

CONFERENCE HELD AT WHITE HOUSE

J. Pierpont Morgan Confers With the President for One Hour and a Half Regarding the Financial Situation.

Just What Develops Is Not Disclosed, but That the Treasury's New Issue of Certificates Is Already Successful Is the Announcement Made by Secretary Cortelyou—Red Tape Is Cut, and Banks Get Important Concessions.

Washington, Nov. 22.—A conference is in progress at the White House tonight between the president and J. Pierpont Morgan, George N. Baker, president of the First National bank of New York, and Assistant Secretary of State Robert Bacon.

New York Conditions Reassuring. Washington, Nov. 22.—Upon leaving the White House at 11:25 o'clock, after being with the president for an hour and a half, Mr. Morgan, on being asked in regard to developments, replied that the conditions in New York were reassuring.

Mr. Morgan said also that his object in coming to Washington tonight was to see Secretary Cortelyou in furtherance of a conference he had with the secretary in New York last week, at which time measures were discussed for the further relief of the situation.

ISSUE ALREADY SUCCESSFUL

Treasury Deluded With Subscriptions for the New Certificates.

Washington, Nov. 22.—The secretary of the treasury stated this evening that the subscriptions to the 3 per cent certificates were being received in large numbers, and that the issue was already successful.

BANKS TO RETAIN THE MONEY

Washington, Nov. 22.—An important announcement of policy was made this afternoon in regard to the allotment of the new certificates which indicates that the secretary is prepared to cut red tape as far as possible and place the proceeds of the sale of the certificates promptly at the disposal of the banks.

DENVER MINT TO COIN SILVER

Denver, Nov. 22.—The Denver mint, which has coined about \$15,000,000 in gold during the past two months, will resume coining silver in December, working to its full capacity.

MANY LANDS REPRESENTED

International Convention of the Y. M. C. A. in Session at Washington.

Washington, Nov. 22.—Christian workers representing many lands gathered here today in attendance upon the thirty-sixth international convention of the Young Men's Christian association of North America.

AUTOMOBILE WRECKED

Iowa Man Is Killed and Companions Are Seriously Injured.

Des Moines, Ia., Nov. 22.—C. R. Nattiger was killed and Frank Getchell was badly injured in an automobile accident tonight, while Miss Ruth Wilkinson and Miss Isabelle Benny were seriously hurt.

ELECTRIC CARS COLLIDE

Dozen Men Injured at Sandusky, Two of Whom May Die.

Sandusky, O., Nov. 22.—In a head-on collision early today between an interurban Lake Shore electric motor and a city car, a dozen men were injured, five of them seriously.

REICHTAG IN SESSION

Berlin, Nov. 22.—The reichstag assembly today after the summer recess, with a large attendance of members.

HANSBROUGH'S PLAN

North Dakota Senator Urges the Establishment of a Central Bank of Issue.

Washington, Nov. 22.—Senator Hansbrough, of North Dakota, will urge tonight in the senate the establishment of a central bank of issue.

ENDORSED BY COMPTROLLER RIDGELY

Springfield, Ill., Nov. 22.—William Barrett Ridgely, comptroller of the currency, talked this evening before the business men's club on the financial crisis.

INDIAN STRIKE COLLAPSES

Calcutta, Nov. 22.—The strike of the employees of the East Indian railway collapsed today with the summary dismissal of some European leaders of the movement.

BAD FOR WALSH

Wrecked Bank's Cashier Gives Damaging Testimony Against the Accused Financier.

Chicago, Nov. 22.—Constant wrangling between the attorneys, caused for the most part by numerous objections by the defense to the testimony of Fred McLean, former cashier of the Chicago National bank, delayed progress in the trial of John R. Walsh today.

WRECKED BANK'S CASHIER GIVES DAMAGING TESTIMONY AGAINST THE ACCUSED FINANCIER

Chicago, Nov. 22.—Constant wrangling between the attorneys, caused for the most part by numerous objections by the defense to the testimony of Fred McLean, former cashier of the Chicago National bank, delayed progress in the trial of John R. Walsh today.

CHICAGO OVER, TRADE SHOWS INCREASED DEGREE OF QUIET

New York, Nov. 22.—Bradstreet's will tomorrow say:

While a number of cities report that the tone of affairs has taken a turn for the better, general business, taken the country as a whole, shows an increased degree of quiet, both at wholesale and retail—a working out of the continued scarcity of currency at some points, of the lessening activity in industry and of the continuance of the unseasonably mild weather, with its natural effect upon the distribution of winter goods.

ST. LOUIS JURY DISAGREES

St. Louis, Nov. 22.—After having been in session over twenty-two hours, the jury in the case of Edward G. Lewis, charged with missing the mails in connection with the People's United States bank, disagreed and was discharged.

NATIONAL GRANGE PLATFORM

Hartford, Conn., Nov. 22.—The annual convention of the National Grange, Patrons of Husbandry, closed today.

GOLDEN TIDE STILL FLOWS IN

Much More of the Yellow Metal Engaged for Export to America, the Total Now Is Well Over \$80,000,000.

Stock Market Does Better With the Enforced Liquidation Discontinued and Copper Prices Tending Upward Again, but the Trading Is Curtailed and Not Much Improvement Is Looked for Until Money Once More Becomes Free and Easy.

CUT WAGES ACCEPTED

Glass Workers' Committee Representing 8,000 Men Agrees to Employers' Proposal.

Indianapolis, Nov. 22.—Partial agreement was made this evening between the wage committee of the Amalgamated Window Glass Workers' Association of America and representatives of the manufacturers.

FEDERATION OF LABOR

Declares for a Minimum of \$9 a Week for Woman Clerks.

Norfolk, Va., Nov. 22.—The American Federation of Labor adopted resolutions today calling for a minimum wage of \$9 per week for all female retail clerks.

ATTACKS RATE LAW

Steamship Head Declares New Legislation Driving American Shipping from the Seas.

New York, Nov. 22.—In a speech tinged with bitterness, President Scherwin of the Pacific Mail Steamship line tonight assailed the government's attitude toward shipping on the Pacific, and declared that the present policy bode fair to drive the American flag from the Pacific as well as from the Atlantic.

NEBRASKA TRAVELERS PROTEST

Lincoln, Neb., Nov. 22.—Complaint was made with the state railway commission today against the Rock Island railway by traveling men, alleging that 1,000-mile tickets were not on sale for \$20 as required by the law passed last winter.

HEAVY FOG AT NEW YORK

New York, Nov. 22.—A heavy fog over New York harbor and bay this morning delayed all forms of transportation.

WEATHER FORECAST

Washington, Nov. 22.—The following is the weather bureau's forecast for Upper Michigan: Saturday, fair; winds becoming south and fresh to brisk; Sunday, fair.

Toledo, Saturday, Nov. 23.—Weston, the aged pedestrian, arrived at Bryan at 12:15 o'clock today.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., NOV. 23.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Governor Warner has just congratulated the Escanaba football team on its excellent showing during the past season. It almost persuades us that some of those high school players are old enough to vote.

If the University of Chicago football players overcome the Carlisle braves today they will deserve to be ranked with the strongest teams in the country. If they fall, the record of the Indians show that they have plenty of good company in defeat.

Congressman Young has a poor opinion of government business methods. Most people have, and they have lacked the opportunity that Congressman Young has had to become closely acquainted with them. However, the poor business in many of the government's methods can be seen from a long distance.

Walter Wellman is home from his second attempt to reach the north pole by the balloon route. He is still confident that he can turn the trick. A somewhat skeptical public will doubtless have the patience to follow his efforts for one more season, but next year it must see Mr. Wellman's balloon reably under way or it will begin to doubt whether there is any balloon.

Mr. Carnegie is to pay the expenses of the Lehigh-Carnegie Institute football game at Pittsburgh Thanksgiving day, and throw the gates open, free, to the public. This is an example which the athletic managements for the football playing colleges cannot well follow, but one which will cause them much concern. Free football would indeed kill commercialism in the sport, but from where would the money for necessary expenses come? "Necessary expenses," however, is a term that has been used to cover a multitude of sins.

The beet sugar industry means a lot for the Michigan farmers. For the first three weeks' delivery of beets the Bay City plant paid out \$400,000; for the deliveries in the same time the Saginaw plant paid over to the farmers \$500,000. Last year the several Michigan plants paid the farmers over \$4,750,000, and this year the disbursements will be over \$5,000,000. In addition there are also other large disbursements in connection with the manufacture of the sugar that find their way into the channels of commerce.

The Escanaba Journal insists that Judge Stone did tell the Escanabans, at the banquet for Governor Warner, that Escanaba was no better and no worse than other upper peninsula cities. It must have been a jolly. A jolly is some pretty, complimentary, at least in the comparative sense, statement that both the jollier and the jollied usually know to be out of harmony with the facts. We hear much jollying from day to day, and judges have been known to indulge in it before. It has no bad consequences, if it is not taken seriously. Escanabans should not take Judge Stone's little jolly seriously. He knows, and they know, that they have the worst behaved and most unrighteous little old town on his circuit, and that it is a libel on the other U. P. towns as a class to say that Escanaba is no better or no worse than they are.

A jury in circuit court, sitting in Milwaukee, has handed down a verdict against the Free Press of \$15,000 damages for Charles F. Pfister, thus bringing to a close an action for \$250,000 damages started some two years ago. The case had its origin in charges made by the Free Press against Mr. Pfister in the course of the anti-graft fight in Milwaukee city and county. The trial lasted two weeks and a half and was bitterly fought on both sides. It was alleged by the attorneys for Mr. Pfister that the charges against him were conceived and made in malice. The jury was out for over five hours, but it is reported that the only question considered was the one of damages, the jury-men from the beginning having been of the opinion that a libel had been committed. The Free Press has announced

SUPERIOR TRUST COMPANY HANCOCK MICHIGAN Capital - - \$150,000 This company is under the supervision of the state banking department and is authorized by the law to act as executor, administrator, guardian, assignee, receiver or trustee. C. A. WRIGHT, Pres. JACOB BAER, Vice Pres. M. C. GETCHELL, Sec'y.

that it will appeal. There is a mire of factional politics behind the case, Mr. Pfister and the owners and editors of the Free Press having been on the opposite sides of the fight which has rent the Republican party in Wisconsin for some years past.

ENDORSES THE PLAN.

The Soo News heartily endorses the plan of establishing an upper peninsula hospital for the care of tubercular patients and the proposed campaign of education to stay the ravages of tuberculosis. "The project deserves and should have the heartiest support of all parts of the upper peninsula," it says. "Medical experts assert that no better climatic conditions for the treatment of tubercular troubles can be found than in this part of the state, where the air is dry, pure and bracing."

