GHASTLY HORROR IN MEXICAN CITY

Three Hundred Persons, Among Them Some Americans, Meet Their Doom in the Destruction of a Theater at Acapulco.

Building Crowded With an Audi- Fast Trains Wrecked on the Pennsylence of a Thousand People, Representatives of the Oldest and Wealthiest Families of the Re-Moving Picture Machine Explodes, Many Victims Being Crushed or Burned to Death.

people were burned to death yesterday when the Theatro Flores at Acapulco was destroyed, several Americans being that a collision was inevitable. among the victims. The telegraph office was burned, and for that reason the news of the disaster was not received un-

til today. The theatre was a wooden structure and last night over one thousand people had crowded into it to witness a special performance given in honor of Governor Damian Flores of the state of Guerro. During an exhibition of moving pictures, the machine caught fire and the blaze quickly communicated to some bunting which was used for decorative

In an incredibly short time the flames Corpses Block Narrow Exits.

There were but three narrow exits, and the panic-stricken audience rushed to them, many persons falling, to be crushed to death, their bodies choking the way to escape for the others. The screams of those imprisoned were terri- his ship, states that Friday morning, toy will have hovered over the same fying. Owing to the rapidity with which during a heavy fog, a large sailing vesthe fire spread, and its intense heat, it sel suddenly loomed up and struck the was impossible to attempt rescue, work, and those imprisoned were literally roasted alive, as the fire burned with three minutes. The crew had just time in with renewed vigor in the shape of confined to saving the adjoining build- two days, during which time the boats area report considerable suffering and

ICE KING'S WRATH

the Grip of a Snow and Sleet Storm That Has Now Raged for Sixty Hours.

Great Havoc Has Been Caused and Not Until Tonight Will the Disturbance Quit the Presthe St. Lawrence Valley.

Chicago, Feb. 15 .- The blizzard-like snow and sleet storm which during the last forty-eight hours has played havo with telegraph wires and with traffic generally in the Middle West, will con tinue with unabated fury until tomorrow night. By that time, having spent its erce in the Middle West, it will be mov ing, leaving a trail of suffering and de struction to property, up the St. Law

ence valley. Tonight the storm, slowly moving iortheast, was centered over Tennessee with a fall of rain and sleet there. Misissippi and the Ohio valleys were storm swept. In Kansas, Nebraska, Iowa, Missouri, Oklahoma, Indiana and Ohio the gle minute, precipitation was reported heavy. Prac tically all over Illinois the snow was southwest as Texas, it was feared there would be heavy loss among cattle. The slowness with which the storm has moved, thus lengthening its stay in the Middle West, is considered remarkable. It has been almost at a standstill and the Australia, who was the last to leave before it reaches the St. Lawrence val-

zone about seventý-two hours. A short abatement at Chicago today gave hope of its having entirely disapimmediately settled and sak within peared, but four hours later it started little smoke and few were suffocated, to scramble into boats, without food or a thirty-right-mile-an-hour wind and The efforts of the fire department were clothes. They were tossed about for more snow. Most citics in the affected

tical, and may very well be embodied in new laws.

The convention at Grand Rapids last week declared for the retention of state conventions which shall be trusted with more than the nominal duty of drafting a platform. What the gentlemen who attend conventions want is the power to fill out the state ticket, after the people have nominated candidates for governor and lieutenant governor by direct vote. We sympathize with this desire of these gentlemen. The party system of government calls for effective organization by the parties, and there is no more effective way of attaining such organization than to assemble party leaders in state conference. Chastened state conventions should be safe mediums for filling the minor places on state tickets, particularly as they would realize that any failure to do their work well would be followed by an instant demand that even this last remnant of power be taken away from

The state convention last week was tended the carrying out of Francis H. productive of much gossip regarding the gubernatorial situation that will develop next year. One correspondent says it was commented by many well-informed politicians that despite the fact that he has announced he would be a candidate Lieutenant Governor Kelley will prob-

Unswer

When thousands of women say that they have been cured of their ailments by a certain remedy, does this not prove the merit of that remedy?

Thousands of women have written the story of their suffering, and have told how they were freed from it by Lydia E. Pinkham's Vegetable Compound - for thirty years these reports have been published all over America. Without great merit this medicine could never have

gained the largest sale of any remedy for woman's ills never could have become known and prized in nearly every country in the world. Can any woman let prejudice stand between her and that

which will restore her health? If you believe those who have tried it you know this medicine does cure. Read this letter from a grateful woman, then make up

your mind to give Mrs. Pinkham's medicine a chance to

Brooklyn, N. Y .- "I am a firm believer in Lydia E. Pinkham's Vegetable Compound. I was a great sufferer from organic female troubles for years, and almost despaired of ever being well again. I had bearing-down pains, backache, headache and pains in my abdomen, and tried Mrs. Pinkham's Compound as a last resort. The result was astonishing, and I have used it and advocated it ever since. It is a great boon to expectant mothers. I have often said that I should like to have its merits thrown on the sky with a search-light so that women would read and be convinced that there is a remedy for their sufferings. "My husband joins me in its praise. He has used it for kidney trouble and been entirely cured."—Mrs. E. A. Bishop, 1915 Atlantic Ave., Brooklyn, N. Y.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mining News

CALUMET & HECLA.

