AUTO OWNERS WANT ROAD TO MARQUETTE

COPPER COUNTRY MOTORISTS AGITATING THE CONSTRUCTION OF FINE HIGHWAY TO THE QUEEN CITY.

Agitation has been started among a number of leading automobilists of Houghton county towards taking some steps to have an auto road between the copper country and Marquette, according to The Houghton Mining Gazette.

As far as Houghton county extends the roads are in a fairly good condition for automobilizing, while in Marquette county they are also in good shape.

With roads fairly good the run from Houghton to Marquette by auto could be made easily in a couple or three hours, depending entirely upon the speed of the machine, and owners would have plenty of opportunity afforded them for long spins.

Several auto owners have been questioned concerning the feasibility of such a plan and all believe it could be accomplished without much trouble.

The roads in the southern end of Houghton county, beyond Chassell, are not in as good condition as they might be, yet they would be satisfactory for auto touring.

On Thursday next a good roads institute will be held at the court house at Houghton, presided over either by State Highway Commissioner Horatio S. Earle or his deputy Frank Rogers, and here opportunity will be afforded to bring up the matter of the proposed auto speedway.

BIG AUTOMOBILE SHOW OPENS.

Machines Valued at Over \$2,000,000 Are Exhibited at Chicago.

Chicago, Feb. 7.—With over \$2,000,000 worth of automobiles on display, represented by 300 latest types of the leading cars, the whole offered by a decorative scheme of beauty that has never been surpassed in an automobile show in this country, the eighth national motor car exposition opened at the Coliseum and First Regiment Armory here with an attendance that exceeded the initial day's patronage last year by several thousands.

Great lessons are offered by the exhibits, which are shown by 278 different makers. One keynote sounds above all the din of the throngs, however, and that is that the manufacturers are making cars for the masses; that the popular car of the period is the medium-priced machine, and that the time has come when it is largely a matter of selling automobiles. Time was when automobiles were bought—everybody had the desire to indulge in the fad and paid any price. Now everybody wants an automobile because it is a necessity, and the makers must look to their quick sales and small profits to meet the new conditions.

One of the features of the show—motorcycles—is expected to make a favorable impression on the public, no less than twenty-one makers having obtained space for their exhibits, many of them being twin cylinder motorcycles with seven horsepower ratings.

WORLD'S MOST POWERFUL SHIP.

U. S. Battleship Delaware the Mightiest of All Men-of-War.

Newport News, Va., Feb. 7.—Compared with the battleships, completed or under construction, of the navy of any other country, the Delaware, successfully launched here yesterday, surpasses all. She is one of four sister ships authorized by congress which will form an indomitable squadron. The other vessels are the North Dakota, being built at Quincy, Mass.; the Florida, which will be built at the New York navy yard, and the Utah, to be built at Camden, New Jersey.

CAT SAVES LIFE OF BABY.

Bowling Green, O., Feb. 7.—"They can have my kitty," sobbed little Annabelle Mercer of Weston, when informed that the only hope of saving the life of the nine-month-old baby of H. T. Shaffer was binding the freshly removed pet of a healthy cat upon the baby's stomach.

POLICEMAN ARRESTS OWN WIFE.

New Orleans, Feb. 7.—Patrolman Freitage is a believer in the doing of one's duty however Spartan-like it may be. He arrested his own wife when she and a neighbor engaged in a difficult. He marched both women to the station and preferred a charge against them of disorderly conduct.

CAPE-TO-CAIRO RAILROAD. Trip from Paris to Cape Town in 11 Days May Be Possible in Three Years.

New York, Feb. 5.—It is estimated by F. von Gheel-Gildemeister, chief engineer of the Cape-Town-Cairo railway syndicate, that the Cape-to-Cairo railroad will be finished in three years. There is a stretch of about 2,500 miles yet to cross. When this road is built and the system is in operation the trip from Paris to Cape Town can be made in eleven days. A total length of the road will be 6,400 miles, the longest railroad in a straight line in the world. It is estimated that total cost of the new road will be \$1,000,000,000. The road will be operated by both steam and electricity. Branches east and west to the coast will tap the main north-and-south line.