"Among the well-to-do and rich no institution for the treatment of consumption is needed, as all of the requisites for a cure may be found in the home," the News continues. "But among the less well-to-do and the poorer and more ignorant classes thousands die annually from the ravages of the disease, simply because they do not know how to combat it successfully, and conditions in their homes make it impossible. Consequently, the establishment of the proposed sanitarium for the care of consumptives would be distinctly on behalf of the common people. That it would bring renewed health, happiness and long life to many who would otherwise die miserably makes of it one of the greatest and most worthy philanthropies in which the state could engage."

"No county in the upper peninsula probably has a higher death rate from tuberculosis than Chippewa county, due to the large Indian population, where the ravages of the disease are seen at their worst. Scarce a family but consumption has claimed some of its members, and under present conditions it is only a question of time when the last of the Indians will fall a victim to this almost universal complaint. This country has been remiss in much of its dealings with the red man. It would relieve this record somewhat if we taught the Indian how to fight his worst enemy, the white plague."

WAGES TO BE CUT.

There will be a scale of wages in force in the lumber woods the coming winter very different from the scale effective for some seasons past. The lumberjack has been getting his full share of the fruits of boom times. His wages have been from \$35 to \$40 a month, and he has been getting the finest of board. In an effort to keep him contented he has been petted and coddled in other ways, with railroad transportation and many extraordinary privileges. In return he has, as has been the case with men receiving extraordinary wages in other industries, given to the operators the most unsatisfactory service possible. He has, as a rule, been lazy, careless, insolent and indifferent to all his employers' interests. He has abundantly proved that prosperity goes to his head and makes him a less valuable man than when a plethora of labor compels him to work hard at low wages, just to be sure of his job.

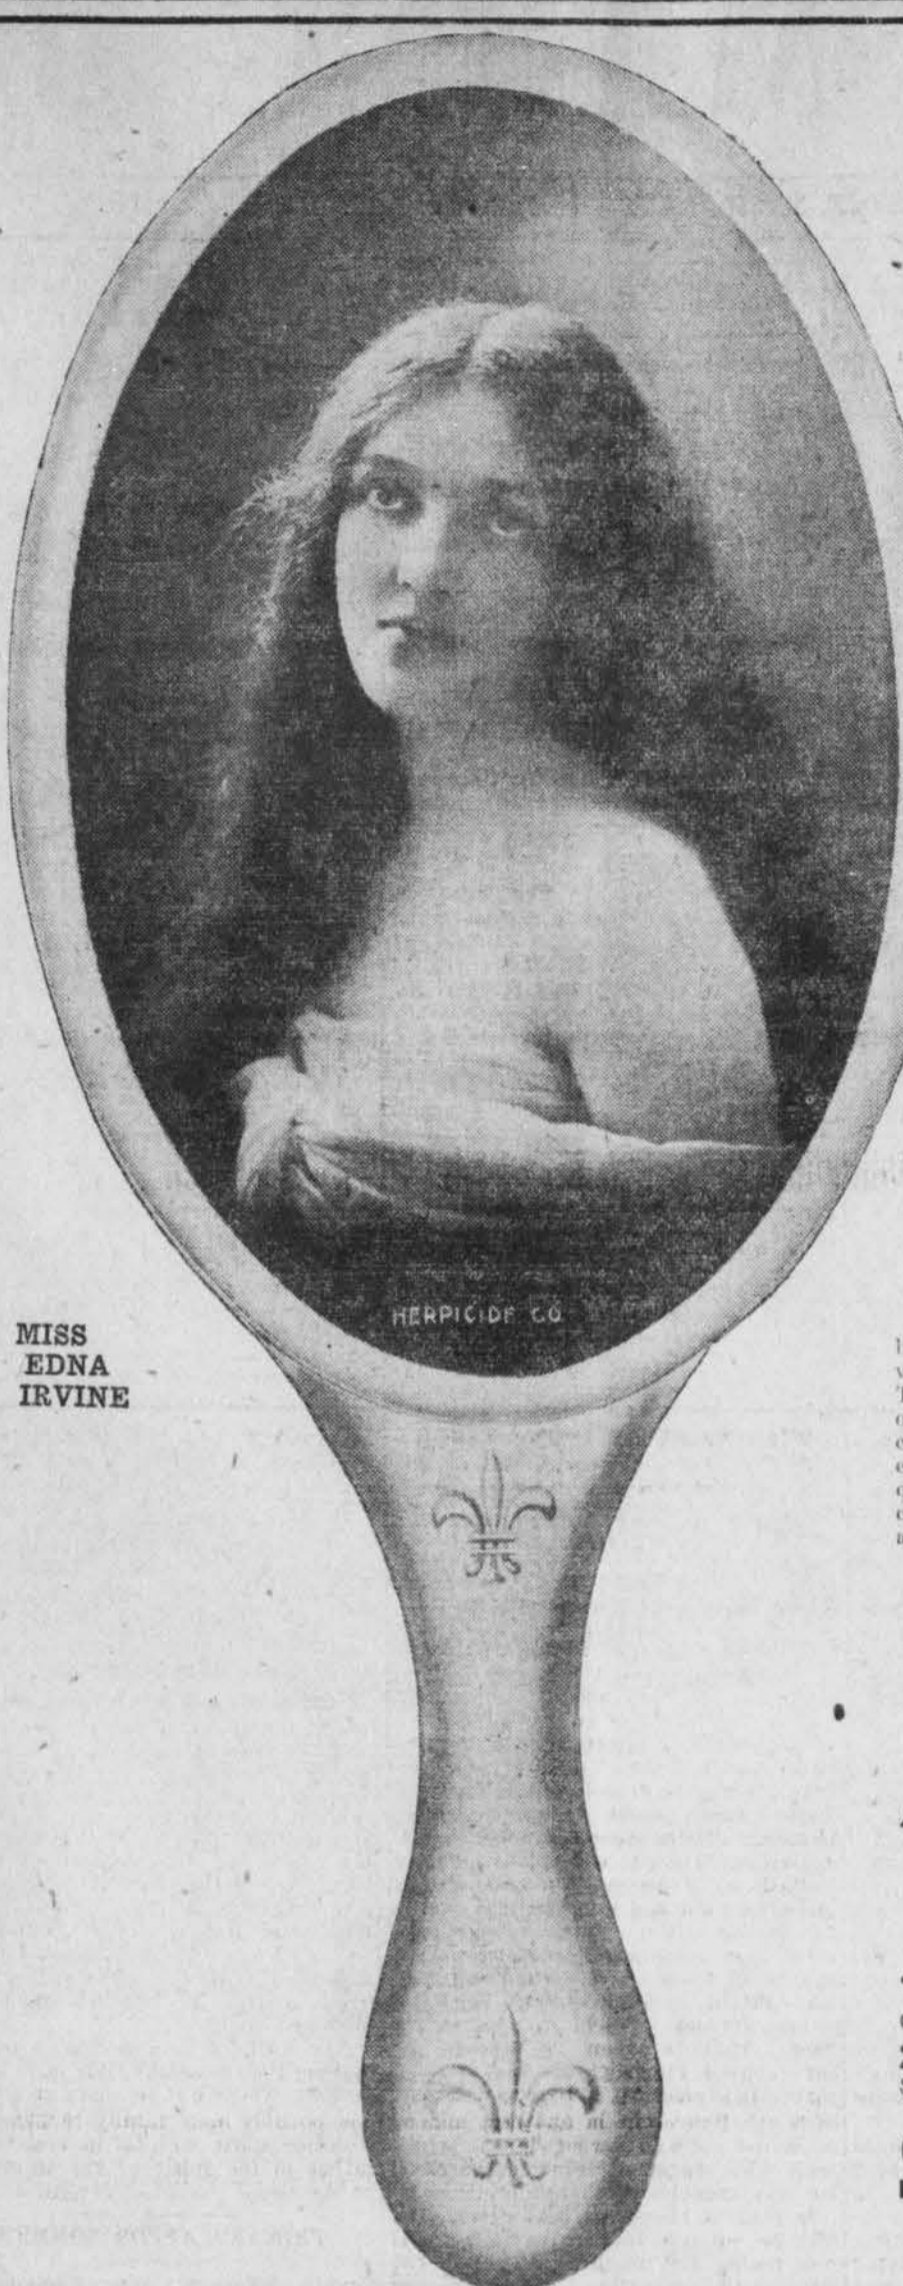

Now he is to get a taste of the latter conditions. The employing interests are generally scaling down wages. The maximum wages in the lumber woods will be, it appears, about \$30, and the range from \$25 to \$30, as compared with \$35 to \$40 in the recent past. In some camps the maximum wage will, it is reported, be below \$30. And there will be lots of labor even at the reduced scale. The labor market is easier than it has been in several years. Big lumber firms have felt the pinch of tight money. There has been a perceptible slackening up of the demand for timber and lumber. Until the situation clears somewhat firms that have of late years been grabbing at every cut offered them are proceeding cautiously about making commitments. They have abundant resources, but they do not care to stock up until they have ascertained what the demand will be and until they know that they can finance their operations by the usual borrowings.

There has already been considerable curtailment in lumbering operations in the upper peninsula. The Hebard company, at Pequaming, this week closed a number of camps, letting out some 300 men. Other operations also have been curtailed. The operators are not panic stricken, nor do they look for an extended period of depression, but they consider it a matter of business caution to draw in their lines until the general situation begins to show improvement.

In lumber, as well as in the mines and on the railroads, labor will have to bear part of the burden resulting from the disturbed conditions we are at present going through. This is only fair, and in the lumber woods, as in the mines, labor will act justly by accepting the changed conditions cheerfully and without dispute, as representing the best that the employing interests can, for the time, do for it.

IRON AND STEEL TRADE.

In its general resume of the situation in the iron and steel trade the Iron Trade Review says, in this week's issue, that "cancellation of contracts, suspension of operations on new plants, and further sharp curtailment of production by many iron and steel concerns have been the leading features of the week. The United States Steel corporation now has thirty-seven furnaces out of blast and two banked, having

MISS EDNA IRVINE

What Does Your Mirror Say?

Does it cheerfully report an abundance of beautiful, well kept hair, or does it regretfully tell the story of hair neglect? Your mirror may be anxious to please, but if you permit your friends to see dull, brittle and lusterless hair, with possibly dandruff and falling hair, your mirror will have to reflect the same condition. All of these unfortunate effects can be overcome by destroying their cause with

NEWBRO'S HERPICIDE

The Original Remedy that "Kills the Dandruff Germ"

Dandruff, with its consequent hair injury and hair loss, is now known to be a highly contagious germ disease. It is caused by an invisible growth of vegetable character that finds lodgement in the sebaceous glands of the scalp. This growth disturbs the functions of the sebaceous glands, causing excessive oiliness or extreme dryness of the hair. It also sets up an inflammatory process that extends down the follicle to the papilla, where the adhesions are loosened and the hair slips out. The value of Newbro's Herpicide in such cases is quite extraordinary. Its intelligent use will correct every condition short of chronic baldness and thus permit the hair to resume its natural luster and abundance.

