

ORCHARD'S AIDE IN MANY CRIMES

Steve Adams, Jailbird, to Be Presented at the Trial of W. D. Haywood as a Witness for the Prosecution.

Himself Facing the Gallows on the Charge of Murder, the Possibility Is Seen That He Will Refuse to Testify, but in Any Event His Sworn Confession, Blood-Curdling in the Extreme, Will Be Laid Before the Jury for What It Is Worth.

Boise, Idaho, June 9.—Steve Adams, another witness for the state in the case against W. D. Haywood, is now on his way to Boise, coming from the jail at Wallace, where he is held pending trial on the charge of murder.

Adams, according to Harry Orchard, was the partner of the assassin in many of the "blowing-up expeditions," successful and unsuccessful, to which Orchard has confessed.

Some new light has been thrown on the murder of Lytle Gregory in Denver. According to statements made by the police in Denver, Orchard and Simpkins, or whoever his accomplice was, were suspected at the time of the murder.

That Orchard has written a book appeared in the course of the cross-examination yesterday. Mr. Richardson examined him carefully as to this book, and asked if it had not been suggested or dictated by Mr. Adams, who accused Orchard's sworn confession. Orchard flatly denied this.

After Orchard, the state probably will put Adams on the stand. Counsel for the prosecution admit the possibility that Adams will refuse to testify, but they point out that if he refuses on the ground that it will incriminate him, his appearance will have served its purpose. His confession cannot be used against him. But if he admits making the confession, and repudiates it, the sworn confession will be placed before the jury for what it is worth.

PLLOT TO WRECK THE UNION? This the Defense Developing in the Trial of Miners' Leader.

Boise, Idaho, June 9.—Harry Orchard, confessed assassin who is now trying to send W. D. Haywood to the gallows with the same impishness that he planted bombs and hurled non-union miners and ex-Governor Frank Steiengenberg to eternity, will not admit in so many words that he was a detective at the time he was suggesting and executing dynamite plots at Cripple Creek and Denver. This is the only part of his testimony that so far causes him any perturbation.

Cross-Examiner Richardson tries to pin him down to something definite. "Was assassination such a trivial affair with you that you planned and executed murders without head or tail and where and with whom you talked about it?" asked Richardson.

CAR COLLISION DISASTROUS. Los Angeles, June 9.—Five persons were killed and twenty injured in a street car collision at Eagle Rock Valley this afternoon.

EUGENE V. DEBS IS HIS SPONSOR HAYWOOD, ACCUSED MURDERER, URGED AS THE SOCIALISTS' CANDIDATE IN 1908.

Terre Haute, Ind., June 9.—William D. Haywood for president, Eugene V. Debs, who was the party's candidate for president at the last election, stands sponsor for the nomination by the socialists of the man who is now on trial at Boise, Idaho, for complicity in the murder of ex-Governor Steiengenberg. In a full page article in the Appeal to Reason the Terre Haute agitator demands Haywood's nomination by the striking class for the contest of 1908.

CROP ANXIETY SUBSIDIES. More Seasonable Weather Brings a Distinct Improvement in Sentiment.

New York, June 9.—The report of the agricultural department on the condition of the cereal crops tomorrow are awaited with great interest in the financial community. The expectation that has been a considerable improvement in the condition of the wheat crop over last month has already bettered the tone in the stock market. Reports by several of the state authorities covering the same period as the expected government report show a material betterment during May. The weather news during the past week also has indicated that some progress was being made in making up the deficiencies in temperature and moisture which had been against the wheat crop.

SUPPRESS BOER WAR HISTORY. London, June 9.—England is not to know the truth about the Boer war. To save the reputation of certain well known generals, the war office has had Colonel Henderson's unfinished "History of the Boer War" destroyed.

USES ONLY A THIRD OF HIS TRAVEL PAY ALLOWED \$25,000 PER ANNUM FOR TRANSPORTATION, PRESIDENT RETURNS \$17,000 THIS YEAR.

Washington, June 9.—When President Roosevelt makes his Jamestown trip the first of the week, and then, upon returning to Washington, leaves for Oyster Bay on Wednesday, he will have completed his travel for the present fiscal year. Out of the \$25,000 appropriated by congress to pay this expense, only \$8,000 will have been used on July 1.

Is Off for Jamestown. President Roosevelt and his party left the Washington navy yard shortly after 4 o'clock this afternoon aboard the Mayflower for the Jamestown expedition, where the president will deliver addresses tomorrow at the dedication of the Georgia state building and before the National Editorial association.

The most suggestive feature of this man's testimony is the peculiarity of his memory. He recalls and repeats the substance of conversations with Haywood, Moyer and Pettibone, wherein they told him to go forth with his bombs and sawed-off shotgun and kill. He tells of meetings and talks with Big Bill Davis, Herman Parker, Billy Alkman, Bill Festerly, Steven Adams and Jack Simpkins, when they experimented with bombs and "Pettibone dope" and discussed blowing up mines and miners; but he cannot fix a date, even approximately, when these affairs were debated.

SAYS IT WILL BE ROOSEVELT AGAIN

Representative Sherman of New York Gives It as His Judgment the President Will Be Re-nominated and Re-elected.

People Want No Change, Asserts Chairman of the Republican Congressional Committee—Taft Starts on Western Tour With Assurances Ohio Is Practically Solid in Favor of His Candidacy—Third Term Sentiment Condemned by Bryan.

Washington, June 9.—"New York is for Roosevelt, the country is for him, and in my judgment he will be nominated and re-elected."

These were the words of Representative Sherman of New York, the chairman of the Republican congressional committee, as he was leaving the White House after an interview with the president.

The president Mr. Sherman said, would not consent to a New York delegation pledged to him to the national convention, but when some other state presents his name they will be there to vote for him.

Ohio Safe for Taft. Preceding his departure last night on an extended inspection and speech-making tour of the Northwest, Secretary Taft spent four hours reviewing his political prospects as a presidential candidate, his advisers being Representative Burton and Arthur I. Vorys, both of Ohio.

Secretary Taft is scheduled to deliver several addresses during his Western trip this week. Monday night he will address the Merchants and Manufacturers' association at Milwaukee. On Tuesday he will visit the Rock Island arsenal at Davenport, Ia., and will be the guest of the Tri-City Press club. On Wednesday he will speak at the Minnesota University at Minneapolis, and on Friday will dine with the Commercial club at St. Paul.

SAYS EVEN ONE TERM'S ENOUGH. Bryan Balks at the Idea of the Democrats Naming Roosevelt.

Chicago, June 9.—William Jennings Bryan arrived in Chicago last night and shot a broadside into the plan of John Temple Graves for the nomination of Roosevelt by the Democrats.

"I believe that the man whom the people choose to honor with the trust of the highest office in their gift ought to be entirely relieved from the influence of political ambition. No, I do not think I should make the nominating speech that has been suggested for me."

Expectations Socialists to Contend. "Of course, there will be the socialist party, which has a reason for its existence in that it advocates a complete change in our economic system, and there may be other parties representing extreme policies, not generally indorsed."

Not Ready to Enter the Race. "Are you ready to announce your candidacy?" Mr. Bryan was asked. "Not yet," he replied, and being asked if he had anything to say about the informal endorsement given him at the Jefferson club by which Edgar L. Master is chairman, he added: "I have not reached a point yet where I have made up my mind as to my position in the coming campaign. I appreciate the confidence expressed in the resolutions, but do not feel that they necessitate action on my part at the present time."

VISCONTI A FIRE-EATER. Diplomacy Failing, Jap Leader Is for an Appeal to Arms.

Tokio, June 9.—Viscount Tani, leader of the opposition in the house of peers, and head of the defense of Kumamoto in the Satsuma rebellion, is reported to have said about the American question: "The prosecution of the Japanese in San Francisco is a most wicked act. Should diplomacy fail to bring about a satisfactory solution, the way open to us is an appeal to arms. Our mind is firmly made up. It is certain that America will yield, for its people are radically commercial in their sentiment."

In regard to the recent attack on the Japanese house and restaurant in San Francisco, the Jiji today advises its readers not to believe the unfriendly sentiments of San Francisco are shared by the whole American nation. The paper points out the danger to friendly relations between Japan and the United States which might result from misapprehension. It also expresses full confidence that the Washington government will be able to settle the matter.

JAPANESE PLOT Existence of an International Conspiracy Develops.

Washington, June 9.—That the Japanese of the Pacific coast, and the Progressives, political party of Japan, have entered into an alliance which has the earmarks of an international conspiracy, with the overthrow of the present ministry in Japan and the annulment of the cause in the immigration bill excluding Japanese coolie labor from continental United States as the ultimate objects, was learned authoritatively here today.

With this end in view, representatives of the faction hostile to the Saobaki ministry have been in Washington to consult with the Japanese ambassador and state department officials regarding the objectionable clause in the immigration bill. The California school question and the recent riots in San Francisco. The report which they have sent to Tokio, it is alleged, will form the basis of a systematic campaign to bring about anti-American demonstrations in Japan and to force Foreign Minister Hayashi, if possible, to demand an indemnity and an apology on account of the Japanese disturbances in San Francisco.

These facts became known today for the first time when it was learned that the Japanese came to Washington on April 21 and remained until May 12, during which time they were negotiating with the Japanese ambassador looking to the annulment of the Japanese immigration limitation law. This delegation failed in its purpose, and it is stated, after charging Ambassador Saobaki with treachery to the Japanese of the Pacific coast and with misrepresenting conditions to his home government, they telegraphed to Otoko Yamaoka, the personal agent of Count Okuma, who was waiting in San Francisco, to demand the request that he communicate with the anti-administration leaders in Tokio.

France's Alleged Offer in Japanese-American Affairs Stumbles. London, June 9.—Europe was startled by news of the offer of France to use her good offices between the United States and Japan; the suggestion seemed to imply a need of mediator. It is being watched with peculiar interest the "evolution of Japanese-American imbroglio," as a week end writer calls the San Francisco mob's treatment of the mikado's subjects.

Count Okuma, who appears to be the mischief maker in Tokio, is described as a man whom the Washington government ought not to underrate as a political force. "He is Japan's finest orator," says an article dealing comprehensively with the situation, "and at the head of a seat of learning of high repute. There is no doubt that he speaks the views of the educated classes when he declares that Japan cannot afford to concede the social theory of the San Franciscans, which places the Japanese race below the Anglo-Saxon."

Upheld by Secretary Root. If there is a controversy in the courts, it is expected here to center around the pure question of the legal meaning of section 19 of the customs administrative act, which the customs officials contend permits them to base duties on the export price. Secretary Root, it is needless to say, takes this view of it.

ATTACK PLANNED ON TARIFF PACT

High Protected Interests Propose to Assail the Recently Negotiated Agreement With Germany in the Courts.

Claim Is Advanced That ad Valorem Duties Cannot Be Collected on Export Values, and Usurpation of Authority Is Seen on the Part of the Executive Branch of the Government—Customs Officials Not Perturbed Over the Threatened Suit.

Washington, June 9.—Officials of the state and treasury departments are watching with the closest attention the threatened attack in the courts on the new tariff arrangement with Germany. The indications are that such an attack is to be made and that it will have the powerful financial backing of the American Protective Tariff league.

Unofficial information is that the preliminary steps toward a test of the international arrangement have been taken already by the American Protective Tariff league, which has the co-operation of various organizations of manufacturers in this country. A prominent New York attorney has been retained and is investigating the question of how best to obtain relief from the operations of the international agreement, which will go into effect July 1 of this year.

Ad Valorem Duties on Export Values. Government officials who have studied the questions involved carefully do not believe the arrangement with Germany will be put in jeopardy if attacked in the courts at the same time it is admitted a most interesting fight may be precipitated. In case the high protected interests succeed in getting into the courts, the belief here is that they will make their chief stand on the question whether ad valorem duties can properly be calculated on what is known as the export value. The new arrangement with Germany makes provision for so calculating them, when they are sold in Germany wholly for export or for home use in such limited quantities that a market value cannot be based on such limited sales.

