

URGE HIM TO CALL AN EXTRA SESSION

Financial Leaders Submit to the President the Desirability of Forthwith Convening the National Law-Making Body.

Believing Congress Should Deal With Present Conditions, Providing, for Instance, a More Flexible Currency, They Give Assurance of Support in the Enactment of Laws Necessary to Carry Out the Roosevelt Ideas of Federal Control.

Washington, Nov. 3.—It has been learned from undoubted sources that President Roosevelt is being urged to call an extra session of congress to deal with the financial situation.

The president has been assured from most reliable sources that there will be no opposition on the part of the great industries of the country to the enactment of laws necessary to carry out his ideas of federal control.

DUEL THREATENS IN LOUISIANA

Lieutenant Governor Sanders and Donelson Cafferey, Son of the Late Senator, May Meet on the Field of Honor.

Issue of What Is Accepted as a Challenge in Accordance With the Code Creates a Dramatic Political Situation, and There Is Fear That if the Principals, Themselves, Do Not So Indulge, Friends Will Become Involved in Personal Encounters.

New Orleans, Nov. 3.—The reply of Lieutenant Governor Sanders to the challenge of Donelson Cafferey, Jr., son of late United States Senator Cafferey, has created a dramatic political situation in Louisiana.

Early this morning, in close conformity to the "code of honor," Mr. Sanders issued a written reply to Mr. Cafferey. He declared that he holds himself personally responsible for the utterances which caused the trouble, and adds: "I am prepared to meet that responsibility, and Mr. Cafferey knows where to find me."

Two representatives of each man subsequently held a conference. Mr. Sanders' friends declared firmly that they would not accept a challenge in accordance with the code, because the lieutenant governor could not violate the state law against dueling.

The discretion of the lieutenant governor and Mr. Cafferey is relied on to prevent a personal encounter. There are, however, those who may be drawn into a serious quarrel.

GOMPERS GIVES WARNING. American Federation President Says Labor Will Not Submit to Wage Reductions.

Washington, Nov. 3.—The following statement on the financial situation has been issued by Samuel Gompers, president of the American Federation of Labor: "Of course all realize that there is a stringency of the circulating medium—money. That is, there is an insufficient amount of currency to carry on the enormous increased production of the past year and the means for its general distribution."

GIVES CONCLUSIVE PROOF. During the past four months the banks have sent into the country districts approximately \$500,000,000 in currency.

EXAMPLES SET BY OTHER NATIONS. "An issue of credit currency adequate to meet the requirements of trade, and currently redeemed in gold, is followed by every civilized country in the world except our own."

EX-COUNCILMAN IN PRISON. Pittsburg, Nov. 3.—After much delay in taking appeals to higher courts, ex-Councilman William A. Martin, convicted of soliciting a bribe in connection with the Pittsburg & Tube City railroad franchise exposures, appeared at the sheriff's office yesterday and said: "Let's end the whole business." A few minutes thereafter he was taken to the penitentiary to begin a three years' sentence.

MONEY TOO SCARCE FOR NATION'S NEEDS. Legislation to Meet the Situation Is Imperatively Necessary, Asserts Congressman Charles Fowler of New Jersey.

Washington, Nov. 3.—That permanent relief from the monetary stringency can be had only through a credit currency redeemable in gold coin was the opinion expressed today by Representative Charles Fowler of New Jersey, chairman of the banking and currency committee, which will, at the coming session of congress, endeavor to have a law passed providing for a credit currency issued by national banks.

PERMANENT RELIEF FROM STRINGENCY IS POSSIBLE ONLY THROUGH A CREDIT CURRENCY REDEEMABLE IN GOLD, SAYS CHAIRMAN OF THE BANKING COMMITTEE—MEANWHILE RESORT MUST BE HAD TO CLEARING HOUSE CERTIFICATES, CASHIERS' CHECKS AND DUE BILLS.

Business Conditions Sound. "The underlying business conditions," he said, "are essentially sound, as is evidenced by the increased earnings of the railroads and the fact that the value of our agricultural products this year is \$500,000,000 more than the highest in our history, these products bringing to our people about \$7,000,000,000. The cause of the currency stringency is that there is scattered broadcast throughout the country—at the mints, in the wheat, corn and cotton fields, in the pockets of the people, or locked up—about \$1,300,000,000 of reserve money, most of which should be in the banks."

