Miss Kate Martin has accepted a position at Stafford's drug store.

Stanley Campbell of Sault Ste. Marie is in the city, visiting relatives.

J. H. Parks and wife, of Crystal Falls, spent yesterday in Marquette.

Miss Edith Morrison of Laporte, Ind., is visiting Mrs. Sidney Adams.

Paul Stindt, of Berghand, Mich., was in the city yesterday on business.

Mrs. W. H. Hoffman, of Detroit, visited friends in the city yesterday.

Mr. and Mrs. W. H. Oakley of Ishpeming spent yesterday in the city.

The G. I. A. to the R. of L. E. meets tomorrow afternoon at 2:30 o'clock.

Miss Josie Dumbach, who has been visiting in Detroit, is here today.

A dance will be given by Keough's Dancing club at Keough's Hall tonight.

The board of supervisors will meet at the court house at 11 o'clock this morning.

Miss Bessie Merritt has returned home after a number of weeks spent in the East.

Joseph Wills, ex-sheriff of Houghton county, was a business visitor here yesterday.

A marriage license was issued at Ishpeming yesterday to Tom Hupala and Aurora Koski.

Mr. and Mrs. A. Garland, of Howell, Mich., were the guests of Marquette friends Tuesday.

Mr. and Mrs. Mitchell of Grand Marais visited yesterday at the home of Mrs. Edward Mitchell.

Miss Netta Miller of Bruce Mines, Ontario, is in the city, visiting Mrs. Edward Mitchell.

John M. Lindstrom and John Anderson are spending a few days on a fishing trip at Au Train lake.

Mrs. Annes Mitchell and family of Grand Marais were in the city yesterday on their way West.

The Modern Woodmen of America will hold an informal dance in Fraternity hall Thursday evening.

Mr. and Mrs. William Phillips of Calumet are visiting their uncle, Alfred Meads, 321 Spruce street.

Mrs. Thomas McKenna of Quinnessee and Mrs. H. M. Atkinson of Green Bay were in the city yesterday.

Charles Habig and family and a number of friends from Chicago are spending a few days at Lakewood.

St. Genevieve's guild will meet at the home of Miss Evangeline Constance 323 Baraga avenue, Friday evening.

Miss Alice Dodge, of Republic, who was the guest of friends in the city, returned to her home last evening.

E. A. Cousina, of Chicago, traveling passenger agent for the West Shore railroad, spent yesterday in the city.

Clarence Brown left for Milwaukee last evening to attend the Northwestern Mutual Insurance agents' convention.

Arthur Hibbard, a city policeman, will leave today for a two weeks' visit at his old home in Montreal, Canada.

Miss French and Miss Turner of the Brunswick hotel gave a lawn social to a small gathering of friends yesterday.

Mrs. Fred A. Russell of Superior, Wis., is visiting her parents, Mr. and Mrs. L. S. Glasier of 322 East Hewitt avenue.

The Juniata was in port yesterday morning and a number of the tourists strolled up town and took in the sights.

Mr. and Mrs. James Trevillion, who have been visiting in Bruce Mines, Ont., for the past week, have returned home.

Professor E. J. LaChance, superintendent of school at Mackinac Island, is in the city with his family for a few weeks' visit.

Leonard Wills, a brother of John Wills, arrived in Marquette Monday night from Lester, England. He intends to spend the summer here.

Miss Henrietta Newton of Crown Point, Ind., who has been visiting her aunt, Mrs. Mary Davis on Spruce street, left for home yesterday.

E. W. and Mrs. E. A. Williams, Mrs. Pearson, and Miss Braumard, of Milwaukee, were visitors yesterday and left for Granite Island for a brief visit.

E. L. Volland and Daniel W. Hayes, of Bay City, United States landowners, were in the city yesterday, and left for Calumet, where they will remain a few days.

The Woodmen Degree team has put out bills for the dance which the members will hold Thursday evening, July 25. Extensive preparations are being made for the event.

The Juniata was in port yesterday morning, westbound, with a big passenger list. Lake traffic is now at its height, and all the big liners are carrying people to their full capacity.

The Swedish M. E. Church Sunday School will hold a picnic Thursday at Presque Isle. The sixty-five members of the school have been notified to meet at the church Thursday morning in time to catch the 10 o'clock car.

There will be an Oriental rug display at the L. Grabover Co.'s store beginning today. The rugs have been brought here by Kaleb R. Bonghorn of Detroit, a well known importer of these goods.

The parties in charge promise a rare display.

Mrs. J. F. Carey and daughter Bernice, who have been visiting at the residence of Hon. Geo. Wagner the past week, will leave for their home in Escanaba this evening. They will be accompanied by Miss Gertrude Ward, who will visit with them for a while.

Mr. and Mrs. O. S. Foster and A. O. Foster of Utica, N. Y., arrived in the city, on the steamer Juniata yesterday morning to visit Mrs. Frank J. Russell. The latter leaves for Chicago tonight, but Mr. and Mrs. Foster will spend several weeks in Marquette.

Mrs. Peterson Buried—The funeral of Mrs. Mary Peterson, who died Saturday at her home in Green Garden, was held yesterday afternoon. Rev. Carl Appeler of the German Lutheran church officiated at the services, which were held at the house. The interment was in the Green Garden cemetery.

Expect to Resume—The Saux Head Mining company expects to start operations at their property near Birch the first of next month. Much preliminary work will have to be done. A small force of men is now overhauling the machinery at the mine and in the course of a week it will be in condition to be put in operation.

Demand for Berries Good—The farmers are finding ready sale for all the strawberries that they can cart to town and most of them cannot get any further into the city with their berries than the corner of Baraga avenue and Front street. The berries are exceptionally large and have a good flavor. Fair prices are being realized.

Will Give Kerniss—A Kerniss will be given during the first week in August for the benefit of the Episcopal church under the direction of Miss Jessie Palmer and her sister, Mrs. Pettec, who recently returned to Marquette from Chicago. The first rehearsal will be held in Morgan Memorial chapel this afternoon at 2 o'clock when those who are to take part will be selected.

Morgan's Comedians Coming—Morgan's comedians, who are playing at the Ishpeming theater this week, have been booked by Manager Koepeke for a week's engagement, starting Monday next, at the Marquette opera house. They will present a repertoire of high class comedy dramas, with popular vaudeville between the acts. The comedians will be the first "ten, twenty and thirty cents" company to be seen here this season.

Harlan Stock Company—Rita W. Harlan and her company last night presented their second production in Marquette, and for a second time the company was greeted by a large audience at the opera house. The play given last night, "Hazel Kirke," was a portrayal of social conditions among the nobility of England, and was well presented. Tonight the company will present "Saphie" with Miss Harlan in the role made celebrated by Olga Nethersole.

Plenty of Cheap Amusement—Marquette people are not suffering for cheap priced entertainment this summer. The Bijou furnishes daily vaudeville performances, several of ten, and the Grand offers a program of moving pictures and illustrated songs that is worth more than the price of admission. Manager Koepeke is offering the third week of stock of the season at the opera house, and makes announcement of another week, with a new company. And what is more all these popular amusement enterprises are being well patronized.

