

BIG FLEET STARTS ON LONG JOURNEY

In One Line, Four Miles Long, Admiral Evans' Sixteen Ironclads Sail from Hampton Roads, Headed for the Golden Gate.

President Roosevelt Personally Leads the Ships During the Initial Stage of the Most Notable Practice Cruise in All Naval History, and Then Reviews the Pageant—First Stop Will Be at Trinidad, and There in the Tropics Christmas Will Be Spent.

Old Point Comfort, Va., Dec. 16.—Sixteen hard-hitting, steel-belted American battleships, gun-bristling and burly of girth, but sparkling white in their immaculate dressings of peace sailed away today under the dazzling sun of a cloudless winter sky on their famous two-week expedition of fourteen thousand miles, along foreign shores and in changing climes, to the west coast of the United States.

President Roosevelt, standing on the bridge of his cruiser-yacht, Mayflower, personally led the magnificent four-mile line of fighting vessels during the first stage of the voyage. From the anchorage ground in Hampton Roads to the Horseshoe Bend of Chesapeake bay, his eagle-crested flag of blue pointed the way to the fleet's new home at the Golden Gate.

Inspiring Spectacle. The blue of the sky, the stretch of green sea-miles, the glistering of the spotted hulls, the curl of the foam-crested bow-waves, the cheering of sailors aloft and warriors ashore, the breeze-blown strains of "Auld Lang Syne" floating across the waters, the blare of trumpets, the rattle of drums, the flash of signals and the boom of saluting cannon—these marked the departure of the fleet, presenting to the people who watched a spectacle they will never forget and to the world-at-large a reality of the trimmest, suggest, most homogeneous, most thoroughly equipped, most mobile and self-reliant assemblage of first-class battleships ever gathered in one command.

Excitement Not Likely. The blue of the sky, the stretch of green sea-miles, the glistering of the spotted hulls, the curl of the foam-crested bow-waves, the cheering of sailors aloft and warriors ashore, the breeze-blown strains of "Auld Lang Syne" floating across the waters, the blare of trumpets, the rattle of drums, the flash of signals and the boom of saluting cannon—these marked the departure of the fleet, presenting to the people who watched a spectacle they will never forget and to the world-at-large a reality of the trimmest, suggest, most homogeneous, most thoroughly equipped, most mobile and self-reliant assemblage of first-class battleships ever gathered in one command.

Attorney General Threatens to Oust the Mayor and Chief of Police of St. Paul.

St. Paul, Dec. 16.—A delegation of business men called on Attorney General Young today and asked him not to enforce in St. Paul the state law requiring saloons to be closed at 11 o'clock p. m., but to allow the 12 o'clock closing ordinance in this city to cover the situation.

Has Earnest Conversation With Evans. Admiral Evans, commander-in-chief of the departing fleet, was the first of the flag officers to be piped over the side of the Mayflower.

RATE COMBINE IS CHARGED. Licenses of Two Fire Insurance Companies Revoked in Texas.

Assets Much the Larger. Hazleton, Pa., Dec. 16.—The Janesville Iron Works tonight went into the hands of a receiver. The bill alleges liabilities of \$491,000, assets of \$741,000.

TILLMAN HEARD IN FIERY SPEECH

Senator from South Carolina Entertains With a Characteristic Discussion of the Financial Affairs of the Country.

President Roosevelt, Secretary Cortelyou, the Attorney General and Captains of Industry All Come in for Denunciation, and Praise is Accorded the Patriotism of J. P. Morgan in Aiding the Precipitation of Further Loss and Horrors on the Nation.

Washington, Dec. 16.—A characteristic speech by Mr. Tillman, filled with denunciation of the president, the secretary of the treasury and the department of justice, and financiers and capitalists of industry, was the chief subject of interest in the senate today.

Money Dumped Into Wall Street. The treasury, he said, has "dumped" money into Wall street, and the country has praised the patriotism of J. P. Morgan in aiding the country to get a grip on itself and let everybody go crazy and precipitate further loss and horrors on the nation.

Excitement Not Likely. Tokyo Long Ago Reconciled to the Sailing of the Atlantic Fleet.

THEIR THROATS ARE CUT. Pennsylvania Woman and Child Victims of a Fiendish Murderer.

FISH GETS HIS PROXY. Baron Rothschild Hostile to Illinois Central's Present Directorate.

HOUGHTON COUNTY ELECTRIC LIGHT CO.

SUICIDE IN HOUGHTON.

Woman Puts an End to Her Life With Carbolic Acid.

May Wentworth, thirty-four years of age, was found dead on the floor of her bedroom in a house in which she was living on Edwards street, Houghton, Sunday night.

The woman was living with a man named Al. Sellers, a plumber, according to the story gathered by Sheriff Beck. She had been an inmate of a questionable resort in one of the south range towns, which the sheriff had recently broken up.

Sellers has been working at Rockland, but he returned to Houghton Saturday night. On Sunday another couple called at the house and there was some drinking, to the extent that the Wentworth woman became sadly intoxicated.

FINNISH COLLEGE REMOVAL.

Another Town Offers Site—Is Up to the Annual Meeting.

Interest in the proposed removal of the Finnish college (Suomi Opisto) from Hancock was revived yesterday by the receipt of a new offer of a site.

The proposal to move the college from Hancock did not originate with the college directors as supposed. It seems to be the belief that the institution is not a success in Hancock for some reason, while the fact is that it is the very growth of the college which makes probable its removal to another city.

Additional buildings and added grounds are possible in the present location of the college on account of the prohibitive values of the adjacent property.

There never was a bad man figuring in a Western farce or fiction who gained the popularity that was the lot of "Billy the Kid," an actual character and murderer de luxe.

AS SUCCESSFUL EAST AS IN THE WEST

Cooper's Theories Are Being Rapidly Accepted by Eastern People.

TOURNAMENT SUBSCRIPTIONS.

Houghton Citizens' Committee Is Going After the Delinquents.

President Miller of the village of Houghton, who is also president of the committee which a year ago last August had charge of the business management of the tournament of the Upper Peninsula Firemen's association, is about ready to do something desperate in order to make some of the delinquent subscribers pay up.

THE VALUE OF PERSONAL KNOWLEDGE. Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of the Well Informed of the World.

cess of receipts and numerous unexpected conditions.

BREWERS' CONFERENCE. Copper Country Manufacturers of Beer Depart for Menominee.

A special meeting of the Upper Peninsula Brewers' association is to be held at Menominee today, and all the copper country brewers are to be represented.

Now for "Billy the Kid." There never was a bad man figuring in a Western farce or fiction who gained the popularity that was the lot of "Billy the Kid," an actual character and murderer de luxe.

COPPERDOM BREVITIES.

James MacNaughton, general manager of the Calumet & Hecla, is in Chicago on business.

Mr. and Mrs. Sidney F. Karger have arrived in Houghton after an extended wedding tour.

The new 1,000 and 2,000-mile books of the Western Passenger association went into effect on the roads into the copper country yesterday.

The Houghton village council held a special meeting last night to review the assessment of the West Houghton sewer.

Under Sheriff W. H. Vivian has returned to Houghton from Ionia, to which place he had taken a prisoner for the state reformatory.

W. H. McGrath, general manager of the Houghton County Street Railway and Electric Light company, has returned from a business trip to Omaha, Neb.

In the shoot of the Houghton Gun Club Sunday, John C. Pryor broke fifteen birds straight in the fifteen-bird match and kept the lead in the club trophy contest for the year.

The Postal Telegraph company is to move from the Douglas House building to the office recently vacated by Gay & Sturges in the National Bank of Houghton building. The change will be made Jan. 1.

