PRICE 5 CENTS

FLEET TO START IN DECEMBER

President Formally Authorizes the Naval Bureaus to Put Into Execution the Plans for the Cruise of the Battleships.

Many Details Are Yet to Be Worked Out, but It Has Been Decided to Limit the Speed on the Long Run to the Pacific to Ten Knots an Hour—Colliers Will Go Along, and 100,000 Tons of Coal Will Be Transferred to War Vessels at Sea.

Washington, Aug. 27.—The details of the movement of the great battleship fleet around the continent of South America are being systematically developed both on board Admiral Evans' battleship, the Connecticut, and at the navy department, where by the president's order the various naval bureaus are at last formally authorized to put into the plans execution the plans for the movement. No decision has been reached as to the route for the return to the Atlantic, and the decision is not necessary for many months. It is settled that the battleships, or at least a number of them, will go into Puget sound. The exact number will be determined by the capacity of that body of water.

Washington today received from Acting Secretary Newberry official word of the conclusions reached at the Oyster Bay conference last week relative to the projected cruise of the fleet from the eastern to the western coasts of the United States by way of the Straits of Magellan. Necessarily these conclusions were on broad lines, and it was found expedient to leave to Admiral Evans and the naval bureaus the arrangement of the details of the itinerary of the voyage of 13,772 knots.

Hard to Fix Date of Departure.

It has been impossible for a variety of reasons to precisely fix the date of departure of the Atlantic fleet. Naval regulations require that each vessel shall carry out the established order as to target practice every quarter, and no naval officer is willing that this important practice be disposed with even for this cruise. Target practice is invariably followed by more or less damage to the ships, requiring their return to a navy yard for repairs before they can be regarded as in proper condition for a prolonged absence from their home ports.

Then it is fully expected that the target board, now in session in this city, will recommend a number of changes in the turret mechanism of the ships to protect the lives of the gunners and ammunition handlers. Everything will be in readiness for the fleet to sail on Dec. 1, and the date of departure will be between Dec. 1 and 15. As arranged, the itinerary provides for ten knots an hour, which is regarded as the most economical speed for the fleet.

To Get Much Coal From Colliers.

Starting with full bunkers of coal, the ships will require, in addition, 100,504 tons. This great supply of coal will be provided by colliers. Four small colliers, carrying 2,200 tons each, will accompany the fleet to Trinidad, and five larger colliers, carrying 4,000 tons each, will go as far as Rio Janeiro.

It will be necessary to charter twelve additional colliers, and four of these will meet the fleet at San Pedro de Macoris, near the mouth of the San Pedro river, in the Gulf of Gonavos, and four at Magdalena bay. Each of the colliers will carry 6,000 tons of coal. The Panther, carrying a full machine shop, and the Culgoza and the Glacier, supply ships, will accompany the fleet the entire voyage.

Magdalena bay will be reached about March 9, according to plans. Target practice there will continue for about a month. Some of the battleships will then go to Puget sound and part to San Francisco.

TOPS WASHINGTON MONUMENT.

Gotham Skycraper Already Nears Six Hundred Feet in the Air.

New York, Aug. 27.—Piercing the sky line far above all the other skyscrapers of the downtown district of New York, the Singer building, fast near completion, already exceeds in height the Washington monument, whose solid shaft of granite rises 555 feet above the ground.

When the structural steel workers riveted home the last steel beam tonight before ending their day's work, the steel frame of thirty-six floors of the building had been completed. Eleven more stories remain to be built, as when the towering pile of steel and masonry is finished it will be forty-seven stories high, 612 feet from the sidewalk on Broadway.

SPECTACULAR SUICIDE

Making Bonfire of His Paper Money, Actor Kills Himself in Street.

Webster City, Ia., Aug. 27.—In sight of an astonished crowd, Carl Pressley, an actor, today made a bonfire of his paper money, threw his jewelry into a sewer and announced to a group of friends that he was going to kill himself. He drew a revolver from his pocket, walked across the street and, calling to several persons to watch him, fired a bullet into his brain. He died instantly.

AERONAUT ESCAPES INJURY IN FALL FROM THE CLOUDS.

Up 2,000 Feet, Knabenshue's Airship Bursts and Drops Like a Rocket.

Greenville, O., Aug. 27.—Knabenshue's airship, while 2,000 feet above the fair grounds here, burst at 5 o'clock tonight, and dropped like a rocket. The aeronaut escaped unhurt.

Trial Flights in Germany.

Berlin, Aug. 27.—A military dirigible balloon and the Parosval airship, ascended from Tegel, six miles from Berlin, this afternoon and sailed some distance apart towards Epanand. Important improvements are understood to have been made in the military balloon during the last fortnight.

HOWL IS DUE FROM BOSTON.

Removal of "Old Ironsides" Proposed by the Navy Department.

Washington, Aug. 27.—There is a strong possibility that the famous old frigate Constitution will be brought Boston to Annapolis, or perhaps to Washington, to remain permanently. Acting Secretary Newberry has felt bound by the congressional condition at the navy yard where the frigate lies to call the attention of Governor Guild of Massachusetts to the necessity of moving her from her present berth.

IS SAFE FROM ARREST.

Protection Guaranteed Taylor if He Will Testify in Powers Case.

Frankfort, Ky., Aug. 27.—In a letter to Commonwealth Attorney Robert Franklin of this city, chief prosecuting counsel for the state in the Goebel murder cases, Governor Beckham assures that official of his co-operation with him in seeing that former Governor William S. Taylor is protected from arrest and allowed to return to Indiana if he will come to Georgetown, this state, to testify in the trial of Caleb Powers.

TOBACCO FACTORY IS CLOSED.

Unsatisfactory Labor Market Costs Cincinnati a Big Industry.

New York, Aug. 27.—The officials of the American Tobacco company stated today that the shutting down of the company's factory in Cincinnati is permanent. It is stated that the closing of the plant was caused by the unsatisfactory condition of the labor market.

NOT TO CALL MAGNATES; OIL TRUST BOOKS WILL DO.

New York, Aug. 27.—It is quite possible that the government's investigation into the affairs of the Standard Oil company of New Jersey here Sept. 3, will be carried on without John D. or Wm. Rockefeller or Henry H. Rogers being called to testify. The investigation may be confined to the records and books of the company.

DULUTH TERRORIZED

WOLVES INVADE OUTSKIRTS OF THE CITY.

Fierce Pack Trees Two Men and Kills Cattle, and Hunting Party Sets Out With Dogs to Exterminate It.

TO REVISE THE CONSTITUTION.

Sixteen Out of Seventeen Governors in Favor of the Project.

St. Louis, Mo., Aug. 27.—Charles F. Zielbold, president of the West End Businessmen's association, who recently sent letters to the governors of various states, asking their opinion on the advisability of calling a national constitutional convention, has received seventeen replies, sixteen of the governors favoring the plan.

WASHINGTON BUCKETSHOPS PUT OUT OF BUSINESS.

Washington, Aug. 27.—Several proprietors of brokerage concerns under suspicion of doing "a bucketshop" business have indicated their intention to discontinue business and close their offices. The acting district attorney said today that at the end of the present week no bucketshop would be in operation in this city.

PITTSBURG WOMAN ATTACKED BY LION

Rescued Almost from the Jaws of Death, There Is Grave Doubt That Mrs. Anna A. Hucks, Aged 55, Will Recover.

Struck to the Ground by Blood-Crazed Animal Which Escapes from Captivity in Luna Park, She Is Picked Up Torn and Bruised When King of Beasts Finally Succumbs to a Fusillade of Bullets, and Now Lies in Extremely Precarious Condition.

Pittsburg, Aug. 27.—Torn, bruised and suffering from shock, Mrs. Anna Hucks, aged fifty-five, of this city, lies at her home tonight in a precarious condition as the result of an attack by a lion at Luna Park, a summer resort in this city, late today.

Mrs. Hucks was rescued almost from the jaws of death while she lay on the ground where the animal had thrown her, and while scores of rescuers were firing a fusillade of bullets into the blood-crazed beast. Awed by the noise of the fire arms and the shouts, the lion finally turned and walked a few feet away where, sinking down upon the ground, he turned over on his back and died.

DOUBLE TRAGEDY IN CHICAGO.

Former Indiana Restaurant Keeper Shoots Widow Through the Heart.

Chicago, Aug. 27.—Charles E. Andrews, aged forty-eight years, a divorcee, and formerly a restaurant keeper of Elk-hart, Ind., yesterday shot and instantly killed Indiana Ethel Blaine, aged thirty years, formerly a nurse at Fletcher hospital, Indianapolis, and the widow of Charles Blaine of Lebanon, Ind.

The murderer committed Andrews turned the revolver upon himself, sending two bullets through his chest. He died while the ambulance was rushing him to St. Luke's hospital. The murder and suicide were committed in room 324 of the Saratoga hotel, where the two had lived since last Saturday.

Friends of passionate romance lie imbedded in the fabric of the mystery which enshrouds the motive of the double killing. The two were registered as Charles E. Andrews and wife, South Bend, Ind.

SLAYER OF FARMER AND WIFE LYNCHED AT SCENE OF CRIME.

Twenty Nebraska Men Take Prisoner From Sheriff and Hang Him.

Omaha, Neb., Aug. 27.—Louis Higgins, who murdered a farmer, W. L. Coppin, and wife near Rosalia, May 12, was lynched at Bancroft yesterday. Sheriff Young of Thurston county came to Omaha Sunday night to get his prisoner, who had been in the Douglas county jail since his capture. Twenty men took Higgins from the sheriff when he reached here, hauled him off in a drag, and hung him to a tree. Higgins' crime was a wanton one. He had worked on the Coppin farm and had had some trivial dispute with Mr. Coppin. Anger over this is the only suggestion of a reason for the murder. He killed both in the barnyard with a shotgun.

LIVES WITH BROKEN BACK.

Coal Miner, Crippled at Work, Makes Fight Against Death.

Bloomington, Ill., Aug. 27.—Surgeons declare the experience of Fred Bossey, a Christian county coal miner, who has lived for nearly two years with a broken back, is a record breaker. He met with the accident in the fall of 1905 and it was supposed he would survive but a few days. In stead he has kept alive up to the present time, although paralyzed from hips down.

WEATHER FORECAST

Washington, Aug. 27.—The following is the weather bureau's forecast for Upper Michigan: Fair and continued cool, Wednesday, with fresh northwest winds; Thursday, fair.

OSLER THEORY'S VICTIM

Aged Episcopalian Rector Ends Life by Cutting Throat With a Razor.

Los Angeles, Cal., Aug. 27.—The Rev. Edward Hunt Jewett, an aged minister, who took his life at Manhattan Beach last evening by cutting his throat with a razor, was a believer in the Osler theory. He was seventy-seven years old, and frequently reverted to the uselessness of his life at such an advanced age. He was a prominent Episcopalian rector and was known throughout England and the United States.

CHARGING LIBEL, COLORADO MAN SHOTS AND KILLS AN EDITOR.

Petersburg, Ind., Aug. 27.—Relatives here today received word today that Charles Lewis, editor of the Republican at Kersy, Colo., had been shot and instantly killed by a citizen of that place who claimed that an article Lewis had published reflected on his wife.

DETROITER, BECOMING INSANE, HURLS BABY INTO RIVER.

Detroit, Mich., Aug. 27.—A bookkeeper in a downtown business office is reported to have gone crazy on the Belle Island bridge today seizing a baby and throwing it into the Detroit river, where it perished.

PLAY BALL FOR CHARITY.

Milwaukee Aldermen Defeated by Philadelphia Councilmen, 9 to 14.

Philadelphia, Aug. 27.—The Milwaukee aldermen were defeated here today by the Philadelphia councilmen in a ball game for the benefit of charity and to decide the inter-city aldermanic championship. The score: R. H. E. Milwaukee..... 9 11 8 Philadelphia..... 14 14 0 Batteries: Wild and Meins for Milwaukee; Armstrong and Hutt for Philadelphia. Umpires Henry Killilea, Milwaukee; Connie Mack, Philadelphia.

PROFESSOR ROOT'S FUNERAL.

New York, Aug. 27.—Secretary of State Root, who has been undergoing a course of physical training at William Meillon's place at White Plains, N. Y., will leave tomorrow to attend the funeral of his brother at Clinton, N. Y. He will return to White Plains after the funeral to remain about ten days.

MOTHER AND BOY DIE TOGETHER

Happy Outing Near Pentwater, Mich., Has a Tragic Ending—Mrs. George Grove and Her Son, of Chicago, Are the Victims.

Woman Spilled Into Bass Lake by Squall That Upsets Sailboat, Young Man, a Good Swimmer, Plunges in to Her Rescue Only to Be Rendered Powerless to Take Either Her or Himself to the Surface When She Seizes Him in Her Frenzied Clasp.

Chicago, Aug. 27.—Clasped in each other's arms, the bodies of Mrs. George Grove and her son, Raymond, were found at the bottom of Bass lake, near Pentwater, Mich., late yesterday afternoon, twenty-four hours after they were drowned. The son had died in an attempt to save his mother.

George Grove, with his wife and seven-year-old son, lived at 248 South Clark avenue, Austin. Last week he went then to Michigan to spend a few weeks' vacation. One of the pleasures which they found on Bass lake was to go sailing in a rowboat which Raymond had rigged for a sail. Sunday afternoon they took Mrs. Charles Henderson, also of Chicago, and her son for a sail on the lake. A squall blew up and upset the boat. Mrs. Grove sank immediately. Raymond, who was a strong swimmer, dove after her. Neither of them ever arose to the surface.

The position of the bodies when found yesterday told the story. Raymond had overtaken his mother in her descent to the bottom and had taken her in his right arm. In her terror she had clutched at him and hoisted both of his arms to his sides. Then, in the struggle, they both became entangled in the heavy weeds of the bottom, and perished.

Massachusetts Man Perishes.

Worcester, Mass., Aug. 27.—Eugene Morriarity, editor and proprietor of the Worcester Post, and a prominent Democrat, was drowned while bathing in Lake Quinsigamond late today.

TAFT'S TRAIN WRECKED; NO ONE IS INJURED.

Kansas City, Mo., Aug. 27.—Passenger train No. 102, carrying Secretary Taft, was wrecked at 5 p. m. today near the depot at Springfield, Kas. None of the passengers or trainmen were hurt. The secretary aided in reassuring the timid passengers.

Kansas City, Mo., Aug. 27.—Secretary Taft was enroute from Springfield, Mo., to Kansas City when the wreck occurred. His train was due here at 5:20, but the wreck delayed him three hours, necessitating a change in the plans for his entertainment.

Clover Leaf Smash-Up Is Fatal.

Charleston, Ill., Aug. 27.—One person was killed and seven dangerously injured in the wreck of a Clover Leaf passenger train at Bowman, twelve miles north of here today. Two cars jumped a switch and crashed into a box car. Peck Conklin of Texarkana, Tex., was instantly killed.

BANK CALL RELEASES MILLIONS.

Demand for Statements Puts Out Cash Held to Make Good.

Washington, Aug. 27.—Many millions of dollars were released for business use by the call issued yesterday by Comptroller of the Currency Ridgely for a statement of the condition of national banks on Aug. 22. For some reason which the treasury officials apparently do not care to explain, the period between the last call and the present one is much greater than usual. The condition of national banks was last asked on May 23, more than three months ago. It is seldom that the period is longer than two months.

For the last week telegrams have been received in Washington complaining that the delay in making the call was causing serious inconvenience in commercial circles. The banks, in order to make a good showing, naturally hold on to as much of their reserve as possible in anticipation of the regular call, immediately after which large amounts of the money are invariably placed at the disposal of business. For fully a month the 6,000 national banks have been holding to their reserve funds and this has served to make money tighter.

The delay in making the call has been attributed in some quarters here to the telegraphers' strike. It is thought that perhaps the call was sent by mail to those points which could not be reached promptly by wire.

VISION BRINGS WOES.

