

PROMINENT ELKS KILLED IN WRECK

Four Meet Death in an Automobile Accident at Colorado Springs, and Three Others Are Badly Injured.

Powerful Racing Machine That Had Only Recently Taken Life of Its Driver Breaks from Chauffeur's Control as Its Occupants Are Speeding Home from a Social Session at 3 a. m., and It Crashes Into a Telegraph Pole With Terrific Force.

Colorado Springs, Colo., Sept. 17.—When a powerful racing automobile built for three but carrying seven prominent Elks broke from the chauffeur's control, today, four of the occupants were killed and the others were badly hurt.

W. H. Ralston, a dealer in electrical supplies, H. Winal, John S. Gray, formerly of New York, L. Graves Britton, a druggist, The injured are: James English, General Buckley, E. H. Ward and A. W. Marklefeld.

The party was returning from a social session at the Elks home at Manitou. It was 3 o'clock a. m., and the passengers clung to the hood and on the steps of the automobile as it plunged at terrific speed down the hill. Marklefeld lost control, and the machine swerved from the roadway until the right wheels were running in the gutter and the left wheels a foot higher on the curb.

Fifty feet further a front wheel struck some object, and the automobile tumbled around and was thrown forty-five feet down the hill. It struck a telegraph pole with terrific force. Gray was jammed between the car and the pole, his face and head being flattened and his skull torn in two.

The machine was a six-cylinder, forty-horsepower car, which recently killed C. F. Day at Overland Park.

Yacht Stove in by Mine, It's Said, Commander Ran It Ashore.

London, Sept. 17.—Facts in confirmation of the reported plan to assassinate Czar Nicholas of Russia by blowing up his private yacht have been received. It is learned that instead of the royal yacht Standart accidentally going aground off the shore of Finland, it was stove in by the explosion of a floating dynamite mine. Its commander ran it ashore to save the lives of the imperial family on board.

The substantiation of the attempted assassination report was received by way of Copenhagen in a private message from St. Petersburg. In addition to this it is also reported from St. Petersburg that the reign of terror is starting in Russia anew and that Russian troubles are steadily increasing, far beyond those of recent years.

Russian secret service men are working on an attempt upon the life of the czar. Although every effort is being made to keep developments secret, it is now declared that enough evidence has been gathered to prove an attempted assassination of the czar.

The imperial yacht was moving rapidly under a heavy head of steam when a black object was sighted off its bow. The wheel was put hard over, but it was too late and the boat struck the object almost head on. A great hole was rent in its prow, the reports say, but not large enough to cause an immediate filling of the hull.

The crew manned the pumps and it was kept afloat until the shore was reached. The boat settled to the bottom on shore and the czar and his family were taken off and quickly put in hiding.

SWELLS FUND TO HALT STRIKES. New York Lawyer Contributes to the Industrial Peace Tribunal.

Washington, Sept. 17.—The first contribution toward President Roosevelt's Nobel peace prize fund for the promotion of industrial peace is \$250, recently received by Secretary Straus of the department of commerce and labor, as trustee, from Eugene G. Kramer, a lawyer of New York city. Mr. Kramer expressed a desire to contribute from time to time to the fund until the principal of the foundation, which is now nearly \$400,000, shall have reached a more adequate sum and also to aid in any way he can the industrial peace committee.

In acknowledgment Secretary Straus expressed the hope "that this fund which is at present a little short of \$400,000, will be largely increased by contributions such as yours from generous and patriotic citizens who appreciate the importance of the purposes of this foundation in the promotion of industrial peace."

FINDS BONES OF MASTODON. Rochester, N. Y., Sept. 17.—While plowing in a swamp near here, John Mersh, a farmer, unearthed parts of the skeleton of a monster animal. One tusk measured eight feet and part of another four feet. Ribs four and five feet long and as large as a man's arm were dug up. Several of the animal's teeth were found, including one tooth which weighed nine and one-fourth pounds. All of the bones were fairly well preserved. Mersh has notified the zoological department at Washington of his discovery.

ELECTRIC COMPANIES UNITE.

Thirty Million Dollar Merger Is Effectuated at Chicago.

Chicago, Sept. 17.—The consolidation of the Chicago Edison company and the Commonwealth Electric company was completed today by the filing of certificates designating the new corporation as the Commonwealth Edison company, with a capital stock of \$30,000,000.

ROW AT JAMESTOWN. Because of Differences With President, The Director General Quits.

Norfolk, Va., Sept. 17.—In a letter addressed to the committee of directors which arranged a settlement of the differences existing some weeks ago between himself and President Harris St. George Tucker, of the Jamestown exposition, James W. Barr requests to be relieved of his duties as director general. The continued conflict between Mr. Tucker and Mr. Barr over social features of the exposition caused Mr. Barr's resignation, which he cannot continue in his position and maintain his self respect.

DELIVERS ADDRESS; THEN DIES. Evangelist Drops Dead in Mission Where He Was Converted.

Louisville, Ky., Sept. 17.—Evangelist Felix Lawrence of Nashville fell dead last night of heart disease after delivering an address in the mission where he was converted seven years ago. The dramatic end of seven years' successful religious work came at the Hope Rescue mission.

CANNOT BE DEPORTED

Hindoo at Vancouver Have Enough Money to Take Them Out of Pauper Class.

Ottawa, Canada, Sept. 17.—The crisis consequent upon the arrival of 300 Hindoos at Vancouver, B. C., has suddenly taken a novel turn and assumed a phase which will make it impossible for the Canadian government to deport the undesirable.

The Hon. Frank Oliver, minister of the interior, has been notified by the mayor of Vancouver that the Hindoos are not paupers, but have as much as \$25,000 among them. This raises the question whether Canada has the power to deport British subjects who are able to pay their way and are not likely to become a charge on the public purse.

Through twenty-five old and sick Hindoos have been sent out of the country, the government has halted its hand and will not act as regards the remainder until it has communicated with the imperial authorities. It is virtually a foregone conclusion that the Hindoos are in British Columbia to stay.

LOCKJAW CURED BY ANTI-TOXIN.

New York, Sept. 17.—What is considered by physicians to be the third cure on record of lockjaw has been made in the case of Mrs. Annette Koesting of Williamsburg. Six weeks ago tetanus developed from a wound from a rusty nail. A council of physicians agreed that the case was hopeless. Dr. Henderson injected anti-toxin and has done so every day since. The treatment began to show signs of success a week ago. Today Mrs. Koesting was allowed to leave her bed.

MURDEROUS PRIEST CONVICTED.

Pittsburg, Sept. 17.—Ludwig Szezygial, a Roman Catholic priest, from Chicago, who had been on trial for the murder of Andrew and Stephen Szatmari, brothers, was convicted of murder in the second degree by the jury, which returned its verdict tonight.

HORROR ON WARSHIP

FEARFUL EXPLOSION ON JAPANESE VESSEL. Blast Follows Attempt to Remove Undischarged Shell from a Gun—Twenty-Seven Men Are Killed and Many Injured.

Tokio, Sept. 17.—Twenty-seven of the crew were killed and many sailors were injured when an explosion of powder occurred on the Japanese battleship Kashima while at target practice near Kure yesterday. The Kashima, Captain Koizumi commanding, went to Kure, where the wounded were placed in hospitals. The dead include a lieutenant, two cadets and one staff officer.

The blast followed an attempt to remove an undischarged shell from a gun. A majority of the bystanders were fearfully mutilated. The explosion is under investigation. It occurred inside the shield of the starboard after 10-inch gun. It was not the shell which exploded, but powder which evidently caught fire from the gas emitted from the breech when opened to reload the gun.

WASHINGTON SORRY THAT VON STERNBERG IS TO GO

Washington, Sept. 17.—The recurring report that Baron Speck von Sternberg is to be recalled by the kaiser, who will substitute Herr von Tschirschsky as ambassador to Washington, has occasioned some surprise, though a great deal of sorrow in White House circles.

President Roosevelt will be especially afflicted because he loves Von Sternberg as a brother. The first lady of the land will be likewise bereft, for the baroness, formerly Lillie Langham of Kentucky, is her social mentor. Fraulein Tschirschsky will have a hard place to fill—even as her husband must exert himself to the utmost to continue Germany's legation in high favor, when he shall have assumed his task.

CHICAGO REJECTS THE LEGISLATION

With the Total Vote Only 181,500, the Proposed New Charter Fails of Adoption by a Majority of Upwards of 60,000.

Oklahoma's Election Results in the Ratification of the Constitution by an Overwhelming Margin, and the State-Wide Prohibition Proposition Is Believed to Have Carried—C. N. Haskell, Democrat, Is Leading Frantz, Republican, for Governor.

Chicago, Sept. 17.—The new charter authorized by the state legislature for the city of Chicago was rejected at today's special election by a majority of over 62,000. Little more than half of the registered vote was cast, the final figures, although unofficial, showing 59,446 ballots for the charter and 122,054 against it.

The total vote polled was 181,500 out of a registered vote of 393,908. The light vote was due to some extent to the fact that the election was special and the granting of time off for voting was optional with employers, and in the majority of cases the voters were obliged to go to the polls before going to work or not at all.

Mayor Bross issued the following statement tonight: "It is evident from the result today that a great majority of the people of Chicago either do not want a charter or are not sufficiently interested in a new charter to go to the polls and vote."

In general, the adoption of the charter was favored by the Republicans and opposed by the Democrats.

OKLAHOMA'S ELECTION.

Oklahoma City, Sept. 17.—Early returns from today's election indicate the ratification of the constitution by an overwhelming majority. C. N. Haskell, Democrat, is leading Frantz, Republican, and the state-wide prohibition proposition is believed to have carried. The Democratic state committee claims the election of Haskell by forty thousand. The Republican state committee claims the election of Frantz, Republican, for governor, by ten thousand.

NEW YORKER'S NOVEL RECORD.

Has Had 13 Battles With Burglars Inside of Eleven Months.

New York, Sept. 17.—To have waged thirteen battles with burglars inside of eleven months is the experience of Wood Fish, who keeps a saloon on the East Side, and who expressed the greatest delight yesterday when informed that his saloon had been broken into by safe blowers and spoiled of \$30.

Wood has been chloroformed, drugged, choked, shot at, stabbed, and beaten, and is congratulating himself that he happened to be on vacation of the occasion of the last raid, which he fully expected. In fact, he told the police that he would have been surprised had no attempt been made to rob his saloon this year, considering his past experience.

The burglars robbed the cash register, but were scared away by a policeman just as they were preparing to start to work upon the safe. They were provided with the most elaborate set of cracksmen's appliances that the police ever saw. Indeed, they were so heavy that the cracksmen had to abandon them. The police say the tools are worth full \$500.

SAYS PRAYERS CAUSED RAIN.

God Angry at Sabbath Desecration, Says New England Pastor.

Worcester, Mass., Sept. 17.—The Rev. Dr. Orsen E. Mallory, pastor of the Dewey Street Baptist church, who insists that his prayers made it rain all the three days of the New England fair, spoiling that event entirely and causing the Worcester Agricultural society a \$60,000 loss, says that God is angry with America because so many foreigners who do not respect the Sabbath are being allowed to come into the country.

He looks for further manifestations of divine wrath in the near future. The Rev. Dr. Mallory prayed that the fair might be stopped by rain because some of the fakirs and privilege men set up their tents and peep shows on the Sunday preceding the opening of the fair.

DROWNS SELF AND CHILD

Health Gone and Husband Missing, Los Angeles Woman Hurls Both Herself and Daughter Into a Lake.

Los Angeles, Sept. 17.—Driven insane by brooding over her ill health and the protracted absence of her husband in Iowa, Mrs. Anna Baker, thirty-one years old, left the home of her brother-in-law last night, accompanied by her seven-year-old daughter, and proceeded to the shores of Johnson lake, in the eastern part of the city, where she hurled herself and her daughter into deep water. Both perished.

EXPLORER IS MISSING.

Nowegian Steamers Sent Out for Wm. Bruce Fail to Find Him.

Edinburgh, Sept. 17.—Some anxiety for the safety of William Bruce was caused today by the receipt of a telegram at the office of the Scottish Oceanographical laboratory from Aagaard, Norway, stating that steamers sent search for Mr. Bruce had failed to find him. Mr. Bruce started on an exploring trip along the north coast of Prince Charles fovead with three companies several weeks ago and has not been heard of since.

BASEBALL

STANDINGS OF THE CLUBS. National League. W. L. P. C. Pittsburgh 81 54 600. New York 73 59 566. Philadelphia 73 59 553. Brooklyn 63 73 463. Cincinnati 55 79 411. Boston 52 81 391. St. Louis 41 96 299.

NEW LINER PUT ON TRIAL.

Mauritania, Sister of Lusitania, Starts on Her Speed Tests.

London, Sept. 17.—The Cunard line steamer Mauritania has left the builders' yard at Wallsend for her first speed trials off the Tyne. Afterward she will return for her final fittings and furnishings. She is 790 feet long, compared with the Lusitania's 787. Her gross tonnage is 32,290.

NEGROES' RESOLUTIONS MILD.

Chairman of Baptist Meeting Prevents Bitter Attack on Roosevelt.

HENRY H. ROGERS PHYSICAL WRECK?

News from Fairhaven, Mass., Is Quite at Variance With the Sworn Testimony of the Oil Magnate's Son-in-Law.

Broken Down and in Very Critical State as the Result of a Paralytic Stroke, According to Statements Made to Save Him from Being Haled Into Court, He Is Able to Take Mark Twain on Automobile Ride and Act as His Own Chauffeur.

Fairhaven, Mass., Sept. 17.—Samuel I. Clemens (Mark Twain) was the guest today of Henry H. Rogers at his summer residence here. During the forenoon Mr. Rogers and his guest went for an automobile ride. Mr. Rogers acted as chauffeur.

Mr. Rogers is upward of seventy years old, and since July has taken no active part in his business. His health has troubled him somewhat during the summer, and at times he appeared to be nervous. It was upon the advice of his physicians that he abandoned business cares and took a long rest. The townspeople say that his general appearance has not changed greatly. They say he looks tired. Several who have conversed with him have noticed no difference in his voice, and his mind appears to be as clear as ever.

"Hen" Rogers, as he is familiarly called by his townspeople of Fairhaven, is who he enjoys the peace and quiet of his childhood's home, an utterly different man than when he is in the richly appointed offices of the National Transit Company—the pipe line of the Standard Oil—at 26 Broadway.

"Hen" Rogers lost his father in his early years and his mother had the task of bringing up this active, ambitious lad. He went to the town school in an ancient, tumble down school house, and, between study and play, sharpened up his wits. In that old school house was a desk, and that is preserved because carved deep into the wood can be read "Hen R."

On leaving high school he worked for the village store and drove the delivery wagon until he became a clerk, afterward going out to the oil fields near Oil City, Pa., where he worked for the Standard Oil enterprise. In 1885 he began to favor his native town by benefactions of various kinds, and so far has given \$4,000,000. Long ago he said: "When I grow up and get rich I will give this oil town a school house that will make people sit up and look," and he did.

