

JAP COMES WITH MESSAGE OF PEACE

Friendly Relations Between the Nations Will Be Preserved, Says Admiral Yamamoto, Former Minister of the Marine.

Officer Distinguished in Mikado's Naval Service Arrives in New York and Puts in a Busy Day—Is Interviewed by Half a Hundred Reporters and Has a Chat With His Old Friend, Admiral Evans, at Which They "Settle This Whole War Business."

New York, July 10.—Admiral Baron Yamamoto, one of Japan's most distinguished naval officers, is a guest of New York. The admiral and his suite arrived here this morning and will remain until July 15.

The admiral's first day in New York was a busy one. He was interviewed by half a hundred reporters, had his photograph taken a score of times, received visits from Major General Frederick D. Grant, Rear Admiral Robley D. Evans, Captain J. D. Adams, acting commandant of the New York navy yard, and a number of other military and naval men.

Deprecates the War Scare. In his interviews the admiral depreciated the war scare which has recently appeared in both Japan and America. He said that no small incident could break the friendship which has existed for so many years between Japan and the United States.

Admiral Yamamoto took occasion to deny that on his return to Japan he would become the leader of the Progressive party. He said he had served in one cabinet—he was minister of the marine during the war with Russia—and that he had no desire to have anything to do with politics.

Decrees Peace With Evans. Rear Admiral Evans, who is an old friend of Admiral Yamamoto, called on him during the afternoon, and the two sailors had a long chat together. After the visit Admiral Evans said they had settled the whole matter of war between America and Japan, and had declared peace.

"It is absolutely silly to talk about war between the two countries," said Evans. "There is not any more reason why we should fight Japan than there is that we should fight Italy because of Italian outrages in this country, or that China should declare war on us because some hoodlum hurled a brick through a laundry window."

DENIALS AT WASHINGTON. No Truth in the Hague Story of Demands Made by Japan.

Washington, July 10.—From the state department and from the Japanese embassy here came swift and conclusive denials today of the accuracy of the statements culled from the Hague to the London Daily Telegraph, and repeated in this country, to the effect that Japan had made categorical demands upon the United States government for satisfaction in connection with the treatment of Japanese in San Francisco, and had served notice of her intention to deal with the Californians herself if the national government failed to do so.

Sakamoto Interview Is Withdrawn. Tokio, July 10.—The Hoshi who tomorrow withdraws his interview with Admiral Sakamoto. The latter was quoted as saying that American naval officers were brilliant social figures but deficient in professional training and practice, and that the crews of the American ships would desert rather than fight Japan.

Mikado to Keep Aoki Here. Tokio, July 10.—The report that Viscount Sano Aoki, ambassador to the United States, will be recalled, is officially denied.

"WORSE THAN FOOLISH." Views of Japan's Minister to Mexico Concerning the War Talk.

Mexico City, July 10.—"Talk of war between the United States and Japan is worse than foolish," declared Japanese Minister Arakawa at the Japanese legation here today. Mr. Arakawa declared the situation has been exaggerated by the newspapers. He further says that the Japanese would be the last people in the world to go to war with the United States, the friendship between the two countries, cemented by fifty years of con-

dial relations and harmonious efforts along the same lines, bringing the two people too close together ever to permit war.

The minister says that nothing like the San Francisco trouble could possibly promote a conflict between the two countries. Europeans and foreigners of the lower types provoked the San Francisco outrages upon the Japanese, he declared, and not Americans. He ascribes all the trouble there as due to the jealousy of other foreign immigrants against Japanese laborers, and says the feeling against the Japanese is not shared by the Americans.

NARRAGANSETT WELL GUARDED. Attacks of the Ships in War Game Are Repelled by the Forts.

Newport, R. I., July 10.—Both Forts Adams and Trench repelled attacks of the enemy today in the mimic warfare being conducted by the war department in Narragansett bay, and it was the opinion of good military judges tonight that no hostile fleet could get past the forts which protect the communities bordering the bay, or could steam unopposed upon the forts themselves and effect a landing for an attacking party.

MUTINEERS ON TRIAL. Scores of Russian Soldiers Up Before Military Courts.

St. Petersburg, July 10.—As a result of the recent mutinies at Kiev, Sebastopol and Tsarko Seio, courts-martial are in session in these cities, trying mutineers. At Kiev, 101 men are being tried, and forty-one are on trial at Sebastopol. Great secrecy is observed regarding the proceedings at Tsarko Seio.

WELLMAN'S START DELAYED AGAIN

STORM IN SPITZBERGEN BADLY DAMAGES THE BALLOON HOUSE OF THE EXPEDITION.

Spitzbergen, July 5, via Tromsø, Norway. The balloon house of the Wellman-Chicago Record Herald Arctic expedition was damaged by storm July 4, and although the airship was uninjured the accident probably will delay the departure of the expedition, the members of which by dint of hard work all night long managed to save the building from being wrecked. The Frithjof dragged her anchors half a mile during the storm and will be dispatched to Tromsø for repairs.

UNITED STATES CONCERNED. Emperors of Russia and Germany to Hold Important Conference.

Paris, July 10.—The St. Petersburg correspondent of the Petit Journal says in a dispatch: "The object of the meeting between Emperor Nicholas and Emperor William which will take place during the autumn is to discuss means of effecting a close understanding between Russia, Germany and the United States, ostensibly to impose common resistance to the growing menace of Japan, but really to put an end to the isolated position of Germany in international politics."

Fleet to Do Kaiser Honor. London, July 10.—It is announced that the home fleet will assemble at Cowes the end of July to demonstrate in honor of Emperor William, who is coming over for Cowes week.

BURSTING FLY WHEEL KILLS. Joliet, Ill., July 10.—A twenty-ton fly wheel in the plant of the American Can company here burst today, Charles H. Bowers, an oiler, was killed, and John Delavitch, a laborer, badly injured. Several thousand dollars damage was done to the building and machinery.

STEAMER TRAVERSE LOSES HER LICENSE

GOVERNMENT DECIDES GAMBLING BOATS CANNOT BE PERMITTED ON ANY OF THE LAKES.

Chicago, July 10.—The department of commerce and labor has ruled that there shall be no more gambling boats allowed to run on any of the Great Lakes. This decision was reached after an investigation of the controversy between the city authorities and the owners of the "floating pool room," the City of Traverse. George B. Usher, inspector general of the steamship inspection department, and Lawrence O. Murray, assistant secretary of the department of commerce, arrived in Chicago today to investigate the City of Traverse case, and shortly after their arrival the license of the boat was revoked.

GET OVATION IN IRELAND. Dense Crowds in Dublin Give King and Queen a Hearty Reception.

Dublin, July 10.—King Edward and Queen Alexandra this afternoon visited the exhibition. Subsequently their majesties passed in procession through the streets of Dublin to the vice regal lodge. Dense crowds of people everywhere accorded the king and queen the heartiest reception.

Kingstown, Ireland, July 10.—The royal yacht with King Edward and Queen Alexandra on board, anchored in the harbor here before daylight today. Thousands of people poured into Kingstown from the country in order to witness the landing of their majesties.

FIRST FARMER IN THE SENATE

Alabama's New Representative, Successor to the Late Profound Student and Scholar, John Tyler Morgan, Has That Distinction.

Ex-Congressman Bankhead, Defeated for Reelection by Capt. Hobson and Subsequently Delegated to Don the Toga Removed by Death, Is Now Formally Nominated to Fill the Unexpired Term of His Lamented Predecessor—Is a Self-Educated Man.

Montgomery, Ala., July 10.—Former Congressman John Hollis Bankhead was nominated for United States senator to fill the unexpired term of Senator Morgan by the Democratic caucus of the Alabama legislature tonight.

Washington, July 10.—The coming of John Hollis Bankhead to the senate from Alabama to succeed Senator John T. Morgan, who died recently, will mark the advent to the upper body of congress of a farmer. Mr. Bankhead will probably be homesick, but he makes no attempt to conceal the fact that he is a tiller of the soil.

The senate is popularly supposed to be a body more congenial for millionaires than for farmers. Nevertheless, the case of Mr. Bankhead is peculiar, and it will be watched with interest. Bankhead is a short, rotund individual with a round head, and is altogether a strange successor to that profound student, scholar, and statesman, John Tyler Morgan, who had ploughed his way through more of the lore of books than any other man in congress, and who, with his omnivorous appetite for information, had left almost nothing printed in the English tongue unread. He is also a strange colleague for Gen. Edmund Winston Pettus, aged eighty-six, a fine old southern gentleman, soldier of two wars, lawyer, scholar, and aristocrat.

Bankhead is not only a farmer, but he was never even a soldier. He went into the Confederate army at eighteen, a private, fought hard four years, was wounded three times and came out of the war a private. He is not as long on mentality and lineage as some of his southern colleagues, but he has great ability as a handshaker and a mixer. He knows how to dispense good cigars and kind words, and at one stage of his career this knowledge got him an appointment as warden of the Alabama penitentiary. He held this place from 1881 to 1885, and then entered congress, where he remained until this spring.

He would be in the house yet had it not been for Captain Richard P. Hobson, who went into the Sixth Alabama district, an agricultural region, and in two campaigns won the people over to the cause of the giant battleships and a big navy. Mrs. Hobson, young and beautiful, convinced her husband and succeeded in capturing more votes with her smiles than Farmer Bankhead with his cigars and his handshaking. He was beaten, but a lot of Alabama folks thought he deserved better treatment than to be turned out of office after twenty years in congress, and so he was able to land in the senate.

One thing in Bankhead's favor is that he has marked ability to "get things" for his constituents. He served long on the rivers and harbors committee, and always found out what Chairman Burton wanted, and got it, and in a way favorable to it. Following this system, it was hard for the chairman to remain deaf to his appeals for a share of the "pork," and when apportionment time came it was generally found Bankhead succeeded in doing well by Alabama.

Williams in the Limelight. Another southerner who is much in the limelight just now is John Sharp Williams, Democratic leader of the house. Williams is engaged in the fight of his life for the senatorship from Mississippi, his opponent being the redoubtable Governor James K. Vardaman. The primaries are in favor of Williams, and both candidates are making extensive speaking campaigns. Williams is a master in debate, and has repeatedly invited Vardaman to joint debate. The governor is wary enough to evade being caught in any such trap. Just at present the odds are in favor of Williams, who is said to be making the finest series of campaign speeches that Mississippi or any other southern state has heard for many a year, and to be reaching up to the mark gained by the finest orators in the history of Jefferson Davis' state.

The outcome of the contest in Mississippi has a particular interest for members of the house of representatives, for the reason that if Williams is elected to the senate it will mean that another Democrat will have been chosen, though probably not for the coming session of congress, as Senator Money's term (the senator who will be succeeded) does not expire for a considerable time. A defeat for the senatorship would also tend to hurt Williams' prestige in the house. There is much talk of defeating him for the leadership, but under any circumstances he would be a hard man to displace. For sheer ability and culture and wide knowledge of affairs he is recognized as the peer of any man in congress, and would be an ornament to the senate if elected.

Toledo, O., July 10.—Roy Knabenshue, Toledo's aviator, proposes to sail in a few days from Toledo to Cleveland in his latest airship.

WEATHER FORECAST

Washington, July 10.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy, Thursday and Friday; variable winds.

SISTER OF MRS CARTER ARRESTED. Chicago Woman May Know Something of Bank's Missing Money.

New York, July 10.—Harry Kirkstein, a close friend of Mrs. Laura Carter, in whose apartments Chester B. Runyan, teller of the Windsor Trust company, who embezzled \$200,000 of the company's funds, was arrested, was arraigned today and held for hearing on Friday. It is said that Marie Duncan, Mrs. Carter's colored maid, has told the district attorney that on July 2 Mrs. Carter sent her to Kirkstein with a package which she believed contained money.

The police department has sent an officer to Chicago to bring to New York Flora Wood, Mrs. Carter's first, arrested there last night, and who, the police believe, may know something about the \$25,000 still missing out of the amount Runyan took from the bank.

USTER THREATENS AYRES. Army Officer Ordered to Appear Before the Retiring Board.

Washington, July 10.—By direction of the president, Lieutenant Colonel Charles G. Ayres, of the Fourth cavalry, has been ordered before the retiring board, in New York city, July 17.

