

MUCH MORE GOLD SECURED ABROAD

Total Engagements Now Approximately Fifty Million Dollars, of Which Nearly One-Half Has Already Arrived.

Bankers at New York Deny They Are Not Meeting Legitimate Demands for Currency from the West, and Say Some Thirty Million Dollars Has Been Shipped Within the Week—Stock Market Is Much More Active, and Closes Strong.

New York, Nov. 8.—One million dollars in gold, imported from Mexico, reached this city today, making a total so far reported of \$40,250,000.

London, Nov. 8.—The Bank of England today received £240,000 in American eagles from Paris and £350,000 in bullion from elsewhere on the continent, and it sold £201,000 in bar gold for shipment to the United States.

Berlin, Nov. 8.—The rate of discount of the Imperial Bank of Germany was raised today from 6 1/2 to 7 1/2 per cent. New York, Nov. 8.—Leading New York banks were exerting themselves actively today to meet the demands of country correspondents and depositors for currency.

They declare that the suggestions made from several Western sources that they are not meeting legitimate demands for currency from the West are entirely unfounded, and that they are, on the contrary, taking every practicable measure to aid the West and South. One of these large banks, with several thousand correspondents, has depleted its reserve by about a quarter during the last few weeks to supply currency where it is most needed.

Country banks have been allowed to draw down their balances, which affords in many cases hardly more than enough to meet the drafts sold in the ordinary course of business. They have brought paper for re-discount to their New York correspondents in large amounts, and the principal difficulty of the New York banks has come from the demand for currency to be shipped against the balance created by these re-discounts.

As re-discounts have been in the nature of accommodation, and have not brought in cash of currency to the discounting banks, they do not feel that they should be called upon to supply currency in large amounts under existing conditions. Special favor is shown small interior banks where there is no clearing house, because it is realized that they are not in a position to count upon co-operation and the use of clearing house certificates, as in the case of communities having a number of strong institutions.

The New York banks feel bound to retain a certain proportion of their reserves to guard against possible contingencies, because they fulfill in substance the function fulfilled in London by the Bank of England and in Paris by the Bank of France as the ultimate resource in emergency.

Golden Tide Helps Greatly. The aid being rendered the situation is indicated by the fact that the total engagements of gold have now reached the sum of nearly \$50,000,000. The total was materially increased today by the announcement of several purchases which had not heretofore been made public. Of the amount engaged, \$21,311,000 has already arrived. This gold will afford the basis of nearly \$200,000,000 in loans, and will materially assist the New York banks in their efforts to meet the pressure for currency throughout the country.

The fact that practically \$40,000,000 in currency has disappeared from the New York banks within a week is considered sufficient evidence that the New York banks are doing their best to meet the demands made upon them. It is not possible to determine what proportion of this \$40,000,000 went West, and what proportion went into hoards in New York. It is estimated in some quarters that one-half of the amount was shipped to Western banks, but other bankers put the proportion somewhat lower, leaving the balance to be accounted for by hoarding.

The treasury has nominally an available cash balance of little less than \$17,000,000, but this does not indicate the actual cash in the general treasury funds. The amount of cash on hand yesterday was \$19,233,630, but against this are charged a number of demand liabilities, like outstanding checks, the national banknote redemption fund and the balance of disbursing officers. The latter item alone stood for \$68,206,397, but it has been materially reduced by skillful bookkeeping at the treasury in order to release the cash without creating an apparent deficit. The amount of the disbursing officers' balances as recently as Oct. 30 was \$75,087,006, and the reduction in amount may be considered as having been transferred to the general fund for use in the financial emergency.

ably easier, and there were conspicuous additions to the list of large lenders on call in the stock exchange, including banking and trust companies which had been distinguished for their abstention from this form of lending for many days past. The estimates of the week's cash changes as usually made up preliminary to the bank statements were exceedingly confused and necessarily so in view of the fact that some banks withheld the usual information on which these estimates are based. The movement to the interior has continued heavy, as was to be expected, but the amount shipped by express and through the sub-treasury on the balance appears somewhat less than last week. Allowance must be made, however, for the short week caused by the election holiday in judging of the bearing of this fact on the probable subsidence of the rush of funds to the interior. Today's gold arrivals of over \$12,000,000 do not figure in the estimates, which include only Thursday's operations, but they will figure for one day's average in the bank statement and will that day affect the apparent decrease in bank cash of about \$12,000,000. The arrivals of gold have operated to reduce the loans which were contracted to engage the gold and should operate to reduce that item in the bank statement. The prospect, it will thus be seen, does not hold out a promise of a very substantial reduction of last week's \$38,000,000 bank deficit.

It was this consideration which caused the material reaction in prices during the latter part of the week. The downward tendency of prices was practically uninterrupted up to the closing, but still left many substantial net gains on the days.

MINERS THREATEN STRIKE

C. & H. Employes Demand That Company Rescind Wage Reduction Recently Announced.

Calumet, Mich., Nov. 8.—The miners in the employ of the Calumet & Hecla company have issued the ultimatum that they will strike next Monday unless the management rescinds the wage reduction of 12 1/2 per cent. recently announced. About eight thousand men are involved. Sheriff Beck is said to be arranging for swearing in 500 special deputies to be available in case they are needed. A year ago the company increased wages 2 1/2 per cent. Now, with the copper market depressed, this increase is cut to 10 per cent. Even the new scale is materially higher than other companies are paying.

Copper Prices Decline Again.

New York, Nov. 8.—All grades of copper dropped another quarter of a cent today. This is a decline of half a cent in two days. Lake is now quoted at 13.75 to 14, electrolytic at 13.50 to 13.75 and casting at 13.25 to 13.50. At London both spot and futures closed at 53s. 5s.

Amount of New Banknotes Issued Is Attaining Huge Proportions.

Washington, Nov. 8.—There is noticeable congestion in the treasury department in handling securities offered by banks in connection with government bonds and now being deposited as security for additional circulation. The amount of additional national banknotes being shipped is daily increasing, and the treasury officials are greatly encouraged in the belief that the crisis in the money stringency has passed.

Cabinet Discusses the Situation.

At the conclusion of the cabinet meeting today Secretary Cortelyou stated that a discussion of the financial situation had occupied important place during the session but he said there was nothing to be given beyond the fact that the treasury department was doing everything in its power to relieve the situation and that conditions seemed to be improving, particularly in New York, which fact he indicated would result in relief in every portion of the country.

CAR PROPELS ITSELF

Rock Island to Try New Type of Coach That Does Away With Locomotives.

Chicago, Nov. 8.—A self-propelling steam passenger coach, the first to be constructed in the United States, is to be put into service next week on a branch of the Rock Island railroad. The car made a trial trip today from Chicago to Joliet and return. A speed of forty to fifty miles an hour was maintained over the greater part of the route. The claim is made by its builders that it will net a saving of over \$3,000 a year compared with the cost of operating a locomotive.

FOUND WITH BOGUS MONEY.

Man Accused of Counterfeiting Is Captured in St. Paul. St. Paul, Nov. 8.—Ernest R. Workman, of Winnipeg, was arrested here this afternoon by a United States secret service agent, and \$30,000 in counterfeit currency found in a suit case. Workman dropped when the officer captured him was seized. In the suit case was found a quantity of paper supposed to have been used in counterfeiting, also some ink and a plate. A hand press and more plates were found in the room West Seventh street in which Workman lived.

BRASS FILINGS FOR GOLD.

New York, Nov. 8.—Influenced by the present premium on the precious metal, Samuel Hirschfeld entered the financial district today, and, according to allegations which later led to his arrest, disposed of a bag of brass filings for \$1,000. The purchaser was Ruben Feltz, who described himself as a diamond broker, and who, until his awakening today, was a friend of Hirschfeld. The latter was held in \$3,000 bail on the charge of grand larceny.

NORTHWEST RICHER THAN EVER BEFORE

Financial Situation, Though Stringent for the Time Being, Is More Sound Than in Most Portions of the Country.

Fixed Assets and Available Capital Were Never Greater—Banks Are Solid, Big Corporations Are Busy and Farmers Were Never as Prosperous as Now—Shortage of Current Money Is the Only Drawback, and This Condition Is but Temporary.

Chicago, Nov. 8.—The financial situation in the Northwest is richer than ever before, says the ordinary facilities for commerce and the transaction of banking have been curtailed by the shortage of current money. Bankers are taking steps to return to the normal condition. They do not consider it safe yet, however, to begin the payment of current money whenever demanded, and checks on the clearing house for small amounts are now in preparation to be issued on Monday and several million of them will then be available, but meanwhile the coffers of the banks and the pockets of individuals have been somewhat replenished by the importation of \$6,000,000 in gold and the deposits of the United States government in the national banks have been increased several millions.

Seemingly it is a question of a few weeks at the longest when money will be freely in circulation. Meanwhile there must be a considerable strain.

No Banks in Difficulty.

Persons closely in touch with financial affairs in Chicago assert that there is not a bank which may be considered weak, and the same is generally true throughout the Northwest. As to the large corporations, there is no weakness to report, a fact which is obvious to anybody familiar with the reports of such corporations and their methods for years past.

There is no manner of doubt that the Northwest is richer now than ever before, not merely in fixed assets, but in immediately available capital. As a small illustration, it may be mentioned that the shipments of wheat and flour for the nineteen weeks of the crop year amount to \$2,553,000 bushels, against 68,926,000 bushels in the corresponding period last year, and the amount of money received for this produce is much greater per unit than last year.

It is to be assumed that the grain shipments on this time on will be less active than heretofore, because the supply of currency is small and many farmers refuse to accept checks. This very fact, however, shows that the producing class are financially strong enough to sell when they get ready. The country banks have more currency than ordinarily at this time of the year, and are holding it for fear it would be hoarded by individuals if paid out. The excess of the shipments of currency over the receipts in Chicago during October was \$24,111,510, against \$16,765,500 in the corresponding month of last year.

Banks in Chicago have been calling loans to grain men to some extent in order to force produce to market. The consequence has been a decline in the price of agricultural products. The amounts of money that can be realized to the West from agricultural product is well indicated by the fact that the visible supply of wheat in this country is now over forty-three million bushels against thirty-seven million a year ago, while the price is materially higher.

Speculative Losses Small.

The situation in the West generally is better than some other parts of the country by virtue of the fact that speculation has been on a very small scale for two or three years past. There has not been a whisper of danger to any of the well-known brokerage houses in Chicago, and the extent of the losses in stocks from a speculative point of view is measured by the misfortunes of two or three capitalists and the common run of 100-share operators.

The situation is therefore very strong and the immediate future depends only on the skill and luck with which the banks steer this portion of the country out of the maze of clearing house checks and payroll checks, and into a normal condition in which current money will be as abundant as it was before the panic came on.

BUMPER CORN CROP.

Yield Is 2,553,732,000 Bushels, Reports Agricultural Department.

