

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Of course if the legislature wants to investigate the Jackson prison on top of the grand jury inquiry there is no particular reason why it shouldn't do so.

Senator Knox is pretty well off in the world's goods, so it wouldn't be so hard on him to take the office of secretary of state at \$8,000 as it would be on perhaps some other man.

It would perhaps be too much to say that it has been demonstrated that Senator Hopkins of Illinois cannot be re-elected, but certainly the probability now appears to be against it.

Doesn't President-elect Taft know that he is inviting a terrific blast from Harper's Weekly by his statement that the Gatun dam can be built without any danger of its being washed out?

It is denied from Madison that the Wisconsin electors cast their ballots for William H. Taft of New York.

From the national capitol to the remotest cross roads school house—the name of Lincoln was glorified yesterday.

It appears that Senator Stephenson's endorsement for re-election at the hands of the Wisconsin voters would have been a more striking honor if the senator had not been under the necessity of opening his "b'r'r" so wide to get it.

The difference between the last legislature and the present one is epitomized in the vote on the anti-lobbying bill that passed the senate Thursday with only three senators in opposition.

The Wisconsin legislature has completed plans for the proposed investigation into charges of corruption in the advisory vote on the candidates for United States senator polled last fall.

It's now ex-Warden Armstrong, the former head of the Jackson prison having resigned at Governor Warner's request, and saved the governor and board of control the trouble of preferring formal charges as a preliminary to removing him.

A discussion of the constitutionality of the Young bill is entirely unnecessary locally, inasmuch as the membership of the rivers and harbors committee in-

cludes some of the brightest legal minds in congress, and it may fairly be assumed that constitutional objections have been met successfully in the discussion by the committee of the provisions of the measure, says the Soo News.

The resolution introduced by Representative Clarke of Detroit for an investigation of all the prisons of the state with the purpose of seeing whether it would not be advisable to supplant the present contract system of employing the convicts by a system under which they will be employed by the state, and the state be made the beneficiary of their capacity for cheap production, is one that, it would seem, might well be passed.

A GOOD MAN HONORED. The Republicans of the state honored a good man and an able judge yesterday when they nominated the Hon. John W. Stone of Marquette for the supreme bench to succeed Justice Claudius B. Grant.

The Wisconsin legislature has completed plans for the proposed investigation into charges of corruption in the advisory vote on the candidates for United States senator polled last fall.

It's now ex-Warden Armstrong, the former head of the Jackson prison having resigned at Governor Warner's request, and saved the governor and board of control the trouble of preferring formal charges as a preliminary to removing him.

penditures. Even if the total given were correct he would cover up all expenditures liable to question, and it would not be a difficult thing to do.

There will be general agreement that Senator Stephenson's outlay in the primary campaign was far too extravagant. It amounted to just about twice the senator's salary for the six-year term which he sought.

It is perhaps to be doubted whether Senator Stephenson's statement will have much effect one way or another on the Wisconsin deadlock, for the members of the legislature have had approximately exact information as to the size of his campaign outlay.

Thursday was generally given up to exercises commemorating the one hundredth anniversary of our martyred president, Abraham Lincoln.

The exercises began at 9 o'clock with the singing of America. After this President Kaye made a few remarks suitable to the occasion.

After the close of the Assembly exercises, the Seventh grade held their exercises. The following is the program in full: Quotations from Lincoln.

their power and in 1780 founded the Old Regime. The speaker touched upon the awful period of war which followed, but endeavored to show that in spite of that the great principle of democracy in the governments of western Europe is with the exception of the case of England a direct result of the French Revolution.

On Tuesday and Friday of next week the Marquette county institute will be held at Ishpeming. In accordance with custom the Normal school will close and the members of the faculty will attend the sessions.

On Tuesday evening next the senior class will entertain the faculty and a few invited guests from the city at a colonial party.

School was closed yesterday in honor of Abraham Lincoln.

Copper Country

TWO YOUTHS IN TROUBLE.

Bound Over Under \$1,000 Bonds Upon Charge Made by School Girl.

Ernest Olson and Major Donahue, two Hancock youths, against whom a serious charge had been preferred by the parents of Hannah Turpe, a fourteen-year-old girl, were arraigned in the court of Justice of the Peace Oliver yesterday morning and upon waiving preliminary examination were bound over for trial in the circuit court. Their bonds were fixed at \$1,000 each.

The charges against the two young men following a sensational arrest made about ten days ago by Hancock police. At that time it was charged that a number of young men were discovered in a room with the girl. The room in question was at one of the hotels. After the charges of disorderly conduct which were made in connection with this arrest were disposed of, the parents of the girl made new complaints and had warrants issued upon the two boys now involved. Not long since the girl was arrested upon a charge brought by her father, who states that she is incorrigible. She is to be sent to an industrial school, but she will be kept in Hancock as a witness until the case of the two youths is disposed of. The case of Ruggiero Sadini, who was charged with assault with intent to do great bodily harm, was called in Justice Oliver's court yesterday morning, but was postponed for one week by reason of the inability of the prosecuting witness, Gresti Loni, to appear. He had Sadini arrested upon the allegation that in a fight at the Franklin location Sadini had stabbed him.

ORDINANCE AFFECTS PLUMBERS.

An ordinance that was passed at the Houghton council meeting this week is one that restricts plumbing work and at the same time protects resident and recognized plumbers. It requires that all plumbers shall take out a license and shall file a bond in the sum of \$2,000. Applicants must be qualified plumbers and must have established places of business. Also the ordinance directs that permission to erect buildings must be obtained before certain kinds of work may be done and that danger lamps must be placed at openings in the streets in the night time. The ordinance is somewhat similar to one enacted by the Hancock city council some months ago. It is a big advantage to local plumbers in that it excludes from the village journeyman members of the trade who otherwise could come in and compete and in other ways it is of value to them.

LINCOLN DAY.

The offices of the stock brokers did not receive market quotations yesterday, and a number of business establishments were closed in various parts of the copper country, but the Lincoln centenary was not generally celebrated outside of the schools, in all of which appropriate programs were given. The anniversary had already been celebrated in most of the churches. The Michigan College of Mines suspended classes for the day. At the Finnish church in Hancock a program was given. In the evening the big military ball of the Hancock G. A. R. and the Spanish War Veterans was held at Germania Hall.

FUNERAL OF WILL RICHARDS.

The funeral of William Richards, Jr., of Lake Linden, who died Thursday, after an illness of several months, will be held tomorrow morning. The deceased was born in Lake Linden and had lived there all his life save for a brief period when he went to Oshkosh, Wis., to attend school. For several years he was a conductor of the traction line between Houghton and Calumet, and it was while he was engaged with this work last year that he became ill. He was twenty-three years old.

ORATORICAL CONTEST.

A novel entertainment that promises to prove interesting is the temperance oratorical contest which will be announced yesterday will be held at the Lake Linden M. T. church, under the auspices of the Epworth league next Tuesday evening. The contestants will deliver orations upon the subject of temperance and the ability displayed by the speakers will be rated by competent judges. To the winner a prize of \$5 in gold will be given and \$2.50 in gold will go to the second best. In connection with the speaking, a program of musical numbers will be given.

BIG METER CAUSES TROUBLE.

Question of Pumping Charges an Issue Between Town and Company.

At the meeting of the Houghton village council held Thursday evening it developed that Houghton has not paid anything for the pumping of its water for several months; in fact, since last September, and the prospect is that interesting complications will grow out of the situation. The question at issue in cash amounts to something like \$400 annually.

It was last summer that the Houghton council came to the conclusion that something was amiss with its pumping bills. The water supply for the village is pumped and has been since the system was established by the Houghton County Electric Light & Power company. A committee appointed to look into the situation ascertained that the amount of water pumped was computed by the power company upon the working of its machinery—so many plunges of certain pistons, so many gallons of water—and upon the estimate arrived at in this manner, the charge against the village was fixed. When this was submitted to the council it seemed that an improvement could be made and the council forthwith bought a big meter, one of the biggest in the copper country, and installed it. The first month's pumping after the meter had been installed seemed to demonstrate that the council had crossed right, for the bill computed by the meter was some thirty-old dollars less than the charge of the company computed upon the work the machinery had done.

