

Copper Country

GOV. WARNER NOT COMING.

Chief Executive Will Not Visit Copper Country This Year.

The persistent rumors of the proposed visit of Governor Warner to the copper country before the close of the year seem to be effectually disproven. Colonel Cox, assistant adjutant general of the Michigan National Guard, said yesterday the governor was not coming. The presumption was that he was coming here next Tuesday night to be present at the inspection of the Hancock Naval Reserve. But this function has sort of petered out.

Plaint of the Bo'sun.

In connection with this naval reserve inspection there comes from off the shores of the Yantic a doleful wail. Bo'sun Mullins, in charge of the ship for the navy department, would be very glad indeed if Governor Warner would come up because he has a petition to present him. The commissary department of the Yantic is what it should be, and this is the basis of Mullins' kick.

Mullins has three men under him, and in addition to their regular pay each man receives \$9 for ration money. Each man is supposed to board himself. The commissary is what it should be, and this is the basis of Mullins' kick.

New for a Little Politics.

There are county offices to be filled next year, and ere long there will be a scramble for a bunch of Republican nominations. An interesting situation comes up this year. It is remembered that two years ago when the county officers were re-elected they were all first timers and were undisturbed, the county convention being a mere formality. It does not necessarily follow that all those officers must get out, but the sheriff and treasurer and prosecuting attorney must have a talk with the county officers, the latter through an unwritten law. To go back, County Clerk Richardson was not a first timer that year, but he seems to have developed into a hardy perennial plant and nobody seems willing to disturb him in his office. The probate judge has two more years of his term and the register of deeds is usually allowed to stay for a few years, but

Danger in a Cold

Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Not only pneumonia, but also the infectious diseases such as diphtheria and scarlet fever start with a cold. The cold prepares the system for the reception and development of the germs of these diseases. Take our advice—cure your cold while you can.

Chamberlain's Cough Remedy

by its remarkable cures of colds has become a staple article of trade and commerce. Its promptness is effective; it is reliable. Try it.

HOUGHTON COUNTY ELECTRIC LIGHT CO.

HOKEY SEASON IS OPENED.

Games Have Now Been Played by the Four League Teams.

The season of the amateur hockey league at Portage lake opened last night when the Hancock and Houghton teams played at the Amphidrome. The season opened in Laurium Thursday night when the Laurium team defeated the Red Jackets with a score of 4 to 1 on the Palestrae ice. The game had all the features. It was fast and aggressive and several players were penalized by referee Shields. The teams lined up this way:

Laurium—A. Herman, goal; Captain Hermann, point; Dymock, cover; Sicotte, rover; Datern, center; Larson, left wing; Oshorn, right wing. Red Jacket—Gray, goal; Captain Young, point; Marcotte, cover; Chaput, rover; Uksila, center; Drown, left wing; J. Herman, right wing.

LID IS ON AT ONTAGON.

Sad Christmas Day for the Once Wild and Woolly Town.

The lid is on at Ontagon. This statement is fraught with more meaning than might appear at a first glance. It would mean a whole lot were one to say the lid is on in Houghton, but what Ontagon is meant many there are who stand aghast and cry, "Not so." But 'tis true.

EARLY CLOSING MOVEMENT.

Businessmen of Hancock and Houghton Held a Meeting.

COPPERDOM BREVITIES.

Mr. Levine of Houghton is entertaining Mr. and Mrs. A. Levine of Negaunee. Mr. and Mrs. James Osborne of Evening, Minn., are visiting with relatives in Calumet.

KEWEENAW LODGE OFFICERS.

Keeweenaw lodge, F. & A. M. of Keeweenaw county, has elected the following officers to serve during 1908:

GIRL OR FORTUNE; WHICH?

Indiana University Student Must Choose Between \$30,000 and Girl.

RAID MADE ON GAMBLERS.

Hjo Branch of Calumet was arrested Thursday evening by Sheriff Beck on a charge of conducting a gambling place in his saloon on Sixth street. He paid a fine of \$20 and the costs. Sheriff Beck's recent vigorous action against gambling made gamblers hard to find in Houghton county.

ABRAHAM BROWN, OF WINTERMONT, N. Y., had a very remarkable experience. He says: "Doctors got badly mixed up over me; one said kidney disease; two called it kidney trouble; the fourth, blood poison; and the fifth stomach and liver trouble; but none of them helped me; so my wife advised trying Electric Bitters, which are restoring me to perfect health. One bottle did me more good than all the five doctors prescribed." Guaranteed for blood poison, weakness and all stomach, liver and kidney complaints, by The Stafford Drug Co., 50c.

Keeps Frost Off Windows

Don't you dislike to leave the warm living room and undress in a cold bedroom where the frost is thick on the windows? No need to any longer—

PERFECTION Oil Heater

Equipped with Smokeless Device makes any cold room cheerful and cozy in a trice and keeps it so. It has a smokeless device that means no smoke—no smell—no bother—just direct intense heat. Finished in Japan and nickel. Brass front holds 4 quarts, burns 9 hours. Easily carried about everywhere. Every heater warranted.

Mining News

BIG YEAR FOR THE LAKE.

The year has been one of great moment to the Lake region and the copper trade, says the Native Copper Times of Lake Linden. The beginning of 1907 found an unprecedented demand for the metal. Copper dropped, the prices were cut in two, but at these low figures Envo began stocking up, and it is still buying copper at a little higher price; and later, still higher prices will again rule, as the demand will once more become normal.

The beginning of the year found Lake prices enjoying the fruits of the high prices then ruling for the metal, and working along at about the normal rate, and making some money, establishing a high price for the business at all times and under almost any conditions. It places Lakes mines in a most enviable position, and one that cannot but be appreciated by the investing world. This ability to continue under adverse conditions is due very largely to the physical condition of properties, and for this prime physical condition, the excellent and conservative managements are responsible—managements that never forget their properties, and are ever preparing their properties to meet any and all possible emergencies.

ACADIAN.

Acadian is putting down a shaft to test values in new lands, which has not been explored. The shaft is going down 3,500 feet east of the Arcadian vein and about 2,000 feet from the shaft put down last year. This shaft is down 130 feet and will be sunk to a total of 800 feet or over, and then crosscuts east and west of shaft will be started, to prove up the property. The shaft is going down about the point where the great Balcones traverse the lands. The Arcadian has big mineral territory, and the work now under way is legitimate, and the kind of exploratory work that will count, reveal values, if they are there, and that is what people interested in the property like to see. The finding of something good would gladden holders of shares, and would add to the known goodness and continuity of the mineral range of the Lake district.

THE CITIZENS' NATIONAL BANK

HOUGHTON, MICHIGAN

OFFICERS. DIRECTORS.

Graham Pope, President. Graham Pope, C. V. Reeber, H. F. Chynoweth, J. H. Jasberg, E. M. Hall, J. G. Houghton, A. M. Schultz, John G. Stone, C. H. Moss.

By making up one's mind that they are gone. The second fact is this: That the average layman knows very little about diseases and their outward indications, and so is prone to mistake a simple and minor ailment for something very serious. Thus, when the average man feels a pain in his arm he says that he has "a touch of rheumatism." As a matter of fact, he has no rheumatism at all, but merely a vague muscular pain—something that may be due to any one of a score of causes and is certain to disappear of itself in a short time.

NATURE BEST DOCTOR

The increase of exact knowledge regarding diseases and their causes has taught physicians that drugs often do more harm than good. Years ago, for instance, all sorts of remedies were administered to consumptives and nine-tenths of the patients died. Today the medicine is prescribed for consumptives and they recover.

