NUMBER 6765.

MARQUETTE, MICH., WEDNESDAY, JULY 24, 1907.

PRICE 5 CENTS

## MESABA STRIKERS TAKE TO MARCHING

### Men Still at Work at Various Mines Are Compelled to Lay Down Their Tools and Join the Walkout.

### In Bands of 100 to 3,000, Members of the Union Demonstrate Their Strength by Parading to Properties Yet in Commission and Forcing Their Addition to the Idle List—Governor Johnson Arrives Today and Will Investigate the Situation.

Duluth, Minn., July 23.—The members of the Western Federation of Miners on the Mesaba range devoted their energies today to making demonstrations of their strength. Bands of from a hundred to three thousand men marched to various mining locations, forcing the men still at work to lay down their tools.

### Vermilion Mines Still at Work.

Ely, July 23.—Every precaution is being taken by the mine owners to prevent a walkout at the properties here. During the past several days a number of agitators who were infusing the strike spirit into their fellow workers have been arrested and discharged. The town is quiet and from all that can be learned it appears that the local mines will not be closed.

### Mayor Eaton's Vigorous Stand.

Virginia, July 23.—"You fellows can run your strike to suit yourselves so long as you do not, in any way, interfere with the peace and dignity of this community. I am the head of this city and I intend to run it. Any violent actions on the part of the striking miners will not be countenanced for one minute."

This was the reply which Mayor Eaton made to a committee of striking miners when they called upon him to learn if they would be permitted to hold an open-air meeting, at which they would be addressed by a socialist agitator.

Mayor Eaton said that parades with red flags and such like demonstrations on the part of the strikers, which would tend to incite riots or intimidate the peace loving people, would not be tolerated.

### Governor to Investigate.

St. Paul, Minn., July 23.—Governor Johnson will leave for Duluth and the Mesaba range tomorrow to investigate the miners' strike situation and the probability of violence.

### AGITATORS NOT WANTED.

Mass Meeting at Bovey Condemns Western Federation Methods.

Bovey, July 23.—"No strike" sentiment is unanimous on Coleraine and Bovey. At a mass meeting held in the open air on the street here 1,000 citizens were present and resolutions condemning the methods and machinations of outside labor agitators and the peace and character of the Western Federation of Miners, were adopted without a dissenting voice and with acclamation. The resolutions follow:

"Whereas, Extensive mining operations are now being conducted on the Mesaba range, in the vicinity of Bovey and Coleraine, employing large numbers of men who are now being paid the highest wages ever paid on the Mesaba range, and

"Whereas, As a result of such mining operations, the employment of such labor and the payment of such wages, the towns of Bovey and Coleraine now exist, and upon the continuance of such industry the existence and prosperity of these cities depend, and

"Whereas, Until recently all the employees of the mining companies engaged in such mining operations have been satisfied with the existing conditions, including the wages paid, and have worked in harmony with the mining company, and

"Whereas, The employees, mining officials and citizens in general have lived here in peace and contentment until certain outside labor agitators, envious of our prosperity, have come here to destroy it, and are seeking to create distrust and hatred between the employees and employers which will result in the closing down of these operations with all its consequent loss and damage to the interests which are entirely dependent upon such mining operations, and

"Whereas, It is common knowledge that, up to this time, the mining company has expended many millions of dollars in the development of these properties, and is, to date, making no money from this district, and we fear that if the operations are now stopped, a long time will elapse before they are resumed, and

"Whereas, The Western Federation of Miners, which is at the bottom of this trouble, is a criminal organization, displaying the red flag of anarchy on our streets and throughout the other towns of the Mesaba range, which emblem of anarchy is against the government of the United States and the state of Minnesota, and is calculated to incite riot and the commission of crime, be it therefore,

"Resolved, That we, the citizens of Bovey and Coleraine, at a representative meeting here tonight, do denounce the presence of such outside labor agitators in our midst, and declare that there is no necessity for their presence here and warn them to leave us alone. Be it further

"Resolved, That we believe the wages heretofore paid and now being paid by

the mining company are fair and satisfactory to the employees, and that there is no necessity for a strike or any interruption of the business now being conducted in this vicinity; and be it further,

"Resolved, That we strongly denounce the red flag as a symbol of anarchy, a menace to the government, to the state and the community and an incentive to riot and crime, and against the principles of our institutions and the interest of the community."

### HORRIBLE TRAGEDY IN DENMARK.

Land Owner's Housekeeper Hangs Three of His Children and Himself.

Copenhagen, July 23.—Grief-stricken by the receipt of notification that her services would not be required after the end of this month, Mrs. Neilsen, housekeeper for a land owner, yesterday hanged three of her employer's children and then hanged herself.

### MISTAKEN FOR A BURGLAR.

Mrs. Joseph Lauberhauser of Chicago Shot and Killed by Her Husband.

Chicago, July 23.—Mrs. Jennie Lauberhauser, aged forty-seven, was shot and instantly killed by her husband, Joseph, early today. Lauberhauser, who was arrested, told the police that he mistook his wife for a burglar. The police are inclined to believe the story.

### SHAM BATTLE IS TRAGIC.

Explosion of Powder at Fort Terry, N. Y., Kills an Artilleryman.

New London, Conn., July 23.—Private Hammond, of the 100th company, United States artillery, was killed by the explosion of a bag of powder in the sixth battery at Fort Terry, Plum Island, N. Y., today. Three members of Company K, Third regiment, Connecticut National Guard, were injured. The accident happened during a sham attack upon the forts.

## NEW YORK MAN, INSANE, RUNS AMUCK

### KILLS YOUNG WOMAN WITHOUT APPARENT CAUSE, AND SERIOUSLY WOUNDS A FRIEND.

New York, July 23.—Charles Warner, aged sixty, a former merchant whom the police believe to be insane, today shot and killed Miss Esther Norling, a young woman, without seeming cause. Then with the smoking revolver he fled through a crowded thoroughfare and made his escape. Warner eluded the police for nearly three hours, only to suddenly appear in the store of John C. Wilson, a friend, whom he shot twice after making a request for a small loan. Warner's flight was ended by a blow on the head from a truck man.

### WILL NOT DIE TOMORROW.

"Lord" Seymour Barrington Granted a Respite by Governor Folk.

St. Louis, July 23.—Governor Folk today granted a respite of thirty days to "Lord" Seymour Barrington, under sentence to be hanged at Clayton, Mo., July 25.

Jefferson City, Mo., July 23.—After Governor Folk had granted a respite of thirty days to "Lord" Barrington today, it was discovered that the respite would end Sunday, Aug. 25. The governor thereupon added one day more to make the execution fall on Monday, Aug. 26.

### SUBMARINE MINES WILL PROTECT AMERICAN PORTS.

Washington, July 23.—In connection with the comprehensive scheme for coast defense proposed by the national coast defense board, congress last winter appropriated nearly \$2,000,000 for fire control stations, submarine mines, apparatus to work them, and searchlights for the defense of the principal harbors in the United States and its insular possessions.

Brigadier General Murray, chief of artillery of the army, who has been working energetically in this matter, has let contracts for the full amount of money available, and work of providing submarine mine defenses is being pushed rapidly on both the Atlantic and Pacific coasts. The plans contemplate the sowing of mine fields on the Pacific coast in the neighborhood of San Francisco, at Forts Rosecrans, Winfield Scott, Miles, Baker and Bonita; at Fort Stevens and Columbia at the mouth of the Columbia river and at three points in Puget Sound.

Of the total appropriations about \$430,000 is for the Philippines and other insular possessions and the first shipment of material for that purpose will be made early in August.

### NO MORE HALF RATES FOR CLERGY OR CHARITY.

Chicago, Ill., July 23.—Clergymen, charity workers, inmates of soldiers' and sailors' homes hereafter when they travel will pay full fare, the same as ordinary citizens. Ever since the recent rate laws began to be enacted, the cent rate laws for clergymen have been "up in the air." More than 100,000 annual certificates now in existence will be canceled. In the West these grant a rate of 1 1/2 cents a mile, and in the East two cents a mile.

The railroads were disposed for a time to let these certificates stand, inasmuch as they had been issued for the year, but it was decided at the meeting of the Western and Transcontinental associations to call them in. The general inclination of the country to demand that the lowest rate determined the action. The roads feel that they can show no favor, and that the present rate is low enough for anybody. In other words, the roads are more in the way of needing charity than they are in a position to extend it. The order just made public will not be felt by clergymen traveling over Eastern lines, but will fall chiefly upon the West and Southwest.

## SHORE "HUGGED" TOO CLOSELY?

### Practice Resorted to by Boat Masters in an Effort to Save Coal Is Blamed for the Steamer Columbia Disaster.

### However, the General Manager of the Line Vigorously Denies This, Pointing Out in the Connection That the Craft Was Fourteen Miles Off the Coast at the Time of the Collision—Wires Are Down, and the Fate of Many of the Missing Is Still Unknown.

San Francisco, July 23.—Vice President and General Manager R. P. Schwerin, of the San Francisco & Portland Steamship company, asked today for an official statement regarding the steamer Columbia disaster, said:

"I do not see that there is anything I can say except to express profound sorrow and deep sympathy with those who have suffered. The steamship company is not, owing to interrupted wire service with Eureka, in possession of anything additional to that which has been secured by the newspapers. Formal inquiry into the disaster will be held by the state officials entrusted with such duties."

Mr. Schwerin denied the charge that the wreck in a large measure was due to the habit of coastwise masters of "hugging the shore," in order to save coal. He said: "That charge is absolutely false, and nothing better illustrates its falsity than the fact that the Columbia was fourteen miles off shore. The extreme range of the lighthouse lights is only twenty miles, and masters must be within that range to get their bearings, especially in foggy weather."

Communication with Eureka is still interrupted, and no further details of the Columbia disaster have been received.

### More Survivors Reach San Francisco.

The steamer Pomona arrived from Eureka this morning, bringing one of the surviving passengers of the wrecked steamer Columbia and thirty-two members of the Columbia's crew, who were saved out of her total complement of fifty-nine. The passenger is a San Francisco lady, Captain Swanson, of the Pomona, says that Purser Byrnes of the Columbia is remaining at Eureka by order of his company. He has sent many survivors north to Portland upon the steamer George W. Elder, which resented eighty or ninety miles off shore, took them to Eureka. Many of the survivors remain at Eureka and are being cared for in hospitals. They are suffering from exposure, shock and grief.

Purser Brown, of the Pomona, showed a list of the surviving passengers taken to Eureka, exclusive of those who reached there an hour before the sailing of the Pomona, which had been personally secured and certified to by Purser Byrnes. It comprised 67 names, and tallied with the list reported in these dispatches last night.

Paul Hinner, quartermaster on the Columbia, was in charge of the raft bearing four women and eleven men which made the shore at Shelter cove. It is probable that these are the fifteen persons referred to in last night's despatches as being on their way to Eureka, and who were expected to arrive at the latter point shortly before the sailing of the Pomona yesterday. The list of missing still stands at fifty persons, but it is still likely that many of these are safe somewhere along the coast.

