

PROMINENT MEN IN LAW'S MESHES

Four Leading Officials and Politicians Are Indicted at Allegheny, Pa.—One a Member of the State Senate.

Charges Against Them the Outcome of a Crusade Waged by the Voters' Civic League, Productive, It Is Alleged, of the Discovery of Wholesale Frauds in the Issuance of Tax Receipts, and Many More Indictments Are Said to Be Booked.

Pittsburg, Sept. 5.—Attorney Palmer S. Chambers, who has had charge of the collection of evidence for the Voters' Civic League in the alleged tax receipt frauds, announced today that there would be 200 additional indictments drawn in these cases. He said that these will include men as prominent as those already under indictment.

Yesterday there were returned by the grand jury indictments against four prominent politicians of Allegheny. These men are: Elliott Rodgers, member of the state senate of Pennsylvania; and former judge of the common pleas court; Samuel G. Grier, director of the department of safety of Allegheny; William H. Hoge, member of Allegheny council; and William Lamb, a leading Allegheny politician. There are separate indictments against each on the charge of misdemeanor and a fifth charging them jointly with conspiracy to aid and abet a misdemeanor.

Conspiracy Charged. In the indictments are allegations of conspiracy to procure false registration and fraudulent voting, and conspiracy to issue fraudulent tax receipts. The charges, it is said, are based upon the November election of 1906 and are the outgrowth of a crusade waged by the Voters' Civic League of Allegheny.

All of the accused went to the courthouse and were held in the sum of \$25,000 each. The indictments are what are known as presentments, bills presented to the grand jury without the formality of an information. They are drawn first by the district attorney, then presented to the court for permission to present them to the grand jury.

Bogus Receipts Flouted. Several months ago the Voters' Civic League employed lawyers and detectives to gather evidence, and it is claimed that about 700 or 800 affidavits were secured from parties who used the alleged bogus tax receipts, which they claimed were given by men identified with political affairs in Allegheny. When the evidence had been collected the league transferred the matter to the district attorney.

NOTED POLITICIAN INSANE. "Florrie" Sullivan Taken to Bellevue Hospital by a Nurse. New York, Sept. 5.—"Florrie" Sullivan, noted politician, was taken to Bellevue hospital yesterday and placed in the psychiatric ward for observation. He was led to believe he was to be taken for a drive, and after bidding goodbye to his mother, with whom he lives alone, he left the house and entered the carriage with Mr. Levine and his brother. Mr. Sullivan grew angry when he realized that he was being placed in Bellevue, and he started to fight. He tore Dr. Hammond's necktie and shirt, and sent the attendants who came near him howling on the floor. He was finally overpowered and thrown from his feet, and was taken to the psychiatric ward.

BRYAN TO INVADE THE EAST. Crippling of the Tammany-Heard Alliance His Reputed Object.

New York, Sept. 5.—To cripple the Tammany-Heard alliance, the friends of W. J. Bryan have induced the Nebraskaan to make a speech-making tour of the state in October. He will deliver a series of addresses under the auspices of the Progressive Democratic league, which hopes to force the Democratic state convention to send a solid Bryan delegation to the national convention next year. The Tammany-Heard candidate before the convention will be Lieutenant Governor Chandler.

TO STAMP OUT THE PLAGUE. Marine Hospital Service Assumes Charge of the "Frisco Campaign."

Washington, Sept. 5.—By direction of President Roosevelt the public health and marine hospital service has assumed charge of the measures to stamp out the plague in San Francisco. This step was taken upon the request of the mayor of San Francisco, who added that the city would do all possible toward providing funds to carry on the work.

WHITE HUCKLEBERRIES NOW. Schuylkill Haven, Pa., Sept. 5.—White huckleberries, in sharp contrast to the usual deep blue color of the berries, are being found on the mountains in this vicinity. It is believed that the change in color was caused by the cool weather of the spring. The white berries are declared to be as sweet as sugar and more luscious than the ordinary kind.

MERCHANTS AID MATRIMONY. Marysville, Kan., Sept. 5.—The merchants of Emmett, a new town south-west of here, are offering presents of

furniture to couples under twenty-five years of age who will marry before Jan. 1, 1908, and settle within the town limits. Emmett is prospering, has a good bank, a newspaper, and a new school house, but it needs more citizens who will increase the population by natural methods, hence the offer.

PRESIDENT CONGRATULATES

Big Record of Work Done at Panama Surprises and Pleases Him.

Oyster Bay, N. Y., Sept. 5.—The president today sent a cable message of congratulation to Colonel Goethals on the progress made upon the Panama canal during the month of August, as follows: "I heartily congratulate you and all the men on the canal for the extraordinary amount of work you have made during the month of August. As this is the height of the rainy season I had not for a moment supposed that you would be able to keep up your already big record of work done, and I am surprised as I am pleased that you should have surpassed it."

FLEET NOT TO BE DIVIDED.

Both President and Naval Authorities Oppose the Proposition.

Washington, Sept. 5.—It is authoritatively stated at the navy department that President Roosevelt does not contemplate the creation of two battlefleet fleets. Nor does Secretary Daniels, nor the general board, which is supposed to represent the extreme view in naval development, favor either the division of the present magnificent fleet under Admiral Evans' command or the creation of another fleet in order that there may be a formidable American navy in both the Atlantic and the Pacific.

WILL REACH MANILA ON TIME.

Army Transport to Convey Taft and His Party from Nagasaki.

Washington, Sept. 5.—A two days delay announced in the schedule of the departure from Seattle of the steamship Minnesota, which is to transport Secretary Taft and party to the Orient, will not interfere with the time of the arrival of the party in Manila nor the secretary's plans to preside at the session of the first Philippine assembly. The war department has planned to have the army transport McClellan take on the party at Nagasaki instead of at Hong Kong, and proceed directly to Manila.

FEARFUL OF COAL FAMINE.

Commissioner Lane Confers With Railroad Representatives at St. Paul.

St. Paul, Minn., Sept. 5.—Franklin K. Lane, of the interstate commerce commission, was in St. Paul today, conferring with representatives of the Western railroad lines in respect to the coal and grain transportation situation, and the danger of a possible repetition of the shortage and car congestion of a year ago.

BROKERS SUSPEND

FAILURE OF WATSON & CO. IS ANNOUNCED.

Receiver Takes Charge of Big Minneapolis Concern With Offices in New York, Duluth, Hot Springs and Winnipeg. New York, Sept. 5.—The failure of Watson & Co., grain and commission brokers, was announced on the New York Stock exchange yesterday. It is understood that the firm has been very active in the trading in Northwestern railroad stocks lately. The firm is composed of J. Lewis Watson, stock exchange member; Henry P. Watson, II, W. Jones and G. E. Anderson. It has branch offices in Duluth, Hot Springs, Minneapolis and Winnipeg. W. Frank Newton has been appointed receiver for the firm.

SAID PATRONS WILL NOT LOSE.

Minneapolis, Minn., Sept. 5.—H. P. Watson, of the Watson Brokers company, stated here tonight that firm would resume. He refused to make an extended statement, but said positively that the concern would resume, and no one would lose a cent. The firm has been one of the most progressive in the brokerage business, and was the first of the Minneapolis companies to open an office on Wall street and purchase a seat on the New York Stock exchange.

EIGHT-YEAR-OLD BOY IS RULER.

King of Annam Abdicates in Favor of His Small Son.

Paris, Sept. 5.—The governor general of Indo-China declares that Thanh Thai, the deposed king of Annam, has abdicated in favor of his eight-year-old son, who now rules Annam with the aid of the regency, consisting of the council of ministers. Thanh Thai was deposed by the French president of Annam and interned in his palace at Hue July 30 last. This step on the part of the French authorities was taken only after a long series of atrocities committed by the king had made it impossible for him longer to remain on the throne.

GOVERNOR HUGHES THE CHIEF SPEAKER

New York's Monument to the Memory of William McKinley Is Dedicated in the City in Which He Met His Doom.

Eulogizing the Life and Services of the Martyred Leader, State Executive Declares the Assassin's Blow Aimed at American Institutions, Represented in the Head of the Nation, and the Victim Fell Simply Because He Was the President.

Buffalo, N. Y., Sept. 5.—Governor Hughes was the chief speaker at the ceremonies attendant upon the dedication of New York's monument to William McKinley today. The monument is a stately white marble, eighty-five feet high, surrounded by tasselled promades, ornate parapets and balustrades and splashing fountains. On its base is inscribed the dead president's war and official record and an account of his assassination.

"Here was marked the tragic termination of a great career," said Governor Hughes. "Here in an awful moment were revealed the opposing forces whose conflict is the history of mankind. At a time of rare prosperity, when American industry and commerce were celebrating their triumph, the powers of darkness moved to their attack, and in a frenzy of hate an abject creature struck down the foremost and best loved of American citizens. Never a More Dastardly Deed. Never did evil commit a more dastardly deed. The victim was the chosen representative of the American people, no less representative in his death than in his life. The assassin's blow was aimed at American institutions represented in the head of the nation; and McKinley fell because he was our president. In memory of his martyrdom, in memory of a heroic death, in testimony to the utility of incense and order—the lasting supremacy of law and order—in memory of a worthy life crowned by its sad sacrifice, this monument has been erected. The vitality of democracy may be measured by the generosity of its tributes to fidelity and its appreciation of honorable motive and pure spirit. The people must have faith in themselves. Cynicism is a destroying canker, and in proportion as we reverse those who in the past have borne the burdens of the people, gratefully recognize our indebtedness to their service and profit by the lessons of their example, shall we prove our capacity to meet the demands and solve the problems of a later day."

NOT SIGNIFICANT, THEY SAY.

Just Happens That Many Railroad Heads Are Together in New York.

New York, Sept. 5.—There are many railroad presidents in New York at present from all parts of the United States, and this has given rise to reports in the financial district that the heads of the various systems would meet to plan action on the two-cent rate laws and other propositions now before the public. This has been denied by the railroad officials, who say that an unusually large number of board meetings is scheduled for the immediate future, and that they expect to attend them. Among the presidents who are here are A. B. Stickney of the Chicago Great Western, Edward P. Ripley of the Santa Fe, James T. Hill of the Great Northern, James T. Harahan of the Illinois Central, and Albert J. Earling of the Milwaukee.

WANT THE INTEREST PAID.

Bondholders to Sue the Central of Georgia Railroad.

New York, Sept. 5.—Legal action to compel the Central of Georgia to pay interest on all three classes of bonds issued by the Central of Georgia will be started soon. A committee of the bondholders will meet tomorrow to draw up the papers in the suit. The annual report of the road for the fiscal year ending June 30 has just been issued, upholding the action of the directors in passing entirely the interest on the third class of income bonds and paying only a part of the interest on the second class bonds. It is stated that the income amount shows a surplus of only \$55 after the payment of interest. The bondholders allege that the books of the road have been wrongly kept. The Central of Georgia recently passed into the control of Oakleigh Thorne and Marsden J. Perry.

INFANTILE PARALYSIS GERMANO PUTS DOCTORS IN A QUANDARY.

New York, Sept. 5.—Infantile paralysis, as the learned physicians call it, is the subject of a scientific investigation begun in this city by medical experts. When and where the investigation will end is not even guessed at now by the bacteriologists who are at work on the problem, for they are quite uncertain what the germ looks like, or when it comes and whether it goes. The hint was brought about by epidemics of infantile paralysis, which have occurred in several localities within a radius of 200 miles of New York. The disease even now is prevalent in this city. Several hundred cases are under treatment here. While infantile paralysis does not often prove fatal, it is one of the most serious of diseases, because it usually leaves the patient a cripple for life.

NOVEL PLAN TO BOOST SUNDAY SCHOOL ATTENDANCE.

Trenton, N. J., Sept. 5.—Edward W. Dunham, a leading merchant, has adopted a novel plan to increase attendance at the Third Presbyterian Sunday school, which he is the superintendent. Hereafter he will name a reception committee for each Sunday's session for the purpose of shaking hands and welcoming all comers. The prettiest girls in the school will be placed on the committee and a rush of young men to the school is anticipated.

SINGING QUELLS PANIC

Wild Rush from Illinois Theater Stopped by Cool-Headed Action of Stage Folks.

Kankakee, Ills., Sept. 5.—A thousand people were thrown into a panic last night when the film of a moving picture machine caught fire in the Bijou theater. Taking in the situation at a glance, all the actors came on the stage and sang thus calming the big audience, which was fighting in its rush for the exits. When the flames broke out women and children were pushed aside by the men in the rush for safety. Suddenly across the sound of the drama. The player took off "Dearie" as fast as his fingers could move, and the entire company came out on the stage and commenced to sing. No one was injured during the panic, although several women fainted. The flames were soon extinguished.

TRUE RUSSIANS AT ODESSA CEASE THEIR BLOODY WORK.

Odesa, Sept. 5.—The anti-Jewish disorders which have been in progress here for several days have practically stopped, thanks to the timely intervention of Governor General Glagoleff, who has issued a proclamation announcing that excesses will not be tolerated.

FIFTY LIVES REPORTED LOST IN AVALANCHE IN CHILI.

Santiago, Chili, Sept. 5.—Fifty persons are said to have been buried alive by a vast avalanche of snow that has run down the mountainside and obliterated the Chilean custom house at Frontera. This station is on the Argentina frontier high up in the Andes.

BASEBALL

STANDINGS OF THE CLUBS.

GAMES PLAYED YESTERDAY.

Table listing National League and American League games played yesterday, including Cincinnati at St. Louis, Boston at Philadelphia, Detroit at Cleveland, Washington at Boston, New York at Philadelphia, Philadelphia at New York, Chicago at Pittsburgh, Detroit at Cleveland, Washington at Boston, New York at Philadelphia.

PARIS APPREHENSIVE.

Paris, Sept. 5.—Prospective of the continued fighting at Casa Blanca, the seriousness of the general situation in Morocco and the possibility of its leading France into diplomatic difficulties with other powers of Europe, notably Germany and Great Britain, to say nothing of the apparently growing necessity of increasing the size of the French force on the Moroccan coast, is occupying the attention of the French people.