Washington, Nov. 8.—Preliminary returns to the department of agriculture on the production of corn indicate a total yield of 2,553,732,000 bushels, an average crop of twenty-six bushels per acre, compared with a yield of 30.3 bushels per acre in 1906, where the area planted was less, and a general average as to quality of 82.8 per cent compared with 89.9 per cent last year.

NEW COUNTERFEIT NOTE.

Washington, Nov. 8.—Chief Wilkie of the secret service reports the discovery of a new counterfeit \$10 national banknote. The counterfeit is on the Wells-Fargo Nevada National bank, of San Francisco, and is a poor photo reproduction, printed on heavy bond paper with no silk fibers. The treasury numbers have been traced over with red ink. The back of the note is better than the face, being a fair imitation of the genuine except the coloring around the charters number, which is a muddy green.

WEATHER FORECAST

Washington, Nov. 8.—The following is the weather bureau's forecast for Upper Michigan: Rain or snow, Saturday; Sunday, fair; fresh west winds.

ORDERS VIGOROUS PROSECUTION.

President Much Stirred by Murder of Secret Service Agent Walker. Washington, Nov. 8.—The following self-explanatory letter from President Roosevelt, addressed jointly to the attorney general and the secretary of the interior, was made public today: "My attention has been called to dispatches in reference to the murder of Secret Service Agent Walker while, in the performance of his duty, investigating certain coal frauds in Colorado. I trust that every effort will be exerted by your department to prosecute vigorously every violation of the law which Walker was investigating."

HER HEAD ALMOST SEVERED.

Texas Man Kills Wife Because He Alleges She Was Unfaithful. Houston, Tex., Nov. 8.—Searching the house for a misplaced toy, the eight-year-old daughter of Matthew W. Anderson, railroad clerk, found the dead body of her mother in the kitchen of their home in Houston Heights today. Her head was almost severed from the body. The woman met death at the hands of her husband because, so a note from him alleged, she was unfaithful. Anderson has disappeared.

MEANT SURE OF DEATH.

New York, Nov. 8.—Crazed by the death of her mother, Miss Helen Schwab drank a large quantity of poison today, and then cast herself from the roof of the seven-story apartment house where she lived. She was almost instantly killed.

TWO KILLED BY TRAIN.

Ashtabula Harbor, O., Nov. 8.—Charles "Tary" and wife both aged over eighty of Saybrook, O., were killed by a Lake Shore passenger train near here today while driving across the tracks.

NOVEL PLAN OFFERED

Constitutional Convention Delegate Proposes That State Go Into Insurance Business.

Lansing, Mich., Nov. 8.—[Special.]—A proposal for state life, fire and accident insurance was an oddity of today's session of the constitutional convention. Delegate Adams of Grand Rapids submitted the plan, and it was a quarter of an hour explaining his ideas. "If the state can protect its people against assault and burglary without an individual charge, why should it not," he asks, "for an individual charge, equal only to the cost of protecting its people against the loss of their property by the elements, provide for the independent ones when death's summons comes, and protect the wage earner from loss by sickness or accident?" Mr. Adams says that the insurance companies pay thirteen and a quarter million from the state every year, and it is to be inferred that the state could do the work for less.

The convention rescinded its rule for an adjournment to Tuesday, and will meet Monday night. It is reported that he people would not be pleased with the sight of the delegates drawing seven days' pay per week and putting in but our days, or less, work per week.

More Proposals Put In.

The following were today's proposals: Barnett—A uniform system of accounting for moneys collected by taxation or fines. Fall—Making the county school commissioner an elective officer with a four-year term; bringing the educational work done at state schools for the blind, deaf and incorrigibles under the supervision of the superintendent of public instruction; regulating state officers' salaries by law; and titles which fall from defect of heirs shall escheat to the state and the money go to the primary fund. Foster—No law shall take effect until ninety days after the date of the session, and not then unless published. Elyfe—Civil juries given power to return verdict even though minus not to exceed three members from death or sickness. Milnes—No passes or franks to state officers, members of legislature or any judicial officers.

Barnett—Prescribing plan for future revisions of the constitution and eliminating the clause that the legislature may restrict the convention. Coomer—Women twenty-one years old to vote in school and library matters, and be eligible to such offices; abrogate fellow servant liability clause in actions against corporations. Adams—For state insurance department, to conduct life, fire and casualty insurance.

FOLK IN LINCOLN.

Governor of Missouri Has Conference With Colonel Bryan. Lincoln, Neb., Nov. 8.—Governor Folk of Missouri was in Lincoln today as the guest of Mr. and Mrs. W. J. Bryan. He left this evening for the East. The statement was made that Mr. Folk's visit was of social nature, and had no political significance.

BURTON'S PLANS INDEFINITE.

Columbus, O., Nov. 8.—The Republican congressmen of Ohio tonight decided upon James H. Cassidy, of Cleveland, as their candidate for postmaster of the house of representatives to succeed the late Captain McElroy. Mr. Cassidy is private secretary to Congressman Burton. The postmastership has been held by an Ohioan for many years. Mr. Burton said he had not finally made up his mind whether he would be a candidate for reelection.

NATION'S TRADE NOT SO BRISK

That a Healthy Reaction Has Set in Is the Tenor of the Advice to the Dun and Bradstreet's Commercial Agencies.

Business in Wholesale and Jobbing Lines Has Quietened Down Perceptibly, and the Disposition in Industrial Branches Has Been to Curtail Production Wherever Possible—However, Basic Conditions Are Sound and No Danger Is Seen of Acute Depression.

New York, Nov. 8.—Bradstreet's will tomorrow say:

Good progress has been made in accommodating the country to the changed financial conditions, thus, our work with striking little friction, considering the severity of currency and the widespread substitution of credit instruments for actual cash. At the same time the wholesale and jobbing trade has quietened down very perceptibly, and the disposition in industrial lines has been to curtail wherever possible.

There is in fact a rather more optimistic tone prevailing this week than last, the outgrowth of the better feeling at the East and the larger arrivals of gold from Europe, while the basic conditions of trade, both as regards the purchasing power of the people and the absence of large stocks, are better than in some preceding years of stress. The easing of iron and other metal prices, rendering the work of rehabilitation and the sharp falling off in livestock quotations are taken as earnest of reversions in other lines yet to come.

Collections are rather slower, but there has been a slight easing in the premium for actual currency at the East. The runs on various financial concerns are apparently a thing of the past, the failures of the preceding two weeks, and the wave of distrust has perceptibly subsided, rendering the work of rehabilitation and repair a matter of time only.

The wheat (including flour) exports for the week were 5,460,000 bushels, against 5,156,000 bushels in this week last year, and for the nineteen weeks of the fiscal year 25,727,000 bushels, against 66,822,000 bushels in 1906-07. The corn exports for the week were 712,000 bushels, against 871,000 bushels in 1906, while for the fiscal year to date the total is 18,083,000 bushels, against 15,488,000 in 1906-07.

Dun's Trade Review.

R. G. Dun & Co.'s Trade Review will tomorrow say: There were fewer commercial failures in the United States this week than for two weeks past, reflecting the improvement of conditions. The failures of the week numbered only 230, against 273 last week, 257 in the preceding week and 172 in the corresponding week of last year. The failures in Canada were nineteen this week, against thirty-one in the corresponding week of last year.

Another encouraging and satisfactory feature is that only seventy-five of this week's failures involved liabilities of \$5,000 or more, against ninety-three last week. The financial storm which now seems weathered showed its effect in the liabilities of the commercial failures during the month. They aggregated \$27,414,990, against \$10,553,714 in October, 1906.

Scarcity of money, the unseasonable weather and the holiday combined to make the volume of business smaller than usual this week, but the situation is more encouraging because of the general belief the financial storm is being weathered remarkably well. About \$40,000,000 in gold was secured from abroad before the Bank of England raised its official rate of discount, and the return of confidence is witness by deposits of hoarded money. It will take some time to restore all this cash to circulation, but the treasury has given further relief and the banks are issuing notes freely.

The prices of commodities have declined still further, and the exports should be increased thereby; but for last week the foreign commerce at this port showed a loss of \$2,512,591 in the value of the merchandise exported, compared with the same week last year, while the imports gained \$165,661. In a few departments of the iron and steel industry the prices are slightly lower, notably pig iron at Pittsburg. Most plants have enough business in sight to maintain full activity during the balance of the year.

WOULD RESTORE LAKE LEVELS.

Buffalo, N. Y., Nov. 8.—A scheme to build a submerged dam across Niagara River, and to raise the level of the lake, is receiving the consideration of the international waterways commission, and a report favoring the plan will probably be submitted to congress at its coming session. It is understood that the members of the commission believe the plan will restore the lake levels. The dam as planned is said to meet the objections of practically all the interested parties. It is also said that such a dam would not affect the falls.

THREE PERISH IN FLAMES.

One Life Is Lost in Chicago Fire, Two at Charleston, W. Va.

Chicago, Nov. 8.—Abraham Gullett, a boy, was burned to death and six other persons were severely hurt in a fire that destroyed a three-story building on West Fourteenth street early today. Fourteen families who occupied the structure are homeless.

Two St. Paul Boys Missing.

St. Paul, Nov. 8.—The office and warehouse building of the Northern Cooperage company were destroyed by fire tonight. Arthur Glanders and Fred Dilsnyder, boys employed in the building, are missing, and it is feared they perished in the flames. The loss is \$35,000. Crofton, Neb., Nov. 8.—Fire tonight destroyed most of the business portion of Crofton and threatened the entire town. The loss exceeds \$30,000.

NATIONAL FLOWER SHOW.

Chicago, Nov. 8.—Flower growers from all parts of the country met in Chicago today and decided to hold a national flower show in this city the first two weeks in November next year. A guarantee fund of \$10,000 has already been subscribed.

B'G FIRE AT SUPERIOR

Grain Elevators and Flour Mills Wiped Out at a Loss of \$2,500,000.

Duluth, Saturday, Nov. 9.—At 2 o'clock this morning the fire seems to be under control, although it is still burning fiercely. The property destroyed at this hour is:

One Great Northern elevator. Minnesota Flour mill and elevator. Freeman mill and elevator. Grand Republic mill and elevator. Commander mill and elevator. Twenty dwellings. Several small warehouses.

The estimated loss is two and a half million dollars.

Duluth, Nov. 8.—Fire of unknown origin caused the destruction of Great Northern elevator "A" in Superior tonight, together with 600,000 bushels of grain, principally wheat, all of which was fully covered by insurance. The elevator was owned by the Great Northern railroad, but was leased to the A. D. Thompson Grain company of Duluth.

Sparks ignited the Grand Republic mill on Tower Bay slip, the Great Lakes Dredge & Dock company dock and the Duluth-Superior Storage company wharf, which contained the finishing plant of the Webster Chair company, and at midnight it looked as though all would be completely demolished, entailing an estimated aggregate loss of two million dollars.

The fire started at the southwest corner of the elevator "A" dock and communicated to the elevator. The steamers W. A. Parent and W. A. Rogers were in elevator "A" slip, loading wheat, and the latter was to take out 300,000 bushels of wheat tomorrow. The steamers Utica, Alva and Chili were on the opposite side of the slip, and were pulled out by tugs to save them from destruction.