### BREEDING CANARIES URGED BY FEDERAL OFFICIAL.

Washington, July 23.—Breeding canaries for the home market is an infant industry and unprotected in the United States. More than 200,000 canaries are imported yearly, and the business is being pushed rapidly on both the Atlantic and Pacific coasts. The high-shouldered, small-headed products of Belgium; the long and slim Yorkshire singer; and the Laneshire "copy," a giant among canaries, all the result of fancy breeding. But the standard bird coming from the United States is the bird brought from the vicinity of St. Andrewsburg, in the Hartz mountains, where the peasants make a yearly revenue of more than \$300,000 from the traffic.

Henry Oldys, assistant in the department of biology, points out that foreign countries enjoy a virtual monopoly in the song-bird trade. The former extensive trade in native American birds has dwindled to the vanishing point, through the work of the Audubon society and the American Ornithologists' union by securing the passage of protective laws. Opportunity for American enterprise in the breeding of canaries and other cage birds is indicated by Mr. Oldys. He says that not only is there no reason why the American market should not be supplied by American breeders, but there is, further, a positive reason that imported birds are not so well adapted to our climate as those bred here.

### FRENCH MAYOR ACQUITTED.

Narbonne, France, July 23.—A guest case was heard here today of one of the mayors of South France who became involved in the wine growers' strike. Action was brought against this mayor for refusing to discharge his official duty. He was acquitted.

### AMERICAN CRICKETERS LOSE.

Dublin, July 23.—The University of Pennsylvania cricket team was defeated today by the Wexford eleven in the first match of its Irish tour.

## WEATHER FORECAST

Washington, July 23.—The following is the weather bureau forecast for Upper Michigan: Showers, Wednesday, Thursday, partly cloudy; variable winds.

### WORKMEN ESCAPE DEATH.

New York, July 23.—A brick building on the southwest corner of Fifty-eight and Broadway collapsed today, burying twenty workmen. Two were seriously injured.

## BASEBALL

### STANDINGS OF THE CLUBS.

National League.			
	W.	L.	P. C.
Chicago	42	22	738
New York	40	31	613
Pittsburgh	40	32	605
Philadelphia	35	34	570
Brooklyn	30	45	439
Boston	34	47	429
Cincinnati	33	50	398
St. Louis	29	69	216

American League.			
	W.	L.	P. C.
Chicago	33	31	631
Cleveland	31	33	607
Detroit	27	37	555
Philadelphia	25	55	563
New York	30	42	481
St. Louis	31	49	419
Boston	29	49	387
Washington	25	53	321

### SCHEDULES FOR TODAY.

American League.  
St. Louis at Washington.  
Chicago at Philadelphia.  
Cleveland at New York.  
Detroit at Boston.

### GAMES PLAYED YESTERDAY.

National League.  
Brooklyn, July 23.—Ganzel's clever jumping catch in the second inning was the feature of the game. Summary: Brooklyn.....00000020—2 7 1  
Cincinnati.....00000000—0 6 0  
Batteries: Melchre and Bergen; Weiner and Schell.

New York, July 23.—The winning tally was made off two bases on balls, a single and Straug's long fly to center. Summary: New York.....0000000001—1 5 1  
Chicago.....0000000000—0 6 0  
Batteries: Ames and Bowerman; Brown and Kling. Ten innings.

Boston, July 23.—Willis weakened in the eighth, and his error and that of Wagner helped Boston wipe out the lead. Summary: Boston.....0010000040—5 6 2  
Pittsburgh.....1000000002—3 7 2  
Batteries: Flaherty and Needham; Willis and Gibson.

American League.  
Cleveland.....10000020—3 5 0  
Washington.....00000000—1 2 2  
Batteries: Jackson and Clarke; Smith and Heydon.

American Association.  
Milwaukee, 4; Louisville, 2. Second game.  
Milwaukee, 3; Louisville, 5. Twelve innings.  
Kansas City, 3; Toledo, 2. This game went ten innings. Second game: Kansas City, 3; Toledo, 4. Seven innings.  
Minneapolis, 4; Indianapolis, 3.  
St. Paul, 4; Columbus, 6. Ten innings.

Western League.  
Sioux City, 6; Lincoln, 9.  
Denver, 3; Omaha, 4.

### White Sox Lose to Altoona.

Altoona, Pa., July 23.—In an exhibition game here today the Altoona Tri-state league team defeated the Chicago Americans by the score of 6 to 4.

## TEST OF WARNER'S POLITICAL STRENGTH

### EXPECTED TO BE PRINCIPAL FEATURE OF SPECIAL SESSION NEXT FALL.

If a special session of the legislature be held this fall as is expected, the principal feature will be the test of Governor Warner's political strength, says the Lansing Republican. This is the consensus of opinion among the politicians, who assert that the settlement of the question as to "who is who" will determine largely the fate of several legislative issues in which the governor is interested.

There is but little doubt now that Governor Warner expects to enter the race for a third term. He has never extended any Rooseveltian denial of his aspirations to serve the people another term, although he has not sent out a bulletin announcing his candidacy. With Warner in for a third term it is said that the contest will be between his excellency and Auditor General Bradley. The latter has not said he is in the race, but he is known to be willing to serve and friends in many sections of the state have been industrious in his behalf. The strength which he will display is acknowledged to be worthy of mention. If he would agree to certain lines of policy it is said that he could gain new backing with a whoop, but he prefers to keep his hands clear to act as he pleases.

The politicians figure out that if Governor Warner cannot hold his house majority at the special session, and have largely to do with legislation enacted, he will be of small consequence in the field next year. On the other hand, if the governor pushes through some legislation he has proposed and generally displays strength in holding his forces together, the political battle from then on will be fierce and bitter from day to day, with no cessation until someone is announced a winner.

## RICH ARMENIANS MARKED FOR DEATH

### Investigation of Rug Importer's Assassination in New York Reveals Foul Conspiracy Along the Lines of the Black Hand.

### First Organized as a Revolutionary Society, Compatriots of Murdered Man Appear to Have Degenerated Into a Blackmailing Band Which Failing to Procure Tribute from Wealthy Countrymen Is Killing Them Off—Three Murders Already.

New York, July 23.—Seeking a motive for the murder of H. S. Tavshanjian, the Armenian rug merchant, the district attorney's office led today to an investigation of the report that Tavshanjian was one of ten wealthy Armenians who were marked for slaughter if they failed to give up \$10,000 each to a blackmailing band of their countrymen.

No color was given to this theory by Berros Hampartoomian, who killed the rug man, when the prisoner was arraigned today. In court he maintained stolid indifference and was remanded to the coroner. Later he declared that he came here from Chicago for the express purpose of killing Tavshanjian; but the crime was instigated by no other person or society.

From other sources carefully protected by the authorities came the information that a secret society of Armenians, originally organized for revolutionary purposes, had degenerated into an instrument for blackmail.

Mr. Cambere, Tavshanjian's secretary, visited the district attorney's office, and gave Assistant District Attorney Smythe the list of wealthy Armenians who he said had been forced to pay blackmail to the band.

"Another well-to-do Armenian said: 'A priest who tried to fight the band was murdered in Odessa. Father Kasper Vartarian, killed in this city, was another victim.'"

### FAVORITES LOSE AT DETROIT.

Reproachless the Winner of the Chamber of Commerce Pace.

Detroit, July 23.—Reproachless, the black daughter of Direct Hal, who won the stake five years ago, took the \$5,000 Chamber of Commerce pace at Grrosse Pointe this afternoon. The victory was clean, and while the performance was a second slower than that of Ardell in the record time for the stakes, it was good considering the slow track.

Dan S. and Hidalgo were about equal favorites, with the field bringing as much as either. Neither showed well, Dan S. being distanced in the second heat. After trailing to the three-quarters in the first heat, Bonanza came around and won handily. The next time Bonanza broke when Thomas started to drive, and there was nothing that could pace with Reproachless. In the third heat Bonanza came strong in the stretch, but in Reproachless had enough left to win by a neck. This was Bonanza's third start in the stakes and his third winning of second money. Summary: 2:14-trot, the Horseman stakes, \$3,000; nine starters. Fedora Othol.....1 1 3  
Gentle H.....4 2 1  
Silver Band.....7 4 2

2:13 pace, Chamber of Commerce stake, \$5,000; twelve starters. Reproachless.....9 1 1  
Bonanza.....1 10 2  
Leland Onward.....2 2 4

2:18 trot, \$1,500; nine starters. Carlo.....1 1 3  
Wild Bell.....4 4 1  
Amos.....2 2 4

Best time, 2:06 1/2.

2:19 pace, six starters—Will Mayburg won in straight heats; Grace Direct, second Sunday, Hal third. Best time, 2:08.

### WILL VISIT COBALT TODAY.

American Institute of Mining Engineers in Session at Toronto.

Toronto, July 23.—This afternoon the Ontario meeting of the American Institute of Mining Engineers began. John Hays Hammond, the president, occupied the chair, and a large number of delegates were present. The trip to Cobalt tomorrow will be the big feature of the convention.

### SEEK IRON MINES IN BRAZIL.

Canadian Capitalists Make Proposition to South American Government.

Rio Janeiro, July 23.—Canadian capitalists have proposed to the Brazilian government that in return for certain concessions they will undertake to work in the iron mines, assuring the exportation of at least a million tons of ore annually.

## GIFT OF MRS. RUSSELL SAGE.

Check for \$100,000 Is Sent to Syracuse University.

Syracuse, N. Y., July 23.—Mrs. Russell Sage today sent a check for \$100,000 to Chancellor J. R. Day as a gift to the Teachers' college of Syracuse University.

### DAMAGE IS ENORMOUS.

Flood Haven in Wisconsin Much More Serious Than First Supposed.

La Crosse, Wis., July 23.—The receding of the flood of Sunday and Monday shows the damage in western Wisconsin to be even greater than at first reported. The grain and hay crops of three counties are practically destroyed, while in villages and cities the damage amounts to hundreds of thousands of dollars. East of La Crosse the damage will take weeks to repair, some of the largest bridges having gone out. Viroqua, the county seat of Vernon county, has been cut off from the outside world, except by telephone, since Sunday, and it will have no mail for a week.

### FAIRBANKS IN ATTENDANCE.

Monument to War Governor Morton Unveiled at Indianapolis.

Indianapolis, July 23.—The unveiling of the monument to Oliver P. Morton, Indiana's war governor, today was the occasion of a large gathering of veterans of the Civil war. Among those attending were Vice President Fairbanks and General R. B. Brown, commander-in-chief of the G. A. R.

### AFTER HARVESTER TRUST.

Topeka, Kas., July 23.—Attorney General Jackson today filed criminal proceedings against the International Harvester company, alleging eight violations of the anti-trust law.

## CASTRO HOSTILE TO UNITED STATES

### VENEZUELAN PROPOSES A SOUTH AMERICAN UNION AGAINST A "COMMON ENEMY."

Caracas, Venezuela, July 11.—[Correspondence to the Associated Press.]—Suggesting that the Spanish-American republics meet in congress to proclaim the Drago doctrine, now that the powers have ignored it at The Hague, a correspondent of the official government newspaper, El Constitucional, in a presumably inspired article, sounds a note for a union against a common enemy against the ambitions and egotism of the strongest.

