

PLANNED TO KILL GOVERNOR GUILD

John A. Steele, Insane, Is the Man Behind the Gun in a Sensational Shooting Affray in the State House at Boston.

Calling With a Grievance to Lay Before the Massachusetts Executive, and Finding the Door to the Office Closed, He Opens Fire on a Trio of Prominent Labor Leaders in the Ante-Room, Wounding All Three of Them, One Probably Mortally.

Boston, Dec. 5.—An insane man walked into the executive apartments at the state house this afternoon and, finding Governor Guild's door closed, turned on three prominent labor leaders and fired three shots at them, probably fatally wounding Edward Cohen, of Lynn, president of the state branch of the American Federation of Labor, seriously wounding Dennis D. Driscoll, of Boston, secretary of the same board, and injuring with the muzzle of his revolver Arthur Huddell, of Boston, former president of the Central Labor union of this city.

The insane man, who was John A. Steele, of Everett, and who was released on parole last month from the Danvers insane asylum, was overpowered by Private Secretary Charles S. Groves and General J. H. Whitney, chief of the state police. Governor Guild was in his office only a few feet away. Rushing out he assisted in subduing Steele, and then knelt by Cohen's side, subsequently directing the removal of the wounded men to hospitals.

Cohen was shot twice through the head, and was in critical condition to-night. The third bullet struck Driscoll a glancing blow on the side of the forehead, making a long wound over the head, rendered him unconscious. He recovered consciousness half an hour later. Huddell's wound will probably cause him little inconvenience.

Shot Without Warning.
The three labor leaders came to the state house to meet the governor by appointment in regard to a petition for a new law regarding the Essex house of correction. They were waiting for an audience with the governor when Steele entered the ante-room and, glancing at the door to Governor Guild's room, turned around and, drawing a revolver, fired at Cohen, who was about six feet away.

Cohen's back was turned. The bullet struck the back of his head, passed directly through and came out at the forehead, driving a great splash of blood to the wall opposite and beside a picture of Abraham Lincoln. The wounded man turned only to receive another bullet in the head, which also passed completely through. Cohen sank unconscious to the floor, and almost instantly Driscoll was shot. Huddell, in attempting to close on the maniac, was struck on the cheek by the muzzle of the revolver and was knocked down. Steele made no attempt to fire again.

Maniac Promptly Corralled.
By this time the private secretary had leaped over the table and grappled with Steele, and almost at the same moment General Whitney came through the door and rushed to the assistance of Groves. Huddell also jumped up and wrenched the revolver away, while one of the messengers notified Mr. Guild. The governor instantly went into the room and helped push Steele onto a sofa. Police soon reached the scene and handcuffed Steele, who was taken to the Tombs.

Among the physicians who responded to the call for medical assistance was Dr. Owen Copp, chairman of the state board of insanity, who recognized Steele, he having had him under observation for more than five years in various state insane institutions. The state officials said that Steele was a well-known character to the board of insanity, and he had an illness he was not getting his rights, for which he held the governor responsible.

BATTLESHIPS MISSING.
Caught in Gale, Big Ironclads Are Driven Out to Sea.

Norfolk, Va., Dec. 5.—Nothing has been heard from the battleships en route to Hampton Roads and which were caught in a fierce storm at sea Wednesday night and yesterday morning. So far the wireless station here has been unable to get in communication with them. It is believed they were driven out of their course by the gale.

QUEEN OF THE SEAS.

Queenstown, Dec. 4.—The Cunard line's new steamship Mauretania arrived at 5:40 o'clock p. m. today. She covered the distance from the Sandy Hook light-house in 4 days, 22 hours and 28 minutes, beating the Lusitania's record by twenty-two minutes.

In the woods close to town, Albert Salstrom of Daggett sighted a big black bear. He shot the animal, and brain topped over. Salstrom thought he had killed it. However, when he had reached the spot and was proceeding to load the animal, the bear jumped up, brushed the hunter aside and dashed into the woods. The bullet had merely grazed the head, stunning the animal for a few moments. Brain revived just as Salstrom had bent over to look at his trophy. But the animal did not attack the man is considered remarkable.

MURDERED A POLICEMAN.

Gus Van Tassel, Tried at Chicago, Is Sentenced for Life.

Chicago, Dec. 5.—Gus Van Tassel was convicted of the murder of Policeman Luke Fitzpatrick and sentenced to life imprisonment by a jury in the criminal court here tonight. Fitzpatrick was killed Nov. 16, 1906, while attempting to arrest Van Tassel and Charles Hanson for burglary at Hammond, Ind. Another policeman shot and wounded Hanson as the men ran past him, but Van Tassel escaped.

Hanson was sentenced to life imprisonment, and the day he was taken to the penitentiary enough dynamite was found in his cell to destroy the entire prison. It had been supplied by accomplices, and was to have been used in an attempt to escape. Van Tassel was arrested in California in September and made two attempts to escape from jail while awaiting trial here.

Killed a School Teacher.

Aurora, Mo., Dec. 5.—Charles Heath, a prominent farmer of McDonald county, was today convicted of the murder of Clarence Mosier, a school teacher, because the latter chastised Heath's daughter. Heath was sentenced to forty years' penal servitude.

GUESTS AT WHITE HOUSE.

Washington, Dec. 5.—Among other guests that President Roosevelt entertained at luncheon today were Governor Cummins of Iowa and Governor of Alabama, former Governor Pardee of California and Harry S. New, acting chairman of the Republican national committee.

ACTRESS A SUICIDE.

Fearing an Attack of Nervous Prostration, Clara Bloodgood Kills Herself at Baltimore.

Baltimore, Md., Dec. 5.—Mrs. Clara Bloodgood shot and killed herself in a hotel here this evening. Not appearing at the theater at the usual time, a message was sent to her room. He found Mrs. Bloodgood's letter on the bed and with a bullet hole through the roof of the mouth. The only motive ascribed is that Mrs. Bloodgood feared an attack of nervous prostration.

Sensational Tragedy in Nebraska.

Norfolk, Neb., Dec. 5.—Valley B. Nethaway this afternoon shot his wife on a Union Pacific passenger train, and then leaping off the train committed suicide in a nearby grain elevator. His wife was seeking a divorce, and the case was to have come up at Madison tonight, whether the divorce was granted.

Texas Man's Bloody Deed.

Smithville, Tex., Dec. 5.—E. W. Swanson killed his former wife, shot her husband, J. J. Furst, and then committed suicide near here this evening.

INJUNCTION PREVENTS STRIKE.

Buffalo, Dec. 5.—Judge Hazel, in the United States court, today, reserved his decision upon the motion to make permanent the temporary injunction granted by him restraining the strikers of the Delaware, Lackawanna & Western Railroad company from striking. In the meantime the temporary order continues in force.

BEAT HIS WIFE.

Now New York Man Must Serve Five Years in Prison and Pay \$1,000 Fine.

New York, Dec. 5.—Five years in prison and a fine of \$1,000 is the penalty John Naham must pay for wife-beating. It appears from the testimony that Naham assaulted his wife with a shovel after she had refused to give him twenty-five cents to purchase liquor. She was seriously injured, and was obliged to remain in a hospital nearly a month. Naham will probably have to work out his fine in prison at the rate of a dollar a day after his five-year term is completed.

FATE IS HORRIBLE ONE.

Chicago Engineer Is Smothered to Death in a Pit of Ashes.

Chicago, Dec. 5.—John Robbins, a mechanical engineer, was smothered to death tonight in an ash tank at the soap manufacturing plant of the N. K. Fairbank company. He was repairing the hoisting apparatus connected with the tank. The workmen above him were unaware he had entered the tank, and allowed several tons of refuse to be dumped into it.

FORGOT TO GET A LICENSE.

Richard Hall, dealer in wood and coal, and one of Newberry's most jovial citizens, evidently one of the most forgetful men imaginable. According to the Newberry News, Mr. Hall was out hunting the other day, just before the season closed. Now, on similar occasions he has been known to forget to take along to procure a hunting license from the county clerk. He was unfortunate enough to knock over a fine buck and was hanging the animal up when a stranger happened along and kindly lent him a helping hand. The operation completed, the stranger suggested that he attach his tag. "Thunder!" exclaimed Hall, "hanged if I didn't forget to get a license before I came out." The stranger proved to be a game warden, and now Mr. Hall is wondering how he is going to convince Judge Steere that he really forgot to get that license.

CLERK OF COURT PAID TOO MUCH?

Question of Mr. Hopkins' Fees Is Debated Pro and Con by Delegates to the Constitutional Convention at Lansing.

Lengthy Discussion Had on the Proposition of Putting the Supreme Tribunal Official on a Salary Basis and Making His Position Elective, R. C. Flanagan of Dickinson County Cuts the Gordon Knot With a Motion to Adjourn.

LANSING, MICH., DEC. 5.—[Special.]

Delegate Richard Flanagan of Dickinson county cut a gordian knot in the constitutional convention today with a motion to adjourn. The question under debate was the salary of the supreme court clerk. Delegate Gore had introduced an amendment to the committee report so as to have the clerk elected by the people and put on a salary. The clerk is now appointed by the court and the salary is estimated at from \$8,000 to \$20,000.

Delegate Sharp, of the Soo, spoke against Mr. Gore's motion, saying that the legislature had at least once investigated the matter, and had found Clerk Hopkins' fees not too much for the work he is doing. Others spoke for and against the proposal, and merry fun was imminent when Mr. Flanagan moved to adjourn.

The order of second reading was reached today for the first time, the committee on arrangements and phraseology having reported out several proposals. One was a plan forbidding the legislature to pass a rule needing more than a majority to take a bill from committee.

The committee on counties has tied itself into a knot over the question of the sheriff's tenure of office. The minority wants to retain the present clause, which forbids a sheriff from holding office for more than four out of six years. The majority wants this restriction removed. There will be two reports on the question.

More Proposals Offered.

Holly.—That cities of over 10,000 population have the same powers of taxation as the state with power to divide property into classes for taxation purposes; also that there be no law to establish a lien on property save for labor performed.

Post.—Prohibiting corporations from acquiring stock in other corporations, except by tax-payers to vote on bonding propositions.

BANDIT RAISULI BALKS.

Negotiations for the Release of Kaid MacLean Come to a Standstill.

London, Dec. 5.—The negotiations looking to the release of Kaid Sir Henry MacLean are now at a standstill. MacLean is an Englishman in the service of the sultan of Morocco. He was captured last July by the Moroccan bandit, Raisuli, who has since held him prisoner. A stumbling block is found in the question as to where Raisuli shall reside after the surrender of the kaid. Raisuli has accepted the terms suggested by Great Britain, and these in turn have been accepted by the Moroccan authorities with the exception of a clause that recites where Raisuli shall live. The Moors desire that Raisuli reside in town, but the outlaws object.

VON BUELOW TO STICK.

Leaders of the Coalition Parties Pledge Him Continued Support.

Berlin, Dec. 5.—The ministerial crisis has been settled in a quiet way. It broke out. Prince von Buelow, imperial chancellor, has succeeded in getting pledges of support from the coalition parties, and at the opening of the session of the reichstag the leaders of these parties assured the chancellor of their continued loyalty.

CONGO TREATY HITS KING.

Brussels, Dec. 5.—The most important feature of the treaty annexing the Congo Independent state to Belgium, now before the chamber of deputies, is that the crown domain, the richest portion of the Congo, shall not be independent and controlled by King Leopold, as has been generally supposed, but will pass to Belgium and be subject to Belgian laws.

NOVEL STRIKE IN RUSSIA.

St. Petersburg, Dec. 5.—Fifty thousand mill hands employed in St. Petersburg walked out today on a one-day strike as a mark of sympathy with the thirty-seven Social Democratic members of the second duma who were today arraigned on the charge of high treason.

RIOTS IN AUSTRIA.

Vienna, Dec. 5.—Turbulent scenes are being enacted at stations along the frontier by peasants returning from America. The trains are insufficient to carry the crowds to their homes, and barns are being erected to shelter the immigrants temporarily.

DISCOUNT RATE UNCHANGED.

London, Dec. 5.—The rate of the Bank of England remained unchanged today at 7 per cent.

WEATHER FORECAST.

Washington, Dec. 5.—The following is the weather bureau's forecast for Upper Michigan: Fair, Friday and Saturday; fresh to brisk southwest winds.

WILL LIMIT EMIGRATION.

Japanese Government's Plan Arouses the Ire of the Shipping Interests.

