

SETS NEW RECORD FROM QUEENSTOWN

Giant Turbiner Lusitania of the Cunard Line Makes the Passage to New York in 5 Days and 54 Minutes.

Not Pushed at Any Time, According to Her Officers, the Biggest of All Ships Averages 23 Knots an Hour, the Best Yet Made on a Maiden Trip, and With Machinery in Thorough Order She Will Yet Dethrone Kaiser Wilhelm II, Asserts Commander.

New York, Sept. 13.—The giant turbiner Lusitania of the Cunard line came into port today on her maiden voyage with a new record of five days and fifty-four minutes between Queenstown and New York.

The Lusitania, which is the largest ship afloat, was given a royal welcome on her arrival here today, and it was a continual ovation from the time she sped past the Sandy Hook lightship and made her way through the Narrows channel—the first ocean liner to enter the new fairway—until she was safely warped into her dock.

The Lusitania, of the Cunard line, which sailed from Queenstown about an hour before the newest ship of the fleet, was still unreported at the Sandy Hook lightship at 2 o'clock this afternoon, six hours after the Lusitania had passed.

Not Pushed at Any Time. The Lusitania was never pushed to her top speed during the entire voyage, according to her officers. She encountered pleasant weather from port to port and arrived here almost at the hour designated by the directors of the Cunard line.

T. H. Cunard, a director of the line, who made the trip, had to say, "The engines of the Lusitania worked perfectly, and not once during the entire trip was the ship slowed down. The Cunard people are more than satisfied. What this ship will do in the future will be judged from what she has already done. She makes her best time on her maiden voyage. As to reports that the ship was delayed by green stokers, I know nothing. I shall make no suggestions for any changes. The Mauretania, the sister of the Lusitania, probably will make her maiden voyage in October. We had two days of intermittent fog and one day partly foggy."

Vernon H. Brown, American representative of the Cunard line, was more than pleased with the trip of the Lusitania, but refused to make public information concerning the coal consumption of the Lusitania. "I have instructed Chief Engineer Duncan, and, in fact, it is a rule, not to indulge any matter concerning the engine room. This much I will say, the Lusitania burned considerably less than 1,000 tons of coal a day in making twenty-three knots. Her engines worked perfectly, and there was not a hot bearing during the entire trip. When going at high speed the screws made 185 revolutions a minute."

"I will say now that Captain Watt was told not to be at the lightship before daybreak, and accordingly the new ship was not pushed at any time. The log of the Lusitania gives her time of passage at five days and fifty-four minutes, and her time of arrival at Sandy Hook lightship as 8:05 a. m. Her average speed was 23.01 knots per hour, and the days' runs were 556, 557, 570, 593 and 483 to the lightship, a total distance of 2,782 miles."

CHEAP RATE FOR PENNSYLVANIA. Two-Cent Fare to Apply Pending Final Action by the Courts.

Philadelphia, Sept. 13.—Until the final decision of the supreme court of the state on the constitutionality of the two-cent a mile railroad rate bill is handed down, officials of the Pennsylvania railroad have not yet reached a definite conclusion in regard to changes in the present schedule of rates. Confident that the decision of the Philadelphia court will be sustained by the higher court, the company is nevertheless alive to the possibility of a reversal and, while the round trip excursion and commutation rates will probably remain as at present, it is believed that all straight fares will be put on a flat two-cent basis after Oct. 1 and remain in force until the contest has been finally settled. Operating officials positively decline to discuss the probable outcome, but it is stated the legal department of the company will advise that the road proceed on the assumption that the law will go into effect on Oct. 1.

Other roads in the state are expected to follow the example of the Pennsylvania, so as to avoid the possibility of the heavy fines imposed by the act. With the handing down of the opinion of the supreme court the railroads will be in a position to deal definitely with the question and either restore the present schedule, if favorable to them, or completely readjust the rate schedules on excursion and commutation tickets.

The suits instituted by other railroads attacking the constitutionality of the act will probably be left untouched until the decision of the higher court has been obtained.

BANKER KILLED

Pittsburg Man's Automobile Becomes Unmanageable and Hits Telegraph Pole.

Pittsburg, Pa., Sept. 13.—John Runnett, president of the Metropolitan National bank of this city, was killed, and Dr. M. C. Cameron, a prominent physician of Pittsburg, was seriously injured when the latter's automobile collided with a telegraph pole. The men were running at a good rate of speed when the steering gear broke and Dr. Cameron lost control of the machine. The brakes were applied, but did not check the speed before it crashed into the telegraph pole. Though cut and bruised, Dr. Cameron called a carriage and sent Mr. Runnett to his home, where he died half an hour later of internal injuries.

STRIKERS DESERTING.

Union Telegraphers Reported Returning to Work at Cleveland, O.

Cleveland, O., Sept. 13.—Eight former striking telegraphers, including the vice president of the local union, returned to the Postal office today. The Western Union officials say they have taken back several operators.

RAISULI MORE AMBITIOUS.

Demands Now He Be Made Governor of the Hill Tribes.

London, Sept. 13.—Raisuli no longer asks for British or other protection in return for the release of Capt. Sir Harry Maclean, the Englishman who has been his prisoner since early July. "Telegraphs the correspondent at Tangier of the Daily Mail. "He is more ambitious, and demands that he be made governor of the hill tribes inhabiting a great part of northern Morocco. Furthermore, he seeks compensation for the flocks and herds which he alleges have been taken from himself and his relatives, insists that some of his former friends be put in chains, and wants to be supplied with magazine rifles and ammunition." Sir Harry Maclean, the correspondent of the Daily Mail, and he now has his own tent, bed and servants.

HUNDREDS SLAIN

MOORS SUFFERED HEAVILY IN BATTLE.

Details of Latest Fighting Show 20,000 Arabs Surprised in Camp to Have Been Scattered in Wild Disorder.

Tangier, Sept. 13.—Details of the fighting received from Casa Blanca show that yesterday, when General Druide's force suddenly attacked the camp of the Arab camp at Taddert, it carried it at the point of the bayonet, destroyed it utterly, and scattered its 20,000 defenders, who left 300 dead and 1,000 wounded on the field.

The attack was the first forward movement made by the allied French and Spanish army and was the result of the orders sent to General Druide from Paris, a short time ago, to abandon defensive tactics, pursue the Arabs into their hill fastnesses, and wage a war of extermination. Apparently the Arabs had no great love for his niece or nephews, as, after a recent visit from them, he issued orders that they should not again be admitted to his presence.

REBUFF FOR THE MIKADO. Demand for Big Concessions in Manchuria Refused by China.

Mukden, Sept. 13.—China has just won a big diplomatic victory over the Japanese, whose demands for concessions of forests, mines, land, salt, and numerous other things in Manchuria have been sternly rejected by the viceroy and governor of the province.

The Japanese government, after a struggle lasting two months, acknowledged itself beaten and has abandoned its attempt for the present, though reprisals on China are threatened. To punish him for his ill success in the negotiations the Japanese general has been transferred to another point.

The Chinese conducted the difficult negotiations with great ability, indicating a restoration of self-confidence and an intelligent perception of political conditions, national rights being recognized and defended without fear.

Great progress has been made in all departments of the government concerned in Manchuria. A strong army of 30,000 men is safeguarding the peace of the country.

GROUNDHOG BOUNTY A BURDEN.

Bloomington, Ills., Sept. 13.—Jo Daviess county has been added to the list of those wondering where all the groundhogs come from. Since July 1, when the bounty law went into effect 2,200 of the animals have been presented for redemption, costing the county \$1,950. The county treasury is being maled at the rate of \$500 per month and the taxpayers are commencing to grumble. As nearly every county in the state is reporting a similar gain on the strong box, it is probable a unanimous appeal will be made to the legislature at the next session to repeal the law. Twenty-five cents is allowed for each scalp.

CZAR'S SHIPMASTER CENSURED.

St. Petersburg, Sept. 13.—The newspapers here today voice indignation at what they term the "utter lack of seamanship displayed within a few miles of Russia's Baltic fortress," ascribing yesterday's secretiveness on the subject of the accident to the imperial yacht Standard, which went aground off Hango, near Hango, Finland, Sept. 11, to the marine minister's "consciousness" of guilt.

BANK ROBBERS LOOT SAFE.

Aberdeen, S. D., Sept. 13.—Robbers wrecked the safe of the First State bank last night, secured \$1,200, and escaped.

SIR THOS. LIPTON WILL TRY AGAIN

Undaunted at the Failure of Former Efforts, He Will Make a New Attempt to Lift the America's Cup.

Formal Challenge for a Series of Races Is Mailed from Dublin by the Royal Irish Yacht Club, and Titled Tea Merchant Admits It Is Forwarded in His Behalf—Shamrock IV Will Be the Name of the Boat He Will Send Over.

London, Sept. 13.—Sir Thomas Lipton will make another attempt in 1908 to regain America's cup. A formal challenge, which goes to the New York Yacht club, in the name of the Royal Irish Yacht club, will be mailed from Dublin. Sir Thomas admitted that the Royal Irish Yacht club was challenging in his behalf, and that a cable dispatch would be sent the New York Yacht club from Dublin today, advising the Americans that a challenge for America's cup would be forwarded on the Umbria, which will touch at Queenstown Sunday, but he declined to discuss the matter at its present stage, preferring to wait until his challenge has been accepted.

From other sources it was learned that Lipton will be asked to design the challenger, if he is not already at work on the model of Shamrock IV, for that is to be the new yacht's name. Neither Sir Thomas nor his secretary would divulge the contents of the challenge.

GIFT TO YALE PUZZLES.

Even Relatives Are Mystified at Blount's Bequest of \$400,000.

London, Sept. 13.—The reason why the late Archibald Henry Blount, lord of the manor of Orleton, Herefordshire, bequeathed \$400,000 to Yale University is a mystery even to the executors of the deceased man and to one of the executors of his will.

The deceased's nearest relative, to whom he has left the family papers, is a well-to-do London lawyer, who at present is making a tour of the continent. He is probably the only person who was in the confidence of the late Mr. Blount. Mr. Blount appears to have been an eccentric character of miserly habits. While in London he lived in a cheap private lodging house. His Miss Annie Blount, one of the testatrix's nieces, was prominently before the public recently as the plaintiff in the case of Mrs. Josephine Leslie, who was arrested at Miss Blount's instance, July 5, at Newmarket. Mrs. Leslie was charged with fraud in using the name of J. Pierpont Morgan to induce Miss Blount to invest \$42,500 in a syndicate alleged to have been organized by Mr. Morgan. Miss Blount was questioned today regarding her uncle's bequest to Yale, but was unable to give any explanation of his action. Apparently the deceased had no great love for his niece or nephews, as, after a recent visit from them, he issued orders that they should not again be admitted to his presence.

REBUFF FOR THE MIKADO.

Demand for Big Concessions in Manchuria Refused by China.

Mukden, Sept. 13.—China has just won a big diplomatic victory over the Japanese, whose demands for concessions of forests, mines, land, salt, and numerous other things in Manchuria have been sternly rejected by the viceroy and governor of the province.

The Japanese government, after a struggle lasting two months, acknowledged itself beaten and has abandoned its attempt for the present, though reprisals on China are threatened. To punish him for his ill success in the negotiations the Japanese general has been transferred to another point.

The Chinese conducted the difficult negotiations with great ability, indicating a restoration of self-confidence and an intelligent perception of political conditions, national rights being recognized and defended without fear.

Great progress has been made in all departments of the government concerned in Manchuria. A strong army of 30,000 men is safeguarding the peace of the country.

GROUNDHOG BOUNTY A BURDEN.

Bloomington, Ills., Sept. 13.—Jo Daviess county has been added to the list of those wondering where all the groundhogs come from. Since July 1, when the bounty law went into effect 2,200 of the animals have been presented for redemption, costing the county \$1,950. The county treasury is being maled at the rate of \$500 per month and the taxpayers are commencing to grumble. As nearly every county in the state is reporting a similar gain on the strong box, it is probable a unanimous appeal will be made to the legislature at the next session to repeal the law. Twenty-five cents is allowed for each scalp.

CZAR'S SHIPMASTER CENSURED.

St. Petersburg, Sept. 13.—The newspapers here today voice indignation at what they term the "utter lack of seamanship displayed within a few miles of Russia's Baltic fortress," ascribing yesterday's secretiveness on the subject of the accident to the imperial yacht Standard, which went aground off Hango, near Hango, Finland, Sept. 11, to the marine minister's "consciousness" of guilt.

BANK ROBBERS LOOT SAFE.

Aberdeen, S. D., Sept. 13.—Robbers wrecked the safe of the First State bank last night, secured \$1,200, and escaped.

WEATHER FORECAST

Washington, Sept. 13.—The following is the weather bureau's forecast for Upper Michigan: Showers, Saturday, cooler in western portion; Sunday, probably fair; fresh to brisk shifting winds, becoming northwest.

BIG "HOWL" IS DUE

Negro Troops Not Wanted Elsewhere, Oliver Sends Them to New York.

Washington, Sept. 13.—By deciding to station negro troops returning from the Philippines in New York, his home state, General Oliver, acting secretary of war, has calmed the storm of protest from other communities which objected to receiving the soldiers, but has taken a step which will probably raise a howl of indignation in his own constituency. General Oliver has issued an order providing for the relief of several regiments that have been serving in the Philippines for more than the full allotted term of two years. Among the returning organizations is a negro regiment—the Twenty-Fourth infantry. With the dispatch to the Philippines of the Twenty-Fifth infantry some months ago the United States was left without negro troops, except a few short term cavalry men employed in the stables at the West Point military academy.

When the proposition was made about two months ago to return the negro troops several strong protests were made to the department by congressmen and other prominent persons representing communities where it was reported these troops were to be posted. General Oliver has settled the matter by ordering these soldiers into his own state. On Feb. 15 next, according to the terms of the order, the Twenty-Fourth infantry is to sail from Manila for San Francisco and proceed by rail to New York headquarters, the first and two battalions to be selected by the regimental commander to take station at Marlborough barracks, near Watertown, and the remaining battalion at Fort Ontario, near Oswego.