The article has caused much comment in Caracas because it was published on the day following the presentation by Minister Russell of Secretary Root's second note to Venezuela in which he says that President Castro's refusal of the demand for the arbitration of five American claims is unacceptable.

The United States is alluded to in connection with the annexation of Texas and the independence of Panama when the writer says: "We have seen English, German and American warships off the Venezuelan coast. In this way territory has been seized from Mexico and Colombia. Foreign interests are influential today in Ecuador and Central America, and perhaps tomorrow will be in the whole continent."

### ALBANY DEADLOCK ENDS.

Senate's Apportionment Bill Finally Accepted by the House.

Albany, N. Y., July 23.—The deadlock between the two houses of the legislature over the apportionment of the senate's district ended today when this afternoon the Republican assemblymen adopted as a party measure the senate apportionment bill as adopted last night by the senate caucus. It is expected that the extraordinary session will end tomorrow.

### HOMESTEADING IN THE SOUTHWEST ABOUT ENDED.

Washington, July 23.—Homesteading has about run its course in Missouri, Kansas and Oklahoma. During the past three months only about 1,500 persons made homestead entries on public land there. A few years ago that many entries would have been made in most any one of the dozen or so land offices of that section. The greatest activity now is shown in southwestern Kansas and western Oklahoma, the land offices at Dodge City and Woodward alone showing more entries than all the other land offices combined. The Topeka district has practically done no business during the past quarter.

The Guthrie land office made even a poorer showing than Topeka. The lawton office reported no business except filings on homesteads in the "big pasture." El Reno reports 104 cash entries, 24 original entries and no final. Alva reports 75 original entries and 115 final.

But Woodward still shows signs of life. Its land office reports 437 cash entries, 598 original entries and 820 final. Dodge City is also in Woodward's class. The Colby (Kan.) district made a poor showing.

The only land office in Missouri is at Springfield where it reports 223 cash entries, 120 original and 47 final. These homesteads were all taken in the southern part of the state—the mountainous country—where the only government land is still left.

"It is only a question of a short time until the government will have to give additional inducements to secure settlers for western Kansas and Oklahoma," said an official of the general land office. "It will keep a homesteader scratching now to make a living off 160 acres of land still subject to homestead entry. There are only two ways for the government to encourage settlement there. One is by irrigating all the semiarid land it can. The other is to enlarge the homesteads to 640 acres."

## KOREAN MONARCH MERE PUPPET

### Japanese to Install a Council of State Clothed With Power to Administer Without Interference from the Throne.

### Ministers Subservient to the Mikado Succeed in Wringing from the Deposed Emperor a Final Pledge of Abdication, and Now All That Remains for Them to Do Is to Exile Their Former Ruler—However, His Murder Is Much More Likely.

Seoul, July 23.—The cabinet's report to Marquis Ito of the former emperor's new pledge of abdication, in form positive and final, was published today and revealed the widespread impression that the first instance was not one of abdication, but of "imperial entortment."

Ito's subservient cabinet, in an all-night engagement with the former emperor, wrung from him a verbal admission of the validity of his abdication and secured his signature to a proclamation to the people, also an acknowledgment of the mikado's congratulations to him as emperor de facto.

The working members of the cabinet who enjoy Ito's protection are passing in and out of the palace with a guard exclusively Japanese. The work of the cabinet will not be finished until the emperor is exiled from Seoul. This, if accomplished without the poisoning of the deposed ruler, or some similar tragedy, will be a landmark in Korean history. Ito's cabinet is now in the process of securing the emperor's signature to a proclamation to the people, also an acknowledgment of the mikado's congratulations to him as emperor de facto.

### NEGRO GIRL POSES AS WHITE IN UNIVERSITY.

Chicago Students Did Homage Three Years to Dark-Skinned Beauty.

Chicago, Ill., July 23.—A girl, said to be the sister of the most notorious negro gambler in America, opened it over the University of Chicago for three years, according to a discovery just made by the co-eds. She scattered smiling largess to the admiring women students and dancing men of the Midway school, because her race was masked with a "pooches" and created a complexion.

How she did it all will remain a mystery for future students to wonder at. How she ruled as a society head and a favorite at the Greek letter fraternity functions behind her dual identity, until her true identity was branded as that of a negro, will be a closed chapter for her former club sisters.

Her society has been disbanded and her friends have faded away, for the university students know now of the struggle she made against her inheritance, aided by a fair face and social ambitions. Only her former chums knew her secret when the society was disrupted, and none of her social rivals suspected the cause of her disappearance from the campus frolics until recently when the subject was broached at a student gathering.

The negro gambler's ambition to make a "fine lady" of his little sister is really the cause of the discovery, for her friends became curious over her many secrets and her luxurious clothes. The investigation started, then one of her society sisters who visited her home chanced upon a collection of negro photographs and the unmasking followed.

### SQUADRON ORDERED HOME.

Armored Cruisers Now in Philippines Will Sail for San Francisco.

Washington, July 23.—The navy department has decided to order the armored cruiser squadron, consisting of the Colorado, West Virginia, Pennsylvania and Maryland, from the Philippines to San Francisco. It was intended some time ago that the vessels should rendezvous in Japanese waters, but inasmuch as the ships will come to San Francisco by way of Honolulu they will not go to Japan. The squadron will sail from Cavite Sept. 1. This movement has nothing to do, the department officials say, with the reported movement of the battleship squadron to the Pacific.

It may, however, add to the great spectacular exhibition, which Secretary of the Navy Metcalf has advertised for the special benefit of the people of San Francisco and Oakland. Then, again, these four ships may constitute the only great spectacular exhibition which Mr. Metcalf's constituents are permitted to see, unless they come East. The formation of another armored cruiser squadron for the Pacific has already been announced. It will comprise the Tennessee, Washington, California and South Dakota.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., JULY 24.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

REPUBLICAN DISTRICT CONVENTION.

A convention of the Republicans of the 31st senatorial district of Michigan is hereby called to meet in the Ishpeming theater in the city of Ishpeming, on Tuesday, the 13th day of August, A. D. 1907, at 11 o'clock a. m., for the purpose of placing in nomination three candidates for delegates to the convention to be held in the city of Lansing for the purpose of making a general revision of the constitution of the state of Michigan, said delegates to be elected at a special election to be held on the 17th day of September, 1907.

The several counties comprising the district are entitled to one delegate in special convention for every five hundred votes, or an excess of a majority thereof, cast therein for governor at the last presidential election, no county being entitled to less than two delegates, making the following representation, to-wit:

Table with columns: County, Electors, 1904, Delegates. Rows include Alger, Dickinson, Iron, Marquette, etc.

By order of the Republican Committee for the 31st Senatorial District of Michigan.

THOS. CONLIN, Chairman. GAD SMITH, Secretary.

Dated Marquette, Michigan, July 18, 1907.

No one will envy Congressman Young the Soo postoffice situation.

From his comments in connection with the Mesaba strike it would appear beyond cavil that William Corey is still head of the Steel trust.

In the light of his concession that government ownership of railroads is not an immediate issue, the public will wait with interest to learn what Mr. Bryan expects to make his next campaign on.

When we think of the extension of the spring season for the shooting of aquatic game birds we wish the legislature might have allowed the game laws to have stood unchanged.

At this distance it is difficult to appreciate the merit of an argument expressed by burning 5,000 of the U. S. Steel corporation's fence posts.

The lid had another "dry" Sunday. The fit clamped on by Mayor Sullivan fitted snugly, and there was, it is said, no alcoholic refreshment to be had in places of public resort.

Ex-Governor Herrick in a letter to the New York Sun says that Taft did not attack him in the Ohio campaign which resulted in the election of a Democratic governor.

In the convention called for nominating delegates to the constitutional convention Marquette county is entitled to fourteen delegates, and Dickinson, Alger and Iron county together to the same number.

SUPERIOR TRUST COMPANY HANCOCK MICHIGAN Capital \$150,000

be apprehensive about the future. It will be well treated in the 31st as newly aligned, just as it fared well in the old district.

If the proposed Karkeek-Ziehr wrestling match is pulled off as proposed Negaunee or Ishpeming is entitled to it. The project of bringing the men together was, apparently, conceived at Negaunee. Negaunee and Ishpeming, together with the delegation that Marquette would send up, could turn out a crowd that would send the gate receipts up to a goodly figure, and make them compare well with any that would be secured in the copper country.

The foolhardy trick of rocking the boat appears, from the reports of the occurrence, to have been responsible for the accident at Teal lake that resulted in the death of two persons. The drowning possesses peculiar sad features, the brave attempt of one of the victims to rescue his younger brother and the grief of the aged parents. It is particularly regrettable for the needlessness of it. Had the young men thrown into the water been content to have completed their trip on the lake without the risk involved in rocking their frail craft both lives would have been spared. Day after day, in all parts of the country, the great danger of rocking the boat is shown by drownings, but apparently the lesson is slow to sink in, for there does not appear to be any appreciable letup in deaths from that cause.

The law providing that gasoline, naphtha and benzene shall be kept only in cans that are painted a brilliant vermilion, and that when it is kept in bottles they shall be labeled with prominent red letters, is one that properly has a place on the statute books and that, if strictly enforced, will prevent many serious accidents. Starting the fire with kerosene is dangerous enough, and when the gasoline can is mistaken for one containing kerosene the result is disastrous.

Texas appears to have slumbered while the legislature was in session. One of the laws enacted forbids merchants, under penalty, to handle trust-made goods of any description.

The Soo had another "dry" Sunday. The lid clamped on by Mayor Sullivan fitted snugly, and there was, it is said, no alcoholic refreshment to be had in places of public resort.

Ex-Governor Herrick in a letter to the New York Sun says that Taft did not attack him in the Ohio campaign which resulted in the election of a Democratic governor.

In the convention called for nominating delegates to the constitutional convention Marquette county is entitled to fourteen delegates, and Dickinson, Alger and Iron county together to the same number.

Not a drop of Alcohol Doctors prescribe very little, if any, alcohol these days.

Heart Strength

Heart strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

It will be seen that there is promise for an interesting fight at the Soo. It is mainly the Soo and Congressman Young's concern, however, and the rest of the upper peninsula will not regard it seriously.

The road was first used as a military highway by the soldiers who were coming down to Mexico to fight under Scott in 1848. Volunteers from all the great territory of the Mississippi responded to the call and rode gayly along the old road.

It was in 1865 that the old trail saw its greatest blood-letting. The Cherokee Indians were friendly to the confederate cause. Some of them had gone over the trail to join the army, and those who remained at home were treated with the South.

After the war came the millions of steel which Texas was sending to the Northern markets. Day after day the procession wound itself over the hills and through the valley. There was ever and always a heavy cloud of dust over the road.

The strike on the Mesaba is in its early stages. It may not develop as seriously as it is now feared it will, but it must be confessed that the outlook is not a reassuring one.

Commenting on the strike the Duluth Evening Herald alludes to the excellent feeling between employers and labor that has obtained in the Mesaba field. That they are disturbed it attributes to the arrival of the red flag of anarchy and the Western Federation of Miners.

Not a drop of Alcohol Doctors prescribe very little, if any, alcohol these days.