ENGLAND PLANS NEW WAR AGAINST THE "MAD MULLAH."

Cairo, Egypt, Feb. 7.—Despite England's official denial that it is preparing for another campaign against the "Mad Mullah" of Somaliland, in northeast Africa, it is well known in military circles here that such a campaign is on foot and that it will be warfare of extermination. Officers and men to reinforce the British Somaliland forces have been passing through here steadily for several weeks. Several companies of the army service corps, on their way home from South Africa, are to be stopped on their arrival here and sent to the front.

REVISION OF THE TARIFF A TREMENDOUS TASK.

Washington, Feb. 7.—All is not plain sailing with the committee on ways and means. It has troubles which are so intimate a character that the committee cannot advertise or even discuss them. Of the twelve Republican members who have in hand the framing of the new tariff bill, the line-up for and against revision downward is exactly even, with two members at times voting one way and at other times another.

WAYS AND MEANS COMMITTEEMEN OF THE HOUSE FIND IT, IN FACT, ALMOST SUPERHUMAN.

Washington, Feb. 7.—All is not plain sailing with the committee on ways and means. It has troubles which are so intimate a character that the committee cannot advertise or even discuss them. Of the twelve Republican members who have in hand the framing of the new tariff bill, the line-up for and against revision downward is exactly even, with two members at times voting one way and at other times another.

SAILS TO GET \$60,000,000.

SEA CAPTAIN AFTER TREASURE TAKEN FROM PIRATES SAYS HE WILL FIND IT.

San Francisco, Feb. 7.—Captain James Brown, member of a party that searched for the famous Ocoos island treasure in 1850, has sailed again for the South seas in hopes to recover the spoils taken from the Spanish freebooters by Captain Smith of the schooner Black Witch, which sailed from Salem, Mass., in 1820. Venturesome treasure-seekers have often sought the rich plunder, but all that has ever resulted has been countless rumormongers of the sea.

KILLED STEPMOTHER; FINED \$150.

Waycross, Ga., Feb. 7.—Kinch Wilkins, a young man who shot and killed his stepmother, returned after being a fugitive from justice for four years. He pleaded guilty to "shooting at another" and was fined \$150 or nine months' imprisonment. He paid the fine.

EIGHT MEN TO BE HANGED.

Baton Rouge, La., Feb. 7.—Friday, March 5, will be hangman's day in Louisiana. Eight men, the largest number to be executed in one day in the state for years, will be hanged at that time unless the executions are stayed.

A LAUGH OR TWO.

A Distinguished Sufferer. The sufferings of dramatic authors at the first night performances of their plays are said to be so acute that few of them dare to sit in front of the dramatic debut of the children of their brain. Thackeray, in his "Virginia" is said to have been sitting in a neighboring coffee house while the first production of the "Carpeaux" is in progress, receiving bulletins of its reception from his friends, and doubtless consoling himself with copious drafts of stimulating liquors as a sort of insulation against unhappiness in case things should go wrong. It is said that W. S. Gilbert, the author of "Patience," "Pirates," and "The Mikado" has never yet attended a premiere of any of his many successful operas and plays, dreading the nervous strain of the ordeal. Even Lord Byron, who was supposed to be a callous sort of person, in so far as caring for the world's verdict was concerned, is said to have been completely wretched at the first production of his play, "Deceit, Thru Life."

WILL MOVE AN ENTIRE TOWN.

Winnipeg, Man., Feb. 7.—Cowley, in southern Alberta, a small town on the Canadian Pacific railroad, will be moved bodily to a new site two miles south of its present location this week. The railroad will pay the entire expenses of moving.

SCOTTISH SHIPPERS GO ON STRIKE AND MILES OF CARS ARE TIED UP.

London, Feb. 7.—A unique railroad strike record is being made in Scotland. The Scottish railroads combined to impose a demurrage charge of thirty-six pence a day upon all freight cars delayed in mines, mills and factories. Shippers met and combined in opposition against the railways, and 50,000 empty cars have been thrown on the railroads since Monday. One hundred miles of sidings are filled with empty cars. Proprietors of mines, mills and factories declare they will not pay the demurrage charge, no matter what happens. Many mines, mills and factories are closed, rendering thousands workless. The extraordinary strike promises to be expensive to both sides.