The council wanted to pay the bill according to the meter reading and the company wanted it paid according to its machinery reading. The company refused the council's payment and every month since—the bills have continued to differ as they did the first month it has refused to accept the payment offered by the village. Nothing has happened so far. At the meeting Thursday the village attorney was instructed to draft a contract to be submitted to the power company. Under this the village is to pay its pumping bills in accordance with meter readings and the village guarantees the accuracy of the meter. Whether the company will accept this contract and what will be done about payments now due from the village are questions that doubtless will prove interesting.

TREASURER'S SALARY FIXED.

Following a number of discussions at preceding meetings of the Houghton village council regarding the salary of village treasurer, the council has taken definite action with the result that instead of being a thing of heavy uncertainty the compensation of future treasurers will be definitely fixed. In the past the officer has paid \$1,200 annually as a salary, with the addition of fees of various sorts. Hereafter the salary will be \$25 a month and one per cent of collections. The change, it is stated, effects a material difference in the paying qualities of the position. The change has not yet been formally made by ordinance, but according to purposes set forth at the meeting Thursday an ordinance covering the matter will be adopted at the March meeting. The council is making the change in ample time for all prospective candidates for the office to learn about it.

COPPERDOM BREVITIES.

A son has been born to Mr. and Mrs. Jesse Primer of Hancock.

Calumet lodge, F. & A. M., entertained at a dancing party last night.

Will Duncan of Laurium left Thursday afternoon on a trip to Chicago.

Mr. and Mrs. Peter S. King of Pelkie are paying a visit to friends in Calumet.

Miss Harriet Mitchell of Houghton is confined to her home with an attack of bronchitis.

Mr. and Mrs. Fred Bahr of Duluth are paying a visit to Mrs. Charles Bahr of Lake Linden.

John McNamara has returned to Houghton from Montreal, Can., where he spent last week.

Sheriff C. H. O'Rourke, of Ontonagon county, paid a brief visit to friends in Calumet Thursday.

Mr. and Mrs. C. H. Ueh of Detroit are paying a visit to Mr. and Mrs. A. V. Ueh of Hurontown.

Mrs. W. A. Barritt of Hancock entertained a party of friends at cards Thursday afternoon.

John C. Mann, proprietor of the Douglas House at Houghton, is in Minneapolis, on a business trip.

Mr. and Mrs. Fred Eaton of Calumet left Thursday for Hot Springs, Ark., to spend a few weeks.

The Calumet lodge of Odd Fellows held an installation of new officers, followed by a social session, last night.

The basketball teams of the Calumet and Hancock High schools will play at Calumet Y. M. C. A. gymnasium this evening.

The Ladies' guild of Trinity church, Houghton, will give a coffee at the home of Mrs. W. B. Hoar next Wednesday evening.

The senior class of the Houghton High school gave an enjoyable skating and dancing party at the Amphidrome last evening.

Tom Kennedy of Calumet left this week for Chicago, enroute to Globe, Ariz., where he will visit friends and relatives.

James McClure of Red Jacket has announced himself a candidate for member of the village board, to succeed Angus MacLean.

The principal speaker at the Lincoln anniversary exercises at the Hancock High school yesterday was Rev. W. M. Ward of Calumet.

The defeat of the Houghton hockey team at the Glaciatom Thursday night was Mohawk's first victory. The score was four to three.

Mr. and Mrs. Harry Byrne of Butte, Mont., and Dr. and Mrs. Frank Burton of Duxville, Ill., are guests at the Cuddihy home in Red Jacket.

By defeating the Knights of Columbus indoor baseball team Thursday night, the Elks' team of the Hancock league

ROYAL BAKING POWDER
Absolutely PURE
The only baking powder made from Royal Grape Cream of Tartar

Royal does not contain phosphoric acid (which is the product of bones digested in sulphuric acid) or alum (which is one-third sulphuric acid), unhealthful substances adopted for other baking powders because of their cheapness.

ENTERTAINMENT AT THE FINNISH CHURCH.

The Finnish church, Hancock, Sunday evening, under the auspices of the Young Men's Christian association, Rev. John Luther, will deliver an address on Martin Luther.

George Hocking of Jacobsville states that he intends to have a number of amusement attractions at the White City at Portage Entry next summer. He is making arrangements for a passenger boat service.

The Ladies' Missionary society of the Lake Linden M. E. church are to be entertained this afternoon at the home of Mrs. A. F. Hagen. An appropriate program in observance of the Lincoln anniversary will be given.

That contingent of the Houghton Ski club called sometimes "The Prospect Street Gang" took train to Painesdale Thursday evening and skied in from there, arriving home about midnight, and, as they said yesterday, "all in."

Rev. H. C. Shaw, pastor of the Lake Linden M. E. church, will deliver a lecture upon the subject, "Jean Valjean," at the Calumet M. E. church next Monday evening. The lecture will be the first of a series that will be given at the church.

Friends of Banlet Kent, who was at one time connected with the United States engineering office in Houghton, and who is at present attached to the Detroit office, have received news of his marriage at Battle Creek to Miss Bertha Cassandra Woolgar.

Officers elected at the annual meeting of the Calumet Brewing company are: President, George Hall; vice president, Frank Schroeder; secretary and manager, Charles Schenk; treasurer, Frank Schumaker; director, John Knivel; and auditor, Michael Harrington.

Governor Hughes of New York is not to come to the copper country, at least not within the immediate future. Rev. Mr. Sedgwick, pastor of the Calumet M. E. church, and paying an eloquent tribute to the personality of Washington, Ambassador Jussara continued: "A century of almost unbroken prosperity had nearly elapsed when came the hour of the nation's second trial. The soldier raised by Washington was torn, both land and water, both had doubters. And they were recognized by the nation at large as the men to shape the nation's destinies."

After referring to the trials through which the nation passed in the time of Washington and paying an eloquent tribute to the personality of Washington, Ambassador Jussara continued: "A century of almost unbroken prosperity had nearly elapsed when came the hour of the nation's second trial. The soldier raised by Washington was torn, both land and water, both had doubters. And they were recognized by the nation at large as the men to shape the nation's destinies."

DO YOU KNOW

Our HARDWOOD FLOORING is THOROUGHLY DRIED; also STEEL SCRAPED, which gives it a highly polished surface. It is unloaded from car into dry kiln where it remains until delivered to consumer, which insures you against the usual opening of joints, shrinking or warping after being laid.

Consolidated Fuel & Lumber Co.

Marquette. 7-26-11

PERFECTION

You must not think that it is in the prescription department alone that we are working so that we may claim to have a "perfect" service.

The most extreme care is exercised in the selection of every line of goods in our store.

Especially is this demonstrated in the careful buying of brushes of every description, in the buying of perfumes, the buying of toilet articles and preparations, the buying of drug sundries, such as sponges, channels, skins, rubber goods and also the buying of goods which constitute the many different side lines which we handle.

It will be a pleasure for us to supply you with all your drug store wants.

You will never have reason to complain of our service.

City Brevities

Today's weather: Threatening with snow and cold. Yesterday's temperatures: Seven a. m., 24 degrees; noon, 15; 7 p. m., 8. Maximum, 24 degrees; minimum, 8.

Mrs. C. Carlyle is visiting with friends in Ishpeming.

Mrs. W. McGrath went to Elgin, Ill., last evening.

H. R. Harris and F. H. Begole were Chicago passengers last evening.

Mrs. Helen Fish, of Pentago, Mich., is visiting Mrs. Allan Cowden, of East Michigan street.

A marriage license was issued yesterday to Martin Kola and Annie Thomas, both of this city.

The Saturday Musical Club will meet with Mrs. W. T. Hill, Ohio street, at 3:30 o'clock this afternoon.

Judge and Mrs. C. B. Brown left yesterday afternoon for Grand Rapids and Ohio points, and expect to visit Florida before their return.

Miss Agnes LaFave of Mather street was surprised by a party of her young lady friends Thursday evening, and a pleasant social time was had.

A meeting of the Swedish Crown and Engberg societies will be held at Legion Hall Sunday afternoon at 3 o'clock. The president and secretary of the grand lodge are expected to be present, and all members are requested to attend.

Hockey Game Today—There will be a hockey game at the rink this afternoon between teams from the freshman and sophomore classes of the high school.

