

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$3.00; Per year, by mail, \$30.00.

MARQUETTE, MICH., NOV. 5.

Entered as second class matter of the second class in the postoffice at Marquette, Mich.

Not ever having had professional hockey, Marquette has nothing to give up.

There is now much speculation as to what the president will put into his next message. Let's of pepper, for one thing.

The miners in the Lake Superior copper region ought to be able to stand the prospective cuts in wages philosophically; let them note conditions in some of the other copper camps.

The comparative nearness of the regular long session makes it probable that the talk of an extra session of congress to grapple with our financial problems will continue to be just talk.

The copper country would have none of the Northern-Copper Country league baseball, and now we are informed that in all probability the hockey it enjoys this year will be of the amateur variety.

Roswell P. Bishop of Ludington, a former congressman, has been offered and will accept the chairmanship of the Spanish war claims commission.

A correspondent writing on U. P. politics, under a Menominee date line, suggests W. F. Knox of the Soo as a candidate for senator to succeed O. B. Fuller.

The Bigelow interests are the only ones in the copper country that have not announced a reduction in the wage scale.

The organized beet sugar interests of the state have smoked out Congressman Loud on the subject of tariff arrangements.

The football season has now taken another big step toward its close. Michigan defeated Vanderbilt, even though it failed to make a touchdown.

Thousands of people throughout the country know that the ordinary remedies for Piles—ointments, suppositories and appliances—will not cure.

Advertisement for Superior Trust Company, Hancock Michigan, Capital \$150,000.

Upper Peninsula Milk Goes Up a Cent—The dairymen of Iron Mountain have issued the following notice:

Church Fair Profitable—An eight-days' fair just held by the congregation of St. Patrick's church at Escanaba is conceded to have been the most successful in the history of the city.

Fire Destroys Ice House—Fire destroyed the Soo Line ice house at Gladstone last week. The company and city departments worked together.

To Double Pumping Capacity—That the pump installed by the city at the Light & Power company's plant has been inadequate for the work required of it has been apparent ever since the water system was built at Manistique.

Accused of Embezzlement—A Detroit dispatch says: "Charged with embezzling more than \$9,000, while acting as agent of the Ann Arbor mill, road in Manistique, Mich., Ernest W. Angell, aged twenty-five, is under arrest.

Girls on a Strike—The girls at the plant of the Escanaba Manufacturing company went out on a strike last week because of the fact that a few of their number had been discharged.

CLEANLINESS IN GERMANY. A correspondent of one of the magazines reports having overheard a conversation between a native born American and a newly arrived immigrant from Germany.

Our American admirer of the German government saw it from afar off and in the long period between wash days. No surface evidence of dirt being visible he jumped to the conclusion that it was cleaner than our government.

THEY KNOW IT Thousands of people throughout the country know that the ordinary remedies for Piles—ointments, suppositories and appliances—will not cure.

DANCING PROVES FATAL Many men and women catch colds at dances which terminate in pneumonia and consumption.

C. & H. MINERS' PETITION.

President Agassiz Will Give Answer in a Week's Time.

The petition of the Calumet & Hecla miners, asking a reduction in the cut in wages from 12 1/2 per cent and for the redress of other grievances, was presented to President Agassiz yesterday morning. Both the officials and the men were secrete, but a hint of the nature of the petition was thrown out.

The men ask that the cut be only 5 per cent, instead of 12 1/2, and that the help who have been laid off be taken back to work. The miners say that a number of underground men have been laid off, and that help who have been going small work with the miners have been taken from them, adding to their labor. They ask that this be adjusted.

The president declared that he could not interfere with the company's policy, but that as to the other matters he would investigate and give an answer in a week.

HOUGHTON CIRCUIT COURT.

Term for November Will Convene a Week from Next Monday.

Just two weeks will now elapse before the opening of the November term of the Houghton county circuit court. Judge Crover convened the Keweenaw term yesterday morning at Eagle River, and will easily conclude that term before the date set for the opening in Houghton.

The Houghton term will not be of particular interest to the public. There will be no criminal cases of great importance. The term will be the first one for a long time which does not bring out a murder trial. There are a few cases of serious assault, and the usual number of saloon cases. The civil calendar is equally barren of cases with news interest. What the next two weeks will bring forth in the way of crime and litigation is open to conjecture, of course, but at present the outlook is for a brief session of court.

In Keweenaw county there was only one criminal case booked for trial in the term which opened yesterday. This was that of Joseph Karakas, charged with assault. Keweenaw county has not had in many years more than two criminal cases on its circuit court calendar at one time, and often it has had none at all. The present term will bring out a number of applicants for citizenship, something unheard of for years in that county. This is taken as an indication that the population of the county is growing, largely from alien sources.

Contains no Opium or other harmful drug.

HOUGHTON COUNTY ELECTRIC LIGHT CO.

HANCOCK CITY COUNCIL.

Meeting Last Night to Discuss Refunding Bond Sale.

The Hancock city council held a regular meeting last night. The principal business was a discussion of the probable sale of the \$50,000 refunding bond issue authorized early in the summer. The present financial situation in the county is not favorable to bond sales, and the council is in a quandry. The money is needed to take up outstanding warrants against the city treasury, and also to pay Blome & Co. of Chicago for the Quincy street granitoid pavement. It was considered probable yesterday that local banks would take the bonds.

MANY SEEKING WORK.

Idle Men in the Street—Chicago Contractor Wants Men.

The reduction in wages and the laying off of numbers of men by various mining companies, small in each case, but pretty large in the aggregate, is becoming apparent in the numbers of idle men seen in the streets. So far the condition has been such that no hardship, but it is being discussed and the prospect for winter for many laboring men is not very bright.

The Mining Journal has information which may be of interest to these men. A big Chicago contractor writes this paper that he can use from twenty-five to thirty drillers on his tunnel work in the city, and that he pays \$3.50 per day. Superintendent Foley of the Houghton public works department has taken over the correspondence, and will be glad to inform any applicants as to the manner in which they can obtain this employment. The contractor states that there is plenty of work for laboring men in Chicago.

CLOSE OF BIGAMY CASE.

Injured Wife of Minnesota Convict Gets a Divorce.

The Duluth Herald recites the last chapter of the story of James Doyle of Duluth, who married Miss Jennie Calkins of Houghton, though he had at the time a wife living. It says: "James C. Doyle of Duluth, who was sentenced to a term of three and one-half years in the state penitentiary last February because he was too much married, is now free. Kathryn Kamp Doyle, his first wife, has just obtained a divorce from Doyle at Grand Rapids, Mich., presumably on the ground that her husband is serving time in a penal institution.

"James Doyle and Kathryn Kamp, according to the records in the Doyle bigamy case, were married in Chicago, in 1892. Mrs. Doyle went to Grand Rapids, Mich., in 1901, and her son, who is now eleven years old, went to live with his grandparents, in Ohio. Doyle, who was a traveling man, is said to have visited his wife in Chicago up to about two years ago, when the visits ceased altogether and Mrs. Doyle lost track of him.

"About a year ago Mrs. Doyle's little son wrote her that he was going to Duluth to visit his father and mother. This information caused Mrs. Doyle to institute an investigation with the result that she discovered Doyle had married Grand Rapids, Mich., in 1901, and was residing in this city.

"The legal Mrs. Doyle came to Duluth and caused the arrest of her husband on the charge of bigamy. He was indicted, tried and convicted, and entered on his term in the state penitentiary Feb. 28 last. Mrs. Doyle returned to Grand Rapids, and recently instituted the divorce proceedings.

"Doyle was in business in this city at the time of his arrest, being prominently connected with the Doyle Manufacturing company."

LIFE OF CHARLES W. SANDERS.

Brief Sketch of the Career of the Engineer Now Deceased.

The arrangements for the funeral of the late Charles W. Sanders, chief engineer of the Copper Range railroad, who died at the Hotel DeW, Sunday morning, are still incomplete. Mrs. Sanders has been notified at Los Angeles and R. T. McKeever, general manager and vice president of the road, is on his way to Houghton from Boston. Until Mrs. Sanders is heard from the final arrangements will not be made. The late engineer will have a Masonic funeral, but whether the remains will be interred here it is impossible to state at this time.

Mr. Sanders had an interesting career as a railroad engineer, and a brief story of his life is here given: He was born Dec. 13, 1856 at Worcester, Mass. He graduated from the Worcester Polytechnic Institute with the degree of C. E. in 1876. He entered the railway service with the Atchafalaya, Topeka & Santa Fe railroad, with which he was connected until March, 1880 as draughtsman, instrument man, etc. From March, 1880, to February, 1886, he was with the Atlantic & Pacific railroad at Albuquerque, N. M., as instrument man, office engineer and resident engineer. From February, 1886, to February, 1887, he was assistant engineer on construction in charge of bridges and buildings of the Colorado Midland railway. From February, 1887, to June, 1889, he was chief draughtsman for the Southern California railway at San Bernardino, Cal. From June, 1889, to May, 1890, he was office engineer for the Union Pacific railway at Omaha, Neb. From May, 1890, to June, 1896, he was in general practice as civil engineer at Los Angeles, Cal. He came to Houghton in June, 1896, as assistant engineer on the Copper Range and in July, 1900, he succeeded Thomas Appleton as chief engineer, which position he held to the time of his death.

