PRICE, FIVE CENTS.

HOUSE STRIKES IT FROM THE RECORD

Representative Willett's Recent Speech Denunciatory of President Roosevelt Will Not Appear in the Official Journal.

Special Committee Reporting the Language Improper and in Violation of the Privileges of Debate, and That It Is Destructive of Courtesy, Respect and Dignity, Its Recommendation to Expunge Is Adopted With Few Dissenting Votes.

Washington, Jan. 27.—A variety of subjects occupied the attention of the house today. The proceedings began with the adoption of the special committee report commending the expurgated record of the recent speech of Mr. Willett, of New York, denunciatory of President Roosevelt, then, during further consideration of the postoffice appropriation bill, the charges made yesterday by Mr. Rainey affecting Panama canal affairs cropped out again, with the result that Mr. Weeks, of Massachusetts, entered a defense of Senator Lodge, while Mr. Rainey reiterated his statements regarding the purchase of two ships at the instance of the Massachusetts senior statesman.

The postoffice appropriation bill was amended in several particulars, the most important being the transferring of five hundred assistant superintendents, clerks, etc., of stations from the \$1,900 to the \$1,100 class, while the provision for the payment of the necessary expenses of division superintendents, railway mail clerks and others away from headquarters was stricken out. As amended, the bill was passed, carrying over \$234,000,000.

Accompanying the special committee's report, recommending that Mr. Willett's speech be expunged from the Congressional Record, was a letter from the New York representative urging that necessary speech should remain in the Record. The committee's report was adopted with only a few nay votes.

New Yorker Taken to Task. Declaring that "the consideration of the speech in question involves a consideration of what is and what is not orderly debate in the house," the committee's report defines the privileges of members of the house and the limits of debate. It discusses at length the relationship of the two houses of congress and the relations which must be maintained between the house of representatives and the president, in accordance with the constitution.

The report declares that it would seem from the "peculiar constitutional duties of the house in relation to the power of impeaching the president do not preclude a clear line of distinction between that criticism of acts and conduct necessary for performance of the constitutional duties of the house and a criticism merely personal and irritating." It also claims that it is especially the duty of the house to protect the president "from that personal abuse, innuendo, or ridicule tending to excite disorder in the house itself and to create a personal antagonism on the part of the president toward the house, and which is not related to the power of the house under the constitution to inquire into the acts and conduct of the president."

Your committee has carefully considered the remarks of the gentleman from New York," continues the report, "and finds that his remarks concerning the president are not justified by any considerations of the constitutional duties or powers of the house; that they transcend proper limits of criticism in debate; that they are destructive of that courtesy, respect and dignity which ought to be preserved and which ought not to remain in the permanent official record of the proceedings in the house."

Find Precedent for Such Action. The committee claimed that it was impossible to separate the objectionable remarks from the remainder of the speech and that the only way to eliminate the remarks considered out of order would be to strike out the entire speech. It cited as a precedent for such action by the house the speech of Robert P. Kennedy, of Ohio, attacking the senate, made in the house Sept. 3, 1890, which was excluded from the permanent record.

In his letter to the committee, Mr. Willett claims that he did not transcend the rules of the house, but that he was entirely within his rights to make the speech, and that the order of general debate. Freedom of speech has always been held to be sacred," he declares, "but the utmost latitude has been allowed in debate, and I respectfully submit that to strike my speech from the record in this instance will establish a precedent extremely dangerous."

The resolution recommended by the special committee for adoption by the house was as follows: "Resolved, That the speech of Mr. Willett, printed in the daily Congressional Record of Jan. 18, 1909, contains language improper and in violation of the privileges of debate, and that the same be stricken from the permanent record."

Nominations Long in Dispute. Finally Receive Confirmation. Washington, Jan. 27.—Four nominations which have long been in dispute between Senators Kittredge and Gamble, of South Dakota, were today confirmed by the senate. They were: John F. Adams, to be receiver of public moneys at Aberdeen; Cyrus C. Carpenter, to be register of the land office at Lemmon; Edwin G. Coleman, to be re-

ISAC STEPHENSON IS ONE VOTE SHORT

He Fails to Command a Majority in the Wisconsin Legislature's Joint Session, Polling Only 65, Whereas 66 Are Needed.

However, Regardless of This Outcome, It Is Held at Washington That the Balloting of the Preceding Day Legally Re-elected Him, and It Is Indicated He Will Be Seated Whatever the Action at Madison—Hopkins Losses Ground at Springfield.

OVERDUE AT WASHINGTON.

Washington, Jan. 27.—Vice President Fairbanks today received a telegram from Charles Warren, the Montana messenger charged with the duty of bringing the electoral vote of that state to Washington, saying that his failure to arrive within the time allotted by law was due to the fact he had broken his arm. Nothing has been heard from the messenger since he was last seen, but must be submitted to the war department for review.

TREATY WITH CANADA STILL PENDING IN THE SENATE.

Washington, Jan. 27.—A short legislative session of the senate devoted to the transaction of the routine morning business was brought to an abrupt close today by a motion to go into executive session to consider the Canadian waterways treaty. Senators desiring to consider various pending measures resisted the wish of the majority to dispose of this treaty, and a ye'a any vote was required to close the doors for executive business. The treaty was not disposed of.

In executive session, Senator William Alden Smith of Michigan renewed his fight against ratification. The objections made by Mr. Smith to the treaty are on the ground it does not safeguard the rights of the state of Michigan to the waters of the St. Mary's river, which connects Lakes Superior and Huron.

NEW GOVERNMENT TAKES REINS TODAY

Brilliant Illumination of Havana and Farewell Ball to Magoon Are Prelude to the Inauguration of President Gomez.

Havana, Jan. 27.—The festivities attending the inauguration of the new Cuban government, which will occur tomorrow, began this evening with a brilliant illumination of the city and the farewell ball tendered by the mayor and council of Havana in honor of Governor Magoon, President Gomez, Vice President-elect Zayas and the American officers who have served as provisional authorities.

The illumination tonight probably was the most elaborate ever seen here. The parks and the principal thoroughfares of the city were transformed into a veritable fairyland. The streets were crowded with a holiday throng, among which were hundreds of American tourists. The Cubans seem just awakening to the fact that their second period of independence is at hand, and for the first time are showing popular interest in the trend of affairs.

Old Battleship Maine Is Decorated.

A notable ceremony of today was the decorating of the old battleship Maine with elaborate wreaths of garlands and the hoisting at half mast on the protruding military top of a new American flag. This idea originated among the crew of the new battleship Maine, which now is in the harbor, and who subscribed \$150 for flowers and greens.

Recommend Wreck Be Removed.

Washington, Jan. 27.—The president sent to congress a message approving the recommendation of Governor Magoon that an appropriation be made to remove the wreck of the battleship Maine from Havana harbor.

ANTI-JAPANESE MEASURES HELD UP FOR A WEEK.

Sacramento, Cal., Jan. 27.—Despite the agitation throughout the state over the question of the enactment of laws calculated to deprive the Japanese of their lands, to become members of corporations and to live wherever they please in various communities, the members of the lower branch of the legislature decided unanimously today to postpone action on the pending bills for one week. No determination will be reached upon the action to be taken next Wednesday until an expected letter from President Roosevelt arrives.

NEWFOUNDLAND OPPOSES THE FISHERIES AGREEMENT.

St. Johns, N. F., Jan. 27.—The Newfoundland cabinet has not accepted the draft of the proposed fisheries agreement arranged at Washington, but, on the other hand, has submitted a counter proposal to Ambassador Bryce and Secretary Root. The newspapers opposed to the Bond government express the opinion that the premier does not intend to accept the Washington agreement.

Railroading is the biggest business of this country.

WEATHER FORECAST

NO MORE JURORS SECURED.

Report That Auditor General Fuller Submits Shows That It Will Have to Be Provided For at Present Legislative Session.

That It Will Exceed Ten Million Dollars, or Two Millions More Than Ever Before, Seems Certain—A Bill to Abolish "Brainstorms" Is Introduced by Mr. Ming, and Another One Goes In, Putting an End to Contract Labor in the Prisons.

PROTESTS AGAINST THE "BOOZE BANQUET"

Prohibition Party Objects to the Use of Wine at Springfield Dinner in Celebration of the Centennial of Lincoln.

Chicago, Jan. 27.—The national prohibition party headquarters tonight issued a protest against what it calls the "booze banquet" to be held at Springfield, Ill., on Feb. 12 in celebration of the centennial of President Lincoln. It says that the decision of the committee to use wine at the banquet is in defiance of the martyred president's principles. As showing Lincoln's antipathy to the use of wine or liquors, the prohibitionists' protest quotes an extract of Lincoln's speech made at his home at Springfield, June 16, 1860, in the presence of the committee from the convention which named him for president. The extract follows:

"Gentlemen, we must pledge our mutual health in the most healthy beverage which God has given to man. It is the only beverage I have ever swallowed in my life, and I cannot conscientiously depart from it on the present occasion. It is pure Adam's ale from the spring. All present then stood up and drank from cups of cold water. It is then stated that Lincoln afterwards frequently drank a dish of liquor, and once said, "The next morning after the reconstruction will be the overthrow of the liquor traffic."

STOCKS DULL BUT STRONG.

Values Helped by Harriman's Election to New York Central Directorate.

New York, Jan. 27.—The prices of stocks were held without much difficulty of the list today without much difficulty. The dealings were not active at any time, but the demand was unsettled by various reports of railroad deals and the supply of stocks offering for sale was considerable, that might have sufficed to make an impression on prices.

Plethora of Money.

The state of the money market has relieved the holders of stocks from any pressure or security of financial resources, and, in fact, a holder of stocks who sells out is confronted with difficulty in finding other employment for his funds. All signs confirm the plethora condition of the money market, and the interest rates are falling. The trust companies' deposits have risen above a billion dollars and the difficulty of placing their resources has given rise to the discussion of a reduction of the rate of interest paid on deposits from the 3 per cent now offered to 2 1/2 per cent. The United States treasury for the currency redemption of bank notes is so great and the drain upon the gold holdings is so severe as to give the department officials much concern. This rush of notes to current redemption is not a symptom of distrust of bank notes, but only of lack of demand for them in circulation.

Railroad Deal Rumors Revived.

Yesterday's sale of the Chesapeake & Ohio to the Hawley interests gave fresh vitality to the stories of deal rumors, and the election of E. H. Harriman to the New York Central directorate met with expectation long held in the financial district. The influence of these two incidents was traceable through most of the price movements which occurred during the day. The Gould group was conspicuous, and New York Central also made response. The market was sluggish and languid outside the currents of these special influences. There was another reduction in the quotations for copper at the New York Metal exchange, and the United States Steel's quarterly report was not liked for the successive declines in the monthly earnings for the quarter. Realizing modified the day's extreme price changes and made the closing irregular.

WATERWAY ADVOCATE ASKS SUPPORT OF THE RAILWAYS.

Chicago, Jan. 27.—Congressman J. E. Ransdell, of Louisiana, president of the National Rivers and Harbors congress, addressing the Traffic club of Chicago tonight, pleaded for the support of the railways in securing more and better waterways. He advocated a bond issue sufficient to secure \$50,000,000 a year for the purpose of improving rivers, harbors and canals. Mr. Ransdell said that the commerce of the American interior waters was about one-third as great as the total commerce of the railroads; and declared that the money invested in the improvement of the waterways would pay a large annual dividend in the reduced freight rates.

F. C. Newlands, Re-elected Senator, Now Proposed for the Presidency.

Carson, Nev., Jan. 27.—United States Senator Francis C. Newlands was elected to succeed himself by joint ballot of the Nevada legislature today. The vote was unanimous, and there was passed without a dissenting vote a resolution presenting Senator Newlands' name for consideration as the next Democratic candidate for the presidency.

"Oregon Plan" for Nebraska.

Lincoln, Neb., Jan. 27.—The house today passed a bill to provide for the election of United States senators on the Oregon plan. The bill is expected to pass the senate and Governor Shallenberger has said he would sign it.

The American eats more than his own weight in sugar every two years.

BIGGEST BUDGET IN STATE'S HISTORY

Report That Auditor General Fuller Submits Shows That It Will Have to Be Provided For at Present Legislative Session.

That It Will Exceed Ten Million Dollars, or Two Millions More Than Ever Before, Seems Certain—A Bill to Abolish "Brainstorms" Is Introduced by Mr. Ming, and Another One Goes In, Putting an End to Contract Labor in the Prisons.

PROTESTS AGAINST THE "BOOZE BANQUET"

Prohibition Party Objects to the Use of Wine at Springfield Dinner in Celebration of the Centennial of Lincoln.

Lansing, Mich., Jan. 27.—[Special.]—A report made on the state finances by the auditor general today indicates that a budget of ten or ten and a half million dollars will have to be made by the legislature. Mr. Fuller says that the deficiency Jan. 1, 1910, will be \$1,400,000, and he estimates that \$5,768,000 is the probable expense of running the state for the yearly period. Of course the ways and means committee will cut its estimate, but a ten-million-dollar budget, almost two millions larger than ever before, seems certain. A proposal to bond for \$1,000,000 was discussed, but is frowned on by the administration. The ways and means committee of both houses will scrutinize every appropriation closely, and institutions and boards will be held down to brass tacks.

Probably no one will be named on the senate finance committee in place of Senator Charles Smith, as the four men remaining are all strong administration men. Mr. Smith's bill to protect taxpayers who have paid taxes but through mistakes do not get proper credit passed the senate today.

Some Proposed Legislation.

Senator Ming put in a bill today to abolish "brainstorms." It provides that insanity as a defense for crime shall not be set up unless it is first proved that the defendant was insane before he committed the crime. This means that temporary insanity as a defense would be abolished. "I never was strong for this brainstorm business," said Mr. Ming. Senator Fowler put in a bill appropriating \$101,800 yearly for the Newberry asylum for the next two-year period.