Car of Salt Herring—Two hundred kegs of salted herring were shipped to Chicago yesterday from John Parker's fish house. The consignment weighed fifteen tons and filled a freight car.

Salvation Army—The subject of the Salvation Army service this evening will be "A Big Grave, but No Digger." The special services will be continued under Captain J. George Barry's direction until February 21.

Houghton Team Won—The College of Mines team defeated the Ferguson University college team by the score of 31 to 18 in the game of basketball played at Legion Hall last evening. Dancing followed. A large attendance was present.

Death of Child—The infant daughter of Mr. and Mrs. Morris Brazil died at the family home, 512 Washington street, yesterday. The funeral will be held Sunday afternoon at 2 o'clock from St. Peter's cathedral, with interment at Holy Cross cemetery.

Surprise Party—Mrs. John Kind was pleasantly surprised by a number of her gentlemen and lady friends Thursday evening, at her home on North Third street. About thirty were present and the evening was pleasantly spent with music, cards and refreshments.

Democratic Convention—A Democratic county convention will be held at the city hall Saturday, Feb. 20, for the purpose of nominating seven delegates to the state convention, which will meet in Lansing, Feb. 25. The city of Marquette is entitled to eighteen delegates in the convention.

Maccabee Party Tonight—Superior hall, J. O. T. M. M. will again entertain with dancing and cards at Fraternity hall this evening. These Saturday night parties have become noted because of the good time afforded the participants, and the one tonight promises to be no less enjoyable.

May Day Fish Business—Fred Babcock is considering the purchase of the plant of the Lake Superior Fish company of this city, and expects to enter actively into the fishing business next summer. He is understood to have made several trips to up-the-road towns, and to have secured a large part of the business in the places visited.

Eagles' Ball—The grand ball given by Marquette society of Eagles at Fraternity hall last evening was largely attended and was both successful and enjoyable. The tasty and elaborate decorations, which were appropriate to Valentine's day, added much to the pleasure of the occasion. Supper was served at the Colonial.

Funeral Tomorrow—The remains of the late Webster will be received from Birch this afternoon, and will be taken to the residence of William Chubb, 134 Fisher street, whence the funeral will take place Sunday afternoon at 2 o'clock. The Rev. Amos Maywood officiating. Mrs. Webster, who lived at 213 N. Front street, was a blacksmith, and who died while visiting her parents at Birch, is survived by her husband and four children.

Souvenir Letter Given Out—The members of the high school were given five cent copies of Abraham Lincoln's letters to Mrs. Birney, of Boston, by Harry Brock, warms manufacturer, of Detroit, yesterday. This is a letter written by Mr. Lincoln to a woman, who had lost five sons in the service of their country, which adorns the walls of Oxford University, as representing the parent England and most elegant distinction. The letter was written Nov. 21, 1864.

Two Cents Required—With the approach of Valentine's day it is well to remember that matter mailed for local delivery requires a two-cent stamp for each ounce, if sealed. The impression prevails with some people that local or drop letters are carried for one cent. This is a mistake. Souvenir cards containing times, that formerly were permitted to be mailed in transparent envelopes, must now be enclosed in an ordinary envelope and sealed. This makes letter postage necessary.

Takes Ford Agency—Eddy Mathews has closed a contract by the terms of which he takes the Marquette agency for the Ford automobile, and he expects a Model "T" touring car here within a week or ten days for use for demonstration purposes. Model "T" is a five passenger road car that the Ford company is putting out for \$850 and it is said to be one of the best values offered in the country. The Ford line embraces five models of machines, all combining the Ford characteristics of high grade construction with reasonable price. Mr. Mathews looked the line over at the Chicago automobile show this week, and was greatly pleased with it. J. H. Fenner had the Marquette agency last year.

INSURE WITH PETER WHITE & CO. Maccabee dance at Fraternity Hall this evening. Trombly's orchestra will furnish the music.

THEATRICAL

Howe's Moving Pictures.

The Carbondale (Pa.) Leader, of recent date, contained the following flattering notice of Howe's moving pictures, which will be presented at the Marquette opera house this afternoon at 4 o'clock, and again at 8:15 this evening: "One of the largest audiences of the season witnessed the Lyman H. Howe moving picture show last night. Carbondalians and the pleasure of seeing the first reproduction of Messina's convulsion of nature and it was indeed a rare treat. The extent of the holocaust cannot be conceived by imaginary conceptions that are taken from newspaper accounts of the catastrophe, but is fully measured in pictures that were taken immediately after the earthquake.

"The first group of pictures shown reveals to the observer the treasured wealth of art and architecture of Sicily; its romantic beauty and its popular music; its alluring beauty of the coastline and many other magnificent views. After seeing these pictures and the population the spectator can for the first time form an idea of the importance of the country now devastated by the great cataclysm of nature. The pictures shown after the disaster show the massive piles of debris in the streets, buildings some totally destroyed and others just a small part of which project over the mass. The survivors can be seen going over the debris in search of bodies. The red cross nurses can be seen administering aid to the injured and the landing of the first shipment of supplies. The pictures are in every detail profoundly interesting and in the audience last night there were many natives of the devastated country who were again afforded scenes of their native land. The pictures are of a high class order and the program which Mr. Howe affords provides an evening's entertainment that is well worth the few hours spent."

"Honeymoon Trail"

For those of our theatergoers who like musical comedies, the announcement that one of the greatest of all Chicago successes, "Honeymoon Trail," is to be given next Thursday night at the Marquette Opera House will be welcome news. This play is by Messrs. Adams, Hough and Howard, the authors of "The Time, the Place and the Girl," and "The Girl Question," and ran for two hundred nights at the LaSalle theater, Chicago, last season. It has a very clever and consistent story, good comedy, catchy music, delightful songs, and a hearty chorus of clever dancers and singers.

COMMUNICATED.

We are very much surprised to learn that the Normal boys complain of rough tactics on the part of the Marquette City team in Thursday night's game at the Normal. Furthermore, if there was any division from M. C. A. rules, which we deny, it was their own fault, as their self-appointed referee took full advantage of his office to make things hard for the City boys. We feel that the Normals at best are but playing the baby act in making such unnecessary statements especially in view of the fact that they won the game. It was only after the Marquette team agreed to play at the Normal gymnasium, the Normals to have their own referee, and use their own basketball, which was not an official one, that they would agree to play the City five.

Their further disinclination to play was shown by the fact that they omitted the dance and general good time that usually follows a game there, so it is hardly probable to be wondered at that they should put up a baby cry after the game is over.

Marquette City Basketball Team.

SUNDAY AT THE CHURCHES.

Baptist church—The Baptist Sunday school special service will be held at 12 o'clock instead of 10:30 Sunday morning, as first announced.

Salvation Army—Holiness meeting at 11 o'clock; Sunday school at 3 p. m.; special salvation rally at 8 p. m., subject, "The Hope of Marquette." Captain George Barry will conduct these services.

Presbyterian—Morning sermon topics, "Saviors That Have Appeared in Our History." In the evening the pastor will talk of "Lincoln, the Man." This discourse will be of especial interest to young people.

ORGAN RECITAL GRAND BEYOND DESCRIPTION

WM. E. ZEUCH PROVED HIMSELF AN ARTIST OF THE HIGHEST ORDER AT ST. PAUL'S LAST NIGHT.

The organ recital given by William E. Zeuch, of Chicago, at St. Paul's church last evening was grand and beautiful beyond the power of words to describe.

A GOOD START.

First Report of Visiting Nurse Association Is Very Satisfactory.

The first report of the Visiting Nurse association, which has just been made public, shows that the organization has already found a wide scope of usefulness.

In all Miss Bronson has cared for 35 people, afflicted with sixteen forms of disease and sickness. She has responded to 71 calls, and sent two of her charges to the hospital.

In three cases the nurse has found it necessary to summon a physician, the county medical adviser attending two and a local doctor the other.

The relief committee of the association has done a great deal to render material assistance to the patients.

Specifications of Organ. The specifications of the organ, on which last night's program was rendered, are as follows:

Open Diapason, 16 feet 32 notes, wood. Bourdon, 16 feet 32 notes, wood.

Open Diapason, 8 feet 61 pipes, metal. Dotted Flute, 8 feet 61 pipes, metal.

