

MOVE TO KEEP GOLD AT HOME

Big Central Banks of European Nations Put Up Their Rates of Discount to Figures Rarely Attained in the Past.

Additional Engagements of the Metal Are Made Notwithstanding, and Situation Is Further Relieved by Cash Attracted by the High Premium Offered for Currency—Stocks Are Under Pressure and Prices Decline Materially.

New York, Nov. 7.—Gold bars and coins to the value of \$1,900,000 arrived today on the steamer Teutonic.

New York, Nov. 7.—The contest of the European money markets to retain their gold resources was indicated by the simultaneous action today of three large central banks of Europe and the call for a meeting tomorrow of the governing board of a fourth.

The Bank of England advanced its rate of discount from 4 to 5 per cent, a rate which had not before been reached since 1873. The National Bank of Belgium advanced its rate from 5 1/2 to 6, the French bank put its rate up to 4 per cent, and the governors of the Imperial Bank of Germany called a meeting of the executive board for tomorrow at which it is expected the rate will be advanced from 6 to 7 per cent.

The stock market reflected the pressure for money by considerable declines today, but these declines were generally expected by bankers, who looked upon the rapid advance in quotations yesterday as hardly justified by the expansion of credit.

The engagements of gold today brought up the total importation on the present movement to \$40,425,000, an amount which would permit a loan expansion of more than \$150,000,000 if the legal reserves had not been already impaired.

It was also stated today that the magnet of the high premium rates for currency is attracting money hoarded by depositors in steel vaults and strong boxes, and within the last two days over \$3,000,000 has been enticed from its hiding places and sold at a premium to money brokers.

The falling off of the premium rate for currency today from 3 1/2 to 3 per cent was brought about by the large amount of gold and silver taken from safe deposits vaults and offered for sale.

New York, Nov. 7.—Several important events in the stock market today served as an admonition that the conditions are not yet ripe to move definitely out of the influence of the financial disturbances from which the country has suffered.

MAKES PROTEST AT WHITEHOUSE

Senator Heyburn of Idaho Objects to the Further Deposit of Government Money With Banks at New York.

Would Give Them No More Unless They Consent to Settle Reserves in Cash Instead of Offering Checks That Can't Move Crops—Millions in Money Are Due Institutions in the West, Yet They Cannot Get It Now When Needed Most.

Washington, Nov. 7.—Protest was made to President Roosevelt by Senator Heyburn of Idaho today against the further deposit of government money with the New York banks until these institutions consent to pay the reserves of Western banks in cash instead of cashiers' checks.

"On behalf of the people of the Western states and especially those of the Northwestern states, I would urge that no further deposits of money from the treasury of the United States be made in New York banks except upon the condition that such banks shall immediately make available in money to the banks in such Western states the full amount of the reserves held by such New York banks on the account of such Western banks."

LUSITANIA IN PORT

Carrying \$10,000,000 in Gold Big Liner Breaks Westbound Record by 40 Minutes.

New York, Friday, Nov. 8.—With ten millions of gold in her strong box for the relief of the money market here, and a new transatlantic record written in her log, the Cunard liner Lusitania steamed past Sandy Hook at 1:40 o'clock this morning.

POSTAL SAVINGS BANKS

Postmaster General Explains Their Value in Time of Monetary Stress.

Chicago, Nov. 7.—Postmaster General Meyer was the guest of honor tonight at the banquet of the Industrial Club of Chicago. His address was upon matters connected with the administration of his department.

BANDITS TERRORIZE TOWN

Citizens of Canova, S. D., Held at Bay While Bank Is Robbed of \$6,500.

Canova, S. D., Nov. 7.—Seven armed bandits held up this town early today. They blew open the safe in the Interstate bank and secured \$6,500, escaping an hour later without leaving the slightest clue.

BIG FACTORIES CLOSED

Many Men Idle in Connecticut Because of Financial Stringency.

Bridgeport, Conn., Nov. 7.—The American Graphophone company, employing 2,000 hands, posted notices today that the factory would shut down tonight for an indefinite period.

New Castle, Eng., Nov. 7.—The British battleship Superb, another improved 4 per cent rate of the Bank of France

WEATHER FORECAST

Washington, Nov. 7.—The following is the weather bureau's forecast for Upper Michigan: Rain or snow, Friday, colder in west; Saturday, fair; fresh winds.

SECRETARY TAFT DECIDES

Will Return via Vladivostok Through Siberia and Europe.

CIVIL SERVICE REFORM

Hughes and Bonaparte Are Speakers at Buffalo Convention.

Buffalo, N. Y., Nov. 7.—The annual convention of the National Civil Service Reform League began here today. Many persons prominently identified with the movement for civil service reform in all parts of the country addressed the afternoon session.

PRESIDENT IS PLEASED

Results of Tuesday's Elections Very Gratifying, He Says in Public Statement.

Washington, Nov. 7.—President Roosevelt today issued a statement saying that he regards the general results of Tuesday's elections as very gratifying.

TIME LIMIT PROPOSED

So Many Proposals Going In, Constitutional Convention Committees Can't Plan Work.

Lansing, Mich., Nov. 7.—[Special.]—The question of restricting the time within which proposals may be presented is being seriously considered by the constitutional convention. The committees find difficulty in getting down to work for the reason they do not know how many proposals they may have to handle.

HEAVY BLOW DEALT WATERWAY SCHEME

Holding the Desplaines River Not a Navigable Stream, the Attorney General of Illinois Rules Against Action by the State.

CONSTRUCTION OF BIG DAM CANNOT BE STOPPED, HE DECIDES

Which Means That Waterpower Created by a Proposed Expenditure of Twenty Million Dollars of the Public Funds Would Benefit Private Corporations and Not the People.

Springfield, Ill., Nov. 7.—A heavy blow was dealt the deep waterway advocates this afternoon in an opinion prepared by Attorney General Stead at the request of Governor Deussen.

POWER COMPANIES WOULD BENEFIT

Under this ruling the prospects of a deep waterway go a-glimmering unless the people vote the proposed expenditure of \$20,000,000 for a deep waterway with the knowledge that the power created will yield millions of dollars to the Economy company instead of the state.

UP TO THE GOVERNMENT NOW

It appears now to be up to the United States government to proceed with the deep waterway movement if the dreams of the promoters of a lakes-to-the-gulf deep sea canal are to be realized.

AMERICAN CITIZEN ARRESTED ON STEAMER AND THRUST INTO PRISON

San Francisco, Nov. 7.—Seized by a detachment of Nicaraguans after being driven out of his hiding place on board the Pacific Mail liner San Juan at Corinto, Elizardo Maco, an American citizen, son of the famous Cuban general, was captured during the outward trip of the San Juan from this port and was thrown into prison at Managua, Nicaragua, despite the protests of the Brazilian minister to the peace conference and two hundred American passengers on the steamer.

PEACE IN CENTRAL AMERICA

Presidents of Three Republics Reach Satisfactory Agreement.

FAVORS AMERICAN CONTROL

Former President Palma of Cuba Issues Important Statement.

HAVANA, NOV. 7.—ESTRADA PALMA, FORMERLY PRESIDENT OF CUBA, HAS AUTHORIZED THE PUBLICATION OF HIS VIEWS REGARDING AMERICAN INTERVENTION.

He declares publicly in favor of American control of Cuba. The statement is considered important, as Palma still commands influence with a large number of Cubans.

NEW YORK, NOV. 7.—ALL GRADES OF COPPER DROPPED A QUARTER OF A CENT TODAY.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

We are told that the Alaskan exposition will not ask for government aid.

The Jamestown exposition has become a national joke. Now the proposal is tentatively made that it shall be continued next year.

While the home papers have this week been chronicling the collapse of the International Hockey League Manager McNameara, of the Amphidrome, he has been telling the Duluth papers that the outlook for a successful season is excellent.

One result of fusion in New York was the loss of several members of the Assembly by the Republicans.

The Soe News refers to the charge that old persons are improperly confined in the Newberry asylum in an editorial article, the gist of which is as follows:

The Soe News refers to the charge that old persons are improperly confined in the Newberry asylum in an editorial article, the gist of which is as follows:

Fuller returns from the San Francisco election show a more sweeping victory for the forces of good government than was indicated by the first reports.

