

Copper Country LAST OF LIGHT INFANTRY.

Houghton Military Company Will Become a Naval Reserve.

Dr. H. S. Cole, president of the village of South Range and captain of the Houghton Light Infantry, which is Company G of the Third Regiment, Michigan National Guard, informed The Mining Journal yesterday that undoubtedly his command would consent to a transfer to the Naval Reserve, just what influences were brought to bear upon the company to impel this change of heart, he did not disclose.

DO YOU GET UP WITH A LAME BACK? Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspaper is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

Dr. Kilmer's Swamp-Root is not recommended for anything but if you have kidney, liver or bladder trouble, you have found just the remedy you need. It has been tested in so many ways, in hospitals and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper will be given a sample bottle sent free by mail, also a book telling you how to have kidney or bladder trouble.

Copper Stocks a Specialty. JAMES S. DUNSTAN Formerly of Hancock, Michigan, at New York Office.

ON NIGHT SHIFT When the sun goes to sleep, an Electric Sign goes to work. How well it works, successful merchants know. Get one to work for you. HOUGHTON COUNTY ELECTRIC LIGHT CO.

Calumet, giving that town both an engineers and an infantry company. Captain Cole said yesterday that he did not believe this would be the solution. He suggests that Marquette would be a desirable station for the company, and that it is being seriously considered by the state military board.

FINANCIAL SITUATION. Copper Country Not Suffering a Famine in the Supply of Cash.

It is probable that the reports of the dearth of cash in financial circles is exaggerated, but it is certain that there is some truth in them and the copper country hears continually that in New York, Chicago and other big towns there is a difficulty in cashing checks, that in the iron country the mines cannot pay cash to their miners, that money is the scarcest thing in the richest country on earth. How near to verify these things may be the copper country does not know, nor does it care, because there is cash in plenty on here.

COLLEGE OF MINES. Glee Club Progress—A Banquet on the Mesaba Range.

The Michigan College of Mines Glee and Mandolin clubs are singing at the anniversary exercises of the Pine-needle library Saturday night. They made a tremendous hit, showing a better musical quality than has marked the clubs in some years.

DEER HUNTING SEASON. One Death Reported—Much Game Coming Into Town.

The deer hunting season has gone through its first week, and in spite of the expressed belief here in these columns that it would not be successful, it is making a good showing. Deer were about the commonest things on the streets of the copper country towns Saturday.

PARK BREWING COMPANY. New Enterprise in Hancock Puts Out Its Foamy Product.

If there was a noticeable air of conviviality in the copper country Saturday night it was excusable. There were two contributing causes. The first was that Saturday was pay-day, and the second that the Park Brewing company had put forth its product for the first time.

ON NIGHT SHIFT. When the sun goes to sleep, an Electric Sign goes to work.

When the sun goes to sleep, an Electric Sign goes to work. How well it works, successful merchants know. Get one to work for you.

WILL RAISE THE SPOKANE. Captain James Reid, Master Wrecker, Will Attempt the Job.

Captain James Reid, the master wrecker of the great lakes, will make an attempt to raise the steamer Spokane, which stranded on a reef on Gull Island, in Lake Superior, in the fall.

CIRCUIT COURT. November Terms for Houghton County Opens This Morning.

The Houghton county circuit court will open this morning for the November term with Judge Stroeter presiding. The cases on the calendar are numerous but unimportant in their nature.

COBALT GOSSIP. The second story of the building of the Cobalt Concentrators company on the Nipissing property has now been completed.

The second story of the building of the Cobalt Concentrators company on the Nipissing property has now been completed, and according to the contractors, the plant will be running before the end of the year.

MARKETS. NEW YORK STOCKS.

Writing from New York Saturday, Paine, Webber & Co.'s Wall Street correspondent said: "The stock market today displayed considerable weakness in the early part of the session, but toward the close it rallied sharply on short covering. Rumors that the treasury would issue \$50,000,000 of Panama 2 per cent bonds, which would be sold in the market, were the cause of the rally.

CONSTITUTIONAL AMENDMENT. The college is interested in the constitutional convention at Lansing as far as a proposal by W. D. Calverley of Houghton is concerned.

The college is interested in the constitutional convention at Lansing as far as a proposal by W. D. Calverley of Houghton is concerned, and of this a Detroit dispatch says: "The Michigan College of Mines has introduced a proposal at the constitutional convention which, if adopted, will have the effect of giving the state university, the college of mines at Houghton, agricultural college, the normal schools and such other schools as may be established, the right to elect their own faculty under acts of the legislature."

Chicago Wheat. Paine, Webber & Co.'s Chicago correspondent said of the wheat market: "Wheat closed on a higher note for the day on May contracts. It likewise closed at the top for the session for that month and within a fraction of the top for the December contract. There was a drive at the December early, and the break amounted to 1 1/2% from the close Friday, while the other month was off only 3/4. Late in the session, when the New York stock market was out of the way entirely, wheat shot up to a high level and there was enough covering to give the market its strong upturn."

COBALT GOSSIP. The second story of the building of the Cobalt Concentrators company on the Nipissing property has now been completed.

labor and to pay for such products as our currency system can be added by allowing the banks to issue currency for their notes uncovered by a bond deposit, protecting them by other methods which will insure their being just as good and safe in the hands of the note holders as such notes are at present, and at the same time allow of such currency expansion of contraction as the needs of trade demand.

CURRENCY LEGISLATION. Action by Congress to be Recommended by President Roosevelt.

Washington, Dec. 17.—With a view to working out some kind of a plan for currency legislation, conferences have been held by President Roosevelt with Secretary Cortelyou, Comptroller Riddley and Congressman Fowler of the house committee on banking. While no specific plan has been adopted there is a strong feeling that some law will be passed promptly and its general principles are no longer open to question.

LONDON WATER SUPPLY. Until the thirteenth century London depended on wells and brooks for its water supply.

Until the thirteenth century London depended on wells and brooks for its water supply, says the Youth's Companion. It's means of conveyance were the pails and pitchers of the householder. In 1236 streams of water were brought by slender pipes to a cistern, known as the Great Conduit, in West Cheap. Here bucket bearers gathered in crowds to await their turn. One of the regular duties of an apprentice was to fetch water through the streets.

"I am of the opinion," says the controller, "that the necessary elasticity in our currency system can be added by allowing the banks to issue currency for their notes uncovered by a bond deposit, protecting them by other methods which will insure their being just as good and safe in the hands of the note holders as such notes are at present, and at the same time allow of such currency expansion of contraction as the needs of trade demand."