When he grasps the hand of an old schoolmate or a playfellow now in the decline, he gives such a whole-souled grasp of the hand and a heartfelt "Well, how are you?" that one can scarcely recognize the hard visaged man who comes from 26 Broadway with the bearing of a military commander.

BROKEN DOWN, SAYS SON-IN-LAW.

Boston, Mass., Sept. 17.—The news from Fairhaven that H. H. Rogers went automobiling today, and that he acted as his chauffeur, is quite at variance with the testimony given in the supreme court yesterday by Urian H. Broughton, his son-in-law. According to Mr. Broughton, the Standard Oil magnate and copper king is a physical wreck. Mr. Broughton said that Mr. Rogers' face is distorted, his speech is incoherent, and he is unable to transact business or carry on a conversation. As a result of this statement and testimony of a like character from other sources, Judge Hammond announced that it would be cruel to compel Mr. Rogers' attendance in court, and dismissed a motion to that effect.

The condition of Mr. Rogers was disclosed in the course of a hearing on a motion to show that he is not capable of attending the trial of a suit against him for \$50,000,000 brought by C. M. Raymond for alleged conversion of certain royalties in connection with the production of petroleum. The hearing began last week with the testimony of Dr. Charles P. Pratt of New Bedford, who stated that Mr. Rogers had suffered from a paralytic stroke last July and was unable to attend to his business.

Counsel for Mr. Raymond brought to show by the testimony of personal and business friends of Mr. Rogers in New Bedford and Fairhaven, and also by numerous telephone tickets giving a record of calls between New York and the home of Mr. Rogers in Fairhaven, that the Standard Oil financier had been about the streets, had participated in certain festivities, had engaged in certain business in New Bedford, and had been frequently in communication with his associates in New York.

President Winsor of the First National bank of New Bedford stated that he had conversed with Mr. Rogers at the bank, but said that it was not upon business matters. Several witnesses admitted that they had talked with Mr. Rogers within the past few weeks, but all declared that he was much changed.

In support of the claim that Mr. Rogers was too ill to appear, four witnesses were heard. The first was Broughton. He said that since July 22, when Mr. Rogers was taken ill in New York, his father-in-law had been unable to transact any business, and that soon after that date Mr. Rogers told him that Broughton must pick up all his business and carry on the affairs to the best of his ability and knowledge, and that he would hold Mr. Broughton responsible for any mistakes.

At this time Mr. Broughton testified that the physicians had refused to allow Mr. Rogers to see any members of the family, nor even exceeding his wife. He admitted that once in August his father-in-law had talked with John D. Archer, Foraker.

BAD COLLISION JUST AVERTED

Prompt Action of Engineer Prevents a Threatened Disaster on the Chicago & Northwestern Railroad at Racine, Wis.

Freight Train Swooping Down Upon It Because Brakes Fail to Work, Passenger Train Is Sent at Full Speed into a Siding, Clearing Main Line in Nick of Time—Two Coaches Are Side-Swiped, as It Is, and a Number of Persons Suffer Injury.

Racine, Wis., Sept. 17.—Prompt action on the part of Harry Padden of Chicago, engineer on a Northwestern northbound passenger train, prevented a bad wreck here today. A freight train laden with crushed stone in eighteen cars was coming south. The rails were slippery on account of rains and fog, and although the air was put on the wheels slipped and the train went by the station at a fast rate of speed. When Engineer Padden realized that a collision was inevitable, he put on full steam and almost got his train on a siding when the engine of the freight wrecked on coach and the diner, ripping the sides out, breaking the windows and throwing the cars clear off the track.

HIGH RECORD FOR WHISKY.

Cincinnati, O., Sept. 17.—The record price for whisky was reached here today when it rose 2 cents over the previous quotations, reaching \$1.34, the highest known here.

DIDN'T ORDER COCKTAILS

Bishop Berry's Statement Declared Absurd by the Secretary to the President.

Oyster Bay, N. Y., Sept. 17.—Because of the widespread publicity given the statement of Bishop Berry, of Detroit, that either President Roosevelt or Secretary Loeb, and not Mr. Fairbanks, was responsible for the cocktails served at the luncheon at Indianapolis, Secretary Loeb today issued the following formal statement: "The statement is too absurd to be given any credence. Neither the president nor his secretary either directly or indirectly ordered anything of any kind at the lunch in question or at any other lunch where they were guests."

A dispatch from Detroit, under date of Sept. 15, said: That President Roosevelt himself asked for cocktails served at Vice President Fairbanks' dinner at Indianapolis which got the vice president into trouble with his Methodist brethren. It is the story told by Bishop Joseph P. Berry on the authority of Indianapolis churchmen. "There probably is no doubt that liquor of some sort appeared on the vice president's table when he entertained President Roosevelt in Indianapolis," said the bishop today, "but as it is told to me by the vice president, I do not order the drinks and did not even know they were served. Mr. Fairbanks never touches a drop of any intoxicants himself, but it is well known that President Roosevelt likes a drink now and then."

CRANK AT SAGAMORE HILL.

President's Secret Service Men Head Off Another Unexpected Caller.

Oyster Bay, N. Y., Sept. 17.—The monotony of the official routine at Sagamore Hill was relieved tonight by the arrival of another unexpected caller who brought him urgent business with the president. The stranger described himself as Orlando Coland, a farmer of Oxford, Ala. He had reached the front door of the Roosevelt home when he was detected and headed off by a secret service agent.

PARKER ALARMED

THINKS MR. ROOSEVELT IS USURPING POWERS.

Democrat Who Loves the Constitution and Reverses Memory and Wisdom of Its Framers Sees Menace to It.

Norfolk, Va., Sept. 17.—Judge Alton B. Parker was the principal speaker at the Constitution Day exercises at the Jamestown exposition today. Mr. Parker said in part: "The states and the people undertook by the constitution to fix the boundaries of each of the great departments of the government, beyond which neither could pass. Upon the executive, no legislative or judicial power was conferred, but he was charged to take care that the laws be faithfully executed and to protect and defend the constitution of the United States."

"By what process of reasoning the present executive has reached the conclusion that to seize power not granted by the states and the people to protect and defend the constitution, I know not. That he must have reached it by some route, his character as a man, his career an official and the boldness of his advocacy attest. He is not attempting to acquire power by deceiving the people. With perfect frankness he states what he thinks ought to be done, and how he proposes it shall be done. With equal frankness those of us who have widely different views, who love the constitution and revere not alone the memory but the wisdom of its framers, who believe the powers were wisely distributed between the states and the federal government, deem that all past history proves his stand untenable."

"If there were no immediate danger of an effective seizure of powers, we should, to protect the future, meet the assaults of the new federalists with an equal vigor. The time to do it is now. Some other year, even next year, may be too late."

BAD COLLISION JUST AVERTED

Prompt Action of Engineer Prevents a Threatened Disaster on the Chicago & Northwestern Railroad at Racine, Wis.

Freight Train Swooping Down Upon It Because Brakes Fail to Work, Passenger Train Is Sent at Full Speed into a Siding, Clearing Main Line in Nick of Time—Two Coaches Are Side-Swiped, as It Is, and a Number of Persons Suffer Injury.

Racine, Wis., Sept. 17.—Prompt action on the part of Harry Padden of Chicago, engineer on a Northwestern northbound passenger train, prevented a bad wreck here today. A freight train laden with crushed stone in eighteen cars was coming south. The rails were slippery on account of rains and fog, and although the air was put on the wheels slipped and the train went by the station at a fast rate of speed. When Engineer Padden realized that a collision was inevitable, he put on full steam and almost got his train on a siding when the engine of the freight wrecked on coach and the diner, ripping the sides out, breaking the windows and throwing the cars clear off the track.

HIGH RECORD FOR WHISKY.

Cincinnati, O., Sept. 17.—The record price for whisky was reached here today when it rose 2 cents over the previous quotations, reaching \$1.34, the highest known here.

DIDN'T ORDER COCKTAILS

Bishop Berry's Statement Declared Absurd by the Secretary to the President.

Oyster Bay, N. Y., Sept. 17.—Because of the widespread publicity given the statement of Bishop Berry, of Detroit, that either President Roosevelt or Secretary Loeb, and not Mr. Fairbanks, was responsible for the cocktails served at the luncheon at Indianapolis, Secretary Loeb today issued the following formal statement: "The statement is too absurd to be given any credence. Neither the president nor his secretary either directly or indirectly ordered anything of any kind at the lunch in question or at any other lunch where they were guests."

BRAKES FAIL TO HOLD.

Denver & Rio Grande Train Runs Away, and Three Men Are Killed.

Salida, Colo., Sept. 17.—Freight train No. 61 westbound on the Denver & Rio Grande railroad was wrecked today near Pueblo, fourteen miles west of Leadville, killing Fred Nichols, the engineer, Fireman Pledger and Harry Sharpe, brakeman, all of Salida. The air brakes failed to hold on the 4 per cent grade in Tennessee pass, and the train, after attaining terrific speed, jumped the track.

BOILER EXPLOSION KILLS ENGINEER.

Colorado Springs, Sept. 17.—The locomotive pulling passenger train No. 6 westbound of the Rock Island railroad blew up at Calhan, Colo., today, killing Engineer John D. Hartman and seriously, if not fatally, injuring Fireman A. E. Chibring.

WOULD LIMIT TRIAL FEES.

Prison Association Against System That Allows Rich Criminals to Escape.

Chicago, Sept. 17.—The National Prison association suggested a revision of the criminal code at its session today, limiting the fees to be paid lawyers in cases, thereby making impossible, it is said, repetition of such spectacles as the Thaw trial.

"The system of fees permitted to be charged in the defense and prosecution of the criminal classes of today is wrong," says the committee. "A citizen who is wealthy and commits the crime of embezzlement or murder should not be permitted to pay for his defense before the grand jury a dollar more than the 'fat' lawyer defending a man who committed murder and has not the financial backing or means of defense."

"In our opinion one of the greatest social evils of today is that which permits the criminal with a fortune or with influential friends behind him to escape punishment. Such proceedings in a civilized country like this breeds anarchy and crime."

DYING, KILLS ASSAILANTS.

Mine Boss, Mortally Wounded, Takes Deadly Toll.

Pittsburg, Kan., Sept. 17.—Attacked and fatally wounded by a party of drunken Italian miners, Charles Gardner, a mine boss at Crowshott, a new mining camp near here, shot and instantly killed two of his assailants. Gardner's sister, Mrs. George Rexford, was fatally wounded. The shooting was the result of an old grudge. Gardner and his sister were waylaid at dark on a lonely road and attacked without warning. The first bullet lodged in Gardner's lungs. Mrs. Rexford was shot in the back. They fell together. The Italians started to run, but before they had got out of range Gardner raised himself upon his elbow and fired. Two fell dead. The Italians endeavored to carry off their dead, but were compelled to desert them to escape.

HOTEL BEAT IS CAPTURED.

Fond du Lac, Wis., Sept. 17.—G. C. Ryder, who skipped out several days ago without paying a hotel bill of \$86, has been arrested by the Chicago authorities. Ryder and a woman named Stella Mason of Gladstone, Mich., presented credentials of a character to cause the hotel attaches to shower upon them every attention. Riggs secured at various breweries were paid for by the hotel manager. Several days ago, Ryder and the woman made a sensational getaway, dropping their baggage from a window. Ryder's name is said to be Ludner and his home is in the northern part of this state. The Mason woman will appear against him at the hearing.

DAILY MINING JOURNAL

MARQUETTE, MICH., SEPT. 18.
 Entered as mail matter of the second class
 in the postoffice at Marquette, Mich.

Now let us still our troubled political waters and settle down to business as soon as possible.

We don't hear as much from the telegraph strike as we did a short time ago, but it is with us just the same.

Stuyvesant Fish is reported to be making a hard fight. This time, however, it is resolutions, not his fists, that are his weapons.

Vice President Fairbanks has been visiting at Kalamazoo, Senator Burrows' home. Needless to say, he had his presidential boom along.

Marquette appears to be the only city in the upper peninsula which has elections all the year round; it hopes soon to rid itself of the distinction.

Now all that remains is for Mayor Robertson and the council to provide a controller and a new member of the street commission, and we will have our full complement of city officials again.

Even our prospective 20,000-ton battleships will not loom up very large beside the Lantania's bulk of 45,000 tons. The necessities of peace make greater demands on the shipbuilders than the arts of war.

The special session of the legislature is now not very far off, but as yet nobody has discovered any break in the "Boxer" lineup. Unless it is broken into a recital of the session's activities will be principally one of unfinished business.

Borough President Ahearn, of New York, has been up before Governor Hughes, on charges. From what is remembered of the governor's hearing of Superintendent of Insurance Kelsey the assumption that Ahearn has been having a most uncomfortable time is warranted.

The Michigan fruit crop is reported to be a practical failure; the hay crops and other crops on which people depend to a large extent have been poor. The promise is that the coming winter will be a period of high prices and short supply in a large number of commodities.

There are any number of well-known financiers who are most optimistic regarding the future of general business. They admit there has been an appreciable slackening up in our riotous prosperity, but assert that the result has been, or will be, beneficial, and that there is plenty of work and money ahead. They find many reasons for their reassuring views. Naturally all the rest of us ardently hope that their confidence will prove justified.

It requires a very small matter to stir up some of the pessimistic Russian papers. The recent accident to the czar's yacht has convinced some of them that the country is going wrong and that the Russian navy is helpless. It requires considerable flexibility of intellect to see the connection but the Russians are apparently equal to the strain. They argue that if the Russian fleet is not sufficiently acquainted with the waters in the vicinity of the Russian capital to guide the imperial yacht, bearing the imperial family, without splitting it on the rocks, the Russian naval officers must be a contemptible sort. They have explained it by that.

There is nothing intricate about the use of voting machines. Of course the voting yesterday was particularly simple because of the limited number of candidates and the arrangement of the tickets, but even with a full ticket the average voter should experience no difficulty with the machines. Certainly after a few elections in which it is used he should be as much at home with it as with the printed ballot. And the promptness of the returns is a thing much appreciated; we had them yesterday long before we could possibly have had them under the old system. All the advantages and arguments are on the side of machine voting. Marquette should have it from now on.

SUPERIOR TRUST COMPANY
HANCOCK MICHIGAN
 Capital - - \$150,000

This company is under the supervision of the state banking department and is authorized by the law to act as executor, administrator, guardian, assignee, receiver or trustee.

