

POWDER TRUST NEXT ON THE LIST

Department of Justice Will Bring Action Shortly Seeking to Dissolve It as a Combination in Restraint of Trade.

Is Most Offensive to the Government of All the Mighty Monopolies for the Reason That Through Its Absolute Control of the Trade It Forces Uncle Sam to Pay Tribute—Court Will Be Asked to Put the Business in Charge of Receivers.

Washington, July 21.—The department of justice proposes within the next seven days to file its bill of complaint against the powder trust at Wilmington, Del. The bill is now in the hands of Attorney General Bonaparte. The action is brought under the Sherman anti-trust law, and seeks to dissolve the trust as a combination in restraint of trade.

The lines of the action against the tobacco trust are followed in the proposed case against the powder trust. An injunction is asked for to restrain the defendants from engaging in interstate traffic. The circuit court will be petitioned to appoint a receiver for the Eastern Dynamite company, the E. J. Dupont De Nemours Powder company and the Lafin & Rand Powder company. These are the three concerns that are supposed to have the commanding influence over all the others.

Companies Involved. The bill recites the following defendants: E. J. Dupont, De Nemours & Co., E. J. Dupont, De Nemours Powder company of New Jersey, the Dupont international Powder company, Delaware Securities company, California Investment company, Delaware Investment company, Hazard Powder company, Lafin & Rand Powder company, Eastern Dynamite company, E. J. Dupont, De Nemours & Co., of Pennsylvania, King Powder company, Austin Powder company of Cleveland, California Powder works, Connaught Powder company, Fairmount Powder and Chemical company, Judson Dynamite and Powder company of California, Metropolitan Powder company, Peyton Chemical company, Actna Powder company, American E. C. and Schultze Powder company, Anthony Powder company (limited), Equitable Powder Manufacturing company and the Miami Powder company.

It is stated that the same official announcement will be made in this case as was made in the action against the tobacco trust, viz: That the receivership plan is tentative, and that it is only one of a number of remedies which will be adopted only if found feasible. The constituent parts of this great trust form such a close corporation that it is asserted that the testimony will exhibit some of the highest and most ingenious financing on record.

The powder trust, according to officials of the war and navy departments is the one which has been most offensive to the government. Its great monopoly has given it the opportunity of charging what it pleased for powder, and has made practically valueless all kinds of opposition. It is also said that the trust got hold of patents for powder which were gotten out by two naval officers.

YAWN DISPLACES JAWBONE. Wisconsin Man Has Hard Time Explaining He Wishes a Doctor. Chippewa Falls, Wis., July 21.—Roy Bailey, a well-known farmer, was in a sad plight yesterday. When Mr. Bailey awoke early in the morning he was seized with a yawning fit. During one of the biggest yawns, the jawbone refused to work. Realizing that something was wrong, he hastened to seek assistance. He pointed to his open mouth, but could not make anyone understand. The doctor looked into his mouth, examined his tongue and shook their heads. Finally in desperation he seized a pencil and wrote, "Doctor at once." At the hospital where he was placed under chloroform the doctor succeeded in getting the jawbone in proper gear.

LAW THROTTLES TRADE. Texas Demands Repeal of Law Aimed at Trust-Made Goods. Galveston, Tex., July 21.—Meetings were held all over the state last night by commercial and business interests to memorialize the governor to call a special session of the legislature to repeal or modify a new law directed at the trusts, but which throttles trade. The new law provides that any person who deals in or sells or handles any goods manufactured or controlled by a trust, or acts as agent for any trust-made goods, shall be guilty of felony and punished by a term in the penitentiary of from two to ten years.

ADAMIRAL DEWEY REFUSED TO LIE

Wouldn't Deny Making a Published Statement Despite the Administration Pointed Out the Way for Him to Do It.

Washington, July 21.—There was a time, not so many months ago, when Admiral Dewey refused to tell a lie even when there seemed almost an international necessity for it, and when the president of the United States pointed out the way for him to do it. Even when the president went so far as to hint the nice fiction of separating himself into the dual capacity of a citizen of the United States and the admiral of the navy, and pointing out that he might say and do things in one capacity which he could not do in the other, Dewey could not see things that way in his inner consciousness and preferred to be officially repudiated in both his personal and official capacities than to stultify himself with a humble fellow-citizen.

MINNESOTA MINERS OUT ON STRIKE, TOO. ALL WORK IS SUSPENDED ON THE MESABA AND VERMILION IRON RANGES.

Duluth, July 21.—Fifteen thousand men employed by the United States Steel corporation and independent mine owners on the Vermilion and Mesaba ranges struck yesterday, paralyzing the entire iron ore industry of the upper Lake Superior region. The men ask for increased wages and a shorter work day. Efforts to compromise have been without avail.

BASEBALL STANDINGS OF THE CLUBS. National League. W. L. P.C. Chicago ..... 51 21 74.4

TERRIFIC STORM IN NORTH DAKOTA. HOUSES ARE BOWLED OVER AT WILLISTON, AND TWENTY-FIVE PERSONS ARE INJURED.

Williston, N. D., July 31.—A terrific wind, hail and rain storm last night destroyed fifteen dwelling houses, injured twenty-five persons, two of them probably fatally, and did much other damage to property in this city and the surrounding county. Those believed to be fatally hurt are a man named Holmes and Mrs. Collinson. Mrs. Collinson and her baby were blown out of their house for about 100 yards, landing against a wire fence. The house was entirely destroyed.

Damage in Wisconsin. La Crosse, Wis., July 21.—A tornado visited the district near Viroqua today. Wire communication in all directions is out of order. Serious wrecks have occurred on all five railroads entering La Crosse, and traffic is at a standstill.

Minnesota Railroads Washed Out. Winona, Minn., July 21.—Rain today washed out the main lines of the Northwestern, the Milwaukee and the Burlington roads. Through Chicago trains are tied up here. When the trains arrived at Winona the passengers were taken to hotels and the trains were abandoned. The Northwestern and the Burlington have washouts at Lytle, and several hundred feet of the Milwaukee track is out at Dakota.

WEEK OF ARGUMENT BOOKED AT BOISE

Boise, Idaho, July 21.—The argument in defense of William D. Haywood will commence tomorrow morning, and for the next two or perhaps three days E. F. Richardson and Clarence Darrow will plead for the life of their client, who they assert, is innocent of any connection with the murder of former Governor Frank Steunenberg. Mr. Richardson expects to speak for eight or ten hours. It is probable, therefore, that Mr. Darrow will not commence his closing argument before Wednesday morning. The last word will come from Senator Borah, who will speak probably on Friday, closing up the state's side of the case. The judge will charge the jury on Friday afternoon, or more likely on Saturday morning, and a verdict is expected by Saturday night. Opinion is divided as to the probable result.

As the end of the case approaches, the town of Boise is even more quiet than it has been at any time during the trial. Most of the witnesses have been paid off and dismissed, but many people, especially members of the bar from neighboring states, are coming from long distances to hear the argument. The people of the town, themselves, are also fascinated by the trial. The courtroom and the court room is filled every session. There is, however, the same absence of discussion of the case in public places, and the same determination to avoid anything that might create feeling or in anyway bring a discredit on the community.

BIG TURF EVENT IN FRANCE.

Paris, July 21.—President Fallieres, and many prominent members of society witnessed today the running of the prize gas from the blast furnaces already reported. It is the intention so to change the process of rolling rails that it will overcome much of the cause for complaint lately made by railroad companies.

WEATHER FORECAST

Washington, July 21.—The following is the weather bureau's forecast for Upper Michigan: Showers, Monday; Tuesday, fair; fresh winds, becoming west.

WIDOW OF MICHIGAN'S EX-GOVERNOR FOLLOWS HIM TO THE GRAVE.

Detroit, Mich., July 21.—Mrs. Hazen S. Pingree, widow of Michigan's celebrated governor, died here tonight, aged sixty-seven years. Mrs. Pingree never fully recovered from the shock she received on learning of her husband's death five years ago.

TRAIN COLLIDE; CARNAGE FEARFUL

Salem, Mich., July 21.—Thirty-one persons were killed and a number fatally injured when a Pere Marquette excursion train loaded with 800 merry-makers collided with a freight train near here yesterday. Nearly one hundred others were so badly injured as to require the service of physicians.

GERMAN BANK FOR PERSIA.

Tehran, July 21.—Parliament has accepted the amended concession to the German bank, omitting the objectionable clauses and refusing to grant any special privileges. The concession is for thirty years, and the capital is fixed at \$1,000,000.

STEAMERS WANTED FOR TRANSPORTS?

Tacoma, Wash., July 21.—After the return of the Boston Steamship company's liner Trenton from the Puget Sound navy yard drydock at Bremerton today, it was learned on good authority that the inspection of the steamer just completed by the Pacific Mail Steamship company officials and others was made on behalf of the United States government. Other steamers have been examined in the same way, and it is said that there are at least fifteen vessels scheduled for inspection. Reliable authority states that this inspection is being carried out by the government with a view of chartering the steamers for government transports, should occasion require it.

IS BURIED AT ARLINGTON.

Washington, July 21.—With full military honors, the body of Miss Susan James F. Cruz, one of the victims of the explosion of the battleship Georgia off the Massachusetts coast last Monday, was buried at the Arlington national cemetery today. A battalion of marines, headed by the Marine band, escorted the remains to Arlington.

MORE JAP TROOPS GOING TO KOREA

Seoul, July 21.—There was some outward improvement in the situation today, and General Hasegawa, commander of the Japanese troops in Korea, withdrew one of the machine guns from the palace square. He regards the situation as being now well in hand. The two government arsenals are guarded by Japanese soldiers, although the number is not large and they are under orders to explode the magazines if they find themselves unable to defend them.

RE-GARRISONING OF THE COUNTRY IS PLANNED, AND REINFORCEMENTS ARE ON THE WAY.

The Korean troops are frequently harangued by civilian agitators, who take up their stand at the entrance to the barracks. The Koreans possess 90,000 rounds of ammunition, of which General Hasegawa, who has only 2,000 troops in Seoul, has been unable to demand the surrender. The Ping Yang regiment, which was yesterday reported as having been disarmed, still refuses to surrender its arms or ammunition. Japanese reinforcements are on their way.

WANT COAL SHIPPED EARLY.

Western Railroads Make Reduction in the Carrying Rate. New York, July 21.—To stimulate the purchase and shipment of coal during the summer months, when the greatest number of cars for this purpose are available, the interstate commerce commission at the request of the Union Pacific railroad and the Oregon Short Line has especially authorized a reduction of twenty-five cents a ton on coal shipped to Washington, Idaho and Nevada between July 19 and Sept. 1.

MAGILLS LEAVE FOR HOME.

San Diego, Cal., July 21.—Sheriff Campbell of Dewitt county, Ill., left today for Clinton, accompanied by Fred Magill and the latter's wife, charged with the murder of Mrs. Pet Magill of Clinton. It was learned today that Miss Margaret Magill, daughter of the accused man, arrived in Clinton this afternoon. Her departure from this city was kept a close secret.

WILL CHALLENGE AGAIN. Britons to Make Another Effort to Lift America's Cup.

New York, July 21.—William Fife, the designer of Sir Thomas Lipton's cup yacht Shamrock I and Shamrock II, declared upon his arrival from Europe yesterday that a British challenger for the America's cup would likely be found in American waters next year to make another bid to lift the historic international yachting trophy. No intimation was given whether the challenge would come from Sir Thomas or some other yachtsman in England, but when asked if the report from Scotland that he had accepted a commission to design a Shamrock IV was true, he replied that he would have to decline to make answer under the circumstances.

ANNUAL OUTING AT PERE MARQUETTE SHOPMEN AND FAMILIES IS TURNED INTO AN AWFUL DAY OF MOURNING.

After arriving here with the wrecking train from Detroit and looking over the situation, General Superintendent Trump said that the blame for the wreck rests with the crew of the freight, which was a westbound local. They had orders, Mr. Trump said, to wait at Plymouth for the excursion train, which had the right-of-way. Instead they proceeded on toward Salem and the collision resulted.

BASEBALLY 19 OUNCES.

New York, July 21.—The baby incubator establishment at Dromoland, Conny island, has received a baby weighing only eleven inches long. It is believed to be the smallest living baby ever born. It is a girl and was born to Mrs. George Brown of this city. The child weighed only nineteen ounces and fifteen grams. The height of the baby is eleven inches, its arms are three inches long and from temple to temple the measurement is two inches. Both hands of the baby will go at one time through the mother's wedding ring. A 10-cent piece hides her face. A half dollar hides her face. A twenty-two ounce baby was born last week in Providence and placed in an incubator to save its life. Previous to these two cases twenty-four ounces was considered as close to the limit where a newly born baby's life was worth fighting for.

WEATHER FORECAST

Washington, July 21.—The following is the weather bureau's forecast for Upper Michigan: Showers, Monday; Tuesday, fair; fresh winds, becoming west.

WIDOW OF MICHIGAN'S EX-GOVERNOR FOLLOWS HIM TO THE GRAVE.

BRYAN SHELVES THE G. O. ISSUE

His Proposition That the National Government Take Over the Railroads Is Not to Figure in the 1908 Campaign.

While Believing It the Ultimate Solution, He Concludes the People Will Not Turn to It Until More Rigid Regulation Is Given a Trial, and for This He Urges the Party Declare Itself Along With Trust-Busting and Tariff Revision.

Lincoln, Neb., July 21.—William J. Bryan does not consider that the national Democracy should make government ownership an issue in the coming campaign. He urges the party to stand for rigid railway regulation, but declares that the states must not waive any of their rights in the matter of control. In last evening's issue of his paper, The Commoner, Mr. Bryan says:

"As the campaign approaches, it becomes more and more evident that of the economic questions, three—the trust question, the tariff question, and the railway question—will share public attention, and these three really present the same issue between the general public and the privileged classes. Shall the government be administered in the interest of the whole people or in the interest of a few? This is the issue by the trust question, the tariff question and the railway question.

Government ownership is not an immediate issue. A large majority of the people still hope for effective regulation and while they so hope, they will not consider ownership. While many Democrats believe (and Mr. Bryan is one of the number), that public ownership offers the ultimate solution of the problem, still those who believe that the public will finally in self-defense be driven to ownership, recognize that regulation must be tried under the most favorable circumstances before the masses will be ready to try a more radical remedy.

