

ORIENTALS MAKE READY TO FIGHT

Fearful of Further Attacks by Whites, Asiatics at Vancouver, B. C., Prepare to Defend Their Lives and Property.

Many of Their Countrymen Badly Beaten in Saturday's Battle, Chinese and Japanese Arm Themselves, and Bloodshed Is Considered Certain Should Rioting Be Renewed as Threatened—300 Extra Police Are Sworn In, and Militia Is Held Ready.

Vancouver, B. C., Sept. 9.—There is renewed apprehension of further anti-Asiatic rioting here, and all morning Japanese and Chinese crowded local gun shops to buy firearms and ammunition.

Several hundred Chinese and Japanese have armed themselves. All Chinese and Japanese in the domestic service have stopped work, and have been forced by threats of their countrymen to act as part of the defensive guard.

Three hundred special policemen were sworn in today, and there is talk of calling out the militia. There is little doubt that this will be done in case the rioting is renewed.

LOSE COSTLY GOODS

Two Young Women Arriving from Abroad Are Plucked by Customs Officials.

New York, Sept. 9.—The customs inspectors made a large seizure today upon the arrival of the steamer La Gasconne, of the French line, when two young women whose names appear on the passenger list as the Misses Agnes and Catherine Barrett, of French Lick Springs, Ind., were searched and each was found to be wearing an open coat of fine Irish point lace, both undeclared.

MINES ARE CLOSING.

Zinc Ore Piques Down, Producers at Joplin Are Stopping Work.

Joplin, Mo., Sept. 9.—The lead and zinc ore producers of the Missouri-Kansas district are closing down their mines because of the extremely low price of zinc ore.

VETERANS THROG CITY.

Thousands in Saratoga to Attend the Grand Army Encampment.

Saratoga, N. Y., Sept. 9.—On the eve of the first annual encampment of the G. A. R., Saratoga tonight is crowded with veterans. Thousands arrived during the day by special trains.

WALL PAPER CONCERN FAILS.

Stevens Point, Wis., Sept. 9.—Public announcement of the failure of the Western Wall Paper Mills company of this city was made today, the concern having decided to go into voluntary bankruptcy.

DIE IN RIVER

FOUR SAGINAW YOUNG PEOPLE DROWN.

Saginaw, Mich., Sept. 9.—Two young men and two girls were drowned in the Saginaw river tonight when a gasoline tank exploded in a power launch. It is thought the tank caught fire from the signal light. The explosion blew the engine from the boat and set the launch on fire.

TURTLE'S JAWS HELD.

Kept Their Grip on Boy's Leg Even After Decapitation.

Beaver Falls, Pa., Sept. 9.—Jimmie Roberts, the ten-year-old son of William Roberts, a Big Beaver township farmer, used to laugh at folk who thought turtles could bite after being decapitated. He won't any more.

HAY RIDES UNDER BAN.

Stuebenville, O., Sept. 9.—Bishop J. J. Hartley of Columbus diocese has written a letter to the Catholic pastors here asking them to ban hay rides. Catholic young people who take part in them hereafter will be required to do public penance.

AUTOMOBILE RACES HAVE TRAGIC ENDING

One Man Meets Death on Track Near Pittsburg, Pa., and Two Others, Injured, Are in Desperate Condition.

Tire Coming Off, Rex Rainerstein Is Killed When His Machine Overtakes, and His Companion Is Severely Hurt—Walter Christy, Going at Terrific Speed in a 140 Horsepower Machine, Crashes Into the Wreckage, With Result His Life Is Despaired Of.

Pittsburg, Sept. 9.—One man is dead and two others are more or less seriously injured as the result of two accidents at a series of automobile races held at the Brasos island track near this city today.

The dead man was Rex Rainerstein, thirty-five years old, president of the Automobile Repair company of this city, who died of a fractured skull. Walter Christy, twenty-six years old, of New York city, fractured his right arm, sustained scalp wounds and bruises. It is feared he has also been internally injured. Clarence Dastion, who was a mechanic for Rainerstein and was riding with him at the time, received injuries to his spine that are very serious.

Rainerstein was driving in a race when a tire came off, and the machine turned over. Rainerstein and Dastion were caught beneath the car. Rainerstein was found unconscious, but Dastion was able to direct the rescuers. Rainerstein died on the way to a hospital.

The wrecked car was left at the edge of the track, and an order was received from Walter Christy to make a new track record for a mile in a new 140 horsepower car. Christy was cautioned to be aware of the wrecked car.

He crossed the tape at a speed that could hardly be estimated. He ran into the back street and approached the wrecked car at a speed that carried him too far out.

Christy's car struck the obstruction on the track fairly full speed. The big racer bounded fully fifty feet in the air, and Christy was hurled as if from a catapult, a long distance ahead. As he was thrown from the machine the steering wheel caught him across the stomach, and it is from this, it is feared, he has sustained internal injuries.

As Christy struck the ground his machine lurled the wreck and came down on him, and he lay buried among a mass of wreckage, from which he was taken and sent to a hospital.

WIFE KILLED INSTANTLY.

New Yorker Now Dead from Injuries Received in Automobile Race.

Norwalk, Conn., Sept. 9.—Paul McCormack of New York is dead from injuries sustained in an automobile accident here two weeks ago in which his wife was killed. McCormack at the time of the accident was racing with John H. Tyson of Riverside and was trying to make a record between Hartford and New York. Near the Darien town line the McCormack car collided with a carriage, wrecked the vehicle, slightly injuring the four occupants, and dashed into a tree. Mrs. McCormack was instantly killed. Her husband was picked up unconscious and taken to the Norwalk hospital.

GIVES LIFE TO SAVE MANY.

Track Walker Run Down by Train Just as He Fails Attempted Wreck.

Pittsburg, Pa., Sept. 9.—Francesco Levita, a track walker of the Pennsylvania railroad, gave his life to save those of several scores of passengers on the Chicago limited and brought the notice of the railroad the fact that train wreckers, who terrorized the road in the spring, are at work again.

Levita discovered that the spikes and fishplates of a section of the track at Arda had been removed. He knew that the express was bound for Hartford and he carried Levita drove the spikes again and replaced the fishplates. Just as he was putting the last bolt in the last plate the express rounded the curve. So intent was he on his work that he did not notice it and the engine threw him down the embankment. He died in the hospital.

BIRD HAS FINE FUNERAL.

Hoosier Family Mourns Parrot Which Spoke Two Languages.

Elwood, Ind., Sept. 9.—A parrot belonging to the family of J. W. Call, brought to this city from Honduras in 1889, is dead, and the Call family is plunged in grief. The bird was a smart talker, speaking both German and English. It called each member of the family by name, and asked for various kinds of food, water, and anything it wanted. A costly burial was given it at the foot of the grave of a son of the family in the city cemetery. The owner received \$1,000 for the parrot a short time ago.

METEOR FALLS IN TEXAS.

Saratoga, Texas, Sept. 9.—A meteor was seen last night by hundreds of persons near Nederland. Parties living in the vicinity, seeing it fall, recovered it today. It weighed sixty-five pounds, and was shaped something like a football. It went into the ground about seven feet and burned all the grass within a radius of six feet. The meteor was sold for \$25. In its flight over this town it appeared as a large ball of fire with a tail to it.

WILL EAT SALT-PETERED MEAT.

University Students to Get Free Board and Lodging for a Year.

Urbana, Ill., Sept. 9.—The University of Illinois "salt-peter squad" is going into action next week when the institution opens and Dr. H. S. Grindley, the head experimenter, is entering into brisk competition with the Greek letter societies in advocating the advantages of his club.

In return for permitting their digestions to be used in the interests of science, twenty-four young men will be given board and lodgings for a year. They will be fed on the fat of the land. Dr. Grindley has two large houses waiting for the "salt-peter squad." The American Packers' association, which hopes to demonstrate that salt-peter is injurious as a meat preservative, is footing the bills, and the tests are under the supervision of the state university and a committee of experts of national renown.

A wall of lamentation has gone up from the women students, who are barred. The "poison squad" is to be fed meat exclusively. It is hinted that the adherents to the strict routine of eating and sleeping planned for the members of the squad.

Three parties of eight men each will be formed. Some will be fed with fresh meat, others with salt-petered beef. Careful record will be kept of the weight and the state of health of the students during the experiments.

BASEBALL

STANDINGS OF THE CLUBS.

Table with columns: National League, American League, Philadelphia, Pittsburgh, Cleveland, etc.

SCHEDULES FOR TODAY.

Table with columns: National League, American League, Boston at New York, Philadelphia at Boston, etc.

GAMES PLAYED YESTERDAY.

ROOSEVELT AND BRYAN ON CLEVELAND STUMP.

President to Talk for Burton Same Day Nebraska Shouts for Johnson.

Cleveland, O., Sept. 9.—President Roosevelt and W. J. Bryan may speak in Cleveland during the campaign for the mayoralty. The president has written a letter to Congressman Burton, the Republican nominee, saying he will start Cleveland on his deep water way trip, and this is construed to mean that the president is willing to deliver a speech urging Burton's election.

To offset the influence of the president, Tom Johnson, who will be the Democratic candidate, may ask W. J. Bryan to speak for him on the same day that Roosevelt talks. He claims to have assurances that the Nebraskan would come.

Cleveland is nominally a Republican city, but has always been Democratic when that party advanced public ownership.

MR. ROOT VISITS NEW YORK.

New York, Sept. 9.—Secretary of State Elihu Root spent a portion of the day in New York, having come here from the city of six feet. The meteor was sold for \$25. In its flight over this town it appeared as a large ball of fire with a tail to it.

JIMMY BRITT LOSES TO GANS

Breaking His Wrist as the Result of a Vicious Swing Which the Negro Blocks on His Elbow, He Is Forced to Quit.

However, the Blow Is His Merciful Undoing—Fight Goes Five Rounds Before 14,000 People at 'Frisco, and from the Start the Outcome Is Unquestioned—Out-Matched for the First Time in His Life, the Californian Never Has a Chance to Win.

San Francisco, Sept. 9.—A left swing to the body cleverly blocked by Joe Gans cost Jimmy Britt any chance he might have had today to win the lightweight championship of the world, and fought to a close five rounds of fast fighting witnessed by a crowd of about 14,000 people at Recreation Park.

This blow blocked by Gans was caught on his elbow, and was struck in the middle of the fourth round. It broke Britt's wrist, and though he went on again in the fifth round he was helpless in both offense and defense. It was not until this round that he informed his seconds of his mishap.

"What's the use of my going on? I can't fight, I am helpless," he said to Tim Keeling, Captain of Police Gleason was notified at the ringside, and he stopped the fight. Referee Welch gave the decision to Gans.

Three doctors after an examination stated that the injury was a fracture and dislocation of the lower end of the ulna, the innermost bone of the wrist. Whether it was a genuine fracture or not, Britt showed such intense suffering while the doctors were manipulating his wrist that tears rolled unchecked down his cheeks.

"I was utterly helpless," he said. "I couldn't even hold up my left hand after I broke it. I had to guard for Gans' left, and I had no punch except with my right."

