

OIL MONOPOLY STILL IN TEXAS

Shut Out by Legislation, the Standard Appears to Be Operating in the Lone Star State Through Subsidiary Concern.

This Is Indicated from Testimony Adduced at the Hearing in Progress in New York—Trust Stock to the Amount of 257,000 Shares Is Held by J. D. Rockefeller, It Develops, and in the Past Eight Years It Has Netted Him \$125,000,000.

New York, Sept. 19.—The Standard Oil company is operating under the name of the Corsicana Refining company in Texas, which has forbidden the oil combine to operate within the state, was indicated today when Wesley H. Tiford, treasurer of the Standard Oil company, under examination in the government's suit against the company, testified that H. C. Folger and C. M. Payne, whom Frank Kellogg, attorney for the government, states control the Corsicana company, are prominent in the conduct of affairs of the Standard Oil company.

Mr. Kellogg sought to draw from the witness the information that the Corsicana company was really the Standard Oil company and was operating in Texas because the anti-trust laws of that state would not permit the combine to operate there, itself. Mr. Tiford replied that as far as he knew the Standard Oil company had no interests in Texas. He said that Mr. Folger and Mr. Payne were both officers of the Standard Oil company, but he was not aware that they owned the Corsicana company.

How the Trust Operates. Attorney Kellogg developed many questions from the trust agreement of 1882 contained in the bill of complaint filed in St. Louis last December, when the present action was commenced. This trust agreement, entered into by John D. Rockefeller and forty-five other oil interests, provided that Standard Oil companies should be formed in Ohio, New York, Pennsylvania and New Jersey and in other states whenever the trustees deemed that action advisable. All the properties and assets of the embraced corporations and companies were to be turned over to the several Standard Oil companies, which in turn were to issue their own stock in exchange. Under the terms of this trust agreement, all the stock was to be delivered to nine trustees, who were to issue to the depositing stockholders trust certificates equal at par value to the par value of the several Standard Oil companies. The nine trustees, under the original agreement, were John D. Rockefeller, O. H. Payne, William Rockefeller, J. A. Rockefeller, M. Flieger, W. Ward, Charles Pratt, Benjamin Brewster and John Archibald. The trustees had absolute power in the control of the companies.

J. D. Rockefeller's Holdings. Another interesting development was the official statement, made for the first time today, of John D. Rockefeller's personal holdings in the Standard Oil company. It was brought out that Mr. Rockefeller owned 256,824 shares, or more than one-fourth of the total of 972,500 certificates of the Standard Oil company. Based on the earnings of the company as placed on record Tuesday, it is computed that Mr. Rockefeller's personal profits during the past eight years have aggregated almost \$125,000,000. At Tuesday's hearing it was testified that in the years from 1899 to 1906, inclusive, the Standard Oil company had earned a total profit of \$490,315,934.

AMALGAMATED'S POSITION. Should Metal Market Not Improve, Mines May Be Closed Altogether.

New York, Sept. 19.—William Rockefeller presided in the place of Henry H. Rogers yesterday at the meeting of the directors of the Amalgamated Copper company at the company's headquarters, at which it was decided to curtail the production of copper 50 per cent or more with the hope of ending demoralization in the metal industry.

Wall street believes this forebodes a cut in the dividends of all copper producing companies controlled by the Standard Oil men and the placing of Amalgamated Copper stock on a 4 per cent basis. No action was taken on the Anaconda dividend. The directors were in session at 42 Broadway several hours. Upon adjournment this official statement was made:

"The directors of the subsidiary companies of the Amalgamated Copper company have decided to curtail the output of the mines to an amount commensurate with the present copper situation. The curtailment will probably amount to 50 per cent of the present normal output of the mines.

"Today there is practically no copper being sold. If any improvement in the situation should take place in a reasonable time the directors will doubtless decide to increase the output. But, on the other hand, if this improvement does not appear, there will probably be a still further reduction. The curtailment will go into effect at once.

"The amount of the curtailment will be left to the directors of the management of the respective properties. Telegrams have been sent to the managers of the various mines to begin at once the carrying out of this policy.

"The decision will affect the production of the Anaconda, the Washoe, the Boston & Montana, the Butte & Boston, the Parrot, the Trenton, and all of the subsidiary companies."

BERRY DIDN'T SAY IT

M. E. Bishop Repudiates the Statement Criticising Roosevelt for Drinking Liquor.

Milwaukee, Sept. 19.—Bishop Joseph E. Berry of Buffalo, who is in Milwaukee, presiding over the conference of the German Methodist, and who has been quoted throughout the country as criticizing President Roosevelt for partaking of intoxicating liquors in the home of Vice President Fairbanks at Indianapolis, makes an absolute denial that he ever made such a statement while he was in Detroit.

A statement issued by the bishop is, in part, as follows: "Bishop Berry repudiates the interview published this week, in which he is said to have held President Roosevelt responsible for alleged liquor drinking in the vice president's house while visiting in Indianapolis."

H. H. ROGERS HEAVILY INVOLVED. Has Upwards of \$40,000,000 in Virginia Tidewater Railway Project.

New York, Sept. 19.—The report has been current in Wall street for some time that H. H. Rogers, of the Standard Oil company, had been heavily interested in the Tidewater railway project in Virginia, and that he had lost heavily by the investment. The Evening Post says tonight that it can be stated positively that Mr. Rogers incurred a personal obligation in the Tidewater project much in excess of \$40,000,000. The Post also says that the situation has been entirely cleared up.

MAY BE IRON ORE. Mineralized Deposits Found at Minneapolis to Be Investigated.

Minneapolis, Sept. 19.—Hundreds of pockets of what seems to be soft iron ore have just been discovered along Como avenue, in this city. The real estate firm owning the property has asked the mining department of the state university to investigate.

FORTUNE GOES TO POOR. Warsaw, Ind., Sept. 19.—The will of John Greiter, a supposedly poverty-stricken laborer, who died four years ago, was found today. The entire estate, which is large, and consists principally of coal fields, 100 miles east of Pittsburg, is devised to the poor. The lands are leased to the Pennsylvania Railroad company, it is said. The exact value of the estate is not determined.

PARENTS OF CZOLGOSZ DESTITUTE. Cleveland, Ohio, Sept. 19.—The parents of Leon Czolgosz, the assassin of President McKinley, have applied to the charity department of the city for assistance. Czolgosz, the elder, is eighty-three, and his wife seventy-five years old. Investigations sent to the little home at 5716 Hosmer avenue found them in two small rooms. Both are too old to work. There are four children, but they are unable to support their aged parents in addition to their own families.

SOLONS SCORED. JURIST IN PENNSYLVANIA IS CAUSTIC.

Holding the Two-Cent Passenger Fare Law Unconstitutional, He Declares the Act the Caprice of a Legislature.

Harrisburg, Pa., Sept. 19.—The two-cent fare law enacted at the recent session of the Pennsylvania legislature is adjudged invalid, unconstitutional and Tuesday's hearing it was testified that in the years from 1899 to 1906, inclusive, the Standard Oil company had earned a total profit of \$490,315,934.

The court says that the act is the caprice of a legislature, "many of whose members, without rhyme or reason, facts or figures, information or reputation were pledged to perform the act in the name of reform." We might say by Madame Roland de la Platiere (Maman Jeanne Philon, guillotined at Paris, Nov. 8, 1793) in the days of the French revolution, "I have been guilty of many crimes are committed in my name."

STRIKE WAVING IN THE EAST. Western Union Withdraws the Reservation of "Subject to Delay."

New York, Sept. 19.—Superintendent Brooks, of the Eastern division of the Western Union Telegraph company, issued instructions today withdrawing the reservation "subject to delay" placed upon messages during the strike. The withdrawal extends to the territory east of Buffalo and Pittsburg and north of Washington, and includes the entire East up to and including Nova Scotia.

Conflicting reports regarding the possibility of an early settlement of the strike are current tonight. From one unofficial source it is given out that direct negotiations have been opened with President Roosevelt seeking aid to bring about arbitration. According to this authority, Percy Thomas, deputy vice president of the national union, and Daniel L. Russell, former president of the New York local, had a two hours talk with the president at the latter's home in Oyster Bay on Wednesday last. This report could not be confirmed.

Washington, Sept. 19.—Thomas L. Mahan and Athens E. Douglas, both of New York, representing the organization of telegraph operators, called on Commissioner of Labor Neill today and urged the intervention of the telegraph strike. Subsequently they stated that Mr. Neill would next Monday propose certain arbitrators on behalf of the operators.

WILL KNOW FATE BEFORE SUNDAY

Trial of Frank J. Constantine, Charged With the Murder of Mrs. Arthur Gentry at Chicago, Reaches Its Final Stage.

State's Claim That Prisoner Killed the Woman Because of Fear She Would Expose His Sham Life to the Girl to Whom He Had Transferred His Affections Is Combated by the Defense, Which Holds the Crime a Suicide Due to Jealousy.

Chicago, Sept. 19.—The state concluded the presentation this afternoon of its case against Frank J. Constantine, accused of the murder of Mrs. Arthur W. Gentry, Jan. 5, 1906, and the defense opened. Two witnesses were called before court adjourned. Their evidence was of minor importance. Constantine will take the stand in his own behalf tomorrow, and it is expected that all the testimony in the case will have been presented by noon.

Rival Contentions Advanced. Constantine's infatuation for Miss Hilda H. Nattelly, cashier of a restaurant, and that Mrs. Gentry would spoil what little chance he had of winning the girl, loomed up today as the real crux of the trial. Assistant State's Attorney R. H. Holt developed this theory—that it was fear that Mrs. Gentry was leaving the flat to carry out her threat of exposing Constantine's sham life, he having posed as a rich man's son to Miss Nattelly, that led to the fatal murder of Mrs. Gentry.

Fifteen witnesses were examined today. Now, since the defense has opened its case, it is likely that Constantine will know his fate before Sunday. Miss Nattelly, whom the defense claims to have been the cause of what it says was Mrs. Gentry's suicide, through jealousy of the attentions paid to her by Constantine, was on the stand today. She denied that Constantine ever spoke to her of love affairs, and said he was merely an acquaintance.

Alienist Declares Campbell Sane. In the trial of Amasa C. Campbell, the Ango (Wis.) lumberman, charged with the murder of Dr. Benjamin F. Harris, which trial is also in progress in Chicago, Dr. Julius Ginker, an alienist expert, was called by the state as a rebuttal witness today. He gave it as his opinion that Campbell was not insane, and insisted that Campbell was not mad and never had been.

TOKIO WITHHOLDS DETAILS. Recent Disastrous Explosion on Battleship Veiled in Secrecy.

Washington, Sept. 19.—Following its usual policy of clothing serious accidents which might expose weaknesses of its military or naval establishments to the world with secrecy, the Japanese government has not made public any details of the turret explosion on the battleship Kashiha, beyond the fact that thirty-one men were killed and eleven wounded. If the explosion was of the ordinary sort, or a mere "flareback" that fact might be officially announced.

The Japanese shells are charged with that remarkably high explosive known as shimonite, which is akin to the English lyddite, and naval officers here say that this is a more or less unstable compound and likely to deteriorate in time so as to become self-explosive. This theory would account for the accident on the Kashiha, if there was an explosion below the turret.