It is the same with pneumonia, typhoid fever and a host of other maladies. The era of sure cures is past, and scientific physicians have learned that the best way to combat most ills is by the indirect method of stimulating the body's natural power of fighting and destroying germs, says a writer in the New York Sun.

SOURCE OF THE OXYGEN.

German Scientist Reproduces the Conditions of the Coal Age.

There has been contributed to Wisener a letter from Dr. Philson respecting the way in which oxygen appeared in the atmosphere during the coal period. Dr. Philson has exposed plants in atmosphere of carbonic acid and of hydrogen and found that they were not killed. In the next place he exposed them in pure nitrogen, and in a mixture of nitrogen and carbonic acid. In both cases vegetation was remarkably healthy and even luxuriant for a lengthened period.

POLITICAL BAROMETRY.

When we get past Taft, speculation takes a wider range—Hughes, Foraker, Cortelyou, Cannon, Cummings, Knox, LaFollette. Like it or not—and for the purposes of mere prognostication the prophet should take everything into account—the last named gentleman has a following throughout the entire country that is doing to make weepy-weather for a half dozen or more "favorites" who, even now, are beginning to contest his progress.

N. M. DeHaas left last evening for Chicago.

Miss Ruth Hume of Lansing is in the city on a visit.

T. A. Aho of Runley was a visitor in the city yesterday.

H. J. Block of McMillan was a visitor in the city yesterday.

Alfred Eggers of Duluth spent Christmas at his home here.

G. E. LeVeque of Grand Marais was here on business yesterday.

Al. Andrews of Ishpeming was in the city on business yesterday.

T. J. Maloney of Ishpeming was in the city yesterday on business.

Master Clinton Thoney is spending his vacation at the Mangum farm.

Matthew Lee of Crystal Falls was a visitor in the city yesterday.

A turkey shoot will be held near the stone quarry on New Year's day.

O. C. Hartho of Munising was a business visitor in the city yesterday.

C. L. Sporely of Negaunee was a business visitor in Marquette yesterday.

John Havey of Ontonagon was a business visitor in Marquette yesterday.

Mrs. William Briester of Bergland, Mich., is visiting friends in the city.

Mr. and Mrs. D. W. Caldwell of Champion are spending a few days in Marquette.

Miss Pyrie Smith of Trout Lake is in the city to spend a week or more with relatives.

Miss Grace Smith, daughter of Joseph Smith, arrived in the city yesterday from Detroit.

Walter Weldon, assistant superintendent of the Montreal mine at Ironwood, is in Marquette.

Mr. and Mrs. H. J. Payne and Miss Hazel and Howard Payne of McMillan are visitors in the city.

Claud Penhill and brothers, Arthur and Felix, are visiting their grandparents, Judge and Mrs. C. B. Grant, at Lansing.

Ray Sundberg of Houghton is spending the holidays with his parents, Mr. and Mrs. Charles Sundberg of Hewitt avenue.

Captain John Foley and Captain Joseph Hodgson of the Mary Charlotte mine of Negaunee were in the city yesterday.

Dave Foley, former sheriff of Ontonagon county and now a resident of Ironwood, is paying a visit to Marquette friends.

Miss Agnes Montford of Sault Ste. Marie is visiting at the home of her mother, Mrs. L. M. Montford of West Bluff street.

Mrs. Gale Davis Campbell of Milwaukee and Mrs. Joseph Siefert of Calumet are visiting at the home of their parents, Mr. and Mrs. Peter Primeau on East Crescent street.

Barth Lewis, who has been spending the holidays with relatives here, is to leave today for Washington, D. C., to continue government geological work which he has been engaged in recently.

Meeting Tonight—The regular monthly meeting of the Traveling Men's Council, No. 186, will take place tonight at Fraternity Hall.

Interment at Indianapolis—The funeral of the late Edward Brunton, son of Mrs. Frances Kelsey, of the Northern Normal, was held at Indianapolis, Ind., the former home of the deceased, yesterday. The death of the young man occurred at Deming, N. M., last Sunday.

Chimney Fire—A chimney fire at the home of Mrs. Annie Dilling of 119 Park street was discovered late yesterday afternoon and an alarm was turned in. The department responded and extinguished the blaze without difficulty. There was no loss.

Valuable Dog Poisoned—A valuable hound owned by Bernie Johnson died from poisoning recently. He had been used on a hunting trip to Gillett's swamp south of the city and it is believed that he ate poisoned food in or near a number of other hunting dogs have been killed in the same manner at the same place.

Dance New Year's Eve—L. L. Hood lodge, No. 10, of the Brotherhood of Railway Trainmen, will hold their dance New Year's eve at Fraternity Hall. Unique invitations, in the form of a telegraphic train order, have been issued. A special train for the dance is to run on the South Shore. It will leave Michigan at 7:15 o'clock on the night of the dance, Champion at 7:35, Humboldt at 8:25; Ishpeming at 8:15, Negaunee at 8:25; returning it will leave Marquette at 3 o'clock the next morning.

WOODMEN CELEBRATION.

Silver Anniversary of Order to be Held at Fraternity Hall Next Week.

Invitations for the celebration of the silver anniversary of the Modern Woodmen of America have been issued by the Lake Superior Pioneer Camp, No. 991, of Marquette. The celebration is to be held at Fraternity Hall on the evening of Jan. 2. Preceding a program which is to be given, the installation of the new officers of Lake Superior Pioneer Camp and of Oak Leaf Camp, No. 201, will take place.

A selection by the orchestra will open the program. This will be followed by an address by an officer of the order, after which a vocal selection is to be given. An address, dealing with the history of the order, entitled, "Facts and Figures," will be the next number, followed by music and another address. A recitation will be given and the Woodmen quartette will sing. Music by the orchestra will close the program. Supper is to be served and dancing will then be in order. The committee in charge of the event is composed of C. H. Krieg, Ernest Peterson and A. W. Moore.

It tones and vitalizes the entire system; makes life worth living, no matter what your station. Boller's Rocky Mountain Tea is the surest preventative known against diseases, 25c. Tea or Tablets. The Stafford Drug Co.

HALF PRICE.

All toys at Foster's go for half price, just divide by two. (12-27-17)

WILL RUN SPECIAL CARS FOR BIG BALL

TWO OR MORE FOR TRAIN FROM NEGAUNEE AND ISHPEMING WHICH ARRIVES AT 7:45.

An unusual convenience is now being arranged for the out-of-town people who will attend the big charity ball at the new Lake Shore Engine Works' plant. The trains which they take from their homes, whether these are in Munising or Ishpeming, will bring them directly to the new plant and not only that, but they will be delivered under the roof of one of the buildings of the plant. On the night of the ball one may take a train at Ishpeming and remain under cover throughout the ball until he returns to his home town the next morning.

These trains will go over the I. S. & L. tracks to the plant and will be switched on to one of the spur tracks leading into the buildings. On the night of the ball two or more special cars are to be included in the train which arrives from Ishpeming and Negaunee at 7:45 o'clock. These will go directly to the plant and after the ball will be taken back to Ishpeming and Negaunee by a special engine.

Tickets for the ball are now on sale in leading stores of all the neighboring cities and it is reported that many are being sold. It has been decided that there will be nineteen boxes. Of these eleven have already been sold. The remaining eight will probably be disposed of within the next few days.

1,664 LICENSES ISSUED.

Just 130 More Deer Hunters Were Out This Year Than Last Year.

