

SECRET REPORTS READ AT BOISE

Copies of Documents Taken from the Pinkerton Agency by a Former Stenographer Play Part in the Haywood Trial.

None Contain Other Than General References to Collateral Issues of the Case, but Are Offered in Substantiation of the Claim Mine Owners Have Conspired to Destroy the Federation—Show the Union Under Complete Detective Surveillance.

Boise, July 1.—Morrison Friedman, the stenographer who left the employ of the Pinkerton agency at Denver to write a book in which he published certain confidential reports of the agency that passed through his hands, was again today the principal figure at the Steinberg murder trial.

More than half the day was occupied in reading to the jury copies of documents which Friedman took from the Pinkerton records. They were chiefly daily reports of secret agents operating as spies among the unions and union men at Cripple Creek, Victor, Globeville, Colorado City, Trinidad and Denver, and showed a complete surveillance of the Western Federation of Miners and the United Mine Workers of America during the labor troubles in Colorado in 1903 and 1904.

Friedman said that if he had known this trial was coming up he would have taken many more letters and reports. Senator Borah, for the state, pressed him to tell just what reports there were in the Pinkerton office at Denver, bearing directly on this case, and while the witness said that he could not tell him of any particular one, he remembered many letters written by Detective McFarland in which all manner of crimes were laid at the door of the Western Federation of Miners.

Ex-Guardian Interesting Witness. Another interesting witness was James I. Wallace, an attorney, of Cripple Creek, who served with the militia, first as a private and then as lieutenant, during the strike of 1903-4.

ALCOHOL FROM CACTUS. Unique Plan of Newly Organized Company in the Southwest.

El Paso, July 1.—Within six months this will be completed and in operation in El Paso a plant for the extraction of alcohol, ether and fiber from all forms of cactus plant. This concern will be known as the El Paso Chemical & Fiber company and will have a capital stock of \$500,000, subscribed for almost wholly by local men.

MAY SUTTON WINS EASILY. Messrs. Wright and Behr Also Victorious in English Tennis Tournaments.

London, July 1.—In the all England tennis championship games at Wimbledon today, May Sutton, California, won an easy victory over Miss Meyer in the ladies' open championship singles. Beals C. Wright and Earl H. Behr, Americans, defeated A. W. Gore and Roper Barrett in the doubles championship.

THREE AMERICANS PARTICIPATING IN GREAT AUTOMOBILE CONTEST IN FRANCE.

Dieppe Race-track Tribune, Tuesday, July 2.—5 a. m.—The Grand Prix automobile race started this morning in the presence of fifty thousand people. Lancia, in a Fiat car, shot by the stand first. Christie, in his American machine, was twelfth. Heath, another American, driving a Panhard, was twenty-fifth, and Elliott E. Shepard, also an American, was the thirty-second man to start. The distance to be traveled is 477 miles.

Springfield, Ills., July 1.—Governor Deussen today reappointed A. Hanby Jones of Robinson state pure food commissioner, and Edgar T. Davis of Chicago state factory inspector.

WAGES GO UP.

Pay of Chicago Street Car Men Increased 7 to 10 per Cent.

Chicago, July 1.—Nearly 7,000 men employed on street car lines and elevated roads in Chicago received an advance in wages today of 7 to 10 per cent. The total number of car men who have been recipients of financial favors by corporations since May 1 is 10,000.

GARBAGE COLLECTORS RETURN.

Grievances of New York Teamsters to Be Settled by Mayor McClellan.

New York, July 1.—The striking drivers of garbage teams voted this afternoon to return to work and then submit their grievances to Mayor McClellan. The mayor had previously notified them that he would give them no consideration until they returned to work.

Ice Situation Much Relieved. The danger of an ice famine in Greater New York due to the strike of drivers employed by the American Ice company seems to have passed by reason of the victory of the independent dealers. Both the ice company and the drivers claimed tonight that they had the better of the situation.

MUST RETURN FEES.

Springfield, Ills., July 1.—Notices were issued today to a number of former state treasurers and auditors that unless they pay into the state treasury within the next thirty days the fees which they collected while in office, proceedings will be commenced in the courts to collect these fees.

STRIKE-BREAKERS CLICKING KEYS

OPERATORS FROM OUTSIDE POINTS IMPORTED BY THE FRISCO TELEGRAPH COMPANIES.

San Francisco, July 1.—The first installment of strike-breakers to take the places of telegraph operators now on strike reached San Francisco yesterday and were put to work in the main offices of the Postal and Western Union today. More men are expected to arrive within two or three days.

The strike is over, said Superintendent Storey of the Postal Telegraph company today. "The strike is over," said Manager O'Brien, of the Western Union. "The strike has just begun," said President Small, of the Telegraphers' union. These three laconic statements adequately described the attitude of the opposing parties and give a hint as to their future action.

Although the officials of both companies here in San Francisco are but volunteers and could not of their own volition take any steps toward settlement, it is not thought likely that any such steps will be taken while the local officials report that they are handling business without unreasonable delay.

The operators, on the other hand, state that they will carry on the fight even though the companies find a man for every key, and they declare they are prepared to stay out six months if necessary. Their leaders, however, say that they expect to win in much less time, and President Small prophesied that lightning would strike soon in unexpected places, but did not explain his remark.

Reno, Nev., July 1.—As the result of the action of Superintendent May in dismissing two operators in the Reno Western Union office on Friday, the four other operators quit work today.

DAUGHTER FIGHTS WOODMEN.

Over Tenacious Grave Monument Is Unveiled to Order's Founder.

Denver, July 1.—Over a tenacious grave in Fairmount cemetery, the Woodmen of the World yesterday afternoon unveiled the magnificent monument to the memory of the late Head Council F. A. Falkenberg, unveiled it with imposing pomp, while the daughter of the dead, Mrs. Falkenberg-Fallis, still had her application pending in the district court asking a permanent injunction restraining the Woodmen from using the name of her father on their monument. Mrs. Fallis is determined that her father's body shall never be moved, and if she wins her suit for an injunction the stone will serve only as a tribute and memorial and will not mark the grave of the deceased head of the big fraternal order.

MAY SUTTON WINS EASILY.

Messrs. Wright and Behr Also Victorious in English Tennis Tournaments.

London, July 1.—In the all England tennis championship games at Wimbledon today, May Sutton, California, won an easy victory over Miss Meyer in the ladies' open championship singles. Beals C. Wright and Earl H. Behr, Americans, defeated A. W. Gore and Roper Barrett in the doubles championship.

THREE AMERICANS PARTICIPATING IN GREAT AUTOMOBILE CONTEST IN FRANCE.

Dieppe Race-track Tribune, Tuesday, July 2.—5 a. m.—The Grand Prix automobile race started this morning in the presence of fifty thousand people. Lancia, in a Fiat car, shot by the stand first. Christie, in his American machine, was twelfth. Heath, another American, driving a Panhard, was twenty-fifth, and Elliott E. Shepard, also an American, was the thirty-second man to start. The distance to be traveled is 477 miles.

Springfield, Ills., July 1.—Governor Deussen today reappointed A. Hanby Jones of Robinson state pure food commissioner, and Edgar T. Davis of Chicago state factory inspector.

BRUTAL CRIME IN WISCONSIN

Search for Jennie Rehle, Aged Sixteen, Results in the Discovery of Her Murdered Body Near Her Home at Wausau.

Accosted on Her Way from Church, It Appears That She Had Been Dragged Into a Strip of Woods and There Cruelly Put to Death—Hands Are Found Tied Behind Her, and Finger Marks on Her Throat—Two Suspects in Custody of the Police.

Wausau, Wis., July 1.—Jennie Rehle, daughter of John E. Rehle, aged sixteen, was assaulted and murdered Sunday afternoon in a strip of woods along the road near her home. She was on her way from church at Stratford when accosted. The body was found today.

The girl's hands had been tied behind her and her clothes were torn to shreds. A rib on her left side had been broken. There were finger marks on her throat, and it was shown at an autopsy that the girl had been choked to death.

Two men have been arrested on suspicion. They gave their names as Irvie Bartlett, of Nashville, and James Mackey, of Chicago.

EVIDENCE INSUFFICIENT.

Father Suspected of Little Daughter's Murder Is Released.

New Orleans, July 1.—A sensational turn was given today to the case of Viola Boylan, the nine-year-old girl who was found murdered and buried in the cellar of the home of her parents, when the girl's father, Thomas Boylan, was arrested. Boylan was taken before a magistrate, where he was discharged, there not being sufficient evidence against him to warrant his detention. When arraigned Boylan maintained that he had no actual knowledge about the murder of the child, and his wife gave evidence in his favor.

NEW ORLEANS ITALIANS INDICTED.

Two of them women, were indicted for murder today in the Lamana kidnaping case. While it is admitted by the prosecution that certainly not more than one of those indicted had anything to do with the actual strangling of the boy, the others are alleged to have known enough about the kidnaping to have prevented the murder.

KILLS DAUGHTER AND HERSELF.

Deed of Mrs. Joel Thomas, an Indian Territory Woman.

Ardmore, I. T., July 1.—Mrs. Joel Thomas of Roll today shot and killed her eighteen-year-old daughter and herself and fatally injured herself. Mrs. Thomas left a note to her husband in which she declared that she could not live long on account of ill health, and that she could not bear to be separated from her daughter.

QUARREL ENDS IN MURDER.

Traveling Salesman Shot and Killed by a Nebraska Livestockman.

Lincoln, Neb., July 1.—J. A. Corey, a traveling salesman for a wholesale hardware establishment at Hastings, Neb., was shot and killed by Charles Glose, a livestockman of Hallam, twenty miles from Lincoln, this afternoon. The men quarreled about the manner in which Corey's team had been cared for. Glose surrendered.

TROOPS IN READINESS.

Danger Seen of Outbreak of Apache Indians in Arizona.

El Paso, Tex., July 1.—The troops at Fort Apache, Arizona, it is announced, have been ordered to be in readiness to proceed to Fort McDowell, Arizona, where, it is said, an outbreak of Indians is feared as a result of the killing of Austin Navjo, an Apache, last Saturday by W. H. Gill, sub-agent at McDowell, who claims to have shot the Indian in self-defense.

DAMAGES DENIED.

Court Decides an Important Point Developed by 'Frisco' Quake.

San Francisco, July 1.—An important legal point developed by the earthquake of a year ago was settled today when Judge Sewall decided that contractor and property owner were put on a level by act of God, and neither could recover from the other in cases of misfortunes resulting from the earthquake.

WILL BUILD A COLLEGE.

Milwaukee, July 1.—After debating the matter for six years the Missouri synod of the English Lutheran conference appointed a committee on ways and means today to raise funds to build a central college and to report in two years. Adolph Peterson and Peter Lies of Buffalo were elected trustees of the synod.

COE COLLEGE ENRICHED.

Under Rapids, Ia., July 1.—Coe college today completed a fund of \$280,000, including \$45,000 from Andrew Carnegie for a science hall and \$50,000 from the general education board for the endowment.

WEATHER FORECAST

Washington, July 1.—The following is the weather bureau's forecast for Upper Michigan: Fair, Tuesday and Wednesday, with rising temperature; light to fresh variable winds, becoming south.

HARRIMAN ORDERS CHANGE OF POLICY

DETAILS OF ALL ACCIDENTS ON RAILROAD SYSTEM WILL BE GIVEN FULL PUBLICITY.

New York, July 1.—The policy of informing the public of the details of all accidents on the railroads composing the Harriman system was put into effect today by order of E. H. Harriman, according to an official announcement made by the Union Pacific. It is stated that Mr. Harriman has ordered that full reports shall be made and promptly given the press concerning all accidents on the Union Pacific and Southern Pacific systems and on the Oregon lines.

It is also announced that it has been decided, as an experiment, to invite outsiders of local reputation and standing to be present and to participate in the hearings of the company's board of inquiry into accidents, making formal reports, either agreeing or disagreeing with the findings of the board.

BASEBALL

STANDINGS OF THE CLUBS.

Table with columns for National League, American League, and P.C. listing teams like Chicago, New York, Pittsburgh, Philadelphia, Cincinnati, Boston, St. Louis, and Washington with their respective records.

Table with columns for National League, American League, and P.C. listing teams like Chicago, Cleveland, Philadelphia, Detroit, New York, St. Louis, Boston, and Washington with their respective records.

TODAY'S GAMES.

