sixtieth anniversary of their wedding at the home of their daughter, Mrs. Albert Bailey, at Riverville, Wash., today. They were married at Milwaukee, Wis., coming to Washington territory in 1872, when there were only five persons in what is now Adams county. They braved the dangers incident to frontier life, engaging in farming in the Cow Creek country, afterward moving to Riverville, where they are living out the evening of their life on the old homestead.

TODAY'S WEATHER.

Washington, June 3.—The following is the weather bureau's forecast for Upper Michigan: Showers, Tuesday; Wednesday, fair and cooler; fresh west to northwest winds.

FRENCH STRIKE CALLED OFF.

Seamen Yield After Conferences With the Government at Paris.

Paris, June 3.—The extended strike of seamen has virtually come to an end with the capitulation of the strikers, who are expected to resume work tomorrow morning. Delegates from the various seamen's unions were received this afternoon by Marine Minister Thomson, and later by the marine committee of the chamber of deputies. The strike situation was discussed with M. Thomson for two hours, at the conclusion of which the delegates announced that the minister had declared that the budget situation made further increases in pensions impossible. The delegates then repaired to the chamber of deputies, where they conferred with the marine committee. It was after these conferences that dispatches were sent advising the strikers to resume work. The prosecution of deserters is to be abandoned, the navigation companies reinstate the men, and the matter of pensions improved insofar as possible.

BIG LINES STILL HOLD OUT.

Strike Continues on the Trans-Atlantic Piers at New York.

New York, June 3.—Five thousand striking longshoremen returned to work on the docks of coastwise and smaller steamship lines today on a compromise advance of five cents an hour. The officials of the trans-Atlantic lines did not accept the compromise.

Machinists Out at Cleveland.

Cleveland, June 3.—About two thousand machinists employed in shops where the employers refused to grant the union's demand for a nine-hour day went on a strike here today.

Stevens Point, Wis., June 3.—Four hundred men employed at lumber and planing mills here struck today for an increase of twenty-five cents in their daily wages. The owners offered ten cents, but the men refused.

Harriman Line Fails in Effort to Secure a \$50,000,000 Loan Abroad.

New York, June 3.—That negotiations for placing a \$50,000,000 loan in Europe by the Union Pacific railway failed of success because of attacks on railroad corporations in this country early in the year was the statement made by E. H. Harriman today.

Per year, by mail.....\$16.00  
MARQUETTE, MICH., JUNE 4.

Entered as mail matter of the second class  
in the postoffice at Marquette, Mich.

Once more the legislature has the cen-  
ter of the Lansing stage.

Mayor Becker's political enemies now  
have an opportunity to remark that he  
has been an actor all along.

In short, Governor Warner proposes  
to put in practice the old Pingree plan  
of "putting the cusses on record."

We wait with bated breath the opin-  
ion of John C. Spooner, private citizen,  
in regard to the La Follette boom.

Texas wants none of Senator Foraker.  
But the senator doubtless has the con-  
soling thought that Texas is Democratic,  
anyway.

The only happy speculators to be  
found in Marquette county are, appar-  
ently, those Ishpeming men who have  
taken a flyer in Wisconsin lead and zinc.

Governor Hughes of New York, having  
qualified by getting pretty much every-  
thing he set out to get from the New  
York legislature, is rehabilitated as a  
presidential possibility.

Indeed it is "money that makes the  
mule go," and if the Fourth of July com-  
mittees have a sufficient supply of coin  
of the realm there need be no doubt  
about the quality of the celebration.

In a Richmond, Va., interview W. J.  
Bryan says that if his party demands it,  
he will make the run for president  
again. And he is pretty thoroughly per-  
suaded that his party is going to de-  
mand it.

There is one commonwealth in the  
United States that has proved a match  
for the Standard Oil. It is Texas. In  
the long run it appears that it would  
have better profited the Standard Oil  
to have been deeded in Texas.

It is an old charge that President  
Roosevelt has been stealing the Demo-  
crats' thunder. Now that he has come  
out for a valuation of the physical prop-  
erty of the railroads we can expect to  
be told that he is stealing Senator La  
Follette's thunder.

The extraordinary precautions taken  
by the police at Lansing to safeguard  
the president last week were due to the  
fact that some twenty known anarchists  
had mysteriously disappeared from their  
usual haunts in New Jersey. However,  
judging from the fact that the exercises  
passed off without untoward incident, it  
appears that they did not go to the state  
capital.

President Roosevelt's recent trip  
brought forth a reiteration of his deter-  
mination not to again be a candidate.  
A Meyersdale, Pa., admirer shouted to  
the president, "Hope you will be a can-  
didate again," to which came the quick  
response "Oh, no; it's somebody's else  
turn next time." And despite all the  
going and having over this question we  
believe the president will make this  
stick.

Here we are in the first week in June,  
and still the legislature is a considerable  
ways from an adjournment. There is  
much important business to be disposed  
of. Numerous bills of state wide im-  
portance have to be acted on. There is  
the primary law, the railroad commission  
bill, and State Road Commissioner  
Earle's numerous measures, to say noth-  
ing of appropriation bills without num-  
ber. The legislators will have to put  
on extra pressure to get home in time  
for the Fourth of July festivities.

Michigan did not win the big eastern  
interscholastic meet, but she did the  
next best thing and got second place.  
With her twenty-nine points against  
Pennsylvania's thirty-three she was a  
most creditable second, too, and the re-  
sult is all the more grateful to western-  
ers because the Wolverine athletes head-  
ed Yale out. Michigan's advent as a  
participant in the annual eastern games  
was a highly auspicious one, and her  
athletes will doubtless continue to win

fame and glory as long as her relation-  
ship with the eastern colleges continues.  
In the western intercollegiate games the  
palm, in Michigan's absence, went to  
Illinois, which won a conference meet  
for the first time. Her closest rivals for  
the honor were Chicago and Wisconsin.  
A survey of Michigan's performance in  
the east, however, leaves no doubt that  
had she participated in the Chicago  
games all the other athletes would have  
had to travel after her team.

The park, cemetery and street com-  
mission has planned a considerable ex-  
penditure on Washington street, from  
Seventh to Seymour. The blocks between  
the streets named are in poor condition,  
and should be resurfaced. But beyond  
Seymour Washington street is also in  
bad condition, to the city limits, and it  
is the cause of much complaint. It is a  
street used as much as any in the city,  
as all the traffic between Ishpeming and  
Negaunee and Marquette travels over  
it. Our Ishpeming friends have been  
very critical of the condition of this  
highway of late years, and with good  
reason. They will be glad to know  
something is to be done with it. In view  
of the program for the improvement of  
the county road it would seem that the  
Marquette officials should lose no time  
in putting this thoroughfare in good con-  
dition to the city limits.

Certain Marquette men who drive au-  
tomobiles are taking too much latitude  
this spring. The Mining Journal has re-  
ceived many complaints of their heed-  
lessness of the rights of other users of  
the streets and highways. Saturday an  
occupant of a single carriage was nearly  
forced over the embankment between  
the bridges at the Carp river, through  
his horse being frightened by a reckless  
automobile driver who made no effort to  
check his machine. In this case the en-  
raged man drove to town to endeavor  
to secure the arrest of the offender, who  
lived in another part of the county, but  
was unable to have him apprehended.

Sunday on the same road a driver of a  
runabout, who neglected even the cus-  
tomary "honk honk," chased a frightened  
horse into the railroad tracks. Up town  
the police have had occasion to warn  
some offenders, and in some cases the  
warnings have not been taken in good  
part, though the law was being plainly  
violated. The ordinance is plain. It  
provides for safe speeds and reasonable  
precautions on the city streets. The  
police are paid to enforce it, and they  
may be assured that public sentiment  
will be firmly behind them in any steps  
they may find necessary to enforce it.

It has been the runabouts that have  
occasioned the most trouble this spring.  
The large cars usually being driven with  
more discretion and more thought for  
the rights of other people than has been  
the case with the smaller ones. But  
drivers of large and small cars alike  
should be compelled to observe the law.  
It gives them all the latitude on the  
city streets it is safe for them to have.