Tokio, Dec. 5.—A committee from the emigration agencies here held a conference today with Minister Hayashi, who announced that the plan of the Japanese government was closely to limit all emigration to the United States and Canada. Some members of the committee angrily announced their opposition to this course, but Baron Hayashi refused to modify the plan of the committee without making any compromise.

SPANISH SOVEREIGNS ON BOARD.

Brest, Dec. 5.—The British battleship Rowena, with the king and queen of Spain and their infant son on board, was forced to put in here today on account of a heavy gale blowing in the channel.

KING OSCAR WEAKER.

Stockholm, Dec. 5.—A bulletin issued late tonight says that King Oscar's strength is not so well maintained, although the pain has somewhat diminished.

TAFT DEPARTS FOR BERLIN.

St. Petersburg, Dec. 5.—Secretary Taft and party left here at noon today for Berlin. They will spend a few hours there tomorrow evening.

BLOODSHED IS FEARED.

Goldfield Mines, Protected by U. S. Troops, to Resume Work with Non-Union Men.

San Francisco, Dec. 5.—Arrangements were made tonight with the Southern Pacific for the movement of federal troops to Goldfield, Nev., tomorrow morning.

Goldfield, Nev., Dec. 5.—It was not supposed here that the strike situation had reached such an acute state as to require the presence of troops. There is very little talk on the streets, and no agitation whatever. The people generally accept the move as meaning that the operators are preparing to open up with non-union miners. If this is undertaken, the general opinion is that there will be riot and bloodshed.

Orders Go to General Funston.

Washington, Dec. 5.—President Roosevelt tonight instructed General Funston to dispatch a sufficient force of regulars to Goldfield, Nev., to control the situation there. This action was taken upon the receipt of a telegraphic request from the governor of Nevada. The troops will proceed from Reno, and their reinforcement is left to the judgment of General Funston. Goldfield is about fourteen hours by rail from San Francisco.

Carson, Nev., Dec. 5.—Governor Sparks tonight confirmed the report that he had asked the government for military aid to hold the Goldfield situation in hand both for the protection of the mines and the property of the miners and mine owners of the camp. He stated that he expected that two companies would leave St. Louis tomorrow.

Child Labor Bill Reintroduced.
Senator Beveridge today re-introduced his child labor bill which prohibits carrying over interstate lines the products of mines and factories in which children under thirteen years of age are employed. He also re-introduced his measure of the last session providing for the payment of government inspectors by the government and requiring the date of packing to be stamped on canned meats.

THOUSANDS EVICTED.

Bridge Construction in New York Displaces Big Tenements.

New York, Dec. 5.—Scores of east side families are being evicted from their tenements today because a towering snow pile of masonry reared its head out of the river and long bars of steel steadily extended their reach toward the big and little buildings which live in their path. The new Manhattan bridge was crowding out these people as it pushed its way to final completion. Many blocks back from the East River front.

A huge triange between Pike and Market streets and the water front and Diagon street was a sorry looking place when the last of the evicted left their homes and staggered through the narrow streets with great bundles of their household effects. Nobody was angry because the city had decided that the way must be cleared for the bridge approach, but hundreds of persons were sorry to see the bridge and the crowd cut a big slice out of what they had called their little community.

The great rush from the condemned district occurred yesterday and only those who believed in enjoying free rent to the eleventh hour pulled out today. That is why many of the streets close to the river looked as if some devastating plague had done fearful work. In and out of the doorways of deserted and forlorn looking buildings the ragpicker with his bag thrown over his shoulder shuffled his way, and from time to time grabbed some article which looked as if it might be worth a few pennies. But it was pretty poor picking for even the rag man, because the moving families had very little to take away to begin with, so what they left was almost every instance even beyond repair.

JOHN MITCHELL WELL AGAIN.

La Salle, Ill., Dec. 5.—John Mitchell, president of the United Mine Workers, left the hospital here today for his home at Spring Valley, Ill. He has almost entirely recovered from the operation for appendicitis to which he submitted on Oct. 11. He will remain at his home for some time.

LAWMAKER OFFERS A NOVEL PROPOSAL.

Congressman Acheson of Pennsylvania Would Make Brewers Pay the Cost of Developing the Nation's Waterways.

Advocating the Expenditure of Fifty Million Dollars Yearly in Such Improvement Work So Vital to the Needs of the Country, He Proposes in Joint Resolution That the Money Be Raised by an Annual Tax of \$1 a Barrel on Beer.

Washington, Dec. 5.—An annual tax of one dollar on each barrel of beer brewed in the United States, this assessment being for the creation of a permanent fund of \$50,000,000 yearly for the development of the country's waterways, is the proposal carried in a joint resolution introduced in the house today by Representative Acheson, of Pennsylvania.

The preamble points to the inadequacy of the railroad trackage to handle the country's fast growing business, refers to waterways extension as a vital necessity to state and national development of the nation's resources and recites that the revenue from the proposed high license tax on beer should be applied annually "not as ordinary expense, but as a permanent investment."

Little Business Transacted.

The senate was in session today for an hour and a half, adjourning until Monday. Senator Frye, of Maine, was elected president pro tem, Senator Daniel, of Virginia, being given a complimentary vote for that honor by his Democratic colleagues. The resolutions of Senators Clay and Culberson calling on the secretary of the treasury for information concerning the recent bond issue were allowed to go over until next Monday, when they will probably be the basis of some debate. Most of the session was taken up by the introduction of bills.

The house was in session only ten minutes and transacted no business beyond agreeing to make response to the greetings of the new state of Oklahoma. The house also adjourned until Monday. There is excellent authority for stating that it is not likely that Speaker Cannon will announce any more important committees until the latter part of next week. There are more than 100 new representatives in the Sixtieth congress, and the speaker finds it necessary to get acquainted with the good many of them.

It is possible that the committee on rules and on mileage and two or three others will be appointed next week early. Chairman Fowler of the house committee on banking and currency today announced the following sub-committee of five members which will frame and submit to the main committee a currency bill: Fowler, New Jersey; Prince, Illinois; Calderhead, Kansas; Lewis, Georgia; Gillespie, Texas. The last two are Democrats.

RECEIVER FOR CHELSEA BANK.

Ann Arbor, Mich., Dec. 5.—Attorney W. W. Wedemeyer was today appointed receiver for the Chelsea Savings bank, of Chelsea, Mich., which was closed by State Banking Commissioner Zimmerman as a result of the financial troubles of State Treasurer Glazier, who was its president and a heavy borrower from the institution.

BOOM FOR BRYAN.

Democrats Will Launch It at Big Banquet at Omaha Saturday Evening.

Omaha, Dec. 5.—Arrangements have been completed by the Dahnman Democratic club for the launching Saturday night of W. J. Bryan's candidacy for the Democratic nomination next year for president. Aside from Mr. Bryan, who will deliver the principal address, the club will have as its speakers and guests many prominent Democrats from all parts of the country. These will include Mayor Dahnman of Omaha, Democratic committeeman from Nebraska; Henry C. Richmond, president of the Nebraska Press association; James Mahan, of Minnesota, and M. V. Gardner, of Davenport, Ia.

WANTS REPUBLICAN CONVENTION.

Kansas City's Boom Stirs Chicago's Friends to Renew Endeavor.

Washington, Dec. 5.—The formidable character of Kansas City's boom for the Republican national convention has stirred the friends of Chicago to renewed endeavor, and they are very hopeful tonight that their city will yet secure the meeting. It is said that a majority of the committee are really favorable to Chicago, and that city could secure the convention if it would definitely pledge a sufficient sum to pay expenses. Chicago has already given assurance that the expenses would be met, but the committee wants something more definite. The friends of Chicago today put themselves in communication with representative business men and politicians of that city with a view to enticing them to the point of procuring subscriptions which will guarantee about \$50,000. This probably will be done.

BIG FIRE AT BOSTON.

Boston, Dec. 5.—Fire tonight in the Boston & Maine railroad repair plant at East Cambridge swept all but two of the entire group of buildings. The loss is a quarter of a million dollars.

TRAFFIC SWAMPS THE RAILROADS.

Their Facilities Inadequate to Care for the Growing Business of the Nation, Declares James J. Hill at Washington.

Speaking Before the Rivers and Harbors Congress He Provokes Enthusiasm by Advocating Waterway Development, and Referring to Legislation, He Says That All the Transportation Interests Ask Is Right to Operate Under Fair Regulations.

Washington, Dec. 5.—A notable feature of the rivers and harbors congress convention, now in session in this city, was the address delivered today by James J. Hill, president of the Great Northern Railway company, who was introduced to the congress as a "wizard of transportation and one of the greatest railway builders in the world."

"Mr. Hill created great enthusiasm by declaring that 'the railroads of the country would support cordially any proper plan for the development of the legitimate waterways of the United States.' He produced figures to show that the traffic of the country had become so great and was increasing so tremendously, great and was increasing so tremendously, that it was beyond the physical power of the railroads to handle it.

SAALOONS CLOSE DOORS.

New Laws Now Effective in Illinois, Hundreds of Saloons Are Put Out of Business.

Chicago, Friday, Dec. 6.—Hundreds of saloons were closed in Illinois this morning, the local option voted at the last election in fourteen counties becoming effective at midnight. The following counties are now without saloons: Edwards, Johnson, Massac, Pope, Union, Wabash, Williamson, and Calhoun. In addition to the above, out of sixty-seven precincts in Case, Menard, Morgan, Perry, Pulaski and Scott counties, fifty-eight precincts are 'dry.' In some of the principal towns affected, Jacksonville loses twenty-four saloons, Duquoin twenty-three, Herrin fifteen, Carverville eighteen, Marion twelve, Mound City eleven, and Temara ten.

In Chicago several scores of saloon keepers have been arrested on evidence gathered by agents of the Law & Orle league for violation of the Sunday closing law. The liquor dealers of the state are alarmed at the situation and have taken steps to combat the reform movement.

FALLS DEAD IN CAPITOL.

Major Seward, Senate Door-Keeper, Is Stricken Suddenly.

Washington, Dec. 5.—Major W. E. Seward, a doorkeeper of the senate, dropped dead today while entering a revolving door of the Capitol. Major Seward was appointed to his position six years ago.

RECEIVER FOR CHELSEA BANK.

Ann Arbor, Mich., Dec. 5.—Attorney W. W. Wedemeyer was today appointed receiver for the Chelsea Savings bank, of Chelsea, Mich., which was closed by State Banking Commissioner Zimmerman as a result of the financial troubles of State Treasurer Glazier, who was its president and a heavy borrower from the institution.

BOOM FOR BRYAN.

Democrats Will Launch It at Big Banquet at Omaha Saturday Evening.

Omaha, Dec. 5.—Arrangements have been completed by the Dahnman Democratic club for the launching Saturday night of W. J. Bryan's candidacy for the Democratic nomination next year for president. Aside from Mr. Bryan, who will deliver the principal address, the club will have as its speakers and guests many prominent Democrats from all parts of the country. These will include Mayor Dahnman of Omaha, Democratic committeeman from Nebraska; Henry C. Richmond, president of the Nebraska Press association; James Mahan, of Minnesota, and M. V. Gardner, of Davenport, Ia.

WANTS REPUBLICAN CONVENTION.

Kansas City's Boom Stirs Chicago's Friends to Renew Endeavor.

Washington, Dec. 5.—The formidable character of Kansas City's boom for the Republican national convention has stirred the friends of Chicago to renewed endeavor, and they are very hopeful tonight that their city will yet secure the meeting. It is said that a majority of the committee are really favorable to Chicago, and that city could secure the convention if it would definitely pledge a sufficient sum to pay expenses. Chicago has already given assurance that the expenses would be met, but the committee wants something more definite. The friends of Chicago today put themselves in communication with representative business men and politicians of that city with a view to enticing them to the point of procuring subscriptions which will guarantee about \$50,000. This probably will be done.

BIG FIRE AT BOSTON.

Boston, Dec. 5.—Fire tonight in the Boston & Maine railroad repair plant at East Cambridge swept all but two of the entire group of buildings. The loss is a quarter of a million dollars.

TRAFFIC SWAMPS THE RAILROADS.

Their Facilities Inadequate to Care for the Growing Business of the Nation, Declares James J. Hill at Washington.

Speaking Before the Rivers and Harbors Congress He Provokes Enthusiasm by Advocating Waterway Development, and Referring to Legislation, He Says That All the Transportation Interests Ask Is Right to Operate Under Fair Regulations.

Washington, Dec. 5.—A notable feature of the rivers and harbors congress convention, now in session in this city, was the address delivered today by James J. Hill, president of the Great Northern Railway company, who was introduced to the congress as a "wizard of transportation and one of the greatest railway builders in the world."