SCROFULA INHERITANCE OF DISEASE AND SUFFERING. No truth is more forcibly manifested in physical life than the old saying "like begets like." For just as the offspring of healthy ancestry are blessed with pure, rich blood, insuring health and strength, so the children of blood tainted parents inherit a polluted circulation to burden their existence with disease and suffering. Swollen glands about the neck, brittle bones, weak eyes, pale, waxy complexion, running sores and ulcers and general poor health, are the usual ways in which Scrofula is manifested. In some cases the blood is so filled with the scrofulous germs and tubercular matter that from birth life is made miserable with suffering. Others who inherit the disease succeed in holding the trouble in check during young, vigorous life, but when the system has begun to weaken and lose its natural vitality, and especially after a spell of sickness, the ravages of the disease will commence, and in a great many cases terminate in Consumption. S. S. S. is the very best treatment for Scrofula. It renovates the entire circulation and drives out the scrofulous and tubercular deposits. S. S. S. is the greatest of all blood purifiers, and it not only goes to the very bottom of the trouble and removes the cause and cures the disease, but it supplies the weak, anemic blood with the healthful properties it is in need of. S. S. S. is made entirely of healing, cleansing roots, herbs and barks, and is an absolutely safe remedy for young or old. Book on the blood and any medical advice about Scrofula given free of charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

L. S. & I. docks: Arrived—Rhodes, Angeline, Robbins, Wells, Cleared—England, Ashabula; Case (lumber), Chicago.  
Coal docks: Arrived—Griffin, Frontenac, Clyde.

### STRINGENT NEW LAW AGAINST SCALPING

OWNERS OF PROPERTY LIABLE WHERE TICKETS ARE SOLD AT ADVANCED PRICES.

Michigan's new law prohibiting scalping is said to be one of the most stringent ever passed by a state. The new law was enacted at the recent regular session of the legislature and is now effective.

### Must Print Prices.

The first provision of the new law makes it the duty of owners and managers of theaters, circuses, athletic grounds and amusements of all sorts to print in conspicuous type the admission prices on all tickets issued, giving the seat number when seats are numbered. The second section forbids persons owning or managing amusements to demand or to receive prices in excess of the general admission advertised, and the same section also forbids managers to sell tickets through an agent at prices in excess of those advertised. They are also forbidden to establish agencies or sub-offices for the sale of tickets at prices greater than are asked at regular box offices.

### Has Wide Scope.

its wide scope. Any owner, lessee or occupant of a building, who permits any person to sell or exhibit for sale on his premises tickets to places of amusement at prices greater than those advertised, is liable to prosecution. In cases where managers of amusement places sell admission tickets to certain persons under restrictive conditions, such tickets being regarded as non-transferable, it is unlawful for the holders to sell them or offer them for sale. Violation of the law is a misdemeanor and is punishable by a fine of from \$25 to \$100 or a jail sentence of from ten to sixty days, or both fine and imprisonment.

### ROOSEVELT'S PLANS.

President Wants New York's Delegates to Go Uninstructed.

Washington, Nov. 17.—New York will send an uninstructed delegation to the next Republican national convention unless President Roosevelt loses his grip on the situation in that state between now and the time for electing delegates. Neither the president nor Governor Hughes desires a test of their respective strength in New York at this time. The party is thought to be in excellent condition in that state now and its well-wishers do not wish any unnecessary struggle between the partisans of the president and of the governor to turn organization into chaos and struggle into weakness. Politics were discussed with special reference to the situation in New York and Connecticut at the White House conference last week between the president and the national committee men from those states, William L. Ward and Charles F. Brooker. These gentlemen declined to discuss in detail the conclusions reached at this conference but they let it be understood that they were for letting matters drift along for the next few months and would confine their activities to the election of a "safe" and sound Republican rather than Roosevelt, Taft or Hughes delegates. It is altogether against the usual precedent for New York to instruct her delegations. "A third-term delegation would prove very embarrassing to the president and might force his hand in advance. Ward and Brooker are for uninstructed delegates, and unless Connecticut should develop strong Taft sentiment in the meantime, it is altogether probable that her delegation will follow the example of that from the Empire state, and send a delegation to the convention in thorough sympathy with the Roosevelt policies, but not instructed as to a candidate. The president will not accept another renomination, but this does not mean he will not continue to be the leader of his party as long as he remains in the White House. He is well aware that many of his enemies are using the cry "Roosevelt for a third term," as a cloak for the election of delegations which they can control absolutely. They will probably find before the game is over that the president can also play politics when the emergency demands.

### Household Furniture FOR SALE

At flat 412 S. 3rd St., over Blittner's office I will sell at private sale, Tuesday and Wednesday, Nov. 19th and 20th, all my household furniture, consisting of rugs, extension table, two coal heating stoves, rockers, leather upholstered chairs, and lounge. Refrigerator, sideboard, dishes, kitchen utensils, hall tree, center tables, pictures and other effects, all in best of shape. Leaving town is reason for selling. WALTER YEAZEL, Inc.

SOME names on boys' clothing are stronger than others. Some labels stand for more in quality and worth than do others. "Extragood" clothing is known to be the best made for boys. The best merchants all over the country sell it. Those that don't, know there is none quite so good for the public. The label stands for more in the way of materials and tailoring than does any other label. The mother who is buying it for her boy is buying more satisfaction than she can get in any other brand. We want the confidence and trade of all particular people in this section. That's why we sell "Extragood" and not the other kind.

A General Banking Business Conducted—Accounts Solicited.

## Upper Peninsula

**Rendezvous for Wolves—**  
 Wolves are too numerous for comfort in the vicinity of the sawmill and settlement of the Foster-Porter Lumber company at Net River, Iron county—this notwithstanding the army of deer hunters now in the woods. The animals are heard howling every night and, like in portions of Menominee county, many depredations are charged against them. Only recently a steer was killed in the very outskirts of the hamlet, and in the morning the skeleton of the animal was found picked clean.

**Goes to the Supreme Court—**  
 By a decision handed down by Circuit Judge John W. Stone, John Wickstrom and other farmers owning property along the Rapid river, Delta county, will be allowed to appeal to the supreme court from an injunction issued several months ago restraining them from interfering with the Gault Lumber Shingle company in driving logs. It was claimed by Wickstrom and his fellow farmers that their land and growing crops have been badly damaged each spring by the river overflowing its banks through the channel being filled with logs held by booms.

**Fishing at the Soo Locks—**  
 A novel way of catching fish has been discovered at the St. Mary's ship canal. Whitefish, pickerel, etc., swim into the locks from above when the gates are opened. When the water is let out the fish are carried down under the gates and are sometimes stunned by hitting the gates. They rise to the surface and if left alone will in time resume their normal state. Employees of the locks are on the lookout for such fish, and upon seeing them land them with nets. Several very large fish have been caught in the last few days—some weighing as much as four or five pounds.

**Peculiar Fatality—**  
 It was a peculiar accident to which Albert M. Ingalls, until a few months ago a resident of Gladstone, Delta county, has fallen victim. Hunting near Bovey on the western Mesaba iron range, he was killed by a bullet discharged from the rifle of his companion. The marksman had fired at a weasel. The bullet struck a rock and was deflected upward and at a side angle, striking Ingalls, who was about fifty feet distant. The jugular vein was severed, and the former Upper Michigan man bled to death within fifteen minutes. Ingalls was formerly a district manager for Detroit packing house, with headquarters at Gladstone, and latterly had been bookkeeper for a large hardware establishment at Bovey. He was aged thirty-two.

**Fire-Bug at Ironwood—**  
 That an incendiary is at work at Ironwood there is now conclusive evidence. Following a cessation from the series of mysterious fires which during mid-summer had occurred in the vicinity of another occurrence of the kind has been recorded, the evidences in connection with which clearly point to the fact the blaze had purposely been started. A barn being discovered in flames at midnight, an attempt to summon the fire department by means of the electrical signal system proved unsuccessful for the reason that the two alarm boxes nearest the scene were plugged with small corks so that the keys could not be inserted. The firemen were finally summoned by telephone, but in the meantime two horses had perished in the burning structure. Subsequently two jugs that had contained kerosene were found near the scene of the blaze.