The Glove elevator, owned by the Peavy company, was on fire, and for a time it looked as though it would go, but the firemen succeeded in extinguishing the flames. The blaze also spread to the saw mill property of Peavy & Kimball and to the East property, but this likewise was extinguished before serious damage was done.

URGES END TO SPOILS

Civil Service Reform League Asks the Further Extension of the Merit System.

Buffalo, N. Y., Nov. 8.—The annual meeting of the National Civil Service Reform league practically ended this afternoon. Joseph H. Choate was elected president. Resolutions were adopted commending President Roosevelt for his "determined and effective enforcement of the civil service laws and rules" and expressing satisfaction that congress gives evidence of stronger support of the principles of the merit system.

The resolutions urge congress to take further steps to relieve its members entirely from "the unprofitable labor of distributing patronage" and urge the president and congress to provide for the competitive classification of assistant postmasters, pension examining surgeons and fourth-class postmasters, also to provide that all other postmaster and all collectors of customs and internal revenues shall be appointed by promotion, thereby abolishing the present practice of appointing inexperienced persons. The president is urged to "make such amendments to the civil service rules as will reduce to the minimum the practice of making special exceptions thereto." The policy of placing Indian agencies in charge of appointees classified under the competitive system is approved.

Papers were read by William Dudley Foulke of Richmond, Ind., E. L. Waldo, secretary of the Pennsylvania Civil Service association, and Professor John A. Fairlie, of the University of Michigan. At a banquet tonight the principal speakers were Richard Watson Gilder of New York, Attorney General Bonaparte, and William Dudley Foulke.

NOTED RAILROAD MAN DEAD.

Boston, Nov. 8.—Charles A. Perkins, aged sixty-seven, formerly president of the Burlington railroad and one of the leading railroad authorities in the United States, died at his home in Westwood suburb late tonight. He was a director of the American Bell Telephone company and was interested in other corporations.

GIVES UP LIFE TO SAVE MANY

That a Good-Sized Portion of Nazcari, Ariz., Is Not Destroyed Is Due to the Heroism of a Mexican Engineer.

Train Catching Fire, He Speeds With It Out of Town and Succeeds in Covering Half a Mile When Two Carloads of Powder Explode While Passing a Section House, Killing Fifteen Laborers and Blowing the Locomotive Driver to Pieces.

Douglas, Ariz., Nov. 8.—The death list as a result of the Nazcari explosion yesterday is now placed at fourteen or fifteen, all Mexicans except John Chisholm, aged thirteen, who was riding on the train when the explosion occurred. The train in some way caught fire. In the train were two open cars of explosives, and the fact that the conductor and a good part of the town of Nazcari were saved from ruin was due to the bravery of the Mexican engineer of the train, Jesus Garcia.

Realizing that to cut out the burning cars and escape on the engine would expose the town to probable destruction, the engineer called the rest of the crew to jump, and started to run the train away from town. He had taken it half a mile when the explosion occurred and he was blown to pieces. It is reported that another member of the crew stayed with him and was killed. The heavy death list is due to the fact the explosion occurred just as the train was passing a section house in which were a number of section men.

NEW AMBASSADOR NAMED.

David Jayne Hill to Succeed Mr. Tower at Germany's Capital.

Washington, Nov. 8.—Secretary Root announced today that David Jayne Hill, American minister to the Netherlands, will be named as ambassador to Berlin to succeed Mr. Tower, who is about to retire on account of ill health. Mr. Hill has had great experience in the diplomatic service. Secretary Root also announced that Minister Arthur M. Bumpus will be transferred from the Argentine Republic to the Netherlands to succeed Mr. Hill, and that Spencer S. Eddy, now secretary of the embassy at Berlin, will go as minister to Argentina.

Secretary Root has designated W. I. Buchanan, former minister to the Argentine republic and Panama, as the American delegate to the Central American peace conference, which convenes here next week. Mr. Buchanan was a delegate to the peace conference at The Hague.

LEAVES MANILA TODAY.

Taft to Depart for Home by Way of Siberia and Europe.

Washington, Nov. 8.—Cable advice received at the war department today confirm the report that President Taft's intention to return to the United States by way of Asia and Europe. The secretary will leave Manila tomorrow morning on the flagship Rainbow.

Brilliant Farewell Reception.

Manila, Nov. 8.—A brilliant farewell reception was given Secretary Taft tonight at the residence of Governor General Smith. It was characterized by extreme democracy, representatives of nearly every class of residents in Manila being present. The secretary and wife were greeted practically by every one in attendance.

Wood to Remain Till February.

Washington, Nov. 8.—A despatch received from Secretary Taft at Manila, says that Major General Wood, commanding the Philippine division, will at his own request continue in that command until Feb. 1. He will then be allowed about six months leave of absence, which will enable him to return leisurely to the United States. Major General John F. Weston will succeed General Wood in the command of the Department of the Philippines.

COLONY'S FUTURE DUBIOUS.

German Minister Finds Outlook in East Africa Not Enticing.

Berlin, Nov. 8.—Colonial Secretary Dernburg arrived today after a three-months' trip to German East Africa. According to the reports of correspondents who accompanied him Secretary Dernburg has not formed an enthusiastic impression regarding the possibilities of the colony. He thinks, however, it can be gradually built up and become a valuable possession of the empire, chiefly through natives. The outlook for German immigrants, especially individual farmers, is not enticing except in a few favored regions at high altitude, and there are no great profitable openings for German capital.

KAISER GOES TO ENGLAND.

Berlin, Nov. 8.—Emperor William and the empress departed shortly before midnight for Flushing, where they will embark for England. The emperor looked well and chatted cheerfully with Imperial Chancellor Von Buelow and Prince Oscar, his youngest son. The public is demonstrating an enormous interest in this visit. The railroad station was thronged with cheering crowds, among the people being several members of the cabinet, prominent military officers and other officials.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Per month by carrier \$1.00 Per year by mail \$10.00

MARQUETTE, MICH., NOV. 9.

The slaughter of the deer, and the other slaughter, is about to begin.

Judging from the way provisions for the new constitution are being poured into the hopper the convention is at least two-thirds too big.

You can't fool all the people all the time, but the victory of Tom Johnson in Cleveland is a reminder that you can fool a majority of them for quite a while.

President Parsons has the courage of his convictions. He says that under the same circumstances he would again favor fusion of the New York county Republicans and Independence leaguers.

Ted Sullivan is now in Duluth, and he is still standing out baseball guff. Ted is a breezy, nay, even windy, gentleman, and we are forced to conclude that he likes the sound of his own voice.

The Lusitania has broken the speed record for a westbound trans-Atlantic liner by some forty minutes. With a matter of \$10,000,000 in her strong boxes she also put a crimp in the gold import record.

There will be general approval of the proposal made in the constitutional convention to increase the salaries of the legislators. It must be one of the first things done, if the personnel of the legislature is to be improved. And, too, let the increased salary be a lump sum. Then there will be no encouragement for protracted sessions.

The Negaunee school board has established a night school that has started out with 100 persons in attendance. This is a remarkably good showing, and one that speaks well for the ambitions of those who are enrolled. The Negaunee board expects to continue the school indefinitely. It certainly should if the enrollment keeps up to anything like the present figure, as the school should be able to accomplish much good.

A. J. Yungbluth of Ishpeming has been honored by Governor Warner with an appointment as one of the Michigan delegates to the American Mining congress, which will be held at Joplin, Mo., this year. No better appointment could be made. Mr. Yungbluth is thoroughly conversant with Michigan mining interests, and his long service as secretary of the Lake Superior Mining Institute makes him particularly available for representing his state at the Joplin convention.

When the first day's sale of tickets for the Michigan-Pennsylvania football game at Ann Arbor was concluded a thousand or more disappointed people were turned away and there was some \$30,000 piled up in the ticket office. The attendance at the game, which will be played a week from today, will be the largest ever attracted to a football game at Ann Arbor, and the crowd will bear comparison with the greatest throngs ever assembled at a football contest in the west.

The large and vigorous delegation of newspaper publishers which is credited with securing from President Roosevelt an assurance that he will recommend the abolition of the tariff on press paper, wood pulp and wood that goes into the manufacture of paper bears eloquent testimony that not all the publishers subscribe to the theory that the high price of print is a legitimate consequence of the inroads made on our forests by the great demand.

Summing up an article on the New York election results, the Globe says: "The bad thing of the result, of course, is that Tammany hall, under the Murphy leadership, has had a renewal of prestige. It will not only be more difficult to beat it at the polls, but housecleaning within the organization has temporarily received a setback. The good thing is that we have probably heard the last of aggressive Hearstism. The Hearst rocket has spluttered back to earth. Hearst's weakness has been revealed—it is shown that he is not an asset but a liability to any cause of which he attempts to take charge."

SUPERIOR TRUST COMPANY HANCOCK MICHIGAN Capital - - \$150,000 This company is under the supervision of the state banking department and is authorized by the law to act as executor, administrator, guardian, assignee, receiver or trustee. C. A. WRIGHT, Pres. JACOB BAER, Vice Pres. M. C. GETCHELL, Secy.

The experience of the Alton road with four months of two-cent fares, briefly outlined in yesterday's issue of The Mining Journal, is interesting. There was a large increase in traffic in the period referred to, but it was attended by a net loss in income of about \$100,000. The general passenger agent calls attention to the fact that the net loss means to the company a net loss of about half a cent a mile on the long passenger hauls and a loss of a cent a mile on the short hauls. This is a big percentage of loss, and it requires a very large increase in traffic to make it good. The theory that lower fares would mean more business is borne out by the Alton's experience, but they have not yet met sufficient new business to compensate for the loss of income compared with the old schedule. However, the tendency toward increased business is proved, and perhaps it will become increasingly pronounced until the Alton is not only as well off financially under the new rate as it was under the old, but is able to show even better earnings. It is also to be noticed that the Alton's general passenger agent does not touch on the point whether the present earnings permit of a fair return on the passenger traffic. That is the nub of the question, and not whether those earnings are greater or less than the income under the former three-cent fare law.

THE IRON MARKET. "The absorption of the Tennessee Coal, Iron & Railroad company by the United States Steel corporation, clearly foreshadowed by events which have occurred in New York this week, will, it is believed, have a good influence on the southern pig iron market," says the Iron Trade Review. "If the Tennessee company should continue as in the past to sell about half its pig iron, its conservative influence would tend to add firmness to the market, and if, as may be the case, the furnace of the company should be used for making steel making iron, the withdrawal of the large tonnage hitherto sold would strengthen the position of producers. The Republic Iron & Steel company, although controlled to a large extent by the interests which have dominated the Tennessee concern, is not involved in the recent deal, and whether it will be eventually taken over time alone can tell."

