

"INNER COUNCIL" BITTERLY SCORED

Prosecution's Opening Address at the Haywood Trial a Scathing Arraignment of the Leaders of the Western Miners.

Wherever They Have Operated, It Is Declared, They Have Left a Trail of Blood, Shed by Hired Assassins in a Giant Conspiracy of Vengeance Upon Those Who Obstructed Their Sway—Son of Murdered Governor Testifies and Proves an Important Witness.

Boise, Idaho, June 4.—Through James H. Hawley, senior of the group of prosecutors, the state today made its opening statement against Wm. D. Haywood, whom it charges with the murder of Frank Steunenberg, and then began the presentation of testimony.

The opening statement was a broad, sweeping arraignment of the leaders of Western Federation of Miners, who were charged with plotting wholesale murder and hiring assassins—all in a giant conspiracy to bring down upon those who obstructed their sway—to destroy opposition by terrorism, to control the political destinies of the communities covered by their organization, and to perpetuate their own power within the organization.

Marked by Trails of Blood. Mr. Hawley declared that wherever in a mining district of the coast states the federation had been in control, there had been left a trail of blood to mark its operations.

The conspiracy in which he alleged the members of the federation were engaged, he declared was the real cause of the murder of former Governor Steunenberg. He continued his arraignment by tracing the course pursued by the federation leaders all through their various movements up to the time Mr. Steunenberg was killed. He promised to prove that crimes connected with the labor movement in the West were committed by members of the federation or persons employed for the purpose by its officers, and that a scale of wages was devised for the commission of various crimes.

During Mr. Hawley's address the counsel for the defense made frequent objections to his statements, but they were overruled. Eight witnesses for the state were examined today. They were all from Caldwell, and those who did not tell of the crime itself were called to locate Harry Orchard, who went to the town as Thomas Hogan, at various hotels and around the Steunenberg home, and to show that two months before the crime John L. Simpson, a member of the executive board of Western Federation of Miners, had joined Orchard and had lived with him for several days in the same room.

Murdered Man's Son Testifies. Probably the most important witness was Julian Steunenberg, son of the dead statesman, who told how Orchard had three days before the murder inquired of him about his father's movements. He told of meeting Orchard, then known as Hogan, at the railroad station in Caldwell three days before the crime, and telling him, in answer to his inquiry, that his father would be home the following Friday. The witness said that he was on his way home with his uncle and two blocks behind his father when the explosion occurred.

Tomorrow Orchard is to be brought in from the penitentiary and turned over to Sheriff Hodgson until he has been examined and cross-examined to the satisfaction of both sides. He will be a close cell neighbor in jail to the men whose lives he may swear away, but it is likely they will not get even a glimpse of him during his stay there.

Boise, Idaho, June 4.—Orchard, the self-confessed murderer of former Governor Steunenberg was brought into Boise this evening from the Idaho penitentiary.

SHORTAGE IN FUNDS ALLEGED. Sensational Charges Against Officers of the Woodmen of the World. Denver, June 4.—A temporary injunction was issued here today by District Judge Allen on the application of Mrs. Jessie Falkenberg Falls, daughter of the late F. A. Falkenberg, founder of the Woodmen of the World, enjoining the officers of the order from proceeding with building the proposed monument to Falkenberg. It is charged that there has been misappropriation of funds subscribed for the erection of the monument.

EMMA KAUFFMANN ON TRIAL. Flandreau, S. D., June 4.—The trial of Mrs. Emma Kauffmann, wife of a wealthy brewer of Sioux Falls, accused of murdering Miss Agnes Breibers her sixteen-year-old domestic, opened here today, having been set here on a change of venue from Minnehaha county. The work of securing a jury, it is anticipated, will require several days.

SCHMITZ JURY COMPLETED. San Francisco, June 4.—The jury was completed this afternoon for the trial of Mayor Eugene Schmitz on the first of five indictments charging extortion. The taking of testimony probably will be begun tomorrow.

FRISCO STRIKERS USE DYNAMITE. San Francisco, June 4.—Dynamite was exploded under the first car sent out over the McAllister street line today. The passengers were badly frightened, but no serious damage was done.

NOT GOING TO HARVARD. Wrong Twist Given Remark By the President at Lansing.

Washington, June 4.—It is authoritatively stated at the White House that the president's remark at Lansing, Mich., last Friday that in a year and a few months he hoped to take a more active part in the Harvard Alumni association did not mean that he expected to hold any office whatever at Harvard in the future. It merely means that it is stated, that when his term as president is concluded, he would be at liberty to participate more actively in the affairs of the association.

EULOGIZES M'KINLEY. Vice President Fairbanks Speaks at the U. S. Grant University.

Chattanooga, Tenn., June 4.—Vice President Fairbanks delivered the oration at the commencement exercises tonight at the U. S. Grant University. Concluding his address, he referred to President McKinley and the Spanish-American war. He pointed out McKinley's caution and patriotism, his hopes for the adjustment of the differences without resort to the sword, and declared that "he was the very incarnation of justice, well-poised and serene in the midst of contending factions, holding back the too impetuous and invoking all agencies which wisdom and honor and patriotism could command to avert a conflict full of significance which God Almighty alone could measure."

W. J. Bryan in Baltimore. Baltimore, June 4.—William Jennings Bryan tonight delivered a lecture before the Young Men's Christian association. Shortly after its conclusion he was greeted by a large number of prominent Democrats at a banquet given in his honor. In his speech he devoted himself to a discussion of the excellence of the prospects of the Democratic party.

Y. M. C. A. LEADER DIES. New York, June 4.—Erskine Ethel, secretary of the international committee of the Young Men's Christian association, died in a hospital here today, following an operation.

BOMB IS FOUND IN JUDGE'S HOUSE

ACCIDENTAL DISCOVERY FRUSTRATES FIENDISH PLOT LAID TO NEW JERSEY ITALIANS. New York, June 4.—The accidental discovery of a bomb in the shape of a box filled with dynamite and fulminating powder, in a trunk with a fuse, in the home of Joseph Kennell, police judge of New Durham, N. J., today prevented the probable destruction of the house with its dozen inmates.

The attempt to kill Judge Kennell is laid to criminal Italians, of whom he has sent to prison a score or more, and three of whom were recently released. The police are looking for them.

\$2,500,000 DEAL IN ONTARIO. Spanish River Pulp & Paper Properties Bought by Wisconsin Capitalists. Toronto, June 4.—A syndicate with headquarters at Rhineland, Wis., has purchased the properties of the Spanish River Pulp & Paper company for \$2,500,000. The purchasers are headed by the Edmonds family, who are largely interested in the Rhineland Paper company.

TODAY'S WEATHER. Washington, June 4.—The following is the weather forecast for Upper Michigan: Fair, Wednesday and Thursday; fresh northwest winds.

POLICE CAN'T STOP GAMBLING ON LAKE

JURY DECIDES CHICAGO OFFICIALS HAVE NO JURISDICTION OVER THE FLOATING POOL ROOM. Chicago, June 4.—A jury in the criminal court today decided that the police department of Chicago has no jurisdiction over the running of the steamer City of Traverse as a pool room on Lake Michigan, where wagering on horse races is carried on. A week ago the City of Traverse was put back in commission after lying at a dock for several weeks, and when she returned to port sixty-three of those who had gone out on the boat were arrested on the charge of gambling. Today one of the men arrested was put on trial, and the jury returned a verdict declaring that the defendant had not violated any of the city ordinances.

HERSELF THE HEIRESS. Mrs. Barber, Sister, Administratrix of Mrs. McKinley's Estate. Canton, O., June 4.—Mrs. M. C. Barber, sister of Mrs. McKinley and sole heir, was this afternoon appointed administratrix of Mrs. McKinley's estate. The estate is valued at \$135,000 personal property and \$65,000 real estate. This is exclusive of the estate of the president, which by the will goes to his direct heirs, Mrs. Duncan and Miss Helen McKinley of Cleveland and Mrs. Hermanus Baer (Mabel McKinley).

ALTON RAILROAD DIVIDEND. New York, June 4.—The directors of the Alton railroad today declared a semi-annual dividend of 2 per cent on the preferred stock.

VICTIMS' BODIES BLOWN TO PIECES

Three Men Killed in Illinois by the Explosion of a Carload of Gasoline—Bits of Their Flesh Scattered for Many Yards.

Watching the Destruction of a Freight Train Which Had Become Ignited from a Hot Box, They Meet a Shocking End—All the Windows in the Nearby Town Are Broken and Chimneys on Houses Demolished for Miles Around.

Reddick, Ill., June 4.—Three persons were killed here tonight by the explosion of a car loaded with gasoline. One of the killed was Fred Hatting, a barber of Reddick. The names of the others are unknown. The three men were watching freight cars burn that had become ignited from a hot box.

As the train neared the junction of the Chicago, Indiana & Southern and Wabash railroads, the car with the hot box was derailed. Two other cars loaded with oil were dragged into the ditch, and all caught fire. Next to these cars was another loaded with gasoline, which caught fire from the sparks. An explosion followed which broke all the windows in the village and demolished the chimneys of houses for miles around. The three men were blown to pieces and fragments of their bodies were scattered for a hundred yards around.

Reddick, Ill., June 4.—In addition to F. W. Hatting, the barber, of Reddick, it has been found that the other two men killed were John Frazee and Austin Stockton, both of Danville, Ills. Ten persons were injured by burning oil scattered in all directions by the explosion. Hal Dowell, of Danville, the most serious hurt, may die. Sixteen cars in all were destroyed.

LIVES REPORTED LOST. Street Car at Birmingham Collides With Train of Molten Metal. Birmingham, Ala., Wednesday, June 5.—A street car ran into a train loaded with pots full of molten metal at 12 o'clock this morning. The car was set on fire and was entirely consumed. Several persons are reported burned to death.

Mine Fatality in Pennsylvania. Wilkesbarre, Pa., June 4.—The bursting of an air mine at No. 1 Colliery at the Pennsylvania Coal company, at Port Blanchard, today, killed two men, fatally injured two others and caused minor injuries to eight more.

Passenger Train Derailed. Duquesne, Pa., June 4.—A Great Western passenger train, westbound, was derailed six miles west of Duquesne this afternoon. Five persons were injured. Spreading rails is supposed to have caused the mishap.

M. E. BISHOPS OVERWORKED. General Conference Will Be Asked to Lighten Burdens. Boston, Mass., June 4.—The Methodist episcopacy is the subject engaging the attention of leaders in that denomination at the moment, for although the Methodist general conference does not meet until next spring, there exists in the denomination a strong sentiment to the effect that the conference must do something to relieve the bishops from the pressure of work which is wearing out the men now in the general superintendency of the church, and which it is seriously believed has caused the deaths of several bishops in recent years.

Discussion among leaders and careful study of the situation is now being held in order that some plan may be made ready for the meeting of the general conference. It is said that there is a new feeling in the Methodist church about its general superintendents, and that the change will be made manifest at the coming general conference. No longer, it is said, are men being urged for the honor of the episcopacy by their well-meaning friends, as they were until very recent years; but now leaders in the church are seeking for men upon whom it will be safe to lay the tremendous work and responsibility of the office. For the Methodist church, some leaders say, is rapidly killing off its bishops with work.

Four of the bishops have died since the general conference of 1904—Merrill, Fitzgerald, Joyce and McCabe. Bishops Fowler and Hamilton have been too ill for months to actively engage in the work of their office. It is pointed out that in all but a very few instances the bishops who have died in recent years have literally dropped. As a leading Methodist expresses it: "They have to work until they stagger and drop." Bishop Joyce, for example, was no longer said shortly before his death that he had been in his own home only a few nights in as many months, and had done most of his sleeping on railroad trains.

In several particulars the system which governs the appointments of Methodist bishops is deemed to be faulty. Although often engaged in by no means unanimous in the church, some leaders are outspoken in arguing that the assignments of the bishops to annual conferences is uneconomic. A bishop may be appointed to live in Buffalo, for example, and he may be assigned to preside over conferences in

WILL PROSECUTE THE COAL ROADS

Government Will Bring Suit Shortly—President and the Cabinet Consider the Matter and Come to That Decision.

Violation of Anti-Trust Law Is the Allegation Against the Companies—Is Determined Also to Institute Proceedings to Compel E. H. Harriman to Divulge Certain Desired Information, and This Task Is Delegated to Special Counsel Kellogg.

Washington, June 4.—Attorney General Bonaparte today said that he had not yet had conference with the president on the subject of proposed suits against the coal-carrying railroads, but it was his expectation that he, with other members of the cabinet, would meet with the president within the next two or three days and determine upon the line of action.

Washington, June 4.—It is understood tonight that the matter of the prosecution of the coal-carrying railroads charged with violating the Sherman anti-trust act was considered at the cabinet meeting this afternoon. The question was gone into fully, and it is believed that the department of justice will soon take steps to bring it into the courts.

Proceedings Against Harriman, Also. Washington, June 4.—After a conference with President Roosevelt tonight, Commissioner Lane of the interstate commerce commission announced that before July 1 legal proceedings would be instituted to compel E. H. Harriman to answer certain questions propounded him by members of the commission at the recent hearing in New York when the merger of the Harriman lines was under investigation. Previous to his conference with the president, Commissioner Lane had conferred with Frank B. Kellogg, special counsel for the government in the Standard Oil prosecutions, and it was arranged that Mr. Kellogg should represent the government in the case to be brought against the railroad magnate.

C. & N. W. Accepts the New Laws. Lincoln, June 4.—The Northwestern railroad this evening gave formal notice of a revision of its passenger tariffs to comply with the two-cent fare laws in the states where such legislation has gone into effect. Among the states affected are Nebraska, Illinois, Iowa and Minnesota. The notice is regarded as confirming the decision of the Northwestern to resist the two-cent laws in any of the states. The Burlington today complied with the anti-pass law by furnishing the commission with a list of its pass-holders in Nebraska.

LOW FARES KNOCKED OUT. Cleveland Street Railway Wins Great Victory in Supreme Court. Columbus, June 4.—The supreme court today, in its decision in the suit of the city of Cleveland against William Reynolds, gave a great victory for the Cleveland Consolidated Railways company, upholding the validity of its franchises, thus knocking out the low fare franchises.