Fuller returns from the San Francisco election show a more sweeping victory for the forces of good government than was indicated by the first reports.

ECZEMA ON FACE

Only a little cold in the head may be the beginning of an obstinate case of Nasal Catarrh.

An increase of business attended by a decrease of earnings is the experience with the two-cent fare reported by the officials of the Alton road.

Another Warning Note. Gifford Pinchot, the chief government forester, has returned to Washington from a trip of 5,000 miles through the country's timber regions, and sums up the conclusions he has reached by the prediction that within twenty years, at the present rate of consumption, the country's timber supply, both on the government reserves and private holdings, will be exhausted, though it is possible that the natural growth of new timber will postpone the famine period for an additional five years.

Already practical lumbermen have taken issue with Mr. Pinchot, and have expressed the opinion that he is taking too gloomy a view of the situation.

The people need no formal warning of the seriousness of the inroads that are being made on the timber supply.

Mr. Pinchot urges that the danger of the situation be not underestimated.

Mothers with little children need no longer fear croup, colds or whooping cough.

AARON BURR'S PRISON IS BEING DEMOLISHED.

Washington, Nov. 7.—The historic old Centre house, at the marine barracks in this city, is being demolished to make room for a new building to be used as quarters for the junior officers.

WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

Samuel McMillan, 586 Morton street, Marquette, Mich., says: "Although my back had bothered me for a long time and I had consulted doctors and used many different medicines, nothing ever acted as quickly and effectively in my case as Doan's Kidney Pills."

Why shall we have for breakfast? "Why Cudahy's Peascock Ham and Eggs of course; they are always acceptable, especially at this season of the year."

DANDERINE GREW THIS HAIR AND WE CAN PROVE IT. MISS MARMARA HENRY, CHICAGO. FLORENCE RUSSELL, CHICAGO. MISS SELMA HASSELL, CHICAGO.

DANDERINE is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them.

Directly affect its entire population. He decries the policy of discounting the future of the country by failure to protect its natural resources, and he points out that while the government has one-fifth the forest area yet in its control it has not one-fifth the available timber supply.

The efforts of the government's forest department to improve the general situation affecting the timber supply are being increased. They are taking the form of encouraging reforestation, and of actually reforesting denuded lands.

The thing imperative is sane lumbering operations, that will spare small growths in removing mature timber, supplemented by extensive replanting.

## RESTAURANT KEEPER DECAMPS.

David Hakolahti Has Gone With Furniture He Owes For.

A number of Finnish people of Calumet are wondering where David Hakolahti has gone to. He came to Calumet a few months ago from Finland and opened a restaurant. He had no money, so he got backing from Finnish friends to secure his furniture for the restaurant, and he also secured an endorsement for a note. After conducting the business for a short time he left Calumet, taking the furniture with him and leaving only debts behind.

It is believed he has located in Minneapolis, and as soon as the necessary steps are taken he will be arrested and brought back to Calumet.

## CHURCH ANNIVERSARIES.

### Laurium and Hancock M. E. Congregations Celebrate Theirs.

The Hancock M. E. church has been celebrating its fifth anniversary this week, with special services and other feature every night. A campaign to raise funds to apply on the church debt is also in progress. The ladies will hold a bazaar and supper tonight, and on Sunday night there will be a grand service of prayer and song in which all the Methodist churches of the copper country will participate.

The fifth anniversary of the Laurium M. E. church will be celebrated tomorrow and Sunday. The program tomorrow night will be a sacred concert, introducing a number of the foremost musicians and singers of Calumet. There will be three services on Sunday. In the morning Rev. J. S. Steinger, of Munising will preach. In the afternoon will be held the annual Sunday school rally and Rev. Mr. Healy of Opechee will address the children and teachers. Rev. C. L. Adams of Ishpeming will occupy the pulpit at the evening service.

The fourth anniversary of the dedication of the Sara Sargent Pain Memorial library at Painesdale will be celebrated one week from tomorrow with appropriate exercises. The board of control is arranging an appropriate program. H. E. Katz, superintendent of schools of Calumet, will deliver the address and the Michigan College of Mines club will contribute selections. This is so far all the program that has definitely been arranged.

## SEEKING JOHN ENTRINGER.

County Clerk Richardson has not as yet learned anything of John Entringer, a former resident of Houghton, who is sought by the American consul of Wormelbinger, Luxembourg, Germany. It is evident there is an estate waiting for the man and Mr. Richardson would be pleased to be the one to bring it to his attention, if he can locate him or his heirs.

## UNCERTAINTY AS TO HOCKEY.

Canadian Soo Has a Team Signed—Nothing Else Defined.

The only thing definitely known about the prospect for professional hockey this winter is that the Canadian Soo has a full team signed. The American Soo, Calumet and the Portage Lakes have no men signed. It looks like the demise of the International league.

Manager McNamara of the Portage Lakes got back yesterday morning from Duluth, where he had been all week in an effort to interest Zenith City men in the great winter sport. He returned discouraged as far as accomplishing anything this winter. He says the Zenith City will have no hockey rink this winter.

**CALUMET BAKING POWDER** makes pure, healthful bread, biscuits and cake, easily digested, free from Rochelle Salts, Tartaric Acid, Alum, Lime or Ammonia. It is chemically correct, accurate by the most modern chemical methods the materials are so accurately proportioned and perfectly mixed that a complete neutralization occurs.

**CALUMET BAKING POWDER** is scientifically prepared and put up under the supervision of competent chemists; therefore, you always get good results, healthful results, and food prepared from it is not injurious to the stomach. **CALUMET** is recommended by leading physicians and chemists. \$1,000.00 given for any substance injurious to health found in **CALUMET BAKING POWDER.**

**CALUMET BAKING POWDER** Complies with the Pure Food Laws of all States

## \$10,000 STILL OWING.

Calumet Y. M. C. A. Building Committee Calls in Pledges.

The building committee of the Calumet Young Men's Christian association is making a plea for the payment of the \$10,000 still due on building fund pledges. Four-fifths of the sum subscribed has been paid in, and that amount has been expended on the structure, which is now approaching completion. The \$10,000 remaining will complete the building.

## CONCERNING NEW ARMORIES.

The new military law which provides for the construction of armories is receiving some attention in the copper country, owing to the location of the National Guard companies here. Captain Schwallenbach of Menominee, who has investigated, has told the Herald-Leader about his findings.

## Large Number of Nimrods Getting on the Deer Runs Early.

The deer hunters of the copper country are getting an early start. A big crowd of them left yesterday so as to get their camps in shape and be ready for work when the midnight bell strikes tomorrow night, for that will be the signal for the slaughter. The season opens Sunday morning. The hunters this year are taking extra precautions against being shot in mistake for game. Take County Treasurer Foley for example.

## HUNTERS START FOR WOODS.

Just how the bill will work out in the copper country is a problem. The Calumet Engineers and the Houghton Light Infantry do not need armories, having already two of the finest in the state that are devoted to single companies. The Hancock Naval Reserve "route" Germania Hall and should be among the first to benefit by the new law.

## SOME STATEMENTS REGARDING NEW THEORY

Followers of Cooper and His Novel Ideas Give Reason for Their Belief in Him.

With a theory that human health is dependent on the stomach and with a medicine which he says proves this theory, L. T. Cooper, a comparatively young man, has built up an immense following during the past year.

Cooper has visited most of the leading cities of the country, and in each city has aroused a storm of discussion about his beliefs and his medicines. Wherever he has gone, people have called upon him by tens of thousands, and his preparation has sold in immense quantities.

The sale of this medicine has now spread over the entire country, and is growing enormously each day. In view of this, the following statements from two of the great number of followers which he now has, are of general interest.

## GOES WITH KEWEENAW CENTRAL.

Howard Wright of Hancock, who has been for the past year the representative in the copper country of Milwaukee stamp mill machinery house, has resigned to take the position of superintendent of bridge construction with the Keweenaw Central railroad. He will assume his new duties Monday.

Rings Dyspepsia Tablets do the work. Stomach trouble, dyspepsia, indigestion, bloating, etc., yield quickly. Two days treatment free. Ask your druggist for a free trial. Sold by The People's Drug Store.

