

GOVERNOR WARNS STRIKING MINERS

Notice Is Served That Interference or Violence on the Mesaba Range Will Mean the Calling Out of State Troops.

Prediction Is Made the Tie-Up Will End Shortly, and Already Men Are Returning to Work in the Virginia District—Much Depends on the Situation at the Ore Docks, and Negotiations Are On Looking to the Resumption of Shipments.

Virginia, Minn., July 25.—The strike of miners here appears to be over. All is quiet, and the men are going back to work.

Eveleth, Minn., July 25.—Governor Johnson arrived here this afternoon, Organizer Petrella, of the Western Federation of Miners, told the governor that he would discontinue violence because it would hurt the cause of the men on trial at Boise. There was a parade of 2,000 miners, with a brass band and American flags. The governor talked with Mayor Jensen, John McNair and other strike leaders. They promised there would be no violence.

McNair asked the governor to use his influence in their behalf for arbitration. "What would you do if a committee of three decided against you?" was asked. District Leader Kohn replied: "We should want equal representation on such a committee." He said that the union referred each important question to the headquarters at Denver.

State's Protection Guaranteed Workers. Duluth, July 25.—Unless the conditions become more aggravated, state troops will not be called to the Mesaba range. This decision was reached by Governor Johnson today after inspecting the state of affairs at Hibbing, Virginia and Eveleth, the principal towns in the strike district. At Hibbing the governor met Todd Petrella, manager of the strike for the Western Federation of Miners. At Eveleth, 100 strikers escorted him to the city hall. The governor said that the state would protect every man who wishes to go to work; would tolerate no interference from the strikers, and should there be any state troops would be called out. He counseled all to be calm. No strikers strike will be settled soon depends in large measure upon a conference in the Steel corporation building tonight between representatives of the new Ore Handlers' union and the railway officials. It is believed that if the corporation recognizes the new union, the strike will be short.

Eveleth, July 25.—It was stated here today that there was a chance that the strike would be declared off by the first of next month. This statement was made by men close to the Western Federation of Miners and is given considerable credence by people familiar with the situation.

STRIKE EPIDEMIC HEADED OFF. Precautions Taken by Vermilion Citizens to Prevent Outbreak There.

Tower, July 25.—The citizens of this city and Soudan held a public mass meeting at the city hall at which resolutions were passed which deplored the present labor conditions on the Mesaba and pledged the city to take all precautions to prevent the spread of the trouble to the Vermilion range.

The meeting was attended by about 1,000 people. Speeches were made by Captain Morton, W. H. McQuade and Samuel Kitta. They all held on to the fair dealing which the steel company accorded the employees at all times and condemned the actions of the strikers. The following resolutions were unanimously endorsed by the gathering: "Whereas, an organization known as the Western Federation of Miners has taken upon itself to dictate to the employees of the Oliver Mining company on the Mesaba and Vermilion ranges whether they shall work or not, regardless of the employees' opinions, thus causing dissatisfaction and strife between the company and its employees and also using force to intimidate men who are perfectly satisfied with their wages and wish to remain at work; and

"Whereas, the employees of the Oliver Mining company at the Soudan, engaged in mining operations are satisfied with the existing conditions, including wages and are working in harmony with the company;

"Resolved, that we the citizens of the towns of Soudan and Tower at a representative meeting here tonight do denounce the presence of outside labor agitators, and especially those of the Western Federation of Miners, who methods we deplore; and be it further

"Resolved, that we believe the wages now being paid to the employees of the Oliver Mining company are fair and satisfactory and there is no necessity for a strike or any interruption of business in this vicinity; and be it further

"Resolved, that the Western Federation of Miners as an organization is a menace to society and its best interests and it is our intention to maintain our business integrity against all comers."

PERE MARQUETTE INQUEST.

Northville, Mich., July 25.—General Superintendent W. D. Trump, of the Pere Marquette railroad, testifying today at the coroner's inquest into Saturday's fatal wreck at Salem, said: "The person supremely responsible for the wreck is the man who failed to carry out orders." Trainmaster L. E. Cain

FEARS LOSS OF CATTLE. Farmer Wants Militiamen Enjoined from Using State Rifle Range.

Springfield, Ills., July 25.—Michael Donovan, whose farm adjoins Camp Lincoln, where the Illinois National Guard is holding its annual school of instruction, today filed a bill in the Sangamon circuit court, asking that a restraining order be issued against Adjutant General Scott and the colonels of the regiments, adjoining them from using the rifle range on the ground that poor marksmen might kill his cattle. The case will be argued tomorrow.

OPERATORS FEARFUL OF LABOR FAMINE. ARMY OF MEN HAS LEFT THE MESABA, AND THE EXODUS STILL CONTINUES.

Hibbing, July 25.—Several thousand miners, pit men and railroad men have already departed from the range, and the exodus continues. By every outgoing train from all of the towns, miners are departing for the west. Some go to the harvest fields and others buy tickets to Seattle and Vancouver, the headquarters of a big interurban electric railroad that has been in immediate want of 200 shoveler men.

An average of 200 men have been leaving Hibbing daily. Representatives of railroads at Duluth have looked to the range in an endeavor to obtain a proportionate share of the business. Many miners are leaving for foreign lands, the home of their birth. Most of these are taking advantage of the strike to see the folks at home and intend to return after the difficulties are settled. The Western Federation of Miners has made railroad business especially good on the range—the passenger end of it—and the Duluth representatives are getting so much business for their railroads that the ticket printing shops may have to work overtime. This exaggeration is not as ludicrous as it might seem. Through the generosity of the United States Steel corporation the shovel men got a big bonus when they received their pay, and the funds enabled them to leave. If the steel strike Duluth were settled today it would be some little time before the pits on the Mesaba range could begin to pay their usual pro rata basis, on account of the exodus of engineers and other skilled workmen connected with the steam shovels.

About 4,000 men have left the Mesaba range for a temporary or unlimited absence. Few miners have left the Vermilion range, because the Western Federation of Miners is weak there and practically none of the miners have gone out. The Iron Range, Mesabi and Great Northern roads carry extra cars daily to accommodate the outward flow of human flocks and flocks, which is spreading to the Gogebic, Mesoninee and Marquette iron ranges, the harvest fields of the west, the construction division of the new Pacific coast line of the Chicago, Milwaukee & St. Paul, and the new line of the electric railroad which is being built along Pacer's sound.

The claim is made that some of the departing miners are members of the Western Federation of Miners. This is what the leaders of that organization say. They claim the departure of unaffiliated men strengthens their cause. Those who are acquainted with the men leaving say they are not members of the Western Federation of Miners and of the brotherhoods which comprise the men working at skilled positions on the steam shovels. These latter brotherhoods must not be confounded with the Western Federation of Miners as they have nothing to do with the miners organization. They repudiate its principles, reject its teachings, scoff at its purposes and ridicule its leaders as most of the citizens of the two ranges are now engaged in doing.

BOLT OF LIGHTNING EXPLODES DYNAMITE. STORE BLOWS UP AT OTTER LAKE, AND THREE, POSSIBLY FOUR, PERSONS ARE KILLED.

Detroit, July 25.—A special dispatch to the Free Press from Otter Lake, Mich., says: Three, and possibly four, persons lost their lives this evening when lightning struck the hardware store of W. S. Hemmingway, exploding a quantity of dynamite. The known dead were: Maynard Hemmingway, aged thirty, who died for his brother. Hemmingway's wife. His five-year-old daughter. It is reported that there was a canoe in the store, but this cannot be confirmed. The two-story frame building instantly became a mass of flames that raged so fiercely it was impossible to save the bodies.

Runaway Tragic at Romeo.

Romeo, Mich., July 25.—Mrs. Herbert Stranahan, aged thirty-two, is dead, and her mother-in-law, Mrs. Charles Stranahan, probably will die as a result of jumping from her carriage when the horse ran away today. Two ladies who remained in the seats were uninjured.

Three Hoboes Victims of Train Wreck.

Kalamazoo, Mich., July 25.—A top-heavy oil tank filled with naphtha caused a serious freight train wreck which cost three lives last night at a point on the Big Four railroad fifteen miles north of Eau Claire. The men killed were steeling railers.

TRADE AGREEMENT UNDER HOT FIRE

Arrangement With Germany Recently Promulgated by the President Is Denounced by the Protective Tariff League.

Is Contrary to Law and the Policy of Protection, It Is Declared, Providing as It Does for a Material and Indiscriminate Reduction in Duties, and It Is Both Injurious to American Labor and Unfair to the Honest American Importer.

New York, July 25.—A declaration that the tariff trade agreement between the United States and Germany, recently promulgated by President Roosevelt, is contrary to law and to the policy of protection, was adopted by the executive committee of the American Protective Tariff League today, unanimously. It will be sent to President Roosevelt, for members of the cabinet and the members of congress.

It declares that although the customs administrative act provides that all ad valorem duties be assessed at the actual market value in the principal markets of the country from which the goods are exported, this agreement constrains the market value to be the price fixed for export whenever merchandise is sold wholly for export. Complaint also is made that the executive has waived the requirement imposed by congress that foreign manufacturers show the cost of manufacture. It is declared that these modifications will result in a reduction of 10 to 25 per cent in the ad valorem duties on German products.

Many factories in Europe, the resolution asserts, sell only in the United States duty paid. Consigning to themselves and being required to make no statement with reference to market value or the cost of production, they can enter at whatever valuation they please. The resolution declares the agreement injurious to American labor, unfair to the honest American importer who makes entry at the price he is compelled to pay, demoralizing to the customs service and a material and indiscriminate reduction in the tariff which should be made only after a hearing and then by congress.

HOTBED OF ANARCHY. Exposures in Court Show German City a Rendezvous of the Reds.

Mannheim, Germany, July 25.—The trial of twenty-nine delegates to the national convention of the German anarchist societies, which sought to hold an open-air meeting Easter night, began here today. The trial brought out the fact that Mannheim is one of the principal centers of anarchist activity, and that the local society has sixty members, among the defendants are delegates from Berlin, Cologne, Frankfurt-on-the-Main, Offenbach, Wiesbaden, Dusseldorf, Elberfeld, Munich, Hamburg, Bremerhaven, Hanover, Stuttgart, Lauterbach and Mainz. More than one hundred have already been convicted of violations of the press laws for instigating violence. Dr. Friedberg, editor of a socialist paper in Berlin has been convicted of duelling.

FRENCH GENERALS RESIGN. Opposed to Proposed Reduction of Army They Follow Example of Former Chief.

Paris, July 25.—The resignation of General M. C. C. L. Michel from the general staff is officially announced. Michel and General L. F. H. Melsinger resigned several days ago, following the resignation of General L. de Lamoignon, who last week resigned as commander in chief because he disapproved of the proposed reduction of the army.

MR. REID ENTERTAINS. Nobility His Guests at a Lavish Dinner Followed by Dance.

London, July 25.—One of the last big entertainments of the London season which is drawing to a close was given at Dorchester house this evening by Ambassador Reid, assisted by his daughter, Miss Jean. The guests of honor were Princess Louise, the Duke of Argyll and the Princess of Teck. A dance followed the dinner.

DR. AMADOR IN PARIS. Paris, July 25.—Dr. Manuel Amador, president of Panama, was received by President Fallieres today. The usual military honors accorded the ruler of a state were extended to Amador. The head did not have the Panamanian national anthem, so it gave the "Marseillaise." The interview lasted twenty minutes. Subsequently M. Fallieres returned Senator Amador's visit.

AMERICAN WOMAN CONVICTED.

London, July 25.—A woman known as "Chicago May" Churchill and a man named Smith were found guilty today on the charge of having attempted to murder "Eddie" Guerrin in June last. Smith was sentenced to penal servitude for life, and the woman to fifteen years' penal servitude.

STRIKE CLOSES BIG PLANT.

Belfast, July 25.—Unable to obtain coal as a consequence of the continued strike of dock laborers, a large spinning mill shut down today. Four thousand workmen are idle.

WEATHER FORECAST

Washington, July 25.—The following is the weather bureau's forecast for Upper Michigan: Generally fair, Friday and Saturday; fresh northwest to north winds.

RIOTS IN PHILADELPHIA. Fighting in Yiddish Quarter Follows Boast in Prices of Meat.

Philadelphia, July 25.—The Jewish quarter was the scene of many disturbances today, following the efforts of Yiddish women to boycott butchers who had increased the price of meats. In several instances stores were sacked, and meat destroyed. Twenty-eight men and women were sent to prison or held in bail to answer to charges of assault and incitement to riot, and as many more were arrested on minor charges.

TERM IN PRISON (FACES C. F. WARD)

STATE LEGISLATOR TO BE PROSECUTED IN CONSEQUENCE OF EDITH PRESLEY'S DEATH.

Detroit, July 25.—Prosecuting Attorney Robison announced today at the inquest into the death from a criminal operation at a local sanitarium of Miss Edith Presley, grand daughter for the state senate, that he will issue a warrant for Representative Charles F. Ward, speaker-pro-tem of the house of representatives, charging him with manslaughter in connection with the young woman's death. Ward has been at the funeral of his father at Duquoin, Ills.

BASEBALL STANDINGS OF THE CLUBS.

Table with columns: National League (Chicago, New York, Pittsburgh, Philadelphia, Brooklyn, Boston, Cincinnati, St. Louis), American League (Chicago, Detroit, Cleveland, Philadelphia, New York, St. Louis, Boston, Washington).

SCHEDULES FOR TODAY.

Table with columns: National League (Philadelphia at Pittsburgh, New York at Cincinnati, Boston at Chicago, Brooklyn at St. Louis), American League (St. Louis at Washington, Chicago at Philadelphia, Cleveland at New York, Detroit at Boston).

GAMES PLAYED YESTERDAY.

Table with columns: National League (Chicago, Boston, Cincinnati, Philadelphia, New York, St. Louis, Pittsburgh, Washington), American League (Philadelphia, Chicago, Boston, Detroit, Cleveland, St. Louis).

DAWES CONDEMNS SHERMAN LAW

Anti-Trust Act a Blight Upon the Proper Progress of the Country, Asserts the ex-Comptroller, Speaking at Milwaukee.

Contending It Makes Criminal All Agreements in Restraint of Trade Whether Inherently Criminal or Not, He Argues That the Very Effect of the Statute Is to Encourage the Crushing Out of Competition—He Urges Its Radical Amendment.

Milwaukee, July 25.—Addresses before the final session of the Wisconsin Bankers' association convention were made today by Hon. Charles G. Dawes, of Chicago, who spoke on "Some Defects of the Sherman Anti-Trust Law," and John H. Parris, of Indianapolis, whose topic related to the currency. Mr. Dawes spoke in part, as follows: "The Sherman anti-trust law makes criminal all agreements in restraint of trade, whether they are inherently criminal or not. It makes in these general terms something criminal without further definition. Now, this is the day of the trade agreement in the United States. We have national, city, state and district agreements in restraint of trade, and they are not agreements for the purpose always of exciting an unreasonable price.