CURED OF BRIGHT'S DISEASE.

Mr. Robert O. Burke, Elmora, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night, and I was all bleated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50 cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." The Stafford Drug Company.

DATA OF OCTOBER COMMERCE.

Traffic Shows a Decrease—Copper Shipments Fall Off.

The United States engineer's office at Houghton yesterday published the statistical report of the commerce through Portage lake during the month just closed. The traffic shows a falling off as compared with the preceding month of September and with October the previous year. The principal tables of the report follow:

Table with columns: Bound Down, Steam, Tow barges, Totals, Bound Up, Steam, Tow barges, Totals. Includes data for vessels, cargo, and passengers.

Table with columns: Bound Down, Coal, Iron, Pig iron, Flour, Wheat, Lumber, etc. Includes data for various commodities.

Table with columns: Bound Down, Coal, Copper, Coke, Manufactured iron, etc. Includes data for various commodities.

Table with columns: Bound Down, Scows, Rafts, Logs, Lumber, Timber, etc. Includes data for various commodities.

HOCKEY SCHEDULE MEETING.

League Magnates Will Meet at the Soo This Week.

A meeting of the schedule committee of the International Hockey league will be held at the Soo this week to plan the season's games. The call of the meeting is based on the belief that there will be a five-club circuit this year. The committee will go ahead on that basis, but if there are no professional hockey teams in the copper country, as suggested in these columns yesterday, the schedule will be wasted work. As to the abandonment of professional hockey here, it is best to wait and see; there is nothing official so far, but neither the Portage Lake nor the Calumet team has done anything toward signing players.

CAPT. BEEN'S FUNERAL.

Late Mariner and Pioneer Will Be Interred Today.

The funeral of the late Captain Walter Been of Skanee will take place from his late residence at that place this morning. The remains will be interred in the Skanee cemetery. Captain Been died suddenly last Thursday while enroute from LAnise to Skanee. He was on his way home from a visit with his son, John T. Been of the Tamarack mine at Calumet. He was alone and no one will know the exact manner of his death, though it is believed he had a heart ailment. He was eighty-four years of age but was vigorous and apparently in perfect health only a short time before his demise. Captain Been was of Swedish birth and as a young man was an ocean sailor. He lived at Skanee for thirty-five years and had a magnificent farm and orchard there. His wife and five children survive.

HUNTING SEASON NEAR.

Demand for Licenses Is Normal and Deer Are Plentiful.

County Clerk Richardson had up to yesterday sold 200 deer licenses, and the demand is normal, and that if the weather is at all of the sort demanded by hunters he expects to sell the usual number of permits this season, some of them more than 1,000. The snowfall of Sunday morning was pleasing to the hunters as indicating that snow may not be expected at any time. Bird hunters returning to the towns report that the indications are for about the usual supply of deer, and the railroads report a large number of upper peninsula hunters who are coming into the district early to establish their camps. The deer season this year will be much of a sameness with those of other years. Hunters are getting out their woods tags and the usual number of freak uniforms are being designed, having the purpose to prevent the wearer's being taken for game.

It is remarked that hunters in this region have little faith in the law which makes the accidental shooting of a human being while hunting a state's prison offense. In the two years of the law's existence there have been frequent accidents, but so far, if memory serves, there have been no convictions. Hunters therefore take the usual precautions against accidents, having little faith in the law's moral effect on the careless nimrod. The season will bring prominently into use two new weapons of destruction. These are the automatic rifle and the expanding bullet. The automatic rifle of big game capacity appears in the copper country this season for the first time, though similar guns of small calibre have been sold heretofore. The expanding bullet appears at the first blush to be a barbarous missile, its advertising dwelling on the gaping and bloody wound it makes, but the hunters claim it is humane, as the deer struck with it is instantly killed.

AN ANNIVERSARY WEEK.

The present week has a dual interest for the Hancock M. E. church. It is the fifth anniversary week for the congregation and it is also a week in which a campaign for funds to reduce the debt on the church will be waged. There will be a program or service every night, commencing with a concert this evening. This concert will bring forward the best musical talent in the copper country, and should be ranked as one of the musical events of the season. During the week there will be a bazaar and a supper, and next Sunday night a special religious service will be held.

Mining News
BUTTE COPPER PRODUCTION.
The October production of the Butte camp was 8,750,200 pounds, and but 32 per cent of the average for the first half of the year. For the first ten months of 1907 the output of the Butte camp shows a decrease of nearly 84,000,000 pounds, or 27 per cent, from the production in the same period of 1906. The October output was the smallest in the history of the big mines. None of the small companies produced any copper and very few leasers shipped ore, though a number have been mining and storing their output, as for example the operators in East Butte ground. La France and Pittsburg & Montana have been closed for nearly two months. The record of the Butte mines in detail for October showing tons of ore mined daily, pounds of copper per ton of ore and total pounds of copper produced every twenty-four hours is approximately as follows:

Table with columns: Mine Name, Daily tons ore, Lbs. copper. Includes Anacosta, Bos & Mont, Parrot, Washoe, Butte & Boston, North Butte, Butte Coalition, W. A. Clark, Trenton, Miscel, total.

NOTES OF COPPER NEWS.

All work on the Davis-Daly properties has been stopped, including crosscutting in the Colorado mine. The north crosscut from the 1000-foot level in the Colorado has cut a big ledge within 100 feet of the top. The ledge is cut in rock appears to be a fault, and no ore of commercial value has been found there. Several stringers were also cut south of the shaft. It is not likely that work in any of the copper situations and the market is normal again and until amalgamated resumes full operations at its mines and smelters.

All the large Boston commission houses report an unprecedented demand for old lots of investment stocks which are paid for in cash. The prevailing ratio of buy to sell orders now is about 4 to 1. The head of one of the largest banking houses in Boston says: "During the past week we have opened over 100 new accounts and these are largely cash customers." There are some instances where Boston commission houses have taken up their accounts with their New York correspondents. There are others who do not owe a dollar of call money and others have in banks two and three times the amount they owe on call. Hundreds of new accounts have been opened in Boston during the past two weeks and orders have been received from people who have not been in the market for years. The cash buying at the Hub has aggregated millions of dollars.

President Amster of the Shannon says that the cost of production at the mine has been reduced at least two cents a pound. He asserts that the output will be made for not over ten cents and will be laid down in New York, including refining and selling costs, at not more than 11 1/2 cents against a cost of 13 1/2 cents a pound last year. The Shannon is going right along producing copper. The directors have taken no action on the dividend that was due to be paid Oct. 1 and according to present appearance no action will be taken until the next quarterly period. With copper at even eighteen cents the directors felt that Shannon could earn and afford to pay \$2 a year but when the metal broke to twelve cents it was considered good business judgment to suspend dividends. Now that the metal market has taken a turn for the better, it is likely that Shannon will re-enter the dividend-paying class.

NEXT MEETING AT CALUMET.

Resolutions Adopted at Educational Meeting at Escanaba.

