Federal Patronage in the State of South Dakota Is Disposed of at the White House in Novel Manner.

Senators Unable to Agree Upon Appointments to Government Positions, the President Suggests That Lots Be Drawn—Proposition Is Accepted, and With Nation's Chief Flipping a Half-Dollar the Fate of the Various Applicants Is Determined.

Washington, Nov. 25.—The White House was the scene of a lottery drawing today in which the federal patronage in the state of South Dakota was disposed of. The president of the United States turned the wheel of fortune, and Senators Kittredge and Gamble drew out the prize packages.

There were a large number of vacant offices in the state, due to the fact that the two senators have been unable to agree upon the applicants. The senators met in the president's office today by appointment to agree, if possible, upon a distribution, but they found themselves far apart. The president saw the difficulty, and proposed that they draw lots. The senators agreed.

The position of bank examiner being placed in immediate dispute, the president tossed up a coin—a fifty-cent piece—saying that "heads" meant that Mr. Kittredge should win, and tails that Mr. Gamble should name the man. The piece of money fell heads up, and the nomination thus was awarded to Mr. Kittredge. Both senators appearing satisfied, the president suggested that all the vacancies be filled after the same manner, and this was accordingly done.

WALSH SCORES SEVERAL POINTS. However Testimony Is Given of Unauthorized Signature of Notes.

Chicago, Nov. 25.—The cross-examination of Frederick W. McLean, former cashier of the Chicago National bank, gave the attorneys for John R. Walsh opportunity to score several points today. The most important came when the explanation by McLean of the reports to the Chicago Clearing House association was excluded by the court on the ground that the former cashier had not personally made out these documents.

The objections by the defense came after McLean testified that Walsh had directed him to treat the numerous memorandum notes of the bank as direct loans to the parties whose names were signed to them in the bank reports sent to the clearing house, and to the comptroller of the currency.

Under cross-examination, McLean admitted that bank examiners were familiar with memorandum notes, and knew the collateral on which they were based. He also admitted that he did not turn over the cashiers' checks to Walsh personally, but gave them to the banker's private bookkeeper, B. B. McKay.

CAN BE VOTED NOW. Mutual Life's Illinois Central Stock Freed from Injunction.

Chicago, Nov. 25.—The Mutual Life Insurance company's interests in the Illinois Central railroad were freed from the operation of the injunction recently conferred by the United States court in the latter's attorneys this afternoon. The insurance company owns 5,500 shares, and with those released the injunction now affects 281,231 shares.

In making the motion to dismiss, the attorneys for Mr. Fish said that there are fair grounds to believe that the motion of Illinois, to hold that life, fire and other insurance companies can hold stock in such companies for investment purposes only, "and they therefore did not care to question any such right."

Today's action followed a noonday conference between Mr. Fish, who arrived from New York this morning, and his attorneys. Mr. Fish and his attorneys were disposed to treat the matter lightly tonight, claiming that the interests affected by the dismissal are comparatively insignificant, and that the issue as to the other defendants will have a different outcome. On the contrary, President Harahan of the Illinois Central saw in the action a confession of weakness, and he predicted the rest of the case will fall in similar manner.

Mr. Fish took advantage of his presence in Chicago to give out a statement in answer to the demurrers, answers and bills of exceptions filed by the defendants to the suit Saturday, and containing charges against his course as president of the Illinois Central. Mr. Fish pronounced these charges "vague, false and stale, are set up to affect proxy-getting and not to operate as a defense of the injunction suit."

INJUNCTION DENIED. Labor Unions Score in Their Contest With the United Typothetae.

New York, Nov. 25.—Justice McCall, in the supreme court, today, denied the application of G. Lawrence Fell, president of the United Typothetae of America, for the continuance of the injunction restraining the International Printing Pressmen & Assistants' union of North America and other allied unions from refusing to carry out the agreement made last January with the Typothetae.

Former Justice Stecker, who recently appeared for several of the printers' unions, contended in his argument that the court had no jurisdiction to grant such injunction and that the issuance of such injunction was illegal. He declared that men could not be forced to work when they did not want to. Mr. Fell argued that the unions had violated their agreements. Justice McCall, denying the motion for the continuance of the injunction, said today that he had serious doubts in reference to the existence of the validity or binding force of the contract to warrant granting the injunction.

SEE THE PRESIDENT. Farmers' Union Officials Have Plans for Currency Legislation.