Representative Clarke of Detroit, introduced a bill abolishing contract labor in prisons and providing that convicts shall be worked by the state on matters that will least compete with free labor.

Representative Crampton introduced a bill providing that a 500-mile book, sold for \$10, and good on all Michigan two-cent fare roads, shall be transferable.

WANT COURTS RESTRAINED.

Mine Workers Propose Changes in Present Injunctive Procedure. Indianapolis, Ind., Jan. 27.—Beginning with discussion between the two factions in which fourteen hundred delegates are divided, today's session of the United Mine Workers' convention closed with concordant action upon numerous resolutions, the most important of which recommended a modification in court procedure in regard to the injunction. It was the sense of the convention, as expressed in this resolution, in the speeches that accompanied its adoption, that a restraining order should not be issued on the application of an employer unless the employees against whom the order was directed had first been notified of the action and given a chance to appear in court; that in case of contempt proceedings growing out of alleged violation of such injunction, the hearing should be before another judge than the one that issued the writ, and that the trial should be by jury.

Public Ownership Favored.

A resolution declaring for the public ownership of the means of production of wealth was adopted unanimously. The convention refused to endorse the movement for an independent political party. The trouble between the factions was caused by the demand that President Lewis state whether the organizers present were paid out of the national treasury or by their local unions. The motion was ruled out of order.

FRATERNAL CONGRESS OBJECTS TO PROPOSED LEGISLATION.

Kansas City, Mo., Jan. 27.—The Western Fraternal congress, composed of the officials of twenty-six Western fraternal insurance organizations, who represent about two million persons, closed its session here today. C. B. Gardner, of Dallas, Texas, was elected president. A. E. Talbot, of Lincoln, Neb., vice president, and William Koch, of Des Moines, Ia., secretary. The societies adopted a resolution protesting against the adoption of the high rates provided in bills recently introduced in a number of state legislatures. It is said that such rates are as high as the old-line premiums and would seriously affect the membership of the societies.

BACON SECRETARY OF STATE.

Washington, Jan. 27.—Robert Bacon, following his confirmation by the senate as secretary of state, took the oath of office late today. His first duty was to sign a batch of circular letters to diplomatic officers, notifying them of the change in the office, a custom followed in the department.

BLACK HILLS TRAGEDY.

Prominent Merchant Kills an Employee and Dangerously Wounds Wife.

Washita, S. D., Jan. 27.—Edward Morris, a prominent Black Hills merchant, killed David Jennings, a clerk in his store, and dangerously wounded his wife last night. Morris left town and returned unexpectedly during the night, entering his home by a back window. He found Jennings there, and killed him instantly, a moment later firing a bullet into his wife's body. She will probably recover. Jennings had been a clerk in Morris' store and boarded at his employer's home. After the shooting, Morris went to Rapid City and gave himself up to the sheriff, being later released on \$3,000 bond.

HOUSE RINGS WITH CHEERS.

Theatrical Audience in New York Gives Sea Heroes an Ovation.

New York, Jan. 27.—Captains Scally, of the Republic, and Ransom, of the Baltic, together with a number of officers and men from both ships, were given an ovation tonight at the Circle Theater. The theater was decorated for the occasion with the flags of the Baltic fleet after the rescue. Over the boxes on each side of the house were the letters "C. Q. D." in brilliant electric lights, and when the party arrived and filed into the theater, headed by their respective chief officers, the audience arose from their seats and made the house ring with cheers.

Praised by University President.

Providence, R. I., Jan. 27.—The heroism displayed in connection with the sinking of the steamer Republic was made the subject of an address to the students of Brown University by President Faunce today. Dr. Faunce said: "The spirit of chivalry was never more clearly exhibited in modern times. The self-control of the Republic's captain was wonderful. The service of the wireless was of inestimable value and has scientific significance. The wireless operator deserves as much praise as the telegraph itself."

BREWERS LAUNCH CRUSADE FOR REFORM.

Statewide Campaign for the Eradication of the Law-Breaking Saloon Is Started With a Raid in Milwaukee County. Milwaukee, Wis., Jan. 27.—The Wisconsin and Upper Peninsula of Michigan Brewers' association today announced a statewide campaign for the eradication of law-breaking saloons, beginning with the raiding of every saloon in Milwaukee county where slot machines could be found and bringing suits for the revocation of the licenses of saloon keepers who have sold liquor to minors. Nearly twenty arrests were made in the raid, and the campaign is to be continued until all obey the law, any officials of the association.

ENOUGH SUCH LAWS ALREADY.

Little Chance of Prohibition Legislation at Iowa's Present Session. Des Moines, Jan. 27.—The prohibition forces who hope to secure the submission of a constitutional amendment of another drastic anti-saloon legislation at this session face discouragement in the attitude of both houses. "No more laws and better enforcement of those we have," is the stand generally taken by out-and-out prohibitionists.

COOLNESS OF THE MANAGER PREVENTS PANIC IN THEATER.

Chicago, Jan. 27.—Owing to the coolness of the manager, the audience in the Powers theater tonight remained calmly in their seats while a fire raged in an adjoining building. When Henry J. Powers, manager of the theater, saw the flames through the doors and noticed an uneasy shifting of feet in the gallery, he stepped in the middle aisle, and said: "There's a small fire in the building next door. It will soon be put out, and if you will remain quietly in your seats the performance will go on." This appeared to allay all anxiety, and the performance continued without interruption. The fire was in the building in Randolph street occupied by the Cook county Democracy. The loss was small.

CRIB FIRE INVESTIGATION IN PROGRESS AT CHICAGO.

Chicago, Jan. 27.—How a woman looking out of a window first saw the fire burning out on the lake, and how on giving the alarm a score of men, some of them only partly dressed, jumped on a tug and went to the rescue, were details of the testimony given at the coroner's inquest, begun today, into the deaths of the fifty and more workmen killed in the crib fire last Wednesday. The court room was crowded with widows and relatives of the dead workmen. A score or more witnesses were examined in an effort to fix the responsibility for the fire. The inquest will be continued for several days.

NO IRREGULARITIES FOUND IN DEAD CASHIER'S ACCOUNTS.

Portland, Me., Jan. 27.—The bank examiners who have taken charge of the State bank of Portland, whose cashier, S. S. Croggin, committed suicide yesterday, reported today that no irregularities in the management of the bank had been found. It is believed that Croggin was worried through fear he might be displaced by a younger man caused the aged cashier to take his own life.

BANKER AUGUST BELMONT UNDERGOES AN OPERATION.

New York, Jan. 27.—August Belmont, the banker, today successfully underwent an operation for appendicitis. No doubt is entertained for his recovery.

GREAT FRENCH ACTOR PASSES FROM LIFE'S STAGE.

Paris, Jan. 27.—Benoit Constant Chiquelin, the great French actor, died last night at Pont-aux-Dames, Seine-et-Merme.

EMPEROR OF CHINA IS ILL WITH SMALL-POX.

London, Jan. 27.—Labling from Peking, the correspondent of the Times says that the infant Chinese emperor is suffering from confluent small-pox.

Panama, Jan. 27.—The Panama-United States treaty was ratified this afternoon by the assembly and was signed immediately by President Obaldia.

FRANK P. GLAZIER IS FOUND GUILTY

Michigan's Police Treasurer Is Convicted at Lansing on the Charge of Misappropriating Funds Belonging to the State.

He Has Bondsmen Waiting in Court, and When Notice of an Appeal Is Filed and He Is Granted Until March 8 to File a Bill of Exceptions and a Motion for a New Trial, He at Once Gives \$10,000 Bail and Is Allowed to Go at Liberty.

Lansing, Mich., Jan. 27.—Ex-State Treasurer Frank P. Glazier, of Chelsea, whose failure in December, 1907, resulted in the closing of the Chelsea Savings bank, of which Glazier was the head, and which had on deposit about \$685,000 of state funds, was this afternoon found guilty of misappropriation of state funds.

Glazier's attorneys immediately gave notice of an appeal, and he was released on \$10,000 bail and given until March 8 to file a bill of exceptions and a motion for a new trial.

The jury returned its verdict of guilty at 2:30 o'clock this afternoon, after having continued its deliberations for four or five hours. The jury stood nine to three for conviction on the first ballot, it is said. One went over on the second ballot, and two on the third. Glazier had bondsmen waiting, so that he was allowed to go at liberty at once. Judge Wiest's charge was strongly against him.

IS CHARGED WITH MURDER.

Man Is Arrested in Chicago After an Eight-Years Search. Chicago, Jan. 27.—After a search for eight years, the police tonight arrested a man in connection with the slaying of two Chicago policemen, but also with the robbery of a bank and the killing of two watermen at Soho, N. Y. The prisoner gave his name as James Black, alias Quinn and "Whitey." The arrest followed a long-continued hunt for the slayer of Policemen Charles T. Pennington and Timothy Devine, whose bodies were found in an alley one night eight years ago. The police believe the murderer of the policemen was the same man who committed the Soho bank robbery and who robbed several postoffices in Indiana and Michigan.

COOLNESS OF THE MANAGER PREVENTS PANIC IN THEATER.

Chicago, Jan. 27.—Owing to the coolness of the manager, the audience in the Powers theater tonight remained calmly in their seats while a fire raged in an adjoining building. When Henry J. Powers, manager of the theater, saw the flames through the doors and noticed an uneasy shifting of feet in the gallery, he stepped in the middle aisle, and said: "There's a small fire in the building next door. It will soon be put out, and if you will remain quietly in your seats the performance will go on." This appeared to allay all anxiety, and the performance continued without interruption. The fire was in the building in Randolph street occupied by the Cook county Democracy. The loss was small.

CRIB FIRE INVESTIGATION IN PROGRESS AT CHICAGO.

Chicago, Jan. 27.—How a woman looking out of a window first saw the fire burning out on the lake, and how on giving the alarm a score of men, some of them only partly dressed, jumped on a tug and went to the rescue, were details of the testimony given at the coroner's inquest, begun today, into the deaths of the fifty and more workmen killed in the crib fire last Wednesday. The court room was crowded with widows and relatives of the dead workmen. A score or more witnesses were examined in an effort to fix the responsibility for the fire. The inquest will be continued for several days.

NO IRREGULARITIES FOUND IN DEAD CASHIER'S ACCOUNTS.

Portland, Me., Jan. 27.—The bank examiners who have taken charge of the State bank of Portland, whose cashier, S. S. Croggin, committed suicide yesterday, reported today that no irregularities in the management of the bank had been found. It is believed that Croggin was worried through fear he might be displaced by a younger man caused the aged cashier to take his own life.

BANKER AUGUST BELMONT UNDERGOES AN OPERATION.

New York, Jan. 27.—August Belmont, the banker, today successfully underwent an operation for appendicitis. No doubt is entertained for his recovery.

GREAT FRENCH ACTOR PASSES FROM LIFE'S STAGE.

Paris, Jan. 27.—Benoit Constant Chiquelin, the great French actor, died last night at Pont-aux-Dames, Seine-et-Merme.

EMPEROR OF CHINA IS ILL WITH SMALL-POX.

London, Jan. 27.—Labling from Peking, the correspondent of the Times says that the infant Chinese emperor is suffering from confluent small-pox.

Panama, Jan. 27.—The Panama-United States treaty was ratified this afternoon by the assembly and was signed immediately by President Obaldia.

Washington, Jan. 27.—Word has been received at the insular bureau of the state department from the American consul in Canton, China, that Miss Georgia L. Jeffrey, originally of Juneau, Wis., who recently left this city, where she was a clerk in the treasury department, as secretary of state, took the oath of office late today. His first duty was to sign a batch of circular letters to diplomatic officers, notifying them of the change in the office, a custom followed in the department.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., JAN. 28.

Entered as second class matter of the second class in the postoffice at Marquette, Mich.

Wonder if Jack Binn will get a Carnegie testimonial?

There's no doubt about it, wireless telegraphy has received a great boost.

Evidently Senator Jeff Davis of Arkansas thinks that we are in a very bad way.

If all the laws were enforced nearly everybody's ox would, to be sure, be gored.

Let's see, the house recently expunged certain parts of some of the president's messages, didn't it?

Despite the fact that Tuesday was a day of oratory in congress President Roosevelt came out unscathed.

Mr. William Lorimer might at any time terminate that Illinois deadlock in favor of Senator Hopkins, but he won't.

Lansing reports indicate that the "antis" have been at least successful in leaving their impress on the bill against lobbying.

Of course it's only natural to suppose that Senator Smith would like to have his colleague come from the eastern part of the state.

Despite Senator Hopkins' asserted confidence that he will be re-elected some time or other, there is a well defined belief that the prolongation of the deadlock has put an irremediable crimp in his chances.

Senator Stephenson's statement of campaign expenses is awaited with much interest. From the fact that the senator refused to make it public before the Wisconsin legislature balloted on his re-election we are warranted in assuming that the total must be a staggering one.

The nomination of D. J. O'Keefe of Detroit, to be immigration commissioner, has at least been reported out from committee. The only ominous feature is the fact that Senator Gore of Oklahoma formally reserved the right to oppose it on the floor. If Senator Gore has the assistance of other Democrats, and he is not unlikely to get it, he can indefinitely postpone the date when Mr. O'Keefe will go on the government's pay roll.

Senator Smith has denied the reports implying that there is any agreement between him and Governor Warner whereby they both will stand by and passively, if not actively, assist with the re-election of Senator Burrows. He says that he is a party to no agreement in regard to the forthcoming senatorial contest and intimates that the part he will play in that contest, if any, is a thing for the future to determine. Furthermore, he remarks that when he has decided what he is going to do he will not hesitate to take the public into his confidence. And there you are.

In connection with the anti-cigarette legislation, it may be commented that much of the gain for the public well-being that is promised in the event that the measure introduced by Senator Dickinson is passed would be secured by a vigorous enforcement of the provision of the present law against the sale of cigarettes and tobacco to minors. Despite the fact of occasional crusades against offending dealers, it remains true that this provision of the law is not generally respected in the state. Here is another case where the thing necessary is not so much more, and new legislation as an energetic enforcement of the laws we already have.

