

BILL HITTING JAPS IS PUT THROUGH

By Vote of 48 to 26 the California House Passes a Measure Compelling Orientals to Attend Separate Public Schools.

Other Anti-Asiatic Legislation Having Been Defeated in the Assembly, the Approval of the Segregation Proposition Is Entirely Unexpected and Occasions a Hasty Conference of Republican Leaders to Consider Plans to Reverse the Action Taken.

Sacramento, Cal., Feb. 4.—Representative Johnson's bill compelling Japanese to attend separate public schools passed the assembly today by the vote of forty-eight to twenty-six.

Shortly after the disposal of the Johnson bill, Representative Drew moved that the vote by which his land bill was defeated yesterday be reconsidered.

The passage of the Japanese school segregation bill today was entirely unexpected, after the defeat yesterday of Mr. Drew's anti-land bill, which was generally believed to foreshadow the rejection of all measures aimed at the Japanese.

Immediately upon learning of the assembly's action, Governor Gillet called a conference of the Republican leaders of both houses.

Upon reconsideration, and it was with this in view that the assemblymen of Los Angeles, after the roll call, changed his vote from no to yes and gave notice that tomorrow he would move to reconsider the vote of 48 to 26 by which the bill had passed.

It is freely predicted tonight that one of the fiercest battles ever waged in California legislature will result in the effort to kill the bill.

Is Worst of All, Wires Roosevelt. Governor Gillet this afternoon received the following from President Roosevelt: "What is the rumor that the California legislature has passed a bill excluding Japanese children from the public schools? This is the most offensive bill of all and, in my judgment, is clearly unconstitutional and we should at once have to test it in the courts. Can it be stopped in the legislature or by vote?"

Governor Gillet immediately wired a reply to the president, and asked for an answer at once. He refused to discuss the nature of the message to Washington, but will make all correspondence by wire public on the receipt of the president's next telegram if possible.

The vote upon Representative Johnson's various anti-Japanese bills today was: Compelling Japanese to attend separate schools, passed 46 to 28; board of directors, defeated 34 to 15; restricting the Japanese in residential districts, failed on a tie, 37 to 37. Mr. Leeds changed his vote to yes, so as to move reconsideration tomorrow.

Governor Preparing a Message. Governor Gillet is tonight preparing a message to be sent to the assembly tomorrow, asking that body to reconsider the vote by which it passed the bill compelling Japanese children to attend separate schools. This intended action is the result of the message received from President Roosevelt today, appealing to him to devise some means of blocking the measure in the legislature.

Idaho Resolution Is Headed Off. Boise, Idaho, Feb. 24.—The anti-Japanese resolution did not materialize in the legislature today as promised. It is understood that Senator Borah has brought influence to bear to prevent the introduction of such resolution, and has received assurance that it will be throttled if presented.

GOVERNOR HAS URGED A FULL INVESTIGATION. Madison, Wis., Feb. 4.—Attorney General Gilbert this afternoon forwarded to Walter L. Houser, ex-secretary of state, an answer to Houser's request that he be permitted to bring suit against former insurance commissioners to recover over \$200,000 paid to them in fees while in office. Gilbert tells Houser that the ways are open to him to bring suit, but intimates strongly that matters should be allowed to take their course through the legislature. He calls Houser's attention to the message of the governor recommending a full investigation by the legislature.

JOHN CLARKSON IS DEAD; ONCE A FAMOUS TWIRLER. Waltham, Mass., Feb. 4.—John Clarkson, the famous baseball pitcher in former days, died at a hospital here today from an attack of pneumonia.

RACING IN CALIFORNIA GETS A VITAL BLOW

Anti-Gambling Bill, Making Pool Selling a State's Prison Offense, Passes the Legislature and Will Be Signed by the Governor.

Sacramento, Cal., Feb. 4.—Racing in California received a vital blow when the senate today, voting thirty-three to twenty, passed the Walker-Otis anti-racing bill, which prohibits pool selling, bookmaking or gambling on horse races. Violation is a felony, punishable by imprisonment in the penitentiary and a heavy fine. The bill having already passed the assembly, it will now go to the governor for his signature, after which it will become a law. Governor Gillet has signified his intention of signing the measure if passed by both houses.

OVERRIDES GOVERNOR'S VETO. Tennessee Legislature Prohibits the Manufacture of Intoxicating Liquors.

Nashville, Tenn., Feb. 4.—The house today passed the bill prohibiting the manufacture of intoxicating liquors in the state, over the governor's veto. The measure passed the senate yesterday. It becomes effective Jan. 1, next.

HOPKINS' VOTE IS LESS THAN DEMOCRATIC RIVALRY.

Springfield, Ill., Feb. 4.—In the senatorial contest today, the Hopkins vote dropped to seventy-one, while that of Stringer, Democrat, rose to seventy-three.

Colonel Hepburn Gains Slightly. Des Moines, Ia., Feb. 4.—W. P. Hepburn gained slightly in the recount of the ballots in Appanoose county contested yesterday by the Centerville and the contest over the Eighth district congressional seat.

COLLECTOR AT NEW YORK; WM. LOEB'S JUICY PLUM.

Washington, Feb. 4.—Friends of William Loeb, Jr., secretary to the president, made the definite statement today that he is to become collector of the port of New York at the beginning of the next administration.

MASSACHUSETTS SENATE KILLS LINCOLN DAY BILL.

Boston, Feb. 4.—The proposition to make Lincoln's birthday a state holiday was killed in the state senate today. The house passed the measure yesterday, after a warm contest.

ANNUITIES PROPOSED FOR AGED CLERKS

Bill for the Retirement of Superannuated Employees of the Government Provides for an Enforced Saving of Salaries.

Washington, Feb. 4.—Congressman Gillet is now very confident that the committee on reform in the civil service of which he is chairman, will report a bill to the house this session for the retirement of superannuated employees of the government service. A sub-committee has agreed on a draft of a bill, and the bill will be taken up in the full committee this week, if possible, although action may be delayed somewhat, as Mr. Gillet is one of the conferees on the legislative appropriation bill.

This retirement bill is in general little more than a bill to compel employees who come under it to save some of their salaries. A certain amount is to be deducted from each clerk's pay every month and placed to his credit, with interest at 3 1/2 per cent. When he reaches the retirement age, which may be sixty, sixty-five or seventy, he can have this amount in cash, or in the form of an annuity for the rest of his life. If he should die while in service his heirs would get his entire account, including the interest; or if he should resign he can have his account in cash. The amount to be deducted would vary in each case, being fixed by a table somewhat like an insurance table of rates. This would be determined by taking into consideration his age at entrance in the service, and consequently the number of years in which he would pay deductions before retiring, and the amount of salary he receives.

If a clerk were to start in work for the government after plan went into effect, enough would be taken from his pay each month so that when he reaches the retirement age the deductions, with interest, would be sufficient to buy him an annuity equal to 1 1/2 per cent of all the salary the government ever paid him, or in different words, to 1 1/2 per cent of his average salary, multiplied by the number of years he had been in service. Thus the younger a man enters the service, the smaller would be the deductions from his pay and the greater would be his retirement annuity. The deductions would probably average in the neighborhood of 5 to 6 per cent, and the retirement salary, probably about 50 to 60 per cent.

This, of course, would not provide sufficient annuities for the old men in the service who are now reaching the retirement age, but the bill provides for some additional features. To raise money to meet the cost of a small annuity to such old employees. The sub-committee has placed many restrictions about the bill, as to investment of the fund, the classes of employees to be immediately placed under the plan, etc.

PRIESTS TO GIVE SPALDING A \$20,000 HOUSE AT PEORIA.

Peoria, Ill., Feb. 4.—A committee representing the priests of the Roman Catholic diocese of Peoria today awarded a contract for the construction of a \$20,000 residence to be presented Bishop Spalding upon his retirement from the parochial residence in this city when his successor is named.

TRIED FOR KILLING WIFE, C. E. HOLMES IS ACQUITTED.

Chicago, Feb. 4.—Charles E. Holmes, the most damaging testimony against whom was given by his twelve-year-old son, was declared not guilty of the murder of his wife by the jury today.

FOREST SERVICE GETS A-FLAYING

Receives Its Annual Drubbing in the House, the Onslaught Coming Principally from Members from States in the West.

That Because of the Development of Much Opposition to the Proposition in the Senate, There Is Slim Prospect of Statedhood for New Mexico and Arizona at This Session, Is the Word Taken to the White House by the Congressional Leaders.

Washington, Feb. 4.—The congressional leaders have informed President Roosevelt that there is little chance of statedhood for New Mexico and Arizona going through at this session. The opposition in the senate is given as the reason.

Spills Wanted by Congressmen.

Washington, Feb. 4.—In anticipation of the reception tomorrow of a message by the president, vetoing the bill making provision for taking the thirteenth electoral census, the members of the house who like the "spooks" feature of the measure today began to muster their forces in order to pass the bill notwithstanding the president's objections. The movement is non-partisan in character.

Mr. Fairbanks Proposes Notable Reform.

Washington, Feb. 4.—Two striking amendments to the senate rules, prepared by Vice President Fairbanks, were introduced in the senate today by Mr. Lodge, of Massachusetts. Their effect is to prevent a senator from referring unfavorably to the president, the members of the house of representatives, and to put an end to the reading of documents which have no bearing upon the subjects under discussion and where the reading is for the sole purpose of advancing a filibuster.

Reading the bill making appropriations for the District of Columbia constituted the chief feature in the proceedings of the senate today, and when the senate adjourned the reading of only half of the bill had been completed.

Forester Pinchot Under Fire.

Washington, Feb. 4.—The forest service got its annual drubbing in the house today, the criticisms against it coming principally from Congressmen Smith of California, Cook of Colorado and Mondell of Wyoming, all of whom charged extravagance in administration and extortion of money from miners and farmers. Mr. Cook attributed to Chief Forester Pinchot the ulterior motive of scheming for Secretary Wilson's seat in the cabinet. Both Mr. Pinchot and the forest service were vigorously defended by Messrs. Mann of Illinois and Weeks of Massachusetts. All attempts to amend the agricultural bill in any important particular failed. Its consideration was about two-thirds completed when the house adjourned.

KANSAS AUTHORITIES WIN IN FIGHT WITH BIG TRUST.

Kansas City, Feb. 4.—A dispatch tonight in the Star from Topeka says: "The International Harvester company will not fight the ouster suit brought against it by Attorney General Jackson in the supreme court, any further. The attorneys for the company and the attorney general will submit to the supreme court a proposition to withdraw the answer of the company and allow a decree to be entered against it. It will be a limited ouster against the company and will provide for a fine of about \$60,000 for violation of the anti-trust laws ordered by the court. The company will submit to being prohibited from making exclusive contracts with agents in this state."

ITALIAN RELIEF FUNDS TOTAL MORE THAN \$3,640,000.

Washington, Feb. 4.—The funds raised by relief organizations for the earthquake victims in Italy have reached \$3,641,000, this sum representing the contributions which have poured in from all quarters through the leading organizations. This information is based upon a message from Ambassador Griscom, at Rome, to Major General Davis, chairman of the central committee of the American Red Cross. The relief fund is divided as follows: Italian government committee, \$2,090,000; Italian Red Cross, \$880,000; American National Red Cross, \$841,000.

ODD FELLOWS' TEMPLE IS PLUNDERED BY THIEVES.

Chatham, Ont., Feb. 4.—The Odd Fellows' temple here was robbed of costly jewels and ornaments last night. What has caused the most consternation, however, was the discovery that copies of the secret work of the order were taken by the thieves.

RAILROAD PRESIDENT LOWREY IS DEAD AT MINNEAPOLIS.

Minneapolis, Feb. 4.—Thomas Lowrey, president of the Twin City Rapid Transit company and head of the Soo Line, died here today, after a lingering illness.

DULL SEASON ON THE LAKES.

Washington, Feb. 4.—The domestic shipments from the various Great Lakes ports were 25 per cent less in 1908 than during the previous season, and about 20 per cent less than during the season of 1906. The decrease was due mainly to the smaller shipments of iron ore.

WEATHER FORECAST

Washington, Feb. 4.—The following is the weather bureau's forecast for Upper Michigan: Snow Friday and probably Saturday; fairly mild temperature.

THREE SHIPS ABOUT TO SAIL.

Much War Material and Supplies Going to the Pacific Possessions.

San Francisco, Feb. 4.—The close of the present week will see an unusual amount of war material and supplies shipped to the Philippines and the Hawaiian Islands. Tomorrow the bark Mohican will clear for Honolulu with two great disappearing guns destined to form part of the defense of Pearl Harbor. Saturday the Pacific Mail liner Asia sails for Manila with 2,000 tons of army and navy stores, for the Philippine Islands. In this shipment are 200 submarine mines, which are to be placed beneath the waters of Subig bay, at the entrance to Manila harbor, and 2,500 cases of small arms ammunition. The army transport Sheridan also sails for Manila tomorrow, laden with 3,000 tons of general supplies for troops in the islands.

CAPTAIN OF THE GEORGIA IS REPORTED FOUND GUILTY.