Violin Gamba, 8 feet 61 pipes, metal. Flauto Mager, 8 feet 61 pipes, wood.

Gonshorn, 8 feet 61 pipes, metal. Trumpet, 8 feet 61 pipes, metal.

Octave, 4 feet 61 pipes, metal. Flute Harmonica, 4 feet 61 pipes, metal.

Swell to Great Sub. Swell to Great Unison. Swell to Great Octave.

Two adjustable composition pedals to control pedal stops and couplers. —Great Organ—

Open Diapason, 8 feet 61 pipes, metal. Dotted Flute, 8 feet 61 pipes, metal.

Violin Gamba, 8 feet 61 pipes, tin. Flauto Celeste, 8 feet 61 pipes, tin.

Principal, 4 feet 73 pipes, metal. Eclio Subbassal, 8 feet 73 pipes, metal.

Flauto Traverso, 4 feet 73 pipes, wood. Cornopien, 8 feet 73 pipes, metal.

Flageolet, 2 feet 61 pipes, metal. Glee, 8 feet 73 pipes, reed.

Vox Humana, 8 feet 73 pipes, reed. Tremulant.

though it was cemented with blood." The appearance of Lincoln, said Mr. Sherman, was at the most critical time in the nation's history.

Lincoln, he said, was perhaps the greatest American out his individuality was greater than his personality, and this he said was because he had with him "that stern, unyielding sense of duty, gentle beyond compare, patient beyond belief, his country and his duty were his creed, and to that end he labored unceasingly and suffered patiently."

HISTORIC EVENT COMMEMORATED.

Exercises in Honor of Abraham Lincoln's Birth One Hundred Years Ago Are Held in a Great Many Towns and Cities.

(Continued from Page One.)

here tonight at the Lincoln Day meeting, which concluded an elaborate observance of the centennial of Lincoln's birth.

CELEBRATION AT GRAND RAPIDS.

More Than Fifteen Hundred Guests Attended the Lincoln Club's Banquet.

Grand Rapids, Mich., Feb. 12.—More than fifteen hundred persons, including many delegates to the Republican state convention and members of the legislature, attended the Lincoln club's banquet tonight.

"We have met here to celebrate the hundredth anniversary of the birth of one of the two or three greatest men of the nineteenth century in the world's history. This tall splitter, this boy who passed his early youth in the dire poverty of the poorest of the frontier folk, whose life was by weary and painful labor, lived to lead his people through the darkest days of a struggle from which the nation emerged, purified as by fire, born anew to a loftier life."

Seven different nationalities were represented in the patients of Miss Bronson and the need for her assistance has been made evident by the conditions as reported.

The relief committee of the association has done a great deal to render material assistance to the patients.

Specifications of Organ. The specifications of the organ, on which last night's program was rendered, are as follows:

Open Diapason, 16 feet 32 notes, wood. Bourdon, 16 feet 32 notes, wood.

Open Diapason, 8 feet 61 pipes, metal. Dotted Flute, 8 feet 61 pipes, metal.

Violin Gamba, 8 feet 61 pipes, metal. Flauto Mager, 8 feet 61 pipes, wood.

Gonshorn, 8 feet 61 pipes, metal. Trumpet, 8 feet 61 pipes, metal.

Octave, 4 feet 61 pipes, metal. Flute Harmonica, 4 feet 61 pipes, metal.

Swell to Great Sub. Swell to Great Unison. Swell to Great Octave.

NAMED FOR LINCOLN'S MOTHER.

Nanck Hanks, World Famous Race Horse, Holds Unique Reception.

Lexington, Ky., Feb. 12.—Probably the most important celebration of Lincoln's centennial in the United States was at the Hamburg stockfarm in this county, where Nancy Hanks, the world famous race horse, named for Lincoln's mother, held a largely attended reception under auspices of her son, John E. Madden.

NATION'S EXECUTIVE SPEAKS FEELINGLY.

Unbroken by Hatred, Unshaken by Scorn, Lincoln Worked and Suffered for the People, Comments the President—He Knew Greatness, but Never Ease.

Hodgenville, Ky., Feb. 12.—In his address here today, President Roosevelt said:

"We have met here to celebrate the hundredth anniversary of the birth of one of the two or three greatest men of the nineteenth century in the world's history. This tall splitter, this boy who passed his early youth in the dire poverty of the poorest of the frontier folk, whose life was by weary and painful labor, lived to lead his people through the darkest days of a struggle from which the nation emerged, purified as by fire, born anew to a loftier life."

FAIRBANKS' TRIBUTE AN ELOQUENT EULOGY.

"Honest Abe" a Marvelous Product of the Great School of Nature, He Exalted the Nation and Glorified Himself.

Harrisburg, Pa., Feb. 12.—Vice President Fairbanks' tribute to Lincoln in his oration here today was an eloquent one. Declaring Lincoln to have been in the fullest and best sense the architect of his own career and "the very incarnation of justice and mercy," Vice President Fairbanks sketched the life of the martyred president from the day of his birth to his death.

Seven different nationalities were represented in the patients of Miss Bronson and the need for her assistance has been made evident by the conditions as reported.

The relief committee of the association has done a great deal to render material assistance to the patients.

Specifications of Organ. The specifications of the organ, on which last night's program was rendered, are as follows:

Open Diapason, 16 feet 32 notes, wood. Bourdon, 16 feet 32 notes, wood.

SUNDAY SCHOOL WORKERS TO MEET

ISHPEMING TEAM LOSES.
Hancock Elks Win at Indoor Ball by the Score of 7 to 6.

Largely because of the excellent work of Ross, pitcher, the Hancock Elks defeated the Ishpeming City team in the game of indoor baseball played at Brantford's Hall last night. The score was 7 to 6. A big crowd witnessed the game. The contest was fast and exciting, and it looked in the last inning as if Ishpeming would win out. This inning opened with the score 7 to 4. Ishpeming then brought in two runs and had two men on bases when the third batter was retired. The best work for Ishpeming was done by Cox, at second; Harrington, left field, and Devine, at third base. Ross fanned sixteen men and gave six bases on balls. Erickson, for Ishpeming, struck out two and allowed three bases. Hancock made thirteen hits, all singles except one double by Westcott, and Ishpeming got six hits, three of these by Peterson and one each by Olson, Cox and Roberts; one of Peterson's hits was a two-bagger. Each club stole three bases. Ishpeming made two double plays—Devine to Cox, and Harrington, to Devine, to Cox. The teams will cross bats this evening again. Ross will pitch for Hancock and Wall for Ishpeming.

Herbert Moninger of Cincinnati, recognized as one of the leaders in the Sunday school world, is to spend eleven days in the upper peninsula, attending teachers' training conferences. His opening meeting will be at Iron Mountain Tuesday, March 23, he going from there to Escanaba for the following evening, then to Ishpeming for the 25th; Marquette, March 26; Houghton, 27th; Hancock, 28th; Lake Linden, 29th; Calumet, 30th; Bessemer, 31st; Ironwood, April 1, and Crystal Falls, April 2. Mr. Moninger's services have been secured by the Michigan Methodist Sunday School Association. He will be accompanied by D. B. Allen, corresponding secretary of the Michigan organization.

Very satisfactory meetings of similar character were held in several of the upper peninsula cities last year, and it is likely that the sessions will be an annual feature hereafter. It is thought that the coming of Mr. Moninger will be the means of arousing unusual interest among Christian people of the important cities to the realization of the importance and possibilities of better qualified workers in the Sunday schools. Mr. Moninger is said to be a very fluent speaker. His topic at the various meetings will be "Teacher-Training."

Mr. Moninger's work in the interest of the Sunday school during the past few years is proof of his ability. It is said that no other Sunday school worker can show such a record. He is a graduate of Yale. For several years past his travels have averaged 40,000 miles a year. He speaks at many state conventions and Chautauques. He is the dean of forty-two training classes at Cincinnati, with an enrolled membership of 1,450. Last year he taught seven training classes in that city, each ranging in membership from sixteen to 365. During the last seventeen months he had, in a campaign that has enrolled 131,000 people in teacher-training work.

Just received, a carload of sewing machines from South Bend, Ind. All the latest high grade styles, including mahogany, bird's eye maple, full parlor cabinets and many others. Most attractive lot of machines ever received in the county. Singer Sewing Machine company, Main street. (2-13-09)

ANNUAL ENTERTAINMENT.