The special board appointed to discuss means of reducing the chances of accidents in the turrets of warships completed its work today, and tomorrow will report to Secretary of the Navy Metcalf, who has taken it under consideration before making any portion public.

CALLS IT NO MAN'S LAND. Why Japan Has Seized Small Island Near the Philippines.

Victoria, B. C., Sept. 19.—Japan claims the right to occupy Pratas island, which it recently took possession of, on the ground that, as it lies between the twentieth and twenty-first parallels, it is no man's land. A Japanese paper, just received, says: "When Japan took possession of Formosa she extended her dominion to the twenty-first parallel of latitude, and when America took possession of the Philippines she extended her dominion to the twentieth parallel. Thus the space between the twentieth and the twenty-first parallels becomes no man's land, and the island of Pratas is in north latitude 20°45'.

KING'S ACTION SCANDALOUS. Fearful of Congo Exploit, Leopold Opposes Arbitration Plan.

The Hague, Sept. 19.—The decision to oppose obligatory arbitration by the Belgian government is attributed to the command of King Leopold, who is fearful that his claims in the Congo might be affected in the event of the adoption of the proposal. The king, it is added, has been unable to induce M. Beaumont, head of the Belgian delegation, to vote against his lifelong convictions, and is said to have conceived the plan of leaving the representation of Belgium on this subject solely in the hands of the other Belgian delegates, Baron Guillaume and M. Van den Heuvel,

both of whom are against compulsory arbitration. The king's action in this connection is here as being in the nature of a scandal.

Washington, Sept. 19.—Mr. Choate, one of the American delegates to the Hague conference, called the state department today that from present indications the conference will adjourn sine die Oct. 3 next.

CREW ESCAPES IN BOATS. Steamer Majestic Is Destroyed by Fire in Lake Erie.

Buffalo, Sept. 19.—The steamer Majestic burned fully this morning in Lake Erie, about seventy-five miles west of Buffalo. The crew all escaped safely in boats and were brought here this afternoon by the steamer Tower.

CELL FOR CARRIE NATION. Refusing to Be Good in Washington, She Goes to the Workhouse for 75 Days.

Washington, Sept. 19.—In police court today, Mrs. Carrie Nation of Kansas refused to promise not to talk to crowds on the street in the future, and was sent to the workhouse for seventy-five days in default of the payment of a fine of \$25.

WILL COST \$10,000,000. Russia to Build New Defense Works at Vladivostok and Vicinity.

St. Petersburg, Sept. 19.—A dispatch to the Bourse Gazette from Vladivostok states that defense works costing \$19,000,000 are to be undertaken at that vicinity. The sum covers further fortifications of Vladivostok, improvements to the naval port at Nikolayevsk, on the Amur river, near its mouth, and the construction of immense barracks at Khabarovsk, the junction of the Amur and Ussuri rivers.

BASEBALL

STANDINGS OF THE CLUBS.

Table showing National League and American League standings with columns for W., L., P.C., and R.H.E.

SCHEDULES FOR TODAY. National League. Brooklyn at Pittsburgh. New York at Cincinnati. Boston at Chicago. Philadelphia at St. Louis.

AMERICAN LEAGUE. Chicago at Washington. St. Louis at Philadelphia. Detroit at New York. Cleveland at Boston.

GAMES PLAYED YESTERDAY. National League. Brooklyn 3, Pittsburgh 7. Pittsburgh 4, Boston 13. Batteries: McIntyre, Bell and Bergen; Camnitz, Liefeld and Gibson.

AMERICAN LEAGUE. Cleveland 6, St. Louis 2. Cincinnati 6, Boston 8. Batteries: Frasier and Moran; Cookley and McLean.

HAUNTED BY GHOST. Home of Luetger, Chicago Murderer, Is Sold and Removed.

Chicago, Sept. 18.—Haunted by the gruesome memories of wife murder, the home of Adolph Luetger, scene of one of the greatest murder mysteries of Chicago, has been sold. The building, which formerly stood at 207 Hermestry avenue, in rear of the factory where Luetger is said to have disposed of the remains of his murdered wife in the sausage making vats, has been moved to Diversey boulevard, near Paulina street, by August Blain, its purchaser. A new coat of paint and a thorough renovation is believed to have so changed it that not even the ghost of Mrs. Luetger, which once was said to haunt it, will know it again. For years after the tenant was vacated, and when months appeared they remained only a short time. Even after Luetger died at Joliet penitentiary no one could be found who wanted to live in his house. The factory itself was partly destroyed by fire. It is now used as a wood-working plant.

PAY DAYS CHANGED; STRIKE ON. Indiana Glass Plant Faces Permanent Shut-Down for Trivial Cause.

Alexandria, Ind., Sept. 19.—Because they were displeased with the pay days set by the company, 500 employes of the Penn-American Plate Glass company have walked out. Last week the company did not pay its men, and announced that pay, after that time, would be forthcoming on the 10th and 25th of each month. Previously the company had been paying every other Saturday, and the new scheme displeased the men. The officials of the company say they will close down and make an attempt to work the plant.

ADVOCATES DEATH FOR CRIMINALS

When Prison Fails to Reform, Gallows Should Be Resorted to by Courts, Declares Attorney General Bonaparte.

With Protection of the Innocent the Primary Purpose, Says the Head of the Federal Department of Justice, Speaking at Chicago, Hanging Is Demanded as the Safest Method of Dealing With Habitual Offenders Against Society.

Chicago, Sept. 19.—Charles J. Bonaparte, attorney general of the United States, declares that habitual criminals should be hanged. This strong statement was made before the Prison Wardens' National association. He asserted that while modern civilization had developed this class of criminal society should cease to nourish and shelter its members. The attorney general defined the relations of society to the criminal, the abuse and of the pardon system, and laid great stress on obedience to the law. He held that obedience to the law was the primary purpose of punishment, and that its effect upon the actual criminal was not to be regarded so much as its whole-some effect on society as a whole.

Law Must Be Obeyed. "The primary purpose of punishment," said the attorney general, "is to assure obedience to the law. When inflicting punishment the state looks not to the past, but to the future; not to the individual who has disobeyed and now suffers, but to all the individuals in like case with him who may hereafter fear to disobey by reason of his suffering. The welfare of society depends not on what happens to these convicted of crime, but on what happens, as the result of their conviction and chastisement, to its innocent members. If punishment diminishes crime and makes obedience to the law more prompt and general, then it is a good thing; its effects on the lawbreaker, while worthy of note, are of vastly less account."

"Nevertheless it is true that punishment fails if the criminal remains dangerous to society after he has suffered it as he was before. While the chastisement of each particular offender looks to the betterment, or at least the diminished harmfulness, of all possible wrongdoers, still, as he is himself one of them, and that one directly affected by the penalty, its effect upon him must have due weight in considering its merits."

Protection of Society Demanded. "We have developed a class of men, few, doubtless, in proportion to the aggregate population, but, nevertheless, far too many for our credit or our safety, who pass a very large part of their adult years in one after another prison, using their intervals of liberty only to devise and perpetrate new crimes, and their periods of confinement only to debauch their fellow prisoners and to perfect their own education in devilry. The 'habitual criminal,' it must be remembered, is a product of modern civilization. Our ancestors would have hanged every one who was guilty of any crime, if he had not escaped this fate he would have almost surely died of some of the maladies then epidemic in prisons while awaiting trial for the second. I would not have men hanged today for a trifling theft, but I would have modern so-called criminals hanged and sheltered in prison and in the intervals of their liberty only to devise and perpetrate new crimes, and their periods of confinement only to debauch their fellow prisoners and to perfect their own education in devilry."

"An attempt to commit a capital crime ought to be made itself capital, when this should seem proper to the trial judge, and also when a man has been already thrice convicted of major crimes, upon his conviction for the fourth time, the judge should be obliged to hang him, again in the discretion of the court, to the death penalty."

Abuses of Pardon System. "The power of pardon exists and can be rightly exercised only for the public benefit. The wishes and interests of the culprit or of his family, or of his friends are altogether immaterial, except in so far as these individuals may constitute an infinitesimal fraction of the public affected. The personal sympathies and inclinations of the officer discharging this duty are entitled to no consideration whatever; he is not giving his own debtor, one who has trespassed against him, but a public debt, whose happiness of the whole community."

OLD CUSTOM REVIVED. Indiana Boy Is Bonded to Labor on Farm Nine Years.

South Bend, Ind., Sept. 19.—The old idea of apprenticeship, long ago discarded, has been revived in Elkhart county, Ind. A twelve-year-old boy, named Long, passed a mental examination which demonstrated that he possessed a common school education and a fair degree of intelligence, while the physical examination which the applicant underwent is as rigid as a life insurance test.

"It is a political influence to keep under-serving men upon the force, and is the proof of wrong-doing results in instant dismissal, the police department is singularly free from scandal and does its work in a quiet and effective manner. The conditions which prevail in other cities do not and cannot exist in the national capital."

Commissioner West also presented an interesting resume of the powers of the

CAR JUMPS TRACK

Two Persons Killed and Many Injured in Trolley Car Wreck Near Toledo.

Toledo, O., Sept. 19.—Limited car No. 146 on the Lake Shore Electric line jumped the track four miles east of the city today, killing two persons and injuring several others. Frank C. Barnes, conductor, met instant death and Motor-man Sam Jones was badly injured. Amos Alerka, a barber, living at Fremont, also was killed. He leaves a wife and several children. Most of the forty-three passengers sustained painful cuts and bruises. It is expected that a number of the seriously injured will die.

SMOKE Baffles Rescuers. Three Men Entombed in Malta Mine Believed to Be Dead.

Sparta, Minn., Sept. 19.—Captain Thomas Nichols and Oscar Skoglund were lowered into the shaft of the burning Malta mine last night to rescue the three men entombed there. Before they reached the bottom they were made unconscious by smoke and were drawn to the surface. Air is constantly being forced down the shaft, but it is feared the entombed men are dead.

WOMAN FOUND BY INDIANS. Member of Congressman Longworth's Party Has Thrilling Experience.

Grand Canyon, Ariz., Sept. 19.—Mrs. Frank Joy, wife of Frank Joy of St. Louis and a member of Congressman Nicholas Longworth's party, today fell into the woods here yesterday and, becoming confused regarding direction, wandered away about ten miles. The power plant whistle was sounded, and a searching party of native Indians was started out. Mrs. Joy was found in Long Jim canyon about 9 o'clock in the evening, somewhat fatigued and badly frightened.

IN ITS FINAL RESTING PLACE. Body of McKinley Removed to the Mausoleum on Monument Hill.

Canton, Sept. 19.—This afternoon the body of the late President McKinley, guarded by a detail of United States soldiers, was taken from the grave in Weston cemetery to the mausoleum on Monument hill. The casket was placed in the sarcophagus besides the casket containing the body of Mrs. McKinley, which was removed from the vault Wednesday. The body of President McKinley was placed in the vault just six years ago today.