HOLY WAR THREATENED BY PRETENDER.

Yesterday it was stated that the cabinet had considered a proposition made to General Druide by Muley Hafig, that if the signatories of the Algerian convention recognize Muley Hafig as sultan he will undertake to restore order. Muley Hafig asked a pledge of good faith that the powers permit him to have the arms and ammunition which are detained at Mogador, and said if his proposition was not accepted he would preach a holy war. After conferring with Marine Minister Thomson and Foreign Minister Pichon, Premier Clemenceau this afternoon issued a note which did not mention the fact that the government had any intention of sending further reinforcements to General Druide. M. Clemenceau said: "No decision has been arrived at with reference to the rifles and ammunition stored at Mogador, but we have reasons to believe that neither Abdel El Aziz nor Muley Hafig intend to make war against France. The efforts made by some Spanish merchants to organize a police force at Casa Blanca have already been fruitful, as many Moors have been recruited who are willing to serve in a police force under European officers."

SUIT FOR \$500,000 FAILS.

Boston, Mass., Sept. 5.—A verdict for the defendants, Henry H. Rogers and Charles Pratt of New York, has been given by Auditor Winfield S. Slocum in the supreme court in a suit brought by Cadwallader N. Raymond of Somerville to recover \$500,000 alleged to be due as royalties for the use of a process for rendering petroleum and its products non-explosive.

NEW SLAUGHTER AT CASA BLANCA

Hundreds of Moslems Mowed Down by a Withering Fire in the Ninth Unsuccessful Attack on the French Forces.

Reinforcements of Arabs Continue to Stream in from the Interior, and Meanwhile the Increasing Seriousness of the General Moroccan Situation Causes Growing Apprehension in Paris—Trouble Is Feared With Other Powers, Notably Germany.

Madrid, Sept. 5.—The ministry of the marine announced today that a squadron of Spanish warships would be sent to Cadiz to be near Morocco for possible eventualities. The ministry of the marine issued a statement today to the effect that the troops composing the garrisons of the southern cities of Spain have been notified to hold themselves in readiness to depart for Morocco at a moment's notice.

ARABS MOBILIZING IN BIG FORCE.

Tangier, Sept. 5.—Native advisers received here from the vicinity of Casa Blanca say that 20,000 hostile Moors have concentrated near Tadjert and Lattell, and 10,000 Kalytes have mobilized near Alcazaba. The bandit Raisuli is camped fifteen hours' march from Tangier, with his forces, but is not showing any sign of a hostile movement. Yesterday, again for the ninth time, the tribesmen at Casa Blanca attempted to drive the French troops from their positions. The engagement lasted nearly six hours and resulted, as have all the others, in the rout of the Moslem warriors. The Arabs lost fully 500 men killed and probably 1,200 wounded. The Moors attacked with the largest force they have yet mustered. They charged again and again in the face of the withering fire. The French had six men killed and twenty-seven wounded.

SIX THOUSAND MOORS IN FIGHT.

About 6,000 Moors participated in the fight. The Moors, who were repulsed on all sides, made a most impressive picture as, garbed fantastically, mounted on white horses, and carrying their banners in the front line, they swept down from the hills in splendid formation and charged thunderously to within about 400 yards of the French camp, which for a moment seemed to be in danger of being overthrown. As they advanced the Moors chanted in unison verses from the Koran.

The irregular Algerian cavalry encountered the first shock of the Moors' attack, without yielding a foot from their position they occupied. General Druide quickly employed his forces to the greatest advantage, and the Moors were submitted to a fire of shot and shell which soon left the ground strewn with corpses.

RIOT IN 'FRISCO

San Francisco, Cal., Sept. 5.—Another riot resulting from union labor troubles occurred in the Mission district today, but it was quickly quelled by the police after several arrests had been made. A large number of structural iron workers returning from the funeral of a man who had been killed by a falling beam, were in the streets when the riot broke out. The rioters, who were mostly men of the Mission district, were seen to be carrying a concealed weapon. One passenger, Mrs. C. L. Gage, was struck in the face by a stone.

LABOR TROUBLES LEAD TO MORE DISORDER.

Street Cars Attacked by Union Men Returning from the Funeral of a Slain Associate, a Lively Scrimmage Follows. San Francisco, Cal., Sept. 5.—Another riot resulting from union labor troubles occurred in the Mission district today, but it was quickly quelled by the police after several arrests had been made. A large number of structural iron workers returning from the funeral of a man who had been killed by a falling beam, were in the streets when the riot broke out. The rioters, who were mostly men of the Mission district, were seen to be carrying a concealed weapon. One passenger, Mrs. C. L. Gage, was struck in the face by a stone.

SUICIDE SUSPECTED.

Body of Man Who Carried \$100,000 Insurance Is Ordered Exhumed. Topeka, Sept. 5.—Federal Judge McPherson has issued an order providing for the examination of the body of the late Lucien B. Perkins of Lawrence, Kan., in the suit brought by the Mutual Life Insurance company of New York, in which company Perkins held a policy for \$100,000. His heirs brought suit against the company to compel payment of the policy. The insurance company alleges to have the stomach examined for traces of poisoning, holding that Perkins committed suicide.

STREET RAILWAY MEN TO STRIKE IN LOUISVILLE.

Louisville, Ky., Sept. 5.—The executive committee of the local organization of the Amalgamated Association of Street Railway Employees decided this afternoon to recommend a strike of all employees, beginning tomorrow morning. A final vote will be taken late tonight, but a strike seems a foregone conclusion.

LIVES ARE LOST IN HOTEL FIRE

Big Hostelry of Frame Construction Is Destroyed at Shelton, Wash., at an Early Hour in the Morning.

Tacoma, Wash., Sept. 5.—Fire destroyed the Webb Hotel at Shelton, twenty miles from Tacoma, last night. It is reported that fifteen persons perished. Ten are known to be dead, Miss Bailey and Mrs. Mudge, both of Shelton, are known to be among the lost. All the other victims are believed to be men. Seven bodies have been recovered. The fire was discovered about 1:40 o'clock this morning. Within a few minutes the hotel was a mass of flames. Dozens of persons risked their own lives to help bring out the unfortunates within the burning structure.

AWAKENED TO FIND THEMSELVES HEMMED IN BY FLAMES AND ENTIRELY CUT OFF FROM THE STAIRWAY, PERSONS IN THE UPPER STORIES SEEK TO ESCAPE BY JUMPING FROM THE WINDOWS—TEN ARE KNOWN TO BE DEAD; FIFTEEN MAY HAVE PERISHED.

The hotel occupied the corner of a block in the center of the city that was solidly built of frame structures. The persons in the upper stories were entirely cut off from the stairway, and at least seven or eight jumped from the windows before help could reach them. Seven bodies have been recovered. The fire was discovered about 1:40 o'clock this morning. Within a few minutes the hotel was a mass of flames. Dozens of persons risked their own lives to help bring out the unfortunates within the burning structure.

CARRIAGES WILL COST MORE.

Makers Form an Association and Raise Prices to Per Cent. Indianapolis, Ind., Sept. 5.—Carriage manufacturers of Ohio, Michigan, Indiana and Illinois have formed an organization, to be called the National Association of Carriage Manufacturers, the purpose of which is, as stated, to control the prices of their product. An advance of 10 per cent to the trade has already been declared. Those at the head of the organization declare the advance is made necessary by the high prices of raw material and other factory costs.

WHISKY USED TO IRRIGATE LAWS OF OHIO CHURCHES.

Cleveland, Sept. 5.—Not the dew of heaven but the contents of rum bottles from the village "speakeasies" was sprinkled on the lawns of the churches in Collinwood, a small suburb near here, yesterday. The good church people busy with search warrants, Collinwood is dry. The church people found, however, that some succeeded in obtaining liquor in the village. Fifty places were found where intoxicants had been stored for sale. About 100 cases of beer were confiscated besides innumerable bottles of whisky. The wet goods were hauled through the streets in wagons and taken to the different churches, where the liquor was poured out on the lawns of the churches. Proprietors of the "speakeasies" were arrested.

DECEMBER-MAY WEDDING TURNS OUT UNHAPPILY.

Wife Aged 17 Asks Divorce from Husband 73 Years Old. Chicago, Sept. 5.—Grotesque divorce situations broke all records when Circuit Judge Julian W. Mack called the case of Hazel B. Gardner, aged seventeen, against Frederick Gardner, aged seventy-three, of Thornton, Ills. Half a century's difference in age was proved to be an altogether impotent factor in preserving domestic tranquility. Tottling senility and the bloom of girlhood simultaneously showed the matrimonial pessimist that marriage is a failure, and that one cannot be either too young or too old to run badly astray, when he hitches his chariot to the flighty, whimsical Cupid. The girl-wife came out victorious in the preliminary skirmish, getting alimony of \$5 a week until the trouble is settled.

MADE BUREAU HIS BANK.

El Paso, Ills., Sept. 5.—Perry Dunmire, an armless farmer of this township, was married to Miss Mabel Shrock yesterday, and started on a honeymoon trip to Colorado. Not only is the bridegroom armless, but he is as well one of the most successful farmers in this part of the country. In a runaway accident several years ago Dunmire sustained severe injuries that necessitated the amputation of both arms at the shoulder. But Dunmire was not disheartened by this misfortune. Instead he proceeded to make his feet and hand compensations for the loss of his arms. He has succeeded so well that he can do practically all of the work incident to the conduct of a farm, in fact, some feasts that are almost beyond belief.

ARMLESS FARMER TAKES A BRIDE.

El Paso, Ills., Sept. 5.—Perry Dunmire, an armless farmer of this township, was married to Miss Mabel Shrock yesterday, and started on a honeymoon trip to Colorado. Not only is the bridegroom armless, but he is as well one of the most successful farmers in this part of the country. In a runaway accident several years ago Dunmire sustained severe injuries that necessitated the amputation of both arms at the shoulder. But Dunmire was not disheartened by this misfortune. Instead he proceeded to make his feet and hand compensations for the loss of his arms. He has succeeded so well that he can do practically all of the work incident to the conduct of a farm, in fact, some feasts that are almost beyond belief.

MADE BUREAU HIS BANK.

Sedalia, Mo., Sept. 5.—While cleaning and dusting an old bureau today Mrs. C. Mitchell found \$800 in silver tied up in shot bags at the home of her late brother, Garrett Bohon, who died a few weeks ago. Mr. Bohon had hidden the money in preference to putting it into banks. He neglected to tell his relatives of the disposition of his money.

Per month, by carrier, \$1.00  
Per year, by mail, \$10.00

**MARQUETTE, MICH., SEPT. 6,**

Entered as mail matter of the second class  
in the postoffice at Marquette, Mich.

What availeth a dozen policemen if they are where you can't reach 'em?

The canoe arrived. It came with the storm that put such a bad crimp in the first big day of the fair.

The district is waiting with interest to hear from Mr. Osborn of the Soo in regard to his reported candidacy for congress.

The Tigers have dropped back a round for another breathing spell. Next time they reach the top, the loyal fans tell us they will be there to stay.

The next time a secretary of the navy steps down, Assistant Secretary Newberry of Michigan is likely to step up. The assistant secretary has been engaged on important naval business all the past summer and his word has come to carry considerable weight in the department.

The state road commissioner's department has been asked for information as to its methods by California officials. California is to spend \$3,000,000 on good roads. And the Michigan legislature would only give the Hon. Horatio Earle \$270,000. It's even though to make Harro go west.

The race for the recordship is now on. The first convention has been called. Step up gentlemen. And how about the voting machines? They are in cold storage in the city hall. Can't we use 'em? Let's, for once, have an election that we can settle without the assistance of Judge Stone or the supreme court.

Mayor Webb of Crystal Falls, who was one of the leaders in the vigorous action taken in regard to the attempt of the Western Federation of Miners to establish its agitators in the Crystal Falls district, is being generally commended for his attitude. The Crystal Falls police men and many of the conservative miners have formed a vigilance committee to suppress agitators sent in from outside, and all emissaries of the Federation are assured of a warm welcome.

The Copper Country Evening News is not stampeded by the suggestion of another candidate than Mr. Young for nomination for congress in this district. "The district is not opposed to Mr. Young," it says. "A minority part of the Soo may think it is the whole district, but that is just a mistaken notion on its part. The district apparently likes the way Mr. Young has been attending to his duties, else we would have heard something to the contrary. Up this way all is quiet on the Potomac—at least it is so far."

Upper peninsula Republican politicians are now figuring on how to get two places on the state ticket next year. The Detroit News says, "Luther L. Wright, of Ironwood, being now on his first term, will certainly get one place." Certainly, Senator Fuller of the Thirtieth district for auditor general and Representative Stannard of Ontonagon for secretary of state are the other U. P. men mentioned in connection with the state ticket. As the nominees for the offices they are said to aspire to fill are named by convention they are within the grasp, all other conditions being favorable, of upper peninsula Republicans.

There has been some unjustifiable criticism of the police in connection with this week's murder. They were up and doing. That they were not notified earlier of the crime is due to large extent to the fact that the men who witnessed it appear to have lost their wits and not acted with decision. However, the crime again showed the necessity of having at least one policeman at headquarters, where people know just where to find him. Many have remarked this, and the public will have a legitimate cause for complaint unless the head of the department and the police commission rearrange the organization of the men to make it possible.

Marquette's high school building is only five years old, but it is too small. The seating capacity of the assembly room is 198. The enrollment last year was over 200, making necessary the rearranging of the first floor of the structure to get room for the overflow and the erection of an addition, over the boiler house, for the laboratories. This year on the first day of the high school enrollment was 224, which means that

all the available accommodations for seating students will be taken up. Next year, at the latest, there will be another overflow, though just how any more additions can be built cannot readily be seen. Obviously the building was not planned and built with sufficient thought for the future. An assembly room seating 350 or 400 students would have been one more in keeping with Marquette's possibilities for growth than one planned for 198 students. Negligence and lslpeming are both building for the future. They are wise.