Omaha City Wins in Water Case. Omaha, June 4.—Judge Munger, of the United States circuit court, today decided in favor of the city of Omaha the suit brought by the Water company to compel the city to purchase its plant at the price fixed by the majority of the board of appraisers, which was \$6,263,795. The decision is based upon the fact that the appraisers received as evidence books and records of the Water company without first submitting them to the city. Appeal will be taken by the company. The appraisers were appointed under a law passed by the legislature in 1903, compelling the city to secure the water plant either by purchase or construction. The city rejected the appraisement as too high, and on the ground that the board's proceedings were irregular.

PHONE ASSOCIATION GROWS. Now More Than Ten Thousand Companies That Hold Membership. Chicago, June 4.—During the past year 2,642 new companies were added to the records of the International Independent Telephone association, according to the report of Secretary Sarney. This makes a total of 10,042 independent concerns, operating in over 10,000 cities and towns, controlled by the association. The convention of the association opened here today with over 600 delegates present from all parts of the country. Several addresses were made at today's session showing the rapid growth of the organization.

IS MANAGED BY PRIESTS. College Theater, a New House in Chicago, Presents Its First Attraction. Chicago, June 4.—Chicago has a theater, the management of which is entirely in the hands of Catholic priests. After an expenditure of \$300,000, the College theater, on the North side of the city, opened tonight for the first time. The attraction was the late Frederick Grant Gleason's grand opera in English, "Otto Visconti." This is the first time it has been presented on any stage.

COUNT OKUMA IS CHESTY. Japanese Molder of Opinion Would Bring Americans to Book.

Tokio, June 4.—Count Okuma, former leader of the Progressive party, and who is still a leader of public opinion, is prominently quoted in the opposition newspapers as urging a concentration of the Japanese national efforts toward the settlement of the San Francisco question that Japan should demand a public apology from the mayor of San Francisco, and also that Japanese should receive treatment similar to that given Anglo-Saxons in the United States.

Kuroki at Fort Leavenworth. Leavenworth, Kans., June 4.—General Kuroki and party left for St. Paul over the Burlington railway this evening, after a day spent at Fort Leavenworth. The day included a reception tendered by General Hall and other officers; a luncheon, a review of all the troops at the garrison, including heavy batteries, field artillery and infantry, and inspection of the army service schools.

REPEALED BY THE DOUMA. Two More of Premier Stolypin's Obnoxious Laws Rejected. St. Petersburg, June 4.—The lower house of parliament today rejected two more of Premier Stolypin's temporary laws, one providing for increased punishment and trial exclusively before military and naval courts-martial of persons charged with conducting revolutionary propaganda among troops of sailors, and the other authorizing the police to fetter political prisoners.

In spite of the surface tranquility and the devotion of parliament to work, rumors of its approaching dissolution, possibly this week, were discussed in the lobbies today and are considered likely to cause an immediate change of policy on the part of the Constitutional Democrats, a strong faction of which believes in appealing to the country on the basis of the Constitutional Democratic agrarian program. The plan is to bring up and reject as soon as possible the temporary agrarian program, enacted during the recess, thus forcing the government's hand and providing the Constitutional Democrats with a popular issue.

MISSIONARIES FLEE TO ESCAPE CHINESE ONE, A METHODIST WORKER, IS CAPTURED BY REBELS AND MERCILESSLY BEATEN. London, Wednesday, June 5.—A dispatch received here from Hong Kong says that Mr. Pollard, Methodist missionary at Chao-Tung Pa, has been mercilessly beaten by Chinese. His lung was pierced by a weapon. Missionaries are flocking into Hong Kong from the Swatow and Pakhoi districts.

Earthquake's Fearful Toll. Victoria, B. C., June 4.—The steamer Shawmut, arriving today, brought news that four thousand persons were crushed to death, a vast number of houses destroyed and many persons left starving following an earthquake at Hsing Kiang.

TERRORISTS THROW BOMB. Two Detectives Killed, Other Persons Injured, at Lodz, Poland. Lodz, June 4.—Two detectives were killed and two soldiers and three other persons wounded here today by a bomb thrown at the police officials by terrorists.

EDNA MAY A BRIDE. London, June 4.—Edna May, the American actress, was married this morning at Windsor to Oscar Lewisohn, of New York.

ITALY WON OVER BY VON BUELOW JOINS WITH GERMANY IN OPPOSITION TO THE MATTER OF LIMITING ARMAMENTS. Rome, June 4.—The situation of Italy at the second Hague conference was made known today.

After Signor Tittoni returned from London, where he had been ambassador, to become minister for foreign affairs, he announced himself in entire accord with Great Britain's proposition as to the limitation of armaments, German and Austria, the two other members of the triple alliance, were not in favor of England's suggestion, and sought to change Signor Tittoni's views. This was finally brought about by Chancellor Buelow in a secret conference with the minister at Rapallo some months ago.

At the time of the Rapallo meeting it was reported that Mr. White, who had just gone as American ambassador to Paris a few weeks before, had a mission to bring France round to the views of America and England with regard to the limitation of armaments, which would have meant again the isolation of Germany and Austria.

The arguments of Von Buelow were not without weight from the point of view of ally to ally, so that Signor Tittoni had an idea of a middle course which would save the susceptibilities of all the powers concerned, he proposing such procedure in the discussion of the limitation of armaments as to be acceptable to all. Von Buelow agreed, so immediately after his return to Rome Signor Tittoni made to the great powers the proposition which he thought would settle the matter, but unfortunately it was not accepted, not only by England and United States (the answer of Secretary Root being couched in very courteous

LARGE INCREASE IN STATE BUDGET

Appropriations Will Run Up \$9,500,000 This Session, Compared With a Total of \$7,290,000 Authorized Two Years Ago.

Business Will Close the 19th, and Final Adjournment Occur Ten Days Later—Gordon's Bill for Marquette Deputy Officials Is Passed, as Is the Land Measure, the Latter in Committee of the Whole—A \$10,000 Silver Service for the Battleship Michigan.

Lansing, Mich., June 4.—[Special.]—Senator Moriarty's bill removing the limit on the number of acres mining companies may hold passed the house in committee of the whole today and will on its passage tomorrow probably. There was no opposition today. Representative Miller of Detroit is said to be planning an onslaught on it tomorrow. The upper peninsula have been industriously lining up friends for the bill today.

Appropriations Piling Up. It was estimated today that the appropriations for the session would run to \$9,500,000, which will be the state budget for the next two years. The last session authorized expenditures of \$7,290,000, but it held the expense below what they would have been in many cases, and various institutions suffered. This time provision has been made for the growth of asylums, Normal schools and other state institutions. The proposed addition to the capitol and the trap rock prison scheme are not included in the house figures. The governor's binder twice plant, at \$175,000, is in, but it is quite likely that it will not pass the senate, though the administration has not given up hope.

The house today amended the senate adjournment resolution to read, business adjournment June 19 and final adjournment June 20. It is likely that the senate will concur, though it had fixed June 12 and 23 as the dates.

Silver Service for Battleship. The senate today passed an appropriation of \$10,000 for a silver service for the battleship Michigan.

Representative Gordon's bill providing for the appointment of deputies for the city recorder, treasurer and controller of Marquette passed the senate.

The game bills, including the two introduced by Mr. McCullum of Schoolcraft, are made the special order in the house for tomorrow afternoon.

The governor signed the bill providing a deputy register of deeds for Keweenaw county today.

LOTTERY BROKEN UP. Thirty-Two Persons at Mobile, Ala., to Pay Fines of \$284,000. Mobile, Ala., June 4.—The Honduras Lottery company today passed out of existence when thirty-two persons connected with the concern were fined \$284,000 and surrendered to the government for destruction all the lottery paraphernalia.

OVER M'CLELLAN'S VETO. New York Assembly Passes the Utilities Bill, 116 to 11. Albany, N. Y., June 4.—By the vote of 116 to 11, the assembly today repassed, over Governor McClellan's veto, the public utilities bill. The measure now goes to the senate.

terms) but by Germany herself, it appearing that Von Buelow had misunderstood the proposition when laid before him at Rapallo.

Italy's position is now said to be fully stated in the recent interview with Signor Tittoni. This in effect is that the Italian government "is in sympathy with the most noble objects suggested by the broad-minded British initiative, yet we fully agree with the Austro-German reservation on the impossibility of immediately finding a practicable and acceptable solution for the problem."

Italy, being chiefly a naval power, her delegates will take prominent part in the discussion of various subjects touching the usages of naval warfare, but only from a technical, military and humanitarian point of view.

SONS OF THE REVOLUTION. Convention Declares for the Patriotic Education of Children. Denver, June 4.—The national society of the Sons of the American Revolution today elected Nelson A. McClary, of Chicago, president; secretary general, A. H. Howard Clark, Washington, D. C.; treasurer general, Willard Scott, Iowa. The constitution under the charter granted by congress was adopted. Among the resolutions passed was one urging that special care should be taken in the patriotic education of children throughout the country. The congress adjourned to meet next year in Washington, D. C.

CROP REPORT BREAKS COTTON. Washington, June 4.—The average condition of the growing cotton crop, May 25, was 79.5 per cent. This compared with 84.6 per cent in 1906.

New Orleans, June 4.—The cotton market broke about a dollar a bale upon the receipt of the government's condition report.

The council's appropriation of \$300 for the Fourth of July entertainment fund is another sign that the eagle will be made to scream in earnest.

If Dick Croker ever gets to the British parliament as an Irish Nationalist he will doubtless find that compared to that position being the uncrowned boss of New York was a peaceful occupation.

The interstate commerce commission is now laying its plans to look into the operations of the Pullman company, and will get around to it very soon. This will be a popular inquiry. An eager public waits to ascertain why "top shelves" are held so high and why other apparent inequities in the Pullman charges are allowed to exist.

The authenticity of the offer to Mayor Becker of \$1,500 a week for thirty-eight weeks to play in "The Man of the Hour," now running in Chicago, appears undoubted. However, it isn't made clear whether the management wants him as a freak or as an actor. Inasmuch as the boy mayor's histrionic experiences have been decidedly limited, he probably is wanted as a freak.

April and May made up the worst spring that the country at large had experienced in about a century. Comparatively speaking April made a wretched showing, but May did even worse. The cold was unheard of, and no region was immune. When we think it over we have reason to be surprised that we have come out of our spring as well as we have.

Greene and Gaynor, the Savannah harbor hoodlums, find American justice more rugged and certain than Canadian justice. The United States circuit court of appeals has just sustained the sentence of the lower court in their case, and they are to pay fines aggregating \$75,000 and to serve sentences of four years imprisonment. We have, of late, been hearing much about the superiority of British court methods, compared with our own, but our observations of the Greene-Gaynor case compel the conclusion that whatever may be the excellencies of the British court methods they have not been transplanted to the British dependency of Canada.

There is this spring an unusual exodus of foreigners, on trips to their native homes. Probably most numerous among the outgoing parties are Finns, who have an exceptional love for the old country, probably because, as in the case of the Irish, the dominant power has made it a most uncomfortable country to live in. The exodus is eloquent testimony to the prosperous times of the past few years. The foreign born residents have been making money, and—unlike many Americans who always manage to keep abreast of their incomes, no matter how high these may mount—have been saving it. Most of the travelers are going home for visits, planning to return to the States again. Those who are going home to stay are for the most part comparative newcomers, who have not been here long enough to become thoroughly enamored with America and its opportunities. The balance of movement, however, is in favor of this country, for there are tens of thousands coming to our shores for each foreign-born resident who is leaving for a visit to the old country. If the exodus this spring has been notable, the influx has been even more so, for immigration has attained to unprecedented figures.

A trial case in Chicago has resulted in a decision that the anti-scalping statute in the state law is illegal, and a batch of offenders under that statute have been discharged. The scalpers, it appears, will now have a free hand to pursue their business, and it is probable that their levies, particularly on the theatergoing public, will be bolder and heavier than ever before. The worst of the scalping system as now practiced lies in the fact that in many cases there is collusion between the theatrical managements and the men who extort an extra price for tickets. Desirable seats cannot be purchased at a box office be-

SUPERIOR TRUST COMPANY
HANCOCK, MICHIGAN
 Capital - - \$150,000
 This company is under the supervision of the state banking department and is authorized by the law to act as executor, administrator, guardian, assignee, receiver or trustee.
 C. A. WRIGHT, -1- Pres.
 JACOB BAER, -1- Vice Pres.
 H. C. GETCHELL, -1- Secy.

cause they have been given over to scalpers, with the understanding that they will share with the managements of the theater the extra charge extorted from the public. This is an unfair and dishonorable practice, and ought to be stamped out. Possibly a way will be found of reaching it, despite the recent decision in the Illinois courts. There is a considerable public feeling on the question wherever scalping is practiced, the public generally regarding it as a particular grievance, and sooner or later a determined and effective effort will doubtless be made to have it ended.

The Detroit Free Press grows at the legislature for alleged extravagance. In the face of extraordinary demands, it says, the legislature "has shown an alarming inclination toward inconsiderate grants of sums not included in the original total. A senate majority voted \$200,000 for a preposterous prison on Keweenaw point. One educational institution, (the state university) which already absorbs enormous sums annually under a practically fixed tax, urged specific needs to excuse a plea for more money. Instead of a determinate grant to be devoted to those specific needs, another inconsiderate senate vote appropriated millions unestimated. Possibly it imagines its action will escape attention because it is concealed under the viciousness of an increase in the amount of perpetual tax already available. Local and state officials of every grade had only to ask for increased salaries to be promptly placed in receipt of them." The Free Press also mourns the things undone, and concludes: "If the differences over meritorious measures on which affirmative action might give a brilliant record are too great to be harmonized, the legislature can at least avoid the odium of reckless, inexcusable, senseless extravagance."

Reckless drivers of horses and automobiles alike should be compelled to observe the statutes of the state and the ordinances of the city. One is about as bad as the other. The statutes and ordinances are drawn in a spirit of liberality, and are designed to give all classes fair and relatively equal privileges on the highways. No driver of either horses or automobiles should want to be a road hog, any more than a man should want to be an end seat hog, or any other kind of a hog. It is neither gentlemanly or decent to ignore the rights of others on the streets and highways, any more than it is gentlemanly or decent to ignore them in other places. For the control of men who do not want to be considerate of the rights of others on the highways the state has enacted strong laws, and there are city ordinances that also apply. The police have ample power to enforce them and it is their duty to do so, irrespective of whom the offender may be, or whether he is running amuck with horses or an automobile. Furthermore the police may be assured, as The Mining Journal remarked yesterday morning, that in any steps they find it necessary to take to secure the safety of the streets for the greatest number they will have a cordial and hearty public support.

