

Wake Up!

Don't be caught "asleep at the switch" when the train for "Prosperity" passes your way.

Men who know say that we are on the eve of the greatest revival of prosperity this country has ever known.

You can hasten the day by putting your money in this strong bank, where it will help to put the wheels of trade and commerce in motion.

Remember, always, you benefit yourself directly and indirectly when you open a bank account. Your money not only earns more money for you, but it increases the prosperity of the whole community.

MARQUETTE-MENOMINEE ROAD.

It is Believed That Good Highway Will Be Built Between the Ranges.

While the matter has not yet been decided officially, it can be stated with a degree of certainty that the Menominee and Marquette ranges will be connected by a good wagon road during the year 1909, says the Iron Mountain Press. The road commissioners of Dickinson and Marquette counties are agreed in the premises. The route of the proposed highway has been partially investigated. The Dickinson commissioners have gone over the route and the Marquette end has been investigated by Engineer Hillyer, of Ishpeming. It is planned to hold a meeting of the commissioners of the two counties in the near future and go over the route. Engineer Hillyer says the road can be constructed at a moderate cost. The Sagola township authorities—enthusiastic road builders and believers in the agricultural possibilities of the county—are so eager to have the work started that they have volunteered to cut out the right-of-way from Sawyer lake to the county line as soon as the route is definitely located. Engineer Carpenter will make the survey as soon as the Marquette commissioners reach a decision as to the junction point. It will be necessary for Marquette county to build a bridge across the Michigan river, but at the point of crossing suggested by Engineer Hillyer the structure can be erected cheaply. The proposed highway will open thousands of acres of land suitable for farming purposes and we predict that the territory will be quickly settled up.

NOT FRIENDLY TO BRYAN.

Connecticut's Democratic Nominee for Governor a Corporation Man.

New Haven, Conn., Sept. 25.—An odd state of affairs it is, indeed, when in a state campaign in Connecticut the Democratic candidate for governor is the corporation man and the Republican candidate the opponent of corporations, especially after the Democratic platform, passed before the nominations for state office were made, is largely taken up with so fierce an attack on the corporations. Yet Judge Robertson of New Haven, the Democratic candidate for governor, is not only a director in the New Haven railroad, but in numerous other large public utility companies, banks and corporations, while the anti-party of Congressman Lilley, his Republican opponent, to corporation rule has become so well known in recent months as to call for little comment. Lined up on the side of Judge Robertson, too, are the manufacturers who presented such a vigorous protest against Lilley's nomination to the Republican state convention.

Not a few Democrats went away from the state convention sore over the result, for never was Republican road-roller in the same class with that used to smooth out the situation there, sidetrack the dozen or so candidates and nominate Robertson in spite of heated protest. Nor is Judge Robertson likely to be a winning candidate in any case, even against a weaker man than Lilley. He ran for governor in 1904 against a Republican candidate so weak that he ran behind his ticket a long way and failed to carry his home city of Hartford and could not carry New Haven, his home and a normally Democratic city. He is not a

Bryan man; it is doubtful if he ever voted for Bryan or will this year, though it is claimed now that he is for Bryan in this campaign. Any man who doesn't wish to vote for Lilley can vote for Robertson with a clear conscience, however, since he is a man of high personal repute.

ROOSTER RUNS AUTO.

Claws Ever Till Machine Moves and Biddies Cluck Their Delight.

A recent news telegram from New York says: If this thing had not occurred in the placid and unimaginative village of Cornwall-on-the-Hudson, you would naturally look for the trail of a press agent. As it is told in that village, the chronicle proceeds thus: "While the automobile of Dr. Winters was standing in front of the Cornwall postoffice last Wednesday afternoon, a large and lordly red and black rooster was scratching gravel in the road. A playful setter put the feathered sultan to flight. "Up winged Mr. Rooster, with a defiant 'Ch-h-h-u-u-e-k.' The hens followed. Mr. Rooster lighted right on the steering wheel of the machine. The hens very properly settled in the tomatoe. In striving to maintain his balance the claws of Mr. Rooster brushed the starting lever and the machine responded by jerking forward at a lively speed, and the hens behind clucked their delight. The auto was scratching gravel in the road. Mr. Rooster sitting calmly on the wheel.