MISS EDNA IRVINE

A noted Theatrical Star whose photograph is here reproduced WRITES AS FOLLOWS: "I can most heartily endorse Newbro's Herpicide. It is delightful for the hair and I could not do without it." Hotel Westminster Irving Place, New York. (Signed) EDNA IRVINE.

A Springfield, O. Lady Recommends Newbro's Herpicide Very Highly

"I take great pleasure in recommending Herpicide as a delightful preparation. It is exceedingly agreeable and imparts to the hair that delicate feeling of fluffy freshness so much to be desired." Springfield, O. (Signed) ALICE DOOLEY.

Guaranteed under the Food and Drugs Act June 30, 1906. Serial No. 915. 2 Sizes, 50c and \$1 at drug stores. Insist upon Herpicide. Send 10c in stamps for sample to The Herpicide Co., Dept. L, Detroit, Mich.

of a slight change for the better in financial affairs. The Review looks for a quick readjustment. On this score it says, editorially: "The situation is being managed with a firm hand. Producers are taking the initiative, rather than yielding grudgingly to the force of circumstances. Therefore they would have to reduce production greatly, in these circumstances, but they would not have to curtail so awfully. It is a homeopathic principle, but it is far from a homeopathic dose. Liquidation is required by conditions, and the liquidation is being actively assisted. It is easy to recognize that there is much business yet to be done by the United States, and that the prosecution of that business merely requires the establishment of a suitable working basis. The old one was worked out, and the sooner the trade can be off with

the old and on with the new the better it will be for all its branches. The development of the country has not been stopped; the work has been suspended temporarily and the best means are being taken to reach speedily a basis for resumption. Production must be adjusted first; if an adjustment in prices is required, it must come later. There are conditions antecedent to the establishment of price levels which will be recognized as furnishing a fair trading basis. One of these is a reduction in output to the minimum, and another is a readjustment of costs. No greater change in the factors making up costs can there be than that of labor cost. This is the quotient obtained by dividing wage rates by efficiency. Any decrease in the former, or increase in the latter, decreases the wage cost. There will be decrease in wage rates, and there will be increase in efficiency. The quotient will be affected more by the change in the lat-

er than by changes in the former. The efficiency of labor has gone down more than the wage rates have gone up. Sometimes the efficiency of labor increases so slowly, and at other times the increase is rapid, the change being entirely a proportion to the influences at work. This decrease in production is the most compelling force which it is possible to bring to bear; it is felt throughout the ranks of labor, and can increase efficiency over night. In every aspect this remarkable curtailment in iron and steel production appears as the best possible means for the iron and steel trade to resume its activities at the earliest moment. It is the most encouraging sign possible. Mothers with little children need no longer fear croup, colds or whooping cough. Rees Laxative Cough Syrup tastes good. It works off the cold through the bowels, clears the head. Guaranteed. Sold by The People's Drug Store.

HUNTER'S FATAL BLUNDER

YOUNG MAN, OF CALUMET, IS THE VICTIM.

Pastor of Finnish Church Shoots at What He Supposes to Be a Deer, and Another Human Life Is Sacrificed.

Mistaking the blade of an axe for the horns of a deer as the steel flashed in the sun, Rev. A. L. Heidemann, pastor of the Finnish church at Calumet, discharged his rifle with shocking results while hunting on the Trap Rock river in Keweenaw county yesterday morning. The bullet sped true, and another human life had been sacrificed because of a marksman's fatal blunder.

Struck by the leaden missile hurled from the gun, a young man named Lodenpaia had received a wound that was mortal almost instantly, for it was the corpse of the boy that met the horrified gaze of the minister when he had rushed through the trees to the spot where his supposed game had dropped lifeless to the ground. Lodenpaia, who was still in his teens, had been engaged in clearing land. His home was at the Svedetown location, at Calumet, to which place the body was removed last night.

This is the second hunting fatality of which a copper country man has been the victim during the present season. Joseph Perenchio, a Laurium saloon keeper, accidentally shot and killed himself while stalking deer near Amasa, Iron county, a fortnight ago.

MACK-LEONE COMPANY.

Fine Organization Comes to Copper Country Next Week.

The Mack-Leone stock company, a theatrical organization of unusual merit considering that it plays at popular prices, will appear at the Calumet theater at the next week. Willard Mack and Maud Leone head the troupe.

The company has played for the past two summers at the Lyceum theater in Duluth, presenting royalty plays of merit. The troupe is of exceptional strength and it may be said, without fear of misstatement, that it is the finest organization appearing in repertoire which has ever appeared in the copper country. Its success in Duluth during two seasons attests this.

CALUMET THE CHOICE.

Detroit Conference of the M. E. Church to Meet There Next Year.

Rev. E. Sedwick, pastor of the Calumet M. E. church, has been notified by the presiding elders of the Detroit M. E. conference that Calumet has been chosen as the place of holding the annual meeting of the conference next year. Calumet invited the conference to come here only a few weeks ago, and the early acceptance is gratifying. Hundreds of ministers and laymen will attend the meeting.

JUDGE STREETER EXPLAINS.

Did Not Intend Reflection on County Officers in Remarks.

Some of the copper country reporters got in bad with Sheriff Beck and his officers this week. A reference to it would not be made here, only that the sheriff is entitled to vindication. The matter arose from the case of Matt Eskola, a Classell saloon keeper who had pleaded guilty to once charge of keeping open on Sunday and had been convicted of another. Judge Streeter fined him \$100 in one case, and suspended sentence in the other.

In suspending sentence in the one case, the judge remarked that he wanted to investigate the affair; that there must be some very extraordinary reason for bringing the same man twice into court in the same case. He further stated that he did not intend that his court should be used to satisfy private malice, that the liquor law gave too frequent opportunity to enemies of saloon keepers to make complaints. He did not intend to refer to the officers or to Sheriff Beck, but the reporters in question misconstrued his statement and published a story in which the judge was made to appear as criticizing the county officers.

Judge Streeter publicly denied such intention in court yesterday morning. He had not thought of the sheriff, or his aides, but of private citizens who use the machinery of the law to satisfy malice against a saloon keeper. In the present term of court five liquor law cases had to be proffered for this reason; private persons had made charges, and then would not or could not substantiate them.

Civil Trials Taken Up.

The case of John Samuel Fors against John S. Fors, Jr. was the first civil case called for trial at this term. It opened yesterday morning. In this case a son is trying to eject his father from his home. The father and son occupy the same premises. The son claims residence to own the property, and the father makes a similar claim. The son started the ejectment proceedings; the father is seventy-three years of age but looks many years younger, is in good circumstances and while it is in good evidence that the son may be unkind an investigation shows the case is merely a business matter between two men.

HIGH SCHOOL DEDICATION.

Calumet Theater Packed With People to Hear President Angell.

The dedicatory exercises of the Calumet high school were held last night in the Calumet theater. President James E. Angell of the University of Michigan and Hon. Walter W. Wright of Ironwood, state superintendent of public instruction, were the principal speakers and the program was carried out in detail. The theater was packed to the doors, attesting the great public interest in the new high school and the interest attached to the appearance of the venerable head of Michigan's chief educational institution.

During the afternoon the high school was open to public inspection, and a great number of people took advantage of the opportunity to visit the building. It is a magnificent school structure, lacking nothing which could be required to place before the children the opportunity for a liberal education. The building was erected by the Calumet & Hecla Mining company for the school district, and is turned over to it under the usual liberal terms.

ADVICE AND A HOME RECIPE

How to Relieve Catarrh. Tells of Prescription Easily Prepared at Home, to Give Prompt Relief.

The coming months will be a harvest for the doctors and patent medicine manufacturers unless great care is taken to keep the feet dry, also dress warmly. This advice should be heeded by all who are subject to rheumatism, kidney and bladder troubles and especially catarrh. While the latter is considered by most sufferers an incurable disease, there are few men or women who will fail to experience great relief from the following simple home prescription, and if taken in time it will prevent an attack of catarrh during the entire season.

Here is the prescription which an old man says: Fluid Extract Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces. Shake well in a bottle and use in teaspoonful doses after each meal and again at bedtime.

This prescription makes a splendid remedy for all forms of blood disorders and such symptoms as lame back, bladder weaknesses and rheumatism pains are quickly dispelled.

As this valuable, though simple, recipe comes from a thoroughly reliable source, it should be heeded by every afflicted reader.

STATE OFFICIALS INVESTIGATE.

Attorney General Bird and a Deputy Visit Ontonagon County.

A dispatch to the Grand Rapids Herald says: Lawlessness in Ontonagon county is being investigated by the state. Attorney General Bird and Deputy Attorney General George Law are here to personally conduct the investigation.

Many complaints have been made to Governor Warner. Representative business men of the county are entirely organized. They declared that the officials are afraid to enforce the law and that the affairs of the county government are badly managed.

One of the causes of complaint is that about two months ago an Austrian at Mass City quarreled with a girl. He shot at the girl several times, but none of the bullets took effect.

The Austrian was not arrested on a charge of attempted murder. Instead he was sent to jail for ninety days on conviction on a charge of carrying concealed weapons.

This case was one of the first things Attorney General Bird inquired about when he reached Ontonagon.

Another shooting case that is under investigation by the state is that connected with the strike riots at the Michigan mine a year ago. Several Finns were wounded, but nothing was done in the way of prosecutions.

Since the strike riots the worst element in the county seems to have a general disregard for the law, although the allegation is made that disorder has been kept well in hand by the authorities.

At the present time Ontonagon is overrun with woodsmen. Men in the lumber camps and at the mills have been laid off on account of the decreased demand for lumber brought on by the financial conditions. Paid off in checks, which are subject to heavy discounts if converted into cash, the men are disheartened and there is more or less lawlessness.

When Attorney General Bird was here he looked over some of the county books. Deputy Law was left behind when Mr. Bird returned to Lansing for a consultation with Governor Warner about the conditions. Mr. Bird returned to Ontonagon to continue his investigation.

Gambling houses in Ontonagon are openly conducted. There are many dens of vice and slot machines are plentiful. Whiskey is easily secured and many nights are made hideous by the lumberjacks and others who frequent the resorts that flourish so openly.

TWO LIBRARY REPORTS.

