

CALLS MR. TAFT A "STRADDLER"

Replying to the Secretary's Columbus Address, W. J. Bryan Condemns His Stand on Various Important Public Questions.

To Those Who Expected a Clear Bugle Note in Favor of Reform, the Speech Is a Disappointment, Asserts the Nebraskan—Not a Single Issue on Which the War Department Head Takes a Strong, Advanced Position, He Says.

Lincoln, Neb., Aug. 26.—Wm. J. Bryan's reply to the speech of Secretary Taft at Columbus, O., was given out tonight. The war department head is condemned as a "straddler" on nearly all the important issues and is criticised for not taking an advanced ground in reform.

Mr. Bryan complains also that his own position has been misrepresented by the secretary. He says: "Secretary Taft's speech will prove a disappointment to those who expected a clear bugle note in favor of reform. There is not a single question on which he takes a strong advanced position.

"On the railway question he is in favor of preventing watered stock, and opposes the consolidation of competing lines and the duplication of directorates, but he does not advocate the ascertaining of the value of the roads or the reduction of rates. He even defends the president from the charge of favoring the reductions made by the states.

"On the trust question he thunders at unlawful trusts, but not only does he not recommend new legislation, but he takes the position that a monopoly may not be harmful. He seems to lean toward the idea that it must be convicted of some harmful act, and then throws the burden of proof upon the government.

"After submitting an argument in support of an inheritance tax and a graduated income tax, he concluded by saying that he is not in favor of adopting either of them now, and that time he may adopt them if they are needed."

CLAIMED TAFT AS FATHER. Young Man's Dodge to Get Free Accommodations Fails to Work.

Spokane, Wash., Aug. 26.—"W. H. Taft, Jr., Washington, D. C.," were the words a young electrician, afterward giving his name to the police as B. C. Vaughan of South Bend, Ind., inscribed with a flourish on the register at the Spokane Hotel, saying to the clerk at the same time, "Of course, you know who I am," also that "nothing is too good for the son of the secretary of war; father will be out this way in a few days on the way to the coast."

After giving out interviews to the newspapers, telling of his father's political ambition and declaring that "the old man will be a candidate for the presidency if Theodore Roosevelt does not accept the nomination," the youngster called on L. G. Monroe, secretary of the Spokane chamber of commerce, where he exhibited a letter, purporting to have been written by the secretary of war, telling him to be a good boy and not to talk too freely to reporters.

Mr. Monroe, who was formerly a newspaper man in Ohio, did not recognize the signature as that of Mr. Taft and questioned his visitor closely, ascertaining that he knew no one at Washington or in Ohio. The hotel detective was put on the youngster's track and when confronted the pseudo Taft broke down and said he resorted to the ruse to get accommodations as he was broke. Chief of Police Richard Vaughan to leave the city, and when last seen he was headed for the Puget Sound country.

CHINA OPPOSES ENTENTE. Government at Peking Doesn't Like Franco-Japanese Convention.

Peking, Aug. 26.—In deference to the protests voiced by the native press the government has communicated the text of the recent Franco-Japanese convention to certain high provincial authorities, at the same time inviting expressions of opinion thereon, especially concerning the arrangement referring to China. The replies received unanimously protest against this arrangement. Consequently the foreign board on Aug. 16 notified the French and Japanese legations here simultaneously of its protest against the derogation of Chinese sovereignty implied in the following words in the convention:

"France and Japan have special interest in seeing order and a pacific state of affairs guaranteed, notably in the regions of the Chinese empire in vicinity where they have rights of sovereignty, protection or occupation."

The foreign board protested against the maintenance of peace and order in Chinese territory and said that the sovereign responsibility of China cannot permit the interference of other powers therein. The French and Japanese legations replied yesterday assuring the foreign board that the entire object of the convention was to respect the independence and integrity of China and that no interference was contemplated that would in any way impair China's sovereignty rights. China, however, is far from satisfied, and the making of this convention in complete disregard of China herself has deeply wounded the national pride.

STORM'S FATAL FREAK

Torn from Its Mother's Arms, Infant Is Blown Quarter of a Mile Away.

Wheeling, W. Va., Aug. 26.—A tornado struck the town of Woodfield and Newcastles today, wrecking a number of buildings and doing other damage. The home of Samuel Bartemus, near Woodfield, was entirely destroyed, and a two-year-old child was killed. The child was torn from its mother's arms and was carried nearly a quarter of a mile.

DINNER FOR SWEDISH PRINCE.

Wilhelm to Be the Guest of the President at Sagamore Hill.

Oyster Bay, Aug. 26.—An elaborate luncheon will be served at Sagamore Hill on Wednesday to Prince Wilhelm of Sweden and a number of distinguished guests, including the Swedish minister to the United States, Herman De Lagercrantz. It is understood that at the same time the president will have as his guests all the foreign naval representatives to the Jamestown exposition whom he has not previously entertained at luncheon, and that this entertainment will conclude the executive courtesy to the foreign delegation.

Titled Visitor in Massachusetts.

Worcester, Mass., Aug. 26.—Prince Wilhelm of Sweden arrived here from Providence on a special train this afternoon and was met at the railway station by several thousand of his fellow countrymen, who cheered and sang the national air of their native land. Governor Guild and Lieutenant Governor Draper greeted the prince as he stepped from the train. The party was driven to the city hall, where Mayor C. J. Dragan welcomed the prince to Worcester and introduced him to the members of the city government. Luncheon was served at the Worcester club. A ride about the city and a reception to the Swedish residents completed the program in this city.

PRESIDENT APPROVES.

\$8,000,000 More Than Appropriated to Be Spent at Panama This Year.

Washington, Aug. 26.—The president has approved Colonel Goethals' request to continue the Panama canal expenditures in excess of the pro-rata monthly allowances for the present fiscal year on account of "present necessities and unforeseen developments since these estimates were submitted." Congress will be requested at the next session to make an appropriation to cover this deficiency. Colonel Goethals asked for authority to expend \$8,000,000 more than the appropriation, saying it was in the interest of true economy.

SECRETARY ROOT'S BROTHER IS DEAD AT UTICA, N. Y.

Utica, N. Y., Aug. 26.—Professor Owen Root of Hamilton college, a brother of Secretary of State Root, died here tonight. The deceased was 72 years of age and had been ill for some time.

WILL FIGHT PEST

Gov. MAGOON DECLARES WAR IN CUBA.

Local Municipalities Lax, the National Administration Itself Takes Up the Task of Ridding the Island of Yellow Fever.

Washington, Aug. 26.—Despairing of the ability of the Cuban municipalities to keep the cities free from yellow fever, the central government has, for the first time, taken the matter into its own hands. Chief Surgeon Keen called the war department today that Governor Magoon has signed a decree nationalizing the sanitation. The work of disinfection and the extermination of the yellow fever mosquito will proceed under the direction of officers appointed by Governor Magoon. In his opinion the yellow fever will be eradicated within six weeks.

HANGS BY FINGER.

Iowa Man Caught in Windmill Is Obligated to Wait for a Breeze.

Fayette, Ia., Aug. 26.—Hanging at the top of a windmill tower with the fingers of one hand crushed in the gearing, awaiting a gust of wind to start the mill and release him, was the exasperating experience of O. M. Beach of this place. He had been repairing a mill on a tower at Hawkeye, and started to oil the mill head. He reached up and caught the gearing with his right hand to steady himself as he climbed as high as he could. The mill whirled the mill and caught his fingers in the cogs. Then the mill stopped. He attempted to draw his hand away, but the flesh was too firmly wedged in the gearing. There he was obliged to hang, enduring the pain of the smashed fingers until another puff of wind started the mill onward and released him.

HER CHAUFFEUR ARRESTED.

Mrs. Marshall Field Spends an Uncomfortable Hour in a Boston Court.

Boston, Mass., Aug. 26.—Mrs. Marshall Field of Chicago, attended in a rich gown, was jostled about in the corridor of the municipal court today for an hour until the case against her chauffeur, Willett Dewey, could be settled by the court. The case was assigned for Tuesday, but Mrs. Field sent her card to the clerk and asked for a speedy hearing, as she wished to leave immediately for Chicago. After spending an uncomfortable hour on the hard benches she paid Dewey's fine of \$10, thanked the judge, and departed.

STATE'S RATES ARE ATTACKED

Enforcement in North Carolina Would Mean Confiscation, Says Comptroller Plant of the Southern Railway System.

Testifying at Hearing at Washington He Gives Figures Showing That if the Proposed Charges Are Put into Effect the Net Returns Based on Last Year's Business Would Be but \$28,000, Without Allowing Anything for Interest or Dividends.

Washington, Aug. 26.—The hearing of the North Carolina rate case was resumed at the Southern Railway company's offices today, and Comptroller Plant of the railway occupied the witness stand. The testimony was a maze of statistics bearing on the cost of operation and on the earnings of the road. Mr. Plant stated that the total cost of interstate passenger traffic in North Carolina for the year ended June 30, 1916, was \$2,425,415 and the total earnings in North Carolina were \$1,971,938, a net loss of about \$453,000.

"My investigation," said he, "demonstrates that to earn one dollar of local revenue in North Carolina is twice as expensive as to earn a dollar on interstate business. The figures I use are of the minimum expenses, and a very low minimum at that. The average cost of handling a ton per mile in North Carolina is not less than three times as great as it is on interstate business."

The total net earnings in North Carolina for 1916 were \$224,254. Mr. Plant testified that if the proposed rates were put into effect on the basis of the business of 1916, the total net returns from interstate business in that state would be but \$28,007, not allowing anything for the payment of interest or dividends.

CHEAPER MILK FOR PITTSBURG.

Dairy Farmers' Company to Compete With Combine Next Month. Pittsburghers will not be so firmly in the clutches of the milk combination next winter and will not have to pay ten cents a quart for milk as they were forced to do during the last cold months. They will be able to purchase milk at the usual price of eight cents a quart. The farmers will be better paid and will not be forced to underfeed their stock during the cold months, and a better grade of milk will be furnished to residents of this city. The change will be brought about by the Dairy Farmers' company, which will launch into the milk business next winter.

WANTS MORE SIGNAL MEN.

Brig. Gen. Allen in Annual Report Voices Great Need for Larger Forces. He says that it is recognized by military authorities that the strength of an army is not alone measured by the number of men it contains, but by the number of rifles, guns and sabers it can put into co-operative action at one time. Although the late Russo-Japanese conflict furnished an example of the use of this "military weapon" in advance of anything previously attempted, yet it is believed that by the development of the power of accurate control upon the field of battle through perfect lines of information, it would be possible for the commander who first utilized it to the limit for tactical purposes to gain as decisive victories in the future as any that have ever been gained in the past.

ARE WANTED IN MEXICO.

Three Prisoners at Los Angeles Are Held for Extradition. Los Angeles, Cal., Aug. 26.—Ricardo Flores Magon, Antonio Villarot and Librado Rivera, Mexicans, arrested here last week at the request of the Mexican government, were arraigned before Justice Frederickson today. Magon and Rivera were held in \$1,000 bond. The formal charge against Magon and Rivera was resisting a police officer. Villarot, who is charged with being a fugitive from justice, was held without bail. More than a year ago he broke jail in El Paso, where he was being held for extradition to Mexico on charges of inciting a riot at Cananea.

BFAR KILLS HIM

Foolhardy Young Man at Richmond, Texas, Dies as a Result of a Wager.

HEAR DEATH WARRANTS READ.

Lancaster, Pa., Aug. 26.—Four Italians sentenced to be hanged together on Oct. 3 for murder of a fellow countryman more than a year ago today listened to the reading of their death warrants by Sheriff Ziegler. They were told to stand up. One of the men became so nervous he was compelled to sit down, and another was so affected that he dropped to his knees and prayed.

BASEBALL

STANDINGS OF THE CLUBS.

Table with columns for National League and American League, listing teams like Chicago, Philadelphia, Cincinnati, etc., with W, L, P.C. records.

SCHEDULES FOR TODAY.

Table listing baseball games for today, including Cincinnati at Boston, Chicago at Brooklyn, etc.

GAMES PLAYED YESTERDAY.

