

Painting for Profit

No one will question the superior appearance of well-painted property. The question that the property owner asks is: "Is the appearance worth the cost?"

Southern Pure White Lead

Paint is for lasting appearance and for protection. It saves repairs and replacements costing many times the paint investment.

The Dutch Boy trade mark is found only on kegs containing Pure White Lead made by the Old Dutch Process.

Copper Country

COPPER COUNTRY'S FOURTH. Celebration of Natal Day Is Noisy and Demonstrative.

The celebration of Independence day in the copper country was as noisy, patriotic and joyfully hilarious as young, old and young-rigged America could possibly make it.

The real big celebrations were at Hancock, Calumet and Laurium and at Atlantic. The Atlantic celebration is worthy of more than passing mention, as it was a sort of homecoming event.

The real big celebrations were at Hancock, Calumet and Laurium and at Atlantic. The Atlantic celebration is worthy of more than passing mention, as it was a sort of homecoming event.

The citizens and businessmen of West Houghton held their chief celebration Wednesday night. In Hancock there were big doings yesterday and both Wednesday night and last night.

Lake Linden had a celebration all its own, as did South Range and the other range towns. Mass City and Greenland, Ontonagon county, celebrated together at Mass City.

Plans for the new building were prepared which as arrangements were very satisfactory. Bids were taken but the figures secured were about \$19,000 in excess of what was provided.

These changes have been incorporated in the plans and the contract will be let very shortly. The changes in the balance of the work—to provide for its share of the reduction, will be worked out before the time of finishing the work now charged.

Excursion Steamer to Be Taken to Head of Lakes and Laid Up. In an interview yesterday with the copper country correspondent of the Mining Journal, Messrs. Wright and Lloyd, part owners of the excursion steamer Mascotte, which was brought to Portage lake waters from Detroit last year, and which was sunk at her moorings on the Hancock shore early last spring, stated that the little steamer is now in the best of condition but that she will not be placed in commission this season.

Released from Dangerous Position on Reef by the Hebbard. Yesterday morning the tug Rogers, which stranded on a reef on Isle Royale Saturday night, came into Portage lake without assistance. She was released from her dangerous position by the tug Hebbard, which went to her aid Tuesday. The tug Rogers' keel is badly torn and twisted and it will be necessary to take her to Duluth for drydocking and repairs.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, really diseased.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is also directed to these weak and wasting nerve centers in the brain; it strengthens; it offers real, genuine heart help.

Dr. Shoop's Restorative

THE STAFFORD DRUG CO. Lumber Village Promises a Big Time for Firemen in August.

The committee in charge of the firemen's tournament, to be held at Ontonagon in August, has written the Houghton fire time for information as to the advertising campaign which that village conducted for the same event last year.

### City Brevities

Today's weather: Showers; stationary temperature.

J. D. Chubb, the Chicago architect, is in the city.

Fred S. Burgess of Detroit is a visitor in the city.

H. H. Primeau, Jr., is doing some work in the government land office.

Ira E. Randall, of Houghton, was a Marquette visitor Wednesday.

Miss Hazel Pashender leaves today for an extended visit with relatives at Madison, Wis.

Joe Seifert was down from the conifer country yesterday, spending the fourth with his family.

The Ladies' Aid society of the Baptist church will meet this afternoon with Mrs. George Hager, East Hewitt avenue.

F. R. Field and family left for their former home at Wellsboro, Pa., on the steamer Northwest Wednesday evening.

A. E. Delf, auditor for the South Shore company, arrived home yesterday morning from a few days' trip in the east.

Mrs. George Shiras III arrived in the city yesterday morning for a summer visit with her father, the Hon. Peter White.

W. F. MacKnight, of the Northern Lumber company, arrived in the city Wednesday, from a business trip to Chicago and Grand Rapids.

Miss Alice Egan, daughter of M. H. Egan, West Hewitt avenue, has returned from Detroit, where she has been attending school the past year.

Henry Scholtus, pitcher of the Marquette baseball team, was in the box for the Hibbing club in a game at the Mesaba range metropolis yesterday.

A false alarm, turned in from box 12, was responsible for a run by the fire department to the corner of Hampton and Lake streets last evening.

H. J. Payne arrived in the city yesterday, for a few days' stay. Later Mr. Payne expects to spend a number of weeks at his camp north of the city.

F. E. Bay, the controller, who has been sick the past few weeks, was out yesterday. Mr. Bay is feeling much better, and is reported to be on the mend.

Edward Mitchell arrived home yesterday from Cobalt, where he had been for two weeks looking over mining properties. He was accompanied by Mrs. Mitchell.

