

Speech Is Bombshell For Wall Street

President Roosevelt Proclaims There Will Be No "Let-Up" in the Government's Policy

Provincetown, Mass., Aug. 20.—The laying of the cornerstone of the Cape Cod Pilgrims' memorial monument here today gave President Roosevelt his first opportunity of the summer to break his silence upon public questions, and the forty-minute speech that he delivered from a platform on top of the town hall was one of vigor.

The features of the president's address was his advocacy of a national incorporation law and his stand in relation to violators of the law, especially corporations. He declared that the administration would not waver in its determination "to punish certain malefactors of great wealth."

Fighting People's Battle. "There will be no change in the policy we have steadily pursued, no let-up in the effort to secure the honest observance of the law, for I regard this contest as one to determine who shall rule this government—the people through their governmental agents, or a few ruthless and determined men who seek to make themselves particularly formidable because they hide behind the breastworks of corporate organization. All that I have said is desirable and undesirable citizens remains true."

Ambassador Bryce, representing Great Britain, followed President Roosevelt in the United States Senate. Lodge delivered an historical address. The closing address was by Congressman Lovering. The exercises over, the assembled gathering adjourned to the town hall, where a banquet was served. Following the banquet the president was followed by the old fellows hall, where he was introduced to more than 200 Provincetown and Gloucester fishermen. The president spoke to them, commending their labors and the way in which they performed them. At the conclusion of his remarks, President Roosevelt was driven to the wharf by a motor launch, the Mayflower, which sailed at 4 o'clock for Oyster Bay.

Wall street especially will find much of interest in the president's address at the cornerstone laying. It dissipates all hope of any moderation of the administration's policy, and it makes the nation and its threatened prosecution of the criminally rich. Mr. Roosevelt said:

Sees Plot in Stock Slump. "During the present trouble with the stock market, I have of course received countless requests and suggestions, public and private, that I should say or do something to ease the situation. There is a worldwide financial disturbance. It is felt in the bourses of Paris and Berlin. British consols are lower, and the prices of railway securities have also depreciated."

"On the New York Stock exchange the disturbance has been particularly severe. Most of it I believe to be due to matters not particularly confined to this country and to matters wholly unconnected with any governmental action; but it may be that the determination of the government—in which, gentlemen, I will not waver—to punish certain malefactors of great wealth, has been responsible for something of the troubles, at least to the extent of having caused these men to combine to bring about such financial stress as they possibly can in order to discredit the policy, and thereby to secure a reversal of that policy so that they may enjoy the fruits of their evil doings."

"That they have misled many good people into believing that there should be such reversal of policy is possible. If I am not mistaken, it will not be long before the man of great wealth who has earned his wealth honestly, and used it wisely, we recognize a good citizen worthy of all praise and respect."

"Business can only be done under modern conditions through corporations, and our purpose is to heartily favor the corporations that do well. The administration appreciates that liberal but honest profit for legitimate promoters and generous dividends for the capital employed either in founding or continuing an honest business venture are the factors necessary for successful corporate activity, and therefore for generally prosperous business conditions."

Also in the course of his speech the president gave utterance to these sentiments: "It is not too much to say that the event commemorated by the monument which we have come here to dedicate was one of those rare events which can in good faith be called of world importance. We can not as a nation be too profoundly grateful for the fact that the Puritan has stamped his influence so deeply on our national life. We need have not scant patience with the men who now rail at the Puritan's faults. To the sons of the Puritans it is almost needless to say that the lesson above all others which Puritanism can teach this nation in the all-importance of the resolute performance of duty. If we are men we will pass by with contemptuous disdain alike the advisers who would seek to lead us into the paths of ignoble ease and those who would teach us to admire successful wrong-doing."

exercises over national banks. We can do this only by proceeding farther along the lines marked out by the recent national legislation. "The principle of the Sherman law so far as it prohibits combinations which, whether because of their extent or of their character, are harmful to the public must always be preserved. Ultimately, and I hope with reasonable speed, the national government must pass laws which, while increasing the supervisory and regulatory power of the government, also permits such useful combinations as are made with absolute openness and as the representatives of the government may previously approve. But it will not be possible to permit such combinations save as the second stage in a course of proceedings of which the first stage must be the exercise of a far more complete control by the national government."

Prosecution of Criminally Rich. "In dealing with those who offend against the anti-trust and interstate commerce laws the department of justice has to encounter many and great difficulties. Often men who have been guilty of violating these laws have really acted in a criminal fashion, and if possible should be proceeded against criminally; and therefore it is advisable that there should be a clause in these laws providing for such criminal action, and for punishment by imprisonment as well as by fine."

"There is unfortunately a certain number of our fellow countrymen who seem to accept the view that unless a man can be proved guilty of some particular crime he shall be counted a good citizen, no matter how infamous the life he has led, no matter how he has violated his duties or his practices. This is the view announced from time to time with clamorous insistence, now by a group of predatory capitalists, now by a group of sinister anarchist leaders and agitators, whoever a special champion of either class, no matter how evil his general life, is acquitted of some one specific crime."

"We have found by actual experience that a jury which will gladly punish a corporation by fine, for instance, will acquit the individual members of that corporation if we proceed against them criminally because of those very things which the corporation which they direct and control has done. In a recent case against the American Tobacco company I tried the two corporations and their respective presidents. The contracts and other transactions establishing the guilt of the corporations were made through, and so far as they were in writing were signed by, the two presidents. Yet the jury convicted the two corporations and acquitted the two men."

"Both verdicts could not possibly have been correct; but apparently the average jurymen wishes to see trusts broken up, and is quite ready to find the corporation itself, but is very reluctant to find the facts proven beyond a reasonable doubt when it comes to sending to jail a reputable member of the business community for doing what the business community has unhappily grown to regard as well-nigh normal in business. Moreover, under the necessary technicalities of criminal proceedings, often the only man who can be reached criminally will be some subordinate who is not the real guilty party at all."

"Many men of large wealth have been guilty of conduct which from the moral standpoint is criminal, and their misdeeds are to a peculiar degree reprehensible, because those committing them have no excuse of want, of poverty, of weakness and ignorance, or as a partial atonement. When in addition to moral responsibility these men have a legal responsibility which can be proved so as to impress a judge and jury, then the department will strain every nerve to reach them. If they are to be reached, it is impossible, then it will take whatever action will be most effective under the actual conditions."

Legislation Needed for Labor. "I very earnestly hope that the legislation which deals with the regulation of corporations engaged in interstate business will also deal with the rights and interests of the wage-workers employed by those corporations. Attention was taken during the session of last year limiting the number of hours that railway employees should be employed. The law is a good one; but in practice it proves necessary to strengthen it, it must be strengthened. We have now secured a national employers' liability law; but ultimately a more far-reaching and thorough legislation is needed."

CUBA A MENACE. "I very earnestly hope that the legislation which deals with the regulation of corporations engaged in interstate business will also deal with the rights and interests of the wage-workers employed by those corporations. Attention was taken during the session of last year limiting the number of hours that railway employees should be employed. The law is a good one; but in practice it proves necessary to strengthen it, it must be strengthened. We have now secured a national employers' liability law; but ultimately a more far-reaching and thorough legislation is needed."

Washington Started by News Sanitary Precautions Are Ignored and the Island Is Becoming a Source of Infection. "Washington, Aug. 20.—The war department today made public a long cable report from Governor Magoon of Cuba, which started the medical officers, showing as it does that in the short period since the withdrawal of the American government of intervention and the resumption of the American government of army of pacification there had been a neglect of sanitary precautions and an almost complete disregard of the treaty obligations under which the Palma government was to keep the island healthful so that it should not be a source of infection to the United States and other countries. The governor's report also discloses that the fever in this last outbreak has not been confined to the hospital corps, but has extended to others."

Before he left Washington Secretary Taft became seriously concerned for the safety of the American troops and residents of Cuba as a result of yellow fever at Cienfuegos. He called Governor Magoon for a statement of conditions and urged the governor to take every step that prudence should suggest to eradicate the disease. Governor Magoon complied by sending today's report.

SWALLOWS A HAT PIN. Wife of Wealthy Detroit Meets With a Peculiar and Probably Fatal Accident. Chicago, Aug. 20.—Despite the efforts of eight physicians, who have used every modern method known to science to remove a small hatpin from the throat of Mrs. C. G. Ferris, the wife of a wealthy Detroit merchant, the patient is dying at the Auditorium Annex hotel.

While dressing for the theater Mrs. Ferris placed the hatpin in her mouth. She was arranging her hat before the long mirror in her room, when her husband completed a funny story. Forgetting the small piece of steel which she held between her teeth, Mrs. Ferris commenced to laugh. The laugh died in her throat. It was succeeded by a scream. "Oh, my throat, my throat!" she cried, turning to her husband for help. She then explained as best she could what had happened and fell to the floor in a swoon.

Dr. Hammond, the house physician of the annex, was quickly summoned. He was unable to remove the pin. Dr. Alex Hugh Ferguson was called in. He summoned a third physician. An X-ray machine was called into play. By this means the pin was located. An operation proved of no avail. Last night there were eight physicians in attendance. Another operation will be performed as soon as Mrs. Ferris' condition will permit. It is considered her only chance for life and her recovery is said to be extremely doubtful.

BASEBALL. STANDINGS OF THE CLUBS. National League. Chicago 80, W. 30, L. 727, P.C. 62. Pittsburgh 62, W. 43, L. 590, P.C. 62. Philadelphia 56, W. 48, L. 538, P.C. 51. Brooklyn 51, W. 23, L. 464, P.C. 62. Cincinnati 47, W. 62, L. 431, P.C. 40. Boston 40, W. 68, L. 370, P.C. 34. St. Louis 34, W. 80, L. 298, P.C. 62.

American League. Philadelphia 63, W. 42, L. 600, P.C. 62. Detroit 62, W. 42, L. 596, P.C. 66. Chicago 66, W. 46, L. 589, P.C. 62. Cleveland 62, W. 47, L. 569, P.C. 50. New York 50, W. 56, L. 472, P.C. 47. Boston 47, W. 61, L. 435, P.C. 42. St. Louis 31, W. 71, L. 304, P.C. 62.