Gibraltar, Feb. 4.—It is unofficially understood that the court-martial which tried Captain Quailrough, of the battleship Georgia, for intoxication found the specification against the officer proved, but whether with extenuating circumstances is not known, although this probably is the case. Nevertheless, it is believed that Captain Quailrough will not be restored to duty, but that Lieutenant Commander Kline will take the Georgia home.

PROPOSITION BROACHED TO REVIVE THE WAR TAX

With Big Deficit and the Demand for Tariff Revision Downward, Congress Must Do Something to Raise Money.

Washington, Feb. 4.—Two members of the House of Representatives, E. D. Crumpacker of Indiana and Joseph H. Gaines of West Virginia, are practically dominating the consideration of the Payne tariff bill by the Republican members of the ways and means committee. The fact that such domination is possible is stated by an inside source to be that the remaining Republicans on the committee are equally divided between standstillers and those who desire a revision downward, while Messrs. Crumpacker and Gaines, refusing to commit themselves to either one side or the other, are voting on each schedule as it comes up according to the merits of the evidence presented, as they interpret it. The balance of the committee is now undecided to be voting almost solidly as follows:

Standstillers—Dalzell, Pennsylvania; Boynton, Colorado; Neelham, California; Forney, Michigan; Calderhead, Kansas. For revision downward—Payne, New York; McCall, Massachusetts; Hill, Connecticut; Boutell, Illinois; Longworth, Ohio.

Special attention has been called to the fact that although the chief cry for tariff revision in the past has come from the West, three of the standstillers come from west of the Mississippi river and two from west of Pennsylvania and one from Michigan, while of the revisionists all except Boutell of Illinois and Longworth of Ohio came from New York and New England.

Increased Beer Tax Suggested. Realizing that the only logical outcome of the present business depression would be consequent falling off of revenue and a contemplated revision downward must be a revision of the system of taxation to meet the deficit in revenues the ways and means committee is now considering a return to some of the Spanish-American war taxes.

In this connection it is learned that the committee seriously considers proposing an increase in the internal revenue tax on beer, a commodity that now yields \$1 a barrel, approximately \$55,000 a year. The brewers already have interposed strenuous objection.

There is good reason to believe that the committee will report in favor of re-enacting some of the provisions of the Spanish war revenue act. Among the suggestions made in this connection is that a stamp tax should be imposed on commercial paper and on proprietary medicines.

THIS GUARANTY PLAN ORIGINAL

New Features in Bill Introduced in the Washington Legislature.

Olympia, Wash., Feb. 4.—A bank deposit guaranty bill original in many particulars has been introduced in the senate. It provides for an annual guaranteed tax based on average daily deposits of one-half of 1 per cent the first year, one-fourth of 1 per cent the second year, and one-eighth of 1 per cent thereafter. Only one-tenth of the tax is payable in cash and the balance in non-interest-bearing certificates of deposit to the amount of \$1,000,000. Thereafter the tax must be paid in cash.

Provision for investment by the state treasurer of all money in the fund in excess of \$1,000,000 in bonds, interest payments on which shall go to banks. Only non-interest-bearing deposits are guaranteed in full. Two per cent deposits are guaranteed to 90 per cent; 3 per cent deposits to 80 per cent, and 4 per cent deposits to 70 per cent. Provisions for the use of the funds are similar to those in the Oklahoma law. National banks are permitted to participate in the guaranty provision.

REFUSE TO QUIT THE "FRATS"

Thirty-One Students Suspended from the Council Bluffs High School.

Council Bluffs, Ia., Feb. 4.—Seventeen boys and fourteen girls of fraternity societies were suspended from the high school today. They refused to sign affidavits resigning their membership. This is the culmination of the incident to Tom Harvey, who was seriously injured in an initiation into a "frat" Dec. 26.

VEWS OF BRYAN ARE OPTIMISTIC

Speaking to a Big Crowd at Tampa, Fla., He Gives to the Southern Democrats a Message of Good Cheer.

He Finds an Increasing Sentiment That Makes for the Growth of the Party and He Declares the Prospects Brighter Than Ever for Victory in 1912—He Condemns "the Aristocracy's Usurpation of Power" and Says a Change Is Surely Coming.

Tampa, Fla., Feb. 4.—Speaking to an immense throng of people from the grandstand at the race track this afternoon, W. J. Bryan said he brought a message of good cheer to the people, using an increasing sentiment that makes for the growth of the Democratic party in the United States. He commented upon the world-wide spread of democracy as one of the signs of the times, when the masses would demand their rights of the aristocratic class which now usurps every effort to hold its own against such growth.

Mr. Bryan commented upon the usurpation of power by the "aristocratic party" of the present administration, the heads of which he now mentioned as being to himself all the authority of a czar in the manipulation of his high office. But a change is surely if slowly coming, he declared, and that the prospects were brighter than ever for a Democratic victory in 1912.

RED HATS IN STORE FOR TWO.

Both Archbishops Ireland and Farley May Be Raised to the Purple.

Rome, Feb. 4.—The Tribune, commenting today on two American possibilities for cardinal, says: "There are two prelates who might be raised to the purple—Archbishop Ireland of St. Paul and Archbishop Farley of New York. Archbishop Ireland has constructed churches and cathedrals and has devoted himself to preparing others. His receiving of the red hat hitherto has been in doubt, because of certain preconceptions at Rome concerning some of his writings. Farley, however, these were found to be orthodox, though not in the highest sense, his acts being strictly in accordance with the policy of the present cardinalate. Therefore, he must not now be excluded from the possibility of being created a cardinal, as at one time."

Ambassador Gives Dinner in His Honor.

Ambassador Griscom gave a dinner this evening in honor of Archbishop Ireland of St. Paul, at which most of the prominent members of the American colony and several English prelates residing here were present. In giving a toast to the archbishop, the American ambassador greeted him as the best exponent of American Catholicism. Archbishop Ireland, responding, made a patriotic speech, pointing out the vast progress the United States had made during the brief period of its existence and the influence it exercises throughout the world.

MINE WORKERS WANT PEACE.

Dispute Between Lewis and Walker Is Thrown Out of the Convention.

Indianapolis, Feb. 4.—When the tellers today announced the result of yesterday's vote by the United Mine Workers for the election of vice president and secretary-treasurer, it was found that no choice had been made. Another ballot was ordered. The dispute between President Lewis and John H. Walker, of the Illinois district, was thrown out of the convention this morning. President White, of the Iowa district, made a motion to forbid all future discussion of the charges and counter-charges, "to throw them all out of the window, and clamp down the lid on the convention." The motion was adopted with applause.

Nevertheless, the Turmoil Continues.

Indianapolis, Feb. 4.—All efforts of the observance element in the convention of the United Mine Workers to forward the business of the assembly by excluding from its proceedings the controversy of personal nature between the factional leaders seem futile. Early in today's session, a resolution was adopted that all speakers on resolutions or motions must confine themselves strictly to the subject in hand, but nevertheless the day was one of turmoil and bickering.

Administration Is Rebuked.

The convention adopted a resolution to the effect that the national executive board had exceeded its authority in suspending the officers of the Indiana district for having disobeyed the order that the miners should return to work in the Hudson mine pending the adjustment of the strike there. This was essentially a reversal of the convention's action of a few days ago, in approving the course President Lewis and the executive board.

EMBEZZLED LARGE SUMS.

Three Officials of the Kiel Navy Yard Are Sentenced to Prison.

Kiel, Feb. 4.—Three officials of the imperial navy yard were sentenced tonight to terms of three years, twenty months and six weeks' imprisonment, respectively, having been convicted of the embezzlement of several hundred thousand dollars. Their pecuniations extended over many years.

VENEZUELAN CABINET TAKES FIRM STAND

Declines to Accept the Proffered Basis for Arbitration, and Until Washington Makes Concessions Negotiations Are Off.

Caracas, Saturday, Jan. 23, via San Juan, Feb. 4.—It was learned in Caracas today that the protocol drawn up by W. J. Buchanan, the American special commissioner sent here to effect the settlement of the outstanding disputes between the United States and Venezuela, and Gonzales Guzman, the Venezuelan foreign minister, has been found unsatisfactory to Venezuela and will not be signed in its present form.

The hitch has occurred over the case of the New York & Bermudez Asphalt company, for the arrangement reached with regard to the arbitration of the other claims apparently is acceptable to Venezuela. The protocol provides only for the arbitration of the asphalt company's claim against Venezuela and disregards completely Venezuela's claim against the asphalt company. The latter claim is based on the judgments obtained against the company in the courts of Venezuela for several million dollars, on the grounds that the company had not fulfilled the terms of the Hamilton concession and that it took an active part in the Matos revolution.

President Gomez and his cabinet declined to accept such complete disregard of the judgments of the national courts, unless the state department at Washington agrees to what Venezuela believes would be a fair basis for arbitration, it is not thought here that the negotiations will result successfully.

GRACIOUS WELCOME GIVEN AMBASSADOR

Friendship Between Germany and America the Keynote of the Speeches at a New York Banquet in Bernstorff's Honor.

New York, Feb. 4.—German Ambassador Bernstorff received a gracious welcome at the hands of a large and distinguished gathering tonight at the Manhattan club, where the New York Staats Zeitung tendered him a dinner. Herman Ridder presided at the speakers' table, with Count Bernstorff at his right and Joseph H. Choate, former ambassador to Great Britain, at the left.

As a prelude to the opening of the festivities a cable was sent to Emperor William, containing greetings to his majesty and emphasizing the enduring friendship that exists between Germany and the United States. The keynote of the speeches, as of the telegram, was the friendship between the two countries and the good work that is going on in furtherance of this feeling of amity.

Mr. Ridder presented Count Bernstorff to the gathering, and the ambassador rose to the accompaniment of a storm of applause and "huzzas." The other speakers were Mr. Choate and Nicholas Murray Butler. Earlier in the day, in an informal reception at the Chamber of Commerce, Count Bernstorff had been made welcome by the representatives of the business interests and delivered an address on the business relations of the two countries.

OPERATIONS ARE TRIVIAL.

Trading in Stocks Restricted to a Comparatively Narrow Range.

New York, Feb. 4.—The professional limitations of the current stock market are restricting the operations to a comparatively narrow range. The difficulty of carrying an advance further was manifest before the operations were concluded yesterday, and a reaction, natural under the circumstances, followed today. These trivial fluctuations do not represent any significant change of opinions on values from day to day. The offering down of prices by bear operators does not appear to dislodge any considerable amount of limitation, and the bears find themselves obliged to buy in stocks to cover. The bidding up of prices, on the other hand, attracts no notable following.

The condition underlying the stock market are clearly one of neglect and of waiting for clearer light to be situated. All loans did not fall below 2 per cent today, and the maximum rose to 3, which makes the record for the new year. The renewed call of the secretary of the treasury upon the depository banks for the return of the other \$30,000,000 of government funds by Feb. 28 offered the ostensible reason for the lessened inclination of lenders to accept the bids recently prevailing for loans. There was some increase of demand on the part of the borrowers as well.

The suspicion and distrust which yesterday's allegations of improvements in the copper trade were received resulted in a decline in the copper industrial. The price of the metal was reduced again today. The uncheerful view of the iron and steel trade confirmed the feeling of dissatisfaction with the metal trade conditions and affected sentiment towards values in general, although with no special affect on the steel industrial.

Opinions on the tariff revision prospects which seem to have authority are canvassed with great attention in the financial district, showing the importance attached to the subject. There was a report in circulation today of probable new alignment in the ways and means committee of the house which seemed to promise freer action in the revision program and which emphasized the wish to curtail market operations pending the settlement of this program.

RAD FLOODS IN GERMANY; A NUMBER OF LIVES LOST.

Berlin, Feb. 4.—Despatches from Eisenach, Coburg, Dresden and Leipzig report terrible floods and a number of fatalities. At Chemnitz, several lives were lost. At Bonn, seven hundred sheep were drowned by the overflowing of the river. At Holzminnen, a railroad bridge was swept away. At Helligenstein, the sawery, electrical works have been stopped by the floods; roadways have been torn up, and the railway service ceased.

SAVS CUBANS WILL HAVE ERA OF PEACE

President of the Isle of Pines Association Is Highly Pleased With the Prospects Under the New Administration.

People Are Satisfied That the American Government Intervened Only from Disinterested Motives, and When They Are in Position to Be Admitted as a State They Will, He Asserts, Welcome Annexation to the Greater Republic.

Philadelphia, Feb. 4.—T. J. Keenan, of Pittsburg, president of the American Association of the Isle of Pines, who has just returned from Havana, expressed himself in an interview here tonight as being highly pleased with the future prospects of Cuba under the new administration. He stated that President Gomez had assured him that his prime consideration would be to protect the property of the republic, and he is satisfied the new president is the type of man needed to control the Cuban population.

Mr. Keenan left a sickbed to fight the confirmation by the senate of the treaty which had for its purpose the giving of the Isle of Pines to Cuba. This treaty has never been confirmed, and the ownership of the island is still in abeyance. While he still believes that the United States should retain ownership of the island, Mr. Keenan is well satisfied with the administration of the island's affairs by the Cubans.