"As the machine was crossing Duncan avenue one of the hens flew forward and alighted on the rubber hub of the horn. The 'honk! honk! honk!' that followed attracted the attention of women and children shopping in Main street. They scattered and sought shelter in the stores to escape from the demon auto hat moved without a driver.

"Just as the machine reached the top of Dock Hill, where there is a sharp and dangerous turn, Mr. Rooster, evidently tiring of his excursion, attempted to fly off. In doing so his claws wrenched the steering wheel around and the machine negotiated the turn without a mishap.

"As Mr. Rooster cleared the wheel his claws pushed the starting clutch back and the machine came to a stop in the center of the road.

"Chief of Police L'Estrange, who constitutes the force of Cornwall, ran up and threw his club at Mr. Rooster. It missed, and the bird and his gentle companions flew into an adjoining garden."

Chief L'Estrange has affidavits in his possession to convince the skeptical.

RATTLE ON SLEEPER'S CHEST.

At his noon lunch hour John Mahoney, a stone laborer, stretched himself on the ground for a few minutes' doze. While he was half asleep a rattlesnake crawled upon his chest. When it came time for work William Cooney called him, and, receiving no answer, went to arouse Mahoney and discovered his perilous position. He advised Mahoney to keep perfectly quiet and getting a pole tied a slip noose to the end of it. Advancing cautiously, he dropped the noose over the snake's head and jerked it from Mahoney's body.

Mahoney was ringing wet with sweat from nervous prostration and fright. Kelly Hardware company is making a particularly good offer on Majestic ranges. (9-22-1w)

MARQUETTE COUNTY SAVINGS BANK

SAVINGS BANK BUILDING,

Nine times out of ten the women are the money savers of the family. Men mean well enough. They know the value of having money in the bank, but they haven't the knack of saving. They haven't learned the trick of making one dollar do the work of two in buying, and of laying the other dollar away for the rainy day that is sure to come.

We have the **National Recording Safe**—the newest and finest little home bank ever made. You CAN WATCH THE MONEY GROW. Open an account with \$1.00 or more, and we will loan you one of these little banks free.

CALL AND SEE THEM.

Summer Delights

Ice Cream is all right for dessert any time, but "when summer comes again" it is particularly desirable. Take the hint! Always ask for La Vallee's Ice Cream and get the best going. Wholesale and retail.

MINER MEETS DEATH AT SUPERIOR HEMATITE

CHARGE OF DYNAMITE THAT MEN THOUGHT HAD GONE OFF EXPLODED SOON AFTER THEY HAD RETURNED TO THE DRIFT.

The first fatal accident that has taken place in any of the mines of Ishpeming in several months occurred yesterday morning shortly before 10 o'clock, when Tapias Weuori was instantly killed at the Lake Superior Hematite. Weuori and his partner, Nels Hannula, had charged three holes on the 130-foot level, and had gone some distance back in the drift to await the explosion. One of the holes missed fire, although both Weuori and his partner thought that all three had been discharged. After the smoke had cleared away the men returned to work. They were engaged in pulling down some dirt, when they struck the dynamite and the charge exploded. A large chunk of dirt struck Weuori in the face, the force of the blow breaking his neck. Hannula was only slightly injured. His face was cut in several places and a small stone penetrated his side. He was taken to the hospital and it is expected that he will be able to leave there in a few days. Hannula is about twenty years of age.

Corner William Prin accompanied a jury consisting of Joseph Gill, John E. Ohman, Ed. Carney, Alex. Anderson, Joseph Billings and W. J. Heavysides. After viewing the remains at the Finnish Furniture company's rooms an adjournment was taken until this morning at 10 o'clock, when the inquest will be held. Weuori was about forty-five years of age and is survived by his widow and three children, who live on Hill street. The deceased had been in the country only a year and was not generally known. He was an industrious and hardworking man. The funeral will be held from the Finnish Lutheran church tomorrow afternoon.

BIRDS WILL BE SCARCE.

Good Partridge Season Is Unlikely, on Account of the Fires.

An old sportsman yesterday said that he did not believe there would be good partridge hunting anywhere in the upper peninsula this fall, as the birds have been driven away by the forest fires and the smoke and, besides, many of their nests have been destroyed. He said that he had been in the woods considerably during the past few weeks and had not found that most of the places where he has had his best bird hunting have been saved by the flames. He is certain that there will be no birds in those particular localities, as there is nothing left for them to live on. In most of the places burned over the fires have penetrated the ground a foot or more and have destroyed all of the vegetation.