Herald says flatly that a minority of agitators among the men forced the strike and that the majority are out against their will.

There are indications that the terrorists who are back of the strike intend to gain their ends by violence and destruction of property.

Against such efforts the authorities of St. Louis county must make a showing of firmness that will not be misunderstood, and that will nip all such efforts in the bud.

OLD MILITARY ROAD IS LONG ABANDONED. WENT STRAIGHT 1,000 MILES FROM ST. LOUIS TO SAN ANTONIO.

SCENE OF INDIAN MASSACRE. Negro Unionists Surprised and Slain—Later Packed With Cattle.

Tulsa, I. T., July 23.—The old military road, established in 1846, which hung itself from St. Louis for a straight 1,000 miles to San Antonio, Tex., and beyond there to the distant posts on the Rio Grande, has fallen into disuse and is being abandoned.

The road began at St. Louis and stretched southwesterly across Missouri, just touching the southwestern edge of Kansas at Baxter Springs, and then on across this territory, crossing the Arkansas between the mouths of the Verdigris and Grand rivers, and on south and west to Red River, just north of where the town of Benton, Tex., now is.

It was in 1865 that the old trail saw its greatest blood-letting. The Cherokee Indians were friendly to the confederate cause. Some of them had gone over the trail to join the army, and those who remained at home were treated with the South.

After the war came the millions of steel which Texas was sending to the Northern markets. Day after day the procession wound itself over the hills and through the valley. There was ever and always a heavy cloud of dust over the road.

The strike on the Mesaba is in its early stages. It may not develop as seriously as it is now feared it will, but it must be confessed that the outlook is not a reassuring one.

Copper Country

CLEVER WRECKING JOB.

Great Lake Tug Favorite Releases the Schooner Wayne.

The schooner Wayne, beached on the shore of Lake Superior late last fall and abandoned by her owner, the Edward Hines Lumber company, and the underwriters, was released from the rock Monday afternoon by the wrecking tug Favorite of the Great Lake Towing company, and was brought into Portage lake for repairs.

The Wayne went on the rocks of Micoory Bay last October. She and the large Foster were consorts of the steamer Barth. They went out of Portage lake in a northwester and after a fight with the sea the Barth had to let go her consorts.

The Wayne was brought into Portage lake and was run aground at Harrington's island pending repairs. She has now become the property of the Great Lakes Towing company and will be used by that concern as a lighter in wrecking operations.

Rev. G. D. Yokum, pastor of the Hubbell Congregational church, has tendered his resignation and will leave Sept. 1. He has been pastor for the past year and has been successful, making friends not alone among his own flock but in all other Congregational communities in the copper country.

WELL LIKED PASTOR TO GO.

Cobalt Gossip

An assay from the Nancy Helen 87-foot level runs 2266 ounces of silver to the ton.

The Temiskaming compressor has arrived at Cobalt and will be installed and running by the end of July.

The Stellar-Cobalt has taken about fifty pounds of crystallized cobalt and native silver, practically nuggets, from a new vein three inches in width.

The McKinley-Darrough mine has adopted the nine-hour day as the miners' schedule of wages, but has been granted permission to allow a dozen Italians, now under contract to Sept. 1, to remain and finish the contract under the old schedule of hours and wages.

A check for \$116,546.31 has been received by the government from the Ontario assay office for the royalty due the government for the quarter ending July 1. The government receives 25 per cent of the total output of the mine at the pit's mouth.

The Wet Process Reduction company of Toronto has commenced the installation of an apparatus for a fifty-ton plant at Cobalt.

The Cobalt Nugget says: "In spite of the strike in Cobalt camp a large quantity of mining machinery is still coming into the camp and is being installed by the various mining companies.

**City Brevities**

Yesterday's temperatures: 7 a. m., 64 degrees; noon, 66 degrees; 7 p. m., 71 degrees; maximum, 71 degrees; minimum, 54 degrees.

Forecast: Showers and cooler; fresh southwest wind, probably squalls.

Mrs. Flint B. Aniba left yesterday for the Soo.

Mrs. T. Flaherty of Tacoma is visiting Mrs. James Freeman.

H. L. Kaufman, who has been in Chicago, arrived home yesterday.

Thomas Wallace of the Standard Oil company visited in Marquette yesterday.

Mr. and Mrs. F. F. Killian and their son are to leave for the Soo this morning.

M. J. Kennedy of Ishpeming passed through Marquette yesterday on his way to Birch.

Mrs. Frank McConnell has returned from Munising, where she has been visiting friends.

Mrs. Frank A. Wentworth left for Duluth yesterday to spend a week or more with friends.

The W. C. T. U. will meet at 3 o'clock this afternoon with Mrs. Kimball, at Lighthouse point.

A subscription dance, the first of a series of four, will be held Thursday evening at Legion hall.

If the weather is favorable the Hayseed band will give a concert program at Lake Side Park this evening.

The Misses Hazel and Irene Bush left yesterday on the Tionesta for Duluth, where they will visit for several days.

The steamer Northwest, from Duluth, will arrive in Marquette at 6 o'clock this evening; and will sail at 6:55.

Martin Adson, general passenger agent of the Duluth, South Shore & Atlantic, was in the city from Duluth yesterday.

Roman Smith is visiting his brother, George Smith, during the stay in port of the big ore carrier, J. Pierpont Morgan.

Mr. and Mrs. Kline arrived in Marquette on the Tionesta yesterday. They were on the way to their home in Negaunee.

Mrs. John Stone, who has been visiting her parents, Mr. and Mrs. D. H. Ball, returned to her home in Houghton yesterday.

Theodore Wettstein left yesterday morning for Calumet on the steamer Tionesta, after visiting relatives here for the past few weeks.

Mrs. Wm. Robilo, who has been a guest at the residence of Geo. W. Rule, will leave for her home at Buffalo today, making the trip by steamer.

Edwin Gripp and H. Swanson of Ishpeming were among yesterday's visitors here. S. O. Clinton of Baraga and J. D. Dalton of Negaunee also were here.

Mrs. J. H. Godwin, East Prospect street, entertained at a thimble party Monday afternoon in honor of Mrs. Wm. Robilo of Buffalo. Twenty ladies were present.

There were seventeen vessels in the two harbors last night among them the J. Pierpont Morgan and the Widener, two of the biggest ore carriers on the great lakes.

C. H. Miller and wife, formerly Miss Richardson of this city, arrived yesterday from Mount Clair, N. J., with their son Paul to spend the summer at the Richardson home on East Prospect street.

K. of C. Initiation—A number of applicants for membership in the Knights of Columbus order took the first degree last night in preparation for the initiation, which will be held probably on Labor Day, when a class of seventy-five young men will be given the three degrees.

Died in Hospital—Miss Sanna Makela, twenty-eight years old, daughter of Garah Makela of Humboldt, died yesterday at St. Luke's hospital from an abscess of the brain. She has been a patient at the hospital since last Wednesday. The funeral will be from her home in Humboldt.

Old Fellows' Smoker—An entertainment and a smoker will be given tonight by the Old Fellows in Fraternity Hall. Address will be made by F. A. Rogers of Reading, Pa., grand master, and H. L. McNeil, grand herald, officers of the old lodge, who are expected to arrive today. Refreshments will be served.

Hotel Picnic—Under the direction of Mrs. John Brown, a very pleasant afternoon was spent at the Champion Hill Grove yesterday by Summit House guests. Games of all kinds were played. Mrs. Deadman and Mrs. Fletcher carried off first honors in the wheelchair race. In the evening about fifty guests took of refreshments provided by the ladies. The afternoon ended with a candy rush by the children.

Morgan's Comedians Score Hit—"An Orphan's Prayer" was the play presented by Morgan's Comedians last night at the opera house. It was well received especially the work of Miss Hilda Morgan in the part of Calamity, the orphan. The house was filled and those present seemed well pleased. The specialties were up to Monday night's standard. Tonight the company will present the semi-military play, "Little Miss Military," with a change of vaudeville features between acts.

Masonic Instruction—Charles F. Sweet of Dowagiac, grand master, and Frank B. Gilbert, grand lecturer of the Masonic fraternity, will be the guests of Marquette lodge Friday, Aug. 16, when a lodge of instruction will be held. Meetings will take place in the afternoon and evening and the Masonic bodies from Ishpeming and Negaunee will attend. During the instruction, the Ishpeming lodge will present the first degree work, the Negaunee lodge the second, and Marquette the third.

Celebrate at Panama—A program of the Fourth of July celebration which was held at Ancon in the Panama canal zone was recited yesterday by County Clerk F. G. Jones. The program was sent to him by R. C. Shady, former register of deeds of Alger county, who is now in Panama. Mr. Shady's name is given on the program as a member of a committee on decorations. The program consists of addresses, an exhibit by the Ancon fire department, a band concert, athletic games, a reception and a dance. Ancon's patriotism is not to be doubted if the program conveys any indication of it.

Work Nicely Under Way—Preparations for the Kirmess to be given Aug.

6, 7 and 8 for the benefit of the Episcopal church, under direction of Miss Palmer and Miss Pettee, are nicely under way. The young people who have been enlisted for the dances are enthusiastic over them and rehearsals are well attended. The Kirmess will be the first real Kirmess held here in fifteen years, and a new generation of dancers has grown up. Although the dances are pretty well filled, there are some places vacant, and young people who would like to participate are invited to call at the Morgan Memorial chapel or on Miss Pettee. Rehearsals are being held daily.

Summer Students Here—The fourteen students of the Michigan College of Mines, of Houghton, who are in Marquette receiving instruction in the field from Professor A. E. Seaman are: J. Barry, D. Cayen, J. R. Dallas, J. Edlitz, J. Drake, E. Glass, P. Hines, H. Botsford, L. Ives, Arthur Fox, J. J. Perkins, J. J. Williams, L. A. Williams and R. G. Halter. The geological field trip is a feature of the summer instruction of the school. The boys are now learning the use of the dial and dip compass as applied to geological work. This consists of running section lines and mapping out the topography of the country. The geological phenomena of this district and the iron range between Ishpeming and Michigan are to be studied.

**BOY'S LEG CRUSHED IN ELEVATOR SHAFT**

YOUNG JAMES BECKMAN DIVES HEAD FOREMOST INTO CAR AND IS SERIOUSLY HURT.

When twelve-year-old James Beckman, son of Charles Beckman of 217 West Ohio street, dived head foremost into the ascending elevator in the Nester block yesterday morning, his feet were caught in the top of the doorway, and before William Weston, the elevator boy could stop the ascent, young Beckman's left leg was crushed between the wall of the shaft and the elevator floor. The left leg is fractured in two places above the knee and a quantity of skin is torn off of the boy's right leg.

The accident happened about 11 o'clock in the morning. The boy was playing in the hallway of the building and had taken several rides on the elevator. He was standing about six feet from the doorway just before he made a running jump and tried to enter the car as it started upwards. The doorway was half open, and as he lunged his body upon the floor of the car, his feet caught in the ironwork of the doorway. Weston, the operator of the car, who is fifteen years old, became excited and was unable to stop the car until it had almost reached the third floor. The boy's legs were dragged between the car and the shaft wall a distance of ten feet, as shown by marks on the plastering where his feet were ground into the wall. The injured boy was at once removed to St. Luke's hospital where his hurts were attended. His own explanation of the accident is simple. "I was trying to get a ride," he said, "and I jumped in. My leg caught in the door and it got smashed."