Future revolutions in Cuba, according to Mr. Keenan, will be very difficult, if not impossible, to accomplish because of the building of magnificent military roads to all parts of the island. Although he at first doubted the expediency of the recent evacuation of Cuba by the United States, Mr. Keenan says he now believes it will bring the two countries closer together than ever. The Cubans are satisfied that the Americans were acting only from disinterested motives, and when they are in position to be admitted as a state will welcome annexation to this country. This will not occur, however, during the present administration and probably not for several administrations.

ABE ATTELL DEFEATS KELLY.

Has Little Difficulty in Regaining Title in Bout at New Orleans.

New Orleans, Feb. 4.—Abe Attell, of California, found no difficulty in retaining the featherweight championship when he met Eddie Kelly of New York, in a scheduled ten-round bout here tonight. At the start Kelly assumed the aggressive, but was unable to administer any effective punishment to Attell. The honors were fairly well divided until the sixth round, when Attell made his attack more vigorous and landed a number of lefts to both face and body, giving Kelly the worst of it. In this seventh round, when it was apparent that Kinney had been clearly bested in their scheduled twenty-round glove contest.

Hot Springs, Ark., Feb. 4.—Phil Knight, of Leavenworth, Kas., was awarded the decision over Eddy Kinney, of Chicago, tonight, after the fourth round, when it was apparent that Kinney had been clearly bested in their scheduled twenty-round glove contest.

Akron, O., Feb. 4.—Johnny Kilbane, of Cleveland, and Johnny Witaker, of Akron, featherweights, boxed twelve rounds here tonight. After this decision, but Kilbane out-pointed his opponent all the way.

TRAGEDY SENSATIONAL.

Eastern Man Kills Woman, Wounds Children and Ends Own Life.

New York, Feb. 4.—A sensational tragedy occurred tonight in the village of Farmingdale, Long Island, when Frederick Buckholt shot and killed Mrs. Elizabeth Rust, wounded her two children as they stood clinging to her skirts, and then hanged himself in the attic of his home. The tragedy followed a quarrel over Buckholt's demand for increased pay for boarding the children.

NEGRO TERRORIZES MEMPHIS; THEN IS KILLED IN BATTLE.

Memphis Tenn., Feb. 4.—Following a daring hold-up on a busy thoroughfare today, Henry Morton, a negro, armed with a revolver and with his pockets filled with ammunition, ran amok, firing repeatedly into street cars and houses, and at pedestrians, terrorizing a section of north Memphis. A riot call brought a squad of police, who were joined by several scores of citizens, and Morton was corralled on a porch. At bay, the negro continued to fire on his pursuers, but the bullets went wild and a volley from the pursuers put an end to the battle by killing Morton.

DOUBLE FORCE OF POLICE PATROLLING HERRON HILL.

Pittsburg, Feb. 4.—The situation in the Herron Hill district, where over 130 negroes have been arrested during the past couple of days, following attacks on young white girls in that section of the city, is quiet tonight, but a double force of police and plain clothesmen is still on duty. Judge John D. Shafer today sentenced William Martin, a negro, to five years in the penitentiary, the limit of the law, on the charge of assault and battery with intent to commit a more serious crime on Mrs. Mary Shafer, several weeks ago.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Subscription Rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., FEB. 5.

It must be wholly disgusting to a man of Uncle Ike Stephenson's years not to be able to get prompt delivery after paying the price without a murmur.

The legislators, of course, would hate to disappoint anyone, and they can be depended on to do the best they can by the various institutions as long as the money lasts.

President Roosevelt's veto of the census bill will, we suppose, be regarded as one more gun in the warfare between congress and the executive. It is observed that the president is not a bit backward about mixing.

Senator Stephenson has been losing votes in the Wisconsin legislature this week. However, if the senator can get a whitewashing report from the investigating committee all will yet probably be well with him.

It is intimated by the Soo News that President Roosevelt has been persuaded that the Lorimer bill, dealing with the water power situation at the Soo, is not a proper bill, and that if it became necessary to go that far to prevent it from becoming a law he would veto it.

The junketing legislators profess themselves as being greatly pleased with their visit to and entertainment in the upper peninsula. They have enjoyed the warm hospitality of their hosts and the experience of visiting unfamiliar scenes, institutions with which they were not previously acquainted and the inspection of industries new to them.

The junketing legislators profess themselves as being greatly pleased with their visit to and entertainment in the upper peninsula. They have enjoyed the warm hospitality of their hosts and the experience of visiting unfamiliar scenes, institutions with which they were not previously acquainted and the inspection of industries new to them.

Governor Haskell, of Oklahoma, one time treasurer of the Democratic national committee, and who was put out of business in that capacity by the inept onslaughts of President Roosevelt, is figuring in the display heads again.

The apparently authentic report that the resignation of President James B. Angell of the University of Michigan is imminent has been noted with much interest. A few days ago a story was printed to the effect that President Wheeler, of the University of California, had declined an offer of the presidency of Michigan.

THE MOUNTING DEFICIT. During January the government's expenditures exceeded its receipts by \$15,543,000, making the deficit for the seven months of the fiscal year \$78,814,000.

THE MOUNTING DEFICIT. During January the government's expenditures exceeded its receipts by \$15,543,000, making the deficit for the seven months of the fiscal year \$78,814,000.

now stated that the office of chancellor of the university will be created and that President Angell will, on his retirement from his present office, be its first incumbent.

In the connection we have no doubt that one thing may be taken for granted, namely, that President Angell's retirement, if it comes to pass, will result from his personal desire to be relieved of the duties and responsibilities of his office, so as to be able to spend the last years of his life in at least comparative retirement.

And who will be his successor? There's an interesting question, and one fraught with importance to the state.

Auditor General Fuller has challenged the figures on the comparative cost per capita in the three prisons of the state, first published by the Detroit Free Press, as false and misleading.

The fault with them was commented on in The Mining Journal yesterday. They lump extraordinary expenditures and the costs of permanent improvements with the cost of maintenance, whereas a comparison, to be fair, must be based on the latter cost alone.

On this basis for the five year period ending 1905 it is said that the per capita costs run as follows: Marquette, \$125; Jackson, \$84 and Ionia \$45.

Whether or not these figures are entirely correct, they are much nearer correct than those first given. Other things being equal, the Jackson prison should show the lowest costs, because it has the largest number of convicts, and the Marquette prison should show much the highest costs, because it has considerably the smallest number.

Other things are not equal, however, and it would require a painstaking analysis and a careful consideration of the various problems involved to permit of a fair opinion being passed on the comparative degree of economy with which the institutions are being run.

And even then it would not follow that the closest managed prison was the best prison, or the one most fruitful in good results for the state. Prison work cannot be wholly judged in terms of dollars and cents.

The matter here referred to has timely interest for the reason that the figures published by the Free Press are plainly designed to convey the impression that the Jackson prison has been extravagantly run, particularly under Warden Armstrong, whereas there is nothing in the figures themselves warranting such a conclusion.

The matter is one in which Mr. Armstrong is entitled to fair treatment, at least. He should not be baited unjustly because he is under fire on a serious charge.

Representative Ogg, at the Marquette prison Wednesday, spoke forcibly in favor of a law abolishing the contract system in the state prisons. He would have the state manufacture such articles as can be produced with good results by convict labor and credit the institutions with the profits accruing.

He expressed the belief that under such a system it would be possible to make the prisons self-supporting. Given good management and a free market, there should be no difficulty about accomplishing this.

It is well known that the well-managed prison contracts have been making fortunes for their possessors. Fred Green, Warden Armstrong's accuser, and his associates are understood to have made a mint of money at the Ionia prison. There is no reason why they should not do so, for the going price for the men employed on the contracts hardly averages fifty cents a day, and the contractor is furnished with suitable quarters for carrying on his work, with heat and power, and other service that outside prison walls he would have to pay for.

On certain kinds of work convict labor is susceptible of development to a high degree of efficiency, and is, in fact, more efficient than free labor, because of the fact that it is amenable to a strict discipline. With advantages such as these, it is certain that the only thing that can stand in the way of making big money on a prison contract is crass bad management.

There is no particularly good reason why the snap of prison labor should be given to a dozen or more fortunate firms in the state. There is logic and economy to be urged on behalf of a bill providing for the employment by the state of the convicts on general productive work. This, it should be remembered, is not the same thing as the "state use" system. This latter system, it may be remarked, would, if experience in other states is any criterion, make the expense of supporting the penitentiaries even greater than it is now.

be more and more of a drain, and will use up the \$45,000,000 of Panama bonds that remain to be issued.

This situation leads the City Bank's circular writer to say that sentiment in congressional circles at Washington favors a return to some, if not all, of the Spanish war revenue schedules, with a readjustment of customs revenues, calculated to produce greater revenues, and that there is also considerable talk of a duty on tea and coffee.

In 1894, when a downward revision of the tariff was attempted, the revisionists were embarrassed by the fact that they had to provide for an existing and prospective deficit. History is to repeat itself, and in the revision this spring attention cannot be solely concentrated on correcting tariff irregularities and excesses.

If one eye is directed toward these other matters be steadily turned toward revenue requirements. Thus the state of the treasury should do much toward quieting the fears of the overtimid, who have pretended to fear that the new tariff revision would be drastic and would disturb business.

As to bringing back the Spanish war taxes, it may be predicted that congressmen, as they desire reelection, and the managers of the dominant party, as they would avoid giving campaign material to their opponents, will be very cautious. Tea was taxed 10 cents a pound in 1898, but coffee was not taxed. Powerful will be the demand for leaving the breakfast table alone if it is seriously proposed to impose on it a greater burden than it bore during war days.

Another large resource of 1898 no longer seems available—namely, the tax on stock exchange transfers. The state of New York, as to the principal market, now occupies the field, and even though it be legal to have a federal tax as well as a state tax, a strong case can be made out against the unfairness of a double imposition. Nor is it likely that the public will look with favor on restoring the stamp taxes of 1898, when it cost two cents to write a check, a cent to send a telegram, with similar levies on deeds, notes, contracts, and the various paper instruments of commerce.

Nor will occupation taxes be shouted for—\$50 a year to be banker or broker, \$100 a year to run a place of amusement, and so on. The other Spanish war levies were on beer, tobacco, and legacies. There will be a strong party that will ask if the readjustment of the tariff does not promise enough revenue to throttle the deficit, that the burden be thrown on beer and tobacco, coupled with some kind of federal inheritance tax such as which President Roosevelt has advised and to which President-elect Taft is committed. It is as plain as a pikestaff that new revenue from some source must be provided, for unless the military and naval establishments are reduced it is difficult to see how it is possible to make material reduction in the government expenditures.

DON'TS FOR SCHOOLGIRLS. Don't giggle. A merry heart may be a good medicine, but the chronic giggler is like unto the patent nostrum. She should be legitimized against.

Don't gush. Gush in moderation is necessary to youth, but an overdose is nauseous and calls for sharp remedies. Don't be noisy. It is not the bass horn or resounding drum that leads the band, but the silent baton.

Don't be "smartly." Real wit is to "smartness," as a five-pound box of marmosets to an "all-day sucker."

Don't be a tell-tale. The girl who "peaches" on her mates is like unto that foolish one who seated himself between two stools. Friends will hate her and teachers despise her.

Don't be a sneak. The following bill is not half so fearsome a foe as the insidious snake which glides on you unawares; the one you run away from; the other you hide your time and kill.

Don't be boy-crazy. The girl who runs after the boys has as much chance of catching them as the cat who chases her tail.

Don't be a fibber. The schoolgirl who doesn't deal in fact is as foolish as the "wolf" who cries she will not be believed when belief is vital to her.

Don't be a sloven. The girl who has dirty hands and missing buttons will find a reputation for slovenliness trail her through life though she becomes an old maid for timidity.

Don't be fresh. The egg that is fresh may bring a high price; the girl with similar qualities finds few bidders for her society.

Don't be quarrelsome. The girl who is always hunting trouble is as desirable a companion as a chestnut burr inside a shoe. A sweet heart does not make up for the bad days of a prickly shell.

When you buy your first cake of Galvanic Soap, price 5c, hand the coupon to the grocer and get a full-sized cake of Palmolive Soap FREE—a delightful toilet and bath soap for your personal use—a soap never sold for less than 10c.

I buy Palmolive for you—to thank you for trying Galvanic Soap. I'm making that first cake of Galvanic worth while regardless of its own value simply to urge you to try Galvanic Soap.

For I know that first cake will prove to you that Galvanic is better by far than the merely good soap you use now in the laundry and kitchen.

You can't know what you are missing until you have tried this soap.

300,000 Housewives Know I figure that 300,000 women prefer my soap to all others—women who know merely good soap. They use my soap, because it makes the clothes cleaner and whiter than yellow soap—because it saves boiling and rubbing—and because it goes twice as far.

You're missing all this in the merely good soap, because it lacks coconut oil. I go 10,349 miles—to Ceylon—for this oil. Others won't use it because it's expensive, yet it's immensely effective.