At the meeting of the Upper Peninsula Educational Association at Escanaba the following officers were elected for the ensuing year:
President, H. E. Kratz, superintendent of schools at Calumet.
Vice President, E. E. Scribner, superintendent of schools at Ishpeming.
Secretary, J. B. Faught, head of the mathematics department in the Northern Normal.
Treasurer, C. E. Cullen, superintendent of schools at Norway.
L. L. Wright, state superintendent of public instruction, and F. D. Davis, superintendent of the Escanaba schools, were elected members of the executive committee, to succeed A. E. Sterne and E. L. Parmenter.
The following resolutions were adopted:
"We wish to record our faith in the wisdom of the provision of our present state constitution, which requires that all specific taxes be converted into the primary school interest fund, and we earnestly hope that the present constitutional convention now in session will take no action to interfere with this provision."
"We are gratified with the foresight of the legislatures of Indiana and Ohio in passing a minimum salary law for teachers and regret that a similar measure met defeat at the hands of our state legislators."
"We express the hope that the constitutional convention will enlarge the position of state superintendent of public instruction, giving to this office the dignity and power essential to the best interests in Michigan."
"We heartily endorse the efforts of all county commissioners of schools and township superintendents who are endeavoring to introduce nature study and elementary agriculture into the curriculum of the rural schools. We believe that through co-operation with the Upper Peninsula experiment station a course may be laid out for such schools, which will make the children more alive to the agricultural possibilities of their surroundings."
"We hold that the Northern State Normal school, because of its efficient corps of teachers, its thorough equipment, and the ability of its graduates, should receive the hearty support of every superintendent of schools in this peninsula, not only through their words of praise for the merits of the institution, but also in their efforts to influence as many as possible to attend it."
"We again urge that normal schools, colleges and universities, in determining entrance conditions, give fuller recognition of the work done in high schools, in manual training, and in domestic science."
"We believe there should be established in the upper peninsula a state industrial school for boys. Such an institution for wayward children close at hand, would in time tend to decrease the criminal class of the future. By taking care of neglected boys as well, it would aid powerfully in enforcing the compulsory attendance law against irresponsible parents."
"We believe that the formation of right habits of study and the best use of the study period by intermediate and grammar grade pupils in our public schools are matters of vital importance which have not received the careful and systematic consideration of teachers that their importance demands."
"We further believe that in many school rooms there is a tremendous loss of time and energy on the part of pupils, because they have not developed the power of concentration and are severely handicapped by bad habits of study into which they have dropped through lack of proper guidance."
"We would therefore urge upon teachers everywhere the need of a careful investigation and supervision of pupils' habits of study, believing that such investigation has in it the possibilities of greatly increasing the efficiency and progress of school room work."
"We earnestly urge that a fuller recognition of the diplomas and certificates of normal schools in good standing should be arranged between the state boards of the various states. We wish to give the sincere thanks of the association to Supt. F. D. Davis, Mr. E. A. Ellsworth, and the citizens of Escanaba who have seconded them so heartily, for their hospitality and good cheer and the efficient arrangements made towards making this meeting of the association so pleasant and successful."
"We would also thank the ladies of Escanaba, and visiting ladies who have furnished music during the meetings."
"We would heartily thank the officers of the association for their efficient and untiring efforts to make this meeting so helpful and successful."
"The meeting of the association next year will be held in Calumet."
Principal Kaye called the attention of the members to the fact that the success of the organization depended on a thorough and carefully prepared constitution. The president was empowered to appoint a committee of three, with himself as an ex-officio member, to draw up a constitution to be submitted to the association at its meeting next year. The members are to hold a meeting at the expense of the association.

MICHIGAN ADOPTS THE POLLARD PLAN

NEW ACT PROVIDES THAT CONVICTED INEBRIATES MAY BE RELEASED UPON PLEDGES.

LAW IS NOW EFFECTIVE

Recent Action of Legislature Is Based Upon Plan Originated Three Years Ago by St. Louis Judge.

Some three years ago Judge William Jefferson Pollard, of the Second District police court of St. Louis, Mo., inaugurated a novel method of administering justice to men who were brought before him upon charges of drunkenness. This method soon became known as the "Pollard plan" and it made its author internationally famous. Now the Michigan legislature has taken up the "Pollard plan" and in a law passed at the recent session directs that it be followed in courts throughout the state.

The "Pollard Plan" Briefly, the "Pollard plan" is to parole persons convicted of drunkenness for a stated period after a fine has been imposed. If the convicted person's record at the end of the period has been satisfactory, the fine is remitted and the case is dismissed. When the St. Louis judge first inaugurated the plan, he directed the offenders he paroled to report at his court twice weekly. The one who reported was required to bring with him some one who could vouch for his good conduct. Within a short time the judge had a hundred or more persons reporting at his house.

Internationally Known. The St. Louis newspapers were quick to make the most of the judge's unusual procedure. The reports they printed were copied widely and soon were read in all parts of the United States and in Europe. Then a number of judges throughout the country adopted the plan in their courts and in nearly all of the municipal courts in England it has been adopted. So well, in fact, did it succeed in England that when last year the author of the pledge made a tour of the British Isles, what he had planned as a pleasure trip became a succession of receptions and public assemblies at which he was welcomed.

A committee of the British parliament presented him with an endorsed testimonial endorsing the "Pollard plan." In the recently adopted Michigan act, the identical pledge which for the past three years has been in use in the St. Louis police court is given. The law, which is an amendment of the existing law governing the subject, is as follows:

The Law. "When a person is convicted of the crime of being found intoxicated, the court before whom conviction is had may, in its discretion, upon payment of taxable costs by the respondent, suspend the collection of the fine and the execution of the sentence of imprisonment, or both, for a definite period to be fixed in the record of conviction; such suspension, if made, to be on condition that the respondent wishes to and does pledge himself to wholly abstain from the use of intoxicating liquors as

a leverage for such period as the court may direct, not exceeding one year. And when it is made to appear to said court that such pledge has been kept, the sentence in the case shall thereby be fully satisfied and the prisoner discharged. The record of such conviction shall show the suspension of the sentence therein set forth and such pledge and final action thereon. If, within such time of suspension, it appears to said court that the respondent has not kept such pledge, or that the public good or the interest of the respondent so require, mittimus shall issue at once. The form of pledge shall be substantially as follows:

The Pledge. "As evidence of my appreciation of the opportunity given me by law to become a sober and better citizen, in staying the fine hereby imposed upon me this day, I hereby freely and voluntarily sign the following pledge: 'I will abstain from the use of intoxicating liquors of every kind and character for the period of _____ day of _____ 19__.'

FAMILY OPPOSED TO MATCH.

Count Szechenyi's Relatives Divided on Subject of Vanderbilt Alliance.

Albany, N. Y., Nov. 3.—Miss Gladys Vanderbilt and her fiancé, Count Szechenyi, are at Sagamore camp in the Adirondacks, championed by one of the gayest parties of society people which has lunched in that exclusive reservation for many a day.

While the ostensible object of the party is purely pleasure in which the girl will figure conspicuously, it is also certain that family objections to the marriage of the winsome young heiress and the count will be fought out from all strategic points of view.

Count's Relatives Not Agreed. The latest reports from Hungary are that the count's relatives are not entirely in harmony as to the marriage. Then there is objection on the part of the Vanderbilts, who, it is recognized in society, is set on the match. To effect family harmony before the wedding, which is set for Dec. 4 at the Breakers at Newport, is one of the essential features of the stay at Sagamore camp.

Society is satisfied as to one thing, and that is Miss Gladys, when she goes abroad, will not find all the relatives of the count—that is, all the feminine relatives—old enough to be her grandmother and frights in appearance. The count has two lovely sisters about the same age as herself. One of them, the Countess Maria, is unmarried. She is a beautiful girl, and it is hoped that she may visit this country. If she does those who have seen her declare Newport will worship at the shrine of beauty. The other is the Countess Haugnetz, the count's married sister. She is older than the beauty of the family, as Maria is termed, but is a very pretty woman and all Europe will testify.

The Countess Emily Szechenyi, wife of Count Edeus, elder brother of Count Laszlo, who was born Countess Caraman-Chinay, is one of the most beautiful women of the courts of all Europe. She is a striking beauty, with an elegant figure, and her courtly manner, coupled with a most charming gracefulness, have made her one of the most beloved of Hungary's nobility.

Difficulties for Heiress. Society people do not hesitate to state that the American heiress, with all her vast millions, has a far greater struggle to win her way into the friendship of the Hungarian court than the young count has to surround himself with friends and supporters in this democratic land. Since 1897 the Szechenyis have been titled aristocrats in Hungary. Hardly a line of the nobility in the realm dates their name or has won more favors from the throne. The ancestors of the present

head of the house were nearly all dignitaries, statesmen, renowned soldiers or trusted diplomats. The count himself is a member of the House of Lords.

Some surprise has been expressed abroad that the count should come to America for a bride, but the Budapest papers condone his marriage by stating that the bride's father was formerly the most respectable grocer, whose family has moved in the most exclusive American society circles, so that the stepdown is therefore not so great as might at first be surmised.

When the national horse show opens in Madison Square Garden the fashionable world will see the couple. Mrs. Vanderbilt, Miss Gladys and Count Szechenyi will occupy the Vanderbilt box at the show.

HEALTH SEEKERS BURIED.

Karatagh, Overwhelmed by Mountain Fall, a Famous Resort.

St. Petersburg, Nov. 4.—Many inhabitants of other places in the province of Hissar, where the earthquake occurred, perished in the mountain side that buried Karatagh and its people, it is feared. The town was a health resort for the better class throughout the old Bokhara khannate, and except in winter its population is largely increased by these seekers after the cool air of the hills, when the bare, arid regions are almost uninhabitable. The whole stricken district is 2,500 feet above the level of the sea, while the mountains between which the doomed town nestled towered far above that height.

Karatagh lay within striking distance from the Afghanistan frontier and in the path of Russia's advance on India, which so much alarmed a part of the British public years ago. It was at Karatagh and other places scattered through the great waste of southern Tartary that large Russian forces were reported as gathering, when Russia pushed her railway system through the Bokhara province. Since this spectre has been laid by Japan's demonstration of Russia's weakness, the world had lost interest in Bokhara.