C. A. WRIGHT, Pres.
 JACOB BAER, Vice Pres.
 M. C. GETCHELL, Secy.

It is settled, apparently, that the next race for the America's cup, the one projected for next year, with Sir Thomas Lipton as the challenger, will be an affair participated in by real yachts, as contrasted to racing machines, pure and simple, which are of no practical use after the cup series is finished and many of which are ignominiously broken up for junk. The new rules will provide for a stout craft serviceable in all conditions of weather and sea, it is said. Races between yachts of such a type would be every whit as interesting as between the cranky racing machines with which people who have followed cup races have been familiar, and the designing of such crafts would have more practical value, in addition to leaving the owner with an asset of some tangible account when the races are over. It would lessen the financial burden of international yacht racing, and thus would probably lead to more frequent competition.

The Chicago Tribune, which recently made a poll of eleven western states on the question of the candidates for president, by addressing congressmen, state legislators, newspaper editors and other political leaders, has just polled the New England states in a similar manner, and with similar results. Taft is shown to be the present favorite in the presidential race, with Governor Hughes of New York a strong second. There is shown to be a general support of the president's policies and a general demand for a "progressive" as his successor. Hughes' strength is most impressive. It should be borne in mind that the sentiment favorable to him is spontaneous.

There has been no work done to make him the center of a presidential boom. Those who go on record as believing that he would make a good president and as favoring his nomination do so because they have of themselves arrived at that conclusion. For a man who has been in public life for such a brief time Governor Hughes has a wonderful hold on the popular imagination and apparently it is growing stronger.

STILL CLAMOR FOR PASSES.

Although on the whole the railroads have not seriously grieved at the abolition of the pass system by the recent anti-pass laws, in some specific instances they have undoubtedly been embarrassed by the necessity of curtailing a privilege which had been extended with more or less freedom in the past. The pass evil was two-sided. While the railroads were criticised for extending it blame should not be saddled on them alone, for opposed to them was a large body of eager individuals clamoring to receive the advantages given, willing to push the roads just as far as they would be pushed. The railroads are always surrounded by a large class of persons clamoring for special privileges. It is interesting to note that even the stringent laws passed have not deterred these enterprising individuals; that they are still urging and expecting the railroads to break these laws and continue the evil as in the past.

The roots of any long continued privilege or graft go down deep and come out hard. Long usufruct of privileges destroys the original sense that privileges they are, not earned and intangible rights. Beneficiaries of rebates naturally resist giving up a good thing which they have so long enjoyed, and so with the beneficiaries of the free pass privilege. Many a man who had been in the habit of traveling over the railroads free of charge, not because of any equivalent service, but as a sort of useful brother-in-law of railroads, feels a sense of personal injustice in being compelled to pay, like other people who had been unable to form the connection. In fact, according to the Wall Street Journal, the pass habit is mighty hard to break up, even now that there is a federal law as well as a number of state anti-pass laws. Too many beneficiaries of the old system do not take these laws seriously, regarding them as temporary. They apply as before for their free pass, and in some cases the railroad officials for one reason or another prefer to go down into their own pockets rather than refuse the favor asked. One railroad president is reported to have paid out of his own pocket lately from \$500 to \$600 a month in order to give free transportation to applicants whom he is unwilling to offend by turning them down. The Tammany principle, "What's the constitution between friends?" is a principle, or way of looking at things, especially privileges, that reaches out in many directions, and "What's the anti-pass law, between you and me?" is an appeal that railroad officials do not always care to refuse.

COPPER RANGE CONSOLIDATED COMPANY.
 Dividends Nos. 14 and 15.
 At a meeting of the Board of Directors, held this day, a quarterly dividend of \$1.50 per share, being dividend No. 14, and an extra dividend of 50 cents per share, being dividend No. 15, were declared payable on Tuesday, October 1st, 1907, to stockholders of record at the close of business on September 9th, 1907. The transfer books of the company will be closed at the close of business on Monday, September 9th, 1907, and reopened on Monday, September 16, 1907. FREDERIC STANWOOD, Treasurer, Boston, September 4th, 1907. (9-9-28-7)

Father says: "Say, Mother; can't you make us some more of those fine doughnuts if I will bring home a pair of Cuduh's Peacock Land again?" (11-27-e-0-4)

DARANTELLA
 10c Havana Cigars, 10c

Upper Peninsula
Saloon Burglarized—
 The Majestic, a Manistique saloon, owned by P. J. McNamara, was entered during the night and some \$45 taken, also four boxes of cigars and two bottles of liquor. Entrance was gained by breaking a window on the west side of the building, then boxes and beer kegs were used to reach the opening. The cash register was looted and every drawer in the back bar and desk was opened.

Adds to Timber Holdings—
 An important deal in stumpage is reported from the eastern end of the upper peninsula. The Lake Superior Iron & Chemical company has bought from McLeod, an extensive operator in lumber, all the trees on its holdings in the vicinity of Rexton, Mackinac county, that are suitable for conversion into saw logs. The purchase adds considerably to Mr. McLeod's reserve and gives him timber sufficient for a four-year supply for his mill at Rexton. The logging of the tract will be started this fall.

Pastor Will Rest a Year—
 At the quarterly conference meeting of the Central M. E. church at Iron Mountain Rev. James M. Kerridge, the town's minister, was invited to return for a fourth year by a standing vote. Mr. Kerridge's pastorate has been decidedly pleasant and he would like to continue in the position indefinitely, but his health, and that of his wife, compelled him to decline. As soon as his successor is installed Mr. Kerridge will spend his family for a year in rest and recreation.

Death Cheated of Victim—
 But for the rare presence of mind of Charles Palmer, a fellow engineer, there is little question that Dona Collins, a switchman in the Chicago & Northwest yards at Iron Mountain, would not now be in the land of the living. Knocked from his position on top of an ore train by a projecting sign board, he had scarcely lost his balance when Palmer, noticing his plight, instantly signalled the engineer. The signal just as it was being sent, the car was stopped and a few feet, and Collins was drawn from beneath the wheels, two inches from death. His head was severely cut.

Newberry Business Men Organize—
 At a public meeting held in the opera house preliminary steps were taken toward the organization of an active Business Men's association at Newberry. Officers were appointed and a committee named to draft by-laws. A fee of \$2 per year was fixed as the amount of the annual dues, and a committee was appointed to solicit the membership of every business man and citizen. The officers were: president, W. C. Jenkins; secretary, E. M. Chamberlain; treasurer, John E. Quinlan; board of directors, F. P. Gormely, W. C. Jenkins, J. C. Foster, P. B. Bohm and Leo Auten.

Sued Father for His Wife—
 Frank Seidl, a Menominee young man, instituted habeas corpus proceedings to secure possession of his wife. He claimed she was being held by her father, Nels Anderson, a farmer living just outside of Marquette in the town of Porterville. Seidl has been married about four years. About three weeks ago his wife left him and went to her home in Porterville because, it is alleged, Seidl was drinking. Some time after, Seidl went for her but she refused to confer with him other than by talking through a screen. Seidl claimed that the father interfered. He had a writ of habeas corpus issued by Judge Bird and when Mrs. Seidl came before the court everything was arranged and the wife went with her husband.

Minerals in Alger County—
 The Mining News is advised by its Limestone correspondent that further examination with a mineral compass of certain lands in that township will disclose the presence of gold, silver, copper and iron. For good and sufficient reasons, the paper is informed, a more extended examination will not be made until next spring. In the meantime it is very probable that those most interested will have made all necessary preparations to demonstrate by practical methods just how rich Limestone lands are in minerals. A meeting of those interested will be held in the near future. The object will be to provide ways and means to procure the equipment necessary to explore the specimen of iron ore has been sent to an assayer and the latter's report is expected in the near future.

Stout Pants Saved Him—
 Because he wore an exceptionally stout pair of trousers, Supervisor Paul Cayer of Mathias township, Alger county, escaped serious if not fatal injury in his less fortunate companion's fall. He was rescued from the wreckage, Green struck heavily on the ground, and aside from two serious fractures sustained internal injuries that had fatal outcome within a few hours. Cayer's escape bordered on the miraculous. His fall was arrested by his trousers catching on a large nail. The cloth was strong, and the supervisor hung suspended until rescued from his unpleasant and perilous predicament by his wife, who effected his rescue by means of a ladder.

Bounty Jumpers Taught a Lesson—
 They are not exactly bounty jumpers, those who hire out to work, get transportation and meet on the strength of their contract and then refuse to labor as agreed. They are bums, asserts the St. Ignace Enterprise. W. R. Hudson, secretary of the Hudson Lumber company, has determined to tolerate the imposition of these men no longer. He has engaged a party of men of the Soo to go to work in the company's camp near Garnet. He provided them with transportation and supper, bed and breakfast. But three of them walked out of camp in the morning, when the time came to go to work. Mr. Hudson secured a constable and took after them. The men were arrested on the railroad track and brought to St. Ignace. On a hearing before Justice Reagane one of them expressed regret for his conduct, and Mr. Hudson paid the costs in his case and took him back to camp. The other two were each fined \$10 and costs, \$4.00, or thirty days. As they hadn't the money they were taken to the county jail.

Dollar Bounty on Hawks—
 The contention of a certain learned savant of the department of agriculture, who recently issued a bulletin taking the view that, rather than being the farmer's foe, the hawk is his friend, is evidently not given much credence by

Health Economy
Calumet Baking Powder
 Best by Test

the board of the township of Hhawatha, Schoolcraft county. Supervisor Hunt presented a resolution providing that a bounty of one dollar be paid for every hawk killed, and the ordinance was given immediate effect by a unanimous vote. Now a war of extermination has been declared against the birds in question. There has been much complaint that hawks have been killing young chickens, and measures of protection against the raids of the feathered buccaners has been demanded by the agricultural community.

Hunting ducks on Indian lake, Schoolcraft county, J. E. Fernea, a Manistique man, shot a fish hawk that, from tip to tip of wings, measured more than five feet. In its talons, the bird had a fish eight inches long.

Postoffice Must Move—
 Owing to the gradual sinking of the surface at Norway, Menominee iron range, the subsidence of the ground resulting from the removal of ore in the Steel Corporation's big Aragon mine, the principal workings of which underlie the town, the mining company has notified the officials in charge of Uncle Sam's mail service in the city to prepare to transfer the postoffice to some new site. The danger of the building suddenly being precipitated into the mine is not immediate, but it is impending, and formal notice is thus early given that possible disaster may be avoided. A number of structures in the business portion of the town have already been rendered unsafe because their foundations have been gradually giving way, and an exodus to the south side of the city is in progress. The postoffice quarters also will be removed to the new location, as will those of the First National bank, which is planning the erection of a \$25,000 block, and the proposed Masonic temple will be built in that portion of the town as well. This latter structure will be a fine two-story building.

Pickpocket Flimflamed—
 How he went to Chicago with a large sum of money in greenbacks and had his pockets picked, and how through a ruse he passed through his experience without the loss of a cent, incidentally flimflaming a quartet of the light-fingered gentry, is related in letters received from John M. Shady, ex-postmaster and merchant at Winters, now enroute to Panama to visit his son, R. C. Shady, former register of deeds of Alger county and for some time past connected with the canal administration. On his way to the isthmus, Mr. Shady stopped off at Chicago to buy a bill of goods. Leaving the depot in the midst of a throng of travelers, he noticed that he had been closely pocketed by four men whose actions aroused his suspicion. Giving the quartet no opportunity to plunder him, he at once entered a nearby restaurant, where he managed, unobserved, to transfer his money to a pocket inside his vest. He restored the empty wallet to his pocket, and resumed his walk to the

wholesale store for which he had started. Arriving there, he was not at all surprised to discover his pocketbook missing, although when or how it had been taken passed his comprehension. But as the wallet contained nothing of value he enjoyed a heavy laugh at the expense of its new possessors, and after writing home, telling of his experience, he proceeded on his way to Panama. The episode came yesterday, when the pocketbook, snatched by the thieves, arrived at the Shady home at Winters.

Raised a Giant Tomato—
 That tomatoes grow luxuriantly in Upper Michigan, and that frosts do not come early enough to nip the vegetables before they ripen, are facts that have received ample demonstration on the truck farm of Allen Tyrrel at Brampton, Delta county. Mr. Tyrrel harvested a good-sized crop of these tender "love apples," representatives of the lycopersium family, originally native to South America, and the giant of the lot was a magnificent specimen—fully ripened by the sun prior to being plucked—that weighed one and one-half pounds. It may be stated, incidentally that the Delta county man cultivates red raspberries, and that his bushes have yielded as much as 2,800 quarts of exceptionally large fruit in one season.

Not much attention has been given to wheat raising in the upper peninsula, but that it is possible to make the cereal a staple crop in this northern clime is shown by the fact that at the state fair held at Detroit recently the grain exhibited by Thomas Murphy of Chippewa county captured second prize. His half-bushel of wheat lacked only two ounces of weighing as much as the exhibit of the highest ribbon winner. The grand prize for the champion cow came to the upper peninsula, the Van's Harbor Land & Lumber company of Delta county lauding the honor with what is considered by many the best Aberdeen Angus representative in America. Her owner paid \$1,300 for the animal when she was yet a calf. She was bred in America, however. The company also took many junior championships and many first prizes with its cattle.

WATER BOARD NOTICE OF PROPOSED ASSESSMENT.
 Marquette, Mich., Sept. 9th, 1907.
 To the owners of lots at and parcels of land in the Ayer, Towar and Marquette Land company's additions to the city of Marquette.

Notice is hereby given, that the board of fire and water commissioners of the city of Marquette, have, at the request of the owners of lots in these additions, decided to extend the water mains of the city to these additions, provided the streets are graded so as to enable the board to lay pipes at proper depth to be protected from frost. And have deemed it just and equitable that a portion of the cost of such extensions shall be assessed upon the lots and parcels of real estate especially benefited, and for the purpose of examination by the owners of the lots in these additions, and others interested, a map of the proposed district to be assessed, together with an estimate of cost of the improvement, as also of the amount proposed to be raised by special assessment, may be seen at the office of the board in the city hall, during usual office hours, from this date to and including the 23rd of September. Notice is hereby given to the owners of lots and others interested in these additions, that the board will meet at their office in the city hall at 8 o'clock in the evening of the 23rd day of September, prepared to hear any objections and suggestions relative thereto.

By order of the board of Fire and Water Commissioners,
 JOHN P. KERN, Secretary.

HAS "MONEY MADNESS."
 Lottery King, Worth Many Millions, Taken to Government Asylum.

Atlanta, Ga., Sept. 17.—His mind gone, but with a fortune estimated at many millions, Louis A. Gourlain, for many years the foremost man in the great lottery combine that took thousands of dollars a month from the dupes in all the great cities from Boston across the continent, has been taken to the government asylum at Washington. He will spend the balance of a five-year sentence there for using the mails to defraud. Gourlain lived like a king in New Orleans during the heyday of the lottery. His servants numbered two score. He had fine horses, great herds of imported cattle and kennels of fine dogs. His mansion was as big as a clubhouse, and his entertainments on the grandest scale.