Prosecuting Attorney Foster, of Ingham county, has announced that ex-Representative Jerry Anderson of Grand Rapids will be tried during the present term of circuit court on a charge of obtaining money under false pretenses, in connection with a legislative junket. Anderson was a member of the last legislature and accepted expense money for a junketing trip on which he expected to go, though at the last minute he was compelled to remain at home. He was indicted on this account by the same grand jury that returned indictments against former Treasurer Glazier, now on trial.

The machine leaders in New York are preparing to vigorously combat Governor Hughes' efforts to secure the passage of a direct nominations statute. They are going to meet the governor on his own ground, and plan a campaign of education of the public on the subject. It is the plan to have leading opponents of the reform deliver addresses in which the arguments against direct nominations will be presented in the most telling form they can be put forward. Meanwhile Governor Hughes will be performing the same office in favor of the proposed new law. The probabilities are that Governor Hughes will prove the most telling advocate. He has been, in the past, remarkably successful in leading the people to see things as he sees them, and never before has he gone before them with an issue of greater appeal than this issue of direct nominations. New York has been notoriously one of the worst ridden states in the entire union. Until the advent of Hughes its political destinies have been controlled, in both parties, by a handful of political barons who have regarded the rank and file of voters much as the barons of old regarded their serfs. The rank and file has, however, enjoyed ranging field under Hughes, and the probabilities are that it will be found to be thirsting for more power. We are inclined to believe that an urgent demand will go up for the passage of the legislation which Governor Hughes will seek.

Dr. Vaughn, of the University of Michigan, is one of the leading chemists of the country who believe that the referee board, appointed by President Roosevelt, is entirely justified in its finding that benzoate of soda is not a harmful preservative. Dr. Wiley, head of the federal bureau of chemistry, to the contrary notwithstanding. Dr. Vaughn some three years ago appeared before a committee of congress to urge the harmlessness of the preservative in question. Speaking of the finding of the referee board, Dr. Vaughn says: "Three years ago, when Dr. Kramer, Professor Kedzie and I appeared before the congressional committee that had in charge the pure food law, we demonstrated that many fruits and berries contained much more natural benzoate than would be added to tomato catsup. Take cranberries for instance, there is more benzoic acid in every dish of cranberries we eat than there would be benzoate of soda in the amount of catsup one would be likely to eat, one-tenth of one per cent benzoate of soda, the amount used by the manufacturers in their catsups and pickles. In other words, nature puts into the cranberry a larger amount of benzoate than the manufacturer puts into his syrups, and inasmuch as there is no proof that eating cranberries hurts anybody, the encouragement and final adoption of a national policy which shall tend to bring about a realization of the possibilities yet contained in nature's storehouses is the greatest economic problem America will face for centuries to come. Conservation of resources, with rewards such as are indicated by the above summaries, surely is the preponderant need of the times. The road to the highest national efficiency and most enduring prosperity lies in the full and economical utilization of the assets provided by mother earth and the elements. Think what it would mean if water could be made to supply all the power used in the country; think of the effect it would have upon the fuel problem alone. Think what it would mean to grow more timber than we can use and to double the productiveness of our soil."

California's Position. California's position on the question of Japanese exclusion is boldly stated by Representative Evers A. Hayes of that state, who declares that, despite the promise of Japanese made two years ago to 25,000 people landed on the Pacific coast. Mr. Hayes states that the proposed California laws are no more severe than the laws against Americans already existing in Japan. The issue started, he says, with the question who should be admitted to the public schools; then came the general question of whether the Japanese should be admitted to the country, and now the Japanese are excited over the disincorporation of the people of California to permit the aliens to absorb their land. Says Mr. Hayes: "The intent of the law we have made is that we have not passed legislation to keep the Japanese from coming so freely to this country. It would have been twice as easy three years ago to pass this legislation as it is now, and it will be twice as hard three years from now as it is now. In other words, the more the Japanese are permitted to come to this country, the greater and more frequent the friction is going to be. I would not defend any injustice perpetrated on the Japanese, nor any irritant which is directed against them, but I think that the first duty of the legislators of California and the members of congress of the United States is to protect the interests and rights of our own people and our own country, and I for one do not believe that it is for the interests of this country to have the labor of the lands of California or the other states on the Pacific coast absorbed by Orientals. I believe laws both national and state should be so framed as to save this fair section for the white man and his descendants."

Treatment of Foreigners in Japan. The most remarkable part of all this controversy is that the rights that the Japanese are so loudly demanding in this country are not given to any foreigner in Japan. Americans are not allowed to enter the schools of Japan; they cannot own real estate or engage in mining there. An alien laborer is not allowed to work in Japan at any occupation without procuring a license from the prefecture of the district where he resides, and this license would, of course, not be granted if the job he was seeking was not wanted by any Japanese laborer. Besides, Americans residing in Japan are assessed fully double what the natives are for the same property.

"If they wish to attend the theater and the price of the ticket to a native would be sixty sen, the American would be compelled to pay 200 sen, and in other things it is the same. I have letters in my possession from Americans who have done business in Japan which show the exasperating way in which they undertake to give out to Japan any American who try to embark any business here. It is difficult, if not impossible, for our Eastern brethren who are not familiar with the Japanese nor the conditions as they exist in California to understand the feelings of the residents of that state on this question. The habits and manner of life of Orientals are such that Americans generally do not care to live in the same immediate neighborhood with them. If some owner of real estate in a residence section of San Francisco should be over-taxed by the high price for the rent or purchase of his house and lands in that section, the effect is that property in that neighborhood will immediately decrease 50 per cent in value."

American Show Forbearance. Instead of being condemned the laboring people of California are entitled to great commendation for the extreme forbearance which they have manifested during the last year. Many hundreds, and even thousands of men have been for long periods out of employment and have seen the Japanese given work that they feel should be accorded to them and yet to serious disturbance, breach of the peace, or riot, has taken place there. It would be too much to expect of human nature that this state of affairs could continue indefinitely with the great racial antagonism that exists between the white man and Asiatics.

"It has been asserted from the highest authority that Japan is keeping faith in her promise to keep her laboring people away from the United States. Two years ago she promised this, and yet during that year more than 20,000 Japanese, practically all laborers, landed upon the Pacific coast of the United States. Last year more than 15,000 landed; besides this thousands have been landing in Mexico and Canada, and coming over the borders into the United States."

"A railroad contractor building a portion of the road in Mexico from Colima to the City of Mexico told me last year that they imported in five months 2,000 Japanese coolies, and at the end of five months not one of them remained in their employ. All had gone North, and he had no doubt, had crossed the borders from Mexico into the United States. If this constant influx of Japanese laborers is keeping faith, then I do not understand what good faith between nations is. Just how many Japanese may be in California nobody can definitely say, but I believe that I speak conservatively when I say that there are at least 75,000 of them there, practically all laborers, and most of them young men without any family."

States Resents Interference. "I do not know what the legislature of California will do but I believe that they understand the needs of the people of California better than anybody who has not come into direct contact with the conditions there, and they ought to be left to settle all those questions for the highest interests of the people of California unobscured by those who do not understand the difficulties with which they are contending. The people of California also believe that the national government should come to their relief, and by proper legislation which shall be enforced not at the pleasure of the government of Japan, but by our own officers, should protect them from the terrible menace of Oriental immigration bringing with it a race question more terrible than now existing in the Southern states of this country. Our people have patiently waited for the administration to work out its plan to do this by diplomacy and will doubtless wait longer if the administration still thinks that there is hope of doing this, but the results thus far achieved are very far from satisfactory to our people."

AFTER FOUR YEARS OF MISERY

Cured by Lydia E. Pinkham's Vegetable Compound

Baltimore, Md.—"For four years my life was a misery to me. I suffered from irregularities, terrible dragging sensations, extreme nervousness, and that all gone feeling in my stomach. I had given up hope of ever being well. When I began to take Lydia E. Pinkham's Vegetable Compound, then I felt as though a new life had been given me, and I am recommending it to all my friends."—Mrs. W. S. FORD, 1638 Lansdowne St., Baltimore, Md.

The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound. It has stood the test of years and to-day is more widely and successfully used than any other female remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, and nervous prostration, after all other means had failed.

If you are suffering from any of these ailments, don't give up hope until you have given Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice write to Mrs. Lydia E. Pinkham, Lynn, Mass. For it she has guided thousands to health, free of charge.

treatment will reduce by one-fifth the quantity of timber used in the water of in the ground. We can practically stop forest fires at a cost yearly of one-fifth the value of the merchantable timber burned.

The water power now in use is 5,250,000 horsepower; the amount running over the government dams and not used is about 1,400,000 horsepower; the amount reasonably available equals or exceeds the entire mechanical power now in use, or is enough to operate every mill, drive every spindle, propel every train and boat and light every city, town and village in the country.

These are extraordinary statements. They will surprise almost every person in the United States. If the estimates they contain are only partially correct they mean more to this country than all the tariff laws we may ever enact or all the trusts we may prosecute. The encouragement and final adoption of a national policy which shall tend to bring about a realization of the possibilities yet contained in nature's storehouses is the greatest economic problem America will face for centuries to come. Conservation of resources, with rewards such as are indicated by the above summaries, surely is the preponderant need of the times. Pictures of New Presbyterian Edifice Are Issued by Committee.

Post cards upon which is pictured the Houghton Presbyterian church have been issued by the building committee to those invited to attend the dedication of the church next Sunday.

GOING INTO BUSINESS.

Pearl Beeman, the Copper Country Wrestler, to Locate at Globe.

Pearl T. Beeman, the Houghton wrestler, who has been meeting with much recent success, evidently intends to abandon that means of making a livelihood...

FUNERAL OF MRS. CRUSE.

The funeral of Mrs. Catherine Cruse, who was one of the oldest residents of the Calumet district, and whose death occurred Tuesday, will be held this afternoon...

HANCOCK TEAM WON.

Though the ice at the Amphidrome was in poor condition, due to the mild weather, the hockey game Tuesday night between the Houghton and Hancock teams was one of the best seen so far this season.

HELD QUARTERLY CONFERENCE.

At the quarterly conference of the Grace M. E. church of Houghton, held this week, the matter of celebrating the fiftieth anniversary of the founding of the church was placed in the hands of a committee.

REPORTED HOTEL SALE.

It is reported that S. F. Loch, proprietor of the Central Hotel of Calumet, has about completed negotiations for the sale of the property to Dunn Bros. and thought Mr. Loch has stated that he is anxious to sell the business he is unwilling to state that Dunn Bros. were contemplative purchasers.

TO HAVE POSTOFFICE SOON.

Residents of the town of Dodgeville expect shortly to be notified that the postoffice department has acted upon the petition sent in some weeks ago, asking that a postoffice be established at the new location.

number of lectures upon the subject of the disaster.

Mrs. Alex Levin who was in the Pennsylvania wreck of last week near Johnstown, Pa., has arrived at her home in Calumet. She was not hurt.

The funeral of Miss B. Collingwood of Calumet was held yesterday afternoon with services at the Norwegian Lutheran church and interment in Lake View cemetery.

Members of a number of choirs in Calumet are to take part in a sacred concert that is to be given at the Sacred Heart auditorium the evening of Sunday, Feb. 21.

Upon the request of her mother, Nellie Sullivan, a young Hancock woman, is to be examined by the Houghton prolate court. It is suspected that she is mentally unbalanced.

Among the railroad officials who were in Calumet this week to attend the opening of the South Shore's new station there were President Fitch, of the South Shore; Superintendent C. E. Lytle, Marquette; South Shore, H. B. Harris, Marquette; L. S. & L. Mart; Alston of Duluth, general passenger agent of the South Shore; Fred Hills, Duluth, passenger agent of the Northwestern; L. P. Gellerman of St. Paul, district passenger agent of the Northern Pacific.

The Winona Social club will organize an indoor baseball team at a meeting that is to be held tomorrow night and will try to arrange a number of games with teams of the Hancock league.

The funeral of Mary Waas, ten-year-old daughter of Mrs. William Waas of Laurium, who died Tuesday after an illness of two weeks, will be held this morning from the Sacred Heart Catholic church.

Miss Mary Boudoin, daughter of Onezime Boudoin of Lake Linden, and Armand Boudoin of Gay, Keweenaw county, were married by Rev. Father Raymond, pastor of St. Joseph's Catholic church, Tuesday.

In Tuesday night's games of the Hancock indoor baseball games the Ellswood team from the Ellswood school defeated the team from the Naval Reserves from the Catholic Order of Foresters by the score of seven to two.

The revival services that have been in progress at the Hancock M. E. church will come to a close tomorrow evening. Rev. M. H. Eldred will preside at the service tonight and Rev. A. E. Healy of Osceola at tomorrow night's service.

St. Bernard's court, Catholic Order of Foresters, of Hancock, is making preparations for a big initiation the evening of Feb. 21. It will be a grand affair and members of the order from all parts of the copper country will be present.

The new officers of the Lake Superior Stone Brick company, elected at the annual meeting which was held in Calumet this week, are: President, Paul P. Rehm; vice president, Fred Smith; treasurer, Charles Briggs; secretary, Thomas Vincent.

Caucuses are to be held throughout the copper country tonight, to nominate delegates to the Republican county convention, which will be held at the town hall in Red Jacket Saturday afternoon. The Hancock city convention will be held tomorrow night.

The Republican county convention at Calumet Saturday afternoon will be made up of 174 delegates, if all attend. Calumet has the largest number of delegates, will have by far the biggest representation. Hancock city will be second, with twenty.

The mothers' meeting which was to have been held at the Central kindergarten in Houghton yesterday has been postponed indefinitely, by reason of the absence of Miss Anna M. Nye, who was called away because of the death of a member of her family.

Miss Winnifred Salisbury, of the Calumet bureau of charities, is to be one of the speakers at the meeting of the Houghton County Anti-Tuberculosis society in Calumet Saturday afternoon. Rev. Daniel Stalker of Calumet and Dr. Dodge of Hancock will also speak.