Annual reports have been issued by the Calumet & Hecla and Painesdale Memorial libraries. At the former institution the circulation for the year was 129,184 books, a daily average of 410. There are now in the library 27,270 volumes, an increase for the year of 1,793. At the Painesdale library, the total circulation was 6,802, an increase of 1,063 for the year. There are now in the library 2,708 volumes, of which 484 were added during the past twelve months.

A HARD DEBT TO PAY.

"I owe a debt of gratitude that can never be paid off," writes G. S. Clark, of Westfield, Iowa, "for my rescue from death by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent, when I commenced taking New Discovery. The cinchous dry, hacking cough quit before the first bottle was used, and two more bottles made a complete cure." Nothing has ever equalled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by The Stafford Drug Co. 50c and \$1.00. Trial bottle free.

CURED OF BRIGHT'S DISEASE.

Mr. Robert O. Burke, Elvora, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night, and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50 cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." The Stafford Drug Company.

The Universal Staple.

Strengthening food for the weakest digestion.

Nourishing food for the strongest digestion.

Good for the babies—good for all ages—the most nutritious of all the wheat foods.

Uneeda Biscuit

5c In moisture and dust proof packages. NATIONAL BISCUIT COMPANY

WILD NIGHT AT SOUTH RANGE.

One of the Victims Appears Before Justice Brand.

Lorenz Peschl of Triniton appeared before Justice Brand of Houghton yesterday to make a complaint. His head was wrapped in bandages until he looked like a Mohammodan. He had a beautiful black eye and behind his right ear was a cut over an inch long. Various contusions completed an ensemble which did not add to the symmetry of his face. His story follows.

Peschl was in Joseph Piese's saloon at South Range about 1 o'clock Sunday morning. There were a number of other men in the place, and four Cornishmen walked in. Piese refused them drinks, and after an argument threw the quartet out of the saloon. Peschl thought that Piese was following the four, and he ran to pull him back. Piese supposed that Peschl was interfering, and he swung at him. Peschl dropped to the floor. That is when he received the cut back of his ear. He says further that at this juncture, a livery stable man of South Range cut in and beat him up so he did not know what he was struck with. He staggered from the barroom, but his troubles had just begun.

In front of the saloon was a livery rig, and he jumped into this, thinking it was being for his life. He knew the rig was the property of the stable man who had slugged him, and he had it cared for at Triniton, paying a dollar for its keep. In the morning he sent a messenger to the liveryman at South Range, telling him where the horse was, and that he would pay what he owed for using it. The liveryman charged him \$25. He paid this. Then the liveryman said there had been two packages in the rig, and he was sure they were for the man who had slugged him. He paid for the rig for \$10 in Justice Brand's court in South Range. So far Peschl has paid out \$36. Now he wants his two alleged assailants arrested. Judge Brand issued warrants.

NO CHRISTMAS PRESENTS.

Copper Country Society Decides on an Innovation.

The approaching Christmas of 1907 is going to be a remarkable one in the copper country because it will be marked by a somewhat general suspension of gift-giving. This statement is made on the part of the Copper Country Society.

Of Interest To Women.

To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares or in social duties and fancy, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nerve. By its timely use, much nervous sickness and suffering may be avoided. The operating table and the surgeon's knife, would it be believed, seldom have to be employed for the cure of this condition. It is recommended to women in good time. The Favorite Prescription has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

CLOSE OF NAVIGATION.

The end of the season of navigation in Portage lake is apparently in sight. The steamer Alva of the Chicago-Duluth line has arrived for the last time this year, and the W. J. Gratzwick left Chicago yesterday on her final trip. The dates of the final sailings of Anchor liners, all occurring within the last week of this month, have been announced. There will be boats of other lines running for some days yet with copper from Portage to Lake Erie ports, and their close is dependent only on the weather. The Chicago-Duluth line, newest of the lines running into Portage lake, is the first Chicago line to have a successful business in this field in several seasons. It will continue on this route next season and may add new boats.

HE FOUGHT AT GETTYSBURG.

David Parker, of Fayette, N. Y., who lost a foot at Gettysburg, writes: "Fletcher Bitters have done me more good than any medicine I ever took. For several years I had stomach trouble, and paid out much money for medicine to little purpose, until I began taking Fletcher Bitters. I would not take \$500 for what they have done for me. Grand tonic for the aged and for female weakness. Great alterative and body builder; best of all for lame back and weak kidneys. Guaranteed by The Stafford Drug Co. 50c.

DECADENCE OF BILLY JOHNSON.

Treasurer of Wealthy Calumet Township Reduced to Sad Days.

In a little country store in the Calumet & Hecla location in Calumet there is a pathetic figure. He is a little, old man with a long gray beard, meekly glad and of pathetic appearance. He sticks close to the cider barrel and pleads for a drink of cider to all who enter. Time was when he was Will Johnson, clerk of Calumet township and one of the most promising young men of the county. Perhaps it was speculation, perhaps other misfortunes that caused his downfall.

The above flight of fancy tells one of the incidents of the Elks' charity fair which closes in the Calumet armory tonight. Mr. Johnson plays the part of a simple-minded old habitue of the country store which Charlie Frink is conducting, and he is one of the distinct successes of the fair. Also it is a wonder where he puts all the cider which he drinks. He quills a bumper with every one who enters the store. A big delegation of Hancock Elks went up to the fair Thursday night and added to the gaiety of the affair. They saw Lydia, joined the Lemon club, arranged to own the Ford auto, guessed at the butter consumption of the copper country, gambled at the Anahle wheel, took in all the pretty booths and declared when they came home that the Calumet Elks can spot any church in the 15-ball and run out in the game of conducting a charity hold-up.

The fair ends tonight and will leave a record as being the most magnificent success of the sort ever attempted in this district. And all the profits will go to making poor people happy on Christmas and at the Thanksgiving time.

"COUSIN JACK" PASTY.

As an instance of the elasticity of this language of ours: It is recalled that President McNaught of the Michigan College of Mines, one who finds relaxation from mechanics and maps and such in discussions of the use and abuse of words, was walking on Quincy street in Hancock one day with a garrulous friend when the old pasty man went by calling his wares.

"The pasty is a delicious bivalve," remarked the garrulous one, and the president was just about to correct his English when he paused and with a smile remarked, "It is a bivalve, isn't it?"

The pasty is a bivalve if having a top and bottom shell and opening at the side can make it one. But anyhow: Holly Shepard, the man who makes mince pies, who is now putting on the Hancock Elks' show, had never seen or heard of a pasty. Mrs. Shepard was equally in ignorance of this delightful little comestible, equal only in the mind of the true gourmand by that other "Cousin Jack" dish, dotted cream. So Tom Kitts gave a pasty supper to these people from the outer darkness at the hotel last night.

County Treasurer Foley Explains Why He Accepted Half.

Treasurer Foley mailed on Thursday to all the township treasurers of Houghton county checks for primary school moneys, of which he received that day only 50 per cent from Auditor General Bradley. He is fully aware that many county treasurers in the state have refused to accept half the appropriation and have sent back the remittance. But he asserts that the county treasurers have no option. It is their duty to receive such moneys as are sent by the auditor general and properly distribute them. In the event that any of the township treasurers demand the entire sum, he will receive their objections and forward them to Auditor Bradley. Mr. Foley declared yesterday that half a loaf is better than no bread these days, if ever it was.

The explanation for the reduction in the appropriation is that the auditor general is sending to the townships sufficient money for the immediate needs of the schools, but he does not desire to take out of the banks which are state depositories a large sum of money as the entire primary school fund because all banks are short of cash and it would be a hardship to them. The state has the money, and if the school districts demand it they will receive it, but the auditor general and the township treasurers advise them to be satisfied with the present condition for a time because it is only temporary. As soon as there is a restoration of good financial conditions the money will be immediately available and it is conceded that this will be within a very short time.

TO CURE A COLD IN ONE DAY.

Take LAXATIVE BROMO Online Tablets. Druggists refund if it fails to cure. E. W. GROVE'S signature is on each box housewife notices in the top of a pie to let the steam escape. Not so the "Cousin Jenny." She lets the air out to make room for the steam, or her pasty would be destroyed. With the air out, the pasty is placed in a hot oven. The heat attacks the moisture in the potatoes, meat and onions, and the pasty swells just enough to accommodate. Then the steam takes out more and more heat. All the delightful smells of the ingredients are contained in that steam, and conjointly they permeate the entire dish. It is not believed there is any one thing terrestrial as hot as the inside of a pasty. So it must be pretty well cooked.

That's all. Take it out and eat it with your fingers, or be ladylike and use a fork. A lot of butter helps, and there is no doubt that a cold bottle of beer is about as good as a cup of tea or coffee on these occasions.

The pasty is simple in construction, its ingredients are humble, but they become glorified when merged and united within their fragile and toothsome shell. The pasty has contributed to the greatness of the copper country; it is the food of the greatest race of miners on earth. It is now included in every copper country menu; it should be on the coat of arms.