Washington, Nov. 25.—R. E. Duckworth, chairman of the legislative committee of the National Farmers' union, and C. T. Ladson, attorney of that organization, arrived from Atlanta, Ga., today for the purpose of conferring with President Roosevelt on the subject of the attorney's recommendation to congress for the betterment of the present financial situation. They called on the president and also on the secretary of the treasury today and arranged for a conference with the president tomorrow at which Mr. Cortelyou will be present.

BANKS IN AGREEMENT

General Resumption of Currency Payments Looked for the Next Few Days.

Washington, Nov. 25.—A more confident tone in regard to the success of the new loans prevailed at the treasury department today than at any time since the announcement of the loans a week ago. The visit of J. Pierpont Morgan on Friday and Saturday was followed today by a visit by James B. Forgan, president of the First National Bank of Chicago. Mr. Forgan saw the president, Secretary Cortelyou and Treasurer Treat and expressed the belief that the banks throughout the country would soon be in position to resume currency payments.

There seems to be a general desire among bankers in New York, Chicago and other sub-treasury cities and financial centers to resume currency payments at the earliest possible moment, and Mr. Forgan's visit was made with view of learning the views of the treasury officials on this particular subject. Mr. Forgan was able to resume upon an understanding with the banks in other cities within the next week or ten days at the latest. The Minneapolis and St. Paul banks, he said, were quite ready to resume at any time, and might take the initiative very soon. It is believed among the treasury officials that a complete understanding was arrived at between the banks of New York, Philadelphia, Baltimore, Cincinnati, Chicago, St. Louis, New Orleans and San Francisco by which there will be a general resumption of currency payments within the next few days, and possibly before the close of the present week. It is learned that New York and Chicago are at present making daily shipments of large sums to the growing centers of the West and South, and it is confidently believed that these shipments will be continued in increasing amounts until normal conditions are again reached, or until the necessity for them has passed.

STILL MORE GOLD COMING

Total Now Is \$86,151,000 and It Will Likely Climb to a Hundred Millions.

New York, Nov. 25.—Heidelbach, Mookelheimer & Co. today engaged a million dollars in gold for import. This makes the total of \$86,151,000 so far secured in Europe, and it is predicted now that the aggregate will exceed a hundred millions before the movement culminates.

Suspended Bank Reopens.

New York, Nov. 25.—The United States Exchange bank, a state institution, which suspended Oct. 25, reopened today. A number of large deposits were made today. The withdrawals were only nominal.

Copper Prices Advanced.

New York, Nov. 25.—All grades of copper were advanced today at the metal exchange one-fourth of a cent in the bid and one-half cent in the asking price.

STOCK MARKET WEAK.

Prices Decline Notwithstanding Much Improved Financial Conditions.

New York, Nov. 25.—The stock market showed no disposition at any time today to follow the advance of Saturday. The movement seemed to be contented ill-advised on second thought, on the ground that the resumption of an active advance in stocks would be premature before the banking operations of the country have been restored to the normal. The early resumption of cash payments by the banks all over the country is now looked for with growing confidence, but the conditions which this resumption may disclose are awaited before seeking to enter upon speculative commitments.

The whole list of railroad stocks was more or less affected by the weakness of Missouri Pacific, and this consideration was given fresh force by the weekly reports from the railroad traffic officials. These reports were quite uniform in the admission that areas of "railroad traffic" were worked off or were being cleared up and that idle freight cars were accumulating. Attention was attracted by reports of the railroad traffic officials. TAFT'S LIFE MENACED

Switch Found Open, His Train on Siberian Railroad Just Escapes Being Wrecked.

Krasnotark, Siberia, Nov. 25.—It was learned today that the train upon which Secretary Taft and party are traveling over the trans-Siberian railroad from Vladivostok to Moscow had a narrow escape from being wrecked yesterday at Chita. A switch in front of the train became open when it should have been shut, but an employe discovered the circumstance a minute before the train came along and closed the switch. Had the train been thrown onto the siding it would have crashed into a number of freight cars.

ASKS THAT REFORMERS DESIST.

Chicago Council Proposes to Submit Sunday Saloon Question to People.

Chicago, Nov. 25.—The city council tonight by unanimous vote asked the Chicago Law & Order league to abandon its campaign against the Sunday saloons and let the question be submitted to the citizens at the next election. In the same resolution the aldermen asserted that the Sunday closing law now on the statute books is "obsolete."