HIGH CHINESE OFFICIALS ARE DISMISSED IN DISGRACE.

Pekin, Feb. 7.—Chen Pi, president of the board of communications, and three under-secretaries of the board have been dismissed in disgrace. Chen Pi had been impeached on charges of corruption. The failure of the board of communication to float a domestic loan of \$5,000,000 to pay the shareholders of the national telegraph system embarrassed the government and Chen Pi began negotiations with the British, French, German and Japanese banks for this money. The terms imposed were described as humiliating.

KING EDWARD TO GET ROYAL WELCOME IN BERLIN.

Berlin, Feb. 7.—Preparations for the reception in Berlin on Tuesday of King Edward are practically completed and cover four days to Friday, when his majesty will leave. The decorations of houses along the route of march from the railroad station to the castle are being prepared on a sumptuous scale and the population is showing great interest in the visit and is anxious to demonstrate its admiration of the German king.

WILL MOVE AN ENTIRE TOWN.

Winnipeg, Man., Feb. 7.—Cowley, in southern Alberta, a small town on the Canadian Pacific railroad, will be moved bodily to a new site two miles south of its present location this week. The railroad will pay the entire expenses of moving.

ERICK HOYSETH LANDS OFFICE HE SOUGHT

ISHPEMING MAN ELECTED PRESIDENT OF THE NATIONAL SKI ASSOCIATION AT EAU CLAIRE SATURDAY.

Erick Hoyseth of Ishpeming and Aksel Holter of Ashland were elected president and secretary, respectively, of the National Ski Association at the fifth annual convention held Saturday evening at Eau Claire, Wis. Mr. Hoyseth was opposed by Dr. Mason of Superior, who came within two votes of defeating the late Carl Tellefsen for the presidency a year ago, and who was later elected treasurer. A newspaper man of Chippewa Falls was a candidate for the secretaryship, and he would likely have been elected without opposition if Mr. Holter had not been prevailed upon by friends to reconsider his decision to withdraw. The Hoyseth and Holter supporters worked together and both men were elected by good margins.

The announcement of Mr. Hoyseth's election will be received with much satisfaction by his friends and members of the Ishpeming club. His candidacy was urged by Mr. Bebe of New York, who presented his name to the convention, on the ground that Ishpeming was entitled to the executive office, on account of its being the home of the sport in America, also because the National association was organized here. He said he knew of no member of the association more worthy of the honor than Mr. Hoyseth.

Barney Riley Wins Cup.

Barney Riley, of Coleraine, who was born and reared at the Winthrop, and who carried off the honors in the amateur class at the Ishpeming tournament last February, won the \$200 Norcup, donated by the Nor club of Chicago, for boys and amateurs, at the National meet Saturday at Eau Claire, young Riley being the star performer. Those eligible to the boys' class were under eighteen years of age. Riley is about sixteen. His best jump was 125 feet, the longest jump of the day, but he failed to stand. Ingwald Hendrickson, the Eau Claire lad, who jumped 128 feet and stood in a tryout on the Eau Claire slide last Thursday, was a close second in the boys' class. He had no difficulty winning the Eau Claire club's silver cup for the local rider having the best score.

Ingwald Sands of Minneapolis won the gold medal of the National Ski association, for amateurs. His best jump was standing jump of the day was made by Dan Strom of Minneapolis, who made ninety-seven feet and stood, taking a special prize offered by the Eau Claire club. The jump was moved back twenty feet at the conclusion of the amateur contests in the hope that the professional also competing yesterday would make jumps of 150 feet or more. The total points of each of the nine best performers in the boys' and amateur classes Saturday were as follows:

B class boys—Barney Riley, Coleraine, 223 1-3; Ingwald Hendrickson, Eau Claire, 222; Ralph Volkman, Eau Claire, 219; John Kempe, Red Wing, 180 2-3; M. Johnson, Cameron, 189; Enoch Johnson, Red Wing, 188 1-3; Albert Sands, Chippewa Falls, 187; Carl Hotvedt, Eau Claire, 180; Tommy Hagen, Eau Claire, 178.