DAILY MINING JOURNAL

MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The Escanaba Journal notes a suspicious resemblance between the new Escanaba high school and the structure to be erected at Negaunee.

The delegates to the constitutional convention who are planning the more radical changes had better get all the fun they can out of their planning.

Mr. Bryan says: "Now we are in the midst of a tremendous gold production which gives us an abundant money supply and maintains prices, so that business is brisk."

The Michigan State Telephone company has divided the state into six divisions, and has appointed K. S. Baker of Marquette manager of the division covering the upper peninsula.

The advance in copper from 12 1/2 cents to 13 1/2 cents, the present New York price, together with the announced sales during October by the United Metal Selling interests alone of eight to nine million dollars worth, mostly for export, indicates that the collapse of the copper pool, and the consequent drop in price from twenty cents per pound to but little more than half that, has resulted in again creating a sharp demand for consumption.

The Chariton, Ia., bank must have been played as a favorite by the Woodmen's officials. Before departing for Chariton to help look after the order's interests Director Byrns said that the order had some forty depositaries, with from \$2,000,000 to \$3,000,000 distributed between them.

Several of the Michigan copper mining companies have announced cuts in wages, and the others will doubtless follow suit. The development occasions no surprise.

Banking Commissioner Zimmerman has given out the following statement relative to the banking situation in Michigan: "There is absolutely no excuse for becoming exercised even in the slightest degree. Our banks are maintaining a high reserve and can meet every legitimate demand."

SUPERIOR TRUST COMPANY HANCOCK MICHIGAN Capital - - \$150,000

stands that there is no real danger, our banks were never in better condition and the action taken simply demonstrates very clearly that our bankers are determined to keep their banks in the excellent condition they are now in.

An echo of those good old days of "divine right" insurance officials was the sale last week of costly furniture used to embellish the offices of the Mutual company during the McCurdy regime and which the more modest present-day officials have decided to get along without.

COPPER POOL? NONSENSE. We find the following in an exchange: "The advance in copper from 12 1/2 cents to 13 1/2 cents, the present New York price, together with the announced sales during October by the United Metal Selling interests alone of eight to nine million dollars worth, mostly for export, indicates that the collapse of the copper pool, and the consequent drop in price from twenty cents per pound to but little more than half that, has resulted in again creating a sharp demand for consumption."

Statements like this have appeared in other papers. While they are ridiculous to a person who has been following the tortuous course of the copper metal trade the past twelve months, they are a not unnatural development of a tendency to blame everything that goes wrong to a pool or a "trust."

It is further worthy of mention that there was, when the decline began, no concerted effort to hold up quotations, such as would have been expected were the pool theory correct.

It is a condition that can be seen by any who cares to look that the big groups of copper producers have nothing resembling a gentlemen's agreement, either for boosting the price of the metal or for any other purpose.

**Held a Conference**—A conference of a number of aldermen and E. W. MacPherran, land commissioner of the South Shore, was held at the city hall Saturday night, when the project of acquiring for the city that part of Spring street between Front and Lake streets now owned by the road, was discussed. No definite action was taken and the matter is to be discussed further at the council meeting tonight. The city for a long time has been seeking to acquire the street.

**Train Service Changed**—All Sunday trains on the Marquette & Southeraster were discontinued yesterday except the hunters' special which will run Sundays during the month between Marquette, Birch and Big Bay. This train leaves Marquette at 6 o'clock Sunday mornings and Negaunee, arriving at 9:15 o'clock in the morning. On week days, trains for all M. & S. E. and Munising railway main line points will leave here at 7 o'clock in the morning and 5:20 o'clock in the afternoon; for Birch and Big Bay at 9:15 o'clock in the morning; for Ishpeming and Negaunee at 9:20 o'clock in the morning.

**Closes Demonstration**—Miss G. Hooper, of the E. Burnham company, who has been at the Stafford drug store for the past week, Saturday night concluded her demonstration and is to leave this morning for Elkhart, Ind. During her stay here Miss Hooper described the E. Burnham toilet products to hundreds of Marquette ladies who called upon her at the store. She also gave instruction in facial massage, besides presenting her callers with booklets on the subject and free samples. A new lot of the samples of the various products were received Saturday and will be given to all those who did not receive them during Miss Hooper's demonstration.