Ex-Congressman Roswell P. Bishop is reported to be harboring a notion to go after the Republican nomination for congress again next year, says the Detroit News. James C. McLaughlin beat him out of the nomination last year, and James C., as a matter of course, will want another term. In the third it looks as if Congressman Gardner will have to hustle for a nomination as briskly as in 1906. Besides Col. O. A. James, Editor Dingley, of the Kalamazoo Telegraph, will be a candidate. Corrie M. Barre, of Hillsdale, and ex-Lieutenant Governor Alfred Mines, of Coldwater, are also probable candidates against Gardner. In the fourth Senator James Horace Kinane is said to be ponderously thinking of trying to get the congressional nomination away from Ed Hamilton, Commodore Lord, in the tenth, already has three candidates against him—Lem Defoe, of Alpena; Senator Fred Ming, of Cheboygan; and Senator Frank Edinborough, of Hay City—and he is a bit uneasy. The commodore works harder on the Washington job than any other member of the Michigan delegation. So far the congressmen in the other eight districts seem to have clear sailing for renomination.

**ANENT POLICE PROTECTION.**  
In connection with the cold blooded murder in Marquette this week there has been much comment regarding police protection. The crime was in many ways the strangest ever committed here. There was, it is reported, a delay in getting the services of a physician and the aid of the police that for the one thing made death of the victim certain and the "get away" of the murderer complete. It is an astounding piece of information that the latter, after the commission of the crime, returned to Goethe's place twice, only to be kicked out into the world by the unsympathetic crowd. The explanation given is that it was not realized that the injured man's wound was fatal. But it is hard to understand how a wound which caused death in three days was so underrated. With so many strange and unusual features, the complete disappearance of the murderer and the lack of definite information as to the cause of the crime, it is little wonder it has led to much talk.

It is said that when the men present at the scene of the murder gathered their wits together a telephone message, and then others, was sent to headquarters to get a policeman, but that there was no response. Right here is found the lesson of the crime as far as police protection is concerned. The worst weakness of the police department in Marquette is inability to get a policeman by message or telephone when he is most wanted. In case of emergency it is necessary to run an officer down on the streets. In the business district it is usually easy to find one, but in the residence districts, where each policeman has to cover a "beat" comprising many miles of streets, it is like hunting for a needle in a haystack to try and find an officer quickly.

Many times in the past it has been commented that a man stationed in the headquarters at the city hall, whence he could be summoned quickly by telephone or by messenger, would be worth two or three men abroad on the streets, doing their duty, perchance, but whose exact whereabouts nobody knows. It has generally been recognized that such an arrangement, particularly at night, would greatly increase the efficiency of police protection, and ex-mayors and ex-city officials have frequently urged the matter on The Mining Journal, which has referred to it in print a number of times in the past, although it is sadly true that no definite results have followed.

Again attention is directed to the advisability of keeping a man in headquarters, whence he can be quickly summoned, instead of keeping the whole force on the streets where nobody in need of its services knows exactly where to find any of its number. Marshal Manning, we should think, has the power to introduce this innovation. If he has not, it certainly lies with the police commission. By taking the step suggested the police protection would be greatly improved and the people would be made to feel secure. If there had been a man at headquarters early this week the mysterious "Charlie" might now be behind the bars, a candidate for a sentence of life imprisonment, instead of being at large with no great likelihood that he will be taken.

**HUCKLEBERRY PICKERS.**  
Commencing Monday, August 5th, the M. & S. E. railway will put into effect a 25 cent rate for the round trip from Marquette to Eagle's Nest, (near Harlow's mill) and Eagle Mills, tickets on sale week days only, good for return day of sale.

Train for Eagle's Nest leaves Marquette at 8:50 a. m., arrives at Eagle's Nest at 9:20 a. m. Returning leaves Eagle's Nest 4:05 p. m., arriving at Marquette 4:50 p. m.

Train for Eagle Mills leaves Marquette at 9 a. m., arrives at Eagle Mills 9:36 a. m. Returning leaves Eagle Mills 4:40 p. m., arrives at Marquette 5:20 p. m.

These rates will give pickers a cheap rate to the huckleberry patches at Harlow's mill and Eagle Mills. (8-3-1f)

**Famous Chef**  
in a great metropolitan hotel noted for its fine desserts, says, "I am a liberal user of the genuine Kingsford's Oswego Corn Starch in making most of our delicate French pastries, muffins, and other dainty foods so much praised."

Every attribute to fine cooking may be yours if you but learn the magic benefits to be derived from the genuine

**KINGSFORD'S OSWEGO CORN STARCH**

Learn these secrets from two of America's most competent cooks by getting our free book of "Original Recipes and Cooking Helps." Contains much information new to the average housewife.

The genuine Kingsford's Oswego Corn Starch has been the standard of quality for over half a century—distinct for its purity, most nutritious, purest. Made for over fifty years at Oswego, N. Y. All countries, in pound packages, 10 cents.

**T. KINGSFORD & SON, Oswego, N. Y. NATIONAL STARCH COMPANY, Successors.**

**TEMPERANCE FINNS SANE.**  
Jacob Kaminen, of Ishpeming, one of the leaders of the temperance Finns in this region, and a man of much influence among the people of his nationality, has spoken in no uncertain manner regarding those of his countrymen who were arrested recently for violating the red flag ordinance in the city of Hancock.

An appeal has been made to the temperance Finns for financial aid to fight their cause, and an attempt has been made to persuade them that the cause of the red flag Socialists and the temperance Finns is a common one. Mr. Kaminen asserts that the reasoning employed to force this impression is a gross sophistry, denounces the excesses of the Socialists as against the interests of the natives of Finland in this country, and asserts, that the Hancock men will find scant support among the temperance Finns. "Not only that, but he asserts that the temperance Finns will as vigorously as possible combat their socialistic propaganda among the Finnish people.

Mr. Kaminen's position is dictated by a desire to see his countrymen take the most of their fine opportunities in America. He realizes that it would be fatal to the aspirations of the race in their new home to have it become accepted as a settled fact that they were devoted to such un-American ideas as form the basis of the Socialistic tenets and are shown by the employment of the red flag in their public demonstrations. Defiance of law, Mr. Kaminen realizes, will, whether the law is a statute of the nation or the state or an ordinance of the city, do much to bring his fellow countrymen into ill odor with native born Americans, who will, when all is said, finally determine their place in the industrial and social life of the nation. Respect for the law is the burden of Mr. Kaminen's plea.

The position of this Finn reflects credit on himself and marks him out as a safe and sane leader for his countrymen. If his leadership on this question is accepted and if the temperance Finns, who are numerous and influential in this region, show that they have no sympathy for socialism and anarchy they will do much to reassure the other elements in our population of the fitness of their race for American citizenship and a full participation in American affairs; and there is need for this reassurance for confidence in the political sanity of the Finns has been somewhat shaken by their part in the Mesaba range strike, the recent Hancock demonstration and a number of similar occurrences.

**INDIAN WEALTH FROM OIL.**  
The tremendous production from oil in the Glenn pool is making the Creeks Indians as rich as the Osages. A citizen ship in the Osage nation is now worth about \$25,000, but the Creeks are coming fast.

The average daily production in the Glenn pool is 125,000 barrels. Of this, 100,000 barrels go to the government, the Kansas City Times, the Indian owners of the land get 12,500 barrels, one-tenth. The oil is worth about forty-one cents a barrel. This gives the Indian lessors of the 10,000 acres comprising the pool \$125,000 a day. This amounts to \$1,727,625 a year. This is the royalty which is long as the oil is in the ground. Then there is the money for the lease and the bonus which frequently runs \$5 and \$10 and sometimes \$20 an acre. This is all profit for the Indians.

The Indian never gets the worst of it in the oil game, because the government, looks after him and sees that the bonuses and the royalties are paid when due. Further than this the government sees that the Indian gets the full benefit of the market price. It's the white man who is putting up his money to develop the country and make the Indian rich who has to stand all the chances of failure.

There are 120 Indian owners of the houses in the Glenn pool getting the \$1,727,625 a year. This makes an average of \$15,650 each on royalties alone. That is more money than a cabinet officer of the United States or a justice of the supreme court receives as salary. The beauty of it all is the Indian does not have to work to get the money. The Indian agent comes around and hands it to him.

Just for speculation a statistician was figuring the life of the Glenn pool with the life of other pools and he came to the conclusion that the money will be paid out to the Creeks in royalties before the pool passes the stage of marketable production. That will make every Indian rich. And the beauty of it is that the royalty is in the shape of an annuity on a monthly basis. The Indian cannot anticipate his royalties. He cannot sell them or make a contract to sell them. The government looks after that. All the Indian can do is to spend the money, and he can do that as well as anybody who ever lived.

**THE REVOLVER AS BEDFELLOW.**  
Accidents Which Have Come of Keeping Such Dangerous Company.

Men who sleep with revolvers under their pillows should be warned by the misfortune of John Bello, an Italian immigrant, who dreamed he was being robbed and shot two women and a man before he awoke.

Bello declares that while doing in his seat in a passenger coach he dreamed that a man with a white handkerchief over his face seized him by the throat to rob him. He fought for his life, threw off his assailant, drew his revolver, and began firing. At the point at which the revolver was drawn the dream changed into reality. A harmless tailor, sleeping in the next seat with a handkerchief over his face, was killed, and two women were badly wounded. Then Bello awoke. What is more probable than that, by some psychic suggestion, the dreaming mind might transform a tail-pipe or recumbent into a highwayman rampart, at the same time sending to the right hand a telephonic order to draw the revolver and pump hot lead into him?

Although despatches leave us in the dark upon that important point, it may be that Mr. Bello knew and owed a tailor of Genoa. In juxtaposition to an American tailor he fell into a troubled slumber, his spine describing the white curve of a fishhook. The tailor was dreaming of men who owed him various sums. By telepathy the thoughts of the tailor were communicated to the mind of the immigrant. In dreams ordinary men and things take exaggerated and terrible forms. Mr. Bello saw the tailor as a robber, slitting his throat, and the next suggestion that came to him was that he was armed and should protect himself. The tragedy naturally followed.

A great many nervous men sleep with pistols under their pillows or near the bedside. Not infrequently accidents have resulted. A well-remembered case was that of a lady who, having forgotten to wind the clock, crept out of bed to attend to that important duty. She was returning when her shin struck the round of a chair. She cried out in her agony. Her husband dreamed that a burglar was about to cut his throat. Seizing his pistol, he severely wounded the already sorely distressed partner of his sorrows. Accidents of this sort have occurred so

**The Cause of Many Sudden Deaths.**  
There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidneys poison-ed blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and the cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by using Dr. Kibner's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and cures pain in passing it, and over-comes that unpleasant necessity of being compelled to go often through the day, night to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it without cost by mail. Address, Dr. Kibner & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kibner's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

**Upper Peninsula**  
New Business Institution—  
Joseph Gibbs & Sons of Garden and Perkins, Delta county, are to invade the profitable field of the Menominee range. Plans have been accepted and a contract will be awarded at once for the construction of a large store building for the firm at Iron River. The building and site will cost approximately \$30,000 and it is expected that everything will be in readiness in the new field by Jan. 1. Gibbs & Sons, beginning with one small store at Garden a number of years ago, has grown to be one of the leading institutions of Delta county and the decision to invade the Menominee range field will be watched with much interest. The firm now owns one of the largest general stores of the range and in addition has a large store at Perkins. Both stores have proven successful business ventures. It is generally agreed that the Iron River district, which it is believed within a short time will develop into the principal iron producing district of the Menominee range, offers exceptional business openings.

**Court's Order Halts Gillette Case—**  
Cyrus Gillette, the Fort Brady soldier charged with manslaughter, he having killed Elizabeth Cadenhead while attempting to prevent the escape of a prisoner, was not arraigned in circuit court at the Soo this week, as a writ of habeas corpus issued by Judge Knappen, of the United States district court, was served upon Sheriff Lipsett by Deputy United States Marshal Eugene Mosher last evening. As the civil authorities still contend their right to hold the man and prosecute him in the civil court even though he has been once presented in the military court, this means that a habeas corpus hearing will be given in the United States court in Grand Rapids in the near future. Prosecuting Attorney Holton stated that he had not expected that habeas corpus proceedings would be instituted in this case and that therefore this move was no surprise to him. He also stated that, although he could do so if he chose, he would make no move to have Gillette arraigned or tried in the district court until the habeas corpus hearing in the United States court is over.

**Hay Pricers Scaring—**  
The hay question is receiving considerable attention at the Soo just at present. Chippewa county furnishes a large market with this product every year and the fact that the crop is averaging only about three-fourths when compared with other seasons is occasioning no little concern. This is taken to mean that hay will be scarce and the price high this winter. Many lumbermen who buy large quantities of hay each winter and who depend upon Chippewa county for their supply are beginning to figure seriously on the matter ahead. Some are making arrangements to buy right away before the prices go much higher and others are looking elsewhere. Team owners are getting rid of their teams and farmers are getting rid of their stock as fast as possible. It is figured that this will operate to make both horses and other stock cheaper this season. New hay is bringing \$15 and \$16 a ton in the city now and it is said to be bringing \$20 in Detroit. It is predicted by many who are in positions to best understand the situation that the average will reach \$25 per ton in the Soo this winter.

