

SAYS JAPANESE ARE INVINCIBLE

Professor Starr of the University of Chicago Warns Uncle Sam to Keep Peace With the Little Brown Men.

Yankees of East Would Triumph in War With Any Nation, He Proclaims—Says Mikado Has Right to Forcibly Resist Exclusion, and Asserts That Commodore Perry's Example Set in 1853 May Be Used Justly Against America.

Chicago, Aug. 12.—Warning against a war with Japan was sounded by Professor Frederick Starr of the University of Chicago in an address on "Japanese Questions" at the morning meeting of the Abraham Lincoln center. Not only did he tell the United States to keep out of difficulties with the little brown men, but he predicted dire things for any European army which might be sent against them in war.

There is little danger of a conflict between the United States and Japan, however, he declared, unless it is precipitated by the United States; but if it does come, he hinted that Japan would prove the victor. Professor Starr did not pose as an advocate of the "yellow peril," but declared "there is no such thing as the yellow peril unless we insist upon it."

Mikado in the Right. The speaker said that since the United States had insisted, by force of arms in 1853, that Japan give up its policy of exclusion, the latter had now the same right to use force in opposing exclusion in the United States.

Incidentally he reiterated his belief, expressed to his university classes a few weeks ago, in the greatness of Russia's future. With one route blocked in the Orient, he declared that Russia would push south and ultimately seize India.

Professor Starr was in Japan during the Russo-Japanese war, and he made extensive studies, both of an anthropological and political nature. In his address he said, in part: "It is not true that July 14, 1853, the date upon which Commodore Perry opened Japan to the United States, is the birthday of modern Japan. Modern Japan has had 207 years of life, and all the progress that we admire has not been made in the last thirty or forty years."

"We are after the dollars. We had no general moral interest, and cared nothing about Japan's past or future, except as to how much it would buy and sell with us. There is no particular reason why the Japanese should love us. We forced the doors open; we forced mission-aries and traders into their country; then other countries followed until the country was overrun with foreigners. The Japanese were humiliated by their treatment for thirty years, until in 1869 Japan was finally recognized as a party to the comity of nations and given the same rights as Italy, Spain and Portugal."

WANT THE WORLD'S BIGGEST IRONCLAD

United States Naval Designers Propose the Construction of a Battleship of Forty Thousand Tons Displacement.

Washington, Aug. 12.—A report that the British admiralty is about to build a fighting ship greater than the famous Dreadnaught is still agitating naval circles to a marked degree.

It is difficult to secure information respecting the plans for this ship, and it is said that the British government is again proceeding, as it did in the case of the Dreadnaught, to build the vessel behind closed gates.

Eventually, of course, the main characteristics of war vessels built under these conditions become known, but the British government feels that it is amply repaid for the trouble it takes to build the ship secretly by the fact that the British navy is thereby kept at least two years ahead of that of any other country in point of design, a most desirable consideration in these days, when a battleship is frequently obsolete in the course of five years after going into commission.

It is understood that the new ship is to be of no less than 30,000 tons displacement against 20,000 tons of the Dreadnaught; but, aside from the mere matter of superior size, the design is believed to include many novelties, some based on the experience of the Dreadnaught.

Such a one, for instance, is understood to be the contemplated assembling of three guns in each turret, so that the ship equipped with six turrets she will carry no fewer than eighteen guns in her main battery. The caliber of the guns, however, will, it is believed, remain at twelve inches, the present standard.

The report of the British plan has caused some of the holder spirits among the American ship designers to proceed to greater length and to propose the laying down of a battleship of 40,000 tons displacement, placing the American navy clearly in the lead.

Naval Designers Willing. Naval designers are believed to be willing to undertake the construction of such a ship. It would cost no less than \$20,000,000, but in view of the predominance it would give America as a naval power, it is argued by the advocates of the proposition that such a ship would be an economical investment by tending to insure peace.

DETROIT LOSES

Detroit, Mich., Aug. 12.—The Tigers dropped the opening game of the home series with Connie Mack's Athletics today. The score was Philadelphia, 7; Detroit, 4. The victory puts Philadelphia four points in the lead in the league through Detroit is second now, with a percentage of 604; Philadelphia has 608.

WIRE SILENCED. Detroit and Duluth Operators Now Joining the Strike, Upper Michigan Is Left Without an Outlet—Even the Special Service of the Brokers Suspends.

The demoralization resulting from the strike of the commercial telegraphers, employees of both the Western Union and Postal companies, which had its inception at Los Angeles last week and quickly involved Chicago and other leading centers, became still more serious last night and by this morning there will be practically a complete paralysis of the telegraph business the country over.

Except for local communication between the various offices, it is likely that the wires will be silent today throughout the country. As this region is concerned, when the Chicago men went out Milwaukee furnished the principal outlet. The Milwaukee men joined the strike Saturday, and this left only Detroit and Duluth to handle the business.

Up to last evening the special wire service of the brokerage houses had not been affected. Today, however, even this business will be suspended. Their demands refused, the operators in the employ of the big stock exchange and board of trade centers will join in the walk-out this morning—this at least was understood last night, when word also came that the telegraphers on the payrolls of the press associations had seen fit to join the movement.

The commercial operators at Washington deserted their keys yesterday afternoon, and it is reported, although not confirmed, that the 2,000 union men at New York have done likewise.

The railroad operators are not directly involved in the present trouble, but they are prohibited from handling commercial business of whatever nature. Orders to this effect were transmitted yesterday from the headquarters of the international union.

Wage Increase a Motive. There is more at stake for the telegraphers than the refusal to work with non-union telegraphers. Before the strike is terminated keymen and keywomen assert they will receive an advance of 15 per cent in wages. This demand, often made and as often rejected, has been the "hottest" of the country. The strike has been brewing for months. The operators declare they are underpaid.

TARIFF ISSUE IS LAID ASIDE

President and Party Leaders Unite in Agreement There Be No Tinkering With Schedules by the Present Congress.

Nothing Shall Be Done Until Roosevelt's Successor Is Installed, It Is Decided—Extra Session Will Then Be Called, and the Strenuous Work of Revision Will Be Taken Up in Earnest—Commission of Inquiry Is Entirely Unlikely.

Washington, Aug. 12.—When Senator Lodge declared there would be tariff revision by the Republican party immediately after the inauguration of the next president in 1909, he spoke with the full approval of President Roosevelt and the leaders in both houses of congress.

There will be no tinkering with the coming congress, but preparations will be made in anticipation of the important work which will be thrust upon its successor, the Sixty-first congress.

Commission Is Doubtful. There will be a renewal of the suggestion for the appointment of a commission to consider the entire question of the tariff, but it is extremely doubtful if it will be adopted because of the feeling that congress itself should deal directly, and not through an intermediary, with a matter so vital to the interests of every person in the republic.

Proposals will be made to modify the customs administrative act so as to destroy the doctrine of the export price which the North commission incorporated in the German reciprocity agreement. These also are likely to come to naught.

Is View Held by Roosevelt. Congress will keep its hands off until the successor to President Roosevelt is installed in the white house, and then, if he is to be a Republican, a call for an extra session will be issued immediately, and the strenuous work of tariff revision will be begun.

The declaration of Senator Lodge may be accepted as an expression in the senator's words of the view held by the president, Secretary Taft, Secretary Root, postmaster General Meyer, and indeed every member of the Roosevelt administration.

LAST HANGING IN JERSEY.

After This Month Condemned Murderers Will Be Executed.

Flemington, N. J., Aug. 12.—John E. Schuyler, convicted of the murder of Manning Riley, has been sentenced to be hanged on Aug. 30. He will probably be the last person to hang in the state, as under a new law condemned persons hereafter are to be electrocuted. Schuyler was to have expiated his crime on June 28, but secured a stay by taking his case to the court of errors and appeals. The latter body refused to grant a new trial.

RUSSIAN SOCIALISTS IN LONDON. Move From Switzerland Because That Government Surrenders Them.

London, Aug. 12.—The Russian socialists will hold a conference here and outline a plan for continuing their work in the future and what steps they shall take to further their political movements.

Until now they held their meetings in Switzerland, but they are not safe there, as the Swiss government sends many Russian socialists back. They will move their headquarters to London. They will also publish their pamphlets and proclamations here. They will issue a paper in Russian and Yiddish. About 1,200 delegates are expected from all parts of Russia. It is said none will be nominated as a member of the duma who has not been arrested twice as a political prisoner.

DISASTER AVERTED. Woman Flags Train Just in Time to Prevent It Going Through a Bridge.

Chicago, Aug. 12.—The presence of mind and prompt action of Mrs. Minnie Hartshull, forty years old, a cook for a railroad camp at Hart, Mo., prevented a disaster and saved the lives of a hundred passengers in the eastbound Atholton, La. and Santa Fe, "California Limited" at an early hour Sunday morning, according to passengers who arrived in Chicago today.