A Constitutional Question. Put the customs officials who have gone into the matter with care say the talk is idle of raising such a constitutional question. They take the ground that if the tariff act is unconstitutional it must rest on the proper interpretation of section 1 of the customs administrative act, which says that when ad valorem duties are calculated "the duty shall be assessed upon the actual market value of the wholesale price of such merchandise as bought at usual wholesale quantities, at the time of exportation to the United States in the principal markets of the country whence imported."

Upheld by Secretary Root. If there is a controversy in the courts, it is expected here to center around the pure question of the legal meaning of section 19 of the customs administrative act, which the customs officials contend permits them to base duties on the export price. Secretary Root, it is needless to say, takes this view of it.

Implications Need of Mediator. London, June 9.—Europe was startled by news of the offer of France to use her good offices between the United States and Japan; the suggestion seemed to imply a need of mediator. It is being watched with peculiar interest the "evolution of Japanese-American imbroglio," as a week end writer calls the San Francisco mob's treatment of the mikado's subjects.

France's Alleged Offer in Japanese-American Affairs Stumbles. London, June 9.—Europe was startled by news of the offer of France to use her good offices between the United States and Japan; the suggestion seemed to imply a need of mediator. It is being watched with peculiar interest the "evolution of Japanese-American imbroglio," as a week end writer calls the San Francisco mob's treatment of the mikado's subjects.

government officials whether that can be raised with any effectiveness. A remarkable phase of the situation lies in the fact that if the American Protective Tariff league should succeed in knocking out the present arrangement with Germany, there is not much question a tariff war with Germany would follow. In that event, there would be intense pressure on congress for a new treaty of reciprocity with Germany, which is just what the American Protective Tariff league does not want.

MARBLEHEAD YACHT WINS. Hamilton, Bermuda, June 9.—The schooner yacht Dervish, owned by H. A. Morse of Marblehead, Mass., was the first to finish in the yacht race from New York. The Dervish completed the run of 450 miles in ninety-one hours and fifty minutes.

ROOSEVELT CARRIES BIG COLT'S PISTOL WEAPON UNWITTINGLY EXPOSED, WASHINGTON CROWD SMILES, PRESIDENT, TOO.

Washington, June 9.—President Roosevelt "totes a gun." This was learned yesterday for the third time since he has been head of the government, the first time being at New York when a gust of wind parted the tails of his frock coat and showed the hilt of a big Colt's pistol. Again at Arlington cemetery some years ago the populace caught sight of the pistol.

The incident yesterday in which the president unwittingly gave a glimpse of his pistol occurred just after he had arrived at the scene of the ceremonies of the laying of the Masonic temple cornerstone and he had taken his stand on the platform. There was great applause for the president as he was reaching the platform and after he became visible.

Apron Exposes Weapon. It fell to the lot of the grand master workman to receive the president personally and to invest him with the apron of the Freemasons' order, the apron being that of a master mason. According to the custom it was necessary to put on the apron, and the grand master workman undertook the office. In the necessary raising of the coat and the apron, in which the president first assisted, the end of the gun appeared. It was evident to a great many people and the president became conscious at once from the smiles that something had happened. He soon found out what it was and smiled too. He then took the ceremony in his own hands and tied the apron strings.

SAVES GOVERNMENT \$300,000 A YEAR

NEW PROCESS OF LABELING INSPECTED MEAT DRIVES OUT A BIG MONOPOLY.

Washington, June 9.—By inventing a process of labeling meat with the certification of its examination and approval by the government inspection officers, the scientists in the department of agriculture have effected an economy of something like \$300,000 a year in the conduct of the inspection business.

CABRERA KILLED? Unconfirmed Dispatch Reports Guatemalan President Assassinated.

Mexico City, June 9.—A private dispatch received here states that President Cabrera of Guatemala was assassinated today. The news cannot be confirmed.

STORMS' WORK IS FRIGHTFUL

Cloudburst and Tornado Cause Many Casualties and Great Damage to Property in the Ohio River Valley.

Big Creek at Gradyville, Ky., Seeks a New Course With the Impetuosity of a Tidal Wave, Bowling Over Houses Without Warning, as Does a Cyclone at Two Towns in Illinois—Thirty Persons Are Killed and Many Others Badly Injured.

Louisville, Ky., June 9.—Twenty-one persons dead, the village devastated and several thousand acres of growing crops ruined—this is the sum total of the havoc wrought by a cloudburst that descended on Gradyville, Ky., and vicinity last night. All the dead were residents of Gradyville, as follows: Mrs. L. C. Nell, wife of State Senator Nell, and her four children; Mrs. Lunn Hill and one child; Mrs. Carl Wilmore, her daughter and grand daughter; Paul Wilson, aged eighteen; Mrs. Hartfield Moss and her six children; Mrs. J. W. Keltner and one child; Miss Mary Moss.

The disaster was due to the erratic behavior of Big creek, ordinarily a small stream but which was already swollen by recent rains. When the cloudburst precipitated three inches of rain in an hour the creek leaped from its bed and took a new course with the impetuosity of a tidal wave. The inhabitants of Gradyville, nearby all were aided when the foaming waters struck the place, carrying away six residences, a mill and several smaller houses.

Nearly all the victims were drowned but four were crushed by the collapse of their dwellings when the torrent struck them. State Senator Nell, who is a physician, owes his escape from the fate that overtook the rest of his family to the fact that he was several miles away in the hills visiting a patient when the storm broke. Several persons were injured, but none of these, it is stated, will die. Gradyville is a village of 175 inhabitants in Adair county, eighteen miles from the nearest railroad station.

Tornado Levies Awful Toll. York, Ills., June 9.—Three persons are dead and eight fatally injured as a result of a tornado which practically wiped out this town last night. The dead were: Henry Cook, aged sixty, Terre Haute, Ind.; Mrs. John Boston, York, Ills.; Mrs. Lucinda Pinkerton, aged fifty, York. The fatally injured are: Clyde Scott, B. F. Miller, Mrs. B. F. Miller, Mrs. S. F. Freeman, Annabel Newman, Mrs. Lydia Foster, all of York; James Layton, Mrs. James Layton, Graysville, Ind.

The storm broke while most of the people were at supper. Entire families were buried in the ruins of houses and it is remarkable that the death list was not greater. Heavy damage also was caused at Graysville, Ind., east of here. The home of James Layton was demolished. Mr. Layton, was blown out of his house and buried under the ruins and probably fatally injured. Mrs. Layton also sustained dangerous injuries.

St. Louis, June 9.—A telegram from Nashville, Ills., says that a tornado struck New Minden, Ills., early in the day, killing four and injuring a score of persons. The dead were: Mrs. Henry Wolfe and two children and a child of Carl Meyer. Herman Wolfe and others are bruised. The storm struck the northern portion of the town. The German Lutheran church is badly damaged and the school demolished.

Daquinn, Ills., June 9.—According to telephone reports received within the past twenty-four hours from the surrounding country it is estimated that the loss caused by the cyclone in this vicinity will reach \$150,000. The damage in this city amounts to nearly as much.

FAMILY DROWNS. Father, Mother and Babe Meet Death in a Wisconsin Lake.

Copper Country

COPPER COUNTRY SPORTS. Houghton Not Climbing Very Fast Now - Various Sports.

The Houghton baseball team is still anchored at the bottom of the ladder. It is not hitting that keeps the club down, because on Saturday the men hit Cummings safely eight times while DuLuth was hitting Egan for an even dozen, and it would have had a tie score at the close of the ninth had Myers not dropped an easy fly to let DuLuth score.

Houghton played Winnipeg yesterday with Terrible Terry pitching for the Red and Calumet. The Sunday lid in Calumet outlived the game there for the day. The results, in very brief: DuLuth defeated Calumet by the score of 17 to 3. Winnipeg won from Houghton, 5 to 0. Summary: R. H. E. Houghton 0 7 6 Batteries: Terry and Crisp; Kaiser, Miller and Stewart.

SUICIDE AT L'ANSE.

Henry Steinback, sixty years of age, janitor of the L'Anse High school, was found hanging from the bell rope in the school tower early Saturday afternoon, dead. The body, pretty well found, is that he committed suicide. He had been missing from home since Saturday morning and after the dinner hour a searching party was sent out, the discovery of the corpse swaying from the bell rope resulting. The deceased had been janitor of the school for several years and was an old and respected resident. He leaves a widow and several adult children. It is believed mental derangement was the cause of his suicide. The funeral will probably be held at L'Anse today, in charge of the A. O. U. W.

LAST DAY OF CONVENTION.

Congregational Association Will Conclude Tonight. The final sessions of the general Congregational association of Michigan will be held at Hancock today. The delegates will leave for their homes tomorrow, or such of them as desire to participate in the side trip to the Soo will take this evening.

A mass meeting at the Kerroged theater in the afternoon was the feature of the session yesterday. Dr. Graham Taylor, a noted Chicago sociologist and settlement worker, delivered an interesting lecture on "A Christian Program in Municipal Life." Many of the divines attending the convention spoke in churches in various copper country towns yesterday, as follows:

Hancock Congregational—Morning, Rev. Frank Ward, Lansing; evening, Rev. Carl S. Jones, Detroit. Hancock Methodist—Morning, Rev. W. J. Cady, Benton Harbor; evening, Rev. Carl S. Jones, Detroit. Probable Methodist—Morning, Rev. A. H. Stoneman, Grand Rapids; evening, Rev. W. J. Cady, Benton Harbor; evening, Rev. W. H. Warren, Detroit.

At the Saturday evening session of the convention a resolution was passed expressing the sympathy of the association with the movement to unite the Congregational, Methodist Protestant and United Brethren denominations providing the union be perfected without any radical change in the fundamental beliefs of the churches.

At the afternoon session on Saturday the following trustees were elected for the general association: Rev. C. D. Bannister, Calumet; William H. Strong, Detroit; Thomas Cooke, Eastern; Rev. James Yslop, Genesee; Rev. J. Sherrill, Gladstone; E. P. Grilly, Grand Rapids; S. E. Wait, Grand Traverse; E. K. Warner, Jackson; D. A. Allen, Kalamazoo; Rev. H. Appleton, Red Jacket; C. A. Gower, Lansing; Rev. F. Bloomfield, Muskegon; Rev. B. H. Burns, North Branch; George W. Keyes, Olivett; Wellington Travis, Saginaw; S. B. Poole, Sault Ste. Marie; C. B. Stowell, Southern.

The sessions today will be largely of a business nature, including the annual meeting of the Michigan Foreign Missionary society. There will be a number of addresses delivered at the afternoon session. The delegates enjoyed a picnic at Freda Park Saturday, and had a delightful day. The weather was ideal and the outing was most enjoyable.

COMMENCEMENT WEEK. Exercises of Houghton and Atlantic High Schools. This week is commencement week for the Houghton and Atlantic high schools. The other schools of the county will conduct exercises a week later.

HOUGHTON COUNTY BOARD. June Meeting of the Supervisors Will be Held Tomorrow. The June meeting of the Houghton county board of supervisors will be held tomorrow morning. Little was known yesterday in regard to the business which is likely to come up. One important matter will be the calling of the board's attention to the proposed memorial to the late John Stanton. Another matter of importance is a committee appointed to investigate the necessity of better roads from the Otter Lake farming district to Houghton. This question was brought up at the May meeting of the board by a delegation from the district which declared the residents there were suffering a great inconvenience and actual money loss by reason of their inability to get to market with their products.

IN THE CIRCUIT COURT. Judge Streeter Will Sentence Seven Prisoners This Morning. The principal business of the Houghton county circuit court today will be the sentencing of seven prisoners convicted of various misdemeanors at the present term. They are: Theophilus Bellefleur, burglary; John Hill, disorderly; third offense; William Adams, burglary; Charles Carlson, burglary; Charles Rook, larceny from the person; Alex. Simonson, burglary; Frank Young, disorderly conduct.

EVERY MAN HIS OWN DOCTOR. The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's Remedies have been in the market for many years and enjoy a good reputation. Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. Chamberlain's Cough Remedy for coughs, colds, croup and whooping cough. Chamberlain's Pain Balm (an antiseptic liniment) for cuts, bruises, burns, sprains, swellings, lame back and rheumatic pains. Chamberlain's Stomach and Liver Tablets for constipation, biliousness and stomach troubles. Chamberlain's Salve for diseases of the skin. One bottle of each of these five preparations costs but \$1.25. For sale by The Stafford Drug Co.