**Good Winter for Ontonagon—**  
 There is no industrial depression in Ontonagon, nor is there any sign of such a contingency. Indications are that this will be the most prosperous winter in the history of the old town. The Ontonagon Lumber Company's mill is to be kept in operation the greater part of the winter, while in the past it has been run only during the summer months. Naturally, this will furnish employment to a large number of men, assuring the crew work practically all year around. The C. V. McMillan company will keep its mill in operation without interruption. Negotiations are pending for a lease of the stove plant and to a concern which will make it a big industry should it decide to take hold of it. And besides, several hundred additional men will be employed in the woods adjacent to Ontonagon this winter. The one drawback has been a scarcity of help, but the reduction of forces at the mines is changing this condition, and it is believed that inside of another month all the men desired can be secured without any trouble.

**Novel Legal Point Raised—**  
 John F. Carey, an Escanaba attorney, has been in Lansing lately to argue before the supreme court a case of unusual interest. The litigation involves a point of law which has never before been decided in the United States. The case is that of John K. Stack of Escanaba vs. the DeTour Lumber & Cedar company of DeTour, Chippewa county. It appears that five years ago the plaintiff loaned to the defendant company \$26,000, the loan being secured by a real estate mortgage. The mortgage provided that the company pay 7 per cent interest and also taxes on the mortgage should such taxes be assessed against the plaintiff. The defendant company has paid both the interest and the taxes, as well as something on the principle, so that the balance stands at about \$23,000. This balance the company refused to pay, and Mr. Stack began an action in the Chippewa county circuit court to secure judgment.

In the trial of the case in the Chippewa circuit court the defendant company's attorneys opposed the plea of usury. This had been anticipated by the plaintiff's attorneys, and there had been discovered an Illinois law, passed in 1853, which provides that corporations cannot plead usury. The defendant company is an Illinois corporation, although operating in Michigan, and is therefore subject to the laws of that state governing corporations. This point saved the case for the plaintiff and a decree was granted for the full amount claimed. The defendant company appealed the case. It is its position that the judgment should be for only \$12,000.

**National Bank for Munising—**  
 With a capital stock of \$200,000, the First National Bank of Alger County is to succeed the Munising State bank of Munising. Authority to reincorporate under the federal banking laws has been granted by the comptroller of the currency. Control of the Munising State bank was purchased recently by the Cleveland-Cliffs Iron company interests, and it is said that further expansion in the Upper Michigan banking field is to be made by the same group of capitalists. One new bank at least will be

established, this at the Cleveland-Cliffs company's new town of Gwinn, in southern Marquette county. Had the Munising State bank not been acquired, it was the intention to launch a new financial establishment at the Alger county seat, application, in fact, having been made to the comptroller for authority to organize the Alger County National bank.

**False Alarms Made Costly—**  
 Because so much annoyance was occasioned the fire department by false alarms turned in on Halloween, an ordinance has been passed by the common council of the Soo making the act of tampering with the signal apparatus a misdemeanor. A maximum penalty of \$100 fine and ninety days in the county jail is provided.

**Escaped Great Riches—**  
 Although fairly well off in this world's goods, Captain Waldred Bean, a well-known Baraga county pioneer, who recently came to a violent end in a runaway accident, had at one time within his grasp an opportunity to acquire great riches such as rarely comes to any man. Along in 1856, Captain Bean was the possessor of much of the land on which now stands the city of Sault Ste. Marie. The future great lumber and salt center was then little more than a struggling hamlet. There were no visions of the importance and growth the community was to attain, and on Captain Bean being attracted by the possibilities in the Lake Superior region he traded his land for a sailboat and fishing outfit and with his craft came to the Upper Peninsula, which he had made his home ever since. Captain Bean was appointed postmaster at Sault Ste. Marie in 1876, and he held the office through all changes of administration to the day of his demise, a matter of thirty-one years. In both point of service, and in age—he was eighty-three—he was the oldest postmaster in Michigan.

**5,006 Catholics in Escanaba—**  
 Figures are now being compiled in the Bureau of Statistics at Washington which will give the first accurate census of the Roman Catholic population of the United States. The work of enumeration has all been done by the parish priests and the church has worked in connection with the bureau of statistics of which Archbishop John Joseph Glendon of St. Louis is an honorary member. The pastors of the three churches in Escanaba have completed the enumeration of their parishioners and their reports have been forwarded to Washington. The census shows that all three of the churches are strong numerically and financially, but the figures show that St. Patrick's church, which is the youngest, is by far the largest. Rev. Father Lang reports the following for St. Patrick's Irish parish: Total number families, 490; Males, 1,224; Females, 1,282; Value of church property, \$80,000.

Rev. Father Henze gives the following for St. Joseph's (German) parish: Total number of families, 210; Males, 730; Females, 820; Value of church property, \$85,000. M. Fillion, one of the trustees of St. Anne's (French) church, says the approximate number of families in the parish is 350. Mr. Fillion says the approximate value of the church property is \$75,000. Basing an estimate of the number of parishioners upon the average for the other two churches, the number would be approximately 1,750. The figures for the three parishes show the following: Total Catholic families, 1,130; Total Catholic population, 5,806; Total value church property, \$240,000. The above figures include children as well as adults.

### SOO CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.  
 Sault Ste. Marie, Mich., Nov. 17.—Special.—The upbound boats passing the locks the last twenty-four hours were the following: Rockeiller, Walden, 11:20 p. m.; Penderis White, midnight; Queen City, Pollock, 2:30 a. m.; Grant, 5:30; Ionic, 6; Leonard Hanna, 7:30; Stanton, 8; Russia, 8:30; Richardson, 9:30; Malouin, 10:30; Becker, 11:30; James Wallace, 2:30 p. m.; Cuddey, 3; Matania, Curry, 5; Rosedale, 6; Phillip Minch, 7; Castalia, 7:40; Goulder, Superior, 9.

### NOTES OF COPPER NEWS.

Galmet & Heela has over 200,000 tons of coal on hand at its docks, and this will be increased to 250,000 tons before navigation closes. This is the largest stock of coal carried in some years. It is valued at \$1,000,000. Notwithstanding rumors to the contrary, Amalgamated officials assert that there is no present intention either to increase or further curtail output. With the closing of Coalition production, the output of the Washoe and the Great Falls smelters for November will fall below 7,000,000 pounds.

J. E. Bamberger, president of the Daly West, Daly and Ontario mining companies of Utah, says the regular quarterly dividend of sixty cents a share will be paid on Daly West shares on Dec. 15, unless there is a decided change in the metal market. The company has a substantial surplus in its treasury. The Daly West property has been closed down for six weeks owing to the company's refusal to recognize the miners' union. Bamberger, the mine manager, advised that without any yielding on the part of the company whatsoever, the men—300 in number—have resumed work. During the period of the strike, which commenced on Sept. 26, a sufficient number of non-union men were secured to carry on work on the Ontario drain tunnel and its completion is looked for shortly.