BASEBALL

STANDINGS OF THE CLUBS. National League. Chicago, W. L. P.C. 55 18 733. New York, 43 26 623. Pittsburgh, 42 28 600. Philadelphia, 39 31 556. Boston, 31 39 444. Cincinnati, 29 42 417. Brooklyn, 26 45 370. St. Louis, 17 59 223.

American League. Chicago, W. L. P.C. 45 29 608. Cleveland, 39 35 575. Philadelphia, 39 31 549. New York, 33 35 485. St. Louis, 29 41 411. Boston, 27 44 370. Washington, 23 42 354.

TODAY'S GAMES. National League. St. Louis at Boston. Pittsburgh at Brooklyn. Cincinnati at New York. Chicago at Philadelphia.

American League. New York at Detroit. Boston at Cleveland. Washington at Chicago. Philadelphia at St. Louis.

PHILADELPHIA, July 10.—The winning run was scored on a base on balls, a sacrifice and a single. Summary: R. H. E. Philadelphia, 2 0 0 0 0 0 1—3 5 1. Pittsburgh, 0 0 2 0 0 0 0—2 5 2. Batteries: Moran and Dowin; Philippe and Gibson.

BROOKLYN, July 10.—Seaton held the Chicago team well in hand today, and shut them out. Summary: R. H. E. Brooklyn, 0 0 0 0 0 0 0—1 6 1. Chicago, 0 0 0 0 0 0 0—0 3 0. Batteries: Seaton and Bergen; Pfister, Brown and Moran.

NEW YORK, July 10.—Fronme was batted out of the box in the second inning. Summary: R. H. E. New York, 13 12 0 0 0 0—7 15 0. St. Louis, 0 0 0 0 0 1 0 0—1 6 1. Batteries: Ames and Bowerman; Fronme, McGlynn and Marshall.

BOSTON, July 10.—Superior work on the bases was the cause of Boston's victory. Summary: R. H. E. Boston, 0 0 0 0 1 0 0 0 1—5 9 5. Cincinnati, 2 1 0 0 0 0 1 0 0—4 13 0. Batteries: Beutler and Neeldham; Weimer and Schlei. Eleven innings.

DETROIT, July 10.—Detroit was batted out of the box in the second inning. Summary: R. H. E. Detroit, 1 1 0 5 0 0 2 0—9 15 2. New York, 0 0 2 0 0 0 2 0—4 6 2. Batteries: Deane and Archer; New Tom, Moore and Thomas.

CLEVELAND, July 10.—Cleveland was batted out of the box in the second inning. Summary: R. H. E. Cleveland, 0 0 0 0 0 0 0 0—0 2 2. Boston, 0 1 3 0 0 0 0 1—5 9 1. Batteries: Hess, Liebhardt and Bemis; Winter and Shaw.

MINNEAPOLIS, July 10.—Minnesota was batted out of the box in the second inning. Summary: R. H. E. Minneapolis, 0 0 0 0 0 0 0 0—0 5 2. Batteries: Joss and Clarke; Young, Criger and Shaw.

PHILADELPHIA, July 10.—Philadelphia was batted out of the box in the second inning. Summary: R. H. E. Philadelphia, 0 0 0 0 1 0 1 0—2 9 1. Batteries: Walsh and McFarland; Plank and Powers.

AMERICAN ASSOCIATION. Minneapolis 11; Louisville, 3. St. Paul, 4; Toledo, 6. Milwaukee, 5; Indianapolis, 3. Kansas City, 5; Columbus, 2.

WESTERN LEAGUE. Lincoln, 4; Omaha, 6. Sioux City, 1; Denver, 2. Second game: Sioux City, 6; Denver, 1.

CHICAGO CANNERY BEST. Saratoga, N. Y., July 10.—St. Bernard cannery of Chicago won first prize in the Knights Templar drill today. The official averages in the competitive drills were announced tonight as follows: St. Bernard, Chicago, 96.4; Columbia, Washington, 90.8; Rapier, Indianapolis, 89.3; Englewood, Chicago, 89.0; Ivanhoe, Milwaukee, 76.9.

MINERS' CHIEF GIVES TESTIMONY

Charles H. Moyer, President of the Western Federation, Takes the Witness Stand at Boise in Behalf of Haywood.

He Makes Positive Denials of All the Crimes Attributed to Him and Other Union Leaders, and in a Lengthy Explanation Tells Why It Was That His Organization Appeared as an Unsolicited Defender of Orchard When Jailed for Murder.

Boise, Idaho, July 10.—Charles H. Moyer, president of the Western Federation of Miners, went on the stand as a witness for his fellow defendant, Wm. D. Haywood, secretary of the same organization, on trial for complicity in the murder of former Governor Frank Steunenberg, today and besides making denials of all the crimes attributed to him and other federation leaders, by Harry Orchard, offered an explanation of the unsolicited appearance of the Western Federation of Miners as defender of Orchard immediately after his arrest at Caldwell for the actual murder of Idaho's former executive.

Moyer swore that it was Jack Simpson, who engaged Attorney Miller at Spokane to go to Caldwell to represent Orchard, then known as Thomas Hogan, and that it was at the request of Simpson that the witness and Haywood subsequently advanced \$1,500 from the funds of the federation to meet the expense of defending Orchard.

At various stages of the recital the defense offered in evidence a number of documents, including a heretofore undisclosed cipher telegram which Simpson sent to the federation headquarters from the union at Silver City, Idaho, concerning money taken to protect the federation, which was charged with the crime within a few days after it occurred.

Why the Union Defended Orchard. Moyer began by saying that he got his first knowledge of the crime from the Denver newspapers, and that on the evening of Jan. 4, five days after the crime, a telegram in the federation's cipher code in which certain numerals represented the alphabet and published in the ritual of the organization for use in transmitting the password to the local unions—came to Haywood from Spokane. It was long, and the translation was difficult and uncertain, but he and Haywood figured the next day that it was signed by Simpson and read: "Cannot get lawyer to defend Hogan. Answer."

The federation president testified that he was suspicious about the message, the newspapers having already charged the crime up to the federation, and that he decided to consult John Murphy, general counsel for the federation, before he took any steps. Moyer said that he left for Chicago that afternoon, but that Haywood took the matter up, opened communication with the union at Silver City and made arrangements to engage Attorney Nugent to look after the interests of the federation and defend Orchard if necessary. The defense produced copies of this correspondence, and all of it was read into the record.

Continuing, Moyer said that Miller came to Denver about the first of the following month, bringing with him the record of Orchard's preliminary hearing. Attorney Miller went to Denver at the suggestion of Simpson, the witness testified, and brought a request from Simpson that the federation furnish the large amount of money that would be needed to defend Orchard. Moyer said that he and Haywood conferred with Attorneys Murphy and Miller, and subsequently gave Miller \$1,500.

Denies All Criminal Acts. Moyer denied that he had ever discussed any kind of criminal act with Orchard or any one else, or that he had ever given him a cent except for expenses on the trip Orchard made to Oury as bodyguard for him. He said that he had no personal feeling of hostility for Steunenberg, and there were no circumstances that would make him desire the life of John Neville, whom Orchard testified that Moyer wanted to kill. Moyer said that Neville came to him after his arrest for alleged complicity in the independence station affair and asked that the federation give him \$200 to reimburse him for the expense he had incurred himself, but this request was refused.

The president of the miners' federation denied that he had participated in the conference in Pettibone's back yard, concerning acts of violence. He also denied knowledge of the subsequent meeting at the federation headquarters, at which Orchard swore that the Steunenberg and Neville executions were planned, and he denied practically every material statement in all of Orchard's testimony.

Moyer explained that Orchard had accompanied him to Oury because Orchard was going to Silverton, and they made the journey together as a matter of convenience. Representatives of the United Mine Workers had been beaten by three employes by the mine owners, and the witness and Orchard carried out "stogons" for their own protection.

Moyer swore that his gun was not subsequently used to kill Detective Lytle Gregory, but that Orchard returned it to the mine owners. He said that he spoke upon "Other Forms of Compensation for Teachers."

Before the department of special education, M. N. Melver, superintendent of the city schools at Oshkosh, Wis., delivered an address.

LOS ANGELES, July 10.—The National Educational association concluded today the important executive work of its sessions by electing Edwin G. Cooley, superintendent of the Chicago schools, president of the association, together with other officers, and adopted by unanimous vote the new charter and by-laws provided by act of congress.

Miss Elizabeth Shirley, a teacher in the Los Angeles schools, and formerly of Omaha, Neb., made a spirited speech before the convention in opposition to the proposed charter. Miss Shirley's language was bitter in reference to some of the leaders of the association, whom she did not name, and whom she charged incidentally with collusion with the school book trust. Miss Shirley, however, was completely outvoted in the convention.

At the auditorium tonight E. G. Cooley, the newly elected president, spoke on the subject, "Shall teachers' salaries be graded on merit or by the clock?" Charles H. Keyes, superintendent of the South District schools, of Hartford, Conn., addressed the convention upon "Teachers' Pensions and Annuities." George W. Nash, president of the State Normal and Industrial school at Abenden, S. D., spoke upon "Other Forms of Compensation for Teachers."

Before the department of special education, M. N. Melver, superintendent of the city schools at Oshkosh, Wis., delivered an address.

MOVES TO BREAK UP THE TOBACCO TRUST

Alleging That a Complete Monopoly of the Industry Is Threatened, the Government Institutes Suit at New York.

Announcement Is Given in the Connection That the Criminal Prosecution of Some Defendants Is Highly Probable, and to That End Waiver Is Made of Rights of Demanding Answers Under Oath for Fear It Might Carry Immunity With It.

New York, July 10.—The government today filed in the United States circuit court a petition against sixty-five corporations and twenty-nine individuals who constitute what is generally known as the "tobacco trust," setting forth the purpose of the government to dissolve the trust by breaking up the agreements under which the consolidated control of the industry has been maintained.

A significant feature of the complaint filed by Assistant Attorney General McReynolds is the waiver by him of the right of demanding answers under oath from the corporations and individuals named as defendants, as the making of such answers under oath might confer immunity from prosecution.

Mr. McReynolds said afterward that the criminal prosecution of some defendants named was highly probable; that the Sherman law under which the action is brought makes conspiracy in restraint of trade a criminal offense.

ACCUSED OF GIVING REBATES. Santa Fe Railroad Is Indicted on Sixty-five Counts.

Chicago, July 10.—The federal grand jury today returned an indictment against the Atchison, Topeka & Santa Fe railroad of sixty-five counts, all charging rebates.

Furniture Concern Emmeshed. Chicago, July 10.—The federal grand jury today returned an indictment charging violation of the Sherman anti-trust law against the Stafford Manufacturing company of this city, an alleged component part of the trust in school and church furniture.

MINNESOTA CROP IS SAFE. Green Bug Invasion Is Too Late to Be Productive of Damage.

Minneapolis, July 10.—F. L. Washburn, state entomologist, who announced that one of his field workers had found the genuine green bug in southern Minnesota wheat fields, today stated that as a result of further investigation the insects have made their appearance too late to do the crop any damage.

Washington, July 10.—The department of agriculture reports the conditions of the crops July 1st, as follows: Corn, 80.2; winter wheat, 78.3; spring wheat, 87.2.

WILL AWAIT MR. NEILL. President Small of the Telegraphers Decides to Remain in Prison.

San Francisco, July 10.—President S. J. Small of the Commercial Telegraphers' union has determined to remain in the city and go over the San Francisco situation with Commissioner of Labor Neill, who is expected to reach the city on Friday. Mr. Neill said today: "My change of mind does not in any way interfere with our future moves in defense of the position we have taken."

MICHIGAN WINS AT WHIST. Grand Rapids Club Captures Honors at Players' National Convention.

Chicago, July 10.—The Hamilton trophy, the principal of the contests at the annual convention of American whist players under the auspices of the American Whist league, was won today by Grand Rapids (Mich.) club. At the conclusion of the preliminary games, that club and the Chicago club were tied. At the second round today Grand Rapids was the victor with eight tricks.

FIGHT NEBRASKA LAW. Express Companies Make Appeal to the United States Courts.

Lincoln, Neb., July 10.—While the judges of the Nebraska supreme court were deliberating on issuing a restraining order today to compel the express companies to obey the Sibley law, the attorneys for the companies demanded a transcript and appealed to the federal court, where they will challenge the jurisdiction of the Nebraska courts.