President Roosevelt's recent trip  
brought forth a reiteration of his deter-  
mination not to again be a candidate.  
A Meyersdale, Pa., admirer shouted to  
the president, "Hope you will be a can-  
didate again," to which came the quick  
response "Oh, no; it's somebody's else  
turn next time." And despite all the  
going and having over this question we  
believe the president will make this  
stick.

Here we are in the first week in June,  
and still the legislature is a considerable  
ways from an adjournment. There is  
much important business to be disposed  
of. Numerous bills of state wide im-  
portance have to be acted on. There is  
the primary law, the railroad commission  
bill, and State Road Commissioner  
Earle's numerous measures, to say noth-  
ing of appropriation bills without num-  
ber. The legislators will have to put  
on extra pressure to get home in time  
for the Fourth of July festivities.

Michigan did not win the big eastern  
interscholastic meet, but she did the  
next best thing and got second place.  
With her twenty-nine points against  
Pennsylvania's thirty-three she was a  
most creditable second, too, and the re-  
sult is all the more grateful to western-  
ers because the Wolverine athletes head-  
ed Yale out. Michigan's advent as a  
participant in the annual eastern games  
was a highly auspicious one, and her  
athletes will doubtless continue to win

**Upper Peninsula**

**His Body Cut in Two—**  
Gandino Ferlindo, a former resident  
of Iron Mountain, was cut in two by a  
train at Powers, a junction of the Chi-  
cago & Northwestern railway, in Me-  
noninee county, late last week. He was  
employed as a car cleaner. The accident  
happened while the unfortunate man  
was crossing the network of rails. In  
an attempt to get out of the way of an  
approaching train he got in the way of  
another train which he chanced not to  
notice. His body was horribly mangled.  
Ferlindo was fifty-three years old.

**Was Just Drunk—**  
A single woman about twenty-five  
years of age who works in a Ludington  
street restaurant was very sick yester-  
day afternoon and was hustled to the  
Escanaba hospital, reports the Escana-  
ba Journal. It was reported that she  
had taken poison in an attempt at sui-  
cide. The physician used a stomach  
pump and soon had the woman as near  
right as she possibly could be, consid-  
ering the fact that she was suffering  
from a common, everyday drunk. It is  
suspected that the restaurant where she  
is located is sailing under false colors  
and it is probable that the place will be  
investigated.

**Deaths Much the Greater—**  
The Michigan Monthly Bulletin of  
Vital Statistics shows that during April  
there were twenty-eight deaths and only  
twelve births in the city, says the Esca-  
naba Journal. If the city depended for  
its growth upon nature, and the same  
proportion was maintained between  
deaths and births the day when Esca-  
naba will become a great city would be  
about as far distant as the time when  
China will become Christian according to  
Mark Twain's way of figuring. Mark  
says that in China the missionaries are  
converting three thousand Chinamen ev-  
ery year and little Chinamen are being  
ushered into the world at the rate of  
thirty thousand every day.

**A FORTUNATE TEXAN.**

Mr. F. W. Goodloe, of 107 St. Louis  
St., Dallas, Tex., says: "In the past  
year I have become acquainted with Dr.  
King's New Life Pills, and no laxative I  
ever before tried so effectively disposes  
of malaria and biliousness." They don't  
grind nor gripe. 25c. at The Stafford  
Drug Co.

Piles get quick and certain relief from  
Dr. Shoop's Magic Ointment. Please  
note it is made alone for Piles, and its  
action is positive and certain. Itching,  
painful protruding or blind piles disap-  
pear like magic by its use. Large nickel-  
cover glass jars 50 cents. Sold by The  
Stafford Drug Co.

111 FRONT STREET.

It is an interesting fact that people who are compelled to give up the use of ordinary coffee can drink **Barrington Hall** without ill effects.

**Barrington Hall - The Steel Cut Coffee**

Steel-Cut  
Ground

It is because the Steel-Cut process the little oil cells in the roasted coffee bean are not crushed, as in grinding; thus the rich aromatic oil (food product) which makes coffee flavor; is conserved to a remarkable degree. This is one reason why 1 pound of Barrington Hall will make 16 to 20 cups more of pure, full-strength coffee than would the same coffee ground in a coffee mill.

Another unanswerable reason why **It Excels All Other Coffees in Flavor**

is because the Steel-Cut process the little oil cells in the roasted coffee bean are not crushed, as in grinding; thus the rich aromatic oil (food product) which makes coffee flavor; is conserved to a remarkable degree. This is one reason why 1 pound of Barrington Hall will make 16 to 20 cups more of pure, full-strength coffee than would the same coffee ground in a coffee mill.

The best test is in the using. We want everybody to try it.

Sold nearly everywhere, price 25c to 50c a pound, according to locality. If your grocer will not supply you, let us tell you where and how to get it.

FEARFUL ITCHING BURNING SORES

Boy in Misery 12 Years—Eczema Spread Over Body in Rough Scales, Cracked, Inflamed, and Swollen—Case Pronounced Incurable, but Completely Cured by Two Sets of Cuticura Remedies.

HIS SKIN NOW FINE AND SMOOTH AS SILK

"I wish to inform you that your wonderful Cuticura has put a stop to twelve years of misery I passed with my son. As an infant I noticed on his body a red spot and treated same with different remedies for about five years, but when the spot began to get larger I put him under the care of doctors. Under their treatment the disease spread to four different parts of his body. The longer the doctors treated him the worse it grew. During the day it would get rough and form like scales. At night it would swell, cracked, inflamed, and badly swollen, with terrible burning and itching. When I think of his suffering, it nearly breaks my heart. His screams could be heard down-stairs. The suffering of my son made me full of misery. I had no ambition to work, to eat, nor could I sleep. One doctor told me that my son's eczema was incurable, and gave it up for a bad job. One evening I saw an article in the paper about the wonderful Cuticura and decided to give it a trial. I told you that Cuticura Ointment is worth its weight in gold, and when I had used the first box of Ointment there was a great improvement, and by the time I had used the second set of Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent my child was cured. He is now twelve years old, and his skin is as fine and smooth as silk. Michael Steinman, 7 Summer Avenue, Brooklyn, N. Y., April 16, 1905."

FOR WOMAN'S EYE

Too much stress cannot be placed on the great value of Cuticura Soap, Ointment, and Pills in antiseptic cleansing, thus affording pure, sweet, and economical local and constitutional treatment for inflammations, itching, irritations, relaxations, displacements, and pains, as well as such sympathetic affections as anemia, chlorosis, hysteria, nervousness, and debility.

PAINTERS WANTED—First class men, highest wages. E. J. Webber, Houghton, Mich. 5-30-1m

HOUGHTON COUNTY ELECTRIC LIGHT CO.

Copper Country

JOY FOR THE FANS.

Four League Teams Start a Ten Days Carnival of Baseball.

The copper country had an opportunity yesterday to see the Winnipeg and Duluth baseball teams, easy leaders of the Grasshopper league. Winnipeg opened with Houghton at Ripley, and Duluth took on Calumet on the latter's grounds. During the stay of the teams they will alternate at the two parks, which will give the fans a variety of baseball.

The northern visitors made a poor showing in their opening games in the copper country, both being shut out. Duluth losing to Calumet 0 to 14 and Winnipeg to Houghton 0 to 8. The summaries follow:

Table with 2 columns: Team, Score. Rows include Calumet vs Houghton (14 to 0), Duluth vs Winnipeg (0 to 6), and Batteries: Newcombe and Mullane; Treadway and Smith.

The copper country fans are constrained to hold the opinion that the baseball offered by the league is not as good as that of last year. This opinion followed Sunday's Calumet-Houghton game. At that was a good game from the Calumet point of view, because Calumet won 2 to 0, but the Calumet team of last season would have beaten the Houghton team of this year in a manner something awful. Neither team did any hitting, and had the Giants supported Miller in the manner to which he was entitled he would have won his game. But the Houghton players were out on fielding and with the stick they were away to the back. That good old baseball bromide, "If a team can't hit it can't win" was uttered off by Houghton rooters during and after the game, each utterer seeming to think he was saying something new and clever.

SOUTH RANGE WATER WORKS.

Concrete Construction Company Began Work Yesterday.

