Candidates at Iron River-

The following candidates have been nominated by the Taxpayers' party of Iron River, Iron county: President, Arthur W. Quirt; clerk, James B. Henley; treasurer, A. J. Pohland; assessor, Edward Scott; trustees, Geo. L. Woodworth, William Marolf, James Long, William Moss.

Mail Carrier Accused-

Angus Matheson, for some time a mail arrier at Sault Ste. Marie appeared of his own free will before the United States commissioner there, John A. Colwell, to answer to the charge of tampering with the mails. The hearing was set for the afternoon of Wednesday. March 10. Bonds for \$500 were furnished with Jeremiah Moher as security. The harge against Matheson is that he unlawfully and fraudulently embezzled certain letters entrusted to him which were intended to be conveyed by mails and did abstract therefrom \$13 and appropriated the same to his own use.

Drank Gasolene for Pop-

Finding a pop bottle partly filled, and being thirsty at the time, Lloyd LeClair, Hermansville, Menominee county drank the contents without investigating, and his carelessness nearly cost him his life. Instead of containing pop, the bottle held gasolene. The young man was taken ill and a doctor was summoned. Strong emetics and a stomach pump were used and, after a half hour's treatment, the victim was put to bed. Although his condition was critical for a few hours he pulled through and is now as well as ever. According to the physician, LeClair drank enough gasolene to cause death in fifteen minutes. GROWTH OF NEW YORK CITY.

According to the estimate of the health department, the population of New York city is now 4,422,685. The city thus contains half a million more people than were in the United States when the constitution was adopted. Its population is greater than that of Ohio or of the four New England states, Massachusetts, Connecticut, Rhode Island and Vermont, It has a larger population than England under the great Elizabeth. It is six times the size numerically of Paris under the Grand Monarque, four times as big as London when George III was king more than four times greater than Rome under Augustus. You Are Invited to Visit This Place.

This is a view of the laboratory in Lynn, Mass., in which Lydia E. Pinkham's Vegetable Compound is made. There is a sign 5 feet long and 24 feet wide attached, permanently,

to the front of the main building which reads as follows: Public inspection invited - from 8 A.M. to 4 P.M.

-Lydia E. Pinkham Medicine Co. What does this sign mean?

It means that public inspection of the laboratory and methods of doing business is honestly desired. It means that there is nothing about the Pinkham business which is not "open and above-board."

It means that a permanent invitation is extended to anyone to come and verify the statements made in the advertisements of Lydia E. Pinkham's Vegetable Compound.

Is Lydia E. Pinkham's Vegetable Compound made exclusively from roots and herbs?

Come and See for Yourself. Do the women of America continually use as much of it as we are told?

Come and See for Yourself. Was there ever such a person as Lydia E. Pinkham, and is there any Mrs. Pinkham now to whom sick women are asked to write?

Come and See for Yourself. Is the vast private correspondence with sick women conducted by women only, and are the letters kept strictly confidential?

Come and See for Yourself. Have they really got letters from more than a million women? Come and See for Yourself.

Have they proof that Lydia E. Pinkham's Vegetable Compound has cured thousands of these women?

Come and See for Yourself.

This advertisement is only for doubters. The great army of women who know from their own personal experience that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for female ills will still go on using and being benefited by it; but the poor doubting, suffering woman must, for her own sake, be taught confidence, for she also might just as well regain her health.

Especially is this demonstrated in the careful buying of brushes of every description, in the buying of perfumes, the buying of toilet articles and preparations, the buying of drug sundries, such as sponges, chamois skins, rubber goods and a so the buying of goods which constitute the many different side lines which we handle.

It will be a pleasure for us to supply you with all your drug store

You will never have reason to complain of our service.

IMMENSE THRONG ATTENDED THE PUBLIC RECEPTION AT THE BUILDING LAST NIGHT.

### ARTISTIC AND WELL EQUIPPED

Visitors Highly Pleased With the Structure and Its Equipment-Short Pregram Given,

The Guild hall was opened to the pub lie last evening under most auspicious circumstances. An immense crowd was present and not only the assembly room, but the whole building was filled, almost to its capacity. The crowd was delighted with the beautiful appearance of the interior of the edifice, and its extensive and varied equipment.

By 8:30 o'clock the assembly room was packed with people seeking to hear the three speakers of the evening. Rev. Bates G. Burt presided and in his openmade two years ago.

### Interior Is Beautiful.

The interior of the Guild hall from top to bottom is artistic and beautiful, in addition to being well adapted to the purposes for which it is intended, from a utilitarian standpoint. As one enters from the High street entrance, he is ushered into a vestibule, on the left of which is the office, on the right the stairs to the reading room in the basement, and in front the large assembly room with a commodious and handsome stage.

Directly above the assembly room is the gymnasium, which is fully equipped with all the apparatus ordinarily found in such an institution. This room was a paradise for the small boys last evening and, unhampered by any rules, they made the best possible use of their opportunity to try the different exercising e

The pool is lin with white tile, with porcelain fini and was filled with Lake Superior water clear as a crystal. The room is finished in white, and is one of the most artistic rooms of the building.

The bowling alleys, billiard and pool rooms and reading room are in the base. There are two bowling alleys, finished and polished in first-class shape and equipped with Backus pin setters and a loop-the-loop return for the balls. There is one billiard and one pool table,

### WILL BE CHANGED.

### U. of M. Athletic Board Hopes to Prevent Recurrence of "M" Scandal,

That the athletic rules of the Uni versity of Michigan are to be changed so as to avoid a recurrence of the scandal, because of the failure of Primeau, Place," by which name the same shall of Marquette, and Brennan, of L'Anse, to receive "M's" for football, is the statement made by the Detroit Free Press, in an Ann Arbor dispatch. We quote as

Unless the present plans of the new Athletic association constitution committee fail, Michigan is likely never again to be confronted with such a scandal as attended the awarding of football "M's" last fall. At the close of the season it was considered certain that goods, new silks, embroideries and dress Father says: "Say, mother, can't you Brennan would receive the varsity letter, trimmings are now being shown at The make us some more of those fine doughns, besides taking part in nearly all of Bee Hive. the minor games, he played a large part of the second half of the Pennsy game, (11-10-tf)
