

FIVE-YEAR TERM FOR MAYOR SCHMITZ

Standing Before the Court a Felon, Convicted of Extortion, San Francisco's Chief Magistrate Is Sentenced to the Penitentiary.

Preceding This Action, a Scathing Arraignment Is Delivered by Judge Dunne, the Prisoner Protesting in Vain Against the 'Humiliating Lecture,' and the Scene Is Most Dramatic—Judgment Pronounced, the Cheer of the Crowd Rattles Windows.

San Francisco, July 8.—The sentencing today of Mayor Eugene Schmitz to five years in San Quentin prison for extortion was one of the most dramatic scenes ever witnessed in a court.

After some preliminaries, the court called upon Schmitz to stand up. When the mayor arose, his face was the color of ivory and his lips were pressed tightly together.

Schmitz scathingly arraigned. The court then proceeded to pass sentence, but before doing so he delivered a scathing arraignment of Schmitz. The judge said that the verdict was a message to all the people in San Francisco that law and order are supreme.

Court warns him to be silent. "Mr. Metson," said Judge Dunne, warmly, "if you interrupt these proceedings again, I will send you to jail."

Judge's Reply Is Stinging. "It is not unusual," was Judge Dunne's stinging reply, "for courts to be brought into contact with such brazen acts of effrontery as yours in the present instance."

CHARGES ILLEGAL COMBINE EXISTS

Attorney General Jackson of New York Institutes Proceedings Against the Western Union and Postal Telegraph Companies.

Curious Things, He Says, Have Developed as a Result of His Investigation of the Alleged Monopoly, Among Others That While Some Rates Have Been Increased Those to or from the Capital Cities of the Various States Have Not Been Molested.

Telephone Girls on Strike. Butte, Mont., July 8.—All the telephone girls of the Rocky Mountain Bell Telephone company went out on a strike today in sympathy with the striking linemen of Utah, Wyoming and Idaho.

As Director of the Mint. Washington, July 8.—Secretary Cortelyou has recommended to the president the appointment of F. A. Leach, present superintendent of the mint at San Francisco, as director of the mint to succeed George Roberts, resigned.

RISKS HIS LIFE IN HEROIC DEED

Vice President Fairbanks, in Yellowstone Park, Saves a Girl from Drowning. Chicago, July 8.—A special dispatch to the Record Herald from the Yellowstone National Park says that Vice President Fairbanks yesterday risked his life to save Miss Lena Winters, a waitress at a park hotel.

BOY'S PRANK ENDS IN DOUBLE TRAGEDY

Raft Pushed into Deep Water, Two Small Girls Drown in Lake in Minnesota. Redwood Falls, Minn., July 8.—Sylvia Hughes, daughter of Editor George Hughes, of the Echo, and Margaret Yackel of this city were drowned in Lake Redwood this evening.

GRAIN RATES IN DISPUTE

\$90,000 Involved in Case Referred to Interstate Commerce Commission. Chicago, July 8.—At a conference here today of the leading traffic officials of Western railroads it was agreed to ask the interstate commerce commission to decide which is the legal rate on more than 6,000,000 bushels of grain now stored in elevators at various points on the Missouri river.

GUNBOATS TO CONVEY TROOPS

Washington Advised of a Nicaraguan Expedition Against San Salvador. Washington, July 8.—A brief cablegram received today at the department of state by Secretary Bacon and Mr. Joubert, the Dominican minister in Washington, provides for the settlement of the debts of Santo Domingo.

WEATHER FORECAST

Washington, July 8.—The following is the weather bureau's forecast for Upper Michigan: Fair, Tuesday, warmer in the east and cooler in the west; Wednesday, fair; variable winds.

BASEBALL

Table with columns: National League, American League, Standings of the Clubs, Today's Games.

GERMANS APPROVE

French Hope of Better Terms Between the Nations Is Reciprocated. Berlin, July 8.—German press in general is in favor of the growing sentiment for improvement in the relations between France and Germany.

WORLD PEACE RALLYING CRY

Educational Convention Applauds President's Address Denouncing War. Los Angeles, July 8.—"World Peace" was the rallying cry at the opening session of the National Educational association today.

SARATOGA IN GALA ATTIRE

City Crowded With Visitors to the Knights Templar Encampment. Saratoga, N. Y., July 8.—With fifteen thousand Knights and many thousands of visitors who do not belong to the order here, Saratoga is in gala attire preparatory to the opening tomorrow of the triennial convocation of the grand encampment of the Knights Templar.

CATHOLIC EDUCATORS MEET

Milwaukee, July 8.—The annual convention of the Catholic Educational association of the United States will open in this city tomorrow and will be attended by a large and distinguished gathering of prelates and prominent educators from throughout the country.

NORWEGIAN SAVANT DIES

Christiana, July 8.—Dr. Sophus Bugge, professor of languages of the University of Christiania, died today.

MANY PROPOSALS AT THE HAGUE

Score of New Propositions Are Introduced for the Consideration of the International Conference, Even One from Hayti.

AT THE HAGUE

The Hague, July 8.—A score of new propositions were introduced today for the consideration of the peace conference, and almost every country represented, including Hayti, had one.

CRANK CORRALLED AT SAGAMORE HILL

Submarine Boat 'Inventor' Attempts to Interview the President at Four A. M. Oyster Bay, N. Y., July 8.—The effort on the part of a young man of powerful physique to interview President Roosevelt at 4 o'clock this morning was frustrated by a secret service guard.

PRISON TERM FOR RUNYAN

New York, July 8.—Chester B. Runyan, the defaulting teller of the Windsor Trust company, today was indicted by the grand jury on the charge of grand larceny.

BIG HOLE IS TORN IN THE BUILDING

Dynamiters Shatter House of John Condon, Race Track Magnate, in Chicago. Chicago, July 8.—An attempt was made tonight to blow up the home of John Condon, race track magnate and leader in the recent fight between the western jockey club and the American Turf association.

THINKS SAKAMOTO MISQUOTED

Admiral Brownson Discredits Reported Utterances of Japanese Commander. Washington, July 8.—Admiral Brownson, chief of the bureau of navigation of the navy department, said today that he was satisfied that the Japanese Admiral Sakamoto, who is reported in the Houchi, a Japanese anti-governmental paper, to have questioned the patriotism of the American naval crews and the ability of the American naval officers, has been misquoted.

WON'T DISCUSS REPORTED MOVE TO OPEN THE GATES TO COOLIE LABOR

Washington, July 8.—Viscount Aoki, the Japanese ambassador, today declined to discuss the reports circulating in the indefinite suspension of the negotiations for the renewal of the present treaty between Japan and the United States if this government reserves the right to retain the clause in the compact permitting the exclusion of Japanese coolie labor.

MUST BE SUPREME ON THE PACIFIC

Imperatively Necessary That the Balance of Sea Power There Be Held by the United States, Declares Admiral George Dewey.

PROPOSED TRANSFER OF THE BATTLESHIP FLEET HE ASSERTS IS IN THE INTEREST OF PEACE—HE DOES NOT LOOK FOR WAR WITH ANY POWER, BUT POINTS OUT THAT IF TROUBLE SHOULD COME BY ANY CHANCE IT IS WELL THE NATION BE FULLY PREPARED TO MEET IT.

Richfield Springs, N. Y., July 8.—Admiral George Dewey, who is enjoying here for the summer, is quoted in an interview as saying in regard to the transfer of the battleship fleet to the Pacific.

DOES NOT FEAR WAR

Although Admiral Dewey does not believe that this country is likely to become seriously involved with any foreign power, he believes it necessary for the United States navy to be paramount in the ocean that has jumped into such strategic importance since the Spanish and the Russian-Japanese wars.

CRUISE A MISSION OF PEACE

"This cruise of the fleet is a mission of peace. I do not think it likely that this country will become seriously involved with any power. But if trouble should come by any chance, it is well to be fully prepared for it."

THINKS SAKAMOTO MISQUOTED

Admiral Brownson Discredits Reported Utterances of Japanese Commander. Washington, July 8.—Admiral Brownson, chief of the bureau of navigation of the navy department, said today that he was satisfied that the Japanese Admiral Sakamoto, who is reported in the Houchi, a Japanese anti-governmental paper, to have questioned the patriotism of the American naval crews and the ability of the American naval officers, has been misquoted.

WON'T DISCUSS REPORTED MOVE TO OPEN THE GATES TO COOLIE LABOR

Washington, July 8.—Viscount Aoki, the Japanese ambassador, today declined to discuss the reports circulating in the indefinite suspension of the negotiations for the renewal of the present treaty between Japan and the United States if this government reserves the right to retain the clause in the compact permitting the exclusion of Japanese coolie labor.

"BANKER" LEWIS INDICTED

St. Louis, July 8.—Seven indictments were returned by the federal grand jury against Edward G. Lewis, president of the People's United States bank, charging him with fraud.

HOWARD GOULD SCORES

Court Strikes from Wife's Complaint Certain Scandalous Allegations. New York, July 8.—Two of the most sensational allegations in the suit of Katherine Clemmons Gould for separation from Howard Gould were today stricken out of the complaint by order of Supreme Court Justice McCall.

MRS. EDDY'S TRUST FUND

Son of Christian Science Head Asks Court to Take Charge of It. Concord, N. H., July 8.—A bill in equity seeking to place under the jurisdiction of the court the trust fund of \$125,000 created by Mrs. Mary Baker G. Eddy, head of the Christian Science church, last February, subsequent to which time suit for an accounting of her property was brought by certain "next friends" of Mrs. Eddy, was filed today.

CRANK CORRALLED AT SAGAMORE HILL

Submarine Boat 'Inventor' Attempts to Interview the President at Four A. M. Oyster Bay, N. Y., July 8.—The effort on the part of a young man of powerful physique to interview President Roosevelt at 4 o'clock this morning was frustrated by a secret service guard.

St. Louis, July 8.—Seven indictments were returned by the federal grand jury against Edward G. Lewis, president of the People's United States bank, charging him with fraud.

**DAILY MINING JOURNAL**  
 A MORNING PAPER PUBLISHED BY THE  
 MINING JOURNAL CO. (LIMITED.)  
 Issued daily except on Sundays. Contains  
 Associated Press dispatches and is especially  
 devoted to the Upper Peninsula interests.  
 SUBSCRIPTION RATES:  
 Per month, by carrier.....\$1.00  
 Per year, by mail.....\$10.00  
 MARQUETTE, MICH., JULY 9.

Entered as mail matter of the second class  
 in the postoffice at Marquette, Mich.

If war talk made a war we would, it  
 should be reflected, be embroiled most  
 of the time.

We haven't heard anything about it,  
 but we suppose that Bill Squires' next  
 battle will be fought back among the  
 home folks.

Many misguided people will doubtless  
 believe that Tom Lawson has started  
 something, when he is just moving with  
 the tide.

John D. Rockefeller acts as if he may  
 have reached the momentous decision to  
 hereafter try and catch his flies with  
 molasses.

To be sure it is a little early, and the  
 season is a little hot for much of a  
 movement in stocks, but precedents are  
 often set when they are jammed too far  
 in either direction.

The decision of the park, cemetery and  
 street commission to try and find some  
 sort of street that once put down will  
 stay down, keeping out of the manholes  
 and sewers, is one that will be generally  
 applauded.

Judging from the size of the claims  
 against the city because of the damage  
 at the Riedinger block, it will be real  
 economy for the city to move at once to  
 put the street in such condition that sur-  
 face water may be taken care of.

The autists are being complained of  
 again. They have avoided hitting any-  
 body with admirable success, but there  
 is some apprehension that their good  
 luck may not continue. They might try  
 calming the public's nerves by little  
 slower speeds.

There are some hints of labor trouble  
 on the Mesaba range. Agitators have  
 been giving that range some attention  
 of late. To a large extent it is a case  
 of outsiders telling home folks about  
 the conditions under which they ought  
 to live. The home folks on our iron  
 ranges are pretty sensible about resist-  
 ing the blandishments of walking dele-  
 gates, so the possible strike will doubt-  
 less blow over.

To John D. Rockefeller's credit be it  
 said that no one could have been more  
 affable to court officials and even the  
 newspaper men than was he on the  
 occasion of his appearance before Judge  
 Landis at Chicago Saturday. He was  
 altogether a genial old chap, wherever  
 he turned up. He joked with the re-  
 porters and posed for camera fiends  
 with a grace that was doubtless little  
 expected. He acted as if he was off on a  
 holiday, instead of answering to a sum-  
 mons to enlighten the court as to  
 whether his company could stand the  
 possible \$20,000,000 maximum fine that  
 may be assessed against it in the Alton  
 rebate case. Perhaps if the country  
 could see more of Mr. Rockefeller in the  
 mood he was in Saturday it could learn  
 to like him better.

Each of the senatorial districts of the  
 upper peninsula will nominate delegates  
 to the constitutional convention by the  
 convention system. The conventions must  
 be held August 13. They will be forerun-  
 ners by county conventions, and the  
 people will vote on the nominees  
 September 17. The Republican conven-  
 tions of the senatorial districts will se-  
 lect the delegates from the upper penin-  
 sula, and the same thing will be true, as  
 a rule, of the state at large. The upper  
 peninsula, under the circumstances,  
 should be well represented in the con-  
 stitutional convention, as the district  
 conventions will doubtless desire, and  
 should find it easy, to send strong and  
 representative men as delegates. Each  
 of the circuit judges has been suggested  
 as a candidate. It would be a healthy  
 condition if they were chosen, together  
 with a representative lawyer or two.  
 This would leave a margin for getting a  
 representation of other interests. The  
 upper peninsula will be entitled to nine  
 delegates, and if they are selected with  
 care it will have the influence it usually  
 enjoys in state conventions.