The Concrete Construction company of Houghton began operations yesterday on its contract for the construction of the new gravity waterworks system for the village of South Range. The company expects to have a large force of men at work as soon as accommodations can be secured for them, but at present it is working with a somewhat limited force.

FISHING TUG SCORCHED.

The Tramp, Batt. Hawley's fishing tug, was quite badly damaged by fire while lying at her dock, Ontonagon. The superstructure of the craft was practically destroyed and the engine suffered slightly. The hull and decks were not injured. The fire started in the engine room and when discovered flames were bursting through the pilot house. An alarm was turned in. The Houghton dropped down along side the burning tug and did effective work with its pumps in checking the flames until the fire company put in an appearance, and drenched out the fire. The members of the crew are unable to account for the outbreak of the flames. The Tramp had returned from a trip out in the lake a few hours previous. No insurance was carried on the Tramp, and while the loss is not a heavy one, it has temporarily put it out of commission and during the most profitable part of the fishing season.

CALUMET ELKS TO CLOSE.

The Calumet lodge of Elks will close its sessions for the summer at the meeting to be held a week from tomorrow night. It will be a "ladies' night" and the Elks will have their wives and sweethearts present to enjoy the social features. There will be refreshments and a musical program.

REMARKABLE RESCUE.

That truth is stranger than fiction, has once more been demonstrated in the little town of Fedora, Tenn., the residence of C. V. Pepper. He writes: "I was in bed, entirely disabled, with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased, the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed for coughs and colds, 50c. and \$1. at The Stafford Drug Co.'s store. Trial bottle free.

DARANTELLA

IN THE CIRCUIT COURT.

United States District Attorney Makes Things Interesting.

United States District Attorney Chase of Grand Rapids added a little interest to the session of the Houghton county circuit court yesterday, particularly as the proceedings in progress at the time were of a nature usually dry and uninteresting. The court was devoting its time to the admission of citizens, and Mr. Chase was present on an official visit, intended somewhat as an inspection of the procedure of the court in the important matter of admitting aliens to the rights of citizenship.

There were fifty-seven applicants for full citizenship yesterday, and the court was not certain in the morning that it could run off the entire batch owing to the time which Mr. Chase devoted to each applicant. He had the witnesses in each case placed on the stand and questioned them closely regarding the life, history and morals of their particular applicant. In one case the witnesses whose names appeared on the application did not appear with the applicant, but instead he had brought two substitutes. Mr. Chase attacked their competency because of the fact that their names had not appeared on the application for ninety days previously, according to the letter of the law. Judge Streeter did not sustain his objection, and the man was admitted.

This man was a Finn who did not understand English very well and he had the services of an interpreter. Mr. Chase asked him what was meant by the constitution in its reference to the personal liberty of its citizens. He answered that it meant there were no slaves in this country. He was asked if he considered he had a right to damage the property of a company which had discharged him or if he went on a strike. He said that the company had a right to discharge him, and all he had to do was to look for another job. The applicant was asked regarding the distribution of wealth, if he thought the government should take the property of men of wealth and divide it among men without property. He emphatically did not; he thought that if he had a million it was his and the government had nothing to say about its distribution. Mr. Chase declared him a good applicant.

A Finnish resident of Houghton, Canadian by birth, had applied for and received his first papers twenty-seven years ago, and lived in Houghton thirty-five years and had voted for many years. He was applying for second papers because the new law compelled him to. He had never read the constitution because he could not read. He was admitted. There were numerous instances of close questioning by Mr. Chase, all in line to bring out the finer meanings of the law, and the session was most interesting.

The present naturalization law is somewhat complicated and ponderous. The applicant for papers must supply a record of his immigration which will tally with one kept by the immigration bureau at the port where he landed. He must be able to write his name. He must swear that he belongs to no anarchistic society and his witnesses must swear that they know he does not. His application must be posted in the county clerk's office for ninety days preceding his hearing in court.

Civil Calendar Today.

Judge Streeter will resume today the consideration of the civil calendar. This presents a long list of cases, but as twenty-four of them are all concerned in a suit against the Keeweenaw Central Railroad company and the trial of one will doubtless settle the remainder, the list is somewhat lessened thereby. It is not believed the civil calendar, in spite of its length, will occupy any unusual period of the court's time.

LIVED YEARS WITH BROKEN BACK.

Mike Bodovich died yesterday morning in the Calumet & Hecla hospital as a result of injuries received in the C. & H. mine in February, 1904. He was a minor and at that time he was injured by falling rock, his back being broken. He has lingered in the C. & H. hospital for the three years and some months, a remarkable instance of vitality, as his accident usually would have been fatal. It was impossible to restore him to health, and his death was a mercy to him. Last Thursday the hospital surgeon found it necessary to amputate one of his legs. The limb had become paralyzed through his final injury, and it was necessary to take it off in an effort to save his life. He was too weak to survive the operation. Bodovich was forty-two years of age and leaves a son in Calumet and a wife and two other children in Austria. The funeral will take place tomorrow morning.

That taste, That flavor, That cleanliness, That rich, round, aromatic toothsome-

is found only in Arbuckles' Ariosa Coffee! Cheaper than anything "just as good", and better than anything "just as cheap." And the best of all for you!

ARBUCKLE BROS., New York City.

COPPER COUNTRY CHURCHES.

District M. E. Convention Will Open Today at Laurium.

The annual convention of the Methodist Episcopal churches of the Houghton district will open this afternoon at Laurium, with Rev. James Pascoe of Hancock, presiding elder, in the chair. The program, arranged by Revs. E. Sedwick, W. E. Marvin and S. Polkinghorne, the committee, is as follows:

2 p. m.—Convention called to order. Devotional exercises—E. Bickford. The Church's Obligation to the Heathen World—W. B. Coombs. The Church's Opportunity in China—L. Wilcox. The Church's Opportunity in India—Miss Agnes A. Abbott. The Church's Opportunity in South America—W. J. Balmer. 7:30 p. m.—Hymn. Devotional exercises—H. C. Shaw. Anthem—Choir. Address—America as a Mission Field and a Missionary Nation—Geo. Elliott, D. D. Solo—H. N. Aldrich. Hymn—

—Wednesday— 8:30 a. m.—Devotional exercises—Ernest Brown. Studies in the Book of Hebrews—(a) Authorship and Purpose—F. N. Miner. Discussion, led by H. Rogers. Solo—H. N. Aldrich. (b) Analysis—R. Hewson. Discussion led by R. Emery. (c) Modern Significance—C. L. Adams. Discussion, led by R. Caryon. Hymn—Remarks—Dr. Geo. Elliott. 2 p. m.—Devotional exercises—J. J. Strick. Practical Problems. (a) How Can We Best Conserve the Christian Sabbath—W. J. Harper. Discussion, led by D. H. Keyes. (b) How to Reach and Utilize the Young People—M. H. Eldred. Discussion, led by H. Magalaya. Solo—H. N. Aldrich. (c) The Kind of Ministry for the Modern Man—A. A. Maywood. Discussion, led by J. Ivey. (d) Woman, a Working Force in the Church—J. H. McCune. Discussion, led by Miss Hursh. 7:30 p. m.—Hymn. Devotional exercises—H. Hancock. Anthem—Choir. Address—Samuel Dickie, president Albion college.

Address, Christian Citizenship—Dr. George Elliott. Anthem—Choir. Hymn—America. Dr. George Elliott and Rev. Samuel Dickie are the principal speakers. Dr. Elliott is now field missionary of the board of home missions, though he was formerly pastor of Central M. E. church of Detroit. Dr. Dickie is president of Albion college.

Congregational Convention. Following closely on the Methodist convention will come one of wider scope, that of the General Congregational association of Michigan, which meets in the Hancock church day after tomorrow to continue until the succeeding Monday. This association is the governing body of the church in Michigan and it is the first time it has met in the upper peninsula. The complete program is lengthy, and a reference to the names which will appear in it will suffice to show its import.

Dr. Frank K. Saunders of Boston, representative of the Sunday school department of the Congregational church in the United States, will deliver two addresses on Biblical subjects. He is recognized as one of the most profound Bible students in the country, and to hear him will be an unusual privilege. Professor Graham Taylor of Chicago is one of that city's noted settlement workers. He will be the principal speaker at a mass meeting to be held next Sunday, at 8 o'clock in the church or at the Kenzie theater, and will talk on a sociological subject.