After his conviction, Gourlain insisted that he would never serve his sentence. He even went so far as to secretly negotiate for the purchase of a steamship, and it was his threat that he would give all his millions to the poor he was accused of having robbed, take his family aboard the ship, put to sea, and when in midocean scuttle the ship and go down with it. His lawyers prevented the carrying out of his threat. Then Gourlain agreed to go to prison, and in his desire to show how wealthy he is, offered to build a special penitentiary for himself adjoining the prison at Joliet. This he was to maintain free of cost to the government. After serving a few months in prison, Gourlain was transferred in July last to Atlanta. "He is the victim of money madness," said an official today. "The thing that he struggled for in early life and that he violated the law for later on made him a criminal and stole his brain."

A MARQUETTE CASE.

Many More Like It in Marquette.

The following case is but one of many similar occurring daily in Marquette, it is an easy matter to verify the correctness. Surely you cannot ask for better proof than such convincing evidence.

C. C. Young, painter and decorator, of 522 Washington St., Marquette, Mich., was cured of kidney trouble by Jogan's Kidney Pills in 1898, and has ever since been recommending this remedy to his friends for the cure has been permanent. Describing his experience, Mr. Young says: "When I first began using Doan's Kidney Pills I was completely run down and for two or three years had been practically unable to work. I had such severe pains through my back and hind that I could hardly get about and several times the intense pains in my back and shoulders compelled me to lay off and rest. The kidney secretions became affected by the trouble and were highly colored and unnatural, depositing a heavy sediment. Passages were irregular and on account of this trouble and the pain in my back I could not get more than three or four hours' sleep each night. I got Doan's Kidney Pills and began using them, finding quick relief, gradually improved until I could enjoy a good night's rest and rise in the morning feeling strengthened and refreshed. I found this cure in 1898 and made a statement for publication at that time telling my experience. During the years that have passed I have had no return of my old trouble. My health has been good and is as good today as it was ten years ago. If it is astonishing what Doan's Kidney Pills did for me and what I am sure they will do for others."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Northern State Normal School
MARQUETTE
School Begins October 2, 1907

The Northern State Normal School admits graduates of approved high schools to the two years' course leading to a life certificate and diploma. It offers courses leading to a three-year certificate, which is renewable for three years and valid in graded schools, and also a rural school certificate. Has excellent facilities for training teachers for special work in Kindergarten, Music, Drawing and Nature Study. It has an exceptionally fine corps of teachers who are specialists in their departments, and its training school gives a splendid opportunity for the training of teachers. There is a splendid dormitory in connection with the school which is an ideal home for the student. The building is lighted with electricity and heated with steam; the living rooms are large, well lighted and pleasant, and the dining room has a seating capacity of one hundred and fifty persons. The expenses are moderate.

Students of the Northern Normal School who finish the life certificate course are given fifty-six hours credit at the University of Michigan. For information and catalogue write to

Copper Country

HANCOCK CITY COUNCIL. Many Important Matters Discussed by That Body.

The Hancock city council met Monday night and discussed many important matters, disposing of several of them finally.

R. S. Blome & Co., of Chicago, contractors for the granite pavement on Quincy street, called to the council's attention the fact that the improvement is practically completed, and as yet they have received no money.

Secretary Conklin presented to the council the estimate of the school board for the ensuing year. The board will require a net sum of \$22,500, which is \$2,500 in excess of the amount asked last year.

The Portage Lake Masonic Building company presented a contract, in which the company agrees to build a Masonic temple within five years in consideration of the vacation by the council of a portion of Reservation street adjoining the present Masonic site.

A number of other matters, relating to street improvements, were disposed of. REV. BRIDGES DEPARTS.

Rev. J. S. Bridges, pastor of the Hancock Baptist church, left yesterday for Chester, Pa., where he will prosecute further theological studies in the Crozier seminary.

Mr. Bridges preached his farewell sermon Sunday night. His departure is regretted by Hancock people with whom he was deservedly popular. His successor has not yet been named.

There are now many stories coming out of sad blows dealt copper country people by the failure of their investments in the big slump.

The Houghton Light Infantry, which is Company G of the Third regiment of infantry in the Michigan National Guard, voted Monday night on the question of transforming itself into a naval reserve division.

WOMEN IN HOSPITALS Experiences of Mrs. Rockwood and Miss Tierney

MISS MARGARET TIERNEY MRS. CHAS. A. ROCKWOOD

A large proportion of the operations performed in our hospitals are upon women and girls for some organic trouble. Why should this be the case?

Because they have neglected themselves, as every one of these patients in the hospital beds had plenty of warning in those dragging sensations, pains at left or right of abdomen, backaches, nervous exhaustion, inflammation, ulceration, displacements, and other organic weaknesses.

All of these symptoms are indications of an unhealthy condition of the female system and if not heeded the penalty will be paid by a dangerous operation.

When these symptoms manifest themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—remember that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has saved hundreds of women from surgical operations.

Lydia E. Pinkham's Vegetable Compound, has cured more cases of feminine ills than any other one remedy. Such letters as the following are constantly being received by Mrs. Pinkham to prove our claims.

Mrs. C. A. Rockwood, teacher of Parliamentary Law, of 58 Free St., Fredonia, N. Y., writes: "For years I suffered with female trouble. It was decided that an operation was necessary, and although I submitted to a serious operation my sufferings continued, until Lydia E. Pinkham's vegetable Compound was recommended and it proved a marvelous remedy, so quickly did it restore my health. I cannot thank you sufficiently for the good it has done me."

Miss Margaret Tierney, of No. 328 W. 25th Street, New York, writes: "When only eighteen years of age our physician decided that an operation was necessary to permit of my womanly organs performing their natural functions. My mother objected and being urged by a relative to try Lydia E. Pinkham's Vegetable Compound did so. I soon improved in health, the proper condition was re-established and I am well and strong, thanks to Lydia E. Pinkham's Vegetable Compound."

No other remedy has such unqualified endorsement as Lydia E. Pinkham's Vegetable Compound. No other remedy in the world has such a record of cures of female ills.

Mrs. Pinkham's Standing Invitation to Women Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that may help your case. Her advice is free and always helpful.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills. GEISMAR'S CORN CONTEST. Houghton County Shoobloos the Most Numerous Competitors.

Leo M. Geismar, superintendent of the upper peninsula branch of the Michigan Agricultural Experiment station at Chatham, writes the following to Secretary McNamara of the Copper Country Fair: Chatham, Mich., Sept. 16, 1907.

My Dear Mr. McNamara: I am pleased to note that Houghton county has entered the corn growing contest, and I am greatly pleased to acknowledge that this is principally due to the faithful and energetic work of Professor John A. Doelle, superintendent of the Houghton schools, for nearly all these boys are pupils of the schools which are under Professor Doelle's supervision.

The season here as well as elsewhere has been the most backward within the past thirty-five years, and possibly some of the corn which was distributed may not be completely ripe by the time your fair will be held. This should not discourage the boys however, for the prizes will be awarded just the same as they would be if the weather had been more favorable.

President Miller of Houghton County has not yet called the public meeting to arrange for the entertainment of the waterways commissioners, and it is probable that he will not do so, as the business men have voluntarily taken hold of the matter.

W. J. Oram, janitor of the Hancock M. E. church, suffered severe burns Monday while attempting to start a fire in the stove in the church basement. He used kerosene for kindling, and the oil can exploded. His arms, chest and left side were painfully burned and it is believed he would have suffered fatal injuries had he not received prompt assistance.

ELKS WILL ENTERTAIN.

Hancock Lodge Gives a Dance Tonight—May Have a Show.

The Hancock lodge of Elks will entertain with a dancing party tomorrow night in the Temple. It will be an informal affair and the entertainment committee has permitted each member to bring one friend, but an Elks in order that those not now eligible to the green pastures may be given a taste of the good fellowship that comes only to those who are entered.

The Hancock lodge is also working up a mild degree of interest in the annual show which may be given later in the fall. The Elks of both Hancock and Calumet have for a number of years given annual entertainments, and this year the Calumet lodge has decided in favor of a fair. The Hancock lodge will stick by the familiar minstrel show and one long make an announcement as to date and program.

IN ONE SHOP THIRTY YEARS.

Another old landmark in Red Jacket is being removed to make way for an up-to-date building to be occupied by Paine, Webber & Co., as a broker office. It is the one and a half story frame structure one door north of the corner of Oak on Fifth street. John Graythwaite, pharmacist, has been a continuous tenant of the small room on the first side for thirty years.

When he first began his occupation a third of a century ago, all digging boots for the copper miners were hand-made, machine-manufactured footwear not being considered good enough. Digging boots cost from \$7 to \$8 per pair, and hand-sewed Sunday calf boots \$10 to \$13 per pair.

Shoes were made by the street side of the shop, and the men. Not only boys but men could be seen on Sunday dress parade with their feet clad in bright red-top copper-top boots, the balance of their uniform consisting of white duck trousers held in place by a red sash around the waist, a red flannel shirt or a bright merino-wool with a formal design embroidered on the bosom by some skillful Ajilway squaw.

COPPERDOM BREVITIES.

Otto Beehler has returned to Calumet from an extended Western trip. The Calumet & Hecla band will give a promenade Friday night in the Calumet armory.

Miss Paula Haire of Ripley left Monday for Northampton, Mass., to enter Smith college. J. W. Deman of Houghton has returned from a brief visit with relatives at DePere, Wis.

The preliminary round for the Ben Bryan golf cup was played yesterday by the Portage Lake Golf club. Peter Woldeer of Hubbell and Miss Alice Nichol of Paris, France, were married at St. Cecilia's church Sunday.

Sunday drivers were observed yesterday by all copper country postoffice taking advantage of election day as a legal holiday. Miss Aurie Phillips of Chicago, a beauty expert, is demonstrating toilet preparations in Atkin's drug store, Houghton, this week.

The Copper Range railroad will reduce its passenger tariff to three cents per mile Sept. 28. This is in accordance with the new railroad rate laws. Under Sheriff William Vivian left Houghton yesterday with an insane woman who has been committed to the upper peninsula hospital at Newberry.

William A. Paine, head of Paine, Webber & Co., and president of the Copper Range Consolidated company, is visiting his many interests in the copper country. Charles and Richard Edwards of Houghton, students at the Michigan Agricultural college, will leave this week to resume their studies at that institution.

Bert Roseவர் and Fred Anthony, two Calumet ball players who have played with the Virginia (Minn.) team all summer, have returned home after a very successful season. The steamer H. B. Smith is unloading a cargo of 10,000 tons of coal at the Calumet & Hecla dock, Lake Umbagog, the largest cargo of the kind ever brought into that port.

Grover Penberthy of Houghton has returned to Ann Arbor, where he is a student in the medical department. A large number of Houghton, Hancock and Calumet students will leave for the U. of M. Friday. Game Warden Gipp of Calumet made his first arrest Monday. He held Arthur Schumaker and John Lorasch of Hancock before Justice Oliver and they were fined for shooting partridge out of season. The partridge season does not open until Oct. 1.

Mr. and Mrs. John C. Fryor have returned to Houghton from an extended Eastern trip, which includes a visit to the mobile trip from Buffalo to Boston as the guests of Mr. and Mrs. Thos. S. Dee of the latter city. F. R. Bolles, general passenger agent for the Copper Range railroad, has announced that Freda Park will close for the season next Sunday. The Calumet & Hecla band will give a concert as the feature of the closing day.

The remains of the late Dr. C. J. Sorsen, who died in London, Eng., last month, were shipped from that city Saturday and should arrive in Calumet within ten days of shipment. Dr. Sorsen's widow has returned to her home in Finland, and will not come to Calumet for the funeral. Paine, Webber & Co. have leased for twenty-five years a site in Calumet and will erect thereon a new building for their brokerage office. The work has already been begun, in the raising of the old building on the site, and plans have been prepared for the new building by Elliott & Shepard of Boston.

ANNUAL STOCKHOLDERS' MEETING. Duluth, South Shore & Atlantic Railway Company. Notice is hereby given that the annual stockholders' meeting of the Duluth, South Shore & Atlantic Railway company, for the election of directors and the transaction of any other lawful business, will be held at the office of the company in the Nester block, Marquette, Michigan, on September 19, 1907, at ten o'clock a. m. The transfer books will close on August 31, 1907, at 12 o'clock a. m. and reopen on September 20, 1907, at ten o'clock a. m. JAMES CLARKE, Secretary.

ANNUAL STOCKHOLDERS' MEETING. Marquette, Houghton & Ontonagon Railroad Company. Notice is hereby given that the annual stockholders' meeting of the Marquette, Houghton & Ontonagon Railroad company, for the election of directors and the transaction of any other lawful business, will be held at the office of said company, 302 Nester block, Marquette, Mich., on September 19, 1907, at 10 o'clock a. m. A. E. MILLER, Secretary.

Mining News

Some Suggestions Involving C. & H. Interests in Struggle for Control. There has been a sluggishness in the action of Amalgamated Copper that has caused much apprehension among the holders of the shares, especially those who have paid more than the present quotations for the issue as an investment, comments the Boston Statist.

There has been much substantial opinion to the effect that there was something hanging over the property and more recently it has been very broadly hinted that the depression in the price of the shares was being made for a purpose. These rumors have concerned themselves with the possibility of a change in the management of the property being effected through market ownership of a majority of the stock.

It is generally believed that just previous to the settlement of the great copper war an influential interest had secured such a large block of Amalgamated as to be in a position to wage a contest with the trustees who have been foremost in the ownership of the property, and it is stated and with show of reason that the market for Amalgamated under which the security was first lifted to 114 was not done by the friends of the property.

It is known in fact that they were advised to write the stock around the top level. There have been many conjectures as to the present movement in the issue. It is true that someone is taking an unwelcome interest in the market action of the shares, and it is likewise certain that those who have been foremost in the public eye through various trumpeting have known least of the true state of affairs. There are many things that look very ill for the Amalgamated, and while the value of the properties is nowhere disputed the present time for the big concern are very rocky ones.

The following is offered as obvious and suggestive. When the price of copper was first lowered it was known that it was done against the wishes of the United States smelters, which is taken to represent the Amalgamated, and that these interests openly accused the Calumet & Hecla of having been the author of a wanton change. Calumet & Hecla, as usual, went its way and has been a steady seller of copper at the reduced levels. Calumet & Hecla was the first big concern to reduce dividends, except Quincy which had been paying a dividend out of all proportion to common sense and its capacity to do so.

Calumet & Hecla could go on paying \$20 for some little time without inconvenience and still be within the bounds of conservatism. Therefore Calumet & Hecla has at least bowed very promptly to the present circumstance, more pliantly perhaps than the old oak is accustomed to do.

In this connection it may be said that the complexion of the copper market changed more rapidly than it has ever previously been known to do; for there has been practically no market since the metal stopped selling at 26 cents. Now the fight between the Calumet & Hecla and the Osceola is well known to be really a struggle between the Calumet & Hecla and the Amalgamated. There can be no doubt that the present struggle is being waged by the Calumet & Hecla and the Osceola for the control of the property, and that when they had effected their purpose, they would be willing to let prices reach a more reasonable level.