The blast furnace statistics for October show a continuance of heavy production, the total for the month being 2,352,530 tons, compared with 2,174,148 tons in September, or a daily production of 75,888 tons compared with 72,471 tons in September. However, a considerable number of furnaces were blown out in the last few weeks of the month, and it is regarded as a certainty that the present month will exhibit a considerable falling off in production. The pig iron market continues dull, but the production of many finishing mills has continued at a record breaking rate. The American Bridge company turned out a tonnage of 60,000, the largest it ever made, but only one-third of it, it is reported, was sold. The manufacturers of finished products, however, have declared against price concessions.

THE CONSTITUTIONAL CONVENTION. The state can't help but be greatly impressed with the volume of business that has already been proposed for consideration by the constitutional convention. Some hundreds of provisions for the new constitution have been formally submitted by delegates, and we are informed that there are other hundreds to come. The suggestion is now made that a date be set on which all delegates must file the last of their suggestions as to what should be embodied in the instrument. It is said that it is impossible for the committees to proceed to an orderly consideration of the matters within their province until they have all the raw material in their hands. The provisions suggested to date are of varying degrees of importance, but all of them are important. The affect nearly every department of state activity, from the great fundamentals of government, like the taxation question, to comparatively minor details of administration. The largest of these questions could be debated indefinitely by the convention without their possibilities being exhausted, and even the smallest of them would be entitled to serious consideration. If the convention as a whole had to grapple with all the proposals that will be submitted it appears that twelve months, instead of the limited time allotted to it, would hardly suffice for the framing of a new constitution. But the committee system comes in to save the day. There are some twenty-eight committees to which all matters grouping under as many different heads will be referred, by them to be threshed out. Thus there will be, for all practical purposes, twenty-eight minor conventions in progress at one time, conducting hearings on different questions and formulating the huge mass of material for consideration by the delegates. These committees will make reports to the delegates, and thus the disposal of the great mass of material before the convention will be expedited. By the rules of the body a majority of the delegates can override the committees, taking any matter it may desire out of their hands. Thus free and untrammelled action is secured for the body of the delegates. The convention has gone about its work in a manner that has already persuaded the people of its desire to acquit itself well and creditably. That it can formulate a constitution out of the mass of material before it that the people

will accept is to be doubted, but it is plainly going to make a conscientious effort to do so, by reconciling conflicting ideas in a reasonable and workable instrument.

Northern Normal Notes.

Principal James H. B. Kaye will be absent the first part of next week conducting an institute at Sault Ste. Marie. This is the third time Principal Kaye has been called upon for institute work at this place. This morning at 10:30, the Saturday Morning Musical club will give a recital at the assembly hall, with every one, particularly the students, is cordially invited. This is the musical postponed from two weeks ago. A program of unusual excellence has been arranged.

The faculty club held its regular weekly meeting at Wednesday last. The subject under discussion was, the relation of the "Three R's" to the elementary school curriculum. The Three R's, as every one probably knows, signifies reading, writing, and arithmetic, formerly held to be the fundamentals of a common school education. It was very interesting to see how far away the ideal of the present age has gone from these subjects as the only fundamentals. These are and always will be the basis for training the intellect, but the world now knows that the intellect is not the only part of man to be cultivated. The other two sides of his nature, the physical and the spiritual, must be trained also, if he is to live fully and completely. The former necessitates the gymnasium and manual training; the latter, the culture subjects, such as drawing, music, literature, etc.

According to a custom which has been followed now for some years, the students at the dormitory had a Halloween party. It was given by the seniors, for the purpose of initiating the juniors into the dormitory life. Every one came in costume, the seniors as ghosts, the juniors as miscellaneous characters. One by one the juniors were called before a tribunal and made to swear allegiance to the seniors, not to use the parlors on Friday and Sunday evenings, and in other ways not to infringe upon the rights of the seniors. At one time the hostesses gathered in the kitchen and then danced in the large room now in darkness except for a ghostly blue light burning on a tripod in the center of the room. Round this they danced and then sat down around the light, singing a weird and uncanny song. This was purposely a song composed by a ghastly shriek, throwing the uninitiated into momentary panic. Later all collected again around the blazing tripod and told ghost stories. The seniors finally threw off their ghost costumes and appeared dressed as fairies. A most delightful evening was spent by all present.

On Monday morning, assembly was addressed by Miss Maxwell on the subject of the continuity of history. On Wednesday, Miss Linton told of the life and work of two of the most noted musical composers, Reginald DeKoven and Dudley Buck. After a brief discussion of the work of the two, she sang a number of representative songs from each composer in her usual delightful manner. Miss Linton was accompanied in each song by Mrs. H. C. Davis. On Friday morning, we had another musical exercise. This time the work was in charge of Miss Chase and the singing was done by the children in the seventh and eighth grades. The songs were entirely from Mendelssohn. Ward of the seventh grade, in a manner that would have won a credit to a person of twice the years of that little lady, gave an account of the life and works of the master. Then under the leadership of Miss Chase, the children sang three numbers: "Oh, Wert Thou in the Cauld Blast," "The Mountain Peak, to the Air Consecration," "Lift Up Thine Eyes, from the Oratorio Elijah." The last was particularly well done. In addition to this, Miss Linton played several selections from this composer, upon the orchestra.

NEW STEAMSHIP LINE. Direct Service Between Christiania and Gulf of Mexico Ports. Washington, Nov. 8.—The American consul general at Christiania, Norway has reported to the bureau of manufactures the establishment of a new line of steamers between Christiania and ports of the Gulf of Mexico, Grimsby, England, is a port of call, and the destinations are Havana, Cuba, Vera Cruz, Mexico, and Galveston, Tex. The new line is direct, whereas all previous steamers went by way of German ports. The first sailing of the new line was on Sept. 21, when the steamship Kristiania left Norway with a full cargo, bound for Galveston by way of Havana and Vera Cruz. The second sailing took place the latter part of October. Service is maintained monthly, but the company is preparing to establish a fortnightly service if sufficient freight can be obtained.

TO CURE A COLD IN ONE DAY. Take LAXATIVE BROMO QUININE Tablets. Druggists refund if it fails to cure. E. W. GROVE'S signature is on each box. 25c. TO KILL THE WOMEN. There is no need in killing a woman with worry and nervousness now that Sexine Pills are available for prolonging life and happiness. Sexine Pills are guaranteed for all forms of weakness in men and women. Price \$1 a box; six boxes \$5, with full guarantee. Address or call People's Drug Store, Marquette. This is the store that sells all the principal remedies and does not substitute. CURED OF BRIGHT'S DISEASE. Mr. Robert O. Burke, Elnora, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night, and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living when a friend recommended Foley's Kidney Cure. One 50 cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." The Stafford Drug Company.

Ederheimer Stein Put Most Value Into Their Clothes for Young Men YOU can expect more and get more in these garments, because there is all the difference between superior and inferior tailoring; and tailoring is nine-tenths of clothes-making. Ederheimer-Stein clothes are produced by hand in new, clean, modern tailor shops. It's the latest method of making clothes, and confined to few manufacturers. This accounts for the better finish of the garments, more perfect fit, snap and smartness of the style. Select the "Longworth" Overcoat and you get the most perfect combination of fabrics and expert tailoring; correctness, appearance, good taste; reliable, honest, guaranteed clothing. Sizes 30 to 38. Price \$15 to \$30. ORMSBEE & ATKINS.

PREVENT LUNG TROUBLES The modern method is to prevent disease—a method you will do well to follow. A cough is the natural result of this changeable weather. It can easily be prevented though by wearing a good CHEST PROTECTOR, and it is less dangerous and far cheaper to prevent it than to cure it after you have one. We have good Chest Protectors that do not cost much but give large returns in safety and comfort. They are needed more now than in the middle of winter when the cold is continuous. Desjardins Pharmacy, 417 North 3rd Street.

LARGE COPPER SHIPMENTS.

All Docks on Portage Lake Are Putting Out Big Cargoes.

The shipment of copper out of Portage Lake is generally regarded as a barometer of conditions in the metal market. This week it indicates a very favorable condition.

The steamer Flagg is loading at Lake Linden now with C. & H. copper and anodes for Buffalo, and nearly every day a boat takes away a cargo from the Copper Range dock.

This condition is due to a certain extent to the desire of the navigation, to avoid the greater rail rates, but it is also due to a demand for the metal and it is another indication of a better tone in the copper country.

KEWEENAW CENTRAL. Introduction of Grade Separation Is a Novelty Here.

Byers & Co., the Houghton public works contractors, are rushing the work on the Keweenaw Central's new line. The work is to be completed on December 1st.

An innovation on steam roads in this district will be the use of grade separation at two points, where the Keweenaw Central crosses the Mineral Range spur into Kearsarge.

The announcement that the Y. M. C. A. building is to be sold if possible has caused some alarm in Hancock through the rumor that the association is to go out of existence, but this rumor is not true.

Work on the Rock of Ages light in Lake Superior has been suspended for the winter, and Walter E. Beyer, of the Detroit Lighthouse engineering office, who has been in personal charge of operations, has returned to his home.

As the work now stands the big steel foundation tank, 50 feet in diameter and 30 feet high, is in place and filled in part with concrete and the framework for the first story of the tower is in position.

COPPER COUNTRY SPORTS.

Professional Hockey All Off—Baseball and Football.

There will be no professional hockey in Houghton or Calumet this winter. Manager McNamara of the Portage Lakes was advised Thursday that the Canadian and American Soos had decided to drop out of the International league—the fact of which has already appeared in these columns—and he announced at once that his team would also drop out of existence, for this year at least.

Work on the Rock of Ages light in Lake Superior has been suspended for the winter, and Walter E. Beyer, of the Detroit Lighthouse engineering office, who has been in personal charge of operations, has returned to his home.

THE CITIZENS' NATIONAL BANK HOUGHTON, MICHIGAN

OFFICERS. Directors. Graham Pope, C. V. Seeber, C. H. Moss, Cashier.

LAURIUM M. E. ANNIVERSARY.

Program for the Celebration to Be Held Tonight.

The following program will be given in the Laurium M. E. church tonight in celebration of the fifth anniversary of the dedication of the church: Chorus, recessional; Vocal solo—George Haddon; Organ solo—Alfred Hollins; Chorus; Reading—Mrs. Chas. Van Dusen; Vocal solo—Miss Mildred Nicholls; Organ solo—Mr. Winton; Chorus; Reading—Mrs. Van Dusen; Vocal solo—Mr. Haddon; Organ solo—Mr. Winton; Chorus, an Irish folk song.

GET AFTER THE GAS COMPANY.

Portage Lake Concern May Have to Satisfy Hubbell.

It is very probable that the village of Hubbell will institute proceedings to recover \$1,000 on a bond given to that village by the Portage Lake Gas company, now the Houghton County Gas company.

The village clerk has been instructed by the council to communicate with the gas company concerning the matter. It is understood that the company did not put up an actual bond, but agreed to forfeit \$1,000 if it did not deliver gas in two years, using that plea, it is asserted, to take the franchise away from the prospective Copper Range Gas company, which also was a petitioner before the Hubbell council.

DEER SEASON TOMORROW.

Some Hundreds of Hunters Are Ready in Houghton County.