Copper country members of the National Protective Legion are much interested in the report that the dividends of the concern are to be increased this year. The full rate certificate holders will get thirty-eight cents more this year than they did last year, it is stated.

At a meeting last night of the Calumet lodge of Elks twenty new members were admitted to the order. District Deputy John F. Maloney, of the Soo, was present. The evening closed with an entertainment and social session. The Calumet lodge now has more than two hundred members.

At the memorial service held last Sunday at St. Mary's Italian Catholic church in Calumet, the collection for relief of the fund amounted to \$51.50. Through the committee in charge of raising money for the relief fund in Calumet has ceased active efforts, contributions are still being made.

The Military club of Painesdale has received a consignment of rifles and scabbards, which are to be used in drilling. Since the club was organized a large number of young men have become interested in military affairs and have been taking instruction. The club is to take a cruise on the Yantic next summer.

A wedding and three christenings took place one evening this week at the home of William Tregging of Atlantic. The bride couple were William Tregging and Mrs. James Phillips, and the children baptised were the daughter of Arthur Phillips of Tronimant and two daughters of William Polkinghorne of Calumet. All four ceremonies were performed by Rev. James Pascoe of Hancock.

A singularly reckless man is Sigey Martin of Hancock. He was arrested by Chief of Police Andrew one day recently, and though the charge against him was that of drunkenness it developed at the hearing that he had been amusing himself by throwing hurls of coal at people along the street, and coal at \$8 a ton. Justice Olivier fined him \$2 and costs. Martin's wife, who was arrested with him, was also fined.

Among the railroad officials who were in Calumet this week to attend the opening of the South Shore's new station there were President Fitch, of the South Shore; Superintendent C. E. Lytle, Marquette; South Shore, H. B. Harris, Marquette; L. S. & L. Mart; Alston of Duluth, general passenger agent of the South Shore; Fred Hills, Duluth, passenger agent of the Northwestern; L. P. Gellerman of St. Paul, district passenger agent of the Northern Pacific.

The Winona Social club will organize an indoor baseball team at a meeting that is to be held tomorrow night and will try to arrange a number of games with teams of the Hancock league.

The funeral of Mary Waas, ten-year-old daughter of Mrs. William Waas of Laurium, who died Tuesday after an illness of two weeks, will be held this morning from the Sacred Heart Catholic church.

Miss Mary Boudoin, daughter of Onezime Boudoin of Lake Linden, and Armand Boudoin of Gay, Keweenaw county, were married by Rev. Father Raymond, pastor of St. Joseph's Catholic church, Tuesday.

In Tuesday night's games of the Hancock indoor baseball games the Ellswood team from the Ellswood school defeated the team from the Naval Reserves from the Catholic Order of Foresters by the score of seven to two.

St. Bernard's court, Catholic Order of Foresters, of Hancock, is making preparations for a big initiation the evening of Feb. 21. It will be a grand affair and members of the order from all parts of the copper country will be present.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co's correspondent at New York yesterday telegraphed as follows:

The chief news of the day was the announcement to the effect that Mr. Harriman was elected a director of the New York Central, which was reflected in good buying in that issue, and all the Harriman stocks responded and remained strong up to the last hour, when a reactionary tendency took place.

Table of closing prices for various stocks including Anaconda, American Lead, and others.

Boston Stock Quotations.

Writing from Boston yesterday, Paine, Webber & Co. had the following to say of the stock market:

The market today was duller than ever, and showed no tendency one way or the other. General sentiment, however, seemed to be a little better, but no one was inclined to bid up prices.

Closing prices were as follows: Adv., 84.60; Rec., 85.00; etc.

Table of closing prices for various commodities including copper, silver, and gold.

The same were as follows: Adv. Cop., 201.1; Rec. Cop., 201.1; etc.

Chicago Grain Markets. Chicago, Jan. 27.—Renewed talk of possible war in the Balkans seemed to have considerable influence in the wheat pit today, and was partly responsible for the active covering by selling shorts, resulting in a strong tone the greater part of the session.

Copper Metal Prices. New York, Jan. 27.—There was a decline of 15.3d in the London copper market today, with spot closing at £59.5s and futures at £60.2s. 6d.

City Brevities

Today's weather: Fair; stationary temperature.

Yesterday's temperature: 7 a. m., 28 degrees; noon, 26; 7 p. m., 22; maximum, 28 degrees; minimum, 22.

J. J. Forbes went to Milwaukee last evening.

W. A. Ferguson, of Escanaba, was in Marquette yesterday.

J. H. Botten, of Sault Ste. Marie, spent yesterday in the city.

A. J. Hughes, of Grand Rapids, was a business visitor here yesterday.

The Marquette hockey team wants a game with any team in the city.

M. A. Doty, a Marquette lumber operator, was in the city yesterday.

L. H. Drummey goes to the copper country this morning, on a business mission.

W. W. Hargraves, a well-known Grand Marais merchant, was in the city yesterday.

Mart Adson, general passenger agent of the South Shore, was in the city yesterday.

The regular meeting of Marquette Legion, No. 702, will be held at Siegel's Hall this evening at 8 o'clock.

J. R. Van Evert, who returned from the West just before the holidays, returned last evening to Sault Lake City, where he has mining interests.

Miss Mabel D. Brown received notice last evening that she had been elected to a position as Latin teacher in the high school at Wellsville, O. She expects to leave this city Friday and will begin her duties at Wellsville next Monday.

Captain C. D. Blanchard received a letter yesterday from his son Chester, who recently went to Salt Lake City, saying that the latter was located at Bingham Canyon, Utah, in the engineering department of the Boston Consolidated Mining company. Mr. Blanchard obtained his position through a friend in Salt Lake City, and when he went away did not know exactly where he would be located or what his duties would be.

House and Lot Sold—The house and lot on West Michigan street, which was owned by H. McNamara, was sold yesterday by Asie and Palmer, was sold yesterday to William M. Gordon. Mr. Gordon expects to make his home in the newly-acquired residence.

Ferry Stuck in the Ice—The train from Mackinac City due here at 2:50 p. m. was cancelled yesterday, as the ferry got stuck in the ice because of broken machinery. To accommodate local travel, a special was run from St. Ignace to Marquette, which arrived here at 4:50 yesterday afternoon. Another special was then run from here to the copper country.

Social Events—The Degree of Honor will give a card party in Keough's Hall this afternoon. The masked ball of the Legion will occur at Legion Hall tonight.

Marquette Team Defeated—The City team was defeated by the Cleveland Cliff's quintet of Ishpeming in the basketball game played at Legion Hall last night. The score was 16 to 25. A return game will be played at Ishpeming next Wednesday evening.

Jury Could Not Agree—An assumption case, in which Dr. E. M. Harkin is plaintiff and William H. Stewart, of Ciccolay township, is defendant, was tried before a jury in Justice Blanchard's court Tuesday afternoon. The amount involved is about \$36. A number of witnesses were examined and a considerable amount of conflicting expert medical testimony was offered, with the result that the jury was unable to agree upon a verdict.

Want Closed Season—The board of supervisors of Schoolcraft county at a recent meeting adopted resolutions recommending and approving of legislation providing for a closed deer season in this county for the next five years. A copy of the resolutions has been sent to the Schoolcraft county representatives in the legislature and to all the county clerks in the upper peninsula. Marquette county hunters do not seem to be in favor of a closed season.

Lieske at Prison Again—Frank Lieske and Walter Hill, colored, were brought to the branch prison yesterday by Sheriff Gaston of Wayne county. Lieske has served a long term in the prison and made quite a reputation for himself as an inventor and skilled worker in wood. He is understood to hold several patents. This was Sheriff Gaston's first visit to this city, he having but recently been elected to that office in Wayne county. He was formerly county clerk at Detroit and that he was chosen to fill another county office by the people of that city attests to his popularity.

Fined \$10 and Costs—Charles I. Pelissier pleaded guilty to assault and battery in Justice Hyne's court yesterday afternoon and was fined \$10 and costs. The warrant for Pelissier's arrest was sworn out by Eugene Sullivan, who says that Pelissier hit him in the eye in Lockhart's saloon Tuesday evening. Mr. Sullivan says that Pelissier was going through the pockets of a man sleeping in the saloon and had taken some money from them, when he attempted to prevent the presumed theft with the result aforesaid. The man who was relieved of the money refused to swear out a warrant against Pelissier for robbery yesterday, saying that Pelissier was simply relieving him of the roll in order to prevent its being stolen by some one else.

INSURE WITH PETER WHITE & CO. DEATH OF MISS ADAMS.

Miss F. E. Adams passed away at 9:50 o'clock last evening at the home of Mrs. Charles McCormick, 909 North Third street. She was seventy-five years old. Miss Adams was stricken with apoplexy Thursday, Jan. 25, mention of which was made in The Mining Journal at the time. She came to Marquette June 29, 1899, and had since resided with her niece, Mrs. McCormick. She was a sister of the late Sidney Adams. Besides her niece, she leaves an aged sister, Mrs. M. J. Warren, who also resides with Mrs. McCormick, Mrs. Warren's daughter. Arrangements for the funeral have not yet been made.

NOT QUITE SO GOOD.

State Bacteriologist Submits Report and Analysis of City Water.

The report and analysis of the sample of city water sent to Dr. M. L. Holm, state bacteriologist, at Lansing, on Jan. 19, was received by Superintendent John Kern yesterday. The report does not speak quite so favorably of the purity of the water as did that of State Chemist Vaughn, of Ann Arbor, received a month ago, but still Dr. Holm thinks that the water is not dangerous in its present condition. He writes as follows:

"The chemical and bacteriological findings in this water may be considered fair. The degree of contamination is slight and the water in its present condition may be looked upon as probably safe. The condition of this water, however, can only be ascertained by several analyses taken at different times under different conditions. I suspect from the findings in this sample that the pumping station is not far enough out to insure complete safety from the sewers in the harbor.

The sample was taken when the wind was blowing from the south, which is considered an unfavorable condition.

THEATRICAL.

"Little Johnny Jones."

"Little Johnny Jones," George M. Co-han's phenomenal musical comedy, or, as several dramatic reviewers captioned it, "musical melodrama," which has been a tremendous hit wherever presented for the past two seasons, will come to the Marquette Opera House next Tuesday night. "Little Johnny Jones" is popular in this city as it is all over the country. Practically the entire original cast will interpret "Little Johnny Jones" here.

"A Message from Mars."

A play that can turn a profit every year to its owners and managers for a period of seven years must possess unusual qualities which are attractive to theatergoers. This is what "A Message from Mars" has done. It was a money maker from the very beginning. When plays make money it's a sure sign they are appreciated by the public. It is a well-known fact that only good plays can last very long. Two years is about the average life of a play. "A Message from Mars" will be presented here at the opera house Monday, Feb. 8.

FC GIVE PENSION IN A LUMP.

Naval Retirement Roll for Naval Veterans Proposed by Gallinger.

Washington, Jan. 27.—Senator Gallinger has undertaken to provide a retirement roll in the navy department for all the surviving officers of the navy or marine corps of the Civil war, with a provision that each shall receive three-fourths of the pay allowed him for the highest rank held by him, and has introduced a bill to that end. It is provided that each person entered upon the rolls shall have served with credit as an officer not less than a year during the Civil war, and shall have been honorably discharged, or shall have resigned from office, and it is intended that the salaries paid under the law shall be in lieu of regular pensions after the age of sixty-two years.

Representative Fulton of Oklahoma has introduced a bill authorizing the commissioner of pensions to accept as correct the age given by applicants for service pensions at the time of their enlistment.

GARBED IN PRIESTLY ROBES, CLEVER TURKS WORK SWINDLE.

Spokane Wash., Jan. 27.—Mayor C. Herbert Moore secured a detective when he instructed Captain James A. Covelty, acting chief of police, to order three Turks, garbed in the robes of native priests, to leave the city. One of them was identified by the police as Ella Anton, who was arrested and convicted on a charge of obtaining money under false pretenses at Marshall, Mich., last summer, while soliciting funds for a church in Turkestan. The men carry hundreds of letters of recommendation from prominent state officials and churchmen throughout the country, also letters from Governor Albert E. Mead of Washington, United States Senator George Chamberlain, formerly governor of Oregon; Very Rev. Dean Alfred Lockwood of All Saints' cathedral, and Police Judge Mann of Spokane. Mayor Moore received the "clips" regarding the trio through reading newspapers and police journals, which contained extensive accounts of their operations in Michigan and adjoining states last year.

RADICAL TONNAGE TAX PROPOSED IN MINNESOTA

Granger Representative Would Collect Ten Cents a Ton on All Iron Ore Produced.

St. Paul, Minn., Jan. 27.—Representative A. K. Ware of Northfield today introduced a radical iron ore tonnage tax bill in the house which calls for a straight tax on all grades of ore—good and bad—of ten cents a ton. It also fixes a penalty of ten per cent additional for non-payment of tax after thirty days from the date due, and one per cent a month additional penalty thereafter. Mr. Ware's bill, which was referred to the committee on taxes, is in full as follows:

"A bill for an act imposing a tonnage tax on all iron ore mined and shipped from lands situate in the state of Minnesota, and providing for the payment and collection thereof. Be it enacted by the legislature of the state of Minnesota:

"Section 1. The owner of lands situate in the state of Minnesota producing iron ore, shall pay, in the manner, at the times and according to the provisions hereinafter set forth, a tax of ten cents per ton on all iron ore mined and shipped from such lands, in lieu of all other taxes for state purposes.

"Section 2. It shall be the duty of the owner to make to the state auditor, on or before the first day of August and February, in each year, a report showing the number of tons of iron ore mined and shipped from lands situate in the state of Minnesota, for and during the six months preceding and ending June 30 and Dec. 31 each year. Such statement or report shall be in such form as the state auditor may prescribe, and shall be verified by his president, secretary, treasurer, superintendent or chief officer in this state, if an association or corporation.