George H. Banks, United States junior engineer in charge of the Portage Lake waterway, left yesterday for Norwalk, O., his old home, for a month's vacation.

Mrs. Hugh Bentley of Scanlon, Minn., who is visiting her husband's parents, Mrs. and Mrs. George C. Bentley, at Hancock, was taken to the Lake Linden hospital yesterday to undergo an operation for appendicitis.

A boom has been started in Calumet for the selection of James MacNaughton, general manager of the Calumet & Hecla Mining company, as delegate-at-large from the upper peninsula to the Republican national convention next year.

Workmen digging in Calumet on Saturday for a location for a gasoline tank for the use of the high school location found a piece of float copper weighing 1.25 pounds. It was within three feet of the surface. The company took charge of the find.

advertising is that it will be a good show nevertheless.

OLD BOYS RETURN HOME. Copper Country a Mecca This Winter for Former Residents.

One of the noticeable features of the return winter in the copper country is the return to all of the towns of numbers of former residents who have come home to spend the cold season.

HANCOCK CITY COUNCIL.

A meeting of the Hancock city council was held last night. There were two important matters discussed, the first the bond issue, bills for the bonds at a 6 per cent rate of interest having been received.

The funeral of the late Mrs. Edward F. Cuddihy of Calumet, wife of Assistant Cashier Cuddihy of the First National Bank of Calumet, was held yesterday morning from the Sacred Heart church, Hecla. The remains were interred at Lake View.

The Christmas operetta, "The Changes of a Night," was presented in the Hancock High school assembly room last evening and will be repeated tomorrow night. It is given by the children of the schools under the direction of Professor Colman, supervisor of music.

Mining News

UTAH COPPER-BOSTON CONSOLIDATED

In spite of the adverse conditions of the copper market generally Boston Consolidated and Utah Copper company have made steady progress in the completion of their works and are now in a position to show what they are capable of.

The Utah company has completed the first unit of its plant at Garfield location and within sixty days it will have completed its second unit, so that its daily capacity will be a possible 6,000 tons of ore.

The company plans to continue the extension of the concentrating plant, so that it will be able to handle something like 10,000 tons of ore daily at some time within the next two years. To do

into effect on the roads into the copper country yesterday.

THE CITIZENS' NATIONAL BANK HOUGHTON, MICHIGAN OFFICERS: Graham Pope, President. C. V. Seaber, Vice-President. C. H. Moss, Cashier. DIRECTORS: Graham Pope, C. V. Seaber, E. F. Chynoweth, J. H. Jansberg, C. H. Harkness, P. H. Holden, A. M. Schulte, John G. Stone, C. H. Moss.

this, however, it will have to consider the transportation facilities which have shown themselves to be pitifully inadequate and which must be remedied some way or other before either the Utah Copper Co. or the Boston Consolidated can hope to have means of transporting the huge tonnages the plants will consume daily.

CHICHESTER'S PILLS THE DIAMOND BRAND. Sold by druggists everywhere.

NORTH BUTTE.

The affairs of the North Butte are very evidently dictated by the Amalgamated and United Metals Selling interests. This company and Butte Coalitions are practically the only Butte companies outside the Amalgamated fold that have gone to the same extreme in curtailing producing and reducing dividends as has the big company.

It has been asked just what sort of a contract the North Butte has with the Washoe Copper company and some intimations are heard that the company will break this contract and send its ores to an outside smelter.

Under the new contract settlements are based on the average selling price received by the United Metals Selling company for all electrolytic copper delivered by that company during the third calendar month following the receipt of ore.

Under the new contract settlements are based on the average selling price received by the United Metals Selling company for all electrolytic copper delivered by that company during the third calendar month following the receipt of ore.

The new contract is very satisfactory to the company and is considered by your board.

To Heat a Cold Corner

PERFECTION Oil Heater. Don't sit in the cold—a touch of a match—a steady flow of genial warmth and in the corner that's hard to heat you'll have real solid comfort with a Rayo Lamp. It's the smokeless device that does it. As easy to operate and clean as a lamp. Brass font holds 4 quarts—gives intense heat for 9 hours. Finished in nickel and japan—every heater warranted.

The Rayo Lamp is the best all-around lamp made. Equipped with the latest improved central draft burner. Made of brass throughout, nickel plated. Just the light to read by—bright and steady. Every lamp warranted. If your dealer doesn't carry the Perfection Oil Heater and Rayo Lamp, write our nearest agency for descriptive circular.

City Brevities

The local news will be found today on pages 4, 8 and 10.

A dance is to be held tomorrow night at Keough's Hall.

W. T. Cole of Ishpeming was a visitor in the city yesterday.

H. M. Estabrook of Dayton, O., is in the city visiting friends.

Dr. Deadman left for Ishpeming on the evening train last night.

William Evers of Negaunee was in the city on business yesterday.

John Havey of Crystal Falls was a visitor in the city yesterday.

David Scanlon of Negaunee was in the city on business yesterday.

Charles E. Clement of Shingleton paid a recent visit to friends in the city.

J. F. Corn of the copper country is paying a visit to friends in the city.

John H. Granville of Bayfield, Wis., was in the city yesterday on business.

L. B. Hessler of Ishpeming was a visitor in the city yesterday, on business.

Manager Ludington of the County Telephone company was in the city yesterday.

John Murray and Dan Murray of Bayfield, Wis., are paying a visit to friends in the city.

Dr. Gregory of Marinette, Wis., was in the city yesterday and left last night for his home.

C. G. Orendoff and W. A. Wilson of Milwaukee were business visitors in the city yesterday.

Mr. and Mrs. Marchal Chase of Limestone, Mich., are paying a visit to Marquette friends.

Rev. Charles Wilkens, pastor of the Swedish M. E. church is recovering from an attack of illness.

Max Reynolds, son of J. G. Reynolds has returned from Princeton to spend the holidays with relatives here.

A. Erick Swanson of Ishpeming paid a recent visit to his brother, Charles O. Swanson of Morton street.

Fred Berg of Ishpeming and Harry Nightengale of Negaunee were business visitors in the city yesterday.

William Barber has gone to Cheboygan to attend the funeral of his sister-in-law, Mrs. Henry Barber.

The Misses Genevieve Devins, Gladys Eymor and Hazel Eymor of Mangum were visitors in the city yesterday.

Mrs. A. C. Anderson of the Summit House, who has been in Chicago on business for the past several days, returned home yesterday.

John DeMeled, a former Marquette resident and now representing a Philadelphia firm, left yesterday after paying a visit to friends here.

Fred G. Burch, clerk at the Hotel Marquette is to leave today for Albany, N. Y., his home, where he is to visit relatives. From there he is to go to Chicago where he will spend a few days with a brother before returning to Marquette.

Marriage License—A marriage license was issued yesterday for the wedding of James Langdon and Miss Lela Trezider, both of Negaunee.

Bar Association Banquet—The banquet this year of the Marquette County Bar association is to take place at the Hotel Marquette and will be held on the evening of Dec. 30. The invitations are now being issued.

Ball Game and Dance—Invitations are out for the first of a series of dancing parties being given by the U. O. Council, No. 186, U. C. T. at Fraternity Hall. The dance will be held Saturday evening and will be preceded by an indoor baseball game which will begin at 8 o'clock.

For the Chickens—Charles O. Swanson, the tinner has just completed a patent watering trough for chickens. It is a galvanized iron pail in which the water is kept and which feeds a trough. By its use the water is automatically kept fresh and clean. He is to apply for a patent.

