And we still have to remind the city of Marquette that its West Washington street is the worst in all the county round about...

A new enactment of the legislature compels owners in horse-hauled vehicles to, under certain conditions, give the right-of-way on country roads to automobiles.

There has been criticism of the park, cemetery and street commission, which was replied to at some length in The Mining Journal Saturday.

Governor A. B. Cummins of Iowa glories in the title of agitator, and well he may. His particular fancy is tariff reform.

As the Mining Journal showed Saturday, there is considerable difference of opinion as to just what Representative Gordon's law for the regulation of the liquor traffic in Marquette means.

Abilene, Kan., Aug. 11.—The gathering of the great wheat crop in the plains region is attended by much that is unusual and interesting. The farmers of central Kansas are looking for a crop "expert" who drifted into this section last May, when the outlook for wheat was poor.

They have received no reply. The papers give a good deal of attention to the college boys who go out into the fields for the summer. One of the heads of the English department of the State University left Lawrence early in the month and looked over the land where the wheat field comes up to the edge of the city limits.

Water Wheel Lost—Marquette's new water wheel is lost somewhere between the city and Dayton, O. The wheel was shipped July 29 and it was expected that it would arrive in Marquette some time this week. Officials of the electrical department were unable Saturday to locate the wheel's present whereabouts by wire, and further efforts to find it are to be made today.

Close Game at Champion—A ball team representing the Baraga school of this city tried conclusions at Champion yesterday with the strong club of that place, and was defeated in a ten-inning game by the score of 8 to 7. A big crowd witnessed the contest, and there was much enthusiasm. A fielder's error when two men were out was responsible for Champion's victory. The batteries were: For Marquette, Bennett and Theobald; for Champion, Fox and Blaney.

Had Fine Catch—Joe Smith brought a fine catch of trout from the Chocoye last evening. It comprised eighteen fish, weighing in all about twenty pounds, and included one weighing three-and-a-half. The smallest fish ran about half a pound. Joe says that there was only

one other fisherman on the river, and he had but one trout. He mourned one of the numerous tribes of big fellows which got away, the man manipulating the landing net having thrown it clear over the boat. Joe's catch was one of the best of the entire season.

FUTURE OF ROOSEVELT.

May Be Senator, College President or Even a Congressman.

Oyster Bay, Aug. 11.—If President Roosevelt is planning to succeed Mr. Platt in the United States senate in 1909, as was reported from the political gossip's headquarters in New York the other day, no confirmation of the story was obtainable at the executive office. Neither could a denial be secured. Secretary Loeb refused to make any comment on the story beyond remarking that it was "a pretty old yarn" and the weather was hot.

The succession story is not a new piece of political prophecy by any means. It has appeared in various forms at various times since the night of last election, when the president said positively that he would not be a candidate to succeed himself.

The fact that the president has sometimes said to his intimates during his frequent traves with congress, "I'd just like to be in the senate," or "I'd like to be in the house to fight this thing on the floor," has given the future makers an opportunity to assert with more or less show of probability that if the opportunity offered the president would gladly accept a seat in the senate. He made a brilliant record in the New York legislature, and there is every reason to believe that if the political or patriotic necessity arose he would make even a greater record in the more important law-making body.

Just about as often as the succession-to-Platt story has been sprung, the report that the president is to become head of Harvard University has found its way into print. Whether the president is to become senator, congressman, college head, business man or builder of the Panama canal after his term of office expires, will in all probability depend purely upon circumstances. Up to within a few weeks, it may be said, with authority, the president had not made any plans on the subject, and it is not at all probable that since coming to Oyster Bay for his vacation he has been able to come to a more definite decision.

If he believes that the party interests as well as the good of the state would be served by his assuming the toga relinquished by Thomas C. Platt, it is likely that he will become a candidate for the senate. If, on the other hand, when the time for his retirement from the White House comes there is ample senatorial material at hand, it may be that he will prefer to take a long and well-earned rest.

PEST ATTACKS PINE TREES.

Timber Growth in Many New Hampshire Districts Badly Infested.