## STEAMER NEFF IS READY TO DO SO IF UNDERWRITERS AGREE.

The steamer Neff of Duluth, the wrecking tug which was used by the light house department this past summer in the construction of the Rock of Ages Light, arrived at Portage Entry Wednesday night after an inspection of the steamer Spokane at Manitowish Island. The Spokane went on a reef a week ago and is almost broken in two. Captain Thompson of the Neff believes it is possible to save her.

## FIRST SOUTH RANGE RETURN.

The village of South Range, youngest of the municipalities of Houghton county, has made its first tax return to the county treasurer. Village Treasurer Henry F. Meyer returned yesterday to the county clerk \$35.65 in delinquent taxes out of a total roll of \$2,199.91, which is considered a good record.

## NEW ELECTRIC RAILWAY.

The Calumet & Lac la Poudre Traction & Power company is the name of a new corporation which it is proposed to launch in Houghton and Keweenaw counties. It is intended for a trolley line between Calumet and Lac la Poudre through Keweenaw county. S. M. Wells of Chicago is working up the scheme.

## COPPERDOM BREVITIES.

The Ladies' auxiliary of the Baptist church, Hancock, held a very enjoyable meeting Wednesday afternoon at the home of Mrs. A. B. Thoeny.

## Mining News

### TAMARACK.

The shareholders of the Tamarack Copper company have been figuring on what dividend is possible under the company's operating cost during the current year. It is known that the Tamarack, in addition to having an ordinary high price of copper production, has been putting the year's extraordinary expenses in the course of the year's operation. While it may be argued that these costs do not represent the exact cost of copper to the company, still they do represent the operating expenses of the company, which is all that is sufficient for the shareholders to know since they pay the bills in the long run.

All the expense that the company has been to is the operation of the Cliff mine and repairing the damage done in the fire at the property which the company has been fighting against for the past year. To date the company has produced \$3,750,000 pounds of copper for the current year against about half that amount for the year preceding, but it is to be remembered that the cost of copper has steadily advanced since the summer of 1906 for the reason that labor and all materials used in the operation of the mines has increased at the rate of about 33-1/3 per cent more than was the cost last year. It is probably too early to estimate the cost of Tamarack copper, and it can only approach accuracy when it is considered that a large part of the time the company was suffering from the effects of the fire falls in the period of the report now shortly to be issued.

Thus the copper for the year will be higher than it would be ordinarily been, although it will be high enough in any event. Those who know closely the condition of the company say that the inordinate expense, together with the construction cost to which the company has been put, will make its copper cost at above twenty cents per pound, and that the total operations of the concern for the year were conducted at a loss. The forthcoming report will show the truth or falsity of the statement.

During the year just passed the company has made great efforts in the opening up of the Cliff property and the outlook is exceedingly good that this big domain will eventually develop several paying mines. Unquestionably the Keweenaw and several other of the big copper carrying formations extend into the northern country, and the developments on both sides of the Cliff property indicate that the formations carry copper there in good quantity. In fact the future of the Tamarack may well

## SALVAGE SPOKANE'S CARGO.

The wrecking tug Favorite of Duluth passed east through Portage lake yesterday. She did not report, but it is thought she is going to take a look at the wreck.

## STEAMER NEFF IS READY TO DO SO IF UNDERWRITERS AGREE.

The steamer Neff of Duluth, the wrecking tug which was used by the light house department this past summer in the construction of the Rock of Ages Light, arrived at Portage Entry Wednesday night after an inspection of the steamer Spokane at Manitowish Island. ## NEW ELECTRIC RAILWAY.

The Calumet & Lac la Poudre Traction & Power company is the name of a new corporation which it is proposed to launch in Houghton and Keweenaw counties. It is intended for a trolley line between Calumet and Lac la Poudre through Keweenaw county. S. M. Wells of Chicago is working up the scheme.

## COPPERDOM BREVITIES.

The Ladies' auxiliary of the Baptist church, Hancock, held a very enjoyable meeting Wednesday afternoon at the home of Mrs. A. B. Thoeny.

## Mining News

### TAMARACK.

The shareholders of the Tamarack Copper company have been figuring on what dividend is possible under the company's operating cost during the current year. It is known that the Tamarack, in addition to having an ordinary high price of copper production, has been putting the year's extraordinary expenses in the course of the year's operation. While it may be argued that these costs do not represent the exact cost of copper to the company, still they do represent the operating expenses of the company, which is all that is sufficient for the shareholders to know since they pay the bills in the long run.

All the expense that the company has been to is the operation of the Cliff mine and repairing the damage done in the fire at the property which the company has been fighting against for the past year. To date the company has produced \$3,750,000 pounds of copper for the current year against about half that amount for the year preceding, but it is to be remembered that the cost of copper has steadily advanced since the summer of 1906 for the reason that labor and all materials used in the operation of the mines has increased at the rate of about 33-1/3 per cent more than was the cost last year. It is probably too early to estimate the cost of Tamarack copper, and it can only approach accuracy when it is considered that a large part of the time the company was suffering from the effects of the fire falls in the period of the report now shortly to be issued.

Thus the copper for the year will be higher than it would be ordinarily been, although it will be high enough in any event. Those who know closely the condition of the company say that the inordinate expense, together with the construction cost to which the company has been put, will make its copper cost at above twenty cents per pound, and that the total operations of the concern for the year were conducted at a loss. The forthcoming report will show the truth or falsity of the statement.

During the year just passed the company has made great efforts in the opening up of the Cliff property and the outlook is exceedingly good that this big domain will eventually develop several paying mines. Unquestionably the Keweenaw and several other of the big copper carrying formations extend into the northern country, and the developments on both sides of the Cliff property indicate that the formations carry copper there in good quantity. In fact the future of the Tamarack may well

# THE CITIZENS' NATIONAL BANK

## HOUGHTON, MICHIGAN

OFFICERS. DIRECTORS.

Graham Pope, President. C. V. Seeber, Vice-President. C. H. Moss, Cashier.

Graham Pope, C. V. Seeber, R. F. Chynoweth, J. H. Jusberg, E. H. Hall, A. Holzman, A. M. Schultz, John G. Stone, C. H. Moss.

hang almost entirely on what has been done on the Cliff property. In the old mine the workings are continually growing deeper, and it is generally believed that the copper grows no richer with depth, all of which added to the big increase in the supplies that are necessary to work the mine, and the previous bad condition of the Lake Harbor market account for the present condition of shares and the fact that so many have the security at a much higher figure tend to keep the market steady and the pressure against it at the best of times small.

## GREENE CANANEA.

Notwithstanding the sudden improvement in the copper market and the large sales of the metal by the United Metals Selling company, which will take considerable of the Greene surplus of between 10,000,000 and 15,000,000 pounds of refined copper, the small number of shares and the fact that so many have the security at a much higher figure tend to keep the market steady and the pressure against it at the best of times small.

## Divorce Mill Ground Slowly.

The divorce mill ground but slowly at the circuit court term which closed last week and under the close scrutiny of Judge John W. Stone the grist turned out was not as voluminous as that of other terms of the past, says the Escanaba Mirror. Although several divorce actions were heard at the last term only five decrees have been filed with Clerk A. P. Smith. Throughout this term Judge Stone showed a disposition to investigate each divorce action carefully and in one instance at least the particular displeasure of the court was aroused. It was found in the case mentioned that the plaintiff was a girl of seventeen years who had been deserted by her youthful husband after a period of matrimonial bliss, extending through but a few weeks. In disposing of the case the court with a considerable show of feeling advised that the plaintiff should be returned to the school room and he continued the action indefinitely.

## Butter Will Be High.

The news of the recent fall in the price of butter at the principal markets of the country has been met with delight by the housewives of the upper peninsula. The high price of this almost indispensable commodity has been a source of anxiety for the economic housewife who does not object to pay twenty-five cents per pound, but draws the line when butter reaches thirty or thirty-five cents. However, farmers and produce men are of the opinion that the drop in price is only temporary and that the glee of the consumer will be of short duration. There is less butter in the cold storage houses of the country at this time of the year than formerly. On account of the general scarcity of hay, feed and the high price of farm help the increase in the number of cows that are kept in the dairies of the central states has not been in the same ratio as the population of the dairies. The butter production in the dairy districts of the United States this winter will fall short of that of last season. With the increased demand the price is bound to be high even if there is a financial crisis in Wall street. Farmers are not at all alarmed about the condition of the butter market at the present time.