"I would not for a moment defend an agreement in restraint of trade which had for its purpose the extorting from the public of an unreasonable price. It should be made criminal, as the Sherman anti-trust law makes it criminal. But the trouble with the Sherman act is that it makes equally criminal an agreement in restraint of trade which is inherently innocent, which may be for the benefit of the public, which may be simply for the purpose of preserving natural rights, which may be at any rate not injurious to the public.

"Take, for instance, an agreement among competitors to compete only upon pure goods, as distinguished from adulterated goods, unquestionably in the interest of the public, and yet it is criminal under the Sherman anti-trust law today as criminal as an agreement among competitors to combine for the purpose of extorting an unreasonable price. Take an agreement among manufacturers to preserve high standards in manufactured articles. That agreement is criminal under the law. Take an agreement among competitors to sell perishable goods designed to prevent an over-supply at a particular point of perishable commodities like meat and fruit, where, if they were allowed to accumulate, loss of wealth would be the result, which is injurious to both the producer and the community. Such agreements as that are criminal under the law.

Crushing Out Competition.

"The point I wish to make is that there are two kinds of agreements in restraint of trade, those which are beneficial to the public as well as those which are injurious. An agreement in restraint of trade not to sell below cost is not of necessity a disadvantage and of injury to a community, for certainly we have heard a great deal recently about great institutions underselling for a period of time in certain localities, selling below cost, for the purpose of crushing out competition in order that they may later exercise a monopoly and raise the price. A great many of these agreements in restraint of trade are for the purpose of existence, not of extortion, of letting a reasonable amount of competition exist.

"Under the laws of trade and commerce as we have them today, competition is running riot in this country, as we hear all over the country criticism of the kind of competition that these great institutions are giving some of the smaller institutions of this country. And yet anything on the part of the small institutions designed to prevent that kind of crushing-out competition which is building up the true monopolies of the United States, is as criminal as any other kind of an agreement designed to extort from and injure the people of the United States.

"The result is that the Sherman anti-trust law today discriminates against purely useful, beneficial agreements in restraint of trade, and encourages—directly encourages—injurious agreements in restraint of trade. It militates against the scrupulous business man, it militates against the good trade agreement and in favor of the bad trade agreement. It actually puts a premium upon consolidation and concentration up to a certain point, for provided all competition is not destroyed it encourages the consolidation of competing corporations up to a certain point, because they can do legally then as a corporation through that consolidation—they can get the substantial part of a trade agreement by that method—that which would be illegal and criminal if done as separate corporations under a trade agreement. The very effect of that law has been to encourage the more rapid crushing out of competition in this country.

Other Serious Consequences.

"In addition to this effect which the Sherman anti-trust law has there are one or two other very serious consequences which follow from that law. Of necessity, a law framed in such general terms making equally criminal an act which is inherently innocent with one which is inherently guilty, of necessity under such a law, as such wide latitude of discretion is given to the executive officers of government.

(Continued on Page Five).

BEER IN TABLET FORM. Remarkable Invention Credited to a Danish Civil Engineer.

London, July 25.—A Danish civil engineer, says a consular report just issued here, has succeeded in producing beer in the form of tablets. These are dissolved in hot water. When cooled, the beverage is a beer of excellent quality and flavor.

DETAILS CAREFULLY GUARDED. New Battle Tactics Tested by the French Mediterranean Fleet.

Toulon, July 25.—The maneuvers of the French Mediterranean fleet, are particularly interesting this year, because Admiral Fournier's new system of battle tactics is receiving its first test. The secret of these tactics is carefully guarded.

MAKES HER FORM A PILLAR OF FIRE. IN PRESENCE OF HER LITTLE DAUGHTER, WOMAN ENDS LIFE IN HORRIBLE MANNER.

Little Rock, Ark., July 25.—Angered because her husband refused to praise her for saving money on purchases for their store and for recent heavy sales, Mrs. Ann Lowe today poured a gallon of coal oil on her head, told her little daughter to watch and see a "show," and then set fire to her clothing. The woman's body was burned to a crisp, in sight of her daughter and other relatives.

CLOTHED WITH HIGH POWER. Japanese Resident General to Control the Korean Administration.

Tokyo, July 25.—The convention signed yesterday between Japan and Korea gives the Japanese resident general authority to appoint his own nominees to responsible positions in the Korean government, and clothes him with much other power. The anxiety regarding further interference by the throne or by the former emperor in the administration of the government has now ended.

Seoul, July 25.—Arrangements have been made with the railway authorities to bring 4,000 Japanese blue jackets from the squadron now at Chemulpo. On account of military technicalities they will not be called for except that great emergency arises. A mixed brigade of probably 7,000 Ki Shih troops will begin arriving at Fusan Friday evening.

Imperial Palace Loted. Seoul, July 25.—The Kwan-anthill has been stirred to the very edge by the emperor's second pledge of abdication. A wave of excitement swept over the peninsula today when the new agreement with Japan was announced and the emperor's proclamation was published in the provinces. Eleven privileged old ladies attached to the court arrived in a crowd at the palace, coughing and weeping and incidentally carrying away in their loose clothing everything portable. The palace has been looted of valuables. The emperor, saying that his efforts had been a mistake and that he should himself have taken the proposed course, he recommended to the cabinet's benign care his son, the new emperor.

NEW PLOT AGAINST THE CZAR. Important Evidence of Conspiracy Found by St. Petersburg Police.

St. Petersburg, July 25.—Wide searching a house today the police found a detailed plan of the Baltic railways and imperial lines, also a plan of the imperial yacht Alexandra. The occupants of the house were arrested. The authorities claim that an association has been organized to prepare a fresh plot against the emperor.

WILL GO INCOGNITO. Paris, July 25.—Premier Clemenceau will leave here incognito in a few days for Carlsbad to rest and recuperate.

GERMANY'S STAND AT THE HAGUE. FAVORABLE TO THE AMELIORATION OF WAR, BUT CANNOT ENDORSE AMERICAN SCHEME.

Berlin, July 25.—Congressman Richard Bartholdt, of Missouri, president of the American group of the Interparliamentary union, was received at the foreign office today and talked with Herr von Tschirsky, secretary for foreign affairs, concerning the conference at The Hague. He explained the program of the Interparliamentary union. After the conference Von Tschirsky gave a luncheon in honor of Mr. Bartholdt, at which several diplomats were present.

Mr. Bartholdt, with the consent of the German secretary, later said: "Here Tschirsky said that Germany's attitude toward the work at The Hague has been state of a trade agreement by that method—that which would be illegal and criminal if done as separate corporations under a trade agreement. The very effect of that law has been to encourage the more rapid crushing out of competition in this country.

GUARD ANCESTORS' GRAVES. Wyandotte Indian Maidens Take Up Armed Vigil in Helena.

Kansas City, July 25.—Helena, Ida and Lena Conley, sisters and Wyandotte Indians, began an armed guard today over the graves of their ancestors in the Huron cemetery at Kansas City, Kas. They threaten to shoot the first person to move any of the graves. Congress authorized the sale of the cemetery and the division of the money among the remaining members of the Wyandotte tribe. Helena Conley said today: "In this cemetery are buried hundreds of our ancestors. The blood of the ancient royalty of France flows in my veins. My grandfather owned the whole state of Ohio. Why should we not be proud of our ancestors, and protect their graves. Was he to the man that first attempts to steal a body."

REFUSES TO LIMIT INQUIRY. Concord (N. H.) Court Deals Hard Blow in the Mrs. Eddy Case.

Concord, N. H., July 25.—The "sweet friends" of Mrs. BAKER G. EDDY, who are seeking from prominent Christian Scientists an accounting of Mrs. Eddy's property, gained an important victory today when Judge Chamberlain denied Mrs. Eddy's motion to remove the defendants to the suit. The motions included a proposition to limit the scope of the inquiry to be made by the masters to decide Mrs. Eddy's competency.

Walker, Minn., July 25.—Flatmouth, head chief of the Peocch Lake band of Pileaters, a branch of the Chippewas, died at the old agency near here yesterday afternoon. The tribal customs of the Chippewas were tried out in full form at his funeral. About two hundred summer tourists witnessed the ceremonies.

CURTAIN AT BOISE IS ABOUT TO FALL

State Begins the Closing Argument at the Haywood Trial, and the Case Will Go to the Jury Saturday Morning.

Concluding His Address for the Defense, Attorney Clarence Darrow of Chicago Takes Another Crack at the Rich—"If You Deceive Death," He Proclaims, "the Spiders and Vultures of Wall Street Will Send Up Prayers of Praise."

Boise, Idaho, July 25.—The case of the state of Idaho against Wm. D. Haywood, charged with the murder of Frank Steunberger, former governor, will rest with the judge and jury by tomorrow night. Clarence Darrow, after speaking for eleven hours, concluded his final plea for Haywood's life at 4:30 o'clock p. m. At 7 o'clock this evening Senator Borah opened the closing argument for the prosecution. He will speak at three sessions, or about seven hours. Judge Fremont Wood will instruct the jury Saturday morning.

Hundreds Turned Away. At least a thousand people were unable to find seats in the court room tonight. The assemblage in attendance was composed almost entirely of Boise people. Aside from the unannounced crowd, the scene was much as it has been at each session during the eleven weeks of the trial. Mrs. Steunberger, widow of the murdered governor, appeared in the courtroom for the first time. Governor Gooding, with a number of twelve men of Boise, in a large representation of the state judiciary, were in the gathering. Haywood was surrounded by his counsel, and his wife, in her invalid's chair, was as usual by his side. At the prosecution's table, when Attorney Borah rose to speak, were seated two associate counsels, James H. Lawley, leading counsel for the state, was not in his place owing to serious illness.

Mr. Darrow, in closing the argument of Mr. Steunberger that Harry Oswald was in the employ of the Finlaysons at the time he killed Steunberger, asserted that the position of the defense was that Oswald's sole motive for the murder was to pay off a grudge in revenge for having been driven from the Coeur d'Alenes, and the loss of opportunity to take his old partners. In conclusion, Mr. Darrow cried:

"Pleads for the Poor." "Haywood can die, if die he must, but there are others who will live if he dies, and they will come to take his place and carry the banner which he wets. I plead for the poor, the weak, the weary. The eyes of the world are on you, twelve men of Idaho, who are here to decide death, the spiders and vultures of Wall Street will send up prayers of praise; and wherever men live who hate Haywood because he works for the poor, you will receive praise.

"But if you acquit this man, millions of men, women and children will pray for you. In spirit, the weak and the poor, tonight, stretching out their hands and imploring God to guide your judgment, imploring you to save Haywood." Senator Borah denounced Darrow's statements, saying: "We are not here fighting organized labor. We are not here fighting the weak or the poor. Neither are we here to consent that organized labor be shielded to crime. This is not an industrial war. We are here in the interest of law, of justice, and of fairness." At 8:30 court adjourned until tomorrow.

REFUSES TO LIMIT INQUIRY. Concord (N. H.) Court Deals Hard Blow in the Mrs. Eddy Case.

Concord, N. H., July 25.—The "sweet friends" of Mrs. BAKER G. EDDY, who are seeking from prominent Christian Scientists an accounting of Mrs. Eddy's property, gained an important victory today when Judge Chamberlain denied Mrs. Eddy's motion to remove the defendants to the suit. The motions included a proposition to limit the scope of the inquiry to be made by the masters to decide Mrs. Eddy's competency.

Walker, Minn., July 25.—Flatmouth, head chief of the Peocch Lake band of Pileaters, a branch of the Chippewas, died at the old agency near here yesterday afternoon. The tribal customs of the Chippewas were tried out in full form at his funeral. About two hundred summer tourists witnessed the ceremonies.

REPUBLICAN DISTRICT CONVENTION.

A convention of the Republicans of the
 31st senatorial district of Michigan is
 hereby called to meet in the Ishpeming
 theater in the city of Ishpeming, on
 Tuesday, the 13th day of August, A. D.
 1907, at 11 o'clock a. m. for the purpose
 of placing in nomination three candi-
 dates for delegates to the convention to
 be held in the city of Lansing for the
 purpose of making a general revision
 of the constitution of the state of Michi-
 gan, said delegates to be elected at a
 special election to be held on the 17th
 day of September, 1907.

The several counties comprising the
 district are entitled to one delegate in
 said convention for every five hundred
 votes, or an excess of a majority thereof,
 cast therein for governor at the last pre-
 sidential election, no county being en-
 titled to less than two delegates, making
 the following representation, to-wit:

County.	error, 1904.	Delegates.
Alger	1,233	3
Dickinson	3,376	7
Iron	1,807	4
Marquette	7,045	15

By order of the Republican Commit-
 tee for the 31st Senatorial District of
 Michigan.
THOS. CONLIN, GAD SMITH,
 Secretary, Chairman
 Dated Marquette, Michigan, July 18,
 1907.

Some of the Mesaba range agitators
 appear to be getting their deserts.

Evidently Attorney Darrow was car-
 ried away with the idea that he was de-
 livering a campaign speech in a socialis-
 tic district.

The water problem? Yes, it is still
 with us, and doubtless will endure dur-
 ing the life of the board of fire and
 water commissioners as it is at present
 constituted.

The attorney general's department
 should complete scanning the acts of the
 recent session of the legislature before
 the proposed special session. The latter
 will be the last opportunity to rectify
 the mistakes.

If there were more docks and more
 cars, particularly more cars, Marquette
 might see some new high records in one
 movement. But in any event she is see-
 ing some carriers larger than any
 she has ever seen before.

It is generally hoped that Ziehr and
 Carkeek will get together. Marquette
 county is entitled to the match, as it
 first suggested in this county. Let Ziehr
 come to the scratch and sign articles.
 This question of supremacy is crying to
 be settled.

The citizens of Hibbing are, to a man,
 united for defense of miners who want
 to work, and against intimidation and
 other anarchistic measures to further
 the ends of the strike agitators. Their
 firm stand is reported to have greatly
 clarified the situation. Certainly it does
 them credit.

Mayor Scott of Hancock has prevailed
 on the board of public works to call for
 bids on a public electric lighting plant.
 He wants to show the council that Han-
 cock can be equipped with such a plant
 for less than \$16,000. The council, how-
 ever, is already committed to a long
 term contract with a private company.

The agitators who venture into the
 Bovey mining district are treated with
 more vigor than gentleness, and are
 quickly hustled away from the mines. It
 is noticeable that the miners approve of
 this disposal of them. In the vigorous
 handling of the Bovey situation the sure
 hand of Superintendent Jack Greenway
 is seen.