MAKE THE ATTEMPT, ANYHOW.
 Commissioner Prouty of the interstate commerce commission is quoted as saying that Harriman's "financial manipulation" of the Chicago & Alton cannot be corrected. A great many people had hoped that it could, but probably the commissioner is right. The securities which were issued have now passed into the hands of the investing public and it is not possible to void them without adding to the wrongs which have already been committed. The original stockholders have really no basis of complaint, as most of them were brought out before the "manipulation" and such as were not shared proportionately with Harriman in the illegal profits. The state or the federal government would be obliged to bring the suit and there seems to be no way of compelling a return of the securities to the company without injury to innocent purchasers.

This statement by Commissioner Prouty is supplementary to the statement of the president at Indianapolis to the effect that it is not the purpose of the administration to undo what has been done, but to safeguard the future. While it is admitted that much of the stock rigging of the past is illegal the attempt to correct the irregularities would probably be productive of more harm than good. There was never really any reason to doubt that Mr. Roosevelt would take this view, nor could it be doubted that if he had taken a different view the courts would have pronounced in favor of the status quo. The fear expressed by interested persons was never genuine and had for its purpose the creation of a sentiment hostile to the president and his policies.

But how about Harriman? Must he be permitted to escape with the swag unpunished and unrepentant? The man who snatches a loaf of bread from the owner is sent to jail and it may be to prison. Must it be admitted that there is a different kind of law for the man who steals a railroad? Is the one really a criminal and the other a financier? Harriman, no doubt, surrounded his transactions with every legal form possible and it may be that owing to the technicalities of the law he cannot be convicted and sent to prison, but it certainly seems as if the nation or state should make the attempt. If it fails it will at least show the weak spots in the law and point the way to their correction.

ROAD WELL PROTECTED.
 In another column The Mining Journal comments at some length on the present condition of the Presque Isle drive and the efficacy of the breakwater protection for that highway completed last year. The breakwater answers its purpose admirably, and promises to be permanent, for a sand beach is building up outside it and will protect the eribwork from being undermined by the waves. The roadway is not in good condition, but an appropriation has been asked with which to restore it, and the park, cemetery and street commission will doubtless soon see that the necessary work is done.

The present condition of the highway and breakwater shows that the council took a well advised and public spirited course when it ordered, under rather unusual circumstances, that the breakwater be constructed last year. It will be recalled that in the summer and fall of 1905 some \$90,000 was appropriated for this work, with very indifferent results. Last year the street committee asked for \$5,000 above its usual budget to complete the work. The council did not see fit to grant it. Later the aldermen, in a misguided moment, sought to shirk the responsibilities they were elected to meet, and obtained an expression of opinion of the taxpayers as to whether \$5,000 should be used to save the drive. There was much activity against the proposal to use that sum for such a purpose, and the vote was unfavorable to the project. Later \$5,000 owed the city by the light and power commission was paid over, and the council decided to use the money to protect the drive, disregarding this vote.

The course of the council is fully justified by the results. The expenditure of a little over the \$5,000 appropriated has protected the drive wherever it was exposed, and in all only about \$15,000 has been expended to save it. It is a shortsighted taxpayer who would begrudge \$15,000 to preserve the lake shore route to the city's principal pleasure resort. If it had been definitely known that \$15,000 would turn the trick there is little doubt the money asked for last year would have been voted by the taxpayers. Some of the feeling against the project was due to the wasteful and ineffective work done along the driveway in 1905.

If all the work on the drive had been as well done as that of last year, it would have cost considerably less than \$15,000 to save it, but it is cheap even at that price.

AN ORDINANCE.
 An ordinance amending sections two and three of an ordinance relative to the construction of concrete sidewalks and the collection of the expense thereof.
 The City of Marquette ordains:
 That sections two and three of an ordinance entitled, "An ordinance relative to the construction of concrete sidewalks and the collection of the expense thereof," be and they are amended to read as follows:
 Sec. 2. Upon the filing with the Park, Cemetery and Street Commission of the City of Marquette of the petition of the owner or owners of any lot or parcel of land in the city for the construction of concrete sidewalk in any highway adjoining such premises; or on the direction of the common council that any such improvement be made; it shall be the duty of the said commission to cause the same to be constructed and to certify to the controller the expense thereof, including therein the cost of superintendence.
 Sec. 3. The controller shall from time to time prepare and submit to the common council a concrete sidewalk special assessment roll, on which he shall assess against the respective premises severally, adjoining which sidewalks have been so constructed, the expense thereof as certified to him; which roll may embrace as many separate assessments as may be deemed practicable, and on which roll columns shall be provided for the collection of each assessment on such roll in one sum, or in three installments, with the percentage herein-after mentioned.
 Adopted, June 3rd, 1907.
 DANIEL S. DONOVAN, Recorder.
 Approved, June 4th, 1907.
 JOHN ROBERTSON, Mayor.

AN ORDINANCE.
 An ordinance relative to certifying of claims against the city.
 The City of Marquette ordains:
 Sec. 1. No account or claim or demand, except claims for established salaries, shall be allowed by the common council until the committee on finance and taxation of the common council shall have certified that the same has been examined by them and their recommendation in relation thereto.
 Sec. 2. No claim or account shall be certified by the committee on finance and taxation unless the same shall have been on file with the controller at least eight hours prior to some session of the common council at which the same could regularly be allowed if properly audited and certified.
 Adopted, June 3rd, 1907.
 DANIEL S. DONOVAN, Recorder.
 Approved, June 4th, 1907.
 JOHN ROBERTSON, Mayor.

JAMESTOWN EXPOSITION.
 Low rates daily via The North-Western line until Oct. 15th, liberal return limits, variable routes and stop-over privileges, affording an opportunity to visit New York, Washington, Niagara Falls and various Sea Coast and Mountain resorts. Direct connections in Chicago with all lines east. For particulars apply to local agents or C. E. Webb, General Agent, Houghton, Mich. (5-20-30-21w)

"Let us have some Cudahy's Peacock bacon and calves liver for supper Mama," say young and old. (11-27-eod)

 Degrees for Five Escanaba Students—
 Five Escanaba students will receive degrees at the University of Michigan this year. Three will receive their diplomas this month and two in October. The former are Miss Helen Mead, literary department; Fred Louis Erickson, literary and musical departments, and Joseph Robinson, law. Edward Head, literary department, and Fred Steinhilber, pharmacy department, will receive their degrees in October.

Seney Loses a Landmark—
 Seney has lost another of her landmarks in the removal of what has been known as the "Old North Shore House," located near the cemetery on the outskirts of the town. The building, which was quite a pretentious two-story frame structure, together with a large red barn attached to it, was built by the North Shore Lumber company in 1885. The company kept its horses there during the summer months and the dwelling was used by the caretaker. In the past twenty years the property has had more than a score of different owners, having been sold from photographs many times, and this spring was purchased by Jos. L. Grondin of McMillan, Luce county. Mr. Grondin has dismantled and moved it to McMillan, where it is now being rebuilt into a modern dwelling house.

Boy Kills in Protecting Mother—
 Frenzied by drink and crazed by fancied wrongs, Charles Laycock, a farmer living near Daggett, Menominee county, while attempting to choke his wife into insensibility was shot and killed by William, his sixteen-year-old son, who entered the bedroom in the nick of time and sent a bullet from a .22-caliber rifle into his father's brain. Laycock came to his home shortly after 1 o'clock in the morning and immediately pulled his sick wife out of bed, clutching her by the hair and at the same time threatening to kill her and the whole family. Albert Laycock, the oldest son, attempted to release his partly unconscious mother from the grasp of the drunken father. The father turned upon his son and drawing a knife was about to plunge it into his breast, when the younger boy upon the scene and stopped the impending fatal assault by shooting his father through the head. The boy has been arrested, but will probably not be prosecuted.

TONIGHT.
 If you would enjoy tomorrow take Chamberlain's Stomach and Liver Tablets tonight. They produce an agreeable laxative effect, clear the head and cleanse the stomach. Price, 25 cents. Samples free at The Stafford Drug Co.

Use A NEW PERFECTION Wick Blue Flame Oil Cook-Stove

Because it's clean.
 Because it's economical.
 Because it saves time.
 Because it gives best cooking results.
 Because its flame can be regulated instantly.
 Because it will not overheat your kitchen.
 Because it is better than the coal or wood stove.
 Because it is the *perfect* oil stove.

For other reasons see stove at your dealer's, or write our nearest agency.
 Made in three sizes and fully warranted.

The **Rayo Lamp** cannot be equaled for its bright and steady light, simple construction and absolute safety. Equipped with latest improved burner. Made of brass throughout and beautifully nickled. An ornament to any room, whether library, dining-room, parlor or bedroom. Every lamp warranted. Write to our nearest agency if not at your dealer's.

HANCOCK-HOUGHTON COUNCILS.

Important Meetings Held Monday Night in Both Villages.

The Houghton village council met Monday night in special session for the purpose of awarding the contract for the construction of the West Houghton sewer, for which a bond issue of \$50,000 was recently made.

The Hancock council held a regular meeting Monday night, and while it was a protracted session there was very little business actually disposed of.

The council unanimously voted to condemn the wooden viaduct which now crosses the ravine and the clerk was instructed to notify the street railway company that the bridge must be closed to traffic.

The city attorney was instructed to go ahead with the matter of issuing bonds for the Quinay street paving. The council accepted the invitation of Rev. J. S. Gould, pastor of the Hancock Congregational church, to attend a religious meeting in the Kerredge theater next Sunday night.

NEW HOUGHTON CLUB.

Plans Have Been Received From Milwaukee Architect.

Dr. L. E. Hubbard, chairman of the building committee of the Houghton club, has received from Architect Alexander Eschweiler of Milwaukee the complete plans for the new club building to be located at Portage and Sheridan streets.

The entrance will be on Portage street, the main floor being at an elevation of half the incline of the first block of that thoroughfare.

The main entrance on Portage street opens into a tiled vestibule, which again opens into the main lobby, at the western end of which is the broad stairway leading to the upper floors.

On the third floor the ballroom practically takes up the entire space. It is 76 feet long on the east end, cloak and waiting rooms. At one end of the ballroom is a balcony for musicians.

The general scheme of the plans is one looking toward homelike comfort. There are no elaborate decorations, but everything will be substantial and roomy.

On the second floor is a long lobby, north and south, which divides the floor. The library is here, over the parlor. There are two private dining rooms and two card rooms, the latter being intended also for use as private dining rooms.

On the first floor is a long lobby, north and south, which divides the floor. The library is here, over the parlor. There are two private dining rooms and two card rooms, the latter being intended also for use as private dining rooms.

COPPER COUNTRY BASEBALL.

Duluth and Winnipeg Playing in the Copper Country.

The showing made by the Calumet and Houghton teams Monday afternoon was real heartening to the copper country fans. They braced right up and began to talk about pennants, where last week they were downcast and morose.

As noted in yesterday's issue, Calumet shut out Duluth and Houghton did the same to Winnipeg, the two games being pretty fine baseball. Winnipeg played at Calumet yesterday and Duluth played at Ripley against Houghton. The results:

Houghton defeated Duluth by the score of 11 to 1. At Calumet, the game was awarded Winnipeg by the score of 9 to 0. The team from Manitoba had registered three tallies in the fifth. Calumet sent two men across the plate in the eighth, and then another. This last score was disputed by Winnipeg and on Empire McGraw deciding the point against the locals, Captain Dejan took his team from the field.

The Cricket Schedule. Secretary-Treasurer Reid of the Houghton County Cricket league has announced the following schedule of games for the season:

At Mohawk—June 22, Trimonant; July 6, Tamarack; July 20, Painesdale; August 10, Portage Lake; August 17, Kearsarge.

At Kearsarge—June 15, Mohawk; June 22, Painesdale; July 6, Trimonant; July 13, Tamarack; August 17, Portage Lake.

At Tamarack—June 29, Mohawk; July 27, Portage Lake; August 3, Painesdale; August 17, Trimonant; August 24, Kearsarge.

At Portage Lake—June 15, Tamarack; July 6, Painesdale; July 20, Kearsarge; August 3, Mohawk; August 24, Trimonant.

At Trimonant—June 15, Painesdale; June 29, Portage Lake; July 13, Mohawk; July 20, Tamarack; August 3, Kearsarge.

At Painesdale—June 29, Kearsarge; July 13, Trimonant; July 27, Painesdale; August 10, Tamarack; August 21, Mohawk.

At Painesdale—June 29, Kearsarge; July 13, Trimonant; July 27, Painesdale; August 10, Tamarack; August 21, Mohawk.

At Painesdale—June 29, Kearsarge; July 13, Trimonant; July 27, Painesdale; August 10, Tamarack; August 21, Mohawk.

At Painesdale—June 29, Kearsarge; July 13, Trimonant; July 27, Painesdale; August 10, Tamarack; August 21, Mohawk.

At Painesdale—June 29, Kearsarge; July 13, Trimonant; July 27, Painesdale; August 10, Tamarack; August 21, Mohawk.

At Painesdale—June 29, Kearsarge; July 13, Trimonant; July 27, Painesdale; August 10, Tamarack; August 21, Mohawk.

At Painesdale—June 29, Kearsarge; July 13, Trimonant; July 27, Painesdale; August 10, Tamarack; August 21, Mohawk.

At Painesdale—June 29, Kearsarge; July 13, Trimonant; July 27, Painesdale; August 10, Tamarack; August 21, Mohawk.

HOUGHTON PAINTERS STRIKE.

Demand and Receive Pay for Ten Hours and Work Nine.

The painters and decorators of Houghton pulled off a strike the first of the week in a very quiet manner, and were successful. It was not exactly a strike, as there was no cessation from work, but it had the same effect. The men organized a union last winter, a branch of the Brotherhood of Painters and Decorators of America, and they made their demand Monday, their first action since organization. The better class of painters have been receiving \$3 a day for ten hours work, and the lesser painters \$2.75.