"Mr. Hill created great enthusiasm by declaring that 'the railroads of the country would support cordially any proper plan for the development of the legitimate waterways of the United States.' He produced figures to show that the traffic of the country had become so great and was increasing so tremendously, great and was increasing so tremendously, that it was beyond the physical power of the railroads to handle it.

He made a most important and significant statement of the attitude of the railroad men toward the legislation which has been directed against the rail carriers in America, and he declared that all the railroads asked was permission to conduct their business in a proper way under fair regulations and fair laws.

Cummins a Speaker.

Notable addresses also were delivered to the congress by the governors of states and by other men prominently identified with the political and commercial life of the nation. Governor Cummins of Iowa declared it to be evident that the United States must either stop doing business or must bring to the railroads the mighty help of the waterways of the land. "It is not part of the scheme of the American people," said he, "to quit business, and I conclude that the American people propose to improve their waterways from the Atlantic to the Pacific and from the lakes to the gulf."

Referring to Mr. Hill's statement that the railroads were hesitating to go into the business of railroad construction, Governor Cummins said that people with money were hesitating to put capital into railroads because the railroads were over-capitalized. "People with money," he said, "in the future will insist that they shall receive value—real property—for their money, and not merely works of art from printing presses in the form of beautifully decorated certificates of stocks and bonds."

Gopher Executive Head.

Governor Johnson of Minnesota delivered a forceful address. He pointed out that the traffic of this country already had overburdened the railroads, and that the only relief was through the medium of waterways. Governor Johnson dwelt particularly upon the development of the transportation facilities of the Great Lakes and quoted statistics showing how the development had been of incalculable benefit to the states of the Northwest. No expenditure of money ever made by the national government, he declared, had paid so great returns as that expended on the development of the Great Lakes.

TO OUST POWER COMPANY.

Governor of Illinois Plans to Begin Suit at Once.

Springfield, Ill., Dec. 5.—Geo. M. Faxson, secretary to Governor Deneen, left for Chicago this afternoon for

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per month by carrier \$1.00 Per year by mail \$10.00

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

"Boxer troubles brewing" is a startling newspaper headline. However, the Chinese, not the Michigan, breed of Boxers is referred to.

The New York Life company has decided that it can stand for the Wisconsin insurance laws. Here's a grain of comfort for the men who made them.

The Houghton Mining Gazette frankly confesses to being tired of Roosevelt. The Gazette has an aversion to third terms anyway. It doesn't believe that Governor Warner has any title to ask for one.

The shutting down of the Newberry furnace is another evidence of the tightening up of the iron industry, and of the intention of producers to take time by the forelock and avoid an overproduction of a slow-moving product. In the long run this will certainly prove the best policy for all concerned.

The month of November saw all records for excavation on the Panama canal broken, with nearly 2,000,000 cubic yards of earth moved. The army officers now in charge of the work are getting exceptional results. That they are able to obtain them, however, is in no small measure due to the thorough manner in which the preliminaries were attended to by previous organizations in the canal zone. Despite cautious criticisms, it appears that the canal work has been well done from the beginning.

Everybody's picking on Tommy Burns, the British public because he is a Canadian, and not an American, though he appears to have made no concealment of that fact, and a lot of American pugilists for reasons that can be none other than jealousy. But why Burns should reap all the criticism being sent his way is difficult to figure out. As pugilistic figures go, he looks pretty good. He has met all comers, asked no favors and put forth the best that has been in him. His record is clear enough, but somehow he doesn't appear to be popular.

F. L. Baldwin, editor of the Escanaba Journal, who has been doing his best of late months to stir the sluggish Escanaba conscience, has been suggested as a candidate for mayor next spring. However, he has already let it be known that he is not aspiring to political honors. His decision is a wise one. Escanaba is not yet ready for a mayor made of Mr. Baldwin's stuff. If he ran, the forces he has antagonized would doubtless succeed in encompassing his defeat, with the result that his newspaper campaign for a more decent Escanaba would be handicapped. Mr. Baldwin can get more results by sticking close to the newspaper. He is a worrying sort of a writer, when after bad conditions, and who knows but that he may still be able to worry Escanaba into reform.

No local option movement in the upper peninsula for a year or more, Mr. Rutledge says. The first move in this direction is likely to be made in Schoolcraft county, which is regarded as the most promising territory this region affords. There was some discussion of launching a local option campaign in Marquette county, but it was decided that the time is not ripe. This shows that the local optionists are capable of forming sound judgments. There is nothing in the Marquette county situation to warrant any expectation that a local option campaign would be attended by success. Indeed it seems to us that while Mr. Rutledge has succeeded in the upper peninsula at large in worrying the saloon men a lot he has failed to create any general enthusiasm for his anti-saloon work that will materialize in votes at the polls. Mr. Rutledge is more of a fighter than he is a persuader.

The batch of recent appointments sent to the senate for confirmation this week shows that Michigan has not been entirely overlooked. Among the Michigan men who have obtained federal posts since congress was last in session are T. J. O'Brien, of Grand Rapids, who has been sent as ambassador to the Japanese government at Tokio; Edward B. Moore, commissioner of patents; T. Lee, United States consul to Nogales, Mexico; Charles S. Winans, United States consul to Valencia; J. Perry Worden of Kalamazoo, United States consul to Bristol, England; William Prall, assist-

SUPERIOR TRUST COMPANY HANCOCK MICHIGAN Capital - - \$150,000 This company is under the supervision of the state banking department and is authorized by the law to act as executor, administrator, guardian, assignee, receiver or trustee. C. A. WRIGHT, Pres. JACOB BAER, Vice Pres. M. C. GETCHELL, Sec'y.

ant engineer revenue cutter service; Roswell P. Bishop, member Spanish war claims commission, and a number of postmasters. The placing of Mr. O'Brien as ambassador at Tokio is the most gratifying honor bestowed on a Michigan man. The post at Tokio is as important as any to which this country accredits ambassadors, and just now it affords the ambassador filling it an excellent opportunity to prove his value to the service. Mr. O'Brien is fortunate in being able to show what he can do at such a vital point. He is confidently expected by those who know him to acquit himself with entire credit whatever crisis he may be called on to handle, or if the relations between the two governments concerned fortunately continue their calm and peaceful tenor.

There has been some criticism of Banking Commissioner Zimmerman in connection with the Glazier failure. The critics seem to feel that he should have acted earlier, or in some manner gotten the state money out of the Chelsea bank. Bearing on this point, Mr. Zimmerman himself says, in the course of a statement outlining the situation: "This department would not have been justified in closing the bank, and the results show the wisdom of the course which we followed. The directors could have been criminally prosecuted for making excessive loans, but that would have forced the bank to close its doors, disclosed the nature of the loans made, and the depositors would have been the ones to suffer." As for the state funds, neither Mr. Zimmerman nor anyone else was powerful to get them out of the Chelsea bank, once Mr. Glazier had deposited them there. And even if Mr. Zimmerman had been competent to remove these funds it appears that there was no time after he became cognizant of the bank's bad condition when he could have done so without precipitating the crisis. Mr. Zimmerman appears to have handled the situation about as well as it could have been handled. Under the stress of his forcible representations the Glazier loans in the Chelsea bank were actually reduced a considerable extent, and Mr. Glazier's promises that they would be still further reduced would doubtless have been made good had not the unforeseen financial stringency come in to upset his calculations. About the only thing Mr. Zimmerman could do was to move slowly, in the hope that Glazier could work out of the hole he had gotten himself into, and it is worthy of note that the state is now no worse off than it would have been had the bank suspended a number of months ago.

Under the above head, and in connection with the proposal for absolute prohibition in the college and normal towns of the state, Bishop G. Mott Williams had an interesting discussion in yesterday's issue of The Mining Journal. His conclusion was that the liquor tax, considered solely from the material standpoint, does not pay, and he presented arguments eliminating all but \$5,000 from the nominal \$25,000 income which this city has from that tax.

It appears to us that, considering the matter from the same standpoint that Bishop Williams did, and not taking into account the broader questions of principle or best public policy, the case made out against the liquor license income was too strong a one. For instance Bishop Williams charged out the entire \$8,000 required to support the police department from the \$25,000. Yet it is obvious that were the saloons all to be closed tomorrow we would still require a police department, and there would be a well-defined limit to the saving that would be possible under the changed conditions. We doubt, from our observations, whether it could be more than 25 per cent.

Similarly Bishop Williams charges out the entire \$10,000 which he estimates is the amount of poor relief money used here. In this instance again it is apparent that absolute prohibition would not end the necessity of poor relief in Marquette. While there is no doubt that large numbers of people receiving relief today owe their need not to liquor, but perhaps to old age, in which they find themselves not provided for, or to the death of the family's main prop, the father, or to other causes not even remotely traceable to liquor. Absolute prohibition would in time doubtless somewhat lessen the demands for poor relief, but we doubt whether the difference would be even 50 per cent of the amount stated by Bishop Williams.

With the general point made, that a certain proportion of the income from the liquor tax is apparent rather than real, there must be agreement by all fair-minded persons. Just what the proportion is would be hard to determine without an extended experiment with absolute prohibition. However, the real income is, we believe, a much larger part of the \$25,000 now being received by the city than \$5,000, and is large enough to require a considerable readjustment of city finances were this income done away with. To discuss whether the moral and other kindred considerations make it worth the price is of course to open up the whole illimitable question of temperance and prohibition, which is by no means the purpose of the present article.

YES, SOMETHING LIKE THIS.

The Glazier bank failure, and the consequent tying up of \$684,000 of the state's money, points several lessons. The state treasurer has had entirely too much authority. He has been an autocrat about disposing of the state funds. He has been powerful to put them where he would and in amounts he saw fit. Furthermore it appears that he has not been required to keep any public account of where they were placed, and could tell, and has, in past instances, told, inquirers about this essentially important matter that it was none of their business. Considerations of policy may have made it advisable to give the treasurer all this rope. It has made the office worth while, and by enabling the official to "look after" his friends has perhaps made him a more potent factor in a statewide political organization that he would otherwise have been. But the Glazier failure shows clearly that the system is a poor and inadequate one for safeguarding the people's money, and, after all, that's the principal thing.

The constitutional convention will doubtless apply the lesson. One delegate has already advanced a proposal that covers some of the points, and the situation demands that something like it be incorporated in the new instrument. The proposal now made is as follows: "No state funds shall be deposited in any bank until the same shall be approved by the treasurer, auditor general and state banking commissioner, and shall not, in any event, be deposited in any bank in which any of the said officers are interested. In all cases where state funds are deposited in any bank a good and sufficient bond to the full amount of all the deposits shall be first required."

Amplify this proposal by a provision that the treasurer shall deposit no funds in a bank from which he is a direct or indirect borrower and by a requirement for full publicity about the places of deposit of state money, and a recurrence of the Glazier trouble would be impossible. One of the most needed changes is one for publicity regarding the places of deposit. It would perhaps make unnecessary a provision against the treasurer being a borrower from a bank holding state funds. If the people had known what was being done with the state money Mr. Glazier would not have placed near \$700,000 of it in his Chelsea bank.

NOTICE TO TAXPAYERS.

City Treasurer's Office, Marquette, Mich., Dec. 2, 1907. Notice is hereby given that the general tax roll of the city of Marquette, with all regular taxes, state, county and municipal, for the year 1907, spread thereon has been deposited with me, and is now in my office in the City Hall, and that the amount of taxes therein assessed and specified are due, and shall be paid to me at any time up to and including the 29th day of February, 1908. On all state and county taxes paid to me on or before January 9th, 1908, a collection fee of one per centum will be charged, and on all such taxes paid to me on or after January 10th, 1908, a collection fee of four per centum will be charged. On all municipal taxes paid on or after this date, a collection fee of three per centum will be charged. R. P. BYRNE, City Treasurer.

Danderine

GREW MISS CARROLL'S HAIR AND WE CAN PROVE IT Beautiful Hair At Small Cost.

WITHIN the last decade great and rapid strides have been made in Materia Medica. Many diseases that were considered incurable fifteen years ago are now cured in a few days, and in many cases prevented altogether. The scientists of late years have been delving for the cause, the foundation, the reason and the starting point of disease, fully realizing that the actual and true cause must be ascertained before the remedy can be located. Hair troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp, and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment, and when baldness occurs the scalp has simply lost all of its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions). The natural and logical thing to do in either case is, feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Dr. Knowlton's DANDERINE is the only remedy for the hair ever discovered that is identical with the natural hair foods or liquids of the scalp. It feeds and nourishes the hair and does all the work originally carried on by the natural nutrients or life-giving juices generated by the scalp itself. It penetrates the pores of the scalp quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities. One twenty-five-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself. Now on sale at every drug and toilet store in the land. Three sizes, 25c, 50c and \$1.00.