Mrs. George W. Hubbard and son Gerald left last night for Mexico City, concluding a several weeks visit in the North, most of which time they spent with Marquette friends.

James Deagon arrived home Wednesday from a few days' visit in lower Michigan. He went down with Deputy Warden Catlin to take an inmate to the Ionian asylum for the criminally insane.

Fred Voland, formerly of Marquette, but now of Cuba City, Wis., where he is conducting the operations of the Pine Tree Mining company, arrived in the city yesterday. He will spend a week in the county.

Miss Hazel Payne, Miss Whitman, of Mishawaka, Ind., her guest, and a party of about a dozen Marquette young ladies returned home last evening from a several days' stay at the Payne camp, north of the city.

A son was born to Mr. and Mrs. Fred Dailey of Birch yesterday morning at 8 o'clock. Mrs. Dailey is a daughter of Mr. and Mrs. James A. Wright, 292 West Park street, and at present is the guest of her parents.

N. G. DeHaas left yesterday afternoon for Penochere, Pa., where he was called on account of the serious illness of his father. He had only returned from a trip to Skaneateles yesterday morning, when he received the telegram.

Mrs. L. E. Bailey, of Prohibition Park, Staten Island, N. Y., will speak on the subject the "Home of the Saloon" at the Presbyterian church Monday evening. She has been in this county the past several days, lecturing.

Fred Burch, of Saginaw, has accepted a position as clerk at the Hotel Marquette, and is now in charge of the desk. Mr. Burch came here from a leading Saginaw hotel, and has had an extensive experience in the hotel business.

The big banners on either side of the sidewalk in the approach to the new South Shore dock, over Front street, were painted and placed by Louis Douseron, and were an excellent piece of work. Mr. Douseron also decorated the city hall.

The committee which had in charge the Fourth of July parade will hold a meeting at the mayor's office in the city hall at 8 o'clock this evening. Persons or firms having bids against the committee are requested to present them at this time.

Charles Merritt, of Duluth, some twenty years ago an employe of The Mining Journal, is visiting relatives in Marquette. Mr. Merritt went to Duluth on leaving Marquette, is now conducting a job printing business and is doing very well there.

Miss Palmer and Mrs. Pettie arrived home Wednesday night on the steamer Northwest, to spend some time with their parents, Mr. and Mrs. E. B. Palmer. They have just finished conducting a highly successful firmness at Houghton, for the benefit of the Episcopal church.

The fire department responded to an alarm from the furnace location, North Marquette, Wednesday morning. It was turned in on account of a fire in the woodbox in one of the Cleveland-Cliffs iron company's houses. Both city and furnace fire departments turned out, but the assistance of neither was needed, as the incipient conflagration was extinguished with two buckets of milk.

Pantry Sale—The ladies of the Methodist church will hold a pantry sale at the church, beginning at 10 o'clock this morning.

Rebuilding Signal House—The Marquette & Southeastern railway company has had a force of men employed the past several days putting in a concrete foundation for its block signal house, just north of the gas house, which was washed out in the storm a week ago last Sunday night, and the structure will be replaced at once. The loss to the company by the destruction of this house was close to \$2,000. A concrete mixer has been employed turning out material for the foundations. It will also be used in replacing some iron cul-

verts between here and Ishpeming, with concrete.

Lecture on Temperance—Mrs. L. E. Bailey of Prohibition Park, Staten Island, N. Y., will deliver an address in the parlors of the Methodist church at 3 o'clock this afternoon under the auspices of the W. C. T. U., in the national organization of which she holds an important position. The public in general is invited to hear the lecture.

New Men in Crew—One of the features of the 4th of July program that missed fire was the exhibition of the life saving crew. It is said there are new members of the crew, which made it impossible to give the usual exhibition. Hundreds of people went out to the docks at the appointed hour, but no crew appeared, and the failure of this part of the program was regretted by public and committee alike.

Engagement Closes Tonight—Good-sized audiences witnessed the performances given at the opera house Wednesday evening and yesterday afternoon and night by the Mack-Leone Stock company. The two weeks' engagement of the troupe will close with the bill booked for the evening, "When We Were Twenty-One" will be the offering. The engagement of the company here has been most successful.

Burned by Cracker—Mark Deschaine, the young son of Frank Deschaine, had a hand severely burned by a fire cracker yesterday morning. It was a small sized giant cracker, and it exploded in his hand, the lad not knowing that it was lighted. A bystander took him to a physician's office, where the burn was dressed. There will be no serious consequences. It was reported to Frank Deschaine that the boy's hand had been blown off, and he was much concerned until he had located him, and found that the injuries were not serious.