The train was running at a speed of fifty miles an hour when flagged by the woman a mile distant from a broken bridge spanning a ravine fifty feet high over a creek many feet deep. The bridge broke when a weakened abutment gave way. Passengers saved by the woman formulated resolutions which were sent to the president of the road asking for a proper reward for the woman. They also gave her a purse of money.

MAY FORCE TRUST TO SELL CHEAPER

Significant Paragraph Included in the Latest Report of Commissioner Smith Dealing With the Standard Oil Monopoly.

Prosecution Is Hinted Designed to Compel the Combine to Cease Discrimination—Company Is Declared to Not Only Charge Excessive Prices Wherever There Is No Competition at Home, but to Give Foreigners Enormously Lower Prices.

Washington, Aug. 12.—Hints that the Standard Oil company is to be prosecuted by the government along an entirely new line—for discriminating in the prices it charges for oil—are given in the latest attack on the combine made by Commissioner of Corporations Herbert Knox Smith.

After exposing how the Standard company ship oil to Europe and sells it for less than in the United States and also how the corporation discriminates between localities in this country, Commissioner Smith closes his report to President Roosevelt with the following significant paragraph:

"By your direction, in view of the proceedings of the attorney general against the Standard Oil company, some of the more detailed evidence secured by the bureau regarding price discrimination is at present withheld from publication; and the same is true of evidence regarding other unfair practices, the most important of which are the maintenance of bogus independent companies, espionage by bribing railway employes to disclose their shipments, and deception as to the quality of oils sold."

The reference to the withholding of more detailed evidence "regarding price discrimination and other unfair practices" is believed to indicate that the attorney general contemplates starting proceedings against the Standard Oil from some new angle, possibly intended to force the company to treat all sections of the country fairly in the matter of prices and to see that Europe does not fare better than the United States.

Gross Discrimination Shown. The statement just issued by Commissioner Smith in his third report to the president on the methods of the Standard Oil. It shows not only gross discriminations in prices at home as compared with prices at which the Standard Oil sells its product abroad, but extraordinary differences in prices charged in many sections of this country or in different towns, its prices being always proportionate to the extent of its monopoly in a given place.

The evidence in overwhelming quantities is given that the Standard Oil company charges altogether excessive prices where it meets no competition, and particularly where there is little likelihood of competition entering the field, and that, on the other hand, it frequently cuts prices where competition is active to a point which leaves even the Standard little or no profit to the competitor, whose costs are ordinarily somewhat higher.

BOY BITTEN BY DEAD HEAD.

Jaws of a Decapitated Turtle Grab and Mutilate Him.

Cape Girardeau, Mo., Aug. 12.—The decapitated head of a large turtle, which weighed 135 pounds, proved disastrous to a young negro boy, Harry Conway, of this city, who attempted to handle the head soon after it had been cut off.

With a snap the ponderous jaws closed on his hand, and a surgeon was required to take numerous stitches.

Latin Is Taboo. Sculptors Must Do Their Work Over.

Secretary Wilson Makes Caustic Remarks on Seeing Inscriptions on the New Agricultural Building and Insists on the Use of "Plain United States."

Washington, Aug. 12.—Latin inscriptions must be taken from the new \$3,000,000 agricultural department building. Sculptors must do their work all over and use plain American words. Secretary Wilson has emphatically declared that the plain language of the United States is good enough for him.

On the north front of the new building are four pediments, in each of which are a male and a female figure, seated, with a shield between them. On these shields are inscribed the four words, "Fruitus," "Cereales," "Florestas," and "Flores."

Secretary Wilson recently came into the office of his assistant and friend, Dr. Galloway, chief of the bureau of plant forestry, who is also deeply interested in the plans for the new building, and in the course of their conversation the pediments were considered. These are in full view of Dr. Galloway's office.

WANTS BIG DAMAGES

Husband Spending His Wages on Liquor, Chicago Woman Sues Saloonists.

Chicago, Aug. 12.—Because she longed for her husband's society, and she his wages, and because he preferred the flowing bowl and the genial heart-to-heart companionship which follows the third whiskey straight, Mrs. Florence Conway, West Thirtieth street, has begun an action against three saloon keepers for \$30,000 damages for selling intoxicating liquors to her husband, John Conway.

Mrs. Conway had long borne with the disposition of her husband's wages in saloons and the lack of his society in the home, but when one of the saloon keepers tried to collect a bill for \$28 which he alleged her husband owed she rebelled and brought the suit on behalf of herself and her children, Harold, seven years old; Walter, four years old, and Leroy Conway, eight months old.

The defendants in the case are Michael Butler, George Conchesue, and Joseph E. Kebel. Mrs. Conway also asks that the court restrain Conchesue from pressing any claim against her for her husband's debts.

MAN WEDS AGAIN AT EIGHTY. Cincinnati Widow Becomes Missouri Veteran's Bride.

Cincinnati, O., Aug. 12.—In spite of the fact that Frank Clark, a Missouri war veteran, who went through the Civil War with Fremont's guerilla warriors in Missouri is eighty years old, today he took another wife, his first one having died. His bride was Mrs. Ida Trux, a widow of fifty-four, who lives in Cincinnati.

"A man is as old as he feels, and never too old to marry," says Clark. "Cupid, the oldest being in the world, isn't old at all."

Clark met his bride-to-be at a boarding house a few months ago. A trip to the old battle grounds will be their honeymoon.

VICIOUS WAR ON

Drivers of Automobiles at Pittsburgh Fear to Venture in City's Greatest Boulevard.

Pittsburg, Pa., Aug. 12.—There is fierce and bitter war between the owners of autos in Pittsburg and the ordinary pedestrian. So dangerous has become the actions of the people that the police have been appealed to to assist in maintaining down miscreants who are endangering the life and limbs of auto owners.

The entire Grant boulevard, longest of all boulevards in Pittsburg and the one most frequently used by autoists, is now almost entirely deserted because of obstructions which are placed there nightly to throw machines over the hill. The methods of those who attempt the wrecks are as finished and deliberate as those of practiced train wreckers, and there have been some bad accidents.

Piles of ties and timbers have been discovered at night on sharp curves, where there was nothing for the auto driver to do but run into it or steer to the side, which would throw him over the hill or into a stone wall. Many high priced machines have been wrecked, and the auto loving public is worried.

LOW WATER CLOSES SAWMILLS.

Lumber Business at Eau Claire at a Standstill Until Rain Comes.

Eau Claire, Wis., Aug. 12.—All the sawmills but one have been compelled to shut down, owing to low water in the Chippewa river. The shut-down probably will last for a considerable time, as the only relief will be a rise of the river from copious rains.

NOVEL PLAN ADOPTED

LIFE INSURANCE TO PAY A CHURCH'S DEBT.

\$200,000 Would Be Realized Now by St. Josaphat's, Milwaukee, Should Seventy Members Pass Away—Congregation Unites in Paying Premiums.

Milwaukee, Aug. 12.—Insurance of over \$200,000 is carried on the lives of parishioners in St. Josaphat's Polish Catholic church in Lincoln and Second avenues. The premiums on all this insurance are paid in a lump sum by contributions from the congregation.

FRUIT LOSS IS \$2,000,000.

Kansas Will Have About 4 per Cent of a Full Apple Crop.

Topeka, Kan., Aug. 12.—According to a statement of Walter Wellhouse, secretary of the state board of horticulture, Kansas will have about 4 per cent of a full crop of apples, which shows that the first reports were, if anything, underestimated.

It supports the predictions that the early warm weather and subsequent frosts and freezes will mean a loss of \$2,000,000 in the Kansas fruit crop. Peaches, pears, cherries, and plums are practically a total failure. Grapes and berries have fared better. In his report Mr. Wellhouse says:

"Apple trees were in full bloom on April 6, fully two weeks before the average time of putting forth blossoms. On the nights of April 9, 12, 13, 14, 17, and May 3 ice formed from one-eight to one-half an inch each night on still water. Two inches of snow fell on May 4. It seems strange that any fruit could survive after such inclement weather. The apple worm has few places to sup or lay his head this year; his progeny will probably be few next season, for which the fruit growers will rejoice."

FAVORS CHURCH BILLIARDS.

Pastor as Willing to Hear Ivory Clicks as Bible Reading.

Franklin, Pa., Aug. 12.—"I would just as soon hear the click of billiard balls in a church as the reading of the Bible provided it won a man to the cause of Christianity," declared the Rev. Dr. Maurice P. Fikes, pastor of the First Baptist church, in an interview today. His church has the largest membership in the city.