"Regulation cannot be sufficiently tried within the next year, and there is no desire anywhere to make government ownership an issue in the coming campaign. Mr. Bryan fully agrees with those who believe that it would be unwise to turn attention from regulation, on which the people are ready to act, to government ownership, upon which the people are not ready to act. To inject the government ownership question into the next campaign would simply give representatives of the railways a chance to dodge the issue of regulation and deceive the public.

The Democratic party must meet the issue presented; it must resist the encroachments upon the authority of the states; it must insist upon the exercise of federal power for the regulation of interstate commerce and it must insist upon the exercise of state authority for the exercise of all of the power vested in the states. This question has grown in importance during the past year, and its prominence will be increased if any attempt is made to impair state authority. The Republican party is as impatient to regulate the railways as it is to terminate the trusts and to repeal the tariff."

CARS BADLY USED UP.

Blue Ridge Mountain Run a Hard One for the Glidden Tourists. Bedford Springs, Pa., July 21.—An inspection of all the cars contesting in the Glidden automobile tour was held here today. Not a single car passed in review that did not show signs of hard usage. Broken springs, bent axle horns and missing lamps, and many other damaged parts were in evidence. That nineteen cars are still in the tour with perfect scores is considered remarkable after the three run of yesterday through the Blue Ridge mountains. Cars came struggling in at all hours Saturday night. They were so far behind the schedule time that they did not even report to the checker, the drivers and occupants being so fatigued after their trip across the mountain that a bath, food and sleep were far more important than trophies or perfect scores.

WANT COAL SHIPPED EARLY.

Western Railroads Make Reduction in the Carrying Rate. New York, July 21.—To stimulate the purchase and shipment of coal during the summer months, when the greatest number of cars for this purpose are available, the interstate commerce commission at the request of the Union Pacific railroad and the Oregon Short Line has especially authorized a reduction of twenty-five cents a ton on coal shipped to Washington, Idaho and Nevada between July 19 and Sept. 1.

 in the postoffice at Marquette, Mich.

**REPUBLICAN DISTRICT CONVENTION.**

A convention of the Republicans of the 21st senatorial district of Michigan is hereby called to meet in the Ishpeming theater in the city of Ishpeming, on Tuesday, the 13th day of August, A. D. 1907, at 11 o'clock a. m., for the purpose of placing in nomination three candidates for delegates to the convention to be held in the city of Lansing for the purpose of making a general revision of the constitution of the state of Michigan, said delegates to be elected at a special election to be held on the 17th day of September, 1907.

The several counties comprising the district are entitled to one delegate in said convention for every five hundred votes, or an excess of a majority thereof, cast therein for governor at the last presidential election, no county being entitled to less than two delegates, making the following representation, to-wit:

County.	Vote for Governor, 1904.	Delegates.
Alger	1,333	3
Dickinson	3,276	7
Iron	1,807	4
Marquette	7,045	14

By order of the Republican Committee for the 21st Senatorial District of Michigan.

THOS. CONLIN, Chairman.  
 GAD SMITH, Secretary.  
 Dated Marquette, Michigan, July 18, 1907.

With a strike in every shipping port strike news has, perforce, a prominent place in all head of the lakes newspapers.

In another column The Mining Journal publishes the changes in the game laws authorized by the recent session of the legislature, and he who runs may read.

The summer school enrollment at the Northern Normal has topped 400, a clear gain of over 100 compared to last year. The enrollment is now complete. Indeed the summer term is half over. It is proving the most successful since the institution was opened.

The Sons of St. George, who held their annual reunion at Ishpeming Saturday, were favored with a magnificent day, and their program attracted a large crowd of members of the order and other visitors. The Ishpeming lodges acted the host in a satisfactory manner. An excellent program of amusements was provided and the reunion was in every way an enjoyable one for the Sons. The order is thriving and doing a good work. It preserves the best traditions of the members' fatherland, but is American, as they are, and as patriotically American as the occasion may demand. People of all nationalities hope to see it grow continually larger and more prosperous.

The Washington correspondent of the Chicago Tribune remarks that Speaker Cannon's political machines is second to none, and should not be left out of consideration in making forecasts of possible developments in the next Republican national convention. Primarily it is composed of the Republican congressmen, eked out by Speaker Cannon's personal strength here and there throughout the country. The congressmen, whether they would or no, must be very considerate of their speaker, for he has almost autocratic power over them. And in this case they, for the most part, support Uncle Joe willingly and cheerfully, because they like him.

Governor Hughes has signed the bill limiting the expenses of candidates for public office in New York state. Candidates for the office of governor, under this enactment, are limited to the expenditure of \$10,000; for any other elective state office other than a judicial office, \$6,000; for congress or presidential elector, \$4,000; state senator, \$2,000; for assembly, \$1,000, and for other offices, \$500 when the votes cast number 5,000 or less and \$3 per 100 votes in excess of this number. This law is leveled at such a campaign as that put up by William Randolph Hearst, who last fall spent upwards of \$250,000 in his canvass for governor. Whether it will be as much of a reform measure as hoped for will be for experience to show. It may serve as a curb on the ambitions of those whose chief qualification is in their

barrels, but on the other hand it may make it more difficult to oust machine forces that are strongly entrenched in public office.

The action of the grand lodge of Elks in giving up the elk's tooth as its fraternal emblem has been generally commended by the press, and will be particularly gratifying to all societies for the preservation of American game animals. Under the stress of demand for elk's teeth from members of this strong order the slaughter of these fine animals has been much larger than it would otherwise have been, and its extinction has been threatened. Laws against this slaughter were on the statute books in all states where the elk was habitat, but the good price that the teeth would bring led to the disregard of these laws, and it was certain that they would remain ineffective as long as the Elks were willing to pay fancy prices for elk's teeth worked up into watch fobs and other articles of personal adornment. The action of the grand lodge is intended to destroy the market, and thus decrease the demand for teeth. This in turn will result in a diminution of the slaughter. The step reflects great credit on the grand lodge, but to make it effective the individual members must co-operate. Let them cease to ask for elk's teeth emblems. They will be better Elks for doing this.

It is the official finding that a flare-back from the previous discharge of the eight-inch gun in the turret of the battleship Georgia caused the explosion of the charge of powder, resulting in the death of ten men and the severe injury of many others. A few years ago a similar accident occurred, and the result was the introduction of an air blast device, by which a stream of compressed air was sent into the gun at the breach, to blow all the gases and shreds of burning cloth out at the muzzle. In the case of the disaster on the Georgia it is the finding that this air blast was shut off too soon, and that the light breeze blowing at the time forced back on the charge of powder for the next shot some burning gases, or a piece of ignited cloth, causing the explosion. In other words, the blame is put on the gun crew, and it is officially charged that the accident was due to overhauling on the part of the men killed and injured. Assuming that the finding of the board is correct, and we are left no alternative assumption, it is shown that no safety device can eliminate the personal equation. There is still left much that depends upon the men engaged in a given operation. In this case it appears to have been the men who, in the last analysis, were at fault.

Commissioner Barnes, of the Wisconsin railroad commission, has resigned, basing his step on the passage by the legislature and approval by Governor Davidson of a two-cent railroad fare bill, following the commission had decided, following an exhaustive inquiry into the matter, that a two and a half cent fare was one equitable alike to the railroads and the public. Commissioner Barnes takes the position that the two-cent bill is a reflection on the commission, and anyway he doesn't care to waste his time in a body whose action is of no final account. The average man will sympathize with Mr. Barnes' view and will doubtless feel that under the circumstances he, too, would resign. The commission gave its best efforts to a consideration of its fare ruling; it weighed a mass of evidence and data. Indeed it went into the matter much more thoroughly than the legislature did. Possibly, indeed probably, its conclusions were fairer to all the parties concerned than was the conclusion of the legislature and Governor Davidson. Governor Hughes of New York vetoed a two-cent fare bill principally for the reason that the general utilities bill provided for a commission empowered to take up the question in a leisurely and judicial manner. It is not difficult to draw conclusions as to what Governor Hughes would have done in Wisconsin, where a similar commission had already passed on railroad passenger fare rates. But it is somewhat of a cry from Governor Hughes to Governor Davidson.

**A DEPLORABLE PICTURE.**

The testimony in the Haywood case at Boise is now all in and before many days the verdict of the jury will be announced. The testimony is conflicting and one who relies solely on it may have difficulty in forming definite conclusions as to the guilt or innocence of individuals.

In a broader sense it may be said that throughout the mining states of the west conditions exist which are both deplorable and disgraceful. The wars which have been waged between capital and labor have been exceedingly fierce and bloody, but it will not do to say that the responsibility rests on one side alone. Capital in those states is controlled by immense corporations dominated by a few men. Of late it has been aggressively opposed to organized labor, basing its opposition ostensibly on the violence and arbitrary demand of the unions. We have heard their side and it has produced a long list of violent crimes as evidence of the rightfulness and necessity of its course. But apparently there is another side. In a speech the other day Judge Ben Lindsey made a vigorous attack on the political conditions in Colorado. The state, he said, "is politically rotten and getting constantly worse. As a state it is absolutely in the hands of the criminally rich. Now I am no opponent of men who make their money honestly, but these men have stolen their millions

**Rheumatism**

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bonny growths back to flesh again. That is impossible. But I can now surely kill the pains and paings of this deplorable disease.

In Germany—a Chemist in the City of Darmstadt—I found the last infirmity with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual cause to suffer longer without help. We sell, and in confidence recommend

**Dr. Shoop's Rheumatic Remedy**  
 THE STAFFORD DRUG CO.

from the people and by crimes more far reaching than those of Moyer and Haywood, if charges against them be true, have outraged the very principles of government. Their crimes are driving the people of both parties of Colorado into socialism and anarchy.

Regarding the newly elected senator and the Republican boss Judge Lindsey says: "If Moyer and Haywood are guilty and deserve to hang, then Guggenheim and William G. Evans, the Republican boss, deserve hanging more than they do, for the crimes of Guggenheim and Evans are infinitely more far-reaching than are those of these men, if guilty, or Orchard. I know Guggenheim and Evans are vile, and every one in Colorado knows it, but what can be done to get such men even into the penitentiary when they own the legislature, both parties, many of the judiciary and the press of the state?"

This is in Colorado, while the Stejneger murder was committed in Idaho. The conditions, however, are largely the same in both states. The great smelting trust dominates there also, and the same influences control. This fact, illuminated by the statements of such men as Judge Lindsey and by the testimony in the Haywood trial, explain the bitter feeling and the violent manner in which Haywood and Moyer have been championed by labor.

**FOREIGN TRADE STATISTICS.**

In these days when the pessimist is being played up on the front pages of the newspapers, and when the words that fall from his tongue are being regarded so solemnly, it pays to brighten up when we can, and contemplation of some figures on our foreign trade, both incoming and outgoing, gives us an opportunity to do so. The completed figures for the past fiscal year give us another chapter in a marvelous story of trade growth. Exports and imports combined for the first time in our history passed the three billion mark, and showed an increase of \$344,000,000 over the figures for the fiscal year ending in 1906. If the rate of gain is continued for another year or two the United States will take the position of the greatest trading nation in the world, for which it is now pressing Great Britain closely, for our progress, measured by the results in the past few years, is much more rapid than that of Great Britain.

An analysis of the figures on increase in total imports and exports shows that both our ability to sell and our ability to buy are greater than ever before. There is an increase of exports of \$137,000,000, showing that production of manufactured products has increased and that our ability to find markets for our surplus is unimpaired. Our imports grew \$208,000,000, proving that our buying power is unimpaired. Our purchases abroad contribute to international prosperity, and incidentally increase the power of other countries to import our products. The export excess balance is \$446,000,000, and is a shrinkage from the average excess balance in previous years, but in the main the figures on our foreign business are reassuring. There may be some letting down from this high pressure prosperity, but the magnificent trade structure we have erected is not going to be ruined in a day, or a year, or two or three years.

**BEST MEDICINE IN THE WORLD FOR COLIC AND DIARRHOEA.**

I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skirum, Ala. "I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy, I would have. I haven't been troubled with it since until this week, when I had a very severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." For sale by The Stafford Drug Co.

**SEWING MACHINE BARGAINS**

Real ones, at Singer stores. Buy here and deal with the manufacturers. The Singer Company is permanent and responsible. Its representatives are always at hand to care for Singer, and Wheeler & Wilson machines. Look for the Red S. Singer Sewing Machine Co., Marquette, 108 N. Third St.; Ishpeming, 120 S. Main St.; Negaunee, Iron St.; Hancock, 503 Reservation St.; Calumet, 423 N. Fifth St.; Escanaba, 713 Ladington St.; Iron Mountain, 205 E. Hought St.; Sault Ste. Marie, 116 Ashmun St.

**BABYLONIAN LETTERS.**

Ancient Domesticities, Business and Strikes—Marks of Civilization.

All deductions made, however, these epistolary records of the age of the Jewish exile are well worth reading, says the London Saturday Review. They serve to enforce the lesson that human life is much the same at all times and in all places, provided it is led in a civilized community. Human wants and even the expression of them do not vary much.

The letters, like all others in the cuneiform script, were written on clay tablets, which were incised in a clay envelope bearing the address. There were already complaints that work was insufficiently paid. A brewer, for instance, writes to say that "after I have made twelve cases of old beer in four months in the cellar adjoining that of Rimut-Bau, one man of silver is too little." Another writes protests: "In the matter of the money which my father has sent me, I feel that he has been paid for the date is too little. Let my father specify send two manas of silver in addition, or I shall gain nothing on the transaction." The workmen were frequently paid in kind; sometimes, however, a lump sum of money was paid down, out of which the artisan was expected to find his own food. One letter casts a rather lurid light on the relations between the employers and employed. The writer states that a workman had gone blind, and that consequently his pay must be stopped and his place taken by some one else. Between the state of society reflected in this letter and the workmen's compensation bill the distance is considerable. In another letter we are told that a strike is threatening, and for the very efficient, but very original reason that the workmen had not received their pay. "All the stone-masons," it is said, "have been uttering discontent, saying, 'He oppresses us, none gives us our pay, for the months Sivan or Tammuz.' Let my lord command that they be paid for they are growing very threatening."

**WELL DESERVED.**

The Praise That Comes from Thankful Marquette People.

One kidney remedy never fails. Marquette people rely upon it. That remedy is Doan's Kidney Pills. Marquette testimony proves it always reliable.