Shot Two Hounds—Bob Hume, superintendent at Presque Isle, yesterday afternoon shot two large fox hounds that were driving the deer. They had the entire animal population of the resort on the jump, had driven three deep into the woods and were still not on the scent when killed. Visitors at Presque Isle tried to drive them away with sticks and stones, but they would not give up their pursuit of the deer. Mr. Hume finally got shots at them near the pavilion, and succeeded in bringing them down.

Accident at L. S. & I. Dock—There was a collision between a train and a locomotive on the approach to the L. S. & I. dock at Presque Isle yesterday morning, due to the heavy fog, which prevented the trainmen from seeing clearly more than a few yards ahead. A train ran up the dock on a track occupied by a locomotive. The crew of the latter was warned to get out of the way, but could not steam ahead quickly enough to avoid a collision. A couple of ear cars were thrown from the rails, and brakeman McCall was injured. The accident, however, had no serious consequences.

Fourth at the Prison—The Fourth received a rousing celebration at the prison yesterday, though of course fire crackers and gunpowder were barred. The men had the liberty of the yard from early morning on until noon. The prison band played all morning and a program of games was pulled off. There was a cake walk, first prize a ham; second, a cake. Then there were the 80 yard hurdle race, another hurdle race; old man's race; three-legged race; potato race; 100 yard handicap; running broad jump; running high jump; three quick jumps; broad jump; shot put; pie eating contest; boxing contest, for all of which cash prizes were offered. There was also a ball game between the prison team and a city team. The events were vigorously contested, and furnished much amusement both for the men taking part and the onlookers. The Fourth is always a banner day at the prison, and yesterday was no exception.

Fourth of July Parade Prizes—Prizes were awarded yesterday by the Fourth of July parade committee as follows: Merchant's floats, Ormsbee & Atkins, first; the Hub Clothing store, second; Stafford's greenhouses, third. Manufacturers' floats, Fred Dupras, blacksmith, first; Lake Shore Engine Works, second. Special floats, Vandenberg's dairy, first; H. E. Bittner, second; Tim Hurley, third. In the fraternal order's division, first prize for the best appearing organization was given the Modern Woodman, the second to Morse Hose company, and the third to the Stone Masons & Brick-Layers' union. For the society having the largest percentage of members in line, the Swedish Crown took first prize, the St. Jean de Baptiste second and the Scandia Aid third. The Hayseed band was awarded first honors in the calisthumpian division, and Louis Langtime, who impersonated the Indian, captured second.

A MARQUETTE CASE.

Many More Like It in Marquette.

The following case is but one of many similar occurring daily in Marquette. It is an easy matter to verify its correctness. Surely you cannot ask for better proof than such conclusive evidence.

C. C. Young, painter and decorator of 522 Washington St., Marquette, Mich., was cured of kidney trouble by Doan's Kidney Pills in 1898 and has ever since been recommending this remedy to his friends for the cure he has been permanent. Describing his experience, Mr. Young says: "When I first began using Doan's Kidney Pills I was completely run down and for two or three years had been practically unable to work. I had such severe pains through my back and loins that I could hardly get about and several times the intense pains in my back and shoulders compelled me to lay off and rest. The kidney secretions became affected by the trouble and were highly colored and unnatural, depositing a heavy sediment. Passages were irregular and on account of this trouble and the pain in my back I could not get more than three or four hours' sleep each night. I got Doan's Kidney Pills and began using them, finding quick relief. I gradually improved until I could enjoy a good night's rest and rise in the morning feeling strengthened and refreshed. I found this cure in 1898 and made a statement for publication at that time telling by experience. During the years that have passed I have had no return of my old trouble. My health had been good and is as good today as it was ten years ago. It is astonishing what Doan's Kidney Pills did for me and what I am sure they will do for others."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

# Gumption

A merchant once said to a boy in his office, "What's all that noise out in the street? Go find out." The boy came back and told him, "There are a lot of wagons going by." The employer asked another boy, "What are those wagons out in the street?" He was gone quite a while, but told the "boss" that they were Smith & Co.'s wagons loaded with cement from Allbright's dock; saved more than half of the freight and there were eighteen more loads coming. Which boy got his pay raised?

## MARKETS

### STOCKS IN DEMAND

Situation in Boston's Market is Decidedly Bullish.