STANDINGS OF THE CLUBS.

Table with columns for National League and American League, listing teams and their records (W, L, P.C.).

SCHEDULES FOR TODAY.

Table listing game schedules for National League and American League teams.

GAMES PLAYED YESTERDAY.

Table listing game results for National League and American League teams.

As Noted by Bradstreet's.

Bradstreet's tomorrow will say: From the Northwest reports come that orders previously held back are now coming forward. Other favorable developments also are increasing shipments of grain and flour for export. In the lead, industries a notable feature is the sharp break in copper, continuing the steady decline in that metal, with talk of over-production and a necessary shutting down of mines.

The pig iron markets continue quiet, although there has been a somewhat better movement in basic forge and foundry iron at the East, where the tone has improved. It is to be noted that production is declining, that some furnaces in the Pittsburgh district have been blown out and that the prospects favor a shortage of about 30 per cent in the season's shipment of Bessemer ores. But on the other hand, it is declared that a smaller tonnage will be required for the coming winter and spring. The specifications on all finished materials are heavy. The new demand for structural material is fair. The business failures in the United States for the week ending Sept. 12 numbered 172, against 130 last week and 164 in the same week of 1906. The bank clearings for the week ending Sept. 12 show an aggregate of \$2,669,659,000, as against \$2,143,846,000 last week and \$3,119,979,000 in the corresponding week last year. The Canadian clearings for the week total \$83,318,000, as against \$79,536,000 last week and \$89,591,000 in the same week last year.

COPPER STOCKS CONTINUE WEAK

Forced Liquidation of Securities, Largely for Boston Account, Still a Disturbing Factor in the Wall Street Market.

Further Reductions in Dividends Help in Depressing the Metal Group, and at Times the Demoralization Is Acute—However the General List Is Not Greatly Affected, and It Finally Undergoes a Buoyant Rally, Closing With the Tone Very Steady.

New York, Sept. 13.—The stock market today showed clear enough the disturbing effect of the disclosures yesterday regarding the copper trade. Until the force of these influences had partially passed, opening the way to a buoyant recovery, the market was in a turmoil of confusion almost as great as during the troublesome times in August. The stocks in which the disturbance centered, in fact, sold lower than in August. Conspicuous examples were Amalgamated Copper, American Smelting and United States.

As the session progressed the market gave unmistakable evidence that the liquidation which had been effected was a source of relief. The railroad stocks showed marked contrast still with the extreme weakness of the copper and mining and metal stocks, the general declines in that portion of the list not reaching wide figures at any time. The selling of copper stocks bore marks of forced liquidation, and it was generally supposed that some heavy loans involving these securities were in course of retirement. The sentiment over the significance of the copper situation was not so hopeless as was professed yesterday, and there was not lacking a feeling that the course of action proclaimed yesterday might represent the shortest path to the correction of the deadlock in the trade. Boston continued to play large part in the liquidation in the copper group. The weakness of these stocks was aggravated by the announcement of a reduction in dividends by two minor companies engaged in mining copper.

Forecasts of the bank statement helped confirm the growing feeling of confidence in the money situation. A gain by the banks of between two and three millions of cash on the known movements of accepted authorities.

The vigorous rally which transformed the stock market from its early depression into buoyant strength was not fully held, but the closing tone was steady.

Trade Conditions Sound.

New York, Sept. 13.—R. G. Dun & Co.'s Trade Review tomorrow will say: The retail trade increases at the leading cities as the vacation season closes, and the opening of fall lines is attended with satisfactory results. As the staple crops are marketed there is prompt improvement in mercantile collections throughout the agricultural districts, and the decline in prices has been especially helpful in stimulating the export trade. There is still conservatism in placing contracts for future business. The increased speculation is another factor that aids in restoring normal financial conditions.

Postponed business is coming more freely to the steel mills, and there is being definition in the way for favorable conditions. Structural steel shapes are constantly ordered, especially for bridge work, and the railways seek all forms of supplies in larger quantities than expected. There is still some disagreement regarding the price of steel mills under the new specifications which call for better quality. Bessemer iron is maintained in consequence of a small decrease in output, several more furnaces being blown out for repairs last month. In the market for the minor metals the feature was a further decline in copper, stocks accumulating in the hands of producers while many consumers have waited for the predicted fall to fifteen cents.

The primary markets for dry goods are seasonably quiet without any evidence of weakness.

As Noted by Bradstreet's.

Bradstreet's tomorrow will say: From the Northwest reports come that orders previously held back are now coming forward. Other favorable developments also are increasing shipments of grain and flour for export. In the lead, industries a notable feature is the sharp break in copper, continuing the steady decline in that metal, with talk of over-production and a necessary shutting down of mines.

The pig iron markets continue quiet, although there has been a somewhat better movement in basic forge and foundry iron at the East, where the tone has improved. It is to be noted that production is declining, that some furnaces in the Pittsburgh district have been blown out and that the prospects favor a shortage of about 30 per cent in the season's shipment of Bessemer ores. But on the other hand, it is declared that a smaller tonnage will be required for the coming winter and spring. The specifications on all finished materials are heavy. The new demand for structural material is fair. The business failures in the United States for the week ending Sept. 12 numbered 172, against 130 last week and 164 in the same week of 1906. The bank clearings for the week ending Sept. 12 show an aggregate of \$2,669,659,000, as against \$2,143,846,000 last week and \$3,119,979,000 in the corresponding week last year. The Canadian clearings for the week total \$83,318,000, as against \$79,536,000 last week and \$89,591,000 in the same week last year.

PETTIBONE CRITICALLY ILL

Death May Intervene to Prevent the Trial of the Miners' Accused Leader.

Boise, Idaho, Sept. 13.—Gen. A. Pettibone, charged with complicity in the murder of former Governor Steunenberg of Idaho, was taken to a hospital today in critical condition. An operation probably will be necessary. There will be no further prosecution of the case at present.

EMBEZZLEMENT ALLEGED.

President of a Chicago Concern Accused of an \$8,000 Swindle.

Chicago, Sept. 13.—Benson Bidwell, president of the Bidwell Electric Company, was today held to the jury in bonds of \$3,000 by Judge Beiler on the charge of embezzlement. He was charged with embezzling \$8,000 from stockholders, selling stock in the concern without consent and appropriating the proceeds to his personal use.

PARDON DENIED HIM.

Banker Paul Stensland, Convicted of Forgery, Must Serve Out His Term.

Joliet, Ill., Sept. 13.—Paul O. Stensland, former president of the Milwaukee Avenue State bank, must serve out the full term given him in Joliet penitentiary by a jury for forgery. His application for pardon was taken up by the pardon board today and was denied. He has served eleven months of his eighteen-year term.

VICTIM OF BUBONIC PLAGUE.

President of the Chinese Six Companies Is Dead at Frisco.

San Francisco, Sept. 13.—Chang Mon Wo, president of the Chinese six companies, was found dead today. His demise was due to the plague. The cause to date since May 7 number twenty-four, the deaths thirteen. Dr. Rupert Blue, government expert, says there is no cause for alarm.

BLOW FOR BUTTE

IDLENESS THREATENS SOME 20,000 MEN.

Weak Copper Market Not Altogether Accountable, It Is Suspected, but Rather a Desire to Kill the Miners' Union.

Butte, Mont., Sept. 13.—The city faces at least temporary decadence as a mining camp, as a result of the announced intention of the Amalgamated Copper company to close down its mines here and in other nearby camps.

In the neighborhood of 20,000 men will be thrown out of employment. These are now working as miners, in the smelters, and in various other trades which are maintained solely by the industries of copper production and refining.

Notwithstanding the fact that the company has announced as its reason for the proposed shut-down the fact that the price of copper has fallen to a low figure and that there is a vast surplus of the metal now on hand, it is generally believed here that the decision of the Amalgamated to make this a non-union camp is back of all other developments.

The trouble which had existed ever since Heinze sold out to the Amalgamated, which culminated in the recent strike, believed the company met the demands of the miners for more pay, and it was to be really responsible for the new attitude of the company. When the agreement was made with the miners the latter agreed to accept a reduction in their wages when the selling price of copper should go below eighteen cents a pound.

The metal has been selling for less than this figure for some time, and it is held by many, shrewd observers that the company plans to shut down and give the men a taste of real hard times, so that they will the more readily live up to their agreement to accept a reduction in their pay.

RAILROAD STATISTICS.

Interesting Figures Made Public by Interstate Commerce Commission.

Washington, Sept. 13.—The interstate commerce commission today made public an abstract of its nineteenth annual statistical report, covering the year ending June 30, 1906, showing that the net value of the railway capital outstanding was \$4,570,421,478, or 867,936 a mile. Of this, capitalization over 33 per cent paid no dividends. Of the railway stock outstanding, \$2,257,175,799 was owned by railway corporations. The aggregate gross earnings from an operated mileage of 22,340 were \$2,355,765,167, being \$243,282,761 greater than in 1905. The operating expenses were \$1,538,877,271, or \$146,275,119 more than in 1905.

DIVORCED SEVEN TIMES.

Kokomo, Ind., Sept. 13.—On the hearing of the divorce case of Anna McMahon against W. L. McMahon in the superior court the startling fact was brought out that she was asking for the seventh divorce, having been married and divorced six times. Although she was given a separation as asked, the court ordered all court costs assessed against her.

ESTATE WORTH A MILLION.

Washington, Wis., Sept. 13.—The will of Isaac Wing of Bayfield was opened today. The deceased leaves nearly \$1,000,000. The bulk of the estate goes to the sister, Mrs. A. G. Benjamin of Spokane, Wash. The will also leaves \$19,000 cash to nineteen relatives and friends.

WALTER WELLMAN RETURNING HOME

Arriving in Norway from Spitzbergen He Reports That for This Year His Polar Trip Is Definitely Abandoned.

Airship Sent Up Sept. 2, a Start for the North Is Made Notwithstanding Bad Weather—But a Storm Being Encountered and the Balloon Being Driven Back, Landing on a Glacier, the Attempt to Reach the Pole Is Given Up Until Next Summer.

Tromsø, Norway, Sept. 13.—Walter Wellman and his party arrived here last evening from Spitzbergen. Mr. Wellman says that the airship America left her shed Sept. 2 and made an ascent in mid weather, but she proved so strong and behaved so well that the start north was immediately made. The airship, however, encountered a storm, was driven back, and landed on the top of a glacier. Everything was saved.

Will Try Again Next Year.

Tromsø, Norway, Sept. 13.—Walter Wellman, head of the Wellman-Chicago Record-Herald Polar expedition, has arrived at Tromsø on his way home. He announces that he has definitely abandoned for this year, after a disastrous trial of the airship, his proposed attempt to reach the North pole. The airship made an ascent Sept. 2 in a strong north-westerly wind which drove her southward toward the land. It was found necessary to cut the balloon drift from the other parts of the airship, but it was recovered after two days' search. Mr. Wellman says he will make another attempt with a new airship in 1908.

G. A. R. VETERANS ADJOURN.

Business Concluded at the Annual Convention at Saratoga.

Saratoga, Sept. 13.—The veterans of the Grand Army attending the 41st annual encampment of the organization concluded their business today. The encampment adopted the report of the committee on resolutions, which recommended that congress provide for the erection of a soldiers' hospital near the Gulf of Mexico; increasing widows' pensions to \$12 a month; providing some suitable memorial to the soldiers and sailors of the Union army who were in the South when the war began and did not join the Southern forces, declaring that widows of soldiers buried in national cemeteries may be buried beside their husbands. Retiring Commander Brown was made chairman of the committee on pensions. The council of administration will include Philip Cheek of Baraboo, Wis., and Samuel J. Lawrence of Northville, Mich.

FLEET TO USE MUCH COAL.

Will Need 250,000 Tons in Addition to Cargoes of Colliers.

Washington, Sept. 13.—It is announced that 253,000 tons of coal, exclusive of that to be shipped in government colliers, will be required to get the Atlantic battleship fleet to the Pacific coast and properly coal it at Mare Island, according to the estimates made by the equipment bureau of the navy department, which has called for proposals for supplying the necessary fuel. Of this aggregate 132,000 tons are semi-bituminous and the remainder Welsh coal. The former is to be shipped from Atlantic ports in vessels either in American or foreign register, according as the terms may be the more favorable in the opinion of the bureau.

DYNAMITERS' WORK.

Office of a Newspaper Wrecked at Joplin, Mo., Missouri.

Joplin, Mo., Sept. 13.—Dynamite tonight wrecked the press room and composing rooms of the Joplin News-Herald, an afternoon Republican newspaper which has been conducting a crusade against the city council and police department. The explosion occurred at 11:15 o'clock.

ATTACKED BY TOUGHS.

Purdue University Students Badly Mauling in Battle With Hoodlums.

Lafayette, Ind., Sept. 13.—In a riot between Purdue University students and city toughs here today, six students were seriously injured and fifteen others were badly beaten. The students were returning from a dance when they were attacked.

LAURIER ORDERS INQUIRY.

Special Commission Sent to Investigate the Vancouver Situation.

Ottawa, Ont., Sept. 13.—Special government officers will leave Ottawa tomorrow for Vancouver to deal with the Oriental labor question.

GETS 55 YEARS IN JAIL.

Meadville, Pa., Sept. 13.—Fifty-five years in solitary confinement was the sentence imposed by Judge Frank Thomas on Henry Lehna, who confessed to robbery and three attacks on fourteen-year-old Anna Whitehead at Turnersville, Pa., near here, a month ago. This is the maximum penalty for the crime, being fifteen years for each attack and ten years for robbery.

 MARQUETTE, MICH., SEPT. 14.
 Entered as mail matter of the second class
 in the postoffice at Marquette, Mich.

As long as our old friend "General
 Business" stands up as at present there
 is no need to be entirely downcast, but
 if old "General Business" begins to look
 overly thin indeed he real cause for
 serious misgivings.

Bradley's for Taft. So is the governor
 and the lieutenant governor, and a lot
 more people who are looking for the
 support, moral and otherwise, of the
 voters. In fact, being for Taft is re-
 garded as closely akin to being for
 Roosevelt.