Jack Carkeek leaves no doubt of his
 willingness to meet Joe Ziehr, and wants
 to be shown what right the latter has to
 claim the Cornish wrestling champion-
 ship. Carkeek is not as young as he
 was ten years ago, but has been follow-
 ing the wrestling game intermittently
 even up to a few months ago, and he
 professes confidence that he will be able
 to put away his younger rival, if they
 meet in the arena. In view of Carkeek's
 attitude and his readiness to come to an
 agreement for a match, it appears that
 Mr. Ziehr will have to come to terms
 with him, or cease calling himself cham-
 pion. And we rather expect that Mr.
 Ziehr will come to the scratch. He is a
 strong wrestler and a much younger man
 than Carkeek. He ought to be willing to
 face him.

SUPERIOR TRUST COMPANY
HANCOCK MICHIGAN
 Capital : : \$150,000

This company is under the supervision of the state banking department and is authorized by the law to act as executor, administrator, guardian, assignee, receiver or trustee.

 JACOB BAEK, Vice Pres.
 M. C. GETCHELL, Secy.

The trans-Atlantic steamship com-
 panies have been comparing notes, and
 they find that 42,750 more passengers
 have gone to Europe than up to this time
 last year. There is no use criticizing the
 rush to Europe. There is a strong im-
 pression, and there is foundation for it,
 that such a trip is educational, and be-
 sides it is fashionable. But it would be
 interesting to know how many of the
 many thousands who have gone to Euro-
 pe this season know their own country,
 or have seen much of it. We have seen-
 ery that surpasses anything that Europe
 can offer, whether it be mountain or
 valley, rugged desolation or peaceful
 pastoral areas. We have thriving indus-
 tries, rich mines, splendid river and lakes,
 great forests and vast cities. We have
 historic scenes and battlefields, great
 churches, beautiful monuments, and, if
 sought for, a fair degree of antiquity.
 Many of the world's choicest works of
 art are in this country and every year
 brings additions to their number. Euro-
 pe has little to offer which this coun-
 try cannot offer in a still higher degree
 and at much less expense. No fault is
 to be found with Americans who go
 abroad if they can afford it, but they
 should postpone their excursions until
 they have studied their own country and
 seen its wonders.

Prosecutor Robinson, of Wayne coun-
 ty, has stated, as strongly as he
 could put it, that he will not
 prosecute the conductor and engineer
 of the Pere Marquette freight that
 crashed into the passenger at Salem
 Saturday last, with such terrible loss
 of life. His reason for this position is
 that he holds that the conductor read the
 orders governing his train as 999 out of
 1,000 men would read them. The time
 the train was due at Salem was 9:10 a.
 m., but it is asserted that the orders
 handed to the conductor were so written
 that the conclusion that the arriving
 time was 9:25 was the reasonable one.
 The conductor reached this conclusion,
 and the prosecutor holds that he was
 justified, and that he is not to blame
 for the catastrophe. Who then is to
 blame? Prosecutor Robinson was asked
 if he expected to proceed against any-
 one. He did not answer definitely, but
 intimated that steps would be taken to
 locate the man who made out the train
 orders at Plymouth, as it was undoubt-
 edly his negligence that caused the col-
 lision. At the same time the prosecutor
 admitted that the orders were substan-
 tially correct, if read through from the
 beginning. "The real trouble," he says,
 "lies in the fact that the railroad uses a
 system under which it is possible to com-
 mit such errors. There is another way,
 and it could be easily introduced, but I
 haven't the time to go into the details
 of that." The public will await with
 interest the definite fixing of blame.
 Who was responsible, and how? These
 are questions of intimate interest to all
 who use railroad trains.

SHOW VIGOR AND COURAGE.

The Mesaba range business and pro-
 fessional men and others not of the ranks
 of the workmen are showing vigor
 and courage in dealing with the strike
 that has been general in that region the
 past few days, and if the demonstration
 is somewhat flabby about the backbone
 it is their course that is largely to be
 thanked. In public meeting they have
 guaranteed protection for the men who
 want to work and denounced in vigorous
 English the outside agitators who are
 endeavoring to saddle on the district a
 protracted labor trouble. The mer-
 chants, also, have materially aided in
 the good work of strike breaking by re-
 fusing the men credit. A strike, like an
 army, moves on its stomach, and the
 shutting off of food supplies is a sad
 blow for either. The mechanics act
 wisely in their course, for the extend-
 ing of credits would simply play into
 the hands of the outside agitators and
 the minority of men who would like to
 get labor and capital in the district
 hopelessly by the ears.

The reports from the range are much
 more reassuring than there was reason
 to expect a few days ago would be the
 case as such an early date, and many
 people in touch with the men feel san-
 guine that there will be an early set-
 tlement of the trouble. The strike is
 not sympathized with by the majority
 of the men, who, left to them-
 selves, would not have lost a day's
 work. It is a minority affair, incited by
 outside agitators among foreigners stung
 by the socialistic bug. It has been an
 illogical and stupid demonstration
 from the beginning, as evidenced by the
 course of the men in throwing down
 their tools before there was opportunity
 for a reply to their demands. Another
 illuminating light on the sort of men
 behind the demonstration is the demand
 for the ending of the contract system,
 and substitution for it of flat wages on
 an advanced schedule. The contract system
 is a boon for energetic, industrious men.
 The drones would like all to be on a
 common level.

The strike has already done great
 damage, if it were settled tomorrow.
 There has been an exodus of much need-
 ed industrial labor from the district.
 It does not sympathize with the strike,
 but considers it easier and safer to find
 work in new districts than to get mixed
 up in labor troubles. This labor will be
 hard to get back, and it is among the
 best. However, the earlier an adjust-
 ment is reached the more quickly the
 damage can be repaired, and the interests of
 the men, the merchants and other residents
 of the range lie on the side of an early
 settlement. Meanwhile it is to be hoped
 the solid interests in the district will con-
 tinue their firm stand against intima-
 dation and any form of violence.

WHAT MICHIGAN CAN DO.
 A recent issue of the Michigan In-
 vestor contains a timely article by Dan L.
 Case, under the title "Why Not Specu-
 late in Michigan's Resources," that
 should possess a particular interest for
 upper peninsula people and which, as a
 whole, makes an effective plea for the
 investment of Michigan money at home.
 The writer refers to the immense ag-
 gregate amount of Michigan money that
 has been sent outside the state, particu-
 larly to every mineral and lumber region
 in the country, for investment and specu-
 lation, and suggests the query whether
 this money could not have been used in
 Michigan with greater ultimate profit to
 its owners and increased glory for the
 commonwealth.

It is the opinion of the writer that
 Michigan is today full of promising in-
 vestments for Michigan money. "There
 are the immense coal areas of Saginaw
 valley which have not yet been devel-
 oped. The bunch of money too often
 put into a new Ontario gold prospect
 would pay for enough intelligent explo-
 ration to produce a coal property right at
 home in Michigan which would make
 those who took the chance reasonably
 well off for the rest of their days." Water
 powers are suggested as another pro-
 fitable investment, and electrical
 traction development and advanced stock
 farming. For upper peninsula people the
 most interesting part of this very read-
 able article is found in the subjoined
 paragraph:

If the Michigan speculators want the
 excitement of mining and the possibili-
 ties of its great returns they need not go
 outside Michigan to find opportunities
 and mighty promising ones, too, of suc-
 cess in their field of endeavor. There is
 plenty of promising copper territory left,
 especially in Ontonagon county, upon
 which leases can be obtained very read-
 ily, and money may be spent with a
 much surer prospect of success than a
 great deal of expenditure made in New
 Ontario ever had. It is no more difficult
 to find hidden copper in Michigan than
 in any other part of the world, the more
 so as the Michigan copper bearing rocks
 are very well identified and it is just as
 easy to "grub-stake" explorers in this
 state as it is in any other. Do the specu-
 lators want to find gold? Let them
 put their little pieces of money into one
 pot and go seek in the territory of which
 the Boyes, the American and the Michi-
 gan mines are land marks. Do the gold
 seekers forget that upwards of a million
 dollars worth of gold has been mined in
 Michigan? And it didn't cost a million
 dollars to get it either.

Take the great mineral staple of this
 state, iron. Much as has been done in
 the way of mining and developing iron
 in Michigan, the upper peninsula has hard-
 ly been scratched yet. There are old
 prospects which have not been touched
 in thirty years that will stand renewed
 exploration. There are abandoned
 workings that small expenditure might
 discover to be valuable mines in the
 light of modern methods and practice.
 There are ore bodies which weren't con-
 sidered much in the past that look
 mighty respectable now, in view of the
 anxiety of the steel makers and the iron
 smelters to get anything that looks like
 a good iron supply. Some of the best
 mines working today have in time past
 been gone over as worthless.

There has been more money made
 from iron ore in Michigan and the Lake
 Superior district than was ever made in
 copper, gold or silver ventures. Read
 the prospectuses of the hundreds of gold
 and copper mining companies which have
 been issued in the last few years. They
 are singularly alike in the manner in
 which they use the success in the Michi-
 gan copper mining companies as "con-
 ceits" for the prospect for buyers of stock.
 Calmet and Hecla has been made to cover
 a multitude of sins, and where it has not
 been worked the success of Butte and
 Anaconda, of Daly, Haggin, Heinze,
 Clarke and Greene have been projected
 on the screen as inducements for stock.
 Yet the number of people who have
 made big money in copper and gold isn't
 a patch on the number of those who
 have made money in iron mining and in
 Michigan iron mining at that. When
 Samuel J. Tilden ran for the presidency
 in 1876 and William H. Barnum, of Con-
 necticut, managed his campaign, they
 had both been rich men from Michi-
 gan iron mining operations. Thirty-five
 years ago Captain E. B. Ward, of De-
 troit, was deeply enough in the iron min-
 ing and producing business to have be-
 come the pioneer steel maker of the
 United States, and he was so prominent
 that Herbert N. Casson, writing in Mun-
 sey's Magazine, did not hesitate to say
 that had he lived Detroit might have
 been the steel producing center of the
 United States.

Some of the first Carnegie millions
 were made by mining investments in up-
 per Michigan in the names of Carnegie
 Bros. & Co., Thomas Carnegie and An-
 drew Kloman, Erasmus Canning, Wm. E.
 Dodge, Solon Farnsworth, J. C. Norrie,
 Abram S. Hewitt—these are only a few
 of the names of prominent New Yorkers
 who made fortunes out of Michigan iron.
 Cleveland's quota of Lake Superior iron
 made fortunes includes among their own-
 ers the names of W. G. Mather, Samuel
 Mather, James Pickands, J. H. Wade, J.
 H. Sherdie, A. B. Stone, M. A. Hanna,
 Charles Hickox, Wm. Chisholm and a
 score of others whose names are not so
 familiar. Milwaukee's bunch of Michi-
 gan iron mining millionaires has in it
 the names of Ferdinand Schlessinger, W.
 H. Abbott, Angus Smith, Moore, Ben-
 jamin & Co., C. C. Colby, H. S. Hazelton,
 Fred Pabst, and dozens more Michigan
 men now living who are drawing im-
 mense annual incomes from iron ore
 leases on iron mining properties includ-
 ing W. R. Bart, Arthur Hill, Temple E. Dorr,
 Chas. H. Davis, the Wells-Stone State
 owners, all of Saginaw; J. M. Longyear,

of Marquette; Elisha H. Flinn, George
 O. Robinson, the heirs of Francis Palm,
 the heirs of Eldridge M. Fowler, the
 Fleitz heirs, the heirs of Simon J. Mur-
 phy, the heirs of Luther Beecher, the
 heirs of Joseph Berry and scores of
 others in Detroit. Part of the geniality
 of disposition of Peter White, of Mar-
 quette, grows out of the steady receipt
 of a handsome income from the Cleve-
 land-Cliffs Iron company's mining opera-
 tions. Down in Youngstown, Elyria,
 Columbus and Hamilton, O., in dozens
 of villages and hamlets of Connecticut,
 and even as far away as Great Britain,
 where Lord Brassey draws his income
 from his Michigan iron properties, there
 are not only scores but hundreds of peo-
 ple who are drawing returns from the
 iron mining properties of the Lake Su-
 perior district.

Not forty years ago the Champion iron
 mine was the hap-hazard discovery of an
 explorer. Since then it has produced
 nearly \$20,000,000 worth of iron ore, and
 the mine itself sold for \$2,000,000 a few
 years ago. The Norrie mine was found
 by the man whose name it bears. He was
 poor yet found capital. It has produced
 14,000,000 tons of iron ore, worth \$40,
 000,000 at today's prices, has made Norrie
 rich and has paid \$400,000 a year be-
 sides in royalties to the people who own
 the title to the land. The Republic mine
 was a stock promotion in 1870. Since
 then it has produced 5,700,000 tons of ore
 and everybody who has a hand in it has
 been made rich. There hasn't been a
 successful copper or gold strike in the
 United States in thirty years the success
 of which, great or small, cannot be
 duplicated by some Lake Superior iron
 mine. The average value of iron ore at
 Lake Superior ports for the past twenty-
 five years has been about \$2.50 a ton.
 On that basis the iron mined until the
 close of last year, 338,000,000 tons, had a
 money value of eight hundred and forty-
 five million dollars. Have gold or copper
 equalled that? There are just as good
 chances of making new discoveries to-
 day in that territory as there ever were,
 and they are a good deal better than
 the chances in the far-away ventures af-
 ter gold, silver and copper into which
 Michigan money is being daily charmed
 by the siren song of the promoters and
 stockholders.

What Michigan wants just now is a
 bunch of first-class promoters to take up
 and create interest in her opportunities
 for speculation. She has them in plenty,
 not lacking in attractiveness or promise,
 and far and away better things than the
 average of those offered from outside the
 state. The promoter who will promote
 Michigan ventures will be a blessing to
 the state. May his tribe increase a hun-
 dredfold.

Father says: "Say, Mother, can't
 daughters if I will bring home a pair of
 you make us some more of those fine
 Cudahy's Peacock Lard again?"

BABY TORTURED BY ITCHING RASH

Face and Feet Covered—Rest Broken and Would Cry Until Tired Out—"Cradle Cap" Added to Baby's Torture—Tries Cuticura Soap and Cuticura Ointment.

IMMEDIATE RELIEF AND SPEEDY CURE

"My baby was about nine months old when she had rash on her face and feet. Her feet seemed to irritate her most, especially at night. They would cause her to be broken of her rest, and sometimes she would cry until I was tired out. I had used many cures but they would give her no relief. I thought I would give her a trial. The improvement was noticeable in a few hours, and in a few days she was well and had never troubled her since. Now I keep Cuticura Ointment on hand in case of any little rash or insect bite, as it takes out the inflammation at once. Perhaps this may be the means of helping other suffering babies. Mrs. Hattie Currier, Thomas-ton, Mo., June 9, 1906."

Complete External and Internal Treatment for Every Form of Itching, Rash, and Skin Affection. Cuticura Soap and Cuticura Ointment. Sold by Druggists and Grocers. Price, 25c per box. Sold by mail, 50c per box. How to Cure Skin and Scalp.

CUTICURA—THE SET, \$1.