ALL BUILDING SUBMARINES.

Great Powers Much Interested in New Type of War Vessel.

Washington, Nov. 4.—The interest that the various powers manifest in submarines is well shown in the latest lists of naval construction. Up to March this year Great Britain had thirty-seven submarines in commission and eleven more in various stages of construction. Her earlier ones are about sixty-three feet long, with engines of 160 horsepower; the latest British type of submarine is 135 feet long, 600 horsepower. Great Britain pays for her latest and best submarines \$400,000 each. Russia has thirty submarines built and a building. France, according to latest reports, has forty in commission and fifty-nine others on the ways. Her biggest boat is 200 feet long, 1,700 horsepower, makes fifteen knots, carries torpedoes and costs \$500,000. Japan has seven submarines, Italy six, Germany three.

13.5-Inch Guns for Brazilian Ships.

It was rumored recently that the new British battleships of the Dreadnought type were to have 13.5-inch instead of twelve-inch guns. It was known that such guns were being constructed, but now appears, however, that they are for the two Brazilian battleships the orders for which have been placed with the Armstrongs of England. These gigantic guns mark a notable step in naval construction and armament. They will be mounted in special barbettes, and so arranged that they will be able to concentrate their fire on either broadside. It is declared that the piercing power of the shells thrown by these great guns will be greater than that of any others now in use.

COBALT GOSSIP

Preparations are being made to double the force at the Colonial during the next few days, and a big winter's work is planned. No. 1 shaft is down 100 feet, and No. 2 down seventy-seven feet, and so on to the extent of nearly 300 feet has been done. From No. 2 tunnel, which is in the diabase, some new ore has been taken out.

The new vein on the Temiskaming & Hudson's Bay mine is looking particularly well. It is from twenty to thirty feet wide, and runs 200 ounces to the ton on the surface. This is the second vein of the same kind in the camp, the other being on the Nova Scotia.

The Silver Queen has fifty-two men at work, and is running five drills. Diamond drilling is being done horizontally in the side of the bluff to the south of the present workings, and a distance of 100 feet has been reached. No. 2 located last summer, was tapped at the end of the crosscut, and is now on a main shaft at the seventy-five-foot level. It was 165 feet from the shaft, and 300 feet of drifting has been done on this vein at that level. The vein has an average width of seven inches, and is one of the richest veins of the camp. Its average assay has been 4,400 ounces of silver to the ton, and like the rest of the ore in this mine, carries considerable nickel, but very little cobalt. The main shaft at the Queen is down 150 feet, and 500 feet of drifting done at the seventy-five-foot level and 800 feet at the lower level. The Queen shipped three cars of low-grade ore about three weeks ago, and two of which went to New Jersey and one to Copperfield, and it will ship a car of its rich ore next week.

Among the mines in active operation is the Silver Queen, where the new smelter, which for the last six months has given satisfactory results, is now on regular working order. From now on the company will treat the No. 1 ore taken out of the mine, which is free from cobalt and arsenic, and then ship the metallic ore. This No. 1 ore is melted in the crucibles of the furnace, which contain 95 per cent silver. Besides smelting calcite ore the Silver Queen will continue to ship high and low grade ores. During the last two weeks three cars of the latter have been shipped, and this week a car of No. 1 will likely be sent out for treatment. The shaft on the Silver Queen is now down 150 feet, and from the two levels, one at seventy-five feet and the other at 125 feet, upwards of 1,700 feet of drifting has been done, as well as 145 feet of crosscutting. Vein No. 2, which was found off the main shaft at the seventy-five-foot level, is showing now a width

of seven inches, and runs over 4,000 ounces of silver to the ton. The vein was located about two months ago. At present five drills and a diamond drill are being operated, and fifty men are employed.

PROMINENT MASON DEAD.

Washington, Nov. 4.—Frederick Webster, secretary general of the supreme council of the Scottish Rite Masons, Southern jurisdiction, died tonight.

AHEAD OF SCHEDULE.

Torrington, Conn., Nov. 4.—Weston, the aged pedestrian who is walking from Portland, Me., to Chicago, arrived here at 9:40 o'clock tonight, thirty miles ahead of his schedule.

BULL BAITING IN PANAMA.

Colon, Nov. 4.—The celebrations in honor of the fourth anniversary of the birth of the republic of Panama, which began Saturday, will end tomorrow. They include various amusements for the general public, bull baiting and fireworks.

Mining News

The mine and smelter employees of the Granby Smelter company at Grand Forks, B. C., have had their wages cut fifty cents a day. The British Columbia Copper and Dominion Copper companies will make a similar cut.

The Old Dominion company has reduced wages to the old basis. Miners at Globe will hereafter receive \$3.50 per day instead of \$4. Other Arizona camps will follow the lead of the Amalgamated in placing miners' wages in the West upon a \$3.50 per day basis.

The reports that the Nevada Consolidated Copper mine has closed down is denied. It is still in full operation. The shaft is completed and the mine is ready to ship ore to its concentrating plant as soon as the plants are ready. One concentrating unit will be ready before Jan. 1 and two others will be completed shortly after. While waiting for the completion of the plants a certain number of employees will not be required and these have been laid off.

The directors of the Parrot Copper company, a subsidiary of the Amalgamated Copper company, will meet this month for dividend action, but it is not to be expected that a dividend will be declared. The company has been paying at the rate of twenty-five cents a share quarterly. The shaft of the Parrot mine is down 2,650 feet and in a few days the company will begin crosscutting from the 1,900 and 2,000-foot levels. Mining now is being done on the 1,900, 1,700 and 1,500-foot levels, with an output of from 125 to 150 tons of rock per day.

Hearings were held at Boston last week in the suit of the Old Dominion company vs. A. S. Bigelow to recover 50,000 shares of Old Dominion stock alleged to have been wrongfully obtained at the time of the promotion of the property. This suit was brought about two years ago and a master appointed to take testimony. Hearings have been going on ever since and all the witnesses have now been before the master. At the hearings last week counsel for Mr. Bigelow examined witnesses who had already appeared for the plaintiff. The taking of testimony has been completed and the case comes up before the Massachusetts supreme court Nov. 6, to be heard upon its merits.

A. C. Carson, general manager of the mines of the Butte Coalition company has returned to Butte after a consultation in New York with the eastern management. While from a treasury standpoint the company is in position to pay to stockholders, when due, the regular quarterly dividend of fifty cents per share, it is considered likely that in view of the adverse conditions in the copper market which have existed for some months that a reduction in the next disbursement may be made. The Alice Gold & Silver company, which is controlled by the Butte Coalition, is still being looked to by investors who are more than paying their operating expenses and are furthermore contributing—as royalty—to the Alice treasury, which at the present time has a substantial balance. It had been intended by the Butte Coalition management to purchase the mine from the Alice property this year, but owing to general conditions this work has not yet been undertaken. A considerable saving in cost will result from the new \$150,000 others' wage scale. The company is operating at 75 per cent of normal capacity. A further decrease in mining costs is anticipated when the new Tramway shaft is completed, through which ore from the Barton and Minnie Healey as well as the Tramway itself will be hoisted. Recent buying of the stock has been for the United Copper holdings of these shares thrown on the market the books show stock more widely scattered than ever before.

HE HUNTS IN LUXURY.

German Nobleman Brings Along Folding Bath Tubs.

San Antonio, Tex., Nov. 4.—Count von Helthor, a German nobleman, has arrived in San Antonio with a wagon load of gun cases, tents, coats, folding bath tubs, and patent hunting apparatus. The count is a globe trotter and has won a reputation as a slayer of big game. He has visited half the countries of the globe and is now making an extended tour of the United States. He received an invitation to spend a few weeks on the Bickwell ranch on the Guadalupe river, and he will ship his hunting paraphernalia direct from San Antonio to the ranch. Count von Helthor is not only a hunter, but a well known scientist. He has written several papers for scientific periodicals on animal life and has published a book of travels.

CHOICE OF M. E. BISHOPS.

Spokane, Wash., Nov. 4.—At the business session of the board of bishops of the Methodist church today, Robert Fisher of the North Minnesota conference was elected to succeed Dr. King, deceased, as corresponding secretary of the board of home missions and church extension.

let us speak of men as we find them.

And censure only what we can see. Remembering that none can be perfect unless they use the Hollister's Rocky Mountain Tea.

Ishpeiming Department

**MICHIGAN GOLD MINE
BEING PUMPED OUT**

GOLD AND SILICA MILLS HAVE
BEEN INSTALLED AND WILL BE
TESTED WITH THE FIRST
QUARTZ HOISTED.

The Michigan gold mine, seven miles
west of Ishpeiming, is being pumped out
preparatory to a resumption of opera-
tions. The water has been reduced to a
point below the first level and it is ex-
pected that the bottom will be reached
within a few days. The mine is 140 feet
in depth and there are two drifts and two
exploratory shafts, one east and the other
west of the main shaft. There is con-
siderable water to be raised, but the
pump is doing excellent work. A larger
pump than the one now being operated
is located near the bottom level, and will
be put in commission as soon as it is
reached.