Make Draft Upon Owner.

"Section 3. Upon receipt of the report provided for in section 2, it shall be the duty of the state auditor to make his draft upon the owner of the land, for a sum equal to ten cents a ton for the total tonnage as shown by such report, and place the same in the hands of the state treasurer for collection.

"Section 4. If any such owner shall fail to make such report within the time herein specified, or shall make a false report, it shall be the duty of the state auditor to estimate the number of tons of iron ore mined and shipped from the lands of such owner during such period, upon the best evidence he can obtain, and to calculate the tax thereon and to add to such tax a penalty of ten per cent of the amount thereof, and to draw his draft therefor and place the same in the hands of the state treasurer for collection, and it shall be his further duty to notify such owner by registered letter of the amount of such tax and penalty and of the fact that such draft has been drawn therefor.

Penalties for Delinquency.

"Section 5. If any such owner shall fail to pay any such draft within thirty days after the date on which the same is due, the state treasurer shall add thereto a penalty of 10 per cent thereof, and thereafter 1 per cent thereof for each subsequent month in which such draft remains unpaid. And if such default shall continue for sixty days after the date on which the draft shall be placed in the hands of the attorney general for collection by suit or otherwise.

"Section 6. Such tax shall be a lien upon, all and singular, the property, estate and effects of any such owner, and shall take precedence of all demands and judgments against such owner.

"Section 7. All acts or parts of acts inconsistent with or contrary to the provisions of this act are hereby repealed.

"Section 8. This act shall take effect and be in force from and after its passage."

HOMES FOR THOUSANDS.

Valuable Lands in the West to Be Opened to Settlement.

Spokane, Wash., Jan. 27.—Fred Denett, commissioner of the general land office, announces in advices just received here that the Spokane reservation, 153,000 acres, and the Yakima reservation, 1,145,000 acres, both in the state of Washington, and the Coeur d'Alene reservation, 310,000 acres, in northern Idaho, will probably be opened to settlement this year, also that the Lemhi reservation, 64,000 acres, in Idaho, may be opened in time to be included in the 1909 drawings. The surveys and allotments to the Indians have been made but the classification of the remaining lands is not completed. The Colville reservation, 1,000,000 acres, in eastern Washington, is to be opened in 1910, others to be opened next year are the Blakfoot reserve, 500,000 acres, in Montana; the Flathead reserve, 1,200,000 acres in Montana; Cheyenne River and Standing Rock, 266,000 acres, in North and South Dakota; Peck, 1,778,000 acres, in Montana; the Kiowa, Comanche and Apache reserves in Oklahoma will be opened some time in 1909.

BOASTS MANY MILLIONAIRES.

Spokane Has Thirty Men Whose Wealth Runs Into Six Figures.

Spokane, Wash., Jan. 27.—Spokane and the district tributary to it will rival Pittsburg in a few years if it continues to be a millionaires at the rate it has since 1907. According to a compilation by a local newspaper there are thirty residents with \$1,000,000 or more to their credit; forty-five are rated in the \$500,000 and 100 are placed in the \$250,000 classification. There are also more than 1,000 in the \$100,000 column. Most of this wealth was made in the mines, forests and wheat belts in northern Idaho, eastern Washington and southeastern British Columbia. Others amassed fortunes in real estate speculation and commercial, financial and industrial enterprises. Scores of fortunes have been dug out of the hills in the Coeur d'Alene; some times referred to as "the millionaires factory," and much money has also been made by men and women who had the foresight to buy cheap lands in what are now the irrigated fruit belts and banana wheat ranches in eastern and central Washington. Holders of timber lands also realized heavy on investments.

NOMINATION WITHDRAWN.

Albany, Jan. 27.—Governor Hughes today withdrew the nomination of Frederick A. Wallis as state superintendent of insurance at Mr. Wallis' request.

Stretching an imagination won't make both ends meet.

FROM ST. PAUL TO WINNIPEG.

Great Northern Officers Confirm Report Company Will Build Line.

Chicago, Jan. 27.—Officers of the Great Northern confirm the report that this company will construct a line of its own from St. Paul to Winnipeg this spring.

RATE DECISION ATTACKED.

Railway Officials Say Dire Results Would Follow Its Enforcement.

Chicago, Jan. 27.—Before a special master in chancery today, railroad traffic officials told of the dire results which in their opinion would ensue should the decision of the interstate commerce commission in the Missouri river rate case be upheld. All cities on the Missouri and Mississippi rivers would suffer, they said.

J. M. Johnson, vice president of the Missouri Pacific road, was the chief witness. He said that it seemed to be geographically correct that the through rates should be made up of the rate from the seaboard to the Mississippi river plus the rate from there to the Missouri river, plus the rate from the Missouri river to the point of destination. Without this arrangement, he said, the seaboard cities would have a tremendous advantage over other territory.

The interstate commerce commission's decision, the enforcement of which has been resisted by the passing and injurious, established the principle that all through rates should be less than the sum of any two local rates.

SENATE SECRETARY TO GO.

Tom Platt Appointee Has Been a Brummett Nine Years.

Washington, Jan. 27.—The United States senate is to have a new secretary in the office of the clerk of the senate. Senator Thomas Collier Platt of New York. The present secretary is Charles Goodwin Bennett, appointed through Senator Platt's influence. Bennett was a member of congress from New York state for twelve years and has been secretary of the senate for the past nine years. The place, as he handled it, has been a sinecure. It pays \$6,500 a year and its duties consist of the responsibility attaching to the formal signing of his name, and an occasional attendance for some formal functions.

Mr. Bennett is a strikingly handsome man, of Apollo-like physique, a fine complexion and wavy hair. He is credited with being the best-dressed man in the city of Washington, and has long been held up as the ideal of the nation's capitalists. It has recently become the custom of some of the older senators to call him "Handsome Charley."

HAVE NOT LOST HEART.

Waterways Advocates Still Hopeful of Generous Appropriations.

Washington, Jan. 27.—Friends of waterway improvements in congress, while temporarily sustaining defeat by the recent action of the committee on rivers and harbors, are not discouraged to report a generous river and harbor bill at the present session, have by no means lost heart in expecting a broad and comprehensive bill at the extraordinary session. In fact, they are redoubling their efforts to bring about a speedy passage of legislation at the extra session, on the ground that party pledges should be carried out, not only so far as the revision of the tariff is concerned, but that generous appropriations should be made for the rivers, harbors and canals of the country and that piecemeal appropriations should cease.

DENIES AGREEMENT.

The General Idea Is That Senator Smith Will Favor Charles Townsend.

Washington, Jan. 27.—Recent statements from Lansing that Senator V.H. Alden Smith is allied with Governor Warner for the re-election of Senator Burrows and the control of the next gubernatorial nomination called forth today an authorized statement of Senator Smith's position.

The senator said: "The statement made from Lansing that I have any political plans or purposes now being worked out in the gubernatorial matter or in the senatorial election two years hence, either with Governor Warner or any other man, is entirely untrue. I have not given the senatorship two years from now a moment's thought. I have not conferred with Governor Warner or any one else regarding it and have no intention of doing so, for the present at least. I am so busy in the performance of senatorial work and have so recently emerged from my own successful senatorial fight that I want a rest from politics. Mr. Townsend has a perfect right to aspire to the senatorship, as has also Senator Burrows. Thus far I have taken no part in any honorable contest for office. I have not given my consent to any political controversy they will be able to make a more accurate guess as to my intentions than I can make."

Indignation Over Opponents' Methods.

The reasons, therefore, for delaying the consideration and report of a general river and harbor bill do not lie in the light of the facts, seem well established to the friends of the water highways of the nation. On the contrary, on every day of delay the indignation is felt not only by the friends on the rivers and harbors committee, but by congress generally, at the methods used to defeat general waterway legislation, and in consequence new adherents to the cause of improving the rivers, harbors and canals of the country are constantly declaring themselves.

The action of the rivers and harbors committee in deciding to report out a small bill, authorizing few surveys and taking care of some pressing work, the whole appropriation to be less than \$10,000,000, has done much toward crystallizing a sentiment for a comprehensive policy on the part of the government toward the waterways of the country, and it is confidently believed that within a year or two at most congress must recognize the demands of the people for permanent river and harbor improvements.

FEDERAL OFFICIALS SEEK EVIDENCE AGAINST TRUSTS.

Government Representatives Looking Up Disclosures in Texas Suits.

Austin, Tex., Jan. 27.—Markham Flannery of Washington, special attorney for the bureau of corporations, department of commerce and labor, is here to confer with Attorney General Davidson, and Assistant Lightfoot, regarding information acquired by Texas officials in their anti-trust investigations. AFTER LEGAL COMMISSION.

President Wants Congress to Sanction His Navy Reorganization Board.

Washington, Jan. 27.—President Roosevelt's commission on the reorganization of the navy department has taken a new tack. Strictly speaking, there is no reorganization commission. The men they brought under the same laws that were invoked against the Waters-Pierce Oil company, are directed by the same officers and involve virtually the same issues.

THEFTS MAY REACH \$75,000.

Texas Bank Clerk Arrested on Charge of Rifling Deposit Boxes.

Fort Worth, Tex., Jan. 27.—Llewellyn Horren, clerk in the First National bank, has been arrested on the charge of rifling private boxes left in care of the bank. The pecuniaries are alleged to have extended over a year or more, during which time jewelry and money to the amount of between \$70,000 and \$75,000 is alleged to have been stolen.

The exposure came a week ago, when one of the bank's patrols discovered diamonds valued at \$800 which he had left for safekeeping had disappeared. Later they were recovered in a local pawn shop. Since that time many valuable gems taken from the vaults have been located in Dallas and other cities.

MAKE PERILOUS TRIP IN FAR NORTHERN WILDS

Scientists Penetrate the Interior of British Columbia Beyond Civilization's Limits.

Washington, Jan. 27.—Penetrating the interior of British Columbia to a point north of the sixtieth parallel, a party of the Carnegie Institution's magnetic survey reached a point never before touched by white men and got back without any casualties. C. C. Stewart and J. P. Ault constituted the party, having with them only some Indian and half-breed guides. Mr. Stewart has now returned to the institution in Washington and is working up the observations made on the trip. The journey occupied all of last summer till late in the fall and covered a round of about 2,000 miles outside the limits of civilization.

PEACE DESCENDS ON THE YAQUI TRIBE

Duluth Man Tells How Warlike Mexican Indians Laid Down Their Arms.

Duluth, Jan. 27.—C. d'Autremont of Duluth has returned from a trip to the southwest, which included the state of Sonora, Mex., where he has been looking after mining interests. He tells of the treaty between the Mexican government and the Yaquis. This tribe of Indians has kept the people of Sonora in a state of siege at different times for years, but peace now reigns and there is safety for the prospector anywhere in that country now.

"The Yaquis assembled at Guaymas to lay down their arms and otherwise conform to the terms of the treaty," said Mr. d'Autremont. "As a result of a misunderstanding there was riot at Guaymas and several were killed, and a dozen of the Yaquis led to the hills. They later returned and laid down their arms, when an order reached them from their recognized leaders.

"Some amusing things happened during the formality of the laying down of arms. A band of 25 of them, all heavily armed and well mounted, galloped up to the house of a rancher. They were on their way to Guaymas to give up their weapons, but the rancher had not heard of the treaty of peace and supposed the Yaquis were going to kill him and his family and steal everything they could lay their hands on. The leader of the band announced to the trembling rancher that they wanted something to eat, but that they had no money. The rancher said it was all right, and a dinner was prepared for the unwelcome visitors. The rancher and his wife supposed that after the dinner was prepared they would be put to death, but to their glad surprise the Yaquis after expressing their gratitude and mounting their horses rode away. If the rancher and his wife escaped nervous prostration no harm was done."

Mr. d'Autremont says that the mining business in the southwest is active.

CARRIE NATION DEFIES FOES.

Compares the Throwing of Eggs to Stoning of the Prophets.

London, Jan. 27.—"They stoned the prophets of old and I guess I ought not to object to a few eggs," was Carrie Nation's comment on the sudden ending of her advertised meeting at Centerbury music hall. She had scarcely begun her harangue when a shower of eggs fell around and on her. The curtain was run down immediately. "The managers," said she, "promised me they would see that I got protection when appearing on the stage, but I'm going to keep on. London is mad because I say it is the worst place on earth."

SURVIVORS SUFFER MORE.

Cold Weather and Snow at Messina Make the Situation Worse.

Messina, Jan. 27.—Cold weather, accompanied by snow, has increased the discomfort and suffering of the earthquake sufferers, but the work of relief conducted with energy. Edmund Billings, representative of the Massachusetts relief committee, with the assistance of General Mazza, commander of the earthquake zone, is distributing supplies. Mr. Billings has placed \$4,000 at the disposal of the duchess of Aosta for relief purposes.

DORANDO GOES TO TORONTO.

Chicago, Jan. 27.—Dorando Pietri, the Italian long distance runner who defeated Albert Corey last Friday night, left tonight for Toronto to run against three men in a twelve-mile relay race. The men expect to return to Chicago within a week or ten days and prepare for the Dorando-Hayes match, Feb. 17.

JUDGE GROSSCUP NOT TO RESIGN.

Chicago, Jan. 27.—Judge Peter S. Grosscup denies the story that he has signified his intention of resigning as soon as President Roosevelt could select his successor. He refuses to discuss the rumors regarding his resignation in any way except to say they are "absurd."

MEANS MUCH TO MARCONI.

London, Jan. 27.—Great expectations are entertained at the headquarters of the Marconi company of the development of wireless telegraphy through the saving of the Republic's passengers. Hitherto wireless instruments have been installed on few ships and even these paid little for their use.

ASHLAND MAN IS VICTOR IN SUIT

Eli Ott Awarded \$36,000 Verdict by Wisconsin Supreme Court After Long Fight.

