

President Is Heard in Notable Addresses

SPEAKING AT JAMESTOWN, FIRST AT THE GEORGIA DAY EXERCISES, AND LATER BEFORE THE EDITORIAL ASSOCIATION, HE DISCUSSES NATIONAL PROBLEMS.

HE ADVOCATES FEDERAL TAXATION OF INCOMES AND INHERITANCES, URGES THE EXTENSION OF THE POLICY OF CONSERVING THE NATURAL RESOURCES FOR BENEFIT OF WHOLE PEOPLE, COMMENDS CHILD'S LABOR AND EMPLOYERS' LIABILITY LEGISLATION, ENDORS INDUSTRIAL TRAINING, AND AGAIN DECLARES NAVY THE SUREST GUARANTY OF PEACE.

Norfolk, Va., June 10.—President Roosevelt today was for the second time the central figure of attraction at the Jamestown exposition...

The president arrived with his party, including Mrs. Roosevelt, on the Mayflower at 8:20 o'clock a. m. After reviewing the fleets assembled at Hampton Roads he landed at the exposition grounds and made a speech as part of the Georgia Day exercises in the forenoon...

Discusses National Issues. Speaking at the dedication of the Georgia building, the president said: "During the last quarter of a century this nation has made astounding strides in material progress, and in no other section has this progress been more noteworthy than in the South..."

"In the South, as everywhere through the Union, we need to see a good education given free to all children, no matter what may be their color..."

Nation's Most Valuable Asset. "The nation's most valuable asset is the children; for the children are the nation of the future..."

"The navy is our surest guaranty of peace, and if war should ever come it will be the greatest safeguard for our honor and our interest..."

Employers' Liability Law. "Last winter congress passed a safety-appliance law which marked a long stride in the right direction..."

San Francisco, June 10.—An important ruling by Judge Dunne in favor of the defense early this afternoon brought to a sudden and premature close the case of the prosecution against Mayor Schmitz for extortion...

STUYVESANT FISH CONDEMNED. Attacks Plan of Fixing Rates Based Upon Railroad Valuation.

New York, June 10.—No more railroads will be built in undeveloped parts of the United States except at the risk of and with the capital of existing lines...

HER COMPETENCY TO BE TESTED

"Next Friends" of Mary Baker Eddy, Who Ask an Accounting of Her Estate, Are Successful in Carrying Their Point.

Trustees Charge Plot, and Allegation Is Made That in Reality a New York Newspaper Is Pushing the Proceedings, Nevertheless It Is Ruled Question Must Be Determined Whether Christian Science Head Is Capable of Managing Her Own Affairs.

Concord, N. H., June 10.—The defendants in the suit brought by the "next friends" of Mrs. Mary Baker G. Eddy, head of the Christian Science denomination, asking for an accounting of Mrs. Eddy's property, were successful in carrying their point today when Judge Chamberlin announced that he would within a week appoint a master to conduct hearings and take testimony to determine whether Mrs. Eddy is competent to manage her own affairs...

Shortly after General Streeter, who represented both the trustees and Mrs. Eddy, had begun his address to the court, he announced that he would suspend the right to bring up the legal questions involved at this time, but would agree to an immediate settlement of the matter of Mrs. Eddy's competency, inasmuch as he understood that the court wished that phase of the case disposed of...

Feature of the proceedings was the declaration of General Streeter that the suit for an accounting of Mrs. Eddy's property was not brought by her son, George W. Glover, of Lead, S. D., and the others who are "next friends," but was instituted at the instigation of a New York newspaper which has been trying to discredit Mrs. Eddy and her religious teachings...

MINERS' DEFENSE IS MADE CLEAR

With Orchard on the Rack, Attorneys for Moyer, Haywood and Pettibone Lay Down Their Line of Action at Boise.

Attacking the Credibility of the Chief Witness for the State, and the General Probability of His Stories, They Repeatedly Inject the Suggestion of a Great Counter Conspiracy Designed and Carried on by Enemies of the Western Federation.

Boise, Idaho, June 10.—Into the further cross-examination of Harry Orchard, counsel for Wm. D. Haywood repeatedly threw the suggestion of a great counter conspiracy, formulated and carried on by enemies of the Western Federation of Miners, and indicated a determination to construct their main line of defense on that field...

Mine Owners' Conspiracy Alleged. Passing then to the dynamiting of the Independence station, the first crime with which the testimony of Orchard directly connects Haywood, Moyer and Pettibone, they endeavored to show that Orchard, in springing the mine, had purposely sought to spare the oncoming train and non-union men who were expected to entrain, and that the whole plot was engineered by agents of the mine owners and railway managers...

MARQUETTE BILL REACHES GOVERNOR

MR. GORDON'S MEASURE REGULATING SALOONS IN THE HANDS OF THE STATE EXECUTIVE.

Lansing, Mich., June 10.—[Special.]—Representative Gordon's Marquette saloon bill reached the governor's office late last week, and he has until Saturday to sign it. The governor is not here yet, but his secretary says that there have been a few letters received commending the plan, though no statement as to their authors is given out...

JAPANESE RAISING AN ENORMOUS FUND

FURTHER FACTS DEVELOP INDICATING A DETERMINATION OF SUBJECTS OF THE MIKADO RESIDING HERE TO EMBROIDER THE TWO NATIONS.

TO OVERTHROW PRESENT MINISTRY BECAUSE OF ITS MODERATE STAND, AND TO INFLAME A POPULAR FEELING HOSTILE TO AMERICA, IT IS LEARNED THAT LARGE SUMS OF MONEY ARE BEING COLLECTED BY THE ORIENTALS OF THE PACIFIC COAST TO CARRY OUT A COMPACT ENTERED INTO WITH THE ANTI-ADMINISTRATION PARTY AT HOME.

JAPANESE RAISING AN ENORMOUS FUND

Washington, June 10.—Many thousands of dollars are being raised by the Japanese on the Pacific coast to carry out the compact they have entered into with the Progressive party of Japan for the overthrow of the present ministry, the amendment of the exclusion clause in the immigration bill and the guarantee of the naturalization rights of Japanese subject residing in this country...

Seattle Envoys Issues a Denial. Seattle, Wash., June 10.—Charles T. Takahashi, vice president of the Oriental Trading company of this city, who went to Washington as the representative of the Japanese on the Pacific coast to confer with Ambassador Aoki on the proposed mutual exclusion treaty, says that there is no truth in the reports of an alleged conspiracy to overthrow the present administration in Japan...

DOUMA ADDS TO ITS LIFE

Bill Granting Amnesty to Political Offenders Is Shelled.

St. Petersburg, June 10.—The amnesty bill, the second great measure of parliament, was brought up in the duma today and shelved, a Constitutional Democratic motion to refer it to committee to decide on its legality being adopted, 369 to 165. The bill, which was presented by the Group of Toll, provides for pardoning, legislatively, all political crimes perpetrated by revolutionists, but specifically excluding crimes committed by reactionists...

FATALITY IN CANAL ZONE

Premature Explosion of Dynamite Kills Seven Workmen.

Panama, June 10.—A premature explosion of dynamite today at Pedro Miguel, on the line of the canal, resulted in the death of seven men and the injury of several others.

BADGER STUDENT WINS PRIZE

New Haven, Conn., June 10.—Darwin A. Leavitt, of Beloit, Wis., has been awarded the Hooker fellowship by the Yale divinity school. The prize amounts to \$1,200 and is awarded every two years to the money to be used for further study of theology in America, Europe and Palestine. Mr. Leavitt was graduated from Beloit college in 1904.

RECEIVER FOR OIL TRUST

Austin, Tex., June 10.—After hearing the arguments of the defense upon the application of the state for a receiver for the Waters-Pierce oil company in Texas and declining to listen to the arguments of the state, Judge Brooks announced today that he would appoint a receiver.

TRAIN BANDIT KILLED BY POSSE

Sheridan, Wyo., June 10.—While pursuing two horse thieves yesterday, Sheriff J. J. Guy and posse shot and killed one of the robbers that held up the Northern Pacific passenger train at Welsh Spur recently. The second man escaped, with the posse in pursuit.

PRESIDENT CABRERA STILL LIVES

Mexico, City, June 10.—It has been learned here that the report which came from Orizaba last night to the effect that President Cabrera had been assassinated is without foundation.

**DAILY MINING JOURNAL**  
 A MORNING PAPER PUBLISHED BY THE  
 MINING JOURNAL CO. (LIMITED.)  
 Issued daily except on Sundays. Contains  
 Associated Press dispatches and is especially  
 devoted to the Upper Peninsula interests.  
 SUBSCRIPTION RATES:  
 Per month, by carrier.....\$ .40  
 Per year, by mail.....\$ 4.00  
 MARQUETTE, MICH., JUNE 11.

Entered as mail matter of the second class  
 on the postoffice at Marquette, Mich.  
 There are to be less than two weeks  
 more of legislative sessions and they  
 are to be busy ones.

However, there is no immediate  
 prospect that Mr. Bryan will be called on  
 to serve even one term.

Eugene V. Debs urges that Haywood,  
 now on trial for murder, be made the  
 Socialist's candidate for president in  
 1908. Mr. Debs is evidently confident  
 that the jury will agree on a verdict of  
 acquittal.

The Mirror is evidently of the opinion  
 that Escanaba's municipal lighting plant  
 is a good deal of a lemon. And doubtless  
 a careful study of the financial matters  
 connected with the plant will bear  
 the Mirror out.

Gasman Addicks, late of Delaware, is  
 reported to have a contract for double-  
 tracking the Siberian railroad. Let us  
 hope that he has, or, if he hasn't, that  
 he will get something that will keep  
 him equally as far away from Delaware.

No, gentle reader, as far as we know  
 there is no time limit on the proposed  
 second series of small pipe experiments.  
 However, judging by the past, we don't  
 expect that they will be advanced to a  
 definite stage until it is too late to do  
 anything in the fall of 1908.

The new town of Birch was reported  
 on fire yesterday, but the reports were,  
 as is frequently the case with reports  
 of the kind, incorrect. The fire was in  
 the cutover lands, some distance from  
 the town proper. The winds are now  
 very dry, and the heavy rains promised  
 by the weather man are needed, for  
 under the present laws the forests fall  
 an easy prey to the fire fiend. And it is yet  
 to be seen whether the legislature will  
 change 'em.

Says the Escanaba Mirror:  
 Two Escanaba weekly newspapers  
 announce unblushingly that Escanaba's  
 municipal lighting plant in a period of  
 eight months cleaned up for the city  
 approximately \$8,000. Oh Lord! How  
 long? How long? But what's the use  
 of arguing?  
 It is true that the report prepared as  
 to the financial condition of the plant  
 for the first months' period shows that  
 the plant made \$7,500. In that period  
 the plant's indebtedness to the city was  
 decreased by less than \$2,000 and if  
 \$7,500 of clear velvet was raked in what  
 became of it?

The superintendent of the water works  
 reports that there has been a considerable  
 cutting down of consumption as a  
 result of the installation of meters.  
 Complaints at the meters and meter  
 rates are less frequent than they were.  
 Possibly consumers have found that  
 they do not increase the cost of the  
 water service. The large consumers are  
 now being metered. Some of them have  
 been among the most wasteful users of  
 water, and when they are all paying  
 for the water they actually consume the  
 showing for meters will doubtless be  
 even better than it has been to date.

Representative Sherman of New York  
 is chairman of the Republican congress-  
 sional committee and a political figure  
 of no mean importance, so when he says  
 that "New York is for Roosevelt, the  
 country is for him and it is my judgment  
 that he will be nominated and re-  
 elected" he will doubtless set the tongues  
 wagging again on the old "third term"  
 theme. Yet there will remain many  
 people who will continue to believe that  
 the president meant what he said the  
 night of election in 1904 when he ex-  
 pressly stated that the term he was  
 elected for would be his last.

Twenty-five members of the two present  
 Ishpeming bands have agreed to form  
 a new organization. It is asserted that  
 they comprise the best musicians in  
 both the old bands, and that they will  
 be capably directed in the new or-  
 ganization. Twenty-five members give  
 a pretty good sized band, and if the plans  
 announced at Ishpeming go through that  
 city should have perhaps the best band  
 it has ever boasted, and it has usually  
 had one or two organizations that have  
 reflected credit on it. It is no-

**BABY TORTURED BY ITCHING RASH**

Face and Feet Covered—Rest Broken and Would Cry Until Tired Out—"Cradle Cap" Added to Baby's Torture—Tries Cuticura Soap and Cuticura Ointment.