Writing from Boston, Wednesday, Paine, Webber & Co. said:

"In accordance with our custom of giving our clients the sentiment, we can state confidently that the situation is decidedly bullish. The metal market is O. K. and the leaders of the market are prepared for higher prices. Stocks are cheap at these prices, in view of the better feeling, and should be bought. Stick to the good dividend payers and wait for a ten point advance. Range, Butte, Quincy, Greene Cananea and Utah are the best of the copper and Amcoda and Great Northern Ore Certificates are the best speculative stocks in New York."

Closing prices were:

Anac.....	89 1/4	Shan.....	15 60
Amc.....	90 5/8	Tan.....	11 1/4
Butte.....	10 1/4	Utah.....	8 3/8

## SMELTER TRUST NEXT ON THE GRILL

### GREAT GUGGENHEIM COMBINATION FALLS UNDER BAN OF THE FEDERAL AUTHORITIES.

Washington, July 4.—The great smelter trust, headed by Simon Guggenheim, senator-elect from Colorado, has fallen under the ban of the federal authorities and trust-busting experts are conducting an investigation to determine whether it is not a combination in violation of law. It is expected to have a suit for dissolution of the corporation and possibly criminal proceedings on the evidence being accumulated.

The smelter investigation, which was personally ordered by President Roosevelt, has proceeded secretly and efforts have been made to prevent the American Smelting & Refining company, the parent corporation of the smelter trust, from discovering that they are about to be placed on the grill.

The chief investigation includes not only violation of the anti-trust law but also the relationship sustained by the smelter toward the railroads which traverse the country in which smelting ores originate.

#### Railroads Dictate Ore Rates.

It is known positively that a statement was submitted personally to President Roosevelt in which it was alleged that through approximately absolute control of smelting in the United States the trust has been so powerful that it is able to dictate rates on the rail lines, aggregating 30,000 to 40,000 miles, which are controlled by E. H. Harriman and James J. Hill; that the independent miners have been crowded so closely to the wall that many of them must either go into bankruptcy or submit to the terms of the smelter trust.

It is also known authoritatively that the independent mining interests have been advised of the federal investigation and have taken preliminary steps toward the formation of a rival smelting corporation, and assurances have been given by powerful Wall Street financiers that capital will be forthcoming for such an enterprise.

#### LAKE IS LET LOOSE.

Bakersfield, Cal., July 4.—The Buena Vista lake levee has broken, flooding 3,000 acres of land and causing \$1,000,000 damage. The Sunset railway has been put out of business and the oil fields are put out of communication with this city.

The levee held back the waters of the Buena Vista lake, covering 16 square miles, and protected the land extending fifteen miles, including the old bed of Kern lake, the property of the Kern County Land company, and Miller & Lux. This land was covered with growing grain.

It will be several days, perhaps, before the waters find their level, and not until then can the track of the Sunset railway be repaired. This means a cessation of shipments of oil from the Sunset district. The levee was built in 1886-87 at a cost of \$250,000.

#### PETER PAN, THE FAVORITE, WINS AT SHEEPSHEAD BAY.

New York, July 4.—Before a crowd of 35,000 persons James R. Keene's Peter Pan, 2 to 1, the favorite, easily won the \$12,000 advance stakes, one mile and three furlongs, at Sheepshead Bay today. Salvador, 7 to 2, was second, and Flipgap, 1 to 1, third. The time was 2:20.

#### New Mark Set for Green Trotters.

Chicago, July 4.—Highball, a Memphis (Tenn.) trotter, today at Libertyville, Ill., broke the world's mile record for green trotters. Highball's time for the mile in the first heat was 2:06 1/4. He also won the second heat, and the race, in 2:08. Highball is owned by the M. and M. stakes at Detroit, and today's race was in the nature of a test of the horse's ability in real competition.

Indianapolis, July 4.—Sweet Maria failed in her attempt to lower the track record of 2:04 3/4 at the state fair ground here last afternoon. The mile was made in 2:06 1/4.

#### NEW WORLD'S RECORDS ESTABLISHED BY ATHLETES.

New York, July 4.—Martin J. Sheridan, of the Irish-American Athletic club of this city won the all-around championship of the Amateur Athletic union at Celtic Park, L. today. Sheridan's only opponent was his clubmate, Richard Corder. Sheridan established the new record of 7:30 1/2 points for ten events, beating his former record of ten events, made at Boston two years ago. John Flanagan broke the world's 16-pound hammer record from a nine-foot circle at the Irish Countries Athletic union games today. He threw 173 feet 4 inches.

Boston, July 4.—The feature of the annual professional games of the Clan Na-Gael, held at Oak Island Park here today, was the establishment of a world's record of 40 feet 2 inches for the 50-pound weight for distance by Dennis Mahoney of Boston.