**Boy Drowns While Swimming—**  
Seized with cramps, Joseph Marotte, sixteen years of age, of Menominee, was drowned in plain sight of a score of youths, who, though seeing their companion vainly struggle in the clutches of his agonies, believed that he was slumping and allowed him to slowly sink to the bottom. His body was recovered two hours afterwards by a number of searchers who were notified as soon as the startling truth dawned upon the horror-stricken bathers. Accompanied by a number of lads, the youth left home and the entire party went to the swimming hole, where they were quickly disappearing in the water. Suddenly the Marotte boy, who was out slightly farther than the rest of his companions, threw up his arms and began to wildly thrash about at the same time emitting a piercing scream. Several of the older boys had been in the habit of slumping and drowning, and the group of swimmers immediately thought the lad was playing upon their nerves. But the drowning boy's strength quickly waned and though a strong swimmer, the cramps overcame him and with a gurgle his head disappeared. The companions, believing that he would stay under water for a moment, watched for him to rise but when he failed to appear they became alarmed. The stouter swimmers dove time and again to recover the body but failed to reach the bottom and the younger lads donned their clothing and summoned assistance.

**Attacked by Mad Bull—**  
As the result of being attacked by an infuriated bull, two people lie at the Delta county hospital in a serious condition. The victims are Mrs. Seraphine Kivi and Gustav Korvas, both of Wood-lawn, who escaped instant death from the mad thrusts of the bull's horns only by what appears to have been nearly a miracle. Mrs. Kivi was walking along the road near Woodlawn when she was attacked by the bull which had been allowed to run at large. The ferocious beast charged on the helpless woman several times striking her with his horns and hoofs. She was finally thrown to the ground unconscious and the bull was standing over her prostrate form pawing it viciously when Korvas, who had been attracted by the screams of Mrs. Kivi arrived on the scene. He at once attempted to drive off the bull and the animal at once turned on the young man. He was caught about the lower part of the body by the horns of the bull and thrown to the ground. He lay helplessly on the animal, believing with rage that he would be rescued. Several farmers who had been attracted by the cries of the woman and young man arrived on the scene armed with pitchforks and finally succeeded in driving off the bull. Both victims were unconscious when the rescuers arrived at the scene and they were carried to a nearby house where they were cared for until a physician could arrive. It was found by the physician that the woman had been the most seriously injured of the two victims. The bull's horn had entered the surface of one of her lungs and several ribs were broken in addition to numerous cuts and bruises about her body. The young man had sustained several severe punctures and cuts about the lower portion of the body.

You will always find two first-class barbers at the Nester block barber shop. 8-28-1f D. CRONKRIGHT.

**Diarrhoea**  
When you want a quick cure without any loss of time, and one that is followed by no bad results, use

Mr. and Mrs. D. Seidenfeld and Miss Bertha Seidenfeld, their daughter, returned last night from an eastern trip. They were accompanied by Miss Sadie Seidenfeld of Murray, O., who will visit in the city for a period.

The steamer Kappanhook, which broke her rudder in making this port last Friday night, completed repairs yesterday and cleared with one for Erie, for the harbor of Montezuma. The latter's cargo is destined for Ashabula.

Harry Culver left last evening for the University of Virginia, where he will enter the law department, to take a two-year course. The year before last Mr. Culver spent at the University of Michigan, as a student in the literary department.

H. S. Thompson and family were here from Becon yesterday as guests of Mr. and Mrs. S. S. Grensch and visitors to the county fair. They made the trip from Champlain by automobile, leaving on the return journey in their car last evening.

Miss Grace Ross, who has been visiting her parents, Mr. and Mrs. W. A. Ross, West Ohio street, for the past three weeks, will leave Saturday to resume her work at Harper hospital, Detroit, whence she will graduate as a nurse early during the coming year.

Major D. D. Gaillard, in charge of engineering work for the government on Lake Superior from 1900 to 1903, is now one of the three engineers having supervision of the work on the Culobra cut on the Panama canal. His connection with the canal engineering dates from the time that the work was turned over to the army.

Bishop G. Mott Williams is planning to leave for the Holy Land next spring. He will depart for Syria about the 1st of March and will be absent from Marquette a number of months, visiting many other countries in addition to the domain over which the sultan of Turkey holds sway. The bishop will attend the Lambeth conference at London.

Hon. Peter White and Rev. Bates Burt have been elected delegates from the Marquette Episcopalian diocese to the general convention of the church to be held at Richmond, Va., next month. With six other representatives, lay and clerical, they were chosen at the diocesan meeting this week at Escanaba. Mr. White and Mr. Burt were also elected members of the diocesan standing committee.

Tickets Good Saturday—On account of the rain Wednesday very few of the school children visited the fair in charge of the teachers, as has been planned. The street car tickets which were issued to the teachers for the use of the children will be honored tomorrow.

Tarvia Tools Now Here—The tarvia tools which were lost between Marquette and Chicago are now E. Kern, secretary of laying the sample lot of the material which the city has been holding for some time, will probably begin next week. About five blocks are to be paved with the new material.

Good Game Sunday—Hurontown, the fastest team in the copper country is to play here Sunday and as the team is semi-professional the Marquette boys will have their work cut out for them. Scholtus and LaFave will be the battery next Sunday. Wagner, Brand, Mutter and Wiels are four of the Hurontown stars. The four formerly played on teams of the copper country league.

Walter M. Cookson Leaves—Walter M. Cookson, who for the past year and a half has been post office inspector for the upper peninsula with headquarters at Marquette, has been transferred to Lower Michigan. His new headquarters are at Ionia, Mich. Since he has been in Marquette, Mr. Cookson has made a large number of friends who regret his departure from the city. His successor, it is understood, is a Mr. Clark from a Florida district. He has not yet arrived in the city.

Water Board Meeting—At a meeting of the water board held at the city hall last night, bills amounting to \$2,301 were audited and allowed. There was a lengthy discussion upon the north side water supply question but no action was taken. Recently J. E. Kern, secretary of the board wrote to a number of frisky asking prices on piping and he reported last night that he had not yet received any replies to his letters. He presented an estimate of the cost of supplying water to the greater part of the north side residents, the estimate being \$8,000. Since the installation of water meters, Marquette has become economical and the city is now using approximately a third less water than it used a year ago. About 3,000,000 gallons a day was the supply formerly pumped, and this has been decreased to about 2,000,000 gallons a day.

New Anchor Line Steamer—The Anchor line freighter Wissahickon is now making her maiden trip. The Wissahickon is a splendid type of the modern package freight carrier. In fact, she is declared to be the best boat of her class and size on the Great Lakes. Her dimensions are: Length over all, 372 feet; length between perpendiculars, 350 feet; molded beam, 46 feet, and molded depth, 30 feet. She is equipped with quadruple expansion engine and has a capacity of 5,000 tons of package freight. She will probably be formally turned over to her owners some time next week and will go into commission at once. The officers of the Wissahickon are: Charles Christy, captain; Fred Bahbaum, chief engineer; John Erskine, second engineer; Edward Churchill, third engineer; Peter Grant, first mate; Alex Greer, second mate, and T. H. Coates, chief steward. The steamer carries a crew of twenty-seven men.

MEETING OF BOARD OF SUPERVISORS HELD YESTERDAY MORNING AT COURT HOUSE.

At the meeting of the supervisors at the court house yesterday it was voted to pay a reward of \$100 to the person who captures the mysterious "Charlie," the murderer of Wallace Hogan. No trace of the man has yet been found though his description has been sent to all parts of the state.

Harrington Resigns.  
 As forecasted in The Mining Journal yesterday, the resignation of William Harrington as county game warden was presented and accepted. Harrington has been appointed a state deputy for the Marquette district.  
 A petition of farmers from Ishpeming township asking the county's assistance in opening up a new road was granted and the board appropriated \$250 for the work.  
 Build a Culvert.  
 At a preceding meeting Supervisor Matt Auto asked that the county appropriate \$600 to rebuild a bridge over the Michigan river. The recommendation of the highways and bridges committee to which the petition was referred was that \$100 be appropriated to build a steel bridge instead of a bridge and this was adopted. Auto casting the only vote against the report.  
 As the juvenile court law has been declared unconstitutional the special committee named to select a place of detention for juvenile prisoners is not to make any final report until the supreme court passes finally upon the law.  
 Other Reports.  
 The report of the boards of superintendents of the poor of the county was read and was adopted as were the reports of the deputy game and fish wardens, William Harrington and John Mandley.  
 The next meeting of the board is to be held October 7 at 11 o'clock in the morning.  
 You are attracted by the advertisement in this paper; you read it and make up your mind that the goods advertised are what you want. You enter a store to make your purchase. Be sure to get what you ask for, even if the dealer tries to sell you something just as good. Avoid substitutes.  
 "What shall we have for breakfast?"  
 "Why Cudahy's Peacock Ham and Eggs of course; they are always acceptable, especially at this season of the year."

**BUCKEYE COMPANY HAS PROMISING TRACT**

ISHPEMING MINING MAN THINKS PROSPECTS FOR FINDING NEW ORE BODIES IN WESTERN END OF COUNTY ARE MOST FAVORABLE.

Captain John Thomas, who has charge of the Buckeye Exploration company's work on lands immediately west of the Champion mine, referred to in a recent issue of The Mining Journal, has great faith in the mineral possibilities of that end of the county, and will be greatly disappointed if something of value is not proved up by the exploratory work he is conducting.

Captain Thomas has been in charge of the Buckeye company's property for the past seven years, and he had one year ago planned to thoroughly explore the tract, which consists of a strip one mile in length by a half mile wide. The Buckeye company is composed principally of eastern men, who have had control of the Champion tract for thirty-five years or more. A number of test pits were put down when the company first acquired possession of the land, but the work was not done systematically. Pits were also sunk later by others, who took an option on the land, but they abandoned the work after sinking a limited number of pits.

If a deposit of ore is located it will doubtless be found by diamond drills, as Captain Thomas intends to operate one or more there as soon as he is located the proper formation. Some of the pits put down years ago were never drilled to the ledge, the work having been abandoned when the land was reached. The location of some of these pits was favorable and work is to be resumed in at least a few of them. When the mineral bearing formation is located it is expected that the ledge will not be reached inside of a depth of from thirty-five to fifty feet.

The opening of a mine will be expensive, as it will have to be bottomed much deeper than the average property on this range. Captain Thomas believes that if ore is found it will resemble in quality the ores of the Champion and Republic mines and that it will be found to contain as high a percentage of mineral. It will require a large amount of capital to develop a property where the Buckeye company is exploring, as the ore will not be found near surface. Captain Thomas said yesterday that the exploratory work will be continued for an indefinite time, and that he may find it advisable to put a drill to work soon, that depending on what is determined as a result of the test-pitting.

**AGGREGATE OVER \$8,000.**

City Pay Roll and Bills for August Foot Up Goodly Sum.

At the meeting of the council last evening Alderman Williams, chairman of the committee on claims and accounts, presented the statement for August, showing the sum to be paid for wages and claims of various kinds, the total amounting to \$8,477.95. Of this sum \$5,967.77 goes for the salaries of the city officials and the wages of men employed in the various departments. The official pay roll last month totaled \$1,496.16; the wages of men employed in the highway department amounted to \$3,826.36; the sum charged against the water department for wages was \$513.60, and the amount paid men employed in the sewer department was \$131.65. The bills for the month were not quite as heavy as for the previous month, as it was not necessary to purchase much new material in either the highway, water or sewer departments.

If the expenditures for the next three months equal those of August the fund present available will be depleted as the year has been taken at present and last month showed a little over \$30,000 on hand. It is expected that the expenditures in the highway department will decrease during the remaining three months of the season as the more important work will soon be brought to a close. It is thought that there will be a sufficient sum in the treasury to meet the city's obligations until December, when the tax money will be available.

**PATRONAGE INCREASING.**

List of Readers of Library Books Grows in Spite of Summer Weather.

The patronage of the Ishpeming Public Library continues to increase. A greater number of books has been drawn for home reading every month of this year than during corresponding months of last year, and the advance holding of new records in the number of books taken to the homes will be established during the fall months. August month showed an increase of over 100 over August of last year. This increase was also expected for general reading. The librarian has just ordered 200 books. They will be placed on the shelves as soon as they arrive. Some of the new books will be for children, and there will also be a number of reference publications.

Miss Agnes Clifton has resigned her position as second assistant librarian and Miss Beatrix Eddy has been appointed by the library board to fill the vacancy. Miss Eddy will enter upon her duties next Monday.

**FOR BUILDING FUND.**

Messrs. W. H. Moulton and C. L. Anderson, with their wives, will conduct a social this evening from 8 to 10 o'clock at the Anderson home, corner Ridge and Maple streets, for the benefit of the Presbyterian church building fund. There will be good music and refreshments will be served. An admission of fifteen cents will be charged. All are invited to attend.

**ISHPEMING IN BRIEF.**

Attorney A. J. Mollanen of Calumet was in the city yesterday.

Mrs. John Fisher of Crystal Falls is in the city visiting her mother, Mrs. H. Raiby.

E. A. Ludlow arrived home yesterday from Chicago, where he spent a few days on business.

John Frances returned to Princeton Tuesday, after visiting a few days with his parents in this city.

J. Rygard, the Cleveland-Cliffs iron company's chief engineer on the Swanzey range, was in the city yesterday.

Joseph Ripper and wife, residents of the Winthrop for a number of years, now residing at Laurium, are here on a week's visit.

The baby son of Isaac Suojanen, 711 Ridge street, died Wednesday night. The funeral will be held this afternoon, with services at the home.

Miss Mary N. Oulwhite left Wednesday night for Cleveland and other points in Ohio, on an extended visit to relatives and school friends.

Alfred Lucas, recently graduated from the Ishpeming Business college, has accepted a position as stenographer and clerk in the freight office of the South Shore system in this city.

The Uniform rank, Knights of Pythias, will conduct a hop tonight at Branstad's hall. Dancing will start at 8 o'clock, continuing until twelve. Trombly's orchestra will furnish the music.

Martin Claven has two handkerchiefs in which money was tied that were found at Branstad's hall Tuesday morning, after the Mine Worker's union dance. The owners can recover the handkerchiefs by calling on Mr. Claven at W. J. Robert's jewelry store.