New York at Brooklyn. Boston at Philadelphia. Cincinnati at Chicago. St. Louis at Pittsburgh.

GAMES PLAYED YESTERDAY.

Chicago, July 1.—The locals used three of their pitchers, and won after Pittsburgh had scored two runs in the first. Summary: R. H. E. Chicago 2-10-10-0-0-0-2-7-0. Pittsburgh 2-0-0-0-0-0-0-2-7-2.

WAR GAME OPENS.

Guns of Fort Adams Put Ship of the Enemy Out of Business.

Newport, R. I., July 1.—The opening feature of the war game to be played during the next two weeks by order of the war department, with the defenses of Narragansett bay as the center, was an unopposed attack tonight upon Fort Adams by ship of the "enemy."

WILL REINFORCE ASIATIC FLEET.

Cruisers Denver and Cleveland on Their Way to the Far East.

Aden, Arabia, July 1.—The United States cruisers Denver and Cleveland spent four days here before they were to join the American fleet in Chinese waters. Much hospitality was shown the Americans ashore and was reciprocated by entertainments on shipboard.

GREAT LAKES STATION.

Navy Department Awards a Contract Involving \$1,500,000.

Washington, July 1.—The navy department has awarded to the Noel construction company of Baltimore for \$1,500,000 the contract for the construction of eleven buildings for the Great Lakes naval station, to be located at North Chicago.

OPENED TO SETTLEMENT.

Cass Lake, Minn., July 1.—One hundred persons were in line before the land office here when the doors were opened to those wishing to file on claims in the Chippewa Indian reservation. Lewis Larson of Foston, who had been first in line since May 22, filed on a valuable farm. Perfect order prevailed.

PUBLIC DEBT DECREASES.

Washington, July 1.—The monthly statement of the public debt shows that the debt, less the cash in the treasury, now stands at \$878,596,753, a decrease for the month of \$16,185,775. The cash in the treasury increased during the month nearly \$11,000,000.

JAP BOYCOTT HELD UNLIKELY

Officials of the Mikado's Embassy Do Not Take Seriously the Talk Coming from Tokio of Commercial Reprisals.

In the End, They Say, Such a Policy Would Act as a Boomerang—They Have Made No Complaint Because Countrymen Are Denied Permission to Open Intelligence Offices at Frisco, It Appearing This Right Is Solely That of Americans.

Washington, July 1.—The fact there is no apparent discrimination as a race against the Japanese who made application in San Francisco to establish intelligence offices, and who were refused this privilege, has been received with evident satisfaction by the officials of the embassy here, and they say that this being the case there is nothing for them to do, nor have they any comment to make.

It seems that under the ordinance the San Francisco police commissioners had decided to permit such establishments to be conducted by American citizens only. It was said at the embassy today that no communication on the subject had been received from the home government which required any diplomatic representations to the state department.

The officials at the embassy prefer not to take seriously any talk of boycotting American goods which come from Tokio, because of their belief in the unlikelihood of such movement, which in the end they think would prove damaging to Japanese interests.

Horde of Orientals Coming.

Honolulu, July 1.—Arrangements are being made to charter steamships, each of which will carry 2,000 Japanese from Honolulu to Vancouver, B. C.

WON'T RESTRICT MUCH.

New Laws Not Expected to Greatly Affect Immigration.

New York, July 1.—The new immigration laws, with numerous restrictions upon the reception of undesirable foreigners, went into effect today with no appreciable effect on the stream of immigrants passing through Ellis island in the country. The immigration officers said they believed no great reduction in the number of migrating Europeans will follow from the new rules.

WAR GAME OPENS.

Guns of Fort Adams Put Ship of the Enemy Out of Business.

Newport, R. I., July 1.—The opening feature of the war game to be played during the next two weeks by order of the war department, with the defenses of Narragansett bay as the center, was an unopposed attack tonight upon Fort Adams by ship of the "enemy."

WILL REINFORCE ASIATIC FLEET.

Cruisers Denver and Cleveland on Their Way to the Far East.

Aden, Arabia, July 1.—The United States cruisers Denver and Cleveland spent four days here before they were to join the American fleet in Chinese waters. Much hospitality was shown the Americans ashore and was reciprocated by entertainments on shipboard.

GREAT LAKES STATION.

Navy Department Awards a Contract Involving \$1,500,000.

Washington, July 1.—The navy department has awarded to the Noel construction company of Baltimore for \$1,500,000 the contract for the construction of eleven buildings for the Great Lakes naval station, to be located at North Chicago.

OPENED TO SETTLEMENT.

Cass Lake, Minn., July 1.—One hundred persons were in line before the land office here when the doors were opened to those wishing to file on claims in the Chippewa Indian reservation. Lewis Larson of Foston, who had been first in line since May 22, filed on a valuable farm. Perfect order prevailed.

Washington, July 1.—The monthly statement of the public debt shows that the debt, less the cash in the treasury, now stands at \$878,596,753, a decrease for the month of \$16,185,775. The cash in the treasury increased during the month nearly \$11,000,000.

RICHARD CROKER HONORED.

Freedom of the City Voted Him by the Dublin Corporation.

Dublin, July 1.—The corporation of Dublin decided today, 28 to 13, to confer the freedom of the city upon Richard Croker, whose horse, Orby, won the derby at Epsom, June 5.

FLAG OF REVOLT NOT RAISED.

Rumored Revolution in Guatemala Fails to Come to a Head.

Guatemala City, July 1.—It was persistently rumored here last week that yesterday, the anniversary of the raising of the standard of rebellion by the leaders of the reform movement of 1871, would also be the date for action on the part of a revolutionary party said to be coming from Mexico. The origin of the rumors is unknown, but they had a disquieting effect. As a counter demonstration the adherents of the administration organized a great gathering of their partisans. President Cabrera received the leaders and patriotic speeches were made.

Nothing further has been done in the cases of those found guilty of participation in the plot against the life of President Cabrera. Sentence, however, has been pronounced on another lot of minor political offenders, a number of whom have been sentenced from five to ten years in prison.

The government officials say they are prepared to resist any movement from the Mexican frontier. A large force of Guatemalan troops has been assembled there under command of a former officer of the French army.

DICTATOR CABRERA KILLING OFF FOES

MANY MORE GUATEMALANS CONDEMNED TO DEATH ON TRUMPED-UP CHARGES.

Mexico City, July 1.—Word reached Mexico City tonight that President Cabrera of Guatemala had caused the arrest of one hundred and sixty citizens of that republic on a charge of alleged complicity in the recent attempt to assassinate him. All were thrown into prison and later hurried into squads of twenty or thirty in groups. Two hands have been tried and many of the accused sentenced to death. Among the men imprisoned are some of the most wealthy and prominent men in the country. The statement is made that these men have long been on Cabrera's black list, and that the charges against them were trumped up for political reasons.

When the news of wholesale arrests in Guatemala became generally known, the diplomatic corps, except United States Charge d'Affaires Brown, protested. No attention was paid to these protests by President Cabrera. The British minister was thereupon charged with drawing up a note detailing the incidents of the trial, which was characterized as a farce. This note is to be sent to the powers.

The dispatch states that absolute chaos reigns in Guatemala. Farm hands are being impressed for military service and crops are rotting in the fields. The rich are threatened with ruin unless they contribute to the war fund. Troops are being hurriedly rushed to the Mexican frontier and the Honduran border and San Salvador. Special trains of artillery are being sent out to the frontier. The legations are being besieged by relatives and friends of the imprisoned men, who fear they will be unceremoniously put to death.

REVOLUTION STILL FEARED.

Troops of the King of Portugal Are Kept Under Arms.

Lisbon, July 1.—King Charles has promised Premier Franco to sanction martial law should such measure become necessary in order to uphold the monarchy. Although order has been restored, the troops are still kept under arms for fear of a renewal of the rioting.

At the moment of the departure this afternoon of the crown prince, Louis Philippe, on a tour of the colonies, a number of persons on board a tug in the harbor indulged in a hostile demonstration. The police at once surrounded the vessel and arrested those on board.

PROSPECTS ATTRACT.

American Exodus to Canada Increasing, Reports Lord Strathcona.

London, July 1.—Sir Wilfred Laurier, premier of Canada, was the guest of honor at the Dominion Day dinner at the Canadian club tonight. Lord Strathcona, high commissioner for Canada, president, and in his address referred to the increase of American immigration into Canada, declaring that many American Northwest prospects were better and that peace and order were more assured in Canada than in the United States.

VOLCANO HORROR IN CHILE.

Santiago, Chile, July 1.—Valdivia despatches report that Rinalhue volcano is ejecting huge columns of boiling water, which together with stones and ashes have caused the death of fifteen Indian families. Every living thing in the neighboring country was killed.

Albany, N. Y., July 1.—The seismograph at the state museum measured a fairly large earthquake movement today. The disturbance originated, apparently, about 7,000 miles to the southwest.

ROYAL MEETING ARRANGED.

Berlin, July 1.—The Vienna correspondent of the Tagblatt telegraphs that King Edward and the emperor of Austria, Francis Joseph, are to meet at Karlsbad in August.

BANK MERGER ABANDONED.

Chicago, July 1.—It was formally announced today that the proposed merger of the Commercial National and Continental banks of this city has been abandoned as not feasible.

BALTIMORE CONCERN FAILS.

Baltimore, July 1.—The banking and brokerage house of McKim & Co. was placed in the hands of a receiver this morning. No statement as to the liabilities and assets was issued.

MINERS TO GO INTO POLITICS

Leaders of the Western Federation Plan to Organize an Industrial Party and Nominate a Presidential Candidate.

New Preamble to the Constitution Is Adopted by the Denver Convention, Which in Effect Pledges All Members of the Union to Socialism—Class Struggle Exists, It Is Recited, and the Producer Is Despoiled of the Wealth His Labor Produces.

Denver, July 1.—The convention of the Western Federation of Miners today adopted a new preamble for the constitution which in effect pledges all members to socialism. It is the announced intention of the leaders of the federation to call a convention in Chicago for the purpose of organizing an industrial political party which will place a ticket in nomination for the next national election.

The preamble passed by the federation today declares that there is a class struggle in society, and that this struggle is caused by economic conditions; that the economic condition of the producer is that he is despoiled of the wealth he produces, being allowed to retain barely sufficient for his necessities; that the class struggle will continue until the producer is recognized as the sole master of his product; that the working class alone can and must achieve its own emancipation; that an industrial union and the concerted political action of all wage workers is the only method of attaining this end.

BIG PACKERS FAVORED.

Small Poultry Dealer Complains of Freight Rate Discrimination.

Lincoln, Neb., July 1.—Complaint was filed with the state railway commission today by J. G. Raeschlin, a poultry dealer of Aurora, Neb., against the St. Joseph & Grand Island railroad. He charges the road with discriminating in favor of packing companies on carload shipments to San Francisco by giving the regular through rate from the Missouri river while he has to pay the local rate. He alleges the big companies have the advantage of from \$24 to \$100 on each car.

RETURNING TO CLEVELAND.

J. D. Rockefeller to Spend the Fourth With Family at Forest Hill.

Cleveland, July 1.—From an authoritative source it was learned today that John D. Rockefeller expects to spend the Fourth of July with his family at Forest Hill. He possibly will arrive in Cleveland tomorrow.

Strictest Secrecy Enjoined.

Chicago, July 1.—In order that the government's efforts to bring John D. Rockefeller into court next Saturday may be successful, District Attorney Simms today enjoined the strictest secrecy upon all people connected in any way with the case.

BIG MORTGAGE FILED.

Chicago City Railway to Spend \$500,000 in Improving Lines.

Chicago, July 1.—A mortgage on the properties of the Chicago City Railway company was recorded today, calling for an issue of bonds for \$10,000,000 due in twenty years, at 5 per cent interest. The money is for use in the general improvement of the company's lines and is the first step in carrying out the reorganization plans provided for by the ordinance passed last April.

VETED BY THE GOVERNOR.

Wisconsin Bill Regulating the Issue of Stocks and Bonds.

Madison, Wis., July 1.—Because he believes it would give reorganized railroad companies unrestricted powers in issuing stocks and bonds and give the holders of preferred stock unfair privileges and preference over the holders of common stock, Governor Davidson today vetoed the bill regulating the issuing of stocks and bonds by corporations.

PULLS OUT OF TEXAS.