The fight while it lasted was a slug-fest, but it was perfectly evident to every trained observer that Britt had no chance to win from the negro. For the first time in his life he was out-matched.

Britt's lack of coolness was partly responsible for the miserable ending of the fight. From the first tap of the gong he appeared over-eager. He was not content to take the advice shouted to him by his seconds to make Gans do the leading, but rushed headlong into quarters that developed an inevitable slug-fest in which the champion had by far the advantage.

In the first round Britt staggered Gans with a left swing on the neck that had lots of force in it. In the same round he also used his left and his right successfully to the body and face, but took in punishment a straight left on the nose that slowed him down.

The second round developed a mix-up at the ropes in which both men exchanged vicious rights and lefts. Gans taking the advantage, and the Californian had his hands and feet busy working his way out. The round was even.

Gans drew first blood in the fourth with a lightning-like straight left that brought a scarlet stream trickling from the corner of Britt's mouth. It was right after this that Britt threw all of his strength into the left swing that proved his merciful undoing. The decision of the doctors effectively disposes of any claim of "fake."

Technical Story of the Mill.

The fight by rounds follows: Round 1. Britt quickly shot a left to Gans' ribs. They sparred. Britt swung a fearful left that caught Gans on the side of the jaw and sent him rolling. Britt had a shade the better of the round.

Round 2. At close range Gans rocked Britt's head with two powerful lefts, and then shot a right to the face. Gans had the advantage as the bell stopped a fierce rally.

Round 3. Britt backed a left on the nose and sent Gans' head back with a straight left on the nose. Gans did not break ground and met Britt's rushes with straight lefts. The pace was very rapid, and the round was even.

Round 4. Gans swung three terrific rights to the jaw, and Britt appeared groggy. Britt fought back gamely, but missed attempts to land. Britt spat blood. Gans had a big advantage.

Round 5. Britt broke his left forearm and could not continue the fight. Gans was awarded the decision, Britt being unable to respond for the sixth round. Gans said that it would have been but a question of a round or more that he would have had Britt out. Doctors were summoned quickly, and Britt was subjected to a severe examination. It developed that Britt had broken his left arm below the wrist. It was announced by Referee Welch. The crowd made no demonstration until the decision was announced.

MEDICAL MEN IN SESSION.

International Dermatological Congress Meets for First Time in America.

New York, Sept. 9.—The sixth international dermatological congress opened here today with 250 members from all over the world in attendance. This is the first time it has assembled in America. Dr. James C. White of Boston called the congress to order, and Surgeon General P. M. Rice, United States army, delivered an address of welcome on behalf of the federal government and President Roosevelt, whom he said was generally interested in medical progress.

SPANISH TROOPS TO GO

Brigade of 7,000 Men Ordered Made Ready for Service in Morocco.

Gibraltar, Sept. 9.—Orders have been received by the Spanish military authorities at Algeiras, near here, to hold a brigade of seven thousand men in readiness to embark, Sept. 11, for Tangier on board trans-Atlantic steamers.

Sultan Gets Money.

Tangier, Sept. 9.—The state bank of Morocco has informed the foreign ministers it has decided to advance Sultan Aziz the \$200,000 promised him to enable him to leave Fez for the coast, and that the first installment has been sent to him.

Germany's Position.

Berlin, Sept. 9.—Germany's reply to the French note relative to the formation of a Moroccan police from the French and Spanish troops says that Germany assumes that the measure proposed is merely of a provisional character and without prejudice to the terms of the Algeiras convention. The reply of Germany calls attention to the opinion of the German representative at Tangier that the appearance of foreign police there and at other Moroccan ports at the present moment is likely to result in mountain tribes attacking the cities.

TEN HOURS IN THE SADDLE.

American Army Officers Inspect Kaiser's Fighting Machine.

Cassa, Germany, Sept. 9.—The American officers attending the German army maneuvers in this vicinity as the guests of Emperor William spent ten hours in the saddle today, riding up and down the lines, which extended twenty-five miles, under the guidance of Major Von Koerner, German military attaché at Washington, who had been detailed to attend on the American officers. The general impression formed by the Americans is that the German army is a splendid fighting machine.

FAIRBANKS IN COLORADO.

Denver, Colo., Sept. 9.—Vice President Fairbanks arrived from the West on a delayed train at 11:30 o'clock today and was escorted to Mineral Palace Park, where he made an address and where he met Senator Tillman. After an address a banquet was given in his honor at the Grand Hotel.

JURY NOT YET SECURED.

Chicago, Sept. 9.—The trial of Anasa Campbell for the murder of Dr. Harris was resumed today. There was unexpected delay in the selection of the jury, and it had not been completed at a late hour.

DIPHTHERIA'S FOE

IMPORTANT DISCOVERY IS MADE KNOWN.

New Anti-Toxin Is Found That Will Kill the Germs of the Dread Disease Within the Short Space of Three Minutes.

Columbus, O., Sept. 9.—Announcement of the discovery of an anti-toxin that will kill diphtheria germs in living human organism within the short space of three minutes was made at the Ohio State University today by Professor Blythe, physiological chemist, as a result of an exhaustive technical and intricate series of tests. The anti-toxin was given tests in hospitals and private practice before today's announcement was made. It can be applied in any quantity to the youngest patient.

TWO MORE DEATHS FROM THE PLAGUE.

San Francisco, Sept. 9.—Two more deaths from the bubonic plague occurred today, and three additional cases were verified.

MEN TRY TO TRADE WIVES.

Unique Deal Falls Through Because One Woman Objects.

Uniontown, Pa., Sept. 9.—A wife trade, with a lot to boot, a trip to the old country after one wife who would not ratify the deal, and a subsequent cancelling of the entire transaction, is the story of one of the most unique proceedings ever recorded in Fayette county.

George Mettlo, a boarding boss at Martin, and Miss Paul, his star boarder, closed a deal, it is alleged, for the exchange of their wives. Paul's wife was in the old country, but Mettlo came before he came to America. The transaction was reduced to writing, the terms of which are said to have been that Paul's wife in the old country Paul should give a lot at Martin, and also pay the fare of Mettlo to the old country to get his new wife.

The wife here is said to have sanctioned the trade. Mettlo turned her over to Paul, and left for his native land, but there Paul's wife was obdurate, and Mettlo was obliged to return without her. He has just arrived here, and after demanding the return of his own wife, and giving back the deed of the lot, the entire deal was called off.

MRS. PHILLIPS ARRAIGNED.

Slain Clubman's Wife Pleads Not Guilty to His Murder.

Cleveland, O., Sept. 9.—Mrs. Charlotte Phillips, seated in a carriage with a nurse and a physician, was arraigned before Justice Brown today on the charge of killing her husband a week ago. She furnished bond, and the hearing was set for Sept. 20. Mrs. Phillips pleaded not guilty, and waived examination.

HAZERS' VICTIM ON HIS DEATHBED

Given the "Degree" by Fellow Workers at a Pennsylvania Steel Mill, Henry Perry Lies in Critical State.

Securely Fastened to a Huge Iron Crane He Is Swung Above the Flame of a Big Blast Furnace, Where He Hangs Until the Cords Are Burned Through and He Drops to the Ground, His Flesh Shriveled and His Clothing Charred.

Washington, Pa., Sept. 9.—Henry Perry, a mill worker, is dying tonight from brutal lacerations administered today by fifty employes of the Taylor Tube & Pipe company.

Perry came to work yesterday. At the midnight lunch hour he was seized by two powerful mill men that he might be put through the "degree." Perry fought valiantly until overpowered. His clothing was fastened to the hook of a big iron crane, and he was bound fast with cords. Then he was swung above the flame of a big blast furnace which usually is approached by the workmen only when covered by a shield.

Finally the cords were burned through, and Perry's unconscious form dropped to the floor, in front of the furnace, where his flesh was shriveled and his clothing charred. His tormentors, alarmed at their work, called Dr. J. R. Maxwell, who worked with the men for seven hours before restoring him to consciousness. The physician believe that Perry inhaled the heat from the flames, and they entertain little hope for his recovery.

Warrants were issued for the ring-leaders, but they escaped by getting out of town.

WOULD MEAN RUIN, HE SAYS.

Great Western President Protests Against Minnesota's New Rates.

St. Paul, Sept. 9.—President A. B. Stickney of the Chicago Great Western railroad, in an affidavit filed in the federal court today, says that if the commodity and two-cent passenger rates now in controversy in Minnesota are made effective, the road will be financially ruined.

DENY GOVERNMENT'S CHARGES.

Alleged Coal Trust Members Fill Answers in U. S. Court.

Philadelphia, Sept. 9.—Answers and denials to the suit brought by the government to dissolve the so-called coal trust were filed today in the United States circuit court here by the New York, Susquehanna & Western Coal company, Erie Railroad company, New York, Susquehanna & Western Railroad company and Hillside Coal & Iron company. The answers are a general denial of the charges.

TO SETTLE STRIKE

Samuel Gompers Has Proposition to Submit to the President of the Telegraphers.

Washington, Sept. 9.—President Gompers, of the American Federation of Labor, left here today for New York to confer with President Small of the Telegraphers' union concerning a proposition to settle the strike.

Officials of the Telegraphers' union here today sent President Small the following telegram: "Samuel Gompers requests you to meet him at the Pennsylvania station, Twenty-Third street, New York city, at 6:30 this evening and to bring Organizer Herman Robinson with you. Mr. Gompers will have a proposition to make to you, and we urge that you give it most serious consideration and, if possible, bring the strike to an honorable termination."

WILL REPEAT MUKDEN BATTLE.

Federal Soldiers to Engage in Mimic Conflict on Kansas Plains.

Topeka, Kas., Sept. 9.—On a wide stretch of Kansas plain the savage battle of Mukden is to be fought again—a mimic struggle which for ten smoke-blown days is to stagger over 80,000 acres of government reservation. The army, with its siege guns and field artillery, will throw its strength against the redoubts which the engineers have constructed—a fortification which duplicates as far as possible the one at Mukden.

It is chiefly for the purpose of seeing what American artillery can do under identical circumstances that this mimic battle is to be fought. Dumbbells are explosive with which our shells are to be charged. The works which are to be attacked were constructed by the Third battalion of engineers, now stationed at Fort Leavenworth. The redoubt is thirty feet high at the base and twelve feet at the top. It is revetted with fascines, hurdles, brush, and sod.

DAILY MINING JOURNAL

MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED). Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00; Per month, by mail, \$0.75. MARQUETTE, MICH., SEPT. 10.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

No. 1 of the mass conventions for nominating candidates for the recorder's office will be held tonight. The ball is on.

The Ringlings may control the circus world, but in order to get very deep into the upper peninsula it appears that they will also have to pick up a railroad or two.

Walter Wellman says he doesn't want to commit suicide, this will not make his polar dash, via the air ship route, unless all conditions are favorable.

The Marquette ball team gracefully withdraws its U. P. championship aspirations. However, it has been a tidy little ball team at that, and put up some good games during the season.