The deer season opens tomorrow. Hundreds of hunters in Houghton county are ready for the chase, 750 licenses having been issued up to yesterday morning. All will not go out today, of course, but a great many of them will, and it is expected that by Monday venison will be the piece de resistance at the dinner of many of the best families and also the hot polli, because the deer does not cure particularly who kills him.

Deer hunters are particularly generous just at this time of the year, before the seasons opens. There is one reporter who has been promised so many pieces of venison that he might be expected to eat venison for a couple of months straight. But as is usual he is willing to bet that he does not get a single return from all the offers. He does not like venison anyway.

There are a great many "dons" which might be offered the hunters in anticipation of the season, but as they would be disregarded there is no use in publishing them. For the succeeding twenty days almost any kind of an accident may be reported from the woods. Automatic rifles and explosive bullets will make this a particularly dangerous season.

SUPERVISORS' MEETING.

The regular monthly meeting of the Houghton county board of supervisors will be held next Tuesday.

The only business of importance noted for attention is the appointment of a superintendent of the poor for the Hancock district to succeed A. E. Macdonald, present city clerk of Hancock.

HOUGHTON VILLAGE COUNCIL.

The Houghton village council met Thursday night in regular session, but transacted little else than routine business. A batch of bills were ordered paid and minor street improvements were authorized. The session was a brief one.

CALUMET WOMAN'S CLUB.

"Libraries" Will Be General Subject of the Meeting.

At the regular meeting of the Calumet Woman's club today the following program will be heard, the general subject being libraries and library work: "The Place of the Public Library in a Community"—Mrs. Marie F. Grieson; "The Library as an Aid to Home Study"—Mrs. Estelle R. Thompson; Music—Miss Mabel Larson.

A meeting of the Woman's Home Missionary society of Grace M. E. church, Houghton, was held yesterday afternoon at the parsonage. The following program was given: "A Few Interesting Facts About Alaska," Mrs. C. E. Hood; "Woman's Work in Alaska," Mrs. Edgar Rasleigh; Mrs. George Conrad; solo, Miss Charly Warrington; recitation, "Our Country," Marion Shick; "My Part," Mildred Lewis; solo, Marion Rasleigh.

NOVEMBER CIRCUIT COURT.

The November term of the Keweenaw county circuit court has continued in session all week at Eagle River. It has proved an unusually long term for that county. It is expected that the business will be completed today, however. The Houghton term opens one week from Monday with a long calendar, though none of the cases hold great interest. There will be a large number of applicants for full citizenship.

COPPERDROM BREVITIES.

Mrs. G. A. Koung of Houghton has gone to Philadelphia to visit relatives. C. H. Moss, cashier of the Citizens' National bank of Houghton, has gone to Chicago on business.

The annual ball of the Lake Linden fire department will be given in the town hall Thanksgiving night. The examination of Gertie Forrester, charged with assault with intent to kill, has been adjourned by Justice Jackola of Calumet until Monday.

Rev. William B. Coombe, pastor of the Negussee M. E. church, and former pastor of the Calumet M. E. church, visited his son in Calumet this week, returning home Thursday.

Rev. Henry Rogers of the Hurontown M. E. church will preach tomorrow at the Lake Linden church in the absence of Rev. Mr. Slave, the pastor, who was called to Cincinnati on account of the death of his father.

Mr. and Mrs. Thomas Penhaglo of Calumet left last night for Traverse City, this state, to visit their son, Thomas Penhaglo. They will later go to Alabama to spend the winter at Birmingham with their son William J. Penhaglo, general manager of the Tennessee Coal, Iron & Railroad company.

"The Land of Nod" a musical comedy extravaganza, will be seen at the Calumet theater Monday night and at the Keweenaw Tuesday night. It will be the biggest musical show so far seen this season. The cast is headed by Knox Wilson, a German comedian who is not far behind the best in his line of work. William Friend, last season principal support for Eva Tanguay when she appeared here in "A Good Fellow," is prominent in the cast.

HE FUGHT AT GETTYSBURG.

David Parker, of Fayette, N. Y., who lost a foot at Gettysburg, writes: "Electric Bitters have done me more good than any medicine I ever took. For several years I had stomach trouble and paid out much money for medicine to little purpose, until I began taking Electric Bitters. I would not take \$500 for what they have done for me." Grand tonic for the aged and for female weaknesses. Great attention to body builders; best of all for lame back and weak kidneys. Guaranteed by The Stafford Drug Co. 50c.

Tell Them You Know! You may tell your friends, on our "say-so," that when they buy a package of the genuine Arbuckles' Ariosa Coffee they get the best of the coffee trade.

No coffee of equal quality can be sold in this town for the same price, whether it be sold out of a bag or a bin, or under some romantic trade-mark. You may tell them you know and that Arbuckle Brothers, the greatest coffee dealers in the world, will stand for it.

Advertisement for The Heat that Doesn't go up the Flue, featuring a Rayo Lamp and a Perfection Oil Heater. Includes text: "You receive intense, direct heat from every ounce of fuel burned—there are no damp chimneys or long pipes to waste the heat from a PERFECTION Oil Heater (Equipped with Smokeless Device) Carry it from room to room. State Game, Fish and Forestry Warden William Harrington of Ishpeming was a visitor in the city yesterday.  
The steamer William, where she is to load with oats. The Pioneer went with her.

### Whiskey and Beer Habit

Very few men become drunkards because they like liquor. It is frequently the moderate drinker, who before he realizes his condition, has become a drunkard. The nervous system, having become accustomed to stimulants, is unable to do the same amount or quality of work without liquor, hence the victim drinks more and more. This is a state of disease and should be treated by Orrine. It destroys the desire for liquor, so that the drink is not missed. There is no loss of time or detention from work when it is used.  
Orrine is prepared in two forms: No. 1, the secret remedy which can be used in food or drink without the knowledge of the patient; No. 2, for those who take the remedy of their own free will. Both forms are guaranteed. A registered guarantee in every box.  
Treatise on how to cure drunkenness free on request. The Orrine Co., Washington, D. C. The price of either form is \$1 a box, making the cost of the complete cure less than one-tenth what is usually charged at sanitariums, with a guarantee that the expense will be nothing unless a cure is gained. Mail orders filled in plain sealed package on receipt of price.  
Orrine is for sale by The Stafford Drug Co.

### THEATRICAL

**Howe's Pictures.**  
From beginning to end, Lyman H. Howe's new program of moving pictures, to be seen at the opera house this afternoon and tonight, is of the widest possible variety. It is this which makes it so interesting alike to young and old. Mr. Howe has always been a past master in the art of transferring distant scenes to his audiences. In his new program he exceeds his own efforts in the past. How alien lands look, how their people live, dress, work, play, and a thousand other things of absorbing human interest, make his new program so valuable that no one who wishes to be well informed and keep abreast with the world's progress can afford to miss it.  
Mr. Howe's faculty of selecting scenes of unending interest and ability to reproduce them so much better than any other exhibitor, is too well known to need emphasis. In a few minutes of moving pictures of a given country or event, he condenses more substantial information than could be gleaned from hours spent over books. To see his exhibition is a real travel personified. Force of circumstances have confined most of us to our own country, and we have had to suppress the longing to travel. To such, this exhibition makes an especial appeal. You no longer content yourself with vague ideas of the scenes you so longed to see, but could not visit. At Mr. Howe's exhibition you can actually see them.

### ESCANABA PLAYER QUITS.

Lehr, one of the "finds" at Ann Arbor, Out of Football.  
Lehr, the former Escanaba high school football player, who has been heralded as one of the football "finds" of the season at Ann Arbor, is out of the game. The following Ann Arbor dispatch tells the story:  
"Suspensions of dissonance on the varsity were realized this afternoon when Lehr, the Escanaba lad who is playing out right half on the varsity, quit the squad and turned in his suit. His action is said to have resulted from an exchange of words with Coach Yost.  
"Lehr has been doing good work on the varsity, and as Yost is intending to use two sets of backs in the Penn game, Lehr had a great chance to win his 'M.' Although this is the first year he has tried for the team. He is said to have assumed an attitude which the other players and Coach Yost did not like, and as a result of a call-down he quit the team.  
"Scrimmage work was resumed tonight for the first time since the Vanderbilt game, but again Yost kept most of the regulars on the side lines, except when the varsity was running through signal practice. Schulz was not out for practice at all, and Chandler was sent in at center. Signal practice was fast.  
"As soon as the practice was ended Coach Yost boarded a train for Philadelphia, where he will watch the Quakers in action in the game with Penn State Saturday. He will return Sunday night, and will immediately call the team together to give them a lecture on Penn formations. Fitzpatrick will coach the team in Yost's absence."

### SUNDAY AT THE CHURCHES.

At the M. E. church tomorrow morning Mr. Maywood will preach on "The Renaissance, the Reformation and the Revival." His evening subject will be "The Cleansing of the Leper."  
At the Presbyterian church—Service at 10:30 a. m. Theme: "The Strength of a Man." C. E. society meets at 6:30 p. m. Evening preaching service, 7:30 p. m. Theme: "The Commercial Spirit."

Now is the time to order your kindling wood if you want it dry for winter. Call at or phone to 615 Champlain St. Bell No. 78. H. J. KOEPP & CO. (8-30-17)

### United States Depository

A General Banking Business Conducted—Accounts Solicited.

### RAILROAD'S COSTLY LESSON.

Burlington to Pay \$15,000 Fine for Granting Rebate of \$140.

St. Paul, Nov. 8.—In a decision filed today the United States circuit court of appeals affirmed the judgment of the United States circuit court for the Western district of Missouri against the Burlington railroad for granting rebates on lard shipped from Kansas City, Kas., to New York and Hoboken.

The company was charged with having violated the Elkins law by granting to big packers rebates on 21,507 pounds of lard shipped from Kansas City to St. Louis over the Burlington and from St. Louis east over the Toledo, St. Louis & Western and connections to the Atlantic coast and destined eventually for foreign ports. It was asserted that the railroad gave the packers a rebate of 12 cents per hundred pounds.

The judgment of Circuit Court Judges Smith and McPherson, at St. Louis, June 22, 1906, was that the Burlington be compelled to pay a fine of \$15,000. The amount involved in the transaction was about \$140.

### New Prosecution for Santa Fe.

Los Angeles, Nov. 8.—Following close upon the heavy fine imposed upon the Santa Fe railway by Judge Wellborn in the federal district court yesterday, United States District Attorney Lawler announced today that he would proceed at the January term of court to prosecute the road upon the remaining indictment of ten counts charging rebating.

### WILL QUIT THE STATE.

Milwaukee Company Agrees to Sell No More Beer in Kansas.

Topeka, Kas., Nov. 8.—The Schlitz Brewing company of Milwaukee today in the supreme court confessed to a judgment in order in the sum of \$2,000, which it paid and agreed to get out of the state. This is a compromise, as a judgment of \$6,000 was granted against the brewing company July 2 last.