New York, Aug. 27.—"This country will be entirely destroyed on account of its wickedness on the last day of this month," said Samuel Whitte, a Baptist preacher from Arkansas, who has arrived from Europe, accompanied by his wife and two children. The preacher said he and his family were compelled to flee from Arkansas because he prophesied that America would be destroyed. On July 22, Whitte said, "I had a vision in which I was told that in forty days we should all be annihilated for our wickedness. I packed up my belongings and with my wife and children hastened for New York and sailed for England on Aug. 3. We arrived in London eight days later, and I set to work preaching on the street. I was arrested twice and finally was ordered deported."

MOORS DRIVEN BACK

French Forces Defending Casa Blanca Have Another Sharp Engagement.

Casa Blanca, Aug. 27.—A sharp engagement between French and Moors took place yesterday afternoon six miles from General Druel's camp. A reconnoitering party came in touch with the enemy, who opened a heavy fire on the cavalrymen. The latter replied with a rifle, but retreated, under instructions, with the object of attracting the attention of the French commander to the Moors' advance. Reinforcements with artillery were forwarded to the scene, and the Moorish force was driven back into the hills. There were no losses on the French side.

Arab Reinforcements Advancing.

Tangier, Morocco, Aug. 27.—It is declared here that a large body of native cavalry has been seen bearing down on Casa Blanca from the direction of Morocco City.

MAY ADMIT CLAIM OF REBEL.

France Likely to Recognize Moroccan Pretender if People Want Him.

Paris, Aug. 27.—France has decided to wait developments before deciding whether she will or will not recognize Muley Hafid, the pretender to the throne of Morocco. It is hinted that if the rebel brother of the sultan shows sufficient strength he may be treated as the lawful sovereign of Morocco.

Officially, however, it is pointed out that, although Muley's power seems to be growing in the south, the people in the north appear to be loyal to the reigning sultan, and until decisive events demonstrate that Muley is actually the choice of the people France is forced to regard him as a pretender and revolutionist.

The alleged contention of certain Spanish ministers that the suppression of the sultan by Muley Hafid renders the Algerian convention invalid, one of the signers no longer exists, is not to be considered by France, which persists unequivocally in her policy in following the terms of the convention and will not send an expedition of conquest into the interior. In the meantime the French government does not know officially whether Muley is marching toward the coast as a friend or a foe of the French, though the Moors are confident he is an enemy of the Christian.

IN EMASCULATED FORM.

Irish Evicted Tenants Bill Passes Both Houses of Parliament.

London, Aug. 27.—The Irish evicted tenants bill finally passed both houses of parliament this evening in what Chief Secretary for Ireland Birrell called an emasculated form. The principal amendments inserted by the peers deprive the commissioners of the power of turning out present holders of farms for the purpose of reinstating evicted tenants, and give the landlords the right of appeal from rulings of the estate commissioners.

BRITAIN TO BUY WHERE IT CAN DO SO THE CHEAPEST.

London, Aug. 27.—The British war secretary, Mr. Haldane, in the house of commons today evening announced that he proposed purchasing army stores in America when he can get them there equally as good or better than elsewhere at more satisfactory prices, without apologizing to local protectionists who insist that British firms should be given the preference irrespective of price or quality.

STRIKE EXTENSION

WIRE TIE UP THREATENS TO SPREAD.

Urged to Call Out Operators Employed by Brokerage Houses, Union Head Summons Conference to Consider It.

New York, Aug. 27.—A proposal to call out all the telegraph operators employed by brokerage firms, regardless of whether these firms have signed the union schedules or not, is the latest scheme in the strike of the telegraphers. President Small today received a message from Southern telegraphers, urging that this step be taken. He replied that the men must remain at work until they had received further instructions from the governing body of the union, and he called a meeting for tomorrow of all the men employed in the brokerage houses in New York.

U. S. Soldiers Patrolling the Lines.

Camp Perry, O., Aug. 27.—Striking telegraphers are charged with having interfered with the business of the federal government, and as result soldiers, are patrolling the telegraph lines between Camp Perry and Lacine, a distance of three miles. Strikers or sympathizers destroyed communication between Camp Perry and the outside world Sunday evening. The camp operators were forced to close up with thousands of words unsent, much of which was government matter from army and National Guard officers.

Increased Pay for Switchmen.

Denver, Colo., Aug. 27.—Today's session of the joint conference of representatives of the twelve principal Western railroads and representatives of the employes practically agreed that a two-cent an-hour advance in the wages of the yard men be conceded providing that the railroad unions agree to certain conditions regarding overtime and the right of the roads to employ and discharge men irrespective of the opinion of the union officials.

CHICAGO THEATER TO COST \$1,000,000

Oscar Hammerstein, New York Impresario, at the Head of an Ambitious Enterprise in the Western Metropolis.

For the Purpose of Competing With Conried Productions at the Auditorium, It Is Given Out, an Artistically Designed and Magnificently Arranged Play House Will Be Put Up for Exclusive Presentation of Grand Opera by Very Best of Stars.

Chicago, Aug. 27.—Oscar Hammerstein will build a million dollar opera house in Chicago for the presentation of grand opera in competition with the Conried productions, which will be given at the Auditorium during the winter season.

This announcement is made through M. Salomon & Co., who have been commissioned to obtain a site for the new theater. Mr. Salomon declined to state where the new amusement resort would be located, but he had a variety of other things to say about it.

In the first place, it will be the finest thing of the kind ever attempted. The plan of the building, the scheme of decoration, the magnificent arrangement of the foyers and boxes and the elaborate outlay for scenery will be so far beyond the wildest dreams of Conried, according to Mr. Salomon, that the other impresario will not know that he is in the same business with Hammerstein.

Mr. Salomon said the new opera house will cost at least \$800,000, and probably much more, and that it will not be built within the loop, because property there is too high. He has the commission from Hammerstein to build the place, which, it is understood, will be erected somewhere near Twelfth street on Michigan avenue, and will be 350 feet long and 150 feet wide. Though this is not so large as the Auditorium, the structure will have an artistic advantage over the one occupied by the Conried organization on its visits here, in that there are to be no offices, studios, or stores within its limits. It will be devoted exclusively to grand opera.

The season will be for twenty consecutive weeks in each year, according to the musical plans of Salomon, real estate agent and promoter. Only the very best operas will be sung in the house. There will be nothing else, except profit. The chorus will live in Chicago near the theater. The opera company will exchange with the stars, who will scintillate in Hammerstein's New York theater. So will the orchestra leaders. Mr. Hammerstein has already contracted with several European stars, according to the promoter, who has recently had a talk with the impresario.

UPHOLDS HIS JURISDICTION.

Federal Judge Pritchard Decides the North Carolina Rate Controversy.

Asheville, N. C., Aug. 27.—Judge Pritchard of the United States circuit court, in a long expected opinion announced today on the rate case of the Southern

DAILY MINING JOURNAL

MARQUETTE, MICH., AUG. 28.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

No, gentle reader, the officials of the Marquette County Agricultural association do not get salaries. They get principally abuse, faultfinding and questioning of motives.

"Easy Money" Ziehl cleaned up the Cornish wrestling tournament in the copper country last week. It probably required a guarantee that he would be given first money to get him into it.

Whenever you hear a panic shriek from Wall street just reassure yourself, remarks an exchange, by taking up the paper and counting how many more "help wanted" ads there are than "situations wanted."

Whenever the Duluth sporting writers are hard up to fill space they can fall back on whalloping the copper country towns for their failure to adequately support the teams of the Northern-Copper Country League. And they have fallen back on this theme so often that they are now past masters in the art of presenting it with a wealth of artistic and caustic sarcasm.

The close of the Northern-Copper Country baseball league schedule is to be hastened by the cancelling of a number of the last games. The teams are, generally speaking, losing money and league affairs are in such a thoroughly satisfactory condition that no one will mourn the abandoned games. The way things have turned out the best part of the Northern-Copper Country League was the advance notices.

The motorists are complaining that the farmers pay no attention to the law of the road and that they refuse to give an inch to the automobiles even when they can do so without trouble to themselves. There is nothing under the heavens meaner than a mean farmer, when it comes to crowding some other user of the highway into the ditch. A prosecution or two under the new law might teach the tribe some manners.

The copperdom press is much more "offish" in everything in which Governor Warner is concerned than it was immediately after the governor headed off the "snap" legislation secured by the Bigelow interests as one step in their fight against Calumet & Hecla control of the Osceola. Then there was nothing too sweet for the copperdom press to say of the governor, and he was solemnly assured that he could have the entire region whenever he wanted it. But now from the way this same press is picking and pulling at the governor and from its utter inability to be satisfied with what he does or to be reconciled to what he doesn't do, we are forced to conclude that it has fallen under the influence of returned "boxer" legislators, the same legislators who were dosing at the switch when the "snap" bill was whipped through the legislature, making necessary copperdom's frenzied appeal to Governor Warner. We wonder if the governor himself has observed the difference between "then" and "now."

Russia is planning a great development of her railroad facilities. The estimates that have been made call for a total expenditure of \$458,000,000 covering a period of five years. The money is to go into double tracking, bridges and embankments, new stations, workshops, and more than a quarter of it into additional rolling stock. Much of the money will be expended on the Trans-Siberian line. This road was built originally chiefly for its military value in making the Far East accessible. The improvement of the line, now single track and crude, will be for both military and business purposes. The Siberian country, once the land of exile, is becoming the haven of hope for home seekers. Since January 1, the official statistics show that 50,000 families, numbering 345,000 persons, and 122,000 individual producers and settlers have gone into Siberia to gain the homesteads offered by the government. This rush means business for the railroad far beyond its present facilities. The settlers will need supplies shipped to them and in a few years they will have a surplus to ship out. Siberia is duplicating the history of our own west. Conditions may be different in

some respects, but the results will be the same. What is now a wilderness will become a land of thriving cities and productive farms. It may take years to accomplish this, but it may be recalled that our own west did not emerge from the wild in a day.

There is already considerable talk among firemen in upper peninsula cities regarding the training of running teams to participate in the next tournament, to be held in Marquette. When the association was originally organized the firemen's races were planned to be the principal entertainment, and in the first few meetings they were, indeed, the principal events on the program. Nearly all the departments were represented and there were spirited contests for the handsome trophies. Of late years, however, the interest in the racing feature has steadily dwindled, until at the Ontonagon tournament but three teams were entered, only one of these representing a city of good size. Obviously unless more interest can be aroused in the racing than is shown by the entry of three teams it might as well be abandoned, the tournament committees talking about for new ways to entertain the firemen and other visitors. However, comment indicates a revival of interest in the typical firemen's events, and it now appears probable that there will be again next year a general participancy in the races. It is suggested that to facilitate training the tournament be held earlier than the latter part of August, and the committee may act on this suggestion. If possible the racing events should be retained. It will be hard to substitute anything for them that will not deprive the tournament of all the distinctive characteristics of a firemen's gathering.

We may be on the eve of falling on a lean season of business and we may, as some sad-visaged prophets would have us believe, be going to the how-woys, along with the country, but it must be admitted that the statements of the Marquette banks furnish very little indication of such a distressing state of affairs. They show resources of, in round numbers, \$4,400,000, a pretty comfortable showing for a city of some 11,000 people. Their deposits are some \$3,000,000. Their statements are, with-out exception, the most satisfactory they have ever published, and show their position to be, from whatever angle it is regarded, the most satisfactory it has ever been. And this is no isolated phenomenon, either. The Marquette banks are not unique in their excellent condition and their evident prosperity. What is true of them is true of most banks. There has been a considerable unsettling of values in the stock markets of the world during the past eight months. There has been a readjustment of security figures that have marked them way down. Naturally there has been much apprehension that this development presaged a corresponding tightening up in business and industry. Perhaps it does, but bank statements appear to show that there is no occasion for immediate fears of a general industrial smash-up. The country, outside the markets, appears to be as healthy as ever, and considering the pressure business and industry were being carried on under the comment that a slight letup would be really beneficial appears to be justified.

KENTUCKY GOING DRY.

One interesting phase of the growing strength of the prohibition movement in the south has been the gradual drying up of Kentucky, the state of the union which is entitled above all others to be known as the "whiskey state," the only other products vying with its bourbon for renown being its pretty girls and its fast horses. That such a state should go dry is passing strange, yet 'tis true. Out of 119 counties eighty-seven are prohibition. To be sure, the canny Kentuckian has not allowed even prohibition sentiment to interfere with business, and it is a matter of record that its 233 distilleries are as busy as they ever have been turning out the goods that have made Kentucky famous. Indeed in view of the restriction of the home market, it is probable that more of the Kentucky whiskies are being sold in other states than was the case before prohibition became the rule in the state.

Of the 119 Kentucky counties there are only four, we are informed, that are thoroughly irrigated with spirituous liquors. They are Jefferson, Kenton, Campbell and Meade. In these counties, with the exception of Meade, the large cities of the state are located. In the remaining counties of the thirty-two where there is not yet absolute prohibition it is usually the case that liquor is sold in but one or two precincts. In the county of Bourbon, for instance, a county that gave its name to a widely known Kentucky product, spirituous liquors can be bought only at Paris.

The interesting and significant development of the prohibition movement in Kentucky outlined above was a consequence of the passage by the last session of the legislature of a local option law embodying the county unit system, i. e., the conferring on counties of the right to adopt prohibition irrespective of the status of the liquor traffic in other parts of the state. Under this law the Prohibitionists have carried county after county, until they have made the state, by counties, three-fourths dry.

The Kentucky law has a special provision excepting from its operation all counties containing cities of the first, second and third class. At the next session it is the intention of the prohibition leaders to move to have all the

counties made prohibition. The strength of prohibition sentiment in this primarily whiskey state is so strong that it appears not improbable that they will be successful. This strength may be gauged by the fact that both Beckham and McCroary, candidates for senator in the recent Democratic primary, made their fights on a prohibition platform.

As for the conditions in the "dry" counties a correspondent writes: "Liquor is hard to secure. A state law forbids shipping it into 'dry' counties, and also prohibits any person from carrying more than a gallon of the product for any other person. 'Blind tigers' are run, of course, but the class who frequent them keep even semi-respectable taverns away."

Meanwhile the 250,000 distilleries continue, as we have noted, to pour out their customary products of whiskies. The sentiment which has made three-quarters of the state dry does not yet recognize in the distilleries themselves a thing of evil, or if it does it feels that the evil must be put up with for "business," particularly if the bad effects thereof are felt in other states. Moralists will find much to lecture Kentucky for in this attitude. As for the growth of the prohibition movement in the state, it is probably due to the same reason as is its growth in the south as an entire region—to a desire to keep from the negro the cup that miffs him for working for the employing whites, confirms him in sloth and disreputable habits and makes him a menace to the whole Caucasian people of the southern states.

Care in making laws and firmness in their execution in carrying them out are the necessities of our times. Lax, corrupt, unintelligent or vacillating administration not only causes dissatisfaction, but invariably leads to ignorant and extravagant demands. Strong, even tempered and dignified administration—relentless and impartial, favoring neither rich nor poor, knowing no motive but its manifest duty—compels respect and by the certainty of its operation conserves the public confidence. In this way alone can we secure intelligent consideration of existing defects or of needed remedial measures. Pure and efficient administration is the foundation of social progress.

THE ABILITY OF HUGHES.

Every man of consequence has some gift or attribute by which he is able to reach and influence his fellow men. Sometimes it is personal magnetism like that of Blaine; sometimes it is the ability to communicate enthusiasm like that of the simple, earnest who started the crusades; sometimes it is broad sympathy like that of Lincoln; sometimes it is aggressive honesty of purpose like that of Roosevelt. Each of these men made a profound impression on his generation, but each of them in his individual way. Governor Hughes of New York bids fair to rival some of them at least, by the exercise of a gift quite his own, his ability to state a complex and baffling problem in terms so clear and simple that any one may see its solution.