All of the reports from the various points in the county at which deer licenses were sold during the recent season are now in the hands of County Clerk Jenks and they show that one hundred and thirty-nine more licenses were issued this year than last year. The total number of licenses issued this year is 1,664 and of this number, only twenty-four are non-resident licenses. The total amount of revenue derived from the sale of deer licenses this year was \$3,000. Of this \$2,400 was paid for resident licenses and \$600 for non-resident licenses. Besides these licenses, one non-resident license for small game was issued. This is in accordance with the new law requiring non-residents to pay \$10 to hunt small game in Michigan.

Last year 1,513 resident licenses were issued and twelve to non-residents. The total revenue derived, \$25 for non-resident licenses and \$1,500 for resident licenses, amounted to \$2,525. Of this, \$2,269.50 was paid for resident licenses and \$256 for non-resident licenses.

TWO NEW LOCOMOTIVES.

Seven More Are to Be Added to the Equipment of the South Shore.

The first two of the nine new locomotives which are to be added to the South Shore equipment were received yesterday and it is probable that two more will arrive today. The new locomotives are being built at the Baldwin locomotive works at Philadelphia and are to be used in both the freight and passenger service.

The two new engines received yesterday are both freight engines. They will be in shape and ready for their trial trips Monday. They will be known as Nos. 500 and 501. Mr. B. Craigen of the Baldwin company arrived with the engines and will remain here until they are put in service. They have been on the road for over two weeks, having been shipped from Philadelphia Dec. 16 last.

The new engines are of what is called the consolidated type, with eight drivers each. In working order, each of them weighs eighty-five tons and with tender about a hundred and forty tons. The cylinders are twenty by twenty-eight inches and the length of drivers is fifty-seven inches. Each will take 190 pounds of steam. Superintendent Conolly of the South Shore expects one of the passenger engines and another freight engine in this morning.

SUNDAY AT THE CHURCHES.

First church of Christ, Scientist—Services will be held tomorrow morning at 10:30 o'clock at Felix Hall, Opera House block. The subject of the sermon will be, "Christian Science."

Presbyterian—Morning service at 10:30 o'clock; sacrament of the Lord's supper. In the evening, at 7:30 o'clock, the pastor, Rev. J. M. Rogers, will have for the subject of his discourse, "Some Suggestions for the New Year." There will be special music.

First Baptist, Rev. C. H. Maxson, pastor—The services on Sunday will be appropriate to the holiday season. In the morning, at 10:30 o'clock, the pastor will deliver a sermonette for the children. A special musical program will be given. Services will be held at 7:30 o'clock in the evening, as usual.

SOCIALISM IN FRANCE.

Socialism is a power in French politics, not in French life. In no country, is Socialism so much of a household word and such a political power; yet probably in none is it less of a household thing and less of a social power.—Mr. Laurence Jerrold in the Fortnightly Review.

ANNUAL MEETING.

Notice is hereby given that the annual stockholders' meeting of the Marquette City & Presque Isle Railway company, for the election of directors and the transaction of other business, will be held at the office of the company, No. 9 Spring street, in the city of Marquette, Michigan, on Tuesday, the 21st day of January, 1908, at 10 o'clock a. m.

WELL-KNOWN RESIDENT HAS PASSED AWAY

AUGUST F. BJORLING, HERE SINCE 1873, DIED THURSDAY NIGHT AFTER SEVERAL MONTHS' ILLNESS—SALISBURY WOMAN CUMCUMBS ON 84TH BIRTHDAY.

August F. Bjorling, one of Ishpeiming's oldest and best known Swedish residents, passed away Thursday night. His death was not unexpected, as he had been in poor health for over a year and for eight months had been confined to his bed. Tuberculosis of the stomach and kidneys was the cause.

The deceased was born in Sweden and came to this country in 1869, locating at Rockford, Ills. He remained there but a short time, when he moved to Humboldt, in this county. From there he came to Ishpeiming in 1873. During practically all of the time Mr. Bjorling lived in Ishpeiming he was in the employ of the Cleveland Cliffs Iron company, at the Barnum and Cliffs shafts mines. He was one of the first men employed at the Cliffs shafts.

The deceased was fifty-seven years of age and is survived by his widow and two sons, John Bjorling of this city, and Albert of Rockford, Ills. The funeral will be held this afternoon at 2 o'clock from the Swedish Lutheran church, under auspices of the Swedish Home society, of which the deceased had been a member since shortly after it was organized, nearly twenty-five years ago.

Mr. Bjorling is the ninth member of the society to pass away in nine months.

Death of Mrs. Martha Johnson.

Mrs. Martha Johnson, residing with her daughter, Mrs. Emanuel Grund, at the Salisbury location, died Christmas on the eighty-fourth anniversary of her birth, after an illness of about two weeks. The deceased had resided part of the time in this city and part of the time with one of her three sons, living at Cleveland, O. One of the sons is captain of the Cleveland-Cliffs Iron company's steamer, Samuel Mather.

The funeral will be held tomorrow noon. The services will be conducted at the house at 12:30 by Rev. E. V. Isaacson, pastor of the Swedish Lutheran church.

Former Resident Writes That Men Cannot Buy Jobs.

An Ishpeiming man at Goldfield, Nev., has written friends that conditions are now very bad there. A few days after the strike was declared he left Goldfield for other points in Nevada and Utah, in the hope that he might find work, but every place he went seemed to be over-run with men, and he says that a man, no matter how good a mechanic or miner he may be, cannot buy a job. The men out of employment are not moving around much, as they realize that conditions are about the same all over the west.

The Ishpeiming man expresses the opinion that the strike in Goldfield would have been settled some days ago, if the mine operators were certain that he had obtained the upper hand of the Federation of Miners. The union, he declared, has been responsible for many of the set-backs in the Goldfield camp. It has done nothing to discourage the thefts of rich ore from the mines.

PISO'S CURE
Relieve Coughs
25 CENTS

Relieve Coughs, colds, hoarseness, bronchitis, asthma and diseases of the throat and lungs promptly by using PISO'S CURE. Its marked healing and strengthening virtues exert a highly beneficial effect upon the irritated parts, speedily removing the cause and effecting complete recovery.

All druggists, 25 cents.

FOR COUGHS AND COLDS

CONCERT NEW YEAR'S EVE.

The following program will be rendered at the concert on New Year's eve at the Swedish Methodist church, corner Cleveland avenue and Third street:

- Invocation..... Rev. O. W. Carlson.
- Song, "Sing O Heavens"..... Choir.
- Selection..... Orchestra.
- Soprano solo, "Glory to God"..... Miss Olga Kellgren.
- Piano duet, selected..... Miss Inez Nelson and Miss Winnie Franquist.
- Quartet, "Bright and Joyful in the Morn"..... Miss Olga Kellgren, Miss Edla Warnberg, Gust Sundlie, George Ericsson.
- Part II.....
- Piano solo, selected..... Miss M. Anderson.
- Vocal duet, "Thy Will Be Done"..... Mr. and Mrs. Gust Sundlie.
- Discourse, "The Youth of Christ"..... Rev. O. W. Carlson.
- Selection..... Orchestra.
- "Children's Drill"..... Choir.
- Song, "Seek Ye the Lord"..... Choir.

Anderson House serves good meals. See the ad and try the New Year's dinner. (12-28-21)

BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. Notre Dame, Ind. will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are he can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

"THE SQUAW MAN" FRIDAY.

Original Date Has Been Changed, on Account of Charity Ball in Marquette.

"The Squaw Man," which will be at Ishpeiming theater next Friday evening, was originally booked for Saturday. The change in the date was made on account of the charity ball at Marquette, the attraction having originally been booked for that city on Friday evening.