MONUMENT TO JOHN STANTON.

Proposed Memorial to Late Head of Atlantic Mining Company. A movement will be started tomorrow in the direction of erecting a monument to the memory of the late John Stanton, for many years head of the Atlantic Mining company. The inception of the plan is due to Captain James Wilcox, superintendent of the Mass Mining company, who on Friday and Saturday brought the idea to the attention of prominent mining men and copper country businessmen, and who will tomorrow bring to the official notice of the Houghton county board just what form the monument will take is not known as yet, as it is still only a suggestion, but those to whose attention it has been called have received it with enthusiastic favor.

It is proposed to erect the monument on the campus of the Michigan College of Mines or some other public place with mining associations in the copper country. Whether the monument will be a simple shaft or a statue of Mr. Stanton is not determined. John Stanton died in New York Feb. 23, 1906, after having spent half a century in intimate and active association with the copper mining industry. It is not necessary here to give a detailed biographical sketch of the great miner, but a prominent copper country man who was approached on the subject by the Mining Journal may be quoted.

"Mr. Stanton was best known," said this authority, "as the head of the Atlantic Mining Company. He was among the first to recognize the resources of the south range, and he showed his exceptional ability in mine management by his success with the Atlantic. This mine's rock bears a very small percentage of copper, one which many miners would consider unprofitable. But Mr. Stanton's wise and economic operation of the property made it a paying proposition. He first became connected with the copper industry in Tennessee, but entered the Michigan field at a sufficient early date to be at the time of his death the oldest man connected with mining in this region."

"Mr. Stanton was a man of rigid honesty and this phase of his character permitted him to take none of the chances which other mine managers sometimes take. In a rising metal market he ably sold the stock he owned, and in a falling market he was certain to furnish. In this way he was never caught in any of the accidents which sometimes follow such borrowing from the future. His conservatism and caution would always see to it that the mine was in a profitable condition at all times, and his management best tells of his character."

Mr. Stanton's half century of copper mining made him the Nestor of the industry and the entire copper world mourned him when death took him from the scene. He was still active even at an advanced age. The copper country sets in the movement toward a Stanton monument an opportunity to pay tribute to one of the men who had most to do in making this country what it is. There is little doubt that the fund for the memorial will be rapidly raised.

CLOSE THEATRICAL SEASON.

Copper Country Theaters Have Had Enjoyable Year. Managers Kerroged and Cuddihy of the Hancock and Calumet theaters announce a notable booking for July 4 and 5. "The Pirates of Penzance" and "The Mikko" will be the attraction. This will be the last theatrical entertainment of the year in the copper country, though the season may be said to have closed last Wednesday night with the Georgia minstrels.

It has been one of the best seasons in the copper country theatrical history. Starting with "The Umpire" at the opening and ending with Raymond Hitchcock at the close, and the list of attractions was an excellent one. We had Robert Edwards and Isabelle Irving among the stars in "The Umpire" and "The Mikko" was a very bad shape, and arrangements were made to develop at greater depth in the Minnie Healy through the workings of the Boston & Montana company. Two levels of 100 feet each were opened, and are being conducted by raises to the Minnie Healy workings. On the developments have been gratifying, and very large bodies of ore of excellent grade have been opened. With the completion of the Tramway shaft we should be able to furnish about as large a tonnage as any mine in the Butte camp, of a grade of at least equal to the average grade of the company's mines.

At the Rarus a new shaft was put down to the 1,300 level to furnish air to the main shaft sunk 300 feet and the 1,600 station cut, and sinking is yet in progress. A crosscut on the 1,600 is being driven for the veins which will soon be cut. The crosscut on the 1,500 level was extended and cut the veins. There have been opened at this level in all three of the main veins large bodies of ore of very good grade, which will increase their proportion of tonnage during the present year. In the old levels of the Rarus considerable development work was done and a great deal of new ore developed. This mine should yield about the same quantity and grade of ore that the Tramway will. The plant surface equipment and shaft on this mine are up to requirements.

At the Corra the main shaft has been sunk to the seventeenth and eighteenth levels, and in account of the difficulty of handling the water the work of opening up these levels has been suspended awaiting completion of a drainage drift from the 2,200 level of the Diamond mine of the Anaconda. Development of this mine is ample for the work, and it is expected that it will continue at least up to its average production.

Health-Economy Calumet Baking Powder. Best by Test. UNITED COPPER. The United Copper company reports a surplus of \$3,025,007 at the close of the fiscal year ending May 31, this after the payment of \$3,450,000 in dividends. President E. A. Benson says: "The past year has been one of extraordinary prosperity for all copper producing companies, and we added to surplus an amount during the year almost equal to the dividends paid on common in the same period, thus showing net earnings of nearly 14 per cent for the common

Mining News

BUTTE COALITION. Company's First Annual Report Shows a Surplus of \$200,000.

The annual report of the Butte Coalition company shows total receipts of \$1,024,713 for the year ending Dec. 31, last. Of this sum \$880,000 was an account of the dividends paid by the Red Metal company, the operating concern, and \$144,713 received as interest. The disbursements were \$824,121, eight hundred thousand dollars of this as dividends, leaving a surplus on hand of \$200,592. The statement shows the following:

Assets: Stocks of other companies, \$11,000,000; Loans and cash in bank, 4,169,882; Interest accrued and unpaid, 29,466; Office furniture and fixtures, 2,044. Total, \$15,200,592. Liabilities: Capital stock, \$15,000,000; Surplus, 200,592. Total, \$15,200,592.

Less than a dozen stockholders attended the first annual meeting of the Butte Coalition Mining company Tuesday afternoon in Jersey City. The organization of Butte Coalition was effected in February, 1906, and all of the stock of the Red Metal Mining company and a majority of the stock of the Alice Gold & Silver Mining company was acquired immediately after.

The mines of the Red Metal Mining company were in operation during ten one-half months to Dec. 31, 1906, and the mining works until July 1, 1906, at which time the smelting works were closed, and the ores treated by the Washoe Copper company on contract covering three years on a basis more satisfactory and profitable than the company could effect by concentrating its own ores and smelting the product and its first class ores. Previously the ores to be concentrated were shipped to Basin, Mont., and treated by the Basin Reduction works, and concentrates returned to the company's blast furnace at Butte.

At the acquisition of the Red Metal Mining company's mines it was deemed advisable to sink its shafts to much greater depths, to drive crosscuts through undeveloped territory, to extend drifts on ore bodies found, to sink a new shaft to provide good ventilation in the Rarus. The company intended to loan to the Red Metal company \$1,000,000 or more to pay for this extraordinary development work and additional machinery. Owing to the better value received for metal and increased values in new ore, the loan has not been made and the Red Metal company has accomplished nearly all of the work planned and paid dividends of \$880,000 out of net earnings, and accumulated a considerable surplus.

General Manager A. C. Carson of the Red Metal Mining company reports operations of that concern from Feb. 14, 1906, to Dec. 31, 1906, as below: The Rarus, Minnie Healy and Corra mines have been operating continuously, excepting about six weeks when the Minnie Healy, for retrimbering, and a month at the Corra for repairs. Other operations were conducted through the Pennsylvania and Rarus shafts of the Boston & Montana, which is owned jointly with the Boston & Montana, and through the Butte & Boston company, and through the Parrot shaft in the Nipper claim owned jointly with the Anaconda. In all these joint operations most of the work was in development. With the beginning of this year a considerable amount of ore is coming from these operations, and they will continue to furnish an important part of the company's production.

On the Tramway claim a permanent working shaft was started in July, intended to be the main shaft for the Tramway. Substantial progress has been made in the sinking of the shaft. Cost of sinking and equipping is being divided between Butte & Boston company and your company. It is now about 100 feet in depth, and should be in operation about the close of 1907. The present Minnie Healy shaft was in a very bad shape, and arrangements were made to develop at greater depth in the Minnie Healy through the workings of the Boston & Montana company. Two levels of 100 feet each were opened, and are being conducted by raises to the Minnie Healy workings. On the developments have been gratifying, and very large bodies of ore of excellent grade have been opened. With the completion of the Tramway shaft we should be able to furnish about as large a tonnage as any mine in the Butte camp, of a grade of at least equal to the average grade of the company's mines.

At the Rarus a new shaft was put down to the 1,300 level to furnish air to the main shaft sunk 300 feet and the 1,600 station cut, and sinking is yet in progress. A crosscut on the 1,600 is being driven for the veins which will soon be cut. The crosscut on the 1,500 level was extended and cut the veins. There have been opened at this level in all three of the main veins large bodies of ore of very good grade, which will increase their proportion of tonnage during the present year. In the old levels of the Rarus considerable development work was done and a great deal of new ore developed. This mine should yield about the same quantity and grade of ore that the Tramway will. The plant surface equipment and shaft on this mine are up to requirements.

At the Corra the main shaft has been sunk to the seventeenth and eighteenth levels, and in account of the difficulty of handling the water the work of opening up these levels has been suspended awaiting completion of a drainage drift from the 2,200 level of the Diamond mine of the Anaconda. Development of this mine is ample for the work, and it is expected that it will continue at least up to its average production.

THE CITIZENS' NATIONAL BANK HOUGHTON, MICHIGAN

OFFICERS: Graham Pope, President; C. V. Seaber, Vice-President; C. H. Moss, Cashier. DIRECTORS: Graham Pope, C. V. Seaber, E. F. Chrysoth, J. H. Jastrow, R. H. Hall, A. F. Holsinger, A. M. Schultz, John G. Steas, C. H. Moss.

After payment of 6 per cent on preferred stock, the surplus now exceeds the amount of the preferred stock, and cash assets now more than equal the \$5,000,000 preferred. The La Franco Copper company has made great progress in the exploitation of its mines, creating magnificent surface works, draining lower levels of the water which flowed in from adjoining Alice mine, opening up large ore reserves, and generally getting ready for profitable work, besides setting by compromise a law suit so that there are now no suits against the company. We have become interested in several very large mining operations in Idaho, Nevada, California and Mexico, which has required the investment of large sums of money, not only in the purchase of securities of other companies but also in the way of equipment. At the Ohio Copper company we are equipping a 2000-ton plant at cost of approximately \$1,000,000.

NOTES OF COPPER NEWS.

The richest ore ever mined by North Butte is coming from the 1800-foot level, where the vein was recently opened. The stone and ship windows of Butte have specimens of this remarkable ore which are being viewed by crowds of spectators. The No. 2 shaft of the Alton is now down 325 feet and sinking rapidly. It is expected that the work will be pushed from now on at the rate of 100 feet per month which would indicate that within ten months will be required to bottom it on the Kearsarge lode.

Professor H. A. Jones, of the United States geological survey, after an inspection of the Tri-Bullion Smelting & Development company, has written to Howard Paschal, president of the company, to the effect that the mine shows "the richest and largest body of Smithsonite zinc carbonate in the world." It is stated that dividends will be started on Greene Cananea Copper stock Aug. 1 of this year. About 90 per cent of Greene Consolidated and Cananea Central stocks have been exchanged for securities of the consolidated company. The rate of dividend has not yet been determined.

The East Butte company has opened the Yankee Boy vein by a north crosscut from the No. 11 shaft at a depth of 400 feet. The opening shows twelve feet of commercial ore. No work has been done on the vein below the 290-foot level, which gives 200 feet of new stopping ground. Regarding the interesting statement of a Montana copper man that copper was 35 cents a pound in 1870, correction should be noted by the fact that copper was 25 cents a pound in 1873, and that was the last date on which it was 35 cents a pound. In 1874 it was 27 cents, and in 1876 the range was between 19 and 23 cents. In the three years succeeding 1873, 19 cents was the lowest price for copper. In 1876 the price rose to 21 1/2 cents, in 1880, 23 cents was the high price; in 1881, 20 1/2 cents, and in 1882, 20 1/2 cents. But it took twenty-four years from the latter date, or until October, 1906 for it to get back to 20 cents.