Nashua, N. H., Aug. 11.—The timber land owners and other lumber men of New Hampshire are worried over the appearance in the extensive white pine tree districts of the state of a blight whose depredations have been reported from other infested sections as extensive. The pest has attacked saplings, seedlings and timber growth alike in the Pemigewasset Valley, but has not yet made its appearance in the large forests of the White Mountains. In the trees which it has infested it has been noticed that the leaves or needles take on a red tinge which later develops to a deep red color. The pine tree has hitherto been regarded as immune from natural enemies and diseases and the appearance of this pest has occasioned many doubts as to the truth of the belief. In order to find out samples of the work of the blight have been sent to the state college for inspection. The lumbermen are anxious to know whether there is any likelihood of the disease spreading to the timber itself and thereby destroying its market value. If this is found out to be the case many of the owners have expressed their intention to cut the trees at once, as the destruction would cause a great loss to them.

"I Wish I Could" ---- "I Will"

The first expression is that of failure; the second of success. People are often heard to remark that it is impossible for them to accumulate anything. There are few things that are impossible of accomplishment and saving is not one of them. All that is necessary is a little determination; a little of the "I WILL" spirit.

No matter how small it is, there should always be some margin between income and expenditure. An ounce of action is worth a ton of "I'LL THINK IT OVER." Start a bank account and with effort you will soon acquire the saving habit.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co. telegraphed from New York Saturday as follows: "There was considerable apprehension displayed over the possible results should the telegraphers strike spread, as it would undoubtedly serve to aggravate an already threatening situation. The stock market was very weak today, with buying confined only to the demands of the bears, who continued to be very aggressive. The bank statement was not as good as expected, the loss of five millions in cash being a very disagreeable feature, and after its appearance the market weakened further, although right on the close there was evidence of short covering on a large scale. The banking interests have not shown a disposition to protect the market to any great extent, which has served to encourage the bears in their rabid onslaughts. It seems as though the market is destined to sell lower, in the absence of inside support, although the situation intrinsically does not seem to warrant much lower prices."

Table of stock prices including U.S. Steel, Anaconda, and various other companies.

Boston "Coppers."

Writing from Boston Saturday, Paine, Webber & Co. said: "The market became panic stricken again today and the break was sharp with no pretense of a rally. The big interests apparently are tipping out stocks and making no attempt to head prices. Unless something is done over Sunday we shall have much lower prices next week. The coppers are acting better than the railroads, but they are very weak."

Closing prices were:

Chicago Grains.

Saturday's closing prices on the Chicago Board of Trade were as follows: September wheat, \$1.74 1/2; September corn, \$1.42 1/2; September oats, \$1.22 1/2.

Concerning the wheat market, Paine, Webber & Co.'s Chicago correspondent said: "A large element in this trade, which is purely speculative, took advantage of the crippled condition of the telegraph service this morning, and proceeded to sell everything in sight. This element felt there would be a certain amount of li-

IS 300 YEARS OLD

Episcopal Church to Celebrate Its Centenary at Richmond This Fall.

New York, Aug. 11.—Right Rev. Dr. Henry Montgomery, secretary of the society for the propagation of the gospel, has accepted the invitation sent him by the presiding bishop of the American church to attend the Episcopal church convention which will be held in Richmond, Va., in October. As was announced some time ago, Rev. Dr. F. W. Ingraham, the bishop of London, will come to America for the Richmond convention, as will Right Rev. Dr. Edgar Jacob, the bishop of St. Albans.

The general convention in the autumn will commemorate the 300th anniversary of the founding of the Episcopal church work in the colonies, which was done under the jurisdiction of the diocese of the London and St. Albans, so that it is especially appropriate that the present occupants of these sees should attend this convention. It is also equally appropriate that the secretary of the oldest missionary society in England should be at this meeting of the general convention, not only because the convention will be a missionary convention predominantly, but also because of the great help which the society for the propagation of the gospel gave to the early church in America.

STANDARD OIL HIT AGAIN.

New York Grand Jury Indicts Both It and Railroads.

Stamford, N. Y., Aug. 11.—The Standard Oil company received another blow from the federal grand jury when it returned two indictments against it for accepting rebates. Two indictments for a similar offense were returned against the Vacuum Oil company, a subsidiary of the Standard.

Two indictments were presented against the New York Central and Pennsylvania railroads jointly and two against the railway companies separately. Altogether there are 228 counts, and total fines may reach \$18,240,000.

The indictments charge the oil companies with accepting and the railways with giving special and illegal concessions. The legal rate on petroleum from Clean, N. Y., to Norwood, Va., is 20 1/2 cents a hundred weight, while the rate charged on 228 cars was only 11 1/2 cents.

JUDGE IS TAKEN ON BENCH.