Governor Johnson of Minnesota wants
 none of the Democratic nomination. The
 leading of loss hopes has no attractions
 for him. He would rather remain in
 Minnesota, where he has succeeded in
 getting a pretty close grip on a majority
 of the voters. If, in fact, Governor
 Johnson was Henry Watterson's dark
 horse, another of Marso Henry's hopes
 is blasted.

As we have said before, let us use
 the voting machines in all future elec-
 tions and thus avoid these ugly charges
 of fraud and jugglery of the ballots.
 The machine leaves practically nothing
 to the discretion of the election board.
 Each vote is mechanically recorded when
 cast, and the registering dies show the
 totals when the voting is finished. All
 the election board has to do is to certify
 to the record of the machine, which is
 then locked up, preserving the record
 of the election. There is no call for the
 board to pass judgment on ballots re-
 garding which even courts might be ex-
 pected to differ. There are no ballots
 to be thrown out as spoiled, for the
 machine cannot be operated until it is
 properly adjusted for voting. It puts
 the minimum of responsibility on the
 men comprising the election boards, and
 the finality of its returns insures the
 community against the expense and bad
 feeling arising out of recounts.

We haven't been hearing as much
 lately of the telegraphers' strike as we
 did in the beginning, but it is still a
 pretty vigorous affair. There has been
 talk of compromise, but it has been only
 talk, and officers of the companies quot-
 ed maintain their stiffnecked attitude.
 The tieup of the service is by no means
 complete. The newspaper service is now
 fairly satisfactorily in many cities, in-
 cluding The Mining Journal's service in
 Marquette, but in others it is still but a
 semblance of the usual service, owing to
 the more complete tieup prevailing. Con-
 siderable commercial business is being
 done by means of the wires, but the
 entire volume of telegraph service is now
 much less than before the trouble came
 to a head, and thus the strike is a heavy
 burden not only on the operators but on
 the companies. The outcome is not yet
 clear, but in view of the gradual im-
 provement in the service it is probable
 that it will in time be restored to a nor-
 mal basis, irrespective of the telegraph-
 ers' union and irrespective of the prob-
 able justice of the telegraphers' de-
 mands.

The police commission's action in pro-
 viding that an officer be stationed at the
 headquarters in the city hall continu-
 ously between 7 p. m. and 7 a. m. is one
 that will meet with general approval,
 and the public will doubtless be pleased
 to see the commission so responsive to
 its wishes in the matter. No increase
 in the force is planned. One of the of-
 ficers who now patrol a beat will be con-
 tinuously on duty at headquarters, with,
 doubtless, relief at times. Such an ar-
 rangement will improve the police pro-
 tection without adding a man to the
 force, for obviously one officer stationed
 where people know where to reach him is
 worth two or three at large about the
 city, whose whereabouts is not definitely
 known. Under the new order complaints
 or alarms telephoned into the headquar-
 ters in the city hall will receive prompt
 attention. Now if the cities of Ishpeming
 and Negaunee will take similar steps
 to keep a man at headquarters, at least
 during the hours fixed on in Marquette,
 provision will have been made for quick
 communication between the police de-
 partments of the three cities, thus pay-
 ing the way for their more effective co-
 operation with one another.

**SUPERIOR TRUST
 COMPANY**
HANCOCK MICHIGAN
 Capital - - \$150,000

This company is under
 the supervision of the
 state banking depart-
 ment and is authorized
 by the law to act as ex-
 ecutor, administrator, guar-
 dian, assignee, receiver
 or trustee.

C. A. WRIGHT, Pres.
 JACOB BAER, Vice Pres.
 M. C. GETCHELL, Secy.

Secretary Taft's present "swing
 around the circle" will be the most no-
 table any American official has ever tak-
 en, and will probably be far reaching in
 its effects. He will start the Filipin-
 os on the way to self government by
 opening their first general assembly. He
 will call on the Emperor of Japan, Czar
 Nicholas of Russia and Emperor Wil-
 liam of Germany before returning home.
 It has not been announced what topic he
 will discuss in the various courts he
 will visit, nor what messages he will
 deliver, but undoubtedly the far eastern
 situation will be the leading subject,
 both as to present policies and the fu-
 ture. How far he will be clothed with
 authority to speak for this government
 is not stated, but there is some signifi-
 cance in the preparations that are being
 made by the different foreign govern-
 ments to receive him semi-officially. He
 will undoubtedly be admitted to the in-
 ner circles and when the world history
 of the next decade shall be written it
 may be found that his name appears
 in many places and in large type. What-
 ever he may do officially either at Pekin,
 St. Petersburg or Berlin will come out
 in time, but it is likely his mission will
 be to pave the way for official action rath-
 er than to himself act officially and the
 fruits will be in the treaties yet to be
 made. The trip will help make this
 country known to the world. It will
 put us in closer touch and on friendlier
 terms with other nations. And it will
 be a great experience for Mr. Taft.

President Roosevelt's western trip to
 attend the deep waterways convention in
 Memphis Oct. 4 and 5 will be of more
 than usual interest and in its ultimate
 consequence may be of vast importance.
 The party to make the trip will rendez-
 vous at Keokuk, Iowa. It will include
 the inland waterways commission, a
 group of United States senators and rep-
 resentatives, the Mississippi river com-
 mission, the governors of a dozen states,
 committees from Chicago, St. Louis,
 Joliet, Peoria and the numerous other
 cities which are directly interested in
 the deepened way, and other prominent
 men and representatives of organiza-
 tions. There will be a reception, banquet
 and a speech by the president at Keo-
 kuk. Then the steamer Mississippi will
 be taken for the ride down the river,
 with stops at St. Louis and Cairo. The
 trip will not be against time, but will
 be taken slowly and easily that there
 may be ample opportunity for studying
 the lay of the land and water. This will
 be the first "state" visit to the Father
 of Waters since the days of President
 Pierce, a half century ago. At that
 time the Mississippi was one of the great
 channels of commerce. The railroads
 have since subordinated the river to such
 a degree as to have made it almost for-
 gotten, except geographically. The pres-
 ent purpose is to improve the river and
 deepen it where necessary that it may
 again become a great route for trade
 and travel. A government commission is
 giving the possibilities a thorough study
 and no doubt the government will help
 the improvement plans with a generous
 hand, if for no other reason than to re-
 lieve the congestion on the railroads.

THE BOUGHT VOTERS.
 We often wonder why it is that the
 best men in the community so seldom
 run for public office and we are inclined
 to believe that the trouble lies in a lack
 of public spirit on the part of our most
 prominent citizens. But that is only a
 partial explanation. The wealthy men
 of a town, the leaders in the commercial
 and industrial life; the educated men,
 the most prominent lawyers and physi-
 cians, do not show a public spirit such as
 should be expected of them. They not
 only refuse to put their superior ability
 at the service of their fellow townsmen,
 but they often neglect to take the trou-
 ble to go to the polls. But admitting
 so much the explanation remains only
 partial.

The great trouble lies with the mass
 of the voters. This is a government,
 supposedly, by the people, not by a class.
 Actually it has been a government by a
 class, and that not the best class, the
 politicians. The mass of the people have
 been quite as indifferent as their business
 leaders. They like to talk about being
 citizens of a free country where one
 man's vote is as good as any other man's
 vote. But when it comes to actually
 earning their right to talk in this way
 they stay at home or refuse to walk a
 few blocks out of their way.

And so it comes that the man who de-
 sires a public office has to buy it, and
 buy it, usually, in an underhand man-
 ner. He doesn't come out openly and
 say: "I'll give so much to the mayor,
 or member of the legislature," he hires
 so-called "workers" who promise to de-
 liver so many votes or to carry a cer-
 tain precinct. How they do it is the
 "worker's" lookout, the candidate can-
 not go behind the returns. Then he has
 to promise other men that if they will
 help him he will help them in the future.
 So by the time a campaign is over the
 winning candidate has usually spent a
 good part of his expected salary and has
 mortgaged all his political credit for the
 rest of his life to his helpful "friends."
 As for the defeated candidates, they have
 usually paid considerably more than
 they could afford for their experi-
 ence.

Down in New York state the last leg-
 islature passed a law that no candidate
 should spend more in securing his nomi-
 nation and election than the office will
 pay. By this law a candidate for gov-
 ernor is limited to expenses of \$10,000.
 Then if he is elected he has the pleas-
 ure of working for the people for noth-
 ing during his term of office—provided

he is honest and doesn't graft. If he
 is defeated he has the privilege of seek-
 ing a job in private life that may pay
 as much as the governorship. That sure-
 ly is an excellent method of getting good
 men to run for office. But it seems to
 be the only method so long as the voter
 refuses to do his duty until a candidate
 hires a friend to induce him to go to the
 polls.

STEFFENS IS CORRECTED.
 In an article in the September number
 of a popular magazine Lincoln Steffens,
 a writer whose specialty is investiga-
 tions of civic corruption and other kinds
 of corruption, writes entertainingly and,
 as a whole, convincingly of the western
 land frauds and of the manner in which
 they were unearthed by Secretary Hitch-
 cock. One of his statements reflects
 seriously on Speaker Cannon, but it has
 not been allowed to go unquestioned, be-
 ing flatly contradicted by L. W. Busbey,
 Mr. Cannon's secretary.

One of the officials whose fingers were
 soiled in the land frauds was Binger
 Hermann, for some years commissioner
 of the land office. After detailing how
 Hermann was found out, Mr. Steffens al-
 ludes to his career after he was found
 out. He refers to the fact that he was
 elected to congress from Oregon, and
 then says that "Speaker Cannon and the
 ring that rules the house put Hermann
 (for some reason) upon the public lands
 committee, and there he was a thorn
 in the side of Secretary Hitchcock."

Here's where Mr. Busbey comes in. In
 an open letter he informs Mr. Steffens
 that Hermann was not, as the latter
 could have ascertained by an examina-
 tion of the committee lists for both
 the fifty-eighth and fifty-ninth con-
 gresses, on the public lands committee
 of either congress. Going further, Mr.
 Busbey quotes facts that tend to show
 that Mr. Cannon did whatever he could
 to expedite Mr. Hitchcock's investigation
 of the land frauds, by friendliness to-
 ward the appropriation bills in connec-
 tion with that work.

Mr. Busbey suggests that if Mr. Stef-
 fens is going to make a history of the
 land fraud cases he be careful to make
 a true history, and exhibits pardonable
 impatience with the insinuation that
 Mr. Cannon made a berth for Hermann
 where he could make the maximum of
 trouble for the secretary who had pro-
 cured his dismissal from the government
 service, when the facts are quite to the
 contrary. Mr. Steffens has an effective
 manner of writing; he conveys the im-
 pression of absolute veracity and careful
 study into the facts. There is little
 doubt that a large number of his readers
 believe implicitly what he sets forth.
 His mistakes, such as in the case of
 Speaker Cannon, cannot help but do mis-
 chief, much of which cannot be re-
 paired by subsequent retraction or qual-
 ification. There is a certain tangible
 value about the sort of writing Mr. Stef-
 fens is doing, if it is only done fairly
 and honestly, but he cannot be too care-
 ful to avoid hasty conclusions or too
 chary about using material he hasn't
 personally investigated. Mistakes in his
 business are little less than a crime.

TURBINE ENGINES IN FUTURE.
 The British government has been so
 well pleased with the turbine engine in
 the battleship Dreadnaught that it
 has decided to fit all future warships
 with them. Heretofore the question of
 expense has been a great drawback but
 now they can be built and operated as
 economically as the other kind. The
 question of selecting a turbine engine
 adapted for all family uses has been suc-
 cessfully solved by the thousands who
 chose Hostetter's Stomach Bitters. It is
 an absolutely pure medicine and never
 fails to build or relieve constipated bow-
 els; in fact it is just the one every man
 or woman needs who suffers from sleep-
 lessness, poor appetite, dyspepsia, indig-
 estion, heartburn, liver and kidney
 troubles, female ills or malaria. Be per-
 suaded to try a bottle this very day.

**CURED HAY FEVER AND SUMMER
 COLD.**
 A. J. Nushbaum, Batesville, Indiana,
 writes: "Last year I suffered for three
 months with a summer cold so distress-
 ing that it interfered with my business.
 I had many of the symptoms of hay
 fever, and a doctor's prescription did not
 reach my case, and I took several medi-
 cines which seemed to only aggravate
 my case. Fortunately I insisted upon
 having Foley's Honey and Tar in the
 yellow package, and it quickly cured me. My
 wife has since used Foley's Honey and
 Tar with the same success." The Staf-
 ford Drug Co.

**WATER BOARD NOTICE OF PRO-
 POSING ASSESSMENT.**
 To the owners of lots and parcels of
 land in the Ayr, Towar and Mar-
 quette Land company's additions to
 the city of Marquette.
 Notice is hereby given, that the board
 of fire and water commissioners of the
 city of Marquette, have, at the request
 of the owners of lots in these additions,
 decided to extend the water mains of
 the city to these additions, provided the
 board to lay pipes at proper depth to be
 protected from frost. And have deemed
 it just and equitable that a portion of
 the cost of such extensions shall be as-
 sessed upon the lots and parcels of real
 estate especially benefited, and for the
 purpose of examination by the owners
 of the lots in these additions, and others
 interested, a map of the proposed
 district to be assessed, together with an
 estimate of cost of the improvement, as
 also of the amount proposed to be raised
 by special assessment, may be seen at
 the office of the board in the city hall,
 during usual office hours, from this date
 to and including the 23rd of September.
 Notice is hereby given to the owners
 of lots and others interested in these
 additions, that the board will meet at
 their office in the city hall at 8 o'clock
 in the evening of the 23rd day of Sep-
 tember, prepared to hear any objections
 and suggestions relative thereto.
 By order of the board of Fire and Wa-
 ter Commissioners.
 JOHN P. KERN,
 Secretary.