The sportsman also said that the deer may not be as plentiful in the country north and south of Ishpeming as usual. They also have been driven from their 64 haunts by the forest fires.

TWO DEATHS YESTERDAY.

Mrs. Mary Ann Lean, an old and well-known resident of Ishpeming, died yesterday, at the age of eighty-four years. She had been a resident of the city for a quarter of a century. Her husband died here twelve years ago. Mrs. Lean is survived by one daughter and five sons, the former living here. The sons are William in Australia, Johnson in California, Joseph of Nebraska, and John and Alfred in Ishpeming.

Paul Arvid Syvstad, son of Ole Syvstad, 824 Wabash street, died early yesterday morning of inflammation of the bowels. The funeral will be held this afternoon at 2:30 o'clock from the Norwegian Lutheran church. Friends who wish to view the remains are asked to call at the house as the casket will not be opened in the church.

No danger of Bright's disease or diabetes if Foley's Kidney Remedy is taken in time. Sold by all druggists.

SINGING IN THE COPPER COUNTRY.

The Calumet Evening News has this to say of a former well-known resident of Ishpeming: "Richard Moyle has returned here after an absence of more than four years. He spent the greater part of the time in the west and the last fourteen months in his native county of Cornwall, England. Mr. Moyle arrived in this country about a month ago and came here shortly. He was prominent in musical circles here during his residence. He has one of the best tenor voices ever heard in the district and is welcomed back gladly by lovers of music. He likely will go to Houghton this evening with the Calumet Finnish Glee club, assisting that chorus in its work at the copper country fair."

ISHPEMING, MICHIGAN.

HAD A GOOD TIME.

George S. Lovelace, great commander of the Michigan Maccabees was greeted by a delegation of nearly 100 members of the men and ladies' tents of Ishpeming Thursday evening at the Finnish Co-operative Hall. The entertainment was one of the most enjoyable ever given here by the Maccabees. Mr. Lovelace is an exceptionally fine speaker and he created a very favorable impression. A few members of the Ishpeming tents spoke briefly. Several visitors were present from Negaunee. Following the meeting the company repaired to Nemi's restaurant, where a supper was enjoyed.

FROM MORGAN'S CURB LETTER.

"Eastern markets opened strong and higher, and barring slight irregularity at times, displayed a continuation of the wonderful strength shown yesterday. There is no question that the banking interests, who have the market so well in hand, are again operating on the long side. Copper Range, North Butte and Amalgamated, which were the leaders in the copper shares yesterday, were inclined to lag, but nevertheless, showed advances of good stout fractions over the previous session. The buying of Ishpeming is considered particularly good, the stock advancing from 22 to 23 1/2. The Lake Copper stock gained a point and three-quarters, and higher prices are talked for it. Greene Cananea was up one-quarter. Superior & Pittsburg was unchanged. London copper was 1/4 higher for both accounts; Rio Tinto up 1/2. Here, all grades of copper metal advanced 1/4 in both the bid and asked prices. Purchases of electrolytic copper are known to have been made yesterday at a shade under 13 1/2 cents per pound, or about a fraction above the quotations of the metal exchange. One large block was purchased by a large corporation for delivery in October. A regular quarterly dividend of 25 cents was declared on the Tomopah Mining

Millions of bottles of Foley's Honey and Tar have been sold without any person ever having experienced any other than beneficial results from its use for coughs, colds and lung trouble. This is because the genuine Foley's Honey and Tar in the yellow package contains no opiates or other harmful drugs. Guard your health by refusing any but the genuine. Sold by all druggists.

ROOSEVELT TO BE ACTIVE. He Will Be a Big Factor in the Presidential Campaign. He Is and Will Continue to Be the Real Leader of the Taft Forces; but He Does Nothing to Handicap Hitchcock, Who Will Continue in Charge.

MARKETS. A "STANDARD OIL MARKET." Wall Street Traders Follow the Lead of The Dominant Group of Operators. New York, Sept. 25.—Professional operators in the stock market have come to practical agreement in calling it a Standard Oil market. The attention of this speculative element was wholly centered today on the efforts to determine what the Standard Oil brokers were doing. The most simple method was to follow the movement of Union Pacific.