Wellknown Singer Coming—Miss Libby Cox, the wellknown singer and at one time with the Dolly Dimples company will be in Marquette for a three day engagement at the Grand. Miss Cox is a singer and a whistler, and it was only with difficulty that Manager Koppes secured her services. She will make her first appearance Thursday afternoon and will appear at each performance through Thursday, Friday and Saturday. In connection with this specialty, a number of high class moving pictures are to be shown.

Ordered Out of Town—Three men and three women with five children, all of them wandering gypsies, who arrived here yesterday from the Soo were forced by the police to continue a journey which so far has carried them into a number of upper peninsula cities. They were first heard from at Superior. They were driven from there to Houghton, then to Calumet, then to the Soo and finally from Marquette to Negaunee yesterday. They appeared to be without support and were wandering about offering to tell fortunes.

To Solve Water Problem—Exactly what Marquette should do to solve the vexing water problem is to be determined finally tomorrow afternoon at the high school. The question has been submitted to six members of the debating class in the form, "Resolved that Marquette should move its water works plant to a point north of the city" and three to a side, it is to be settled definitely. The three who will argue that the removal should be made are the Misses Mabel McMartin and Anna Sweder and Edward Lawrence. Those opposed are the Misses Elma Kraft and Margaret McCombs and Vincent Burrows. It is probable that the water commissioners promptly will call upon Professor Brink for a report of the debate.

You know as well as any one when you need something to regulate your system. If your bowels are sluggish, your food distresses you, your kidneys pain, take Hollister's Rocky Mountain Tea. It always relieves. 35 cents, Tea or Tablets. Stafford Drug Co.

CARNEGIE'S ADVICE SAVED INSTITUTE A LARGE SUM.

Foresaw Period of Depression and Will Get Buildings More Cheaply.

Washington, Dec. 16.—Canny Uncle Andy Carnegie gave \$2,000,000 the other day to endowment fund of the Carnegie Institute of this city, which he founded a number of years ago and to which he had previously given an endowment of \$10,000,000 as also had incidentally "tailed up" a lot of deficits in annual accounts.

It has leaked out that the steel king a year or so ago gave this institution a bit of advice that didn't require half so much time as writing a check for a few million dollars, which saved the concern enough money to endow a country college beyond the utmost hopes of most of them. Appropos of the present industrial situation, the advice which Mr. Carnegie was able to give nearly a year and a half ago is interesting.

The Carnegie institution is going to erect one or more great buildings in this city, at a cost of a million or more. Just when it will do so has never been determined. It was disposed to do it last year, when Mr. Carnegie interposed his advice.

"Wait two years and save a third of the cost," he told the board of directors of his institution.

The board waited. Mr. Carnegie explained to them that there was certain to be a period of depression before long and that the cost of both building materials of all kinds and labor would be lower. He advised that in view of what he considered the certainty of such a change, public and semi-public expenditures ought to be postponed for two seasons. One was that it would have money, and the other was that when a period of depression should set in, institutions able to spend large sums of money in buildings would be doing a public service to make their contracts and help business and labor conditions by contributing so much to keep labor and industry busy.

The Carnegie institution directors now understand how valuable was the advice, and it is expected they will move next spring toward erecting their buildings.

WILL BE POSTMASTER AGAIN.

Washington, Dec. 15.—Postmaster Wyman of St. Louis will succeed himself. Charges had been preferred against Wyman, but investigation failed to show that they could be sustained. Mr. Meyer made it clear that the reappointment of Wyman is in accordance with the policy introduced two years ago and now firmly established of retaining in office postmasters who are performing their duties satisfactorily.

MUSIC, the Busy Man's Tonic

If you go to a fine concert at the Opera house, you will be struck with the fact that in the audience women are largely in the majority.

But that does not prove that men do not like music. In the afternoons they are engrossed with business affairs. In the evenings they are too tired to go out.

What they have been waiting for was the Pianola—an instrument that will bring the music to them, rather than compel them to go to the music. An instrument that gives the keenest form of pleasure to be derived from music—the fascination of producing it yourself.

THE PIANOLA \$215 AND \$300
THE PIANOLA PIANO \$500 AND UP

Purchasable by Moderate Monthly Payments

CAUTION: Do not make the mistake of supposing that any Piano-player may be called a PIANOLA. There is but one PIANOLA—made only by the AEOLIAN COMPANY.

Upper Peninsula

His a Finnish Murderer—
 Doomed to spend the remainder of his days within its gloomy walls, Tony Duley is the latest arrival at the Marquette penitentiary. Convicted of a shockingly brutal crime, he has become a notable addition to the prison's colony of "lifers" that now numbers nearly two score out of a total population of approximately 300 men. The deed for which he is now behind the bars, there to remain until only death shall set him free, was the fiendish murder of John Ferris, a steamboat agent, whom he cruelly slew at Au Sable only a few weeks ago for a paltry sum of money.

Duley is a former convict. He is aged thirty-five and is a native of Alpena. He was generally characterized as a "bad man" in the lower portion of the state, and he was well known to the police of various cities, having been arrested on numerous occasions for different crimes. It was while lurking about the lake front at Au Sable in broad daylight, awaiting a chance to steal a ride to Detroit, that Duley deliberately shot down Ferris. His victim was the dock agent for the Osceola & Au Sable Steamship line, and it was when Ferris resisted the attempt of the man to rob the office that he received the revolver bullet that put an end to his life. Gathering all the cash in sight, amounting to only two or three dollars in change, Duley fled from the scene of the tragedy. Ferris had just strength enough to crawl to the telephone and give the alarm. When help arrived, he was dead.

An exciting man hunt marked the pursuit of Duley, and only for the intervention of the sheriff it would have culminated in a lynching. His capture was effected in a swamp six miles south of Au Sable twenty-four hours after the

commission of the murder. Two Detroit & Mackinaw section men engaged in pursuing their hunter toward Tawas City first sighted Duley lying in a clump of brush. As they neared him he jumped up and ran. One of the section men recognized him as Duley. They continued on their way until they met a hunter with a rifle. Drowning the gun they ran their car back to where Duley had entered the jack pine woods. The fugitive was seen, and when he refused to halt, the man with the rifle opened fire. The bullets went wild.

A passenger train hove in sight, and thinking a railroad detective might be aboard the section men signaled it to stop. Sheriff Curry was one of the passengers and with the section men he took up the trail. The train ran on to Tawas City and the alarm was given. Over 100 armed citizens at once started for the swamp. With a cordon about the big swale the sheriff and others went in. There they found Duley.

"Throw up your hands," commanded one. Duley put up one.

"Put up the other or I'll put a hole through you," said the man-hunter.

"I don't know as I will and I don't know as I care if you shoot," replied Duley.

While being led from the woods Duley broke down. "I'm sorry you men didn't get me with that rifle when I was running," he said. "It would have been better for me, perhaps."

Members of the posse wanted to put an end to the murderer there in the swamp, but Sheriff Curry promptly put a stop to the talk of this kind and within an hour had the prisoner in the Tawas City jail. Violence was feared at Au Sable, and Duley was not taken there. This was a month ago. Now Duley is in Marquette prison, sentenced for life.

Game Warden's Strenuous Battle—
 For a whole week this city has been in a stir over the legal fight between the two McDonald boys of Chicago and Game Warden Hayward of Escanaba, reports a Bessemer correspondent. Monday an old case, tried a month ago and in which the jury disagreed, came up, but was dropped by the prosecuting attorney after the state got through with its witnesses and had failed to prove the charge—killing deer out of season. Tuesday the McDonalds had their inning against the game warden for trespassing on their premises at Bean lake and confiscating a lot of hides there in process of tanning. After an all-day trial judgment was obtained against the game warden for \$80 and costs.