In "The Squaw Man" the theater-goers of this city will be given an opportunity to see one of the season's most successful successes with a prestige of a six months' run at Wallack's theater, New York. Every critic of the piece has been of the most satisfying nature, and the general opinion of those who have seen this production is that it is one of the strongest bits of dramatic construction that has yet been given to the theater patrons as a portrayal of the most successful light society roles, is playing the principal part, and he invests it with a character and dignity that cannot be surpassed. The play is simply a story of a man, Leiber & Co., and the cast secured to interpret it cannot be surpassed in point of excellence.

WILL SPEAK AT RMY.

Rev. F. W. Jewell, pastor of the Methodist church at Rogers City, Mich., who came here early in the week on a visit to his father-in-law, Frank Vivian, and wife, will speak tomorrow afternoon at 3 o'clock at the Salvation Army barracks. Rev. Jewell had charge of the service here five years ago. Three years ago he was ordained as a Methodist minister. Rogers City is included in the district presided over by Rev. W. B. Collins, former pastor of the First Methodist church in this city.

FROM HOPKINS' CURB LETTER.

"Copper stocks opened practically unchanged from last night's closing, but with a firm undertone. After the early display of weakness in the New York market the shorts started covering and stocks advanced about a point, after which they declined again in Greenec. Cananea has held very strong around 6 on reports that the company would erect a new smelting plant for the treating of its ores at Del Rio. The plant will be one of the most modern and complete of its kind in the world. It will require about two years for building and will cost about \$3,000,000."

The prevailing prices were:

ISHPEMING IN BRIEF.

Mr. R. C. Pope of Superior, Wis., was a visitor in the city yesterday.

James Duke and Ed. Packa of Marinette looked after business in the city yesterday.

Ed. Clark left Thursday night for Duluth and the Mesaba range, to be absent a few days.

Mrs. T. J. Dordon of Hancock is here visiting her parents, Mr. and Mrs. Edward Hickey, of Lake street.

F. A. Gowling and wife of Bisbee, Arizona, and G. W. Gowling of Mitchell, S. D., were visitors in Ishpeiming yesterday.

B. Benjamin and wife and Henry Pincles of Milwaukee visited their uncle and aunt, Mr. and Mrs. Ed. Clark, during Christmas.

George E. Voyer will give up the Nelson House bar the first of the year. He will be succeeded by John P. Outwaite, proprietor of the hotel.

The four-months-old son of A. Selaback of the American mine location, died Christmas day, and was buried in this city Thursday afternoon.

The funeral of the late James Miners, Sr., who died Tuesday night at 11 o'clock, was held yesterday afternoon from the First Methodist church, and was largely attended.

Mrs. T. F. Nugent of Milwaukee, who has been here since before Christmas, will leave for her home tonight. Her husband returned to the city Thursday night.

Wesley Hooper, who has been confined to the Ishpeiming hospital for the past six weeks with typhoid fever, has returned to his home on South Angelina street.

Louis Ruttenberg and wife of Milwaukee, formerly of this city, spent Christmas with relatives here. He left for his home Thursday night, but his wife will remain until after New Year's.

Tickets for the charity ball to be held at the new plant of the Lake Shore Engine Works at Marquette are on sale at the stores of Braastad & Co., F. P. Tilson and L. W. Atkins & Co., and at the Ishpeiming theater box office.

The remains of the late Mrs. Johanna Sundstrum, who died Tuesday at the Newbury asylum, will be held this afternoon at 1:30 o'clock from the home of her son-in-law, August Samuelson, on East Ridge street. Services will be held at 2 o'clock at the Swedish Lutheran church.

The L. B. club will give its next hop at Braastad's Hall, Saturday evening, Dec. 28. Dancing from 8:30 to 12. Tickets, 50 cents a couple. Trombly's orchestra.

FIRM FOR SHIP SUBSIDY.

ALL COAST CONGRESSMEN ARE UNITED IN ITS FAVOR.

Mr. McKinley of California is an Earnest Advocate of the Measure—He Believes It would Increase Commercial Opportunities, Especially in South America—Says Japan Threatens Our Trade in Cottons—An Interesting Report on Transportation Routes and Systems.

Washington, Dec. 27.—Representative Duncan E. McKinley of California never tires of rehearsing the commercial situation and pointing out the trade opportunities which the merchants of the United States are missing through lack of transportation lines, particularly with South America.

The Pacific coast members are a very well organized body. It is noteworthy fact that there is only one Democrat in the house from the section west of the Rockies, and the Republicans hang together well. They may split somewhat on the presidential question, owing to varying views on the Philippine tariff bill, while Colorado stands out sharply to protect her beet sugar industry. The Pacific coast members, in fact have formed an organization for legislative purposes—an example which New England might follow to advantage. So far as ship subsidy is concerned, the Pacific and Atlantic coast members are a unit, but there appears no sign of a break in the Northwestern States. In some of the agricultural states which are now beginning to benefit by the development of the Southern ports there is less opposition to the subsidy bill, and the hopes of the subsidy men are growing.

"If we can do nothing else, we ought to do something to develop our South American trade," said Mr. McKinley. "The South American countries last year bought of the world about \$360,000,000, of which we sent them a little more than \$80,000,000, or less than 25 per cent. This is a great increase within the last ten years, but it is nothing to what it would be if we had adequate transportation lines. The South American buyers from Europe the same classes of goods that are manufactured in the United States, and I am very glad to know that it is the intention of Secretary Strauss of the department of commerce and labor to do his utmost to develop our trade with South America."

"Do you think Japan threatens our trade in manufactured cottons?" was asked of Mr. McKinley.

"I certainly do," he replied. "You must remember that the government is backing practically every great industry in the empire. It loans money to factories at very low rates. In the year I was there, some twenty-three new mills were started. Japan has no patent laws, and the Japanese import our machines, take them to pieces and build them for their own use at one-fifth their original cost. Labor can be had for twenty-five cents a day, and it is skilled labor, or rapidly becomes such. Japan has her market right at her doors, while we must send our cottons thousands of miles. I am by no means an alarmist as to the Japanese situation, but I will say this, that if our business men could travel through Japan as I have travelled, and note what is being done there to develop the industries of the empire, they would come home with much more liberal ideas. They would find that they must protect themselves by enlarging foreign trade opportunities, and the ship subsidy is one of the quickest and most effective instruments that can be used."

The bureau of statistics has just issued a monograph on "Transportation Routes and Systems of the World," which the friends and opponents of ship subsidy alike will find useful. This is the personal work of Oscar P. Austin, chief of the bureau, and is unique in some respects. Two years ago Mr. Austin made a tour of the world in the interest of his department, and his presentations have a value which is not altogether academic. The report is accompanied with a map prepared with the assistance of the hydrographic office of the navy department, giving a bird's-eye view of all the railroad and water transportation routes of the world. This is believed to be the only map of the kind in the world, and it is very eagerly sought by commercial and legislative specialists.

Among other startling presentations, one of especial importance is noted in the table setting forth the world's development of carrying power, production and commerce, from 1800 to 1906. From this it appears that the world's ocean carrying power has increased more rapidly than the world's commerce in the past few decades. In 1870 the commerce of the world was valued at \$10,500,000,000. Thirty years later it had a little more than doubled, and in 1906 it represented \$28,500,000,000. During the same period, in which occurred phenomenal changes from sail to steam, carrying power had increased from 25,000,000,000 to 63,500,000,000 in tonnage to 1906 and in 1906 to \$2,500,000,000. The total increase, therefore, was of about 265 per cent in the value of commerce and of 325 per cent in the tonnage of ships to carry it.

