CITY STREETS FULL OF DEAD

Forces Landed from the French Warships Restore Order at Casa Blanca After Two Days of Hard Fighting.

Arab Tribesmen, First Looting the European Shops and Firing Many Buildings, Are Driven After Losing Many Warriors, and a Force of 2,000 Marines Is Now on Duty in the Town—Moorish Quarter Destroyed by the Cruisers' Guns.

Tangier, Aug. 8.—The French warships yesterday landed two thousand men at Casa Blanca, where street fighting apparently continues. The Moorish quarter is in ruins, having been set on fire by shells from the big guns of the cruisers.

All the stores have been closed, and much hunger and distress prevail among the poor. The foreign consuls have now, however, ordered the stores reopened. The Europeans are all safe, either on board ships or at the consulates.

Calm and Order Restored.

Tangier, Aug. 8.—The latest news received here from Casa Blanca says that calm and order have been established. The military governor requested permission to go on board a ship in the harbor, but was refused. He fears for his personal safety, and although money has been sent from here to pay the troops at Casa Blanca and ensure the performance of their duties, he is unable to secure a body guard.

The shooting inside of Casa Blanca lasted for two full days and only ended yesterday morning. The Arabes have gone back out of range of the fire from the warships, but are ready to sweep down on the town at the first opportunity.

French sailors are guarding the British consulate at Casa Blanca, where the consular agents of the United States, Germany, Austria-Hungary and Sweden have sought refuge. The Italian and Portuguese consuls are at the French consulate. A mine from which a heavy and sustained fire was directed against the French consulate was demolished by the guns of the French ships at the request of the Moroccan authorities.

No Europeans Killed.

The European shops were pillaged, but no Europeans were killed. The state bank agency at Casa Blanca has been robbed of about \$15,000, but no details of the robbery have been made public. The French consulate was attacked by the Moors during the night of Aug. 5. One bluejacket of the guard was killed and three were badly wounded.

The custom house at Casa Blanca was looted by the natives Tuesday, and many other buildings were set on fire and destroyed.

ONE OF CANAL DEFENSES.

Extensive Surveys Made of Almirante Bay, Off Coast of Panama.

Washington, Aug. 8.—The navy department is completing a work which may have an important bearing on the general plan of defense of the Panama canal. The final chart work incidental to the survey of Almirante bay, off the coast of Panama, is being made ready for the hydrographic office. Admiral Crowfield, who in 1895 first realized the possibility of Almirante bay as a naval rendezvous and coaling station. He went as far as he could in the absence of congressional appropriations to get this sheet of water, by using it for drill purposes, and projected a considerable training station to be located there. Even now the bay is used to some extent by naval vessels as a coaling ground, and while it has no dock or machinery, the shelter afforded makes it easy for a warship to replenish her coal from the coilers directly alongside. In fact, this was done by the naval vessels which took the president to the isthmus last year. The fact that Guantánamo is not far distant from Almirante bay, and has already been considerably developed as a naval station, has operated to divert attention for the time being from the bay, but its superior advantages in the way of deep water and a good entrance and plenty of room for manœuvring, besides its nearness to Colon, where vessels must call, but where for many years they cannot hope to do more than lie in the open roadstead, has revived interest in the development of the bay as a naval station of the second class, and the surveys just completed will afford ample material for the consideration of this subject by congress if Secretary Meyer decides to bring the matter to the attention of that body.

TO EXPLAIN NEW LAW.

Secretary Wilson Asked to Meet With California Fruit Packers.

San Francisco, Aug. 8.—Secretary Wilson arrived from Oregon today. He has been asked to meet the fruit growers and packers of California tomorrow and explain to them the meaning of the law regulating the use of sulphur in fruit drying.

JAPANESE WORSTED

Three Slain and Three Badly Wounded in a Battle With Mexicans.

Mazatlan, Mex., Aug. 8.—A telegram received here announces that at El Puerto a construction camp of the Kansas City, Mexican & Orient railway, a pitched battle took place yesterday between Japanese and Mexican workmen in which three Japanese were killed and three seriously injured and three Mexicans were mortally wounded and one was killed. The trouble is said to have started several days ago when a dispute arose between a Japanese and a Mexican.

FEARED INSULTS TO CARDINALS.

Pope Countermarches Receptions Because of Anti-Clerical Feeling.

Rome, Aug. 8.—The pope today countermanded all receptions planned in honor of the anniversary of his coronation, fearing the cardinals might be insulted in the streets while on their way to the Vatican.

ONE DEAD, FOUR DYING.

West Virginia Family Poisoned by Toad Stools Eaten for Mushrooms.

Wheeling, W. Va., Aug. 8.—Dr. C. F. Johnson is doing and four members of his family are dying, the result of eating toad stools for mushrooms at Deep Valley, forty-five miles southeast of here.

STEAMERS COLLIDE

MANY PERSONS NEAR DEATH IN OREGON WATERS.

One Passenger Boat Crashes Into and Sinks a Similar Craft, but All Whose Lives Are Imperiled Are Rescued.

Portland, Ore., Aug. 8.—The Portland and San Francisco liner City of Panama, enroute from Portland with a full list of passengers, today during a fog collided with and sank the steamer Albatross, from Coos Bay, with passengers and freight, near the mouth of the Willamette river. The passengers of the Albatross were brought to Portland. There were no casualties.

TRAIN COLLISION FATAL.

Four Men Killed in a Wreck on Railroad in Georgia.

Dalton, Ga., Aug. 8.—Four persons are dead and three seriously injured, all railroad employes, as a result of a head-on collision between freight trains on the Western & Atlantic railroad a mile north of this place this afternoon.

PITTSBURG SHOOTING PUZZLES.

Two Poles, Brothers, Killed by Fellow Countryman, a Reputed Priest.

Pittsburg, Aug. 8.—Ludwig Szegiel, said to be an unattached Polish priest of Chicago, walked into a hotel on Carson street early today, and without warning whipped out a revolver and opened fire upon the two proprietors, Steven and Andrew Starzynski. Steven died within an hour and Andrew is fatally wounded. The cause of the shooting is shrouded in mystery.

WIFE THINKS IT MURDER.

A. L. Fitch, Prominent at Lorain, Is Found Shot to Death.

Lorain, O., Aug. 8.—Arthur L. Fitch, superintendent of construction for the Sheffield Land company, was found dead in his stable last night with a bullet wound in the head. It is believed to be a case of suicide, although Fitch's wife insists that he was murdered. Fitch was prominent and prosperous.

STEVE ADAMS GAVE THE TIP.

Skeleton of Miner Slain During Strike Is Found in Colorado.

Telluride, Colo., Aug. 8.—What is said to be the skeleton of W. J. Barney, a timberman employed at the Sauguer Union mine and who mysteriously disappeared during the strike in this town, was found in an improvised grave, the location of which was pointed out by Steve Adams.

PICTURES CAUSE OF CRIME.

Some Exhibited in Southern Saloons Said to Incite Negroes.

Lincoln, Neb., Aug. 8.—Suggestive pictures on the walls of Southern saloons are the main cause of the fearful assaults made on Southern women by negroes, according to Mrs. Nannie Curtis of Texas, national organizer of the Woman's Christian Temperance union. In a public address at the Epworth Assembly she said: "The saloons have robbed the white women of our loved ones, of our homes and now they have robbed us of our clothes and have hung us up on the walls of saloons to inflame the passions of drunken and black brutes."

NEITHER EARN DIVIDENDS.

New York Central and C., C. & St. L. Roads Make Poor Showing.

New York, Aug. 8.—It is shown by statements issued today that neither the New York Central or the Cleveland, Cincinnati, Chicago & St. Louis railroads earned their dividends during the six months ending June 30, principally because of increased operating expenses.

RAILROAD LAWS TO TAKE EFFECT

Compromise Is Reached at a Conference in Alabama, and the Southern Company's License Will Be Reinstated.

Terms Agreed Upon Are in the Main a Victory for the State—Legislation Objected to, That Decreasing Reduced Passenger and Freight Rates, It Is Provided, Shall Become Operative and Continue in Force Subject to Its Final Adjudication.

Montgomery, Ala., Aug. 8.—Governor Comer and the officials of the Southern railway reached an agreement this afternoon, and the license of the railroad in Alabama will be reinstated.

Beginning Sept. 1, 1907, the railroad and its allied lines will put into effect the two and a half-cent passenger fare and the measure reducing the freight rates on 110 commodities commonly shipped in Alabama. The agreement, in the main, is a victory for the state. The agreement specifically declares that the operation of the laws, beginning Sept. 1, is only subject to final determination as to their constitutionality and their reasonableness, when the decision on these questions is finally rendered by the court of last resort.

SENATE "THROATS" \$76 A PIECE.

Members of August Body Consume Large Quantities of Mineral Water.

Washington, Aug. 8.—The report of C. G. Bennett, secretary of the United States senate, shows that during the last fiscal year August bodies consumed 869 cases of mineral water, costing \$4,504.70. There was \$2,925.87 for carbonated mineral water, and \$18.97 for lemon and sugar for the famous senate lemonade, making a total of \$8,509.54 for drinkable and not a drop of anything "hard" as far as the official list shows. Since there are ninety senators, the per capita consumption is about 87¢. It should be remembered also that while there are some senators who drink a great deal of mineral water, there are also some who drink very little, and there is much curiosity here as to who drank the most last year.

But why in the name of all that is unparliamentary did any senator need a "skirt trunk" costing \$20.70? The official list of expenditures makes no explanation of this interesting item. Another peculiar item is that of "cosmetic," 40 cents, and it is thought this may have been incurred about the same time as the skirt trunk. Two branding irons, costing \$2.50, are on the list, and it is supposed they were supplied to Senator Tillman.

An echo of the good old days when the senators received free transportation from the railroads and were thus enabled to pocket the close up the session, they ate \$263.50 worth of food for luncheon. No less than \$299.75 for manure used for the members of the senate indicates that the fair manure trade in this town are losing considerable trade. Six sewing sets at a total cost of \$250.50 are on the list.

Hair Preparations Used.

For the large number of baldheads in the senate a remarkable quantity of preparations for the hair was used. Here are some of the entries: Bay rum, \$20.25; hair oil, \$14; hair tonic, \$32.57; hair cream, \$120; and hair oil, \$120. A silver inkstand for the vice president's room costing \$200 has been mentioned before in the public press. Then, on the last day of the last session, when the president and his cabinet went to the capital to help close up the session, they ate \$263.50 worth of food for luncheon. No less than \$299.75 for manure used for the members of the senate indicates that the fair manure trade in this town are losing considerable trade. Six sewing sets at a total cost of \$250.50 are on the list.

Glove and handkerchief sets figure prominently in the report, as also do opera bags, hand bags, engagement pads and such like.

It is easy to guess that all of these articles are utilized by the senators and their families, but it is puzzling to understand who makes way with hundreds of bushels and pounds of oats, flaxseed, meal, bran meal, rock salt, etc., and they certainly do not eat axle grease, soap, resin, tar, wool cotton, cheese, cloth, punice stone, Georgia pine, screen hings, brass tacks, wire head nails, monkey wrenches and paste fillers, nor is it reasonable to suppose that these senators drink mustard liniment, petroleum, turpentine, arnica, mahogany varnish and a lot of other stuff which is bought in wholesale lots. These probably were bought for the horses on the senate mail delivery wagons and the vehicles themselves.

BELFAST DISPUTE ADJUSTED.

Des Moines, 2; Sioux City, 3. Ten innings. Lincoln, 1; Omaha, 3. Second game: Lincoln, 2; Omaha, 4.

WEATHER FORECAST

Washington, Aug. 8.—The following is the weather bureau's forecast for Upper Michigan: Fair, Friday and Saturday; warmer Saturday; light south winds.

GOLF SURPRISE

Warren Wood Eliminated as a Possibility for the Western Championship.

Wheaton, Ill., Aug. 8.—The second round of the match play for the Western Amateur golf championship today resulted in the elimination of at least one man who had been considered a strong possibility for premier honors. This was Warren K. Wood, of Homewood, who was defeated by R. R. Daniels, of Midlothian, Chicago, one up. Paul Hunter, a sixteen-year-old boy, of Midlothian, displayed championship form in his game with his club-mate, Mason Phelps, whom he defeated, three up, one to play, with a medal score of 77 for the round. Hunter and Chandler Egan will meet in the third round tomorrow morning. Egan today made 73 in his match with George Clinegan, the best score of the tournament. Ned Sawyer, of Wheaton, the present title holder, defeated R. O. Ainlie, of Westward Ho, easily. In the play-off of the tie for the gold medal for the low qualifying score between Sawyer, W. L. Howland and Kenneth Edwards, Howland won, with 76; Sawyer taking 77 and Edwards, 87.

BASEBALL

STANDINGS OF THE CLUBS.

National League.

SCHEDULES FOR TODAY.

National League.
Boston at St. Louis.
Brooklyn at Cincinnati.
New York at Pittsburg.
Philadelphia at Chicago.

American League.
Detroit at Philadelphia.
Chicago at Boston.
Cleveland at Washington.
St. Louis at New York.

GAMES PLAYED YESTERDAY.

National League.
Chicago, Aug. 8.—Kuback allowed but two hits, one in the first and one in the eighth, only three of the visitors reaching second base. Summary: R. H. E.
Chicago.....010001000—2 0 0
Philadelphia.....000000000—0 2 0
Batteries: Reulbach and Moran; Moran and Dooin.

Pittsburg, Aug. 8.—The visitors won both games by hitting the ball. Summary: R. H. E.
Pittsburg.....001001010—3 9 2
New York.....010102000—4 8 2
Batteries: Leffell, Leever and Phelps; Mathewson, Melitinsky and Bresnahan.

Cincinnati, Aug. 8.—Coakley was hit hard and received poor support. Summary: R. H. E.
Cincinnati.....001000010—2 8 3
Brooklyn.....203100000—6 15 1
Batteries: Coakley and McLean; Stricklett and Bergen.

St. Louis, Aug. 8.—Karger was in good form, allowing but two hits. Summary: R. H. E.
St. Louis.....110000100—3 7 2
Boston.....000000000—0 2 0
Batteries: Karger and Marshall; Dorner and Needham.

American League.
Philadelphia.....000000003—3 9 2
Detroit.....041000001—5 7 3
Batteries: Plank, Dygett and Powers; Mullin and Payne.

Boston.....200200200—6 12 1
Chicago.....010000000—1 6 0
Batteries: Winter and Criger; Smith and Sullivan.

American Association.
Columbus, 1; Milwaukee, 2.
Indianapolis, 6; St. Paul, 3. Second game: Indianapolis, 7; St. Paul, 3.
Toledo, 3; Kansas City, 6.
Louisville, 6; Minneapolis, 11.