Address at the Normal—An address of novel interest will be delivered in the assembly hall at the Northern Normal school at 4:15 o'clock this afternoon by Miss Grace E. Salisbury, librarian at the State Normal at Whitewater, Wis. The general public is invited to be present. Miss Salisbury will speak of the "Art of Book-Making." Her lecture will be illustrated by a large number of views showing various processes through which a book passes before entering the channels of trade. The address is one of the special features arranged for the summer term, and is given under the direction of the state library commissioners.

Good Game Sunday—The baseball fans are promised a good exhibition of the national game next Sunday, when the speedy team from Rapid River, Delta county, will be here to try conclusions with the Marquette nine. Lowell, the backstop of the team of the University of Michigan, is the catcher and captain of the Rapid River nine, which also possesses the distinction of having the only one-arm pitcher in the business. The Marquette club has been placed on a business basis, under the management of Edward Weiser, and it is hoped by friends of the team that it will be accorded adequate financial encouragement. A good article of ball is promised in return.

Attend Wedding at Duluth—Ralph Moore, who passed his boyhood in Marquette, and his Florence Brewer, daughter of a prominent lumber merchant of Duluth, will be married today at the home of the bride. The ceremony will be witnessed by a number of friends and relatives of the groom, who left for Duluth yesterday. Mrs. H. F. Handford and Mrs. D. W. Powell, who are aunts of Mr. Moore, and Mrs. James Mitchell left on the Juniata yesterday morning, and another party consisting of D. W. Powell, Miss Pearl Powell, Mrs. H. J. Hornbegen, Miss Alice Ward and Miss Katherine Handford, left Marquette to attend the wedding last night on the late train.

Valentine Green to Wed—A dispatch from Eveleth, Minn., dated the 15th, has this mention of a wedding announced for today and in which a former Marquette man will be the groom: "Charles Valentine Green, an employee of the Oliver Mining company here, and Miss Alice Bowers, for the past two years a teacher here, will be married Wednesday (today) at Plymouth. The wedding will be a quiet affair and few will be present outside the immediate friends of the family. The Rev. Father Floyd, a personal friend of the young couple, will tie the knot. After a breakfast at the home of the bride, a honeymoon will be spent on the Great Lakes and in Chicago. The young couple expect to return to Eveleth about the first of August. Mr. and Mrs. Val Green will no doubt be the recipients of many pretty wedding presents as they have in Eveleth a large circle of friends who wish them well."

SUCCESS

(A quotation)

"Success—what is success? I shall be interested to have your definition."
"Success?" She hesitated. "Why, to get as much as one can out of life, I suppose. It's a relative quality, after all. Isn't that your idea of it?"
"My idea of it?" God forbid." He sat up with sudden energy, resting his elbows on his knees and staring out upon the mellow fields. "My idea of success," he said, "is personal freedom."
"Freedom? Freedom from worries?"
"From everything—from money, from poverty, from ease, and from anxiety, from all the material accidents. To keep a kind of REPUBLIC OF THE SPIRIT—that's what I call success!"

Marquette National Bank.

Marquette, Michigan.

MARKETS

NEW YORK STOCKS.

New York, July 16.—The stock market today was a dull affair and had all the usual characteristics of the midsummer period. Union Pacific was an active feature, and its sales make up an important proportion of the day's business. The movement in Union Pacific also was a dominating influence on the narrow course of the whole market. Amalgamated Copper and Reading made up another important proportion of the small dealings of the day. The general movement was sluggish and hesitating, in conformity with the narrowness of the market.

The demand for Union Pacific from domestic sources was heavy, and was more than sufficient to absorb some large offerings for foreign account. Assumption has been made with the supposed prospect of legal prosecution to dissolve the Harriman railroad combination that similar suits against the Hill group would follow in the course of time. The stocks of that group consequently sympathized quite closely with the Union Pacific fluctuations.

An obstacle to the rising tendency due to the effect of the strength in Union Pacific was the bad affect on sentiment produced by the instability of the prices of copper. During the day there was a further reduction of one-half to three quarters of a cent a pound for all grades of copper at the local metal market exchange, bringing the prices between 1 and 2 cents below the reduced prices fixed by large producers last week. It has been a subject of common discussion that this reduction had failed to revive any demand for copper, and opinions found expression today that the fall in price must run several more cents before a stable level will be found for future business.

Opinion on the money outlook was affected by the call for a per cent syndicate installment on the Union Pacific convertible bonds to be paid Monday next, which will call for nearly \$14,000,000. The quick return of these funds to the money market is expected. The prices rose rapidly in the last half hour to the best of the day.

Closing prices were:

Writing from Boston yesterday, Paine, Webber & Co. said:
"There is nothing encouraging in the situation yet. Consumers are not buying any copper and the speculative element are all talking lower prices. Brokers will be obliged to charge 7 to 7 1/2 per cent interest this month, and people will sell when they realize this. A bear

Mining News

ONTONAGON MINES.

Future Policy of the Adventure Is Still to Be Decided.

There is no change in conditions at Adventure, reports the Ontonagon Herald. The new superintendent, Mr. Hitchcock, is making a thorough inspection of the property and what will be the future policy of the company is still a matter for consideration. However, it is probable that the unexplored portion of the property will receive more attention. The diamond drill work, so far, has been discouraging. A depth of several hundred feet has been attained without encountering the ledge. This has necessarily made slow work, but there is usually quite a little uncertainty in drilling, and it may be necessary to change the point of attack to tap the desired formation.

There are many persons who are still confident that Adventure is going to make good. Just how this is to be accomplished is not clearly explained and is a question no doubt which has received much consideration from the management. There seems to be quite a wide variance of opinion. It has been suggested by someone that the milling plant be sold and that the proceeds be used in development and exploration; another thought is to add to the production for a year or so and devote all energy to developing the mine, giving patient attention to the ever-green ledge, which has not been opened to any extent on the property; another is to question the present working shaft, which is entirely abandoned and attention turned to other mineral belts which cross the property. While the management is striving to determine what is best to be done, it is confronted with the fact that the present working shaft is being entirely abandoned and attention turned to other mineral belts which cross the property. While the management is striving to determine what is best to be done, it is confronted with the fact that the present working shaft is being entirely abandoned and attention turned to other mineral belts which cross the property.

Drilling at the Mass.

At last reports the Mass had not reached the ledge with the diamond drill on the old Ridge farm. The work is moving along smoothly and while the fact that the present working shaft is being entirely abandoned and attention turned to other mineral belts which cross the property. While the management is striving to determine what is best to be done, it is confronted with the fact that the present working shaft is being entirely abandoned and attention turned to other mineral belts which cross the property.

Brownson Defends the Navy

Admits Minor Defects in Construction; But These Are Now Corrected.