City Brevities

T. M. Groesbeck of Ripon is visiting in the city.
W. L. Mason of L'Anse was in the city recently.
T. J. Few of Menominee was in the city recently.
W. G. Westerman of Dowagiac was in the city yesterday.
J. Sness of Negaunee was in Marquette yesterday.
Harry Kaufman left last night for a trip to Chicago.
C. E. Webb of Houghton paid a recent visit to Marquette friends.
Charles F. Howe of Coldwater is visiting Marquette friends.
C. E. Annen of Green Bay was a recent Marquette visitor.
Grant Stephenson of Nels, Mich., was a recent visitor in the city.
N. H. Nugent of Escanaba was a visitor in Marquette yesterday.
William McCormick of Bay City visited Marquette friends recently.
Elmer Beittel, clerk in the steamboat inspector's office, is visiting friends in Milwaukee.
G. R. Watts, the piano tuner, has returned from a trip to the copper country.
Mr. and Mrs. James H. Bennett spent the day in the woods yesterday at the Freeman camp.
Harry G. Gluckstone, the singer, has gone to Milwaukee, and he is to be joined there by J. J. Ryan.
David Echings, representing the Robert Beutel company of Bay City, is in Marquette on business.
H. G. O'Keef, Al. Andrews and T. J. Maloney were among the Ishpeming visitors who were in the city yesterday.
H. C. Nelson, assistant superintendent of miners and sleepers of the South Shore road, was in the city yesterday.
Invitations Issued—Invitations have been issued announcing the marriage of Miss Sadie Ahern to R. E. Small. The wedding is to take place Wednesday, Nov. 27.
Unloading Coal—The Pioneer arrived yesterday with 1,800 tons of coal for F. B. Spear & Sons. The Choctaw is unloading a cargo of 3,200 tons of coal at the Spear docks.
Gave a Concert—St. Cecilia's Choral society of St. Peter's cathedral gave a concert to their friends at Baraga auditorium yesterday afternoon. A program of exceptional merit was rendered.
Football Tomorrow—The North Ends and the Cubs will try conclusions on the gridiron at the old fair grounds tomorrow, play starting at 3 o'clock. This will probably be the last football game of the season.
Arrival of Freighter—The steamer Seranton of the Anchor line arrived yesterday with 225 tons of freight composed of cement, radiators and box freight. The cargo is being unloaded at Spear's dock.
Examinations, Today—Examinations for positions in the customs service will be held at the federal building today by William A. Johnson, local secretary of the civil service commission. There are about seven applicants entered from all parts of the upper peninsula. The examination will last five hours.
To Conduct Institute—A teachers' institute for Mackinac county is to be held at St. Ignace the three days preceding Thanksgiving, Nov. 25, 26 and 27. Professor Kaye of the Northern Normal school will be in charge of the institute. Schools throughout the county will be closed and it has been announced that teachers who attend the institute will be entitled to receive their full salaries.
Industry Thriving—Both of the tugs, the Columbia and the Ethel J., are daily bringing in large catches of herring. Each tug brings in from six to ten tons daily and each now employs from ten to twelve men. Besides, there is a large force at work at both of the fish houses dressing and salting the fish. The nets are placed about two miles out from the breakwater in shallow water.
Many Lumberjacks in Town—It is stated that logging operations at Birch, Wausau and a number of other points has been discontinued. As a result of this the city recently has been full of lumbermen who are temporarily out of employment. It is not known when work in the woods will be resumed, but it will probably not be before December.
Marriage Licenses—Six marriage licenses were issued by the county clerk yesterday to the following: Fred Clish and Miss Melvine Sautemere of Harvey; Mart Prusi and Miss Hilda M. Bjork-palka, of Negaunee; Claus Hedlin and Miss Anna W. Swanson, of Ishpeming; Legorie Pigeon and Miss Louise Arnold of Ishpeming; Albert Sullivan and Miss Annie Vellard of Negaunee and Jalmar Maki and Miss Mary Maki of Beacon, Mich.
Special Services—Ensign Corliss announces special services at the Salvation Army hall for tonight and tomorrow. Staff Captain Watt, divisional officer from Duluth, will be here. The meetings for Sunday will be held as follows: Hollister meeting, 10:30 a. m.; junior meeting, 2 p. m.; open air rally, 2:45 p. m., followed by services at the hall at 3:15, a second open air meeting at 7 p. m. and at 7:30 a "battle for souls." Every one is invited to attend.
Start winter in a healthy condition, be free from disease. Hollister's Rocky Mountain Tea, the most reliable preventative. Nothing so sure to keep you well. 35 cents. Tea or Tablets. The Stafford Drug Co.
Order your fresh Guernsey milk and creamery butter of the Marquette City dairy. The largest and most modern dairy in the upper peninsula. Both 'phones.
F. H. VANDENBOOM, Prop.
(11-20-12)

WATER REPORT COMING.

Sample Sent to State Board of Health for Analysis Nov. 15 Last.
It is expected that a new report upon the city water will be received from the state board of health within a few days. The last report received several weeks ago was wholly unsatisfactory. While no typhoid or other dangerous germs were found, the report stated that the sample of water sent was not as pure and as free from foreign substances as it should be.
The sample from which a report is now being awaited was sent in by Superintendent Kern of the water department Nov. 15 last. Great care is used in taking a sample sent to Ann Arbor for analysis. A cupful of water at the pumping station is taken each twelve hours from the supply being pumped at the time. This insures that the test will cover the entire month's supply. The water taken in this manner is placed in a sterilized jug which is then shipped sealed.
EXCAVATING WORK FINISHED.
Work on New Episcopal Guild Hall Will Not Begin Until Next Spring.
The excavating work for the new Guild hall of the Episcopal church is finished, but the work of building the structure will not begin until next spring. It had been planned to go ahead and put in the foundations this year, but this was found to be not feasible and further work was postponed.
The new hall, which is to be built of red cement blocks to match Morgan Memorial chapel, is to stand just north of the Chapel facing High street. In the basement there will be bowling alleys and club rooms and in the rear will be a swimming pool and the dressing rooms. There will be an auditorium on the first floor and behind this a kitchen. The gymnasium will be on the top floor.

SUNDAY AT THE CHURCHES.

Methodist—Tomorrow evening Mr. Maywood will speak to professional men and women and those who have received technical training on the theme, "Religion and the Professional Man." The morning sermon will be upon the theme "The Greatest Name of Antiquity." The music both morning and evening will be in charge of Mr. J. A. Knight.
First Church of Christ, Scientist—Services at the Sunday school at St. Margaret's mission in South Marquette, which were discontinued during the summer, will be resumed tomorrow afternoon at 2:30. A cordial invitation is extended to all interested in the work.
At the Baptist church tomorrow, the pastor, Rev. C. H. Maxson, will preach at 10:30 a. m. and 7:30 p. m. The theme in the morning will be "The Gates of the Holy City."

DISCONTINUANCE OF CALUMET-MACKINAW SLEEPER.

The through sleeping car service between Calumet and Mackinaw City, on the South Shore, will be discontinued after Saturday Nov. 23, until further notice. (11-20-12)

Book and Chinaware Sale

Friday and Saturday of this week we will put on sale copy-right and gift books and a few nice pieces of decorated and plain China. The regular prices on these articles have been cut and marked in plain figures. This sale is for Cash Only.

Notice of REMOVAL

Our permanent down town store is now located in the Mack Building, 153 Washington St. All orders will be filed from there. Our

HOME-GROWN

flowers are cut every morning. We can fill any order entrusted to us and at reasonable prices. Mail Orders promptly filled.

BOY BREAKS THROUGH ICE AT LAKE BANCROFT

YOUNGEST RESIDING ON NORTH SHORE OF LAKE RESCUED BY CLEVELAND-CLIFFS MEN AFTER BEING IN THE WATER NEARLY FIFTEEN MINUTES.

Nine-year-old Erick Johnson, son of Adolph Johnson, whose home is on the north shore of Lake Bancroft, is indebted to Samuel Mather and other employees of the Cleveland-Cliffs Iron company for his life. The boy was crossing the ice on Lake Bancroft yesterday afternoon, on the way from his home to town, when he broke through at a point nearly 100 feet from the south shore, opposite M. F. Lynch's residence. The water was probably twenty-five feet deep where the boy went down and it took between twelve and fifteen minutes to rescue him. Meanwhile he clung to the edge of the ice, and had it not been for the fact that he kept his head he would not have been saved.

No one on the south shore of the lake saw the boy break through the ice, but the accident was observed by a woman on the opposite shore and by her cries a general alarm was given. Practically all of the men in both the clerical and engineering offices of the Cleveland-Cliffs Iron company ran to the shore and a number of them ventured out on the ice, but were forced to retreat. Boards and other timber were procured from the mine and the houses in the neighborhood and a boat was also brought out. Several men got into the latter but they could make no headway with it. The ice was not strong enough to hold up a man so that none of them could reach the boy that way. A few of the men jumped into the water and swam out, breaking the ice as they went along. Finally a board was placed within reach of the boy, and he was instructed to cling to it. On the other end was Mr. Mather, who swam to shallow water, aided by those on shore who threw him a rope.

Mr. Mather was badly chilled, as were some of the other men who had been in the water. The boy was taken to Mr. Lynch's home. He was in very bad condition, as he was thoroughly chilled. Dr. W. S. Piette was telephoned for and he arrived within a few minutes, working on the boy for two hours or so. The accident was the means of drawing several hundred people to the lake within a few minutes. An eye witness of the affair said:

"The boy's coolness is the only thing that saved him. If he had lost his head for a moment he would have sunk before the men could have reached him. I have never before seen such coolness displayed by a youngster. There was much excitement on shore, and although it seemed a long time before the boy was rescued the men from the Cleveland-Cliffs certainly did wonderful work and they deserve much credit."

Warning to Other Boys.

Owing to the soft weather the past few days Lake Bancroft is now in a very dangerous condition and the young people who have been skating there should be kept off the ice. Young Johnson is the second boy who has fallen in this season. A younger lad ventured too near the opening made by the exhauster from the Cliffs shaft mine engine house and fell in one day last week, but fortunately the water was not over his head.

CAMPS ARE CLOSING.

Peter Fitzpatrick, who spent a week or more in Minnesota and Northern Wisconsin, arrived home Thursday. He reports that a number of the saw mill plants have closed down in Minnesota and Wisconsin during the past week and that operations have also been suspended at some camps. He was advised by prominent lumber men with whom he talked that there has been a drop in the prices of lumber and that the demand has fallen off considerably. Mr. Fitzpatrick was also advised that there are a great many idle lumbermen in the district where the forges have been reduced.

FROM HOPKINS CURB LETTER.

"A better feeling prevailed in the Boston copper market today influenced by the strength in the London metal operations. There was also considerable short covering and not much stock on the market."

FOOTBALL CHAMPIONSHIP.

Escanaba, Having Won Largest Number of Games, Is Entitled to Pennant.

It is a question in the minds of many of the football enthusiasts of the upper peninsula who have followed the work of the several high school teams this season whether Escanaba or Sault Ste. Marie has the stronger team. The latter showed up to excellent advantage in its game with Ishpeming a few weeks ago, and Escanaba has played several games, winning all of them. Among its strongest opponents were Marinette, Menominee and Hancock. If it had lost to Hancock the supporters of that team would likely have claimed the championship over the Sault Ste. Marie team, because it had played and won a larger number of games. It would now seem that Escanaba is fairly entitled to the championship for the same reason. Some of the iron country teams will dispute Escanaba's right to the honor, and it is reported that the copper country teams feel the same way about it. It was no fault of the management of either the Escanaba or Hancock team that games were not arranged with Sault Ste. Marie, as propositions looking to that end were made, but not accepted.

It is reported from Escanaba that no further negotiations will be conducted by the management of that team to secure a game with Sault Ste. Marie. In an article referring to the matter the Escanaba Mirror said:

"No arrangements were made by the Lock City aggregation to play Hancock and when the management of the Soo schools was interviewed by the Escanaba management, concerning the intentions it was stated that the Soo did not intend to play Hancock, thus forfeiting the right to participate in the championship series. Under those conditions the Escanaba players went to Hancock and defeated the team of that city, thus winning the pennant pennant. No claim has yet been filed by the authorities of the Soo schools that the Lock City team was not fairly treated in the championship race, the only complaints received here being filed by those not in authority. It is believed that the officials of the Soo schools appreciate the situation and will agree that it would be unfair to except Escanaba, three weeks ago one of four teams in the pennant race, to meet and defeat each of three contesting teams. The different communications that have been received by the Escanaba management from persons not in authority at the Soo have now been referred to the officials of the Soo schools and it is expected that within a few days an end will be put to the Lock City's claims of unfair treatment. If supporters of the Soo team feel that they have a grievance at this time their grievance has been brought about through the action of the management of their own team."