Consisting of Cuticura Soap Ointment and Pills. A single set is often sufficient to cure the most torturing, disfiguring, itching, burning, and scaly humors, eczema, rashes, and irritations, with loss of hair, from infancy to age, when all other remedies and even the best physicians fail. Guaranteed absolutely pure.

Copper Country

ANOTHER DROWNING FATALITY. NESTERS WILL NOT REBUILD. Baraga's Big Saw Mill Will Remain as Left by the Fire.

It is now given out on authority that the big saw mill of the Nester estate at Baraga, which was destroyed by fire a month ago, will not be rebuilt. There is a severe blow to the village, as the mill had a payroll of something like \$400 per day and gave employment to a majority of the population. The company has a large amount of lumber yet to be cut, but the Baraga Lumber company, a small concern, will cut most of this on contract, and other copper country mills will manufacture the remainder. The Lake Superior Iron & Metal company has purchased the disabled machinery of the mill, and it will be brought to Hancock for shipment as scrap.

AMONG MUNICIPALITIES. Laurium Council Decides to Pave—Other Village Matters.

The special meeting of the Laurium council Wednesday night, called for the purpose of considering the question of paving a portion of Hecla street, resulted in a decision to advertise for bids for a cement block pavement, based on specifications prepared by Village Engineer Scott. The material selected is similar to that in use in Red Jacket, and now being laid in Hancock. Laurium is the only large town in the copper country which has not more or less pavement, and the improvement proposed will bring it up with the other towns in that respect. The Hancock city council is advertising for bids for the pavement of Exchange street between Hancock and Quincy streets. This thoroughfare is the principal cross-town street of the city, and the improvement is a necessary one. No decision as to the sort of pavement to be laid has been arrived at. The block is a steep hill and some pavement preventing an exceptionally good footing for horses will have to be selected. Houghton solved this problem by laying on hill streets a cedar block pavement having a cement foundation, with a few concrete blocks at the corners. Something similar to this will undoubtedly be selected by Hancock.

The only important municipal improvement now being laid out in the copper country is the West Houghton sewer contract. This was awarded to Byers & Co. early in the summer, but owing to the delay in selling the bonds the work has not been started. The sewer is essential to the public health of the village, and this proposition is a matter which is exciting people in the district affected to wonder why the council is not acting more promptly.

MINER INTRODUCED TO COPPER.

Underground Worker for Eleven Years Touches First Ingot.

The man most interested in this story does not think that it is particularly interesting, but it struck The Mining Journal reporter as being odd, if not funny. The newspaperman was showing a stranger around the Copper Range dock the other afternoon, giving said stranger a view of a few thousand tons of copper piled up with apparently as little regard to its value as if it had been so much old iron. Learning against one of the piles were two men who at once betrayed by their appearance the fact that they were "Cousin Jacks," and therefore miners. A string of about a dozen hundreds of large copper plates stood near the dock, and in corroboration of statement that they were intended to be rolled into sheet copper one of the miners was asked a question. He responded that he did not know anything about smelting. Naturally it was supposed that he had just come over from England, but he admitted that he and his partner had worked in the Quincy mine, as miners, for eleven years and this was the first time they had ever handled a copper ingot. They had been getting out the raw material for more than a decade, but had never before been in contact with the finished product.

FINNISH CONVENTION.

Big Program for Tomorrow—Officers to Be Chosen.

The annual convention of the Finnish Temperance Brotherhood of America, now in session in Calumet, will be terminated tomorrow afternoon with a big public meeting in the city hall on Eighth street. Today the brotherhood will elect officers and select the place for holding the next meeting. At the public meeting the following program will be given tomorrow afternoon: Finnish air—Chorus and Harmonica band. National hymn—Chorus and band. Address of welcome—Oscar Priskey, of Calumet, vice president of the National Brotherhood. Address—Rev. V. Ruononen, pastor of the Finnish Bethel church of Calumet. Address, in English—Rev. W. E. Marvin, pastor of the Laurium Methodist church. Selection—Finnish Humina band of Ashland. Poem—August Hyari. Address—J. Kaminen of Ishpeming, secretary of the National Brotherhood. Song—Hancock Finnish Choir. History of National Brotherhood, in English—J. Kaminen.

HOW'S THIS!

Pure White Lead is the Natural Paint Pigment

Numerous compounds are being offered to take the place of white lead as a paint, but no real substitute for it has yet been found. Pure White Lead has a peculiar property of amalgamating with the wood upon which it is used—added to this it has an elasticity which permits the paint to follow the natural expansion and contraction of the wood. Pure White Lead alone fulfills all the requirements of the ideal paint.

Southern Pure White Lead

is White Lead with its full natural tenacity and elasticity unimpaired by adulterants. Every keg of it bears the Dutch Boy trade mark, which is a positive guarantee of absolutely Pure White Lead made by the Old Dutch Process.

SEND FOR BOOK "Talk on Paint," gives valuable information on all subjects. Sent free upon request.

COPPER COUNTRY SPORTS.

Calumet Loses to Winnipeg—Houghton Goes to Duluth.

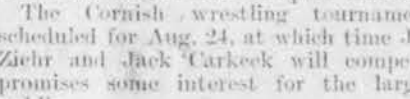

Calumet lost the first game of the Winnipeg series Wednesday afternoon, score 9 to 1. Houghton did not play Wednesday, being en route to Duluth, where the club opened a series against the White Sox. Calumet and Duluth will leave for home Sunday, bringing with them the Duluth and Winnipeg teams, who will open their final series in the copper country.

CALUMET PASTOR WEDS.

Rev. James O. Fisher, pastor of the Red Jacket Congregational church, and Mrs. Evelyn E. Fisher were married in that church Wednesday by Rev. William Fisher of Chicago, father of the groom. Rev. Fisher recently took charge of the Red Jacket church, succeeding Rev. Harry Appleton, resigned. He is a young and earnest minister and promises to have great success in Calumet.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable. Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but it will cure kidney, liver or bladder trouble if you have found just the remedy you need. It has been tested in many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent them absolutely free. We will find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y.

COBALT GOSSIP

The week's shipments from Cobalt camp total 425,350 pounds. These were from four different mines—Cobalt, Silver Queen, Hudson Bay and Silver King.

There are probably 900 men working in the mines of Cobalt. This includes union, non-union and Italian labor employed at surface work. The mines fighting the union claim they will be working with full force in another week.

Red Rock is sucking silver ore at a depth of eight feet. The vein is three feet wide and is close to the Ruby Silver, where good finds have been made. The railway contractors blasting a cut through the McKinley-Marragh have struck a rich vein running high in silver values of six inches in width.

While belonging to the Coleman property trending to the Cobalt-Certain Silver mines, Limited, a good vein of calcite carrying native silver was uncovered. An average assay taken from this vein gave 2,562.5 ounces silver to the ton. As the vein is well defined, the company has decided to have it stripped a little further and then sink a shaft.

The manager of the Progress mine, which adjoins the Temiskaming, reports a good strike in the bottom of the main shaft, which is now down seventy-eight feet. The strike was made in cutting a station to drift at that level. The vein is fourteen inches in width and an assay of 800 ounces silver to the ton has been taken. During the strike the shaft has been well timbered and put in shape for sinking and drifting; a small steam plant was installed in the spring and has done good work.

Captain E. G. of the Spring Helen, in cutting a station to drift at the eighty-seven-foot level, took out some good ore. The vein is fifteen inches in width and an average sample of the vein showed silver values of 2,206 ounces to the ton. The shaft was sunk on four veins, two of which came together on the south wall and the other two from the east and north walls of the shaft. Assays as high as 6,000 ounces silver have been taken from the veins on surface and will be caught in the shaft by crosscutting. The company has on hand three cars of ore and should join the regular shippers in the next thirty days.

TUXEDO CLUB

The following is the text of the petition: "The undersigned, residents of Calumet, would respectfully call your attention to the following facts: 1. The building in which the Calumet postoffice is now situated, is entirely inadequate to accommodate the employees and patrons of the office. 2. The business and patronage of the office is rapidly increasing and, according to present indications, will, in all probability, more than double within the next ten years. 3. There is not now any building within the territory served by the Calumet office suitable for a postoffice. We therefore urge upon you the advisability and necessity of securing, during the session of Congress, an appropriation for the purpose of a suitable site and erecting thereon an adequate postoffice building."

The naval reserve petition is a movement started by the Hancock lodge of Elks, Past Exalted Ruler Henry J. Haas, a member of the division's civil organization, had charge of it. He advises The Mining Journal that he has already forwarded the document to Mr. Young, but has had no advice from that gentleman.

HUMINA BAND CONCERTS.

Finland's Humina Finnish band of Ashland, O., arrived in the copper country Wednesday from Marquette and Nequamee, and that night it gave a concert in Germania Hall, Hancock. The organization is in the copper country to give the Finnish National Temperance Brotherhood of America, and it has been advertised as a temperance band. Director Jacobson says, however, that the band organization, though many of the players are members of the brotherhood.

The band was formed sixteen years ago by J. E. Jacobson, its present leader, and it is the oldest and best known Finnish musical organization in the United States. It is on its tour composed of twenty-seven players, though twelve were left behind, detained by business. Among these is a lady cornetist. The youngest member of the band is Freddy Lyhala, who is only twelve years of age but plays with the cornets and is a skilled musician.

The band is composed of a great extent of hard working men. They are ore trimmers, coal trimmers, longshoremen, laborers. There is only one amateur in the band, being of Finnish birth or descent. There are one undertaker and one printer in the band.

The Humina played another concert last night at Calumet. Tomorrow the band participates in the big parade of the National Finnish Temperance Brotherhood. It will leave for Ashland Sunday.

HANCOCK CONSOLIDATED.

Affairs at the Hancock Consolidated are shaping for pushing the work laid out along the lines contemplated by the management. The big shaft is 130 feet in depth, and immense concrete supports are being put in for the collar. The building to house the large hoist, compressor and boilers is completed, and the foundations are in for the machinery, so that the work of installing the new Sullivan hoist, with capacity for bringing up rock from a depth of 4,000 feet, is now under way, and it is hoped to have all the new equipment in operation by Sept. 1st of this year. The building will be 60x96. There will be three boilers, of 125 horsepower each, and with the hoist and compressor in commission the putting down of the shaft will be 40 feet a day. The shaft will be 130 feet in diameter, and will be lined with concrete. The shaft is now being drilled at the ninth and tenth levels—rock that will make copper fast at the mill. A few levels deeper, with openings showing as indicated, and No. 1 will be the after the shaft is necessary for large and economical mining. Since the commencement of operations, only a few short months ago, there has been much accomplished, and in the face of adverse conditions, the unweariness of an old mine, cleaning up and straightening and putting the shaft in shape for active operations is no easy task and is something that costs money. But this is now over, and Superintendent Harris will henceforth have clear sailing.

TAX COMMISSIONER'S VISIT.

The members of the state tax commission spent yesterday visiting the Mineral Range railroad property in Houghton and Hancock. President Shields said that the work being done here is purely a routine matter. President and Mrs. Shields entertained the members of the commission and their ladies at dinner at their home on Montezuma street, Houghton, yesterday.

TEXT OF THE PETITION.

Calumet's Federal Building Plea—The Yantic Matter.

Congressman Young of Ishpeming is now given two opportunities to secure favors for his copper country constituents. He has already been presented with a petition to the navy department by the representative of the Yantic, as it is only necessary to present it to Calumet businessmen to secure their signature.

Mining News

BOSTON & CORBIN.

N. L. Amster, president of the Boston & Corbin company, issues a special letter giving the engineers reports on that property and his conclusions as a result of his recent visit to the Corbin camp. "When we first took hold of the Boston & Corbin it was a partly developed mining property, with large equipment on hand. There was only one level opened up 170 feet from the collar of the shaft, and, while indications pointed to the ore continuing in depth, it was by no means sure. The ore too on the south and of the first level drift pinched out just about the time we took over the property. It was also feared that the cyclite formation on the south of the old shaft might in depth, fault or cut off entirely the main vein, 'the Bertha.' In less than thirty days, however, we again encountered the ore in the south drift, and it carried better copper and silver values than any of the ore we previously had in the mine. This tunnel is now in about 300 feet.

"This lower tunnel, going south, we have recently struck the ore and it is much wider and considerably richer, both in copper and silver, than on the upper levels. We have gone through this ore chute about 150 feet and we are still in ore and the body is widening and improving in grade. We feel that our property should greatly improve in depth, and with this in view we have started to sink a double compartment shaft near the entrance of the lower tunnel. This shaft we intend to sink to a depth of from 600 to 1,000 feet. The Boston & Corbin owns about 4,500 feet in length on the Bertha vein."

The company is capitalized at 100,000 shares, par \$5. Of this, only 80,000 shares are outstanding. The company owns the property outright. The property is now well equipped with hoisting plant and power compressor and drills and other accessories. The company has over \$80,000 in its treasury and in loans and does not owe a dollar.

TURNING FROM BRYAN.

Indiana Inclined to Oppose Nomination of the Nebraskan. Indianapolis, July 25.—Some of the Indiana Democrats who have been enthusiastic in their support of Mr. Bryan, and some who voted for him in the campaigns of 1896 and 1900 merely that they might have an unbroken political record, agree that there has been a gradual drawing away of the Indiana Democracy from the Nebraskan in the last few months, or at least a decided weakening of Democratic enthusiasm, as compared with the sentiment that found expression for an unbroken political record, one year ago. Naturally there was a much surprise and disappointment when Mr. Bryan advocated government ownership of railroads. The Democrats found some consolation, however, in the attitude that the Republican administration has assumed towards the corporations in general, and still believed that the election of Bryan would be possible. Those who dissented from this view could not be brought to believe that Indiana Democrats would endorse such a pronouncement with their votes, and they saw in Bryan's utterances the first note of dissension for an unbroken political record, one year ago. The Democrats who are opposing even a suggestion of government ownership of public utilities are men who have made conditions a study, and as a result base their opposition on past experience in Indiana. Since Mr. Bryan's declaration one hears a great deal of the old internal improvement craze in Indiana, and the burden of debt that it placed upon the people in a stuporous attempt to operate public utilities by the state. And indeed, a more instructive chapter of state history was never written than that comprising the period from 1836 to 1842, when the state had 453 miles of abandoned canals on its lands and the people were loaded with debt approximating \$7,000,000. Looking back over this history, with its failures and entailed suffering to the people, Indiana Democrats who are students of events do not care to make any departure from established rules of ownership of public utilities.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments, must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the local.

Dr. Shoop's Restorative, the constitutional. The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure," as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, enters nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative. It is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

NOTICE.

Bids are wanted by the Board of Education of the Township of Republic, Marquette County, Michigan, for an issue of Thirty Thousand Dollars (\$30,000) of bonds payable with interest at five (5) per cent per annum, interest annually, the bonds being payable as follows: March 1st, \$2,000 each year from 1908 to 1922 inclusive.