Dr. Fikes, who has just returned from a trip around the world, was telling of his visit to the Rev. Dr. Sylvester Horne's church, which has club features for men and women. "The church which would win men these days must be up and doing; and while I do not hold that it must offer them all the pleasures the world affords, it must give them those which do not run counter to Christianity. This is particularly true of cities like London, New York, Chicago, Pittsburg, and others. I know the idea of a billiard room on church property will shock trustees and deacons, but they must come to it or their church will lose its influence."

DEFECTIVE RAIL COSTS LIFE OF FAST TRAIN ENGINEER.

Springfield, Mo., Aug. 12.—Engineer James McKenna was killed and Fireman James Overland was probably fatally injured when a fast Memphis-Kansas City passenger train on the St. Louis & San Francisco railroad was wrecked near Mountain Grove, Mo., seven miles from here. The train was running at a high rate of speed when a defective rail which was the cause of the disaster was also derailed. None of the passengers were killed, but all were badly shaken up.

Copper Country

TO FLOAT A NEW MINE.

Frank Haas of Houghton Expects to Form a Company.

Frank Haas of Houghton returned the latter part of last week from Contact, Nev., where he has taken up fifty copper claims. He expects to form a company to develop the property. The present unsettled condition of the market would make the new company a difficult venture, and the organization will not be attempted until spring. Mr. Haas says that copper ore taken from one of his claims runs 20 per cent.

MARKET'S WORST SLUMP.

Copper Country Investors in Coppers Are Hitting Cover.

One of the worst slumps which the copper share market has witnessed in years is in progress, and it is felt very severely in the copper country, where everybody is an investor. The condition of affairs yesterday mounted to a panic, and with the tumbling of stocks came a tumbling of investors out of the market.

Save Your Linens!

Inferior starch is ruinous to fine linens, laces and other fabrics. It shortens the life, destroys the beautiful fresh appearance and causes them to go to pieces. The one and only way to be sure of quality in starch is to get the genuine

KINGSFORD'S OSWEGO Silver Gloss Starch

No acids or harmful elements enter into its manufacture; absolutely will not affect any fabric or color. Produces a pure white, rich finish of beautiful subdued lustre that is more lasting than any other. Never causes goods to turn yellow. Superior penetrating qualities. Most economical. The standard of quality for over half a century.

T. KINGSFORD & SON, Oswego, N. Y.
National Starch Company, Successors.

ONTONAGON TELEPHONE LINE.

Service Is Installed but Difficulty Is Presented.

The long expected long distance telephone line between Houghton and Ontonagon counties is now in service, but there is present a difficulty which prevents conversation between the two groups of towns. The Ontonagon County Telephone company has an old switchboard at Ontonagon which will not work with the system in use in other places, and until the board is replaced the new service will be of little use, as Ontonagon is the principal town of the county.

SUPERVISORS WILL MEET.

August Session of the Houghton County Board Today.

The regular monthly meeting for August of the board of supervisors will be held this morning in the county building, in Houghton. It is expected that the full board will be present.

CHANNEL IS RECOMMENDED.

Major Fitch Will Advocate Changing Outlet of Ontonagon.

The project to construct a new channel for the outlet of the Ontonagon river will be recommended by Major Graham D. Fitch, engineer in charge of the Lake Superior district, according to a report which has been received from Duluth, Minn. Major Fitch is familiar with the conditions existing in the local harbor. He has made an unbiased investigation and is apparently satisfied that the channel proposed will be the best solution of the problem.

ANOTHER CALUMET CONVENTION.

National Templars of Temperance Are Coming in 1908.

The national convention of the Templars of Temperance, held at Cleveland last week, decided upon Calumet as the meeting place for next year. Rev. K. Solin, pastor of the Swedish M. E. church of Calumet, was the delegate from that town, and his persuasive powers succeeded in securing the honor.

BUZZARD ALARM INSTALLED.

A burglar alarm electrical system is to be installed in the First National bank of Houghton.

CLOSE OF FISHING SEASON.

Brook Trout May Not Be Taken After Next Thursday.

The closed season for brook trout begins in the upper peninsula on Thursday, and copper country fishermen are putting in as much time as they can on the streams these last few days. The season has not been particularly brilliant one. It has brought out no new fish stories nor any record-breaking catches, though in general the fishermen have had good sport and regret that the season is to close so soon.

EXPRESS SERVICE SUSPENDED.

The Houghton County Street Railway company has suspended its express service between Houghton and Hancock and the Calumet towns for a time.

TEN YEARS IN BED.

For ten years I was confined to my bed with disease of my kidneys, writes R. A. Gray, J. P. of Oakville, Ind. "It was so severe that I could not move part of the time. I consulted the very best medical skill available but could get no relief until Foley's Kidney Cure was recommended to me. It has been a Godsend to me." The Stafford Drug Co.

WHAT A NEW JERSEY EDITOR SAYS

M. T. Lynch, editor of the Philadelphia Record, writes: "I have used many kinds of medicine for coughs and colds in my family, but never anything so good as Foley's Honey and Tar. I cannot say too much in praise of it." The Stafford Drug Co.

DARANTELLA

10c Havana Cigars, 10c

TUXEDO CLUB CIGAR

THE CITIZENS' NATIONAL BANK

HOUGHTON, MICHIGAN

OFFICERS: Graham Pope, President. C. V. Seeber, Vice-President. C. H. Moss, Cashier.

DIRECTORS: Graham Pope, C. V. Seeber, B. F. Chynoweth, J. H. Jansberg, E. R. Hall, J. P. Fieldcamp, W. H. Schultz, John C. Stoen, C. H. Moss.

MISS ANNA F. HEALY OF HOUGHTON

leaves today to visit friends in Duluth.

REV. C. H. RUTLEDGE

the upper peninsula anti-saloon crusader, is visiting in the copper country.

FRED E. KING OF HANCOCK

has been awarded the contract for the construction of the power plant and service tunnel at the Michigan College of Mines.

WILLIAM BRIMCOMBE OF HOUGHTON

has secured a contract to make extensive repairs on the Houghton and Hancock town schools, including the repainting of the buildings.

REV. WILLIAM BRYANT

of the past year pastor of the Houghton Presbyterian church, has tendered his resignation, to take effect Sept. 8. He and Mrs. Bryant will at that time take up their home in Detroit.

IT IS ASSERTED IN CALUMET

that William D. Haywood, secretary of the Western Federation of Miners, recently acquitted of a charge of murder in Boise City, Idaho, will come to the copper country shortly. He is on a lecture tour. His coming would undoubtedly cause some excitement in view of the recent socialist troubles.

VERLIN BROS. OF CALUMET

owners of the big department store at that place, have decided to greatly enlarge their establishment to accommodate the demands of their business. They erected a two-story addition to their building two years ago, and this will now be elevated to the full height of four stories, giving the firm much additional space. It is expected the work will not be completed until next spring.

Mining News

AMSTER OPTIMISTIC.

Boston Mine Owner Discusses Copper Stock and Metal Situation.

N. L. Amster, of Boston, president of a number of well-known copper properties, says: "I am surprised to see people so pessimistic about copper share investments. From my point of view copper shares are today in a better position than they have been for many months and the conditions are very favorable. The price of copper has been receiving for the past year and a half. In my opinion very few companies paid out dividends anywhere near their net earnings, and most of them have strengthened their treasury and have put their mines and equipments in the very best shape to be able to cope with a lower metal market. It looks as though the general business and security situation favored a little lower price for the metal, but I don't believe it will go below 18 cents, and in my opinion it copper strikes, there will be a rebound to 20 cents, and the price will remain around that figure."

NOTES OF COPPER NEWS.

The No. 3 shaft of Tamarack will be out of commission for ninety days, replacing the drum cylinder in the hoist. The other shafts will utilize all of No. 3 shaft's miners and will increase the rock tonnage to make up the deficit as much as possible.

Utah will probably show the greatest increase in copper production this year of any state, in fact present indications are that it will be one of the very few copper districts that will show any increase in production this year. In July, 1907, the copper production of Utah was in the neighborhood of 6,000,000 pounds. In July this year the estimated production of the Utah Smelters amounted to 10,200,000 pounds.

Recent underground developments in the Cananea-Bisbee property, which adjoins the Greene-Cannana lands on the south, are declared to have an important bearing upon the latter company. The Cananea-Bisbee property strikes ore in its shaft averaging 3 per cent copper. This strike was made within 300 feet of the end line of the Greene property, which is located just about one mile from the America shaft on the Cananea-Cannana line.

A mining engineer, who recently visited the copper district in that state, says: "In the Magdalena district, of Sonora, about twenty miles from the base of the Sierra de Nogales, are the Santa Cruz mountains, which occupy a broad bend of the Sierra de Santa Cruz. On their western slope extensive discoveries of copper sulphide ores have brought in a swarm of prospectors and miners. Colonel W. J. Greene has just completed the denouement of 4,000 per cent. P. Sandoval and company, bankers, of Nogales, have taken up 100 per cent. The area in which the new claims have been made is approximately five miles by two. The country rocks are described as granite, overlain by porphyry, or being it is said found in both. The surface indications were faint parallel lines of malachite, on a sinking a few feet chalcopite was found. These thin, bluish, unmet holes have recently been opened, many of which have struck ore. This new camp will be watched with much interest by all interested in the production of copper."