Dr. Herring of New York, Dr. Beckwith of the Chicago Theological seminary, Dr. Mills of St. Louis, Dr. Atkins of Detroit and Dr. E. G. Lancaster, president of Oberlin college, are among the noted divines who will be present. It is expected by Rev. J. S. Gould, pastor of the Hancock Congregational church, that at least 100 clergymen will be present, comprising all the principal Congregational pastors of the state.

These conventions may be considered the beginning of a period of important gatherings which the copper country will have this summer. Those yet to come are lodge conventions and reunions, all of which will bring numerous visitors.

TRANSFERRED TO HOUGHTON.

Captain J. E. Neilas, who recently came to this city from Duluth to take charge of the Salvation Army work, has received orders to go to Houghton to take up the work in that city, says the Escanaba Journal. His successor has not arrived here. Captain Neilas said that he very much regretted to leave Escanaba, as he is getting decidedly interested in the movement for the moral regeneration of the city. He would like to stay to help in the fight. Captain Neilas is earnest and aggressive in his work and he undoubtedly would have accomplished much good had he been permitted to remain in this city.

Modern Woodmen Canvass.

E. E. Valentine and F. T. Barnes are in Ontonagon in the interest of the Modern Woodmen. They will remain for two weeks and will make quite a thorough canvass of the town in an endeavor to secure as large a class as possible for initiation. The local camp is in excellent condition, having a membership of seventy-eight and this will probably be increased to more than a hundred.

MUNICIPAL LIGHTING PLANT.

Hancock Board of Public Works Will Consider Project Tonight.

The board of public works of the city of Hancock will meet tonight for the purpose of discussing the municipal lighting plant question. The Mining Journal talked with Mayor Scott about this much discussed matter yesterday, and his honor pointed out a new line of thought that should be followed. There had recently been reason to believe that it was up to the common council to decide whether the city would have a lighting plant of its own, but the mayor says that the council has nothing to do with it, that the board of public works has the project in hand. E. T. Sykes, the Chicago electrical engineer, who was secured by Mr. Scott to make an estimate of the cost of the plant, and who reported two weeks ago, returned to Hancock yesterday armed with new data. Mr. Scott says that the project has been going along smoothly, and that the figures so far furnished by the engineer have been satisfactory. Tonight Mr. Sykes will report plans and specifications so that the board will know the exact distribution of the cost as estimated by him.

From the remarks of Mayor Scott yesterday it appears that Hancock stands a good chance to own its own lighting plant within a reasonably short time. The matter is progressing satisfactorily to him, and with all due deference to the council and the board of public works, it appears from the past events that when Mayor Scott wants Hancock to have anything, Hancock has it. The common council met last evening and was to have taken up the Front street ravine filling and retaining wall matter. The mayor stated yesterday that he did not believe anything would be done last night, and, writing in advance, it is fair to presume that the question was not successfully or finally disposed of.

COPPERDOM BREVITIES.

Mrs. James P. Edwards, arrived at Houghton yesterday from Lansing. She visited at the M. A. C. with her sons, who are students of that institution. It was reported in Houghton yesterday that Rev. A. J. Zezek, pastor of St. Ignatius' church, would leave shortly for a visit to Rome. Father Zezek would not say anything on the subject.

Jay Wallace of Marquette has arrived in Houghton to accept a position as head bookkeeper with Roach & Seiber, succeeding H. T. Potter, who has resigned to go with the Peninsula Wholesale Grocery. Mrs. Mae Hotton returned the first of the week from Hancock where she had instituted a lodge of the Pythian Sisters. She was royally entertained while in the copper country and says that the Hancock lodge is one of the finest and most enthusiastic of any with which she has had to do.—Soo Times.

TELEPHONE EXTENSION.

Ontonagon Lines Soon Will Be Connected With Long Distance. Progress is being made on the extension of the Ontonagon County Telephone company's lines from Rockland to Keweenaw, where connection will be made with the long distance system, says the Ontonagon Herald. The job of setting the poles is well under way and with favorable weather will be completed in about two weeks. The wire has not yet been received, but unless there should be delay on this account, the new line will be ready for use about the 20th of this month. In a circular issued to patrons, Manager George W. Stannard says: "Preparatory to our connecting with the Michigan State Telephone company, whereby we will be able to communicate with all outside points by telephone, we beg to announce that in order that good service may be accomplished, it will be necessary that all conditions governing the same should be fully understood, and the requirements adhered to as follows: There will be installed in each of the three towns [Ontonagon, Rockland and Greenland] a booth, fitted with a telephone of the Michigan State Telephone type from which our patrons can communicate outside, and from which a toll will be collected, but if any of our subscribers wish to have it so arranged as to telephone outside from their office or residence, then it will be necessary that they have installed in such places a phone of the above named type, for which an additional rental of \$6 per year over and above the rental now charged by us. The following amounts will be charged for a three-minute talk to and from the following counties: Houghton county, 25 cents; Gogebie county, 25 cents; Baraga county, 30 cents; Iron county, 35 cents; and Marquette county, 55 cents. Patrons wishing to use the service will purchase a coupon book of small dimensions and from which the coupons will be detached at the end of each month."

Fire Department Matters.

At the annual meeting of the Ontonagon fire department officers were elected for the ensuing year as follows: Chief, George D. Robinson; first assistant, L. E. Bailey; second, Hugo Klessig; third, Joseph Archer; fourth, Edward Roehm; secretary, John Jones; treasurer, Casper Roosen; trustee, three years, L. E. Bailey. The report of Chief George D. Robinson was submitted showing that the department responded to four calls during the year, as follows: Nov. 15—Hawley House; loss, \$10; covered by insurance. Jan. 12—Court house chimney; no damage. May 7—W. R. Adams' residence; loss, \$5,500; insurance, \$4,500; cause unknown. May 20—Tug Tramp; damage, \$400; no insurance; cause unknown. A list of equipment was given in the report and it shows that the department is well provided for, the apparatus consisting of steamer, six hose carts, two hooks and ladder trucks, 4,100 feet of good hose, and rubber coats, hats and boots, and the fire hall furnishings.

In Your Own Home

That's where you want to get acquainted with your sewing machine—and that's why we agree to send you a competent instructor from our local store. A competent instructor mind you, is not a time-driven, underpaid clerk from a department store. This is important, too; for if you get started, right you will get double service out of your machine every day you use it, as long as you have it. It is our instructor's business to help you demonstrate to yourself the ease and certainty and so on of operation that has placed these machines in millions of homes all round the world. They are built like a watch, down to the last little screw; that's why they will do three times as much work for you as most people get out of job-lot department-store sewing machines—and do three times as many kinds of work, too.

BY THESE SIGNS YOU MAY KNOW AND FIND SINGER STORES EVERYWHERE. Sold only by Singer Sewing Machine Co. Marquette, 108 N. Third St. Ishpeming, 120 S. Main St. Negaunee, Iron St. Hancock, 503 Reservation St. Calumet, 423 N. Fifth St. Escanaba, 713 Ludington St. Iron Mountain, 205 E. Houghton St. Sault Ste. Marie, 116 Ashmun St.

### MARKETS

#### CHICAGO GRAIN MARKETS.

Chicago June 3.—The wheat market opened easier today because of better weather conditions in the West and Northwest, lower cables, and larger world's shipments than expected. Later the prices recovered on reports from Kansas that the freeze of a week ago had done much damage. The bulk of these reports stated that the injury to the crop was 40 to 50 per cent. The report of a crop expert that estimated the yield of wheat at 175,000,000 bushels below the amount named in his last preceding statement caused a rally about midday. The good export demand reported also strengthened the market. Later the trading became dull, and the influences which were in effect at the opening resumed their sway. Much July was liquidated during the early break on stop-loss orders. The close was easy, the July down 1/4 @ 1/2, July opened at 48 3/4, highest, 49 1/2; lowest, 48 1/4; closing, 48 3/4 @ 1/2.

Corn.—The market opened easier, on reports of good weather, lower cables, and large local receipts. The market rallied, however, on reports of a good demand for export and fair buying by local speculators. The close was firm, the July 1/4 @ 1/2 higher, July opened at 52 1/2 @ 3/4, highest, 54 1/4; lowest, 53 1/4; closing, 53 3/4 @ 1/2.