The demand was for the same wages for ten hours' work. As there was a lot of work going on in Houghton, the employers submitted.

An employer ventured the opinion to the Mining Journal yesterday that the painters of the entire copper country would soon be making the same demand, although it is only in Houghton that the new scale is as yet in effect.

The plumbers of Houghton and Hancock, who went on a strike May 1, are as yet at work, and practically nothing of the kind of work is being done in the two towns, except such as is tented to by the owners of small shops.

LECTURE ON CONSTITUTION. U. S. District Attorney Chase Talked to Senior Class.

The senior class of the Houghton High school was in the court room at the morning session of circuit court yesterday, when U. S. District Attorney Chase, who was invited to give the address, was particularly disappointed again that there was no trial for them to witness. But they heard United States District Attorney Chase questioning applicants for citizenship, and their interest in the matter was keenly maintained.

Chase, who is a member of the bar, and who has been practicing law in Michigan for many years, was particularly interested in the matter of naturalization, and he explained to the class the principles of the constitution.

Chase declared that the constitution might appear to the young students as a night document and one that might easily be mastered in a short time, but when one came to dissect it and study the application of its principles it was found to be one of the broadest fields of study known to students of law.

TRAMPLED BY ANGRY HORSE.

Archie MacDonald of Ontonagon Has Close Call from Death.

Thrown from a horse and then trampled upon and kicked by the animal was the fate of Archie MacDonald, an Ontonagon young man. He received a deep gash in the back of his head, a thumb was put out of joint and he was severely bruised. The accident took place in front of Edward Duceaux's store and that the young man was not more severely injured seemed almost miraculous to those who witnessed it.

The breaking of the saddle girth appears to have been responsible for the trouble, reports to Herald. With one arm filled with a play point and other things MacDonald was on his way to the farm, and was jogging along at a fairly good clip, becoming frightened at something which he had not seen. He received a warning, but clung to the neck of the horse and succeeded in getting back into the saddle. The horse, now thoroughly frightened, began plunging and the giving away of the saddle with dashed the rider. In the mixup which followed he was struck and kicked by the animal.

MacDonald, covered with blood, was picked up and conveyed to his home. A physician was summoned and an examination revealed that the most serious injury was the gash in his head and neck, which was about an inch deep. The skull had been fractured, but fortunately this did not prove the case, and he is getting along nicely.

The horse is one which MacDonald had recently secured from William Roehm. He used it under the saddle a number of times and it never before gave any indication of the rapid double action it displayed on this occasion.

CONCERNING M. N. G. PROMOTIONS. Captain Heckel of the Houghton Company Discusses Them.

Captain E. G. Heckel, commanding the Houghton Light Infantry, which is Company G of the Third regiment, M. N. G., gives The Mining Journal his opinion regarding the proposed plan of promotion by seniority, which the legislature attempted to impose on the Michigan National Guard. At present the field officers of the various regiments are elected by the officers of the regiment.

Captain Heckel with many other officers favor this, and as the copper country is interested in that military matter, having three National Guard companies within its borders, his opinion is of interest. He says that seniority does not necessarily include ability to command a company as, for instance, a man might be a good lieutenant, but not be able to command a company, might not be in a position to afford it, might lack executive ability. He would have to take promotion or get out on the seniority rule. Also, an officer joins the guard hoping for promotion. The chance occurs rarely for a field officer and when it does come all officers should have an equal chance at the votes of their brother officers.

Captain Schwallenbach of the Menominee company is Captain Heckel's senior by twenty days, and in filling the vacancy caused by the removal of Major Hendrickson from Houghton to Butte the Menominee man's twenty days would give him the office. It might have no bearing in an election, and both would have an equal chance, as it is conceded they are equally entitled to the office by ability.

LAST MONTH'S WEATHER. Coldest May in Seven Years of Copper Country Record.

Observer Wiesner of the Houghton weather bureau station yesterday published his monthly summary of weather conditions in May, just closed. The summary shows that it was the coldest May since the Houghton weather station was established seven years ago.

The mean temperature was 40. In the preceding years, the lowest was 47, this 1906, which had been as high as 52, in this case in 1901. The weather was eight degrees cooler than the average. The warmest day showed 65 degrees, this the last day of the month, while the coldest was pretty wintry—23 degrees on the 24th. Three and one-half inches of snow and rain fell during May, in which respect this month was only exceeded by that of May, 1903.

The month was not stormy, however, a 28-mile breeze being the worst the wind could do. There were five clear days, seventeen partly cloudy and when cloudy, while on fifteen days rain or snow fell. There were two days with thunderstorms, and three with frosts.

COMMENCEMENT NOTES. Commencement week, now so rapidly approaching, means more to Houghton than possibly to any other territory of similar size in the state, owing to the large number of high schools which will graduate classes. They are at Calumet, Hancock, Houghton and Lake Linden and in Adams township. The Sacred Heart, Calumet, and Hancock and the Lincoln parochial schools also will graduate classes, and at the exercises will be held within the week of June 17.

The latest school to announce a program of exercises is St. Patrick's of Hancock. This school will graduate a class of seven—Ella Harrington, Teresa Murphy, Hannah Crowley, Nancy Conway, May Vignotto, Nellie G. Harrington and Margaret Harrington.

The Hancock school board has appointed C. R. Cobb of Escanaba principal of the High School, to succeed M. J. Walsh, resigned, and he has accepted.

The Calumet High school has held on June 21st the time and the Red Jacket town hall as the place of holding the annual banquet to the graduating class.

The personnel of the graduating class of the Calumet High school was announced yesterday. There are thirty-seven members, which is a coincidence, as that is the exact number in each of the three preceding classes. The class of '04 numbered forty-two, the largest in the history of the school. The present class is distributed through the courses as follows: English 12, Latin 9, commercial 5, Latin-German 5, manual training 4, domestic science 2.

COLIC AND DIARRHOEA. Pains in the stomach, colic and diarrhoea are quickly relieved by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by The Stafford Drug Co.

THE CITIZENS' NATIONAL BANK HOUGHTON, MICHIGAN

OFFICERS. DIRECTORS. Graham Pope, C. V. Seebor, R. E. Lippoweth, J. H. Hedcamp, R. H. Hall, A. F. Hedcamp, C. H. Moss, C. H. Moss.

COPPERDOM BREVITIES. Lessing Karger returned yesterday to Houghton from a European trip. Mr. and Mrs. C. C. Douglass of Houghton left Monday afternoon for an Eastern trip.

Joseph Glasson of the Calumet Evening News was one of the men to take out full citizens papers in circuit court Monday.

The annual convention of the General Congregational Association of Michigan will convene tomorrow at Hancock. It will be one of the most important gatherings of the year.

A new lodge of the Pythian Sisters was organized last night at Calumet by ladies whose husbands or brothers are members of the Calumet and Laurium lodges of the Knights of Pythias.

Mr. and Mrs. Irving Shields, who have been visiting Mr. Shields' parents in Hancock, left Monday evening for Duluth, where Mr. Shields is engaged with the Standard Oil company.

Richard's & Pringle's Georgia Minstrel will show at the Kerredge theater tonight. They played to a satisfied audience in Calumet last night. This is the oldest colored minstrel organization on the road.

Dr. Clarence Baer of Milwaukee, who has been visiting relatives in Hancock for a time, left yesterday for Baltimore to complete arrangements for taking a place on the faculty of Johns Hopkins University. He has just returned from two years of European study.

William D. McIntosh of Marquette and Miss Gertrude Redmond of Hancock were quietly married at the latter's home Monday morning. Mr. McIntosh is route agent for the Western Express and was formerly agent for that company in Hancock and in Houghton. They will reside in Marquette after a brief wedding journey.

COBALT GOSSIP. Three shafts are sinking at the Big Ben property. The deepest is down fifty feet. Word has been received that the big vein recently struck on the Nipissing has been traced on to the McKinley Darragh property.

A diamond drill is going into commission at the Little Nipissing mine. It is stated that a good showing has already been made on this property.

The Silver Queen has struck four inches of high-grade ore on a crosscut at the seventy-five-foot level. The company has seven cars of ore lagged and ready for shipment.

On the first of the present month the Conlags company paid a bonus of 1 per cent. This was in addition to the regular dividend of 2 per cent. for two months, and is the first bonus the company has declared.

The Silbert Mining company, in the Clear Lake district, is sinking a double compartment shaft to the 20-foot level. Whence drifting will be begun. New machinery has been set in place. Eighteen veins have been located. It is said.

Superintendent William Morrison of the Empress mine reports that the vein on that property has widened to ten inches and that the shaft is down now about eighteen feet. An assay of cobalt samples was made and showed a deposit of 180 pounds to the ton of cobalt.

As regards the new bonanza vein at the Nipissing, a prominent interest in the Empress mine reports that the vein into the McKinley-Darragh property 100 feet and holds its value 100 feet in depth, it will mean \$1,000,000 to the latter company, and that it means far more to the Nipissing.

Recent advices from the Argyle property state that two ore bodies have been opened up one seven feet in width and assaying 1,000 ounces of silver to the ton, the other five feet in width, assaying from 400 to 600 ounces. At present there are twenty-five men at work and shipments will probably commence about July 1.

The Kerr Lake interests have received the returns from a carload of ore which they shipped to the smelter, and in addition to the usual silver output they have received from the shipment gold to the value of \$10 a ton. As no other previous

His subject will be the "Psychology of Adolescence."

HOW'S THIS.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

W. J. CHERRY & Co., Toledo, O. We, the undersigned, have known J. C. Cherry for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out all obligations made by this firm.

WALDING, KINNA, & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally and acts directly upon the blood and mucous surfaces of the system. Treatment is simple and free. Price, 75 cents per bottle. Sold by The Stafford Drug Co.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable. Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney cure.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and bright disease of the kidney, the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways in hospitals and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free to them, also a booklet telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y.

The regular one-dollar and one-half dollar bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

EVERY MAN HIS OWN DOCTOR.

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to keep a stock of so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's Remedies have been in the market for many years and enjoy a good reputation.

Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints.

Chamberlain's Cough Remedy for coughs, colds, croup and whooping cough.

Chamberlain's Pain Balm (an antiseptic liniment) for cuts, bruises, burns, sprains, swellings, lame back and rheumatic pains.

Chamberlain's Stomach and Liver Tablets for constipation, biliousness and stomach troubles.

Chamberlain's Salve for diseases of the skin.

One bottle of each of these five preparations costs only \$1.25. For sale by The Stafford Drug Co.

S. S. S. PURELY VEGETABLE

S. S. S. is recognized everywhere not only as the best of all blood purifiers and the greatest of all tonics, but the one medicine that can be taken with absolute safety by everyone.

Young or old, those in robust health, or those whose systems are delicate and run-down, may use it with the same good results, and equally without fear of any unpleasant or injurious after-effects.

Next in importance to removing the cause of any disease is the condition in which the system is left after a course of medical treatment. Medicines containing mercury, potash or other strong mineral ingredients often do permanent injury by eating out the delicate lining and tissues of the stomach, producing chronic Dyspepsia, unfavorably affecting the bowels, and so deranging the system otherwise, that even if the original disease had been removed from the system it is left in such a weakened and deranged condition that the health is permanently impaired. S. S. S. enjoys the distinction of being the only blood medicine on the market that does not contain a mineral ingredient of some kind. It is made entirely of the healing, cleansing extracts and juices of roots, herbs and barks gathered directly from the forests and fields of nature, under our own supervision, and when they reach our laboratory contain all their original valuable tonic and blood purifying properties. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral in any form. Being made entirely from these vegetable ingredients S. S. S. is absolutely harmless to the system, and while curing disease adds health and strength to every part of the body. S. S. S. cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Diseases, and all other blood troubles, by removing the cause and supplying the circulation with health-giving and strength-producing qualities.

H. E. BITTNER - Marquette

City Brevities

Today's weather: Fair, stationary temperature.

Walter Hodgkins of Ashland, Wis., is in the city on a visit.

C. D. Reeves, of Iron Mountain, was a Marquette visitor yesterday.

W. J. Williams, of Ishpeming, is looking after business in this city.

The Rev. J. P. Sandstrom spoke at the Swedish Baptist hall last evening.

Miss Mae Hodgkins has returned after a vacation trip south of two months duration.

W. H. Beals has left for Portland, Oregon, to look after some work for lumber operators.

Dr. Dudley, of Chicago, arrived in the city yesterday and went to the Huron Mountain club for an outing.

There will be a meeting of the High School Alumni association tonight at 7:30 o'clock at the high school building.

Martin Vierling has purchased the Bush homestead on the southeast corner of Front and Arch streets, from the William Ward estate; consideration \$4,500.

Mrs. Edward Richards and four daughters—Mrs. Alva Olson and the Misses Amy, May and Bessie Richards—have returned from Los Angeles, where the death of Mr. Richards occurred recently, and will spend some months here.

Wm. D. MacIntosh of this city was united in marriage at Hancock yesterday to Miss Gertrude Redmond of that city. After a brief honeymoon tour, they will take up their residence in Marquette. Mr. MacIntosh is route agent for the Western Express company.

Will Visit Europe—Rev. Father Miller of Dollar Bay passed through the city Monday, enroute for Pittsburg to visit his old home prior to his departure for Europe on the steamer Campania, sailing from New York on Saturday, the 15th inst. He will have his fellow travelers on the ocean voyage, Rev. Fathers Rezek of Houghton and Zimmerman of Hubbard. Others who will sail on the Campania will be Miss Catherine Clune and Frank Mulvey and daughter of this city.

Work Nearly Finished—Thomas O. Edwards, of Manistique, and W. A. St. Clair, of Lansing, the steeple jacks who have been working on the Methodist church steeple for some days past, will conclude their labors Friday. Mr. Edwards is one of the most noted steeple climbers in the country and has won international fame by his daring exploits. Five years ago he repaired the tower on the Goddard of Liberty state in New York harbor. The work of the men on the Methodist church has attracted much attention.

Marquette Man Wedded—Cards have been received by which Mrs. Mary Redmond announces the marriage of her daughter, Gertrude Mary to William D. McIntosh, of Marquette. The ceremony occurred Monday, June 3, at Hancock. Mr. and Mrs. McIntosh are now enjoying a wedding trip and will be at home in Marquette after the first of August. Mr. McIntosh is the traveling auditor for the Western Express company, and has been a resident of the city for several years.