Washington, July 16.—Regarding a series of special articles in a service publication, which have been to some extent reproduced in the press criticising adversely the battleships of the navy, Rear Admiral Willard Brownson, acting secretary of the navy, says in substance: "That there was defects in the Oregon class and the Kentucky and the Kearsarge is well known. In fact these defects were discovered before the completion of these ships, but the wonder is that there were so few defects considering the battleships of other nations built at the same time. The Oregon class was conspicuously superior, in fact that class was referred to by the leading British technical papers at the time as the 'peerless' battleship. It is true that their armor was badly placed, but that arose from the addition to the ships of a great amount of material, stores and machinery not included in the original design. It is also true that they lacked balanced turrets but when they were built there were no such turrets in any navy. The eight-inch ammunition tubes also were not sufficiently protected. As to the criticism directed at the large size of the ports in the turrets this has been corrected in later designs, the bearings of the trunnions of the guns nearer to the front of the turret so that battleships of later design are free from this defect. As a gun platform, which is the main purpose of the ship, the Oregon class has no superior, and even at this late day they would give a good account of themselves in action. In fact, taking everything into consideration it is only surprising that we built as good ships at that time. I am of the opinion that if the whole situation could be known it would be seen that other nations have had and are still having their troubles in their shipbuilding programs."

More Food Regulation.

Washington, July 16.—The department of agriculture has promulgated regulations governing the use of benzoate of soda and sulphur fumes as preservatives of fruits and other food products, with the provision of law that food products shall not contain substances which lessen their wholesomeness, orders were issued that no drug, chemical, or harmful or deleterious dye or preservative should be used for coloring the color of common salt, sugar, wood, combs, potable distilled liquors and condiments, and pending further investigation, the use of saltpetre.

Umbrellas.

Upper Peninsula

Iron Mining Fatalities—

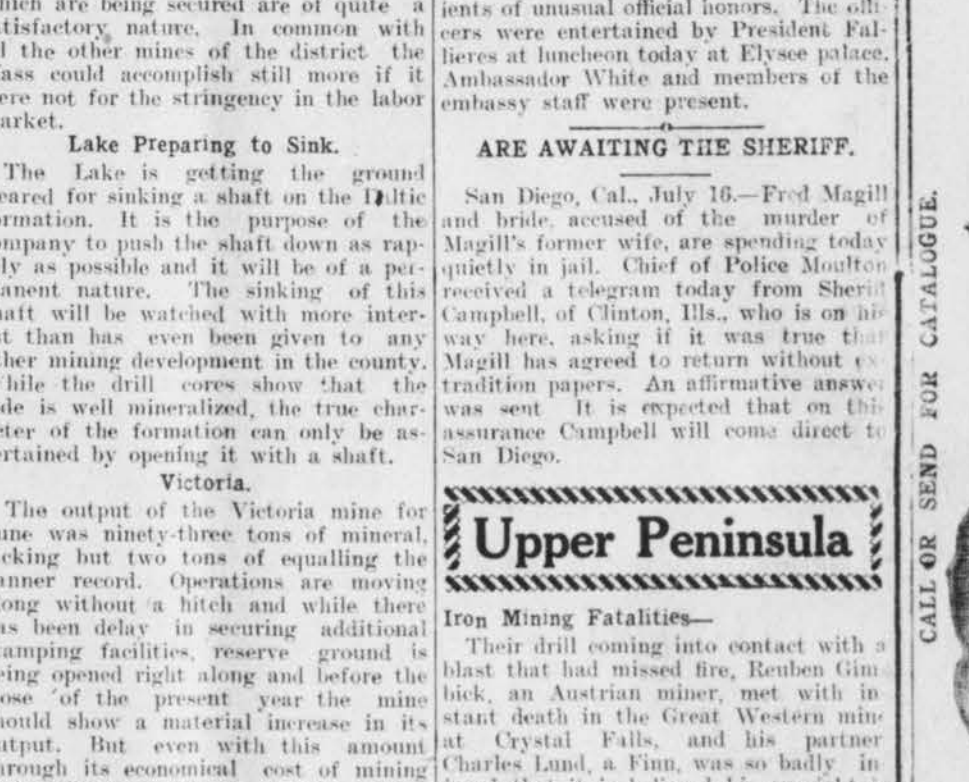

Their drill coming into contact with a blast that had missed fire, Reuben Gimbick, an Austrian miner, met with instant death in the Great Western mine at Crystal Falls, and his partner Charles Land, a Finn, was so badly injured that it is believed his eyesight is permanently destroyed. Men on the previous shift had bored and filled with powder a number of holes, and it was supposed that all of the charges had been successfully exploded. It is evident, however, that one of the blasts was still intact when Gimbick and Land started work, and when their drill struck the hidden mine the disastrous explosion followed immediately. Land is a married man.

FETED IN PARIS.

American Naval Officers Recipients of Unusual Honors.

Paris, July 16.—Officers from the American cruisers Tennessee and Washington, now at Brest, have come up to visit Paris, where they are the recipients of unusual official honors. The officers were entertained by President Fallieres at luncheon today at Elysee palace. Ambassador White and members of the embassy staff were present.

ARE AWAITING THE SHERIFF.

San Diego, Cal., July 16.—Fred Magill and bride accused of the murder of Campbell, of Clinton, Ill., who is on his way here, asking if it was true that Magill has agreed to return without extradition papers. An affirmative answer was sent. It is expected that on this assurance Campbell will come direct to San Diego.

Upper Peninsula

Iron Mining Fatalities—

Their drill coming into contact with a blast that had missed fire, Reuben Gimbick, an Austrian miner, met with instant death in the Great Western mine at Crystal Falls, and his partner Charles Land, a Finn, was so badly injured that it is believed his eyesight is permanently destroyed. Men on the previous shift had bored and filled with powder a number of holes, and it was supposed that all of the charges had been successfully exploded. It is evident, however, that one of the blasts was still intact when Gimbick and Land started work, and when their drill struck the hidden mine the disastrous explosion followed immediately. Land is a married man.

At Republic, Marquette county, Severin Martinson, a miner employed at the West Republic workings of the Cambria Steel company, is dead in consequence of his own fatal miscalculation. A number of blasts had been prepared, and it was the duty of the young man to discharge them. A premature explosion resulted, and Martinson's body was blown to pieces.