Texas Jurist Arrested in Court Room on Charge of Murder.

Houston, Tex., Aug. 11.—Judge H. B. Short was arrested at Center while holding court, under an indictment charging him with the murder of Dr. Michael Paul last fall. He was engaged in trying an important civil suit, but the arrest caused a postponement until he could give bond in the sum of \$5,000. Dr. Paul was one of a posse pursuing a negro, Dick Garrett. Garrett took refuge in the home of Judge Shore and fired upon the posse, killing Dr. Paul. Garrett had a preliminary trial, the courthouse being garrisoned with militia at the time, and was hanged for the murder. Judge Shore is one of the most prominent attorneys in eastern Texas.

WINS GOLF TITLE.

H. Chandler Egan Captures the Championship of the West.

Wheaton, Ill., Aug. 11.—Chandler Egan of Exmor won the amateur western golf championship from Herbert F. Jones of Wheaton, 5 up 4 to play, yesterday afternoon. He finished the morning round 3 up on the Wheaton player. The match stood 3 up in his favor in the twenty-seventh hole, but Jones won the twenty-eighth. After that Jones did not win a hole, Egan taking the twenty-ninth, thirtieth, and thirty-first holes in succession and winning the match and the championship on the thirty-second hole by halting the hole.

Officers in French Navy Declared Slaves to the Drug.

Paris, Aug. 11.—Opium, smoking among French naval officers possibly explains the recent numerous disasters to French warships, asserts Professor Jeanseume of the Paris faculty of medicine. "The habit has become so common among the officers that the minister of marine recently issued a circular forbidding opium smoking on board warship."

GREAT ELECTRICAL FEAT.

Powerful Searchlights to Illuminate Niagara Falls at Night.

Niagara Falls, N. Y., Aug. 11.—All preparations are about completed for the night illumination of Niagara Falls, regarded by engineers as the greatest feat ever attempted in electrical illumination. The scheme calls for nearly fifty large searchlights, several of them the largest of their kind and capable of throwing a beam of light 100 miles. The projectors are to be located below the falls in two batteries, one at the water's edge and the other on the high ground of the Canadian side. Every inch of the falls will be under light. Attached to the searchlights will be a recently invented color searchlight by which the beams of light can be made any color at will. The mist and the water will be bathed in all the colors of the rainbow, producing a most gorgeous effect.

15-YEAR-OLD GIRL A HEROINE.

Marinette, Wis., Aug. 11.—May Durler, the fifteen-year-old daughter of J. P. Durler of Oshkosh, saved the seven-year-old girl and the eight-year-old boy of John Ries of Oshkosh from drowning in the Peshtigo river, near which the Durler and Ries families were camping. The children were playing in a boat and fell into the water.

APPLETON, WIS., AUG. 11.—The year old son of Louis Heinz drowned last evening by falling with his head in a pail containing only four inches of water.

OLD RESIDENT DEAD.
Mrs. Harriet Hamblin Palmer Passed Away at Her Home Saturday.

Mrs. Harriet Hamblin Palmer, wife of the late F. E. Palmer, died at her home on North Main street Saturday afternoon. Mrs. Palmer had been a semi-invalid for the past four or five years and for the past few months had been steadily sinking. Mr. Palmer, husband of the deceased, died in Ishpeming the early part of January of this year. Mrs. Palmer was seventy-five years of age.

Mr. and Mrs. Palmer came to Ishpeming about twenty-five years ago, and prior to that they resided at Eagle Harbor, during the early days of the village. Mrs. Palmer is survived by one sister, Mrs. Phoebe J. Russell of Detroit. L. V. Palmer, a brother-in-law of the deceased, arrived in the city yesterday morning from Duluth. Miss Della Palmer, his daughter, had been living with her for the past eight months. The deceased was a member of the Ishpeming Presbyterian congregation for the past twenty-three years.

Services will be conducted at the family residence tomorrow afternoon at 1 o'clock by the Rev. M. M. Allen, of the Presbyterian church. The body will be taken to Marquette at 1:50, the burial taking place from the train in that city.

CIRCUS TOMORROW.
Norris & Rowe's Big Show Will Exhibit on Third Street.

The greater Norris & Rowe's circus, museum and menagerie will put on two performances in this city tomorrow. The circus will exhibit this afternoon and evening at Marquette and will come over tomorrow morning on the Lake Superior & Ishpeming railroad. There will be a street parade at 10:30 o'clock.