The Ishpeming band furnished music

**PLACING MANY DRILLS.**

A. H. Boyd, representative of the Denver Drill Machinery company, is in the city, after an absence of several weeks. Since leaving here Mr. Boyd has visited all of the other iron ranges of the Lake Superior district and has disposed of a large number of his company's rock drills, which are a new thing in this region. He said yesterday that the type of drill that he has placed in the mines of Mesaba, on account of the softness of the ore. Mr. Boyd expects to be in this section for some days, as he has a number of contracts pending.

**INDIANS AND BAND.**

"The Flaming Arrow," Lincoln J. Carter's original western play, is now on its annual tour, and seems to be one of the few large attractions that can repeat each year and please large audiences. The usual big company, Indians, band, horses, etc., are still a feature, and a new set of scenery is being shown. The engagement here is for Monday evening at the Ishpeming theatre. The band and Indians will be seen in a parade at noon and the band will give a concert in the evening in front of the theatre.

**AT BARGAIN PRICES.**

We have a number of gasoline lamps in good condition; also some second-hand heating stoves and household furniture, which we will sell cheap.

A. W. MYERS MERCANTILE CO.  
(9-6-3d)

**THE "LA SALLE" SUIT**  
MADE BY SPITZ-SCHOENBERG CHICAGO

Frank Bacchus, an Ishpeming man, who has been employed at his trade as carpenter in Chicago for some time past, is reported critically ill. He has been ailing for some time and his friends here were advised yesterday that he has slight chances of recovery.

The ladies of Grace church will conduct a pantry sale Saturday morning between 9:30 and 12 o'clock at Tillson's drug store. They will have on sale jelly, yeast, cranberries, pressed beef, saffron, saffron buns, pies, cakes, salads, pork and beans and fruit salad.

John Mugfur left last night for England. This will be his second trip across the water inside of a year, he having returned about three months ago, after spending the winter at his old home. Mr. Mugfur plans to remain abroad until spring and it is generally suspected that he will not return alone.

Four Negaunee boys, Fred Christ, Ray Kellan, Thomas Abbott and Harry Lee, enrolled this week as students at the Ishpeming Business college. Several Ishpeming boys and girls have also entered the college during the past week or two. The institution now has a larger number of students enrolled than at any previous time since it was opened.

Lawton & Joyce yesterday sold their Marquette theatre to Sam Kops, who has managed the theatre ever since it opened. The firm has now only two theatres, the one here and the one at Green Bay, and both are for sale, as the managers have plans partially formulated for another line of business. They both leave the city today to be absent a week or ten days on business connected with their new proposition.

**FROM HOPKINS' CURB LETTER.**

"The news on the copper is bearish in all directions this morning, causing a slightly lower opening, with a lower level of prices in first hours of trading. London came over a pound lower for both spots and futures. After the first hour the New York market strengthened and an advance of a couple of points was noted. The advance holding well in indicating a further rise before the end of the day. There has been a further reduction of one quarter cent a pound in the metal. Superior & Pittsburg and Greene Cananea have been under the hammer all day and have shown a decline of one-half point each. Liquidation in those stocks will very likely work them some lower."

The day's prevailing prices were:

	Bid.	Asked.
American	\$ 8.25	\$ 8.50

### A DOCTOR'S STAFF OF OFFICE.

The Gold Topped Cane Carried by Many Distinguished Physicians.

A gold headed cane used by the physician as indispensable to the profession as the medicine bag or the general air of wisdom. In the rooms of the London College of Physicians there is preserved a gold topped staff, which is famous as having been carried by a succession of prominent doctors whose lives extended over a period of nearly a century. The doctor himself, rather quick as to temper, was once treated to a biting bit of repartee. Radcliffe's garden adjoined the grounds of Sir Godfrey Kneller, the king's chief painter. A door in the wall made easy communication between his majesty's doctor and the artist. Some of the doctor's workmen, however, littered up the artist's beautiful flower beds and aroused his anger. He sent word that if the thing continued he would have the door bricked up.

"Sir Godfrey can do what he pleases with that door so long as he doesn't paint it!" retorted Dr. Radcliffe. "Did my good friend say that?" remarked Sir Godfrey, when the slap at his profession was repeated to him. "Well, go tell him that I'll take anything from him but physics."

The cane passed in succession from Dr. Radcliffe's hands to those of Mead, Askew, Pittcairn and Baillie, all famous in their day and generation. Of Baillie the following incident is told: He was a gentle and patient physician by nature, but his immense practice and crowded hours sometimes made him hasty with the importunate.

At one time after listening to a long story of her ailments from a lady who

was so little ill that she intended to go to the opera that night, the doctor left her room with a sigh of relief. He had just got downstairs when he was called back.

"Doctor," feebly asked the lady, "may I, on my return tonight, eat a few oysters?"

"Yes, madam," roared the doctor, "shells and all!" Youth's Companion.

### ELECTRICITY RIPENS FRUIT.

"Ripening fruit by electricity is one of the latest achievements of science," said H. J. Penbrooke, of Los Angeles, Cal., at the Maxwell. "The experiment was first tried in England by a British electrical expert, who found that he could produce the effect of the tropical sun's rays without the slightest difficulty. Since then the experiment has been tried by California fruit-growers and proved successful.

"For the most part the ripening experiments have been tried with apples and apricots. When the apricots are taken from the tree green they are put in an air-tight case made of glass. Inside this case is supplied with a number of electric lights, which can be turned on and off in any number of ways. It has been discovered that the apricots ripen according to the amount of rays shed on them. The apples are treated in the same manner.

"The fruit has an unusually delightful flavor after undergoing the ripening, and unnatural process of ripening. By gathering the apricots from the trees while they are still green it is claimed that the grower stands a chance to save quite a goodly sum that would be lost from the trees frequently after ripening and the waste in this manner amounts to quite a deal in a large orchard."—Nashville Tennessean.

"Let us have some Cudahy's Peonack bacon and calves liver for supper Ma'am," say young and old. (11-27-eod)

### A GREAT SECRET.

In a small town in the Midlands there is a rich congregation which is not characterized by lavish liberality. Time after time the minister had vainly appealed to his people to contribute more generously to the funds of the church. The members would, indeed, give something, but it was nearly always the smallest silver coin of the realm that was placed on the plate.

A shrewd Scotchman who had recently come to the place and joined the church was not long in noticing this state of affairs, and a remedy soon suggested itself to his practical mind.

"I'll tell you what," he said to one of the officers; "if you make me treasurer, I'll engage to double the collections in three months."

His offer was promptly accepted, and, sure enough, the collections began to increase, until by the time he had started they were nearly twice as much as formerly.

"How have you managed it, Mr. Sandyman?" said the pastor to him one day.

"It's a great secret," returned the canny Scot, "but I'll tell you in confidence. The folk, I saw, mainly gave three penny bits. Well, when I got the money every Sabbath evening I carefully picked out the sma' coins and put them by. Now, as there's only a limited number of threepenny pieces in a little place like this, and as I have maist o' them at present under lock and key, the folk mainly give sixpences, at least, instead. That's the way the collections are doubled."—Tit-Bits.

### JOHN WAS HUFFED.

In the olden time a woman in the north of Scotland went to visit her husband, who was condemned to be hanged upon the following day. The man began to give his last instructions to his wife preparatory to bidding her farewell, when all at once she broke in on the conversation and explained: "Bye the bye, John, where will I plant the tatties this year?" The unfortunate man, as may be imagined, grew exceedingly indignant at the indifference of his wife and exclaimed angrily: "What need I care where ye plant them? I'm no likely to need any o' them." "Hech," replied the woman, turning to the warder, with a wag of her head, "poor John's huffed because he's gann to be hanged in the morn'!" and marched out of the cell.

### INSPECTING RAILWAYS.

State Official Is Looking Over the Lines in This Region.

Railroad Commissioner Glasgow is making his first official visit of inspection of the roads in the upper peninsula. He looked over this end of the peninsula, division of the Northwestern system Wednesday and was accompanied by W. B. Linsley, division superintendent, of Escanaba, and M. Rice, a former engineer on the South Shore system. The party traveled in Mr. Linsley's private car.

The railroad commissioner of this state usually goes over the lines of the different systems in his jurisdiction once a year. This being Mr. Glasgow's first visit to the upper peninsula all of the main and branch lines of the Northwestern system were carefully looked over. The special car was stopped at division dinner. The going down to the latter train will arrive at the fair grounds in time to witness the afternoon sports. Several Negaunee people have sent exhibits to the fair, and it is expected that a number of the prizes will come to this city.

### MAKING GOOD HEADWAY.

The work in the rooms at the First National bank building is progressing very satisfactorily. Lathes have been employed there for nearly a week past and their work will be completed within the next few days. The board of public works has also had some men employed in the building wiring it for electric lights. The building will not be ready for occupancy in less than six or eight weeks after the plasterers finish their work. The decorating will consume considerable time as it is to be done on an elaborate scale. The bank officials do not expect to occupy the new quarters much before the first of the year. The office rooms on the second floor will be ready before that time. The exterior work has been completed with the exception of painting the walls.

#### CENTRAL POLICE STATIONS NEEDED

THREE CITIES OF THE COUNTY SHOULD HAVE THEM—OFFICERS WORKING AT A DISADVANTAGE.

The murder of "Wallo" Hogan at Marquette; the escape of the murderer; and the inability of his friends to secure the services of a policeman in time to capture the criminal, demonstrates the necessity of a central police station, not only in Marquette, but in the other two cities of the county as well. The police officers of the three cities have frequently asked that a station be established where a policeman should be constantly on duty. Several times during the past few years the lack of such a station has been felt in Negaunee. Officers have frequently wanted in a hurry and as the police have no headquarters at some established point they cannot be found. There are few cities in the country, even in the upper peninsula, without a central police station. Menominee, Escanaba and Iron Mountain all have headquarters, where a man is stationed both day and night. Some of the towns on the Mesaba range also have central stations, looked after by the regular officers, who relieve one another at stated intervals, as they make the rounds of their beat. The stations are established at a prominent point on the principal street, and are small structures in which there are glass windows on all sides. They are not large enough to be used as hang outs, but of ample size to accommodate one officer. As one policeman approaches the place in concluding his rounds he, releases the man on duty.

### NEGATIVE DEPARTMENT

#### WELLKNOWN HERE.

Late Mrs. Margaret McHale of Hurley Resided in Negaunee.

The announcement in yesterday's issue of The Mining Journal of the death at the Ashland hospital of Mrs. Margaret McHale was a shock to her friends in Negaunee, many of whom did not know that she had been seriously ill. Mrs. McHale was raised in this city, her maiden name having been Margaret Ganev. Her late husband, Martin McHale, was also well known here, as he spent his early life at the Sands. They left Negaunee about twenty years ago, locating at Hurley.

During the greater part of the time since the death of her husband, Mrs. McHale had kept house for Rev. Father Gilbert, who has been the parish priest at Hurley for a number of years. The reverend gentleman is now ill and has been confined to a Milwaukee sanitarium for some weeks past. The funeral of Mrs. McHale will take place this morning at Hurley and will be attended by several relatives from this county.

#### HISTORY OF PASSION PLAY.

Attraction at Wonderland for Three Nights Originated in 1863.

### THE COOKING OF TERRAPIN.

It is still believed by some that Thomas F. Bayard—the last of the Bayards—was the best terrapin cook that ever lived. The Marylander, however, pinned their faith to Senator Charles Hopper Gibson, who was Arthur Poe Gorman's equerry in congress. Gibson was a sort of Beau Brummel on one side and a Son of Sam on the other. Wherever he went he had to cook the terrapin. One night at Cheswood—he was a great friend of Cassatt—it was voted unanimously that he was in inches, feet and yards above Bayard. His terrapin was said to be the finest ever put on a white man's table.

### PECK'S BAD BOY COMING.

Before George W. Peck was elected governor of Wisconsin, he had achieved national fame as the author of "Peck's Bad Boy," a series of sketches written with admirable facility to life, and under his satirical large eye incorporated in the farce comedy of the same name, announced for presentation at McDonald's Opera House Wednesday, Sept. 11. The entertainment has attained a fame and popularity almost if not quite rivaling that of the author of its inspiration and execution, but has in a most enviable patronage in every respect.

### LOCAL LACONICS.

D. Fred Charlton, the architect, was up from Marquette yesterday.

Miss May Greener has returned from Milwaukee and Chicago, where she spent the past two weeks on business.

J. Fillo of Fillo Bros, fruit dealers of St. Louis, Mo., has been in the city the past few days visiting relatives.

Gust Beyer, Nest & Karger's Marquette county representative, has moved his family from Houghton to Marquette.

J. Q. Adams advertises a No. 6 Knowles pump for sale. The pump is in good order and Mr. Adams will sell it at a sacrifice.

Miss Elizabeth Sness, youngest daughter of J. E. Sness, has come to Chicago, where she will enter a sister's academy.

The funeral of the late Fred Leroux was held yesterday morning from St. Paul's church, under direction of the Negaunee French society.

Work was resumed yesterday on the Old Fellows block. The inside wall has been built about eight feet from the foundation and the cut stone has been set in position on the Iron and Tobin street sides.

Mayor J. H. Winter left Wednesday night for Chicago, accompanied by his nephew, Joseph Cummings, who has been in the city the past few weeks. The mayor will be absent a few days and before returning he will probably visit Cuba City, Wis.

A crew of workmen in the employ of the Bell Telephone company arrived in the city yesterday, and the changes at the company's new office in the Neeley block were started. It will take two or three weeks to complete the work, as it will be necessary to move a number of the cables, and besides some new lines will be put in. The transfer of the office from its present quarters will not be made until the outside work is completed at the new location.

The Columbus Consolidated Mining company, referred to in yesterday's Mining Journal as having taken over the Hidden Fortune property in South Dakota, is not the corporation in which so many Marquette county people have held stock for some years past, the latter being located in Utah. The Utah concern has not been obliged to dispose of bonds, nor is it likely that it ever will have to, as the mine is now on a paying basis, having paid its first dividend some months ago.

The funeral of the late John Malloney, who was killed Tuesday at the Mary Charlotte mine, while in the employ of the South Shore Railway company as a

### CROSSING THE WILD TURKEY.

Some Interesting Data About a Notable American Bird.