Saloon Shake-Up at Newberry—

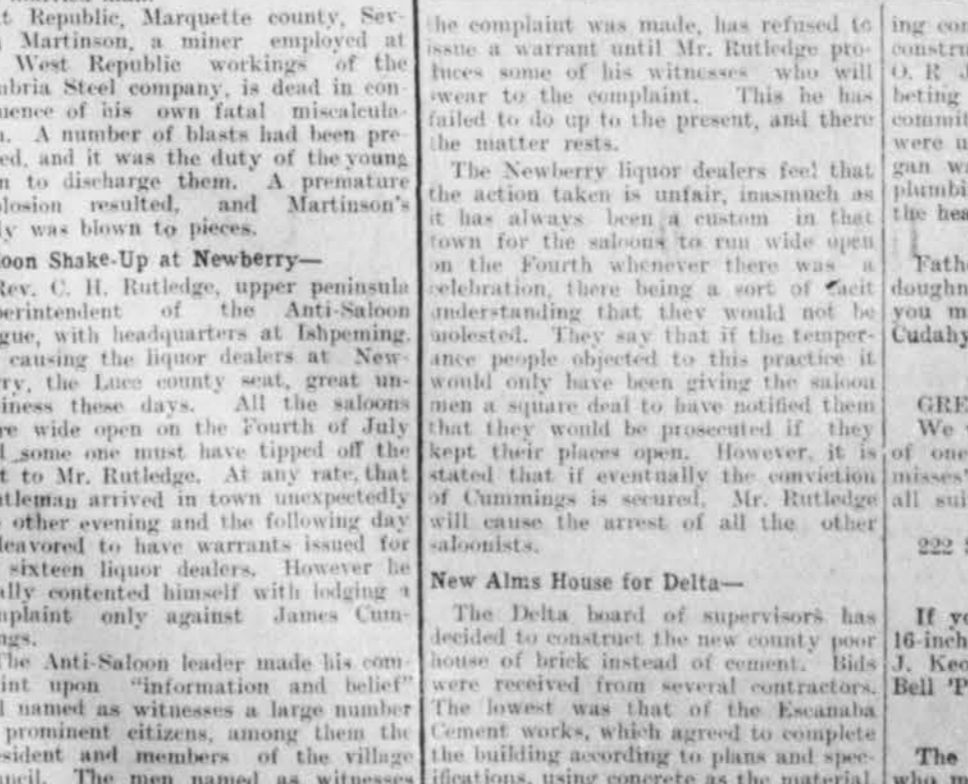

Rev. C. H. Rutledge, upper peninsula superintendent of the Anti-Saloon league, with headquarters at Ishpeming, is causing the liquor dealers at Newberry, the Luce county seat, great uneasiness these days. All the saloons were wide open on the Fourth of July and some one must have tipped off the fact to Mr. Rutledge. At any rate, that gentleman arrived in town unexpectedly the other evening and the following day endeavored to have warrants issued for all sixteen liquor dealers. However he finally contented himself with lodging a complaint only against James Cummings.

The Anti-Saloon leader made his complaint upon "information and belief" and named as witnesses a large number of prominent citizens, among them the president and members of the village council. The men named as witnesses in the complaint were not consulted in the matter and are reported to be hopping mad. Justice Mulvaney, before whom

MUCH WORK IN PROSPECT.

Marquette County Contractors Very Busy—Several Big Jobs in Sight.

"I have about all the work already contracted for that I can do this season," said a Marquette county contractor yesterday. "By the time I finish my present contracts the weather will be unfavorable for outdoor work, and unless I can get jobs where it is possible to house over my masonry and brick work I will not accept them. I have found through many years of experience in this section that as a rule it does not pay the contractor to build structures, particularly brick blocks, after winter sets in, unless his work is protected and the building is properly heated.

"If all the buildings now in prospect are completed this year the season will be a good one for the contractors. It is some time since more work has been done at the mines than is now under way, and several fine new blocks are to go up. In Negaunee there are a number of buildings being erected at the Oliver Iron Mining company's Regent properties; the rolling mill is to be put up, and the Old Fellows have started on a new block. At Ishpeiming the most important job will be the N. M. C. A. block. I understand that the committee in charge of the building plans to let the contract soon with a view to starting the foundation within six or seven weeks. At Republic a new high school costing from \$35,000 to \$40,000 is to be built and bids will soon be received on a big job at Newberry."

MEETS COVEAU'S TERMS.

Indeed, Joe Ziehr Proposes to Go Him One Better.

Ishpeiming people interested in the rivalry between Charles Coveau and Joe Ziehr of Calumet, both Cornish wrestlers of note, will see in the following from the Escanaba Mirror the promise of an early match between them. "Joseph Ziehr, of Calumet who claims the title of Champion Cornish style wrestler of the United States, and who is now in training in Escanaba, is willing to meet Charles Coveau, champion of Ishpeiming under the conditions that were proposed by the Ishpeiming wrestler on Saturday.

"A wrestling tournament is to be held at Ishpeiming on Saturday and Coveau has announced that he will meet Ziehr in the arena on Saturday for the first prize of \$100, which is offered by the club, allowing the remaining contestants to compete for the other prizes that are offered.

"Coveau has announced that he will not meet Ziehr if he is forced to take on other men before his bout with the copper country wrestler.

"Ziehr, in a statement issued today, announces that he will accept Coveau's terms and will go him one better by entering the regular tournament of the afternoon, meeting all comers, and will meet Coveau in the evening either for \$100 a side or a purse of \$100 to be posted by the club. Ziehr is willing that Coveau shall rest throughout the afternoon to be ready for the evening, as he says that he is satisfied that he will have no trouble in disposing of the Ishpeiming wrestler. Ziehr is working out every day with Eddie Blou, the Escanaba wrestler, who will also be entered in the Ishpeiming tournament and who, like Ziehr will be prepared to meet all comers.

"Both Ziehr and Blou are in the pink of condition. They will continue their work in Escanaba throughout the greater part of this week."

MINING INSTITUTE.

Thirtieth Annual Meeting to Be Held Latter Part of Next Week.

In a circular issued by Secretary A. J. Yungbluth of the Lake Superior Mining Institute the following information is given relative to the railroad rates, sleeping car accommodations, papers to be read, etc., for the thirtieth annual meeting to be held the last four days of next week at Duluth.

The railroads have decided on the rates to be made for the annual meeting at Duluth, and the following schedule will be in force on the various lines: Duluth, South Shore & Atlantic railway—From all points on their lines, a rate of one full fare for the round trip. Tickets to go on sale Monday, July 22nd, good for return trip including Sunday, July 28th. Purchasers will request certificates from the agent.

Chicago & Northwestern, Chicago, Milwaukee & St. Paul and Wisconsin Central—These roads have announced a rate of one and one third times the regular rate, plus a fee of twenty-five cents to be paid to the joint agent for executing the certificate. This rate is in force from all points in Wisconsin, and the upper peninsula of Michigan; also from Chicago and intermediate points, on basis of fares effective Feb. 1st, 1907. Members and their guests should arrange to reach Duluth not later than noon of Wednesday, the 24th, as a trip to the Great Northern Power company's plant at Carlton is planned for 1:30 p. m. Some of the manufacturing plants in the city will also be visited during the afternoon.

Headquarters will be at the Spalding hotel where members will be required to register, also to secure badges, programs, etc. Accommodations for the trip to the ranges will be assigned by the committee in charge. The visit to the ranges will be on Thursday, Friday and Saturday, returning to Duluth in time to connect with the evening trains for southern and eastern points. In order that the committee will have ample time to arrange for the necessary sleeping cars for the trip to the mines, you are earnestly requested to mail the enclosed postal card as soon as possible.

The following papers are announced for the meeting: "Sampling of Iron Ores," by Professor L. S. Austin, Houghton, Mich.; "Biographical Sketches," by J. H. Harding, Eveleth, Minn., and "The Standard Boiler House of the Oliver Iron Mining Company," by A. M. Gow, Duluth, Minn. Mr. Spencer S. Ramsey, F. A. Gokelair, and others will also present papers, the titles of which will be announced later.

"What shall we have for breakfast?" "Why Cudahy's Peacock Ham and Eggs of course; they are always acceptable, especially at this season of the year." (11-27-a-d-4)

NEW LEADER SELECTED.

At a meeting of the Ishpeiming band yesterday afternoon Frank Trombly resigned the leadership. He is to be succeeded by Arnt Schoenberg. Mr. Trombly found that the work of leading the band and the Trombly orchestra too burdensome. He is to retain the management of the organization and will continue to play the clarinet.