According to the first returns there  
 were thirty deaths and 1,408 injured and  
 a fire loss of \$95,205 as a result of the  
 Fourth of July celebration. These fig-

ures no doubt will be increased by more  
 complete reports. This is a grim record  
 for a day designed to be festive, but  
 there is cheer in comparison with the  
 records of former years. The day after  
 reports last year showed thirty-eight  
 deaths and 2,789 injured and in 1905  
 there was forty-two deaths and 2,431  
 injured. The completed returns for those  
 two years, compiled by the Journal of the  
 American Medical association, showed  
 158 dead and 5,931 injured in 1906 and  
 182 dead and 4,994 injured. The indica-  
 tions are that this year was consid-  
 erably less fatal than have been former  
 years, and this is the result of the  
 effective agitation against some of the  
 instruments of celebration. The deadly  
 toy pistol has been practically eliminat-  
 ed, and in most places restrictions have  
 been placed on the larger sizes of can-  
 non crackers. There is still much agitat-  
 ing to do, however, before the day will  
 be made reasonably safe. Not only is  
 agitation and education needed, but also  
 some legislation still further regulating  
 the customs of the day and the danger-  
 ous materials used.

Yesterday Chief Yeoman Downs, at-  
 tached to the U. S. S. Wolverine, in this  
 port, was quoted in The Mining  
 Journal as advocating the restoration of  
 the canteen in both army and navy, and  
 as stating that the experience of the  
 past few years has proved that its aboli-  
 tion was a bad mistake, one that has  
 operated to increase drunkenness, minor  
 offenses and desertions among both U. S.  
 soldiers and sailors. Chief Yeoman  
 Downs has been in the navy a full thirty-  
 years, and, as he says, should know  
 what he is talking about. People who  
 favor the present order will say he is  
 prejudiced. Probably he is. It would  
 not be unnatural if, having the good of  
 the service at heart, he is prejudiced in  
 favor of the system that he believes  
 operates to keep drinking down and thus  
 to keep the men sober. He tells the old  
 story, so often related by army and  
 navy officers since the anti-canteen law  
 was passed, of more moderate drink-  
 ing than was formerly indulged in, and  
 of the substitution by the men of strong  
 liquors for the beer which was former-  
 ly the staple refreshment of the canteen.  
 He professes confidence that the present  
 law will be repealed and the canteen re-  
 stored. It should be, and perhaps it  
 will be. However, it should be remem-  
 bered that the members of congress,  
 though brave enough in their way, are  
 terribly afraid of those zealous temper-  
 ance ladies in their respective districts  
 who have a sublime confidence that they  
 know all about how the enlisted men in  
 the army and navy should be handled.

**FINED FOR STRIKING.**  
 New Zealand is represented as a  
 workingman's paradise. The laws there  
 have been framed largely by labor dele-  
 gates in the interest of labor and many  
 limitations have been put on capital. It  
 appears, however, that the law also  
 places on labor restrictions such as do  
 not exist in this country.

An incident illustrative of this point  
 occurred recently in the meat-packing  
 industry. There is great activity in this  
 industry in New Zealand and a while  
 ago a considerable number of Austra-  
 lians were induced to engage as slaugh-  
 termen by the prospect of continuous  
 employment at attractive wages. After  
 working a short time, however, they  
 decided that the wages were not satisfac-  
 tory. Their demand for an increase be-  
 ing refused they began a strike, in viola-  
 tion of the local law. The arbitration  
 court was called in, the officials of the  
 slaughtermen's union were brought be-  
 fore it and explanation was demanded.  
 The officials explained that they were  
 not in any way responsible for the strike  
 and that the Australians had acted  
 without authority from the union.  
 The court thereupon fined each of the  
 Australians \$25. The latter then asserted  
 that they had no funds and could not  
 pay, whereupon the matter was taken  
 to the supreme court. This court decid-  
 ed that the strikers were violators of  
 the law and disturbers of the peace and  
 that they must either pay their fines or  
 go to jail for three months, whereupon  
 the strikers raised the money. It was  
 the general opinion that the fines were  
 paid by the union, but this was not  
 officially stated.

Employers have not usually regarded  
 the New Zealand laws with favor, but  
 many American employers would be  
 willing to accept the responsibilities  
 placed on them by the New Zealand law  
 in return for the reciprocal duties im-  
 posed by the law upon the workmen in  
 such cases as this. In this country la-  
 bor is inclined to demand that employ-  
 ers be bound by contracts which they  
 shall themselves be free to annul when  
 ever they choose. This is the charge  
 most often brought against the unions  
 by their enemies and the unions which  
 have required their members to live up  
 to the letter of their agreements have  
 quickly won, and have continued to hold,  
 the good will and co-operation of employ-  
 ers.

**SELF-GOVERNMENT IN THE PHILIPPINES.**  
 The first step toward Filipino self-gov-  
 ernment will be made July 30, when all  
 males not under 23 years of age and not  
 subjects of any foreign power will be  
 permitted to vote for members of the  
 Philippine assembly as well as for other  
 provincial offices. The first step toward  
 relief and ultimate freedom from ail-  
 ments of the stomach, liver, kidneys or  
 bowels is made as soon as you take the  
 first dose of Hostetter's Stomach Bit-  
 ters. You know that delay only makes  
 a cure so much the harder to accomplish  
 and increases your suffering. Be per-  
 suaded to get a bottle of the Bitters to-  
 day from your druggist, grocer or gen-  
 eral dealer and let it cure you of dys-  
 pepsia, nausea, indigestion, poor appe-  
 tite, heartburn, belching, cramps, diarr-  
 rhea, constipation, biliousness, female ill-  
 ness, malaria, fever and ague.

**THE BLOOD IS THE LIFE.**  
 Science has never gone beyond the  
 above simple statement of scripture. But  
 it has illuminated that statement and  
 given it a meaning ever broadening with  
 the increasing breadth of knowledge.  
 When the blood is "bad" or impure it  
 is not alone the body which suffers  
 through disease. The brain is also  
 clouded, the mind and judgment are  
 affected, and many an evil deed or impure  
 thought may be directly traced to the  
 impurity of the blood. Foul impure blood  
 can be made pure by the use of Dr.  
 Pierce's Golden Medical Discovery. It  
 cures and purifies the blood thereby  
 curing pimples, blotches, eruptions, and  
 other cutaneous affections, as eczema,  
 tetter, or salt-rheum, hives and other  
 manifestations of impure blood.

In the cure of scrofulous swellings, en-  
 larged glands, open eating ulcers, or old  
 sores, the "Golden Medical Discovery" has  
 performed the most marvelous cures. In  
 cases of old sores, or open eating ulcers,  
 it is well to apply to the open sores Dr.  
 Pierce's All-Healing Salve, which pos-  
 sesses wonderful healing potency when  
 used as an application to the sores in con-  
 junction with the use of "Golden Medical  
 Discovery" as a blood cleansing constitu-  
 tional treatment. If your druggist  
 don't happen to have the "All-Healing  
 Salve" in stock, you can easily procure it  
 by enclosing fifty-four cents in postage  
 stamps to Dr. R. V. Pierce, 653 Main St.,  
 Buffalo, N. Y., and it will come to you by  
 return post. Most druggists keep it as  
 well as the "Golden Medical Discovery."

You can't afford to accept any medicine  
 of unknown composition as a substitute  
 for "Golden Medical Discovery," which is  
 a medicine of known composition,  
 having a complete list of ingredients in  
 plain English on its bottle-wrapper, the  
 same being attested as correct under oath.  
 Dr. Pierce's Pleasant Pellets regulate  
 and invigorate stomach, liver and bowels.

**Every Mother Knows This Remedy**  
 Jayne's Carminative Balm has  
 for four generations been recog-  
 nized everywhere as the standard  
 remedy for Dysentery, Diarrhea,  
 Cholera Morbus, Cholera Infantum,  
 Cramps, Colic, and all Summer  
 Complaints.

**DR. D. JAYNE'S CARMINATIVE BALSAM**

is just as safe as it is effective. It  
 stops pain immediately, and almost  
 invariably brings about a speedy  
 recovery. Its remarkable efficiency  
 has made it a household necessity  
 wherever there are children.

Sold by all druggists—per bottle,  
 25 cents.

Jayne's Tonic Vermifuge—a gentle  
 and effective tonic for both adults and  
 children. It expels all worms and  
 exhaustion consequent upon a severe  
 attack of dysentery. A safe Worm Cure.

**THE THIRD TERM MENACE.**

While the leading Republican news-  
 papers of the country are, as a rule,  
 opposed to the renomination of Roose-  
 velt by the Republican party, there  
 appears to be a systematic campaign  
 going on throughout the country in  
 favor of it. Evidences of that cam-  
 paign are cropping out in such papers  
 as the Washington Herald and the At-  
 lanta Georgian, and in the reading mat-  
 ter furnished by press bureaus and cor-  
 respondents to many country papers.  
 The plan seems to be to build up a dis-  
 tinctive Roosevelt party, something on  
 the order of Mr. Hearst's Independence  
 League, which will be able to sandbag  
 the Republican national convention, as  
 Mr. Hearst's league sandbagged the New  
 York Democratic state convention. Their  
 line of argument is illustrated by the  
 following extract from an article in  
 the Washington Herald of June 26,  
 written in reply to an editorial of the  
 Brooklyn Eagle:

"Mr. Roosevelt is not engaged in forc-  
 ing his renomination. His attitude is  
 not at all that of a candidate for a third  
 term. He has not even countenanced a  
 movement for his renomination. There  
 is really no such movement, at any rate  
 not in an organized or tangible form.  
 What exists is a sentiment, or belief that  
 the president ought to be renominated.  
 What if this sentiment should dominate  
 the Republican national convention;  
 what if the nomination, instead of be-  
 ing forced by Roosevelt, should be  
 contemplated shortly? Many thou-  
 sands of dollars will be expended this  
 year under competent engineering direc-  
 tion and the stimulus of the reward of  
 \$750 per mile paid by the state for roads  
 built in accordance with the state speci-  
 fications. There are isolated districts  
 of townships which, too, are going after  
 state bounty, independent of the action  
 of the county boards. McMillan town-  
 ship, which comprises considerable ter-  
 ritory out from the village of Newberry,  
 is the latest to move in this  
 direction, and purchase has been made by  
 it of a gravel pit and a rock crusher.  
 McMillan raises more highway money  
 than all the other townships in the coun-  
 ty combined, yet, asserts the Newberry  
 News, it has fewer miles of good roads.  
 The road is a sentiment, but many of  
 them. Under the slip-shod policy here-  
 tofore in vogue thousands of dollars  
 have been squandered annually in patch-  
 ing up highways, with the result that  
 each succeeding year the work had to  
 be done over. During the past  
 twenty years at least \$75,000 has been  
 expended on what is known as the Deer  
 Park road, a sum sufficient to have ma-  
 chadized it from one end to the other.  
 The road today is little better than a  
 trail through the woods.

**Bridal Couple Pestered.**  
 The marriage of Miss Anna Christie  
 MacKillean to Charles M. Moilin of  
 Wells occurred at the home of the  
 bride's mother, Mrs. Mary MacKillean,  
 on South Oak street at Escanaba, last  
 week. The ceremony was performed by  
 the Rev. P. F. Ferris of the First Pres-  
 byterian church. The bridal couple had  
 planned a short trip, but they had  
 a large number of friends who had made  
 other plans. Before the words had been  
 pronounced which joined the young  
 couple in the bonds of matrimony, C. E.  
 Snyder was going up and down Luding-  
 ton street in a carriage and shouting  
 through a megaphone that Charles Mo-  
 lin was getting married and everybody  
 was invited to follow the carriage to  
 Oak street. As soon as the ceremony  
 was completed a signal was given and  
 Seeger's band, which was stationed in  
 the street, began playing a funeral  
 march. The happy bridegroom went to  
 the door to take a peep and beheld a  
 crowd of from seven to eight hundred  
 who had accepted Mr. Snyder's invita-  
 tion. One of the bridegroom's friends  
 went to the door and told him that if  
 he expected to take the 9 o'clock train  
 he had better get ready very quickly  
 because it would take some time for  
 him to get to the depot. The bride-  
 groom, being a very wise young man,  
 a word was sufficient, and he and the  
 bride went to the depot. They were  
 each with a megaphone. Then came the  
 hack containing the bride and groom, at  
 either side of which marched three tri-  
 al and true men to prevent the escape of  
 the couple. Bringing up the rear was

**Upper Peninsula**

**Two New Cheese Factories.**  
 The farmers in the vicinity of Schaf-  
 fer and Bark River, Delta county, have  
 given active encouragement to the rais-  
 ing of cattle by the establishment of  
 two cheese factories, one at Indiantown  
 and the other at Schaffer. Charles El-  
 liott & Son are proprietors of the new  
 industrial plants and are confident of  
 making a success of their venture. The  
 two factories are turning out a little  
 over four tons of cheese per month or  
 nearly 350 pounds a day. Each con-  
 sumes more than a ton of milk every  
 twenty-four hours. Three brands of  
 cheese are being made at present. The  
 product is sold to wholesale grocery  
 houses.

**Protects the Partridge.**  
 It was a wise enactment when at the  
 recent session of the legislature a closed  
 season was provided for rabbits. This  
 was done not so much to protect the  
 rabbits as partridge. Under the guise of  
 rabbit hunting many men will go out  
 into the woods during the closed season  
 for partridge, and if they see a covey  
 of those birds will let fly, irrespective  
 of the law. There are probably just as  
 many partridge killed out of season as  
 during the time when shooting the birds  
 is legalized. The new law making it  
 unlawful to kill rabbits during a certain  
 specified period will do much to keep  
 the hunters out of the woods and away  
 from temptation to violate the statutes  
 enacted for the protection of game.