Prudential Follows the Action of Other Insurance Companies.

Newark, N. J., July 1.—The Prudential insurance company today announced that, following the example of other life insurance companies, it would withdraw from Texas, considering it impossible to comply with the law recently passed in that state.

BANK MERGER ABANDONED.

Chicago, July 1.—It was formally announced today that the proposed merger of the Commercial National and Continental banks of this city has been abandoned as not feasible.

BALTIMORE CONCERN FAILS.

Baltimore, July 1.—The banking and brokerage house of McKim & Co. was placed in the hands of a receiver this morning. No statement as to the liabilities and assets was issued.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$3.00; Per year, by mail, \$30.00.

MARQUETTE, MICH., JULY 2.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

All roads lead to Marquette Thursday, and visitors will be welcomed over any road.

Mr. Rockefeller is about as successful in keeping out of the way as was Pat Crowe a few years ago.

Despite serious efforts to secure a sane Fourth the physicians are, as a general rule, preparing for the usual number of emergency calls.

"Keep the wounds open," the doctors give warning in connection with the Fourth of July demonstrations. Better still, "don't make any wounds."

Marse Henry Watterson's "dark horse" for the Democratic nomination for president is Governor Johnson of Minnesota. Now for the chorus of "we knew it all the time."

Now that Marse Watterson has revealed the identity of his "dark horse" the last hope of Michigan Democrats who perhaps thought that the lightning was going to strike them is blasted.

Mr. Harriman says he had no intention of violating the rules of the course at the Yale-Harvard boat race, and that his offense was unintentional. Mr. Harriman should have the full benefit of this statement.

We are informed that all the copperdom towns except Houghton will celebrate the glorious Fourth. Houghton, it will be remembered, has a baseball team on its hands. Perhaps it hasn't the spare change for other luxuries.

The Fourth of July season is a dangerous one at the best. The more "dons" people carefully observe the less danger of injury and fire there will be for the general public. The best "don't" for parents to heed is "don't let children of tender years shoot off fireworks or firecrackers without close supervision."

F. L. Baldwin of Escanaba is not to manage the resuscitated Mining Journal, but is to continue the Escanaba Journal. However, the new editor of the Journal is to be a newspaper man who had an extensive training under Mr. Baldwin, so we presume all the typical characteristics of the old Journal will be developed in the new Journal.

C. W. Hecox of the Soo was a candidate for membership on the state railroad commission. Mr. Hecox is a Democrat and wanted to represent his party on that body. However, as the prospective Republican members are not lawyers, it is essential that the Democratic member be of that profession, and this shrew Mr. Hecox out of the race, and he is only a newspaper man. He was well supported from the Soo and from many other unexpected sources, and though he isn't going to land he expresses much appreciation of the friendliness shown toward his candidacy.

Secretary Taft characterizes a current report of dissatisfaction in the canal zone and unsatisfactory progress of the work there as a "tissue of lies," saying: "No immediate change is contemplated in the administration of affairs on the isthmus. The work there appears to be progressing admirably. It is true that in a recent month the excavations made under Colonel Goethals were 150,000 cubic yards less than under his predecessor, but this was due to a strike and to causes beyond his control. Colonel Goethals will have all the help in the way of army officers he may need, with a view to the thoroughness of the work he has in hand. His assistants I am leaving to his own selection, nominating those whom I think will be able assistants and leaving it to him to confirm them."

The Lansing Journal says that Governor Warner's vetoes, while not numerous, are commendable. In order to save the people of the state the expense of re-enacting the National Guard bill vetoed the military bill. Four or five local bills which were found to have been passed for political reasons and contained schemes for shaking up matters in sev-

eral localities also fell under the veto ax. Aside from the military bill no general acts of the legislature were vetoed. Certainly no particular fault can be found with the governor for the character of his vetoes. It is characteristic of the present governor, the Journal says, to get along with as little friction as possible, and as a rule to sign all bills presented by the legislature that are not clearly dangerous. Vetoes have never been filed in cases where bills were simply unnecessary. Governor Hughes of New York has taken the position that unnecessary legislation is quite as objectionable as some vicious legislation and by liberal use of the veto power he has kept off the statute books of the state many local bills, and prevented unwarranted meddling in local affairs by the state assembly. It is regretted that Governor Warner did not use the veto more liberally on this class of bills.

The Sunday issue of the Chicago Tribune published a table setting forth some impressive figures on the decline in securities from the high figures to the low figures for the past six months of the present year. Railroad stocks are shown to have had a falling off of \$1,361,605,000 from the high to the low figures. Industrials are credited with a loss of \$600,991,550, giving a total loss for the railroads and industrials enumerated of \$1,971,496,550, or nearly two billions. The only copper stock taken into account is Amalgamated, in which the shrinkage between high and low was over \$86,000,000. In addition to the great losses mentioned above are the losses on all the coppers, outside of Amalgamated, and we people of the Lake district know how tremendous has been this falling off. It is an enlightening commentary on the great wealth and prosperity of the country that such a stupendous shrinkage of values has been accompanied with so little financial disaster. The houses that have gone down have been few and of little account. No big brokerage establishment or bank has gone to the wall. The present prices are, in most cases, somewhat above the low for the six months' period, so some of the loss set forth has been made good, but there is still a tremendous discrepancy between the high valuations of the year and the present valuations. Meanwhile, however, there is very fair promise for much of the loss being made up. The country is as sound as a good nut, and there are many signs of confidence being, in a measure, restored. The swing of the pendulum has gone too far in one direction. The farthest part of the swing is believed to have been reached and the pendulum is now, it is hoped, making its return trip.

TWO ALARMED CANDIDATES.
The recent speeches of Judge Gray and of former Attorney General Knox are being linked together by the commentators, and as Judge Gray is prominently spoken of as a possible Democratic nominee for the presidency and Mr. Knox has already been named by the Pennsylvania Republicans as a Republican candidate the apparent agreement of the two on the question of constitutional concentration causes an interesting situation.
Judge Gray, being an old line Democrat who has never quite fallen in with the later organization of the party, one would naturally expect to hear from him a defense of state rights. The recent assumption of powers by the federal government seems alarming to him and he voices the views of those who fifty years ago and more deplored what seemed to them unwarranted invasions of the rights reserved to the states. His speech reads very much like those delivered before the Civil war.
Mr. Knox seems to be nearly as much alarmed as Judge Gray. In fact he seems to fear that the constitution as a whole is about to be cast overboard. In one of his addresses he solemnly warns the people of Pennsylvania that "the nation seems to be approaching a time when in the face of storm it will permit the charter to be cast overboard. A serious duty devolves upon the guardians of the republic to rally to the constitution, and I appeal to you as members of Pennsylvania's delegation to be in the forefront of the defenders of the great charter of our liberty."
If there are any considerable numbers of Republicans who feel as Mr. Knox does we might expect to see those who revolt against the leadership of the radical Bryan in the one party and those who revolt against the radical Roosevelt in the other unite to organize what might be called the constitutional party.
The concentration of power in the hands of the federal government is receiving much thoughtful attention lately. It does not anywhere appear, however, that there has been any serious invasion of state rights. Local government is as safe as it ever was and is not interfered with in the least by the federal government. The greater oversight exercised over interstate commerce puts immense power in the hands of federal officials, but it is needed. Political rights are not infringed and until they are prophets like Judge Gray and Mr. Knox will not attract much of a following.

AS TO NEWFOUNDLAND.
The relations of the two British colonies to the north of us with their mother country and their attitude toward the United States are naturally matters of interest to us. When Premier Laurier of the dominion grandiloquently told England that Canada had said goodbye to her trade with the United States and desired now to trade only with members of the British empire and with such European countries as will give her concessions we pricked up our ears a little, for the trade to which Canada, according to her premier, has said goodbye is the most valuable trade she has.
Can it be that irritation across the border has increased to such a degree that the Canadians are willing to do themselves a great injury in order to do us a comparatively slight one? Their recent ultimatum that American periodicals must pay higher postage while English ones are admitted for lower rates than ever before seems to betoken a studied determination to lessen American and increase British influence.
While this change has been taking place in Canada—how great a change is shown by the fact that Premier Laurier was first elected a decade ago as an advocate of more friendly relations with the United States—seemingly a change of another and a more intelligent sort has been taking place in Newfoundland. Canada has wooed Newfoundland persistently but vainly. Newfoundland has had grievances against the United States greater than those of the dominion. Newfoundland has been injured in her greatest industry in order that the Gloucester fishermen might profit. Newfoundland has tried to protect herself by local laws and has seen those laws nullified by a compact between the United States and Great Britain, who treated her as a third party whose interests were of no consequence. Premier Bond has protested against this treatment vigorously, but without avail. And as a result the impression seems to be growing in Newfoundland that protection against the Gloucester trade can be secured better within the American Union than outside it. In that way she can prove her value to us.

For Newfoundland's trade is growing. In 1902 exports and imports together totaled \$17,400,000. In 1906 they totaled \$22,500,000. And the forest and agricultural resources of the island have scarcely been touched. During the year 1906 Newfoundland's imports from the United States amounted to \$3,609,192, an increase of \$859,948 over those of 1905. Meanwhile the imports from the United Kingdom remained stationary while those from Canada decreased \$383,450. Decidedly it is a question whether Newfoundland does not offer the United States enough to make fair treatment of her worth while.

BRITISH SETTLE FIRE LOSSES.
According to special reports received, the British insurance companies doing business in San Francisco, have practically completed the settlement of all losses in the recent earthquake, thus sustaining their reputation for promptness and fairness. The best and surest way to settle any disturbance of the stomach or digestive organs is to commence taking Hostetter's Stomach Bitters. For 54 years it has been sustaining its reputation as a sure cure for poor appetite, belching, heartburn, sour risings, dyspepsia, indigestion, cramps, diarrhoea, sick headache, dizziness, insomnia, constiveness, female ill or nervous, fever and ague. Every sufferer from any of the above ills is earnestly advised to try the Bitters without any further delay. It cannot help but do you good. We guarantee every bottle absolutely pure.

WAS IN POOR HEALTH FOR YEARS.
Ira W. Kelley, of Mansfield, Pa., writes: "I was in poor health for two years, suffering from kidney and bladder trouble, and spent considerable money consulting physicians without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring the health of others." Refuse substitutes. Sold by The Stafford Drug Co.

Poor Paint is Expensive

If one is rich enough to repaint his buildings every year for the pleasure of having a change of color scheme, the quality of the paint used may cut little figure. But if it is desirable to cut the painting bills down to the least amount possible per year, it is of the utmost importance that the paint be made of

Southern Pure White Lead

and the best of Linseed Oil. There are imitations in the form of alleged White Lead, and there are substitutes in the form of ready-prepared paints.

We guarantee this White Lead to be absolutely pure, and the Dutch Boy on the side of every keg is your safeguard. Look for him.

SEND FOR BOOK "A Talk on Paint" gives valuable information on the paint subject. Free on request.

NATIONAL LEAD COMPANY 1510 State Street, Chicago, Ill.

For sale by all dealers.

Upper Peninsula

Dandelion Pest Rampant

The assertion is made that Manistique is raising more dandelions to the square foot than any other city in the peninsula. They are destroying and disfiguring lawns to such an extent that in time a concerted effort must be made to eradicate them.

Wreck Plundered by Pirates

Land pirates have scuttled the steamer Nichol stranded last fall at Summer Island, Lake Michigan, and the wreck is practically valueless. Sledges were used in breaking up the machinery in order to remove the brass trimmings, and the spars and smokstack were also cut down.

Mayor Wickwire's New Post

The appointment is announced of George Wickwire, mayor of the city of Manistique, as deputy general manager of the upper peninsula and Beaver Island, Lake Michigan, for the Woodmen of the World. The mayor has been a prominent member of the fraternal order concerned for some years past.

Youthful Fisherman Drowns

Fishing from a small pier at Three Lakes, Marquette county, the small son of Ole Lund, section foreman at that place, fell into the water and was drowned. The discovery of his cap and fish-pole, floating in the lake, gave the clue to the mystery of his absence when search had been instituted for the youngster on his failure to arrive home at the time expected. Dragging operations were successful in recovering the body.

Summer Invasion In On

The annual influx of lower peninsula college students to Upper Michigan has commenced. The invaders enjoy an unequalled climate and usually sell a sufficient quantity of books and cooking utensils during the summer season to pay the fixed charges for another year at college. Other college students, as is an annual custom, are employed during the resort season as waiters and porters at hotels at Mackinac Island.