#### RUSH OF BUSINESS IN PITTSBURG STEEL MILLS.

Pittsburg, July 4.—Owing to the rush of business in the steel industry the mills of the Pittsburg district closed last night for the holiday today will resume operations Friday night instead of several days later as heretofore. It has been the custom to make repairs in the plants during a holiday shut down.

#### SMALL'S ORDER RECALLED.

San Francisco, July 4.—It is stated that President Small, of the Telegraphers' union, has temporarily withdrawn his order giving operators in another city to go on strike within the next few days. This action, it is said, was taken pending the arrival at Chicago of Commissioner Nell from Washington and the outcome of his efforts there to prevent a general strike.

Red Seal White Lead costs less than other white leads, because it makes more paint. For sale by Kelly Hardware Co. (5-18-1f)

## RICH MAN'S CAR KILLS A WOMAN.

### Appleton Millionaire Papermaker's Automobile Breaks Neck of Victim.

Appleton, Wis., July 4.—Anna Steffen, aged thirty-five, was struck by an automobile owned by John McNaughton, the millionaire papermaker, and instantly killed. Her neck and arm were broken. The machine was driven by Roy Van Rybin, aged twenty-two, who appeared in municipal court, charged with manslaughter in the fourth degree. He was released under \$3,000 bond furnished by McNaughton. The case was adjourned until July 10.

#### LAND FOR RUSS PEASANTS.

Government Showing Favorable Activity in Distribution of 25,000,000 Acres.

St. Petersburg, July 4.—The government is showing favorable activity in pushing the distribution of the 25,000,000 acres of crown, state and peasant bank land which it has been decided to distribute in average lots of 25 acres to individual peasant settlers on easy payment terms, in order to make a showing before the new parliament.

These commissions have been appointed to take charge of the distribution and Prince Vassilkoff, minister of agriculture, has ordered additional surveys engaged and has authorized the immediate grant of advances without interest, to peasant purchasers, pending the issue of regular bunches. These measures have excited great agitation in the liberal press, which condemns them unreservedly.

#### GREENE-CANANEA.

"The Cananea district is in excellent condition and the discovery of ore at the 1,050 level of the Capote mine is of great importance as this ore body is 300 feet deeper than any other ore discovery in the district." This was the reply of Dr. Ricketts, general manager of the Greene Cananea company which has just been formed, to a question put by Douglas on his way to El Paso, when asked for any news of special importance at Cananea, reports a Douglas (Ariz.) correspondent.

During the past week Thomas F. Cole was in the district for several days and Dr. Ricketts and other heads of the various departments of the company went over the conditions at Cananea and inspected the property. Concerning the visit of Mr. Cole, the Cananea Herald says: "The visit of Mr. Cole, while brief was filled with pleasurable findings with regard to Greene Cananea. Among the things he found occasion to feel enthusiasm over was ore at 1,050 feet in the Capote, the deepest working in the district. This ore is of commercial grade calculated to do a copper man's eyes good anywhere, but particularly when it comes better than 1,000 feet down in a camp where in the past it has been repeatedly declared and persisted in by many who enjoyed high reputations in the mining world that the ore does not go down. However, Mr. Cole says the crosscut from depth of 1,050 feet, thirty-five feet in ore and more of it, coming with every shot fired in the lengthening of the working. In other mine workings of the Greene and in workings of the central, Mr. Cole found much more in the way of highly satisfactory development results which could not help but please him with the present situation and with the view he took last winter, when he expressed highest confidence that Greene Cananea would make one of the greatest copper producers in the world.

"In consultation with Colonel W. C. Greene, Dr. Ricketts and Assistant General Manager David Cole, the visiting president of the Greene Cananea went thoroughly over the plans formulated and being carried out for the bringing about of the increased production which is to be had and for the general improvements which are to be used to this end and for the reduction of Greene costs to the minimum. With these plans he expressed himself as fully satisfied, and also as gratified with the rapid and excellent manner in which they are being carried out. In this connection Mr. Cole saw the new furnaces which have been put in operation at the smelter and which have worked admirably since blown in; noted the arrival of material for the new No. 3 furnace, delays in transportation of the material have prevented erection of the furnace before this; saw the first of the new electrically operated converters in position and about ready to blow in and was able to see much general improvement on smelter and converter floors brought about during the past several months of work which has wrought so many changes, big and little to the ultimate ends of greater output and lower costs."