**Gift to Mayor and Wife.**  
 One of the most pleasant events in  
 many months at Escanaba was the sur-  
 prise party tendered Mayor and Mrs.  
 M. Perron at their beautiful home on  
 Charlotte street last week. The occasion  
 was the twenty-fifth anniversary of their  
 marriage, but they made no preparations  
 for any celebration of the event and had  
 intended to spend the evening quietly.  
 But their friends had made other plans,  
 and to the number of nearly two hundred  
 marched in force to the Perron home and  
 took it by storm. The evening was a  
 most enjoyable one for every one present,  
 but the most interesting feature was the  
 presentation to Mayor and Mrs. Perron  
 of a solid silver tea service which cost  
 \$175. The presentation address was  
 made by the Rev. Father Menard, pastor  
 of St. Anne's church.

**Three Violent Deaths.**  
 Thrown from his backboard while re-  
 turning home from Iron Mountain, Thor  
 Lyng, a seven-year-old son of J. Constant  
 on the Wisconsin side of the Menominee riv-  
 er, met with a sudden and untimely end,  
 his neck was broken. The horse arriv-  
 ing without its driver, Lyng's wife went  
 in search of her husband and shortly  
 discovered his lifeless body. The wagon  
 had struck a stump while turning onto  
 the road leading to the farm. Lyng was  
 a veteran of the Spanish-American  
 war, having served in Company E, Thirty-  
 fourth Michigan Volunteers.

Drowning in the waters of a small  
 lake in Washburn township, the late  
 Frank Snathers, son of George Snathers,  
 of Lakefield, Luce county. The young  
 man left Upper Michigan for the  
 Pacific coast a few weeks ago.

**Good Roads Crusade Expanding.**  
 The good roads movement is spreading  
 in the upper peninsula. Already the  
 county roads system has been adopted  
 by Marquette, Alger, Dickinson and  
 Menominee counties, in all of which highway  
 construction has been put on a scientific  
 basis, and the extension to other districts  
 is contemplated shortly. Many thou-  
 sands of dollars will be expended this  
 year under competent engineering direc-  
 tion and the stimulus of the reward of  
 \$750 per mile paid by the state for roads  
 built in accordance with the state speci-  
 fications. There are isolated districts  
 of townships which, too, are going after  
 state bounty, independent of the action  
 of the county boards. McMillan town-  
 ship, which comprises considerable ter-  
 ritory out from the village of Newberry,  
 is the latest to move in this  
 direction, and purchase has been made by  
 it of a gravel pit and a rock crusher.  
 McMillan raises more highway money  
 than all the other townships in the coun-  
 ty combined, yet, asserts the Newberry  
 News, it has fewer miles of good roads.  
 The road is a sentiment, but many of  
 them. Under the slip-shod policy here-  
 tofore in vogue thousands of dollars  
 have been squandered annually in patch-  
 ing up highways, with the result that  
 each succeeding year the work had to  
 be done over. During the past  
 twenty years at least \$75,000 has been  
 expended on what is known as the Deer  
 Park road, a sum sufficient to have ma-  
 chadized it from one end to the other.  
 The road today is little better than a  
 trail through the woods.

**Early Days on Lake Superior.**  
 Recently there was published a denial  
 of the claim that the first steam vessel  
 to ply the waters of Lake Superior was  
 the old Independence, a ship of only a  
 few hundred tons burden but at the time  
 a veritable queen of the inland seas,  
 and it was asserted in the connection  
 that this distinction rightly belonged to  
 the Julia Palmer, once sailed by Cap-  
 tain Stannard, the discoverer of the dan-  
 gerous reef now known as Stannard rock,  
 and subsequently by Captain Moody.  
 However, that the Independence was, in  
 fact, the first craft other than a schooner  
 to navigate Lake Superior, is declared  
 by Captain Spaulding to be absolutely  
 authentic. The Independence was taken  
 across the portage at the rapids of the  
 St. Mary's river in 1845 by Captain A. J.  
 Averill, her commander, according to  
 Captain Spaulding, while it was not un-  
 til the following year that the Julia Pal-  
 mer took her maiden plunge in the wa-  
 ters of Lake Superior, and in time to  
 make but one trip that season. The  
 Palmer had been built at Buffalo a  
 few years before. This ship was not  
 lost, and with all hands, as has been re-  
 ported, but remained in commission on  
 Lake Superior until her days of use-  
 fulness were over. Her engine, boiler  
 and furniture were taken out of her in  
 1850, and her hull was towed to Pen-  
 dill's old mill, eighteen miles above the  
 Soo, on the south side of Whitefish bay,  
 where it was used for many years as a  
 dock and where its remnants lie to this  
 day.

In the same year that the Independ-  
 ence was taken across, in 1845, the old  
 time Napoleon was built at the head of  
 the portage from timber brought from  
 the St. Clair river, and went into com-  
 mission on Lake Superior late that sea-  
 son. This vessel was a schooner, and not  
 a steam-propelled craft, as has been  
 stated. The last steamer to be taken  
 across the portage were the Baltimore,  
 Manhattan and Sam Ward, this about  
 1852, just when work on the ship canal  
 was starting. Captain Spaulding  
 owned and sailed the steamer Algonquin

for a number of years. After he sold  
 her she was taken to the head of Lake  
 Superior, where she subsequently was  
 lost.

**WAS IN POOR HEALTH FOR YEARS.**  
 Ira W. Kelley, of Mansfield, Pa.,  
 writes: "I was in poor health for two  
 years, suffering from kidney and blad-  
 der trouble, and spent considerable  
 money consulting physicians without ob-  
 taining any marked benefit, but was  
 cured by Foley's Kidney Cure, and I de-  
 side to add my testimony that it may be  
 the cause of restoring the health of  
 others." Refuse substitutes. Sold by  
 The Stafford Drug Co.

**SPECIAL MEETING.**  
 Pursuant to the resolution of the  
 board of directors of the Lake Shore  
 Engine Works, held at the office of the  
 company in the city of Marquette this  
 day, notice is hereby given that a special  
 meeting of the stockholders of this com-  
 pany will be held at 2 o'clock p. m.  
 on July 11, 1907, at the office of the  
 company in the city of Marquette, Mich-  
 igan, for the purpose of considering and  
 acting upon the following questions:  
 1. The sale of the real estate of the  
 company for the purpose of acquiring  
 other real estate more suitable for the  
 company's needs.  
 2. The retirement of the outstanding  
 bonds and preferred stock of this com-  
 pany.  
 3. The issue of a new series of bonds  
 to be secured by first mortgage upon all  
 real property and fixtures of the com-  
 pany in such amount as may be de-  
 termined upon at such meeting.  
 4. The retirement of the issue of de-  
 ferred stock and the issue of common  
 stock in place thereof, in such amount  
 and on such terms as may be determined  
 at such meeting.  
 5. To authorize the increase of the  
 capital stock of the company to such  
 amount as may be determined at such  
 meeting, and the execution by the pres-  
 ident, secretary and board of directors  
 of all necessary certificates, conveyances  
 and other instruments required to carry  
 out any of the purposes herein referred  
 to.  
 Dated, Marquette, Michigan, June 22,  
 A. D. 1907.  
 J. E. BALL,  
 Secretary.

SCALY ERUPTIONS COVERED HIS BODY

Itched Constantly—Stratched Until Blood Flowed—Suffered 10 Years—Doctors and Medicines Were Fruitless—Tries Cuticura and is Completely Cured

BY THREE BOXES OF CUTICURA OINTMENT

"When I was about nine years old small sores appeared on each of my lower limbs. I scratched them with a brass pin and shortly afterwards both of those limbs became so sore that I could scarcely walk. When I had been suffering for about a month the sores began to heal, but small scaly eruptions appeared where the sores had been. From that time onward I was troubled by such severe itching that I could not get to sleep. I became accustomed to it, I would scratch the sores until the blood began to flow. This would stop the itching for a few days; but scaly places would appear again and the itching would accompany them. After I suffered about ten years I made a renewed effort to effect a cure. The eruptions by this time had appeared on every part of my body except my face and hands. The best doctor in my native county advised me to use arsenic in small doses and a salve. I then used to bathe the sores in a mixture which gave almost intolerable pain. In addition I used other remedies, such as iodine, sulphur, zinc salve, and 'S' Salve. Ointment, and in fact I was continually giving some remedy a fair trial, never using less than one or two boxes of bottles. All this was fruitless. Finally my hair began to fall out and I was rapidly becoming bald. I used Cuticura Soap and it did no good. A few months after, I bought I would try Cuticura Ointment, having previously used Cuticura Soap and being pleased with it. After using three boxes I was completely cured, and my hair was restored after fourteen years of suffering and an expenditure of at least \$50 to \$60 in vainly endeavoring to find a cure. I shall be glad to write to any one who may be interested in my cure. B. Hiram Mattingly, Vermillion, S. Dak., Aug. 18, 1906."

Sold throughout the world. Potter Drug & Chem. Corp., Sole Mfrs., 230 N. 2nd St., St. Paul, Minn. Sold in bottles on the skin and blood.

Copper Country

COPPER COUNTRY OUT OF IT.

Easterners Plan New Hockey League to Take Place of International.

According to the Pittsburgh Dispatch the hockey men of the East are preparing to organize a new hockey league, to take the place of the International, and to include teams from Pittsburgh, Toronto, New York, Boston, Cleveland and possibly one or two other cities. The two American and the Canadian teams are left out, and this will leave them the opportunity to organize a Northern or Northwestern league, with Detroit and Chicago, Duluth, St. Paul, the copper country and Winnipeg representing, as has been suggested. Concerning the new league, the Dispatch says: "Plans are rapidly being made for the organization of the biggest and strongest hockey league the country has ever known. The great success of the international league for the past few years, composed of Pittsburgh, Houghton, Duluth, American and Canadian teams, and the increasing popularity of independent and college hockey in the eastern United States and Canada, has led hockey promoters to plan the formation of a major league composed of the big clubs of this country and Canada. If the plans of the promoters are realized, as they undoubtedly will be, Pittsburgh, New York, Boston, Cleveland, Toronto and possibly Columbus will comprise the circuit of the International league when the season opens in November. The great credit of the league, with Pittsburgh far down in the central states, and the four other members at the northern end of Michigan, was very unsatisfactory. It was not evenly balanced and the rivalry was not what it would be with larger cities holding franchises. The small towns of the northwest turned out very small crowds, depending upon the big crowds that invariably attended the games played in Pittsburgh during the season. The big jumps were very unsatisfactory, as was also the style in which the league was operated. The president managed one of the small northern teams and was never in close touch with Pittsburgh affairs, and the referee system was of the worst kind. Last winter Cleveland and Boston capitalists sent representatives to Pittsburgh for the purpose of inspecting Duquesne Garden with a view toward erecting similar buildings in those cities. At one time Columbus parties contemplated applying for a franchise, but it was deemed too late in the season. "Rinks are now being built in Cleveland and Boston, and it is practically certain that these two cities, together with Pittsburgh and Toronto, will compose the new league. Alexander Mill, for years a successful manager of hockey teams in Toronto, is looking after the Toronto end. President A. S. McSwigan and associates will again have charge of the Pittsburgh team. The Star Amusement company is financing the project in Cleveland, and if Columbus is successful in securing a franchise will have charge of the team in that city, with A. P. Riegall, who proposed entering the league last year, at the head of affairs. An effort was made to secure the famous St. Nicholas rink in New York, which the big owners managed and played, but it was impossible. A well located rink in Brooklyn is under consideration, and it is understood that Pittsburgh capital is interested in that city. "It is the plan of the promoters to play two games in each city each week, doing away with the long waits of four and five weeks between series as was the plan in the old league. The season will probably commence Nov. 15 and close March 15. It is understood that the work of members of an organized league will be held in Pittsburgh early in August."

COPPER COUNTRY BASEBALL.

Houghton and Calumet Seesaw—Hurontown Defeats Ontonagon.

The pennant race goes merrily on with the two copper country teams of the Northern League, as the season for honors at the bottom of the column and Duluth chasing Winnipeg to the top Sunday afternoon in another game for the pennant. Houghton, the victor of the eighth, when he led Kaiser get the first bag, resulting in a score, McMoey was hit by the pitcher, and this meant another run for the visitors. Miller, who threw for Houghton, had everything and pitched almost perfect ball, excepting in this inning, when he hit two men and was hit once. In the next inning Rogers out in right field, dropped the ball, letting Lewis get three and score afterwards. Houghton's only run, made in the eighth, was earned. Solbraa singled and was driven home when Rogers doubled. The game was a pretty one to watch. Newcombe, for Calumet allowed two hits and Miller for Houghton gave but three. "Duluth and Calumet are still chasing each other for the top of the column and the pennant, and unless the copper country team sees the sails of either the winner for some time yet, the odds seem to be in favor of Winnipeg, but the White Sox are playing star ball now and should hold tight to the finish. "As is usual on Sunday there were all kinds of amateur and semi-professional baseball in the copper country towns. The most important game, however, was that played by Hurontown at Ontonagon, the Hurontown boys winning 14 to 3. According to all reports the game was an awful slaughter.

HEMLOCK SOUTH OF BARAGA.

George Nester, who was in Houghton the latter part of last week, said that it is probable that the mill, owned by the Nester estate, which was recently burned at Baraga, will be rebuilt, although on a smaller scale than was the old plant. The company has a large amount of standing timber east and south of Baraga, mostly hemlock, it is stated, which cannot very well be taken any other place for sawing, and it has been decided to rebuild the mill on this account.

HAAS GOES TO NEVADA.

Yesterday afternoon "Paddy" Haas of Houghton left for Contract, Nevada, where he goes to look after one of his promising looking copper claims. Mr. Haas told the Mining Journal yesterday that he had some very good news from the Contract region and that he expects the claims field there by himself and other Houghton men, it is among the rich producers in a short time any other properties are well situated near a railroad, with excellent shipping facilities and telegraph communication with the outside world.

COPPERDOM BREVITIES.