B class amateurs—Ingwald Sands, Minneapolis, 211 2-3; Sigurd Carlson, Coleraine, 204; Dan Strom, Minneapolis, 190 1-3; John Boye, St. Paul, 190; Alf Kuntson, St. Paul, 188 2-3; E. Bergelain, Superior, 185 2-3; Thomas Running, Eau Claire, 177 1-3; Severin Olson, Minneapolis, 175; S. Hendrum, Duluth, 169.

Barney Riley is to participate in the tournament here on Washington's birthday, when it is expected that he will break his previous record of 109 feet, without falling, on the local slide.

SNARING MANY RABBITS.

A Winthrop sportsman complains of the manner in which rabbits are being killed. Snarers are set in many places and many rabbits are being caught in snares. One day last week he met a boy not more than fourteen years of age bringing home seven, as many as he could carry, and other boys, also some of the men, have taken dozens of rabbits with their snarers. There are many more rabbits being killed in snares than with guns.

GAS MEN WIN MATCH.

In a bowling match between teams representing the Marquette County Gas & Electric company and the Carpenter Cook company at the Bank street alleys Saturday evening the former won by twenty pins. The scores were:

McDonnell	96	157	139	392
Prosvig	132	124	150	406
Pronvick	152	152	139	443
Totals	380	433	428	1241

CONSOLIDATED FUEL & LUMBER CO.

COTTAGE FOR LOCAL CAMP.

Woodmen Plan Representation at Society's Tuberculosis Sanitarium.

The officers of Hennate camp of the Modern Woodmen of America are soon to begin soliciting funds to be used in the establishment of a cottage at the society's new tuberculosis sanitarium near Colorado Springs, Colo. Only members of the order will be asked to contribute and it is planned to raise about \$250, which will pay for the erection of the cottage, as well as all the material and equipment used in it. A dancing party will probably be given as a means of raising part of the money.

A number of the camps of the society in Illinois and other states have provided cottages at the institution, and many more are expected to be contributed. The cottages are built of canvas, with concrete floors. There will be but one patient in each cottage. All of the cottages are to be furnished alike, with steel beds and other sanitary fittings.

The management of the society is making good headway with the establishment of the cottages and other buildings. Some large structures are being erected and it is thought that in time several hundred patients will be cared for. The first colony of sixty cottages, or tents, was recently completed and sixty more are now under construction. All of the first sixty are occupied. With the funds available the patients are cared for without cost, except for their transportation charges. It is expected that before the close of this year there will be accommodations for nearly 500 patients. Treatment will be confined to Woodmen or members of their families. A large force of men is now employed on the buildings and grounds. The tract is said to be one of the most attractive in Colorado and when the lands are under cultivation they will produce more than enough vegetables, fruit, etc., to supply the sanitarium.

SIGNALING BY AIR.

Westinghouse Device Replacing Other Bell Systems in Many Mines.

That the Westinghouse Air Brake company's pneumatic system of signaling, which has been in use for many years on passenger trains, will in time replace the pull bell and electric systems at many of the mining properties is conceded by mining men generally. The system has been introduced in a number of mines and has worked satisfactorily.

In the Westinghouse apparatus there is only one moving part, this being the small lever of the discharge valve. Another advantage over other systems is the fact that the signal sender has always the means of knowing whether the signal has been delivered to the engineer. Changes of temperature, likely to occur from changes of currents, do not affect the working of the system. If any accident should happen to the apparatus which would allow the air to escape, a warning is at once automatically given to the engineer.

It is said that the compressed air system also has advantages in the matter of cost of maintenance. In most of the mines where it is now in use the cost for repairs have been trifling, while the system does not require the almost constant care necessary in keeping an electric system in perfect working order. Most of the mines, and practically all of the larger ones, of this range, are equipped with electric systems. Only in the smaller properties are the pull bell systems in use.