FREE To show how quickly Danderine acts we will send a large sample free by return mail to any one who sends this advertisement to the Knowlton Danderine Co., Chicago, with their name and address and 10 cents in silver or stamps to pay postage.

Copper Country

DEATHS IN COPPER COUNTRY.

Passing of Mrs. S. J. Downer, an Old Resident, Occurs at Hancock.

Mrs. S. J. Downer, for forty years a resident of the copper country, died at Hancock Wednesday afternoon.

Mrs. Downer was born in New York, but came to Ontonagon county as a young girl. She married Dr. Downer when he was practicing in Greenland, and it was shortly thereafter that he came to Quincy.

Harold Doetsch, fifteen-year-old son of John Doetsch of Houghton, died yesterday morning after an illness of several weeks with tonsillitis.

Here's a Natural Strength-Giver. You'll find the beneficial effects of this tonic are permanent because it helps you to build up your body and become strong and healthy in a natural way.

DR. D. JAYNE'S TONIC VERMIFUGE brings lasting health and strength, because it helps your body to do its own building up through the stomach.

LAST OF THE JURY CASES.

November Term of the Circuit Court is Nearing Its Close.

The last jury case of the November term of the Houghton county circuit court was argued yesterday morning in a replevin suit brought against the Mineral Range Railroad company by Mrs. Mary Corgan of Calumet.

The case of Edward Rillston vs. Frank Wern, tried Wednesday afternoon, had some peculiar features. The parties were formerly friends, but Wern was having some domestic trouble and Rillston became interested in it in some way.

COPPER COUNTRY BUILDING.

Winter Weather Has Stopped Many Important Operations.

The arrival of winter has stopped to a great extent building operations in the copper country. An instance is found at Trinity Episcopal church, at Houghton.

The residential residence of Mrs. Sallie W. Sheldon in West Houghton will soon be completed. It is now in the hands of decorators and their work will leave this home one of the most artistic in the copper country.

MACK-LEONE PLAYERS.

The Mack-Leone players presented "Sage Brush," a Western comedy, at the Keredge theater, Hancock last night. It is a play from Willard Mack's own pen and is a fine example of the later school of frontier plays.

ENGLISH SPARROW SEASON.

Small boys of the copper country are reaping a harvest in the way of bounty on English sparrows, and incidentally they are driving township treasurers distracted.

Often The Kidneys Are Weakened by Over-Work. Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

No Better at any Price

CALUMET BAKING POWDER

Makes Wholesome Food

The wholesomeness of bread, rolls, biscuits and cakes depends on the kind of baking powder used. Chemists have proven that some baking powders leave residues of Alum or Rochelle Salts in the baking; others leave Ammonia or Phosphoric Acid. To always avoid these use

CALUMET BAKING POWDER

Calumet is a pure, wholesome baking powder. \$1,000.00 is offered for any substance injurious to health found in it.

Calumet Baking Powder is prepared from the finest materials possible to select under the supervision of competent chemists.

Calumet Baking Powder complies with the Pure Food Laws of all states.

All grocers are authorized to guarantee Calumet Baking Powder in every respect.

PORTAGE LAKE COMMERCE.

Traffic in November Especially Heavy in Coal and Copper.

The November report of the Portage Lake waterway commerce was made known yesterday by Engineer Banks. It shows that while the total tonnage was less than in the corresponding month of last year, the shipments of copper and coal, the most important items to the copper country, were increased.

Tonnage and class of vessels passing through the canals during the month:

Table with columns for Steam, Tow barges, Totals, Bound Up, Bound Down.

For purposes of comparison, the most important items from the reports for the preceding month and for November, 1906, are given.

Table with columns for Steam, Tow barges, Totals, Bound Up, Bound Down.

It will be seen that the copper shipments for the month just closed were greatly in excess of the shipments for the other two months considered.

Notes of Marine News. Joseph Croze has already placed in position the bridge of sewers which he maintains between the Houghton Amphidrome and the Quincy smelter dock in Ripley.

There are very few boats now at Portage Lake ports, and it may be that these will have to winter here as the ice is fast closing up the lake.

COPPER COUNTRY ELECTIONS.

Fraternities and Other Organizations Select New Officers.

Columbia lodge, Knights of Pythias, of Houghton, has elected the following officers for the coming year: C. G. Paul, Ties; V. C. C. Dr. G. T. Ferris; P. James Bakken; M. at A. E. M. Passmore; M. of W. W. H. Hart; K. of R. and S. M. of F. E. M. Ingram; M. of E. A. N. Baudin; I. G. Thomas Brimacombe; O. G. A. Horwitz; trustee, Edward Haas.

The following are the new officers of the Lake Linden aerie of Eagles: W. past president, James Jewell; worthy president, Herman Thiel; W. V. president, Harry E. Penninger; secretary, Jacob Steffen; treasurer, Christ Meyer; chaplain, Will C. Jilbert; physician, Dr. J. M. P. Pichette; trustees (one year), W. J. Carah, Henry Natanson, Henry Kettner; inside guardian, Albert Gasser; outside guardian, Will Gray.

The Vallhalla Ski club of Hancock has chosen these officers: Louis Wolf, president; Axel J. Anderson, vice president; Ernest Cliff, secretary and treasurer; Eldred McLeod, assistant secretary.

Samuel B. Harris, A. J. Scott, William Condon, James Tamblin and Frank C. Condon have been elected members of the board of managers of the Hancock Mortgage Loan & Surety company.

The Hancock aerie of Eagles has elected the following: David Wylie, past president; Richard H. Hosking, president; A. N. McDonald, vice president; Will C. O'Leary, secretary; B. A. Dritler, treasurer; E. McNulty, chap-

THE CITIZENS' NATIONAL BANK HOUGHTON, MICHIGAN OFFICERS. DIRECTORS.

Detroit but who is expected home today. He trained the Portage Lake team for the past four years, and he is considered one of the best in the hockey business. He will undoubtedly accept the offer.

Mining News

DEVELOPMENTS AT BISBEE.

All the Copper Queen shafts are shipping some ore to the company's smelter at Douglas. Much development is being done in all the properties. The Sacramento shaft is being prepared to be sunk.

COPPERDOME BREVITIES.

The Turner art exhibit of Boston is on view this week in the Hancock city hall. The annual meeting and election of officers of Hancock lodge, Knights of Pythias, will be held tonight.

George W. Botsford of Hancock has succeeded to the duties of deputy oil inspector for this district, taking the place of Sakris Silvola of Calumet.

Captain Swanson, formerly in charge of the Salvation Army corps at Ishpeming, has arrived in Houghton to take charge of the work there.

A meeting of Hancock hockey enthusiasts was held last night for the purpose of organizing an association to back a team in the new amateur league.

Croup

When a child wakes up in the middle of the night with a severe attack of croup as frequently happens, no time should be lost in experimenting with remedies of a doubtful value. Prompt action is often necessary to save life.

Chamberlain's Cough Remedy

has never been known to fail in any case and it has been in use for over one hundred years. There is none better. It can be depended upon for relief of all who suffer from cough and contains no harmful drugs. Price 25 cents; large size, 50 cents.

Headquarters for CHRISTMAS PIANOS

and Musical Instruments of all kinds. Many homes are going to be made happy with Pianos this Christmas. This is partly because a Piano is the gift of gifts—the most appropriate, desirable and acceptable of all presents—and partly because our convenient payment system makes it easy for almost any family to buy a Piano, without hardship or inconvenience.

A FEW DOLLARS PAID NOW will give your family the much-desired Piano for Christmas. Your next payment won't become due until the Holiday expenses are over. Nothing could be easier! Yet no amount of money, nothing you could buy, would be productive of half so much pleasure, education and entertainment for family and friends.

We have Pianos at all prices, from used squares and uprights at small cost, to the magnificent STEINWAY grands and uprights, and WEINER Pianola-Pianos at \$1,000 to \$1,500 each. If you could not suit both your taste and your purse here, it would be impossible anywhere, for we have unquestionably the largest stock, greatest variety of makes and styles, and our values are absolutely unapproached. These are strong statements, but we are prepared to prove them if you will give us the opportunity.

We are Ready for Xmas Trade in Every Dept.

The gift next best to a Piano is some other kind of Musical Instrument and we have complete stocks of everything in the music line. Never were we quite so well prepared as now to supply all musical wants. You will find here, in greatest variety and at lowest possible prices, the following:

- VICTOR TALKING MACHINES AND EDISON PHONOGRAPHS. Violins, Guitars, Mandolins, Banjos, Cellos, Zithers, Accordions, Harmonicas and Small Instruments of all kinds. Cornets, Flutes, Clarinets, Horns, Trombones, Drums, and everything in Band Instruments. Music Satchels and Rolls. Leather and Canvas Cases for all instruments. Music Cabinets of latest designs in oak, walnut and mahogany, for Sheet Music, Talking Machine Records, and Pianola Rolls. Piano Chairs Stools and Benches. Piano Drapes. Musical Toys for Children—Pianos, Piano Stools, Violins, Drums, Music Boxes, etc., etc.

CHRISTMAS INSTRUMENTS SHOULD BE SELECTED NOW! Our stocks are complete and unusually large, and we can give better service than may be possible when the eleventh hour rush is on. Deliveries will be made any day or hour desired.

City Brevities

P. G. Teeple went to Milwaukee yesterday on business.

Mrs. E. N. Breitung left for a visit in Chicago yesterday.

Prosecuting Attorney Bell was in the city yesterday on business.

J. M. Wells of Menominee was in the city yesterday on business.

Louis Corbett of Negaunee was in the city on business yesterday.

Nathaniel Loeb of Anna River was a visitor in the city yesterday.

F. C. Curtis of Wells, Mich., was a visitor in the city yesterday.

F. S. Dunbar of Marinette was in the city yesterday visiting friends.

James Knight of Alden paid a visit to Marquette friends yesterday.

F. Roher of the copper country paid a recent visit to friends here.

August Meisner of Amasa was in the city yesterday visiting friends.

John C. Condon of the copper country was a visitor in the city yesterday.

Mrs. A. Messenger of Wells, Mich., is paying a visit to Marquette friends.

Fred L. Barrett of Houghton paid a visit to Marquette friends yesterday.

R. B. Webb of Crystal Falls paid a visit to friends in the city yesterday.

H. J. Waterbury of the copper country was a visitor in the city yesterday.

Former Sheriff James McFarland of Ontonagon was a visitor in the city yesterday.

Arthur Primeau has gone to Chicago on business. He will be away for a few days.

A Liebershal was called to Danville, Ills., yesterday by the death of his mother-in-law.

Arthur Pappa and William Marocotte returned yesterday from a trip to the copper country.

Sam Collins and Thomas Collins of Negaunee were in the city yesterday visiting friends.

The Ladies' Aid society of the Presbyterian church will meet this afternoon with Mrs. C. A. Shelton, 1010 North Front street.

Mission Society Meeting—The Baptist Woman's Home Mission society is to hold a meeting at 2:30 o'clock this afternoon at the home of Mrs. F. B. Spear, Jr., on East Ridge street.

Ambulance on Runners—The new runners ordered some time ago for the city ambulance were received yesterday at the Freeman barn and were put in place. The new runners are varnished a gray drab to match the ambulance.

Claims Bounties—Charles Lerette of Ishpeming township yesterday collected bounties on the skins of four lynx and one wild cat, which he trapped near his home. The bounty on a lynx pelt is \$5; that on a wild cat pelt is \$3. He received \$23.

Funeral of Infant—The funeral of Oscar William Anderson, the three-year-old son of J. A. Anderson of Blenbauer avenue, is to be held this afternoon at the home at 1 o'clock. Rev. Isaacson of Ishpeming will officiate. The burial will be in Park cemetery.

Aid Society Meeting—The Methodist Aid society will meet at the home of Mrs. M. W. Anderson of 322 East Arch street at 2:30 o'clock this afternoon. All articles for the sale should be brought in today. The sale will be held Tuesday afternoon and evening instead of Tuesday and Wednesday as recently announced.

To Entertain Guilds—Mrs. E. M. Watson and Mrs. H. A. Harris will entertain the Woman's Guild and the Young Woman's Guild of the Episcopal church this afternoon at their residence on Cedar street. The guilds are preparing for their annual Christmas sale which will be held in the Morgan Memorial chapel next Monday afternoon.