It is said that Arizona Commercial is shipping about 200 tons of ore per day, and has been adding in the neighborhood of \$300,000 per month to its surplus. The company now has in cash and in its railroad a value of nearly \$5 per share. It will not be long, it is claimed, before there should be important developments at the Black Hawk property of this company. Delay in the installation of a big pump to handle the water has held back development in the Black Hawk three months. In the meantime, an increased tonnage of sulphide ores has been mined in the Copper Hill and a vast amount of ore is being shipped to the surface siliceous deposits. Increased shipments will soon be made from the Copper Hill. It will not be long before the single compartment shaft on the Black Hawk will be done to the 600-foot level and a crosscut run to the ore body, for the big pump is now on the road on route to Globe, and its installation will permit of the immediate resumption of work there. In the meantime, a big three-compartment shaft has been laid out by the company's engineers and work will soon be started on it.

FIFTEEN YEARS OF ECZEMA

Affected Hands, Arms and Legs—Endured Terrible Itching and was Unable to Sleep—Would Tear the Bandages to Scratch the Skin—In less than One Week CURED BY THE CUTICURA REMEDIES

"I had eczema nearly fifteen years. The affected parts were my hands, arms and legs. They were the worst in the winter time and were always itchy, and I could not keep from scratching them. I had to keep both hands bandaged all the time, and at night I would have to scratch through the bandages as the itching was so severe, and at times I would have to tear everything off my hands to scratch the skin. I could not rest or sleep. I had several physicians treat me but they could not give me a permanent cure, nor even could they stop the itching. After using the Cuticura Soap, one box Cuticura Ointment and two bottles Cuticura Resolvent for about six days the itching had ceased, and now the sores have disappeared, and I never felt better in my life than I do now. Edward Worell, Band 30th, U. S. Infantry, Fort Crook, Nebraska.

COPPER METAL MARKET.

The copper metal market continues unchanged in the face of an important announcement from the Boston Financial News. It has dropped now into a waiting game. The result depends on whether the consumers can tie out the producers.

The companies that sell their copper through the United Metals Selling company have sold secretly any copper since May, and the bulk of the June and July output remains in their hands. The selling company makes advances to the producing companies, so that the greater part of the burden of financing the accumulation rests with the selling company. The latter has full authority as to sales. At present it refuses to make such concessions as are necessary to sell copper. It claims that the market for the metal, but there is a market at a price, if the United Metals Selling company was willing to meet it.

While alleging that there is no market, the officials of the company allege also that supplies in consumers' hands are very small and that the consumers will be obliged to purchase large amounts soon. If this were true, the consumers would hasten to take advantage of the reduction already made. Their action indicates quite conclusively that the estimates of copper shares in the hands of consumers are inaccurate. If the accumulated copper should be sold, even though at a figure well below present quotations, the situation would be greatly strengthened and the way would be cleared for a recovery. An accumulation of copper will restate to weaker the market. Consumers will not purchase more than is necessary when they know that the producers are adding steadily to their stocks.

COLUSA-LEONARD EXTENSION.

The Colusa-Leonard Extension company has ordered a Nordberg hoisting engine and will receive it in about four months. The engine will have a lifting capacity of 10,000 pounds for 2,000 feet. The company has overcome the water problem, and is again sinking its shaft, which now has a total depth of 750 feet timbered. On account of trouble with the water, not much sinking was done during July, only a few feet having been made. The company is equipping itself for first class work. The Colusa-Leonard Extension is one of the few companies that does not stop to break up the big rocks blasted in the shaft and send them

MAY HAVE NO INQUEST.

Thought That Wilbur Hofenbacher's Death Is Explained.

The death of Wilbur Hofenbacher, the nineteen-year-old Hancock boy, who was killed Sunday, is one of the saddest of the year in that city. The young man was connected with many old families in Hancock, and was very well liked by all who knew him. Justice Oliver, who is acting as coroner in Hancock, said yesterday that unless the father of the boy insisted on holding an inquest, he would not call one.

It is not, however, certain that the boy's death is explained. It is generally believed that he came in contact with a heavily charged electric wire in Lee's ice cream factory, where he was employed, but there is the possibility that heart failure was the cause of death. An inquest and autopsy alone could clear up this doubt.

The funeral of the boy will be held tomorrow, and the Hancock naval reserve will attend. The deceased was one of the first members of the division, joining last September as bugler at the time of the organization. He was the youngest member, and was a mainly young fellow, popular in the organization and greatly interested in its work.

ELCTRIC LIGHT CO.

CONSTITUTIONAL DELEGATES.

L. L. Wright of Ironwood May Not Be Chosen Today.

The Republican and Democratic conventions of the senatorial district comprising Houghton, Keweenaw, Baraga, Ontonagon and Gogebic counties will be held in Calumet this afternoon, the first named in the Laurium town hall, the latter in the Red Jacket town hall. The latter convention holds little public interest, as the delegates nominated by the Republicans are sure of election.

It was practically settled some weeks ago who would be named by the Republicans as candidates for the district's representatives to the state constitutional convention, but latterly there has been a change and this morning the matter is in doubt. It is pretty certain that W. D. Calverley of Houghton will be named as one of the two delegates which Houghton county has decided to send, but for the other place Gordon R. Campbell of Calumet and O. W. Robinson of Chassel, former lieutenant governor, are candidates, and there will undoubtedly be a division in the convention on this choice.

These are, however, matters which will adjust themselves readily while the choice of the third member of the senatorial district delegation gives room for thought. Luther L. Wright of Ironwood, state superintendent of public instruction, was the man selected to be named by the Gogebic delegation, but there has arisen a question touching his eligibility. Mr. Wright is now a salaried state officer, and while it has been ruled that judges and legislators may not sit in a constitutional convention, it has been made on other state officers. But as the constitution will fix salaries it is thought that Mr. Wright should not be in a position to have to do with fixing his own salary, as would be the case in the convention. If it would be in that event, he would be holding two state offices, which is irregular if not illegal. The discussion of the matter has not gone so far that Mr. Wright has been dropped as a possibility, but it will undoubtedly result in a very thorough discussion this afternoon with every probability that will be the action taken.

SOME SQUALLY WEATHER.

Copper Country Air Was Speedy Sunday and Yesterday.

The copper country enjoyed Sunday and yesterday a series of miniature tornadoes, the breeziest weather of the year, since the March storms. Portage lake was so agitated yesterday that reports of disasters on Lake Superior were looked for, because when Portage lake has anything but a placid mill pond the "big lake" may be expected to make a fierce showing.

Pleasure boats on Sunday found the going a bit rough. Even the Plowboy, which trips to the Entry every day, had a few seasick passengers, and the crowd coming back from Isle Royale on the Moore Sunday night were a sorry looking lot. It is said that every passenger suffered.

The high winds make traffic difficult in several gulches Sunday and yesterday, though with no serious results. The F. W. Gilchrist stranded at Princess point on Sunday, but released herself, and another big boat is reported to have been in trouble off the Entry.

ARE OFF FOR CAMP.

The Calumet Engineers and the Houghton Light Infantry leave for Ludington this morning to attend the state encampment of the Michigan National Guard. They will be absent two weeks.

STATE GAME WARDEN PIERCE

has, by the way, advised copper country people that he will name a state deputy for Houghton county this week, so that his commission will date from next Friday. Join Gipp of Calumet and W. H. "Ping" Foster of Houghton are the candidates, and both are confident.

City Brevities

Thomas H. Tracy, of Birch was in the city yesterday.

Prosecuting Attorney Frank Bell was in the city yesterday.

James Baxter has returned from a trip to the lower lakes.

Miss Rose Wallace leaves this morning for a trip to the lower lakes.

Hiram Beyers of Milwaukee is visiting his parents on Bluff street.

Theodore Thorne and John Stanley of Negaunee were in the city yesterday.

Mrs. L. L. Goodnow, of Michigan, arrived in the city yesterday, for a visit.

Mrs. Jenny Libby, who has been visiting in Chicago, arrived home yesterday.

Mrs. Fred Reinhardt left yesterday for a week's visit at Toledo and Cleveland.

George L. Neuhoff, who has been visiting in St. Louis, arrived home yesterday.

Edward Weiser, who has been in Buffalo for the past week, has returned to Marquette.

Miss Ethel Colander, who has been visiting friends in Chicago, returned home yesterday.

City Attorney George P. Brown is in Manitowish on business. He will return this afternoon.

Former Sheriff Penglase, who now resides in Ishpeming, was a visitor in the city yesterday.