### GRAFT ALLEGED IN PUBLIC SCHOOLS

ABUSE OF TRUST CHARGED AGAINST SOME LOWER MICHIGAN OFFICIALS—INVESTIGATION HAS BEEN MADE.

While the investigations which the state department of public instruction has been making in the school districts of the state do not indicate that there is general graft and misappropriation of funds, still it is known that the money intended for use to educate the children of Michigan has in many instances served instead to aid in the support of the district officials.

In the southern part of the state the game has been a little more like high finance exploits instead of plain ordinary thievery and stacking up a satisfactory amount. In some of the southern districts—too many in fact for the state to feel any pride in her schools while it continues—school officers have found the school fund profitable. In some instances it has been discovered that the school officers have simply loaned the fund to themselves; in others and a majority of cases the fund has been loaned by its custodian who pocketed the interest which the officers of the state instruction department say is prohibited by law.

### What One Man Did.

One clever treasurer found a way to get the value out of the money in his charge. His father, a well-to-do farmer, signed his land and the son turned the school funds over to the father. When asked about them the son banker and he had simply placed the money in his hands for safe keeping. The profits which this bit of ready money brought in is said to have been no mean sum. There is at present a case in the Wayne county courts in which the department is much interested. Suit was brought against a district treasurer to collect the interest which it is claimed he obtained on loaned school money and retained. Judge Donovan took the case and decided against the district, but it is to be appealed to the supreme court and the department says that if it is won there a number of similar suits will follow in the same county.

Chief Clerk H. S. Smith of the department has been out in about two hundred districts. In some of them owing to the manner of bookkeeping employed it has been found impossible without a long search to get any idea of how the funds stand. In others it was found that the director, treasurer and moderator were drawing a salary, although it had been eight or ten years since the district had voted the money and the law expressly states that it must be voted, if paid, each annual meeting for the coming year.

### SOO CANAL PASSAGES.

### W. C. T. U. IN SESSION.

Nashville, Tenn., Nov. 8.—The thirty-fourth annual convention of the National Woman's Christian Temperance union assembled here today with over five hundred delegates present.

### THIS IS WORTH REMEMBERING.

As no one is immune, every person should remember that Foley's Kidney Cure will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. The Stafford Drug Company.

### DWINDLES TO ALMOST NOTHING.

Created by One Earthquake, Alaskan Peak Is Destroyed by Another.

San Francisco, Nov. 8.—Captain Tilton, of the whaler Herman, which arrived today from the Arctic, reports that a terrific earthquake occurred at Unalaska a month ago, and that McCulloch peak, which was created by an earthquake nearly a year ago and extended over 540 feet above the sea, has dwindled to almost nothing as a result of submarine disturbances. This peak resulted from a volcanic eruption in Bogozov islands and was discovered by the officers of the United States revenue cutter M. Culloch. The place was visited by Boston scientists, who recently reported that the peak was increasing in height. The earthquake shock which is believed to have caused its sudden shrinkage was felt for miles around Bogozov islands and Unalaska.

## MARKETS

### NEW YORK STOCKS.

Writing from New York yesterday Paine, Webber & Co.'s correspondent said:

"The stock market was feverish today, but stocks were generally higher than last night's close, due to shorts covering on quite a large scale. Apparently the existing situation has been temporarily cleared of overextended loans and while the feeling is a little more optimistic, the general situation can be hardly said to have improved materially. The arrival of gold from Europe has offered hopes of easier conditions in the money market, but the advance in foreign discount rates does not speak very well of future gold imports on a very large scale. Although it is thought a large short interest remains in the stock market, nevertheless the elimination of part of the same will make the market more susceptible to bearish attack. New weak spots are coming to the surface each day and until the same are entirely cleared the market is not likely to enjoy a sustained advance."

Closing prices were:

### Writing from Boston yesterday, Paine, Webber & Co. said:

"North Butte was especially weak this morning, on a rumor that the dividend would be passed. New York also sold the stock, and the demand was small. After the first selling was over it rallied easily to 40%. Range was very active and held strong, most of the trades being made by floor traders who are divided on the stock, some trying to put it up and others trying to get it down. The stock is scarce and the bulls seem to have the best of it at present. Calumet was weak on selling by insiders. All the other

### CHICAGO GRAIN MARKETS.

Chicago, Nov. 8.—The wheat market was inclined to be weak almost all day, though the prices showed some strength on a fairly active demand by shorts. The market opened weak because of the fresh advance in the rate of discount of the Imperial Bank of Germany. In the first fifteen minutes shorts bid up the prices nearly a cent from the low point touched at the opening, but the advance was soon lost on renewed selling which was based upon the closing price at Liverpool. The market also was bearishly affected by the weakness of corn. There was another rally late in the day on reports the shipments of wheat from Russia would be very light the next three months. The close was steady, the December down 1/4 @ 1/2. December opened at 90 1/2 @ 1/4; highest, 91 1/4; lowest, 89 1/2; closing, 90 1/4 @ 1/2. The May closed at 97 1/2.

Corn—The government crop report was the chief factor. It estimated the total yield of corn at 2,553,732,000 bushels. This is 143,000,000 bushels above the estimate made by the government a month ago. It had been expected that the report would show a smaller yield than the previous figures. A general rush to sell followed the publication of the report and caused a break of more than a cent from the high point of the day. The close was weak, the December down 1/4. December opened at 57 1/2 @ 1/2; highest, 58 1/2; lowest, 56 1/2 @ 1/4. The May closed at 49 1/2 @ 1/2.

Oats—This market was weak on moderate selling by longs. The break in corn was the chief depressing influence. The December closed 1/4 @ 1/2 lower. It opened at 47 1/2 @ 1/2; highest, 47 1/2; lowest, 46 1/2 @ 1/4. The May closed at 49 1/2 @ 1/2.

### Paine, Webber & Co.'s Summary.

Paine, Webber & Co.'s Chicago correspondent said yesterday concerning the Chicago wheat market: "The wheat trade has been full of sinks all day. Lower prices than any before made on the decline were recorded both early and late. Two or three times the market has had a quick upturn of one cent, only to slide back again just as quickly. After each swing in the market prices seemed to work back again very close to the level of yesterday's close. This caused many in the trade to feel that perhaps the market had reached a point where it will at least steady itself, if there is no more adverse financial news. The trade had to contend against weak and cover cables from all the foreign centers. On the other hand, the trade had the help of a firm New York

### Western Mining Stocks.

### COMMON COOKING SODA

SOLD FOR 5¢ PER OUNCE.

Burlington, Vt., Nov. 8.—A catarrh cure that retails for \$1 per ounce in Vermont drug stores has been found to contain absolutely nothing but common cooking soda.

"Another medicine labelled to contain the extract from Mexican beans was found to be borax.

"These are some of the results of the analysis now being made at the Vermont state laboratory of hygiene of medicines sold in Vermont and many of them manufactured there.

The two above mentioned are manufactured outside of the state, but some irregularities were found in many of the preparations put up in the state.

For instance, a medicine labelled to contain but 9 per cent of alcohol really contained 60 per cent. Another which was labelled to contain 20 per cent was found to have but 3 per cent alcohol.

These analyses are made under the direction of the state board of health and are in connection with the pure food law which went into effect in Vermont last June.

The board will give the manufacturers time to change the labels before prosecutions are filed against them. Altogether about twenty-five samples have been examined, a considerable portion of them being found wrongly labelled.

Let us speak of men as we find them, and ensure only what we can see. Remembering that none can be perfect unless they use Hollister's Rocky Mountain Tea.

### FOR SALE.

The Grand Family theatre is for sale, the owners having other matters which require their entire attention. The house is making money and the opening is a good one for the right party. Mr. S. C. Kops is manager at present and will be pleased to talk business with prospective buyers. (10-30-17)

Seats on sale at Bigelow's Store, Thursday, Nov. 7, at 8 a. m.

THE highest conception of art is demonstrated in my new program. No entertainment of animated scenes presenting travel and comedy has ever reached the perfection of this all new exhibition of mine. It is a realization of my efforts for fourteen years to create a production of moving pictures in which the embodiment of International events, travel subjects and humorous incidents is so presented with "talking" mechanical and musical effects that the spectator cannot help but forget he is in a theatre and throughout the evening imagines himself at the scene depicted.—LYMAN H. HOWE.

**PISO'S CURE**

**Lung Trouble**

of the most serious and dangerous description has been promptly relieved by PISO'S CURE. It has proved itself during nearly half a century an unsurpassed remedy for coughs, colds, hoarseness, bronchitis, asthma and all affections of the throat and chest. It contains no opiates or habit-forming drugs. PISO'S CURE has the confidence of people everywhere, and sworn court testimony has proved that by its use many of the worst consumptive coughs have been speedily relieved.

**SEWER MATTERS BEING CONSIDERED**

**MAYOR SUBMITS COMMUNICATION TO COUNCIL SETTING FORTH HIS IDEAS RELATIVE TO THE CONSTRUCTION OF SEWERS IN THE NORTHERN PART OF CITY.**

At the meeting of the council Thursday evening Mayor Roberts submitted a communication relative to the construction of sewers in the northern part of the city, where the property owners have homes on lots leased from the Cleveland Cliffs Iron company. The construction of the sewer north on Third street from Empire was opposed by some of the taxpayers at a previous meeting and the work was deferred. In the mayor's opinion the taxpayers who objected to the work being done had good grounds for their stand, as they were to be assessed for larger sums than were property owners who were to receive a similar service on other streets.

The mayor gave several reasons why he thought the Third street property owners were justified in protesting. His principal point was that the corporation owning the land, as well as the house owners, should be assessed for the improvement, inasmuch as it will increase the value of its holdings. He said that the assessed valuation of each lot is about \$300, and in his opinion the mining company should be obliged to pay for the sewer improvement on that basis, otherwise it should be willing to dispose of the lots to the property owners desiring to purchase them at about \$300 each. The mayor cannot see how a satisfactory solution can be reached unless the council assesses the land as well as the house owners for the proposed improvement. He contended that it is unfair for the property owners of Third street to be assessed about \$100, when those on other streets, where a smaller pipe is installed, will have to pay only \$50. The mayor's communication was received and placed on file.

**More Sewers Recommended.**

The sewer committee and the board of public works, who were instructed at the last meeting to consider the matter of constructing a sewer on other streets, recommended sewers for the district bounded on the east by Seventh street, on the west by Third, on the north by Bessemer, and on the south by Empire, including lots and parcels of land on both sides of the streets designated; also that part of the city bounded on the north by Empire, west by Sixth street, south by New York, east by Seventh, including the parcels of land fronting on Empire, New York and Seventh streets, except such portions of certain streets as are too low to permit of proper connections with the system. It was found that portions of Park and Wabash streets, and possibly part of Seventh, would not be benefited by the system.

The committee and board recommended that steps be taken at once to prepare the plans and establish the districts. The recommendation was approved. Assessor Quinn and the committee appointed by the mayor a few months ago as a special committee to equalize the assessments for the districts to which the system is being extended, reported that the cost per lot in the district on Second street from Empire to Michigan will be \$38.80. Lots 68 and 69 were excepted, as these lots were assessed for the sewer on Empire, from Third to Ma-

**FINISHED CONCRETE WORK.**

Mitchell & Sherman Have Completed Operations at Republic.

