

YALE CONQUERS ON THE THAMES

Harvard's Husky Eight-Oared Crew Is Vanquished in the Annual Race at New London by a Scant Boat Length.

Never Once in the Four Miles Do the Shells Cease to Lap Each Other, Victory Coming in a Magnificent Spurt Close to the Finish Line—A Disagreeable Incident the Arrest of Magnate E. H. Harriman for Violating the Rules of the Course.

New London, Conn., June 27.—Before the largest crowd that ever witnessed a race on the Thames river, the Yale crew this evening, rowing an average of four strokes to the minute less than Harvard, held the big Cambridge eight even until the last half mile, and then let out its speed and won by a scant boat length.

Never once in the whole four miles did the long, graceful shells cease to lap each other. Yale's time for the four miles was 21 minutes and 13 seconds; Harvard's, 21 minutes and 13 seconds.

Harriman Gets Gay and Is Arrested.

The race was accompanied by one disagreeable incident. This was the arrest of E. H. Harriman, the railroad magnate, by Lieutenant Roscoe C. Bulmer, President Roosevelt's naval aide. Lieutenant Bulmer, who was in charge of the revenue cutters, had warned every boat owner not to follow the race.

The big "varsity" struggle had scarcely been started when Harriman, in a powerful motor boat, started to follow the race. Lieutenant Bulmer and Chairman Schweppé, who were aboard the regatta command boat "Arrow," repeatedly warned Harriman to stop his engine and get out of the course. Harriman not only paid no attention to them, but took a position right alongside the regatta boat and held it.

Off the navy yard, Lieutenant Bulmer signalled for a launch and tooted the revenue cutter whistle, which finally caused Harriman to look around. He was immediately arrested. The millions leveled his forehead at Chairman Schweppé and yelled "hooray."

"Young man, I will see you later," Schweppé's friends about the "Arrow" gave Harriman the gentle laugh.

Harriman saw no more of the race, but was detained as any ordinary prisoner aboard the Gresham until after the race was over, when Lieutenant Bulmer went aboard the Gresham and released Harriman, but ordered his boat tied up at the navy yard.

The incident may cost Harriman a fine of \$500. This was the penalty imposed for transgressing the rules governing the course.

Story of the Big Boat Race.

The race did not start until 7:10 o'clock. Both boats got away in good style, Harvard at once showing that she was determined to get the lead. Stroke Farley, of the Cambridge eight, started into the race rowing thirty-six to the minute. Yale started at thirty-three, but quickly dropped to thirty and then to twenty-nine. Harvard coasted up on her stroke just before she reached the first half mile flag, and passed this stake at thirty-three.

Harvard got a slight advantage at the start, but although Yale was rowing a lower stroke the Elis soon were on even terms with the crimson, and at the first half mile were leading Harvard by half a boat length. Then Yale settled down into her gear of twenty-eight, which she held up to the two and a half mile flag. Harvard raised her stroke to thirty-four and cut down Yale's lead.

The blue for a few strokes ran thirty up to thirty-one, and at this point held Harvard even. At the three mile stake the noses of the shells were zig-zagging and it was still either and neither's race. Yale had dropped to twenty-eight, while Harvard was still rowing thirty-four.

Just as the shells swept into the last half mile, Stroke Boulton of Yale let his first row spurt. Up went the stroke from twenty-nine to thirty and then to thirty-five. Boulton, at the end of the race, was striking the gait which Harvard had hit at the beginning. Harvard had made her spurt, and who could not make another. It was this final effort of Yale which won the race for her.

But Harvard was not easily whipped. Although the blue raised its stroke seven points, it only crept away from Harvard this last half mile by inches at a time, and the blue was not able to show clear water between the boats until the flag dropped. Yale's victory was won by a scant boat length.

The crews were made up as follows:

Harvard	Age	35	5.11
Stroke, Farley	20	15	5.11
No. 7, Richardson	20	182	6.01 1/2
No. 6, Glass	20	194	6.04

MANY SUITS ORDERED.

Efforts of the Defense to Show the Existence of the Alleged Conspiracy of the Mine Owners May Be Materially Limited.

Prosecution Objects to the Introduction of Evidence Relating to Various Isolated Instances and Certain General Conditions, None Connected With the Case as Now Established, and in Large Part the Judge Accepts the State's Contentions.

Boise, Idaho, June 27.—A ruling made today by Judge Wood while Edward Boyce, for years a leader of the Western Federation of Miners and now a wealthy mine owner of the Coeur d'Alene, was testifying in behalf of Wm. D. Haywood, who materially limit the showing of the defense as to the existence of the counter conspiracy against Haywood and his associates which it alleges.

Two Cent Fares Not for Wisconsin.

Madison, Wis., June 27.—The senate today, by the vote of 5 to 21, killed the two-cent railway fare bill. The senate also killed the bill providing that the names of the two leading candidates for United States senator at the primary election shall be placed on the party ballot at the general election, and in case there is no candidate with a majority the leading candidate at the general election shall be the candidate of his party at its legislative caucus. The bill had passed the assembly.

Reduction in Taxes Refused.

The assembly today non-concurred in the Wilcox bill, reducing the Wisconsin taxes of the Northwestern Mutual Life Insurance company of Milwaukee from \$310,000 annually to \$50,000. Immediately afterward it passed the Ingram bill, continuing the present system of taxing the company. The latter bill repeals an act passed two years ago providing for the taxation of the profits of the company from next year onward on an ad valorem basis and continues the present tax of 2 per cent on the gross income of the company, except that from rents on real estate and the premiums collected on policies held by non-residents of the state.

SUNDAY A WEEK DAY?

Saloon Keeper in Wisconsin Raises a Novel Question.

Seymour, Wis., June 27.—L. A. Stammer, a saloon keeper here, has raised a novel question in a saloon contest. Stammer was recently arrested for keeping open his saloon after 11 o'clock Sunday night. He will fight the case, claiming that the ordinance under which he was arrested reads, "Shall be closed each and all week days at 11 o'clock p. m." Stammer claims that Sunday is not a week day.

FINANCIAL AID FOR ALTON ROAD

ROCK ISLAND AND UNION PACIFIC TO LOAN \$1,600,000 TO PAY FOR NEW YORK.

New York, June 27.—Robert Mather, president of the Rock Island company, said today that the report the Rock Island and Union Pacific had made a loan to the Alton railroad was not wholly correct. He said that the report probably was based on the fact the Rock Island and Union Pacific had agreed to take notes of the Alton, if any were issued in the next two years, for an amount not exceeding \$1,600,000 to be used to pay for new work and improvements that could not properly be paid out of the earnings. Of this amount, Mr. Mather said, E. H. Harriman, for the Union Pacific, had agreed to take \$1,000,000, and the Rock Island \$600,000.

Explaining why the Union Pacific was still willing to lend money to the Alton, though the agreement for the joint control of that road had been abandoned, Mr. Mather said that the Union Pacific still owned a majority of the preferred stock of the Alton, and was receiving the major portion of the dividends, and that was sufficient reason why it should be willing to lend money to the road, even though it no longer had voice in its management.

FOUR MURDERERS DIE.

Electrocution in Ohio, a Triple Hanging in Missouri.

Columbus, O., Friday, June 28.—James Cornelius, wife murderer, of Canton, who was reprobated three times by Governor Harris was electrocuted at midnight. Cornelius killed his wife Sept. 17, 1906, by crushing her skull with a window weight. She had sued for divorce.

Jefferson City, Mo., June 27.—Harry Vaughan, Edward Raymond and George Ryan, convicts in the penitentiary, were hanged in the county jail this morning. Ryan killed Prison Guard John Clay during a concerted attempt to escape.

RULING OF COURT BAD FOR HAYWOOD

Efforts of the Defense to Show the Existence of the Alleged Conspiracy of the Mine Owners May Be Materially Limited.

Prosecution Objects to the Introduction of Evidence Relating to Various Isolated Instances and Certain General Conditions, None Connected With the Case as Now Established, and in Large Part the Judge Accepts the State's Contentions.

Boise, Idaho, June 27.—A ruling made today by Judge Wood while Edward Boyce, for years a leader of the Western Federation of Miners and now a wealthy mine owner of the Coeur d'Alene, was testifying in behalf of Wm. D. Haywood, who materially limit the showing of the defense as to the existence of the counter conspiracy against Haywood and his associates which it alleges.

Costly Blaze at Birmingham.

Birmingham, Ala., Friday, June 28.—Fire breaking out at Birmingham at a late hour last night resulted in the destruction of the saw mill of the Nester Estate at that place, and threatened similar disaster to much other property. The loss is roughly estimated at sixty thousand dollars, while by the burning of the big manufacturing plant it is said that some three hundred men have been thrown out of work.

BASEBALL STANDINGS OF THE CLUBS.

WEATHER FORECAST

Washington, June 27.—The following is the weather bureau's forecast for Friday: Fair and warmer; Friday: Saturday, partly cloudy; fresh southwest winds.

FIRE AT BARAGA

Big Saw Mill of the Nester Estate Is Destroyed and the Town, Itself, Threatened—Assistance Summoned from Houghton.

Fire breaking out at Baraga at a late hour last night resulted in the destruction of the saw mill of the Nester Estate at that place, and threatened similar disaster to much other property. The loss is roughly estimated at sixty thousand dollars, while by the burning of the big manufacturing plant it is said that some three hundred men have been thrown out of work.

PEACE COURT AT THE HAGUE

Great Powers Planning to Make Arbitration an Institution Which Will Gradually Bring About the Abolition of War.

The Hague, June 27.—It was given out today that at its first important sitting, the peace conference will deal with international arbitration, which many of the powers, chiefly the United States, desire to strengthen to such a point as to make it become an institution which gradually will lead to the abolition of war among the nations, as confidence in the justice of ordinary courts gradually led to the abolition of dueling among citizens.

WEATHER FORECAST

Washington, June 27.—The following is the weather bureau's forecast for Friday: Fair and warmer; Friday: Saturday, partly cloudy; fresh southwest winds.

EMBEZZLEMENT CHARGED.

President of a Defunct Minneapolis Concern Taken Into Custody.

Minneapolis, June 27.—J. U. Barnes, president of the defunct Minnesota Title Insurance & Trust company, was arrested today on a warrant sworn out by Assistant County Attorney Bernbaum. He is charged with embezzling \$13,000 of the funds of the company of which he was president. There is said to be a shortage of \$150,000 on the books of the company.

FEDERAL OFFICIALS POWERLESS.

Cannot Revoke the License of Chicago's Floating Pool Room.

Chicago, June 27.—Notification that the department of commerce and labor at Washington is powerless to revoke the license of the City of Chicago's floating pool room, was received by Mayor Busse this afternoon. The owners of the vessel abandoned the contemplated daily trips to a point off South Chicago after two efforts the latter part of May had resulted in the arrest of their patrons by the Chicago police.

JUDGE LOVING SCORES BIG POINT

COURT RULING DEALS HEAVY BLOW TO PROSECUTION IN VIRGINIA MURDER CASE.