TO HATCH A \$1,000 CHICK. Incubator Rigged Up for Ostrich Egg Laid in the Bronx Zoo.

New York, July 10.—A keeper in the Bronx zoo found a huge egg in the ostrich cage yesterday. Chief Curator Beebe, in charge of the bird department, says it is a rhen egg. A rhen is a South American ostrich. A large incubator was rigged up, and the zoo attendants will attempt to hatch an ostrich, Beebe says the hatching of the egg is a \$1,000 proposition, an ostrich chick being worth that amount.

BURLINGTON ROAD SLASHES ITS RATES

TWO-CENT FARES TO APPLY ON ALL ITS LINES WHETHER DECREED BY LAW OR NOT.

Omaha, July 10.—Assistant General Passenger Buckingham, of the Burlington railroad, today announced within ten days the Burlington would put in operation a two-cent fare schedule between all points on that system regardless whether or not the legislatures of the different states have passed two-cent fare bills. The action of the Burlington undoubtedly will cause other roads in the same territory to follow suit.

Wisconsin Legislation Doubtful. Madison, Wis., July 10.—By a vote of 15 to 11 the senate this afternoon passed a two-cent fare bill making the rate apply on all lines having gross earnings of \$2,500,000 a mile. A motion to send the bill immediately to the assembly was before twenty-four hours. This may mean the defeat of the measure, as a number of senators will have returned home before that time.

GIVES CATHOLICS WARNING. Educational Legislation Needs Watching, Says Archbishop Messmer.

Milwaukee, July 10.—Educational legislation in various states with relation to Catholic interests was treated in papers read by several delegates to the Catholic educational association convention tonight. At the conclusion of the reading of the papers Archbishop Messmer of Milwaukee made an address in which he expressed the belief that a very great part of the education legislation of the country in different states needed watching. Most of the day was devoted to department meetings.

SCHMITZ GETS A WRIT. San Francisco, July 10.—The district court of appeals this afternoon granted a writ of mandamus against Judge Judge Dunne, commanding him immediately to fix a date for the settlement and to settle the bills of exception in the Schmitz case or show cause why he has not done so. The writ is returnable on the 12th.

EDUCATORS HEAR BITTER LANGUAGE. CHARGE IS MADE IN SPEECH OF OFFICIAL COLLUSION WITH SCHOOL BOOK TRUST.

Los Angeles, July 10.—The National Educational association concluded today the important executive work of its sessions by electing Edwin G. Cooley, superintendent of the Chicago schools, president of the association, together with other officers, and adopted by unanimous vote the new charter and by-laws provided by act of congress.

Miss Elizabeth Shirley, a teacher in the Los Angeles schools, and formerly of Omaha, Neb., made a spirited speech before the convention in opposition to the proposed charter. Miss Shirley's language was bitter in reference to some of the leaders of the association, whom she did not name, and whom she charged incidentally with collusion with the school book trust. Miss Shirley, however, was completely outvoted in the convention.

At the auditorium tonight E. G. Cooley, the newly elected president, spoke on the subject, "Shall teachers' salaries be graded on merit or by the clock?" Charles H. Keyes, superintendent of the South District schools, of Hartford, Conn., addressed the convention upon "Teachers' Pensions and Annuities." George W. Nash, president of the State Normal and Industrial school at Abenden, S. D., spoke upon "Other Forms of Compensation for Teachers."

Before the department of special education, M. N. Melver, superintendent of the city schools at Oshkosh, Wis., delivered an address.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Exit the A. O. U. W. in Michigan.

People shouldn't look for the cheapest fraternal insurance, but for the cheapest good fraternal insurance.

We very much doubt, however, whether the collapse of the A. O. U. W. in Michigan is the last disaster of the sort we will hear of in the realm of fraternal insurance.

Schmitz says he will again be a candidate for mayor in the next election. Of course he assumes that at the time it is held he won't have pressing business in one of the California penitentiaries.

Messrs. Coveau and Ziehl, champion Cornish wrestlers of the iron and copper countries, respectively, are in the limelight again. Presently they may surprise everybody by wrestling each other.

The automobile accident that occurred yesterday was a slow speed one, with the driver, apparently, not particularly to blame. The constant warnings to motorists are given with the hope of preventing a high speed accident, with the driver very much to blame.

The attention of the Michigan Investor, a publication that apparently has never heard of a successful municipal lighting plant, is respectfully directed to the case of the Marquette plant, which is about to take up \$90,000 of its bonds some six years before they mature.

Yesterday afforded a particularly striking example of how quickly almost everyone can turn around in the stock markets. The day before the Boston depositors were talking boom prices. Yesterday they were considering if we were not presently to see March quotations again.

Attorney General Bird is very positive that Lieutenant Governor Kelly should not have voted on the resolution to submit the question of striking the 40 per cent provision from the primary law. Secretary of State Prescott will accept the attorney general's advice, as is very proper, and will take no steps to submit the question. It is assumed it will not be submitted, unless the courts mandamus the secretary of state, compelling him to act. This all sounds as if the issue were very important. As a matter of fact it is not, for the state will wag on much the same whether the question is submitted or not, and in due time Governor Warner will doubtless get around to call the proposed special session.

Two chauffeurs have been haled into justice court the past few days, charged with fast driving. In one case the complainant was the marshal, in another a private citizen. The marshal says he has no desire to unduly hamper owners and drivers of automobiles. The statute provides maximum speeds for the business and residence districts that are, as automobiles travel, very slow. There is a desire not so much to rigorously enforce the provisions of the statute as to require autoists to maintain reasonable speeds. If they will only be discreet and do this they will have no difficulty keeping out of trouble. However, public sentiment will doubtless heartily support the officers in their effort to prevent the use of the streets and public highways as speed courses on which the machines are to be put through their best paces.

A determined effort is to be made next year to find the south pole. It is a British enterprise, amply financed by subscription, and will be under command of Lieutenant Shackleton, who was with Captain Scott's furthest south expedition in 1901-4. King Edward's Land, the most easterly point reached by Captain Scott, will be used as a base, and early in the new year three distinct expeditions will be pushed southward, and hopes are entertained that some of the mysteries of this frozen area will be revealed. One of the novelties of the expedition will be a motor car specially built to withstand cold and designed for ice travel. Its use will be an experiment, but it is hoped that something may be accomplished by its use for traction purposes.

The growing interest taken by the general government, by the different states, the railroads and by private individuals in forestry has developed a new profession with new opportunities for young men. It is that of forestry culture. Ten years ago the schools and colleges gave no attention to this branch of study. Today Yale, Harvard, Michigan, Baltimore, Nebraska and Iowa universities have chairs of forestry and offer technical instructions and training to students. At the close of this year's college year thirty-five of the graduates of these schools were taken into the government forestry service and there is a demand for more. The profession of forestry, though comparatively new, is one that is very promising in opportunities for young men willing to work hard. Something more is needed than knowledge of trees. Practical experience in the woods, in logging and in sawmill operations is necessary, and the competent forester will also know the value of timber and the uses to which it can be put. The profession will be of growing importance as the problem of timber supply becomes more pressing.

The A. O. U. W. died of complications growing out of a wrong basis for carrying on its insurance feature, the real reason of its existence. It was one of the first orders to attain prominence, and in its heyday was the most influential fraternal insurance association in Michigan, with a membership of over 20,000, and thriving lodges in every city and town of importance. However, its insurance rates were fixed without sufficient study of mortality tables. It sold insurance too cheaply. Only the discerning students of insurance questions saw this in the beginning, and among the rank and file the A. O. U. W. was a prime favorite, because of its cheap rates. Nor were there any bad results for many years. The mortality was small and the influx of new members brought abundant income, all obligations being discharged when due.

But men grow old, in fraternal insurance societies and out, and the test of the soundness of a fraternal insurance scheme comes when the mortality among the men who first entered into it becomes large. The mortality in the A. O. U. W. began to advance beyond the average for previous years a few years ago, and then it was found that the society was working on an impracticable basis; that it was selling insurance too cheaply and that unless there was a speedy change in the rates it would go to pieces.

The past two or three years were given over to rate tinkering, in an effort to get the society on a firm basis. The rates for old men were raised somewhat nearer the amount that the mortality tables showed was the cost of their insurance. Rates for young men were allowed to remain comparatively low, so that there might be that infusion of young blood necessary to keep every fraternal insurance society in good condition. But the A. O. U. W. could not be lifted out of it. The old members dropped out by thousands, and the young men stood aloof. There was much delay with the settlement of death claims and there are many still to be paid. The past year there has been some hope that the grand lodge might be saved, but evidently the delegates at the Detroit meeting judged it futile to waste any more time on the effort.

The obvious lesson is that people should be careful in insurance not to buy too cheap insurance. Cheap insurance is, at the critical moment, likely to be found to be no insurance at all. The cost of insurance can be figured out to a nicety. The old line companies have done it, and then have added a liberal margin for contingencies. The fraternal organizations, owing to their form of organization, can insure safely somewhat cheaper than the old line companies are doing, but they cannot safely insure as cheaply as many of them are trying to do. Scan your fraternal insurance society closely. Be sure that it is asking money enough of you and the other members to enable it to meet any claim that your heirs may, in time, have on it.

THE CHARMING WOMAN

Is not necessarily one of perfect form and features. Many a plain woman who could never serve as an artist's model, possesses those rare qualities that all the world admires: neatness, clear eyes, clean smooth skin and that sprightliness of step and action that accompany good health. A physically weak woman is never attractive, not even to herself. Electric Bitters restore weak women, give strong nerves, bright eyes, smooth, glossy skin, beautiful complexion. Guaranteed at The Stafford Drug Co.'s store 50c.

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-copper glass jars 50 cents. Sold by The Stafford Drug Co.

During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. Sold by The Stafford Drug Co.

Dr. Shoop's Restorative, and my book on either Dyspepsia, The Heart or the Kidneys. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy ever claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by The Stafford Drug Co.

G. B. BURHAMS TESTIFIES AFTER FOUR YEARS.

G. B. Burhams, of Carlisle Center, N. Y., writes: "About four years ago I was cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder troubles." Sold by The Stafford Drug Co.

representing "Little Eva." The parade attracted much attention.

Rev. O. W. Carlson, pastor of the Swedish Methodist church, and wife, have gone to Chicago. Mrs. Carlson will today submit to an operation for appendicitis at the Augustana hospital. Her health has been poor for some time past and a few weeks ago she was critically ill.

The Griffin Troubadors, who filled an engagement at Bradstad's hall Tuesday evening under direction of Zenith Lodge, Knights of Pythias, were greeted by a large audience. The entertaining program was much enjoyed and over 200 couples participated in the dancing, which continued until 12 o'clock.

The Chicago Salvage company will conduct a closing out sale of the Savings Bank stock of merchandise. J. D. Riley, manager of the company, is here from Chicago, together with an assistant, to conduct the sale, which will open Saturday morning. The store will remain closed while the stock is being readjusted.

Wilfred Skoglund, son of Emanuel Skoglund, has taken a position as stenographer and assistant bookkeeper in the Ishpeming house of the Swift Packing company. He is a graduate of the Ishpeming Business college. J. H. Valton, another graduate of the college, has accepted a position as stenographer with the Northern Coppage & Lumber company of Gladstone.

"London copper opened this morning weaker, as was to be expected. Spot declined 1 pound and futures sold off 2 pounds 10 shillings. Rio Tinto shows a 3 point decline and all London copper securities were weak. With such a depression, combined with the selling movement which was inaugurated yesterday, it speaks well for coppers to say that they opened unchanged this morning. All active stocks sold off on further realization in sympathy with rails and industries. Realizing apparently was completed toward noon and stocks showed fractional gains over the low point. The bears had looked for 20 cent copper and it is believed that there is a fair-sized short interest in the market. With 23 cent copper for the next four months, the better copper stocks are certainly a purchase on any break. Amalgamated's equity in the production of subsidiary coppers is such that on a basis of 22 cents, its net earnings will be about \$27,000,000 or 17 1/2 per cent."

The day's prevailing prices were:

Board of Public Works Reports That Cost Will Exceed \$1,500.