Oats.—Weather conditions also affected this market. It was reported later that the green bug had been discovered in various places, and this with fair buying stiffened the market. The close showed the July up 1/4. July opened at 48 3/4, highest, 49 1/2; lowest, 48 1/4; closing, 49 1/2.

Receipts and shipments were as follows: Receipts, Shipments.  
Flour, barrels, 32,000 18,000  
Wheat, bushels, 48,000 18,000  
Corn, bushels, 1,022,000 683,000  
Oats, bushels, 318,000 202,000

Logan & Bryan said of the wheat market: "For the day wheat lost about 1/2 for July, less than 1/2 for September and closed at the Saturday figures for December. It was a good trading market from first to last. Prices had an early decline of 1 cent or more, influenced by the lower cables, large northwest receipts, more summerlike weather, large world's shipments, and a moderate amount of outside liquidation. The trade had this break on early news and the low figures were made during the

latter part of the week. The interior money markets report a disposition to greater ease. Incoming reports to the controller of the currency of the condition of national banks May 22 show a marked strengthening of position at most interior money centers compared with the preceding call, March 22. The feeling regarding the wheat crop was less dependent, but the news of the cotton crop caused anxiety. The substantial recoveries resulting were well maintained to the last.

Logan & Bryan had this to say yesterday concerning the New York stock market: "London sold heavily in our market at the opening and the local professionals fell in line. For a time the entire list was in a spell of complete demoralization. The bears attacked the list continually with great force. The market swayed and sagged under its heavy burden, and it looked as though the slump of March 14 was to be duplicated. As the public remains apathetic, the professionals seem to have things pretty well their own way, and the sentiment was bearish to a man during the early trading. Everybody had stocks for sale with hardly any buying orders. Support, however, came into the list after midday, and turned the tide. The shorts became frightened, and in their hasty efforts to cover helped the advance materially. In some cases prices are above the opening, and taking the list as a whole, the closing is a strong one. We would continue to sell on all sharp bulges."

The impression seems to be getting strong that we will have lower prices for the metal and we are inclined to think that the price will be shaded a few cents. This, however, will be a good

thing for the industry as it will stimulate trade and still leave an enormous profit for the mines. I predict that as soon as large sales of copper are made, even if the price is as low as twenty cents, we will see high prices for the stocks. Last month most of the lake mines made record production, and will do equally as well this month.

Mine products for May are reported as follows: Wolverson, 511 tons; Mohawk, 570; Quincy, 1,350; Winona, 127; Baltic, 1,051; Champion, 1,124; Trinoantain, 579; Shannon, 1,432,000 pounds.

### WOMEN AIM TO RULE NATION

(Continued From Page One.)

Our independence. How difficult has it been for me to educate myself after a hard fight in a practical way, in the factory while the women of the privileged classes were wasting that time in theater-going, expensive amusement or the pursuit of fashion. A single dinner of my former employer cost more than would a week's education for me in school. Down with our social oppressors! Long live the Socialist Women's union!

Socialism in Finland was first preached only a few years ago by Mattia Kurrika, an orator and writer, who is today an active and popular personality among the Socialist leaders. His career has been romantic.

Disagreeing with the Socialist doctrine of many foreign countries, he rejected many of the old theories and adopted some ethical principles, to which he still clings. He left Finland and spent a long time among the working people of America. Anxious to see his theories carried out in a practical way, he went to Canada, organized a Socialist community and bought an island in the Pacific ocean from the Canadian government.

A socialistic government was founded on the island. No one had any personal property. Municipal ownership prevailed. But the community did not succeed and after a few years the communism changed to personalism and the island was abandoned. Though grievously disappointed, Mr. Kurrika reached out in a practical way, he founded a party which grew too conservative for him and he left it to found another one. "He said recently in an interview:

"The Socialism taught by Marx Bebel and others is merely a collective egoism and does not improve fundamentally our wretched social conditions. My intention is to teach Socialism in moral principles according to the best philosophic doctrines. Not only the laws of a state but the hearts of the people ought to be reformed, and to do that is my work."

Niles Robert of Ursin the political leader of the Social Democratic party and one of the officers of the diet, as the son of an old Finnish aristocratic family, a scholar and an orator. He has written much for the foreign Socialist press and published an interesting book, "The Question of the Finnish Working People." Of his program in the diet he said: "I will urge the diet to pass laws which will make it impossible for there to be any power or any millions in Finland. It should be the most educated and original northern nation."

He wants to make his country independent of Russia and a Socialist republic. A strong personality among the Socialists is Yoro Sirola, editor of the Socialist newspaper, "Tyomies," in Helsinki and secretary of the party. He is the son of a minister and has been a teacher. His program is a free education for every child and free land for every farm worker. He said recently: "I sympathize with the Russian revolutionists, but I do not like to mix our policy with the Russian. I hate the taxes and the army."

Hollister's Rocky Mountain Tea purifies the blood, strengthens the nerves, regulates the bowels, aids the kidneys, cures stomach troubles, builds up the nervous force and repairs the ill effects of over eating. Tea or Tablets, 35 cents, The Stafford Drug Co.

Red Seal White Lead costs less than other white leads, because it makes more paint. For sale by Kelly Hardware Co. (5-18-11)

Buy reliable mixed paints, that have stood the test of time, from Kelly Hardware Co. (7-18-11)

### FEDERAL ORDER IS HELD UNFAIR

#### TELEPHONE INDEPENDENTS THINK GOVERNMENT TOO FRIENDLY TO THE BELL.

Chicago, June 3.—Resolutions denouncing the United States government as unfair in its treatment of \$350,000,000 invested capital have been prepared for introduction at the convention of the International Independent Telephone association, which convenes at the Auditorium Hotel in Chicago tomorrow. Demand is to be made for nullification of an order forbidding postmasters all over the country to install telephones in their offices unless the instruments have direct connection with Washington. The rule is declared by 1,000 delegates to the convention to be working injustice to 3,000,000 telephone subscribers, patrons of the 7,000 independent companies of the United States and Canada.

The attack upon the government is to be led by Charles E. Sumner of Portland, Ore., founder of telephone companies in twenty cities of Oregon, Washington, Idaho and Montana. Delegates from all the twenty-nine states represented at the convention are expected to join in discussion of the situation.

#### Government Ownership a Topic.

Next in interest to the executive order held to be aiding the "Bell monopoly" the convention will be interested in consideration of government ownership of telephone lines. Francis Dugger of Winnipeg, Man., expert of the Manitoba government in charge of building that province's 1,900-mile long distance system covering sixty towns, will tell of the campaign leading to Manitoba's decision to construct the first government-owned telephone system on this continent. Mr. Dugger has for years been the telephone expert of the Canadian parliament at Ottawa.

This year's convention will be dominated by men from the central states, who, before they leave for their homes, are expected to complete plans for interconnection of long distance lines whose use will bring closer the relations of 1,850,000 telephone subscribers in Michigan, Illinois, Iowa, Wisconsin, Ohio, Indiana, Missouri and Kentucky. These arrangements are to be made at private meetings outside of convention hours.

H. D. Critchfield of Milwaukee, Wis., president of the Wisconsin Independent Telephone association, is to respond to

the address of welcome to the convention by Mayor Busse. Mr. Critchfield is building an independent exchange in Milwaukee and as president of an outside company is completing plans to construct long distance lines all over Wisconsin, connecting with the Tri-State system of Minnesota at La Crosse.

#### Michigan Man a Speaker.

Long distance improvements are to be discussed by C. E. Tarte of Grand Rapids, Mich., general manager of the Citizens' system linking twenty large towns and cities in Michigan. Mr. Tarte is considered one of the best telephone executives and administrators in the country. Dwight E. Sapp of Mt. Vernon, O., a lawyer, will speak of "Frozen Finance in the Telephone Field." He will urge conservative telephone financing, as will W. L. Moeller of Fort Wayne, Ind., who will speak of "Telephone Securities as an Investment." The convention is to be urged by these men to declare in favor of telephone organization on an enduring financial basis.