James Rivers, teamster, of 159 West Washington street, Marquette, Mich., says: "I have used Doan's Kidney Pills and know from experience that they cure backache. I hurt my back a few years ago. I limped around for several days but seemed to get all right again so I did not stop to think of the matter. About six months after I noticed every once in a while I would have a catch in my back if I would change my position quickly. If standing or sitting still for a while, and moving suddenly this catch would be the result. This generally affected the small of my back. I paid no attention to it at first but the attacks became more frequent and lasted longer than before and would always leave a dull pain which became a source of annoyance. It finally became so bad that I could not stand or lean forward to pick anything. I put on a kidney plaster and it gave me temporary relief but the weakness soon returned. I read a great deal about Doan's Kidney Pills and the cures they effected, so when my back was real bad I sent to Stafford Drug Store for a box and began to use them. They went straight to the seat of the trouble and gave me relief in a very short time. I used only two boxes and was cured. I can lift as much today as I ever could and have had no backache since I took Doan's Kidney Pills." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

**NOTICE.**

Bids are wanted by the Board of Education of the Township of Republic, Marquette county, Michigan, for an issue of Three Thousand Dollars (\$3,000) of bonds payable with interest at five (5) per cent per annum, interest annually, the bonds being payable as follows: March 1st \$2,000 each year from 1908 to 1922 inclusive.

The proceeds of these bonds are to be used in the construction and equipping of a new high school building.

These bonds have been duly authorized by the proper proceedings taken by the Board of Education of the Township of Republic, and by the qualified voters of the Township of Republic voting at an annual election held on the 8th of July, 1907, in pursuance of the required notice posted.

The bonds will be issued in denominations of not less than five hundred dollars, and as may be desired by successful bidder.

These bonds will be dated as of the 1st of October, 1907, and will be awarded to the highest responsible bidder. Principal and interest payable at First National Bank, Chicago, Ill.

The Board of Education of the Township of Republic reserves the right to reject any and all bids.

All bids should be forwarded to the undersigned, and should be received on or before the 1st day of August, 1907.

PETER W. PASCOE, Moderator.

Dated: Republic, Mich., July 10th, 1907. (7-12-17d)

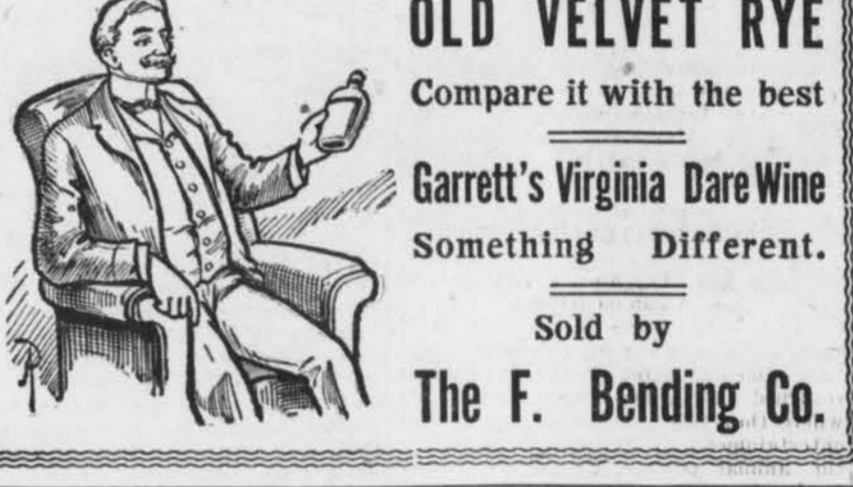

Hotel Williams, Grand Island, Munising, Michigan, has increased its capacity by adding three two-room cottages with fire stoves. A large number of Ohio, Pennsylvania, Indiana and Illinois people have already booked reservations. (7-8-21d)

**THE SOURCE OF BUTTER**

From Cream. And cream is formed on standing milk by the massing-together of tiny fat sacs. The greater portion of butter sold to-day is made from cream which has been exposed to dust, bad odors and germs—cream obtained from any kind of cows. For this reason you should always ask for butter that is guaranteed clean and healthful. Such butter is

# Copper Country

## COPPER COUNTRY LODGES.

Various Events Among the Fraternal Organizations.

The supreme lodge of the Sons of St. George will meet at Calumet in October. This is the central body of the order in the United States and Canada, and delegates from all subordinate lodges will attend. It will mean another large gathering for Calumet, which is fast becoming widely known as a convention city.

Grand Master Fred A. Rogers, of the Michigan grand lodge of Odd Fellows, and Grand Herald McNeil were the guests at the Houghton lodge of Odd Fellows Friday night. A large number of Odd Fellows attended the meeting, and the grand lodge officers were later the guests of the lodge at a banquet given in the Board of Trade cafe. At this banquet the Odd Fellows decided that Houghton will make a bid for the next session of the grand lodge. The meeting this year is to be held at Jackson, and the Houghton lodge will send a large delegation to that city.

The Houghton Odd Fellows gave this matter first consideration at the time of the grand encampment meeting in Calumet last spring. Past Grand W. H. McMan then declared that Houghton would have the next grand lodge meeting, and the result is the present determination of the Houghton lodge. The grand encampment, held at Calumet, is the grand lodge of the uniformed rank of the order, the meeting desired by Houghton being the annual convention of the subordinate lodges.

The annual convention of the National Finnish Temperance Brotherhood of America will hold forth at Calumet this week, beginning tomorrow. It will be held under the auspices of the Uusi Varti society. The sessions will take place in the Red Jacket Finnish Temperance hall. There will be 150 delegates, but the number of other visitors will bring the number of people from outside the copper country up to 500. Delegates will be present from Washington, Ohio, Minnesota, Wisconsin and New York, as well as the copper and iron countries of Michigan. A feature will be the presence of the celebrated Finnish Temperance band of Astabula, O., which will arrive Wednesday. It will give a concert in the Red Jacket town hall Friday night.

The big day of the convention will be Saturday. A parade of all the Finnish societies of the county will be held, and following this a number of addresses will be delivered.

## GEOLOGICAL FIELD TRIP.

A party of eighteen students from the Michigan College of Mines, in charge of Professor A. E. Seaman, head of the mining engineering department, left yesterday for Marquette on the annual geological field trip. They will work for some weeks at various points in the iron country.

## HANCOCK PAVING STRIKE.

Contractors Byers & Co's Men Go Out for Higher Wages.

The laborers employed by Byers & Co., contractors on the excavation for the Quincy street pavement in Hancock, struck Saturday morning for a raise of twenty-five cents per day. They had been getting \$2.

The firm will try to secure enough labor at Baraga to go on with the work. It is said that the burning of the vessel at Baraga threw a lot of men out of employment, and as Mr. Byers is a Baraga man he will have no difficulty in getting labor to help him out. It is expected that the work will be resumed this morning. The strikers number thirty men.

It was reported from Byers & Co's office yesterday that twenty-five men will arrive from Duluth this morning. They will receive \$2 per day. Eight of the old men, expert graders, who have been receiving \$2.25, will return to work at that figure.

The deckhands and watchmen of the steamer Zillah, unloading coal at the Houghton County Electric Light company's dock in Houghton, went on a strike Saturday morning. They were expected to assist the longshoremen in unloading the cargo and would have been paid extra for the work, but they refused. The steamer finished unloading Saturday night, and left for Duluth shortly thereafter.

## FIREMEN'S TOURNAMENT.

Hancock and Houghton Chiefs Assured of Accommodations.

Chiefs Vetsch and Mitchell of the Hancock and Hancock fire departments returned Saturday from Ontonagon, where they had gone to arrange for the entertainment of their departments at the annual tournament of the Upper Peninsula Firemen's association next month. Ontonagon is a small town and the Portage Lake chiefs went there to housing, they would have difficulty in securing accommodations. They found this to be incorrect. There are two hotels, a large number of private residences and several stores which will be fitted with cots.

W. R. Adams of Ontonagon, president of the association of Ontario county, was seen by The Mining Journal on Saturday. He says that the tournament will be the best ever held, that no expense will be spared by the citizens to give all who come the right kind of a good time. The only extra attraction, other than the tournament races, will be a big race meet in the driving park. This park has long been in disuse, but is now being repaired for this special purpose. It is expected that horses from all over the upper peninsula will be entered.

## CONSTITUTIONAL CONVENTION.

Probable Copper Country Delegates—The County Convention.

The Republican committee of Houghton county met Saturday to arrange for a county convention to name delegates to the constitutional convention called to meet in the Laurium town hall Aug. 13. The county committee called the county convention for the same time and place.

This senatorial district, represented by Hon. Charles Smith of Hubbell, will have three delegates to the convention, which meets in Lansing on the fourth Tuesday in October for the purpose of framing a new state constitution. Were it not for the fact that the supreme court has ruled that no members of the legislature nor circuit court judges may sit in the convention, Senator Smith and W. J. Gallagher would undoubtedly be sent from Houghton county.

This suggestion gives Houghton county two of the three delegates from the district comprising five counties, Houghton, Keweenaw, Ontonagon, Baraga and Gogebic, but in the convention Houghton county has more than a majority of the delegates. This also does not consider any other party, as it is a foregone conclusion that in the election of Sept. 17 Republicans will be chosen.

It appears now that W. D. Caverley of Houghton and Gordon Campbell of Calumet, at least, they are the only ones who are suggested. Mr. Caverley is a Houghton man of means and large interests, and his only public office is a membership on the Marquette prison board of control. Mr. Campbell is secretary of the Calumet & Arizona Mining company and holds no public office.

The Mining Journal, intending of course to cast no reflection on these probable delegates, asked a member of the Republican county committee why it would not be better to select delegates who might be considered to know something of constitutional law. The answer was that no matter who the delegates they will have lawyers enough to advise them. The business of the lawyers will come in later, as this constitutional convention will be the basis of state laws and businessmen may be trusted to frame a constitution which will protect the interests of the people and their property, leaving the business interpretation and application to the lawyers after the document is adopted. In this view it is doubtful if two businessmen could be found who would be more representative of the copper country than Mr. Campbell and Mr. Caverley.

## NEW BANK FOR CALUMET?

It is rumored at Calumet that the Croatian and Slavonian businessmen of the metropolis are planning the establishment of a Croatian-Slavonian bank. The rumor says a site for the building has already been selected. The two nationalities named are strongly represented in Calumet, and the bank would doubtless be a paying venture.

THE CAPE MOUNTAIN TIN MINING COMPANY, ALASKA.  
Suite 1415, 170 Broadway, New York.  
Some 6 or 7 cent preferred stock with bonus of common stock, in this valuable mining property for sale. (7-12-07)

POLARIS MINERAL WATER delivered to any part of the city in sterilized one-gallon bottles. Telephone, Bell, No. 212. Polaris Water Co., Marquette.

## STATE TAX COMMISSION.

Michigan's Assessing Board Arrives Here Tomorrow.

The two members of the Michigan state tax commission who reside in lower Michigan will arrive at Houghton tomorrow, accompanied by the secretary of the board and President Robert H. Shields in an official inspection of the railroads as well as a general survey of of the taxable property in the county. The board will have its headquarters at the Hotel Scott, Hancock, where rooms have been reserved.

The board will inspect the Mineral Range, Copper Range, Central, Hecla & Torch Lake, Quincy & Torch Lake, and other smaller roads with a view to arriving at a basis for their valuation for the next assessment. The board will remain in Houghton county for the ensuing three days and later will visit the railroads in the iron country and other portions of the upper peninsula. The commission will hold a business meeting at Lansing Aug. 8.

## RED JACKET ILLUMINATION.

Oak Street to Have Incandescents Like Those in Other Towns.

The merchants on Oak street, a Red Jacket thoroughfare that is one of the most important in the county, have practically decided to provide extra illumination by means of incandescents of electric lights such as are in use in other copper country towns. A petition for this kind of service has been generally signed, and it is possible the lights will be in commission within a week or two.

This form of street lighting is peculiar to the copper country. Hancock introduced it in 1903, at the time of the firm's tournament. The merchants and council decided to retain the illumination as a permanent fixture, and the next year Houghton adopted the scheme. Laurium later took it up. Now these three towns look as though they were having continuous festivals. Of course the residents take the illumination as a matter of course, but strangers ask their first questions about it every time. Oak street, in Red Jacket, is the entrance for travelers and the illumination of that thoroughfare in this manner would be particularly appropriate.

## ZIEHR DOWNS COVEAU.

W. Frank James of Hancock returned yesterday morning from Ishpeming, where he attended the Sons of St. George reunion and the Cornish wrestling tournament there. In the wrestling match, James Ziehr of Calumet and Charles Coveau of Ishpeming came together, and Ziehr threw the Henanite City man easily. Coveau had been trying for nearly two years to get a match with Ziehr, but every time Ziehr showed a willingness to wrestle with Coveau or somebody else would back down.

The wrestling tournament was not concluded Saturday evening and will be resumed this morning. Though Ziehr threw Coveau, the latter has entered again, and will be permitted another trial by the judges. He and Ziehr will undoubtedly come together again, as they both have thrown every man they have met, except Coveau's loss to Ziehr.

During the tournament, Charles L. Sporey of Negaunee, who is secretary and longed Ziehr on behalf of Jack Carkeek, Sporey said he had heard Ziehr quoted as saying that Carkeek was in Fitzsimons' class, and he was willing to put up a pair of \$1,000 that Ziehr was mistaken. Ziehr accepted the challenge to wrestle for any part of \$500, the match to take place within six weeks, either at Ishpeming or Calumet.

## BOARD OF TRADE EXPANDS.

Robert Doyle, proprietor of the Board of Trade saloon and palm garden in Houghton, opened his new billiard parlor Saturday night. It is located on the second floor of the new cafe building. It is handsomely furnished and has five tables. The former billiard parlor is now a palm garden, devoted exclusively to music and refreshment tables. With the addition of the new cafe building the Board of Trade is the most extensive resort of the kind in upper Michigan, and there are few towns in the country which can boast of a similar establishment. The new cafe building is the old Sackrider days the Board of Trade was the businessmen's rendezvous of the copper country, and under the Doyle management it bids fair to resume that prestige. T. C. Bergeron operates the cafe, and this department is in keeping with the rest. The grand organ is retained in the music room, and Professor Fred Smith Leonard will continue to give daily recitals. A Calumet & Hecla orchestra played a concert program for the opening night, and will be heard frequently in the future.

## LAKE LINDEN WILL CONSIDER.

The Lake Linden village council has decided to hold under consideration for another month the request of Messrs. Galbraith and O'Brien of Calumet, asking a gas service franchise presumably in the interest of the Calumet Gas company. The South Range Gas company has asked the council to give it a chance to petition for a franchise, and the council by its decision to wait a month seems to have acceded.