In a letter to the Soo Times Chase S. Osborn wrote, in part: "I have received a marked copy of the Soo Times calling my attention to two articles suggesting me as a candidate for congress in this district."

Governor Warner is getting a line on public sentiment. His minor appointees have been asked to sound representative men in the districts where they work as to their opinions in regard to what the administration has done and desires to do.

North Marquette can have water, i. e., if it wants it on the water board's terms. The board proposes to go ahead with the main extensions that will supply the district, but also proposes to assess part of the expense on the property benefited.

The fair is over. The Mining Journal has heard expressed many opinions regarding it. The horse races have been in its hearing characterized both as "excellent" and "poor."

ANNUAL STOCKHOLDERS' MEETING. Mineral Range Railroad Company—Hancock & Calumet Railroad Company.

Do You Think For Yourself? Or, do you open your mouth like a young bird and gulp down whatever food or medicine is offered you?

THE HYPSTERICAL EAST. Assuming that all the pother is not of political inspiration and designed merely to embarrass the present administration, the apparent panic on the eastern seaboard over the sailing of our fleet to the Pacific coast is a truly remarkable phenomenon.

A Marquette clergyman informs The Mining Journal that a mother recently came to him in great distress because her daughter had returned home intoxicated, by liquor she obtained in one of the saloons.

The members of the police commission reached by a Mining Journal reporter all expressed themselves favorable to the project of improving the police protection by stationing an officer at headquarters, and admitted that the present system is sadly lacking, in that, under it, there is no certainty that an officer can be secured on short notice.

Such talk as this will earn for the speakers little except contempt from the rest of the country, which is disposed to look upon the whole matter as simply a demonstration that we need enough warships and navy yards to protect both of our coasts, and as an illustration of the value to the nation of the Panama canal, which will make such voyages needless in the future.

ALL FOR ROOSEVELT. John Fitzgibbon, correspondent of the Detroit News, has been feeling the public's pulse in the Saginaw and Grand Rapids districts, and he says that these parts of the state believe in Roosevelt.

Upper Peninsula Steamer Made Fast Trip. Towing one large, the steamer F. R. Buell, C. W. Woodruff, master, has broken the record for the run from Buffalo to Marquette.

Oldtime Newspapers. A visit by Geo. A. Novett of Ishpeming to Grand Island, in Lake Superior, has been productive of a novel souvenir of the occasion.

Oil Inspectors Named. State Oil Inspector Frank S. Neal has announced the appointment of his deputies in different parts of the state and included in the list are three upper peninsula men.

Fire Loss is Total. No insurance was carried on Barney Wigan's lath and lumber mill, destroyed by fire at Grand Marais, and the loss is total.

Trapper Dies Alone. Edward Smith, a hunter and trapper, died while alone in his cabin a short distance from Savelin, Dickinson county.

Apples a Profitable Crop. Apples are one crop which has done well in Upper Michigan this season. The yield of the fruit is unusually heavy.

Do You Think For Yourself? Or, do you open your mouth like a young bird and gulp down whatever food or medicine is offered you?

THE HYPSTERICAL EAST. Assuming that all the pother is not of political inspiration and designed merely to embarrass the present administration, the apparent panic on the eastern seaboard over the sailing of our fleet to the Pacific coast is a truly remarkable phenomenon.

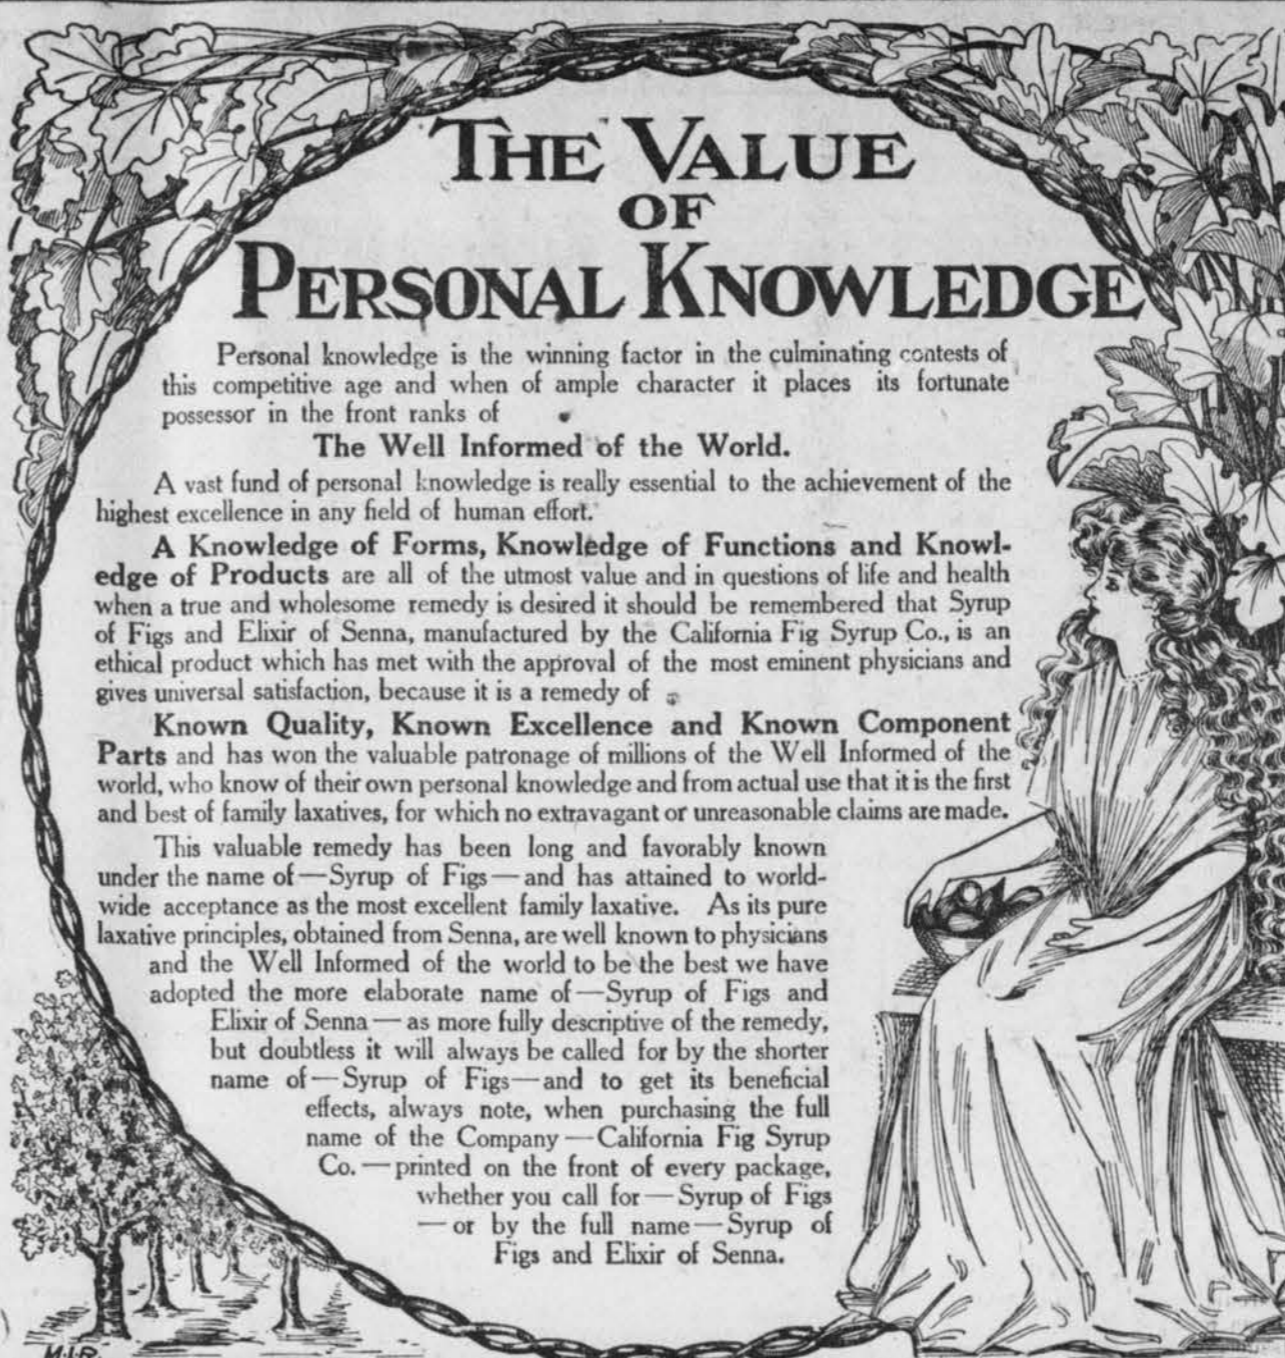

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—

California Fig Syrup Co. printed on the front of every package, whether you call for—Syrup of Figs or by the full name Syrup of Figs and Elixir of Senna.

CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL., U.S.A. LOUISVILLE, KY. LONDON, ENGLAND. NEW YORK, N.Y.

City Brevities

Yesterday's temperatures: 7 a. m., 56 degrees; noon, 57; 7 p. m., 56; maximum, 59; minimum, 56.
 Forecast: Fair, stationary temperature.

A. W. Moore left for Norway, Mich., yesterday.

Mr. and Mrs. Harry Pelton left for Milwaukee yesterday morning.

Born, yesterday, at Houghton, to Mr. and Mrs. John G. Stone, a son.

Captain Sam Mitchell of Negaunee visited friends in the city yesterday.

State Senator M. H. Moriarty of Crystal Falls was in the city yesterday.

Miss Frei has gone on a business trip to Chicago. She will be gone two weeks.

Miss Gertrude Rustenloven left yesterday for Detroit to enter the Detroit Conservatory of Music.

Miss Clara Farm of Ishpeming will sing at the Grand theater the last three evenings of this week.

Sam Bennett of Fairview, Cal., is visiting his cousin, Under Sheriff Sam Bennett of 343 Bluff street.

Joseph Nagle concluded a visit with friends here yesterday and left for his home at Auburn, N. Y.

Miss A. Curtis of the postoffice has left for a two weeks' vacation, part of which is to be spent at Detroit.

Mrs. Judd McGregor and daughter of Texarkana, Tex., are visiting with Mr. and Mrs. George McCombs.

Mr. and Mrs. Clarence Bice, who have been visiting Edward Bice, have returned to their home in Dayton, O.

The Marquette Gun club will hold a shoot at the foot of North Third street this afternoon at 4:30 o'clock.

Mrs. Carl Stone and her son Carl Stone, Jr., who have been visiting in the city have returned to their home in Newark, O.

Nelson McCombs and wife, of Warren, Ohio, left Sunday evening on the Tonesta after visiting with Mr. and Mrs. George McCombs.

Miss Alice Miles left yesterday for her home at Auburn, N. Y., after a visit of several weeks at the home of Oscar V. Rean, Mather street.

Robert Anderson and his sister, Miss Esther Anderson, who have been visiting friends in the city, have returned to their home in Chicago.