Wednesday a new case was started against the McDonalds for having some deer hides in their possession out of season, and trial on this was on three days before a jury until Friday when the prosecuting attorney again withdrew his case on the plea that the jury had been tampered with during the night. An attorney from Escanaba appeared as assistant to the local prosecuting attorney and swarms of expert witnesses from Chicago, Merrill, Wausau and other places were on hand to prove the kind of hides confiscated and the probable time since taken from the animal.

Now the third attempt is on, this time before a justice at Ironwood, to make out a case against the McDonalds and the lawyers, game warden, prisoners, witnesses, etc. are now there and the legal battle will all be threshed over again. So far the county has been put to an expense of probably \$1,000.

When winds shriek high in fiendish gloe, And enters winter with his key Protect yourself, from disease be free; Take Hollister's Rocky Mountain Tea. The Stafford Drug Co.

COOK WITH GAS

Ishpeiming Department

EXODUS OF FOREIGNERS IS STILL GOING ON

PARTY OF FORTY-FIVE OR MORE FINNS WILL DEPART TOMORROW MORNING—ALL YOUNG MEN LAID OFF SATURDAY.

Forty-five natives of Finland, most of them young men laid off Saturday by the Oliver Iron Mining company, have secured tickets from this city to Liverpool and will leave via the South Shore tomorrow morning at 4 o'clock. It is expected that from ten to fifteen others will join the party, which will have a special car.

Other foreigners now idle here inquired at the Ishpeiming ticket offices regarding transportation to European ports and it is expected that by the end of the week 100 or more will be en route to their native places. Many of them are waiting to secure their money from the banks. They gave notice of their intention of withdrawing their deposits, but cannot get their money until the expiration of the sixty day period.

The railway agents are advised from New York that the rush of foreigners for European countries is still heavy and many people have to wait for accommodations on the steamships. The party leaving tomorrow will go to Portland, Me., where they will have no delay in securing passage.

The men laid off Saturday were paid yesterday. They received checks for twenty per cent currency at the banks and cashiers' checks for the remainder, the latter being in denominations of \$1, \$2, \$5, \$10, \$20 and \$50. The Oliver company's clerical force worked Sunday in order to get the checks ready for distribution.

OPEN AFTER CHRISTMAS.

J. Wallman & Son will within the next few days complete the improvements at the Ishpeiming Ski club's house at Deer Lake. The executive committee has decided not to open the club house until after Christmas, when a big meeting of members and their ladies will be held. Members who have inspected the house during the past few days are much pleased with it. The main room, which has a fine hardwood floor suitable for dancing, is sixty-feet long by twenty-six wide, with a five-foot fire place on the south side. A kitchen, toilets, dressing rooms, etc., have been fitted up.

WORKING AT HOTEL.

Several men are now employed renovating and redecorating the Nelson House. Ten or a dozen of the sleeping rooms have been gone over and the workmen are now finishing up the dining room. Every room in the house will be given attention, and the work planned will keep the present force busy for at least three months. A new range and other equipment have been installed in the kitchen.

WATER GAUGE INSTALLED.

Pressure on Mains Can Be Ascertained at the Board's Office.

The board of public works has placed in its office one of the Crosby Stearns, Gauge & Valve company's water pressure gauges. It is similar to gauges in use at the power plant of the Marquette County Gas & Electric company, also at the mine engine houses where electric plants are operated. In the event of a leakage the pressure falls, as under normal conditions it remains at thirty pounds all day, except between 6 and 7 o'clock, when the pumps are in operation for thirty minutes. The pressure then increases from sixty to eighty pounds, but quickly falls back to thirty when the pumps are stopped. There are three points in the city where water is obtained only when the pumps are in operation. These are the Jasper, Hill and Summit streets, all of which are more than 100 feet above the street level in the business district. The normal pressure is not of sufficient force to carry the water to Bluff street, but all of the dwellings there are owned by the Oliver Iron Mining company, and occupied by employees, and an automatic pump keeps them supplied with water.

FROM HOPKINS' CURB LETTER.

"Coppers opened fractionally lower this morning and have been inclined to sag all the day. The weakness in New York has had a depressing effect. There has been no change in the metal market, but we look for some betterment in this respect after the first of the year."

Table with columns for commodity names and prices. HARD WOOD PLENTIFUL.

Dealers Do Not Now Expect Shortage, as Was Some Time Ago Feared.

Two months ago it was predicted that the supply of hard wood would not last more than three months, but since then the jobbers have placed a larger quantity of wood on the market than the dealers expected. The fuel concerns are this fall paying a higher price for wood than ever before, but there is no immediate likelihood of a cut, as a number of dealers have not yet procured all the dry hardwood they will need.

All of the Ishpeiming concerns are now well supplied with dry wood, the stock on hand being the largest they have had at any time in the past four months, and wood is being received at the rate of from eight to fourteen carloads per day.

Conditions are favorable for wood operations. There is sufficient snow for good sleighing and men are plentiful. It is said that the output in the Covington district will be larger than ever before, as more than 500 men are employed. Besides cutting wood, the jobbers are also getting out mine timber and pulp stock, both of which are in good demand. Little green wood has been received here, though some of the dealers have already made heavy purchases of stock to be delivered later in the season. The demand for green hardwood is usually better in March and April than at any other time of the year, as many buy it then and pile it away to dry for the following winter. Green wood as a rule is cheaper than the dry variety, and it those who buy in the spring effect a saving by doing so.

ELECT NEW ORGANIST.

Miss Amanda Anderson, who for several months past has been studying music, with particular attention to the pipe organ, at the Minnesota college, Minneapolis, was Sunday elected to the position of organist at the Swedish Lutheran church, succeeding Alfred Rydberg, who recently tendered his resignation to accept a similar position at a new church at Erie, Pa. Mr. Rydberg will leave here after the first of the year. Miss Anderson is expected home before Christmas.

ISHPEMING IN BRIEF.

The infant son of Albin Pearlstrom died last evening. Jerome A. Rayome of Iron Mountain was in the city yesterday. The funeral of the late Ole R. Oien will be held tomorrow afternoon. The employees of the Cleveland Hard Ore and Salisbury mines will be paid today. Dennis Coughlin, a pioneer resident of the city, is critically ill at his home on Division street. Dr. R. A. Burke, who has been ill and confined to his home for a week past, expects to be out today or tomorrow. Patrick Gleason of West Division street, who has been at Coleraine, Minn., since last spring, is expected home this week. Richard Matthews of Oak street was given a social surprise Saturday evening by about twenty-five of his young friends. A. W. Jurma, the attorney, who left Saturday for the lower peninsula, will tomorrow afternoon at 5:30 o'clock be united in marriage, to Miss M. Grace Webb, daughter of D. J. Webb, at the bride's home at Chesaning, Mich. Mr. Jurma and his bride will arrive in Ishpeiming before the first of the year. The Union hop, announced to take place Thursday evening at the Woodmen's hall, has been postponed until after the holidays. William Pearce, who has been at Butte, Mont., arrived in the city Saturday and will again locate here. His wife came back about five months ago. An orchestra composed of about a dozen young people, who play mandolins, guitars and banjos, will meet this evening at the parlors of the Ishpeiming hospital. A. Palito, the barber in the Vecker building on Main street, who is an exceptionally fine mandolin player, will be present.

COUNCIL WILL VOTE ON SALOON QUESTION

ALDERMAN DOWNEY STATES THAT
GORDON LAW IS TO COME UP
AT MEETING JAN. 6.

EXECUTIVE SESSION IS HELD

Doors Are Closed for Thirty-Three Min-
utes and Asire Then Announces
There Is Nothing to Report.