SCHEDULES FOR TODAY. National League. Pittsburgh at Boston. Cincinnati at Brooklyn. Chicago at New York. St. Louis at Philadelphia. American League. Philadelphia at Chicago. Boston at St. Louis. Boston at Detroit. Washington at Cleveland. GAMES PLAYED YESTERDAY. National League. Chicago 6, R. 11, E. 6. New York 2, R. 5, E. 1. Batteries: Peister and Kling; McGinnity and Bresnahan. Cincinnati 3, R. 11, E. 1. Brooklyn 9, R. 14, E. 2. Batteries: Weimer, Smith and McLean; McIntyre and Bergen. Pittsburgh 8, R. 6, E. 5. Boston 9, R. 13, E. 6. Game called on account of darkness. Philadelphia 1, R. 5, E. 1. Chicago 4, R. 7, E. 0. Batteries: Dygert and Powers; Walsh and Sullivan. Boston 0, R. 6, E. 0. Detroit 3, R. 10, E. 1. Batteries: Winters and Shaw; Mullin and Schmidt. New York 6, R. 10, E. 0. St. Louis 2, R. 10, E. 3. Batteries: Newton and Thomas; Dineen and Stephens.

Spread of Revolutionary Movement Worries Government and Foreigners in China. Berlin, Aug. 20.—The situation in China, especially in the Yangtze valley, continues very unsatisfactory, according to a dispatch received here today. It is impossible, the message adds, to say whether or not a general outbreak is impending, but the revolutionary movement gains strength daily and the secret organizations are growing visibly. The Chinese officials say thousands of revolutionists are concealed in the foreign quarters of the cities, thus placing themselves outside the jurisdiction of the Chinese courts. The revolutionary agitation recently was carried into the army. The provincial officials are doing their utmost to suppress the revolutionary movement and promote reforms, but they feel themselves helpless. Murderous plots against the monarchs continue to be discovered in Peking. St. Paul, Aug. 20.—A special to the Dispatch from Leon, La., says that four persons, a woman and three children, were killed in a storm which passed over that part of the state Sunday night.

ICE MEN IN COURT. Violation of Anti-Trust Law Is Charged at Los Angeles. Los Angeles, Cal., Aug. 20.—The four corporate members of the so-called Los Angeles ice trust were today summoned into court to answer the charge of conspiring in restraint of trade in violation of the Cartwright anti-trust law. The offense charged is under the law a misdemeanor punishable with a maximum fine of \$5,000 or a year's imprisonment, or both, for each offense and a minimum of \$500 or six months' imprisonment, or both. The companies are charged with raising the price of ice 25 to 50 per cent Aug. 1.

PLAN GREAT SAWMILL PLANT. Weyerhaeuser Interests to Operate on Big Scale in Northern Wisconsin. Stillwater, Minn., Aug. 20.—Having acquired various tracts of timber land in Wisconsin, one of the biggest and most modern sawmills and factories in the country will be erected next year at a point on the Wisconsin Central railway between Abbottsford and Ashland. The exact locality has not been determined. The company has been incorporated in Wisconsin under the name of the Atwood Lumber & Manufacturing company. The stockholders are the Frederick Weyerhaeuser company, a combination of all the private interests of Frederick Weyerhaeuser of St. Paul, excepting his corporate interests, and George H. Atwood of this city. The erection of a big paper mill to make paper from pulp is a part of the plan.

SCHMITZ'S REMOVAL UPHELD. Supreme Court Sustains Legality of New Mayor's Appointment. San Francisco, Aug. 20.—The removal of Mayor Schmitz and the appointment of Mayor Taylor is held to be legal in a decision rendered by the state supreme court in the McKenny salary case. Since his conviction and imprisonment on the charges of extortion, former Mayor Eugene Schmitz has maintained that he still is mayor of the city and has at times assumed office as such. The appointment of supervisors and performed other acts to impede the administration under Mayor Taylor. The case was taken into the courts in a dispute over the payment of salaries and the ruling of the supreme court results in the Taylor administration being declared legal throughout.

IN JAIL FOR MANSLAUGHTER. Believing in Prayer, Not Medicine, Father Lets Baby Die. New York, Aug. 20.—Believing in the efficacy of prayer to cure disease, but possessing sufficient forethought to summon a physician just once so that he would be able to secure a burial permit should his baby die of whooping cough, Peter Peterson spent a week in vain appeals to his God that the child's life be spared. Today he is in a cell in the Staten Island jail, charged with manslaughter. The baby, a girl, will be buried after the coroner's inquest and Peterson may not be released on bonds to attend the funeral, as he has few friends with property to act as his surety.

ARMED MOB IN ARIZONA. ATTACKS TELEGRAPH OFFICE. Los Angeles, Cal., Aug. 20.—An armed mob attacked the office of the Postal Telegraph company at Ashfork, Ariz., early today, and broke every window in the building with bullets. The lives of four employees were endangered, but so far as known no one was injured. The last dispatch from Ashfork stated that arrangements were being made by the manager of the office to ring a special engine to Prescott to bring the sheriff to the scene.

YACHT IS MISSING. Marinette, Wis., Aug. 20.—The yacht Ingersoll, which left last week with a party of five young men, is believed to have been lost and two of the men drowned. A few days ago one of the five returned home by rail and reported the yacht at Sturgeon Bay. Since then nothing has been seen of the craft. These aboard were Ralph Kaerl and Jake Cohen.

BIG MAIL ROBBERY. QUARTER OF A MILLION DOLLARS SECURED. While Postal Clerks Are Asleep on a Burlington Train Three Sacks of Registered Packages Are Stolen from the Car. Lincoln, Neb., Aug. 20.—Three mail sacks containing about a quarter of a million dollars disappeared from a Burlington train Sunday night. This fact developed publicly today. Superintendent J. M. Butler of the Sixth division of the railway mail service believes the robbery took place just west of the Nebraska line. Both mail clerks and the train men were sleeping when the train was passing over long stretches of track with few stations. Denver, Colo., Aug. 20.—The Burlington officials in this city say they have no knowledge of the disappearance of registered mail sacks that road believe was shipped and returned, Neb. The Denver postoffice officials said they believed that mail bags containing money were missing, and that they would be found later.

LOST IN THE ALPS. New York, Aug. 20.—Francis Rea MacMillan, American violinist, whose genius has attracted attention both in this country and abroad, is reported in cable advices to be lost in the Alps. He was last three days ago while attempting the ascent of Mt. Blanc. The violinist is twenty-two years old and is a native of Marietta, O.

Hundreds of Arabs Killed in Battle. French Forces Rout Moslem Warriors in Desperate Fighting at Casa Blanca. Casa Blanca, Aug. 20.—The Arabs who were approaching the city from that quarter. By 12 o'clock the Moors were in full flight. From the terrace of the French consulate red dolmans, worn by the regular Moroccan troops, were distinctly discerned among the Moslem horsemen. It was considered uncertain, however, whether they were regulars or deserters who had regained their uniforms.

DISPLAYING DAUNTLESS BRAVERY, CHARGING TIME AND AGAIN IN THE FACE OF A MERCILESS, SLAUGHTERING FIRE OF RIFLES AND MACHINE GUNS, TWENTY THOUSAND MOORISH TRIBEMEN MASSES FOR TERRIFIC ATTACK ON GENERAL DRUDE'S TROOPS ARE FINALLY BEATEN BACK, RECOILING IN PANIC, WHEN ALMOST AT CITY GATES, SHELLS FROM THE WARSHIPS EXPEDITING THEIR FLIGHT. Details of the Battle. Tangier, Morocco, Aug. 20.—A pitched battle for the possession of the city was fought at Casa Blanca yesterday between a force estimated to contain 20,000 Moors and the French army of 6,000 men, which beat off the attack in a fierce conflict lasting four or five hours. Hundreds of Arabs were killed or wounded. The Moors displayed remarkable bravery and penetrated to a point within 800 yards of the city gates. As in the case of the many previous fights before the Moroccan seaport it was the French batteries of artillery, machine guns, and the heavy ordnance of the Moors in the harbor, particularly the Gloire, that finally put the Arabs to flight with a large body of French cavalry in close pursuit.

FIGHT CZAR'S COSSACKS. Anarchists Barricaded in House Give Desperate Battle. Odessa, Aug. 20.—An encounter has taken place at Kryvovosera between a detachment of troops and a band of five anarchists. The anarchists barricaded themselves in a house. They opened fire from the windows and held the troops at bay for eighteen hours. The chief of the local police and several Cossacks were killed. Two of the anarchists lost their lives, but the other three managed to escape.

Friend of Jews Dismissed. General Gregoroff, who has been prefect of Odessa for nearly two years, has been dismissed and as a result there is great anxiety among the Jews of this city. General Gregoroff averted a serious anti-Jewish attack last February by reporting personally to the emperor the impending trouble.

PULAJANISM STAMPED OUT. Philippine Guerrillas Suppressed After Long and Bloody Struggle. Washington, Aug. 20.—Pulajanism, or guerrilla warfare, has been stamped out by the American forces in the island of Leyte, for the first time, it is said, since the occupation according to advices received at the war department, and peaceful conditions now prevail there. Both the military and the constabulary, which have been working together to bring about this much desired result, are receiving praise from all sources. It is said there is only one chieftain, Filipo Ydsao, still at large. Major Bell and all the American troops have withdrawn from the field service in the province. Efforts are being made to have the people return to their homes, and to this end officers are assuring them that the trouble is over.

RAILROAD ESCAPES BIG LOSS. Liquidation of Stock Holdings Saves the Pennsylvania \$7,000,000. New York, Aug. 20.—By liquidating a part of its stock holdings last summer the Pennsylvania railroad apparently avoided a loss of some \$12,000,000 in the persistent decline of security values since then. If the directors of the company had not considered it necessary to part with any of its holdings in the other soft, easy roads the loss would have been largely in the nature of paper losses, just as its profits on basis of last summer's inflated prices were largely paper profits. But it was a practical necessity for the company to relax its grip upon the Baltimore & Ohio and the Norfolk & Western, so that the sale would very probably have taken place by now in any event. If it had not, the Pennsylvania group would have been one of the principal targets in the railroad field for attack by federal and state authorities. On the other hand, the prices which the Pennsylvania realized were well below the top levels of last year's rise, and under normal conditions were probably not even a little more than the stocks are worth. Hence the difference between those prices and the going prices of today may be considered as measuring the actual loss which the Pennsylvania saved.

NEW DEEP WATER CANAL. Ocean Steamships to Unload at Inland Wharves at Newark, N. J. New York, Aug. 20.—Dredging work will be started Thursday for a deep water channel through Newark bay and the Passaic river, the United States government having awarded a contract for that purpose last week. It is expected that in about three years large ocean steamships may be able to unload their cargoes at the wharves in Newark, N. J. The channel is to be eleven miles long from the Kill Van Kull to the Greenwood lake railroad bridge on the Passaic river, with a minimum depth of sixteen feet at low tide. This will make the depth from twenty to twenty-one feet at high tide, and make the river navigable for ocean-going vessels.