**IMMEDIATE RELIEF AND SPEEDY CURE**

"My baby was about nine months old when she had rash on her face and feet. Her feet seemed to irritate her most, especially at night. They would cause her to be broken of her rest, and sometimes she would cry until she was tired out. I had always used Cuticura Soap myself, and had heard of so many cures by the Cuticura Remedies that I thought I would give them a trial. The improvement was noticeable in a few hours, and before I had used one box of the Cuticura Ointment her feet were well and she was no longer troubled her since. I also used it to remove what is known as "cradle cap" from her head, and it worked like a charm as it cleansed and healed the scalp at the same time. Now I keep Cuticura Ointment on hand in case of any little rash or insect bites, as it takes out the inflammation at once. Perhaps this may be the means of helping other suffering babies. Mrs. Hattie Currier, Thomaston, Me., June 9, 1906."

**CUTICURA—THE SET, \$1.**

Consisting of Cuticura Soap Ointment and Pills.  
 A single set is often sufficient to cure the most torturing, disfiguring, itching, burning, and scaly humors, eczemas, rashes, and irritations, with loss of hair, from infancy to age, when all other remedies and even the best physicians fail. Guaranteed absolutely pure.  
 Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults consists of Cuticura Soap (25c) to Cleanse the Skin, Cuticura Ointment (25c) to Heal the Skin, and Cuticura Resolvent (50c), in the form of Chocolate Candy (25c), for the purpose of Purifying the Blood, sold throughout the world. Puter Drug & Chem. Corp., Sole Proprietors, Boston, Mass.  
 Mail Free. How to Cure Skin and Scalp.

It is interesting to reflect on what Mr. Roosevelt's record would have been had he acted on Mr. Bryan's theory, and refused to have been a candidate for president in 1904. Everything he has done of greatest importance to the people has been accomplished in what is by general consent his second term. It is also interesting to reflect on what Mr. Bryan's record would have been had he served one term either following 1896 or 1900, with the incubus of a Republican congress to struggle against. Once again Mr. Bryan seems to be rainbow chasing.

A Tilden township man claimed the bounty on seven wolves last week, getting nearly \$200. On first glance this appears like a large sum to pay for wolf bounties to one man. But those familiar with the circumstances in the case say that the money was well earned. The hides represented much tireless and ingenious pursuit of the animals. The present bounty is regarded as too small by most woodsmen familiar with the seriousness of the task of running a wolf to death, or killing it with poison. A half dozen pelts are a good showing for a whole winter's work, it is claimed, such is the skill of the beasts in avoiding danger. Some hunters get "easy money" out of wolf bounties, but they are men who happen to blunder on to the animals of their guard, and thus make a killing. The men who make a business of hunting wolves find themselves but indifferently rewarded for their pains.

In connection with the defeat of Representative Dust's bill for the ad valorem taxation of telephone, telegraph, and express companies, it has been stated, on what seems to be good authority, that the independent telephone companies were one of the biggest factors in knocking the bill out, and that they were much more active against it than the big Bell company. The independents feared that the change from the present system of taxation would increase their expenses and interfere with the expansion of their systems. The express companies are said to have been reconciled to the passage of the bill and to have admitted its justice. Certain it is that by the failure of the legislature to pass the measure the telephone, telegraph and express companies are to have another two years of ridiculously low taxation, compared with the taxation stood by the railroads and the general property of the state. It will be held up against this legislature that it didn't take some steps to compel the classes of companies mentioned to stand their fair burden of taxation.

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-copper glass jars 50 cents. Sold by The Stafford Drug Co.

**"INTERNATIONAL COURTESY."**

A year or two ago a young attaché of the British embassy at Washington got into trouble with a Berkshire constable while automobiling through the delectable hill country of Massachusetts and being brought before a justice of the peace whose sympathies were all with the village treasury was outrageously fined. The incident gave rise to a great deal of discussion, nearly all of it hostile to the constable and the judge who were believed to have made a business of stalking automobilists for the fines. Now comes the sequel. The Berkshire constable and justice having been properly sat upon and abused for their high-handed method of increasing village revenues, the whole diplomatic corps at Washington became imbued with the idea that they need pay no attention to local speed laws and have made life miserable for the inhabitants of the little town of Glen Echo, just across the Maryland line from the district of Columbia.

Finally the Glen Echo constable, in order to save the lives and property of his fellow townsmen, brought one of the supposedly immune diplomats to a halt with a gun in a way that was far from pleasing to that exalted individual and immediately official Washington rose in righteous indignation at this breach of international courtesy. But to the surprise of official Washington the country, which before sided with the young English secretary, is now siding with the constable and in a manner so vigorous that the righteous indignation is rapidly evaporating.

Possibly the diplomats are now beginning to understand that Americans are neither subservient to the socially and politically elect nor inclined to bully them, that we are neither for nor against automobilists, but are governed in each instance by a desire for fair play and consideration for the rights of others. International courtesy is a game that presupposes two players.

**Do You Open Your Mouth**

Like a young bird and gulp down whatever food or medicine may be offered you? Or do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?  
 Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes you have a perfect right to trust upon such knowledge. So he publishes, broadcast and on each bottle-wraper, what his medicines are made of and verifies under each. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.  
 For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nerve and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.  
 A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

## CALUMET HOSPITAL PROJECT.

Meeting Tonight for Final Plans of Bolman Memorial.

The businessmen's committee appointed by the executors of the Ernest Bolman estate to consider plans for the establishment of a public hospital at Calumet will meet tonight for the purpose of possibly framing final plans. The project had its inception in the will of Mr. Bolman, who left two lots as a site and \$20,000 as a building fund for a hospital. His executors decided that the \$20,000 was not sufficient to establish an institution as would honor to the memory of the Laurium philanthropist, or such a hospital as he would like to have erected. So they decided to consider his bequest as a nucleus of a larger fund and appeal to the public to increase it by subscription. To this end a meeting was held some months ago, and a committee of businessmen, professional men and clergymen was appointed to canvass the district with a view to ascertaining the public feeling that to secure pledges of funds. The results of this investigation will be made known tonight.

There is no public hospital in Calumet, except the St. Joseph's, which is a small institution, and one is sadly needed. The public will undoubtedly recognize this fact and take advantage of Mr. Bolman's generosity to the end that a hospital may be built at a cost to the public greatly reduced by the bequest.

## MICHIGAN COLLEGE OF MINES.

Summer Term Opened Yesterday—Columbia Men Here.

The summer term of the Michigan College of Mines opened yesterday. The new term will not, however, begin until tomorrow, when the freshmen start surveying, the second year men go into the college shops and the seniors go to Duluth Bay for the metallurgy work in the blast furnace and smelters. The second year men returned last week from their five weeks of work in the iron country.

J. A. Lewin of Portchester, N. Y., a student of the Columbia School of Mines, New York city, is in Hancock, doing mining work at the Quincy. He is entered as a regular employee and is getting his practical experience through hard work. Mr. Lewin says that this year Columbia is sending its mining pupils out in small squads. Some of them have gone as far south as the Cerro de Pavo mine in Peru, where John Case, formerly superintendent of the Dollar Bay smelters, is located. Another squad has gone to California, another to Colorado and still others to Colorado and Arizona and other mining districts. The students of Columbia can get their practical mining work where they choose.

The M. C. M. will be represented this year by a number of graduates and students in the Calumet district. Professor A. E. Seaman, of the faculty, is developing a property there, and he has taken several students with him, while others are engaged on other work. Among the M. C. M. men at Calumet are Alfred B. Taylor, "Randy" Randall, C. F. Bowen, E. T. Hancock, W. H. Gray, H. E. Jackman, Frank Eichberger and J. D. Warwick.

## A FEW SOCIAL DOINGS.

Michigan College of Mines Party—High School Affairs.

The students of the Michigan College of Mines conducted in their gymnasium last night the first formal party given under the auspices of the student body in that building. The preceding parties have taken place in the Houghton or Calumet armories and have engaged the attention of copper country society as a whole. Now they are to be practically confined to the students and alumni of the college, and necessarily so on account of the limitations of the building. Thus the glories of the former M. C. M. parties have passed, but the new order gives to the college a set social function of annual importance. That of last night was fully in keeping with its purpose to be the one large social affair of the year at the college. There was a Calumet & Hecla orchestra, a gloriously gowned assemblage of the young women of copper country society, and all the appointments to make the ball memorable.

Next Thursday night in Houghton the annual junior reception to the seniors of the High school will be given in the Citizens bank hall. It will be an important affair for young society.

The Calumet & Hecla band will give a promenade next Friday night, and Director Scott promises much new music, which will add interest to the affair. The promenades continue to be the most popular informal dances in the copper country.

The alumni of the Calumet High school met tonight to complete plans for the annual banquet to the seniors. There will be next week in Calumet a number of affairs pertaining to commencement week, including the annual junior reception.

## VARIOUS MUNICIPAL MATTERS.

Hancock Ravine Work—Red Jacket and Lake Linden Ordinances.

The Hancock council committee which was appointed last Thursday to repair the ravine and viaduct got busy, and by Sunday the bridge was again restored to traffic. This is as far as the movement toward filling the ravine and building a retaining wall has gone, but it is a step toward a conclusion, and at its meeting next Monday night the council will decide some way to bring the matter to adjustment. At this meeting also the special assessment for the payment west on Quincy street will be levied and the contractors will begin work the following day.

The Lake Linden council will meet next Thursday night to consider the revision of the village ordinance. There are many which are obsolete and others which are dead letters. All are to be freshened for the greater good of law and order.

Village Attorney Galbraith of Red Jacket has been instructed to frame an ordinance compelling property owners to keep alleys clear. Every block in Red Jacket is divided by an alley, and property owners have seemed to think that this was a garbage dump. The idea will be to remove it from their minds when the ordinance is passed. One provision will be to compel each property owner to keep garbage in a box or in his yard, to be emptied periodically. The ordinance will be a measure for the protection of public health and municipal cleanliness.

## IN THE CIRCUIT COURT.

The morning session of the Houghton county circuit court was confined yesterday to naturalizations, seven aliens being admitted to full citizenship.

## HOUGHTON COUNTY BOARD.

The board of supervisors will meet for the regular monthly session for June this morning at 10 o'clock in the Houghton. Aside from the proposal to erect a monument to the late John Stanton and the question of agricultural roads for the Otter Lake region, nothing regarding the probable business is given out.

## GAS COMPANY OPERATIONS.

The South Range Gas company, which is to provide illumination in the village of that name, began operations last week of laying its mains yesterday morning and expects to rush the work. It is feared there will be some difficulty in securing laborers, and this may be the means of holding the work back somewhat. The same company expects to put in a gas plant at Rockland, having received assurance of sufficient business to make the venture a paying one.

## CELEBRATING THE FOURTH.

A mass meeting will be held at Hancock tonight to take up the question of celebrating the Fourth of July. A similar meeting was held last night at Laurium. Red Jacket and South Range have already started on their preparations. Houghton and Lake Linden are the only towns which so far have not talked of celebrating.

## HOW'S THIS.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WALDEMAR KNAB & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system. Testimonials and free trial price, 75 cents per bottle. Sold by the Stafford Drug Co.

## WILL CURE CONSUMPTION.

A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." You never heard of any one using Foley's Honey and Tar and not being satisfied. The Stafford Drug Co.

## The Small Buyer of Paint

who takes care that the Dutch Boy trade mark, shown below, appears on every keg of white lead he buys, is perfectly protected; as perfectly as if he were a railroad official buying hundreds of tons, and with a corps of chemists at his back to see that no adulterant is palmed off on him.

## Southern Pure White Lead

and Pure Linseed Oil are absolutely necessary to good painting.

SEND FOR BOOK

"A Talk on Paint," gives valuable information on the subject. Sent free upon request. All lead packed in 50 lb. kegs.

NATIONAL LEAD COMPANY, 1510 State Street, Chicago, Ill.

For Sale by All Dealers.

## ONTONAGON NOTES.

Minnesota Concern Likely to Lease Idle Stave & Veneer Mill.

The Uniform Stave & Package company of Minneapolis has secured a thirty-day option on a five-year lease of the Ontonagon Stave & Veneer company's property, with the privilege of buying it at any time during that period for \$40,000. The terms of the lease are \$2,000 for the first year and \$2,400 for each year of the other four years, reports the Ontonagon Herald. The staves on hand, something like half a million, are to be taken by the Minneapolis concern at a price of \$6.50 per thousand for those outside. The plant has been idle for a year or more. It is equipped for making staves out of any kind of hardwood by a veneering process, but the company found that it could not market the product owing to the coöperation of concerns being virtually a trust. The Minneapolis company would have no trouble from this source, as it would make its own barrels.

H. E. Stubinsky, clerk of the Michigan mine at Rockland, expects to leave the latter part of this week for a visit to the Jamestown exposition and other points in the south. Mr. Stubinsky is a veteran of the Civil war and he is anticipating not a little enjoyment from reviewing the scenes of the troublesome times from 1861 to 1865, in which he was one of the fighters.