Property owners on Empire and North Third streets, a part of whom petitioned the council a short time ago for an extension of the sewer system to that district, while the others protested against the improvement, are manifesting much interest in the matter. Practically all of the aldermen have been interviewed by members of the opposing factions, but inasmuch as the improvement has been recommended by the committee on the board of public works it is likely that the work will be completed before winter sets in. At the meeting of the council Tuesday evening the committee and the board reported as follows:

Your board of public works and committee on sewer, to whom was referred the matter of making plans and diagrams for a proposed sewerage and drainage extension to our present sewer system, beg leave to report that to cover the territory petitioned for a sewer will have to be constructed along a line described as follows: Commencing at a point at the intersection of North Third and Empire streets, thence westerly through the center line of Empire street, seven hundred and ninety-two (792) feet to the intersection of Maple and Empire streets, thence southerly seventy-five (75) feet in the center line of the first alley west of First street and in the rear of lots 17 and 18 of the Cleveland Iron Mining company's second addition to the city of Ishpeming, such extension to be known as Extension No. one (1) of sewer district No. two (2) of the city of Ishpeming.

"We submit also herewith the accompanying map of said extension showing all the streets, ground, lands and lots to be benefited by said sewer extension, together with the proposed route and location of the sewers therein and the depth, grade and dimensions thereof, and submit also as a part of our report the accompanying detailed estimates of the cost of the sewer."

The estimates follow:

Table with columns: Item, Cost. 75 lineal feet 6-inch sewer pipe, 50 cents per foot, \$37.50. 792 lineal feet 12-inch sewer pipe, 81 per foot, 792.00. 4 manholes, \$38 per manhole, 152.00. 5 catch basins, 22.00. 1 flush tank, 2.24. 2,372 iron covers, 71.16. Engineering services, 25.00. Labor on inspection and records, 30.00.

Total, \$1,291.90. The petition for the sewer extension was signed by a majority of the taxpayers. All the taxpayers interested will be given a hearing at a special meeting to be held on the 26th, a resolution to this effect having been adopted by a unanimous vote.

ISHPEMING IN BRIEF.

The Swedish Lutheran parochial school has been opened for the summer, with Professor Rydberg as instructor.

Clarence Jaedecke, Earl Leininger and Clifford Mitchell are enjoying an outing at Camp Florence, south of Ishpeming.

Miss Annie Knottwell has returned to her home in Republic after a week's visit in this city with Miss Eva Francis.

A. Nicholas, one of the proprietors of the Boston Candy Kitchen, was here from Sault Ste. Marie Tuesday and yesterday.

Andrew Fandrom and wife left Tuesday evening for their native place abroad, where they will visit two or three months.

Arthur Sandberg, Bert Trebblecock and Will Burke have gone to Detroit and other cities in lower Michigan, to be absent ten days or two weeks.

I. H. Mortley, wife and two children, will leave Sunday on a boat trip, visiting here today or tomorrow from Duluth. They will be absent three or four weeks.

Jake Lavton, one of the proprietors of the Grand Theater, was called to Milwaukee last evening on business. He will be back tomorrow. Mrs. Lavton and child are in this city, to remain several weeks.

J. A. Gayley, T. F. Cole, William J. Oleott and other officials of the United States Steel corporation are expected here today or tomorrow from Duluth, on an inspection of the Oliver Iron Mining company's properties.

A group of enterprising youngsters of Strawberry hill brought a novel procession through the principal business streets yesterday. There were several floats, neatly arranged on little express wagons. On one of the floats was a living girl decked out as the Goddess of Liberty and in another was a little tot

Try them for lunch and you will have them for dinner. Uneeda Biscuit. The most nutritious staple made from wheat. 5c NATIONAL BISCUIT COMPANY. In moisture and dust proof packages.

Copper Country

COPPER RANGE STRIKE.

Section Hands Want More Pay—Rock of Ages Light.

The section hands of the Copper Range railroad are on a strike, asking \$2 per day, an increase of twenty-five cents. The company refuses to grant the request and the men are idle. There was no action taken by either side yesterday.

Engineer Beyer, in charge of the construction of the Rock of Ages light, has appealed to Engineer Banks of the United States engineer's office in Houghton for laborers. Mr. Beyer offers \$2.75 per day and food and transportation to laborers, but finds them scarce. The work may be dangerous in stormy weather, and this fear evidently prevents men from accepting the high wages offered.

As a general thing laborers are not very plentiful in the copper country. They are receiving from \$2 to \$2.25 per day on public works contracts and it requires hustling on the part of the contractors to keep their gangs full. The attractions of the West have lured many laborers in the past year. There is no labor famine here of course, but the country could give employment to many more than are here.

COPPERDOM BASEBALL.

And Also a Little Midsummer News Concerning the Game of Hockey.

The Houghton and Calumet baseball teams played yesterday afternoon at Ripley Park, continuing their second home series of the season.

Houghton continues to play a rather better article of ball than Calumet. The latter team lost to the Giants Tuesday at Calumet with a score of 1 to 2. Houghton's steady winning has not materially affected its standing because Winnipeg and Duluth have ching ahead in the first and second positions. In the copper country, however, the rivalry between Houghton and Calumet makes their race for third place almost as interesting as a pennant race. Bert Simpson, the former Calumet high school player who is trying for U. of M. baseball honors, was tried by Calumet Tuesday when Kaiser fell down and he made a fair showing.

Yesterday's game resulted:

Calumet	15	3	
Houghton	2	11	3

Batteries: Newcombe, McMarney; Miller, Egan and Laughlin.

The Pittsburg papers have already begun to talk hockey and have already formed a new league. Their plan leaves the Soo and the copper country out and brings in New York, Toronto, Boston, Cleveland and Columbus. It is too early to talk hockey. But it is pretty safe to say that the Pittsburg plan will not be carried out. Hockey fans in the copper country have seen all these towns provided with hockey teams, on paper though, in winter past. It is a pretty safe bet that the International league will be much the same this year as last.

IMPORTANT INSURANCE DEAL.

Shelden & Bertrand of Houghton Have Secured Big Agency.

Shelden & Bertrand yesterday made a notable stride in their insurance department by closing a contract by which they take over the management of the Phoenix Mutual Life Insurance Company's business for Houghton, Baraga and Ontonagon counties. This business represents thousands of dollars in policies. Most of these policies have been issued since an active campaign was started in this district by Frederick S. Burgess, a member of the firm of Waite & Burgess, state managers, with headquarters in Detroit, and J. H. Chapell, the Phoenix representative from Hartford.

The contract whereby Shelden & Bertrand take over the Phoenix company's business is one of the largest deals ever made along that line in the copper country. John H. Chappell, who enters the employ of Shelden & Bertrand as a manager of their life department, is a man of wide experience in this line of business, having been connected with the Phoenix Mutual as special representative for a number of years.

FUN WITH NAVAL RESERVE.

State Papers Comment on Ice Boxes and Things on Ships.

The Detroit and other state papers are having a lot of fun with the proposition that the state send the Don Juan de Austria and send the Yantic to the Hancock naval reserve. The statement is made facetiously that the reason the Austria is being secured is because it has a larger ice box than the Yantic. Copper country people are interested in the matter of the new ship because its assignment to Michigan means undoubtedly that the Yantic will come to Hancock. This will be a triumph for the Hancock division and its friends in the copper country and Hancock and Houghton's citizen sailors will be given an opportunity to show what the naval reserve actually means.

There is the possibility that the Hancock division will not be able to paralyze in an annual cruise this year because of the necessity of sending the Austria and bringing her back to Portsmouth. But the Hancock boys will then have to go to Detroit and bring back the Yantic. This will be in line of the cruise. No definite arrangement has been made for the lines, but the Hancock division will not be greatly astonished at the receipt of orders to report in Detroit for the purpose some time late in August. They will be glad to man their own ship, even if it has a smaller ice box than the Austria.

In the meantime the local division will confine itself to learning seamanship. Since its organization last September the division has been studying its duties as a landing force. Now the summer will be used for the study of seamanship. Two wheelboats have been delivered at Hancock as a partial aid to this study, and boat practice is being indulged in every night.

WANTS TO BE FIRE WARDEN.

"Ping" Foster of Houghton Is Out for a State Job.

William H. "Ping" Foster, the well-known Houghton trapper and guide, is a candidate for office as a state deputy fire and game warden under the new game and fire department. He is being backed by some of Houghton's most influential citizens. State Game, Fire and Fish Warden Pierce is expected in Houghton on an official visit next week, and Mr. Foster's application will be presented to him with strong endorsements.

Just what the nature of the office is does not know, but it is a matter of combining the duties of game, fish and fire warden and presumably will cover all the counties of the copper country, not disturbing the present county game wardens. The Houghton applicant is one of the best known trappers and guides in the upper peninsula and he knows the woods, fields and streams of the copper country like a book. Nature has, in fact, been about the only book which "Ping" has given much study since his manhood was attained. He was a year ago game keeper of Grand Island for the Cleveland-Cliffs company, but that had proved too restricted for him. He wants lots of room. He is at present conducting a popular restaurant in Houghton, but is desirous of selling out.

The new game and fire laws of the state combine the state game and fish warden and the state fire warden in one office, and their deputies will have similar joint duties. A great many forest fires, in fact the majority of them, are started by careless hunting parties, who either do not take precautions while in camp or who carelessly leave camp fires burning after they break camp. "Ping" Foster knows of twelve camps in the copper country which have recently burned down in this way and which have started more or less costly forest fires.

Homeowners and farmers in the copper country have suffered through these causes and the annual damage is such that the expense of maintaining an efficient game and fire warden would easily be offset by the saving in fire losses. One Houghton county farmer last year lost his hay, barns and harvesting machinery burned up as the result of a forest fire started by a careless hunting party.

Mr. Foster says that the position he seeks would give him a commission in all of the copper country counties, and would empower him to hire a gang of fire fighters wherever a forest fire is located to assist him in putting down the fire. He would also roam the woods and instruct camping and hunting parties in fire precautions. The work he could do for the state would undoubtedly be valuable, and he has such strong backing that there is little doubt he will secure the appointment.

TURNING DIRT INTO DOLLARS.

Thomas F. Cole, the Man of the Hour in the Mining World.

C. H. Hare writes in part in System for July: Thomas F. Cole is "the man of the hour" in the mining world. His methods of management prove him the ablest mining executive of his time. With almost intuitive judgment in considering prospects; a man whose reorganization of the Greene properties was the one of the first rank; a man who made settlement of the famous dispute between Amalgamated and F. Augustus Heinze mark a great diplomatic.

Thirty-seven years ago young Cole, left fatherless by an accident, began work in the copper mines of Michigan. There he stayed eight years, enjoying more than the usual promotions. Then came two years as a brakeman, and two more as a clerk. He studied nights, so that at the end of his teens he had the equivalent of a common school education. Then came his first big jump. His zeal, loyalty and experience attracted attention at the largest Menominee iron mine, the Chapin, and they took him as cashier and chief clerk. He not only did his work but he accumulated himself with all his mining details and financial workings.

Rise in Iron Industry.

Again, prepared for it, the opportunity came. Ferdinand Schlessinger, the iron ore king, needed a capable man to take charge of his properties. He finally selected Cole against the advice of friends, who referred to him as "that boy."

When Schlessinger became helpless in the '95 panic, Cole took affairs in his own hands, when looking back wages of the men, but with their consent. He added his own savings to the sacrifice, but his efforts were vain.

In 1901, when the Steel Corporation was formed, he was offered the presidency of the Olivet Iron Mining company—the ore end—which he retains today. His reorganization of this company has been the installation of a system as detailed as that of a small-narrow-gauge factory—as secure as a bank's. One of his men says: "We can feel his presence when he is away as much as when he is here. One of the 2000 employees on the five ranges recognizes his presence in the system which directs their workings." Where chaos reigned the most perfect harmony now prevails; moreover, loyalty is a prominent attribute of the employees of the ore end, the assurance of justice to all. When he became president of the world's greatest ore mining company, at Nifty-nine, he had reached the top round, at least, on the managerial side; to him it is merely a preparatory course, for it is through his knowledge of the operative, accounting and managerial side of mining that has made him the greatest mining developer of the day. No man could wish a more favorable opening venture than Calumet & Arizona. Its jagged history parallels many other stories of discouragement—only in this

MINOR CRIMINAL MATTERS.

Burt Blake, a Calumet waiter, was yesterday fined \$5 and costs for stealing a camera from W. H. Foster, restaurant keeper of Houghton, for whom he had formerly worked. Blake pleaded guilty, but claimed he took the camera in lieu of wages. He paid his fine.