WINS THE LIPTON CUP. Chicago, Aug. 20.—The Cherry Circle won the third race and the Lipton cup today, beating a fleet of four yachts. The Jackson Park was second, Queen Sabe third and C. A. A. fourth.

DAILY MINING JOURNAL

MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$2.00; Per year, by mail, \$20.00.

MARQUETTE, MICH., AUG. 21.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Meanwhile the police commission pursues the even tenor of its ways.

We like these heart-to-heart talks from our boards. Let us have more of 'em.

With the board of fire and water commissioners it appears to be again a case of "United we stand; divided we fall."

Secretary Taft is a revisionist as regards the tariff, but his speech this week leaves no doubt that he is standing pat on the president's general policies.

The Associated Press having denied its denial of John D. Rockefeller's reported comments that the country is going to the bonbons, it appears that the original interview stands.

Senator Knox of Pennsylvania is reported to be keeping a close eye on the presidential race. Wonder if he noticed the results of the Chicago Tribune's poll of eleven middle west states?

The Marquette ball team claims the amateur championship of the upper peninsula, which shows that the great American game hasn't entirely languished here, even if Marquette is without the pale of any of its leagues.

The upper peninsula appears to have a local telegraphers' union! The upper peninsula need not be particularly concerned. There is nothing that a local union in this region can do that will make the situation in regard to telegraph service any more annoying than it already is.

Escanaba wants a larger government building than the appropriation of \$50,000 can be expected to erect. The \$50,000 for its part, is wondering why its \$100,000 building is to be started. It's something like a year since the government architects looked over the site, but as far as the \$50,000 has been able to learn no pencil has yet been put to the plans.

Tom Lawson put his Indian sign on Copper Range yesterday, and it was bumped for a few additional points. Tom's latest advertised tip to the great investing public is that Copper Range is going to be an immensely good thing after a little line of 50,000 shares is marketed. Of course in the marketing of the 50,000 Copper Range is likely to be temporarily damaged, from the market viewpoint. With Tom Lawson renegeting his advertising operations an already complicated is given to an already intricate and baffling market situation.

The better part of \$3 represents the difference between the old fare to Chicago and the present fare, and they will be an additional, though slight, reduction when the Michigan railroad fare law goes into effect. The latest reduction is due to the operation of the Wisconsin two-cent fare law. On the round trip between here and Chicago the saving will be nearly \$6, or the expense of a berth both ways, with a little left over at that. There is no doubt about the public benefitting from the new rate laws, and if it only proves that it is not benefiting at the expense of the legitimate profits of the railroads all will be well.

In another column The Mining Journal prints the text of an authorized interview recently given the press by Congressman Jenkins of Wisconsin, chairman of the house judiciary committee, apropos the recent contention between the federal judiciary and the judiciary of one of the southern states as to jurisdiction in a railway case. Mr. Jenkins' opinions are sound and well considered. Unfortunately they were, in many instances, put before the people in a garbled form. Parts were divorced from their context, with a result that placed Mr. Jenkins in the light of being a sensationalist, whereas his statement, while couched in plain language, is not sensational. As things fell out editorial articles based on the garbled reports of what he said severely criticised Congressman Jenkins, whereas if the writers had read his whole statement their com-

ments would have been a very different nature. Mr. Jenkins' statement is well worth a reading, and voices a timely warning. It is reported that two upper peninsula men, to say nothing of L. L. Wright, state superintendent of public instruction, who, in the natural order of things, will be renominated, will be candidates for places on the next state Republican ticket. The candidacy of William Stannard of Greenland for the office of secretary of state has been mentioned in such terms that it may be said, even at this early date, to be almost authentic, and now the story is abroad that Senator Fuller, of Delta county, would like to receive the nomination as auditor general. Senator Fuller's health is reported to be improved, but ill health with him is no bar to active participation in public affairs, as has been clearly shown the past year. Senator Fuller is widely known in the state, through long service in the senate, and would be an important factor in the race for any office he became a candidate for. It would appear, however, that as a general proposition three nominees on the state ticket would be more than the upper peninsula could well expect to land, though it might capture two.

An interesting and unusual situation has arisen in Shiawassee county as a result of the refusal of the voters to authorize the payment out of county funds of accounts contracted on account of the county's new court house beyond the amount of the appropriation which the people authorized to be expended for that purpose. The matter has just been presented and the proposal to legalize the unpaid debt against the court house was defeated by an overwhelming adverse vote, this despite the fact that an audit of the books by expert accountants showed that the extra money used actually went into the building, and was not employed to line the pockets of supervisors. Liability under the circumstances is said to lie against the supervisors. They acted as individuals, rather than as supervisors, in incurring the debt beyond the appropriation. The point is also made that the loaners to whom the money is owing are not beyond criticism in the matter, it having been their plain duty to satisfy themselves that the loans were regular. "While the refusal of counties and cities to legalize debts illegally contracted by their officers, even though money thus obtained was honestly expended, may work hardships upon those who advanced the money, there is another side to the situation than these hardships," says the Lansing Republican. "The taxpayers of the county or city who have such debts to pay have rights which should be considered. Refusal to assume responsibility for the recklessness and extravagance of men entrusted by them with the administration of public affairs is one of the most effective means of guarding against such conduct. It won't take many such refusals to place people with money to loan on their guard against aiding in the performance of illegal acts by loaning the funds to enable them done, trusting to the taxpayers to swallow their wrath and vote to pay these illegal debts. Public officials, too, would be less ready to assume that the people will stand for their lawlessness."

The Mining Journal, along with pretty much every one else, read the statement of the board of fire and water commissioners with keen interest, and found it a very creditable and well phrased document. Indeed it is hard to conceive of a more effective presentation of the board's case, and it doubtless will serve as a corrective to some of the anti-board feeling that may have been engendered of late weeks, and this lead to the questions involved being looked at impartially. Thus it will serve a good purpose, besides being welcomed as a sort of accounting by the commissioners for their stewardship. It is recalled, in connection with the statement, that a few months ago Messrs. Palmer and Jennison, the latter then a member of the board, reported, as a special committee named to investigate the feasibility of intake extension as a means of getting away from the creosote nuisance, that they were satisfied that intake extension would turn the trick, and therefore they recommended that steps be taken to purchase pipe and have it laid without delay. This report was not adopted. It might have been had Mr. Palmer's vote been cast for it. The point is not particularly important, but the occurrence of Mr. Palmer's name in signature of the report mentioned and in signature of the statement published yesterday not unaturally suggests that the board is simply floundering on this question.

Fine words and well put arguments will not gloss over the fact that the water trouble here has now attained an age of several years, during all of which there has been constant complaint in regard to the supply, nor will they gloss over the fact that the board, by its own statement, is now about as far from arriving anywhere as at any time since the issue was created. It talks of diverting the refuse from the furnace to the lower harbor, but complains that the sewer is dilapidated. Has it made any representations to that effect to the council or asked for the building of a new sewer? It has not. It is not charged that the board has been inactive on this question, but it is generally held that it has been too long inactive as far as effective results are concerned.

In public business there is little virtue in putting off, and four or five or six years ought to be sufficient time to get action on almost any kind of a problem. As for the North Marquette extensions the board believes that they are wanted principally by the land owners and to satisfy promises of land agents made to people living in the district that they would be given free water, and asserts that only a small percentage of the North Marquette people would take water anyway. If the latter statement is true it puts a very different face on the situation, and the board's hesitancy about the North Marquette extensions is in large measure justified, for it had come to be understood that the people of North Marquette all wanted water, and were most unhappy about being denied it. The board points to a resolution providing for assessing part of the cost of extensions as justifying its stand that the North Marquette suburb should defray part of the expense. The resolution, however, does not make assessment mandatory, but leaves it to the discretion of the board. The board would hardly assess any part of the cost of extensions if it could see where the city would be quickly reimbursed for the expense by new business. The people in North Marquette are making homes for themselves, many of them under difficulties, and should not be unduly burdened by the city. If all of them took water there would be a tangible income added to the city's resources, and it would grow rapidly, as the city's largest growth is in that direction. At the same time it appears that a reasonable proportion of the cost spread over a sufficiently large district would not bear very heavily on any single property. The matter is one on which the board and people concerned ought to be able to get together by both giving a little ground. As to both questions The Mining Journal is of the opinion that the board ought to have them farther advanced to a definite settlement at this time. They are not easy of solution, to be sure, but much time has elapsed since they took tangible form, and delay does not simplify them a whit. It is certainly an exaggeration to say that all the taxpayers are dissatisfied with the board to the point of wanting it to quit, but it is doubtless approximately correct to assert that most of the taxpayers would like to see it put on considerably more steam than it has carried of late years.

It is worth considerable to any citizen of Marquette to know how to be cured of painful, annoying and itching piles. Know then that Doan's Ointment is a positive remedy for all itches of the skin, for piles, eczema, etc. One application relieves and soothes. Read this testimony of its merit. David Reichel, carpenter, of 115 Baraga St., Marquette, Mich., says: "For ten years I had itching hemorrhoids and though I tried remedy after remedy nothing brought me any relief. The itching was a continual torment. I could not sit still nor rest, and there was a continual desire to rub the inflamed parts. Someone advised me to try Doan's Ointment and I got a box at the Stafford Drug Co. It seemed as if the first application stopped the itching and I continued its use until my trouble was gone. Since then I have considered Doan's Ointment the greatest remedy of its kind on the market."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Never let a dealer sell you a substitute for an article you ask for. He is working for his own profit and not yours. Get what you ask for.

PRESQUE ISLE SASH AND DOOR CO. FIRE FIRE FIRE The fire Friday night, August 16th, was certainly a bad one, destroying as it did our immense building 100 x 250 feet and practically all its contents, but this morning we are ready to furnish all kinds of building material as promptly as before. Or will furnish the material and have it put in place in your building, you only paying the labor bills in addition to the price of the material. Remember, we handle everything. We lay the cement floor in your cellar; put up the wall of cement blocks or solid cement; furnish all the lumber, lath and plaster the house, put in the finish, paint it inside and out and turn over the key with the house ready to live in. We will be pleased to give you the names of those for whom we have done work, saying them all the contractor's and superintendent's profits.