Dr. A. V. Mitchell of Chicago is visiting in Hancock. Mr. and Mrs. Joseph Vivian of Houghton are home from a visit in Cincinnati. Mrs. N. Lurie and son of Calumet are home from a visit at Des Moines and other Western points. It is promised that the celebrated Sosa's land will be heard in the copper country some time during September. The quarterly meeting of the Methodist Episcopal church of Hancock will be held Sunday. The presiding elder, Rev. Pascoe, of Hancock, was present. Miss Elizabeth Seibel of Calumet, who is a graduate of the normal school at Stevens Point, Wis., will teach in the Green Bay schools next year. Henry Rand and Emer and Ray Clauson of Chicago are surveying at South Range for the new dam in the water system now being built by J. J. Byers & Co. Abel Olson of Marquette has taken a position in L. H. Akkin's drug store, Houghton. He has been with the Stafford Drug company of Marquette for several years. The last meeting for the summer of the Hancock lodge of Elks will be held at the temple Thursday night. Several candidates will be initiated and a social session and good time will follow. Rev. J. T. Olander of Muskegon, Mich., preached Sunday at the Swedish Lutheran church in Calumet. He was called to the copper country last week on account of the death of a brother. Sunday Company G, Houghton Light Infantry, was given some practical experience "in the field," after an all night camp and hike west of Houghton. The boys arrived home Sunday evening, tired and dusty. Superintendent of Schools John A. Doelle returned to Houghton yesterday from Marquette, where he has been teaching in the Northern State Normal. He attended the regular session of the Portage township school board last evening and presented his views and plans for the introduction of manual training into the grades of the Houghton schools. G. B. BURHAMS TESTIFIES AFTER FOUR YEARS. G. B. Burhams, of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured for stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble." Sold by The Stafford Drug Co.

FOR FIREMEN'S TOURNAMENT.

Donation of \$500 Made by the Ontonagon Village Council.

Ontonagon village has come to the support of the firemen's tournament fund in a substantial manner, appropriating \$500 for aiding the expense of the big gathering to be held Aug. 29. In consideration of this the plank and other lumber which will be used in building grandstands, etc., is to be turned over to the village and thus the greater part of the appropriation will be taken care of. The prizes for the meeting with excellent success and no trouble will be experienced in raising ample funds. The business men are responding liberally and are taking much interest in the affair. While the aim is to make the tournament a firemen's gathering in every sense of the word, it will be attractive to others as well. The committee has taken hold of the matter with the fixed intention of pushing it to a successful issue and is completing the arrangements as fast as possible. The prizes for the various contests will be of a substantial nature and suitable entertainment will be provided. It is believed that it will be one of the largest gatherings of firemen in the history of the Association. Large numbers of departments have signified their intention of being present and it is expected that there will be a keen contest for the several events. Negotiations for special train service and special rates are under way.

Wedded Half a Century.

Mr. and Mrs. Narcisse LeMoine celebrated their golden wedding anniversary at the family home on the Rockland road on Wednesday. It was purely a family gathering. Mr. LeMoine was attended in the same broadcloth suit as when he took his marriage vows in 1857. He is seventy-seven years old, celebrating this milestone on June 29, and Mrs. LeMoine is just three score and ten. They were both born at Sorel, Richelieu county, Quebec, and have spent their entire married life in Ontario. In 1848 Mr. LeMoine departed from Sorel, going to the Bruce mines, where he remained for two years. In 1851 he enlisted in the English army, serving one year. In 1852 he came to Ontonagon, the trip being made by boat, and he half a dozen years. He returned to Sorel in 1857 and was married to Victoria Myers, and accompanied by his bride came back the same year and settled on the farm where they have since resided. In June, 1858, Mr. LeMoine paid his only visit to the Queen's marriage. Mr. and Mrs. LeMoine have four sons and four daughters, all residents of Ontonagon: twenty-seven grandchildren and two great grandchildren. The children are: Mrs. Landon, Mrs. H. M. Powers, Mrs. Kendall, Mrs. Andrew Halter, Mrs. Isaac, Mrs. Narcisse and Joseph. Mr. LeMoine are blessed with good health, and appear destined to observe many more anniversaries. Mr. LeMoine is one of the old-line Democrats and is firmly adheres to the tenets of the party.

Michigan Shows Increase.

During June, the Michigan mine produced 110 tons of mineral, an increase of four tons over the preceding month and twenty tons over the month of May. This is a very satisfactory yield considering the amount of rock treated and gives the company a nice profit. Operations at the mine are moving along smoothly and no effort will be made to increase the output until after the Michigan completes its stamp-mill. The construction of the plant is advancing rapidly and it will be ready to go into commission before the close of the present year, unless there are unavoidable delays in getting the necessary machinery.

COPPER PRODUCTION.

It is a curious and important fact that the very high price of copper is not stimulating production to any great extent, comments the Boston Financial News. It is a fair assumption that the price of copper will be very high, but as far as possible to take advantage of the rising prices, and their failure to do so is attributable largely to conditions which are beyond their control. To some extent the producers are responsible for the results. The price of the ore varies greatly in richness, and when the price of copper is low a large percentage of the ore cannot be treated profitably. Producers recognize that the life of the property would be greatly prolonged if all the ore could be treated. Now that copper is high they find it possible to mine and smelt ore that under ordinary conditions would be unprofitable. Practically, therefore, by smelting such ore now they are not drawing upon their reserves at all, but are in operation on ore that would be the price declines again. The output of ore may be as great as ever, yet the copper yield may be materially reduced. This policy has led to the reports that the ore in various mines is showing indications of a decline in richness. This is not true in most cases. The poor ore always has been there, but it has been discarded. The decrease in output is particularly noticeable in the Butte district, where other factors have been at work. There have been accidents and other disturbances at several of the mines. The copper production of the country this year probably will show an increase over the production for 1906, but the gain will be small, and will be less than the normal annual gain in consumption. Judging at present are that copper cannot decline far, as there will be a demand for all that can be produced. A great change has taken place in copper mining methods during the past few years. Copper mining is conducted now on a conservative, permanent basis. Every important copper producing company has opened its property for years ahead, so that it knows just what is before it, and it maintains its development work several years ahead of production. Improved methods of mining and smelting have been introduced and it is possible to smelt very closely just what the copper produced will cost.

Senators by Direct Vote.

Washington, July 8.—Deep interest is being taken here in the bill that passed the Wisconsin state assembly by an overwhelming vote, providing for the naming of United States senators by direct vote. The first election of the kind will be watched closely by political experts, and it is believed that if the Wisconsin experiment proves the plan a success, it will be adopted by other states, with the result that the personnel of the upper house of congress likely will undergo a remarkable change. Hotel Williams, Grand Island, Munising, Michigan, has opened the season with a good patronage. Three two-room cottages with fire places have been added to the equipment, enabling the hotel to handle the increased patronage. (7-8-21)

Notes of Ontonagon News.

Raymond Bergerson, who won second money in the running race at Rockland July 4th, contends that he did not get a "square deal." He is willing to admit that the horse which captured first money is speedier than his gray; but alleges that there was misrepresentation on the part of those who had charge of the race. It was represented to him that the "importation" was simply a dry horse from Sidlaw, while in reality from Portage, Wis. The race track of the Ontonagon Driving Association, which is practically completed and work is to be started at once on the construction of a high tight-board fence around the park. It is the purpose of the association to give one or two races meets this season and it is possible that an agricultural fair will be held. F. X. Menard of Pembina Junction has been named as station agent at Ontonagon to succeed E. Barber, who will go to Menominee.—Ontonagon Herald.

Running Race Close.

The running race given at Rockland in connection with the Fourth of July celebration at that point was a fine exhibition, reports the Ontonagon Herald. There were four entries, a sorrel, owned by Francis Jeffs and Henry Gagnon and ridden by John Richmond; the Bergeron gray, ridden by Raymond Bergerson; of Ontario; a horse belonging to Charles Frenette of Ontonagon and ridden by John Ferguson, and the Hooper horse of Victoria, ridden by Stanley Hooper. The sorrel took first place, the prize being \$80; the gray second, \$25, and the Frenette horse third, \$15. The sorrel is a thoroughbred and was purchased of Allie Worcester of Portage, Wis., especially for this race, and it is alleged that Messrs. Jeffs and Gagnon parted with \$600 when they became the owners. In the first heat the sorrel and the gray came under the wire neck and neck; the former a few inches in the lead; the Frenette horse, third, and the Hooper horse fourth. In the second heat the Bergeron horse came in ahead; Frenette, third, and the Hooper horse was drawn. The next two heats were easily won by the sorrel, the gray getting second place and the Frenette horse third.

Mining News

ONTONAGON MINES.

A change has been made in the local management of the Adventure mine, says the Ontonagon Herald. R. Hitchcock formerly with the Quincy, has assumed the superintendency, succeeding Sam Brady, who in addition to managing the Adventure has been looking after the property for a little over two years. Mr. Hitchcock was chief of the Quincy engineering force and is regarded as an excellent mining man. The future policy of the company has not been announced, but the fact that a new man has been put at the head of the local management is indicative that there is no contemplated suspension of activities at the mine. It is also probable that changes will be made in handling the property, but what these may be is not known. The June output fell below that of May by quite a few tons and was not sufficient to pay expenses. However, it is reported that the new members of the board of directors have faith that Adventure can be placed on a paying basis and plans are to be devised for attaining that end, if possible.

Michigan Shows Increase.

During June, the Michigan mine produced 110 tons of mineral, an increase of four tons over the preceding month and twenty tons over the month of May. This is a very satisfactory yield considering the amount of rock treated and gives the company a nice profit. Operations at the mine are moving along smoothly and no effort will be made to increase the output until after the Michigan completes its stamp-mill. The construction of the plant is advancing rapidly and it will be ready to go into commission before the close of the present year, unless there are unavoidable delays in getting the necessary machinery.

COPPER PRODUCTION.

It is a curious and important fact that the very high price of copper is not stimulating production to any great extent, comments the Boston Financial News. It is a fair assumption that the price of copper will be very high, but as far as possible to take advantage of the rising prices, and their failure to do so is attributable largely to conditions which are beyond their control. Bishop Eis left last evening for Milwaukee.

Dr. C. A. Rowe of Detroit is a visitor in the city.

The plastering at the French church is about completed.

K. S. Baker was a business visitor at Chicago for a week.

F. R. Aniba is in Iron Mountain and Chicago for a week.

Victor Reau has returned from a trip to New York state.

A. E. Sterne was down from Ishpeming yesterday, on a business mission.

Hans Schmidt, of Green Bay, was a business visitor in Marquette yesterday.

C. J. Phelps of West Branch was in the city yesterday, on a business mission.

Miss Mable Guck of Lake Linden is visiting Miss Nellie Frieberg, on Rock street.

Mrs. Allies of Princeton was a guest at the home of Mrs. Albert St. Cyr over Sunday.

Mr. and Mrs. P. J. Burns, of Chicago, were the guests of Marquette friends Sunday.

Miss Hazel Fassbender left for Madison, Wis., last evening for a visit with relatives.

Mrs. D. G. O'Connell, of Ishpeming is visiting Mrs. John Fitzhenry, West Blue street.

E. H. Scott and John Clark, of La Porte, Ind., transacted business in Marquette yesterday.

James Jamerson left yesterday for Detroit, as a delegate to the state convention of the A. O. U. W.

Miss Ella Heiser and Mrs. J. August Anderson of Duluth are in the city visiting Miss Heiser's brother.

Miss Adams has returned to her home at 909 N. Third street, after a several weeks' stay at St. Mary's hospital.

F. M. Birdsall left last evening for Detroit and Grand Rapids, where he will transact business the ensuing week.

O. V. Hensel, of Chicago, arrived in the city yesterday, and will take a course at the Northern Normal school.

The Ingeborg society, the ladies' auxiliary to the Swedish Crown, will give an ice cream social in Keough's Hall Thursday evening.

A. W. Sundwick leaves this afternoon for Detroit, to attend the convention of the agents of the Metropolitan Life Insurance company.

The three gondola cars that were loaded with sandstone and broke through the merchandise dock have been taken up and are now ready for use again.

County Clerk Jenks has issued marriage licenses to David Huff and Alice Parker, both of Marquette, and Edward Johnson and Selma Bergeson of Ishpeming.

Mrs. A. Kallgren of Iron Mountain who has been visiting her daughter, Mrs. A. W. Sundwick, 316 Alger street, for the past few days, returned to her home Monday afternoon.

The fire department responded to an alarm at 9:15 o'clock yesterday morning at the residence of Anton Johnson, 1107 N. Fourth street. It was a chimney fire and was quickly extinguished.

The prize tickets for the French Catholic fair, which will begin August 20 and be open for two weeks, are now on sale and are being disposed of rapidly. The value of the list of premiums is estimated at \$1,500.

Announcement has been made by A. Mathews that he has formally associated with himself in business his sons, Edly Mathews and Abe Mathews, and Fred J. Schulteis. Mr. Mathews deals in lands, mining and timber.

Many Marquette launch owners, who have been speeding around the harbor the past two months in their fleet little yachts, are now tiring of competing only with the winds, and the race idea is at present being fostered. There are eighteen yachts in the Marquette fleet and a spirited race could be arranged.

The many friends of P. R. Downey, formerly a resident of Marquette, and an employe of the South Shore, will be pleased to learn of his success in the hotel business at the Soo. Mr. Downey left Marquette some time ago and became proprietor of the Belvedere at the American Soo. He is enjoying a good business and is conducting a first-class hotel.

Miss Mary R. Powers, a teacher in the high school for the past five or six years, will not be back next fall, having accepted a position in a Grand Rapids High school, with the purpose of being nearer her home, at Hastings, Mich. Miss Powers was principal of the high school one year, and throughout the time she has been here has been one of the strongest members of the faculty. Her decision not to return is deeply regretted not only by those associated with her in school work but by a large number of friends in the city.

Stock Again Next Week—The Rita W. Harlan Stock company will play at the opera house all next week. The company has been meeting with marked success throughout the season and the theatergoers of Marquette can feel assured of excellent productions. The opening bill will be "The Atoneant."