Father says: "Say, mother, can't you make us some more of those fine doughnuts if I will bring home a pair of Cudahy's Peacock lard again?" (7-29-o)

STRONG PLEA MADE FOR EX-CONVICTS

REV. J. M. ROGERS POINTED OUT DEFECTS IN PROPOSED BILL OF POLICE BOARD.

WORKING ON WRONG TRACK

Suggested That Commission Enforce the Laws Rather Than Hound Released Prisoners.

In accordance with the announcement made in Saturday morning's Mining Journal, the Rev. J. M. Rogers spoke at the Presbyterian church last evening on the proposed bill to require all prisoners paroled or discharged from the upper peninsula branch prison to be returned to the county from which they were sentenced, or to their homes, which measure originated in and is being fathered by the police commission of this city.

Facts vs. Statements. "The statement has been made, I read in the newspapers, that there are at least thirty paroled and discharged prisoners in this city, whose homes are below the straits. After careful research, I am able to find but sixteen paroled men who have friends in this city, and some of those sixteen are residing many miles from here. I take it for granted that the prison is wanted here. It pays about \$40,000 in salaries annually into this city, and I believe it would be a blow to the community to have it removed to any other place. We ought then to be willing to stand any little inconveniences its presence here may entail. I find that about 1,000 men have been discharged or paroled from the prison in the last sixteen years. If but thirty are now residents here, the proportion is not so very large and should excite no great alarm.

"We are informed that the prisoners at Marquette are mostly incorrigible, and that their continually increasing number in this community is a constant and growing menace to its citizens. This comes as quite a shock and surprise, for have we not thought Marquette a peculiarly safe place? Have not the number of burglaries, thefts, and other crimes been remarkably few? "Within the last five years, 522 men have been received at the Marquette prison. Of this number, 411 were first offenders and 111 who might be considered of the habitual and desperate criminal class. Many of these first offenders are under twenty-one, a fact which is so evident to visitors, that it was a subject of remark among the legislators who visited the prison last week. It is true that the state board has recommended that several term men be sent to this prison, but most judges have exercised their own sweet will about this recommendation, and the figures I have presented show that this prison can scarcely be called peculiarly a prison for the incorrigible and desperate class of criminals.

"If it is true that numerous crimes have been committed by these paroled and discharged convicts in this county, as is claimed by those putting forward this bill, why has not somebody been arrested? The prison records show that Marquette county has had the least number of convictions for penal offenses in proportion to its population, of any county in the upper peninsula, with the exception of Menominee county, where criminals are enabled to escape the law easier than in other counties, because of its nearness to another state. If it is true that the presence of these discharged convicts requires an additional number and extra precautions on the part of the police, as is claimed, the police have evidently been more successful in running them out of the county than in catching them here. "It has been stated that eighty per cent of the paroled men are sent back to the prison for violating their parole. The records show that out of 168 men paroled, thirty-eight are known to have violated their parole, twenty-six of whom have been sent back to the prison and twelve have made their escape. This means that eighty per cent have made good and but twenty per cent have violated their paroles.

Is a Hard Fight. "The general public cannot realize the hard fight that these men must make under the most favorable conditions against the sneers and faithlessness of men in their struggle to make good. The papers do not say anything about the eighty per

COUNTY REPUBLICANS MET IN CONVENTION

TWENTY-TWO DELEGATES CHOSEN TO ATTEND STATE CONVENTION AT GRAND RAPIDS NEXT FRIDAY.

The Republican county convention held in the Marquette city hall Saturday at 11 o'clock was well attended and entirely harmonious. Twenty-two delegates and six alternates were elected to represent Marquette county at the Grand Rapids convention to be held next Friday. At the Grand Rapids convention, candidates will be nominated for the following state offices: Two candidates for the office of justice of the supreme court, two candidates for the office of regent of the university; one candidate for the office of superintendent of public instruction; one candidate for the office of member of the state board of education; and six candidates for the office of member of the state board of agriculture.