An American Stage Beauty Saved Her Hair With
Newbro's Herpicide

She writes as follows to the Herpicide Co.:

"For the past two years I played a part that necessitated the wearing of a wig. My scalp would perspire under the wig and it was not long until dandruff made its appearance and constantly grew worse. I used every remedy I could find to rid my head of it, but all to no avail. I finally decided to give Newbro's Herpicide a thorough trial. I cleaned and dried my hair before applying Herpicide and after three or four applications I was delighted to see the dandruff disappear and my hair is now as nice as ever. I could not be without Herpicide and I can recommend it most highly and believe it will do all that is claimed for it."

Respectfully,
 (Signed) JULIA H. TOBIAS,
 276 Marston Court,
 Detroit, Mich.

Prominent Manistee barbers state that Herpicide does all that is claimed for it.

"We have used a large quantity of your Herpicide in our shop and will continue to use it as we find it does all you claim for it. As a remedy for dandruff and falling hair, it has no equal."

(Signed) SCHUMAN & HEINTZ,
 Manistee, Mich.

More men and women have gotten positive results from the use of Newbro's Herpicide than from all other hair remedies combined.

Guaranteed under the Food and Drug Act, June 30, 1906. Serial No. 913.

Two Sizes, 50 cents and \$1.00 at drug stores. Insist upon Herpicide. Send 10 cents in stamps for sample to the Herpicide Co., Dept. L, Detroit, Mich.

Copper Country

PREPARE FOR ELECTION.

People Will Vote Next Tuesday for Constitutional Delegates.

County Clerk Richardson yesterday sent to the voting precincts of Houghton county the ballots to be used next Tuesday in the election for delegates to the constitutional convention. The law requires that the county clerk send out twice as many ballots as there were voters in the preceding election, and he thus has sent out a total of 14,000. There will be little political excitement in the copper country incident to the election. The election of Messrs. Calverley, Campbell and Honck, the Republican candidates, is conceded, as is the case with all Republican candidates in all elections in the copper country, and for this reason few Republicans will take the trouble to visit the polls. Of course the party leaders will get out a sufficient vote to make the election certain. The Democratic poll will undoubtedly be very light because that political faith is not very strongly represented here.

The day will be observed in the copper country as a legal holiday, as much as it ever is so observed. The banks and courts will close and the postoffice will observe Sunday hours. The general registration will be held in all the precincts of the county today.

RESORT SEASON ENDING.

Tobin's Harbor resort on Isle Royale and the Washington Harbor resort, the late Captain Singer's enterprise, have been closed for the season, all resorts having been left and the cottages and hotels being boarded up. The season is reported as having been a very good one. Freda Park has not been formally closed, but it will be within a short time as the lake shore is now too cold for pleasure picnicking. Electric Park is still open, but the crowds are growing smaller as the park site is becoming Arctic in its night temperature. The smaller resorts and parks are not as attractive as formerly, when the sun was shining, and they will all be closed within a few days.

The resort season of 1907 in the copper country was one of the most prosperous on record. There was a general hezira of people to the lake and the woods and all people with investments in the business made money.

KEWEENAW CIRCUIT COURT.

Term at Eagle River Unusually Long—Houghton Circuit.

Judge Streeter and Reporter Goodale had not returned yesterday from Eagle River, where this week they have been in attendance upon the Keweenaw county circuit court, and it was thus not possible to give the results of the term, as communication between Eagle River and Houghton county is not easy.

Around the county building in Houghton there is some speculation regarding the cause of the term's length. Judge Streeter is usually required to spend not more than two days at Eagle River to try the entire Keweenaw calendar, but he has spent an entire week this term. The calendar was unusually large for Keweenaw county of course, that county being in a second period of adolescence, but it was not believed to be long enough to consume a week.

Judge Streeter will, however, terminate the term today, if he did not last evening, as he must be in Houghton Monday to open the term of the Houghton county circuit court for September.

MINOR CRIMINAL MATTERS.

Alleged Copper Thief's Case Adjourned—Smaller Affairs.

The case of James Solsky, charged with stealing mass copper, was to have come up before Judge Brant's court in Houghton Thursday afternoon, but owing to the absence of Prosecuting Attorney Kerr from the county the hearing was adjourned until next Tuesday afternoon. The charge against Solsky is brought by the Copper Range Consolidated Mining company, the officials of which believe the copper was stolen from one of the South Range mines. Solsky was found with the goods on him by a night freight clerk in the Copper Range railroad office in Houghton. He attempted two weeks ago to ship two barrels marked hides to Chicago, but the clerk suspected from the weight or for some other reason that the barrels were protecting something contraband, and he investigated. The barrels were found to be filled with mass copper. Solsky was arrested and in defense he claims he purchased the copper from another man.

Superintendents of schools in the copper country are having the usual trouble with truancy, which is most violent at the beginning of the school year or nearing its close. Houghton and Hancock superintendents threaten to arrest the parents of truants, and at Calumet three parents have been arrested. In each case the offenders have been let off with a reprimand, the justice believing they have learned their lesson.

REGARDING A "CHAMPIONSHIP."

Soo and Hurontown Ball Teams Divide the Honors.

The following relating to the amateur baseball championship of the upper peninsula is from the Soo News: "As it now appears the Soo and Hurontown have about the best claim to the championship, either one or the other claim it without question. Marquette is out of it, having been defeated by both Newberry and Hurontown. Newberry has less claim, because of having been compelled to lay down to the Soo. The team has not lost a game this season on outside teams and only two at all together, both of them to local teams. If hope were to decide the whole thing it would appear that the Soo boys have the best claim to the championship, but not enough actual games with the better teams have been played and the boys therefore make no claim to the championship, although they would gladly enter into a series of such games could such a thing be brought about."

MUST COUNT THE STAMPS.

Houghton Postoffice Receives Orders from Headquarters at Washington.

Postmaster Lang has received instructions from the postoffice department which for one week during October will require considerable more of the usual amount of work being required of the Houghton office at the present time. The new order is that all postage be counted during the week beginning Oct. 12. The employees of the office are wondering how they will manage to take care of this extra work when they are just about going their limit now. The weighing of the mails which has been in progress for some time back and which will continue until Jan. 1 is giving them about the extra work they want or can attend to. This order for the counting of the postage is also a general order and is for practically the same purpose as that which requires the weighing of the mails, the gathering of data for the purpose of establishing the rates for carrying mails and upon which to base plans for the adequate handling of the mails in the various offices.

LOST AND FOUND.

Lost, between 9:30 p. m. yesterday and noon today, a bilious attack, with nausea and sick headache. This loss was occasioned by finding at The Stafford Drug Co's drug store a box of Dr. King's New Life Pills. Guaranteed for biliousness, malaria and jaundice. 25c.

DETROIT AND RETURN \$7.00

Via the South Shore. Tickets on sale Sept. 9th, 12th, 16th, 21st, connecting at St. Ignace with steamer of the D. & C. N. Co. To Buffalo \$2.00 higher. Limit three weeks. For sleeping car and steamer reservations apply to ticket agents. (8-15-32d)

Keep a package on a low shelf. Let the children help themselves.

Uneda Biscuit

are the most nutritious food made from flour.

Always fresh, crisp, clean.

5c In moisture and dust proof packages.

NATIONAL BISCUIT COMPANY

MINING COLLEGE BOARD.

Various Donations to the Houghton Institution Acknowledged.

The members of the board of control of the Michigan College of Mines, in session Thursday as was stated in these columns yesterday, had one pleasurable duty to perform. This was the acknowledgment of various donations received by the college during the preceding year. During the year the institution received valuable gifts of machinery and instruments from the Western Instrument company and the Crosby Steam Gauge & Valve company, which apparatus constitutes a valuable acquisition to the equipment of the mechanical and electrical engineering departments.

The college also received through the year a large number of mineralogical specimens from alumni of the institution. Graduates from the M. C. M. are now located in the practice of their professions in every prominent mining field on the globe, and they frequently pick up specimens of rock or mineral which they know will enrich the museum which is now being built up by President McNauff and the faculty in anticipation of the new museum building to be erected next year. The board of control takes pleasure in acknowledging these donations, usually at the annual meeting.

TO ENTERTAIN CONGRESSMEN.

President Miller of Houghton Will Call Mass Meeting.

President W. F. Miller of Houghton village said yesterday that he expected to call a public meeting Monday night for the purpose of discussing the manner of entertaining the rivers and harbor committees of congress who will be in Houghton next Friday. Mr. Miller finds that as the dominating factor in the congressmen, will be in port only four hours, it will be difficult to arrange an adequate entertainment, but the usual committee of businessmen with the usual chairman, W. D. Calverley, will undoubtedly make an arrangement which will result in impressing the visitors. The entertainment may take the form of an automobile trip around the county, giving the congressmen a hasty glance at the larger mines, mills and smelters, which to be followed by a luncheon at the Douglas House.

It is interesting to note that the most important visitors to the prospective party of visitors is Hon. Theodore E. Burton of Cleveland, chairman of the house committee on rivers and harbors. Mr. Burton is just now a figure of large political importance, as he has entered the mayoralty fight in Cleveland as a Republican candidate opposite Tom L. Johnson, the present mayor. The mayoralty is not of national importance, but by fighting for it Mr. Burton hopes to unite the Ohio Republicans and incidentally aid Taft in his presidential efforts. Mr. Miller would not say yesterday that Houghton would entertain the congressmen, but that the village is pleased to entertain them without hope of any return in the way of legislative patronage.

THE TOUCH THAT HEALS

Is the touch of Bucklen's Arnica Salve. It's the happiest combination of Arnica flowers and healing balsams ever compounded. No matter how old the sore or ulcer is, this Salve will cure it. For burns, scalds, cuts, wounds or piles, it has no equal. Guaranteed by The Stafford Drug Co., druggists. 25c.

If we could take you through our establishment, and show you the vast care and cleanliness which produce the old original egg and sugar coated Arbuckles' Ariosa Coffee, no one could ever tempt you to change to any other coffee.

ARBUCKLE BROS., New York City.

COPPERDOM BREVITIES.

Mrs. H. E. Kratz of Calumet is visiting in lower Michigan cities.

Mr. and Mrs. Walter S. Baer of Houghton have returned from an extended visit at Chicago.

This is pay day for the employees of the Bigelow mines. The Calumet & Hecla pay day will not fall until next Saturday.

The flower show of the Woman's Club of Calumet opened yesterday in the Washington school hall and will continue through today.

The funeral of Mrs. Mary Downey of Laurium was held yesterday morning from St. Patrick's church, Hancock, to Lakeside cemetery.

Rev. Van Slyke of the Seaman's Home, Milwaukee, is calling on copper country people for assistance for the home. He is making an annual visit.

Roy Young, teller in the Lake Linden bank, is entertaining his brother, R. T. Young of Marquette, who is a student at the Annapolis Naval academy.

Paul H. Macnell, the Calumet architect, has returned from a visit in Southern Michigan, where he has been recuperating after an operation for appendicitis.

R. G. Carpenter, for a number of years a boat builder in Houghton, announces his intention of removing shortly to Vancouver, B. C., where he will engage in the same business.

James W. Silke announces that he will re-open the Savoy theater, Hancock, today. The little theater has been closed all summer. It will resume with the usual program of illustrated songs and motion pictures.

Rev. John Wargelin, a former resident of Houghton and graduate of the Finnish college, is visiting in Hancock. He has been pastor of the Finnish-Lutheran church at the Soo and has been transferred to Eveleth, Minn.

Chief Andrew of Hancock caught two young men "rubbering" through the windows of the Kerredge theater dressing rooms Wednesday night. He kept them in the lock-up all night and dismissed them with his fatherly advice in the morning.

The next important production to be seen at copper country theaters will be "Raffles," with S. Miller Kent in the title role, played in the original production by Kyrle Bellew. The play comes to the Kerredge Wednesday night, appearing in the evening at 7:30.

Mr. Kent was seen here several seasons ago in "The Cowboy and the Lady" and is recalled with pleasure by theatergoers. The play is a dramatization of incidents in E. W. Hornung's stories of English society and crime under the general title "The Amateur Cracksmen."

The various Methodist Episcopal churches of the copper country will know Monday of the appointments of pastors for the ensuing year. The Detroit conference, now in session in Detroit, makes the appointments. As far as is now known there will be no three changes.

Rev. W. C. Clemo, of Kearsarge, Minn., of Dollar Bay and Polkington of Lake Linden having declined a recall from their charges. Rev. James Pascoe of Hancock, presiding elder, will undoubtedly be retained in that position, as he has officiated only two years and the usual term is five.

Mining News

"COPPERS" A BUY.

Many Bargains on the List Now, Report Minnear & Co.

In their weekly letter, issued today, J. A. Minnear & Co., of Laurium, will say that the copper market is a buying one. Copper stocks during the past week were subjected to the most grueling treatment. Declines of ten or more points in a single day were by no means uncommon. Values were thrown to the winds in the final rush to market securities. While the situation during the past week bordered closely on a panic there is really no basis for such a condition to exist. The country is prosperous and is going to continue to be so indefinitely. New wealth is being added to the country's supply at a rapid rate. For instance the grain crop alone will make the United States just about \$1,000,000,000 richer than it is now. This new wealth will have its effect on markets as surely coming as there will be a good crop of almost every kind of grain.

While apparently New York issues have not felt the slump to such an extent as the copper stocks, still it should be remembered that coppers earlier in the year did not give way to the tremendous selling power as did industrials and railroad issues. Naturally the latter are not so violently affected in the present break in coppers.

Metal Situation—The metal situation is as uncertain as it ever was. While periodically the price of copper are reported all the way from eighteen cents down, there yet remains the announcement to be made of a good round lot at any price. Quotations are purely nominal. Customers are only waiting to care for immediate needs. The dividend of 21 1/2 per share declared during the week by the Calumet & Hecla directors tells the story best, showing plainly that this company is carrying a large surplus of the metal which did much to swell its capital assets. Reports were received here for the past two days stating that the Amalgamated was to curtail production by closing down several of its producing shafts. It is also feared that if a readjustment in the wage scale should be attempted in the Butte district there will be a serious strike, which will close down the entire camp. This would of course put copper on a stronger basis. Until something more certain develops, though, the conservative policy would be to play safe by waiting until the metal is on a firm basis than now.