The Young People's society of the Swedish Lutheran church will conduct its sixteenth annual entertainment the evening of Washington's birthday, a week from Monday. Committees were appointed at the last regular meeting to prepare the program and to complete other arrangements. Rev. C. L. Adams, pastor of the First Methodist Episcopal church, will make the principal address. The church choir and other talent will participate in the program. The entertainment will take place in the church and refreshments will be served in the young people's hall.

THE SECRET OF LONG LIFE.

A French scientist has discovered the secret of long life. His method deals with the blood. But long ago millions of Americans had proved Electric Bitters prolongs life and makes it worth living. It purifies, enriches and vitalizes the blood, rebuilds wasted nerve cells, repairs life and tone to the entire system. It's a godsend to weak, sick and debilitated people. "Kidney trouble had blighted my life for months," writes W. M. Sherman, of Cushing, Mo., "But Electric Bitters cured me entirely." Only 50c. at The Stafford Drug Co.

HEXAMETHYLENETETRAMINE.

The above is the name of a German chemical, which is one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by medical text books and authorities as a uric acid solvent and antiseptic for the urine. Take Foley's Kidney Remedy as soon as you notice any irregularities, and avoid a serious malady. Sold by all druggists.

LINCOLN BANQUET.

Marquette County Affair Will Probably Be Held March 9.

The committee on arrangements for the banquet to be given in this city by the Lincoln club of Marquette county has so far not been able to engage satisfactory speakers for the occasion, although it is hoped to hear definitely not later than next Monday from one or more of those to whom invitations have been extended. The committee wants one or more men of national reputation and it is anticipated that they can be secured for a date early in March, when congress will not be in session. The program will adjourn on the day immediately following the presidential inauguration, and will not convene again until the 15th.

The banquet will probably be held at Brantford's Hall the evening of March 9. W. H. Moulton, secretary of the organization, yesterday said that the event will be an exceptionally fine affair and in order that the very best talent might be secured both for the addresses and musical part of the program it was absolutely necessary to select a date later than Lincoln's birthday. A large number of Marquette county citizens have presented their applications for membership in the club and it is expected that most of them will attend the banquet.

CONSOLIDATED FUEL & LUMBER CO.

HAS TRAVELED EXTENSIVELY.
Former Mayor of Milwaukee, Here Wednesday, Gives Fine Lecture.

Something entirely new in the way of an illustrated story is promised at the Ishpeming theater next Wednesday evening, when Sherburn M. Becker, the former "lay mayor" of Milwaukee, will deliver his two-hour talk on the Italian earthquake. Mr. Becker has twice circumnavigated the globe; has been several hundred miles further north than the point from which Andrew started on his ill-fated balloon voyage; has broken bronchitis and "roped" on the western plains; has raced an automobile from Chicago to New York, and has created a sensation in politics by his anti-graft campaign in his own city, which resulted in putting some thirty grafters in prison, where most of them still are.

As an example of his thorough methods in attacking questions in which he is interested may be mentioned in his connection with the Milwaukee fire department. He had a fire alarm system rigged up in his bedroom, converted a stable into a fire wagon, purchased a quick hitch harness, and lived a driver whose sole duty it was to take him to fires, which, by the way, he frequently reached before the chief of the department. In this way, before he became mayor, he learned more about the workings of the department than many who have been in its service for years.

The two-hour story which Mr. Becker will relate was compiled with the same degree of thoroughness. His were the first photographs of the earthquake disaster to reach this country. They were made into beautifully colored slides. More than 100 of these show scenes in the stricken cities after the earthquake.

and are preceded by fifty more showing the beautiful cities and towns before the catastrophe. In addition, Mr. Becker has moving pictures showing the work of some among the ruins and motion pictures of the arrival upon the scene of the American battleship fleet.

There's much to gain and nothing to lose by giving "Salada" tea a trial. An absolutely pure tea of the highest possible quality. Your grocer sells it.

ISHPEMING IN BRIEF.

Miss Florence Randall entertained yesterday afternoon with cards.

L. W. Atkins of Marquette visited J. L. Bradford and family in the city yesterday.

Robert Haine, former manager of the Nelson Morris company's Ishpeming branch, now district manager, is in the city.

The Ishpeming branch of the Singer Sewing Machine company yesterday received a carload of machines from South Bend, Ind.

Eric Hoyseth and Con Thompson left Thursday night for Duluth to attend the Duluth Ski club's annual tournaments held yesterday. It is likely that they will also attend the tournament at Coleraine tomorrow.

The senior class of the Ishpeming High school has issued invitations for a dancing party to be held next Thursday evening, the 18th, at Braastad's Hall. Tickets will be \$1 per couple, including refreshments. Dancing will start at 9 o'clock, continuing until 1. All persons receiving invitations will be expected to present them at the door.

REVOLTS AT COLD STEEL.

"You're only hope," said three doctors to Mrs. M. E. Fisher, Detroit, Mich., suffering from severe rectal trouble, lies in an operation." "Then I used Dr. King's New Life Pills," she writes, "till wholly cured!" They prevent Appendicitis, are Constipation, Headache, 25c. at The Stafford Drug Co.

Foley's Honey and Tar clears the air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cough disappears. Sore and inflamed lungs are healed and strengthened, and the cold is expelled from the system. Refuse any but the genuine in the yellow package. Sold by all druggists.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if fails to cure. E. W. GROVES' signature is on each box. 25c.

Hoarse coughs and stuffy colds that may develop into pneumonia every night are quickly cured by Foley's Honey and Tar, and if soothed inflamed membranes, heal the lungs, and expels the cold from the system. Sold by all druggists.

HAS MANY SONG HITS. HOW TO PROVE COINS.

Among the big song hits in "Honey-moon Trail" which will appear at the Ishpeming theater Monday evening, may be mentioned "Whose Little Girl Are You?" sung by Olive Vail; "When I Feel Like Loving," sung by Hattie Fox; "I'm Going to Steal the Moon," sung by Harry Stone, and Hattie Fox, and "The Golden West," sung by Alma Youlin. These songs were played by every orchestra in Chicago all of last season, and helped greatly to make the show the big success it was there.

The lady behind the counter at one of the winter drapery sales in Oldham street, wrote out the bill for my purchases (writes "B.") on a little manifold book which reproduced her writing by means of a carbon paper on the page below. Then she took the bill-socket in the pocket, and placing it on the upper page, pressed it hard down with her thumb. I asked the reason. "We have instructions," she explained, "to take the impression of any coin received by means of the carbon paper in the book. See (turning to the plate of my bill) there's the impression of your half-sovereign. You couldn't very well think you'd given me a sovereign after seeing that, could you? You'd be surprised," she added, "how often we have to show our bills to people to convince them we've not made a mistake."—Manchester Guardian.

Mining News

LAKE COPPER PRODUCTION.

The estimated output of the Lake Superior mines for January was 18,007,000 pounds of copper, which compares with 19,109,000 pounds in December, 1908, and 18,196,850 pounds in January, 1908. Detailed figures for January follow:

Output, lbs.	Per cent in rock.
Cai & Hecla	6,200,000 31.15
Wolverine	769,000 27.135
Albion	650,000 24.12
Superior	72,000 24.12
Stearns	1,000,000 22.11
Compton	1,452,000 21.5
Battle	1,410,000 21.36
Osceola	2,004,000 17.85
Michigan	207,000 16.58
Quincy	1,612,000 15.73
Isle Royale	340,000 15.17
Mohawk	854,000 14.86
Trinity	426,200 14.8
Central	214,700 14.3
Franklin	200,400 13.8
Keweenaw	37,100 13.5
Victoria	108,500 12.4
Mass	150,000 12.3
Total	18,007,000

ARIZONA'S COPPER OUTPUT.