It was the intention to resume work
at the Michigan some months ago, but
there was an unexpected delay in the
arrival of the silica mill. The crusher
was installed about a year ago and the
gold mill was put in last spring, but it
is only a month or so since the silica
plant was received.

All of the mill machinery is now in
place and ready for operation, but it
will take some time to clean the work-
ings after the water is removed, also to
build the shafts.

It is estimated that there is over 10,
000 tons of quartz in the stockpile. This
will be treated as soon as the plant is
in good working order. The working
shaft is in good condition, and the mill
chinery and other equipment is ample
to carry on the work for some time.

During the time the preparations were
being made for the operation of the prop-
erty the management disposed of con-
siderable stock at twenty-five cents per
share. All of the machinery, as well as
everything else purchased, has been paid
for and the company has a credit balance
in the bank. The corporation is capital-
ized with 500,000 shares at a par value
of \$1 per share, and a little less than
one-half of the shares have been disposed
of.

The outcome of the mill test at the
Michigan will be awaited with much in-
terest by Ishpeiming people. Considerable
of the stock disposed of has been placed
with outside parties, but Ishpeiming people
remain in control. The mine will be
operated under the management of
Messrs. Edward Kopp and his brother-in-
law, Joseph Gindgrass. The latter has
been at the mine for about two years
past.

LIVESTOCK SCARCE.
Packing Concerns Not Likely to Reduce
Price on Their Products.

"The announcement in the papers a
short time ago that Edward Cuddady,
the Omaha packer, had stated that there
would be a 10 per cent reduction in the
price of meat stuffs attracted much at-
tention from the dealers," said a repre-
sentative of one of the big wholesale
houses yesterday, "and we have had diffi-
culty lately disposing of our goods at
the market prices. The dealers ask
when that reduction becomes effective,
but so far as we are able to judge it
will be some time before the packers
will be in a position to reduce the prices,
as our advices are that both cattle and
hogs are scarce. There has not been a
time in years to my knowledge when na-
tive steers were as scarce as they are
now. The price has been higher, but it
is plenty high enough now. The bet-
ter grade of native beef is selling about
nine cents per pound by the carcass. A
butcher has to cut up his meat carefully
if he makes any money."

"Pork loins are now selling about
fourteen cents per pound, with no indica-
tion that they will be much cheaper,
at least for a few weeks, as the whole-
salers are not able to supply the demand.
With this condition prevailing I cannot
see how the packing concerns will be
able to grant the reduction Mr. Cud-
dady predicted would be made, unless
something unusual happens."

"It has been reported that turkeys will
be plentiful and cheap for Thanksgiving.
We have had no advices to this effect,
and I am inclined to think that turkeys
will sell for nearly as much as they did
last Thanksgiving, when the retail
prices ranged from nineteen to twenty-
three cents per pound. The prices for
Thanksgiving fowl have not yet been
established, but the buyers will know
very soon what turkeys will be worth."

"EAST LYNNE" FRIDAY.
The Lansing Capital said of the "East
Lynne" company, which will be at the
Ishpeiming theater Friday evening:
"East Lynne" at Baird's theater last
night pleased a fair sized crowd. Miss
Taylor as "Lady Lash" was the finest
in that part ever seen in the city. All
the members of the company were good.
The band and orchestra deserve special
mention as the high-class music played
was so exceptional for an organization of
that kind. A return date would fill
the house."

HOW'S THIS?
We offer One Hundred Dollars Reward for
any case of Catarrh that cannot be cured by
Hall's Catarrh Cure.
F. J. CHENEY & CO., Toledo, O.
We, the undersigned, have known F. J.
Cheney for the last 18 years, and believe him
perfectly honorable in all business transac-
tions and financially able to carry out any
obligations made by him.
WALDING, KINYAN & MARVIN,
Wholesale Druggists, Toledo, O.
Hall's Catarrh Cure is taken internally,
acting directly upon the blood and mucous
surfaces of the system. Testimonials sent
free. Price, 75 cents per bottle. Sold by
The Stafford Drug Co.

MILDRED HOLLAND TONIGHT.

Mildred Holland will appear at Ish-
peiming theater tonight in her new roman-
tic play, "A Paradise of Lies." It is
said that the production is the most com-
plete she has ever had. A carload of
scenery is carried. "A Paradise of Lies"
tells a story of Sunny Italy at the close
of the eighteenth century. The play
lends itself to artistic scenic treatment,
which has given the management an op-
portunity of presenting sumptuous stage
pictures, enhanced by beautiful costumes
and brilliant light effects. The play is
in a prologue and three acts.

ISHPEMING IN BRIEF.
Stephen Malloney is here from Cole-
rairie, Minn., on a visit to relatives.
A regular meeting of the Ishpeiming
lodges of Elks will be held this evening.
C. T. Fairbanks, general manager of
the Republic Iron & Steel company's
properties, was in the city yesterday.

The Ishpeiming brokers will not issue
club letters today, as the Boston and
New York markets will be closed on ac-
count of the election.
Clifford's orchestra will furnish music
for the Royal club's hop a week from
next Saturday, the 10th, also for a hop
to be given by the Clerks' union on the
21st, and for the Firemen's ball Thank-
sgiving eve.

Recent births in the city are a daugh-
ter to Mr. and Mrs. Joseph Planou, 112
Arch street; a daughter to Mr. and Mrs.
Arthur Joer, 508 North First street, and
a daughter to Victor Polimaki and wife,
217 West Division street.
The Barium Beavers defeated the
Oliver Cubs last Saturday in a score of
33 to 11, the Beavers making 16 points
in the first half and 16 in the last.
Another game is to be played next Sat-
urday at the Barium grounds.

J. H. Quinn, vice president and man-
ager of the Vandewater Lead & Zinc
Mining company, left last night for Cuba
City, Wis., where he will spend a few
days. Some of the officers and directors
of the Pine Tree company plan to go to
Cuba City the latter part of the week
to remain until the mill is started.

The miniature building erected of soap
in the window of Braastad's dry goods
department attracted much attention
yesterday. The platform of the window
is decorated to correspond with the
colors in the structure. The structure
is about ten feet wide by nine feet high
and over 2,000 cakes of soap are used in
it.

Upper Peninsula
Indian's Skeleton Unearthed—
The dilapidated remains of a ghostly
looking skeleton that apparently has
been buried for years was discovered in
a sand hill at Menominee by several
young boys. The bones are believed to
be those of a former redskin warrior.
According to old settlers, the vicinity of
the sand hill was formerly an Indian
burial ground, and it is estimated that
fully fifty bodies were interred within
a radius of one hundred feet from where
the sand pile now stands. The portion
of the skeleton which the youths discov-
ered was badly discolored with age, the
skull being practically decayed and only
the leg and arm bones being in good
condition. The lids were carefully digging
in the sand at the time, when one of
the boys unearthed a long high bone. The
discovery led to further investigation,
which unearthed the remainder of the
frame.

Sheriff on a Salary Basis?
A reform to which the citizens of
Chippewa county should give their at-
tention in the near future is the matter
of the method of paying the sheriff, con-
siderable discussion concerning the
cost of maintaining this office to the
county. At the present time the sheriff
receives a salary of \$1,000 per year and
the balance of his income is made up
from fees of various sorts and descrip-
tions. At the recent session of the board
of the county, the bill of the sheriff's
office, which of course do not include
fees collected in civil cases, for the
amounted approximately to \$3,000. This
is of course for the past quarter. Under
the present system the office of
sheriff is easily the most lucrative in
the county. Whether, as some
people figure, the job is worth to the in-
cumbent better than \$5,000 a year or not,
it is a fact that the office is costing the
county too much. This should be re-
minded. The office of sheriff, like other
county officials, should be put upon a sal-
ary basis. An adequate salary should
be provided and all fees collected should
be turned into the county. This may
not make the office so much of a polit-
ical prize, but no doubt perfectly com-
petent men will be found to fill it and
it eliminates the opportunity to fill
up seats to the county, sometimes when
costs are unnecessary and exorbitant.
The race for the place when vacated by
the present occupant is already on with
a half dozen candidates in the field. We
hazard the prediction that that candi-
date who makes the chief plank in his
platform the putting of the sheriff's

FROM HOPKINS' CURB LETTER.
"There were fewer selling orders at
the opening this morning than had been
anticipated. Good supporting orders ap-
peared early and were in evidence on
all weak spots. Sentiment is not as
pessimistic as of late and traders have
been working for better prices. The
bank statement of Saturday was an ugly
looking instrument and caused apprehen-
sion in London, which market came very
weak and reflected a much lower opening
here. Since noon, the market has taken
on renewed strength and the support
given has been of the best."