Western League.
Des Moines, 2; Sioux City, 3. Ten innings.
Lincoln, 1; Omaha, 3. Second game: Lincoln, 2; Omaha, 4.

PUBLIC CONTROL IS INEVITABLE

Must Be Assumed in the Case of Monopolies Whose Services Are Necessary to the People, Asserts George Roberts.

However, Speaking in Iowa, It Is Argued by the Former Director of the Mint That Such Control Must Be So Exercised as Not to Injure the Investment Affected, Otherwise There Is Grave Danger of National Calamity.

Estherville, Ia., Aug. 8.—George Roberts, former director of the mint, was the principal speaker at tonight's session of the Upper Des Moines and Corn Belt Editorial associations, composed of Iowa newspapermen. Mr. Roberts is one of the original members of the former association.

The former director of Uncle Sam's mint discussed the tendency toward enlarged governmental functions, and the difficulties to be met in such efforts. He declared that public control of monopolies whose services are necessary to the community is inevitable, but argued that control must be exercised in such a way as not to injure investments in such monopolies, otherwise the capital so invested will seek other channels and thereby enormously injure the public. In assuming this control the public should be well informed and is largely upon the press that the public depends for information.

"There is no occupation in the world with which a man can more worthily be content than that of editing a newspaper," said Mr. Roberts, in conclusion. "He has a true spirit of his profession, the money-making features become subordinate and incidental. His heart is in the public concern to which he has devoted his pen. The most rational ambition a man can have is to be independent, have money enough to care for these dependent upon him, hold a useful and respectable position in the community and be able to exert an influence upon his fellows. No other occupation satisfies these aims more completely than that of the editor, particularly the editor of a business paper and writes his heart's convictions."

ENTER FOR SLEEPLESS RECORD.

Bay State's Anti-Rip Van Winkle Receives Challenges from Two Others.

Great Barrington, Aug. 8.—William Warner of this place, Albert G. Herpin of Trenton, N. J., and Joseph Root of Erie, Pa., are to engage in a struggle for the non-soporific championship of the United States. The first named has posed as the sleepless wonder for some time, but recently two other claimants for the honor have appeared.

Friends of Mr. Warner, however, are willing to back him in the contest for anything from marbles to money and as his record is superior to the others they believe he can keep up his gait for many years in the future. Warner has not slept a wink, so he says, for the past thirty years; the Trenton man says he has not closed his eyes for the fourteen years immediately preceding, while during the ten years before that he "just dozed off the least little bit." Mr. Root has a record of five years as an anti-Rip Van Winkle. He is a hermit, but his appearance indicates he is telling the truth when he declares that he has not slept for over a quarter of a century.

The first challenge came to Mr. Warner from Mr. Herpin. The latter indicated a doubt that the former could do the "thirty-year continuous performance-sleepless-act." The local man promptly accepted the gaze. Then came an application from Mr. Root for the honor. Both parties were willing, and all that remains now is to settle a date upon which the sleep-defying test is to begin. None of Warner's neighbors can gain any statement of not having closed his eyes for the past thirty years. He certainly gives every evidence of being a wide-awake man, for he is one of the best farmers in this section of the state. He knows the soil both ways from the den, and can do more things with turnips, potatoes and other ground fruit than a professor of agriculture. So when he says he can't sleep, people let it go at that.

None of the rules of the contest have as yet been positively determined upon, but as Mr. Warner is the original challenged party, it is up to him to decide on the choice of weapons. He will furnish the very finest feather beds if necessary, and everything else that can be suggested by the man from Jersey or the man from "William Penn's" state. His opponents have had better opportunity to test the merits of the poppy leaf than he has had. He is also troubled about securing proper judges for the contest. To his mind, it would be necessary for the assessment to be a "sleepless wonder" also, and this would permit him to be a principal rather than a judge. The fame of the winner of this contest will be more lasting than that of a simple judge, so that it would seem all of the required referees would be contestants by preference.

Mr. Warner's sleeplessness is due to an accident. When a young man he was felled by a tree which he had cut down. While he retires every night as usual, he does not rest his mind, simply his body. He spends most of his evenings in reading. Herpin does not give his profession or occupation, nor does he state the reason for his sleeplessness. Mr.

TOGA FOR WILLIAMS

Mississippi Congressman Is Formally Declared His Party's Senatorial Nominee.

Jackson, Miss., Aug. 8.—The Democratic state committee today declared John Sharpe Williams the nominee for United States senator. The canvass of the returns showed a majority of 648 votes for Mr. Williams. There will be no contest over the result.

TRAFFIC TIE-UP THREATENS.

Federal Mediators Fail to Settle the Colorado Southern Strike.

Washington, Aug. 8.—The national government has failed as peace-maker in the strike of the switchmen of the Colorado Southern railroad, and Labor Commissioner Neill tonight announced that all hope had been abandoned of bringing about a satisfactory adjustment of the differences. Commissioner Neill, with Chairman Knapp of the interstate commerce commission, undertook to act as mediator at the request of Vice President Parker of the Colorado Southern, who claimed that in calling the strike P. H. Morrissey, grand master of the Brotherhood of Railway Trainmen, was violating the arbitration agreement signed at Chicago last year.

The carrying out of Morrissey's general strike order, it is said, will mean a general tie-up of freight traffic and a crippling of the passenger service from Greeley, Colo., to Texline, Texas.

KEYS ARE STILLED

WESTERN UNION'S CHICAGO OFFICE IS DESERTED.

Reinstatement Refused Men Discharged for Declining to Work With Strike-Breakers, All the Telegraphers Quit.

Chicago, Aug. 8.—At 11:30 o'clock tonight the grievance committee of the telegraphers called upon the night manager of the Western Union and notified him that unless the men who quit in the Overland division were put back to work and not requested to work with Los Angeles, all the union men employed in the entire Chicago office would be called out at midnight.

The strike took place as threatened, every man in the office walking out, completely demoralizing the telegraph service in all particulars, commercial and otherwise. The trouble arises from the strike at Los Angeles. The union demanding the reinstatement of discharged members there and being refused, the operators were called out some days ago and a number of the union men were put to work by the company. Last evening at Chicago, fifteen telegraphers in turn refused to work with the non-unionists at Los Angeles, and they were discharged. At midnight, the night manager refusing to grant the demands that the discharged men be reinstated, and not be required to work with the Los Angeles strike-breakers, all the operators deserted their keys in a body.

Root says that when he was twenty-five years old he lost several relatives in a tragedy. The shock almost killed him; he found he could not rest, and finally he gave up the idea of sleeping. He sits in a chair all night and arises with the sun to pitter around his little place.

ASSESSMENT OF 100 PER CENT.

Suits Brought Against Stockholders to Collect Par Value of Shares.

Hartford, Conn., Aug. 8.—Theodore B. Converse of Alton, Minn., as receiver of the Minnesota Thresher company, is instituting suits against many Connecticut stockholders of the corporation to enforce the collection of an assessment of 100 per cent on the capital stock of the corporation. Scores of writs have been placed in the hands of Connecticut sheriffs to serve.

The litigation growing out of the assessment has been in the courts a long time. Many national banks are stockholders in the company, but the assessment against them cannot be collected, on the basis of a federal court decision that a national bank has no power to purchase stock as a means of protecting itself from loss on pre-existing indebtedness. Test suits were brought against the Aetna National bank of Hartford and the First National bank of Sheffield, which were shareholders, and which resisted payment of the assessment. The banks contend that the Minnesota law under which the assessment was levied was unconstitutional, and the Connecticut supreme court of errors, by a majority of three to two, upheld this view. The case was appealed to the United States supreme court, which reverses this opinion and upholds the validity of the statute.

Receiver Converse first made an assessment of 36 per cent on the stock, but because of the insufficiency of this levy to meet the obligations of the concern and because of the inability to enforce collection of the assessment against a large number of shareholders, a second assessment of 64 per cent was made, bringing the total assessment up to par. The Connecticut investors in the defunct concern are much disgruntled over the assessment.

STANDARD OIL PETITIONS.
Chicago, Aug. 8.—The attorneys for the Standard Oil company of Indiana, which was recently fined \$29,400,000 in the United States district court here, today presented to Judge Landis a motion seeking an appeal in the case. The hearing on the motion will take place tomorrow.

COAL STRIKE IS HEADED OFF

Demands of the Miners Are Granted in the Pittsburg District, and Walkout Involving 14,000 Men Is Averted.

Peace Is Assured Also in the Wyoming Fields, Where Wages Are Not Only Increased 20 per Cent but the Operators Agree to the Establishment of an Eight-Hour Work Day, the Union Gaining Its Points in All Particulars.

Pittsburg, Aug. 8.—At a conference this afternoon between officers of the United Mine Workers of America and officers of the Pittsburg Coal company, all grievances that threatened to bring on a strike of 14,000 men were amicably adjusted.

While no official statement was issued by either party to the controversy beyond the announcement that all difficulties had been settled, it is understood the company has agreed to the stipulations of the miners' organization, and that 2,000 men who have been out at some of the company's mines will return to work tomorrow. The agreement reached today will remain in force until March, 1908.

Peace Assured in Wyoming.

Denver, Aug. 8.—A joint convention of the United Mine Workers of America and operators representing every mine in Wyoming reached an agreement today which means permanent peace in the Wyoming coal fields. The terms were: An eight-hour day, effective Sept. 1; a wage increase approximately 20 per cent more for eight hours than formerly paid for ten hours; an improvement in working conditions all along the line, and agreement that the companies furnish check-off men, insuring union control in the mines. The decision affects 12,000 men.

EAGLES' HEAD ARRESTED FOR DRINKING IN LODGE.

Bitter Fight at Emporia, Where All Members Face Jail Sentence.

Emporia, Kas., Aug. 8.—Dr. C. F. Sinclair, president of the local lodge of the Fraternal Order of Eagles, arrested here, has given bond for his appearance in police court.

City Attorney J. Harvey Fritz says his arrest was made because the lodge was charged with maintaining a nuisance where people were allowed to congregate for the purpose of drinking intoxicating liquors and that any other member of the lodge could be arrested as well as Sinclair.

The county attorney says if the Eagles fight the case, the city will prosecute it to the limit, but if they show a disposition not to push it and promise to discontinue the practice of drinking in their rooms, he will recommend to the mayor and city council to remit the fine and imprisonment provided by law, which is \$50 for each member and thirty days in jail.

All sorts of rumors are on the streets. One is to the effect that the Eagles will fight to a finish, and will have the aid of the entire order in the Union. The city expects to get out a permanent injunction against the lodge keeping any kind of intoxicants on the premises. Many people heretofore supposed to be members of the order now claim they are not members.

HINDUS COMING TO UNITED STATES

Many Applying at Vancouver for Papers to Cross the Border.

Vancouver, B. C., Aug. 8.—The Hindu problem which has proved a source of trouble between British Columbia, would seem to be solved if future arrivals evince such a tendency to enter the United States as those who have already arrived. Of the 1,750 Hindus who reached Vancouver during the year ending June 30 last, no less than 1,050 made application for papers to cross the border. The reasons given were many, notably discrimination in Canada, a desire to seek the warmer climate of California and the higher wages to be obtained in the United States. The American immigration laws admit Hindus provided they are physically fit and not liable to become public charges, and nearly a quarter of the applications have been favorably acted upon, indicating that the thrubank population in this province has shrunk considerably.

GRAND CIRCUIT RACES.

Buffalo, Aug. 8.—Ed. Geers won two races at the Grand Circuit meet and got third money in another this afternoon. The feature of the day's card was the 2:05 pace, valued at \$1,000. Black Lock did not start, and Geers' Ardelle went to the wire in the favorite. The best time was made in the last heat, when Cox driving Nervola, forced Ardelle to pace the mile in 2:05 1/2. Summaries:

2:05 pace, \$1,000; seven starters—			
Ardelle	1	1	1
Nervola	4	2	2
Cascade	2	3	4
Best time, 2:05 1/2.			

2:12 trot, \$1,000; eleven starters—			
Wilkeshaert	1	1	1
Berico	2	2	3
Tempsis Fugit	3	3	2
Best time, 2:09 1/2.			

2:18 pace, \$1,000; nine starters—			
Ironon Bay	1	1	1
Arrow	2	2	3
Queen Walnut	2	4	5
Best time, 2:08 1/2.			

DAILY MINING JOURNAL
A MORNING PAPER PUBLISHED BY THE
MINING JOURNAL CO. (LIMITED)
Entered as mail matter of the second class
in the postoffice at Marquette, Mich.

With Walter Wellman and Lieutenant
Perry contemplating determined as-
saults, the old pole must be getting
rather nervous.

The way the Saginaw press (Arthur
Hill lives in Saginaw) warns up to Gov-
ernor Warner, in whatever way he hap-
pens to get before the public, is some-
thing wonderful to see.

Gasman Addicks is now dead broke
and besides is facing divorce from his
third matrimonial venture. Evidently
the Gasman is getting some of his pun-
ishment this side of the grave.

Having already been read out of the
C. C. Northern league for next season,
it appears to be up to the copper coun-
try towns to decide whether they shall
have corner lot baseball or no baseball
at all.

Unless Duluth ceases saying slighting
things about the copper country end of
the C. C. Northern league, the cordiale
entente heretofore existing between Du-
luth and the copper region will be hope-
lessly shattered.

From the Soo we have of late heard
nothing more of the question of Billy
Webster's successor in the postoffice.
However, it is doubtless not far out of
the way to assert that the fight over the
matter is being waged right merrily.

The upper peninsula delegation to the
constitutional convention will be, nu-
merically, but a small factor. It will
comprise but nine out of ninety-five de-
legates. The only way the upper penin-
sula can be a real influence in the proceed-
ings is by sending to Lansing the ablest,
strongest and best all round men who
can be prevailed on to give up their time
to the long deliberations that will at-
tend the drawing up of the new instru-
ment.

The Detroit Tigers, be it ever to their
honor, have remained at the head of the
teams in the American league for the
better part of a week, and whatever the
future has in store for them they will
have something pleasant to look back
upon. However, there appears to be no
good reason why the Tigers shouldn't be
to the fore of the championship race
to the finish. They have class and if
luck breaks their way they might as
well land the coveted pennant as any
other team.

Darrow, the Chicago lawyer who ap-
peared in defense of Haywood in the re-
cent trial, has been, it is reported, dis-
missed by the Western Federation of
Miners from further service in its cases.
Darrow's conduct of the Haywood case
was severely criticised by the counsel
assisting him. He had a bad habit of
falling off into socialistic speeches in the
course of the trial, and it was generally
commented that they would have the ef-
fect, if they had any, of prejudicing the
chances of the prisoner at the bar.