## GAME WARDEN IS COMING.

Charles S. Pierce, state game, fish and game warden, has advised copper country friends that he will be here Aug. 1. Mr. Pierce is making a tour of the state, investigating game conditions. Expectant establishment on such a large scale as this is his decision to wait a month seems to have acceded.

## TAKE THE POSTMASTER'S WORD FOR IT.

Mr. F. M. Hamilton, postmaster at Cherryvale, Ind., keeps also a stock of general merchandise and patent medicines. He carries Chamberlain's Colic, Cholera and Diarrhoea Remedy as a standard here in his line. It never fails to give satisfaction and we could hardly afford to be without it. For sale by The Stafford Drug Co.

"What shall we have for breakfast?" "Why Cadbury's Cocoa, Ham and Eggs of course; they are always acceptable, especially at this season of the year." (11-27-e-o-d)

TUXEDO CLUB CIGARS

## HOUGHTON DROPS BACK.

The Houghton ball team dropped back to third place as a result of Saturday's games in the north. The team lost two to Winnipeg, a double-header having been played. In addition to this Duluth won from Calumet. Houghton has been playing phenomenal ball on this trip. The team is still crippled, and the losses on Saturday were not much more than could have been expected.

## CENTRAL MINE REUNION.

The reunion of old residents of Central mine took place yesterday. A large number of former residents of the original plant but who have since picked up elsewhere. A musical and literary program was given in the old M. E. church.

## IMPROVE HIS HOTEL.

Bert Cummings, proprietor of the Northwestern Hotel at Hancock, is making extensive improvements in his house, mostly in the way of decorations. The Northwestern was for years the leading hostelry in Hancock, yet the appearance of the Hotel Scott has not hurt its business, and it is more prosperous than ever.

## COPPERDOM BRIEVITIES.

Mr. and Mrs. John T. McNameara of Houghton have gone to the Soo for the summer. Mr. McNameara is secretary and manager of the Copper Country fair, which will do some missionary work for that institution while in the Lock City.

Robert Maurer, for the past year book-keeper for Horace J. Stevens, publisher of the Copper Handbook, will leave Houghton this week for Arizona. The handbook is book-keeper for the Detroit Copper company. He will be succeeded in Houghton by his brother Charles Maurer of Medford, Wis.

Angus McDonald of Houghton, formerly lieutenant of the Calumet company in the Spanish-American war, has received from the state adjutant general of the United States a check for \$1,000 as a gratuity relative to the location of a camp of the organization in the copper country. This organization is a union of all former societies of Spanish war veterans. The Houghton and Calumet companies originally formed camps of the Spanish-American war veterans, but these died a natural death through lack of interest. It is believed the new organization will have no trouble in forming camps in Calumet and Houghton, and Mr. McDonald will shortly call a meeting for the purpose.

## MORE CONSOLIDATION TALK.

Lake Merger by Cole-Ryan Interests Is Rumored Again.

From certain rumors that are put in circulation from time to time and from signs that can easily be read it would appear that the interests who were the prime movers in the attempt to consolidate certain Lake copper companies last spring are still anxious to put through the deal. The price of the metal on the decline there seems to be nothing in sight to check an attempt to pick up a goodly supply of stock at bargain prices. A Lake man says:

"Quincy seems to be considered the pivot on which the deal will swing. With this will be the case of the Hancock, containing as fine an acreage of proven ground as could be picked up. Possibly the Arcadian may also be taken in. From this point a jump is taken to Keweenaw county where the Gijway and Keweenaw properties will be included, and also some lands in the mineral zone now being explored by Messrs. Cole and Ryan. To make this consolidation even greater it has been suggested that it is not at all improbable that the promoters of the deal will include in their plans, if not otherwise necessary, one or two other mining properties. In the event of a consolidation of some of the Lake Superior properties there is assurance that whatever may be the basis of the deal, it will be attractive to all buyers of stock at present prices. Hancock, Keweenaw, and Gijway will all be cared for in such a manner that the shareholders will be more than willing to be included in whatever deal is put through. These three properties for their part, if not otherwise necessary, will be well worth picking up with the

Often The Kidneys Are Weakened by Over-Work. Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs. The kidneys filter and purify the blood, and if they are weak, the blood is impure, and the body is affected. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or 'feel badly,' begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold in its original bottles by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle of Swamp-Root by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

THE AMERICAN METAL MARKET says: "The drive against the market and the producers continues, and every effort is being made to break prices. This the 'bears' in copper stocks in Wall street are particularly interested in, and many in the trade tell us they received lithographed copies of newspaper clippings endorsing the price movement from the New York Metal Exchange, which seems to be the principal weapon being used to demoralize the market and break down producers' prices."

It is interesting to note these communications are being mailed from the Wall street station of the New York Central, as the envelopes show. There seems to be no business doing and buyers are holding off, waiting to see if the producers will not have to reduce their prices. The price will be maintained for some time, we think, unless the business situation in copper is worse than it is generally believed to be, and if it is, then it won't be copper alone. There will be plenty of copper, including iron and steel.

"As our production of copper is less than last year, our consumption must be falling off over 25 per cent to make a further decline in price, and if there is such a falling off in consumption, the electrical, industrial and railroad interests that consume this metal and whose expansion has largely been the cause of our late prosperity, must be in a poorer state than we think. We can trace no actual copper sale under our quotations, except for future deliveries of casting there are some lower offers. There are no buyers and things are almost at a standstill again."

The Boston Financial News Bureau says: "It is almost inconceivable that the men who control the bulk of the copper output of the country would show so little business sagacity as is alleged in fixing the price of copper. They have been too busy for knowing the stocks of the metal in the hands of producers, the approximate supply held by consumers, and the necessities of the latter. More over the relations between the representatives of the big producers and the big consumers in the copper country are close, and the selling agencies certainly had opportunity to ascertain the views of the big consumers. It is a mistake to suppose that all the latter are working for lower prices. The movement in that direction comes chiefly from the small consumers. The large consumers recognize that lower prices for copper necessitate readjustment of all their prices for finished product, and that unsettlement in the metal market means unsettlement in their business. Therefore they are willing to pay fair prices for copper, based on general conditions."

If the producers have not made such prices they have shown extremely poor judgment. To announce another reduction in the price would be to acknowledge that the price first named was higher than was justified. Nothing could be more calculated to curtail orders than another reduction. It would drive away all buyers except for immediate and imperative needs. It would confirm consumers in the belief that they could dictate the price of the metal and accordingly an immense amount of copper in the process, that was dumped on the market with disastrous effect. The first mistake might be excusable; its repetition would not be excusable.

It is worthy of note that at the previous time referred to the Calumet & Hecla was selling copper below the price fixed by these other interests, whereas now Calumet & Hecla announced its price first, and the price is relatively higher than the price for electrolytic copper. Moreover, it is said that Calumet & Hecla has made sales at its quoted price. This is evidence that the new level is not unduly high, and it is quite probable that within a short time, possibly after sufficient copper stocks have been accumulated, sales of the metal will be announced.

OHIO COPPER COMPANY.  
The Ohio Copper company has been incorporated under Michigan laws with \$10,000,000 capital, 1,000,000 shares, par \$10. F. A. Heinze will be president of the concern.

The assets of the Ohio Copper company are to be taken over. The Ohio is now producing copper on a small scale and is earning enough on the 200 or 300 tons of ore shipped daily to pay development expenses. Work on the Dalton & Lark tunnel is expected to be completed about Nov. 1 when it will be connected with the Ohio shaft which has attained a depth of 1,400 feet. The first output of the Ohio concentrator should be ready for operation about Nov. 1 to treat 200 tons ore daily. It is planned to increase the capacity of this plant by units of 2,000 tons each and the second unit will be constructed during the year 1908. A recovery of approximately twenty-five pounds of copper per ton is looked for by the Ohio management, and on its first unit alone the company should produce from 16,000,000 pounds to 20,000,000 pounds a year. Each additional unit will be equivalent to approximately this much more copper. There is said to be blocked out at the present time about 24,000,000 tons of porphyry ore in the Ohio. There is already developed a body of ore 1,000 feet long, 400 feet wide and 600 feet deep. A minimum of cost is figured by

seems to be no business doing and buyers are holding off, waiting to see if the producers will not have to reduce their prices. The price will be maintained for some time, we think, unless the business situation in copper is worse than it is generally believed to be, and if it is, then it won't be copper alone. There will be plenty of copper, including iron and steel.

# COBALT GOSSIP

It is estimated that the last shipment of ore from the Foster mine will bring the company the sum of \$30,000.  
W. T. Hedges, a wealthy Lanesmith man, is examining the mining districts of Teniskaming and Cobalt. Mr. Hedges, who is a well-known English inventor and who has a thorough knowledge of mining property, will make a searching investigation for himself and will then return to Britain and report on any proposition which he finds is deserving of support.

The Cobalt Right-of-Way Mining company has declared a dividend of 7 per cent, which is the second at the same rate within three months. This dividend is on two carloads of ore, which realized \$9,540 and \$51,300 and gave a gross profit of \$0,240, after paying all expenses. All mining so far has been by hand, but a compressor is now in and the company expects to get out two carloads a week and to give a dividend of 10 per cent per month.

It is reported that a really good and constant market for the sale of cobalt is being created in Germany. At the Trebleway large quantities of ore are being mined, high in cobalt but low in silver, and it is probable that an effort will be made to unload this ore on the German market. The Mining Journal has already arranged for the sale of its cobalt ore in Germany.

Up to the time of the strike Silver Leaf was running to its fullest capacity, the newly discovered vein being worked with very promising results by a large force of men. From the open cut ore was being sacked every day. Notwithstanding the fact that nearly all the important discoveries made this season are very recent, the company has on hand upward of forty thousand pounds of No. 1 ore.

The property owned by the Alexandra company is what was formerly known as the Anderson lot in the Database Mountain, close to the Cobalt Central. The main shaft is now sunk to a depth of fifty-five feet. A lot of surface work has been done, and the prospects for this becoming a first class shipping property in time are encouraging. Ten men are now employed on the property, and this force will be increased as soon as the new plant is in operation. The plant as complete will consist of a fifty horsepower boiler, a two-drill compressor, hoist, etc.

The thirty-four mining companies operating in the Cobalt district have broken off negotiations with the strikers and the demands of the Cobalt Central. The force will be increased as soon as the new plant is in operation. The plant as complete will consist of a fifty horsepower boiler, a two-drill compressor, hoist, etc.

Hotel Williams, Grand Island, Munising, Michigan, has opened this season with a good patronage. Three two-room cottages with fire places have been added to the equipment, enabling the hotel to handle the increased patronage. (7-8-21)

# S.S.S. CURES SKIN DISEASES

No skin disease can exist without an underlying cause, and in most instances that cause is either a humor in the blood or an excess of ferrous acids in this vital fluid. These humors and acids get into the blood, generally because of an inactive and sluggish condition of those members whose duty it is to collect and carry off the waste and refuse of the body. This unhealthy matter is left in the system to fester and ferment, and soon the circulation becomes charged with the acid poison. The blood, in its effort to rid itself of this foreign matter, begins to throw off the humors and acids through the pores and glands of the skin. These coming in contact with the delicate tissues and fibers with which the skin is so abundantly supplied produces irritation and inflammation on the surface, and Eczema, Acne, Tetter, Psoriasis, Salt Rheum, or some other troublesome and disfiguring skin disease is the result. External applications, while they soothe the affections, because they do not reach the blood where the real trouble is located. A thorough cleansing of the blood is the only permanent cure for skin diseases. S. S. S., the greatest of all blood purifiers, is the best treatment. It cures by neutralizing the acids and removing the humors from the circulation so that the skin, instead of being irritated, and diseased by the exuding acid matter, is nourished and soothed by a cooling, healthy stream of blood. S. S. S. goes down to the very bottom of the trouble, removes the foreign matter and thereby permanently cures every form of skin trouble. Do not expect to cure a blood disease with local applications alone, but begin the use of S. S. S., and when you have removed the cause the skin will be free from disease. Special Book on Skin Diseases, and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

City Brevities

Today's weather: Showers; north-west winds. Yesterday's temperature: Seven a. m., 70 degrees; noon, 68; 7 p. m., 70. Maximum, 70 degrees; minimum, 60.

William F. McKnight of Birch was in town yesterday.

H. L. Kellan, of Chicago, is up for a few days' visit in the city.

Miss M. Lundall of Ishpeming is visiting friends in Marquette.

Mr. and Mrs. C. E. Bowen of Houghton spent Sunday with friends here.

Miss Dell Richardson, deputy county clerk, visited in Marquette yesterday.

Mrs. Russell, of Munising, was the guest of Marquette friends yesterday.

Ed. J. McCarthy came up from Escanaba yesterday morning, and will be here for a few days.

James Russell left for Marinette and Milwaukee Saturday night, on a few days' business trip.

Mr. and Mrs. Ludwig Peterson and their daughter are visiting at the home of J. M. Larstrom.

Miss Sadie Morris left Saturday evening for Republic where she will visit friends for a week or two.

Visitors from Escanaba who were in the city Sunday were G. W. Johnson, H. J. Black and Gus Johnson.

E. J. LaChance, judge of the probate court of Mackinac county, with his wife and two children, is in the city.

J. M. Courtney, of Merrill, Ark., is in the city for a two or three weeks' visit with his brother, J. S. Courtney.

Mr. and Mrs. Peter W. Pascoe and Mr. and Mrs. Bert Anderson of Republic were among Sunday's visitors in the city.

Miss Frye and her sister, Mrs. L. J. Genett, and children have returned from Grand Island, where they enjoyed an outing of a week or more.

Mrs. S. W. Shaul has returned from a visit to Detroit. She was accompanied by her mother, Mrs. R. J. Taylor, who will be her guest for some time.

The Hancock drum corps visited the prison Saturday afternoon, entertaining the convicts with its playing and marching. A ball game between a convicts' and city team resulted in a victory for the latter.

William H. Gallagher, Jr., John Chambers and J. E. Schon of Ishpeming were in Marquette yesterday. James P. Edwards of Houghton was also here, as were J. McGrover, T. H. Barron and Charles Barron of Iron Mountain.

A new approach has been completed to the Hodgkins livery. Each side of the driveway is of concrete blocks, making a neat appearing and permanent structure. The barn has been painted and other improvements made.

Rev. Bates Burt was in Ishpeming yesterday. He conducted the services at the obsequies of the late Miss Evelyn Feagry, a popular young lady whose death occurred late last week as a result of blood poisoning, following a trivial injury to a finger.