But nothing is too good for those 300,000 who use Galvanic Soap. It's Honest Soap. I've 36 years' reputation, knowledge and experience back of this soap—so you know it can't harm the clothes. Buy your first cake, price 5c, today—and try it. Get the free Palmolive, too. Let the Galvanic results decide if you'll go back to the old soap. That's all I ask. Don't pay 5c for a merely good laundry soap—soap not one-half so effective. Learn what you save and gain—using Galvanic Soap. Cut out the coupon—now—while it's before you. CALIE E. JOHNSON, Pres't.

Please Note! If any one of your family has already redeemed one of these coupons you cannot redeem this one. This offer is made to your family but once, and to but one member. The coupon must be given to the recipient, giving his address, so we may keep proper record.

B. J. Johnson Soap Co. 400 Fowler St., Milwaukee, Wis. This certificate that my grocer has delivered to me FREE one cake of Palmolive Soap on my first purchase of a 5c cake of Galvanic Soap. Also that I never before have received this offer.

NAME STREET

Redeemable, under the conditions named, at any grocery store wherever this paper circulates. TO THE GROCER: Each family is entitled to redeem one of these coupons and receive one cake of Palmolive free when presenting this coupon properly filled out and cashing the same. I will return the coupon in each at the price agreed and on the conditions named when properly filled out and cashed. CALIE E. JOHNSON

Upper Peninsula Attorney Accuses Soloon Keeper—On complaint of Attorney George Gallup, John E. Johnson was arraigned before Judge Tom Lester at Escanaba charged with keeping his saloon open on Christmas Day. He asked for a continuance until his attorney had returned to the city and the date for the hearing of the case was postponed.

Saloons Get Stiff Fine—Saloon Keeper LeGault of Powers, one of Sheriff Edlitt's force of deputies, was found guilty in circuit court at Menominee this week of violating the liquor laws and was fined fifty dollars and costs by Judge Stone. LeGault was roundly scolded by the court, and was told that as this was his second offense, the next time he should bring his clothes with him, as it would mean a prison sentence.

Fire Destroys Nahma Hotel—Fire destroyed the Bay de Nocquet Lumber company's hotel at Nahma, Delta county, this week, causing a loss which is estimated at \$3,000. The blaze was started, it is believed, by working men who were engaged in thawing water pipes in the building with torches. A spark leapt by one of the torches finally developing a flame which could not be controlled. The hotel had been in use for several years and will be replaced by a more modern structure.

Small Boys Capture a Deer—Willie and Joe Susado, eight and ten years of age, respectively, who lived at Dead Man's point, on Green Bay, just below Cedar River, Menominee county, are the proud possessors of a deer, which they captured unassisted. The boys are sons of a fisherman and both expect to be school sailors. While enjoying a cruise in their little yacht, they came upon the deer on the ice. The doe had evidently been chased by dogs and had run in blind fear until she dropped exhausted. When the boys came upon her she was lying on her side and the little red deer, determined, if possible, to save her. After many attempts, they succeeded in getting the deer on the trail craft and were soon skinning over the ice towards their home. On reaching the shore of a break down and my wife, he left Escanaba yesterday and will go direct to Pittsburg, Pa., where they will remain with relatives until Mr. Sutherland has recovered his health. For some time intimate friends of Mr. Sutherland have known that he was on the verge of a break down and many who saw symptoms of the approaching collapse attempted to induce him to take a short rest. For some time the sight of one eye had been seriously affected and ten days ago the sight of the remaining eye began to fail. Mr. Sutherland hurried to Chicago where specialists were consulted and the ultimatum was given that he must immediately give up active business and retire temporarily. The retirement of Mr. Sutherland from the management of the State Savings bank will be seriously felt by that institution, for it has been under Mr. Sutherland's direction that that bank has reached the most prosperous period of its career. His friends are numbered by the score and the misfortune that has come to him at this time is the cause of general regret throughout the city.

Soo Fire Loss Is \$2,000—The fire that destroyed the building and fixtures of the Union Depot hotel on West Portage avenue was the most destructive blaze the Soo has had since the Blumensack fire last summer. The total loss is estimated at about \$20,000. The fire broke out in an unknown manner about 3 o'clock. The fire department made a quick run to the scene but upon arrival the entire rear portion of the building was a roaring furnace. The building was a frame structure and burned like tinder. When it became evident that it was impossible to save anything from the building, Chief Campbell directed his men to watch the Muslak building, located on the east side, which was separated by a narrow passageway. Had this building not been controlled, the flames from moving down Portage avenue to the Great Lakes laundry building. However, hose was placed in the second floor of the Muslak block and on the roof from this position the flames were kept out of him by men below. The fire department had stopped the flames from moving down Portage avenue, but twenty-five feet and sustained a fracture of the right arm. He was standing on the roof of the Muslak building reaching for a hose line which was held out to him by men below. The nozzle had no shutoff and when it suddenly slipped from the grasp of the men the full force of the water was turned on O'Hivway. It threw him back off the building. He turned two somersaults in the air, but fortunately landed on his feet on a pile of lumber, which, although it gave away, broke his fall to the ground.

Gets Long Term in Prison—Claiming that his victim was shot by two Russian spies who had pursued him to this country, Herman Stein, charged with shooting and robbing Joseph Guitowski, near Stephenson last October, was found guilty in the Menominee circuit court and was sentenced to Marquette prison for an indeterminate term of from seven to fifteen years. The jury was out only a few minutes. Stein was a Greek employed in the Crawford camp near Cedar River. With Guitowski, he started out to work on a pile of lumber, which, although it gave away, broke his fall to the ground.

Menominee People Disappointed—Menominee boys and girls who desire to visit the park at Poplar Point, given and dedicated to them by John Hoopes, will again have to make the trip by foot, judging the automobiles and carriages of their more fortunate neighbors, for another year, as the street cars will not be run to the resort this year and it may be fully a year and one-half more, according to the statement of Mayor Augustus Spies, before the car tracks are extended. In the meantime the nine or ten thousand dollars of the city's money spent in the park can be appropriated only by the few people able to reach the pleasure spot in automobiles and other vehicles. The announcement came like a thunder storm over an otherwise quiet session of the Menominee council. The engineer had been instructed to prepare his specification and plans for the new pavement on the street, but stated that he would not be able to do so until he knew just where the car tracks would be run. As a matter of information, Mayor Spies informed the engineer that he need not make arrangements for the car tracks at all as the company would not be able to build its tracks for another year and would undoubtedly take another route so as to avoid the heavily traveled pavement.

Albermar Novack said: "Mr. Mayor, I would like to know why it is that any time the people of Menominee want to have the Traction company they have to get down on their knees for it. The people expected to have the line run to the park this year and they will be greatly disappointed." Mayor Spies explained that it would be impossible for the Traction company to extend its lines until it had the power from the Grand Rapids dam as all the power now generated is used in the two cities. The announcement was not received with favor by the aldermen.

Muslin is being manufactured from the fiber of the banana tree. PILLS CURED IN 6 TO 14 DAYS. PAZO OINTMENT is guaranteed to cure any case of itching, blind, bleeding or protruding piles in 6 to 14 days, or money refunded. 50c.

Wants Police Force Cut Down—Alderman Jeremiah Moher offered a resolution calling for a reduction of the police force at this week's meeting of the common council of the Soo. It was

rejection that that bank has reached the most prosperous period of its career. His friends are numbered by the score and the misfortune that has come to him at this time is the cause of general regret throughout the city.

BAND OF YOUNG ROBBERS.

School Boys of Hancock Had Perfect Organization for Theft.

Investigations conducted by the Hancock police in connection with the arrest of a dozen school boys seem to indicate that the youths that are involved in the trouble were organized in a band, the single purpose of which was to commit robbery. The police believe that all of the burglaries that have occurred in Hancock within the past one or two months were committed by these boys, and it is stated that a number of confessions have been obtained.

The arrests were made upon the complaint of Mrs. O'Shea, who informed the police that while she was away on a visit her home was looted of goods of a value of about \$200. When the arrests were made the manner in which the Scott Hotel buffet was robbed and the details of the attempt to rob the Gartner store were learned. The buffet job was an easy one, and was profitable. Entrance to the place was gained through the transom over the front entrance.

When the attempt was made to enter the Gartner store the three boys said to be involved conducted the work in a manner that would have done credit to experienced cracksmen. One boy entered the basement beneath the store, and while he worked there another was stationed in the alleyway outside while the third stood on the lighted street corner a half block away. By signals interchanged by the two watchers the one working inside was kept informed of the condition of affairs on the street. Though they were not able to enter the Gartner store the effort made to get into it extended over a period of two hours and a half.

The boys are for the most part minor sixteen. Their cases were called yesterday in Judge Oliver's court and were continued for two weeks.

IN THE CIRCUIT COURT.

Trial of the Gallagher Case Closes—Nystri Trial Now On.

The arguments of the attorneys in the Gallagher case were completed in circuit court yesterday morning, and a lengthy verbal charge as well as written instructions were given to the jury by Judge Streeter. The jury retired a few minutes before 12 o'clock and court then adjourned until 2 o'clock. Subsequently the jury reported, holding Gallagher not guilty of the charge of assault with intent to kill, and acquitting him.

The trial of Edward Nystri, also charged with assault with intent to kill, was begun in the afternoon. A large portion of the session was devoted to obtaining a jury, and after this was done a part of the testimony of the prosecution was offered. The case will be resumed at 9 o'clock this morning and may occupy the court for the rest of the day.

The next case to be tried will be that of Bertha Mosby, a Calumet negress, who figured in a cutting scrape some weeks ago and who is charged with assault with intent to kill.

INSPECTOR BECKER ARRIVES.

Making Preparations for Naturalization Hearings to Begin Monday.

Inspector Fred Becker, an officer of the government naturalization bureau, arrived in Houghton yesterday and worked through the day in the county clerk's office, making preparations for the naturalization hearings that are to be conducted at this time in the circuit court. There are 104 cases scheduled to come up, and the amount of work that the government inspector is called upon to do in connection with these may be inferred when it is stated that he must be well familiar with the circumstances of each applicant and must be intimate with the affairs and record of each applicant, as well as the witnesses of each applicant. Two days will be devoted to the hearing of naturalization cases next Monday and a week from Monday.

TO PLAY IN NEGAUNEE.

According to arrangements that have been completed the Hibernian indoor baseball team of the Hancock league is to go to Negaunee and will play with a Negaunee team there Monday night. It is understood that a low party rate will be arranged with the South Shore and the team will be accompanied by a large number of rooters. Following this game the Negaunee team will come to the copper country for a return game some time in March.

CLUB MEETING TODAY.

The topic that will be discussed at today's meeting of the Calumet Women's club at the Y. M. C. A. will be "History." The program is as follows: Riggs, Education; Mrs. Hannah G. Riggs; Family Life among the Romans; Miss Jean Milligan; special topics, Mrs. Nellie H. O'Brien; music, Mrs. Lillian W. Ruppel.

CARS ON THE FIRST BOAT.

Four new motor cars ordered by the T. S. City Motor company and to be used in and about Houghton and Hancock next summer will be brought to the copper country from Detroit on the first freighter that sails from that port next season. Each of the four cars has seats for sixteen passengers.

COPPERDOM BREVITIES.

A son has been born to Mr. and Mrs. Peter Mangum of Tamarack. Neil Clancy of Calumet, who has been visiting in Detroit, has returned home. E. C. Jordan of Boston, Mass., is visiting in the Calumet district, on business. W. E. Woodhouse of Houghton went to Chicago this week, on a business mission.

The Houghton and Mohawk teams of the hockey league will play at the Amphitheatre tonight.

E. C. Wetherall of Centennial has gone to Morrisstown, N. J., for an extended visit with relatives.

Miss Sarah Quinn and Miss E. H. Wilkinson of Houghton have gone to Chicago, for a brief visit.

George Watson of Salt Lake City, who has been visiting relatives in Hancock, has returned to his home.

Thomas Kennedy of Calumet is to leave today for Oregon and intends to start a sheep ranch there.

Miss Bertha Montague of Lake Linden has gone to Gay and will spend some time there with friends.

Wolverine and Mrs. Fred Smith of Wolverine have gone to Los Angeles, Cal., to spend the rest of the winter.

The Laurium band will be in Houghton next Tuesday night, and will give

POSTMASTER AT HANCOCK.

Charles Rogers, a Newspaper Man, Lands the Appointment.

Charles Rogers, a newspaper man, received a telegram yesterday from United States Senator Burrows, stating that he has been appointed postmaster at Hancock, succeeding Mrs. G. W. Emery. There were a number of candidates for the place, and the contest between them had aroused great interest in the city. The appointment of Mr. Rogers is regarded as a most excellent one.

LAW-MAKERS IN TOWN.

Visiting Legislators Entertained at Houghton—Visit Calumet Today.

The visiting legislators were entertained through yesterday by Houghton people and today will be cared for at Calumet. They are scheduled to leave for home this afternoon.

In accordance with plans made earlier in the week, a committee of Houghton councilmen and citizens received the visitors yesterday morning, after their two sleepers had been sidetracked at the depot. The party were taken to the College of Mines, where they were received by President McNair and members of the faculty. The institution was inspected and a visit was paid to the site of the geological survey building, following the visit to the college a luncheon was served at the Douglas House. In the afternoon sleighs were furnished and the law-makers were taken to Kipley, Dollar Bay and the Torch Lake districts.