Rev. A. Andre, pastor of the Swedish Lutheran church, has come to Muskegon to attend the conference of Illinois ministers being held there this week.

Mrs. George E. Buell left for her home at Valton, Wis., last evening after a month's visit with her sister, Mrs. Charles McCormick, North Third street.

Will Whitman, a former Marquette boy, now of Hyles, Wis., is the guest of Alan Wheeler, Pine street. He leaves shortly to visit his brother at Ironwood.

The wrecking tug Favorite of St. Ignace was in port yesterday. She was on her way to Hancock for machinery to be used on work she is doing at Grand Marais.

Miss Vangie L'Hullier arrived home Sunday evening on the Tonesta accompanied by Miss Genevieve Roberts of Houghton, who will be her guest for a few weeks.

Madam Bonaman, the colored singer of Chicago, who is visiting in Marquette, sang "Ave Marie" at the Methodist church Sunday night. She has a voice of wonderful range and power.

William McCormick of Gladwin, Mich., arrived on the late train last night for a visit with his brother, Charles McCormick, of North Third street. This is their first meeting in over twenty years.

Mr. and Mrs. Harry Byrne of Butte, Mont., arrived yesterday for a brief visit at the residence of Mr. Byrne's father, Judge Samuel E. Byrne, North Front street. Mrs. Byrne was formerly Miss Alice Ryan of Hancock.

Will Play at Newberry—The Marquette baseball team will play a return game with the Newberry club at Newberry next Sunday afternoon. It will probably be its final contest of the season.

To Discuss New Structure—At a meeting of the City's Friendly society of the Episcopal church to be held tonight at Morgan Memorial chapel, Rev. Bates Burt, pastor the church will describe the plans for the new parish house which is soon to be built north of the chapel.

Libel Suit Is On—The suit of James Russell versus D. E. Hampton and the Kalamazoo Telegraph company is on in the circuit court before Judge Stone. The suit is based upon an article published in the Kalamazoo Daily Telegraph upon information given to that paper by Daniel Hampton, an ex-convict and a former prisoner at the Marquette prison.

New Locomotives—The South Shore has ordered two new locomotives for the passenger service and three for service in the hauling of iron ore. The additional equipment will prevent a repetition of last winter's difficulties in keeping the stamp mills supplied. Besides them, the Mineral Range railroad has ordered three heavy locomotives for rock train service.

Bill at the Bijou—Besides the moving pictures included in this week's bill at the Bijou, there are four unusually good vaudeville acts and one illustrated song. This last is by J. J. Ryan of Milwaukee, whose tenor voice has made a hit in Marquette. Master John Adams does an thrilling slack wire act. Charles H. Saunders has a sketch full of fun and well presented. Harry LaSalle as the King of Clubs is a high class entertainer as are the Roys in singing, dancing and dialogue. The pictures shown are "The Bunco Steerers" and "The Bad Son."

Three performances are given daily, one in the afternoon and two at night.

Horse Left Behind—A brown horse of uncertain age and pedigree was left behind when the animals at the county fair were removed and George Bricker, custodian of the grounds, who is caring for the animal, is seeking its owner. The horse was found tied to a post near the pens. Besides a strap about its neck, there was no other piece of harness on it, and it was washed. Some of the jockeys said that they had been eating for the horse during the two closing days of the fair believing that its owner was one of the exhibitors or was someone interested in the race. When the grounds were abandoned the horse was left behind and so far, no one has come forward to claim it.

THEATRICAL.

Selfishness is the theme of the play, "A Message from Mars," presented at the opera house last night and as his hero, Richard Garthorn, author of the play, chose the most selfish man on earth whose reform is accomplished by a wonderful dream, all the details of which are acted, and in which an inhabitant of Mars is the central figure. Horace Parker, the selfish man, was played by the well known British actor, Wallace Wildecombe.

In the opening scene, which is laid in Parker's house, the hero's character is brought out. He shows utter indifference for all but himself, refusing the trivial requests of these about him and through his selfishness, causes them disappointment and discomfort. The marked trait in his character is shown chiefly in his demeanor toward Minnie Temple, the girl to whom he is engaged. Among other egotistical beliefs he has, he thinks, he is a scientist and he falls asleep reading an essay upon the planet Mars. It is at this point that the Martian appears.

The inhabitant from Mars informs Parker of his mission "to reform the most selfish man on earth" and to teach him human kindness. The Martian first demonstrates his power to do this, compelling obedience to his every command. Parker is shown the contentment in which he is held. He is brought in close touch with the human misery of the world and is finally reduced to beggary and starvation himself. As finally he learns his lesson, the Martian disappears. Parker awakens in the chair in which he had fallen asleep and discovers that he has dreamed the experiences, but he learns the lesson and the dream completely changes his character.

The play is of a very unusual order and is most imaginative. Mr. Wildecombe's presentation of the selfish man was excellent and he was well supported. The heroine, Minnie Temple, played by Ellen Errol, was one of the best acted parts of the play and Parker's aunt, played by Nellie Blanchard, was exceedingly well done. Joseph Bernstein took the part of the Martian, and aided by a wonderful voice and splendid make-up, played the part faithfully.

The part of the tramp, one of the characters Parker meets, first before the dream and later when the two became fellow sufferers was well acted by Alfred Beaumont. During the play a number of electrical effects were introduced. The staging throughout was good and the snow storm of the second act was most realistic. The house was well filled and all who saw the play were thoroughly pleased with it.

"Peck's Bad Boy."

Bigger, brighter and better than ever is the metropolitan verdict on the farce comedy, "Peck's Bad Boy," which is to be at the opera house tonight. It is the only play founded upon the series of humorous sketches whose name it bears, and arranged by ex-Governor George W. Peck, their famous author.

When George W. Peck was applied to for the sole permission to dramatize his successful "Peck's Bad Boy,"—written a short time prior to his election as governor of Wisconsin—he consented to entertain the proposal. He provided the book was satisfactorily dramatized and the play, under the title name, staged in first-class style and in a manner that would receive the approval of good people and the press.

Twenty years of continuous and enormously popular production are behind the farce comedy to prove not only the governor's entire satisfaction with the theatrical result, but the delight that countless thousands have found therein as well.

MARKETS

NEW YORK STOCKS.

New York, Sept. 9.—Several circumstances combined to make this an extremely dull day in the stock market. One cause was the Jewish holiday, which caused many absentees from the financial district; another was the government report on grain, due tomorrow. Still another was the eve of the offering of the New York city 4 1/2 per cent bonds, bids for \$40,000,000 of which will be opened tomorrow. This event was of influence from two points of view. Its direct effect was perceptible in the stiffness of the call money market, where the rates rose above the highest level of last week, which was 4 per cent, today going to 6 per cent. The reduction of the resources available for employment in stocks had its influence in curtailing operations. As the final installment on the Union Pacific convertible bonds, which called for about \$33,000,000, is also payable tomorrow, the requirements on the money market are heavy. The strain is expected to be short-lived on this side, as immediate receipts are likely to be made. But much more importance is attached to the outcome of this important bond sale in its details as they may throw light on the question of how far there may have been a revival in the general investment situation. As bearing on this the price at which the bids for them are awarded, the volume of the bids for them and the distribution of the demand both here and abroad will all be studied with the keenest interest and attention. The feature in the money market was a stronger tone again for time loans for long periods. The London money market remained tranquil in spite of a decline in the foreign exchange rate and a taking of gold for Berlin account in London, the latter being reported as an arrangement between competing parties so that the price of gold in the market was lower.

Paine, Webber & Co. telegraphed from New York yesterday as follows: "During the latter part of the week, which was generally observed in the exchanges, both here and abroad, the stock market today was an exceedingly stagnant affair and calls for no lengthy explanation. During the foreign the bear party depressed prices fractionally, but succeeded in getting a great amount of stock with the result that they later hid up the market in covering their commitments. Call money was materially firmer today, in sympathy with preparations for the New York City bond sale and the heavy Union Pacific convertible subscriptions. The trading was so lifeless that room operators found difficulty in scalping fractions, so that many of them deserted the floor early."

Closing prices were: U.S. Steel... 32 1/2, G.P. & I... 25, Rep. St... 10 1/2, Sm. Ste... 10 1/2, Sugar... 12 1/2, St. Paul... 10 1/2, Atch... 8 1/2, C.P. & N... 20 1/2, Rock Island... 20 1/2, Panna... 12 1/2, I. Cent... 10 1/2, D. & H... 16 1/2, No. Ry... 39 1/2, Ill. Cent... 12 1/2, M. & O... 17 1/2, B. & O... 9 1/2

Range of Money Rates. New York, Sept. 9.—Money on call was strong and higher today, at 4 1/2 per cent; ruling rate, 4 1/2; closing, bid at 5 1/2, offered at 6. Time loans, strong for the long periods; sixty days, 5 1/2 per cent; ninety days, 5 1/2 to 6 per cent; six months, 6 to 6 1/2 per cent.

Boston Stock Quotations. Writing from Boston yesterday, Paine, Webber & Co. said: "The market continued dull today and

that some cut freely from New York sources and showed a decline of 1/4 for the day, in spite of good buying by local investors. The political opposition to Roosevelt is increasing and the banking interests of the country are determined to defeat him for re-nomination. We expect a long dull period."

Closing prices were: Anaconda... 46, Bingham... 11 1/2, B. C... 20 1/2, C. & N... 14 1/2, Cent... 22 1/2, Cop. Min... 10 1/2, Fran... 10 1/2, Green... 10 1/2, Idaho... 16 1/2, Mich... 11 1/2, Mont... 55 1/2, N. Mex... 61 1/2, Old... 27 1/2, Par... 34 1/2, Phoenix... 18 1/2, R. I... 4 1/2, Trin... 15 1/2

Metal Prices. New York, Sept. 9.—Copper was lower in the London market today, with spot quoted at £72, 12s, 6d and futures at £72. Locally the market was weak, with Lake quoted at 17 1/2 to 17, electrolytic at 16.50 to 17 and casting at 16.25 to 16.50. Iron was irregular in the English market, with standard foundry quoted at 53s, 9d and Cleveland warrants at 54s, 7 1/2d. Locally the market was unchanged, with No. 1 foundry Northern quoted at 22 1/2 to 23 and No. 2 foundry Northern at 19.70 to 20.70.