Table listing baseball games played yesterday, including Pittsburgh at St. Louis, New York at Philadelphia, etc.

FOOTBALL RULES READY.

New Haven, Aug. 26.—Walter Camp, the Yale head advisory football coach, who has been editing the football rules for this fall, said today that his task was finished a month ago and that he had received word that the book would appear in a few days. From the changes in the code it is certain that the conservatives have carried the day and that there will be no revolutionary changes from the rules which were put into effect last fall.

AMERICAN ASPHALT COMPANY HARD HIT.

Convicted of Financing the Matos Revolution It Is Fined \$5,000,000 and Is Liable for Ten Million Dollars More.

Caracas, Venezuela, Aug. 26.—Three years after the beginning of the sensational trial of the New York and Bermudez company for complicity in the Matos revolution judgment has been rendered against the defendant, it being condemned not only to pay five million dollars damages, the calculated cost to the government of subsidizing the revolution, but to pay other sums to be fixed by a commission of experts and which may likely amount to ten million dollars more. The present judgment is appealable to the supreme court and from there to the court of cassation.

BITTERNESS EFFACED.

Austria and Italy Arrive at an Important Understanding. Rome, Aug. 26.—The press today speaks in high approval of the Austro-Italian understanding resulting from the meeting at Ischl yesterday of Signor Tittoni, Italian minister for foreign affairs, and Baron von Schrentha, the Austro-Hungarian minister for foreign affairs, and the subsequent conference between Signor Tittoni and Emperor Francis Joseph. The newspapers declare that Signor Tittoni's cordial reception at the hands of the Austrian authorities completely effaces all past bitterness.

BIG MORTGAGE FILED.

Lexington, Ky., Aug. 26.—A mortgage was filed here this afternoon by the Chesapeake and Ohio Railroad company to the New York Trust company and William H. White of Richmond, Va., for \$10,000,000, covering all the franchises, privileges, lands and terminals of the entire railway line. The mortgage will be filed in every county in Kentucky, West Virginia and Virginia, through which states the line runs.

OCEAN TRAVEL IS CHEAPENED

Big Transatlantic Transportation Concerns at Odds, Passengers Eastbound Across the Pond Are Reaping the Benefit.

Unable to Agree Upon the Charges to Apply on Recently Built Slow-Going Ships, Rate War Continues Among the Rival Lines—Following Action of German Competitors French Company Now Announces Sharp Cut in First Cabin Tax to Europe.

New York, Aug. 26.—Announcement is made by the French line of a reduction in its minimum first cabin rate to Europe to meet the sharp cuts made by the Hamburg American and North German Lloyd lines, whose passenger schedules for eastward traffic were recently materially lowered. The reduction by the French line today amounts to from \$20 to \$25 on its various ships. An official of one of the companies said that the present trouble was caused by the inability of the lines to agree upon rates for the recently built slow-going steamships.

WESTERN UNION DENIAL.

Claims of Strikers Refuted by the Superintendent at New York. New York, Aug. 26.—Superintendent Brooks of the Western Union Telegraph company denied this afternoon that the Western Union had abolished the double pay system and that half of the working force who had been paid Friday had failed to report today. Mr. Brooks said: "The Western Union has not abolished the double pay, every man who was paid off Friday reported for work today and the company has all the men it wants. The strikers' claim that the company was the keys to help to break the strike is false."

ALLEGED AGITATORS DISCHARGED.

Eight Hundred Employees of Big Reading (Pa.) Plant Strike in Sympathy. Reading, Pa., Aug. 26.—About 800 employees of the Reading Hardware company quit work today. The trouble is due to alleged discrimination, the firm, it is said, refusing to reinstate several men who were too active in a strike in one of the departments of the plant. All but 200 of the entire force walked out in sympathy.

Metal Workers Formulate Demands.

Cincinnati, Aug. 26.—A demand for an eight-hour day and a 20 per cent increase in wages was decided on by the Metal Polishers, Buffers, Platers, Molders & Brass & Silver Workers' union at its national convention today. The executive committee of the union will determine the date upon which the demands will be presented to the employers.

GOVERNMENT REOPENING THE HISTORIC LOLO TRAIL.

Spokane, Wash., Aug. 26.—The historic Lolo trail, the highway over which the Nez Perce warriors marched for generations over a summer to fight the tribes in the region now forming the state of Montana, and on which Lewis and Clark found the gateway to the Pacific Northwest a hundred years ago, and which in 1877 became the line of march for General O. O. Howard in his pursuit of Chief Joseph's hostile tribesmen into the Peninsula of Idaho, is being opened to its original width of ten feet by the federal government. The work is being done by the forest reserve department and will be completed next year. The distance from Greer to the Lolo pass is 111 miles, but this will be shortened by a fifty miles when the Lolo trail is opened, and it will be a great benefit to the country aside from adding to the convenience of hauling forest reserve wood.

LEAGUE WILL CLOSE EARLY.

Last Games Booked for Winnipeg and Copperdell Will Be Cancelled. Duluth, Aug. 26.—What will, in all probability, be the last big series of games in the Northern-Copper Country league will be played this week at Winnipeg and at Duluth. The Calumet-Avis league will play this week's series where they will play a series of five games and then return home. The Houghton Giants arrived in Duluth this morning for a five-game series at Athletic Park.

For the reason that the league is not paying expenses it is almost certain that Duluth will not go to Winnipeg to finish the season, and that the nine games booked for the Canadian city will be cancelled. Likewise the Houghton-Calumet series slated to be played in the upper country next week will be wiped out.

"We are not certain just what we shall do," said one of the owners of the Duluth club. "However, I think it is safe to say that this week's series will be the last. All of the clubs are in favor of an early closing of the league, as none of them are making money. There was some talk at the league officials holding a meeting in Duluth next Wednesday; but I do not think it will take place."

The Houghton-Duluth series at the local park this week will be the most interesting of the season. The Giants are leading the White Sox by one point and a great fight will be put up by Duluth to get into second position. Considerable money is wagered both ways. A bet of \$500 was being offered by a Houghton man that Duluth could not finish a game, five of the local fans have raised the amount necessary to cover the money.

SHIP TURNS TURTLE

Just About to Sail for Panama, Steamer Sinks at Dock at San Francisco.

BIG FIRE IN JAPAN.

Nearly Three-Quarters of the City of Hakodate Laid in Ashes. Hakodate, Island of Yeso, Japan, Aug. 26.—Fire broke out this morning in the flimsy native structures of this seaport, and as a result nearly 70 per cent of the city is in ashes. The flames spread with such rapidity that all efforts of the firemen were fruitless. With the exception of the American, all the consulates were burned. There is great distress.

INTERNATIONAL POLICE FOR PORTS IN MOROCCO.

San Sebastian, Aug. 26.—A joint Franco-Spanish note was handed to Mohammed Cabras, the Moroccan minister of war, yesterday, requesting that the necessary measures be taken to organize the international police at the ports of Morocco in conformity with the decisions of the Algiers conference.

DEATH PENALTY DEMANDED FOR RUSSIAN CONSPIRATORS.

St. Petersburg, Aug. 26.—The examination of persons accused of plotting against the life of the emperor last May came to an end today. A witness for the defense denied that the social revolutionists were connected with the plot. Counsel for the prosecution contended that the guilt of the prisoners had been established. He asserted that they belonged to the social revolutionary party and demanded the death penalty. The decision was reserved.

KING OF GREECE IN PARIS.

Paris, Aug. 26.—The king of Greece arrived here today from Avles Baines on his way to Copenhagen. He was met at the railroad station by Prince George of Greece and the members of the Greek legation.

VENEZUELA STRIKES

AMERICAN ASPHALT COMPANY HARD HIT. Convicted of Financing the Matos Revolution It Is Fined \$5,000,000 and Is Liable for Ten Million Dollars More.

Caracas, Venezuela, Aug. 26.—Three years after the beginning of the sensational trial of the New York and Bermudez company for complicity in the Matos revolution judgment has been rendered against the defendant, it being condemned not only to pay five million dollars damages, the calculated cost to the government of subsidizing the revolution, but to pay other sums to be fixed by a commission of experts and which may likely amount to ten million dollars more. The present judgment is appealable to the supreme court and from there to the court of cassation.

It was from American witnesses and from evidence taken before American judges in United States courts that the Venezuelan government obtained its most important evidence of the part alleged to have been played by the asphalt company in the Matos revolution—the furnishing of money with which to start the fight.

Commenting upon the court's decision, a signed article published in the government newspaper Constitution today says: "It now remains to be seen if the state department will again convert itself into the protector, defender and tutor of adventures who have confessed their guilt and who are legitimately chastised by the legislatures of all civilized nations, including the United States."

HORSE RACES SURPRISE.

Not a Favorite at Narragansett Park That Lands First Money. Providence, R. I., Aug. 16.—The opening days' races at Narragansett Park were full of surprises, and while nothing startling developed things went decidedly wrong for the favorites, not one landing first money and in the end every winning a place. No attempt was made at pool selling. The track was in fine condition.

\$48,000 COMES BACK.

Checks Reach Cleveland Man After Seven Years of Wandering. Pittsburg, Pa., Aug. 26.—After knocking about in the letter box of a down town hotel for nearly seven years, an envelope containing two certified checks aggregating \$48,000, has been recovered and restored to a Cleveland merchant who for nearly seven years has had \$96,000 on deposit as security for the missing paper.

MARRIAGE WITH DECEASED WIFE'S SISTER NOW PERMITTED IN BRITAIN.

London, Aug. 26.—Marriage with a deceased wife's sister has finally become legalized in Great Britain, the house of lords this evening having by 98 to 84 votes passed the bill sanctioning such unions.

JANITOR IS HEIR TO BIG ESTATE

William Crosby of Milwaukee Gets News His Uncle, a Capitalist at Buffalo, Has Willed Him a Hundred Thousand.

A ROVER ABOUT THE COUNTRY FOR TWENTY YEARS, HE IS READY TO SETTLE DOWN—HOWEVER HE CAN HARDLY BELIEVE THE TIDINGS OF HIS GOOD FORTUNE, AND HE LEAVES AN ASSISTANT IN CHARGE OF HIS JOB WHILE HE GOES EAST TO INVESTIGATE.

Milwaukee, Aug. 26.—Three days ago William Crosby was receiving a moderate wage as janitor of the Beaumont flats, 645 Milwaukee street. Today he is heir to a fortune valued by lawyers at \$100,000.

"One week ago he was dependent upon his salary, and the good will of his employer. Today he could 'buy and sell' the property in which he works. Three days ago Mr. Crosby received word through an Eastern law firm that he was the sole heir to the estate of Charles Gibbs, a Buffalo (N. Y.) capitalist. A conservative estimate placed the value of the estate at \$100,000. It includes real estate holdings in Buffalo and in Battle Creek, Mich., bank stock, and railroad securities.

Mr. Crosby is forty-two years old. He is married and has one child, a baby two weeks old. The life story of the fortunate man is a romance in itself. Twenty years of roving about the country, a lack of all tracks, for many years a detective, and for the past five years a janitor in a Milwaukee flat, now the possessor of a fortune, is his varied experience.

He was born in Garfield, Ia., a small town near Prairie du Chien, Wis. He is the only surviving child of a family well known in Prairie du Chien and McGregor, Ia. His father, James T. Crosby, was for many years a lawyer in McGregor. Mr. Crosby left for Buffalo today to take personal charge of the estate.

Charles Gibbs, whose fortune the Milwaukee janitor inherits, was connected with the Flint & Kent company, a dry goods store in Buffalo. He acquired large real estate holdings when a young man, and the rise in values made him a wealthy man. He retired from active business years ago and devoted his time to looking after property in Buffalo and Battle Creek.

Mr. Crosby was at his work as usual yesterday, in spite of the fact that he is a rich man. He tended the fires as the basement just as carefully as ever. When the bell called the janitor he answered cheerfully.

"I am not going to get excited about this," he said. "Who knows but that there might not be so much for me when I find out. I may be glad of a job again in this same basement. They tell me that I have \$100,000, but I can't believe it, yet. I know just this much. I am the only heir to my uncle's estate. He had lots of property, and perhaps the figures will run that high."