Mr. Austin, of course, offers no conclusions with his figures, leaving them to be interpreted according to individual fancy; but it has already been pointed out here that the difficulty with the shipping question is to be found not so much in security of ships as in their unequal distribution. It is a fact that almost the sole companions of the United States in the possession of antiquated shipping laws are the progressive nations of Spain and Russia.

Another unique presentation of this meaty monograph is a table of distances from New York, New Orleans, San Francisco and Port Townsend to the principal ports of the world and the principal cities of the United States, by way not only of the all-water route, but including routes over the isthmuses of Panama and Tehuantepec. From New York to Hong Kong, for example, the distance will be little shortened by the Panama Canal. The distances are: Via Port Townsend (land and water), 9,085 miles; via San Francisco (land and water), 9,277 miles; via Tehuantepec, 10,572 miles; via Panama, 11,431 miles; via Suez, 11,610 miles; a difference of less than 200 miles; via Cape of Good Hope, 13,500 miles; via Magellan Strait, 16,868 miles. From New York to Manila the distance via Suez Canal will be 11,550 miles, and via Panama, 11,546 miles, a saving of only ten miles. From New York to ports on the western coast of South America the saving will be material, of course. Via Magellan Strait, the distance is 9,603 miles, while via Panama it will be reduced to 3,392 miles.

Wild animals killed 2,084 persons in India last year, in addition to 22,854 who died from snake poison.

A SIMPLE HOME MIXTURE TO USE

WHICH ANYONE CAN PREPARE IS SAID TO RELIEVE RHEUMATISM PROMPTLY BY FORCING THE KIDNEYS TO FILTER THE URIC ACID AND OTHER POISONS.

To make up enough of the "Dandelion treatment," which is claimed to be relieving nearly every sufferer who uses it for backache, kidney complaint, sore weak bladder and rheumatism; get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon and three ounces Compound Syrup of Sarsaparilla. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

Those who have tried it claim that it acts gently but thoroughly on the kidneys, relieving backache and bladder trouble and urinary difficulties almost instantly. Many cases of rheumatism are known to have been relieved within a few days, the pain and swelling diminishing with each dose.

A well-known local druggist, who is in a position to know, asserts that this prescription, wherever it becomes known, always ruins the sale of the numerous patent medicine rheumatism cures, kidney cures, etc. It is a medicine manufacturer, and even certain physicians dislike to see published. Few cases, indeed, which will fail to fully yield to its peculiarly soothing and healing influence.

AGASSIZ TO EXPLORE AFRICA. PAYS \$10,000 DEBT IN SILVER.

Will Penetrate Wildest Parts, Especially in the Lake Region. An Incident of the Stringency in Texas—Uses a Wagon.

Boston, Mass., Dec. 27.—Professor Alexander Agassiz, director and curator of the University Museum at Harvard, president of the Calumet & Hecla company, and world-wide traveler, will shortly start on an expedition to the lakes and wildernesses of Central Africa to pursue his scientific investigations. The son of Louis Agassiz, Harvard's most famous scientist, is hard at work on the details of his expedition...

Mr. Agassiz is one of the world's greatest travelers, and there are few nooks in the earth's surface that he has not at some time or others penetrated to. Of these few Central Africa is one, and accordingly Professor Agassiz has determined to visit "the glorious lakes and falls which so very few English speaking persons have ever seen. The exact date of the departure has not been fixed. Mainly in South America. The major portion of Professor Agassiz's scientific explorations have heretofore been confined to South America...

In 1894 he made a notable expedition to the deep sea regions of the Pacific, and it was during this expedition that Professor Agassiz found the great submarine desert 3,000 miles long and several hundred miles wide that lies west of South America. Till this discovery it had been believed that life existed in all submarine regions...

The whole scientific world is watching the developments in Professor Agassiz's latest plan with the keenest interest, and from it notable results are expected. The jungles of Africa constitute a barrier that only the hardiest travelers care to investigate. Professor Agassiz, intrepid alike to danger and discomfort, has only happy anticipations of his trip. Just how long he will be absent from America or who will accompany him has not as yet been determined.

Leaves Coral Reefs. Coral reefs have always held a peculiar fascination for Professor Agassiz, and after exhausting the list of reefs in the Pacific Ocean he made an expedition to Queensland especially for the purpose of studying the famous Barrier Reef.

STANDARD OIL SHIPS AT SEA, FEARING TEXAS LAW. Galveston, Tex., Dec. 27.—Rather than risk its costly floating plants within the jurisdiction of Texas, which extends three miles from the shore into the Gulf, the Standard Oil company is loading its tank vessels at sea. Eight of the Standard's big vessels are anchored five miles off shore from Port Arthur taking on crude and refined oil cargoes for export. The oil is carried out in lighters, and this very hazardous service is costing the company \$2,000 a day, or \$50,000 a month. The Security Oil company is charged with being a trust concern owned by the Standard and the other proceedings instituted by the state attorney general carried an injunction restraining any company doing business with the Security from removing any of its property from the state. The Standard has big contracts with the Security for oil and is afraid if its vessels get within the jurisdiction of the state they will be seized.

Negaunee Department

RAILROAD MEN WANT CHANGE IN WEATHER

ADDITIONAL TRAINS WOULD BE PUT ON IF CONDITIONS WERE MORE FAVORABLE FOR LOGGING OPERATIONS—MOVEMENT OF TIMBER NOT YET STARTED. The lack of snow and mild weather are combining to keep many railroad men out of employment, by retarding operations in the woods. A railroad man said yesterday that there would be from 10 to 15 per cent more men at work if conditions for lumbering were favorable. None of the loggers are hauling timber and there are no logging trains working anywhere in this region. At least a foot of snow, with a few cold nights, is needed.

There has not been a time this winter when a snow plow has been needed on the main lines of any of the railroads. At this time last year there was fully two feet of snow on the level in Negaunee, and the plows on the railroads and in the cities had been used a number of times. "Snow was piled up from three to five feet high along the cemetery and other roads," said Street Commissioner Willman. "Our plows have been out only twice for a few hours each time this winter. We have not had to haul a single load of snow from the business streets, nor has the city been put to any other expense to speak of."

If conditions for logging operations do not improve within the next few weeks some of the jobbers will not come out as well on their season's work as they hoped for. Most of them expected to have considerable of their timber delivered by this time, but practically nothing has been moved. "There will be much timber cut this winter, but if weather conditions do not change a large part of it will be left in the woods until next season," said a jobber yesterday. "The operators who are supplying their patrons are worried, but they intend to keep on cutting, even if they are unable to haul."

LOCAL LAÇONS. A. F. Benson of the Mesaba range is here on a few days' visit. Miss Mattie Dave is home from Iron Mountain on a visit to her parents. W. H. Gouge is visiting his daughter, Mrs. John Murray, at Coleraine, Minn. Louis Houle is home from Ann Arbor to spend his holiday vacation with his folks. Joseph Brand and wife departed Thursday night for their home at Proctor, Minn. The large doll given away this week at the People's store was won by Joseph Peterson's six-year-old daughter, Eva. Dan Shea is expected home today from Escanaba, where he spent Christmas with his brother-in-law, John Ward, and wife. Miss Katherine Mattison, kindergarten teacher at the Jackson school, is spending her vacation with relatives at Grand Rapids. Louis Townsend will entertain a number of his young friends with a masquerade party at his home next Tuesday evening. The Negaunee fire department has decided to give its annual ball on Easter Monday, which will occur this year on April 20.

RUSH ABOUT OVER. FEWER FOREIGNERS GOING TO ESTOPE THAN A SHORT TIME AGO.