The band will suffer none by the change in leadership as Mr. Schoenberg is a fine musician. The band expects to receive its new uniforms Friday evening or Saturday morning and the members will wear them in the turnout with the Sons of St. George Saturday.

ITALIANS CELEBRATE.

Feast of the Madonna of Mount Carmel Observed Yesterday.

Yesterday morning at St. John's church the Italian people of Ishpeiming celebrated the feast of Mount Carmel a fine day's work has been done at the feast. Father Piazza was the celebrant, and preached an eloquent sermon on the feast which was greatly appreciated by a large congregation of Italian people, who had engaged the Ishpeiming band to accompany them to the church.

The Italians of this city appreciate the attendance on them of Father Piazza. He is a fine speaker. Arrangements are now being made for conducting services at stated intervals at both Negaunee and Princeton.

SPURR MINE SOLD.

L'Anse Parties Purchase Property Few Miles West of Michigamme.

The Spurr Mountain mine, west of Michigamme, has been purchased by Martin Voetsch, W. L. Mason and H. J. Seifert of L'Anse, and it is expected that mining operations will be resumed there as soon as the property can be put in order. The tract embraces the north half of the southwest quarter of section 21, town 48, range 31, in Baraga county. During the years the property was operated the greater part of the ore was shipped to L'Anse, twenty-six miles distant from the mine. The Spurr Mountain Mining company was organized in August, 1872, with a capital stock of \$100,000. Hon. H. M. Walker of Detroit was president and Freeman Norvell was general manager. During the seven years of operations from 1873 to 1879 inclusive, 143,866 tons were shipped.

People familiar with the property believe that a fine mine can be developed, as indication at the time operations ceased were most favorable, but the property was not well managed. In 1879 the mine passed into the hands of the bond holders, by whom it was subsequently sold to a new corporation organized under the name of the Spurr Iron Mining company, with general offices in Detroit. Operations were commenced by the new company and continued for a short time, and in 1893 the property again changed hands, the Edison Iron Concentrating company securing the lease of it, assuming the indebtedness. Little or nothing was done in the way of mining, although the company retained the lease until six years ago.

SILVER STOCK COMPANY.

Juvenile Amateur Actors Preparing to Give Another Dramatic Performance.

The manager of the Silver Stock company says: "If arrangements can be made the famous Silver Stock company of Ishpeiming will give a performance of the famous play, 'The Last Days of Pompeii.' This is the original company, the one that made such a hit last season. It is composed wholly of boys, ranging in age from fourteen to sixteen years. The play is to be up to the standard of that last year. The feminine parts are to be played by young men of the best dramatic talent to be found in Ishpeiming. The play deals with the Civil war."

Rehearsals are now being conducted. Following is the cast of the play, which has not yet been named: Major General Geary, Harvey Tomson; Colonel Jones, John Talo; Captain Danvers, Joe Vanhala; Dick Ryan, Booth Goodman; Pat O'Hara, Bill Cooley; Jumbo Washington, Jefferson Brown; Ted Butler, Harold Clifton; Grace Wood (leading lady), Henry Wall; Mrs. Wood, George Durham; Sister Alice, John Neary.

The author, in his preface, says that the scenes and incidents are all correct war history, even to dates. The management plans to produce the play in an elaborate manner, perhaps using marching soldiers, etc.

INTERESTED IN VALUABLE MINE.

James Ames, for a number of years a resident of Ishpeiming, and for some time superintendent of the board of public works, is now superintending the operations of a mining property in Colorado. He and a few others recently purchased three rich claims and indications for the development of a valuable mine are favorable. It is reported that the ore from the property contains lead, gold and silver values, some of it running as high as 85 per cent in lead. The development work is pretty well advanced, three separate tunnels having been driven into a mountain penetrating the ore formation, and a few shipments of the ore have already been made to a smelter owned by another company.

GET GOVERNMENT LICENSES.

Andrew Lind, deputy internal revenue collector, has issued a large number of government licenses to liquor dealers in the county during the past week or two. He reports that there are still several who have not yet taken out their government licenses. An inspector will be in the county soon and any dealer not provided with a license will be liable to the penalty of \$12.50.

DARANTELLA

10c Havana Cigars, 10c

FROM HOPKINS' CURB LETTER.

"London sent sharply lower cables this morning, not only for American securities, but copper metal reached the lowest price registered during the past two years. Spot opened at 90 pounds, a decline of 3 pounds, 5 shillings from yesterday's close, while futures sold off to 85 pounds, 5 shillings, a decline of 2 pounds, 5 shillings. Apparently this decline in metal will go somewhat further, as buyers are not coming into the market at the prices established by the producing interests about a week ago. Copper shares opened fractionally lower but soon regained their entire losses, and in some instances scored moderate advance. We do not look with favor on the bull side of this market, only on the sharp breaks and then for moderate profits only. Some of the investment stocks are very attractive but it is probable that lower prices will be established before the monetary situation is sufficiently settled to make a big market possible."

The day's prevailing prices were:

Table with columns: Bid, Asked, American, Warren, Denn Mining, Ahmeek, Davis-Daly, Superior & Pittsburg, Nipissing, Shattuck, Troy Man, Cumberland Ely, Boston Ely, North Butte Extension, Carmen, Butte & London, Black Exploration, Black Mountain, East Butte, Keweenaw, Hancock, Globe Cons, Wolverine & Arizona, Superior & Boston, Calumet & Globe, Columbus Cons, Superior, Calumet & Montana, Comanche, Nevada Utah, Helvetia, National Mining, Silver Leaf, Silver Queen, McKibbin, Utah Apex, Raven, Old Hundred, Foster, Ely Cons.

ISHPEMING IN BRIEF.

Captain Arthur Buzzo arrived in the city yesterday on a visit to his family. The Ishpeiming band conducted a dance last evening at the pavilion at Cleveland at Cleveland Park.

Dr. T. A. Felch is attending the annual meeting of the Upper Peninsula Medical association at Menominee.

Mrs. C. T. Heimstreet left for her home in Detroit yesterday, after a month's visit with her sister, Mrs. Ed. J. Butler.

Henry Routhier has gone to Chicago, to be absent a short time inspecting some cars being built for the South Shore road.

Miss Ethel Bradford entertained a large number of her young friends Sunday and Monday at her father's camp at Lake Lawrie.

Captain F. E. Keese and Fred Schwendenman looked over lands in the Swanzy district yesterday for the Oliver Iron Mining company.

Miss Louise Trombly, employed in Sellwood's dry goods store, is enjoying her vacation, which she will spend with relatives at Nadeau.

The Morgan Ishpeiming company, playing this week at the Ishpeiming theatre, gave another very satisfactory performance last evening, when the pastoral play, "An Orphan's Prayer," was produced.

M. J. Griffin, who has been absent from the city several days, returned yesterday from Wisconsin with five fine horses. One fine saddle, two family drivers, and a fire team make up the shipment.

Joseph Smith, who is looking after the lakes from which Ishpeiming receives its water supply, caught three men fishing at one of the lakes yesterday. Two got away, but the third was brought to town.