Young Egbert's First Scoop. Young Egbert and his mother sat mysteriously at the head of the stairs, in the dim light of early evening. A few moments before Egbert's sister had received a young man caller and had promptly disappeared with him into the gloomy recesses of the front parlor.

Chicago Grain Markets. Chicago, Sept. 25.—Wheat was erratic and irregular today, without any particular change in the crop situation. The undertone, however, seemed to be bullish, but the reaviness of the longs to take profits on the bulges prevented this sentiment from maintaining prices.

LEETLA JOE. Leetla Joe he always say: "W'en I am beeg man son day, Eef so be I gona grow Strong an' fat so like my Pop, I weell go for be a cop, Mehbe so."

LEETLA JOE. Leetla Joe he lay hees cheek On my breast w'en he sees seek, "Squeeze my arm an' tal me: 'O! Pretta soon I gona gat Granda miska like dat. W'en I grow Like my Pop how proud I be! Just wait an' you weell see. Ah! so sweet to hug to me."

Young Men's Clothes Ederheimer, Stein & Co., Makers PROVIDED especially this Fall for young fellows of high school and college age. Bought the smartest Young Men's styles; of makers specializing Young Men's clothes. That's why the garments we're selling best meet your ideas of the sort of clothes you ought to have.

CRESCENT MAPLEINE Makes Dainty Delectable Custards and many another wholesome dish too. Don't say: 'I'm tired of this, or I don't want any more of that.' Next time you're baking a custard, a cake, a pie, or in fact anything, just put a few drops of 'Mapleine' in—it adds a delicate new flavor to old familiar dishes.

TRADE GAINS SLOWLY. Approach of Election Has a Tendency to Discourage Business. New York, Sept. 25.—Bradstreet's will tomorrow say: While events generally tend toward a steady, if slow, improvement, conservatism still rules the purchasing in wholesale and jobbing lines, and at several large centers the fall trade, notably in dry goods, has reached and passed its maximum.

WIND, RAIN, SNOW, NOW ANTICIPATED

BORN ON PACIFIC, CRADLED IN "ROCKIES," STORM CROSSES GREAT DIVIDE—LIVES.

MAY ENDANGER SHIPPING

East Bound Storm, Assuming Magnitude as It Advances, May Cause Tempest—Colder Weather Due—May Freeze.

Coming from the Pacific, a storm of great proportion had its center in eastern Colorado and Wyoming this morning, and is headed this way in the fall storm path, where it will likely precipitate both rain and snow, and attain a velocity of wind that will be dangerous to lake shipping.

According to United States Weather Observer Patrick, the compound of the storm was moderate in temperature as it approached the divide, where it caught the warmer light breezes from the southern plains and steeps, and its suction will be followed by the northern winds of the Canadian west, which will probably bring freezing weather in the wake of the disturbance.

That the predicted stirring of the elements will be no baby storm, but a blistering, full grown, cravenote and wrap resuscitator, with velocity, and several fractions of summer, fall and winter seasons, is the statement of the weather observer; however, a counter wind from the northeast may appear to divert the strength of the storm from this immediate vicinity.

The warm air condition now obtaining will probably continue until noon today, or until the forefront of the disturbance comes to precipitate its dampness, and the freezing currents in the van of the storm, if not deflected, may cause both rain and snow tomorrow.

At Calgary, Alberta, Thursday, the precipitation was .38 inches of snow; Havre, Mont., had .44 inches yesterday, and the temperature throughout the northwest, including Montana, and the contiguous provinces of Alberta, Saskatchewan, and British Columbia, in the Dominion, have registered in general below freezing, going down to a maximum of 12 degrees.

Should the storm bring the amount of rain anticipated, it will break the long, east drought experienced by this section of the country for a period of sixteen years, there having been practically no rain since July 19.

In 1892, there fell in the month of August but .45 inches of rain and in Sept. of the same year, but .99 inches; the corresponding figures this year, up to the present date is in September, .50 inches below normal for that month, and 1.69 inches below normal for August. The total deficiency in 1892 was 4.03, and for the present year 3.80, which shows the months of August and September, 1892, to have been dryer by a deficiency

of at least .23 inches, over a like period of 1908. The coming of heavy rains has been longed for by the users of water power, as all the upper peninsula streams are greatly depleted, and a wet spell will prove a God-send to the owners of timber lands who have suffered the loss of millions of dollars through the burning and destruction of their stumpage, which is still blazing in many of the forest districts.