The decision of the court of appeals, favoring the Calumet & Heela in the controversy over the control of the Osceoia, has been or will be appealed from by the Bigelow interests while the Calumet & riccla seeks a dissolution restraining it from voting its holdings of the Osceola stock, says the Boston Financial News. In case the injunction is continued a long time will elapse before a final decision is reached, while if the inunction is refused there will be nothing to hinder the majority stock from contolling the company. The Caumet & Heela has been holding conferences with the Bigelow interests to determine it a basis could be reached on which other Bigelow properties might be taken over. So far nothing has come from these con-ferences and whether or not they will be renewed remains to be seen.

Calumet & Hecla's policy of acquiring additional properties is not a new one, but although the company has mined copper for forty-five years it was not until about 1900 that the management decided if their company was to continue to hold its pre-nier position of previous years, it would be necessary acquire new mineral land or mines. S Ith the passage of the Michigan law in 1905 which gave the company the right to buy other mineral lands and shares in other copper companies, Calumet & Hecla management began its

CHEAPER MARINE INSURANCE.

Lake Vesselmen Interested in a New Organization Formed at New York. He Will Meet a Deficit of One

New York, Feb. 15.—Representatives of lake steam vessel owners and the marine underwriters today formed an organization to safeguard lake navigation and put in operation a plan of inter-insurance. The new organization is the Lake Vessel Owners' association. It was formed to bring about a reduction of the present rates of marine insurance on vessels plying on the lakes.

BIG STRIPPING JOB AT GRANT PROPERTY

SHPEMING MINING MAN GIVES CONTRACT TO ST. PAUL CON-CERN FOR WORK AT MESABA RANGE MINE STARTED THREE

Captain Thomas Walters, manager of the Pittsburg & Lake Angeline and Jones & Laughlin's mining departments, who spent the greater part of last week on the Mesaba range, let a contract to Butler Bres. of St. Paul for the removal of 5,000,000 cubic yards of overburden from the ore deposit at the Grant mine at Buhl. It is expected that about one-fifth of this amount will be removed this year. Work is to be started as soon as possible. The overburden to be stripped covers an area of about fifteen acres and has an average depth of

The Jones & Laughlin company a ew weeks ago decided to abandon fur- (a) Baby Dearher experimenting with the grab and (b) Christmas Lullaby overhead carrier system of stripping and nining at the Grant property. The an- (a) Bluebird nouncement was no surprise to the (b) The Moon mining men who had watched its operations. The device was the most elab- (a) His Buttons are Marked "U. S." orate of its kind ever designed, but gave (b) An Indian Lullaby poor satisfaction from the start, though the management was hopeful that it (a) The Sandman. would eventually work satisfactorily. (b) The Elfman The dismantling of the plant has started and as soon as the equipment is out (a) The Daifodil of the way the stripping by means of the The Shell steam shovels will be commenced. It Junet is said that the attempt to apply the grab system has been most expensive. It is understood that close to half a million has been expended, and about three years of time have been lost. The system was installed in 1905.

The grab device was a clam-shell bucket of twenty-five tons capacity hung rom steel cables suspended from steel towers, each 150 feet high and travrsing tracks on either side of the prosed open pit, some 1,100 feet apart. Vith its load the bucket weighed nearfifty tons and was carried along the racks to the point where its contents were discharged. If the system had worked perfectly the cost of mining would have been considerably less than that of other range properties from which the overburden has been stripped

The principle of the grab system is asonable in theory, but in practice it failed utterly to work out as expected. The plant is said to have been expensive to maintain as there were frequent breakages during the time of its operation. The ground was refractory in character, giving the system a most severe test. The experiments at the Grant was not the the first test of the kind on the Mesaba. The clam-shell system (a) Stand by the Fiag was tried out at the old Hale mine, now (b) May the Hector, in the Biwabic district, in 1895, where it also proved a failure.

PICTURES ARE INSPIRING.

fond du Lac Paper Speaks Favorably of Sherbie Becker's Entertainment.