The employees of the Oliver Iron Mining company in this city will be paid Friday instead of Saturday, the regular payday, on account of the Sons of St. George celebration.

The dwelling on South Pine street, recently vacated by W. H. Anderson and family, is being raised and otherwise improved by the Oliver Iron Mining company. It is to be occupied by Dave Devine and his family.

Delegates to the Sons of St. George society's annual convention will begin to arrive this evening. It is expected that a number of former residents will arrive here from the copper country and other points in the upper peninsula today or tomorrow.

An Italian has opened a store in the old church at Clarksburg. A party who wanted to engage in the saloon business at the location desired a lot there, but the owner did not care to have a saloon on the grounds, so he put the price on the lot so high that the man did

not purchase it. A saloon was recently started on the main road, not far from the Dexter mine.

A large number of tickets have been sold for the hop to be given tonight at Braastad's Hall under the management of the Fourth of July parade committee. It is expected that from 200 to 300 couples will be present. The Ishpeiming band will furnish the music, the dancing starting at 9 o'clock sharp and continuing until 12.

Mrs. Belpedo and her daughter, residing at West Ishpeiming, were brought into the municipal court yesterday, charged with stealing from one of the Oliver Iron Mining company's cuts. There has been a great deal of such work going on for some time past and the company's officials concluded that it was time to take steps to stop the practice. The daughter was found guilty but the judge suspended sentence.

In the baseball game Sunday afternoon at Champion between the Ishpeiming White Sox and the Champions, the score was seven to five in favor of the latter. The White Sox made four of their five runs in the first inning and the other run in the sixth, and the Champions scored one in the third, two in the fourth and four in the seventh. Kaiser and Fraser were the battery for the White Sox and Blamey, Belhumeur and Kemp held the points for the Champions.

WORK OF THE COUNCIL.

Big Grist of Business Disposed of at
Meeting Monday Evening

The Negaunee council held a three
hour session Monday evening. Propri-
ety owners on Case and Peck streets
sent in a petition relative to the alley
between these streets, and at the sug-
gestion of Mayor Winter the street and
highway committee and mayor were
instructed to meet with the school board
to confer about closing this alley, and
the one between the present high school
and the new high school property.

The management of the Mary Char-
lotte and Breiting Hematite mines
asked that the money collected for poll
tax through its offices be used for the
building of a new road, to take the place
of the one passing over the Breiting prop-
erty, where the surface is needed for
mining operations. A motion to the ef-
fect that these companies be dealt with
the same as are other companies over
whose land road improvements are be-
ing made was approved and the com-
munication was therefore laid on the table.
It has been the custom in the past for
the city to bear one-half the expense of
the construction of the new roads in
places where it has been necessary to
discontinue any portion of a thorough-
fare on account of mining operations,
the company paying the other half.

Charles Muck, Jr., petitioned the
council to purchase about fifteen feet of
his lot in block one of the Corbett addi-
tion for street purposes, as a portion of
the lot has been used for some time as
a public highway. The petition was re-
ferred to the street and highway com-
mittee, board of public works and city
attorney, with power to act.

The street and highway committee re-
ported that \$1,157.91 had been expended
in street building and cleaning in June.
The committee on water works re-
ported that the extensions of the water
main to the Queen mine had been com-
pleted, and that the Rolling Mill exten-
sion has been completed. The exten-
sion of 350 feet, which has been delayed
on account of the non-arrival of pipe,
The distance covered in the Queen mine
extension is 1,800 feet and in the Roll-
ing Mill extension 450 feet. The sum
thus far expended on both is \$2,548.91.

The committee on electric light re-
ported that one of the three new arc
lamps ordered at the last meeting of
the council was in commission and that
the other two will be in use within a
few days.

The committee on water works and
the board of public works were in-
structed to extend the water main to
the Cambria location at any time it is
considered advisable to do the work.

The purchasing and fire department
committees were instructed to buy 500
feet of hose and twelve ladders for the
fire department; and to have a wooden
floor laid over the concrete in No. 1 hose
house.

The building committee advised the
council that it is its intention to con-
tinue the improvement of the city hall
by the rebuilding of the foundation and
the replastering of the various rooms
needing attention. The sum expended
on the work up to the first of the month
was \$85,143.

The new cemetery question was dis-
cussed, and at the suggestion of the
mayor the council will meet in special
session on a date to be designated by
the mayor to look over the various sites.

On recommendation of the committee
on sewerage, the creek extending north
of the street railway's line between the
power house and Cyr street will be
deepened, as at times the water over-
flows onto the lands of property owners.

The city attorney was instructed to
draw an ordinance making it compul-
sory on the part of electric work con-
tractors to give the city a satisfactory
bond guaranteeing all walks to remain
in good condition for at least three
years.

On recommendation of the board of
public works, the Lake Superior & Ish-
peming Railway company was granted
a route, as set forth in the company's
blue print, for a spur to be extended
from the Maas mine, along near Teal
Lake avenue, and crossing over the
South Shore tracks at Barn street. An
ordinance is to be prepared by the city
attorney and presented to the council
at the next meeting.

The city attorney was instructed to
draw an ordinance relative to building
permits, the provisions of which all con-
tractors and others erecting buildings
in the city limits hereafter shall be ob-
liged to observe.

The street commissioner was instructed
to use his judgment as to which men
should receive \$2 per day and which
should receive \$1.80 for street and road
work.

The committee on claims and ac-
counts presented bills aggregating \$6,
154.54. Of this sum, \$1,778.87 will come
out of the general fund; \$1,625.29 from
the water works fund; \$1,572.27 from
the street and highway fund; \$559.22
from the electric light fund and \$621.88
from the fire department fund.

\$10,000,000 FOR THE POOR.

One of the wealthiest women of our
land has set aside ten million dollars to
be used for the improvement of social
and living conditions among the poor
throughout the country. Charitable and
beneficial establishments are to be or-
ganized and aid given to those already
established. For the improvement of
your physical condition we know of no
remedy that will aid as much as will
the famous Hostetter's Stomach Bitters.
Its supremacy has been acknowledged
by many prominent physicians, and a
fair trial will convince you that the
above is true. When the tongue is
coated, appetite poor, nerves unstrung
or sleep restless it is a splendid time to
test its curative powers. Try it with-
out any further delay. It also cures
heartburn, flatulency, sour risings, head-
ache, cramps, diarrhoea, dyspepsia, in-
digestion, constiveness or malarial fever.

Hotel Williams, Grand Island, Mani-
squeg, Michigan, has opened the season
with a good patronage. Three two-room
cottages with fire places have been ad-
ded to the equipment, enabling the hotel
to handle the increased patronage.
(7-8-21)

COMPARATIVE STATEMENT FROM BOARD SHOW WHAT THEY ARE DOING FOR CITY.

At the council meeting Monday even-
ing the board of public works presented
a statement showing the daily consump-
tion of water last month, compared with
June last year. In June, 1906, the pump
registered 36,905 strokes, compared with
32,127 last month. Seventy tons of
coal were consumed last year, and fifty-
seven this year. The daily consumption
of water totalled 957,856 gallons a year
ago, compared with 835,182 last month.
The saving in the water and the ex-
pense of operating the plant is due to
the introduction of meters. A year ago
this time there were very few in use,
but the number has increased consider-
ably during the twelve months' period.
The showing is satisfactory, when it is
considered that the number of consum-
ers has increased during the year.