Clothing Company Makes Claim—The Union Clothing company, another tenant of the Kiedinger block, has filed a notice of a claim for damages with the city recorder. The company had some goods stored in the basement of the building, and they were damaged in the flooding of the room two weeks ago last Sunday night.

To Reside Here—Mr. and Mrs. William A. Brown have arrived in Marquette, to make their home here. They were married in St. Paul June 25th, the bride being Miss Edna Zenzius, who was a musician wellknown in St. Paul, being a concert pianist. Mr. and Mrs. Brown will make their home at 322 Morton street, where they will be located after July 15. At present they are staying at the Hotel Clifton.

Concerts at Presque Isle—The new Ishpeming City band, which will give concerts at Presque Isle every Sunday afternoon and evening during the remain-

der of the summer months, is a high class organization. Heretofore Ishpeming had two bands, each containing a number of talented musicians, and on a recent occasion a selection of the best players was made and the new band organized. Frank Trombly is the leader of the new organization, and he says that its only superior in upper Michigan will be the Calumet & Hecla band.

Exceeded Speed Limit—Floyd Chesbro, a chauffeur, was arrested yesterday morning by Marshal Manning for exceeding the speed limit for running automobiles inside the city limits. He pleaded guilty before Justice Byrne, and was released upon paying a fine of \$1 and the costs. This is the first arrest for violating the speed limit here. Violators of the law, the officers say, can expect more severe treatment in the future.

Death of Edward Belmore—Edward Belmore, son of Henry Belmore, 232 W. Blue street, died at 4:30 o'clock yesterday afternoon, of Marquette. He was 21 years of age. He was born at Harvey, He was well known among the younger people, and was popular. Of the relatives, a father and mother and five brothers and three sisters, mourned his untimely passing. The funeral arrangements will be announced later.

Picture of Indian Chiefs—A. O. Jopling, chairman of the Alger county road commission, has temporarily in his possession a picture which will increase in value as the years go on, says the Mining News. The picture is owned by Hon. Peter White, of Marquette. It is a silver print, taken more than thirty years ago, of a group at Ojibway (Chippewa) Lake of nine Superior Indian chiefs. Several of the chiefs have big medals around their necks, similar to the one owned by Andy Herron, of Marquette, and presented to the Indians by the government when Hon. Lewis Cass was governor of Michigan. Mr. Jopling does not know the names of the chiefs.

**AUCTION SALE.**

Auction sale at the Bargain Store. Everything in this store must go this week at your own price. Come and select your goods. Store open every evening. Opposite Opera House. (7-9-11)

**300 CANAL PASSAGES.**

Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., July 8.—[Special.]—The upbound boats passing the canals the last twenty-four hours were the following: Cuyahoga, Branford, 9 p. m.; Sellwood, Michigan, 11; Crescent City, 12:20 a. m.; Crear, 1:30; Morgan, Matka, Grammer, 3:30; Mary Kiplerke, 4; Snyder, Neelberg, McIntosh, 5:40; Burton, 7:30; Peter White, Saxon, 8:20; Edendury, 9; Henry Rogers, 9:30; Maritana, Christopher, 10; Parks, Westmount, Ungava, noon; Corona, 3; Matana, Sonora, 4; Bessemer, 5; Keete, 7:30; Northwest, Sylvania, Armour, 7:30; James Wallace, 8; Bangor, Walsondah, 8:30.

Guy A. Blackmer, Gun Pointer.

One of the expert gun pointers on the Wolverine is Guy A. Blackmer, seaman. Gun pointers are selected from among the best shots among enlisted men in the navy, and only get this rating after long and careful training at the guns. They receive from \$2 to \$10 per month extra pay for qualifying as gun pointers. Call at the navy recruiting office and inquire about enlisting in the navy.

**BUTTER, BUTTER, BUTTER.**

F. H. Vandenberg will make a special delivery of choice creamery butter Tuesday. Don't miss this opportunity to secure a supply of choice goods while the price is at the bottom. (7-8-2d)

**BIDS FOR COAL.**

The board of education of the city of Marquette will receive sealed bids for the furnishing and delivering of coal to the various school buildings in the city of Marquette; the same to be delivered at such times as the chief janitor may desire: 500 tons Pocahontas, approximately; 500 tons best Pittsburgh lump coal; 250 tons anthracite coal. All bids must be in hands of secretary on or before July 12th, 6 p. m. The board reserves the right to reject any or all bids.

By order of Board of Education  
H. J. HORNBOGEN,  
Secretary.

The popularity of Vandenberg's fresh milk and creamery butter, is due to the excellent quality and delicious flavors of the goods. (6-12-1m)

# Gumption

A merchant once said to a boy in his office, "What's all that noise out in the street? Go and find out." The boy came back and told him, "There are a lot of wagons going by." The employer asked another boy, "What are those wagons out in the street?" He was gone quite a while, but told the "boss" that they were Smith & Co.'s wagons loaded with cement from Allbright's dock; saved more than half of the freight and there were eighteen more loads coming. Which boy got his pay raised?

Marquette, Michigan.

## MARKETS

### NEW YORK STOCKS.

New York, July 8.—Some factors in the financial situation evidently appealed to the speculative sentiment today as containing hazardous elements which served as an antidote to a reduction of commitments in stocks. This did not dissuade a considerable party in the speculation from persisting in the operations for a rise that they have been carrying on for some time past. Between a few stocks positively strong and a few others actively weak, the general list was almost passive, and was pulled this way and that in sympathy with the movement in the active stocks that appeared to be dominant at the time. Amalgamated Copper and St. Paul were the most conspicuous points of strength, and were supposed to reflect the continuance of the advertised campaign for advancing stocks. The advance in Amalgamated was accompanied by reports that an agreement had been reached practically for early delivery of concessions from the prices now quoted and which have induced a deadlock between buyers and sellers. The movement in St. Paul was ascribed to a purpose to further the demand for the new stocks of that company. The recent active rise in Union Pacific has been imputed in the same way to a desire to help the demand for the new convertible bonds. The money market position lay at the bottom of the hesitation and irresolution of the market, although no other matter. The rates for call loans receded from the level at the close of last week. This emphasized the disposition to distrust the bank statement entirely as a reliable index of the actual banking situation. The decline in New York exchange at Chicago to ten cents discount was an incident of the day which showed a shifting tendency in the tide of the currency movement. The attention given to the discussion of the relations between the United States and Japan was taken note of, although it was not an active influence. The market was dominated by the heavy tone at the last.

Paine, Webber & Co. telegraphed from New York yesterday as follows: "The stock market was generally lower today, the exception being Amalgamated Copper and St. Paul, which were well bought by interests thought to represent the Boston party. There was not much news of importance, other than the announcement of \$3,000,000 gold taken for export, but the business in call rates indicated very little apprehension, if being generally thought that Saturday bank statement was not a true index to monetary conditions. The advance has been rather rapid and a recession would seem in order. There is apparently a gradual revival of public interest, and should sales of copper metal materialize in the next few days they will no doubt be followed by vigorous buying in the speculative market."

Closing prices were:

**Boston Stock Quotations.**  
Paine, Webber & Co. wired regarding yesterday's Boston market: "The market today was most satisfactory. People who bought last week took profits and traders who were slow in buying were able to get a line at reasonable prices. In spite of bearish talk by many people and short selling by the floor traders, no large amount of long stock came out, and the close was strong all through the list. We believe this move will continue all through this week and good turns can be made on the

The one great specific for falling hair and dandruff. We publish its formula for all our preparations. **10c**  
TUXEDO CLUB CIGAR

remainder of the day the market was weak. The crop situation in this country was the controlling factor in the day's trading, and a number of bullish advices from Europe were seemingly ignored. The market was weak, the September opened at 97 1/2, highest, 97 1/2; lowest, 95; closing, 95 1/2. Corn—The slump in wheat and the excellent growing weather for the crop caused a sharp break in corn. A large part of the loss was regained on covering by shorts. The close was weak, the September opened at 55 1/2, highest, 55 1/2; lowest, 54 1/2; closing, 55 1/2. Oats—The market opened firm, in sympathy with wheat, but later declined along with the break in that grain. The market, however, was well supported because of the large number of damage reports from all sections. The September closed 1/2 lower. September opened at 39 1/2, highest, 39 1/2; lowest, 38 1/2; closing, 39 1/2. Receipts and shipments were as follows:

Receipts.		Shipments.	
Flour, barrels	25,000	Flour, barrels	21,000
Wheat, bushels	45,000	Wheat, bushels	5,000
Corn, bushels	497,000	Corn, bushels	954,000
Oats, bushels	183,000	Oats, bushels	77,000

**Wheat Summary.**  
Paine, Webber & Co., said yesterday concerning the wheat market: "There was a continuation of the selling pressure of long wheat in this market most of the session. A few reports from the southwest indicated a little better showing than those received ten days ago. The weather over the entire country is regarded as almost perfect for growing crops of all kinds, and this, more than anything else, gave the bearish feeling to the trade. Perhaps there was some selling against offerings of new winter wheat by the country. A few of the state reports indicate a little less serious damage than has been generally considered before. These are the conditions which put September wheat back to 95 today, from which there was half cent rally at the close. At the bottom point the break was nearly done from the first. Last Friday morning. Long wheat, both local and outside, is thoroughly liquidated. Very many who are friendly to wheat do not take hold because they are waiting for the Washington crop report, due on Wednesday. Bulla Post reported a sensational advance of over 50, probably due to bad crop conditions in Denmark and countries. H. V. Jones, after being over the spring wheat state, says there are large portions of North Dakota where the yield will be very light, that the mills will require 125,000,000 bushels from the crop, and that there will be little for shipment, part of which will be taken in a slow and light winter wheat movement. The receipts in Kansas City and St. Louis were 77,000 bushels today, against 375,000 bushels a year ago. In southeast Missouri the yields are running mostly from 6 1/2 to 9 1/2 bushels per acre. A continuation of clear, hot weather in the north-west soon become a bull factor. New York reports export sales of seventy-seven loads Manitoba and durum wheat, and the clearances were 568,000 bushels."

**CHARGES RAILROADS WITH CONSPIRACY**  
**ALLEGING THE EXACTION OF EXCESSIVE RATES, BIG CREAMERY CONCERN FILES COMPLAINT.**  
Washington, July 8.—Conspiracy and discrimination, in addition to the exaction of excessive rates, are the charges brought in a complaint filed today with the interstate commerce commission by the Beatrice Creamery company of Iowa, the Blue Valley Creamery company of Missouri and the Blue Valley Creamery company of Iowa, against the Illinois Central, Great Western, Burlington, Northwestern and Milwaukee railroads. The complaints assert that they purchase cream throughout the western part of the United States and ship it to central plants located in various cities in the Middle West, where it is manufactured into butter. In the aggregate they do a business amounting to nearly \$20,000,000 a year, involving the manufacture of almost fifty million pounds of butter. They allege that the rates charged them by the railroads on shipments of cream are excessive and unreasonable, and that they are prevented from obtaining a reduction in rates by the attitude of the several defendants, who have conspired to keep the rates at their present high figures. The commission is asked to fix just and reasonable rates.

**OFF FOR THE NORTH POLE.**  
Fiala Expedition, Fitting Out in Connecticut, Will Start Today.  
Middletown, Conn., July 8.—Captain George C. Comer of East Haddam, who is to command the Fiala expedition in search of the north pole, will sail from New London harbor Tuesday morning in the fifty-eight ton vessel A. T. Gifford to establish some bases of supply for the main expedition, which will set out some months later. The Gifford will shape its course toward Cape Fullerton, Hudson bay, and will then proceed north under Captain Comer. The crew is not large, but it is expected to obtain additional help among the Esquimaux when the vessel gets to the north. As Captain Comer has many friends among the people of these regions that he has made on former voyages.

**"POPE" SHRADER TURNS UP.**  
Returns to Cincinnati Only to Be Fired Into Street byirate Landlady.  
Cincinnati, O., July 8.—August Shrader, the divine healer, the self-ordained "pop" of the Universal Divine Catholic church, who professes to have the gift of tongue and prophecy and is ready to accept a gift of money, is in Cincinnati to build up a church of followers to be recruited in this city. Ten years ago, he was run out of Cincinnati by the police. Thus far the only running he has been subjected to on this visit was imposed upon him today by a boarding house landlady of the eternally watchful kind. She put him out into the street and when he recovered his composure he had a large ready-made audience gathered about him. He once began preaching to the crowd. The landlady says that she admitted Shrader on "false pretenses" and fired him when she learned his identity.

**WARM WAVE WIDESPREAD.**  
Washington, July 8.—The present warm wave stretches over practically the entire country, from New England westward through Montana. Forecaster Frankfield, of the weather bureau, said tonight that no marked changes in temperature are in sight, though showers are expected to be scattered in the heat through most of the Gulf states, the central and southern Rocky mountain region and probably South Dakota and western Nebraska tomorrow and Wednesday.

**90c COMING TO OIL KING.**  
Rockefeller Neglects to Collect Mileage Allowance From Uncle Sam.  
Chicago, July 8.—John D. Rockefeller has at least \$90 coming to him as mileage for attending Judge Landis's court. Unless he goes for it in person, the sum will never be paid by the United States treasury, and John D. will have paid for the uncomfortable privilege of being called as a witness in a United States court.  
Witnesses are allowed five cents a mile for coming to Chicago, and those coming from New York were supposed to receive approximately \$90, the return trip being provided for. Unquestionably, Mr. Rockefeller has a right to claim more, because he came from Pittsfield, Mass., a longer distance.  
Dudley H. Clark, who has charge of such things in the district attorney's office, waited in vain for Mr. Rockefeller to come and get his ticket punched. Mr. Clark couldn't let anybody else have the money because the requirements are that the witness must make application in person. Then, after receiving an order for the money, he must go down-stairs and get it cashed in the sub-treasury.  
The attorneys for the Standard Oil company today declined to submit any further evidence in the investigation held Saturday by Judge Landis. Court announced that sentence would be passed on the Standard Oil company of Indiana Aug. 3.