FOUR HUSBANDS DIE VIOLENTLY. Steeling, Ills., Sept. 19.—Fate seems to be pursuing Mrs. Fred Smith of this place, whose fourth husband, a railroad man, was killed yesterday beneath the wheels of an engine. Smith was the woman's fourth husband. Mrs. Smith's first husband was drowned at sea several years ago. Her next husband ended his own life by hanging. Husband No. 3 was killed by a train. Yesterday's accident marks the fourth strange freak of fate.

HAS NO PARALLEL. GOVERNMENT OF WASHINGTON, D. C., UNIQUE.

Citizens Do Not Vote for Anybody or Anything Despite Popular Suffrage Is Basic Principle of Nation.

Norfolk, Va., Sept. 19.—Commissioner Henry L. West, of the District of Columbia, presented an account of the system under which the District of Columbia is governed before the annual convention of the League of American Municipalities here today.

"The government of the national capital is unique," said Commissioner West. "It has no parallel in the world. It is especially anomalous in that the citizens have no vote in the election of its government. The speaker rapidly sketched the various forms of government which had been in vogue in the District of Columbia, including a mayor, common council, governor and territorial legislature until about thirty years ago when congress enacted a law providing that the District of Columbia should be governed by three commissioners two of whom are civilians and the third an officer of the engineer corps of the army. These commissioners are appointed by the president of the United States and confirmed by the United States senate, and they in turn appoint the heads of the various municipal departments, the mayor and superintendent of police, chief of the fire department, health officer, superintendent of the street cleaning department, etc. The non-political character of these appointments was emphasized by Commissioner West who asserted that it was always the effort of the commissioners to secure the best men for the respective positions. He detailed the method of appointing in the police force showing that it was impossible for anyone to secure a position as a policeman unless he passed a mental examination which demonstrated that he possessed a common school education and a fair degree of intelligence, while the physical examination which the applicant underwent is as rigid as a life insurance test."

"It is a political influence to keep under-serving men upon the force, and is the proof of wrong-doing results in instant dismissal, the police department is singularly free from scandal and does its work in a quiet and effective manner. The conditions which prevail in other cities do not and cannot exist in the national capital."

Commissioner West also presented an interesting resume of the powers of the

SETTLER DIETZ WINS LONG FIGHT

Warfare About the Now Famous Cameron (Wis.) Dam Is Finally Ended After Having Been Waged Since April, 1904.

MET HORRIBLE FATE. Boston, Mass., Sept. 19.—Buried beneath an avalanche of corn screenings, when the firebrakers bottom of the hard-caked mass gave way, James P. Stewart, aged sixty-three, a fireman, and Michael Nolan, twenty-one, a laborer, were smothered to death in the Mystic grain elevator in Charlestown.

Working for twenty minutes like men possessed, the companions of the two men dug into the siftings, only to find both dead, crouched in a kneeling position, one on top of the other, at the bottom of the sixty-foot bin. From testimony of employees of the elevator it appears that Stewart and Nolan were standing on the brink of the bin, armed with forty-foot steel bars, with which they were endeavoring to dislodge the fillings which were caked across the top of the bin so hard that walking appeared perfectly safe.

"Come on Nolan," called out Stewart to his assistant, as he walked out on the screenings. The former demurred, but finally consented. Scarcely had the two men stepped on the surface when the entire mass gave way and precipitated them to the bottom of the bin. Stewart's disappearance that no outcry was heard. The dimensions of this bin were 7x12x60 feet.

Fifteen feet from the bottom of the bin, which space the men believed to have been filled with grain, the bottom. The top mass, once started, sucked the two men down in the vortex. Old employees of the yard do not recall a time when a similar accident has ever happened at the elevator.

A son of Foreman Stewart, who lived on Highland avenue, Sayville, was killed by machinery at the old elevator two years ago.

district commissioners showing that they have given attention to the matter to meet laws effecting every phase of police administration, sanitary protection and other features of municipal supervision and said that the latitude of the authority of the commissioners was only limited by the question whether the ordinances enacted by them were usual and reasonable.

In discussing the finances of the district, Commissioner West stated that the expenses of the District of Columbia were borne partly by the taxpayers and half by the United States government. The amount collected from all sources of local revenue aggregated about five and one-half millions and Mr. West said that the fidelity with which the revenues are collected is shown by the fact that out of the three and one-half millions annually due as a tax upon real estate, less than five thousand dollars remains unpaid. He said it was doubtful whether any other municipality in the country could make a more creditable showing.

"The government of the District of Columbia," he said in conclusion, "is free from official dishonesty; it responds readily to public sentiment and pursues the even tenor of its way without the turmoil of politics. Under its operation, the national capital has become the mecca of large numbers of wealthy individuals who have accumulated fortunes elsewhere and can enjoy the fruits of their labors amid a cosmopolitan society with cleanly surroundings and free from the disturbances of local politics. The commissioners, unembarrassed by considerations which are potent elsewhere, can devote their time to the betterment of the city; and that this is the case is shown by the activity exhibited in matters relating to social improvement. There is an earnest endeavor to keep pace in the evolution of municipal administration, with the work done by congress toward the physical improvement of the citizens of the District of Columbia, as well as of the nation, is to develop Washington into a model city, and that this goal will ultimately be reached is no longer a matter of doubt."

Detroit, Sept. 19.—Kalamazoo will on Sept. 25 be turned over to the control of the women of the city, and they will devote the twelve hours from 8 a. m. and 6 p. m. to collecting several thousand dollars, which will be given to a hospital. One of the features will be in connection with the street car system. All cars will be driven by the women and in charge of women conductors.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The light on the profits on oil is very well, but owners of automobiles would like to have a little light shed on the profits on gasoline.

The copper situation, to be sure, is getting no better, but some people can find satisfaction in the thought that it is rapidly getting about as bad as it can be.

There will be a militant minority of Democrats in the constitutional convention. It may not be very influential, but it is safe to predict that it will be very noisy.

Stories have been abroad that there will be no special session of the legislature after all. "Nonsense," is the manner in which Governor Warner characterizes them.

What? A difference between the mayor and street commissioner. How distressing. Doesn't his honor know that the street commissioner is the center of our municipal universe?

Chicago, not discouraged, will at once make another move for a new charter dress. By noting the lessons to be drawn from the election this week it is hoped to frame a charter that can be adopted.

Governor Warner will enumerate only one or two things in his call for the special session of the legislature.

A robbery almost identical in its details with the one at Palmer is reported to have been committed at Falthorn, Menominee county, Sunday night.

Homeowner Dietz, of Cameron Dam, Wis., is finally at peace with the lumber interests he has been fighting the past few years.

Henry Clews, the veteran banker, believes that the \$29,000,000 fine against the Standard Oil company did incalculable mischief in unsettling business conditions in the country.

By Terrible Itching Eczema—Face and Head a Solid Sore—Spread to His Hand and Legs—Would Scratch Until He Bled—Tiny Sufferer Immediately Relieved and ENTIRELY CURED IN 2 MONTHS BY CUTICURA

and the haste with which they would choose the latter would bear Mr. Clews out. It is not enough to fine wealthy wrongdoers.

The Canal Record would seem to show that the canal zone is not a bad place to live in. Prices for foodstuffs are not high, in most instances being as reasonable as prices in the states, and there seems to be an infinite variety offered the canal employees.

WHERE THE BLAME RESTS. Congressman George L. Lilley, member of the house committee on navy affairs, has brought himself into the limelight by an open letter written in defense of his opposition to an appropriation for the Charleston navy yards.

AFTER CAPITOL GRAFTERS. The press dispatches yesterday indicated that the day of reckoning for a large number of the Pennsylvania state capital grafters is drawing near.

By Terrible Itching Eczema—Face and Head a Solid Sore—Spread to His Hand and Legs—Would Scratch Until He Bled—Tiny Sufferer Immediately Relieved and ENTIRELY CURED IN 2 MONTHS BY CUTICURA

"When my son Walter was three weeks old, eczema appeared on his face. We did not know what it was so went to a doctor who treated him for three months. Then he was so bad that his face and head were nothing but one sore and his ears looked as if they were going to fall off, so we tried another doctor. He said he could cure him and we doctored there four months, the baby never getting any better.

was milked by the capitol grafters is now pretty well known. It has been the subject not only of much newspaper writing but of carefully considered magazine articles.

It is inconceivable how the grafters dared have worked so brazenly. How they expected to avoid the day of reckoning when their work was so daring it is hard to understand.

WHERE THE BLAME RESTS. Congressman George L. Lilley, member of the house committee on navy affairs, has brought himself into the limelight by an open letter written in defense of his opposition to an appropriation for the Charleston navy yards.

AFTER CAPITOL GRAFTERS. The press dispatches yesterday indicated that the day of reckoning for a large number of the Pennsylvania state capital grafters is drawing near.

By Terrible Itching Eczema—Face and Head a Solid Sore—Spread to His Hand and Legs—Would Scratch Until He Bled—Tiny Sufferer Immediately Relieved and ENTIRELY CURED IN 2 MONTHS BY CUTICURA

"When my son Walter was three weeks old, eczema appeared on his face. We did not know what it was so went to a doctor who treated him for three months. Then he was so bad that his face and head were nothing but one sore and his ears looked as if they were going to fall off, so we tried another doctor. He said he could cure him and we doctored there four months, the baby never getting any better.

ENTIRELY CURED IN 2 MONTHS BY CUTICURA

MARINES RAID PAWN SHOP.

Under Direction of Officers They Seize Government Property at Boston.

Boston, Mass., Sept. 19.—A party of United States marines, in charge of Lieutenant Emil P. Moses, U. S. M. C., from the marine barracks at the Charlestown navy yard made a raid on the shop of Wolf Moskowitz, 6 Salem street, and seized clothing worth from \$300 to \$700.

While so far the authorities have refused to say anything about the cause of the raid, it is understood to be very similar to one which took place some two years ago.

WHERE THE BLAME RESTS. Congressman George L. Lilley, member of the house committee on navy affairs, has brought himself into the limelight by an open letter written in defense of his opposition to an appropriation for the Charleston navy yards.

Copper Country

VALE, "COONEY" SHIELDS.

Great Hockey Player Has Retired Definitely From the Ice.

William "Cooney" Shields, manager last season of the Calumet hockey team and one of the most picturesque figures in the game, advised the Mining Journal that he will not play hockey this winter. He is through with the game. "Cooney" has been taking on weight in the last two or three years, and he is not the projectile that he once was. He has been playing a defense position for the past two years.

Shields came to the copper country with the Pittsburg seven the first year that hockey was played here. He appeared with Pittsburg for two seasons, and then the Portage Lakes got him. Three years ago he was released by Houghton because his weight was slowing him up and Calumet grabbed him gladly. He has since worn the grey and red, last year as manager. Shields has only one eye, but that has never made any difference with his playing. He will be a loss to the game. He has married since coming to the copper country, and is now connected with the dock department of Ross & Lieblein. He has settled down for good.

What the personnel of the American Soo hockey team will be when everything is in readiness for the first clash of the season is a question which is being freely propounded, says the Soo News. It is generally known that there will be quite a shift in the lineup this year and several new men will have to be secured. With Lavolette and Petrie out for certain two vacancies remain to be filled. How many of the old men will again be seen in the American Soo uniform cannot be exactly told as yet, but from the present outlook, "Pud" Hamilton and "Chief" Jones are about the only men who are reasonably sure of being on the team again. Sweitzer is uncertain.