The career of Mr. Hughes since his emergence from the comparative obscurity of his private law practice has been even more remarkable than that of his famous predecessor who now occupies the presidential chair. Less than a year ago he was simply an able lawyer, so

far as the world in general knew. Today he is one of the most important men in America. Within eight months he, by his own strength alone, has defeated and disorganized as powerful and as ably conducted a corrupt political machine as ever existed in America. The leaders of his own party did not wish to have him in office. The voters of his state did the best they could to tie his hands by electing with him a hostile administration. But these handicaps have only served to accentuate his ability. His appeal is to the people, whom he is teaching that government is not a matter of trickery and clever compromises, but instead one of full knowledge and impartial enforcement.

This being true, his work divides itself into two parts, the administrative and educational. He is just now devoting most of his energies to the second and most important part by traveling about his state and talking to his supporters. This week at Chautauqua he gave his first address and this is the keynote of it:

Care in making laws and firmness in their execution in carrying them out are the necessities of our times. Lax, corrupt, unintelligent or vacillating administration not only causes dissatisfaction, but invariably leads to ignorant and extravagant demands. Strong, even tempered and dignified administration—relentless and impartial, favoring neither rich nor poor, knowing no motive but its manifest duty—compels respect and by the certainty of its operation conserves the public confidence. In this way alone can we secure intelligent consideration of existing defects or of needed remedial measures. Pure and efficient administration is the foundation of social progress.

You exercise your own mind when you ask for an advertised article, therefore, insist on getting what you ask for when making a purchase. The dealer who substitutes inferior goods for what you ask for is not only dishonest but he is also a cheat. Do not ask for if you refuse a substitute.

HUCKLEBERRY PICKERS.

Commencing Monday, August 26th, the M. & S. E. railway will put into effect a 25 cent rate for the round trip from Marquette to Eagle's Nest, (near Hardwood's mill) and Eagle Mills, tickets on sale week days only, good for return day of sale.

Train for Eagle's Nest leaves Marquette at 8:50 a. m., arrives at Eagle's Nest at 9:20 a. m., returning leaves Eagle's Nest 4:05 p. m., arriving at Marquette 4:50 p. m.

Train for Eagle Mills leaves Marquette at 9 a. m., arrives at Eagle Mills 9:30 a. m., returning leaves Eagle Mills 4:49 p. m., arrives at Marquette 5:20 p. m.

These rates will give pickers a cheap rate to the huckleberry patches at Harlow's mill and Eagle Mills. (8-3-11)

Copper Country

CALUMET MINERS' PICNIC.

Underground Tolders Will Enjoy a Big Outing at Full Pay.

The miners of the Calumet & Hecla will enjoy a picnic Sept. 7, one that will rival that given by the merchants of Houghton and Hancock a short time ago.

OPENING OF SCHOOL.

Tuesday, Sept. 3, will mark an important event in Calumet—the commencement of the fourth school year. The schools were organized in 1867, and since that time they have continually grown until at present and for years past the enrollment has outstripped that of every other community in the upper peninsula.

HANCOCK WATER MAINS.

The Hancock board of public works held its regular monthly meeting Monday evening. City Engineer Craig gave his estimate as to the cost of laying a water main from the corner of Scott to Montezuma street.

SHOWER AND WEDDING.

This evening at the home of her mother, Mrs. Stewart, of Tamarack street, Laurium, Miss Belle Stewart will become the bride of Alex. M. McKenzie.

EAGLES' PICNIC TODAY.

The Eagles of Lake Linden today will open the only park and picnic grounds in the vicinity of Lake Linden or Hubbell.

RESERVES LEFT YESTERDAY.

The members of the Hancock Naval reserves left yesterday morning for Detroit to bring home the steamer Yantic.

BONDS ARE PLACED.

The Houghton village council has decided that work on the construction of the West Houghton sewer shall commence at once.

DEDICATION SOON.

The new Catholic church at Painesdale has been completed for the past several months, but to the present it has not been dedicated.

BRANCH OFFICES.

Marquette, Mich. Houghton, Mich. Butte, Mont., Calumet, Mich. Duluth, Minn. Milwaukee, Wis.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

ANNUAL STOCKHOLDERS' MEETING.

Notice is hereby given that the annual stockholders' meeting of the Marquette, Houghton & Ontonagon Railroad Company, for the election of directors and the transaction of any other lawful business, will be held at the office of the company, 302 Nester block, Marquette, Mich., on September 19, 1907, at 10 o'clock a. m.

ANNUAL STOCKHOLDERS' MEETING.

Notice is hereby given that the annual stockholders' meeting of the Marquette, Houghton & Ontonagon Railroad Company, for the election of directors and the transaction of any other lawful business, will be held at the office of the company, 302 Nester block, Marquette, Mich., on September 19, 1907, at 10 o'clock a. m.

COPPERDOM BREVITIES.

The Pythian Sisters will entertain with a dance at Germania Hall, Hancock, next Monday evening.

Mrs. O. D. Fellows of Drumountain has returned from an extended visit with relatives in Boston.

Miss Helen Barrett has returned from Port Huron, where she spent the summer with relatives.

John D. Ryan of Butte, Mont., has left for home after spending some days in the copper country.

Mr. and Mrs. Wm. Calverley of Houghton have returned home after a lake trip on the steamer Northwest.

Mr. and Mrs. James Orestien of Calumet and daughter have returned from a four weeks Eastern trip.

Rev. John R. Baldwin, pastor of the Laurium Baptist church, has returned from a six weeks' visit in Canada.

A commission of Mineral Statisticians James L. Nankervis is reported slowly improving from his present illness.

Eustace Audette and Miss Anna Perault, both of Hubbell, were united in marriage at St. Cecilia's church yesterday, Rev. Father Lyroz officiating.

The little nine-year-old child of Mr. and Mrs. Kraemer of Lake Linden died at the Calumet & Hecla hospital yesterday as a result of an operation for appendicitis.

The work of paving the alley in the rear of the Calumet theater with granite was started yesterday. It is expected it will be completed by the first of next week.

The Lakeside Floral company is preparing to move into its new quarters on North Fifth street, Calumet, on Saturday. Its new home has been erected during the present summer.

Thomas Penhall of Calumet will leave this morning for Marquette, where he will take Miss Anna P. Hansen, of 424 Pine street, as his bride. The ceremony will take place this evening.

Rev. J. R. Baldwin of the First Baptist church of Laurium is in Ishpeming attending the convention of the Upper Peninsula Baptist association. He will return Friday or Saturday.

Finnish residents of Calumet are making arrangements to organize a band here, which visited here from Ashland, O., at the time of the Finnish temperance convention, held recently.

Attorney O. J. Larson of Calumet is expected back today from Duluth, where he went yesterday to make final arrangements preparatory to his removal to the Zenith City to locate permanently.

Rev. Mr. Penhalligan of Deatur, Ills., Rev. John H. Snook of Grand Marais, Mich., and Chas. Kerst of Cambridge, Minn., are the guests of copper country pastors this week. All are well known in the copper country.

The steamer Northwest was in port yesterday morning, upbound. She made a ten-minute stop, just the time it took for the changing of passengers and baggage. The Florida also passed through the lake yesterday.

Representative Stannard of Ontonagon was in Calumet for a short time on Monday. He is making arrangements to locate at Laurium this fall. He will have the residence which is at present occupied by Captain Thomas Houston.

As "Little Johnny Jones" will not show at Calumet this season, arrangements have been made with the traction company to have sufficient cars on the line from Calumet and Lake Linden this evening, so that those desirous of witnessing the play at Hancock can do so.

The latest development in military circles in the copper country is the announcement of a movement which may bring another company to Calumet. This organization would be an infantry troop. The basis of the report seems to lie in the fact that the Houghton Light infantry has decided to become a local division. There is little doubt a company could be recruited in Calumet in addition to the engineer corps now located there.

HER IDEA OF IT. A bright little eight-year-old Milwaukee boy who had just had his first experience in playing baseball, was speaking enthusiastically about "strikes," "trains," "base hits," etc.

"After you have struck the ball," said he, "you run to the base and then, if the ball hasn't been caught, you keep on running."

"I suppose they make you do all the running," interrupted the older starter, who is very fond of the little fellow, "doesn't anybody else run?"

DO YOU GET UP WITH A LAME BACK? Kidney Trouble Makes You Miserable. Almost everybody who reads the news papers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospitals, in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Mining News

OLD DOMINION.

Company Has Good Supplies of Sulphides and Will Rapidly Develop.

The big doubt about the Old Dominion has been that the company has never in its history had sufficient sulphide to thoroughly meet the demand that its blast furnaces put upon it. The management has always known that it had abundant carbonate ores, but the sulphides had always been despised of until the time that the present management took hold.

Search was first made for them by Dr. Ricketts, and he always believed that the company would ultimately succeed in getting a plentiful supply of the ores in time. The United Globe property was looked to as the largest possible source of supply, and the company also secured the Continent of mine with the purpose of furnishing sulphides for the treatment of the large body of carbonates known to exist in what is known as the West country, which body has been passed over for the present for the sulphide body that was the focus of the current development.

The little nine-year-old child of Mr. and Mrs. Kraemer of Lake Linden died at the Calumet & Hecla hospital yesterday as a result of an operation for appendicitis.

The work of paving the alley in the rear of the Calumet theater with granite was started yesterday. It is expected it will be completed by the first of next week.

The Lakeside Floral company is preparing to move into its new quarters on North Fifth street, Calumet, on Saturday. Its new home has been erected during the present summer.

Finnish residents of Calumet are making arrangements to organize a band here, which visited here from Ashland, O., at the time of the Finnish temperance convention, held recently.

Attorney O. J. Larson of Calumet is expected back today from Duluth, where he went yesterday to make final arrangements preparatory to his removal to the Zenith City to locate permanently.

Rev. Mr. Penhalligan of Deatur, Ills., Rev. John H. Snook of Grand Marais, Mich., and Chas. Kerst of Cambridge, Minn., are the guests of copper country pastors this week. All are well known in the copper country.

The steamer Northwest was in port yesterday morning, upbound. She made a ten-minute stop, just the time it took for the changing of passengers and baggage. The Florida also passed through the lake yesterday.

Representative Stannard of Ontonagon was in Calumet for a short time on Monday. He is making arrangements to locate at Laurium this fall. He will have the residence which is at present occupied by Captain Thomas Houston.

As "Little Johnny Jones" will not show at Calumet this season, arrangements have been made with the traction company to have sufficient cars on the line from Calumet and Lake Linden this evening, so that those desirous of witnessing the play at Hancock can do so.

The latest development in military circles in the copper country is the announcement of a movement which may bring another company to Calumet. This organization would be an infantry troop. The basis of the report seems to lie in the fact that the Houghton Light infantry has decided to become a local division. There is little doubt a company could be recruited in Calumet in addition to the engineer corps now located there.

HER IDEA OF IT. A bright little eight-year-old Milwaukee boy who had just had his first experience in playing baseball, was speaking enthusiastically about "strikes," "trains," "base hits," etc.

"After you have struck the ball," said he, "you run to the base and then, if the ball hasn't been caught, you keep on running."

"I suppose they make you do all the running," interrupted the older starter, who is very fond of the little fellow, "doesn't anybody else run?"

DO YOU GET UP WITH A LAME BACK? Kidney Trouble Makes You Miserable. Almost everybody who reads the news papers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospitals, in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

big main drifts. A complete overhauling and re-making of the mine underground is going on in anticipation of this. Nearly all Copper Queen shafts, except Sacramento, Fortuna, Michigan south ground, and may be abandoned as the Holbrook was last year because of a serious cave-in.

The Old Dominion company continues to open up its big sulphide ore body on the fourteenth level. As now developed it is over 300 feet long and eighty feet wide, and the company would ultimately succeed in getting a plentiful supply of the ores in time. The United Globe property was looked to as the largest possible source of supply, and the company also secured the Continent of mine with the purpose of furnishing sulphides for the treatment of the large body of carbonates known to exist in what is known as the West country, which body has been passed over for the present for the sulphide body that was the focus of the current development.

The big doubt about the Old Dominion has been that the company has never in its history had sufficient sulphide to thoroughly meet the demand that its blast furnaces put upon it. The management has always known that it had abundant carbonate ores, but the sulphides had always been despised of until the time that the present management took hold.

Search was first made for them by Dr. Ricketts, and he always believed that the company would ultimately succeed in getting a plentiful supply of the ores in time. The United Globe property was looked to as the largest possible source of supply, and the company also secured the Continent of mine with the purpose of furnishing sulphides for the treatment of the large body of carbonates known to exist in what is known as the West country, which body has been passed over for the present for the sulphide body that was the focus of the current development.

The little nine-year-old child of Mr. and Mrs. Kraemer of Lake Linden died at the Calumet & Hecla hospital yesterday as a result of an operation for appendicitis.

The work of paving the alley in the rear of the Calumet theater with granite was started yesterday. It is expected it will be completed by the first of next week.

The Lakeside Floral company is preparing to move into its new quarters on North Fifth street, Calumet, on Saturday. Its new home has been erected during the present summer.

Thomas Penhall of Calumet will leave this morning for Marquette, where he will take Miss Anna P. Hansen, of 424 Pine street, as his bride. The ceremony will take place this evening.

Rev. J. R. Baldwin of the First Baptist church of Laurium is in Ishpeming attending the convention of the Upper Peninsula Baptist association. He will return Friday or Saturday.

THE CITIZENS' NATIONAL BANK HOUGHTON, MICHIGAN OFFICERS. DIRECTORS.

is drawing from the America end only about 200 tons per day, of concentrating ores, taken from development. The new main shaft at the America property is down 200 feet, is equipped and extraction drifts are being run to the rich ore bodies found before the consolidation. These are not yet in the rich ores of the bonanza fissure, however.

The Calumet & Arizona, after paying the dividend of 85 per cent declared in the 21st inst., will have surplus in copper and cash, of about \$5,600,000. This is after paying three dividends of 85 per cent, or \$2,400,000, during the year to date. The company is spending considerable money in the exploration of properties that it has taken under bond, but is charging all this against the cost of making copper, which will therefore be slightly above 5 cents a pound for the current year. If options on these properties are exercised during the year the cost of making copper will consequently show a larger increase, as the price paid will be charged off at once and included in current costs. If the company should average 20 cents a pound for its copper for the calendar year, its probable production will make an increase of earnings over last of about 83.10 per share, and the indications are that a better average than 20 cents can be maintained for the year.

A new industry which may mean much to Anaconda is about to be established at the Washoe smelter. It has been a problem for years what to do with the tailings of the smelter and concentrator. They have been tried, but found not adapted for roadbed purposes. The tailings are good as a sand for plaster, but very little can be used in this way. The latest scheme is to make bricks and building blocks from the tailings. The bricks require no burning, but when steamed for ten hours and dried for twenty-four hours they are ready for use. It is the purpose of the management of the smelter to install a plant for the manufacture of these bricks. When the plant is first installed it will have a capacity of 2,000 bricks a day. Thousands of brick are used at the smelter and these could take the place of the old brick in the furnaces and for buildings. If the scheme is a success it will do away with a great deal of waste material and create employment for hundreds of men.

The West Colusa mine of the Boston & Montana company is still closed down and will remain down and out until the new shaft west of the Minnie Healy is finished, which will be in about ten days. This shaft is now between 900 and 700 feet deep and is heading for the 700-foot level of the Minnie Healy, or that part of the mineral zone of the Mendocino district in which the strike occurred. With this opening finished, the work from the fire will have a more direct means of escape from the caverns below and will thus relieve the workings of the West Colusa of their fumes. This means that not much time will be lost in the shaft is finished before the company can safely say that the fire has been extinguished.