Funeral at Ironwood—Contrary to expectations, the funeral of the late Thomas Costin, formerly of this city, who was killed in an accident on the Mesaba range Tuesday night, will not take place here. It will be held Saturday morning at Ironwood, where the father of the deceased is now living. Interment will be in the Catholic cemetery in that city.

Sale Well Attended—The sale of Christmas articles which was held yesterday afternoon at the Normal school was well attended. The various exhibits were much admired and many articles were sold. It has been announced that the display of sketches and high art photography by Miss Alice Boughton, of New York, is to be on exhibition at the Normal during the next two weeks.

Rehearsal Last Night—The first rehearsal in preparation for the minstrel show to be given under the auspices of the Marquette division of the A. O. H. at the opera house on the evenings of January 6 and 7, was held last night. The rehearsal was under the direction of Hollie Sheppard, and Mr. Sheppard has issued a call for all the talent interested to appear at the rehearsal which is to be held tonight.

DEATH YESTERDAY OF MARQUETTE PIONEER

CHARLES WERNER WAS A NATIVE OF GERMANY AND HAD LIVED IN CITY SINCE 1854.

Charles Werner, one of the pioneers of the city, died at noon yesterday at St. Mary's hospital. His death followed an operation which was performed about a week ago, and from which he never rallied. He was eighty-two years old and had been a resident of Marquette for nearly a half century.

Mr. Werner was a native of Germany. He and his wife came to the United States and settled in Marquette in 1854. For years he was one of the leading painters of the city and he was also a musician of high accomplishments. Years ago he was a member of the Marquette City band, which has long since passed out of existence. His wife died nine years ago. Owing to the infirmities of old age Mr. Werner had been an invalid for a long period. Recently his condition became serious and an operation was resorted to in an attempt to save his life. He had not sufficient strength to rally from it and he sank until his death yesterday.

Mr. Werner is survived by one son, Gustave Werner and by four daughters—Mrs. J. E. Reau, Mrs. William Robertson of Escanaba, Mrs. William Price of Ashley, Pa., and Miss Edith Werner. The funeral is to be held tomorrow afternoon at 2 o'clock from the Reau home at 331 Baraga avenue, and the interment will be in Park cemetery.

LOCOMOTIVE ENGINEERS ELECT.

Farrell division, No. 94, Brotherhood of Locomotive Engineers, will be officered as follows during the ensuing two years: Chief Engineer—George D. McCormick. First Engineer—Henry Jackson. Second Engineer—David Todd. First Assistant Engineer—A. L. Rose. Second Assistant Engineer—N. A. Cooke.

Third Assistant Engineer—George L. O'Neill.

Guide—E. B. Williams. Insurance Agent—Wm. H. Thomas. Chaplain—Allen Cowden.

Delegate to the Grand International Division—A. L. Rose Smart. Alternate—James Smart. Delegate to Legislative Board—James Pearce.

Alternate—Chas. W. Richardson. The election at which these officers were chosen was held last Sunday afternoon.

HIBERNIANS' ANNUAL ELECTION.

Division No. 4, Ancient Order of Hibernians, elected officers as follows at its annual meeting held last evening: President—Peter J. Donovan. Vice President—John J. Boyle. Financial Secretary—Peter Harrie. Recording Secretary—Michael Fleming.

Treasurer—Joe Mack.

Aside from choosing new officers for the ensuing year, the Hibernians decided to engage in a membership contest. Two teams were chosen, captained respectively by P. J. Donovan and J. J. Boyle, and from now until the end of March the rival forces will hustle for candidates. The team that secures the larger number of new members will dine at the expense of the other.

CATHOLIC ORDER OF FORESTERS.

The new officers of Bishop Vertin court, No. 907, Catholic Order of Foresters, are as follows: Chief Ranger—F. Dushane. Vice Chief Ranger—F. Stenglein. Past Chief Ranger—John Siegel. Recording Secretary—Philip E. Carpenter.

Financial Secretary—Phil. L. Pellissier. Treasurer—Fred Donkers.

Trustees—Michael Madigan, Phil Trombly, Joseph Trudeau.

Spiritual Adviser—Rev. Father Jodocy. Medical Examiner—Dr. Vadnais. The annual election of the lodge was held last night.

ELECT OFFICERS.

The Lady Macabees of Busy Queen Hive, L. O. T. M. M., met yesterday afternoon at Keough's hall and elected the following officers: Past commander, Agnes Charlesworth; commander, Julia A. Sharland; lieutenant commander, Frances V. Salter; record keeper, Annie H. Anderson; finance keeper, Josephine Bertrand; chaplain, Jennie Wright; sergeant, Elizabeth Agnew; mistress-at-arms, Addie Truckey; sentinel, Agnes Hume; picket, Ester Jackson; physicians, Dr. Harkin and Dr. Flynn.

SUPERIOR HIVE OFFICERS.

Superior hive, No. 217, L. O. T. M. M., held its annual election yesterday afternoon. It chose officers as follows: Past commander, Minnie Hanck; commander, Clara Brandon; lieutenant commander, Margaret Kirt; record keeper, Emma Rose; finance keeper, Anna Stack; chaplain, Sophia York; mistress-at-arms, Josephine Slocum; sergeant, C. B. Johnson; sentinel, Carrie Berry; picket, Jennie Reynolds; pianist, May V. Willis; physicians, Drs. Thomas Cunningham, R. C. Markham.

MANY ATTEND RECITAL.

Prof. Minor C. Baldwin Pleases Audience at Swedish Lutheran Church.

A large audience greeted Professor Minor C. Baldwin at the Swedish Lutheran church last night. This was Professor Baldwin's second appearance in Marquette, and many of those who heard him when he was here a year ago went to hear him a second time last night. The program was one of exceptional merit and had been carefully prepared. Professor Baldwin was assisted by a quartet composed of the Misses A. Berg and E. Richardson, and Messrs. J. A. Knight and J. Erickson. Mrs. J. A. Knight acted as accompanist. Following is the program which was given:

- Program.
- Sonata Fleuret
 - (a) Allegro. Maestros, Leuto, Non Trappo.
 - (b) Andante. Non Trappo.
 - (c) Allegro. Molto.
 - Reverie Baldwin
 - Song, quartet, "Star of Descending Night" L. O. Emerson
 - Misses A. Berg, and E. Richardson, J. A. Knight and J. Erickson.
 - Toccata and Fugue Bach
 - Selections from "Il Trovatore" Verdi
 - Air Beethoven
 - Andante Beethoven
 - Pastorale and Hymn of the Shepherds Field
 - Intermezzo Mexicana Tradler
 - The Song of the Brook Baldwin
 - Overture, selected Field
 - Song, Quartet, "The Waves Were Dancing Lightly" F. R. Kucken
 - Misses A. Berg, and E. Richardson, J. A. Knight and J. Erickson.
 - Organ, selected Haydn
 - The Marvelous Works from "Creation" Haydn

TO HAVE SKATING RINK.

Petition For Water Supply Presented Last Night to the Water Board.

It is more than half probable that Marquette will again have an ice skating rink on the Longyear lot at the foot of Ridge and Arch streets. Plans for the opening of the rink are now going forward and unless unforeseen obstacles arise, the rink will be a reality within a short time. Alfred Hanson, who managed the rink last year, is the manager of the one that it is proposed to start.

The question of supplying water for the rink was last night brought up at the meeting of the water board. A petition asking that water be supplied for the purpose was submitted, but in the absence of two members of the board it was not acted upon. The meeting was adjourned until next Tuesday night, when the subject will be discussed. It was stated last night that the work of starting the rink will be begun as soon as the water supply is assured.

MORE NEW BOOKS.

Interesting New List of Miscellaneous Volumes at the Library.

In addition to the large number of volumes of popular fiction recently received at the library and published in The Mining Journal, another interesting list of miscellaneous volumes has been received. These books are as follows:

Cobalt Gossip

Superintendent McDonald is hustling the development work of Ester mine with a force of about seventy men.

The Silver Bar mine will close down to install a new compressor. The development work has been pushed with very encouraging results.

Most of the shipping mines have reduced the number of men on their pay roll. Cobalt Lake is doing good work and seventy-five men and eight drills are kept busy all the time. Night and day shifts are maintained.

A sale of the Hudson Bay mine is said to be pending in England at a price of \$7,000,000. It is further stated that the deal will be consummated if a perfect title can be given to the property. The company is shipping this week two cars of high grade ore.

At the City of Cobalt mine a force of nearly forty men is employed. Drifting on the first level in the main shaft is being done, and the main shaft, which is now down 115 feet, will be sunk to the 200-foot level. Three eight-hour shifts are being worked at present and the plant is being taxed to its full capacity.

At the Big Temiskaming fifty-five men are at work and four drills are in operation. Last week this mine shipped two more cars of over thirty tons each, and a fourth car will go out this week. The ore has all been sent to the Perth Amboy smelter, which is paying cash for it on a basis of the price of silver in New York on the day that the computation of the assay takes place.

MARQUETTE BOWLING ALLEYS.

Lately replanned and refitted at a large expense, they are now among the finest alleys in the upper peninsula. Pinsetters are used. Open afternoons and evenings.

293 SPARROWS ARE KILLED BY 7 BOYS

SEASON WHEN BOUNTY OF TWO CENTS A HEAD MAY BE CLAIMED IS FIVE DAYS OLD.

The new law regarding the payment of a bounty upon sparrows has already caused the deaths of two hundred and ninety-three of the birds and the season, which continues through December, January and February, is only five days old. The bounty for two hundred and ninety-three sparrows amounts to \$5.86, and it was claimed by seven boys.

The new law provides that a bounty of two cents a head shall be paid for sparrows. It includes a strict penalty for the offering for bounties dead birds other than sparrows. In former years when a bounty was offered for sparrows, it was found that a great deal of substituting was done and hundreds of small birds which resemble the sparrow, and many of them song birds, were killed. Men even made a business of killing sparrows for the bounty offered. In the new law an effort is made to prevent the substitution of other birds for dead sparrows.

The boys who received bounties and the number of dead sparrows brought in by each are: Bernie Sullivan, twenty-three; Eugene L'Huillier, one hundred and thirty-eight; Leo Flagole, thirty-nine; Ralph Frie, thirty-nine; Robert Warren, eighteen; Edward Shorkey, sixteen; Howard Martin, twenty-six. The weapon in common use is the air gun and it is said that hardware dealers have about sold out their entire stocks of these. The sale of E. B. shot, the ammunition used in the air guns, has also been unusually heavy.

CIVIL SERVICE EXAMINATIONS.

Will Be Held for Positions in Light House Service at Detroit.

The following civil service examinations must observe, have been announced by Fred B. Sides, chief clerk of the board of civil service examiners of the light house service of Detroit:

Civil service examination for assistant light house keepers, officers of light house tenders and light vessels in the eleventh light house district, will be held in the office of the light house inspector at Detroit, Michigan, on Wednesday, Jan. 8 next.

Necessary blank applications and other information can be obtained on application to the light house inspector, 405 Postoffice building, Detroit, Mich.

When December's icy fingers have shorn each forest tree, It's time to tone your system By taking Hollister's Rocky Mountain Tea. The Stafford Drug Co.

NOVEMBER WEATHER.

There were Three Days of Clear Weather Last Month, With 16 Cloudy Ones.

The warmest day of last month was the 1st, when the thermometer registered 52 degrees, and the coldest day was the 14th of the month, when the lowest temperature recorded was 16 degrees.

During the month there were three days of clear weather, 16 cloudy days and eleven days that were partly cloudy. In the thirty days of the month 16.7 inches of snow fell, and 7.4 inches were on the ground at the end of the month.

The mean temperature for last month was 33 degrees, and the coldest mean temperature recorded for the same month during the past thirty-six years was 25 degrees, in 1880. The warmest months of November for the past thirty-six years were in 1878 and 1902, when the mean temperature reached 35 degrees.

During last month the wind for the most part was from the west and its average velocity was 11.9 miles an hour. The maximum velocity reached during the month was 39 miles an hour on the 12th. The total movement of the wind was 8,547 miles.

These figures were taken from the monthly statement issued by Observer Henry R. Patrick.

ISHPEMING MAN GETS CHEAP TRIP TO EUROPE

YOUNG FINN HAD TICKET GOOD FOR PASSAGE FROM IISHPEMING TO HELSINGFORS STOLEN FROM HIS GRIP AT BOARDING HOUSE.