The transformation of the Chocoley
location into a scene of bustling activity
is going on apace, as described in The
Mining Journal yesterday. The blast
furnace of the Lake Superior Iron &
Chemical company is rapidly being put
in condition for operation, and it is now
expected to make iron early in the fall.
The company will have a serviceable and
economical plant when its plans are all
carried out, and one that should give
good returns on a normal iron market.
It will be an employer of considerable
labor, and will help keep business stable
in Marquette, as much of the business
that will give rise will be done in this
city.

Fishermen should understand clearly
that the new law regulating the length
of the season for taking trout is effective
this year. It provides that the season
shall close August 15, or fifteen days
earlier than in past years. The taking
of trout, or the having of trout in one's
possession, after that date will be pun-
ishable to any extent under the law to
which the justice may decide to go, and
ignorance of the law will not be a good
excuse, as much publicity has been given
to the fact of the change. It was sought

By the sportsmen of this region, and is
designed to aid the natural propagation
of the trout, it having been the experi-
ence in past years that most of the big
fish taken from the middle of August
on to the first of September were heavy
with spawn, and when taken were by
their way to the spawning beds. Many
people don't like the new law, but it is
the law, nevertheless, and to assure
keeping out of trouble they should be
careful to respect it.

Teofilo Petriella, the man who has been
conducting the fight of the Western
Federation of Miners to get a foothold
on the Mesaba, dropped into Duluth the
other day to extol the American Fed-
eration of Labor and to assert that it
would come to the rescue of the striking
miners. The Duluth Herald remarks
that Petriella has not always held the
American Federation so highly. At Hib-
bing, Nov. 26, 1906, addressing the steam
shovelers, he said in part: "Neither
must you believe that the affiliation of
your brotherhood with the American
Federation of Labor will help you any.
The American Federation of Labor is
good for the masters, not for you.
Should you continue in the organization
in which you are now you will find your-
self, in time of trouble, helpless and
isolated," etc., etc. In short, Petriella,
to gain his point, "knocked" the Amer-
ican Federation as hard as he could, tra-
duced its leaders and attacked its prin-
ciples. But now when he wants his help
he sings quite another song. This Teo-
filo Petriella has as many curves as his
name. He speaks English, but is he nat-
uralized?

The Wisconsin railroad rate commis-
sion, as announced yesterday, has cut
livestock rates from nearly all points
in the state to Milwaukee from 20 to 25
per cent, approximately. The new rates
are to go into effect August 26, if the
railroads accept them without a fight.
The commission's decision was not
reached hastily. It has been at work
upon the subject for almost a year.
Several hearings were held and there
were several conferences with the freight
officials of the roads affected, so the new
rates may fairly be said to be the out-
come of a judicial inquiry into the situa-
tion. The complaints were originally
based on the fact that the Illinois rates
for livestock were lower than the Wis-
consin rates. The railroads, in explana-
tion of this, submitted that in Illinois
the livestock traffic was steadier than in
Wisconsin and that therefore it could
be handled more economically. The com-
mission, however, has held that the dif-
ference in the character of the traffic
in the two states was not sufficiently
great to warrant the large difference in
rates, and that the existing rates are "in
most instances out of proportion to the
cost of the service involved." The deci-
sion is generally commented on as being
the most important ever handed
down by the Wisconsin commission, and
there will be general interest to observe
how the railroads accept it.

NOTICE TO PROPERTY OWNERS.
Take notice, that at a regular session
of the common council of the city of
Marquette, held Monday, Aug. 26, 1907,
the following preamble and resolution
was unanimously adopted:
Whereas, The Lake Shore Engine
works has purchased and is the owner
of lots 83 to 100 and 117 to 129 and 165
to 175, all inclusive, in Ely Park addition
and the land adjoining said plat to the
west of said lots and have petitioned the
common council to vacate the following
streets and alleys, viz:
1. That portion of an unnamed street
along the west side of Ely Park addition
lying between the north line of Fair
avenue produced, and the north line of
Magnetic street produced.
2. That portion of Hematite street
lying between the west line of Ely Park
addition and the west line of an un-
named street in Ely Park addition par-
allel to and being the first street west
of Lake Shore boulevard.
3. That portion of Spectular street lying
between the west line of Ely Park
addition and the west line of an un-
named street in Ely Park addition par-
allel to and being the first street next
west of Lake Shore boulevard.
4. The alley midway between Agate
and Hematite streets in Ely Park addi-
tion, and extending from the west line of
said plat to the unnamed street paral-
lel to and being the first street next
west of Lake Shore boulevard.
5. The alley midway between Hema-
tite and Magnetic streets in Ely Park ad-
dition, and extending from the west line
of said plat to the unnamed street paral-
lel to and being the first street next
west of Lake Shore boulevard.

Resolved, That the vacation and
abandonment of the above named por-
tions of streets and alleys be and the
same is hereby declared to be a neces-
sary public improvement, and that the
common council deems it advisable to
grant the petition of said Lake Shore
Engine works, and to vacate and abandon
said portion of streets and alleys, and
to be it further:
Resolved, That the third (3rd.) day
of September, A. D. 1907, at 8 o'clock p.
m., be fixed as a time at which said
common council will meet at its usual
meeting place in the city hall at Mar-
quette, Michigan, for the purpose of final-
ly considering and disposing of said peti-
tion, and to hear objections, if any,
from all parties interested in said pro-
posed public improvement, and
Resolved, That the recorder is hereby
instructed to cause this resolution with
proper heading, to be published in the
official paper of the city for three suc-
cessive weeks, the first publication to
be made within five days from the adop-
tion of this resolution.

HARRY L. SIEGEL,
Recorder Pro Tem.
(8-9-3w)

"What shall we have for breakfast?"
"Why Cudahy's Peacock Ham and
Eggs of course; they are always accept-
able, especially at this season of the
year."
(11-27-e-0-4)

Writing from Boston yesterday, Faine,
Webber & Co. said:
"The selling this morning was urgent
and prices broke several points in a few
minutes. At the close the market ap-
peared and during the balance of the
day prices held fairly well. The local
coppers, such as Calumet & Hecla and
Tamarack, had no buyers and it was im-
possible to sell them in any quantity.
We understand sales of the metal are
being made at 18 1/2, and not much at
all. We don't expect much of an per-
manent rally from these prices until the
metal is in better demand. The regular
dividend on Union Pacific helped to re-

store confidence and the railroad list
looks better."

Western Gold Stocks.
Western stocks closed as follows yes-
terday, Faine, Webber & Co. reporting the
quotations:
Sandstorm..... 44 @ 47
Red Top..... 4.00 @ 4.25
Mohawk..... 17.00 @ 17.25
Columbia..... 6.00 @ 6.25
Jumbo..... 4.00
Goldfield..... 1.25 @ 1.50

Booth..... .28 @ .40
Blue Bull..... .13 @ .14
Adams..... .13 @ .14
Slate Hill..... .06 @ .09
St. Ives..... .09 @ .07
Conqueror..... .14
Atlanta..... .22 @ .21
Diamondfield..... .26 @ .27
Great Bend Annex..... .10 @ .11
Littlefield..... .08 @ .09
Lionel..... .82 @ .80
Triangle..... .20 @ .21

Copper Metal Prices.
New York, Aug. 3.—Copper was un-
changed on spot, at 48 1/2, in London to-
day, but futures were 1/16 lower at
47 1/2. Locally the market con-
tinued weak in tone, with the quotations
small or less, notwithstanding the fact
that business is quoted at 19 1/2 @ 20 1/2,
electrolytic at 18 1/2 @ 19 1/2, and casting
at 18 1/2 @ 18 1/2, or about twenty-five
points lower on the average.

CHICAGO GRAIN MARKETS.
Chicago, Aug. 3.—The wheat market
was strong nearly all day, and the trad-
ing was active. New York, Kansas City
and St. Louis reported wheat sold there
for export. The belief that wheat is
now on an export basis formed the chief
reason for the prevailing bullish senti-
ment. Other strengthening factors were
the higher prices for cash wheat in the
Southwest, the strength of oats, the
small stocks at Minneapolis and reports
of damage in Canada by hail. The close
was firm, the September 1/2,
September opened at 88; highest, 89 1/2;
lowest, 87; closing, 88 1/2 @ 88 3/4.
Corn.—Commission houses and local
bulls were active bidders for corn the
first half of the session, because of the
market's low level. The buying was less
urgent the latter part of the market, and
closed barely steady. Cash houses were
the principal sellers. The local re-
ceipts and stocks were light, and the
shipping demand was fairly active. The
close was steady, the September un-
changed, September opened at 55; high-
est, 55 1/2; lowest, 54 1/2; closing, 54 1/2.
Oats.—The market was strong be-
cause of heavy buying by the bulls. The
news of the crops was discouraging
nature and contained many reports of
small yields. Heavy rains in Iowa, Il-
linois and Missouri were said to be de-
laying the movement of new oats to
market. The September opened at 46 1/2;
highest, 45 1/2; lowest, 44; closing,
45 1/2.
Receipts and shipments were as fol-
lows: Receipts, Shipments,
Flour, barrels..... 21,000 19,000
Wheat, bushels..... 255,000 37,000
Corn, bushels..... 179,000 201,000
Oats, bushels..... 103,000 111,000

Wheat Summary.
Paine, Webber & Co. said yesterday
concerning the wheat market:
"This wheat trade is running into good
business. There was a good action in
the market both early and late, with
quick changes in prices, and in the end
a decided show of strength and a 1/2
% net gain for the day. At no time
during the session did prices go over a
fraction under the closing figures of yes-
terday and the tendency was toward im-
provement, which turned out to be of
a substantial kind in the end. Cables
were irregular and of no influence in
the market. There was a little more
Wall street selling of wheat the first
hour and this was met by very good
buying orders from the northwest. A
group of a half dozen of the largest com-
mission houses in the trade were con-
sulted as buyers. The news is not
greatly changed, except that speculation
has run its course, and the market is
now in shape to respond to bullish in-
fluences which were ignored before. The
first direct export sale of fifty thousand
bushels of No. 2 hard wheat was made
in this market today. St. Louis at the
same time reported an export sale of
fifty thousand bushels of No. 2 red wheat.
Minnesota stocks have been reduced
750,000 bushels in five days. The wet
weather west and southwest is damaging
to the crops. The news is not changed,
and what should be bought quickly on any
light setback."

Father says: "Say, Mother; can't
you make us some more of those fine
doughnuts if I will bring home a pair of
Cudahy's Peacock Lard again?"

TUXEDO CLUB 10c CIGARS

MARKETS
NEW YORK STOCKS.
New York, Aug. 3.—The nervous ten-
sion of speculation as a result of yes-
terday's violent collapse in prices was
clearly enough in evidence today, and
was promptly reflected in the heavy de-
clines which occurred in the market.
The recovery which followed was not ac-
companied by any news developments
and was due apparently to the fact that
the urgent liquidation had run its
course for the time. Left without arti-
ficial supporting measures the market
was vulnerable to attack, and was in-
capable of absorbing any sales to take
profits. The aggressiveness of the bears
sufficed to develop this situation and
shake the market.

It does not escape notice that the quo-
tations for Union Pacific convertible
bond certificates, which had been pushed
up to above 92, compared with the sub-
scription of 90, at which they had been
offered to stockholders, have disappeared
from the tape in the disorderly market
of the past two days. The conversion
of \$71,000,000 out of \$75,000,000 of these
bonds to the underwriting syndicate was
supposed to be motive for attempting
to revive speculative interest in the se-
curities. The payment of \$15,000,000 of
the subscriptions to these bonds falls due
tomorrow, and the subscriptions to the
Southern Pacific preferred stock on
Thursday of next week. These obliga-
tions together may account for some of
the pressure to secure resources by stock
liquidation.

The course of interior interchanges is
another clear index of the progress of
the growing pressure. Published warn-
ings from Western bankers are finding
their way into Wall street at the same
time that over-trading and the high
prices for labor and material, not to
speak of extravagance in more general
expenditures, have brought about a con-
dition of inflated credits and given pres-
sure of close money markets during the
fall. The smaller banks in the West
have unusually large holdings of com-
mercial paper maturing in the fall, and
it is the repayment of this debt which
they rely to furnish balances at reserve
centers, upon which they may draw to
move crops.

Copper went to a lower level both in
London and on the New York Metal ex-
change today. New York Central re-
ported a heavy deficit below the dividend
requirements for the half year ending
with June, and the increased dividend
requirement for the quarter ending with
the same date was but little more than
met by the increase for that period in
the earnings available for dividends.
The market was so far oversold, how-
ever, that these obstacles were overcome
on the recovery, and the prices closed
strong and at net advances on the average.

Closing prices were:

Copper Country
FROM THE ONTONAGON CHIEF.
The Ishpeming Iron Ore of August 3rd,
1907, registered a pretty strong "knock"
against the coming firemen's tournament
to be held at Ontonagon. The article in
question, after paying a tribute to the
good intentions of the people of Onton-
agon, proceeds to get quite sarcastic
over the accommodations, and ends up
with a strong reost on the town, the
fire company, the preparations being
made for the firemen, and Mr. O'Rourke,
whom it designates as chief of the fire
department.

The article shows on its face that
neither the writer nor his informant,
whoever that may be, knows what he is
talking about. In the first place Mr.
O'Rourke is not chief of the fire depart-
ment and never has been. Secondly,
even though he were chief, he would
have nothing to say in the matter of ac-
commodations. The matter of taking
care of visiting firemen is in the hands
of an accommodation committee, which
committee has taken care of all fire de-
partments who have announced their
intention of attending the tournament, and
stands ready to take care of all others
who wish to attend. The work of plac-
ing the various fire departments was be-
gun over a month ago, and if the Ish-
peming firemen are in any way disap-
pointed in the matter, it is not the fault
of the article in the Iron Ore which
indicates, it would seem rather queer that
the Ishpeming fire department has not
made application for quarters to the
accommodation committee, nor to anyone
else who has anything to do with the
tournament. The only information which
any one in Ontonagon has been able to
obtain is that a traveling man from
Ishpeming asked Mr. Mooney, proprietor
of the Mooney Hotel, whether he would
be able to accommodate the Ishpeming
team, and Mr. Mooney replied that his
rooms were all spoken for. The chair-
man of the accommodation committee,
Edward Carroll, wrote to the Ishpeming
fire department something over a week
ago, asking them how many firemen they
proposed to send to the tournament,
and the answer in asking was to
secure them quarters in plenty of
time. As yet he has received no reply.
It seems therefore that the Ishpeming
paper was a little bit premature in mak-
ing a kick. At last year's convention
the Ontonagon people promised the fire-
men to give them the best of accommo-
dations if they would come to Ontonagon,
and they stand ready to make that
promise good. If the Ishpeming boys
will inform Mr. Carroll how many fire-
men they want accommodations for, they
need not worry about being taken care
of.