Just as they do in the United States
senate, the city council last night went
into executive session. The condition
continued for just thirty-three minutes,
from nineteen minutes to, until fourteen
minutes after 9 o'clock and nobody's
hair was mussed when the doors were re-
opened. To the council in general Alder-
man Asire announced that there was
to be made no report of the proceedings
of the secret session and a few minutes
later a motion to adjourn was adopted.

To Vote on Question.

The balcony of the council chamber
was well filled when the meeting opened.
The spectators were there to learn what
was to be done in connection with the
saloon question and Alderman Downey
told them when but not what. Just be-
fore the "Heraus mit em" action was
taken, in a few well chosen words he
stated that the question of limiting the
number of saloons in Marquette would
come up for discussion at the first meet-
ing of the new year, that is at the regu-
lar meeting of next month, Monday,
Jan. 6. Another significant thing he
said: "It will be voted upon then," was
the statement.

According to the attorney general's
interpretation of the Gordon law, and
this interpretation is now generally ac-
cepted, the law is a matter of option
with the council. If the council sees fit,
it may limit the number of saloons to
twenty-five. If the council doesn't see
fit, it need not do a thing and beer will
continue to sell at the same old price at
all of the fifty bars that are now run-
ning. Evidently the council is seeing
fit to do something. Alderman Downey
said a vote would be taken.

Opinions Are Formed.

It is known that the saloon question
or the manner in which liquor interests
are affected by the Gordon law has been
discussed at length by all those having
even a remote interest in it. Certain
temperance interests are working in har-
mony with a minority of the saloon
men. Both want the number of saloons
here limited. The temperance people have
been circulating a petition. The saloon
men have and are still sitting tight
with an eagle eye for the main chance.
If only twenty-five licenses are to be
issued next year they intend to see that
they are among the chosen.

POSTMASTER MAKES XMAS SUGGESTIONS

WHAT TO DO AND WHAT NOT TO DO
IF YOU WANT YOUR GIFTS TO
ARRIVE SAFELY.

At Christmas time many parcels are
mailed in bad order and about one par-
cel in five hundred goes astray or is
greatly delayed in delivery. Fifty per-
cent of these parcels are probably subse-
quently located and delivered but even
then the percentage is greater by far
than there is any occasion for. Nearly
all lost parcels are lost because of the
carelessness of the sender in preparing
them for mailing, in not doing them up
securely or in failing to give a legible,
durable and correct address. Because
of these facts, Postmaster Mangum has
made the following suggestions:

Packing and Addressing.

In wrapping your parcels always use
good, stout manila paper and tie the sec-
urely with good twine. Do not criss-cross
the twine and wind it in every conceiv-
able manner about the parcel; draw the
twine tightly about it in straight lines.
Ordinarily two wrappings around the
center of the length and girth of the par-
cel are sufficient. If necessary to use a
box, use a good one and see that the par-
cel is in it as packed in solidly and in
such manner that pressure from the out-
side will not break the box at the edges
or fold, where almost invariably it
breaks, unless it has been properly
packed. Use pen and ink only in ad-
dressing the parcel and write the name
plain and legible in the lower right hand
corner, giving the full and exact address
of the addressee; place your name and
address as sender in smaller script in
the upper left-hand corner. One legible
address is sufficient.

If the parcel is too small to allow of a
clear address, use a tag. If the wrap-
ping paper is of too dark a color to give
a clear address, write the address on a
piece of white paper and paste on the
wrapper under the twine.

Postage.

The sealing of a parcel or the insertion
of any writing, no matter how slight,
subjects the parcel to the highest rate of
postage. Any person who knowingly in-
closes any matter of a high class in that
of a lower class and mails same at the
lower rate is liable to a fine of ten dol-
lars for each offense.

The postage on letters or on sealed
matter is two cents for each ounce;
books, photos, etc. (commonly called
printed matter) one cent for each two
ounces, practically everything else, ex-
cept newspapers, is called "merchandise"
and the rate is one cent for each ounce.
When two classes are combined in one
parcel, the parcel takes the rate of the
higher class enclosed.

Mail your parcels early—don't wait
until the day or two before Christmas.
The mails are extremely heavy and
prompt dispatch and delivery are prac-
tically impossible. Allow not less than
three days extra time over what you
would usually give, if you wish to make
certain of prompt delivery.

Register Valuables.

Have your parcel well wrapped, ad-
dress it properly, see that you have it
correctly weighed and affix the stamps
yourself, mail it early; then you may
feel satisfied that it will be promptly
and correctly delivered, with but the
very slightest danger of loss. If your
parcel is quite valuable, have it regis-
tered (the fee is eight cents in addition
to the regular postage).

Don't come to the postoffice just be-
fore the mail is dispatched and expect
to have your parcel sent off at once. The
clerks are usually very busy and cannot
attend to your wants as promptly as
they would like. "Come early and avoid
the rush."

THEATRICAL.

"Billy the Kid"

"Billy the Kid" with his cowboys and
bad men of the wild and woolly west
was the attraction before a fair-sized
audience at the opera house last night.
The scenes of the story are laid in the
pioneer days of the western country
when six shooters were commonplace
ornaments and when bad men abounded.
The story relates the manner in which
a spirited youth is forced to become a
bandit. He succeeds admirably and his
name becomes known and feared
throughout the neighborhood in which
his operations are carried on. Inter-
woven in the action of the play, and
there is plenty of it interspersed with
frequent revolver shots, is an interesting
love story. At the close of the play
it is made to appear that the celebrated
highwayman has been killed. Seizing the
opportunity when the general belief is
that he has paid the penalty for his
crimes that have been laid at his door,
Billy the Kid turns his back upon his
old life and all ends well.

FOR COLD ROOMS HARD TO HEAT.

The coming of the cold weather gives
rise to the question of how best to heat
those rooms and hallways of the house
that seldom if ever warm up, no matter
how big a fire there may be in the fur-
nace or other heating apparatus.

The best way out of the difficulty is
the use of auxiliary stoves—and of these
it would be difficult indeed to find any-
thing so handy and at the same time so
clean and economical as the Perfection
Oil Heater.

To begin with, it is absolutely safe.
The wick can be turned as high or as
low as possible without danger. But
perhaps the most desirable feature of all
is its convenience. The Perfection Oil
Heater can be easily carried to any part
of the house where more heat is required.
It may be a cold bedroom, a chilly hall-
way, a sick-room. Or you can use it
to heat the bathroom while you take
your morning bath—then dress by it—and
they carry it to the dining room and eat
your breakfast in comfort. The occasions
on which it can be called into use are
numerous and once you have tried the
Perfection Oil Heater you'll wonder why
you ever struggled through a cold winter
without one. Another advantage is the
smokeless burner, which prevents any of
the unpleasantness that perhaps have
given you a poor idea of oil heaters in
general. It is very handsome in appear-
ance and is beautifully finished in nickel
and japan.

Another home comfort for the long
winter evenings is the Rayo Lamp, which
can be used in any room in the house—
from parlor to bedroom. It has the lat-
est improved burner, making it unusu-
ally safe and clean, and an ideal lamp for
all around household use.

The Perfection Oil Heater and the
Rayo Lamp, combining as they do to
make the house warm and cheerful, are
valuable additions to any home, and no
household should be without them. They

25 CENTS

NEW ARMY AEROPLANE.

WILL BE USED MOSTLY FOR PURPOSES OF DEFENCE.

But if Attacked, It Is Held, It Can Take the Offensive—This, Despite the Action of the Conference at The Hague.