Houston, Va., June 27.—In the Loving murder trial today Judge Parks made an opinion as to the admissibility of evidence by the prosecution tending to disprove the story told by Elizabeth Loving to her father of her ruin at the hands of Theodore Estes. The judge ruled that the character of the girl or the man who was killed was not an issue in the truth or falsity of her story and had no bearing on the case. The evidence was not admitted.

SEEKS SUPPORT OF POWERS.

Portuguese Pretender Willing to Take the Throne of Carlos.

London, Friday, June 28.—A despatch to the Express from Vienna says that Don Miguel de Braganza, the pretender, is willing to accept the Portuguese crown, and that his relatives are endeavoring to secure the support of European powers in his behalf.

PRIZE FIGHT POSTPONED.

San Francisco, June 27.—The Britton-Nelson fight, scheduled for July 3, has been postponed until July 3 because of the inability of Nelson to continue training owing to an abscess in the ear.

MAIL CARRIERS ON STRIKE AT BUTTE

SAY THEY CAN'T LIVE ON THE PRESENT SCALE OF WAGES PAID BY GOVERNMENT.

Butte, Mont., June 27.—All mail carriers in the city went out on a strike last night, the men declaring that they could not live on the present scale of wages paid by the government.

TELEGRAPHERS STRIKE LITTLE CHANGED.

San Francisco, June 27.—The telegraphers' strike, bears no change on the surface, although it is claimed by the strikers that the Western Union is fighting on the sixth day of the strike than on the evening the strike was called. Absolutely reliable reports, it is claimed, from the Postal office here, show that on June 26 less than 400 messages were sent eastward, as against an average of 2,200 per day, and 455 were received from the east, against an average of 5,000.

FEARFUL HURRICANE.

Devastates Islands in the South Seas and Kills Scores of Natives.

Sydney, N. S. W., June 27.—The steamer Germania, which arrived here today, reports a hurricane, accompanied by immense waves, which swept the Caroline group. Many islands were devastated, and it is estimated that at least two hundred natives have perished.

TRUST NOT YET REVIVED.

Milwaukee, June 27.—While several of the largest paper mill owners were in Milwaukee today, it was learned definitely that no meeting was held. The manufacturers who were here, it was stated, came to settle up some old matters in connection with the dissolution of the General Paper company. A former officer of the General Paper company stated that while an ownership organization had been talked about some time ago, matters were never shaped to bring about any results. The paper mills of Milwaukee, 2; Columbus, 6; Minneapolis, 3; Kansas City, 2; Toledo, 1; Louisville, 9; St. Paul, 1; Milwaukee, 10.

POLICE WATCHING FORMER RECTOR

Suspected of Having Murdered His Wife With Poison, Walter Swinburne Hancock Is Under Close Surveillance in London.

Was at One Time Assistant Pastor of the Fashionable St. James' Episcopal Church of Chicago—Son of the Deceased, Who Was the Widow of Paul Townsend Jones of New York, Charges Foul Plot to Secure Possession of Her Property.

London, June 27.—Walter Swinburne Hancock, formerly rector of a fashionable Episcopal church in Chicago, is under police surveillance here. He is suspected of having poisoned his wife, who was the widow of Paul Townsend Jones, of New York, allegations to that effect having been made in the Kensington coroner's court at an inquiry now being held.

Mrs. Hancock died on March 23 last, the cause of her demise being certified as appendicitis. Afterwards the body was exhumed on account of the suspicions of her son, who is a barrister. He testified at the inquest, intimating strongly that he thought that Hancock had poisoned his wife in order to obtain her property. Other witnesses testified that Mrs. Hancock had drawn a will giving everything to her son, but when she attempted to sign the document on her deathbed she collapsed.

The inquest was adjourned until July 11 for the purpose of having an analysis made of the contents of the stomach. Meanwhile, Hancock has been placed under police surveillance.

Suspended by Bishop Laren.

Chicago, June 27.—Walter Swinburne Hancock was, during 1896, assistant rector of St. James' Episcopal church, one of the leading churches of that denomination here, and was inhibited by Bishop McLaren, then in charge of the diocese, upon charges preferred by Rev. James S. Stone, then and still rector of St. James' church. Hancock came to Chicago from St. Johns, N. F., and investigations made there by Bishop McLaren showed him to have been a man of evil reputation.

The charges against Hancock here, said Dr. Stone, tonight, "were to the effect that he was given to consorting with low women. This was common public, but Bishop McLaren was convinced of his guilt. Being a British subject, Hancock could not be deported, and after his inhibition he dropped out of sight."

AVENGED BROTHER'S MURDER.

Yuma, June 27.—When John Moberly and Jake Meadows, two Yuma officers, shot and killed Julio Garcia, near Calexico, they ended the remarkable criminal career of one of the most desperate men ever to have operated in the west. Four times a murderer and at heart a thief, Garcia could have come to no other end than that which found him at the last. Beaten and starved, Garcia's American wife finally betrayed him, avenging the cruel murder of her half brother, and she now will ask her parents to become the young Spaniard's wife. He was then twice a murderer, and to her half brother, who accompanied the two to Garcia's home near Mecca.

Last summer Garcia stole some horses and Mecca and from ambush shot and killed the man he robbed. Telling his wife and brother-in-law they would all be killed if they remained at Mecca, he lured them into an Indian camp in Mexico not far from Yuma.

Here he decided that his brother-in-law knew enough to hang him, so he forced his wife to help tie her brother to a tree. Then he acceded her same treatment.

The brother, whose name was Allen, was allowed to starve to death, one of the most cruel murders in the annals of crime. The wife retained her torturous position several days while her brother starved, but to her Garcia gave food enough to keep life in them until they were killed if they remained at Mecca, he lured them into an Indian camp in Mexico not far from Yuma.

Garcia took his wife to a Mexican cattle camp and procured for her work as a cook for the outfit. A few days ago he stole four head of horses and decided to quit the country, planning to go by Ensenada. He told his wife he would build a torch on a certain hillside to signal her his safe escape.

Frustrated and heart broken the American girl decided to avenge her brother's death by her outlaw husband's betrayal. She contrived to get by Ensenada, and Meadows was surprised Garcia in his hiding place that night. Garcia tried the old game with his gun, but Moberly and Meadows were too quick for him, and Garcia repaid the harvest he so long had sown.

President Small, of the Telegraphers' union, said tonight that the union is in the situation well in hand, and added: "We are working along the same lines in the management of this strike as the printers did in their eight-hour day fight, and we intend to stay with it to the finish, just as the printers did."

N. Miller, Jr., assistant general superintendent of the Western Union, today declared that everything is satisfactory as far as the strike is concerned, and that there is not more than fifteen minutes delay in handling messages.

L. W. Storck, general superintendent of the Postal company, said: "The strike is slowly simmering out, as all other strikes do if they are left alone. We are not disturbed about it, and our former employes may secure work by applying for their positions whenever they see fit."

Copper Country

ISHPEMING THE WINNER.

Sanit Ste. Marie Loses the Pythian Cup by a Scant Margin.

The result of the cup contest between the Pythian drill teams was announced last night, in advance of the time expected. Ishpeming was the winner by a scant margin. The standings given the various teams follow:

Ishpeming	98.47
Sanit Ste. Marie	98.45
Houghton	98.05
Manistique	95.47
Hancock	95.49
Escanaba	94.01

The cup was formally presented, the Ishpeming team by Frank Charoff, and by Robert H. Shields of Houghton. It was received on behalf of the victors by John S. Olson.

WAILED OUT OF HER DEPTH.

Little Girl of Hancock Drowns in Waters of Portage Lake.

A little girl—Alicia Finley nine-year old daughter of Arthur Finley of Hancock—was drowned in Portage lake yesterday morning. Wading near the Osceola sands with a number of small playmates, she was suddenly plunged in to the water out of her depth. The other children were rescued. The body of the victim of the shocking accident was recovered in the afternoon.

TWO GRAND LODGE MEETINGS.

Temple of Honor at Trimountain—Rehabatics at Calumet.

The grand temple of the Temple of Honor and Temperance opened its annual session at Trimountain yesterday. For today the program contains nothing on public interest, but tomorrow all the temples in the copper country will gather at Trimountain for a reunion. The meeting is the state convention of the order.

CHERMAN EXAMINED.

Slayer of Rudolph Cerny in Court in Houghton Yesterday.

Albert Cherman, who shot and killed his nephew, Rudolph Cerny, in Houghton last Sunday night, was brought before Justice Brand yesterday for examination on a charge of murder. W. Kerr of Calumet, prosecuting attorney, appeared for the people and Joseph F. Hamblitzer of Houghton for the defense.

HOUGHTON COUNTY ELECTRIC LIGHT CO.

and the place of holding the next reunion will be chosen. The social session will conclude the reunion. The reunion has been a great success. There were more than the usual number of degree teams in the contest and more lodges were represented by visitors. The presence of Grand Chancellor Abbey and other grand lodge officers made the reunion particularly notable. It is believed, however, that the reunion high have been held within a shorter space of time, instead of spreading it over a whole week. The visitors were grateful to the Hancock lodge for the splendid entertainment afforded them, but at this time of year they could not afford the time. Hancock, however, set a pace for all future reunions. The excursions to Eagle Harbor and around the county were at the expense of the local lodge and every other feature of the reunion was free to visitors.

CHERMAN EXAMINED.

Slayer of Rudolph Cerny in Court in Houghton Yesterday.

Albert Cherman, who shot and killed his nephew, Rudolph Cerny, in Houghton last Sunday night, was brought before Justice Brand yesterday for examination on a charge of murder. W. Kerr of Calumet, prosecuting attorney, appeared for the people and Joseph F. Hamblitzer of Houghton for the defense.

COPPER COUNTRY BASEBALL.

Houghton Team Quit the Field at Winnipeg Wednesday.

John Sandheim, to all appearances the meekest little ball player who ever wore a cap, is working up a reputation as being the "rowdy" of the league. He recently paid a fine in the police court at Duluth for striking Empire Nolan. In the game at Winnipeg Wednesday he started something with Voss, a Winnipeg pitcher who was summing, and Voss hit him in the eye, Sandheim taking the field. Houghton lay down after that, playing out the game but in a burlesque fashion. Houghton lost this game, 0 to 12, and Calumet lost at Duluth, 2 to 4. Houghton and Calumet switched around again yesterday, Houghton coming over to Duluth and Calumet going back to Winnipeg. The teams will play there now until July 2, when they leave for home to remain from July 4 to July 18.

COPPER COUNTRY LEGISLATION.

A Resume of Legislative Acts of Interest to This District.

Legislation of interest to the copper country, enacted at the session just closed, included the bill granting Hancock authority to bond for \$50,000 to pay outstanding warrants; that permitting Houghton to bond for \$50,000 to build a sewer system in West Houghton and the granting Stannard township, Ontonagon county, to bond for the cost of a new town hall at Rockland. South Range was authorized to bond for \$19,000 to bond for a municipal electric light plant.