Boy Killed by Street Car

Gordon Bailey, the three-year-old son of George Bailey, of the Soo, was the victim of a frightful accident, when street car No. 24 of the Easterday avenue belt line ran over him and crushed both legs below the knee. It appears that when on the corner of Ashmun and Spruce streets he was playing with two other children and in order to avoid one of them who was running after him, he darted to one side and fell under the wheels of the car. Death resulted some hours afterward.

Train Kills a Farmer

While in the act of throwing a stone at his cows in an attempt to persuade them to cross the roadbed more speedily, William Hupp, a farmer of Wauveville, Dickinson county, stumbled over a rail, fell across the track, and before he could regain his feet was struck by the engine of an approaching car train in the Wauveville yards, was hurled off the tracks, and died within fifteen minutes of the occurrence of the accident. One of his arms was broken, also one of his legs, and his body was much mutilated. He was a former Iron Mountain man.

His Latest Venture Dairying

Walter S. Prickett of Sidney is doing admirable work in the interest of agriculture in this north land. Under his guidance, not only has a large tract of rough land been transformed into productive and well kept fields, but he is giving practical lessons that agriculture in all of its kindred branches can be carried on successfully in the upper peninsula. Mr. Prickett's latest venture is dairying, and he is being followed by the most approved methods and on an extensive scale. He will have a herd of 150 cows at the start. Mr. Prickett is a veritable path blazer in things which pertain to agriculture.

Summer School at Escanaba

The summer school sessions arranged for delinquent pupils of the Escanaba public schools are now in full swing at the Franklin building. The work is in charge of C. R. Cobb, of the high school faculty, and two assistants. A total of fifty students are enrolled but an announcement is made that there are many other delinquents, especially in the high school department, who should take the work in order that they may proceed with their regular classes when the new school year is opened. The summer school is arranged for the special benefit of all pupils in all departments of the

Upper Peninsula

public schools who for any reason were conditioned in any subject carried by them last year. By taking the summer school course it will be possible for all of the delinquents to enter school in the fall with a clean record.

Politics at Manistique

The light company and the liquor dealers who made an unsuccessful attempt to land the majority last spring, are judging from rumors rife, determined not to remain buried but are already making plans for the capture of the city administration next year, asserts the Manistique Pioneer-Tribune. Mr. Gerb, manager of the light company, is to be the candidate. The contract between the city and the light company expires next year and a grand effort will be made, says the Pioneer-Tribune, to land a board of aldermen and a mayor that will be willing to give the company in question the "long end of it." The liquor dealers are also chafing under present conditions, and while they do not stone returned law spring in their endeavor to defeat Wickwire, they doubt a greater effort, if that were possible, will be made next spring. However, continues the Pioneer-Tribune, the community has placed itself on record as being in favor of having the "bit" placed on, and at the same time it has presented the efforts of non-residents placing a handicap on the city by foisting an alleged obnoxious and one-sided franchise upon it.

Menominee Wins Out

The deadlock over the location of Menominee county's agricultural training school was finally broken at a special sitting of the county board, when it was unanimously decided to erect the institution within the limits of the city of Menominee. At the close of the preceding session, when the voting stood eleven for Menominee, six for Carney and one for Stephenson, an adjournment was taken until evening. After that, one of the leading county supervisors, after careful consideration of the comparative values of the sites and situations as they stood, announced that he intended shifting and voting for Menominee. The county supervisors, realizing that this one vote was all that was necessary to bring the school to the city, went into caucus and after a short discussion decided to cast a solid ballot for Menominee. The city park and the forty acre tract adjoining, owned by S. M. Stephenson and Mayor Augustus Spies, will be presented to the county for the location of the school. The city will purchase the Spies and Stephenson property at a nominal cost and then formally turn the deeds over to the Agricultural school board.

ONE MAN'S EXPERIENCE IN WESTERN CANADA

There Are Thousands of Opportunities in This Land of Opportunity.
To the Editor:
Dear Sir:—The following experience of an Illinois man who went to Western Canada six years ago is but one of the thousands of letters that could be republished showing how prosperity follows the settler on the fragrant lands of Western Canada. This letter was written to the Chicago agent of the government of the Dominion of Canada and is dated at Everts, Alberta, April 30th, 1907.
"It is six years the 5th of this month since I and family landed in Red Deer, family sick and only \$75 in my pocket. Bought a \$12 lot, built a 12x14 shack and went to work as a carpenter. Next day sold for \$200 that added 10x18 building to shack. Purchased two lots at \$70 each and built a 23x25 two story building and sold for \$950. Filed on a quarter section 33 miles N. W. of Red Deer and have spent three years on it and am well pleased. Quarter all fenced and cross fenced, wire and rail, 2 1/2 miles of fence. House 23x31 feet on stone foundation. Last year was my first attempt to raise grain, 1 1/2 acres of fall wheat, yield grand, but was frosted August 2nd, was cut August 16th and made good pig feed. Had 1 1/2 acres fall rye that I think could not be beat. A farmer from Dakota cut it for me—he said he never saw such heavy grain anywhere. Straw was 7 feet high. I had 4 acres of 2 rowed barley on fall breaking that did not do so well, yet it ripened and gave me all the feed I needed for stock and seed for this spring. I did not have grain threshed, so can't give yield, but the wheat would have gone at least 25 bushels to the acre. Have a log stable 21x35 feet, broad roof and two smaller building for pigs and chickens.
I have lived in Harvey, Ills., and know something about it. I have been hungry there and though able and willing to

work could get none to do. One Saturday evening found me without any support, or a cent to get it with; a friend surmising my situation gave me a dollar, which was thankfully accepted and later paid back. Wife and I are thankful we came here. We were living near Mt. Vernon, Ills., as perhaps you remember visiting me there and getting me headed for the Canadian North West, and a happy day it has proved for me. I have not grown rich, but I am prospering. I would not take \$5,000 for my quarter now. The past winter has been a hard one, but I worked outside the coldest day (32 below) all day and did not suffer. We are getting a school started now that is badly needed.

Our postoffice, Everts, is about fifteen miles; there is another office six miles, but it is not convenient to us. Wife and I would not exchange our home here for anything Illinois has to offer.

Yours truly, (Sd.) E. EMBERLEY.

City Brevities

Today's weather: Generally fair; stationary temperature for an entire day. Yesterday's temperatures: Seven a. m., 53 degrees; noon, 52; 7 p. m., 53. Maximum, 56 degrees; minimum, 51.

Miss Maney went to Duluth last night. The Tionesta was in port yesterday morning, westbound.

W. B. Castle, of Pickands & Co., went to Chicago last night.

Mrs. Edward J. Pradell, of Philadelphia, is in the city to visit relatives.

Merrill Heffel returned to Green Bay last night after a few days' visit with friends here.

The Misses Edith and Mabel Russell left yesterday morning for a few days' stay at the Payne camp.

Louis Cone, who has been working for The Mining Journal the past few months, left last night for Escanaba.

Mrs. MacKenzie, who has been a guest of Mrs. E. N. Breitung, left yesterday afternoon for Westport, a resort near Petoskey, Mich.

George Preston has obtained the store in the Coles block, South Front street, and will be prepared to serve 1,000 people there the Fourth of July.

Mrs. M. C. Gaffney, who has recently returned to Negaunee after some months' sojourn in California, is the guest of her daughter, Mrs. Fred Reinhardt, East Front avenue.

The members of the Scandia society are requested to turn out in a body for the Fourth of July parade. They will meet in their hall some time before the parade is billed to move.

Deputy Warden Catlin, of the Marquette prison, arrived home yesterday from Ionia, where he had taken an insane convict to the asylum for the criminally insane.

The resignation of F. J. Jenkinson as a member of the board of fire and water commissioners was transmitted by Mayor Robertson to the council last evening. His successor will probably be named at the next meeting of the council.

Miss Mabel Brown arrived home yesterday afternoon from Cheboygan, Mich., where she has been teaching in the high school. Miss Brown has accepted a position at Petoskey for next year, and Miss Gladys Brown will also teach there.

There will be a meeting of the fire department this evening at 8 o'clock. A large attendance is desired, as arrangements are to be made for turning out in the Fourth of July parade, and other important business is to be transacted.

"The Mysterious Mr. Raffles" will be the bill which the Mack-Leece company will offer at the opera house this evening. "The Christian" was played last evening, and drew the usual big house. The troupe continues to give excellent satisfaction.

The committee of the supervisors and the park, cemetery and street committee of the council plan to look over the ground in connection with the proposed changes in the Powder Mill road today.

The Passon company wants the present road abandoned in favor of a route running farther west.

William Rivers, who was drowned out in the basement of the Riedinger block during the heavy rains a week ago Sunday night, is moving his saloon fixtures across the street on Baraga avenue to a vacant room in the old Red, White and Blue block, not wanting to take the risk of another inundation.

The Mack-Leece company, now filling an engagement at the opera house, has arranged for a special matinee the afternoon of the Fourth. The bill will be "Mrs. Smith's Other Husband," which was presented with excellent success last week. For this matinee the regular evening schedule of prices will be charged.

Dr. Winship at Normal—Dr. A. E. Winship was heard in his opening lecture at the Normal yesterday afternoon by a large and interested audience. He is a pleasing and instructive speaker. Dr. Winship will be heard again today and tomorrow.

National Organizer Coming—Mrs. L. E. Bayly of President Park, Staten Island, N. Y., will be in the city Sunday and Monday, July 7, and 8, concluding her stay here with a lecture at the Presbyterian church Monday evening. Mrs. Bayly has been in the upper peninsula the past month. She is credited with being a forcible and eloquent speaker.

Big Cargo of Cement—The steamer Scammon was in port yesterday, discharging a cargo of 3,800 barrels of cement for F. B. Spear & Sons. There has been a shortage in the cement supply the past few weeks, and some trouble has been caused thereby. It will be relieved by the cargo received yesterday.

Company's Plans Not Settled—In the past few days a number of directors of the Portage Entry Quarry company have looked over the situation at the South Marquette quarry. However, no decision as to what will be done has yet been reached, though the Marquette officials of the company expect word very soon. They expect to be ordered to prepare for a resumption of operations.

Has Received Official Copy—City Attorney Brown has received an official copy of Representative Gordon's bill for the regulation of the liquor traffic in Marquette. The law was passed in the same form in which it was published in The Mining Journal a few weeks ago.

Mr. Brown was prepared in opinion in regard to it. He says it contains a number of puzzling provisions and in his opinion there is some question as to just how it will work out.

Has Made the Rounds—A prisoner was received at the Marquette penitentiary who now has the unique record of having served time in the four penitentiaries of the state. He is Morris Inghell, sent up from Wayne county for forgery, with a sentence of from four to fourteen years. Previous to his being sentenced to the Marquette prison he had served time in Ionia and Jackson institutions and at the Detroit House of Correction. He was brought to Marquette by Sheriff Burns of Wayne.

Plans Held in Abeyance—The Knights of Columbus, who some time ago had practically decided to take a lease of the second floor of the old Thumber building on Washington street, to be used for club rooms, have given up the plan, for the time at least, and will continue to use the present club rooms in the Nester

block. The membership of the Marquette council of the order is large and the present rooms are too small, so it is likely that within a short time the members will make arrangements to occupy some other quarters.

Griffin's Troubadours Coming—Griffin's Troubadours have been engaged by the Knights of Columbus for an entertainment and dance to be given at the Fraternity hall the evening of July 11. There is an excellent orchestra, which is assisted in a concert program by a reader. On the conclusion of this program, which lasts from 8 until 10 o'clock, there will be dancing to music furnished by the orchestra. The organization filled an engagement for the traveling men last year, and is making a return trip to this territory.

Lawn Social This Evening—There will be a lawn social this evening at the home of Louis Pinnard, at the foot of Champion street. The grounds will be illuminated, and refreshments will be served. Sweet's orchestra will furnish a program of overtures. The affair is given for the benefit of the new French church. It is expected that work on the tower of the church will be started shortly after the Fourth. Lipsett & Sinclair have been delayed in getting at it by the difficulty in securing a sufficient force of masons.