One of the big veins in the Rarus mine of Butte Colusa has been opened at a depth of 1,800 feet and will soon be exploited to such an extent that its output will depend upon the capacity of the hoisting engine. It was not a striking company knew the exact location of the body and caught it within a few feet of the spot, driving a crosscut about 200 feet from the shaft. More openings will be made as far as possible, for the bituminous of the Rarus, until properly ventilated, will be a warm and sticky rapid work. When the Coalition company took hold of the United Copper property the lower workings of the Rarus were absolutely hot on account of lack of ventilation, but some air shafts were sunk and the conditions were improved. The cause for this is the demand for money from the bottom of the main shaft which resulted in an immense improvement in the temperature of the air.

As yet the Adventure has not struck the ore in its diamond drill hole near Deppert Junction, notwithstanding that a depth of several hundred feet has been attained. Unless the Adventure strikes ore at a depth of 1,800 feet, the company offers so much encouragement to the shareholders of the Lake Copper company, its future will hold very little value. The workings on the Knowlton and other parallel lodes, from which the mine is securing its production, through No. 3 shaft, have been extensively explored, but indicate no permanent commercial value. As the company will be in need of additional funds very shortly it is expected that an assessment of 81 per share will be called. This will provide nearly \$1,000,000 for the maintenance of work. More than \$2,000,000 has already been expended upon the property by the present company.

Great surprise has been expressed that the National Copper bank of New York has been calling loans on copper shares held in Boston the past week. The Boston News Bureau understands that the cause for this is the demand for money from the largest customers of the National Copper bank for the purpose of carrying the accumulating stocks of un-sold metals. As many of the copper companies draw 90 per cent of the value of the copper when shipped out for electrolytic refining, and as copper sales since July 1 have been of small moment and there must be in the neighborhood of 100,000,000 pounds of accumulated copper. The money requirements for carrying such amount of copper must of necessity be very large. One hundred million pounds of copper accumulated by the selling agencies with copper at fifteen cents means the locking up of \$15,000,000.

The plans for the smelting works of the Greene-Cananea company are completed. The works will consist, primarily, of three blast furnaces. No smelting operations will be carried on at the old plant when these new works, which are designed to treat 3,200 tons every twenty-four hours, are completed; the old works will be torn away to make room for other improvements. The new works will be located in another part of the Cananea property, nearer water and where access will be more easy and carried out. This will mean the removal of a thousand feet by electrical trains in 4,000,000 pounds of copper monthly, and

shipped from the camp yielded \$29,000 at the Copper Cliff smelter. This ore came from the main veins.

The Nipissing company has had two men arrested for stealing ore. They were arrested with marked pieces of silver in their possession. The Nipissing production for the first ten days of August amounted to \$64,530, of which amount \$42,000 came from the Kendall vein.

F. W. Pugsley of the McKinley-Darrough company, who has been in New Jersey discussing of some of his company's ore, reports the smelter there as being crowded with Cobalt ore. The Balbach company has three months' ore ahead and the American Smelting & Refining company is in the same position. Cobalt merchants report a falling-off in trade owing to the strike and to many of the promotions becoming depleted of funds. The Right of Way company has ceased operations, owing to the strike.

The Buffalo mine is working and is taking an active part against the strike. The Buffalo is in good shape and is said to have about \$100,000 in sight. The Nova Scotia is making some headway in its developments both as regards economic results attained and the abstract interest therein. The main shaft of the Nova Scotia has passed through a surface layer of Keweenaw rock into a layer of the same rock where the silver values have developed very strongly. The Silver Leaf is making no attempt to work its property.

There has been much excitement at Cobalt over the report of a gold find near Night Hawk lake, a large sheet of water west and slightly south of Abitibi lake. It is stated that two Swedish men have a vein of gold-bearing rock 130 feet across and have already traced it two miles. Lured stories are told of its wealth. McDougall's Chute is the starting point from which the stream of prospectors set out for the new find. It is about eighteen miles from their objective point. The small settlement there is almost deserted, the inhabitants having migrated to the new gold fields and baggage. Prospecting syndicates all along the line are sending out men to investigate.

The strike here is showing less and less strength and does not give any great sign of being long continued, writes a Cobalt correspondent. Those mines which are prosperous are working, but those afflicted with depleted treasuries welcome the strike. The Nipissing has 350 men working, and the Coniagas is practically full handed. The Nipissing is working the Kendall vein by both open cut and shaft. Lack of men is undoubtedly staying progress on the property. The Cobalt Lake company is sinking a shaft from which it intends to crosscut to the main Lake Rose vein, which it is believed runs under Cobalt Lake. The Coniagas has its 840,000 concentrator close upon completion. The McKinley-Darrough also has its concentrator about finished.

COBALT GOSSIP

The Strathecona Mining company is reported to have been made some recent discoveries that are showing up well. This property adjoins the Noble, on which argenteo silver has been found.

The Silver Leaf mine was opened up again last week. Work will be done by contract at union hours and by union men. About twenty men are now employed. The Silver Leaf was one of the mines which signed the mine-owners' schedule.

A vein from three to five feet wide was recently discovered on the property of the American Silver King, and is said to contain calcite, cobalt bloom and native silver. A dozen surface men are engaged on the property, and the vein has been stripped a distance of 200 feet. The assay varies from 900 to 1,200 ounces to the ton.

The Silver Queen has received reports on the assay of the last sample, showing that the vein will carry in the neighborhood of 7,000 ounces to the ton. On the City of Cobalt property also the new veins are showing up well. Recently a slab of ore was taken out which was full of wire silver, running about 9,000 to the ton.

A new vein has recently been discovered on the City of Cobalt mine. There are now four working veins on the property, which are from 1 1/2 to 3 inches wide. The company is seeking ore which averages 5,000 to 8,000 ounces to the ton and expects to realize about \$55,000 from a haul which will be shipped during September. The shaft is down sixty-five feet and the ore is being left on the walls of the shaft.

F. C. Loring of the Trethewey Mining company says that work is being rushed on the property, and that a great amount of first-class ore is now being taken out of the veins. This mine is also the greatest producer of low grade ores in the camp, having 7,000 or 8,000 tons of 40-ounce ore on the dumps. The last car of nineteen or twenty tons of ore

shipped from the camp yielded \$29,000 at the Copper Cliff smelter. This ore came from the main veins.

The Nipissing company has had two men arrested for stealing ore. They were arrested with marked pieces of silver in their possession. The Nipissing production for the first ten days of August amounted to \$64,530, of which amount \$42,000 came from the Kendall vein.

F. W. Pugsley of the McKinley-Darrough company, who has been in New Jersey discussing of some of his company's ore, reports the smelter there as being crowded with Cobalt ore. The Balbach company has three months' ore ahead and the American Smelting & Refining company is in the same position. Cobalt merchants report a falling-off in trade owing to the strike and to many of the promotions becoming depleted of funds. The Right of Way company has ceased operations, owing to the strike.

The Buffalo mine is working and is taking an active part against the strike. The Buffalo is in good shape and is said to have about \$100,000 in sight. The Nova Scotia is making some headway in its developments both as regards economic results attained and the abstract interest therein. The main shaft of the Nova Scotia has passed through a surface layer of Keweenaw rock into a layer of the same rock where the silver values have developed very strongly. The Silver Leaf is making no attempt to work its property.

A Word From the Ice Man
We have secured for family use
500 cords of clear blue ice from
the open lake Northwest of
Presque Isle. There is no question
regarding the purity and
quality of this ice. It is unex-
cellent. The equal of this ice has
never been delivered in the city.
Remember this is the only com-
pany delivering open lake ice in
the city.
Yours for prompt and regular
service.
Lake Superior Ice Co.

City Brevities

Yesterday's temperatures: 7 a. m.,
53 degrees; noon, 53; 7 p. m., 54; maxi-
mum, 57; minimum, 53.
Forecast: Fair, stationary tempera-
ture.

Jacob Ross left last night for a visit in
Chicago.

Mrs. R. E. Finch left yesterday for a
visit in Escanaba.

Edward Merritt of Cleveland, is here
visiting his relatives.

E. H. Bush and family, are spending a
week at Stuart's camp.

Miss Florence P. Legare left last night
for a visit in Escanaba.

Miss Dell McCallum is to leave for a
visit in Pittsburg today.

Mrs. J. E. Anderson and daughter of
Princeton are visitors in the city.

Mrs. S. A. McCord, who has been visit-
ing Joseph McCord, left for the east
last night.

A. C. Knechtel and B. M. Wademan
of Menominee visited friends in the city
yesterday.

Mr. and Mrs. B. O. Pearl and son are
to return today from a visit of a week to
the Soo.

The regular meeting of the Queen City
tent, No. 448, of the Macabees will
be held tonight at 8 o'clock at Keough's
Hall.

Mr. Hooper returned to his home in
Chicago last night after an outing at the
Huron Mountain club.

Delancey Cronkright has bought the
barber shop of John Bellrose in the Nes-
ter block and will continue the business
at the same place.

Miss Kate Chme, who is employed at
the postoffice, from at present from a visit
to her parents in Ireland. She has been
away for the past two months.

Miss F. M. Bailey of Escanaba, Mich.,
who has been at the Huron Mountain
club for the past few days passed
through the city yesterday on her way
home.

Mr. and Mrs. Louis Vierling and
children of Detroit are in the city, to
attend the wedding of Miss Dora Vierling
and Anthony Butler of Detroit, which
will occur today.

F. H. Begole, who is lately home from
a week's trip to Boston, plans to leave
for Goldfield, Nev., the first week of
September, to look over the operations
of the Begole Syndicate.

Wilbur J. VanEvert, one of the class
of students of the Michigan College of
Mines that has been doing field geologi-
cal work in the upper peninsula, is visit-
ing relatives in the city.

Judge Grant of the Michigan supreme
court and Mrs. Grant, who have been
visiting in Marquette for the past four
days, left for Lansing last night. Judge
Grant is a former Marquette resident.

Marriage License—A license to marry
was granted yesterday to Jacob Winan-
maki and Miss Hanna Dahl both of
whom are of Negaunee.

Annual Picnic—The annual picnic of
the G. P. A. to the B. of L. E. will be
held at Presque Isle next Friday. Spe-
cial cars for the grounds are to leave at
2 o'clock and members and friends have
been invited to attend.

To Be Married—Miss Anna P. Han-
sen and Thomas Penhall of Calumet are
to be married today at the home of the
bride on Pine street. Miss Hansen is the
daughter of Fred Hansen. Mr. Penhall
is a miner and is the son of Thomas Pen-
hall of Calumet.

Picnic Today—The M. E. Sunday
school picnic, which was to have been
held yesterday, was postponed on ac-
count of the inclemency of the weather.
It will be held today, cars leaving the
church for Presque Isle at 10 o'clock
this morning and leaving Presque Isle
for the return trip at 6 o'clock in the
evening.

Had Their Troubles—When the seven-
ty-five members of the "Little Johnny
Jones" company arrived in the city yes-
terday they found the hotels filled and
they had great difficulty in securing ac-
commodations for the night. The many
hail fever sufferers now in the city have
filled the hotels and rooming houses to
such an extent that it is difficult to find
living quarters of any sort.

Court Next Wednesday—The United
States district court will be in session
at 10 o'clock next Wednesday morning
at the Federal building. Through error
it was yesterday announced that the
court would not be in session until
Thursday. The regular opening day
of the September term is next Tuesday,
but an adjournment of one day was
recently ordered by Judge Knappen.

Yantic Coming Here—A company of
Michigan Naval Reserves numbering
forty-five passed through the city yes-
terday from Hancock and are on their
way to Detroit to man the training ship
Yantic which is to be stationed at
Portage lake. The company was com-
manded by Lieutenant Cannon. It was
stated yesterday that the ship will be
in Marquette some time next week and
will remain in port for a day or more.

Two Are Bound Over—Gust Perki-
owski who attempted to kill himself
by slashing his throat with a barlow
knife when he was arrested recently at
Kenton and Fred Hill who was arrested
with him were bound over to the cir-
cuit court yesterday by Justice of the
Peace Byrne. The two are charged with
having stolen \$90 from Gust Johnson, a
Baraga avenue saloon keeper for whom
Perkiowski worked. The bonds of the
two prisoners were fixed at \$400.

He Quit in Disgust—In a ball game
played at Republic yesterday by teams
representing traveling men and Regg-
le business men, the latter won, 8 to 5.
The feature of the contest was thac-
tion of one of the "drummers" in catch-
ing a fly ball on the bounce and then
quitting the game in disgust because the
umpire refused to rule that the bats-
man was out. The traveler hadn't
played ball since the days of the "who
did eat" game, and he couldn't be made
to see that the same old-time rules did
not apply in these modern times.

Many Candidates—A. W. Moore, the
L. S. & I. electrician who recently an-
nounced his candidacy for the vacancy
in the recorder's office is said to have
the support of at least a large part of
the labor vote. A meeting of about forty
of his supporters was held Monday night
at the home of one of the number when
a plan of campaign was discussed. Con-
siderable doubt exists regarding the

manner in which the vacancy is to be
filled. Mayor Robertson sought to fill
the office by appointment at a recent
council meeting, but a number of the
aldermen expressed themselves in favor
of holding an election. Following are
other candidates announced for the of-
fice: Shields McCarthy, H. L. Siegel,
Ed. J. McCarthy, J. Gillett, L. M. Spen-
cer and Daniel Donovan. The date of the
election, if one is to be held, was fixed
by the council for September 17 next.

Compliment for Wallace—His many
friends of the copper country will be
sorry to learn that, owing to changes in
the sales department of the Dupont
Powder company, George Wallace "will
no longer visit the trade here, says the
Houghton Gazette. Mr. Wallace has
been visiting the Lake Superior mines
as a representative of the Dupont people
for 20 years and it goes without saying
that during this time, he has made and
still retains the friendship of the min-
ing men of this section because he has
been and is absolutely square, upright
and aboveboard in all his dealings, and
there are few, if any, of those who visit
the copper country in pursuit of business,
who are so well and favorably known
and liked as George Wallace. We un-
derstand that he will still be connected
with the Dupont company, and in behalf
of his Lake Superior friends, we be-
speak for him an abundance of success
in any new position he may be called
upon to fill.

MYSTERY OF SURLES'
DEATH IS UNSOLVED

EFFORTS TO LOCATE HOUSE FROM
WHICH HE WAS TAKEN TO
LAKESIDE HOSPITAL FAIL.

The death of W. H. Surles still re-
mains an unsolved mystery in Mil-
waukee and all efforts to discover his
whereabouts when he was stricken and
to locate the house from which he was
taken to the Lakeside hospital, have
failed. The following report is taken
from the Milwaukee Free Press which
printed the first exclusive story of the
mystery:

"Events leading up to the death of
William H. Surles, general agent of the
Northwestern Mutual Life Insurance
company, remain shrouded in mystery.
All efforts to penetrate the veil yester-
day failed.

Physicians connected with the case
persisted in maintaining silence. The
coroner's office and health department
had no information on the matter. No
clue to the identity of the persons who
accompanied the dead man to Lakeside
hospital or the man who drove the con-
veyance could be found.

Officials of the company, who might
have some knowledge of the mystery,
were "too busy to talk" yesterday after-
noon and could not be located last night.
It was said that there was a confer-
ence of officials late yesterday afternoon
and last night on matters connected
with Mr. Surles' death, but details were
unobtainable.

The Surles mystery was the talk of
the city yesterday and deep interest was
manifested in the hidden identity of the
persons connected with the affair."

SHOULDN'T BE MISSED.

"Little Johnny Jones" Wins Hearty Ap-
proval at Opera House.

Marquette theatergoers who missed
"Little Johnny Jones" last night would
do well to follow the show to the next
town for it is one of the kind shouldn't
be missed. The play is unique in that
it is a successful combination of music
and melodrama and there isn't a dry line
in it. It is clever from start to finish.

Besides the good songs every one
of which is "whistleable," the staging and
scenery are of a sort to awaken wonder.
It was stated that the play was one of
the most expensively costumed ones on
the road this season and this assertion
has been fully borne out.