The Ontonagon school has been placed on the accredited list of the University of Michigan. This pleasing information was received by Superintendent Smith in a letter from President Agell of the university.

Mrs. Clarence A. Jones and son, Charles, have left for Portland, Ore., going by boat to Duluth. Mrs. Jones has spent the whole life in Calumet, being a daughter of the late Charles Dornbush, a pioneer settler.

Of the sixty-five pupils in the county who took the eighth grade state examination for entrance into the high school, only twenty-five passed. The Ontonagon board has decreed that no child enter the high school until it is shown that the necessary preparation has been made, taking this examination as the test. Those who failed to pass are naturally disappointed but if this rule is rigidly enforced the result will be a higher standard of the school work.

Rev. Ludovick C. York, pastor of the Ontonagon Methodist church in the early days, died a few days ago at his home in Detroit, aged ninety years. He was one of the oldest ministers of the Detroit conference, having been a member since 1886. He had been on the permanent list. He is survived by a wife to whom he was married sixty-two years ago and by two sons, Attorney R. D. York and Francis L. York, director of the conservatory of music, both of Detroit.

## ONLY ONE CASE TRIED.

May Term of the Ontonagon Circuit Court a Short One.

The May term of the Ontonagon county circuit court, in session last week, was an unusually brief one. As learned from the report of the original list was disposed of without a case coming to trial. Richard Waldemar pleaded guilty of assaulting a Mass City woman and was sentenced to ninety days in the county jail. He was charged with a more serious offense, but upon his signifying a willingness to plead guilty, a simple assault the other charge was withdrawn.

The twelve Michigan riot cases were continued until the next term, eleven of these for intimidation of laborers and fixtures for arrears have caused the delay. The contention of the defense was that the accused was due to contributory negligence. A verdict was returned to the plaintiff for \$1,500. The plaintiff was represented by W. A. Burnett of Hancock and the defense by A. F. Dees of Houghton.

Upon motion of the plaintiff's attor-

ney a new trial was granted in the personal injury case of Mrs. Maggie Retell against the Chicago, Milwaukee & St. Paul Railway company, conditional that the plaintiff make settlement of all taxable costs inside of forty-five days. These amount to \$108.30 in addition to the clerk's fees. At the last term of court the case was brought to an abrupt end by voluntary non-suit on the part of the plaintiff. Motion for a new trial in the personal damage case against the Adventure Consolidated Copper company was denied. The plaintiff was given until the first day of the next term of court to file bill of exceptions.

The Norton-Diamond Match-Hotelkiss litigation was settled out of court, as was the case of John M. Longyear and Frederick Ayer versus Paul Francis.

Joseph Laski of Greenland was the only one granted citizenship papers and the first in the county under the new law. The others were on hand at the opening of court for this purpose, but when the time for examination came they did not put in an appearance.

## WATER SYSTEM FOR ROCKLAND.

Definite steps have been taken toward the installation of a water system at Rockland, for fire protection and for domestic use. A large reservoir is to be constructed on the Michigan hill; water will be pumped into it from the large spring under the township building and mains are to be placed along the principal streets. Concerning this much needed improvement the Reporter says:

The water works is assuming definite proportions, and we will soon have a reservoir to come in the peninsula. The possession of the mammoth well of pure spring water, and the adjacent high bluff just east of the village facilitates matters and will allow of the system being established in a minimum length of time.

Engineer C. M. Haigt submitted to the board the results of his plans and surveys, and they have been accepted. In accordance therewith it has been definitely decided to construct a reservoir east of town, on the Michigan hill. This reservoir will be in the solid rock and lined with concrete. It will be circular in form, seventy-five feet across and ten feet deep. It will be covered and the water protected from contamination. A pipe will be laid to this from the hill in addition to a windmill to force the water to the reservoir. There is not enough money with which to complete the whole system this year, but the board will go as far as they can, but will fall back the main into the main street and hydrants on the cross sections of the street between the reservoir. The fall will be about 200 feet, which will give an immense pressure. The water will be available for private use as well as for fire purposes. It has been decided to do the work by day labor, and Peter Hebel has been engaged to superintend operations.

## COPPERDOM BREVITIES.

Mrs. T. L. Chadbourne of Houghton has returned after spending the winter in the South.

Mr. and Mrs. Philip Thomas of Duluth are guests at the home of Johnson Vivian, East Houghton.

Mr. and Mrs. Frank Goodale of Calumet expect to leave in a short time for an extended European tour.

William J. Webb of Duluth is a guest at the home of Mrs. Margaret Healy, Houghton. He came down to attend the Michigan College of Mines dance.

Sheriff Beck returned Saturday night from Iron Mountain, where he went to bring back a man wanted at Calumet for a statutory offense. He got the man.

Beginning with yesterday all dogs in Hancock that are not muzzled and carrying license tags, are to be shot by order of Chief Andrew. No excuses will go; a dog not in uniform must die.

Mrs. George Unsworth of Calumet is visiting her daughter, Miss Ethel, in Marquette. The young lady is to graduate next week from the Marquette Normal school.

John T. Dunn, J. J. Kaufman and Fred M. Larson of Calumet and Will O'Leary of Hancock are attending the Eagles state convention at Jackson this week. They expect to land the convention for Calumet next year.

The merchants of the western business district of Sheldon street, Houghton, are situated Saturday night a series of concerts by the Quintet band. The concerts will probably be given every Saturday night through the summer at a place central to their places of business.

It is not now expected that the opening of the Pantan & White store in Calumet can be held next Saturday, the originally announced date. Failure of glass and fixtures to arrive has caused the delay. The store will, however, open the following Saturday.

One of the most merry burglaries ever pulled off in the copper country was that of the theft of the moving picture machine from the Majestic theater at Laurium last week. The police are investigating the mystery, and in the meantime the house is closed.

General Frank R. Lyon of Calumet is in attendance this week at Saginaw as a delegate to the state commandery, Knights Templar. He will later attend the commencement exercises at Ann Arbor, where his daughter, Miss Ruth, will graduate. The latter will leave after graduation for an extended European tour.

R. F. Prince of Lake Linden, Adeland Lanotte of Hubbard, Will F. Schenk of Calumet, Joseph D. Coffey of Greenland, C. P. Waisen of Rockland and C. J. Keough and Daniel Holland of Hancock are in attendance this week at Muskegon on the annual state convention of the Catholic Order of Foresters.

At the state convention of the Independent Order of Foresters held in Detroit last week, Edwin Edwards of Calumet was elected sub-chief ranger and P. J. Verville of Hancock trustee. Marjude Trebilcock of Houghton was elected a state representative to the national convention to be held in Chicago this summer.

## A FORTUNATE TEXAN.

Mr. E. W. Goodloe, of 107 St. Louis St., Dallas, Tex., says: "In the past year I have become acquainted with Dr. King's New Life Pills, and no laxative I ever before tried so effectually disposes of malarial and biliousness." They don't grip nor gripe. 25c. at the Stafford Drug Co.

## MARKETS

NEW YORK STOCKS.

New York, June 10.—The usual result followed today in the stock market from the week's end recovery in prices. That is, some moderate outside demand was attracted. The moderate advances of the first hour were, however, yielded almost entirely under the weight of the profit taking sales. The subsequent lethargy of the market was attributed to the desire of operators to see the completion of the government report of the condition of the wheat crop before venturing on commitments. It was not until the appearance of this report that anything like animation was revived in the stock market. It gave prompt evidence then of relief from the apprehension caused by the reports of Saturday regarding the extreme deterioration of the Kansas crop, and by the gloomy prospects as given by private crop reports. The government's figures were accepted as a refutation of these alarming reports. The prices advanced to the highest of the day after the appearance of the report, in consonance with a sharp reaction in wheat.

The middle reaction in stocks was helped by the summary of the weekly bank statement of Saturday, especially Saturday's shipments were supposed not to be reflected in the statement, even with the large excess in the cash loss over the estimates. The condition of the national banks throughout the country on May 29 shows how sustained a demand there has been for credits, loans showing an expansion compared with March 22 of \$95,299,508, while the growth compared with June 18, of last year, amounts to the formidable total of \$424,233,613. The accretion to the cash reserves for the eleven months period amounts to \$40,285,544, of which \$35,371,597, has been added in the last sixty days. The proportion of the reserve to the deposits in the sixty-day interval has risen in consequence from 20.74 to 21.22 per cent.

The rally in stocks after the publication of the crop report was seized by the professional speculators for free profit-taking, and the prices ran off to the lowest of the day for many stocks and made the closing easy.

### City Brevities

Today's weather: Showers and possibly thunderstorms; stationary temperature.

Yesterday's temperatures: Seven a. m., 58 degrees; noon, 65; 7 p. m., 62. Maximum, 67 degrees; minimum, 58.

George M. Rivers, of Norway, is looking after business here.

Edward M. Nelson, of Manistique, passed yesterday in the city.

Martin Flannigan, of Grand Rapids, is the guest of Marquette friends.

Pete O'Meara has returned from the West. He worked at the Kimberly-Wilfley mines for a time.

Professor C. G. Hanson of North Park college (Illinois) will speak at the Swedish Mission hall this evening.

The funeral of the late Patrick Gorman will take place at 9 o'clock tomorrow morning from St. Peter's cathedral. Interment will be in Holy Cross cemetery.

The Skandia Aid society of Marquette has been invited by lodge No. 8, S. H. and E. F. of Negaunee, to its annual summer picnic, June 24. The invitation has been accepted.

Through an advertisement, Mrs. Burrows is trying to find a picture of her late husband, delivered to the wrong party several days ago. She places great value on the picture, and would be grateful for its return.

Bay Horse Is Found—The police force of Negaunee is holding a bay horse of about 900 pounds which wandered into the city from the direction of Marquette at a late hour Sunday night. The animal was wearing a harness and gave indications of having traveled some distance. Up to last evening its ownership had not been traced.

No Official Notification—Postmaster Mangum has received no official notification from Washington as yet relative to the report extensively circulated through the press that the price of stamped envelopes will be raised shortly.

Mr. Mangum says that if the raise is only four cents a thousand, as reported, it will not effect the small consumer in the least and will certainly entail no burden on the big firms.

Fire In Flag Shanty—The South Shore flag shanty at the Fourth street crossing caught fire yesterday afternoon at 3:20 o'clock from a spark from a passing engine and in a few moments was blazing fiercely. The department responded promptly but found it about the hottest little fire they had coped with in some time. The shingles and roof timbers burned rapidly and it took quite a little water and hard work to subdue them. About half the roof was destroyed.

Infield in Poor Condition—Baseball players believe that the Marquette County Agricultural society should take some steps to repair the diamond at the new fair grounds. Nothing has been done to it since it was platted several years ago and the infield is very rough, while the pitcher's box has been scraped out to a depth of several inches. Several wagonloads of dirt and the use of a roller would be necessary to put the grounds in really good condition. The outfield is in fairly good trim.

Big Crew Goes to Birch—A crew of eight men went to Birch on the Northern Lumber company at Birch arrived here Sunday night, and went out to the scene of their labors yesterday morning at 8:30 o'clock. The men, who were nearly all Americans, were big, strong, healthy looking fellows, and were brought from New York state. They will mostly be employed in peeling bark, a work which at this season of the year compels many companies to greatly increase the size of their crews.

M. H. Foard Has Giant Pipe—M. H. Foard has on display at his office what visitors believe to be the biggest pipe in the country. The pipe, which was sent Mr. Foard by a friend some little time ago, is six feet long and holds exactly a quarter of a pound of tobacco. It is of Indian manufacture and made out of cherry wood. The smoke comes through it sweet and cool, but it has the drawback that it requires two men to light it which renders it impracticable for ordinary use.

Heavy Rain on the Way—According to the Marquette weather observatory this locality can expect, within the next twenty-four hours, to be visited by a heavy rain interspersed with thunder and lightning. The storm is now drifting east from the Rocky mountains, covering a wide stretch of territory. Coming at this time it should prove a great boon to the farmers, by improving the pasturage. Observer Patrick says that the rain will be certain to be warm and with sunny weather following the grass should make great progress. There was a heavy downpour Sunday night in the Dakotas and Minnesota.

May Meet Once a Month—At the meeting of the park, cemetery and street commission this evening a resolution will be introduced providing that hereafter the commission shall meet but once a month. Secretary Cadarette said yesterday that holding weekly meetings entailed too much loss of time to the members of the commission and that there was rarely a full membership present. He believed, he said, that just as good results could be obtained by meeting once a month, as business would then be transacted with greater facility. In case of anything coming up that demanded immediate attention special meetings could be called.