FIRE-BUG IS BLAMED

Thirteen Italians Perish in a Burning Tenement House in New York City.

New York, Nov. 25.—Thirteen Italians lost their lives and several others were injured early today in a tenement house fire in One Hundred and Ninth street. Seven children were burned to death. It is believed by the police that the fire was the work of an incendiary.

Disastrous Blaze at Cincinnati.

Cincinnati, O., Nov. 25.—One person killed, two injured and a loss of perhaps a quarter of a million dollars are the results of a fire today in the retail district of the city. The property destroyed was the six-story block at Twelfth and Main streets occupied by the Windhorst company, a retail dry goods firm. At the building at the time were more than 100 employes and a large number of customers, but all escaped except Alberta Duffer, who was so terribly burned that she died, and two other persons who were rescued by the firemen.

WATER POWER LEASE DEFENDED.

Peoria, Ill., Nov. 25.—Answering the criticism throughout the state of the act of the Illinois and Michigan canal commissioners in disposing of the riparian rights on the Desplaines river to the Economy Light & Power company of Joliet, Clarence E. Snively, of Canton, chairman of the committee, today said that at the time the lease was executed the state had no right to acquire or construct for itself a dam for the development of water power, also that in the lease there was a clause making ample provision for a deep waterway along Lake Michigan to the Illinois river by the federal government.

Kansas City, Mo., Nov. 25.—Edward Landman, aged seventy-seven, for twenty years a clothing merchant here, was assaulted by a negro tonight. Entering the store the colored man struck the merchant with a coupling pin. The negro resulted in Landman's death. The negro robbed the store and escaped. Two other merchants in that immediate neighborhood have been assaulted similarly by negroes within the last six months, and one of them died from the injuries he suffered.

Pistol Battle Bloody.

Kansas City, Mo., Nov. 25.—J. J. Crew, chief night watchman of the Missouri Pacific railway, tonight engaged in a pistol battle with four negroes on the Kaw river, resulting in the death of one of the negroes and injuries to Crew and to one or more of the other negroes. While on the Kansas side, Crew heard pistol shots on the Missouri side, and he started toward the scene. On the bridge he met four negroes, and in answer to his inquiries about the shooting, one of the negroes shot at Crew, who drew his pistol and returned the fire. James Williams, one of the negroes, dropped and the others ran. The wounded negro died in a few minutes, and the trail of blood left by the others showed the more than one of Crew's shots took effect. Crew's wound is not serious.

CHARGED WITH FORGERY.

Two Employes of a Wall Street Bank Taken Into Custody.

New York, Nov. 25.—James J. Graham, assistant cashier of the Interboro bank in Wall street, was arrested today, charged with the forgery of a check for \$2,000. James W. Daly, paying teller, and Alfred Burrows, a depositor, were arrested on a charge of complicity in the forgery.

Chicago Small Boy Gets Damages from Street Car Company.

Chicago, Nov. 25.—A verdict for \$10,000 damages was given in a favor of a five-year-old boy, William Kehoe, in the county court here today. The boy was injured by a street car two years ago, his leg being amputated below the knee as a result.

CUTTING TEETH AT SIXTY.

Cincinnati, O., Nov. 25.—Mrs. Amy Monfort, aged sixty, of this city, is cutting her third set of teeth, and says that a teething ring would be an appropriate Yuletide present for her. She is known as the "Mother of Orphans." Having no children herself, she took, at various times, twelve little ones and reared them until they were able to make a living for themselves. Several days ago Mrs. Monfort found that she could not keep her false teeth in her mouth, and, investigating, found that four molars were peeping through her gums. The teething process continued until nearly every tooth of the third set has made its appearance.

A HARD DEBT TO PAY. "I owe a debt of gratitude that can never be paid off," writes G. S. Clark, of Westfield, Iowa, "for my rescue from death by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle was used, and two more bottles made a complete cure."

One of the most interesting statements made recently concerning the much discussed Cooper theory, that has spread over the country during the past year, is made by E. H. Lambert, a retired business man, whose home is at 115 Francis Street, Everett, Mass.

HE FOUGHT AT GETTYSBURG. David Parker, of Fayette, N. Y., who lost a foot at Gettysburg, writes: "Electric Bitters have done me more good than any medicine I ever took. For several years I had stomach trouble, and lost out much money for medicine to little purpose, until I began taking Electric Bitters. I would not take \$500 for what they have done for me."