Fourth of July Novelty—Peter White & Co. will give to each little girl who will call at their office tomorrow afternoon at 2 o'clock an advertising novelty in the shape of a "cracker" which will make a good loud report but which positively cannot injure anyone. The little girls shouldn't miss this opportunity. A Fourth of July novelty that has created much interest this year is a dummy giant cracker. The fuse is lighted and burns on with the threat of a loud explosion. However, when it burns out it releases a spring, the cracker falls apart and a miniature figure of a man is revealed.

Taken Back to Prison—Lewis Fleurette who was out on a parole was yesterday taken back to the Marquette prison, having been arrested by Chief Manning on complaint of the prison officials. Fleurette was released March 13 last, getting employment in a livery stable here. His record following release was not a good one, he refusing to work steadily and having been involved in minor trouble. The prison officials had close watch kept on him, and finally decided that it was useless to give him any more chance. Fleurette was sent up from Schoolcraft county for rape in 1894, having been given twenty years. The fellows is said to have completed arrangements for getting married Thursday of this week.

Work About the Schools—Ed Quarters, the head janitor of the schools, has been a busy man since the spring term closed. He and the other janitors tore out the four old furnaces in the Ely building, making ready for the installation of the steam heating plant, work on which has already been started by the contractor, E. J. Sink. New flag poles have been set at the North Marquette, Nester and Olcott schools, and considerable work has been done on the lawns surrounding the buildings. There is much other work to be done, though the new heating plant at the Ely building will be the most important improvement of the vacation season. The members of the school board inspected the premises yesterday, preliminary to ordering whatever improvements are necessary.

SERVICE KNOCKED OUT. Cross With Electric Light Wire Hit County Phone Company Hard.

The service of the Marquette County Telephone company was knocked out yesterday morning. The trouble occurred on Champion street, shortly before 7 o'clock, when an electric light wire touched one of the phone company's ret-n wires, charging it with a heavy current. As a result there was high jinks in the central office, without loss of time, all the jumpers on the charge rack being burned out. In addition a cable out on Third street was burned out. For a short time every phone connected with the exchange was out of commission, but work making the damage good was immediately started. Manager Ludington transferred about half the crew working on the new construction to the job of repairing the damage, with which good progress was made during the day. It is expected to have it entirely repaired before night fall. If it hadn't been that a number of extra men were available much of the company's system would be out of commission the greater part of the week.

WELLKNOWN COUPLE WEDDED. Miss Anderson and Duncan MacDonald United in Marriage.

Miss Eleanor Josephine Anderson, daughter of Mrs. Anderson, who manages the Summit house, and Duncan MacDonald, baggage man for the South Shore railroad in this city, were wedded Saturday evening at the home of the Rev. Ames Maywood, who performed the ceremony. An interesting feature of the wedding was the presence of the grandparents of the bride, Mr. and Mrs. T. Brown, and the nuptials were celebrated on the fifty-eight anniversary of their marriage. They supported the bride and groom. Mr. and Mrs. MacDonald left on a wedding trip to Denver, and will be at home to their friends here after a few weeks. Both have many friends in the city.

PARASOLS AND UMBRELLAS. A full line of fancy, silk and other grades at half regular price during the closing out sale at Seldenfeld's store.

Easy Starching
Kingsford's Oswego Silver Gloss Starch is the easiest to prepare; dissolves instantly, may either be boiled or used with cold water.
—Fastest to apply, for it penetrates to every thread and fibre.
—Fastest to iron, for it polishes quickly and never sticks.
In fact the ONLY Starch for perfect work is

KINGSFORD'S OSWEGO SILVER GLOSS STARCH

Use next starching day and you will be surprised and delighted at the life and brilliancy it gives to your linens and laces. Imparts a beautiful white finish not equalled by any other. Just the starch for shirt waists, skirts, neck wear, table-linen, curtains, etc. Unsurpassed for men's linens. Has been the standard of quality for over half a century.

BEST FOR ALL KINDS OF STARCHING
For general use boil as directed. For light starching unequaled as a cold water starch, requiring no boiling.

Made for over fifty years at Oswego. All grocers, in full weight packages.

T. KINGSFORD & SON, Oswego, N. Y.
NATIONAL STARCH COMPANY, Successors.

100 TO 1.

Where one man gets rich through speculation a hundred acquire a competence through saving, another hundred "go broke" because of their rashness. If you will leave with us a dollar of two a week—more if you can spare it from ordinary expenses—at the end of ten years you will have had the benefit of 3 per cent annual interest, that compounded (half) yearly. It counts up.

COOK WITH GAS

Ishpeming Department

(Additional Ishpeming on Page Seven).

GOES TO COPPER COUNTRY.
Ishpeming Man to Be General Superintendent of Ojibway Mines.

Andre Fornis, for the past eight years chief engineer of the Oliver Iron Mining company's properties on the Marquette range, is to be general superintendent of the Ojibway Copper Mining company's properties in Keweenaw county. He will leave today to assume the duties of his new position. His headquarters will be at Houghton. Mr. Fornis' successor with the Oliver company has not yet been named.

The Ojibway company will eventually have some large mines, as its lands are known to contain ores of great value. Diamond drills have been working on the tract, which comprises several hundred acres, since the company was organized some months ago, and the copper bearing quartz have been found in the outcroppings, as well as only a foot or two beneath the surface. Mr. Fornis will immediately select locations for two shafts, which he expects to get started within a few days. He visited the property a short time ago in company with L. L. Hubbard, the president, and it was then decided just about where the shafts are to be located. It is understood that additional shafts will be started as soon as the first two are well under way.

Mr. Fornis said yesterday that operations will be conducted on a large scale. The corporation is a strong one and its officers have a pretty good knowledge of what quality ore will be found. It was on the lands of this company that Mr. Hubbard some time ago located the Keearsarge lode. The mine will be three miles from the Mohawk property, and eight miles from Calumet. Thomas E. Cole, John D. Ryan, Captain Hoatson and Mr. Hubbard were prominent in promoting the company, and are its principal shareholders.

During the years Mr. Fornis has been connected with the Oliver company he has displayed excellent ability in his work. It was this that attracted the attention of Mr. Cole and the others at the head of the Ojibway.

DECORATIONS FOR THE FOURTH.
Special Electric Lights Being Strung on Main and Cleveland Avenue.

The committee on decorating for the Fourth of July celebration began its work in earnest yesterday morning. A meeting was held the previous day when plans were outlined. The stringing of electric wires between the telephone poles on Main street and Cleveland avenue has been started and it is expected that the lights will be turned on for the first time tomorrow evening. The work is being done under supervision of Foreman Brownell of the Marquette County Gas & Electric company. The lights on Main street will extend from the Nelson house to the city hall and on Cleveland avenue from Main street to the theatre alley, between Second and Third streets. The electrical decorations are to remain up until after the Sons of St. George celebration the 20th.

Five thousand yards of fancy decorating bunting for sale at Braastad's.

ISHPEMING'S INDEBTEDNESS.
Information to Be Issued for Prospective Bidders for Bonds.

City Recorder John D. West stated yesterday that a number of bids have already been received for the \$35,000 bonds to be issued by this city on account of the proposed improvement to the water system. Mr. West is advising the prospective bidders that the principal and interest on the bonds will be payable at Chicago or New York. To persons unfamiliar with the city, the information is given that Ishpeming's population exceeds 12,000 and that its assessed valuation for this year is \$6,913,000. The city's total bonded indebtedness, including the new issue of \$35,000, will be \$100,000. In addition to this the school district is bonded for the sum of \$45,000. No suits are pending or threatened affecting the title of the present officials to their present offices, or the validity of these bonds.

Several Ishpeming people have already signed their names to take up some of the bonds and as a number of outside parties have also been heard from in the same connection the city officials will have no difficulty in disposing of the entire issue at its interest rate of 5 per cent per annum. The interest will be payable annually and the bonds will

Japanese Porch Shades in all sizes at Braastad's.

SAW FINE BALL GAME.
Herma Jaenecke, who recently returned from the Mesada range, witnessed one of the finest baseball exhibitions he has ever seen a week ago Sunday at Hibbing. The Gophers of St. Paul and the Hibbing played a fourteen inning game without either team scoring until the last inning, when the Hibbing pitcher weakened and the visitors succeeded in sending four men across the plate. Mr. Jaenecke has seen a great many professional ball games in his time, but he has never witnessed one that pleased him more than did the contest at Hibbing. He reports an excellent trade on his last trip on the Mesada.

Largest stock of fancy bunting and flags carried in the county at Braastad's.

PARADE WORKERS TO MEET.
Len Johnson, chairman of the parade committee for the Fourth of July celebration, desires that all who are to participate in the parade as rough riders, cowboys, clowns, etc., to be on hand at 8 o'clock Thursday morning. The rough riders are to get their outfits at Braastad's Hall, and the clowns at the Cleveland-Cliff's office. The cowboys and others taking part, including those who are to have charge of the animal department, will meet at the city pond on Cleveland avenue.

be issued in denominations of not less than \$500 and not more than \$1,000 as may be desired by the bidder. The bids will be expected to forward their bids to the city recorder on or before the 15th instant.

See our list stock of July 4th decorations on second floor, at Braastad's.

ASHTABULA BAND COMING.
Members of the Finnish Temperance society have secured the Ashtabula band to give a concert here the evening of July 21. This is the best Finnish band in the United States and it is expected to take first prize in the band contest at the national reunion of the Finnish Brothers Temperance association at Calumet the 27th.

SALE OF TICKETS TOMORROW.
The sale of reserved seat tickets for Mrs. Leslie-Carter's engagement at Ishpeming theater Friday evening in her

famous production "Du Barry" will open tomorrow morning. This will be the most important dramatic event in Ishpeming's history, and from present indications the noted actress and her company will be greeted by a full house. The company will arrive here from the copper country at 1:30 o'clock Friday, so that there will be ample time to give the production proper staging.

TAKES ANOTHER MINE.
It has been learned that George A. St. Clair has succeeded in acquiring a perfect title to the old Northwestern mine property in the Felch Mountain district and that he is now planning to resume operations in the near future. The mine is now known as the Northern and was operated by Mr. St. Clair in a small way some six years ago. A shipment of over 7,000 tons of ore was made in 1903, and it has a total output to its credit of over 35,000. It is said to contain a large deposit of better than 50 per cent ore.

LOCAL LACONICS.

Water taxes are now due and payable at the city recorder's office.

Captain Samuel Mitchell will spend the next few days in Chicago on business.

The High School orchestra filled an engagement at J. E. O'Donoghue's drug store Saturday evening.

Mayor Winter and F. A. Bell left Sunday evening for Janesville and other points in Wisconsin to be absent a few days.

The foundation for the addition to St. Paul's parochial school is completed and the carpenters will soon begin to raise the frame work.

On July 3rd and 4th, the L. S. & I. road will sell tickets to all points on its line at the special Sunday excursion rates. Only the regular week day

trains will be run however on the Fourth.

Harry Trepilecock and bride arrived in the city yesterday morning from Milwaukee and Chicago. They will reside at Ishpeming.

A large number of Negaunee people were at Presque Isle Sunday, going down on the Lake Superior & Ishpeming railway excursion.

A number of the members of the Ishpeming lodge of Elks will attend the regular meeting this evening. Candidates are to be received.

Mrs. Samuel Mitchell and her daughter, Miss Myrtle, will entertain tomorrow afternoon between 4 and 6 o'clock. Trombly's orchestra will be in attendance.

When the concrete work now under way on Jackson street is completed the entire stretch between Cyr street and the Chicago & Northwestern railway will be provided with cement on the north side.

Street Commissioner Willman expects to complete operations on the road between the cemetery and the point where the work was finished last fall within a week or ten days. There will be six or seven weeks' work on the road west from the city line near Eagle Mills. A force of sixteen men is now employed on the job.

Men will be put to work today or tomorrow making a baseball ground in the Maas field. The diamond will be plowed and rolled, cinders and fine gravel being mixed for the top dressing. The outfield will need but little attention, as there are very few rough spots in it. The city will aid the committee in doing the work, using the roller on the diamond.

Henry Schwartz, who is directing the improvement work at the city building, is making excellent headway. The work on the foundation will be completed in about two weeks. It is expected the interior improvements will be started soon after the council meeting next week.

NEGAUNEE

DEFEATED IRON MOUNTAIN.

Six Members of Golf Club Won Tournament at Menominee Range Town.