James S. Brailey, Jr. of Toledo, O., president of the United States Long Distance Telephone company and of companies operating extensively in Indiana and Ohio, will discuss "The Strength of the Chain," urging unanimity of action by all independent telephone concerns in extending the long distance business.

Rural telephone situations are to be considered in the convention following a speech on the subject by C. H. Schweizer of La Crosse, Wis. Long distance features of the telephone work are to be covered in addresses by W. J. Stadelman of Sioux City, Ia., and J. M. Plaister of Ft. Dodge, Ia.

The Cobalt Central mine recently shipped one carload of high grade ore to the smelter. It consisted of one thousand one hundred and thirty tons of ore. The Cobalt Central mine recently shipped one carload of high grade ore to the smelter. It consisted of one thousand one hundred and thirty tons of ore. J. J. CAROLL, Proprietor. A. G. HOFFMAN, Sales Manager.

**The Proof of the Starching**

Is the article immaculately white, possessing indescribable beauty and delicacy, with just the pliability to hang gracefully, yet with firmness that insures permanent shape-retention? Does it resist the ill effects of dust and keep its dainty finish? Then it was surely starched with the genuine

**KINGSFORD'S OSWEGO Silver Gloss Starch**

—the old reliable kind which has been the standard of quality for over half a century. Makes ironing day easier, because there is no guessing or uncertainty, no poor results, no sticky iron—simply the satisfaction that every laundress receives from work truly faultless. Most economical; dissolves instantly, handiest in every way.

**BEST FOR ALL KINDS OF STARCHING.**

For general starching hold as directed. For light starching unequalled as a cold water starch, requiring no boiling. Made for over fifty years at Oswego. All grocers, in full weight packages.

**T. KINGSFORD & SON, Oswego, N. Y.**  
NATIONAL STARCH COMPANY, Successors.

**100 TO 1.**

Where one man gets rich through speculation a hundred acquire a competence through saving, another hundred "go broke" because of their rashness. If you will leave with us a dollar of two a week—more if you can spare it from ordinary expenses—at the end of ten years you will have had the benefit of 3 per cent annual interest, that compounded (half) yearly. It counts up.

**Pianos That Are Sold on Their Merits**

The best proof that the Pianos sold by the Cable Piano Co., are in every way good value is the large business that is being done both in the Upper Peninsula and the entire United States. We do not resort to "quack" advertising, such as "sales" where instruments are advertised to be almost given away; nor to guessing contests where people are made to believe they are getting a piano for \$50 to \$100 less than they ought to pay. Your common sense tells you that this is ridiculous.

We appeal to a man's good judgment, and as we have done in the past we will continue to give real value for the money invested, whether you buy one of our most artistic instruments or a medium priced one.

**DEATH OF P. F. KELLGREN.**  
Pioneer Resident of Ishpeeming Passed Away Sunday Night.

Peter F. Kellgren, one of the best known and most prominent Scandinavian citizens of Ishpeeming, died Sunday night about 11 o'clock. He had been confined to his home less than a month, but he had not been in good health for over two years past, or since the death of his wife two years ago last February. Stomach trouble was the direct cause of his demise.

The deceased had been a resident of Ishpeeming for about thirty-five years, during the greater part of which time he was the Oliver Iron Mining company's head blacksmith at the main shop at the Lake Superior mine. For a number of years he was prominent in politics, and he was a long time an active member of the Swedish Home society, of which he was a charter member. This organization was perfected about twenty-three years ago, with some twenty-five or thirty members, less than one-half of whom are now residents of this city. He was also a charter member of the One Hundred Men's club, and he held membership in the Ishpeeming lodge of the United Workmen for twenty-four years until last October, when he withdrew. He is survived by three daughters, Mrs. Frank Heanson and the Misses Olga and Jennie Kellgren. The latter is a teacher in the public schools.

The funeral will be held Thursday afternoon at 2 o'clock from the Swedish Methodist church, under auspices of the Swedish Home society. Friends desiring to view the remains are asked to call at the house, as the casket will not be opened at the church.

**KNIGHTS OF KALEVIA.**  
Branch of Popular Finnish Society Organized in Ishpeeming.

The Knights of Kalevia, the most popular of the Finnish societies of America, which has branches in several states, with a total membership of nearly 10,000, will have a strong organization in Ishpeeming. The society is one that takes for its members the masses of Finns, though no member of that race who bears a good reputation is barred. The initiation fee, \$25, is considerably larger than is charged for any other Finnish society, but despite this fact the Knights of Kalevia has a larger membership than any of the other organizations.

The Ishpeeming branch was organized Saturday evening with twenty-five charter members, the organization having been perfected by Dr. J. H. Makyla of this city; E. V. Kurka of Painesdale; Waino Lehto of Crystal Falls; John Kauhainen of Mass City, and others.

Following are the officers chosen for the ensuing term:

The Eldest—Werner Nikander.  
The First—H. Nurmi.  
The Second—L. Rasmaki.  
Historian—M. Skytta.  
Chaplain—A. J. Mollanen.  
Collector—J. Pelti.  
Treasurer—V. Ainani.  
Escort—Kotka.  
Sergeant—W. Perttula.  
Guards—H. Lakkarienen, W. Rundmon.

**MINE OUT OF COMMISSION.**  
Because of an accident at the engine house, the Cleveland Lake mine of the Cleveland Iron company is out of commission for a few days. The arm on the drum friction breaking suddenly while hoisting was in progress, the engine instantly became beyond the control of the brakeman, with the result that the drum was smashed in several places. The skips work in balance in this shaft, and it necessarily followed that one of them went crashing to the bottom, while the other, the empty one, was drawn to the top of the shafthouse, where it became tightly wedged. Repairs are in progress, but meanwhile very little work is possible underground and all hoisting is suspended.

**DEATH FROM PNEUMONIA.**  
Richard Stocker, an old resident, died Sunday night at the Ishpeeming hospital, after a month's illness with pneumonia. Mr. Stocker's health had been poor for some time before he was taken down with the disease that caused his demise. He having suffered slightly from miners' consumption. He had worked a great many years at the Lake Angelina mine, was very well-known and had many friends in the city. He was forty-nine years of age and single. The funeral will be held tomorrow afternoon from the home of Mrs. Austin on North street, where the deceased boarded. The Ishpeeming lodge of the Odd Fellows, of which he had been a member for many years, will have charge of the obsequies. The services will be conducted at the First Methodist Episcopal church.

**FOLLOWS WIFE TO THE GRAVE.**  
The death of Joseph Betters occurred Saturday at Mass City, Ontonagon county. The funeral took place here yesterday, interment being made in the Catholic cemetery. Mr. Betters was aged ninety-four, and was one of the oldest residents of Ishpeeming. He had lived here for many years. Mrs. Betters, wife of the deceased, passed away here two months ago at the age of ninety-one, and following that sad occurrence Mr. Betters left Ishpeeming to make his home temporarily with his daughter at Mass City. He had been ailing for some time. The deceased is survived by a number of children, one of whom is Mrs. Joseph Prince of Marquette.

**WILL IMPROVE SCHOOL.**  
P. H. Ross, proprietor of the Ishpeeming Business college, wife and child, left last night for their former home in Kentucky, to be absent until the 24th. During Mr. Ross' absence the day class of the school will be discontinued. J. Wahlman & Son has taken a contract from the school to improve the interior of the school and office rooms, also the stairway leading to them. New hardwood floors and new stairs are to be put in and a glass partition is to be erected between the offices and the main room.

**ISHPEEMING IN BRIEF.**  
J. S. Bargh of Duluth, a former resident, is here for a few days.  
The Savings Bank store is advertising for an experienced dry goods salesman.  
Miss Lizzie Dineen returned to her home at Escanaba yesterday, after several days' visit with her sister, Mrs. George Cahill.  
Con Curran, engineer on the Chicago & Northwestern railway, is preparing to move his family to Chicago, he having recently been transferred to that division.  
Theater goers are manifesting much interest in the coming of Roselle Knott in the comedy, "Alice-Sit-By-The-Fire," at Ishpeeming theater tomorrow evening. The advance sale of seats will open this morning.  
The funeral of the late Thomas Knight will be held this afternoon from the Salisbury Methodist church. The Sons of St. George and Court Pride of Foresters, to both of which societies the deceased belonged, will attend in a body.  
E. G. Thomas spent Sunday and yesterday in the city, having come down from Painesdale to attend the funeral of his brother-in-law, the late James Maroney, which was held yesterday morning from St. John's church and was largely attended.  
J. G. McNeely, of Grand Rapids, has taken a position with the Marquette County Gas & Electric company as a solicitor. He will pay particular attention to the gas business and judging from the increase in that department during the past few weeks the company will, within a month or two, have added a large number of patrons to its list. Mr. McNeely has had several years' experience in the gas business. He is married and will bring his wife and two children to this city as soon as he can secure a desirable dwelling.