The production of copper in Arizona in January aggregated 27,274,000 pounds distributed by mines as follows:

Copper Queen	9,500,000
Caldwell & Arizona and Superior & Pittsburg	4,330,000
United Verde	2,800,000
Old Dominion	2,000,000
Detroit	2,000,000
Arizona Copper company	2,000,000
Shannon Copper company	1,442,000
Imperial Copper company	1,000,000
Miscellaneous companies	500,000
Total	27,274,000

During the month the Copper Queen company made a record production, though nearly 2,000,000 pounds of this production came from its Montezuma properties at Navajo. This increased Queen production, however, only made up for losses sustained by the Arizona Copper company, the production of which fell off about 1,000,000 pounds by reason of the fire which destroyed its ore and fuel bins. Butte and Arizona are pretty near on a par as respects copper production, and are likely to remain so for some time to come. The Arizona copper production for the 1908 year—235,802,000 pounds—was as the rate of 24,483,000 pounds per month. The territory's production for some months, however, has been at the rate of 325,000,000 pounds per annum.

KEWEEENAW.

At the annual meeting of the Keweenaw Copper company the retiring directors were re-elected. The company during the past year received its first profits from operations. The sales of copper totaled \$16,834, while the Keweenaw Central railroad, owned by the company, earned \$3,500 net. The railroad gross was \$45,301 and expenses \$41,801. The railroad statement shows a cash of \$18,322 on hand, while there is due the copper company \$188,975. Accounts payable are \$25,871, bills payable \$100,000. On Dec. 31 the profit and loss account stood \$8,830. The Keweenaw Copper company's balance sheet as of Dec. 31 shows cash, \$48,254; accounts receivable, \$21,328; supplies at mine \$12,205; copper on hand, \$5,781. The mining expenses during the year were \$192,344. President Wright says that for the most part development work has been confined to openings from the Meador shaft, and principally in the amygdaloid belt of that name. Thus far the amygdaloid has not met expectations and the greatest encouragement is derived from the "Vesuvius" vein, which apparently widens and carries more copper as depth is obtained. Of late good rock is being produced from the "North" amygdaloid belt. The Keweenaw Central railroad has been built and equipped at a cost of about \$800,000.

ALUMINUM VS. COPPER.

The demand for aluminum for general manufacturing purposes has been at a low ebb as the call for copper, and

prices have fallen in consequence. As a result power producing enterprises which have been unable to secure any large bulk of aluminum for the last three or four years are now buying some about \$1.25 per pound. Three fairly sizable orders for aluminum have recently been placed on which copper wire manufacturers were bidding and which would have called for 4,500,000 pounds of copper. The three orders were given to aluminum manufacturers. The Ohio company of Canada also placed an order for transmission wire with the aluminum people, while for use in Winnipeg there was an order placed for aluminum which the copper wire manufacturers were bidding on some weeks ago and which would have required 1,250,000 pounds of copper. More open competition is expected with the expiration of the Mellon patents which the Aluminum company of America control. The aluminum market is quoted nominally \$1.25 per pound. A British manufacturer who has been figuring on an American order has offered his product at about 14 cents a pound the purchaser, however, to pay the duty, which would bring the price up to about 20 cents a pound.

COBALT DIVIDENDS.

In the thirteen months' period from Jan. 1, 1908, to Feb. 1, 1909, fifteen Cobalt properties with a total capitalization slightly in excess of \$35,000,000 have paid out in dividends over \$5,000,000. Of this amount \$3,646,000 was paid in 1908 and \$1,354,000 in the month of January, 1909. Spessing was the largest dividend payer in the month in 1908, its total disbursements amounting to \$720,000. This amount together with the regular 3 per cent dividend and 2 per cent extra in January made a total of \$1,220,224 paid in dividends by that property in the past thirteen months. La Rose in the first six months of its existence has paid in dividends \$417,545 (total to \$835,000 per annum. Below are shown the capital stock outstanding and the amount of dividends paid by the dividend paying properties of the Cobalt district since Jan. 1, 1908:

Property	Capital	Total
Spessing	\$6,000,000	\$1,020,000
Comber	4,000,000	632,400
Comber	4,000,000	400,000
Kerr Lake	3,000,000	480,000
St. John & Hudson Bay	2,500,000	271,118
Tennant	2,500,000	361,912
McKinley-Barr	2,500,000	315,000
Silver Queen	1,500,000	105,000
La Rose	5,000,000	417,544
Trifway	1,000,000	141,817
Buffalo	1,500,000	168,000
Crown Reserve	2,000,000	353,762
Right of Way	500,000	70,000
City of Cobalt	500,000	94,373
Cobalt Central	5,000,000	95,500
Total	\$35,100,000	\$5,054,996

*A close corporation. **Paid last year \$37 per share on 7,746 shares having a par value of \$1.

COPPER IN CANADA.

The Boston News Bureau estimates the production of copper in Canada during 1908 at about 300,000,000 pounds, distributed as follows:

Boundary district	36,000,000
Rossland	5,300,000
Boundary district	6,500,000
LaSalle coast district	2,200,000
Total	49,800,000

The production of copper in Canada is synonymous with Granby, for that company is responsible for the bulk of the Canadian production. The average grade of the ore of the Boundary district for 1908 was but 1.24 per cent copper with about \$1 per ton in gold and silver values, and it required the treatment of 1,444,000 tons of ore to secure the 36,000,000 pounds copper recovery from the Boundary district. The Granby company alone treated 1,037,000 tons of ore, and the management of that company is now lengthening its eight furnaces from eighteen to twenty-two feet which will still further increase the smelter capacity from 3,000 to 4,000 tons of ore per day. This work is expected to be completed about June 1 and when complete the Granby will have a capacity of about 35,000,000 pounds of copper per annum. The ore from the Boundary district came mostly from the International Nickel company and was obtained as a by-product from the nickel ores.

THE TENDERFOOT FARMER

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

Negaunee Department

IMPRACTICABLE TO BURN SLASHINGS

TIMBER DEALER, IN THE BUSINESS MANY YEARS, SAYS PROPOSED LAWS IN MINNESOTA AND WISCONSIN WILL PROVE A MENACE TO OPERATORS.

"The burning of slashings by the timber operators, for which bills have been introduced in the legislatures of Minnesota and Wisconsin, will not be practicable," said a well-known timber dealer of the county yesterday. "Slashings will not burn until they are thoroughly dry, and I cannot see how the operators are going to dispose of them in this manner while they are conducting their work. As a rule, the slashings will not burn readily until two or three seasons after they have been cut. I do not blame the legislature and others who are endeavoring to pass the bills through were well informed. They would readily understand that such a law would be a hardship to the operators and would result in greatly increasing their expenses. I realize that it would be a good thing for the protection of the remaining timber, but it would be possible to carry out such a law."

"It would be a big job to get the slashings together while the timber is being removed and it would be a much more difficult task to burn it. The only way in which the slashings could be burned quickly would be to saturate them with oil of some sort, which would be expensive."

"Many timber dealers and jobbers of the Northwest are opposed to such a law that scorched timber had to be removed the season following a fire or it would rot, entailing a total loss. I do not agree with them on this point, as I have found that burned-over timber will keep for some time, and it is well to cut it as soon as possible, for when the burned timber begins to rot it will go rapidly."

"The impression prevailing at the time of the fires last summer that operations would this winter be conducted on a large scale, especially by those who owned burned-over tracts, was not consistent with the facts, as only a small part of this class of timber has yet been cut. None of the big operators are making any special effort to remove timber from the land which they fire burned over, and in my opinion they do not see, as the damaged trees will be in just as good condition a year hence as they are at this time."

"If the fire had traveled more slowly it would have burned every particle of vitality from the trees and then the timber owners would have more occasion to feel worried, but a mere scorching of the bark does not do that, and the trees are able to recover from the forests like a wind and it took off the leaves and dry rot, but it did not put the trees in a condition in which they would readily decay. This timber can be cut next year, or the following year, and it is just as good as if it had never touched it. Of course if it is allowed to stand for many years the damage done by the fire would have some effect, but there need be no concern for some time to come. I have known many tracts of timber produce good timber five years after a fire."

"The uncertainty over the tariff has had a good deal to do with holding back timber operations this season. The owners of stumpage are not going to cut their timber until the tariff is disposed of. However, the feeling as to prospects for future business are quite optimistic. The available supply of lumber has been considerably reduced during the past few months and from present indications this will soon be a good demand for all grades."

HOUSE COMMITTEE DISAGREES.