W. P. Hamilton, of Detroit, was in the city yesterday, on his way to the Huron Mountain club.

Mrs. Charles Nelson, who has been in Chicago for the past ten days, returned to Marquette yesterday.

Bernard Berassa, of Chicago, a former resident of Negaunee, was in Marquette yesterday, visiting friends.

Mr. and Mrs. A. J. Perrin are here from Duluth, guests at the residence of Chas. Van Iderstine, Spruce street.

The Misses Ethel and Ruth Young, Pine street, went to Escanaba yesterday to spend a fortnight with relatives.

Miss Hadley and Miss Spalding, of the Northern Normal faculty, have been enjoying a short visit to Grand Island.

Dr. Dudley, of Chicago, who has been spending a brief outing at the Huron Mountain club, returned to Chicago last night.

Mr. and Mrs. R. R. Case and children have concluded a visit at the home of Mrs. J. M. Case, East Ohio street, and have returned to New York.

Mrs. J. B. McGregor with her daughters, the Misses Ethel and Alice McGregor of Texarkana, Tex., are visiting Mrs. McGregor's sister-in-law, Mrs. W. F. Mitchell, 419 North Front street. Mrs. McGregor is a former Marquette resident.

TO SPEND YEAR ABROAD.
 Dr. Downing and Wife Will Shortly Sail for Europe.

Dr. Elliott R. Downing, wife and two children, were passengers on the Tionesta Sunday night, bound down the lakes, on their way to Montreal, where they plan to sail for Europe, for a year's absence abroad. Dr. Downing has a year's leave, and will spend the entire time in foreign countries, devoting much of his attention to the pursuit of the scientific studies he teaches at the Normal. Dr. Downing has been a member of the faculty since the institution was opened here. All the Normal professors are given periodical leaves of absence, with the understanding that they shall devote their time, when enjoying them, to work connected with their specialties.

DEATH OF A CHILD.
 Little Rolling Schrock Succumbs to Paralysis Caused by Diphtheria.

The funeral of four-year-old Rollin Schrock, son of W. S. Schrock, of 131 East Michigan street, will take place this afternoon from the home. Former playmates of the dead child will be his pall bearers. The services will be held at 11 o'clock and will be conducted by Rev. Maywood, pastor of the Methodist Episcopal church. The burial will be in Park cemetery.

The child's death, which occurred Saturday night, was caused by paralysis which he contracted six weeks ago. When apparently he had recovered from the diphtheria, his little friends and also the grown-up ones of the neighborhood were glad to again see his familiar little figure playing about the sidewalk in front of his father's store. In a short time, however, the boy began to complain of a strange weakness. Soon he was unable to walk only with difficulty and a second time he was missed from the corner. The disease progressed rapidly and he grew weaker daily. Saturday night the climax came and he died at 8 o'clock. He is survived by a baby brother, Walter Schrock besides his parents.

BOOKS FOR CHILDREN.
 Book Committee Prepares to Supply Demand for Good Reading Matter.

During the last year nearly one thousand books have been purchased by the library board for the public library. Out of this number a generous percentage were books for young people.

In this day of library advancement the importance of giving to the boy and girl the right reading is readily recognized. In the effort of the book committee to give to the largest numbers of readers, the greatest number of desirable books, the children have not been forgotten, and books for the boys and girls have been selected with the greatest care.

With the children's interest in mind, and with the thought of the long nights that are coming, when the boy and girl will stay indoors to read, the book committee, foreseeing the demand there will be for attractive reading matter have ordered, and have already received the first installment of children's books. Among the new arrivals there are many old friends, besides duplicates of some of the favorites in new fresh bindings. The list of the first installment of the early fall book arrivals will be published tomorrow. New books for adult readers will be added soon, lists of which will be published in The Mining Journal as they are received.

SHIP SUBSIDY MUCH ALIVE.
 Supporters to Make Hard Fight at Opening of Congress.

Washington, Aug. 12.—When Senator Carmack of Tennessee, with the aid of other senators on his side of the chamber, talked the ship subsidy bill to death at the close of last session, they did not kill the movement by any means. Efforts to get subsidy legislation will be renewed with vigor at the coming session of congress. This fact has become clear here.

President Roosevelt is thoroughly converted to the idea of ship subsidy legislation. He is expected to renew his recommendations for such legislation in the forthcoming message. On the part of the Merchant Marine league, the Republican club of New York and organizations earnest for ship subsidy legislation, the literary campaign has already begun and literature is being distributed widely containing arguments for laws calculated to build up the merchant marine.

Gallinger Bill Favored.
 It appears probable the Gallinger merchant marine commission bill of the fifty-ninth congress will be reintroduced in the sixtieth congress, with few or no changes. Its advocates will make the strongest sort of effort to get it enacted with as little emasculation as possible. It will be recalled that when the house last winter finally passed a subsidy bill it was one of extremely narrow scope, limited to subsidies for mail carrying on a few routes, chiefly South American. The ship subsidy advocates were not satisfied with it but thought something might be gained by taking it as the entering wedge. They were not even permitted the skeleton of a subsidy law by the opposition in the senate which Carmack led. Senator Gallinger of New Hampshire, whose name was linked with the original merchant marine commission bill, is prepared to renew the struggle again as soon as congress opens.

See Victory for Subsidy Bill.
 The supporters of subsidy legislation, despite previous defeats, believe there is victory ahead. They realize that last winter was not an opportune time to dispose of such important legislation, the

session being too short, other important legislation crowding the calendar, and opportunities for filibustering being too good. In a long session, with some changes in the composition of the house, with the Democrats weakened, and with better opportunities, in the stress of important measures, for log-rolling and combinations, they hope to accomplish the result for which they have so long striven.

Build Up Merchant Marine.
 It is already given out from sources friendly to the Gallinger bill that a large majority of the Republican members of congress have committed themselves to this measure and that it should be passed early in the next session. It is being urged on Republicans of both branches of congress that the administrations of Roosevelt, Harrison, McKinley and President have been strongly committed to a policy of building up the American merchant marine, as have successive Republican national platforms.

Speaker Cannon is a large factor in the situation. Last winter, he was not regarded as being much in sympathy with the proposed legislation, for political reasons preferring it should be let alone, for the time being. He is expected to be more favorably inclined to it this session.

An active propaganda for ship subsidy legislation is being kept up by the consuls at various important ports. The consular reports for many months have teemed with arguments and data calculated to further the cause of subsidy legislation. Evidently the state department has fully sanctioned this procedure. Mr. Root is well known to be favorable to subsidies, especially such as will build up American shipping lines to South America.

In Your Own Home

That's where you want to get acquainted with your sewing machine—and that's why we agree to send you a competent instructor from our local store.

A competent instructor mind you, is not a time-driven, underpaid clerk from a department store. This is important, for if you get started, right you will get double service out of your machine every day you use it, as long as you have it.

It is our instructor's business to show you to the last little screw; that's why they will do three times as much work for you as most people get out of job lot department store sewing machines—and do three times as many kinds of work, too.

BY THESE SIGNS YOU MAY KNOW AND WILL FIND SINGER STORES EVERYWHERE.

Sold only by Singer Sewing Machine Co.

WILL LEAVE TODAY.
Company I to Depart for State Encampment at Ludington.

TODAY IS CIRCUS DAY.
Norris & Rowe's Show to Give Two Performances at Third St. Grounds.

About forty officers and men of Company I, Michigan National guard, will leave this afternoon for the state encampment at Ludington. The company will join the Houghton Light Infantry and the Calumet company of engineers on the 1:30 train. They will go to Manitowish, via the South Shore and the Soo line, and from there they will go over to Ludington by boat. The company gave a farewell party at the armory last evening. The company has secured a first-class cook from one of the lumber camps and will take a complete company mess outfit.

Besides a rifle each man will carry the following equipment: Two suits of khaki uniforms, one service hat, one pair of leggings, one pair of tan shoes, one blue flannel shirt and a blanket roll containing one blanket, two tent poles, five tent pins, one rubber poncho, one suit of extra underwear, a towel, soap and toothbrush and two pair of socks. Each man will carry his own mess outfit, consisting of a knife, fork, spoon and tin cup. No ammunition will be taken by the company, as all the cartridges used during the encampment will be issued by the quartermaster. The men will go over to the depot in heavy marching order.

PREPARING FOR REUNION.
Local Woodmen Are Making Plans for 1908 Meeting at Peoria, Ills.

The Ishpeming degree team of the Modern Woodmen of America has started raising funds for the next annual reunion of the order, which will be held in Peoria, Ills., during the summer of 1908. The meeting next year will be the largest in the history of woodcraft and in all probability the largest convention ever held by the national organization. The national committee has almost perfected the arrangements.