The Parrot Mining company is mining 400 to 450 tons of ore daily, yielding around 3 per cent copper. The sinking of the Parrot shaft, on which work was suspended some months ago, was resumed is now 1,875 feet deep and will be made several hundred feet deeper in order to demonstrate whether there are ore bodies under the "lean zone." Eighteen hundred feet of Parrot is equivalent to 2,100 feet at Anaconda, and belief is that a few hundred feet more will take Parrot into rich ore bodies opened by Anaconda on the 2200 and 2400-foot levels. Parrot is also pushing work on the Little Mina and is preparing to crosscut to the vein from the 900-foot station. Little Mina is known to have 3000 tons of ore.

C. M. McNeil, president of the Utah Copper company, says: "The new concentrating mill at Garfield is in commission. It contains twelve units, each of a capacity of 50 tons a day, making possible output of the plant 6,000 tons a day. We have enough ore to run the new mill to full capacity at once, but will not do so until the Big Granite & Western railroad is better able to handle the tonnage. Our old mill at Bingham Canyon is turning out about 900 tons of ore per day. We have about 72,000,000 tons of ore blocked out, which averages about 2 per cent copper. With our present capacity of 2,500,000 tons a year, this is enough to keep us going for a long time to come."

Keep Cool; Save Money. For cool cooking, less work and least fuel-expense use a NEW PERFECTION Wick Blue Flame Oil Cook-Stove. The ideal stove for summer. Does everything that any other kind of stove will do. Any degree of heat instantly. Made in three sizes and fully warranted. At your dealer's, or write our nearest agency for descriptive circular. City Brevities

Yesterday's temperatures: Seven a. m., 63 degrees; noon, 59; 7 p. m., 57. Maximum, 68 degrees; minimum, 56.

Mrs. D. G. O'Connell of Ishpeming, is visiting friends in the city for a few days.

D. T. Morgan, A. J. Youngbluth and E. A. Bell were Marquette visitors in the city Saturday.

Charles Gothe, of the Queen City restaurant, is the happy father of twin babies—a boy and a girl—born at St. Luke's hospital at 1 o'clock this morning.

The meeting which the Queen City Commercial club was to hold this evening has been postponed because of an adjourned session of the common council scheduled for the same time. The Commercial organization will meet Wednesday night in the assembly room at the city hall.

Clothes Reel Burns—The fire department was called out yesterday afternoon at 4:30 o'clock by the burning of a clothes reel in the rear of the residence of Patrick Sullivan, corner of Michigan and High streets. Before the firemen arrived the blaze had been extinguished. The damage was immaterial.

Gets Blooded Bull—Chief T. J. Maney, of the fire department, has received a full blooded Boston terrier from Duluth. The animal comes from prize winning stock, her sire having taken a number of ribbons at eastern shows. She is handsomely marked in brindle and white and like all thoroughbred bulls is good natured and playful.

Sunday Train Service—The Marquette & Southeastern started its Sunday train yesterday, the date for starting it being considerably later than usual, on account of the backward spring. The train east was well filled, many people going out to the various streams along the line. The train to Birch also carried a good crowd, composed in part of fishermen. The trout streams in all directions from the city were largely frequented.

Shipping Business Good—In spite of the fact that navigation opened much later than ordinarily and that a long stretch of bad weather proved a great handicap to the South shore docks here up to date done a much better business than last year. This is in a great measure due to the entire absence of labor troubles in both the shipping and receiving ports. So far there has been no trouble experienced in either the loading or unloading of cargo. The only obstacles with which shippers have had to contend have been the elements.

Country Club Opening—The formal opening of the Marquette Country club will be held Friday of this week, and will take the form of an evening entertainment. A special train will leave Marquette over the Marquette & Southeastern at 7:30 o'clock for the accommodation of the guests. The club officials have sent out a large number of invitations, and are planning to make the affair a memorable one. Those invited have been asked to inform the officials on or before tomorrow whether they will attend.

Faculty Changes—Miss Rachel Hillbard, for the past two years instructor in German in the high school, has resigned her position and will next year teach on the faculty of the women's college at Western Reserve University, Cleveland, O. She will be succeeded on the high school faculty by Miss Wenzinger, for many years a teacher in the grades, who has been pursuing her work in German during vacation, and who has done considerable studying at the University of Chicago. Miss Harriet Harrington has also resigned from the high school faculty. Mr. Flieger has resigned as director of the manual training department. As far as is now known these are the only resignations that will be received.

HERE SINCE 1858.
Patrick Gorman Dies at the Age of Seventy-Seven.
Patrick Gorman, one of the oldest residents of the city, passed away at 1:30 o'clock this morning at the home of his daughter, Mrs. Homer Cowden, on East Michigan street. He had been ill for several months. Mr. Gorman was aged seventy-seven, and he had been in Marquette for forty-nine years. He was born in Westport, Ireland. Two children—Mrs. Cowden and ex-Alderman Martin Gorman—survive him. Mrs. Gorman has been dead for many years.

CARD OF THANKS.
We desire to express our heartfelt thanks to the many friends who so kindly consoled and assisted us in the recent illness of our wife and daughter. We are also grateful to the many sympathizing friends who were such a help to us in her last days. The beautiful floral tributes from her many kind friends and the fraternal ones, will be remembered by us as a welcome reminder of their sincere sympathy and kindness.
THOS. C. GUMMERSON,
MR. and MRS. WM. WISEMAN.

MANISTIQUE TO JOIN MARQUETTE

FORMER CITY PLANS TO SEND MANY VISITORS HERE ON THE FOURTH OF JULY—HOPE TO SECURE AIR SHIP.

The committee on arrangements for the Fourth of July celebration has received a communication from a number of business men of Manistique signifying the desire of people in that city to join with Marquette in the observance of the day. Though Manistique is eighty miles from here, on Lake Michigan, it is the plan to run a special train on the morning of the Fourth and to aid every way in making the Marquette celebration a success. The communication says that if the project is considered favorably the train will bring in several hundred Manistique residents and that they will be accompanied by a band of thirty pieces. That there will be plenty of music is now a certainty, as the Negonne band and the Castle band, of Iron Mountain, have been engaged.

A feature of the celebration which has been already decided upon will be a street carnival in the morning, modeled something after the Mardi Gras at New Orleans. Everyone will be requested to mask, and a number of prizes will be awarded for handsome and unique costumes. This plan has been adopted by a number of cities within the past few years and has invariably proven a great success. It is suggested in this connection that it would not be a bad idea for merchants to advertise their firms in this feature. The carnival will continue in full sway until the conclusion of the street parade. In order to give plenty of time for the carnival it has been decided to dispense with the address and reading of the Declaration of Independence. The afternoon will be devoted to sports and games and in the evening there will be a big display of fireworks.

Though the deal has not as yet been completed, the committee hopes to secure the presence of a Wisconsin man who has recently invented an air ship to make several ascensions in his machine. The ship, it is said, has been given a number of private trials and has proven a success. It is said to be dirigible even in a high wind and it is the intent, if the attraction is secured, to have the ascensions made from the court house square and the machine sailed about the city in various directions. A favorable reply has been received from the inventor relative to the proposition from this city, but the committee is desirous of investigating further and becoming satisfied that the air ship is all that it is claimed to be before closing with him.

The committee closed its contract with the Pain company of Boston for its fireworks Saturday, and the display promises, to both in magnitude and quality, exceed anything ever before witnessed in the city. Among the features will be a signal salute of immense aerial guns exploded in mid-air at a height of several hundred feet; silver showers discharged from moose balloons, and the atmosphere illuminated with red and blue lights of intense brilliancy. Two experts will accompany the fireworks and take charge of the display. Souvenir Japanese parasols will be given away to the ladies. Red, white and blue caps will also be furnished to the youngsters.

MARQUETTE G. M. & M. CO.

Copper Country Miner Makes Favorable Report on Colorado Property.
Calumet, Mich., June 6, 1907.
Mr. Albert Hornstein,
Treas. Marquette Gold Mining & Milling Co.,
Marquette, Mich.

Dear Sir:—While I was on my western trip I went through Colorado to see the great mining districts in different parts of that state. I went over your property in Boulder county in the Goldhill district, and I found that your people have one of the greatest properties in that county. I visited every part of the surface and underground workings, shafts, tunnels, drifts and stopes. I found a lot of high grade ore, and large bodies of ore in each vein. I also visited the Richmond mine, which was recently leased by some people. I took samples from the Richmond shaft No. 1 at the second level stop, and had them assayed at Boulder. They ran 208.08 ounces gold, 340.32 ounces silver, which makes a total of \$1,937.61 per ton. I also took samples of the Marquette tunnels, shafts and drifts in the nine different openings, and the average of these samples gives \$23.60 per ton in gold and silver. I was surprised to find such a valuable property and so much ore ready for milling. My estimate is that there is at least \$1,000,000 worth of ore that runs from \$12 to \$18 per ton average, all through. I don't see why your people are delaying putting up a mill or buying one. I was through the Black Swan mill. It is in good condition, as far as machinery is concerned. All it needs is a roaster and a cyanide process. It could be bought for cash for \$20,000. I believe that if your people added about \$5,000 for the tramway to Marquette and Richmond properties, it would put your mine on dividend paying basis at once. All the underground work is done very systematically, and it seems to me that Mr. LeVoeque is a capable man to superintend the work. I visited your property to please a number of copper country stockholders.

Please take notice that I am not a mining expert, but I am an ordinary man from Calumet, Mich., having had thirteen years experience in different mines in this country.
I also found that your people have pine timber to use for timbering purposes underground for fifteen years, and it doesn't cost a great deal for the company to have it cut and get it ready for use.
Yours truly,
EDWARD JONES.

Earning and Saving

The time to begin to save money is when you begin to earn it. Lay by a part of every dollar you earn and you are fairly on the road to independence. Money is necessary at every step in your journey through life. You can't buy a home without it. You can't go into business without it. You can't be comfortable, if anything happens to stop your income without it. When you begin to save put your money in this bank and receive 3 per cent interest. Deposits of one dollar and upwards will be taken and interest compounded semi-annually

Marquette National Bank.

Marquette, Michigan.

MARKETS

NEW YORK STOCKS.

Logan & Bryan telegraphed as follows

"An air of good feeling prevailed throughout the session. The reports that the administration will in all probability drop the Harriman matter caused a good deal of buying for investment account and is partly responsible for the advance in today's market. Union Pacific and others of the high class were in good demand, and the action of today's market would indicate a better feeling on the part of the trade at large. The advance started right at the opening and continued through the session uncheckered. The closing prices are about the best of the day. The bank statement was considered unfavorable, but did not serve as a market factor. We don't believe there is as yet sufficient ammunition for a material advance, and see nothing better than a seeping affair until general conditions show improvement."

About a year ago stockholders of

CRISIS IN FRANCE.

Wine Growers, at Monster Meeting Declare for Civil Strike. Montpellier, France, June 9.—Today's monster demonstration by the wine growers marked the climax of the situation arising from a demand that the government stop the adulteration of wine. At the gigantic meeting at Perpignan, May 19, a resolution was passed that if the government did not give full satisfaction to the demands of the growers a civil strike would be instituted June 10. At the meeting today Marcelin Albert announced that the time had come for action. He invited the multitude to swear solidarity of action, and every hand was raised. The mayor of Narbonne will be the first to open the strike. He and the entire municipal council will resign tomorrow, after having previously dismissed all municipal employees.

HIS DOWNFALL NEAR.

Administration of Premier Campbell-Bannerman Is Weak. London, June 9.—It is believed that an early dissolution of parliament and a general election early in 1909, the issues being home rule and the reform of the house of lords, is to be the result of the weak leadership of Sir Henry Campbell-Bannerman, premier and head of the Liberal party. Only a few weeks of the session remain and no autumn session is expected. In an effort to save his administration it is believed the premier will stake his fortunes on the resolution of reform of the house of lords to be moved June 17 or 24.

ROYAL STORK VISITS SWEDEN.

Stockholm, Sweden, June 9.—Princess Margaret, wife of Prince Gustavus Adolphus, son of the crown prince of Sweden, gave birth to a son yesterday. Princess Margaret is the eldest daughter of the King Edward of Connaught, brother of the King of England. Princess Margaret and Prince Gustavus Adolphus were married at Windsor on June 15, 1905. This is their second son.