George A. Newett, Max Barber and Will Newett of Ishpeming, and J. M. Perkins, Arthur Maas and T. M. Wells of Negaunee, all members of the Ishpeming-Negaunee golf club, defeated a team from the Iron Mountain club at the links in that city Saturday. The contest was well played by the members of both teams, the Ishpeming-Negaunee men winning by only fifteen holes. Messrs. G. A. Newett, Perkins, Barber and Maas each defeated their opponents and will Newett and Mr. Wells tied their men. Mr. Newett, who is considered to be the crack player of the Ishpeming-Negaunee team, was matched against Mr. Milliman, a commercial man who is said to be the strongest member of the Iron Mountain team. Mr. Perkins was matched against the next strongest man, Mr. Collet, defeating him by five up.

Mr. Newett broke the record of the Iron Mountain links, having completed one game in thirty-nine and the other in forty. The best previous record ever made at the links was forty-one. Mr. Perkins had the next best record of the Ishpeming-Negaunee contingent, his scores being forty-five and forty-six. The links are not as long as the one here, the total distance between the nine holes being 2,202 yards, while the Ishpeming-Negaunee links are 2,710 yards.

The visitors were pleasantly entertained by the members of the Iron Mountain club who opened their new club house that evening. A banquet was held. A team from the Iron Mountain organization is to be invited to the twin cities before the close of the season.

INCREASE IN SALARIES.

Postmaster, Assistant and Three Clerks to Receive More Pay.

Postmaster Thomas Connors, Assistant Postmaster Gauthier and the three clerks in the Negaunee postoffice have received increases in pay, commencing yesterday. Mr. Connors' salary was formerly \$2,100, his increase being to \$2,300; the assistant postmaster has been raised from \$1,000 to \$1,100, and the clerks are each to receive \$600, an increase of \$100 per year. The salary of the postmaster and the employees is based on the gross sales of postage stamps, postal cards, stamped envelopes, and the revenue received from the boxes. The sales in all departments have increased considerably during the past year, as has also the business in the money order department.

For the next six months all mail leaving the Negaunee postoffice will be weighed. This will increase the work of the employees considerably. Complete records of the weights must be kept and forwarded to the department at Washington.

Postmaster Connors said yesterday that the rules regulating the postoffice boxes would be more strictly enforced hereafter. Box rents must be paid strictly in advance and any boxes not paid for on the 12th of this month will be closed against the person renting it. Mr. Connors has at times had difficulty collecting the box rents, but now will show no favor to any one. While the remittances for the box rentals have always been made at a certain date, the postoffice has many times been obliged to forward its own money for boxes where the renters were delinquent.

BRONCOS ARE WICKED.

Some of the Animals Being Trained Here Do Some High Bucking.

"It would not surprise me to hear of more accidents caused by the broncos of the city," said a business man yesterday. "There are about thirty-five or forty of them in Negaunee. The majority of the animals are very wicked and their owners are having a hard time getting them under proper control. Most of them were brought to town last year. The one that killed John Kupola Saturday evening is one of the worst of the bunch. The animal was hardly ever driven to town that it did not create excitement on the streets. Two or three weeks ago Kupola had a close call from being injured on iron street. The animal became unmanageable and for a time it was thought that he would plunge through one of the store windows. "One can hardly blame the broncos for acting as they do, as they certainly get very rough treatment. I have seen some of the owners take cord wood sticks, to them, while others use black snake whips. Most of the animals are owned by people residing southeast of the city. Nearly every Sunday there is a procession of broncos on the Palmer road."

HERE TWICE A MONTH.

Rev. Carl Olson of Maple Valley, Wis., will conduct services for the Danish congregation of Negaunee twice a month hereafter. He was in the city Sunday, conducting services both morning and evening. The Negaunee congregation has not had a regular minister in some years, and it was only occasionally that services were held. Rev. Olson will remain in the city for three or four days on each visit. There are between forty-five and fifty Danish families in the congregation. The society has a half interest in the Swedish Lutheran church property, and all the services are to be conducted there.

MAY LOCATE IN TENNESSEE.

Captain T. H. Rodgers, formerly in charge of underground operations at the Mary Charlotte mine, will leave today, accompanied by his family, for Huntingdon, Tenn., where they may locate. Captain Rodgers has a number of relatives at Huntingdon and the family will remain there at least for a few weeks, if not for several months. Mr. Rodgers has had a number of opportunities to take positions in the Lake Superior district, but he some time ago decided to leave this region. He has disposed of his residence on Jennings street to Joseph Matthews.

"Let us have some Cudahy's Peacock bacon and calves liver for supper Mama," say young and old. (11-27-eod)

RANKS WITH THE BEST MINES OF THE WEST.

That the Report Kirby Thomas Makes on Kimberly-Willey—Superior Men in It.

[From the Superior (Wis.) Daily Telegram.]

A report on the Kimberly-Willey mine located near Leadville, Col., has been received by T. B. Mills of this city from Kirby Thomas. There are a number of Superior men interested in this property and Mr. Thomas has made an exhaustive report on the proposition for their benefit.

Mr. Thomas first wrote a brief report on his visit and then followed it with a more exhaustive one. The reports follow: Denver, Colorado, June 11, 1907. Hon. T. B. Mills, Superior, Wis.

Dear Mr. Mills:—I have been at the Kimberly-Willey mine since I returned with Mr. Russell and Mr. Check, and I have had an exceptional opportunity to go over the whole proposition. The company has a much better proposition than I had expected to find, and with the consolidation of the Willey property the proposition becomes about as certain a mining proposition as one could expect to find.

The Willey mine now is shipping about forty tons a day of shipping ore, which nets from eight to ten dollars a ton as shown by the returns from the smelter. This ore does not cost more than a dollar a ton to mine at most, and so you will see there is a substantial net income from this source.

The old mill has a capacity of about fifty tons a day, and concentrates about 2 1/2 to one, making a zinc, a lead, and an iron product, the latter two carrying the gold and silver values, principally silver. This mill and the shipping ore will enable the company to produce a net earning of \$100,000 to \$150,000 per month as it stands, as near as I can figure out.

This is on the old Willey plant as it stands, which is inadequate and poorly devised, and which ultimately will be replaced by the new modern mill, which is about two-thirds completed at this time, and which embodies the results of the elaborate experiments which have been carried on by Mr. Willey on his property to determine the best means of saving the values of the ore. Mr. Willey you know is the inventor of the Willey table, one of the most widely known devices in the matter of ore concentration, and he has also invented an idea in connection with the outfitting of the ore so as to prepare for separation in the magnetic machines, which idea he is working out on the basis of the experiments in the old mill. This plan will be applied in the new mill, and I am satisfied that it will be an effective device for the treatment of this class of ore.

The mine, or mines, include something like between 400 and 600 acres of land lying on Elk Mountain. There is an extensive system of underground workings based on three main working tunnels, which have opened up the ore and have been used for the extraction of the ore which was of sufficiently high value to ship and which did not contain a large percentage of zinc. It was only within the last four or five years that there has been any chance to secure a return from the zinc values in the ore. In fact the zinc has been a penalty on these ores until the more recent progress in the treatment of these complex ores has enabled them to raise the value of the lead and iron product, and to free it from the penalty and to also make a zinc product which has a market at a good price.

There is plenty of ore in sight in the Kimberly-Willey property to provide an immediate output for the new mill of, say, 250 tons a day, and this output can be continued for a long time with the present scheme of development. There is perhaps three-fourths of the property which is unexplored, and which it is certain contains ore, some of which is likely of bonanza grade; so you will see that they have here a pretty certain proposition as mining goes, and I feel quite safe in favorably recommending the proposition, both as a mine, and with regard to the plans which are being developed for the treatment of the ore.

The proposition with honest and competent management is pretty certain to pay out, and to pay a large profit. The company is capitalized at only \$300,000, so you will see that it is on a moderate basis in this respect.

I do not hesitate to say that this proposition is as promising and as certain as any mining proposition I have seen in the west here. It is not a prospect, but a mine, and with careful management and sufficient money to carry out the plans now under way, it is very certain to become a profitable mining operation, and there is a very large future before the whole proposition.

Yours truly, KIRBY THOMAS. Denver, Colorado, June 12, 1907. Hon. T. B. Mills, Superior, Wis. My dear Mr. Mills:—I wrote you yesterday in a general way about the Kimberly-Willey property, and indicated my favorable opinion of the operation. In conformity to my promise I am writing you now more fully of the property and its prospects.

ore bodies of this magnitude and character and under the physical conditions which exist at these mines. The ore is all taken out from the tunnels, and there is no pumping, and the general character of the rock and ore to be broken is such that the mining costs are very low.

I gave careful consideration to the question of ore developed so that it could be taken out at once for the mills and for shipment, and I am satisfied that in the two properties it would be a very easy matter to take out sufficient ore to run the two mills, 250 tons in the new mill, and fifty tons in the old mill, and perhaps some shipping ore in addition. There are dozens of faces of ore that can be immediately attacked, and the two properties surely could produce with the development as it stands now ore to supply these mills for a long time. Of course it is necessary and wise to carry on other development work at the same time, and there are favorable opportunities to do this.

I did not have the time to take definite data so as to make an estimate of the ore in sight at the mine. The company used, but this is not a very hardy necessity to do in properties as extensive as these are, and with as much ore exposed, and in ore bodies of the character that these are. What I have said in the above paragraphs practically covers this point.

Probably three-fourths of the ground in these properties has not been sufficiently explored, and there is a certainty of very extensive ore bodies below the tunnel level extending perhaps to the company's property line, a distance of a thousand feet or more. The company also owns several claims known as the Sulphide claims, which are practically unexplored. A large amount of the formation above the tunnel level is also a probable ore bearing ground. As it stands at present there is need of definite exploration, and the company's plans of the company should include a systematic scientific exploration of the property, and to this end a detailed examination of the geological conditions of the mine as disclosed by the underground workings would be very important.

The Willey property is equipped with a very poorly constructed mill, having a capacity of about fifty tons a day. The mill has been used largely for experimental purposes, and will serve for the present to handle the output of the mill pending the completion of the new mill. It is likely, too, that the old mill can be reworked to perform satisfactory work, thus increasing the ore treatment capacity of the property. This mill is equipped with concentrating table and a Willey furnace, and magnetic separators, the general scheme of which is the result of the extensive experiments carried on by Mr. Willey and which general scheme is being applied along correct mechanical principles and under favorable conditions, and the output which is now about two-thirds completed.

As the treatment of the ore is a vital point in connection with the operation and success of this proposition, I will go into it somewhat fully but not technically. The ore consists of a mixture of iron sulphide, lead sulphide, zinc sulphide, with various gangue minerals, such as calcite, quartz, etc. There are silver and gold values which are associated either with the lead or iron sulphides. The problem is to separate the iron sulphide from the other minerals in the ore, as this is not readily or successfully separated by the usual processes of treatment on concentrating tables because of its specific gravity being nearly the same as the iron sulphide. This has been done in various ways in the west here, and with a great deal of success. The plan that has been most generally introduced is to roast the iron sulphide until it is altered chemically, so that it becomes a magnetite, and then to separate this from the other minerals in the ore by passing it through magnetic separators of various types. The problem has been first to roast the ore so as to secure a uniform alteration of the iron sulphide and to have it in a condition that it can be separated under the action of the magnetic machines. This has been done by roasting in cylinder furnaces, and by various other devices. Mr. Willey has developed a roaster which apparently is very successful in accomplishing this part of the process, and I have seen the results of some very high authorities in metallurgy as a decided step in advance in the treatment of these complex ores. This Willey roaster is in operation at the Willey plant, and an improved design based on the same idea is being installed in connection with the Kimberly-Willey plant. I have no doubt of the success of the roaster, both because of the results obtained at the Willey mill, and because of the endorsement of Mr. Willey and other engineers. The principle is simple, and the results show that it is effective.