**Died in Milwaukee**—News was received yesterday of the death at Milwaukee of Ben Davey, a former railway man who had many friends here. Until a year ago Mr. Davey was in the employ of the C. M. & St. P. company as a baggageman in the passenger service. He ran between Milwaukee and Marquette, finally being compelled to resign because of steadily declining health. He was a sufferer with tuberculosis, which was the cause of his death. Mr. Davey was a veteran in Upper Michigan railroading, having run into Champion for some years prior to the absorption of the old Milwaukee & Northern line by the C. M. & St. P.

**2,882 PERSONS DIED**  
IS OCTOBER REPORT

**DEATH RATE IN MICHIGAN LAST MONTH SLIGHTLY EXCEEDS THAT OF MONTH BEFORE.**

Returns for September show 2,882 deaths returned to the department of state. This corresponds to an annual death rate of 13.5 per 1,000 estimated population. This number slightly exceeds the number returned for August, but is considerably less than the number returned for the corresponding month of 1906, the rate for that month being 16.0 per 1,000 estimated population.

**Ages.**  
By ages there were 728 deaths of children under one year of age; 254 aged one to four years, both inclusive; and 730 deaths of elderly persons aged 65 years and over.

Important causes of death were as follows: Pulmonary consumption, 141; other forms of tuberculosis, 37; typhoid fever, 57; diphtheria and croup, 34; scarlet fever, 5; measles, 2; whooping cough, 13; pneumonia, 71; diarrhea and enteritis, 43; cancer, 158; violence, 224.

**Shows Increase.**  
As compared with August there was an increase in the number of deaths returned from other forms of tuberculosis, typhoid fever, diphtheria and croup, scarlet fever, pneumonia, enteritis, and cancer. A slight decrease is shown in the returns for the month from pulmonary tuberculosis, whooping cough, meningitis, influenza, and violence.

There were four deaths returned from tetanus from the counties of Bay, Berrien, Livingston and Marquette. Lightning caused one death in the county of Jackson.

**Births.**  
There were 4,151 births returned as having occurred during the month of September, giving an annual birth rate of 19.5 per 1,000 estimated population. This is a decrease of 151 from the number returned for August, but an increase of 357 over the corresponding month of the year 1906.

**FINE SPUN COTTON.**

"Sea island cotton is the best kind," said a southerner. "It is finer and silkier than any other cotton in the world. Spun of it can be spun into 4,770 miles of thread.

"For an experiment once in the English town of Manchester a skilled spinner spun a pound of Sea island cotton into a single thread 1,000 miles long.

"Then for another experiment he took another pound of cotton and spun it into as many hanks as he could get. He got 10,000 hanks in all, and the yarn in each measured 840 yards. Thus out of a pound of cotton 4,770 miles of yarn was produced. This yarn, though, was too fine to be of any practical utility."—Philadelphia Bulletin.

SUDDEN DEATH OF SILAS PATENAUDE

SUCCUMBS TO ATTACK OF TY-PHOID-PNEUMONIA CAUSED BY RUN TO DEAD RIVER FERE.

LIVED HERE ALL HIS LIFE

Was Connected With a Number of Marquette Firms and Was Member of Hose Company Twenty Years.

After a brief illness Silas Patenaude died from typhoid pneumonia at noon yesterday at his home, 137 West Hewitt avenue. Indirectly his death was caused by his service as a member of the Morse Hose company at a recent fire. He was forty-one years old and is survived by a widow and three children—Edmond, aged eleven; Helen, aged six, and Annabelle, aged eighteen months.

Born June 21, 1866. Mr. Patenaude was the son of Timothy Patenaude, who came to Marquette fifty-four years ago and who with his wife is still living. The elder Patenaude came here in 1853 and Silas Patenaude was born here June 21, 1866. He lived in Marquette all his life and there are but few Marquette residents who did not know him. He was married in Marquette Oct. 16, 1895, to Miss Maud McKee. Within the past twenty years, Mr. Patenaude was connected with a number of Marquette firms. He was first connected with the Watson & Palmer store, where he remained for a number of years. Later he assumed a position with the Wetmore Mercantile company. After leaving this he was with the E. L. Kellan grocery and from there he went to the D. Murray grocery. At the time of his death he was one of the trusted employees of the Union Clothing company.