"What am I going to do? I am going to Buffalo today to look things over. Then, if what the lawyers say is true, I am going to take it easy the rest of my days. I have been a rover, seen lots of country, made lots of money, spent it, and I am ready to settle down."

Mr. Crosby has not given up his position as janitor. He has engaged an assistant to serve during his stay in the East. If his good fortune is real, he will take up his residence there. His parents are in Buffalo, having gone there from the Jamestown exposition upon receiving the news of the death of Mr. Crosby's uncle.

NOT A FAVORITE AT NARRAGANSETT PARK THAT LANDS FIRST MONEY.

Providence, R. I., Aug. 16.—The opening days' races at Narragansett Park were full of surprises, and while nothing startling developed things went decidedly wrong for the favorites, not one landing first money and in the end every winning a place. No attempt was made at pool selling. The track was in fine condition.

In the 2:15 pace, Hidalgo won; Alice Pointer was second and Major Mallow third. The best time was 2:05 1/2. In the 2:30 trot for three-year-olds Douglas was first, Aquina second and Sir Todd third. The best time was 2:12 1/2. In the 2:10 pace, Leland Onward was first, Stanford second and Thornway third. The best time was 2:07, 2:25 trot, Toledo, first; Nutwood, second; St. Peter third; best time, 2:12 1/2.

\$48,000 COMES BACK.

Checks Reach Cleveland Man After Seven Years of Wandering. Pittsburg, Pa., Aug. 26.—After knocking about in the letter box of a down town hotel for nearly seven years, an envelope containing two certified checks aggregating \$48,000, has been recovered and restored to a Cleveland merchant who for nearly seven years has had \$96,000 on deposit as security for the missing paper.

Nov. 26, 1900, a firm of Fifth avenue brokers closed two stock transactions for a Cleveland client, who came to Pittsburg to receive payment. The brokers gave him two certified checks, one for \$40,000 and the other for \$8,000. It now develops that the Cleveland man addressed the envelope to himself, dropped it in the letter box and forgot all about it.

DAILY MINING JOURNAL

MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., AUG. 27.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

If Secretary Taft is as strong in the east as some reports indicate then there is no "enemy's country."

If the "standpatters" on the tariff are really against Taft it would appear to be a question of how many of them there are.

The Ishpeming Iron Ore takes a merry whallop out of our county fair. Let us hope that it's another case of "every knock's a boost."

Our old friend "tainted money" is with us again. This time it is Tammany money, \$5,000 of it, offered to the striking telegraphers.

It was thought last spring that Marquette would be able to clean its municipal politics up in one job, but the old rule of politics the whole year round seems to be holding good.

However, it didn't need the second investigation of Commissioner of Insurance Kelsey's office at the instance of Governor Hughes to persuade that the governor is a man who doesn't know when he is licked.

The move of the telegraphers in appointing a committee to negotiate a settlement of the strike is likely to prove ineffectual for results, in view of the stand of the company that "there is nothing to arbitrate."

The Soo papers say that the first intimation most people at the Soo had that they were after the tournament was the news that they had failed to get it by but two votes, consequently they were easily reconciled to the disappointment.

If Governor Warner included in his call for the special session of the legislature all the things that different people, different interests and different organizations want him to include, it would outline a program of business that would keep the legislators busy until the first of the new year, i. e., providing they tried to dispose of it.

The New York municipal improvement bonds, which were a drug on the market at 4 per cent, have been marked up to 4 1/2. The improvements contemplated are pressing and New York would rather pay the extra 1/2 per cent than wait for money to cheapen to 4. And besides there is no guarantee that it is going to cheapen to 4 in the immediate future.

Among the magnates who have recently been "stung" though not by the government, are those behind the Northern-Copper Country league, whose schedule is drawing to a much welcomed close. The way the copper crowd didn't turn out has upset the ante-season calculations woefully, and now the magnates face deficits all along the line. For sticking the thing out so gamely they are entitled to much credit.

We would like to ask the Ishpeming critics of the Marquette county fair what they want for twenty-five cents. Also it may be remarked that the races last year were conducted under association rules, and strictly conducted, too. They were generally commented on as being the best given here of late years. This season they will be better, as there will be a larger string of entries than in any previous year. It's heartbreaking business, this getting racing stock into the upper peninsula. It's heartbreaking business, this giving of county fairs, even under the most favorable circumstances, although it would be easy enough if all the "knockers" in the county would turn "boosters," and help out. The fair association is not a close corporation. It only costs \$1 to become a member, and with each membership is given \$1's worth of admission tickets. The present officials would be glad to stand back and help any other men who can make a better job of the fair than they are doing, if they will only come forward, take hold and make good.

Among the men who haven't visited Oyster Bay the present summer is Governor Hughes of New York. Wherefore observers of things political conclude

that while the governor and president may be friendly they are friendly in a distant and rather chilly sort of a way. This being true it is obvious that the chances of Hughes' disappointing the president's hope that he will accept second place on the Republican ticket with Taft are very excellent. Governor Hughes is a unique figure in public life in more ways than one. He is uniquely efficient in getting results in ways strange to politicians, and he is more unique for having politely declined presidential assistance than for anything else, for it is common report that he turned his back even on such aid when he seemed to be in deep water in his efforts to get action from the New York legislature early this year. As practical politicians go Governor Hughes has strange ideas, but the people seem to understand both them and him, and to like them. In sound grip on the admiration and confidence of the people there are only a handful of men in public life today who share the position of Governor Hughes.

Delta county is entitled to credit for being one of the pioneers in installing voting machines in the upper peninsula. The voting machine has made more progress there than in any other part of the North country. The city of Escanaba has adopted it for its several wards, and it will be used in all future elections. In addition machines have been purchased by seven of the townships. Marquette county has not as yet taken kindly to the machines, although they have been tried with satisfactory results both here and at Negaunee. However, public sentiment and the great superiority of the machines over the present system in securing accurate and honest counts sooner or later lead to their introduction. Marquette certainly needs them for its municipal elections. Every election of city officers the past two years has been accompanied by charges of frauds, by legal proceedings and by recounts. The latter have shown that the election boards are not to be relied on. The trouble is either inefficiency or downright dishonesty. As the result is the same in either event there is no need of closer analysis of the cause for the wide discrepancy between the returns as first announced and the real results. The cure for the trouble, however, is voting machines.

In connection with the situation in the Panama canal zone, which makes necessary outrunning the appropriation for the current year by some \$8,000,000 or materially cutting down the present force of employes and curtailing the speed with which the work is being pushed, a visit to Panama by the members of the house committee which will deal with the next canal appropriation bill is proposed, and the suggestion, which is said to have emanated from Congressman Tawney, is a good one. It has been stated that the president has the power to authorize expenditures beyond the sum now available; it is suggested that if this authority does not already exist it is advisable for congress to legislate to provide means by which the work on the canal may proceed without interruption. Let congress be persuaded that the money laid out on the canal is being expended wisely and well and it is probable that it would have no hesitancy about enacting such legislation. The responsibility for the canal work is now, after many changes, placed with the engineering officers of the regular army, and there it is likely to remain, for there is every likelihood that they will prove sufficient for the task that has daunted two or three organizations built up by civilians. Let congress be persuaded that the army can do the work and do it economically and efficiently and it will have no reason for refusing to pass a law by which the canal board shall have money when it needs it, in the amounts that may be necessary. Congress' interest, like that of the nation, lies on the side of having the canal work done as rapidly as possible. Whether it be done in eight years or twelve years the final cost will be approximately the same.

WHY BRAZIL OBJECTS. Americans will find it difficult not to sympathize with Brazil and Mexico in their opposition to a permanent arbitration court at The Hague which includes as one of its features a classification of nations by military strength, in which they are officially branded as third-rate powers.

In matters of law it is American theory to hold that all men are equal. The fact that one is richer or more influential than a possible opponent is not officially recognized as giving him any privileges which the other does not possess, especially in the matter of selecting judges. But that is what The Hague conference proposes to do in disputes between nations.

It is a theory of international law that sovereign states are legally equal. Yet The Hague conference proposes to classify the nations of the world in five classes, the first of which will have privileges from which the others are debarred. This may seem natural enough to the great powers of the old world whose social and political systems are based upon privilege and the greater part of whose history has been a practical working out of

"The good old rule, the simple plan, That he should take who has the power And he should keep who can." But the United States stands for a new dispensation.

Should the classification system be

adopted it might well result in a practical hegemony of the world by the few powers which controlled the court of arbitration. To this court all the others might be compelled to come, and the decisions of this court, just or unjust, backed by the might of the "first class" powers, would be carried out. Legal forms have become political facts before today. Brazil and Mexico being now in fact as in form independent may well decline to incur the danger of losing their independence through subscribing to a form that may become a fact.

Upper Peninsula

S. M. Stephenson's Will—The will of S. M. Stephenson of Menominee has been opened in court. The valuation is over \$1,000,000. One-third is left to the widow and the remaining two-thirds divided equally among the five daughters. There are no special bequests and no one else is mentioned in the will with the exception of the executor. The estate is to be held in trust for three years and the executors named are United States Senator Stephenson and the widow.

Long Automobile Trip

Covering the distance in thirty-six hours, actual running time, John March, railroad builder, of Iron Mountain, has established an automobile record for the trip from Cleveland to the Menominee iron range metropolis that will doubtless stand for a long time to come. Mr. March's touring car is the largest ever driven on Iron Mountain. It has a fifty horsepower motor, can carry nine passengers and can run a mile a minute on ordinary roads.

Will Wed Next Month

The marriage of Professor E. D. Gordon and Miss Edna Fish, two of Escanaba's popular and most highly respected young people, will occur some time next month. The bride-to-be is an accomplished young woman, who has always lived in the city, and who has a very large circle of friends. Professor Gordon went to the city from West Superior about two years ago and established Gordon's Business college, an institution which has grown and flourished.

Girl a Heroine

With nothing but a thin blanket thrown over her head, Miss Emilie Beyer, the nineteen-year-old daughter of Charles Beyer, a farmer living eight miles from Menominee rushed into her burning home and saving the lives of her two infant sisters who were sleeping in a room upstairs. The house was a mass of flames when the fire was discovered by the young girl, who without a moment's delay entered the house, braving the smoke and flame and making two trips into the burning building to save her sisters from a frightful death.

Romantic Marriage

As the culmination of a courtship which began at the World's Fair at St. Louis three years ago Will L. Marble of Gladstone, Mich., and Miss Ethel Jackson of Rockford, Ills. were married last week at the home of the bride's parents. Until their meeting at the big exposition at the Missouri metropolis—he as an exhibitor from the Marble axe and knife works at Gladstone, she as a visitor—the couple had not been acquainted. The bride has been a leader in the younger society circles at Rockford. Mr. and Mrs. Marble will be at home at Gladstone after Sept. 15.

Killed by Laudanum

Complaining of toothache, and purchasing an ounce of laudanum to alleviate the pain, George Haskins was found dead a few hours afterward in the Soo line railroad yards at Manistique. Whether he deliberately brought about the end of his earthly career, or whether his demise was due to an overdose of the drug, accidentally taken, is not known positively. The officers incline to the suicide theory. Haskins was a teamster in the employ of the Mueller Lumber company at Blaney, Schoolcraft county. He was aged forty-five and had two daughters living at Norwood, Mich.

Circus in Sore Straits

The owners of the Norris & Rowe circus as well as the public were in against a hard proposition here, comments the Manistique Press-Tribune. The train carrying the outfit was wrecked on the Treenary branch of the Soo Line, while enroute from Manistique to Gladstone and seven cars of material were yet in the ditch when the outfit arrived at Manistique. Several valuable horses were killed and a number of employes were injured. The show was late in reaching Manistique, and owing to lack of "Hay Rubs" an almost unsurmountable obstacle confronted Manager Norris. He decided at once to cut out the street parade and announced but one performance for the day. The main tent was not raised until after 4 o'clock and the performance did not commence until after 5 o'clock. An immense crowd, estimated at about 5,000 persons, waited three hours to get in. Acrobats, noted bareback riders, and others, including

Tell Them You Know! You may tell your friends, on our "say-so," that when they buy a package of the genuine Arbuckles' Ariosa Coffee they get the best of the coffee trade.