Should November's frosty breezes bring you coughs, colds or chills, Take Rocky Mountain Tea instead. Of harmful drugs and bitter pills. —The Stafford Drug Co. LEHIGH COAL. The best coal on earth. Now is the time. Consolidated Fuel & Lumber Co. (4-27-11)

### CURRENCY LAW DEMANDED.

**ALL CLASSES OF MEN APPEAL TO THE PRESIDENT.**  
 Their Request for an Extra Session of Congress Indicates Their Anxiety for Action—Denial Was Due to Lack of Time—Legislation Desired Will Prove a Slow Process but a Carefully Prepared Measure Will Be Presented at the Regular Session—A Suggestion of What It May Be If the Old Committee Is Reappointed.

Washington, Nov. 17.—It would indeed be a hard-headed congress that could ignore the overwhelming demand from all sections of the country for reforms in the currency system which can only come through legislation. Illustrative of the general character of this demand are the classes of men who have appealed to the president within the last ten days to call an extra session immediately to deal with the currency problem; the list of names included business men, bankers, manufacturers, merchants, financiers, economists, in fact every class even remotely affected by the antiquated system of currency with which this great nation is afflicted. That they pleaded for an extra session shows how pressing they believe the need for currency reform to be. Nor was it because of any lack of sympathy with their purpose that the president refused this request; it was only on the ground that an extra session would not achieve the object desired. Currency legislation cannot be enacted in a week or even a month. It will prove a slow process at best and unless some of the stubborn members of both houses lose some of their stubbornness, currency reform must be postponed until they are deprived of their seats. There will be no extra session, but there will be a determined effort to put through a conservative and carefully prepared currency bill at the regular session.

**The Old Committee.**  
 In the event that Speaker Cannon shall reappoint the members of the committee on banking and currency of the last congress, some idea of the kind of measure to be proposed may be suggested. The old committee consisted of Charles N. Fowler of New Jersey, chairman; George W. Prince of Illinois, William A. Calderhead of Kansas, Llewellyn Powers of Maine, Henry McMoran of Michigan, Charles L. Weens of Ohio, George D. McCree of Pennsylvania, Joseph R. Knowland of California, George E. Waldo of New York, Cassius M. Shartel of Missouri, Everis A. Hayes of California, John W. Weeks of Massachusetts, Republicans, and Elijah B. Lewis of Georgia, Arson P. Pajo of Louisiana, Carter Glass of Virginia, Oscar W. Gillespie of Texas, Ollie M. James of Kentucky and George S. Legare of South Carolina, Democrats. With the exception of Mr. Shartel of Missouri every member of the committee of the last house has been returned and will be eligible for reappointment. It is not a strong committee, but Massachusetts is one of the states fortunate enough to be represented on it by a member of congress who is a banker and a currency reform advocate, and it was not surprising to find Mr. Weeks making his influence felt on that committee last year in the interest of legislation for improving the present system.

Toward the close of the last session the twelve Republican members of the committee reported favorably a bill providing for the issue and redemption of national bank guaranteed credit notes.

**Hair Help**  
 Your doctor will tell you just why we use sulphur, glycerin, etc., etc., in Ayer's Hair Vigor. Ask him about it.

If you cannot be handsome, be as handsome as you can. Every human being has a legal right to good looks. Know of anything that contributes more to it than a splendid head of hair? Ayer's Hair Vigor keeps the hair soft and smooth, makes it grow faster. Does not color the hair. J. C. Ayer & Co., Lowell, Mass.

### MONSTER MASS MEETING.

Ishpeming Theater Packed to the Doors  
Yesterday Afternoon.

It is evident that the Finnish people,  
particularly those who believe in tem-  
perance are pleased with the recent ac-  
tion of the Finnish diet in passing the  
prohibitory bill, as much enthusiasm was  
shown at the jubilee meeting held yester-  
day afternoon at Ishpeming theater.  
All three floors were packed to their  
capacity and many were obliged to stand.  
More than 300 men and women  
marched from the Finnish Co-operative  
hall, corner of Division and First street,  
to the theater, the Light Guard band  
leading the procession. There were  
many on the street who crowded into  
the theater as soon as the members of  
the temperance society had taken seats.  
The meeting was presided over by Je-  
sus Kallinen, secretary of the National  
Finnish Diet's Temperance association.  
He spoke in both English and Finnish,  
extending a welcome to those present,  
and expressing satisfaction at the mag-  
nificent turnout. He said that the Fin-  
nish people of this county have reason  
to be proud, as the fight for temperance  
in their native land has been a long and  
bitter one; he contended that much good  
will come of the change in Finland and  
that temperance will improve the char-  
acter of Finnish citizenship.  
The object of the jubilee was fully  
explained in both languages and some  
interesting facts concerning the fight for  
temperance in Finland were presented by  
a couple of young girls, one speaking  
in English and the other in Finnish.  
Rev. J. K. Lamm, who was to have de-  
livered an address in Finnish, is ill and  
was unable to attend, and Rev. M. M.  
Allen was not able to be present. Rev.  
Kurmi and Mrs. James Ivey gave the  
principal talks, the former speaking in  
Finnish and the latter in English. Mrs.  
Ivey congratulated the Finnish people on  
the interest they have aroused and the  
progress in this country, asserting that  
the satisfactory headway is being made. She  
expressed the belief that the time is  
coming when the liquor traffic will be  
wiped out of many places in this country  
where it now has a stronghold.  
A very pleasing musical program was  
presented by the Finnish choir, the  
club, Ernest Paananen, the violinist, and  
the Light Guard band. The latter opened  
the meeting with a Finnish march and  
closed it with America, followed by the  
Finnish anthem.

### TOO FAR FOR GAME.

Ishpeming Hunters Saw No Deer Beyond  
Camp District South of Here.

Several Ishpeming men who have been  
to the south of Ishpeming deer hunting  
during the past week confirm the report  
that the farther south deer are sought  
the fewer are found. One hunter stated  
Saturday that he and several others  
spent the greater part of the week hunt-  
ing two miles south of the city, and that  
they never saw a deer nor even the  
tracks of one after they left Camp Nine,  
which is fifteen miles distant. Last  
year they hunted in the same district,  
but were not so far south by several  
miles. They had good luck, but thought  
that by going a few miles farther into  
the woods, where the hunters would not  
be numerous, they would have little or  
no trouble getting game. In this they  
were much disappointed and returned to  
the city disgusted.  
On their way in, not far from Camp  
Nine, they saw many deer tracks, and  
as they were driving along the road a  
deer passed in front of them. Peter  
Gunnerson, who was a member of one  
of the two parties coming in at the  
time, got a shot at the deer and wound-  
ed it. The animal was tracked for sev-  
eral miles, and three spots were found  
where it had stopped to rest. The deer  
lost considerable blood and the hunters  
felt satisfied they would get it if they  
traveled far enough, but it was getting  
dark, so they came in without it.  
The number of deer coming to the city  
is not large in proportion to the num-  
ber of men from here in the woods. A  
large number have returned without  
deer, but it is reported that quite a  
few carcasses are being up at the camps  
to be brought in when the owners re-  
turn. A large number of Ishpeming men  
went to the woods Saturday night or  
early yesterday morning, returning last  
night.

### SIXTH WARD SEWER.

All Taxpayers Not Opposed to the Instal-  
lation of the System.