The proceeds of these bonds are to be used in the construction and equipping of a new high school building. These bonds have been duly authorized by the proper proceedings taken by the Board of Education of the Township of Republic, and by the qualified electors of the Township of Republic voting at an annual election held on the 8th of July, 1907, in pursuance of the required notices posted.

The bonds will be issued in denominations of not less than five hundred dollars, or as may be desired by successful bidder.

These bonds will be dated as of the 1st of October, 1907, and will be awarded to the highest responsible bidder. Principal and interest payable at First National Bank, Chicago, Ills.

The Board of Education of the Township of Republic reserves the right to reject any and all bids.

All bids should be forwarded to the undersigned, and should be received on or before the 1st day of August, 1907.

PETER W. PASCOE, Moderator.

Dated: Republic, Mich., July 10th, 1907. (7-12-174)

Yesterday's temperatures: 7 a. m., 65 degrees; noon, 74 degrees; 7 p. m., 61 degrees; maximum, 74 degrees; minimum, 61 degrees.

Forecast: Fair and cooler, fresh north-west wind.

Miss Mary Reinhardt is visiting friends at Menominee.

William Quim of Negaunee was in the city yesterday.

Mrs. Elizabeth Delf left yesterday for a visit in Calumet.

Sheriff Thornton, of Alger county, was in the city yesterday.

The Woodmen's degree team gave a dance at Fraternity Hall last night.

Mr. and Mrs. T. M. Gillum and family of Munising are visiting in the city.

Caryl B. Storrs, of the Minneapolis Tribune, is spending his vacation in the city.

Miss Ruth Read, who has been visiting in Buffalo, returned to Marquette yesterday.

Miss Mildred Dushane is home from Houghton, where she visited Miss Lily Mitchell.

Thomas Lauf, who formerly lived in Marquette, is visiting his uncle, H. F. Stafford.

Miss Bernice Bowen, a graduate of the Northern Normal, is here from Manistique, the guest of friends.

Mrs. George W. Smith, Jr., and baby are spending a few days in Ishpeming, with Mrs. Smith's parents.

Mrs. C. H. Call, who arrived in Marquette recently from Cleveland, Ohio, is visiting Mrs. George Shiras.

The Friday evening services at St. Paul's church will be held tonight in the church instead of in the chapel.

Howard Coleman, first officer on the ore boat James Laughlin, which is now in port, is visiting Marquette friends during his stay here.

C. W. Kennedy, he of the black diamonds, is in the city. He will visit Ishpeming, Negaunee and the copper region before returning east.

A. E. Stewart, commercial agent for the Chicago, Milwaukee & St. Paul railroad, with headquarters at Houghton, visited in the city yesterday.

Dr. Morse is home from Philadelphia, where he attended the annual convention and reunion of the B. P. O. E., as representative of the Marquette lodge.

Superintendent Lewis, the head of the Port Huron schools, and a member of the executive board for the Northern Normal, is in the city this week inspecting the institution.

"Wedded but No Wife" was the Morgan's Comedians bill at the opera house last night, and it attracted a very large attendance. The theater was sold out.

"The Ragged Princess" will be the offering tonight.

H. W. Jackson of Negaunee, R. A. Kirkham of Menominee, J. E. Brandlund of Ishpeming, William Leighton of Grand Marais, W. W. Cushman of Houghton, and William Carey of Stephenson were visitors in the city yesterday.

Charles Draper, assistant engineer on the ore boat, James Laughlin, who was formerly on the steamer Sparta, and who was well known in Marquette, is making his first visit to this port since he left Marquette eight years ago.

Mrs. Kate Murphy of Milwaukee, who is on her way to Ireland, is spending a few days in Marquette, visiting Mrs. Kate Donovan, of South Front street. When she leaves, Mrs. Donovan will accompany her as far as New York.

William Green, engineer, and Arthur Praser, residents of Marquette, who have been working on the Mesaba range, have returned home. The strike, which is forcing hundreds out of employment, is responsible for their arrival here at this time.

Miss Ida Mendonhall, librarian of the State Normal at Geneseo, N. Y., will give an address at the Northern Normal at 2:25 o'clock this afternoon. She will speak concerning the "Selection of School Teachers especially are invited to attend."

J. E. Kenning of Grand Rapids is in the city. He is on one of his occasional business trips through the upper peninsula. Mr. Kenning is the manufacturer and distributor of the well known Darantella and other brands of cigars, which have a large sale throughout the peninsula.

Mrs. T. Duquette of St. Paul, who came to Marquette a week ago to attend the funeral of her brother, Joseph Duquette, left for her home yesterday. She was accompanied by her mother, Mrs. A. Loraine, and her sister, Mrs. John Neault, who will spend some time in St. Paul.

To Be Married—Miss Maud St. Onge of Marquette and David Scanlon of Negaunee were granted license to marry yesterday.

Imposta in Port—The Ticonderoga is to arrive in Marquette from Duluth at 6 o'clock this evening. She will sail for Buffalo at 7 o'clock.

To Hold Meeting—The Presbyterian Ladies' Missionary society will meet this afternoon at the home of Mrs. J. M. Rogers, East Michigan street.

Nine Charter Members—The Swedish Temperance society, which was organized Wednesday evening at a meeting at Hall's Hall, has nine charter members. The newly elected officers are: President, M. E. Olson; vice president, Erik Hultgren; secretary, John Olson; treasurer, Thora Carlson, master, G. Tharen. There are nine societies of the kind in the state, and the national body will be incorporated at once. The next meeting of the society will be held Wednesday evening.

Stock Company Coming—The Dougherty stock company, a repertoire organization, will be the next attraction at the opera house beginning next Monday. It will produce a series of melodramas and comedy-dramas. The troupe is headed by Jim and Hattie Dougherty, supported by Eugene West, Dave Curtis, Chas. H. Vinton, Jack Dougherty, Wm. Stanford, Burd Bartram, Harriett Bartram and baby Clara. A number of high class vaudeville specialties will be introduced between the acts. Also moving pictures and illustrated songs will be presented. Popular prices will prevail, ten, twenty and thirty cents.

At Santa Barbara—The Mining Journal is in receipt of a letter from Professor Kluge, who writes that he is located at Santa Barbara, instead of at Los Angeles, where he expected to live when he left Marquette. Mr. Kluge and his family were delayed about a week on the trip to Los Angeles and when they reached there the position he expected to take had been filled. At Santa Barbara he is leader of the Military band and the opera house orchestra, and is doing very well. He and his family like the place even better than Los Angeles. It is located on the shore of the Pacific and the climate is delightful. Professor Kluge's address in Santa Barbara is 1232 Laguna street.

GOLD SCATTERED BY BURGLAR ON GROUND

QUANTITY OF PRECIOUS METAL IS PICKED UP IN THE SOUTH SHORE RAILROAD YARDS.

POLICE HAVE DESCRIPTION

Employees of Yard Were Within Few Feet of Man Just a Short Time After the Robbery Was Committed.

Through the publication in The Mining Journal of the facts connected with the burglary of the dental office of Dr. E. L. Drake, the trail of the burglar has been found, and several citizens who saw the man within a short time after the robbery were committed have given descriptions of him to the police. With the information that they now have, the police believe that the man's capture is a question of but a few days at most.

Burglar's Movements.

A small quantity of the gold which was taken has been recovered. It was picked up by the side of the Duluth-South Shore & Atlantic railroad tracks where the man was seen. After the robbery was committed Tuesday evening between the hours of 6 and 7 o'clock, the burglar walked south on Front street from the Savings bank building to the street leading past the depot. He followed the railroad tracks until he reached a pile of ties at the side of the tracks near Fourth street.

It was here that he was seen by Peter Laplant, a brakeman, and William Nicholson, who also works in the railroad yards. When he was observed by the two men he appeared to be pounding something, and while so engaged, No. 4 passenger train from Calumet, which arrives in Marquette at 7:45 p. m., passed within a few feet of him. A number of other yard employees noticed the man, but Laplant and Nicholson were within a few steps of him. Laplant threw a switch for the passenger train not ten feet from where the man sat pounding up the gold.

The men paid but slight heed to the stranger and his occupation when they first observed him, but when the story of the robbery was made public, out of curiosity they made an examination of the ground about the pile of ties.

Find Gold on Ground.

Scattered about on the ground they found hundreds of small fragments of gold besides a quantity of platinum, which the burglar probably thought worthless and cast aside. They also found a number of pieces of porcelain, the material used in making artificial teeth. This had been crushed out of the gold frames.

Laplant and Nicholson at once communicated their discovery to Walter Ward, the yard master, and as much of the precious metal as could be found was picked up by the three men. It was taken to the office of Dr. Drake, who at once identified it as a part of the gold which had been stolen from his office. A later examination of the spot by the railroad ties revealed an additional find.

A half dozen of the pasteboard cylinders, in which the gold for the dentist trade is packed, were found. Sixteen of these cylinders, each containing about 25 worth of gold foil, were stolen at the office. It was when the ground was gone over the second time that one of the men kicked up what appeared to be a bit of tin. The piece was platinum, and was worth about \$6.

False Clue.

Believing that the robber might attempt to mail the loot he had taken, the postoffice authorities were asked to cooperate with the police, and all suspicious packages were watched. One, packaged Monday morning and addressed to an eastern city, came under suspicion.

Acting upon a description of the man who mailed the package, Dr. Drake himself played detective to the extent that he found the man, who turned out to be an acquaintance and beyond suspicion.

Loss Is Heavy.

It has been found that the quantity of gold taken is greater than was at first estimated, and the loss will run close to \$200. Of this amount about \$4 worth of gold was picked up near the pile of ties and was returned to Dr. Drake. This, with the platinum that was found, reduces the amount of the theft slightly.

It was found that the burglar had used a sheet of iron he had picked up in the yards. He was pounding the gold with another piece of metal, attempting in that manner to mould the gold into nuggets. It is believed that he left Marquette on the late train Tuesday night.

RECORD IS BROKEN.

J. Pierpont Morgan Sails From Marquette With 11,450 Tons of Ore.

The 11,129 ton shipment of iron ore with which the ore boat, Peter A. B. Widener sailed last Wednesday, establishing a record for the port, has been exceeded, and a new record has been established by the J. Pierpont Morgan, which sailed last night with a cargo of 11,450 tons.

The two boats are of the same size, 600 feet in length by 58 beam, and both

of them loaded here at the same time. The cargo taken out by the Morgan is very near to the record for Lake Superior.

The Elbert H. Gary, which was the first of the big ore boats to come to this port recently, sailed with a cargo of 10,500 tons. She is expected back by next Sunday. The James Laughlin, which is tied up at the docks now, is to load at Presque Isle. The Gary and the Laughlin are of the same size, 570 feet in length by 58 feet beam. The Henry Phipps, another of the big boats, will arrive in port today.

SPECULATION

The desire to get rich quick has one merit—it shows ambition. Most men have in their make-up something of the gambler. Don't let that shock you, for if you study the ways in which money is made you will find that the successful money-getters take big chances, unless they merely marry for it. Speculation used to be carried on very much "sub-rosa." That time has passed. Men don't see very much difference between investment and speculation, and with some reason, for if moral considerations be laid aside it is hard to prove any true logical difference between purchase and poker. Men are as logical as they are able to be but only try to be as moral as they can.

Yerkes, the traction magnate, said he never saw a man of moderate means play the grain market successfully for two years. The temptation is to risk more than you can afford to lose. In speculation men dare to take chances at another man's game that they would shudder at in their own business that they know all about. Lucky people talk about their winnings but most men keep their losses to themselves. When you carry a margin account that involves risks that are beyond your means you're about like the fellow hanging on to a wolf's tail as it runs around a tree. If you lose your grip on the tail, or the tail lets go the wolf will get you sure. The only man on the race track that always comes out ahead is the man that sells sandwiches. During the past ten years ninety-nine speculators out of every hundred would have been richer today if they had kept putting their earnings on deposit at three per cent interest in the

Marquette National Bank.
Marquette, Michigan.

MARKETS

NEW YORK STOCKS.

New York, July 25.—Speculative operations fell into abeyance today with the announcement that the Southern Pacific directors had adjourned for a week without taking formal action on the dividend. Superficially, the halt in the market might be construed into doubt as to what the dividend rates will be. As a matter of fact it was allowed to be understood that the executive committee had decided to recommend a quarterly dividend at 1 1/2 per cent, thus raising the rate from 5 to 6 per cent. Whether the removal of the mystery from the dividend decision diminished the attractiveness of the stock was doubted, but the hesitation of the market seemed due rather to deliberation as to what speculative program might be portended by the singular procedure.

Last year there was excited speculation in the Harriman up to Aug. 15, when the dividends were declared, which became frenzied before the public announcement of the action was made Aug. 17. Yet it was established before the interstate commerce commission that the dividend rates had been discussed at a meeting held July 15. There seems no opportunity this year for all this play of rumor. The stock went to 91 1/2, a day in continuation of yesterday's movement, but the amount of sales to realize at the higher level became so great as to discourage further attempts to advance the price.

When Southern Pacific dropped from its early advance the rise in Reading was ineffective to hold the market, although seemingly designed to do so. Other factors were of little influence. Money on call continued to rule easy. The foreign exchange rates were maintained in spite of the dullness. Discounts advanced in London, and the modest recuperation displayed in the weekly return of the Bank of France was not sufficient to allay the supposition of further gold withdrawals. A fresh decline in copper in London hurt the metal stocks. The Harriman stocks closed with small net declines.

Paine, Webber & Co. telegraphed from New York yesterday as follows: "There was continuing realizing in the New York stock market today, due to the fact that action on the Southern Pacific dividend was deferred for a week. Although profit taking was in evidence all along the list, the market withstood the pressure and closed rather steady at the recessions in the high price range of the day. There is nothing new in the situation, but undoubtedly the recent advance has been mostly at the expense of the short interest, and the elimination of the latter will make the market more susceptible to bearish attacks. However, it is doubtful whether much liquidation will ensue, as stocks have not been widely distributed, and the bulk of the floating supply is still held by strong interests. There is some talk of further exports of gold, but call money continues easy and although the finer money is somewhat firmer, there is nothing in the situation to cause immediate apprehension. We are inclined to think that the market will ease off somewhat further, but favor purchases on the breaks."

Closing prices were:

Boston Stock Quotations.
Writing from Boston yesterday Paine, Webber & Co. said: "After a strong opening everything commenced to sag and soon got very dull. The Southern Pacific directors adjourned until next Thursday, without action. It is generally conceded now that they will not give a cent, and I expect that the stock will sell as high as Atch-

ate increase in the winter wheat movement, according to Kansas City messages. They had 153 cars today, against 373 last year. Chicago had fifty-three cars against 552 last year, and there is an estimate of only thirty-six cars for tomorrow. Toledo reports practically no wheat offered on bids sent out from there, and thinks it will take higher prices to move wheat from the states east of the river. The same sort of talk comes from Kansas City and St. Louis in regard to the southwest. At the latter point outside bids were buying wheat at a 1/2 advance today. Additional black rust messages were received from Minnesota points, but there is no certainty as yet that the blight will develop or spread to a dangerous degree. All the reports on the northwest crop are bad. The Preston Farming company, with 5,000 acres of wheat near Blanchard, N. D., expects 60 per cent of last year's yield. A Duluth message reports the traveling men as claiming only half a crop in many portions of that state. The forecast is for more rain over some of the harvesting sections. We believe the situation will develop enough strength to bring in the public on a large scale and that on any reasonable reaction wheat can be bought safely."