## Upper Peninsula

### Section Men's Pay Is Cut—

A marked retrenchment policy has been adopted by the officials of the Northwestern road for the Peninsula division and which has affected many of that company's employes. By an order which went into effect on Nov. 1, the pay of all section hands is reduced from \$2.50 a day to \$1.35 a day. All car repairs employed at the different stations are cut down from a ten to a nine-hour day. Marked dissatisfaction with the new order is said to be shown by the section men and whistling against the order has been heard from several employes at points from Green Bay to Ishpeming. The retrenchment policy of the Northwestern is in line with that now being adopted by the roads of the country and it is claimed that objections by the employes will have no effect in restoring the former working conditions.

## Labor Scarcity Delays Work.

A marked scarcity of men, which has been felt throughout the season has prevented any great headway being made in the preparation of the right-of-way for the railway line which will connect Van's Harbor and the village of Garden, Delta county, with the outside world. The Van's Harbor and Lumber company, which has charge of the work, has been unable to secure sufficient labor. However, next week, when the sawmill at Van's Harbor will be closed for the season and a large number of men will be thrown out of work, it is believed that

## When a medicine has stood the test for a period of more than two generations and is then more popular than ever, there can be no doubt of its merit.

This is the record of S. S. S. Its period of existence is marked by a long line of cures of blood and skin diseases of every character, and its value in the treatment of such troubles has become so well known that it is today the most extensively used blood medicine on the market. For Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases and all other troubles due to an impure or poisoned condition of the blood, S. S. S. has no equal. It counteracts and drives out the poisons, humors and germs, cleanses the system of all unhealthy matter, cures the disease permanently and restores strong, robust health. Where the blood is weak or anaemic, and unable to furnish the body with the nourishment and strength it needs, S. S. S. supplies it with the healthful properties and acts splendidly in toning up and reinvigorating the system. It goes down to the very bottom of all blood disorders, and in this way reaches inherited taints on which the ordinary blood medicines have no effect. Not only is S. S. S. certain in its results; but it is at the same time an absolutely safe remedy. It is made entirely of roots, herbs and barks of known healing and curative value. It does not contain the slightest trace of mineral in any form to damage the delicate parts of the system, and may be used by children with the same good results and perfect safety as by older people. It is not an experiment to use S. S. S.; it is a remedy with a record and one that has proven its worth by its forty years of successful service. If you are in need of a blood purifier for any cause begin the use of S. S. S., write our physicians and they will send you a book concerning your trouble, and will give without charge any special medical advice that is required.

W. B. Castle left yesterday for a trip to the copper country.  
A. A. Crego of Gaylord, Mich., is visiting Marquette friends.  
James Bemis of Ishpeming was in the city yesterday on business.  
Captain Foley of Negaunee was a visitor in the city yesterday.  
Gust Carlson of Hibbing is paying a visit to Marquette friends.  
G. C. Oleson of Duluth is paying a visit to friends in the city.  
George M. Ross, of Calumet was a visitor in the city yesterday.  
William A. Triggs of Princeton was a visitor in the city yesterday.  
Mr. and Mrs. J. E. Tretheway have left for an outing at their camp.  
Dr. J. H. Dawson returned yesterday from a recent trip to Rockland.  
Mr. and Mrs. Samuel Bensing are paying a visit to friends in Chicago.  
Mrs. S. R. Kaufman and N. M. Kaufman left for Chicago yesterday.  
John Keyes, of the copper country is paying a visit to friends in the city.  
Mrs. G. M. Wills returned yesterday from a visit with friends at Escanaba.  
Captain Joseph Hodgson of Ishpeming paid a recent visit to friends in the city.  
Miss Laura Story of Negaunee is visiting at the home of Miss Rose Beaudin.  
Miss Anna Johnson left yesterday for Ashland, Wis., which is to be her future home.  
Mitchell DeHass has returned from a visit to Chicago. Mrs. DeHass is visiting friends there.  
Marshal James Maloney of Princeton, who has been visiting friends in the city, returned home yesterday.  
W. G. King, who has been visiting relatives at Louisville, Ky., for the past week, returned to the city yesterday.  
The Ladies' Aid society of the Baptist church will meet with Mrs. C. M. Burt, 325 High street, this afternoon at the usual hour.  
Miss Olive Pendill and Mrs. Pendill left yesterday for Chicago. From there they are to go to Florida, where they will spend the winter.  
George H. Bellinger, who has been at St. Mary's hospital for the past three weeks, was able to be removed to his home, 723 High street, yesterday.

**House Night Monday**—Monday night will be House Night at the Marquette club. An appropriate program is to be given.  
**Afternoon Meeting**—A meeting of the Women's Guild of the Episcopal church is to be held at 2 o'clock this afternoon at Morgan Memorial chapel.  
**Swedish Society Meeting**—The Young People's society of the Swedish Lutheran church will meet this evening at 7:30 o'clock at the church chapel.  
**Marriage License**—A marriage license was granted by the county clerk yesterday afternoon to William Vanery and Miss Emma Cordinal, both of Ishpeming.  
**Hop Tonight**—The hop to be given by the traveling men is to take place tonight. Invitations to the hop were sent to the members and their friends early in the week.  
**Presbyterian Meeting**—The Women's Aid society of the Presbyterian church will meet this afternoon at 2:30 o'clock at the home of Mrs. E. S. Bice, East Hewitt avenue.  
**Methodist Meeting**—A meeting of the Ladies' Aid society of the Methodist church is to be held at 2:30 o'clock this afternoon at the home of Mrs. Roderick McKenzie of High street.  
**Guild Meeting**—A meeting of the Young Women's Guild of the Episcopal church is to be held at 2 o'clock this afternoon at the home of Miss Jopling of 400 East Ridge street.  
**To Meet Today**—A meeting of St. Mary's Guild of St. Peter's cathedral parish is to be held at 2 o'clock this afternoon at the home of the Misses Werner of 121 East Hewitt avenue.  
**Farther Lights Society**—The Farther Lights society of the Baptist church will meet with Mrs. C. H. Maxson, 406 East Arch street, this evening. The Farther Lights is a missionary organization.  
**Musical Tomorrow**—The concert which was to have been given at the Northern Normal two weeks ago by the Saturday Morning Musical club, but which was postponed, will take place at the school tomorrow.  
**In Honor of Mrs. Case**—Mrs. R. S. Donaldson entertained at a reception at her home on East Michigan street yesterday afternoon, in honor of Mrs. Fred S. Case, formerly of Munising. The reception was very largely attended, and was a pretty and enjoyable function.  
**At Hager's Store**—George Amundson has taken charge of the upholstery department at the Hager furniture store. Mr. Amundson is an expert upholsterer and draper and was formerly connected with well-known furniture houses in both Grand Rapids and Detroit.  
**Flint Hunters Come North**—A party of about forty Flint hunters left for the upper peninsula this week and many of them will hunt in this county. The party had a special combination baggage and passenger car. Among its members are the sheriff and chief of the fire department, and prominent business and professional men.  
**Funeral Yesterday**—The funeral of John Hill, the ore dock workman who was killed by a South Shore ore train

Tuesday night last, was held yesterday afternoon. His fellow workmen from dock No. 4 on which he was employed attended and the pallbearers were chosen from their number. Services were held at the Swedish Lutheran church and the interment was in Park cemetery.  
**Japanese Art Exhibit**—A rare collection of Japanese prints and stencils is to be on exhibition in the Munising high school auditorium this afternoon. Soz Matsumoto Shima, the Japanese artist, was persuaded by his friend, Eugene S. Paulus, to send this interesting collection from his studio in Nagoya, Japan, to Munising. Among the prints to be exhibited are those of Hiroshige, Kaminori, Yelzen, and Sadakage. Several are centuries old. An informal talk on the artistic merit of Japanese color and composition will be given by Mr. Paulus, who has charge of the exhibition.