I understand the Kimberly-Willey company has the right to use this furnace without payment of royalty to Mr. Willey, the patentee, and this itself is a valuable right, and inexpensive when one is in a position to use it. It consists, briefly, of a vertical furnace chamber with a dividing partition. The combustion gases go up one flue, and at the top on the other side of the partition the ore, ground to four or five mesh, is fed in a hopper, longitudinal hopper. The ore comes in contact with the combustion gases at the effective point, and where they are at a temperature of about 1200 degrees Fahrenheit. As the ore goes down the other side of the partition, the cases of the chemical alteration desired is effected. This change is controlled by means of water jackets installed in the sides of the downward flue, and at the bottom the alteration is checked. It so operates that the different sized particles are proportionately altered so that the product, which is also granular as is desired, is in the best condition for the magnetic separation process. The magnetic separation in the Willey plant and the Kimberly-Willey plant is effected by Ding's magnetic separator, a standard device which has been found very successful with the Leadville ores and other ores of a similar character. The rest of the concentrating plant at the Kimberly-Willey is on accepted lines. The Willey concentrators are used, arranged as classifiers and separators, and a complete and logical system of rolls, screens and general devices for effecting the satisfactory separation of the minerals contained in the ore. The new plant is particularly well arranged to save the slime which goes off the tables, and to greatly lower the cost of mining which gathers in the flume chamber of the roaster and elsewhere in the plant in the course of the treatment of the ores. This dust is all gathered up and treated in a Buckingham filter and slime tank, where it is automatically settled and classified; and it is then further

treated by Willey tables and Fine vanator, thus extracting the very last measure of value from the ore. You will understand of course that the process is not as direct or simple as indicated above, but the plant provides for the most economical and complete methods of treating ores of this character, as I know from personal knowledge of many other plants arranged for the same purpose.

This new plant is about two-thirds completed, and should be in operation under ordinary conditions by September first, or perhaps a month later. In the meanwhile the company will have the Willey mill to operate, and while this is not as effective as it should be, it is in working order, and can be used for a profitable operation, and perhaps it will be wise to continue to use it after the new plant is in operation. It altogether likely that the development of the mine will justify and require the erection of another mill of equal capacity to the new one at an early date.

The iron product that comes from the magnetic separators carries some of the gold and silver values, and is very desirable as a flux in the smelters. This is one of the shipping products of the mill. The zinc and lead products obtained in the process of the treatment are seen, principally silver, being with the lead ores. The zinc product will have from 35 per cent to 45 per cent zinc in the scheme of operation in the old mill. The milling costs will probably be from \$1 to \$1.50 per ton.

There will be some shipping ore that can go direct to the smelter, but with the mill capacity provided it will be economy to treat all of the ore, as there is in most of the shipping ore some zinc, and under the present schedule, is accepted by the smelters but is lost. If the zinc exceeds 10 per cent a penalty is imposed. As to values in the ore the following schedule from a shipping table June 10, 1907, is fairly representative, although not as high as the average. This shipment of 209,780 pounds yielded 255 ounces of gold, 9.55 ounces of silver, and 7.35 per cent lead; a net value after deducting smelting and transportation charges \$9.08. There was in this ore 17.75 per cent zinc, which was lost in the smelter. This was the untreated ore.

The concentration process will reduce the product about two and a half to one, as the mill is already in operation, and it is probably profitable to handle low grade ore that can be reduced on a greater ratio, with economical conditions. The general conditions of mining are favorable. There is plenty of water all around the mine, and the fact that the access to the property from their branch lines about a quarter of a mile distant from the mill. The altitude of the property is about 11,000 feet.

I consider the Kimberly-Willey proposition as a very favorable one, and one that is as reasonably certain as you could expect in mining propositions. In fact I see no reason for failure under a conservative and honest management of the property, and there is the probability of a very large success in the operation. As the proposition now stands absolutely the Kimberly property, and that it has made substantial payments on the Willey property, and that the new mill has been paid for excepting about \$25,000. These properties with some improvements in the machinery and equipment already installed, represent a sum several times greater than the capital of the company, which is \$300,000, with 100,000 shares additional authorized for the securing of additional properties. There have been some mistakes in the early management of the property, which necessitate some additional expense, but the new management apparently is determined to make as few mistakes as possible, and I personally have every confidence in the honest and able management of the property as I have known Mr. Russell, the president, and Mr. Check, the vice president, and others of the organization personally for many years.

If I have not given you all of the information you want, let me know, and I will go into the details. I have an opportunity to go over the proposition very completely, as I wrote you, and I was very well satisfied with the general outlook and situation. Yours truly, KIRBY THOMAS. Denver, Colorado.

A Bold Step. To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients which he has used in the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merits, and made them common to the eyes of all. By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the scrutiny of the world.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, biliousness and all catarrhal diseases wherever located, have printed upon it in four languages the full and complete list of all the ingredients composing it, but a small book has been compiled from various standard medical works, of all the different schools of practice, containing very numerous extracts from the leading medical practitioners of medicine, endorsing in the strongest possible terms, and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free upon request to the publishers, by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book you will learn that Dr. Pierce's medicines contain no alcohol, narcotics, mineral acids, or any other poisonous ingredients, and that they are made from native, medicinal roots of great value; also that some of the most valuable ingredients are the "Squaw-Root," "Pine-Needle," and "Sassa-Parilla." Our knowledge of the use of not a few of our most valuable native medicinal plants was gained from the Indians. As made up by improved and exact processes, these plants furnish a most efficient remedy for regulating all the woman's functions, correcting displacements, as well as for the relief of nervousness, overcoming painful periods, toning up the system and bringing about a perfect state of health. Sold by all dealers in medicines.

Spanish Swindle Tried at Menominee—

A well-known citizen of Menominee is rejoicing because he showed Prosecuting Attorney J. M. Doye a letter he received from Tenerife, Canary Islands, a month written to lure the recipient to Spain for the purpose of bunking him. The prosecuting officer promptly made him wise to the fact that the letter was only one of many sent to this country and was a sample of an old dodge worked for years. The letter purporting to be from Rose Manual Diaz an absconding banker of Tenerife, who had wrecked his bank to the extent of 800,000 pesetas. Of this amount he had saved 285,000 pesetas concealed in a trunk and checked to London, England, but while he was endeavoring to escape, he was captured by the Spanish authorities. This trunk he was willing to turn over to the addressee for the sum of \$5,000 in gold at a certain place in Madrid. Prosecuting Attorney Doye at once communicated with the department of state at Washington and the American minister at Madrid. In the translation of the accompanying official documents, certificate of conviction, receipt of personal effects of Diaz and clippings from Madrid papers, the authorities advised by John W. Cohen, a German scientist and Spanish scholar, who stated that years ago a similar fraud was exposed by the German authorities, after many unsuspecting victims had been lured to Madrid, robbed and killed by Spanish brigands.

Pure Water for Escanaba— A conference which has been held between the officials of the Escanaba Water company and representatives of the common council and the Escanaba Business Men's association, it is believed, are to result in a satisfactory solution of a problem which has confronted the people of the Sandy City for a number of years. The city officials have agreed to construct a modern filtering plant, to be approved of by the state board of health before adoption, in return for a franchise of twenty years from this time together with a ten-year contract for furnishing water to the city. There are still a few points upon which the two opposing parties have not yet been able to agree but it is believed that the greater portion of the difficulties have been passed. The conference has resulted in the water company withdrawing its application for a thirty-year franchise and asking for a franchise for twenty years, and also offering a further reduction in rates to both private consumer and the city. President Weaver has been frank with the committee, impressing them with the fact that the water company, with its present franchise for nine years, is unable to float bonds and thus raise funds for a filtering plant. Some of the city officials and committee members have attempted during the conference to induce the company to make some offer for furnishing water taken from artesian wells, but the officials of the latter have refused to entertain a proposition of that kind, holding that it was not certain that they could obtain a sufficient supply from such a source. As the proposition now stands Escanaba can obtain a filtered water supply from the company by granting that corporation a franchise for a period of twenty years, but if an artesian water supply is desired it must be furnished by some other company.

Menominee Range Notes— Jessie Van de Bogart has secured a credit of \$12,000 because she was scalped by the machinery in the plant of the Menominee Paper company. The Northern Wisconsin & Michigan Odd Fellows' association will meet in Menominee Aug. 3d for its annual picnic and gathering for the discussion of the affairs of the society. W. R. Mitchell has been appointed district passenger agent for the Wisconsin & Michigan railway. He will continue to reside at Norway. This is Mr. Mitchell's second promotion within fifteen months. He is succeeded by J. E. Jackson as agent at Norway, an advance from the position of operator. Word has been received at Iron Mountain to the effect that the salaries of Misses Ogden and Dillon, clerks in the postoffice, have been increased \$100 per year, effective from July 1st. The salaries of Carriers James, Erickson and Fred L. Wright will also be advanced \$100 per annum commencing the same date.

NOTICE

To the Qualified Electors of the Republic Township School District, in Marquette County, Michigan:

Notice is hereby given that the following preamble and resolution was duly adopted by an unanimous vote of the Board of Education of said school district at a meeting of said board, held pursuant to a regular call therefor, in the said Township on Tuesday, the 18th day of June, A. D. 1907, viz: Whereas, the present main school house of this district is not adequate to the needs of the district, it is old and badly out of repair, it is

Resolved by the Board of Education of the Republic Township School District in Marquette County, Michigan, that it is necessary to build a new school house for said district and to borrow the money and issue bonds of the district to pay for the erection and furnishing of such school building. Further Resolved, that amount of money necessary to be raised for that purpose, is estimated by this board to be the sum of forty thousand dollars (\$40,000).

Further Resolved, that the site of the present school building be and the same hereby is suggested and designated by this board as the site for such new school building. Further Resolved, that there be submitted to the qualified electors of said school district at the annual school meeting to be held in said school district on Monday, the 8th day of July, A. D. 1907, the question of borrowing on the faith and credit of said district and of issuing bonds of said district in the sum of forty thousand dollars (\$40,000), at a rate of interest not exceeding five per cent, per annum, payable annually, the proceeds to be used solely for the purpose of erecting a suitable school building for said district on the site where the present school house of said district is now situated. Said money, so borrowed, to be paid in fifteen annual installments. The first installment thereof to be paid on the first day of March, 1908, and one installment on the first day of March of each year thereafter, until the whole amount is paid. The annual interest on all amounts unpaid to accrue at the same time that installments of the principal accrue. Said sum so borrowed to be repaid by spreading the same upon the taxable property of said district as follows: The first installment in the year 1907 and the other installments annually thereafter until the whole amount is raised and paid. All installments to be levied with interest at the time of the payment next following the year of such levy upon all sums unpaid.

Further Resolved, that the secretary of this board be and is hereby instructed to cause notice of such election to be posted in at least five conspicuous places in said district, at least ten days prior to said second Monday of July, 1907, and that said secretary cause such notice to be published in one of the newspapers printed and circulated in such county of Marquette for at least three successive weeks prior to the time of holding such election. Further Resolved, that the form of the ballot for such election shall be as follows: "To authorize the Board of Education of the Republic Township School District in Marquette County, Michigan, to borrow on the faith and credit of said district, the sum of forty thousand dollars at a rate of interest not exceeding five per cent for annual payments annually, and to spread upon the assessment roll of said township for the repayment of said money; the first installment in the year 1907 and the other installments each year thereafter until the whole amount is raised and paid. All installments to be levied with interest at the time of the payment next following the year of such levy, upon all sums unpaid, for the purpose of erecting suitable school house in said district, and to designate the site of the present main school building for said district, as the site for such new school building."

Yes. [] To authorize the Board of Education

No. [] Further Resolved that the secretary be and is hereby directed to take the necessary steps to cause said propositions to be placed on proper ballots for such election, to give the notice of such election herein required, and to prepare and furnish blanks for a statement of the vote cast at such election on the question hereby submitted.