Justice Privette of Lake Linden sent Matt Brown to the county jail in Houghton yesterday for thirty days. He was convicted of wife beating. When his term expires he will have to give bonds to keep the peace for ninety days.

Justice Jackola of Calumet on Tuesday fined John J. Depond \$3 and the cost for assaulting the small son of Charles J. Hansen. He pleaded guilty.

ANNUAL PILGRIMAGE EXCURSION TO CANADA.

Annual Pilgrimage to the Shrine of Ste. Anne de Beaupre, Quebec, will leave via the South Shore every day July 13th to 19th, inclusive. Fare for round trip \$25. Good for stop-over at Ottawa, Montreal and other intermediate points. Return limit Aug. 31st. Through sleeping cars. Apply to ticket agents.

(7-5-13t)

QUICK RELIEF FOR ASTHMA SUFFERERS.

Foley's Honey and Tar affords immediate relief to asthma sufferers in the worst stages and if taken in time will effect a cure. Sold by The Stafford Drug Co.

SENATORIAL CONVENTION.

Call Issued for Gathering for Constitutional Delegates.

Johnson Vivian, Jr., chairman, and James T. Fisher, secretary of the Republican committee for the senatorial district comprising Houghton, Keweenaw, Ontonagon, Gogebic and Baraga counties, have issued a call for a convention for the nomination of candidates to represent the district in the forthcoming convention for constitutional revision. Based on the vote in the last gubernatorial campaign the counties will be represented as follows: Houghton, 27 delegates; Ontonagon, 7; Gogebic, 11; Keweenaw, 3; Baraga, 2. Total, 48. It will be seen that Houghton county has sufficient delegates to control. The convention will be held in the Laurium town hall on the afternoon of Aug. 13.

VALUABLE INVENTION.

Copper Country Men Secure Patent on a Hole Starter.

Milton R. Dickens of Houghton has received from the United States patent office letters patent for a drill attachment which is described as a hole starter. The invention is one which is expected to greatly increase the efficiency of air and other mining drills. The following technical description is taken from the Patent Office Gazette:

"1. A drill-hole starting attachment for rock drills comprising a bar constructed with a longitudinal socket, leaving an inner anvil or seat at one end thereof, and cutting teeth on the anvil end of the attachment, the cutting teeth being attached extending transversely across the end of the attachment.

"2. A drill hole starter comprising a body constructed with cutting teeth extending transversely across one end thereof, the body being provided with an inner opening extending from one end thereof to near its toothed end, and an annular perforated cap at the open end of the body.

"3. The combination with a drill employing a rod adapted to be imparted endwise reciprocating movement, of a body constructed with a longitudinal opening extending from one end thereof to near its toothed end, and an annular perforated cap at the open end of the body.

JUDGE STREETER TO THE SOO.

Hon. Albert T. Streeter, Houghton county circuit judge, will leave Houghton this morning for the Soo, where he will sit at a special term of the Chippewa county circuit court, acting for Judge Joseph H. Steere. Judge Streeter does not know the nature of the cases over the trial of which he is to preside, but doubtless they are matters which Judge Steere is personally interested. A similar instance was seen in Houghton this year, when Judge Cooper of Gogebic was called to Houghton to try the College avenue injunction case. Judge Streeter was an interested property owner, and could not sit in the case.

COPPERDOM BREVITIES.

Mrs. Thomas Gunson of Houghton left yesterday for a visit in Detroit.

Mrs. F. E. Long and Miss Long of Calumet have gone to Buffalo for a visit.

W. J. Trevarrow and John Anderson of Calumet left yesterday to visit at the Soo.

Henry Hopp of the Calumet & Hecla band has gone to Canada for a vacation visit.

Mrs. Robert H. Shields and sons Nathan and Merton left yesterday for Ishpeming to visit relatives.

S. T. Harris and Miss Grace Harris of Houghton went to Marquette to visit relatives yesterday, making the trip in the Northwest.

Frank A. Pollock, a student at the M. C. M. Houghton, has been called home to Minneapolis because of the sudden death of his mother.

Richard Williams of the Calumet & Hecla mill at Lake Linden has resigned his position to accept one as master mechanic at the Champion mill.

Mrs. Halgren of Manistique, who is Miss Elsie Brown, former art supervisor in the Houghton public schools, is visiting friends in Houghton.

Rev. J. R. and Mrs. Baldwin of the Calumet Baptist church left yesterday for the Northwest, on route to Forest, Ont., where they will visit relatives.

Robert H. Shields of Houghton returned Tuesday from Alpena, where he had been attending a meeting of the state tax commission, of which he is president.

Captain James Milligan, former head mining captain of the Calumet & Hecla Mining company, returned yesterday from a trip of inspection of properties near Butte.

The board of control of the Michigan College of Mines will meet today for the purpose of awarding contracts for the construction of the new power plant and service tunnel.

"Pat" Lewis of Kenton has arrived in Calumet to take a position with the Ojibway Mining company in the mining engineering department. He is a former student of the M. C. M.

Fred W. Cowley, manager of the Calumet & Hecla band, has gone to visit at Niagara Falls and other Canadian points. Mrs. Cowley and their daughter, who are now visiting in Canada, will return with him in two weeks.

The last social session of the summer for the Hancock lodge of Elks will be held tonight and Exalted Ruler Stevenson promises a big time. Eleven favors will be invested with the insignia of the order and will later be given in honor of a banquet and vaudeville program which will enlist the best local talent in Houghton and Hancock.

THE WORST KIND.

After Piles have existed for a long time and passed through different stages, the suffering is intense—pain, itching, throbbing, tumors form, filled to bursting with black blood.

Symptoms indicating other troubles may appear to a thoroughly Pilesick person.

This is when Dr. Leonhardt's Hemorrhoid Remedy is needed. It brings the results that have made its fame.

It will cure the most stubborn case in existence and a guarantee to that effect goes with each package.

It is to be had for \$1 at The People's Pharmacy, Marquette, Mich., or from Dr. Leonhardt Co., Niagara Falls, N. Y.

case defeat was staved off by the will and genius of Cole.

Specific Achievements.

When a shaft is dropping, dropping past the last level distance of hope, with every foot costing a tiny fortune, and it takes a man with a strong heart and an iron will to hold out against the grumblings of co-directors and stockholders. It was not until the 700-800 foot levels that the bonanza ore was struck. Without Cole's guidance and determination, his associates would have given up long before. It was North Butte's spectacular rise which brought him into national prominence. The Speculator mine was said by Amalgamated, Senator Clark and Heinze to be no good. An engineer of Cole's went down and discovered formations which gave him hope. The risk of development here was reduced by two features: It was at the center of the world's richest copper camp, and had been examined by a most competent man, who declared that everything pointed to copper at greater depth. He was not mistaken. North Butte led Mr. Cole into one of his really two great achievements in his copper-mining career: the Heinze-Amalgamated controversy, and the formation of Butte Coalition.

Cole has a horror of seeing anything going to waste, or idleness. Here were numerous properties lying idle—tied up in litigation—which might be earning millions. He said to John D. Ryan: "Why do you not settle it? Well, why don't you?" Ryan would retort: "Put me in touch with Mr. Heinze and Mr. Rogers and I will settle it." Mr. Cole answered: "The solution is simple; sell the properties. I will form a new company, and take them over."

At forty-five, Thomas F. Cole, who has just finished his second great achievement in the reorganization of the Cananea mines, stands almost alone for rock achievement in mining; he has been a creator—not merely a promoter or market-man; he has added nearly \$200,000 of value to the wealth of this country in the copper industry alone. His splendid foresight; his ability to select engineers; his quick perception of values; his ability to command capital; are the qualities which enable him to turn a hole in the ground into a bonanza—to turn dirt into dollars.

Model Mining Town—

With a force of a thousand men already employed at its group of five mines in the Sweeney district, southern Marquette county, and with work in store for a much larger number as soon as the newer properties are opened up extensively, a model city is to be established by the Cleveland Cliffs Iron company near the present town of Princeton. The townsite is already platted. The company will have complete water works and sewerage systems built and the streets will all be constructed of stone macadam. The material is already on the ground for the sewerage system, and there is so much of the rock that it is piled up ten or twelve feet high and covers several blocks. Diamond drilling has revealed the existence of very large deposits of ore in the Sweeney field, and it is certain that a number of other mines will be opened. The townsite is already platted. The company will have complete water works and sewerage systems built and the streets will all be constructed of stone macadam. The material is already on the ground for the sewerage system, and there is so much of the rock that it is piled up ten or twelve feet high and covers several blocks. City Brevities

Today's weather: Fair; stationary temperature.
Yesterday's temperatures: Seven a. m., 68 degrees; noon, 72; 7 p. m., 64. Maximum 74 degrees; minimum, 61.

Oliver Johnson was down from Ne-gamooe yesterday.
Next Sunday will be children's day at the Methodist church.

John Nesbitt of Big Bay was a Marquette visitor yesterday.
J. H. Lawton was a business visitor from Ishpeming yesterday.

Theodore Johnson of Ishpeming was a visitor in the city yesterday.
C. C. Powell, of Munising, looked after business in the city Wednesday.

Miss Nettie Wagner has returned from an extended visit at Escanaba.
Al. G. Goodney was down from Ishpeming Wednesday, on a business mission.

John Stronach, advance agent for the Rita W. Hazlan Stock company, was in the city yesterday.

Miss Mae B. Hewitt, the librarian, will leave today for a few days' visit at her home in Appleton, Wis.

Mrs. J. S. Harland and son have returned from a four weeks' visit with relatives at Pickney, Mich.

Mrs. J. F. Carey and daughter, Bernice, of Escanaba, are visiting at the home of George Wagner.

Rev. Ames Maywood and family are enjoying an outing at the Adams cottage, on Middle Island point.

Mr. and Mrs. T. J. Trevillion leave today for Bruce Mine, Ont. where they will visit relatives for a week.

Mrs. Celia Malbon and Miss Celia Spate of Chicago are visiting Mrs. A. C. Anderson at the Summit House.

The Misses M. D. and V. S. Williams of Philadelphia are spending a few weeks in the city, the guests of friends.

G. G. LeVeque of Menominee was a business visitor yesterday. H. T. Johnson of Ishpeming also was a caller in the city.

The Modern Woodmen degree team is making arrangements to give a hop at Fraternity Hall Thursday evening, July 25.

Samuel C. Hops arrived in the city yesterday, to assume the management of the mining picture theater to be opened in the Greenwood block.

Wm. George Shiras of Pittsburg, formerly in the U. S. supreme court, is in Marquette for his annual summer visit, having arrived yesterday.

S. T. Harris and Miss Grace Harris of Houghton are the guests of Marquette friends. They arrived last night on the steamer Northwest.

On account of the Hibernians picnic at Birch next Sunday the train for Marquette will not leave Big Bay until 7 p. m., and Birch at 7:30 p. m.

F. S. Burgess of Detroit has rented a cottage at Middle Island point and will bring his family here in a week or ten days, to spend the summer.

Miss Anna Bauer, of Valonia, Minn., is in the city visiting her sister, Mrs. E. J. Kelly, 133 W. Crescent street. She contemplates spending the summer here.

Rev. M. H. Morey, of Ypsilanti, will take charge of the prayer meeting service at the Presbyterian church this evening. His topic will be "Saul's Conversion."

Bryant Walker and Mrs. Wallace Ratchiff of Chicago arrived in the city yesterday, and will leave for the Hunon Mountain, in club today. Mr. Walker is secretary of the club.

The Troubadour Amusement company will give a concert at Fraternity Hall this evening under auspices of the Knights of Columbus. Dancing will follow, concluding at 2 o'clock.

A special meeting of the park, cemetery and street commission was held in the city hall yesterday afternoon and it was decided to order a shipment of Tarrin, to be used experimentally on several blocks of city streets.

The steamer Sheudle's big cargo of 10,263 gross tons of ore was broken yesterday by the Michigan, of the same fleet, which cleared from the L. S. & I. dock with a hundred tons more than was taken on by her sister ship.

State game and Fire Warden Pierce is expected in the city this week. He is inspecting the northern counties of the state, and looking over the material for deputy game wardens.

The Spongers club will give an informal dancing party at the Legion hall Friday evening. The dance in honor of two former members of the Spongers club, Mr. Raymond and August Hansen, who are now marines on the Wolverine.