**FARM TO RENT.**  
W. W. Ward, of Dyersburg, Tenn., writes: "This is to certify that I have used Orino Laxative Fruit Syrup for chronic constipation, and it has proven, without a doubt, to be a thorough, practical remedy for this trouble, and it is with pleasure I offer my conscientious reference." The Stafford Drug Co.

**FROM HOPKINS' CURB LETTER.**

The curb and Boston copper market today showed tendency towards lower prices, principally in sympathy with the weakness in New York and the decline of more than two pounds in the London metal market. The coppers, on account of their larger returns on investment, will undoubtedly remain firm during the summer season, and should be picked up and held for present and prospective dividends.

The day's prevailing prices were:

	Bid.	Asked.
American	\$ 8.50	\$ 8.87 1/2

**NATURE PROVIDES FOR SICK WOMEN**

LYDIA E. PINKHAM

a more potent remedy in the roots and herbs of the field than was ever produced from drugs.

In the good old-fashioned days of our grandmothers few drugs were used in medicines and Lydia E. Pinkham, of Lynn, Mass., in her study of roots and herbs and their power over disease discovered and gave to the women of the world a remedy for their peculiar ills more potent and efficacious than any combination of drugs.

**Lydia E. Pinkham's Vegetable Compound**

is an honest, tried and true remedy of unquestionable therapeutic value. During its record of more than thirty years, its long list of actual cures of those serious ills peculiar to women, entitles Lydia E. Pinkham's Vegetable Compound to the respect and confidence of every fair minded person and every thinking woman.

When women are troubled with irregular or painful functions, weakness, displacements, ulceration or inflammation, backache, flatulency, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.

No other remedy in the country has such a record of cures of female ills, and thousands of women residing in every part of the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable compound and what it has done for them.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. For twenty-five years she has been advising sick women free of charge. She is the daughter-in-law of Lydia E. Pinkham and as her assistant for years before her decease advised under her immediate direction. Address, Lynn, Mass.

## Negaunee Department

**WANT BALL PARK.**  
Cleveland-Cliffs Co. Will Be Asked for Use of Plat in Maas Field.

A meeting of baseball enthusiasts was held Saturday evening, the purpose of the meeting being to discuss ways and means of raising funds to provide a park in the city limits, also to appoint a committee to wait on the officials of the Cleveland-Cliffs Iron company relative to the leasing of a suitable plat. The committee is composed of W. H. Mitchell, T. A. Thoreson, Al. Willson, John A. Wasmuth and Ernest Kline.

The committee would like to establish a park in the Maas mine field, which is convenient, and besides a diamond could be put in fine condition there for a comparatively small sum. The greatest item of expense would be the erection of the fence and seats. It is estimated that the expense would be in the neighborhood of \$500.

If the ground privilege is secured and the park is provided it is not likely that any attempt will be made to organize a paid team. It is thought that several amateur nines can be organized among the young men, and it would be no trouble to get three or four juvenile teams together. There is much interest in the game here. It is not expected that any money would be made, but the principal object in providing a park is to give the young men and boys a place to play. The revenue received from the games could go toward the payment for the fence, etc., so that the sum to be raised need not be very large.

#### Saloon Men Organized.

"The saloon men of Negaunee have organized a baseball team and they are prepared to play any nine in the city," said John A. Wasmuth yesterday. "There are a number of old players in the team, and I believe we will give either the Business Men or Professional Men's teams a tight run. We have arranged a game with the 'bers' nine to be played some day this week at the Union park, and we are ready to talk business with the management of any nine in the city. The team will be composed of Oscar Johnson, catcher; John Larson, pitcher; Nicholas Latchlin, Jr., first base; Albert Hooper, second base; James Gaffney, third base; John Chapman, short stop; Robert Jackson, Jr., left field; Julius Johnson, center field, and Louis Villeneuve, right field. We would also like games with the saloon men of Ishpeeming and Marquette."

#### ELECTRIC THEATER.

Allison & Cooley's Place Will Be Opened Tomorrow Evening.

The Kindrome moving picture machine for the Electric theater being established in the Sundberg Block by Messrs. Allison & Cooley arrived yesterday and will be tried out today by Mr. Cooley, who is an expert operator and who has been using the Kindrome for a number of years. The machines are rented at a stated price per week. Mr. Allison bought a machine a few weeks ago, but decided not to use it, as he has found that the Kindrome will give much better satisfaction.

The room, which was formerly used as a billiard hall, will seat about 200 persons. There will be two entrances at the front, with a lobby about ten by twenty feet in size. Miss Elsie Koob has been engaged to sing the illustrated songs. The entertainment will last about forty minutes and will consist of four moving pictures and two illustrated songs. The program will be changed twice a week and continuous performances will be given between 2 and 4:30 in the afternoon and 7:30 and 10:30 in the evening. The admission prices will be ten cents for adults and five for children. The house will open Wednesday evening.

#### GERMANS TO HOLD PICNIC.

At a meeting of the German Aid society Sunday afternoon it was decided to conduct a picnic on a date to be selected by the management committee, which is composed of J. A. Wasmuth, B. K. Webber, Ed Brandt, William Westermeyer and John Westermeyer. The picnic will be a public affair, and will be conducted on a large scale. Mr. Wasmuth said yesterday that it will probably be held some Saturday within four or five weeks. The committee desires to select a day when there will be no other picnics, so that the attendance will be large. A band will likely be engaged and there will be dancing at the grounds during the afternoon and evening. The affair will most likely be held in Cleveland park.

#### FIRE DEPARTMENT MEETING.

A special meeting of the Negaunee fire department will be held this evening, when a committee will be appointed to make arrangements for attending the annual tournament of the Upper Peninsula Firemen's association to be held in August at Ontonagon. A member of the department will be selected to visit Ontonagon for the purpose of securing quarters. There is a desire on the part of the members to make the trip to and from the convention town by boat. It is thought that if a boat trip is arranged there will be a larger turnout than if the trip is made by train, as the boat excursion would be more of a novelty.

#### THE MAGIC NO. 3.

Number three is a wonderful mascot for Geo. H. Parris, of Cedar Grove, Me., according to a letter which read: "After suffering much with liver and kidney trouble, and becoming greatly discouraged by the failure to find relief, I tried Electric Bitters, and as a result I am a well man today. The first bottle relieved and three bottles completed the cure." Guaranteed best remedy for stomach, liver and kidney troubles, by The Stafford Drug Co. 50c.

#### U. P. BREWING CO.

MARQUETTE - MICHIGAN

#### DARANTELLA

Will Cure Consumption.

A. A. Horren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." You never heard of any one using Foley's Honey and Tar and not being satisfied. The Stafford Drug Co.

#### LOCAL LACONICS.

C. I. Sporley transacted business at Crystal Falls yesterday.

L. O. Girard, of Little Lake, was a Negaunee visitor yesterday.

Mrs. Mary J. Knapp of Los Angeles, Cal., was a Negaunee visitor Sunday.

The six-months-old baby boy of L. Kopila died Sunday. The funeral will take place this morning.

Mrs. E. Kline and daughter left Sunday night for Muskegon, Mich., on a month's visit with relatives.

Taxpayers who want to vote on the municipal lighting plant sale and bonding propositions tomorrow must register today.

Mr. and Mrs. Andrew Guest were among those who left here Sunday night for Finland. They plan to spend about six months abroad.

A new plate glass window was yesterday put in the store room occupied by the Orr & Tompkins bowling alleys, taking the place of one that was cracked some weeks ago.

The board walk was removed from the front and side of the Upper Peninsula Brewing company's block yesterday and Anton Hendrickson will replace it with a concrete walk.