"STELL" BERGERON'S CAREER.

Houghton Boy Will Graduate From Ferris Business College.

Telephone "Stell" Bergeron of Houghton will be graduated this week from the commercial department of the Ferris Institute of Big Rapids. He has gained a business education under most trying circumstances and their narration should be interesting.

COOPER COUNTRY POSTOFFICES.

Salaries of Clerks Raised at Both Laurium and Calumet.

The postoffice department has announced increases in salaries in the Laurium and Calumet postoffices as follows: One clerk in Calumet from \$500 to \$900 per annum; one from \$700 to \$800, two from \$800 to \$900, and one from \$900 to \$1,000. In Laurium two clerks are raised from \$800 to \$900. The increase in salaries of clerks' salaries does not affect any of the other offices in the copper country, as far as this order is concerned. But previous orders raised the salary of every postmaster in the principal copper country towns except Calumet and Laurium.

JUDGE CAREY'S GOOD FORTUNE.

Former Copper Country Lawyer Holds Valuable Land.

Judge E. J. Carey, a former copper country attorney, now resident in California, and visiting in Houghton, has struck rich. The judge has not been troubled by poverty up to this time, but his present strike is a fortune in itself. He was in Justice Brand's court yesterday morning, and he called the attention of the Mining Journal to the following San Francisco dispatch, clipped from a Detroit paper:

TAX COMMISSION COMING.

State Board of Taxation Will Visit the Copper Country.

The state tax commission will visit the copper country next month, arriving in Houghton July 23. Robert H. Shields of Houghton, president of the board, arrived home yesterday from Lansing where he has been in attendance this week on a meeting of the commission. He said the business transacted was merely routine, and nothing of general interest was done. He also announced the coming visit of the board. The commission will spend a week in the peninsula, two days of this time in the iron and those in the copper country. The board will inspect railroads and mines and acquire such other information as may be valuable in determining the taxation of all property. The commission does not visit the copper country annually, its visit last year being the first in several years.

IN THE POLICE COURTS.

Poundmaster Wendel of Hancock has the protection of the law. He had arrested a woman who interfered with him when he was taking her cow to the corral, and Justice Olivier fined her \$25 and the costs.

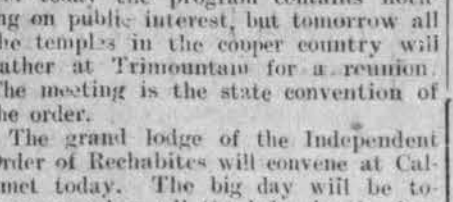

Jonas Johnson of Dollar Bay boarded with a widow in that place, Mrs. Mary Backman by name. He attacked the widow with a poker on Wednesday and injured her so that she could not appear against him in Justice Brand's court in Houghton Wednesday night. Her two daughters appeared, however, and their evidence cost Johnson \$25 and the costs, which he paid. He was afterward required to give bonds to keep the peace. It is believed he changed his boarding house.

Aside from the occasional drunks and disorders the copper country police courts have been unusually free of minor criminals recently. The approach of the Fourth of July, it is believed, is causing a saving of money and a consequent decrease in the indulgence in the stuff which causes crime.

porter, thing of the old story about Bill Chiblers. Bill was an Arkansas cracker—if that's what they are called in Arkansas—and he was known to the members of a new club in Little Rock. A corner grocery had been all the club that Bill ever knew. He happened into Little Rock and the fellows in the new club showed him over the building, took him through the parlors, and the billiard room and the reception and dining rooms and the bar, and Bill was visibly impressed but silent. Finally one of the members said, "What think of her, Bill?" "She's stupendous," allowed Bill, "she's magnificent, she's—but what's her fur?" "This is a fur mowse particularly, but Judge Carey showed the value of the slipping by stating that he owns 25,000 acres of land just covered with pine and redwood in Humboldt county, Cal., and this new line will run right through it. It means a fortune for the judge.

Tone Up With Good Paint

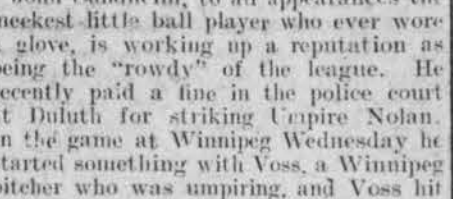

It is good business to keep property "toned up." A coat of Pure White Lead Paint not only makes a house look better and gives them a higher selling value, but it makes things wear better and gives them a higher value for long wear.

Southern Pure White Lead

gives an opaque, durable coat that protects and preserves from the ravages of time and weather.

Prospective buyers of Pure White Lead have heretofore been misled by cheap imitations. You are now protected by the Dutch Boy trade mark which is found on the side of kegs containing only Pure White Lead, made by the Old Dutch Process.

For sale by all dealers.

COPPER COUNTRY POSTOFFICES.

The postoffice department has announced increases in salaries in the Laurium and Calumet postoffices as follows: One clerk in Calumet from \$500 to \$900 per annum; one from \$700 to \$800, two from \$800 to \$900, and one from \$900 to \$1,000. In Laurium two clerks are raised from \$800 to \$900. The increase in salaries of clerks' salaries does not affect any of the other offices in the copper country, as far as this order is concerned. But previous orders raised the salary of every postmaster in the principal copper country towns except Calumet and Laurium.

JUDGE CAREY'S GOOD FORTUNE.

Former Copper Country Lawyer Holds Valuable Land.

Judge E. J. Carey, a former copper country attorney, now resident in California, and visiting in Houghton, has struck rich. The judge has not been troubled by poverty up to this time, but his present strike is a fortune in itself. He was in Justice Brand's court yesterday morning, and he called the attention of the Mining Journal to the following San Francisco dispatch, clipped from a Detroit paper:

TAX COMMISSION COMING.

State Board of Taxation Will Visit the Copper Country.

The state tax commission will visit the copper country next month, arriving in Houghton July 23. Robert H. Shields of Houghton, president of the board, arrived home yesterday from Lansing where he has been in attendance this week on a meeting of the commission. He said the business transacted was merely routine, and nothing of general interest was done. He also announced the coming visit of the board. The commission will spend a week in the peninsula, two days of this time in the iron and those in the copper country. The board will inspect railroads and mines and acquire such other information as may be valuable in determining the taxation of all property. The commission does not visit the copper country annually, its visit last year being the first in several years.

IN THE POLICE COURTS.

Poundmaster Wendel of Hancock has the protection of the law. He had arrested a woman who interfered with him when he was taking her cow to the corral, and Justice Olivier fined her \$25 and the costs.

Jonas Johnson of Dollar Bay boarded with a widow in that place, Mrs. Mary Backman by name. He attacked the widow with a poker on Wednesday and injured her so that she could not appear against him in Justice Brand's court in Houghton Wednesday night. Her two daughters appeared, however, and their evidence cost Johnson \$25 and the costs, which he paid. He was afterward required to give bonds to keep the peace. It is believed he changed his boarding house.

Aside from the occasional drunks and disorders the copper country police courts have been unusually free of minor criminals recently. The approach of the Fourth of July, it is believed, is causing a saving of money and a consequent decrease in the indulgence in the stuff which causes crime.

reach the depths at which the other mines are now working.

COPPERDOM BREVITIES.

The Lake Linden Dramatic club presented "Slaves of Russia" at the Lake Linden Opera House last night.

William Penhalligon, superintendent of the C. & I. explorations at the Delaware, has gone to Chicago on business.

Miss Mary Cuddihy of Calumet has returned from a tour of seven months of Old Mexico and the Pacific coast.

J. G. Johnson, principal of the Quiney school, has gone to Los Angeles, Cal., to attend the National Educational association convention.

John Pantan of Duluth is visiting the Calumet store of his firm of Pantan & White, which store is formerly that of the Edward Ryan estate.

Miss Marie Gaul of Calumet has left for Quebec, where she will this week join Captain and Mrs. James Houston and leave with them for a European trip.

Dr. R. R. Spalding of Calumet, director of the Calumet baseball team, and Dr. P. R. Glass, of Lake Linden, president of the league, are in Duluth on baseball business and will visit Winnipeg before returning.

A number of copper country railroad and steamship agents will leave tonight for Duluth to be present at the Get As Much Business As You Can club meeting. They will be contacted with a trip to Isle Royale tomorrow.

The last engagement of the present theatrical season in the copper country will be that of Mrs. Leslie-Carter in David Belasco's "Du Barry." She appears at the Calumet theater July 3 and at the Keweenaw July 4. The charge will be \$2.50 for the best seats.

Mrs. Carter is the greatest actress who has appeared in the copper country for years, possibly none greater has ever appeared here except Modjeska. Her appearance at this time in the season is earlier date; she is filling in the time thus cancelled in a large territory.

Mining News

LIFE OF LAKE MINES.

President McNair, of College of Mines, Makes Interesting Statements.

A recent address by Professor F. W. McNair, president of the Michigan College of Mines, before the American Association for the Advancement of Science on "Deep Mining in the Lake Superior Region," contains some interesting facts as to the future of Lake Superior mines. In this address it was stated that owing to the great depths at present reached by the large companies, a serious question was raised as to the possibility to which the mines could be worked. As the openings in the mines are kept from crushing by means of large pillars or blocks of the ore left unmined, it became a question as to how large the pillars must be to sustain the weight of the great mass of ground above them.

The removals of large portions of the copper zone leaves considerable areas of the roof to be supported by these pillars. When the ore is first opened at any particular level, the pillars left in the beginning only have to carry a small portion of their final load. As the openings enlarge, the weight upon these pillars becomes more excessive and, of course, more pressure is applied.

The first manifestation of this extra pressure is shown by the face of the pillars splitting off, often with a loud explosion. After each such splitting off, the pillar becomes smaller in diameter and hence less able to bear the weight which it is intended to carry. When this diameter is reduced sufficiently, the pillar gives way entirely, letting down the roof. This of course has a tendency to throw more weight upon the remaining pillars and the result is, as the professor puts it, "a miniature but perfectly genuine earthquake." This action has resulted in the destruction of one mine and has caused very serious disturbances and damage in another. It was always considered that it made no particular difference how large these pillars were as they were considered so much ore reserved, the idea being that when the mine had reached its limit of depth they could then be extracted in the same manner as in coal mining and thus furnish fresh ore supplies.

Professor McNair concluded this branch of his address with the following: "Experience seems to show that at the great depths recently reached it is useless to expect to hold up the hanging rock mass for a long time by any scheme of pillars unless far too much of the ore is left in place, and that the only feasible method is to cut away the entire lode and permit the hanging to cave as rapidly as it will to the point where the broken rock fills again the whole space, and redistributes the weight over the footwall. Following the plan, stopping begins at a point farthest from the shaft and progresses toward it. With a wide shaft pillar, or with the shaft in footwall, and with some such general method that avoids concentration of pressure where it can do harm, the hanging begins at a point farthest from the shaft and progresses toward it. With a further depth, at least as great as that already attained."