GEO. MACDONALD, President of the Board of Education of said District. Attest: PETER W. PASCOE, Secretary. Notice is hereby further given that the questions embraced in the above resolutions will be submitted to the qualified electors of the Republic Township School District in Marquette County, Michigan, upon a separate ballot and in the form provided in said resolution, at the annual school election to be held in said district on Monday, the 8th day of July, A. D. 1907. The qualifications of voters on such question is fixed by the general school laws of the state of Michigan. The place of holding such election will be the place of holding the said annual school meeting. Dated Republic, Michigan, June 27, A. D. 1907. PETER W. PASCOE, Secretary. (6-23-04)

Pursuant to the resolution of the board of directors of the Lake Shore Engine Works, held at the office of the company in the city of Marquette this day, notice is hereby given that a special meeting of the stockholders of this company will be held at 2 o'clock p. m. on July 11, 1907, at the office of the company in the city of Marquette, Michigan, for the purpose of considering and acting upon the following questions: 1. The sale of the real estate of the company for the purpose of acquiring other real estate more suitable for the company's needs. 2. The retirement of the outstanding bonds and preferred stock of this company. 3. The issue of a new series of bonds to be secured by first mortgages upon all real property and fixtures of the company in such amount as may be determined upon at such meeting. 4. The retirement of the issue of preferred stock and the issue of common stock in place thereof, in such amount on such terms as may be determined at such meeting. 5. To authorize the increase of the capital stock of the company to such amount as may be determined at such meeting, and the execution by the president, secretary and board of directors of all necessary certificates, conveyances and other instruments required to carry out any of the purposes herein referred to. Dated, Marquette, Michigan, June 22, A. D. 1907. J. E. BALL, Secretary. (6-24-1907)

of the Republic Township School District in Marquette County, Michigan, to borrow on the faith and credit of said district, the sum of forty thousand dollars at a rate of interest not exceeding five per cent per annum, payable annually, and to spread upon the assessment roll of said township for the payment of said money; the first installment in the year 1907 and the other installments each year thereafter, until the whole amount is raised and paid. All installments to be levied with interest accruing at the time of the payment next following the year of such levy, upon all sums unpaid, for the purpose of erecting a suitable school house in said district, and to designate the site of the present main school building of said district, as the site for such new school building.

No. [] Further Resolved that the secretary be and is hereby directed to take the necessary steps to cause said propositions to be placed on proper ballots for such election, to give the notice of such election herein required, and to prepare and furnish blanks for a statement of the vote cast at such election on the question hereby submitted.

GEO. MACDONALD, President of the Board of Education of said District. Attest: PETER W. PASCOE, Secretary. Notice is hereby further given that the questions embraced in the above resolutions will be submitted to the qualified electors of the Republic Township School District in Marquette County, Michigan, upon a separate ballot and in the form provided in said resolution, at the annual school election to be held in said district on Monday, the 8th day of July, A. D. 1907. The qualifications of voters on such question is fixed by the general school laws of the state of Michigan. The place of holding such election will be the place of holding the said annual school meeting. Dated Republic, Michigan, June 27, A. D. 1907. PETER W. PASCOE, Secretary. (6-23-04)

Pursuant to the resolution of the board of directors of the Lake Shore Engine Works, held at the office of the company in the city of Marquette this day, notice is hereby given that a special meeting of the stockholders of this company will be held at 2 o'clock p. m. on July 11, 1907, at the office of the company in the city of Marquette, Michigan, for the purpose of considering and acting upon the following questions: 1. WEEKLY EXCURSIONS TO DETROIT AND RETURN \$13.50 Via the South Shore, leaving on early morning train on Saturday. Same rate to Alpena, Oscoda, Harbor Beach and Fort Huron. To Buffalo \$3.50 higher. Limit September 15th, 1907. For sleeping car and steamer reservation apply to ticket agents. (6-22-14)

In Your Own Home That's where you want to get acquainted with your sewing machine—and that's why we agree to send you a competent instructor from our local store. A competent instructor mind you, is not a time-driven, underpaid clerk from a department store. This is important, too; for if you get started right you will get double service out of your machine every day you use it, as long as you have it. It is our instructor's business to help you demonstrate to yourself the ease and certainty and ease of operation that has made these machines in millions of homes all round the world. They are built like a watch, down to the last little screw; that's why they will do three times as much work for you as most people get out of job-lot department-store sewing machines—and do three times as many kinds of work, too. BY THESE SIGNS YOU MAY KNOW AND WILL FIND SINGER STORES EVERYWHERE. Sold only by Singer Sewing Machine Co. Marquette, 108 N. Third St. Ishpeming, 129 S. Main St. Negaunee, Iron St. Hancock, 423 N. Fifth St. Escanaba, 713 Lunington St. Iron Mountain, 205 E. Houghton St. Sault Ste. Marie, 116 Ashmun St.

FINE PROGRAM FOR THE FOURTH

COMMITTEE COMPLETED FINAL DETAILS FOR BUSY AND EVENTFUL DAY LAST EVENING.

GOOD FREE SHOWS ENGAGED

Fireworks Display Will Be Unusually Gorgeous, and Parade Feature Will Be Highly Attractive—Other Details.

The arrangements committee for the Fourth of July celebration met last evening and put the finishing touches on the program. It is a big one, and an interesting one. There will be something doing from dawn on Independence Day into the wee sma' hours of the Fifth. It will be a grand free show, and the visitors will be invited and urged to make merry, with the assurance that they will have the full freedom of the city.

The finance committee for the celebration has met with excellent success. As a result there are several hundred dollars more money available than could be spent last year. The program will be proportionately better. The money will travel farther than would otherwise be the case because of the fact that the city is already brilliantly illuminated. On the night of the Fourth it will shine as the day, and the reflection on the clouds will be seen in the neighboring counties.

One of the best features of the program will be the free shows. The committee has booked a number of excellent offerings. These shows will be given on the large platform erected yesterday at the head of Front street, at a point where thousands can witness them in perfect comfort. For the entertainment of visitors abundant provision will be made. There will be many eating places, so that the usual discomfort in getting meals will be avoided.

Program for Day. The program, as decided on by the committee last evening, is as follows: 5 a. m.—Booming cannons. 6 a. m.—Feeding animals at the Zoo. 8 a. m.—Presentation of Japanese parasols and canes to the children at the city hall. 9 to 10 a. m.—Street masquerade carnival, for which liberal prizes will be given. All maskers must join in the street parade, after which they will receive their prizes. 11 a. m.—Grand street parade, "the best ever."

discharging at a great elevation superb silver showers. Grand illumination of entire surroundings, with red and blue lights of intense brilliancy.

Flight of large colored rockets, displaying the latest Manhattan Beach lights.

Nests of fiery writhing cobras. Display of Pain's parachute rockets, each rocket detaching floating stars, which repeatedly change color.

Device—Double grandules, revolving horizontally, discharging batteries of Roman candles, jeweled fountains, fan-farmanades.

Flight of Pain's 6-pound weeping willows, presenting a beautiful aerial picture.

Display of a 15-inch shell; aerial garden of pansies, lilacs and roses. Eccentric device—"Devil-Among-the-Tailors." A most amusing piece of pyrotechnics, commencing with a triangular battery of jeweled stars, finishing with a burst of grating, squirming figures, into space.

Flight of Pain's aluminum rockets; chromatic effects. Entirely new. Volcano. Created by the simultaneous discharge of pyrotechnical electric batteries.

Poppies in the Cornfield. Produced by the discharge of Pain's 15-inch bomb shells.

Device—"Duo of fiery dragons," flying to and fro, creating roars of laughter.

Batteries of jeweled mines. Exhibition of Pain's 4-pound asteroid rockets, showing several floating lights, changing color continuously while sailing through the air.

Grand exhibit of rockets with peacock plumes; Great revolving oriental wheel, surrounded by coronet of golden gerbs.

Display of Pain's celebrated World's Fair special rockets; first used at the World's Fair; each rocket weighing six pounds, and displaying a combination of effects never seen before.

"Satan's frolic in the fountain," produced by batteries of aerial saucissons. Special device—B. P. O. E. Elk's head, surrounded by a shower of gold.

An aerial acre of variegated gems; produced by simultaneously discharging 15-inch shells.

Display of Pain's celebrated hanging chain rockets, each rocket releasing long chains of colored lights which float in mid-air, changing to various colors until out of sight.

Special fire portrait, "Washington," \$2.10.

Fiery whirlwinds, created by the release of illuminated tourbillions. Salvo of mammoth bombs; magnesium stars, fiery comets and meteor rain.

Device—"Grove of jeweled palms, five in number, throwing columns of fiery spray high in the air and emitting clouds of jeweled stars.

Final salute of aerial cannons, announcing the concluding number. Device—"Good Night." A fine set piece in letters of colored fire.

Final—Grand aerial bouquet, produced by the simultaneous discharge of fifty colored rockets, forming a magnificent bouquet with flowers of many colors.

NORTH MARQUETTE WANTS WATER BADLY

IF IT CAN'T GET IT ANY OTHER WAY WOULD LIKE WATER WORKS OF ITS OWN.

A REQUEST FOR FRANCHISE

Council Transacted Much Business at Session Last Evening—Several Complaints Received and Referred.

North Marquette's dissatisfaction over its inability to get water service was projected into the council session last evening by a communication modestly asking a franchise for a new water company, planned to serve that part of the city. It runs as follows: "Owing to the inability of the city officials to extend our present water works system, or to their incompetency, we respectfully pray and petition your honorable body to grant us a franchise for the purpose of installing and maintaining and operating a water works system in North Marquette, the same to be known as the North Marquette water works system."

This petition was signed in behalf of the residents of North Marquette, and was referred for a report. It is claimed to be bonafide, and to mean just what appears on its face. If the people of North Marquette can't get water from the present plant, they want to get it in some other way. "The water question is a life one in North Marquette. At present the city mains go no further than Fair avenue, or the Normal location. The people in the district north of Fair avenue have to get water from wells, or as they may call it, the furnace company supplies its tenants, but the other residents of that part of the city have no connection with water mains. They have petitioned the board for water service, but the board holds that they should stand the expense of laying the necessary pipe. This they refuse to do, and so the matter is deadlocked for the time.

"We are not being used right," said a North Marquette resident last night. "Why the other day I counted twenty horses all within two blocks of the end of the water main near the Normal. They owners all want water and they can't get it. We are going to keep hammering away at this thing until we get results."

As protests were the order of the evening, Israel Debarne and John Larson had a complaint against the condition of Prospect street, between Front and High. The petitioners set forth that on the north side of the street Mr. Sinclair, the contractor, has maintained a crushing plant for the past four years; that it is a nuisance both because of the noise it makes in operation and because of the accumulations of stone about it; they also asserted that Mr. Sinclair has used his property as a storage place for an unsightly confusion of wagons, and building material. Finally, they said, much of the building material from the old Manning house was stored there, and constituted a fire menace. They complained that they had the matter up with members of the proper committee, but could not get any satisfaction. Their petition for redress of grievances was referred to the park, cemetery and street committee.

KNOCKABOUT HATS

Boys' white and gray duck telescopes with black bands; also plain gray and gray check cloth hats.

Price 50c

Cool and comfortable for vacation wear. Ask to see them.

Ormsbee & Atkins
Nester Block - Washington St.

By the petition of Frank Kearney and others for a sewer in Genesee street, from Adams street to Allamont street, and the park, cemetery and street commission will be asked to do the work. In the case of the petition of William Dorais and others for the grading of Allamont street the full width, from Jackson street to Fisher street, the matter was referred to the park, cemetery and street commission, for recommendation and an estimate of cost.

The petition of Mrs. Cora Erickson to be relieved of a concrete sidewalk assessment was referred.

Saloon licenses were granted Sven Linfors, societies Anton Zanna and E. N. Breitung, and Leonard Kinkka, sureties, Felix O'Hagan and S. M. Kaufman. The market keeper reported receipts of \$39.45 for June.

WILL SUE CITY.

L. R. Reindinger Wants Damage to His Front St. Property Made Good.

L. R. Reindinger, owner of a property at the corner of Front street and Baraga avenue, will ask the city for a settlement of the damages to the property, caused by the rainstorm a week ago Sunday night, and if a satisfactory settlement isn't agreed to propose to sue to get what he claims is due him. Mr. Reindinger has been caused much loss by the flooding of the basement of his block. A year or two ago a heavy rain storm resulted in the collapse of the sidewalk at the outer edge of the sidewalk. The wall was old and in bad condition, otherwise it might not have given away. On that occasion the tenant, Peter Boyer, was drowned out, and both he and Mr. Reindinger suffered a considerable loss. The wall was rebuilt and the premises put in good repair.

No further trouble was experienced until the last storm, but then the basement was filled with water, mud and debris to the depth of five feet, the room being badly damaged and William Rivers, the tenant, suffering a considerable loss. Mr. Reindinger claims that the city is responsible because it has graded up the lower end of Front street, particularly where it crosses Baraga avenue, so that there is no natural drainage, and it has done this without providing sufficient means of taking care of the surface water. Formerly there was a launder at the corner, but it was filled in some years ago. The basement of the Xcel-hardt block was also flooded last week, and has been flooded several times in the past few years.

GREAT REDUCTION IN LADIES' SUITS.

All of our ladies' suits, ranging in prices from \$10 to \$30 each. Your choice, while they last, \$5.