CHEMMAR CONVICTED.

Old Molder Found Guilty of Manslaughter by Circuit Court Jury.

The jury in the Chemmar case, tried in the Houghton county circuit court, found the man guilty of manslaughter. It brought in the verdict about midnight Wednesday, after two hours of deliberation. Chemmar was charged with murder, and the verdict makes him liable to punishment for a much lesser crime.

The case of Albert Wanio opened yesterday. He is charged with assault with intent to murder. Wanio ran a knife into a man named Hakkenen at Beacon Hill early in the summer, and nearly finished the deed. It was the result of a drunken quarrel.

DID NOT MOVE THE POLES.

Telephone Company and City Both Failed to Act Yesterday.

The Michigan State Telephone company did not remove the much talked of poles in Hancock yesterday morning. The council had ordered the company to shift the poles by that time or to accept the alternative of having Street Commissioner Lee do it up to the early afternoon neither party had acted.

William E. Thompson of Detroit, attorney for the telephone company, who was here a few days ago in this connection, got back yesterday and started to convince the council again. The situation was simply this yesterday afternoon: The council had ordered the company to do something. The company had flatly refused. The council was lacking something because it did not enforce the execution of its own orders.

ONTONAGON RIVER PLANS.

Government May Divert Stream as Aid to Navigation.

A preliminary report has been made by Major Fitch regarding the Ontonagon river, with a view to ascertaining whether changing the course of the river would do away with the necessity of dredging its mouth every year. So much silt is annually deposited by the river at its mouth that considerable dredging is necessary before even vessels of light draft can enter the harbor. A remedy for this may be sought by diverting the course of the river. The board of engineers at Washington in charge of the rivers and harbors of the country has made several examinations regarding the matter. If any person or firm is interested they may file opinions or suggestions in writing, within ninety days, with the board at its office in Washington, 507-509 Colorado building.

CONGRESSMEN'S VISIT.

Rivers and Harbors Committee in Houghton This Evening.

The members of the rivers and harbors committee who are touring the lakes will arrive in Houghton in the steamer Junata at 4:30 o'clock this afternoon, and during the stay of the vessel in Portage lake will be the guests of the people of Houghton. R. B. Lang, W. D. Calverley and Judge N. W. Haire went to Washington in the Junata yesterday to meet the party.

Arriving at Houghton the congressmen and their ladies will be met by a reception committee. The party will be taken by automobile down Shelden street and out College avenue through the residence district to the College of Mines. Here the visitors will be taken through the institution by President McNair. From the mining school the party will be driven to Calumet by way of Lake Linden, and stops will be made at various points of interest along the route. From Calumet the party will return to Houghton, to the Douglas House, where light refreshments will be served. It is expected that the program as outlined will occupy all the time of the visitors. Many favors will be given the guests.

CONFERENCE APPOINTMENTS.

M. E. Ministers of the Houghton District Are Assigned.

A number of the copper country Methodist ministers arrived home yesterday from the conference meeting held at Detroit, and it was learned to just which churches the pastors in this district had been assigned. The appointments are as follows:

Atlantic Mine—J. J. Strike.
Baltic—W. J. Harper.
Bessemer—W. G. Prout.
Centennial—E. Bickford.
Grace, Houghton—W. R. Fruit.
Calumet—First, E. Sedwick; Tamara, J. H. Cane.
Champion and Michigamme—C. L. Adams, Ishpeming.
Crystal Falls—V. Hoard.
Dollar Bay and Mills—C. M. Merrill.
Greenland and Mass City—D. H. Keyes.
Hancock—First, W. J. Balmer; Pewanah, M. H. Eldred.
Haroutown—H. Rogers.
Iron Mountain—Central, J. M. Shank, formerly of St. Ignace; First church, W. Roberts of Tenary, Alger county.
Iron River—W. H. Colliott.
Ironwood—Finnish mission, L. J. Helburg; First, L. Wilson; Jesseville, R. H. Kreuss.
Lansing—Finnish mission, K. A. Nurmi; First, C. L. Adams; National Mine, S. Waters.
Lake Linden—H. C. Shaw.
L'Anse—H. H. Aldrich.
Laurium—W. E. Marvin.
Marquette—Finnish mission, W. Rauhala; First, A. J. Brewster.
Menawk—M. Magahay, formerly of Republic.
Negaunee—W. H. Coombe.
Ontonagon—E. Brown.
Boston—A. E. Baley.
Eatonville—L. H. Henson.
Princeton—R. Hancock, formerly of Ironwood.
Republic—R. E. Miller.
Rockland—J. W. Miteheff.
Salmaw—S. Hoeking.
Frimountain—R. Carlson.

MISS ADELAIDE NICHOLS

regular period of its terrors. Women who are troubled with painful or irregular functions should take immediate action to ward off the serious consequences and be restored to health and strength by taking

Lydia E. Pinkham's Vegetable Compound

Miss Adelaide Nichols of 324 West 22nd Street, New York City, writes: "Dear Mrs. Pinkham: 'If women who suffer from their troubles could be quickly alleviated, I feel greatly indebted for the relief and health which has been brought to me by your inestimable remedy.' Lydia E. Pinkham's Vegetable Compound cures Female Complaints such as Falling and Displacements, and Organic Diseases, Headache, General Debility, Indigestion, and Irritates the Various Organs of the Body. For the derangements of the Kidneys of either sex Lydia E. Pinkham's Vegetable Compound is excellent. Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

COPPERDOM BREVITIES.

Miss Gertrude Wilson of Detroit is visiting friends in Calumet.

James P. Edwards of Houghton has returned from an extended Western trip.

T. H. Lang, the Standard Oil man, from Duluth, is visiting the copper country.

The funeral of the late Mrs. J. H. Minnow of Ripley was held yesterday afternoon.

Ben C. Hughes of Detroit, representing the Michigan Catholic, is making one of his occasional visits to the copper country.

C. A. Wright, president of the Keweenaw Central railroad, left for New York on Wednesday.

A large number of copper country students left yesterday for various institutions of learning in the East.

The Houghton public library at the Central school will open tomorrow with Miss Nellie Olanoff in charge. There are a great many new books in the library.

Announcement is made of the prospective pupils of Dr. Andy Roche of Wolverine and Mrs. Jennie Hosking of the same place.

John D. Cuddihy has returned to Calumet from Winnipeg where he attended the obsequies of the A. C. C. baseball league. Mr. Cuddihy says that he has had all the experience he wants as a baseball leader.

The first annual ball of the Houghton typographical union will be given in the Amphitheatre the night of Oct. 4. It is to be a big affair. The posters which have been put out are equalled only by those of the nearly identical local guarantee to make good every claim. It is expected that a social tuxer will be the result when the identity of the leader of the grand march is made known.

ONTONAGON MINES.

The product of the Victoria mine for August was eighty-five tons of mineral and considering that the mill was out of commission for several days this is a most satisfactory return. It is but one ton less than for the preceding month and averages well with the output so far this year. Eventually Victoria will produce considerably more copper. The mill is now in shape for treating more rock and upon the installation of the new tramming system, the trouble experienced in tramming will be largely overcome. The property is being systematically explored by the means of crosscuts at a depth which will give a fair conception of the value of the property. It is practically certain that the Baltic will be tapped. Of course, there is no telling as to how well it will be mineralized. If it should be found as good as some of the properties lying to the northeast, Victoria will have a bonanza, as by the use of its hydraulic power plant it has got any of the other copper country properties skinned in economy in mining and milling.—Ontonagon Herald.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but it will cure kidney, liver or bladder trouble if it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular price is fifty cents and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

PERIODS OF PAIN

While no woman is entirely free from periodic suffering, it does not seem to be the plan of nature that women should suffer so severely. Irregular and painful periods are evidence that something is wrong which should be set right or it will lead to serious derangement of the feminine organism.

Thousands of women, who only suffer from their troubles when they are suffering by taking Lydia E. Pinkham's Vegetable Compound, which is made from native roots and herbs, as it is the most thorough female regulator known to medical science. The condition which causes so much discomfort and robs women of their health and strength by taking Lydia E. Pinkham's Vegetable Compound.

MUNISING MARSHAL ASSAILED.

Lively Skirmish in Consequence of Mistaken Identity.

About 11 o'clock Tuesday night there was a lively scene on the corner of Superior street and Elm avenue. City Marshal William Myrick and Hugh and Edward Costlow were the principal actors. The marshal found it necessary to use his revolver and fired two shots, neither, however, intended to take effect. They served to frighten the assailants into submission, and they were arrested and lodged in the county jail.

The marshal was making his usual rounds to see if the saloons were closed. He stopped to look in the window of Ed. Robinson's place on the corner and while in this position was struck with a stone in the back of the neck. He turned and saw the assailant, who was promptly joined by his brother, the two being Hugh and Edward Costlow. The marshal tried to arrest them, but was met with more stones. The marshal, however, succeeded in doing considerable damage to his assailants with his fists, and when the contest waged fiercely he drew his revolver.

MUNISING MUCH IMPROVED.

New Streets and Walks Put in During the Past Summer.

The village of Munising has been greatly improved in appearance during the past summer. The new paving has added materially to the appearance of the business district. It was started at the dock at the north end of Elm avenue and has been extended south until it is nearly to the corner of Superior street. The ideas of a Boston landscape architect have been carried out. A strip through the center of the street below the Munising railroad tracks down to within a few rods of the depot has been graded, curbed, graded and sown to grass, and will in time be a beautiful piece of green sward.

MUNISING ECHOES.

The Epworth League gave a supper for up in the Brown building Wednesday evening.

The Munising band held weekly practices every Tuesday evening in the corner of rooms.

B. E. Howard has returned after a several days' business trip in Chicago and Milwaukee.

Mrs. Francis B. Collins has returned from a week's visit with Mrs. Frank Wiley in Marquette.

Dave Beuchene of East Munising was with a serious accident last Friday evening. He was playing with some

NEW CHURCH UNDER WAY.

Scandinavian Lutheran Society to Have a Modern Structure.

The Scandinavian Lutheran Eden church society is building a fine new place of worship. It will be constructed entirely of stone. John Olsson has drawn the plans and is personally supervising the work. The basement is already completed, and the walls are being put up as fast as the blocks can be had. It was intended to have the roof on by the first of October, but considerable delay has been caused by inability to secure the cement blocks fast enough.

The site, on Onota street, was given to the society by the Cleveland-Cliffs Iron company, and is a desirable one. The office will cost over \$2,000, with an addition cost of nearly \$2,000 for furnishings.

It will be as large as any church in the city with the possible exception of the Catholic church. The auditorium will be 20 by 45 feet, and with the gallery will give a seating capacity of about 300. There is a nine-foot basement which will be fitted up with a kitchen and room for Sunday school and Young People's society meetings.

ALGER COUNTY FAIR.

Ishpeming Band Has Been Engaged to Furnish the Music.

The Ishpeming band has been secured to furnish music for the Alger county fair. It is believed that it will be a big drawing card. Dr. T. W. Scholtz, chairman of the committee on special attractions, promises some clever and unique attractions. If the necessary cash can be raised, he has arranged for a game of ball between picked teams in Munising and Grand Marais. Both teams are to be composed strictly of amateur players, but a close and exciting contest may be expected. Free concerts have been arranged for Thursday and Friday evenings, to be given in the opera house which will be devoted to merchants exhibits.