TODAY'S SCHEDULED GAMES.

National League. Boston at Cincinnati, Brooklyn at Pittsburgh, New York at St. Louis, Chicago at Philadelphia. American League. Chicago at Washington, St. Louis at Philadelphia, Detroit at New York, Cleveland at Boston.

GAMES PLAYED YESTERDAY.

National League. Chicago, June 9.—Philadelphia hit for extra bases today, but played a poor fielding game. Summary: R. H. E. Chicago... 2-0-0-0-1-1-1-4 6 0, Philadelphia... 1-0-0-0-0-0-1-2 7 0. Batteries: Lundgren and Kling; Dugleby and Jacklitsch.

OKLAHOMA PRIMARY ELECTION.

Muskogee, I. T., June 9.—Unofficial but complete returns from thirty-four of the forty counties in Indian Territory, and from nineteen of the thirty-five counties in Oklahoma, give G. H. Haysell of this city a good sized majority over Lee Bruce of Ardmore for the Democratic nomination for governor of the new state of Oklahoma. The full result will not be known for several days. Mr. Haysell tonight claims over 20,000 majority.

IS WROTH AT TAFT.

Highland Falls, N. Y., June 9.—The following statement is accredited tonight to Mrs. Elizabeth E. Ayres, the wife of Lieutenant Colonel Charles G. Ayres: "The secretary of war's letter of instruction to my husband, forbidding me trespassing on the reservation at West Point, is so insulting that I will not repeat it or show it. It has been placed in the hands of my lawyers."

MISSISSIPPI NEGRO LYNCHED.

Ruleville, Miss., June 9.—Charged with having killed Lee Reynolds, a white man, Lee Fox, a negro, was lynched near Indiana late today. Fox, it is said, confessed.

TODAY'S WEATHER.

Washington, June 9.—The following is the weather bureau's forecast for Upper Michigan: Thunder showers, Monday, brisk at south; Tuesday, showers; fresh to cool east winds, increasing.

Let us have some Cudahy's Peacock Bacon and calves liver for supper Mamma, say young and old.

(11-27-eod)

LID ON AT ST. PAUL.

Fearing Outset, Police Board Orders Saloons Closed on Sundays. St. Paul, Minn., June 9.—The board of police commissioners last evening passed a resolution ordering all saloons to close on Sunday hereafter and ordering the chief of police to see that the order is obeyed. This resolution is the result of the decision of the supreme court confirming the authority of the attorney general of Minnesota to cause the removal from saloons and a fine of \$100 to \$500 of any city official for failure to enforce the state laws.

BULL CARD IN WALL STREET.

Stocks Rally on the News E. H. Harriman Is to Go Free. New York June 9.—The decision of the federal authorities not to institute criminal proceedings against E. H. Harriman in connection with his railway operations was the principal subject of discussion in Wall street yesterday. Interests friendly to Harriman see in the latest turn of affairs a disposition on the part of the government to abandon its case against the so-called Harriman lines, and Wall street professes to believe that the entire matter will soon cease to be a stock market factor. The idea that Harriman would be criminally prosecuted was never very seriously entertained in financial circles. The stock market's response to the news was an substantial rise in the Harriman issues with corresponding advances elsewhere in the list.

JUSTICE CHEATED.

Arrested for Forgery, Iowa Man Ends Life With Poison. Minneapolis, June 9.—Frank Jackson, a business man from Waterloo, Iowa, cheated justice here yesterday by taking carbolic acid. He had been served with a warrant for forgery committed at Waterloo, when he pushed a bottle from his pocket and drank from it. An officer attempted to stop him, but the man fell to the floor in convulsions and died shortly afterwards.

DOUBLE TRAGEDY IN MISSISSIPPI.

Biloxi, Miss., June 9.—Captain John Walker shot and killed his wife and himself here yesterday. Walker was an officer in the United States navy with a ferry on his memorable trip to Japan and was a captain in the Confederate navy with command of the Mississippi and Louisiana canal fleet. The tragedy occurred during dispute between husband and wife.

KIDNAPPED NUN IS FOUND.

Father and Brother Captors of Woman Abducted at Duluth. St. Paul, June 9.—Sister Borromea—Emily Deigh—kidnapped from St. Clement's school in Duluth, is safe at her father's home, 639 East Seventh street, St. Paul. It develops that the kidnapers were her father, Edward Deigh, and her elder brother.

CALLERS AT WHITE HOUSE.

Chicago White Sox Pay Their Respects to the President. Washington, June 9.—"Doc" White of the Chicago American league baseball team and the Hon. Shelby M. Cullom of the United States senate were visitors from Illinois at the White House yesterday. Mr. White went up to the presidential offices to present the American league Chicago team, he having introduced the team last year quite as gracefully as on "this occasion." The president received the visitors with his usual enthusiasm for sports and sporty people. Senator Cullom did not appear at White House yesterday, but the fact was remarked upon. Senator Cullom's first statement some weeks ago was that Harriman ought to be sent to jail and his last statement that he was raising Hades or its equivalent. Senator Cullom's mission Saturday was to try to land the place of superintendent of public schools of Porto Rico for Professor Dexter of the University of Illinois. Professor Dexter was presented to the president.

PROPHET'S LIFE THREATENED.

Middle Haddam, Conn., June 9.—Horace Johnson has found that the business of being a prophet is not a bed of roses. As a result of certain predictions he was reported to have made recently concerning certain cataclysmic things which were to happen in this vicinity before long, his life is being made miserable. Threatening letters reach him by nearly every mail, and one of these conveyed the information that "anarchists" were lying in wait to blow up his home. His watchdog was poisoned a week ago.

SUBMERGED 205 FEET.

Submarine Boat Octopus Remains Under Water Forty Minutes. Boston, June 9.—The submarine Octopus, after being towed six miles northward, was sunk to a depth of 205 feet, where she rested on the bottom, remaining forty minutes. When the Octopus was raised the government board made an inspection and found the boat in perfect condition.

NEW IT SEVENTY YEARS AGO.

Cincinnati, O., June 9.—A daughter of Edward Boehlert of this city, who was one of our country and our fellowmen a duty. Tea or Tablets, 33 cents. The Stafford Drug Company.

REPORTED CONFESSION FALSE.

Murder of Mother-in-Law Not Admitted by Professor Hau. Karlsruhe, Germany, June 9.—Karl Hau, professor of Roman law at George Washington University, Washington, D. C., who is in prison here, charged with the murder of his mother-in-law, Frau Molitor, was visited by the governor of the prison last evening, and informed that his wife had committed suicide by drowning in a lake near Pfaffikon, Switzerland. The governor had quite a

STOCK FOR MARQUETTE.

White Amusement Company Planning to Open House Here. It can be stated on the best of authority that the White Amusement company, recently incorporated at Menominee with a capital stock of \$80,000, is endeavoring to secure a site in this city. The purpose of the company, as expressed in the articles, are to build, lease, operate and manage theaters. For several years Mr. White owned and operated the Menominee Bijou, presenting vaudeville. While the venture did not prove a failure the returns were small and Mr. White last season put in a stock company, giving standard plays. After the first week he played to the capacity of the house nightly. His idea is now to establish a stock circuit, to include five cities in the upper peninsula, probably Menominee, Escanaba, Marquette, Ishpeming and either Houghton or Hancock. He would shift the companies every two weeks thereby giving the theater-going public the opportunity to see new faces and a wider repertoire of plays. The house at Escanaba known as Ben's theater has been leased, and after June 22 will open with stock.

SOU CANAL PASSAGES.

City Brevities

Yesterday's temperatures: Seven a. m., 63 degrees; noon, 50; 7 p. m., 57. Maximum, 68 degrees; minimum, 56.

Mrs. D. G. O'Connell of Ishpeming, is visiting friends in the city for a few days.

D. T. Morgan, A. J. Youngbluth and F. A. Bell were Marquette visitors in the city Saturday.

Charles Gothe, of the Queen City restaurant, is the happy father of twin babies—a boy and a girl—born at St. Luke's hospital at 1 o'clock this morning.

The meeting which the Queen City Commercial club was to hold this evening has been postponed because of an adjourned session of the common council scheduled for the same time. The Commercial organization will meet Wednesday night in the assembly room at the city hall.

Clothes Reel Burns—The fire department was called out yesterday afternoon at 4:30 o'clock by the burning of a clothes reel in the rear of the residence of Patrick Sullivan, corner of Michigan and High streets. Before the firemen arrived the blaze had been extinguished. The damage was immaterial.

Gets Blooded Bull—Chief T. J. Maney, of the fire department, has received a full blooded Boston terrier from Duluth. The animal comes from prize winning stock, her sire having taken a number of ribbons at eastern shows. She is handsomely marked in brindle and white and like all thoroughbred bulls is good natured and playful.

Sunday Train Service—The Marquette & Southeastern started its Sunday train yesterday, the date for starting it being considerably later than usual, on account of the backward spring. The train east was well filled, many people going out to the various streams along the line. The train to Birch also carried a good crowd, composed in part of fishermen. The trout streams in all directions from the city were largely frequented.

Shipping Business Good—In spite of the fact that navigation opened much later than ordinary and that a long stretch of bad weather proved a great handicap the South shore docks have up to date done a much better business than last year. This is in a great measure due to the entire absence of labor troubles in both the shipping and receiving ports. So far there has been no trouble experienced in either the loading or unloading of the cargo. The only obstacles with which shippers have had to contend have been the elements.

Country Club Opening—The formal opening of the Marquette Country club will be held Friday of this week, and will take the form of an evening entertainment. A special train will leave Marquette over the Marquette & Southeastern at 7:30 o'clock for the accommodation of the guests. The club officials have sent out a large number of invitations, and are planning to make the affair a memorable one. Those invited have been asked to inform the officials on or before tomorrow whether they will attend.

Faculty Changes—Miss Rachel Hibbard, for the past two years instructor in German in the high school, has resigned her position and will next year teach on the faculty of the woman's college at Western Reserve University, Cleveland, O. She will be succeeded on the high school faculty by Miss Wenzinger, for many years a teacher in the grades, who has been pursuing her work in German during vacation, and who has been considerably studying at the University of Chicago. Miss Harriet Harrington has also resigned from the high school faculty. Mr. Flagler has resigned as director of the manual training department. As far as is now known these are the only resignations that will be received.

HERE SINCE 1858.

Patrick Gorman Dies at the Age of Seventy-Seven.

Patrick Gorman, one of the oldest residents of the city, passed away at 1:30 o'clock this morning at the home of his daughter, Mrs. Homer Cowden, on East Michigan street. He had been ill for several months. Mr. Gorman was aged seventy-seven, and he had been in Marquette for forty-nine years. He was born in Wexford county, Ireland. Two children—Mrs. Cowden and ex-Alderman Martin Gorman—survive him. Mrs. Gorman has been dead for many years.

CARD OF THANKS.

We desire to express our heartfelt thanks to the many friends who so kindly consoled and assisted us in the recent illness of our wife and daughter. We are also grateful to the many sympathizing friends who were such a help to us in her last days. The beautiful floral tributes from her many kind friends and the fraternal orders will be remembered by us as a welcome reminder of their sincere sympathy and kindness.

THOS. C. GUMMERSON,

MANISTIQUE TO JOIN MARQUETTE

FORMER CITY PLANS TO SEND MANY VISITORS HERE ON THE FOURTH OF JULY—HOPE TO SECURE AIR SHIP.

The committee on arrangements for the Fourth of July celebration has received a communication from a number of business men of Manistique signifying the desire of people in that city to join with Marquette in the observance of the day. Though Manistique is eighty miles from here, on Lake Michigan, it is the plan to run a special train on the morning of the Fourth and to aid every way in making the Marquette celebration a success. The communication says that if the project is considered favorably the train will bring in several hundred Manistique residents and that they will be accompanied by a band of thirty pieces that there will be plenty of music is now a certainty, as the Neguigue band and the Castle band, of Iron Mountain, have been engaged.