The exodus of foreign born people is about over for the present, at least at the rate of yesterday. "I have been among the Finns and Italians during the past week or so and I find that few of them are now planning on going home. There are not many idle men in the city, as most of these who were abroad or have left for other mining districts in this country, it will not be long before some of those who left here late in the summer or early in the fall will be coming back again. Railroad and steamship men look for the return movement to start the latter part of February, but it is doubtful if many will come to this region before the opening of navigation, as those who left here last fall know that there will be very little activity at the mines until the shipping season opens."

TO SAVE HOME OF FRANCIS KEY. ASSOCIATION TO BUY HOUSE WHERE AUTHOR OF "STAR-SPOOLED BANNER" LIVED.

Washington, Dec. 27.—Preservation of the old home of Francis Scott Key, author of "Star-Spangled Banner," is at last assured. The old house where Key lived is in historic Georgetown, now a part of Washington, and while a substantially built structure it is fast falling into a state of dilapidation. The Francis Scott Key Memorial association has decided to purchase the property for \$15,000 and to spend a liberal sum in restoring the building to the condition it was in when occupied by the author of the national anthem.

Charles Weisiger, who preserved the home of Betty Ross, the first place of the American flag in Philadelphia, will come to Washington next month and take charge of the key mansion. Mr. Weisiger originated the plan to preserve the Ross home and has managed its finances since that time. He has agreed to assume control of the key home and it is thought the success of the movement for preservation of it is now a certainty.

NEW ERA OFFICERS.

At the last regular meeting of the Negaunee branch of the New Era association the following officers were elected for the ensuing year: President—Matthew Chester. Vice President—Joseph Young. Secretary and Treasurer—Adolph O. Sjoholin. Director (three years)—Thomas A. Pascoe. Delegate to District Convention—Thomas A. Pascoe. Alternate—Joseph Young.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations connected with the same. Sold by The Stafford Drug Co.

What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription." The answer is that "Golden Medical Discovery" is a most potent alterative of blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon the mucous membranes, such as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder—curing a large per cent of catarrh of the bladder, gonorrhea, leucorrhea, uterine or other pelvic organs. Even in the chronic or ulcerative stages of these ailments it is often successful in effecting a cure.

"The Favorite Prescription" is advised for the whole class of diseases—those of the female system, such as weakness, irregularities incident to womanhood. It is a powerful yet gently acting invigorating tonic and nerve. For weak women, for those who are suffering from the waning functions, subduing pain and bringing about a healthy, vigorous condition of the whole system. A box of these pills will regulate and improve the formula of both medicines and quoting what scores of eminent medical authorities whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines.

Dr. Pierce's Pills, small, sugar-coated, course take as easy, regulate and invigorate stomach, liver and bowels. AEROPLANE INVENTORS' CHANCE. Government Asks Bids for Heavier-Than-Air Flying Machines.

Washington, Dec. 27.—The signal corps of the army has given out the specifications and advertised for bids for the heavier-than-air flying machine which are desired for use in military operations. Before any bid will be accepted the general requirements laid down must be met by a satisfactory test at Fort Myer, Va., before a government board of experts. The test is more severe than ever required in any country—even more exacting than that governing the contests for the Deutsch prize of \$20,000 which has been outstanding in Paris for more than a year without takers.

Sealed proposals will be received at the office of the signal corps at the war department until noon on Feb. 1, and will be turned over to the board of ordinance and fortification at its first meeting after for official action. Builders are required to state the time of delivery of the machine at Fort Myer, Va., and the test must be concluded within thirty days of that time.

That the government will succeed in getting a machine which will meet all of the conditions named is considered doubtful, but it is believed by officers of the signal service that the test will be a great step toward accomplishing the object of the department. The specification covers the construction of a flying machine supported entirely by the dynamic reaction of the atmosphere and having no gas bag. It must be designed to carry two persons having a combined weight of about 350 pounds, also sufficient fuel for a flight of 125 miles. The standard of speed fixed by the department is forty miles per hour in still air, but bidders are required to submit quotations in their proposals for cost depending upon the speed attained during the trial flight. Ten per cent reduction after final bid by the government for the machine will be made for each mile under forty an hour attained during the test, but if the speed is under thirty-six miles an hour the bid will be rejected.

A similar increase in price will be made if the machine makes more than forty miles an hour. For instance, 40 per cent would be added to the price if forty-four miles an hour should be attained. The speed accomplished during the trial flight will be determined by taking an average of the time over a measured course of more than five miles against and with the wind. There is to be a flying start, and the starting point at the beginning and end of the flight must be passed at full speed. This is far in excess of the requirements demanded to get the Deutsch prize, in which case the contestant must circle 1,000 metres, beginning and ending at the same point. Henry Farnam, an inventor in Paris, circled with his machine more than the required distance, but could not sustain his flight until the circle had been fully completed. The Wright brothers of Dayton, O., claim to have done far better than is now required by the war department, but they have given no public demonstration of their feat. They have indicated to the war department, however, that they will file for the contract and will test their machine before the government board. In addition to the speed test required there must be an endurance test. A trial flight of at least one hour will be required, during which time the flying machine must remain in the air continuously without landing. It must return to the starting and land without any damage that would prevent it immediately starting upon another flight. During this trial flight of one hour the machine must be steered in all directions without difficulty and at all times be under perfect control and equilibrium.

Three trials each will be allowed for speed and endurance. The cost of the tests are to be borne by the manufacturer, and the price of the machine quoted in the proposals must include the instruction of two men in the handling and operation of the aeroplane. Some of the other important conditions of the test follow: "The machine must be so designed as to ascend in any country which may be encountered in field service. The starting device must be simple and transportable. It should also land in a field without requiring a specially prepared spot and without damaging its structure."

"It should be provided with some device to permit of a safe descent in case of an accident to the propelling machinery. It should be sufficiently simple in construction and operation to permit an intelligent man to become proficient in its use within a reasonable length of time." Plans received from the bidders will not be shown to other inventors. As a further safeguard it is likely, when requests are made, that inventors will be given full protection for all private rights. As the tests are to be held at Fort Myer, Va., a military post, this can be done easily. A guard can be thrown out to fully covering the beginning of the flight and the end, so the public will be kept from close scrutiny of the machine.

Unless the bidders are also the makers of the flying machine they must state the name or place of the maker. They must also supply complete scale drawings of their device, and they are notified that it is desirable that the machine shall be capable of being easily and quickly taken apart and re-assembled and be transportable in any army wagon. To protect the department against irresponsible and visionary persons who set up claims to the invention of practical flying machines, bidders will be required to furnish with their proposal a certified check to the amount of 10 per cent of the machine.

The greatest test of shoe quality is in the work shoe—and it is in this particular branch that we lead. Farmers, miners, lumbermen, mechanics, and working men in all occupations, will find that they can get double the wear out of Mayer work shoes.

Richest Man in the Senate Leases House at \$22,000 a Year. Washington, Dec. 27.—Simon Guggenheim of Colorado is the richest man in the United States senate. Some of the heretofore far-famed millionaires look like poor men beside this mining and smelter king, whose personal fortune is estimated at \$100,000,000, and who has many other millions of interests in the Congo, South America, Alaska and other parts of the world.

When the senator first came to Washington he brought along a "wise" chauffeur from New York. But about two weeks ago the New York laid took the senator for a spin through Rock Creek park, and lost him, and long after dark they had to be piloted out by a park policeman. So the senator sent the gas-line skipper back to Gotham and hired as his auto captain an automobile maker who is familiar with the streets and suburbs of the capital.