Washington, Feb. 11.—The wide difference of opinion among the members of the house committee on agriculture on the bill which seeks to provide for the protection of the navigable streams is evidenced in the report which accompanies the bill. The opinions of the majority, as expressed by Representative Weeks of Massachusetts, and Lever of South Carolina are practically those of the administration. The general scope of the bill permits the first requirement of lands in any part of the United States when considered advisable by the national forest reservation committee which the bill creates. It provides that the geological survey must first determine that the land to be acquired will promote or protect the navigability of streams. The majority report declares that the flood damage in the United States has increased from \$45,000,000 in 1887 to \$118,000,000 in 1907, and that the greatest increases are on streams on whose watersheds the forests have been heavily cut.

TRADE DRIFTING ALONG.

Large Iron Interests Are Gradually Working Out Their Surplus Stock.

"The trade is drifting along, depending on orders taken in November and December to some extent, says the Iron Age. Some large interests are not taking any special effort to dispose of their surplus stock, but are waiting for what is being worked off and may later on be forced to reduce their rate of production. Railroad buying continues light, and that is the most serious phase of the situation. So far as general consumption is concerned, it must be noted that the present practice of buying frequently in small lots creates a tendency to underestimate the volume of current business."

The Baltimore & Ohio order for steel rails being distributed among the iron works, does not give any of them much work. The Wheeling & Lake Erie has ordered 3,500 tons and the Chicago Great Western 5,000 tons. The Grand Trunk Pacific is in the market for 37,000 tons, of which a part may be secured by other makers. Some steel-iron business is coming up, but the volume is relatively light.

In the lighter lines, business is not brisk. It must be considered, however, that the time for placing orders for spring delivery has not yet quite arrived, the sheet makers held a meeting at Pittsburgh lately to discuss the situation. More cheerful reports are coming from the eastern pipe trade. A number of municipalities are in the market, the consumption is being ready to buy, and some good business is pending in Mexico and Cuba.

The pig iron market is very quiet and is slightly weaker. Birmingham reports engagements by leading pipe makers during the week of 25,000 tons of iron. Coke makers have not succeeded in their efforts to maintain prices on the basis of \$7.75 a ton at even for standard Cokesville furnace coke and the market is now at \$1.00 and \$1.05, with forty cents at \$2 and a shade less.

WHEN YOU PUT ON STOCKINGS

Of the heaviest sort, do your shoes pinch, and your feet swell and perspire? If you sprinkle Allen's Foot-Ease, an antiseptic powder for the feet, into your shoes, it will give you rest and comfort, and instant relief. When rubbers become necessary, and your shoes feel tight, Allen's Foot-Ease is just the thing to use. Try our Dandruff Particles, Breaking in New Shoes and for itchy leather shoes. Sold every where. Sample FREE. Address, Allen S. Olmsted, Le Roy, N. Y. Don't accept any substitute.

WORK SHOES
Tough stock, heavy soles, solid counters, double leather toes, double seams and high-grade workmanship are what make Mayer Work Shoes last longer than any other kind.

Farmers, miners, lumbermen, mechanics and all classes of workmen can get double the wear out of **MAYER WORK SHOES**. They are honestly made—solid through and through. They are "built on honor." Their strength and wearing qualities cannot be equalled. To be sure you are getting the genuine, look for the Mayer Trade Mark on the sole.

Your dealer will supply you; if not, write to us. **FREE**—If you will send us the name of a dealer who does not handle Mayer Work Shoes, we will send you free, post paid, a beautiful picture of George Washington, size 15x20. We also make: Leading Lady Shoes, Martha Washington Comfort Shoes, Verma Cushion Shoes and Special Merit School Shoes.

A UNIFORM TYPE OF BALLOT BOX

IS THE PURPOSE OF A PROPOSED BILL DRAFTED BY CITY ATTORNEY BROWN.

SAFEGUARD AGAINST FRAUD

Provides for Lock of Yale Design and Seal Similar to the Ordinary Car Seal.

Yesterday there was sent to Representative McCabe at Lansing a draught of a bill drawn by City Attorney Brown amending the law regulating the manner of conducting elections, and which he will introduce in the house. The purpose of the bill is to provide a uniform type of ballot box in the state...

The statute at present provides only that the election board shall provide a ballot box, with lock and key, and an opening in the top through which the ballots may be passed. The boards are given discretion as to the kind of box that shall be provided. As a result there is no uniformity in the construction or material in the ballot boxes, employed in the state and in many cases boxes are used that are wholly unsuited for the important purpose for which they are designed.

The bill drawn by Mr. Brown, as will be seen by examination, not only provides greater safeguards against fraud than now exist, but also lessens the chance that the right to enter a ballot box will be lost through the breaking of its seal by accident.

Its principal provisions are those calling for a hinged metal ballot box, secured by a flat key lock of the Yale lock type and sealed by a patent metal seal similar to the "car" seal used by all railroads in securing the doors of loaded freight cars.

The important new proposed provisions are found in sections 7 and 8 of the bill, the other amendments being merely nominal ones necessitated by the introduction of those sections, which are here given in full:

Uniform Ballot Boxes. Sec. 7. All ballot boxes used for the reception and preservation of ballots cast at any election or primary election hereafter held at any polling place in this state shall conform substantially to the following requirements, and such boxes shall be closed, locked and sealed in the manner hereinafter required, viz: (Capacity). Each ballot box shall be of such capacity as to easily hold folded ballots of the size to be deposited therein equal in number to the total number of persons qualified to vote such ballots at the polling place where such box is to be used.

(Form and materials). Such box shall be in form a cylinder, and be of not less than twelve inches in diameter, and the sides, ends and cover thereof shall be constructed of sheet metal, all seams and joints of which box and the lid thereof shall be firmly interlocked or riveted together.

(Opening). Such box shall be so made as to be opened only at one end thereof, to be known as the head, which opening, if in the head, shall be closed by a lid which shall not be less than six inches across; and such box shall have no other opening or hole therein, except the ballot hole hereinafter provided for.

(Lid). Over the open end of such box, or the opening in the head thereof, shall be a lid with a metal seal thereon closely fitted over or into the end of the box or into the opening in the head thereof. One side of such lid shall be firmly attached and hinged to the box, or the head thereof, by a strong metal hinge securely riveted to such lid and to the box, or head thereof, the bolt of which hinge shall be so made or protected that it cannot be removed without damage to the hinge, the lid, or the box.

Kind of Lock and Seal. (Lock and key). Upon the under side of such lid, opposite the hinged side thereof, shall be securely riveted a brass lock of good quality and so placed that by means thereof such lid may be securely locked down, which lock shall be operated through a keyhole in such lid by a flat key, no duplicate of which shall be procured or made, and such key shall at all times have attached thereto a wax seal, of the character hereinafter mentioned, and impressed with the election seal.

(Ballot hole). Through such lid, and between the hinged side thereof and the keyhole, there shall be a ballot hole one-half inch wide and four inches long through which each ballot voted shall be passed into the box. Under the ballot

hole any device which will not mutilate ballots or obstruct the opening of the box when the lid is raised, may be employed to prevent the improper insertion or removal of ballots.

(Hasp and staple). Upon or over such lid shall be affixed and hinged, in the same manner in which such lid is required to be attached, a metal plate or hasp of such size, thickness and shape and so placed that when turned down it will effectually cover and protect such ballot hole and keyhole. The free end of such plate or hasp shall extend beyond the edge of the lid and have a slot or hole therein which will closely fit around and enclose a metal staple securely riveted in the head or side of the box, but not in the lid, so as to extend through and above the upper or outer surface of such plate or hasp, when down, so as to permit the insertion of the bale of the tax seal, as hereinafter provided.

(Seal). The seal to be affixed to such ballot box in closing and sealing the same, and to the key of the same, shall consist of a soft metal tag, not less than one-half inch in diameter, with one end of a bale made of wire or sheet metal, not less than five or more than eight inches long, attached thereto and so constructed that the bale may be made into a loop both ends of which shall be embedded in or fastened to such tag by compression of the sealing instrument, herein referred to as the election seal, so that neither end of such loop can be detached from such tag without destroying or defacing the same. (Sealing implement). The election seal shall be a strong metal implement, so constructed and used that in affixing any such seal through the tax hole of the seal shall be compressed from both sides thereof upon the bale, so as to securely lock both ends of the loop thereof within or to such tag, in the manner aforesaid, and also so as to legibly impress in or upon such tag the name of the township, ward or election precinct, the words "election seal," and also such other words or device as the respective township board or village trustees or city council may prescribe.