The convention was called to order by E. W. MacPherran, secretary of the Republican county committee, and F. A. Bell was chosen temporary chairman, and A. J. Yungbluth, temporary secretary, of this occasion, which organization was later made permanent. The following committees were, on motion, named by the chairman: Credentials—W. T. Potter, D. W. Powell and C. J. Driscoll. Permanent Organization and Order of Business—James J. Donovan, Wade Siebenthal and James Clancy. Resolutions—E. E. Scribner, James Russell and A. E. Sterne. To Select Delegates to the State Convention—J. H. Rough, Gad Smith, W. T. Potter, M. J. Sherwood and C. B. Driscoll.

The following delegates were recommended by the last named committee to attend the Grand Rapids convention, and their choice was ratified by the members of the county convention: Gad Smith, M. M. Donovan, Thomas Waiters, H. O. Young, W. H. Johnston, W. T. Potter, William P. Belden, Fred Braastad, James Clancy, John R. Gordon, Chas. J. Byrnes, F. A. Bell, C. V. R. Townsend, Alexander Mattland, A. B. Eldredge, D. W. Powell, John D. Mangum, S. R. Kaufman, M. J. Sherwood, James Russell, F. G. Jenks and C. R. McCabe. Six alternates were also named: D. T. Morgan, C. R. Brown, J. J. Donovan, E. E. Scribner, C. L. Sporey and T. A. Thoren.

Stone and Wright Endorsed. The committee on resolutions offered the following endorsing the candidacy of Judge John W. Stone for justice of the supreme court, and that of Luther J. Wright for superintendent of public instruction, which resolutions were unanimously adopted: Marquette, Mich., Feb. 6, 1909.

Whereas, the Hon. John W. Stone, presiding judge of this judicial circuit, has consented to be a candidate for justice of the supreme court, a position for which he is eminently fitted, by reason of his legal learning, his unspotted integrity and his long experience on the bench; therefore resolved, that this convention instruct the delegation here assembled to represent this county at the state convention in Grand Rapids to use all honorable means to secure his nomination for that office.

Be it further resolved, that this convention heartily endorse the splendid record of the Hon. Luther J. Wright, state superintendent of public instruction, who was elected at the last general election, to succeed himself in that office. The operation of the new constitution requires the nomination and election of state superintendent of public instruction this spring. We therefore urge the renomination of State Superintendent Wright. Committee. E. E. SCRIBNER, JAMES RUSSELL, A. E. STERNE. Delegates from County. The following is a complete list of the accredited delegates who sat in the county convention: —Township— First Ward—Manville Jenks, John Anderson. Second—F. E. Keese, James Clancy. Third—W. T. Potter, John Jones, Fred Tommessen, E. E. Scribner. Fourth—Oscar Nord, John Lemm, Sr. Fifth—C. J. Byrnes, A. E. Sterne. Sixth—J. H. Williams, Otto Franzen, John Hokanson. Seventh—C. T. Kruse, John H. Dumston. Eighth—Not represented. Ninth—A. J. Yungbluth, H. L. Ramsdale. Tenth—Nathaniel Rowe. —Marquette— First Ward—James Russell, John D. Mangum, Peter Boyer. Second—James J. HARDWOOD FLOORING. We deliver direct from our dry kilns. No shrinking or warping after being laid. Consolidated Fuel & Lumber Co. (9-23-17)

GREAT SALE MEN'S FINE CLOTHING AT 1/2 PRICE

In this remarkable sale customers have the advantage of securing finer clothing at \$7.50 to \$15.00 than we could ordinarily buy to sell at almost twice the price. Our only motive in offering this radical reduction is to make a final clearance of all our broken lots (blacks and blues included). The manner in which the public has responded to our first announcement of this sale verifies the values we are offering. This sale will last but a short time and the grade of clothing offered is worthy of anticipating your wants for several seasons to come. 20 per cent reduction on all late arrivals of Overcoats and Suits.

Jacob Rose The Store of Quality, Marquette.

CHINA SALE During this month (February) I will offer all of my stock of China at a discount of 10 to 50 per cent. A Good Time to Buy. A. M. BICELOW 104 Washington St., Marquette. 2-3-09