An Optimistic View. The Boston News Bureau says: "Copper futures in London for the past few days have been higher than for spot for the first time in a good many months. Herebefore London spot copper has been at the way from one pound to five pounds higher than futures. The change in the quotations would appear to prove that Europe is buying considerable copper on the new basis of 18c, as our reports have indicated. As present there is a very much better market for copper abroad than in this country, but foreign consumers can have no smaller stocks than the consumers in this country, for the last big sales made in this country were effected last March for delivery in April, May and June. A copper producer says: "It is very evident that in 1907 there will be a falling off of at least 5 per cent in the production of copper, which would mean about 20,000,000 pounds on a normal American production of about 100,000,000 pounds per month. The normal increase in production should be 5 per cent or 50,000,000 pounds. It is apparent, therefore, that there will be 120,000,000 pounds less copper to be marketed this year than was expected at the beginning of this year. To many people this might mean that copper consumption had absolutely ceased, but all that has actually happened has been a holding back of orders awaiting a readjustment of prices by the producers and the producers are carrying the metal instead of the consumers. I do not think that the copper stocks in this country in the hands of the consumers were ever as small as at the present time and all I

feared is that these held back orders will all come in at once and there will be a scramble for copper which will force up the price. I note that E. H. Harriman has engaged Frank J. Sprague to figure on the electrification of portions of the Union Pacific. I believe that the electrification of some roads will move that and the opening of the porphyry deposits of Bingham and Ely will prove a great blessing as without the discovery of any new fields there might not be copper enough to go around. I am not in sympathy with the pessimistic talk about copper. Every large producer of raw material in this country has unsold stocks. It is not to be expected that any raw product can be continually sold as fast as it can be produced. What if there is an accumulation? The only trouble about that is the high price for money, but nobody questions the ability of the United Metals Selling company, with its high banking affiliations, to finance twice an accumulation of 200,000,000 pounds. It receives 5 per cent from the companies who draw on it for 70 per cent of the value of the copper shipped. There will be need for every pound of copper held by the producers, and the American consumers need to watch out for the foreign consumers will get the best end of the bargain. The whole situation is likely to change at any time over night."

LATE COPPER NEWS. The Calumet office of the Wolverine & Arizona company received the following telegram from the superintendent yesterday: "Have penetrated forty feet of first-class ore. A depth of one 700 feet has been attained in the new shaft sinking on Section 16 of the Atlantic Mining company. Before drifting the management intends to sink the shaft 1,000 feet. The company has just gone through some broken ground in which copper was found, although not in great extent. At various depths the Atlantic workmen have discovered findings of copper, but even up to this time the officials of the company are not absolutely sure the Balch lode has been touched. At one place on the Superior property the lode was exposed in exploratory work for a width of over thirty feet."

CHICAGO GRAIN MARKETS. Chicago, Sept. 9.—A decline in the price of cash wheat and a falling off in the demand for export wheat caused a close to the wheat market today. At the close wheat for December delivery was down 1 1/2 to 1/2. Corn was 1/2 to 1/2 lower, and oats were up 2 1/2. Heavy world's shipments, and the fact that Russia, which was supposed to need the greater part of the wheat grain, sent out a large amount of wheat, caused a weak opening. The total world's shipments were almost 3,000,000 bushels more than expected, and Russia shipped 2,800,000 bushels against 2,280,000 bushels last year. The prediction of the weather bureau that frost tonight in the Northwest would be in a restricted area also was a bullish factor. From the East come reports that the seaboard demand had fallen off and the prices of cash wheat were somewhat easier. The market throughout the day fluctuated nervously. The corn market was heavy all day, the chief feature being selling by a prominent cash grain house, which was generally construed to mean larger sales in the country and a continuation of the present movement. There was some selling on the expectation that the government crop report will show an increase in the condition of about 3 points. The weakness of wheat was a depressing factor. The trade in the oats pit was dull, and the market was heavy. Local loans sold heavily of the September and elevation interests were free sellers of the May option.

Wheat Summary. Paine, Webber & Co. reported yesterday's wheat market as follows: "Our advices during the closing days of last week that owners of wheat on the swells should make sure of the same and not let profits slip away from them are fully justified by the action of the market today, which shows a break of 1 1/2 for the leading months. More than this, we believe there is evidence in the market at this time of considerable long

wheat coming out from some of the big holders who have been the most active in circulating bull news and talking higher prices. The market steadied after an early break of 1/2, but went still lower a second and third decline, closing at about bottom for the day. There is a lot of news from the northwest about frosts, both this side and the other side of the line. Some exaggerated statements claim very heavy frost injury in the Canadian provinces. This must be taken with some allowance. What the trade needs now in order to support prices or have a return of bull enthusiasm is a continuation of the big European buying of about one million bushels a day. This is not in sight today. The present conditions and sentiment suggest some lower prices before buyers can again take hold."

WALL STREET A FALSE REFLECTOR. Property Not Dependent on Turn of Stocks—Harriman is Optimistic. Buffalo, N. Y., Sept. 9.—"What sort of a reflector is the street" after all? I'll tell you—it is a false one. "What matters if stocks show the upward turn of a point one day and a downward switch of two or five the next? That is no indication of the real wealth of the country, or of the country's prosperity, and it is no reflection of actual conditions. There's no panic coming, we've had our panic, and it's going away."

Bound back to Wall street from the Sierras, with the peace of the non-contenting solitudes in his soul; kind words for all men on his lips and a new engendered faith in his country's progress in his heart, Edward H. Harriman gave the most optimistic interview of his recent career. Asked to tell how pleased he is with the immunity bath promised his famous Alton by the Roosevelt administration, the emperor of magnets smiled benignly, saying: "I don't know anything about any immunity bath. If it has been pledged anew the knowledge has escaped me."

MEXICAN FRONTIER PATROLLED. Authorities Plan to Head Off Demonstrations Proposed by Revolutionists. Nogales, Ariz., Sept. 9.—Expecting trouble on the Rio Grande border from so-called revolutionists about Sept. 15, the anniversary of Mexican independence, the Mexican and United States governments are taking precautions to prevent any disturbance. Last year there were several demonstrations on the border about this time and arrests were made at Douglas and Naco, Ariz., and El Paso, Eagle Pass, Laredo, Del Rio, and San Antonio, Tex. Some of the prisoners taken at that time are still in custody. Antonio Villareal, now in jail in Los Angeles and wanted in St. Louis, is one of these.

To prevent a recurrence of the troubles of last year the Mexican border is being patrolled by troops, and secret service officers of the American government, at the request of Mexican officials, are watching the movements of certain Americans in the American towns along the border. Dispatches from San Antonio state that a detail of United States troops has been sent to patrol the border until after the Mexican celebration.

It is said that Captain William S. Scott, First United States cavalry, who was detailed to make a secret investigation of conditions along the border, made a report to the war department in which he finds that there is considerable agitation and much anti-Diaz sentiment, but he is unable to find definitely that there is now any organized opposition to the Mexican government as was the case a year ago.

MONROE DOCTRINE FOR ASIA.

Believed to Explain Mikado's Naval and Military Activity.

Washington, Sept. 9.—Perhaps the feverish activity in the naval and military circles in Japan may not be due to plans for war with the United States, after all. A prominent army officer expresses the opinion that Japan is permitting her people to make show of hostilities against her country, with which the Japanese government is well known to be on excellent terms, for the well considered purpose of diverting attention from her intention of forcing recognition of her Asiatic "Monroe doctrine." "Ever since Germany, in 1890," said the officers, "made a pretext of outrages on missionaries to get a lease on the Liao Chau Peninsula and extend her sphere of influence to the greater part of the Shan Tung Peninsula, Japan has watched her aggression with a jealous eye. "Japan needs three years more in which to get her plans completed and her war material and equipment assembled. She has perfected alliances with nearly all of Germany's enemies, and if she can distract attention from her war preparations for that period of time she will be in position to oust Germany from the soil of China and then sit tight and defy the Teutons to re-take their base. "Japan's navy really outclasses that of Germany now, and if Japan should carry out this program Germany might find herself in a very delicate, if not in an untenable, position. She would have to carry the war right to Japan, and, as Russia found out, that is no joke. We know from the reports of our agents that Japan is exhibiting great activity in her shipyards and arsenals. If she is not going to fight us, and I do not think she is, then at whom is she aiming? "Japan's fears that the fifty-year lease of Germany on the Shan Tung Peninsula may develop and grow into a vested right is given color by the fact that the French got possession of Tonquin in a similar manner. Japan has declared that she will not permit the dismemberment of China. She has already driven Russia off of Chinese soil, much to her own advantage, and she seems quite capable of driving out others whom she also deems intruders. Meanwhile, it would be highly desirable for Japan to conceal her real object, and how could she do that better than to allow it to be assumed that she intended to give battle to this country while, in reality, preparing to fight Germany?"

DELEGATES FOR CANNON.

Fordney's District Expected to Declare for "Uncle Joe."

Washington, Sept. 9.—In the course of two or three weeks Speaker Cannon will be striding around the country with real presidential delegates in his vest pocket. He will be the first of the Republican candidates to enjoy that distinction. About eight in eight in Pennsylvania are not yet chosen. They are like Taft's—in prospect through party recommendations.

The first Cannon convention will be held out Saginaw way in Michigan, and presumably the delegates will be Representative Joseph W. Fordney of Saginaw, a great favorite, and one of Mr. Fordney's additional distinctions is an unrelenting opposition to a reduction of the tariff on sugar, for there are divers beet sugar establishments in Clinton, Saginaw, Shiawassee and Tuscola counties, which he represents in congress.

This explains in part why Mr. Fordney is active in snatching a brand from the burning and making sure that Secretary Taft will not have a solid delegation from the Peninsula state. But there is another reason which probably tells the most of the story why Mr. Fordney and his fellow delegates will be for the nomination of Speaker Cannon. Mr. Fordney likely enough will be "snoring" along the rear corridor to the speaker's room suggesting that he would be pleased to have William Alden's place at ways and means. Probably he will get it.

Other members of the house, loving "Uncle Joe" for himself alone or for the committee plums he has to bestow, have not been as forward in pioneering as Mr. Fordney has been. But they are said to be working numerously, so that the grand old man of Danville, the chieftain of standpatters, will have a nice bunch of delegates outside the so-called revolutionists who are the snowflakes in northern New England.

Republican congressional conventions for the nomination of national delegates are very independent propositions. Each elects two delegates, and in most of the states these delegates are elected whenever the congressional incumbent says he will be re-elected.

These district designated delegates, named in pairs here and there throughout the country and attracting little attention from the general public—whose eyes will be rather upon the more spectacular contests for four delegates at large—may become quite a factor in the presidential situation, unless Taft or Hughes has a sweep that no tactics can check. Several good men and true, who have been Cannon cronies in recent years, have had nets out for months. There are reasons for believing that there will be something of a lull when they take their nets in. Ex-Representative Littaure of Cloverville, N. Y., is one of those Cannon lieutenants. The speaker advanced him to a place of power on the appropriations committee. The league of standpatters has been very generally supporting these activities in the speaker's behalf. It is not improbable that the congressional district delegates selected to swell the fifty-four pledged votes from Illinois will be in considerable part from the citadels of high protection.

SOCIETY SNUBS RAILROAD KING.

Philadelphia, Pa., Sept. 9.—It now appears that James McCrea, president of the Pennsylvania Railroad company, has been refused admission to membership in the American Philosophical society. One element in the society, it is said, desired Mr. McCrea's election simply because he was the head of a great railway system and the representative of great wealth. The American Philo-

XTRAGOOD Boys' Clothes Are Best

Superior Tailoring Makes Them So THAT'S the whole story, and an important one when you've boys' clothes to buy.