The athletic meet of the Y. M. C. A. will be a strong feature of the Friday afternoon program. Good prizes will be offered for the winners. A number are already training. An entrance fee of twenty-five cents will be charged each contestant, and each will be limited to entering three events. In addition to the events mentioned last week there will be several added for the junior members of the association, boys under sixteen. These will include the hundred yard dash, running and standing high jump and running and standing kick.

REV. STEININGER RETURNED.

Rev. J. W. Steininger has been returned to Munising to serve as pastor of the First M. E. church. The news was received here with much pleasure the more so since it was strongly intimated that he would be placed in a larger city. Rev. Steininger has done much to build up the work of the church as he is a strong, forceful speaker, and a deep thinker. He will spend the remainder of the week visiting his parents in Litchfield, lower Michigan, where he went directly at the close of the conference in Detroit.

ILLUSTRATED LECTURE.

Col. C. H. French will be here Sunday and Monday to give two lectures. Sunday evening he will lecture on India in the M. E. church, illustrating his talk with over four hundred views. This lecture will be free, although a voluntary collection will be taken up. Monday evening Colonel French will appear in the assembly room of the new high school building, lecturing on Yellowstone Park. Colonel French has offered a prize of \$25 to the room which will sell the most tickets for the lecture. The admission has been fixed at twenty-five and ten cents.

LIGHTNING STRUCK HOUSE.

During the severe electrical storm last Sunday evening W. R. Macey's house was struck by lightning. No injury was received by the occupants, neither was the house ignited, which seems rather strange, as considerable damage was done. The ridge boards were torn off, the rafters splintered and shingles blown up. Upstairs in the house the plaster was torn from the ceilings. In the kitchen more plaster was brought down in the wood shed a cupboard was completely demolished. The house is in the new Cleveland-Cliffs addition.

MUNISING ECHOES.

The Epworth League gave a supper for up in the Brown building Wednesday evening.

The Munising band held weekly practices every Tuesday evening in the corner of rooms.

B. E. Howard has returned after a several days' business trip in Chicago and Milwaukee.

Mrs. Francis B. Collins has returned from a week's visit with Mrs. Frank Wiley in Marquette.

Dave Beuchene of East Munising was with a serious accident last Friday evening. He was playing with some

of his little friends and while he was climbing in a tree, the branch upon which he rested gave way, and he fell to the ground, fracturing his arm in two places, at the wrist and elbow. He has been suffering great pain.

Vickering Rivett has returned to Chicago, from which place he will make a trip to the Pacific coast.

H. B. Freeman returned from Detroit Monday. He attended the M. E. conference as a lay delegate from this place.

Colonel C. H. French will give a lecture Monday morning in the high school assembly hall at 10; also again at 3:30 p. m.

C. E. Stebbins, secretary of the Alger County Fair association, was in Chatham Monday, on business in connection with the fair.

Mrs. C. E. Stebbins entertained the Munising Euchre club Wednesday evening. An unusually pleasant time was reported.

Miss Marguerite Collins, who left here some time ago for an extended visit with relatives in Buffalo, has entered the Normal college there.

The dancing party given at the Beach last Friday evening was an unusual pleasant affair. About thirty couples were in attendance.

Funeral services were held Tuesday afternoon for the four months old child of James Cook. Rev. H. E. Shier of the Presbyterian church conducted the services.

The coroner's inquest in the case of the death of William Simmons, killed last week by a train, was postponed to next week, on account of the absence of one of the jurors.

Little interest was manifested here Tuesday in the election of delegates to the constitutional convention. As a result the lightest vote was polled in the history of the township. In Munising there were only thirty-two votes cast; 23 were polled there.

H. Jenkins, the student rector of the Episcopal church here during the vacation months, has returned to Fairbault, Minn., to resume his theological studies, and Mrs. H. F. Shier are enjoying an outing in their cottage at Rock River. They will return Saturday evening.

Mrs. Frank Burnett and little daughter, Virginia, were the guests of Mrs. Frank Jenks in Marquette last week. They leave for their home in Buffalo the last of the week. Mrs. Burnett and daughter have been the guests of her brother, G. Sherman Collins, for the past two months.

Mrs. J. Bean passed away Tuesday afternoon. Her death is an untimely one, as she leaves three orphan children. Two little sons aged fourteen and nine and a little daughter eleven years old.

CONCERNING HIS BUSINESS.

A Boston lawyer who brought his writ from his native Dublin, while cross-examining the plaintiff in a divorce trial, brought forth the following: "You wish to divorce (his woman because she drinks?" "Yes, sir." "Do you drink yourself?" "That's my business!" angrily. Whereupon the unweary lawyer asked: "Have you any other business?"

A MARQUETTE CASE.

Many More Like It in Marquette.

The following case is but one of many similar occurring daily in Marquette, it is an easy matter to verify its correctness. Surely you cannot ask for better proof than such conclusive evidence.

C. C. Young, painter and decorator, of 522 Washington St., Marquette, Mich., was cured of kidney trouble by Doan's Kidney Pills in 1898, and has ever since been recommending this remedy to his friends for the cure has been permanent. Describing his experience, Mr. Young says: "When I first began using Doan's Kidney Pills I was completely run down and for two or three years had been practically unable to work. I had such severe pains through my back and loins that I could hardly get about and several times the intense pains in my back and shoulders compelled me to lay off and rest. The kidney secretions became affected by the trouble and were highly colored and unnatural, depositing a heavy sediment. Passages were irregular and an account of this trouble and the pain in my back I could not get more than three or four hours' sleep each night. I got Doan's Kidney Pills and began using them, finding quick relief. I gradually improved until I could enjoy a good night's rest and rise in the morning feeling strengthened and refreshed. I found this cure in 1898 and made a statement for publication at that time telling my experience. During the years that have passed I have had no return of my old trouble. My health had been good and is as good today as it was ten years ago. It is astonishing what Doan's Kidney Pills did for me and what I am sure they will do for others."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

CURES S.S.S. SKIN DISEASES

No skin disease can exist without an underlying cause, and in most instances that cause is either a humor in the blood or an excess of fiery acids in this vital fluid. These humors and acids get into the blood, generally because of an inactive and sluggish condition of those members whose duty it is to collect and carry off the waste and refuse of the body. This unhealthy matter is left in the system to sour and ferment, and soon the circulation becomes charged with the acid poison. The blood, in its effort to rid itself of this foreign matter, begins to throw off the humors and acids through the pores and glands of the skin. These coming in contact with the delicate tissues and fibers with which the skin is so abundantly supplied produces irritation and inflammation on the surface, and Eczema, Acne, Tetter, Psoriasis, Salt Rheum, or some other troublesome and disfiguring skin disease is the result. External applications, while they soothe the itching, and are beneficial in keeping the skin clean, can never cure skin affections, because they do not reach the blood where the real trouble is located. A thorough cleansing of the blood is the only permanent cure for skin diseases. S. S. S., the greatest of all blood purifiers, is the best treatment. It cures by neutralizing the acids and removing the humors from the circulation so that the skin, instead of being irritated and diseased by the exuding acid matter, is nourished and soothed by a cooling, healthy stream of blood. S. S. S. goes down to the very bottom of the trouble, removes the foreign matter and thereby permanently cures every form of skin trouble. Do not expect to cure a blood disease with local applications alone, but begin the use of S. S. S., and when you have removed the cause the skin will be free from disease. Special book on Skin Diseases and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

City Brevities
 Today's weather: Showers; slight temperature change; winds mostly east to south.
 Yesterday's temperatures: Seven a. m., 62 degrees; noon, 68; 7 p. m., 67; maximum, 73 degrees; minimum, 62.

Mrs. R. S. Weyer left yesterday for North Yakima, Wash.
 The Tionesta was in port yesterday afternoon from 6 until 7 o'clock.
 County Treasurer Charles Sumbal of Ishpeming was in the city yesterday.
 Mrs. R. I. Connell and daughter, Miss Irene Connell left yesterday for Ann Arbor.
 Miss Cora Bertram, who has been visiting Miss Nettie Sullivan at Ishpeming, has returned home.

Mrs. John Ryegard, who has been visiting relatives in the city left for Atchison, Kas., yesterday.
 Mrs. C. A. Duclarme of Detroit, who has been at the Huron Mountain club, left for her home yesterday.
 Maurice Seidenfeldt and Miss Sadie Seidenfeldt of Murray, O., have gone to the copper country for a visit.
 J. M. Longyear and Miss Longyear, who have been in the city for the past few days, left yesterday for the Longyear farm.

The Woman's Aid society of the Presbyterian church will meet this afternoon at 2:30 o'clock with Mrs. Drake, Huron avenue.
 Charles O. Swanson left for Ishpeming yesterday to attend the golden wedding anniversary of his parents, Mr. and Mrs. Charles Swanson.
 Rev. Ames Maywood and Mrs. Maywood, who have been in Detroit attending the Methodist conference there, are expected home today.

O. C. Davidson of Iron Mountain and W. D. Calverley of Houghton attended a meeting of the board of control of the Marquette prison last evening.
 Mr. and Mrs. Charles Roberts and two sons have returned from an extended trip east. They were accompanied by Mrs. Roberts' father, Henry Hooper.
 L. Getz returned from the eastern market yesterday where he made his selection of fall suits, jackets, coats and all sorts of novelties for women's wear.
 Miss Jessie Andrews, milliner for L. Getz, returned from the eastern markets yesterday, and is now preparing the store for the fall opening of millinery.

The fall and winter millinery opening at Grabner's store is now in progress. The opening began yesterday and is to continue through today and tomorrow.
 E. C. Anthony of Negaunee, a member of the board of control for the Marquette prison, is attending the meeting of the National Prison congress at Chicago this week.

Mrs. John Kelly and Miss Mary Lawler and Dr. G. J. Lawler of Oxtown, Wis., who were called to the city by the death of their father, Patrick Lawler, left for their homes yesterday. Mrs. George Carleton, another daughter, arrived from her home in Detroit yesterday morning, some hours after the funeral was over. Her train had been delayed.
 To Hold Meeting—The Methodist Women's Home Missionary society is to meet this afternoon at 3 o'clock in the parlors of the church.

First Guild Meeting—The Young Women's guild will meet at the home of Mrs. Ernest Rankin this afternoon at 2 o'clock. A full attendance is desired.
 Alger County Fair—The Alger county fair opens at Munising next Wednesday and continues through the week. For the fair the South Shore has announced a fare and a fourth for the round trip to Wetmore and Munising Junction.
 Marriage Licenses—Marriage licenses were issued yesterday to Walter Holte and Miss Selma Hill of Marquette; Peter Saastama and Miss Sinia Aho of Ishpeming; and George Woodbridge and Miss Emily Lamara of Marquette.

Go to Ann Arbor—Joseph Primeau, Jr., and Bruno C. Primeau, sons of County Recorder Joseph Primeau, left last night for Ann Arbor where they are to enter Michigan University. Joseph Primeau, Jr. is to enter the law school and Bruno Primeau will begin a course of engineering which is to be completed in the Michigan College of Mines at Houghton.

