

TRIP AROUND WORLD IS NEAR CONCLUSION

One Week Hence Will See the Atlantic Battle Fleet in Its Home Waters, After an Absence of Fourteen Months.

Still Fit for "a Frolic or a Fight" Notwithstanding Their Cruise of Approximately 45,000 Miles, the Sixteen Great Ships, Now Half-Way Across the Atlantic, Are Steaming in Leisurely Fashion Towards the Anchorage Grounds of Hampton Roads.

Old Point Comfort, Va., Feb. 14.—Half way across the Atlantic ocean on the last long reach of their spectacular cruise around the world, the sixteen battleships of the "United States Atlantic fleet" are steaming today in leisurely fashion towards the anchorage grounds of Hampton Roads, where they sailed just fourteen months ago.

The stories of the cruise have been succeeding chapters of receptions, banquets, calls and merry-making, but back of all this relaxation and entertaining in the hospitable ports of the two hemispheres has been a test of men and material which has placed the American navy in an enviable position in the world.

Rear Admiral Sperry, who returns as commander-in-chief, sailed as commander of the fourth division of the fleet, being ranked by both Admirals Evans and Thomas, Rear Admiral William H. Emory, was the fourth of the sailing admirals, and he was retired while the ships were at Manila.

First Call Made at Trinidad. Leaving Hampton Roads on a cloudless day in December, 1907, after a review by the president from the bridge of the dayflower, the first run of the fleet took place in the Caribbean.

When the purpose of giving this assistance of battleships to the United States and advantages of a practical cruise was announced, criticism from high technical quarters were heard.

That the experience gained on the cruise will be of unending benefit to the navy is indicated from the fact that probably one-half of the entire personnel of the naval establishment participated in the epoch-making trip.

To Rear Admiral Charles S. Sperry, a strict disciplinarian, a man of few words, and a recognized scholar and constant student of the higher arts of naval science, fell the task of directing the fleet on all but the first 14,000 miles of its journey.

When the purpose of giving this assistance of battleships to the United States and advantages of a practical cruise was announced, criticism from high technical quarters were heard.

When the ships had safely left the straits, the department officials at Washington undoubtedly breathed a sigh of gratified relief, although on the sixteen big ironclads themselves there was never a question in the mind of any officer or enlisted man as to the safety of the sturdy fighting craft.

GIVES RAILROADS SOME HARD JOLTS

Washington, Feb. 13.—That the interstate commerce commission should have power to pass upon the freight rates made by the various railroads of the country before those rates become effective was the declaration made yesterday by the heavy of the house by Representative Madden of Illinois.

MR. ROGERS PLEASED WITH PROGRESS MADE

HIGHWAY COMMISSIONER TELLS HOW ROAD FROM COPPER COUNTRY TO MARQUETTE MIGHT BE BUILT.

Deputy State Road Commissioner Frank Rogers has expressed himself as being well pleased with the progress that has been made in the upper peninsula in the construction of highways, under the county road system, and believes that the proposed scheme to build a roadway from the copper country to Marquette is both feasible and desirable, according to a copper country exchange. We quote as follows:

"In the upper peninsula counties which operate under the county road system, or have competed in road building for the state rewards considerable good work has been accomplished, especially in Marquette, Dickinson, Menominee and Delta counties. Alger county has expended \$100,000 in three years on its roads and a new bond issue of \$90,000 is now being discussed. As a result of this expenditure there is an excellent earth road extending from Munising to Chatham and it is now proposed to macadamize the highway so as to put it in the finest possible condition.

"Mr. Rogers' attention was called to the desirability to auto owners of cooperation for a roadway between Houghton and Marquette counties, to which he replied that not until Houghton county took the initiative would such a highway be possible. Baraga county operates under the county road system, but because of its low assessed valuation can raise but \$6,000 each year for road purposes so that it would be practically out of the question to ask Baraga county to assist in building an auto roadway. Mr. Rogers had learned of the agitation and while in Baraga county looked into the matter. He ascertained there were about sixteen miles between L'Anse and Nestoria where there is practically no road whatever and it would require thousands of dollars to build such a highway. He figures that if those interested were to contribute towards the project the scheme might easily be arranged.