Mitchell & Sherman, the concrete contractors, who about six weeks ago started at Republic, have finished work for the season. One stretch of walk 2,500 feet in length was laid extending through two of the business and two of the main residence streets of the town. Besides building the walks the firm erected piers for the bridge, which was washed out a year ago last May, near the power plant south of the mine. A 500-foot retaining wall was also built at the stocking ground of No. 8 shaft of the Republic mine. The firm will resume work at Republic in the spring.

**A HARD DEBT TO PAY.**

"I owe a debt of gratitude that can never be paid off," writes G. S. Clark, of Westfield, Iowa, "for my rescue from death, by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent, when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle was used, and two more bottles made a complete cure." Nothing has ever equaled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by The Stafford Drug Co. 50c and \$1.00. Trial bottle free.

**DANCING PROVES FATAL.**

Many men and women catch colds at dances which terminate in pneumonia and consumption. After exposure, if Foley's Honey and Tar is taken it will break up a cold and no serious results need be feared. Refuse any but the genuine in a yellow package. The Stafford Drug Co.

**COMPLY WITH THE LAW.**

One day this week The Mining Journal called attention to the fact that the two pits at the Ames property, near Union Park, are uncovered. Mine Inspector J. T. Quinn said yesterday that the law does not require that the openings be covered with timber. Both shafts were covered, but a few months ago gypsies camping there removed the planks and burned them for fire wood. Mr. Quinn further said that every pit and shaft in the county of any depth is enclosed by a fence. The fence at the Ames property is of barb wire and about four and a half feet high.

**FROM HOPKINS' CURB LETTER.**

"Copper stocks opened fractionally lower, with North Butte the feature, selling down to 38 1/2, on talk that the next dividend would be passed. We hardly look for this, but expect it to be cut in half. The rest of the list was dull with business confined to odd lots, with Copper Range and Butte Coalition the most active. Copper prices in London were lower this morning with a decline of over a pound but as copper is 14 1/2 bid here it had no effect."

The day's prevailing prices were:

|                       |          |          |
|-----------------------|----------|----------|

**ISHPEMING IN BRIEF.**

Judd Lourey of Menominee spent yesterday here.

William Parke of Calumet was in the city yesterday.

Frank Desotel, Jr., of Laurium was a visitor in Ishpeming yesterday.

J. A. Kirkwood of Duluth looked after business in Ishpeming yesterday.

Miss Emily Collick will sing at the Bijou theater, Negaunee, the coming week.

A. C. Braastad has returned from Wisconsin, where he spent the past week or more purchasing produce and livestock for F. Braastad & Co.

The Beavers football team will go to Marquette tomorrow and will line up against the North Ends, the game taking place at the fair grounds. The Ishpeming team will be in line at 8 o'clock.

**FREE TO YOU—MY SISTER** Free to You and Every Sister Suffering from Woman's Ailments.

I am a woman. I know woman's sufferings. I have found the cure. I will mail free of any charge, my home treatment with full instructions to any sufferer from woman's ailments. I want to tell all women about this cure—you, my reader, for yourself, your daughter, your mother, or your sister. I want to tell you how to cure yourselves at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea or White Discharges, Ulceration, Displacement or Falling of the Womb, Prolapse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths; also pains in the head, back and bowels, bearing down feelings, nervousness, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder troubles where caused by weaknesses peculiar to our sex.

I want to send you a complete ten day's treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that it will cost you nothing to give the wish to continue, it will cost you only about 12 cents a week, or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer, if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you free of cost, my book—"WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says—"You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all old or young. To Mothers of Daughters, I will explain a simple home treatment which speedily and effectively cures Leucorrhoea, Green Discharge and Painful or Irregular Menstruation in Young Ladies. Pleasures and health always remain in its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell you a sufferer that this Home Treatment really cures all women's diseases, and makes women well, strong, plump and robust. Just send me your address, and the free ten day's treatment is yours, also the book. Write today, as you may not see this offer again. Address

## Upper Peninsula

Can Pay Sheriff a Salary—Concerning the agitation in Chippewa county in favor of putting the sheriff's office on a salary basis, it has developed there is a statute especially covering that matter in the upper peninsula. Section 2508 of the Compiled Laws for 1897 provides in part as follows: "The board of supervisors of each county in the upper peninsula is hereby authorized and empowered to pay to the sheriff of its county such salary as it may fix and determine. Said board may at the time such salary is fixed determine that the salary so fixed shall in addition to its being compensation in full be in lieu of all, or any part of the fees for which the county may be liable, and which are fixed by its such board may designate."

Baseball Outlook Dubious—Much gossip has been appearing in print lately to the effect a professional baseball league is to be formed representing various towns in Upper Michigan. It has been said that teams would be entered from Marquette, Ishpeming, Crystal Falls and Iron Mountain, in the iron mining region, and from Houghton, Calumet, Dollar Bay, Lake Linden and Baraga, in the copper country. Such talk as this should not be taken seriously. There will be no organization of the kind for the simple reason one could not exist. Professional ball was a dismal failure in the copper country last season, yet the copper country is the most populous and prosperous district in the peninsula. Neither would the game be profitable in the iron region. None of the towns mentioned are large enough to support a salaried club, and in any event enthusiasm is lacking. The best that the fans can hope for is the organization of a strictly amateur association whose schedule would be limited to Saturday, Sunday and holiday games. There has been some agitation to this end, yet the proposition has not taken definite form and the prediction is hazarded that it will not. It is possible a trolley league composed of amateur teams may be launched in the copper district, yet even this is doubtful. There were days last season when with fast professional clubs playing the national game the net receipts in the copper country were under \$2. On one occasion there were actually only three paid admissions. There will be innumerable ball games of the bush variety in Upper Michigan next year, along with a possible sprinkling of teams that will boast of "paid batteries," and the season will close—as it always does—with about every town on the map claiming the peninsula "championship." But there will be no "league," at least none of professional character.

Often a single dose of Ayer's Cherry Pectoral at bedtime will completely control the night coughs of children. It is a strong medicine, a doctor's medicine, entirely free from alcohol. Made only for diseases of the throat, bronchial tubes, and lungs. Full Cherry Pectoral. Then do as he says.

### BREITUNG CLAIMS TO BE OVER-ASSESSED

GENERAL MANAGER OF MARY CHARLOTTE MINING COMPANY ASKS FOR REBATE, CLAIMING THAT PROPERTY HAS BEEN OVER-VALUED COMPARED WITH OTHER MINES OF THE CITY.

E. N. Breitung, general manager of the Mary Charlotte Mining company, submitted communication to the council at its regular meeting Thursday evening complaining of the treatment of the corporation received at the hands of the city officials, assessing among other things, that the company has been over-taxed.

With the communication was a check for \$1862.00, due the city on account of the poll tax collected through the mine office. All of the other mining companies had made returns on the poll tax collections some time ago, and the city officials did not understand why the Mary Charlotte company was delinquent, but Mr. Breitung's communication in a measure explains the delay. He expressed the opinion that the company should not be asked to remit the poll tax money, and asked that the same be returned to it.

Mr. Breitung asserted that the Mary Charlotte mine is largely over-assessed, and expressed a hope that a valuation will be received. He said that he was familiar with the condition of the other mines of the city and knew positively that his company was getting the worst of the deal. He also asked that the council take into consideration the fact that the Mary Charlotte at the close of the season. He said that he disliked very much to protest about tax matters, and expressed a desire to meet with the council with a view to agreeing on a more equitable basis of taxation.

Mr. Breitung urged the council to extend the water main to the ten new double houses recently completed at the company's location, asserting that if the water is not provided both the company and its tenants will be inconvenienced, as well as subjected to the danger of loss of life. Mr. Breitung said he understood that the delay in extending the water main was due to the city's inability to secure pipe. He suggested that old pipe be used temporarily, and said that his company might be able to help the city out in the supplying of the same.

After some discussion a motion was adopted to the effect that the city would pay for the digging of the trench if the mining company would provide the pipe. Another matter which Mr. Breitung called attention to is the rebuilding of the highway near the mine. He submitted a proposition to the effect that the company would pay 50 percent of the cost of the new road and that it would also do the work. The council did not like this proposition. The city will do the work under supervision of the board of public works, provided one-half of the expense is borne by the mining company. Mr. Breitung's attention will be called to the fact that other mining corporations operating properties here have called attention to the road improvements, and that in all cases the work was done by the city and under direction of the board of public works.

WILL HUNT NEAR CLOWERY. Four prominent Chicago men, including former mayor, Carter H. Harrison, Oscar F. Mayer, Emil Demme and Emil Estel, will arrive in Negaunee this morning and will leave later, accompanied by Mayor J. H. Winter, A. C. Seass of this city, and Dr. John A. Winter of Calumet, for the mayor's camp, about eight miles north of Clowery. The Chicago men have hunted deer annually in this country for some years past. Last year was the first time they had been in the Clowery district, they having visited the region below Swaney in former years.

Dr. N. J. Robbins left Thursday evening for Milwaukee, but he will be home today, when he will leave for the woods, to remain a few days hunting deer.

### THE HIGHWAY DEPARTMENT.

Over \$1,200 Was Expended on New Work and Improvements.

The highway committee submitted a report to the council Thursday evening showing a total expenditure of \$1,277.47 last month. The rebuilding of the Hartford road along the south shore of Teal lake was the most expensive item, but 50 per cent of this outlay is to be borne by the Oliver Iron Mining company. The several items of expense charged to the highway department are as follows:

Hartford road ..... \$ 921 12  
Rolling Carp road ..... 17 50  
Repairing fence at cemetery ..... 15 00  
Repairing crossings ..... 15 00  
Cleaning gutters ..... 43 20  
Building Water street ..... 37 00  
Surveying ..... 6 25  
Repairing old Cambria road ..... 174 47  
\$1,277 47

The Cleveland-Cliffs Iron company has notified the board of public works that the \$7 expended in the building of the road on Water street will be borne by the corporation, as it will be benefited by the improvement.

The Central Construction company of Oshkosh sent a communication to the council asking for the settlement of a claim for \$878.29, due for repairing the electric lighting plant in 1904, shortly after it was installed. The bill was rejected at the time the work was done because the engine did not do the work guaranteed by the manufacturers. It had been in operation but a short time when it broke down, necessitating a total expenditure for repairs of \$1,054.06. Several items for material were allowed at the time, but the charges of \$384.29 for extra pipe and \$294 for repairs to the engine were rejected. The communication was referred to Aldermen Driscoll and Haggerton and Mayor Winter.

The board of public works submitted a statement to the effect that the cost of sewer on Tobin street will cost \$343.40. The cost of the 48 feet of eight-inch pipe will be \$111.00 and of the labor \$232.40. The council accepted the board's recommendation and the assessor was instructed to prepare the assessment roll. Following the next regular meeting the council will sit as a board of review.