John Wirtinen, who had arranged to leave Ishpeeming yesterday morning on the South Shore early train with thirteen of his countrymen, bound for their old homes in Europe, lost his ticket by theft from his grip at his boarding house, but did not discover his loss until he appeared at the depot, prepared to board the train. Wirtinen bought his ticket the evening before. He returned to his boarding house, put it in his grip and then proceeded to celebrate. It is suspected that the man who stole the ticket was in the party which left yesterday morning. The men are bound for Portland, Me., where they will sail tomorrow on one of the Dominion line steamers.

In both Ishpeeming and Negaunee new parties are being organized almost daily for trips to the old country. Late Wednesday afternoon a party of thirty-three Swedes and another of four Cornishmen decided to leave on the evening train, and all bought tickets for New York, via Chicago. The party of which Wirtinen was a member was also organized hurriedly. The Finn left Negaunee Wednesday night and another party is being organized to leave Sunday night.

Every steamer leaving Portland, Me., as well as those leaving New York will tomorrow be loaded to their capacity. Early in the week the agents were instructed to take no more reservations for boats sailing on the 7th. It is reported that never before in the history of transoceanic traffic have so many tickets been sold for European countries as at the present time.

According to the Duluth Evening Herald of Tuesday 150 Italians, Hungarians and Greeks left that city the previous day for New York. An interpreter in the party informed a Duluth Tribune representative that each and every man in the crowd had from \$500 to \$750 in gold on his person. The interpreter said that as a rule the foreigners convert their entire savings into gold and secret it about their persons, keeping out merely enough for their traveling expenses. Each of the men carried a box or basket containing cheese, crackers, a loaf of bread and a quart bottle of claret. Before taking the steamer they plan to buy sardines and other supplies.

CAUSED BY GASTROENTERITIS.

National Confectioners' Association Investigates Child's Death.

Late in August the six-year-old daughter of Edward Honkala, a former member of the Ishpeeming police force, died after a short illness. At that time Mr. Honkala advised The Mining Journal that the child had been poisoned by ornament candy which was highly colored, and a statement to that effect was published. An investigation of the cause of death was made by the National Confectioners' association, as is done in all similar cases reported to its office. Its chairman wrote to Dr. T. A. Felch, who attended the girl during her illness, and the doctor's reply was as follows:

"Ishpeeming, Mich., Nov. 9, 1907.

"V. L. Price, Chairman,
St. Louis, Mo.:
"Dear Sir—Your favor received. In reply I will say that I attended the child of Mr. Edward Honkala who is said to have eaten poisoned candy. The child died from acute gastroenteritis. A brother was ill in the same way but recovered. We were having a great deal of trouble in this town at that time. The charge of being poisoned by candy was not made by me. Evidently no one could tell except by a chemical analysis of the stomach and its contents which was not made."
"Yours very truly,
"T. A. FELCH"

CLOSED UNTIL MONDAY.

All Rooms in the Library Building Will Be Thoroughly Fumigated.

The Carnegie library, also the school rooms in the basement, were closed yesterday for fumigation. Neither the school nor the library will be open until Monday. The large palms and other plants in the library were removed to Trebilcock Bros.

A new record was established last month in the number of books drawn for home reading from the library, the total being 4,750, an increase of over 1,000 over the corresponding month last year. The largest previous month was in March, when 3,448 books were drawn. During the eleven months of this year 540 new names have been added to the list of subscribers, and the number taking books at this time is several hundred greater than at any other period since the library was established. The library board recently authorized the librarian to purchase \$500 worth of new publications of standard works. During the past few months a large number of new books have been placed on the shelves.

CLEVER CONTRIVANCE.

One of the most ingenious contrivances now in use on the stage will be seen when "The Gingerbread Man" plays at Ishpeeming theater next Wednesday evening. A silver crescent moon floats through the air, between the points of which there recedes a remarkably pretty girl, with a remarkably sweet voice. She sings the refrain of the song, "Moon, Moon, Moon."

It will be unnecessary to go through a painful, expensive operation for Piles if you use ManZan. Put up in a collapsible tube with nozzle, ready to apply. For any form of Piles, price 50c. Sold by The People's Drug Store.

HEMORRHOIDS SORES AND ECZEMA

Accompanied by Terrible Itching—A Complicated and Most Distressing Case—Well-known Remedies Failed to Cure—Doctor Thought an Operation Necessary—Then CUTICURA PROVED ITS WONDERFUL EFFICACY

"I am now eighty years old and one morning, three years ago, I was taken with a rash on my face and neck. In two days I had an attack of piles (hemorrhoids), bleeding and protruding. The doctor gave me some medicine and an operation, which helped me a little, but I had to keep using them all the time. Then I changed to the P— remedy; but if I did not use it every day, the hemorrhoids would come. The doctor said the only help for me was to go to a hospital and be operated on. At this time, about a year ago, I tried the Helvetia ointment, which did not get much help for my piles. During this time sores would come on a fleshy part of my body. They bothered me all the time. I would get one healed and another would come. These sores changed to eczema, accompanied by a terrible itching. It seemed as if I could not keep my hands from tearing my flesh. This and the pile trouble brought on an intolerable condition. Then I got the Cuticura Remedies. I washed the affected parts with Cuticura Soap and warm water, the morning, at noon, and at night, then used Cuticura Ointment on the irritated surfaces and injected a quantity of Cuticura Suppository Syringes. I also took Cuticura Resolvent Pills three times a day. It took a month of this treatment to get rid of the piles. My body state and then I treated myself once a day for three months and, after that, once or twice a week. It is fortunate that I used Cuticura. The treatment I had tried took a lot of money that I would have saved by using Cuticura Remedies sooner, but I am wiser now. I am supplied with a full set of Cuticura Remedies and would not feel safe without them. J. H. Henderson, Hopkinton, St. Lawrence Co., N. Y., Apr. 26, 1907.

Complete External and Internal Treatment for Every Form of Itch, Child and Adult, consisting of Cuticura Soap, Cuticura Ointment, Cuticura Resolvent Pills, Cuticura Suppository Syringes, Cuticura Cream, Cuticura Hair Dressing, Cuticura Toilet Soap, Cuticura Hair Cream, Cuticura Hair Oil, Cuticura Hair Lotion, Cuticura Hair Shampoo, Cuticura Hair Conditioner, Cuticura Hair Restorer, Cuticura Hair Tonic, Cuticura Hair Perfume, Cuticura Hair Cream, Cuticura Hair Oil, Cuticura Hair Lotion, Cuticura Hair Shampoo, Cuticura Hair Conditioner, Cuticura Hair Restorer, Cuticura Hair Tonic, Cuticura Hair Perfume.

ORGAN RECITAL TONIGHT.

Noted Organist Will Be at Swedish Lutheran Church This Evening.

The Marvelous Work, for "Creation"..... Haydn

A MILE OF PENNIES.

Ladies of Methodist Congregation to Raise Funds to Apply on Church Debt.

Wednesday evening the Ladies' Aid society of the First Methodist church will give a social in the church parlors. Refreshments will be served and a musical program rendered.

Some weeks ago the members of the society started to raise "a mile of pennies," to apply on the church debt. They are divided in two sections, to create a friendly rivalry. One section is working under the direction of Mrs. W. M. Arzall, the other under Mrs. Joseph Hodgson. Wednesday evening each side will report the progress to date, but it is not expected that the reports will show that the "mile of pennies" has been raised, as the sum represented is larger than the society could expect to accumulate in a few weeks. The value of a mile of pennies is \$844.80, requiring forty-eight pennies to cover a yard.

The ladies have plans for some unique entertainments to be held during the winter months, and the season promises to be a lively one in church circles.

SCORE HIT AT HANCOCK.

The Houghton Mining Gazette said of the Mack-Leone company, which is playing this week at the Kerredge theater, and which will be at Ishpeeming theater the last three nights of next week:

"The Mack-Leone players opened a week's engagement at the Kerredge theater in 'When We Were Twenty-One' last night. Willard Mack and Miss Maud Leone are artists in their line, and their work last night more than pleased the audience. The supporting cast is one of the best ever seen here and those present last night saw that a big treat is in store for patrons of the Kerredge theater every evening this week. 'When We Were Twenty-One' is a delightful play and could not have been presented in better shape by any company. The bill tonight will be 'The Lions,' a very interesting play. The company merits crowded houses."

CATHOLIC FORESTERS' OFFICERS.

The newly elected officers of St. Bridget's court, No. 110, of the Woman's Catholic Order of Foresters, are as follows:

Chief Ranger—Mrs. Catherine Gleason.
Vice Chief Ranger—Miss Agnes Welsh.
Recording Secretary—Miss Adele Peppin.
Financial Secretary—Mayme Connell.
Treasurer—Mrs. Virginia Gunville.
Trustees—Mrs. Mary Maney, Mrs. Louise Lavigne, Miss Mary Maloney.
Conductors—Mrs. Susie Murphy, Mrs. Selma Nichols.
Sentinels—Mrs. Johanna Meehan, Mrs. Della Morin.
Chaplain—Rev. J. A. Keul.
Chaplain-Examiner—Dr. Picotte.
Delegate—Mrs. Catherine Gleason.
Alternate—Miss Adele Peppin.

MACCABEES ELECT OFFICERS.

At the regular meeting of Jacques Cartier tent of the Knights of the Macabees held this week the following officers were elected for the ensuing term:

Commander—Luke Demaree.
Lieutenant Commander—Samuel Hnot.
Financial and Record Keeper—Emil Liorette.
Chaplain—Archie Mitchell.
Sergeant—John Charbonneau.
Sergeant-at-Arms—John Prevost.
Physician—A. E. Gordan.
First Master of Guard—Joseph Villeneuve.
Second Master of Guard—Joseph Gunville.
Sentinel—August Nault.
Picket—Alex Fragole.

FIREMEN ELECT OFFICERS.

At the regular meeting of No. 1 Hose and Hook & Ladder companies of the Ishpeeming fire department Monday evening officers were elected for the ensuing year as follows:

—Hose Company—
Foreman—Michael Nolan.
Assistant Foreman—Harry Shaney.
Secretary—Jerry Donovan.
—Hook & Ladder Company—
Foreman—Richard Trembath.
Assistant Foreman—Al Sandberg.
Secretary—James Doney.
Joint Treasurer—James F. Mullins.

The annual meeting of the department will be held tomorrow evening, when officers will be elected for the ensuing year.

ISHPEMING IN BRIEF.

F. Dolan and wife of Duluth spent yesterday in the city.

G. R. Watts, the piano tuner, will be at Gutz's store next week.

E. G. Zeigler of Colomet looked after business in Ishpeeming yesterday.

The Ladies' Birthday club met Wednesday evening with Mrs. John A. Olson.

F. A. Diamond and wife of Mayville, Mich., were Ishpeeming visitors yesterday.

FROM HOPKINS' CURB LETTER.

"For the first time since stocks started on this issue that he is prepared to do ladies' shampooing, face massaging, etc. He has recently put in one of the Halliwell electric drying machines. He has given the apparatus several tests and he says it is the finest device of the kind he ever has seen. Among the other up-to-date equipment in his shop is a face massage machine manufactured by the General Electric company."

HAS FINE EQUIPMENT.

J. H. Hooper, the barber, announces in this issue that he is prepared to do ladies' shampooing, face massaging, etc. He has recently put in one of the Halliwell electric drying machines. He has given the apparatus several tests and he says it is the finest device of the kind he ever has seen. Among the other up-to-date equipment in his shop is a face massage machine manufactured by the General Electric company.

Negaunee Department

LUMBERJACKS BEING SHAMEFULLY FLEECE

CHANCE FOR WOODSMEN.

Jobber from Covington in Negaunee Yesterday, Looking for Men.

Oliver Trombly, who has a contract from Thomas Connors to get out mining timber and pulp wood, was in Negaunee yesterday in search of fifteen experienced woodsmen. Mr. Trombly has forty acres of timber which he plans to cut over before the first of May, and in order to do so will need a force of about twenty-five men. He said that experienced lumbermen are not plentiful in the Covington district.

Mr. Trombly owns a farm and has been operating in the district for the past nine years. He was for a number of years driver of the hook and ladder team for the Ishpeming fire department. He has been successful both as a farmer and timber jobber. His crew this winter will be larger than he has ever before employed. He said that the working forces are being increased at all of the camps in that district, as the demand for wood of all kinds is unusually great. The jobbers will have no difficulty disposing of all the wood they can get out, and several of them have contracts for mining timber and pulpwood. He estimated that there are in the neighborhood of 500 men working in the woods within from three to six miles of Covington. The car service is better this season than it was last, and if it continues good later in the winter the output of wood, as well as timber, will be the largest in the history of the district. Mr. Trombly said that a number of experienced woodsmen can find places in that district. He is paying from \$20 to \$35 per month.

HURRICANES TAKE MATCH.