**MAIL CARRIERS TO COUNT POPULATION**

NEW CENSUS OF MARQUETTE TO BE TAKEN AND THE WORK BEGINS TOMORROW.

A new census of Marquette is to be begun tomorrow, and will be taken by the mail carriers of the city. In connection with the announcement, J. D. Mangum, the postmaster, has made a request of householders, and of the public generally, that all possible aid be given to the carriers in their canvass.

Each carrier is to thoroughly canvass his route, making a count of those who receive mail. Names will not be taken, but the number of the number of occupants will be noted, and it is in this particular that Mr. Mangum has asked co-operation. Those who receive mail at the various houses will be expected to tell the carrier the number living in each house.

To Increase Service.

At the present time the mail service includes seven regular carriers and one auxiliary man. The purpose of the census, so far as the postoffice is concerned, is to present the total number served by carriers in Marquette to the department at Washington, and a result which it is hoped will be achieved, is an increase of the force of carriers. The local office, Mr. Mangum says, requires at least one additional man, giving eight regular carriers, and one auxiliary.

The returns for the last government census gave Marquette a population of 10,058, and it is believed that this will be greatly exceeded by the returns of the mail carriers' census.

Parts to Be Covered.

As the service does not now cover the entire city, a canvass of the total population will not be made, but enough of the territory within the city limits will be covered to make an accurate estimate of the total population.

Those parts which will not be canvassed lie on the outskirts of the city, and are not served by mail carriers because the streets there are not yet supplied with sidewalks. Under the federal law governing free mail delivery, only those parts of cities which have sidewalks are served by carriers. Mr. Mangum recently stated that as soon as walks are built in Marquette on the edges of the city where the carriers do not now go, the mail service in those parts will be begun.

FUR DISPLAY.

Mrs. Andrews, representing the T. A. Chapman company, Milwaukee, has a very handsome display of Furs, Fur Coats, Jackets, Muffs, Neck Scarfs and other fur novelties at the Marquette Millinery Co.'s store, Nester block. (7-23-11)

Foster's Clearing sale is designed to clear all odds and ends, broken sizes and lots. In order to succeed, prices are very much reduced. (7-20-11)

**NEW MINE BUILDINGS AT SECTION TWENTY-ONE**

**J. WAHLMAN & SON STARTED WORK ON EXTENSIVE CONTRACT YESTERDAY—ELECTRIC PLANT WILL BE PUT IN LATER.**

The foundations for the new dry and boiler house to be erected at the Oliver Iron Mining company's Section 21 mine were recently completed by the company's workmen. J. Wahlman & Son were awarded the contract for the building a few weeks ago, when contracts were also let for several buildings being constructed at the Blue and Prince of Wales mines, and began work yesterday. The dry is to be located on top of the high ground, northwest of the engine house, near where the old blacksmith shop stood, and the boiler house is to be located west of the present boiler house. Both buildings will be constructed of brick inside the studding, with iron sheathing. The dry will be equipped with modern improvements, including steel wash tubs, lockers, shower bath, etc., and will also be provided with private changing quarters for the bosses. It will accommodate more than 300 workmen on both shifts.

Five boilers similar to the ones recently installed at the company's Section 16 mine are to be removed, and the old boiler house will either be torn down or used for storage purposes. The boilers have been given all the time they will need in which to complete their contracts, as the mine is now idle and there is no indication that underground operations will be resumed for some months at least, and perhaps not until spring. Both buildings will be enclosed before winter sets in, but it will be late in the winter before the boilers are ready for use.

Shipments of ore being made from the Section 21 stockpiles, but the tonnage going out is not large. The stockpiles are unusually large and it would keep two shovels busy from now until the close of the season to clear them out. The mine was closed in April, at which time there was very little stocking ground available. The ore produced is similar to that mined at the Regent group, Negaunee, as well as some of the company's properties on the other ranges, there being at present an over-production of that particular class.

**Electric Power Plant.**  
The Oliver company will soon or later install its own electric power plant. The foundation for the buildings was started a few months ago at the Section 16 mine, but orders to suspend work were soon after received from the head office in Duluth. It is thought that it will be decided to erect the plant at the Hard Ore property. The plant will ultimately furnish power for underground trams in the Section 16 and Lake mines, and to light the surface, the mine buildings and shaft houses.

**DIED AT HOSPITAL.**  
Harry Jennings, aged twenty-three years, died yesterday afternoon at the Ishpeming hospital, kidney trouble being the cause of his demise. He had been confined to the hospital ten days, having gone there a day after he was taken seriously ill at his boarding place. The deceased is a stranger here, having come to Ishpeming from Jersey City eight weeks ago. He had been in this country two years. A brother, Fred Jennings, resides here, and another brother, Stephen, arrived a few days ago from Jersey City to see him. The young man recently joined Trelawney Lodge, Sons of St. George, under whose direction the obsequies will be held. The time of the funeral will be decided on today.

**THE SONS ARE THANKFUL.**  
The committees from the Sir Humphrey Davey and Trelawney lodges of the Sons of St. George desire to express through The Mining Journal their appreciation of the many favors extended by the business men and citizens generally, also by the ladies who gave them such valuable aid in serving the meals. They are also grateful to all who assisted in making the different features of the celebration a success, including those who participated in the concert Saturday evening. The committee desires all those who have bills to send them to Stephen Terill, the secretary, as soon as possible.

**BIG STRETCH OF WALK.**  
A concrete walk is to be laid on the west end of Pine street from the corner of the Myers property to the Lake Superior and Ishpeming railway track, a distance of over 200 yards. The stretch of walk will be the longest in the town, and it will keep a good sized force busy for a week laying it. Much concrete work is being done, the contractors having thus far been unable to meet all the demands upon them, though they are making excellent headway, due to the fact that the weather has been favorable the greater part of the season.

**BEST MEDICINE IN THE WORLD FOR COLIC AND DIARRHOEA.**  
"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skipton, Ala. "I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy, I would have. I haven't been troubled with it since, and this week, when I had a very severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." For sale by The Stafford Drug Co.

Orders for piano tuning left at William Lehmann's furniture store, or at 200 Cleveland avenue, will be given prompt attention.  
J. G. B. ASTENUS,  
(7-18-141)

"What shall we have for breakfast?"  
"Why Cudahy's Peacock Ham and Eggs of course; they are always acceptable, especially at this season of the year."  
(11-27-e-o-d)

**GOES TO GREENE-CANANEA.**  
Robert M. Marble, Jr., who has been employed on the engineering staff of the Oliver Iron Mining company on this range for over two years past, has accepted a position with the Greene-Canaan Copper Mining company, and will leave for Cananea within a few days. He will assume the duties of his position August 1. Mr. Marble will be accompanied by his wife.

**ISHPEMING IN BRIEF.**  
C. J. Byrns is erecting a fine monument in his lots at the Catholic cemetery.  
Mrs. Mary Borggren, an old resident of the city, residing at the corner of Third and Bank streets, is critically ill.  
Mrs. T. M. Trenborth and daughter, Miss Irene, have gone to Chicago to spend three or four weeks visiting relatives.

**STEAM ROLLER IN TROUBLE.**  
Big Machine Sank Through Surface Near Northwestern Passenger Station.  
The city steam roller sank several feet into an old laundry on the Chicago & Northwestern Railway company's grounds east of the new passenger station yesterday afternoon. It was being used on the macadam which the company has been placing on three sides of the station during the past three or four weeks. The fact that there was an old laundry beneath the surface at that point was overlooked by the railway and city officials, otherwise the chance would not have been taken. The roller has sunk into similar holes several times during the past few weeks, the last time going down five or six feet on Cleveland avenue between Second and Third streets. The only thing that stopped the roller from sinking farther yesterday was the fire box which rested on the ground near the rear wheels. The laundry was in use about twenty years ago, extending from First street north of the railway tracks to Patridge creek on Bank street. A number of men worked at the roller several hours before it was raised to surface, it being necessary to use jack screws.

**ZIEHR IN MIXED MATCH.**  
Joe Ziehr, the Cornish wrestler, left yesterday for Laurium and Cufmet with Joe Willis, a wrestler from Chicago. While Ziehr does not claim to be an expert in catch-as-catch-can, it is said that he makes a very good showing and that it will take a good man to down him even in that style.

**HUMBOLDT GIRL DIES.**  
Miss Sanna Makela, daughter of Jacob Makela, a farmer residing at Humboldt, died Monday in a Marquette hospital, pneumonia being the cause. She was confined to the hospital but a short time and was recently operated on. The deceased was nineteen years of age. The remains were brought to this city and the funeral will be held this afternoon, with interment in the Ishpeming cemetery.

**FROM HOPKINS' CURB LETTER.**  
"Heavy buying of Amalgamated by foreign interests is beginning to attract considerable attention. There was considerable realizing in Superior & Pittsburg today, but the market accepted all offerings well and held at yesterday's figures. Greene-Canaan is well taken at all times around 16. Dividend talk is persistent and there appears to be considerable foundation for this talk. We anticipate a dividend during the next three months. London metal came decidedly weak this morning, the spot being quoted at 93 pounds, a decline of 1 pound 10 shillings."

**BAD BURN QUICKLY HEALED.**  
"I am so delighted with what Chamberlain's Salve has done for me that I feel bound to write and tell you so," says Mrs. Robert Wytton, 457 John St., Hamilton, Ontario. "My little daughter had a bad burn on her knee. I applied Chamberlain's Salve and it healed beautifully." This salve always the pain of a burn almost instantly. It is for sale by The Stafford Drug Co.

**MIDSUMMER EXCURSION TO DULUTH.**  
Via the South Shore, leaving July 25th and 26th, return limit July 29th. Fare for the round trip \$9.10. Attractions: Barnum & Bailey's circus at Superior July 26th, and at Duluth July 27th; the "White City" on Park Point; baseball games Houghton vs. Duluth. (7-11-26)

Hotel Williams, Grand Island, Munising Michigan, has increased its capacity by adding three two-room cottages with fire places. A large number of Ohio, Pennsylvania, Indiana and Illinois people have already booked reservations. (7-8-21)

**PERIODS OF PAIN**

While no woman is entirely free from periodic suffering, it does not seem to be the plan of nature that women should suffer so severely. Irregularities and pain are positive evidence that something is wrong which should be set right or it will lead to serious derangement of the feminine organism.

Thousands of women, have found relief from all periodic suffering by taking Lydia E. Pinkham's Vegetable Compound, which is made from native roots and herbs, as it is the most thorough female regulator known to medical science. It cures the condition which causes so much discomfort and robs women who are troubled with painful or irregular functions, of their health and strength by taking

**Lydia E. Pinkham's Vegetable Compound**

Miss Adelaide Nichols of 324 West 22nd Street, New York City, writes:—Dear Mrs. Pinkham:—"If women who suffer would only rely upon Lydia E. Pinkham's Vegetable Compound their troubles would be quickly alleviated. I feel greatly indebted for the relief and health which has been brought to me by your inestimable remedy."  
Lydia E. Pinkham's Vegetable Compound cures Female Complaints such as Falling and Displacements, and Organic Diseases, Headache, General Debility, Indigestion, and Invigorates the whole feminine system. For the derangements of the Kidneys of either sex Lydia E. Pinkham's Vegetable Compound is excellent.