Saturday's prevailing prices were:

American	2 1/2	3 1/2

**YOUNG MAN HAS
NEW THEORY**

**Human Life Seems Centered In Stomach.
All Else Is Secondary.**

The immense success which has fol-
lowed L. T. Cooper during the past
year with his new preparation has ex-
ceeded anything of the kind ever be-
fore witnessed in most of the leading
cities where the young man has intro-
duced the medicine. Cooper has a
novel theory. He believes that the hu-
man stomach is directly responsible
for most disease. To quote his own
words from an interview upon his ar-
rival in an eastern city: "The average
man or woman cannot be sick if the
stomach is working properly. To be
sure, there are diseases of a virulent
nature, such as cancer, tuberculosis,
diabetes, etc., which are organic, and
are not traceable to the stomach, but
even fevers can, in nine cases out of
ten, be traced to something taken into
the stomach. All of this half-sick,
nervous exhaustion that is now so
common, is caused by the stomachic
conditions, and it is because my rem-
edy will and does regulate the stom-
ach that I am meeting with such suc-
cess."

"To sum the matter up—a sound di-
gestive apparatus that is doing its full
duty, getting every particle of vitality
out of all food by transferring it to
the bowels in a perfectly digested state—
this above all else brings health."
Mr. A. C. Brock, chef of the Brock
Restaurant, Market District, Boston,
Mass., who is a staunch believer in Mr.
Cooper's theory and medicine, has this
to say: "I had chronic indigestion for
over three years. I suffered terribly,
and lost about thirty pounds. I was a
physical wreck when I started this
Cooper medicine, a month or so ago.
Today I am as well as I ever was in
my life. I am no longer nervous, my
food does not distress me in the least,
and I have a splendid appetite. I am
gaining flesh very rapidly—in fact, at
the rate of a pound a day. I would
not believe any medicine on earth
could have done for me what this has
done. It is a remarkable preparation
and Mr. Cooper deserves all his suc-
cess."
We recommend the Cooper prepara-
tions as being remarkable medicines.
—Peoples Drug, St. C, Ishpeiming, Mich.

office on a salary basis instead of the
present system, would make a big hit
with the taxpayers.

Postoffice Looted—
The postoffice at Vulcan, which occu-
pies a room in the town hall building of
that Menominee range community, was
entered by burglars one night last week
and a large amount of plunder was se-
cured. An entrance was effected by
breaking the glass in the door and then
reaching through the hole thus made
and turning back the night latch. The
vault was opened by the combination.
Postmaster Meyers says that he closed
and locked the vault when leaving the
office at 10 o'clock the night of the robbery.
The vault contains several hundred dol-
lars \$365.99 in cash and \$972.07 in post
age stamps. The stamps were of the
1, 2, 3, 4, 5, 6, 8, 10, 13 and 15-cent de-
nominations. Some special delivery and
postage due stamps were also taken.
The burglars also visited the railway
section house, and stole several large
hammers and a crowbar, evidently in-
tending to use them in breaking the
vault, but they found they were not
needed and left them in the postoffice
building. The only suspicious characters
seen in the village the day of the bur-
glary were three men dressed as lum-
bermen. Sheriff Newbauer, of Dickinson
county, who is investigating the case,
has discovered that the men were em-
ployed for a day or two at the mill of
the O. C. Lumber company. These men
have since disappeared. Three men
were seen on the morning of the bur-
glary near the mill. They were seen
near Escanaba, but only one of them
boarded the train, according to reports.
The postoffice authorities have offered
a reward of \$200 for the capture of the
burglars.

John C. Kruse's Tragic Death—
In its account of the tragic death of
John C. Kruse, a well-known Menominee
range mining man, shot and killed by
George W. Gibbons, a farmer, in mistake
for a bear, the Iron Mountain Press
says:
The shooting was entirely accidental
and Mr. Gibbons is held blameless by the
friends of the dead man. Mr. Kruse and
Edward G. Kingsford left Iron Mountain
for Witch Lake, their errand being to
hunt bear, reported to be numerous in
the vicinity. They made their head-
quarters at the summer home of A. F.
Wright. The next morning, Mr. King-
sford and Mr. Kruse called at the home
of Mr. Gibbons and induced him to accom-
pany them on their hunting trip. Mr.
Kingsford wore a black fuzzy jacket. Mr.
Kingsford tried to induce him to change
it for one of another color, and warned
him of the danger of hunting in such a
garment. Mr. Kruse treated the warning
lightly, and went to his death. The party
crossed the lake to the Michigan
plains, about a mile distant from the
cottage. These plains are overgrown
with hazel bushes of the tall variety.
The party had not entered this growth
for any considerable distance before the
sight of three bears engaged in feeding
on the hazel nuts, the hunt was on. The
three men, all skilled hunters, all cool,
collected, separated, the plan being to
drive the animals into a corner at a belt
of hardwood and kill them all. Mr.

Kingsford was at a point in advance of
the bears. Mr. Gibbons was on a small
hill overlooking a ravine to the right
and Mr. Kruse held a rear position. The
men were in plain hearing distance of
each other all the time.
While the men were occupying these
positions, Mr. Kruse was heard to call:
"Here she comes! Am right on her neck!
Get ready!" Mr. Gibbons, no sooner
heard the call when, looking down into
the ravine, saw a dark object in crouch-
ing position, running through the bushes.
He called, "Look out, I am going to
shoot!" The call was repeated, and was
distinctly heard by Mr. Kingsford. See-
ing the dark object for a second time, and
believing it impossible for Mr. Kruse to
have reached the point in view and get-
ting no response from Mr. Kruse, Mr.
Gibbons fired.
Hearing the crash of the falling body
in the bushes, and fully believing that a
bear had been killed, Mr. Gibbons and
Mr. Kingsford both ran to the point. Mr.
Gibbons was the first to reach the place
and to his intense horror found he had shot
his friend. He was soon joined by Mr.
Kingsford. Poor Gibbons was in almost
a demented condition and Mr. Kingsford
was completely unmoved. An examina-
tion proved that Mr. Kruse must have
been killed instantaneously. The ball
from the rifle had cut the vertebral col-
umn, breaking the neck, and coming out
at the right cheek. There was no out-
cry—no struggle—no pain.
Mr. Kruse was about to be married
to an estimable young woman of Iron
Mountain. She is heartbroken over the
shocking accident. Mr. Kruse was a
widower and is survived by a five-year-
old daughter. His wife died a year
before last August. Her remains were
taken to her old home in Pennsylvania
for burial.

MARKETS

NEW YORK STOCKS.

Wiring from New York yesterday, Paine, Webber & Co.'s correspondent said:

"A renewal of demoralization in the stock market this morning, which was threatened Saturday, was averted today by the further heroic action taken during conferences with Mr. Morgan and other leading bankers last night. It is understood that at one of these conferences the controlling interest in Tennessee Coal & Iron company's stock, which has been locked up and carried for the last two years by a pool of prominent Wall street banking interests, practically passed, involving an amount of about \$25,000,000, at probably less than \$50 per share for the stock, which has been arbitrarily quoted at 135 to 150, to a syndicate which may ultimately turn over this property to the United States Steel corporation. Some of those interested in this deal have been interested in the largest Wall street trust company which has been so successfully withstanding the most serious run from its depositors the last fortnight and its resources were said to have been increased by this arrangement to upwards of \$10,000,000. The action of the market throughout the session and the day's developments in the money markets show that the big interests are getting the financial situation more completely under control in a gradual manner and it is to be hoped that other interests will do their share in aiding this movement. To this end it is reported that some of the foremost capitalists and merchants of the country have appealed to President Roosevelt and it is understood, as a result of their recommendations and his better understanding of the situation, that he will say nothing in his message to congress to further disturb business conditions."

A Great Roast!

Over a ton of Arbuckles' Ariosa Coffee is roasted at a time, in a large revolving cylinder, which drops the coffee through heat again and again until each bean is uniformly roasted.

No other coffee is in sufficient demand to afford such scientific and perfect preparation.

The sales of Arbuckles' Ariosa Coffee exceed the sales of all other packaged coffees combined, and this scientific roasting, which no other coffee can afford, by its very magnitude, reduces our cost to a minimum, and enables us, with our other advantages, to give better value in Arbuckles' Ariosa Coffee than is possible for any one else.

Arbuckles' Ariosa Coffee is the cheapest good coffee in the world, and the best of all for you.

ARBUCKLE BROS., New York City.

VIGOROUS CAMPAIGN FOR LOCAL OPTION

ANTI-SALOON LEAGUE OF MICHIGAN WILL SEND REPRESENTATIVES INTO THE FIELD PRIOR TO THE SPRING ELECTION—REV. RUTLEDGE TO DIRECT WORK IN UPPER PENINSULA.