Regarding the statement ascribed to
Mr. O'Rourke we will say that inasmuch
as Mr. O'Rourke is not in town and has
been out of town for some days, we can-
not very well either affirm or deny it.
We will say this, however, that if such a
statement was made to anybody, it was
not made with the intention of leading
them to believe that it was necessary
for anybody to live in tents. The fire
departments from Lake Linden and Hul-
bell reported to the committee on the
subject, saying that they intended to camp
out, and the committee secured them ground.
It is possible that Mr. O'Rourke made
the same suggestion regarding the Ish-
peming department, thinking they might
like to do the same thing. There is one
thing that Ontonagon people want fully
understood; that is, that they have not
asked any fire company to camp out
during the tournament and do not in-
tend to do so. The accommodation com-
mittee has enough room at its disposal
to take care of all the fire companies,
and after the fire companies are taken
care of, will have a lot of room for vis-
itors.

MONSTER SNAKE.
Valley, Neb., Aug. 3.—A monster
snake, said to be forty feet long and
with a head like a bushel basket, is
causing terror to the farmers east of this
town, where it has been seen several
times and where it threw Joseph Ander-
son, a farmer, twenty feet, breaking two
of his ribs. The neighboring farmers
have organized a grand snake hunt, and
every man for miles around will take
part. For twenty-five years reports
have been circulated about a big snake
which lived near Agnes Lake, and which
occasionally caught and swallowed a pig
or a calf. Twice this year the snake
has been seen. While Joseph Anderson
and W. Nighengale were enroute to the
lake to go in bathing, and were walking
through high grass, the monster snake
occasionally caught and swallowed a pig
or a calf. He had attempted to step over it, think-
ing it a log. The force of the head
threw Anderson twenty feet. Then, with
his head raised six feet above the ground
and following like a ball, the snake
made for the lake, which it entered in
sight of the men.

REPUBLICAN COUNTY CONVENTION.
A Republican convention for the coun-
ty of Marquette is hereby called to con-
vene at McDonald's Opera House, in the
city of Negaunee, in said county, on
Saturday, Aug. 10th, at 10:30 o'clock a.
m., for the purpose of selecting fourteen
delegates to attend the senatorial dis-
trict convention, which has been called
to convene in the city of Ishpeming on
Tuesday, August 13th, for the purpose
of selecting three candidates for dele-
gates to the constitutional convention for
the state of Michigan.
The several wards in the cities of Ish-
peming, Negaunee and Marquette and
the townships of the county are entitled
to one delegate in the county convention
for each hundred votes or moiety thereof
cast for governor at the last presidential
election held in November, 1904, as fol-
lows:
—Marquette City—
First ward..... Votes Cast, Delegates.
..... 345..... 3
Second ward..... 343..... 3
Third ward..... 350..... 3
Fourth ward..... 468..... 4
Fifth ward..... 340..... 3
—Negaunee City—
First ward..... Votes Cast, Delegates.

Total number of delegates..... 75
The city of Marquette, having re-
duced the number of her wards from
eight to five since the election of 1904,
the number of delegates to be given to
each ward in that city is determined for
the purpose of this call by assigning to
said city sixteen delegates, the number
it is entitled to according to the vote
cast in 1904, and dividing those among
the different wards according to the vote
cast for justice of the supreme court at
the general election held in April, 1907.
By order of the committee,
M. M. DUNCAN, of the Republi-
can County Committee
for Marquette County.
E. W. McPHERRAN, of the Republi-
can County Committee
for Marquette County.

made

WOOD HAVE USED BUT FOR CUTICURA

Five Children Suffered With Fearful Skin Troubles—One Little Girl's Eyesight Was Endangered—A Grateful Woman Writes of

FIVE PERFECT CURES BY CUTICURA REMEDIES

"Cuticura Remedies saved my two children. My little girl's face was so covered with sores that she could not see and I thought at one time that her eyesight was gone for good. After two doctors had failed to do her any good, I read in the paper of the Cuticura Remedies. I did so and in two or three days we could see a great change and in four weeks she was well and her face was smooth and had cured nicely. She had been so sore for three months so that she could not rest night or day. My little boy was sore all over. His face was smooth and had cured nicely. I had a doctor who did him no good, but the first time I bathed my son's head with Cuticura Soap and put Cuticura Ointment on it he rested better at night and the next morning his head was much better. In five weeks he was well. I cannot say enough for the Cuticura Remedies for if I had not used them my baby would have died. My little sister, Nora S., had a terrible sore face. I told my mother of the Cuticura Remedies. She used them and the child's face soon got well after the best doctors had failed. I am perfectly well. Nettie Holcomb, Ridgeway, Iowa, Mar. 4, 1907."

Cuticura Soap (25c) to Cleanse the Skin. Cuticura Ointment (50c) to Heal the Skin, and Cuticura Resolvent (50c) to Purify the Blood. Sold in all drug stores. Write for free literature. Sold by mail for 25c per box. Cuticura Remedies, 100 N. 3rd St., St. Paul, Minn.

ECZEMA ON FACE Cured by the Cuticura Remedies

"I had eczema in very bad form all over my face for the past four months. Physicians in several towns prescribed for it without giving me any results, but four weeks ago had used the Cuticura Remedies, consisting of one cake of Cuticura Soap, one bottle of Cuticura Resolvent, and two boxes of Cuticura Ointment and today I am perfectly well. Nettie Holcomb, Ridgeway, Iowa, Mar. 4, 1907."

Cuticura Soap (25c) to Cleanse the Skin. Cuticura Ointment (50c) to Heal the Skin, and Cuticura Resolvent (50c) to Purify the Blood. Sold in all drug stores. Write for free literature. Sold by mail for 25c per box. Cuticura Remedies, 100 N. 3rd St., St. Paul, Minn.

COPPER COUNTRY WEDDINGS. THIS IS CIRCUUS DAY.

Dr. Sturgeon Marries at Negaunee—Other Social Notes.

Dr. Charles Sturgeon of Globe, Ariz., who has been visiting at his old home in Calumet, left that town Wednesday for Negaunee, and in the latter city was married yesterday morning to Miss Alice Houle, Dr. Sturgeon is a member of the hospital staff of the Old Dominion Mining company and has resided at Globe for three years. His bride is a well-known Negaunee young lady, and a sister of Professor Houle of the Michigan College of Mines.

John Hill of Calumet and Miss Emma Engblom of Moine, Ills., were married Wednesday at the bride's home. They will live in Calumet, where Mr. Hill is a member of the postoffice force.

Donald R. White of Winnipeg, Man., and Miss Matilda Ruhl, daughter of Mr. and Mrs. Adolph Ruhl of Hancock, were married Wednesday in that city by Rev. G. Traub, pastor of the German Lutheran church. The bride, a popular young woman of this city, was at the time in Winnipeg, where Mr. White is engaged in the practice of law. They will be at home in the Manitoba city after Oct. 1.

COPPER COUNTRY COUNCILS.

Laurium Paving Contract—Red Jacket to Be Sued.

The Laurium village council, at a meeting held Wednesday night, received a number of bids for the pavement of Hecla and Third streets with cement, and ordered the bids tabulated. Another meeting to be held Aug. 24 will give the taxpayers an opportunity to protest, and after that the work will be started.

The Red Jacket council experts shortly to be a party to a suit brought by some Fifth street property owner to recover the amount paid by him for his concrete sidewalk. Just who the plaintiff will be has not been determined by the property owners. It is to be a test case, intended to determine whether the opinion of Village Attorney Galbraith that the village cannot relate is good. All of the Fifth street property owners claim that the village should rebate to them the amount paid for their walks, as all other walks in the village were built on the same terms.

The Laurium council has decided to rightly investigate hereafter any claims for rebate of taxes for reasons of poverty. The council usually remits the taxes of widows who are in poor circumstances and a few other people to whom the extent of exemption would be a hardship. But the council has come to believe its good nature in this respect is being imposed upon, and it will hereafter make a thorough investigation before remitting.

MILD POLITICAL EXCITEMENT.

Parties Are Preparing for the Constitutional Convention.

The two political parties in the copper country, Republicans and Democrats, are preparing to hold their county conventions to name delegates to the forthcoming constitutional convention to be held in Calumet Aug. 13, that of the Republicans at Laurium and the Democrats at Red Jacket. The Republican county convention will be held at the same time and place, and it is probable, the Democrats will follow suit. In the meantime the township, village and city caucuses are being held to name delegates to the county conventions.

Only a mild form of political excitement is occasioned by these caucuses and conventions, because the purpose in view is only to elect delegates to the forthcoming constitutional convention at Laurium. It is conceded that the Republican nominees will be chosen, but the Democrats continue to nominate candidates for the purpose of maintaining their organization in the county. Fred W. D. Calverley of Houghton and O. W. Robinson of Chassel are the Republican candidates for places on the senatorial delegation. Thus far the Democrats have suggested only Edward Ryan of Calumet, and he will probably be the Houghton county nominee, with his two colleagues chosen in Gogebic county.

SOO AT THE TOURNAMENT.

Crowd Preparing to Come to Copper Country This Month.

All is now in readiness for the firm's tournament at Ontonagon, Aug. 20, 21, 22 and 23 as far as the local company is concerned, says the Soo News. The new uniforms recently ordered arrived yesterday and are entirely satisfactory to the firm. The fit is good and they are pleasing in every respect. The blue suits with gold service stripes and white caps make an outfit of the noblest kind and will make an excellent showing at the tournament.

What games are to be entered into by the Soo company is not yet decided. The boys are practicing diligently every night and if they are entered into they will doubtless be the hub and hub and ladder races, which take place Thursday of the tournament. Rapid coupling is their weakest point and it is on this that they are striving to better themselves.

It is expected that about eighteen men will represent the Soo at Ontonagon. Twelve of the regulars will be taken and the remaining number made up of volunteers. Besides these, there will be a large crowd of others. Many have already signified their intention of going and it is expected that the special car will be packed. No changes will be necessary enroute. The fare has not been decided upon by the railway officials as yet but it is certain that very strong inducements will be offered.

Where the tournament will be held next year is of course not yet known. As the Soo had it three years ago it is not entitled to it for some time again and no effort will be made to secure it. There are several towns that are out strong for it. Gladstone, Ironwood, Escanaba and others are known to be trying to land it. It remains, however, in the hands of the delegates, appointed for that purpose and what they decide will not be known before the close of the tournament.

SPORTS AND SPORTSMEN.

Northern Teams Return Home—Their Last Appearance.

The Duluth and Winnipeg baseball teams played in the copper country yesterday for the last time this season, possibly for the last time in any season, and there is a pretty general opinion that this is the last of the Northern-Copper Country league. The two northern clubs should have played here today, but the leasing of Ripley Park to the Norris & Rowe circus changed the schedule. Winnipeg and Duluth will play at Duluth today, and Houghton and Calumet will try conclusions at Calumet. Thus the cry of the rooster on Ripley field will be exchanged for that of the spier and "the gentlemanly agent."

There is a little less than one month left of copper country baseball. The Calumet and Houghton teams play all next week at home, and then take their last northern trip. They will return for Labor Day games, and then the season will be over. It has been a rather poor baseball season for both players and managers and the public. It has not been that some advantageous sales of players have been made to bigger clubs the managers would quit the season deep in the hole.

There is talk in Calumet again of a league for next year with copper and iron country towns included. This song has been sung in various keys for a number of years without coming to a satisfactory issue. Duluth papers talk of a new league which will cut out the copper country. The magnates of the Trouble league are saying nothing and it is highly probable that they will not permit the league to lapse, though it is admitted that they have little reason for staying in the game.

Billy Roche, formerly a fighter in the copper country, and Benny Vanger, one of the best known lightweights in the United States, are matched for a bout in the Laurium Dalestra on Labor Day if the authorities are willing. It remains to be seen whether or not the latter will permit the fight to take place. If the contest does occur lovers of boxing will see the best bout in years. Roche is young and is a corner, and Vanger, while not of the class he occupied when known as the Tipton Slicer and a championship possibility, is still one of the best.

The Hancock horsemen who have been using the Hancock Driving park this summer, engineering two matinees, have declared that they give it up. They complain that the city has not expended the promised amount on track repairs and that they cannot attempt racing without this expenditure. These men are all businessmen who love the sport, but they cannot conduct racing for the public benefit and their own health, and they have abandoned the effort.

HOW'S THIS!

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

J. C. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

KINGSFORD'S OSWEGO CORN STARCH

as an aid in cooking and baking. It is a revelation of the magic power of this famous product, whose wholesomeness, purity and peculiarly delicate properties have made it the standard of quality for over half a century. Get the genuine Kingsford's Oswego Corn Starch. Made for over fifty years at Oswego. All grocers, in pound packages, 10 cents.

T. KINGSFORD & SON, OSWEGO, N. Y. NATIONAL STARCH COMPANY, SUCCESSORS.

W. S. PRICKETT'S FARM.

Preparations for the Copper Country Fair Brings It to the Front.

It is an interesting fact that the copper country contains the finest farm in the upper peninsula, and one that compares favorably with any in the state. This district spends most of its time blasting out copper, but Walter S. Prickett of Sidway is furnishing proof that the real metal region is not forced to admit that copper is its only product.

The Prickett farm—"Roveroff Farm," is the way he has named it—came into a conversation which The Mining Journal had yesterday with Manager McNamara of the Copper Country Fair. Mr. McNamara had just returned from a mission's trip through the county, and he was filled with material for stories which might result in publicity for the fair. Even with this purpose in view a discussion of the Roveroff farm as Mr. McNamara saw it should not be uninteresting.

Mr. Prickett makes a business of breeding fine stock and therefore is not necessarily, or rather essentially, a farmer. At present he is raising fine breeds of chickens, a drove of Berkshire pigs and a herd of pure bred Jersey cattle. Two or three years ago Mr. Prickett started in to raise Angora goats—at least he got a lot of them together at Roveroff—and the public at once took an interest in the experiment. But the farmer had no more intention of raising goats than he had of raising yaks. He had a purpose in importing the goats, Mr. Prickett does not believe in clearing land by dynamiting. He chooses to let the stumps rot in the ground till they are easily removed and he knows that the undergrowth from the stumps is a matter of great concern to the farmer. He secured the goats solely for the purpose of eating off this undergrowth. When they had done that over the land which Mr. Prickett expected to clear he got rid of them.