A diver was employed all day yesterday in the work of recovering the sandstone which was damaged by the lake when cars broke through the merchandise dock recently. Four huge pieces were taken out yesterday. There are a carload and a half of the stone yet to be raised.

Bob Hume complains that the automobilists are shooting the speed limit all to pieces on Presque Isle, and wishes The Mining Journal to say that they must be more careful in their driving, or he will make arrests. He has received complaints from visitors at the park of reckless driving.

An ore train coming down the grade, got beyond the control of the engineer in the vicinity of the brewery at 8 o'clock yesterday morning. There was some trouble with the air brakes, which failed to work properly. The train was got into check as it approached the Front street crossing, and was brought to a halt in the lower yards with no damage resulting.

News Created Talk—The news in yesterday's issue of The Mining Journal that the grand lodge of the A. O. U. W. had decided to give up its charter was subject of discussion by the remaining members of Grafton lodge yesterday. They are waiting eagerly for news of what will be done for the Michigan members. Grafton lodge was at one time the largest and most influential fraternal society in the county, but the membership has shrunk to but a small part of the size it had once attained.

Is Playing at Duluth—The Mack Leone Stock company, which closed a successful two weeks' engagement at the opera house here last Friday evening,

is playing for an indefinite period of time at the Lyceum, Duluth's leading theater. It opened there Tuesday night in "The Christian," and created an excellent impression. The troupe will doubtless hold the boards at Minnesota's coming metropolis throughout the remainder of the summer.

Death of Old Resident—Mrs. Helen Crow, an aged and respected resident of Marquette, died at her home, on Mesnard street, at 1:30 o'clock yesterday afternoon. The deceased was born in Ireland. Mrs. Crow had been a resident of Marquette for many years, and was well known and respected by a large circle of friends. She was fifty years of age and is survived by a brother, William, residing in the city, and a sister, Mrs. George Sharlin of Warren, Ark. The arrangements for the funeral will be announced after the arrival of Mrs. Sharlin.

Two Days' Convention—The Swedish Lutheran Young People's societies of the upper peninsula are holding their annual convention at Marquette, and a large delegation is in the city for the two days' session. The convention opened yesterday and will be concluded this evening. A literary and musical program was rendered at the Swedish Lutheran church last evening at 8 o'clock. The visitors and townspeople will spend part of today at Presque Isle, where dinner will be served. Addresses will be delivered by all the pasting present, and there will be yachting and other pleasures. A meeting will be held this morning, at which the officers for the ensuing year will be elected. At present Rev. A. Andre is president; G. Skogberg, of Ishpeming, secretary, and Miss Sigrid Johnson of Iron Mountain treasurer.

WANT UNCLE SAM'S \$50,000,000.
All Federal Departments Plan to Secure Slits of the Big Surplus.

Washington, July 10.—Active campaigns have started in several departments for assailing the treasury's big and attractive surplus. With the federal government at least \$80,000,000 to the good, it is recognized that congress is bound to be liberal next winter. Speaker Cannon will hardly come to Washington at the beginning of the session preaching his usual sermon about the necessity of economy. He will talk more likely about the necessity of caution against extravagance.

The navy wants an extra slice of the big fund. Its officers in the department have started an aggressive propaganda for more enormous battleships and are encouraging a publicity program for educating popular sentiment up to the increased expenditure. The army also wants an extra slice for equipment and personnel.

Civil Service Clerks Organize.
The great force of 23,000 civil service clerks in the departments are organizing aggressively to secure a law for a retirement fund, which, while it is to be created in part by individual assessments, must be supplemented by contributions of hundreds of thousands of dollars—eventually millions of dollars—from the government. They are also prepared to appeal to the next congress for a salary raise all along the line, as are both branches of the military service.

In several departments the preparation of the annual estimates will soon be in full swing. A few heads of bureaus are now at work on them. These estimates of the money needed for the fiscal year that starts twelve months from now must all be compiled into the broad volume of approximately 600 printed pages by the time congress comes next December. The manuscript in the respective departments must be ready for the scrutinizing eyes of cabinet officers returning next September from their vacations.

A few large raids on the surplus will be organized undoubtedly in senate and house. The last public building law, which provided for appropriations of over \$27,000,000 will be two years old by next winter. There will be a powerful clamor then for another bill. The country certainly needs more new custom houses and postoffices, and there is no time for handout on these appropriations like the session of congress preceding a general election. It helps members of the dominant party to a reelection.

Out for Ship Subsidy.
The ship subsidy advocates, who failed to secure their first leaf last March because Carmack of Tennessee talked their bill to death in a brilliant speech, have begun to marshal their forces. The large surplus is favorable to their plans, but the leaders may hesitate to let a subsidy bill through just before an election.

Flush times in federal legislation seem certain. Unless signs fail, it will be easier than ever before to reach into the money vaults. There are five months ahead for perfecting the many schemes on foot to secure an appropriation. The watchdogs of the treasury will probably counter on these by seeking to make the session as brief as possible. The struggle over these financial problems may become quite as spectacular in some features as the deliberations over railroad and corporation reform to be recommended in the president's annual message.

PARCEL POST PAYS.
What System Has Done for Britain—Charges Very Low.

Washington, July 10.—Thomas C. Platt, who represents the United States Express company in the United States senate, would find it worth while to rub his nose in a document which had its origin in Great Britain. In a way it's pretty dry reading, for it is a government postal report. But the contents are enough to make the express senator chuckle over the way he has been standing off the people of this country on the parcel post question.

Over in Great Britain they have a parcel post instead of an express senator, and the report of the postmaster general shows that they make liberal use of it. It pays, too; pays so well that the rates for shipping parcels have been reduced very recently.

Rates in England.
Now the English can send parcels weighing five pounds for twelve cents. Here you can't look at Tom Platt's meekliest branch office for less than a quarter, but in Great Britain you can't pay as much as a quarter to send a package, even if you should want to. The limit in weight for the parcels post is eleven pounds and the charges for that weight is twenty-two cents.

SOFT SHIRTS
Are Ready

If you want to get a chance at our handsome assortment of Negligee Shirts, come now and make your selections. Come while there's an opportunity to skim the cream of the stock. Our line includes about everything a man can want in cool shirts.

600 parcels, an increase for the year of 43 per cent, and an average of 23 parcels for each person in the kingdom. The story of the foreign and colonial service is just about the same. The increase in the total number of parcels outward and homeward was 274,046, or about 7 1/2 per cent; the total number of parcels was 3,965,938.

British Service Is Extended.
The English think so much of the parcels post that the postmaster general has put on additional service with Rhodesia, at lower rates. He has arranged to expedite the exchange of parcels with British Central Africa and British East Africa. And the business of shipping bundles has showed up so well financially that he has also decreased the postage on parcels for Salvador and Costa Rica.

The outlook is that the parcels post question will come up in congress again next winter. And while constituents are watching their representatives in congress they will do well to keep in mind how perfectly simple the remedy is. To create a parcels post congress need only raise the limit of postal weight and fix a reasonable compensation for the increased weights. It is as simple as the alphabet, but thus far Tom Platt and the representatives of the express interests have blocked every move.

System Profitable for England.
Nor can the express senator come back with a tale about the parcels post bankrupting the postoffice department of Great Britain. That institution, whose business is so varied that it makes the postoffice system of this country look like two cents, is making money. The postmaster general's report on last year shows that the net profit on strictly postal business, including the parcels post and the postoffice savings bank, was about \$26,000,000. Uncle Sam has been running his postoffice at an annual loss of about \$10,000,000. Meanwhile the express companies in this country carry packages at a high rate and one of them recently declared a stock dividend of 200 per cent, which is one of the chief

arguments against a parcels post for the United States.

BIDS FOR COAL.
The board of education of the city of Marquette will receive sealed bids for the furnishing and delivering of coal to the various school buildings in the city of Marquette; the same to be delivered at such times as the chief janitor may desire: 500 tons Peshawar, approximately; 500 tons best Pittsburg lump coal; 250 tons anthracite coal. All bids must be in hands of secretary on or before July 12th, 6 p. m. The board reserves the right to reject any or all bids.
By order of Board of Education
H. J. HORNBOKEN,
Secretary.
Free, for Catarrh, just to prove merit, a Trial size Box of Dr. Shoop's Catarrh Remedy. Let me send it now. It is a snow-white, creamy, healing, antiseptic balm. Containing such healing ingredients as Oil Eucalyptus, Thymol, Menthol, etc., it gives instant and lasting relief to Catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish. Address: Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by The Stafford Drug Co.

10c Havana Cigars, 10c

WORK

Whether we know it or not, Work is one of the greatest blessings in disguise that Old Dame Nature ever made us take. Irksome to youth and accepted by middle age as a condition, Work is found, by all successful men in advancing years who have earned the right to speak, to be absolutely necessary to their peace of mind, whether they work with hand or brain. Better to give up that hope of stopping work some day with enough to live on our income and try to shape our work, and our play, each week and each year, toward the health and reasonable enjoyment of ourselves and those who are dependent on us.

Marquette National Bank.

Marquette, Michigan.

MARKETS

NEW YORK STOCKS.

New York, July 10.—The rapid decline in the prices of stocks today was quite generally accepted as a readjustment from the artificial level established by manipulative tactics. Various influences were cited as weakening influences on the market, but the conviction remained that these were compelling causes toward the abandonment of a little campaign for a rise rather than any deep-seated incentive to liquidation in the ordinary sense. St. Paul, which was reserved by the speculative leadership for their last resource, after being forced even in the face of yesterday's selling pressure, naturally was the most recent sufferer today. Union Pacific, Reading, Amalgamated Copper and the Hill stocks came next in the order in which they have figured in the operations of the manipulators of the market.

Some special weakness in Union Pacific was attributed to the poor subscriptions reported to the new convertible bond issue. The subscription warrants for the St. Paul new stock fell back in proportion to the fall in the stock itself. The squeeze in the money market came as expected and was indeed inevitable with the withdrawal today of the deposits from national banks. The engagement of \$1,000,000 of gold for shipment to France aggravated the effect of the money disturbance, as the rise in money rates and the fall in foreign exchange had aroused hopes that the gold export movement was at an end. Probably the scaling down of the money market resources had some part in forcing the retreat of the party committed to the long side of the market. The small number of subscriptions to the new bond issues naturally eased the demands for money, but the return of deposits into the sub-treasury depleted the supplies to such an extent as to run the money rate up to 8 per cent quite early in the day.

The reduction in the price of copper was an unsettling influence, and another decline in prices at the New York Metal exchange kept alive the uneasiness over the stability of that market. The government crop report offered no help to stocks. The improvement in the condition of winter wheat was less than was hoped for, and the falling off in the condition of spring wheat was unfavorable. The covering of shorts to take profits reduced the losses somewhat, but the closing was easy.

Portland, Ore., July 10.—The market for the past fiscal year shows gross earnings of \$1,287,500; operating expenses, \$1,010,153; interest on bonds and taxes, \$287,400.

BIG SIDEWALK JOB.

Much Needed Improvement Will Be Made Near the Cemetery.

At the meeting of the council Tuesday evening the street and highway committee recommended that a sidewalk be extended from Bessemer street to the cemetery. The estimated cost of 300 feet of board walk, across the fill which takes the place of the old bridge, and 1,702 feet of concrete walk, is \$1,200. The committee was provided with the estimate by the board of public works, whose superintendent went over the ground carefully. The aldermen were not unanimous in favor of the improvement and Alderman Collick offered an amendment to Alderman Gill's motion, to the effect that the recommendation be not concurred in. The amendment was lost by a vote of eight to nine, and the original motion carried by a majority of one vote. The board of public works will advertise for bids for the work.

On motion of Alderman Oils, of the committee on water works, the committee and board of public works is instructed to confer with the officials of the Oliver Iron Mining company relative to a site for a pumping station, also to ascertain what arrangements can be made with the company for furnishing the power, etc. The committee will make its report at the next regular meeting.

The pastor and trustees of St. Joseph's church sent a communication to the council asking for aid in the payment of the concrete walk built in front of the church property. The same was referred to the committee on streets and alleys.

Albert Gibbs and Luke Demarse made applications for the position of city fire engineer, succeeding Michael Cashen, resigned, and the same were laid on the table. Later the petitions were taken from the table and a vote was taken, Mr. Gibbs receiving ten votes, and Demarse seven. The former was declared elected.