### LOST WOMAN FOUND.

**After Long Search Distracted Woman Is Found Near Her Home.**  
Mrs. Isabelle Nelson, whose mysterious disappearance from her home at Thomaston Wednesday night aroused the entire community, was found early yesterday evening by one of the searching parties that were sent out to trace her. She was wandering in the woods and was almost prostrated with terror when they discovered her. She was about two miles from her home, near an old abandoned logging camp.  
The woman's disappearance from her home was not known until yesterday morning, and when she could not be found her neighbors organized parties to beat the woods in a search for her. Owing to the effects of the terrifying experiences through which she had passed during her night and day in the woods, Mrs. Nelson was not in a condition last night to tell how she became lost. The accepted explanation is that she was searching for a cow which had failed to appear at the house Wednesday night.

### GO BACK TO WORK.

**Marquette Telegraphers Who Struck a Month Ago Are Back at Their Keys.**  
Just a month ago, on October 8, the Marquette Western Union telegraph operators abandoned their keys and walked out in sympathy with the general telegraphers' strike. Today three of the four who struck at that time are back at work, and it is said, at reduced salaries. The men returned to work because the strike was called off. The four who quit are James Gregory, J. Miller, L. Bertrand and P. Lavandusky. The strike of the four followed a visit to Marquette of Richard Jones, secretary-treasurer of the Duluth local. The business of the office was but slightly affected by the walkout and it continued to run with Manager Giesregen as the only operator. Later, another operator was sent here by the company. As the strike languished and died the men here found that their self-sacrificing effort to aid it was of slight avail, and when it was off three of the four applied for re-instatement and are back at work.

### THEATRICAL.

**"The Land of Nod,"** a musical fantasy in a prologue and two acts, by Adams and Hough, with music by Joseph Howard, will be the attraction at the opera house next Wednesday. The production is under the management of the Bork company and comes here fresh from Broadway, where it scored one of the greatest successes of any musical comedy in New York last season. Its run was interrupted by the fire at the New York theater, but arrangements have been made to resume the engagement there later in the season. One of the principal reasons why "The Land of Nod" has been so unusually successful is on account of its decidedly unique character, creations and the novelty and picturesqueness of the play, which are briefly described as follows:  
The prologue shows a beautiful garden of flowers where children are at play. Little "Bonnie" falls asleep beneath a rose bush, and the change of scene to the first act discloses her in "The Land of Nod." In this mysterious sleepland with such strange features as a peppermint river, a house of cards, a candy bridge, balloon trees and mushroom palaces, Bonnie starts exploring.  
She encounters the "Jack of Hearts" and his parents, the "King and Queen of Hearts"; the "Weather Man," who makes all kinds of weather while you wait; "April Fool" the "Sand Man" and his pal, "Knockout Drop," and the merry old "Man in the Moon." All of these queer people contribute to her amusement and entertainment. In the second act the "Nightmare Palace" of the Land of Dreams is entered and the plot, begun in the preceding act, is carried to a logical conclusion.  
The production represents an investment of \$100,000 and is said to be one of the most magnificent spectacles ever sent out. Among the list of principals are Knox Wilson, William Friend, Lawrence Coeyer, Bessie Clifford, Helen Darling, Ursula Marsh, Anna McNabb and other well-known names. The entire company numbers eighty-six, including sixty of the most winsome show girls on the stage today.

Don't be discouraged if other remedies have done you no good. Try Hollister's Rocky Mountain Tea, the greatest blessing to suffering humanity. The surest protector against disease. 35 cents. Tea or tablets. The Stafford Drug Co.

**CHURCH DEDICATION.**  
Presbyterian Edifice Will Be Reopened Two Weeks from Sunday.

The Presbyterian church, the rebuilding of which was recently completed, will be dedicated two weeks from Sunday, the 24th, when three services will be conducted, at 10 a. m. and at 3 and 7:30 p. m. The event will be an important one, and will occur just one day previous to the thirtieth anniversary of the society. The congregation was organized Nov. 25, 1877, and the old church was in use nearly thirty years.

**"THE LAND OF NOD."**  
Biggest Musical Comedy of the Season to Be Here Next Friday Evening.

The Rock company's beautiful production of the extravaganza, "The Land of Nod," will be given at Ishpeeming theater next Friday evening. It is one of the largest productions that has ever played this circuit. The company will make the run from Minneapolis to Calumet next Sunday by special train of three baggage cars, two sleepers and a day coach. After filling engagements in Calumet, Hancock, Marquette, Escanaba and Ishpeeming, the company will leave this city by special train for Duluth, leaving here at 3 o'clock Saturday morning.

"The Land of Nod" introduces "The Man in the Moon" and his wife, "Bory Bory Alice," "The Sand Man," "The Weather Man," "April Fool," "The Welsh Rarebit," "The Jack of Hearts" and his parents, "The King and Queen of Hearts." They have been plentifully supplied with things to do, which make them extremely interesting people. The comedy in "The Land of Nod" is of the spirited, wholesome kind which compels immediate laughter, and the music is pretty and popular. The production as to scenery, costumes and other effects, is massive and beautiful, and the ensemble is unusually complete and effective.

**"The Man of Mystery."**  
The Flora De Voss company, which will fill a five night engagement next week at Ishpeeming theater, will open Monday night with the comedy drama, "The Man of Mystery." The company carries specialty people, and moving pictures and illustrated songs will be other extra features. The admission prices will be ten, twenty and thirty cents.

**TO MINING CONGRESS.**  
Ishpeeming Man Will Represent the State at Meeting to Be Held at Joplin.

A. J. Yungbluth, auditor of the Cleveland-Cliffs Iron company, has been appointed by Governor Warner as Michigan's representative to the American Mining congress, which will convene for its fifth annual session at Joplin, Mo., next Monday. Mr. Yungbluth appreciates the honor, especially as the appointment came to him unsolicited. He has learned since receiving the governor's letter that some of his friends among the mining men have been doing some quiet work in his interest. It is reported that Thomas F. Cole will be Minnesota's representative at the meeting.

In view of the varied experience Mr. Yungbluth has had in the mining business, also because of his several years' service as secretary of the Lake Superior Mining Institute, he is especially well fitted to represent the state at the big meeting in Missouri.

**ROAD WORK COMPLETED.**

The crew employed on the county road between Eagle Mills and Marquette has practically completed its work and the last of the workmen, with the exception of the steam roller engineers, will finish up tomorrow. The rollers will be operated for a few days additional. When the work is resumed next spring the crusher plant will be operated for a time at its present location, but it will be moved later to a point nearer Marquette. Road Commissioner Earle is expected here next Tuesday evening, and on Wednesday he will examine the work.

**DEPOSIT WAS \$350,000.**  
Amount in Chariton, Ia., Bank Larger Than Director Byrns Supposed.

C. J. Byrns, director of the Modern Woodmen of America, arrived here yesterday from Chariton, Ia., where he and three of the other head officers spent a few days looking after the society's financial interests. Mr. Byrns did not know when he left Ishpeeming what amount had been placed in the Chariton bank, of which Crocker, who committed suicide last week, was cashier, and he said that he thought the amount was something between \$100,000 and \$200,000. On arriving at Chariton he was advised by C. H. McNider, the society's present banker, that the total deposit was \$350,000, not \$350,000 as the press dispatches reported one day last week.

The officers were unable to ascertain the condition of the bank, as the examiner was not prepared to make a statement. He will have the bank's affairs checked up within ten days or two weeks.

The Woodmen's officials feel that the bank is not insolvent and that the order will not loose any of the money deposited in it. Mr. Byrns said that he was under a false impression as to the character of the bonds, as they were all personal, instead of part personal and part surety. Mr. McNider advised him that the bonds were signed by nine or ten men whose combined wealth was estimated to be between \$5,000,000 and \$6,000,000. One of the bondsmen is said to be worth \$1,250,000.

Crocker had been speculating and he had purchased stocks at much higher figures than their present market value. A few days before he committed suicide he called on Mr. Kirk, a former associate in business, telling him that he was involved and stating that he was unable to raise sufficient money to straighten out his affairs. He told Mr. Kirk that he needed only a few thousand dollars to make good his shortage.