Manner of Sealing. Sec. 8. When by law a ballot box is required to be closed and sealed, the lid of the box shall first be locked down, and upon the top of the lid and over the keyhole and ballot hole there shall then be pasted a strip of writing paper, not less than four inches wide, upon which is written in ink the original signatures of the inspectors and clerks of the election, and upon a portion of which strip not covered by the plate or hasp, when down, shall be written in ink the date of the election at which said box is used. The bale of a tag seal shall then be extended through the staple, and the plate or hasp shall then be turned down over the staple and upon the bale. The free end of the bale shall then be returned through the staple and above the hasp and drawn into, or through, or affixed to the tag so as to form a loop encircling the hasp within the staple, and the tag shall then be firmly compressed by the election seal upon and affixed to the bale and impressed as provided for in section seven of this act.

Only Bill Drawn. At the time of the Werner-Bradley recount there was general comment on the necessity for strengthening the statute relating to ballot boxes, but the matter has not received any attention since the legislature convened and as far as known the bill here quoted from is the first one dealing with it.

IN PROBATE COURT.

Business Transacted by Judge Potter During the Past Week.

In re estate of James W. Smith, deceased; hearing of claims adjourned to Feb. 25.
In re estate of Dennis Calligan, deceased; order made admitting will to probate.
In re estate of Peter Balnes, deceased; Anna Balnes appointed administratrix; bond of administratrix filed and approved; June 9 set for hearing of claims; letters of administration issued.
In re estate of Mary Meyer, deceased; hearing of petition for probate of will set for March 8.
In re estate of Sidney Adams, deceased; annual account filed.
In re estate of Mary O'Heghan, deceased; orders allowing final account of administrator et al., and decree of assignment of residue of estate.

In re estate of Oscar Antilla, deceased; Wilhelmina Antilla appointed administratrix; bond of administratrix filed and approved; June 9 set for hearing of claims; letters of administration and warrant of appraisal issued.
In re guardianship of Harvey Antilla et al. minors; bond filed and approved and letters of guardianship issued to Wilhelmina Antilla; warrant of appraisal issued.
In re estate of Antonio Curto, deceased; annual account filed.
In re guardianship of Nellie Gaffney, incompetent; final account filed and allowed; certificate and request of heirs filed and guardian discharged.

In re estate of Antony Giordano, deceased; final account filed; certificate and request of heirs filed; order allowing final account issued; administrator discharged.
In re estate of John Stenglein, deceased; inventory filed.
In re estate of Robert Gover, deceased; inventory filed.
In re estate of Edward L. Manigold, deceased; hearing of claims adjourned to Feb. 17.

MUST ANSWER TO CHARGE OF FORGERY

NEGAUNEE MAN ARRESTED IN THIS CITY YESTERDAY FOR OBTAINING MONEY ON BOGUS CHECKS.

W. H. Stephenson was arrested in Marquette late yesterday afternoon on the charge of having forged checks on the First National bank of Negaunee, and having fraudulently obtained from \$150 to \$200 in cash in that manner. When arrested, Stephenson had two of the alleged forged checks in his possession, one for \$15 and another for \$23, and also \$106.45 in money. He was taken to Negaunee by Marshal Gribble on the 6 o'clock train last evening.

Stephenson has resided in Negaunee for several months, and is known to many of the business men. He is a steam fitter by trade and has worked on the new high school building in the employ of W. K. Hatch. Within the last two or three days, Stephenson has called on a number of his acquaintances in Negaunee, and asked to have checks of small denominations cashed. These checks were on the First National bank, signed by Mr. Hatch, and, as it was known that Stephenson was in his employ, the alleged forger had no difficulty in getting money on them after he had made the proper endorsement. Marshal Gribble says that he has a number of these checks in his possession, which have been cashed by Negaunee people. As these checks began to come into the bank, it became known that the signature of Mr. Hatch had been forged and the officers were notified. It was found that Stephenson had gone to Marquette yesterday, and Marshal Manning was notified to apprehend him. He was located on Lake street in a short time, and Marshal Gribble was notified to come down and get his prisoner. Stephenson is a young man of prepossessing appearance, and until the episode of the last few days, had been well thought of by his Negaunee acquaintances.

SEVERAL TELEGRAMS SENT.

Judge Stone Recipient of Numerous Messages of Congratulation.

Judge Stone was the recipient of a number of congratulatory telegrams last evening on his good fortune in securing the unanimous nomination for justice of the supreme court from the Republicans of the state. Among others who sent telegrams were the County Bar association and the police commission, which were as follows:
Marquette, Mich., Feb. 12, 1909.
Hon. John W. Stone,
Grand Rapids, Mich.
Congratulations to you and the state on nomination for supreme bench. Your home town unanimously rejoices but will regret your loss.
Board of Police Commissioners of the City of Marquette.

Marquette, Mich., Feb. 12, 1909.
Hon. John W. Stone,
Grand Rapids, Mich.
Marquette County Bar Association.
Congratulate you on assured promotion well deserved. Ours is a costly sacrifice to the commonwealth.
SECRETARY.

TO THE BARAGA HOCKEY TEAM.

The managers of the Marquette hockey team wish to state that they have a strictly amateur team and have no desire to become anything else, and, consequently, can not play for a purse of \$50. As has been stated heretofore, we are ready to go to Baraga at any time, but owing to the fact that the Marquette ice rink has no accommodations for spectators, it is practically impossible to have an out-of-town team here this winter. It is now up to the Baraga Wanderers to either play hockey or stop insisting challenges.

CARD OF THANKS.

We wish to express our heartfelt thanks to the G. I. A., the G. A. R., and the W. B. C., who so kindly assisted and sympathized with us during the sickness and at the death of our father and husband and for the beautiful flowers sent.

The Values

offered in our price sale of Men's and Young Men's Suits are even greater today than when first announced.

Many of

the complete lines which in our first announcement were offered in the 20 per cent discount sale, have on account of the aggressive selling become depleted and today we add those broken lines to our 1-2 PRICE SALE.

We Can

safely predict, considering the number of suits sold each day of our sale, that the remaining quantity will not last longer than this week.

Jacob Rose

The Store of Quality. Marquette.

CHINA SALE

During this month (February) I will offer all of my stock of China at a discount of from 10 to 50 per cent. A Good Time to Buy.

"Victoria"

There are eleven reasons why you should buy Victoria:
First—It has only one hundred thousand shares.
Second—It is listed on the Boston Exchange.
Third—It has a four thousand horsepower water air compressor. Will make copper cheaper than any other company.
Fourth—It has a hundred thousand cash on hand.
Fifth—It will not have to be assessed more, as the mill is more than paying expenses.
Sixth—It owns its own copper and saw mill.
Seventh—It has about two thousand acres of land, all on the range of Mass, Adventure, Michigan and Lake rich veins.
Eighth—Its stock sold for four dollars a share last month, now five. It will probably sell for fifty or one hundred in a year or two if copper advances to twenty-five cents a pound, which I think it will.
Ninth—It is such a big proposition that another party of Boston are trying to get control, and will probably commence to buy this week.
Tenth—The air compressor alone is worth what the stock is selling for.
Eleventh—It is the only company on the list that has twice as much assets as the stock is selling for.

Send your orders to any banker or broker, as I am not now in the business, but when I do go into the brokerage business I want your business.

One hundred shares of Mass and Victoria will keep you in old age.

There will be a great excitement in these South Range or Ontonagon stocks from this on.

J. W. SPEAR

Marquette. Will give Marquette people a chance to buy Mass and Victoria before I advertise in the Houghton Gazette. 2-13-2f

ANNOUNCEMENT
I have closed a contract with the Ford Motor company, of Detroit, and during the season of 1909 will sell the famous FORD MOTOR CARS in this territory.
The FORD needs little introduction. It is in every sense a high grade car, made of the best materials obtainable, and sold at a price within reach of the man with a moderate income.
My first demonstrator, the model "T" Touring car—a five passenger, 20 horsepower machine that sells at \$850—is expected to arrive here within the next week or ten days. Inspection is invited.