No coffee of equal quality can be sold in this town for the same price, whether it be sold out of a bag or a bin, or under some romantic trade-mark. You may tell them you know and that Arbuckle Brothers, the greatest coffee dealers in the world, will stand for it.

Mr. Rowe himself, were compelled to drive stakes and assist in raising the tents. The management offered \$1 an hour for common labor with no exceptions. Then, too, great difficulty was experienced in reaching the ground. The outfit was unloaded at the Riverside crossing and the heavy equipment dropped hub deep in the sand and several wagons were upset and badly damaged. Many of the features of the regular performance were omitted owing to lack of time and absence of equipment. They were left in the city for about 1 o'clock the next morning.

Proposed for Streets

John G. Zane, general manager for the Northern Construction & Engineering company, left Escanaba last week for a trip through lower Michigan, Wisconsin and Illinois cities. His object in making the journey is to ascertain the best method of laying a top dressing of tar on stone macadam road. While out of the city Mr. Zane will purchase the necessary apparatus for preparing and laying the tar, and as soon as he returns, the work of putting on the finishing touches to several streets will be begun. A number of streets which have been paved with stone macadam this summer are to be covered with the top dressing of tar.

MARVIN'S CASCARA CHOCOLATE TABLETS

Marquette Opera House Saturday, Aug. 31

Spencer & Aborn present the great emotional drama

A WIFE'S SECRET

Now in its fourth successful season. A beautiful story, told in powerful melodramatic style, with laughter and tears cleverly blended.

PRICES: Lower Floor, 50c; Gallery, 25c; Seats at Bigelow's store, Thursday August 29, at 8:30 a. m. 8-27-5d

CHICHESTER'S PILLS

BATH COMFORT!

YELDED TO CUTICURA

"While I was doing missionary work in the lower portion of several cities I found it necessary to know a little of the efficacy of a few medicines and after a while I found that a little knowledge of Cuticura was one of the necessities. One of the very bad cases I had to deal with was that of a young woman who had come to us not only broken in spirit but in a most awful condition physically. Our doctor examined her and told us that she had scabies (the itch), incipient paresis, rheumatism, etc., brought on from exposure and the effects of her ragged-edged life. Her poor body was a mass of sores from scratching and she was unable to retain solid food. We tried many things, a good tonic was prescribed and baths with a rubbing of lard and sulphur. We worked hard for seven weeks and you can imagine how discouraged we were when, after all that time, we could see no little improvement. One day I happened to see a Cuticura advertisement, telling how a little baby had been cured of a bad case of skin eruption, and although I had but ninety-seven cents with me, I bought a cake of Cuticura Soap and a bottle of Cuticura Resolvent. When I reached home I was like a child with a new toy, and we bathed our patient well and gave her a full dose of the Resolvent. She slept that night better than she had since she had been with us and the next day I located the price of a box of Cuticura Ointment. I am not exaggerating when I say that in exactly five weeks this young woman was able to look for a position, being strong enough to work and full of ambition. In another month she left the home and now has a good position in a nice family where she is respected and is strong and well. You may refer any one you wish to persons, Laura Jane Bates, 83 Fifth Ave., New York, N. Y., Mar. 11, 1907."

We worked hard for seven weeks and you can imagine how discouraged we were when, after all that time, we could see no little improvement. One day I happened to see a Cuticura advertisement, telling how a little baby had been cured of a bad case of skin eruption, and although I had but ninety-seven cents with me, I bought a cake of Cuticura Soap and a bottle of Cuticura Resolvent. When I reached home I was like a child with a new toy, and we bathed our patient well and gave her a full dose of the Resolvent. She slept that night better than she had since she had been with us and the next day I located the price of a box of Cuticura Ointment. I am not exaggerating when I say that in exactly five weeks this young woman was able to look for a position, being strong enough to work and full of ambition. In another month she left the home and now has a good position in a nice family where she is respected and is strong and well. You may refer any one you wish to persons, Laura Jane Bates, 83 Fifth Ave., New York, N. Y., Mar. 11, 1907."

AT CITY MISSION

Young Woman Found in Awful Condition with Scabies—Body a Mass of Sores from Scratching—Tried Many Remedies for Seven Weeks—Result Was Discouraging, But YELDED TO CUTICURA

ITCHING TORTURES YELDED TO CUTICURA

"While I was doing missionary work in the lower portion of several cities I found it necessary to know a little of the efficacy of a few medicines and after a while I found that a little knowledge of Cuticura was one of the necessities. One of the very bad cases I had to deal with was that of a young woman who had come to us not only broken in spirit but in a most awful condition physically. Our doctor examined her and told us that she had scabies (the itch), incipient paresis, rheumatism, etc., brought on from exposure and the effects of her ragged-edged life. Her poor body was a mass of sores from scratching and she was unable to retain solid food. We tried many things, a good tonic was prescribed and baths with a rubbing of lard and sulphur. We worked hard for seven weeks and you can imagine how discouraged we were when, after all that time, we could see no little improvement. One day I happened to see a Cuticura advertisement, telling how a little baby had been cured of a bad case of skin eruption, and although I had but ninety-seven cents with me, I bought a cake of Cuticura Soap and a bottle of Cuticura Resolvent. When I reached home I was like a child with a new toy, and we bathed our patient well and gave her a full dose of the Resolvent. She slept that night better than she had since she had been with us and the next day I located the price of a box of Cuticura Ointment. I am not exaggerating when I say that in exactly five weeks this young woman was able to look for a position, being strong enough to work and full of ambition. In another month she left the home and now has a good position in a nice family where she is respected and is strong and well. You may refer any one you wish to persons, Laura Jane Bates, 83 Fifth Ave., New York, N. Y., Mar. 11, 1907."

NOTES OF COPPER NEWS.

Work is progressing at both the Copper Hill and Black Hawk shafts of the Arizona Commercial company, with full shifts employed. A new 150 horsepower marine boiler was installed at the Copper Hill shaft a few days ago which will furnish ample power.

CONDITIONS AT BUTTE MINES.

Conditions in the Minnie Healy mine have very much improved in the last thirty days. The fire, which held up work for a time, is not so serious as it appeared to be at first.

City Brevities

Today's weather: Local rains and thunderstorm; cooler.  
Yesterday's temperatures: Seven a. m., 54 degrees; noon, 60; 7 p. m., 56. Maximum, 61 degrees; minimum, 55.

Miss Ellen Bjorklund visited friends in Ishpeming yesterday.

H. Jenkin of Munising was a visitor in the city yesterday.

Thomas Taylor has gone to Chocoray for an outing of ten days.

A. W. Graustadt of Hancock visited friends in the city yesterday.

Mrs. Sharky of Munising is a visitor at the home of Mrs. W. D. Reany.

Miss Hazel Fisher of Escanaba is visiting Miss Evelyn Roany of Bluff street.

Miss Anna A. Harrington has returned from a week's vacation spent in the copper country.

The Japan was in port last night from 10 until 11 o'clock. She is on her way to Duluth from Buffalo.

The Misses Charlene Kelso and Minnie MacLaren of Manistique are visiting at the Pollock home, 329 East Arch.

Miss Vangie L'Huller left Sunday on the Tonawanda to spend a couple of weeks with friends in the copper country.

Miss P. N. Tappay has returned from a visit to the Huron Mountain club and will leave today for her home in Detroit.

Ben Hughes, representing the Michigan Catholic, published at Detroit, is in the city for a brief stay, coming here from Munising.

C. M. Byrns, representative of the second district of the county in the state legislature, was in the city yesterday, on business.

Mr. and Mrs. Glenn Wood of Phoenix, Ariz., who have been visiting Mrs. Will Reany of Bluff street, have returned to their home.

Ishpeming visitors who were in the city yesterday were William H. Gallagher, Jr.; A. C. Ladington; E. Kennedy and F. J. Baker.

Mr. and Mrs. Philo Smith paid a brief visit recently to Joseph L. Smith on their way from West Superior to Chicago, their home.

Miss Mildred Robertson has returned from Calumet, accompanied by Miss Rebecca McCauley, who will be her guest for a week or more.

Mrs. Joseph Thiriet and her daughter, Miss Octavia Thiriet, who have been visiting Mrs. Marie J. L'Huller, have returned to their home.

Miss Charlemagne Laurier of St. Len, Canada, accompanied by her son, Wilfred and grandson Charles, is visiting Mr. and Mrs. C. A. Laurier.

L. Grabower returned from the east yesterday. He was accompanied by Edith Marks of Bisbee, Arizona, who will visit with him for a few days.

Visitors from Negaunee who were in the city yesterday were H. G. Nightingale, A. A. Duff, Alfred Chapman Louis Corbett and C. V. R. Townsend.

Mrs. W. P. Townsend and her daughter, Gladys, from Grand Rapids, Mich., are visiting with her sister, Mrs. J. L. Deagon, at their cottage at Lakewood.

Rev. Father Jodrey and Eugene La-Rochelle returned late last night from a visit to a number of Chocoray farmers made in the interests of the French bazaar.

Miss Dolia Carey of St. Paul, Minn., who has been the guest of her sister, Mrs. Thomas Foley for the past two months, returned to her home yesterday.

Geo. E. Duell left for his home at Valton, Wis., last evening after several days spent at the residence of Charles McCruick, North Third street. Mrs. Duell will remain some days longer.

Miss Ruth Hampton, of Cartersville, Ill., who came to Marquette with Mrs. J. W. Spar some weeks ago, left yesterday for Iron Mountain, where she will visit for some time before returning to her home.

F. M. Giles, for a number of years a member of the high school faculty here, is in the city for a visit with Marquette friends. Mr. Giles is now principal of the high school at De Kalb, Ill., and the present is his first visit to Marquette since he left the city.

The Bijou theater, reopened yesterday after extensive improvements, attracted large audiences yesterday, starting out with a capacity house in the afternoon. Manager Loss' work in the house caused much favorable comment, as it has been completely re-decorated. The box office now has roomier quarters, as has also the operator of the picture machines. The Bijou has a good bill this week.

New Storekeeper—Will Ulrich is now the storekeeper at the L. S. & I. shops and is successor to Louis Neault who resigned the place recently.

Marriage License—A license to marry was issued yesterday to William T. Mitchell, a miner of Ishpeming and Miss Eliza H. Argall who also lives in Ishpeming.

Taylor Funeral—The funeral of Mrs. Charles Taylor who died in Chicago took place yesterday. Services were held in Negaunee and the interment was in the Park cemetery in Marquette.

Married Last Night—James E. Edgar and Miss Hattie Church, both of Munising were married last night at the Baptist parsonage by Rev. Maxson. Amos Bouschamp was groomsmen and Miss Maud Church, the bride's sister, was bridesmaid. The couple will make their home in the city.

Pictures at Opera House—During the week of the county fair a series of exceptionally attractive motion pictures will be shown at the opera house. The attraction will be at the theater for three nights, Monday, Tuesday and Wednesday, Sept. 2, 3 and 4. Thursday night, "The Flaming Arrow," a melodrama will be presented.

Newberry Team Sunday—The Newberry baseball team will be here next Sunday to try conclusions with the Marquette nine. The game will be another of the series to decide the amateur championship of the peninsula. The visitors will come strengthened by the acquisition of a number of the best players of the Newberry hospital team, and will be prepared to give the home club a stiff contest.

Courts in Session—The September term of the circuit court will open next Tuesday morning. An unusually heavy docket of cases which have been in court

for a long time will be heard. The United States district court will not be in session until Thursday, Sept. 5, the date of the opening of the term having been postponed by the clerk of the court, Francis Moore upon an order recently made by Judge Knappen.

City Ready to Pay—Acting Controller McCarthy has announced that the city is ready to pay about \$4,000 to persons and interests holding claims, if they will call for the vouchers which have been prepared. When the claims were filed many of the bills were not properly sworn to as is required by law, and this will have to be done before vouchers are issued. The proper affidavits can be made at the controller's office when the vouchers are called for.