The maker's name on these garments stands for a degree of thorough work, reliability, superiority in fit, style and service that places XTRAGOOD above and distinct from the many ordinary boys' brands.

These are guaranteed clothes; a credit to the makers and to us; to you if you buy them and to your boy if he wears them.

A full line of Norfolk and Double Breasted knee pants suits for boys of 7 to 17 years is ready to show you. Also a large stock of Sailors and Russians for the little fellows of 2 1/2 to 10. Bring the boy, or the boys, here without delay. Prices \$5 to \$12.

ORMSBEE & ATKINS.

philosophical society may be used as a lever to the portals of certain inner social precincts. It is reported that Mr. McCrea's friends wished to obtain open season for him at the Vistula social functions. But many persons connected with the society became aware of his candidacy in ample time to contest it. Circular letters were sent to all members known to be desirous of keeping the venerable society to its original purpose, namely, the encouragement of research and the dissemination of scientific knowledge, and they attended the spring meeting in unusual numbers. This it was that defeated the social function.

EXPORT DUTY ON PULPWOOD.

Movement to Force Big American Paper Plants to Move to Canada.

Ottawa, Sept. 9.—A big movement is now on foot in Canada favoring an export duty on pulpwood. But for the fact that there is something repugnant to the commercial mind, ordinarily speaking, there is little doubt parliament would readily agree to the only sure proposition that would retain in Canada the raw material for paper making instead of giving it to American manufacturers at their own price. The result of this is to build up industrial communities in the United States instead of in Canada. The Maritime Board of Trade representatives in convention unanimously voted in favor of an export duty. The policy which the Canadian government has been pursuing for some time past has had the effect of causing a considerable movement of foreign manufacturing plants into Canada. If the export of pulpwood is stopped it is very probable that more American plants will come to the mill in Canada.

Other members of the house, loving "Uncle Joe" for himself alone or for the committee plums he has to bestow, have not been as forward in pioneering as Mr. Fordney has been. But they are said to be working numerously, so that the grand old man of Danville, the chieftain of standpatters, will have a nice bunch of delegates outside the so-called revolutionists who are the snowflakes in northern New England.

WATER BOARD NOTICE OF PROPOSED ASSESSMENT.

Marquette, Mich., Sept. 9th, 1907. To the owners of lots and parcels of land in the Ayer, Towar and Marquette Land company's additions to the city of Marquette. Notice is hereby given that the board of fire and water commissioners of the city of Marquette, at the request of the owners of lots in these additions, decided to extend the water mains of the city to these additions, provided the streets are graded so as to enable the board to lay pipes at proper depth to be protected from frost. And have deemed it just and equitable that a portion of the cost of such extensions shall be assessed upon the lots and parcels of real estate especially benefited, and for the purpose of examination by the owners interested, a map of the proposed district to be assessed, together with an estimate of cost of the improvement, as also of the amount proposed to be raised by special assessment, may be seen at the office of the board in the city hall, during usual office hours, from this date to and including the 23rd of September. Notice is hereby given to the owners of lots and others interested in these additions, that the board will meet at their office in the city hall at 8 o'clock in the evening of the 23rd day of September, prepared to hear any objections and suggestions relative thereto. By order of the board of Fire and Water Commissioners. JOHN P. KERN, Secretary.

GET THE BEST.

We teach the shorthand that experts write. Our bookkeeping is up to date. Our graduates get and hold good positions. Fall term begins Sept. 2nd. Night school opens Monday evening, Sept. 2nd. A Correspondence Course for students outside the city.

Marquette Business College, J. A. FERGUSON, Principal.

BATH COMFORT!

The daily bath pays in comfort as well as health. Luxurious bath sponges here at moderate prices. Bath brushes which will double the value of the bath for 65 cents, up. Sea Salt for those who need the tonic effect; sea salt baths are a potent remedy for debility; 25 cents a package. Fine soaps, toilet water, bath tablets, etc.

Desjardins Pharmacy, 417 North 3rd Street.

Mining News

BUTTE COPPER PRODUCTION.

August Output Shows a Decrease of 4,000,000 Pounds from July.

There was a very large reduction in the copper output of the Butte mines during the month of August compared with previous months this year. The total for the month being a little in excess of 23,000,000 pounds, while the monthly average for the first seven months of 1907 was 20,000,000 pounds.

This August decrease was in line with the policy of the big companies to reduce output until consumption catches up with production again. The statement is made by representatives of the large companies that September will show an even greater reduction from the August figures than August has shown from the figures of the preceding months.

The July output of the Washoe smelter was in excess of 18,000,000 pounds, but in August it did not exceed 16,000,000 pounds, while the Great Falls smelter dropped from 8,000,000 pounds in July to 5,000,000 pounds last month. The prediction is made that the two plants together will in September produce not more than 18,000,000 pounds, while the output of the entire Butte district will probably be below 20,000,000 pounds. The reduction in output is being effected without disturbing local conditions, as only the floating supply of copper is being paid off. The companies do not consider it profitable to put money into mining or to store it on the surface. The independent operators and small operators will share in the reduction of output, as the very small tonnage of their ore will be taken at this time.

The August production of 23,127,240 pounds compares with 27,137,395 pounds in July and 34,057,034 pounds in August, 1907. The 1907 and 1906 comparison follows:

1907	1906	
First 6 months	144,447,612	182,845,430
July	27,137,395	32,374,970
August	23,127,240	34,057,034
Total	294,712,247	349,877,434

The record of the Butte mines for August is approximately as follows:

Ishep. Tot. lbs.	per ton prod.	
Arizona	60	198,000
Boston & Montana	68	101,200
Butte & Boston	61	30,500
Parrot	57	18,200
Washoe	69	18,000
North Butte	60	88,000
Butte Coalition	67	100,500
W. A. Clark	61	37,500
Pittsburg	58	20,400
East Butte	76	13,200
Trenton	69	22,800
Miscellaneous	75	11,500
Total		740,000

OSCEOLA-CALUMET & HECLA.

The failure of the Calumet & Hecla directors to take action on the dividend that is usually declared in the latter part of August is construed in some quarters to be due to the fear that the scarce, landing interests will move to enjoin it if declared or will start some sort of court proceedings to further annoy the Calumet people and the Osceola stockholders who have given the former their proxies.

It is further intimated that the Calumet & Hecla interests probably are viewing with more equanimity than are their opponents the present delay in the consummation of their plans to oust the Bigelow directors and put in the Agassiz-Shaw-Livermore contingent, because they have had an excellent opportunity to buy a line of Osceola at a much lower price than they paid for the first 20,000 odd bought last winter. The difference in price between a line of Osceola at 100 and 180 will easily pay the expenses of the present litigation and the delay in time will be overbalanced by the monetary gain, for there is doubt that the Calumet people consider Osceola worth much more than 180 per share and it is hardly possible that they have let slip so excellent a chance to buy it for much less.

It is pretty difficult to make an old timer on State street believe that there is not some interest back of this Bigelow attack on the Calumet, comments the Boston Financial News, and there are some very shrewd guesses as to the identity of the one "higher up."

HELVETIA.

Leading interests in the Helvetia Copper company deny the reports regarding a change in control. According to these rumors the Helvetic interests have had representatives at the property for some time for the purpose of making an examination and so favorable have the reports been that the Montana copper man was said to have taken over the bulk of the stock. The Helvetia is one of the best known in the Tucson district. More than a million dollars has been expended in its development and excellent showings have been made. There have been numerous shipments of ore, but the owners have consumed most of their efforts to development work. At the camp there is a narrow gauge railroad, several miles in length, and a smelter of 200 tons capacity. This smelter has been in operation for some time, but was closed down owing to a shortage of fuel. A few days ago a big strike was made in a tunnel between the Copper World and the 1st Royal shafts. These are the two main workings on the property.

COOK WITH GAS

Ishpeming Department

BARBERS' BOARD HAS NEW MEMBER

WORK HAS BEEN STARTED.

Michigan Pipe Company Will Push the Water Main Extension.

The first shipment of fourteen-inch wood pipe for the water main extension arrived in the city Saturday and yesterday morning the Michigan Pipe company, which has the contract for the work, began distributing it along West Division street. A small force was also put at work digging the trench, commencing at the intersection of Division and Lake streets. The contractors were fortunate in being able to secure some of the men who have been employed on similar work for the Marquette County Gas & Electric company, which has put in a large number of gas mains during the past few months. It is the purpose of the superintendent in charge to employ as many men as he can secure as the company is under contract to complete the job before the first of next month. Signs have been posted around town offering \$2 per day for laborers, but it is doubtful if a considerable number can be secured, as there are no idle men in the city.

Water will be encountered in places along the route, though the superintendent does not expect to be bothered a great deal on that account within the seven days. The work will be done through the street, going toward Washington street, and at a point beyond the railway tracks, south of the junction location.

IRON NEAR MARINETTE.

Recent Discovery in Wisconsin Has Created Much Interest.

An Ishpeming man, who spent the latter part of last week in Menominee and Marinette, reports that great interest is shown in the reported discovery of iron ore at Calk Hills, some miles from Marinette. Eugene Zimmerman of Cincinatti, father of the Duchess of Manchester, and a Menominee capitalist, are doing the exploratory work. It is reported that an ore vein has been discovered at a depth of fifty feet from surface, and that the ore assays sufficiently high in iron to make it marketable. The discovery was made with a diamond drill, which is to be employed for an indefinite time testing the ground near where the ore body was located. The holes will be sunk to a depth of several hundred feet.

It is said that the parties interested have confirmed the report that a promising discovery has been made, but they are not giving out much information for publication. A few good iron mines in the Calk Hills district would be a good thing for Marinette and Menominee, as the greater part of the business of the new district would go to these two cities.

MISS HAY ON THE STAGE.

Former Ishpeming Teacher Is Leading Lady in "A Message from Mars."

Miss Nan Hay, whose picture accompanies this article, and who is now playing with great success the leading female role in "A Message from Mars," which will be the offering at Ishpeming theater Thursday evening, was a former Ishpeming school teacher. She taught at the High street building during the last

BERRYMAN CARLYON.

Captain James Berryman and Miss Carlyon, both of this city, were united in marriage Saturday evening at the home of the bride's brother, Thomas Carlyon, on Ely street. Miss Hestie Carlyon, sister of the bride, was bridesmaid, and Richard Carlyon, her brother, acted as best man. The ceremony was performed by Rev. Carlyon of the Kesarsage Methodist church, and was witnessed by the relatives of the contracting parties. Both the bride and groom are well and favorably known in Ishpeming, as they have resided here for some years.

DIED AT PAINESDALE.

Messages received here last evening announced the death at Painesdale yesterday of William Oldgers, a former Ishpeming man, well known here. Mr. Oldgers left Ishpeming for the copper country four years ago. He had been employed at the Lake Angelino mine for a long time. He was aged about forty-five years, and is survived by a wife and two children. The funeral will be held in this city on Wednesday afternoon. The remains will arrive on the east-bound train at 1:30 o'clock, and services will be held from Grace Episcopal church immediately thereafter. Court Pride of the foresters order will have the obsequies in charge.