There are a half dozen well known
names in the cast and the company as a
whole is one of the best that has vis-
ited Marquette for a long time. The
story given tells of the adventures and
mishaps of an American jockey in Eng-
land who falls victim to a plot. The
opening scene and the first act is laid
at the celebrated Hotel Cecil in Lon-
don. In the second act the opening
scene is at the harbor docks and the
closing scene of the act, as Little John-
ny waves his farewell to a departing
ship and a chorus sings the now popular
hit "Give My Regards to Broadway"
has long since been pronounced one of
the most effective ever staged.

A Wife's Secret.

A play that will probably appeal
strongly to theatergoers here is the
emotional drama, "A Wife's Secret,"
with a strong company, and a splendid
equipment of scenery and effects. It
will be at the opera house next Satur-
day night. The story of the play is an
argument in favor of woman's faith-
fulness, and a plea to the hearts of un-
forgiving and doubting husbands. It
presents a picture of life as it is today
with strikingly human characters, such
as we meet in reality. It is welcome
relief from the many impossible carica-
tures too often seen on the stage. The
production is under the direction of the
well-known amusement purveyors, Spencer
and Aborn, who have made many
contributions to the field of melodrama,
and this presentation is pronounced one
of their best achievements.

TRY

the National Barber shop for first-class,
quick service.
(8-8-11) GUY FRESSE, Prop.

There is no business in the world to-
day so more profitable than min-
ing. Statistics show that there is 45 per
cent less failures in mining than in
any other industry, and dividends of 25 to
100 per cent are not at all unusual. The
Grand Traverse & Arizona has been pro-
nounced by the best expert testimony
to be one of the best in the southwest.
Look in the window as you go into The
Stafford Drug Co.'s store and examine
some ore taken from this mining com-
pany's shafts. (8-25-11)

DREAMING OF RICHES

May be a pleasant diversion for some, but it is not the dreamer who acquires wealth. It is the one who works and saves and carefully invests his earnings.

Persons who are beginning to save can do no better than to start an account in this bank. It matters not about the size of the account. It is the BEGINNING that is important.

Great fortunes always come from small beginnings and it is surprising how fast a bank account will grow if one saves systematically. Saving money helps one's business reputation establishes credit and provides for a home.

Marquette National Bank. Marquette, Michigan.

MARKETS

NEW YORK STOCKS.

New York, Aug. 27.—The speculative sentiment revealed by the day's movements of the stock prices was hesitating, and shifting, as reflected by the constant turn in the tide. At the same time the transactions were on a diminishing scale and were abandoned almost wholly to professional traders before the session had elapsed.

Paine, Webber & Co. telegraphed from New York yesterday as follows: "There was considerable irregularity in the New York market today, caused mainly by the strength in the grain markets. However, in the last half hour a sharp rally in Canadian Pacific caused the list to respond and it closed at prices near last night's level.

Closing prices were: U.S. Steel, 24 1/2; G. & I., 24; Rep. Stl., 24; Smelter, 9 1/2; Sugar, 21 1/2; R. P. A., 10 1/2; Arb., 8 1/2; C. P. E., 16 1/2; Rock Island, 16 1/2; Panna, 11 1/2; N. Y. C., 10 1/2; D. & H., 10 1/2; So. Ry., 10 1/2; M. C., 10 1/2; H. C., 10 1/2; V. T., 10 1/2; Mex. Cent., 10 1/2; B. & O., 10 1/2.

look for nothing better than a trading market at all fluctuations of one to two points in the active issues until something more definite is known about the price of the metal and a better money market. We would buy only on good breaks and sell on the rallies for the immediate future."

Table of stock prices including Western Gold Stocks, Sandstorm, Red Top, Johnson, Columbia Mountain, etc.

Range of Money Rates. New York, Aug. 27.—Money on call, steady at 2 1/2 to 3 per cent; ruling rate, 2 1/2 per cent; 100 day, 2 1/2 per cent; 60 day, 2 1/2 per cent; 90 day, 2 1/2 per cent; 180 day, 2 1/2 per cent.

CHICAGO GRAIN MARKETS. Chicago, Aug. 27.—Realizing sales and a sharp increase in local stocks caused an easy close in the wheat market today. On the final quotations, the September was down one cent. Corn and oats were 1/2 lower.

Wheat Summary. Paine, Webber & Co.'s Chicago correspondent said yesterday concerning the wheat market: "Wheat traders had any amount of bull news today, but much of it was of a character to be discarded. This market certainly was entitled to a reaction after ten cents advance the past two weeks. The lower prices today are the result of considerable liquidation of long wheat by those who have been right on the advance. Liverpool failed to follow one higher and closed unchanged to 1/2 higher. Certain people who are already attempting to estimate the surplus which the Canadian northwest will have are premature. A number of frost predictions for tonight came from the northwest and inasmuch as very reliable reports from the Saskatchewan country indicate little if any damage last week that trade takes the present prediction with a good deal of allowance. Wet weather over the spring wheat country is bad for the early harvest and some early threshing returns are reported disappointing. We suggest caution about buying wheat, except on further good reaction."

Table of grain prices including Wheat, Corn, Oats, etc.

HARRIMAN IGNORED. Not consulted in Alton Sale, but Well Cared for Nevertheless.

New York, Aug. 27.—The Rock Island people did not consult E. H. Harriman when they bought control of the Chicago & Alton and they did not consult him when they sold it. Mr. Harriman is in San Francisco and it seems that his interest in the matter has wittingly or unwittingly been well taken care of by the parties to the recent transaction. The Union Pacific owns 810,343,100 Alton preferred, representing an investment of about \$8,900,000. The stock draws 4 per cent dividends. Seeing that these dividends are paid is the chief concern of the Union Pacific in the Alton. The new purchases of the Alton must continue to get 4 per cent preferred dividends out of the Alton in order to pay interest on the 4 per cent collateral bonds secured by Alton preferred. As long as the Rock Island can get the interest on these bonds the Union Pacific

will get the dividends on its Alton stock. Harriman finds his \$9,000,000 Alton investment delivered without his consent into the keeping of his old friends, Edwin Hawley, General Hubbard, and others.

Under the terms of the transaction the Alton turns over to the Clover Leaf \$6,380,000 Alton preferred at 100 cents on the dollar, and gets in return \$6,380,000 par value Clover Leaf collateral trust bonds, bearing 4 per cent interest, secured by the preferred stock so turned over. In the way of any data showing the life of the bond it is safe to say that it is not worth more than 50 to 60 per cent—say from \$3,200,000 to \$3,800,000 in round figures for this lot. Further, the Rock Island turns over \$14,200,000 par value Alton common at 25 cents on the dollar, and gets in return collateral trust bonds of the Clover Leaf, bearing 2 per cent for the next five years—in other words, \$4,120,000 Clover Leaf 2 per cent bonds, secured by \$14,200,000 Alton common.

STONE BREAKING VAGS EARN \$400 A MONTH FOR FREPORT. Illinois Town Puts Offenders on Rock Pile to Work Off Their Fines.

Bloomington, Ills., Aug. 27.—The city of Freeport, north of here, is clearing \$400 a month off the drunks, vags, and other city prisoners. By a new system, just inaugurated, all city prisoners who are unable to pay the sum assessed against them by fines are taken to the stone quarry owned by the municipality and made to break rock until their fine is earned at the rate of one day's labor for every fifty cents assessed. Each prisoner is given a small wooden wagon which takes a load of prisoners to the quarry and they work until 6 o'clock. Those who will not work are fed on a diet of bread and water until they decide to become "made" prisoners. The new system has had the effect of reducing the number of arrests for drunkenness, while hobos are shunning that section of the state.

BETTING NO CRIME, SAYS COURT. Justice Gaylor Declares Penal Code Does Not Sustain Convictions.

New York, Aug. 26.—Supreme Court Justice William Gaylor of the appellate division, Brooklyn, came to town from St. James, L. I., where he is spending his vacation, to hear arguments for and against a dice game, conducted at Coney Island, which Justice Diekey has decided is a game of chance and about which there seems to be a judicial conflict. Justice Gaylor, after hearing argument, remarked: "Millions of people in this country think that to make a bet is unlawful; that if two ladies bet a pair of gloves it is against the law. Go through the penal code from stem to stern and there is nothing to show that if you and I make a bet it is a crime."

THINKS BED A COFFIN. Girl Alarms Family on Coming Out of Lethargy, Then Slumbers Again.

Bloomington, Ills., Aug. 27.—"Oh, mamma, why did they put me in this white coffin? Do not let them do it again." With this exclamation Miss Flossie Bennett, a young girl of Kankakee county, aroused from a slumber of three weeks duration, fell asleep again and did not awaken until last night. She fell asleep one week ago today and was not aroused until Wednesday night, when she terrified her family by giving expression to the above exclamation. She was lifted from the bed and heroic efforts made to awaken her. After four more days of unconsciousness, she awoke, and the physicians are hopeful that the attack is at an end. She complains of severe pains in the head, which the doctors say is a natural sequence of the malady. The long distance sleeping is said to be a form of hysteria.

CHICAGO CROOKS IN CRIMEFEST. Blow Safes at St. Joseph, Mich., and Bank Vaults Now Are Under Guard.

St. Joseph, Mich., Aug. 27.—Driven from Chicago by Chief Shippy's anti-criminal crusade, the crooks are flocking to this and other Michigan lake towns. As a result, safes in three business houses were blown up by a gang of professional burglars. Fearing a raid on the banks, armed guards have been placed in charge of the vaults. An epidemic of hold-ups and robberies is feared. Sheriff Joseph Tennant declared today that he has received advice that scores of crooks exiled from Chicago have reached this locality, and in a conference with his full corps of deputies he has urged redoubled vigilance to prevent serious depredations. If the situation grows worse the authorities declare they will resort to deportation of the crooks if necessary.

INSANE WOMAN KILLS MAN. Throws Acid in Face of Attendant After Breaking Free of Hagsduffs.

Lincoln, Neb., Aug. 27.—Jay Galligoy, attendant at the Bailey asylum, died, in great agony, from the effects of carbolic acid thrown in his face in the night, while he slept, by an insane patient named Irene Nickel. She had been kept handcuffed because of her frenzies, but secured her freedom in some way, and took the acid from the medicine chest. Gaining entrance to the man's room, she threw a large quantity in his eyes, nostrils, and mouth. The woman has an insane delusion that he had been trying to kill her relatives.

RENTAL IS \$11,000,000. New York, Aug. 27.—Broadway's hotel district will lose another landmark. The Hotel Normandie will be rebuilt into stores, lofts, and offices. M. L. Hess leased the property today for the United States Trust company, as trustee under the will of Joseph Fisher, to Henry Corn. It consists of 1684-90 Broadway, southeast corner of Thirty-Eighth street.

The lease covers twenty-one years and five months, at a rental aggregating more than \$11,000,000.

DYING MAN WILLS HIS WEALTH TO SWEETHEART. Romance in Grim Life of Powder Maker Revealed After Explosion.

Kenosha, Wis., Aug. 27.—A romance in the grim life of a powder maker was revealed here when friends of W. J. Nowland, one of the men killed by a powder blast at the Larkin-Road plant in the town of Pleasant Prairie this week, offered his will for probate in the county court. By the terms of the will all the property of Nowland, which amounts to nearly \$3,000, will be paid to Mrs. Agnes King of Delaware Gap, Pa., the sweetheart of the dead powder maker. The will is the most unusual paper of the kind ever brought to the Kenosha courts for probate. It was never seen by the testator, but the two witnesses to the will make affidavit that it was at his request that the paper now brought forward was drawn up for him. Nowland was dying when he called Clark Davis and another of the men employed at the powder plant to the bed. "What do you want, Shorty?" said Davis, and the dying man lifted his charred face from the pillow and smiled. "Shorty," said the dying man, "I have a sweetheart at Delaware Gap, Pa., and I want her to have all the money that I am going to leave behind me. She is Agnes King, and I want you fellows to draw up this will for me and I will sign it."

Nowland never affixed his signature to the document, for while the two men were drawing it in their rough way the dying man gasped and died. It is generally thought that the will be admitted to probate and that the estate of Nowland will be turned over to his sweetheart.

HELPLESS, BUT ALIVE. When Coroner Starts to Cut Up St. Joseph Man He Sits Up on Table.

St. Joseph, Mo., Aug. 27.—A remarkable case of the dead returning to life was furnished by John A. Hall, a railroad man, who came here from Sebetina, Kan., recently, to look for work. He dropped unconscious in the yards and was found apparently dead. He was taken to the morgue and left on a table all night. The coroner decided upon a post mortem to determine the cause of death and left his assistant to do the work. No sooner had the point of the surgeon's knife touched the body than it suddenly began to sit up on the table. "You needn't cut me open," said Hall. "I'll answer any questions you ask me." Hall explained that he had not lain senseless at all, but knew all that had been going on. He heard all that was said about post-mortem, but was unable to make a sound of any kind.

SLEUTH FINDS THIEF IN ROOM. Chicago Detective at Iowa Fair Captures Hotel Robber With Loot.

Des Moines, Iowa, Aug. 27.—Detective James McCarthy of Chicago, who came here to guard the country folk during state fair week, almost fell a victim to a hotel thief today. McCarthy returned to his room at the hotel during the afternoon and there found John Kennedy, who is alleged to have a long police record. Kennedy had a bundle of McCarthy's goods all ready to carry away and made a desperate resistance when he was attacked by the detective. For fully half an hour the battle in the room waged, and then the detective overpowered the man and took him to the police station.

IS WED TO SPOOK WIFE; SECOND ONE A COMPANION. New York, Aug. 27.—Edward Vanderbilt, the elderly Brooklyn lumber merchant who married Mrs. Mary Ann Seannell Pepper, the spiritualistic leader of Brooklyn, was examined today in the county court. Mrs. Pepper-Vanderbilt was not in court.

Early in his testimony Mr. Vanderbilt declared that he married the woman bishop of spiritualism merely for companionship, as the spirit of his dead wife was still with him, and would allow any marriage that would exist for all time. Mrs. Pepper was his companion. Asked about his first wife, he said: "I was married to her and she died in my arms. I was overwhelmed with grief at the death of my first wife, but I had a second wife wed with me. It is with my first wife that I should constitute a marriage and there should be only one such marriage. Her soul is with me perpetual."

"Can you define the spiritual?" "I will try. Many people differ in their descriptions of the spiritual. I look upon the body as the knower and doer. When you die the door goes on to the other side; the knower had no body and is gone. Often while your body is here your thoughts will be way off."

"Do you believe in a later life?" "No. Life is perpetual. We are constantly changing. We always remain here. Take your own case"—waving his hand the lawyer—"when you were ten years old you were not like you are now. You have completely changed. The only similarity between you of then and you of now is the name you bear. Your body and mind have completely changed."

AUTO TRAP GETS VICTIM. Laconia, N. H., Aug. 27.—The first victim of the new auto trap here, an automobile party from Leominster, Mass., died today at 810 in the police court. Even since the summer season opened the police officers throughout the city have been at their wits ends to find some means to stop the speeding of machines on the public streets. The so-called "velociped" was one of the favorite places for speeding, and it was here that City Marshal Harvel had a measured course of a quarter of a mile laid out to trap the unwary. At one end of the course Deputy Marshal Hoadley was stationed and at the other end was the chief with a stop-watch. It is understood that measured courses have been marked.

REIFF'S RECORD RETAINER. Berlin, Aug. 27.—The report that "Johnny" Reiff, the American jockey has been engaged at a salary of \$250,000 (50,000) to ride for the stables of Herren Lang, Puchof, Schneider and Felix Simon in Germany is confirmed.

"ANOTHER POOL FORMED"

Like the one started last spring. Some of the parties in last pool have made hundreds of dollars. All members are well pleased. I will give others a chance to start speculating without risking a dollar.