Mr. McNider, who is in the banking business, advised the Woodmen officers that he considered the Chariton bank one of the strongest institutions in the smaller towns of the West, and that he believed the order would suffer no loss. It was because of the excellent reputation of the bank that he gave it a larger deposit than other banks in cities of similar size. Several of the depositaries have from \$200,000 to \$300,000 of the Woodmen's money, and others have from \$25,000 to \$100,000, but in all cases, Mr. Byrns said, the bonds are for sums much larger than the amount on deposit. In most cases both surety and personal bonds are held by the society.

Do you know that Pinesalve Carbolicized acts like a poultice in drawing out inflammation and poison? It is antiseptic. For cuts, burns, eczema, cracked hands it is immediate relief. Sold by The People's Drug Store.

RAYMOND & POOR PRESENT  
**MISS IRENE TAYLOR**  
In an elaborately costumed scenic production of  
**"East Lynne"**  
Friday Night and Saturday Matinee. "LADY AUDLEY'S SECRET" Saturday Night.

**"EAST LYNNE" TONIGHT.**  
Raymond & Poore's "East Lynne" company will fill a two nights' and matinee engagement at Ishpeeming theater, beginning this evening. "East Lynne" will be played tonight and tomorrow afternoon, and tomorrow evening "Lady Audley's Secret" will be the bill. The prices will be twenty-five, thirty-five and fifty cents; matinee ten and twenty-five cents.

**ISHPEMING IN BRIEF.**  
Joseph Mitchell of Beacon was an Ishpeeming visitor yesterday.  
R. M. Wilson of Calumet looked after business in the city yesterday.  
E. J. Bourbonnais, representing the W. H. Deo Cigar company of Houghton, was in the city yesterday.  
Mr. and Mrs. M. C. Scully of Marquette spent yesterday visiting relatives and friends in this city.  
Mrs. H. Harwood's division of the Presbyterian church will conduct a fifteen-cent social in connection with a pantry sale this afternoon at the church parlors.  
The ladies of Grace church will conduct a Thanksgiving pantry sale on Wednesday, Nov. 27, at Tillson's drug store. Thanksgiving dainties and delicacies will be on sale.  
W. H. Jobe, a wellknown mining man of the Menominee range, attended the funeral of the late Mrs. E. S. Roberts in this city yesterday. Mr. Jobe is located at Iron River.  
Ishpeeming sportsmen who plan to spend Sunday in the Lake Independence district will have to leave here on the early South Shore train, as the special on the Marquette & Southeastern line will leave Marquette at 6 o'clock. It is expected that the special will be largely patronized.

**FROM HOPKINS' CURB LETTER.**  
"Coppers were generally lower today, influenced by the lower quotations for the metal and the increase in Bank of England rate to 7 per cent. Copper Range, North Butte, Butte, Coalition and Green-Canaan were the leaders in the decline, all showing losses from 1/2 to 1 1/2 points."  
The day's prevailing prices were:

### NEGAUNEE LODGE A THRIVING ONE

### LOCAL BRANCH OF SONS OF ST. GEORGE IN MORE PROSPEROUS CONDITION THAN EVER—ORDER MAY INCREASE DEATH BENEFIT.

The officers and members of English Oak Lodge, Sons of St. George, have for some time past contemplated an increase in the death benefit from \$25 to \$150. The proposed change has already been discussed at several meetings and it is possible that final action will be taken tomorrow evening. The society's financial condition was never better than now, it having a cash balance of over \$2,000. English Oak lodge has been conducted along lines different than those followed by most of the other lodges in the upper peninsula. All of the benefits are paid out of the treasury, and the members' dues is 88 per year, regardless of age or occupation. In most of the other lodges a special assessment is called after the death of a member. As the benefit fund has been increasing steadily, the officers of English Oak lodge believe that they will have no difficulty paying \$150 without increasing the dues or calling assessments. Some of the members favor an increase of \$1 per year in the dues; others believe that the assessment plan should be introduced.

English Oak lodge has over 200 members. During the past nine years, including the present six months' period, which ends December 1, it has had twenty-three deaths. Three deaths have thus far occurred in the present period, all of the deceased members having been killed at the Rolling Mill mine. Two, Charles Kent and Alfred Jewell, were among the victims of the run away cage disaster, and Stephen Demuthorn died as a result of injuries received by falling through a mine.

Besides paying a benefit at the death of a member, the lodge has a sick benefit of \$5 per week. This is paid for thirteen consecutive weeks, but in many cases where a member has been unable to resume work at the expiration of that time the limit has been extended.

### REV. YONKERS RESIGNS.

Pastor of Presbyterian Church Intends to Give Up His Negaunee Charge.

Rev. W. R. Vonkers, pastor of the Presbyterian church, has resigned, and his resignation will be considered at a congregational meeting held next Sunday morning, at the conclusion of the 10 o'clock service. Rev. Vonkers has been pastor of the Negaunee church for less than two years.

A meeting of the Lake Superior Presbytery has been called for next Sunday morning, at 4 o'clock, p. m., to consider Rev. Vonker's action. Other matters that the Presbytery will dispose of will be the dissolution of the pastoral relations of Rev. J. A. Daly with the church at St. Ignace. He has resigned to accept a call in the Presbytery of Fort Wayne, Ind., where he will be pastor of Bethany church. Rev. D. E. Long is moderator of the Lake Superior Presbytery, and Rev. M. M. Allen of Ishpeming, is secretary.

### SECTION MEN WORKING.

Tuesday the management of the Pennsylvania Division of the Chicago & North Western Railway company at Escanaba announced that there would be a reduction in the wages of the section hands from \$1.50 to \$1.25, also that the working hours of the shop men would be changed from ten to eight. The section men resigned to meet the reduction, and for a few days practically all of the crews employed north of Escanaba were idle. Yesterday it was announced that the management had decided to restore the \$1.50 wage rate, and it is expected that most of the shop hands will return. It was reported from Escanaba early in the week, also from Janesville, Wis., where a reduction in the working hours of the shop men had been announced that there was liable to be a strike of the employees effected. The proposed reduction in the working hours is equivalent to a reduction of 20 per cent in wages. It is understood that the order for eight hours a day in the shops is general on the entire system.

### Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens confidence, saps vigor and cheerfulness, and when the kidneys are out of order or diseased, it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women, as well as men are made miserable with kidney and bladder trouble and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle sent free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

### VAUDEVILLE DOESN'T PAY.

Bijou Theater Will Be Conducted as a Moving Picture Illustrated Song House

Manager Floyd D. Archer of the Bijou theater has found, after a three weeks' experience, that vaudeville will not pay here, and beginning tomorrow evening his entertainments will consist of moving pictures and illustrated songs. He said yesterday that he was unable to secure the attractions playing the circuit houses in Marquette and the copper country, and he found that it would cost him more to bring on performers from Chicago than the house could possibly afford.

Mr. Archer intends to give a good program of moving pictures and illustrated songs, and the subjects are to be changed either two or three times a week. The house is now equipped with new opera chairs.

### NIGHT SCHOOL A SUCCESS.

Over 100 Young Men and Women in Attendance the First Week.

The night school which opened Monday evening in the commercial department of the Case street building will doubtless be a success, as seventy-six persons applied for admission the first night and on Tuesday evening over 100 were present. About seventy-five of these are young men, and the remainder are girls. The class was too large for one instructor, and John Erickson, of the high school, is assisting Mr. Squires.

"The attendance the first night (and again Tuesday evening) was larger than we expected," said Dr. J. H. Andrus, president of the board of education yesterday. "If the increase continues for a few days we will be swamped. But we are pleased that the attendance is large. Most of the students are foreign born young men. A large number will take the commercial course, but we will have many pupils in reading and spelling, and some of the students do not talk English very well. The school will be open three evenings a week, on Monday, Tuesday and Friday. We now believe that the work can be continued through five months. This is the first time a night school has been conducted in Negaunee, but if it proves to be the success now anticipated, I have not the slightest doubt but that the board will continue the feature in future years."