**Mrs. Pinkham's Standing Invitation to Women**  
Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

**MANY ENTRIES FOR BALLOON RACE**  
Eight, and Perhaps Ten, Foreigners Will Compete in St. Louis.

New York, July 23.—A. B. Lambert returned yesterday from Europe on the steamer Deutschland. Mr. Lambert is very much interested in ballooning. He has been investigating the subject in Paris since last March. Mr. Lambert is one of the few Americans who are members of the Aero club of France, and he was also one of the organizers of the Aero club of St. Louis, which has been making the arrangements for the inter-Gordon Bennett balloon cup race on Oct. 21. Mr. Lambert was commissioned by his club to go to Paris and order a new balloon from one of the best French makers. This balloon was completed a short time ago, and a trial ascension was made with seven persons in the basket, Alan R. Hawley and Mr. and Mrs. Cortlandt Field Bishop of this city being among the passengers. The balloon has a capacity of 80,000 cubic feet. It is named the St. Louis club, but has been entered by the St. Louis club for the big race. It will be piloted by Mr. Hawley.

"We will have eight foreign aeronauts over for the race," said Mr. Lambert, "and perhaps a dozen. France has named two men; England will have one; and possibly two; Germany is sure of two; Spain will, perhaps, have a complete team of three, and there is a strong possibility that the international federation may reconsider its recent action in barring out the Italians, and let them in. The Italian team sent its entry a little too late, and on this technicality they were barred. Lieutenant Lahm, the winner of the cup for America last year, is now recovering from a severe attack of typhoid fever. He had a relapse, but seems to be the right man. He has had a new balloon, which he will call the United States, built for the race, and is anxious to defend his title to the trophy. Just before I left he told me that he expected to return to this country late in August."

"The first ascension that I made," continued Mr. Lambert, "was with Charles Levee, who was here with Count de la Vaulx two years ago. We went up from the Aero club of France's headquarters at St. Cloud in a gale of wind and went fifty-five miles in sixty-five minutes. There was absolutely no sensation of excessive speed. We attained an altitude of more than 6,000 feet, but sailed along with the wind just as peacefully as though blown by a zephyr. We were only twelve minutes passing over Paris and went directly over the Eiffel tower. We swept right through a tree in landing."

"My next trip was with Alfred Le Ranc. Mrs. Lambert went with us. It was her first trip, and we travelled 100 miles, coming down near the Belgian frontier. We were up six hours, the scenery was delightful, and Mrs. Lambert has been begging me ever since to buy a balloon so that she can sail over St. Louis occasionally. I have got options on four fine French balloons which the Aero club of St. Louis or syndicates of members will probably buy."

Mr. and Mrs. Lambert left for St. Louis last night.

### Notice to Contractors.

Notice is hereby given that bids from  
contractors for the erection and completion  
of a high school building to be built  
at Negaunee, Mich., in accordance with  
plans and specifications prepared by  
John D. Chubb, architect, will be re-  
ceived by the undersigned at any time  
up to Aug. 22nd, 1907, at 8 o'clock p. m.;  
all bids to be addressed to Mr. Cy-  
ril Houle, secretary school board, Negaunee,  
Mich.; same to be opened at 8  
o'clock p. m. on Aug. 22nd, 1907. All  
rights being reserved to accept any or  
to reject any or all proposals.

Contractors will be furnished with  
plans and specifications upon application  
to the undersigned. Each contractor re-  
ceiving plans and specifications for es-  
timating must leave a deposit of \$10 as  
a guaranty for the return of same with-  
in twenty days to Mr. Cyril Houle,  
secretary school board, Negaunee,  
Mich. In case the plans and specifications  
are not returned as above stated,  
the deposit of \$10 is to be forfeited and  
used for the purpose of making another  
copy for the use of other contractors  
requiring same. The same applies in  
case contractors who retain plans for  
twenty days fail to submit a bid on said  
work.

Dated Negaunee, Mich., July 22, 1907.  
CYRILLE HOULE,  
Secretary School Board,  
Negaunee, Mich.  
(7-23-17)

### Notice to Contractors.

Notice is hereby given that specifica-  
tions of material and labor for plumbing,  
sewerage and gas fitting for high school  
building for Negaunee, Michigan, are  
now on file with the secretary of the  
school board. Contractors desiring to  
submit bids upon this work may ob-  
tain a copy of the specifications upon  
application. All bids are to be ad-  
dressed to Mr. Cyril Houle, secretary  
school board, Negaunee, Mich.; same to  
be opened at 8 o'clock p. m. on Aug.  
22nd, 1907. All rights being reserved to  
accept any or to reject any or all propo-  
sals.

Dated Negaunee, Mich., July 22, 1907.  
CYRILLE HOULE,  
Secretary School Board,  
Negaunee, Mich.  
(7-23-17)

### FUR DISPLAY.

Mrs. Andrews, representing the T. A.  
Chapman company, will be at the Brei-  
ting House, Negaunee, Thursday, Friday  
and Saturday, with a full line of furs  
from this well known house. Please call  
and make an inspection. (7-23-17)

## Negaunee Department

### NEGAUNEE MAN RECEIVES HONOR

C. V. R. TOWNSEND APPOINTED BY  
GOVERNOR TO COMMISSION OF  
INQUIRY ON STATE LAND  
QUESTION.

C. V. R. Townsend, agent of the  
Cleveland-Cliffs Iron company's land de-  
partment, has been appointed a member  
of the commission of inquiry to investi-  
gate the forestry conditions in the state,  
with a view of recommending whether  
delinquent tax lands shall hereafter be  
sold or reforested. The appointment  
came unsolicited by Mr. Townsend, who  
received his commission Monday evening.

The governor has advised Mr. Town-  
send that the first meeting of the com-  
mission will be held July 31 at the  
executive parlors at Lansing. It will be  
the duty of the commission to make the  
necessary preliminary investigations and  
to prepare and submit a report to the  
next legislature, setting forth a com-  
prehensive plan for the protection and  
improvement, utilization and settlement  
and management of the delinquent  
tax lands now owned or hereafter ac-  
quired by the state, and other lands,  
to the end that the state may hereafter  
pursue a consistent policy in reference  
thereto. The commission is temporary  
and consists of nine members. The gov-  
ernor was required to select men special-  
ly qualified for the work. The members  
of the commission are to serve without  
pay, but are to be allowed the expenses  
incurred by them in performing their  
duties.

It is also the duty of the commission  
to offer suggestions relative to means  
for the prevention of fires in forests or  
waste lands owned by the state; likewise  
for preserving and increasing the water  
supply of the rivers, streams and lakes  
and in reforestation; the protection  
from trespassing and other depredations  
of timber growing on lands in which  
the state is interested, and possible  
plans to further and encourage the set-  
tling up and improvement of the delin-  
quent tax lands.

### Need of Fire Protection.

Mr. Townsend yesterday said that  
ways and means should be adopted for  
the better protection against fire of the  
lands owned by the state, as well as  
those owned by corporations and indi-  
viduals. The problem of how to best  
protect the extensive timber lands of  
the Cleveland-Cliffs Iron company has  
been one most difficult to solve, and there  
is continued loss on this part of the  
officials that some day great damage  
will result from fire. Some damage oc-  
curs every summer, principally in dis-  
tricts where farmers are cleaning up  
lands. Mr. Townsend believes that the  
state can be served to excellent advan-  
tage by the appointment of wardens  
whose duty it shall be to report mat-  
ters pertaining to forest fires and to  
keep their superior officers informed as  
to the general conditions in their ter-  
ritory.

Under the present game laws wardens  
in that department are expected to give  
the matter of timber protection some  
attention. In many places where fires  
are started for the purpose of consuming  
dry leaves much valuable fertilization  
is wiped out. Where there is a heavy  
accumulation of leaves a fertile soil is  
usually found beneath.

The Cleveland-Cliffs company is doing  
much toward the protection of the forest  
products of the upper peninsula and its  
officials are always willing to aid in the  
work. The company recently established  
a nursery at Coldwood, Alger county,  
for the purpose of raising trees for refo-  
restation purposes. A portion of the  
company's nursery in Negaunee has been  
used for that purpose for some years  
past, but the place is not large enough  
to permit of a large number of trees  
as the company intends to transplant in  
future years. Several hundred acres  
have been reforested in this section,  
but henceforth the work is to be con-  
ducted on a much larger scale and will  
be limited only by the number of trees  
available for transplanting. The com-  
pany is just now conducting an experi-  
ment in the raising of trees suitable for  
pulp wood, and thousands of young pines  
are under way.

### NEW BOARD ORGANIZED.

Dr. A. W. Haidle has returned from  
Detroit, where he attended the organiza-  
tion meeting of the state board of den-  
tist examiners, to which he was appointed  
by Governor Warner. The board is  
composed of five members. Dr. C. H.  
Oakman of Detroit was elected president  
and Dr. E. A. Hovey of Kalamazoo is  
secretary and treasurer. The other two  
members are Dr. A. L. Le Gro of Det-  
roit and Dr. A. B. Robinson of Grand  
Rapids. The board's first meeting for  
the examination of applicants will be  
held at the state university the middle  
of November.

### TO FINNISH REUNION.

John Hogberg, Henry Trevarari and  
six other members of the Negaunee  
branch of the Finnish Temperance so-  
ciety went to Calumet Monday to at-  
tend the annual convention of the Na-  
tional Finnish Brothers association,  
which convenes there tomorrow morning.  
Others went yesterday, and a delega-  
tion has planned to leave today. The  
reduced rates of fare will be in effect  
from now until Saturday. The Finnish  
band of Ashtabula, O., will go to Calu-  
met today.

### TAKE THE POSTMASTER'S WORD FOR IT.

Mr. F. M. Hamilton, postmaster at  
Cherryvale, Ind., keeps also a stock of  
general merchandise and patent med-  
icines. He says: "Chamberlain's Colic,  
Cholera and Diarrhoea Remedy is stan-  
dard here in its line. It never fails to  
give satisfaction and we could hardly af-  
ford to be without it." For sale by The  
Stafford Drug Co.

### BIDS WANTED AT ONCE.

Contractors Given Thirty Days in Which  
to Figure on New School Building.

In this issue of The Mining Journal  
is an advertisement calling for bids for  
the construction of the new high school.  
Specifications for material and labor for  
the building proper, also for plumbing,  
sewerage and gas fitting, are on file at  
the office of Cyril Houle, secretary of  
the board. Copies of the plans and speci-  
fications can also be seen in the Chicago  
office of J. D. Chubb, the architect. The  
bids are to be opened Aug. 22, at 8  
o'clock p. m., and the board reserves the  
right to reject any or all of them. As  
the job is to be a big one the board has  
given the contractors ample time to do  
their figuring, also to obtain prices on  
the iron and other material needed. Each  
contractor bidding on the work will be  
asked to leave a deposit of \$10 with the  
secretary as a guarantee of the safe re-  
turn of the specifications. As will be ob-  
served by the board's advertisements  
separate contracts will be awarded for  
the general construction work, plumbing  
and sewerage. Bids for the steam heat-  
ing are to be called for later.