The interesting point in the above of importance to investors is as to how far the management of the older mines have been in considering these pillars as reserves in figuring on the life of the mine, and how far they have been obliged to revise their estimates of available ore reserves. Of course these predictions cannot apply to South Range mines or to the other and younger mines of Calumet, as they will not for many years

supply of fuel against the coming winter during the summer months. The company will make its first dividend declaration within the next sixty days or just as soon as the stock issue is out of the way.

ODD INCIDENT IN CRICKET.

A good cricket story is told of Dr. W. G. Grace, the well-known English player. "W. G." once scored three runs under absolutely unique circumstances. The incident occurred during a match between Gloucestershire and Surrey at Clifton in 1878. As "W. G." was running between the wickets the ball was thrown in and it lodged in his shirt. After running six runs (three with the ball in his possession), Grace was stopped. Jupp asked him to give up the ball, but this he refused to do, for he might have been given out for handling it. One of the players took the ball from its resting place and the batsman resumed his play.

SHORT TALKS BY L. T. COOPER.

SPRING AILMENTS.

A man and a house need the same thing in spring—a good cleaning out. A certain amount of impurities have accumulated within the system during the winter. I am no authority for house cleaning. So far as the man is concerned, a "Cooper's New Discovery" taken for two weeks will bring the desired result. It will positively do these three things—clean out the stomach and bowels, tone up the system generally, and bring back the snap to body and mind that now seem dull and worn out. Try it and see if you won't be as pleased as Mr. Hull, whose letter I quote below:

"I suffered a general breaking down of the system. Had no appetite, poor digestion and was constipated. I lost ambition and took no interest in anything. Nothing I could do seemed to give me relief until upon a friend's advice I began to use Cooper's New Discovery. It helped me from the start. Now I am able to do a much more than the next one and I enjoy it. I have a hearty appetite and am stronger and better every way. Your New Discovery medicine is certainly the best tonic and system builder I have ever known." A. W. Hull, 142 Porter St., Detroit, Mich.

These are the famous medicines with which Mr. Cooper recently created such a stir in Chicago. His demonstrations there attracted wide attention. We are agents.

Notes of Copper News.

It is figured that Anaconda earnings in the first six months of this year will be something like \$2,500,000 in excess of dividend requirements for the first half of the year.

The Shannon Copper company now has 3,100 stockholders. This is an increase of 100 per cent since the first of the year, and would indicate that the speculative holdings of the stock have been assimilated and that brokers are carrying comparatively little stock.

Sixty-five copper companies, the stocks of which are dealt in at Boston, now have a selling value of \$780,122,794. These properties have a capitalization figuring Lake companies on the basis of amount paid in, of \$616,120,250. A dozen of these properties, representing 60 per cent of the total, based on market value, show an appreciation of 30 per cent from the highest quotations of the year. Carrying out this percentage for the whole number, it can be estimated that the properties have suffered a shrinkage of about \$335,000,000 during the past five months. This is over one-half of their capitalization.

The Old Dominion has since June 1, been producing 100,000 pounds of copper per day, most of which was for its own ores. Production from the sulphide zone at the fourteenth level has been at the rate of 200 tons of ore a day. The company has found that the ore in No. 3 crosscut averages 16 per cent. The crosscut is now through to the hanging wall of the vein and a total width of ore is shown of sixty-five feet as against eighty feet in crosscut No. 2; the horse which was struck in the crosscut No. 3 was thirty feet wide. The company is making ready to lay in a big

City Brevities

Today's weather: Fair; stationary temperature. Yesterday's temperatures: Seven a. m., 69 degrees; noon, 64; 7 p. m., 68. Maximum, 77 degrees; minimum, 62.

John R. Van Evert left last night for Chicago.

G. Sherman Collins was up from Lansing yesterday.

Fred Bennett of Ishpeming called on his trade here yesterday.

Mrs. Scott Johnson and family are the guests of friends in Detroit.

W. P. Belden and F. A. Bell were Ishpeming visitors in Marquette yesterday.

Miss Mary Reinhardt is home from Green Bay to spend the summer vacation.

Miss Amy Hopkins has returned home from a visit with her aunt at Mansfield, Ohio, last evening.

The Marquette lodge of Elks held a meeting for the initiation of candidates last night.

H. E. Stewart, commercial agent of the St. Paul road at Houghton, was in the city yesterday.

Bishop G. Mott Williams is using a Roo runabout, which he recently purchased at Menominee.

Robert H. Taylor of the Soo, deputy collector of customs, is in the city on business at the Marquette office.

There will be an ice cream social to-night at 8 o'clock at the Swedish M. E. church. A good program will be given.

R. Creelman, traveling passenger agent of the Canadian Northern railroad, was a Marquette visitor yesterday.

Dr. Dudley, who has been spending some time at the Huron Mountain club, left last evening for his home in Chicago.

Mrs. James Russell and Miss Mabel Russell arrived home last evening from a three months' trip in Italy, Germany and France.

The Young Woman's Missionary society of the Presbyterian church will meet this evening with Miss MacLeod, on Fourth street.

The Ladies' Missionary society of the Presbyterian church will meet this afternoon at 3 o'clock with Mrs. Jobe, W. Prospect street.

Sheriff Cosgrove of Baraga county passed through Marquette yesterday with an insane man for the upper peninsula hospital at Newberry.

W. D. Calverley of Houghton and E. C. Anthony of Negaunee attended a meeting of the board of control for the Marquette prison yesterday.

Ed. O'Donnell left yesterday for Grand Rapids. Mr. O'Donnell is chief deputy U. S. marshal for this district, and had been attending U. S. court.

Judge Loyal A. Knappen left yesterday afternoon for his home in Grand Rapids, after a two weeks' stay in the city in attendance at U. S. court.

Miss Frances Russell arrived home last night from Ann Arbor, where she was graduated from the literary department of the state university this spring.

Professor Kluge and family left this week for their new home at Los Angeles, Cal., where Professor Kluge will at once assume the direction of a leading orchestra.

The ladies of the Baptist church will unite in holding a picnic at Presque Isle this afternoon. Supper will be served on the west side of the "island" at 6 o'clock.

The meeting of Our Lady of Victory court, No. 313, W. C. O. F., which was to have been held this evening, June 28, has been postponed until the date of the next regular meeting, July 12.

The annual retreat of the clergy of the diocese of Sault Ste. Marie and Marquette, held by Rev. Father Rosswinkel, S. J., at the Assisians mission in Baraga county, will conclude this morning. Bishop Ely and some sixty or more priests have been in attendance.

Rates for the Fourth—For the Fourth of July regular Sunday excursion rates will prevail on the Marquette & South-eastern railway. Tickets will be sold on the 3rd and 4th, good for return until July 5.

Will Occupy Handsome Home—C. E. Lytle has completed the remodeling of the property he recently purchased on East Ridge street, and it is now ready for occupancy. The house has been modernized in every particular, is beautifully finished and will make a handsome home.

St. Anne Excursion—The annual excursion to the shrine of St. Anne de Beaupre is announced by the South Shore road. Tickets will be sold from July 13 to 19, the feast falling on Friday, the 26th. Tickets will be good until August 31. The rate from all Marquette county stations will be 25c.

Parquet Seats \$2.50—There was a mistake made yesterday in the announcement of the prices of seats for the engagement of Mrs. Leslie Carter. The parquet seats will be \$2.50, not \$2. This has been Mrs. Carter's rate for the best seats throughout this tour, and it will be charged at Duluth and all the upper peninsula towns.

Work at the Big Washout—At the big washout yesterday a force of South Shore employees were busy raising the sunken sidetracks, preparatory to beginning filling operations. A South Shore crew was also busy making repairs on the line west of the quarry. The M. & S. E. road emptied several train loads of sand into the big hole.

Traffic Is Good—The Junata was in port, eastbound, last evening. The Northwest called at this port on the first trip of the season Wednesday night. Passenger traffic is reported to be well up to the traffic of last year, notwithstanding the fact that the weather until very recently has been too roid to be considered favorable for lake travel.

To Spend Summer Abroad—Tom Williams, son of Bishop G. Mott Williams, sails this week for Europe, where he will spend the summer with his brother, Cecil Williams, who is a student at a

German university. Tom Williams was graduated from the law department of the University of Michigan this spring, and had previously taken a degree in the literary department.

One Fare for Fourth—The South Shore company will sell tickets at one fare for the Fourth of July at all stations. They will be on sale Tuesday, Wednesday and Thursday, the 2nd, 3rd and 4th, and will be good for the return trip until Saturday, the 6th, inclusive. The company is preparing to handle a large traffic both in this county and at other points along the line.

Former Resident Passes Away—Word has been received here of the sudden death at Minneapolis of Mrs. Hugh Blaine, formerly Miss Nettie Clark, and a sister of Lester Clark of this city. Mrs. Blaine was on her way to her home in the west, after a trip to Canada with the remains of her husband, whose death occurred only a few weeks ago. At the time of her demise only her young sister was with her.

Will Use Steam Shovel—Yesterday employees of the South Shore company were busy extending a track into a sand bank east of the city, near Chocology, for the purpose of getting out the ground that will be used to fill the big washout on Lake street. A steam shovel will be used to load the cars. It is expected that it will be possible to get a dirt train in commission today. Traffic on both railroads proceeded without interruption yesterday.

Moving Picture Theater—Carpenters are now engaged in preparing the store-room in the Greenwald block for Lawton & Joyce, who will open a moving picture and illustrated song theater there. The front of the building will not be altered, but a front for the theater will be built inside. There is considerable work to be done before the theater is ready for the opening, and it is doubtful whether the first performance can be given as early as was first planned.

Strikes Delay Delivery—The trustees of the Peter White library have been assured by the Jameson, N. Y., Art Metal Construction company that the stacks for the second floor of the library stack room will be delivered by the fifteenth of next month. They were expected much earlier, but strikes have put back the shipment. The installation of the stacks will proceed rapidly, and if delivery is made as now promised it will likely be possible to put them in use by the end of next month.

Commencement Tonight—The annual commencement of the cathedral school will occur this evening, the exercises being held in the auditorium of the Baraga building. The graduates are Carolyn M. Siegel, Elizabeth V. Hogan, Della B. Cleary and Laura M. Dwyer. The principal feature will be the presentation of the sacred drama "Fabiola," by Cardinal Wiseman, the young people of the school appearing in the cast. The address to the graduates will be delivered by Rev. Father Rosswinkel, S. J., of the Assisians mission. The exercises will begin at 7:30 o'clock.

Making Good Progress—E. C. Ludington of Ishpeming was in the city yesterday, inspecting the work on the improvements being made by the Marquette County telephone company. It is progressing rapidly under the direction of Edward Kennedy, who is in charge for W. H. Crumb & Co. of Chicago, the contractors. A construction crew has brought a cable up Third street from South Marquette, and the work of fitting out the new central office in the Cole block, corner of Bluff and Third streets, has been started. The weather has favored the outdoor work, and it is expected to have it completed by the time figured on.