"I find much sentiment among tax-  
payers of the Sixth ward in favor of  
the proposed extension of the sewer sys-  
tem to that part of the city," said a  
Sixth warder yesterday. "It is true  
that some do not favor putting in the  
system at this time, but if a vote of  
the property owners was taken I am  
sure it would be largely in favor of  
improvement. If a petition is presented  
to the council by some of the property  
owners protesting against the improve-  
ment, those who favor it will also be  
heard from."  
"I think that portion of the city has  
been without sewers quite long enough.  
Lack of the service makes the Sixth  
ward the most unhealthy place in the  
city to live. There are at present a large  
number of scarlet fever cases in the  
ward. One street has no less than five.  
There also is considerable other sick-  
ness, principally whooping cough among  
the children. I am satisfied that there  
would be less sickness if the dwellings  
had sewer connections."  
"I am sorry that the improvement is  
being opposed, but if the council is in-  
fluenced by the wishes of a majority, the  
opposition will be of little avail. The  
situation has been pretty well canvassed  
and I am satisfied from inquiries I have  
made that most of the property owners  
want the sewer. A delegation of taxpay-  
ers who favor the proposition will prob-  
ably attend the special session of the  
council the evening of the 26th to make  
their wishes known."

### DOING GOOD WORK.

Workmen in Employ of Local Concrete  
Must Do First-Class Wiring.

"I have not permitted any of our  
men to do wiring that will not meet  
the approval of the state inspector," said  
J. W. McCook, manager of the  
Marquette County Gas & Electric com-  
pany. "I have been careful as to this  
and our men are under instructions to do  
the work according to the code adopted  
by the National Fire Underwriters. But  
there has been a lot of very poor work  
done here in the past. Some of it is  
very bad, I must say, but none of the  
poor work can be charged to our com-  
pany. We have remedied faulty work  
in a number of places, and will gladly  
make changes for any patron desiring  
his wiring brought up to standard."  
"Mr. Trembath of the inspection bu-  
reau has good grounds for criticizing the  
electricians of this region generally for  
the class of work that has been done.  
I believe that all of the companies op-  
erating here in this section are trying  
their best to put in good work; in fact  
it is to their interest to do work that  
will stand inspection. It would require  
the expenditure of a large sum to rewire  
all the places here where the work will  
not pass inspection, as a large percent-  
age of us have some years ago, when  
little or no attention was paid to the  
national code."

### PAYS START TODAY.

The Cleveland, Ohio, Iron company will  
begin paying its employees on this range  
today, when the men at the Cliffs shafts  
and Lake mines will receive their checks.  
The Salisbury and Hard Ore men will  
be paid Wednesday; the Negaunee, Mass  
and Jackson workmen Thursday; the  
Imperial men, Friday, and the Svaney  
range employees Saturday. The Pittsburg  
& Lake Angeline company was the first to  
issue the cashiers' checks, the employ-  
ees having been paid Saturday. The  
checks were accepted in all the business  
places, the same as currency.

### BIDS WANTED.

The city of Ishpeming will receive  
bids up to the 3rd day of December, 1907,  
for the supplying of the following goods,  
all of which are to be of good quality:  
Twenty-four pairs firemen's rubber  
boots; 24 firemen's rubber coats; 24 fire-  
men's rubber hats.  
Samples will be received at No. 1 en-  
gine house, city of Ishpeming, Michigan,  
care William Locher, chairman commit-  
tee on purchasing and printing. Commit-  
tee will reserve the right to reject any  
or all bids.  
WILLIAM LOCHER, Chairman.  
GEORGE G. BARNETT,  
ANDREW G. BERGSTROM,  
WILLIAM H. TRATHEN,  
EUGENE V. CASSIDY,  
Nov. 14, 1907. (11-18-5d) Committee.

### FROM HOPKINS' CURB LETTER.

"The market for Shoson coppers opened  
irregular. Stocks showing small frac-  
tional advance and declines. Range  
after having sold 46 1/2, quickly rallied to  
48. Calumet & Arizona also showed ad-  
ditional strength, advancing two dollars  
from the opening prices."  
The prevailing prices Saturday were:

## MOTHERHOOD

The first requisite of a good  
mother is good health, and the ex-  
perience of maternity should not be  
approached without careful physical  
preparation, as a woman who is in  
good physical condition transmits to  
her children the blessings of a good  
constitution.

Preparation for healthy mater-  
nity is accomplished by Lydia E.  
Pinkham's Vegetable Compound,  
which is made from native roots and  
herbs, more successfully than by any  
other medicine because it gives tone  
and strength to the entire feminine  
organism, curing displacements, ul-  
ceration and inflammation, and the  
result is less suffering and more children  
healthy at birth. For more  
than thirty years

MRS. JAMES CHESTER

## Lydia E. Pinkham's Vegetable Compound

has been the standby of American mothers in preparing for childbirth.  
Note what Mrs. James Chester, of 427 W. 35th St., New York says in this  
letter:—Dear Mrs. Pinkham:—I wish every expectant mother knew about  
Lydia E. Pinkham's Vegetable Compound. A neighbor who had learned  
of its great value at this trying period of a woman's life urged me to try  
it and I did so, and I cannot say enough in regard to the good it did me.  
I recovered quickly and am in the best of health now."  
Lydia E. Pinkham's Vegetable Compound is certainly a successful  
remedy for the peculiar weaknesses and ailments of women.  
It has cured almost every form of Female Complaints, Dragging Sensa-  
tions, Weak Back, Falling and Displacements, Inflammation, Ulcera-  
tions and Organic Diseases of Women and is invaluable in preparing for  
Childbirth and during the Change of Life.

### Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to  
write Mrs. Pinkham, at Lynn, Mass. Her advice is free.

## THE Inner-Player

Made by the Cable Co  
is the best perfected of  
Player Pianos.

The transcending device, the pedal control, the minia-  
ture keyboard, simplicity of construction, the superb  
tone quality, the compactness of all the parts are only  
a few of the points of superiority.

This is the only Player-Piano absolutely guar-  
anteed by the manufacturer.

The price of the Inner-Player is very reasonable  
and we will take your old instrument in exchange as  
part payment.  
Let us demonstrate this wonderful instrument to  
you at our store.

217 Main St. CABLE PIANO CO., Ishpeming

### Mining News

#### BIG CUT IN COPPER OUTPUT.

The Boston News Bureau figures that during the month of October the production of copper in the United States, Mexico and Canada fell off 31,036,040 pounds as compared with October, 1906, a drop of over 30 per cent. Ten months of the present calendar year have now passed, and the production of copper on the American continent has shown a decrease of 92,000,000 pounds. Of this decrease 83,000,000 pounds represent the falling-off of output of 27 per cent compared with the production in the same period in 1906. This falling-off in Montana production will probably enable Arizona to take first place this year, for while some restriction has taken place in that territory the falling-off from north and is only now about 2,000,000 pounds per month. Arizona mines, as a rule, are low-cost producers, and they were not obliged to shut down on a 12-cent copper market. The Lake has not restricted much and its production for the ten months is about 10,000,000 pounds ahead of last year. Utah for the ten months is ahead of last year by reason of the operations of the Garfield smelter and the Utah Copper company, although October production from Utah was about 2,300,000 pounds less than in September. This total continental production for the first ten months of 1907 is estimated and compared as follows (in pounds):

1907	1906
First six mos. . . . . 553,909,263	586,494,581
July . . . . . 98,423,870	99,276,979
August . . . . . 93,298,167	102,233,654
September . . . . . 98,388,800	97,792,000
October . . . . . 67,739,200	98,775,240
Total 10 mos. . . . . 891,759,240	985,101,825

The falling-off of over 10 per cent in copper output this year, where ordinarily production should have shown a 10 per cent increase, should in time make itself felt.