There is further litigation over the affairs of the Cobalt Lake Mining company, whose title to the bed of Cobalt lake was attacked some time ago by the Florence Mining company on the ground of previous discovery. Last April the suit was pending an act was passed by the Ontario legislature confirming the title of the Cobalt Lake company. This had the effect of suspending legal proceedings until it was seen whether the Canadian government, which possesses the power to veto provincial legislation, would exercise it on the ground that the act was ultra vires. So far no such action has been taken. Not whether action is brought against the directors of the company by James J. McEvoy, of Toronto, who asks for the appointment of a receiver, for an account of the debt, by defaultants with the company's assets, for an order canceling all stock not paid for at par issued to directors or promoters, and for damages for issuing stock at a discount and for improperly procuring the passage of the act which gave the company's title. The plaintiff claims that this act, by implying the invalidity of the title and the validity of the adverse claims, has depreciated the value of the shares, and that a balance of \$2,400,000 is due to the plaintiff on stock issued below par to themselves or others. The directors against whom the suit is brought are Sir H. M. Pellatt and Britton Osler, Toronto; Thos. Birkett and G. E. Henderson, Ottawa; D. C. Ross, Houghton, Cobalt; L. H. Avery and Raymond Mantha, Detroit.

"What shall we have for breakfast?" "Why Cudahy's Peacock Ham and Eggs of course; they are always acceptable, especially at this season of the year." (11-27-e-o-d)

City Brevities

Yesterday's temperatures: 7 a. m., 53 degrees; noon, 56; 7 p. m., 59; maximum, 59; minimum, 49.
 Forecast—Local rains, fresh east to south winds.

Morgan Jopling left for Chicago last night.

Louis Corbett of Negaunee was in the city yesterday.

Mrs. John Downey and daughter have gone to the Soo.

An assembly dance was held last night at Keough's hall.

J. M. Longyear and daughter arrived in the city yesterday.

C. F. Sundstrom of Michigan is visiting Marquette friends.

A dance is to be held by Keough's club at Keough's hall tonight.

Dr. Gregory of Menominee visited friends in the city yesterday.

Mrs. C. H. Kelsey is to leave this morning for a trip to Detroit.

Miss Doris Bowron of North Third street is visiting relatives in South Dakota.

T. J. Foley left yesterday for lower Canada for a visit at the home of his mother.

Miss Belle Liberty has been the guest of her cousin, Miss Beatrice Liberty at Newberry.

The G. I. A. to the B. of L. E. will meet this afternoon at 2:30 o'clock at Keough's hall.

Miss Anna Lacey of Iron Mountain is spending a few days in the city the guest of Miss Marie E. L'Huillier.

Miss Kate Frei of the Marquette military store returned to the city yesterday after a business trip to Chicago.

Mr. Paul Asch and wife of Milwaukee arrived in the city last night. Mr. Asch resided in the city over twenty years ago.

The thirty-six jurors summoned for the September term of the circuit court have been discharged from further service.

Mrs. Fred Weeks of Newberry, formerly Miss Minnie Russell of this city is a patient at St. Luke's hospital and is to undergo an operation.

Mrs. J. H. LaRoche left last night for the East to buy her fall stock for her millinery department. She expects to be back the first of October.

Mr. Wm. Aikman, Jr., of Detroit, who has been the guest during the past few days of Mr. Eugene J. Paulus of Munising, returned yesterday to "Riverhurst," his country place in Walkerville, Ont.

Miss Laughlin, who purchased Miss Endler's dressmaking business, arrived in the city yesterday morning, accompanied by an experienced assistant to take charge of her waist department, and who was formerly employed with Carson, Pirie, Scott, of Chicago.

New Drug Store—W. J. Hebbard, who formerly lived in Marquette and who now conducts a drug business in Ishpeming is to open a drug store in Marquette at the corner of Third and Magnetic streets Oct. 1 next.

For Chocolate Furnace—It is reported that the Anna River Brick company near Munising, which has suspended operations for the season, recently sold forty carloads of clay to the Lake Superior Iron & Chemical company. The clay, it is said, is to be used in enlarging the Chocolate furnace.

Air Motor Wins—A. C. Shepard's horse, Air Motor, which was one of the favorites at the Marquette county fair won new laurels at the Menominee county fair where the horse has been racing for the past week. In one race Air Motor paced with twelve other entries and quit with first money.

Elks to Hold Funeral—The members of the local order of Elks have been notified to meet at the lodge rooms in the Opera House block this afternoon. They are to meet the train bearing the remains of Samuel H. Gibson who died in Toronto. The funeral will be conducted according to the Elks' ritual and will be in Park cemetery.

Maywood Coming Back—Rev. Ames Maywood, pastor of the First Methodist Episcopal church has been re-assigned to the pastorate of the Marquette church by the Detroit conference which has just closed. Mr. Maywood is one of the most popular pastors that the church has ever had and the entire congregation united in the request that he be retained here.

Football Game Sunday—The North Ends announce that they will play the Cubs in one of the first football games of the fall at the old fair grounds Sunday afternoon at 3 o'clock, the game beginning at 2 o'clock. The North Ends were organized last fall, when they played several games. They challenge any team of players averaging 115 pounds in the county.

Delegate to World's Conference—The Detroit Methodist conference at its recent annual session at Detroit elected delegates to the World's general conference of the Methodist church, to be held in Baltimore next May. Among its delegates, the following upper peninsula men were elected: Rev. Balmer of Hancock, Daniel W. Powell of Marquette, James Pryor of Houghton, and J. D. Moor of Sault Ste. Marie.

Postoffice Robbed—Sheriff Rough visited the Cascade district south of Negaunee yesterday where the postoffice in the Palmer store was robbed. The robbery was committed Monday night and as the safe was opened without the use of an explosive, it is thought that the work was done by experienced crooks. They took \$1.15 in cash, two diamond rings and a gold watch and chain.

Swedish Pastor Leaves—Rev. C. J. Rosenquist who recently resigned the pastorate of the Swedish M. E. church is to leave today for Menominee, his wife's former home. He intends to attend the dedication of the new Swedish M. E. University at Evanston, Ill., which is to take place next week and will then return to Menominee. He and his family are going to Texas, where he has accepted a pastorate, early in October.

The party who took a cravenette from one of the local barber shops last night will please return it where taken or to the Mining Journal office. 9-17-34

"HUMAN HEARTS" TONIGHT.

In such a play as "Human Hearts" which will be at the Opera House tonight the contrast between virtue and vice is sharply drawn. The author has not mined matters in drawing his characters, and as the incidents of the play are based on real occurrences, he has not had to draw upon his imagination to invent a motive for "Human Hearts."

The characters of Jeannette and Frederick Armsdale in "Human Hearts" should be carefully studied. We meet

Jeannette Logan
 "HUMAN HEARTS."

their prototypes in daily life, in nearly all large communities, men and women, who, with all the advantages of education, comfortable homes, and the care of parents and friends go astray, and sink lower and lower in the social scale, until they reach the lowest depths of degradation.

Another novel character drawing in this play is that of Jim Mason, a man born amidst the lowest surroundings, with no advantages in early life, knowing nothing of the difference between right and wrong; a criminal because he has had no opportunities to be anything else. But here is a character that aspires to better things. The inherent instinct to raise himself above the level of his surroundings, is lying dormant, but, when the realization of the difference between right and wrong is brought home to him he chooses the proper path.

DANGER IN YELLOW PRESS.
 Famous German Scientist, Visiting Here, Flays Sensationalism.

Washington, Sept. 17.—Professor Dr. H. Schaunstein, director des Staatlichen Museums fuer Natur, Voelker, und Handelskunde, of Bremen, Germany, entertains decided views as regards the American newspaper, the negro question, the future of the United States in reference to championing the cause of the white race, and other important topics of the day. The professor is accompanied by his daughter, Miss Schaunstein, and will from here continue his trip around the world, which he has undertaken in the interest of the institution of which he is the director. This is his second visit to the United States. Speaking of American newspapers, the distinguished German scientist said:

"I have much fault to find with the majority of your American newspapers. The content, naturally, does not apply to all of them, but to many, far too many. It seems to me they carry in their daily columns altogether too much of the sensational occurrences, like murders, elopements, divorces and other scandals. Another bad feature is that they delve into the most revolting details in connection with scandalous stories. When you consider that there is no country where the newspapers are so extensively read and followed as they are in the United States, you will realize the influence such reading matter must have on the public. Being more read than books, your newspapers are the greatest educators. Why not, then, set a certain part of the papers aside for instructive matter, something that appeals to the better side of human things and assists the readers to spend their time in acquiring useful knowledge instead of the nauseating details of a murder or a divorce scandal?"

"Your educational institutions are simply astonishing. You have such a wealth of material to work on, and you are not handicapped for funds with which to carry on experiments and investigations. It is simply marvellous, and indeed a revelation to us Europeans. In many of the most important branches of science you are ahead of Europe, and we must now come to you for new discoveries and analyses instead of you coming to us as in former years."

"Do you know that there is a class distinction forming in America? Yes, I believe it has already formed and is growing stronger daily. And that is the class distinction of the educated, the scientist, the student. Although being a republic, a class formation of that nature, in my opinion, is fraught with no harm, on the contrary, it is commendable. Where will it end, you ask? Will it have in its train other class formations, such as the moneyed class, the governing class? That I cannot say, but even in the old Greek republics, where everybody was free, a class distinction gradually grew up and gathered power, and finally was the ruin of the nation."

Your negro question is going to cost you many days of trouble before many years. The American people are bound to set upon a definite line for them, and the negroes will have to be forced to subject themselves to this rule or suffer the consequences. But there is a question still more serious than that to be solved by the American people. As I see events changing themselves, the American people will finally be compelled to fight for the supremacy of the white race."

"Yes, I met President Roosevelt. He impresses me as a strong character, a power for good and absolutely honest and sincere. He is a great man. Our Emperor William is of a similar nature. He is a clear sighted, clever man, ever on the alert to be of service to Deutschland in every field of progress, be it science or commerce or art or thought. He is very impulsive and has probably given expression to his thoughts, especially in political matters, when he might have kept quiet. But he is not a man to keep quiet. He is ever active, and in that respect resembles your president."

MARKETS

STOCKS HAVE GOOD RALLY.

New York, Sept. 17.—Stocks had a good recovery today, and the vigorous upward movement was in the face of some unfavorable factors. Operators in stocks were very busy discussing the resumption of proceedings in the government suit against the Standard Oil Company, but it was evident that the long course of preparation for this occurrence had detracted from its effect in the market. The same was true of the disclosure in sworn testimony in court of the precarious state of health of a foremost capitalist in the copper industry. The facts, as now learned, were given large interpretation, and the course of the market in July and August. The market in short gave every evidence of being oversold. Besides the requirement of an uncovered short interest of the copper industrial had the benefit of a violent rebound in the price of copper at London today, spot copper rising \$3, 12 1/2, 64 a ton there. In contrast, there was a further reduction in the price of copper at the New York metal exchange of one-quarter of a cent a pound. The sentiment over the situation in the metal market was appreciably improved, nevertheless, and greater confidence was expressed that a level of more effective demand was being approached which gave promise that the market would right itself. The views publicly expressed by the chairman of the United States Steel Corporation gave some feeling of assurance that the course of the copper market need not foreshadow a similar course in iron and steel, or not in the same acute degree. With the market relieved of the dragging effect of the persistent weakness in the metal industries, some of the formerly existing factors asserted themselves on the side of strength in the market.

Paine, Webber & Co. telegraphed from New York yesterday as follows: "A better feeling prevailed in the New York stock market today and advances were scored all along the list. The buying, however, was mostly from the short interest. In fact the market had the appearance of being sold to a large extent. There was not much news of importance, but call money was a little firmer. The copper metal situation has not been clarified to any great extent, but it is rumored that arrangements are being made to curtail production in order to decrease the surplus, which eventually will have the effect of strengthening the metal position. The decline in industrial has been rather drastic, and the strength of the standard railroad issues is significant, in that it indicates that the underlying conditions are sound. We would not be at all surprised to see the market rally further, under leadership of Northern Pacific, on which considerable talk is heard, but we would advise against loading up with stocks at present."

Table with columns for various stock markets including U.S. Stocks, G.P. & L., Sugar, St. Paul, etc., and their respective prices.

Wheat Summary. Paine, Webber & Co. reported yesterday's wheat market as follows: "The action of the market was encouraging again today. The forced liquidation is about over and the stocks have passed into new hands, well able to take care of them. Steel stocks are leaning at 1-32 premium, and most of the copper is leaning flat, showing a large short interest and sold-out condition. New buyers are scarce, but money is a little easier and we will have plenty of speculative buying when people feel sure the turn has come. A small lot of copper sold today at 15 1/2, and 10 cents was bid for other small lots. Probably the

reform for all he is worth. He believes that the next drama will pronounce in favor of the principle it embodies. It is likely that the question of equal rights for the Jews will be the chief question before the new assembly. The constitutional Democrats have placed it first in their manifesto, giving the question of the compulsory expropriation of land the second position. The renewal of persecution of the Jews is said to be due to the incitements of the reactionaries, inflamed by Stolypin's friendly assurances to Senator Dillingham.

SNARES SET FOR RICH AMERICANS. Booth Tarkington Says He Is Disgusted With Idiocy of His Countrymen.

New York, Sept. 17.—Booth Tarkington, the author-dramatist, in the course of an interview here spoke of the snares set for the Americans by titled Europeans, which is the main theme of "The Man From Home," written in conjunction with Harry Leon Wilson. "I am ashamed of my fellow American," said Mr. Tarkington, "I am disgusted with the idiocy that possesses a certain number of them when they find themselves abroad. I speak of that class with more money than good sense—that makes historical attempts to misally its daughters to the morally strabismic and financially decrepit titular exercises of the old world."

Forget Fight of Fathers. Respectable, God-fearing, plain Americans whose grandfathers fought tooth and nail for the abolition of monarchial forms and fads may be found prostrating themselves before a shallow pated holder of an indifferently well polished coronet.

"Mr. Wilson and I have sought to present to our American countrymen some of the things that transpire on the other side of the Atlantic, the things that are almost inevitable when the father or mother, bitten with the virus of social prestige, deliberately immolate their children upon the altar of the golden calf. The fate of the innocent, pure minded American girl entrusted to the keeping of some of the male harpists one finds in the capitals of Europe is enough to shock the hardened senses of even an American king of finance.