The water power committee yesterday determined to remain over for the day, though they had arranged to leave early yesterday morning. The committee went to Lake Linden and Calumet in sleighs, being entertained by C. D. Hanchette of Hancock. From the copper country they are to go to Escanaba.

LETTERS SENT BY JOKER?

Justice Croze and Warden Wilson Suspect Lives Are Threatened.

Game Warden St. Clair Wilson and Justice of the Peace Croze of Houghton have turned over to Prosecuting Attorney May the four communications which have been received by them through the mail. These communications have not been made public, but Justice Croze and the warden state that they contain threats of death and in many ways are like "black hand" letters. They say that they are illustrated with crude drawings of coffins and other gruesome objects. These communications, it is said, were sent to Houghton from Baraga and bear the signature of Tom Hazel.

Last Monday while in Houghton Hazel was taken into custody by Game Warden Wilson. The officer made the arrest when he found Hazel bartering a piece of venison in a saloon. The hearing was held in the court of Justice Croze and Hazel was fined \$25 and costs, in all \$30. The snow precipitation yesterday was taken into custody by Game Warden Wilson. The officer made the arrest when he found Hazel bartering a piece of venison in a saloon. The hearing was held in the court of Justice Croze and Hazel was fined \$25 and costs, in all \$30. The snow precipitation yesterday was taken into custody by Game Warden Wilson.

HAVING SPRING WEATHER.

The January thaw seems to have lapped over and become a February thaw in the copper country, for yesterday in every way was a typical early spring day, and the two preceding days were mild. According to the records at the weather office, January was much like the same months of the past eight or nine years. The mean temperature was 31.6 degrees, which also is the average for the past nine years. In January, 1908, the mean temperature was even higher. It was nineteen then. The highest temperature recorded last month was forty-seven, this on the 26th, and the lowest was 17 below zero, this on the 7th. The snow precipitation amounted to 17.7 inches. There were four clear days.

CLUB MEETING TODAY.

The topic that will be discussed at today's meeting of the Calumet Women's club at the Y. M. C. A. will be "History." The program is as follows: Riggs, Education; Mrs. Hannah G. MARKETS

NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent at New York yesterday telegraphed as follows: The metal issues and Reading were under pressure and closed lower, while the balance of the list closed at about last night's level. Baltimore & Ohio, Wisconsin, Centennial and Colorado Southern were very strong, on buying attributed to the various pools which have been operating in these issues. There was not much news of importance, and the trading was mostly professional. A material falling off in the public interest was noted, and there seemed to be a disposition to market some of the stock bought on the recent decline. Several attacks were made on the list, but long stocks were not dislodged in quantity, and shorts covered near the close.

Closing prices were as follows:

Amal.	75 1/2	N. & W.	90 1/2
Am. Exp.	81 1/2	N. Y. C.	127 1/2
Am. Loco.	56	P. & W.	48 1/2
Am. Smelt.	84 1/2	P. & W. S.	121 1/2
Am. T. & C.	70 1/2	R. I.	120 1/2
Am. T. & C. S.	70 1/2	R. I. S.	120 1/2
Am. T. & C. S. S.	70 1/2	R. I. S. S.	120 1/2
Am. T. & C. S. S. S.	70 1/2	R. I. S. S. S.	120 1/2

Writing from Boston yesterday, Paine, Webber & Co. had the following to say of the stock market: The local market showed certain specialties very active today. One issue, with New York connections, sold 5,000 shares of North Butte between 7:15 and 7:30. The buying was very much scattered, but the order came in consistently and in good volume, so the fluctuation of the stock was easy and raised only a slight decline. The action of the market would indicate that this heavy selling was part of a manipulative game, rather than an attempt to dispose of long stock. Recent developments at East Butte have been very beneficial to that property, and the local traders are buying the stock heavily. We think the heavy selling of stock is about exhausted, and that on any rally in the general market it will cross 100 again. Isle Royale was very quiet, but strong all day. Buy only on the declines, and then only on a scale down.

Closing prices were as follows:

Adm. Cop.	5 1/2	Rhodes Is.	5 1/2
Adm. Exp.	81 1/2	Shan.	10 1/2
Adm. Loco.	56	Shan. S.	10 1/2
Adm. Smelt.	84 1/2	Shan. S. S.	10 1/2
Adm. T. & C.	70 1/2	Shan. S. S. S.	10 1/2

The Lincoln anniversary is to be observed with a special service and program that will be given at the Calumet Congregational church tomorrow night. Addresses will be made by Rev. Luther Long, the pastor, and W. J. Galbraith, Sunday evening a special Lincoln service will be held at the Calumet M. E. church, when the pastor, Rev. E. Sedewick, will deliver an address appropriate to the occasion.

News of the wedding at Sault Ste. Marie this week of Miss Carrie Vine, daughter of John Vime of Lake Linden, has been widely and rapidly spread, with much surprise by the bride's large circle of friends in the Torch Lake district. She is a graduate of the Lake Linden High school and left about a year ago to take a commercial course in a Detroit school, after which she took a position at the Soo. The wedding was performed at the Methodist parsonage last Tuesday. The couple will live at the Soo.

Household Remedies. Which have stood the test of time deserve a place in the medicine chest of every family. Mothers are today anxiously interested in their children's remedies for their children's ailments.

For thirty years, Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been curing the women of this country from the worst form of female ill-health and merit alone could have stood such a test of time and won such a enviable record.

City Brevities

Today's weather: Unsettled with rain; stationary temperature.

Yesterday's temperatures: Seven a. m., 27 degrees; noon, 40; 7 p. m., 30; maximum, 44; minimum, 27.

R. J. Klammert is confined to his home with rheumatism.

Charles Sandberg has gone to Mackinac City on business.

Mrs. J. W. Whalen went to Toledo yesterday afternoon.

C. F. Baldwin has returned from a visit with family relatives.

L. F. Nye's young to Superior last evening on the midnight train.

Postmaster John D. Mangum went to Gordon yesterday afternoon.

A. E. Sterne, county superintendent of schools, was in Marquette yesterday.

St. Mary's guild will meet with the Misses Neidhart at 2 o'clock this afternoon.

Edward Hines, one of the largest lumber barons in this country, was in this city yesterday.

Local dealers are clearing the ice on Cider pond, preparatory to cutting for packing purposes.

St. Monica's guild will meet tomorrow afternoon at the residence of Mrs. Albert Malhot, on Bluff street, at 2 o'clock.

The Woman's guild of St. Paul's church will meet with Mrs. G. Mott Williams this afternoon at 2:30 o'clock.

Mrs. Catherine Carey and Miss Mary Carey left for St. Augustine, Fla., last night, where they will spend the winter.

The Woman's society of the Presbyterian church will meet this afternoon at 3 o'clock, with Mrs. C. A. Sleight, 1010 North Front street.

The Ladies' Aid society of the Methodist church will meet at the home of Mrs. Sherman, 615 Spruce street, this afternoon at 2:30 o'clock.

Mrs. Fox and Mrs. Flint will entertain the Young Woman's guild of St. Paul's church this afternoon at the home of the latter, 996 North Front street.

An Artistic Window—In one of the shows of Delf's grocery is an exceptionally beautiful artistic display of fine California fruits. The tasty arrangement of rosy-cheeked apples, grape fruit, grapes and nuts is worth walking some distance to see.

Incor Baseball—There will be an indoor baseball game at Legion Hall this evening between teams from the Negaunee and Marquette High schools. The game will start at 8 o'clock and will be followed by dancing. The admission will be twenty-five cents.

M. B. A. Benefit Dance—The Modern Brotherhood of America will give a dance at Keough's Hall Monday, Feb. 15, for the benefit of Ed Clark, who lost his household goods in the fire in the Post-block, Wednesday morning. The charity is a worthy one, and tickets for the dance should find a ready sale.

Basketball Game—There will be a basketball game at the Normal school gymnasium this evening between the Normal team and a team composed of members of the faculty and students of the Ishpeming High school. The usual time, with music by an orchestra, will follow the game. Cars will leave the Normal for downtown at 11 o'clock.

Pleasantly Surprised—Mrs. Ellen Downey, of West Prospect street, was pleasantly surprised by thirty of her lady friends last evening. The evening was enjoyably spent with cards, games, music and refreshments. Mrs. Downey was presented with a set of silver knives and forks by Margaret Brandt and Lyleworth Kennedy, on behalf of the self-invited guests.

Elks to Visit Negaunee—The Elks of Negaunee will give a "blow-out" in that city next Wednesday night, which the members of the Marquette lodge have been invited to attend. On this account a special train will run from here to that city on that evening, which will leave Marquette at 7 o'clock in the evening and will return from Negaunee after the festivities.

Made a Quick Trip—E. P. Monteith recently received a letter at Eau Claire, Wis., sixteen and a half hours after it was mailed in this city. The postmarks show that the letter was mailed in Marquette at 5:30 p. m., Jan. 30, and was received in Eau Claire at 12 o'clock noon, Jan. 31. Mr. Monteith considers that the letter was transmitted with wonderful dispatch and cannot figure out how it got there in that short time.

Would Enlarge Park—A prominent business man suggested yesterday that the earth being removed in the excavation for the flag block could well be utilized by the park commission to enlarge the city park in front of the Hotel Marquette. All that is necessary in order to make the park from twenty-five to forty feet wider, would be to construct a retaining wall on the east side. The park is often crowded in the summer.

Surprise Party—Ed. Harris, of Fisher street, was agreeably surprised last evening by a musical party, numbering about twenty. Among the most noted musicians were Frank Trombly, the leader of the Troumbly orchestra, Mr. Hayes of Chicago, Frank Kern of Oscosh, Miss Lambert and Miss Nellie Fryfogle of Marquette. Many beautiful selections of the latest music were played and sung by the surprisers, especially by Mr. Hayes and Miss Fryfogle, after which a luncheon was served.

Home Telephone System—One of the largest intercommunicating telephone systems in the state is being installed at the residence of Morgan Jopling, by P. E. Ferr and a crew of experts in phone company. The new system will make it possible to telephone from any room or to the Bell central station, by pressing the proper button. The system will also be connected with the stable, and twelve phones will be installed on the premises.

Caucuses Tonight—The Republican voters of this city will meet at their respective voting places this evening at 7:30 o'clock to elect delegates to the Republican county convention to be held at the city hall Saturday at 11 o'clock. The county convention will elect twenty-two delegates to attend the judicial convention at Grand Rapids, Feb. 12. The city will have eighteen representatives in the county convention, who are to be

To Strengthen Title—An action has been started in circuit court by the Sanborn Lumber company against Bernard J. Goodman and Joseph H. Winter, asking that the plaintiff may be decreed owner in fee simple of a tract of land in West Branch township, in which the defendants claim to have an interest.

The declaration of complaint states that the lumber company acquired the tract by purchase from the state, to which it had reverted under the delinquent tax laws. The property in question is described as the northeast quarter of the southeast quarter and the south half of the southwest quarter of section 24, township 46.

Former Marquette Man Dead—A telegram has been received announcing the death of Thomas J. Millen, at Little Rock, Ark., and stating that the remains would arrive in this city today or tomorrow, for interment in Park cemetery. Mr. Millen was in the lumber business in Marquette from 1890 to 1898, and was a member of the local Knights Templar lodge. The Knights Templar of this city are arranging to conduct funeral services and take charge of the burial, upon the arrival of the remains in this city. The deceased is thought to be survived by a wife and family, and two children are interred in Park cemetery in this city.

INSURE WITH PETER WHITE & CO. A FIRST DRAFT OF THE YOUNG BILL PROVIDES FOR GOVERNMENT TAKING OVER RAPIDS—WATER FOR POWER PURPOSES IS TO BE LEASED.

Following is a copy of the Young bill dealing with the Soo Water power situation introduced in the lower house of congress this week by Congressman Young. This bill is intended to displace the Lohmer bill, and is designed to settle the water power difficulties in the St. Mary's river at the Soo in a permanent manner.

A bill to provide for obtaining lands and other property necessary for the construction, repair and preservation of certain public works in the interest of commerce and navigation in the St. Mary's river at Sault Sainte Marie, Michigan, and for other purposes.

Section 1. That the ownership by the United States of all of the property, lands and water rights of every kind and description north of the present St. Mary's ship canal, throughout its entire length and lying between said ship canal and the international boundary line in said St. Mary's river, is necessary for the purposes of navigation in said St. Mary's river.

Sec. 2. The secretary of war is hereby instructed to immediately take proceedings for condemnation of all of said property, land, and water rights of every kind and description, for the purposes aforesaid. He shall proceed in such taking by filing in the office of the register of deeds of Chippewa county, in the state of Michigan, a writing stating the purpose for which the same is taken under the provisions of this act, and giving full description of all the property, lands and water right of every kind, description and interest therein, and after the filing of said writing, and ten days after publication thereof in one or more newspapers in the city of Sault Sainte Marie, in the state of Michigan, the United States shall be entitled to and shall take immediate possession of the property described and may at once proceed with such public works thereon as have been authorized by congress for the uses of navigation and commerce.