### JULIUS JACOBSON HOME.

Negaunee Man Has Visited Many Points  
of Interest.

Julius Jacobson, who left here seven  
months ago on a tour through the south  
and west, arrived home yesterday. He  
visited many of the principal points of  
interest in South America, Cuba, the  
Panama canal zone, California and a  
number of other states.

Mr. Jacobson traveled from one end of  
the Panama canal zone to the other and  
he said yesterday that the work being  
conducted there is marvelous. While he  
did not ascertain the exact number of  
steam shovels in operation, there are  
hundreds of them, and over 50,000 men  
are employed on the canal, which will be  
forty miles in length, from Panama to  
Colon. Mr. Jacobson had a letter of in-  
troduction to one of the superintendents  
of construction on the job and he was  
shown every possible courtesy. He spent  
three weeks in the canal zone. At one  
point in the state of Colon the cut will  
be 180 feet deep, where it passes through  
a mountain, and the men are now down  
ninety feet. The work of removing the  
rock is comparatively easy, it being very  
soft. In some places it can be removed  
by the steam shovel without blasting.  
The hotels are about the worst thing  
that Mr. Jacobson found in the Panama  
district. The best of them are bad, and  
the poorest are indescribable. There is  
practically no sickness in the district,  
and the work appears to be progressing  
satisfactorily.

Mr. Jacobson spent several days at the  
Isle of Pines, but was not favorably im-  
pressed with the country, principally be-  
cause of the unsettled conditions pre-  
vailing there. Numerous depredations  
are committed by the natives and the  
land owners are about the worst thing  
that Mr. Jacobson found in the Panama  
district. The best of them are bad, and  
the poorest are indescribable. There is  
practically no sickness in the district,  
and the work appears to be progressing  
satisfactorily.

Mr. Jacobson spent several days at the  
Isle of Pines, but was not favorably im-  
pressed with the country, principally be-  
cause of the unsettled conditions pre-  
vailing there. Numerous depredations  
are committed by the natives and the

district. The best of them are bad, and  
the poorest are indescribable. There is  
practically no sickness in the district,  
and the work appears to be progressing  
satisfactorily.

### ELECTRIC THEATER CLOSES.

Allison's Electric theater, in the Post-  
office block, has been closed. The house  
has enjoyed a good patronage, and has  
made money, but through the reluctance  
of the insurance companies to keep the  
policy in force covering the building  
and Mr. Allison's own property there-  
in, it is announced that no more per-  
formances will be given. Possibly Mr.  
Allison will reopen the theater at some  
new location, but this is a matter for  
the future to determine.

### LOCAL LACONICS.

C. H. Rutledge, the Anti-Sabon league  
organizer, was in Negaunee yesterday.

Miss Berdie Paynter has left for St.  
Peter, Minn., on a visit to her sister.

William Lucas, a former resident, was  
in the city visiting friends yesterday.

Mrs. A. L. Hoeking of Republic is in  
Negaunee, visiting her mother, Mrs. Wil-  
liam Newcombe.

Miss Maika Noisau, who has visited  
the Dyer family the past week, will re-  
turn to her home at Hubbell today.

R. G. Jackson arrived home Monday  
night from Jackson, where he attended  
a meeting of the board of control of the  
Old Fellows home.

E. E. Buxlett, a former operator at  
the South Shore station here, now lo-  
cated at Seattle, Wash., arrived in the  
city yesterday morning.

Thomas M. Solar, who has the con-  
tract for the construction of the Odd  
Fellows block, will begin laying the  
concrete for the foundation today.

Gust Anderson, who recently com-  
pleted a course at the Ishpeming Busi-  
ness college, has accepted a position with  
the Cleveland-Cliffs Iron company at  
Princeton.

The Misses Emma and Alice Quinn of  
this city and their friends, Miss Mary  
Brown and Miss Mary Griffin of Chi-  
cago, are spending the week at Persson's  
camp, south of Ishpeming.

John Gherli and daughter have left  
for his old home in Italy, where they  
will spend three months. The trip is  
being taken in the hope that it will  
benefit the little girl's health.

William Verran, who attended the an-  
nual convention of the Michigan grand  
body of the Ancient Order of United  
Workmen, held recently in Detroit, later  
visiting Chicago and Joliet, Ind., has re-  
turned home.

The Negaunee patrons of the Mar-  
quette County Gas & Electric company,

been returned to us in exchange for larger sizes.

## Lake Shore Engine Works

who are using either gas or electricity,  
have received special invitations to at-  
tend the cooking demonstrations being  
conducted at the company's Ishpeming  
office by Miss Lyons.

The funerals of Nazer and Alfred Rem-  
illard, the victims of the drowning fa-  
tality at Peal lake Sunday night, will  
be held this morning at 9 o'clock from  
St. Paul's church. Nazer was a member  
of the French societies of Ishpeming and  
Wilford was a member of the French  
society of Negaunee, also the Negaunee  
Protective league.

Rev. Frank Piazza, assistant to Rev.  
J. A. Keul, pastor of St. John's church,  
Ishpeming, visited the Italian families  
in Negaunee Monday. He found over  
500 in this city. Most of the Italians  
live at the Cambria and Lillie mine loca-  
tions. Rev. Piazza will conduct mass  
at St. Paul's church next Sunday morn-  
ing at 10 o'clock, and will preach in  
Italian.

### TRUST INQUIRIES NEAR END.

REPORTS SOON WILL BE MADE BY  
COMMISSIONER.

Mr. Smith has investigated ten big  
industries—Another Report Coming on  
Standard Oil—It Will Relate to Prices  
and Profits—Harvester Case Being  
Considered—Study of Patent Rights—  
Special Reference to Inventions of  
Government Employees.

Washington, July 23.—Three of the  
ten big trust inquiries which the bureau  
of corporations is conducting are draw-  
ing to a close. Before congress convenes  
Commissioner of Corporations Smith will  
have reports ready on the oil, tobacco  
and steel industries, with work on other  
industries well advanced.

The ten inquiries to which this bureau  
is devoted embrace the following indus-  
tries and enterprises: Oil, tobacco, steel,  
lumber, harvester, telegraphs, canals,  
coastwise, traffic and cotton exchanges.  
Within the next two weeks the bureau  
will make public another report on the  
Standard Oil company. This one will  
relate to prices and profits of the oil  
business, and will enable the public to  
understand why stock of this corpora-  
tion commands such an enormous figure.

Within the next two weeks the bureau  
giving the result of a special inquiry in-  
to the new oil fields in the interior and  
in the California district. Lastly, there  
will be a report on the foreign trade of  
the Standard Oil company. Agents of  
the department of commerce and labor  
are still abroad studying the field in  
Europe, the Orient and Africa.

Information as to the operations of the  
harvester trust will be used by Attorney  
General Bonaparte in determining  
whether a successful prosecution of that  
trust corporation can be maintained. It  
is said now that the attorney general  
will not be able to make up his mind if  
the harvester cases until fall, as he has  
just started on a long vacation, which  
will occupy him at least two months.

The investigation of the general sub-  
ject of patent rights is the latest in-  
quiry undertaken by the bureau. It is  
to have particular reference to the abuse  
of the right of patents by officers of the  
government who have perfected their  
inventions in the laboratories and on the  
time of the government while occupied  
in their official duties. The most flag-  
rant case was that of Rear Admiral Con-  
verse and Lieutenant Bernard of the  
navy. They invented the smokeless  
powder now in use in the navy. The  
government has the right to manufac-  
ture this powder free for its own use,  
but the powder mills independent of the  
trust cannot violate the patent Converse

and Bernard took out and sold to the  
Dupont trust.

The government must build its own  
mills or pay the prices fixed by the pow-  
der trust, because the independents can-  
not compete at all. They are barred  
from government powder contracts by  
two government powder experts, and the  
trust has grown rich out of the United  
States.

An army officer has a patent for a  
cartridge belt, and there are several  
cases in the postoffice department of the  
same abuse. This information obtained  
by the bureau already is in such shape  
that it will be submitted to congress  
early in the next session. The patents  
already taken out are legal enough but  
congress will be asked to enact laws  
prohibiting the issuance of patents for  
inventions perfected at the expense of  
the government and by its own em-  
ployees.

The investigation of the relations of  
the railroad to the canals and the coast-  
wise, sea and lake traffic is producing  
interesting developments. This informa-  
tion as fast as it is secured by the bu-  
reau of corporations is being turned over  
to the waterways commission appointed  
by President Roosevelt. It shows plain-  
ly that the railroads today practically  
control all the canals and the coastwise  
trade of the country, at least to the  
point of dictating rates.

As regards the coastwise carrying  
trade it is doubtful if the general public  
has any idea of the extent to which  
the railroads have seized it. Railroads  
own steamship lines running from Buf-  
falo to Chicago and Duluth. The New  
York, New Haven & Hartford railroad  
owns the popular Fall River line of  
steamships, as well as those running to  
Providence and other points on the  
Sound. The lines to the Isthmus are

### The Cause of Many Sudden Deaths.

There is a disease prevailing in this  
country most dangerous because so decep-  
tive. Many sudden  
deaths are caused  
by it—heart dis-  
ease, pneumonia,  
neuritis, failure of  
apoplexy after  
the result of kid-  
ney disease. If  
kidney trouble is  
allowed to advance  
the kidney-poison  
ed blood will at-  
tack the vital organs, causing catarrh  
of the bladder, or the kidneys themselves  
seak down and waste away cell by cell.  
Bladder troubles almost always result  
from a derangement of the kidneys and  
cure is obtained quickest by a prop-  
er treatment of the kidneys. If you are  
feeling badly you can make no mistake in  
taking Dr. Kilmer's Swamp-Root, the  
great kidney, liver and bladder remedy.  
It corrects inability to hold urine, ac-  
cording pain in passing it, and over-  
comes that unpleasant necessity of being  
compelled to go often through the day  
and to get up many times during the  
night. The mild and the extraordinary  
effect of Swamp-Root is soon realized.  
It stands the highest for its wonderful  
cures of the most distressing cases.

Swamp-Root is pleasant to take and  
sold by all druggists in fifty-cent and  
one-dollar size bottles. You may have  
single bottles of this wonderful new di-  
uretic and a book that tells all about it  
sent free by mail. Address, Dr. Kil-  
mer & Co., Binghamton, N. Y. Who  
criticizing mention reading this gener-  
ous offer in this paper. Don't make an  
mistake, but remember the name, Swamp-  
Root, Dr. Kilmer's Swamp-Root, and the  
address, Binghamton, N. Y., on ever  
attile.

run in co-operation with the Pacific  
Mail, and Hill and Harriman are in con-  
trol of the Pacific coast trade from Seat-  
tle to San Diego. It used to be thought  
the waterways were free, but the rail-  
roads have driven out the tramp steam-  
ship on all regular lines just as surely as  
the steamers have driven out the sails.