100% MONARCH PAINT We use only 100 per cent pure PURE Look at some of the houses we have put it on.

# Copper Country

### WILL LAY CORNERSTONE.

Albert Paine M. E. Church to be Erected at Painesdale.

The ceremony of the laying of the cornerstone of the Albert Paine M. E. church at Painesdale will be performed next Saturday afternoon by P. W. Denton, general manager of the Copper Range Consolidated Mining company; Rev. R. L. Hewson, pastor of the church; Rev. S. D. Polkinghorne, pastor of the Lake Linden M. E. church, and a large number of other clergymen and the church choir. It is promised to be one of the important events of the year in Painesdale. The following is the program:

**Hymnology.**  
Reading from ritual—Rev. W. J. Harper, Baltic.  
Prayer—Rev. H. A. Shaw, Ph. D., Tri-mountain.  
Anthem—Painesdale M. E. choir.  
Psalm—Rev. E. Beckford, Conteminal.  
Lesson—Rev. R. Emory, Opcheer.  
Laying corner stone—Mr. F. W. Denton.  
Singing "America"—Sunday school children.  
Benediction—Rev. R. L. Hewson, pastor of Painesdale M. E. church.  
There is to be a concert in the library building Saturday night in honor of the cornerstone laying, and a special service in the old church Sunday evening.

### FIREMEN'S TOURNAMENT.

#### Opening Day Yesterday—Parade and Convention Held.

The annual tournament of the Upper Peninsula Firemen's association opened at Ontonagon yesterday morning. All the departments in the copper country are represented, each by about twenty-five men.

The opening day is one of the most important, as on this occasion there are held the prize parade of fire companies and the annual convention, election of officers and selection of the place of holding the next tournament. It was conceded in the copper country yesterday morning that Munsing would be given next year's meeting.

# Perfect Womanhood

The greatest menace to woman's permanent happiness in life is the suffering that comes from some derangement of the feminine organs. Many thousands of women have realized this too late to save their health, barely in time to save their lives.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study.

## Lydia E. Pinkham's Vegetable Compound

The great woman's remedy for woman's ills, made only of roots and herbs. It cures Female Complaints, such as Dragging Sensations, Weak Back, Pains, and Displacements, Inflammation and Ulceration, and all Organic Diseases, and is invaluable in the Change of Life. It dissolves and Expels Tumors at an early stage. Subdues Faintness, Nervous Prostration, Exhaustion, and strengthens and tones the Stomach. Cures Headache, General Debility, Indigestion, and invigorates the whole female system. It is an excellent remedy for derangements of the Kidneys in either sex.

### COMPANY GIVEN STREETS.

#### Hancock Council Vacates for the Hancock Consolidated.

The Hancock city council held a regular meeting Monday night, and transacted a large amount of business. The most important matter was the question of vacating certain streets and alleys in West Hancock to the Hancock Consolidated Mining company. The company requires these streets for the right of way of its railroad, and it is willing to give the city certain property in consideration for the favor and the public generally appears to be satisfied because of the great benefit which the company will be to the city.

The securing of the Yantic by Hancock makes possible the formation of three other divisions of naval reserves in the upper peninsula, the state law permitting the formation of two battalions, to complete which will require the three new divisions. Just what steps will be taken toward this result will not be known until the ship arrives at Hancock.

### MARKETS

#### NEW YORK STOCKS.

New York, Aug. 20.—Considerations of a political character were given today's stock market almost to the exclusion of all other things. Secretary Taft's speech, which Wall street close to regard as the "keynote" of the next national campaign, and President Roosevelt's Provincetown address were practically the sole topics of discussion.

#### COPPERDOM BREVITIES.

M. C. Scully of Marquette is calling on the cigar trade in the copper country. The new furniture for the Calumet High school has been received, and is being installed. Miss Bessie Rogers of Hancock, who has been visiting relatives in Marquette, has returned home.

#### THOUSANDS HAVE KIDNEY TROUBLE AND NEVER SUSPECT IT.

Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost always unrecognized by patients and physicians, who content themselves with prescribing the effects, while the original disease undermines the system.

#### YANTIC FOR PORTAGE LAKE.

Seems That the Hancock Reserve Has Landed the Ship.

The telegraphic communication from Colonel Cox to the Hancock reserve Monday night seems to indicate that the good ship Yantic is definitely assigned to that division, or rather to a future upper peninsula battalion. The division is now awaiting orders to leave for Detroit.

#### TO ADVERTISE THE FAIR.

Secretary McNamara Goes to Ontonagon for the Purpose.

Secretary McNamara of the Copper Country Fair will leave this morning from Houghton for Ontonagon to tell the visitors at the firemen's tournament all about the great fair, an event second only in importance to the tournament itself. He will take with him a large amount of advertising matter and thoroughly sow the seed of publicity throughout Ontonagon county.

#### HOUGHTON COUNTY ELECTRIC LIGHT CO.

The Chief Center of the West Oil Paintings, Water Colors, Engravings, Prints, Artist Materials and Picture Framing of all kinds. Our Art Galleries appeal to people of refinement, who appreciate works of art. We want you to come and see the many beautiful pictures which we have on sale in our Art Galleries.

**WILLIAM O'LEARY,**  
236 Woodward Avenue,  
DETROIT, MICH.

#### CONVULSING AND HAS RETURNED TO HER HOME IN EAST HOUGHTON.

Mrs. Louis Arne and the Misses Arne of Calumet, who have been visiting in Houghton, have returned home. Albert Buttzberg of Houghton, returned with them to Calumet for a visit.

Mr. and Mrs. Harry Dunning of Houghton have returned from Menominee, where they were married last week. Mr. Dunning is stove salesman for the Porage Lake Hardware company.

Herman Gundlach, the Houghton contractor, is confined to his home with a severe injury to his foot received in an accident to the gasoline engine of a launch at Twin Lakes last Sunday.

Mr. and Mrs. Edward Pridelux and Mrs. Fred Sherman and daughter of Mineral Point, Wis., who were in Hancock to attend the funeral of the late Wilber Hoffenbacher, returned home Monday.

The first annual picnic of the Calumet teams will take place today at Tammarack Park. Every teamster in town will participate and there will be a big parade headed by a mounted band of Hugh Riders to the afternoon.

Attorney Oscar J. Larson of Calumet is in Duluth on business. He is to locate permanently in the Zenith City and hopes to arrange his affairs in Calumet so that he will be enabled to make the change before the close of the present month.

"Salome Jane" at the Calumet theater, Calumet, and "The Mayor of Tokio" at the Keridge theater, Hancock, tonight, will mark the opening of the theatrical season of 1907-08 in the copper country. These attractions will exchange houses tomorrow night.

John C. Shields, superintendent of the Keweenaw Central railroad, is planning on removing his residence from Hancock to Phoenix. Mr. Shields has been a resident of Hancock for more than thirty years, during which time he was superintendent of the Mineral Range.

#### BUZZARD WEARS SHEEP BELL.

Carroll, Ill., Aug. 20.—A huge black buzzard, wearing a sheep bell, has been attracting the attention of farmers near Brownsville the past week, and scarcely a day passes but what the bird is seen circling about the neighborhood. For several days it was a puzzle to the copper and will not be obliged to do so for some time to come.

#### CHICAGO GRAIN MARKETS.

Chicago, Aug. 20.—Wheat was bullish all day on an active demand by export houses and cash interests. There was a sharp advance at Liverpool, reports of frost in the Northwest and unusually heavy export business at the seaboard. The close was strong, 1 1/2 higher. September opened at 85 1/2 @ 86; highest, 87; lowest, 85 1/2; closing, 86 1/2 @ 87.

#### WHEAT SUMMARY.

Paine, Webber & Co.'s Chicago correspondent said yesterday concerning the wheat market: "The wheat trade had many bull helps today. The first was a very strong Liverpool cable at about 1d advance. This reflected the unseasonable in the English market over the possible cold weather injury to the Canadian crop in the north-west. The continental cables all came strong and higher at the close. Export business late yesterday raised the total to slightly below and over 100 boats, which expert sales are indicated for today. The export houses were buying freely here 1 1/2 higher than yesterday for No. 2 hard wheat, which cash houses declined to sell. Low temperatures in the north-west, very close to the danger line for frost, had a bullish effect on spot markets increased the buying of wheat. The southwest receipts show a falling off, 241,000 vs. 330,000 a year ago. A review of European crops is very favorable for France only and bullish from all other countries. Late messages from the northwest confirm frost at Valley City, N. D. It must be conceded that there is no such taking of wheat at Chicago as the trade reasonably expects, that stocks here are very large and that it will require constant bull news to carry the load and keep prices advancing."

#### BOSTON STOCK QUOTATIONS.

Writing from Boston yesterday, Paine, Webber & Co. said: "The market opened weak all around, with Copper Range the feature, all due to Lawson advertisements and bear manipulation. There were about 10,000 shares traded in from 62 down to 58, and it rallied to 62 1/2, on transactions of only a few thousand shares. On the drive there was a tremendous investment demand around 60. The feeling is gaining ground that most every bear argument imaginable has been used and that from now on the market will respond more readily to the least bit of good news. We believe this is the time for the investor to pick up some cheap copper stocks. The News Bureau published an article just before the close, stating that should Copper Range find it necessary to sell its output for the rest of the year 1907, this year's output and pay 8 per cent."

#### COPPER RANGE'S POSITION.

The News Bureau says: "The feature of the local market today has been the activity in Copper Range. From a closing at 62 last night the stock sold down in the early trading to 57 1/2, with large

# TUXEDO CLUB CIGAR

# S.S.S. CURES SKIN DISEASES

No skin disease can exist without an underlying cause, and in most instances that cause is either a humor in the blood or an excess of fiery acids in this vital fluid. These humors and acids get into the blood, generally because of an inactive and sluggish condition of those members whose duty it is to collect and carry off the waste and refuse of the body. This unhealthy matter is left in the system to sour and ferment, and soon the circulation becomes charged with the acid poison. The blood, in its effort to rid itself of this foreign matter, begins to throw off the humors and acids through the pores and glands of the skin. These coming in contact with the delicate tissues and fibers with which the skin is so abundantly supplied produces irritation and inflammation on the surface, and Eczema, Acne, Tetter, Psoriasis, Salt Rheum, or some other troublesome and disfiguring skin disease is the result. External applications, while they soothe the itching, and are beneficial in keeping the skin clean, can never cure skin affections, because they do not reach the blood where the real trouble is located. A thorough cleansing of the blood is the only permanent cure for skin diseases. S. S. S., the greatest of all blood purifiers, is the best treatment. It cures by neutralizing the acids and removing the humors from the circulation so that the skin, instead of being irritated and diseased by the exuding acid matter, is nourished and soothed by a cooling, healthy stream of blood. S. S. S. goes down to the very bottom of the trouble, removes the foreign matter and thereby permanently cures every form of skin trouble. Do not expect to cure a blood disease with local applications alone, but begin the use of S. S. S., and when you have removed the cause the skin will be free from disease. Special Book on Skin Diseases and all medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

City Brevities

A son has been born to Mr. and Mrs.  
T. C. Smith.