The most notable American bird in the farm category is the turkey, growing as he does to the great weight of thirty and even forty pounds and losing nothing in favor of his size. Likewise the most real of our remaining game birds is his blood brother, the wild turkey, from which he has descended. There is perhaps no instance where domestication has secured so little in improvement as with the turkey. In fact, in some respects the taming and breeding have hurt instead of helped the species. No prize domestic turkey gobbler is ever as beautifully marked, or so resplendent with feathers of black shaded with rich bronze and illuminated with a lustrous finish of burnished copper as is the typical wild turkey, while the vigor and vitality of the wild bird is such that on this day we strengthen the most virile of our bronze turkeys by an infusion of the wild blood.

### FOR THE PICNIC LUNCHEON.

Neat Boxes and Wide Mouthed Bottles for Use at Outing Time.

Picnic baskets with a shelf inside are sold in the shops for \$1. Very nice little refrigerator baskets can be purchased for \$2. They are lined with zinc and the shelves with felt so that no air can enter between the cover and the box. A movable tank at the side holds the ice, so that any water which drips from it will not come into contact with the food. When it is necessary to wash out the basket the whole top can be taken off.

### THE COOKING OF TERRAPIN.

It is still believed by some that Thomas F. Bayard—the last of the Bayards—was the best terrapin cook that ever lived. The Marylander, however, pinned their faith to Senator Charles Hopper Gibson, who was Arthur Poe Gorman's equerry in congress. Gibson was a sort of Beau Brummel on one side and a Son of Sam on the other. Wherever he went he had to cook the terrapin. One night at Cheswood—he was a great friend of Cassatt—it was voted unanimously that he was in inches, feet and yards above Bayard. His terrapin was said to be the finest ever put on a white man's table.

### WORKS WONDERS.

A Wonderful Compound—Cures Piles, Eczema, Skin Itching, Skin Eruptions, Cuts and Bruises.

Doan's Ointment is the best skin treatment, and the cheapest, because so little is required to cure. It cures piles after years of torture. It cures obstinate cases of eczema. It cures all skin itching. It cures skin eruptions. It heals cuts, bruises, scratches and abrasions without leaving a scar. It cures permanently. Marquette testimony proves it.

Ethan Hurley, carpenter, of 300 W. Washington St., Marquette, Mich., says: "For skin eruptions and such, I use Doan's Ointment is the best preparation I know. I had an eruption on my hands and arms that bothered me for years and was often so bad that I could scarcely bear the touch of my clothing. The annoyance was great, and I tried salves, ointments and washes of all kinds but nothing helped me until I got Doan's Ointment at the Stafford Drug Co. store. One box served to drive the trouble away so that it has never reappeared."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

### SHORT TALKS BY L. T. COOPER.

#### BACKACHE.

I can sympathize with a sufferer from this awful symptom of weak kidneys. That soreness and pain in the small of the back tells too plainly of serious trouble behind it.

It's not a hot water bottle or a plaster you need. That won't cure diseased kidneys. It may relieve you for a time, it's true, but why mask the real cause and allow the trouble to grow? Don't do it. Weak kidneys can be cured but Bright's disease, which always follows neglect of them cannot. Go and get a bottle of Cooper's New Discovery and Cooper's Quick Relief and use them faithfully. Your backache will disappear because your kidney trouble is corrected—not for a day but for good. When your kidneys are in "ship-shape" there will be nothing more to cause it.

Here's a letter from a man who suffered for years in this way and took my advice: "I have been in such bad health for some years that I finally had to give up work. I suffered from kidney trouble. My back was so sore and lame that I could scarcely get up and down. My stomach was also out of order and my nervous system broken down. I have been using the Cooper medicines for one week and actually feel like a new man. My food digests perfectly. The soreness and pain has entirely gone from my back and my kidneys are in fine shape. The medicine has strengthened me wonderfully and I cheerfully give you this testimonial for publication." Mr. P. Leonard, 49 School St., Allegheny, Pa.

We have heard a number of favorable comments on the Cooper preparations from people who have purchased them from us.

The People's Drug Store, W. J. Hebbard, Prop. Ishpeming, Mich.

# COOK WITH GAS

LAWYERS WANTED BY THE PRESIDENT

LEADING POINTS OF ANNUAL MESSAGE MADE CLEAR IN RECENT SPEECHES.

Washington, Sept. 5.—President Roosevelt's speeches in the last few months—those at Indianapolis and on his trip to the west late in May, his Jamestown speech, and his address at Provincetown—have served to outline quite definitely the legislation he will ask from congress in his next annual message.

So far much that the president has said about correcting evils and improving conditions has been general. In his message he will be expected to get down to specific details.

To prevent a recurrence of the conditions disclosed by the Harriman investigation, he will urge that one railroad be not allowed to own stock in a competing road, and that competing roads be not allowed to have common directors.

The enactment of a national incorporation law to apply to corporations generally engaged in interstate business will also be urged.

It is clear the president has not abandoned his purpose to do what he can for an inheritance tax law, graduated so as to prevent the passing of swollen fortunes from generation to generation.

The president is expected to urge that the employers' liability law should be made more broadly applied, so as to reach to all forms of business where congress can exercise authority.

There is no evidence that he has changed his mind as to ship subsidy legislation. He will again urge this. He has become convinced the states must dispose of the child labor question.

There is no evidence that he has changed his mind as to ship subsidy legislation. He will again urge this. He has become convinced the states must dispose of the child labor question.

FLORIDA PLANS FOR THE SEASON.

Gayest Winter in History of "American Riviera" Is Promised.

New York, Sept. 5.—With the season at Newport, "the north shore," Bar Harbor, and other fashionable seacoast resorts approaching the end, and with the smart world planning to kill its time for a few weeks in the Berkshires and at Virginia Hot Springs, plans are now in progress for what promises to be the gayest winter of the "American Riviera" as ever known.

A distinguished English peer, who spends about half of each year in America, replied, when asked recently what he found here that kept him so long from the mother country: "It may be that I, a foreigner with his eyes open, see many things to which you native Americans are blind.

The Florida season has been gradually lengthening. While once northerners formerly went down to the land of perpetual summer only for the latter part of January and February, they now turn their faces southward early in December and remain until April.

SINKING FOR TWO CENTURIES.

Mighty Cathedral at London Must Be Constantly Watched.

London, Sept. 5.—St. Paul's cathedral is in no immediate danger, but the mighty structure is sensitive right through, and must be constantly watched.

This is the gist of the report made by the committee of architects which was appointed to inquire into the condition of the building when the London County Council determined to construct a main drain sewer which was to pass within forty-five feet of the southwest tower of the cathedral, and to be only fifty-two feet below the surface.

The cathedral has been sinking for two centuries, and the expert committee recently reported that the condition of the subsoil and the state of the water level had periodically recorded, as there lie the chief possibilities of future danger.

The committee then appointed to investigate the stability of the cathedral continued its work on the sewer, reporting that while not alarmist, declares that elaborate precautions are necessary if Wren's monument is to be preserved from disaster.

The cathedral has been sinking for two centuries, and the expert committee recently reported that the condition of the subsoil and the state of the water level had periodically recorded, as there lie the chief possibilities of future danger.

WOMAN SEEKING DEATH PLAYS TAG WITH ENGINES.

Jackson (Miss.) Switch Crew Bothered Until Police Are Appealed To.

Jackson, Miss., Sept. 5.—A white woman of middle age gave the railroad companies considerable trouble last night in her heroic efforts to commit suicide. She would take her stand in the middle of the tracks in the lower yards, where switch engines are continually at work, and the engineers were forced to the trouble of stopping and pushing or pulling the woman off on several occasions.

The idea of sending a receipted bill to any one and telling the debtor that any amount agreeable would be accepted in full payment did not appeal to the late Mr. Spear's sense of business or right.

Several attempts have since been made to get a bill through congress to pay off Mr. Spear's account, but none was successful. "I personally attended the funeral in Cleveland," said Frank Spear, "and much of the amount included in my claim was for actual cash outlay. In one instance I had to pay \$300 in Cleveland for cloth for sashes for the pallbearers."

Mr. Spear would not indicate what interest the drift of events in Oklahoma. At the department of justice officials say they have not received a revised constitution as yet.

Reports received here indicate that, in spite of the disclaimer in that connection the people of Oklahoma believe the criticism of the constitution by Mr. Taft in his recent speech is a direct reflection of the views of the president.

DRIFT IN WEST IS FOR TAFT

FRIENDS IN WASHINGTON NOW BELIEVE HIS BOOM IS ON IN EARNEST.

Washington, Sept. 5.—After months of hard work and many discouragements, the supporters of Secretary Taft believe his boom is getting a real start. They are much encouraged over developments since the address of the secretary of war at Columbus.

But the Taft lieutenants here see many symptoms that the tide is turning. They are greatly pleased over the reports concerning the reception given Taft in his trip to the southwest and west. Of course, it might be pointed out that when Secretary Taft went to Iowa and other western points early in the summer he was given ovations of the heartiest sort, and that without doing much good to his candidacy.

A tangible evidence that the tide is turning in the Taft direction, reports are coming to the Ohio main friends that there is a drift of sentiment in the far west in his favor.

Returning to that hostility early in the morning, he said two petite, interesting dames engaged him in conversation in Thirty-fourth street, and the trio finally stepped into a hallway between Sixth and Seventh avenues.

SEEKS TO JOIN WITH NEVADA.

New Union for Arizona to Be Urged Upon Congress.

Washington, Sept. 5.—President Roosevelt's action in announcing that, so far as the national administration is concerned, there is no intention of further insisting upon joint statehood for New Mexico and Arizona, was a direct result of the observations of James Garfield, secretary of the interior, while on his southwestern trip.

The president had been told that it was the great corporations, who sought to escape the increased taxation of statehood, who were behind the movement. Now the president has heard from Mr. Garfield that this is not the real condition—that the people generally oppose joint statehood.

Washington, Sept. 5.—The estate of William R. Spear, a well-known local undertaker who died last week, has a claim against the government in connection with the funeral of President Garfield.

UNDERTAKER HOLDS BILL FOR GARFIELD'S FUNERAL.

Congress May Again Be Asked to Settle Old Claim.

Washington, Sept. 5.—The estate of William R. Spear, a well-known local undertaker who died last week, has a claim against the government in connection with the funeral of President Garfield.

The idea of sending a receipted bill to any one and telling the debtor that any amount agreeable would be accepted in full payment did not appeal to the late Mr. Spear's sense of business or right.

Several attempts have since been made to get a bill through congress to pay off Mr. Spear's account, but none was successful. INDIAN RACE PASSING.

Another Generation and the American Red Man Will Be Swallowed Up.

Washington, Sept. 5.—Lo, the poor Indian, will soon be a thing of the past, so far as the United States is concerned. Another generation, and he will be gone forever, merged and swallowed up in the mighty and irresistible tide of Caucasian blood that has a fashion of sweeping away the less substantial races with which it comes into collision.

Thirty years from now it will be difficult to trace the traditions to find an Indian tribe in the country living in tribal relations. That is what the officials of the bureau of Indian affairs say. The day of the befeathered, blanketed, moccasined red man is almost at an end.

Must Be American Citizen. The United States government is going on on the Indian problem. It is liberally setting about to eliminate the Indian as such. The government is proceeding on the theory that the Indian is a desirable personage when he gives up his tribal relations, proceedings to live as the whites do, and to be a ward of the nation—and not being a ward of the nation—in other words, when he ceases to be an Indian and blends with American citizenship.

Sentiment and those with deep veneration for the traditions of the past will probably cry out when they understand just what the government is undertaking to do about the Indian. Many will probably insist that the Indian should be preserved in his aboriginal character, as a relic of the past, just as they insist on the preservation of whatever has historic value.

Leupp the Indian's Friend. Commissioner of Indian Affairs Francis Leupp explained the other day just what the government was doing with the Indian. He said frankly it was the purpose to break up the Indian tribes, to get them to mingle with the whites and the whites with them and in the end merge the Indian with civilization.

There are two lines in which Mr. Leupp and his aides are working. The first object is to break up the reservations and to get white men to settle on these reservations and mingle with the Indians. The other object is to encourage the Indian to leave the reservation and to go out and work by the day or week or month as the white man does, taking his chances with the white man.

GOAT IS FOSTER MOTHER OF YOUNG HIPPOPOTAMUS.

Paris, Sept. 5.—Paris has a nature story that is exciting more public interest than the Morocco crisis. At the Jardin des Plantes a hippopotamus Lisette presented her conjugal partner Kluko with a fine baby hippopotamus. There was much rejoicing at the zoo over the advent until it proved that Lisette was the only disinterested party. The keepers of the zoo were ambitious to rear young hippopotamus, so when he made his appearance they were happy to see the spark of motherhood light up Lisette, but she laughingly refused and her offspring was taken from her. Fortunately, there was a flock of goats in the menagerie, and one of them was selected as a foster-mother. The experiment has been a great success. At first five goats daily supplied the needs of the young hippopotamus, but now it requires eight. In the meantime all Paris goes to see him. He does not cure for his foster-mother, but only for Lisette, who silks and looks fearful when the neck members of the goat family are led on to perform the duties which she neglects.

AMERICAN HEBREWS EASY FOR PALESTINE GRAFTERS.

Washington, Sept. 5.—Times are hard in the "Holy City" according to a circular which has been spread broadcast over the country, and a copy of which has just come into the hands of the state department from the American consul at Jerusalem. It appears that a thrifty citizen of the Holy Land, knowing the reputation of the American Hebrews for charity, has been conducting for some time a prosperous business in this country by sending to every rich Hebrew whose name he could learn a little book of pressed flowers. With the book came a pathetic letter, in which the writer sets forth that he is a needy flower worker who is living on the land, but not earning enough to support his wife and his many little ones. The investigations of the state department disclose that at first these letters were written by hand; then, as business prospered, they were evidently written on a typewriter and amplified. Recently, however, the increase in business has warranted the thrifty man of Jerusalem in having the letters printed.