Copper Metal Prices.
New York, July 25.—Copper was lower in the English market today, with spot closing £2 lower, at £94, and futures 15s lower, £87, 5s. Locally the market was nominally unchanged, with Lake quoted at 21¢ 2/2, electrolytic at 20, 50¢ 21 and ending at 20¢ 25. The Boston Financial News says: "A small local copper producer made a sale of Lake copper at 22 cents a pound earlier this week. This price is not net to the seller, however, as a brokerage commission of 1/2 of 1 cent has to come off. An official of this company said that there is no supply of copper at the lake. All that is coming forward is some mineral which the Calumet & Hecla could not get to the smelter during the severe winter and this has about been taken care of by now. In view of this fact and that falling off in the production of the Butte mines, it is difficult to see where there is any large reserve supply of the red metal, even if the consumers have not taken advantage of the cut in prices to jump in and load up with copper. The probable reason is that the consumers are waiting to see if their orders for the manufactured product keep up before buying raw material and not because they have a plentiful supply on hand. It has been heard that these orders have fallen off within the past two weeks over 50 per cent, but that is a fabrication of the rumor is not at hand. It would seem that with the tremendous railway electrification that is going on at present and that is in prospect for the future, (witness Vice President Byrnes, of the New Haven, as quoted yesterday) the demand for copper would increase rather than show a falling off, especially in the immediate future."

CHICAGO GRAIN MARKETS.
Chicago, July 25.—When trading commenced in the wheat pit today there was an active general demand and the prices ranged from 3 1/2 to 1 1/2 above the closing yesterday. The buying was based largely on firm cables, small receipts, and higher prices on the Minneapolis curb. The market was further strengthened by damage reports from the Northwest, some of which received late in the day confirmed the previous reports of rust in Dakota wheat fields. It was also claimed today that blight had appeared in Minnesota. The official forecast of more rain for Illinois, Iowa and Missouri, where the harvesting is in progress, was an other bullish influence. Local long sold freely, but the offerings were readily taken and the market was strong the entire session, the September closing 3/4 higher, September opened at 92 1/2 @ 3/4, highest, 92 1/2; lowest, 92 1/2; closing, 93. Corn—Persistent hot weather in Kansas and Oklahoma, where the crop was said to be "cracking" as a result of the heat, caused a strong market. The buying was quite general, cash houses taking a larger part of the offerings. Firm cables and small receipts were minor bullish factors. The September closed 1/2 higher, September opened at 53 1/2 @ 3/4, highest, 54 1/2; lowest, 53 1/2; closing, 53 1/2. Oats—The trade was quiet, with the market firm in sympathy with wheat and corn. Numerous reports of damage by wet weather were received from the West, but buyers were held in check by fear the new crop would be on the market within the next two weeks. The September closed 1/2 higher, September opened at 38 1/2 @ 3/4, highest, 39 1/2; lowest, 38 1/2 @ 3/4; closing, 39.

WATERY GRAVES FOR MANY.
Bodies of Only Five of 93 Columbia Wreck Victims Have Been Recovered.
San Francisco, July 25.—The steamer Topokai arrived here today with seven teen survivors of the Columbia wreck. Segregation of the returns of the work of rescue shows that of the 245 persons on board the ill-fated steamer, 152 have been saved, five bodies have been recovered, and eight or eight persons are reported lost. Of the entire number lost—ninety-three—thirty-nine were men, forty-nine women and five children.

SAYS COLONEL WAS HOUNDED.
New York, July 25.—Lieutenant Colonel Charles G. Ayers, Fourteenth cavalry, was officially informed today of his retirement. Mrs. Ayers said: "Colonel Ayers was hounded out of the service by a clique of officers. Wives who are jealous of me have influenced weak-minded husbands to strike at me through my husband."

MOVE TO AVERT THREATENED WAR

INITIAL STEP TAKEN TOWARD ARBITRATION BETWEEN SALVADOR AND NICARAGUA.

Washington, July 25.—Mexico has been approached by the government of Salvador with a request that it take the initiative in opening negotiations between the latter country and Nicaragua for the arbitration of the claims of Salvador. The step is the outcome of an inquiry made in Mexico when the minister from Nicaragua sought to know whether Salvador would submit its claims against Nicaragua to arbitration. Salvador is believed here to be willing to arbitrate if her neighbor first make suitable amends for taking up arms against her. Mexico can make the suggestion to Nicaragua in a way that will preserve the pride of both nations. At the state department the opinion is held that there is no anxiety among the Central American states for the federation which said to be at the bottom of President Zelaya's ambitions. Acting Secretary of State Bacon conferred today with Senator Meija, minister from Salvador, regarding the case of the Moissant brothers, whose property was reported attached and who were in prison on charges of abetting revolutionary movements. The information regarding the case is incomplete, and the official secretary of state today has been reaching a decision. The brothers have been released from prison.

ARREST CAUSES A SENSATION.
Clubman at Bakersfield, Cal., Jailed on Serious Charges from Iowa.

Bakersfield, Cal., July 25.—George McKeown, society leader, club man and automobilist, was arrested this evening on charges from Webster City, Ia., where he was wanted for embezzlement and arson. His arrest causes a sensation. Social friends declare it a case of mistaken identity. McKeown will be in the county jail until requisition papers arrive from Iowa.

Webster City, Ia., July 25.—George McKeown, under indictment for alleged arson and embezzlement, was reported to the prosecuting attorney today, has been found in Bakersfield, Cal., but the prosecutor is not certain whether the man in Bakersfield is the one wanted. A man representing himself as George McKeown came to Webster City in 1902 as manager of the Northwestern Hotel. Some company when that company opened its factory. He had been the foreman of a similar establishment in New York, and drew much attention by his apparently successful management of the local concern. The stockholders and directors, however, found fault with the manager's use of the company's funds in purchasing goods in the East. The capital stock was increased from \$50,000 to \$100,000, and the manager was requested to resign. A week afterwards the factory was destroyed by fire. McKeown left town. Investigation followed the disappearance of McKeown, and he was indicted for embezzlement and arson. It is charged that an invoice of supplies purchased by McKeown showed the bills of sales padded.

NAVAL COURTESIES EXCHANGED.
Departure of U. S. Cruisers From Brest Marked by Inspiring Scenes.
Brest, July 25.—The departure of the United States cruisers Washington and Tennessee was today attended by inspiring scenes. The American sailors were grouped about their bands, which played the Japanese national anthem while passing the Japanese ships and the "Marseillaise" while passing the French ships. The Japanese trumpets saluted the stars and stripes, and there were cheers from all the warships.

UPPER PENINSULA NOTES.
The Pittsburg Steamship company has contributed \$300 to the Sault Ste. Marie hospital.

John Niemi of Ironwood had a narrow escape from being buried under a cave of dirt in a sewer trench. The ground fell in such a manner that the air could reach the man, and he was released in forty-five minutes without sustaining any injury.

The twelve-year-old son of City Attorney and State Representative J. S. Monroe, of Ironwood is afflicted with smallpox in light form. The patient has been isolated at the pest house together with his mother, Mrs. Monroe insisting on submitting to the quarantine regulations to be with her afflicted son. Gad Smith, collector of customs, gives notice that on Monday, the 29th of July, 1907, at ten o'clock a. m. he will expose for sale at Sault Ste. Marie, in front of the old customs office at the Union dock, twenty-two cases of canned salmon, each containing forty-eight cans, seized for violation of the revenue laws of the United States.

LARGE BLUEBERRY CROP IN PROSPECT

FAVORABLE REPORTS RECEIVED FROM DISTRICTS NORTH AND WEST OF ISHPEMING—J. EWALD WILL BE HERE IN A FEW DAYS.

Ishpeming people who have visited the woods north and west of the city during the past few days report that indications are favorable for an unusually heavy crop of blueberries. Similar reports are being received from other parts of the upper peninsula, particularly along the line of the Chicago & Northwestern system between Goose Lake and Brampton. It is reported that the crop in the Hartveit district gives promise of being unusually good and indications are that the berries will be larger than usual.

The crops in the districts north and west of Ishpeming have not been large for two or three years past. Indications for a big crop were favorable two weeks before the opening of the season last year, but a frost destroyed the greater part of the berries then ripe. The crop in the district west here was practically a failure, but several hundred bushels were gathered in the Dead River region.

J. Ewald, the veteran berry buyer and box manufacturer, is expected to arrive in Ishpeming on his annual trip within the next week or ten days. He has already opened two or three of his buying stations in Wisconsin and has been doing business for three weeks past. When he concluded his business here last season he left several thousand berry boxes and a large number of crates in the warehouse he occupies on Ridge street. During the past few days several loads of these boxes have been shipped to Mr. Ewald's patrons.

Mr. Ewald has been buying berries for over twenty-five years, and he is one of the largest manufacturers of berry boxes and crates in the country. While he was in this city last year he received a patent on a very unique box for which he received several liberal offers.

Besides conducting the berry and box business Mr. Ewald and his sons have a job printing plant at Minneapolis. He served his time as a printer before engaging in the berry business. He not only manufactures boxes for blueberries in season, but during the past few years he has found it necessary to keep his Minneapolis plant in operation the greater part of the year, as he has worked up an extensive trade for both boxes and crates. He is supplying commission men and others in many of the principal fruit and berry districts in the country.

VERY SUCCESSFUL TRIP.

State Board of Barbers' Examiners Completed Tour Wednesday

Joseph H. Hooper, treasurer of the state board of barbers' examiners, arrived home yesterday from the copper country, where on Wednesday the board held the last meeting on its tour of the upper peninsula, started ten days ago. Mr. Hooper says that the trip was the most successful that the board has ever had, and that a greater number of applications were received than on any previous tour of the northern peninsula. Sixty-five men appeared for examination. The examinations are now much more exacting than they were when the board was first organized a few years ago.

Barbers who first opposed the system are now in line as all realize that the board has accomplished much for the trade. There are now over 4,000 licensed barbers in Michigan.

INSPECTING MINES.

William Brady of Chicago, A. B. Clemens of Worcester, Mass., W. B. N. Bank of Elyria, O., and M. C. W. Chamberlain of Pittsburg, all prominent mining men, inspected a number of mines here Wednesday. They are making a tour of the Lake Superior district.

WELL DESERVED.

The Praise That Comes from Thankful Marquette People.

One kidney remedy never fails. Marquette people rely upon it. That remedy is Doan's Kidney Pills. Marquette testimony proves it always reliable.

James Rivers, teamster, of 159 West Washington street, Marquette, Mich., says: "I have used Doan's Kidney Pills and know from experience that they cure backache. I hurt my back a few years ago. I limped around for several days but seemed to get all right again so I paid no more attention to the trouble. About six months after I noticed every once in a while I would have a catch in my back if I would change my position quickly. If standing or sitting still for a while, and moving suddenly this catch would be the result. This generally affected the small of my back. I paid no attention to it at first but the attacks became more frequent and lasted longer than before and would always leave a dull pain which became a source of annoyance. It finally became so bad that I could scarcely stoop forward to pick up anything. I put on a kidney plaster and it gave me temporary relief but the weakness soon returned. I read a great deal about Doan's Kidney Pills and was cured. I can lift as much today as I ever could and have had no backache since I took Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

CARD OF THANKS.

Wesley through The Mining Journal to express our sincere appreciation of the many favors extended to us during our recent bereavement. We wish particularly to thank the members of Sir Humphrey Davy Lodge, Sons of St. St. George, for their many kindly acts, also our relatives in the copper country, as well as our friends and neighbors in Ishpeming. We feel under special obligations to those who sent flowers.

MRS. JOHN B. WILLIAMS and Family.

TUXEDO CLUB 10¢ CIGAR

S.S.S. CURES BLOOD POISON

The first symptom of Contagious Blood Poison is usually a little sore or ulcer which does not always excite suspicion because of its insignificance but as the poison becomes more firmly rooted in the blood, the mouth and throat ulcerate, copper-colored spots appear, a rash breaks out on the body, the hair begins to come out, glands in the neck and groins swell, and often ulcerating sores form on the limbs, hands or face. But this is not all: the poison is allowed to remain it works down and attacks the bones, causing necrosis or decay, and makes a complete physical wreck of the sufferer. It will not do to tamper with a disease so powerful as Contagious Blood Poison for every day the virus remains in the blood the trouble is progressing toward a more dangerous stage, and may in the end get beyond the reach of any treatment. There is but one certain, reliable cure for Contagious Blood Poison, and that is S. S. S., the greatest of all blood purifiers. This remedy attacks the disease in the right way by going down into the blood and forcing out every particle of the poison. It makes the blood pure and rich, strengthens the different parts of the body, tones up the system and cures this humiliating and destructive disorder permanently. The improvement commences as soon as the patient gets under the influence of S. S. S. and continues until every vestige of the poison is driven from the blood, and the sufferer completely restored to health. S. S. S. is not an experiment, it is a success and has cured thousands of cases of Contagious Blood Poison in every stage, and being entirely free from minerals, is as safe as well as certain treatment. If you are suffering with this debasing disease get the poison out of your blood with S. S. S. before it does further damage. Special home treatment book on the disease and medical advice sent free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

GOOD WAGES ON MESABA.

Miners of Minnesota District Are Well Paid and Well Treated.

"The average miner on the Mesaba range received better wages than are paid on any of the older ranges," said an Ishpeming mining man yesterday who recently returned from that district. "I cannot see where the miners have a show to win their strike, as they really have no grievance. The strike had been brewing for some time, and it is perhaps just as well that it is on, as it will be sooner or later. When I worked on the range I was in a position to know what the men were making at most of the mines, and, knowing the conditions in this country, I found that the average pay of miners, laborers and mechanics was better than that prevailing here."

"Knowing the general conditions on the Mesaba as well as I do, I am naturally much interested in the strike. I am satisfied that the mining men and the better class of citizens who are with them are able to deal with the strikers, and I am certain that it will not be many days before most of the mines will be working again. I have been advised by a friend on the range that the strikers are being refused credit in the stores, and at the boarding houses. Men who are not able to pay their way will have to go hungry. This will aid in bringing about a settlement. It may result in driving a good many workmen from the range, but I am informed that men who are known to be desirous of working are accorded the usual privileges. Many of the forces will be disorganized as a result of the trouble, and the tonnage of ore produced will be greatly cut down."

FROM HOPKINS' CURB LETTER.