E. S. Bies left last night for a visit  
in Milwaukee.

A social hop will be given at Keough's  
Hall this evening.

Bernard Barassa of Negaunee visited  
friends in the city yesterday.

J. H. Foster left last night for Chi-  
cago, where he will spend a few days.

Mr. and Mrs. James H. Bennett have  
returned from a brief visit to Munising.

James LaFortune, who has been ill at  
his home for the past week, is convalesc-  
ing.

Mr. and Mrs. John M. Landstrom and  
family are spending a few days at Lake-  
wood.

Mr. and Mrs. Robert Peters are back  
in the city after a visit to friends at  
Munising.

Henry Robertson of Laurium, recently  
paid a brief visit to his brother, Mayor  
Robertson.

C. W. Kennedy, the black diamond  
man, is in the city. He leaves tonight  
for Houghton.

Mrs. James E. Jopling and her son,  
who have been in Munising, returned  
home yesterday.

Mrs. W. I. Stenmons of Peoria, Ill.,  
is visiting friends in the city. She ar-  
rived here yesterday.

Miss Charlotte Bohm of Ishpeming has  
returned to her home, after a visit with  
Mr. and Mrs. Fred Knight.

Miss Nellie Dixon and the Misses Nel-  
lie and Edith Denny have returned to  
their homes in this city.

Miss Jennie LaFortune, who has been  
visiting Mrs. Ed. Bureau at Garden Bay  
for the past ten days, has returned.

A party composed of Mr. and Mrs.  
Peter W. Phelps, Mr. and Mrs. Anstus  
Farrell and W. J. Castle returned yester-  
day from a visit at Munising.

Mrs. S. S. Ormsbee and Mrs. H. B.  
Stitt, of Grand Rapids, who has been  
her guest for the past ten days, left  
for Rockland yesterday morning to visit  
Mrs. L. W. Stannard.

The Misses Norma and Grace Ross  
have returned from a trip to Detroit.  
While away Miss Norma attended the  
American Institute of Normal Methods at  
Northwestern University, Evanston,  
Ills.

Attention is directed to the advertise-  
ment of the Presque Isle Sash & Door  
Co. in this issue. It will be seen that  
this concern is in the business of supply-  
ing building material despite the fire  
which destroyed its plant.

Phil Trombly left this morning for  
Lindsay, Ont., his former home, and  
will visit relatives for several weeks.  
His wife is there now, and he will ac-  
company her home. This will be Mr.  
Trombly's first visit to the place of his  
birth in twenty-eight years.

F. Stuart Byrne, son of Justice Byrne,  
who has been away for the past three  
weeks on a vacation, returned yesterday.  
The time away was spent at the James  
town exposition, at Baltimore, his father's  
old home, and in the east. He was a  
delegat\* to the national convention of  
the Knights of Columbus.

Compiling Cook Book—The ladies of  
the Methodist church are compiling a  
cook book. They are soliciting adver-  
tisements from merchants, and the book  
will be issued in a short time.

To Be Married—Herman Couvion, a  
painter, and Miss Lizzie Laplant, ob-  
tained a license to marry at the county  
clerk's office yesterday. Another li-  
cense was issued to Aude Karppinen and  
Anna Tarvot, both of Negaunee.

Bankruptcy Discharges—Discharges in  
bankruptcy have been issued in the  
United States district court to William  
J. Strike and Angus Seiacero, both mil-  
ners and both of Calumet. In his peti-  
tion filed last Dec. Strike listed debts  
amounting to \$1,153.45. Seiacero's peti-  
tion was filed in July of 1906. He owed  
\$821.67.

Mayor's Brother Ill—Mayor Robertson  
last night received a telephoned com-  
munication that his brother James Rob-  
ertson, the contractor, who lives at  
Owen Sound, Ont., Can., is dangerously  
ill. The mayor with another brother,  
Henry Robertson, of Laurium, left this  
morning at 5 o'clock for Canada. Owen  
Sound is Mayor Robertson's former home.

Nine of Invisibles—Marquette has a  
base ball nine which styles itself the  
Invisibles, and it is stated that the team  
will be seen next Saturday when a game  
is to be played at the fair grounds with  
the Den team. The invisibles are cap-  
tained by Joseph Primeau, Jr., who is  
the catcher. The pitcher is R. C. Fox.  
At the game Saturday, County Clerk  
Frank Jenks is to be umpire.

Marquette Is Skipped—It has been an-  
nounced that the steamer North West  
eastbound from Duluth to Buffalo and

scheduled to arrive in Marquette at 6  
o'clock this evening, will not stop at the  
port. The boat was delayed by Sun-  
day's storm and is making up lost time.  
The Juniata eastbound from Duluth to  
Buffalo will arrive in port at 6 o'clock  
and will sail at 7 o'clock.

Putting on Airs—Since its arrival in  
Marquette the new fire tug, Charles  
Halladay, has undergone several changes.  
The tug was first scrubbed, and the dark  
brown grime of the Chicago river which  
it brought with it disappeared. Then it  
was painted and it is announced now that  
a new whistle has been installed. It was  
said that the siren whistle that was on  
the tug when it came to the port did not  
make enough noise, particularly after  
the new coat of paint was applied, but  
now this is changed and the little vessel  
may tout its pride through as many as  
three harmonious whistles which have  
been placed in operation.

Society Elects Officers—The St. Jean  
Baptiste society this week elected officers  
as follows: President, Dr. Z. Valmaiz; first  
vice president, L. Ritchie; second  
vice president, Ed. Neault; secretary arch.  
and cur. Eusebe Bertrand; assistant  
secretary arch. and cur., Frank LaBonte,  
Jr.; financial secretary, Philip L. Pelis-  
sier; assistant financial secretary, Joseph  
Davis, Jr.; treasurer, J. H. LaRoche; as-  
sistant treasurer, A. E. Archambeau;  
Comm. Ord., E. DuBois; commandant,  
Charles Beaudry; sergeants at arms, H.  
Dupuis, Alphonse Tremblay and V. Gin-  
grass; directors, Joseph Davis, Sr., Emile  
Henne, Art Bourgeois, Joseph A. Rose  
and Eugene Lalochelle. The society is  
in flourishing condition, with a member-  
ship of 300 and a strong treasury.

CHARGED WITH THEFT  
MAN SLASHES THROAT

Gust Perkowski, until recently a bar-  
tender in the saloon of Gust Johnson on  
Baraga avenue, attempted to commit  
suicide yesterday while resisting arrest  
upon a charge of theft. With the rusty  
blade of a big barbed knife, with which  
he had attempted to stab a Houghton  
county deputy sheriff, he cut a deep ugly  
gash in his own throat and he is now  
in a critical condition. If it is possible  
for him to travel he will be brought to  
Marquette today from Kenton, where the  
arrest was made, and will be placed in  
a hospital.

Perkowski disappeared mysteriously  
on the night of Aug. 18. The next  
morning his employer, Johnson, dis-  
covered that a small iron compartment  
in the drawer of his cash register had  
been forced open and the contents, \$90  
in cash, were missing.

A warrant was sworn out for the fugi-  
tive's arrest and yesterday Marshal  
Manning learned that he was in Houghton,  
Ont. He telephoned the man's de-  
scription to the sheriff of the county and  
a deputy located him at Kenton. When  
Perkowski was told that he was un-  
der arrest, he sprang away from the  
deputy and drew his knife.

In the struggle which followed the  
other was slightly wounded, and his  
clothes were slashed in a half dozen  
places. Before the prisoner could be dis-  
armed he plunged the blade of the knife  
into his own throat. The blade narro-  
ly missed the jugular vein, but severed  
a number of lesser veins, and a physician  
who attended him stated that his recov-  
ery is doubtful.

In the communication sent to Mar-  
quette, it was said that there is no place  
at Kenton where the prisoner might be  
properly attended and Marshal Manning  
left last night to bring him to Marquette.

500 CANAL PASSAGES.

Sault Ste. Marie, Mich., Aug. 20.—  
[Special.]—The upbound boats passing  
the canal the last twenty-four hours  
were the following: Sheldon, Parks,

Cleveland. Loading—Sheald, Gratiwick.

POTOMAC STEAMER AROUND.

Washington, Aug. 20.—The Norfolk &  
Washington Steamboat company's in-  
coming steamer Norfolk ran aground in  
a fog early today in the Potomac river  
near Maryland point, forty miles from  
here, and up to a late hour tonight  
had not been floated. The several hun-  
dred passengers aboard, many of them  
Jameson Exposition excursionists,  
were transferred to another steamer.

LODGE ANNIVERSARY TO BE CELEBRATED

SEVEN MARQUETTE MEN FOUNDED THE MASONIC ORDER HERE JUST FIFTY YEARS AGO.

BASKET PICNIC TO BE HELD

Elaborate Program for Young and Old to Be Given at Presque Isle—Dance and Reception at Night.

Fifty years ago seven Marquette men established a Masonic lodge, and tomorrow the two hundred and sixty members of the lodge are to celebrate the founding of the order.

The seven members of the lodge fifty years ago were: George T. Barney, Cornelius Donkersley, George P. Cummings, James J. St. Clair, Henry Safford, Charles Johnson and Ariel N. Barney.

The officers of the lodge when it was first formed were: George T. Barney, W. M.; Cornelius Donkersley, S. W.; and George P. Cummings, J. W.

History of Founders. George T. Barney was a nephew of A. N. Barney, who was proprietor of the old Barney Exchange, afterwards the Northwestern hotel.

The first meeting place of the lodge in Marquette was at the old Commercial House on Spring street.

The celebration tomorrow will begin at noon. Special cars will leave the downtown district at 11:30 and 12:30 o'clock.

The celebration will be held at Presque Isle and baskets are to be opened as soon as the second car arrives at the grounds.