The circuit court of the United States for the western district of Michigan is hereby given exclusively jurisdiction to determine what compensation shall be awarded for property taken under authority of this act. After the taking of any property by the government of the United States, as herein provided for, the United States, by its proper officials, shall begin condemnation proceedings in the aforesaid court, and the practice shall be in accordance with the practice in the courts of the state of Michigan for the condemnation of lands by the state for use of public institutions of said state so far as the same may be followed without conflicting with the provisions hereof. Possession may be taken by the United States prior to a determination by a court of any necessity of taking and prior to any determination of the amount of compensation.

The sum of two hundred and fifty thousand dollars is hereby appropriated, to be paid out of any money in the treasury not otherwise appropriated, to be immediately available for the purposes of this act and any and all other or further money payable by the government under the provisions of this act shall be payable from any money heretofore appropriated and provided or authorized for the purpose of improving Saint Mary's river at the falls, Michigan.

Sec. 3. The Chandler-Dunbar Water Power company and the Edison Sault Electric company, notwithstanding said proceedings shall be permitted to maintain their present works and utilize the water power in said river at said rapids in so far as the same does not interfere with the uses of navigation or the construction of government works in said river, under such rules and regulations as have been or shall hereafter be imposed by the secretary of war, until they shall be paid the compensation awarded by the court for their property to be condemned as aforesaid and the said Michigan Lake Superior Power company, notwithstanding said proceedings shall be permitted to maintain their present works and utilize the water power in said river through their power canal in so far as the same does not interfere with the uses of navigation or the construction of government works in said river, the same as at present under such rules and regulations as have been or shall be hereafter imposed by the secretary of war until the first day of January, A. D. nineteen hundred and eleven.

Sec. 4. The right to the flow of the water and of riparian, water power and other rights acquired as aforesaid shall be conserved for the benefit of the government of the United States at Sault Sainte Marie, Michigan, and any interference with or lessening of the flow of water past the lands acquired or any exercise of any of the rights or benefit so

acquired, except as hereinbefore authorized, by any person or corporation is hereby prohibited, except under a lease or license by the secretary of war to be accepted by the lessee of license.

Sec. 5. The secretary of war shall, as soon as possible after securing possession of said lands, proceed to lease the water power thus acquired, subject to the provisions aforesaid, upon the best terms and at the highest rental possible to responsible corporations or individuals for development at Sault Sainte Marie, Michigan; Provided that under no circumstances shall any rights be granted in said river which will interfere with the needs and uses of navigation or which will limit the absolute control of said land and waters when desired for purposes of navigation by the United States; or for a longer period than twenty-nine years, with re-adjustment of rental at periods of not more than thirty-two hundred and seven, beginning with the words "and all lands and waters north of the present Saint Mary's Falls Ship canal throughout its length," and so forth, and ending with the words, "to comply with the provisions of the river and harbor act of nineteen hundred and two, but such lands, if so acquired shall be obtained without expense to the United States," is hereby repealed.

Sec. 7. Nothing herein contained shall affect or impair the right of the Michigan Lake Superior Power company, as it existed prior to the passage of this act, under the conditions heretofore prescribed by congress to divert from the said Saint Mary's river into its power canal, located south of the rapids, in the state of Michigan, any waters which shall be so compensated for by controlling or remedial works located on the Canadian side of the "international boundary line," that the amount of water in the river on the southern side of the boundary line shall not be decreased by such diversion but for all water or water power acquired and owned in said river by the United States as a riparian proprietor, the Michigan Lake Superior Power company, if it uses the same, shall pay a just and reasonable compensation as provided for in section five and five of this act.

Sec. 8. All acts and parts of acts in conflict with this act are hereby repealed.

Many of the features of the bill which are of vital importance to the Soo were suggested by Mr. Osborn, who has lost no opportunity to lend his assistance in settling the water power difficulties.

REPUBLICAN STATE CONVENTION AT GRAND RAPIDS.

GREAT SALE MEN'S FINE CLOTHING AT 1/2 PRICE

In this remarkable sale customers have the advantage of securing finer clothing at \$7.50 to \$15.00 than we could ordinarily buy to sell at almost twice the price.

Our only motive in offering this radical reduction is to make a final clearance of all our broken lots (blacks and blues included).

The manner in which the public has responded to our first announcement of this sale verifies the values we are offering.

This sale will last but a short time and the grade of clothing offered is worthy of anticipating your wants for several seasons to come.

20 per cent reduction on all late arrivals of Overcoats and Suits.

WAR ON OPIUM EVIL.

Action Taken by Congress Is of Great Importance.

This Passage of the Bill Prohibiting the Importation of the Drug—President Roosevelt Is Behind the Movement and Also Brought About the International Conference at Shanghai.

Washington, Feb. 4.—Without much fuss or feathers congress has passed a bill to prohibit the importation and use of opium in this country for other than medicinal purposes. The passage of the measure attracted very little attention, but it was full of significance, for it means that in a short time the vicious habit of eating and smoking opium in this country will be stamped out, at least so far as the government can eradicate it.

President Roosevelt is back of this movement. He is also responsible for the international conference which is now assembled at Shanghai for the purpose of making the movement against the opium traffic world-wide in its scope. It develops that the federal authorities have been very active in this matter. The government agents have been investigating the evils of the opium traffic in all the large cities of the country. This investigation was conducted in New York, Brooklyn, Chicago, Philadelphia, Boston and San Francisco. It established the fact that there is today an immense quantity of opium smoked by American citizens.

While there has been practically no increase of our Chinese population since the early eighties, except through the annexation of Hawaii, it has been found that a steady increase has occurred in the importations of smoking opium. By among Chinese, moreover, indicates that they smoke less opium today than twenty years ago. A similar inquiry among the police, prison physicians and others brings out the alarming discovery that this pernicious habit has spread to our own American population, and to negroes especially, although among whites it is largely confined to the criminal and other abnormal classes.

A high authority has stated that sixty thousand pounds of crude opium and the morphine derived therefrom would satisfy the legitimate annual demand. Notwithstanding this fact more than four hundred thousand pounds were imported into the United States last year, while statistics prove that the use of opium and its derivatives has increased 100 per cent in New England during the last ten years, and 150 per cent in the "prohibition" state of Maine.

Under our treaty of 1850 with China, to enforce which the proper legislation was enacted in 1882, no American citizen may import opium into China and into the United States. No attempt has been made heretofore, however, to penalize the importation of opium into the United States by Americans. The transportation of opium from China to the United States by Americans is not forbidden, nor is the sale of opium to Chinese or others in the United States prohibited by treaty or statute.

The Canadian parliament has passed an act to prohibit the importation, manufacture or sale of opium for other than medicinal purposes. China, by a series of imperial edicts, is endeavoring to stop opium smoking and the growth of the poppy, while England has shown her sympathy in the face of heavy financial loss by agreeing within ten years to stop the export of opium from India to China.

Country Editors Miss Passes.

A number of country editors over the country are writing to members of congress to know what has become of the bill introduced last session to modify the interstate commerce act so as to permit an exchange of railroad transportation for newspaper advertising, on a dollar for dollar basis. One editor voices the sentiment of many others when he says that the present act deprives the smaller newspapers of the country of the vast amount of advertising that is precisely as good as cash to both the newspapers and to the railroad corporations.

It is true that the railroads are spending thousands of dollars for newspaper advertising, but it is equally true that they are spending nearly their entire appropriations with the large metropolitan papers and with magazines throughout the country. The result is that the country newspapers which could use a limited amount of railway advertising are denied that privilege.

One or two newspaper men now in congress are looking up the matter. Several other newspaper men will take seats

in the next congress and it is proposed to get into touch with them on the subject with a view of taking united action. One member goes so far as to say he will introduce a bill on the subject during the next session, if the author of the former bill does not re-introduce his own.

Fairbanks' Consolation Dinner.

A "consolation dinner" is to be given next Wednesday evening at the home of Vice President Fairbanks to the congressional "lead ducks" from Indiana. The affair is being engineered by Representative Watson, who was the Indiana Republican candidate for governor and who went down to defeat along with the congressional delegation with two exceptions. It is predicted that there will be all sorts of fun around the table, where every "lead duck" is to be given a souvenir. The rest of the congressmen are laying for Watson and propose to put at his plate a water-wagon souvenir, as he was wrecked on the temperance question. The affair will be in the nature of a real grillon dinner, and reporters will be barred, so that the defeated candidates can deliver their real sentiments.

PROTECTING THE CHILDREN.

One of the Most Important Acts of Mr. Roosevelt's Administration.

Washington, Feb. 4.—It is difficult to overstate the importance of the work in behalf of dependent children done by the conference on this subject held here under a call from the president. It is believed that the movement to improve the condition of this class of unfortunate children will be regarded in the near future as one of the greatest works of Theodore Roosevelt as president of the United States.

The next immediate steps to be taken to further this movement will be the writing of a message to congress, by President Roosevelt urging the adoption of the Persons bill for the establishment of a federal children's bureau to collect and disseminate information affecting the welfare of the children. The governors of the various states are to be notified of the recommendations of the Washington conference and urged to acquaint the local state boards of charities and other bodies associated with the care of children, so that uniform methods may be applied throughout the country. It is known that at the present time there are about 93,000 dependent children in various institutions in the country, and many additional thousands are in foster or boarding homes. The whole purpose of the leaders in the conference is to break up the system of keeping children in large numbers in congested institutions. It is desired, of course, to find homes for them where they may receive a large degree of individual care and devotion. The sending of children of an age or class to almshouses was denounced as an unqualified evil and something to be forbidden everywhere by law under heavy penalty for violations.

WOULD BE STATE CAPITAL.

Manchester, N. H., Prepared to Offer Generous Financial Inducements.

Manchester, N. H., Feb. 4.—If the arguments of leading residents of this city are sufficiently persuasive to sway a majority of the members of the legislature, which is now in session, Manchester may become the capital city of New Hampshire instead of Concord. The enthusiasts who are advocating the change express the willingness to offer financial inducements of a generous size to the state. The matter has been brought before the legislature in a bill introduced by Representative Hurd of Manchester, which provides that the state shall appropriate the sum of \$1,000,000 for the construction of a new capitol, to be located in Manchester, and that the city of Manchester shall add \$250,000 to this amount, besides providing a site for the proposed building. Other bills pending before the legislature offer various solutions for the problem which confronts the state, for it is conceded that the present capitol, which was built in 1816 and enlarged in 1865, has been so outgrown by the increase in the business of the state that either an entirely new building must be erected or a substantial addition made to the present structure. Mr. Hurd's bill, however, is the only one which proposes the removal of the seat of government to any other city.

Charles M. Floyd of this city, who retired from the office of governor early this month, said in regard to the proposed change: "It would be a great thing for Manchester, and I am heartily in favor of bringing it about. Geographically, Manchester offers advantages over Concord. I think Manchester can raise \$750,000 toward the erection of a

state capitol building here, and I will do my share toward it."

CREDITORS WILL GET LITTLE.

Fidelity Funding Company, With Assets of \$22,931, Owes \$761,317.

New York, Feb. 4.—Edwin A. Watson, appointed by the supreme court as referee to take testimony and report as to the application of the Fidelity Funding company for the voluntary dissolution of that corporation, filed his report tonight. He finds that the corporation is insolvent and recommends that it be dissolved. The report shows the assets are \$22,931 and the total liabilities \$761,317.

TO THE CAPITAL WITH MULES.

Four Columbus Men Will Go to Inauguration in Gov. Tod Carriage.

Columbus, O., Feb. 4.—A unique pilgrimage to Washington to attend the Taft inauguration is planned by four well known Columbus business men. They will make the trip in the old Governor Tod carriage, drawn by four mules, which will be driven by George Crouthers, who formerly drove a forty-horse team in a circus. The men who will make the trip are C. M. Kinnard, Ben H. Harmon, Simon Lazarus and John W. Moore.

ROOSEVELT IS DEE-LIGHTED.

Thanks Chippewa Falls Club for Picture of Champion Skier.

Chippewa Falls, Wis., Feb. 4.—"Dee-lighted," was the feeling of President Roosevelt when he received photographs of Oscar Gunderson, world's champion skier, sent him by the North Star Ski club of this city. The club has received a letter from the president expressing his thanks for the photographs, which showed the champion in three different positions.

ARREST IN PLOT TO KILL KING.

Lisbon Police Hold Man Said to Be One Picked to Hurl Bomb.

Lisbon, Feb. 4.—The police have arrested a former sailor, who, it is charged, was chosen from a group of revolutionists to throw a bomb at King Manuel as the latter was attending Monday's memorial services for his father and brother, who were assassinated.

WHITWORTH FINALLY OUSTED FROM NASHVILLE JURY BOX.

Nashville, Tenn., Feb. 4.—Judge Hart today evicted J. Whitworth from serving in the Carmack murder trial, because of expressions alleged to have been made by Whitworth before the trial began. The defense has fought strenuously for his dismissal from the jury box for several days, while the prosecution has opposed evicting him, with equal vigor. Two more jurors are yet to be chosen.