Warns the New Rich. "I don't wish to be placed in the position of making a wholesale denunciation of European forms and usages, nor of asserting that all the bearers of titles are unworthy; nor yet that all international marriages are misalliances, for that is far from my thought. But I do say, unequivocally, that the majority of American fathers and mothers of a certain class—those whose familiarity with social affairs is comparatively recent origin, are almost certain to be deceived by the class of adventurers that frequent the best hotels in the most fashionable resorts, and are to be found on terms of apparent equality with some of the best people.

Calls Them Impossible Morally. "There is a large number of titled individuals who are controlled by the force of circumstances to live by their wits and who receive 'contributions' from more fortunate relatives. Furthermore there are any number of persons whose family history is to be found in Linn Burke and the Almanac de Gotha, who are yet absolutely impossible from any moral standpoint, whose family connections alone save them from disgrace, and whose sole aim and ambition in life is to secure enough to live upon. There is gossip in every court in Europe concerning certain members of the aristocracy which is perfectly well known to those who are on the inside, but which it is almost impossible for the outsiders to get an inkling of. "We speak of things as we find them, not as we would wish to find them. If the truth is brought home to our American families, in but one or two instances, something will have been accomplished."

RIDICULES WAR TALK. Japan Wants Peace, Says Former Ambassador Luke Wright.

Washington, Sept. 17.—Luke E. Wright, former governor of the Philippines and more recently United States ambassador to Japan, takes a very cheerful view of the relations between Japan and the United States and the prospect of their indefinite continuation. "Why the talk of a war between this country and Japan is even respectable nonsense," said Mr. Wright, "is a new epigram, as he discussed the affairs of the two nations. 'There is no situation' between Japan and the United States other than the very pleasant and friendly relation which has always existed. Japan no more wants a war with us than we want one with her and the idea that there is any impending conflict between the two countries is ridiculous. Japan regards us as her best friend, and although we have never had a war with her, there is a perfect understanding between the two countries. "Of course there was some excitement and jingo talk growing out of the San Francisco incident, but that has calmed down entirely. The governing powers of Japan thoroughly appreciate the situation and are satisfied that their treaty rights are respected, and when the fact that there was no abridgment of these rights became assimilated among the people they quietly acquiesced. It is entirely probable that when the present treaty expires in 1912 Japan will seek to obtain conditions in a new treaty which she regards as more liberal and more advantageous to her own people. That is quite natural and there will doubtless be much discussion of the subject, but there is no danger of any trouble. "Japan is badly in debt. She owes a billion dollars gold and taxes have been increased rather than diminished. I should say, since the war with Russia, I believe she has added two new divisions to her army and she is building up her navy, which was not in fit condition when the struggle ceased, and all this is costing Japan a great deal of money. Even if she desired war, which she does not, she could not afford it. As she does not, our naval strength is stable that of Japan. There are other considerations which people who are inclined to think that Japan seeks war with us do not seem to appreciate. Japan has a problem on her hands in Korea, where the situation is not very satisfactory, and it is one which the Japanese must and will work out, and that is occupying her attention. "Furthermore, many Japanese are going over into Manchuria, and her attention is being directed that way. Again, this is one of the important consid-

STOLYPIN'S PROGRAMME OPPOSED. Called Most Democratic Project Ever Brought Forward in Russia.

St. Petersburg, Sept. 17.—Premier Stolypin is encountering reactionary opposition of surprising strength ever since his preparations for the election of the new duma began. This opposition has broken out in the most unexpected places. The Moscow zemstvo has absolutely rejected Stolypin's programme, which is undoubtedly the most democratic project ever brought forward by a Russian statesman. "Never was a more generous measure conceived by the Russian democracy with any prospect of success than Stolypin's plan to create in place of the communes small bodies of the zemstvo type in which all classes of the population would meet on an equal footing to administer the duties of local constabulary. These new bodies would have as intimate a connection with vicinage as the American town meeting. Reaction carried the day in Moscow and it bids fair to accomplish a similar purpose elsewhere, though there was a respectable minority of Muscovite Liberals who supported the premier's proposal. Fortunately he is determined to press

The New Theatre GRAND THEATRE The Popular Theatre WASHINGTON STREET, Opp. Opera House CONTINUOUS PERFORMANCE. THE PASSION PLAY, SATURDAY, SEPT. 21. THE LIFE OF CHRIST. BONAPARTE IN CHICAGO.

Chicago, Sept. 17.—Attorney General Bonaparte arrived in Chicago tonight from Boston. He gave a two-fold reason for his visit. One is to deliver an address before the prison reform association, in connection with the other to confer with District Attorney Sims on the Alton immunity case. WON BY WIRELESS. Albany, N. Y., Sept. 17.—An interdictory decree of divorce has been granted to Mrs. Lucille S. De Forest against Dr. Lee De Forest of wireless telegraph fame. Dr. De Forest met Miss Lucille Shearman at a reception at the Art club in New York and became infatuated. She was interested in his work in wireless telegraphy, and after he had given her a great deal, but the Japanese did not seem to regard it as a menace to them.

RENNING, COMPOSER, DEAD.

Milwaukee, Sept. 17.—Odin Louis Renning, a well-known pianist and composer, who composed the coronation ode to King Haakon of Norway, died at the Knowlton hospital today. Mr. Renning was twenty-seven years of age. Death followed an operation two weeks ago for appendicitis. U. S. BUYING WELSH COAL. London, Sept. 17.—The United States navy department has, according to a dispatch from Cardiff, Wales, to a news

UPSETS KING'S TABLE.

Copenhagen, Sept. 17.—M. Hanson, a Danish horse dealer who has sold several horses to King Haakon of Norway, was invited to take lunch with the members of the royal family at Christiania. When the king requested salt, Hanson thought Haakon was toasting him, and arose, pulling the table cloth and all the dishes to the floor. CHANLER AND JOHNSON. Washington, Sept. 17.—L. S. Chanler, lieutenant governor of New York, for president and Governor John J. Johnson of Minnesota for vice president is a candidate of well known Democrats which would be very strongly to a number of Democrats of national fame who have drifted into Washington recently.

PLEASUED WITH THE UPPER PENINSULA

RECORD BREAKING YEAR.
Unusually Large Number of Finnish People Will Return Home in 1907.

Peter Koski, the Cunard Steamship company's Ishpeiming agent, yesterday said that a new record will be established this year in the number of Finnish people leaving this city for their native place. Between 150 and 200 Ishpeiming Finns have gone abroad since the first of January, and it is expected that from seventy-five to 100 more will leave here before the end of the year. A party of from ten to fifteen is being organized to leave some day next week, and many others plan to leave the latter part of November, or early in December, in order to be at home for Christmas.

Otto Nykanen and Tiro Hopala, two young men of this city who have been here for three years, will leave tomorrow morning on their return to Helsinki, Finland. They will cross the ocean in the Cunard line's new steamer, "Lusitania," the largest vessel that plies the ocean. The steamer was brought over from Europe a few days ago and is due to sail from New York on the 21st. It is expected that a new record in the time between New York and Liverpool will be established by the "Lusitania." The boat came over in five days, and forty-eight minutes, but it is predicted that the return trip will be made in less than five days. Some of the Finnish people who plan to return to Finland for their holidays expect to sail on the sister ship of the "Lusitania," which was about completed, and which will make its maiden trip inside of a month or six weeks. The new steamer is 750 feet in length, and it will make from twenty-three to twenty-seven knots an hour.

Ishpeiming is not the only point in the upper peninsula where record-breaking numbers will this year leave for Finland, as well as other foreign countries, as the traffic has been unusually large since March. Several hundred have gone from the copper country and Duluth and vicinity have also contributed many travelers. It is reported that the times are better in Finland than they have been in some years, and not a few of those going over plan to remain permanently.

THINKS WELL OF MINES.
Ishpeiming Mining Man Enthusiastic Over Wisconsin Properties.

Captain Samuel Metherell, of the Cleveland Lake mine, has returned from Cuba City, Wis., where he spent a few days visiting his son-in-law, Robert Fox, and wife. While there he devoted much of his time to looking over the lead and zinc mines and mills in the district, paying particular attention to the Vandeventer, of which his son-in-law is superintendent.

Captain Metherell was much pleased with the appearance of the mines, and he is enthusiastic over the Vandeventer, paying particular attention to the state and to the other. The captain is an old lead miner, he having worked in properties in England before coming to this country, and he is familiar with the lead and zinc formations. The unusual size and richness of the Vandeventer formation surprised him.

The captain was well pleased with the way the work is being handled and he believes that the management has adopted the proper course in proving up the length of the formation, as he stated in paying particular attention to the Vandeventer, which adds value to the mine inasmuch as the formation has already been proved up for a width of over fifty feet. One day the captain worked with the miners for a few hours, to get a separate idea of the nature of the ground. He said that in the state that were fired chunks of pure lead and jack weighing from 500 to 700 pounds were brought down. He observed that the formation waxes, and expresses the opinion that deposits will be found both below and above the present workings.

TWO WEEKS IN TEXAS.

W. J. McCorkindale, manager of the Marquette County Gas & Electric company, left last evening for Sherman, Tex., where he will spend two weeks on business pertaining to the gas plant of that city, which he has managed since leaving there over two years ago. Mr. McCorkindale established the plant for the Granger Farmville company. Sherman is a city of 10,000 population. The gas plant is the only one of the kind in the Farwell people have there, but it has proved a good paying venture. The business is growing steadily.

IMPROVING HIGH STREET.

The board of public works has a crew working on High street between Maple and Second. The thoroughfare is to be given a gravel dressing from Maple to Fourth, a distance of four blocks. Three courses of gravel are to be put on and new curbs built. The Marquette County Gas & Electric company will have to raise its tracks in places between First and Fourth streets. This will probably be the last piece of new street building of any importance that will be done this fall.

HAS FINE VEGETABLES.

John H. Hill, residing at the Winthrop, has the finest crop of vegetables seen in that vicinity in some years. His crop of cucumbers and cauliflowers is particularly attractive. Cucumbers weighing three and a half pounds are to be found in the garden, and cauliflowers measuring from six to ten inches across. Experienced gardeners and farmers whose attention has been called to Mr. Hill's crop declare the cucumbers and cauliflowers to be record breakers in size.

HOW'S THIS!

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

W. E. HALL'S CATARRH CURE is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75 cents per bottle. Sold by The Stafford Drug Co.

FROM HOPKINS' CURB LETTER.

"A much better feeling prevailed at the opening this morning. London came over a pound higher for both spot and futures and the local market showed a disposition to do better at the start. Amalgamated opened one point higher and prices advanced an additional two points. While the volume of business was not large, the copper shares showed a marked improvement over the close last night. Advances this morning seem to indicate that people in close touch with the situation believe that copper has touched bottom and that it only remains for the consumers and producers to agree on a price."

The prevailing prices were:

ISHPEMING IN BRIEF.

Harry Davidson of Champion was in the city yesterday.

Richard Lynch and wife of Butte, Mont., were in the city yesterday.

Mrs. W. W. Patterson has been called home from Milwaukee on account of the illness of her mother, Mrs. Frank Zohlerline.

John W. Hull left yesterday for Flint, Mich., where he will enter the school for the deaf. He spent a year there some four or five years ago.

The officers of the Alger County Agricultural association are negotiating with the Ishpeiming band to furnish music at the fair two days next week.

James McDougall of Chicago was in the city yesterday, he having come up to join a party of Chicago friends, who were camping at Lake Independence.

Mrs. Emma Kyme yesterday afternoon gave a fruit shower in honor of Miss Nancy Nelson, and last evening Mrs. Thomas Walters entertained in her honor.

It is reported that there is still some very good blueberries in the district north of here, though the rain Sunday night destroyed many of the ripe ones.

The advance sale of reserved seat tickets for "Human Hearts," W. E. Nankeville's production, at Ishpeiming theatre tomorrow evening, will open this morning. Popular prices will prevail.

According to the records of the local register, 293 births have occurred in this city since the first of the year. At a corresponding date last year there was just one less reported, so it is a question which of the two years will show the greatest number. The total last year was 413.

The Royal Dancing club will give the first of its series of parties tonight at Braastad's Hall. Clifford's orchestra will furnish the music and the orchestra per cent will be fifty cents. The officers of the club announce that undesirable persons will not be admitted, even if they present an invitation.

The Epworth league of the Salisbury Methodist church will conduct a social and serve supper tomorrow evening at the church. Supper will be served between 5 and 8 o'clock, and at the latter hour a letter social will be introduced. The charges for the meal will be fifteen cents for adults and ten for children.

Some of the business men on Main street are hoping that the management of the Grand theatre will soon give them a change in the records in the phonograph which is in operation every afternoon and evening while the theatre is open. Business men and clerks have become quite tired of whistling the old tunes.

The names of sixteen voters were registered in the city Saturday for the special election yesterday. There was one in the First; one in the Second; one in the Third; two in the Fourth; two in the Fifth; three in the Sixth; three in the Ninth; and three in the Tenth, with none in either the Seventh or Eighth.

A meeting of the Fourth of July arrangement committee will be held this afternoon at 2 o'clock in the council chamber when Treasurer J. S. Olson will submit a statement showing the total receipts and expenditures. The officers of the committee desire a large attendance of the members as they are anxious to wind up the affair.

The Michigan Pipe company is not making very rapid headway with the laying of the pipe along Division street, owing to the fact that the superintendent has not been able to secure as many men as he desires to work on the job. The trench has been opened from the intersection of Pine street to a point a short distance west of the railway tracks, and the pipe has been installed and covered for a distance of about two blocks.

TALK OF NO OTHER NAME.

People of the Northwest Feel That Roosevelt Will Run.

Washington, Sept. 17.—Senators and members of congress who have returned to Washington report that there is still an impression that the president may yet reconsider his determination not to accept another nomination. Especially is this true in the west and northwest. In this section the president is still regarded as a candidate to succeed himself. This impression that the president may be induced to take another term is seriously impeding the progress of the Taft boom. In fact, the people in the northwest are refusing to consider the merits of any candidate because of the impression that some pressure may be brought to bear upon President Roosevelt to run again.

When Secretary Taft's friends urged his fitness for the honor, they are almost invariably met with the suggestion that after all Mr. Roosevelt may be forced into the race. In that event, of course, no other name would be mentioned at the national convention.

"No candidate is being seriously considered in the northwest," said Senator Chapp of Minnesota, speaking at a public meeting. The fact that the president has declared that he will not accept another term does not seem to prevent the people of my state from looking upon him as a candidate. They appear to think that in some way he will be forced upon the ticket again.

"Of course, Secretary Taft has many friends in Minnesota and other northwestern states. You hear more talk of Taft than any other candidate, but you cannot get away from the fact that sticks out everywhere that the people still think that the nomination of Mr. Roosevelt by the next national convention is altogether probable."

KILLED BY AUTOMOBILE.

Connecticut Man Blighted from Car Directly in Front of Machine.