Cole-Ryan Properties—What are generally called the Cole-Ryan stocks were selling during the past few weeks. The shrinkage in values as shown by the prices which ruled during the past week are now so remarkable. Few people have any conception of the amount involved. It is close to \$200,000,000. Just how those in the inner circles withstood the selling is hard to say, but there is reason to believe that they suffered with the lesser lights proportionately. The dominating interests in those stocks had no more control over the market when it began to slide away than did the average speculator. Losses must have

been severe in many instances. Just as an example of the terrific shrinkage in values Greene Cananea stock might serve as an illustration. When the consolidation was announced this issue sold as high as \$20 per share. It likewise went to \$5 a loss of \$17 per share, or a total of over \$400,000,000 on the 2,500,000 shares of Greene Cananea stock. Superior & Pittsburg fared but little better. It sold as high as a fraction less than \$30 during the winter, and broke to slightly below \$10, a net loss of \$20 per share. On the 1,500,000 shares of Superior & Pittsburg this loss total \$30,000,000. North Butte serves well as another example. The stock sold during the winter for \$12 per share, and as low as \$4 1/2, a net loss of \$7 1/2. On the stock of the company outstanding this represents a loss of about \$30,000,000. Take Calumet & Arizona, which sold as high as \$18, and again was sacrificed on this week for \$105. This shows a net loss per share of \$83, or about \$20,000,000 on the outstanding stock. It will thus be readily seen that with Butte Coalition showing another decline of about \$30, 000,000 in the market value, and the depreciation in present prices of such other so-called Cole-Ryan stocks at Keweenaw, Hancock, Black Mountain, American, Warren, etc., the total percentage above will not do much more than cover the total loss represented by shrinkage during the past seven or eight months, and in some instances much less time.

Superior & Pittsburg—This issue will not escape the general selling, and will add about \$10 per share. Had anyone predicted this price for the stock a year ago, he would have been laughed at, but large blocks were thrown on the market. The property is better worth \$20 per share today than it was at that price in 1906. It is much closer a self-sustaining basis, and likewise dividend paying period than a year ago, yet its selling price is down fully 60 per cent from high prices. Many are picking up the stock for an investment, and believe that when the company is producing on a large scale the metal situation will long have righted itself and Superior & Pittsburg will be in a position to reward its patient holders. The physical condition of the property was never better, and shows improvement with each week's work.

Wolverine & Arizona—The most important developments for the year were made at this property this week. Ore was encountered in the tunnel running from the Higgins property about the Warren claim of the Wolverine & Arizona. From last reports received at the Calumet office of the company the tunnel was bestruck in high grade ore, and the walls were likewise showing similar ore. The tunnel has passed through about fifty feet of this ore without determining the height or depth, and there is every reason to believe that for almost 100 feet more the same good results will be obtained.

Greene-Cananea—The almost inexhaustible supply of Greene-Cananea stock from \$10 down to \$10 made it evident that some big holders had been nipped. At present prices the issue seems to be one which should show good profits, providing that the metal situation is sufficiently cleared up to warrant higher prices for any issue. The ore bodies being opened up are proving that the entire Cananea district is much richer than has ever been hoped. The find at the Capote has been the sensation of the camp. The work on the smelters is progressing favorably, and it is hoped to have the entire equipment in first class condition by the first of the coming year.

Warren Development—It is expected that the street railway company owned by the Warren company, will be ready to begin operating some time this month. The Warren has been subjected to heavy expenditures, but it is hoped to have the entire plant ready to realize on the investment. The stock is selling down about sixty-five per cent below the flotation price.

Superior & Montana—The company has men at work on its Columbus Wedge group of claims, adjoining the Columbus Consolidated property. The old tunnel has been cleaned out and this opening is being extended. At another point the Columbus Consolidated is driving a tunnel for ventilation purposes, which will cross the Wedge claims and develop them for a considerable distance. By means of this work it is believed that the claims will show up some values and as soon as a find is made it will be possible to begin regular mining operations at the point desired. The work on the first claims operated continues, but nothing new has so far developed.

Superior & Boston—Reports from Globe this week are to the effect that the first shipment of ore from the Superior & Boston to the Old Dominion smelter had been made, and that there was every likelihood that 200 tons of ore being maintained now. The record of shipping in nine months after ground was first broken at the property is a record of which the directors of the Superior & Boston are proud.

Hermania Mining—The new smelter which is being erected to treat ores from the Hermania will be ready for operation about the middle of November. It is planned to blow in the furnace Nov. 15. The necessary buildings are already completed and the installation of the machinery has been started. The smelter will be a capacity of 200 tons of ore per day, but provision is made for increasing this to 400 tons. The buildings now up will house two furnaces having a total capacity of this amount. By the middle of November the management confidently believes the Hermania will be in shape to easily supply the smelter with 200 tons of ore per day. The company has an excellent shaft known as No. 3 which will supply this quantity of ore. It is now about 400 feet deep while drifting to being done at the desired level with excellent results so far obtained. Later in the fall another shaft will be started at least a day in crossing the ocean, has been devised by George Keen, a Lynn inventor, who is now trying to interest Lynn business men in the scheme.

Although sidewheelers are almost a thing of the past, Mr. Keen claims that his invention will bring the sidewheel back to life again. In his invention there are two wheels, one on each side of the boat. There are four paddles to each wheel. When in the water the paddle acts directly against the water; that is, when the paddle strikes the water the full force of it is presented, broadside. Just before leaving the water, however, the paddle is automatically turned sideways, so that it leaves the water without lifting any of it.

This is the main feature of the invention. The old wheel upon leaving the water lifts several hundred pounds of water with it, thus taxing the engines. According to Mr. Keen, his invention will save all this power, which can be turned into extra speed.

Mr. Keen, who is over sixty years old and well known in Lynn, claims to have been working on the invention for forty-two years. He has obtained a patent of the complete shaft and has tried out a small model on Flax pond, Lynn. It worked all right there, but whether the new paddle would stand the rough seas of a trip across the ocean is something the business men whom Mr. Keen has tried to interest have not yet decided.

HOW TO AVOID APPENDICITIS.

Most victims of appendicitis are those who are habitually constipated. Orinoluxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels, and restores the natural action of the bowels. Orinoluxative Fruit Syrup does not hurt the stomach, is mild and pleasant to take. Refuse substitutes. The Stafford Drug Co., Houghton, Mich.

FIGURES JUGGLED.
ACCOUNTS BLAMED FOR BROKERS' FAILURE.
Accounts of a New York Bookkeeper Falsified to the Extent of Half a Million, It's Said, for the Purpose of Covering Up Speculations—Fictitious Entries in Wife's Name Hoodwinked Employers and Sent Firm to the Wall, It Is Charged.

New York, Sept. 13.—A full explanation of the real causes of the failure of the Stock exchange firm of E. B. Havens & Co. was made public when it was revealed that an account with the firm in the name of Mrs. M. E. Fish, wife of the bookkeeper for the firm, was purely fictitious and that the bookkeeper had falsified his accounts to the extent of almost \$500,000 to cover up his own speculations.
According to a statement made by E. B. Havens, George F. Fish, the bookkeeper, not only carried an account in the name of his wife, but in the names of his brother and sister, and of others. His brother had been dead about two years. The account of Mrs. Fish ran up to \$357,000. There was some \$70,000 in the other accounts, making a total of \$427,000.
"We trusted Fish implicitly," said Mr. Havens. "We had no reason to suspect the accounts were not all right. He had been with us since the firm started nine years ago, and everything was seemingly correct. He would not steal a cent, but he had an insane idea that he could make a fortune by making my capital carry his speculations."
Mrs. Fish has repudiated the account with the firm that is in her name, and as matters stand now there does not seem to be anything that can be done about it, so far as those who are directly interested can see. Members of the firm regard Mrs. Fish as one of its best customers. Mr. Havens knew her and she had been at the office to furnish collateral. Fish managed his wife's account, and it remains to be seen if he was authorized by her to do so. It was this account, by the way, that sent the firm to the wall. The rest of the load could have been carried.

Mr. Havens talk frankly why his son, Frederick J. Havens, had retired from the firm. He said it had nothing to do with the failure. The younger man's habits were not correct, and his father told him he would have to change them or quit the firm. The young man took the latter alternative. There were other losses due to the leniency of the younger Mr. Havens in the matter of margins. He allowed some of his friends to over-run their accounts to such an extent that when the crisis came they were about \$80,000 behind.
"Rather than have any complications with the Stock exchange," Mr. Havens, Sr., said, "my son simply assumed the responsibility for those accounts and will try and make them good. Just how he will do it I do not know at the moment, but he is young and has every opportunity to do so."
An extraordinary feature of the failure is the attitude of those most deeply affected toward Fish. The firm failed in May last. Mr. Havens said that Fish admitted everything charged against him and was exceedingly sorry for the part he had played in wrecking the firm. Nothing has been done toward punishing Fish, and it seems now that nothing will be done in that direction.
Both Mr. Havens and Herbert L. Norton, the assignee, said today that any steps that might be taken in the way of prosecuting Fish must be initiated by the creditors of the firm, as it was not for any one else to say what should be done. A meeting of the creditors will be held some time this month. It was practically decided to bring suit against the bookkeeper, but whether he will be prosecuted criminally is an open question.

AFTER "BIG TIM'S" SCALP.
Jas. B. G. Rinehart, Harvard '03, Bound to Carry the Bowery.
New York, Sept. 12.—James Bryce Gordon Rinehart, Harvard '03, the young man who got almost 177 votes in the primary fight for Republican leader of the third assembly district last fall, is going to buy a nickel case watch and a processed diamond scarpin and go down to the Bowery again this year. After the 177 votes were counted last election night, Mr. Rinehart found that he had lost not only the opportunity to disinherit Mr. Big Tim Sullivan's bailiwick, but also a gold watch, which he wore when he was a member of the Hasty Publishing club, and his real diamond pin. These had been taken as mementoes by some of his constituents.
Not that Mr. Rinehart cared for the loss of the watch and the pin, or for the fact that some of his constituents visited his room in the Capitol Hotel at the Bowery and Houston street and carried away all of his furniture, including a picture of the tasty little den set he used to have in his rooms at Dunster Hall in the old college days. Not at all. A reformer who has the backing of Settlement Worker James Bronson Reynolds, and through him Mr. Theodore Roosevelt, is willing to overlook the desire of the enfranchised for some tangible relic of influence. But it would be discouraging for a less stout heart champion of the pure light in politics than Mr. Rinehart to have the coarse things said about him and his methods that have been said along the Bowery.

Didn't Pass the Turks.
When Mr. Rinehart handed out a line of talk last November to the effect that he was going to pass around the turks for Thanksgiving to each and all, friends and enemies, and Big and Little Timmians alike, just to show that there was no bad feeling, why then some of those who live south of First street said that that young Harvard fellow might be the goods after all. But when Thanksgiving came and there were no Rinehart and no turks, and even the curtains were pulled down on the third floor front of the Capitol Hotel, some of our leading citizens in the Sullivan preserve said things.
"I think that Mr. Rinehart is a heartless ingrate and one to command pity rather than reprobation," said Mr. Simon Susselbach, Fisher of Houston street, and his appraisal has been accepted by all the brave repeaters who have heard Mr. Rinehart's whole name.
So it is up against great odds that the young Harvard man is going this year. Yet he allows himself to be quoted as saying, in an unaccustomed but thoroughly convincing way, that he will fight for the district until the hottest of all places is frozen up. Only he will change his methods this year.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co. telegraphed from New York yesterday as follows:

"Stocks rallied today on short covering. There was not much news of importance and the recovery was considered natural. The copper metal situation is still in an unsatisfactory state and the bear element lay great stress on the large stocks of copper metal. Liquidation has taken place on a very large scale, but it has been observed that the severe decline in copper has been due more to a lack of buying power than to selling pressure. Therefore, it would seem that a substantial recovery can hardly be effected in the absence of news calculated to stimulate public buying, which at present is rather dubious on account of the unsettled conditions surrounding the market. Authorities are again predicting a reaction in general trade conditions. We would not be surprised to see the market recover somewhat further, but as the bear element is still aggressive and controls the situation further breaks should be expected."

Closing prices were:

U S Steel	25 1/2	Mo Pac	67 1/2
Am Steel	25 1/2	Ill	100
CP & N	23 1/2	U S	100
Gen S	23 1/2	Am L	100

U S	23 1/2	U S	100

stories this morning, but all selling was well taken care of and for first time in many weeks the market looks in good shape. We ought to have a small rally now, but it must be remembered that the buying power has been much decreased by the severe drop in copper and debit will take a long time for things to become adjusted. On any rally of five points from this level we would advise selling and waiting for a reaction."

Wheat Summary.

Paine, Webber & Co. reported yesterday's wheat market as follows:

"The trade here surprised the people who made the higher cable prices by refusing to be stampeded into buying wheat on a bulge. There were two distinct disappointments for the trade, one the absence of a good volume of buying even on the breaks and the other the absence of anything like a large export business, such as could be reasonably expected with prices at Liverpool, Paris and Berlin all ranging from one to two cents higher. There were a couple of loads of hard wheat worked here last night. The trade ignored the bull news most of the day and failed to take hold on the buying side, and for this reason we would confine buying orders to the oversold spots."

CHICAGO GRAIN MARKETS.

Chicago, Sept. 13.—Mild weather in the Northwest and increased offerings of cash grain from the country caused weakness today in the local wheat market. At the close the December delivery was 1/2¢ lower, corn was down 1/16¢ and oats were 1/2¢ lower.

The weakness in wheat followed toward the end of the first hour of trading. Prior to that the sentiment in the pit was bullish and the prices showed advances of nearly one cent compared with yesterday's final figures. The early strength was the result of an advance in the price of wheat at Liverpool, due to numerous reports from western Canada claiming the crop had been severely damaged by frost, and to an advance of a cent on the Minneapolis crop. After the first hour, however, the trade quieted down and the market turned very weak. The chief reason for the weakness was a rise in temperature in the Northwest and a report that the acceptances on cash

our department a large corps of trained economists, many of them specialists in particular lines. We have to compete with the colleges to secure the service of their advanced and graduate students, and I find since I took up this work that we have to compete, too, with many of the large corporations in the same field. They are gradually perfecting the statistical side of their work, and they pay trained economists high salaries to take care of their statistics. There are very few of the large corporations which do not throw open their books to us. In fact, we have found assistance from the work of their economists at times, although not all of them have their information prepared statistically."