**POWERS TO SQUELCH RAISULI.**  
Algerias Convention Will Balk Aims of the Moroccan Bandit.  
London, July 8.—Raisuli is becoming an international nuisance. He is now demanding that he be appointed commander of the police force, created under the Algerias convention, which is under the jurisdiction of the powers jointly, and his kidnapping of Sir Harry Maclean is said to have been principally to that end.  
The other conditions imposed by Raisuli are conditions precedent to the release of the unhappy and hoodwinked kaid and have to do with the domestic affairs of the sultan, but the command of the sultan's army on terms that are signatory to the pact following the Moroccan conference.  
Germany recently has indicated that the sultan of Morocco cannot count on Berlin to support him in a truculent opposition of Europe in Africa. This is thought to be a more reasonable policy on the part of Germany in the conduct of affairs in northwest Africa, in line with the agreement made in Algiers.

**IRONCLADS AT JAMESTOWN.**  
Monster Battleships on Constant Display at the Exposition.  
Norfolk, Va., July 8.—There are several of the finest ships of the United States navy in Hampton Roads, and will be there all summer and throughout the exposition period. The regular station fleet consists of the Brooklyn, Schley's old flagship; the Texas, which fought under Captain Jack Philip at Santiago; the Minnesota, Iowa and the old monitor Canonicus, representing the Civil war period.  
In addition, at the present time, the Fourth division of the North Atlantic fleet is anchored off the exposition grounds. This is composed of the battleships Ohio, Minnesota, Iowa and Indiana, under command of Admiral W. H. Emory. These vessels will remain until July 25th, when the Fourth division will be relieved by the Third, under command of Admiral C. H. Davis and consisting of the Alabama, Illinois, Kentucky and Kearsarge. The vessel of the fleet not at Hampton Roads go north for their usual maneuvers and target practice.

**MAKES \$15,000 BY CLEVER SWINDLE.**  
Slick Stranger Dupes Montreal Men With an Illicit Liquor Scheme.  
Montreal, Que., July 8.—A sensation has been caused here by the publication of a story that revealed the work of one of the cleverest confidence men ever operated in Canada, Montreal. The man, who gave the impression that he was an educated Parisian, worked a scheme which made him richer by several thousand dollars.  
He rented a warehouse and placed in it what he called the ostensible purpose of manufacturing Canadian wine, but in reality to make illicit whisky. His proposal to each individual approached was to become a partner with him in making illicit whisky.

**STATES IN A WAR OF WORDS.**  
Buckeyes Say They Were "Stung" by Jamestown Exposition Company.  
Washington, July 8.—Ohio is mad clean through at Virginia, and ready to fight at the drop of the hat. The Buckeye state is angry because it thinks the southern state is "stung" in a fashion worthy of the shrewdest Yankee that ever swapped a horse or sold a nutmeg.  
The trouble concerns the Ohio state building at the Jamestown exposition. Ohio officials say they were promised the deed of the land on which the Ohio building stands. It was only on this promise that Ohio appropriated \$500,000. Now the exposition company refuses to give the deed, but has merely given a lease that will expire when the exposition closes and Ohio has been told a deed can be had for \$6,500.  
Early in this week Attorney General Wade Ellis and other high officials will see the Jamestown exposition officials and insist on the deed, which they say was promised their state. It is charged that back of the exposition company stands a land company which hopes to get the improved ground for summer resort purposes after the exposition is over, and that the real estate speculation scheme is paramount to the exposition plan.  
Michigan is also aroused over a like deal. Ohio officials say they will see to it that the southerners get no benefit from the Ohio building after the exposition, if they have to wreck it completely.

**FOUND DEAD IN BED.**  
Deseronto, Ont., July 8.—Dr. Ackland O'Rourke, son of the late supreme chief ranger of the Independent Order of

**BILLS SQUIRES MAY REMAIN.**  
Australian to Stay Here and Fight Some of the Lesser Lights.  
San Francisco, July 8.—Bill Squires thinks some of changing his mind about going home. In fact, William thinks a bit of staying here and fighting somebody, just to prove that he isn't quite as exaggerated a time as his first American battle would seem to show.  
The spirit of fair play is dominant among sporting men, and if Bill Squires will stay and fight Schreck, Johnson or Hart, he should have the chance to do it. Squires has made a lot of friends despite his misfortune. He didn't whine or offer excuses. He merely told the evident truth—that he fought carelessly, that he got a "bloody good licking," and that he considered himself a dub for getting it.

**KING AND QUEEN IN IRELAND.**  
London, July 8.—King Edward and Queen Alexandra started this afternoon for Ireland on their second visit since their accession. One of the special objects of the king's trip is to visit the Dublin exhibition.  
If you want dry hard and soft wood 10-inch slabs, call at or telephone to E. J. Keopp & Co., 615 Champion street. Bell Phone No. 75. (5-8-11)

**For Women's Fine Garments**  
Suits, skirts, shirt waists—starched garments of all kinds—that fairly beam with snowy beauty and freshness, will be the rule, rather than the exception, if they are starched with the genuine  
**KINGSFORD'S OSWEGO Silver Gloss Starch**  
No starch ever had or ever will equal this for delicacy and fineness of finish. Garments starched with it keep their shape longer, are more pliable, and have a newer and cleaner appearance than with any other. Can't injure goods; goes farther because of superior strength; hence most economical. Doesn't stick to the iron. The standard of quality for over half a century.  
BEST FOR ALL KINDS OF STARCHING  
For general use, best as directed. For light starching unequalled as a cold water starch, requiring no boiling. Made for over fifty years at Oswego. All grocers, in full-weight packages.  
I. KINGSFORD & SON, OSWEGO, N. Y.  
NATIONAL STARCH COMPANY, SUCCESSORS.

to put into the Azores for coal and to repair damages.  
At Singapore we saw the decks blown out of the British steamship Netherthorpe, which was loading benzine at one of the docks. The first sling was being lowered when it was exploded. The decks were rent from bow to the waist, and the bridge plunged into the hold. There were fourteen Singapore stevedores in the hold, and not even their bodies were ever recovered. The steel hull of the vessel was bent into a corrugated shape. She burned fiercely until the forehold was completely gutted.

**AMERICA'S OLDEST WOMAN.**  
Mrs. Mary Wood of Oregon Is 92 Over 120 Years.  
Portland Ore., July 8.—Oregon claims the honor of counting among its residents the oldest white woman in America. Mrs. Mary Ramsey Lemons Wood, aged 120 years, 1 month and 15 days. Mrs. Wood was born at Knoxville, Tenn., May 20, 1787. She was twice married, her first husband, Mr. Lemons, dying in 1839. In 1852 she moved from Missouri to Oregon, settling in Washington county, where she still makes her home, riding on horseback the entire way. She married her second husband, John Wood, May 28, 1854. Of her four children, all of whom lived to the old age, only one is today living, her youngest child, Mrs. Catherine B. Southworth Reynolds, who was born in 1820.

**MOTHER LIVED TO AGE OF 110.**  
Mrs. Wood is of English ancestry. Her parents first settled in the Carolinas, and afterward removed to Tennessee. Her mother died at the advanced age of 110. This remarkable antiquarian saw swigs 130 pounds, is a good conversationalist and speaks about the career of Napoleon Bonaparte, who was a lad of 18 when she was born, as though the events in which he took part happened yesterday. She was a mature woman of 34 when Napoleon died, and her youngest child was born only nine years after his death. At the time of the death of George Washington, she was 12 years old, and Daniel Webster, if he were living, would be only five years older than Mrs. Wood. Frederick the Great of Prussia, as well as Benjamin Franklin, were still living when she was born.  
She was a mother before the birth of Abraham Lincoln and W. E. Gladstone, and was twice a mother before Horace Greeley, Charles Sumner or Henry Ward Beecher came into the world. As we have instances of grandmothers as late as 31, Mrs. Wood was old enough to have been the grandmother of Queen Victoria or Julia Ward Howe, and as she is 37 years older than Gen. Williams, who crowned her Queen of Oregon, she could easily have been his grandmother. The only one true as to her age, Everett Hale or Senator Pettus of Alabama.

**BIDS WANTED.**  
The board of education of the city of Marquette will receive sealed bids for two coats of paint on outside, white, and tinting of grandmothers as late as age of 31, Mrs. Wood was old enough to have been the grandmother of Queen Victoria or Julia Ward Howe, and as she is 37 years older than Gen. Williams, who crowned her Queen of Oregon, she could easily have been his grandmother. The only one true as to her age, Everett Hale or Senator Pettus of Alabama.

**LIKES UTAH MINES.**  
G. R. Persons Inspected Properties in Which Ishpeming Men Are Interested.

George R. Persons, former mayor of Ishpeming, Mich., is unable to understand the business policy which dominates the management of the Burning Moscow property in Beaver county, says the Inter-Mountain Republican of Salt Lake. After returning from an inspection of that property and others in the same region, Mr. Persons was outspoken in his criticism of the manner in which the Moscow is being conducted.

"Mining operators in Michigan," said he, "are content to expend anywhere from half a million to two millions of dollars looking for ore. The Burning Moscow management is unwilling to expend \$5,000 to place it in position to take out upwards of \$2,000,000 worth of ore in sight."

Asked to explain what he meant by this, Mr. Persons said that there was no question that the Burning Moscow had actually in sight 100,000 tons of ore that would bring from \$2,000,000 to \$2,500,000, and yet the owners refuse to stand for the expense of buying teams to haul the ore or to make certain improvements at a total cost of \$5,000, which would enable it to operate the mine on a businesslike basis.

"It is impossible to hire teams to haul the ore," continued Mr. Persons, "but teams could be bought. This, however, the owners refuse to do. The bunkhouse burned down some time ago and the mine has been virtually idle since that time. The bunkhouse is being rebuilt, it is true, but it is being built to accommodate fifteen or twenty men, when the mine should employ 200 men and be shipping from 200 to 300 tons of ore every day."

"It may be urged that this is none of my business, but I contend that it is. I am interested in mining property in the same district, and when the owners of a mine with millions in sight refuse without good reason to ship their ore, they are working an injury to every other owner of property in the same locality. I want to say in this connection that the fault is not with the manager of the property, Dan Ferguson, who is an able mining man, and I have no doubt would like to see the property doing its best. His hands are tied by the power behind the throne."

Mr. Persons has for thirty years been associated with some of the prominent iron propositions of the Michigan field. He has been here about two weeks the guest of his brother-in-law, Nelson, a local mining man, and has occupied most of the time visiting mines of Beaver and Salt Lake counties. The case of the Burning Moscow was the only one in which he felt that criticism was due. He was impressed with the magnitude of the great Cactus mine and with the pains taken there to properly care for the men employed. He was pleased with the showings being made by the Utah & Michigan company and regarded the Orestal and the Hub as most promising young mines.

**DIED ALONE IN SHACK.**  
Well Known Resident of City Found Dead Near Carp River.

Two boys found the body of Ole Grotte in a shack near the old slaughter house, at Carp river, West Ishpeming, yesterday morning, he having died during the night.

Grotte had been in poor health for a number of years, having suffered from an injured leg. He spent the past two winters at the county poor farm, returning from there a short time ago. He was better health when he came to the city the last time than had been before for two or three years. When the boys discovered his body his face was covered with his coat, and the shoe was off the injured foot. Grotte was a butcher by trade and was in the employ of F. Braastad & Co. for a number of years. He was about 50 years old when he died in this city. He was fifty-eight years of age and is survived by his brother, John Grotte, who lives at the Lake Angeline location. The remains were removed to Swanson & Person's undertaking rooms, from where the funeral will be held tomorrow afternoon.

**SON'S CELEBRATION.**  
Prizes to Be Given for Cornish Wrestling Will Aggregate \$260.

The Ishpeming lodges of the Sons of St. George are advertising the principal amusement features for the reunion here a week from next Saturday, the 20th, when it is expected that large outside delegations will be in attendance. The parade, which will start from the vacant lot near the Ishpeming Co-operative store, will take place at 11 o'clock, by which time the special train from the copper country will have arrived. It is anticipated that large delegations will be in attendance from thirteen lodges in the district, and the arrangement committee has been advised that practically all the principal bands of the copper country as well as of the Menominee Gogebic and Marquette ranges, will be present. There will be no less than ten bands here.

Two prizes, silver loving cups, are to be awarded to the societies making the best appearance in the parade. It is expected that some new parade features will be introduced. At the conclusion of the parade Mayor Roberts will welcome the visitors and Rev. W. B. Coombe, pastor of the Methodist church in Negaunee, will give the invocation.

The arrangement committee has appointed Joseph Hodson of Negaunee, marshal of the day, and his aides will be William Bamford, R. L. Nichols, Stephen Tenill and J. H. Harris of this city, and James Lucks of the Winthrop. There will be five prizes for the Cornish wrestling, \$100, \$70, \$50, \$30 and \$10. The winning team in the tug-of-war will receive \$10 in gold. The program of field and track sports has not yet been completed, but it is announced that liberal prizes will be given.

Meals will be served at Braastad's hall, and in the evening there will be a concert at Ishpeming theater, and a ball at Braastad's hall.

**COUNTRY HAS CHANGED.**  
Ishpeming Man Noticed Many Improvements in and About His Old Home.

Assistant Postmaster John Delbridge, who with his wife recently returned from a visit to his native place in England, observed a great many improvements in the district where he was born. There are very few people he met while abroad that he knew in his boyhood, and there had been so many improvements in and about the town where he was brought up that he hardly recognized the place.

There is unusual activity in the mining industry in England, and Mr. Delbridge met a number of miners who formerly worked in the iron and copper mines of Lake Superior who advised him that they were doing as well there as they ever did in Michigan. The wages are better than at any previous time. One man to whom Mr. Delbridge talked said that he was earning on an average of \$60 to \$75 per month, which is considerably more than the average mines made in England a few years ago. The demand for miners and other workmen, particularly mechanics, is unprecedented, and workmen have no difficulty getting employment at good wages.