Washington, Dec. 15.—An aeroplane for signal reconnaissance and ordnance purposes has been authorized by the war department and plans will shortly be advertised for. While The Hague conference drew the line at use of airships or balloons for offensive purposes the American government will creep through a loophole left by the conference and provide a machine for defensive purposes. While the machine will not be calculated for annihilating cities, forts and fleets as the aggressor, it is planned to equip it in order to retaliate if attacked by an enemy.

One of the recommendations made by The Hague conference, which The American, as well as all signatory governments, is expected to ratify, provides that balloons shall not be used for purpose of dropping explosives from the air. The convention does not specify, however, that attacks shall not be made upon balloons or other air machines which may be used for signal and reconnaissance purposes. War department authorities hold that if the air craft of an enemy were within firing distance efforts would at once be made to put it out of commission. If the craft be equipped for this emergency, however, it is held there is no law preventing action in self-defense, which would mean that once attacked the men in the air craft would be justified in responding with a shell, dynamite or whatever ammunition with which they might be provided as a matter of self-protection.

This phase of the subject has been under consideration by the board of ordnance and fortifications, of which General Bell, chief of staff, is president, ever since General Davis, the army delegate to The Hague, returned and made his preliminary report. Investigation has developed that both the French and German armies discovered this loophole and will take advantage of it to continue their experiments with the aeroplane. Accordingly, the American government will at once enter into the matter in order not to be outdistanced in what now promises to be the most important engine of warfare of the future. Until The Hague agreement can be amended it will belong to the powers to equip their balloons or other air machines with destructive forces, it is held, since no country would permit an enemy sailing over its fortifications to observe observation purpases without attempting to disable the craft and prevent the information being carried back to headquarters for use of the armies and fleets.

The action calling for an aeroplane was reached at a secret meeting of the board of ordnance and fortifications, last Thursday, and has been approved by Acting Secretary of War Oliver. Instructions were immediately issued to Brigadier General Allen, chief signal officer, to prepare specifications for an aeroplane machine and obtain proposals for furnishing such a device. To Major George O. Snider, who has just been ordered to Washington from Governor's island to take up the subject of heavier-than-air machines, has been assigned the task of preparing the specifications. This is expected to require some time, and doubtless suggestions will be called for from inventors who have produced machines that have risen without a balloon.

Last spring the Wright brothers obtained permission from the war department to submit a model of an aeroplane with the view of having it accepted by the government, but when they demand- ed a big bonus before they would exhibit their model for even private official inspection negotiations with them were broken off.

Since then and up to the present the energies of the army have been centered upon regular balloon work under the supervision of Captain Charles de F. Chandler. Only a few days ago he was instructed to proceed with specifications for a dirigible balloon with which to

DOG NOTE.

"With the return of cold weather a change in diet is advisable and more meat is needed to supply warmth to the dog. The taboo against corn meal may be lifted, though that is a food that has to be used with judgment and caution, so that it is perhaps better to say where food is cooked for dogs, more meat may be allowed than during the summer. At any indication of skin irritation drop the corn meal. English kennels use a good deal of oatmeal, and rolled oats may also be added to the mixture. This suggestion is not for the owner who can supply the wants of his canine friends with scraps, the best food for dogs. The dog biscuits which are now so much used are also very good food and, for small dogs, form an economical diet."—James Watson, in Country Life in America.

Stop That Cough Now

There's danger ahead if you let it run on. Coughs lay the foundations for thousands of cases of all kinds of sickness every year, and are the indirect cause of a great number of deaths.

DR. D. JAYNE'S EXPECTORANT

There's no experiment about this old reliable remedy. It has been curing coughs for four generations. Jayne's Expectorant is also an invaluable medicine for Croup, Pleurisy, Inflammation of the Lungs or Chest, Hoarseness, Bronchitis, Asthma and other diseases.

BANK REOPENS FOR BUSINESS.

Kansas City, Dec. 16.—The Union Avenue Bank of Commerce, one of the small banks affiliated with the National Bank of Commerce, resumed business this morning. All the banks affected by the Commerce failure have now reopened.

MARKETS

NEW YORK STOCKS.

Writing from New York yesterday Paine, Webber & Co. had this to say: "The action of the general market today was again very disappointing. This much at least must be admitted by the most optimistic. The good feeling which was manifested in the initial trading over Saturday's bank statement and the probability of another fairly good showing this week, was quickly dissipated in the morning, when brokers representing the big interests appeared as renewed heavy sellers of stocks. This was put down to the exigencies of the money situation. Consequently there will be nothing to buoy the general stock market after the turn of the new year. There was some short selling in the general list at times and while this pressure helped to make the low prices liquidation premeditated, with the buying steadier, and mostly in the nature of forced support and profit taking by shorts."

Table of closing prices for U.S. Steels, C.P. & I., Rep. Stl., etc.

Table of Boston Stock Quotations including Amal., Adv., Arcadian, etc.

Writing from Boston yesterday, Paine, Webber & Co. said: "Amalgamated was weak all day and this had a bad effect on all the others. Mohawk is coming out slowly from people who expect the dividend will either be passed or cut to 81. Butte declined to 37 on selling by the traders, but was

in good demand at that price. Change is the strongest stock on the list. Old Dominion was well bought and closed at a point higher than the opening. The banks are advising great caution yet and are doing their utmost to restore confidence but check speculation."

Western Mining Stocks.

Table of Western Mining Stocks including Sandstorm, Best Top, Mohawk, etc.

Metal Prices.

New York, Dec. 16.—The London copper market was 1 lower today, with spot quoted at 238, 5 and futures at 239, 10. The New York market was weak, but unchanged, with Lake quoted at 13 1/2-13 3/4, electrolytic at 12 7/8-13 and casting at 12 5/8-12 7/8.

CHICAGO GRAIN MARKETS.

Chicago, Dec. 16.—The greater part of today's advance in wheat was scored in the first few minutes of the trading. The market opened strong, with the May 1/2 1/4 higher. Shorts were excellent buyers, and there was also a brisk demand for investment accounts. The offerings, however, were light. The reason underlying the demand was the higher markets at Liverpool and Berlin due, it was said, to the small shipments last week from Russia and the light offerings from Argentina. The market was bullish all day, and it closed strong. Reports from Winnipeg that the arrivals there are grading low encouraged the bulls the latter part of the day. The May closed 1/2 1/4 higher. It opened at 102 1/2, 102 3/4, highest, 103 1/4; lowest, 102 1/2, closing, 102 3/4.

Table of Chicago Grain Markets including Corn, Wheat, Oats, etc.

Paine, Webber & Co.'s Advice.

Paine, Webber & Co.'s Chicago correspondent said yesterday concerning the wheat market: "There was a very strong opening in wheat this morning, in response to the changed conditions abroad on which we based our bullish advice Saturday. Liverpool came 1 1/2 to 2 higher, because offerings in the Plata wheat were at a six pence advance and the cables reported a continuation of wet weather for Argentina. The world's shipments were small and the continental markets strong. Russia and the Danube supplied less than one million bushels all told the past week, while this country shipped 5,383,000 bushels, or about 78 per cent of the total supply for Europe. A good London authority, reviewing the wheat yields of

the year, places the world's shortage at 400,000,000 bushels. All foreign advisers agree that the unusually large offerings of Argentine wheat have been discounted and that the contracts may be filled with difficulty in case of wet weather to delay the harvests and shipping. The northwest markets acted strong. The seaboard export business was reported better than for some days past. The market closed at an advance of 1 1/2 for May, in the face of rather free selling around 103 on each swell. We think the situation is changed permanently from the depression of the previous week."

Chicago Pork Quotations.