MISS PELLETIER IS LEADER IN CONTEST

MISS O'REILLY NEEDS BUT TEN VOTES TO TIE HER—OTHER NOTES OF THE BAZAAR.

Miss Leah Pelletier was ahead in the popularity contest at the French bazaar last night, but she led Miss O'Reilly only by ten votes. The returns showed that Miss Pelletier has 250 votes and Miss O'Reilly has 240. The contest between the two young women, who represent the two Catholic parishes of the city, grows more spirited every day and which of them will receive the diamond ring which will carry with it the honor of being the most popular young woman at the bazaar cannot now be forecasted.

The newly organized Marquette band made its initial appearance at the bazaar last night and it met with a hearty reception from the big crowd in the hall. The singing of Fred Bennett of Ishpeming was well received and he was given a number of encores. It is said that the band will appear at least one more night at the bazaar and Mr. Bennett will sing again.

Wednesday from 5 until 8 o'clock in the evening a supper is to be served by the Foresters of St. Cecilia's court and Saturday night the ladies of the parish will give a chicken dinner. The price charged at the dinners will be twenty-five cents per plate. Those who have attended previous dinners say that this is much cheaper than staying at home.

One more day will be devoted to the children some time during the week but the date has not yet been definitely fixed. The bazaar will close Saturday night.

READY FOR INITIATION.

Sixty New Members to Join Knights of Columbus Next Sunday.

Plans for the initiation ceremonies to be held by the Knights of Columbus next Sunday have been completed and in connection with the ceremonies, an elaborate program has been arranged.

A class of sixty new members will be taken into the order and lodges from Negaunee, Ishpeming and other points will take part. Those to be initiated have been notified to present themselves at Legion Hall at 8 o'clock next Sunday morning and from then members of the order and the candidates will march in a body to attend a special mass to be held at St. Peter's cathedral at 9 o'clock. After the mass the first degree will be conferred at Legion Hall at 10 o'clock and the second and third degrees will be conferred at 1:30 o'clock in the afternoon.

After the initiation ceremonies a banquet is to be held at 7:30 o'clock in the evening at the Baraga Auditorium. A meeting of the order was held last night at Keough's Hall to make the final preparations for the initiation.

THEATRICAL.

The theater-going public of Marquette will have an opportunity tonight of witnessing one of the most pleasing musical hits that has been presented for several seasons past.

"Little Johnny Jones" is in every sense of the word a metropolitan attraction, with a distinguished cast and a chorus of forty people, in all numbering over seventy-five persons. The same production in every respect will be seen here, which delighted New York all last season and which scored a run of over three months in Chicago. In the latter city Mr. McAdell, the dramatic critic of the Chicago Chronicle thought so well of "Little Johnny Jones" that he took occasion in his paper to give it a half column "letter," which he remarked that "A person would have to possess a mean disposition not to relish the genuine American humor which pervades George M. Cohan's musical melodrama."

A Wife's Secret.

An emotional drama, "A Wife's Secret" will be presented at the opera house next Saturday night under the direction of Spencer and Aborn.

This successful play, now in its fourth season, is reputed to present a most interesting and attractive story. As a picture of real, breathing human nature, it is said to be without a peer in the field of emotional drama, and this claim has been substantiated by the remarkable success it has won all over America during this and the past three seasons. The role of leading interest, the girlish and beautiful wife of a young clergyman, who is turned out of a happy home for her fancied wrong-doings, and because of the malicious scandalizing of her enemies, and the compromising advances of an unscrupulous man, is played by Miss Grace Bayley, one of the most distinguished of the younger leading women in this country, and she has been surrounded by a cast, it is claimed, of the highest excellence in every particular.

There is no business in the world today safer or more profitable than mining. Statistics show that there is 45 per cent less failures in mining than any other industry, and dividends of 25 to 100 per cent are not at all unusual. The Grand Traverse & Arizona has been pronounced by the best expert testimony to be one of the best in the southwest. Look in the window as you go into The Stafford Drug Co.'s store and examine some ore taken from this mining company's shafts. (8-25-17)

DREAMING OF RICHES

May be a pleasant diversion for some, but it is not the dreamer who acquires wealth. It is the one who works and saves and carefully invests his earnings.

Persons who are beginning to save can do no better than to start an account in this bank. It matters not about the size of the account. It is the BEGINNING that is important.

Great fortunes always come from small beginnings and it is surprising how fast a bank account will grow if one saves systematically. Saving money helps one's business reputation establish credit and provides for a home.

Marquette National Bank.

500 CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., Aug. 26.—[Special.]—The upbound boats passing the canals the last twenty-four hours were the following: Uranus 8:30 p. m.; Yosemite, 9:30; Pathfinder, Sagamore, 11; Owen, midnight; Cowles, 12:30 a. m.; Reed, 2:40; Admiral, 3:30; Morrow, 5; Shaw, 6; Richardson, Trever, Major, Armour, 6:30; S. M. Stephenson, Clarke, Japan, 7:30; Van Hise and whaleback, 8; Tampa, 9; Fulton, 9:20; Mecosta, Neebing, Turin, Chate, Romano, 10; Wawatam, 10:40; Queen City, 12:40 p. m.; Perkins, Leadfield, Henry Rogers, 2; Wolf, Butler, Carter, 3:30; W. S. Mack, 4:30; Lagonda, 5; Bangor, Reynolds, 5:30; Wolkin (little), 6:20; Verona, Holland, 7; Japan, 7:30.

Marquette Port List.

D. S. S. & A. docks: Arrived—Trevor, Cleared—Black, McWilliams, Cleveland. L. S. & L. docks: Arrived—Peter White, Centurion, Chocwat, Black Rock, Major, Cleared—Pontiac, Cleveland. The Pioneer and Thompson are at the coal docks.

NEW LODGE AT BIRCH.

A new lodge of the Modern Brotherhood of America with a charter membership of thirty-two has been installed at Birch by Assistant State Manager Shepro. The Marquette lodge assisted at the initiation ceremonies. The new lodge will be known as the Lupton lodge, No. 128, and the following officers have been elected: President, Amasa Dady; vice president, Robert Gaden, treasurer, Jerry E. Farrell; secretary, James M. Hudson; chaplain, Lafayette Woodruff; physician, Chas. N. Bettum; conductor, Frank Gollinger; watchman, Chas. Neven; sentry, Isaac Giele. The lodge will meet the first and third Friday of each month.

CHURCH DEDICATED.

The new Finnish Lutheran church at Grand Merai was dedicated Saturday. Rev. J. K. Nikander, president of the Finnish college at Hancock, and Rev. John Vargelin of Sault Ste. Marie, pastor of the congregation, presided. The new church is a neat little building large enough for the Finnish population. Rev. Vargelin is to leave the Soo to locate in Eveleth, Minn., and a call has been issued to Rev. J. Mautla of Superior, Wis., to take charge of the congregation. It is not known yet whether he will accept the call.

MARKETS

NEW YORK STOCKS.

New York, Aug. 26.—The early disturbance in today's stock market was the residue of Saturday's unsettlement and was caused by fears aroused by the feverish movements of the market. After it appeared that no ulterior consequences were to be immediately forthcoming the market resumed an even more confident tone than was manifest earlier last week, and which was based presumably on the belief that the liquidation had been completed. The financial district was full of rumors during the early period of disturbance in the market of trouble of one kind and another, including the alleged embarrassment of well-known bond houses and threatened commercial failures. It was while waiting for the dreaded announcement of these troubles that stocks sold off. This and the absence of any confirmation of the trouble rumors were the negative forces making for the later improvement of prices. A more positive factor working towards this end was an improvement in sentiment over the monetary outlook perceptible not only here, but also abroad. The effect on the actual quotations for interest was slight, although the rates for time loans for short periods were notably lower here. At the same time the call loan market was rather stiffer. The brightening sentiment over money conditions was increased by the character of the reports put in circulation of the probable formation of a bankers syndicate to underwrite the \$40,000,000 New York city bond issue, a restoration of investment

confidence being argued from this, which was, however, without authoritative confirmation. Great interest was felt in the publication of a call both by the federal controller of the currency and the New York state banking department for reports of the condition of banks and trust companies on the same date, Aug. 22.

Paine, Webber & Co. telegraphed from New York yesterday as follows: "In spite of the fact that a bear raid on Reading, and New York Central was widely advertised and that reports from the northwest regarding the grain crop were rather discouraging, the New York market enjoyed a close at the best prices of the day. There was a noticeable absence of pressure and although the bear element is still very aggressive their attacks did not cause much liquidation. Call money was somewhat firmer and there was a report of a bank failure in Amsterdam. The news did not affect the market to any extent. Bear news has been so numerous that new reports of impending disaster don't affect the market to any great extent, as apparently we have discounted the worst. We are inclined to think that the rally will extend somewhat further but advise caution when making commitments on the bulge."

Closing prices were:

Table with columns for various stocks and their closing prices, including U.S. Steel, C & G, and others.

Western Gold Stocks.

Western stocks closed as follows yesterday, Paine, Webber & Co. reporting the quotations: Sardinian... 44, Goldfield... 1.75 @ 1.80, etc.

CHICAGO GRAIN MARKETS.

Chicago, Aug. 26.—A good foreign demand and bullish news from Europe were the chief causes of a strong wheat market today. At the close the September wheat was 1 1/2 higher, corn was up 1/4, and the market held strong all day.

Wheat Summary.

Paine, Webber & Co.'s Chicago correspondent said yesterday concerning the wheat market: "The whole world is sending more or less bull whips on wheat, and so long as this continues it is useless to expect any important reaction in prices. The cables were all higher today, with a sensational advance on both wheat and rye at Berlin. A member of the Chicago trade who is in Europe called early that both shipments of wheat and corn from the Danubian countries will be light for the year. Wet weather over the northwest is very much against early spring wheat harvests. Lighter and cooler weather are predicted. Winnipeg messages say early wheat is turning white, showing the effect of recent frosts, and late fields are shriveled. Cash wheat is being drawn from the elevators at Minneapolis to supply the big mills, and outside millers are paying 5/2 over September for No. 1 northern. The advance checked export business at the seaboard, but New York confirmed ten beatloads of No. 2 red wheat sold abroad. Antwerp cables say that the Russian estimates of wheat yields are being reduced. The primary movement is not heavy enough to be a great load on the cash or speculative trade. We advise against getting long too much wheat on the swells. Such spots are the place to take profits on those who are able to buy on reasonable reactions are likely to be in right on a big broad market."

SOUTHERN IRON DOWN \$1.

Birmingham, Ala., Aug. 26.—The prevailing dullness in the Southern pig iron market culminated today in a drop of \$1 a ton in prices, when No. 2 foundry iron for delivery during the last quarter of this year was quoted at \$19 per ton and the same grade of iron for delivery during the first half of next year at \$17.50.

PERSONNEL LAW IN DANGER.

Renewal of Fight Over Titles Is Due at Next Session of Congress. Washington, Aug. 25.—Officers of the navy are observing signs which indicate there will be a renewal of the fight over titles at the next session of congress. The Fifty-ninth congress ended with every manifestation of a warmer light in the future. The president was understood to be in possession of a compromise bill which should indicate staff connection such as paymaster commander and surgeon admiral. Staff officers who wish for any change in official designation want the out-and-out title, as in the army and marine corps. The situation is interesting on account of the prospect that staff officers will operate to obstruct any naval personnel legislation which does not include them and their desires in its provisions. The question has been thoroughly discussed, and the navy department is in possession of reports from two or three boards. It is realized by naval officers that nothing can come

62 SALOONS; 1,500 PEOPLE.

Benbow City, Ills., Aug. 26.—The saloon business is advancing with rapid strides in Benbow City, the town that John D. Rockefeller made on the Mississippi river. There are now sixty-two dramshops there with a population of 1,200. A week ago there were 700 men and fourteen saloons. When the force at work at the big Standard Oil refinery and tank plant was doubled, the vendors of liquor became exceedingly busy with the result that there now is one saloon for each twenty-four of the population. If the same proportion prevailed in St. Louis

before taking hold very strong in the Boston market. Calumet & Arizona declared the regular five dollar quarterly dividend, but like all other dividends declared recently it was without effect on the stock.