Arrange for Special Train—The Institute Jacques Cartier of Escanaba will come to this city by special train Monday, June 24, to attend the St. Jean Baptiste day celebration. The special will reach here at 9:30 o'clock, in time for the members to participate in the morning parade, returning at 9 o'clock in the evening. It will be accompanied by a band. The Marquette committee on arrangements is not yet ready to give out the list of ladies that will be represented, but it is expected that nearly all the leading societies of the upper peninsula will send delegations. A mid-way plaisance will be a feature of the entertainment at the fair grounds.

Offers to Run Lambrakis—The challenge of Lambrakis D. Lambrakis, the Greek runner, to give any Marquette runner a handicap of one mile in five, in a long distance race, has brought a reply from Joseph L. Smith, who has an "unknown" he is anxious to match against the Greek in a fifteen-mile contest. Lambrakis to concede three miles. Mr. Smith's proposition is that the men run from Ishpeming to Marquette on the

Fourth of July. The Fourth of July committee on arrangements has signified its willingness to put up a loving cup on a gold medal for such an event. As both the men are amateurs a purse could not be offered.

### TRAVELING MEN IN STATE SESSION

J. E. BURTLESS AND GEORGE P. DE GROAT REPRESENTED MARQUETTE COUNCIL AT SAGINAW LAST WEEK.

J. E. Burtless and George P. DeGroat are home from Saginaw, where they represented Marquette council, U. C. T., at the annual meeting of the state grand council Friday and Saturday of last week. The sessions were also attended by C. M. Wheeler, last year grand sentinel in the roster of officials of the state organization, and who was this year elected to the office of grand page. As the officials progress one step each year, Mr. Wheeler will presently have the honor of being the head of the state organization.

The returning delegates say that the Saginaw meeting was a great and unqualified success, from whatever angle it is viewed. The business sessions were held Friday. The organization was shown to have a very healthy growth throughout the year. There are some eighteen subordinate councils in the state with a membership in the neighborhood of 1,700. The councils are all strong. In the national U. C. T. has a membership of about 40,000. It has a wide influence. There is a keen spirit of fellowship between its members, and the social work is among the most important features.

The big entertainment feature of the Saginaw meeting was a reception, dance and banquet Germania hall the evening of the 20th. The Marquette delegates say that the response of C. M. Wheeler to the toast, "The Man from the North," was the best response of the several given. Mr. Wheeler made much fun for the company. His remarks took all the stiffness out of the affair, and made it a very enjoyable one for the large company present. He was generally congratulated on his response. Saturday there were a number of ball games between teams representing the several councils. Kalamazoo and Grand Rapids had particularly good teams, the latter winning the state championship.

An interesting event that was not on the cards was an exhibition for the edification of the Saginaw people of how the game of billiards is played up this way. The Courier-Herald tells of it in this wise: "Doc" Braley, a well known Saginaw billiard player, was the initiate at a special session of the Lam council held last evening at M. V. Foley's billiard parlors. When he strolled in there he found Mark Brown and Ben Mercer rolling the balls. Presently Detroit, a Marquette member of the U. C. T., came in. Brown and Mercer quit playing, talked about going home and told Braley that Detroit wanted to have a little game. Braley bit at once and said he would accommodate him. Then the special session began. Brown and Mercer forgot they were going home and Braley played one rack while Detroit rolled up scores of 50, 75 and 100 balls without a break. Detroit, a prominent member of the U. C. T., is reputed to be the finest billiard player in Upper Michigan and that is how Doc Braley took the 30th degree."

Of Mr. Wheeler's remarks at the banquet, the Saginaw News said: "C. A. Wheeler, of Marquette, in a witty after dinner speech as had been heard here deplored the fact that the time limit prevented him doing justice to 'The Man from the North.' This tale of centuries of valorous deeds could not be told in ten minutes, in fact he couldn't even begin to tell all about himself in that limit. In the part of the north from which he came they breathed into their systems something of the vastness of Superior, and something of the depths of the forests, they were accustomed to battle with wolf and bear, to meet peril by field and flood, but aside from this his observation convinced him that the man from the north bore a radical resemblance to other men, who in fact were nearly as good. Each had his own idea of what constituted 'God's country,' and in all it summed up its location where the home was, where the wife and children were, and the only real difference between the man from the south is a stretch of land and water."

The next state meeting was given to Battle Creek. It will be held in June.

### EXHIBIT CARS COMING.

Will Reach Here from Ishpeming Friday Morning.

The Stanislaus county, Cal., exhibit cars will reach here Friday morning. The display of tropical, semi-tropical and temperate climate fruits and vegetables was all raised in Stanislaus county, Cal., and are the finest ever grown, and are wonderful when it is understood that way. It is sent out by the Modesto Board of Trade to induce immigration to that country. The museum is filled with the wonders of the deep. The principal attraction is a monster elephant shark, caught in Monterey bay, on the coast of California. This sea monster is so large that some people might think it impossible for it to be genuine, but if they will only give it a second thought, they will know that the Board of Trade would never send out anything only the genuine. They send this shark along with the exhibit so they can give the visitors \$1 worth for the fifteen cents charged for admission, which helps to keep out the element that crowds a free exhibit and gives the class of people it is wished to reach room and time to investigate. The Board of Trade has found out by experience that this way gives the best satisfaction.

Has your stomach gone out of business? If so you can reach the top-notch of physical and mental power by using Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. The Stafford Drug Co.

# Earning and Saving

The time to begin to save money is when you begin to earn it.

Lay by a part of every dollar you earn and you are fairly on the road to independence.

Money is necessary at every step in your journey through life.

You can't buy a home without it.

You can't go into business without it.

You can't be comfortable, if anything happens to stop your income without it.

When you begin to save put your money in this bank and receive 3 per cent interest. Deposits of one dollar and upwards will be taken and interest compounded semi-annually.

## Marquette National Bank.

Marquette, Michigan.

### PRESIDENT IS HEARD IN NOTABLE ADDRESSES

(Continued From Page One.)

...fort has been made through several agencies.

"In 1902 the reclamation service began to develop the larger opportunities of the western half of our country for irrigation. The work has been conducted with the clear and definite purpose of using the valuable water resources of the public land for the greatest good for the greatest number in the long run; in other words, for the purpose of putting upon the land permanent home makers who will use and develop it for themselves and for their children and children's children. There has been opposition, of course, to this work of the reclamation service; for we have been obliged to antagonize certain men whose interest it was to exhaust for their own temporary personal profit natural resources which ought to be developed through use, so as to be conserved for the permanent common advantage of the people as a whole. But there will be no half in the work of preserving the waters which head in the Rocky mountain region, nor as to make them of most use to the people as a whole; for the policy is essential to our national welfare.

**Problem of the Public Domain.**

"The public lands of the United States should be utilized in similar fashion. Our present public land laws were passed when there was a vast surplus of vacant public land. The chief desire was to secure settlements thereon, and comparatively slight attention was paid to exactly how the lands were disposed of in detail. In consequence, lax execution of the laws became the rule both in the land office and in the public mind. These forest reserves were established by the department of the interior, and the facts and the recommendations of the design of conserving the natural resources of every part of the public land by putting it to its best use. Congress has not yet acted upon these recommendations, except for the repeal of the iniquitous Ben-Land law. But the recommendations are so just and proper, so essential to our national welfare, that I believe they will surely ultimately be adopted.

**Mineral Fuels.**

"The mineral fuels of the eastern United States have already passed into the hands of large private owners, and those of the West are rapidly following. This should not be, for such mineral resources belong in a peculiar degree to the whole people. Under private control there is much waste from shortsighted methods of working, and the complete utilization is often sacrificed for a greater immediate profit. The mineral fuels under our present conditions are as essential to our prosperity as the forests will always be. The difference is that the supply is definitely limited, for coal does not grow and trees do.

**Conservation of Natural Resources.**

"In his address before the National Editorial association, the president gave voice to these utterances:

"I want to speak to you on two great movements in our public life which I feel must necessarily occupy no inconsiderable part of the time of our public men in the near future. One of these is the question of, in certain ways, reshaping our system of taxation so as to make it bear most heavily on those most capable of supporting the strain. The other is the question of utilizing the natural resources of the nation in the way that will be of most benefit to the nation as a whole.

"The conservation of our natural resources and their proper use constitute the fundamental problem which underlies almost every other problem of our national life. Unless we maintain an adequate material basis for our civilization, we can not maintain the institutions in which we live so great and so just a pride; and to waste and destroy our natural resources means to undermine this material basis. During the last five years efforts have been made in several new directions in the government service to get our people to look ahead, to exercise foresight, and to substitute a planned and orderly development of our resources in the place of a haphazard striving for immediate profit. The ef-

government and to lease the coal, oil, and gas rights under proper regulation. No such legislation was passed, but I still hope that we shall ultimately get it.

In addition to treating aright for the benefit of the whole people the forests and the mineral beds, we should similarly try to preserve for the benefit of all the people the great stretches of public domain, some three hundred million acres in all, which are unit for cultivation by present methods and valuable only for the range which they supply. This vast area is now open to the free grazing of cattle, sheep, horses and goats, without restriction or regulation. When population has increased, as is now the case, such utter lack of management means that the public domain is turned over to be skinned by men whose only concern is to get what they can out of it at the moment, without any regard to whether or not it is ruined so far as the next generation is concerned. In other words, the range is not so much used as wasted by those, and as an incident of conflict and bloodshed frequently arise between opposing users.

"Good judges estimate that our public range has now lost nearly half its value, yet the law is against the law, and as the law now stands it is well-nigh impossible to do anything to keep the value of the range. The only practical remedy is to give control of the range to the federal government. Such control would not only stop all conflict but would conserve the range for the most profitable use, as our experience with the national forests has fully proved. It would likewise secure to the West the great benefits of legitimate fencing without interfering in the slightest with the settlement of the country—on the contrary, while preserving the interests of the country. Hitherto, however, it has not proved possible to get any legislation to secure these ends. The destruction of the public range will continue until, as a nation, we insist upon the enactment of some such laws as those I have advocated.

"For several years we have been doing everything in our power to prevent fraud upon the public land. What can be done under the present laws is now being done through the joint action of the interior department and the department of justice. But fully to accomplish the prevention of fraud there is need of further legislation and especially of a sufficient appropriation to permit the department of the interior to examine certain classes of claims, and to prevent before they pass into private ownership. The appropriation asked for last winter, if granted, would have put an end to the squandering of the public domain, while it would have prevented any need of causing hardship to individual settlers by holding up their claims. However, the appropriation was not given us, and in consequence it is not possible to secure, as I would like to secure, the natural resources of the public land from fraud, waste and encroachment.

**Inland Waterways.**

"So much for what we are trying to do in utilizing our public lands for the public; in securing the use of the water, the forests, the coal, and the timber of the public. In all four movements my chief adviser, and the man first to suggest to me the courses which have actually proved so beneficial, was Gifford Pinchot, the chief of the National Forest service. Mr. Pinchot has suggested to me a movement supplementary to all of these movements; one which will itself lead the way in the general movement which he represents and with which he is actively identified, for the conservation of our natural resources. This was the appointment of the Inland Waterways commission.

"The inability of the railroads of the United States to meet the demands upon them has drawn public attention forcibly to the use of our waterways for transportation. But it is obvious that this is only one of their many uses, and that a planned and orderly development is impossible except by taking into account all the services they are capable of rendering. It was upon this ground that the Inland Waterways commission was recently appointed. Their duty is to propose a comprehensive plan for the improvement and utilization of those great waterways which are the great potential highways of the country. Their duty is also to consider the points of view of all users of streams, and to submit a general plan for the development and conservation of the vast natural resources of the waterways of the United States.

**Taxation of the Rich.**

"Now as to the matter of taxation. Most great civilized countries have an income tax and an inheritance tax. In my judgment both should be part of our system of federal taxation. I speak diffidently about the income tax because our scheme for an income tax was declared unconstitutional by the supreme court by a five to four vote; and in addition it is a difficult tax to administer in its practical workings, and great care would have to be exercised to see that it was not evaded by the very man whom it is most desirable to have taxed, for if so evaded it would do more harm than no tax at all, as the tax is desirable of all taxes in the tax which bears heavily upon the honest as compared with the dishonest man. Nevertheless, a graduated income tax of the proper type would be a desirable permanent feature of our federal taxation, and I still hope that one may be devised which the supreme court will declare constitutional.

"In my judgment, however, the inheritance tax is both a far better method of taxation, and far more important for the purpose of leveling the playing field of having the swollen fortunes of the country bear in proportion to their size a constantly increasing burden of taxation. These fortunes exist solely because of the protection given the owners by the public. The public has a class of care and anxiety to the public and it is eminently just that they should be forced to pay heavily for the protection given them. It is, of course, elementary that the nation has the absolute right to decide as to the terms upon which any

man shall receive a bequest or devise from another. We have repeatedly placed such laws on our own statute books, and they have repeatedly been declared constitutional by the courts.