Landed in Wrong Marquette—The local passenger department of the South Shore had a perplexing problem this week in straightening out the troubles of an immigrant who was landed in the wrong Marquette. He was booked from Guttenberg, Sweden, and wanted, and expected to be delivered at Marquette, Kansas, Marquette, Michigan, and was so far from the place where he was expected that no friends or relatives were on hand to greet him, and great was his disappointment. City Ticket Agent Wright straightened out the complication, however, and he was sent on to Kansas. His ticket read Marquette, Mich., and just where the mistake occurred is not known.

It goes to the root of disease, invigorates, strengthens, exhilarates. Its life-producing properties are not contained in any other known remedy. Hollister's Rocky Mountain Tea, Tea or Tablets, 35 cents. The Stafford Drug Co.

SPECIAL MEETING.

Pursuant to the resolution of the board of directors of the Lake Shore Engine Works, held at the office of the company in the city of Marquette this day, notice is hereby given that a special meeting of the stockholders of this company will be held at 2 o'clock p. m. on July 11, 1907, at the office of the company in the city of Marquette, Michigan, for the purpose of considering and acting upon the following questions:

1. The sale of the real estate of the company for the purpose of acquiring other real estate more suitable for the company's needs.
2. The retirement of the outstanding bonds and preferred stock of this company.
3. The issue of a new series of bonds to be secured by first mortgage upon all real property and fixtures of the company in such amount as may be determined upon at such meeting.
4. The retirement of the issue of preferred stock and the issue of common stock in place thereof, in such amount and on such terms as may be determined at such meeting.
5. To authorize the increase of the capital stock of the company to such amount as may be determined at such meeting, and the execution by the president, secretary and board of directors of all necessary certificates, conveyances and other instruments required to carry out any of the purposes herein referred to.

Dated, Marquette, Michigan, June 22, A. D. 1907. J. E. BALL, Secretary.

SOFT SHIRTS
Are Ready
If you want to get a chance at our handsome assortment of Neglige Shirts, come now and make your selections. Come while there's an opportunity to skim the cream of the stock. Our line includes about everything a man can want in cool shirts.

Plaited or plain bosoms, cuffs attached or detached. Sleeves different lengths.

Monarch Shirts.....\$1.00 to \$1.25
Cluett Shirts.....\$1.50, \$1.75 to \$4.00

Men's Belts 25c to \$1.00
Boys' Belts 25c to 50c
BELTS

We invite your inspection of our recent arrivals of Summer Furnishings, Underwear, Wash Ties, Smart Hose, Gloves, Umbrellas and everything in toggerly at fair prices

CREDIT

No factor is so necessary in building up business as credit, and no factor is so necessary in building up credit as truth.

Establish a credit whether you need it or not; when you have established it keep it good. Never promise more than you can fulfill; it is the man who breaks promises who gets hard usage from his creditors.

Marquette National Bank.

MARKETS

WHEAT OVER A DOLLAR.

Attempt of Shorts to Cover Results in a Spectacular Bulge.

Chicago, June 27.—In a sensational advance caused by the covering of shorts, the price of wheat today shot over the dollar mark. This sharp advance occurred in the last hour of the trading and was the culmination of numerous reports regarding the illegal serious shortage of wheat in the Southwest. The situation today contained no new features, but when a few shorts commenced to cover about noon they found the market almost bare of offerings. This frightened other shorts, and in an instant there was a wild scramble for what little wheat was offered for sale. From a dull, dragging affair the market became one of intense excitement, while the price rose 3/4 to 1/2 at each jump. When September touched 100 and December 103 1/2, longs began to sell freely and brought about a quick decline. The September dropping to 95 1/2 and the December to 101. The close, however, was strong, the September up 3/4 and the December 3/4 higher. The September left off at 99, as against 95 1/2 the close yesterday.

Receipts and shipments were as follows: Receipts, Shipments. Flour, barrels, 31,000 34,000. Wheat, bushels, 30,000 7,000. Corn, bushels, 476,000 607,000. Oats, bushels, 159,000 222,000.

Wheat Summary.

Paine, Webber & Co. had the following report on the Chicago wheat market yesterday: "There was a revival of the great bull campaign of a month ago in the wheat trade today. There was nothing remarkable about the action of the market during the morning, except that certain bear leaders who have been fighting any advance for days past, in the face of bull news, continued their tactics. Many of the local traders were of a bullish turn of mind and inclined to the selling side. The returns from the southwest have been worse from day to day, because of the rains on the harvests. The experts have all been lowering their estimates, and yet the trade took little notice of it. Complainants have been coming from the northwest about the thin and backward condition of the spring crop, and that too was ignored. The selling has been so persistent that a dangerous short element was created in the market, and the explosion was the result. From around 95 cents September wheat went to a dollar during the last hour of the session. From 97 1/2, December went to 103 1/2, the close being 101 1/2 cents. Perhaps the publication of the Jones figures, reducing his estimate of Nebraska to 40,000,000, and bringing the total winter wheat crop down to 200,000,000, was one of the things which started the tremendous buying which caused the 5-cent advance. European crop conditions are had. Argentine shipments for the week are much smaller than 1,000,000. The market was sold to a standstill and when at last the bear leaders tried to cover the market was bid up very fast, with great punishment for all shorts, big and little. The public is likely to come in on any reasonable reaction from this strong upturn."

NEW YORK STOCKS.

New York, June 27.—The rise in the prices of stocks today was a clear re-

confidence is returning. The Tamarack and Osceola dividends were a disappointment, but did not affect the bullishness of the list. Amalgamated is tipped for a ten point rise, and I think it must be based on a large sale of copper to come in the near future. I think the market has turned at last and will advise buying stocks from now on."

Table with columns for stock names and prices. Includes entries for Anaconda, Amalgamated, and various other mining stocks.

Western Gold Stocks.

Table listing Western gold stocks such as Sandstorm, Red Top, and others with their respective prices.

New York, June 27.—Copper was lower in the English market today, with spot closing at 292 and futures at 290, or a decline of 1/4, 5/8 and 3/4, 10/8, respectively. Locally, copper was dull and nominally unchanged. The market was quoted at 23 1/2 to 24, electrolytic at 22 1/2 to 23, and casting at 21 to 21 1/2.

Copper Gossip Over the Wires.

Paine, Webber & Co. supplied copper gossip over the wires yesterday as follows: "The Kearsarge lode has been uncovered on the Chicago property of the Tamarack, but the management is not planning to actively engage in operations at this point for some time. The lode was encountered at the surface, there being practically no overburden, and the formation has been positively identified as the Kearsarge lode. This marks the most northerly point on the mineral range of Lake Superior at which this lode has been found and still further establishes the Kearsarge as the master amygdaloid lode at Lake Superior.

Mining in the Michigan Heat mine was suspended yesterday on account of gas and bad air, due to a fire in a portion of the mine between the 600 and the 800 foot level. Work in a portion of the Leonard mine, owned by Boston & Montana, which connects with the Mine Healy, was also suspended. The same reason. The portion of the mine where the fire started is being bulkheaded so as to prevent future trouble. Ventilation in this mine has been had for some time, but improvement work is being pushed as fast as possible. Two air shafts are being sunk. The expectations of important interests in the management of Isle Royale include a production of copper within the next two years amounting to at least 10,000,000 pounds per annum. In view of the development at Nos. 5 and 6 shafts on the Isle Royale, it is probable that the strong possibilities of the Baltic lode when the Hussey-Hove lands are acquired, the physical prospects of Isle Royale are placed in a stronger light than at any time during the company's career. The indications are that the Superior property of the Calumet & Hecla on the northeast. On the Superior, the Baltic lode has been found well mineralized and warrants the prediction by Calumet & Hecla that "Superior will make a mine."

Regarding the copper outlook, J. R. Stanton says, according to the News Bureau: "There is no basis whatever for the reports that leading copper producers have been cutting prices. The market is at a standstill for the reason that consumers are not in the market as purchasers and producers are selling nothing under present official quotations, which range from 25 1/2 to 26 cents, and about 25 1/2 for electrolytic. We will not be able to determine the course of copper market until the consumers come in as purchasers. There have been no recent conferences of other consumers of copper. Producers, at least, will act independently in matter of adjusting prices. The situation is as strong as it was a year ago from the standpoint of production and consumption. There is no reason in the world why prices should decline. It is my opinion that if there was a reaction in copper a buying movement of ordinary proportions would result in an immediate restoration of prices to the high level of the year."

There is no outstanding less than 8 per cent of the stock of the Greene Consolidated company and approximately the same percentage of Cananea Central. Ten per cent of the outstanding stock of the Greene represented 1,500 stockholders or an average of about 20 shares each. At one time the shares of the Greene Consolidated were very widely scattered, being in the names of approximately 7,700 persons. Although under one control the affairs of the Greene Consolidated and Cananea Central companies are entirely independent of each other. The Greene company is operated from New York, while Duluth is the headquarters of the Cananea Central. This condition of affairs will continue until each share of both companies is turned in for exchange into certificates of the Greene-Cananea Copper company. The annual meeting of the Greene Consolidated company will be held in a short time and there will be several amendments to the bylaws. The board of directors will probably be cut from twenty-four to about nine, which would be a great relief to the holders of other Cole-Turner properties. The directors at the present time embrace several men who are clerks in the office of some of the controlled companies. The Greene Consolidated, after it was acquired by the Cole-Turner interest, disposed of its land and timber holdings.

Colonel Greene and friends, owing to their 49 per cent interest in the copper company, holds the 25-year contracts whereby it will receive for that term the 15 per cent interest on the total value of the property at a price much lower than the market value. The new management is beginning every effort to lower the cost of mining from the level of the past two or three years. The cost in the last fiscal year was in the neighborhood of 12 cents a pound and the figure for the current year will probably not be reduced and possibly may be slightly higher. The cost of the smelting battery of eight furnaces, with a total daily capacity of 10,000 tons, has been renovated and the expense charged to the cost of copper. This smelting capacity will be enlarged from 10,000 to 15,000 tons per day. Orders will be given shortly for a new smelter of probably 1,000 tons capacity a day. The Greene Consolidated is turning out about 4,500,000 pounds of copper a month. The policy of treating the low grade ores is still adhered to, the ore running about 1 1/2 per cent.