SEWER QUESTION DISCUSSED.

People in Sixth Ward Considerably Agitated Over Important Matters.

The proposed extension of the sewer system to the Sixth ward is the main topic of discussion among the taxpayers of that part of the city. The views of the property owners have been presented and there are good arguments on both sides. Those who do not want the sewer had their inning Thursday, when a taxpayer, who stated that he was having a petition prepared for circulation among the property owners protesting against the improvement, had his views presented in The Mining Journal. Since then the reporter has had callers from the taxpayers who want the sewer extended to their homes. They contend that the argument against the improvement is ill-timed; that the ward has gone long enough without sewers; that the cost of the sewer, which has been in use for sixteen or eighteen years, are now a great menace not only to the people living in that part of the city, but also to those in the Third and Fifth wards, adjoining the Sixth. They say that the ward has never been in an unhealthy condition as it is at this time. It is claimed that many of the cess pools have never been cleaned and that the conditions there are much worse than some of the taxpayers care to admit.

The aldermen of the Sixth ward favor the improvement. Alderman A. G. Bergstrom is a member of the sewer committee and he has been working hard for those who want the system extended ever since his election. He called on The Mining Journal representative yesterday and said that he is in favor of the improvement and that he has found considerable sentiment for it. Mr. Bergstrom's home was recently connected with the sewer on Second street so that as far as he is personally concerned the proposed improvement in the ward will not affect him. He has made no avowal, as the matter has already been passed upon by the council. The meeting is called for the purpose of receiving the assessment roll for the North Second street sewer recently completed. At this meeting the petition, which it is expected will be presented by those protesting against the improvement, will probably be tabled.

LIKES MESABA RANGE.

Ishpeming Physician Met Many Old Acquaintances at Coleraine.

Dr. G. G. Barnett, who early in the week was called to Coleraine, Minn., on account of the serious illness of his son Lawrence, arrived home yesterday. The young man is suffering with pneumonia but when the doctor left him he was convalescent and he will probably be able to return home in ten days or two weeks. There is no sickness to speak of in that part of the Mesaba range. Dr. Barnett said that he had not heard of there being a single case of diphtheria or scarlet fever.

Dr. Barnett met many former Ishpeming people on the western range. He said that he felt at home up there, as

Upper Peninsula

New Style Local Option—

Supervisor A. L. Todd of Bois Blanc was in the city the first of the week. He is agitating a sort of local option deer hunting law, that is said to be constitutional, which may be passed by the board of supervisors. This would prevent people living outside of Mackinac county from hunting in the county. Some counties have already adopted it and he says he will introduce such a resolution at the next session of the board. It would certainly put the "kerosene can" brigade out of business in old Mackinac. —St. Ignace Enterprise.

Detroit After U. P. Trade—

Thoroughly in earnest in the effort to secure the trade of the upper peninsula for Detroit, the Wholesalers' association, of Detroit, has secured results. Members of the association report that the trade with upper Michigan is already showing an increase. This is due in part to the fact that Sidney Renshaw, transportation agent of the association, has been able to secure a decidedly improved freight service to the upper peninsula. In this he has had the co-operation of the railroads. The prospects of increased tonnage in this traffic has resulted in greatly improved service via the Michigan Central and Duluth, South Shore & Atlantic railways. Daily through freight cars leave Detroit at midnight and arrive at Mackinaw City at 5 p. m. same day. Next day they reach Newberry, Wetmore, Munising, Negaunee and Marquette. Third day they arrive at Houghton, Hancock and Calumet.

Deer Hunter's Close Shave—

Had not Deputy County Clerk William Pen Gilly of Menominee been a veteran deer hunter of the species that knows what he is shooting at before pulling the trigger of his rifle, a millionaire Ohio manufacturer, who spent the week hunting in the woods near Waukegan, would have doubtless fallen victim to a rifle. A grey cap, resembling for all the world the back of a deer, slightly visible above a clump of bushes, might have proved a sufficient inducement to draw the fire from the rifle of many hunters, but not of Pen Gilly's class. Mr. Pen Gilly and the millionaire were working through a pile of brush one morning, when they separated. About an hour later the millionaire, hearing the twigs crackling near him, raised his rifle and awaited developments. Suddenly a bolding grey clump of hair could be discerned through the bushes. With his finger resting on the trigger guard, Mr. Pen Gilly waited for the deer to come into the open. A moment later the millionaire hunter carelessly strode directly in front of the waiting rifle. His head was turned in the

opposite direction at the time and it was not until several days afterwards that he learned of his close shave.

Will Patrol Superior Shore—

Marine men and vessel owners generally are expressing great satisfaction over the act of Captain Ueberth, in command of the revenue cutter Tuscarora, in cruising along the shores of Lake Superior this fall to add vessels in distress. The Tuscarora has been cruising along those shores for the past four weeks and will continue to do so until the close of navigation for the purpose of giving aid whenever possible to boats that may have gotten into trouble. This is a new departure for the Tuscarora, but one with which all marine men are heartily in accord. The advantage of having a vessel such as the Tuscarora in the immediate vicinity where the greatest marine disasters take place is one that may be readily appreciated and, while no circumstances may arise that will enable Captain Ueberth to get into the limelight, his action deserves commendation. The entire south shore of Lake Superior, from the Soo to Duluth, has been chosen by Captain Ueberth as his cruising grounds, because this is the territory where boats get into trouble. The Tuscarora stops at intermediate ports on her trips just long enough for the crew to get mail and supplies and to enable those in command to learn of any disasters which may have happened, and to which the Tuscarora might render aid. It is Captain Ueberth's intention to stay on this cruising ground until the season of navigation has about closed when the Tuscarora will again return to Milwaukee and go into winter quarters. It is thought that this will be about Dec. 15.

Logging Outlook Dubious—

The logging output of the Menominee river lumber companies may be somewhat curtailed this winter. In fact, a few concerns have stopped operations entirely and have sold their logging outfits and horses. The Menominee concerns that always have been heavy buyers of forest products at the upper end of the Menominee river are not now purchasing great quantities of logs from jobbers and are doing but a small amount of logging themselves. Pick-up pine cannot be sold at any price. This kind of pine at present is a drag on the market and for some time at least the companies will not purchase any more of the timber. Sound windfalls, however, will be taken up but outside of that old pine is not moving.

The stove and heating business is moving quite briskly, but there is not the rush in that line experienced a year ago. A number of smaller mills in Menominee county have finished their season's cut and have suspended operations for the winter. These mills will stock up with logs for next season's run, which stock is being furnished by the mill owners

themselves or by farmers who live nearby. However, the price is unsteady. In fact, most of the mill owners have made no price as yet and are floating on the market to await further developments. The cedar situation is the gloomiest in years. The dealers having paid top notch prices for poles and posts last winter were unable to dispose of the bulk of their stock before the slump in prices came. This stock is now held in the yards and a large amount of money is being tied up therein. This makes it impossible for the larger cedar dealers to go into extensive cedar cutting or buying for the coming season.

It may be that this condition will resolve itself into a more favorable outlook for next season. It is safe to say that this winter's output of cedar in the peninsula will be much less than that of last winter, while the prices are indefinite and will not be firmly established until some time next spring. The railroad companies are offering less for railway ties than a year ago and are not so apt to contract for large amounts as they were. However, the price of ties will not suffer as much as the other forest products will, as the amount of ties to be relaid every year on the various railroad systems is about the same. The C. & N. W. railway will hasten the enlargement of the tie preserving plant at Escanaba, where it will expend \$50,000 to build new reservoirs.

A BROAD STATEMENT.

This announcement is made without any qualifications. Hem-Roid is the one preparation in the world that guarantees it.

Dr. Leonard's Hem-Roid will cure any case of Piles. It is in the form of a tablet.

It is the only Pile remedy used intelligently. It is impossible to cure an established case of Piles with ointments, suppositories, injections, or outward appliances. A guarantee is issued with every package of Dr. Leonard's Hem-Roid, which contains a month's treatment. Go and talk to The People's Pharmacy, Marquette, Mich., about it. Price \$1. Dr. Leonard Co., Niagara Falls, N. Y.

THIS IS WORTH REMEMBERING.

As no one is immune, every person should remember that Foley's Kidney Cure will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. The Stafford Drug Company.

SEVERAL EXPERTS AT THE POWER STATION

IMPROVEMENT WORK BEING PUSHED WITH ALL POSSIBLE SPEED BY MARQUETTE COUNTY GAS & ELECTRIC COMPANY— EXTENSION TO THE BOILER HOUSE ABOUT COMPLETED.

The Marquette County Gas & Electric company is sparing no expense to speedily put its lighting, street railway and gas plants in first-class condition, and judgment from the extensive work now being done at the power station all of the new equipment will be in operation within the next sixty days. No less than fifteen experts are here directing work in different departments. The latest to arrive are two experienced street railway men who will set up the new snow plow, and put additional motors in some of the cars. The plow will be equipped with two forty-horsepower motors. A carload of new frogs have been purchased and are to be put in as soon as they arrive. They will greatly improve the crossings over the railway tracks in both cities and besides will be the means of saving the cars considerably. The experts looked over the system Thursday, with a view of getting an idea as to what extra equipment is necessary for the successful operation of the cars and plow.

An expert in the employ of the General Electric company is here to superintend installing the new turbine, the foundation for which has just been completed. An addition to the boiler house will be finished within a few days. The new Wilcox & Babcock boiler is in position, but it will not be possible to use it until the new concrete stack is completed. The workmen are making fairly good headway with the stack, but the work will move slowly from this time on, as the weather prevents the concrete from setting rapidly. Two sections a day, each three feet high, are built, but it has at times been necessary for the men to remain idle two days, to permit the sections to harden. If there is no zero weather between now and the 20th of next month the stack should be completed.

The expert installing the new gas retorts is making excellent progress, and they will all be in position within ten days or two weeks. The management is anxious for the completion of the retorts, as the plant is now being run to its capacity, the daily consumption of gas being from 80,000 to 90,000 cubic feet. With the additional retorts the capacity will be increased to 175,000 feet. It is anticipated that there will be times during the winter, particularly the latter part of December, when the consumption will run to the 100,000 mark.

The management has had no trouble the past week or two securing labor. For a time last summer it was impossible to secure as much labor as was needed.