Copper Situation.

John Gillie, general manager of the Amalgamated mines, who is in very close touch with the heads of the copper industry, speaking of the copper market, said: "The Butte product is about normal, as is production throughout the country generally. We have a great many more men employed in Butte, though the Amalgamated company is working about the same number as last year. The increase in men is due to the new companies. They are engaged in development work and add nothing to the copper supply. It will be a couple of years before these new enterprises can be expected to accomplish anything and meanwhile the demand for copper is steadily increasing. One of the strongest arguments that might be advanced in support of an immediate advance in prices is the absolute refusal of manufacturers for time delivery. You place your order with the understanding that it will be filled as soon as they are able. There is another reason; it lies in the fact that five concerns use about one-half the copper supply. These companies refused to pay 25 cents and decided to use up every pound of surplus copper on hand, in the belief that they would not have to pay more than 25 cents when they came to replenish their stock. If this is correct, it can easily be seen what a difference their actions would make when it is remembered that the five companies use more than 525,000,000 pounds annually, or about 125,000,000 pounds more than is produced by the Amalgamated and the Calumet & Hecla combined. Last year the Amalgamated made about 300,000,000 pounds. The Calumet & Hecla produced about 100,000,000 pounds. Now the American Brass company uses 250,000,000 a year; the Roehling & Son company uses 70,000,000 pounds; the General Electric 100,000,000 and the American Steel & Wire and the National Lead 50,000,000 pounds each. Consider the effect of the withdrawal of these five from the market for three months. Then there are five or six small companies whose consumption amounts into the millions. If all are using the surplus, the reason for the drop is apparent. But consider what will be the result when these companies are again forced into the market. I believe we will see copper metal soaring again shortly."

PEACE PLAN KNOCKED.

Makers of Toys Decline to Desist from Warlike Models.

Pittsburg, Pa., Aug. 26.—Rabbi J. Leonard Levy of Pittsburg, president of the Pittsburg Peace society and a recent delegate to the New York conference, also a visitor to The Hague conference, has returned from a ten weeks' visit to Europe, where he spent much time trying to get the makers of toys to desist from warlike models, is talking the ground that playing with such toys as soldiers, guns, etc., creates warlike thoughts in the breasts of the children. His mission was a failure and the famous rabbi said tonight: "The manufacture of toys in Germany, particularly in Nuremberg, is purely a commercial proposition, and the manufacturers will make toys for which they find the best market, irrespective of other conditions. No help in the peace problem can be expected from that source now, as commercial benefits are considered by far the more important. "Peace through the abolishment of warlike toys is an admirable theory, and one which can be worked out eventually, but only with the assistance of the Americans. What is now needed is that some American invent a peace toy, have it made in Germany and allow them to exploit it in this country. Only in this way can we get universal recognition of any peace toy."

ROBS POSTOFFICE BY TRICK.

Man Impersonates Inspector While His Partner Goes Through Safe. West Springfield, Mass., Aug. 26.—Two bold postoffice burglars, one impersonating a government official and getting the postmaster out of the way, while the other calmly helped himself to \$500 worth of postage stamps, operated in Mittineague and got away long before the robbery was discovered. Postmaster Edwin Smith was alone in the postoffice when the first robber entered. He was well dressed, with a dark vandyke beard, and introduced himself as an agent of the postoffice department.

ADVENTURE.

Advices state that Baltic Lode was cut Saturday. 500 shares traded in today. The stock ought to be selling today at twenty dollars, as the Baltic Lode when opened up will make it worth a hundred dollars.

"ANOTHER POOL FORMED"

Like the one started last spring. Some of the parties in last pool have made hundreds of dollars. All members are well pleased. I will give others a chance to start speculating without risking a dollar.

You lend me \$20.00 and I will guarantee to pay back your \$20.00 any time, you agreeing to leave the profits I make for you and trade with it after I double your money. In the meantime I will send you the Chicago Post free, that has all the Markets and news, so you can see how I make money from your \$20.00. I will also mail you a statement of each transaction. I have traders who make hundreds and thousands from \$20.00 in wheat. Remember I am getting you started without you risking a dollar. You will ask, why does Spear do this? I am doing it as an advertisement to increase my business. It usually takes two weeks to double the money. Women can join it. You very seldom hear of one losing in wheat, for the reason that wheat is used the world over and does not fluctuate much. One cannot get rich in their business, so I will teach you how to speculate and make money if you will follow my advice.

If you have not the \$20 I will lend it to you, as I do not want the money but the business. Office open at 8 o'clock evenings. Come in and bring your friends. This is not a fake advertisement.

J. W. SPEAR,

Harlow Block ESTABLISHED 1893 Marquette, Mich.

**MARQUETTE BAPTIST ASSOCIATION MEETING**

REPRESENTATIVES OF UPPER PENINSULA CHURCHES WILL CONDUCT EIGHTEENTH ANNUAL SESSION TODAY, TOMORROW AND THURSDAY.

The eighteenth annual meeting of the Marquette Baptist association, comprising the Baptist churches of the upper peninsula, will be held at Calvary church, this city, this week. The opening meeting is to be held this evening, commencing at 7:30 o'clock, and there will be morning, afternoon and evening sessions tomorrow and Thursday. Delegates are expected from all of the Baptist churches of the district. Officers to serve during the ensuing year will be elected and delegates will be chosen to attend the annual meeting of the Michigan association, to be held in Detroit in October. The programs for the several services are as follows:

**Tuesday Evening; Preparatory Service.**  
7:30—Prayer and Praise Service, led by Rev. A. K. Scott, Iron Mountain.  
8:00—Address on "Evangelism," by Rev. W. R. Schoemaker, Menominee.

**Wednesday Morning; Associational Service.**  
9:00—Call to Order and Prayer.  
Appointment of Nominating Committee.  
Election of Officers.  
Reading of Constitution and Rules.  
Reading of Letters from the Churches.  
Appointment of Committees.  
10:45—"Annual Sermon," by Rev. J. B. Fox, Manistique.  
11:15—"Quiet Hour," led by Rev. W. N. Fletcher, Ishpeeming.

**Office Open Again.**  
Western Union Manager Returns to Work, but Postal Man Quits Job.

The Western Union Telegraph company's office, which had been closed for a few days on account of the operators' strike, was reopened yesterday. El. Dean, the manager, was advised that unless he returned to work his bonds would be forfeited. The bonding company having notified the district manager that they would not carry the bonds of the operators. The cancellation of the bonds might prove a serious thing for the striking operators, and Mr. Dean concluded he had better return to work. Michael Harrett, manager of the Postal Telegraph company's Ishpeeming office, gave up his position Sunday night. He was advised that non-union operators are working at a number of places on the lines in this district through which the Ishpeeming business passes, and he returned to work on that account. It is reported that operators are working at most of the Western Union company's smaller offices west of here, but a majority of them are non-union men. The telegraph companies are accepting business suits to date. An Ishpeeming man said yesterday that he knew of an instance last week where a message sent from California was five days in transmission.

**FROM HOPKINS' CURB LETTER.**

"The coppers opened rather irregular, with a light volume of trade. The market was inclined to sell off, and when the New York list started downward Boston followed suit, the losses ranging from 1/2 to 1 point in the higher priced issues. North Butte and Butte Coalition being the center of attack. The money situation is the important factor and the high rate is causing a steady run of liquidation. Whenever the market shows any strength it invariably meets with selling orders and as the buying is mostly from shorts and small investors it is not sufficient to overcome the liquidation. Calumet & Arizona declared the regular dividend of \$5 at the meeting of directors held today.

The day's prevailing prices were:

American	Bid.	Asked.

**WILL MEET EARLIER.**

Next Year's Tournament Will Probably Be Held Later Part of July.

John B. Pearce, one of the delegates of the Ishpeeming fire department to the annual convention of the Upper Peninsula Firemen's association at Ontonagon last week, arrived home Sunday night, accompanied by William Bray of Chicago. Mr. Pearce reports that in all probability next year's tournament will be held the latter part of July, or early in August. The matter of selecting the dates has been left to the executive committee, which will meet some time during the winter at Marquette.

**VICTIM OF TYPHOID.**

Andrew Mafesanti, aged nineteen years, who was brought to the Ishpeeming hospital from Princeton a week ago yesterday, suffering from typhoid fever, died Saturday. His condition was precarious when he was received at the hospital and the physicians had little hope of his recovery. The remains were taken to Negaunee Saturday evening and the funeral was held there Sunday afternoon from St. Paul's church. The deceased was a newcomer in the county, but he had several friends among the Italians of Negaunee.

**HAS TAKEN BOWLING ALLEYS.**

W. J. O'Donnell, former clerk at the Nelson House, has leased the Bank street bowling alleys and billiard hall and opened the place for business yesterday. The room has been closed for two months past, during which time the interior has been repaired, the alleys and balls thoroughly gone over, and other improvements made.

**TUXEDO CLUB**

**HARRINGTON APPOINTED.**

Ishpeeming Man Receives Commission as Deputy Game, Fish and Forestry Warden.

William Harrington, who has been employed as deputy game warden in Marquette county, yesterday received his commission as state deputy game, fish and forestry warden. It is dated Sept. 1. The appointment of Mr. Harrington's appointment does not come as a surprise to his friends here, as it has been generally conceded for some days past that he would be given the position. He will go to Marquette today or tomorrow to take the oath of office before the county clerk. His territory will include Marquette, Dickinson and Iron counties. He will continue to reside in Ishpeeming, as Marquette county will be his largest field.

Saturday Mr. Harrington secured the conviction of George Schurtz and Henry Aslin, charged with killing deer at a number camp in the Yellow Dog district. Mr. Harrington had been working on the case for some time and he was obliged to make three trips to the district before he secured sufficient evidence to convict Schurtz and Aslin. Both paid their fines and costs of court, amounting to \$17.25 each.

**WORK STARTED ON MILL.**

Cuba City Paper Reports That Vandewater Property is Looking Well.

The News-Herald of Cuba City, Wis., had this to say of the Vandewater lead and zinc property in its issue of last Friday:

"At this property the underground development work under the direction of Superintendent Robert A. Fox is progressing in a most satisfactory manner. The Vandewater promises to make a magnificent mine and is certainly meeting the most sanguine expectations of its friends. There has already been nearly 300 feet of drifts and crosscuts driven on the length and width of the ore deposit, every foot of which is in the ore. The main drift running with the trend of the formation is now over 200 feet in length, with a strong sheet of pure concentrated ore in the breast at both ends of the drift. From drillings done on the land at different points it looks as if the ore body will extend the full length of the property, north, westerly and southeasterly one half mile across. Construction work on the new mill has been commenced. It is expected the plant will be completed and in operation by the first of November if not before. The new issue of treasury stock to erect the mill was all taken by the stockholders, and the money is in the treasury. When the mill starts there will be no indebtedness. The affairs of the company are in splendid shape. This taken with the richness of the ore in stockpile and developed in the mine should insure the stockholders early returns in the shape of dividends."

**TO ORGANIZE LADIES' TENT.**

Branch of Order of Rechabites Will Be Formed Tomorrow Afternoon.

The district officers of the Order of Rechabites will organize a women's tent in this city tomorrow afternoon at 2:30 o'clock. The meeting will be held in the Mine Workers' hall, where the men's tent of the society holds its regular sessions. The women's organization will start with forty or fifty members, and the class will be initiated by the team from the men's branch. The district officers believe that the women's tent will in time be one of the strongest women's societies in the city. The organization has a death benefit fund and the officers had no difficulty organizing the charter class. An effort is to be made to increase the membership to 100 or over between now and the first of the year. The Rechabites is the oldest and largest temperance society in the world.

**TOURNAMENT GIVEN UP.**

The Ishpeeming men who a few days ago announced that they would conduct a "Carnish" wrestling tournament at the arena in the Brastrand lot, Labor Day, have decided to drop the matter and the fence is soon to be removed from the enclosure. Members of the Sons of St. George committee, who conducted the wrestling July 20, will be at the lot this afternoon at 5 o'clock to dispose of the lumber to any one desiring it. It will be sold at a sacrifice.