A Sears building interest says: "While it is possible that the Osceola and Tamarack companies expected that the dividends which the directors declared today would exceed the \$7 and \$4, respectively, to be paid, a conservative view was taken. In view of the uncertainties now existing in the copper metal market, I have no hesitation in stating that both these companies earned a great deal more than the amount declared and I can also say that if the copper market for the next six months holds at anything like the prices which have prevailed since the first of the year, Osceola and Tamarack will be able to make very much larger disbursements to the shareholders next year. I am confident, however, that the shareholders will give the directors their vote at this time, when so much depends upon the price of copper, a conservative course was in every way advisable. It cannot be said of our companies that we are in the habit of dividing the profit with the shareholders. We are large surplusers and to always keep the dividends well within the earnings. Not until after May 1 was the Tamarack able to operate without the Tamarack incident to the fire in No. 1 shaft. An interest having affiliations with the United Metals Selling company says: "The present situation in copper is most peculiar. The producers, and I mean, of course, only the large ones, could not sell a pound of immediate delivery copper should they receive orders for it, in fact, they could not make deliveries before the 15th of July, in view of the shapes and sizes which the consumers are now demanding. The producers have not a pound of surplus copper and the manufacturers are threatened with shut down of their plants if they don't immediately come up with the supplies, and, strange as it may seem, the producing interests are holding their heads in their hands in great perplexity as to the size of the concession to be made. If I owned the entire capital stock of the Kearsarge mine, I would be interested in the price of the market for six months and allow my copper to accumulate. In other departments of trade the producers are always carrying a surplus stock, but in respect to copper the ordinary method of doing business seems to be set aside. Why the producers of copper should be considering a price reduction in these times of depleted stocks and an active consuming demand all over the world, I cannot say. The ordinary capacity of the mines is beyond my comprehension. Charles E. Brooker, who buys between 200,000,000 and 250,000,000 pounds of copper, or 35 per cent of the entire American consumption, has not yet covered his requirements, and the trade awaits his action. It is probable that at this time the United Metals Selling company, which is only an aid of the mining companies, will be guided in large measure by the wishes of the companies for which it sells. If Mr. Paine for the copper range of the West, for the best of the copper range, says that the best of the copper range shall be sold at a concession the concession will be made. There can be no question that in the economic development of the world, in which development electricity plays a most important part, the demand for copper is increasing faster than are the new sources of supply. Copper has been selling at 25 cents because the world demanded it and could profitably manufacture it into various forms at that figure. That same demand for copper is increasing and is increasing faster than are the new sources of supply. Copper has been selling at 25 cents because the world demanded it and could profitably manufacture it into various forms at that figure. That same demand for copper is increasing and is increasing faster than are the new sources of supply."

THE FOREIGN RESIDENTS OF SHANGHAI THAT SERIOUS DISTURBANCES MAY FOLLOW THE OPENING OF THE NEW ELECTRIC STREET RAILWAY SYSTEM, WHICH WILL BE INAUGURATED IN JULY.

For some time the native press has been agitated over the installation of the electric car lines and frequent articles of a highly inflammatory character have appeared. These have been reflected in the tea-houses and in the street talk of the native city, until now a general uneasiness pervades the foreign quarter. Shanghai is very closely built and very populous. The native city, which is still surrounded by walls, has not a single street which will exceed fifteen feet in width, while many of them are not more than six to ten feet. In the foreign city the street is the finest and broadest thoroughfare. The street is from 30 to 50 feet in width, and is jammed with hickies and carriages in the daily traffic. Two tracks will run through this street, and will certainly drive about half of them from the Bund. All of the streets on which the cars will run seem to be very narrow. The sidewalks are but narrow strips of paving and in some sections none exists at all. The presence of the cars will naturally cause much congestion and the probability of accidents is very great.

The closing up of the opium dens in the native city by the authorities has caused a revival of the request by the Chinese that similar action be taken in the surrounding settlements.

SCHMITZ WILL SPEND THE FOURTH IN JAIL.

POSTPONING SENTENCE, COURT KNOCKS PLAN TO SECURE MAYOR'S RELEASE ON BAIL.

San Francisco, June 27.—Judge Danne called Mayor Schmitz for sentence today, first inquiring whether it was the purpose of the prosecution to press against him the other four extortion indictments returned by the grand jury. District Attorney Langdon declared that the state had not made up its mind on this point, and asked for another week in which to consider it. The attorney for the defense insisted upon an immediate reply, so that he could without further delay take an appeal to a higher court for a new trial. Judge Danne finally granted a delay until July 8. This means that Schmitz must spend twelve more days in jail before applying to the higher court for bail upon the strength of the appeal taken.

ACTION OF TEXAS AGITATES.

Power to Bar Consumptives from the State Doubtful at Washington.

Washington, June 27.—Federal officials connected with the public health service are much agitated by the reports from Texas in relation to quarantine against tuberculosis. At the office of the surgeon general of the marine hospital and public health service it was said that tuberculosis is not a quarantinable disease either under maritime or interstate immigration laws, but aliens can be kept out of this country when affected with tuberculosis under the new immigration law. The opinion was expressed that it may be difficult to sustain such a quarantine in Texas, but it is proposed to establish before the supreme court under that provision of the constitution guaranteeing right to every citizen of the United States to go from one state to another. In each case the opinion of a majority of the expert in the marine hospital service that the study of tuberculosis has progressed so far as to warrant the statement that a state quarantine against the disease is wholly unnecessary. Colorado agitated such quarantine several years ago, but nothing came of it.

TROLLEYS MAY CAUSE RIOTS.

Shanghai Agitated Over the Coming Opening of Electric Lines.

Shanghai, June 26.—[Correspondence.]—A feeling of apprehension exists among the Chinese.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose. Women as well as men are made miserable and need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in 50-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root, including many of the thousands of testimonials received from sufferers. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Maybe You're Getting Good Cigars—Maybe Not

Trouble is you can't always tell—you take a chance and pay your money. Sometimes you get a good smoke and often you get a poor one.

You can be sure of what you're getting before you smoke it.

No matter where you buy your smokes, or what price you pay—the best cigar for your money you'll find in boxes bearing this Triangle A mark of merit.

This Triangle A represents remarkable improvement in cigar quality. The American Cigar Company's extensive, growing, buying, storing and manufacturing facilities and costly equipment, systematically operated in refining and blending the closely graded leaf, have brought about this improvement without increasing the cost.

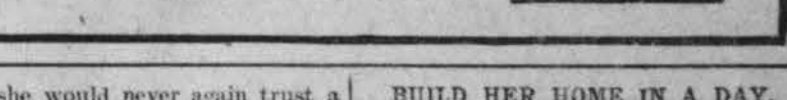

The only way you can benefit by the better quality thus made available, is to be sure the Triangle A is stamped on the box whenever you buy cigars.

If you like a really good domestic cigar we suggest you try

The New CREMO

Maybe you'd like some other Triangle A brand better, but you can't fail to note the immensely improved quality of this famous cigar—a direct and convincing result of our scientific manufacturing methods.

AMERICAN CIGAR COMPANY Manufacturer

said that she would never again trust a chance acquaintance.

BUILD HER HOME IN A DAY.

Hibernians Turn Out and Help Widow of Deceased Brother.

Los Angeles, June 26.—A new building record was made for Los Angeles yesterday by the erection of a modest cottage on East Jefferson street. In a single day there was a change from an unoccupied vacant lot to a neat bit of land, with a pretty cottage home of five rooms upon it and the whole surrounded by an attractive view fence.

No costly shaft of granite-pointing skyward—equals this unpretentious structure as a practical monument of love and sympathy. It was built by a group of "good Samaritans," disguised as mechanics, and though the Sabbath passed and they had attended no house of worship, they went home that night with the consciousness of duty well done. It was a labor of love in the interests of a widow and orphan. The mechanics were a lot of big-hearted Irishmen, members of the Hibernians, and employees of the city water department. Five weeks ago Patrick Connelly, for five years an employe of the water department, died at the Sisters' hospital. In acting as peacekeeper, he received a blow which resulted fatally. A negro teamster had attacked a dog named Third and Alameda streets, when Connelly urged the negro not to kick a man when he was down. He was himself struck by the brute. In falling, his head hit a rock, causing concussion of the brain. Death ensued on May 14.

Today Mrs. Connelly will occupy the home. It lacks painting and papering, but that lack will soon be supplied. Each room in the cottage is twelve feet square. Sinks and plumbing have been installed, three hydrants placed in the yard, a cesspool dug, and a chicken house built. And it was all done in one day. One of the Hibernians last night carried some of his choice hens and a setting of eggs to the place.

By this act of charity two homes have really been provided. Since her husband's death, Mrs. Connelly has been at the home of her sister, Mrs. Andrew Gillespie, on East Turner street. Mrs. Gillespie was left a widow only two months ago and she has two small children. The sisters will live together, and have arranged that one shall look after the home and the other provide for means of livelihood.

We don't care if you are skeptical; we don't care if you have no confidence. It makes no difference to us. Hollister's Rocky Mountain Tea will do the work or no pay—that's fair. 35 cents. The Stafford Drug Co.

POLARIS MINERAL WATER delivered to any part of the city in sterilized one-gallon bottles. Telephone, Bell No. 217. Polaris Water Co., Marquette.

Red Seal White Lead costs less than other white leads, because it makes more paint. For sale by Kelly Hardware Co. (5-18-11)

If you want dry hard and soft wood 16-inch slabs, call at or telephone to H. K. Kepp & Co., 415 Champlain street, Bell Phone No. 78. (5-8-11)

Father says: "Say, Mother, can't you make us some more of those fine doughnuts if I will bring you a pair of Cudahy's Peacock Lard again?" (11-27-06)

Throat Coughs. Ask your doctor about these throat coughs. He will tell you how deceptive they are. A tickling in the throat often means serious trouble ahead. Better explain your case carefully to your doctor, and ask him about your taking Ayer's Cherry Pectoral. Then do as he says. Get the best medicine, always.

Throat Coughs. Ask your doctor about these throat coughs. He will tell you how deceptive they are. A tickling in the throat often means serious trouble ahead. Ishpeiming Department

AN AUTOMOBILE DIVISION.

Will Be Attractive Feature of 4th of July Celebration.

The committee in charge of the automobile division of the Fourth of July parade expects to have every auto in this end of the county in line. Two liberal prizes are offered for the best decorated machines. A member of the committee said yesterday that there are twenty-three or twenty-four machines in Ishpeiming, Negaunee and Palmer, including one owned by H. S. Thompson of Beacon.

There is much work being done on floats and other parade features, and there is reason to believe that the fine parade of two years ago will be overshadowed in various ways. A large assortment of costumes has been procured from a Milwaukee concern for some of the special features. There will be as many clowns on foot and in the wagons as are carried by the Barnum & Bailey circus. The clown contingent, numbering fifty or more, will be accompanied by a clown band of fifteen musicians, under the leadership of Captain Sam Jewell of the Lake Superior Hematite mine, an old band man.

It is expected that every mine blacksmith and machine shop in the city will have floats. Much rivalry has sprung up between the mechanics at the different mines. Other mechanical concerns of the city will also be represented in this division.

The merchandise floats, many of which are now being made in the city will be attractive. Some of the business houses will have two floats, representing different departments.

The athletic program has not yet been completed, but the prizes will be the most liberal ever offered here. The balloon ascensions by the Belmont sisters will take place either from the vacant ground opposite the Oliver Iron Mining company's office or the Cleveland field, between Division street and Cleveland avenue. The first ascension will be at 3 o'clock and the second at 7:30 p. m.

SCARCITY OF WORKMEN.

Miners and Mechanics Wanted at Several Menominee Range Properties.

The Rogers Brown company, operating on the Menominee range, of which Thomas H. Martin is general mining superintendent, advises in this issue for mechanics to work at Amasa. The company can use a first-class machinist, one who understands installing mining machinery, also a good mine blacksmith and a carpenter.