### ACMES DEFEATED WOLVES.

In the bowling contest Wednesday evening at Dr. S. Tompkins alley, J. E. Nelson, a member of the Acme team, had the unusual score of ten consecutive spares. The management has a standing offer of \$1 for the bowler securing ten spares. The Acmes defeated the Wolves, the scores being as follows:

Totals	745	901	783	2429
Wolves	164	159	179	502
Olks	150	134	137	421
Geisler	128	146	101	375
Schwartzberg	101	118	138	357
Vincent	110	151	113	374
Totals	637	751	668	2056

### UNION DEPOT HOTEL TEAM.

A football team has been organized by the boarders of the Union Depot hotel and The Mining Journal is authorized to state that it is prepared to meet any eleven in the county, the "L & H. Tigers" of this city preferred. The team will average 135 pounds and the players, with their weights, are as follows: John Simmons, center, 230 pounds; John Buske, right guard, 183; Bernard Carvelino, left guard, 165; Elsworth May, left tackle, 150; Frank Tompkins, right end, 150; Joe Cason, left end, 150; Clark Kirpatrick, quarterback and captain, 150; Ed Hooper, right halfback, 195; Al Hooper, left halfback, 180; and Andrew Nichols, fullback, 175.

### CARD OF THANKS.

We desire through The Mining Journal to express our appreciation for the many favors and sympathy extended by our friends and neighbors during our recent bereavement. We wish particularly to thank friends for their floral offerings and those who rendered us such valuable assistance at our home.

MRS. ROSE BEEN and Family.

### LOCAL LACONICS.

Harry Thela and John Arnett left yesterday for the woods near Clowery, where they will hunt deer.

The ladies of the Episcopal church will serve coffee and hold a party sale at the church parlors this afternoon.

The Cleveland-Cliffs Iron company is preparing to put a diamond drill in operation at the north end of Tobin street, near the bluff.

Ernest Osier, a lineman who has been in the employ of the city for some time past, has given up his position and has taken a place with the Marquette County Gas & Electric company.

A party of Negaunee men composed of Al Willman, Louis Peterson, Jacob Sals, Alex. McDougal and others, will spend the greater part of next week hunting near Green Creek, south of Palmer.

J. M. Perkins, Dr. A. W. Haidle and E. B. Raymond of Negaunee, Joseph Corner of Ishpeming, and H. F. Fenner of Marquette, and a friend of the latter from Bay City, left yesterday on a hunting expedition some miles out from Michigan.

The board of public works has been advised by the Fred M. Prescott Steam Pump company of Milwaukee that the condenser for the new plant recently installed at the power station will be shipped on the 10th.

The Ladies' Aid society of the Palmer Methodist church is making preparations for a bazaar and supper to be given a week from tomorrow evening, the 16th, at Palmer. Rev. Frank Watters, pastor of the National Methodist church, preaches every Sunday afternoon at Palmer. The Marquette & Southeastern Railway company will run a special train out

## Women Avoid Operations

When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.

The very thought of the hospital, the operating table and the knife strikes terror to her heart. It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure. The strongest and most grateful testimonials possible to make come from women who by taking

## Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N. Y. She writes: "Dear Mrs. Pinkham:—Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years." This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation. Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

MISS ROSE MOORE

TAKEN UP—Cow John Niemisto, on county road, south of Silver St., Negaunee, 11-5-10

# EVERYBODY WANTS WATER METER NOW

## HOW THE PUBLIC CHANGED ITS MIND IS TOLD IN THE RECORDS OF WATER BOARD.

### KERN WANTED "TO FIND OUT"

#### Installed Meter in His Home Ten Years Ago, the First in the City, and Then He Made a Discovery.

How Marquette became converted to the use of water meters is a story which is written in the records of the water office a story that proves that sometimes the public doesn't know a good thing when it sees one. Three years ago when the board of water commissioners began experiments with meters which they sought to bring into use met with general opposition and the men in the department still relate encounters they had at that time with angry and protesting housewives who "didn't want the meters put in." A change has been brought about since that time and now the department is unable to supply the demand for meters. Everybody wants one and the reason is that to the small consumer of water the meter reduces the bill by three-fourths.

#### First Water Meter.

The first water meter installed in Marquette was in the home of John T. Kern, the superintendent of the department. That was about ten years ago. Probably the reason Mr. Kern today knows his business so well is that he has always wanted "to know all about the thing," to quote his own words. This characteristic led him to want to know about the quantity of water that was being used in the city and as a means of finding out he knew he would have to have a meter. There were none here at that time and the water board was not providing them, so at his own expense he installed one in his home.

#### What the Meter Told.

Mr. Kern watched his meter carefully and it began to tell an interesting story. He discovered that the small consumer, such as he was himself, was paying an enormous rate for water, something like twenty-five cents per 100 cubic feet. In fact, just about four times as much as he now pays. With further investigation he learned that the large consumer was receiving water at an exceedingly low rate. The flat rate, which was then paid by both the large and small consumer, was the reason for the difference in the cost to the two.

It was found that some of the large consumers, like the steam laundry, which was paying a flat rate something like \$25 a year for its water and using hundreds of thousands of gallons, was getting its water for something like a cent and a half a thousand gallons. On the other hand a small consumer, who was paying probably \$6 a year and using a comparatively small amount of water, was paying anything from twenty-five to fifty cents a thousand gallons for his water. That was the story the meter told.

#### Water Board Experiments.

As these things were being learned the water board began to study the meter question and three years ago it was determined to try them in a number of places. That the water board had faith in the meters, or that they wanted to be the victims should their conclusions regarding the use of meters prove incorrect, is evidenced by the fact that the first meters were installed three years ago in the homes of the members of the board, which was the reason for the opposition. The board had learned the saving value of a meter to the small consumer, but the general public hadn't, and moreover, didn't want to learn. "It meant a higher price for water and they didn't want the meters put in," they said. In a number of cases it was necessary to threaten that water would be turned off before permission to install meters was obtained.

#### Change of Feeling.

Gradually there came a change of feeling toward the meters and after the bills for a quarter after the meters had been in use were sent out, the ones that had made the most strenuous objections to the installation of meters in their homes were the ones who declared that they would not be without them. They were paying, they found, just about one-fourth of what they had paid before water.

While the small consumer was rejoicing over his meter there was a story of a different sort to be heard from the large consumer. The thousands of gallons which he had been buying at a flat rate were being measured by the new meters and he found that for him the meter had doubled the price of water. The old method of computing the water rate was more or less haphazard. The rate was estimated from the following table:

Four rooms or less, occupied by four persons or less.	\$ 6.00
Each added room.	1.00
Each added occupant in excess of one to each room.	.50
All furnished rooms considered as occupied.	
Private water closets.	3.00
Public water closets.	5.00
Private bath tub.	5.00
Public bath tub, one.	10.00
Each additional tub.	6.00
Yard Sprinklers, per Season.	1.00
Residence lots not exceeding fifty feet frontage, one sprinkler.	7.00
Each added foot after fifty feet front, up to 100 feet frontage.	.10
Each added foot front over 100 feet frontage.	.05
Extra charges if more than one sprinkler is used on same lot.	

Street sprinkler, each store front	2.50
Sleeping rooms, per occupant	3.00
Offices, per occupant	3.00
Dry goods, hardware, jewelry and drug stores	8.00
Grocery stores and markets	12.00
Saloons	12.00
Shoe, tailor and harness shops	4.00
Barber shops, each chair	3.00
Horses	2.00
Cows	1.00
Washing carriages	1.00
Steam engines, per horsepower	4.00
Manufactories, first ten persons	3.00
Each added person	.25
Building purposes, 1,000 brick	10.00
Building purposes, 100 square yards plaster	.30
Building purposes, 1 cord stone	.10

#### Cost of Water Equalized.

Based upon an estimate made from this table a small consumer, who might be using about 25,000 gallons of water annually and paying a rate of \$6 a year, would be paying for his water at the rate of about twenty-five cents a thousand gallons. On the other hand the large consumer, who was paying a flat rate of say \$25 a year and was using a million and a quarter gallons, would be buying his water at the rate of two cents a thousand gallons. The meters are changing all of this and the cost of water is being equalized. The cost for a thousand gallons of water under the meter rate is nine and a half cents. The table of meter rates is as follows:

First 7,000 cubic feet, or less, used during quarter, seven cents per hundred cubic feet.  
Second 7,000 cubic feet or part thereof, five cents per hundred cubic feet.  
All excess above 14,000 cubic feet, four cents per hundred cubic feet.  
Minimum meter rate, \$1 per quarter.  
One cubic foot of water is equivalent to 7.48 gallons.