In the evening the reception and the dance will be held at the hall in the Opera House block, where refreshments

will also be served. The following committees are in charge of the celebration: Committee on Reception—W. W. Osband, D. W. Powell, and John Robertson.

Committee on Picnic—E. C. Jenks, W. H. Vay, Edw. J. DeWitt, and P. J. DeWitt. Committee on Invitations—Frank Monroe, K. P. Brooks and Ernest L. Pearce.

Committee on Refreshments—Louis Pendill, J. B. Reany and W. A. Ulrich. The present officers of the lodge are: O. E. Brown, W. M.; Frank Monroe, S. W.; F. M. Moore, treasurer; H. J. Lohde, secretary; Roderick McKenzie, S. D.; Ernest Pearce, J. D.; and Frank Wentworth, tiler.

DEATH OF W. H. SURLS. Former Marquette Insurance Man Succumbs to Apoplexy in Milwaukee.

W. H. Surls, a former Marquette life insurance man, died suddenly from apoplexy in Milwaukee, his home, yesterday morning.

BAZAAR POSTPONED BUT OPENS TONIGHT

LACK OF LIGHT CAUSES DELAY BUT THOSE IN CHARGE ARE NOT TAKING CHANCES AND LAMPS ARE NOW PROVIDED.

C'est aux dames auxiliaires qu'est echu l'honneur d'ouvrir la bazaar par un magnifique souper qu'elles serviront a la Fraternite hall ce soir de cinq heures a huit.

Because the lights were off throughout the city, the opening of the French Bazaar was postponed last night, but Fraternite Hall will be open tonight and the bazaar will begin whether the city furnishes light or not.

Supper is to be served at the hall from 5 until 8 o'clock by the ladies auxiliaries and the price 25 cents per plate, will probably attract a large crowd.

The game on the island is, Mr. Jopling says, doing very well. The big game, elk, moose and caribou, is propagating in a satisfactory manner.

"SALOMY JANE." Theatrical Season Had a Most Auspicious Opening Last Night.

The regular theatrical season of 1907-08 had a most auspicious opening at the opera house last evening, with an admirable presentation of an incident in the life of Salomy Jane.

Residents throughout the city and users of power were disappointed yesterday afternoon when the announcement was made that the light would be off last night, and it is now said that the work of installing the new water wheel will probably not be completed before late tonight.

Those most affected by the lapse at the power house are the power users. Many industries—laundries, bakeries, machine shops and others are badly crippled and are feeling the situation keenly.

One effect seen by the absence of electric light in homes is in the public library. The reading rooms until the 8 o'clock closing hour last night were filled with readers who found the bright gas light there more satisfactory than the lamps and candles in their own homes.

The men at the power house are doing all they can to hasten the work, and it was said last night that no serious accident had been met with. The work merely is taking longer than it was first estimated it would take.

If you want dry hard and soft wood 16-inch slabs, call at or telephone to H. J. Keopp & Co., 615 Champion street. Bell Phone No. 73. (5-3-17)

WE ARE THE only people in Marquette county who manufacture practically everything needed for a building. Buy of the makers and keep your money at home. Consolidated Fuel & Lumber company. (4-27-17)

TUXEDO CLUB 10c. If you think you need a tonic, ask your doctor. If you think you need something for your blood, ask your doctor.

Non-alcoholic Sarsaparilla. If you think you need a tonic, ask your doctor. If you think you need something for your blood, ask your doctor.

What shall we have for breakfast? Why Cudahy's Peacock Ham and Eggs of course; they are always acceptable, especially at this season of the year.

SEASON A BIG SUCCESS. More Business at Grand Island Than Can Well Be Accommodated.

A. O. Jopling informs The Mining Journal that the resort season at Grand Island has been a most successful one, and that applications for cottages and accommodations have far outrun the ability of the Cleveland Cliffs Iron company to supply them with the present accommodations.

The demands for cottages and accommodations this year has been so great as to show the officers of the company that they will have to largely increase their present facilities, if they are going to take care of all the people who desire to visit Grand Island.

The game on the island is, Mr. Jopling says, doing very well. The big game, elk, moose and caribou, is propagating in a satisfactory manner.

"SALOMY JANE." Theatrical Season Had a Most Auspicious Opening Last Night.

The regular theatrical season of 1907-08 had a most auspicious opening at the opera house last evening, with an admirable presentation of an incident in the life of Salomy Jane.

**DETROIT PARTIES OPTION OLD MINES**

CONRAD MINE, NEAR CLARKSBURG, AND BESSIE AT HUMBOLDT, MAY BE REOPENED—WATER NOW BEING PUMPED OUT.

There is every reason to believe that Humboldt and Clarksburg, which have been slumbering for some years past, will soon be active locations. The Breitung interests are to reopen the Humboldt mine, and work has already been started there, and options have been taken on the old Conrad mine, a half mile south of Clarksburg, and on the Bessie mine at Humboldt, both of which are now being pumped out. Work at the Humboldt is at present confined to repairing the South Shore spur to the stockpile, from which ore will be shipped this fall. It is expected that part of the machinery ordered a few weeks ago will soon be ready for delivery.

John A. Russell and others of Detroit have secured an option on the Conrad and Bessie mines, and if the properties are found to their liking after an inspection of the workings mining operations will be resumed. A temporary boiler and pump have been installed at the Conrad, and one of the boilers formerly used at the Bessie, which were not removed when the Oliver Iron Mining company gave up the mine a few years ago, is being used to operate the pump. The boiler was the principal part of the machinery left at the Bessie, so that in case operations are again resumed there considerable new equipment will have to be installed.

Conrad a Promising Property.

The Conrad, which was operated over fifteen years ago by the Conrad Mining company, composed of Marquette county and Detroit men, is a promising property, and it is the opinion of mining men of this district familiar with the workings and with the formation, that there are good prospects of a fair-sized mine being developed. There are two shafts and an open pit, one of the shafts being 150 feet in depth and the other about seventy-five feet. Only a few thousand tons of ore were mined and shipped from the property. The ore was carted to Clarksburg, from which point it was shipped via the South Shore line. The ore is of high grade, assaying between 64 and 65 per cent in iron. The deposit is narrow, but ore was found near surface. In fact, most of the ore shipped came from the open pit.

The Conrad company, which became short of funds and suspended operations on that account, gave up the mine at a time when the management thought the chances for developing a paying property were excellent. The lease of the property was retained for several years. The option for a lease now held by Mr. Russell and his associates was secured through Marquette county men formerly identified with the Conrad company, and who are still interested in the property.

The Conrad mine was never properly explored. One diamond drill hole was bored and The Mining Journal is advised that the showing in it was encouraging. The work done in the shafts and open pit was not of a nature to determine the extent of the ore body, which it is thought will be found of good width some feet below the deepest shaft, which is the one to be pumped out first. Indications point to a larger ore body than the one penetrated in the shafts and open pit below the dike. The ore resembles that produced at the Champion mine, also the Humboldt, and the former operators were satisfied that the formation is an extension of the Humboldt and Champion formations.

A resumption of operations at the Conrad mine would necessitate the rebuilding of Clarksburg, where a majority of the buildings were destroyed. Since work was resumed at the American mine, a mile and a half north of the location,

**"SALOMY JANE" FRIDAY.**

Lieber's Successful New York Attraction Coming to Ishpeming Theatre.

William Archer, one of the most distinguished of all the London critics and an authority upon matters pertaining to the drama, during the visit he paid New York last winter, witnessed "Salomy Jane" at the Liberty theater and then wrote the London (Eng.) Tribune which he represented:

"Briefly and compendiously it is the most charming thing I have seen in America. In point of sheer delightfulness, the romantic atmosphere of 'Salomy Jane' carries the day over all possible rivals. There have been many attempts to get the aroma of Bret Hart's Californian sketches over the footlights, but none so successful as this. The play is admirably constructed, crisply written, vigorous, engaging. The well-known Bret Hart types such as Yuba Bill, the stage driver, and Jack Marbury, the gambler, stand out clear and convincing. As for Salomy Jane herself, she ranks easily among the most fascinating creatures I have ever seen upon the stage. Her bravery, her little touch of feminine ferocity, her resourcefulness, independence, originality and finally her swift up-blazing passion, render her a truly poetic figure. She will long dwell in my memory as an ideal creature."

Lieber & Co. are not wasting the sweetness of "Salomy Jane" upon circumscribed air. Its New York success at the Liberty is being at once followed up by the present tour. It comes to the Ishpeming theatre on Friday evening next with every stage effect that characterized its original presentation.

**FILLING MANY ENGAGEMENTS.**

The Ishpeming band, which began business July 3, is developing into a first-class organization as is evident from the quality of music it is rendering, and its popularity is shown by the number of engagements it has. The band now contains twenty-one men and two or three more will soon be added. Negotiations are pending for securing a first-class clarinet player, one who will be able to handle the more difficult solo work. The band has filled from two to three engagements a week ever since its organization and it already has a good-sized sum in its treasury. Tomorrow it will furnish music for the Masonic society's picnic at Marquette and on Saturday it has been engaged to play for the Golden Eagle society in this city, which gives a picnic at Cleveland park. A few other engagements have also been booked for the near future.

**"MAYOR OF TOKIO" PLEASSED.**

Ishpeming's theatrical season was auspiciously opened last night with "The Mayor of Tokio" as the attraction. The play greatly pleased a good-sized house. It is a decidedly financial and pretty comic opera, and it is produced by one of the best troupes of the kind ever seen here. The company is a big one, the cast is excellent, the costumes are good, and the characters well, larks well and dances well. The costumes are gorgeous, the stage settings magnificent. "The Mayor of Tokio" made a hit in Ishpeming.

**HOW'S THIS?**

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

**SPECIAL DEMONSTRATION.**

Grinnell Bros., Piano Dealers of Detroit, to Open Branch Here.

As will be seen by Grinnell Bros' advertisement in this issue the firm has secured quarters in Anderson & Co.'s jewelry store and will conduct a ten days' demonstration there, starting today. A number of samples of the pianos manufactured or handled by this well-known music house will be on exhibition, and the demonstration will be conducted by J. S. Sturtevant, an expert pianist of Detroit. Grinnell Bros. are one of the oldest piano concerns in the country, their Detroit house having been established many years ago. The firm has an excellent reputation, as it handles first-class goods and it is known throughout the state for its square dealing with its patrons. It has twenty-two branch stores in this country, several of these being in Michigan. During the past year or so the firm has been represented here by F. A. Ellsworth, who has succeeded by fair and honorable methods in working up a good trade for the company. It was because of the excellent business he has done and the encouragement the firm has received that the management has decided to open a store in Ishpeming.