Napoleon Amel, in the employ of the board of public works, and Poundmaster Mike Tasson were granted an increase of 10 per cent in wages. The poundmaster asked that his salary be raised in proportion to that of the other police officers.

The liquor bond of Dennis Hickey, with Edward Hickey and John Malloy as sureties, was read and referred to the committee on bonds and sureties.

Mrs. Agnes Lidberg, Mrs. F. Perrault, Alfonso Mottard, Mrs. Ellen Asgaard, Mrs. Johanna Bergstrom, Mrs. Harriet Bigger and Stein Bross asked that they be exempted from the payment of water tax. The petitions were referred to the committee on water works.

A petition from James H. Harris, asking that the water main be extended from Badger street to his residence, a distance of about 300 feet, was referred to the committee on water works.

A petition from Mrs. Henry Beal, asking for exemption from the payment of water tax, presented at a previous meeting, was referred to the committee on water works.

Alderman Williams, chairman of the

committee on claims and accounts, presented the bill and payroll against the city for June as follows: Bills: General fund, \$337.35; highway, \$743.58; fire, \$419.57; water, \$371.14; sewer, \$20.23; library, \$151.01; cemetery, \$454.46; police, \$85.92. Payrolls: Official, \$1,567.66; highway, \$2,492.94; water, \$653.91; sewer, \$73.45; street lighting, \$721.50. Total bills and payrolls, \$8,090.82.

On motion of Alderman Barnett, men filling the position of police office temporarily will be paid the same salary as the regular men.

MORGAN'S COMEDIANS.

Stock Company at Ishpeming Theatre Five Nights Next Week.

Morgan's Comedians will open a five nights' engagement at Ishpeming theatre Monday evening. The company is producing nothing but royalty plays, including "In Dixie Land," "An Oregon Prayer," "Wedded, But No Wife," "Vermont Folks," "A Little Outcast," "Little Miss Military," and others. Miss Hila Morgan, known as the doll comedienne, is at the head of the company, and her support is said to be excellent. The prices will be ten, twenty and thirty cents, with one lady admitted free Monday evening if accompanied by the holders of a paid thirty-cent ticket. The sale of the free lady tickets will close at 6 o'clock Monday evening. After that hour the regular prices will be charged. The Traverse City Record gave the company this mention:

"During their week in this city Morgan's Comedians made good and proved that they are people seldom to be seen at popular prices. Miss Hila Morgan, the star, is a young woman of exceptional ability and every character she portrays shows the careful study that she has put upon it. She won her way into the hearts of Traverse City people the first night when she played Jo, the little mountain girl, in 'Dixie Land,' and since that time her work has received much applause and favorable comment. Robert Hazlette pleased beyond expectation, being possessed of that easy stage presence seldom seen in a popular priced company. Monroe Hopkins, the comedian, provoked laughter the moment he stepped on the stage, and kept the house in an anticipation of his reappearance. These are only a few of the dozen or more people with the company and every one of them deserves special mention."

A MEMORABLE DAY.

One of the days we remember with pleasure, as well as with profit to our health, is the one on which we became acquainted with Dr. King's New Life Pills, the painless purifiers that cure headaches and biliousness, and keep the bowels right. 25c at The Stafford Drug Co.

Hotel Williams, Grand Island, Munnich, Michigan, has opened the season with a good patronage. Three two-room cottages with fire places have been added to the equipment, enabling the hotel to handle the increased patronage. (7-8-21)

INJURY PROVES FATAL.

Adelore Nault, the twelve-year-old son of Sina Nault of Excelsior street, who was injured on the Fourth by an explosion of a toy pistol the discharge entering his abdomen, died Tuesday night at Ishpeming hospital. The wound from the pistol entered the intestines, but it was at first thought that the boy had a good chance for recovery. The time of the funeral has not yet been decided, as a brother of the deceased is expected home from Butte, Mont. If word is received that he is coming the funeral will be held Saturday; otherwise, it will take place tomorrow morning from St. Joseph's church.

PLANS EXPECTED TODAY.

The revised plans for the Young Men's Christian association's block, to be erected at the corner of Division and Pine streets, are expected today. The changes do not call for a reduction in the size of the building or for any particular curtailment in the equipment. The committee reports that sufficient funds have been assured to erect the building and equip it in a satisfactory manner. Operations are to be rushed, with a view to having the structure enclosed before the cold weather sets in.

WEEKLY EXCURSIONS TO DETROIT AND RETURN \$13.50

Via the South Shore, leaving on early morning train on Saturday. Same rate to Alpena, Oscoda, Harbor Beach and Port Huron. To Buffalo \$3.50 higher. Limit September 15th, 1907. For sleeping car and steamer reservation apply to ticket agents. (6-22-1)

GREAT PIANO DAYS

The closing out sale of the entire stock of Kimball, Whitney, Arion and other fine new Uprights in beautiful cases and exquisite in tone, touch and workmanship.

Store kept open evenings until 9:30 o'clock to accommodate all

This fifth special sale has been a great success. We have placed more than sixty instruments, making more than four hundred sales on this range, and now the remaining new and used Pianos and Organs are to be closed out and the store surrendered to the landlord. We are making sales every day to people who never would have bought if they had not come in and looked over the instruments. If you ever expect to own a Piano or Organ, now is your time. One thing is sure, some one will get every instrument in this store, and at a bargain price, and when the last one is sold the sale stops with a snap and your chance is gone.

Payments arranged to suit every one. Don't miss this chance.

WRITE TO US

If you live out of town and we will send you full particulars and catalogues by return mail. The instrument you select will be sent to you on approval, subject to return at our expense. When you write, mention price you desire to pay.

A.A. Whitney, Gen. Agent

Kimball Piano and Organ Factories.

WILL NOT LOSE MEMBERSHIP.

Michigan Workmen Will Be Transferred to Another Jurisdiction.

The announcement in yesterday's issue of The Mining Journal that the grand lodge of the United Workmen, at its annual session in Detroit, had voted to surrender its charter was a surprise to most members of the society in this county. This action does not put the local lodges out of business, nor will it effect the membership of those who desire to continue, as they will be taken into another jurisdiction, to be designated by the supreme lodge. A member who read the last issue of the "Wolverine Workmen" told The Mining Journal yesterday that this action on the part of the grand lodge did not come as a surprise to him, as the publication had hinted that a surrender of the charter would probably be decided on at the Detroit meeting. He said that, as he understood it, the members of the Michigan subordinate lodges will not be affected and that their rate of assessment will not be increased.

The Michigan grand lodge was last year, it is said, entitled to \$85,000 from the supreme lodge, provided certain provisions were complied with within a specified time. It seems that the provisions were entirely overlooked, and that the grand lodge was nine days too late in holding its annual session to become eligible for the money. The grand lodge is about \$100,000 in arrears in the payment of its death claims. It is expected that the grand lodge officers will try to induce the supreme lodge officers to place the Michigan members in the most desirable jurisdiction, so that future death claims can be paid promptly. It is understood that all of the old members will be taken into the new jurisdiction without extra expense or special examinations, and that their present insurance policies will remain in force.

"It surprised me that the other fraternal societies of the state did not take to the rescue of the Michigan grand lodge," said the member yesterday, "as the action of the grand lodge is bound to injure the other fraternal societies. Many will become distrustful of that class of insurances."

WAUGH POWER DRILL.

Denver Concern Has Disposed of Several Machines on Marquette Range.

A. H. Boyd, representing the Denver Rock Drilling Machinery company, manufacturing the "Waugh" drill, was in Negaunee yesterday. He went underground at the Negaunee mine, giving a demonstration. Mr. Boyd has been in Ishpeming and Negaunee for three or four weeks past, during which time he has given practical demonstrations of the "Waugh" drill at all of the principal mines. He will leave today for Iron Mountain and other towns on the Menominee range.

Mr. Boyd had excellent success in this county in the sale of his drill. They are to be used in every mine in the two towns, with the possible exception of the Mary Charlotte, and the superintendent of this property has recommended that they be purchased. The "Waugh" type is constructed upon many different lines from the other power drills in operation here, but it bores nearly as large a hole and the ordinary kind of drill is used. The "Waugh" drill weighs only fifty-six pounds, and it is claimed that it bores a hole more rapidly than any other drill on the market, at the same time using considerably less air. It is used exclusively for upper and back wall work.

There are several hundred power drills of different types in use on the range. The old method of drilling is used only where it is impossible to place a machine. The "Waugh" drill requires very little room. It is said that it is much easier to operate than the larger machines.

COULD USE ANOTHER CREW.

While concrete walks are going in here at a fairly rapid rate there is more work offered than the local contractor can do with his present force before the close of the season. A second crew could be used to advantage, but it is not certain that Mr. Hendrickson will put one on, as finishers are scarce. The board of public works has had a number of the poorer board walks removed and two city crews have been busy for more than a month with building and patching walks. Some of the walks were in very bad condition when spring opened. The council some time ago restricted the building of walks to concrete or boards, but at Ishpeming a more radical step was taken, all classes of walks except concrete being prohibited.

LOCAL LAONICS.

A meeting of the city council will be held tomorrow evening.

Timothy Doyle of Houghton is visiting Phil Hogan and family.

Thomas Pellow left last evening for Chicago, on a business trip.

J. F. Coon of Calumet looked after business in Negaunee yesterday.

Ed Simers, a well-known Little Lake man, was up from there yesterday.

The Business Men's and City Employees' baseball teams will cross bats this afternoon at Union Park.

Conductor John Ward is running on the Chicago & Northwestern company's passenger between Green Bay and Ishpeming, taking Thomas Oliver's place, while the latter enjoys a vacation.

John Larson lost a pocketbook containing money while coming down to his place of business yesterday morning. He will pay a liberal reward for its return.

William Piggott and family, and Mr. and Mrs. W. J. Granstrom, who have been visiting John Rock and family here the past few days, left last night for their home in Minnesota.

There are now but two dwellings remaining on the site where the new high school will be erected, these being John Rock's larger dwelling and A. J. Bice's house. It is expected that they will be moved before the end of the month.

MINERS TO TENNESSEE.

Twenty-two Italian miners, who have been working at Princeton, came here yesterday morning and left last evening for Tennessee, where they will take positions with the Tennessee Copper company. They came to Negaunee with the intention of having a good time, and in this they were eminently successful. They marched from the depot headed by a quartet of musicians playing accordions and a flute. Bruce Middlemess, a former mining engineer on the Swanzy range, now with the Tennessee Copper company, hired the men.

LOST—Large pocket book containing money, on railway track leading to Cambria mine. Liberal reward. Return to Larson Bros. saloon. 7-11-3d

FOR SALE—A family driving horse; weight, about 1200 pounds; not afraid of automobiles or trains; strictly a well broken family driving horse. Apply, A. F. Maitland. 6-25-1f

BOUGHT OUT TWO STOCKS.

Ernest Kline, who has been at Muskegon the past few weeks, will not return home until next week. He has been aiding Rosen Bros. in conducting a special sale of two stocks of goods they recently purchased. One stock was bought from Ole B. Haven, an employee of Rosen Bros. for twenty years, who engaged in business on his own account last spring. After three months' trial he concluded to give up, and his stock was sold to Rosen Bros. at a sacrifice. August Larson, a merchant in the dry goods business at Muskegon for the past two years, also sold out to Rosen Bros. Mr. Rosen said yesterday that the sale now being conducted there is one of the largest ever held in that part of the state.

A HAPPY MAN.

Is Amos F. King, of Port Byron, N. Y., (83 years of age); since a sore on his leg, which had troubled him the greater part of his life, has been entirely healed by Bucklen's Arnica Salve; the world's great healer of Sores, Burns, Cuts, Wounds and Piles. Guaranteed by The Stafford Drug Co., Price 25c.

Hotel Williams, Grand Island, Michigan, has opened its third year with a large number of reservations for the whole season. Local and out-of-town people are arranging to spend the summer on the island, which indicates the popularity of this resort. (7-8-21t)

MICHIGAN.

NEW GAME CLUB IS WELL PLANNED

MICHIGAN ASSOCIATION WILL MAKE AGGRESSIVE CAMPAIGN FOR EFFICIENT PROTECTION.

BURGESS IS PRESIDENT

Was Organized Last April and Has 1,700 Members—Upper Peninsula Branches Will Be Formed the Coming Fall.