Should Save Oak—C. M. Nelson, of Rockford, Ill., representing the Rockford Furniture company, at present calling on trade in this city, says that consumers of oak trees would do well to husband them carefully, as oak furniture has within the past five years risen over 30 per cent in price. Black walnut is now practically extinct and weathered oak is next to mahogany the most popular furniture. All cheap grade furniture is now made exclusively of soft woods, mostly pine, owing to the great advance in price of the harder varieties.

Ross to Fight at Duluth—One of the features of the Fourth of July celebration at Duluth will be a sword fight on horseback between Captain Duncan C. Ross, who made a short stop in this city some little time ago, and Signor Alonzo Perrelli, of Italy. "Ross was at one time the greatest swordsman in the world, and fought many battles not only throughout the United States but also in France, Germany and Italy. Though now a man of sixty-four he still retains his stance and cleverness in a marked degree and can be depended upon to give an ambulance to arrive soon.—The ambulance purchased by popular subscription by Marquette business and professional men, through the efforts of Superintendent C. E. Lytle, of the South Shore, is expected to arrive in this city from Grand Rapids in about three weeks. The need of an ambulance has been a long felt one in Marquette, as it has heretofore been a big problem in certain instances to transport patients to the hospitals. Many cities no larger than Marquette have two ambulances, one the property of the physicians, and the other owned by the city and utilized mainly in accident cases.

Labor Bills Allowed—At the regular weekly meeting of the park, cemetery and street commission, last evening, bills totalling \$445.83 on contracts and labor were allowed. It was decided at the future to permit no more assignments of wages on the part of city employees. The matter of constructing new dens for the bears at Presque Isle was discussed at length, action being finally deferred until fall. The consensus of opinion was against the building of cement cells for the animals as the moisture from their breath and bodies during the winter months, would, it was thought, coat the walls with ice, and give the animals rheumatism.

The cast so ably headed by Mr. Hitchcock, a comedian of absolutely original methods, is strong, both vocally and from the viewpoint of the dramatic demands of the piece.

TEXT OF GORDON'S SALOON MEASURE

ATTORNEY GIVES OPINION THAT IT WOULD NOT STAND UP IN COURTS—GORDON WILL NOT AGAIN BE CANDIDATE.

The Gordon bill limiting the number and restricting the conduct of saloons in this city, which has attracted so much attention, has passed both the house and senate, and is up to the governor with good chances of becoming a law, as the governor's interest in the matter is hardly of character that would cause him to veto it. Mr. Gordon's reasons for introducing the bill are naive, to say the least, and have brought out the fact that it is not his intention to seek more laurels in the political arena. In a recent interview with City Attorney Brown, while the latter was in Lansing, Mr. Gordon said that he wanted to confer one boon on Marquette before he retired from office, and that he had introduced the measure because under no circumstances would he seek another term.

Attorneys say that there is some doubt as to whether the obvious purposes of the bill could be enforced. One of them said yesterday morning that it would be questionable what construction a court would place on the clause "no greater number shall be licensed within said city." He asserts that at the present time saloons are not irregularly "licensed" though they are allowed to operate under bonds. A license, he said, was something that a municipality could sue for and recover. When a saloon keeper violated the law by operating without bonds he could be proceeded against under a criminal warrant, but a civil judgment could not be secured against him. This fact, he believed, might annul the entire effect of the bill in the matter of limiting the number of saloons.

Text of the Measure.

The full text of the measure is as follows:

A bill to amend chapter seven of act number 248 of the local acts of 1891, entitled "An act to amend and revise the charter of the city of Marquette, Marquette county," by adding thereto a new section conferring additional powers for regulating the liquor traffic and to be known as section twenty-seven of said chapter:

The People of the State of Michigan Enact:

Section 1. Chapter seven of act number 248 of the Local Acts of 1891, entitled "An act to amend and revise the charter of the city of Marquette, Marquette County," is hereby amended by adding thereto a new section to be known as section twenty-seven and to read as follows:

—Chapter VII—

Section 27. After April 15th, 1907, the common council of the city of Marquette, in addition to its other powers for the regulation of the liquor traffic, is hereby vested with the following powers:

First: To limit the number of places in said city where spirituous, intoxicating, malt, brewed, fermented or vinous liquors are sold as a beverage to twenty-five and no greater number shall be licensed with said city until the population thereof shall exceed thirteen thousand, as shown by the state or federal census or by a special census, appointed and taken by the said city of Marquette; and when the population of said city shall exceed thirteen thousand, then one such place may be added for each five hundred inhabitants or moiety thereof in excess of thirteen thousand.

Second: To license the districts and locations within the city, where such saloons or places may or shall not be placed or kept.

Third: To examine into the character, reputation, prior observance or violation of law of every applicant for permission to engage in the business of the sale of such liquors as a beverage, and to determine from such examination whether or not such applicant is a fit, proper and safe person to be permitted to engage in and carrying on such business within the city, and to grant or refuse such permission in accordance with such examination and determination.

Fourth: To require a municipal license fee, not exceeding two hundred fifty dollars, in addition to the tax required by the general law of the state, as a condition precedent to the right to carry on such business within the city, said municipal license to be paid to the city treasurer, for the use of said city, on the first day of January next succeeding the payment of the state license tax.

Fifth: To accept in its discretion, any case where the general laws require the furnishing of a bond with sureties by any dealer in such liquors as a beverage, the bond of such principal and any duly authorized surety company as surely thereon.

Sixth: To pass such ordinances as may be necessary to carry out and give effect to the provisions of this section.

HITCHCOCK SCORED HIT.

"A Yankee Tourist" Greatly Pleased Audience Last Evening.

No comedian who has ever visited the Marquette opera house ever made a more favorable impression than Raymond Hitchcock in "A Yankee Tourist" last evening. Similarly it may be said that no operatic or musical comedy of similar type was ever better played or more cordially received here. In fact the audience was enthusiastic to a rare degree, and capped its enthusiasm by demanding a second curtain call after the second act and not resting content until the company had filed before a drop curtain, chorus first and principals in the order of their importance, and all meeting with a cordial reception.

"A Yankee Tourist" is an excellent attraction of the kind. Its plot has some body, and sustains the interest of a like type, was lost. This resulted in the calling in and strengthening of a number of the steel vessels during the following winter.

"In '98 and '99 the 4,000-foot boats carrying 6,000 tons of ore began to make this port. Many shippers believed that these boats were too big and that their construction would in the end prove a great blow to traffic. The size of the steamers continued to increase, however, until now it is no uncommon sight to

Marquette Man Comments on the Evolution of the Lake Carrier.

R. C. Dutton, accountant for the Mary Charlotte and Breitung Hematite Mining companies, has paid a great deal of attention to vessel construction on the great lakes. "When I came here in 1888," said Mr. Dutton yesterday, "it was no unusual thing to see from twenty to thirty vessels clustered about the docks. That was toward the close of the era of wooden vessels. I well remember when the Helena made this port in 1889 with a cargo of 2,200 tons of coal. Residents of the port were astounded. Up to that time it was the largest cargo ever brought here. It was shortly after this time that the steel steamers began to make their appearance. In 1890 and 1892 they began to plow the waters of Lake Superior in numbers. People who had become accustomed to the old style of boats were amazed when they saw the new 300-foot boats. Prior to 1890 there were a few iron boats, but the steel boat did not appear until about that time.

"These boats, with a capacity of from 3,000 to 3,500 tons, were supposed to represent the acme of steamship construction. Few people believed that they would ever be surpassed either in size or carrying capacity. And for several years they continued to be the standard of excellence. Incidentally, I might mention, they are still very efficient boats and make this port almost daily.

"But the steel boat had a great deal to contend with before it attained popularity. Old-time shippers raised the cry that while its utility could not be doubted, it was not as safe as the old wooden boat. This contention received considerable support when the 'Western Breeze,' owned by Captain Minch, of Cleveland, O., a typical steel steamer of the period, broke in two off the Deer Point light house near Grand Marais, Aug. 31, 1890, and went down with all hands, including its owner. The same year the Stephen Gilcher, another boat of a like type, was lost. This resulted in the calling in and strengthening of a number of the steel vessels during the following winter.

"In '98 and '99 the 4,000-foot boats carrying 6,000 tons of ore began to make this port. Many shippers believed that these boats were too big and that their construction would in the end prove a great blow to traffic. The size of the steamers continued to increase, however, until now it is no uncommon sight to

see boats 500 feet in length and carrying 10,000 tons make this port, while there are on the lakes giants 600 feet in length and carrying as high as 13,000 tons. What the future holds on one can never guess."

Earning and Saving

The time to begin to save money is when you begin to earn it.

Lay by a part of every dollar you earn and you are fairly on the road to independence.

Money is necessary at every step in your journey through life.

You can't buy a home without it.

You can't go into business without it.

You can't be comfortable, if anything happens to stop your income without it.

When you begin to save put your money in this bank and receive 3 per cent interest. Deposits of one dollar and upwards will be taken and interest compounded semi-annually.

Marquette National Bank.

Marquette, Michigan.

MARKETS

NEW YORK STOCKS.

New York, June 4.—There was a better sentiment in stock market circles today, and the prices showed some improvement. Crop news was the most substantial factor lying back of the recent stocks. Present and promised weather conditions were regarded as putting a better face on the crop outlook, and the wheat market moved accordingly.

The government estimate on the cotton crop was given first importance in the day's crop news. The confidence and excited movement of prices which followed upon its publication made it difficult to construe the trade's view on the report. This was partly due to the extended position on the long side in cotton, which induced heavy profit-taking, and partly to a misunderstanding of the average comparison owing to the revision of last year's figures. The showing of the report, however, served to confirm the conviction of the present low condition of the crop and its dependence on good weather for a favorable outcome.

A good deal of discussion was aroused by the contention of the National City bank in its monthly circular that this country was tending towards something like a banknote inflation, which would have the effect of stimulating the export of gold. The large expansion of note issues at a time when the ordinary need for their circulation is smallest, and when the rate for call loans is 2 per cent, is cited as evidence to support the contention. The same authority asserts that the small redemptions of banknotes in spite of the diminishing needs of circulation are explained by the growing practice amongst national banks to count banknotes in their reserves, which they have no legal right to do.

Eric's increase of net earnings for April was confirmatory of better conditions. Some buying of Union Pacific was attributed to published assertions that the company was planning to abandon the Harriman railroad combination. The five-point rise in American Smelting was connected with the dividend meeting to be held tomorrow, and was effective in rallying the list from a late reaction and making a strong closing.

Paine, Webber & Co., report closing prices as follows:

Smelter	119	Mo Pac	73 1/2
N Y Cen	110 1/4	Edg	101 1/2
D & H	100	Am Loco	94 1/2

Logan & Bryan had this to say yesterday concerning the New York stock market:

"Everything was favorable for a better stock market today, so the advance was no surprise. Reports from Washington would lead one to believe that the Harriman controversy may die in its present tracks. All day long favorable crop reports were being received and the shorts soon became frightened. In addition rumors were afloat as to excellent showings of various railroads, and smelters declared their regular dividend with an extra 1 per cent. The whole list showed strength with smelters leading in the upward turn, and gains of from one to five points were seen throughout the best for the day. Although the closing list, with closing prices about the world indicate a better feeling generally and a more healthy tone to the list, we as yet can see no material ammunition for bulling stocks. We believe that any sharp bulging stocks should be sold for a turn notwithstanding that some of the better stocks may look cheap for the dividend rate."

Boston "Coppers."

Paine, Webber & Co. wired regarding yesterday's Boston market:

"The new issue of American Telegraph

opened strength on buying by leading bulls. Much of this demand was the result of small acceptance from the country. The close was strong, the July up 3/4 @ 1/2, July opened at 53 1/2 @ 1/4, highest, 54 1/2; lowest, 53 1/2; closing, 54 1/2.

Oats—The break in wheat and better weather caused weakness. Longs were the chief sellers, but the volume of trading was small. The July closed off 1/2 @ 1/4, July opened at 49 1/2 @ 1/4, highest, 49 1/2; lowest, 49; closing, 49 1/4 @ 1/4.

Receipts and shipments were as follows:

Flour, barrels	30,000	44,000
Wheat, bushels	41,000	30,000
Corn, bushels	846,000	301,000
Oats, bushels	245,000	236,000

Logan & Bryan said of the wheat market:

"The early part of the session was marked by the most aggressive selling of wheat since the present decline set in. The result was a break of 3 cents in price. There was considerable selling on profit taking and liquidation by outsiders. Along with all of this, there was some evidence that a local bull leader let go of perhaps 3,000,000 bushels of wheat through brokers. The lower cables continued heavy orders, and Minneapolis and improved weather, with some warm rains over a portion of the country, caused the start of the selling at the opening. On the break a number of houses which had a good outside following on the bull side during the big advance were receiving heavy orders. It looked like a fresh attempt on the part of the public to accumulate wheat on the part of Roumania, saying that instead of general rains showers had fallen, and that the outlook there is very bad. A review of the European crops gave very cold weather over the United Kingdom and Germany. The most influential news for buyers, however, was from the southwest. Kansas City people, who have taken great trouble to get at the facts, say that the warm weather is simply causing the extreme frost damage to show in blighted heads. The serious condition of the Kansas crop is reported by so many conservative people that we believe that state is very badly hit. The world's stocks decreased over 5,000,000 bushels, and the crop is a decrease in the world's for two weeks. The break has cleared the speculative atmosphere and believe buyers who take hold of wheat on the breaks will get the money."

KEEP ON BUILDING SHIPS.

Admiral Coghlan's Advice—Has Scent Hope for Eternal Peace.

Washington, June 4.—Rear Admiral Joseph B. Coghlan, U. S. N., who has now retired from active service and from the post of commandant of the New York navy yard, desires to express his hope that the United States navy should be made bigger and stronger. In an interview he said: "Peace in perpetuity, about which so much is being said just now, may be possible, but it is not reasonably probable. Be prepared to whip or be willing to get whipped is the position in which every great nation stands today. Let us keep peace while we have it. The only way to do this is to keep building battleships and adding to the material strength of the navy."