Lighting Plant Shows Profit.

According to the report of the clerk of
the electric lighting plant the net re-
ceipts last month were \$327.76. This,
Mr. Mitchell said yesterday, was a good
showing, as considerable new material
was paid for. The previous month there
was a heavy drain on the funds for ma-
terial, including a number of meters, so
that the plant did not show as large a
profit.

The total receipts last month from the
sale of material and for lighting services
were \$1,235.98. It is expected that the
receipts will be considerably larger dur-
ing the fall and winter months, when
the lights will be used longer. Thirty-
eight incandescent lights were added to
the circuit last month, increasing the to-
tal to 4,631.

LIKES THE MESABA RANGE.

Former Michigamme Merchant Doing
Well at Aurora.

Marcus Levin, for many years in the
dry goods and clothing business at
Michigamme, now conducting a big
store at Aurora, Mesaba range, was a
visitor in the county yesterday. He left
Michigamme a year ago last month and
is informed The Mining Journal's rep-
resentative that he has no reason to re-
gret the move, as he has done very well
on the Mesaba.

Aurora is one of the new towns, it
having been opened up less than three
years ago. Mr. Levin said that it is
growing rapidly and that there has been
a continuous boom since the ground was
broken for the first building. There
are four mines in operation, and two
or three more will be working next
year. The population is now about
1,800 and it is growing steadily. Mr.
Levin is conducting the largest mercan-
tile establishment in the town and he
contemplates adding new lines to his
stock. He has purchased a property for
a home and expects to remain there
permanently. He said that real estate
values are very high, as there is every
reason to believe that the town will
within a few years be one of the largest
and most important on the range. A
few months ago Mr. Levin was elected
a member of the council. He said that
the board has had a very busy year, as
much improvement work has been un-
dertaken. A water works system was
recently completed and an electric light-
ing plant is now going in and will be in
commission within a month or two. The
council has decided to install a complete

sewerage system to be started before
winter sets in. There are a great many
former residents of Negaunee and Ish-
peming living at Aurora, and Mr. Levin
reports that many of them are doing
well.

WILL CLOSE ALLEYS.

Mr. & Tompkins plan to wind up the
season's business at their bowling alleys
this week. The league series being con-
ducted will be hastened to a close. It
was originally intended that each team
should bowl eleven matches, but the
number has been reduced to eight. Sev-
eral of the teams have already bowled
seven, and others have bowled five or
six. The latter will have two or three
matches. The finish will be close, and it
is now impossible to pick the winners
of the two prizes. The Drei Kaisers
have offered a consolation prize for the
fall ends.

The alleys have been well patronized,

even during the warm weather. In fact
the business has been much better all
through the season than the proprietors
expected. The alleys are to be thor-
oughly overhauled during the closed
season, which will be from six to eight
weeks. George Dufraine, the manager,
will look after the work.

SOME RICH SAMPLES.

Stockholders of the Barabie Mining
company have received notice of a stock-
holders' meeting to be held at Mellen,
Wis., Monday next. There are a number
of shareholders in Negaunee, but it is
not likely that any of them will attend
the meeting. Joseph Barabie recently re-
ceived specimens of the peacock copper
ore being taken from the workings,
which are very rich.

TUXEDO CLUB CIGAR

MINERAL NEAR GRAND MARIE.

Arthur H. Gribble, who has been en-
gaged in diamond drill work for Pitts-
burg capitalists near Grand Marie the
past several months, arrived in Negaunee
yesterday. While no sensational dis-
coveries were made, Mr. Gribble reports
that a formation containing a mixture
of iron and copper was located. The
cores did not show a very high percent-
age of copper, but the showing in iron
was fairly good. Drilling operations
have been suspended for the present.

MIDSUMMER EXCURSION TO DU- LUTH.

Via the South Shore, leaving July
25th and 26th, return limit July 29th.
Fare for the round trip \$9.10. Attrac-
tions: Barnum & Bailey's circus at Su-
perior July 26th, and at Duluth July
27th; the "White City" on Park Point;
baseball games Houghton vs. Duluth.

TUXEDO CLUB CIGAR

CONCRETE BLOCKS A CHEAP MATERIAL

AT PRESENT PRICES SOUTH SHORE
FINDS THEM LESS EXPENSIVE
THAN LUMBER

WILL GIVE THEM A TRIAL

Plan to Erect Miner Structures of Them
—Concrete Industry Set Back by
Too Much Experimenting, Is
Comment of Engineer.

The concrete block industry is making headway. It is not conquering the building world in a day. On the contrary its progress is slow, considering the volume of new building going on. However, the concrete block is gaining a little ground from month to month, and is playing an increasingly important part in building operations of one kind or another. The South Shore railway is using on its line in its manufacture, for section houses, flag shanties and other small buildings. A spur track is being laid to the site of the proposed plant, which will be located north of the tracks between Fourth and Fifth street. Blocks will be made there in about a month. In the meantime they are being turned out near the shops, where there is an output of about 100 a day.

The reason the South Shore is going to use concrete blocks is found in the fact that it is now cheaper to build with them than with lumber. A concrete block eight by sixteen inches, which is the size the company will put out, costs about fourteen cents to manufacture. At that rate the company can build blocks cheaper than it can of lumber, to say nothing of the greater economy of the blocks in the long run. A section house, twenty-eight by thirty feet, two stories high, will require about 2,200 blocks, and when once built will last for many years, as the danger of fire is reduced to a minimum and the expense of maintenance is very light. There will be no expense for painting, and the repairs will be comparatively slight compared with those which a wooden structure would require. The South Shore company plans to erect its first concrete section house at Sage, near Av Train, where the old house was destroyed by fire.

The South Shore's plant will be in the nature of an experiment. If the blocks come up to expectations it will doubtless be largely expanded, and it is likely that the use of the blocks will be extended to buildings much more pretentious than the humble structures along the right-of-way, out in the wilds. Experimenters Have Harmed Industry.

"There has been too much experiment in the making of concrete blocks," said a South Shore civil engineer, discussing the matter yesterday. "It has put back the industry by, in many cases, discrediting it. The handling of concrete is a business in which a man ought to have a good technical knowledge, or he will find it to get good results. Since the concrete block industry began to attract attention many men not qualified to turn out good blocks have taken it up. An outfit for their manufacture is not very expensive, and a man with a comparatively modest capital can make a try at the business. As a result there have been many concrete blocks put out that have not been worthy of the name. Of course most of these blocks failed to give satisfaction, and the people who bought them made the mistake of concluding that the whole block industry was a snare, instead of laying the blame where it belonged, with the lack of experience, or skill, of the man with whom they dealt. "A concrete block, properly made, with the proper proportions of cement and other material, should be more durable than stone, and should stand up against any strain put upon it in any sort of building operations. Furthermore if it is properly seasoned before being exposed to the weather it should improve under the action of the elements, rather than disintegrate in any way. Good concrete blocks make an excellent building material, one on which people can count. However, if you are contemplating building with concrete be sure of the man who makes the blocks."