During the past ten or fifteen years many Cornish miners, as well as their sons, have gone to Africa. Mr. Delbridge said that the percentage of deaths in the Cornwall district from miners' complaint contracted in African mines was large. He was advised that hundreds of miners, many of them young men who had gone to Africa, had either died there or were compelled after a few years of service in the mines to return to their homes physical wrecks. Hardly a week passes, he said, that there is not a funeral of some one who had been brought home from Africa. The good wages paid in the African mines are the inducement to the English workmen.

**KEESE IS THANKFUL.**  
Captain F. E. Keese, chairman of the Fourth of July committee, desires The Mining Journal to say that he feels gratified to the many citizens who aided in making the celebration the success it proved to be. He said yesterday that the greater part of the credit should go to the men who did the actual work, particularly those who labored so hard in preparing the features for the parade. Mr. Keese is much pleased that the people of the city, as well as those who visited Ishpeming, were satisfied with the entertainment provided.

**WAR AGAINST CONSUMPTION.**  
All nations are endeavoring to check the ravages of consumption, the "white plague" that claims so many victims each year. Foley's Honey and Tar cures coughs and colds perfectly and you are in no danger of consumption. Do not risk your health by taking some unknown preparation when Foley's Honey and Tar is safe and certain in results. The genuine is in a yellow package. Sold by The Stafford Drug Co.

**ISHPEMING IN BRIEF.**  
A son was born yesterday to Mr. and Mrs. C. A. Barabe.  
H. MacFarland and daughter of Detroit are visiting in the city.  
Gust Falkenstrom has resigned as editor of the Superior Posten.  
The Misses Emma and Mary Leroux of Duluth, former residents of this city, are here on a visit to friends.  
Robert Fox and wife, who were here visiting relatives over the Fourth, left last night for Cuba City, Wis., where Mr. Fox is superintendent of the Vanable Lead & Zinc Mining company's property.  
J. V. Murphy of Milwaukee is in the city exhibiting school desks and desks. The members of the school board examined them yesterday. A number of seats and desks will be needed for the new high school.  
Coroner William Prin was called to Princeton last night to conduct an inquest in the case of a Finnish miner, who lost his life by a blast. The partner of the victim had both eyes injured. He was taken to Marquette, where he will receive treatment.  
Mrs. C. L. Sloat entertained Saturday

**LIFE IN THE NAVY.**

**Chief Yeoman Weaver Gives Interesting Account of Activities on Board Ship.**

Chief Yeoman Edward P. Weaver of the United States navy, who is looking for recruits in Ishpeming and Negaunee with headquarters in the former city, has a high opinion of the life of the enlisted men in Uncle Sam's navy, and talks interestingly regarding it. Mr. Weaver has had a wide experience in the service, and there is no question concerning the life's work of the jackie that he cannot answer. Speaking of the life of the men on the battleships he said: "Life of a bluejacket in the service of Uncle Sam is a strenuous one in the best sense of the word. The work required is not beyond what can be accomplished by the average boy, but the performance requires an accuracy and precision which does not come without determination and hard work. When the work of the day is done come the athletic sports, which, with their keen competition, enlist all that a boy has on hand of energy and enthusiasm."

"Fencing, swimming, rowing and boat drill and all sorts of deck games are the characteristic features of a bluejacket's life, but all of the sports which are

supposed to belong to a boy on land have their place also. Frequently the entire force on board ship will go on shore for an afternoon of sport, when baseball, wrestling matches, and foot races will be the order of the day. It is not unusual for the entire fleet to hold contests for large prizes, and the competition is keen. The lucky crew receives a pennant which attests its superiority and often large cash prizes are offered, which go to the individual ship.

"Holidays are always made the occasion of special celebrations, generally participated in by all of the fleet. Water parties with floats representing almost any subject that might occur to any boy of fertile mind are rigged up and passed in procession before the fleet. Special dinners and unusual privileges mark the day.

"The discipline on board ship is necessarily very strict and the bluff tone in which commands and orders are issued frequently rouses in a boy fresh from the freedom of the country or the irresponsible life of the streets, a feeling of irritation which will give way to anger and insolubility. The boy who is quick to see will observe that every one on board is equally subject to orders and this coupled with well-meant ridicule and sarcastic advice of his mess-mates has soon pressed upon the lad his first lesson in discipline. A boy who enters the service with no false notions will soon fall into the routine of ship work and take a keen interest in all that pertains to life on board.

"After a certain amount of training in a training school comes a boy's first cruise; it may be a few days along the coast, it may be to some far country where he will see strange and curious things, and learn at first hand the lessons he has previously absorbed so laboriously in his geography. As to the chances of promotion, it is the same for all this business as with any other. There is always room in it for more men of ability. A full yeoman is not as showing accurately the conditions and standing of every individual. Probably there is no profession or trade that business, disobedience and dishonesty meets with exposure and punishment. It is for this reason that a boy who has belonged to the service and can show an honorable discharge need present no other credentials if he wishes to seek a position outside the navy at the expiration of his term.

"A feature of ship life which is very

difficult to the number of pets that are to be found aboard ship. Many of the blindest and sorriest specimens of animal life have found luxurious homes in some one of the official abodes of the government. The officers of the ship are kind in this respect, permitting the boys to bring aboard anything in reason in the line of pets. It is not unusual to find a ship which meters with its crew a menagerie something like this: A goat, several parrots, a chameleon or two, a stray dog and perhaps a dozen cats. I am glad to be able to record that mankind or cruelty to a pet on board ship meets with as summary a reprimand and punishment as an offense against the disciplinary laws of the ship itself. In all respects the pets have a luxurious life. They have more than enough to eat, the whole ship to roam over, daily baths, and carrying out unlimited petting. Some of the pets adopted as mascots are unique. There are many amusing as well as athletic incidents in the life on board; every day brings forth a new joke, or near-by an old forgotten yarn. Duffing the chat and relaxation of the evening the boys gather around the piano, a number of them bring their musical instruments and the time is spent in alternate music and telling of stories and

**U. S. S. MAINE.**  
Lately the flagship of the Atlantic fleet; is a ship of 12,500 tons displacement, is over 393 feet in length, 72 feet beam and draws 23.7 feet of water. Has a speed of 17.82 knots (seemiles), a battery of 20 guns of four inches and over, and 24 guns under four inches, and carries a crew of 800 men. Young men who enlist at Ishpeming will have a chance to see the world in one of these big ships.

**FROM HOPKINS' CURB LETTER.**  
"Rumors of improved condition in the metal markets, coupled with the effect of the Lawson advertisement in the morning papers, caused stocks to open strong, fractionally higher than Saturday's close. Superior & Pittsburgh closing at 18 Saturday, opened at 18 1/2 and sold up to 20, easing off on profit-taking, as did North Butte, Butte Coalition received supporting orders, quickly returning to 28, at which it opened. Strong news is out on this of a big strike in the Cornish mine. Greene-Cannons was pegged around 17 1/2, while North Butte sold off. Profit-taking apparently was over by noon, and the market took on a healthier tone. The general list is in excellent shape and it looks very much as though stocks will sell higher before the week passes."

The day's prevailing prices were:

## Negaunee Department

### IS A BIG JOB.

Repairing of Bank Building More Difficult Than Anticipated.

When A. P. Wilson turns over the bank building to the Negaunee National it will be in as good condition as a new block. The structure is, in a large measure, being rebuilt, and as the work progresses additional repairs not at first figured on are being found to be necessary. No part of the work is being slighted and Mr. Wilson is doing a very thorough job. The cost of the improvements is not limited, as the bank officials want first class work.

The foundation was found to be in wretched condition, but when the improvements are finished it will be as good as it is possible to make it. The block is so close to the Chicago & North-western railway tracks that it needs solid foundation walls. Mr. Wilson has encountered difficulty in rebuilding the foundation, on account of the heavy flow of water beneath the surface. Much of the water which comes through the creek from the Cambria and Lillie mines flows through a poorly constructed launder directly opposite the bank, and finds its way to the foundation. Mr. Wilson said yesterday that every time a heavy train passes over Iron street the building trembles.

The walls of the structure are propped up with heavy timbers while the under portion is being overhauled. Mr. Wilson said that while it may not be possible to put the walls back where they were before the building settled, he will see to it that they are in as good condition as they were before. "In ten days or two weeks you will see a great improvement in the appearance of the block," said Mr. Wilson. "The timbers will be kept in their present positions until the mortar in the foundation and brick walls is thoroughly dry. The block will present a much changed appearance when the improvements are finished. It will be a handsome one, and one that the bank will be proud of."

### EXPLORING FOR IRON ORE.

Negaunee Man Has Option on Promising Tract on Menominee Range.

During the past ten or fifteen years the Maas brothers of Negaunee have, from time to time, conducted exploratory operations on different tracts on the Menominee range, and for some months past have had a diamond drill in operation. While they have developed no large mines, there is every reason to believe that they will some day make a big winning on the range, as they are convinced that there will yet be many new deposits of iron ore located. They have expended a large sum in diamond drilling and test pitting, the results in certain districts having been very gratifying.

George J. Maas and Paul Schook of Crystal Falls have just taken an option on a farm which they intend to explore. Of their deal the Iron Mountain Press had the following to say: "George J. Maas, of Negaunee, and Paul Schook, of Crystal Falls, have taken an option on the old John F. Larson farm in section 36, 43-33 and will put a diamond drill at work out there in a few days. This property lies in a new section of the country and one that is very promising of results. It is about three miles west of Crystal Falls and on the general run of the formation between that city and the Stambaugh district. The surface out in that locality is heavily charged with float ore, conditions that exist in the district in and about Stambaugh. It is the intention of the option holders to place a diamond drill at work on the property and to make tests throughout its length and breadth."

### STORM DAMAGED CAMP.

The roof was blown from the Nightingale camp near Cascade Junction last Wednesday during the hail storm; other damage also resulted in the shack. A man who was at the place on the Fourth reported that hail stones were still to be seen, some of them being of unusual size. The storm was the worst of its kind ever occurring in that district. Besides damaging buildings it also brought down the limbs of trees.

### HOW'S THIS!

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

### SHIPMENTS FAIRLY HEAVY.

About 500 Tons a Day Going Forward From the Jackson Open Pits.

There is reason to believe that the Cleveland-Cliffs Iron company will, within a few years, place the old Jackson mine in an important position as a producing property. The work, for which preparations were under way all winter, has just fairly been started, and it is certain that the tonnage produced in future years will exceed that to be taken out this season.

The plant recently installed on the hill, near where the first ore found in this range was discovered, is of sufficient capacity to hoist 1,000 tons a day, and a considerable tonnage can also be mined from the open pit north of the South Shore tracks. The total production of both pits is now about 500 tons daily. Eventually a tunnel will be driven to connect the two pits, and all the ore will be hoisted from the south pit. The distance between the two is a little over 100 yards. All of the mining is now being done in the open, but underground work will be necessary before long. When the underground stopes are opened it will be possible to work a fairly large number of men, but the forces will be considerably smaller in the winter than during the summer. The tram system installed during the winter is an excellent one. The trestle, extending from the south pit to the Lake Superior & Ishpeming Railway company's spur, a few hundred feet distant, is substantially constructed, and will meet the company's requirements for some years. As the ore is removed from the pocket at the end of the spur it is taken to the crusher plant at the old South Jackson mine.

Mr. and Mrs. Joe Dechambault, Grand avenue, are rejoicing over the arrival of their daughters at their home.

Mrs. W. J. Butler and Thomas J. Butler of Wausau, Wis., were visitors in the city Sunday and yesterday.

Al Bohrer and wife are here from Detroit on a visit to Mrs. Bohrer's parents, Captain and Mrs. J. H. Rough, and family.

One of the wagons used to advertise the National Biscuit company's products, particularly shredded wheat, was in Negaunee yesterday.

W. S. Wright, of Marquette, was in the city yesterday, adjusting the fire loss on John Rock's dwelling on South Main street. The property was insured in the Germania company.

Mrs. Hugh Sparks and daughter, Miss Ethel, former residents of Ishpeming, now located at Painesdale, in the copper country, are in the city visiting A. H. Knight's family.

Miss Louise Rock of this city, who has resided at St. Paul the past four or five

### CRIPPLES DEFEAT ICE WAGONS.

In the league bowling match Saturday evening at Orr & Tompkins alleys the Cripples defeated the Ice Wagons by fifteen pins, the scores being:

Cripples—				
E. Mitchell	139	205	141	485
Ed. Hooper	144	138	156	438
Totals	283	343	297	923

Ice Wagons—				
Kirkpatrick	115	128	146	389
Nightingale	178	162	179	519
Totals	293	290	325	908

### SCHOOL ELECTION.

The school election yesterday resulted in the choice of R. G. Jackson as trustee. The vote was as follows:

R. G. Jackson	319
Thomas M. Wells	121
Total	440

This was the biggest vote cast in years. The recommendation of the board that \$40,000 be raised for the support of the schools for the ensuing year was approved unanimously. The salaries of the salaried members of the board will remain the same as in the past.

### QUICK RELIEF FOR ASTHMA SUFFERERS.

Foley's Honey and Tar affords immediate relief to asthma sufferers in the worst stages, and if taken in time will effect a cure. Sold by The Stafford Drug Co.

### JABBED WITH A KNIFE.

A young man named Liqway was stabbed Saturday night while standing at the corner of Pioneer avenue and Cass street. He asserts that one of a group of foreigners passing him committed the assault. The blade of the knife entered his breast above his heart, but the wound was slight, as young Liqway got away just in time. No arrests have been made, as the young man cannot give the police any information as to the identity of the guilty party.

### LOCAL LACONICS.

Martin Voetsch and wife of L'Anse-au-Loup were Negaunee visitors Sunday.