DANCING PROVES FATAL. Many men and women catch colds at dances which terminate in pneumonia and consumption. After exposure, if Foley's Honey and Tar is taken it will break up a cold and no serious results need be feared.

Advocates Tuberculosis Sanitariums. Sherman T. Hardy, who represented Chippewa county at the meeting of supervisors and physicians held at Marquette for the purpose of discussing ways and means for securing a tuberculosis sanitarium for the upper peninsula, returned home very much enthused over the proposition and states that he firmly believes that as a result of the organization to be known as the Upper Peninsula Organization for the Prevention of Tuberculosis this part of the state will have such an institution in a very short time.

With all these facts in mind and the further fact that it is demonstrated beyond all doubt the disease is very infectious and at the same time can be cured, if taken in the earlier stages, it seems to me that all the arguments must be in favor of the sanitarium, which not only will provide for the treatment of those suffering from the disease, but which will serve to keep them from contact with the public.

Forgot His Shells—A popular member of the Marquette fire department, who, it is said, enjoys a joke on a fellow member as much as anybody, has himself been the object of much quiet funmaking for some days past. He was a member of a hunting party that went out from the city early in the season. The party arrived at camp just in time to make snug for the night. Its members were up betimes in the morning, prepared to take to the woods, when the nimrod in question volunteered to remain in camp and wash the dishes, saying that he would start out later. He washed the dishes very properly, but then instead of getting out after game turned in and had another sleep. His conduct was considered unaccountable and his friends did not know what to make of it. However, they shortly got the key to the situation. He had forgotten the shells for his gun; it will be some time before he hears the last of it.

CUT TAFT'S TOUR.
 State Department Afraid to Let War Secretary Visit Monarchs.

Washington, Nov. 25.—There is intimation in high quarters that Secretary Taft has committed some sort of breach of the diplomatic proprieties in the course of his visit in the orient, and that the possibility of his adding to the embarrassment of the government by carrying out his selected program of visiting various crowned heads of Europe is chiefly responsible for the announced change of plans by which he will hurry home.

The secretary is a delightful gentleman, with too much good sense to take himself too seriously. Consequently, as a gentleman in high standing pointed out, he apparently did not realize the significance that, in the European mind, would attach to his junket from capital to capital. The sort of thing is exceedingly meaningful to the diplomats of the European courts. The etiquette which governs it is a rigid and unbending code. Every move, suggestion and uttered syllable of a man in Secretary Taft's position is weighed and studied and assigned a place of importance in the consideration of the international meaning of his tour. The business is a delicate and uncomfortable one, in which the good nature and personal attractiveness of such a man as Secretary Taft need to be supplemented—and at times curbed—by the ceremonial correctness of a trained and cold-blooded social secretary with diplomatic training. According to a report, the present globe-girdling tour has lacked such a steadying hand at the helm.

Original Program All Right.
 So far does the intimation go, in fact, that it is suggested in some quarters that the state department consider over the secretary's travellings in Europe had much to do with the revision of his route and arrangements. When he went away the understanding was that the secretary would go to the Philippines and Japan, and then come home by way of Siberia and St. Petersburg, paying a call on the czar so that as between the two antagonists in the late war there might be no jealousies and no evidence of partiality on the part of this government. The program, it is said, might have been carried out without much trouble had not the other European courts promptly seized upon the occasion with the very kindly purpose of paying their compliments, also, to the emissary of the American president. Invitations were extended to the secretary, and these presently developed embarrassing aspects.

Not Enough Formality.
 Exactly what were these aspects is not definitely stated, and very likely never will be known. There is no reason to believe that the secretary was guilty of a serious faux pas; but yet there is more than intimation that somehow or other his arrangements for his tour and entertainment early developed a species of informality and naivete which gave concern to the formalists of the home government. It was allowed to become understood that the secretary would drop in on the kaiser and pay a call; and then later, that he would see King Edward and pass the time of day. Then came reports that Paris didn't fancy the emissary of the great western republic visiting all the crowned heads, but overlooking the executive of the great old-world democracy. So there was impression that Paris must be taken into the list. But this opened way to offence against Italy and Austria and the rest of the family. The secretary was away off on the other side of the world and the communication was difficult. The whole situation finally developed possibilities of real embarrassment.