You send me \$20.00 and I will guarantee to pay back your \$20.00 any time, you agreeing to leave the profits I make for you and trade with it after I double your money. In the meantime I will send you the Chicago Post free, that has all the Markets and news, so you can see how I make money from your \$20.00. I will also mail you a statement of each transaction. I have traders who make hundreds and thousands from \$20.00 in wheat. Remember I am getting you started without you risking a dollar. You will ask, why does Spear do this? I am doing it as an advertisement to increase my business. It usually takes two weeks to double the money. Women can join it.

You very seldom hear of one losing in wheat, for the reason that wheat is used the world over and does not fluctuate much.

One cannot get rich in their business, so I will teach you how to speculate and make money if you will follow my advice.

If you have not the \$20 I will lend it to you, as I do not want the money but the business. Office open at 8 o'clock evenings. Come in and bring your friends. This is not a fake advertisement.

J. W. SPEAR,

Harlow Block ESTABLISHED 1893 Marquette, Mich.

ADVENTURE. Advances state that Baltic Lode was cut Saturday. 500 shares traded in today. The stock ought to be selling today at twenty dollars, as the Baltic Lode when opened up will make it worth a hundred dollars.

SOO CANAL PASSAGES.

NEAR FALL FROM CLOUDS.

Parachute Ropes Failed and Aeronaut Faced Death at Houlton, Me.

Houlton, Me., Aug. 27.—Professor B. S. Tirrell of Brockton, Mass., who made his second double parachute drop from the clouds late yesterday afternoon, narrowly escaped serious mishap during the latter part of the descent. After entering away from the balloon he dropped nicely, and as soon as the parachute was steadied attempted the "pillow drop" by cutting loose from the parachute and releasing the second parachute, carried like a pillow just above his head. The ropes of the second affair fouled, the parachute opened but part way, and in mid-air the daring aeronaut undertook to climb up by the ropes and correct the difficulty. He was unable to do this, but enough of the umbrella opened to save him from injury, although he alighted rather too forcibly for comfort.

COOK WITH GAS

Ishpeeming Department

ANOTHER STRIKE AT GOLDFIELD, NEV.

MINERS OBJECT TO BEING SEARCHED AFTER LEAVING THE MINES—MANY IDLE MEN IN THE DISTRICT.

According to an Ishpeeming man now located at Goldfield, Nev., another strike has been declared there and in his opinion it may be some time before there will be a satisfactory adjustment of the difficulty. He reports that practically all of the mines and mills are idle and that the camp is now in worse condition than it ever was during the big strike, which lasted several weeks.

Formerly much free gold had been stolen from the mines and it is said that the workmen have carried away large values in the yellow metal. The companies finally ordered the men to walk in their underclothing before an inspector before leaving the dry houses. They objected strongly and quit work. It is reported that all of the men employed at both the Mohawk and the Combination mines, together with the latter's mill hands, have gone out.

The Ishpeeming man says the officials are determined to enforce the new order, but many of the men who have not stolen gold are indignant and have declared that they will leave the camp for good rather than give in. The opinion is expressed that this strike will result in making Goldfield an open camp, as the Federation men are gradually losing ground.

Prior to the present strike 3,200 men were employed at the several mines and mills. Practically none of the leased properties are now working, as a large majority of the owners of these mines have run out of funds and are in no position to raise additional money. The day has passed when wildcat companies can be organized, as was the case in that field a few months ago. It is estimated that there are at least 10,000 people in Goldfield in excess of the number who can make a living there, and it is reported that over 2,000 men were idle before the present strike. The Ishpeeming man writing from Goldfield expresses the opinion that the workmen will soon be forced to submit to the company's new plan. Numerous cases of privation are reported in the camp.

There are many men who desire to leave Goldfield, but it may be some time before they will be able to move into another camp where their changes for employment are more favorable, as it is reported that the forces are being reduced in several of the other nearby districts and that there are very few opportunities for new comers. Goldfield is so far distant from points where miners can secure employment that it takes considerable money for them to get out of there. The fare to the mining districts of Utah is about \$30, and it takes a similar sum to go to San Francisco or Los Angeles. The union miners are not receiving the protection in any of the mining camps in the west, except Butte, that they did a few months ago. It is reported that non-union men are being employed in practically all of the camps, including Globe, which is supposed to be a strictly union district. Many of the men who are now at Goldfield came in following the strike at Bisbee, but they would have been better off if they remained away, as some of them have not worked a day since arriving there.

PUTTING UP CABLE.

New Work for County Phone Company Being Rushed.

The crew of the W. H. Crumb company, which has the contract to put up the new cable for the Marquette County Telephone company, has put in place nearly all of the large cable. The company has a good sized force of linemen and cable splicers at work. All of the two hundred pair cable has been put up and the one hundred pair cable has been stretched to the Oliver Mining company's office. The large cable ends at a very high order and the finest gizing and messenger work has been installed. The telephone company will also put in a new switchboard, which has already been shipped. A new change rack and lightning arrester have already been installed in the rear of the Voecker block, and is replaced with the cable. The Oliver office by the one hundred pair cable. When the work is completed there will be seven hundred pairs in position about the city.

The work done by the company is of a very high order and the finest gizing and messenger work has been installed. The telephone company will also put in a new switchboard, which has already been shipped. A new change rack and lightning arrester have already been installed in the rear of the Voecker block, and is replaced with the cable. The Oliver office by the one hundred pair cable. When the work is completed there will be seven hundred pairs in position about the city.

TO INCREASE AGENCIES.

Northwestern Mutual Life Company Will Have More Agents in This Region.

Radical changes in the administration of the affairs of the Northwestern Mutual Life Insurance company, of Milwaukee, will be made in this district and Wisconsin. The entire territory of Wisconsin and upper Michigan will be divided into six or seven general agencies. Two of these will be located in this peninsula and the remainder in Wisconsin.

It has been authoritatively stated that the two upper Michigan agencies will be located at Calumet and Iron Mountain. In that case the management of the agencies will fall to M. E. O'Brien, of Calumet and John James, of Iron Mountain. Mr. James is one of the oldest agents in the service of the Northwestern. The Wisconsin branches of the company will be located at Milwaukee, Oshkosh, Sheboygan or Marinette and two other western cities.

The subdivision of the great general agency has been under consideration for some months, and the action was precipitated by the death of General Agent William H. Surles, but would have come undoubtedly about the first of the coming year. A meeting of the officers and agents of the company was held in Milwaukee last week.

The Northwestern Mutual Insurance company is represented here by George Skoberg, P. G. Temple, the Marquette representative of the company.

CAUGHT BY CAR.

John Luoma, a trimmer at the Cleveland Lake shaft, was bruised at the mine yesterday afternoon. He was trying to pass the car in a drift and was caught between it and the side timbers. He was removed to the Ishpeeming hospital, where his injuries, which were not of a serious character, were dressed. He was taken to his home on the corner of Fourth and Division streets.

WILL GO TO PHILIPPINES.

Francis Kelly, chief engineer for the Oliver Iron company at Champion, has accepted a position with that of Ralph MacKenzie, who is to take charge of exploratory work in the islands for the United States government. Mr. MacKenzie was in the city Monday, and said that he and Mr. Kelly would leave for the Philippines next month.

FROM HOPKINS' CURB LETTER.

The London metal market came strong and up over a pound for both spot and futures. Boston showed a better tone and tendency was upward. However, trading was small in volume and after the opening stocks settled down in the usual rut. There were advances of a point or more in the more active issues with a disposition to do better.

The day's prevailing prices were:

American	87 1/2	87 1/2

"What shall we have for breakfast?"
"Why Cudahy's Peacock Ham and Eggs of course; they are always acceptable, especially at this season of the year."
(11-27-e-o-d)

ISHPEMING IN BRIEF.

John Neimi has sold his residence property at 407 Vibe street to Jacob Kunderlin.

John Dillon, of Chicago, arrived in the city yesterday, on a few days' business trip.

Miss Euphemia Ham is visiting with Miss Ethel Ward at Munising for a few days.

Miss Margaret Scully, of Marquette, is in the city, spending the week with friends.

The Hayden family are spending the week at their camp at Island Lake, south of the city.

Mrs. H. J. Stevens and daughter, Helen, of Houghton, are in the city, on a visit with friends.

Ed. Carney and family have returned from Camp Clark, where they spent the past three days.

Mrs. R. A. Wilson and son, of Spokane, Wash., are visiting with Mrs. H. Rasky for a few days.

George Ruez arrived home yesterday morning from a visit to the Wisconsin lead and zinc district.

Wallace H. Hopkins arrived in the city yesterday morning from Chicago, on a visit to the local office.

An air brake instruction car of the International Correspondence school, of Scranton, Pa., has arrived in the city.

Miss Ellen Hendrickson entertained a number of her friends at her home yesterday afternoon, in honor of Miss Agnes Clifton.

The new stained glass windows have been put in position at the Calvary Baptist church at the corner of High and Third streets.

Miss Della O'Neil, who has been visiting at the home of J. C. Aitschinger for the past few weeks, is visiting with friends at Michigan.

The Misses Mary and Eliza Lane left the early part of the week for Batavia, Ill., where they will spend the coming month visiting with relatives.

Mr. and Mrs. John D. Ryan and son Carlos, traveling in their private car, spent a few hours in the city Monday evening on their way to Duluth.

Edward and Marshall Lewis, who have been visiting with Mrs. Harris on South Angelina street during the past week, have returned to their home in Cleveland, Ohio.

The Beaver baseball team, of this city, and the Champion nine will meet on the diamond at Champion next Sunday afternoon. A fare of sixty cents has been secured for the round trip.

The work on the basement of the Anderson block is nearly completed. Yesterday the pillars were laid, beneath the front of the building to prevent the brick work from cracking.

C. T. Kruse and family, Walter M. Sterling, and family, of Negeauze, Mrs. A. Moutrie and Miss Winifred Moutrie are spending the week at Pine Ridge lodge on the Escanaba river.

Jesse James and wife of the copper country are in the city, on a visit with friends for a few days. Mr. James is the pioneer engineer on the Copper Range railroad and has been employed continuously on that road since it was built. He was formerly an engineer on the Northwestern road in this city.

REFORM WAVE IN WASHINGTON.

Five Bucket Shops Are Closed and Further Action is Expected.

Washington, Aug. 27.—A reform wave inaugurated a few weeks ago has broken out in this city in acute form, and the local authorities have started out to clean up the District of Columbia before congress comes back in December. Five of the leading bucket shops, or "bucket shops," were unceremoniously and without warning raided at noon when the places were crowded with customers. Six more alleged bucket shops were closed subsequently, thus putting practically all of them in the city out of business.

About three weeks ago the police began a campaign against the hand book gamblers. These curbstone racing gamblers have been plying their trade so openly in Washington for the past two years that the situation had become almost a national scandal because of the direct government of the District of Columbia by congress. It was possible for a man to get a bet down in Washington at any time, and numerous cigar stores, saloons and lunch counters were openly known as the headquarters of the hand book men, who practically made their sheets on the open streets and took bets apparently with immunity. It is said that the next move of the district officials, which is hinted in mysterious tones, is to raid the bucket shops in the city's big hotels especially when congress is in session.

NOTICE OF ANNUAL ELECTION

Of School District No. 1, Ishpeeming, Michigan.

Notice is hereby given that the annual meeting of School District No. 1, of the city of Ishpeeming, Michigan, will be held in the Central school building on Division street, Monday, September 2nd, 1907.

The annual meeting will be called to order at 9 o'clock in the forenoon, when the reports of the assessor and director of the district will be read, and such other business as may legally come before the meeting may be transacted at this time.

The polls will be open at 10 o'clock in the forenoon of said day, and will remain open until 5 o'clock in the afternoon, for the purpose of submitting the vote of the qualified electors of said district the following:

1st. The election of one (1) trustee to serve for the period of three (3) years.

2nd. Shall the board of trustees be called to spread on the tax roll a special tax of two mills on the dollar for the years of 1908, 1909, 1910 and 1911, for the purpose of liquidating the cost of erecting the new high school building situated on the school property on East Division street, in the city of Ishpeeming?

The qualifications of voters for trustees are:

First—A taxpayer.

Second—A parent or guardian.

Taxpayers only can vote on the special tax proposition.

J. G. WELSH,
Director.
Ishpeeming, Mich., Aug. 29, 1907.

MAY PLANT MORE LOBSTERS.

Canadian Fisheries Commission to Examine Vancouver Island.

Victoria, B. C., Aug. 27.—The fishery protection schooner Kestrel will sail from this port shortly to the west coast of Vancouver Island, where examination of the various inlets will be made to decide whether it is feasible to plant large lobster beds. Professor Prince, chairman of the Canadian Fisheries commission, will accompany the expedition. Some small beds of lobsters have already been planted and left to propagate. These beds will be visited first to see whether the experiment has shown any progress, and it is understood that the planting will be started on a large scale if the trip of the Kestrel shows that good results are probable.

Diarrhoea

When you want a quick cure without any loss of time, and one that is followed by no bad results, use

Chamberlain's Colic, Cholera and Diarrhoea Remedy

It never fails and is pleasant to take. It is equally valuable for children. It is famous for its cures over a large part of the civilized world.

Piano Bargains

We have just installed a bargain room in our large store, where all instruments that have been taken in exchange, returned from rental, or that have been marred or damaged in any way, will be kept separate from our general stock. Here will be found exceptional bargains in both pianos and organs.

Organs from \$10 up
Pianos from \$70 up

All instruments are marked at the lowest reduced selling price. If you are looking for a Piano or Organ bargain don't fail to visit our bargain room.

BIG FIELD IN CHINA.

Great Opportunity for Engineers Writes Charge d'Affaires at Washington.

Andover, Aug. 27.—On account of the illness of himself and his wife, the Hon. Chow Tszchi, charge d'affaires at the Chinese legation in Washington, who was to deliver an address before the Chinese Students in America and Eastern state at Phillips Andover academy, was unable to be present. He forwarded his address, however, and it was read by Y. K. W. Koo of Columbia university, English secretary of the alliance.

The address was, in part, as follows: "Confucius says: 'Young men are entitled to consideration; for who can tell what the future may have in store for them?' This is especially the case with young students such as you all are. You have a great future. When I consider the opportunities you will have after you have completed your studies in this country, I cannot help envying you."

Men of Western Training.

"You all, of course, expect to return to China. The greatest need of China today is more men with a western training. I am glad that there are so many Chinese students in America and Europe who are preparing themselves to do their full duty to their country."

"What grand opportunities China holds out to you! In every field of human endeavor there is room for all. There is no crowding in the professions, in civil engineering, for instance. There are twenty-two provinces, with Mongolia and Tibet, larger in extent of territory than the whole of Europe or the United States, to be covered with a net work of steel. Thousands of engineers are needed to lay out the railroads required to meet the present demands. The rapid introduction of foreign machinery for the internal improvement and development of the country creates an unlimited demand for mechanical, mining and electrical engineers. The mining resources of China have hardly been touched. The various industries are being constantly reorganized on a modern basis. Wherever you go in China you hear the cry for more engineers—good engineers."

Also Needs Teachers.

"China also needs teachers. The old system of education has been found wanting, and a new system has been substituted. The results, I must say, have not been altogether satisfactory, for the men who are competent to carry out educational reforms in China are very few in number. Those of the old school cannot be entrusted with the work. Those who are zealous for the new system of education are, as a rule, better fitted to promote the cause by giving their enthusiastic support in the newspapers than to carry out the reforms themselves. Such being the situation, one of the pressing needs of China today is more teachers who are competent to teach."

"But China has suffered from nothing so much during the last fifty years as from want of men well equipped to conduct the foreign relations of a great country. To be respected by other nations must be represented in her relations with them by men who can command respect at home and abroad. Here the diplomatic and consular service is an inviting field for young men with a foreign education."

"I am glad to say that our government appreciates the importance of carrying out certain reforms in the diplomatic and consular service on modern lines. The new regulations lay special emphasis on a knowledge of foreign languages, international law and political science. With the infusion of new blood into the service, it is hoped that China will in time regain the ground she has lost in the field of diplomacy and make her voice heard in the congress of nations."