SENATOR KNOX FOR PRESIDENT

PENNSYLVANIA TO LAUNCH HIS BOOM ON PLATFORM ENDORSING ROOSEVELT POLICIES.

Harrisburg, Pa., June 4.—Senator Knox will be formally endorsed for president and pledged the support of the Pennsylvania delegation to the next Republican national convention by the publican state convention on Thursday. Senator Penrose is in hearty accord with the move for the endorsement of his colleague by the state convention.

Washington, June 4.—The principal event in national politics this week will be the bringing out of Senator Philander C. Knox of Pennsylvania as a Republican candidate for the presidency. It is expected that the state convention, which meets at Harrisburg on Thursday, will unanimously present the senator to the country as a candidate. Within the last week or ten days practically every Republican newspaper in the state has come to the support of the Knox movement. The Pittsburgh Dispatch, one of the most influential independent newspapers in the western half of the state, is the last of the great newspapers of the state to join the movement. It is said by Pennsylvanians here at the capital that there will be no half-hearted endorsement of the senator. The call for him to lead the party next year is to be coupled with any declaration which might lead the Republicans of other states to suspect that the endorsement lacks sincerity.

The Roosevelt policies, it is announced, will be approved, but the convention will not follow the advice of some persons who suggested that the platform couple with the endorsement of the Roosevelt policies a demand that the next convention nominate a candidate pledged to carry forward the Roosevelt policies; it is asserted that there is no disposition in any quarter to back away from the task of completing the reform program which President Roosevelt has mapped out.

"The inclination of the president not to frown upon the movement for Senator Knox has given the friends of the senator much encouragement. The prospect is that after the formal bringing out of Senator Knox there will be a lull in presidential politics, which may last until fall. The president has only one more week in the national capital before he goes to Oyster Bay for the summer. It is announced that politics is to be parried from his summer home.

"JAPAN WANTS WAR WITH US."

Attitude of the Orientals as Reported by an American Resident.

New York, June 4.—An American who is the head of one of the largest foreign concerns in Yokohama and who has lived in Japan for many years has written the following letter to a well-known New Yorker who recently visited Japan and who has written a number of articles and delivered lectures on the present situation in the island empire:

"Under another cover I send you a letter dictated by my Japanese secretary for you. Of course your knowledge of things Japanese has taught you that every Japanese subject considers himself in duty bound to report to his government any bit of information of interest to the emperor that he may secure anywhere in the world. Confidential positions occupied by Japanese, even in the employment of foreigners, are nevertheless not confidential so far as their imparting knowledge to the government so gained goes.

"Our stupid government continues to employ Japanese clerks here at our consulate because they are cheaper than Americans, but it is cheaper when we are morally certain that they inform their own government of our business

and affairs of state long before Washington learns of them! Please disregard my typewritten letter. Its pro-Japanese sentiments were dictated to my Japanese secretary in order that I may not be watched as a dangerous person, and in order that my fourteen years of labor in Japan may not be upset by having these people think I am as true to America as they are to Japan. Inclosed herewith are two articles from local newspapers on Lefadio Hearn. This is the author I believe you are particularly interested in. His letters have created a great deal of comment out here, and it all goes to show that it does not pay for one to express his true feelings regarding an Oriental (as they cannot accept comment gratuitously) until after he is dead and gone.

Yesterday at a banquet in Tokyo Vice Admiral Matsumoto stated that Japan would not reach the highest round of the ladder until she had a war with England or America. He preferred America, and at once, as Japan was ready and American admits she is going to prepare. He thought that the wealth of America would be a great advantage, but in a quick war Japan would soon compel America to seek terms of peace. If, on the other hand, Japan lost, she would still rank higher than at present, as she had fought the largest and richest nation in the world. But the United States could not whip Japan except in a long war, and the world would admit Japan's supremacy on account of her inferior resources and lack of funds.

"Here you have the present feeling throughout Japan. They want war with us in the chance of missing feeling that they would win, no matter what the result might be."

LABOR LEADERS MEET HIM.

Dr. Barth, Leader in Reichstag, Is Guest of Secretary Straus.

Washington, June 4.—Secretary of Commerce and Labor and Mrs. Straus tonight entertained at dinner in honor of Dr. Theodore Barth, editor of the Berlin Nation, and one of the leaders of the Liberal Radicals in the German Reichstag. Among those invited to meet Dr. Barth were Secretary Garfield, Interstate Commerce Commissioner Clark, Commissioner of Labor Neil, Commissioner of Immigration Sargent, Samuel Gompers, president of the American Federation of Labor, and James O'Connell, president of the International Miners' association.

MISSING BANKER DEAD?

Sister Says He Is in Asylum.

St. Paul, June 4.—Arguments were begun in the United States circuit court of appeals today in the case involving the disappearance of A. Kimmel, a missing banker of Arkansas City, Kan., whose sister, Edna Kimmel, claims that he is dead while on the other hand the New York Life Insurance company claims that Kimmel is in the Mattewan insane asylum, New York. Kimmel disappeared from a hotel in Kansas City, Mo., in 1898.

BUTTE COPPER PRODUCTION.

The estimated production of the Butte mines for the month of May was 29,077,500 pounds of copper. This is an increase of 1,244,350 pounds over the April production, and, with the exception of March, is the largest output of any month so far this year. This production was obtained from a greatly increased output, but from a lower yield per ton. The production of the Butte mines for the first five months of 1907 is now approximately 22,000,000 pounds less than the output for the corresponding period of 1906, the comparative figures being 150,208,730 and 128,298,481 pounds. The record for May (estimated) was as follows:

READ ALL THIS.

You Never Know the Moment When This Indefinite Moment May Prove of Infinite Value.

It is worth considerable to any citizen of Marquette to know how to be cured of painful, annoying and itching piles. Know then that Doan's Ointment is a positive remedy for all itches of the skin, for piles, eczema, etc. An application relieves and soothes. Read this testimony of its merit:

David Reichel, carpenter, of 115 Baroque Ave., Marquette, Mich., says: "For years I have been troubled with itching of the skin, for piles, eczema, etc. and though I tried remedy after remedy nothing brought me any relief. The itching was a continual torment, I could not sit still nor rest, and there was a continual desire to rub the inflamed parts. Someone advised me to try Doan's Kidney Pills and I got a box at the Stafford Drug Co. It seemed as if the first application stopped the itching and I continued its use until my trouble was gone. Since then I have considered Doan's Ointment the greatest remedy of its kind on the market."

For sale by all dealers. Price 50 cents. Foster-McBurrin Co., Buffalo, New York; sole agents for the United States. Remember the name—Doan's—and take no other.

league club, in 1899, created a diplomatic disturbance for a short time, until, at a conference between President McKinley and the German ambassador, the incident was closed. Captain Coghlan had explained to the navy department that he meant no disrespect to the German flag.

Rear Admiral Coghlan was born on Dec. 9, 1844, in Frankfort, Ky. He was appointed to the naval academy in 1860, and in 1863 was appointed ensign on board the Sacramento. In 1865 he was master of the steam sloop Brooklyn, flagship of the Brazilian squadron. He was made lieutenant commander in 1869, being then attached to the Richmond, which joined the European squadron and remained with it until 1871. After two years of shore duty he joined the North Atlantic squadron, and later served on board the Commodore, the Monongahela and the Independence. He was commissioned commander in 1882 and captain in 1896. He commanded the Adams for a year on the Pacific station, and was commander of the Mare Island navy yard for a year. After two years in command of the Mohican he was assigned to command the Raleigh, which he led in the battle of Manila Bay. After his return from the Philippines he had command of the Caribbean squadron until he took charge of the Brooklyn navy yard.

MASS CONSOLIDATED.

The Mass Consolidated Copper Mining company is completing arrangements for diamond drill explorations on the old Biddle farm, purchased by it last year for a small figure before it was known that the tract was traversed by the Baltic lode. The survey has been made, and drilling will soon be in progress.

That the Mass will find no difficulty in tapping the Baltic is practically assured. The lode has a regularity of outcroppings through that locality and there is very little overburden on the Biddle tract, it is figured. The important thing to determine will be the mineralization. The Lake Copper Mining company is sanguine that the vein is rich in copper where it crosses its property and it would be only reasonable to assume that it will be found equally as good at the Mass. However, this will soon be determined as accurately as it is possible to do so with drill cores and if the showing is favorable the next step will be to start the opening of the formation with a shaft. The sinking of a shaft on the Baltic at the Lake company's property has not yet been started, but it is understood that work will be commenced before the close of the present month. The showing which is being made in the Knowlton shaft is a source of much satisfaction to the management. Considerable heavy copper is being encountered and the stamp rock which is being taken gives promise of making good returns.

Adventure is still working away with the diamond drill. The Baltic appears to hold out the only hope for the company and just how far these explorations will be continued will be brought up for consideration at the annual meeting in New York on Thursday.—Ontonagon Herald.

SOUTHERNER GETS THE PLACE.

Washington, June 4.—John C. Capers, Republican national committeeman for South Carolina, will be appointed commissioner of internal revenue until Dec. 1, when Pearl Wright, of New Orleans, becomes commissioner.

OLD DOMINION.

The striking feature of the Old Dominion's operations is the amount of construction work in progress, which is giving employment to several hundred men in addition to the regular forces. Preparations for installing No. 5 furnaces are well advanced. The furnace foundation is ready, also the settler, and erection of the steel frame for the twin

ty-four-foot extension to the converted shed is nearly finished. It will not take over a month to erect the furnace and make all connections and July 1 should see this work completed and the new furnace ready to go into commission. On the fourteenth level, development work is being pushed, and the sulphide stopes in crosscut No. 2 is yielding a large tonnage of high grade sulphide. Crosscut No. 3, after going through thirty feet of 10 per cent sulphide, encountered broken-up vein matter carrying only a trace in copper. The character of the formation has not changed for forty or fifty feet. This altered vein condition which puzzled the management for a while has probably been explained by later developments in No. 2 crosscut where the ore body is eighty feet wide. No. 4 crosscut is in about sixty-five feet and should cut No. 1 sulphide vein within a few days. The winze has been started on the fourteenth level, but slow progress will be made until the electric hoist is installed.

The smelter run for May should be a very good one, as all four furnaces have run continuously since the first of the month and about 85 per cent of the ore treated has been the company's own mines. Production for the month should be in excess of 3,000,000 pounds of copper.

ARE RAISING FUNDS.

Solicitors Have Begun Work for Fourth of July Celebration.

A meeting of the finance committee of the Fourth of July celebration was held Monday evening at the city hall. J. L. Bradford, chairman, presiding. Ways and means for raising the funds necessary to make the celebration the largest and most successful ever given in this city were discussed, and committees were appointed with instructions to begin work at once. The committees named are as follows:
Mining Companies, Banks and Professional Men—F. Braastad, chairman, A. J. Vynburgh, James Clancy and C. T. Kruse.
Brewing Companies and Saloons—E. V. Cassidy, chairman, John Lacey, Charles Gustafson and A. Anderson.
Business Houses—William Lenninger, chairman, C. C. Mitchell, J. S. Olson and J. Oman.

The committees are to report to the finance committee at a meeting at the city hall at 7:30 o'clock Friday evening. It is expected that all of the citizens from whom donations will be solicited will be seen before Friday, as some of the committees started out early yesterday morning to make their calls. The solicitors will ask that the contributions be paid into the hands of the treasurer on or before the 20th instant.

The committee on parade, which takes in a number of men who have had considerable experience in that line of work, will meet soon after the solicitors make their report to the finance committee, when it is known that sum will be given in prizes for the parade features. A large number of teams and wagons have already been engaged for the parade.

DEPOSIT BECOMING THICKER.

Most Encouraging News Received From Vandevanter Property in Wisconsin.

The latest report received from the Vandevanter lead and zinc property near Cuba City, Wis., brings the pleasing information to the stockholders that the deposits are opening up even better than the showing in the shaft indicated. A letter received yesterday from Superintendent Fox, written Saturday, announces that the south crosscut was in seven feet in solid lead and jack forty inches thick, and that the north crosscut was in four feet, with the ore body better than thirty-six inches in thickness. The officers of the company were much elated when they received this information as a forty-inch sheet of ore of the quality being produced at the Vandevanter is an unusual deposit. Up to Saturday the deposit had been proved up in the crosscuts to a total width of sixteen feet and the indications are that the openings will extend for a considerable distance in clean ore before reaching the walls on either side of the ore body.

Some of the directors of the company who left here Sunday night, all of whom are also interested in the Pine Tree, are now at the properties. A representative of the manufacturers of the mill to be installed at the Pine Tree is on the ground conferring with the directors relative to the location of the Pine Tree plant. The officers held a conference with the mill man as to the best type to be installed at the Vandevanter. The product is so different in composition from the ore being taken from the Pine Tree that an entirely different type of mill may be necessary. Owing to the richness of the Vandevanter product a mill of much smaller capacity, consequently costing considerably less than the Pine Tree mill, can be installed. The officers now figure that a mill capable of treating from fifty to seventy-five tons per day would be as large as will be needed for some time.

There was some lively trading in the Vandevanter stock yesterday, largely on the strength of the news contained in Superintendent Fox's letter. One broker handled over 1,000 shares and he stated that his clients in Pittsburg are becoming interested in a considerable stock being offered in the market at the past week or so. The Vandevanter is a close neighbor to the Pittsburg & Benton mine, which is owned by Pittsburg capital. An inquiry for 500 shares was received from Chicago but the order could not be filled at \$2, the price bid.

MAY CLOSE AFTER THIRTEENTH.

At the last meeting of the Clerks' union a committee was appointed to meet the business men to ascertain their views relative to continuing the 6 o'clock closing from June 13 to July 1. Under the agreement existing between the clerks and the merchants the stores have heretofore remained open until 8 o'clock during that period, but it is claimed that the amount of business received after the regular closing hour is not sufficient to make opening worth while. A number of the business men have already been seen by officers of the union and it is claimed that a majority of them have practically agreed to observe the 6 o'clock rule until the first of the month, the stores remaining open until 8 o'clock or after during the four evenings prior to the Fourth.

BOARD OF REVIEW MEETINGS.