South Norwalk, Conn., Sept. 17.—Martin Kellogg, street commissioner of the city of Norwalk, was struck and killed by an automobile owned by Brigadier General Russell Frost and operated by Russell Frost, Jr. Mr. Kellogg was on a street car and evidently had not noticed the automobile which was following the car at one side through West avenue, for as the car advanced he jumped off and directly in front of the machine. The radiator of the automobile struck Mr. Kellogg and he was dragged under the vehicle so that two wheels on the left side passed over his body, causing immediate death. The speed of the automobile at the time of the accident, it is stated, was about the same as that of the trolley car, which was proceeding it through the avenue. General Frost commands the brigade of the Connecticut National Guard.

BIDS WANTED.

By the board of education, School District No. (1) one, city of Ishpeiming, county of Marquette, state of Michigan, for heating and ventilating, plumbing, sewerage and gas fittings for the new high school, now being erected on the school property, East Division street, in said city of Ishpeiming.

Contractors to make separate bids on the work, and furnish separate copy company's bonds for at least 50 per cent of contract price for the faithful performance of such contract, and completion of all work according to its terms. Also a surety bond amounting to the people of the state of Michigan for at least 20 per cent of the contract price, conditioned for the payment of all indebtedness for labor and material as required by the statute in such case made and provided.

All work and material to be furnished as per plans and specifications prepared by John D. Clumb, architect, Chicago, Ill.

Plans and specifications may be had from the undersigned. All bids to be signed, sealed and delivered to Mr. N. M. Nelson, director board of education, on or before 4 o'clock p. m., Monday, Sept. 23, 1907.

The plans and specifications must be returned with bid, otherwise bid will not be considered.

The board of education reserves the right to reject any or all bids.

(Signed) CHAS. BURT,
Chairman Building Committee.

Mining News

NOTES OF COPPER NEWS.

Tamarack. A fluctuation of one cent per pound in the price of copper means a difference of \$2.16 per share in the company's profits. As between a 25-cent and 16-cent copper market there is a difference of \$19.40 per share in the earnings of Tamarack when applied to a year's operations.

The Old Dominion company has given orders to lay off all "undesirable" workmen at its mines, in order to effect all savings possible, but at the same time orders have been given to increase the grade of ore worked 1 per cent in order that the output and profits can be maintained. An increase of 1 per cent in the grade of ore would amount to 83 per cent on 15-cent copper, and on the monthly treatment of 25,000 tons of Old Dominion ore this would mean increased profits of \$75,000, as it would cost no more to treat the ore and the additional copper product would be all profit. Old Dominion copper costs at present are about fourteen cents per pound.

Calumet & Arizona now has a surplus account ample for its needs. It is developing promising prospects in the Copper Queen mine at Bisbee by laying off 500 men. The construction of the copper output this month by over 1,000, 500 pounds at the minimum, and next month by over 2,000,000 pounds. The Copper Queen has temporarily suspended custom smelting in view of the uncertainties of the metal market, as custom smelting is a losing proposition on a declining market.

It is expected that the Allouez will increase its working force by about fifty men during the fall, if that number of men can be obtained. The construction of about thirty new dwellings will permit an increase of that size in the mine's force. Development work is being continued, lateral openings being pushed forward from No. 1 shaft. Sinking in No. 2 shaft, which will not reach the hole for several months, is being carried forward at the rate of 100 feet a month.

The Leonard and West Colusa mines of the Boston & Montana company have been closed on account of fire and gas on the 800-foot level. A shaft is now being sunk, which is already down to the 600-foot level, and it is expected no difficulty will be experienced in handling the fire and freeing the mine of the gas from this shaft. Working forces at all mines are being rapidly reduced, over 40 per cent having already been laid off. The output has probably been cut 50 per cent.

Tamarack is producing about 13,000, 000 pounds of copper per annum and is splendidly equipped. It will always be, however, a high-cost producer, and any price for copper below fourteen cents per pound precludes the payment of dividends. None of the more prominent copper mines is more susceptible to the vicissitudes of the metal market than

ASSERTS CURE DUE TO SHRINE.

Manchester (N. H.) Man, Crippled for Years, Can Now Walk.

Manchester, N. H., Sept. 17.—A cripple for years, Alfred Pellerin, aged thirty-nine, of 101 Revere avenue, asserts he has been cured at the famous shrine of St. Anne de Beaupre, Quebec.

During the last six years Pellerin has suffered terribly from abscesses, and was finally compelled to use crutches. He was employed in the shoe shop of the F. M. Hoyt company and was able to work only occasionally. His physicians told him that his case was practically hopeless, and he had almost given up the hope of ever being able to walk. He returned from Canada today and surprised his relatives and friends by walking without crutches in various parts of Manchester.

In telling his experience Pellerin said tonight that he prayed before the shrine the greater part of the time from last Monday until yesterday, when suddenly he felt a desire to walk. Placing his crutches aside he walked to the shrine unsupported, and afterward ascended the fifty-six steps of the penitential on his knees. Then he felt stronger, and from the moment he reached the top step he had no difficulty in walking.

He expects to be able to return to his work in the shoe shop next week.

PICKED POCKETS IN COURT.

Light-Fingered Gentry Ply Their Trade in the Lion's Den.

New York, Sept. 17.—Many complaints have been made recently to the justices of special sessions that pickpockets were at work in the audience in that court and the adjacent hallways. The women and others who come provided with substantial bank rolls to pay the \$25, \$50 and \$100 fines have been robbed with persistent frequency.

William Miller, a professional pickpocket, was convicted in that court today of petty larceny. During his trial some of the court squad were tipped off by central detectives that several of Miller's companions were in the court room.

"Get and get them," said Justice Olinde when the tip reached him.

The policemen got five men they targeted in being pickpockets. The justice sent the lot to Magistrate Droeg in the Tombs police court as vagrants. They were all committed to the Tombs in \$1,000 bail for examination later in the day.

Negaunee Department

PALMER STORE AND POSTOFFICE ROBBED

BURGLARS OPEN TWO SAFES AND MINE VAULT, SECURING DIAMOND RINGS AND WATCH CHAIN VALUED AT \$300. POSTAGE STAMPS AND CHECKS LEFT BEHIND.

Smith Bros' general store at Palmer, the postoffice, which is in the same building, and the Pittsburg & Lake Superior Iron company's safes, were burglarized at an early hour yesterday morning. The burglars did not make as large a haul as they doubtless expected. Two diamond rings and a watch chain, valued at nearly \$300, and owned by one of the proprietors of the store, were taken from Smith Bros' safe, and about \$1 in small change left in the cash drawer. From the postoffice safe less than \$1.50 was taken, and the burglars found nothing in the mine vault which they considered of value.

The burglars entered the building through a rear door, which they broke open. The outer doors on the two smaller safes were left open by the proprietors, so that the burglars had little difficulty getting access to them. They broke open the interior doors, also the drawers, which were locked, with tools, and they used some sort of explosive to open the mine vault. In Smith Bros' store safe were a number of stock certificates, also about \$800 worth of mine checks, cashed during the previous day. None of these were stolen, but they were examined by the men to whom they were made payable.

Besides the change taken from the postoffice safe there was about \$300 worth of postage stamps, which were removed from the drawer, but none of them were missing. Practically every drawer in all of the safes was searched, and in the mine vault most of the papers and books were thrown on the floor. There was one drawer that had not been opened for several years, the lock having been rusted. This was pried open with a chisel, but it contained nothing of value. There were a large number of cancelled checks in one of the drawers. These were removed and many of them thrown on the floor.

Paul Honkevara, who has charge of the Pittsburg & Lake Superior Iron company's property at Palmer, and who resides near the store, heard the report of the explosion at the mine vault, but he thought nothing of it, as the blasts at the Empire mine, a short distance from the location, are heard both day and night, particularly about noon and midnight. Another party, whose home is directly opposite the store, heard a rig driven by his place about the same time, so it is believed that the burglars drove into the location just before committing the deed.

Nothing was known of the robbery until yesterday morning, when the Smiths came to the store to open up for business. They found the two safes open and the greater part of their contents scattered about the room. Several tools were also found. None of the tools were similar to those carried by professional burglars, but they had evidently been stolen from some blacksmith shop. Among them was a small sledge hammer, a pair of tongs, irons and bit, chisel, and one or two paper knives. The fact that these tools were used is not positive proof that the robbery was committed by amateurs. On the contrary, the Smith Bros' believe that the burglary was committed by men who are not new in that line of business.

NEED OF CENTRAL STATION.

Chief of Police Wanted to Communicate With Ishpeming Marshal in a Hurry.

When Marshal Gribble was notified of the postoffice and store robbery at Palmer yesterday morning one of the first things he thought of was to ascertain if a carriage had been rented to strangers in either Negaunee or Ishpeming. He had found that one had been rented at any time during the night and had obtained a description of the men renting it he would have had a good lead to work on. After finding that no rig had been sent out by anyone in Negaunee he sought to communicate with Marshal Lehman at Ishpeming, to advise him of the robbery, and to ask that he call on the livermen and others in the city who had horses to rent in an effort to run down the robbers. He knew from past experience that it would be a waste of time to try to reach the Ishpeming chief over the telephone, so he sent a messenger over to see him. This, he thought, would be the quickest way of reaching the Ishpeming officer, but it was fully an hour after the messenger had left the city before the information that Marshal Gribble wished to convey to him had been delivered.

This is only another instance of the need of central police stations in Negaunee and Ishpeming. If the Ishpeming department had headquarters in this town would have been lost in starting the police of that city working on the case. At times when serious offenses are committed the officers in charge of the case have little time to spend in search of officers in other towns to give them information or to ask their aid, as was the case here. While the advisability of establishing headquarters for the police in both cities has been generally discussed by the citizens, as well as members of the council, no steps have yet been taken to make the change. The officers of both cities favor the establishment of a central station, and would like to have the matter given attention.

STARTING WITH GOOD SCORES.

Three Negaunee Bowlers Already Have Records Above the 200 Mark.

Although Orr & Tompkins' alleys only opened for the season Saturday evening the bowlers are averaging as good scores as they did at any time last season. Monday evening three Negaunee men had scores above 200. Fredlund had a score of 202, Sanders 207 and Everett Sporely 205. The scores in the contest between Nos. 1 and 2 teams Saturday evening were much better than the participants expected to make. They were as follows:

No. 1—		Tot.	
Nelson	166 123 156 445		
Tompkins	142 157 141 440		
Carmichael	122 183 136 451		
Sanders	104 155 111 370		
Nightingale	115 104 137 416		
Totals		649 797 681 2122	
No. 2—		Tot.	
Mitchell	175 170 113 458		
Miller	136 176 162 474		
Burglund	133 126 149 408		
William	117 108 145 370		
Kirkpatrick	107 164 183 514		
Totals		728 744 752 2224	

The organizing of league teams will be started at once and it is expected that the first of the series will be pulled off in about three weeks. Manager George Debraun is prepared to bowl a series of contests with any bowler in the county, in fact, with anyone in the upper peninsula, and he said yesterday that a five-men team, representing the Negaunee alleys, will meet any team in this region.

"HUMAN HEARTS" TUESDAY.

Any play that teaches a moral lesson is bound to do good. Some of the greatest sermons ever preached against evil deeds and associations are embodied in "Human Hearts," which will be produced at McDonald's opera house next Tuesday evening. The contrast between virtue and vice is sharply drawn. The author has not mined matters, and as the incidents of the play are based on real occurrences he did not have to draw upon his imagination.

LECTURE ON THOMAS CARLYLE.

The Presbyterian Brotherhood is to conduct a series of lectures at the church during the fall and winter months. The first will be held a week from Friday evening, the 25th, when Rev. A. C. Smith, D. D., will lecture on Thomas Carlyle. The members of the Brotherhood are selling tickets at twenty-five cents, and are meeting with excellent success. Rev. Smith is an eloquent speaker and his lecture will be well worth hearing.

FEW VOTES CAST.

So few votes were cast in the election here yesterday that as returns were made last night by the boards in charge of affairs in the various precincts. No interest was taken in the selection of delegates to the constitutional convention. In the First ward Frank Prose was elected alderman to fill vacancy. He had no opposition.

LOCAL LAONICIS.

C. M. Sullivan of Duluth spent yesterday in Negaunee.

Mrs. F. D. Davis of Escanaba is visiting friends in the city.

The saloons of the city were closed yesterday, it being a legal holiday.

M. T. Murphy's business block, corner of Iron and Tobin streets, is being painted.

"Human Hearts" will hold the boards at McDonald's Opera House Tuesday, Sept. 24.

Business has been lively in Negaunee since Saturday, as a result of the pay days at the mines.

The Cleveland Cliff Iron company is placing a diamond drill in the swamp a short distance east of the street railway power station.

John Shea's closing out sale is attracting larger crowds than did his first sale, a few weeks ago. The store was crowded nearly all Monday, in spite of the disagreeable weather, and yesterday

S.S.S. PURIFIES THE BLOOD

There is no other part of our physical system upon which so much depends as upon the blood. The muscles, nerves, bones, sinews, skin, and other portions of the body are sustained, developed and enabled to perform their different duties, because they are supplied with nourishment and healthy properties through the circulation. In various ways the blood becomes contaminated and polluted. A sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, will leave the refuse and waste matter of the body to sour and form uric acid and other acids, which are absorbed into the blood and Rheumatism, or some itching, disfiguring skin disease is the result. Muddy, sallow complexions, eruptions, blotches, pimples, etc., all show that some humor has taken root in the circulation and rendered it sour and unfit for nourishing the body. There is scarcely any disease which cannot be traced to the blood. Often the disease-tainted blood of parents is handed down to children and their lives are a continual battle against disease in some form, usually of a scrofulous nature. Rheumatism, Catarrh, Skin Diseases, Sores and Ulcers, Contagious Blood Poison, etc., are all deep-seated blood troubles, and until this vital fluid is purified they cannot be cured. For all blood diseases S. S. S. is the best remedy ever put upon the market. This great medicine is made of roots, herbs and barks of recognized blood-purifying and building-up properties. It goes down into the circulation and removes all poisons, impurities and humors, supplies the blood with the healthful properties it needs and completely cures blood diseases of every kind. S. S. S. cures Rheumatism, Catarrh, Scrofula, Skin Diseases, Sores and Ulcers, Contagious Blood Poison, etc., because it purifies the blood. Book on the blood and medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

COOK WITH GAS

morning the crowds assembled early, business remaining good all day. In tomorrow's issue of The Mining Journal, Mr. Shea will present the price at which some of the staple goods are being sold.

A number of Negaunee young people have received invitations to the first of the series of dancing parties to be given tonight by the Royal Dancing club at Braastad's hall, Ishpeming. Dancing will start at 8:30 sharp.

The Jewish merchants will not open their stores today. Abstinence from the day is that of Yom Kippur, the most important in the Jewish calendar, marking the end of the penitential period, which began with the celebration of Rosh Hooshnah, the Jewish New Year.

CHEAPER CUP DEFENDER.

Marled Changes Looked for in Boat Building for Next Year's Races.