Peoria is preparing to accommodate 150,000 visitors. The degree teams will be under military discipline and will camp in tents. A committee of three, one from Elgin, Ills., another from Topeka, Kas., and C. J. Byrns, of this city will make the arrangements for sheltering the degree teams. The committee is almost certain that they can secure the entire tentage of the state of Illinois for use during the week of the reunion. Over one hundred degree teams and military companies from Chicago will be in attendance.

The reunion at Peoria will be in the very heart of woodcraft, the state of Illinois having a total membership of over 100,000. In Wisconsin and Illinois the national meetings of the order bring out a large attendance, the picnics in these states being attended by over 25,000 people.

"MAYOR OF TOKIO" AUG. 20.
Fall Season at Ishpeming Theater Will Open With Carle's Musical Comedy.

The fall season of the Ishpeming theater will open Aug. 20th, with Richard Carle's "Mayor of Tokio," as the attraction. The piece is a musical comedy and has had a successful run in the cities. It abounds in pretty music and the scenery, lighting effects and costumes are unusually fine. The scenes of "The Mayor of Tokio" are laid in Japan, and deal with the hard times of a stranded comic opera organization. All the survivors of the troupe that left San Francisco sixty strong are the impresario, a sour-faced wardrobe mistress, a love-sick song-book boy, a soubrette with Shakespearean ambitions and nine little girls known as the "peanut ballet." At the time the remnants of the company turn up in a public garden at Tokio in the first act they are mistaken for a royal party traveling in disguise and given the best of the city affords. Incidentally the mayor of Tokio is entangled with a Russian spy by the name of Ivan Orlidoff, and general Satake, a conspirator who has entered into an engagement with Ivan to betray government secrets. The mayor has the unfortunate habit of talking in his sleep and Satake convinces him that during one of these somnambulant conversations he has told secrets which in reality Satake has divulged. He then informs the mayor that unless he forces his daughter Olo to wed him, he will turn him over to the mikado as a traitor. None of these dreadful things, however, prevent the comedy ending happily. The music is by W. F. Peters and is said to be very timely and catchy. The company is unusually well balanced and contains a number of clever comedians and good singers together with a chorus of pretty young women. The production is new in every particular.

CONVENTION TODAY.
The Republican convention for the Thirty-first senatorial district will be held at the Ishpeming theater this morning at 10:30 o'clock. The convention has been called for the purpose of electing three delegates to the constitutional convention. The following delegates will represent Marquette county at the convention: H. O. Young, W. H. Johnston, Thomas Walters, John Treilbeck, C. J. Byrns, C. D. Driscoll, T. A. Thoren, Thomas Connors, D. W. Powell, John R. Gordon, John Rough, E. W. MacPherran and W. A. Seidenhal. The Marquette county delegation has been instructed to cast its entire vote for the election of D. T. Morgan as one of the delegates.

HOW'S THIS?

Do You Open Your Mouth?
Like a young bird and gulp down whatever food or medicine may be offered you? Or do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes, in great and on each bottle wrapper, what his medicines are made of and why they are good. This is the only medicine that can be so advertised because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of a woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful menstruation, giving strength to nursing mothers and in preparing the system and the expectant mother for baby's coming, thus rendering childbirth safe and comfortable. It is the only "Female Prescrip-tion" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nerve and cures nervous exhaustion, nervous prostration, neuritis, hysteria, spasms, nervous or St. Vitus's dance, and other distressing nervous symptoms. It is a most efficient and safe remedy for all the several forms of functional and organic diseases of the distinctly feminine organs.

A host of medical authorities, from all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card requesting a free booklet of extracts from the leading authorities, to Dr. E. W. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

ISHPEMING IN BRIEF.

Mrs. David Johnson is visiting with friends in Charlesburg, Wis.

Ed. Carney and family spent the past week south of the city, at Camp Clark.

Michael Conroy of Manising is in the city visiting for a few days with friends.

Frank Harper, of Chicago, is in the city, spending a few days with his family.

A boy was born on Aug. 7 to Mr. and Mrs. Wilko Kattisknaki, 270 Davis street.

A trick bicycle rider gave several exhibitions on Main street yesterday afternoon.

John Keifer and family are spending the present week at Lake Laurie, near Clarksburg.

James McCutcheon and J. C. W. Chipman spent Saturday and Sunday visiting at Sault Ste. Marie, Mich.

Miss Rose Meyer has returned to her home, after spending the past week with Thomas Nesbitt and family.

Timothy Hughes, wife and daughter have returned from a three months' trip to Ireland, England and Scotland.

The Misses Signey Peterson and Olga Eggen arrived in the city Sunday morning, after spending the past two weeks in Chicago.

Mrs. E. M. Adams, sister-in-law of the late Mrs. Harriet H. Palmer, arrived in the city yesterday from Saginaw to attend the funeral.

Joseph C. Gannon, who travels through this territory for the Sprague-Warner company, is commanding officer of the Hancock naval division.

A concrete walk has been laid from the corner of the block occupied by E. P. Beigher's barber shop to the walk in front of the Iron Ore office.

Michael Losselyoung will continue to handle the Scrontan hard coal this season. He will be ready to fill orders this month. His office is 116 West Pearl street.

One steam shovel was operated at the Hematite mine last Sunday. It was the first Sunday that the Lake Superior & Ishpeming railway company has not worked crews this summer.

The funeral of the late Mrs. Harriet H. Palmer will be held from the residence this afternoon at 1 o'clock. The body will be taken to Marquette on the 1:30 train for interment.

Born, on Aug. 6, to Mr. and Mrs. Olof Johnson of Greenwood, a son, to Mr. and Mrs. Charles Lindell of Morris street, Aug. 5, a son; to Mr. and Mrs. E. Peterson of North street, a daughter.

D. D. Randall, wife and daughter, Miss Florence, are spending a few days at their camp, located near Sidnaw. Miss Randall will remain in the woods for a week and will then take a boat trip to the lower lake ports.

John Lark, master mechanic of the Shenago mines, has been in the city the past few days. Mr. Lark was formerly in the employ of the Oliver Iron Mining company in this city. He left for Calumet last evening, to visit with his parents.

"What shall we have for breakfast?" "What Cudaly's Peacock Ham and Eggs of course; they are always acceptable, especially at this season of the year." (11-27-e-o-d)

COBALT GOSSIP

It is estimated that over \$1,000,000 worth of low grade ore is on the dumps at Cobalt. At the Trethewey mine alone there is about \$200,000 worth of ore.

The Imperial Silver Cobalt mine, which is the premier mine of Portage, Ont., made its first shipment last month. The car of 79,000 pounds consisting of cobalt.

It is estimated that the July output of the Nipissing company amounted to \$112,000, of which amount \$61,250 represented production of the last nine days of the month.

At the Hudson Bay & Temiskaming mine all the machinery for the new plant is now on the ground and should be in operation in six weeks. The plant, which will be one of the most up to date in the camp, will consist of a 16-drill compressor, two 80-horsepower boilers and a hoist capable of sinking 600 feet. Fifty men are employed on the property working at union scale.

The sale of the Beaver Cobalt mine to an English syndicate is understood to be almost consummated. Lieutenant Colonel John L. Davidson and Frank Culver have been in London, Eng., and a report is to the effect that their mission was successful. The Beaver property is twenty acres in area, and it has the Temiskaming vein. The machinery installed is of the most modern description. The stock is at present selling at seventy-five cents a share, but little has of late changed hands.

The Montreal Reduction & Smelting company is rapidly completing its plant at Trout Lake, adjoining the government railway, about 100 miles south of Cobalt. The plant will have a daily capacity of 200 tons. It will have complete equipment for the following processes: Crystallizing, amalgamating, precipitating, hypoxy, concentrating, smelting and refining. A railway siding extends into the works. Delays in delivering machinery prevented the original plans of having the plant completed in May from being carried out. But it will be ready for business by Sept. 1. The company expects to treat ores from Copper Cliff, Cobalt, Temagami and other camps in Ontario and Quebec.

Father says: "Say, Mother, can't you make us some more of those fine doughnuts if I will bring home a pair of Cudaly's Peacock Lard again?" (11-27-e-o-d)

Negaunee Department

FIREMEN HAD BIG DAY.

Negaunee Department Held Annual Picnic at Parella's Farm Sunday.

About thirty-eight members of the Negaunee fire department and a number of invited guests held their annual picnic at Parella's farm Sunday. The party left the city about eight o'clock in the morning and returned at 9 p. m. The weather was threatening when they left, but the day turned out to be an ideal one. The picnic is an annual affair, and Sunday's outing was one of the most successful held in the past few years. The party took a complete camping outfit and camp was established immediately after the arrival at the grounds. All kinds of sports were enjoyed during the day, the special feature being a baseball game between the fat and the lean members of the department. It took up most of the day and was won by the heavy weights. They were captained by William Newcombe, weighing 267 pounds. "Bony" Marko, a local pitcher, pitched for the defeated team. In the quoit pitching contest J. A. Wasmuth and B. K. Weber won the championship, and were compelled to defend their title a number of times during the day. Paul Birkley won the wrestling matches in catch-as-catch-can, Cornish and Graeco-Roman styles. The Christofal game, which is an importation from Italy, was won by Joe Torianna and Angus McDonald.