For sale by M. K. Manuard & Son, Marquette Hardware Co. and B. Neidhart of Marquette. Also by F. Braastad & Co. and J. W. Jochem Hardware Co. of Ishpeming.

RIDICULES "BIRD SURGERY."
Scientist Frank M. Chapman Comments on Dr. Long's Contentions.
New York, Aug. 27.—"If birds are unable to set their broken legs, why do they not set their wings?" This was the question asked by Dr. Frank M. Chapman, a resident surgeon of the department of mammalogy and ornithology of the American Museum of Natural History, when he was asked about the confirmation of Rev. William J. Long's story that birds could mend their own broken legs, which came in a cable interview with Rev. Theodore Wood, an English naturalist.
"Mr. Long and his defenders cite many instances of birds setting their own legs, but they mention no birds setting broken wings," said Mr. Chapman. "A bird may live without its legs, but it is placed at a great disadvantage when it loses power of flight. It is of far greater importance for a bird to be able to set its wing than for it to repair a broken leg. Still, as every sportsman knows, the conclusion of the hunting season in the South is marked by the presence of large numbers of crippled water fowl, which, having been wing-broken earlier in the season, are unable to return North."
"Their presence in the South long after their time of migration is passed is evidence of their inability to regain the power of flight. It should not be forgotten," continued Mr. Chapman, "that Mr. Long's alleged leg-setting cases dealt with birds that live close to the ground. It is brought about by entirely natural means, by the mixing of the blood from the wound with dirt and moss so that the break becomes 'set' after a fashion." Mr. Chapman declared that he had never heard of Rev. Theodore Wood, the English naturalist, whose cable interview upheld the contention of Professor Long, that snipe are experts in repairing broken bones by the bullets of sportsmen.

HAPPY WOMEN.
Plenty of Them in Marquette, and Good Reason for It.
Wouldn't any woman be happy, after years of backache suffering, days of misery, nights of unrest, the distress of urinary troubles, she finds relief and cure?
No reason why any Marquette reader should suffer in the face of evidence like this:
Mrs. Laura Sullivan, of Bluff Street, corner of Third street, Marquette, Mich., says: "I have been a great sufferer from backache, but never knew that it was my kidneys until lately. I had constant dull bearing down pains across the small of my back which extended into my limbs, and sometimes my legs swelled to twice their normal size. I was unable to go out on the street on such occasions, and it was all I could do to get up or down stairs. When I sat still my back ached, and when I crossed it pained worse, and often I had to catch hold of something for support. I used a great many remedies and consulted a doctor, but nothing I did helped me. Finally I saw Dean's Kidney Pills recommended by Marquette people so I got a box at the Stafford Drug store and began using them. By the time I had taken half a box I felt much better and continued taking the remedy until cured. The bloating left my legs and feet, the backache disappeared and I have felt better and stronger than I have for years. I heartily recommend Dean's Kidney Pills."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Dean's—and take no other.

\$50,000 TO GIVE AWAY.
Webster City, Ia., Aug. 27.—Abraham Simmer, a multi-millionaire and Iowa's most noted philanthropist, who in his youth lived in Wayne county, O., has adopted a unique plan of distributing alms. He is driving over the state personally looking for those who need help and giving it to whomsoever he finds in need of it. In this way he purposes to spend the \$50,000,000 still left to him. "I shall travel over all Iowa, giving my money as I go," he said. "Then I may go into other states. I intend to spend all my money before I die, giving it to those who need it." No account is kept of his charities. He personally investigates every case that comes to his notice, and what he gives no one knows. That he is distributing tens and hundreds of thousands of dollars about the state, however, is certain.

DETROIT AND RETURN \$7.00
Via the South Shore. Tickets on sale Sept. 9th, 12th, 16th, 21st, connecting at St. Ignace with steamer of the D. & C. N. Co. To Buffalo \$2.00 higher. Limit three weeks. For sleeping car and steamer reservations apply to ticket agents.

Negaunee Department

L. E. CHAUSSEE AWARDED HIGH SCHOOL CONTRACT

WAS LOWEST BIDDER FOR THE ERECTION OF THE BUILDING—MATTER WAS DISPOSED OF AT MEETING MONDAY.
L. E. Chaussee was given the contract to erect the new high school building at a meeting of the school board Monday afternoon. He was the lowest bidder by \$1,972. The bids of the several contractors were not the same as originally submitted, as the board made a number of alterations in the plans. The revised bids of the five lowest contractors were as follows: Paul Wilson's Sons, \$88,388; General Construction company, \$89,656; A. P. Wilson, \$101,154; Thomas M. Solar, \$91,563; L. E. Chaussee, \$86,391. The bids included only the general construction work, and the plumbing, heating and ventilating systems will be contracted for later.

The new building will face north, fronting on Peck street, and will extend east and west between Pioneer and Teal lake avenues. The north frontage of the building will be 110 feet, and the depth at the center will be 100 feet. At the eastern and western extremities there will be wings, running to the north and south, with a frontage of 75 feet on Pioneer and Teal Lake avenues, respectively.
The general construction of the building will be set out in the first story with pressed brick and stone trimmings for the second and third stories. The foundation, which will be below grade, will be constructed of concrete and rubble brick and hollow tile. The roof will be flat and covered with fine gravel and roofing cement. In the basement there will be room for a gymnasium, dressing and bath rooms.
The floor will contain the forge room, machine shop, mechanical drawing room, kitchen, sewing room, dining room and large wardrobes and toilet rooms. The gymnasium, which is located directly beneath the boys' and girls' work shop, will be a commodious one and will occupy a space 62 by 78 feet. The gymnasium will be fully equipped and will have a circular running track.
The floor next above the ground will have the superintendent's office, the board room and general vault, the book room and a large room for the accommodation of the commercial department. The large assembly room, which will seat over five hundred pupils, will also be located on this floor. It will be provided with a stage at the rear end and a library at the east end. This auditorium will have very good acoustic properties, as the ceiling will slope from the rear to the stage.
The third floor will contain the biological laboratories, the chemistry, physical and physical laboratories, and a dark room for each laboratory. On this floor there will also be five class rooms and large drawing and music rooms.
The principal entrance to the building will be in the center of the block on Peck street. The wings on Pioneer and Teal Lake avenues will also have large entrances. There will also be two entrances in the rear, leading to the gymnasium and the assembly rooms. The two main flights of stairs will be located on the west side of the building and will lead from the ground to the third story. The building will be heated by direct steam heat radiation from a power plant located in the basement of the present gas street school. The ventilation system will be a modern one, known as the tempered air blast system, with thermostat regulation.

Mr. Chaussee will be required to give two bonds, one a general one of \$10,000 and the other a personal liability bond protecting the school board, for \$4,000. He will commence the work as soon as possible, so as to get the foundation in place this fall. The contract calls for the completion of the building by Dec. 31, 1908. If the weather permits him to work a full force continually Mr. Chaussee expects to build the foundation and the stone work of the first floor this fall.

ENTERTAINMENT PLEASSED.
A benefit entertainment for the Beulah Land Commonwealth for Homeless and Neglected boys was given at the Mitchell M. E. church before a good sized audience last evening. The program was given entirely by two boys from the home and they displayed considerable talent. Master Ernest Gatten, aged twelve years, gave a number of songs, which were given in a creditable manner. Enrique Ortigas, a Cuban boy, sang a number of songs, both in his native language and in English.

PUTTING IN SOLID WALK.
The new concrete walk which will be placed in front of the Kibben block on Iron street, will have a substantial foundation. In the front of the building and under the sidewalk there is a storage place for coal and the old walk which spanned this space was constructed of wood and tar. Steel rails have been laid over the opening and the new walk will be laid on the rails as a foundation. It will be the only walk of its kind in the city.

INQUEST THIS MORNING.
The inquest into the cause of the death of Walter Fish, who was electrocuted last Tuesday morning, will be held today. Much interest has been taken by Negaunee people, as both the electric light company and the relatives of Fish will have attorneys present.

TO THE MERCHANTS.
I desire to advise the merchants of Marquette county, particularly Negaunee, that I will not pay any bills contracted by my wife, who has left my bed and board.
DAVID RYAN.
(8-27-21) Negaunee.

WAGON CRUSHED HIS CHEST.
Frank Aho, a Lapeer county farmer, is dead as the result of a fall from a heavily loaded hay wagon. He was jostled from his seat on the road to Newberry, and the wheels of the wagon passed over his chest.

HORSE OWNER SUES RAILROAD.
Anthony Mushlock of Munising has commenced suit in the circuit court of Alger county against the South Shore road. He asks damages of \$300. One of Mushlock's horses was killed outright and another was badly injured by a South Shore train recently.

SEA GULL A FAMILY PET.
The home of Frank Devet, at Fayette, Delta county, boasts an unusual family pet. A sea gull has been brought up to look upon man as his friend instead of its natural enemy. The bird shows no fear of human beings and is the playmate of the children in the little town. Each night it goes to roost in a barn close by and remains about the Devet home during the day.

DISPUTE HALTS RAILROAD WORK.
Work on the extension of the Wisconsin & Michigan road to a connection with the Chicago, Milwaukee & St. Paul east of Negaunee has been delayed owing to difficulty relative to the right-of-way. The track will cross property owned by John L. Duell and Mrs. Thomas McKenna and the parties have been unable to agree as to the value of the lands. Condemnation proceedings have been commenced by the railroad company.

PASTOR WILL NOT RETURN.
Rev. J. M. Kerridge, of the Central M. E. church of Iron Mountain, has announced to his congregation that he will not return another year. This decision is advised by his physician. He is afflicted with a rheumatic trouble and this climate is too rigorous for him. The Central church never had a more able nor more popular pastor, and the gentleman will take with him to his new home the best wishes not only of his congregation, but of the community.

BELIEVES IN BLOODED STOCK.
Mitchell Dykes has received a shipment of thoroughbred registered stock for his farm in the Fence river district, Dickinson county. The shipment consists of one Holstein-Parisian bull and four cows and one Durac boar and eleven sows. Mr. Dykes shows good judgment in stocking his farm with full-blooded registered stock, as the cost of keeping is no more than the cost of keeping

FATALITY AT NEGAUNEE MINE.

Young Miner Lost His Life at Conclusion of Work Yesterday Morning.
Charles Suoinen, eighteen years of age, met death on the fourth level at the Negaunee mine yesterday morning, about seven o'clock. The night shift men were going to the surface and young Suoinen, in company with several fellow workmen, had just walked out to the shaft to take the cage. The cage was passing the fourth level landing on a downward trip, and Suoinen was hit by its bottom, being killed instantly.

Young Suoinen was a native of Finland and came to this country twelve years ago, settling with his father and mother at Mass City. He came to this city on the seventh of this month and secured employment at the Negaunee mine. He has a brother here, Eric Usimaki, with whom he lived. The body will probably be taken to Mass City for interment.
Commodore Prin empaneled the following jury, which will meet to inquire into the cause of the accident at T. A. Thoren's office, at 9 o'clock Friday morning: Dan Shea, Joseph Barabae, R. W. Jackson, T. A. Thoren, Jacob Salo and Richard Nesbitt.

LOCAL LAONICS.
Miss Ella Reidy left yesterday for Big Rapids, where she will study at the Ferris Institute.
R. W. Olson and wife and Dr. Haide, wife and child, spent Sunday at Loon Lake, the guests of T. C. Yates and family.

The funeral of the late Walter Fish was held yesterday afternoon from St. Paul's church and was largely attended by friends of the deceased.
Mrs. Walter Sterling went to yesterday morning to C. T. Kruse's camp on the west branch of the Escanaba river, where she will spend the coming week.

J. J. Wentala, Matt Menni and Matt Aho took their trotting horses to Marquette Monday, and will enter them in the trotting meet which takes place there during fair week.

Captain James Foley went to Humboldt yesterday morning, to look over the work in progress at the old Humboldt mine, which has been re-opened by the Breiting people.
The Businessmen's team and a nine representing the saloon keepers of the city will meet Friday afternoon at the new diamond. The game will be called promptly at 2 o'clock.

Jacob Arneht has received his papers from the state druggists' board, permitting him to practice as a registered pharmacist's assistant. Mr. Arneht took his examinations at Houghton last week.
Mrs. Charles Mitchell and her daughter, Mrs. Paul Homberger, formerly of this city, were expected to arrive yesterday morning from Pasadena, Cal., for a visit with Captain Samuel Mitchell and family.

Miss Mary Cons returned Monday from Green Bay, where she visited with her uncle, Rev. C. J. the old Humboldt mine, which has been re-opened by the Breiting people.
Thomas Whitburn, formerly of this city, came down from Bessener Monday on a visit with friends, Mr. Whitburn, Sr., is located in the Wisconsin lead and zinc district, where he is doing some development work at one of the new properties there.

The members of the fire department were called out at four o'clock Monday afternoon to respond to an alarm turned in from the residence of John Mitchell. When the department arrived on the scene only a chimney fire was in progress and no damage was done.

TIRED AND SICK YET MUST WORK

"Man may work from sun to sun but woman's work is never done. In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden."
It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, its are depressed, the head and back aches, there are dragging-down pains, nervousness, sleeplessness, and reluctance to go anywhere, these are only symptoms which unless heeded, are soon followed by the worst forms of Female Complaints.

MRS. AUG. LYON

Lydia E. Pinkham's Vegetable Compound

keeps the feminine organism in a strong and healthy condition. It cures Inflammation, Ulceration, displacements, and organic troubles. In preparing for childbirth and to carry women safely through the Change of Life it is most efficient.

Mrs. Augustus Lyon, of East Earl, Pa., writes:—Dear Mrs. Pinkham:—"For a long time I suffered from female troubles and had all kinds of aches and pains in the lower part of back and sides. I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me I feel like a new woman and I cannot praise your medicine too highly."

Mrs. Pinkham's Invitation to Women
Women suffering from any form of female weakness are invited to write Mrs. Pinkham at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case. Her advice is free and always helpful.

scrub stock and the results are far better. The original cost is more, but the profits will overcome this in one year.

Timber Land Deals.
J. O. Blyth of Iron Mountain has completed the sale of twenty forty of timber land near Granite Bluff to the Peninsula Box & Lumber company of Iron Mountain. The consideration was \$8,000. The timber will be cut this winter. Mr. Blyth has also sold to Edwin Freeman, of Iron Mountain, eight forty of timber land east of Merriman, the consideration being \$4,500.

Minister's Work Liked.
The official board of the First Methodist church of Escanaba has by a unanimous vote requested the return of the Rev. F. Spence to the pastorate for another year. It is very probable that the bishop will act according to the board's wishes. The Methodist work has grown very rapidly during the eighteen months of Mr. Spence's pastorate. During the past year forty new members have been received into the church, and the total membership at the present time is 161. The stone church now under construction is a testimonial of Mr. Spence's determination. Soon after he came to the pastorate he began drawing attention to the need of a better and more commodious church home. Although he met with some opposition at first, he stuck to his text. The result will be that the congregation will soon have one of the prettiest and best churches in the peninsula.

Newberry Asylum Contracts.
Four Milwaukee concerns, two Marquette contractors and one Sault Ste. Marie builder submitted proposals for the erection of the new administration building and cottages "K" at the Newberry insane asylum. The highest bid was \$81,000. The contract was awarded the Foster Construction company of Milwaukee at \$74,000. In addition, the same concern will install the heating plants for \$4,750. The asylum is badly overcrowded, there now being nearly 700 patients, and the new buildings are urgently needed. The bids submitted were as follows:

General Construction Co., Milwaukee	\$79,982
Marshall & Son, Milwaukee	79,946
Parish & N. Hunt, Sault Ste. Marie	76,940
Lipsett & Sinclair, Marquette	77,474
A. P. Wilson, Marquette	78,730
Foster Construction Co., Milwaukee	74,000
Northern Construction Co., Milwaukee	81,000

New Waterpower Project.
A new waterpower company is preparing to invade the Delta county field. Representing southern Michigan capitalists, E. E. Hatch of Pellston has secured an option on Boney falls, twenty miles north of Escanaba, on the Escanaba river, and it is expected that he will acquire the rapids shortly and will early commence their development. The water here drops twenty feet in as many rods. Mr. Hatch has served notice on the Escanaba board of public works of his intention to build a power plant in the municipal lighting plant, just as has the Escanaba Electric Power & Pulp company, which is developing the extensive waterpower at Flat Rock, on the Escanaba river. Cheap power generated from the river will be on tap within a few months, ample to operate all the machinery in the county.