**Examples Abroad.**

"I believe that the tax should contain the progressive principle. Whatever any individual receives, whether by gift, bequest, or devise, in life or in death, should secure a certain amount, which is reached, be increasingly burdened; and the rate of taxation should be increased in proportion to the remoteness of blood of the man receiving from the man giving or devising. The principle of this progressive taxation of inheritances has not only been authoritatively recognized by the legislation of congress, but it is now unequivocally adopted in the leading civilized nations of the world—in, for instance, Great Britain, France and Germany.

"Switzerland led off with the imposition of high progressive rates. Great Britain was the first of the great nations to follow suit, and within the last few years both France and Germany have adopted the principle. In Great Britain all estates worth five thousand dollars or less are practically exempt from death duties, while the increase is such that when an estate exceeds five millions of dollars in value and passes to a distant kinsman or stranger in blood the government receives nearly 18 per cent. In France, under the progressive system, so much of an inheritance as exceeds ten millions of dollars pays over 20 per cent to the state if it passes to a distant relative, and 5 per cent if it passes to a direct heir.

"In Germany very small inheritances are exempt, but the tax is so sharply progressive that an inheritance not an agricultural or forest lands which exceeds two hundred and fifty thousand dollars, if it goes to distant relatives, is 18 per cent. In the United States the national government has more than once imposed inheritance taxes in addition to those imposed by the states, and in the last instance about one-half of the states imposed a similar tax. The national government, making a combined maximum rate, in some cases as high as 25 per cent; and, as a matter of fact, several state adopted inheritance tax laws for the first time while the national law was still in force and unrepelled.

**Progressive Principle Commended.**

"The French law has one feature which is to be heartily commended. The progressive principle is so applied that each higher rate is imposed only on the excess above the amount subject to the next lower rate. This plan is peculiarly adapted to the working out of the theory of using the inheritance tax for the purpose of limiting the size of inheritable fortunes, since the progressive increase in the rates, according to this mode, may be carried to its logical conclusion in a maximum rate of nearly 100 per cent for the amount in excess of a certain sum, which would be satisfactory as to the rest of the inheritance; for each increase in rate would apply only to the amount above a certain maximum.

"I do not believe that any advantage comes either to the country as a whole or to the individual inheriting the money by requiring the transmission of their entirety of such enormous fortunes as have been accumulated in America. The tax could be made to bear more heavily upon persons residing out of the country than upon those residing within it. Such a heavy progressive tax is of course, in no shape or way a tax on thrift or industry, for thrift and industry have ceased to possess any measurable importance in the acquisition of the large fortunes of which we speak long before the tax would in any way seriously affect them.

"Such a tax would be one of the methods by which we should try to preserve a measurable equality of opportunity for the people of the generation growing to manhood. At Lincoln pointed out, there are some respects in which men are obviously not equal; but there is no reason why there should not be an equality of respect and of mutual respect, an equality of rights before the law, and at least an approximate equality in the conditions under which each man obtains the chance to show the stuff that is in him when compared with his fellows."

**FINNISH IMMIGRANT IN TROUBLE.**

Boston, June 10.—When John J. Lesti, who came from Finland, reached Boston, he made the mistake of presenting to the immigration officials a certificate of naturalization which had not been issued to him. The certificate was sent to him by a friend in Minnesota, he said, and he was in a hurry to get there because his son has been hurt in an accident. Hence he showed the immigration officials the certificate under the impression that it would help him to get across the land. Lesti pointed out that he did not need to show the certificate, as he had plenty of money and a ticket to Duluth. He was arrested on an indictment by the grand jury and given a hearing in the United States district court, where he was held in custody by Judge Dodge. The judge placed his case on file, and requested Assistant United States Attorney Lewis to communicate with the immigration officials about letting the man land.

**COLLEGE GIRLS ADOPT BABY.**

Des Moines, Ia., June 10.—Tiny Emily Haven of Des Moines has the proud distinction of having twelve mothers, college society girls at that. Just for a lark the girls visited the Iowa Children's home, fell in love with the tot and decided to adopt her. They intend to "mother" the child on the installment plan, each taking her for a certain length of time.

"The little girl is today getting acquainted with Edna and Amy Synnott, two of the dozen girls who have adopted her. She is to stay with them for six weeks, and then on around the circle. Emily's home during the first year she is decided by lot. Then in future years she will live in the same rotation.

For the sake of justice to the afflicted and for the good of humanity, it is my duty and duty to recommend Hollister's Rocky Mountain Tea. We owe our lives to the public. The tea is a class of care and anxiety to the public and it is eminently just that they should be forced to pay heavily for the protection given them. It is, of course, elementary that the nation has the absolute right to decide as to the terms upon which any

**LOST NEAR BARBADOS.**

Barbados, June 10.—Twenty-eight passengers, including twelve women and children, were drowned by the sinking of the French schooner La Jeunesse, from Cayenne for St. Lucia, Friday night. The captain and twenty-one men reached Barbados yesterday.

**GLEN ECHO LIFTS SPEED LIMIT.**

Washington Diplomats May Now Dash Through in Automobiles.

Washington, June 10.—Dukes, ambassadors and all members of the foreign embassies and legations may in the future test the speed limits with their various makes of automobiles upon the Conduit road untrammelled by fear of arrest by the Glen Echo authorities, providing they succeed in establishing their identity with Marshal Collins, who is still firm in the determination to uphold to the limit all the laws of Glen Echo which do not conflict with the revised statutes.

This was the statement made by Mayor Garret of Glen Echo, who accompanied by the marshal, returned from a two hours' conference in Baltimore with District Attorney John C. Rose, at which they discussed in detail the rights and privileges of diplomats and titled persons. Various phases of the incidents connected with the holdup of the Duke de Abruzzi, Baron Mayor des Planches, Mr. von Radowitz, second secretary of the German embassy, and William F. Mahoney, chauffeur of the Austrian ambassador, were presented by the Italian, German and Austrian ambassadors to the state department, were thrashed out between the district attorney and the Glen Echo officials. As a result Mr. Rose indicated a letter to the state department, the contents of which, beyond the fact that the marshal, Mayor Garret's side of the case, were not divulged.

**SMOOTH DEAL PLANNED.**

Special Interests' Game Blocked by Attorney General's Vigilance.

Lansing, June 10.—Attorney General Bird's vigilance and the timely delaying of the house bill repealing the change of venue law by Representative Campbell of Kent has brought to light one of the smoothest bits of special interest legislation of the present session. A harmless looking amendment attached by the senate judiciary committee was today discovered to have a vital bearing in the big \$6,000,000 damage suit against Senator Crosey which was responsible for the move.

It is a technicality, a judicial story dating back to the last session when the change of venue act was passed by the railway interests. It gave the right of change of venue simply on application to the court. It was quite as noticeable as the Baillee law. This year, with the state in issue with the railways in the courts when the bill to repeal the change of venue act came up the attorney general thought it no more than fair that the state have a little benefit from the law the railways were through with and attached an amendment providing the repeal should not affect cases at issue. This gave the state a chance to get the Michigan Central case and other similar railway suits out of Detroit.

The bill passed the house, as amended, but the railways had the judiciary committee of only a line make it effective only in suits where motions for a change had been filed. This effectively shuts out the Michigan Central case, which is at present in the right of change of venue as though the whole law was repealed in every detail.

When the bill came back to the house for concurrence Representative McCracken was not present. He was the author of the bill and Representative Campbell partly to have a chance to examine the bill and partly out of deference to McCracken had it tabled. Mr. Bird, thinking the bill had passed, applied to the governor to have it held up and found, much to his relief, that it was safe on the table. He has passed the word around and the bill will be changed before it is concurred in.

**UNIVERSITY OF MICHIGAN.**

Plans Announced for the Annual Commencement Exercises.

Ann Arbor, June 10.—Ira Remsen, LL. D., president of Johns Hopkins university, will deliver the commencement oration at Michigan's sixty-third commencement exercises, June 29. The program in general is as follows:

Music, prayer, commencement address, conferring of degrees, music, benediction. At 9 o'clock the graduating classes will assemble at their respective buildings under direction of their class presidents. The procession to University hall will be under direction of Major Harrison Soule, treasurer of the university.

Commencement week will be formally opened by class day exercises in three of the departments. The exercises of the laws will be held in University hall June 17. Address by class president, Roy Le Beck; history, Claude Fogie, A. B.; poem, Lloyd Gates; prophecy, Merriek H. Edwards; oration, Hugo Sonnen-schien; presentation of memorial, Floyd A. Deak; acceptance on behalf of department, Dean Hutchins; acceptance on behalf of university, Regent Barbour of Detroit; valedictory, H. T. Martin, A. B.

Class day exercises of the literary department will be held under Tappan oak June 18, at 10 o'clock. Address by class president, Robert H. Clancy; class history, Sadie M. Stuart; poem, Ruth Rizer; prophecy, Hazel G. Hill; oration, John J. Danhoff.

# How Much Do You Spend Every Year For Cigars?

You buy a lot of cigars in a year's time, don't you? How many of them are good and how many are bad? If it's too much trouble to figure that out, at least you can estimate how much you'd save and how much more enjoyment you'd get if you could be sure beforehand that every cigar you buy would be a good one.

We have solved your problem by stamping the "Triangle A" on the boxes of the best cigars made.

We know that by making this "Triangle A" mean "good cigars" to you (and we have to prove it with the cigars alone) we get your continued patronage.

Isn't it plain enough that we MUST produce cigars that prove our claims?

The American Cigar Company cannot jeopardize its interests by misrepresenting qualities and leading the public to expect better quality than is actually in the cigars themselves. The "Triangle A" really means better cigars for you—and you'll find the proof worth seeking.

For convincing proof of the better quality for which the "Triangle A" stands try

**The New CREMO**

**SPOT IS AN IDEAL ONE.**

F. M. Moore Believes in "Lucky" Baldwin's Great Racing Project.

While a delegate to the Shrimers' convention at Los Angeles last month Francis M. Moore paid a visit to the ranch of E. J. (Lucky) Baldwin and was the guest of the famous horseman for an afternoon. Mr. Moore says that the property, which is only twenty miles from Los Angeles, is one of the most magnificent that he ever saw and an ideal spot for the owner to realize the ambition of his life by reviving the American derby. Plans have been drawn and the preliminary work begun for the building of the finest race track in the world. In the laying out of this track several ideas of Baldwin's will be executed, and it is believed that they will do away with some of the disadvantages attendant upon a start. At nearly all of the race tracks in the country it is necessary to start the horses over the four furlong course to the back turn and this has been the cause of many cut-offs. "AV" the Baldwin track this will be done away with, as the track will be a mile and an eighth. The start will be from the head of the stretch and the distance from there to the finish is exactly four furlongs. Thus the race will be run over the straightaway track.

**PENSIONS LOST TO MANY.**

All Veterans Who Did Not Serve Full Ninety Days Are Debarred.

Washington, June 10.—The survivors of twenty union regiments in the Civil War are being deprived not only of their right to draw increased pensions under the service pension law, but also of the continued enjoyment of pensions awarded them under previous laws. This state of affairs has arisen out of a decision rendered by Assistant Secretary of the Interior Wilson. The decision is to the effect that, in order to be entitled to a pension under any law men must have had at least ninety days' actual service in the field.

The veterans affected include the survivors of twelve regiments of Ohio volunteers, who enlisted to serve three months at the beginning of the war; six regiments of United States volunteers composed of ex-Confederate prisoners, the Fifty-Sixth Illinois fusiliers, and the Nebraska regiment known as the Omaha scouts.

**SOO CANAL PASSAGES.**

Sault Ste. Marie, Mich., June 10.—[Special.]—The upbound boats passing the canal the last twenty-four hours were the following: Olympia, 9 p. m.; Shaughnessy, McWilliams, 10:30; Kerr (small), 11; Edenborn, 11:50; Osborne, midnight; Hart, Smith, 12:30 a. m.; Angeline, Lynn Smith, 1:30; Hines, Law, Ashland, North Star, L. C. Smith, 2:20; Bransford, Saxonia, 3; Pabst, George Gould, 4:30; Queen City, 5:30; James Wallace, Peshtigo, 6:20; Morrill, 7; Westcott, 8; Sonora, 9; Christa, Monroze, Smith, 9:30; Covey, 10; Rhodes (small), Gilbert, 11; French, 11:20; Cornell, 11:40; Cambria, Mars, Magnetic, noon; Sylvania, 12:30 p. m.; Michigan, 1; Square, Sierra, 2:30; Barth, Marvin, 3:20; Wright, Samuel, Mather (big), Manola, Fryer, 5:20; Bessemer, Nelson, Towner, 5:40; James, Hoyt, Samuel Mitchell, Chickamauga, George Stout, oil barge, 6:40; Eades and whaleback, 7:30; William Kerr, 8.