NEW BOOKS AT LIBRARY.

The librarian reports a steady increase in the number of books drawn for home reading since the library reopened, and it promises to be largely patronized during the winter. Some new furniture has been added, and the rooms are now much more attractive and convenient than ever before. New books are also being added, the following list of non-fiction being among the latest received:

- Fiala—Fighting the Polar Ice.
- Peary—Nearest the Pole.
- Schillings—Flashlights in the Jungle.
- Stone—American Animals.
- Jordan—American Game and Food Fishes.
- Hawes—My Musical Memories.
- Benson—From a College Window.
- Ayer—Heart Melodies.
- Berry—Fruit Recipes: Correct Social Usage (2 vols.), being a course of instruction in good form, style and deportment by eighteen distinguished authors.
- Knos—Ready: Thoughts That Inspire (2 vols.)
- Rezek—History of the Diocese of Sault Ste. Marie and Marquette.

Excessive Drinking.

Orrine Destroys the Craving for Drink—Sold Under Positive Guarantee.

Excessive or continued use of alcoholic beverages always results in a diseased condition of the nervous system.

The drinking man is often heard to say, "I can stop my own free will and when I wish," but the poor fellow is now devoid of the power to act at the proper time and in the right way—it's too late. The craving has secured a firm hold and because of the diseased nervous system will have not the ability for sustained effort. The result we all know.

Drunkenness is no longer considered a crime; eminent scientists and physicians have agreed that it is a disease and must be treated as such.

The home treatment that has been used a number of years, and is highly successful, is Orrine. It is sold under a positive guarantee that if it does not effect a cure your money will be refunded.

Orrine is in two forms. When desiring a home remedy, purchase Orrine No. 1, and if the patient will voluntarily take the treatment, Orrine No. 2 should be given. The guarantee is the same in either case. Orrine costs but \$1.00 per box. Mailed in plain sealed wrapper on receipt of price. Write for free treatise on "Drunkenness" mailed in sealed envelope by The Orrine Co., Washington, D. C. Sold by leading druggists everywhere and in this city by The Stafford Drug Co.

A SIGNIFICANT PRAYER.

"May the Lord help you make Buckley's Arnica Salve known to all," writes J. G. Jenkins, of Chapel Hill, N. C. "It quickly took the pain out of a felon for me and cured it in a wonderfully short time." Best on earth for sores, burns and wounds. 25c. at The Stafford Drug Co.'s store.

DEATH OF REV. JOHN CRANE.

Negaunee Pastor Will Officiate at Funeral of Veteran Clergyman.

Rev. W. R. Yonkers, pastor of the Presbyterian church, left yesterday afternoon for Sault Ste. Marie, where he will this afternoon officiate at the funeral of the late Rev. John Crane, who died in that city Thursday. Rev. Yonkers had known the deceased for many years and he was one of his most intimate acquaintances among the ministers of the state. He received the invitation to officiate at the services yesterday morning, and he at once wired his acceptance. Rev. Yonkers will return home on the late train tonight and will conduct the services at his church as usual Sunday.

The deceased has been ailing for over three years past, and it is eight years since he retired from active service. Since that time he has been temporarily in charge of several congregations, and for some time had aided in conducting the affairs of the Congregational church at the Soo. He was about seventy years of age and was born in the East. For a number of years prior to about thirty years ago, when he located in the lower peninsula, he was pastor of churches in Ohio. One of his last regular charges was at a town near Traverse City.

DEATH OF JAMES SCANLON.

Wellknown Young Man of Negaunee Died Thursday Evening.

James Scanlon, who had been lingering between life and death for nearly two weeks, died Thursday evening at the family home. Tuberculosis of the lungs was the cause of his demise. The deceased had been confined to his home for about three months. For a number of years he was employed as a switchman in the Negaunee yards of the South Shore company, but for some time before he was taken ill he followed diamond drill work.

The deceased was a son of John Scanlon, one of the pioneer residents of the city. He was born and raised here and was generally known. Besides his parents, four brothers and an adopted sister survive him. The brothers are Timothy, Michael and Dennis Scanlon of this city, and David of Marquette. The funeral will be held tomorrow afternoon at 2 o'clock, from St. Paul's church.

BENEFIT SOCIAL.

The Finnish people of the city will conduct a social tonight at the Finnish Socialists' hall on Teal Lake avenue. The net proceeds are to be given to John Saari, who is aiding the hospital nurses to take care of John Makki and John Kovisto, two of the men injured in the Rolling Mill mine disaster. The social has been extensively advertised among the Finnish people and it is expected that there will be an unusually large attendance, and that a goodly sum will be raised. Refreshments of various kinds are to be sold and a program will be rendered.

BAXTER IN NEW POSITION.

The Norway Current of last week had the following relative to C. H. Baxter, a former resident of Negaunee, who last Monday accepted a new position: "It is stated that C. H. Baxter, formerly county road engineer for Dickinson county, will assume the superintendency Monday next of the Loritto mine, in Waukegan township, to succeed H. V. Hayes, who left last night for California, where he will go into other business. Superintendent Baxter has a host of well wishers in this county, and that he

Cured of Colds and Croup by Chamberlain's Cough Remedy.

Geo. C. Bowden, of Little Rock, Ark., has used Chamberlain's Cough Remedy in his family for many years, and is seldom without it in the house. He says: "Chamberlain's Cough Remedy has proved a great relief to our boys in their throat and lung troubles. A few doses of it will ward off a threatened attack of croup, and a bad cold is quickly cured by its use. I take pleasure in recommending it." The prompt cures of colds and croup effected by this preparation, the fact that it can always be depended upon, is pleasant to take and contains no opium, chloroform or other objectionable drug, has made it a favorite with the parents of young children. When you have a cough or cold, try it and see for yourself what an excellent medicine it is. Price, 25 cents. Large size, 50 cents.

COOK WITH GAS

will "make good" goes without saying.

LOCAL LACONICS.

Miss Irene Sheehan has returned from a visit with her parents at Duluth.

Dr. H. S. Smith, who has been ill and confined to his home the past week, was up and around yesterday.

George Young, a jobber of Sands, was in the city yesterday morning hiring some men for his camp. He had no trouble procuring the few he needed.

Mrs. D. C. McKinnon and daughters, Sarah and Isabel, are in the city visiting Mrs. Steele, who has been ill for some time past. Mr. McKinnon is a resident of Iron River.

William Parala, Henry Kotila, Gus Makela and Sam Koko arrived home Thursday from a camp south of Palmer, where they had been hunting since last Saturday. They had five deer, Kotila having two and the others one each.

Major J. H. Winter left last night for Cuba City and other points in Wisconsin on business, connected with the Baxter Mine pool. R. P. Bromson, one with Mr. Winter, was a promoter of the Baxter, is also in Wisconsin.

Mrs. John Rock has returned from Hubell, where she spent a few months visiting relatives. She was accompanied to the city by Mrs. John B. Van of Glendville, Mont., who will spend a short time here, later going to Rapid River before returning to her home.

Robert S. Ewing, who left here a few weeks ago for Oregon, has returned. While in the west he purchased a farm and he is now preparing to move his family from Negaunee. He has leased his farm property here. Mr. Ewing was one of the city's oldest and most successful farmers, and he has an attractive place on the road leading to Palmer.

S. O. Clinton, superintendent of the Baraga schools, and wife, formerly of Negaunee, are the parents of a daughter.

Elmer Mitchell won the Teddy Bear cushion offered by Orr & Tompkins for the one having the highest score in three successive games bowled at the alleys, 334 being his total for the three games.

The management offers a fifteen-pound turkey for the person having the largest score in three games, not necessarily successive, between now and Thanksgiving. W. Stromer stands a good chance of winning, as he already has two games with scores above 200, the score in his first game being 234, and in his second 210.

THE NEXT PRESIDENT.

There are many prominent men being suggested as likely candidates for the presidential chair next term and each has his earnest supporters. There are thousands of others, however, who desire the present occupant re-elected, as they are not willing to give up "a certainty for an uncertainty." This same argument applies particularly to Haslet's Stomach Bitters. Why then are thousands of men and women all over the country who know from past experience what this famous medicine can do for them when they suffer from ailments of the stomach, liver and bowels, and consequently stick to it. Don't you think it worth a trial the next time you suffer from poor appetite, belching, heartburn, dyspepsia, indigestion, costiveness, biliousness or female ills. You'll be surprised at the good it will do you. Get a bottle today.

The cheap imitations of Foley's Honey and Tar cost you the same as the genuine in the yellow packages. Why then risk your health, perhaps your life, taking them when Foley's Honey and Tar will cure your cold and prevent serious results? It is guaranteed. The Stafford Drug Co.

THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to worldwide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

CALIFORNIA FIG SYRUP CO.

SAN FRANCISCO, CAL., U.S.A.

LOUISVILLE, KY. LONDON, ENGLAND. NEW YORK, N.Y.

MARQUETTE SUPPLIES PAVING FOR DETROIT

LIPSETT & SINCLAIR SEND THEIR OUTPUT OF TRAP ROCK TO THE STATE METROPOLIS.

SHIP 3,500 TONS THIS YEAR

Supply Nearly Exhausted at Present Quarry and New Location Will Be Found for Operations in 1908.

That a Marquette firm is supplying the paving material for the streets of the city of Detroit is a fact but slightly known. The firm is Lipsett & Sinclair and the material is the trap rock taken from their quarry at Front and Crescent streets. Practically the entire output of the quarry goes to Detroit.

Shipments Began in 1906. It was in 1906 that the contract with Detroit was made and the shipment of the rock began. A committee of officials from Detroit about that time completed a trip of inspection upon which they examined the products of several quarries and the result of this inspection was that the contract was awarded to the Marquette firm. The first shipments were made in September of 1906 and before the season was over a little more than 1,500 tons of the rock were sent out. This amount has already been more than doubled so far this season, and the quarry may run for several more weeks before cold weather closes it down.

The dark colored trap rock is quarried here and is crushed in the Lipsett & Sinclair crusher at Prospect and High streets. From the crusher it is taken in wagons to freight cars and sent through to Detroit by rail. Mr. Sinclair said yesterday that it had been impossible to keep up with the orders and he anticipates that the production next year will be double that of the present year.

Amount Shipped. Every week during the past summer more than a hundred tons of trap rock have been sent to Detroit and the amount that has been sent out now totals over 3,500 tons. As there is about a ton and a quarter to the cubic yard, about 2,500 cubic yards of the material have been shipped.

About twenty men are employed at the Lipsett & Sinclair quarry. The rock turned out has the characteristic characteristic of setting into a compact mass, which makes fine hard roads. After the rock is quarried out by blasting it is broken into smaller fragments so that the finishing work can be done by the crusher.