Rev. James Pascoe, presiding elder of this district, presided at the quarterly meeting at the Methodist church Saturday. Yesterday he delivered the sermon in the morning, and last night Harvey H. Hatch spoke upon "The Fundamental Law From the Position of a Layman."

W. C. Brandon and Morgan Hammer, both employes of the light and power commission, arrived home yesterday from a trip up the lake with twenty-one fine trout, averaging two pounds. This is the finest catch of fish brought to Marquette this year.

The St. Jean de Baptiste society furnished a big escort at the funeral of Joseph Price Saturday morning. It was held from St. John's church, and the members of the society marched to the cemetery. The funeral of John McNamara was held from St. Peter's cathedral at the same hour. Albert Jackson post, G. A. R., of which the deceased was a member, was well represented, and the pall bearers were taken from among the veterans.

Gauthier Funeral—The funeral of the late Antoinette Gauthier, 206 Rock street, will be held this morning from St. John's Catholic church. The burial will be in Holy Cross cemetery.

Car Victim Recovering—Fred Lind, whose left leg was broken and whose left hand was crushed when he was caught between two ore cars several days ago, is convalescent. He is at St. Mary's hospital.

Will Meet Tonight—The newly organized Queen City Commercial club will hold a meeting in the city hall tonight when a report of the number of members that have been secured will be made. It is believed that the membership will now total nearly two hundred.

Many at Celebration—Marquette sent a heavy delegation to the celebration of the Sons of St. George at Ishpeming Saturday. A considerable number remained up the road over night, returning home yesterday morning. Some of the Sons' decorations were brought down as souvenirs, and at least two banners were in evidence on Front street yesterday.

Big Ship in Port—Among the boats in the harbor, awaiting cargoes of ore, is the giant steamer Gary, one of the largest on the lakes. This big ship of the steel corporation's fleet will load at the new dock of the Duluth, South Shore & Atlantic, and it is likely that she will clear with the biggest cargo ever taken on at Marquette. It would not be surprising were it to closely approximate 11,000 tons.

Fine Line of Rugs—The display of Oriental Rugs at L. Grabower's store by (located) B. Bamahoon of Detroit has been attracting much attention from Marquette people the past few days. It is doubtless the finest display that has ever been shown in the upper peninsula, and is said to have a value of over \$20,000. All classes and kinds of rugs are represented, but the quality of all is excellent, and many of them are rarely beautiful.

Decision Against Plaintiffs—In the suit of J. L. Newberry and Lou J. Levesque of Marquette against the Chicago Lumber company for trespass on lands in Schoolcraft and Alger county Judge Steere has rendered judgment in favor of the Chicago Lumber company, with costs of suit. In July, 1906, a judgment was rendered in favor of the

plaintiffs. Not being satisfied with the judgment a new trial was asked for.

Morgan Stock Company—The Morgan Stock company opens a week's engagement at the opera house this evening in "In Dixie Land," a well constructed comedy drama. Miss Hila Morgan is the leading player, and her work is commended by the press in the cities where the company has appeared. It has just closed a successful engagement in Ishpeming. The prices for the engagement will be ten, twenty and thirty cents. Specialties are given between the acts.

School Room Romance—Two years ago when she was teaching school at Cherry Creek, Miss Adeline Noel made the acquaintance of Oliver H. Clish of Harvey. The result of that acquaintance is that tomorrow the young couple will be married at St. Peter's cathedral by Rev. Father Moriarty. At the ceremony, which will take place at 7:30 o'clock, James Clish will serve as groomsmen, and Miss Christine Clish will attend the bride. They are brother and sister of the groom. The couple will make their home at Harvey.

Ready to Install Parts—Superintendent Retalle, of the light and power commission, has completed arrangements for installing the new parts for the water wheel, which the Dayton Globe Iron works is now expected to deliver within ten days or two weeks. A temporary power plant has been put in at the former plant of the Valley Milling company, to furnish light for the night shift of men and also for the electrical machinery that will be used in doing the work on the wheel. It is expected that the repairs will be made and the plant placed in operation again in about two days.

NOW WANTS PAY. East African Detective, Who Caught Loys Darrell.

Washington, July 21.—Senator Gustave A. Pereira kept a man in solitary imprisonment without the shadow of authority and now he calmly comes along and wants \$500 or \$1,000 for his services.

This peculiar claim has come before the state department, and has been referred to the war department, and has been sent down to Governor Magoon.

Pereira's feat was one which, as is suggested in the correspondence, put him in personal and professional danger. Had his captive, Loys Darrell, been able to get into communication with the outside world Pereira would have fallen upon troublous days, for he had not a scrap of paper giving him authority. But he saw to it that Darrell did not get into touch with the outside world. He had him up in an abandoned hulk in the harbor of Beira, Portuguese, East Africa, and there he kept him six or seven months.

The arrest was made originally upon the telegraphic request of General Leonard Wood, then military governor of Cuba. Darrell was charged with murder and Pereira, chief of detectives at Beira, caught him on the Milwaukee. He wanted the Americans to take him off his hands, but the consular authorities had no authority and could get none from Washington. But Pereira was no man to let a prisoner go after he had once put his hands on him. He just eloped Mr. Darrell into the old hulk and waited for the Americans to come to their senses. It took more than half a year for that time to arrive, but finally an American detective did arrive and he took Darrell to Cuba.

Pereira has written a very pleasant letter to the American consul at Lourenco Marques, East Africa, telling about his exploit and suggesting that he has not been paid. The consul thinks he has a good claim and that the provision of government of Cuba ought to settle this claim, which the first republic failed to settle. He says that he boarded Darrell, but he doesn't say that he gave him chicken and champagne.

CARD OF THANKS.

I desire to tender my sincere and heartfelt thanks to my friends who so kindly assisted me before and after the death of my husband. I wish especially to thank the Catholic Order of Foresters, the St. Jean de Baptiste society and those who sent the many beautiful floral offerings. MRS. J. E. PRICE and Family.

FOR SALE.

A beautiful summer home situated on the shore of Lake Superior near Middle Island Point. This camp is furnished throughout, ready for house keeping. Beside the regular furniture there is a piano, refrigerator, an improved oil stove, large fire place in main room; size of building 90 by 40.

It also has a boat and boat house, also a good barn. Now here is a chance for some one that has a little money to spend to get some real comfort. I am going to put this on the market for ten days. I have had so many applications for renting my cottage, which is something I have never done nor do not intend to. From all the applicants I have had, it seems to me there must be some one in this group that could afford a good comfortable place on the beach. Now this is an opportunity for some one that wants to loosen up a few dollars. M. H. FOARD, Real Estate and Fire Insurance, Savings Bank Building, (7-17-104)

Hotel Williams, Grand Island, Munising, Michigan, has opened its third year with a large number of reservations for the whole season. Local and out-of-town people are arranging to spend the summer on the island, which indicates the popularity of this resort. 7-8-212

UMBRELLAS.

We have a full line of umbrellas at marked-down prices. You may need an umbrella very soon. Now is the time to get one at half regular price at Seidenfeld's store. J. J. CARROLL & CO. (6-19-14)

STOP THE LEAKS.

"How to Make Money Without Risking a Dollar."

There are a great many men and women who would like to make money by speculation but who are afraid to risk it as they do not understand it. Money is made by speculation. You may make a living in your business, but no one can accumulate without speculating. You send me \$20 and I will guarantee to pay back your \$20 any time you ask for it, you agreeing to leave the profits I make for you as a nest egg and trade with it after I double your money. In the meantime I will send you the Chicago Post free. That has all the markets and news so you can see how I make money from \$20 for you. I will also mail you a statement of each transaction. I have many traders who make hundreds and thousands in wheat from \$20. Remember, I am getting you started without you risking a dollar. You will ask why does Spear to this. I am doing it as an advertisement, and to increase my business. You will never have another such chance, so send along your \$20 and take it back any time you wish. I have fifty thousand dollars invested in good copper stocks where it will double in a year, and if you have money to invest where you cannot lose, but double it shortly, ask my advice. Do not invest your money in such as gold, silver, lead or wild cat copper stocks, as they are for greenhorns only, and you will never see your money back. Buy nothing unless listed on Boston Exchange or Chicago Board of Trade and you will get rich.

J. W. SPEAR, INVESTMENT BROKER

Established 1893 Marquette, Mich. 7-18-51

# Opportunity

BY SENATOR INGALLS.

Master of human destinies am I!  
 Fame, love and fortune on my footsteps wait,  
 Cities and fields I walk; I penetrate  
 Deserts and seas remote, and passing by  
 Hovel and mart and palace, soon or late  
 I knock unbidden, once, at every gate—  
 If feasting, rise; if sleeping, wake before  
 I turn away. It is the hour of fate,  
 And they who follow me reach every state  
 Mortals desire, and conquer every foe  
 Save death. But those who doubt or hesitate,  
 Condemned to failure, penury and woe,  
 Seek me in vain and ceaselessly implore;  
 I answer not, and I return, no more.

(A framed copy of this hangs in President Roosevelt's working office.)

### MARKETS

NEW YORK STOCKS.

Paine, Webber & Co. telegraphed from New York Saturday as follows: "There is a decided change in the better in speculative sentiment and today's favorable market statement has gone far toward indicating an improved monetary situation, which for a long time has been considered the barrier to higher prices in the stock market. It is generally admitted that the public interest is still small and that the advance in the market is due mostly to manipulation. However, the old theory of higher prices attracting public interest will undoubtedly hold good if the market is sustained without serious breaks, as the latter tend to undermine confidence. Although there is a slight recession in trade conditions, it is not considered sufficient to stem the tide of prosperity, or to cause apprehension over the immediate future. Scanning the list closely, it will be noted that both standard rails and industrials are selling on an attractive investment basis. An improvement in monetary situation will perhaps result in a better inquiry for the bonds and short time issues with which the market is now glutted. The higher prices for specialties will perhaps direct attention to neglected issues, and an improvement in the latter will tend to broaden the market. The week closes with the speculative interest in an optimistic frame of mind, and barring unforeseen influence, the market is likely to continue in its upward course, although slight recessions should be in order at almost any time."

Writing from Boston Saturday Paine, Webber & Co. said: "The bull party still prevails in New York, and the close was at practically the best prices of the day. The bears have made a lot of money the past two months and are willing to fight hard, but the tide has turned and stocks are surely going up. The government investigations are over and money is getting a little easier. Crops are good and conditions are constantly improving."

**Free from Alcohol**

Since May, 1906, Ayer's Sarsaparilla has been entirely free from alcohol. If you are in poor health, weak, pale, nervous, ask your doctor about taking this non-alcoholic tonic and alterative. If he has a better medicine, take his. Get the best, always. This is our advice.

We have no secret! We publish the composition of our preparations.

J. C. Ayer & Co., Lowell, Mass.

### ANTI-CLERICAL OUTBREAK.

Madonna Procession Is Broken Up in Rome, and Clergy Are Injured.

Rome, July 21.—The anti-clerical sentiment expressed today in a demonstration against the Madonna procession, which was broken up. A bishop and several priests were maltreated by the rioters, and others in the procession were wounded before the police could drive back the manifestants.

### ARMY CHANGES STARTLE.

New Commander Is Named in France, and Military Force Cut Down.

Paris, July 21.—General Delacour will succeed General Hagron as commander-in-chief of the army in case of war. General Chas. L. Treneau, commander of the Sixth army corps, has been appointed simply to take General Hagron's place on the general staff. While there is universal recognition that General Delacour is the most brilliant officer in the army, General Hagron's retirement is an open protest against the wisdom of the new two year service law, and the discharge of the conscripts of 1903-4 has created a sensation. The anti-government papers, especially the reactionary organs, think that the country should heed the warning, as it shows, they say, that the present socialist regime is willing to sacrifice even the interests of national defense for political capital.

### PARIS POWERS OPPOSED.

Little Chance of a French Rapprochement With Germany.

Paris, July 21.—The recent talk of a rapprochement between France and Germany appears to have little chance of realization. The prime minister has been the prime mover in the scheme, and he seems to have impressed certain politicians at Berlin and possibly the emperor himself with the idea that by means of an arrangement with France, Germany could emerge from the circle which has almost isolated her. There is also a considerable factor in France which believes that France should cease to play England's game. But the present controlling political powers in the French government would consider anything in the nature of rapprochement with Germany nothing short of treachery to the alliance and the series of friendships France has industriously built up in recent years.

### DEATH LIST MAY GROW.

Eight of the 100 Injured Persons Are in Grave Danger.

Detroit, July 21.—The death list as a result of yesterday's collision near Sablet on an excursion train and a freight train stands tonight at thirty-one, but among the 100 injured in this city and Ionia eight are reported to be in serious condition and still in danger. There are sixty-one injured people at their homes in Ionia, and forty-two were brought to hospitals here.

### COREY RETURNS TO GO TO WORK.

HE EMPHATICALLY DENIES HE HAS RESIGNED THE STEEL CORPORATION PRESIDENCY.

New York, July 21.—Upon his arrival from Europe aboard La Savoie, William Ellis Corey, president of the United States Steel Corporation, today issued definite terms that he has resigned, but was less definite in his announcement regarding his future business plans. When first questioned upon the subject of his resignation Mr. Corey's replies were evasive, but when this was called to his attention and a positive statement requested he said:

"I have not resigned from the presidency of the steel corporation. In fact, I have come back early in the summer on purpose to go to work. I am not informed regarding the resignation of any meetings that may have been held during my absence, and that is all I can say upon that subject."

When Mr. Corey made this last statement he was seated in his stateroom beside his beautiful wife, who was formerly the actress known as Lillian May. Corey appeared deeply interested in everything her husband said, and while he was talking she took one of his hands in hers and held it during the time Mr. Corey was being interviewed.

### WIFE DODDED WITH THE STAGE.

She dodged her head vigorously when her husband made response to a question regarding rumors that Mrs. Corey might be induced to appear upon the stage again. The question seemed to stir Mr. Corey more than the one regarding his resignation and he answered sharply:

"You may say for Mrs. Corey and for myself that she is through with the stage for life. She will never appear upon the stage again. This is my final and I will be pleased to see this denied made prominent, as I can only believe that the rumor was started by someone wishing to secure a little notoriety by making use of her name."

"No, I will never be seen upon the stage again," chimed in Mrs. Corey, tapping the floor emphatically with the end of her long shepherd's crook parasol.

"While we were abroad I bought the Chateau de Ville Genis, near Paris, and my wife and I have decided to make our home there," said Mr. Corey.