"The strength in the New York market was largely counteracted by the sharp decline in metal in the London market, and as a result coppers were dull and inactive at about yesterday's figures. Toward noon some weakness developed in New York and prices reacted fractionally. We are at a loss to understand just why the copper share market should lag the way it does, but it does not follow the lead of New York as it should. Every factor that should have a bearing on the market is bullish and favors the buying side."

The prevailing prices were:

ALLISON'S THEATRE MAY BE REOPENED

AN EFFORT BEING MADE TO ADJUST DIFFICULTY WITH INSURANCE COMPANIES—STEEL COOP MAY BE PUT IN.

The announcement in Wednesday's issue of The Mining Journal that John F. Allison had decided to close his electric theater in the Sundburg block was a surprise to Negaunee people and created much comment. Mr. Allison was some time ago notified by the insurance companies that his policies would be cancelled if the theater business was not discontinued. Since closing the house Mr. Allison has been endeavoring to adjust the matter, and he said yesterday that it is possible he may be able to reopen the theater in a week or so. The insurance companies accept insurance on buildings where electric theaters are conducted under certain conditions. One of them is that the coop in which the picture machine is located be constructed of steel, also that a steel or iron receptacle be used for the reception of the films as they leave the reels.

Many companies are absolutely refusing insurance on buildings in which electric theaters are conducted and many policies have been cancelled. It is said that the machines have been responsible for many fires. One company has advised its Negaunee agent that out of 100 fires in Ohio seventy-seven were caused by picture machines. In most cases the fires have been caused by incompetent operators. Mr. Allison's operator was conceded to be one of the best that has ever worked in this region and he understood his work thoroughly.

The running of a moving picture machine looks simple enough, but is not as simple as it looks. The films are made of combustible material, and have to be handled carefully.

Mr. Allison's business was very satisfactory. In fact the house had made money up to the time it was closed, and he anticipated an increase in the business as soon as cold weather set in. In case the insurance matter cannot be satisfactorily adjusted, Mr. Allison will move his theater equipment and reopen his billiard hall and bowling alley. Mr. Cooley, the operator, expects to leave today for Chicago, where he will be assigned to another position by the Spoor syndicate, which handles the machines and films used here.

Great bargains in shoes during the special sale at Shea's Friday and Saturday. (7-25-24)

DOWN FROM THE MESABA.

Four Negaunee men who have been working on the Mesaba range are here for a visit, and others are expected within a few days, if the strike is not settled. Many of the former Negaunee men are still working, but others have been thrown out of employment. The Negaunee report most of the men of the strike are foreigners. The strike fever has been in the air on the Mesaba for some weeks. Skilled workmen are, as a rule, desirous of returning to the mines. The Negaunee men are satisfied that the strikers will lose, and the sentiment is now strongly against the agitators, who have been in the field for more than a month past, that the more radical ones will be compelled to leave the district. Men are leaving the range on every train, going to points where they will be able to find work. Most of those pulling out are good men who are opposed to the strike movement and who want to get away from the trouble.

Heavy reductions in the prices of shoes of all kinds during Shea's special sale Friday and Saturday. (7-25-24)

TOM PAUL IMPROVING.

Robert G. Jackson, who arrived home early in the week from Jackson, where he attended the quarterly meeting of the board of control of the Old Fellows' home, reports that Thomas Paul, of Hamilton, Ontario, "My little daughter had a bad burn on her knee. I applied Chamberlain's Salve and it healed beautifully." This salve allays the pain of a burn almost instantly. It is for sale by The Stafford Drug Co.

BAD BURN QUICKLY HEALED.

"I am so delighted with what Chamberlain's Salve has done for me that I feel bound to write and tell you so," says Mrs. Robert M. Jones, 437 Elm, Hamilton, Ontario. "My little daughter had a bad burn on her knee. I applied Chamberlain's Salve and it healed beautifully." This salve allays the pain of a burn almost instantly. It is for sale by The Stafford Drug Co.

OVERCOME BY GAS.

Workman Rendered Unconscious While Repairing Leak in Main.

Harry Shurley, a well-known Negaunee man, was overcome by gas while working on the gas main at Barab's store on Iron street, Wednesday afternoon, and it took three-quarters of an hour to bring him around. A doctor and two druggists worked over him and it was feared for a time that he would not recover. The two men working with Shurley reported that they had observed for some minutes before he gave up work that he seemed in a dazed condition. A few times he complained of being dizzy, and left the trench to rest. Shurley is an old gas man and he had been overcome two or three times before in Chicago, where he worked for some time before returning to Negaunee to take his present position. He was confined to his bed yesterday and it will be two or three days before he will be able to resume his work.

A PROMISING PROPERTY.

Several Are After Barab Copper Mine Near Mellen, Wis.

Joseph Barab and Ernest Kerten, who are interested in the Barab Copper Mining company's property near Mellen, Wis., owned principally by Nelson Barab, uncle of the Negaunee man, visited Mellen Monday. They attended a meeting of the stockholders called for the purpose of devising ways and means for raising additional funds with which to carry on exploratory work. Some time ago the company issued 100,000 shares of treasury stock at ten cents per share. It was decided at the meeting this week to sell 200,000 shares of common stock at twenty-five cents. Applications were presented at the meeting for some of this stock, and it is expected that the entire allotment will be disposed of within a few months.

Mr. Barab said yesterday that a number of mining men who have examined the property during the past few months have expressed the opinion that a good mine will eventually be developed. Nelson Barab has already received a number of good offers for the property, but he refuses to sell it outright. He will not sell a majority interest, as he desires his family to retain control, but he is satisfied to turn the management over to experienced mining men or will lease the property on a royalty basis. The shaft is now down forty-four feet and the entire bottom is in rich copper ore. The vein is pitching toward the west.

Joseph Barab has received a proposition from a diamond drill man that may be accepted. He has offered to put a drill on the land and explore it thoroughly, taking his pay in stock at the price he would be selling. No mining is now being done, as there are no men to be had, but work is to be resumed as soon as a force can be organized.

Don't miss the special shoe sale at Shea's store Friday and Saturday. (7-25-24)

LOCAL LAONICS.

Mayor J. H. Winter left Wednesday for Cuba City, Wis., on business connected with the Baxter mine.

Bert Balcom is serving as extra police officer during the absence of John Mitchell, who is off on a vacation.

C. L. Sporely, Jack Carlock, Thomas Grubbe and Dave Foley spent yesterday fishing for trout near Switzer's farm.

Mrs. John Shea and her son, Leslie, left Wednesday for Lake Linden, where they will spend a week visiting relatives.

Maurice and Dennis Maloney, who have been on a visit to their parents, are here on a visit to their parents. They may remain in the city until the strike is settled.

L. E. Chaussee has returned from Canada, where he spent the past two weeks with relatives. His wife and daughter, who accompanied him, will be absent ten days or more.

Fred Robear, who has been on the Mesaba range for a year or more, has returned to Negaunee. He will probably return to the range again after the settlement of the strike.

Herbert Grubbe, who is playing the piano at "Wonderland," intends to give instructions in piano playing. His announcement appears in this issue of The Mining Journal. Mr. Grubbe is a fine pianist.

Phil Levine and wife will leave tomorrow on a trip to the Mesaba range, or two weeks. They will visit down to the Timewick, returning on the Juniata, and will visit Detroit, Buffalo, Niagara Falls, Toronto and other points.

Harry Schweinbach, traveling representative of the Leisen-Heme Brewing company of Menominee, was in the city yesterday. He and Harry Jackson conducted a very successful business, spent part of the day at Marquette.

The big coal trestle which L. E. Chaussee is erecting at the Princeton mine for the Cleveland-Cliffs Iron company will be completed within three weeks. It will be 420 feet in length and similar in design to the one Mr. Chaussee erected at the Maas mine last fall.

Zepha Tonsignant, who owns a small saw mill south of Chocoma, was in the city yesterday. He purchased some equipment for his plant from Fred Roberts, who owns a mill near here. Mr. Tonsignant is cutting lumber at his Chocoma plant for the Consolidated Fuel & Lumber company.

Shoes, shoes, shoes, at greatly reduced prices at a special sale Friday and Saturday. John Shea. (7-25-24)

MIDSUMMER EXCURSION TO DULUTH. Via the South Shore, leaving July 25th and 26th, return limit July 29th. Fare for the round trip \$9.10. Attractions: Barnum & Bailey's circus at Superior July 26th, and at Duluth July 27th; the "White City" on Park Point; baseball games Houghton vs. Duluth. (7-11-24)

Hotel Williams, Grand Island, Munising, Michigan, has increased its capacity by adding three two-room cottages with five porches. A large number of Ohio, Pennsylvania, Indiana and Illinois people have already booked reservations. (7-8-21)

Upper Peninsula

Grand Marais Tug Sold—

The tug J. W. Westcott of Grand Marais has been sold by W. C. Davidson & Son to the Thompson Tug company of Port Huron, and has been taken to that port. The Westcott has done duty as the harbor tug at Grand Marais since 1898. Its place has been taken by the tug J. W. Ward, purchased last season from Powell & Mitchell of Marquette.

Fire Hall for the Soo—

It is now a certainty that the Soo will have a new fire hall in the near future. The approximate cost of the building is \$15,000. The plans call for a modern fire hall of brick and the best of material throughout, 66 by 58 feet in dimensions and located on what is commonly known as the Ripley lot on Ridge street. A few weeks may see the building in process of construction.

Forests in Flames—

Landowners in the Two Heart River district of Luce county report extensive forest fires raging in that portion of the upper peninsula. A very large area has been burned over and the loss to standing timber runs up many thousands of dollars. Little rain has fallen this season in the country in the vicinity of the fire zone, and the woods are so dry it takes but little wind to drive the flames through them with devastating velocity. The Two Heart district is one of the wildest in Upper Michigan. It is not populated except by an occasional trapper, it is remote from rail facilities, and but very little logging has been done.

Disgusting Spectacle—

Escanaba was again yesterday treated to the spectacle of seeing the daughter of a respectable family haled into the police court charged with being intoxicated while the proprietor of the saloon in which she was found by the police remained unmolested, comments the Escanaba Mirror. The spectacle was not a new one to the people of Escanaba as similar instances have frequently been recorded in the past. While the young woman unquestionably deserves the lesson which the sentence that she received would teach, the fact is undeniable that the proprietor of the saloon in which she was found was equally as guilty and should have received similar treatment. As long as the officials of Escanaba suffer from the wine room nuisance to run unhindered and as long as the activity of the police is confined simply to the arrest of inmates of such resorts, just such spectacles as were witnessed yesterday will continue to be seen. The proprietor of saloons who allows women to frequent the secluded rear rooms of his place is not better than the keeper of an ordinary disorderly resort and he should be treated only as such. The proprietor of any saloon which is properly conducted deserves and must have all the protection that the law can give him, but when he oversteps certain limits he becomes a lawbreaker and a common nuisance and consequently a reflection on the class of saloon proprietors who do not stop to such practices.

Sub-Marine Logging—

Hugh Shay, a lumberman, of Germantown, is preparing to embark in the sub-marine logging business. He has purchased a logging plant and a marine boiler and engine, and is installing the machinery aboard a scow preliminary to using the equipment in the work of recovering deadhead timber in the Manistique river. Many millions of feet of logs have been floated down the stream during the many years lumbering operations have been conducted on the Manistique and its tributaries, and as is always the case in driving timber a considerable quantity of the pine never reached its destination, having become water-logged and sunk. It is these logs that Mr. Shay will now get after. It has been demonstrated in similar operations on the Menominee river that rough pine timber does not deteriorate in quality because it may have been immersed for years, and that when taken out and permitted to dry for a season it makes a very fine grade of lumber. White pine, scarce article in these days of decadent forest resources, is much more valuable than at the time the bulk of this class of timber was cut in the Manistique valley, and it is expected that Mr. Shay will realize handsomely on his venture. It is said that in certain portions of the river particularly where in the course of the on-flowing water bends have formed, the bed of the stream is literally paved with sunken logs of the finest quality. With an equipment especially devised for the work, it is thought that no great difficulty will attend the operation of recovering a large share of this timber, and with the pine delivered at the mills in as good condition as the day it was cut the logs will command high prices. What arrangements have been made by Mr. Shay with the lumbering companies which cut the timber is not known, but in any event a number of the concerns have passed out of existence, and their rights in the connection will not arise. The power-equipped scow will go into commission shortly.

ISHPEMING

ISHPEMING IN BRIEF.

J. McLaugh and wife, of Chicago, are visitors in the city.

John T. Burke's family is spending this week at Camp Lauric.

A son was born Wednesday to Mr. and Mrs. Miles Butler.

Sheriff Rough was up from Marquette yesterday on legal business.

William Schumacher, of Cheboygan, Mich., visited Ishpeming friends yesterday.

Miss Olga Eggan will leave this evening for Chicago, on a ten days' visit with friends.

Miss Myrtle Delbridge of this city is visiting at the home of Benjamin Tonkin in Calumet.

Some of the Cleveland-Cliffs Iron company's mining engineers are doing work near North Lake.

Mrs. S. M. Bronson is here from Maitland, Fla., on a visit to her son, R. P. Bronson, and family.

Louis Cardinal is in the city visiting his parents, Mr. and Mrs. Joseph Cardinal, of West Division street.

F. E. Francisco of Chicago, who is touring the northern peninsula, was a visitor in the city yesterday.

Dr. E. M. Erbe, H. Wall, J. O. Hare and Guy M. Golden of Menominee were visitors in the city yesterday.

Captain Henry Schwellenbach of Company I, Michigan National Guard, was here yesterday from Menominee.

William Trebilcock was obliged to discontinue operations at the site of the Y. M. C. A. block yesterday afternoon, on account of the rain.

The electrical storm yesterday afternoon impaired the lighting service considerably. Many of the lights in the business district were put out of commission.

At the matinee tomorrow afternoon at Ishpeming theatre the Dougherty Stock company will present the children with a play for ladies and children will be presented.

The board of public works has received bids for the fourteen-inch pipe to be used in the changing of the water main to get away from Section 16 and other mines in that vicinity.

A special meeting of the city council will be held this evening to hear objections to the proposed extension of the sewer system on Empire street, between Third and Maple streets.

The vote in the popular lady contest at J. E. Cassin's store yesterday stood: Emily O'Brien, 918; Linea Nelson, 826; L. Kaupilla, 227; R. Renberg, 111. A number of others have from twenty to eighty votes.

Miss Cora Davis returned to her home in Oconto, Wis., yesterday after a visit with her sister, Mrs. H. G. O'Keefe. She was accompanied by her sister, Miss Jane Davis, stenographer with the Carpenter-Cook company here. Their sister, Anna, is to be married at Oconto next week.

While in the city a month or more ago a class of thirty-five students of the Michigan College of Mines had their picture taken in group form in their working clothes at one of the mines. The boys have presented "Bill" O'Donnell, clerk at the Nelson house, with one of the pictures.