Portage to Leave—The ore boat Portage, which was partially burned at the S. & L. docks, is to leave tomorrow for Detroit where she is to be repaired. Since the fire the damaged vessel has been tied up at Spear's passenger dock. Captain Cowles' estimate of the loss caused by the fire is \$10,000. The Portage is to be towed to Detroit by the Frontenac.

DONOVAN IS NOW IN; M'CARTHY APPOINTED
CADARETTE RESIGNS—KAUFMAN AND POWELL APPOINTED—BAD BRIDGES DISCUSSED—OTHER NEWS OF COUNCIL.

The election of Dan S. Donovan as city recorder was formally announced at the meeting of the council last night and his bond of \$1,000, signed by John D. Mangum and Edward H. Flynn was accepted. He is to take charge of the office this morning.
McCarthy Appointed.
 Acting Mayor Asire appointed Shields McCarthy controller and the rules were suspended and he was confirmed by the aldermen. His bond is to be presented at the next council meeting.

Cadarette Resigns.
 The resignation of Nelson Cadarette from the board of street commissioners was presented and accepted. Mr. Cadarette stated in his communication that the increase of work in his present position caused his action. S. R. Kaufman was appointed by Acting Mayor Asire to fill the vacancy.
Powell Appointed.
 Another appointment made was that of Dan W. Powell who is to succeed on the water board M. W. Shea, who recently resigned.
 The completion of the new bridge over Dead river was announced and it was stated that the bridge just north of this one is in a dangerous condition. The matter of the bridges was referred to the street commission.

To Buy Property.
 The street committee with City Attorney Brown was instructed to acquire property between Fourth and Lee streets for the opening of West Park street. It was reported that the owners of the property required want \$1,000 for it. Whether a purchase will be made or whether condemnation proceedings will be instituted has not yet been determined.
Bond Accepted.
 The druggist's bond of W. J. Hebbard, the Ishpeming druggist who is to open a store in Marquette was accepted last night. The bond is in the sum of \$2,000 and Joseph T. Pascoe and John Q. Lewis are the sureties.

Other Business.
 Claims amounting to \$1,119.94 were read by Controller McCarthy and were allowed and ordered paid.
 Acting Mayor Asire announced the visit of the rivers and harbors committee of congress to the aldermen.

GOES TO KALAMAZOO.
 Dr. William McCracken to Establish New Department in Normal.
 Dr. William McCracken, head of the department of chemistry and physics at the Northern Normal since that institution was opened in 1899, has severed his connection with it and will at the opening of the coming school year take on himself the establishment of a similar department at the Kalamazoo Normal, of which D. B. Waldo, formerly head of the Marquette institution, is the principal. Mr. McCracken has been looking forward to making the change for some weeks, but whether or not he could do so was contingent on J. H. Kaye, principal of the Northern Normal, getting the right man to succeed him here. Yesterday Mr. McCracken was informed by Mr. Kaye that he had offered the position to Dr. Hebb, and it had been accepted. The change has not yet been ratified by the state board of education, but this will be done at a meeting to be held within a few days, and Mr. McCracken plans to leave Marquette Sunday. He will go to Indiana for a brief visit with his mother before taking up his residence in Kalamazoo.

Mr. McCracken's decision to leave Marquette was made with the expectation that there will be more advanced students in his work, chemistry and physics, at the Kalamazoo Normal. The enrollment of young men at that institution is larger than it is here and his department will thus be more important, as young men take up his branches with more zeal than do the young women. Both Mr. and Mrs. McCracken greatly regret to leave Marquette, where they have a wide circle of friends, and their departure will be no less regretted. Mr. McCracken has been one of the strongest and most regular members of the Normal faculty. Of Dr. Hebb, his successor, practically nothing is known here, but it is taken as assured that he is a strong man, as Mr. Kaye would only agree to the transfer with the understanding that it would not be made unless he was able to get an entirely satisfactory head for Mr. McCracken's department.

WATER BOARD NOTICE OF PROPOSED ASSESSMENT.
 Marquette, Mich., Sept. 19th, 1907.
 To the owners of lots and parcels of land in the Ayer, Towar and Marquette Land company's additions to the city of Marquette.
 Notice is hereby given, that the board of fire and water commissioners of the city of Marquette, have, at the request of the owners of lots in these additions, decided to extend the water mains of the city to these additions, provided the streets are graded so as to enable the board to lay pipes at proper depth to be protected from frost. And have deemed it just and equitable that a portion of the cost of such extensions shall be assessed upon the lots and parcels of real estate, especially benefited, and for the purpose of examination by the owners of the lots in these additions, and others interested, a map of the proposed district to be assessed, together with an estimate of cost of the improvement, as also of the amount proposed to be raised by special assessment, may be seen at the office of the board in the city hall, during usual office hours, from this date to and including the 23rd of September. Notice is hereby given to the owners of lots and others interested in these additions, that the board will meet at their office in the city hall at 8 o'clock in the evening of the 23rd day of September, prepared to hear any objections and suggestions relative thereto.

By order of the board of Fire and Water Commissioners,
 JOHN P. KERN,
 Secretary.

COOK WITH GAS

Ishpeming Department

TO LAY CORNERSTONE AT Y. M. C. A. BLOCK

GOES TO NATIONAL.
Young Ishpeming Clergyman Assigned to Church Near Home.

At the annual Detroit conference concluded last week in Detroit, Rev. Frank Waters, who was born and raised in Ishpeming, was assigned to the Methodist church at the National mine. Rev. Waters has been pastor of a church at Buchanan since he was ordained. So far as is known here, Rev. C. L. Adams is to be returned to the First Methodist Episcopal church and Rev. James Tveit to the Salisbury church. In addition to his work at the Ishpeming church, Rev. Adams will also conduct services at stated intervals at both Champion and Michigamme. Rev. K. A. Nurmi has been retained as pastor of the Finnish Methodist church.

It is announced that few changes have been made in the Houghton district, in which all of the churches in this county are included. Rev. James Pascoe has been again named as presiding elder and most of the churches, particularly in the larger cities, are to have their old pastors. It is reported that there were a number of changes in the lower part of the state. Seven new ministers will occupy pulpits in Detroit churches, and Sault Ste. Marie loses two of its old ministers. Rev. W. B. Coombe has been returned to the Mitchell Methodist church in Negaunee, and Rev. M. Molloy will again have charge of the Republic parish. Rev. W. J. Harper, formerly of Republic, is to be retained at the Baltic church and Rev. W. Roberts, a former resident of this city, will be at Tenary the coming year.

FROM HOPKINS' CURB LETTER.

After early weakness in the copper market has turned strong, in sympathy with the strength in the New York market, North Butte, Copper Range and Cabnet & Arizona showing the most activity, being up about one point. This advance may extend some farther, as sentiment has changed for better, at least for the time being. The belief that copper has seen the bottom is becoming more pronounced and should the expected large sales of copper be realized at an early date, the shorts would find it difficult to cover their commitments.

The prevailing prices were:

"RAFFLES" HERE TONIGHT.
Another of Joe Gaites' Fine Attractions at Ishpeming Theatre.

"Raffles" is the antithesis of Sherlock Holmes and greater than Sherlock Holmes. Such is the opinion expressed in New York and other American cities of the famous drama "Raffles, the Amateur Cracksman," in which S. Miller Kent and company will appear at the Ishpeming theatre tonight. The play was written by E. W. Hornung and Eugene Presbury, who use as foundation the sketches published in two volumes by Mr. Hornung under the titles of "The Amateur Cracksman" and "Raffles," respectively.

The authors go to daring lengths, seeming to argue that crime is a disease and that criminals are irresponsible. The adventure of the Melrose diamonds is the one wisely selected for presentation of this argument and to give to the stage an entirely new and fascinating character in Raffles, the gentleman burglar philanthropist. For conflict of forces the authors furnish a specialist in crime who would plunge Sherlock Holmes into despair and make his good friend Mr. Watson weak with amazement. This is Captain Bedford, the detective. Raffles and Captain Bedford have it nip and tuck throughout the play, but Bedford is not the only person on the stage whom Raffles foils. First he foils Crawshaw, the bungling original thief of the \$100,000 necklace. Then he foils Crawshaw again when the latter comes to his (Raffles) London apartment to effect a "divvy." Next after foiling Bedford a dozen times, he foils one woman who is infatuated with him. In fact he foils everyone except his friend Bunny and Goodwin, the girl who loves him, even after she knows the truth about him.

WILL CONTEST FOR CHINA SET.

The plan of conducting the contest between six young ladies at St. Ignace's church fair to be opened tomorrow evening at Anderson's Hall has been changed. Instead of soliciting for votes to determine which is the most popular of the sextet, each will sell chances on a very fine hand-painted china chocolate set, donated by E. Branstetter & Co. The young lady disposing of the largest number of chances will be awarded the prize. The girls in the contest are Miss Louise Trombly, Julia Dobbs, Virginia Cousineau, Charlotte Liguay, Exilda Nyotte and Bernadine Branstetter. The ladies of the congregation have made extensive preparations for the fair and it is expected that it will be largely attended.

CARD OF THANKS.

We desire to publicly express our appreciation of favors extended by friends and neighbors during our recent bereavement. We wish particularly to thank friends for their floral offerings, also Rev. M. M. Adams and the choir of the Presbyterian church, as well as those who rendered assistance at our home.

CHARLES ANDREWS and Sisters.

DETROIT AND RETURN \$7.00
Via the South Shore. Tickets on sale Sept. 9th, 12th, 16th, 21st, connecting at St. Ignace with steamer of the D. & C. N. Co. To Buffalo \$2.00 higher. Limit three weeks. For sleeping car and steamer reservations apply to ticket agents. (8-15-324)

Father says: "Say, Mother, can't you make us some more of those doughnuts if I will bring home a pair of Cuddahy's Peacock Lard again!"
(11-27-e-o-4)

returned to her home at Iron Mountain yesterday.

Len Johnson, who is confined to the Ishpeming hospital, where he recently submitted to an operation on one of his knees, is improving.

Mrs. Michael Cashen and children will leave within a week or two for Coleraine, Minn., where Mr. Cashen a few weeks ago took a position with the Oliver Iron Mining company.

Henry Choquette of Negaunee, a recent graduate of the Ishpeming Business college, has accepted a position in the Ishpeming office of the Consolidated Fuel & Lumber company.

William Trebilcock is making good headway with his Empire sewer contract. Up to this time he has not encountered either quicksand or boulders and very little water has been met with.

Joseph Phenef, who is employed in the power house of the Marquette County Gas & Electric company, has taken the Ishpeming agency for a wholesale grocery house and is soliciting orders as a side issue.

A football team is to be organized by the students of the Ishpeming High school and practice work has already been started. It is expected that a fairly lively team can be developed, but it will be light.

The water supply will be shut off Sunday morning, while a valve is being placed at the intersection of Division and Pine streets, at the point where the Michigan Pipe company started to lay the new main.

Miss Mary Downing and Thomas O'Brien, former residents of this city, are to be married next Wednesday at Coleraine, Minn. The bride-to-be is a daughter of J. C. Downing, former game warden in this county.