**NOTICE OF ANNUAL ELECTION**

Of School District No. 1, Ishpeeming, Michigan.

Notice is hereby given that the annual meeting of School District No. 1, of the city of Ishpeeming, Michigan, will be held in the Central school building on Division street, Monday, September 2nd, 1907.

The annual meeting will be called to order at 9 o'clock in the forenoon, when the reports of the assessor and director of the district will be read, and such other business as may legally come before the meeting may be transacted at this time.

The polls will be open at 10 o'clock in the forenoon of said day, and will remain open until 5 o'clock in the afternoon, for the purpose of submitting to the vote of the qualified electors of said district the following:

1st. The election of one (1) trustee to serve for the period of three (3) years.

2nd. Shall the board of trustees cause to be spread on the tax roll a special tax of two mills on the dollar for the years of 1908, 1909, 1910 and 1911, for the purpose of liquidating the cost of erecting the new High school building situated on the school property on East Division street, in the city of Ishpeeming?

The qualifications of voters for trustees are:

First—A taxpayer.

Second—A parent or guardian.

Taxpayers only can vote on the special tax proposition.

J. G. WELSH, Director.  
Ishpeeming, Mich., Aug. 20, 1907.

**ISHPEMING IN BRIEF.**

Dr. D. McIntyre of Princeton spent Sunday in the city.

Miss L. Fenlon of Ripon, Wis., is in the city visiting Mrs. H. Ruez and family.

W. E. Emory, representing the American Book company, was in the city yesterday.

William P. Bolden and family have returned from a three weeks' trip to central New York.

William Kilbride, of the concrete contracting firm of Anderson & Kilbride, is here from Ironwood.

Miss Minnie Shanley left Sunday for the copper country, where she will spend ten days visiting friends.

Thomas M. Solar has begun work on the foundation for the Young Men's Christian association's new building.

The old barn at the corner of Pearl and Pine streets, which has been in a dilapidated condition for some years, is being torn down.

Miss Libbie Cox is singing at the Grand theater this week. The Grand is doing its usual big business, and Miss Cox has proved a good drawing card.

William Pearce, wife and daughter, of Chicago, who spent the past week in the city visiting his mother, Mrs. Thomas Pearce, left Sunday night for their home.

P. P. Bronson and George F. Ruez left Sunday evening for Cuba City, Wis. Mr. Ruez will return today or tomorrow, but Mr. Bronson will spend several days there.

The advance sale of reserved seats for "Little Johnny Jones," the attraction at the Ishpeeming theater Thursday evening, will open tomorrow morning, when the demand for them will be unusually good.

Andrew Bergman, employed at the Cleveland-Chiefs Iron company's Moro mine, had his left foot crushed yesterday by falling ore. The great toe was amputated by Ishpeeming hospital surgeons.

Paul Brisson, who was run over by a South Shore switch engine a week ago Sunday night, losing a leg, is getting along nicely, and it will not be many days before he will be able to leave the hospital.

### BLUEBERRY SEASON CLOSES THIS WEEK

**BRADY & WEAD, BUYERS IN SANDS DISTRICT, HAVE SHIPPED OVER 3,000 BASKETS—MAY TRANSFER OPERATIONS TO TROUT CREEK.**

Henry Brady and Bert Wead of Escanaba, former residents of Negaunee, who buy and sell a greater quantity of blueberries each season than any other firm in the upper peninsula, will, within the next few days, discontinue their business at Sands. Mr. Brady was here yesterday, and said that he will visit the berry district near Trout Creek this week to look over the crop. If he finds it in good condition the firm will establish buying quarters there, to remain until the close of the season.

Mr. Brady said that while the crop in the Sands district is not as good as last year, this was the firm's bumper year, the season lasting eight weeks, and besides the crop was better than it had been for several years. Two years ago the firm had its second best season, when over 6,000 baskets were shipped. According to Mr. Brady over 100 pickers have been located in the Sands district during the greater part of the season, but most of them will leave the end of this week. For a week or more past \$2 per bushel has been paid, but the price has been down as low as \$2.25. When the reduction in the price was made to the latter figure the pickers threatened to leave the fields and an advance to \$3 was necessary in order to keep them at work. There have been several buyers in the district, but Brady & Wead purchased nearly as many berries as all of the others combined.

The crop in the Dead River district north of here is also about played out, and the pickers still in the field will be few. The berries here are light, but \$2.25. Practically all of the buying in that district has been done by J. Ewald, who is stationed at Ishpeeming, where he is not only buying berries but is also manufacturing boxes and crates. Many of the latter are used in the Sands district, and in fact Mr. Ewald supplies the greater part of the boxes and crates used in the entire upper peninsula.

### GOOSE LAKE ROAD AGAIN.

Supervisors Will Be Asked to Appropriate Funds for Its Improvement.

The farmers in the district between the Negaunee city line and Richmond township may petition the board of supervisors at its next regular meeting to appropriate a sum for the improvement of the Goose Lake road, which is said to be in unusually bad condition. The road has been extensively used this season by the farmers, and has suffered accordingly. Negaunee man said yesterday that no less than from thirty to forty rigs were driven over the thoroughfare Sunday and that every one of them had trouble getting to their destination. The surface of the road is in bad condition, and at least two miles and there are four miles where the brush should be cut. In places the latter hangs so low that the teams have difficulty getting through. In several places holders which should be buried up in the road.

At a meeting of the supervisors over a year ago the board was prepared to appropriate a sum to aid in the improvement of the thoroughfare, provided Richmond township would also contribute. The officers of that township, however, took the stand that they received no benefit from the road and that they could not afford to expend any money on it. Attention was called to the fact that the township was supporting a school near the line between the township and Negaunee, and that there were only a few children in that part of the district. Several forties of the land on the western end of the Richmond township was transferred to Negaunee township, so that the expense of maintaining the school is now borne by the latter. As the greater part of the road that needs repairing was included in the transfer and is now in Negaunee township it is likely that the farmers will appeal to the officers of that township to work in conjunction with the supervisors in maintaining it.

The farmers say that if the road is put in good condition they will bring the greater part of their produce to this city and that most of their trading will be done here. Business men who have dealings with the farmers wish to have the improvement made.

### THE NATIONAL DEBT.

Only about 180 million dollars of the present bonded debt of the United States is redeemable within three years, and there should be no difficulty in redeeming them within that period. Other large sums have from nineteen to twenty-four years yet to run. There should be no difficulty in restoring some positive organs to a normal condition or to keep the bowels open, that is, if you resort to Hostetter's Stomach Bitters. It is a specific remedy for doing such work and it always does it well, as our 54 years' record of cures will prove. Every sick man and woman therefore owe it to themselves to see that a bottle of the Bitters is obtained this very day. It always cures dyspepsia, indigestion, biliousness, cramps, diarrhoea, poor appetite, female ill humors, fever and ague. We guarantee it pure.

### WARNING.

If you have kidney and bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. The Stafford Drug Co.

**TOXEDO CLUB CIGAR**

## The Starch Problem

may be most logically and most satisfactorily solved by always using the genuine Kingsford's Oswego Silver Gloss Starch. It enables the housewife to do the best work with the least effort at the lowest cost. Whatever you wish to starch—whichever way you wish to do it—

# KINGSFORD'S OSWEGO

### Silver Gloss Starch

is ready without delay, for it may be boiled or used with cold water, dissolving instantly. Truly marvelous for producing a rich, white finish on fine linens, lace, garments and fabrics of every sort. Gives body with just the ideal pliability. The genuine Kingsford's Oswego Silver Gloss Starch has been the standard of quality for over half a century.

**BEST FOR ALL KINDS OF STARCHING**  
For general use boil as directed. For light starching unweakened as a cold water starch, requiring no boiling.

Made for over fifty years at Oswego, All grocers, in full weight packages.

T. KINGSFORD & SON, OSWEGO, N. Y.  
NATIONAL STARCH COMPANY, SUCCESSORS.

### LOCAL LACONICS.

Three Finnish couples of Negaunee were married in this city Saturday evening.

The Misses Mary and Ella Nichols of Milwaukee are visiting at the home of John Shea.

Howard Connors, Clement Shea and I. Benyas left yesterday for Dan Shea's farm at Little Lake, where they will spend the greater part of the week.

The impetus in the case of Walter Fish, who was killed Saturday morning, was adjourned yesterday until tomorrow afternoon at 2 o'clock, when it will be held at Justice Veran's office.

The first of a series of hops to be given by the "W. O." takes place this evening at McDonald's Opera House. It is an additional attraction to the manager and Wonderland will produce some moving pictures during the intermission.

Mrs. Walter Fish, whose husband was killed while working on the Bell Telephone company's lines in this city Saturday morning, arrived in Negaunee yesterday morning, accompanied by her mother. The funeral will be held this afternoon at 2 o'clock from St. Paul's church.

Hermon L. Swift, superintendent of the Bethel Commonwealth for Homeless and Neglected Boys, made a favorable impression Sunday evening. He gave two lectures, one at the Mitchell Methodist church, and the other at the Presbyterian church. The congregation of the former adjourned at the conclusion of his talk and went to the Presbyterian church to hear him the second time. In view of the interest created by his address the Mitchell church should be well filled tonight, when two of the boys from the home are to give an entertainment.

J. H. Stewart, Agent Menominee, Mich.,

How are the melons? asked the lady who had been biting into the apples and feeling the peaches and smelling the peaches.

"Not very good, ma'am, I'm sorry to say. I don't think they would suit. We expect to have some better ones in tomorrow."

"I'm afraid not. They're a bad lot. We have not found a single good one among them."

"I'll take this basket," said the lady.

"Very well, ma'am, if you want them, but I'd rather—"

"Have this basket sent to my house by the next delivery, please. (Aside.) He has some reason for not wanting me to take those melons. I'll show him that I'm not to be fooled."

A SHEEP'S LEG.

A nobleman against whom insanity was imputed by his relatives was asked during the examination by Lord Loughborough, "how many legs has a sheep?"

"Does your lordship mean a live or a dead sheep?" asked the nobleman.

"Is it not the same thing?" said the chancellor.

"No, my lord; there is much difference. A live sheep has four legs, a dead sheep but two. The others are shoulders."

### Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John F. Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (Hemionus) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a tonic and invigorant of the entire reproductive system." He continues "In Hemionus we have a medicinal root which is not only a tonic but a purgative. It is peculiarly adapted to women in that it is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Hemionus Unicorn root. Pain of itching in the back with leucorrhoea; atonic (weak) condition of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding); due to a weakened condition of the reproductive system; amenorrhoea (suppression) or absent monthly periods; Abortion or accompanying an abnormal condition of the digestive organs and chronic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, the following is a list of the ingredients of which Unicorn root, or Hemionus, and the medicinal properties of which it is most fully represented:

Of Golden Seal root, another prominent ingredient of Favorite Prescription, Prof. Finley Ellingwood, M. D., Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the woman. In all external and internal diseases and general debility, it is useful."

"Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal: 'It is universally regarded as the tonic useful in all debilitated states.'"

"In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

Prof. E. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhoea (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents the above named ingredients and cures the diseases for which they are recommended.

SENSATION CAUSED BY SURLES' DEATH

FALSE STATEMENTS ISSUED SHORTLY AFTER HE EXPIRED AT LAKESIDE HOSPITAL.

PHYSICIANS REFUSE TO TALK

Others Familiar With Details of His End Are Silent—Location of House Is Perplexing Mystery.

All Milwaukee is discussing the mystery that has arisen in connection with the death of William H. Surles, the former Marquette life insurance man who since his departure from the city has been general manager of the Northwestern Mutual Life Insurance Co., at Milwaukee.

Rumors and conjectures of every sort concerning Mr. Surles' sudden death are afloat and the surprising reticence of those familiar with his last movements has given color to suspicions which have arisen.

"Unusual circumstances surrounding the death of William H. Surles, general agent of the Northwestern Mutual Life Insurance company, on Tuesday, have given rise to rumors which have become the talk of the town.

"There is a mystery about Mr. Surles' movements shortly before he was stricken, in which those who know the facts refuse to lift.