Invitations were chasing Mr. Taft around the globe. From time to time they would reach him, maybe when the secretary was out of hearing. In such case the good-natured announcement that, having made appointments to see the kaiser and King Edward, he really wouldn't have time for the president of France, would be most unfortunate and untimely.

Boon Suffering in Absence.
 Such at least is the story which is passed about in a limited circle in Washington. Along with it goes the explanation, to the effect that the secretary's boom is not coming on as it should; that the president feels that something must be done, but considers himself bound to stand by the Taft movement at least till he shall have had opportunity to canvass the matter with the war secretary, and there shall have been agreements as the further steps. The president was left in charge, as it were, of the boom, and in a fashion feels that as trustee he does not possess all the powers which as a proprietor he would freely exercise.

Anyhow, Mr. Taft is coming home with a few delays and complications as possible. That he has an important message of amity and good will to bear from the Japanese government is now generally accepted. That his visit has put an end to real danger of physical clash is understood. But beyond this the trip is somehow regarded as hardly a success either diplomatically or politically.

IGNORES BREWER'S SPEECH.
 President Is Not at All Likely to Notice the Incident.

Washington, Nov. 25.—It is the opinion of callers at the White House that the president will ignore the speech in New York of Associate Justice Brewer of the supreme court of the United States in which he reflected very seriously upon the veracity of Mr. Roosevelt and intimated that he was really seeking a re-nomination. Justice Brewer is getting to be a very old man and he has said and written things in recent years which are not usually heard from one in his position.

If Justice Brewer is disciplined at all for his remarks it will be by the chief justice, who might very properly express to him the regret with which many men high in public life here have observed of late years his tendency to air his views on many subjects with great freedom. If he shall receive such a curtain lecture, as many seem to think not improbable, the public will never know of it for the members of the supreme court are as silent as the tomb on such subjects. To those who know Justice Brewer intimately and have heard some of his remarks about the president in private conversation his speech in New York was not a surprise.

I ain't feeling right today. Something wrong I must say. Come to think of it, that's right. I forgot my Rocky Mountain Tea last night. —The Stafford Drug Co.

METHODIST MINISTER ASSAILED AT QUINNESEC

WILL BE A BUSY WEEK.

Public Social Affairs Are Announced for Four Evenings.

The dancing public and amusement lovers in general will have ample opportunity for entertainment this week. Tomorrow night at Braastad's Hall will occur the fire department's seventeenth annual ball. Thursday evening home talent will produce the comic opera, "Miss Bob White," at the Ishpeming theater, under auspices of Mrs. Barnett's division of the Presbyterian church, the proceeds to go to the building fund. The opera will be repeated the following afternoon. Friday night there will occur at Braastad's Hall the second of this season's series of Elks' dancing parties. Saturday night the flanecek Elks' minstrels will be at the theater. The entertainment will be given at the Elks' club, in which all of the Elks of the county have been invited to participate, and it will be followed by a banquet and social session at the Anderson hall.

The arrangement committee for the fire department's ball, of which Chief John Laedy is chairman, has disposed of a large number of tickets and it is expected that the dance will have a very large attendance. The ladies of the Presbyterian church will serve the supper at midnight in the basement of the church.

Rev. O. F. Winton, pastor of the Methodist churches at Norway and Quinnesec, was assaulted and beaten at the latter place Sunday afternoon between 5 and 7 o'clock. He was walking along the street when he heard three drunken men using indecent language. He stopped to remonstrate with them, but had not spoken many words before they attacked him. He was knocked down and maltreated, his face being cut and bruised in several places.

The affair was reported to Sheriff Neubauer, and early yesterday morning warrants were sworn out for the men, Steven Brooks, John Hooper and Alphonse Massie, all residents of Quinnesec, who were later arrested.

Rev. C. H. Rutledge and John J. Spencer of Iron Mountain yesterday caused the arrest of three saloon keepers of that city. They made the rounds of the saloons Sunday last and found the places conducted by Louis Johnson and Thomas Lawrence open, while the curtains at the saloon conducted by Frank Parent were not drawn, as required by the state law. The saloon men furnished bonds for their appearance.

Charles W. Van Vliet, a cook at a camp about a mile and a quarter west of Quinnesec, was assaulted Sunday by Frank Shofski, a Pollock, from a neighboring camp. The cause of the assault is not known, but it is thought that Shofski had a grudge against Van Vliet. When he entered the place where the cook was working he caught up a big butcher knife and slashed Van Vliet's face with it, one wound going so deep that the bone was exposed. Van Vliet went to Iron Mountain yesterday and entered a complaint against his assailant, but up to last evening Shofski had not been found. Van Vliet testified in court that Shofski threatened to kill him. He declared that he struck the fellow three times over the head with an iron bar which was standing near the stove, and fished him.