Chicago, Dec. 16.—January pork closed at 12.75 today, the May at 13.20.

BIG "WAR ESTIMATES."

UNUSUALLY HEAVY DEMAND FOR APPROPRIATIONS.

Shows That the Administration Believes It is Necessary to Strengthen the National Defense—New Battleships Mean New Docks and Coaling Stations—Four New Battleships Will Cost \$40,000,000—Could Not Ask for More Says a Senator, If We Were Going to War Within Two Years—Hearings by Committees Expected.

Washington, Dec. 16.—On the day of the departure of the Atlantic fleet for the Pacific that world famous cruise is given additional significance by the extraordinary demand made upon congress for appropriations for the national defense. "I have been amazed," said a United States senator today, "in reading the president's message and in looking through the estimates of the war and navy departments to see the increased appropriations asked for at this session. If we knew with certainty that we were going to war with some foreign power within the next two years perhaps not much more would be asked for than at this time."

Although this senator's concluding remark is rather an exaggeration, a glance at the "war estimates" this year and the various references thereto in the documents thus far presented to congress shows that the administration is alive to what it believes is the very urgent necessity of strengthening the national defenses by land and sea. One year ago the president asked for one new battleship a year. In this year's message he asks for four such ships. After calling attention to the failure of the Hague conference to deal with the question of armaments, he says: "It is evident therefore that it is folly for this nation to base any hope of securing peace on any international agreement which limits the production of armaments. Such being the fact, it would be most unwise for us to stop the upbuilding of our navy. To build one battleship of the best and most advanced type would barely keep our fleet up to its present force. This is not enough. In my judgment, we should this year provide four battleships."

The very omission in this message of any explanation for the change of program since last year adds to its significance. And on top of this recommendation the president says it is idle to build battleships without providing docks and coaling stations, colliers and supply ships. Attention is called to the existing deficiency in coaling stations and docks on the Pacific, and this deficiency should not longer be permitted to exist. Plenty of torpedo boats and destroyers should be built. Both on the Atlantic and the Pacific coasts, fortifications of the best type should be provided for all our greatest harbors.

But it costs a great deal of money to do this; this fact is forced home by a glance at the estimates. It will take \$20,000,000 to build and equip four modern battleships; it will take another \$15,000,000 to build the other small craft which the administration deems essential to the efficiency of the fleet.

our principal seaports and continuing torpedo experiments, \$23,000. For the purchase of four torpedo planters, one for use on the Pacific coast, one each for Manila and Subig bay, Philippine islands, and also nine launches, four for Manila, two for Subig, one for Pearl Harbor, Hawaii, and one for Guantanamo, Cuba, \$727,000. A total of \$9,765,992 is asked by the engineering department of the war establishment for the fortifications of the inland possessions. Here is the way the engineering department would spend the money: Construction of seacoast batteries at Guantanamo, Cuba, \$1,200,000; Honolulu and Pearl Harbor, Hawaii, \$1,110,000; at Manila, \$6,488,000; for the installation of electric plants for the defence of Guantanamo, Cuba, \$103,727 at Honolulu and Pearl Harbor, Hawaii, \$34,600; Manila, \$229,080; at Subig bay, \$103,710; purchase and installation of searchlights at San Juan, Porto Rico, \$57,000; at Guantanamo bay, Cuba, \$84,000; at Pearl Harbor, Hawaii, \$95,000; at Guam, \$57,000; at Subig bay, \$95,000; at Manila, \$114,000; for construction of mining casemates in the harbors of the insular possessions, \$134,000. The ordnance department asks for \$3,000,000 for the purchase and manufacture of seacoast cannon for the defence of the insular possessions. For the ammunition for these guns that are to be purchased for \$50,000 for alteration of guns already owned. Another item of \$1,305,379 is asked for the construction of fire control stations and accessories in the insular possessions. For the purpose of enabling the ordnance department to experiment with guns and ammunition \$100,000 is asked. A total of \$60,000 is asked for improvements at the arsenals in this country, and there is a request for \$1,581,000 for the enlargement of military posts and military depots adjacent to the Pacific and Atlantic coasts. For the erection of barracks for the artillery in connection with the seacoast defenses \$4,629,700 is asked. Another request is for \$1,000,000 for a maneuver camp on the Pacific coast, and another for \$180,000 with which to purchase two thousand acres of additional land for military purposes at Manila. The final large request is for \$1,100,000 with which to construct on the Manila Flats reservation a storehouse for the supply department of the army. The bureau of ordnance of the navy department wants \$4,000,000 for reserve ammunition, \$590,000 for reserve torpedoes and appliances, \$300,000 for reserve guns for military cruisers, \$100,000 for enlisting and equipping naval militia, \$1,250,000 for the special equipment of war vessels, and \$5,000,000 for the transportation of coal. There is also a request for \$600,000 for the construction of the navy may procure suitable depots for coal for the fighting ships of the establishment.

Many other items from the estimates might be quoted, but the above are sufficient to show the unusual demand on congress from the existing establishments of the government. "Surely," congressmen are saying, "there must be some special reason for this extraordinary demand for money with which to prepare for defending the United States and its insular possessions." Just what is behind the president's change of mind with reference to the needs of the war and navy departments to ask for such large appropriations at this particular time are the questions that many members of congress will want to have answered before the appropriation bills are prepared. Early in the new year the secretary of war and the secretary of the navy will be called by the committees that have the appropriation bills in charge to tell all about it. The probability is that the hearings will not be made public.

FISH DEJECTED A TORPEDO. A school of big fish swam up Noyac bay, near Sag Harbor, L. I., last week and investigated the antics of some big torpedoes of a variety of makes, which were cutting straight lines from a torpedo boat to a bull's-eye target out in the bay. They learned that the strange-looking fish were not sharks and that they swam much faster than anything they had ever seen before. When they got in front of one of the queer fish it cut straight through them and left many mangled big fish to float ashore and tell the story. This explained why one of the torpedoes was observed zigzagging curiously before it struck the target. A shark tried conclusions last summer with a test torpedo, with similar results for the shark.—New York World.

A Woman's Back Has many aches and pains caused by weakness and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness. If any considerable number of the above symptoms are present there is no more pain than what give quicker relief for a remedy made by Dr. Pierce's Favorite Prescription. It has a record of over forty years of cure. It is the most potent invigorating tonic and strengthening preparation known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful or habit-forming drugs. Its ingredients are all printed on the bottle-wrapper and attested under oath as correct. Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills. You cannot afford to accept any medicine of unknown composition as a substitute for this well-proven remedy. Little sugar-coated granules—easy to take as candy.

For the purchase, manufacture and test of mountain and siege cannon, and the machinery necessary to manufacture them at the arsenal, \$800,000. For ammunition for these mountain and siege cannon, \$250,000. For the purchase, manufacture and test of seacoast cannon for coast defence, \$2,680,000. For ammunition for these sea coast cannon, \$1,000,000. For ammunition, sub-caliber tubes and other accessories to seacoast artillery practice, \$455,000. For the alteration and maintenance of the mobile artillery, \$75,000. For the alteration and maintenance of the seacoast artillery, \$550,000. For the alteration of 3.2-inch material to rapid fire field material, \$1,000,000. For repairs to the Sandy Hook proving ground, \$56,200. For the purchase of submarine mines and necessary appliances to operate them for closing the channels leading to

Energy for breakfast to start the day. Sustenance for lunch to carry you through. Rest and renewed strength at close of day. The food ideal for every meal. Uneeda Biscuit. More nutritious than any other wheat food. 5c NATIONAL BISCUIT COMPANY. In moisture and dust proof packages.