On recommendation of the board of public works the city is to charge twelve cents per square foot for concrete walks built for taxpayers during the season just closed.

The matter of fixing a license for the moving picture and illustrated song theater was referred to the mayor and city attorney.

Mayor Winter's appointment of Jacob Simpallampi as a member of the police force, succeeding John Mitchell, resigned, was approved by the council.

Mr. Joseph R. Burt and Mrs. Mary Jewell presented petitions to the council asking that they be exempted from the payment of water taxes. The requests were granted.

The finance committee reported that there was a cash balance in the city treasury of \$24,493.40, Oct. 15.

The purchasing committee was instructed to buy certain equipment for the fire department, also to purchase caps for the police officers.

### FOOTBALL TODAY.

The Negaunee and Marquette high school football teams will meet this afternoon at the Union park gridiron. This will be the second game of the season for these teams, the Negaunee eleven having won in the previous contest. The game will start at 2:30 o'clock, and the admission price will be twenty-five cents.

### LOCAL LACONICS.

Marshal Griddle reports that twenty-five arrests were made last month. All but five of these were on the charge of drunk and disorderly.

The road recently constructed by the city along the south shore of Teal Lake, taking the place of the old road passing through the Hartford property, is much appreciated. Many who have driven over the thoroughfare have commented favorably on the improvement.

Manager Floyd D. Archer of the Bijou theater announces in this issue that the program of moving pictures and illustrated songs will be changed three times a week, on Saturday afternoon and Tuesday and Thursday evenings. There will be but one matinee on Saturday afternoon, Miss Maud Collick of Ishpeming will be heard the coming week in the illustrated songs.

REBUILDING "OLD IRONSIDES." The work of reconstructing the old frigate "Constitution," more familiarly known as "Old Ironsides," has progressed so far that she is about ready for the guns and which are to be exact duplicates of those used a century ago. When the system needs rebuilding there is no better remedy for the work than the famous Hostetter's Stomach Bitters. It was first compounded over half a century ago, and on account of its intrinsic merit has grown in popularity until today it stands first in its class. Be persuaded to try a bottle the next time the appetite is poor, nerves unstrung, bowels constipated and sleep restless. It will be sufficient to convince you of its great curative powers. It also cures and prevents dyspepsia, indigestion, biliousness, sick headache, chills, colic, or female ills.

The cheap imitations of Foley's Honey and Tar cost you the same as the genuine in the yellow package. Why then risk your health, perhaps your life, taking them when Foley's Honey and Tar will cure your cold and prevent serious results? It is guaranteed. The Stafford Drug Co.

SUSPICIOUS OF IT. "No," said the capitalist, "I don't believe this invention can amount to much. I guess I'll not invest any money in it." "But," his partner replied, "it looks good. People who have examined it say it's one of the greatest things that ever happened."

It's no use. There must be something wrong about it. The inventor seems to be thoroughly practical."—Chicago Record-Herald.

PNEUMONIA FOLLOWS A COLD. But never follows the use of Foley's Honey and Tar. It stops the cough, heals and strengthens the lungs and affords perfect security from an attack of pneumonia. Refuse substitutes. The Stafford Drug Co.

## A BLESSING TO MANY PEOPLE

Shake These Ingredients Well in a Bottle. Splendid Prescription for Kidney and Bladder Trouble and Rheumatism.

This is a message that will bring happiness again into many families and sunshine into the lives of hundreds of disheartened and discouraged men and women here. It requires just a little inconvenience, for it can't be bought already prepared. It is a simple home recipe now being made known in all the large cities through the newspapers. It is intended to check the many cases of rheumatism, kidney and bladder trouble which have made so many cripples and invalids and weaklings of some of our brightest and strongest people.

The druggists here have been notified to supply themselves with the ingredients and the sufferer will have no trouble to obtain them. The prescription is as follows: Fluid Extract Dandelion, one ounce, and Compound Syrup of Sarsaparilla three ounces. Mix by shaking well in a bottle. The dose is one teaspoonful after each meal and at bedtime. Recent experiments, even in severe hospital cases, prove this simple mixture the remedy for Rheumatism, because of its positive action upon the eliminative tissues of the kidneys. It compels these most vital organs to filter from the blood and system the waste impurities and uric acid which are the cause of rheumatism. It cleanses the kidneys, strengthens them and removes quickly such symptoms as backache, blood disorders, bladder weakness, frequent urination, painful, scalding and discolored urine. It acts as a powerful stimulant to the entire kidney and bladder structure, puts new life into them and invigorates the entire tract. It makes the kidneys clean the blood. The Dandelion will take care of liver trouble and constipation, and is fine for the stomach.

All the ingredients, states a well-known local druggist, are of vegetable extraction, making it a safe and harmless prescription at any time. Those who suffer and are accustomed to purchase a bottle of patent medicine should not let a little inconvenience interfere with making up this prescription. Wherever this becomes generally known, states a large Eastern publication, it will take care of liver trouble and constipation, and is fine for the stomach. All the ingredients, states a well-known local druggist, are of vegetable extraction, making it a safe and harmless prescription at any time.

### Do You Think For Yourself?

Or do you open your mouth like a young bird and gush down whatever food or medicine may be offered you?

Are you an intelligent thinking woman. In need of relief from weakness, nervousness, pain and aches, then it means much to you that there is one tried and true home medicine or women's composition sold by druggists for the cure of women's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible endorsement of the leading and standard authorities of the several schools of practice, are perfectly willing, and in fact, are only too glad to print, as they do, the formula, or list of ingredients, of which it is composed, in plain English, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised.

No other medicine for women's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received, in the unqualified recommendation of each of its several ingredients by scores of leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration?

A booklet of ingredients, with numerous authoritative professional endorsements by the leading medical authorities of this country will be mailed free to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

### HATCHERY MEN GO BACK TO DULUTH

IS ESTIMATED THAT THEY SHIPPED 8,000,000 LAKE TROUT SPAWN FROM MARQUETTE.

### HERRING SEASON NOW OPEN

For First Time Experiment of Fishing for Them Near City Is to Be Made by Two of the Local Firms.

J. A. Pinkerton, H. Dickey, M. Nicholson, Captain McLean and Alec Lee, representatives of the government hatchery at Duluth, who have been in Marquette collecting lake trout spawn for the past ten days, left last night for Duluth, having completed their work here.

Collecting Spawn. The collecting of the spawn was conducted on the tugs of the three fishing firms here—the Theora of the Parker fish house, the Ethel J. of the Lake Superior Fish company and the Columbia of the Anderson fish house.

15,000,000 Spawn to Be Treated. The men who have been gathering the spawn will now return to the hatchery and begin the work of hatching out the fish. It is said that about 15,000,000 spawn will be treated at the hatchery and of this number over half was sent from Marquette.

Flag Protects Tugs. Throughout the period that the men have been gathering spawn here, the three tugs have flown the flag of the United States Fisheries commission, a white pennant with the red letters, U. S. F. This flag is used in order that the tugs may not be molested by game wardens, and also to save the wardens trouble should they sight a fishing tug.

To Set Out Herring Nets. The tug Columbia of the Anderson fish house will leave today to set out herring nets. This will mark the first effort that has ever been made to catch herring near Marquette.

SETTLE THE BET. Do You Remember What Kind of Weather We Had About a Year Ago? Two readers of The Mining Journal have ended a year's argument by making a bet, and they have asked the Mining Journal to decide the bet.

PIE DAY TODAY. This will be "pie day" at the Studio and Woman's Exchange in the Savings Bank building. Mince, pumpkin, squash, raisin and lemon pies will be on sale.

HUNTERS' MAPS. County and city maps for sale at my office, Frei block, corner Front and Washington streets.

LEHIGH COAL. The best coal on earth. Now is the time. Consolidated Fuel & Lumber Co. (4-27-11)

### FOOTBALL TOMORROW.

North Ends and Ishpeming Eleven Are to Play at New Fair Grounds.

A game of football is to be played at the new fair grounds tomorrow afternoon between the North Ends and the Ishpeming team. The teams are evenly matched and the game promises to be a hard-fought one.

### SAVED FROM DEATH IN THE CHOCOLAY

WALTER BILLINGS SLIPS INTO DEEP ICY WATER AND IS RESCUED BY LEO BELAND.

After a struggle in the icy water of the Chocolay river near Chocolay yesterday afternoon, Leo Beland, of 220 Genesee street, swam ashore from mid-stream and saved the life of Walter Billings.

Drops in Icy Water. The string of logs forming the boom had been lashed together and, each standing on a separate log, the two men were pulling the boom across the stream. The log upon which Billings was standing began to turn and he lost his balance.

Desperate Struggle. After a desperate effort Beland succeeded in partly freeing himself and he struck out for shore. They had drifted some distance from the boom. Fighting his way inch by inch and alternately sinking and rising, Beland reached a point where his feet touched bottom.

Suffer No Ill Effects. Blue with cold the two men made their way to the Ford Bros. saloon, where they removed their wet clothing and, wrapped in blankets, sat before a roaring stove.

### MUSICAL AT THE NORMAL.

Saturday Morning Club Will Give a Program There Today.

The Saturday Morning Musical club will hold its regular session in the assembly room of the Northern Normal school at 10:30 o'clock this morning.

PIE DAY TODAY. This will be "pie day" at the Studio and Woman's Exchange in the Savings Bank building.

HUNTERS' MAPS. County and city maps for sale at my office, Frei block, corner Front and Washington streets.

LEHIGH COAL. The best coal on earth. Now is the time. Consolidated Fuel & Lumber Co. (4-27-11)

### BIG ANNUAL HUNT BEGINS TOMORROW

ESTIMATE IS THAT BY NIGHTFALL SEVEN HUNDRED DEER WILL HAVE FALLEN VICTIMS.

### MANY WOLVES IN THE WOODS

Resident of Ely Township Brings In Five Pelts and Receives \$135 Bounty from the County Clerk.

Tomorrow the big hunt, the annual slaughter, begins. That is, tomorrow is the lawful beginning, for it is said that in many places the carcasses of slain deer are already hanging in the camps of the hunters.

Camp Fires Will Be Burning. Most of those who have obtained licenses are now in the woods. Many of them have been in their camps for the past week and the few that are left in town are preparing to leave tonight and early tomorrow.

Advantage for Deer. The absence of snow, usually on the ground in this time of the year, works an advantage for the deer.

"Bear Hunters" Were Busy. Monday will probably see the first victims of the hunt brought to the city. The carcasses that will be shipped from here then will be largely the ones that fell before the rifles of hunters who have been in camp during the week past.

Received Big Bounty. In Ely township a number of packs of wolves have been seen and are heard nightly.

RECEIVED BIG BOUNTY. In Ely township a number of packs of wolves have been seen and are heard nightly.

RECEIVED BIG BOUNTY. In Ely township a number of packs of wolves have been seen and are heard nightly.

PINE AND HEMLOCK SLABS. Splendid values in Fur Sets, large Muff and Throw at \$15.