**STREET RAILWAY IMPROVEMENTS.**  
Management Advises Council That Extensive Work Is Contemplated.

In his letter to the council, asking for an extension of the street railway and lighting franchises, Manager W. J. McCorkingdale, of the Marquette County Gas & Electric company, submitted the following, which outlines in part the improvements contemplated.

"The undersigned, of the Marquette County Gas & Electric company, has plans developed for the making of extensive improvements in its street railway system. In fact, these plans practically contemplate a rebuilding of the entire system, so as to make the street railway system between this city and Negaunee an up-to-date one of the best character and with the best equipment. We also contemplate extensive improvements along other lines. These will require the expenditure of a large amount of money, which the company has arranged to borrow on its bonds, provided the franchise which we now hold in this city can be extended for a further period of fifteen years, or until July 11, 1936. Your honorable body will recognize that it is impossible for a public service corporation like this company to borrow large sums of money on short time, especially where the franchises under which it is working, are but of short duration. We, therefore, respectfully petition your honorable body for an extension of our present franchise for the period above stated. By granting this company this request, your honorable body will not only confer a favor on this company, but will enable us to make improvements which we trust will prove very beneficial to the inhabitants of this city. It will be observed that we do not ask any change in the terms of our franchise, but we ask only that the same may be extended so that we may get ourselves in the best possible condition to properly serve the needs of the inhabitants of Ishpeming and Negaunee."

The Negaunee council has been asked for an extension of the company's franchises in that city and it is expected that the committees of both councils to whom the requests were referred will report at the July meetings. Mr. McCorkingdale has advised The Mining Journal that steps will be taken for the improvements of both the street railway and lighting plants as soon as the extensions of the franchises are granted. Partial arrangements have already been made for the necessary material. It is understood that the street railway will practically be rebuilt and it is expected that the route will be partially changed in both cities.

**COMMENCEMENT EXERCISES.**  
Third Program in Series Attracted Large Audience to Theater Last Evening.

The members of the graduating class of the high school discussed the great characters of fiction at the third of the series of exercises at the Ishpeming theater last evening. There was a large audience present and the program, which was as follows, was much enjoyed:

Music, "The Golden Rod"  
Orchestra.  
Lady Macbeth.....Lillian Davis.  
Jean Val Jean.....Jean Val Jean.  
Agnes Carlson.....Agnes Carlson.  
Music, "The Fairy Revel"  
Girls' Glee Club.  
Iago.....Ida Juntilla.  
Becky Sharp.....Becky Sharp.  
Solo, "If I Were a Rover"  
Guy Voyer.  
Silas Marner.....Carrie Moore.  
Tito Melema.....John Harrington.  
Music, "Tom, Tom, the Piper's Son"  
Boys' Glee Club.  
Shylock.....Ida Metherell.  
Agnes Carlson gave the story of Jean Val Jean, taken from Victor Hugo's "Les Miserables." The object of the story is to teach that no matter how degraded a human being becomes, there is always a spark of divinity through which a man may be saved.  
Becky Sharp's character was portrayed by Fern Velzy in a dramatic way, and left the deepest impression with the audience that this heroine's life spent in the fashionable world was absolutely devoid of any worthy purpose.  
The story of Silas Marner's tragic life was told in an interesting manner by Carrie Moore. The trusting, confiding nature of a little child regenerated the hard-hearted miser.  
Lillian Davis' characterization of Lady Macbeth was that of a sympathetic womanly woman, not of a human monster. Iago's character, however, as analyzed by Ida Juntilla, seemed devoid of any good whatever.  
The story of Tito by John Harrington gave the picture of a fascinating youth who always took the line of least resistance; he represented passive wickedness.  
An oration on Shylock by Ida Metherell closed the program. Shylock was pictured as a "muck wronged Jew." He is typical of the persecuted Jew of the middle ages.

**CAUGHT IN THE ACT.**  
Juvenile Burglars Captured Friday Night by Officer Patrick Collins.

Two boys, both under sixteen years of age, were on Friday night caught burglarizing Peter Koski & Co.'s store corner Division and First street. Officer Patrick Collins was trying the front door of the store about 9 o'clock, when he noticed a spark in the rear near the office. It looked to him as though the spark came from a match and in this he was correct. He ran around to the back and the boys, who had heard the officer at the front door, were just about to make their escape through the rear door which they unfastened from the inside. The officer nabbed one of them, the other taking the stairs leading to the basement, where he hid, but was later found. Entrance to the place was effected through a basement window.  
The boys had taken about \$15 that was left in the cash drawer and they also filled their pockets with cigars, pipes, and other articles of no great value. They are to be given a hearing today or tomorrow by County Agent C. B. Bingham of Marquette.

**MONEY FOR THE FOURTH.**  
Over \$2,000 Has Been Pledged—Several Business Men Yet to Be Seen.

The general arrangement committee for the Fourth of July celebration met yesterday afternoon and decided on a partial list of the prizes to be given for parade features, street and water sports. The finance committee reported that something over \$2,000 has already been pledged and there are a number of business men yet to be seen. With this amount of money available the celebration can be made the best ever held in Ishpeming.

The big feature of the morning will be the parade, in which a great deal of interest is already manifested. There will be nearly \$1,000 spent for the parade alone. The prizes are to be much larger than ever before offered here. There will be about two dozen cash prizes in all. There will be four prizes for mercantile boats; three for mechanical boats; five for the calisthumpians; four for characters; three for the farmers' displays and two for decorated automobiles.

A large sum has been set aside for fireworks and parade equipment, such as suits for stage drivers; animal tractors and plumes for horses. Two men, H. G. O'Keefe and either Len Johnson, chairman of the parade committee, or John Lacey, chairman of the committee on sports, will go to Chicago before the fireworks and to purchase the firework and an extensive assortment of parade paraphernalia.

The appropriation for street sports is nearly 100 per cent larger than two years ago. A feature of the water sports will be the walking of poles extended over the water without falling into it. The water will be given liberal cash prizes. There will be from three to five poles at different places on the lake shore. A balloon ascension will be given during the afternoon. There will be all sorts of street sports, commencing at 1 o'clock, and continuing until supper time. A Cornish wrestling tournament will be a feature.

The committee on fireworks is to decide where the display will be set off. Some favor the bluff north of Lake Superior bluff, immediately south of Main street. Mr. O'Keefe was instructed to engage an expert to handle the fire works. Members of the fire department, who gave valuable assistance in that work two years ago, have again volunteered to aid. The firemen will also manage the street and water sports and they are to aid in preparing the calisthumpian features for the parade.

Invitations are to be extended to the members of Company I, Michigan National Guard, also the Uniformed Services of America, representing the Ishpeming district. Rev. E. V. Isaacson, pastor of the Swedish Lutheran church, will also attend the meeting, he having joined the members of the committee at St. Ignace, where he conducted the dedicatory services at a new church last Sunday. The convention opens tomorrow and will continue until the 20th.

**WILL BE MARRIED NEXT WEEK.**  
Miss Tekla Farm, formerly of this city, will be united in marriage a week from tomorrow, the 19th, to Bert B. McKinnie, the ceremony taking place at high noon at the Presbyterian church at South St. Marie. Mr. McKinnie was a member of the Schuman-Henck company during part of the time Miss Farm was prominent in the east. He quit the road some time ago and has since been located on a ranch, known as "Valley View," at Loup City, Neb., where he and his bride are to locate permanently.

**CLOSED FOR FEW DAYS.**  
Jacob Lawton left last evening for Green Bay, where Lawton & Joyce are preparing to open a moving picture theater. The Grand will remain closed for a few days, until the slight damage caused by the fire Saturday is repaired. Mr. Joyce, who returned to the city Saturday morning after an absence of a week, was compelled to return to his home in Milwaukee, having been seized with a severe attack of bronchitis.

**ISHPEMING IN BRIEF.**  
Arthur E. Bobb, landscape gardener of Boston, is in the city.  
Selden White is here from Chicago, visiting W. H. Johnston and family.  
Herman Jaedecke left Sunday night for the Mesaba range, to be absent two weeks.  
Jacob Mathey of Chicago, a former resident, visited P. J. Denn and family here Sunday.  
The Stanislaus County (Cal.) exhibit are in the city, to remain until Thursday morning.  
Miss Emily Williams has resigned as cashier at the A. W. Myers Mercantile company's store.  
Charles Cornish and wife, who spent last week in the city, have returned to their home in the copper country.  
C. F. Fairbank, general manager of the Republic Iron & Steel company's mines, was in the city yesterday.  
The board of review will convene this morning at the council chamber. The sessions will last two days and possibly longer.  
Timothy Hughes, wife and daughter, will leave today for Ireland and other European countries, on a two or three months tour.  
Miles M. Main, a senior in the dental department of the Michigan University, is here to spend the summer with his brother, Dr. S. G. Main.  
John Bopied and Miss Kate Mahoney, both of Champion, were married yesterday.

**AUGUSTINA SYNOD MEETING.**  
George Skogberg, left yesterday morning for New York City, where he will attend the forty-eighth annual convention of the Augustina synod of North America, representing the Ishpeming district. Rev. E. V. Isaacson, pastor of the Swedish Lutheran church, will also attend the meeting, he having joined Mr. Skogberg yesterday at St. Ignace, where he conducted the dedicatory services at a new church last Sunday. The convention opens tomorrow and will continue until the 20th.

**CARD OF THANKS.**  
We desire to publicly acknowledge our gratitude for favors extended by our friends and neighbors during the illness and after the death of our father, and to assure them that we appreciate the aid and sympathy so generously offered. We feel under lasting obligations to the members of the Swedish Home society; the 100 Men's club and the Oliver club, also to our late father's co-workers in the several departments of the Oliver company, for their kind consideration. We feel greatly indebted to friends for their floral offerings.

JENNIE KELGREN,  
OLGA KELGREN,  
MRS. FRANK ISAACSON.

**BIDS WANTED.**  
Sealed bids are hereby called for the erection of a two story solid brick building in Negaunee, Mich., the same to be in the hands of Christ Hansen, secretary Old Fellows building committee, on or before Tuesday, June 17, 1907, at 7:30 p. m.; all bids to be accompanied by certified check for \$100. Plans and specifications can be secured from the undersigned.

ROBERT G. JACKSON,  
Chairman Committee.  
Negaunee, Mich., June 4. (6-4-1w)

Free, for Catarrh, just to prove merit, a Trial size Box of Dr. Shoop's Catarrh Remedy. Let me send it now. It is a snow-white, creamy, healing, antiseptic balm. Containing such healing ingredients as Oil Eucalyptus, Thymol, Menthol, etc. It gives instant and lasting relief to Catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by The Stafford Drug Co.

MARQUETTE & SOUTHEASTERN RY.  
Sunday, June 9th, the summer schedule of the M. & S. E. RY. goes into effect. Sunday trains will leave Marquette for Prineeton and Munising at 8:45 a. m. and 6:20 p. m. For Negaunee and Ishpeming, 10:15 a. m., 3:55 p. m. and 8:20 p. m. For Birch and Big Bay, 8:50 a. m.  
Sunday trains will arrive from Prineeton and Munising 10:10 a. m. and 8:10 p. m. From Negaunee and Ishpeming, 8:35 a. m., 2:30 p. m., 6:10 p. m. From Birch and Big Bay, 7:20 p. m.  
Week day trains, No. 10 leaves Marquette for Munising and Prineeton 6:45 a. m.; No. 31 for Birch and Big Bay 8:50 a. m.; No. 1 for Negaunee and Ishpeming 9:00 a. m.; No. 4 for Munising and Prineeton 6:35 p. m. Week day trains arrive at Marquette, No. 1 from Prineeton and Munising 8:45 a. m.; No. 32 from Big Bay and Birch, 4:50 p. m.; No. 11 from Munising and Prineeton 6:30 p. m.  
—Sunday Excursion Rates—  
Negaunee or Ishpeming and return, .50 M. & S. E. RY. stations and return, .75 Munising RY. stations and return, 1.00  
Tickets on sale for No. 4 of Saturday; No. 6, 8 and 43 of Sunday, good to return Sunday or Monday.  
(6-4-tf)

**TIRED AND SICK YET MUST WORK**

"Man may work from sun to sun but woman's work is never done."

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirits are depressed, the head and back aches, there are dragging-down pains, nervousness, sleeplessness, and reluctance to go anywhere, these are only symptoms which unless heeded, are soon followed by the worst forms of Female Complaints.

**Lydia E. Pinkham's Vegetable Compound** keeps the feminine organism in a strong and healthy condition. It cures inflammation, ulceration, displacements, and organic troubles. In preparing for child-birth and to carry women safely through the Change of Life it is most efficient.