Bristol, R. I., Sept. 17.—The announcement that another race for the America's cup will probably be held late next year through the challenge of Sir Thomas Lipton for the fourth time has revived interest in this town regarding yachting matters, and certain recent events and conferences which were not looked upon as having any significance at the time of importance. Nathaniel G. Herreshoff, the designer of the cup defender of the past fourteen years, refused today to comment or even be interviewed upon the anticipated race, but it is known that during the last few weeks he has been in conference with former Commodore E. D. Morgan of the New York Yacht Club, who managed the Columbia in 1901, and also with C. Oliver Iselin, who has charged the Vigilant, Defender and the Columbia in 1890 and the Reliance in 1903. Mr. Iselin was in Bristol last week and was closeted with Mr. Herreshoff for more than an hour, but the nature of this conference has not as yet been disclosed.

From an authoritative source it has been learned that Mr. Herreshoff has completed preliminary designs for a ninety-foot sloop yacht according to the so-called universal rule. It is said that this yacht is an enlarged Avonport, which was built for Robert W. Emmons, 2d, of Boston, and won all the principal races in the cruise of the Eastern Yacht club to Bar Harbor and defeated all her competitors in the most important runs of the New York Yacht club cruise last month, and notably in the race for the Astor cup off Newport. The Avenger is in the fifty-seven-foot class, and is looked upon as an ideal boat, especially in light weather.

The cup defender next year will be considerably different from those of former years. She will have less over all length, a reduced sail area and will not be so deep-in fact, all the extreme features typified notably in the Reliance will be absent. One of the features of the Avenger next year will be the great reduction in cost, not only in construction, but in the management of the boat.

DONOVAN VICTOR IN RECORDERSHIP RACE

AMOUNT OF STRENGTH HE DEVELOPED WAS A SURPRISE EVEN TO HIS OWN SUPPORTERS.

TO CANVASS VOTE THURSDAY

Spencer Takes Second Place, Siegel Third, McCarthy Fourth and Moore Last—Machines Are Endorsed.

At the meeting of the city council to be held Thursday night the vote of yesterday's election will be canvassed and as soon as the official returns are made, and a bond is accepted, Daniel S. Donovan will again be Marquette's recorder.

Donovan Far Ahead. Throughout the campaign conducted by the five candidates for the office, even the best informed were in doubt about the result of the election. The outcome announced last night was a surprise even to Donovan's supporters. At all times his name figured prominently among the probabilities and it was well understood that he had strong backing, but probably no one believed that he would develop the strength that the returns show. He received more votes than were cast for McCarthy, Siegel and Moore combined. Spencer who finished in second place was 162 votes behind Donovan. The vote is given in the following table.

Wards.	McCarthy	Donovan	Spencer	Siegel	Moore
First	25	124	11	17	28
Second	19	131	16	12	34
Third	26	30	13	126	22
Fourth	46	118	61	68	44
Fifth	23	40	44	64	27
Totals	139	449	135	287	155

Vote Is Light. It was believed that almost the entire vote of the city would be out yesterday as the public interest in the race seemed to be high, but only about two thirds of those registered voted. The total vote cast yesterday was only 1,165. Donovan carried the First, Second and Fourth wards. The Third and the Fifth went to Spencer, but Donovan ran fairly well in both of these. McCarthy, who was looked upon by many as Donovan's strongest opponent, was hardly in the race at all, and out of a total vote of 212 in his home ward, he only received 19 votes. Each of the other four wards gave McCarthy more votes than he received in his home ward, but the most he received in any was in the Fourth where forty-six votes were cast for him.

Spencer Weak in First. Spencer ran poorly in the First and Second wards. In the Second, only twelve votes were cast for him and he received but seventeen in the First. Moore, the Union candidate finished last in the race. The largest number of votes cast for him in any one ward was in the Fourth where he received fifty-one. The First ward only gave him eleven votes. Siegel's support was uniformly poor. The largest vote given him was forty-four in the Fourth ward and the smallest was twenty-eight in the First ward. He finished third.

Machines Endorsed. The Abbott voting machines received the endorsement of the public in the election yesterday. But few voters experienced any difficulty in manipulating the machines and the manner of operating them was explained to them with but little delay. The chief value of the machine was demonstrated last night when the result of the election was announced thirty minutes after the polls closed. The vote in the constitutional election was slight throughout the entire district and the three Republican candidates R. C. Flannigan, of Norway, David T. Morgan, of Islipening and Charles H. Watson, of Crystal Falls were elected. No Democratic convention or convention of any other party was held and there were no other candidates in the field.

LEFT CITY FORTY YEARS AGO. Last Wish of Mrs. Hollister That She Be Buried in Marquette.

Mrs. Lorraine Hollister, who left Marquette forty years ago after having lived here for a period of years, was buried yesterday afternoon in the family lot in Park cemetery. The remains were brought to Marquette from Washington, D. C., where she had lived since she left Marquette. Mrs. Hollister was ninety-five years old when she died. Mrs. Hollister is well remembered by the older residents though she had no relatives here. It was according to wishes she expressed before her death that the burial took place in Marquette. Her grave is beside those of her two daughters both of whom died of smallpox here many years ago.

ELKS TAKE NOTICE. All members of Marquette lodge of Elks are requested to meet at the Club Rooms, Opera House block, at 2:30 p. m. today, to attend the funeral and take charge of the remains of our departed brother, Samuel H. Gibson. All visiting Elks are requested to assist in the ceremonies. By order of JAS. J. DONOVAN, Excited Ruler. (9-18-10) D. CRONKRIGHT. You will always find two first-class barbers at the Neater block barber shop. 8-28-11. Let us have some Cudahy's Pheasant Bacon and calves liver for supper Mann's say young and old. (11-27-eod)

WILL BE BURIED HERE.

Samuel H. Gibson Was Former Marquette Resident and Was Wellknown. The funeral of Samuel H. Gibson, a former Marquette resident, who died recently in Toronto, is to take place this afternoon. The remains will arrive on the afternoon train, and the interment will be in Park cemetery. Mr. Gibson was formerly a railroad man and was a conductor on the South Shore. Later he was engaged in the meat business with Anton Mather and besides, he was identified with a number of other interests here. He was a member of the B. P. O. E. and his funeral will be conducted by the order. His death was caused by lung trouble.

MURDER SUSPECT IS CAUGHT IN ASHLAND

SHERIFF BELIEVES MAN HAS CONFESSED CRIME COMMITTED IN MARQUETTE AND WILL WAIVE REQUISITION.

If the prisoner arrested at Ashland, Wis., yesterday and charged with the murder of Wallace Hogan waives requisition, he will be brought to Marquette today. In the following telegraph Sheriff Rough was notified of the capture by the sheriff at Ashland: "Sheriff Rough, Marquette: 'I have captured a man by the name of Charles Worl who killed a man in your city a short time ago. Let me know when you will come.'"

May Have Confessed. Before he left last night Sheriff Rough stated that he had no doubt that the man under arrest is Hogan's murderer, and as he believes that the prisoner has confessed, he did not take anyone with him to identify the man. Marshall Manning returned Monday from a trip to Ashland and vicinity and while there he took pains to notify all the officials of the district to be on the lookout for the murderer. Manning left Marquette for trial at once. If he refuses to come, however, Sheriff Rough's return will be delayed until requisition papers can be presented to the governor of Wisconsin.

May Delay Return. From this farm house he went to Ashland where the arrest was made. If the prisoner has confessed as Sheriff Rough believes, it is probable that he will waive the issuance of requisition papers and will consent to return to Marquette for trial at once. If he refuses to come, however, Sheriff Rough's return will be delayed until requisition papers can be presented to the governor of Wisconsin. The details of the arrest were not communicated to the Marquette authorities. It is believed that the prisoner was in ignorance of the fact that Hogan had died from the wound when he was at Bruce's Crossing and later when he told a Saxon farmer of the cutting adfay.

INLAND WATERWAYS COMMISSION COMING

ARE TO ARRIVE AT THE SOO THIS AFTERNOON AND WILL BE IN MARQUETTE FRIDAY.

The tour of the great lakes by the members of the rivers and harbors committee of congress, started from Buffalo on the steamer Juniata Monday. The commission went first to Cleveland and then to Detroit, short stays of a few hours being made in each place. They left Detroit yesterday and are to proceed directly up the lakes and arrive at the Soo this afternoon about 6 o'clock. Whether they will stay over is not known as yet, but it is believed that they will proceed on with the same steamer.

The Members. The members of the party are: E. F. Archibald of Pennsylvania, and Mrs. Archibald; D. S. Alexander of New York and Mrs. Alexander; George P. Lawrence of Massachusetts; James H. Davidson of Wisconsin, and Mrs. Davidson; Edgar C. Ellis of Missouri, and Mrs. Ellis; S. M. Sparkman of Florida, and Mrs. Sparkman; Joseph E. Ransdell of Louisiana, and Mrs. Ransdell; George F. Burgess of Texas; Benjamin G. Humphries of Mississippi, and Mrs. Humphries, and John A. Moon of Tennessee. A number of the prominent members of the Lake Carriers' association will probably accompany the commission. Committee To Meet. A meeting of business men appointed recently Mayor Robertson to entertain the commission during their stay in Marquette is to take place this afternoon at the city hall. It is believed that their boat will arrive in the city at 9 o'clock Friday morning.

INTERESTING. An event of exceptional interest is the future engagement of the opera house "The Irish Pawnbrokers," a comedy farce in three acts. It is said that the instantaneous hit the piece made has led to the cancellation of many one-night stands which it was booked so as to enable the manager to accept contracts offered in the larger cities. The engagement in this city will be kept, as Manager Koepeke has an iron-clad contract to this effect. Now is the time to order your kindling wood if you want it dry for winter. Call at or phone to 615 Champion St. Bell No. 78. H. J. KEOPP & CO. STOP THE LEAKS. Now is the time. That is our business. The best shingles for the least money. Consolidated Fuel & Lumber Co. Both Phones. (4-27-11)

SOUNDING ALARM OF FIRE, HE BREAKS ARM

CAPTAIN WEST OF PRESQUE ISLE HAS ACCIDENT WHILE ORE STEAMER IS BURNING.

Captain West of the steamer, Presque Isle was among the first to discover the fire which almost caused the destruction of the steamer. Portage early yesterday morning and it was while running to the engine room of the boat to sound the alarm that he tripped on a line across the upper deck of the Presque Isle, and broke his right arm. After the accident he disregarded his injury, made his way aft and ordered that the whistle be sounded. Boats at Dock. The Presque Isle, Peter White and the Portage were lying close together at the L. S. & I. docks when the blaze in the stern upper works of the Portage was discovered. While the Peter White and the Presque Isle were being swung into position to fight the fire, a telephone message was sent to the crew of the harbor tug, Charles Halliday which was tied up for the night at Spear's dock at the foot of Baraga avenue. When the work of fighting the fire was well under way, Captain West was taken to the residence of Dr. F. McD. Harkin on East Michigan street and the broken bone was set. The fracture is between the wrist and elbow and is not of a serious nature. Origin Unknown. The origin of the fire in the Portage is not known. The vessel is a wooden steamer of about 1,800 tons. She arrived Monday afternoon from Ashland where she had delivered a cargo of 1,600 tons of coal. Yesterday she was to have been loaded with pig iron which is now on the L. S. & I. dock. The Portage is commanded by Captain William J. Coyles and is owned by the Portage Transportation company of Toledo, O. During the past summer she ran between Manitowish, Marquette, St. Ignace, Buffalo and Prescott, Ont. The damaged vessel is now tied up at the Spear passenger dock where she is to undergo repairs. A large crowd watched her last night as she was brought in by the tug Halliday. The hull of the boat is not damaged and she suffered no injury below the water line, but the entire stern upper works are destroyed and the deck is caved in. Crew Asleep. The fire started in the starboard coal bunker at midnight. At the time the crew was asleep and before the danger was discovered, the blaze had gained great headway. The watchman was in another part of the boat below deck. Owing to the heavy fog the tug Halliday was somewhat delayed, but she made the run from Spear's dock to the scene of the fire in twenty-six minutes. When she arrived both the Peter White and the Presque Isle were playing streams into the fire which was almost under control. The Halliday added her fire fighting equipment to those of the other two boats and the spread of the blaze was quickly checked. Before it was wholly extinguished, however, there were six feet of water in the hull of the Portage and the streams from the fire hoses were not taken from her until 6 o'clock yesterday morning.

SOO CANAL PASSAGES. Boats Locked Through, Bound for Ports on Lake Superior. Sault Ste. Marie, Mich., Sept. 17.—[Special]—The upbound boats passing the canals the last twenty-four hours were as follows: Paine, Leonard, Hanna, 9:40 p. m.; Goodyear, Degraft, 11: Neilson, midnight; Ball, 12:30 a. m.; Maricopa, Bell, 2; Westcott, Curry, Ames, 2:40; Mataafa, Gary, 4; Pontiac, 4:30; William Mills, G; Wright, 6:30; Bunsen, Mauda, Roman and whaleback 8:30; Maloning, Green, Our Son, Genoa, 9:30; Empire City and whaleback, 10; Hulla, Amazon, 10:40; Rappahannock, Leuty, Bottsford, 11; Midland, Prince, 12:40 p. m.; Duluth, 1:30; Penobscot, Grammer, 5; Argo, 7:30. Marquette Port List. D. S. S. & A. docks: Arrived—Roman, whaleback barge 132. L. S. & I. dock: Arrived—Mack, The Peter White and Presque Isle are loading. Marquette, Mich.

Trade Winning Our Merit!

THIS growing bigger isn't changing our methods. Satisfaction to the fellest or money back. All the little courtesies that helped the business still prevail.

We want your patronage by virtue of merit—the best and most fashionable clothes the price can command anywhere.

As an introductory offer of our own make of clothing, we have selected a comprehensive showing of the new shades of brown, gray and blue made up in stylish sack suits for conservative as well as extreme dressers at a Special Price—\$20.

They are bright new styles just received from our own shop; comparing fabrics they'll stand up with any suit sold in the city for \$25, whilst in workmanship and style they rank second to none, because they are the Rose kind.

This is a special introductory offer.

Schyke-Rose Co., Wholesale Tailor Shop, Br. adway and LaFayette Place, New York.

SUPERIOR LIVERY

We supply outfits for weddings, funerals and all occasions. Promptness our motto.

FIRST NATIONAL BANK of MARQUETTE
United States Depository

A LITTLE SAVING TODAY MEANS A COMPETENCE FOR TO-MORROW—YOU MAY FEEL THAT YOU CAN'T SAVE ANYTHING OUT OF YOUR PRESENT INCOME—

But think a minute—Suppose through sickness or accident your income should be shut off—Isn't it better to strain a point now, than to live up to all you make and take the chance of being forced into complete dependence? This bank pays 3 per cent on savings—You can bank by mail.