Anthony Broad, wife and daughter, left Sunday for Hibbing, Minn., their future home. For several years past they have resided at Crystal Falls, but Mr. Broad resigned his position there some time ago to accept a place at Hibbing.

Patrick Manning, marshal of Crystal Falls for the past two or three years, spent Sunday with relatives in Negaunee. He was reappointed to his position Saturday last. There were two other candidates in the field and for a time it was a question which would win out.

Thomas Hodge, who was called here from Butte, Mont., last week on account of the death of his brother-in-law, the late George Mode will leave for his home tonight. The funeral, held Sunday afternoon from the family home, was largely attended. The services were conducted by Rev. W. B. Coombe, pastor of the Mitchell Methodist church.

#### REGISTRATION TODAY.

The wards of registration of the several wards of the city will be in session today from 8 a. m. until 8 p. m. Only taxpayers will be permitted to vote tomorrow on the propositions to sell the municipal lighting plant and the bonding of the city for \$15,000, the money to be used in the improvement of the plant in case a majority of the votes are cast against the sale proposition. The polls will open tomorrow morning at 9 o'clock and they will not be closed until 8 in the evening, so that the working men on either day or night shift will not have to lose any time from their work.

#### A Square Deal

It is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in this medicine—pure triple refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the Golden Medical Discovery is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal Passages, it is well while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hacking coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

#### THROUGH SLEEPING CAR SERVICE

Between Copper Country Points and Mackinaw City, Without Change.

Beginning June 1st, the D., S. S. & A. Ry. will inaugurate a through sleeping car service between Copper Country points and Mackinaw City on the night trains. (5-16-17)

#### A LESSON IN HEALTH.

Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. The Stafford Drug Co.

# Buy Wheat

July wheat has been to 103½; it is now back to 90. Send \$20.00 with order to buy one thousand bushels at 90, and you will probably double your money in a day or two. More money in wheat than in stocks; and it does not take much to get started. I have parties that invested \$20.00, and made hundreds a month. I advised buying oats at 43 cents; they are now 50 cents. You would have made three hundred per cent and twelve hundred per cent in wheat, as I advised you to buy wheat at 75 cents. A faint heart never wins, one has to speculate to make money, nowadays. One year after the Adventure and Mass strikes the Baltic lode stock will sell for one hundred dollars a share—selling now at \$2½ and \$6.00. Two years ago, when Adventure was \$2 I advised you to buy it and guaranteed that you could not lose, and afterward it sold up to \$10½ or five hundred per cent. It will do the same now, as the next time it goes up it will go over \$20.00 a share.

### EIGHT MILES SPEED LIMIT

**AUTOMOBILISTS MUST OBSERVE STATE LAW—ORDINANCE PROVIDING FOR FENDERS ON STREET CARS ALSO PASSED BY COUNCIL.**

The regular monthly meeting of the common council was held last evening. All the members were present but McCarthy. The minutes of the previous meeting were approved without reading. A petition from residents on Harrison street for a macadam pavement was referred to the committee on streets and sewers.

A petition from E. A. Culver and fifty-nine others asking that the council take steps to regulate the speed of automobiles was the subject of considerable discussion. Alderman Asire stated that he had seen numerous automobiles running at speed which he considered dangerous to the safety of the community and he thought that it was high time that the council adopted measures to regulate their speed. Aldermen Reichel and Williams spoke in the same vein. City Attorney Brown stated to the council that there was a state law regulating the speed of automobiles in the business districts of incorporated cities to eight miles an hour. A motion by Alderman Asire that the city marshal be instructed to enforce this law, was carried.

A petition from Reichel Bros., protesting against their tax assessment and asking that it be lowered, was referred to the committee on finance and taxation. The budget of the park, cemetery and street commission, asking an appropriation of \$27,600, was referred to the committee on finance and taxation. The following ordinance, presented by Alderman Donovan, was passed under suspension of the rules:

"It shall be unlawful to operate or run any car upon any street railway track in any street of the City of Marquette, after August 3rd, 1907, unless the front end of such car be properly equipped with a fender so constructed and in such condition as to prevent persons and animals from being run upon or run over by such car.

"Each day that such car shall be operated or run in violation of this ordinance shall be deemed a separate offense; and each superintendent, managing officer, or agent or employee of any street railway or interurban railway who shall direct or permit or engage in or assist in operating or running any car in violation of this ordinance shall be punished in accordance with an ordinance defining offenses, prescribing penalties and providing for the enforcement of offenders, adopted April 25, 1898."

City Attorney Brown stated that the action of Laughlin Johnson against the city had resulted in a verdict of \$5,000 for the plaintiff. He was, however, confident, he said, that the verdict would be reversed in the supreme court. The judge, he said, was of the opinion that he should have instructed the jury to bring in a verdict for the defendant, and only allowed the case to go to the jury in the spirit of fairness that gave

the plaintiff every opportunity for redress under the law. Mr. Brown also said that he had received a copy of the Gordon bill regulating the number of saloons in Marquette, but deemed it unnecessary to read it as the material facts had already appeared in The Mining Journal.

### WILL PROSECUTE RECKLESS DRIVER

**CHIEF OF POLICE MANNING SWEARS OUT A WARRANT AGAINST HERMAN PRIEB, WHO RACED WITH TRAIN WITH BAD RESULTS.**

Chief of Police Manning swore out a warrant before Justice Byrne yesterday morning charging Herman Priebe, of Green Garden, with reckless driving, and will take him into custody as soon as opportunity offers. History came very near repeating itself Saturday afternoon when a team driven by Priebe all but collided with a light buggy containing two women at a point on Lake street but a short distance from the place where Priebe's horses killed Mrs. Laughlin Johnson two years ago. A few seconds previous Priebe had run into and badly wrecked the wagon of Frank Bourque, of Chocolay, throwing Bourque almost under the horses' heels.

**Races With a Train.** Priebe, who had been in the city since an early hour in the morning, started for home about 4 o'clock. He was driving the same team of horses that killed Mrs. Johnson, a pair of very spirited animals. The train which brings in the men from the Chocolay furnace was on its outward trip and running at the rate of about seven miles an hour. Priebe evidently thought that it was good time to demonstrate the superiority of horse flesh over steam power, for he went past the train as though it were standing still. George L. O'Neill, the engineer shouted at him that there were a number of teams ahead and to slow down, or there would be an accident. Priebe, it is alleged, paid no attention to him, and a little later collided with a wagon and team driven by Frank Bourque, of Chocolay, who was driving into the city. The wagon was upset and Bourque thrown nearly under the heels of Priebe's team. Bourque's horses tore themselves loose from the wagon but slowed down and were caught before they had run very far. The seat was torn off of the wagon and the box badly broken in several places. A short distance further on Priebe encountered two women driving into the city in a light buggy. They did not have time to turn out, but fortunately one of his horses slipped and fell just on the point of collision. In speaking of the matter yesterday, Chief of Police Manning said:

**Chief Will Enforce Law.** "Priebe's team may have been beyond control at the time when he collided with Bourque, but if they were Priebe was responsible. I have the best of evidence that he deliberately entered into a contest of speed with a train, which was a foolhardy not to say criminal undertaking on a road on which there is so much travel as Lake street. There is a city ordinance against reckless driving and I am going to see that it is enforced in this case. I have sworn out a warrant for the man's arrest and I shall serve it at the first opportunity. I should go after Priebe at his home but such a step is unnecessary as he comes to the city nearly every day. If there is any man in this county who should exercise due care in the driving of horses it is Herman Priebe. He is driving the same team which killed Mrs. Johnson about two years ago, after throwing Priebe out. That accident should have taught him a lesson and that he could have intentionally entered into a contest of speed with a train on a thoroughfare on which there is so much travel, after having been a party to one tragedy, is almost beyond belief."

Chief Manning also says that several automobile owners had lately been infringing the speed ordinance, and that arrests will certainly follow any more violations.

How to live on 15 cents a day. The mind as well as the body is benefited by economy in eating. There's no health giver like a diet of Hollister's Rocky Mountain Tea. In a startling way it keeps you going. 25 cents, Tea or Tablets. The Stafford Drug Co.