The newspapers in Wisconsin cities here Sherburn M. Beeker, former mayor Reading, selected Milwaukee, has given his lecture on taly and the recent earthquake, showing stereopticon and motion pictures of views in the stricken cities, speak highly of his entertainment. The Daily Fifth Ward Republican Club Affiliated ommonwealth of Fond du Lac gave him most favorable mention, also, a column review of the entertainment, from which

the following is taken: preciable. A series of motion pictures, with the league. evidently taken directly after the earth's isturbances, were strikingly awesome. Streets in Messina, Reggio and other Il-fated cities were shown piled deep ith debris while here and there soldiers lved in the ruins to liberate some vicm imprisoned beneath a mass of lum-

er, stone and iron. "The motion pictures also showed the ork being carried on by the Red Cross ciety, their improvised hospitals, etc. Surgeons were seen at work in the open air treating the injured, and litters, upon which the dead and injured were arried, were seen being taken through streets to the shipping places, to be moved to Naples. Impressive views ere those of the sea front where the tidal wave, 30 feet high, swept the shore carrying waste and ruin on its crest, also that of the American consulate, where Consul Arthur Cheney and his

wife were killed. "New views were shown of the Messina Straits revealing the formation of the coast line and the probable results of continued seismic shocks. Pictures' showing types of the inhabitants were also thrown upon the screen. The last series of moving pictures showed the American battleships arriving at Messina to relieve the suffering people. "As a whole the lecture was a descriptive treat arranged in such a manner as to give an audience information concerning the country from the earliest imes up to the eventful day last De-

FREE TO MEMBERS.

Woodmen Receiving Treatment at Sanitarium Will Be Under No Expense.

The members of the Modern Woodmen of America are showing much interest in sanitarium matters and a number of camps have already decided to contribute a sum sufficient to pay, build and cour a cottage. The Ishpeming camp was the first to take such action, but it is reported that some of the camps in the copper country will follow its example. At the last meeting of the execu-tive council it was decided that there shall be no charge for treatment. The only expense will be the trip to and from Colorado Springs, Colo.

country. The first colony of sixty tents 5% and Superior & Boston advanced from company is of large proportions and of v.ns opened for the reception of patients 16 1/2 to 18 1/8, both closing at the top. exceptional strength, the costumery is on the first of last month and practically all of them were filled before the end of the month. A second colony is now being erected, and most of them will oc eccupied as soon as completed, as it is reported from the head office at Rock Island that a number of applications for

admission to the sanitarium are on file. Each tent, or tent house, completely equipped, represents an expense of \$250. There are over 13,000 local camps of the society and in excess of 1,000,000 mem-It is expected that most of the tent houses to be erected in the future will be provided by camps and individual members. The members and camps some time ago voluntarily contributed to the senitarium fund over \$70,000, and at the last head camp a permanent tax of ten cents per riember per year was voted to

the support of the work, Pr. J. E. White, formerly of the Nordrash Ranch sanitarium, the medical director, is one of the lest tuberculosis physicians in the country. He has announced that rigid medical examination will be made in all cases of members applying for admission. He further states that only those consumptive members who are curable, or whose lives may be prolonged for a considerable length of time, will be admitted as patients.

The last official Woodmen reports show that during the years 1891-1907, inclusive, 14.5 per cent of the total morality, or 5,156 deaths, were charged to tuberculosis, and that 13.9 per cent of the total insurance losses in those years. or 89,065,000, resulted from this cause. As the mortality experience of the Woodmen society has been unusually favorable, being but 70 per cent of the expected at all ages under the National Fraternal congress table, a death rate of but | Nipissing 6.25 per 1,000-or but 4.98 per 1,000, if Mek D the experience of the first five member- | Silver Queen ship years be included—the heavier in Silver Leaf surance losses inflicted upon other so- Gold Cons 8,90 cieties experiencing a higher mortality Tonopah may be conservatively approximated.

TUBERCULAR CATTLE A MENACE TO HEALTH in sinking test wells in the sandy beach

MARQUETTE VETERINARY BE LIEVES PUBLIC UNDERRATES DANGER FROM THIS SOURCE.

EIGHT PER CENT INFECTED ty feet or less. Members of the wa-

Disease More Prevalent in This Locality Because of Rigid Laws Enacted in Wisconsin.

"While I have no desire to detract in be made to get a hole down to the necesany way from the very commendable fight that is being made throughout the thus far sunk have been about 150 feet United States against the great white from the shore. plague, tuberculosis, I do not believe that the fight will ever be a complete suc cess until more attention is paid to the disease in cattle," said Dr. A. W. Deadman, of this city, a few days ago. As Dr. Deadman has probably had as much actual experience with tuberculosis in the bovine family as any man in the upper peninsula, his words are of more DAVID HUFF HAS NOW BEEN MISSthan ordinary weight.