REPAIRING ROOF.

A. W. Wilson has been given a contract to repair the roof of the McKay block, corner Main and Pearl streets. Almost a complete new roof is to be put on and the surface will be composed of a mixture of gravel and tar. The roof will be raised about four feet and the roof will have inside connections with the sewer system. The roof has been in bad repair for some time past.

HOW'S THIS!

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

J. CHENEY & CO. Toledo, O.

We, the undersigned, have known J. C. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WALDING, KINNAN & MARVIN,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price, 75 cents per bottle. Sold by the Stafford Drug Co.

Here's a Natural Strength-Giver

You'll find the beneficial effects of this tonic are permanent—because it helps you to build up your body and become strong and healthy in a natural way. The effects of other tonics are only temporary because they supply a false stimulation to the system. As soon as you stop taking them, you remove this stimulus, and the feeling of exhaustion returns.

DR. D. JAYNE'S TONIC VERMIFUGE

brings lasting health and strength, because it helps you to build up your own building up—through the stomach. It puts your digestive organs in perfect condition, and enables you to get every bit of nourishment and strength out of the food you eat.

It is also an excellent child's medicine and a safe Worm Cure.

Sold by all druggists.
Two sizes, 50c. and 35c.

Jayne's Expectant—An invaluable medicine for Coughs, Bronchitis, Croup, Whooping Cough, Pleurisy and Asthma.

POPULAR LADY CONTEST.

Miss Linea Nelson, Daughter of Otto Nelson, Wins First Prize.

Much interest was shown in the popular lady contest concluded Sunday evening at J. E. Cassin's confectionery store in the theater block. The contest had been on for nearly two months. At the start about twenty-five names appeared on the list but finally all but three were dropped, these being Miss Linea Nelson, daughter of Otto Nelson, with F. Braastad & Co., who won first prize, a gold watch; Miss Emily O'Brien, who won second, a handsome pair of opera glasses; and Miss Lillie Kippula. Miss Nelson received 2,748 votes, Miss O'Brien, 2,655, and Miss Kippula, 934.

Beginning some day this week, Mr. Cassin is to introduce a daily drawing which will take place just before closing each evening, the winner receiving a one pound box of choice candy. With each purchase of ten cents during the day a ticket good for the drawing will be given. A duplicate containing the number and the name of the purchaser will be placed in a receptacle. It will not be necessary for the holder of the tickets to attend the drawing, as the winner will be announced the following day, if the ticket holder is not present.

BRIDGE AT ESCANABA RIVER.

The Juliet Bridge company of Joliet, Ill., has been given a contract for the erection of an iron bridge across the Escanaba river, south of here, where the old bridge stood. The latter was destroyed early in the spring, when a portion of it was washed into the stream. The new bridge will have a sixty foot span and will be placed on a solid foundation of concrete, built on the ledge. The company is under contract to complete the bridge by October 15, and it is expected that the work will be started within a few days.

ISHPEMING IN BRIEF.

Mrs. Jacob Bell is here from Houghton on a visit to friends.

Mrs. Connors has gone to Milwaukee on a visit to her daughter, Mrs. John P. Jones.

Mrs. E. Kipp of St. Paul is in the city visiting her mother, Mrs. Connors, of West Division street.

Louis Miller, Jr., of Negussee has entered the Ishpeming Business college, to take a commercial course.

The five-month-old baby daughter of Clifford Bomper, 300 East Pearl street, died Saturday. The funeral was held yesterday.

Samuel Metterell left last evening for Cuba City, where he will spend a week or ten days visiting his son-in-law, Robert Fox, and wife.

Mrs. William Andrews, her daughter, Mrs. William Ripper, and the latter's two children, arrived in the city Sunday, after an absence of two months.

Manager Sam Kops of the Grand theatre, Marquette, was in the city yesterday and engaged Miss Clara Farn to sing there for three evenings, commencing Thursday of this week.

Steve Glason has purchased the cottage on West Division street, owned by Jesse James of Houghton, and formerly

TURBINE ENGINES IN FUTURE.

The British government has been well pleased with the turbine engine in the battleship Dreadnaught that it has decided to fit all future warships with them. Heretofore the question of expense has been a great drawback but now they can be built and operated economically as the other kind. The question of selecting a medicine best adapted for all family uses has been successfully solved by the thousands who chose Hostetter's Stomach Bitters. It is an absolutely pure medicine and never fails to build or relieve constipated bowels; in fact, it is just the one every man or woman needs who suffers from sleeplessness, poor appetite, dyspepsia, indigestion, heartburn, liver and kidney troubles, female ill or malaria. Be persuaded to try a bottle this very day.

Refuse substitutes or imitations—Get what you ask for.

Wanted—Girl for general housework.
Wanted—Discontented girl for general housework. Mrs. Harry T. Hulst, South Pine street, Ishpeming.

GRIFFEY PROPERTY TO BE IMPROVED

VETERAN NEWSPAPER MAN SAYS WEALTH OF CYR STREET RESIDENTS WAS AT ONE TIME SUFFICIENT TO BUY UP WHOLE CITY.

C. G. Griffey, who arrived here last week from Rochester, Mich., was accompanied by four carpenters and a bricklayer, who will do the improvement work in his residence property, corner Cyr and Jackson streets, which he intends to put in first class condition. While in the city a few weeks ago Mr. Griffey found that in order to have his work done before the first of the year it would be necessary to bring men from the lower peninsula, as all of the carpenters and bricklayers here had as much work in sight as they could possibly do before the first of December. The men who came here with Mr. Griffey had been in his employ for some time past, erecting their dwellings, which he has built at Rochester.

The barn at the rear of the property is to be converted into a dwelling, which will be provided with modern conveniences, including bath, electric light, etc. The work on the south side of the old dwelling is to be removed and the wing is also to be taken off. A concrete walk will be laid in the yard and other work of minor importance will be done.

Wealth of Cyr Street. Speaking of former residents of Cyr street, which was at one time the city's most prominent residence district, Mr. Griffey said yesterday that he remembered the time when the wealth of the men living in the block between Jackson and Clark streets was of sufficient proportions to buy up the entire city of Negaunee. When Mr. Griffey and his family moved there, one of the women in the neighborhood was a member of his family that the Griffey's were the only poor people on the street, all the other families residing there being worth not less than \$200,000. Mr. Griffey says that this was true to a large extent, as at that time most of the wealthy citizens of the town resided on Cyr street. Among those who lived there were the late Edward Breitling, the late J. B. Maas, H. E. Hayden, the banker, the late Dr. L. E. Cyr and H. E. Colwell. The latter built the Griffey home. He was at the head of the Michigan Iron company and acquired considerable wealth while connected with that corporation, but later lost a large sum in prospecting.

Mr. Griffey has seen Negaunee in all its ups and downs. He was a resident of the city during the panic of 1873 and remembers well the incidents connected with the failure of the two banks, one conducted by H. E. Hayden, in the U. P. Brewing company's block, and the other by James Matthews in the building east of the Cyr block. At the time of the failure it was stated that in the neighborhood of \$800,000 was deposited in the banks. For many days following the failure indignation meetings were held by the depositors, and great excitement prevailed. There were then about 2,000 people assembling here and most of those who had money in the banks made it in Negaunee. The workmen were then receiving from \$3 to \$4 per day and the contractors, both in the woods and at the Jackson mine, were making big stakes. Mr. Griffey said that he saw several of the mining contractors who considered that they had a poor month if they did not clean up from \$400 to \$500, and their earnings at times ran above the \$1,000 mark. After the bank failures the town was practically deserted, the people getting out as rapidly as they could. There was nothing for them to do, as most of the industrial work was suspended. The only corporations working in the field at that time were the Jackson and Iron Cliffs companies, the latter operating the Bonanza vein and the former the Jackson mine.

DIED AT SWANZEY.

Charles Farquar, who has been living on a homestead at Swanzev, the greater part of the past twelve or fifteen years, died there Sunday night. He is the father of Fred and George Farquar of Swanzev. The former conducts a general mercantile business at the station and is well known in this city. The old gentleman was about eighty-four years of age. He lived for many years at Osento before locating at Swanzev. The remains are to be taken to that city for burial.

FOUND DEAD IN BED. Negaunee Man Expired During the Night at Home of His Brother-in-Law.

Joseph Bedah, who was fairly well known, particularly among the French people of Negaunee and Ishpeming, was found dead yesterday morning in his bed at the home of his brother-in-law, Ernest Osier, on Tobin street. Bedah retired early Sunday night and he was feeling as well as usual. One of the Osier children slept with him and the boy got up and left the room without noticing that his uncle was dead. The fact that he had passed away during the night was not discovered until Mrs. Osier went to the room to call him for breakfast. The deceased was about forty-five years of age. Besides Mrs. Osier there is another sister and a brother, living down the line of the Chicago & Northwestern. They were advised of his death and they arrived in the city last evening.

Coroner William Prin was called over from Ishpeming yesterday afternoon, but concluded that it was not necessary to hold an inquest.

FAVOR CENTRAL STATION.

Heads of Police Departments in Negaunee and Ishpeming Desire Change.

The wisdom of establishing central police stations in the three cities of the county has been very freely discussed during the past few days by the members of the police force in each town and also by the people in general. Many have expressed themselves strongly in favor of establishing headquarters for the police departments, and now that the police commission at Marquette is about to recommend that a station be provided with a man there both day and night it is anticipated that similar steps will be taken both here and at Ishpeming. The marshals of both cities are heartily in favor of a central station. Hardly a day passes that they have not felt the need of a headquarters, where an officer can be reached in a hurry. Discussing the matter yesterday, Marshal Gribble said that he can get into communication with the police departments of Escanaba, Iron Mountain or Menominee in half the time it takes him to locate an officer in either Ishpeming or Marquette. All of the towns mentioned have police stations, where a man can be found at all hours during the day or night, but at Ishpeming or Marquette it has been necessary at times to telephone to different parts of the city to locate an officer. If the marshal does not happen to be at his place of residence it frequently takes from thirty minutes to an hour to locate him. The three marshals of the county have considerable business with one another, and 90 per cent of it is done over the telephone.

Aside from the employing of an additional man on the force, which might be necessary in both Negaunee and Ishpeming, the establishment of headquarters would not be very expensive. Iron Mountain is said to have an effective system. A man is constantly on duty at headquarters and the officers on their rounds are obliged to call up the station from certain points at intervals during the night so that the man in charge of the office always knows just where and where to reach the policemen. A private telephone system between the main station and the sub-stations is maintained at a very small cost and is connected with the general system of the city. Many fire alarms are sent in by the officers from the sub-stations. It is said that false alarms were numerous prior to the establishment of the station, but they are now very rare. The chief of police has his affairs so arranged that he can keep in constant touch with the officers and can at any time during the night locate a policeman through the sub-stations from which he makes his report.

"COW BOY" PREACHER.