The board of review will hold its private sessions next Monday, when the assessor's roll will be reviewed. It was announced from the city building some time ago that this year's session would be held on the 17th, but under a charter amendment last year the private session must be held on the first Tuesday after the first Monday in June. The meetings open to the taxpayers will commence a week from Monday, the 17th.

DO NOT NEGLECT THE CHILDREN.

At this season of the year the first unnatural looseness of a child's bowels should have immediate attention. The best thing that can be given is Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by castor oil as directed with each bottle of the remedy. For sale by The Stafford Drug Co.

"What shall we have for breakfast?"
"Why Oudilly's Peacock Ham and Eggs of course; they are always acceptable, especially at this season of the year."

"ALICE-SIT-BY-THE-FIRE."

Story of Interesting Play to Be Seen at Ishpeeming Theater Tonight.

The story of "Alice-Sit-by-the-Fire," which Roselle Knott and her company will produce at the Ishpeeming theater this evening, is said to be one of exceptional interest. The play deals with the efforts of a mother to win back love of her children, from whom she has been separated for several years. The mother, upon her return to her home, finds that the love of the children and their attentions is given almost entirely to the father, while she is regarded partially as an intruder. The efforts of the mother to win back the children to her heart, and the foolish notions which creep into the head of the young daughter,

ROSELLE KNOTT.

ter, which bring about ludicrous situations, make up a dramatic story that is cleverly written and audaciously acted.

"Alice-Sit-by-the-Fire" is a literary production of unusual merit, and coming, as it does from the pen of J. M. Barrie, it commands the attention of literateurs. Mr. Barrie is really a home author, his books being those that appeal to the mothers and those who make home what it is.

RAISED OVER \$600.

Treasury of Swedish Baptist Church Society Received a Good Lift Sunday.

At the afternoon dedication meeting Sunday of the new Swedish Baptist church, corner Third and High streets, over \$600 was raised from among the members of the congregation and others present. The raising of the fund was directed by Rev. O. W. Carlson, pastor of the Swedish Methodist church, who was one of the speakers at the afternoon services. It required only twenty minutes for Mr. Carlson to complete his financial campaign. His first proposition was to have some member of the congregation contribute \$50. He received three responses; another contributed \$30; several contributed \$25 each, and others put their names on the list for from \$5 to \$15 each. His final appeal was for 41 contributions and over \$25 was placed on the plate.

The Swedish Baptist congregation is one of the smallest in the city but the new church is attractive and presents an excellent appearance. The amount expended on the property thus far is about \$7,000. This, however, does not represent the value of the property, as a great deal of the work about the building was done by the members of the congregation without any charge for labor. The men have given the building its first coat of paint and they propose to do the remainder of the exterior painting. The old church property, at the corner of Division and First streets, sold for \$4,500, so that with the collection of Sunday the society's indebtedness is less than \$2,000.

TREAT FOR CHILDREN.

Manager Scholtz of the Majestic theater will admit school children free to the matinee this afternoon, also tomorrow afternoon. There was a change of moving pictures and songs yesterday. One of the pictures, "The Miner's Daughter," made a hit last evening and it should be the means of attracting many to the theater the remainder of the week. The songs Mr. Scholtz and his sister are singing this week are "Waiting at the Church" and "A Soldier's Dream."

TETTER CURED.

A lady customer of ours had suffered with tetter for two or three years. It got so bad on her hands that she could not attend to her household duties. One box of Chamberlain's Salve cured her. Satisfaction in this community. M. H. Rodney & Co., Almond, Ala. Chamberlain's medicines are for sale by The Stafford Drug Co.

A good position is open for an able saleslady at The People's store. No game. Application will be received at (11-27-e-o-d)

BEEF PRICES SOARING.

A Result of the Condemnation of Meat Held Unfit for Use.

Unless the cattle shippers supplying the larger wholesale packing companies come to the terms of the latter there will be nothing but the best grade of beef offered for sale through the branch houses of these concerns, as the sale of cow and heifer beef has ceased. As a result, the price of steer beef has advanced from seventy-five cents to \$1.25 per 100 within a week, with indications that it will go considerably higher, as it is said that the time is not far distant when steers will not be available in sufficient number to meet the demands of the trade. Nearly one-third of the beef retailed throughout the country is that of cows and heifers.

The disagreement between the packers and shippers came as a result of the rigid inspection of the beef by the government inspectors at the packing houses. For some time before the packers concluded not to purchase any more cows or heifers about 30 per cent of this class of meat was condemned, and ordered sent to the tanks, where it was converted into soap. The packers met in Chicago about ten days ago and agreed that if the shippers would not stand the losses created by the inspection they would not buy any more cattle of that class. The shippers stood pat. They decided that the packers could not have their heifers and cows unless they stood the losses. The packers at first thought that the inspectors would perhaps not continue to cull out such a large percentage of the beef, but in this they were mistaken. In many instances from 40 to 50 per cent of the stock was condemned. With the steers the percentage of loss on account of the inspection is not large.

FROM HOPKINS' CURB LETTER.

"The curbs and Boston copper shares show better tone today, closely following the New York market, which was active and under heavy trading scored a fair recovery throughout the list. The notable exception to this improvement was Superior & Pittsburg, which was weak today principally on selling by people who are following the advice of Boston financial writers who are advising the sale of this stock to reinvest proceeds in Greene-Canaan on the belief that Greene-Canaan will be the first to pay dividends and sell considerably higher than Superior & Pittsburg. Reports from Butte state that the Raven mine has resumed work on its property. Helvetia has shown exceptional strength during the recent weakness of the general list and the supposition is that insiders are picking up the stock. There is a report of a big strike being made recently. Nipissing was strong. The management has started development work on a hitherto unprospected lot and increased its working force to 350 men."

The day's prevailing prices were:

Milwaukee, Wis.

South Pine street. The members of the society will leave the hall at 1:30 sharp.

The annual exhibit at the Manual training school will take place a week from today. The shops will be open both afternoon and evening.

Jacob Layton, one of the proprietors of the Grand theater, arrived in the city yesterday from Lansing, where he recently opened a vaudeville house.

Miss Hattie C. Wilbur, daughter of J. B. Wilbur, who is a teacher of music and drawing in the schools of Chicago, Ohio, is home on her summer vacation.

The Presbyterian church ladies of Mrs. Feleh's division will conduct a pantry sale Saturday morning between 10 and 12 o'clock at Sellwood's grocery store.

Mrs. Bailey, an officer of the national organization of the Women's Christian Temperance union, lectured last evening at the First Methodist Episcopal church and will speak this evening at the Salisbury Methodist church.

The funeral of the late Richard Stecker will be held this afternoon from T. F. Gill's undertaking rooms and will be in charge of the local lodge of the Odd Fellows. The members of the society are requested to meet at their hall at 1 o'clock.

The management of the Grand theater announces a complete change of moving pictures and illustrated songs today. The moving pictures will be "The Gypsy," "Winter in Switzerland," "The Cascaades," "Tit for Tat," and "The Invisible Man." The illustrated songs are "Can't You See I'm Longing" and "Nobody Ever Brings Presents."

The funeral of the late Thomas Knight was held yesterday afternoon, as was also the funeral of John Veran's oldest son, Johnnie, both being largely attended. The former was held under auspices of Sir Humphrey Davey Divide, Sons of St. George, the members of which turned out in a body. Court Pride of Foresters was also represented.

EPIDEMICS DIVERT BUSINESS.

"The recent epidemic of diphtheria and scarlet fever in the city have, it is reported, diverted thousands of dollars worth of business from Chicago. In order to allay the fears of towns and cities near Chicago, which were said to be considering quarantine measures until the epidemic had passed, Health Commissioner Whalen called a consultation of big commercial interests which resulted in active co-operative measures being taken to prevent the spread of disease and stamping out the epidemic."—From American Carpet & Trade Record, Philadelphia, March 10, 1907.

There is no greater source of infection than that related to the handling of carpets that are often sold from such homes in infected districts and cities. They as a rule are bought up by the City Rag Factories and lend their presence to infect other innocent patrons. In having your rugs made up from old carpets you will avoid all this risk by shipping to a well known sanitary factory that insures you against any chance of this kind we refer to

BIDS CALLED FOR.

Odd-Fellows Committee Will Award Contract for Block After the 17th.

The building committee of Iron Mountain lodge of Odd Fellows advertise in this issue for bids for the erection of the society's new solid brick block, to be built at the corner of Iron and Tobin streets. The plans and specifications can be found at Robert G. Jackson's place. The bids are to be sealed and addressed to Christ Hansen, secretary of the committee, and must be in his hands before Tuesday, May 17, at 7:30. Each contractor must enclose with his bid a certified check for \$100.

The members of the committee and others of the society who have seen the plans are pleased with the general arrangement of the rooms, as well as the exterior design. The front will be attractive. Two large plate glass windows will extend from the door in the center to the walls. There will be two plate windows in the front of the second floor, the center being given up to a design, which will contain the three links and the letters "I. O. O. F."

The building will be 100 feet in length, by the width of the lot, twenty-six feet. There will be a store room on the first floor. The lodge hall, occupying the front of the upper story will be fifty-five feet in length. The remaining forty-five feet will be given up to ante rooms, reception or dining room, kitchen and paraphernalia rooms. The entrance to the second floor will be at the rear, from Tobin street. The upper floor will be well lighted on the Tobin street side and at the rear.

The specifications do not call for a heating plant, though it is understood that a contract will be let for one after the building contract has been awarded. The basement will take in the front half of the building and will be fifty feet in length. The foundation will be of concrete. Menominee, Wis., brick is specified, but the members of the committee like the Ricketson & Schwartz fire-proof brick so well that it may be decided to use it for the exterior. They are brown and make a neat appearance.

OPENING THIS EVENING.

Much interest is shown in the opening of the Electric theater this evening in the Sundberg block, and it is certain that the house will be well filled. It will seat some 200 people and there will be standing room for 100 more, most of this being on the bowling alleys.

A railing has been extended from the center of the box office to the front and floor, the exit being through the door leading to the stairway. The management announces that there will be a change of program Wednesday and Saturday. The moving pictures to be shown tonight will be "The William Still Pursued Her," "Pan-American Railway," "Tramway Ride Through Belfast," "Remorse" and "The London Zoo." The illustrated songs to be sung by Miss Elsie Koob will be "Longing for You" and "Won't You Be My Girlie."

LOCAL LAOCONIS.

The Savings Bank baseball team is negotiating for games with the Gately and Atkins teams of Ishpeming.

John Ward came up from down the line Monday evening, remaining with relatives here until yesterday morning.

The South Shore is making some improvements in the Negaunee yards, between the bridge and the union station. A concrete walk is to be placed in front of Mrs. August Olson's block on Iron street, occupied by Alderman Charles Johnson.

Charles Johnson, the Ishpeming house mover, will start a crew to work today, preparing to move A. J. Bie's residence to its new location.

A number of Negaunee people will attend the production of "Alice-Sit-By-the-Fire" by Roselle Knott and her company this evening at Ishpeming theater.

Rev. W. B. Coombe, pastor of the Mitchell Methodist church, went to the copper country yesterday to attend the convention of the Methodist Episcopal churches of the Houghton district. Mr. Coombe will deliver an address at one of the meetings.

Miss Lulu Gilchrist, daughter of Rev. S. M. Gilchrist, former pastor of the Mitchell Methodist church, will be graduated from the Northwestern University at Evanston, Ill., on the 29th. A number of friends in this city have received invitations to attend the exercises, which will be held at the Chicago auditorium.

The wife of H. Goodman, a former resident of Palmer, died Saturday in a hospital at Milwaukee, following a surgical operation. The remains were brought to Palmer and the funeral was held in this city yesterday afternoon. Rev. Stanway conducted the services at Palmer. The Goodman family has resided at North Freedman, Wis. Mr. Goodman is engaged in diamond drill work. His uncle, James Goodman of Marquette, attended the funeral.

The piles under the bank building were found in fairly good condition, but despite this fact they are to be removed and a concrete foundation is to be put in. The concrete work has already been started. The front of the bank will be considerably changed, as the space occupied by the large plate glass windows opposite the Winter & Suss block are to be closed up and small windows put in. The main entrance will be near the entrance to Rosen Bros. & Klein's store.

A good position is open for an able saleslady at The People's store, Negaunee. Application will be received at once.

(6-5-1d) S. D. COHEN & CO.

BIDS WANTED.

Sealed bids are hereby called for for the erection of a two story solid brick building in Negaunee, Mich., the same to be in the hands of Christ Hansen, secretary Odd Fellows building committee, on or before Tuesday, June 17, 1907, at 7:30 p. m.; all bids to be accompanied by certified check for \$100. Plans and specifications can be secured from the undersigned.

ROBERT G. JACKSON, Chairman Committee. Negaunee, Mich., June 4. (6-5-1w)

TWO-MEN LEAGUE STARTED.

Fourteen Teams Have Been Organized to Bowl a Series of Contests.

The two-men bowling teams organized at Orr & Tompkins' alleys are largely composed of bowlers who participated in the last two series of three-men team matches. The opening of the series took place Monday evening when the Indians defeated the White Sox by eighteen pins and the Ravens defeated the Wolves by sixty-three pins, the scores being as follows:

Indians	112	104	166	472
Mitchell	147	174	127	448
Wellman	147	174	127	448
Totals	298	280	293	871

White Sox	126	140	126	392
Wentela	144	187	179	510
Bergland	144	187	179	510
Totals	270	327	305	902

Wolves	115	140	187	442
Sanders	196	217	159	572
Reichel	196	217	159	572
Totals	311	357	346	1014

Ravens	204	191	148	543
Nelson	172	187	173	532
Totals	376	378	321	1075

In the tournament just completed, the games played, lost and won, with the percentage of each team, were as follows:

G.P.	O.W.	G.L.	P.C.	
Pikers	9	6	3	667
Wolves	9	6	3	667
Ravens	9	6	3	667
Ice Wagon	9	5	4	556
Indians	9	5	4	556
Cubs	9	4	5	444
White Sox	9	4	5	444
Green Sox	9	4	5	444
R. O. K's	9	4	5	444
Eagles	9	3	6	333

The participants who averaged 140 or better were: Deffrain, 173; Tompkins, 168; Miller, 160; Sporley, 160; Perkins, 159; Nelson, 158; Mitchell, 157; Erickson, 157; Reichel, 153; Bergland, 155; Wentela, 150; Kirkpatrick, 149; Maas, 147; Sanders, 146; Dyer, 146; Willman, 146; Nightingale, 145; Curley, 145; Boase, 144; Pepka, 142; Olmstead, 140; Yates, 140.