AMERICAN SHOOTING MARVELOUS.

Largest Fleet to Seek Target Records in Cape Cod Bay.

MEN ADMIRE

A pretty face, a good figure, but sooner or later learn that the healthy, happy contented woman is most of all to be admired. Women troubled with fainting spells, irregularities, nervous irritability, backache, the "blues," and those dreadful dragging sensations, cannot hope to be happy or contented until once upon the organ afflicted and the nerve centers, dispelling effectually all those distressing symptoms. No other medicine in the country has received such unqualified indorsement or has such a record of cures of female ills as has

MISS EMMA RUNTZLER

Lydia E. Pinkham's Vegetable Compound. Miss Emma Buntzler, of 631 State St., Schenectady, N. Y., writes: "For a long time I was troubled with a weakness which seemed to drain all my strength away. I had dull headaches, was nervous, irritable, and all worn out. Chancing to read one of your advertisements of a case similar to mine cured by Lydia E. Pinkham's Vegetable Compound, I decided to try it and I cannot express my gratitude for the benefit received. I am entirely well and feel like a new person."

Mrs. Pinkham's Standing Invitation to Women. Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. Her advice is free and always helpful.

FORAKER AFTER CONSUL'S SCALP.

P. M. Griffith Accused of too Great Activity in Brownsville Affair.

Washington, Sept. 5.—Senator Foraker is threatening to camp on the trail of Consul P. Merrill Griffith when his name comes up in the senate next winter for promotion from the consular post at Matamoras, Mexico, to a more important post. Griffith is from Ohio, and has incurred the enmity of Senator Foraker by the part he has taken in the Brownsville investigation. His conduct will probably receive an airing when his confirmation is considered.

Senator Foraker thinks that Griffith has been promoted as a reward for services in the Brownsville affair. Griffith is also charged with having engaged in private enterprises in Mexico. How well these charges are is uncertain, but it is expected that his official record will receive a thorough investigation when the senate takes up his confirmation.

GOAT IS FOSTER MOTHER OF YOUNG HIPPOPOTAMUS.

Paris, Sept. 5.—Paris has a nature story that is exciting more public interest than the Morocco crisis. At the Jardin des Plantes a hippopotamus Lisette presented her conjugal partner Kluko with a fine baby hippopotamus. There was much rejoicing at the zoo over the advent until it proved that Lisette was the only disinterested party. The keepers of the zoo were ambitious to rear young hippopotamus, so when he made his appearance they were happy to see the spark of motherhood light up Lisette, but she laughingly refused and her offspring was taken from her. Fortunately, there was a flock of goats in the menagerie, and one of them was selected as a foster-mother. The experiment has been a great success. At first five goats daily supplied the needs of the young hippopotamus, but now it requires eight. In the meantime all Paris goes to see him. He does not cure for his foster-mother, but only for Lisette, who silks and looks fearful when the neck members of the goat family are led on to perform the duties which she neglects.

AMERICAN HEBREWS EASY FOR PALESTINE GRAFTERS.

Washington, Sept. 5.—Times are hard in the "Holy City" according to a circular which has been spread broadcast over the country, and a copy of which has just come into the hands of the state department from the American consul at Jerusalem. It appears that a thrifty citizen of the Holy Land, knowing the reputation of the American Hebrews for charity, has been conducting for some time a prosperous business in this country by sending to every rich Hebrew whose name he could learn a little book of pressed flowers. With the book came a pathetic letter, in which the writer sets forth that he is a needy flower worker who is living on the land, but not earning enough to support his wife and his many little ones. The investigations of the state department disclose that at first these letters were written by hand; then, as business prospered, they were evidently written on a typewriter and amplified. Recently, however, the increase in business has warranted the thrifty man of Jerusalem in having the letters printed.

AMERICAN SHOOTING MARVELOUS.

Largest Fleet to Seek Target Records in Cape Cod Bay.

Washington, Sept. 5.—The forthcoming practice of the United States navy will be watched with great interest, not only in the American navy, but also in Great Britain, which is paying close attention to our target work. The British naval officials claim that they "have no beat" in the matter of battle practice at targets. Our naval experts declare that our gunners have made higher averages for every caliber of gun, except the 8-inch gun, than any foreign navy. They admit that our 8-inch target work is excellent, and that the accuracy of the British 9.2-inch gun, which throws an even heavier shell.

TELESCOPE LADDER IS A BERLIN FIRE DEVICE.

London, Sept. 5.—Mayhew Bronson, the millionaire inventor of the Laramie fire department, took the opportunity during a recent trip on the European continent of investigating the various fire departments. Speaking to the correspondent, he said: "In Berlin I saw one device which I think could be introduced in America. It is a telescope ladder, worked by compressed air. It occupies less space than one of our water-towers, and is erected to a height of sixty feet in less than thirty-six seconds."

DETROIT AND RETURN \$700.

Via the South Shore. Tickets on sale Sept. 9th, 12th, 16th, 21st, connecting at St. Ignace with steamer of the D. & C. N. Co. To Buffalo \$2.00 higher. Limit three weeks. For sleeping car and steamer reservations apply to ticket agents. (8-15-324)

DOG DAYS.

You're feeling rather limp today. You haven't any gimp today. It's hot! The mercury's at ninety-two. A thin haze dims the heaven's blue. The atmosphere is sultry—whew! It's hot! There's not a breath of air today. It's hot! Nor comfort anywhere today. It's hot! The leaves hang limp upon the trees, Undrained by any clearing breeze. 'Most everybody's ill at ease— It's hot! The streets are white with dust today. It's hot! If it were only just today! It's hot! For dog days have arrived again. That torment to the sons of men. That melancholy season when It's hot!

IT'S JUST THE WAY YOU SAY IT.

When the multi-millionaire's son arrived at the important age of twenty-one his indulgent father called him from his play and expounded much knowledge of the beautiful world and its many golden spots. The pointing offspring was cordially invited to work for his daily bread in the future, or to have a trail of dust in the rear. Dust without the necessary automobile did not appeal to the young man, so he accepted a position of brightly polished brass buttons and much glistening braid. His jaunty cap was made of excellent material, and bore the mark of a fashionable hatter despite the fact that the words "Elevator Boy" were faintly worked across its front.

After adjusting a new pair of kid gloves and brushing a few stray locks from his forehead, the new employee walked to the door of his car and said, in a sweet tone, "Ascension."

When he became strong enough to wander about without the assistance of a nurse, his father gave him a mere million and his paternal blessing, and suggested that he take the fastest train for the most distant point this side of the heavens. This time the dust did not bother him.—Happo's Weekly.

VESTED INTERESTS.

E. H. Harriman the other day was discussing the recent drop in securities and claimed that it was inadvisable to legislate too harshly against what are regarded as vested interests. The present situation reminded him of a school teacher, who suddenly asked a boy, "What are you fumbling with?" "The boy's next seat neighbor said Johnny had a pin." "Take it from him and bring it to me," said the teacher. "This was done, whereupon the schoolmaster ordered Johnny to recite his lesson. The boy grinned and sat still. "Stand up, I tell you," commanded the teacher. "The lad blurted out: "I can't, ma'am. There there pin what you have was holdin' up my pants."—Kansas City Journal.

MARQUETTE & SOUTHEASTERN R.Y.

Sunday, June 9th, the summer schedule of the M. & S. E. Ry. goes into effect. Sunday trains will leave Marquette for Princeton and Munising at 8:45 a. m. and 6:20 p. m. For Negaunee and Ishpeming, 10:15 a. m., 3:35 p. m. and 8:20 p. m. For Birch and Big Bay, 8:50 a. m. Sunday trains will arrive from Princeton and Munising 10:10 a. m. and 8:10 p. m. From Negaunee and Ishpeming, 8:35 a. m., 2:30 p. m., 6:10 p. m. From Birch and Big Bay, 7:20 p. m. Week day trains, No. 10 leaves Marquette for Munising and Princeton 6:45 a. m.; No. 31 for Birch and Big Bay 8:50 a. m.; No. 1 for Negaunee and Ishpeming 9:00 a. m.; No. 4 for Munising and Princeton 5:35 p. m. Week day trains arrive at Marquette, No. 1 from Princeton and Munising 8:45 a. m.; No. 32 from Big Bay and Birch, 4:50 p. m.; No. 11 from Munising and Princeton, 7:30 p. m.

—Sunday Excursion Rates.—Negaunee or Ishpeming and return, \$ .50 M. & S. E. Ry. stations and return, .75 Both ends of excursion, \$1.00. Tickets on sale for No. 4 of Saturday; No. 6, 8 and 43 of Sunday good to return Sunday or Monday. (6-4-tf)

S.S.S. CHRONIC ULCERS. Chronic Ulcers are the result of a deeply polluted and foul blood supply. The blood is filled with impurities and germs which are being constantly fed into the place through the circulation, until all the surrounding flesh becomes diseased and the sore an obstinate and permanent trouble. Every symptom of an old ulcer suggests pollution; the discharge, the red, angry looking flesh, the inflammation and discoloration of surrounding parts, all show that the ulcer is prevented from healing by the constant drainage through it of impurities from the blood. This impure condition of the blood may be hereditary, or it may be the remains of some constitutional disease, or the effects of a long spell of sickness, leaving disease germs in the system, or the absorption of the refuse of the body which has not been properly expelled through the natural channels. But whatever the cause, the blood is so weakened and polluted that it does not properly nourish and stimulate the place, and the sore cannot heal. Salves, plasters, lotions, etc., keep the sore or ulcer clean, relieve pain, and perhaps reduce inflammation, but can never permanently heal them because they do not reach the blood. S. S. S. goes down to the very fountain-head of the trouble, drives out all poisons and germs, builds up the weak sluggish blood, gives energy and strength to the system, and by sending a fresh, healthy stream of blood to the diseased parts, allows the ulcer to heal naturally and permanently. Nothing reaches inherited taints like S. S. S. It cleanses the circulation of every trace of hereditary disease or impurity, and those who have nursed and treated an ulcer for years will experience good results as soon as the system becomes influenced by S. S. S. Book on Sores and Ulcers and medical advice free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

DARANTELLA. 10c Havana Cigars, 10c

MEN ADMIRE. A pretty face, a good figure, but sooner or later learn that the healthy, happy contented woman is most of all to be admired. Women troubled with fainting spells, irregularities, nervous irritability, backache, the "blues," and those dreadful dragging sensations, cannot hope to be happy or contented until once upon the organ afflicted and the nerve centers, dispelling effectually all those distressing symptoms. No other medicine in the country has received such unqualified indorsement or has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound. Miss Emma Buntzler, of 631 State St., Schenectady, N. Y., writes: "For a long time I was troubled with a weakness which seemed to drain all my strength away. I had dull headaches, was nervous, irritable, and all worn out. Chancing to read one of your advertisements of a case similar to mine cured by Lydia E. Pinkham's Vegetable Compound, I decided to try it and I cannot express my gratitude for the benefit received. I am entirely well and feel like a new person." Lydia E. Pinkham's Vegetable Compound is the most successful remedy for all forms of Female Complaints, Weak Back, Falling and Displacements, Inflammation and Ulceration, and is invaluable in preparing for childbirth and the Change of Life. Mrs. Pinkham's Standing Invitation to Women. Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. Her advice is free and always helpful. DOG DAYS. You're feeling rather limp today. You haven't any gimp today. It's hot! The mercury's at ninety-two. A thin haze dims the heaven's blue. The atmosphere is sultry—whew! It's hot! There's not a breath of air today. It's hot! Nor comfort anywhere today. It's hot! The leaves hang limp upon the trees, Undrained by any clearing breeze. COUNTY BOARD PROCEEDINGS.

The Honorable Board of Supervisors of Marquette County met in regular session at 10 o'clock a. m. on Thursday, the 4th day of September, A. D. 1907, at 11 o'clock a. m.

The roll being called, the following supervisors were found to be present: Present—Andrews, Auto; Barabec, Corey; Charbonnet, Currie; Ewing, Fay; Fredericksen, Morgan; Nord, Nault; Powell, Platto; Roberts; Smith; Sweder; Shaw; Tom; Thompson; Treblecock; Wiseman; Willner; Williams; Yungbluth; Yonkosky.

The following resignation was received, and upon motion accepted: Ishpeming, Mich., Sept. 4th, 1907. To the Honorable Board of Supervisors of the County of Marquette, Michigan: GENTLEMEN: I hereby tender my resignation as County Game and Fish Warden for Marquette County, Michigan, effective Sept. 1st, 1907, having been appointed State Deputy Game, Fish and Forestry Warden, by State Game Warden Charles W. Murray.

The Committee on Highways and Bridges presented the following report, which was adopted as follows: Marquette, Mich., Sept. 5th, 1907. To the Board of Supervisors of Marquette County, Michigan: GENTLEMEN:—Your Committee on Highways and Bridges, to whom was referred a petition from farmers in Ishpeming Township asking the county assistance in opening a new road leading north on the east side of Sections five and eight (5 and 8), Township seven (7) West, respectfully report after thorough examination and consideration of same and would recommend that two hundred dollars (\$200.00) be appropriated for said work out of money now in the hands of the treasurer, upon condition that township procure the right-of-way through any lands that it is necessary to use for the purpose of same and the work to be done in accordance therewith.

The report of the Auditing Committee was read and upon motion adopted by the following yeas and nays: Yeas—Andrews, Auto; Barabec, Corey; Charbonnet, Currie; Ewing, Fay; Fredericksen, Morgan; Nord, Nault; Powell, Platto; Roberts; Smith; Sweder; Shaw; Tom; Thompson; Treblecock; Wiseman; Willner; Williams; Yungbluth; Yonkosky.

# RACES AT COUNTY FAIR ARE NOW ON

### SAME HORSES THAT RAN IN FREE-FOR-ALL ENTERED TODAY FOR 2:10 TROT OR PACE.

### GOOD TIME ON HEAVY TRACK

Marquette County Day Today—Children of Entire County to Be Admitted Without Charge Tomorrow.