#### CALUMET & GLOBE.

A meeting of the directors of the Calumet & Globe will be held in Calumet this month to discuss the future plans. The company is confronted with a rather discouraging state of affairs. It has a payment of \$25,000 to make in December on its property located near Globe, Arizona. Another payment is also due in February, and it is a question whether it would be advisable to continue work, making the payments when due, or permit the options now held to lapse.

Should the payments be made it will be necessary to call upon the stockholders for further funds. The shares outstanding are subject to call, but in the present perturbed condition of finances it is a question whether the stockholders would be able to put up the money required. It is particularly unfortunate for the Calumet & Globe that the present financial condition exists. Under normal conditions the money needed could be raised with but little trouble. To make a call for funds now would be met with only half-hearted responses. Even if the two payments are made it will require more money to continue development work on the claims held.

The Calumet & Globe has a very likely group of claims and has already done considerable work upon them. The prospect from the bottom of the shaft on the Brewery claim has reached the ore deposit and while further depth is essential before the value of the ores can be fully determined, still the prospects were considered very favorable. A report from Superintendent Andrus is expected soon and much will depend upon this as to the future course to be taken.

#### LAKE COPPER PRODUCTION.

The estimated production of the Lake Superior mines in October was 18,853,400 pounds. This compares with an estimated output of 18,807,920 pounds in September. For the first ten months of 1907 the copper production of the Lake mines has been over 9,000,000 pounds in excess of the corresponding period of 1906. The output for the period stated is figured at 188,015,481 pounds, against 188,575,200 pounds produced in 1906, an increase of 5,559,719 pounds. Estimates for October follow:

mine	output, Lbs.	Per cent
Calumet	7,000,000	37.18
Volunteer	7,000,000	37.18
Champion	1,280,000	6.80
Tamarack	1,072,000	5.70
Battie	1,450,000	7.70
Oscuela	1,200,000	6.38
Monawk	640,000	3.39
Michigan	230,000	1.22
Trionmountain	600,000	3.19
Winona	145,000	.77
Dumey	1,600,000	8.49
Isle Royale	220,000	1.17
Monawk	740,000	3.93
Albany	280,000	1.48
Centennial	275,000	1.46
Missouri	200,000	1.06
Victoria	142,800	.76
Franklin	320,000	1.70
Adventure	98,000	.52
Total	18,853,400	100.00

#### NOTES OF COPPER NEWS.

The shaft of the Parrot mine has been re-opened to the depth to which the company started to sink some months ago. Including the shaft, it is now 2,030 feet deep, and the company will now begin prospecting from the 1,900-foot level. In line with the general curtailment policy, the Parrot cut its production to about 150 tons of ore per day. The ore is mined from the 1,600, 1,700 and 1,800 of the Parrot, and some comes from the 800 and 1,000 of the Little Mina.

Helena (Mont.) advices say: For at least thirty days the American Smelting & Refining company will refuse to receive ore from all shippers who do not have contracts. This is because the company is already overstocked with ore at its East Helena plant from contracts shippers, and has no room in which to store additional ore. It is understood by other sources that this order is to be found in the unsettled condition of the metal markets in the East. The company has had thousands upon thousands of dollars tied up in ore bought and further drop in prices would mean that much more loss. The order will not affect the number of men employed.

Hayden, Stone & Co. say a new smelting contract for North Butte becomes effective June 1, 1908, when the cost of smelting this company's ore will be reduced \$1 per ton. The saving thus far effected is equal to \$1 per share per annum on the outstanding stock, accepting as a basis the tonnage treated prior to the recent partial suspension of operations. The North Butte is now supplying 400 tons of ore daily, the output coming from 1800-foot level to the fifth May vein, where a length of about 750 feet of openings has been created. Of this tonnage 60 per cent is first class ore, yielding 8 1/2 per cent copper at the smelters, while the recovery from the second class ore amounts to 4 1/2 per cent. This would indicate an average refined yield of about 138 pounds per ton of ore treated, in which fact is to be found assurance of its extremely low operating costs. In this connection it may be stated that the recent cut in the price of

labor will favorably affect the cost of production of this company to the extent of one-half cent per pound.

The Granby Consolidated company is not curtailing its production. Its costs are below ten cents per ton, and wages are back on the \$3.50 per day basis. As this company sells its copper to the American Metal interests, without regard to whether the selling agency disposes of it or not, there is no reason why it should curtail so long as copper keeps above twelve cents per pound. The Granby has overcome its fuel difficulties and is again running eight furnaces, with full battery, treating 2,000 tons of ore per day, or 21,000 tons per week, from which it is producing copper at the rate of 2,250,000 pounds per month. The company plans a material expansion in capacity of the mill, which should be reflected in increased output.

The mines of the Copper Range Consolidated, figuring only a half cent higher in Champion, are expected to produce 35,000,000 pounds in the year to end-December next, compared with 32,828,283 pounds in 1906. The increase of 3,000,000 pounds is chiefly due to the enlarged production from the Baltic, which will show a 1,500,000 pound increase over last year. About a month ago Copper Range had a surplus supply of copper on hand amounting to about 15,000,000 pounds, or 42 per cent of its total annual output, but this supply has since been cut in half by sales at prices ranging from 12 1/2 to 14 1/2 cents a pound. In the first months of this year the company sold practically half its annual output at from 22 1/2 to 25 cents a pound. It expects to average a selling price for the year of at least 18 cents a pound, against an average price of 19 cents in 1906. In addition to earnings received from its copper output, the Copper Range will now begin receiving from the 1,900-foot level. The quarterly dividend to be declared this month is \$1.50, it will make \$7.50 declared this year, against \$6 in 1906 and \$4 in 1905.

The Quincy Mining company recently received from the United States government the award for furnishing 500,000 pounds of copper to the navy department at 17 1/2 cents. Advertisers Waterbury, Conn., state that in the rolling mills there has been a gradual slowing down of activity ever since July and in some instances plants have been operated but five days a week. In the cutting-up shops, or manufacturing ends, there has also been a slowing down, which, however, has not been so pronounced as in the other departments of the brass industry. It is the opinion of well posted people in Waterbury that the brass plants have not yet fully completed their old orders. But as new business is coming forth very slowly, it is a question of but a very short time before there is a further curtailment in production among the brass plants of the Naugatuck valley.

Many sufferers from nasal catarrh say they get splendid results by using an antiseptic. For their benefit we prepare Ely's Liquid Cream Balm. Except that it is liquid it is in all respects like the healing, helpful, pain-allaying Cream Balm that the public has been familiar with for years. No cocaine nor other dangerous drug in it. The soothing effect is a remedy that relieves at once. All druggists, 75c, including spraying tube, or mailed by Ely Bros, 56 Warren street, New York.