"The cattle of the upper peninsula are more generally affected with this disease than those of many other parts of the country," continued Dr. Dead-man. "This condition is due to many tubercular cattle being shipped into this region from Wisconsin, where a heroic of Marquette, who now lives at Rudyard, effort is being made to stamp out the Mica., accompanied by her son, Ernest disease. I know of a number of eases, Huff, was in Marquette over Sunday enwhere cattle that had been condemned deavering to get some trace of her son, by the Wisconsin veterinaries were David Huff, who has been missing over shipped into the upper peninsula and sold for healthy stock. My investigations weeks ago last Friday at Foard's saloon, lead me to believe that about eight per at the Chocolay location. He left the cent of the cattle in this section of the country are to some extent afflicted with William Koepp, near Mangum, for his saloon with the camp being operated by

destination. Since that time nothing has "One great difficulty met with by been heard of Huff and conjecture as the veterinary is that the state does not to what has become of him has covered pay for cattle which are killed by the authorities. If the state would pay Mrs. Huff and her son Ernest searched the cattle are worth the officials the roads between Chocolay and the a wide range would be able to co-operate with the Keepp emp, over Saturday and Sunday, stockmen to a greater extent. Cattle without coming on any clue that would that we condemn are often rushed to the indicate that Huff had become lost in sausage factory, where the owners ob- the snow, and the inquiries they made tain at least a fraction of what they failed to disclose any information in re-

Hard to Detect the Disease.

"This is a very serious problem. Some of the infected cattle are apparently in a healthy condition, and only a man with much experience can detect the disease. For this reason I am bitterly he had been drinking somewhat, but it disease. For this reason I am bitterly lisease. For this reason I am bitterly poposed to the bill now pending in the egislature, which would make it easier for beginners to become veterinaries and for beginners to become veterinaries and synduct tuberculosis tests under authoropposed to the bill now pending in the for beginners to become veterinaries and conduct tuberculosis tests under author- key in one of his pockets. He didn't amined last Friday showed no external leave Foard's place until between five fishing laws was then taken up and a ity from the state. One cow that I ex-

Huff was on his way from town to the

north of lighthouse point, under authority from the city water board, for MARQUETTE SPORTSMEN WOULD the purpose of ascertaining the practicability of obtaining pure water from the lake by filtration. Several holes PROHIBIT KILLING OF DEER IN U. P. FOR THAT TIME. have already been sunk east of the ice house, on the strip of land owned by the city, but in every case so far rock has been encountered at a depth of twen-

sary to go down about forty feet below the level of the lake without striking rock, before a fair test of the sand fil tered water can be made. It now looks Of Fish and Fisheries on the Great as if the prevalence of rock will make Lakes-Other Recommendations it impossible to test the sand filtration Made at Meeting Last Night. plan on the city property adjoining lighthouse point. It is expected that the

A fairly well attended meeting of the hunters and fishermen of this city was sary depth in that location. The holes held at the hose house last evening, at which a committee of five was appointed to attend and represent the sportsmen of this city at the gathering of upper peninsula sportsmen, to be held at the court house today. This committee consists of Timothy Maney, John R. Gordon, NOT EXPLAINED Sam Mitchell, Fred Schultheis and James

FEDERAL

FOR FIVE YEARS

CONTROL

J. Donovan, and they were instructed to se their best efforts toward securing a closed season on deer for the next five years in the upper peninsula, and also oward having the state request the inited States government to assume control of the fish and fisheries of the

lreat Lakes. Dr. A. W. Deadman was chosen chairian of the meeting and James J. Dono an, secretary. The chairman opened the principal subject of discussion by stating is reasons for desiring a closed deer season. This sentiment met with general favor, although one or two preferred that the number of deer be limited to one and the season be made earlier in the fall and of shorter duration. The chief reasons advocated for a closed season were that unless such action was speed ly taken, the deer would soon be ex-

terminated as had been the case with buffaloes, and that the additional number of closed counties in the lower peninsula would mean a larger slaughter than ever in this region. A motion favoring a closed season was finally put to a vote, and carried unanimously The committee was then instructed to

work for a closed season for Marquette county in case that the upper pennasula convention today would not recommend a closed season for the entire peninsula, In case that neither of these propositions met with the favor of the convention to be held today, the committee was instructed to work for the best restrictive recommendations possible, and, in any case, to strive to have the whole upper peninsula stand as a unit in whateve recommendations were made.

As to Fishing Laws,

The question of amendments to the and six o'clock, his mother said yes- motion was made to recommend the evidence of the disease, but an examination showed unmistakable signs of its presence in an aggravated form.