Yesterday was the first day of the horse racing at the county fair and there were more people at the grounds than have ever before appeared at a first day, something more than 3,000. The two races yesterday were the free-for-all and the 2:30 trot or pace and they were all that had been promised for them. Today the speed program is even better than it was yesterday and the track will be in much better shape.

**Today's Entries.**  
The 2:10 race today will practically be a repetition of the free-for-all of yesterday as the same horses are entered. They are Reuben, Echo Medium, Billy Sunday and Bourbon C. The other race is in the 2:25 class and the entries for it are: Baron Bell, Air Motor, Kingston Boy, Billy Mack and Sorrel Bob. The purse in each race is \$250.

The track yesterday was still heavy from the rains of the preceding days and although it was about ten seconds slow, Echo Medium finished in the first heat of the second race in 2:23 1/2.

**Shepard's Horse Wins.**  
Air Motor owned by O. C. Shepard of Soudan, Mich., and driven by Matt Aho won the 2:30 trot or pace. Sorrel Bob, owned and driven by Matt Aho of Negaunee took second money and Phil Arnot finished third after Kingston Boy, owned by George Coleman of the Soo had been withdrawn from the race, having been injured.

The first heat of the race was almost a dead heat between Sorrel Bob and Air Motor and many spectators thought that Sorrel Bob was entitled to the heat as Air Motor broke under the wire. It was a neck and neck finish between the two, but Air Motor was a few inches in the lead. Kingston Boy ran third and Phil Arnot finished last.

Air Motor won the second heat with much less trouble than he had the first, though Sorrel Bob was only a little more than a length behind at the finish. The others finished as in the first heat.

In the third heat Kingston Boy cut himself and was withdrawn. The race was hard fought from start to finish and Sorrel Bob won the heat followed closely by Air Motor and Phil Arnot.

**Time of Heats.**  
In the fourth heat it looked like Sorrel Bob's heat until he went off his feet. He did not recover in time to regain his advantage and the heat and the race went to Air Motor. The time of the heats were 2:34 1/2, 3:34, 2:29 1/2 and 2:29.

Echo Medium took the big end of the purse in the free-for-all, winning three straight heats. Echo Medium is well known to Marquette horsemen. He is owned by K. Kemp of Calumet and was driven yesterday by Louis Saam. Billy Sunday, owned by H. Goulette of Calumet and driven by Fred Jeffries finished second and Bourbon C. owned and driven by C. J. Wickstrom of Calumet took third money. Throughout it was a Calumet race, for Shepard's Reuben was handicapped by the mud and only got a place in the third heat.

**Pretty Contest.**  
In the first two heats Billy Sunday and Bourbon C. finished second and third and in the last heat Reuben finished second with Billy Sunday and Bourbon C. following. The time of the heats was 2:23 1/2, 2:41 and 2:28 1/2. The first half of the first heat of this race was the prettiest exhibition of the day.

The contest was between Echo Medium and Reuben and the two ran together like a machine the first time around when Reuben began to lose ground, handicapped by the mud which seemed to bother Echo Medium but slightly. Reuben has done 2:12 on this track and what may happen today now that the track will be in much better shape, is a question. The contest will probably be between Reuben and Echo Medium, but it is by no means to be forgotten that Billy Sunday has had some surprising stunts in his time and Bourbon C. are both very much in the race.

**Promising Program.**  
The 2:25 race is certain to be closely contested. Sorrel Bob and Air Motor, who made the big fight in the 2:30 class yesterday, are both entered and the three others also are live ones.

On account of the heavy track, the races were not called yesterday until 3 o'clock. Today they will be called at 2:30 o'clock sharp.

The officials at the track are: Starter, Col. S. Howard; timers, Thomas C. Brown, William Fasslander, William Dorcas; judges, L. M. Spencer, Morris Harvey and William Treen of Ishpeming; clerk, Victor Munson.

Today is Marquette county day at the fair and it is expected that a heavy out-of-town attendance will be at the grounds. Most of the stores of the city will be closed as was announced and a number of those that were closed yesterday afternoon, will also close this afternoon.

**Children's Day Tomorrow.**  
Tomorrow is children's day. All the school children of the county are to be admitted to the grounds free. A special invitation to the school children of the city has been extended by the fair management and they are to attend in classes chaperoned by their teachers. Free transportation to the grounds has been provided for the children by Peter Wilhelm. This is the arrangement which was made for Wednesday and which was deferred until tomorrow on account of the bad weather.

**WE ARE**  
The only people in Marquette county who manufacture practically everything needed for a building. Buy of the makers and keep your money in Marquette. Consolidated Fuel & Lumber company. (4-27-tf)

### IS ADJOURNED.

Brief Docket in the United States District Court Disposed Of.  
The half dozen cases on the docket of the United States district court were disposed of in two days and yesterday afternoon the court adjourned until next May.

Trevenen Andrews, a Houghton merchant was yesterday declared bankrupt by a jury and the matter was referred to B. O. Pearl, referee in bankruptcy.

Harmadas Belanger of Laurium was to B. O. Pearl, referee in bankruptcy. The cases of Loyd E. Fairchild of Drummond, charged with trespass and Dennis T. Quirt versus the steamer Norman B. Ream were continued.

### CIRCUIT COURT CASES.

Siellampa Convicted and McKee and Perkiomsky Admit They Are Guilty.  
Matt Siellampa charged with larceny was yesterday convicted by a jury in the circuit court and sentence will probably be pronounced within a short time. The complaining witness in the case was Alfred Davis, formerly a friend of the prisoner.

Siellampa and Davis were together and were drinking Tuesday, the 20th of August last, and while Davis was asleep, Siellampa took his watch and a sum of money. He said he had taken the money to keep it for Davis, but he spent a portion of it. Davis said he had been robbed of \$30. Siellampa declared that there was but \$5 in the purse he had taken, and he declared that it had been his intention to return the money.

Gust Perkiomski, the man who tried to kill himself when he was arrested recently at Kenton, yesterday pleaded guilty to the charge of theft. He was formerly an employe of Gust Johnson, a Baraga avenue saloonkeeper and disappeared one night after the cash register had been broken open and robbed of \$80. Sentence in his case also was deferred.

William McKee, charged with the theft of a quantity of wearing apparel from a Baraga avenue lodging house, entered a plea of guilty. Sentence was deferred in the case.

### BABY SAYS GOO AND WINS HIMSELF HOME

### GRAY-EYED CHARLIE CALLED AT FOUR IN THE MORNING AND NOW IS STAR BOARDER.

It was a short time before daybreak yesterday morning when an open-eyed group stood in the parlor of Mrs. Edward Brennan of 120 West Ridge street, and on the floor at their feet there was a wash basket. In the basket lay a sleeping baby. He had just arrived.

It was Mrs. Brennan herself who had summoned the early morning gathering in her front parlor and in an excited whisper, she was telling about the wash basket and about the baby.

**Her Story.**  
"The door bell rang," she told them, "and it awakened me. I dressed and went to the door and opened it. It was dark outside, and at first I could see nothing. Then I looked again and I saw the basket. That's why I called you all."

There was a whispered discussion and finally an examination of the basket was made. In a foal of the little frock on the sleeping infant, a note was found. It was written on a fine quality of white linen note paper, and the writing was in a woman's hand in black ink. The wording of the brief note, its punctuation and general appearance seemed to show that the writer was a person of refinement. On the back of the second sheet there is a blur such as a falling tear might make. The message ran:

"My name is Charlie—if you like me and will keep me, I will tell you more about myself.  
"Please be good to me.  
"CHARLIE."  
About a Year Old.

The baby lay on a pillow and was covered with a gray blanket of coarse material. He had on a little white dress and a white hood was tied about his head. A pair of tiny shoes was tucked in at the side of the pillow. He appeared to be about a year old.

As the hours passed day broke and those in the parlor watched over the baby. Nobody thought of breakfast. The consuming question of the watchers was "When will he waken?" Upstairs somewhere a clock struck, there were some other noises in the street and the baby opened its eyes. His gaze fell directly on Mrs. Brennan's face and he studied her gravely for a moment.

Then slowly the corners of his mouth twitched, a smile appeared and he said "Goo." Mrs. Brennan snatched him out of the basket and from his vantage place in her arms, Charlie surveyed the other units of the gathering. Then he looked down at Mrs. Brennan, smiled and again said "Goo."

Throughout the day Charlie had many visitors. He is a hearty little looking boy and he has a pair of wonderfully colored grey eyes. Mrs. Brennan last night was asked what she intended to do with the baby. She was in doubt on the point, she said, but it was observed that already she had purchased a quantity of clothing for the newcomer and later one of the boarders of the house said "Charlie's all right—he's made a bit here and Charlie has won himself a home."

### UNGALLANT FELLOW.

I saw her in the ballroom,  
A figure most divine,  
A shape that Venus might have envied,  
Superb in every line.

I saw her at the seaside;  
The contrast made me sigh,  
I cannot help believing now  
That "figures" often lie.

There is a case, however, where figures do not lie, and they tell the story relative to the business being done everywhere by the company presenting the laughable comedy, "The Irish Pawnbrokers," which will be presented in this city in the near future, and the management wonders "why" the kind words and bald heads, never dye."

Now is the time to order your kindling wood if you want it dry for winter. Call at or phone to 615 Champion St. Bell No. 78. H. J. KEOPP & CO. (8-20-tf)

### THEATRICAL.

### A Message From Mars.

The products of playwrights are as uncertain as the fortunes that follow prospectors for the rich ores.

When Richard Ganthony, the author of "A Message From Mars" which will be here at the Opera House next Monday night, completed his comedy, he went to New York with the hope of interesting some manager and producer to take his play and present it to the public.

Mr. Ganthony, being wholly unknown as a playwright, encountered many obstacles, none of which he overcame in this country. His greatest hardship was to get audiences with managers. When he would send his name in to a manager, word would usually come back that the manager was too busy to see him—the real reason being that he was unknown. This would naturally be discouraging.

He had about reached the limit of his resources. In other words, Mr. Ganthony was about "broke." Fortune, however, smiled upon him when he last expected it.

A friend from the West, who had known Ganthony as a newspaper writer, and who had been favored by him in his political aspirations, "staked" the author with enough funds to take him to London where he could perhaps meet with better treatment by theatrical managers than he had at home. Within less than three days after his arrival in London he was accorded audiences with five managers and to all of these he read his play and this he was not able to do in New York in five months.

In about four weeks the play was brought forth and it was successful from the very beginning. It has made Mr. Ganthony a rich man as well as several others who were interested with him in his production.

Peck's Bad Boy, the popular farce comedy which has for twenty years reigned supreme in its special field comes to Marquette next Tuesday to again prove that in the drama, as in many other things, he that keeps in closest touch with nature is most likely to shake hands with success.

When Wisconsin Governor Geo. W. Peck of Wisconsin wrote the sketches upon which the play indicated is founded by his exclusive permission, he humorously struck a universal human keynote, to which humanity responded with roars of laughter and applause. This season the play has been largely rewritten and arranged, to admit of the introduction of new comic complications, scenes and surroundings, and special features of a high order, in which even a bigger and better company than ever before will be seen.

### PEOPLE'S MASS CONVENTION.

A People's Mass convention is hereby called to be held at the assembly room of the city hall in the city of Marquette, at 8 o'clock p. m. on the 11th day of September, 1907, for the purpose of nominating a People's candidate for the office of recorder of the city of Marquette, to fill vacancy to be voted for at the election to be held in said city on Sept. 17, 1907.

By order of  
PEOPLE'S CITY COMMITTEE.  
Dated Marquette, Mich., Sept. 5, 1907.

### UNION MASS CONVENTION.

A union mass convention is hereby called to be held in the assembly room of the city hall in the city of Marquette, at 8 o'clock p. m. on the 11th day of September, 1907, for the purpose of nominating a Union candidate for the office of recorder of the city of Marquette, to fill vacancy to be voted for at the election to be held in said city on Sept. 17, 1907.

By order of Union Committee.  
J. H. BENNETT,  
(9-6-07) Chairman.

### CITIZENS' MASS CONVENTION.

A Citizens' mass convention is hereby called to be held in the assembly room of the city hall in the city of Marquette, at 8 o'clock p. m. on the 10th day of September, 1907, for the purpose of nominating a Citizens' candidate for the office of recorder of the city of Marquette, to fill vacancy to be voted for at the election to be held in said city on September 17, 1907.

By order of Citizens' City Committee.  
C. E. BUTTON, Chairman.  
Dated Marquette, Mich., Sept. 4th, 1907.

There is no business in the world today safer or more profitable than mining. Statistics show that there is 45 per cent less failures in mining than any other industry, and dividends of 25 to 100 per cent are not at all unusual. The Grand Traverse & Arizona has been pronounced by the best expert testimony to be one of the best in the southwest. Look in the window as you go into The Standard Drug Co's store and examine some ore taken from this mining company's shafts.

# Northern State Normal School MARQUETTE School Begins October 2, 1907

The Northern State Normal School admits graduates of approved high schools to the two years' course leading to a life certificate and diploma. It offers courses leading to a three-year certificate, which is renewable for three years and valid in graded schools, and also a rural school certificate. Has excellent facilities for training teachers for special work in Kindergarten, Music, Drawing and Nature Study. It has an exceptionally fine corps of teachers who are specialists in their departments, and its training school gives a splendid opportunity for the training of teachers. There is a splendid dormitory in connection with the school which is an ideal home for the student. The building is lighted with electricity and heated with steam; the living rooms are large, well lighted and pleasant, and the dining room has a seating capacity of one hundred and fifty persons. The expenses are moderate. Students of the Northern Normal School who finish the life certificate course are given fifty-six hours credit at the University of Michigan. For information and catalogue write to

LOUISE HOLMES, Secretary  
JAMES HAMILTON KAYE, Principal