George Dufraine spent Sunday and yesterday with his family at Gladstone.

Miss Anna Kruse of Iron Mountain visited relatives and friends in Negaunee Sunday.

William Piggott, wife and two children are here from Enderlin, N. D., on a visit to relatives.

Hugo Muck went to his father's homestead at Little Lake Saturday, returning yesterday.

Mr. and Mrs. Joe Dechambault, Grand avenue, are rejoicing over the arrival of their daughters at their home.

Mrs. W. J. Butler and Thomas J. Butler of Wausau, Wis., were visitors in the city Sunday and yesterday.

Al Bohrer and wife are here from Detroit on a visit to Mrs. Bohrer's parents, Captain and Mrs. J. H. Rough, and family.

One of the wagons used to advertise the National Biscuit company's products, particularly shredded wheat, was in Negaunee yesterday.

W. S. Wright, of Marquette, was in the city yesterday, adjusting the fire loss on John Rock's dwelling on South Main street. The property was insured in the Germania company.

Mrs. Hugh Sparks and daughter, Miss Ethel, former residents of Ishpeming, now located at Painesdale, in the copper country, are in the city visiting A. H. Knight's family.

Miss Louise Rock of this city, who has resided at St. Paul the past four or five

years, recently married there to George Granstrom, manager of the Grand Opera House of St. Paul. They are now in the city, spending a few days with the bride's parents.

The Savings Bank baseball team will meet the Gately nine in the third of a series of contests some day this week. Each team has won one game.

The admission price for the entertainment of the Troubadours at the Mitchell Methodist church tomorrow evening, will be twenty-five and thirty-five cents.

J. A. Kirkwood and wife of Duluth, who came to Negaunee Saturday, remaining until Sunday evening at the home of his brother, P. E. Kirkwood, have gone to Ironwood on a visit.

### NO DIFFERENCE.

No distinction is made as to the kind of Piles that Dr. Leonard's Hem-Roid cures.

The names Internal, External, Bleeding, Blind, Itching, Suppurating, etc., are simply names of the different stages through which every case will pass if it continues long enough.

Piles are caused by congestion or stagnation of blood in the lower bowel, and it takes an internal remedy to remove the cause.

Dr. Leonard's Hem-Roid is a tablet taken internally. It is a permanent cure. Money back if it fails.

A guarantee with every package. Price \$1.00 at the People's Pharmacy, Marquette, Mich., or Dr. Leonard Co., Niagara Falls, N. Y.

Hotel Williams, Grand Island, Munising, Michigan, has opened its third year with a large number of reservations for the whole season. Local and out-of-town people are arranging to spend the summer on the island, which indicates the popularity of this resort. (7-8-21f)

### STIMULATION WITHOUT IRRIGATION.

That is the watchword. That's what Orino Laxative Fruit Syrup does. Cleanses and stimulates the bowels without irrigation in any form. Sold by The Stafford Drug Co.

### MAN-EATING SHARK WITH 400 TEETH IS CAUGHT.

Jaw-Bone Brought Into Port by Steamer Alleghany as a Memento.

New York, July 7.—The steamship Alleghany of the Hamburg-American line, running between this port and the West Indies, brought to port today the tale of catching a man-eating shark in the tropics off the coast of Jerome, Haiti.

On the morning of June 22 a fifteen-foot shark came with hailing distance of the liner. Third Officer Dulka threw a stout line, to the end of which was attached a big hook and some fresh meat. The shark grabbed at it, and was well hooked. Dulka then threw over a hawser and lassoed the shark. He then wound the hawser around the winch and hauled the shark on board. It weighed about 800 pounds.

The jaw-bone of the shark was given to the captain, and this morning he had it in his cabin. It has five rows of teeth, about 400 in all, and measures twenty inches from jaw to jaw when opened wide.

### SILK INDUSTRY GROWS.

Washington, July 7.—France is in danger of losing its distinction as the greatest silk producing nation of the world. The rapidity with which the industry has increased in the United States during the last few years is shown in a bulletin issued by the census bureau. This bulletin shows that there has been an increase between 1900 and 1905 in the capital invested, or more than 35 per cent, making the total money invested in the silk industry exceed \$109,000,000. Women workers are benefitting by this growth, for in the five-year period it was found that the proportion of men and boys employed increased greatly, there being a proportionate increase in the number of women employees taken on. The reverse is the case in the cotton industry, for the census bureau has discovered that women and children are gradually being displaced by men, on account of the increasing speed of machinery and the necessity for one person looking after a large number of machines.

### NAVY SERVICE IS ATTRACTIVE

GOOD PAY AND PLEASANT ENVIRONMENT OFFERED YOUNG RECRUITS FOR U. S. WARSHIPS.

### PROMOTIONS COME EASY

Substantial Inducements Given for Enlistments—Petty Officer Kern, Veteran of Twenty Years, Discusses Enlistment.

Charles Kern, a petty officer attached to the U. S. S. ship Wolverine, now anchored in the harbor, a veteran of twenty years' service in the U. S. navy, talked to The Mining Journal yesterday regarding the service, which he esteems highly and recommends as a career to any young man who may have cherished the idea of enlisting for one of the nation's warships.

"As we are here to get recruits," he said, "I would like to have the young men of the city and other possible applicants understand what the requirements are and what the service means. We will take applicants for the rank of apprentice from the ages of seventeen to twenty-five years. There are of course, physical requirements, which, however, need not be dwelt on here. Applicants for the grade of mechanics may be between the ages of twenty-one and thirty-five years. This grade is what the name implies, one of practical mechanics, for whom there is abundant work aboard the warships.

"The lowest pay rating is for the apprentices, who are given \$16 a month. In addition they are furnished with an outfit of clothing worth \$45. Their board is free and they are well taken care of, being given medical care when they are ill. The quarters are sanitary and comfortable and the board is good. "Under a recent change in the law the apprentice has the option of withdrawing from the service at the end of one year, providing he doesn't find it what he expected it would be, and doesn't like it. To thus gain an honorable discharge all he has to do is to reimburse the government for the expense of the first kit of clothes with which he was provided. The term of enlistment is four years and for men who serve it out there is no charge for the first kit. In the first enlistment the apprentice can advance to the grade of ordinary seaman, for which the pay is \$19 per month.

**Inducements to Reenlist.**  
"Men enlisting for the second time get four months' pay at the grade they were in when their first enlistment expired, which is called the bonus money. In addition they get \$20 additional pay monthly. The first thing done with a naval recruit is to send him to training school for four months' work. Then he advances to grade of ordinary seaman.

"The opportunities for advancement in the navy were never better than now. Men are allowed to develop along the lines for which they have the greatest adaptability. The navy wants to make the best of its material, and bright, industrious young men, who take orders quietly and execute them faithfully, have the best of opportunities to improve their rating and advance rapidly. For the man who sticks to the navy the ultimate reward for faithful service is honorable discharge after thirty years' service on three-quarters pay."

Mr. Kern says that the Wolverine has been picking up recruits at the rate of one a day. Recruiting, even for as attractive a service as that of the navy, is difficult work in these piping days of peace, when there is so much civilian employment offered at good wages, but still the Wolverine's recruiting officers get men in every port visited, and they expect to enlist a number in this county.

**Wolverine an Old Timer.**  
The Wolverine is the oldest ironclad gun boat afloat. She is a good deal of a curio, as naval ships go, having been in commission for many years and having done admirable service. The Wolverine was built at Erie, Pa., in 1843. She presents a trim appearance, is 165 feet long, has a twenty-seven-foot beam and draws nine feet of water. Although sixty-four years have elapsed since her construction, she does not look the part, the only attachment which would tell the secret of her age being the side-wheels by which she is propelled. The Wolverine is the embodiment of durability, as she is practically entirely handmade. Each and every piece of iron that appears on the exterior of the

ship was pounded out, as it were, by hand and every rivet of the many thousands that hold the sheetrock together were put in to stay. The interior of the boat is finished in oak and the beams and heavy woodwork are staunchly built of the now much-praised pine. The little cruiser is fitted up with a modern engine and has an average speed of about twelve miles an hour.

There are one hundred and ten marines and sailors on board the Wolverine, and they find profit and enjoyment in naval life, although all men in the service of Uncle Sam, on the Wolverine as on other ships of the navy, are under stringent rules and regulations, and neglect of duty is not tolerated.

About two years ago the ship was rechristened, it having formerly been the Michigan. Of late years the Wolverine has been cruising in the Great Lakes. The boat has a warlike appearance, having two one-pound guns at the bow and three six-pound guns on each side. A Colt's Automatic is ever ready for action, and also a gatling gun, capable of discharging five hundred shots a minute. The Wolverine is open for inspection to all, and a yacht is in commission to transfer all visitors to and from the ship free of charge. The yacht runs on a half hour schedule.

### COOKING BY ELECTRICITY.

Will Be Demonstrated Here for Better Part of Two Weeks.

Miss Lyons, a demonstrator of electrical cooking employed by the General Electric company, is in the city, and Superintendent Retaille, of the light and power commission, is arranging to have her show Marquette housewives how the electrical cooking apparatus works, and the results it gives. It is expected that the demonstration will begin tomorrow, and yesterday Mr. Retaille was planning to hold it in the store room in the Gregory block, on Washington street, which will about to be vacated. Miss Lyons will use all sorts of electrical cooking apparatus, and will prepare various foods. Electrical cooking is a demonstrated success, and is in practical use in many places. Miss Lyons will show that it gives excellent results.

In connection with the cooking demonstration other electrical devices will be shown. A small motor attached to a sewing machine will show how sewing can be made easy in hot weather, and in cool weather as well. An electric vibrator is also a useful household device, for facial massage and treatment of the body. Many of them have been placed in Marquette homes. There are hundreds of electric flatirons in use here, and the number is being added to daily. There will doubtless be much interest in the electrical show. The public is cordially invited to be present.

### PRESIDENT SCOTT IN DENIAL.

Says Standing of Protective Legion in New York State Is Unchanged.

Several days ago The Mining Journal printed an extract from an insurance paper in which the statement was made that a change in the present insurance laws of New York would put the National Protective legion out of business in that state, it being asserted that a positive prohibition had been made against assessment insurance organizations paying dividends to members. Mrs. M. E. Fevry, president of Marquette legion No. 712, has received a letter from George A. Scott, national president of the organization, in which it is denied that this is the case. President Scott writes as follows: "Replying to your letter of June 29 concerning the effect of the bill recently passed by the legislature of this state amending Article VI of the insurance law, I will say that fraternal societies in New York state are controlled entitled by Article VII of the insurance law. The bill recently passed has no effect whatever upon any fraternal organization. To further convince you that such a measure would in no wise effect the National Protective legion, let me say that I personally was instrumental in helping to pass that bill."

### THE ENAMEL ROOF PAINT CO.

are in Marquette for the summer. They were here six years ago and painted a number of roofs and are repainting the street car barns and other roofs which have stood their five-year guarantee. They are willing to make good on any work they did that has not been satisfactory. Any one having roofs to repair and coat will do well to drop a card to Ellsworth & Holpin, box 148, Marquette, Mich.

### IS A GREAT PROPERTY.

Ashland Man's Opinion of Kimberly-Willey Mining Proposition.

The appended article concerning the Kimberly-Willey property at Kokomo, Colorado, is taken from a recent number of the Ashland (Wis.) Press:

John C. Roehm has returned from Kokomo, Colorado, an enthusiastic convert to the value of the Kimberly-Willey mining property. Mr. Roehm's statement is substantially as follows:

"I have had some experience in mining properties, and have made special trips to the Black Hills and to Idaho to look over properties in which I was interested. I went to Colorado, just as I would make a trip to look over a farm which had been offered for sale. I went to look over the Kimberly-Willey mines property, fourteen miles from Leadville. I found it to be a solid mountain of ore, covering about 100 acres, with mines in active operation, producing ore delivered F. O. B. on the cars at the mill, selling to the smelters at \$11 per ton net. There is no team hauling. The ore is got out by tunneling, much cheaper than is the case elsewhere. The four miles of tunnels now operating penetrate great beds of ore, and other and richer beds lie underneath, as shown by the veins of adjacent mines. I will stake my reputation on this property because I have seen with my own eyes what it is. The Kimberly-Willey Mining company ran into a great piece of luck in getting hold of this working and paying mine."

Mr. Roehm is one of the most cautious and conservative business men in northern Wisconsin, and those who know him know the value of his observations, says the Press.

### EXAMINATIONS FOR R. Y. CLERKS.

Will Be Held in Several Upper Peninsula Cities August 6.

The United States civil service commission announces an examination on August 6, 1907, at Calumet, Escanaba, Hancock, Houghton, Iron Mountain, Ironwood, Ishpeming, Marquette, Menominee and Sault Ste. Marie, to secure eligibles from which to make certification to fill vacancies as they may occur in the position of railway mail clerk on the northern peninsula of Michigan. As the commission has experienced considerable difficulty in securing eligibles for this part of Michigan qualified persons are urged to enter this examination. The examination will consist of the following subjects: Spelling, arithmetic, letter writing, penmanship, copying from plain copy, geography of the United States, reading addresses and system of railway transportation.

The qualification for applicants are much the same as previous years, although some changes have been made. The age limit is from eighteen years to thirty-five years. The minimum height required of applicants has been reduced from five feet six inches to five feet five inches, exclusive of boots or shoes and the minimum weight requirement has been lowered from 135 to 120 pounds in ordinary clothing without overcoat and hat. The examination is open only to male citizens of the United States who are legal residents of the northern peninsula of Michigan, and who comply with the requirements.

Applicants should at once apply either to the United States civil service commission, Washington, D. C., or to the secretary of the board of examiners at the postoffice for application form No. 304.

### UMBRELLAS.

We have a full line of umbrellas at marked-down prices. You may need an umbrella very soon. Now is the time to get one at half regular price at Seidenfeld's store.