It is reported from the lower peninsula that the Anti-Saloon league, represented in the upper peninsula by Rev. C. H. Rutledge of Ishpeming, will start a campaign for local option. The men who will lead the fight believe that they will secure local option in several lower Michigan counties, but they are not so sanguine of success in the upper peninsula. It is proposed to employ from twenty-five to fifty men in the campaign, starting them in at the Indiana line and moving them north and west, ending at Grand Traverse county. It is proposed to cover the twenty-four counties embraced in the territory mentioned as thoroughly as possible, and it is thought that at least half the counties will fall in line. Three counties, Grafton, Oceana and Midland, have already gone "dry."

The work in the western part of the state will be under direction of R. N. Holzapfel of Grand Rapids, and Rev. Rutledge and his associates plan to take charge of the campaign in the entire upper peninsula. There are several branches of the league in this region and Mr. Rutledge has a number of workers in most of the cities and villages in the district.

About a year ago the advocates of the temperance cause in this county partially perfected plans for a campaign. The names of all of the voters in Ishpeming were secured, but no effort was made to have them sign a petition declaring in favor of local option. If a majority of the electors of any township, city or village, files a petition protesting against the issuing of a bond to any firm or individual it will be unlawful for the township board or common council to allow the bond to be issued.

It is understood that the Anti-Saloon league campaign will be pushed vigorously just prior to the spring election. Public meetings will be held in the various parts of the county. P. W. Marsh of Detroit, the league's attorney, is aiding the officers of the organization in perfecting their plans for the campaign.

DOING A CLEVER STUNT.

Joe DeTellen and wife, performers at the Bijou theater, are appearing in a clever act known as the "Hindoo Mystery." They made a hit Saturday evening, and the act is to be put on every evening this week. The rest of the program being changed Wednesday night. A committee is invited to come upon the stage and tie Mr. DeTellen's hands behind her. She is then placed in a box and the latter is fastened with several locks, and is also secured with exactly the same condition as when the committee left them. It is claimed that DeTellen made the change Saturday evening in less than five seconds.

LOCAL LACONICS.

The regular monthly meeting of the city council will be held Thursday evening.

Mrs. George Ashman, an old and well known resident of this city, is reported seriously ill.

John D. Chubb, the Chicago architect, arrived in the city Saturday, remaining until yesterday.

Mrs. Michael Sullivan and son left Sunday night for Cleveland, O., where they will locate permanently.

Miss Ada Dwyer returned to her home at Marquette yesterday, after a short visit with Mrs. W. Jackson.

Van Curran and family came up from three Bay, spending Sunday and yesterday with relatives in Negaunee.

Mrs. M. L. Orr, who spent the past month here, visiting her son, Archie Orr, left last night for her home at La Porte, Ind.

Chin Hee, who has conducted the Chinese laundry in this city, has sold out to one of his workmen, and will soon return to Houghton.

A delegation of Negaunee people will attend the production of "A Paradise of Lost" by Mildred Holland and her company this evening at Ishpeming theater.

John Mitchell, who recently resigned his position on the Negaunee police force, is succeeded by Jacob Lippelanti, who has been working at the Queen mine for some time past.

The Cubs and Pioneers bowled last night at Orr & Tompkins alleys. The Aces and the Ishpeming team will meet this evening and tomorrow night the Wolves and Tigers will bowl.

George J. Maas and family left Sunday night for California, where they will spend the winter. Bernice Vignaux, who has been employed in the family for some time past, accompanied them. They will spend a few days in Milwaukee on their way west.

Mayor Winter arrived home Sunday from Cuba City, Wis., where he spent a few days on business. He reports that the properties in which Marquette county people are interested are looking splendidly. Practically all of the machinery at the Baxter mine has been overhauled and a number of buildings, including a boarding house, have been erected.

The cheap imitations of Foley's Home and Par cost you the same as the genuine in the yellow package. Why then risk your health, perhaps your life, taking them when Foley's Home and Par will cure you old and prevent serious results? It is guaranteed. The Stafford Drug Co.

SEVERE ECZEMA CURED IN SOUTH

Suffers Three Years—Hands and Eye Most Affected—Employed Doctor to No Effect—Now Entirely Recovered and Will Recommend

CUTICURA REMEDIES IN ALL PARTS OF PARISH

"My wife was taken badly with eczema for three years, and she employed doctor after doctor with no effect at all until she employed Cuticura Soap and Ointment. One of her hands and her left eye were badly affected, and when she would stop using Cuticura Soap and Ointment the eczema came back, but very slightly; but it did her a sight of good. Then we complied with the instructions in using the entire set of Cuticura Remedies and my wife is entirely recovered. She thanks Cuticura very much, and will recommend it highly in our locality and in every nook and corner of our parish. God bless you for the sake of suffering humanity." I. M. Robert, Bayou La Latta, La., Jan. 5 and Sept. 1, 1906.

SOUTHERN MAN CURED Of a Terrible Eczema by Cuticura in Six Weeks.

"Some time ago I suffered terribly with eczema, and I had the best medical attendance, but the more medicine I took the worse it seemed to get. I kept on with medicine for about five weeks until I saw the Cuticura Remedies advertised, and I at once purchased the Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent, but had not the slightest hope of them curing me. After I had used the first set of the Cuticura Remedies I saw improvement, and in just six weeks my skin was as smooth as ever. I advise any one suffering from this terrible disease to use the Cuticura Remedies. Henry J. Steiles, 132 Spring St., Charleston, S. C., June 12, 1906.

Every Member of Indiana, Children, and Adults can use Cuticura Soap (5c) to Cleanse the skin, Cuticura Ointment (10c) to Heal the skin, and Cuticura Resolvent (25c) for the form of Cholesterol Pills, etc. Price of set 60c. Cuticura Soap, Ointment, and Resolvent are sold throughout the world. Foster Drug & Chem. Co., 300 West 12th St., Des Moines, Iowa.

EXPECT RAISE IN BEER.

Brewery Agents and Saloon Men Look for an Advance in Price.

If the brewing concerns of Milwaukee raise the wholesale price of beer, which now seems probable, an advance in the retail price will soon after go into effect in Wisconsin and the upper peninsula. It is reported that there will be no increase in the retail price anywhere in this region until Milwaukee brewers decide on what the increase in the wholesale price is to be.

A Negaunee dealer, who has for some days past been expecting the announcement of an advance, says that the retail dealers will be obliged to increase their prices. It also is possible, he asserts, that the dealers may be obliged to reduce the size of the glasses, cutting out the larger sections entirely.

MANY WILL HUNT DEER.

Negaunee Will be Well Represented in Woods Next Week.

A large number of Negaunee men are preparing to go into the woods the latter part of this week or nearly next week. It is reported that many deer have been seen in the district south of here. Many have also been seen in the Little Lake region. The homesteaders report that the deer were so tame the past summer that they would come within a few feet of the stacks, but they are now wild and are going farther back into the woods.

The Lesson of the Eagle and the Weasel

The familiar story goes that once, when an eagle pounced upon a weasel and soared with it high into the air, the weasel fastened its fangs deep into the eagle's breast and commenced to draw its life-blood. The eagle tried to shake the weasel off, but the weasel hung on until the eagle fell lifeless to the ground.

There is a moral in this for every sufferer from coughs or colds. Don't let your cough hang on—for every day it weakens your lungs and gradually wears down your system until serious lung troubles develop.

DR. D. JAYNE'S EXPECTORANT

is the oldest and most reliable cough remedy known. For 77 years it has been successful in relieving and curing Coughs, Colds, Bronchitis, Pleurisy, Inflammation of the Lungs, Croup and Whooping Cough. It is sold by all druggists in \$1.00, 50c. and 25c. bottles. Get it for your cough today.

Jayne's Tonic Vermifuge is a gentle and effective tonic for adults and children. A safe Worm Cure.

25,000-TON SHIPS, MAYBE.

Washington, Nov. 4.—As was the case last year when the plans for the 20,000-ton Delaware class battleships were sent to congress under the injection of secrecy, the navy department is exerting itself to prevent the features of the plans for the great ships which it will ask the next session to authorize from gaining publicity. So in the case of the new ships recommended to be constructed by the naval general board it is impossible to secure any authentic information relative to the features of their vessels beyond the mere fact of their being for it is certain that they will be of more than 20,000 tons displacement, if, indeed, they do not reach the world beating proportions of 25,000 tons.

CURIOUS LITTLE GIRL.

Milwaukee, Nov. 4.—Born without arms or legs, and perfectly formed and normal in every other respect, Harriet Louisa Lacey, aged two months, daughter of William Lacey, 728 Milwaukee street, enjoys life as well as any other infant, and gives promise to living to a ripe old age.

The child was born on Sept. 3. It weighed ten pounds at birth, and it was as strong as the usual ten-pound infant. It has a perfectly formed head and body, except that there are no arms or legs. The child was taken to the Children's Free hospital at birth, because of the delicate condition of the mother. There it has been cared for in the manner of other infants. Yesterday the child was removed to the home of the parents, the mother having recovered.