TO INVADE THIS COUNTY.

Copper Country Building & Loan Association Will Do Business Here.

The Copper Country Building & Loan association is soon to invade Marquette county, according to advices The Mining Journal has received from A. J. Moilanen, of Calumet, formerly of this city, who was last week elected secretary and attorney of the organization. Last week five members were added to the board of directors, namely, George Martini, Paul Schneller, E. T. Daune, John Daniell and Peter Strolberg. The first four are Calumet men and the latter resides at South Range. The other members of the board are: C. J. Wickstrom, Edward Ulseth, A. Johnson, J. H. Jasberg, A. J. Moilanen, C. O. Jackola, Henry Kitti, Jacob Pessonen, Joseph W. Selden, C. J. Tolonen, John Watti, Charles Heusa and Jacob Jitti. Charles J. Wickstrom is the president; Edward Ulseth is vice president; A. Johnson, secretary; vice president; J. H. Jasberg, third vice president; A. J. Moilanen, secretary and attorney; and C. O. Jackola, treasurer.

The association is capitalized at \$1,000,000, 10,000 shares at a par value of \$100 per share. One-half of the stock has already been subscribed for, and the officers do not anticipate much difficulty in placing the remainder.

Several of the officers and directors are known to Marquette county people. A traveling representative is to be appointed. He will establish agencies in the several towns of the copper country.

ILL ONLY TWO DAYS.

After an illness of only two days' duration, Oscar Johnson, a well-known Ishpeming young man, passed away at 7 o'clock last evening. He was aged twenty-five and is survived by wife and one child. He was born and reared in this city. The deceased was a son of Charles Johnson, the house mover. He was employed at the Cleveland Lake mine as an ore sampler, and he attended to his duties there only last Saturday. He was a member of the Modern Woodmen of America.

FROM HOPKINS CURB LETTER.

"Sentiment was bullish at the opening this morning, with advances throughout the list. The gains were from 1 to 2 points over Saturday's close. The Quincy company cut its quarterly dividend from \$2.50 to \$2 per share. The movement against the shorts in North Butte seems to have terminated in the high level of 39 today, at which figure there was evidence of good selling."

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co., and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

the horse has had in several months, it being necessary to give three performances, while last night the theater was crowded at all of the performances.

In their game with the Rough Riders at Union Park Thursday afternoon the Beavers' football team will line up as follows: Tippett, center; Beckerleg, right guard; Harrington, left guard; Huot, left tackle; Weber, right tackle; Yamballa, left end; Waters, right end; Passow, quarterback; Thompson, right half; Gill, fullback; Waters, left half.

F. E. Keese, president, and George F. Ruez, secretary of the Pine Tree Mining company, left Sunday night for Cuba City, where they will spend a day or two looking over the property. The new mill went into operation last week, but it was not given a thorough test. It was considered advisable to treat only a small amount of ore for the first week or more, until the machinery is working smoothly.

Thomas Ryan and his nephew, Sylvester Ryan, of Blanchardville, Wis., are in the city, having been called here on account of the serious illness of the former's sister, Mrs. C. Kennedy. Thomas Kennedy, her son, who is located at Rutie, Mont., and her grandson, Gray Voyer, who is at Coleraine, Minn., are expected to arrive in the city this morning. Francis Harper, Mrs. Kennedy's son-in-law, is here from Chicago, his wife having preceded him the latter part of last week.

CHEMIST'S REPORTS ARE DISQUIETING

ANALYSIS OF SAMPLE RECENTLY SENT REVEALS PRESENCE OF GERMS IN CITY WATER.

FORMER REPORT STILL WORSE

Throughout Spring and Summer Months Water Was Said to Be All Right—New Sample Sent Yesterday.

For the past nine months the water board has had the city's water under examination and each month a sample of the water has been sent to the laboratory at Ann Arbor for analysis. Throughout the spring and summer months the reports of these analyses, for the most part, were satisfactory. In the two last reports, however, one received a month ago and one received only yesterday, there is a disquieting change in the opinion given by those who examined the water. The analyses were conducted by Dr. V. C. Vaughan at the laboratory at Ann Arbor.