Ashland, Wis., Jan. 27.—A telegram from Madison states that the state supreme court has reversed the decision of Judge Helm of the circuit court of this city in the case of Eli Ott vs. the F. J. Pool estate, awarding Ott a fourth interest in the merchandising business of the estate at Ashland, the share with interest being about \$36,000.

Twenty years ago Franklin J. Pool owned and operated a retail store in Chicago and Eli Ott was a clerk in a retail store in that city. Oct. 17, 1887, Pool wrote a letter to Ott, informing him that if he would go to Ashland with him and remain there until he should be able to draw from the concern the sum of \$10,000, besides keeping the stock up and paying personal and store expenses, he would pay Ott \$10 per week and at the end of the time when he was able to draw from the business he stated, he would give Ott a one-fourth interest in the store, the interest to be intended as additional pay and Ott wrote his best endeavor to make the store a success.

The business was established at Ashland under the conditions formulated in the letter in the name of F. J. Pool. Pool died in 1904 and shortly afterwards Ott set up in his claim for one-fourth of the business. Judge Belden decided against Ott, though finding that Pool drew \$10,000 out of the business in 1880 and more since and six years before the death of Pool the business amounted to about \$10,000. Judge Belden held that Ott's claim, if valid, was barred by the statute of limitations. An appeal was taken to the supreme court and Judge Belden's decision was reversed. New affidavits were secured and Judge Helm after hearing the evidence, found that Ott had been discharged in 1889 and a few days later was reemployed. Judge Belden held that the original contract was not in force at the time of Pool's death.

The supreme court reverses Judge Belden and finds for Ott in the full amount claimed.

SHE SAW FALL OF ALMO.

Death Comes to Pioneer Texas Woman Who Witnessed Battles.

San Antonio, Tex., Jan. 27.—Mrs. Domiquita Quintana, one of the few residents of San Antonio who saw the fall of the Alamo and the famous battle of that time, which made Texas famous, has just died. Mrs. Quintana was born in Laredo in 1828 and came here seventy-eight years ago. It was a year after she came that the famous battle of the Alamo Mission was fought and Crockett, Travis and Bowie, with their handful of followers, died in the now famous mission in the fight with Santa Anna. She was ten years old then. They were stirring times in those days, and the adventures with the Indians, the lawless and desperate frontiersmen which happened during the early life of Mrs. Quintana have filled many interesting volumes. Mrs. Quintana seldom spoke of her early life. It was a sealed book with her, in which friends and relatives had passed away in battles with the hands of Indians and robbers. It seemed miraculous to her, however, that the little adobe village wherein she was raised should develop into a large city with railroads and then trolley cars.

TRAIN IN MISSOURI KILLS TWO LITTLE GIRLS.

Memphis, Mo., Jan. 27.—A freight train struck and killed the two little daughters of David Flick at Arbella, Mo., today. The children were going to school.

RUMORS EXCITE MUSKOGEE.

Muskogee, Okla., Jan. 27.—Something of a flurry was experienced today upon the circulation of rumors of threats to assassinate M. L. Mott, attorney for the Creek Indian nation, and other connected with the investigation into the Muskogee town and frauds. It is impossible to trace the origin of the rumors to any definite source.

CAPTAIN ALEXIS KEELER DEAD.

Columbus, O., Jan. 27.—Captain Alexis Keeler, aged seventy-eight, inspector of customs and sergeant-at-arms at this consecutive Republican national conventions, died here today, of heart trouble.

Milk that it delivered to the homes of New York city each morning comes from 30,227 dairies.

Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia. Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally as chronic dyspepsia results upon the taking of Kodol. When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it. Ordinary pepsin "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only

a partial digester—and physics are not digesters at all. Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know just as well as we do. Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 24 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

Ishpeming Department

Additional Ishpeming, on Page 7. COHAN SHOW IS GOOD.

LEGION MEMBERS HAVE DONE WELL

FOR EVERY DOLLAR PAID TO THE NATIONAL PROTECTIVE LEGION BY ISHPeming MEMBERS ALMOST TWO DOLLARS HAVE BEEN RECEIVED IN BENEFITS.

According to J. T. Bennett, secretary of Ishpeming branch, No. 379, of the National Protective Legion, the members of the society in this city as a whole, have received a greater sum in disability loans, death benefits and dividends than they have paid in for assessments and dues. The members, especially those holding Class B certificates, on which dividends have just been declared, have been wondering for some time past what the amount of the dividend would be. Mr. Bennett received a letter yesterday from President George A. Scott, announcing the dividends on full and half-note certificates to be paid.

The Ishpeming branch was organized April 29, 1899, and prior to the change in the plan of distributing dividends a year ago, there were nearly 500 members, while on the first of this month there were 286. A number of the members are carrying two certificates, the total number in force at this time being 377. The Ishpeming members received a greater sum in dividends, death claims and disability loans in 1908 than during any other year. The total in dividends was \$5,395.05; death claims, \$1,112.50 and disability loans, \$270. The local members who allowed their certificates to lapse last year, several of whom would be entitled to dividends this month, paid in \$2,453, which was an absolute loss to those drawing out.

Mr. Bennett was unable to state the exact amount the members of the local branch have paid into the Legion during the ten years it has been in existence, though he estimates it at less than \$23,000, while the total benefits received by members to date, exclusive of the forthcoming dividends, is \$31,225.25. Of this sum, \$28,345 was in dividends; \$2,280.25, death claims, and \$600 disability loans. Out of the 208 local members, 112 receive dividends on full rate certificates, amounting in all to \$12,763.52. According to Mr. Bennett's estimate the total sum received by the Ishpeming members of the organization during the ten-year period is nearly 100 per cent in excess of the amount paid in assessments. President Scott's letter, addressed to the secretary, will be read at the regular meeting this evening. It is not expected that many, if any, of those who will receive payment this month will take out new certificates as the dividend, which is less than the total sum they have paid in assessments, is a disappointment. Many of those whose certificates lapse at this time will be money ahead, however, as they were among the original certificate holders, receiving their first pay-off five years ago.

According to the last report from the home office, received in December, there is still a large balance in the treasury of the benefit fund. The total amount paid out in loans to members during December was \$13,000. On the last day of the month there was a balance in the general fund of \$2,596.84, while in the benefit fund there was a balance of \$2,520,872.91. The expenditures in December, including the payment of benefits, etc., amounted to \$287,187.24. Many of the members believe that the dividends will increase from this time on and that the pay-off of a year hence will be much larger proportionately than the dividend just declared.

DIED IN MILWAUKEE.

Ishpeming Business Man Passed Away Yesterday at Post-Graduate Hospital.

Eric Erickson, who has conducted a liquor business in the Simons block, corner of Main and Division streets, for three years past, died yesterday at the Post-Graduate hospital in Milwaukee, where on Thursday last he had been undergoing a surgical operation. Mr. Erickson had been suffering for several years, though for a few weeks before leaving here he felt much better than usual. He rallied after the operation but on Sunday he began to sink and his condition gradually grew worse until he passed away. A message was received here yesterday afternoon announcing his death and the remains are expected this morning. The deceased was about forty-four years of age and is survived by his widow and four children. He had been a resident of Ishpeming for eighteen years, eleven of which he had been engaged in the liquor business. For eight years prior to starting on his own account in the Simons block, he was in partnership with Andrew Talo, at the corner of Division and First streets. Mr. Erickson had many friends in the city who were grieved yesterday to learn of his untimely death. Funeral arrangements will be completed today.

Special sale of laces, regular price, eight to fifteen cents, at five cents per yard Thursday and Friday only. (1-27-24) N. E. SKUD.

TO BUILD NEW HOSPITAL.

Dr. I. Lindgren, who conducts the private hospital in the second story of the Mitchell block, corner Main and Division streets, left Sunday night for a visit to several of the larger cities, where he will spend some time inspecting hospitals with a view to getting ideas that he will incorporate in a new hospital that he intends to erect here during the present year. Dr. Lindgren's present quarters are too small and he has felt the need of a larger place for more than a year past.

DON'T GET A DIVORCE.

A western judge granted a divorce on account of ill-temper and bad breath. Dr. King's New Life Pills would have prevented it. They cure Constipation, causing bad breath and Liver Trouble, the ill-temper, dispel colds, banish headaches, conquer chills. 25c at The Stafford Drug Co.

LITTLE JOHNNY

THE MOST EMPHATIC COMEDY SUCCESS EVER SCORED IN AMERICA.

IT'S WHISTLED AND SUNG IN EVERY TONGUE

WITH WM. KEOUGH AS THE UNKNOWN

Now in its Fifth Big Year. 34 Weeks in New York --- 22 Weeks in Chicago. Play and all the music by GEO. M. COHAN.

PRICES: Entire lower floor and lower box seats, \$1.50; upper box seats and first two rows of Balcony, \$1; balance Balcony, 75c; Gallery, 50c. Written orders for seats are now being received. CERTAIN RISES AT 8:30.

PUTTING UP STRONG FIGHT.

Many Here Interested in Proposed Zinc Ore Tariff Measure.

The question of duties on zinc ore, which is among the most hotly contested that has yet been presented to the ways and means committee in Washington, is of much interest to many here, who are interested in Vandeventer and other zinc and lead properties in the Wisconsin field. The committee has, on both sides of the question, the opposition to the proposed duties have become exceptionally strong within the past ten days and is being aroused by consumers and the smelting interests.

The position of the smelting industry is that there is a constantly increasing shortage of the raw material, and if domestic consumption of spelter is to increase in the same ratio the next ten years as it has in the past ten, the whole industry will be confronted with a disastrous condition if deprived of foreign ore. Instead of these ores coming to the United States under a duty, it is alleged that they would go to foreign countries, and the users of spelter would be compelled to supply a part of their requirements with the foreign articles. It is argued that the domestic production of zinc has increased within the last ten years, 100 per cent, whereas the Wisconsin district has only been able to increase its output a scant 10 per cent during this time. The zinc smelting industry is said to be facing a shortage of raw material, even with the ores of Mexico and British Columbia. Some interests urge that it would be better to reduce duties on spelter than to see a duty placed on raw material, and one cent a pound on finished spelter is said by them to be ample to give the American miner and smelter all the protection they are entitled to. It is pointed out that the difference in the average price in London and the average price in New York during the past ten years has been less than seventy-five cents a pound.

Cost of Mining in Wisconsin.

The question of the cost of producing zinc ore in the Wisconsin field is one that has received a great deal of consideration by mining men interested in the properties of that state. The figures compiled as a result of an inspection made by an expert within the past two weeks are almost identical with those presented by J. B. Quinn, general manager of the Vandeventer property, a few weeks ago, when the officers decided to sell the remaining treasury stock to raise funds to pay for the new roaster. Practically all of the Wisconsin producers have found that it requires about two tons of green concentrates to produce one ton of roasted ore.

So successful is the present method of roasting and electrical separation that Wisconsin ore is thus brought up to a point equally as good as the best zinc ore produced anywhere in the world. The terms "green concentrates" may be somewhat confusing, but it is used in connection with reference to ores as they come off of the jigs through the processes of wet concentration. Calculating mining and milling two tons of green ore at \$8.50 per ton would give a cost of \$17 to begin with. It is almost settled that the cost of roasting is about \$1.50 per ton, so that \$2 must be added to the first figure. Hauling to railroads from inland mines would add about \$2 more, so that the total production of one ton of roasted ore would mean a cost of \$22. This ore has been selling of late at a base price of \$44 for 98 per cent ore, and where ore shows great zinc contents, \$1 per unit must be added to this price. Therefore, 62 per cent ore, which is common among roasted ores, would show a high price of \$46 per ton, leaving a profit per ton to the producer of \$22. These figures are considered conservative and at the present market price of roasted ore, most of the producers should be capable of net earnings of from \$150 to \$250 per day with the average surface equipment running to capacity.

POOL CONTEST.

Clyde DeFrance and Peter Carroll of Negaunee will meet Thomas Roberts and William Embury in the first 100 points of a 500-point pool match this evening at the Bank street billiard and pool hall. The second contest of the match will take place at DeFrance's billiard hall in Negaunee some evening next week. The total points in the five contests will count. Melville Webber and Elmer Wolfner defeated Russell Shea and J.

A Message from Mars

The famous English comedy drama with the record of 1000 performances in London, 500 performances in New York, and which is now on its fifth consecutive successful tour of the United States and Canada. A notable special company, including

Beresford Lovett (Direct from London) and Margaret Dunne
Positively the Event of the Season.

PRICES: Lower Floor, \$1 and \$1.50; Balcony, 75c and 50c; Gallery, 25c. Written orders for seats now being received. CARRIAGES AT 10:40.

Upper Peninsula

Why the Fishing Is Poor—

The property owners at Indian Lake, out from Manistique, have learned with interest that the lake is dotted with fishing shanties, and that fish are being shipped to outside markets in eight-barrel consignments. The practice has been going on for several years, and is the direct reason why fishing is so abundantly bad there in the summer time.

New Furnace a Success—

The new Ardis furnace of the Jones company of Iron Mountain has been in operation lately. The test were very satisfactory to a number of experts who were present. The new gas machine, after it was regulated, was found to do the work expected. It is asserted that all doubts as to the complete success of Mr. Jones' invention have now been removed.

Will Sail Around the World—

George Bernier, son of Captain S. F. Bernier of the Soo, has received the appointment as a member of the crew of the Tahona, the new United States cutter, which was recently launched. The appointment was received through the influence of Captain Satterlee, formerly of the revenue cutter Mackinac, stationed at the Soo. The Tahona is to make a trip around the world, leaving Camden, New Jersey about the first of February and reaching San Francisco in about a year's time. Captain Satterlee is the first lieutenant on the cutter. Mr. Bernier has gone to Camden, and has already become a member of the crew of the Tahona.