MARQUETTE VS. SOO

Local Ball Team Leaves for the Soo in the Morning.

Arrangements have been completed by which the Marquette ball team will meet the strong Soo aggregation at the canal town Sunday. The Soo boys have played some good ball this season, having won games from such speedy teams, as Escanaba, Rapid River and Newberry, and will probably give the Marquette nine a run for their money. Richardson and Scholtus, will surround the Soo batters, and the rest of the Marquette line-up will be: LaMere, shortstop; Rydholm, first base; Gilbert, second base; Weiser, third base; Ripelle, Dunleavy and Jeanson, will hold down the left, center and right fields, respectively. The boys will leave here on the South Shore at 4:45 o'clock tomorrow morning.

ACCIDENT TO SHAFT DELAYS STEAMER

STEAMER D. W. RUST MEETS WITH MISHAP ON LAKE ERIE—COUNTERED SMOKE—JAPAN DUE HERE MONDAY.

After meeting with an accident on Lake Erie, and later delayed by smoke, the steamer D. W. Rust, loaded with 1,200 net tons of Lackawanna hard coal, tied up at the docks of her consignees, F. B. Spear & Sons, yesterday morning, two days overdue.

"Shortly after leaving Buffalo," said Captain J. E. Jacobson, "we broke one of our principal shafts in the machinery gear, and were compelled to put back, and take on a new one; this accident, coupled with the smoke delays in the Detroit and St. Clair rivers, was responsible for our tardiness." The captain says that he has experienced in thirty years on the lakes, and that his men got such a surfeit of the fumes of burning material that they threw away their pipes and tobacco.

After discharging her cargo of coal, the Rust will take on ore at the Cleveland Cliffs Iron company's dock at Presque Isle, clearing for Buffalo, where it is possible that she may tie up for the season, owing to the meager demand for tonnage now obtaining.

The passenger steamer Japan of the Anchor line, is due here on Monday morning, Sept. 28, from the east. This is the last scheduled trip of the Japan for the season. The steamer was twenty-four hours late passing for the west on the first half of her trip, and it is possible that she may cut any time made up, dropping a day in her schedule time, which would bring her here on Tuesday morning, Sept. 29.

The steamer Tionesta, westward bound, is due here Sunday morning. On her return below, she will break away from the schedule, and continue her freight and passenger service as wind and weather permits.

The North West, of the Northern Steamship company's line, has already closed her season, and will winter at Buffalo, where she tied up on the 5th instant.

Ladies, visit Warner Bros. store, Free demonstration Crescent Maple in ice cream, cake and candy, Friday and Saturday, Sept. 25 and 26. Every one cordially invited to enjoy a taste of the sweets. (9-22-5d)

TARIFA: Gold Medal Flour leads them all. SCOTT.

FIRST NATIONAL BANK of MARQUETTE

THE HABIT

of getting on in the world is one it profits a young man to cultivate. Nothing will help him so much as an account at the bank. It means systematic, thrifty habits and stability of character. It is not the money that gives him the distinction so much as the fact of character the bank account implies. For a young man to be able to write his check to pay a bill or an account will give him importance and influence. We seek the accounts of thrifty young men.

UNITED STATES DEPOSITORY.

AUTUMN OPENING

Grabower's Big Store

TODAY! TODAY!

YESTERDAY was a great surprise for our lady visitors. Our Millinery display this season outdoes any previous attempt. Never before have we had so many handsome creations.

We certainly can please the most fastidious lady in this city. We ask you to come today and see our Hats.

Our clerks are at your command, whether you wish to buy or only want to see. You will not only be pleasing yourself but you will be pleasing us.

TODAY is the last day of our opening. Of course, we are always pleased to have you visit our Millinery department. It's the most complete one in this neighborhood.

L. Grabower Company

Three Suits here that will please the most fastidious fancy. They illustrate the three fashionable lengths in the new coat-suits. The two at the right are full-tailored models, relieved with just enough trimming to give a tone of "PRINTESS Distinction." The one at the left is the dressiest, swellest little suit you ever looked at. It's made of fancy serge, satin-lined, and finished with big satin-covered buttons and elaborate braid effect to match. Countless other suits and coats at any price you say.