Mr. Smith talked of the effect of the publicity work on business. Although he was careful not to state names, the reporter gathered that not infrequently in the case of investigations, malefactors or lawbreakers listened to correct their practices before the public got the information gathered by the economist.

REFUSES WEALTHY SUITOR.

Life Before Footlights More Attractive Than a Mexican's Millions.

New York, Sept. 12.—Many young women have made sacrifices for a career before the footlights, and Miss Inez Skinner has added her contribution to the already long list. She has refused to become the mistress of 4,000 acres of sugar plantation in Mexico, and incidentally the name of Mrs. Juarez Lonti, who is a reputed millionaire sugar and cattle raiser in Mexico, met Miss Skinner in Chicago, where she was playing in the company of De Wolf Hopper, and became an ardent wooer. He traveled to the cities the company played in after Chicago, and finally obtained the promise of the young woman to give him an answer in six months whether or not she would become his wife.

Lonti went to Mexico, and Miss Skinner came to New York. W. A. Brady heard her sing, saw her act, and offered her an engagement in "Way Down East." She signed, and when Lonti came to the city for his answer last week it was "No." The Mexican suitor, who had been staying at the Hotel Gotham here, departed alone for his home.

FOUND WIFE WEDDED.

Eastern Man Returns After 12 Years to Discover He Is Not Wanted.

Nashua, N. H., Sept. 13.—After having been away from his wife for twelve years, during which time she has been wooed and won by another, Honoré Cassista returned to his former home in this city last week, and sought her out.

Cassista wants no Enoch Arden in his, and the woman in the case wants nothing of Cassista for hers. Cassista sought legal counsel Saturday, having, he declares, located his wife in East Popperell, Mass., where she claims to have pronounced a divorce a number of years ago before entering into a marriage with John

XIRAGOOD Clothes Command Favor

Lead in Quality

It's harmless for boys to play soldier; but pretense in clothes-making brings trouble.

Pretense is shamming the real; claiming quality and value that does not exist.

All pretense is carefully avoided at this store by selling XIRAGOOD clothes; the most durable, reliable brand made; the honest, guaranteed kind.

It's inside worth—as well as outer attractiveness—that makes XIRAGOOD best. You get more than it's cost in long, hard wear; and the satisfaction that comes from lasting, good appearance.

Sailor and Russian Suits for boys 2 1/2 to 10 years, large collar trimmed with silk braid, emblem on shield. Made in serge, worsteds, chevots of various colors and patterns.

HUNTING WHALES AGAIN.

New Bedford, Sept. 12.—Interest in the whale fishery, on which the reputation and wealth of this city was based a generation ago, has been revived within the last few weeks by renewed activity in that line. Within ten days three vessels have sailed from this port for the whaling grounds, and on Tuesday there arrived in port the whaling brig Sullivan, which returned from a twenty-seven-months' cruise with one of the richest catches ever taken by a New Bedford ship. While the whale fishery probably will never again reach the proportions it attained thirty years ago, New Bedford is still the principal whaling port in the world, and the price of whalebone and whale oil continues to be fixed by the New Bedford market.

Chinese Excellent Citizens.

The Chinese, who are eminently mercantile and whose commercial honor may be called their religion, have proved excellent citizens of the republic, hundreds of them having taken our naturalization papers and often marrying Mexican women of the Indian race. These unions have proved very satisfactory, the Chinese husbands displaying not only their proverbial thrift, but providing on a far better scale for their children than the common poor laborers.

Blubber Plentiful.

The belief that whales are scarce was exploded when the big Sullivan was escorted Tuesday after a whaling voyage of twenty-seven months in both the North and South Atlantic. Captain Heggarty, commander of the Sullivan, said that in all his whaling experience he never saw so many whales as on the voyage just ended. The Sullivan catch for the entire voyage was 3,200 barrels of oil. A record for whaling was established when whales yielding 375 barrels of oil were taken in five days. So far as the whaling business is concerned, five days that there were at one time more than 300 barrels of oil on the deck and there was no time to bill the blubber, it being necessary to cut the blubber and let it remain unboiled until the run of luck was over for the time being. Captain Heggarty said that whales were sighted 100 times on the voyage. In all eighty-five of the monsters were captured. In sixty days whales were sighted fifty-two times, and during that entire time there was "roll alongside and blubber on the deck."

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor.

Not a drop of Alcohol

PUMPING CONTRACT STILL PENDING

ARRANGEMENT WITH OLIVER IRON MINING COMPANY WILL LIKELY BE MADE ON BASIS OF OLD CONTRACT—LOCATION SELECTED FOR NEW PUMP-ING STATION.

The city has not yet entered into a new pumping contract with the Oliver Iron Mining Company, but it is expected that the matter will be disposed of soon. The equipment will have to be moved from its present quarters before work on which was started this week by the Michigan Pipe Company, is completed. The committee on water works has reported that a location had been selected for the new pumping station at a point about 100 yards or so south of the present building, but it has not been directed to close the contract with the company. The members of the board of public works and water works committee are satisfied that the city has had a very favorable contract with the Oliver company and inasmuch as the officials of the corporation are satisfied to renew it on the same basis as formerly the matter can doubtless be disposed of at any time the city officials desire to close up the deal.

Under the present contract the Oliver company is paid \$300 per year and is also furnished water for its mine boiler plants, shops and a few other buildings. In return it does all the pumping. It is obliged to pump water into the mains once a day for a period of thirty minutes, also for fire service. If the city had to do its own pumping it would be necessary to purchase two boilers and other equipment, also employ two men constantly on the job. Under the present arrangement extra pressure can be obtained within a few minutes, as there is always a full head of steam in the boilers at the Section 16 engine house, from which the steam to run the plant is received.

The water used by the company is metered monthly, the same as is 42 water supplied other consumers, and according to the board of public works the amount the company uses is not large enough to pay for the additional expense that would be necessary in case the city maintained an independent plant.

When it was decided on to make the change in the location of the pipe the installing of the new Prescott pump at the station was put in operation as soon as the new building is completed and will be while the old pumps are being transferred to the new station. The new pump has a capacity of 3,000,000 gallons in twenty-four hours, which is more than three times as great a quantity as is necessary to supply the city.

HUMPHREYS' WITCH HAZEL OIL (COMPOUND)

For PILES—External or Internal, Blind or Bleeding, Itching or Burning. One application brings relief.

For Burns, Scalds, Inflamed or Caked Breasts and Sore Nipples, Hands, Fever Blisters, Corns, Bunions. Sample mailed free.

At Druggists, 2 cents, or mailed, Humphreys' Homeo. Medicine Co., Cor. William and John Streets, New York.

NERVOUS DEBILITY, Vital Weakness and Prostration from overwork and other causes. Humphreys' Homeopathic Specific No. 28, in use over 40 years, the only successful remedy. \$1 per vial, or special package for serious cases, \$5.

Sold by Druggists, or sent prepaid on receipt of price. Humphreys' Homeo. Medicine Co., Cor. William and John Streets, New York.

CITY WILL RE-ADVERTISE.

The city will re-advertise for bids on the \$55,000 bond issue for the building of the new water main. The bonds were awarded to a Chicago firm, but it claimed that the proceedings relative to the issue were not sent to it at the time when the bids were made, and it refused to carry out its part of the contract.

The bonds bear 5 per cent. interest payable annually, the principal to be paid in the following years: \$2,500 each year from 1908 to 1914 inclusive; \$7,500 in 1915; \$5,000 in 1916; \$5,000 in 1917.

The bonds will be issued in denominations of \$500 or \$1,000, as the bidders desire. Subscriptions will be received until 12 o'clock noon on the 25th day of September. All bids should be directed to J. D. West, city recorder.

The L. B. club will give a dancing party Saturday evening, Sept. 14, at Braastad's Hall. Tickets, fifty cents per couple. Trombly's orchestra of five pieces. (9-9-10-14)

COOK WITH GAS

OLD RESIDENT PASSED AWAY.

Mr. E. H. Kemp, who had resided in the city for a number of years and who was well known to the people of the Lake Angelina location, passed away yesterday morning at the home of her daughter, Mrs. Ed. Stonebreaker, on North Pine street. Mrs. Kemp was sixty-six years of age and was the mother of nine children. Two of the sons, Prossy and Archie, live in this city and Walter is on the Mesaba range. The daughters are: Mrs. Ed. Stonebreaker and Mrs. James Doer, of this city; Mrs. James Reed, of the copper country; Mrs. James Rosewall, of the Mesaba range, and Mrs. Richard Johns, of Kentucky. The funeral will probably be held at 2 o'clock Monday afternoon from the Grace Episcopal church.

ISHPEMING IN BRIEF.

Gerald Fitzgerald, agent of "Raffles," was in the city yesterday.

Carl E. Bredson, of Eau Claire, Wis., is in the city for a few days' visit with friends.

S. F. White, of Evanston, is in the city visiting for a few days at the home of W. H. Johnston.

A number of Ishpeming people will visit the copper country during fair week, September 24, 25, 26, 27 and 28.

The regular service and Sunday school will be held tomorrow morning in the basement of the Presbyterian church.

W. H. Johnston returned Thursday morning from Sylvania lodge, near Watrous, where he spent the past week.

Miss Ermaline Gondeau left yesterday afternoon for the copper country, where she will visit with friends for the next few weeks.

Miss Gunda Keggald left Thursday evening for Virginia, Minn., where she will spend a week or ten days visiting with relatives.

Mrs. Follows and Mrs. Garner will arrive at the golf club house this afternoon from the Grand theater today. In the evening there will be dancing from 8 to 11 o'clock.

The two month old son of John J. Kivisto, 142 Summit street, died yesterday afternoon. The funeral will be held Sunday afternoon at two o'clock from the residence.

Clifford's orchestra has been secured to furnish the music for the dancing party which will be given at Braastad's Hall next Wednesday evening by the Royal Dancing club.

The funeral of the late Mrs. Elizabeth Paul Andrews, who died Thursday evening, will be held tomorrow afternoon at 3 o'clock from the Methodist Episcopal church. Rev. M. M. Allen, pastor of the Presbyterian church, will conduct the services in the absence of Rev. C. L. Adams.

An elaborate program will be put on at the Grand theater today, including illustrated songs by Earl Morse. One of these "The Girl You Love" from the comic opera "The Silver Slipper" is particularly suited to the voice. The management has secured the services of Miss Mary Powers as pianist.

HAVE MOVED THE DRILL.

The drill which has been operating in the rear of the city building for the past few months by the Oliver Iron Mining company has been moved and set up in the lot at the southwest of the new Y. M. C. A. building. This is the third drill hole which the company has put down in a line extending westward from First street. The first was placed directly in front of J. T. Burke's livery stable.

FROM HOPKINS' CURE LETTER.

"Coppers opened with some display of strength this morning, but were soon carried down again to new low levels. However, liquidation appears to have been thorough and complete and at the low level there was good buying which carried stocks up from 2 to 10 cents, the latter being in Calumet & Arizona from an opening of 110, later selling at 109 and the last sale being 119, with a good undertone to the general market. We believe the worst has been seen."

The prevailing prices were:

UPPER PENINSULA

Law Cruel to Joe—
Joe Bukwyck of Greenland, Ontonagon county, thinks that this is a hard world. His wedding was about to occur, when he was halted before a justice and sentenced to spend thirty days in the county jail for pulling a gun on a companion in a saloon. His wedding is now postponed until October.

Fatalities at Menominee—
Joseph Wavrick, eighty years old, was caught between the hind wheels of a heavily loaded beer wagon at Menominee and had one leg twisted from his body and the other terribly crushed. The injured man lived but a few minutes, breathing his last in the presence of scores of spectators bound for the fair. John Williamson, a farmer, was run over and instantly killed by a passenger train. He was walking on the track as the train approached at a high rate of speed. Williamson was deaf and dumb.

Shot by a Small Boy—
While sitting on the front porch of his home at the Soo, Frank Levine was wounded by a bullet from a gun in the hands of a youth. As a result he is confined to his bed with a 22-caliber bullet lodged in the knee. The missile passed through his left thumb into the leg. Mr. Lavigne had just returned home. He sat on the porch with his little son. Suddenly he felt a sharp pain in his left hand and looking down saw the blood and realized that he had been shot. He looked up and saw a boy about fifteen years of age sitting on the sidewalk across the street, about seventy-five feet from him, with a gun in his hand. Almost immediately, the youth ran away. His identity is unknown.

Saw His Old Battle Flag—
County Surveyor Roundtree of Grand Marais, while at Lansing last week, gazed once again upon the torn and shattered flag which he followed from '62 to '64 while fighting for his country as a member of Company C, Twenty-second Michigan Volunteers. He also

HOW'S THIS!

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

P. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known P. J. Cheney for the last 18 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him. Testimonials on file.

FREE TO YOU—MY SISTER Free to You and Every Sister Suffering from Woman's Ailments.

I am a woman. I know woman's sufferings. I have found the cure. I will mail, free of any charge, my home treatment with full instructions to any sufferer from woman's ailments. I want to tell all women about this cure—you, my reader, for yourself, your daughter, your mother, or your sister. I want to tell you how to cure yourselves at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea or Whittish discharges, Ulceration, Displacement of Falling of the Womb, Profuse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths; also pains in the head, back and bowels, bearing down feelings, nervousness, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder troubles, etc., caused by weaknesses peculiar to our sex.

I want to send you a complete ten day's treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that it will cost you nothing to give the treatment a complete trial, and if you should wish to continue, it will cost you only about 12 cents a week, or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer if you wish, and I will send you free of cost, my book "WOMAN'S OWN MEDICAL ADVISOR" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says "You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all, old or young. To Mothers of Daughters, I will explain a simple home treatment which speedily and effectively cures Leucorrhoea, Green Discharge, Green Sickness and Painful or Irregular Menstruation in Young Ladies. Plumbeous and health always result from its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell you how to cure yourselves with my home remedy. It cures all women's diseases with my home remedy. It is strong, pure and robust. Just send me your address, and the free ten day's treatment is yours, also the book. Write today, as you may not see this offer again. Address

MRS. M. SUMMERS, Box H. Notre Dame, Ind., U. S. A.