The quarry has now been in operation for a number of years and the supply of trap rock has been nearly exhausted. It is for this reason that a new location is to be found next year. Since it began operations a number of years ago the property has been owned by a number of concerns. It was when the last work was done on the government breakwater that operations under the present management began. The rock for that work was supplied by the quarry.

More Next Spring. Besides supplying trap rock for the streets of Detroit, the quarry has also furnished material for a large amount of local work. Where the crusher is to be located next year has not yet been announced. Mr. Sinclair said yesterday that he had been making a study of locations in and about the city and had several under consideration. He said that there were a number of deposits of the rock about the city. Recently the Queen City Commercial club undertook to find locations for the quarrying of trap rock, and a report upon an investigation which he has made in this connection is now being prepared by Charles Cummings. Mr. Cummings is also preparing a map showing trap rock locations.

The Lipsett & Sinclair quarry is now the only upper peninsula quarry selling to outside cities or private parties. There is one at the Soo, but it is not now being operated, and besides it lacks the advantage of the Marquette quarry in that it is obliged to make its own power, while the one here uses the electric power furnished by the city. Concerns generally which use electric power have found that the current furnished by the city plant is cheaper than any they could make for themselves.

MEETING TUESDAY. Newly Organized High School Association to Elect Officers.

The election of officers of the newly organized Marquette High School Athletic association is to be held in the high school auditorium next Tuesday night. The association now has a membership of about forty students. At a recent meeting Vincent Burrows was chosen president and the election next Tuesday night will be held to name the other officers. At the meeting at which Burrows was elected a committee of five was named to draft a constitution and by-laws and these are to be submitted at the Tuesday night meeting. The committee of five is composed of Claude Pendill, Andrew Sweet, Chester Richardson, John Maney and Austin Catlin.

The association was organized for the purpose of forming teams and arranging athletic events. It is planned to organize indoor baseball and basketball teams for the winter and in the spring a track team will be formed.

NO LAUGHING ALLOWED THERE.

Neither men nor women are allowed to laugh when their nerves are shattered. That is, these nerves don't allow them to. But one box of Sessine Pills will make you feel better. \$1 a box; six boxes \$5, with full guarantee for any form of weakness in men or women. Address or call People's Drug Store, Marquette. This is the store that sells all the principal remedies and does not substitute.

LEHIGH COAL. The best coal on earth. Now is the time. Consolidated Fuel & Lumber Co. (4-27-11)

CONDITION UNCHANGED.

It is Now Feared That Edward Kiel, Who Was Hurt Monday, Cannot Recover.

The condition of Edward Kiel, the Marquette & Southeastern brakeman who fell from a train and was hurt at Carlshead last Monday, had undergone no change last night and it is now feared that he cannot recover. He has been unconscious almost the entire time since the accident occurred. Kiel is a Marquette man, and is married and has two children. He lives in the northern part of the city, near the Normal school. Just before he was hurt last Monday he was riding on the step of a tender, which was being backed along the tracks near a platform. As he jumped from the step, it is said that one of his feet struck a knot in the hemlock plank of the platform and he slipped down between the moving train and the platform. He was caught between the step and the platform and was crushed.

After he was picked up attempts to revive him were unavailing. He was taken to Princeton, and from there to Neegaunee on a Northwestern train, and then was brought to Marquette on the evening train. Marshal James Maloney of Princeton accompanied him. He is well known in Marquette and particularly among the railway men.

EXCITING RUNAWAY.

Team and Wagon Dash Down Hill and by Mere Chance Escape Injury.

A runaway team attached to one of the heavy coal wagons of the Pickands' Coal company caused some excitement on Washington street yesterday morning, and those who saw the frightened animals dash down the steep grade between Front and Lake streets expected that it would end seriously. Through the sudden overturning of the wagon the team was stopped, and not only did they escape injury, but no other damage was done.

The runaway started from in front of the Bell telephone building on Washington street. Before the horses could be stopped they reached Front street and had started down the grade. Going at a terrific pace, with the heavy wagon lumbering along behind, they reached the corner of Washington and Lake streets. The horses turned short to the north and the wagon at once capsized. The overturned wagon proved to be an effectual anchor and the panting horses were brought to a standstill. The driver who had followed found them unhurt.

BUTLER-WRIGHT NUPTIALS.

Were Celebrated at Hancock Thursday Afternoon.

The Hancock Journal has the following account of the Butler-Wright nuptials, which were briefly referred to in yesterday's issue of The Mining Journal:

The wedding of Miss Flossie Butler of this city to W. S. Wright of Marquette was solemnized at the home of the bride's parents, Mr. and Mrs. J. H. Butler in West Hancock, Thursday afternoon at 1 o'clock, the ceremony being performed in the presence of the immediate relatives of the bride, with Rev. J. Sidney Gould officiating. The parlor was tastefully decorated with carnations and cypripediums and the production was simple, the couple being unattended and the bride being attired becomingly in a brown traveling suit.

The wedding dinner was served immediately after the ceremony and Mr. and Mrs. Wright left on the afternoon train for Chicago. They expect to witness the Chicago-Gardie football game at the former city Saturday, after which they will enjoy a ten days' wedding tour during which they will visit a number of cities in the central states.

The bride has a host of friends in this city and is very popular, while the groom has a wide acquaintance in the copper country as well as in the iron country. The popularity of the couple was attested by the large number of beautiful and appropriate wedding gifts of which they were the recipients. The gift of the groom to the bride was a beautiful pearl brooch.

Mr. and Mrs. Wright leave with the best wishes of their many copper country friends and upon returning will be at home at 413 North Front street, Marquette.

Clark-McCarthy Wedding.

Marquette friends of the parties will be interested in the following account of the Clark-McCarthy wedding, from the Soo News:

Before a company of intimate friends and relatives, Miss Julia Clark, daughter of Mr. and Mrs. R. J. Clark of Spruce street, and John E. McCarthy of Duluth were married at St. Mary's church Wednesday morning at 8 o'clock, the Rev. Fr. Molone officiating. The bride was attended by her sister, Miss May Clark, and William J. McCarthy of Marquette, brother of the groom, was groomsmen. The ushers were Fred L. Feeling, Harry Everett and John Clark. The bride wore a veil and was gowned in a beautiful creation of muslin and valence lace over white taffeta, with hand embroidered motifs scattered here and there, and carried bride's roses. The gown of the bridesmaid was white organza over pink taffeta. She carried pink roses. Mrs. Clark wore a beautiful gown of voile over taffeta, trimmed with princess lace. The bride was given away by her father. The "Half-Past Ten" choir, Mrs. James J. Ryan leader, sang and the wedding march was played by Mrs. J. White. Immediately after the ceremony the bridal party was driven to the Clark home on Spruce street, where a delightful wedding breakfast was served. Mr. and Mrs. McCarthy left on the 5:30 train for Marquette, where they will visit relatives for a few days before going to their home at Duluth. They will be at home after December 24. Among the guests from out of town were Mr. and Mrs. J. McCarthy, the Misses Johanna, Kathryn and Anna McCarthy, William J. McCarthy and little Miss Vivian McCarthy of Marquette and Mrs. J. B. Phelan and Miss Clark of Pennsylvania, sister and niece of the bride's mother.

NEIMARK-SCHAUER WEDDING.

Miss Annette Neimark of Calumet and Al Schauer, formerly of this city, are to be married tomorrow afternoon at the home of the bride's parents at Calumet. Miss Neimark has many friends in Marquette, having attended the Northern Normal school about two years ago. Mr. Schauer is in business in New York and it is the intention of the couple to make their home in the East.

The demand for Vandenboom's fresh milk and creamery butter is increasing daily. (11-20-1w)

LAPALME FUNERAL.

Burial Will Be Tomorrow Afternoon and Services Will Be Held Monday.

The funeral of Arthur Lapalme, the Ishpeming man who died at St. Luke's hospital from nosebleed Thursday, will be held tomorrow afternoon at 2 o'clock from St. Joseph's Catholic church in Ishpeming. The regular funeral services, which cannot take place on a Sunday, will be held Monday morning at 8 o'clock at the church.

The remains are now at the home of Adolph Perry of 416 South Third street and are to be taken to Ishpeming tomorrow morning. Mr. Perry was an intimate friend of Lapalme. It was at first thought that relatives of the deceased from Montreal were coming to the city, but it is now understood that they will not be here. Mr. Lapalme was a member of the fraternal order of Eagles.

REMAINS BROUGHT HERE.

Last Wishes of Mrs. Isabella O'Brien Are to Be Complied With.

In accordance with her wishes the remains of Mrs. Isabella O'Brien, who died recently at Mass City, are to be brought to Marquette this morning and will be laid beside those of her husband who died in this city some years ago. Mr. and Mrs. O'Brien were residents of Marquette about five years ago. A service is to be held at the Methodist church at 10 o'clock this morning and the interment will be in Park cemetery. The Ladies of the Macabees will have charge of the funeral.

WINTER SCHEDULE.

Only Two Trains Affected by Change Which Goes Into Effect Tomorrow.

The winter schedule on the South Shore will go into effect tomorrow. The new schedule makes but slight change in the arrival and departure of trains here. No. 8, the eastbound train which formerly left Marquette at 5 o'clock in the morning, will leave at 4:45 o'clock according to the new schedule and No. 7, the westbound train which formerly left the city at 11:15 o'clock at night, will leave at 11:30 o'clock. None of the other trains are affected by the schedule.

DEATH OF YOUNG WOMAN.

Miss Florence Lumere, daughter of Mr. and Mrs. Peter Lumere of 12 Cleveland street, died yesterday morning at the age of nineteen years after a brief illness. Besides her parents, she is survived by three sisters and one brother. The funeral will be held Monday morning at 9 o'clock from the French Catholic church. The interment will be in Holy Cross cemetery.

Floods the body with warm, glowing vitality, makes the nerves strong, quickens circulation, restores natural vigor, makes you feel like one born again. Holister's Rocky Mountain Tea, 35 cents. The Stafford Drug Co.

STORM SASH.

We make all sizes on short notice. Don't wait. Consolidated Fuel & Lumber Co. (4-27-11)

Fortunate Purchase Men's & Women's Mufflers

On account of the temporary stringency of money in the east, our New York buyer has secured a fortunate purchase of men's and women's mufflers.

A New York manufacturer (whose name we are not at liberty to mention) was in need of ready cash, our buyer made him a ridiculous offer but conditions were such he was obliged to accept same to make a quick disposal.

We place the entire purchase of mufflers on sale today at a discount of 25 percent below the regular value.

This is a opportunity offer for early Xmas buyers. Prices Range 38c to \$3.75