#### CALUMET & HECLA.

Calumet & Hecla is rapidly approaching the place where its big equipment will give it a production of 10,000,000 pounds per month. During the past year, that is to say, during the preceding twelve calendar months, the company has been producing between 9,000,000 and 9,500,000 pounds of copper per month, which have been high figures in that respect. The addition to the production will come from the fact that the company is constantly gaining its output into action to unit at a time. The daily question with Calumet & Hecla is, can the property continue to furnish the immense amount of copper-bearing rock that will be needed to keep this big mill in operation?

In the present general manager of the company—James MacNaughton—the company has probably the most progressive and up-to-date mining man at the Lake, and it was he, looking a long way into the future, together with the able eastern management, who saw that the time was coming when Calumet & Hecla must get into the market for properties against the day when expansion would be a necessity. Hence the purchase of Centennial, Alouez, and the control of Osceola, while the company had previously bought the pick of the unexplored lands at the Lake.

The Calumet & Hecla mine proper, however, is worth a good many more years of active service, and no one in the present generation will see the end of that marvelous mineral-bearing spot. The present plan of big opening up has shown that the Osceola lode will remain a big producer for the property, while the Keaysake lode will be a continually increasing factor in the company's operations. There is also a possibility of the Keaysake lode being encountered by the property. Likewise there are other lodes that, with the decrease in the costs of mining, can be operated at a profit. The old mine still has much un-

## NOTICE.

To the Qualified Electors of the Republic of Michigan, Township School District, in Marquette County, Michigan:

Notice is hereby given that the following preamble and resolution was duly adopted by a unanimous vote of the Board of Education of said school district at a meeting of said board, held pursuant to a regular call therefor, in the said Township on Tuesday, the 18th day of June, A. D. 1907, viz:

Whereas, the present main school house of this district is not adequate to the needs of the district, it is old and badly out of repair, be it

Resolved by the Board of Education of the Republic Township School District in Marquette County, Michigan, that it is necessary to build a new school house for said district and to borrow the money and issue bonds of the district to pay for the erection and furnishing of such school building.

Further Resolved, that amount of money necessary to so borrow, for that purpose, is estimated by this board to be the sum of forty thousand dollars (\$40,000).

Further Resolved, that the site of the present school building be and the same hereby is suggested and designated by this board as the site for such new school building.

Further Resolved, that there be submitted to the qualified electors of said school district at the annual school meeting to be held in said school district on Monday, the 21st day of July, A. D. 1907, the question of borrowing on the faith and credit of said district and of issuing its evidence of indebtedness therefor, the sum of forty thousand dollars (\$40,000), at a rate of interest not exceeding five per cent per annum, payable annually, the proceeds to be used solely for the purpose of erecting a suitable school building for said district on the site where the present school house of said district is now situated. Said money, so borrowed, to be paid in fifteen annual installments. The first installment thereof to be paid on the first day of March, 1908, and one installment on the first day of March each year thereafter, until the whole amount is paid. The annual interest on all amounts unpaid to mature on the same time that installments of the principal accrue. Said sum so borrowed to be repaid by spreading the same upon the taxable property of said district as follows: The first installment in the year 1907 and the other installments annually thereafter until the whole amount is raised and paid. All installments to be levied with the interest accruing at the time of the payment next following the year of such levy upon all sums unpaid.

Further Resolved, that the secretary of this board be and is hereby instructed to cause notice of such election to be posted in at least five conspicuous places in said district, at least ten days prior to said second Monday of July, 1907, and that said secretary cause such notice to be published in one of the newspapers printed and circulated in said county of Marquette for at least three successive weeks prior to the time of holding such election. The form of the ballot for such election shall be as follows:

"To authorize the Board of Education of the Republic Township School District in Marquette County, Michigan, to borrow on the faith and credit of said district, the sum of forty thousand dollars at a rate of interest not exceeding five per cent per annum, payable annually, and to spread upon the assessment roll of said township for the repayment of said money, the first installment in the year 1907 and the other installments each year thereafter, until the whole amount is raised and paid. All installments to be levied with interest accruing at the time of the payment next following the year of such levy, upon all sums unpaid, for the purpose of erecting a suitable school house in said district, and to designate the site of the present main school building of said district, as the site for such new school building."

Yes. [ ]

Further Resolved, that the secretary be and is hereby directed to take the necessary steps to cause said propositions to be placed on proper ballots for such election, to give the notice of such election herein required, and to prepare and furnish blanks for a statement of the vote cast at such election on the question hereby submitted.