Rev. Schneider, perhaps one of the best known preachers laboring among the cow boys of the west, was a visitor in Negaunee Sunday, he having stopped off here on his way to Mackinac Island, where he is to remain a few days. Rev. Schneider is known in the districts where he does missionary work as the "Cow Boy" preacher. It is said that he has accomplished excellent work among the men employed on the ranches in Colorado and other western states. He is an entertaining talker and is thoroughly interested in the welfare of the cow boys.

William Schwartzman is in the city on a few days' visit with relatives.

For Women's Fine Garments. Suits, skirts, shirt waists—starched garments of all kinds—that fairly beam with snowy beauty and freshness, will be the rule, rather than the exception, if they are starched with the genuine KINGSFORD'S OSWEGO Silver Glass Starch. No starch ever has or ever will equal this for beauty and fineness of finish. Garments starched with it keep their shape longer, are more pliable, and have a newer and cleaner appearance than with any other. Can't injure goods; goes farther because of superior strength, hence most economical. Doesn't stick to the iron. The standard of quality for over half a century. BEST FOR ALL KINDS OF STARCHING. For general use boil as directed. For light starching unboiled as a cold water starch, requiring no boiling. Made for over fifty years at Oswego. All grocers, in full-weight packages. T. KINGSFORD & SON, OSWEGO, N. Y. NATIONAL STARCH COMPANY, SUCCESSORS.

LOCAL LACONICS.

Miss Lulu Cyr arrived home yesterday from her European trip, after an absence of three months.

Edward Killion, son of Michael Killion of Green Bay, is here on a visit to his grandmother, Mrs. Curran.

Captain James H. Rough left last evening for the Mesaba range, on business for the Cleveland-Cliffs Iron company.

Mrs. T. H. Harris and daughter, Miss Minnie, left yesterday for Detroit, taking the D. & C. steamer at St. Ignace. Miss Harris is to enter the Thomas School of Music.

Harry Jackson left last night for Menominee, where he will spend a few days. While there he will take in the horse races at the county fair, which opens today.

John P. Miller's family and Mrs. Ed. Laughlin and child will return to the city tomorrow from Miller Bros' farm, where they have spent the past two months.

Rev. W. R. Coombe, pastor of the Mitchell Methodist church, left yesterday for the annual meeting of the Detroit conference. He will be absent a week or more.

Thomas Dea and wife are in the city on a visit to T. J. Flynn and family. They will spend two weeks in this district. Mr. Dea, who is at the head of the Sullivan Machinery company, has been suffering from hay fever.

The moving pictures of the Passion Play have proved a big drawing card at Wonderland theater. Saturday night the house was packed and it was well filled again last night. The pictures will be shown again this evening for the last time.

A special meeting of the Negaunee fire department has been called for this evening by Chief Julius Johnson. Matters of importance have come up that demand immediate action by the company, and for that reason a large attendance is requested.

The excursion to Detroit and other shore peninsula points, via the South Shore and D. & C. lines, yesterday morning was so well patronized that many could not secure accommodations on the steamer. Applications for berths were refused Sunday.

SAVES GRAVEL AND SAND.

Ground was broken yesterday for the foundation of Negaunee's new high school. L. E. Chaussee, the contractor, will employ as large a crew as he can secure, as he desires to have the stone work completed before winter sets in. Before bidding on the contract Mr. Chaussee tested the ground and he found that it contains an excellent quality of sand and gravel, which can be used for mortar and concrete, thus saving a large sum in the hauling of this material. Had he been obliged to figure in the cost of hauling the sand and gravel his bid on the job would have been somewhat higher, but he took into account the fact that he would be put to no expense whatever in securing sand or gravel, as the quantity being removed will be sufficient to complete the job. The opening will be 196 feet long and over 100 feet wide, by a depth of from two and one-half to five feet. All of the sand and gravel is to be piled up on the grounds until it is needed. It will take about 150 cords of stone for the foundation. Mr. Chaussee expects to let a contract for the hauling of the stone within a few days.

FOR SALE—A safe in good condition; also how to hold furniture. Apply to Mrs. F. S. Green, Main St., Negaunee, 9-10-07.

LOST—A coat brooch. Finder will please return to 213 Main St., and receive liberal reward. 9-3-07

TRAIN LEAVE PRINCTON. For Munising and Intermediate points, Marquette, Ishpeming, Negaunee, Intermediate and points. 8:20 am. 8:15 pm.

COBALT GOSSIP

A special correspondent of the Mining world says: "Upon surveying the twenty or thirty square miles of Cobalt, Backe and Lorrain townships over which are spread the heterogeneous phalanx of Cobalt companies and which are valued at \$250,000,000, it will be seen that the central section of little more than a square mile is infinitely the most valuable and productive. This arbitrary defined area, surrounding the Cobalt lake on all sides, has been responsible for over 90 per cent of the district's yield.

What promises to be a big silver strike has been made on the Darby mine, the property of Thomas A. Edison, the inventor. It was made at the 150-foot level, and the vein, which is ten inches wide, consists of calcite, cobalt sulfide and nicotite. The Darby was purchased by Mr. Edison for the production of cobalt, a cheaper substance than cobalt has been discovered by him. He had practically abandoned the idea of developing the property, and for some weeks past the Darby has been for sale. Word has been sent Mr. Edison of the find, and some of the best samples of Cobalt being an up-to-date plant of the property, it may be possible that the offer to sell will be withdrawn, and the mine worked as a silver producing proposition by Mr. Edison.

"There are the important Kerr Lake section to the southeast and such noteworthy properties, outside the somewhat indefinite bounds of both these regions, as the Nova Scotia, Temiskaming, Hudson Bay, Green Meehan and King Edward, adding strength to the field. It is an exceptionally remarkable fact that the Temiskaming & Northern Ontario railway, by which the veins were first discovered, had its course projected into the very heart of the silver district. Not roughly, but with almost mathematical exactitude. The square mile, more or less, accounting for this 90 per cent of shipments is cut into two parts, equally in extent and almost equally productive, by the track which came before the mines.

Work at the United States Cobalt has been vigorously prosecuted since the new plant was installed. Managing Director Bradford Higgins is in camp and is well pleased with the progress shown. The main shaft is double compartment, 65 ft. is down forty-five feet and when a depth of fifty feet is reached drifting will be started. The vein is a wide calcite with good silver values. Assays have been got showing as high as 2,900 ounces of silver to the ton and it is more than likely that good ore will be struck within a very short time. Several test pits have been sunk and other shafts started, but the work is at present being concentrated on the main shaft. This company has 120 acres altogether and one of its forty-acre parcels lies directly north of the Temiskaming & Hudson Bay lot, where the Bonanza vein was recently located.

Removal of an important movement in Cobalt Central have led to a rise in the stock. This advance was accelerated by a rush of the shorts to cover, although the English syndicate, of which the Earl of Chesterfield is the head, placed some of the largest orders in the market. As a matter of fact, all the Cobalt stocks have improved intrinsically as a result of the development work in that camp during the summer. Some of the leading companies will begin the operation of

TODAY LAST DAY TO GET LIBRARY BOOKS

BEGINNING TOMORROW CIRCULATING DEPARTMENT CLOSES FOR ABOUT FOUR WEEKS.

STACKS ARE BEING INSTALLED

Miss Hewitt, Librarian, Conducts Experiment—List of New Books That Have Been Received Recently.

The work of installing the new stacks of shelves at the Peter White library has begun and after today no more books will be issued until the work is completed.

Capacity Doubled. The new stacks will approximately double the capacity at the library and when they are installed, there will be shelf room for more than 40,000 volumes.

It is hoped that it will be possible to keep the reading rooms open throughout the entire period while the stacks are being installed.

May Close Entirely. It is hoped that it will be possible to keep the reading rooms open throughout the entire period while the stacks are being installed.

Miss Hewitt, librarian, recently conducted an experiment to ascertain the sort of reading being done by Marquette people and the surprising result was that a little more than 20 per cent of the books issued are non-fiction.

—Fine Arts— Vroelich—Text Book of Art Education. Van Dyke—Studies in Pictures.

—Useful Arts— Deussup—Railway Organization and Working. Gillette—Earth Work and Its Cost.

—Biography— Beach—Daughters of the Puritans. Holding—Story of Stanley.

—Literature and Poetry— Holland—Bitter Sweet. Kipling—Writings in Prose and Verse.

—Natural History— Furneaux—Life in Ponds and Streams. Weed—Nature Biographies.

—Philosophy— Huxley—Collected Essays. James—The Will to Believe.

—Miscellaneous— Forman—Stunt Book. Duncan—Crucial Moments in History.

—Fiction— Smith—Veiled Lady. Seton—Nimrod's Wife.

—History— Mott—To the Credit of the Sea. Sinclair—Industrial Republic.

—Biography— Alexander—Military Memoirs of a Confederate.

TO THE VOTERS. I am a candidate for the office of recorder at the mass meeting of the Citizens' Party to be held this evening.

EDWARD MCCARTHY. (8-10-11) BOY WASTED Who does not smoke or drink.

WE ARE The only people in Marquette county who manufacture practically everything needed for a building.

SEVEN CANDIDATES ARE IN THE FIELD

ONE CONVENTION TO BE HELD TONIGHT AND TWO CALLED FOR TOMORROW—ELECTION DAY A WEEK FROM TODAY.

A convention to nominate a Citizens' candidate for the vacancy in the recorder's office is to be held tonight in the assembly room of the city hall.

At a recent council meeting Mayor Robertson sought to appoint Siegel to fill the vacancy. This was opposed and the appointment was laid on the table.

AUGUST WEATHER.

Warmest Day Last Month Was the Sixth and Coldest Was the Twentieth.

The warmest day of last month was the 6th, when the thermometer recorded 89 degrees; and the coolest day was the 20th of the month when the lowest temperature recorded was 46 degrees.

During the month there were eight days of clear weather and nine days when the sun was not seen. The other fourteen days of the month were partly clear and partly cloudy.

SPENCER A CANDIDATE.

L. M. Spencer wishes his friends to understand that he is a candidate for the office of recorder, and that he will appreciate their support.

SOO CANAL PASSAGES.

Sault Ste. Marie, Mich., Sept. 9.—[Special.]—The upbound boats passing the canal the last twenty-four hours were as follows: Owen, 7:30 p. m.

TO CONTRACT FOR TIES.

Notice Is Issued to Lumbermen By South Shore and Mineral Range Roads.

Announcement has been made that beginning today the South Shore Railway company and the Mineral Range Railway company will contract for the purchase of railroad cross ties to be delivered on the right-of-way of their roads.

Specifications for 6-inch cedar, hemlock and tamarack ties are the same as above, except that uniform thickness between the faces shall be six inches, and the face sides shall not be less than six inches at the narrowest place inside the bark.

Delivery of standard cedar, hemlock and tamarack and 6-inch cedar, hemlock and tamarack ties must be made in separate piles along the track.

Conditions. The following conditions have been made. That inspections will be made monthly, and payment within thirty days thereafter, and the above named companies reserve the right to stop deliveries at any time on thirty days' notice. Whenever it is necessary to make more than one tier of ties, a space of not less than three feet must be left between the tiers, so the inspector can get and inspect both ends of the ties.