"The plan to link Marquette and Houghton counties by a great road meets with the hearty approval of Mr. Rogers. He said this morning that negotiations are now pending between Marquette and Dickinson counties for a continuous road between Marquette and Iron Mountain and also between Marquette and Munising. Marquette county is also anxious to open up the highway between Escanaba and Escanaba, which, when done, will provide a first-class speedway between Marquette and Menominee, and then to points south in Wisconsin. The stretch of roadway between Escanaba and Menominee, a distance of seventy-five miles, said Mr. Rogers, is without doubt the finest for that length to be found at any point in Michigan."

Five Men League Reorganized, and a New Schedule Mapped Out.

The first round of the five-men bowling league was finished last week. Team No. 5, captained by M. H. Ford, won the series, capturing thirteen out of eighteen games played, and team No. 7 (Miller, captain), was second, having won twelve out of eighteen games.

It has been decided to reorganize the league by reducing the number of teams from eight to six and by strengthening the weak spots on the remaining teams. Each team has been named after some one of the teams that flourished during the days of Bowshier.

The teams will be made up as follows:

Repeaters—H. O. Bell, Godwin, L. Drake, Gorman, Carr and Gooding.

Standards—Drummy, Van Iderstine, Couze, Giesregren, O. Anderson and Barber.

Indians—Ford, Davis, Menhemmet, G. Rydholm, A. Anderson and Keppeler.

Superiors—Jeanson, A. E. Anderson, L. Rose, Tucker, Shaner and Waterbury.

Eagles—A. E. Miller, Conkin, Le Fevre, Wheeler, Peterson and Tallbacka.

Wolverines—Stafford, Manes, Drake, J. Miller, Dr. Anderson and Lobb.

The team will meet every other team twice and the team winning the highest percentage of games will be awarded individual prizes, which have already been selected and will be on exhibition at the alleys this week. The rules governing the contest will be the same as for the series just finished, except that the hand-icap will commence at the end of the first week.

The schedule for this week is as follows: Monday, Indians vs. Superiors; Tuesday, Repeaters vs. Standards; Wednesday, Eagles vs. Wolverines.

As the new league will use only three evenings each week, it is likely that a number of special teams will be organized and play challenge matches. The No. 1 team, who recently placed against Ishpeming (Allen, Ford, Jenks, Miller and Van Iderstine), have already been challenged by a team consisting of Bell, Drummy, Manes, Stafford and Webb; and another match will shortly be arranged between the two teams that participated in the upper peninsula tournament last spring.

The following is the standing of the six-men individual contest, played in pairs:

	G. P.	Tot.	Av.
M. H. Ford	130	21,895	168
Van Iderstine	149	25,437	167
Miller	135	22,538	169
Jenks	125	20,264	162
Godwin	130	20,671	159

PRICKETT DELEGATES ICE-BOUND

And Caucus Chose Oberdorfer for Member of Agricultural Board.

Delegates who have returned from the Grand Rapids convention report that W. S. Prickett, of Sidway, would be all probability have been endorsed by the caucus of upper peninsula delegates for member of the state board of agriculture, had not a number of the delegates from the iron and copper country had been stuck in the ice in the Straits of Mackinac. As it was, W. J. Oberdorfer, of Menominee, was the choice of the upper peninsula caucus by the close vote of forty-four to forty-seven.

The friends of Mr. Prickett, who were largely from the iron and copper country, had no special objection to Mr. Oberdorfer's candidacy, but felt that Mr. Prickett's enthusiasm in his chosen field of agricultural work would be of great benefit to the dairy interests of the whole

Hotel to Go at Auction

The Richards Hotel in Menominee will be sold at public auction Feb. 19th, to satisfy a mortgage held by Louis Baill of Ingalls. Since the death of Mr. Richards, the hotel has been conducted by Mrs. Richards, assisted by her sons.