An interesting story is told of the late Senator Guggenheim, which is now owned by Mr. Munn. About twenty years ago it was built by William Windom, sometime United States senator from Minnesota, and secretary of the treasury under Harrison. Now Windom was regarded as a poor man in his state, and in Washington, and the senatorial salary then was only \$5,000 a year. So when he put up this magnificent home, pictures of it were made and circulated in Minnesota, and he was defeated for the senate on this thing alone.

Senator Guggenheim wanted to lease the haz Anderson house, at \$85,000 a year, but at the last moment was unable to obtain it. He has a hobby about bathrooms, and every house he looked at was woefully lacking in these modern conveniences except the Windom house. The ten bath "bungalow" him, Guggenheim the lease as soon as he found out about them. The house is said to contain \$500,000 of art works, paintings and rugs. It is magnificently furnished. The Guggenheims had intended entertaining lavishly this winter, but the death a few days ago of Mrs. Guggenheim's father has necessitated the recall of many invitations, and probably they will not figure much in society for several months.

John Wesley Gaines, the silver-haired and hose-tongued trouble maker from the Cumberland, has demonstrated his ability to retain form. If anybody believed he would make a new record in the Sixtieth congress by refraining from "butting in" to the debate on all occasions, he will be disappointed. John Wesley's name already figures in the Congressional Record more frequently than that of any other statesman at the south end of the capitol. The other day he coined a new expression which will make rank with Senator Jeff Davis' now famous phrase, "social society." The house was about to adjourn for the holidays. It was John Wesley's opportunity. He launched into a tirade against the long vacation, when he said, the people of the country were looking to congress for remedial legislation on the currency question. "Here we have been here for almost a month," he thundered, "and we have accomplished nothing, and very little of that."

A REAL WONDERLAND. South Dakota, with its rich silver mines, bonanza farms, wide ranges and strange natural formations, is a veritable wonderland. At Mount City, in the home of Mrs. E. D. Clapp, a wonderful case of healing has lately occurred. Her son seemed near death with lung and throat trouble. "Exhausting coughing spells occurred every five minutes," writes Mrs. Clapp, "when I began giving Dr. King's New Discovery, the great medicine, that saved his life and completely cured him." Guaranteed for coughs and colds, throat and lung troubles, in 7 to 10 days. Price, 50c. and \$1. Trial bottle free.

THROWING HIS FORTUNE AWAY. Throwing away what one has is not always the only way to lose a fortune. Being unwise to see an opportunity, or to grasp it when seeing it, is more often the cause of losing out in this world. A person who feels too sluggish to make the best of time can quickly improve by using Sewine Pills, the great tonic, that is guaranteed for all forms of weakness in men and women. Price \$1 a box, six boxes \$5, with full guarantee. Address or call People's Drug Store, Marquette, Mich. This is the store that sells all the principal remedies and does not substitute.

ORR & TOMPKINS, Proprietors. ADELPHI ROLLER RINK. J. M. WILSON, Manager. Open Tuesday, Thursday and Saturday. Afternoon and Evenings. BAND EVERY EVENING. General admission Ten Cents. (10-22-17)

COMMITTEE IS TO MAKE EXPLANATION

CLAIMS VETOED BY MAYOR TO BE SUBJECT OF INTEREST AT NEXT COUNCIL MEETING.

CITY ATTORNEY'S STATEMENT

Alderman Schauer, Chairman of Claims Committee, Says He Will Have a Number of Things to Relate.

Alderman Schauer, chairman of the claims and litigation committee of the council, states that the saloon question will not be the only question of interest that will be discussed at the meeting of the council to be held Jan. 6. He will have much to say about the three claims which were recently vetoed by Mayor Robertson, he says. The proceedings of the committee that approved the three claims will be related.

Met Last August.

One of the reasons that has been advanced for the mayor's veto, though it is not stated in the veto message to the council, is that the action of the committee was taken without the advice of the city attorney. In connection with the published report of the veto message it was stated that City Attorney Brown had not been consulted by the committee. City Attorney Brown's exact statement about the matter was that he was not called upon to pass upon the terms of the settlement and that he did not acquiesce in the settlement approved by the committee. He states that he was not consulted at any time within the twelve weeks that preceded the council meeting at which the committee approved the three claims. Upon one occasion the committee did meet with him. That meeting occurred last August and the matter was then discussed in a general manner. City Attorney Brown says that at that time he advised the committee to compromise, and said he felt that the claims could be compromised.

The three claims in question are those of the Union Clothing company, Mrs. Adeline Reiding and William Rivers for damages done by the storm of June 23 last. The Union Clothing company wanted \$243.55 for damaged clothing which was stored in a basement room. The committee allowed \$240 of this claim. Mrs. Reiding asked for an indefinite amount, something like \$10,000, for damage done to her building and for the loss of a tenant. The committee allowed \$500 in settlement of this claim. William Rivers wanted \$501 for damages done to a stock of liquors and goods in his saloon, and for expense of removing. The committee allowed \$500 for this claim.

At the council meeting of Dec. 16 the committee, through its chairman, offered a resolution recommending the payment of the amounts they had allowed and the resolution was adopted without a dissenting vote. Some criticism of the action arose and led to an investigation by Mayor Robertson. Mayor Robertson stated that he was dissatisfied with the amount that had been allowed to Rivers, and as he was unwilling to approve this claim he was obliged to veto all of them, as the three were included in one resolution. The veto will be presented at the next meeting, Jan. 6.

Original Motion.

When the three claims were presented to the council last summer, Alderman Asire made the motion that they be referred to the claims and litigation committee and to the city attorney. The minutes of the meeting do not show that the city attorney was included in the motion, but as City Recorder Donovan's seat is across the room from that occupied by Alderman Asire, it is possible that he did not hear the motion in full, and so stated in his report of the meeting that the matter had been referred to the committee only.

TO GIVE SACRED CONCERT.

Messrs. Graunstadt and Erickson and Misses Berg and Hicks to Sing.

A sacred concert is to be given tomorrow night at the Methodist church and Messrs. Graunstadt and Erickson and Misses Berg and Hicks are to sing. Mr. Graunstadt was formerly a member of the choir and is now a resident of the copper country. He is spending the holidays with Marquette friends. The program to be given is as follows:
Duet, "Jesus Lover of My Soul"..... Knight
Mr. Graunstadt and Miss Berg.
Anthem..... Quartet.
Solo, "My God My Father"..... Marston
Mr. Graunstadt.
Duet, "Sweet the Moments Rich in Blessing"..... Wiegands
Mr. Graunstadt and Miss Hicks.
Anthem..... Quartet.
The quartet will also furnish the music for the morning service, which will be the occasion of the pastor's New Year message. The morning theme will be "The Significance of Time" and in the evening "A Young Man's Purpose."

Constipation and bad blood are twins, kill people inch by inch; sap life away. Hollister's Rocky Mountain Tea relieves constipation and bad blood. 35c., Tea or Tablets. The Stafford Drug Co.

On account of the closing of the Marquette agency of the Mutual Life Insurance company of New York offices on the fourth floor of the Marquette County Savings bank building, an exceptional opportunity is offered for the purchase of first-class desks and other office furniture and fixtures. Apply at once to R. S. Donaldson, manager, 401-403-405 Marquette County Savings bank building, Bell Phone, 71. (12-27-1f)

PRICE CUT IN TWO.

Fosters are clearing out instead of packing away toys. Half price on every toy. (12-27-2f)

STORM SASH.

We make all sizes on short notice. Don't wait. Consolidated Fuel & Lumber Co. (4-27-1f)

A CHARITY BALL MONDAY.