ALUMNI ASSOCIATION.

The annual meeting of the Negaunee Alumni association was held Monday evening. The officers chosen for the ensuing year are: Walter Hansen, president; Miss Sophie Anderson, secretary; Miss Margaret Sullivan, treasurer. The annual reception and dance in honor of the graduating class will be held at McDonald's Opera House a week from next Friday evening, the 14th, and the full Tromby orchestra will furnish the music. No card invitations will be issued this year but the general public will be made welcome. A general invitation will also be issued to the members of the Alumni associations of the Marquette and Ishpeming High schools.

SHAFT HOUSE AT EMPIRE.

Henry Hallam, the Marquette contractor, was in the city yesterday. He visited the Empire mine, Cascade range, where he has taken a contract for the erection of a shaft house, and he plans to begin work on the job at once. Mr. Hallam is also to take down the big slab burner at E. W. Read & Co.'s mill at Michigan and re-erect it at the Birch plant, it having been purchased by the Northern Lumber company.

SHOOTING PARTRIDGE.

It is reported that men living at Palmer and on the farms near there have been shooting partridge. The game wardens of the county have been advised of this fact and it is expected that some of the offenders will be brought to time very soon. If the report has not been exaggerated a great many birds have been killed since the close of last season.

NEW RULES FOR CADETS.

Admission to the West Point Academy Is Made Much Harder.

Washington, June 3.—New regulations governing the physical examination of candidates for admission to the United States Military academy, prepared by Surgeon General O'Reilly of the army, who acted on a suggestion of the president are now in force. The aspirants for army careers who are soon to appear before the medical board will be examined under the stricter rules. The new regulations affect the cadets already in the academy, to the extent that they must be examined annually under the new requirements, and those who are found deficient may be dropped from the rolls. President Roosevelt has long been of the opinion that the officers of the army, as a body, would present a much finer appearance and be capable of more work if they were "bigger" physically. As a result Surgeon General O'Reilly and his assistants in the medical department at Washington have made new rules, increasing the height requirements for cadets a full inch, and requiring that otherwise they shall be as nearly perfect physically as possible. Under the old rules a boy sixty-three inches in height could enter the academy. Now one must be at least sixty-four inches if he is seventeen years old, or sixty-five inches if he is between eighteen and twenty-two years.

Major Charles F. Mason of the medical corps is now at West Point. He believes that the new regulations will prove of great benefit to the army of the future. This is also the opinion of Colonel Robert L. Howe, the commandant of cadets, and of other officers on duty at West Point. "The class that is now entering West Point," said Major Mason, "will come under the conditions prescribed in the new physical regulations. The standard of vision is increased, and the age factor introduced, making the physical requirements progressive. The increase of the height requirements to sixty-four and sixty-five inches was a recommendation of the president himself. He was of the opinion that many cadets who were below the desired physical standard managed to enter the academy and he desired to put an end to such a condition."

Under the new age factor regulation, making the physical requirements progressive with age, a seventeen-year-old boy who weighs 110 pounds, who is sixty-four inches tall, must have a chest measurement of twenty-nine inches and a chest mobility of at least two inches. Should the boy of this age be sixty-five inches tall his chest measurement must be a quarter of an inch greater, but the chest mobility remains the same. That the new physical regulations will result in a body of cadets superior physically to any corps that has preceded it is the opinion of army officers generally.

STOP DRINKING.

Orrine Will Destroy all Desire for Whiskey or Beer.

A Michigan Druggist, H. G. Coleman has made a thorough study of various cures for the liquor habit, and gives this as a result of his investigation: "Before taking the agency of Orrine, I went to a considerable trouble to learn about it and become confident that it was a thoroughly honest preparation and put out by a reliable firm. Write for free book on the cure of alcoholism to the Orrine Co., Washington, D. D. Mailed sealed. Orrine costs but \$1 per box. Orrine is sold by The Stafford Drug Co."

COPPER RANGE CONSOLIDATED COMPANY.

Dividends Nos. 12 and 13. At a meeting of the board of directors, held this day, a quarterly dividend of \$1.00 per share, being Dividend No. 12, and an extra dividend of 50 cents per share, being Dividend No. 13, were declared payable on Monday, July 1st, 1907, to stockholders of record at the close of business on June 6th, 1907. The transfer books of the company will be closed at the close of business on June 6th, 1907, and reopened on Friday, June 14th, 1907.

FREDERIC STANWOOD, Treasurer. Boston, May 23, 1907.

PRESQUE ISLE ROAD IS WELL PROTECTED

SAND BEACH BUILDING UP OUTSIDE OF BREAKWATER PUT IN BY CITY LAST YEAR.

CRIBWORK WILL BE PERMANENT

Road, However, Is in Poor Condition and Must Be Improved—Gap at the Picnic Rocks Filled by Land Company.

An inspection of Presque Isle drive from a point south of the Pioneer furnace to the first bridge at Dead river shows that as a result of the work done last year the highway is completely protected, and it appears that in the future be safeguarded from the waves and maintained in good condition for traffic for a merely nominal expenditure. The general situation as regards the road is infinitely better than it seemed possible in the latter part of 1905 and the spring of 1906 it could ever be. Whereas then it looked as if it might be necessary to abandon the drive, and it appeared that in any event it would be a very expensive job to protect it, the breakwater put in, which is durable and strong, will serve the purpose well, and it represents an expenditure of only about \$15,000. The expenditure would have been much less had it not been for the ill advised work done in 1905-06.

A Mining Journal man looked over the drive this week. It is now protected by a seawall along its entire exposed front, except for a few rods south of the first Dead river bridge, where a heavy riprap of rock serves to hold off the waves. The greater part of the seawall is solidly built cribs, put in by Street Commissioner French last and in previous years. These cribs are built of parallel rows of piles, planked with heavy timber and filled to the top with trap rock. There is some single pile work put in during the year 1905-1906, but while it cost far the greater part of the total expenditure it is the least part of the work done in the past two years.

The best feature of the situation is that a sand beach is making outside the crib work. When the piles were put in many of them were sunk in water, and fear was expressed that the waves would undermine them. These fears were unfounded, as developments proved, for no sooner was the cribwork constructed than the sand began to pile up and make a beach, so that now it is possible to walk outside the cribs on dry sand, when there is no wind, from below the Pioneer furnace to the first Dead river bridge. This beach is steadily building up, and it is believed that it will in time be much wider than at present. It prevents the waves from attacking the foundations of the cribwork and insures that the cribs will be secure for the purpose for which they were built as long as they resist decay. Although the protection work has more than come up to expectations, the Presque Isle road is in far from good condition, and needs much attention. The storms in the fall of 1905 were very severe, and much of the macadam was torn up. Last year Street Commissioner French put the road in fair condition for heavy traffic, but it is far from being as good a highway as it was formerly, when its smooth macadam surface was as good as any to be found in the city. It is now, for a considerable stretch, heavy with sand, and there is considerable rough rock on it. About as much traffic goes around by Presque Isle avenue as uses the drive.

The park, cemetery and street commission has asked for \$500 to be used in putting the drive in good condition, and it is assumed that it will be resurfaced with macadam and rolled. This ought to be done at an early date, as now that there is promise of a fair amount of warm weather there will be much travel to Presque Isle.

Filled Picnic Rocks Gap.

The Northern Land company has just completed the work of filling in the gap between the shore and the first of the Picnic rocks that was opened by the storms in the fall of 1905 and that was some 300 feet wide at its widest. There was a great amount of erosion by the current while the gap was open and some 200 trees were uprooted from the shore above the rocks and washed into the lake. The Northern Land company's real estate was being washed out to sea at an alarming rate. Consequently when the officials of the com-

pany found this spring that the gap had been almost closed by the action of the waves they filled the remaining distance with brush and covered it with sand. They expect that the sand will now build up the beach and that further erosion will be stopped. It is held by some that the closing of the gap at this point is in large measure responsible for the breakwater along the Presque Isle road. The Pioneer Iron company is "making" considerable land opposite its plant, and it is certain that it will not in the future be troubled by the inroads of the storms. The slag from the plant is being dumped in the water, and already a considerable area out from the beach has been filled. If this work continues, in a few years the furnace company will have made a considerable area.

TO QUARRY MARBLE SOON.

Projectors Hope to Take Out Verde Antique Within a Month.

Dan Case arrived in the city from Detroit on a flying visit Saturday and returned Monday. While here Mr. Case made a trip to the verde antique marble quarry near Ishpeming and took out a number of samples. He found the roads in excellent condition, and said that there would be no trouble in installing the machinery. He expects to have the quarry in operation within a month, at the latest. Matters are now being delayed by the failure of the machinery, which has been ordered from a Connecticut firm, to arrive. A Marquette stockholder said yesterday that the company had already been assured of a good market and that there would be no trouble in disposing of the output as soon as it was quarried. The marble is used almost entirely in interior decorations in residences and public buildings. The Michigan deposits of verde antique are the only ones on the American continent. In Europe it is found solely in Italy, where the veins are narrow and the stock almost exhausted. There interior decorations of the Vatican at Rome and several of the finest palaces in the Italian metropolis were made from verde antique. Alexander VI, who probably did more for the art than any of the popes, was very partial to the marble and used it extensively in decorating his buildings.

"ALICE-SIT-BY-THE-FIRE."

Miss Roselle Knott to Be Seen in a Barrie Play.

Miss Roselle Knott comes to the opera house tomorrow evening in a play, "Alice-Sit-By-The-Fire," by J. M. Barrie, the author of "Peter Pan." Miss Knott's great success of the past two seasons, and of her earlier success, "The Little Minister." "Alice-Sit-By-The-Fire" is a play that has scored even as unmistakably as the two attractions mentioned. It was written for Ellen Terry and was produced with much success in England. Subsequently it was played in this country by Miss Ethel Barrymore. Miss Knott is an actress who has the requisite art to play the principal part in a manner not unworthy of her famed predecessors in the role, and as she is supported by a carefully chosen company, an enjoyable and artistic performance may be looked for.

AN ORDINANCE.

An ordinance requiring fenders upon street cars.

The City of Marquette ordains: Sec. 1. It shall be unlawful to operate or run any car upon any street railway track in any street of the City of Marquette, after Aug. 3rd, 1907, unless the front end of such car be properly equipped with a fender so constructed and in such condition as to prevent persons and animals from being run upon or over by such car.

Sec. 2. Each day that each car shall be operated or run in violation of this ordinance shall be deemed a separate offense; and each superintendent, managing officer, agent or employee of any street railway or interurban railway who shall direct or permit or engage in or assist in operating or running any car in violation of this ordinance shall be punished in accordance with an ordinance defining offenses, prescribing penalties and providing for the employment of officers, adopted April 25, 1898.

Adopted, June 3rd, 1907.
DANIEL S. DONOVAN, Recorder.
Approved, June 4th, 1907.
JOHN ROBERTSON, Mayor.

PLANS FOR SUMMER SCHOOL COMPLETED

NORTHERN NORMAL OFFERS ATTRACTIVE COURSES—SOME FINE LECTURE NUMBERS ARRANGED FOR.

Arrangements for the summer school of the Northern Normal, to open on the close of the regular Normal year, or on June 24, and to continue for six weeks, until August 2, have been completed, and a campaign to secure a large attendance is under way. A large edition of summer school bulletins have been sent out, in which the courses offered are outlined and the emphasis is placed on the various attractive features. There have been many inquiries from prospective students, and a good attendance is looked for.

The summer school has been one of the most successful features of the Northern Normal's work. Last year the summer session was conducted under a handicap, owing to the destruction by fire of the south wing. This occurrence left the Normal without an assembly room, so that the special lecture attractions, which has proved one of the most popular features of previous summer sessions, had to be omitted. However, there was a large attendance and much effective work was done.

This year the special lecture courses will be resumed and a strong line of speakers has been secured. Hon. A. E. Winship, Litt. D., of Boston, editor of the New England Journal of Education, will deliver addresses to the student body and public July 1, 2 and 3. Mr. Winship has been heard here before. He is an educational authority of acknowledged standing, and his addresses will be on themes of particular interest to the students. Colonel C. H. French, of Cleveland, lecturer and traveler, is another man who has been heard here, and who is pleasantly remembered. His dates are July 22, 23, 24 and 25. Richard T. Wyche, of New York, a lecturer and popular rector, has been engaged for July 29, 30 and 31.

In addition to these it is expected that Booker T. Washington, the founder and president of the Tuskegee, Ala., institute for the education of negroes, will give one lecture, the date to be announced later. Mr. Washington would be the best attraction the Normal has ever offered, as he is the greatest educator the negro race has ever produced, as well as a man of keen intellect and great ability. Mr. Washington is widely known by reputation and if he appears here will have the pleasure of addressing a large assemblage.

The regular Normal faculty will conduct courses during the summer school. In addition there will be the usual number of special instructors to assist with the work. Those so engaged this year are Fred A. Jeffers, superintendent of schools at the Atlantic Mine, who will have courses in history and civics; John A. Doelle, superintendent at Houghton, many methods; Miss Sara M. Nicholson, principal Central school, Ironwood, institute classes, and Olive Lathrop, state library, Lansing, library methods.

How to live on 15 cents a day. The mind as well as the body is benefited by economy in eating. There's no health-giver like a diet of Hollister's Rocky Mountain Tea. In a startling way it keeps you going. 35 cents, Tea or Tablets. The Stafford Drug Co.

NOTICE TO TAXPAYERS.

City Controller's Office, Marquette, Mich., May 18, 1907. Notice is hereby given that the assessment roll of the taxable property of the city of Marquette for the year 1907 will be in the hands of the board of review on Monday, June 3, 1907.

Said board of review will convene at the common council room in the city of Marquette on Monday, June 3, 1907, at 9 o'clock a. m., and will be in session each day thereafter up to and including Saturday, June 8, 1907, for the purpose of reviewing and correcting said assessment roll.

Every person having property in the city of Marquette is requested to call at the common council room during the sessions of said board of review and inspect said assessment roll, in order that all errors which may have been made in said assessment can be corrected.