FORMERLY LIVED HERE.

Mrs. George Riley Passed Away at Her Home in Escanaba Last Week.

Mrs. George Riley, formerly a Miss Caples of this city, passed away at her home in Escanaba the latter part of last week. She was well known to the older residents, having been born and raised here, and having been married to Mr. Riley in this city. Mrs. Riley was a widow, her husband having died about seven years ago.

TO GO DOWN THE ESCANABA.

Isaac Stephenson and party from Marinette, Wis., arrived at Swanzy last evening. They will go down the Escanaba river and will be met at Bonita by Mr. Stephenson's yacht. The party expect to consume about five days in covering the fifty miles. There are a number of the prominent politicians and public men of Wisconsin in the party. Indian boatmen from Marinette and vicinity have been engaged to pilot the boats down the river.

MARQUETTE & SOUTHEASTERN RY.

Sunday, June 9th, the summer schedule of the M. & S. E. R'y. goes into effect. Sunday trains will leave Marquette for Princeson and Munising at 8:45 a. m. and 6:20 p. m. For Negaunee and Ishpeming, 10:15 a. m., 3:55 p. m. and 8:20 p. m. For Birch and Big Bay, 8:50 a. m.

LOCAL LACONICS.

James Ryan of Duluth, was in the city yesterday and Sunday.
Al Borah was up from Princeson yesterday, visiting with relatives.
Carl August Lind of the Buffalo location is laid up with typhoid fever.
Nels Johnson, of Princeson, spent Sunday in the city visiting with his folks.
James S. Wall, of Crystal Falls, spent Sunday in the city, visiting with friends.
John Lundstrom is building a one and a half story house at the Buffalo mine location.
R. G. Jackson and wife and Mrs. H. W. Jackson spent Sunday in Negaunee, visiting with friends.
Ed. Sawbridge of Chicago, Albert Sawbridge and Albert Lehman are spending a few days on the town streams.
Trembath Bros. of Ishpeming, will commence painting the new houses at the Mary Charlotte mine today.
Herbert Hodgson is in the lower peninsula for a few weeks, attending the state encampment of the Y. M. C. A.
A boy was born last week to Mr. and

Rosen Bros. & Klein,

Negaunee, Mich.

Mrs. Frank Farrell, of Munising, Mrs. Farrell was formerly a resident of this city.

A trick bicycle rider entertained a large number of people and collected a few nickels on Iron street yesterday morning.

The following party is enjoying a week's camping at Sandy Johnson's farm near Sands: Tillie, Louisa and Christine Anderson; Anna Warme, Lillie Bellstrom Titus Thoren and Willie Bellstrom.

F. H. Fenner, of Bay City, sales agent for the Winton automobile, spent Sunday in the city with friends. Mr. Fenner had sold about eight Winton machines in the copper country during the present summer.

DRAMA OF A PANIC.

March 14, the day of the worst panic Wall street has known in years, saw many strange sights among the men who play the speculation game. No where did excitement run higher than in the financial colony at the Waldorf. Throughout the afternoon the cafes and corridors of the Waldorf had reverberated with the echoes of a financial crash which has gone down in the annals of "the uptown Wall street" marked with a big, bad red letter.

There had been a mighty, sickening scare. The bottom of the market had slid off so quickly, easily, inexorably that the gamblers, big and little, swore it had gone forever. Their nerve wren with it. They were left floating in air, with not a single prop under them. Men did strange things from 4 o'clock on that day—and didn't know it. They wailed and cursed and kicked. They made hyena faces at each other and blew smoke in each others eyes—all unconsciously. They hurried hither and thither and back again, wrote telegrams and tore them up, gave orders to waiters and countermaiden, called pages and discharged them, pulled their mustaches till they smarted down to the very roots.

They lost all sense of true proportions. One man who always bought the most expensive cigars by the thousand snatched away to a cigar case, purchased three for a quarter and slipped two stealthily and gingerly into his pocket, a though they were million-dollar gold certificates. Another man who was never known to count his change accused a waiter of robbing him of ten cents and demanded a wine list that he might verify the price of highballs.

They lost all sense of humor. As H. C. Frick stepped out of an elevator, a little Jew broke with glittering eyes and pale, distraught face, plucked at his coat sleeve.
"Ah, Mr. Frick," he entreated in a wheedling voice, "give me your idea of the market! What do you think?"
The big man looked gravely at his questioner and opened his lips to reply in a twinkling a crowd of men with straining ears closed in about him.

"The market," said Frick imperturbably, "Why, I should say it was near the bottom today than yesterday." He smiled and walked away; but the humorous absurdity of his speech was lost to his hearers.
"Damn him," hissed the little pale man savagely. "It wouldn't hurt him to loosen up. He ain't spittin' diamonds when he talks."
The scene was at once tragic and ridiculous. Human judgment always slumps with the market. Today not a vestige remained. Men who were used to thinking in thousands thought and acted in dimes. Prosperity, the greatest asset Wall street owns, faded away like a shadow at night; poverty, its most hated liability, stared every hollow-eyed man full in the face. One man who had lately purchased a \$60,000 automobile went about hawking it for \$1,800. Some men in their excitement talked of selling Newport villas.

What's gone and what's past, he should be past grief. —Shakespeare.

BIG PURSE BRINGS MANY SPEEDY ONES

ALL THE FAMILIAR RACERS AND SOME NEW ONES TO BE ENTERED FOR FAIR RACES.

WILL TRAIN TROTTERS HERE

Sidewalk Being Built—Work on New Dining Hall Begins Monday—Innovation Pleases the Exhibitors.

Recent communications received by officials of the Marquette Agricultural Association indicate that most of the horses which have raced in Marquette at previous meetings besides a number of others will be here next month to race for the \$1,500 in purses which has been offered.

Airmotor Coming.

As told several days ago in The Mining Journal, A. C. Shepard of Standish, Mich., who will be superintendent of the track, will have a string here to open the season, among them, Airmotor, the horse that did such successful work last year. Shepard's horses were shipped yesterday and they will probably be here today. The two trainers with them are men highly recommended, and it is said that a number of local trotters will be placed in their hands to be put in shape for the races.

Besides the horses in the Shepard string, a number are to be sent here from Ishpeming and Negaunee, probably six or eight; Louis Sams of Houghton has said that he will have a number of trotters, the one best known being the horse, Echo Melhorn now familiar to all Marquette horsemen, and Joseph Bernard of Laurium will also be here with several horses. Lady Arkwood, another horse well known here to be entered by her owner, Charles Wistrom, postmaster at Calumet.

Will Train Here.

A number of the horses, it is expected, are to arrive within the next ten days and will complete their training on the track here. Others, from points near the city, will not be brought here until a few days before the fair opens.

Work on the new sidewalk which is being constructed from the exhibit building to the grandstand began last week and is progressing rapidly. About 1,000 feet of cement walk will be laid. Next Monday the work of erecting the new dining hall which is to stand near the exhibit building will be started. The advertising matter for the fair is practically ready for distribution and will be sent out next Thursday.

It is reported that exhibitors generally have taken kindly to the innovation of this year, that of requiring all exhibitors to be members of the association before they may place exhibits.

The New Rule.

The new plan was inaugurated to swell the attendance at the fair. Each exhibitor is required to pay \$1 membership fee to join the association, and each new member receives four admission tickets to the fair. Only members of the association may place exhibits. The rule does not apply to any of the children's departments in which no fees are required for the placing of exhibits.

While the fair is on, the street car company will run cars at brief intervals and the South Shore will run special trains every thirty minutes in the afternoon.

STOCKS LOW AND WEAK.

Brokers' Offices Haunted by Worried Bunch of Speculators.

Yesterday saw no improvement in the stock market, and the speculators and investors who are holding stocks were visibly worried looks as they studied the figures on Paine, Webber & Co.'s board. The markets were still declining, and while the losses in value were perhaps not as spectacular as they were last week they were steady, and closed practically all the issues at new low figures. Liquidation was on a considerable scale and, together with short selling, gave a volume of sales that far outweighed the buying, though it is axiomatic that there must be a buyer for every sale.