The show played in Hancock Friday. The following is an account of the performance taken from the Hancock Gazette:

"The greater Norris & Rowe circus, museum, menagerie and hippodrome, made its appearance in this city yesterday, gave two well attended exhibitions and pleased many. The show has a number of novel acts, and keeps moving in an interesting way from beginning to end. There are no wasted minutes. Everything was kept quickly moving and good management was shown in every detail. The small boy was very much in evidence, and found all the things he delighted in. The time honored parade was not given because of the late arrival of the show from Mass City. There was everything on the grounds, however, to show that a splendid parade could have been given had the circus arrived on schedule time.

"The side show contained a number of freaks of nature and odd curiosities. The menagerie was a very fair one indeed. In this tent one could see excellent specimens of lions, tigers, hyenas, bears, pumas, kangaroos, leopards, badgers, deer, elk, monkeys, elephants, llamas, camels, dromedaries, sea-lions, wolves, panthers. Here also were kept the curiously spotted Arabian horses, racing thoroughbred stock and performing Shetland ponies, while out in the horse tent was a fine collection of heavy draft stock that made many a farmer's eyes glisten. In the big tent proper was given a creditable exhibition of bareback, trick, fancy, high school and menage equestrianism, trapeze performances, high wire acts, flying acts, casting acts, feats of juggling, contortion, aerial horizontal bars, long and high leaping contests and the always exciting hippodrome races. Those who attended expressed themselves as well satisfied and it would be a person hard indeed to please who did not get their money's worth. The show is well conducted and furnished amusement for two large audiences at Ripley park. It will exhibit at Calumet today."

FROM HOPKINS' CURB LETTER.

"Today's market was weak throughout, caused almost entirely by the telegraphers' strike. There is no end in sight, and it is probable that the strike will continue indefinitely. In this event we will have a dull, uninteresting market with prices headed downward. With in thirty days some heavy consumers will be in the market. Crop movements will be financed without seriously disturbing the Eastern monetary situation as the Western banks are all in a strong position and instead of being borrowers in the East are lenders."

BOARD OF PUBLIC WORKS.
(8-10-11)

CUT OUT SPEEDING.
SAY AUTO DEALERS.

Legislation is Wanted to Regulate the Pace—\$25.00 for Danger Signs.

Milwaukee, Aug. 11.—"Speeding in road work simply ruins the automobile business, because it intimidates the public. Some people who would be the best customers of the manufacturers of automobiles will not buy machines because those who indulge in reckless driving on country roads make automobile driving dangerous pastime," said A. R. Miller, one of the best known automobile men in Milwaukee.

"I have been associated with some of the best men in the automobile business for more than ten years," he continued, "and every one of them is, and always has been, bitterly opposed to speeding autos in road work. The only excuse for the formation of automobile clubs and trade associations has been to educate motorists away from the bad practices of reckless driving.

"Individual motorists can accomplish but little to prevent fast running, but our organizations are doing a lot of good, some of which is not yet apparent. We are taking a decided stand on the speed question, and we will secure legislation which will regulate speed in the country, and do it effectually.

"With the help of some other automobile men, I have succeeded in preventing the proposed speed contest for a prize, which was planned to be held for the purpose of reducing the three-hour record between the Auditorium, Chicago, and the Hotel Pfister, Milwaukee.

"You may say that my experience, and the experience of every other automobile man, has proved that the majority of automobile accidents which occur can be laid at the door of two classes:

"First, people who recently have purchased cars and are not competent to drive them at the rate of speed they try to make in imitation of others.

"Second, people who try to drive autos and run races over the country when they are drunk.

"It rarely happens that an auto will

fall apart or anything happen to the machinery that would cause an accident unless the driver is violating the speed ordinances."

Thomas B. Jeffrey, Kenosha, has made an appropriation of \$25,000 to purchase signs which will be placed at all country road corners and dangerous turns and crossings throughout the organization which will be printed the nature of the danger at each particular point and give notice to motorists of the highest speed which should be maintained there. The signs also will give information as to the mileage between towns.

WILL SEND OUT LECTURERS.
Catholic T. A. U. Plans to Spread the Doctrine of Temperance.

Cleveland, Aug. 11.—According to reports read at today's session of the Catholic Total Abstinence Union the organization now has a thousand branches and over a million members. A lecture bureau will be established and the doctrine of temperance spread among Catholics in all parts of the United States.