Mr. Martin yesterday informed the Mining Journal that his company will pay good wages to the right men and that the positions will be permanent. He further said that there is a scarcity of mechanics on the Menominee range and that first class workmen are in demand at most of the mines. It is also said that from 300 to 500 gals. miners could be taken on immediately by the properties on the range.

There are a greater number of mines in operation on the Menominee range than ever before. Many new properties have been opened during the past year. Mr. Martin has been exceptionally lucky ever since taking his present position some two or three months ago, but he is now getting his work well organized.

WORK ON HIGH SCHOOL.

Contractor Solar Expects to Complete Concrete Work by the Fourth.

Work is progressing favorably on the foundation for the new high school. Good headway has been made the past ten days and Contractor Solar expects to complete the concrete to the grade line by next Wednesday evening. The more difficult part of the work has been done, and the concrete is going in at a lively rate. In places it was necessary to attend the footings three feet below the present level of the basement in order to get away from the water, which at times flowed strongly. All of the footings have been finished and there is now less than 125 feet of the main wall to go up. The concrete mixing machine is doing excellent work and the present crew has difficulty laying the concrete as rapidly as it is turned out.

Mr. Solar said yesterday that he will have his carpenters, masons and brick layers on the ground the morning of the 4th. One of his crews has just completed a building at Owen, Wis., and the men are to be transferred to this city. He said that after the concrete is in the rest of the work will be comparatively easy. About five feet of stone will be laid above the concrete, the remaining portion of the wall being solid brick.

TALKING GOLF MATCH.

George A. Newett, a member of the Ishpeiming Golf club, made a record of the links in thirty-eight strokes and the members at Ishpeiming are enthusiastic over the showing, says the Houghton Gazette. Considerable interest is manifested in the record by local golf enthusiasts who claim that they have several players who can equal or beat Mr. Newett's record any time. They are anxious to arrange a match between Mr. Newett and Graham Pope, president and one of the enthusiastic members of the local club. They argue that Mr. Pope can easily beat a record of thirty-eight strokes and are particularly desirous of having the two players get together. Mr. Pope, with characteristic modesty, declines to be interviewed on the subject.

TONIGHT.

If you would enjoy tomorrow take Chamberlain's Stomach and Liver Tablets tonight. They produce an agreeable laxative effect, clear the head and cleanse the stomach. Price, 25 cents. Samples free at The Stafford Drug Co.

OFFERING LOW RATES.

The round trip fare from all points in the copper country to Ishpeiming for the Sons of St. George reunion July 20, will be \$2.50. This, however, is with the understanding that no less than 300 tickets are sold from the copper country towns. The transportation committee for the celebration expects that there will be from 500 to 800 copper country people in attendance.

The \$2.50 rate will be good only for the one day, but those desiring an extension of time until Monday evening can procure it by paying fifty cents extra. A special train is to be run from the copper country, arriving in this city between 10 and 11 o'clock. Delegates and others attending the convention earlier in the week will be granted a \$3 round trip rate from all points in the copper country.

MRS. BAILEY WILL SPEAK.

Mrs. L. E. Bailey of Station Island, N. Y., an officer of the Women's Christian Temperance union, who was announced to speak in this city a few weeks ago, but who was forced to change her dates, will give an address next Sunday evening at the Salisbury Methodist church. Next Sunday has been designated as "Stainless Flag Day" by the National Temperance organization. Mrs. Bailey will speak on the temperance question. The congregation will be provided with copies of Rev. Irving S. Chapman's lectures on the Stainless Flag.

FROM HOPKINS' CURB LETTER.

Yesterday's slight recession in copper prices at the close offered a good opportunity to get in, but the market opened strong again this morning and most of yesterday's losses were recovered. The London metal came considerably lower at the opening but this item was entirely ignored. Osceola declared a semi-annual dividend of \$7 per share as against \$6 six months and a year ago. This is a fair illustration of the confidence of the big conservative producers. Tamarack declared the regular semi-annual dividend of \$4 per share. Amalgamated has been one of the strong features in today's New York market and promises to keep the lead. Consumers are holding out yet but producers show no disposition to shade prices much more than present figures.

The day's closing prices were:

ISHPEMING IN BRIEF.

W. A. Jordon of Calumet transacted business in the city yesterday.

A number of large chunks of ore from the Vandeventer mine stockpile, received yesterday, attracted considerable attention in the window of Carl Tellersen's office.

Charles White sustained a fracture of his collar bone Saturday night at Princeton. He was working on the scaffold of a diamond drill and part of the rigging slipped from under him, throwing him to the ground.

The Lake Superior Epworth league of the Swedish Methodist church is holding its convention at Carney this week, commencing today. Miss Ellen Hammar is the delegate from the Ishpeiming society, and others in attendance from here are the Misses Ethel Anderson and Helga Johnson.

The Lake Superior & Ishpeiming railway will give special rates of fare from all points on its line for the Fourth. Tickets will be sold the 2nd and 4th.

and be good for return the fifth. In view of the fact that there are to be celebrations at Ishpeiming, Marquette and Munising there will be no special train service.

M. J. O'Brien, manager of Paine, Webber & Co.'s brokerage office at Calumet, received a Franklin touring car yesterday. It having been purchased from E. R. Nelson of this city, the company's upper peninsula representative. Mr. Nelson went to Calumet yesterday to give Mr. O'Brien instructions as to the operation of the car.

"Maud," the target mule, is proving a big attraction. It was stationed on the Nelson House lawn Wednesday evening, but it will be on the vacant lot, corner of Division and Pine streets, this evening. When some of the old-time baseball players of the city throw at the target "Maud" works overtime and the cigars are passed out at a rapid rate.

BALL GROUNDS SECURED.

Diamond Will Be Laid Out in Maas Mine Field at Once.

The committee of citizens appointed to wait on the officials of the Cleveland-Cliffs Iron company, with a view to securing the privilege of laying out a baseball diamond in the Maas mine field was told to go ahead, and the work will be started without delay. A diamond will be put in first-class condition and a backstop will be erected. The committee has decided to cover the soil on the diamond with fine gravel which will be thoroughly rolled. The outfield will be the natural soil, filled in uneven places. It is the intention of the baseball enthusiasts of the city to organize four teams and a league. The city employees and officials and professional men will combine, organizing one team; also the business men, the Cleveland-Cliffs Iron company's employes and the saloon men will be represented by nine. It is proposed that one league game be played each week, provided the schedule can be completed by the end of the season. If not, two games will be played each week.

It is also possible that a league of juvenile teams will be organized. One of the teams will be the Savings Bank nine, which has already played several games. A member of the committee said yesterday that the park will be fenced in next season.

FORCED TO MOVE AGAIN.

Issac Rosen, of Rosen Bros. & Kline, is perhaps the most unfortunate man in Negaunee, when it comes to renting a dwelling house. A short time ago he had to leave the house he had occupied and he secured the Murray property, which was recently purchased by Andrew Lindquist, the contractor. Wednesday Mr. Lindquist sold the place to Patrick Reidy and his family now wants to have the house vacated as soon as possible. Mr. Reidy has changed his mind about moving to Detroit and will remain here.

WILL PAY EARLY.

The city employes will be paid next Tuesday, the 2nd. As the date of the regular meeting of the council falls on the 3rd, it is to be postponed for perhaps a week. Realizing that the city employes will want their money for the Fourth, Mayor Winter concluded to pay on the 2nd.

LOCAL LACONICS.

A. F. Maitland is offering for sale his family driving horse.

W. G. Bennett, of Escanaba, looked after business in Negaunee yesterday.

T. W. Weiss, the cigar manufacturer of Munising, was in the city yesterday.

Ed. Sness has returned from Milwaukee, where he attended school the past year.

Mrs. Dorothy Tibbitt is here from the state of Washington, on a visit to her son, John.

Miss Louise Nightingale is here from Sault Ste. Marie, visiting Miss Margaret Beney.

John Rock is having the residence he recently purchased on Main street papered and painted.

Joseph Barabe went to Escanaba yesterday to attend a meeting of the directors of the Belmore Bay Mining company.

The ice men are doing a satisfactory business. Richard Kappes keeps two teams busy supplying the wants of his patrons.

Dr. Obrenbt, who will look after Dr. N. J. Robbins' practice while he is in Europe, arrived yesterday from Milwaukee.

Mr. and Mrs. R. G. Quinn are in the city, having been called from Milwaukee on account of the serious illness of Mrs. Quinn's mother, Mrs. Theodore Kruse.

William Webber, a former resident of this city, now located at Sault Ste. Marie, spent a short time here Wednesday, on his way home from the Knights of Pythias reunion at Hancock.

Joseph Lacombe and family, who have been in Chicago the past few years, arrived in the city yesterday. He will manage the saloon business recently established by his brother, Oral.

J. C. Maynard of Escanaba visited relatives here Wednesday, leaving yesterday morning for the "Sandy City" to attend the meeting of the directors of the Belmore Bay Mining company.

The Courtney estate is building a concrete walk in front of its place on Jackson street; a walk is also being laid in front of the property of the Market estate on Cuse street. Anton Hendrickson has both jobs.

The board of public works yesterday received plans from the Sterling Boiler company for the equipment to be installed at the municipal electric power plant. The plans will be approved immediately and returned to the Sterling people.

Negaunee people who have tried to improve the condition of their lots at the cemetery this season complain that the flowers and shrubs are being stolen almost as fast as they are set in the ground. A Negaunee man said yesterday that he had spent the greater part of Saturday fixing up his lot and planting flowers. Monday he found the ground stripped and everything that he had put in gone. It is thought that children are doing the work.

DO NOT NEGLECT THE CHILDREN.

At this season of the year the first unnatural looseness of a child's bowels should have immediate attention. The best thing that can be given is Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by castor oil as directed with each bottle of the remedy. For sale by The Stafford Drug Co.

"What shall we have for breakfast?" "Why Cudahy's Peacock Ham and Eggs of course; they are always acceptable, especially at this season of the year." (11-27-e-o-d)

LOGGERS TAKING A REST.

Little Work Being Done Between Little Lake and Escanaba.

A timber dealer, who has operated camps between Little Lake and Escanaba for several years past, yesterday said that there is little work being done in the woods at this time. Most of the operators are taking a rest and plans are being perfected for opening the fall season the latter part of August. Most of the jobs put in a long season, some of them having started last August and having continued their work until the early part of this month.