**MAGNIFICENT DEMONSTRATION.**  
Ishpeiming's Parade Yesterday Was Finest Ever Seen in the City.

The committee directing the Fourth of July parade in this city yesterday forenoon was deserving of the thanks of thousands of people who witnessed the spectacle. The parade of two years ago, while covering between two or three miles of street, was outclassed in many respects. When the procession was stretched out over the several streets traversed the line was from three to four miles in length. The two acres or more of ground in the vicinity of the Barnum barn was not half large enough to permit the floats and other displays to assemble and it was necessary to stretch the line nearly a half mile west on Greenwood street and six or eight blocks east on Division street.

Preparations for the parade were begun at sunrise. In fact many worked all night on their floats, while the clown band, which was out until a late hour Wednesday evening, was out again yesterday morning at 5 o'clock. It serenaded W. H. Johnson, general superintendent of the Oliver Iron Mining company, and Captain F. E. Keese, chairman of the committee for the Fourth of July celebration. The fun began early and before 8 o'clock the streets were well filled with people. Early on coming from Negaunee was jammed to the limit and a great many came in on the early trains.

The parade was started only fifteen minutes late, and it took an hour and fifteen minutes for the procession to go over the line of march. It was divided in five sections, the automobile section moving first. There were about twenty elegantly decorated autos.

The parade was made up as follows: Mounted marshals. Light Guard band. Company I, Michigan National Guard. Goddess of Liberty, with Miss Helen Hennessey as the Goddess, and thirteen children, representing the thirteen original states. Spirit of '76. The Vikings. Uniform Rank, Knights of Pythias. Negaunee council, board of public works and other officials. Mayor Roberts, Rev. C. L. Adams and George Skogberg, reader of Declaration of Independence, and D. J. Slaney, president of the council.

Members of the Ishpeiming council and board of public works. Ishpeiming fire department, chief and assistant in decorated carriage, followed by decorated equipment. City band in band wagon. Braastad's locomotive. Ishpeiming Co-operative society's display, representing the peace conference. A. W. Myers & Co. L. W. Atkins & Co. J. Sellwood & Co. Carpenter-Cook Co. N. E. Skud, "Fekla Farm" boat. William Leininger. Blackney, plumbing. Cable Piano Co., with modern instrument and one of 1776. E. A. Johnson, representing Liberty bell.

A. W. Conradson. Northern Pacific Tea Co., with decorated wagons. Nelson Morris Beef Co. Swift Beef Co. Childs' Art gallery, with bride and groom. Barbers of city. Indians on float, representing first Americans. Superior Lumber Co., with six-horse team. W. T. Cole, boilermaking. Marquette County Gas & Electric Co. Superior Bakery. Indians, showing original mode of traveling. Wm. Thexton's stone cutters. Anderson & Kilbride. Stuart Concrete company. Green Creek Farm, with aid operators. Clown band, occupying wagon. Lady bareback riders. Rough Riders, mounted. Roman chariots. Animal section, about twenty cages. Chiming bells, yellow and red, composed of Oliver Iron Mining Co.'s blacksmiths. Pine Tree mill. Uncle Tom's Cabin, Hub Devine as "Little Eva." Cannibals. Calithuppan band wagon. Water wagon. Calliope, Oliver Iron Mining company's machinists.

The clowns and ribes prominent in creating amusement prior to and during the procession were C. E. Ludlow, R. J. Goodman, Jr., George Durham and Austin Goodman, as ribes, and Duncan Campbell, K. Sterling, Teddy Butler, P. Hoglund, G. Gourdeau, S. Stiere, James Trebilcock, R. Cole and James Doney, as clowns. The clowns were provided with paraphernalia, such as baseballs, bats, slap sticks, etc., which they used to excellent effect on the streets. The actors, bats and clowns working on the horizontal bar in the clown band wagon were T. J. Malloney, Al Gibbs, and Christ Wall.

**The Principal Features.**

There were so many excellent features in the display that it is quite impossible to do justice to all of them. It was evident that much time and money had been spent in preparing some of the floats. Perhaps the most expensive display of the lot was that of F. Braastad & Co.'s sixty-foot locomotive. It took three or four men one month to erect it, and it was a correct imitation of a locomotive, with whistle, bell and smoke stack, etc. The engine was propelled by an automobile concealed in the tender box. In the cab was A. G. Johnson and Harold Trosvig as engineer and fireman, the engineer, directing its movements. When the locomotive first came on the streets thousands of people followed it to West Division street, where the parade was started. Harold Trosvig designed and directed the construction of the locomotive.