New Cashier Named

H. H. Allen, for twenty two years an employe of the First National bank of Escanaba, has been appointed cashier of the State Savings bank of that city to succeed E. P. Sutherland, who was forced to resign because of falling health. Mr. Allen will assume the duties of his new position as soon as his successor has been selected and it is expected that the change will be made some time before March 1. For the past several years Mr. Allen has been head bookkeeper of the First National.

City Hall Advertised for Sale

For Sale—the building in Sault Ste. Marie, known as the city hall. Responsible delinquent paying taxes for 1906, in the name of James McDonald, county treasurer. City officials at the Soo have discovered that unless a check is sent to the county before the first of May in payment of \$218.25 the property will be sold. Although the list of property subject to sale for delinquent taxes has been published none of the city officials were aware that the 1906 assessment had not been paid until notice was received from the county. The taxes since 1906 have been paid. The trouble was due to an oversight on somebody's part.

Aged Reduce Burns to Death

Burned almost beyond recognition, the body of Abraham Dalton was found in the ruins of his little shack near the depot at the Soo. The little building was a trail structure covered with tar paper and it burned like tinder. An overheat stove is thought to have been responsible for the flames. Dalton was between sixty and sixty-five years of age. He had lived in the Soo a great many years and was quite a familiar figure along the river front. He was industrious and hard working for nearly all the road companies on their docks on the river front. He was a widower. A son, William, survives.

It was the same little shack that witnessed the murder of James Wise by Mrs. Dalton in 1882. The original charge against Mrs. Dalton was murder, but she was finally convicted of manslaughter and sent to the Detroit house of correction for six years. She died while serving the sentence. At the coroner's inquest Mrs. Dalton stated that Wise was attempting to force an entrance to the house. She was afraid of him and shot through the door. She found him dead outside the next morning.

CHANCE FOR SCHOOL STUDENTS.
Awards to Be Given for Best Essays on George Washington.

Now that Lincoln's birthday is past and we are about to celebrate the birthday of George Washington, it is fitting to find out what the younger generation knows of the father of the country. In order to stimulate the interest of the school boy and girl, The Mining Journal will give three rewards to the scholars under the age of seventeen attending school in this county, for the three best essays with him as a subject.

The Mining Journal has arranged with the management of the Ishpeming theater for a number of seats for the performance of Eugene Walter's great American play, "Paid in Full," which will be given its first local production Tuesday, Feb. 23. For the best essay a reward of six box seats, valued at \$12, will be given; the next best writer will receive four box seats, valued at \$8, while the third best will be given two parquet seats, valued at \$3.

Every pupil will have an equal opportunity, as age and school grade are to be properly taken into consideration in arriving at a decision, and all the essays will be carefully and impartially read by a board of judges selected from among the educators. This contest is open to all children under seventeen years of age attending school within the limits of the county. Essays may be written on any phase of the life or character of George Washington. They must not be less than 200 nor more than 500 words in length, written on one side of the paper only.

Some of the essays will be published in The Mining Journal. Each author is to give his or her full name, address, age, name of school attended, grade and teacher. Letters must be mailed to the Essay Editor, Daily Mining Journal, Ishpeming, prior to Saturday noon, Feb. 20, and the winners will be announced in Monday's issue.

The winners can call at the box office of the Ishpeming theater and receive their rewards.

OPERATOR HAD CLOSE CALL.
The danger attending the work of rescue in the ruins of Messina after the Italian earthquake is vividly shown in one of the motion pictures used to illustrate Sherburn M. Becker's two-hour talk on the disaster which he will give at the Ishpeming theater on Wednesday evening. While the operator of the cinematograph machine was photographing a group of soldiers tearing down a building among the ruins, one of the tottering walls fell and destroyed the machine. While the film is running the wall is seen to begin to fall, when the picture abruptly ends.