The parents of the child are young people and were married but a few years ago. This is the only child. The child, lacking in physical development as to its limbs, seems to be above the ordinary in intelligence. It is said to be a pretty baby, and the parents are proud of it despite its misfortune.

VERY GOOD HOME RECIPE.

Says Any One Can Prepare It, and Knows Nothing Better to Take.

Rheumatism is easier to avoid than to cure, states a well-known authority. Every man, woman and child here should dress as warmly as possible, and, above all else, keep the feet dry. Avoid colds and exposure, and don't become constipated.

Rheumatism is strictly a blood disease, caused by inactive kidneys, which, through cold or exposure or improper diet, fail in their duty of filtering the rheumatic poisons from the blood. This poisonous waste matter, uric acid, exudes from the skin all over the body and does not assist in eliminating the poisons from the blood promptly, decomposes and settles about the joints and muscles, causing rheumatic disease.

In damp or chilly cold weather the kidneys are made to do double work. The pores of the skin all over the body do not assist in eliminating the poisons of the body, throwing this work to feeble, thus causing net-only rheumatism, but all forms of kidney troubles, backache, weak bladder and urinary troubles and sometimes terrible blood disorders.

At the first sign of any of these troubles the following simple prescription should be mixed and taken in teaspoonful doses after each meal and at bedtime: Fluid Extract Danielson, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Any good pharmacy can supply these ingredients, and all the mixing required is to shake well in a bottle.

WILL START DAMAGE SUIT AGAINST CITY

COUNCIL NOTIFIED ACTION WILL BE BROUGHT FOR HARM DONE BY JUNE STORM.

OTHER NEWS OF MEETING

George Knapp, Whose Front Street Saloon Was Burned, Asks Rebate of Half Year's License Money.

In a notice presented to the council at the meeting last night Mrs. Riedinger, owner of the building at the corner of Baraga avenue and Front street, states that she intends to file suit against the city for damages done by the storm of June 28 last. Some weeks ago Mrs. Riedinger filed a claim for the damages which she says she suffered and it, with other similar claims, was referred to a committee. In her communication presented last night she says that nothing has been done and on account of the delay she intends to take the case to court. The amount she asks was not stated in definite figures in the claim she made, but it amounts to some thousands of dollars.

Property Damaged.
Her charge is that due to the city's negligence in failing to provide a means for the escape of surface water, the basement of her property was damaged. She says the building was seriously affected and she also asks that the city pay the rent of a tenant who moved out of the place on account of the flood. Claims for damages done by the same storm, in the same building have been filed with the council by the Union Clothing company and by William Rivers at the time kept a saloon in the basement and he is the tenant who moved.

Assessment Roll Accepted.
At the meeting last night the assessment roll for grading and macadamizing streets leading to the new plant of the Lake Shore Engine Works was accepted. The streets are Walnut street, from Arch to Ohio and Lake Shore boulevard, from Ohio to Hewitt avenue. The total estimated cost of the improvement is \$1,575.98 and the amount to be paid by the city, \$330. The roll will be approved finally at the meeting to be held November 18 next.

Going Out of Business.
In a communication presented last night George Knapp, whose saloon at Front and Spring streets was burned out recently, asks that \$250 of the license he paid the city be refunded. This amounts to a license for six months. Knapp states that owing to the fire he has determined to discontinue the business. His communication was referred to the committee on licenses and trade regulations.

Want Arc Light.
A petition from residents of West Washington street, asking that an arc lamp be placed in front of the Marquette Boiler works, was referred to the park, cemetery and street commission. The petition presented some time ago asking that Cleveland avenue be accepted by the city as a street was granted.

Other Business.
Claims against the city for the past month amounting to \$1,970.96, which were read last night, were allowed and ordered paid.
A petition from Dr. John O'Falvey, asking that the city taxes on three lots on Craig street be remitted, was referred to the committee on finance and taxation. In his communication Dr. O'Falvey states that he is eighty-one years old and is dependent wholly upon his pension for a livelihood.
Alderman Downey notified the council that fenders had been placed upon the city street cars in accordance with the ordinance.
The report of the fees of the market keeper, \$38.80 and of the poundmaster, \$44, was read by the controller and was approved.
The monthly reports of the justices of the peace were received and placed on file.

300 CANAL PASSAGES.

PATENAUE FUNERAL.

Members of the Morse Hose Company Are to Act as Pallbearers.

Members of the Morse Hose company, of which he had been a member for more than twenty years, will be the pallbearers at the funeral this morning of Silas Patenaue. Those who are to serve are Charles M. Gooding, T. J. Maney, James J. Donovan, D. H. Mailley, Frank LaBonte, Jr., and Martin Delaney. A number of members of the Ishpeming and Negaunee departments will also attend the funeral.

The body is to be taken from the house at 20 minutes to 9 to the French Catholic church, where services will be held. The burial will be at Holy Cross cemetery.

DEER HAVE RETURNED.

Herd at Presque Isle Now Numbers About Thirty Head.

The deer at Presque Isle are returning from their annual visit—in fact most of them are back already. Each summer the deer that usually make their homes at that resort run abroad for a few weeks. They are free to leave. No fences stay them, and if there were fences they could easily make their escape by the water route. Their movements occasion no concern, however, as experience has taught that the deer always return. Bob Hunter, the custodian of the park, now reports that they are nearly all back on Presque Isle, for all the world as if they understood that the hunting season opened within a few days and that Presque Isle was a healthy place to be during that season. One buck has returned minus a horn, but whether it was shot off or he lost it in a fight with some other brave buck is not known.

BOWLING SCORES.

The Marquette bowling alleys will be closed to the public until next Monday. An expert man in the business, sent here by the Brunswick-Balke-Collender company, of Chicago, is planning and dressing the alleys, and it is said that when they are finished they will be the finest north of Milwaukee.

In a match last night between the Chauffeurs and the Skiddos, the Chauffeurs took three straight games. Following are the scores:

Chauffeurs—	Tot.
RAY	93 110 90
Reibel	122 152 154
Soules	119 119 159
Hanson	153 136 101
Burley	145 145 107

Totals	632 652 671
Skiddos—	Tot.
A. Rydholm	117 149 129
Bollenore	151 160 121
E. Bernard	105 117 85
G. Rydholm	129 101 79
Sid Webb	125 121 153
Totals	625 645 538

WILL GIVE CONCERT TOMORROW EVENING

PROGRAM OF UNUSUAL MERIT IS PLANNED BY THE SATURDAY MORNING MUSICAL CLUB.

The Saturday Morning Musical club is to give a concert tomorrow evening at 8 o'clock at Morgan Memorial hall. A program of unusual merit has been arranged and painstaking efforts are being made to make the concert a big success.

The proceeds of the concert are to be devoted to the Anna M. Chandler memorial fund. The fund was established shortly after the death of Miss Chandler, who for years was head of the city schools. Its purpose is to give aid and encouragement to Michigan University students who need financial help in completing their courses. There is now about \$700 in the fund. Tickets for the concert are now on sale and are fifty cents each.

Following is the program:

Two Dances	Doorak
Miss Biddle	Mrs. Boyer
Miss Williams	Mrs. Williams
"Goodbye"	Tosti
Miss Chase	
"Polonaise"	Paderewski
Miss Biddle	
Violin solo, selected	
Miss Hadley	
Suite, "A Lover in Damascus" (Nos. 4 and 6)	Amy Woodford-Finden
Miss Ross	
Andante et Scherzetto	Chaminade
Miss Biddle, Miss Williams	
Sans Toi	D'Arleto
Miss Linton	
Overture, "Semiramis"	Rossini
Mrs. Donaldson	Mrs. Pettie
Mrs. Hill	Mrs. Davis

NEW CONTESTANT BUSY.

Dave Murray, the thirteen-year-old son of Jeff Murray of 439 West Washington street, who is competing with Vern Chamberlain in the Washington trip contest inaugurated by the Northwestern Farmer of Menominee, claims that he has already obtained a sufficient number of subscriptions to make 10,000 votes. He says that Chamberlain will have to work hard if he means to keep in the race.

When you are sick, out of sorts, take Hollister's Rocky Mountain Tea. The most effective remedy. Relieves when they fail. You be the judge, try it. 35 cents. Tea or Tablets. The Stafford Drug Co.

FINE FURS.

Mr. J. E. Monroe, representing Lanphier, Skinner & Co., St. Paul, will be at Ormsbee & Atkins' Monday, Nov. 4th, with a complete line of ladies' fur garments and neckwear and gentlemen's fur and fur-lined overcoats. Seal-skin garments made to measure from extra quality genuine Alaska sealskins. You are cordially invited to inspect his line. 10-31-11

Boys' Flannel Waists