Member of Hose Company. Throughout this entire period he was a member of the Morse Hose company and for years he had been regarded by Chief Manney as one of the most efficient men in the organization. It is said that he gave aid in putting out every fire that occurred in Marquette for the past twenty years.

The fire which led to the illness which caused his death was the burning of the Hanson boarding house at Dead River Saturday, Oct. 26. It was while fighting the blaze that he was clothes became drenched and when, after five hours' work, he returned to the city and he did not take the precaution to change his clothes but returned directly to his work at the clothing store. This resulted in a heavy cold which grew worse rapidly. When he reported for duty at the store the Monday following the fire, he was too weak to remain and his employees prevailed upon him to go home.

Had Never Been Sick. He had never before been sick and had been naturally active, he was unwilling to surrender to the disease, though it became weaker daily. He was on his feet all through the week and appeared for duty at the store a number of times but was unable to remain there. Friday afternoon, when finally he took to his bed, he was delirious. He sank rapidly until his death yesterday.

At the funeral, which is to be held Tuesday morning, members of the hose company are to be his pall bearers. The body will be taken from the home at 9 o'clock to the French Catholic church where the funeral service will be held. The burial will be in Holy Cross cemetery. It is probable that the Negro and Hispaning departments will attend the funeral.

DEATH OF NICHOLAS RITZ.

Succumbs to Attack of Pneumonia Yesterday at St. Mary's Hospital.

Nicholas Ritz, who had made his home in Marquette for the past twenty years, died last night at 5:30 o'clock from pneumonia at St. Mary's hospital. Mr. Ritz had been an invalid for some time. He was forty-five years old. For some time Mr. Ritz was a member of the Morse Hose company, resigning five or six years ago. He was engaged in the paper hanging and decorating business. He made his home at the Hotel Brunswick. Mr. Ritz's former home was in Louisville, Ky., and the body will be shipped there for burial.

FIRST NATIONAL GIVES PRIZE.

Offers \$5 to Boy Winning Farmer's Subscription Contest.

An error was made in the article commenting on the progress of the voting contest being conducted in the district of which Marquette county is a part by the Northwestern Farmer, published at Menominee. It was stated that the Marquette National had offered a \$5 special prize to the boy making the best showing. This special prize is, instead, offered by the First National, which entered into contract with the publishers of the Northwestern Farmer to put it up, thus further rewarding the energetic boy that wins the trip to Washington and encouraging the work of booming upper peninsula agriculture, with which the Farmer is engaged. The contest is attracting much attention all over the upper peninsula, which has been divided into several districts, and large numbers of boys are hustling for subscribers to the Farmer. In each district one of the banks offers a special prize of \$5, just as the First National is doing here.

SAY DRIVERS ARE CARELESS.

Report is That Crossing Accidents Have Been Narrowly Averted.

Within the past week a number of complaints of careless driving have been filed with the authorities and there is a probability that arrests may be made. It is stated that a number of drivers of delivery wagons have narrowly missed running over persons at some of the crowded downtown corners. Should an accident of the sort occur, the owners of the vehicle causing it would be clearly liable for any damage done. Under the law pedestrians have an equal right with vehicles at any point on roadways, and at crossings their right is superior to that of vehicles.

196,427 PIECES OF MAIL ARE HANDLED

MARQUETTE OFFICE RECEIVES 2,357,148 PIECES YEARLY—65,000 TWO-CENT STAMPS ARE SOLD EVERY MONTH.

The big task of counting and weighing the mail which was conducted at the postoffice through the month of October is finished and the report is now being compiled. The number of pieces of first-class mail alone that was received at the office during the month was 116,429. This includes departmental mail, penalty mail that is used usually by government offices and which requires no postage. It takes its name from the fact that there is a penalty attached for using it for improper purposes.

Based upon the figures of the month it is estimated that within a year the Marquette postoffice received for transmission 1,397,148 pieces of first class matter alone. For the month just closed about 80,000 pieces of mail other than first-class was received at the office, making the month's total number of pieces of mail of all kinds 196,429. This would make an annual total number of pieces of 2,357,148.