#### Meters Installed Without Cost.

There are about 750 gallons in 100 cubic feet of water. According to the table the consumer with a meter now pays at the rate of nine and a half cents per thousand gallons for the first 5,200 gallons he uses in a quarter, eight cents per thousand gallons for the second 5,200 gallons and five cents per thousand gallons for all water over 10,400 gallons he uses in the quarter. Under the former flat rate he paid all the way from twenty to fifty cents per thousand gallons.

The work of installing meters is done by the water board without any cost to the property owner. Last February when the installing work began the fact that the work did not cost a cent to the property owner made no difference. He didn't want the meter. Today the department cannot begin to supply the demand for meters and so much has the situation changed that property owners in many cases are hiring plumbers and are going to other expense to have meters put in.

So far the department has installed between five and six hundred meters and the work has cost about \$8,500. Only about a third of the water consumers of the city have been supplied thus far and the total cost of the work to the department will be between \$15,000 and \$20,000. The establishments of all the large consumers of water have now been equipped with meters. There are now five styles of meters in use in the city—the Keystone, made in Pittsburgh; the Hersey, made in Boston; the Nash, Worthington and Trident, all made in New York. There is but slight difference in the cost, each being worth from \$8 to \$9. The estimated cost of installing a meter is \$2. The present water rate in Marquette is considerably lower than in many other cities of the same size.

## FURNACE EMPLOYEE'S SKULL IS FRACTURED

### PETER PENTTINEN AT ST. LUKE'S HOSPITAL WITH BUT SLIGHT CHANCE FOR RECOVERY.

Peter Penttinen, an employe at the Pioneer furnace, was struck on the head by a heavy piece of timber which dropped from a trestle at noon yesterday and is now at St. Luke's hospital with a fractured skull. It was stated last night that his recovery is doubtful.

#### Is Unmarried.

Penttinen, who is about forty years old, had been employed at the furnace but a short time. He lives north of the city near the plant and is unmarried. It is not known whether he has any relatives in or near the city.

Shortly before the noon whistle blew yesterday he started across the yard just beneath the trestle, which is about twenty feet high. In some manner the block of wood loosened and dropped just as he came under the trestle. The end of it struck him squarely on the top of the head and he sank to the ground without a groan.

#### Chance for Recovery.

Some of the men ran to his assistance and while they were carrying him into the plant a call was sent for the ambulance. All efforts to revive him were futile and he had not regained consciousness when he was brought into St. Luke's hospital, an hour after the accident had happened. The physician who attended the man stated last night that he was holding his own and that there was a chance that he would recover.

#### TWIRLER COMING TO HUNT.

Eddie Siever, one of Detroit's crack left-hand pitchers, is on his way to Marquette. The purpose of his visit is to hunt deer and it is possible that one or more of the team will accompany him. Siever's plans were not announced before he left Detroit. He merely stated that he was going to Marquette and would be with a party in the woods during the hunting season. Siever was not registered at any of the local hotels yesterday.

When you are sick, out of sorts, take Hollister's Rocky Mountain Tea. The most effective remedy. Believes when it fails. You be the judge. Try it. 45 cents. Tea or Tablets. The Stafford Drug Co.

#### HUNTERS' MAPS.

County and city maps for sale at my office, Fred block, corner Front and Washington streets.

## TWO FREIGHT WRECKS ON THE SOUTH SHORE

### WRECKER FROM MARQUETTE AND SPECIAL LEAVES CITY WEST-BOUND THIS MORNING.

Two freight wrecks on the South Shore yesterday afternoon delayed traffic somewhat and made it necessary to send out a special train from Marquette at 1 o'clock this morning. No lives were lost and there was no property loss.

#### Wreck at Soo Junction.

The more serious of the wrecks was on the bridge at Soo Junction, about a hundred and eight miles from Marquette. The journal on an axle of one of the cars of a freight train which left Marquette yesterday broke on the bridge, with the result that the car jumped the track and two other cars of the train were derailed.

The engineer of the train at once stopped and the train was on the bridge. About 11 o'clock last night the wrecker was sent out from Marquette and it is thought that the derailed freight cars can be moved within a short time after the wrecker begins operations.

#### No. 7 Delayed.

Passenger train No. 7, which is due here at 11 o'clock, was halted by the derailed cars and will not be able to proceed until this morning. It was thought last night that No. 7 would be able to reach Marquette by 6 o'clock this morning. To care for her west-bound passengers a special was made up last night and left at 1 o'clock this morning.

The other wreck was at Ewen, a hundred miles west of the city. It was caused in the same manner, a broken journal, by which four freight cars bound for Marquette were derailed. The cars are laden with general merchandise. The Ewen wreck did not delay traffic in any manner, as there is a side track at that point which the regular trains were able to use.

#### DEATH OF CHOCOLAY MAN.

Joseph Lajenne, aged 56, Dies After Illness of Several Months.

Joseph Lajenne, a well-known resident of Chocolay township, died Wednesday night after an illness extending over a period of several months. The cause of his death was lung trouble. He was fifty-six years old. A wife and several children survive him.

The funeral, which is to be held tomorrow, will be from the French Catholic church. The interment will be in Holy Cross cemetery.

#### RUNS TRUANTS HARD.

Ed. Quarters Has Put Some Sixty of Them Back in School.

The position of head janitor of the city schools is no sinecure, but Ed. Quarters finds time enough after his multitudinous duties are looked after to make life miserable for the truants. So far this school year he has rounded up about sixty of them, practically all of whom have been compelled to attend school. Wednesday he corralled five boys, were bolting the class room and taking life easy. Mr. Quarters says that he will continue to make life miserable for the truants. He has been instructed by the school board to lock up every boy under the age of sixteen not in school, and unless they are employed helping families to whom their assistance is necessary they will be compelled to attend school regularly. Boys of school age will not be allowed to idle their time away.

#### SAYS HE WAS BEATEN.

Marquette Jeweler Has Encounter With Rival Mining Tradesmen.

M. F. Goldberg, the Third street jeweler, who returned to the city yesterday from a trip through Schoelcraft county, asserts that he was assaulted last Tuesday at Cusino by two rival tradesmen from Munising, and he declares that he intends to swear out a warrant for the arrest of the two.

He was selling jewelry to the various camps at the time, he says, and last Saturday was in Metzger. After leaving Metzger, he says he was followed by the two and was compelled to hide in the woods from them. They followed him for three days, he says, and while he was at the shingle mill at Cusino they overtook him, but on account of the presence of the mill workmen did not lay hands on him. At the mill they told him that they intended to give him a beating if he did not stop selling goods in that territory, and after he had left the mill and returned to Cusino they caught him alone and attacked him.

#### BLIND HORSE RUNS AWAY.

With Delivery Wagon It Plunges Over Embankment and Breaks Its Neck.

A blind horse attached to a delivery wagon owned by William Dorais, the butcher of 304 Division street, ran away yesterday morning and plunged over a stone embankment near the gas house, breaking its neck and partly demolishing the wagon. The driver of the wagon was delivering a package of meat when the horse took flight.

The manner in which the runaway started is not known. The driver, Fred Ryan, came out of the house in which he had delivered the package in time to see the horse wildly dashing toward the lake. The embankment at this point is rocky, having been filled in by the railroad, and the wagon was hurled over boulders and sharp stones.

Ryan ran after the horse and saw it disappear over the embankment. When he reached it the horse was in its death throes, having fallen on its head. The contents of the wagon were strewn about, and the wagon was seriously damaged.

#### BUTTER AT CUT PRICES.

F. H. Vandenberg will deliver a large consignment of choice creamery butter today at reduced prices. Don't miss this opportunity. (11-8-11)

Have your manicuring, shampooing and massaging at your own homes by Mrs. Dan Thomas. Bell Telephone 927. (11-8-1w)

Marquette has dairies old and dairies new, dairies large and dairies small, but Vandenberg's dairy leads them all. Both Phones. (11-6-1w)