A PIANO THE IDEAL GIFT for CHRISTMAS. Pleasure, Entertainment and Educational Advantages for Every Member of the Family! Some Reasons Why Christmas Pianos Should Be Purchased of GRINNELL BROS. We are one of the Largest and Strongest Music Houses in the entire country, and are fully organized and equipped to serve the public in the best manner possible. Our sixteen complete Music Stores, located in the leading cities of Michigan, make it easy for any resident of the state to deal direct with us, and share in the great advantages we offer to all. We are Piano Manufacturers; the excellent GRINNELL BROS. PIANO being the product of our own factory. We also control the entire output for Michigan of such world-renowned makes as STEINWAY, SOMMER, STERLING, WEBER, PLANOLA-PIANO, and many others. Our immense purchases and sales enable us to buy at the very lowest prices and to sell on smallest possible margins. WE WILL SAVE YOU MONEY on any Piano you may select. A few minutes spent in our warehouses will convince you that our values are positively unapproached elsewhere. We have the largest and finest collection of Christmas Pianos to be found anywhere. Every style, tone-quality, finish and price. You will surely be suited if you come here. EVERY PIANO FULLY GUARANTEED and may be exchanged if not perfectly satisfactory. OUR EASY PAYMENT PLAN will enable any family to have a Piano for Christmas. A few dollars paid now is all we require; then, when the Holiday expenses are over, make another small payment, and so on each month until the price is paid. Can you longer deny the family a Piano when possession is made so easy? Call today and have a talk with us! Whether you buy or not, we shall be glad to show you our many beautiful instruments and make you a special proposition.

Make the family happy and entertain your friends with an EDISON PHONOGRAPH. Mr. Edison's new, improved Phonograph—the 1908 model—is a truly marvelous instrument. It is unquestionably the crowning achievement of the "Wizard's" master mind. Through the genius of Mr. Edison, every home—YOUR HOME—may now resound with the music of the best Singers and Players, Bands and Orchestras; the voices of the best Orators and Humorists, etc. Every word can be understood—every tone is as clear and true as though the living performer stood before you. A visit to the Theater or Concert is no more enjoyable than an evening with Mr. Edison's new Phonograph—in fact, the Phonograph gives a greater variety of entertainment than can be obtained in any other way. You can have a different program every evening for a whole year without repeating a single selection, for thousands of different Records are already made for the Edison and new ones are issued monthly.

PRICE LIST Edison's new "GEM" outfit, \$12.50. Edison's new "STANDARD" outfit, \$25. Edison's new "HOME" outfit, \$35. Edison's new "TRIUMPH" outfit, \$55. EASY PAYMENTS! You can have an Edison outfit for Xmas by making a small payment, then easy weekly or monthly installments on the balance. No interest charged. EDISON GOLD-MOULDED RECORDS, 35c EACH, \$4.20 A DOZEN. Call and hear the new model Phonograph with the large Polygonal Horn! We promise you a delightful surprise and a solution of the perplexing Christmas problem—What to buy for the family. Too Risky "A hard chill, pain through the chest, difficult breathing." If this should be your experience, send for your doctor. It may be pneumonia! To doctor yourself would be too risky. If your doctor cannot come at once, give Ayer's Cherry Pectoral. When he comes, tell him exactly what you have done. F. C. Ayer & Co., Lowell, Mass.

CITY IS TO PAY \$1,240 IN CLAIMS

STORM AND FLOOD OF LAST SPRING IS BEGINNING TO BE A MATTER OF SOME COST.

DONATION TO FRENCH CHURCH

New Sewer for Genesee Street—Claims Allowed—Other News of Last Night's City Council Meeting.

It cost the city about \$1,000 to repair the damage done to the streets by the flood of June 23 last and an additional \$1,240 was tacked on to this at last night's council meeting.

The claims. In July last three claims for damages were filed against the city by the Union Clothing company, William Rivers and Mrs. Adeline Reidinger. The Union Clothing company claimed damages to the amount of \$243.65. William Rivers asked for \$501 and Mrs. Reidinger, who said that a wall of a building she owned had been affected by the action of the water, asked for something like \$10,000.

At the preceding meeting of the council Rev. Father Jodocy of the French Catholic church asked that a bill of \$800 for cement work on the new church due the city from the church be made a donation and the bill cancelled.

Claims Allowed. Evidently all the little differences regarding the amount due the various claimants for committee work, which is paid at the rate of \$3 per alderman per meeting, were satisfactory arranged, for the claim of \$513 for this work, together with the other claims, was allowed without comment.

prise last night when he made the suggestion that some of the outstanding city bonds be bought in. He stated that if there was any city money lying around loose it might be used advantageously in this manner.

Other Business. The assessment for a sewer which is to be laid on Fourth street from Rock to Fisher street is to be confirmed at the next meeting, Jan. 6.

City Attorney Brown notified the council that a rehearing in the supreme court of the Madam damage suit against the city had been asked as told in The Mining Journal recently.

ACTION DEFERRED.

Two of Library Board Vote for and Two Against Patenaude Petition.

From statements made yesterday by a member of the library board it is probable that a successor to Miss Mae Hewitt will probably not be named for some time. Miss Hanna Bennett, who has been in the library for a number of years and who was assistant to Miss Hewitt is to remain in charge until a new librarian is named.

This is the season of decay and weakened vitality; good health is hard to retain. If you'd retain yours, fortify your system with Hollister's Rocky Mountain Tea, the surest way.

NEW ROOM OPENED.

The Studio & Woman's Exchange (Savings bank building) will open a new room Wednesday that will be open each week-day evening until 8:30 o'clock.

BEGINNING WEDNESDAY.

Foster's store will remain open evenings until Christmas. (12-10-3d)

STORM SASH.

We make all sizes on short notice. Don't wait. Consolidated Fuel & Lumber Co. (4-27-4f)

NOTICE.

As a result of the mild winter we have had, The Kelly Hardware company are making some very attractive prices on heating stoves and ranges. Old stoves are taken in exchange.

DEATH FROM TYPHOID.

Axel Bystrom Succumbs at Hospital After Illness of Two Weeks.

After an illness of two weeks' duration Axel Bystrom of 338 Bluff street died last night at St. Mary's hospital from an attack of typhoid fever. He came to Marquette with his parents when he was a small boy and has lived here ever since.

BOWLING SCORES.

At the bowling alleys last night Team No. 2 took two out of three games, although Team No. 1 beat them out one pin on totals. The scores are as follows:

Team No. 2—	Tot.
Davis	142 179 125 446
Couse	138 122 163 423
Dunster	148 207 230 585
Totals	428 508 518 1454
Team No. 1—	Tot.
Conklin	193 217 165 575
Foster	123 147 113 383
Allen	199 136 162 497
Totals	515 500 440 1455

Hamilton an Author—Charles H. Hamilton of Milwaukee, who delivered the memorial address at the recent exercises given at the opera house by the Marquette Elks is the author of a new volume on law just issued. City Attorney Brown recently received one of the books. It is entitled "Treatise on the Law of Taxation by Special Assessments."

OFFICERS ELECTED.

Division No. 3, Ladies' Auxiliary of A. O. U. H., have elected the following officers for the ensuing year: Mrs. A. Fitzhenry, president; Miss E. Mullaughney, vice president; Mrs. B. Ring, recording secretary; Miss B. Killgallon, financial secretary; Miss M. O'Neil, treasurer; Miss M. Cleary, sentinel; Miss A. Flannigan, mistress at arms; Dr. E. H. Flynn, medical examiner.

FOSTER'S STORE.

Beginning Wednesday, Foster's store will remain open each evening until Xmas. (12-16-3d)