A new adverse feature in the market yesterday, and one that doubtless helped the decline, was the telegraphers' strike Paine, Webber & Co. seemed to have about their usual service, but it was reported that there was considerable interference with speculative business handled over the wires, both in stocks and grains. At that, however, it was not so much interference with the business yesterday as forebodings about what the future may have in store that was the disturbing market factor. It is feared that a tie-up of the brokers' wire service may be one of the incidents of the strike, in which event the business, both buying and selling, would of necessity fall off to nothing. In this connection Paine, Webber & Co.'s Boston office notified all the company's managers to have all their accounts margined up as strongly as possible without delay, saying that the company would not be responsible for any delays about margins occasioned by interrupted wire service. The fear is doubtless entertained that communication between the home and branch offices may be interrupted, perhaps for a period of days. Another order from the home office showing its attitude toward the market was in order to all managers to make new commitments only for cash covering the full value of the stock purchased. This rule is effective until further orders. There was also warning yesterday to all managers to strengthen margins.

Prices have gone off fearfully the past few days, until on the basis of their present dividends and present selling prices the leading issues are paying unheard of rates of interest. Still there is little investment buying. In the lake, according to general reports, most people are busy hanging on. Nearly all people who dabble in stocks are long, to some extent. Some of them have lightened up the loads they were carrying at the first of the year, but as a rule all the speculators have a little long stock. However, it is generally well protected. The brokers have lately been getting good margins and much of the stock is held that it cannot be shaken out.

As a rule such stock will be held until the market has righted itself, for present prices offer little incentive to sell.

WOMAN WINS CASE.

Mrs. Anna Hoffenberg Sues Brother-in-Law and Jury Gives Her \$50.

Mrs. Anna Hoffenberg, who filed a suit against Samuel Hoffenberg, her brother-in-law for household property which she says was removed from her home during her absence, was awarded \$50 damages by a jury yesterday in the court of justice of the Peace Byrne.

The property was taken from the house, Mrs. Hoffenberg testified, shortly after she filed a suit for divorce from her husband, Nathan Hoffenberg. She was in Chicago at the time. She said that when she returned to Marquette, she found that all her household effects were missing and later discovered that they had been taken to the home of her husband's brother. She said her demand for the return of the property was ignored.

The woman's husband and another brother, besides the one against whom the suit was brought, testified and denied her statements. They said that the property in question belonged to the woman's husband, Mrs. Hoffenberg's demand was for \$100 and this amount was reduced one half by the jury.

TO OUTLINE PLANS FOR SEWER SYSTEM

STREET COMMISSION WILL MAKE RECOMMENDATIONS TO COUNCIL AT MEETING TONIGHT.

The streets, parks and cemetery commission is not taking kindly to the action of the common council in referring to it petitions of certain kinds and it is probable that an indication of this sentiment will appear in recommendations which the commission purposes making to the council at the meeting tonight.

At the council meeting of a week ago, the Lake Shore Engine Works presented a petition asking that a sewer system to connect with the new plant now being erected north of the city, be built. The council heard the petition and then referred it to the commission with instructions to report at the special meeting which is to be held tonight.

The street commission at its meeting considered the petition and a committee composed of Sink, Ford and Cadarette was appointed to investigate the matter. During the past week this committee has made an investigation, and their report will form the basis of the recommendations that are to be made. The question that is now of interest to the commission is the manner in which the council proposes to pay for the improvement. When the matter was referred to the commission this was not outlined, and whether it is to affect the commission's appropriation, and how much, is a question that members of the body want answered. Just what the recommendations to be made tonight will be, Chairman Sink would not say.

The commission's committee that investigated the matter has determined upon one or more plans for constructing the sewer system. The plans will be laid before the council, but the council will be expected to say how the work is to be done, when, and who is to pay for it.

PARADE LACKING BUT CIRCUS MAKES A HIT

CROWDS DISAPPOINTED IN THE MORNING ARE WELL PLEASED AT AFTERNOON AND EVENING PERFORMANCES.

On account of its late arrival in the city yesterday, the circus did not parade the streets and hundreds were disappointed when a herald rode through the crowded downtown district announcing that there would be no parade. In some manner a report spread that it would be held at 1 o'clock in the afternoon and many remained in the business section until this hour and were again disappointed.

The two performances in the afternoon and evening were well attended and those who went were well pleased. The show has a number of novel acts, and keeps moving in an interesting way from beginning to end. Good management was shown in every detail. The small boy was very much in evidence, and he found all things to his liking.

NOTICE TO SCHOOL ELECTORS.

Notice is hereby given that the Board of Registration for school electors will be in session in the city hall, Saturday, Aug. 17, 1907, between the hours of 8 a. m. and 8 o'clock p. m. of the said day, for the purpose of securing the names of qualified electors not previously registered. Under the new school law no person is entitled to vote who is not registered.

By order of Board of Education Public Schools City of Marquette.
Dated Aug. 12, 1907.

H. J. HORNBERG, Secretary.

WANT MEMBERS TO ATTEND MEETINGS

BUSINESS DELAYED BY APPARENT LACK OF INTEREST IN NEW COMMERCIAL CLUB.

NEW MEMBERS ARE ENROLLED

Reports Made at Meeting—Post Cards in Two Colors Admonish Members to "Come Along and Boost."

Why the one hundred and sixty odd members of the newly organized Queen City Commercial club are not taking more interest in the plans and projects of the organization, and in the organization itself, is a question that a dozen or more of the members are asking, and to arouse this interest is the first problem that the club has to solve.

Small Attendance.
At the meeting last night at the city hall, owing to the small attendance of the members, each of whom had been notified that the meeting was to be held on that evening, there was a lack of interest until the next regular meeting, and for this especial efforts are to be made to insure a large gathering. Not only are many members who at first displayed interest in the organization absent, but also officers of the body have been criticised for their failure to appear.

The committee named by the club to take up the question of a north side water supply did not report last night. It was announced that the committee is to attend the next regular meeting of the board of water commissioners with a definite statement regarding the plans of the water board to be made.

Trap Rock Map.
Regarding the map which was to be prepared by Charles Cummings, and which was to show the locations of trap rock south of the city, Mr. Cummings stated that he was unprepared to make a complete report. He had located trap rock in several places in two trips he had made to the section, he said, but the map is not yet in readiness. Before the next meeting Messrs. Cummings, L. J. Leveque and Secretary Jenks of the association are to explore a section near the brewery where it is said a quantity of trap rock is located.

Secretary Jenks reported that within the past month he had received a number of communications from outside concerns seeking locations, but no action was taken upon any of them. He announced that the members should act upon if the plans of the club are to carry.

New Members.

A number of names of new members were reported and enrolled and bills that accrued during the month were allowed. Secretary Jenks has had prepared a number of post card announcements, printed in two colors to notify members when meetings are to be held. The cards bear the admonition "Come along and boost." It is an admonition that the members will have to act upon if the plans of the club are to carry.

EX-ALDERMAN IS HOST.

Christ Meiers and Miss Maggie Murphy Married Yesterday at Cathedral.

Former Alderman James Gray was host yesterday to a wedding party the central figures of which were Christ Meiers and Miss Maggie Murphy who were married at the Cathedral by Rev. Father Joseph Pinton.

The ceremony took place in the morning and was witnessed by a number of friends and relatives of the couple among whom were the Misses Ella and Louise Mathy and Leo Mathy, nieces and nephew of the groom who came from Chicago to attend the wedding. Mrs. Meiers was also of the party. After the ceremony a wedding breakfast was served by Mr. Gray and Mr. and Mrs. Meiers received the congratulations of friends throughout the day. The couple will make their future home on Washington street.

MERRILL-HODGKINS NUPTIALS.

The approaching marriage of Miss Grace Merrill daughter of Hon. and Mrs. G. F. Merrill of this city, to Mr. Walter Hodgkins of Marquette, which is to be celebrated on Wednesday August 14th, is an absorbing interest to society circles, and many complimentary entertainments are being given in honor of Miss Merrill. On Tuesday of this week Mrs. G. C. Longacre and Mrs. J. H. Holbrook gave a parcel shower and on Saturday Mrs. J. W. Cochran gives a luncheon for the prospective bride, while next week will witness several functions in her honor, the first in point of time being given by Mrs. Thos. Bardon on Monday. Miss Merrill has lived nearly all her life in Ashland, and has the good wishes of many friends for her future happiness while Mr. Hodgkins is much to be congratulated on winning so talented and popular a bride for his bride.—Chequamegon Critic.

SCHOOL ELECTION.

Notice is hereby given that the annual election of the trustees of the public schools of the City of Marquette, will be held on Monday, Sept. 2nd, 1907, at the city hall, said city, at which election one (1) school trustee will be elected for the term of three (3) years.

The polls of said election will be open from 8 o'clock a. m. until 8 o'clock p. m. of said day.

The annual meeting for said public schools will be held at the city hall on said day, at 8 o'clock p. m., for the transaction of such business as may lawfully come before such meeting.

By order of the Board of Education Public Schools City of Marquette.
Dated Aug. 12, 1907.

H. J. HORNBERG, Secretary.