The Dougherty Stock company was greeted by a good house last night at Ishpeming theatre, when it presented the society drama, "La Belle Marie." The performance was well received, and were the specialties and moving pictures. New pictures have been shown each evening, and tonight's bill will be a comedy, "The Gay Mr. Tompkins."

The funeral of the late Henry Jennings, who died Tuesday at the Ishpeming hospital, will be held Sunday afternoon at 3 o'clock from the Methodist Episcopal church under direction of Trethewey lodge, Sons of St. George. The remains are lying at the home of Thomas White at the Lake Angeline location, where the deceased boarded.

IDENTIFYING "U. S." ANIMALS.

The System of Branding Authorized by the Army Regulations.

Whenever you see the letters "U. S." branded on the left fore shoulder of an animal make up your mind at once that the best is or was at one time the property of our rich old "Uncle Sam."

Then, again, if you know the key to the system of branding utilized by the quartermaster's department, U. S. A., you would in a moment be able to tell the organization of the army to which that animal was assigned immediately after purchase by the government.

Last October, when the army of Cuban mobilization was being embarked from Newport News, Va., many of the army horses and mules awaiting shipment became mixed with those of other organizations, but it only needed the knowledge of Sergeant Casey to decipher the

hoof brands and despatch the animals to their proper organizations. In other words, these brands serve as "identification tags."

Branding public animals is not a matter of choice, but is provided for by the army regulations, which direct that "public animals shall, upon the day received, be branded with the letters 'U. S.' on the left fore shoulder. Horses assigned to organizations will also be branded on the hoof of one forefoot, and one-half inch below the coronet, with the designation of the company. Branding iron of uniform size and design will be supplied by the quartermaster's department. Letters 'U. S.' to be two inches in height. Letters and numbers hoof brands on the same line to be three-fourths of an inch high, the letter to precede the number, and sixteenth of an inch. For example, the hoof brands on horses assigned to band, Ninth Cavalry, would be CB9; to Troop A, Fifth Cavalry, would be A5; to Company A, Battalion of Engineers, would be BEA."

SHORT TALKS BY L. T. COOPER.

SPRING AILMENTS.

A man and a house need the same thing in spring—a good cleaning out. A certain amount of impurities have gathered in both during the winter. I am no authority for house cleaning. So far as the man is concerned Cooper's New Discovery taken for two weeks will bring the desired result. It will positively do these three things—clean out the stomach and bowels, tone up the system generally, and bring back the snap to body and mind that now seem dull and worn out. Try it and see if you won't be as pleased as Mr. Hull, whose letter I quote below:

MR. A. W. HULL.

"I suffered a general breaking down of the system. Had no appetite, poor digestion and was constipated. I lost ambition and took no interest in anything. Nothing I could do seemed to give me relief until upon a friend's advice I began to use Cooper's New Discovery. It helped me from the start. Now I am able to do as much work as the next one and I enjoy it. I have a hearty appetite and am stronger and better every way. Your New Discovery medicine is certainly the best tonic and system builder I have ever known." A. W. Hull, 142 Porter St., Detroit, Mich.

These are the famous medicines with which Mr. Cooper recently created such a stir in Chicago. His demonstrations there attracted wide attention. We are agents.

Notice to Contractors.

Notice is hereby given that bids from contractors for the erection and completion of a high school building to be built at Negaunee, Mich., in accordance with plans and specifications prepared by John D. Chubb, architect, will be received by the undersigned at any time up to Aug. 22nd, 1907, at 8 o'clock p. m.; all bids to be addressed to Mr. Cyrille Houle, secretary school board, Negaunee, Mich.; same to be opened at 8 o'clock p. m. on Aug. 22nd, 1907. All rights being reserved to accept any or to reject any or all proposals.

Contractors will be furnished with plans and specifications upon application to the undersigned. Each contractor receiving plans and specifications for estimating must leave a deposit of \$10 as a guaranty for the return of same within twenty days to Mr. Cyrille Houle, secretary of school board, Negaunee, Mich. In case the plans and specifications are not returned as above stated, the deposit of \$10 is to be forfeited and used for the purpose of making another copy for the use of other contractors requiring same. The same applies in case contractors who retain plans for twenty days fail to submit a bid on said work.

Dated Negaunee, Mich., July 22, 1907. CYRILLE HOULE, Secretary School Board, Negaunee, Mich. (7-23-11)

Notice to Contractors.

Notice is hereby given that specifications of material and labor for plumbing, sewerage and gas fitting for high school building for Negaunee, Michigan, are now on file with the secretary of the school board. Contractors desiring to submit bids upon this work may obtain a copy of the specifications upon application. All bids are to be addressed to Mr. Cyrille Houle, secretary school board, Negaunee, Mich.; same to be opened at 8 o'clock p. m., on Aug. 22nd, 1907. All rights being reserved to accept any or to reject any or all proposals.

Dated Negaunee, Mich., July 22, 1907. CYRILLE HOULE, Secretary School Board, Negaunee, Mich. (7-23-11)

GEORGE B. ROSS DEAD--A SUICIDE

PROMINENT CHICAGO HOTEL MAN-- CONDUCTED THE HOTEL SUPERIOR FOR TWO SEASONS.

IS WELL REMEMBERED HERE

Despondency Induced by Financial Troubles the Cause of His Rash Act-- Fear of Blindness May Also Have Influenced Him.

George B. Ross, a prominent Chicago hotel man widely known in Marquette because of his two years' management of the Hotel Superior, is dead in that city, a suicide. The Rosses are well remembered here. Their conduct of the Hotel Superior brought that motely up to the highest standard that ever prevailed there. They made it a fine house, but it was not financially a success, and when Mr. Ross gave it up after the second season he was money behind on the deal. During the time he ran the Superior he was managing the Lexington, Marquette and Chicago, but spent most of it here. He made the Superior a popular resort for townpeople, and it also attracted many outside guests, but not enough to make it pay. Concerning his sad ending the Chicago Tribune has the following story:

After careful consideration covering several days, during which he wound up his business affairs and placed his will, insurance policies, and other papers in the hands of his attorney, George B. Ross, a well known Chicago hotel man, ended his life in his room at the Chicago Athletic association early Wednesday morning.

While the coroner's jury in the case returned a verdict of suicide because of despondency, induced by failing sight several other theories were advanced during the day. The most generally accepted, that of financial distress, was evidenced by the facts that his jewelry had been pawned, he had borrowed small sums from fellow club members, and that no bank account was discovered.

The body, with a revolver bullet in the brain, was not discovered until after 9 a. m., when the alarm of his wife, who a short time previously had attempted to force her way to his room, aroused club employees to unlock the door with a pass key.

Wife Alarmed by Absence.

The cause for Mrs. Ross' anxiety began last Friday when without any earlier announcement her husband telegraphed to his home in Glencoe that he was called to Cleveland upon business, but would return Monday morning. It was his custom to telephone her immediately upon his return from a trip, and when he failed to do so on Monday she requested Frank H. Tobey, an advertising man, who made his home with them, to call him up at the club.

Mr. Tobey was told that Ross was in town, but was not in the clubhouse at that hour. In the evening Mrs. Ross received a message that her husband would remain in Chicago over night, as he had an important deal on hand that necessitated his presence early Tuesday morning.

The wife's anxiety, because of her knowledge of financial difficulties, was not allayed, and Tuesday morning Mr. Tobey again telephoned to Mr. Ross, who made a telephone appointment for 2 o'clock that afternoon. At that hour Mr. Tobey was not in his office, and a second call went to the athletic club. A message was brought to him that Mr. Ross was too busy to see him, but would start for Glencoe about 6 o'clock. At that hour Mr. Tobey sent a second messenger, who returned with word that Mr. Ross was not in the building.

Note Found in His Room.

Mr. Tobey went to Glencoe, where he quieted Mrs. Ross' fears, now greatly aroused, by a promise to take her to

the club early Wednesday morning. They arrived shortly before 9 o'clock, and the employees of the club refused admittance to either of them. Threatening to seek police intervention, they went away to return in a few moments.

Ross' body had been found in a kneeling position beside his bed. The only words left by him was a note that read as follows:

Please notify Mr. F. H. Tobey, Harrison 4647, Glencoe 33.

The only other parting word was a brief note, written upon hotel stationery, and bearing a postoffice stamp of 7 p. m. It was sent to his wife at Glencoe, it said:

Rush Butler has my papers. I sent them to him today.

This was not received until late in the afternoon, when Frank Tobey went to Glencoe. In the meantime Mrs. Ross, completely prostrated, was taken to the Oxford Arms Hotel, the manager of which, Frank D. Ross, while no relative, was a close friend of her husband. She will remain there until time for the funeral, which will be held from Robson's chapel to Mount Hope cemetery at 10 a. m. today.

Mr. Ross, an Englishman by birth, was about 45 years old and had been married twenty years. His wife was the only other member of his family and he had no relatives in this country.

Success as Hotelkeeper.

Coming to the United States when a boy, he went into the hardware business and then turned to the hotel line, his first effort being a lumberman's hotel. He came to Chicago shortly before the world's fair and during the exposition was manager of the Christian Endeavor hotel. Later he was identified with the Del Prado, Windermere, Chicago Beach, and Lexington hotels. His first ownership interest was in the Southern, at Twenty-Second street and Wabash avenue, then a successful hotel, which he sold to invest his capital in building the New Southern, Thirteenth street and Michigan avenue.

The controlling interest in this hotel he sold last September, and it is believed that he received between \$30,000 and \$50,000 in the deal. His home so far had been in his different hotels, but he now moved into apartments at 4316 Grand boulevard, where he lived until last May. At that time he leased the George S. McReynolds home in Park avenue, Glencoe, and removed to that suburb.

Fails as a Promoter.

He rented one of the rooms of the Athletic association as an office, although he occasionally slept there, and began the promotion of hotel building schemes. Several large plans of this sort were started by him, but his failure to materialize caused his capital to dwindle.

Mr. Tobey and other intimate friends believe this to be the cause of his final act, although Frank D. Ross and others declared that he feared the loss of his sight.

Still another theory was advanced by Dr. L. C. H. E. Zeigler, a physician with offices in the Champlain building, who knew him. Dr. Zeigler declared that Mr. Ross a few days ago showed unmistakable signs of worry over returning symptoms of "tobacco heart," from which he suffered several years. The hotel man, he said, predicted that the next attack would be "the summons to the long sleep."

TRAINMEN NOTICE.

The meeting time of L. L. Hood lodge, No. 10, B. O. of B. T., has been changed from 2 o'clock in the afternoon to 10 o'clock in the forenoon during the remainder of the summer. 7-20-24

WANTED TO LEAP WITH HER BABY

BLAZE AT CLEVELAND HOUSE LAST NIGHT CAUSED BY EXPLOSION OF GASOLINE STOVE.

FAMILY TAKEN DOWN LADDER

Boarder Carries Child Down Stairs While Parents Seek Safety in Bedroom and Almost Suffocate.

Terrified by an explosion of gasoline which set fire to the building, Mrs. Joseph Forwick, wife of the proprietor of the Cleveland house at 122 Spring street, rushed to the second story front window with her fourteen-month-old girl baby in her arms, and it was with difficulty that she was restrained from jumping out by persons in the street who divined her intention.

Charles Stone, one of the boarders, was in the rear part of the six rooms in the frame section of the house, and was about to heat some water on a gasoline stove. As he applied the match to the burner there was a flash, the stove was demolished, and in an instant the room was in a blaze. Stone escaped from the room with a number of burns about his face and arms.

Smoke Scares Them.

The roar of the explosion was plainly felt and heard by the family and the boarders who were in a dining room on the second floor in the brick part of the building. As they stood questioning each other a heavy mass of black smoke rolled in upon them.

Then they heard the crackling of flames below and they fled from the room. On the way out, William Vanluster, one of the boarders, seized two-year-old Sarah Forwick, the proprietor's daughter, and ran down the stairway. The other men, Joe White, Louis Leighton and Alva Vanluster, also escaped in the same way. Joseph Forwick, three years old, the oldest of Forwick's three children, had been sent on an errand and was outside when the building took fire.

Almost Suffocated.

Forwick and his wife, who had the baby, Lida, in her arms, ran into their bedroom, which is directly over the street. They left the hall door open, and the smoke which came in in increasing volume, almost choked them. Had they shut the door they would have been in no danger, as the fire was far from them in the rear on the lower floor. It was when she was nearly overpowered by the smoke that Mrs. Forwick threw open the window preparing to jump out.

As she did so, the firemen from the hose house just across the street ran into the street. They had heard the explosion and at once saw that the building was on fire. As they shouted to the woman, a ladder was run up to the front of the building and several of the men quickly mounted and carried her and the baby to the street. Forwick, who had been at another window in the room, also came down the ladder. When he reached the ground Forwick told Chief Maney that a trunk in the room they had just left contained \$300, and with difficulty Maney mounted the ladder and, assisted by some of the men, dragged it down into the street.

Within thirty minutes after the explosion, the department had the blaze under control, though the contents of the six rooms in the frame part of the building were destroyed, and the ceilings

were on the point of falling. Streams were played on the burned part of the house for an hour before the fire was finally extinguished.

The building is owned by the Upper Peninsula Brewing company, and the loss upon it, which is covered by insurance, could not be determined last night. Forwick said that the furnishings which were burned and upon which there was no insurance, will amount in loss to about \$300. The front part of the house, a saloon downstairs and the Forwick living rooms upstairs, were damaged only by smoke, and the family occupied the living quarters last night.

SOUTH SHORE BUYS FAIR GROUNDS LINE

TRANSFERS FILED YESTERDAY FROM JOHN S. WARD TO RAILROAD COMPANY--\$15,000 IS AMOUNT PAID.

Two property transfers filed yesterday in the office of Register of Deeds Prieman complete the sale of the Dead River railroad from John S. Ward to the South Shore road.

The road was formerly owned by the South Arm Lumber company of Wisconsin. It is a spur track from the main line of the South Shore, and runs past the fair grounds to the mill formerly operated by the lumber company.

The spur, according to descriptions given in the transfers, was sold Nov. 27, 1906, to Howard Hayes of Chicago, who sold it to Mr. Ward, Dec. 17 last.

Consideration \$15,000.

The date of the sale given in the transfer of the spur to the South Shore is July 18, and the consideration is \$15,000. John S. Ward was formerly a resident of Marquette and he is a brother of Walter Ward, the former mayor of the city.

The new spur will be used by the South Shore to advantage in running its special passenger trains to the County Fair to be held the first week of September. Arrangements have been completed with the Fair association by which the railroad company has agreed to run trains every thirty minutes during the afternoons of the fair.

PARASOLS AND UMBRELLAS.

A full line of fancy, silk and other grades at half regular price during the closing out sale at Seidenfeld's store.

J. J. CARROLL & CO. (6-19-17)

Foster's Clearing sale is causing quite a stir. The store is dotted inside and throughout with red price tickets. (7-20-1w)