POKER PLAYER IN TROUBLE.

Game Played on Washington's Birthday Leads to Man's Arrest.

Frank E. Ellsworth, who is wanted in Kenosha upon a charge of obtaining money under false pretenses, and who was arrested in Marquette a week ago, was taken to Kenosha yesterday by a chief of Police Owen O'Hare of that city.

A poker game in which he gave valueless checks in exchange for chips led to Ellsworth's undoing, and as he received no actual money for the checks, some doubts have been expressed that a conviction can be obtained in the case, although the governor honored the requisition.

Before he was taken away yesterday Ellsworth stoutly maintained that he was innocent of the charge. He said he gave two checks for \$200 each on the Manufacturers' National bank of Racine, Wis., and lost the poker chips he received for them. Although he remained in Kenosha for two months after the checks were given, which was Feb. 22 last, he was not indicted, he said, until he came to Marquette. Ellsworth is forty-six years old and has a wife at Hancock.

NOTICE.

To all intending rug purchasers: A representative of one of the largest manufacturers of rugs will be at our store today showing a complete line of all that is new in the line of rugs for the fall season. Now is your chance for a large selection.

EXPECT EARLY SHIPMENT.

Sample Lot of Tarvia Will Probably Be Here Next Week.

The Barrett Manufacturing company has promised the park, cemetery and street commission early shipment of the sample lot of Tarvia for the treatment, in an experimental way, of a few blocks of Marquette streets. It is expected that a carload of the material will be received next week, and with it will come the appliances necessary for spreading it on the streets. As soon as the shipment is received here the Barrett company will send a representative, to superintend the work. It has not yet been decided what streets will be treated, but three or four blocks, at least, will receive a coating of the material. The steep block on Third street, south from Washington to the South Shore tracks, will doubtless be treated. It is a block that will give the material a severe test.

In this connection the following letter written to the La Porte Herald by E. H. Scott, of La Porte, Ind., owner of the Nester block here, regarding an experiment with a similar treatment of La Porte streets will be found of interest:

I have been requested many times to give the cost and particulars of tarring the macadam pavement in August, 1906, on Rose street, between Nile street and Maple avenue and herewith comply.

The total square yards covered, 889.
The gallons of tar used, 375.
The yards of sand, six.
The total cost, \$76.73.

The cost per square yard, \$86.43-100. As the street was laid more than two years before with a soft limestone, the upper surface was worn, and it took fifty hours labor with steel brooms to get out the dirt.

It was not possible to get a clean surface, and the apparatus for heating and distributing the tar was crude, and its operation expensive, but the experiment clearly demonstrates that the application of tar is of great utility and makes the pavement more enduring, and gives a smooth, clean wearing surface and free of dust and mud.

I am satisfied that a new macadam pavement can be covered with tar, using a suitable apparatus, for a cost not exceeding five cents per square yard, and that the results, when cost, repairs, and endurance are considered, make it more desirable than an asphalt pavement.

E. H. SCOTT.

July 11, 1907.

MUSICAL THIS EVENING.

Program Will Be Given at the Northern Normal by Local Talent.

There will be a musical at the Northern Normal, in the assembly room of the new south wing this evening. It will be for the entertainment of the students of the summer school and the public, which is cordially invited to be present. The following program has been arranged:

- Excella Orchestral—Lucia di Lammermoor.....Donizetti
- Vocal Solo—Good Night, Little Girl, Good Night.....Macy
- Miss Edith Barry.
- Piano Duet—Overture No. 8, Heine-Kohl aus der Feend.....Mendelssohn
- Mrs. R. W. Boyer and Mrs. R. S. Donaldson.
- Vocal Solo—I Drink the Fragrance of the Rose.....Clough-Leigher
- Miss Sophia Linton.
- Piano Solo—Valse Styrienne.....Wollenhaupt
- Mr. O. W. Dey.
- Vocal Solo—
- (a) The Dear "Auf Wiedersehen".....C. J. Bond
- (b) I Love You Truly.....C. J. Bond
- Miss Mahal Chase.
- Piano Quartet—Overture No. 11, Fur Harmonie Musik.....Mendelssohn
- Mrs. R. S. Donaldson, Mrs. H. H. Davis, Mrs. R. W. Boyer, Miss Norma Ross.
- Vocal Solo—Twilight Is Falling.....Strozzi
- Miss Ida M. Linton.
- Violin Solo—Serebriade.....C. Bohm
- Miss Edith Barry.
- Vocal Solo—(a) The Year's at the Spring.....Mrs. H. H. A. Beach
- (b) You're Welcome.....Clough-Leigher
- Miss Sophia Linton.
- Piano Solo—Spinning Song.....Raff
- Mrs. R. S. Donaldson.
- Vocal Duet—True Love Is Not for a Day.....De Koven
- Miss Sophia Linton and Miss Ida Linton.

COMMERCIAL CLUB MEETING.

The newly organized Queen City Commercial Club now has a membership of nearly 150, and new names are being enrolled daily. A report of the progress with the club is to be presented Monday night, when a meeting will be held in the city hall. The work of enrolling new members is in the hands of a committee which is working among the business men. In order to awaken widespread interest in the project and to insure a large membership the expense has been placed at a low figure. The initiation fee is \$1 and this includes the first year's dues. Alderman Downey, who patronized the project, said that thirty-one new members were enrolled yesterday afternoon.

The officers of the organization are as follows: President, Herman Schauer; vice president, J. E. Tobin; 2nd vice president, J. Reaney; secretary and treasurer, J. G. Jenks.

FOR SALE.

A beautiful summer home situated on the shore of Lake Superior near Middle Island Point. This camp is furnished throughout, ready for house keeping. Beside the regular furniture there is a piano, refrigerator, an improved oil stove large fire place in main room; size of building 30 by 40.

It also has a boat and boat house, also a good barn. Now here is a chance for some one that has a little money to spend to get some real comfort. I am going to put this on the market for ten days. I have had so many applications for renting my cottage, which is something I have never done nor do not intend to. From all the applicants I have had, it seems to me there must be some one in this group that could afford a good comfortable place on the beach.

Now this is an opportunity for some one that wants to loosen up a few dollars.

POPULAR COUPLE WEDDED.

Albert Greene and Miss Lena Tonella were united in marriage, before a large party of relatives and friends, at 6 o'clock yesterday morning at St. Peter's cathedral, Father Moriarty officiating. Mr. Greene is a son of ex-Mayor W. H. Greene, and was born and reared in this city, which he made his home up to four years ago, when he left for the west. The past year he has been residing at Chickasha, Indian Territory. The bride is a daughter of Carl Tonella. She has been a lifelong resident of Marquette, having been born and raised here, and a large circle of friends regret her departure. John O'Neil acted as groomsmen and Miss Louise Gueff as bridesmaid. The bridal party enjoyed a wedding breakfast at the home of the bride on North Third street after the marriage ceremony. Mr. and Mrs. Greene left on the 8:30 o'clock train yesterday morning for Green Bay and Chicago, where they will visit relatives for a week after which they will journey home to Chickasha, Indian Territory, where they will make their home. The couple received many beautiful gifts.