Have your manuring, shampooing and massaging at your own homes by Mrs. Dan Thomas. Bell Telephone 927. (11-8-1w)

## Negaunee Department

### NEGAUNEE POSTMASTER WILL REFUSE CHECKS

PERSONS PURCHASING MONEY ORDERS AT THE POSTOFFICE WILL HEREAFTER BE OBLIGED TO HAVE CURRENCY—ACCEPTANCE OF CHECKS CONTRARY TO THE DEPARTMENT'S RULE.

Postmaster Thomas Connors will hereafter refuse to accept checks in payment for money orders. The acceptance of checks at the postoffice is contrary to the rules of the department, and when a postmaster takes them he does so at his own risk. Mr. Connors has always accepted the checks and has never had any losses on that account, but inasmuch as cash cannot be secured at the banks on more of the checks that would be received at the postoffice he has decided to refuse checks and drafts of all kinds.

Discussing the matter Saturday, Mr. Connors said that in case the inspector comes to the office to check up the books and he finds checks in the drawer the postmaster would be obliged to go out and secure the currency for them before the inspector would give him proper credit. Up to this time he has never had any trouble in immediately cashing the checks on hand when the inspector arrived, but in view of the present financial conditions he is not so certain that this could be done, particularly if the checks represented a large sum. Many of the mining companies' checks have been received at the postoffice in the past, but the postmaster will send part of their earnings to foreign countries. In case postoffice orders are desired by those who have been in the habit of presenting pay checks in exchange for the same, the purchaser will hereafter be obliged to hand in the currency.

The postmasters are not in a position to handle cashier's checks the same as the business men, as the latter can place them to their credit in the banks and draw checks against them for the payment of merchandise or for general purposes. By refusing the checks it is possible that the business in the money order department of the postoffice will fall off somewhat and that the banks will profit thereby, as the latter will accept checks in exchange for drafts to be sent to their credit in this country or abroad.

The first of the exchange checks issued here were in circulation Saturday, they having been given out by the operators of the Empire mine on the Cascade range. The checks are in denominations of \$5, \$10 and \$20, and are payable to order of the Hibernetian Banking association of Chicago, where the company operating the Empire has its account. Some of the checks came into the bank soon after it opened for business, having been deposited by the workers. These checks will be sent to the Hibernetian bank and placed to the credit of the bank here, the amount due the local bank remaining there until such time as the management of the Chicago institution feels disposed to forward the cash.

### WOODSMEN NOT PLENTIFUL.

While it is reported from some sections of the upper peninsula that logging operators are not starting their work as yet, it is a fact that in the district south of here, there seems to be a fear on the part of operators that the demand for certain grades of timber will not be as good as the coming season. It was last winter, and that only the better grade will be wanted. It is a fact that the big lumber concerns are not buying as strongly as they did a year ago, and it is quite possible that logging work will not be as extensively conducted in some parts of the peninsula as it was last season. There is work for a large number of experienced woodsmen between here and Escanaba on the line of the Chicago & Northwestern railway. It is reported that the men available are refusing to work for less pay than they received last season, but only a few of the operators seem willing to pay the \$35 and \$40 scale. A number of the jobbers here have started to cut timber, but there will be no hauling until there is good sleighing and the swamps are frozen. The demand for mining timber will be good, so that the jobbers supplying the mines will have all they can do.

### LOCAL LACONICS.

William Paralla, Henry Koltia, Sam Koko and Gus Maki left Saturday for Green's Creek, where they will spend a few days hunting for muskrat.

Miss Anna May has resigned her position as teacher at the Park street school, and is to be succeeded by Miss Ruth Wells, daughter of T. M. Wells.

Mr. and Mrs. J. E. Suess will be the guests of N. M. Kaufman and wife at their place near Deerton, south of Marquette, for a week or more. They left for there Saturday.

The oil painting of Negaunee's new high school building which was presented to the board of education by Architect J. D. Chubb has been neatly framed and can be seen in J. W. Elliott's display window.

Postmaster J. T. Brown of Turin, and Postmaster W. S. Wilson of Little Lake, were visitors in Negaunee Saturday. Mr. Brown stated to the Mining Journal representative that there are a great many hunters out in Turin township, many of them from the lower peninsula, but so far as he could learn very few deer are being shot.

### SHRINERS TO GATHER IN MARQUETTE SOON

MEETING IS TO BE HELD EARLY NEXT MONTH AND HUNDREDS OF VISITORS ARE DUE.

### TO HOLD ANNUAL ELECTION

Business Session Will Be Held in Afternoon and Ceremonial Session in the Opera House at Night.

Almed Temple, the upper peninsula order of the Mystic Shrine, which has its headquarters at Marquette, is to hold a ceremonial session and annual election of officers in Marquette on Wednesday, Dec. 4 next. The order now has a membership of about seven hundred throughout the upper peninsula and it is expected that very nearly all of these will attend the gathering. There are about fifty members of the order in Marquette.

Prepare for Visitors. Extensive preparations are now being made to receive and entertain the visitors and elaborate invitations have been sent out from Marquette to the members of the order. These invitations are exceedingly artistic. The invitation consists of a white card-board folder, in which the announcements are printed on white pages. Embossed in gold on the outside of the folder is the figure of a camel at the bottom of the card, while at the top the symbol of the order, embossed in silver and gold, also appears. A scroll in the center separates the two words, Almed and Temple, embossed in scarlet letters.

The business session of the meeting will be held at 3 o'clock in the afternoon and at this session the annual election of officers will take place. At 7 o'clock in the evening the ceremonial session, when a class of candidates will become members, will be held. The ceremonial session will be held in the opera house.

Present Officers. The representatives to the imperial council of the order are: Francis M. Moore of Marquette, F. H. Gooding of Marquette, J. T. Fisher of Laurium, and Clarence Adams of Sault Ste. Marie, Ont. The officers of the order are: James T. Fisher, potentate; Francis M. Moore, chief rabbi; John C. Yates, assistant rabbi; T. B. White, H. P. P. George, D. Sherman, oriental guide; William B. McCombs, treasurer; F. H. Gooding, recorder; Frank S. Dunbar, first cer. master; Percival J. Delf, second cer. master; T. B. Catlin, director; James G. McCallum, assistant director; Asa Stannard, Marshal; J. N. Mangham, captain of guard; C. D. Hanchett, alchemist; James W. Young, outer guard; Louis Peadar, steward; John H. Lewis, steward.

Low Rates to City. The order usually holds two meetings yearly and the one next month will be the second held this year. It is expected that about thirty candidates will become members of the order. The preceding meeting was held last June at the city and some sixty members joined the order.

For the Shriner's meeting the South Shore has announced reduced rates. The round trip rate to Marquette will be a fare and a third from any point on the South Shore line. Tickets will be placed on sale Dec. 3 and 4, and will be good returning from Marquette until Dec. 5.

### DANGER IN DELAY.

Kidney Diseases Are Too Dangerous for Marquette People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills.

Mrs. Jos. Perry 330 Mary St., Escanaba, Mich., says: "I can recommend Doan's Kidney Pills for they cured me of backache after I had suffered for a long time. There was a constant itching across my loins accompanied by a weakness and misery that was hard to describe. I saw Doan's Kidney Pills recommended by most reliable citizens and got a box. The quick relief I obtained from this remedy astonished me and resulted in a permanent cure. I gladly endorse Doan's Kidney Pills."