A feature of the celebration which has been already decided upon will be a street carnival in the morning, modeled something after the Mardi Gras at New Orleans. Everyone will be requested to mask, and a number of prizes will be awarded for handsome and unique costumes. This plan has been adopted by a number of cities within the past few years and has invariably proven a great success. It is suggested that this carnival that it would not be a bad idea for merchants to advertise their firms in this feature. The carnival will continue in full swing until the conclusion of the street parade. In order to give plenty of time for the carnival it has been decided to dispense with the address and reading of the Declaration of Independence. The afternoon will be devoted to sports and games and in the evening there will be a big display of fireworks.

Though the deal has not as yet been completed, the committee hopes to secure the presence of a Wisconsin man who has recently invented an air ship machine. The ship, it is said, has been given a number of private trials and has proven a success. It is said to be dirigible even in a high wind and it is the intent, if the attraction is secured, to have the ascensions made from the court house square and the machine sailed about the city in various directions. A favorable reply has been received from the inventor relative to the proposition from this city, but the committee is desirous of investigating further and becoming satisfied that the air ship is all that it is claimed to be before closing with him.

The committee closed its contract with the Pain company of Boston for its fireworks Saturday, and the display promises, to both in magnitude and quality, exceed anything ever witnessed in the city. Among the features will be a signal salute of immense aerial guns exploded in mid-air at a height of several hundred feet; silver showers discharged from meteoric balloons, and the atmosphere illuminated with red and blue lights of intense brilliancy. Two experts will accompany the fireworks and take charge of the display. Souvenir Japanese parasols will be given away to the ladies. Red, white and blue caps will also be furnished to the youngsters.

MARQUETTE G. M. & M. CO.

Copper Country Miner Makes Favorable Report on Colorado Property.

Calumet, Mich., June 6, 1907.

Mr. Albert Hornstein,
Treas. Marquette Gold Mining & Milling Co.,
Marquette, Mich.

Dear Sir:—While I was on my western trip I went through Colorado to see the great mining districts in different parts of that state. I went over your property in Boulder county in the Goldhill district, and I found that your people have one of the greatest properties in that county. I visited every part of the surface and underground workings, shafts, tunnels, drifts and stopes, and found a lot of high grade ore, and large bodies of ore in each vein. I also visited the Richmond mine, which was recently leased by your people. I took samples from the Richmond shaft No. 1 at the second level stoppe, and had them assayed at Boulder. They ran 208.08 ounces gold, 340.32 ounces silver, which makes a total of \$3,937.31 per ton. I also took samples of the Marquette tunnels, shafts and drifts in the nine different openings, and the average of these samples gives \$23.60 per ton in gold and silver. I was surprised to find such a valuable property and so much ore ready for milling. My estimate is that there is at least \$1,000,000 worth of ore that runs from \$12 to \$18 per ton average, all through. I don't see why your people are delaying putting up a mill or buying one. I was through the Black Swan hill. It is in good condition, as far as machinery is concerned. All it needs is a roaster and a cyanide process. It could be bought in cash for \$20,000. I believe that if your people added about \$5,000 for the tramway to Marquette and Richmond properties, it would put your mine on dividend paying basis at once. All the underground work is done very systematically, and it seems to me that Mr. LeVeque is a capable man to superintend the work. I visited your property to please a number of copper country stockholders.

Please take notice that I am not a mining expert, but I am an ordinary miner from Calumet, Mich., having had thirteen years experience in different mines in this country.

I also found that your people have pine timber to use for timbering purposes underground for fifteen years, and it doesn't cost a great deal for the company to have it cut and get it ready for use.

Yours truly,
EDWARD JONES.

Money is necessary at every step in your journey through life.

You can't buy a home without it.

You can't go into business without it.

You can't be comfortable, if anything happens to stop your income without it.

When you begin to save put your money in this bank and receive 3 per cent interest. Deposits of one dollar and upwards will be taken and interest compounded semi-annually

Marquette National Bank.

Marquette, Michigan.

MARKETS

NEW YORK STOCKS.

Logan & Bryan telegraphed as follows:

"An air of good feeling prevailed throughout the session. The reports that the administration will in all probability drop the Harriman matter caused a good deal of buying for investment account and is partly responsible for the advance in today's market. Union Pacific and others of the high class were in good demand, and the action of today's market would indicate a better feeling on the part of the trade at large. The advance started right at the opening and continued through the session unchecked. The closing prices are about the best of the day. The bank statement was considered unfavorable, but did not serve as a market factor. We don't believe there is as yet sufficient ammunition for a material advance, and see nothing better than a scalping affair until general conditions show improvement."

Paine, Webber & Co. report closing prices as follows:

Paine wires:

The Butte Coalition company has retired during the past year \$3,500,000 of per cent bonds. These were \$2,500,000 Nipper Consolidated Copper company bonds and \$1,000,000 Montana Ore Purchasing company bonds, which were acquired by the Butte Coalition at the time of the Montana copper war settlement. About a year ago stockholders of

The Newest and Best

The old Ayer's Hair Vigor was good, no question about that. But your own doctor, the one you have great confidence in, will tell you that Ayer's Hair Vigor, new improved formula, is far better. The one great specific for falling hair and dandruff. We publish the formula of all our preparations.

CRISIS IN FRANCE.

Wine Growers, at Monster Meeting Declare for Civil Strike. Montpellier, France, June 9.—Today's monster demonstration by the wine growers marked the climax of the situation arising from a demand that the government stop the adulteration of wine. At the gigantic meeting at Perpignan, May 19, a resolution was passed that if the government did not give full satisfaction to the demands of the growers a civil strike would be instituted June 10. At the meeting today Marcelin Albert announced that the time had come for action. He invited the multitude to swear solidarity of action, and every hand was raised. The mayor of Narbonne will be the first to open the strike. He and the entire municipal council will resign tomorrow, after having previously dismissed all municipal employees.

HIS DOWNFALL NEAR.

Administration of Premier Campbell-Bannerman is Weak.

London, June 9.—It is believed that an early dissolution of parliament and a general election early in 1909, the issues being home rule and the reform of the house of lords, is to be the result of the weak leadership of Sir Henry Campbell-Bannerman, premier and head of the Liberal party. Only a few weeks of the session remain and no autumn session is expected. In an effort to save his administration it is believed the premier will stake his fortunes on the resolution of reform of the house of lords to be moved June 17 or 24.

In the sudden decision of King Edward and Queen Alexandra to go to Ireland for a state visit the Tories see a plan of the premier to recover some of the ground he has lost. Complications thicken around Sir Henry. Candid critics among his followers tell him that if he cannot furnish more vigorous leadership, the disintegration of the big Liberal phalanx will proceed quite as rapidly as the Tories are predicting. He is reminded by a Liberal organ in the provinces that his "chronic smile on the front bench in the house of commons is not becoming to a statesman who has 'accomplished nothing but disaster.'"

ROYAL STORK VISITS SWEDEN.

Stockholm, Sweden, June 9.—Princess Margaret, wife of Prince Gustavus Adolphus, son of the crown prince of Sweden, gave birth to a son yesterday. Princess Margaret is the eldest daughter of the duke of Connaught, brother of King Edward of England. Princess Margaret and Prince Gustavus Adolphus were married at Windsor on June 15, 1905. This is their second son.

CHICAGO GRAINS.

Closing prices on the Chicago Board of Trade, Saturday, were: July wheat, 96 1/2; July corn, 54 1/2; July oats, 46. Logan & Bryan said of the wheat market: "There was a fine trading market in wheat all day. Prices showed a range of 2 cents and closed 1 to 1 1/2c higher. The bears took a little turn at the market at the opening, as they have done for several days, with the usual result, that it took them the balance of the session to get their wheat back at higher prices. There was no line of long wheat to come on the market on the advance, as was the case yesterday. The market closed so near top prices that the public and foreigners will both be served with notice that the real strength has again set in. Bull news came from all quarters and was of more reliable character than any day previous. A Kansas state report gives 21 per cent of the average planted up and a condition of 56 on that remaining, which indicates a possible yield of about 40,000,000 bushels. If the wheat heads are put in the fields, when the machines are found to be empty and blighted from the frosts, a still further reduction will be necessary. Omaha reports a prospect of only half a crop in some of the best wheat countries. A Columbus, Nebraska, message says that the plant is making no growth. A Michigan state report cuts the condition to 70; Kentucky 82 against 89 a month ago. It looks like a very bullish Washington report Monday, if it represents the facts. Duluth reports the last of durum wheat sold and shipped. North Dakota points are claiming a 25 per cent shortage in acreage and that rains are badly needed. The wire worm is appearing in Minnesota and is doing considerable damage. The southwest mills are reporting good flour sales and paying fancy prices at the centers for wheat. We look for a return of just such a bull market as we had following the May crop report when the June figures are given out."

OKLAHOMA PRIMARY ELECTION.

Muskogee, I. T., June 9.—Unofficial but complete returns from thirty-four of the forty counties in Indian Territory, and from nineteen of the thirty-five counties in Oklahoma, give C. N. Haskell of this city a good sized majority over Lee Creece of Ardmore for the Democratic nomination for governor of the new state of Oklahoma. The full result will not be known for several days. Mr. Haskell tonight claims over 20,000 majority.

IS WROTH AT TAFT.

Highland Falls, N. Y., June 9.—The following statement is accredited tonight to Mrs. Elizabeth F. Ayres, the wife of Lieutenant Colonel Charles E. Ayres: "The secretary of war's letter of instruction to my husband, forbidding me trespassing on the reservation at West Point, is so insulting that I will not repeat it or show it. It has been placed in the hands of my lawyers."

MISSISSIPPI NAGRO LYNCHED.

Ruleville, Miss., June 9.—Charged with having killed Lee Reynolds, a white man, Lee Fox, a negro, was lynched near Indianola late today. Fox, it is said, confessed.

TODAY'S WEATHER.

Washington, June 9.—The following is the weather bureau's forecast for Upper Michigan: Thunder showers, Monday, cooler in south; Tuesday, showers; fresh to brisk east winds, increasing.

"Let us have some Cudahy's Peacock bacon and calves liver for supper Mama," say young and old. (11-27-06d)

SATURDAY'S SCORES.

The games played Saturday resulted as follows:

National League.

St. Louis, 4; Philadelphia, 1. Second game.

American Association.

Toledo, 13; St. Paul, 4.

Western League.

Omaha, 3; Denver, 2.

REPORTED CONFESSION FALSE.

Murder of Mother-in-Law Not Admitted by Professor Hau.

Karlruhe, Germany, June 9.—Karl Hau, professor of Roman law at George Washington University, Washington, D. C., who is in prison here, charged with the murder of his mother-in-law, Frau Muller, was visited by the governor of the prison last evening, and informed that his wife had committed suicide by drowning in a lake near Pflaum, Switzerland. The governor had quite a

LID ON AT ST. PAUL.

Fearing Quater, Police Board Orders Saloons Closed on Sundays.

St. Paul, Minn., June 9.—The board of police commissioners last evening passed a resolution ordering saloons to close on Sunday hereafter and ordering the chief of police to see that the order is obeyed. This resolution is the result of the decision of the supreme court confirming the authority of the attorney general of Minnesota to cause the removal from office and a fine of \$100 to \$500 of any city official for failure to enforce the state laws.

BULL CARD IN WALL STREET.

Stocks Rally on the News E. H. Harriman Is to Go Free.

New York, June 9.—The decision of the federal authorities not to institute criminal proceedings against E. H. Harriman in connection with his railway operations was the principal subject of discussion in Wall street yesterday. Interests friendly to Harriman see in the latest turn of affairs a disposition on the part of the government to abandon its case against the so-called Harriman lines, and Wall street professes to believe that the entire matter will soon cease to be a stock market factor. The idea that Harriman would be criminally prosecuted was never very seriously entertained in financial circles. The stock market's response to the news was a substantial rise in the Harriman issues with corresponding advances elsewhere in the list.

JUSTICE CHEATED.

Arrested for Forgery, Iowa Man Ends Life With Poison.

Minneapolis, June 9.—Frank Jackson, a business man from Waterloo, Iowa, cheated justice here yesterday by taking carbolic acid. He had been served with a warrant for forgery committed at Waterloo, whereupon he pulled a bottle from his pocket and drank from it. An officer attempted to stop him, but the man fell to the floor in convulsions and died shortly afterwards.