"We will remain in New York for the remainder of this year. I shall stop at Sherry's until my home on Fifth avenue is ready for occupancy."

### BOARD RETIRES COL. AYRES.

New York, July 21.—Lieutenant Colonel Charles G. Ayres of the Fourteenth cavalry, whose wife was refused admittance to West Point grounds, is physically unfit for active service in the army, according to a report made by surgeons to a retiring board appointed to examine that officer. The surgeons said that Lieutenant Colonel Ayres had a disease of the kidneys which will cause his death if he continues in active service.

"If I am ready to sacrifice my life is there any reason why I shouldn't do so?" asked Colonel Ayres.

A member of the board said that Lieutenant Colonel Ayres owed a duty to his family to preserve his life.

### HARGIS IS A FREE MAN.

Sandyhook, Ky., July 21.—Judge Moody yesterday instructed the jury in the case of James Hargis, on trial for complicity in the assassination of Dr. L. B. Cox, to acquit the prisoner. This is the last case against Hargis for alleged complicity in the Breathitt county crimes, and Hargis walked out of the court room a free man. The judge's instructions followed the withdrawal from the case of Attorneys Fyrd and Joubert for the prosecution, the lawyers stating that the state was unable to produce its witnesses.

### LUMBER RATES WEST GO UP.

Oregon Dealers Say Increase Will Put Mills Out of Business.

Portland, Ore., July 21.—Official announcement of an increase Oct. 1 in lumber and shingle rates between the Pacific coast and Chicago, St. Paul, Kansas City, Omaha and St. Louis has been made by the transcontinental freight bureau, the organization of lines west of St. Paul.

Secretary V. H. Beckman of the Pacific Coast Lumber Manufacturers' association, said: "If the railroads make the proposed advance on lumber and shingles to the east they will force a close-down of the mills and logging camps of Washington, affecting 95,000 men, and putting out of business an annual pay roll of not less than \$45,000,000."

### TRAINS COLLIDE; CARNAGE FEARFUL.

(Continued From Page One.)

Smoke stacks were visible as they rushed along under the ten-foot banks to destruction. He saw the stacks come together and then the two engines reared up above the banks and fell back as the roar of the collision came to his ears. Then he rushed to the rescue.

Names of the Victims.

The following were the known dead, those without addresses being from Ionia:

Don Rogers, Lowell, Mich.; Homer Smith, Albert Trautwine, John Toefel, Charles Hess, Herman Hess, Daniel Hess, William Curran, Dick Jones, Mrs. Abraham Eddy, Edward Gallagher, Frank Dousa, L. K. Merrell, Henry Reynolds, Charles McCauley, Sr., Al. F. Herbert, Edward Durkin, Charles Broad, James Vizard, William Stager, William Gott, Mrs. August Richter, Fred Fitzgerald, Edward Corvan, brakeman; E. Evans, Frank Latham, Benjamin Durling, Harry Williams, Charles Fenton, Grand Lodge.

The injured are:

Mrs. Alma Fuller, probably fatally; William Heals, probably fatally; Fred Debaney, Mrs. Debaney, Jeremiah Vitz, Carl, Oscar, John, James, John, John, probably fatally; Mrs. Sista, probably fatally; Lizzie Ketcham, Portland, Ore., probably fatally; Allie Marshall, Violet Woodworth, Mary Derling, August Victor, Fred Latham, Eugene Latham, Mrs. Latham, Mrs. V. K. Kinnell, Fred Bordman, Charlie Bight, M. A. Lovewright, Mrs. Lovewright, James Paul, Frederick Priebs, Patrick Demahan and wife, Anna Majensken.

E. J. Pixley, conductor of the passenger, was ground to pieces and scarcely enough fragments were found to identify him. Herman and Daniel Hess were sons of Charles Hess, James Vizard was a well known minor league ball player who had played in the Copper Country and Central leagues and also at Omaha.

### ADAMIRAL DEWEY REFUSED TO LIE.

(Continued From Page One.)

He was his personal opinion, he frankly said that he was drawing the line between his duty and personality. To the suggestion that because of the inquiry which Germany would make as to whether he had been quoted correctly, it was almost an international necessity that he repudiate the story, he burst out with:

"I don't propose to repudiate it. I said every word I was quoted in. If every other soul in the United States accepted my denial, there is one man, the reporter I talked to, who would know that I lied, and I don't care to have that reputation with any man."

Don't get a wrong impression of Admiral Dewey in this present day. There is none of the loud-mouthed "old sea dog" bluster about him. To tell the truth, the admiral is something of a dandy in his personal appearance. They say that he has twenty-eight pairs of shoes and he keeps every pair, except the one he is wearing, on wooden shoe lasts. He has fourteen summer suits at this very moment.

He has a Chinese valet, whom he was permitted to bring into this country with him through a special act of congress.

### TWO OF DEWEY'S FADS.

The admiral has but two fads which he indulges on shipboard. One of these is to have a "shirt wardrobe" and the other a "hat wardrobe." The admiral has always had pairs of four dozen shirts. That is really a small number, compared with what some naval officers take to sea. Some of the men, preparing to go with the battleship squadron around the Horn, will carry no less than eight dozen, and as there will be no chance to have any laundry done during the voyage, they will leave the Atlantic coast and their arrival on the Pacific coast, they will count themselves lucky if they do not run short during the cruise.

Admiral Dewey's bulldog is of the same pugacious character as President Roosevelt's "Petey." So well is his character known that he is always chained to his kennel at the Dewey home, or, if taken out for a walk, is led in leash. His only freedom is when he goes to sea with the admiral's fleet maneuvers, regular spring and fall events.

That same dog was responsible for a close call between Admiral Dewey and Admiral Evans. Admiral Evans was shortly to be much in the public eye, as he is to command the great battleship fleet on its journey around to the Pacific coast. Dewey was making an inspection of the fleet maneuvers, and in its course reached the ship where Admiral Evans was quartered. Dewey always had his boy carry the bulldog along, and the moment the dog was dropped on the Pacific coast, Dewey was making an inspection of the fleet maneuvers, and in its course reached the ship where Admiral Evans was quartered. Dewey always had his boy carry the bulldog along, and the moment the dog was dropped on the Pacific coast, Dewey was making an inspection of the fleet maneuvers, and in its course reached the ship where Admiral Evans was quartered.

### STATISTICIAN READS LOVE STORIES TO LEARN HOW QUESTION IS POPPED.

Berlin, July 21.—A German statistician recently went to the trouble of reading 150 love novels in order to find out how the question is generally popped and has written the results of his investigations to a local paper.

According to the novels he has read, about 100 proposing lovers were accepted and fifty rejected. Of those seventy-two he held her hand when they were proposing and sixty-seven kissed her on the lips, while only two kissed her on the hand.

Fifteen of the lovers were so excited that they could not say a word; as many more were a prey to remorse and seven could not say a word except to thank her. As to the ladies, eighty-seven knew that a declaration of love was coming and eighty-two of them fell in the arms of their lovers. Only sixteen of the 150 decided to be sisters.

If you want dry hard and soft wood 16-inch slabs, call at or telephone to E. J. Kepp & Co., 615 Champion street. Bell Phone No. 78. (5-8-11)

**CHAMBERLAIN'S**  
**COLIC, CHOLERA AND**  
**DIARRHOEA**  
**REMEDY.**

This is unquestionably the most successful medicine in use for bowel complaints. It can always be depended upon, even in the most severe and dangerous cases. It is equally valuable for children, and is the means of saving the lives of many children each year. When reduced with water and sweetened it is pleasant to take. Price, 25 Cents; Large Size, 50 Cents.

### ASKS THE "SQUARE DEAL."

New York Life's President Protests Against Hostile Legislation.

New York, July 21.—Economy, the wisest, fairest and fullest publicity, and the continuation of a world-wide policy is to be the keynote of the new administration of the New York Life Insurance company. This is announced by President Darwin P. Kingsley in his first letter to policy-holders, which was made public today.

Mr. Kingsley in his letter says that he believes the state of New York has made an economic mistake in putting an arbitrary limitation upon the amount of new business which the company may do in a year. He believes that in the interest of policy-holders the company should be permitted to do what business it can normally do within the limit of expenses fixed by law. "If however, we learn from larger experience that we are wrong in this belief," says the letter, "and that a life insurance company is better served by its members if it has one thousand millions of insurance instead of two thousand millions, I operate in only one country instead of all the countries of the world, then I shall be quick to recognize that fact and shall act accordingly."

Mr. Kingsley appeals to the policy-holders to do their share toward preventing the enactment of unfair legislation affecting insurance companies. He declares that the tax imposed upon policies of mutual insurance companies is unfair, and he asks the policy-holders to aid the management to "secure from legislation the 'square deal' to which every man is entitled." He adds:

"In almost every line of business hostile legislation is at once met by vigorous protests from those whom it most directly affects. A proposal to tax life insurance premiums is a proposal to increase the cost of life insurance to the consumer. Such taxes are levied because the policy-holders are not likely to protest. It is time the policy-holders did protest. It is time, for example, that the policy-holders in this company realize that the taxes of this character paid in 1906 (almost \$1,000,000, excluding taxes on real estate) would otherwise have been included in the dividends of the year or credited to dividend account. Mutual life insurance is not conducted for profit, and its premiums are not a proper subject for taxation of this sort. The administration will need no member here the co-operation of all policy-holders as against the increasing tendency to levy taxes of this kind."

### NOW NOVEL HEROES PROPOSE.

Statistician Reads Love Stories to Learn How Question Is Popped.

Berlin, July 21.—A German statistician recently went to the trouble of reading 150 love novels in order to find out how the question is generally popped and has written the results of his investigations to a local paper.

According to the novels he has read, about 100 proposing lovers were accepted and fifty rejected. Of those seventy-two he held her hand when they were proposing and sixty-seven kissed her on the lips, while only two kissed her on the hand.

Fifteen of the lovers were so excited that they could not say a word; as many more were a prey to remorse and seven could not say a word except to thank her. As to the ladies, eighty-seven knew that a declaration of love was coming and eighty-two of them fell in the arms of their lovers. Only sixteen of the 150 decided to be sisters.

**EXCELLENT WRESTLING.**  
Tournament Conducted by Sons of St. George a Gratifying Success.

That the Cornish wrestling tournament was the principal drawing card for the Sons of St. George society's reunion in this city Saturday was evident from the large number that crowded into the arena. The people began to congregate immediately after the parade, although the wrestling did not start until nearly two hours later. At one time during the afternoon many were obliged to stand or sit on the ground near the wrestling ring.

Old Score Settled.  
As the wrestlers were entering their names and weighing preparatory to the preliminary bouts John Wall, clerk of Iron county, addressed the crowd, appealing to the judges to permit John Shea of Crystal Falls and Mike Dooley of Calumet to be the first men to enter the ring. He said that at the Crystal Falls tournament on the Fourth Dooley was awarded the prize over Shea, but that the friends of the latter on the Menominee range considered Shea the better wrestler, and they would be pleased to have the men meet before either wrestled with any others of the participants. The wrestlers, he said, were satisfied to meet in this way in order to settle the question of supremacy. Wall's request was granted.

The resultant contest was a good one, ten hitches having been taken before Shea scored a fall. The men worked very cautiously at first, it requiring ten minutes of "play" before either attempted to "mix." Several of the hitches were fast and exciting, Shea having a shade the better of the argument in most of them. In the eighth hitch Dooley gave Shea a pretty turn and came very near landing him on his back; in the ninth hitch he also threw his opponent, but in the final hitch the Menominee range man put Dooley to the sadist, securing the fall.

Two local lightweights, James Francis and Harry Trevithick, gave a pleasing exhibition. When called out for the eleventh hitch Francis gave Trevithick his back, re-entering his name for the second round.  
Dick Champion, an old stand-by with the jackets, who has perhaps wrestled in a greater number of tournaments in Marquette county than any other man, was matched against Alfred Davey, who proved by his work later in the afternoon to be one of the best wrestlers participating. Davey obtained a fall in the second hitch.

Ziehr Disposes of Coveau.  
Several times during the bouts preceding the meeting of Joe Ziehr and Charles Coveau there were calls for these wrestlers. Finally when their names were announced there was great cheering. Later when they appeared in the ring their reception was most cordial. Coveau apparently having a majority of the spectators with him. Four bouts were wrestled, Coveau being the aggressor in all of them. He went at Ziehr in his usual aggressive style, Ziehr worked cautiously in the first hitch, allowing his opponent to do the leading. Both seemed to have the holds they desired, and for a minute or more there was a test of strength in which Ziehr seemed to have the better of the argument. Finally the crooks were broken and both went to the ground, Coveau falling on his side. In the second hitch Coveau was again the aggressor, and after a fast mix-up of less than a minute he went to his knees. In the third hitch both went down together, after another test of strength in an effort on the part of both to break away from the other's hold. Coveau went to his side. In the fourth hitch both were playing for an opening, each with collar holds, when Ziehr gave Coveau a sudden turn, landing him three points down. The sticklers were unanimous in declaring a fall for Ziehr.

Carkeek's Friends Challenge.  
A few minutes after the Ziehr-Coveau match a Negaunee man, a life-long friend of Jack Carkeek, the famous all-around wrestler, and for years the champion Cornish wrestler of the world, addressed the crowd. He said that Carkeek's friends stood ready to back him against Ziehr for \$500 or \$1,000, the match to take place within six weeks. He said that while some people seem to think Carkeek a back number in the Cornish style of wrestling, his friends were willing to stake their money on him. It was announced that if Ziehr accepted the challenge he would be expected to put up a forfeit of \$100.

Ziehr accepted the challenge and said that he would wrestle Carkeek within the specified time. Mr. Wall of Crystal Falls, where Ziehr has resided for four months past, declared that Ziehr's friends would back him for any part of \$500, and that, so far as their own concern, he hoped the match would be pulled off in Ishpeming.  
Backers of both wrestlers met later and they agreed to sign articles of

### BOWLING SEASON CLOSSES.

Ravens Took First Prize for Two-Men  
Teams—Hurricanes Second.

The bowling season at Orr & Tompkins' alleys closed Friday evening, when the last of the series of contests in the two-men league were held. The Hurricanes defeated the Ice Wagons by a small margin. The Ravens had first place in the league; the Hurricanes second. The alleys have been closed for six weeks and Saturday George DeFrance began work overhauling them. He intends to put the alleys in better condition than they have ever been before. They are to be cleaned, scraped and polished, and the interior of the room is to be improved. The season just closed has been most successful. This is largely attributed to the careful manner in which the alleys have been managed.