### REPORTS ON BENECIA ARSENAL.

General Crozier Returns to Washington  
from the Pacific Coast.

Washington, July 23.—General Crozier,  
chief of ordnance, has returned from the  
Pacific coast where he examined the  
Benecia arsenal in California, for the im-  
provement of the plant of which congress  
has made an appropriation. General  
Crozier found the affairs of the arsenal  
in good order and confirmed the plans  
for its improvement. In order to main-  
tain the force of trained mechanics and  
keep open the line of supply of ordnance  
material necessary to make the Benecia  
arsenal of greatest value to the war de-  
partment, General Crozier has planned  
to have constructive work undertaken  
there to a moderate extent.

### WELL DESERVED.

The Praise That Comes from Thankful  
Marquette People.

One kidney remedy never fails.  
Marquette people rely upon it.  
That remedy is Doan's Kidney Pills.  
Marquette testimony proves it always  
satisfies.

James Rivers, teamster, of 159 West  
Washington street, Marquette, Mich.,  
says: "I have used Doan's Kidney Pills  
and know from experience that they  
sure backache. I hurt my back a few  
years ago. I limped around for several  
days but seemed to get all right again so  
I paid no more attention to the trouble.  
About six months after I noticed every  
one in a while I would have a catch in  
my back if I would change my position  
quickly. If standing or sitting still for  
a while, and moving suddenly this catch  
would be the result. This generally af-  
fected the small of my back. I paid no  
attention to it at first but the attacks  
became more frequent and lasted longer  
than before and would always leave a  
full pain which became a source of an-  
noyance. It finally became so bad that  
I could scarcely stoop forward to pick up  
anything. I put on a kidney plaster and  
it gave me temporary relief but the  
weakness soon returned. I read a great  
deal about Doan's Kidney Pills and the  
cures they effected, so when my back  
was real bad I sent to Stafford Drug  
Co.'s store for a box and began their use.  
They went straight to the seat of the  
trouble and gave me relief in a very  
short time. I used only two boxes and  
was cured. I can lift as much today as  
I ever could and have had no backache  
since I took Doan's Kidney Pills."

For sale by all dealers. Price 50 cents.  
Keep a bottle of this wonderful new di-  
uretic and a book that tells all about it  
sent free by mail. Address, Dr. Kil-  
mer & Co., Binghamton, N. Y. Who  
criticizing mention reading this gener-  
ous offer in this paper. Don't make an  
mistake, but remember the name, Swamp-  
Root, Dr. Kilmer's Swamp-Root, and the  
address, Binghamton, N. Y., on ever  
attile.

### DECISION GIVEN IN ROSS ESTATE SUIT

PROPERTY FORMERLY OWNED BY JAMES GIBB ROSS IN UPPER PENINSULA INVOLVED.

### HE ONCE HELD 24,000 ACRES

Jay L. Newberry and Lou J. LeVeque Lose Timber Case Which They Brought Against the Chicago Lumber Company.

The ruling of Judge Steere in the case of Jay L. Newberry and Lou J. LeVeque versus the Chicago Lumber company, tried in the circuit court for Schoolcraft county, has to do with the estate of James Gibb Ross, formerly owner of more than 24,000 acres of timber land in the northern peninsula. The ruling is in favor of the Chicago Lumber company.

Ross, the owner of the land, died in October, 1888. By his will, which was not probated until July, 1903, he left everything he had to his brother, Frank Ross, who was directed to use one-half of it for public Protestant charities in Quebec, where Ross lived, and in Carleton Place, Canada.

#### Sold Timber.

James Connolly became administrator of the estate and agent of the Ross heirs, and while administering the estate he sold the timber on certain of the lands to the Chicago Lumber company. At this time certain claims against the estate, and notably one held by Thomas G. Sullivan for \$100,000 were allowed by the probate court of Marquette county, but were not paid. About this time James Russell, who had taken Mr. Connolly's place as administrator, having been appointed by the court, in December, 1900, filed a suit against the Chicago Lumber company, Frank Ross, John Theodore Ross, Frances Ella Ross Fitzgerald, and the heirs of Anna Ross and William Ross, deceased.

It was alleged that claims against the estate exceeding \$100,000 had not been paid, although they had been allowed, and it was also charged that Administrator Connolly had, without order of court, sold lands and timber, sometimes executing deeds as administrator, and at other times as attorney for the Ross heirs.

#### Accounting Asked For.

The bill in the suit asked that the Chicago Lumber company, Frank Ross and the other heirs be compelled to account for and pay over to Russell, as administrator, the value of all timber that had been disposed of. An injunction to restrain the lumber company from cutting additional timber on the lands was also asked for and was granted. The bill was subsequently modified and dissolved.

After the suit was filed the claims against the estate were adjusted. The time within which the timber, which had been sold to the Chicago Lumber company should have been cut according to the contract, expired but was extended by Connolly. Newberry and LeVeque bought certain parts of the land from the Ross heirs through Connolly and although through him, they induced Frank Ross to sign over all rights of action that Ross might have.

#### The First Suit.

Newberry and LeVeque then, alleging that the Chicago Lumber company had cut and removed timber from the land which they had bought, after the time limit fixed by the original contract had expired, brought suit in the name of Frank Ross in the United States district court at Marquette. Ross repudiated this suit, saying that he had no claim against the lumber company, and it was dismissed. Then Newberry and LeVeque brought suit against the lumber company in their own names in the circuit court at Marquette. A small judgment was rendered and a new trial was asked for and granted. This trial was before

Judge Steere last April and the opinion adverse to Newberry and LeVeque is the outcome of the trial. The amount that was asked for was \$30,000.

The opinion of the court in the case is that "when Ross assigned to Newberry and LeVeque all claims he had for trespass and non-payment of taxes on lands previously conveyed to them, he neither had, nor claimed, nor intended to convey any claim or claims against the Chicago Lumber company for unlawfully cutting or removing timber."

The Chicago Lumber company was represented throughout the proceedings by the firm of C. R. Brown & Son of Marquette.

### MAN INSULTS OLD GLORY IS JAILED

BRITISH SUBJECT TEARS STARS AND STRIPES FROM FLAG STAFF AND IS PUNISHED.

For showing disrespect to the stars and stripes, James Grant, a subject of Great Britain, yesterday was taken to the county jail where he is to serve a term of thirty days, besides having to pay a fine of \$10. He was convicted of the offense in the court of Justice of the Peace John Gumsolley of Birch, and the maximum punishment was inflicted. At the hearing Grant denied that he was guilty.

#### Witnesses Convict Him.

Witnesses, who said they saw him commit the offense, declared that they watched Grant last Saturday night as he entered the yard of Frank Craig at Birch. They saw him tear down the flag which was flying from a staff in the yard and throw it on the lawn, they said. Craig, who owned the flag is a representative of the Northern Lumber company at Birch, and the flag was a part of his Fourth of July decoration which had been allowed to remain in the yard.

No reason could be ascertained for the man's action, and when questioned, he declined to talk about it. He was brought to Marquette by Deputy Sheriff M. W. Shea, who made the arrest.

#### Another Prisoner.

Another prisoner, who was arrested by Deputy Sheriff Shea, and who was brought here after being convicted in the court of Justice of the Peace Gumsolley at Birch, is James McMillan, who is to serve a term of sixty days upon a charge of larceny. McMillan was caught at a lumber camp, and the charge upon which he was convicted is that he stole a gold watch. The theft was committed last Sunday night and Shea arrested the prisoner yesterday.

#### WIDENER AND MORGAN HERE.

Two Big Ore Boats Are to Sail Today and Number of Others Coming.

The Peter A. B. Widener and the J. Pierpont Morgan, two of the largest ore boats on the lakes have been in port since yesterday loading and are expected to sail today with cargoes of more than 11,000 tons each. The Elbert H. Gary which is just thirty feet shorter in length than the two boats now at the ore docks, each of which is 600 feet long, sailed Monday with a cargo of ore which ran about 10,000 tons. The Gary is commanded by Captain R. Holte and is bound for Loraine on Lake Erie. The Morgan will sail for the same port. The Widener is from South Chicago and will return there with her cargo. The Morgan is commanded by Captain A. P. Chambers and Captain John Love commands the Widener.

During the week the George W. Perkins, commanded by Captain Moody and the Henry Plupps, which is a boat the same size as the Widener and the Morgan, are expected in port. The Plupps is commanded by Captain William McGregor.

Foster's Clearing sale is causing quite a stir. The store is dotted inside and throughout with red price tickets.

### PLANS MADE FOR BIG CELEBRATION

MASONIC LODGE WAS ORGANIZED IN MARQUETTE FIFTY YEARS AGO BY SEVEN MEN.

IT NOW HAS 260 MEMBERS

Picnic to Be Held in the Daytime at Presque Isle and Dance and Reception Will Be Given at Night.

Fifty years ago seven men organized the first Masonic lodge in Marquette, and on Aug. 22 next, the anniversary of the founding of the lodge is to be celebrated by all Marquette Masons. The seven officers of the lodge, which was founded in 1857 were: George T. Barney, worshipful master, Cornelius Donkersley, senior warden, and George P. Cummings, junior warden. The four charter members were: James J. St. Clair, Henry Safford, Charles Johnson, and Ariel N. Barney. The body was organized under a dispensation granted at that time by Levy Cook, who was then the grand master of Masonry of Michigan.

Five months after the lodge was organized, the charter was granted. That was January 15, 1858. At that time the order here had seventeen members: George T. Barney, Cornelius Donkersley, George P. Cummings, Henry Safford, Charles Johnson, Ariel N. Barney, Homer H. Stafford, Arad Kent, Alex G. Ross, J. P. Van Idering, H. M. Woolmer, Hubbard Wells, Edward Breitung and John T. McGregor. The officers of the lodge then were: James St. Clair, W. M.; Peter White, S. W.; and Matthew H. Maynard, J. W.

Twenty-five years ago the first celebration of the founding of Blue lodge was celebrated in Marquette. The order now has a membership of 260, and is one of the leading Masonic lodges of the state.

#### Present Officers.

The present officers of Blue lodge are: O. E. Brown, W. M.; Frank Monroe, S. W.; F. M. Moore, treasurer; H. J. Lohdell, secretary; Roderick McKenzie, S. D.; Ernest Pearce, J. D.; and Frank Wentworth, tiller.

The order of events for the celebration will be, first a basket picnic at Presque Isle. This will take place in the daytime and will be for all Marquette Masons and their families, and also for the families of deceased Masons. A band concert will be given and the members of the order will compete in athletic games. In the evening a reception and a dance will be given in the hall. The following committees are arranging the celebration: Committee on Reception—W. W. Osband, D. W. Powell and John Robertson. Committee on Picnic—F. G. Jenks, W. H. Vanderstine, and P. J. Delf. Committee on Invitations—Frank Monroe, K. P. Brooks and Ernest L. Pearce.

Committee on Refreshments—Louis Pendill, J. B. Reany and W. A. Ulrich. A trip to Foster's Clearing sale is profitable.

#### TAN OXFORDS.
