There were lots of pretty girls, plenty of good music, excellent stage setting and elaborate costumes in the "Land of Nod" at the opera house last night and the production merited a bigger attendance than it had, though the house was fairly well filled. The play is full of bright little lyrics with catchy tunes, a number of grotesque and interesting characters and an unusually fine dancing chorus.

Knox Wilson, the clown, as April Fool, is without doubt one of the best comedians that has appeared before a Mar-