Albert, the fifteen-months-old son of Samuel Rogers of Escanaba, formerly of his city, died Sunday afternoon of influenza in infancy, and the funeral was held Tuesday afternoon. James Rogers and his daughter, Mrs. George Bainford, of this city, attended the obsequies.

Charles Simmons and wife are here from Plattville, Wis., on a few days' visit. Mr. Simmons was a resident of this city for a number of years, having at one time been engaged in the saloon business. He is to leave soon for the Philippine Islands, where he will probably teach.

The first of the series of dancing parties given Wednesday night at Branstetter's hall by the Royal Dancing club was largely attended, despite the unfavorable weather. The party was one of the most enjoyable given in the city in some time. The next party is to be held some time in October.

Werner Nikander is to build a second dormitory to his business block at the corner of Division and First streets. A hallway leading to the upper rooms will be placed on the west side. Mr. Nikander's family will occupy the rooms. The work has already been started.

Ambrose Nord and wife of Salt Lake, Utah, formerly of Champion, were visitors in the city yesterday. Mr. Nord spent the past few weeks in Boston, where he aided in opening the books under a new system for the mining company with which he is employed.

Richard Rosengren and C. J. Nordmark, Swedish entertainers of note, will give a dialect and dramatic entertainment tomorrow evening under auspices of the Swedish Home society at its hall in Cleveland avenue. Besides singing old folk songs and giving character impersonations, they present a comedy, entitled "A Night in Falkenberg."

BIDS WANTED.

By the board of education, School District No. (1) one, city of Ishpeming, county of Marquette, state of Michigan, for heating and ventilating, plumbing, sewerage and gas fittings for the new high school, now being erected on the school property, East Division street, in said city of Ishpeming.

Contractors to make separate bids on the work, and furnish separate surety company's bonds for at least 50 per cent of contract price for the faithful performance of all work according to its terms, and completion of all work according to its terms.

Also a surety bond running to the people of the state of Michigan for at least 20 per cent of the contract price, conditioned for the payment of all indebtedness for labor and material as required by the statute in such case made and provided.

All work and material to be furnished as per plans and specifications prepared by John D. Chubb, architect, Chicago, Ill.

Plans and specifications may be had from the undersigned. All bids to be signed, sealed and delivered to Mr. N. M. Nelson, director board of education, on or before 4 o'clock p. m., Monday, Sept. 23, 1907.

The plans and specifications must be returned with bid, otherwise bid will not be considered.

The board of education reserves the right to reject any or all bids.
(Signed,) CHAS. BURT,
Chairman Building Committee.
Dated, Ishpeming, Mich., Sept. 11, 1907. (9-12-94)

NEGAUNEE WORKMEN'S LODGE DISBANDS

AFTER AN EXISTENCE OF NEARLY THIRTY YEARS IT GIVES UP--MEMBERS WILL HEREAFTER PAY DIRECT TO THE SUPREME OFFICERS.

Cui Bona Lodge, Ancient Order of United Workmen, has disbanded, after an existence of nearly thirty years, and it is not likely that another meeting will be held. During its palmy days Cui Bona lodge was one of the most active of the fraternal organizations in Negaunee and it is doubtful if any other in this city has done more good or distributed a larger sum among the beneficiaries of its deceased members. The membership of the organization dwindled from nearly 200 to less than twenty-five. In July last the grand lodge, in session at Detroit, decided to disband, with the understanding that those who desired to retain their membership could affiliate with the supreme body. About twenty Workmen are still retaining their membership and all of them have, within the past week or two, received their certificates from the supreme lodge office. Four of the men who cling to the society until the grand lodge threw up the sponge have dropped out. All of the others will doubtless remain as long as the rate of assessment is not increased, but it is now higher than at any time in the history of the society. The supreme lodge has not advanced the rate on either the young or old members and it is not expected that there will be an increase, as the financial condition of the supreme body is reported as being excellent. So far as can be ascertained the percentage of members who have dropped out of the Workmen since the transfer to the supreme lodge was decided on is no greater in other parts of the state than it is in Negaunee. An old member of the society yesterday said that he had been advised that in some places all of the members had been transferred to the supreme lodge, and at other points only a few had dropped out.

Fraternal Spirit Dying Out.
"During the thirty years or more I have been connected with fraternal societies in the upper peninsula I have never seen the fraternal spirit so strongly manifested a few years ago among the members of the various organizations, so lacking as it is at this time," said a veteran Workman yesterday. "For several years before the Negaunee lodge of the Workmen disbanded it was difficult to induce a sufficient number of members to form a quorum to attend the meetings, and I have observed that the officers of other societies are now having similar trouble. The fraternal spirit is waning; the members never seem the fraternal spirit so strongly manifested a few years ago among the members of the various organizations, so lacking as it is at this time." "I have often wondered if the fraternal societies are not of the wane and if the time is not at hand when they will attract less attention than during the past quarter of a century. Personally, I believe that the entire upper peninsula is overrunning with lodges and that if there were 50 per cent fewer than we now have the poorer people, who largely compose their membership, would be better off. I could name a number of cases where families are lodge poor; they being obliged to pay a greater sum to the benefits they might derive. The fraternal societies, as a rule, have done a great deal of good, but I am satisfied that there are altogether too many of them in this region." "Let us have some Cudley's Poacook bacon and calves liver for supper Maam," say young and old.

WILL MEET HERE TONIGHT.

Stockholders of Belmore Bay Gold Mining Company to Assemble in Negaunee.

A meeting of the Negaunee and Ishpeming stockholders of the Belmore Bay Gold Mining company, which is operating a property in Canada, will be held this evening at 8 o'clock at Joseph Barabie's store. The annual meeting of the stockholders is to be held next Monday at Sault Ste. Marie, Ont., and as important business is to be considered a number of the prominent stockholders here would like to see the shareholders of Marquette county represented. No plans have been outlined for the business to be considered at tonight's meeting, but there will be a discussion of the company's affairs and it is expected that one or more of the stockholders will be delegated to represent the Marquette county men at the annual meeting. There are about 165 shareholders in Negaunee, thirty or more in Ishpeming, and sixty-five in Marquette. Should the Marquette stockholders desire to attend the meeting the Negaunee men will be pleased to have them present.

Practically all of the stock issued by the company is held in the upper peninsula, Wisconsin and Northern Minnesota, Escanaba, where the company has its headquarters, has a greater number of shareholders than any other city, there being in the neighborhood of 200 there. Negaunee is second on the list with about 165, and Ishpeming comes third. A Negaunee stockholder yesterday said that he thought that between 10,000 and 150,000 shares of the stock are held by Negaunee and Ishpeming people. The company is capitalized with 1,000,000 shares, and in the neighborhood of 750,000 have been issued, the other 250,000 remaining in the treasury.

HOMESTEAKE WORKING AGAIN.

Largest Gold Mine in the World Will Soon Be Employing Its Usual Force.
A Negaunee man employed at the Homestake mine at Lead, S. D., writes an interesting letter to a friend here in which he says that the big property in which he is employed is again in operation about 3,000 men. At the time the management decided to flood the workings in order to extinguish the fire which it was thought had spread to nearly all the openings underground it was freely predicted that it would take at least six months to remove the water, but practically all of the water between the 200 and 1,100 foot levels was brought to surface in 100 days. Large boilers were used in eight of the shafts. "The pumps stationed at the 1,100 foot level are again in commission and it will not be many days before the 1,100 foot level is reached."
One will be hoisted in a few days from the 215th and Old Ale shafts, which were the first to be closed when the fire broke out. The mills are again in operation and are treating some 4,000 tons of ore daily. The work of re timbering the shaft, which caved considerably, is about completed, and it will be in commission before the end of a week.
Experts who have examined the mine express the opinion that the flooding had not injured the workings and from a sanitary viewpoint it is now in as good condition as it was before the fire. It was some time ago stated that the mine would not be in condition for the men to resume work for some time after the water was pumped out, but the miners are returning as rapidly as places are made for them, and with no appearance of ill effects. It is estimated that it required 68,000,000 cubic feet of water to flood the workings. It will be some time before the mine will become as dry as it was prior to the flooding, but the Negaunee man writes that the miners are not complaining of its condition.

DWELLINGS AT THE EMPIRE.

Henry Hallam, a Marquette contractor, has started work on two single dwellings for the Empire Mining company at its property near Palmer. Mr. Hallam went out to the mine yesterday to look over the work. It is expected that a few other dwellings will be erected later, though perhaps not until next summer. The Empire is at present employing a force of about fifty men. The shipment of ore was started several weeks ago and has been continued ever since. The mine has a good plant and the ore is being produced at a nominal cost. The system of raising it out of the workings is unique, the buckets being worked in such a way that only one handling of the ore is necessary from the time it leaves the tram cars until it reaches the crusher.

FOOT BALL TOMORROW.

The Tigers' foot ball team of Negaunee will try conclusions with the Ishpeming Stars tomorrow afternoon at Union Park. The Stars and Tigers are old rivals. Last season the Negaunee eleven defeated the Stars by a score of 4 to 3 and the season before the Stars won from the Negaunee team by a score of 20 to 0. The Tigers have been working hard all week and are in fairly good condition. The high school boys have begun practice work, and a team is to be organized. A majority of its members are members of the Tigers' eleven. John Erickson is the coach. Inasmuch as the Ishpeming schools are also to be represented by a team this fall it is expected that the eleven of the two cities will meet in one or more games.

ENTERTAINMENT TONIGHT.

A unique entertainment will be given this evening under auspices of the Negaunee branch of the Scandinavian society at the Finnish Temperance hall on Third Lake avenue. Richard Rosengren, America's most prominent Swedish dramatist and comedian, and Charles H. Nordmark of Aravala, Wornland, Sweden, will entertain with old folk songs and stories, closing with a comedy play, "A Night in Falkenberg." The admission for adults will be forty cents, or less for seventy-five, and the charge for children will be twenty-five cents.

Does the dealer know better than you what you need in your home? If not, you owe it as a duty to yourself to insist on getting what you ask for when you try to buy an advertised article.

"What shall we have for breakfast?" "Why Cudley's Poacook Ham and Eggs, of course; they are always acceptable, especially at this season of the year." (11-27-e-o-d)

LOCAL LAONICS.

The regular meeting of the Negaunee fire department will be held this evening at the usual time.
A special meeting of the council was held last night, when the vote in the election held Tuesday was canvassed.
The employees of the Mary Charlotte mine will be paid today. The men at the Regent group were paid yesterday.
The City Employees and Saloon Keepers' baseball teams of this city will cross bats this afternoon on the diamond in the Maas field.
John Moll's youngest daughter, aged fourteen months, died Wednesday night. The funeral will be held this afternoon at 2 o'clock from St. Paul's church.
Victor Erickson, who was recently taken ill with typhoid fever, is being cared for at the Negaunee hospital. His wife is just recovering from the same disease. Mr. and Mrs. Erickson have been married about eight weeks.
The exterior of the Garfield house has been painted a bright red with green trimmings. The interior improvements, which have been under way for the past two or three weeks, will be completed within a few days.
James Driscoll, who accompanied the remains of his brother, the late J. H. Driscoll, from Eureka, Utah, to Hancock, where the funeral was held last Sunday, is visiting his mother and brothers, Con B. and Dennis Driscoll, in Negaunee.