Change Is Disquieting. In the report received Oct. 24 last, he states that the water is not good and says it should not be used unboiled. Following this comment he says he would like to know "if there is any typhoid in the city." This is the worst report received so far. In the one which came yesterday there is an improvement but the water is far from what it should be.

Throughout the summer, while the reports were fairly good, the water was gathered under ordinary conditions. The water from which the report of Oct. 24 resulted was gathered when the wind was from the north and this would indicate that its bad condition did not arise from sewage in the harbor, as the wind when the sample was taken was blowing the sewage away from the intake. Yesterday another sample was sent to the laboratory for analysis. For the past three days the wind has been from the south and it is thought that if the water is affected by the sewage in the outer harbor it will show in the sample taken and sent off yesterday.

Sample from Small Pipe. The theory that the water a long distance from the shore is better than that from the point to which the intake now extends, is disposed of in a measure by the report of Aug. 27. This sample was taken from the small pipe which extends far out into the lake to a point where it has been proposed to extend the intake. The bacteria is excessively high, the report states, so high that it is suggested that possibly the person who took the sample neglected to sterilize the jug in which the sample was sent. This explanation will not hold, as Superintendent Kern says that in all cases the jug used to transport the samples has been thoroughly and carefully sterilized.

Following are the reports sent out from the laboratory. According to the analysis the amount of organic matter found in the water ranges from 8 parts in a million in March last to 32 parts found in the sample which brought the report of Oct. 24 last. The sample taken from the small pipe in August was found to contain 50.4 parts of organic matter in a million parts, but in this sample no disease producing germs were found.

The Record. March 25—"This is a very good water." April 22—"This water in its present condition is safe for drinking." May 27—"The water in its present condition is exceptionally good."

June 21—"This water in its present condition is safe." July 18—"This water contains a large number of bacteria, entirely too many for a first-class water, but there are no disease making bacteria." Aug. 27 (small pipe)—"I cannot understand why this water should differ so much from other samples. The total residue is high and the number of bacteria is excessively high. Something must have happened to this water, the jug was not sterilized. There are no disease producing bacteria, but if this is a fair sample of the water, it certainly cannot be called first-class."

Aug. 31—"The small number of bacteria developing at body temperature and the absence of any pathogenic form indicates freedom from contamination with colon or typhoid bacilli."

Sept. 20—"Although the bacterial contents of this sample is considerable, there is an entire absence of injurious organisms and the large number of bacteria is explained otherwise than due to pollution. The chemical analysis shows an increase in nitrates and nitrites, but in the absence of any corresponding change in the other constituents, this is probably due to the container itself. The water may therefore be considered safe."

Oct. 24—"This is not a good water and should not be used unboiled. The number of bacteria is altogether too high and the kind is highly suspicious. Would like to know if there is any typhoid in this city."

Nov. 21—"This water is better than the sample lately received, but the number of bacteria per c. c. is still higher than it should be." Guinea pigs were inoculated with the bacteria from each of the samples in which bacteria were found. In all of these tests but one the animals showed no effects from the inoculation. The bacteria taken from the sample of Oct. 24 were transmitted to a guinea pig and the pig died. The result of the post mortem examination was that germs were found in all of the animal's organs. In the report made to the water board these germs are not classified. It merely states that germs were found in large numbers.

KIEL FUNERAL TODAY.

M. & S. E. Brakeman Was a Member of the Modern Woodmen of America. The funeral of Edward J. Kiel, the Marquette & Southeastern brakeman who died at St. Luke's hospital from injuries received in a railway accident at Carlshead, is to take place at 2 o'clock this afternoon from the home of his mother, Mrs. Augusta Kiel, of 242 West Michigan street. The interment will be in Park cemetery. Mr. Kiel was not a member of the Modern Brotherhood of America as recently stated. He belonged to the Modern Woodmen of America.

WORK AT NEW PLANT BEGINS.

Operations to Commence in Smith Shop of Lake Shore Engine Works. Operations at the new Lake Shore Engine Works plant north of the city will be begun tomorrow. The work of moving the machinery of the smith shop will be wholly finished today and work in this department at the new plant will be begun at once. From this on the work of moving the other departments from the old plant at Washington and Lake streets will go forward as rapidly as possible. The building work at the new plant is rapidly nearing completion and the finishing touches will be put on while the work of removal is going on.