Old Papers Being Recorded—

During the past week, five warranty deeds, all of which were issued fifteen to twenty years ago, have been taken to the register at Ishpeming, in Menominee for recording. One woman who held two of the deeds stated that she never had any idea it was necessary to record the papers until she read the article recently published in which County Clerk Hansen stated that hundreds of valuable papers never found their way to the register of deeds office. "For the last week, the register of deeds office has been busy receiving old deeds, mortgages and other instruments from one to twenty-one years old," said County Clerk Hansen. "Some people confessed that they meant to record the papers years ago but put them away in trunks, or safes and forgot all about them. Others thought they had their records until investigation proved otherwise, and several stated that they were unaware that recording was necessary for their protection. I believe the recording rush will continue for some time."

Must Cut Out Tobacco—

Pupils attending the Newberry public schools who have formed either the cigarette or tobacco habit must either cut out the practice or leave school. This is the mandate of the board of education and is in accordance with a resolution passed at its last meeting, prohibiting the use of tobacco in any form either in or about the school building or yards, under penalty of expulsion. Last year it was claimed there was only one boy attending the high school who was not addicted to the use of tobacco, and the board of education is determined to put a stop to the practice. Similar action is being taken by the school boards throughout the state, though in many instances they have taken a more radical stand and notified the dealers in tobacco and proprietors of pool rooms and saloons that any violation of the state law

relative to minors would be followed by prosecution.

Saves the Village Money—

The wisdom of the village fathers last spring in placing the management of the water and light plant under the control of a board of three members is being shown in the record made since then, says the Newberry News. When the board was organized and took hold of the reins, it found affairs in confusion with the plant in a sadly neglected condition. Patrons had been allowed to pay their bills much at their own convenience, with the consequent loss of considerable revenue, and it was impossible to tell with any exactness whether the plant was losing or making money. The first action taken was in the matter of collections, and the patrons soon awoke to the fact that unless their bills were paid promptly their service would be cut off, and that the board did not care a cental whether it happened to be the banker or the baker. Many other changes in the management have been made that have effected a considerable saving in the cost of operation, until now it can be said that there is an actual balance on the right side of the ledger. The books show a balance of \$1,325 to the credit of the board, and besides there is on hand enough fuel to operate the plant until the summer months.

Rapid River's New School—

Rapid River's new high school building, now practically completed, has cost between \$30,000 and \$35,000, with fixtures, and is in every way modern. It is practically a three-story structure. The basement walls are of limestone and pressed brick, with cut stone trimmings. In the southeast corner is the kindergarten, with the boiler room to the east. The north half of the basement is adapted to use as a gymnasium. On the first floor are four large grade rooms. On the third floor is the assembly room, seating one hundred; it is finished with paneled ceiling and stained glass skylight. The seating is of the chair and desk type. There are five classrooms on the floor, the largest fitted for use as a laboratory. The plumbing throughout the building is modern, and to furnish the water a windmill and pressure tank have been provided. The exits are ample, and there have been installed fire hose and other fire-fighting equipment. The school was planned by Architect Chubb, of Chicago. The builder was Thomas M. Solar, who also had the high school contract at Ishpeming. Lincoln Day exercises will be held Feb. 12, and at that time also the formal dedication of the building will take place. Superintendent E. D. Davis of Escanaba and other delivering addresses. The teacher force has been augmented the past week. It is now made up as follows: James H. McDonald, principal; Gertrude Babcock, of Albion, high school; Margaret Obee of Adrian, Emma Schultz of Rapid River and Josephine King of Pierre, S. D., grades, and Mildred Vickery, kindergarten.

Menominee's Old Slough—

"The best manufacturing site your city has is being used as a cow pasture," remarked a Chicago man recently to a Menominee business man. The Chicago man went on to tell how the old slough, now used as a pasture for cows, was the best natural site for a big manufacturing plant or railroad yards that could be found in this part of the Northwest. "There is flowing water on all sides of the location and the plot is near enough to the Menominee river to have all of the advantages of a fine harbor." The history of Menominee's old slough is interesting. At one time it was simply a bend in the river and the water stood over the low lands to a

considerable depth, in fact the water was so deep that one of the pioneer residents returning with his boat, loaded with nets, was drowned when the craft was overturned. He was unable to get away from the entangled nets but his son swam ashore and is still residing in Menominee. Then the railroad tracks were built across it and the mill companies dredged their log channels through it. The water gradually fell to a lower level and the bottom of the slough came to view. At one time large manure factories wanted the location but was unable to obtain the rights from the mill companies which controlled them. The slough as it is today is owned by C. L. Cook or rather by the Menominee Land & Iron company, which holds the title to land owned by Mr. Cook. The only use to which it is now put is as pasture land for Mr. Cook's magnificent herd of cattle.

Judge Stone Endorsed—

The following preamble and resolutions have been adopted by the Menominee County Bar association, the meeting of which was held for the purpose of largely attended, all the members of the bar living in the city being present and regrets being read from the members of the bar outside of the city: "Whereas, The contemplated retirement of Hon. Claudius B. Grant from the supreme bench of this state will create a vacancy in that body to be filled at the coming spring election and we, the members of the Menominee county bar have this day met for the purpose of considering a suitable candidate for justice of the supreme court; and

"Whereas, It has always been conceded that the upper peninsula is entitled to representation in the supreme court and the candidacy of the Hon. John W. Stone of this circuit has, with his consent, been announced for that position; by the Marquette county bar; and

"Whereas, The eminent abilities and learning of Judge Stone and his long and honorable service on the circuit bench, preeminently fit him for the high office of justice of the supreme court of this state; be it

"Resolved, That we, the members of the Menominee county bar, heartily endorse his candidacy and pledge him our earnest and loyal support and urge upon the electorate of this state his nomination and election."

The question of the division of this, the twenty-fifth judicial circuit, into two or more separate circuits, was discussed at length but no action was taken on it being decided best to defer action until the views of the bar in the respective counties in the circuit be ascertained, and the meeting was therefore adjourned subject to the call of the chairman to take further action in regard to this matter later.

PRESIDENT HELPS ORPHANS.

Hundreds of orphans have been helped by the president of the Industrial Orphans' Home at Macon, Ga., who writes: "We have used Electric Bitters in this institution for nine years. It has proved a most excellent medicine for Stomach, Liver and Kidney troubles. We regard it as one of the best family medicines on earth." It invigorates the vital organs, purifies the blood, aids digestion, creates appetite. To strengthen and build up thin, pale, weak children or run-down people it has no equal. Best for female complaints. Only 50c at The Stafford Drug Co.

If you will take Foley's Orino Laxative until the bowels become regular you will not have to take purgatives constantly, as Foley's Orino Laxative positively cures chronic constipation and sluggish liver. Pleasant to take. Sold by all druggists.

Negaunee Department

LEGION DIVIDEND IS ANNOUNCED

MEMBERS HOLDING CLASS B CERTIFICATES WHICH EXPIRED THE FIRST OF THE YEAR WILL RECEIVE A FEW CENTS MORE THAN WAS PAID LAST YEAR.

The report of the action of the executive board of the National Protective Legion, relative to the dividends for 1909, which has been awaited with interest by the members of the various branches in the upper peninsula, was received here yesterday. The amount of the dividend declared on both the full and half-rate certificates will be a disappointment, as the excess over the dividend of 1908 is only thirty-eight cents on full-rate certificates, and nineteen cents on half-rate certificates. This is over 86 less than was paid in during the five-year period on the full rate certificates and over \$3 less than was paid in on the half-rate certificates, exclusive of lodge dues.

President Scott's Letter. The following is a copy of President George A. Scott's letter: "At a regular meeting of the executive board held in the home office on Jan. 22nd, the cash dividend upon Class B certificates of the National Protective Legion was determined for the year 1909. The amount declared arose from accurate computation made by the actuary of the organization, Mr. Alva Lamm, and the basis of the opinion of special counsel rendered in January, 1908, and used in the determination of the dividend for that year.

"The amount so determined by him for the dividend of 1909 is \$13.30 on full-rate certificates and \$6.65 on half-rate certificates. "It will be noted that this is an increase over the dividend of 1908 of thirty-eight cents on full-rate and nineteen cents on half-rate certificates. The reason for this increase is that there were gains from forfeiture by lapse of members who are to receive dividends in 1909 over corresponding gains from forfeitures by lapse of the members who received dividends in 1908. The increase of the dividend of 1909 would have been greater had it not been for the fact that there was an increase in excessive disability claims on the part of the members who are to receive dividends in 1909. In other words, these members received advances in the way of claims that reduced the funds otherwise available. "I trust this information will be pleasing to yourself and your members, and that we may have the hearty cooperation of all during the year upon which we are just entering."

Advices Medical Examination.

It is asserted by members that the sick benefit clause has been abused and that the society has been "worked" by dishonest persons. Many complaints have been received from the members regarding the plan now in force. According to President Scott's letter the dividends are reduced because of the heavy payments for sick benefits.

There is agitation for a medical examination for members holding certificates in Class B, in the hope that the heavy drain on account of the sick benefits can be reduced. The January issue of "Light of the Legion," the society's official publication, had the following discussion of the matter: "Various changes have been wrought within the past two years which make it necessary that such action be taken. The recent theory in finance resulting in pauperism has tended to increase the requests for disability claims. As we review the application of the sick benefits we are impressed with the request on the part of many whose health is not good.

"To be sure the member waives benefits on disease chronic at time of joining, but there is likelihood of other sickness resulting because of infirmities at the outset of membership. "Moreover, it is very noticeable that large numbers are unconscious of the fact that they have disease when they make the application, and later they are either disappointed upon refusal of a claim or the legion suffers loss. "We fully appreciate the fact that it will prevent some from gaining admission who want to join, but better they stay out than the legion lose. It will cause inconvenience and a little expense, but the legion will be benefited by saving money which would be paid in disability benefits, thereby increasing the dividends at five years.

"The past few years have been prolific of much knowledge pertaining to disability insurance in both Europe and America. There is fast growing demand for protection to the disabled and assurance of income when sick or injured. "Statistics gathered by direction of the British government have enabled a table to be constructed whereby a rate of collection can be made that will make level monthly or yearly cost for promised benefits. It is creative of reserves upon any plan desired and throws about it the same safeguards as are extended to stable life insurance.

"The need of applying such scientific adjustments to the Class B disability benefits is very apparent at this time and must have consideration. "In doing so the cash dividend will be a factor of equalization as in the past, but it may be necessary to apply the variations of age, physical condition, and possibly occupation, in the disability benefits. Such however would be difficult of application without medical examination as a pre-requisite to membership. "We mention these things in the interest of each individual to be paid in the variations of age, physical condition, and possibly occupation, in the disability benefits. Such however would be difficult of application without medical examination as a pre-requisite to membership.

"Furthermore, a bill is likely to be introduced in the various state legislatures which if passed will compel such examinations to be made before admission can be gained. Let us not be caught napping in these things which mean the best thing to be done for our great organization."

The dividend for 1909 will be a disappointment to the members who will receive their pay-off this month," said a Negaunee man yesterday. "I for one shall allow my membership to lapse, as the dividend does not equal the amount I have paid into the legion during the five years I have held membership. All things considered the members here have received a greater sum in dividends, sick and death benefits, than has been paid into the head office."

RAILROAD WORK QUIET.

Freight Movement Is Lighter Than Any Previous Time in Several Months. "The freight traffic is unusually light," said a railroad man yesterday. "As a rule there is less freight handled in January than in any other month of the year, as it is a season for the taking of inventories by practically all the dealers, including retailers, wholesalers and jobbers. General business is usually lighter in January than during any other month. "The lull at this time of the year is not considered discouraging by railroad officials. They regard the condition as a logical one, as the falling off in traffic in January is expected on all systems, except in sections where there is a heavy movement of grain or timber. "The grain traffic is lighter than usual, owing largely to the unfavorable market conditions. Last year the situation was very different. There had been a scarcity of wheat in many of the eastern, southern and some of the middle states, and the movement in these directions was heavy. At the present time much of the wheat and grain is awaiting the opening of navigation, because the demand is not strong enough to warrant sending it by the all-rail routes. It is reported that there are large quantities of grain stored in the warehouses of the Northwest. The movement of timber in the Northwest is not as heavy as usual."

ANTI-CIGARETTE BILL.

School Authorities Interested in Measure Introduced by Senator Dickinson. Inasmuch as the members of the board of education are determined to do everything in their power to stop cigarette smoking by boys in the schools, they are interested in the anti-cigarette bill introduced last week in the legislature by Senator Dickinson. A few weeks ago sections of the present law prohibiting the sale of cigarette, tobacco and intoxicating liquors to minors were placed in the hands of the local dealers, with the understanding that the law will be strictly enforced. Senator Dickinson's bill bars from the market adulterated cigarettes and prohibits minors from smoking cigarettes of any kind. It is reported that it is Senator Dickinson's intention to also introduce a bill barring cigarettes entirely. The bill already introduced provides a penalty of not to exceed \$50 or imprisonment of not to exceed thirty days in the county jail for each violation. Another section provides a penalty for selling or furnishing cigarettes to any person under twenty-one years of age, while a third section penalizes the smoking of cigarettes by either adults or minors on the streets or in public places. Another section prohibits any one from harboring a person under twenty-one years of age while smoking a cigarette and a still penalty is provided for violations of this section.

UNUSUAL WEATHER.

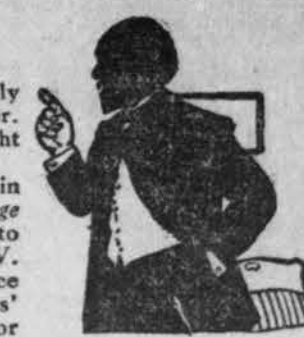

A Negaunee man who has lived here continuously for over forty years yesterday said he did not remember any time in January during this entire period when the weather has been as mild as during the past week. He remembers a few times when wages had been in use in January, but he has no recollection of there ever having been such a large number of days when the temperature at the noon hour was around fifty or sixty degrees. Yesterday morning at 7 o'clock it was twenty-four degrees, and at midnight Tuesday it was thirty, there being a fall of twenty degrees from 1:30 in the afternoon until midnight.