F. S. Burgess, a former resident of Marquette, who is spending some time in the city, talked to a Mining Journal man at some length yesterday in regard to the purposes and plans of the Michigan Game and Fish Association, organized in Detroit last April, which already has some 1,700 members and which expects to have 20,000 within two years.

Mr. Burgess was honored with the presidency of the association. The other officers are F. L. Albertson, treasurer; G. C. McCullough, secretary and Colonel W. A. White, chairman of the executive committee, all of Detroit. The vice presidents will represent all parts of the state.

"There are two principal purposes the association is organized for," said Mr. Burgess. "We want to take game and fish protection out of politics and we want to educate the general public, particularly the farmer, to the commercial importance of perpetuating the game animals and fish of the state. The ideal plan for game protection was held to be a game commission, composed of men who are appointed with no regard for politics and only with a view of securing the most thorough enforcement of the game laws practicable. What we want is a body like the fish commission, given a stated appropriation. Such a commission could get results, and would bring about the enforcement of every game and fish law on the statute books."

Matter Has Commercial Side.

"The commercial importance of keeping up the stock of game fish and animals cannot be overestimated. The income of Maine derives a big annual income from the hunters and fishermen who visit its forests and streams. This income has been placed at \$12,000,000, or 30 per cent of the value of the agricultural products of the state. It is made possible by good game laws and their rigid enforcement. Michigan isn't getting all the income from this source that it should, considering its wealth of game country and good fishing streams. The best figures obtainable place the income from outside hunters each year at not over \$1,000,000. It should be several times that sum.

"The aim of our association is to be to preserve the game that is left and to restore the game that has been depleted. We plan to restore the quail shooting in Michigan, and expect to release 25,000 of these fine birds for breeding purposes. A preliminary to this will be the education of the farmer to the value of quail. They are a bird that can do no possible harm, but which can afford the farmer a lot of good sport, and if our plan is carried out, a source of income, for we contemplate asking for a law to permit the farmer to sell the gunning rights on his place. The quail was once a plentiful Michigan game bird, but it was slaughtered off by the farmers and city hunters in a ruthless manner, and now only an occasionally covey is seen. But they can be restored in the state, and will multiply rapidly, if only the laws protecting them are rigorously enforced. At present it is illegal to kill quail, and the season will be closed for some additional years.

"Another thing our association will do," Mr. Burgess continued, "is to digest the various ideas advanced for amendment of the game laws into one well considered bill that there will be some chance of having passed. The recent session of the legislature, in spite of the number of important amendments proposed, made but trifling changes in the existing laws. The reason? Why, do you know that from different parts of the state came over 130 bills for amendment of the game laws? Many of these were conflicting, and they were in bulk, so imposing an exhibit that the game committees threw up their hands and decided that to avoid making mistakes in handling such a mass of proposed legislation the less they did the better it would be.

U. P. Bill Was Killed.

"You had a conference on the game laws here for the purpose of the session, in which you decided to ask for numerous changes. One of them was for an earlier deer season. Do you know that before the envelope was fairly off your bill, when it was sent to Lansing, it was reported among the lower Michigan members that the bill was designed to prevent lower Michigan hunters from killing deer in the upper peninsula? It was reported that the season was made earlier so that the hunters from the lower part of the state could not get their venison home, it being thought that this would discourage them from coming north. On this account a movement against the bill arose at Owosso, which extended to several counties, and it was killed.

"Let me illustrate to you how legislation will be obtained when our association is thoroughly organized. The local branches, and we are going to organize them all over the state, will frame their ideas on the subject, and submit an outline of them to the association's game committee. When all the ideas are received the committee will go over them carefully, and envelope a general bill. It will not embody all the recommendations of local branches, as that would be impossible, but will, in the main, carry out the ideas of the average member, and will be compact, carefully planned bill. Send such a measure to the legislature, with the support of the large membership of the association, and there is every probability that it will be passed.

"In September we expect to begin an active campaign to form branch associations. I am going to do considerable work in the upper peninsula myself, and we expect to form branches in every well populated county. We already have a nucleus of members in most counties, the leading sportsmen in the district, and we expect a cordial response to our efforts. The plan of our association has been carefully studied over and thought out. The men behind it are thorough and enthusiastic sportsmen who are going into the thing to get results, and they are confident that they can get them."

TO RETIRE BONDS.

Light and Power Commission Will Take Up \$9,000.

The light and power commission is about to retire \$9,000 bonds of a \$10,000 issue payable in 1913. The details of the transaction have been arranged through W. J. Hayes & Sons of Cleveland. The premium to be paid is only \$500, or only \$50 more than one year's interest, as the bonds bear 5 per cent. In effect, therefore, after one year the commission will have an annual saving of \$500 on account of the deal. As the commission can get no interest on its money in the banks, the deal is a good one. It serves in a practical way to illustrate the excellent condition of the commission's finances, and is a unique record for a municipal plant, mighty few of which are ever heard of taking up their bonds out of their earnings before they mature. The commission has at present a cash balance to its credit of only a little under \$40,000, and when the bonds are taken up it will have close to \$39,000 left.

The statement of indebtedness of the plant for the date March 13, 1907, showed bonds totalling \$85,000 and other items of indebtedness that brought the total up to \$92,779.68. Among the items was \$6,000 due the general fund of the city. The outstanding bonds will be reduced to \$74,000, and other payments will be made from time to time. The remaining bonds mature as follows: Five thousand dollars, July 1, 1908; \$5,000 July 1, 1910; \$20,000 Jan. 1, 1910; \$20,000 July 1, 1910; \$25,000 Sept. 1, 1912; and \$10,000 Aug. 1, 1913.

The Commission's Plans.

President Sherman was asked by a Mining Journal man yesterday what was the status of the plans for the proposed new lighting plant. The commission, he said, was ready to employ a consulting engineer for working out the details of the plant. It has a report on the watershed of the river, possible locations for water storage works, and the proper location for the dam and station for the new plant, and the next step is the preparation of the working plans for the improvement. Whether a consulting engineer will be employed this year Mr. Sherman was unable to say yesterday, as the commission has not had the question up.

The power available at the plant will be considerably increased when the repairs to the present water wheel are finished. The Dayton Globe Iron works guarantee that the rebuilt wheel will develop 1,200 horsepower, or about a quarter increased capacity compared with the present wheel. Structural faults in the present wheel will also be remedied, so that the plant will be much better off when the improvement is completed than it is at this time.

AUTOMOBILE ACCIDENT.

However, It Was Not One of the Fast Driving Variety.

Frances O'Meara, young daughter of J. H. O'Meara, residing on E. Arch street, was the victim of an automobile accident near the corner of Bluff and Third streets yesterday noon. While riding a bicycle she fell beneath the wheels of a car driven by Bret Read, and suffered bruises and minor injuries. Her wheel was broken and her dress torn, and if Mr. Read had not had the car under perfect control she might have been seriously injured. He was driving the machine, in which were two ladies, east on Bluff street, at an easy rate of speed. The O'Meara girl turned onto Third street from Third, just off the corner was an ice wagon, and the girl veered to the south curb to get out of its way. She was seen by Mr. Read as the car approached the place where she was riding, and it was thought that she had gotten out of the way of the auto. However, either she had not noticed it, though its warning signal was sounded, or she became confused, and she fell practically under the wheels. The car was stopped within two or three feet. The girl was taken to St. Luke's hospital where her cuts were dressed. She had only a confused idea of what had happened. Mr. Read greatly regretted the accident, though it was the testimony of bystanders that it was due to no fault of his and that he was driving the car carefully.

ATTENTION PAINTERS.

There will be a meeting of painters of this city at Fred's Hall, corner Washington and Front streets, Friday evening, July 12, for the purpose of organizing a union.

ACTING COMMITTEE.

7-10-07

BIDS WANTED.

The board of education of the city of Marquette will receive sealed bids for two coats of paint on outside, white, and tinting two rooms and hall for Fourth Street school; and putty and paint on front doors for Third Street school. All bids must be in hands of secretary on or before July 12th, 6 p. m. The board reserves the right to reject any all bids.

By order of Board of Education,
H. J. HOLNBOGEN,
Secretary.

TWO WEDDINGS CELEBRATED.

Popular Young People United in Marriage Last Evening.

Norman Baker of Duluth and Miss Tillie Ekstrom, daughter of Alderman John Ekstrom, were united in marriage at 7:30 o'clock last evening at the Ekstrom home, 145 West Arch street, Rev. Mr. Andre officiating. Miss Helen Williams was the bridesmaid, and Vertin McGuire the groomsmen. Mr. Baker and his bride are well known in Marquette, and are popular. The bride was born and reared here, and the groom was a resident of the city for several years prior to his departure for Duluth two years ago. The young couple left last night for Duluth, where they will make their home.

Elmer Ekstrom, of this city, brother of the bride in the Marquette wedding, was united in marriage to Miss Ida Covert of Ishpeming at 5 o'clock last evening at the French Catholic church at Ishpeming. Miss Carrie Williams of Ishpeming was bridesmaid, and Albert Ekstrom, brother of the groom, officiated as best man. Mr. Ekstrom has a large circle of friends here. Marquette is his birthplace, and he has always made this city his home. His bride is equally popular in Ishpeming. Mr. and Mrs. Ekstrom will make their home here, living on North Fourth street.

Last night at the Ekstrom residence a supper was served from 8:30 to 10:30 o'clock, at which the two bridal couples were present and at which the nuptials of both were celebrated. Mr. Johnson acting as master of ceremonies. Many beautiful gifts were bestowed on both couples.

RITA HARLAN COMPANY.

Will Be at Opera House All Next Week in Repertoire.

Of a performance of the Rita Harlan Stock company, which will appear at the opera house all next week, the Muskegon News said recently:

"Last night Miss Rita Harlan presented the rural play 'Hazel Kirke' to a fair audience and added to her already splendid reputation by bringing that old drama up to the standard of high class and artistic entertainment. As Hazel Kirke was all the part required and in the stronger scenes of the play her acting was so convincing that it brought numerous bursts of applause. Mr. Swift, as the airy Green, furnished plenty of good comedy and Mr. Lewis as Dunston Kirke did one of the best bits of character acting seen on our local stage for a long time. The rest of the company played their parts in a very usual artistic manner. Tonight they present a comedy played by Nat. C. Goodwin for a long time, 'Confusion.' The pieces are said to be one of the best in the line of comedy and will give the company a chance to appear in a style of play in which it is certain they will be as much at home as in the dramas."

300 CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., July 10.—(Special).—The upbound boats passing the canal the last twenty-four hours were the following: (big), 2:20 a. m.; Dunham, Perkins, 3:30; Russia, 4:40; Turlet Chief, 5; Nimick, 9:20; Northern Light, 10; Angeline, 11; Queen City, Levington, Buffalo, Sweetheart, Fitzgerald (big), noon; Morse, 12:20 p. m.; Frank Ball, Northern King, Christie, 1:30; Ames, 4:30; Alberta, 5; Henry Smith, 5:20; Italia, Amazon, Cuddy, 5:40; Anna Mimic, 6:20; Hecker, 6:30; Schuykill, Harper, 7:30.

Marquette Port List.

D. S. S. & A. docks: Cleared—Joliet, Cleveland.

SPECIAL MEETING.

Pursuant to the resolution of the board of directors of the Lake Shore Engine Works, held at the office of the company in the city of Marquette this day, notice is hereby given that a special meeting of the stockholders of this company will be held at 2 o'clock p. m. on July 11, 1907, at the office of the company in the city of Marquette, Michigan, for the purpose of considering and acting upon the following questions:

- The sale of the real estate of the company for the purpose of acquiring other real estate more suitable for the company's needs.
- The retirement of the outstanding bonds and preferred stock of this company.
- The issue of a new series of bonds to be secured by first mortgage upon all real property and fixtures of the company in such amount as may be determined upon at such meeting.
- The retirement of the issue of preferred stock and the issue of common stock in place thereof, in such amount and on such terms as may be determined at such meeting.
- To authorize the increase of the capital stock of the company to such amount as may be determined at such meeting, and the execution by the president, secretary and board of directors of all necessary certificates, conveyances and other instruments required to carry out any of the purposes herein referred to.

Dated, Marquette, Michigan, June 22, A. D. 1907.

J. E. BALL,
(6-24-104) Secretary.

The popularity of Vandenberg's fresh milk and creamery butter, is due to the excellent quality and delicious flavors of the goods. (6-12-10)