The Escanaba river is one of the most important sources of power in the entire upper peninsula of Michigan. It is a swiftly-running stream of 100 yards or more in width, coursing through an unbroken wilderness, and in a distance of fifty miles to its mouth it drops about 500 feet. Here and there are falls and rapids—fully fifty of them—and now and then deep gorges through which the water attains truly marvelous momentum. The banks are high for most of the way, and generally are fringed with timber to the water's edge. Lumbering has been carried on in the region through which the Escanaba and its tributaries run for upwards of sixty-five years. In that time the forests have yielded more than a billion dollars' worth of products, and they are far from denuded yet. In fact, the company, which Senator Isaac Stephenson of Wisconsin is at the head of, owns 250,000 acres of land on and adjacent to the Escanaba and Ford rivers, and the bulk of it is timbered. It is true that there is comparatively little pine remaining, but in hardwoods alone the forests are ample to supply the L. Stephenson company's mammoth flooring plant at Wells, Delta county—the largest manufactory of its kind on the globe—for many decades to come. The Escanaba river is used in considerable part for the purpose of floating logs to the mills, located at the mouth of the stream, but the bulk of the timber is now conveyed to the saws by rail, the company owning and operating a standard gauge railroad—the Escanaba & Lake Superior, 160 miles long—running from Wells to a connection with the C. M. & St. P. line at Channing, Dickinson county.

LAKE SUPERIOR & ISHPEMING RY. MUNISING RAILWAY. MARQUETTE & SOUTHEASTERN RY.
TIME TABLE.
In effect June 9, 1907.
WEEK DAYS.
TRAINS LEAVE MARQUETTE
For Picket Lake, Buckros, Birch, Antlers and Big Bay.....8:50 am

SENTIMENTAL TALES ARE NOW IN DEMAND

COLD NIGHTS BRING INCREASED NUMBER OF VISITORS TO LIBRARY READING ROOMS.

HOURS ARE TO BE CHANGED

Miss Hewitt Provides Register for Strangers Who Visit Building—New Stacks Are Now on the Way.

Sentimental fiction of a slightly sensational order is now in demand at the library and books of this sort are the ones being asked for now nightly. Within the past week since the nights have grown cooler there has been a marked increase in the number of visitors in the reading room at the library and next month the hours when the library is open are to be changed. When the change goes into effect, the library will not close until 9 o'clock. It now closes at 8 o'clock evenings.

What They Read. Chambers' "The Fighting Chance" is a good example of the fiction now called for and most in demand. This story is a somewhat racy presentation of society life in New York. There is a love story with an indiscreet heroine and a hero with a bad habit. Besides this book, a number of the older ones of the same sort have awakened new interest and are being read.

The Magazines. Many of the readers are discovering for the first time how well equipped the library is in its magazine department. There are now nearly a hundred magazines on file covering every subject.

Recently many strangers have found their way into the library and for them a register has been provided. It is planned not only to keep a record of names but each person as he writes his name will be asked to make some written comment upon the library or upon the city. This register is one of the innovations introduced by Miss Hewitt, the librarian.

Stacks Coming. It is not yet definitely known when the new stacks will arrive, but it is believed that they will reach the city sometime before Oct. 1. The new stacks were ordered from the Art Metal Construction company of Jamestown, N. Y., and when they are installed, the shelf space will approximately be doubled. For the work it will be necessary to remove a number of chandeliers and make other minor changes which will not consume much time.

INCREASES HER LEAD. Miss O'Reilly's Supporters Plan Surprise—Notes of French Bazaar.

Miss Leah Pelletier, the representative of the French Catholic Church parish in the popularity contest at the French bazaar yesterday greatly increased her lead over Miss O'Reilly who represents St. Peter's parish in the contest, but it was said that Miss O'Reilly's supporters are preparing to send in an avalanche of ballots which, it is believed will place her far ahead of Pelletier.

The exact number of ballots each had received was not announced last night as no count had been completed, but it is estimated that Miss Pelletier's lead is something like 150 votes.

Tonight the Lady Foresters are to serve supper between 5 and 8 o'clock and, as a special invitation has been extended to the Knights of Columbus to attend the bazaar this evening, today has been called the K. of C. day. Thursday afternoon the bazaar will be turned over to the children and the young people are to be amused in various manners. The Marquette band will play again tonight at the hall.

Saturday will be Hibernian day at the bazaar. The Hibernian reunion will take place in the city on that date and invitations to the visitors and to the local members of the Ancient Order of Hibernians to attend have been prepared. A chicken supper from 5 until 8 o'clock will be given Saturday evening and the bazaar will close Saturday night.

RATES TO COUNTY FAIR. Fare and a Fifth Round Trip Fare from All Points on South Shore.

All the Marquette railroads will run excursions during the week of the county fair. Recently it was announced by the South Shore that the round trip rate from any point on the system would be a fare and a fifth. The following are round trip rates announced by the Lake Superior & Ishpeming railway, the Munising railway and the Marquette & Southeastern railway. Tickets will be on sale for all regular trains of Sept. 3, 4, 5 and 6, and are good returning until Sept. 12.

Ishpeming and Negaunee. \$.50
Munising, Chatham and Rumely. 1.00
Princeton, Little Lake, Carlsberg and Lawson. 1.00
Selma and Skandia. 75
New Dalton and Valmer. 75
Mangan and Green Garden. 75
Big Bay. 1.00
Birch. 75

If one man sells to another a farm, a stock of goods or a house, the world receives no increase in its wealth, for the values have merely changed hands. But the gold, silver and copper dug out of the earth's depths, are so much added to the available wealth of the world. It is clean money. As you go in Stafford's drug store examining the specimens of ore in the window. Then look up the record of The Grand Traverse & Arizona from whose lands it was taken. (8-22-1f)

THE BEST SHINGLES. We manufacture the best shingles made. Our extra "A" cedar shingles are what you want. Let us give you an estimate on your building material. F. W. SAMBROOK & SON. (8-5-1f)

LOSES RACE WITH DEATH.

Ward of Dr. Anderson Succumbs to Lung Trouble at St. Luke's Hospital.

Miss Rosa Sieberson, the 16-year-old ward of Dr. M. W. Anderson of 325 East Arch street died yesterday afternoon at St. Luke's hospital after an illness of six months. The cause of her death was lung trouble.

Miss Sieberson's former home was near Skandia and she was an orphan. It was two years ago when she came to Marquette and made her home at the Anderson residence. She was in school until last March when the disease which caused her death first appeared. In July last, Mrs. Anderson left the city for a visit in Minneapolis and while she was away, the young woman was visiting relatives near Skandia.

A week ago she was brought to the hospital and Monday night Dr. Anderson was told that she could not live many hours longer as she was sinking rapidly. He wired to Mrs. Anderson and left to meet her at Duluth hoping to be able to return to the city before the girl died. Dr. and Mrs. Anderson did not arrive in the city until early this morning. The arrangements for the funeral have not yet been made.

ELECTION MAY HAVE ONLY ONE CANDIDATE

ANNUAL MEETING OF SCHOOL DISTRICT TO BE HELD MONDAY AFTER COUNT OF BALLOTS.

The election to fill the vacancy on the school board is to be held next Monday and it now appears that there will be but one candidate whose name will appear on the ballot. The vacancy was caused by the expiration of the term of Dr. H. J. Hornbogen and he is seeking re-election, the only candidate so far announced.

As nominations can only be made by petition signed by fifty qualified electors and as petitions must be filed with the board of school trustees at least five days before the election, tomorrow will be the last day when petitions may be filed, and as no one has announced himself as a candidate, it is said that it is improbable that any petition will be filed. The fact that only one candidate's name will appear on the ballot will in no way affect the election which will be held in any event.

Only about a dozen voters registered Saturday when the registration board was in session, but it was not expected that many would appear before the board, as most of the qualified voters are already registered. At a recent meeting of the school board the unpaid bills were audited and allowed and preparations to close the books and have them in readiness for the annual report were made. As soon as the ballots are counted next Monday the annual meeting of the school district is to be held at the city hall and the report is to be made at this meeting.

MARQUETTE MAN IS GIVEN A PROMOTION

WISCONSIN AND UPPER PENINSULA TERRITORY DISTRICTED BY INSURANCE COMPANY.

Marquette has now become the northern peninsula division headquarters of the Northwestern Mutual Life Insurance company, and P. C. Teple has been named general agent of the division. The change is a promotion for Mr. Teple as it greatly enlarges his territory. The entire field of Wisconsin and the upper peninsula has been redistricted but the actual boundaries of each district have not yet been announced.

Formerly the entire state of Wisconsin and the upper peninsula of Michigan always have been managed directly by the Northwestern Mutual Life from the Milwaukee office, and the change to the new means a radical departure from the manner in which the company handled the \$80,000,000 worth of insurance in force in this territory.

The Wisconsin-Michigan district has been divided as follows: Northern peninsula division, with headquarters at Marquette, Mich., with P. C. Teple, general agent. Western division, with headquarters at Laurain, Mich., with M. E. O'Brien of Calumet, general agent. Southern division, with headquarters at Escanaba, N. E. McLaughlin, general agent. Central division, with headquarters at Madison, L. W. Elkslesky, general agent. Eastern division, with headquarters at Sbergoigan, with Gus Schrage, general agent.

Northern central division, with headquarters at Oshkosh, D. N. Cameron, general agent. The seventh district will include only Milwaukee and Waukesha counties. The general agent for this district has not yet been selected.

Superintendent of Agents Henry F. Norris last night said: "The general agent for the Milwaukee-Waukesha district has not been appointed. The completion of details regarding the other divisions will occupy several days, and to general agent will be appointed for this district for a week or ten days."

The change in the administration of the business has been contemplated ever since the death of D. E. Murphy in 1901, and it would have been made eventually had Mr. Surles lived. His sudden death hastened the action of the company in making the changes.

STOP THE LEAKS. Now is the time. That is our business. The best shingles for the least money. Consolidated Fuel & Lumber Co. Both 'Phones. (4-27-1f)

If you want to make big money do not buy a dividend payer; the price has then advanced to its highest point; buy while the company is developing and thus reap all the benefit of advance in price. The Grand Traverse & Arizona furnishes you the opportunity now. See ore in Stafford's window, as you go in, from shaft No. 3. (8-22-1f)

Show the substitute that you have a mind of your own by getting what you ask for.

Jacob Rose "The Store of Quality" Marquette, Mich.

Our Annual \$15 SUIT SALE

Will continue but the remaining days of this month. We still offer a varied selection formerly priced \$20 and upwards to \$30 at above price.

TO CONTRACTORS. BIDS WANTED.

The undersigned will receive bids until September 5th, at his office, room 400, Savings Bank building, Marquette, Mich., where plans and specifications may be obtained for the erection of a frame boiler and engine house building, also a double track coal trestle, at shaft No. 2, Mary Charlotte Mine, Negaunee, Mich. H. E. KAUFMAN, Vice Pres. Mary Charlotte Mining Co. 8-21-1w

For Sale.

Half a million feet of dry pine, four miles northwest of Princeton, on Sec. 4, Town, 45, Range 26.—The Escanaba river runs through this land. Enquire of PHILLIP J. HOGAN, Negaunee. (8-28-1w)

OIL PAINTING IS FOUND BY WANT AD

PRIZED CANVAS EXECUTED TWELVE YEARS AGO IS TO BE RESTORED TO ITS OWNER.

Henric Johnstone two weeks ago lost an oil painting which he prized highly and after making every effort to find it himself, he tried the experiment of publishing a want ad. Tomorrow the painting is to be returned to him.

The picture has a unique value for it was executed by Mr. Johnstone when he was a boy of twelve, though it appears to be the work of a mature hand and has been pronounced a production of merit. It is a canvass about 30 inches by 18 and represents a winter moonlight sea scene. In the background is a light house on an island showing the yellow glow of the light, and near it is a small boat with sails set. The central figures of the picture are a woman with an infant and a young boy. She is standing on a pier watching the preparations for the departure of a small sloop moored to the pier, evidently saying farewell to a mariner hoisting a sail of the sloop.

Mr. Johnstone, who is a former Marquette resident, now lives in Alaska, and was visiting at the home of Mrs. Charles Schaffer two weeks ago when the painting was lost near L. S. & I. depot. It had just been presented to him by a relative who had kept it during the twelve years of his absence. It was found in the middle of Lake street near Washington street by Fred Herlick, who brought it to The Mining Journal office after he had read the want ad in The Mining Journal. Fortunately the canvass had been well wrapped in newspaper and the painting had suffered no damage in the two weeks that it has been exposed to the weather.

ALL HAVE JOBS.

Students Who Came to Marquette With Prof. Seaman Obtain Employment. The post-graduate field work that fourteen students of the Michigan College of Mines of Hancock have been doing in the upper peninsula under the direction of Prof. A. E. Seaman is finished and all of the fourteen. It is announced, have obtained positions in the iron country. Their work in the mining districts began about a month ago when they came to Marquette with Prof. Seaman.

The young men who composed the party are: J. Barr, D. Cayen, J. R. Dallas, J. Erditz, J. Drake, F. Glass, P. Hines, H. Botsford, L. Ives, Arthur Fox, H. Perkins, J. J. Williams and R. G. Halter.

SCHOOL ELECTION. Notice is hereby given that the annual election of the trustees of the public schools of the City of Marquette, will be held on Monday, Sept. 2nd, 1907, at the city hall, said city, at which election one of the school trustees will be elected for the term of three (3) years.

The polls of said election will be open from 8 o'clock a. m. until 8 o'clock p. m. of said day.

The annual meeting for said public schools will be held at the city hall on said day, at 8 o'clock p. m., for the transaction of such business as may lawfully come before said meeting.

By order of the Board of Education Public Schools City of Marquette. Dated Aug. 12, 1907. H. J. HORNBOGEN, Secretary.

Marquette Opera House Saturday, Aug. 31

Spencer & Aborn present the great emotional drama

A WIFE'S SECRET

Now in its fourth successful season. A beautiful story, told in powerful melodramatic style, with laughter and tears cleverly blended.

ALL HAVE JOBS.

Students Who Came to Marquette With Prof. Seaman Obtain Employment. The post-graduate field work that fourteen students of the Michigan College of Mines of Hancock have been doing in the upper peninsula under the direction of Prof. A. E. Seaman is finished and all of the fourteen. It is announced, have obtained positions in the iron country. Their work in the mining districts began about a month ago when they came to Marquette with Prof. Seaman.

The young men who composed the party are: J. Barr, D. Cayen, J. R. Dallas, J. Erditz, J. Drake, F. Glass, P. Hines, H. Botsford, L. Ives, Arthur Fox, H. Perkins, J. J. Williams and R. G. Halter.

SCHOOL ELECTION. Notice is hereby given that the annual election of the trustees of the public schools of the City of Marquette, will be held on Monday, Sept. 2nd, 1907, at the city hall, said city, at which election one of the school trustees will be elected for the term of three (3) years.

The polls of said election will be open from 8 o'clock a. m. until 8 o'clock p. m. of said day.

The annual meeting for said public schools will be held at the city hall on said day, at 8 o'clock p. m., for the transaction of such business as may lawfully come before said meeting.

By order of the Board of Education Public Schools City of Marquette. Dated Aug. 12, 1907. H. J. HORNBOGEN, Secretary.