NOTED ORGANIST COMING.

Minor C. Baldwin Will Be at Messiah Church Thursday of Next Week. Professor Minor C. Baldwin, the well-known pipe organist, is to give a recital at the Messiah church Thursday evening, Dec. 5. Professor Baldwin appeared at the church about a year ago, and those who heard him then will not miss the opportunity to hear him a second time. Professor Baldwin gave a recital at the Baptist church at Long Beach, Cal., and Rev. J. Lewis Smith, pastor of the church, is quoted as saying that the "Storm in the Mountains" as Mr. Baldwin played it, surpassed anything he had ever heard on organ or piano. He said that the audience was thrilled and amazed and that Mr. Baldwin is undoubtedly one of the greatest masters of the organ today.

WILL SUBMIT PLAN AT ANNUAL MEETING

AGRICULTURAL SOCIETY DIRECTORS DISCUSS PROJECT OF BUILDING CEMENT FENCE. At a meeting yesterday afternoon of the directors of the Marquette Agricultural society, the project of erecting a cement fence around the fair grounds was discussed and a committee of three composed of M. E. Asire, George Hager and W. S. Ewing of Chocoma, was appointed to obtain estimates of the cost of the work. The meeting was held in the office of the secretary, M. E. Asire.

ANNUAL MEETING IN JANUARY.

The report of the committee of three will probably be submitted at the annual meeting of the stockholders of the society, which takes place in January. At this annual meeting there will also be an election of officers and of three new directors. As the officers who are now serving may not be re-elected, they do not feel that they can go any farther than to make plans and obtain estimates for the proposed improvement. It will be up to the new officers to be elected in January to act upon the plans and estimates which are to be made.

IT IS PLANNED TO BUILD A NINE-FOOT CEMENT FENCE.

One side of the fence will be built each year and the fence will not be completed for four years. The wooden fence now around the grounds has been in use for the past seventeen years and it is badly out of repair. Estimated Cost. It is now estimated that a cement fence can be built at a cost of not more than twice as much as a new hemlock fence would cost. The cost of a new pipe fence would be almost as great as the cost of a cement fence. The cement fence would taper from the bottom from a width of a foot to about four inches at the top. Abutments to strengthen it would be placed every fifty feet or so. As the new fence is being built one side each year, the parts of the old fence that are torn down will be utilized to repair the parts that are left standing. The cement fence project was the most important brought up at the meeting. The books were audited for the year in preparation for the annual report, which is to be made at the annual meeting.

OPENS ENGAGEMENT.

MacLean-Bryant Stock Company Greeted by Big Audience Last Night. A big audience greeted the MacLean-Bryant Stock company at the opera house last night when the first production of the engagement, "Paradise Lost" was produced. The play, which was written by David Belasco is widely known. It deals with the labor problem and woven into the plot is a love story of deep interest.

The company is headed by Miss Nana Bryant and P. G. MacLean and is made up of capable people, including a number of specialty artists. Tonight the company will present "Virginia of Virginia." Thanksgiving afternoon a matinee will be given. The prices are ten, twenty and thirty cents.

A SIGNIFICANT PRAYER.

"May the Lord help you make Buckle's Arnica Salve known to all," writes J. G. Jenkins, of Chapel Hill, N. C. "I have quickly took the pain out of a felon for me and cured it in a wonderfully short time." Best on earth for sores, burns and wounds. 25c. at The Stafford Drug Co.'s store.

SPECIAL NOTICE.

The ceremony was performed last Wednesday, J. E. Cunningham of Chicago is the groom. Miss Burke is a former resident of the city and she is well remembered by a large circle of acquaintances here who wish her well.

SLEEPING HUNTER LOSES GUNS.

Patrolman Hegan Later Finds Them Pinned in Saloon of William Rivers. A lower Michigan hunter dropped asleep while waiting for a train at the South Shore depot yesterday, and when he awoke he discovered that two rifles which he had left on the seat beside him were missing. He told the story of his loss to Policeman Dennis Hegan, who a short time later discovered that the rifles had been pawned in the saloon of William Rivers. He arrested the man who had pawned the weapons, and a hearing is to be held in the court of Justice of the Peace Byrne this morning. The prisoner was under the influence of liquor to such an extent yesterday, according to the police, that he was unable to give his name. It is stated that he is from Mangum. Rivers stated that he had accepted the two rifles as security for a loan of \$8.