In the third of the series of league contests Wednesday evening at Orr & Tompkins alleys the Hurricanes defeated the White Sox. T. A. Thoren, of the former team, bowled 243 in the second game, his total in the three games being larger than that of any of the other participants. The scores were as follows:

White Sox	124	143	133	400
Wentela	156	184	172	512
Berglund	196	132	142	470
Lammie	476	459	447	1382
Hurricanes	106	139	141	446
Tompkins	115	243	159	517
Wasmuth	135	161	142	438
Totals	416	543	442	1401

DEFRAINE ISSUES CHALLENGE.

George Defraigne, manager of Orr & Tompkins' bowling alleys, has authorized The Mining Journal to say that he will bowl any man in the upper peninsula in a series of as many games as his opponent desires. He said that he would prefer to meet Dr. Van Iderstine of Marquette, who is considered one of that city's best bowlers.

TALK IT OVER.

With People You Know. With Marquette People.

No evidence can be stronger than the direct testimony of people you know. The public expression of friends and neighbors is the proof of merit we offer. If you still remain a skeptic, talk it over with this testifier.

Joseph Labissomiere, of 500 South Seventh street, Marquette, Mich., says and swears severely with my kidneys, and back for years and had to lay off from work a number of times on account of the intense pain all through my back. There was a constant dull aching misery accompanied by acute knife-like thrusts when I least expected them and the pain would be so severe as to bring tears to my eyes. The secretions from my kidneys were very much discolored. I doctored and tried many remedies without success until finally I saw Doan's Kidney Pills advertised and highly spoken of so I went to the Stafford Drug Co.'s store, obtained a box and began using them. I noticed a change for the better in twenty-four hours. I continued taking them using three boxes when the trouble disappeared and has never returned. My wife also used Doan's Kidney Pills and the results were just as satisfactory. We are both very glad to give our names as endorsers of this valuable remedy.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Bees Laxative Cough Syrup for coughs, colds and whooping cough grows in favor daily. Mothers should keep it on hand for children. It is gently laxative, driving the poison and phlegm from the system. It gives immediate relief. Guaranteed. Sold by The People's Drug Store.

J. H. Hooper, the Nelson House barber, invites Negaunee and Ishpeming ladies to try his shampooing and electrical hair drying work. Prices reasonable. Appointments when desired. (12-6-1w)

Upper Peninsula

Soo Bank's New Official.

At a meeting of the board of directors of the Sault Ste. Marie Savings bank held this week M. J. Magee was elected second vice president and will share with the president, M. J. Weaver, the executive management of the institution. This action is due to a growth of business which demands that Mr. Weaver be relieved of a portion of the executive work. Mr. Magee is a large stockholder in the institution and has a comprehensive knowledge of local conditions.

New Telephone System.

The articles of incorporation of the Daggett-Nathan Telephone company received at the county clerk's office in Menominee. The company is organized by Menominee county capitalists and will operate a line from Daggett to Nathan at the present time but will ultimately run to Faithton Junction, Norway and other points. The poles and wires have already been placed in position. The incorporators desired to get the line in before the frost was in the ground and they set their poles and strung the majority of their wires before the final articles of incorporation were filed. The directors of the company are C. W. Wilkins, Eugene Houde and Charles Erickson of Nathan and Paul Perizo and D. B. Landsborough of Daggett. Only ten rural telephones will be installed at the start but the lines will be extended and new telephones placed as often as opportunity is given. A long distance connection with the lines of the Bell company will be made at Stephenson. The company is the first rural and independent telephone company organized in Menominee county. The project has been talked of a great deal by Menominee county people, but it has never been pushed through. Now that a start has been made the stockholders predict a spread of rural service through Menominee county that will be decidedly rapid.

City Council at Odds.

With a threatened injunction from the mayor, a council divided on opinions in a telephone case as often as opportunity is given. A long distance connection with the lines of the Bell company will be made at Stephenson. The company is the first rural and independent telephone company organized in Menominee county. The project has been talked of a great deal by Menominee county people, but it has never been pushed through. Now that a start has been made the stockholders predict a spread of rural service through Menominee county that will be decidedly rapid.

AWFUL CREATURE WAS NINETY FEET LONG

Recent Growsome Experience of a Chicago Man Is Sample of a Series of Such Cases

During L. T. Cooper's recent visit to Chicago, where his new preparation and theory created the usual sensation, many hundreds of people brought enormous internal parasites to the young man, which had left the system after taking his medicine.

Among these people was Mr. Emil Winkler, who brought to Cooper a tapeworm that proved to be over ninety feet in length. Mr. Winkler, who resides at 182 East Ohio Street, Chicago, had this to say of his experience: "For five years I have been more or less complaining. I have had severe headaches, and any food that I would eat would nauseate me. I would have had dreams almost every night; dizzy spells would compel me to quit work. Black spots would appear before my eyes when stooping over and rising quickly. I would feel tired most of the time; in fact, I had no life in me to speak of for the last five years. I tried various treatments, and one physician in St. Louis was recommended to me, and I was under his treatment some time, but as usual I obtained no relief.

"So many people asked me to try Cooper's preparation that I decided to do so, and after using it for a few days, this awful thing passed from my system. I feel much better already, and I want to say right here that I thank Mr. Cooper a hundred times for what his medicine has done for me. I would not take \$5,000 and have that thing back in my system again."

Mr. Winkler is a fair sample of the experience of many during Cooper's stay in Chicago, and this no doubt helped to account for the enormous sale of the Cooper preparation in this city and others, recently visited by the young man.

We sell and will be pleased to explain the Cooper preparations. —Peoples Drug Store, Ishpeming, Mich.

COOK WITH GAS

MARKETS

NEW YORK STOCKS.

Wiring from New York yesterday Paine, Webber & Co.'s correspondent said: "It was another day of aggressive buying by the shorts in the stock market, and advances were scored all along the list. There was not much news of importance, other than the report of the suspension of a western banking institution, but it did not materially affect the market. Call rates were easy and the inquiry for currency was not as urgent as previously. It would seem that the interest behind the present upward movement in the stock market at this time is determined to force the greater part of the short element to cover and in this way bring about higher prices, which will undoubtedly stimulate confidence. We are disposed to regard the extreme advances in specialties with alarm, as conditions are hardly ripe for an extended upward movement."

Closing prices were: U. S. Steel... 27 1/2, M. Pac... 54 1/2, C. F. & L... 30, Rep. St... 20 1/2, I. & N. E... 75 1/2, S. Pac... 75 1/2, N. Y. C... 107 1/2, Atch... 74 1/2, C. P. H... 107 1/2, Rock Island... 15 1/2, Penna... 114 1/2, N. C. & S... 14 1/2, D. & H... 14 1/2, S. R... 14 1/2, U. S. W... 119 1/2, Mex... 84 1/2, B. & O... 84 1/2.

Boston Stock Quotations. Telegraphing from Boston, Paine, Webber & Co. had this to say of yesterday's stock market: "Profit taking put prices off a little at the close, but the results of the day's operations in both markets were very satisfactory to the bulls. Amalgamated acted worse than any other stock all day, and much bearish talk was circulated on it. Everybody said it short today, and I shall be surprised if Amalgamated is not the leader of the market tomorrow. I also expect to see North Buffalo taken in hands and advanced sharply. The Old Dominion suit, which has been in the courts for five years, was decided in favor of the company, but will probably be appealed."

Closing prices were: Amalg... 49 1/2, North Buffalo... 14 1/2, Old Dominion... 27 1/2, U. S. Steel... 27 1/2, M. Pac... 54 1/2, C. F. & L... 30, Rep. St... 20 1/2, I. & N. E... 75 1/2, S. Pac... 75 1/2, N. Y. C... 107 1/2, Atch... 74 1/2, C. P. H... 107 1/2, Rock Island... 15 1/2, Penna... 114 1/2, N. C. & S... 14 1/2, D. & H... 14 1/2, S. R... 14 1/2, U. S. W... 119 1/2, Mex... 84 1/2, B. & O... 84 1/2.

Copper Exports Very Heavy. The record-breaking exports of copper, amounting to 76,000,000 pounds in November, compare with preceding month's figures, which were also a record, of 62,000,000 pounds. The most prominent feature of the past month's outward movement was the passing of Holland as the largest recipient of American copper from first place, held for many months, to second position. The abnormally large shipping movement of the metal to England in the past few weeks brought that country up to first place. The government figures just at hand show that in October there were consigned to Great Britain from the United States 12,400,000 pounds of copper against 18,000,000 pounds to Holland. Preliminary estimates for November indicate that there was shipped to England in that month a total of 22,000,000 pounds against 18,000,000 to Holland. It was during the month of October that arrangements were made between prominent sellers on this side of the Atlantic and London copper interests whereby large quantities of copper which had accumulated in this country were to be taken over by foreigners and a heavy outward movement which started in that month was continued into November with the United Metals Selling company the largest consigning interest.

Copper Metal Prices. New York, Dec. 5.—Copper declined to 400, 17s, 6d for spot and to 401, 10s for futures in the London market today. Locally the market was dull, but without change, Lake being quoted at 13.37 1/2 @ 13.02 1/2, and electrolytic at 13.37 1/2 @ 13.37 1/2, and casting at 12.87 1/2 @ 13.12 1/2.

CHICAGO GRAIN MARKETS. Chicago, Dec. 5.—The rally in the stock market and the improved demand for wheat by exporters resulted in an advance of more than two cents in wheat here today. The opening was weak on selling by pit traders who were bearishly influenced by a decline of over a penny at Liverpool and a bank failure at Kansas City. Toward the middle of the season an active demand developed, especially from shorts, and there was a sharp advance, the close being strong, the May up 1/2 @ 1.01. May opened at 100 1/2 @ 1.01 1/2; highest, 101 1/2; lowest, 99 1/2 @ 1.01 1/2; closing, 101 1/2.

Not every man can be a savant, but any man can understand the wisdom of wearing a GORDON CAP

The Perry is a smart golf shape, made from the imported finest Kersey. With fur band, \$1.50; Hand made, \$2.00. De Luxe, \$3.50. Ask your hatter.

came active bidders, and free buying by the leading bull resulted in an advance of over a cent from the bottom. The close was strong, the May 1/2 @ 1.01 1/2; highest, 101 1/2; lowest, 99 1/2 @ 1.01 1/2; closing, 101 1/2.

Paine-Webber's Summary. Paine, Webber & Co.'s Chicago correspondent said yesterday concerning the Chicago wheat market: "There was a big professional trade in wheat today. Everything pointed to a weak and lower market early and there was both liquidation by longs and further selling pressure by the bears. The big bank failure at Kansas City, the lower cable from Liverpool, heavy northwest receipts, an increase of 525,000 bushels in the Minneapolis stocks so far this week, all helped the bears during the morning. Prices went off 1 1/2 cents from the closing. This appeared to exhaust the selling pressure and ran the market into a somewhat more dangerous position for the shorts. A spasm of buying quickly put the May price too low on the first rally. At this point strong people in the local trade took the buying side, absorbed all the local offerings and forced a strong upturn, helped by some rather influential bulls. News, Jones came out with a statement that the spring crop is already sixty per cent marketed. Omaha wired that the wheat reserves in Nebraska are low and the farmers are not selling. The export clearances were nearly one million bushels for the day. The situation is not materially changed. Perhaps the recovery which took place was natural after the almost steady decline for three days past. We look for excellent trading opportunities, but we think all operations should be well protected, whether long or short."

Chicago Pork Quotations. Chicago, Dec. 5.—January pork closed at 12.75 today, the May pork at 12.35.

GREENE-CANAEA. In Bisbee a few days ago, Colonel W. C. Greene was asked what the outlook was for a resumption of work at Cananea. He replied that work would be resumed there shortly, and that at the present time there was considerable work being done in the line of development. Mr. Greene stated that he had just returned from a trip to the City of Mexico, where he had been in conference with the Mexican officials in regard to the work that was to be carried on in the future at Cananea and at the properties of the Green Gold and Silver company's camps in Chihuahua. He also had a conference with the officials of the Mexican government in regard to the importation of oil as fuel into the Cananea camp, to take the place of coal, with the result that with a reduction that has been promised on the duties the company will use oil instead of coal. "By this change," said Mr. Greene, "we expect to save about 40 per cent of the present cost of coal, which will amount to several thousand dollars every month. We expect when work is resumed at Cananea, to cut down the operation expenses about one-half what they have been, and as a result of this will be able to produce copper at a reduction of about the same ratio." The colonel stated that he is of the belief that the price of copper will advance several points and that the metal will be quoted at eighteen cents soon after the first of the year. Mr. Greene while in the City of Mexico, besides getting the Mexican government to contribute the sum of \$3,000,000 for the extension of his Sierra Madre railroad, obtained an extension of the time to complete the work of two years from the first of next May. While in that city he also purchased a large site for a lumber yard for the wholesale trade. He is also negotiating for ocean rates via Tampico to the world's markets.