In the final contest Friday evening the scores were as follows:

Hurricanes.....	161	152	176	749
Tompkins.....	138	122	145	405
Thoren.....	299	274	321	894
Totals.....	285	296	292	873
Ice Wagons.....	133	138	158	429
Kirkpatrick.....	152	158	134	444
Nightingale.....				
Totals.....				

The number of games played, lost and won with the percentages of the teams participating were:

	G.P.	G.W.	G.L.	P.C.
Ravens.....	8	6	2	750
Hurricanes.....	8	5	3	625
Wolves.....	8	5	3	625
Green Sox.....	8	5	3	625
Pikers.....	8	5	3	625
Ice Wagons.....	8	5	3	625
Indians.....	8	4	4	500
Tigers.....	8	4	4	500
Drie Kaiser.....	8	3	5	375
Cripples.....	8	3	5	375
Lions.....	8	3	5	375
White Sox.....	8	1	7	125
Totals.....				

The bowlers averaging 140 or better during the league contests are as follows:

DeFrance, 180; Miller, 167; Nelson, 164; E. Mitchell, 164; Reibel, 164; Nightingale, 164; Tompkins, 161; Carmichael, 161; Wm. Mitchell, 155; Sanders, 151; Curley, 149; Kirkpatrick, 149; Wenthe, 148; Williamson, 147; Pascoe, 146; E. Hooper, 146; Wasmuth, 146; Thoren, 145; A. Johnson, 144; Willman, 142; Berglund, 140.

## Negaunee Department

### MADE FINE SHOWING.

English Oak Lodge Captured First Prize at Ishpeming.

The members of English Oak lodge, Sons of St. George, of this city, made an excellent showing in the Ishpeming parade Saturday. The lodge had over 125 men in line. All wore straw hats, with sashes of red, white and blue. The nine men carrying the society's big banner, also the standard bearer at the head of the procession, as well as his two escorts, were attired in white suits, with black braid on the trousers.

The Negaunee lodge, with the Negaunee band, was placed at the head of the procession. The Negaunee men were pleased with this recognition. The members marched unusually well, and they were awarded a prize of a silver loving cup, sixteen inches high, with ebony base. The other cup was taken by Trelawney lodge of Ishpeming.

A great many Negaunee people spent the day at Ishpeming. The street cars did a big business until after midnight. Many from here attended the ball at Braastad's Hall.

### DR. HAIDLE HONORED.

Appointed to Membership on State Board of Dentist Examiners.

Dr. A. W. Haidle has been appointed a member of the state board of dentist examiners, the position having been offered him through the efforts of Representative Byrns of Ishpeming. Dr. Haidle received notice of his appointment Friday evening from Governor Warner, and was instructed to meet the four other members of the board at Lansing, Michigan, that night for the capital city.

Membership on the state board is a pleasing recognition, but the competition is not very large. Prior to the last session of the legislature the board was composed of only three members, but it was increased to five. Dr. Haidle is the first upper peninsula dentist who has ever received an appointment. A number of lower peninsula men were seeking the position. The board will meet four or five times a year, and it is likely that most of its sessions will be held at Lansing, as has been the case in former years.

Dr. Haidle is well qualified for the position, as he was an instructor in the University of Michigan for some time after completing his dental course. He is conceded to be one of the best dentists in this region, and is much interested in his profession.

The duties of the board of examiners are increasing steadily, as there are now in the neighborhood of 1,500 dentists in the state. The law provides that dentists cannot practice without first taking the examination and procuring a license from the board.

### LOCAL LACONICS.

Sam Ford, of Ironwood, formerly of this city, is here visiting friends.

The Negaunee court of the Catholic Order of Foresters held a meeting yesterday afternoon.

James A. Kirkwood and wife, of Duluth, returned to the city Friday, after an absence of a few days.

J. M. Perkins has placed one of his slow coaches in the hands of the electric light.

The plays for Negaunee's new high school arrived Saturday. Bids for the construction work will be asked for at once.

Captain William Bond, of the Newport mine, visited Negaunee friends Saturday. He came down to attend the Sons of St. George reunion.

William B. Ewing, wife, daughter and grand daughter are in the city from Bridgewater, Mich., on a visit to Robert S. Ewing and family.

Louis Larson and wife of Cornishont are the proud parents of a son, born Saturday. This is their eleventh child, and the second son. All but one of the children are living.

Captain John Freeman, a former resident of Negaunee, and Captain Rowe both of Tamarack mine, visited friends in this city Saturday, they having come down to attend the Sons of St. George reunion at Ishpeming.

The Finnish band of Princeton paid its first visit to Negaunee yesterday. It marched at the head of the Finnish National league of this city prior to going to the grove near the cemetery, where a picnic was held.

One shipment has been started from the Richmond mine, Cascade range, operated by the Consumers' Ore company. About twenty-five earloads are going forward daily. The working force has been boosted since the ore movement started, and over sixty men are now employed.

The rebuilding of the foundation at the city building has been completed and the concrete floor is now being put in. The workmen will complete the job today or tomorrow, and they will then begin to erect the electric light station, where three foundations are to be erected for new machinery.

The last of the cut stone will be placed in the National bank building today or tomorrow. It will be some time before the interior improvements will be completed. The entire roof has been rebuilt and all of the old corner stone has been removed. Contractor Wilson intends to complete the greater part of the outside work before getting the interior ready for the finishing touches.

### BAD BURN QUICKLY HEALED.

"I am so delighted with what Chamberlain's Salve has done for me, that I feel bound to write and tell you so," says Mrs. Robert Mytton, 457 John St., Hamilton, Ontario. "My little daughter had a bad burn on her knee. I applied Chamberlain's Salve and it healed beautifully. This salve always cures a burn almost instantly. It is for sale by The Stafford Drug Co."

### MIDSUMMER EXCURSION TO DULUTH.

Via the South Shore, leaving July 25th and 26th, return limit July 29th. Fare for the round trip \$9.10. Attractions: Barnum & Bailey's circus at Superior July 26th, and at Duluth July 27th; the "White City" on Park Point; baseball games Houghton vs. Duluth. (7-11-20)

### DOUBLE FATALITY.

Two Young Men Drowned in Teal Lake Late Last Night.

A report reached the Mining Journal early this morning of a double drowning in Teal lake late last night. The victims were two Negaunee young men, Alfred Remier and Noyel Remier.

No details of the accident could be learned except that the two young men, who were brothers, aged about twenty and twenty-five years, were riding in a boat with a companion. The frail craft capsized, and the brothers perished. They were unable to swim. The third man reached shore safely. The bodies of the drowned men were recovered.

### ROBBED BOARDING HOUSE.

Strangers Went Through Trunk at Charley Lindeman's Place.

Two strangers, one giving the name of Sandberg and the other of Peterson, secured quarters at Charley Lindeman's boarding house on Clark street last week. They told Mrs. Lindeman that they had come to Negaunee to locate. In the afternoon they both went to town and before evening Sandberg became intoxicated and spent the night in jail. He paid his fine the next morning, and was released.

Some time Friday they went through one of the boarder's trunks, taking \$30 and a gold ring. The theft was not discovered until evening, when the boarder returned from work. The matter was reported to Chief Gribble but the strangers could not be found. Sandberg is a short man, with unusually large eyes, and Peterson is tall. Both are young and have smooth faces. Mr. Gribble has notified the officers of the towns near by to be on the lookout for them.

### WOULD NOT WRESTLE.

Dave Foley, of Ironwood, arrived in the city Saturday morning on a visit to his parents, Captain James F. Foley, and wife, Jack Karkeek, the famous wrestler, has been in Ironwood for several days, visiting Mr. Foley. The committee in charge of the tournament at Ishpeming made several attempts to reach Mr. Karkeek by long distance telephone, but he was in the woods the greater part of the week. Mr. Foley said that Mr. Karkeek knew all about the tournament, but that he had no intention of entering it, as he is not in condition. He has taken on considerable flesh during the past year or so, and now weighs about 220 pounds.

## ISHPEMING

### PROFESSIONAL TAKES MONEY.

Local Sprinters Badly Beaten in 100-Yard Dash Saturday.

A professional sprinter, entering under the name of John Thompson, opened the eyes of Al Dyer and other participants in the sprinting events conducted Saturday by the Sons of St. George. "The unknown," said Dyer, "could run rings around the best of us." He got such a lead in the first fifty or seventy-five feet that he had time enough to look back occasionally and beckon to the others to hurry along. Catlin of Marquette was second man to cross the tape. At the conclusion of the race Thompson announced that he would contest any man in Michigan in any twelve events, the challenged party might choose, for \$100 or more. It is thought that "Thompson" is Smitzen, Purdue University's crack man, who had been trying for some time past to get on a match with Archie Hahn.

Thompson, with five others, F. Harvey, Catlin, J. Kjes-shoe, Dyer and Sid Harvey, won the flag race.

Stephen Paul and Joe Thomas won first prize in the three-legged race, and Charles Phillips and his partner took second.

The tug-of-war between teams composed of members of the different lodges, Negaunee five teams entered, the Negaunee men showing much greater skill and strength than any of the others. John Small, Jr., won first prize in the egg and spoon race, and John Manley took second.

The contests concluded with a dive for pennies, a number of boys furnishing amusement for some minutes at the stand near the city fountain.

### STOCK COMPANY TONIGHT.

The Dougherty Stock company will open a week's engagement this evening at Ishpeming theatre. Tonight's play will be "A Gambler's Wife." The other plays to be presented will be "The Fatal Likeness," tomorrow night; "A Dixie Tragedy," Wednesday; "La Belle Marie," Thursday; "Gay Mr. Thompson," Friday, and "The Gold King," Saturday.

A matinee will be given Saturday afternoon. Several specialty people will be seen in turns between the acts. There will also be moving pictures and illustrated songs. The prices will be twenty and thirty cents.

### ISHPEMING IN BRIEF.

G. B. Youn and wife are here from Ironwood.

Peter Finnigan and wife have returned from a three weeks' trip to lower lake points.

Harry Harwood left Saturday evening for Toronto, Can., to be absent a week or more.

F. A. Jeffers, superintendent of the Atlantic schools, was a visitor in the city Saturday.

Dr. John Minnehan of Green Bay was in the city Saturday, the guest of Dr. W. S. Picotte.

Mrs. M. W. Nelson of Menominee is in the city visiting at the home of her son, Herbert Nelson.

Wallace H. Hopkins arrived in the city Saturday morning. He will depart for Chicago again tonight.

Herman Jasocke has returned from M. Clemens, Mich., where he accompanied Mrs. Jasocke two weeks ago.

John Peters, a former resident, came

Judge Petite of Chicago was an Ishpeming visitor the latter part of last week. He presides over the Desplaines street police station.

Captain William Trevarthen, mining superintendent of the Corrigan-McKinney company's properties on the Menominee range, was an Ishpeming visitor Saturday.

Miss E. Alma Sharpe departed Friday for her home at Howell, Mich., after a two weeks' visit at the home of Rev. L. Adams, pastor of the Methodist Episcopal church.

The White Sox baseball team of this city is open for engagements with any nine composed of boys from eighteen to twenty years of age. Will Harvey is the manager.

Miss A. B. Lyons will be at the office of the Marquette County Gas & Electric company all this week, giving demonstrations in cooking. Patrons of the company are invited to call.

The funeral of the late Miss Evelyn E. Henry, held yesterday afternoon from Grace Episcopal church, was very largely attended. Rev. Bates Burt of Marquette conducted the services.

The funeral of the late John B. Willian, held yesterday afternoon from the Methodist Episcopal church under direction of Sir Humphrey Davey lodge, Sons of St. George, was largely attended.

The members of Joseph Atwell's tent of Rechabites attended divine services yesterday morning at the Finnish Co-operative Hall. Rev. M. M. Allen, pastor of the Presbyterian church, preached.

The fire department was called out Saturday afternoon to extinguish a blaze in the barn on the edge of the embankment at the south end of Fifth street. The fire was started by boys playing there. No particular damage resulted.

John L. Carlson, a former resident of this city, and at one time a partner in the general merchandise firm of S. Johnson & Co., died recently in Minnesota, where he had been located ever since he left Sault Ste. Marie a few years ago.

John A. Willis, who a short time ago went to Rockford, Ills., where he intended to locate permanently, has returned after remaining there two weeks. His wife, who is still at Rockford with their son John, will join him here within two or three weeks.

Thomas Coughlin, the veteran hall player, occupied his garden for Virginia last Sunday and kept good his record of former years by capturing two nice fish. His stick work was not as good as usual but with a little practice Tommy would get into slugging condition again.—The Virginian.

The members of the Ishpeming received their new uniforms Saturday morning in time to wear them in the morning in the Sons of St. George parade. The suits are a dark blue, with black trimmings.

The band filled an engagement at Presque Isle yesterday. A large crowd went down from here on the afternoon special via the Lake Superior & Ishpeming railway.

The Finnish band of Ashtabula Harbor, O., made a big hit here last evening at its concert at the theatre. It was greeted by a packed house. All the members of the organization are exceptionally fine musicians, and they give in excellent style a program of rare excellence. J. S. Tuuri, baritone soloist, was particularly well received. The band will play at Negaunee tonight and at Marquette Tuesday evening.

### TUXEDO CLUB CIGAR

**HATTIE DOUGHERTY,**  
with Dougherty Stock Company, all  
all this week at Ishpeming Theatre.  
Prices, 10, 20 and 30 cents.

### FROM HOPKINS' CURB LETTER.

There was a firm opening, with Amalgamated the leader. The rest of the list soon developed some little weakness on realizing. Utah Consolidated was the weak feature, selling off over two points, while North Butte displayed considerable weakness toward the close. Superior & Pittsburg was in good request, but very little was offered. Gracemont just held its own with the trade light. Hancock Consolidated was in pretty good request and the stock was scarce.

### Saturday prevailing prices were:

### COAL WANTED.

Sealed bids will be received from coal merchants, doing business in Ishpeming, by the Board of Education of school district No. 1, city of Ishpeming, for 400 tons (more or less) of anthracite and 100 tons (more or less) of steam coal, run of pile, to be delivered to the various schools and the power house as need may arise.

Bids must be in the hands of the director on or before 4 p. m., July 30, 1907.

The board reserves the right to reject any and all bids. By order of the Board of Education.

(7-19-17) J. G. WELSH, Director.