DOUBLE TRAGEDY IN MISSISSIPPI.

Bidai, Miss., June 9.—Captain John Walker shot and killed his wife and himself here yesterday. Walker was an officer in the United States navy and was on his memorable trip to Japan and was a captain in the Confederate navy with command of the Mississippi and Louisiana coast fleet. The tragedy occurred during dispute between husband and wife.

KIDNAPPED NUN IS FOUND.

Father and Brother Captors of Woman Abducted at Duluth.

St. Paul, June 9.—Sister Borromeo-Emily Deigle—kidnapped from St. Clement's school in Duluth, is safe at her father's home, 659 East Seventh street, St. Paul. It develops that the kidnapers were her father, Edward Deigle, and her elder brother.

FATHER AND BROTHER ENTERED THE SCHOOL ROOM WHERE THE GIRL WAS KEPT.

The father and brother entered the school room where the girl was kept, seized her, and, despite her struggles, carried her to a carriage, where her mother was waiting. They hid the girl at the home of relatives in Duluth till 11:15 o'clock at night, when they took a train for St. Paul.

CALLERS AT WHITE HOUSE.

Chicago White Sox Pay Their Respects to the President.

Washington, June 9.—"Doc" White of the Chicago American league baseball team and the Hon. Shelby M. Cullom of the United States senate were visitors from Illinois at the White House yesterday.

PROPHET'S LIFE THREATENED.

Middle Haddam, Conn., June 9.—Horse Johnson has found that the business of being a prophet is not a bed of roses.

SUBMERGED 205 FEET.

Submarine Boat Octopus Remains Under Water Forty Minutes.

Boston, June 9.—The submarine Octopus, after being towed six miles north of Boston, today was submerged in a test. The Octopus was sunk to a depth of 205 feet, where she rested on the bottom, remaining forty minutes. When the Octopus was raised the government board made an inspection and found the boat in perfect condition.

GOOSEBONE PHILOSOPHER PREDICTED THERE WOULD BE NO SUMMER IN 1907.

Cincinnati, O., June 9.—A daughter of Edward Taylor of this city, while going through some dusty drawers, found an almanac printed in 1837. In scanning the leaves the first thing that caught her eye was the following significant prognostication by the goosebone philosopher: "There will be no summer in the year 1907."

KNOW IT SEVENTY YEARS AGO.

STOCK FOR MARQUETTE.

White Amusement Company Planning to Open House Here.

It can be stated on the best of authority that the White Amusement company, recently incorporated at Marquette with a capital stock of \$200,000, is endeavoring to secure a site in this city. The purpose of the company, as expressed in the articles, are to build, lease, operate and manage theaters. For several years Mr. White owned and operated the Menominee Bijou, present vaudeville. While the venture did not prove a failure the returns were small and Mr. White last season put in a stock company, giving standard plays. After the first week he played to the capacity of the house nightly. His idea is now to establish a stock circuit, to include five cities in the upper peninsula, probably Menominee, Escanaba, Marquette, Ishpeming and either Houghton or Hancock. He would shift the companies every two weeks thereby giving the theater-going public the opportunity to see new faces and a wider repertoire of plays. The house at Escanaba known as Ben's theater has been leased, and after June 22 will open with stock.

300 CANAL PASSAGES.

Sault Ste. Marie, Mich., June 9.—[Special.]—The upbound boats passing the canals the last twenty-four hours were the following: Madden, Watt, Black, 9:30 p. m.; Nesbott, Snyder, 10:30 p. m.; Weeks, Maritain, Maia, Harper, Glenellah, Millard, Prince, 11:50 p. m.; Amasa Stone, midnight; Rosemount, Hamilton, Harvard, Magna, 1 p. m.; Henry Rogers, 2:30; Frank Peavey, Oceania, London, 3; Perkins, 4:30; Sheald, William Brown, Miller, 4:30; Reed, 5; James Davidson, 6:40; Argo, George Owen, 7; Soguin, 7:30; Gratwick (small), 8:40; Aquinal, Cray-

ST. PETERSBURG, JUNE 9.—EMPEROR

Nicholas has approved the recommendation of the council of ministers in favor of granting a concession for the construction of a railroad from Kamsk, Siberia, to Behring straits and a tunnel under the straits.

100 TO 1.

Where one man gets rich through speculation a hundred acquire a competence through saving, another hundred "go broke" because of their rashness. If you will leave with us a dollar of two a week—more if you can spare it from ordinary expenses—at the end of ten years you will have had the benefit of 3 per cent annual interest, that compounded (half) yearly. It counts up.

NEW BAND TO BE FORMED.
Men From City and Light Guard Bands to Join It.

Twenty-five members of the Ishpeeming City and Ishpeeming Light Guard bands are to pull away from the present organizations and organize a new band, which will be instructed and managed by Frank Trombly, leader of the Trombly orchestra. Both of the leaders of the present bands are to be left out, so it will be a surprise if a second band is not organized. The men who have agreed to enter the new combination believe they have by far the best of the argument, as they say a majority of the best men are to pull away from the present bands.

One of the men who goes with the new organization said Saturday that the combination will doubtless give Marquette county the one band it has ever had, declaring that the men had all been picked because of their ability. He said that practically every man in the new band will be able to do solo work.

Will Dissolve July 4.
So far as is now known both the City and Light Guard bands will fill all engagements up to and including July 4. It is understood that the new band will begin business the fifth.

A movement is already under way for the purchase of uniforms. Both of the present bands have a fairly large sum in their treasuries. The members pulling out have agreed that their proportion of these funds shall be turned over to the new band to apply on the uniform fund. The name of the new band will not be decided for a few days. The new band will have a full list of officers, in addition to the instructor and manager, and it is understood that its affairs are to be conducted on a strictly business basis.

The band will be composed of the following:
George Delbridge, E-flat bass, from City band.
Richard Matthews, B. B. bass, City band.
William Heavysides, trombone, City band.
Charles Ramquist, trombone, Light Guard.
Henry Pascoe, first alto, City band.
A. Schott, solo alto, new man.
Gust Feltz, second alto, Light Guard.
Henry Carlew, second alto, City band.
Arnt Schoenberg, solo cornet, Light Guard.
Walter Vetala, solo cornet, Light Guard.
Peter Carlew, solo cornet, City.
Frank Moody, first cornet, City.
Melville Hendra, second cornet, City.
John Stephens, baritone, City.
Tom Thompson, Byron Landahl and Sidney Gooney, saxophones, all Light Guard.
Charles Neilander, Morris Neilander, Ed. Johnson and Frank Trombly, clarinets, Light Guard.
Henry Gritz, piccolo, Light Guard.
Thomas Kirby, bass drum, City.
A. F. Ludington, snare drum, Light Guard.

GRAND MASTER COMING.
Executive Officers of Michigan Odd Fellows Will Visit U. P.

Fred C. Rogers of Reading, Mich., grand master of the Michigan grand lodge of the Independent Order of Odd Fellows, will visit the lodges of this city, Marquette and Sault Ste. Marie the latter part of July. He will be accompanied by Harry McNeil, the grand herald. They will be in Ishpeeming July 23; Marquette July 24, and Sault Ste. Marie the 26th.

Mr. Rogers is a newspaper man, the editor and publisher of the Reading Herald, and he has been prominent in Odd Fellow circles for a number of years past. The Ishpeeming lodge has already taken steps to arrange a program for the meeting the evening Messrs Rogers and McNeil will be in the city. The degree team, which is one of the best in the upper peninsula, will conduct the initiatory degree, and there will be a banquet at the close of the session. Invitations to attend will be extended to the other lodges of the county, and it is expected that there will be large delegations present from Negaunee and the towns west of here.

At the regular meeting of Ahmeek lodge Friday evening the following officers were elected for the ensuing year:
Noble Grand—William Richards.
Vice Grand—William Kennaugh.
Secretary—Albert Rogers.
Treasurer—N. E. Skud.
Trustee, three years—Henry H. Milson.
Representatives to Grand Lodge—Wm. Dowrick, Jr., and Albert Rogers.
Alternatives—Thomas Herbert and W. T. Calk.

The installation will take place at the first meeting next month.
WAS THE ONLY FAN.
The Virginian of Friday said of an Ishpeeming man, prominent in baseball circles at the Mosbaw range town, the past two seasons: "Judging from the attendance at the baseball meeting called for last Sunday noon there is only one baseball fan in the city. John R. Kroghahl, secretary of the organization, was the only person present. Mr. Kroghahl called the meeting to order, elected himself solicitor and has made excellent progress the past few days towards securing funds to build the fence. Mr. Kroghahl is determined that Virginia shall be represented by a good first-class baseball team this summer and if hard work on his part counts for anything he will carry out his plans to a successful issue. It is rather discouraging, however, not to have more interest taken in a proposition that will furnish much amusement to the citizens and plenty of good wholesome advertising for the city." Since the meeting at which Mr. Kroghahl was the whole thing over \$600 has been raised at Virginia to pay for a new ball park.

KEESE ON PINE TREE.

Captain Frank E. Keese is an enthusiastic over the Pine Tree property as he is over the Vandewater. His report on the underground conditions at the property agree with those received from time to time from the superintendent. The captain inspected the properties thoroughly, as he visited them with a view to recommending betterments wherever necessary.

Speaking of the mine, Mr. Keese said: "It will, I believe, be a big mine, in time comparing very favorably with the best properties in Wisconsin. The shaft in the Pine Tree property is down seventy-five feet. The ore body is twenty-two feet thick in the shaft. Two levels are being opened. A cross-cut has been driven seventy feet from the shaft in one direction and twenty-eight feet in the other, both being in ore the entire distance. A drift 170 feet has been extended on the formation and is in ore all the way. The northwest drift, leading toward the Extension, was opened eighteen feet in the ore at the time I was in the mine. The ore in this opening is identical with the product of the Baxter, located near by.

"The Extension shaft is down sixty-three feet. On way struck at forty-one feet and they were still in it when sinking was discontinued, on account of the difficulty in handling the water. Another pump is now about ready for operation and the sinking will be resumed and continued until the bottom of the deposit is reached, which we expect will be about twenty-six feet thick. Drifting has been done from the water level, at fifty-three feet from surface, and the longest cross-cut opened is sixty-eight feet and it is still in ore of excellent quality.

"The distance between the two shafts is 1,700 feet. The ore body has been proved up with drills the entire distance. Besides we feel reasonably certain that ore extends beyond both shafts.

Rich in Lead.
"After examining the ore being taken from the several drifts and cross-cuts Mr. Grannis complimented us on our excellent showing saying that he had never during his many years' experience in the mining and milling business seen a disseminated ore so rich in lead. He said that with ore averaging from 20 to 40 per cent in mineral, as the Pine Tree ore will do, the company has an exceptionally fine proposition.

"Work on the Pine Tree mill will be under way within a few days, as Mr. Grannis has let some of his contracts for material, and informed us that some of the machinery is on the way and should arrive soon.

Vandewater Stock in Demand.
The favorable news being received from the Vandewater property has created a demand for the stock. On Friday a Milwaukee firm offered for 2,000 shares, and another Milwaukee party wanted 500 shares. On Saturday, \$2,250 was bid for the stock, but none came out. A chunk of the ore, weighing about 600 pounds, was sent to the Wisconsin mineral exhibit in Milwaukee last week. It is said to be the richest sample of lead and zinc ore, and there are samples in the collection from all the leading properties of Wisconsin, in the exhibit.

ISHPEMING IN BRIEF.
H. S. Thompson and wife came down from Beacon Saturday in their Franklin car.
The Ishpeeming students at the University of Michigan are expected home next Saturday.
The three-year-old daughter of Mrs. Louise Dana died Saturday. The funeral will be held this afternoon.
John Small left Friday evening for Muskegon, Mich., to attend the state session of the Catholic Order of Foresters.
Captain Arthur Buzo, who is conducting mining operations in the East, is home on a few days' visit to his family.
Isadore Joyce, of the firm of Lavton & Joyce, arrived in the city from Green Bay Saturday, and left again that evening.
A. B. Read, who is visiting in Marquette, spent Sunday at the city with his brother-in-law, R. P. Bronson, and family.