Mr. Prickett's specialty now is "Laid Yesterday" eggs. He has from 4,000 to 5,000 chickens in his yard. This poultry is kept in a netted enclosure that occupies a space of about 600 by 100 feet. Every modern scheme for the care of chickens is here seen. A record system gives Mr. Prickett exact knowledge of how much feed it cost him for each hen to produce the number of eggs which she has delivered.

The Roveroff drove of Berkshire pigs is one of the finest in the country. Mr. Prickett has about fifty of the animals and very rarely does one of them have to submit to the butcher's knife as the owner of Roveroff receives fancy prices for his porkers for breeding purposes. One would naturally permit visions of cochon de lait to rise when discussing these fine animals, but Mr. Prickett does not raise them for food.

Then come the Jerseys. Here again Roveroff need take no scorn from any farm. His drove of Jersey cows is one of the best bred in the state. Mr. Prickett is of the opinion that the market in the copper country, nearby, but in Marquette and as far south as Chicago. The transportation into Houghton and Hancock from Sidway and the other portions of the south end of the county is so poor that the products of such fine animals as Prickett's and Johnson's are deflected from the copper country, their natural market. It is recalled that former Supervisor Grant of Laid township tried during several terms on

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches the age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers from kidney and bladder trouble. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

A Duluth View.

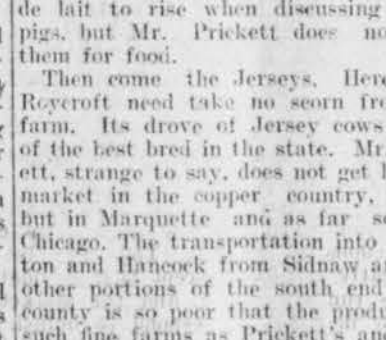

In common with the copper country Duluth looks upon the reported invasion of Isle Royale last Sunday as a fake. The Herald says: "Officers and passengers on the steamer America, which arrived here from Isle Royale this morning, look upon the reported 'invasion' of Isle Royale by Captain Young of Port Arthur as a huge joke. The affair is believed to have been a lark of some young Canadian amateur fishermen, who ran across to the island in a launch. Some enterprising correspondent seized on the incident as good material for the newspapers during the foolish season, and sent the reports broadcast that the island was about to be captured by the Canadians. The amount of interest he stirred up in all parts of the country was amazing."

A large number of copper country people will go to Isle Royale on the steamer Moore tomorrow night, having no fear that they will encounter a hostile force.

REMEDY FOR DIARRHOEA. NEVER KNOWN TO FAIL.

"I want to say a few words for Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used this preparation in my family for the past five years and have recommended it to a number of people in York county and have never known it to fail to effect a cure in any instance. I feel that I can not say too much for the best remedy of the kind in the world."—S. Jenison, Spring Grove, York county, Pa. This remedy is for sale by The Stafford Drug Co.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches the age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. THE CITIZENS' NATIONAL BANK

HOUGHTON, MICHIGAN

OFFICERS. DIRECTORS.

Graham Pope, President. C. V. Seeber, C. V. Seeber, Vice-President. B. F. Chynoweth, J. H. Isenberg, S. R. Hall, A. E. Heidkamp, A. M. Schulte, John G. Stone, C. H. Moss, Cashier. C. H. Moss.

NEW PUBLISHING HOUSE.

Articles of association were filed yesterday with County Clerk Richardson by the Hancock Printing & Publishing company. The company is capitalized at \$3,000, divided into 300 shares, with \$1,500 paid in. The shares are held as follows: W. H. Mason, 90; W. A. Burritt, 2; and 10 each by C. O. Oliver, John Kiskila, D. C. Crowley, John Finley, Eric Anderson, Annie Pettit and A. L. Levy. It is understood that A. W. Pettit, formerly representative in the state legislature from Hancock and publisher of the old Houghton County Progress, will be manager of the new concern. It has located a plant in the Finkey block, Hancock.

HERE IS A DARK HORSE.

John Gipp and "Fing" Foster, candidates for appointment as game warden of Houghton county, had better look a little out. There is a dark horse in the field. The Mining Journal is credibly informed that a more or less prominent Houghton man is out for the office, quietly seeking no publicity and relying on past public service and a long acquaintance with State Warden Pierce. Out of deference to the wishes of the candidate his name is not mentioned, but it must be said that he seems strong enough to at least jar the Gipp and Foster chances just a little bit.

A LEGACY TO GRACE M. E.

It is learned that the will of the late Thomas Davey of Houghton leaves to Grace M. E. church of Houghton two shares of Calumet & Hecla stock to be used in the purchase of a pipe organ. The will has not yet been probated, so the announcement is not officially confirmed. The trustees of the church are however assured of the legacy. The market value of the stock would give the church an organ well fitted for its use. It would be possible to pay for the instrument with the income after a term of ten years.

ADVANCE GUARD TO CAMP.

Lieutenants Russell Smith and Ira Penberthy, officers of the Calumet company of Engineers, Michigan National Guard, left yesterday in command of a detachment of twelve men for Ludington, where they will lay out the camp for the forthcoming state encampment. The remainder of the Engineers, in command of Captain John Trevarrow, and the Houghton Light Infantry, in command of Captain E. G. Heikel, will leave Monday for Ludington.

COPPERDOM BREVITIES.

Mrs. August Beck and children of Houghton are visiting in Republic.

William Dolan of Albuquerque, N. M., is visiting at his old home in Houghton.

A. E. Floeter, a M. C. M. graduate, for some years located in the West, is visiting in Calumet.

Justice William Fisher and Mrs. Fisher of Calumet have returned from an extended Eastern trip.

The Misses Helen and Jean Evans of Houghton entertained with a dance at the Amphidrome last night.

The Misses Evangeline and Laura Haas of Houghton will entertain tonight at their home at Haas' Park.

Mr. and Mrs. Victor DeMau of Green Bay, Wis., are the guests of Mr. and Mrs. Joseph DeMau of Houghton.

Mrs. Harry P. Dutton of Chassel was called to Marinette, Wis., this week to attend the funeral of her mother.

John King, formerly champion Cornish wrestler, has arrived in Hancock from Fort William, Ont., to visit friends.

Rev. and Mrs. Walter R. Fruit of Houghton, who have been enjoying an outing near L'Anse, have returned home.

Joseph Kaufman of Houghton has been called to Chicago by the news of the death of his father in a railroad accident.

The Misses Ruppe of Hancock will entertain at cards this afternoon at home in honor of Miss Anna Kuhl of Minneapolis.

John Summers of Houghton, principal of the commercial department of the high school, will leave tomorrow for a vacation trip.

Harry Vivian, of the Tamarack Mining company's mining engineering staff, has gone to Detroit and Buffalo for a visit of two weeks.

Mart Haas of Houghton is temporarily acting as manager of Ed. Haas & Co.'s Calumet store, during the absence of Manager Herman Haas.

Charles Frink, the former Calumet violin virtuoso and teacher, who has toured in vaudeville for the past two years, is visiting his parents.

Thomas Lang of Duluth, Northwestern representative of the Standard Oil company, is calling on the copper country trade, as well as old friends in his former home.

Another meeting of the interested soldiers will be held at Houghton Tuesday night to complete the organization of the proposed camp of the United Spanish War Veterans.

A meeting of the school board of Houghton was held for reorganization this week, and all the old officers were re-elected. There were no changes in the personnel of the board at the last election.

F. R. Skidmore, of the Skidmore Land company, of Milwaukee, Wis., is visiting in Calumet. His company formerly conducted a branch office in Calumet and through it a large number of Calumet people became interested in Wisconsin farm property.

The first promenade concert and dance by the Calumet & Hecla band at Electric Park will be given tonight. The

SHORT TALKS BY L. T. COOPER.

BACKACHE.

I can sympathize with a sufferer from this awful symptom of weak kidneys. That aches and pains in the back tell too plainly of serious trouble behind it. It's not a hot water bottle or a plaster you need. That won't cure diseased kidneys. It may relieve you for a time it's true but why mask the real cause and allow the trouble to grow? Don't do it. Weak kidneys can be cured but Bright's disease, which always follows neglect of them cannot. Go and get a bottle of Cooper's New Discovery and Cooper's Quick Relief and use them faithfully. Your backache will disappear because your kidney trouble is corrected—not for a day but for good. When your kidneys are in "ship-shape" there will be nothing more to cause it.

Here's a letter from a man who suffered for years in this way and took my advice: "I have been in such bad health for some years that I finally had to give up work. I suffered from kidney trouble. My back was so sore and lame that I could scarcely get up and down. My stomach was also out of order and my nervous system broke down. I have been using the Cooper medicines for one week and actually feel like a new man. My food digests perfectly. The soreness and pain has entirely gone from my back and my kidneys are in fine shape. The medicine has strengthened me wonderfully and I cheerfully give you this testimonial for publication." Mr. P. Leonard, 49 School St., Allegheny, Pa.

We have heard a number of favorable comments on the Cooper preparations from people who have purchased them from us.

MR. P. LEONARD.

City Brevities

Forecast: Showers, stationary temperature.

Walter Hodgkins left for Ashland last night.

Mrs. Adolph of Ishpeming is visiting her son, Peter Adolph.

Miss Augusta Cooney of Escanaba is visiting her sister, Mrs. Delia Taylor.

Jeff Bastien has been ill at his home on Fisher street for the past ten days.

Former Sheriff William McFarlane of Ontonagon was in the city yesterday, visiting friends.

A. W. McLean of Champion has been seriously ill at St. Luke's hospital for the past ten days.

George Schrader, of Rhineland, a former Marquette resident, was a visitor in the city yesterday.

Mrs. A. E. Delf and children left yesterday for Newberry to make a brief visit with Mrs. J. E. Kee.

J. T. McKenney of St. Paul, traveling passenger agent of the Northern Pacific, was in the city yesterday.

Colonel Robert J. Bates, commanding the Third regiment of the Michigan National guard, was in the city yesterday.

Mr. and Mrs. Sam Collins and Mr. and Mrs. Thomas Collins of Negaunee, with their families, picnicked yesterday at Presque Isle.

Miss Hannah Bennett, assistant librarian, has left for a two weeks' vacation, during which she will visit with friends at Menominee.

John Shea, a pioneer railroader, formerly a resident of Marquette and now residing in Butte, Mont., was in the city yesterday. He left last night for his home.

Mrs. Edward Tradewell and her daughter, who have been visiting Mr. and Mrs. Joseph Knapp for the past six weeks, left yesterday for Philadelphia, Pa., their home.

G. A. Saunders, superintendent of construction of the Michigan State Telephone company, and T. W. Thompson, attorney for the company, are in the city on business.

William Owen of Milwaukee, northern passenger agent of the C. & N. and A. G. Robinson of Chicago, general agent of the passenger department of the same road, were in Marquette yesterday.

The Rivals Junior ball team is looking for games with clubs of its class. Its players average seventeen years in age. Neil Levasseur, 116 Washington street, is the manager. A game is wanted for Sunday.

To Be Married—Isaac Juntenen and Ida Laide of Ishpeming were granted a license to marry yesterday. Juntenen is a miner.

Brief Meeting—Only routine business was disposed of at the meeting Tuesday night of the library board. The new stacks for the library, it is expected, will be installed some time this month.

Are Initiated—The Elk lodge held initiation ceremonies at the lodge hall last night. Following the initiation, a smoker was held and refreshments were served.

Salvation Army Meetings—A series of meetings at the Salvation Army hall are being conducted by Staff Captain Watt and Mrs. Watt of Duluth. The meetings are from 7:15 until 8 o'clock each evening.

Case Again Continued—The case against Nathan Hoffenberg, charged with having conducted an auction without having obtained a license, was called in the court of Justice of the Peace Byrne yesterday and was continued until Monday. A jury has been called to try the case.

Printers to Play Ball—A nine representing The Mining Journal will meet the Den team Saturday afternoon at the fair grounds diamond. The details of the game are now being arranged. Desotell and LaFave will be the battery for The Mining Journal and Osgood and McGuire will be the battery for the Den team.

Ore Boat Due—The William Ellis Co., one of the larger ore boats, is due in port today from Chicago. The cargo is of the same size as the Morgan, Wadner and the team which were recently here. They are each 600 feet long by 58 feet beam. The Ream recently took out the largest cargo of ore ever sent out of the port, 11,643 tons.

Walked Upstairs—Tenants and others who had business in the Savings Bank block yesterday morning and the early part of the afternoon were obliged to climb stairs because the motor of the elevator was not working. In some unknown manner the motor took fire in the morning and an alarm of fire was sent in. When the department arrived the blaze had been extinguished.

For Berry Pickers—Although the South Shore will not have any special berry trains in service, the road yesterday announced a round trip rate of 25 cents to Eagle Mills and return, good week days on any of the regular trains. Trains leave Marquette every morning at 6:45, 8:00 and 8:30 o'clock and returning, there are two trains which arrive in the city at 5:35 and 7:45 o'clock.

Prepare for Encampment—A detachment of engineers of Company A of the Michigan National Guard from Calumet were in the city for a short time yesterday on their way to Ludington, where they are to make surveys for the site of the National Guard encampment which will be held for two weeks beginning next Tuesday. The engineers were under the command of Lieutenant Jesse Meads. About two hundred members of the National Guard, including companies from Houghton and Ishpeming, will pass through Marquette on their way to the encampment Monday.

NEW CREW ON THE HUDSON.

New York University Plans to Participate in Poughkeepsie Regatta.

New York, Aug. 8.—Another Eastern college crew may be expected to appear at Poughkeepsie next year when the annual regatta takes place. New York University men have little hope of doing more than making a creditable showing at that time, but the experience of an absolutely green crew, with almost no training, in the Memorial Day regatta on the Harlem, has encouraged every one interested in rowing at the local university on the Hudson.
New York University's crew this year is the third that university's men have formed and the second actually to take part in a race. In 1902 a crew was put on the Harlem, led by Lewis Blunt, '02, and coached by a graduate, Kaika, '97. The crew completed only one race. It met Columbia over a two-mile course on the Harlem and was defeated by something less than two lengths after a plucky race, rowed in fairly fast time.

In the fall of 1902 preparations for another crew were begun as soon as college opened. Little active work was done, as most of the candidates were members of the football squad, but a call for candidates was sent out by Captain Lane, '03, and about forty men answered it.
When the football season was over work was begun, and was continued most of the winter. Then came financial difficulties, training work stopped, and there was no New York University shell on the river that year.

