Entered as mail matter of the second class in the postoffice at Marquette, Mich. Mr. Townsend of Michigan appears to be what might be called a provisional insurgent.

Representative Maxey of L'Anse appears to be one of the live members of the legislature of 1909.

The California legislature may have made a bad start, but it appears to have made a most excellent finish.

The prosecutor of Jackson county is displaying great zeal in the prison case, with which to work.

A WISE STEP.

The Mining Journal believes that the house acted wisely in passing a resolution providing for shutting off the sale of the state lands, pending the consideration and disposal of the report of the special commission on state lands and forestry for Michigan. That report, which has been discused at length in The Mining Journal, made up, as a whole, a startling arraignment of the

past management of the state land office and justified a conclusion that the A MORNING PAPER PUBLISHED BY THE state's general land policy has been shortsighted to the border of being a crime against the people.

> Lands, it is charged, have been sold at appraisals of a mere fraction of their value. The testimony of the commission on this point was borne out by Mr. Maxey of L'Anse, who pushed the withdrawal resolution through the house, that he bought lands at \$18 an acre, and considered he was getting gool value, only to learn that the state had given title to the identical lands at the rate of \$1.25 an acre. Obviously there is something rotten with a system under which such conditions can exist, and, obviously, the sale of any more lands cannot be cut off too quickly, pending its readjustment.

The state lands have served for little better purpose than to give profit to land speculators, to furnish the basis for a ceaseless round of extravagant tax list and seems to have abundant material advertising and for the employment of a large force of clerks at Lansing whose services, under any sane system, could Marquette. -As a matter of fact, you know, Mr. be dispensed with, or at least paid for

C C REMOVES THE CAUSE

No remedy that does not entirely remove the cause of Catarrh from the blood will ever make a permanent cure of the trouble. Just as long as the circulation remains contaminated with the impurities and catarrhal matters which produce the trouble, the mucous membranes or inner linings of the body will be kept in a state of irritation and disease. Sprays, lotions and other local applications will sometimes temporarily relieve the tight, full feeling in the head, buzzing noises in the ears, uncomfortable, stuffy feeling of the nostrils, and help to loosen the mucus in the throat; but Catarrh is a constitutional blood disorder and until it has been entirely driven from the system there can be no permanent cure. S. S. S. cures Catarrh by removing the cause from the blood. It attacks the disease at its head and by thoroughly purifying and cleansing the circulation, and ridding it of every particle of impurity, and at the same time enriching the blood, allows the inflamed and irritated membranes to heal, improves the general health, and stops every disagreeable symptom. S. S. S. reaches down to the very bottom and leaves no trace of the disease in the system. Book on Catarrh and any medical advice free to all who write.

IT PAYS TO ADVERTISE.

Sellwood & Co. Had an Unusual Rush for Lincoln Badges Yesterday,

The announcement in the Ishpeming department of The Mining Journal that I. Sellwood & Co. would give away Lincoln badges to the school children was the occasion of a big rush at both stores vesterday. As soon as the schools were dismissed children were seen running in all directions, and within thirty minutes both of the spacious store rooms, as well as a goodly portion of the sidewalk, were occupied by the young folks. The girls were directed to get their badges in the dry goods store, while the distribution to the boys was made in the grocery de-

partment. For a time it looked as though some of the larger youngsters would trample on the smaller ones, and it was with no little difficulty that they were restrained while the badges were being passed out. "Stop your shoving," "Get off my toes," "I was here first," "You can't get ahead of me," "Please let me get out of this crush," "Please give me an extra one for my little sister.

To have a money surplus—capital in reserve is simply throwing an anchor to windward. It will prevent your drifting on to the rocks of dependence and want.

The time to build up a reserve, a safeguard for the future, is now, when you are strong and able to work and sacrifice. You don't know about the future, but you do know that now, today, you are able to earn and save. Make

the most of your present opportunity and prepare yourself for greater ones later on. Start a savings account here now. Your money will earn 3 per cent interest and be safe and available.