One of the most attractive floats was the one representing Sellwood & Co.'s dry goods department, made by C. A. Childs, manager of that department. The design represented a butterfly riding on a bank of pink and white carnations. Under the wings of the butterfly were two little tots, Dorothy Betteson and Helen Horrigan. In the rear of the float on a pedestal was Bernadette Butler, representing the queen of the fairies, with lines of ribbon extending to the

rounded by clerks of the store, attired in military costumes. Miss Margaret Slaney, who appeared in the parade as a Western cow girl, rode Timothy Hughes' veteran horse, "Stonewall." This horse has the distinction of having been in Mr. Hughes' delivery service for more than a quarter of a century, and it still continues in that capacity. It has already hauled over four million dollars' worth of goods.

The great success of the parade is largely due to Len Johnson, chairman of the parade committee; Arson Parrauit, who has displayed great ingenuity on this and former occasions of similar kind; Tom Clancy, Will Sewett, John Lacey and several members of the fire department. Following the parade Mayor Roberts spoke briefly at the grand stand, extending welcome to the strangers, and introducing Rev. C. L. Adams, who offered prayer, and George Skogberg, reader of the Declaration of Independence.

**MRS. CARTER TONIGHT.**  
Duluth Paper Says Great Emotional Actress Has Lost None of Her Fire.

The appearance at the Ishpeiming theater this evening of Mrs. Leslie Carter, America's foremost emotional actress, in Belasco's "Da Barry," will be the most important theatrical event in the city's history. The Duluth Evening Herald of Monday had the following, in part, to say of the attraction:

"Time has dealt lightly with Mrs. Leslie Carter, and she went through the five acts of Belasco's 'Da Barry' at the Lyceum Saturday evening, with all the fire

MRS. LESLIE-CARTER.

and abandon that established her reputation as the 'emotional wizard.' The years seem to have slipped over her head and left her still young, still graceful. Mrs. Carter is superb. She has the genuine fire and power of the actresses of the old school. Her voice is full, sweet and powerful. Her ability is unquestioned, and to see her was a treat not often accorded to Duluthians.

"In the reflected light of the great star, shone Richard Thornton, as King Louis XV. He has caught the spirit of the king left by history—jealous, overbearing, selfish and laughing, with the mind of a libertine.

"The production is an enormous one, and there are countless minor roles, all of which are in good hands. The scenery and stage settings are on an elaborate and costly scale and to the last detail are true to the picture left by history of the court of the dissolute French monarch."

**BALLOON ASCENSIONS.**  
Negaunee Young Man Had Narrow Escape from Being Taken Into Clouds.

One of the Belmont sisters of Reed City, Mich., made two very successful balloon ascensions, with parachute drops, in this city yesterday afternoon and evening. They were made from the vacant plat opposite the Oliver Iron Mining company's office on South Pine street, the first occurring at 3:30 and the second shortly after 7 o'clock.

The ascensions were witnessed by thousands. Hundreds in the crowd had never before seen an ascension. The vacant plat, lined with arc cars on the side-tracks nearby, the surrounding bluff and the streets for blocks were lined with people standing, sitting in carriages and in automobiles.

It took less than thirty minutes to inflate the balloon for the afternoon ascension, after the fire was started under it. When the guides were released, a Negaunee man, who was standing close to the lines, got tangled in the cords, and was taken up about twenty feet into the air before he freed himself. Fortunately he fell without injury. There was a slight wind westward, so that Miss Belmont dropped only about 100 yards from the spot where the balloon went up. For a time it was feared she would come down in one of the open pits at the Lake Superior mine, but she escaped them and dropped between two of the company's shop buildings, the balloon falling less than 100 feet from her.

Last evening's ascension and parachute drop also were successful. The balloon came down on the roof of St. John's church, 200 yards distant from the start-

ing point. Miss Belmont, herself, in the parachute, landed in telegraph wires on Pine street, whence she descended without harm.

**LEASED VALUABLE TRACT.**  
John Collins, who has been here from Iowa for some time past, has leased his forty acre tract in the Swanzy district to the Republic Iron & Steel company, of which C. T. Fairbairn is the mining manager. It is thought that there is mineral on Mr. Collins' land, as one has been found near it by mining companies operating in that district. The Republic Iron & Steel company will explore the tract and if mines are opened he is to receive a royalty on the ore produced. The company is also to have the timber, there being a very fair growth on the plat.

**URBAN HOUSE CHANGES HANDS.**  
George Trethewey of Marquette, has leased the Urban house and has already taken the management of it. Mr. Trethewey and other members of his family have had experience in the hotel business. The Urban has been doing a very satisfactory business for a number of years, but the former proprietors have desired to retire for some time past.

**WANTED**—To buy, small house, four or five rooms. Apply to J. D. West, at city building, 7-3-04