This condition lasted until this year. New York University's campus is nearer to a navigable river than almost any other in the country. It takes less than five minutes to reach the Harlem. A boathouse could be built on land owned by the university on the water's edge, at the very foot of the hill which slopes down from the campus. But there was no money, and apparently no one could think of a way to get any.

Last June one of the members of the graduating class was J. S. Connell. He was one of the freshmen attracted by the promise of the '02 crew, and as soon as he was graduated, he began to try to secure the formation of a crew. His brother, E. S. Connell, is a well-known oarsman, a member of the Union Boat club, and also a member of the regatta committee of the Harlem River Regatta association, and through his influence the courtesies of the Union Boat club, with the use of a shell, were obtained by the college men. He also coached the eight.

Now the alumni are appealed to to support the crew, and \$3,000 is asked for, to put a well equipped and thoroughly trained crew on the river next year. The money is to be used for the purchase of a shell, for the installation of rowing machines in the gymnasium and for the salary of a professional coach, in part. The students are expected to be able to pay many of the expenses of the squad, and there is hope that the alumni will contribute liberally enough to swell the funds of the crew to a considerable amount. The work of raising money was begun early in June, when at the '06 class dinner the majority of all the graduate classes pledged more than \$300. There is no intimation yet as to who will be engaged as coach, and probably no decision will be made until the end of the summer, when some accurate estimate of the resources can be made.

TO GET MIDLAND COMPANY.

United States Corporation Expected to Absorb a Prospective Rival.

Pittsburgh, Aug. 8.—The plant of the Midland Steel company, about thirty miles below Pittsburgh, as well as the model town of Midland, in course of construction, is about to be sold, the deal involving about \$15,000,000. It is understood that the United States Steel corporation is taking over the plant which promised to be a big rival. For more than a week there has been cessation of work at the immense plant, and while access is denied to all outsiders, it is understood that an inventory of what is on hand is being taken.

The Midland Steel company idea was conceived in what may be termed a fit of pique some years ago. The Fownes family in Pittsburgh owned the Carrie furnaces before the formation of the steel trust, and out of these furnaces Andrew Carnegie, who was in on the ground floor of the steel trust, turned a pretty penny. Without telling what was in the wind Carnegie is said to have gone to the owners of the furnaces and offered them a large sum for an option on the furnaces. The price offered was much in excess of the prevailing quotations on blast furnaces, and for a few days the owners thought they had indeed struck a good thing. When the steel corporation was formed, which was only a short time later, Mr. Carnegie turned in the Carrie furnaces at a price some millions ahead of that which he had closed for with the Fownes people. This bit of high finance was not relished by the former owners of the furnaces and the Midland Steel company idea was set on foot, to take trade wherever it could be picked up. Millions have been spent on the plant, but it is conceded that \$15,000,000 is a big price.

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—Sam H. Gwin, Concord, Ga. For sale by The Stafford Drug Co.

NOTICE.

Sealed proposals will be received up to and including August 15th, 1907, for the delivery of 300 cords (128-feet) of hard wood, in blocks 16-inches in length, either green or dry, same to be delivered on board cars at Marquette, and in such quantities per month as may be agreed upon. Proposals for slab wood will be entertained, provided they are hard wood slabs. Right reserved to reject any and all proposals; envelopes containing proposals should be so marked.

Mining Journal Wants Bring Results

The Luxury of Children.

All of the mothers, most of the fathers, and some of the old maids and bachelors will shout out in support of the statement that there is no luxury on the face of this earth that will compare with a bright baby boy or girl. Can money buy a greater happiness than a home full of youngsters? After the age of forty most married couples are practically living for their children. An astonishing thing about babies is that not only are they the greatest of all luxuries but actually they are the

BEST INVESTMENTS ON EARTH.

Think about them from the standpoint of cold dollars and cents, and you'll find that the kids will hold their own. What more satisfactory return can there be than that of a stalwart son succeeding his father in business or of old age honored and guarded in the home of youth.

Safeguard the future of your offspring. When they arrive at years of discretion let them realize that they are bound to you for all time by the fetters of gratitude. Ten dollars put into a bank each month up to the age of eighteen at three per cent will send your boy through college.

Marquette National Bank.

Marquette, Michigan.

Upper Peninsula

Steamer's Boilers Raised—

Two large marine boilers raised by Captain W. C. Davidson of Grand Marais from the bottom of Lake Superior near Sable point, where they went down last fall. The cargo of coal was sold and the ship will now be abandoned to the mercy of wind and wave.

Stranded Craft Abandoned—

The machinery is being removed from the stranded steamer Panama, which went onto the rocks at Mineral point, near Ontonagon, during a terrific storm last fall. The cargo of coal was sold and the ship will now be abandoned to the mercy of wind and wave.

Double Drowning—

Details of the recent double drowning in Whitefish lake have been received from Luce county. The victims were Michael Neagor and Owen Filon. Robert McMillan was the third member of a party attempting to cross the lake in a small boat. A heavy sea was rolling at the time and the boat capsized. Owen sank at once, but Neagor and McMillan managed to get hold of the up-turned craft, and they clung to it for a considerable length of time. Neagor finally became exhausted, and bidding his companion good-bye, let go his hold and

sank beneath the waves. Parties on shore finally sighted the overturned boat and a launch put out to the rescue. McMillan was in a completely exhausted condition and was just about to give up. Neagor was a former resident of Newberry, having at one time been employed there as section foreman on the Duluth, South Shore & Atlantic railway. The bodies of the men have not yet been recovered.

Foresters' Convention—

The annual session of the high court of the Independent Order of Foresters of the upper peninsula of Michigan will be held in St. Ignace early in September, probably on the 10th. Supreme Chief Ranger Stevenson and other dignitaries of the order will be present from Toronto, and there will be represented by delegates many towns in Northern Michigan. The St. Ignace court is arranging an elaborate program for the entertainment of its guests.

Railroad Extension—

For the purpose of reaching a large tract of hemlock timber recently acquired in the Gogebic Lake district of Ontonagon county by Lincoln, Phelps, Brown & Co., a firm of lower Michigan lumbermen, a ten-mile extension of its road is to be built by the Chicago & Northwestern company west from Robbins. The timber will be manufactured at a large sawmill to be constructed in the southern part of Haight township.

A similar plant of large capacity is in progress of erection at Bass lake, in interior township, some seven miles from Trout Creek. The Northwestern track has been extended to that point also. The mill will be completed in six weeks. A thriving little town will spring up in the vicinity.

Bergland a Model Town—

It is doubtful if there is a neater, more attractive little town in the country than Bergland, situated on Lake Gogebic, and founded five years ago by G. A. Bergland of Milwaukee. It has comfortable buildings, well-kept streets, a good school, electric lights and a model sawmill, the community's only industry and the property of Mr. Bergland. It is a single hand plant and on a single shift cuts about 35,000 feet of lumber a day. It is owned ten months in the year and the stock of lumber is sufficient to keep it in operation for twenty-five or thirty years to come. The most of the logs are hauled to the mill by rail. The plant is also equipped with shingle and lath machines. Mr. Bergland spends about a quarter of his time at Bergland and is having a comfortable cottage erected for his use. The town has two mercantile houses, and a bank is to be established shortly.

Automobile Speeder Fined—

Chief English's prompt personal arrest of Axel C. Nordquist in front of the Stephenson hotel on a charge of driving an automobile at a rate of speed far above the speed limit proved conclusive. The fast and reckless driving will soon be a thing of the past in Menominee, or that autoists will pay hundreds of dollars to the city as toll for their disregard for law and safety. A report came to the police station that an automobile driven by Nordquist was tearing eastward on Ogden avenue at a rate close to forty miles an hour. Hardly had Chief English left the phone than the big machine came speeding along Main street, past the police station, going at a rate far above the limit. Chief English was after the autoists in an instant and followed them to the Stephenson Hotel, where the machine came to a stop. Nordquist was arrested. He returned to the city hall, pleaded guilty to the charge before Judge White, paid his fine of \$25 and costs and was released. "Automobile speeding is going to be a thing of the past in Menominee and every member of the police force as well as special officers, are on the lookout for the speeders," said Chief English. "The citizens must be protected and the feeble and young have little chance of escape, when crossing a street in front of an automobile bearing down upon them at the rate of twenty, thirty or forty miles an hour. Drivers should realize that the law is made for their safety as well as that of the citizens. The arrest is only an indication of what will follow if this practice is not stopped, and stopped at once."

Mills Pays Small Fine—

The case of the People vs. W. N. Mills came up before Judge Stone in circuit court at Menominee this week. Mr. Mills was represented by Attorney R. C. Flanagan of Norway and F. J. Trudell of Menominee, Special Prosecutor Bell of Negaunee, appeared for the people with Prosecuting Attorney M. J. Doyle. Mr. Mills entered a plea of not guilty, thus committing himself to the judgment of the court, with the consent of both the prosecuting attorneys that judgment be imposed. Judge Stone exacted a fine of \$50, saying that the defendant had already been punished severely by the previous events connect-

ed with the case, and deeming a small fine as completely meeting the requirements of justice in the case. The fine was paid and the matter closed.

Fearfully Scalded, He Dies—

John F. Lee, fifty-five years of age, an engineer at the Bird & Wells Lumber company at Vasa, after being fearfully scalded by the bursting of a steam valve in the engine room, died in terrible agony. Hardly a square inch of the unfortunate man's body escaped being scalded by the deadly steam. The accident happened just as the tie cutting machinery was starting up for the day's run. No one else was in the engine room at the time, but the force of the explosion could be heard for blocks and when a score of employes rushed to the engine room, where they knew Lee was at his post, the dying engineer lay unconscious on the floor. A broken valve leading from the side of the furnace, out of which great quantities of steam was pouring, told the story. Despite the fact that the force of the explosion shattered a number of small windows, the furnace remained intact, other than the broken valve.

WOLVERINE'S ANNUAL REPORT.

Slight Decrease in Production, But Large Increase in Receipts.

The Wolverine Copper Mining company's annual report for the year ended June 30, 1907, shows a production of 12,352,210 pounds of mineral which yielded 74.84 per cent, or 9,372,882 pounds of refined copper. The average price for the year was 21.36 cents. The receipts from sales of copper were \$2,002,379. The figures compare as follows:

1907	1906	
Gross	\$2,017,577	\$1,623,187
Expense	609,036	629,239
Mineral profits ..	\$1,348,541	\$1,043,788
Construction	42,137	35,968
Balance	\$1,306,403	\$1,007,820
Dividends	1,140,000	810,960
Surplus	\$166,403	\$196,860
Previous surplus ..	984,185	821,264
Total surplus ..	\$1,150,588	\$1,018,124
Prod. lbs. fine cop. .	9,372,882	9,681,206
Average price	21.36¢	17.17¢
Cost per lb.	7.14¢	6.96¢
The general balance sheet as of June 30, 1907, compares as follows:		
Assets—		
Cash in banks	\$ 570,927	
Bills receivable	567,604	
Cash and supplies at mine	31,671	
Securities	\$1,250,262	
Liabilities—		
Indebtedness at mine	\$ 78,149	
Accounts payable	16,370	
Surplus	\$1,155,588	
	\$1,250,262	

President Joseph Gay says: "Operations at the mine have been satisfactory. A slight decrease in production was caused by irregular transportation service due to the severity of the winter and in working out some of the poorer positions of the mine which could be done to advantage during the prevailing value of copper. It became necessary during the year to install a new hoisting plant at No. 4 shaft. This plant is in commission and will command the deepest ground which can be reached by that shaft on our property."

COOK WITH GAS

Ishpeming Department

INTERESTING LECTURE WEDNESDAY EVENING

PROMINENT FINNISH ORATOR SPOKE ON THE PRESENT CONDITION IN FINLAND—TALK CONSIDER VERY CONSERVATIVE.

Johan Koch, the Finnish leader who arrived in the city Wednesday, addressed a good-sized audience at the Finnish hall Wednesday evening, speaking on the conditions which were prevalent in Finland during the great general labor movement of 1905. The lecture was well received.

Mr. Koch began his talk by reviewing the situation between Russia and Finland from an historical standpoint. He talked of the oppression and tyranny which have characterized the treatment accorded to Finland by the Russian government. He was not as radical as might be expected in the treatment of this subject. Although he believes in the tenets of socialism, he does not advocate revolutionary tactics for the Finnish problem. The speaker told in detail the struggles which took place in Helsinki and Wiborg between the aristocratic party and the peasant class.

Mr. Koch has only been in this country about nine months, but speaks English very well. He says that there are bettered their condition by coming to the United States. Mr. Koch and Leo Lahti will speak to the Finnish residents of the copper country at the Tamark Park Sunday afternoon.

LOOKED OVER THE MINES.

Deputy Inspector Fitzpatrick Looked Over Shops Last Week.

P. E. Fitzpatrick has completed the inspection of the mining companies' shops in this county, and is now visiting the counties in the eastern end of the peninsula. It is Mr. Fitzpatrick's first trip over his territory. While away he will make a complete inspection of the factories and shops of Schoolcraft, Alger, Luce and Chippewa counties.

He looked over the conditions at the No. 10 mine, west of this city, last Saturday and found everything in first-class order.

Mr. Fitzpatrick was particularly well pleased with the manner in which the employees of the Oliver Iron Mining company are looked after in this city and Negaunee.

He also visited the Ishpeming stores and found that the laws in regard to child labor were respected. In the other towns of Marquette county Mr. Fitzpatrick also found very few violations of this law, but expects to encounter a large number in the eastern end of the peninsula, where they are larger manufacturing establishments.

A deputy can institute proceedings against any violator. The law is as follows:

"section 2. No child under the age of fourteen years shall be employed, permitted or suffered to work in any other, concert hall or place of amusement where intoxicating liquors are sold or in any mercantile institution, store, office, hotel, laundry, manufacturing establishment, bowling alley, passenger or freight elevator, factory or workshop, telegraph or messenger service within this state. It shall be the duty of every person employing children to keep a register in which shall be recorded the name, birthplace, age and place of residence of every person employed by him or her under the age of sixteen years and that no child shall be employed between the hours of six o'clock p. m. and seven o'clock a. m. in any manufacturing establishment or workshop in this state and it shall be unlawful for any mercantile institution, store, office, hotel, laundry, manufacturing establishment, bowling alley, workshop, telegraph or messenger service or any person acting within the provisions of this act to hire or employ any child under the age of sixteen years without there is first provided and placed on file a sworn statement made by the parent or guardian, stating the age, date and place of birth of said child and that the child can read or write the English language. Provided, however, that if said child has been born in a foreign country, not having been a resident of the United States for three years prior to the application for permit to be employed between the age of fourteen and sixteen years a permit shall be issued to said child upon proof that said child can read and write. If said child have no parent or guardian then said statement shall be made by the child, which statement shall be kept on file by the employer, and be returned to the child upon leaving his employment, and which said register and statement shall be produced for inspection on demand of any factory inspector appointed under this act: Provided, that in the city of Detroit and the city of Grand Rapids all sworn statements shall be made before a deputy factory inspector."