The third entertainment of the commencement exercises of the Ishpeeming High school will take place this evening at the Ishpeeming theater.
A meeting of the general arrangements committee in charge of the Fourth of July celebration will be held in the common council chamber at the city hall at 8 o'clock this afternoon.

The baseball team of the Ishpeeming Eagles won two games at Union Park yesterday. It defeated a Marquette nine by the score of 14 to 4, and took a car.

Thousands Have Kidney Trouble and Never Suspect It.
How To Find Out.
Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or set-thing indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge now expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When boxes of Swamp-Root are mentioned in this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

S.S.S. A CERTAIN SAFE TREATMENT

Even if mercury and potash could cure Contagious Blood Poison the condition in which these strong minerals leave the system would make the cure worse than the disease. But they cannot cure the vile disorder; they can only cover the symptoms for awhile or mask the disease in the system, but as soon as the treatment is left off the hideous symptoms return. Mercury and potash eat out the delicate lining of the stomach and bowels, produce chronic dyspepsia by drying up the gastric juices, cause the teeth to decay, and often completely break down the constitution, and where they are used in large quantities, the bones become affected, while the disease for which one has so long taken this destructive treatment has not been cured. Contagious Blood Poison is a disease it will not do to trifle with. It is a vile, dangerous and destructive disorder. When the blood becomes infected with its virus the mouth and throat ulcerate, hair and eyebrows come out, glands in the neck and groin swell, copper-colored spots appear on the flesh, and in severe cases sores break out on the body, the finger nails drop off and the sufferer is diseased from head to foot. S. S. S. is the only known antidote for Contagious Blood Poison—the one remedy that is able to get to the root of the disease and force out every particle of the poison so that there are never any signs of its return. It is purely vegetable, made entirely from roots, herbs and barks of known curative value. Instead of leaving bad after-effects as some medicines do, S. S. S. tones up every part of the system and puts every part of the body in perfect health. It will also remove any lingering effects of former mineral treatment while eradicating the poison from the circulation. Special book on the home treatment of this disease and any medical advice desired furnished free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA GA.

Negaunee club into camp to the tune of 7 to 1.
The meeting of the members of the parade committee for the Fourth of July celebration was postponed from Saturday afternoon until this evening at 8 o'clock. It will be held at the council chamber.
Mrs. Anna D. Moilanen returned to Calumet Saturday, after a week's visit with her son, A. J. Moilanen, and other relatives. Mr. Moilanen accompanied his mother home and will be in the copper country until tomorrow.

Reid Lewis of Michigan has been critically ill the past few days at the home of his brother-in-law, Captain Duncan Campbell, in this city. Mr. Lewis has been in very poor health ever since the death of his wife, three months ago.
The Cleveland-Cliffs Iron company will pay its Cliffs shafts and Salisbury employees Wednesday; the Hard Ore and Lake mine Thursday; the Negaunee, Vassar and Jackson employees Friday, and the men in the Swanzy district will be paid Saturday.

Messrs. C. C. Mitchell, F. Berg, A. G. Johnson, George Hathaway, Arthur Devine, and Albert Aas, the latter four of the Miners' National bank, went to Humboldt Saturday afternoon to fish for trout. Will Cole and five or six other young men went up at the same time.

The council at its meeting last Thursday evening granted the members of the police force an advance in salaries. Marshal Lehman was raised from \$85 to \$90 per month; Deputy Marshal Teverson from \$70 to \$75, the others being advanced from \$65 to \$70.
Mrs. C. D. Atwell, who was tendered a surprise Friday afternoon by the ladies of Grace church guild at the home of A. J. Vungluth, was the recipient of a beautiful gift. Mrs. Bert Ransdell making the presentation speech. Most of the members of the guild were present.

Mrs. F. Braastad and her daughter, Miss Lillian, left Saturday evening for Waukegan, Mass., where they will attend the graduating exercises at Waukegan college. Miss Flora Braastad is to be one of the graduates. Later Mrs. Braastad and Miss Lillian will accompany Flora to New York, from which point she will sail for Europe on an extended trip.

The members of Zenith lodge, Knights of Pythias, who attended services yesterday morning at the Presbyterian church, and who also decorated the graves of deceased members in the afternoon, made a striking appearance. Each member, including those of the uniform rank, wore a red carnation in the lapel of his coat. The Light Guard band was at the head of the procession. The members of the Scandinavian society also made a good appearance yesterday, they also having visited the cemetery.

FROM HOPKINS' CURB LETTER.
"New York stocks were strong today. The immunity of Union Pacific from possible government interference is the best tonic that has come to the market since the decline set in at Boston and the curbs are strong and today's advance in a number of the curb issues marks the turning of the tide and a gradual advancing market is confidently expected. Superior & Pittsburg rose to 15. The production of Calumet & Arizona Superior & Pittsburg for the month of May was 4,000,000 pounds. Shipments from Arizona Commercial aggregated almost 200 tons daily which will be considerably increased in the near future. Amalgamated is coming at the rate of \$29 per share per year on the basis of 23-cent copper. Butte Coalition in its annual report showed only \$200,000 surplus. It leaks out now that this company has retired a large amount of bonds."

WILL EXPERIMENT WITH SMALL PIPE

WATER BOARD URGES THAT PEOPLE OF CITY SAMPLE WATER DRAWN THROUGH IT.

NEW HOOK AND LADDER TRUCK

Will Cost \$1,800 and Will Be Equipped With Extension Ladders and Other Paraphernalia—Big Meters Going in.

The board of fire and water commissioners want to get as many opinions as possible on the quality of the water being drawn through the small pipe extending out 2,000 feet from the shore opposite the pumping station. To that end it urges that on days when crocodine can be tasted in the water forced through the mains people particularly interested in the question of water supply visit the station and make comparisons between the water drawn through the small pipe and through the regular intake. The small pipe extends to water of a depth of forty-four feet, and has an upright of twelve feet, so that the water is drawn that distance from the bottom. The regular intake extends to a depth of twenty-six feet. Some persons who have tasted water drawn through the small pipe have, on occasions, expressed the opinion that they tasted even more crocodine than in the water drawn through the regular intake. To arrive at some conclusion in regard to this matter the members of the board would like to have the water drawn through the small pipe tested by a large number of people. Water is being pumped through this pipe every day, and samples may be obtained at any time.

Superintendent Kern Saturday showed The Mining Journal a copy of the last report on city water, obtained from the laboratory of hygiene at the University of Michigan. It was exceptionally favorable as regards Marquette's water supply. Under date of May 27, 1907, it was asserted that the test of inoculating a guinea pig with the germ cultures developed from the water showed "no poisonous disease producing bacteria" and it was stated that "this water in its present condition is exceptionally good."

Saturday Superintendent Kern could not say when the board was likely to act definitely in regard to changing the conditions at the pumping station. Serious consideration is being given to the plan of pumping the tarry matter from the North Marquette furnace into the harbor or into the bay at some point below the harbor, and it is evident that the board wants to get further into conditions out from the present intake before it will seriously take up the question of an extension.

Orders Hook and Ladder Cart. The board has placed an order with the Seagrave company for a new hook

and ladder cart, the one in use now having been pretty well worn out. The new cart will cost \$1,800 and will be a fine piece of equipment. It will carry a sixty-foot extension ladder, which is much longer than any the department now has, also forty, twenty-four, eighteen and fourteen-foot ladders. There will also be a nine-foot ladder, which can be extended to eighteen, designed for use in the interior of buildings. In addition the truck will carry the usual outfit of pike poles, axes, wire cutters and other devices necessary in fighting fire. Superintendent Kern has installed large meters on the three South Shore docks, and the company is now being charged meter rates for its supply. This week he expects to meter the postoffice building. The meter rates are seven cents per 100 cubic feet for the first 7,000 cubic feet; five cents per 100 for the next 7,000, and four cents per hundred for all water used upwards of 14,000-cubic feet. Mr. Kern says that the installation of meters, as far as it has gone, has resulted in a considerable decrease of the amount of water that has had to be pumped. Lately the daily consumption has been running about 2,000,000 gallons daily, as against about 3,000,000 gallons a year ago.

NEGAUNEE WINS CHAMPIONSHIP.

Munising Is Defeated in Deciding Game 12 to 17 in Hard Fought Contest.

The Negaunee and Munising High school baseball teams settled the question of supremacy at the Queen city diamond Saturday afternoon. It was an ideal day for baseball and a fair sized crowd witnessed the game, which was warmly contested throughout. The game started at 2 o'clock with Negaunee in the field. For two innings excellent baseball was played. During the remainder of the game every player seemed to have his batting clothes on as the ball was swatted all over the field. The final score was 12 to 17 in favor of Negaunee. The game was marked by many errors. Sporley was on the firing line for Negaunee and Vandien was the "spit-ball" artist for Munising. The pitchers showed signs of exhaustion after the third inning and the batters fell on them unmercifully. Sporley had the best of the argument having nine strikeouts to his credit, to four for Vandien. Heinen, who held down right garden for the victors, played a magnificent game and was exceptionally reliable with the stick. Mitchell, first baseman for Negaunee made the longest hit of the day, driving one sky high over the center fielders' head, with the bases full. The hit was good for three bases. Olson played the star game for Munising, handling all the hot ones that came his way on second base.

Much interest had been manifested in the outcome of the game, as two weeks ago Negaunee was defeated by Munising by the score of 4 to 3 on the latter's grounds after eleven innings of gilt-edged ball. Last Saturday the teams met at Negaunee and Munising suffered a defeat, by the score of 14 to 11. The score by innings was: Negaunee.....015020013-12 Munising.....004532030-17 Batteries: Munising, Vandien and Erickson; Negaunee, Sporley and Sulder. Empire Clearance Brown.

Marquette Downs Baraga. Before a large and enthusiastic gathering of fans the Baraga baseball team suffered a decisive defeat at the hands

of the Marquette City team, yesterday afternoon by the score of 11 to 5. The game was far the most exciting of the season and stubbornly contested throughout, the visitors showing occasional flashes of speed. Baraga was the first to bat but drew a blank. The locals in their half succeeded in getting two men over the plate. Baraga found Scholtus after the first inning and, assisted by a few errors, five runs were chalked up for the visitors by the conclusion of the fifth. After the fifth the issue was never in doubt, Scholtus exhibiting excellent form and dazzling his opponents with a variety of shots and curves. Gaffney did the twirling for the Baraga team and showed very creditable form. Scholtus struck out eleven and Gaffney nine. The visitors scored eight hits off Scholtus, while the locals hits were wall up in the "teens." The score by innings follows: Baraga.....011120000-5 Marquette.....23002211-11 Batteries: LeFave and Scholtus for Marquette; Gaffney and La Court for Baraga. Umpire Uncle Joe Smith.

The Marquette team will cross bats with the Munising city team at the new fair grounds next Sunday afternoon. The following Sunday the locals will play a return game with Baraga at Baraga.

KILLS SEVEN WOLVES.

Tilden Township Farmer Places Poison in Deer Carcasses.

Ralph Thompson, a Tilden township farmer, brought the scalps of seven wolves to the county clerk's office Saturday and received in bounty \$189. All of the animals, which were full grown and exceptionally large timber wolves, were killed by poison. Thompson says that wolf tracks were so numerous, and the carcasses of deer slain by them as well, that he believed that there were many more in the locality. It was, however, almost impossible to shoot them and great care had to be exercised to kill them with poison. Bait prepared in the ordinary manner was not touched. He found that the best way to poison them was to place the poison in the carcass of a deer slain by wolves, as they were not so suspicious of meat which they had killed themselves. The wolves killed by Mr. Thompson were all fat and their coats soft and glossy, showing that they had experienced no trouble in securing plenty of food. Mr. Thompson said that the woods in the vicinity of his home were filled with the rotting carcasses of deer which the wolves had wantonly slain and could not devour. The heavy snow during the greater part of the winter made the deer easy prey.

You need a tonic that will put the sap of life into your system and fortify you from all diseases. Hollister's Rocky Mountain Tea is recognized as the greatest strengthener known. Tea or Tablets, 35 cents. The Stafford Drug Co.