BIDS WANTED.

By the board of education, School District No. (1), one city of Ishpeming, county of Marquette, state of Michigan, for heating and ventilating, plumbing, sewerage and gas fittings for the new high school, now being erected on the school property, East Division street, in said city of Ishpeming.

Contractors to make separate bids on the work, and furnish separate surety company's bonds for at least 60 per cent of contract price for the faithful performance of such contract, and completion of all work according to its terms.

Also a surety bond running to the people of the state of Michigan for at least 20 per cent of the contract price, conditional for the payment of all indebtedness for labor and material as required by the statute in such case made applicable.

All work and material to be furnished as per plans and specifications prepared by John D. Chubb, architect, Chicago, Ill., and specifications may be had from the undersigned. All bids to be signed, sealed and delivered to Mr. N. M. Nelson, Director board of education, on or before 4 o'clock p. m., Monday, Sept. 23, 1907.

The plans and specifications must be returned with bid, otherwise bid will not be considered.

The board of education reserves the right to reject any or all bids.

(Signed) CHAS. BURT,
Chairman Building Committee.
Dated, Ishpeming, Mich., Sept. 11, 1907. (9-12-91)

WANTED—Girl for general housework. Good wages. Mrs. C. B. Kopp, 310 West Euclid St. 9-16-07

DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering as they imagine, one from dyspepsia, another from heart disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and the easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality they are all only symptoms caused by some underlying disease. The physician, ignorant of the cause of suffering, prescribes up his treatment until large bills are made. The suffering patient gets no better, but grows worse. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause, would have entirely removed the disease, thereby dispelling all those distressing symptoms, and insuring comfort, instead of prolonged misery. It has been well said, "that a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made from pure American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic, "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked mothers, and feeble women, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, relieving nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

Girl Attempts Suicide

Miss Doris Smith, an employe at the Detroit hotel at the Soo, attempted to end her life by the chloroform route about midnight. She took about three-fourths of an ounce of the stuff and was unconscious and in a most desperate condition when medical assistance was secured. After a time her condition yielded to treatment and she is now considered out of danger, although by no means fully recovered. Miss Smith has been a resident of the Soo for some time and has a father and stepmother there. She gives as a reason for her act that she is discouraged and does not care to live any longer. She is about twenty-five years of age.

Switchman Loses a Leg

As the result of being thrown from the top of a boxcar in the yards of the Northwestern road, Frank Bruce, a switchman, sustained injuries which made it necessary to amputate his right leg above the knee. Bruce, who had been employed by the Northwestern but a short time, was sent to the top of the car to release the brake. He complied with the order but the car did not clear the siding in the first bump that was given by the engine and it was necessary to send the engine back to give another push. Bruce evidently was not prepared for the second shock and was thrown to the rails where he was caught by the wheels before the car could be stopped.

Village Marshal Shot

What came very near being a murder resulted from a charivari party at Stambaugh, Orance Moore, the village marshal, was shot in the groin, but escaped a mortal wound. An Italian was married during the day and the "boys" thought it the proper caper to serenade him that evening. The Italian strongly objected to the charivari and warned the "boys" not to attempt that hilarity. The fellows thought that he was trying to bluff them and at the appointed time assembled and proceeded to make as many hideous noises as they were able. The bridegroom became wrathful and appeared upon the scene with his gun. He banged away at the crowd. Mr. Moore was present in his capacity as village marshal to see that the peace was kept and he was trying

to stop the noise when hit by the bullet from the Italian's gun.

Murderer Not at the Soo

In spite of the fact that there seemed to be so many strong suspects down this way, and several men were looked up, the officials have given up the idea that the murderer wanted in Marquette ever stopped here if he even visited this city at all, reports the Soo News. There is no reason for believing that any of the men suspected or the man Boyce, who committed suicide in the Canadian Soo, was the man wanted. The new description now in the hands of the officers is entirely different from the one at first received. The man wanted went by the name of Charles Worley and is unusually small, being only about 5 feet 2 inches in height and weighing only about 110 pounds. He wore a shoe, size about 2 1/2 or 3. He was a cook, and had worked in the vicinity of Shingleton. There appears to be considerable belief that the man who evoked a day at Soo Junction and announced that he was going to Shingleton is the man wanted.

Father Barth Is Honored

Rev. F. X. Barth of Stephenson, one of the best known Catholic prelates in Upper Michigan, is to be tendered the chair of assistant professor at the St. Francis Catholic seminary at Milwaukee. At a recent meeting of the board of directors, Father Hemmer of Green Bay was selected as an additional instructor, and the directors, noting the rapid increase in the school membership, decided that it would be advisable to appoint an additional assistant. Their decision has been submitted to the bishop, who has been asked to release the Stephenson pastor from his present duties to enable him to accept the post. Father Barth has not signified his acceptance as yet, however. Father Barth has long been known to be an authority on church matters and his broad scope in other fields of learning and his ability to impart it to others makes him a man well fitted to be named as one of the professors in the noted Catholic institution. He is a Marquette man, born and bred.

Fire-Bug at Ironwood?

Fires of mysterious origin having wiped out in the neighborhood of \$75,000 worth of property at Ironwood during the past few months, the suspicion has arisen that an incendiary is at work. It is a peculiar fact that all of these fires have started at about the same hour, and practically all in similar man-

ner. Aside from this, the blaze has in each case had its inception in a barn. There has been no outbreak of flames since the fire which recently destroyed the barn at the rear of the most market of Anton Growski, on Aurora street, together with a team of horses, and which damaged adjoining property, the total loss amounting to \$5,000, but there is fear the immunity may be only temporary, and as soon as there is relaxation from the special protective measures that have been adopted, a recurrence of the suspected incendiarism will follow. Not the slightest clue to the identity of the fire-bug—if one is operating in the city—has been discovered.

Escanaba Shy of Funds

Escanaba is again financially embarrassed and a special meeting of the council may be necessary to arrange to tide over the present shortage in the city's funds. At the meeting of the council last week no provision was made for providing funds to pay bills allowed at that session and the city's accounts at the banks is considerably overdrawn, despite the fact that all of the orders allowed have not yet been called for. At the council's last session additional steps were taken to provide for a bond issue of \$38,000, based on the special assessments that have been levied to pay the cost of different street improvements now under way. Up to this time the issue has failed to attract the interest of outside bond purchasers and whether it will be disposed of on terms that will be accepted by the city remains to be determined. The principal objection to the present bond issue, entered by outside purchasers, is that the issue is not backed by the general credit of the city. Special assessment bonds are not considered as an especially desirable investment by the regular bond purchasing houses because of the liability of the property owners to attack the legality of the assessment. All special assessments that have been levied in Escanaba courts and on the streets for which the assessments have already been applied there is little likelihood of any objection being made by the property owners. In the face of present conditions it is likely that it will be necessary for the aldermen to meet and authorize the finance committee to borrow a sufficient sum of money to tide the city over the present crisis.

Advertise in The Mining Journal.

Negaunee Department

WILL START ON ROAD WORK MONDAY

STREET DEPARTMENT WILL COMMENCE CONSTRUCTION OF NEW HIGHWAY AT THE CAMBRIA LOCATION—WORK ON COUNTY ROAD BEING RUSHED.

Street Commissioner Al. Willman will place a good sized force of men at work next Monday constructing the new road to be built near the Cambria location. It will do away with the necessity of passing through the land of the Hartford mine. For some years the mining operations have been taking more and more of the space assigned to the road, greatly impeding traffic. The old road passes just a little north of the company's main shaft and it is right in the midst of the surface workings. The new road will run along the shore from the water plant to the Cambria mine location.

The stretch of new highway will be about one mile in length. The job will entail considerable grading and filling, as there is a large number of hummocks and swales in the route. Fills of four and five feet will have to be made in some places. This will be practically the last large road work which the street department will attempt this year. At present the force of employes is filling up the holes in the streets about the city and doing a general repair work.

The new road at Teal lake will undoubtedly be largely traveled, as it will follow the shore line for a considerable distance.

The road work which has been in progress near the cemetery and in the direction of Eagle Mills during the summer is being rushed to completion. It has been of a very high order and it has been done in a thorough manner.

LECTURE ON CARLYLE

Prominent Divine Will Appear at the Presbyterian Church.

The Presbyterian Brotherhood, which was organized here a short time ago, announces a lecture on Thomas Carlyle, to be given at the Presbyterian church Friday evening, Sept. 27. The society has secured the services of the Rev. A. C. Smith, D. D., formerly president of Coe college, Iowa, for that evening. Rev. Smith is a scholar of considerable renown and prepared the lecture which will deliver here while he was president of Coe college. He is said to be a very forceful speaker.

FUNERAL SUNDAY

The funeral of the late John Driscoll will be held in Hancock tomorrow afternoon under the auspices of the Hancock division of the A. O. U. W., of which the deceased was a member. The body will pass through this city tomorrow morning on the early train en route to the copper country. C. D. Driscoll of this city went up to Hancock Thursday evening to complete arrangements for the funeral.

\$1,000 PILE CURE

A Thousand Dollar Guarantee goes with every bottle of Dr. Leonard's Hem-Roid—the only certain cure for every form of Piles.

George Cook, St. Thomas, Ont., writes:

"Dr. Leonard's Hem-Roid cured me of a very bad case of Piles of over ten years' standing. I had tried everything but got no permanent cure till I used Hem-Roid. I had blood and bleeding Piles and suffered everything. Ointments and local treatments failed, but Dr. Leonard's Hem-Roid cured me perfectly."

A LESSON IN HEALTH

Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. The Stafford Drug Co.

WAHLMAN GETS CONTRACT

Ishpeming Firm Will Erect Twenty-four New Double Houses at Gwinn.

J. S. Wahlman & Son, of Ishpeming, have been awarded the contract by the Cleveland-Cliffs company to erect twenty-four new double dwelling houses at the company's new town of Gwinn. This is the second lot of houses that the company is having constructed there this year. The work on the latest lot will commence as soon as the material can be placed on the ground.

Mr. Wahlman has had a force of men busy all summer building dwellings for the company near where these new houses will go up. The last few houses of the first contract will be finished in a short time. James A. Blackey has been awarded the plumbing contract for the new lot.

The new group will not be similar to the ones which have already been constructed, but five or six plans will be used. Mr. Wahlman has been in Munnings the past few days, looking over the designs used by the company at that place.

MARRIED THURSDAY EVENING

Miss Lyra Myrckanen and John J. Beldo, two popular young people of the city, were married Thursday evening at 7:30 o'clock at the parsonage of the Finnish Lutheran church, Rev. Saarman, the pastor, performing the ceremony. The couple are known to a large number of friends, the bride having been in the employ of Rosen Bros. for a number of years; the groom is the teller in the First National bank. Mr. and Mrs. Beldo will begin housekeeping in one of A. J. Bice's houses on Peck street. The marriage was kept a secret until Thursday evening, when a number of friends learned the news and immediately repaired to the couple's new home, decorating it in an appropriate manner.

TO ATLANTIC CITY

The sixty-horsepower De Luxe car of L. G. Kaufman of Marquette arrived in Atlantic City yesterday morning. The automobile was placed on a flat car and shipped to Escanaba. From there the party will tour through Wisconsin to Chicago and from there to Atlantic City. N. J. Mr. Kaufman and his party will spend six weeks on the trip, as they expect to travel in the auto both to and from Atlantic City.

PICNIC TOMORROW

The members of the fire department will hold the second picnic of the season tomorrow. They will go out early in the morning, the last rail leaving the engine house at 7:30 a. m. The arrangements for the picnic have been in the hands of a committee for the past week, and the members of the department expect to enjoy a fine time. Baseball, wrestling and other sports will be the features of the day.

SCHOOLS CROWDED

Superintendent Schurtz has been compelled, on account of the congested conditions in the city schools, to make use of the extra room provided at the Jackson school. A number of changes in the seating have been necessary, and the room will now accommodate about forty pupils.

SALE OPENS THIS MORNING

The special sale of the goods of John Shea will open this morning at 9 o'clock. The goods have been remarked and all prices have been reduced. The goods will be placed upon the tables and counters and the customers can wait on themselves. Frank Harmen has charge of the sale.

A HUMANE APPEAL

A humane citizen of Richmond, Ind., Mr. U. D. Williams, 107 West Main St., says: "I appeal to all persons with weak lungs to take Dr. King's New Discovery, the only remedy that has helped me and fully comes up to the proprietor's recommendation." It saves more lives than all other throat and lung remedies put together. Used as a cough and cold cure the world over. Cures asthma, bronchitis, croup, whooping cough, quinsy, hoarseness and catarrh, stops hemorrhages of the lungs and builds them up. Guaranteed at The Stafford Drug Co.'s drug store. 50c and \$1.00. Trial bottle free.

OF INTEREST TO MANY

Foley's Kidney Cure will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. No medicine can do more. The Stafford Drug Co.

LOCAL LAONICS

S. Wallin of Worcester, Mass., was in the city Thursday.

E. J. Boinbonais of Houghton spent yesterday and Thursday in the city.

Dr. Sheldon has returned from Chicago, where he spent the past few days.

W. E. Gillen, of Fond du Lac, was in the city yesterday and Thursday, on business.

The Cleveland-Cliffs company will pay the employes of the Jackson, Mass and Negaunee mines today.

Louis Corbett arrived yesterday morning from Chicago, where he spent the past few days on business.

Christ Johnson, who has been in Chicago for the past several days, arrived home on the morning train yesterday.

Ben Nealey is in Detroit for a week's visit, having gone down on one of the D. & C. company's annual fall excursions.

The trick work at the Old Fellows' new block is progressing very satisfactorily. Six brick layers were at work there yesterday.

The Negaunee Orchestra band will give an open air concert this evening at the bandstand near the Chicago & North-western depot.