Society People in Charge of Event for Poor Children's Benefit.

Elaborate preparations are being made for the charity ball which is to be given at Fraternity Hall Monday night for the benefit of the charitable work of the Salvation Army. Tickets for the ball are seventy-five cents and are being sold by a committee of young women headed by Miss Rhoda Williams. They are also on sale at Stafford's, Bigelow's, Conklin's and the First National bank. Mrs. L. G. Kaufman and a number of other ladies prominent in Marquette social circles are taking an active interest in the function.

The hall is to be tastefully decorated. Music for the dancing will be furnished by the Marquette City orchestra. A luncheon is to be served. The ball is a most worthy charity as the proceeds will be devoted to the aid of poor children of the city. The purpose is to establish a permanent fund for the Salvation Army nursing work, so that a nurse to care for the sick among the indigent may be kept here permanently. Miss Hoyle is the Salvation Army nurse who came to Marquette a week ago, and since her arrival here she has found a large number of cases to care for. Monday night's ball will be very largely attended, and it should be.

GIFTS TO SALVATION ARMY LITTLE FOLKS

CHRISTMAS CELEBRATION WILL BE HELD TONIGHT AT THE HALL ON FRONT STREET.

The Salvation Army Sunday school will hold its Christmas celebration at the army headquarters on Front street tonight. A Christmas tree has been decorated for the children and two hundred and twenty-five presents will be distributed. Following is the program which will be given:
Opening song.
Prayer.
Chorus—"Christmas Bells."
Recitation—Francis Movick.
Recitation—George Smith.
Dialogue, "Watching for Santa Claus"
—Ruth Movick and Olive Roux.
Solo, "Santa's Deer"—Ada Roux.
Recitation—Lorin Corliss.
Recitation—Helen Movick.
Band selection—Sagina.
Recitation—Lawrence Orchard.
Song, "Tis True"—Mable Welland and Fred Corliss.
Recitation—Hilda Lafere.
Recitation—Ernie Knight.
Piano solo—Agnes Nix.
Recitation—Roda Orchard.
Recitation—Grace Corliss.
Recitation—Richard Williams.
Dialogue—"Choice Hospitality"—Freddie Corliss, Lawrence Orchard and Pearl Simmons.
Chorus—"Hear the Bells."
Band selection—"Christmas Chimes."
Dialogue, "Gone With a Handsome Man."
Band selection—March.
Tea party—Nine girls.
Band Selection—"Christmas Awake."
Flag drill—Fourteen girls.

FULL SHOW IN REHEARSAL.

Hibernian Minstrels Reported to Be Progressing Finely.

Everything that will be seen in the big minstrel show to be given at the opera house the evenings of Jan. 6 and 7 is now in rehearsal, and those who have witnessed the workouts the past few days say that it is going to be the best performance of the kind ever given in the city. Mr. Sheperd, the director, and Anna Dork, who assists him, are indefatigable workers, and they are paying particular attention to the little details, with the idea of getting a smooth, well rounded performance. J. J. Donovan will direct the first part, as interlocutor, and will see that the show moves lively. W. A. Ross has written his pencil at work and has written a number of new parodies and some excellent local gags, that will be worked into his turn with Holly Sheperd. Another turn out of the ordinary will be by a bunch of "coppers" led by Ambrose Hogan, an act that is being carefully developed.

SHARLAND FUNERAL MONDAY.

The funeral of Mrs. I. S. Sharland of 124 Rock street, who died early yesterday morning after an illness of three months, will take place at 9 o'clock Monday morning. Services will be held at St. Peter's cathedral and the interment will be in Holy Cross cemetery. Mrs. Sharland was fifty-five years old at the time of her death and had lived in Marquette for thirty-five years. She is survived by her husband, a son and a daughter.

FOR RENT AFTER JANUARY 1.

Entire front suite, now occupied by Mutual Life Insurance company. Marquette County Savings bank building. (12-5-1f)

DRY HARDWOOD.

We have a limited supply. Order now. Consolidated Fuel & Lumber Co. Both Phones. (12-14-1f)

FOSTER'S.

Every toy goes at half marked price. (12-27-2f)

ANNUAL MEETING.

Marquette National Bank of Marquette, Michigan.

Marquette, Mich., Dec. 13th, 1907. The regular annual meeting of the stockholders of the Marquette National bank for the purpose of electing directors and transacting any other business which may properly come before said meeting, will be held on Tuesday, the 14th day of January, 1908, between the hours of 10 o'clock a. m. and twelve o'clock noon of said day.

J. M. LUNGEYEAR, President, F. J. JENNISON, Cashier. (12-13-30f)

SACRED CONCERT AT NEW FRENCH CHURCH

REV. FATHER CORCORAN WHO FORMERLY LIVED IN MARQUETTE TO DELIVER ADDRESS.

TO SHOW STEREOPTICON VIEWS

Lecture Will Be Upon Sacred Topics—Sullivan's Orchestra to Play and Other Music Will Be Given.

An opportunity for the general public to inspect the newly built French church on Washington street will be given tomorrow night, when a sacred concert and an illustrated lecture upon sacred topics will be given at the church. Rev. Father James Corcoran, formerly of St. Peter's cathedral and now pastor of St. Francis' church at Manistique, will deliver the address.
Dedication Jan. 6.

The opening of the church tomorrow night will precede the dedication which is to take place Jan. 6, next. The building work and as much of the interior decorating that is to be done at the present time are now completed. Within the past week a large number of tickets to the concert and lecture have been sold and that a large audience will visit the new structure is assured. The price of the tickets is fifty cents.

The scenes, which will be shown on a screen to be erected in the church, will be of special interest. For the most part they are pictures of celebrated places in Holy Land. Rev. Father Corcoran's address will be upon subjects related to the pictures and his ability as an orator is well known here. A musical program of exceptional merit will be given. Sullivan's orchestra is to play and a number of vocal and instrumental pieces will be given. The program is as follows:

- The Program.**
Selection, "Meditation"..... Morrison
Sullivan's Orchestra.
Duet, "Jesus Lover of My Soul"..... Mrs. Delia Taylor and Alfred Graunstadt.
Piano solo, "Christmas Time"..... Hoffmann
Miss Mae Taylor.
Vocal solo, "Holy City"..... S. Adams
Mrs. Delia Taylor.
Illustrated lecture..... Rev. James Corcoran.
Selection..... Sullivan's Orchestra.
Duet, "Tantum Ergo"..... Mrs. Delia Taylor and Alfred Graunstadt.
During the progress of Rev. Father Corcoran's lecture, 120 views will be shown and a number of selections are to be given by the choir while the pictures are being shown. Mrs. A. Laurier will also render a number of vocal selections appropriate to the illustrations. The new structure has a seating capacity of more than a thousand.

CARD OF THANKS.

We wish to thank our friends, and particularly the members of the Swedish M. E. church, for the many attentions shown us during our recent bereavement. We appreciated the beautiful floral offerings, and we will always remember the sympathy extended to us in the hour of our sorrow.
MRS CHARLES ANDERSON, and Family.

ASHES! ASHES!

H. Orchard is the man who takes ashes and rubbish away, 10 cents a barrel or 50 cents a load. Address 420 Oak street. Bell telephone 830 red. Grease traps cleaned and all general work. (12-24-1f)

LEIGH COAL.

The best coal on earth. Now is the time. Consolidated Fuel & Lumber Co. (4-27-1f)

PIGS

Fine lot of dressed corn-fed Pigs just received from the

Ives Lake Farm