Among the best grade of pianos handled by the firm are the Steinway, Scerling, Stohner, Huntington and Mendelsohn. The management extends an invitation to the public to attend the demonstration.

**WRESTLING TOURNAMENT.**

Contest Will Take Place Labor Day in Arena on Cleveland Avenue.

A number of Ishpeming men yesterday decided to conduct a Cornish wrestling tournament in this city on Labor Day. It will be held in the arena at the corner of Cleveland avenue and Second street, where the Sons of St. George tournament was conducted July 20. The affair will be managed by J. T. Bennett, W. J. Bight, James H. Billings and others who were prominent in conducting the Sons' tournament. The prize money will be subscribed by individuals who hope to be remunerated by the gate receipts. It has not yet been decided how many prizes or what amount will be hung up, but it is likely that the promoters will give four cash prizes for the wrestling and one or two prizes for amateur boxing contests. There are several young men in the city who have expressed a desire to give an exhibition of boxing.

The promoters have decided to bar all wrestlers weighing over 165 pounds, though any wrestler in the upper peninsula under that weight will be permitted to enter. This will throw out Ziehr and the other heavyweights. By excluding the heavy men it is thought that the tournament will be even more interesting than was the one conducted here in July, as the wrestlers in the middle and lightweight classes will be evenly matched. It is expected that Davey, Dooley and Shea will be among the participants. An admission of twenty-five cents will be charged and the wrestling will start immediately after dinner.

The Sons of St. George committee had started to tear down the seats in the arena when the men mentioned decided to conduct the Labor Day tournament. All of the seats removed will be replaced. It is anticipated that the contest will attract a large crowd, as considerable interest has been manifested in wrestling since the last tournament. There will be no work at any of the mines Labor Day.

**THE LIMIT OF LIFE.**

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by The Stafford Drug Co. 50c

### HORSE RACE FRIDAY.

Three Owners of Speedy Animals Have Wagered \$50 Each on Them.

The first horse race that has taken place at Union Park in ten years will be pulled off there Friday afternoon, commencing at 2:30 o'clock. Three prominent Finnish residents of Negaunee, who have speedy horses, have been training them for some weeks past, and they have finally agreed to race for a purse of \$150. They are John Wentilla, Matt Aho and Matt Keimi, and they met Monday evening and agreed on Louis Villineuve as the stakeholder. Mr. Villineuve is now in possession of the \$150, with instructions to turn it over to the winner of the race. The conditions under which the race is to be run have not yet been fully decided on, nor have the judges been appointed, but these matters will be disposed of tomorrow. An admission of twenty-five cents will be charged.

It is possible that a running race will also be arranged for Friday afternoon. There are several running horses in the city and an effort will be made to induce the owners to enter them. It is proposed that three prizes shall be given, and it is expected that no less than four horses will be entered. Louis Villineuve has a running horse that he will match against anything in the county.

The road roller, which went through the bridge at Carp river Sunday, was taken to the park yesterday and will be used on the track until Friday, putting it in the best possible condition. Some of the business men of the city have contributed to a fund to be used in paying for the track improvements. Manager McOrkendale, of the Marquette County Gas & Electric company, has also agreed to aid in the work, and also to repair the park fence.

### TEAM WITHOUT DRIVER.

Alex Gullikson, who was helping Peter Bellstrom to haul hay from his farm Monday, fell from the wagon and his team came to town alone. Parties who went out from the city to look for Gullikson found him unconscious by the side of the road. It appears that he had

fallen from the load of hay after starting from the field. His injuries are not serious, and he will be able to be around again very soon.

### SMALL CROWD TO TOURNAMENT.

Six members of the Negaunee fire department left yesterday for Ontonagon to attend the annual tournament. There were seven other people from here on the train. The firemen in attendance were Chief Julius Johnson, Al Hooper, Henry Lee, Dan Shea, J. A. Wasmuth and William Nadeau. Joseph Barabe and Joseph Torriano, members of the department, plan to go up today. The number of firemen attending from the several departments from this county is unusually small, only a few having come from Ishpeming and Marquette. It was reported yesterday that about thirty-five Soo people, a majority of them firemen, had passed through here, enroute for Ontonagon.

### WILL BEGIN WORK TODAY.

T. M. Solar, the Antigo, Wis., contractor, who will erect the Odd Fellows new block, was here yesterday, looking over the concrete foundation. He found that the concrete has settled sufficiently for the brick work to be started and he stated that brick layers and carpenters will begin work today. Mr. Solar is making excellent headway with the new high school at Ishpeming, and he expects to have the structure enclosed within six or eight weeks. He believes that he will have no difficulty completing the Odd Fellows' block some time in December.

### LOCAL LACONICS.

John Charida, a former resident of Negaunee, is here from Baraga, on a few days' visit to friends.

Dr. Thienhaus and Dr. C. Eholis of Milwaukee were in Negaunee yesterday, performing a surgical operation on Mrs. C. W. Taylor.

Ed. Laughlin and Hugo Muck returned yesterday from the Muck homestead at Little Lake, where they spent a week.

Charles Muck, Sr., and Joseph Richardson were also in the camp.

Mrs. John McCarthy and daughter Lu-lin, of Fond du Lac, are in the city visiting I. E. O'Donoghue, and family. Mrs. McCarthy is Mrs. O'Donoghue's mother.

A new plank floor has been placed in No. 1 horse house on top of the concrete. The latter was found undesirable, as the horses slipped in making a rapid run from their stalls.

Joseph Blair, a former resident of this city, who has been in Escanaba for some years past, was here yesterday. He is soon to leave for California, where he expects to locate permanently.

Some of the contractors who will submit bids on the new high school job have been in the city for the past few days. The board will meet tomorrow evening at 8 o'clock to open the bids, but it may be two or three days before the contract is awarded.

Mrs. Nicholas Jobe has returned from Leed, S. D., where she spent several weeks' visiting her son, who is employed as engineer at the Homestake mine. Operations have been resumed in all portions of the Homestake, which was closed down for several weeks on account of a fire in the workings.

John Rock is tearing down the dwelling on his Main street lot, which was damaged by fire a few weeks ago. He has finally decided to move his present dwelling from the school site to the Main street lot and he expects to have it out of the way before work is started on the new school building.

English Oak lodge, Sons of St. George, will give an entertainment Saturday evening at Shea's hall for the benefit of the Blue Salvage, who was injured at the Blue mine two years ago and who has since been unable to work. An exceptionally fine program is to be arranged and a reasonable price is to be charged. Five or six of the city's best entertainers will aid with the program. The general public is invited to attend.

## Negaunee Department

### WILLIAM PIGGOTT IS BOUND OVER

YOUNG MAN CHARGED WITH CASHING CHECKS BELONGING TO ANOTHER—SUSPECTED OF BURGLARIZING HARNESSES STORE.

William Piggott, the Negaunee young man arrested Sunday night at Marquette, charged with having cashed some checks which were made payable to another member of his family, stands a good chance of serving a term behind the bars. The young man has been leading a rather reckless life and has been implicated in a number of bad scrapes during the past few years. When he was brought back to Negaunee Monday by Marshal Gribble he refused to talk regarding the charge upon which he was arrested, but the evidence obtained against him was sufficient to prove his guilt. He was given a hearing yesterday and waived his extradition being bound over to the circuit court for trial. Being unable to furnish bonds he will be taken to the county jail.

While the charge of cashing the checks was the only one brought against young Piggott in court Monday, a second charge might have been brought up if the officers had deemed it necessary, as there is every reason to believe that he entered Ed. Dionne's harness shop about ten days ago. At the time the burglary was committed Marshal Gribble suspected Piggott. The matter was kept quiet in the hope that positive evidence could be secured against him. After Piggott's arrest by Sheriff Rough in Marquette Marshal Gribble obtained permission from his father to search his home.

Goods taken from the harness shop, and which the proprietor identified, were found. When Piggott was brought back to the city Monday Marshal Gribble accused him of having entered the harness store, but he strongly denied that he had done so. He said that he had purchased the goods found at his father's home, but the marshal is satisfied that he was the one who committed the theft. The value of the articles taken from Dionne's place was not very good.

Young Piggott has been sent to the county jail two or three times for thefts of which he was found guilty. He was convicted of entering a store on Iron street and taking jewelry and other articles, and he was also found guilty of stealing an overcoat in Marquette from a former resident of Negaunee. When he was a young lad he was sent to the reform school, where he remained about three years, but it seems his confinement there did not cure him of his bad habits. The boy has been a source of a great deal of annoyance to his people ever since his return from the reform school.

Notwithstanding contrary reports, the Wonderland theater will continue to hold the boards in McDonald's Opera House. Two performances are given each evening, at 8 and 9 o'clock, and each night there is a change of program. The orchestra, of which Harry Gribble is the pianist, furnishes excellent music, and illustrated songs are sung by Miss Koob of Negaunee and Miss Swanson of Chicago. By special arrangement the opera house is still available for dances, theatrical attractions or other forms of entertainment.

English Oak lodge, Sons of St. George, will give an entertainment Saturday evening at Shea's hall for the benefit of the Blue Salvage, who was injured at the Blue mine two years ago and who has since been unable to work. An exceptionally fine program is to be arranged and a reasonable price is to be charged. Five or six of the city's best entertainers will aid with the program. ### NEW CHURCH FOR PRINCETON.

Catholic Congregation Will be Organized, With Rev. Father Piazza as Pastor.

Right Rev. Bishop Eis has appointed Rev. Father Piazza the first pastor of a Catholic congregation to be organized in Princeton. During the short time Rev. Piazza has been laboring in the Twin Cities he has done excellent work among his countrymen. Special masses have been celebrated in both towns for them and he has visited every Italian family in both Ishpeming and Negaunee, as well as all of the Italians living in the Swanzy district.

The officials of the Cleveland-Cliffs Iron company have given a site for the proposed new church and steps will be taken immediately for raising funds for its erection. Rev. Piazza will be assisted in his work by the resident pastors of both Negaunee and Ishpeming. It has not yet been determined how large a church will be built, but it will be of fair size. The population of Princeton is growing rapidly, and there are now a large number of Catholic families there. It is expected that the number of families will be considerably increased during the next year, as several are now waiting for houses to be completed for them.