### WEEKLY EXCURSIONS TO DETROIT AND RETURN \$13.50

Via the South Shore, leaving on early morning train on Saturday. Same rate to Alpena, Oscoda, Harbor Beach and Port Huron. To Buffalo \$3.50 higher. Limit September 13th, 1907. For sleeping car and steamer reservation apply to ticket agents. (6-22-17)

Father says: "Say, Mother; can't daughters if I will bring home a pair of you make us some more of those fine Cudahy's Peacock Lard a-in'!" (11-27-e-o-d)

### TUXEDO CLUB CIGAR

# STRIKE IS COSTING \$40,000 EVERY DAY

### TWELVE THOUSAND MEN ARE NOW IDLE BECAUSE OF TROUBLE AT HEAD OF THE LAKE

## BOATS COMING TO MARQUETTE

### Tie-Up of Traffic Brings About Enforced Idleness of Several Hundred Trainmen—Strikers Organize Unions.

The tie-up at the head of the lake, caused by the strike of the ore handlers at Duluth, Two Harbors and Superior, still continues, with no prospect of an early adjustment of the difficulty. It is estimated that the strike is costing \$40,000 a day.

Since the beginning of the trouble ore shipments from Marquette have under gone marked increase, as many of the boats have been transferred to this port to Ashland and Escanaba. The movement of ore at Marquette is only limited by a shortage of cars, and it is stated that rolling stock will be borrowed from the Minnesota ore roads to handle the excess business, in the event that the strike continues for a long period. It is also stated that if an early settlement of the trouble is not arrived at, shipments will be started from a number of Marquette range mines which are now out of commission.

### Busy at Ashland.

On account of the strike the season at Ashland for the shipment of ore promises to be the greatest in the history of the port. A large number of the boats which have been trilled at Duluth and Two Harbors all summer have been ordered to Ashland, and the docks there are doing a big business.

The strikers at the Mississipi docks at Duluth, numbering about 700, are now organized, but no organization has as yet been effected at Two Harbors or at Superior. The organization at Duluth was brought about Friday night, when the committee of twelve, which has been directing the strike, called a mass meeting. J. W. Conner was chosen temporary president of the new organization, president, and, with other leading spirits, addressed the crowd. More than 600 men attended the meeting, and of this number about 500 signed themselves as members of the new body.

### Cannot Affiliate.

W. E. McEwen, editor of the Labor World, attended the meeting and in an address advised the men to organize. He told them, however, that if they did not organize at this time, it would not be possible for them to affiliate with the American Federation of Labor until after the strike is settled. The reason, he explained, was because it is an established rule of the federation not to admit an organization to its ranks which is formed in the progress of a strike, until the trouble is adjusted.

Delegations from Two Harbors and Superior, who attended the meeting, stated that unions were to be formed immediately at those ports.

### Trainmen Idle.

Neither the Great Northern, Duluth, Mississipi & Northern, or Duluth & Iron Range roads are moving a pound of ore, and as a consequence several hundred trainmen have been forced into idleness. Every open pit mine on the ranges is closed, the ore trains stopped, and most of the vessels engaged in the trade are tied up. It is now estimated that 12,000 men are idle. There has been no attempt on the part of the railroad officials to negotiate with the strikers, and until the newly organized union presents its formal demands, it is probable that no action will be taken.

### No Strikebreakers.

President House of the Duluth & Iron Range said Saturday that no attempt had been made to import strikebreakers, and that such a step had not even been contemplated by the railroad officials. So far the strike has been orderly, and the railroads do not care to bring in strikebreakers, as they fear that such a move would introduce violence.

Anticipating trouble, twenty-five special police and a like number of special deputies have been sworn in at Two Harbors. About fifty boats are tied up in the harbor and have paid off their crews, the owners believing the trouble will be of long duration.

For the past few days the Allouez docks have been deserted save for Superintendent Morrell and a staff of office men.

### FEAR INJURIES ARE FATAL.

### Man Burned at the Furnace Is in Critical Condition.

John Anderson, who was fearfully burned in an outbreak of blazing gas at the Pioneer Iron company's plant at North Marquette Saturday, has shown no improvement, and it is feared that he cannot recover. He is at St. Luke's hospital.

Anderson, at the time of the accident, which was caused by what is technically called a "kick," was working under the "downcomer," when a quantity of accumulated gas forced open a valve near him, and he was caught in the blast. When help reached him it was found that he had been burned from head to foot, and it was necessary to extinguish what was left of his garment by throwing water upon them.

### FURS.

Now is the time to have your furs remodeled or order new ones. Please call at the Marquette Millinery store, Nester Block, Monday and Tuesday and see T. A. Chapman's display of fine furs. (7-25-14)

Foster's Clearing sale is causing quite a stir. The store is dotted inside and throughout with red price tickets. (7-20-1w)

A trip to Foster's Clearing sale is profitable. (7-20-1w)

**TUXEDO CLUB 10¢ CIGAR**

### HAVE SEIZED FISH.

### Charles Smith and J. B. Eddy, Deputy Game Wardens, Here Saturday.

Charles Smith, chief deputy game warden, and J. B. Eddy of the Soo, state deputy, were Marquette visitors Saturday, on business connected with the department. During the past few weeks they have seized five and a half tons of under-sized fish and trout. As a result the veterans in the Soldiers' home, the boys in the industrial school and the inmates of some of the state prisons have had a number of fine fish dinners, the law requiring that fish seized cannot be sold or devoted to private use, but must be sent to some state institution.

The raids of the two deputies were made in the northern part of the lower peninsula, in shore towns, where the visits of deputies have heretofore been somewhat infrequent. In watching for boat loads of immature fish the deputies have to prowls at night along old docks, through lumber yards and in lakeside sheds.

The two deputies succeeded by night watches of the harbors in surprising some fishing crews just as they reached the dock with a quantity of the small fish in their boats. Other seizures were made in the sheds where the fish are prepared for market. In one or two instances the deputies found some of the small fish put down in salt. The fishermen, because of the infrequent visits of the fish wardens in the past, seemed to feel that they could evade the laws with impunity. Some arrests were made. Chief Warden Plores says that other noteworthy captures have been made. A few days ago he received a tip that certain men had some beaver pelts in their possession. The law prohibits the trapping or disturbing of beaver and as a result of the clue the deputies have seized seven beaver pelts. They will be sold and the proceeds turned into the state treasury.

### WANT REV. MAYWOOD BACK.

### Strong Resolutions Adopted by Conference of M. E. Church.

Rev. Ames Maywood is approaching the end of his third year as the pastor of the Marquette M. E. church. The conference of the church Saturday evening adopted strong resolutions, inviting his return and urging on the presiding elder, the Rev. James Pascoe of Houghton, to do everything in his power to secure it. This Mr. Pascoe, who was present, promised to do. For his part Rev. Maywood expressed appreciation for the recognition of his work carried by the resolutions, and assured his people that there was nothing that would give him greater pleasure than to return to Marquette. Mr. Maywood's pastorate here has been a highly successful one. His church has prospered under his direction, and never before has it been stronger or more united. It is in excellent financial condition, and services are well attended. Mr. Maywood is an eloquent speaker and an effective organizer. His friends are found among the members of all churches in the city, and the request for his return by the conference is one that will be generally endorsed. The formal resolutions passed Saturday night were as follows:

Whereas, the services of Rev. Ames Maywood as pastor of Marquette charge have been not only entirely satisfactory but eminently successful;

And whereas, not only the entire membership of the church but the people of the city generally have learned to love him as a man, and hold him in the highest esteem as a preacher of the gospel;

And whereas, the work of the church and the needs of the church combine to demand his return to this charge for another year;

Therefore Resolved, by the fourth quarterly conference of the First Methodist church of Marquette, Michigan, severally and collectively, that Rev. Ames Maywood be, and he is hereby, most respectfully requested to consent to remain with this charge for another year.

And Resolved Further, that the presiding elder be, and he is hereby, respectfully, and yet most earnestly, requested and urged to use his good offices to the utmost of his ability, not only to recommend but to insist, so far as such action is consistent with our church economy, that Rev. Ames Maywood be appointed to Marquette charge for another year.

### 500 CANAL PASSAGES.

### Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., July 21.—[Special.]—The upbound boats passing the canal the last twenty-four hours were the following: Sawyer, Tuxedo, Redfern, 8:40 p. m.; Henry Smith, 9; Midland King, 9:30; Butler, 11:30; Nestor, 1 a. m.; Gratwick (small), 3:40; Pellatt, 6; Captain Wilson, 7:20; Choctaw, 9; Fronteneau, Arabian, 10:20; Mariska, 11:30; A. Davidson, 1:20 p. m.; Manitoba, 2:20; Buffalo, St. Siscoquetan, 5:30; William Mather, 6; Sacramento, Chieftain, Paisley, 7:30.

### Marquette Port List.

D. S. S. & A. docks: Arrived—Gary, Cleared—Rensselaer, Cleveland; Plankinton, Toledo; Warriner, Toledo.

L. S. & I. docks: Arrived—Angeline, Andaste, Fryer, Mitchell, Chickamauga, Falcon. The Frank Poovey, City of Bangor and Cadillac, previously reported, are also at this dock. Cleared—Centurion, Buffalo; Peter White, Ashtabula.

The Mariposa, which came in with a cargo of coal, was transferred to Ashland, and she left for that port yesterday.

### NOTICE TO TAXPAYERS.

Office of the City Treasurer: Marquette, Mich., July 15th, 1907.

Notice is hereby given that the general tax roll of the city of Marquette has been deposited with me, and is now in my office in the city hall, and that the amount of taxes therein assessed and specified are due and may be paid to me at any time up to and including the 31st day of October, A. D. 1907.

Upon all such taxes paid to me before the first day of September a collection fee of one per cent will be charged and on all such taxes paid on or after the first day of September a collection fee of three per cent will be charged.

R. P. BYRNE, City Treasurer. (7-16-07)

Foster's Clearing sale is designed to clear all odds and ends, broken sizes and lots. In order to succeed, prices are very much reduced. (7-20-1w)

# BIG CROWD SEES MARQUETTE WIN

### RAPID RIVER BALL TEAM LOSES BY THE SCORE OF FOUR TO SEVEN.

## THREE-BAGGERS ARE FEATURES

### Home Club Gets Eleven Safe Hits Off Brazelle, the One-Arm Pitcher, and Scholtus Strikes Out Ten Men.

A crowd of five hundred persons, many of them women, witnessed the Marquette ball team win from Rapid River yesterday. The score was 7 to 4. It was the seventh game Marquette has played this season, and it made the fifth victory. It was Rapid River's third defeat of the season.

Until the eighth inning the score was 4 to 4, and the issue was in doubt. Scanlon opened the inning with a three-base hit, which was followed by a timely hit by Couse. Rapid River suffered some untimely fumbles, and the Marquette scorers three runs, gaining an advantage which the visitors were unable to overcome.

### Three-Baggers Did It.

In the fourth inning both Scholtus and LaFave lined out three-baggers, and two runs were scored. Riepelle in left field and Scanlon in center both made several long running catches.

Marquette got eleven safe hits off the delivery of Brazelle, the one arm pitcher. Scholtus, for Marquette, struck out ten men, and gave one base on balls. His team-mates made seven errors. Rapid River got six safe hits, and was charged with five errors. Brazelle struck out six men, passed one, and hit two. The score by innings follows:

R. H. E.	
Rapid River	000112000-4 6 5
Marquette	00020203*-7 11 7

### Story of the Game.

First inning—Scholtus struck out Boyer, and passed Grabelle. Day went out on a grounder to Messier, and Grabelle went to second. Lowell knocked a short fly to Couse at third. For Marquette, Rydholm went out on an infield hit. Messier reached first on a hit, but was thrown out at second. Webb's fly was caught.

Second—Cannon opened with a hit. Beich's grounder to Scholtus brought about a double play. Dunstrom knocked out a safe one, but was thrown out at second. For Marquette, LaFave went out, third to first. Scholtus and Gilbert struck out.

Third—Labumbard struck out. Brazelle made first on an error, and stole second. Boyer struck out. Grabelle was caught out at first. With Marquette at bat, Scanlon's fly was muffed, and he stole second. Riepelle flied out, as did Couse and Rydholm.

Fourth—Day went to first on an error, and then to second while Lowell was making first on a wild throw. Cannon struck out. Beich sent a short hot one to second, sending Day home. Dunstrom struck out and Labumbard's fly was caught. For Marquette, Messier went out at first. Webb hit out and scored on LaFave's three-bagger. Scholtus repeated the trick, and LaFave scored. Gilbert made first on an infield hit, and took second, with Scholtus still on third. Scanlon struck out. Riepelle's fly ended the inning.

Fifth—Brazelle went out on a grounder. Boyer planted a safe hit over third and Grabelle sent one over second, scoring Boyer. Day struck out. Lowell flied out. For Marquette, Couse flied out. Rydholm sent a safe one over first, and stole second. Messier flied out, and Webb did the same thing.

Sixth—Cannon got first on an error. Beich hit, Cannon advancing to third. Dunstrom was thrown out at first as Cannon scored. Labumbard flied out. Beich scored on a wild throw. Brazelle flew out. Marquette-LaFave was hit. Boyer fumbled Scholtus' grounder. Gilbert reached first on a fumbled fly, and LaFave scored, followed by Scholtus. Scanlon struck out. Riepelle went out on a short hit, and Couse on a fly.

Seventh—Boyer was thrown out at first. The next two knocked out flied which were caught. Marquette—Rydholm got a hit. Messier struck out. Webb's foul was caught by Lowell. LaFave reached second on a fumble. Scholtus was hit and took his base. Gilbert was thrown out at first.

Eighth—Lowell struck out. Cannon bunted, and went out. Beich's short fly was caught. For Marquette, Scanlon planted a three-bagger in right. Riepelle fanned. Couse scored Scanlon with a safe hit. Boyer fumbled a grounder from Rydholm, and Couse made third on a wild throw. Messier's safe hit scored Couse, and when Labumbard fumbled a fly from Webb, Rydholm ran in. LaFave flied out. Scholtus was thrown out at first.

Ninth—Dunstrom opened with a safe one over short, he stole second, and then third. Scholtus struck out Labumbard, Brazelle and Boyer, ending the game.

E. J. McCarthy was the umpire. The game lasted an hour and forty-five minutes.

Manager Ed Weiser stated last night that the team would either go to Crystal Falls next Sunday, or that Baraga would play here.

### CLEARING SALE.

Foster's Clearing sale is now in progress. (7-20-1w)

### GREAT REDUCTION ON HATS.

We will now make a special reduction of one-half off on all of our latest misses' and children's trimmed hats at all suits.