"When Mr. Surles' death from apoplexy was reported it was said that he was stricken just outside the Milwaukee club, Wisconsin and Jefferson streets, just after leaving the club.

"The fact is that Mr. Surles was taken ill in a house on Jefferson street, to which he went from the Milwaukee club, and the number of which is withheld by those who know it.

"He was in the Jefferson street house, it is known, from 8:15 o'clock on Monday night until 10 o'clock. He was taken from there to the Lakeside hospital in a carriage, and not in an automobile, as was reported.

"A postmortem examination of Mr. Surles' body was made at the hospital under the direction of Dr. A. J. Patek, a health department physician.

"Other physicians present were: Dr. Wilnot F. Miller, the family physician; Dr. William Thordike, assistant medical director of the insurance company, and Dr. Ralph P. Peairs, head of the hospital.

"When Mr. Surles left his office on Monday afternoon he was accompanied by John A. Sullivan, his chief clerk, who lives at 3207 Sycamore street.

"Mr. Surles came to dine with him at the Milwaukee club, but Mr. Sullivan declined, having another engagement.

"Mr. Surles then went to the club alone—about 6 o'clock. He left, it was said last night at the club office, at 7:30 o'clock.

"Questions that are now being asked are: "Where was Mr. Surles from 7:30 o'clock until 8:15 o'clock, when Dr. Horace M. Brown was called to attend him?"

"Where is the house to which Dr. Brown was called to attend the stricken life insurance man?"

"Who are the people who summoned Dr. Brown and afterward took Mr. Surles to Lakeside hospital in a carriage?"

"One of the stories in circulation was that Mr. Surles came to his death by poisoning, but this is denied by physicians in the case, and it was not confirmed in the postmortem examination.

"Health Commissioner Dr. Gerbard A. Bading said last night that Dr. Patek, who conducted the examination, reported to him that Mr. Surles' skull was opened disclosing a clot of blood as large as a hen's egg on the brain and hardened blood vessels of the brain.

"This was regarded by the physicians as showing sufficient cause of death, and no further examination was considered necessary.

"Who Called Dr. Brown?" "When I was called to attend Mr. Surles I did not know who I was attending," said Dr. Brown. "I was in my office with two patients about 8 o'clock on Monday night. I was in my telephone bell ring and when I answered it someone asked me to come to a house on Jefferson street immediately to attend a man who was very sick. I asked who was at the other end of the line, but whoever it was hung up the receiver.

"I left the two patients in my office. I didn't even stop to close my desk. I hurried to the house—I refuse to say where it is—and there I found a man suffering from hemorrhage of the brain. I didn't know who he was, although I often had spoken to him on the street, and that very night I had met him in the club when I went to dinner. I did everything I could for him—everything that possibly could be done, but there was no hope for him.

"In Hands of Strangers. "The people with him were strangers to me—I don't care to say anything about them. It would be a violation of the fundamental principles of professional ethics. After working over the man I called a carriage to take him to the hospital. His papers and valuables I took with me, and the people there were strangers—and I returned to my office. I placed his property in an envelope, sealed it and put it in my safe until a couple of days later, when I turned it over to his family. The strangers accompanied Mr. Surles in the carriage to the hospital.

"Upon returning to my office I called up the hospital and told the people there to notify me hourly during the night of

the patient's condition, and they did so. I wrote a letter then to Mr. Surles' wife (she was at the family's summer home at Golden Lake), telling her that her husband was ill. It was just about 10:15 o'clock then.

"I was obliged to go to Green Bay early the following morning, so I could not go to the hospital.

"The post-mortem examination that was made, however, confirmed the diagnosis I had made of the case—a cerebral hemorrhage.

Dr. Peairs, the hospital surgeon, declined, too, to say anything about the persons who accompanied Mr. Surles to the hospital.

"They were strangers to me," he said. "I don't care to say how many there were, or anything about them—in fact, I didn't pay much attention to them. I had the patient to look after. Everything possible had been done for him before he reached the hospital, but it was impossible to save him.

"I have heard stories about the case, but we didn't find the slightest trace of poison when we had the post-mortem examination."

"When Mr. Surles died at 6 o'clock on Tuesday morning in the hospital Dr. Brown notified the coroner's office, and told the deputies the nature of the case. It was then referred to the health department, which issued a burial certificate after the post-mortem examination."

PRISON WATER PROBLEM SOLVED

EXCELLENT SUPPLY SECURED IN TWO WELLS—MATTER OF GETTING GOOD WATER HAS BEEN A VEXING ONE FOR YEARS.

The city of Marquette is still wrestling with its water problem, but the Marquette prison has solved the one that has been a source of annoyance to the officials of the institution these many years; it is now assured of an ample supply of the finest water for drinking purposes and will in time have good fire protection.

The new source of supply are two wells, sunk in the yard near the boiler house. They consist of six-inch pipe driven down until it has encountered a seemingly inexhaustible flow of water.

The water problem at the prison has caused much annoyance, particularly of late years. The supply for drinking purposes was originally planned to be received from a dam, holding back the waters of a small creek up in the hills, about three-quarters of a mile from the institution. From this dam a pipe line extended to the prison. This supply was open to objections, however. Not only was there at times some question as to its purity, but the supply also failed in dry seasons, necessitating the hauling of water by teams. Another source of water supply, but solely for the boilers and fire protection, has been one of the creeks branching off from the Carp river, a pump having been installed at the foot of the steep embankment near the prison.

First Sunk Shaft. Various attempts had been made to get good water at the prison, but had failed. Last spring Thomas Kane, the engineer, determined to try again. First he sunk a working shaft, with regular timber sets. It was put down some fifty feet, when it became impracticable to sink it further. In the bottom of the shaft a six-inch pipe was sunk an additional twenty-nine feet, giving a total depth of sixty-nine feet. From this well excellent water was secured. A pump was installed, and sufficient water was had to supply the entire prison. It was pronounced on favorably by the prison physician, and indeed is said to be exceptionally fine.

The quality of the water being determined, it was decided to put down a second pipe, which work was recently completed under Engineer Kane's direction. The work proceeded easily and rapidly, the excavating of earth to permit the pipe to sink being carried on by means of a water jet sent into the interior of the pipe. This jet washed up sand and gravel and when boulders were encountered quickly undermined them in the surrounding earth, so that they fell to one side, permitting the pipe to sink. After the surface sand was cut a stratum of clay was encountered, followed by a stratum of sand and gravel. A second stratum of clay was cut and the pipe was finally allowed to rest in another stratum of sand and coarser gravel, at a depth of ninety feet. At that point the flow of water was very strong, the water mounting fifty-six feet in the pipe.

Will Erect Storage Tank. A steam pump with a twenty-four-inch stroke has been attached to this pipe. It has a capacity of about 2,000 gallons an hour, or 48,000 gallons a day, and has been able to make an appreciable impression on the water in the well, indicating that the flow is so heavy as to be inexhaustible. The second well has in no manner affected the first, so it is thought that any number of wells could be supplied from the stratum of water, and in which the present ninety-foot well is bottomed.

It is the intention of the prison officials to arrange to pipe the water throughout the institution. It is also planned to erect a tank, of at least 48,000 gallons capacity, in the prison yard, with the purpose of furnishing fire protection. The water will be forced into this tank, whence it will be distributed by gravity. By increasing the number of wells as may be necessary it is believed the institution can be supplied with excellent fire protection, a thing in which it has been sadly deficient. Warden Russell says the money for the erection of the proposed tank is available.

The water drawn on by the wells probably is supplied both by the lake and the springs of the surrounding hills. It is unusually pure, as it is filtered by a natural process and is drawn from a depth at which no contaminating matter can possibly reach its source.

If you want to make big money do not buy a dividend payer; the price has been advanced to its highest point; buy while the company is developing and thus reap all the benefit of advance in price. The Grand Traverse & Arizona furnishes you the opportunity now. See one in Stafford's window, as you go in, from shaft No. 3. (8-22-11)

FARMERS DISREGARD LAW, SAY MOTORISTS

MARQUETTE AUTOMOBILISTS DENY CHARGES AND MAKE ANSWER TO RECENT COMPLAINTS.

ACCUSE DRIVERS OF HORSES

Machine Owner Says Chocolate Farmers Are Chief Offenders—New Organization Plans to Prosecute.

In answer to complaints made recently by farmers who asserted that automobilists were violating the law on country roads near Marquette, it is now charged that the farmers and residents along these roads themselves disregard the law. It is also said that the rights of automobiles on the roads frequently are wholly ignored and motorists in some sections encounter many needless difficulties.

The complaint made by the farmers was that speeding machines were a menace to life and property, and it was said that the disregard for the law was chiefly noticeable on the road between Marquette and Negaunee. A well known Marquette man and an automobile owner declared yesterday that motorists had for more reason to complain than had the farmers. The majority of owners, he said, were careful to observe the law on the road and he stated that it had been his experience that the drivers of buggies and farm wagons made a practice taking the whole road, refusing to allow machines to pass and in other ways making things disagreeable for motorists.

Although drivers of automobiles are required to use every precaution for the safety of life and property, the law specifically states that vehicles must make way for machines on the road. The complaint now made by owners of automobiles is directed chiefly against the farmers of the Chocoyai district.

Caused an Accident. It was said that only recently what might have been a serious accident was caused by the stubbornness of a driver of a farm wagon who refused to make a passage for a machine in which there were a number of women. The machine, it is said, was approaching at a moderate rate. The driver of the farm wagon ignored the shouts of the occupants of the machine and paid no heed to the horn. The chauffeur was unable to wholly check the machine as it started across a culvert and in avoiding a collision, the machine went over an embankment. When the accident happened it is related that the driver turned about in his seat and made a vulgar gesture at the party in the machine as they were jumping out to save themselves.

Charge Cowardice. Motorists say that experiences of the sort happen usually when the automobiles are occupied by women, and the drivers of vehicles only venture to commit serious offenses when they can get away and escape personal encounters or when they outnumber the men in the automobiles.

In order that drivers they may meet on the road shall be in no doubt about the law, many Marquette motorists now carry printed copies of the law with them and it is said that steps to bring about prosecutions are to be taken.

Marquette is soon to have an organization of automobilists. It is said, and if the plans now being made for the project are carried out, one of the purposes will be to see that farmers and drivers generally are compelled to observe that part of the law which defines the rights of automobiles on country roads.

TARVIA TOOLS LOST, STREETS UNFINISHED

TRACERS SENT OUT TO FIND PAYING IMPLEMENTS SHIPPED FROM CHICAGO MORE THAN TWO WEEKS AGO.

If the experiences of certain of the tarvia's commission were collected and written in detail, the volume might aptly be called the "Delays." Marquette's new water wheel was expected in June. The electric light and power commission received it in August. Now the street commission is having a similar experience and the work of the commission is being delayed by the non-arrival of the implements which are to be used in laying the tarvia.

Tools Lost. It was reported yesterday that the tarvia tools were lost somewhere between the city and Chicago and a number of tracers have been sent out. The implements were shipped on Aug. 29 by the Barrett Manufacturing company, the concern which sent the tarvia. In the first place the shipment of the material was delayed, and when it arrived the company stated that the implements would be sent in a few days. They were being used on another job, it was said. The commission is still waiting and the tools are still on the way.

Streets Out of Repair. In the meantime, the streets upon which the tarvia is to be used remain in an unfinished condition. The square on Ridge street between Third and Fourth streets for a number of weeks has almost been impassable, and it is still so. The loose crushed rock placed on it in preparation for the new paving renders the street almost useless for the passage of vehicles. Third street on the grade leading to the depot is another street upon which the tarvia is to be laid, and is out of repair.

Secretary Anderson of the commission said yesterday that he had been sending almost daily letters to the Chicago concern in order that the work may be seen commencing.

If one man sells to another a farm, a stock of goods or a house, the world receives no increase in its wealth, for the values have merely changed hands. But the gold, silver and copper dug out of the earth's depths, are so much added to the available wealth of the world. It is clean money. As you go in Stafford's drug store examine the specimens of ore in the window. Then look up the record of the Grand Traverse & Arizona, from whose lands it was taken. (8-22-11)