### IMPROVING LIBRARY.

The work of renovating and generally improving the Negaunee public library has been started. Miss Willette, the librarian, has removed all of the books from the shelves and placed them in the painters and decorators complete their work. The plaster has fallen from a number of places on the walls and the rooms are badly in need of an overhaul. All of the furniture is to be painted and varnished and the walls will be decorated. It is possible that the room at present occupied as an electric supply store room by the board of public works will be given over to the library, as the present quarters are entirely too small. There are some 5,000 books in the library and more are being added. The books are in fairly good condition, and the affairs of the library are being exceptionally well handled by Miss Willette.

Notwithstanding contrary reports, the Wonderland theater will continue to hold the boards in McDonald's Opera House. Two performances are given each evening, at 8 and 9 o'clock, and each night there is a change of program. The orchestra, of which Harry Gribble is the pianist, furnishes excellent music, and illustrated songs are sung by Miss Koob of Negaunee and Miss Swanson of Chicago. By special arrangement the opera house is still available for dances, theatrical attractions or other forms of entertainment.

## ISHPEMING

### DWYER WINS MATCH.

Former Upper Peninsula Man Defeats the Great Britain Wrestler.

"Sonny" Dwyer, the wrestler and all-around athlete, who is well known in this region, recently defeated Charles Haackenschmidt of Des Moines, Ia., a former world's champion heavy-weight wrestler. The match is said to have been exciting, as the men were evenly matched and for a time it was thought that Haackenschmidt would be the winner. Dwyer won two out of three falls, necessary to carry off the money, his famous scissor hold doing the work after the rosters' hopes for his victory had been almost quenched. The first fall was won by Dwyer on a foul, after twenty-seven minutes' hard work; the second fall was won by Haackenschmidt in seventeen minutes, Dwyer being forced to the ground by a crotch and arm hold. The last fall was secured by Dwyer in twenty minutes, he having succeeded in getting Haackenschmidt's head between his legs. An effort is being made to arrange for another match between Dwyer and Haackenschmidt, the latter believing himself to be the better man. He now proposes to meet Dwyer in a mixed match, provided the strangle hold is not barred. It is said that Dwyer will not enter into an agreement unless the strangle hold is barred.

### ISHPEMING IN BRIEF.

Miss Ida Sanders has gone to Champion, on a visit to Miss Mary Carter.

Miss Della Wenzell of Milwaukee arrived in the city yesterday, on a visit to Mrs. A. J. Yungbluth.

Mrs. D. D. Randall and daughter, Miss Flossie, have returned from a week's outing at the Randall camp near Ishpeming.

Mrs. E. Coyne and daughter, Miss Anna, have returned to their home in Fond du Lac, after a week's visit with Mrs. Henrietta Ruez.

J. W. McCorkingdale, manager of the Marquette County Gas & Electric company, left last night for Chicago, to be absent a few days on business.

The fire department was called out yesterday afternoon on account of a chimney fire in a tenement house on Pearl street, owned by Edward Hickey.

Arvid Braastad, who a short time ago purchased the property on North street, is rebuilding the house, which was partly destroyed by fire about a year ago.

A. J. Yungbluth went to Grand Island Monday evening to attend a business meeting of the auditors of the several departments of the Cleveland-Cliffs Iron company. He will return tomorrow evening or Friday.

Harry Bennett, who has been employed in Tillson's drug store for some time past, has taken a position in the Cleveland-Cliffs Iron company's laboratory. Clarence Begler, who has been at the Grand Union Tea store, succeeds Mr. Bennett at Tillson's.

Right Rev. Bishop Eis, Monsignor Langner and Rev. Father Pinten were guests of Rev. J. A. Keul of this city Monday. While here Bishop Eis announced his appointment of Rev. Father Piazza as resident pastor at Princeton, where a church is soon to be erected.

The uniform rank, Knights of Pythias, will conduct a hop tomorrow night at Braastad's Hall. Dancing will commence at 8 o'clock continuing until 12. Trombly's orchestra furnishing the music. The admission will be fifty cents per couple and the invitations must be presented at the door.

The Mine Workers' union and the Clerks' organization will unite in conducting a picnic Labor Day at Cleveland Park. A band will be engaged and there will be dancing both afternoon and evening. A program of athletic exercises will also take place and refreshments of various kinds will be served. If the weather is unfavorable the program will be pulled off in one of the halls of the city.

Thomas M. Solar, who was a few days ago awarded the contract for the erection of the new Y. M. C. A. block at the corner of Division and Pine streets, expects to begin work on the foundation within a few days. Mr. Solar does not plan to complete the building this year.

## FROM HOPKINS' CURB LETTER.

"While the London copper market came unchanged to 10 shillings higher, the copper share market showed a decidedly weak tendency. The opening was heavy under the lead of Copper Range, which opened off two points and was hammered down by Boston operators to 37 1/2. It has since regained most of the loss. There seems to be pressure on certain stocks and it looks as though this was created to cover shorts in other directions. The fact that there seems to be stock for sale on all the rallies has discouraged traders and the policy seems to be to await further developments. North Butte was the strongest stock on the list and showed a pronounced tendency to advance and will undoubtedly lead any advance. The sub stocks were dull and featureless but did not follow the break in other directions. The North Butte dividend is payable Sept. 21st to stock of record Sept. 7th."

**COOK WITH GAS**

### RESOLUTION TO OUST WATER BOARD PASSES

COUNCIL TAKES ACTION ON SCHAUER'S MOTION WITHOUT DISCUSSION OR COMMENT.

### ALDERMAN ASIRE IN CHAIR

Action Is Opinion Only—Mayor's Power to Act on Question Probably Cannot Be Settled Out of Court.

Without discussion and without comment the council last night listened to a resolution which provided that the mayor shall take steps to remove one or more members of the water board unless water to supply the north side with water be begun forthwith, and without discussion and without comment, the resolution was adopted.

Read by Schauer. The resolution was read and presented by Alderman Schauer. When he sat down there was an interval of silence of about forty seconds before his motion that the resolution be adopted was seconded by Alderman Campbell.

Only an Opinion. A paragraph of the resolution refers directly to a statement made by the water board and published in The Mining Journal of yesterday.

Whereas, Section 6 of the charter of the board of fire and water commissioners of the city of Marquette, makes it the duty of said board to examine and consider all matters relative to supplying the city of Marquette with a sufficient quantity of pure and wholesome water for domestic use, and to provide suitable and efficient means for the extinguishment of fires; and

Whereas, Section 10 of said charter makes it the duty of said board to purchase lands and materials and reservoirs, buildings, machinery and fixtures deemed necessary to furnish an ample supply of water for public and private use, and also to provide such means as shall give an efficient system of fire protection in the city; and

Whereas, said board has full power to raise all the money required to make any extensions and improvements desired in the water supply and fire protection

system of the city, and to apportion and pay the expense thereof as they deem proper; and

Whereas, said board has long neglected and refused and neglects and refuses to provide any water supply or means for the extinguishment of fires in the large, well populated and rapidly growing residence section of the city lying along and near Presque Isle avenue in the vicinity of the Northern State Normal school; and

Whereas, Four of the six members of said board have this day published an address in which they admit the failure of said board to extend the water supply and fire protection systems to said section of the city and seek to justify such failure to make the same upon the ground that owners of property in the locality needing the improvements object to being assessed for such part of the cost thereof as the board deems proper;

Resolved, That, in the opinion of the common council, said address utterly fails to state any good or sufficient reason or excuse for the failure of said board to make said improvements; and that, in the opinion of the common council, the health, convenience and safety from fire of many of the inhabitants of the city requires that the water supply and fire protection systems of the city be immediately extended into the section of the city above referred to; and

Resolved, That in case said board does not forthwith proceed to make the improvements mentioned; or in case the member or members of said board who are responsible for the failure of said board to make such improvements, do not resign from said board; that the mayor be and he is hereby requested to take such action as to him seems best for the removal from office of such member or members of said board, to the end that the vacancies may be filled by men who will take measures to carry out the purposes for which said board was created.

DROPPED DEAD IN STREET. Victim of Heart Failure Survived by Family Living in Finland.

Matt Salomonson, aged forty-five, of Ishpeming, who for the past two weeks has been making his home with his son-in-law, James Lillifridge, on West Fisher street, dropped dead on the sidewalk in front of Jacob Smith's grocery store on Washington street yesterday afternoon.

As he was passing the store passers by noticed that he faltered and staggered a few steps before he fell. When assistance reached him a few seconds later he was dead. His body was removed to the home of his son-in-law, Salomonson is survived by a widow and several children, who are in Finland.

There is no time like the present. Your neighbor has a Majestic range. You can have one. Your credit is as good with Kelly Hardware Co. as anywhere.

THE BEST SHINGLES. We manufacture the best shingles made. Our extra "A" cedar shingles are what you want. Let us give you an estimate on your building material.

### TO REPAIR STREETS FOR THE NEW PLANT

ACTION TAKEN LAST NIGHT ON PETITIONS FROM THE LAKE SHORE ENGINE WORKS.

Acting upon a petition of the Lake Shore Engine Works, the council last night ordered that Magpie street from Lake Shore boulevard to the west line of the Elv park addition be graded and macadamized, and the cost of the improvement is to be assessed against the property benefited.

Estimates Approved. Upon another petition from the same source the council adopted both the profiles and estimates for the work of grading and macadamizing Walnut street and Lake Shore boulevard from Hewitt avenue to Arch street. The profile and estimates were presented at the preceding meeting of the council.

No action was taken upon the two petitions, one for and one against the opening of Park street from Fourth to Lee street, but the street commission was ordered to grade and macadamize Crescent street from Pine to Lake Shore boulevard. The cost of the improvement is to be paid by the council out of the general fund. The petition for the opening of Park street is from about twenty-five property owners and the petition against opening the street is from the Superior Lumber company, which made the suggestion that Crescent street be repaired.

Want a Sewer. A petition from A. C. Anderson, N. Perry and Charles Smith asks that a sewer pipe be laid on Division street from Hendrie to Newberry street, was referred to the committee on streets.

The first bound volumes compiled of the proceedings of the council for the past twelve years were ordered by City Attorney Brown at his own expense and were exhibited to members of the council last night. They are in two volumes and after seeing them, upon the motion of Alderman Peters, the council last night ordered that several similar sets be bound. The two books contain all the proceedings of all city councils from November 4, 1895, up to the present time.

AT PRESTON'S RESTAURANT Regular dinner served every day. Neat and prompt service with all orders. Open all night. 315 South Front street. (8-21-3f)