The bark industry has flourished in the territory mentioned. Over 1,000 cords of hemlock bark having already been peeled and shipped to the tanneries at Kenosha, Cheboygan Falls and Milwaukee, the first named point getting the greater share of it. During the past few weeks the Kenosha concern has advanced the price from \$8.25 to \$8.75 per cord, delivered at the tannery. At this price the operators clean up about \$5 per cord. Their freight charges are \$2.25, costs of peeling from \$2.25 to \$2.50 and hauling \$1. The bark season will be at an end within a few days, as May and June are the only months that the bark is loose enough to be peeled successfully. An unusually large quantity of bark has also been shipped from points on the Munising line during the present season, and it is a question which of the two districts has shipped the most to the Wisconsin tanneries. In addition to the bark going to these concerns a large quantity has also been taken from lands owned by the Cleveland-Cliffs Iron company for the Munising tannery. The Kenosha tannery has procured from 75 to 85 per cent of the bark shipped. It gives the operators an advantage of 100 pounds in weight, figuring 2,240 pounds to the cord, while the others insist on 2,400 pounds. This, together with the fact that the Kenosha people raised the price early in the season and again before the close, won the jobbers to them. It is expected that the bark industry will grow in the territory along the Northwestern line, as the jobbers had excellent success this year. There is an immense quantity of hemlock in the territory, so that there will not be a shortage of bark for some years to come.

BOYS IN HARD LUCK.

There are three Negaunee boys suffering with fractured arms, two having been injured while playing the third falling from a wagon. Eugene Houle, youngest of Cyril Houle, has his arm in a sling; Louis Townsend, son of C. V. R. Townsend, has his right arm tied up and Willie Swartzberg of Jackson street is in a similar fix.

AWAITING TAIT'S DECISION.

Cuban Church Property Purchase Price Thought too Great.

Havana, June 27.—Secretary Taft's decision relative to the purchase of the church property is awaited here with keen interest. The preponderance of public opinion is unfavorable to the purchase on account of allegations of a scandal in connection with the excessive price. The decision must be reached by July 1, as the church refuses to extend the option beyond that date. The property consists of two pieces, including a large site on the waterfront which is used for custom house purposes, and some ground at Santiago. General Wood contracted to buy the property during the first American intervention at a price approximating \$2,000,000. The government leased it for five years, with the right to purchase at the end of that period. The time limit expired a year ago and was extended for six months, with the

light of an additional extension for the same period, which the government took advantage of in February. Mr. Taft detected that the property be purchased, but a strong opposition developed, and Mr. Taft suspended his order pending an investigation. The principal contention of the opposition is that the property is not worth the price fixed. Governor Magoon has investigated the two pieces here, and it is believed that Mr. Taft will order their purchase and direct that an investigation be made of the Santiago property.

EVERY MAN HIS OWN DOCTOR.

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must, from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's Remedies have been in the market for many years and enjoy a good reputation.

Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. Chamberlain's Cough Remedy for coughs, colds, croup and whooping cough. Chamberlain's Pain Balm (an antiseptic liniment) for cuts, bruises, burns, sprains, swellings, lame back and rheumatic pains.

Chamberlain's Stomach and Liver Tablets for constipation, biliousness and stomach troubles.

Chamberlain's Salve for diseases of the skin.

One bottle of each of these five preparations costs but \$1.25. For sale by The Stafford Drug Co.

A man who is in perfect health, so he can do an honest day's work when necessary, has much to which he should be thankful. Mr. L. C. Rodgers, of Branchton, Pa., writes that he was not only unable to work, but he couldn't stoop over to tie his own shoes. Six bottles of Foley's Kidney Cure made a new man of him. He says, "Success to Foley's Kidney Cure." The Stafford Drug Co.

PROSPERITY INCREASING.

Business This Year Greater Than That of Same Period in 1906.

New York, June 27.—After a careful canvass of the large commercial and financial interests of New York to obtain at first hand an accurate insight into the business conditions of the country, it can be announced that there are no signs of a diminution of the prosperity which the United States has been enjoying that the volume of business for the first six months of this year, has been greater than for the same time in 1906, that failures have been fewer, and that the prospects for the last six months of 1907 are full of encouragement. There can, of course, be no safer gauge of the commerce of the country at large than the condition of business in New York, the great distributing center, whose numberless industries represent the occupation of those inhabiting the many different parts of North America.

Among the manufacturers approached each, of course, discusses the business situation from the standpoint of his own industry, but the basis for the conclusion that there is no danger of a reversal of conditions is the views of about a dozen large firms, representing as many industries, who express the same optimistic predictions of an era of even greater prosperity.

Contrary to what appears almost general belief, the inactivity of the stock market has not had any great effect on the mercantile industries. Merchants who do not include optimism and pessimism in their stock of trade have not only not been affected by the stagnant condition of Wall street, but apparently are little interested in it. Of far greater import to them is the wage rate, which, the Tribune learns from reliable sources, has been higher for the last six months in nearly all branches of industry than ever before.

The unseasonable spring weather had a detrimental effect on the retail business of the country, but not to any alarming degree, for, since the coming of warmer weather, things have improved, and manufacturers report that collections have been entirely satisfactory. This is a certain indication that the small people have not suffered enough to prevent them from meeting their obligations.

As to the fall and winter trade, which has already opened for the manufacturer, orders are beginning to come in with a regularity to justify the prediction that the last six months of 1907 will show a greater volume of business done than the first six.

AWAITING TAIT'S DECISION.

Cuban Church Property Purchase Price Thought too Great.

Havana, June 27.—Secretary Taft's decision relative to the purchase of the church property is awaited here with keen interest. The preponderance of public opinion is unfavorable to the purchase on account of allegations of a scandal in connection with the excessive price. The decision must be reached by July 1, as the church refuses to extend the option beyond that date. The property consists of two pieces, including a large site on the waterfront which is used for custom house purposes, and some ground at Santiago. General Wood contracted to buy the property during the first American intervention at a price approximating \$2,000,000. The government leased it for five years, with the right to purchase at the end of that period. The time limit expired a year ago and was extended for six months, with the

N.P. LEGION GETS VERY HEAVY BLOW

IS REPORTED THAT LEGISLATURE OF NEW YORK HAS PASSED A LAW HITTING IT.

"DIVIDENDS" ARE FORBIDDEN

Assessment Companies Put Under More Stringent Regulations—Legion Is Strong in the Upper Peninsula.

According to reports lately received here the National Protective Legion, with headquarters at Waverly, N. Y., has been given a body blow by the New York legislature—one that will practically put it out of business in the state.

Because the National Protective Legion is organized under the New York laws the statute referred to above will, it is said, compel it either to change its headquarters and organize in another state or to give up its distinctive feature of dividends and re-organize in some form permitted by the New York law.

Strong in Upper Peninsula. In the upper peninsula, which is a veritable paradise for fraternal and insurance organizations of all kinds, the National Protective Legion has had a big following, and there are many hundreds of people who are interested in anything that concerns its welfare.

Despite the fact that the principles underlying the organization have been severely attacked at times, the legion has had no trouble getting members and in fact is growing in strength.

"Pay Off" the Feature. The distinctive feature of the legion's operations has been the "pay off," or the settlement of the fee-year dividend, in which it has been the rule that the member get back his total payments in assessments and a liberal bonus besides, representing the interest on the investment.

WANT LAKE STREET REPAIRED. Complaint Because Washout Near Freight Depot Is Not Fixed.

There has been considerable complaint by merchants and business men the past two days because of the delay in filling the washout at the north end of the freight depot.

UMBRELLAS. We have a full line of umbrellas at marked-down prices. You may need an umbrella very soon.

DELIVERY DELAYED.

Parts of Water Wheel Will Not Be Here for a Month Yet.

When the light and power commission placed an order for parts for the water wheel with the Dayton Globe Iron works it expected that it would receive them in time to install them the latter part of this month.

CLERKS GET PROMOTIONS.

Five Employees at Marquette Postoffice Granted More Pay.

SPENT NIGHT IN JAIL.

Three Young Women Punished for Frequenting Saloons.

Three young women, two from the western end of the county and one living here, spent Wednesday night in the city lock-up.

WILL RESIDE IN MARQUETTE.

The St. Paul Daily News, date June 26, has the following in its social column:

The marriage of Miss Edna Zenius and William A. Brown, Chicago, was solemnized Tuesday evening at the home of the bride's mother, Mrs. Emilie Zenius, Lincoln avenue.

"MRS. SMITH'S OTHER HUSBAND."

The Mack-Leone company's bill this evening will be "Mrs. Smith's Other Husband," a comedy new to Marquette but which is credited with a sixteen weeks' run at Power's theater at Chicago.

300 CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Marie, Mich., June 27.—[Special.]—The upbound boats passing the canals the last twenty-four hours were the following: Fairbank and wholeback, 9:20 p. m.; Conestoga, 9:40; Wexford, 10; Dunham, Algonquin, Seagun, Caribou, 11:30; Princeton, Marcin, Griffin, midnight; Turret Crown, 2 a. m.; Watt, 3:30; McDougall, Holden, 5:20; Malietta, 6:20; Leonard, Bago, 7; Samuel Mather (big), Fulton, 9; Pollock, Beatty, 9:30; Pellatt, 11; Schoolcraft, Nester, Bourke, noon; Langham, 1 p. m.; Twin Sisters, Neptune, James Reed, D. G. Kerr, Dundee, 3:30; Magestic, 4:20; Buffalo, Northern Light, 6:30.

Marquette Port List.

L. S. & I. dock: Cleared—Choctaw, Andaste, Ashtabula. Loading—Presque Isle.

No boats arrived at the South Shore docks yesterday. The Abyssinian is at the coal docks.

UMBRELLAS.

We have a full line of umbrellas at marked-down prices. You may need an umbrella very soon.

RECORD ORE SHIPMENTS.

Are Looked For During the Month of June.

As the close of the month of June is at hand lake mariners are curious to learn what the ore shipments for the month will be.

This port will contribute none of the expected increase. Indeed shipments here have been behind the average. The L. S. & I. dock, where labor troubles during the month have greatly hampered operations, has fallen considerably behind, and the South Shore also had a little labor trouble, though it did not interfere with the ore movement to speak of.

In order that the total ore shipments for the season surpass those of previous years, the shipments during June, July, August and September must average around 6,000,000 tons, and so the present rate of carrying ore down the lakes must be kept up right through the summer.

FIREFIGHTERS ARE WARNED.

Fake Chaldean Missionaries Working a Money-Making Scheme.

Archbishop Messner is issuing printed personal letters to different priests in his district instructing them to warn congregations against Chaldean and Persian priests, who are now on their way to America on a money-making expedition.

Some years ago two Oriental adventurers, impersonating Catholic prelates, came to America and secured several hundred thousand dollars from unsuspecting charitable people.

Archbishop Messner has issued a circular letter to all the pastors of the diocese asking them to exhort their parishioners to be generous in their contributions to the Peter's Pence collection taken up for the pope on the first Sunday in July.

IT IS SERIOUS.

Some Marquette People Fail to Realize the Seriousness.

The constant aching of a bad back, the weariness, the tired feeling, the pains and aches of kidney ills are serious if neglected.

GREAT REDUCTION IN LADIES' SUITS.

All of our ladies' suits, ranging in prices from \$10 to \$30 each. Your choice, while they last, \$5.

STOP THE LEAKS.

Now is the time. That is our business. The best shingles for the least money.

WE ARE

The only people in Marquette county who manufacture practically everything needed for a building.