COL. BATES ISSUES ORDERS.

Militia Company Receives Camp Instructions from Commanding Officer.

Acting Captain Con Thompson has received camp instructions from Colonel Bates, commanding officer of the Third regiment, as follows:

General Order No. 31.

I. In addition to the instructions enumerated in G. O. No. 19, e. s. A. G. O. and G. O. No. 1, e. s. headquarters first brigade, M. N. G., governing the movement of the troops for the encampment to be held near Ludington, Michigan, August 14 to 23, 1907, the following is issued for the guidance of this regiment:

II. Company commanders will inspect their commands before leaving home station, and see that no ball ammunition is brought to camp.

III. Commanding officers in charge of troop trains will cause a guard (who will be relieved at least every two hours) to be placed inside each car door immediately upon leaving home station, who will allow no enlisted man to stand upon the car platform, or leave his car, except by permission of his commanding officer and then only when absolutely necessary.

IV. Commanding officers will cause their train to be kept in perfect sanitary condition and so left upon detrainment. They will also see that their commands entrain and detrain in perfect manner.

V. Company commanders will also see that their commands are equipped with comfortable shoes, extra socks, towel, soap, and such other articles as are necessary to preserve health and cleanliness, and that each man has two complete service uniforms in his equipment, for duty at camp.

VI. The organizations comprising this command will travel in heavy marching order and will report to the regimental commander, at regimental headquarters, immediately upon arrival at camp. Strict discipline must be maintained en route, and it is expected that the conduct of both officers and men will be such as will reflect with credit upon their home station and the entire organized militia of Michigan.

VII. Arrangements have been perfected for the usual headquarters.

VIII. All members of the field and staff, and non-commissioned staff, residing where companies are stationed, will travel on troop train with local organization.

By order of
COLONEL BATES,
A. H. PASSMORE, Captain Third Regiment, Adjutant.

NEW BOOKS AT LIBRARY.

The library commission has purchased a number of new reference books. A set of ten volumes entitled "Makers of the American Nation" has just been received, and the commission has authorized the purchase of another reference work, "The History of the Nations," edited by James Cabot Lodge. About two hundred books for general library reading will be ordered in the near future. The library has been very well attended during the summer months, and a large number of books are drawn for home reading. The month of July was dull, but the circulation ran three hundred above July of last year.

PLAY WELL RECEIVED.

The Harvey Dramatic company put on "The Child of the Hills" at the Ishpeming theatre last evening. The play is a version of Ethel Barrymore's Sunday. The leading roles are capably handled. The play is a western comedy drama of the better class and last night's rendition added to the good impression already made by the company. This evening it will play "Jane" and uproariously funny comedy. Saturday afternoon the company will give a "Teddy Bear" matinee, and a large Teddy Bear will be given away.

CARD OF THANKS.

We wish through The Mining Journal to assure our friends and relatives that we most heartily appreciate the many favors extended during the illness and after the death of our husband and father. We desire in a special manner to thank the employees of the Oliver Iron Mining company, the Elks lodge and all those who sent floral offerings.

MRS. MICHAEL COLLINS
and Family.

EVERYBODY IS CORDIALLY INVITED

Marquette County Gas & Electric Co.

FROM HOPKINS' CURB LETTER.

"Further reduction in the selling price of metal today brings the selling price of Lake down to 19 1/2 bid, 20 1/2 asked, with electrolytic a cent below this figure. Coppers continue to display weakness, and the buying cannot be regarded as of very good quality, although prices have today touched the lowest figures recorded in a long time. Most copper producers were sold several months ahead and as a rule they are right now getting returns from top-pripped metal."

The day's prevailing prices were:

ISHPEMING IN BRIEF.

Herman H. Jaseckie spent yesterday in Republic.

W. P. Olson of Milwaukee is in the city on business.

Harry Soady is in the city for a few days, on business.

John Mufur received three carloads of fruits yesterday.

C. F. Cannon of Chicago is in the city on business for a few days.

H. L. Botsford of Houghton was in the city yesterday and Wednesday.

Oscar Forsberg, in the employ of August Hendrickson, is enjoying a week's vacation.

D. J. Sliney and mother will leave Saturday for a trip to Oakville, Ontario, and Detroit.

Miss Hattie Whitford, of Houghton, formerly of this city, is here on a visit with relatives.

Lund & Harer have opened a new bakery in the Swedish Home block on Cleveland avenue.

Mrs. Robert Ewing of Colorado Springs, Colo., is in the city, on a visit with relatives.

C. L. Brandag came down from Duluth yesterday morning, to spend a few days in the city.

The regular monthly meeting of the city council was held in the council chamber last evening.

W. J. McCorkingdale left last evening for Chicago, where he will spend three days on business.

Miss Zyla Dyson left yesterday morning for Chicago, where she will spend the next few weeks.

Mrs. A. Bennett has returned home from Houghton, where she spent the past few weeks with friends.

Miss Susan Steel of Dixon, Ill., is in the city for a few weeks' visit, the guest of Mrs. F. P. Tilson.

The funeral of the late Mrs. Arthur Schaeffer will be held this morning at 9 o'clock from St. John's church.

The board of public works held its regular monthly meeting in its office of the superintendent Tuesday afternoon.

The Misses Ursula and Laella Repes are at Chicago Lake, to spend the next two weeks at Charles Lawrence's cottage.

The Misses Elizabeth and Anna Bamford are at Michigamme, where they will spend the next two weeks visiting with friends.

A shawl and a wrapper were lost Tuesday evening on the road near Braastad's farm in the Dead River district. The finder will please return to The Mining Journal branch office.

Miss Helen Hendrickson has accepted a position in the public schools in Little Valley, N. Y., the coming year. Last term Miss Hendrickson was at Niles, where she taught music and drawing.

New Ideas in Clothing

Gents' Furnishing Goods

Represented in our up-to-date stock. We make a specialty of DEPENDABLE GOODS, representing the latest styles and absolutely the best makes.

L. W. ATKINS & CO.

She will teach the same subjects at Little Valley this year.

The Ishpeming girls who were in attendance at the summer session of the Northern Normal at Marquette went down Wednesday evening to take the regular county board examinations.

Joseph Atwell tent, No. 937, of the Junior Order of Reclusians will hold their annual basket picnic this year at the Cleveland Park, August 10th. Cars will leave Ishpeming for the grove at 10 a. m.

L. Biesonette and family left for their home in Hancock yesterday afternoon. They were called to the city to attend the funeral of the late Mrs. Marie L. Jacobs, which was held in this city yesterday morning.

H. J. Wessinger, chief mechanical engineer of the Oliver Iron Mining company, was here yesterday from Duluth looking over the machinery at the company's local properties. Mr. Wessinger left last evening for Milwaukee.

A number of the lady friends of Mrs. John Brown surprised her at her home on Maple street Wednesday afternoon. A dainty luncheon was served during the afternoon and Mrs. Brown was presented with a handsome mission chair.

Mrs. M. E. Brighton, librarian at the Carnegie library, has returned from a vacation trip to points in Wisconsin. While away Mrs. Brighton visited a number of the Wisconsin libraries and found that the system in vogue at the local library is the equal of any she visited.

F. W. Farmer, of Menominee, state manager of the Brotherhood of American Yeomen, was in the city yesterday, visiting the local branch of the society. The Ishpeming Homestead was started in this city about a year ago, and now has a membership of one hundred and fifty. About one hundred members will be initiated at the next meeting.

Rheumatism

Have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn heavy grown backs to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a powerful, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual cause to suffer longer without help. We sell, and in confidence recommend

Dr. Shoop's Rheumatic Remedy THE STAFFORD DRUG CO.

Negaunee Department

INCENDIARY BLAZE
Fire Discovered in Mrs. Sheehan's Barn at an Early Hour Yesterday.

Fire broke out at 1:30 o'clock yesterday morning in a barn at the rear of Mrs. Sheehan's residence on Case street. It was making good headway when the department arrived, and but for its prompt appearance would have been destroyed, as it was well filled with hay. The entire population of the Fourth ward was awakened by the alarm sounded from the engine house and the water works. The fire blazed considerably and lighted up the sky. This is the second time in three weeks that a fire has originated in that neighborhood, the house owned by John Rock and which was being remodelled at the time having been damaged by a fire of unknown origin. It is suspected that the fire yesterday morning was started by an incendiary.

RETAINS HIS POSITION.
Captain Hoar Decides to Keep Superintendency of Shagawa Mines.

Captain Samuel Hoar, who was formerly interested in mining properties in this city, last week decided to give up his position as superintendent of the Shagawa mine, located on the Mesaba range, but he has reconsidered his decision and will remain in charge of the properties.

Captain Hoar removed to the Mesaba range about six years ago, and since that time has had charge of several important mining developments. At the time of his resignation he was opening up the shaft at the Shagawa mine, at Ely. Captain Hoar did considerable work in Negaunee and vicinity. He opened the Star West mine southeast of the city, which was afterwards purchased by the Breitung people. He also was in charge of the Lily mine, and did considerable exploratory work there. Captain Hoar is best known for the invention of a sand shaft sinking device which he designed in conjunction with J. H. Billings of Ishpeming.

CLAIM LAW IS ILLEGAL.

A number of Negaunee sportsmen maintain that the law relative to the closing of the brook trout fishing season is unconstitutional. The law changing the season was passed near the close of the last session, on June 28th. The fishermen maintain that the law is retroactive as it was given immediate effect, and that it should not be enforced until next season. As the law is interpreted by the state game warden the present season closes August 15th, irrespective of the date upon which it opened. A Negaunee attorney when asked his opinion yesterday said: "The law is not illegal nor is it an ex post facto law. The legislature simply repealed the previous statute, and did not make any act criminal which was not criminal before."

COWS DID DAMAGE.

Considerable damage was done to a thriving field of oats on Charles Muck's farm near the city Wednesday night. Some person opened the gates, and a herd of about twenty cows feasted their fill on the growing grain. They were discovered in the field yesterday morning. Mr. Muck had them corralled and sent to the pound, where they are now being held, pending the approach of the owners, for whom Mr. Muck will have a considerable bill of damages, for the cows destroyed much grain.

SPRUNG HOAX ON HIS FRIENDS.

Engineer Steeds, of the Northwestern road, who was reported to be shot in the nose while passing the gas house Wednesday afternoon, worked a hoax on his friends. He was passing the gas house on his engine when a youngster pointed a Flobert rifle at him. The engineer stopped his engine and started in pursuit of the boy, who in his haste, dropped the gun. Mr. Steeds picked it up and while he was breaking it upon a pile of pipe the barrel hit him in the nose.

MARRIED TUESDAY EVENING.

Richard Jones and Miss Glanville, daughter of Johnson Glanville, were married at the home of the bride's parents Tuesday evening. Miss Eva Jane was the bridesmaid and Johnson Glanville, Jr., a brother of the bride, acted as best man. The ceremony was performed by the Rev. Coombe, of the Mitchell M. E. church. Mr. Jones formerly lived in Ishpeming, but is now located on the Mesaba range. The couple left on the midnight train for the range, where they will make their home.

WILL PICNIC SUNDAY.

The members of the Negaunee fire department will hold a picnic, for firemen only Sunday. At the joint meeting and smoker of No. 2 company Wednesday evening a committee was appointed to complete the arrangements. The picnic is an annual affair, and is always largely attended by the members of the department. About thirty-five were present at Wednesday evening's smoker.

MARQUETTE & SOUTHEASTERN RY

Sunday, June 9th, the summer schedule of the M. & S. E. R'y. goes into effect. Sunday trains will leave Marquette for Princeton and Munising at 8:45 a. m. and 6:20 p. m. For Negaunee and Ishpeming, 10:15 a. m., 3:55 p. m. and 8:20 p. m. For Birch and Big Bay, 8:50 a. m.

Sunday trains will arrive from Princeton and Munising 10:10 a. m. and 8:10 p. m. From Negaunee and Ishpeming 8:35 a. m., 2:30 p. m., 6:10 p. m. From Birch and Big Bay, 7:20 p. m.

Week day trains, No. 10 leaves Marquette for Munising and Princeton 6:45 a. m.; No. 31 for Birch and Big Bay 8:50 a. m.; No. 1 for Negaunee and Ishpeming 9:00 a. m.; No. 4 for Munising and Princeton 5:35 p. m. Week day trains arrive at Marquette, No. 1 from Princeton and Munising 8:45 a. m.; No. 32 from Birch and Big Bay 4:50 p. m.; No. 11 from Munising and Princeton 3:30 p. m.

WILL AND ROBERT YATES went down to Little Lake yesterday morning for a few days camping trip. The former will leave Sunday evening for Cincinnati, where he is now located.

Miss Ella Babcock, who is on her way to Yellowstone Park is visiting with friends in West Duluth for a few days. Miss Babcock will spend the next month sightseeing in the west.