C. & H.—OSCEOLA. The Calumet & Hecla Mining company has obtained an order from United States Judge Knappen at Grand Rapids, directed against the Osceola Mining company, ordering the latter to show cause on Dec. 18 why it should not be held in contempt of court for a violation of the temporary order issued last spring restraining the Osceola from holding its annual election and from conducting other than regular routine business. The special venire alleges that the Osceola is erecting a \$40,000 building near the Keams mine. Attorney Dennison, for the Osceola company, says the petition will be contested on the ground that the building was contemplated a year before the commencement of the pending litigation.

Monday, at Grand Rapids, Judge Knappen began the hearing of the arguments on a motion filed by the Osceola company against the Calumet & Hecla to compel General Manager McNaughton, Head Refiners Cooper and Patch and Colonel L. T. Livernore to give testimony regarding the cost of the production of the brand of copper known as "lake copper," in which brand of copper Albert S. Bigelow, the plaintiff in the case against the Calumet & Hecla, alleges that the defendant company is seeking to establish and maintain a trust or monopoly of the production and sale.

The basis of the motion is the allegation of the defendant company, in which it is alleged that the Bigelow management of the Osceola company is a detriment to the stockholders therein, inasmuch as there is a lack of economy and

that the stockholders do not receive the returns they should on the production and sale of this brand of copper. The defendants point to the history of the Calumet & Hecla as a prosperous corporation and state that the prosperity is directly attributed to the economical and discreet management of the Calumet & Hecla company's executive officers. This allegation the Osceola company denies, claiming that the Calumet & Hecla company is seeking to establish and maintain a trust or monopoly in the production and sale of this brand of copper.

In establishing the contention the Osceola company demanded that the above named officers of the Calumet & Hecla company testify as to the cost of production of "lake copper" as produced by the Calumet & Hecla company. This they refused to do and the motion was brought to compel them to give such testimony and produce the books and records of the company to establish by documentary evidence the contention. The arguments will consume some time.

SHANNON. The Shannon is continuing operations on about the same scale as prevailed before the company began to feel the effects of the drop in copper prices. The new furnace has been operated with the notion of giving the company opportunity of getting the two old furnaces into first-class shape. When this is completed the Shannon will have no trouble in turning out 3,000,000 pounds of copper per month. The condition of the treasury has enabled the company to go ahead with considerable development work which will make ultimately for a much enlarged production of ore. The Coronado mine, which was bought some time ago as a hedge against the selling pressure and ran the big bank failure at Kansas City, the lower cable from Liverpool, heavy northwest receipts, an increase of 525,000 bushels in the Minneapolis stocks so far this week, all helped the bears during the morning. Prices went off 1 1/2 cents from the closing. This appeared to exhaust the selling pressure and ran the market into a somewhat more dangerous position for the shorts. A spasm of buying quickly put the May price too low on the first rally. At this point strong people in the local trade took the buying side, absorbed all the local offerings and forced a strong upturn, helped by some rather influential bulls. News, Jones came out with a statement that the spring crop is already sixty per cent marketed. Omaha wired that the wheat reserves in Nebraska are low and the farmers are not selling. The export clearances were nearly one million bushels for the day. The situation is not materially changed. Perhaps the recovery which took place was natural after the almost steady decline for three days past. We look for excellent trading opportunities, but we think all operations should be well protected, whether long or short."

Upper Peninsula. Bullets Riddled the Turkey.—Only because he carried a woodsman's "Turkey" slung across his back in William Pash, a Luce county man, still in the land of the living. Had he not been bearing the bag of clothing, he would have received a charge of buckshot in the body. Walking to Newberry after sundown from the farm of F. E. Gormley, Pash was mistaken for game by a party of hunters who were "shining" for deer, and was shot at. The Newberry News says that the turkey was fairly riddled by the bullets, but the man escaped unscathed.

HUNTING IN NEW ENGLAND. Fewer Moose and Deer Killed in Maine—New Brunswick Sportsmen Successful. Boston, Mass., Dec. 5.—The conclusion of the open season for moose hunting in Maine and for all big game in New Brunswick, the opening of the deer season in New Hampshire and the recent short season in Vermont, furnish opportunity for a general inventory of the sportsman's luck in this section of the continent. Statistics compiled from telegraphic reports received from the several centers show in a general way a less satisfactory season than in previous years. In Maine the open season on moose

has been more favorable than that on deer. A total of 165 moose have been received at Bangor from the great hunting grounds to the north and east of that city, compared with totals of 171 on the corresponding date last year, and of 206 in 1905. It is likely that the final receipts will bring the season's total up to 175. The progress of the Maine deer season, which although not concluded until Dec. 15, is now past its climax, has been much less favorable this year than usual because of a succession of heavy rains, which have kept the lowlands flooded and made traveling in the woods very difficult. A comparison, which shows a remarkable decrease in the number of deer killed, is the fact that only 2,164 deer have been received at Bangor to date, while at this time last year the receipts totaled 3,118, and in 1905 they were 4,025—not far from double this year's record.

Hon. Leroy T. Carleton of Winthrop, chairman of the Maine commissioners on inland fisheries and game, estimates that this far this season there have been killed between 12,000 and 15,000 deer, legally and illegally, which is from one-half to two-thirds of the number killed during last year. The black bear has been found in larger numbers than in previous years, thirty having been reported in favorably. Mothers should keep it on hand for children. It is gently laxative, driving the poison and phlegm from the system. It gives immediate relief. Guaranteed. Sold by The People's Drug Store.

Bees Laxative Cough Syrup for coughs, colds, croup and whooping cough grows in favor daily. Mothers should keep it on hand for children. It is gently laxative, driving the poison and phlegm from the system. It gives immediate relief. Guaranteed. Sold by The People's Drug Store.

Some manufacturers do not advertise because they know their goods are not the best, but depend on the unscrupulous dealer, who for the extra margin of profit substitutes theirs for the advertised article, claiming they are just as good. Don't be fooled—insist on getting what you ask for.

REPORT OF THE CONDITION OF THE First National Bank at Marquette, in the state of Michigan, at the close of business, December 3rd, 1907.

Table with 2 columns: Item and Amount. Includes Loans and discounts, Overdrafts, U. S. bonds to secure circulation, Bonds, securities, etc., Other real estate owned, Due from national banks, Due from state banks and bankers, Due from approved reserve agents.

RHEUMATISM BLOOD FILLED WITH URIC ACID. Rheumatism comes from an excess of uric acid in the blood. This acid circulating through the system acts as an irritant to the different muscles, nerves, bones and tissues of the body, and produces the inflammation and swelling of the joints and the sharp, cutting pains characteristic of the disease. When the blood is overburdened with uric acid it continually grows weaker and more acid, and poorer in nourishing qualities. Then Rheumatism becomes chronic, and not only a painful, but a formidable and dangerous disease. Sometimes the heart is attacked, the general health is affected, and the oils and fluids which lubricate the muscles and joints are destroyed by the acid matter which the blood is constantly depositing in them; the muscles shrink and lose their elasticity, the coating of the joints becomes hard and thick, and often the sufferer is left a hopeless cripple. S. S. S. attacks the disease at its head, goes down into the circulation, and by neutralizing and removing the uric acid from the circulation and building up the thin, acid blood, cures Rheumatism permanently. S. S. S. changes the sour, acid-burdened blood to a rich, healthy stream which quiets the excited nerves, eases the throbbing, painful muscles and joints, and filters out of the system the irritating matter which is causing the pain and inflammation. Begin the use of S. S. S. now and get the cause out of your blood so that the cold and dampness of Winter will not keep you in constant pain and misery. Book on Rheumatism and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

All these fine \$10 Coats will be sacrificed at this genuine closing out sale; for only \$4.89.

This is without doubt the greatest opportunity of the season to buy stylish Coats. Come today and tomorrow sure. COAT SALE J. J. CARROLL & CO. COAT SALE

REMOVAL OF WATER WORKS IS PROPOSED

H. W. NEBEL SUBMITS PROJECT AT LAST NIGHT'S MEETING OF WATER COMMISSIONERS.

GIVES ESTIMATE OF COST

Plan Is to Pump Water Supply from Station to Be Erected at Northwestern Point of Presque Isle.

The removal of the city's water works plant from its present site to the northwestern point of Presque Isle, as a means of obtaining a pure water supply was the project presented at a meeting of the water board last night by H. W. Nebel, the most recently appointed member of the board. The project was presented in the form of a communication which is given below, and it includes an estimate of the cost of the work.

In connection with his proposition Mr. Nebel spoke at length, describing how the work might be done and explaining how he had arrived at the figures of the estimate. This estimate, he said, is based upon the opinions of experienced men and upon calculations taken from text books. The size of the supply pipe which it is proposed shall be used is a 24-inch pipe of sufficient strength to answer all needs.

In the absence of two members of the board last night it was deemed advisable to adjourn the meeting until next Tuesday night, when the project is to be discussed. Mr. Nebel's communication follows:

The Honorable Fire and Water Board, Marquette, Mich.
For the past five years there has been considerable agitation in our city over our present water supply. Solutions have been offered and suggestions made, but all to no purpose. Some have been impracticable and others impossible.

The writer heretofore has been engaged since his appointment on the board, in making a thorough investigation of the probable cost of moving the entire plant to some point north of the city where contamination of the city water be impossible, either by sewage or other filth. The fact that people of Marquette have been drinking sewage can no longer be denied, nor can it be concealed from them who have a right to know what they are paying for. Tests of water from the lower harbor have been conducted for a number of years past, in order to find a spot where the water would be sweet and pure, but as yet none has been found, as the members of this board know, and the writer feels sure that there is a great doubt if such a place can be discovered in the vicinity of the present location of the intake.

Marquette is not decreasing in population and from the present outlook will enjoy a more healthy growth than ever before.
Now then, to all sound healthy think-

ing people, what does this mean to our water supply? It simply means that more sewage will be dumped near the mouth over the intake, and that it is only a matter of a short time before something will have to be done to remedy the evil. The water in the Carry river is now so contaminated by fish-penning and prison sewage that horses will not drink of it, and surely some of those impurities must find their way in to our water supply!

After careful thought and thorough investigation I have compiled the following figures, being an approximate cost of what money it would take to move our plant where we would always be insured of good water and our good people protected from disease germs:

Pipe	\$75,500
Labor	34,000
Lead	2,500
Valves	400
Jute	311
New pump, El. & St.	20,000
Moving pump station	7,000
Moving machinery	4,000
Intake	10,000
Incidentals	5,000
Total	\$159,711

While this may look as a very large sum, we must deduct \$20,000 for new equipment, which we would have to buy sooner or later, and furthermore, \$25,000 would have to be expended in the near future for a main from Fair avenue to the L. S. & I. dock. This sum taken from the total would not leave such an enormous amount to be taken into consideration.

If the pumping plant, with its intake, were to be located as above proposed, sewerage might be emptied at a by-point from Dead River, south, which fact would greatly simplify the problems now confronting us, and save thousands of dollars to a city which would enjoy a supply of water of unquestionable purity, and at the same time have a ready outlet for its sewerage.

I respectfully submit the above for your earnest thought and consideration.

Yours respectfully,
H. W. NEBEL,
Member of Water Board.

CAME IN DISABLED.

Steamer Fayette Brown Arrives in Port With Damaged Steering Gear.

The Fayette Brown of the Northwestern Navigation company limped into port yesterday afternoon in a disabled condition, after a hard struggle with the seas off Keweenaw point. The steamer sailed from Two Harbors Monday with a cargo of 3,400 tons of ore which she had taken on there. After leaving Two Harbors she went to Ashland where she cooled and then started down the lake. She encountered heavy weather and just as she was rounding Keweenaw point her rudder tackle broke. It was only with difficulty that she was steered as far as Marquette with the impaired steering tackle. She was repaired here and sailed last night.

Hollister's Rocky Mountain Tea purifies the blood, regulates the bowels, aids the kidneys, cures stomach troubles, builds up the nervous force; makes you well and happy. 35 cents, Tea or Tablets. The Stafford Drug Co.

Ten more choice cows wanted at Marquette City dairy to supply the popular demand for Vandenberg's fresh aerated milk, the most perfect human food in the market. (12-6-1w)