The month's revenue from first-class mail alone last month was \$2,168.58. The estimated annual revenue is \$26,022.96. Including mail of all classes the annual revenue is about \$32,000. Within a year the office handles about 100,000 pieces of penalty mail alone. This large amount of mail of this class is due to the presence here of government offices such as the collector of customs, the land office, inspectors of mails and boilers, weather bureau, department of justice and the referee in bankruptcy.

13,800 Post Cards Monthly. Approximately 65,000 two-cent stamps are purchased at the Marquette postoffice every month and besides this, about \$1,000 is expended for stamped envelopes and \$150 for the stamp books issued by the government. The office also disposes of about 13,800 post cards each month.

TO DISCUSS IMPROVEMENT.

Meeting of Marquette County Agricultural Society Tomorrow Afternoon.

A meeting of the directors of the Marquette County Agricultural society has been called and will be held tomorrow afternoon at 3 o'clock in the office of M. E. Asire, secretary. At the meeting the project of erecting a new cement fence around the fair grounds will be discussed.

WILL ISSUE NEW MILEAGE BOOKS

TWO-CENT RATE 1,000 AND 2,000 MILE BOOKS TO BE USED AFTER DEC. 1.

All passengers on railway trains operated in the territory of the Western Passenger association will be enabled on and after Dec. 1, to purchase 2,000 or 1,000-mile books upon the flat rate of two cents a mile, from any of the roads that are now members of that association. These books are to be issued by the roads as a matter of convenience to the traveling public. Under the final agreement of all roads the lines now in the Western Passenger association will sell to "bearer" either a 2,000 or 1,000 mile book. The 2,000 mile books will be interchangeable on the roads in the association, being accepted for passage on any lines in the association. In northern Michigan and South Dakota, where the rate is three cents a mile, the books will be good upon that basis, and conductors will detach enough extra mileage to make up the difference between the two and three-cent rates. These books will be sold at \$40 flat, and will be good for bearer on any train in the association territory, but not more than one person may travel on a single book on the same train. The 1,000 mile books, to be sold at \$20 flat, will be issued also to "bearer," but will be good for travel only on the road issuing them. Otherwise, the same conditions as will prevail on the 2,000 mile books will govern. Both of these books will be a source of great convenience to the traveling public, the 2,000-mile interchangeable issues being particularly adapted to the wants of commercial men, who have been buying tickets from station to station since the two-cent laws became operative.

Specializing On Overcoats at \$20.00

Fall Overcoats at \$20.00 are a matter of great concern with us. The fact that the price is low for hand-tailored O'Coats, does not prevent us from giving them the most energetic and careful attention, and the results are splendid—splendid in the immensity of the assortment, splendid in the style and tailoring. These results are only obtainable through the exacting demands of our own shop. The newest box models and semi-fitted models are shown in elegant velour cassimeres and thibets, in black and the clever gray tones. Every size for every man.

WEDDING ANNIVERSARY.

Mr. and Mrs. John Quarters, of 208 East Crescent street, were married twenty-five years last Friday, and the event was made a pleasant one by the unexpected visit of number of friends and relatives of the couple. They were the recipients of a number of handsome gifts. Before her marriage Mrs. Quarters was Miss Margaret Omara. Mr. Quarters came to Marquette over 40 years ago and has made his home here ever since. Mr. and Mrs. Quarters have six children, five of whom were present at the anniversary celebration. The son who was absent joined the navy a few months ago.

WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 200 grams of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, fits, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filter right you will have no trouble with your kidneys.

Samuel McMillan, 589 Morton street, Marquette, Mich., says: "A long time ago I had bothered me for a long time and I had consulted doctors and used many different medicines, nothing ever acted as quickly and effectively in my case as Doan's Kidney Pills. My trouble had been a dull aching in the loins and back and pains that struck me in different parts of my body and kept me miserable day and night. Loss of sleep was undermining my health and nothing that I used helped me. At length I got Doan's Kidney Pills at the Stafford Drug Co.'s store, and after using them a short time the backache disappeared and with it all symptoms of kidney trouble. I have had no trouble of the kind since, and feel confident that Doan's Kidney Pills have brought me a permanent cure."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.