LUNACY COMMISSION TO BE ASKED FOR HAINS.

New York, Feb. 4.—At a family and legal conference held in the office of John F. McIntyre it was decided to apply to the supreme commission to pass on the sanity of Captain Peter C. Hains, now in jail at Long Island City, and awaiting trial on the charge of murdering William E. Annis. The commission will be asked to decide as to the mental condition of the captain at the time of the killing and also at the present time.

CARRIE NATION FINED \$7 IN A LONDON POLICE COURT.

London, Feb. 4.—Carrie Nation was today fined \$7 for thrusting an umbrella through a railway car window upon which a cigarette advertisement was pasted.

A LAUGH OR TWO.

A Modern Macduff.

A little Swede by presented himself before the teacher, who asked his name. "Yanny Olsson," he replied. "How old are you?" asked the teacher. "Ay not know how old ay bane." "Well, when were you born?" continued the teacher, who nearly fainted at the reply. "Ay not born at all; ay got stepmother."—Illustrated Bits.

The Maid Wanted Help.

This story would read better if the incident had happened when there was company at dinner. A matter of fact, however, only the family was present. The new maid had recommended herself as having been employed in the households of various persons of fashion. Things went smoothly enough at the first dinner which she served until the meat and vegetable course was finished. Then, instead of taking away the dishes, she stood idly in a corner. Finally her mistress said: "You may remove the dishes now, Kate, and serve the dessert." "All right, mum, I'm waiting." "Waiting for what?" "Waiting for you to stack." "Stack what?" "Why, to stack the dishes and shove them down to this end of the table."—New York Tribune.

"Uncle Joe's" New Story.

Speaker Cannon has added to the literature of the wordy war between congress and the White House. "Uncle Joe" is credited with a story that has set all congress to laughing. It deals with a member of the house who went home after a late session at the club rather wobbly as to legs and somewhat thick as to speed. A 3 o'clock in the morning Mrs. Congressman dug her snoring spouse in the ribs with her elbow. "John," she whispered excitedly, "John, wake up!" "Ugh," he grunted. "John, for mercy's sake, wake up!" she whispered again, emphasizing her appeal with a second vigorous dig. Another grunt was all that greeted her. "For heaven's sake, John, wake up!" she whispered frantically, "there are robbers in the house!" "You're mistak'n, m' dear," said the congressman, composing himself for sleep. "Ain't any robbers in the house. They're all in the senate."

Columbus, Feb. 4.—George Dempsey got the decision over George Rodgers in a six-round boxing match here tonight.

PROSPECTUS

The Company owns 360 acres of rich mineral land abounding in copper, also yielding silver, gold, and iron, located in the midst of the richest known copper district of the world. The mines in this Copper zone, such as United Verde, Copper Queen, Detroit, Calumet & Arizona, Miami, Ray Consolidated, Old Dominion, and Gibson, &c., produce a large per cent. of the Copper of the world.

This property is situated in the Horse Shoe Bend of the Gila River, directly opposite the important mining town of Kelvin, on the Phoenix and Eastern Railroad, Pinal County, Arizona. The river, which half circles the property, supplies opportunity for ample water power at nominal cost, also water for reduction works; and the railroad, which also half circles and crosses the property, affords ample transportation facilities immediately at hand.

DEVELOPMENT WORK

A large sum has been expended in developing and proving the value of the mines, the extent, character, and availability of the ore bodies and richness of the ores.

Reference is made to reports of George C. Clark, E. M., and H. C. Erman, E. M., both experienced Engineers and eminent authorities on copper properties, from which the data in this prospectus are compiled. These reports, with maps, smelter returns, and other data, are on file with the WINDSOR TRUST COMPANY of New York, open to inspection.

This development work consists of shafts, tunnels, drifts, and cross-cuts, the total underground work aggregating 2,574 feet, the larger part of which is in good ore, exposing and making available approximately 800,000 tons of ore that will average 7 per cent copper and from \$1.50 to \$3.00 per ton in silver. This 2,574 feet of underground work does not, however, include numerous shafts, prospect holes, and excavations which have been sunk and made upon the property, each of which located bodies of rich ore, proving that the whole 360 acres is richly underlaid with rich bodies of copper ore. There are thirteen distinct veins which have been traced across the property, east and west.

THE VALUE OF ORES

Approximately 400 tons of ore have been mined and shipped to nearby smelters; the original smelter returns are on file at the WINDSOR TRUST COMPANY, New York, and are open to inspection.

Tons in shipments.	Per cent copper.	Value of silver per ton.	Total gross value per ton.	Tons in shipments.	Per cent copper.	Value of silver per ton.	Total gross value per ton.	
10,657	8.74	\$1.24	\$25.22	33,513	20.60	\$3.00	\$40.30

27,871	16.50	2.35	54.05	24,298	8.80	2.12	15.95	
				Total 393,211 Avera' Copper 13.78			Average Silver 2.40	Total value 40.22

The equipment at present consists of Engine, Boiler, Steam Hoist, Blacksmith Shop, Driller Tools, &c.; Superintendent's Building, and accommodation for a large force.

WHAT IS PROPOSED

Four shafts have been sunk as follows: No. 1, 100 ft.; No. 2, 185 ft.; No. 3, 80 ft.; No. 4, 100 ft.; all of which are in ore which gains in richness as depth is attained. It is proposed to continue these shafts to a greater depth, run drifts and cross-cuts so as to mine 500 tons a day; install improved machinery and facilities for mining and handling ores; install an electric water power plant and build reduction works of a capacity of 500 tons per day. The capacity to be increased from time to time as conditions justify. Seven per cent copper will yield 140 pounds to the ton, which at 14 cents a pound is \$19.60 per ton; allowing 7 cents a pound for the cost of mining and converting to bullion, transportation, &c., gives a net profit of \$9.80 per ton, or a net daily profit of 500 tons, or \$4,900 per day; yearly profit of \$1,715,000, or, adding the value of the silver, \$2,115,000 a year.

The following extract is from Page 43, Department of the Interior—U. S. Geological Survey—George Otis Smith, Director. WASHINGTON PRINTING OFFICE, 1908.

RIVERSIDE DISTRICT.

MINE PRODUCTION.

PINAL COUNTY, ARIZONA.

"This district was quite productive in the number of shipments of ore. The largest tonnage of ore mined and shipped out of the region came from the Riverside and Bryan group of the SULTANA-ARIZONA COPPER COMPANY and the Troy Manhattan property, near Kelvin. The former produced 45,838 pounds of copper and 633 ounces of silver."

The SULTANA-ARIZONA, with its vast bodies of high-grade ore, should be able to pay large dividends to stockholders, even if Copper metal should decline to 10 cents a pound.

For the purpose of providing the necessary funds to install these improvements and for the erection of reduction works, with a capacity of 500 tons of ore per day,

100,000 SHARES OF TREASURY STOCK ARE NOW OFFERED FOR SUBSCRIPTION, AT PAR, PAYABLE AS FOLLOWS:

\$2.00 per Share to accompany the application for the subscription, and the balance of \$3.00 per Share payable in ten days after notice of allotment.

If less than the number of shares applied for is allotted, the sum paid on subscription will be credited on the number of shares allotted. On failure to make the final payment the amount paid will be forfeited.

Applications for subscriptions should be made to the WINDSOR TRUST COMPANY, 59 Cedar St., New York City, N. Y., or to TRACY & CO. All checks should be payable to the order of the WINDSOR TRUST COMPANY or to TRACY & CO.

The subscription list will be opened on Wednesday, Feb. 10th, 1909, and close on the following day. The Company reserves the right, however, to close the subscription list at any time without notice, to reject any subscriptions, and to allot smaller amounts than applied for.

This stock will be dealt in upon the New York curb.

SOUTH SHORE STATION TO HAVE AN OFFICER

AT THE REQUEST OF THE COMPANY, THROUGH AGENT RANDALL, T. H. CORNISH IS GIVEN POLICE POWER—OTHER BUSINESS OF THE COUNCIL SESSION.

Thomas H. Cornish, an employee of the Duluth, South Shore & Atlantic Railway company at the Ishpeming station, was appointed a special police constable by the council at its regular meeting Wednesday evening. The appointment is made at the request of D. D. Randall, the company's agent, who complains of the interference to passengers on the part of people congregating at the station Sunday evenings. Mr. Cornish's appointment is subject to revocation by the council at any time and is to continue until the next regular appointment of police constables in April. He is to serve without pay from the city.

Exemptions Asked for.

Petitions were received from the following asking to be exempted from the payment of water taxes for the following year: Mrs. M. J. Anderson, No. 613 Vine street; Mrs. Lizzie Samuelson, No. 110 Barn street; Mrs. N. Anderson, No. 221 Marquette street; Mrs. Ellen Asgaard, No. 611 East Vine street; Mrs. Eleama Lynch, No. 826 East Empire street; Mrs. M. F. Remillard, No. 319 East Division street; Mrs. Dan Nolan, No. 216 West Johnston street; Mrs. I. Isaacson, No. 110 Barn street; Mrs. Agnes Lidberg, No. 319 Bigelow street; Altonse Mottard, No. 410 Excelsior street.

The petitions were referred to the committee on water works for investigation, and a report is to be made at the next regular meeting.

J. J. Lofler asked the council for permission to place a scale in the alley leading north and south and adjoining his property on Division street. The scale, Mr. Lofler said in his petition, would be placed at the disposal of the general public. The petition was referred to the committee on streets and alleys, in conjunction with the board of public works.

On recommendation of the committee on electric lights, the petition of Oscar Blomgren and twenty-five others, asking that an arc light be placed on Empire street, at the corner of North Fifth, was granted. On recommendation of the committee on water works, to which was referred the petitions of Mrs. Person, 534 Jasper street, and Mrs. Chapman, 805 North Second street, both were granted free water for the ensuing year.

Bills and Municipal Report.

Alderman Olson, chairman of the committee on claims and accounts, presented the following bills and payrolls for January, which were allowed and ordered paid:

Bills—Fire fund, \$331.71; general, \$275.17; cemetery, \$17.30; police, \$4.30; highway, \$255.38; water, \$97.66; library, \$347.49; cement curb rebate, \$5.83; street lighting, \$819.00.

Pay-rolls—Official, \$1,028.99; highway, \$463.13; sewer, \$4.05; water, \$497.63. Total bills and pay-rolls, \$5,041.16.

The committee on police, through Alderman Ayotte, presented a summary of the municipal court's business for January. The income for the month was \$157.25. Of this sum \$49 were for fines in criminal cases; \$45.25 for costs in criminal cases and \$43 for civil cases.

The sum paid the county on account of fines collected was \$49, leaving a balance of \$88.25. In addition to the above the court will receive \$70 from the county. This, together with the amount left on account of fines, brings the net receipts of the court for the month to \$135.25.

KNOWN TO MANY HERE.

Member of Milwaukee Tailoring Firm Died Tuesday in Alabama.

Joseph J. Brenk, a member of the firm of Brenk Bros., tailors, of Milwaukee, who has controlled a large patronage in the upper peninsula for a number of years, died Tuesday evening at a health resort at Foley, Ala., of dropsy. Mr. Brenk had been sick for some months, but he did not leave Milwaukee for Alabama until a week ago, when his condition was not at all alarming. He was forty-nine years of age.

The deceased, who was born in Michigan and reared at Jackson, was known to many people here. Twenty-six years ago he located in Milwaukee, establishing a tailoring firm with his brother, Robert J. Brenk. The firm has been unusually successful. A widow, two sons and one daughter survive the deceased. His mother and three brothers are also living.

He was a member of the Knights of Columbus and Benevolent and Protective Order of Elks, and he had also been prominent for some years past in the Milwaukee Athletic club. His remains are to be brought to Milwaukee for interment.

MARRIED IN MILWAUKEE.

Former Ishpeming Girl United in Wedding to Wisconsin Man.

Cards have been received in this city from Mr. and Mrs. James Anes of Milwaukee, announcing the marriage of their daughter, Kathryn Elizabeth, to A. G. Cramer, of Wausau, Wis. The ceremony took place Wednesday afternoon at 4 o'clock at St. John's cathedral, and was performed by Rev. D. J. Dunne of Chicago, cousin of the bride. Only relatives and a few intimate friends witnessed the ceremony. The attendants were Miss Mary D. Ames of Milwaukee and R. D. Burke of Plymouth, Wis.

The bride was attired in an empire gown of white silk tulle and carried bride's roses. The bridesmaid wore a gown of pale pink shantung silk and carried an arm bouquet of pink carnations.

Mr. and Mrs. Cramer have come for a trip through Old Mexico and will be at home in Milwaukee after April 15.

Nearly all the world's supply of asbestos comes from Canada.

"What shall we have for breakfast?"

"Why Cudahy's Peacock ham and eggs of course; they are always acceptable especially at this season of the year." (7-29-0)

AS MANY DEATHS AS BIRTHS.