Orr & Tompkins bowling alleys will open this evening for the fall and winter season. George Debraun will resume the management of the place today.

Harry Jackson arrived home yesterday morning after spending the past few days at Milwaukee and Monominee, where he attended the fairs held at those places this week.

Fred Dougherty and Miss Mary Dougherty went down to Munising Wednesday evening, where they joined their father. They plan to visit points in Illinois and Indiana.

Mrs. Louisa M. Carlson, wife of John Carlson, of the Buffalo location, passed away Thursday. The funeral will be held Sunday afternoon at 2 o'clock from the Swedish mission church.

Mrs. Pellow and Mrs. Garner will serve tea at the Wawonowin clubhouse this afternoon from three to five. There will be dancing at the club house in the evening from eight until eleven.

Mrs. Carl G. Moll of Kenton is in the city visiting her mother, Mrs. A. C. Mackenzie. She was accompanied here by her sister, Miss Virginia Mackenzie, who spent the past three weeks at Kenton.

Mr. and Mrs. J. Sedlock, who were married in Marquette Wednesday, arrived in the city Thursday evening. They will begin housekeeping in the residence owned by Frank Bauer on East Peck street.

Miss Carmen F. Maas, daughter of Mrs. M. L. Maas, who was a former resident of this city, was married Tuesday in Detroit to Benjamin N. Cutting. Mr. and Mrs. Cutting will be at home after November 15 at 307 John K. street, Detroit. Mrs. Cutting is well known in this city.

The members of Jasper council, Royal Arcanum, have received an invitation to participate in a dance which will be conducted by the members of the Ishpeming council at Braastad's hall on the evening of September 18. People going over from here will be furnished with special street car service.

Dr. N. J. Robbins sailed Thursday from Liverpool on his return to this country. Dr. Robbins has been on the continent for the past three weeks and visited the leading hospitals in Paris, Vienna and Berlin. His mother has been visiting with relatives in England. Dr. Robbins is expected in the city about the twenty-fifth of this month.

HEALTH IN THE CANAL ZONE

The high wages paid make it a mighty temptation to our young artisans to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained, however, by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison, too, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by The Stafford Drug Co., druggists. 50c.

STOP IT!

A neglected cough or cold may lead to serious bronchial or lung troubles. Don't take chances when Foley's Honey and Tar affords perfect security from serious effects of a cold. The Stafford Drug Co.

EDWARD FLUETTE IS RUN OVER BY AUTO

BOY ON BICYCLE FELL UNDER TOURING CAR OF ATTORNEY A. B. ELDRIDGE LAST NIGHT.

DIED EARLY THIS MORNING

Was Riding Employer's Wheel on Hewitt Avenue Near Third Street—Statements of All Those Concerned.

Eddie Fluette, the victim of yesterday's automobile accident, died at St. Luke's hospital at 3:30 o'clock this morning.

Edward Fluette, the fifteen-year-old son of Mr. and Mrs. John Fluette of 401 Baraga avenue was run over by the automobile of Attorney A. B. Eldredge at Hewitt avenue and Third street about dusk last night and sustained injuries that will probably result in his death. The boy is now at St. Luke's hospital and at 3 o'clock this morning had not recovered consciousness.

Young Fluette was riding a bicycle when the accident happened and was going east on Hewitt avenue. The automobile which is a Mitchell touring car, was traveling in the opposite direction on Hewitt avenue. It was Mrs. A. B. Eldredge, A. R. Menett and Selden Rose, Rose was driving the machine.

Missed the Wheels. None of the wheels of the automobile touched the boy after he had fallen in the street. It is thought, but as the car passed over him and the bicycle, he was crushed between the bottom of the car and the street. As soon as he realized what had happened, Rose stopped the machine. While the boy was being carried into the residence of Frank Nies at the corner of Hewitt avenue and Third street, he made a hurried trip to the home of Dr. G. G. Youngquist at 294 West Ridge street, a few blocks from the scene of the accident, and brought the physician to the Nies residence.

Dr. Youngquist immediately ordered the boy taken to the hospital and he was conveyed there in an ambulance. Dr. Youngquist last night stated that no bones were broken. The boy was internally hurt, he said, and besides was suffering from shock. There is a chance for his recovery, Dr. Youngquist said. The following statement of the manner in which the accident happened was made to the Mining Journal last night by Selden Rose:

Rose's Statement. "We were riding on Hewitt avenue between Third and Fourth streets going west. We were about in the center of the street which was clear. There was only one team in sight near Fourth street and the boy on a bicycle.

"We crossed Hewitt avenue at a speed of not more than ten miles an hour and I checked up the speed when I saw the boy and team so as to be prepared for emergencies. At that time the boy was on the north side of the street riding east.

"He evidently started to cross in front of the machine. He then turned back to the north again. He made a third turn to the south at that time being some fifty or sixty feet away from the machine. The wheel began to wobble. "The boy was pretty well toward the curb and clear and I kept the machine straight ahead under the brake. The boy made a sudden turn north and fell under the machine."

Boy's Mother Summoned. Mrs. Fluette, the injured boy's mother was notified of the misfortune shortly after the boy had been brought to the hospital. She was at his bedside through the night. She stated that last Monday her son had gone to work at the Foster dry goods store as a delivery boy and she said she believed that he was on his way home when he was hurt. It was J. H. Foster's bicycle that the boy was riding, she said, and earlier in the evening she told Selden that the boy was not used to riding a wheel.

This is the third and most serious of a series of automobile accidents which have happened within the past week. The other two occurred on the Negaunee-Marquette road. The first was early in the week when a buggy driven by Albert Trombly was struck and a wheel was taken off the buggy. Trombly leaped and escaped unhurt. The second accident on the same road happened when a load of hay coming from the Freeman farm was overturned near the Morgan kilns.

LOW RATE TO NEWBERRY. Special Not to Go but if Thirty-Five Go \$2 Rate Will Be Effective.

A sufficient number of persons did not signify their intention to take advantage of the rate to Newberry to the Marquette-Newberry game Sunday, and on that account, the special train will not be put on. The South Shore agreed to put on a special if seventy-five or more would go, but up to last night, only fifty had left their names at the Den and at Willisen's news stand. The \$2 round trip rate, however, will be effective on the regular train if thirty-five or more make the trip.

The train is to leave at 5 o'clock in the morning Sunday and returning will leave Newberry at 7:35 o'clock in the evening. It will arrive in Marquette at 11 o'clock at night. As there are eleven members of the baseball team, it is only required that twenty-four others take the trip to obtain the special rate. The regular fare to Newberry one way is \$3.85.

ONLY A FEW OF THE KIND. It is extremely probable that you love singing and dancing, don't you? There is a sumptuous feast in store for you them. All that heart could desire in that line will be given in "The Irish Paw-brokers."

WE ARE The only people in Marquette county who manufacture practically everything needed for a building. Buy of the makers and keep your money at home. Consolidated Fuel & Lumber company. (4-27-11)

TEMPORARY BRIDGE.

Permanent Structure Over Dead River Not to Be Built Until Spring.

The street commission has ordered the erection of a temporary structure to replace the Dead River bridge which fell with one of F. B. Spear & Sons' wagons recently. Work on the new bridge which is now being done by Edward Mitchell of the firm of Powell & Mitchell will be completed within a short time.

The scene of the disaster is at the old mouth of Dead river and during the summer season, the bridge which fell has been used by hundreds of vehicles and automobiles. The absence of a bridge at this point shuts off all traffic by vehicle from Presque Isle as the road of which the bridge was a part was the only one to the grounds.

Recently J. H. Stewart, Menominee representative of the Joliet Bridge & Iron company stated to the street commissioner that he could deliver a new steel bridge in Marquette within forty-five days, if the board would contract for one. It was said yesterday by a member of the board that the offer will probably not be acted upon and that no permanent bridge to take the place of the one which fell will be built until next spring.

An estimate of the cost of erecting a new steel bridge at the point is \$2,500. The question of erecting such a bridge is to be taken up by the city council.

REGISTER TODAY TO VOTE NEXT TUESDAY

COUNCIL ORDERS THAT VOTING MACHINES BE USED FOR CITY ELECTION—TO USE BALLOTS IN STATE ELECTION.

Today is registration day for the election to be held Tuesday and the places of registration are the various ward polling places which are as follows:

Places to Register. First ward—Dorais' Livery barn, Division street.—(Oldstead bldg.) Second ward—City Road Roller building, Spring street. Third ward—Hodgkins' Livery office. Fourth ward—City hall. Fifth ward—Building at 825 North Third street.

It is planned that the registration board in the First ward will adjourn from Dorais' livery barn as soon as they meet and the place of registration will be transferred to the Oldstead building on Hampton street, opposite the school house. The polling place in this ward also will be at the Oldstead building.

The Boards. Except in the Third ward, the aldermen from each ward will compose the registration board in each ward today. At a special meeting of the city council last night, owing to the absence of Aldermen Asire and Peters of the Third ward from the city, H. J. Lobdell and Harry Dellaas were appointed to act as the registration board in this ward.

Must Register to Vote. Only those entitled to vote next Tuesday whose names are not already registered, are to register today. Voters may ascertain positively whether they are registered by an inspection of the registration notices which have been posted in various places in the several wards. Voters whose names do not appear on the notice are not registered and if they wish to vote Tuesday, they must register today. The places of registration are to be open from 7 in the morning until 8 o'clock in the evening.

To Use Machines. At the council meeting last night, it was unanimously voted to use the voting machines of the Abbott Voting Machine company for the city election Tuesday. The resolution was offered by Alderman Williams and was adopted without discussion. For the constitutional election which is to be held in connection with city election, ballots are to be used.

State Election. The constitutional election for the purpose of electing three delegates from this district to the Constitutional convention to be held in Lansing where the state constitution is to be revised. There is no contest in this election and there are but three Republican candidates who were nominated at the Ishpeming convention. No other convention was held. The three who are to be voted for are R. C. Flannigan of Norway, D. P. Morgan of Republic and Charles H. Watson of Crystal Falls. As in the past, the polls will be open next Tuesday from 7 o'clock in the morning until 5 o'clock in the evening.

LAST GAME OF SEASON. The last base ball game of the season is to be played this afternoon at the new fair grounds by the Den team and the Invisibles. The lineup of the two teams is as follows: Invisibles—Primeau, catcher; Fox, pitcher; Vanebrooks, first base; Gilbert, second base; Corbett, short stop; Hodgkins, third base; Kiffeld, right field; Jeanson, left field; Richardson, center field. Den—McGuire, catcher; Primeau, pitcher; McKee, first base; Brown, second base; Hanley, short stop; Osgood, third base; Mully, right field; Weiser, left field; Whitman, center field.

The winner of the game, it is said, will issue a challenge to the winner of the Marquette-Newberry game to be played at Newberry tomorrow.

SUNDAY AT THE CHURCHES. At the Baptist church, Rev. C. H. Maxson will preach, both morning and evening.

First Church of Christ, Scientist—Service Sunday at 10:30 a. m. Subject, "Matter." Felix hall, Opera House block. At the Presbyterian church tomorrow the morning theme will be "Singular People." In the evening the subject will be "Foundation Thoughts."

St. Paul's M. E. church, corner Ridge and Front streets—Morning service at 10:30 o'clock, Dr. J. L. Dewitt of Milwaukee, Wis., will preach, subject, "The Standard of Right." Sunday school at 12 o'clock, noon.

DEATH OF MRS. MILES.

Succumbs to Attack Of Dropsy After Period of Illness of Three Years.

After an illness which covered a period of three years, Mrs. Thomas Miles died at her home, 341 East Michigan street yesterday afternoon at 3:30 o'clock. Her death was caused by dropsy. Mrs. Miles is survived by her husband, three sisters and two brothers.

The funeral will take place Monday morning at 9 o'clock. Services will be held in St. Peter's cathedral and the interment will be in the Holy Cross cemetery.

DEATH OF CONVICT.

Had Been a Prisoner Three Years and Had Eight More Years to Serve.

John Wilson, a colored convict, died at the prison yesterday of an affection of the brain after ten days' illness in the prison hospital. Wilson was about thirty years old and was admitted to the prison three years ago. He was serving a term of eight to eleven years for burglary. He was convicted and sentenced in Port Huron.

Wilson had a criminal record and besides the offense upon which he was convicted at Port Huron, he was wanted at the Indiana State Reformatory from which he escaped some years ago.

COLLISION ON THIRD STREET.

Presque Isle Car Crashes Into Street Roller But No One Is Hurt.

A Presque Isle street car in which there were about a half dozen passengers collided with city street roller on North Third street between Prospect and Crescent streets yesterday afternoon. The front of the car was smashed badly and the axle of the rear wheel of the street roller was bent, but no one was injured.

The collision happened about 3 o'clock. Raoul Primeau was driving the street roller south on Third street when the car approached from the rear. The noise of the roller drowned out the sound of the approaching car until it was too late to get the bulky roller, which weighs twenty tons, off the track. When the car struck, the roller was on the right hand rail and the full force of the impact was on the rear wheel of the roller. Primeau was jarred and the passengers on the car were frightened.

SOO CANAL PASSAGES.

Northern State Normal School

MARQUETTE

School Begins October 2, 1907

The Northern State Normal School admits graduates of approved high schools to the two years' course leading to a life certificate and diploma. It offers courses leading to a three-year certificate, which is renewable for three years and valid in graded schools, and also a rural school certificate. Has excellent facilities for training teachers for special work in Kindergarten, Music, Drawing and Nature Study. It has an exceptionally fine corps of teachers who are specialists in their departments, and its training school gives a splendid opportunity for the training of teachers. There is a splendid dormitory in connection with the school which is an ideal home for the student. The building is lighted with electricity and heated with steam; the living rooms are large, well lighted and pleasant, and the dining room has a seating capacity of one hundred and fifty persons. The expenses are moderate.

Students of the Northern Normal School who finish the life certificate course are given fifty-six hours credit at the University of Michigan. For information and catalogue write to

LOUISE HOLMES, Secretary JAMES HAMILTON KAYE, Principal