LOCAL LAONICS.

The city hose cart was transferred from runners to wheels Tuesday. The six-year-old son of Charles Oakis, residing at the Blue location, died Tuesday night. Miss Josephine Houle, who accompanied her nephew to Arizona early in the fall, arrived home yesterday. Alexander Maitland and wife and Mrs. J. M. Perkins and her sister, Miss Myrtle Mitchell, are spending a few days in Chicago. George Sarasen, the Cleveland-Gifts from company's chief clerk at the Prince of Wales, in the Swanzy range, was in the city yesterday. Ernie Jacka, who spent the past few weeks visiting relatives in Negaunee, returned to Iron Bay, where he has been located for several years past. Seven or eight members of the Marquette council of the Knights of Columbus, residing in Negaunee, attended the installation of the new officers Tuesday night. Mrs. Clark Kirkpatrick, of Escanaba, formerly of this city, visited relatives here between trains Tuesday while en route to Duluth. She left on the midnight train. Mayor J. H. Winter and wife are in the East this week, and are expected home Saturday or Sunday. Soon after their arrival Mrs. A. C. McKenzie, mother of Mrs. Winter, and her daughter, Miss Virginia, will leave for the south. Thomas Walters, Jr., superintendent of the Tilling Mill mine, will soon occupy his new dwelling at the location. The painters and decorators are now working there and A. G. Russell of Ishpeming is doing the electric wiring, and installing the fixtures. Richard Kappes, who is filling the Upper Peninsula Brewing company's livery house, had men placing snow on the road at several points between the lake and the brewing company's property yesterday, in order to keep it in good condition for sleighing. He will finish the contract today. John E. Allison, who arrived home a few days ago, after a ten days absence in Illinois and Indiana, has about decid-

A Poor Weak Woman

As she is termed, will endure bravely and patiently agonies which a strong man would give way under. The fact is women are more patient than they ought to be under such troubles.

Every woman ought to know that she may obtain the most experienced medical advice free of charge and in absolute confidence and privacy by writing to the World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce has been chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for many years and has had a wider practical experience in the treatment of women's diseases than any other physician in this country. His medicines are world-famous for their astonishing efficacy.

The most perfect remedy ever devised for weak and delicate women is Dr. Pierce's Favorite Prescription. IT MAKES WEAK WOMEN STRONG. SICK WOMEN WELL.

The many and varied symptoms of woman's peculiar ailments are fully set forth in Plain English in the People's Medical Adviser (1008 pages), a newly revised and up-to-date Edition of which, cloth-bound, will be mailed free on receipt of 31 one-cent stamps to pay cost of mailing only. Address as above.

FAMILY THEATRE

Change of Program Tonight

MATINEE THURSDAY 3:30 P. M.

ed to locate in the latter state, though he has not yet made up his mind where he will make his home. He intends to leave here just as soon as he can dispose of his jewelry business.

Frank Fumley, who has been doing plumbing work at the new high school building for several weeks past, gave up the job Tuesday, and left yesterday for the copper country, on a few days' visit to relatives, his wife and two children having gone to Fond du Lac, where they lived for some time before coming to Negaunee. The members of the Union baseball team regret his departure, as he has been holding down the first base and playing an excellent game.

ISHPEMING

ISHPEMING IN BRIEF.

J. S. Young of Duluth was here yesterday on business. Mrs. J. H. Quinn will entertain this afternoon with cards.

T. L. Sayer of Calumet transacted business in the city yesterday. Rev. Father Gagnier, S. J., has returned from a visit to the Indians in the vicinity of Bark River.

Tate Siebenhall, who pitched for the Ishpeming baseball team last season, was down from Republic yesterday. The funeral of the late Samuel Lyman will be held this afternoon at 2 o'clock from the First Methodist Episcopal church.

The Ladies' Aid society of Calvary Baptist church will conduct a ten-cent social tomorrow evening in the church basement. Sandwiches, coffee and cake will be served.

The building committee of the Ishpeming branch of the Young Men's Christian association expects to select the furnishings for the new block within the next few days.

The funeral of Anshelm Makki, a young Finn, who died from consumption at his boarding house on Division street, was held Tuesday afternoon from the Finnish Lutheran church. The deceased was twenty years of age and was born in Finland.

The Ishpeming and Negaunee City in door baseball team will meet next Monday evening, Feb. 2, at Braastad's Hall. The game will start promptly at 8 o'clock and there will be dancing at its conclusion. The local team will meet the Orions in Negaunee tonight.

A number of the young lady friends of Miss Delphine Perrault, who is soon to leave for Montreal, where she is to enter a hospital with a view to becoming a trained nurse, gave her a surprise at her home on High street Tuesday evening. Miss Perrault was presented with a very handsome silver purse.

The funeral of the late Mrs. W. F. Schmidt, who died in Republic Sunday night, will be held Saturday. The deceased resided in Marquette for a number of years prior to locating at Republic, thirty years ago. Her maiden name was Miss Sophie Doerr. She has a number of relatives in Marquette, also a few in Ishpeming.

Rev. Dr. G. E. Berek of Minneapolis, who was pastor of the Swedish Methodist church in this city for some time prior to twenty-two years ago, is here this week aiding Rev. O. W. Carlson, the pastor, in conducting the revival meetings. Rev. Berek is an eloquent speaker and he preaches each evening. The church has been crowded to its capacity every evening this week.

BRAVE FIRE LADDIES

often receive severe burns, putting out fires, then use Bucklen's Arnica Salve and forget them. It soon drives out pain. For burns, scalds, wounds, cuts and bruises it's earth's greatest healer. Quickly cures skin eruptions, old sores, boils, ulcers, felons; best pile cure made. Relief is instant, 25c at The Stafford Drug Co.

SIMPLE REMEDY FOR LA GRIPPE

Many little lives have been saved by Foley's Honey and Tar, for coughs, colds, croup and whooping cough. It is the only safe remedy for infants and children as it contains no opiates or other narcotic drugs, and children like Foley's Honey and Tar. Careful mothers keep a bottle in the house. Refuse substitutes. Sold by all druggists.

COMMERCIAL CLUB BANQUET A SUCCESS

LARGE AND ENTHUSIASTIC CROWD PRESENT AT THE HOTEL CLIFTON LAST EVENING.

EXCELLENT RESPONSES GIVEN

Toasts Productive of Many Splendid Ideas for the Betterment of This City and Surrounding Country.

The first banquet of the Queen City Commercial club held at the Hotel Clifton last evening was largely attended and was a great success. Covers were laid for about seventy-five on a U-shaped table in the main dining room.

- Oysters, Raw or Stewed
- Dill Pickles Celery
- Olives Radishes
- Roast Turkey With Dressing
- Asparagus Tips Sweet Potatoes
- Fruit Salad Cranberry Sauce
- Ice Cream Rhine Wine
- Cake
- Coffee Wafers Cheese

While the courses were being served, music was furnished by the Peerless orchestra, the piano used being a Hackley from the Marquette Piano company.

The Responses.

The first response was given by A. Saladin, president of the club, on the subject "The Queen City Commercial Club." He told of the organization and administration of the club and of the work it had done and was doing.

C. V. R. Townsend, of Negaunee, was the next speaker called upon by the toastmaster. Mr. Townsend was a member of the commission of inquiry into Michigan lands and forests appointed by Governor Warner a year or more ago.

Resolved, That the members of the Queen City Commercial club, Marquette, Michigan, heartily endorse and approve the report made by the Commission of Inquiry, Tax Lands and Forestry, of Michigan, and unite in urging the senators and representatives from the upper peninsula to use their best efforts to secure the adoption, by the present legislature, of the recommendations made by this commission.

Following Mr. Townsend, Leo M. Geismar, the famous Chatham farmer, gave an excellent talk on the subject of "What We Can Get Out of the Farmer." Mr. Geismar said that while the citizens of any town would get extremely busy to secure a woodworking plant that would employ 500 men, that the same citizens would not be apt to make any special effort to get an equal number of farmers to settle in the vicinity of the town.

At this point the following resolution was presented and unanimously and enthusiastically adopted, endorsing the candidacy of Judge Stone for the nomination for justice of the state supreme court:

Whereas, Honorable John W. Stone of Marquette, Michigan, is a candidate for the nomination for justice of the state supreme court of this state; and,

Resolved, That the Marquette Commercial club endorse, and it does hereby endorse, without reserve and regardless of political affiliations, the candidacy of Honorable John W. Stone for the nomination for justice of the state supreme court;

James Russell was then called upon to discuss "Some Phases of Prison Life." He turned his subject into a discussion of the proposed legislation to require paroled and discharged prisoners to be returned to the counties from which they were sent, or to their homes.

When you want milk, cream, butter or buttermilk of the finest quality, call upon Marquette City Dairy, Bell phone 223.

F. H. VANDENBOOM, Prop.

There is no case on record of a cough, cold or la grippe developing into pneumonia after Foley's Honey and Tar has been taken, as it cures the most obstinate deep seated coughs and colds. Why take anything else. Sold by all druggists.

\$1.25 per thousand cubic feet for its product, and that the manager had told him that they were furnishing gas at the lowest possible figure. He then said that in England municipal gas plants had reduced the price to sixty cents a thousand and that equally favorable results had been accomplished in the United States.

One of the best talks of the evening was given by Alton T. Roberts on "Impressions of a Stranger in Marquette." He spoke of this city's handsome public buildings, and its excellent and well-kept streets and sidewalks, also of his most cordial and pleasant relations since coming here to make his home.

Other interesting talks were given by George P. Brown, on the subject of "Taxation;" S. M. Stillson, "Agriculture;" and S. W. Shaul on "How Shall We Do It?"

By this time the hour was late, and the banquet departed to their homes, unanimously of the opinion that a pleasant and profitable evening had been spent, and that the work of the Queen City Commercial club should be more efficient in the future because of the gathering.

WORK OF VISITING NURSE EXPLAINED

SOME THINGS MADE CLEAR TO THE PUBLIC ABOUT WHICH THERE MAY HAVE BEEN MISUNDERSTANDING.

The Visiting Nurse association feels it wise to make clear to the public a few points about which there might be, unless some explanations were made, more or less misunderstanding.

The office of the association will be open from 1 until 2 o'clock, p. m. daily, except Sunday, and all cases where local applications or dressing are required will be cared for there when it is possible, thus giving the nurse more time to visit those whose condition confines them to the house.

They are finding it rather hard work. There is not so much objection to the principle as to the amount they propose to take. It is generally held that a penalty charge of ten, fifteen or twenty-five cents would serve the purpose of making the passenger buy tickets as well as to charge him a fare and a half, which in many cases, would reach a considerable sum.

RAILROADS ASK FOR LEGISLATION

HAVE SEVERAL BILLS THEY WISH LEGISLATURE TO PASS FOR THEIR BENEFIT THIS SESSION.

There will be plenty of railroad legislation this session, though probably none as sensational as that of the forty-fourth session, when the two-cent fare bill and the railway commission bill were passed.

However, the session will be notable for its railroad legislation, though it is not probable outside the same attitude of harshness to the roads will prevail as was noticeable during 1907.

Re-enactment of railway commission bill. Proposed penalty charge on those who do not buy tickets.

Provision that roads must furnish seats or stand table in damages. Repeal of 1873 statute providing maximum charge of 88 per cent of first ten miles moved.

Claim Bill is Unconstitutional. The re-enactment of the railway commission bill is, probably, the most important of all, though there will be few changes made in the bill as at present framed.

The railroads, though all of them obey the order of the railway commission, have never yet conceded that it is a constitutional body, and in fact there is a case now pending in the Ingham courts to determine the constitutionality of the commission law, which will carry with it the validity of all the acts of the commission.

There is, the railroads affirm, no doubt of the power of the legislature to make laws regulating rates, but they hold that the legislature cannot delegate that power to another authority.

Authority of the legislature to act is gained by an amendment to the constitution of 1850. It expressly gives the legislature power to act, but says nothing of delegating the power, which has been done, of course, in the formation of the railway commission.

Under the new constitution there is no doubt of the legislature's right to delegate its power. The clause was expressly put in and a law framed under it would without doubt be constitutional. Hence the entire commission act will be re-enacted.

Some changes will be made—some of them, recommended by the governor, being the insertion of a clause providing that the roads must furnish passes to the commissioners when on official business. Some other changes will be made, but they will be minor in character and such as have been discovered as lacking in the act in the two years it has been in effect.

To Force Buying of Tickets. The railroads are seeking the penalty overcharge. They claim that the two-cent fare law is an incentive not to buy tickets at the stations, as there is no saving in getting a ticket. In consequence, so the roads claim, their conductors are overwhelmed with cash business.

They are required to carry a lot of small change, and when the trains are crowded complain that frequently they do not get around to collect from all passengers on short hauls, or, if they do, it is at the expense of the train service.

A lobby of conductors, comprising men mainly from Grand Rapids, has been at Lansing since the opening of the session, trying to work up sentiment for the proposition that when fares are collected on the train the roads shall be allowed to take a fare and a half or three cents a mile.

They are finding it rather hard work. There is not so much objection to the principle as to the amount they propose to take. It is generally held that a penalty charge of ten, fifteen or twenty-five cents would serve the purpose of making the passenger buy tickets as well as to charge him a fare and a half, which in many cases, would reach a considerable sum.

It's Foolish to Hoard Your Money

Why? Well, there are many good reasons why you should not carry your savings about with you, or tuck them away in some private place of fancied security.

You take big chances with money so disposed of. It may be stolen, burned, lost or foolishly spent. You may be tempted by some reckless "gamble" or speculative "investment" which would not appeal to you if your savings were safe in the bank.

And, above all, hoarded money earns nothing for you. We not only give you absolute safety and protection, without charge, but we pay you 3 per cent (compounded semi-annually) for the privilege of serving your interests.

Let us explain fully other advantages of a saving account. Get one of our little Recording Banks and we will help you get the right start.

Special attention to Banking by Mail. Send a postal for booklet.