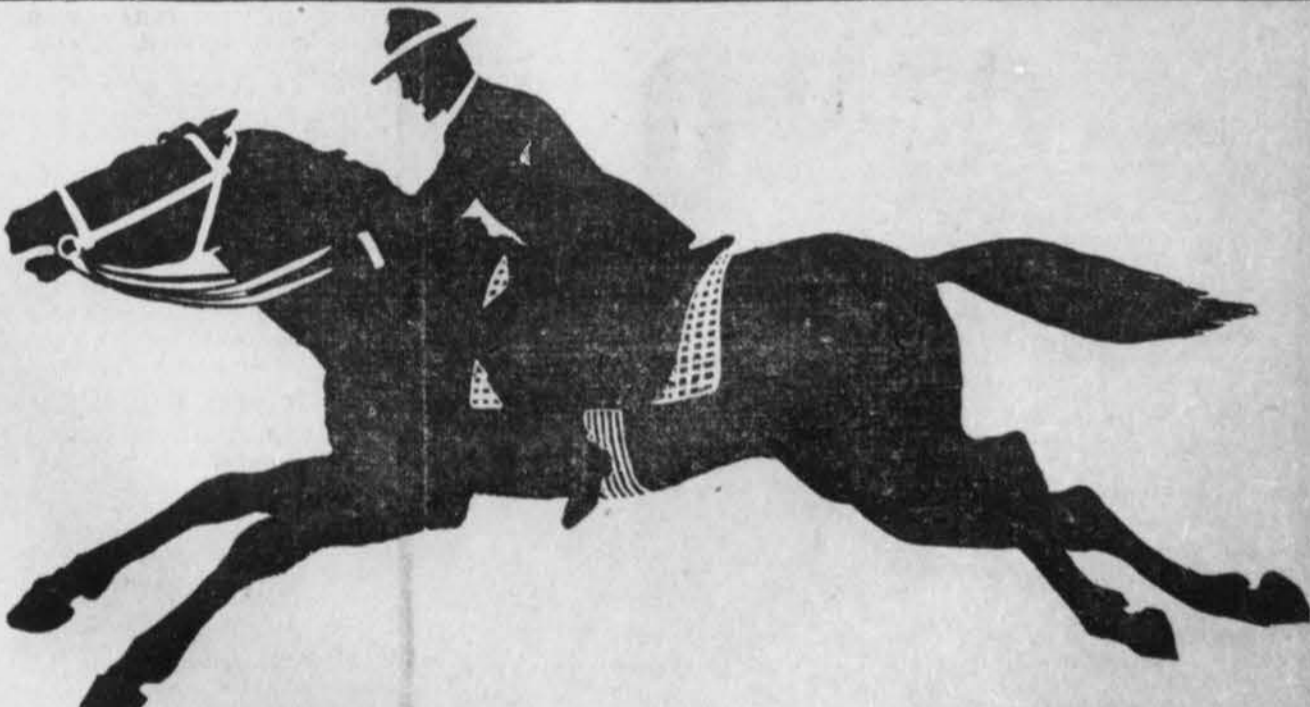

The merry-go-round, which has been at Ishpeming for the past month, has been moved to this city and is now in operation on the lot south of the Northwestern tracks on Iron street.

Mrs. Charles Simons and three children, who were detained for several days at Ellis Island in New York, arrived in the city enroute from England Wednesday evening. They came to join Charles Simons, who has been a resident of the city for the past five years.

A tent organization put on the exploits of the Younger Bros. in the city last evening. There was a street parade at noon and the company played to tent's capacity in the evening. The company arrived from Marquette yesterday morning, with a carload of scenery and tent paraphernalia.

"Former Alderman Kuschbert and George Pass, the chauffeur, were killed and Horace Sloan was fatally injured, the result of an automobile accident at Brookfield Corners early today, the machine containing the men going into a ditch."—Press Dispatch, yesterday. Former Alderman Kuschbert was a cousin of Joseph Stuss of this city.

The Marquette County Gas company's electric lights in this city were out. A commission for about half an hour Wednesday evening, owing to an accident at the power house. The company has been making extensive improvements there during the past week. A new generator arrived the early part of the week and will be installed at once. At Ishpeming the Harvey Dramatic company were forced to continue the second and third acts of their play in partial darkness.

Don't Ruin Your Best Horse Going for a Doctor

Bowel complaints are always more or less prevalent during the Summer months, and many a man has ruined his best horse going for a doctor when some of his family was suffering from cramp colic or cholera morbus. Be prepared for such an emergency.

Chamberlain's Colic, Cholera and Diarrhoea Remedy

Is the most successful medicine yet produced for these diseases and can always be depended upon. No doctor can prescribe a better medicine. It is almost certain to be needed before the Summer is over. Buy it now.

TUXEDO CLUB 10c CIGAR

SAY AUTOMOBILISTS DISREGARD THE LAW

GO SIXTY MILES AN HOUR BETWEEN MARQUETTE AND NEGAUNEE, IT IS SAID.

ARRESTS ARE TO BE MADE

Township Official Who Makes Investigation Expresses Surprise That No Accidents Have Happened.

Complaints that speeding automobiles daily endanger the lives of all those who use the road from Marquette to Negaunee, have been made to the county authorities, and it is said that a number of arrests will be made if the laws governing the use of automobiles on the roads are not observed.

Sixty Miles an Hour.

It is charged that a majority of the automobilists who have recently made use of the road, show a scornful indifference for the rights of drivers and others they meet on the road. The machines, it is said, frequently pass teams at a rate of from forty to sixty miles an hour, leaving frightened horses and often terrified women, occupants of vehicles, to struggle as they may, and at the rare times when it is possible to utter complaints to the occupants of the speeding automobiles, these go unheeded.

The law specifically requires that machines shall not run at a rate of speed greater than is reasonable and proper, and that regard shall at all times be paid to the safety of persons and property on the road. In no event is it possible to lawfully go faster than twenty-five miles an hour, and this rate, it is said, is the minimum now of most of the machines that habitually use the road.

Law Violated.

It is also provided by the law that the speed within the corporate limits of all cities and villages shall not be more than eight miles an hour in business portions, and not greater than fifteen miles an hour in other portions of cities and villages. It is charged that the machines running between Marquette and Negaunee, not only violate the law on the county road, but also continue their high rate of speed long after they pass the corporate limits.

It is said also that drivers of automobiles wholly disregard that part of the law which requires that machines shall be under complete control upon approaching intersecting highways, bridges, curves and steep descents.

The law also requires that machines shall slow down when approaching teams or foot passengers, and shall, if requested, stop if necessary to avoid danger.

Would Cause Laughter.

Another provision is that male occupants of machines must, if requested, give aid to team drivers and others they meet. Under present conditions, if such a request were made, it would probably provoke only astonished merriment from many automobilists, it is said, and specify they would disappear in a cloud of dust.

A Township Official whose attention was recently called to the flagrant violations of the law, stated that he would take steps at once to check the reckless traffic, and after an investigation, he expressed surprise that serious accidents on the road had not been reported.

THE LATE JUDGE F. M. FINCH.

A Prominent Ithacan, Author of "The Blue and the Gray."

Judge F. M. Finch, poet, patriot, jurist and scholar of Ithaca, N. Y., who died at his home recently, was one of the prominent figures of the nation. He was the father of the late R. B. Finch of Marquette, who was secretary to W. B. Fitch, president of the South Shore Railroad company, and who died several years ago at Superior. Judge Finch's daughter-in-law, Mrs. R. B. Finch, is a resident of Marquette. She is now in Ithaca where she went to attend the funeral. The following report of Judge Finch's death is taken from the Ithaca Daily Journal:

"Today a reverent and reunited nation pauses to do homage at the bier of Francis Miles Finch. In the troublous days of reconstruction, his tender, sympathetic laud, 'The Blue and the Gray' wrought a sorrowful and severed people into a common bond of grief.

"The republic has cause to remember another great Ithacan not only as a lyric poet and patriot, but as a citizen, a noble member of an honorable profession and a teacher of high ideals. For decades the acknowledged leader of the Tompkins county bar, an ornament to the bench of the highest court in this commonwealth, foremost in public service as he was in ideals and courtesy.

"He had been ill with stomach trouble since the first of May, when he was forced to take to his bed and from that time his strength steadily failed. Finally, with his two daughters and his brothers at his bedside, he bade farewell to earth.

"Judge Finch is survived by three brothers: Ferris Finch of Gloucester, Mass.; W. F. Finch and Dudley F. Finch, of Ithaca; and two daughters, Miss Mary S. Finch and Miss Helen E. Finch of this city. Mrs. Finch died March 29th, 1892. She was Miss Elizabeth A. Brooke, of Colchester, Conn.

"While in the old Ithaca academy the future poet and patriot, counselor and jurist, scholar and teacher, made a magnificent record as a student. He already began to show the persistence of will, the gentleness of manner, the refinement of sensibilities and the brilliance of intellect which characterized his later career. At the early age of eighteen he was matriculated at Yale.

"In his early manhood, he took a great interest in civic affairs. Always an intense patriot, it was natural that he should be a staunch Republican. In 1869 his political activity was rewarded by an appointment as United States internal revenue collector for this district. After composing the 'Blue and the Gray' he was made an honorary member of the Army of the Potomac.

"His influence as an advocate resulted

in his elevation to the bench of the court of appeals as an associate judge from 1880 to 1896. And he served as dean of the Cornell Law school from 1896 to 1903.

"Judge Finch's poetic ability has enriched the anthologies of the university and city as well as those of the nation."

VOTING CONTEST AT THE KERMIS TONIGHT

MOST POPULAR DANCE AT EPISCOPAL MERRYMAKING TO BE CHOSEN AND THE EVENT WILL CLOSE TONIGHT.

Had I the time and wit to write A poem or a ditty, I could not tell which maid to praise; They're all so sweet and pretty.

The Gypsy Queen delights my heart, I am the Rose-Queen's slave; And the Japs, I long to call them mine; O'er the Dairy Maids I rave.

I love the Queen of the Humble Bees, And the Irish who jig so well, And the Indians sneaking among the trees; They cast o'er me a spell.

The Yankee Doodles take my heart; The Dutch take all my breath; The Pickaninnies are so cute, They tickle me to death.

If I should vote for any dance— The thought doth me appal—I could not tell which one is best, So I'll have to vote for all.

Today is the closing day of the Kermis, and a number of extra features will be introduced at the two entertainments. Each performance is greeted with a larger and more enthusiastic audience. The excitement over the voting contest is nearing a climax. It would be a hard task to tell which will carry the banner tonight. Every dance on the program is now given with a smoothness which only experience under the trying glare of the footlights and under the gaze of many eyes can bring.

Favorite.

The dancers have improved nightly, especially those requiring precision and drill and on this account, the Japanese, the Hornpipe and the American drill have grown in favor steadily. The grace of the Gypsy Queen continues to delight everyone, and the spirited movements of her devoted followers make the dance one of the most brilliant on the program. The Dairy dance requires such an avalanche of vegetables, fruits and flowers, that Josh is obliged to work over-time weeding the stage. The Dutch as usual had a surprise party encore last night, and it is said that they have a still better one for tonight. The Skirt dance is perhaps the most difficult to perform and was splendidly executed by Miss Denny and Miss Stewart. The Pickaninnie song is one that everyone hums on the way home, and it is one of the best numbers. The Japanese were the recipients of many beautiful flowers.

Among those participating whose names were omitted when the program was made are: Miss Ethel Young, Gypsy; Miss Jessie McIntosh, Japanese; Miss Bernice Dwyer and Mr. Neil Van Horn, Hornpipe; little Miss Isabel Davis in the Teddy Bears and Roses and Bees. Miss Palmer had to substitute in the Japanese to fill a vacancy. Mr. Van Horn is also the indispensable Josh the farm hand.

Mexican Booth.

Mrs. E. N. Breitung has the left box for a Mexican flower booth and with her are Miss Ellen Shiras, Miss Alla Ramsom and Morgan Jopling. The booth in its festive red and green, the beautiful flowers, and the exquisite costumes combined make a pleasing effect.

The voting contest will close at 10 o'clock tonight, at the end of the intermission, and the outcome will be announced at the beginning of the grand march, the popular dance carrying a banner.

There is no complaint of hard times in the booths, and everyone has been very liberal. Mrs. Palmer in the Japanese booth has been selling dainty imported china in dozen lots. It is inexpensive and just the thing for teas. Miss Pen-dill's attractive fish pond has called forth many compliments. It is well stocked and the fish always bite. The well seems never to run dry no matter how thirsty people get, and the lemon trees are fortunately one that grows and ripens fruit in a night. Mrs. Morrison and Mrs. Hudson are kept busy supplying the smokers.

The Country store is doing a thriving business in home-made eggs. The wooden shoes offered for sale are whittled by genuine old Holland Dutchmen.

The pavilion with its varied attractions goes far to make the Kermis the most successful ever held in Marquette. Mrs. Pettie and Miss Palmer have ably demonstrated their executive ability, the size and extent of the undertaking being a great surprise to their friends.

Mr. Beachy, of the Beachy Co., has decided to remain at the Marquette Millinery Co. for Saturday. This will give the ladies a better opportunity to make their selection. (8-9-11)

TRY

the National Barber shop for first-class, quick service. GUY FRIESE, Prop. (8-8-11)

HUCKLEBERRY PICKERS.

Commencing Monday, August 5th, the M. & S. E. railway will put into effect a 25 cent rate for the round trip from Marquette to Eagle's Nest, (near Harlow's mill) and Eagle Mills, tickets on sale week days only, good for return day of sale.

Train for Eagle's Nest leaves Marquette at 8:50 a. m., arrives at Eagle's Nest at 9:20 a. m. Returning leaves Eagle's Nest 4:05 p. m., arriving at Marquette 4:50 p. m.

Train for Eagle Mills leaves Marquette at 9 a. m., arrives at Eagle Mills 9:30 a. m. Returning leaves Eagle Mills 4:40 p. m., arrives at Marquette 5:20 p. m.

These rates will give pickers a cheap rate to the huckleberry patches at Harlow's mill and Eagle Mills. (8-3-11)

TUXEDO CLUB

EVERY DENTIST IN STATE MUST PAY \$3

NEW LAW REQUIRES THAT THEY MUST FURNISH CREDENTIALS TO THE STATE BOARD.

TO RECORD ALL CERTIFICATES

County Clerk Is to Keep a List of All Practicing Members of the Profession in Each County.

Under the new dental law aimed at unlicensed and unregistered practitioners, every dentist in the state is affected and must pay a fee of \$3. Marquette members of the profession are now taking steps to comply with the more or less exacting provisions of the act.

Must Record Certificates.

Under the law no person after having received a certificate from the state board of dental examiners shall engage in practice until his certificate is filed in the office of the county clerk in the county in which he practices. The county clerk is required to keep a record of all certificates in a special book for the purpose and the fee for recording certificates in this book is fifty cents.

It is also required of the county clerk that he shall send a list of practitioners who have recorded certificates with him to the state board on July 1 each year.

Another provision of the act is that a certificate becomes void after six months if it is not registered with the county clerk, and a new certificate can only be obtained by the payment of \$25. The following excerpt from the act shows how it affects all practitioners throughout the state:

All Are Affected.

"In order that a complete register of all the dentists practicing in this state at the present time may be made, within sixty days after this act takes effect, it shall be the duty of every dentist at present practicing in the state, whether legally licensed or not, or otherwise, to forward to the board of dental examiners an affidavit setting forth the facts of his registration or the credentials upon which he may claim registration.

"This application shall be accompanied with a fee of three dollars, which shall be deposited in a special fund to be used only by the board of examiners for the enforcement of this act against unlicensed or unregistered practitioners. No license or certificate of registration which once forfeited, for any reason, shall be registered, except upon the payment to the said board of dental examiners of the sum of twenty-five dollars as a penalty for such neglect, failure, refusal or misconduct."

These familiar with the workings of the law say that the first step to be taken by dentists is to write to the secretary of the state board, Dr. E. A. Honey of Kalamazoo, Mich., and apply to him for blank affidavits.