There were as many deaths as births in Ishpeming last month, the total of each being twenty. As a rule there are about 25 per cent more births than deaths recorded here. In December there were twenty-seven births and eleven deaths, the percentage of the former on each estimated 1,000 population being 21.9, while the rate on the latter on the estimated population was 13 per cent. In November there was one birth less than in December, the total being twenty-six, while the same number of deaths occurred in both months.

NEEDFUL KNOWLEDGE.

Marquette People Should Learn to Detect the Approach of Kidney Disease.

The symptoms of kidney trouble are so unmistakable that they leave no ground for doubt. Sick kidneys excrete a thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back aches constantly, headaches and dizzy spells may occur and the victim is often weighed down by a feeling of languor and fatigue. Neglect these warnings and there is danger of dropsy, Bright's disease, or diabetes. Any one of these symptoms is warning enough to begin treating the kidneys at once. Delay of cure proves fatal.

You can use no better remedy than Doan's Kidney Pills. Here's Marquette proof:

Mrs. C. Carlton, 340 Alger St., Marquette, Mich., says: "For the past year my kidneys have given me trouble and I have had attacks of backache. Hearing good reports of Doan's Kidney Pills, I decided to try them and sent to the Stafford Drug Co. Iowa box. In a short time I felt better and am now in good health. I also know of others who have used this remedy and the results have always been of the best. You are welcome to use my name as one who endorses Doan's Kidney Pills very highly." Foster-Milburn Co., Buffalo, New York, remember the name—Doan's—and take no other.

"Let us have some Cudahy Peacock bacon and calves liver for supper mamma," say young and old. (7-29-0)

Storm Sash

If you need Storm Sash, remember we are headquarters. Carry a large stock. Special sizes. We make up in a few days. Storm Doors, Storm Sheds, etc.

ROOFINGS

Remember, when in need of anything in the line of Roofings that we are the largest dealers in the Upper Peninsula. Have the largest stocks on hand of all kinds. Asphalt Roofing, Rubber Roofing, Gravel Surface Roofing, Asbestos Roofing, for Felt Roofing; Roofing that can be put on in cold weather as well as in warm weather; Roofing for all purposes.

CONSOLIDATED FUEL & LUMBER CO.

FROM MORGAN'S CURB LETTER.

"Some further liquidation in copper shares was apparent in today's market, notably in North Butte, 5,000 shares of which were disposed of between 75 and 78, after which the tone of the whole market strengthened. The New York Metal exchange quotes the metal of 1/2 all around in both bid and asked price. Accumulation of Gironx and San Antonio continues, and we look for much higher prices for both of them. Superior & Globe was 1/2 higher, on persistent buying from the copper country. Calumet-Corbin was steady at 2 1/2. Considerable attention is being directed toward Live Oak, and it appeals to us as an excellent speculation at going prices. Ten dollars is being freely predicted for it. It is officially stated that the Cole-Ryan interests have secured absolute control of the Gironx Consolidated Mines company, and following out the policy of those interests the main office of the Gironx company will be removed from New York to Duluth at an early date. Application will be made within a few days to have the stock listed on the Boston Stock exchange, and when that is done the company will open a transfer office in that city. The old board of directors was re-elected at the annual meeting of Columbus Consolidated. Chas. A. Walker succeeds Tony Jacobson as president, the latter remaining on the board. We continue to favor the long side of the account."

HAS A FINE VOICE.

Miss Alma Youlin, the prima donna with "Honeymoon Trail," which is to appear here on the 15th, possesses one of the most gifted and sweetest voices ever heard in musical comedy. As well as sweetness, she has an exceptional range, the voice having a scope of two and one-half octaves, the register being from low A to high D sharp. Critics acclaim her the most fascinating woman in musical productions. Miss Youlin will be remembered for her exquisite work with "The Tenderfoot," "The Land of Nod" and "The Flower of the Ranch" companies.

CARD OF THANKS.

We wish to assure our friends and neighbors that their efforts to lessen our burden of sorrow during our bereavement were most thoroughly appreciated. We cannot find words with which to fully express our appreciation for the consideration shown us during the illness and after the death of our beloved mother. We feel under lasting obligations to those who aided us at our home, as well as to friends for their floral offerings.

THE SWANSON FAMILY.

Father says: "Say, mother, can't you make us some more of those fine doughnuts if I will bring home a pair of Cudahy's Peacock lard again?"

Republic, Feb. 4, 1909.

BLJOU THEATRE

MARIE LEONARD and LEN PHILLIPS

In Comedy Sketch

ADMISSION 10c TO ALL.

Matinees Monday's and Saturday's. Adults 10c; children, 5c.

C. A. CRINNIAN, Prop.

ISHPEMING IN BRIEF.

Charles Fosberg, Jr., and wife, of Duluth, are in the city, visiting his parents.

Employees of the water department are working on a leak at the hydrant on the corner of Front and Pine streets.

Charles H. Towne post of the Grand Army will meet this evening at 7:30 o'clock at the council chamber in the city building.

F. M. Johnson of Appleton, Wis., a former Ishpeming business man, is in the city. He is now traveling for Appleton Woolen works concern.

Mrs. William Dowick and daughter, Florence, formerly of this city, now living in Marquette, returned to their home last evening after a few days visit with Ishpeming friends.

The funeral of the late Mrs. John Swanson was held yesterday afternoon from the Swedish Lutheran church and was largely attended. Rev. G. Fletwood, the pastor, conducted the services.

Mrs. Joseph Cardinal, formerly of this city, was here yesterday from Benoit, Minn., having come down to see her son-in-law, Charles Duquette, who had an arm amputated as a result of injuries received at the Cliff's shaft crusher plant.

J. D. West, the city recorder, yesterday received a letter from his sister in Chicago advising him that his step-mother is critically ill and that her physician gives no hope for her recovery. Mr. West expects to be called to Chicago at any time.

W. J. Locher, manager of the Cable Piano company's Ishpeming business, has rearranged the interior of the store in the Mortley block. His office and talking machine department has been removed from the front to the rear room and the former has been given up entirely to pianos. A number of new instruments were recently received and the display room is now filled. Mr. Locher has also worked up a big trade in Victor and Edison talking machines and records, also in sheet music. He carries one of the largest and most complete lines of sheet music to be found in the upper peninsula.

GOVERNNESS AND THE GENTLEMAN.

Mrs. Phelps Stokes, at a dinner in New York, condemned the customary treatment of domestic servants, saying the Cincinnati Enquirer.

"On account of this treatment," she said, "intelligent young men and women keep out of domestic service, despite the good pay and the comfort."

"But who can blame them? In a court of law, one day, a man cook was testifying, and simply because he was a cook, everybody there, from the judge down to the crier, felt entitled to call him by his first name. Had he been a cart driver they would have called him Mr. Smith. But no; he was in domestic service."

"A young governess, a Vassar girl, turned to me during the trial and said that she, as a governess, met with just such treatment on all sides."

"She said that, on the lawn of her country house, her mistress once introduced her to a gentleman."

"Miss Jones, so the introduction concluded, 'is our governess, you know?'"

"The governess looked at her mistress expectantly, as if waiting for something."

"And," she said, "I beg your pardon—but what does the gentleman do?"

"What do you mean?" said the mistress laughingly.

"You have told him my occupation!" said the governess. "Now, I want to know his, so that the acquaintance may start fair."

RAINEY GOT DATA BY THE TON.

When Representative Rainey, of Illinois, began his "searching" investigation of the Panama canal, he sent word to the Isthmian canal commission that he desired every particle of data relating to the canal that was available. He ordered that it be rushed to his apartments, as he intended to let no shred of evidence escape him. The data came one afternoon when Mr. Rainey was in the house. It came in two wagon loads and aggregated eight tons of pamphlets, documents, reports and books. One wagon had discharged its contents in a bedroom. Mr. Rainey vows that he will be specific in asking for data hereafter.

FOR SALE CHEAP—40-acre farm, partly improved, near Searles local in two-story house, barn, etc., terms reasonable, etc. Will sell at once. Address J. L. West, Ishpeming, or Carl Anderson, owner, on premises.

FOR RENT—Barber shop in Ishpeming. Apply to Mining Journal branch office.

TWO REAL ESTATE DEALS CLOSED

ASIRE & PALMER BOUGHT WHITE ADDITION AND FRED DONCKER'S A DOWNTOWN LOT.

ACTIVITY IN CITY PROPERTY

Forty-one Lots in South Marquette to Be Placed on the Market—Mr. Doncker's Plans.

The largest real estate deal consummated in this city for some months was closed yesterday, by which Asire & Palmer acquired forty-one lots in what is known as the White addition in South Marquette.

These lots are improved and in good shape for building purposes, and are to be thrown on the market at once by the new purchasers.

All of the streets on which the lots face, with the exception of McMillan street, are paved and sewer, and have sidewalks and water and gas mains.

The White addition, of which the lots bought by Asire & Palmer make up the greater part, was platted by the late Peter White some twenty years ago.

Washington Street Lot Sold.

A deal in downtown property was also closed yesterday, which is of considerable interest and importance to the public.

As has already been announced, Mr. Doncker's expectation to build a fine story brick block on the site of his present store, and his chief idea in acquiring the adjoining lot was to prevent anyone putting up a large building on it, and so shutting out light from the block he expects to erect.

The two deals consummated yesterday indicate unusual activity in the real estate business for so early in the season, and augur favorably for the real estate and building business in Marquette during the coming summer.

COMPANY REORGANIZED.

Keweenaw Land Association Now Operating Under a New Charter.

The notice of dissolution of the Keweenaw Land association, which has been made public, does not mean that the company has gone out of business, but simply that the company has reorganized under new articles of incorporation.

The Keweenaw Land association now holds something less than 1,000,000 acres of land in the upper peninsula, most of which is timber land.

The policy of the Keweenaw association has been somewhat different from that of some land companies operating in the upper peninsula.

When you want milk, cream, butter or buttermilk of the finest quality, call up Marquette City Dairy.

F. H. VANDENHOOM, Prop. (1-22-1m)

SEMI-ANNUAL SALE.

Our regular Semi-Annual Clearing Sale in all departments is now going on. THE BEE HIVE, (11-10-4f)

DID IT FOR A JOKE.

Stranger Accuses Policeman of Taking Bribe, but Later Says He Was Jesting.

Charles Garrick of Ontonagon county spent Wednesday night in the lock-up because of drunkenness and disorder, and after his release yesterday morning, told at Freeman's River that he had been given his liberty and promised immunity from punishment on payment of \$10 to Officer Joe Remotel.

The news of the stranger's accusation created a good deal of interest and spread rapidly. When Marshal Manning heard the story, he at once hunted up Garrick, who was more than anxious to take back what he had said, declaring that the statement had just been made in fun, and that there was no truth in it.

The facts in the case are that Garrick came to Marquette Wednesday evening to prove up a claim. Shortly after his arrival, he became intoxicated and disorderly on the streets.

STATE INSTITUTIONS UNDER ONE BOARD

SUCH A PROVISION IS SHORTLY TO BE CONSIDERED BY THE LEGISLATURE, IT IS SAID.

As one of the results of Warden Armstrong's arrest at the Jackson prison a bill to provide that all state institutions shall be placed under one board of control will make its appearance shortly after the legislature convenes when the junkets are over, according to a report from Lansing.

The measure to put all the asylums, prisons and state schools under the direction of one board or commission is now being prepared, but who will father it has not yet been decided.

Washington Street Lot Sold.

A deal in downtown property was also closed yesterday, which is of considerable interest and importance to the public.

MADE FINE IMPRESSION.

Quartet of Excellent Artists Heard at Opera House Last Evening.

The best number on the city hospital holding fund entertainment course last evening at the opera house last evening was a quartet of artists who appeared at a large and enthusiastic audience.

TENNYSON PROGRAM.

Members of Baraga High School Conduct Pleading Exercise in Honor of Poet.

The members of the Baraga High School literary society successfully rendered the following Tennysonian program yesterday afternoon:

The Princess Josephine Doncker. The Holy Grail Lydia Kimber. The May Queen Iva Winkel.

The Two Voices Elsie Constance. The Begle Song Frances Fagan. Break, Break, Break Catherine Carpenter.

The Poet's Song Mary Griffin. Lady Clare Mildred Mack. Vocal chorus Glee Club.

ARCTIC IRON CO. WINS BIG CASE

DECREE GIVEN BY JUDGE KNAPPEN AGAINST C. C. I. CO. AND W. G. MATHER.

LARGE SUMS ARE AT STAKE

Considerable Interest in Regent Mine Group Is the Prize for Which the Parties are Contending—Appeal Probable.

Judge Knappen this week handed down an opinion in the case of the Arctic Iron Co. vs. the Cleveland-Cliffs Iron company and William G. Mather, in which the suit of the complainants for an accounting on large transactions is granted.

The Arctic Iron company asked for an accounting on, first, the profits on one-fourth of the ore from the Regent group of mines (minimum annual tonnage 200,000) from 1897, to date; second, all future profits on one-quarter of the ore produced; third, one-fourth of the stock of the Regent Iron company; fourth, one-sixteenth of the fee of the Blue, Queen and Prince of Wales mines, the Regent group, and, fifth, one-sixteenth of all royalties and ground rents on the Regent group since April, 1899.