Mrs. Augustus Lyon, of East Earl, Pa., writes—Dear Mrs. Pinkham:—"For a long time I suffered from female troubles and had all kinds of aches and pains in the lower part of back and sides. I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me I feel like a new woman and I cannot praise your medicine too highly."

**Mrs. Pinkham's Invitation to Women**  
Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case. Her advice is free and always helpful.

MRS. AUG. LYON

**Pianos That Are Sold on Their Merits**

The best proof that the Pianos sold by the Cable Piano Co., are in every way good value is the large business that is being done both in the Upper Peninsula and the entire United States. We do not resort to "quick" advertising, such as "sales" where instruments are advertised to be almost given away; nor to guessing contests where people are made to believe they are getting a piano for \$50 to \$100 less than they ought to pay. Your common sense tells you that this is ridiculous.

We appeal to a man's good judgment, and as we have done in the past we will continue to give real value for the money invested, whether you buy one of our most artistic instruments or a medium priced one.

## Negaunee Department

### TWO OLD RESIDENTS DEAD.

Mrs. John Webb of the Jackson Died Unexpectedly Sunday Night.

Mrs. John Webb, a resident of Negaunee for more than a quarter of a century, living the greater part of the time at the Jackson location, died Sunday night. Mrs. Webb was down town Saturday evening and on Sunday felt as well as usual until twenty minutes before her demise. She was about sixty years of age, and is survived by her husband, four sons and four daughters. The sons are William, John, Edward and Albert; all are working on the Mesaba range, and it is expected that they will be here to attend the funeral. Edward has supervision of the steam shovel work for the Jones & Laughlin company at the Grant mine at Buel. The daughters are Mrs. William Bazzo, Mrs. Henry Dower and Mrs. E. Polkinghorn of this city and Mrs. F. Hibernig of Ishpeming.

Patrick Gannon, who had been a resident of Negaunee for thirty-eight or forty years past, died Saturday evening. He had been in poor health for several years and his death did not come unexpectedly, as he had been confined to his house. He was about eighty years of age and is survived by his wife and one son, Michael Gannon, of this city. The funeral was held yesterday morning from St. Paul's church.

### TO RETIRE FROM BUSINESS.

John Shea to Close Out His Dry Goods Stock Starting Saturday.

John Shea, one of Negaunee's oldest business men, has concluded to retire from the mercantile trade and Friday's issue of The Mining Journal will contain his advertisement, announcing plans for the sacrifice sale, which will begin Saturday morning. W. C. Grant of Saginaw, who is already in the city, will conduct the sale, and preparations for it are now being made. The store will be closed Friday, to admit of a complete re-arrangement of the stock, etc.

Mr. Shea has been in business in Negaunee for twenty-one years, and he said that his affairs are now in such shape that he feels that he can retire. His business block, in which his store is located, is one of the finest in the city, and the revenue from it will be quite an item, as it will rent at a good figure. He says that the prices of everything in the store will be reduced to such an extent that he is certain the sale will be the biggest kind of a success, and he expects to clean out the greater part of his stock within thirty to sixty days.

### WILL SECURE SPECIAL TRAIN.

The Negaunee French society has appointed a committee to work in conjunction with the Ishpeming society to secure a special train to be run to Marquette the morning of Midsummer Day, when a reunion of the upper peninsula societies is to be held in that city. A member of the committee said yesterday that one will be secured via the South Shore line and that it will probably depart from Ishpeming at 8:30, or perhaps a little later. It is expected that there will be a sufficient number of members of the society, together with their bands, to fill a train of several coaches in addition to others that will go down. The Negaunee society is to be accompanied by the Negaunee band and the City band will accompany the Ishpeming society.

### A CONTEMPTIBLE DEED.

Oliver Lacombe, who lives on East Cass street, purchased a double set of harness Saturday from Ed Gannon, on the West Iron street harness rack. Some time during the night entrance was forced into his barn and both harnesses were almost completely destroyed. The miscreant used a knife and cut the harnesses in such a way that Mr. Lacombe found them almost valueless. Entrance to the barn was effected through the main door, which was fastened by a bar on the inside. The door was loose, so that it was an easy matter to raise the bar.

### STREETS IN GOOD CONDITION.

Street Commissioner Willman and his crew of workmen are completing their work on the streets and alleys, which have now been gone over the second time since the snow started to disappear. On the first clean up it was impossible to collect all of the garbage and ashes on account of the snow and ice, and Mr. Willman said yesterday that there is still ice in some of the alleys. The principal streets of the city present a very good appearance.

### CONCRETE CROSSING.

The board of public works is to put in a concrete crossing at the intersection of Iron and Gold streets. One half of the crossing will be kept open while work is being done on the other half. Anton Hendrickson, who has the contract, has a big job at the corner of Iron and Gold streets laying a walk around the Upper Peninsula company's block, adjoining on Iron street.

### PLAYS GOLF AT 88 YEARS.

Though nearing his ninetieth year an English gentleman is still an active and proficient golfer, and he is considered the youngest old man in that country. The secret of his youthfulness lies in the fact that he has always taken good care of his health. Sickness makes people age very fast, and for the reason we want every person desirous of recovering their health again to commence taking Hostetter's Stomach Bitters. It will make the stomach and digestive organs strong and healthy, prevent the bowels from becoming constipated or the liver sluggish, and induce a good sleep. You are then on the right road to health. The Bitters has been proving for over 33 years that it can cure dyspepsia, indigestion, heartburn, sick headache, kidney troubles, female ills or malaria fever and ague. We guarantee it absolutely pure.

If you will make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure it in never disappoints. The Stafford Drug Co.

### FOUGHT BAD FIRE.

Blaze on Marquette Street Sunday Evening Threatened Much Damage.

The barn occupied by Albert Storey, the blacksmith, was completely destroyed by fire Sunday evening, and the paint shop adjoining, occupied by Edward Jory, was damaged. Both are on Marquette street, immediately north of the Consolidated company's coal sheds, and are owned by the Fassbender estate. It is thought that the fire started from a spark from a locomotive on the South Shore railway, nearby.

The fire was one of the worst the Negaunee department has had to fight in some months. Both buildings were old, the lumber was as dry as tinder and besides a strong wind was blowing. The roofs of two or three of the buildings nearby caught fire and for a time it was thought that the entire block might be destroyed. The firemen did excellent work. No insurance was carried on either structure.

### GOES WITH BIG INSTITUTION.

Brother of Archie Orr to Be Instructor at Conservatory of Music.

Bertrand Alan Orr, brother of Archie Orr of this city, who gave a concert in Negaunee a few months ago, has accepted the position of director of the voice department of the Cedar Rapids Conservatory of Music at Cedar Rapids, Ia. The position Mr. Orr is to accept at Sept. 1. Mr. Orr is a fine vocalist, and during the past few years he has developed much ability as a voice instructor. The Weekly Herald of La Porte, Ind., his home town, gives him great praise for his work as a director. For some time past he has been director of the Madrigal club, and he is credited with having developed a number of fine voices among its members. Mr. Orr has also been the director of the Orpheus Glee club of Michigan City, Ind.

The position Mr. Orr is to accept at the Cedar Rapids institution came to him unsolicited. The place was tendered him some two months ago, but it was only last week that he concluded to accept it. Emil Lieblich, the well-known Chicago pianist, is a member of the faculty, so that it is indeed an honor for the young La Porte man to be called to the school. Mr. Orr is to succeed Karl Buren Stein, and will have two instructors under him. Last year the conservatory had 104 students out of the Cedar Rapids, in addition to large classes of resident students.

### LOCAL LACONICS.

Samuel Collins, Jr., is here from Chicago, visiting relatives.

E. B. and J. F. Warne of Elm River, have been in the city the past two or three days.

J. C. Dougherty of Munising visited his son Fred, and daughter, Mary, in this city Sunday.

Martin Ryan and wife of Duluth came down to attend the funeral of his uncle, the late Patrick Gannon.

Captain J. H. Rough has returned from the Mesaba range, where he spent the first part of last week.

Dr. A. W. Hardie and family will leave tomorrow for Detroit and Ann Arbor, on a two weeks' visit to relatives and friends.

The board of review opened its private session yesterday. It will require the greater part of today to complete the examination of the tax roll.

Mrs. Anthony Rood, Mrs. Eliza Mitchell and Miss Lottie Rough went to Detroit yesterday to visit a few days with friends.

The South Shore has timber on the ground for the water tank to be erected between the station and the bridge. Construction work will be fairly advanced by the close of the week.

Mr. and Mrs. Nicholas Oswald, well-known residents of Little Lake, are in the city visiting Edward Piggott and family. Mrs. Oswald has been ill and is receiving treatment here.

Miss Maud Verran left Saturday night for Ironwood, where she will spend a week or so visiting the family of Captain W. J. Allen, formerly of this city. Mr. Allen's daughter, Miss Mabel, is to be married tomorrow to B. J. Uren, who was in business here for some time. Miss Verran is to be bridesmaid.

The two five men bowling teams, known as No. 1 and No. 2, which competed for the supper a few weeks ago, are to bowl a match tomorrow evening at Orr & Tompkins' alleys. The challenge was issued by No. 2 team, which lost the last match, and the wager is to be another supper. The White Sox and Wolves and the Indians and Ravens bowled last night.

### REMARKABLE RESCUE.

That truth is stranger than fiction, has once more been demonstrated in the little town of Fedora, Tenn., the residence of C. V. Pepper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed for coughs and colds. 50c and \$1, at the Stafford Drug Co's store. Trial bottle free.

## Mining News

### ADVENTURE.

Its Future Operations Under Consideration in the East.

Several suggestions as to future operations at the property of the Adventure Consolidated Copper company are under the consideration of the management. Superintendent Brady has advised the eastern management to abandon for the time being all underground work for the purpose of concentrating efforts on surface explorations. One of the company's directors is authority for the statement that this course will probably not be adopted. C. D. Hanchette, the Michigan director of the corporation, who has visited the property within the past two weeks, is of the opinion that drifting should be done from the lower levels of No. 3 shaft towards the west in an endeavor to catch the chute, if possible, from No. 2. This is considered the more advisable plan at the moment.

In the period from Jan. 1 to June 1 the company shipped to the mill 57,745 tons of rock, which yielded 72,553 pounds of mineral. The rock averaged 13.3 pounds of mineral per ton, which is a decrease of 1.3 pounds from the average of the last six months of 1906, and a falling off from the average of the first half of the year of six and one-half pounds. Since May 10 the contract between the Adventure and Winona has been in effect, whereby the latter company furnishes the former's mill sufficient rock to supply one stamp. Up to date, however, this has shown no profit to the Adventure. The company's financial standing is as follows:

Cash in bank	\$ 6,700
Copper and copper bills	75,000
Copper assets	81,700
Liabilities	17,000
May pay roll	12,000
Coal received	12,000
Coal ordered	7,700
Total	36,700
Surplus quick assets	45,000

There are unpaid assessments amounting to \$9,000, making a limit of resources of \$34,000. Surplus on hand at the moment more than balances all working expenses up to date. The retirement of C. E. Weston from the Adventure directorate was on account of the fact that he had sold his stock interest in the company to Mr. Meserve, who resigned some time ago from the board, also disposed of his Adventure shares.

### ONTONAGON MINES.

Increased Production Reported by Victoria and the Michigan.

Victoria established another high record last month. The output was ninety-five tons of mineral, an increase of thirteen tons over the April product. This places Victoria on a very satisfactory earning basis considering the small amount of rock which is being treated, and is largely due to there being no interruption at the mill and in being able to secure more help.

The enlarged cylinder for the stamp head has not been delivered. The contract called for its installation months ago, but it is still hung up in the foundry. After this change has been made there will be a material increase in the amount of rock stamped and it is figured that the product will average around 150 tons monthly.

Victoria rock is not as rich in copper as in some other mines, but the lodes are quite uniform, and under the economical method of operation it is enabled to bring in a very satisfactory profit. However, in spite of the good showing which is being made, the other lodes which traverse the property are to receive attention and it is very possible that something still better will be found.

The May product of the Michigan shows an increase of sixteen tons over the preceding month, being 166. Everything about the mine is in a satisfactory condition and was not for the fact that the company is paying for its stamp mill out of the earnings it would have a very substantial surplus at this time. Upon the completion of the mill this fall there will be an increase in the output, preparations for such a production having been underway for some little time, and from then on Michigan should have clear sailing.

Adventure produced seventy-nine tons of mineral last month, a decrease of twelve and one-half tons from the preceding month. This but adds to the discouraging situation and there are many persons around Greenland who are afraid that this means that the mine

## Tell Them You Know!

You may tell your friends, on our "say-so," that when they buy a package of the genuine Arbuckles' Ariosa Coffee they get the best of the coffee trade.