Plenty more proof like this from Marquette people. Call at Stafford Drug Co.'s store and ask what their customers report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

### FORMING NEW ASSOCIATION.

Plans Being Made at High School for Indoor Sports During Winter.

To make arrangements for indoor athletics during the winter and to heighten the interest in general athletics, a new high school organization, to be known as the Marquette High School association, is now being formed. During the past football season a similar association existed, but recently it disbanded. The student body is being approached, and it is the purpose to make each high school boy a member of the association.

It is planned that the various athletic organizations and teams will be supported by the association, and each member will be required to pay an annual fee. During the winter an indoor baseball team will be formed, and it is also planned to have one or more basketball teams. In the spring efforts will be made to promote interest in track events. The school has developed a number of star sprinters and other track men, and these will be given an opportunity to display their athletic ability at a meet to be held next spring.

Don't fail to watch for the hand bills announcing the special one-price sale now going on at the Bee Hive.

L. GETZ, Prop. Marquette, Mich. 220-222 S. Front St. (11-10-24)

### MAST GOES OVERBOARD.

Rotten Timber Cause of Accident to Steamer Clyde at Noon Saturday.

The steamer Clyde, which recently arrived from Lake Erie with a cargo of coal for F. B. Spear & Sons, lost her mast Saturday noon. The heavy timber fell just as the crew were at dinner and probably for that reason no one was injured. The mast, which was about two feet in diameter at its base and about fifty feet high, had rotted to the core and as it toppled over onto the deck it broke within six inches of the deck. The Clyde is owned by the Tonawanda Iron & Steel company of Tonawanda, N. Y. She is one of the old wooden vessels, having sailed the lakes for the past twenty-five years, and the mast which broke has probably been in use throughout that period. As all vessels are required to carry a light placed a certain number of feet above deck, the Clyde will have to be equipped with a new mast before she may leave Marquette. She is to go to Ashland from here to load with ore.

### CHANCE TO LEARN HOW.

Housewives, to whom the task of cleaning a fish assumes fearful proportions, would acquire valuable information and they probably also would be amazed were they to visit the Anderson fish house any day nowadays, for there is a force of workmen busy there and each man cleans something like 3,000 fish a day. Recently the tug Columbia began fishing for herring and thousands of the silver beauties are brought in daily. These are turned over to the men to be "dressed down." Each man is armed with a sharp knife and in cleaning a fish he makes exactly three motions. The knives used are square at the ends. The fish is laid on a board under the left hand. The first stroke of the knife severs its head. With the second stroke it is split up the back and with the third stroke, which is really a part of the second, the entrails are scraped out. The cleaned fish drops into a barrel and another takes its place. The fish in the barrels are then salted and packed for shipment.

### BOWLING SCORES.

Table with bowling scores for Marquette and Negaunee teams, listing names and scores for various matches.

### THEATRICAL.

"A Romance in Ireland." The new comedy drama in which the young singing comedian, Allen Doone, will appear at the opera house next Wednesday. As in the past two seasons Mr. Doone will be under the direction of George W. Kenney, who promises the best all-around company, as well as the most complete scenic production ever seen in an Irish play.

### HIGH AND LOW PRICES.

Table listing high and low prices for various commodities such as Adventure, Arcadian, Allonez, etc.

### COST OF SHIPPING IRON ORE DOUBLED

FROM NOW UNTIL END OF SEASON LABOR AND EXPENSE AT DOCKS ARE MUCH INCREASED.

### MAY OPERATE AT A LOSS

Boats That Could Be Loaded in Six Hours Now Require Four or Five Days on Account of Cold Weather.

From now on until the end of the shipping season, owing to the cold, the work of carrying on shipping operations and the expense will be greatly increased at the ore docks. The increased labor and cost is due to the freezing of the ore as it is handled and how much it means is shown by the fact that a boat, which ordinarily can be loaded in six or seven hours, now sometimes requires as much as four or five days before the work is accomplished.

Steel Cars Cause Trouble. The work at both the L. S. & I. and the South Shore docks has already been greatly hampered by the frosty weather. At the L. S. & I. there are now about a hundred and fifty cars of ore frozen and the work of thawing them is now going on. Owing to the freezing of the ore, the loading and shipping at the docks lately has not kept up with the output of the mines and before more ore can be taken from the mines, a part of the present accumulation will have to be disposed of. At the South Shore docks there are about 250 cars of ore frozen at the present time. It has been found that the modern steel car, which has so many advantages over the old wood car under ordinary circumstances, causes a great part of the trouble in cold weather. The steel attracts the frost and holds it while the cold, in a measure, is kept out by the old wood cars.

From the present time on it will be necessary to thaw all of the ore before it can be shipped. This is done in two ways. The ordinary method used to thaw soft ore is to attach a length of hose to the injector of an engine, and through the hose send a stream of hot water and steam into the doors of the ore pockets, where the ore is stored and into the cars of ore. The other method, used in thawing hard ore, is by means of hot and cold salt brine. Barrels of salt for the purpose are kept on the docks.

At a Loss. The work of thawing the ore not only consumes much time and labor, but it is very expensive and it increases the cost of handling ore more than double. It is not too much to say even that during extreme cold weather the docks are operated at an actual loss. The condition applies to all of the lake ports where ore is shipped. Through usual Marquette has to face the condition earlier than some of the other ports which, like Escanaba, only recently began to thaw ore. It has been announced that the Steel Trust will close its season early this year and its boats will be sent to winter quarters sooner than usual. This is probably due to the extreme precautions being taken this year against loss by storm. Masters of vessels generally have received positive orders to take no unnecessary risks and upon the first report of an impending storm they are required to seek shelter. In past years this has not been the case. The M. A. Hanna & Co.'s steamers will not be taken off as soon this year as the others and will continue to run through next month and probably after that, for a period.

No More Freight. The passenger and freight season at Marquette closed Saturday and from this on, until next year, no more freight will be sent from or to this port by steamer. The Anchor line recently announced that, "owing to approaching winter and close of lake navigation, freight will not be received for forwarding from Cleveland or Detroit to and via the points given below, after the dates mentioned: Port Huron, Nov. 16; Marquette, Nov. 16; Dollar Bay, Nov. 20; Hancock, Nov. 20; Houghton, Nov. 20; Sault Ste. Marie, Nov. 21; Duluth, Nov. 21; Superior, Nov. 21." It was stated that there would be no departure from this schedule except upon the authority of J. C. Evans, western manager of the Anchor line of Buffalo. Such authority will be contingent upon weather conditions.

### DEATH OF JOHN W. RILEY.

Aged seventy-four, John W. Riley passed away at St. Mary's hospital at 10:30 o'clock last night. He had been ill for several months. Mr. Riley was a well-known citizen of Marquette. He had made his home here for many years. The family residence is at 115 East Creighton street. Mr. Riley was a carpenter by trade. Surviving him are his wife and four daughters, two of whom, the Misses Alice and Margaret, live at home. The arrangements for the funeral are not completed, pending advice from the two children who do not reside in this city.

Floods the body with warm, glowing vitality, makes the nerves strong, quickens circulation, restores natural vigor, makes you feel like a new born again. Holister's Rocky Mountain Tea. 35 cents. The Stafford Drug Co.

Don't fail to secure a supply of Van-deenboom's fresh creamery butter today while the price is easy. (11-15-11)