The Chicago & Northwestern passenger train was nearly two hours late arriving in Negaunee yesterday morning. The trains which connect with it in this city for the copper country and Marquette did not wait and specials were run to both places, leaving here about 10 o'clock. The copper country special carried the mail and express, there being a sufficient quantity of both to almost fill a car.

MISER USED STOVE AS SAFE.

In Consequence Sends \$30,000 in Scorched Bills for Redemption.
Washington, Sept. 19.—Oscar W. Shryver, cashier of the Bloomfield Savings bank of Bloomfield, Green county, Ind., arrived in Washington yesterday afternoon with \$25,000 or \$30,000 in mutilated bills which he will have redeemed at the treasury department. The mutilated money which Mr. Shryver brought with him represents the fortune of a miser, the police say, who came near losing his wealth through fear of savings banks.
The miser for years had secreted his money in a stove. One day his wife applied a match to a piece of paper protruding through the grate of the stove, and when the old man went to look for his money he found it converted into a mass of burnt paper. Some of the bills had been completely consumed, while others were only scorched. Mr. Shryver was requested by the miser to come to Washington and have his money redeemed. The money will be turned over to the treasury officials today.

SHORT TALKS BY L. T. COOPER.

SLEEPLESSNESS.

Do you know what makes people lay awake and toss and roll about at night?

Doctors tell you there are various causes. I tell you it's a stomach trouble. I know it because I've seen thousands of cases and watched them. A stomach that is over-crowded with undigested, decaying food matter effects every organ of the human body. It causes nervousness, headaches, constipation, impure blood, poor circulation and dulls the mind. It makes one restless and uneasy. When your stomach is working right you feel right. You sleep well and you eat well. People come to me day after day and tell me they can't rest after eat'g. They have a dull headache. At night they go to bed simply because they are exhausted. They catch a few cat naps and get up in the morning feeling as worn out as they did before.

I have recommended Cooper's New Discovery, a regular diet, regular habits and invariably these same people come to me afterwards and tell me they feel much better because they eat well and sleep well. Herewith is a sample.

A letter I received from Mrs. Geo. Weisel, 1121 Providence Road, Scranton, Pa., says: "I suffered for three years from stomach trouble, inactive liver and rheumatism. Everything I ate disagreed with me and I lay awake night after night. I had no pleasure in life and could scarcely do my work about the house. I heard from a neighbor of Cooper's New Discovery and I bought two bottles of it. It helped me right away. Now I have a good appetite and never suffer from indigestion. I sleep well and awake refreshed. I want to thank you from the bottom of my heart for what this medicine has done for me."

The Cooper medicines have a larger sale than any medicine on the market. Our customers speak highly of them.

ATTEMPTED TO TAKE SHERIFF'S PRISONER

TOLD HIM HE COULD NOT TAKE HOGAN'S SLAYER OUT OF THE STATE OF WISCONSIN.

MAN WEARS WOMEN'S CLOTHES

Charles Worrell Freely Admits That He Struck Fatal Blow and Gives Description of the Encounter.

Although an attempt was made to take the prisoner from him at Saxon, Wis., Sheriff Rough yesterday arrived with Charles Worrell, the man who admits that he killed Wallace Hogan the night of Labor Day. The trouble at Saxon, Sheriff Rough says, was caused by a crowd of twenty or thirty men at the station led by M. M. Riley, an attorney of Ironwood, who is slightly known in Marquette.

Had to Wait. "We left Ashland on the Northwestern road at 7:15 o'clock Wednesday night," the sheriff said, "and arrived in Saxon, where we were to connect with the South Shore train, about 8:30 o'clock. As the South Shore train was late, we were obliged to wait over in Saxon until 10 o'clock, about an hour and a half.

There was no place to take the prisoner but into the waiting room, and when we entered it, a crowd of about a dozen men, some of whom were handcuffed, and myself. Among them was this lawyer, Riley, a deputy sheriff whose name I did not learn and a number of others. They pressed forward talking and asking questions.

The lawyer, Riley, asked me by what right I was taking the prisoner out of the state of Wisconsin. I told him the man had waived the issuance of requisition papers, but he persisted. He said I had no right to take the prisoner, told me that he intended to get him away from me and said he would have me sent to prison for five years. I told him I had gone after men in other states before and assured him that I knew my business.

Awakened Sympathy. "The lawyer's talk seemed to awaken an amount of sympathy for the prisoner and a number of others joined in the talk. Most of them were more or less under the influence of liquor. I continually told them to keep away and advised the talkative lawyer who seemed determined to interest himself in Worrell's case to attend to his own affairs. I suggested that if he was so anxious to be in the case, to come to Marquette and defend the man. Then they told me I had no right to have the prisoner shackled. I told them the handcuffs were there and would stay and warned them not to interfere. I said it would go badly with the man who did interfere. Then I had the prisoner make a statement. He told them, and particularly he told the lawyer that he was going to Marquette voluntarily, and although Worrell and myself both made this statement to them repeatedly, they continued to talk and the situation began to look serious. The deputy sheriff then began to talk with Worrell. Bragging, he said: 'If I'd a seen you when you came through Saxon the other night, I'd a shot you,' and as he talked he pulled out his revolver and flourished it. I warned them again and taking the prisoner, walked out on the station platform. There was more talk about keeping the prisoner in the state, but they did not follow me and when the train came along a short time later, we boarded it without being molested.

Reward Paid. The reward of \$100 offered for Worrell's capture by the board of supervisors has been paid to Sheriff G. Laflamb of Ashland, who arrested the man early last Tuesday morning. Worrell had taken supper at a farm house about twelve miles from Ashland the night before, and as he did in a number of places where he met people, told about having trouble in Marquette. The man he told had heard of the murder and he at once notified Sheriff Laflamb. The sheriff was on his way to the farmer's house early in the morning, when he met Worrell walking toward Ashland in the roadway. Laflamb recognized the man from descriptions which had been sent out and stopped him. Worrell surrendered at once, saying that he was the man wanted and his first question was 'Is the man dead?' Laflamb told him that Hogan was dead and took him to the Ashland jail.

Crowd Disappointed. A crowd which gathered at the South Shore station yesterday morning at 5 o'clock to see the man when the train arrived, met with disappointment. Upon Sheriff Rough's request the train was stopped at Fourth street and from there Worrell was taken to the jail.

Worrell freely admits that he inflicted the wound which caused Hogan's death. He is a diminutive little man, five feet two inches in height and weighs 105 pounds. He is so small that he is unable to wear men's garments. He wears a woman's No. 4 shoe and a No. 7 woman's stocking. He also wears a woman's undergarment. His hair is light, thin, straight and parted on the right hand side. The forehead is almost abnormally wide, of good height and is smooth and free from wrinkles. A moustache, which he wore while he was in Marquette, has been removed.

Worrell is thirty-five years old and he says he has traveled widely. His demeanor is quiet and self possessed. He says he was born in Illinois and was reared in Indiana. He relates that he is divorced from his wife and has one child. This is his statement of the stabbing.

BOARD SUSPENDED BY ACTING MAYOR ASHRE

UNLOOKED FOR ACTION TAKEN AT COUNCIL MEETING IN MAYOR ROBERTSON'S ABSENCE.

ONE OBJECTION IS VOICED

Four Charges Against As Many Members Are Read From Chair and Each Member Is Served With Notice.

While we were standing there the man Hogan came in. He said something to Black and I said to Farney, 'Let's move up,' and we moved to the end of the bar. Hogan walked up to me then and brushed into me stepping on my feet. I told him I had just moved to get out of his way and asked him if there wasn't room enough at the other end of the bar. He told me he would knock my block off, and hit at me. I dodged. When he hit again Farney pushed him away. When he struck at me again I jumped back and picked up the knife tied in the package. I raised the knife and told him to let me alone, and then I struck him in the face with the flat side of the knife. He struck at me again and I struck at him with the knife.

He came at me again and I reached up with my left hand and pushed him away as Black came around the bar. I then saw that I had cut him for there was blood on my hand. Black took the knife away from me and led me to the door. Then Black gave me the knife, still wrapped up, and pushed me out. I stopped in the kitchen of the restaurant and wiped the blood off the knife with the towel and put the towel in the kitchen stove. As soon as I got to the street I threw the knife away and ran as far as I could and then I walked all night. It was about 6 o'clock the next morning when I passed through Ashpening.

Worrell's story differs in one important essential from the statement made by Farney at the inquest. Farney stated that Worrell struck the first blow, striking Hogan in the face while Worrell says Hogan struck first.

After he left Marquette Worrell walked about 200 miles. When he was captured his clothes were in tatters and his shoes were in fragments. He said he walked during the daytime and walked at night, getting food from farmers along the way. He had but sixty-five cents when he left. He followed the new South Shore track to Saxon and then out across to the Northwestern track which he had left the night before he was caught.

WORRELL STRUCK FIRST BLOW. Evidence to This Effect Brought Out at Coroner's Inquest.

There continues to be much interest in the case growing out of the murder of Wallace Hogan and the capture of his slayer, Charles Worrell. The evidence brought out at the inquest was much discussed yesterday. The account of it given in The Mining Journal yesterday omitted one point, testified to by Henry Farney, which has an important bearing on the responsibility for the fatal outcome of the trouble. It related to the question of who struck the first blow. Farney, who knows as much about the tragedy as any one, was clear on this point. Worrell struck the first blow, Farney testified, according to Justice Cray's official records: "Charley had two parcels, and one was loose clothes. He got a paper from Mr. Black to wrap that up with. Hogan was fumbling with the package that was done up. Charley looked over his shoulder and saw Hogan and pulled him away from the package. I don't remember whether he let Hogan go, so that Hogan went back after the package again or not. Anyway right after that Charley hit Hogan, not a very hard blow, but he hit him with his fist. There were no words passed except that Charley told him to let the bundle alone. Then Hogan made for him."

BURIED BY THE ELKS.

Funeral Yesterday of Samuel H. Gibson Who Formerly Lived Here.

The funeral of Samuel H. Gibson, who was formerly well-known in Marquette and who died last Monday in Toronto, took place yesterday morning. Mr. Gibson was a member of the B. P. O. E. and the services yesterday, which were held at the grave, were in accordance with the Elks' burial ritual.

The lodge at a hotel with a number of friends of the Gibson family met the train bearing the remains at 10 o'clock yesterday morning. The body was at once taken to Park cemetery. Those who acted as pall-bearers were: M. H. Egan, Joseph Egan, Homer Crowder, Charles A. Laurier, Martin Delaney and M. C. Seully. As Mrs. Gibson is seriously ill, she was unable to accompany her husband's body from Toronto and Willard A. Gibson of Niagara Falls, his son and Albert A. Gibson of Toronto, his nephews were the only members of the family at the funeral. Mr. Gibson was formerly a South Shore conductor and was later in the meat business. He was also in business for a period in the copper country.

CARD OF THANKS.

We desire to extend our sincere thanks to our friends and neighbors whose sympathy lightened our sorrow in the death of our father, the late Patrick Lawler, and who did so much to aid us in our hour of bereavement. We wish particularly to thank the members of the A. O. H. and those who sent the beautiful floral offerings.