No coffee of equal quality can be sold in this town for the same price, whether it be sold out of a bag or a bin, or under some romantic trade-mark. You may tell them you know and that Arbuckle Brothers, the greatest coffee dealers in the world, will stand for it.

ARBUCKLE BROS., New York City.

will be closed very shortly so far as working the present formation. The Mass has started drilling on the Riddle farm and the results will be watched with a great deal of interest. The product of the mine last month was sufficient to leave a surplus of several thousand dollars after paying all expenses. Work will be pushed vigorously this summer and there will be a gradual increase in the output.—Ontonagon Herald.

### UTAH COPPER.

Within the next thirty days the actuating end of the Utah Copper company will be in a position to furnish power to the first concentrating unit of the big plant at Garfield, Utah, and then the company will start upon the treatment of the ore opened up during the past two years. The management has not been entirely losing its time, for the various tables and other parts of the plant have been primed for operation through the use of a small engine, and which will finally be used in the machine shop when the concentrator is completed. The company will get its second operating unit into action almost as rapidly as its first. It is expected that the first unit will have a capacity of 3,000 tons and that the second will have a capacity of equal size. More conservatively it is figured that the company will be able to treat about 1,500 tons per day at first, raising the tonnage gradually to 3,000 tons.

As to the time that it will take the Utah Copper company to accomplish the development it has planned for the immediate future—the handling of 7,000 tons of ore a day—the limit may be conservatively placed at one year. The capacity of the two units will be 3,000 tons a day when they are running to the full extent of their ability, which with the 1,000 mill now in operation in Bingham canyon will make the total. Time is the one uncomparable factor, in the case of this company. The ore body now opened up shows 25,000,000 tons of ore blocked out, while the explorations made by diamond drill and otherwise show that there is still about ten times that figure certain to be opened up. The means of treating it successfully has been ascertained in the experimental mill in the Bingham canyon, which at the present time is on a paying basis, its yielding money enough to pay for its present operations.

### AMALGAMATED.

Based on the same stock ownership in 1905 and 1906 the output of Amalgamated was substantially the same for both periods, says the Boston News Bureau. Since the beginning of the year 1907 the Amalgamated companies have fallen considerably behind the output of the same period in 1906. The so-called normal increase of 10 per cent in the annual copper output of the United States will receive in 1907 little or no help from the state of Montana, and is a very important factor in the general copper situation, when measured against the rapid strike, which have been made in consumption.

If Amalgamated received in 1906 for Number Three is a wonderful mascot for Geo. H. Parris, of Cedar Grove, Ill., according to a letter which read: "After suffering much with liver and kidney trouble, and becoming greatly discouraged by the failure to find relief, I tried Electric Bitters, and as a result I am a well man today. The first bottle relieved and three bottles completed the cure." Guaranteed best remedy for stomach, liver and kidney troubles, by The Stafford Drug Co. 50c.

### THE MAGIC NO. 3.

Number Three is a wonderful mascot for Geo. H. Parris, of Cedar Grove, Ill., according to a letter which read: "After suffering much with liver and kidney trouble, and becoming greatly discouraged by the failure to find relief, I tried Electric Bitters, and as a result I am a well man today. The first bottle relieved and three bottles completed the cure." Guaranteed best remedy for stomach, liver and kidney troubles, by The Stafford Drug Co. 50c.

### A LESSON IN HEALTH.

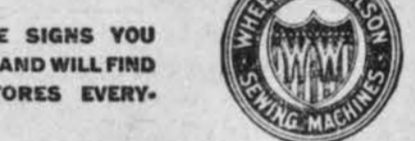

Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. The Stafford Drug Co.

## The Singer in Your Sewing Room

makes that corner of your home a place to take pride in. And comfort, too. Not only is the Singer the lightest-running, most noiseless and efficient of sewing machines, but you know its always going to stay so. No disassembly because of missing parts, this year or twenty years from now—there's a Singer store within your easy reach, and you know quite well there always will be!

Wheeler & Wilson Sewing Machines, for over fifty years the standard of the rotary-shuttle movement for making the lock-stitch, are now sold exclusively at Singer stores. When you buy a sewing machine keep in mind this one thing—it's for life. That is why you want to select your machine at a Singer store.

## COOK WITH GAS

It is an interesting fact that people who are compelled to give up the use of ordinary coffee can drink Barrington Hall without ill effects.

**Barrington Hall - The Steel-Cut Coffee**

**Steel-Cut**  
Is just pure coffee of high quality, prepared by our patented process, which cuts the coffee berry into fine, uniform particles and removes from it all chaff, dust and foreign matter. Barrington Hall, therefore, consists of only the best parts of the coffee berry; shown by the fact that the tannin-bearing skin (or chaff, dust, etc., which are removed by this process, when steeped alone, make an undrinkable decoction.

**Ground**  
From the small, even, refined particles of Barrington Hall it is possible to produce a cup free from the objection which eminent medical authorities agree comes from over-steeping the small particles in unevenly ground coffee, to say nothing of the tannin-bearing skin and dust left in coffee which has been ground in a coffee mill.

Another unanswerable reason why

**It Excels All Other Coffees in Flavor**

is because by the Steel-Cut process the little oil cells in the roasted coffee bean are not crushed as in grinding; thus the rich aromatic oil (food product) which makes coffee flavor, is conserved to a remarkable degree. This is one reason why 1 pound of Barrington Hall will make 15 to 20 cups more of pure, full-strength coffee than would the same coffee ground in a coffee mill.

The best test is in the using. We want everybody to try it.

Sold nearly everywhere, price 35c to 40c a pound, according to locality. If your grocer will not supply you, we will let us tell you where and how to get it. Address nearest office, giving your grocer's name.

### BUDGET IS CUT NEARLY \$6,000

PARK, CEMETERY AND STREET COMMISSION ASKS FOR \$27,600 AND GETS \$22,000.

### WAS THE MINORITY REPORT

Majority of Committee Favored Still Further Reduction—Mayor and Aldermen Will Take Part in Parade.

All the aldermen were present at the council meeting last evening with the exception of McCarthy. The most important matter was the report of the committee on finance and taxation to which had been referred the budget of the park, cemetery and street commission at the regular meeting Monday, June 3. Speculation ran high as to what would be done with it. Prior to presenting its budget the commission had eliminated a number of items and had cut its estimates to what it considered had rock. It did not, however, meet with the approval of the auditing committee which lifted another \$5,600 off of it. The budget called for an appropriation of \$27,600. The committee allowed it \$22,000. Of this \$18,500 was allowed for streets and \$3,500 for parks.

But at that the park, cemetery and street commission was fortunate in that it was the minority report of Alderman Aspre that was accepted. The majority report signed by Aldermen Williams and Peters made a further cut of \$1,000. A cut of \$500 in the police fund was also provided by the majority report. In making his report Alderman Aspre stated that he believed that the appropriation would fully meet the needs of the city while providing for the observance of strict economy in expenditures. The total, he said, was \$102,100 as against \$112,702 for the previous year, a reduction of ten per cent in the city's tax. The minority report was adopted by a vote of 8 to 3. It was as follows:

General fund.....\$12,000  
Police.....8,500  
Parks, cemeteries and streets.....22,000  
Schools.....40,000  
Estimated one mill tax.....6,800  
Library one mill tax.....6,800  
Fire and water hydrant rental and warden.....6,000  
Total.....\$102,100

A communication from the committee on arrangements for the Fourth of July celebration informing the mayor and alderman that carriages would be provided for them, and asking them to take part in the parade, was accepted.

The committee on claims and litigation reported that City Attorney Brown had been involved to the extent of \$150 in the trial of the case of Loughlin Johnson vs. the city, and its recom-

mendation that the bill be allowed was carried and the clerk instructed to draw an order for the amount.

### FIRE NEAR BIRCH.

Locomotive Started Blaze In Cutover Lands.

It was rumored here yesterday that the town of Birch was on fire, but the report was greatly exaggerated, and late in the afternoon it was reported from the town that the blaze was in the cutover lands near Camps 4 and 5, that there was no fire in Birch and that the village had not been threatened. A considerable area near the railroad track was burned over, but no damage to speak of was done. The woods have been very dry the past few days, and a heavy rain is needed. If it is delayed in coming there are likely to be serious fires.

### MAY BUILD NEW STRUCTURE.

Shop Destroyed by Fire Was Inadequate for Needs of Engine Works.

President H. H. Williams of the Lake Shore Engine works says that it has not yet been decided whether to rebuild the blacksmith shop destroyed by fire a few days ago, or to erect a more commodious building to the north of the burned structure. For over eighteen months, he says, the shop had been inadequate for the work done in it. The fire had in no way crippled the plant, and there would be no failure to meet orders on account of it. The blacksmithing is now being done on the site of the old building, the outer walls of which still stand, and the only thing that would inconvenience the employees would be rain. Mr. Williams said the work of the fire department is deserving of high praise, and he believes that it was solely due to its efficient efforts that the fire was prevented from spreading to the other buildings.

### MUST WEAR THE TIES.

Religious Belief Will Not Exempt Post Office Employees.

Marquette mail carriers, if they desire to go without their coats, must wear dark ties and neat belts with their shirtwaists. This has been determined officially by the post office department. A few days ago the postmaster general received a letter from a mail carrier calling attention to the fact that the postal regulations state that carriers when wearing shirtwaists must wear dark ties and concluding: "I desire very much to know whether the wearing of the tie is compulsory for a member of a religious sect that does not allow its members to wear ties at all. Does not the Constitution of the United States insure religious freedom to every legal citizen?" Postmaster General Meyer replying to the communication, said: "Under the postal regulation if a letter carrier wishes to wear a shirtwaist, he must also wear a turn down collar with a dark tie and a neat belt."

NOTICE.  
If you want dry hard and soft wood 16-inch slabs, call at or telephone to H. J. Keopp & Co., 615 Champion street. Bell Phone No. 78. (5-8-1f)

### DEMANDS LETTER TO DEAD WIFE

PECULIAR SITUATION, THE OUTCOME OF STRINGENT POSTAL REGULATIONS, REPORTED AT MARQUETTE POST-OFFICE.

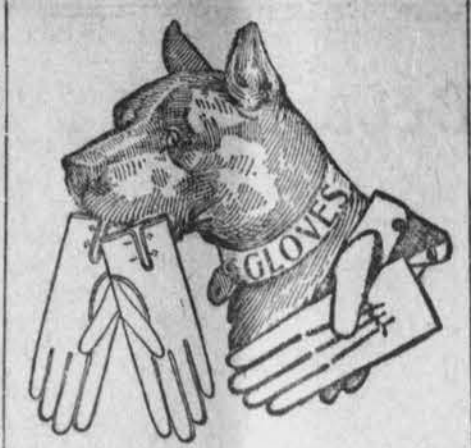

A queer case occurred at the postoffice yesterday morning, and it well illustrates the stringency of the United States postal laws. A man called on Postmaster Mangum to secure a registered letter sent from a European country to his deceased wife. He demanded the letter both as her husband and executor under her will. The postmaster requested proof and the man secured a copy of the will from the court house. It was then found that the executor had not qualified. This he refused to do, but insisted that if the letter was not immediately handed over to him he should institute legal proceedings to secure it. Mr. Mangum produced a copy of the postal regulations covering the matter and read them to him. They stated specifically that in cases of death registered mail could only be given to the duly qualified administrator or executor of the estate of the deceased.

The applicant then put forward another proposition. He said that it would cost him \$15 to qualify as executor of his wife's estate and he did not propose to expend that amount of money. The letter might contain money enough to more than compensate him for the expenditure, but he was not inclined to take the risk. He wanted the postmaster to open the letter and if he then considered it worth while he would qualify as executor and take possession. Mr. Mangum informed him that he had no more right to tamper with the letter than any other citizen. He would, however, refer the matter to Washington and act under the orders of the postoffice department. In speaking of the matter to a Mining Journal representative Mr. Mangum said:

"I haven't the slightest doubt of this man's identity, and I should like to see him get his letter, but I have no discretionary power whatever in the matter. The postal regulations are very specific in this case. Under them I cannot give mail to any save the duly appointed administrator or executor of the estate of the deceased. His wife's designation of himself as executor does not confirm him in the office, and until the will is admitted to probate I cannot give him the letter, unless under orders from the department at Washington. I shall send in a statement today and will probably be informed what to do within the week."

You need a tonic that will put the sap of life into your system and fortify you from all diseases. Hollier's Rocky Mountain Tea is recognized as the greatest strengthener known. Tea or Tablets, 35 cents. The Stafford Drug Co.

WE ARE  
The only people in Marquette county who manufacture practically everything needed for a building. Buy of the makers and keep your money at home. Consolidated Fuel & Lumber company. (4-27-1f)

PUT your hands in our Gloves, Mr. Man. They are not cheap Gloves in the shoddy sense, and yet they do not cost exorbitant prices.
